

LAWS SUBMITTED TO PLUG INCOME TAX LEAKS

Congress Tie-Up Is Threatened By Farm Bloc

Members Assert Wage-Hour Measure
Will Be Blocked Unless Crop
Loan Bill To Be Considered

WASHINGTON, Aug. 5 (AP)—The wage and hour bill—passed by the senate and approved by the house labor committee—ran up against opposition today from members of the house farm bloc.

They said they would try to tie up the measure in the rules committee unless they win their objective, consideration of a bill to resume general crop loans.

Chairman Norton (D-NJ) of the house labor committee, which agreed late yesterday to recommend the revised wage-hour bill, said he had been informed by Chairman O'Connor (D-NY) of the rules committee that no obstacles will be raised.

She said she expected the bill would be granted a special rule Monday which would permit the house to begin debating it Tuesday. O'Connor, however, told reporters

he could not predict what the committee would do. He said he would be in New York during the weekend and did not expect to return until Tuesday.

The wage-hour bill came out of the labor committee stripped of the drastic Wood amendment, which would have permitted the proposed labor standards board to fix minimum wages as high as 70 cents an hour and a work week as short as 35 hours.

In its revised form, the bill re-

Rail Strike Fears Are Lessened

Wage Increase Brings
Peace With Non-Op-
erating Groups

CLEVELAND, Aug. 5 (AP)—Threats of a strike of more than a million railroad employees diminished today.

A five cents an hour wage increase announced in Washington brought peace between the nation's carriers and 800,000 non-operating employees, since ratification was held only a formality.

Still confronting the railroads, however, was the vote of 350,000 members of five operating brotherhoods, authorizing a strike to enforce demands for 20 per cent raises.

Settlement of the dispute with non-operating brotherhoods, such as clerks and shopmen, was announced last night by the national mediation board. These 14 carriers authorized early this week a strike if their demands were rejected.

Had Asked 20 Pct.

Otto S. Beyer of the board said the raise represented an increase of between 8 1/2 to 8 3/4 per cent. The non-operating employees, like the operating employees, had demanded 20 per cent increases.

First discussion of the operating brotherhoods' demands will be held in Chicago Aug. 11.

Beyer has been attempting to work out a settlement in accordance with the railway labor act. The board will propose arbitration if he fails. If either side rejects arbitration, a presidentially appointed fact-finding board must study the case and make a report before the men can strike.

The increase for the 14 non-operating crafts, who announced 88 per cent of their members had authorized a strike, amounts to \$98,000,000 annually for the nation's class one railways on the basis of 1936 operations. The mediation board said in halting the settlement as "disposed of in a reasonable, just and far-sighted manner."

China Girding To Fight 'To The Death'

US Population Pre-
pared To Evacuate
Danger Zones

NANKING, China, Aug. 6 (Friday) (AP)—Official foreign circles in the central Chinese capital heard today that the Japanese army had informed diplomats at Tientsin that Sino-Japanese hostilities would be pushed to the banks of the Yellow river.

SHANGHAI, Aug. 5 (AP)—United States consular officials in all China organized the whole American population to guard their lives and get them out of possible danger zones if necessary, while China's generalissimo, Chiang Kai-Shek, suddenly proclaimed:

"We will fight to the death."

By night fall the month-old undeclared war brought these developments:

1. Columns of motorized Japanese troops rolled north to halt a Chinese advance from behind China's Great Wall.

2. Generalissimo Chiang Kai-Shek, China's "strong man" leader of the central government, flew to Kuling to tell the nation's chief educators that China will resist the Japanese advance "even though it means fighting inadequately prepared and to the death."

3. American missionaries, recalling previous Japanese conquests, feared Japanese domination of north China would wipe out missionary and education work representing millions of dollars in American investments, and years of the hardest toil.

4. Consul General Clarence Gauss at Shanghai directed formation of an American residents' emergency committee to safeguard lives of 4,000 Americans there. Similar committees were started by the 2,000 Americans in Chekiang and Anhwei provinces, and by officials elsewhere.

5. General Chiang met with his ministers and army commanders in emergency session at Nanking after his flight to Kuling.

6. In Tokyo the Japanese war minister told parliament he is preparing further "punitive measures" against Chinese, and warned the Japanese diet to be prepared for an emergency session to provide additional funds.

Automobiles carried Japanese troops through Peiping to the north and along hilly roads toward heavily fortified Chinese positions at Nankow pass. The Japanese reported their warplanes were bombing Chinese troops near Kailan to halt all advance into Hopeh.

As the columns moved through Peiping, two American photographers were beaten over the head and jostled to prevent them from taking pictures. They were Sheridan Fahnestock, 23-year-old New Yorker, and Bonny Powell, news ree cameraman.

Two other columns marched steadily closer to central government troops south of the ancient Dragon capital.

On the Shanghai American emergency committee were specialists in communication, transportation, food supply, medicine, housing and registration. Gauss said for the committee's long established formula all American communities in China have for use whenever needed.

17 MINERS INJURED

PRINCETON, B. C., Aug. 5 (Canadian Press)—Seventeen men were injured, one perhaps fatally, when a hoist cage in the Copper Mountain mine plunged 400 feet to the bottom of its shaft late yesterday.

Biggs, government resident mine inspector here, blamed the accident on a broken bolt in the clutch of the hoisting machinery.

PLANE CRASHES IN BARNYARD OF HOME

Two planes collided in mid-air over Los Angeles with the above results. The ships narrowly missed this house. Two persons were killed; two critically hurt.

FD Promises A Veto For Sugar Bill

Congressmen Agree
To Stand Pat On
Original Measure

WASHINGTON, Aug. 5 (AP)—Congressional sugar bloc leaders agreed at a caucus today to stand pat on a sugar control bill President Roosevelt notified house leaders he would veto.

Representative Coffey (D-Neb.), spokesman for the meeting, said approximately 50 representatives and senators from sugar producing and refining states were "unanimous" in their decision to go ahead with the legislation.

The bill was scheduled for house debate today.

The sugar bloc meeting followed announcement by Chairman Jones (D-Tex) of the house agriculture committee that the president had told him he would veto the bill if passed in its present form.

The administration objects to a provision restricting refined sugar imports from Hawaii and Puerto Rico.

Coffey said those who attended the meeting "expressed resentment" at the chief executive's announced decision.

"It's a question whether congress is to do the legislating," he declared.

The senate finance committee agreed to begin hearings on the sugar measure Saturday.

Chairman Jones earlier had said he would offer an amendment to eliminate the restrictive provision.

He said the president told him he felt that inasmuch as the islands were under the American flag they should not be restricted on refining their sugar.

RANGER COPS FOURTH RACE AND THE CUP

ABOARD COAST GUARD CUTTER ARGO, Off Newport, R. I., Aug. 5 (AP)—Capt. G. M. H. and holding it safe over the rest of the 30-mile triangular course, Harold S. Vanderbilt's sleek, snub-nosed Ranger today led T. M. S. M. Sopwith's Endeavour II, the British challenger, across the finish line by approximately half a mile to score her fourth and deciding victory in defense of the America's Cup.

The senate was marking another milestone today. It was exactly six months ago that President Roosevelt proposed his controversial court reorganization bill.

It was possible the senate would observe the anniversary by taking up the new lower court procedure bill which was substituted for the rejected Roosevelt measure. Leaders agreed to debate it as soon as the Wagner housing bill was passed.

Those two measures and the wage-hour bill constituted the bulk of the remaining program outlined by administration chieftains. Also on the tentative schedule were bills dealing with sugar quotas, crop insurance, tax loopholes and deficiency appropriations.

In many respects, the pending legislation was of far greater significance than that enacted during the first seven months of the session.

Auto Prices Are To Be Advanced

Higher Wages And
Material Costs
Cited By Sloan

DETROIT, Aug. 5 (AP)—The Cadillac-LaSalle division of General Motors corporation announced today price increases on its models effective at the close of business Aug. 14. The increases range from \$60 on the LaSalle to \$100 on the Cadillac.

Oldsmobile prices also will be advanced by \$45 effective Monday, Aug. 9.

The increases announced by these General Motors divisions followed by a little more than a week the statement of Alfred P. Sloan, Jr., chairman of the corporation, that a trend toward higher wages and material costs, with "a certain decrease in labor efficiency," must naturally "reflect itself in a substantial increase in selling prices."

The Ford Motor company already has increased the prices of many of its models \$15 to \$35.

INQUIRY OPENED INTO
FATAL PLANE CRASH

WASHINGTON, Aug. 5 (AP)—A three-man board of inquiry under took today to find what caused the destruction of the Pan American-Grace airliner which plummeted into the sea off Panama.

The crash on Monday night apparently killed 14 persons.

Meager evidence gleaned from bits of wreckage pointed to the belief the occupants of the plane had little or no warning.

The plane apparently crashed into the sea at high speed, in the opinion of the Canal Zone's naval commandant.

CHINA GETS LOAN

LONDON, Aug. 5 (AP)—China, through her finance minister, has reached agreement in principle in London on a \$100,000,000 loan to his country that may be worked wide in scope, a Chinese embassy spokesman said today.

It would be secured by Chinese customs revenue and probably be raised by general subscription. The spokesman said that interest in the project had been shown in the United States, France and Belgium, as well as in Great Britain.

The announcement was made after Dr. H. H. Kung, the finance minister, had left for Paris. Details were not worked out, it was stated.

DIES IN EL PASO

C. E. Courson returned Thursday morning from El Paso, where he was called on account of the death of his son-in-law, W. F. Rainey, 41, who died suddenly from a heart attack Tuesday morning at his home in Big Spring, where he was employed as a top and body mechanic. He left here in 1935, going to El Paso. He is survived by his wife, one daughter and three sons. Funeral services were held Wednesday afternoon in El Paso.

WOMAN DIES

CORRICANA, Aug. 5 (AP)—Funeral services for Mrs. H. L. Dickson, 69, who died at the home of a niece, Mrs. H. A. Juergensen, here last night, will be held at 10 o'clock Friday morning at the Presbyterian church in Pittsburgh, Texas. Mrs. Dickson had been a resident of Dallas for 30 years or more.

Heavy Nitro Shot Slated For Test

Increased Production
Sought At Moore
No. 1 Harding

One of the heaviest shots to be given an oil test in this area was set to go off at 3:10 p. m. Thursday in the Moore Bros. corporation No. 1 J. B. Harding, outpost test seven miles southwest of town.

The test, a western extension to the small Harding pool, was loaded with 1,200 quarts of nitroglycerin.

Bottomed at 2,454 feet in time, the No. 1 Harding previously showed very little response to a 1,500 gallon acid treatment in pumping slightly less than three barrels an hour.

It is located 2,310 feet from the north line and 330 feet from the west line of section 19-33-1s, T&P, and is three quarters of a mile southwest of the nearest producer, the Continental No. 1 J. B. Harding, light producer.

Three other wildcat tests in that area are now drilling ahead, two of them nearing the completion depth.

HELD UNDER BAIL ON
EXTORTION CHARGE

NEW YORK, Aug. 5 (AP)—A Bronx janitor, Wilber Rothar, 42, was held under \$20,000 bail today for allegedly attempting to extort \$2,000 from George Palmer Putnam, publisher and husband of Amelia Earhart, by telling of having found the missing aviatrix in mid-Pacific and holding her aboard an arms smuggling ship.

Rothar was arrested yesterday by federal agents and confessed his story was a hoax. After Putnam gave him \$1,000 cash and a check for \$1,000 for information concerning the missing flier, Rothar's story was that he was a member of the crew of an arms smuggling ship which he claimed found Miss Earhart injured in mid-Pacific.

SANTONE MAYOR MAY
SEEK GOVERNORSHIP

SAN ANTONIO, Aug. 5 (AP)—Mayor C. K. Quinn is strongly considering entering the 1938 race for Texas governor to succeed James V. Allred, the San Antonio executive revealed today.

Quinn said he spent the past two days in Houston conferring with political friends who are urging him to make the gubernatorial race.

He has not definitely made up his mind to be a candidate, but is giving the matter serious consideration, the mayor declared.

SEARCH UNDERWAY
FOR INSTRUCTOR

AUSTIN, Aug. 5 (AP)—State and city police continued a search today for Charles Ely Lankford, 26-year-old instructor in bacteriology at the University of Texas, missing since Monday.

His father, Eugene Lankford of Cisco, an attorney, and Dr. E. C. Sharp, University of Texas professor, were reported planning to go to nearby towns in an effort to locate the young man.

A brother, Eugene, Jr., with whom Charles roomed, said the latter had complained of a severe headache shortly before he disappeared. The instructor was last seen by friends on a street car.

Showers In Some Areas

Only Temporary Relief
From Heat, However, Is Provided

By the Associated Press

Summer heat lost a few skirmishes in Texas overnight but the weatherman had no sign that temperatures would be more comfortable today.

In the wake of the year's weather came cooling rains to a wide area of the Panhandle, to Abilene and to Beaumont. The Panhandle precipitation extended generally from Amarillo to Texline, Higgins and Quanah.

A brief blow in Big Spring late Wednesday night brought more than rain, only a light sprinkle falling. It was insufficient for a gauge. It resulted, however, in temporarily lower temperatures.

Hail With Rain

A touch of elemental violence accompanied the Beaumont rain. High winds and lightning damaged small buildings and hindered electric service. Hail came with the two-inch rain.

At Abilene a thunderstorm dumped 35 inch of rain to pull temperatures from a season's high of 105 degrees to 76 degrees. San Antonio, where the mercury rose to 101, reported no showers on its outskirts.

Wichita Falls, shimmering in record-breaking 108 degree weather, took solace of a sort in a brief storm which forced down temperatures 27 degrees.

Other records: Record 105 at Temple; Gainesville and Corsicana, 104; Fort Worth, 104.4; Waco, 102, a record; Dallas, 101; Austin, 102; Lubbock, 103; San Angelo and Amarillo, 100.

FUNDS SET ASIDE FOR
ROAD MAINTENANCE

AUSTIN, Aug. 5 (AP)—The highway commission today earmarked \$6,992,376 for maintenance of approximately 21,000 miles of thoroughfares in the state's road system for the fiscal year beginning Sept. 1.

The fund will be allotted to 25 divisions ranging from \$188,230 to the Childress division to \$368,850 to the Tyler division.

In addition, the officials allotted \$778,226 to eliminate traffic hazards by stabilizing shoulders adjacent to pavement, widen narrow structures and slopes and fill deep ditches.

Seven per cent of the maintenance item was ordered held back for traffic service including erection and painting of signs, marking and guard rails and 2 per cent was allotted to extraordinary expenditures caused by floods, fires and other unanticipated conditions.

Statutes Due To Bring In 100 Million

Would Impose Higher
Levy On Personal
Holding Companies

WASHINGTON, Aug. 5 (AP)—A senate-house tax committee recommended today drastic increases in domestic personal holding company taxes as one means of preventing tax avoidance.

Eight-Point Program

The committee, proposing for enactment at this session a \$100,000,000 eight-point program of legislation to plug income tax leaks, also recommended an innovation in the taxation of foreign personal holding companies.

It suggested that undistributed net income of such companies should be figured in the gross income of the American owners of the companies just as if it actually had been distributed to them.

Treasury officials, who cooperated with the joint committee in making an investigation which brought in the names of many prominent citizens, estimated roughly that enactment of the committee's recommendations would mean an increase of \$100,000,000 in federal revenues.

The committee did its work under the chairmanship of Representative Doughton (D-NC), who also is chairman of the house ways and means committee. A member of the joint group was Senator Harrison (D-Miss), chairman of the senate finance committee.

Stiffer Rates

In addition to the domestic and foreign personal holding company proposals, the committee recommended stiffer tax treatment for the following methods used by wealthy persons to reduce their taxes: Incorporated yachts and country estates, incorporation of personal talents (such as acting), artificial deductions for interest and business expense, multi-trusts, non-resident aliens, and artificial deductions for losses from sales of exchanges of property.

The committee report to the house and senate followed an investigation extending over several weeks and undertaken at the request of President Roosevelt. The president said in a message to congress that a comparatively small number of wealthy persons was reducing tax payments by methods which he considered should be checked by legislation.

The committee proposed to lift the surtaxes on domestic personal holding corporations to 65 per cent on the undistributed net income not in excess of \$20,000 and 75 per cent on the amount above \$20,000.

The present rates are eight to 48 per cent.

"No low minimum rate can be seen TAX LAWS, Page 8, Col. 2

Says Texas Ban On
Oil Sales Could
Deter Warfare

SULPHUR SPRINGS, Aug. 5 (AP)—Col. Ernest O. Thompson of the Texas railroad commission said today Texas could help prevent future wars of the world by cutting off oil sales to belligerent nations.

The commissioner, who recently returned from Europe where he attended the world petroleum conference, was the principal speaker at a "war veterans' day" program at an old settlers' reunion here.

"The old saying that the army travels on its stomach is no more," he said. "The army is mobile and must have oil to travel, Texas, which produces under protest one-fourth of the world's oil supply, can help prevent wars by refusing to sell petroleum to any warring nation."

LAMESA MAN NAMED
ON RETAIL BOARD

ST. LOUIS, Aug. 5 (AP)—E. K. Van Aernum of Corsett, Ark., was re-elected president of the American Retailers' association last night.

The new board of directors includes: W. B. Collins, Lamesa, Tex.

READING AND WRITING

By John Selby

"SOUND WAVES: THEIR SHAPE AND SPEED," by Dayton Clarence Miller; (Macmillan; \$3.75).

There is much food for thought in Dayton Clarence Miller's "Sound Waves: Their Shape and Speed," although the reader must dig it out for himself. Dr. Dayton helps him very little.

Thirty-seven years ago the question of whether or not the tone of a gold flute was superior to that of a flute made of some less material arose. A good deal of thought was expended devising a means of answering the question, and by the time this was done the investigators found they had answered more questions, and more important questions, than they had contemplated originally.

The phonodisk was devised, for one thing, this is a machine which makes a visible record of a sound wave, thus enabling a scientist (after collecting enough records for his controls) to study and classify the tone of musical instruments (or noises) at leisure. Francis Bacon once remarked that "the nature of sounds hath in some sort been enquired, as far as concerneth music, but the nature of sound in general hath been superficially observed. It is one of the subtlest pieces of nature."

Because sound is, as Kelvin says, "a function of one variable" the phonodisk records make one of the best means of studying timbre. Volume depends on the energy involved, and pitch upon the number of vibrations per second. Timbre is represented by the shape of the wave, probably the most interesting characteristic of sound and one graphically illustrated by the phonodisk records.

All this led to the accurate plotting of tone quality, and later to the accurate determination of the speed of sound in another set of experiments carried out at Sandy Hook with a degree of governmental cooperation. The speed of sound is not the constant we were taught in school, and some of the factors determining its variations are curious in the extreme. Dr. Miller's long section on this problem is perhaps of greater scientific importance than the section dealing more directly with musical tone, but for this reader its interest is considerably less.

The name America was first applied to the new world in a map by Waldseemüller in 1507.

"Scant Raiment" Is Theme Of Paris Fall Fashion Show

Off With The Old—Unless It Is Very Old And On With The New Provided There Is Not Much Of It

PARIS, Aug. 5 (AP)—Startled fashion experts today greeted an exhibition of styles for fall that was literally and frankly a revelation of how scant clothes may be and still be clothes.

It was off with the old—unless it was very old—and on with the new—provided there was not too much of it. "Scant raiment" was officially the theme of the Schiaparelli show and one stylist, glancing pointedly at a daring decole evening gown, summed up the trend.

"Primarily clothes have become an index to the beauty and vitality of the body."

Evening gowns were cut revealingly low in front or molded to the bust with startling frankness but there were other surprises even more exotic in a show that had for its keynote:

"Away with all inhibitions." There were hats named "foolish virgin" and "suppressed desire," and there were hats of felt shaped like high-heeled shoes, turned upside down and cocked over lady's ear.

There were buttons that were shiny fiddles, birds and twinkling stars. And pockets were not pockets but inviting cupid's bow lips of red tinsel embroidery.

Colors were riotous. The day silhouette was kept straight and narrow for suits and dresses but not as straight as one evening creation which fitted straight over the body like a tube.

One cocktail "gown" was a pair of bright red wool trousers to be worn with a lime jacket.

Report Of Grand Lodge And Business Session Constitutes Meeting

A report from the delegates to grand lodge was heard Wednesday afternoon at a meeting of the Firemen Ladies to B. of L. P. and E. at the W.O.W. hall.

Mrs. Anna Wilson presided during the business hour, at which time the resignation of Mrs. Dora Shoulte as treasurer, was accepted. Miss Lendora Rose was elected to fill that place. Installation was held immediately.

Mrs. John McTier of El Paso and Mrs. Virginia Baker of Pleasant were visitors for afternoon. Members present included Misses Ruth Arnold, Mamie Wilson, Lendora Rose, Marvin Louis Davis and Junior Johnson, Mrs. Ira Johnson, Mrs. Anna Wilson, Mrs. Maise McTier, Mrs. Ada Arnold, Mrs. Susie Wilson, Mrs. Gladys Stusser, Mrs. Florence Rose, Mrs. Virgie Adams, Mrs. Pattie Manion, Mrs. Iva Johnson, Mrs. Velma Baker, Mrs. Hatfield Orr, Mrs. Myrtle Orr, Mrs. Irma Varnell, Mrs. Laura Burrows, Mrs. Alice Mims and Mrs. Minnie Barker.

RETURN FROM CALIFORNIA
Mrs. Tom Ashley, Mrs. Harry Lester, Mrs. Joe Earnest and Mrs. A. A. Williams of Hobbs, N. M., returned last evening from a three weeks' trip to California. The party visited various interesting places en route to San Francisco.

CALENDAR
Of Tomorrow's Meetings
The Ladies Auxiliary of B. of L. P. at 1 o'clock in the I. O. O. F. hall. Mrs. Mary Melton will be principle speaker.

Mrs. J. Campbell Named Honoree For Shower

The home of Mrs. James E. Brigham, 1605 South Gregg, was the scene of a gift party Wednesday afternoon when she and Mrs. Jack Reed shared honors in entertaining for Mrs. J. Wayne Campbell.

Games and contests were diversions for the guests and Mrs. Reed and Mrs. Ray Smith received prizes, in turn presenting them to the honoree. Mrs. Campbell was also in receipt of a basket of gifts presented in a unique manner.

A color note of lavender and green predominated throughout the party accessories and was repeated in a refreshment plate.

The guest list included Mrs. Hugh Hendrix, Mrs. John Barbee, Mrs. G. C. Graves, Mrs. Bonnie Allen, Mrs. Housewright, Mrs. Harvey Hooser, Mrs. Parker, Mrs. Ruth Noah, Mrs. H. W. Yates, Mrs. E. D. Willbanks, Mrs. C. Alonzo Bickley, Mrs. Clyde E. Thomas, Mrs. W. A. Langley, Mrs. Ray Smith, Mrs. Helen Acuff, Mrs. Denver Yates, Mrs. Imogene Runyan McMahon, Mrs. Neil Barnaby, Mrs. Jim Pardue, Mrs. Clayton McClellan, Mrs. H. A. McClellan, Mrs. LeVerne Lewis, and Misses Mary Burns, Nellie Puckett, Jennie Fay Felton, Sadie Puckett, Veda Robinson and Anne Martin.

21 Philatheas Meet For Luncheon And Business Hour

Twenty-one members of the Philatheas Class of the First Methodist Sunday School gathered at 11 o'clock Wednesday at the church for a business meeting and covered dish luncheon.

The group of Mrs. Charles Watson acted as hostess. Mrs. Carl Williams led an interesting devotional, which followed a brief business discussion.

Present for the affair were Mrs. Tracy Roberts, Mrs. Tom Buckner, Mrs. C. A. Bickley, Mrs. Ralph Toler, Mrs. A. M. McLeod, Mrs. A. W. Ellington, Mrs. E. L. Garrett, Mrs. Hal Davis, Mrs. Robert Hill, Mrs. Tommy Layne, Mrs. C. N. Weaver, Mrs. R. L. Pritchett, Mrs. A. W. Lowmire, Mrs. O. O. Gregg, Mrs. Charles Watson, Mrs. J. A. Pruitt, Mrs. W. K. Edwards, Mrs. Carl Williams, Mrs. B. C. Barron, Mrs. R. L. Vapor and Miss Frances Ferguson.

Visitors Entertained With Waffle Supper; Miss Felton Hostess

Miss Jennie Faye Felton entertained Wednesday evening with a waffle supper, naming as honorees Miss Hazel Jane Dale of San Antonio and Miss Nancy Blanche Lochridge of Fort Worth.

Elbow H.D. Club To Be Represented By Nine Members

Nine members of the Elbow Home Demonstration club registered for the Women's Encampment which will be held soon, at a meeting of the club in the school house recently.

Following a brief business session Mrs. Bob Asbury was in charge of the recreation hour, at which time games were played and songs were sung.

The following answered roll call: Mrs. M. F. Bryant, Mrs. Jack McKinnon, Mrs. Nora Gregory, Mrs. Asbury, Mrs. Rose Hill, Mrs. Virgil Williamson, Mrs. Duke Lipscomb.

The club decided to disband through the month of August.

How To Rouge As Crowsfeet Begin To Show

AP Feature Service Writer
Purple eye-shadow and platinum nail polish won't fool the public into thinking madame is 30 if she is 45.

But if madame would pay attention to the application of creams and conservative cosmetics she'd be more successful in preserving

WARNING IN ROUGE
Older Women Should Stay Within the Dots

the illusion of youth.

Helena Rubinstein has a few tips for the woman who finds she's getting crows feet and a suspicious-looking double chin.

First: Pick a cleansing cream with special lubricating qualities. The skin tends to dry with the years.

Second: An older woman needs a tissue cream. She uses it around the eyes, to counteract crows feet and puffiness. She slaps it vigorously all over her face, for muscle stimulation.

Third: She particularly watches her neck, eyes and hands, for they age most rapidly.

Massage the neck downward. All movements on the neck are down; on the face, up. Crepe throat will disappear under vigorous massage.

Rub tissue cream around the eyes, moving the tips of the fingers in an outward motion below the eyes, and an inward motion above the eyes.

Because eyes get smaller with age, and the lids droop, take hold of the skin above the eyebrows and push upward. A few motions like this morning and night will enlarge the eyes, and relieve drooping muscles.

Older women take care of fading hair, but they neglect fading eyebrows and eyelashes, says the specialist, who judges the age of a woman by brows and lashes. So use a darker eyebrow pencil than the one your daughter wields.

Wear gloves with cream on them at night, to get rid of wrinkled hands. A grand exercise for chasing wrinkles is to rub the cream on the fingers, and then push down on each finger, exactly as though you were putting gloves on. Hold the hands high while exercising them, and repeat the exercise nightly.

For an all-round face-lifting, Mme. Rubinstein suggests a beautiful

DIZZY SPELLS

How To Help The Passing Of Women's Most Critical Years —40 to 50

"I suffered from dizziness for years and decided to try Kruschen. Of course I know it is my age that is the cause of it all. I am 47 but I have been told this and that would help me so I tried all I could but still had the same old dizziness. Now I'm on my 3rd jar of Kruschen and don't get dizzy nearly so often. I used to get so muddled at times. Now I feel different—altogether much clearer. There must be hundreds of women like me. They must stick to Kruschen every morning."

Mrs. L. B. N., August 24, 1936.
Kruschen salts is sold the world over—millions of jars a year. If you want to help avoid headaches, dizziness, another spells, weakness, fits of depression—if you want to keep feeling more healthy and happy—and about your work—take a third teaspoonful of Kruschen salts in a glass of hot water first thing every morning.

Take it for 30 days and if not joyfully satisfied get your money back.

PERSONALLY SPEAKING

Mrs. Harold Lindley and son, Lovick Clark, are guests here in the home of Mrs. E. W. Potter.

Mr. and Mrs. D. E. Stephens of Midland were Wednesday evening guests in the home of Mr. and Mrs. W. V. Rose.

L. A. Talley left today for Monahan where he will be joined in a few days by Mrs. Talley and family in making their home.

They have been residing at 710 West Park during their stay in Big Spring.

Cleo Cogswell, clerk at the Settles hotel, left today on a two weeks' vacation. He will spend the night with friends in Cisco and from there will go to Bedford, Ind., where he will visit with relatives.

Mr. and Mrs. M. M. Edwards and children have returned from a fishing trip on the Concho.

Mrs. Lua James and S. T. James of Baird, who have been guests in the home of their daughter and sister, Mrs. O. E. Wolfe of 1410 Runnels, are spending a few days in Crane. They will return here after a trip to Carlsbad and other interesting points. Mr. Wolfe and children accompanied them to Crane and returned home last evening.

Miss Emily Bradley is visiting in Dallas for a few days with relatives.

B. T. Cowper, director of the dental division of Johnson & Johnson, New Brunswick, N. J., is the guest of his brother, Dr. R. B. G. Cowper, and wife for a few days.

Mr. and Mrs. D. M. McKinney are visiting in McKinney.

Mrs. W. M. Dehlinger and Mrs. Jack Norris are at home after a several days visit with relatives and friends in El Paso.

dren accompanied them to Crane and returned home last evening.

Miss Emily Bradley is visiting in Dallas for a few days with relatives.

B. T. Cowper, director of the dental division of Johnson & Johnson, New Brunswick, N. J., is the guest of his brother, Dr. R. B. G. Cowper, and wife for a few days.

Mr. and Mrs. D. M. McKinney are visiting in McKinney.

Mrs. W. M. Dehlinger and Mrs. Jack Norris are at home after a several days visit with relatives and friends in El Paso.

Cleo Cogswell, clerk at the Settles hotel, left today on a two weeks' vacation. He will spend the night with friends in Cisco and from there will go to Bedford, Ind., where he will visit with relatives.

M'NALLEN STORE OPENING AT 16th AND SCURRY STREETS

Big Spring's newest grocery and market, the A. J. McNallen store at 16th and Scurry streets, is open for business.

Under the management of B. McCranie, who has been active in the grocery trade here, the new store is offering complete lines of staple and fancy groceries, cakes and confections, meats, and a heavy stock of fruits, vegetables, melons and other produce.

The building, erected by R. E. Burns especially for the McNallen store, is of the open-air front display type. It covers a 50 foot front, all of which is made open by convertible glass panels, affording a complete and unobstructed view of the concern's varied stock.

Arrangement is so effected as to permit the customer a free range in selecting his own purchases, and yet it is compact enough to make shopping an easy matter.

In addition the store is manned by an adequate staff to give shoppers immediate assistance in the location of any item.

The meat counter is operated by Ira Gregory and a complete line of prepared, cured and fresh meats together with butter, cheese and other articles in the meat division are available at all times.

The A. J. McNallen store offers a large parking area and full time service at any hour of the day.

Demos Planning A Harmony Dinner

WASHINGTON, Aug. 5 (AP)—Democratic senators will get together next week around a banquet table in an informal attempt to restore party harmony, shattered by the court reorganization dispute and the wage-hour bill.

They invited President Roosevelt and Vice-President Garner to be their guests at a stag dinner. It was arranged by a committee representing both sides in the recent court fight.

Senators, describing the party as spontaneous, said they hoped the president can attend and will speak. He is expected to reply to the invitation in a day or two.

Garner, who was active in bringing about the truce that resulted in shelving the court bill, was chosen to preside. The only democrat not invited was Senator Hattie Caraway of Arkansas.

"I never yet have gone to a stag party," she commented.

ONE KILLED, MANY INJURED IN BLAST

PATERSON, N. J., Aug. 5 (AP)—At least one man was killed and two more were injured today when an explosion demolished a building at a brake lining manufacturing plant and shook houses for blocks around.

The one known victim was John Laugherty, a workman. Several of the injured were in critical condition.

The blast occurred in a 1-1/2-story building of the World Best Corporation and was believed to have originated in a gas oven in the moulding department.

Company officials expressed belief all its employees were accounted for and that none besides Laugherty, 23-year-old father of three small children, was killed.

Police and firemen dug through the piles of bricks in search for other victims but found none.

WARNS THAT SCHOOLS NEED MORE MONEY

SAN ANTONIO, Aug. 5 (AP)—L. A. Woods, superintendent of public instruction, left a dire prediction today with 200 educators gathered in convention here; unless the legislature appropriates more money the state's 4,500 school buses will be stalled by New Years.

He backed his prediction to a demand the legislature pass a school equalization bill this fall to provide more funds. He suggested the teachers and schoolmen present help the cause by "educating" the people and legislature or school needs.

Woods criticized "special interests" for inducing the automatic tax board to cut the school tax to seven cents. He said the tax reduction chiefly benefitted large property owners.

United States forest rangers have discarded their traditional Stetsons for a more civilian type of hat.

Brave Mother Cat Combats Snake

HOLLYWOOD, Aug. 5 (AP)—Pooka was a house cat, but she had the heart of a lion.

She mothered her three blue-eyed kittens in a box outside the hillside home of her mistress, Yvonne Pelletier.

Yesterday a rattlesnake, deadly enemy of cats, appeared.

Pooka snarled, her ruff raised, and blocked the way to her moving family. The snake glided forward.

Then Pooka sprang, her claws tearing and twisting. Full in the face, she received the poisoned fangs.

The crippled snake sidled off. Pooka was in agony.

Police came and killed the snake. But the three kittens had lost their mother.

R. L. Powell, Chevrolet coupe.

CASINGHEAD GASOLINE AND CARBON BLACK PRODUCTION UP

AUSTIN, Aug. 5 (AP)—The railroad commission reported today a large increase in the production of casinghead gasoline and carbon black in Texas this year.

Production of gasoline in June, 1937, was 2,016,031 gallons daily, which compared with 1,783,277 for the same period in 1936.

Carbon black production in June of this year averaged 1,268,982 pounds daily compared with 885,232 in June of last year.

C. V. Terrell, commission chairman, interpreted the figures on casinghead gasoline, made from gas produced incident to production of oil, as indication such gas, often a source of great waste, was being utilized in increasing degree.

ALLRED WELCOMED BY OFFICIAL MEXICO

MEXICO CITY, Aug. 5 (AP)—Official Mexico spread the welcome mat today for Governor James V. Allred.

Bands, escorts of police and Mexican cowboys plus government dignitaries were on hand to greet the second Texas chief executive to visit the Mexican capital in 101 years of Texas independence.

The governor's arrival at 7:45 a. m., was the start of 10 gay days of entertainment with the Mexican government as official host. Allred, his wife, son and mother-in-law, Mrs. C. M. Miller of Wichita Falls, will be housed in the American embassy during their stay.

The host government assigned officials of the foreign relations and federal district departments to extend greetings.

New Development By AP In Field Of Wirephoto Reception

NEW YORK, Aug. 5 (AP)—Development of a wirephoto receiving set forty inches high—about the size of a radio cabinet—was announced today by the Associated Press.

The newest technical step forward in the science of transmitting pictures by wire, it was conceived and built by Associated Press technicians under the direction of W. J. McCambridge, assistant general manager, and H. M. Biele, chief engineer.

The machine has been fully tested and will be put into operation immediately, McCambridge said.

He pictured the new receiver as a development comparable to the introduction more than a year ago of the portable wirephoto transmitter, which doubled Associated Press picture coverage by wire at the time. Twenty-eight portables are now used in the nation.

Like the portable transmitter the receiver will operate on any telephone circuit and on any available electric current.

The radical design of the receiver makes possible its small size and the elimination of the control "bay."

McCambridge said that quality of pictures received in tests compares favorably with the regular wirephotos received on the large stationary machines—with certain advantages in favor of the smaller machine.

Pictures as large as a full page or a double truck when needed may be delivered under the new setup to member papers participating. The time consumed in transmission of any picture when the rearrangement is effected will be eight minutes. Scanning lines are imperceptible to the eye even in the largest double page pictures.

The new receiver doubles the field of wirephoto, since it may be installed in cities connected with the wirephoto network through telephone call operation.

It took eight months of intensive experimentation to produce the novel picture receiver. Its creators said that the largest picture laboratory in the country

FACE CHARGES OF BEER VIOLATION

HOUSTON, Aug. 5 (AP)—Charges of unlawful participation in retail beer distribution were filed in county court at law today against Herbert S. Autrey, president of the Galveston-Houston Breweries; his father, Robert L. Autrey, a large stockholder in the brewery, and three employees of the company.

The charges were based on a Texas law prohibiting a brewer or brewery from giving anything of value to a retail beer dealer, except for advertising purposes, in return for concession.

IT WAS A MULE

HOLLYWOOD, Aug. 5 (AP)—Blood in his eye and gall in his heart, Walter (Death Valley) Scotty was in town today on crutches.

"They've been saying a donkey did this to me," growled Scotty. "Donkey my eye! It was a full grown mule, I'll have you know."

made an examination of the pictures produced and pronounced them superior in tone quality and in tone numbers to the present system.

STRIKE ENDS, TRUCKS IN PHILADELPHIA ON MOVE AGAIN

PHILADELPHIA, Aug. 5 (AP)—Trucks began to move normally throughout Philadelphia today.

The flare-up last night a few hours after the city-wide strike had been announced as ended except in the case of companies under contract to haul goods for the Great Atlantic & Pacific Tea company, subsidized and everywhere business houses were replenishing their supplies.

Mayor S. Davis Wilson, who proclaimed a "state of emergency" yesterday, said that proclamation would remain in effect until he was reasonably certain all danger of further violence was passed.

Police convoys escorted A. & P. contract hauling trucks today.

Sixty-two men were arrested in the disorder during the night.

MARION RECOVERING

LOS ANGELES, Aug. 5 (AP)—Recovering rapidly from an appendectomy, Marion Talley, radio singer, said today she will debut for home in Kansas within a few days. She will return here next month to resume her radio work.

TO TRIAL FRIDAY IN TRIPLE SLAYING

LOS ANGELES, Aug. 5 (AP)—Albert Dyer, stoop-shouldered school crossing guard, goes on trial for his life tomorrow, charged with the brutal murder of three little Ingleswood girls.

William Simpson, chief deputy district attorney, has announced he will demand the death penalty. He is prepared to offer Dyer's confession to attacking and killing the children, which the defendant repeated and then repudiated several times.

DELINQUENT TAXES BEING COLLECTED AT STANTON

STANTON, Aug. 5—More than \$2,000 has been collected in delinquent school taxes in a drive now under way which is sponsored by the Stanton school board, a recent report shows. An effort is being made to clear up school tax records and delinquencies and hear members report that results are being obtained in the drive.

J. N. Woody is president of the board.

Pay Matches Price Rise—
Earnings Meet Costs Of Living

MINNEAPOLIS, July 5.—Though food prices have resumed their rise, spurring sharply the first two weeks of July, and rental rates continue to climb, the average family's pay envelope has definitely outstripped the cost of living during the past year; the jump in earnings has been most pronounced during the first half of 1937, according to a study of family buying power made here.

An average U. S. family earning and spending \$120 monthly in 1933 had to pay \$141.82 to maintain the same living standards in June, 1937, but meanwhile the pay envelope has expanded to \$147.33 according to the study. A year ago it cost \$135.58 to maintain the living standards which \$120 would support at

WOMAN SETS RECORD
IN GAFFING TARPON

CORPUS CHRISTI, Aug. 5 (UP)—Too bad they didn't bite like this for President Roosevelt.

Mrs. Grady Kinsolving, winner of the Dorothy Fair Cup at the Texas Tarpon Rodeo, set a record for women fishermen at Port Aransas when she brought to gaff four tarpons in three and one-half hours.

Starting at 7:30 a. m., Mrs. Kinsolving hooked twelve tarpon by 10:30, eight of them fighting free and four being beaten and gaffed. Two measured more than five feet, one four feet, 10 inches and the fourth better than six feet. The first three were landed on light tackle.

Campers in the national forests are required to get a permit before building fires.

For 200 years Europe obtained most of its sugar from Madeira and the Canary Islands.

Larger Grass
Land Area
Is Urged

Federal Agronomists
Visit World To
Study Plants

WASHINGTON, Aug. 5 (UP)—The department of agriculture is laying the groundwork for return of millions of acres of farm lands to grasses through study of this neglected plant at home and abroad.

Agronomists have been sent to all parts of the world to study grasses in their native land. Seeds and plants of hundreds of different varieties have been brought back and are being tested in experimental farms.

"The importance of grass to the agriculture of the United States is appreciated more now than at any time in the history of the country," P. V. Cardon, pasture specialist of the department, told the Fourth International Grassland Congress at Aberystwyth, Wales, in July.

Take Melon Thumper's Advice—
All's Swell If It Goes Plunk

FORT WORTH, Aug. 5 (UP)—Watermelon thumpers need a strong forefinger and a keen sense of hearing to tell whether a melon is green, half-green, ripe or over-ripe.

That is the analysis of Phil Handler, who coaches the professional Chicago Cardinal football team in winter and has an outdoor watermelon "garden" in summer.

For 15 years, Handler has made his summertime expenses by thumping watermelons and serving them in slices. Several times he has bought melons which should have been picked two weeks later—or a week earlier. Once he spent a summer's profits by buying 200 luscious looking watermelons that turned out to be pie-melons—unfit to serve in slices.

But from his years of experience Handler has developed the following formula:

Thump with the forefinger—the middle finger is unreliable.

If you thump and the melon goes "plunk"—it's green. If it goes "plank" it may be half-ripe. If the sound is "plunk" with a slight roll to it, buy—because there is a ripe melon ready to eat.

If you thump and the sound is "garrumph"—a groan—let it go. The subject is over-ripe.

As in all rules, there are exceptions and fine points. The finest point is to thump with the forefinger and thump hard. A half-hearted thump won't do.

Another connoisseur's advantage is in knowing the kind of watermelons. Some of them have tight rinds and won't give a "plunk" when they are ready to eat. Such melons should be eaten when "plunk" answers your thump.

Handler started in the watermelon business when he was 13—the year he bought the pie-melons. After that he graduated from high school; became an all-Southwest conference football guard at Texas Christian university in 1929;

Girl, 11, Regrets
Her Marriage

POPULAR BLUFF, Mo., Aug. 5 (UP)—Mary Frances Grimes, 11, sobbed to authorities today she was "sorry" she married 67-year-old William H. Grimes, because she "didn't love anyone but her doll."

Grimes, held in Butler county jail on charges of perjury in falsifying the girl's age and of contributing to the delinquency of a minor, told Sheriff Edgar Hammons:

"If they'll just leave me alone, I'll give the girl a good home and make her a good husband."

Mary Frances was married to Grimes, a cotton picker, last week.

Grimes told the sheriff he had

been living the past two weeks at the home of the girl's parents. Her father, J. J. Alexander, consented to the marriage, he said.

The sheriff said Grimes gave Mary Frances' age as 18 when he obtained the marriage license.

COUNTERFEITING AND
SMUGGLING DECLINE

WASHINGTON, Aug. 5 (UP)—Counterfeiting and smuggling are on the decline, the treasury said today, but check forging is increasing.

Counterfeit notes "turned over to the secret service by 'innocent takers' totaled only \$487,643 during the fiscal year ended July 1. This was one-third under the previous year's total.

Arrests for making or passing counterfeit notes or coins totaled 1,247 last year, a decrease of 329. Arrests for check forging, however, increased from 579 in 1935-36 to 1,215 last year.

Broader Program Followed

Although the interest in pasture plants is no lessening new varieties, there is no lessening of interest in the problems of management and soil fertility, Cardon said. Rather, he said, scientists are engaged in perfecting a grass breeding technique that will integrate and clarify broad objectives in all interdependent fields of activity.

As guide-posts in the breeding program, Cardon listed eight specific objectives: More dependable supplies of viable seed, production of grasses which will help to extend the summer grazing period, grasses resistant to disease, determination of competitive values of important species, study of quick recovery values, tolerance to extreme soil conditions, palatability and nutritive values.

Grass breeding also is expected to fill another gap—the summer period when most common grasses stop growing. Agronomists hope to find or develop pasture plants which, because they mature later or because of some other quality, are able to thrive when other grasses are dormant.

Solution Not Definite

"Varying soil and climatic conditions preclude any single solution to pasture problems in the United States," Cardon said. "Preliminary studies show that grass growing well in two or more regions may be both palatable and nutritive in one but in another may be lacking in both.

"We are laboring under no illusions as to the magnitude of the tasks and the difficulties that it involves. We know that grass breeding must be fortified with other organized efforts. In the United States this means that agricultural extension agents, crop improvement associations, seed certification officials, growers co-operatives and the seed trade generally must work with the grass breeder just as he worked with the cereal breeder.

"As improved strains become available they will pass through well defined and carefully protected channels into utilization over a wide area as possible. On such co-ordination of effort can adequate supplies of good seed be maintained," Cardon said.

**Navy To Ask Funds
For Four Ships**

WASHINGTON, Aug. 5 (UP)—The navy intends to ask congress at its next session for funds to build two new battleships and two light cruisers.

This was announced today by Admiral William D. Leahy, chief of naval operations, in response to questions at his press conference as to the navy's future building program.

Leahy, discussing other phases of the ship building program, said also that mechanical defects discovered in the almost completed aircraft carrier Yorktown probably would keep the vessel from joining the fleet for an additional year.

Regarding the battleship program, Leahy pointed out that two superdreadnaughts of 35,000 tons each were authorized at this session of congress. Their keels are to be laid down this year.

Leahy said the navy's objective was to build to the limit provided in the old London naval limitation treaty which expired last year and from that point to follow a continuing program for the replacement of vessels as they become over age.

**WHO IS TO GET THE
GOVERNOR'S PAY?**

AUSTIN, Aug. 5 (UP)—A new angle to state finances, always a pressing matter, was studied today in the capitol, especially in the gubernatorial offices.

It involved the question of whether Acting Governor Walter F. Woodul and Governor James V. Alfred were both to receive the governor's salary for the interval the latter was vacationing in Mexico.

There was a time when the money didn't amount to so much. That was when the governor was paid \$4,000 a year. But since the salary was boosted to \$12,000 two years ago it had become a matter of more concern.

Woodul took the position that since he was doing the governor's work he was entitled to his pay, now about \$32 a day. Being in Mexico, Governor Alfred couldn't express his view.

However, it was believed by most impartial observers that the constitution had taken care of Governor Alfred beyond all question. It provides he shall receive \$12,000 a year.

Baked Cucumber Boats Used To Garnish Roast Leg Of Lamb

By MARTHA LOGAN

There was a story my father used to tell that always got a laugh. It seems that one day father gave him some cucumbers from the garden. Later he asked him how he liked the cucumbers. He said, "We no like 'em. We cook 'em and cook 'em, but we no like 'em." The story has lost its zest nowadays because we have found that cucumbers really are good if properly cooked. Perhaps they will always be most prized for their crisp, crunchy texture and cooling flavor, but in the recipe for baked cucumber boats with which we garnish the roast leg of lamb, we are careful to not cook the boats enough to spoil their characteristic texture.

Lamb and cucumbers complement each other to an especially fine degree. Of course, you have discovered that lamb is a good buy right now. Thrifty housewives are serving roast leg, loin, or shoulder of lamb, or broiled chops these days. Then too there are delicious casserole dishes using the less demanded lamb cuts. We want to give you several recipes for using lamb but first of all here's the recipe for roast leg of lamb with cucumber boats filled with fresh lima beans. And remember—these attractive little boats are something especially good as well as being a practical service suggestion.

To roast leg of lamb—first of all get good quality lamb. We no longer remove the thin paper-like covering called the "fell" because in correctly dressed lamb this fell has no strong flavor, but it does act as a protection to keep the roast in shape and to hold in the juices. Sprinkle with salt. Place skin side down on a rack in a dripping pan. If you have a meat thermometer, insert the thermometer until the bulb reaches the center of the fleshiest part, not touching either bone or fat. Bake in a slow oven (350 degrees F.) about 30 to 35 minutes per pound or until the roast meat thermometer registers 175 degrees F. for medium done, or 180 degrees F. for a well done roast of lamb.

When you remove the roast from the oven to make the gravy, increase the heat to 375 degrees F. and bake the cucumber boats which are made as follows: Pare cucumbers, cut in half lengthwise, and scoop out seeds. Fill with parboiled green lima beans. Dot with butter, salt, pepper, and bake in a moderate (375 degrees F.) oven until cucumbers are tender—15 to 20 minutes. Note: If canned lima beans are used, sprinkle with chopped parsley or mint before serving.

Ground Lamb Patties
1 pound ground lamb,
1-2 cup bread crumbs,
1 tablespoon chopped onion.

Good Companions

BREAD: I want to thank all of you for helping me keep folks well nourished.

Darby's Bakery

"Home Of Sally Ann Bread"

BREAD is the Good Companion of Other Foods

Seasoning.
8 slices bacon.
Combine lamb, crumbs, onion and seasoning. Form into 1-inch thick patties. Fasten bacon strips around each patty using skewers or picks. Bake in hot oven or pan broil about 20 minutes. Serve with minted apple slices.

Lamb on Casserole
2 pounds lamb shoulder.
Flour for dredging,
12 small onions,
4 potatoes,
2 carrots,
1 cup string beans,
1 teaspoon Worcestershire sauce,
2 cups meat stock.

Have meat cut in 1-inch cubes. Dredge with flour and brown in hot lard. Season with salt and pepper and place in casserole. Also pile in casserole, whole small onions, sliced carrots, sliced potatoes, and cooked green beans. Add 4 tablespoons flour to fat in pan where meat was browned, and stir until the flour is browned. Add 2 cups meat stock and let cook until thickened. Season with Worcestershire sauce. Pour this over meat and vegetables and cook in a moderate oven until meat and vegetables are done, about forty minutes.

Ginners Attending Abilene Cotton Grading School

Five ginners from this area are enrolled in the cotton classing school being conducted this and next week at Abilene by Texas Technological college under the auspices of the Texas Ginners association.

Basic purpose of the school is to afford ginners a fairly professional knowledge of cotton grade. In an effort to put an end to "hog-ground" policy of buying staple. The "hog-ground" policy involves a flat price for all classes and staples, good or bad, short or long.

E. M. Heard, head of the Tech textile department, is in charge of the school and is assisted by L. Luckey and Lewis Myers, supervisors of government cotton classes; G. A. Wall, Southern Cotton company; J. O. Green, Goshoe Gin company; J. B. Acton of Anderson-Clayton company; and E. L. Dorn, West Texas Cotton Growers association.

Two class periods are held each day. A \$10 tuition fee is charged. Attending from this area are Sidney Smith and J. W. Phillips, Jr., Big Spring; H. C. Powell, Knott; Claude Davis, Tarzan, and J. W. Middleton, Ackerly.

NEW AIR LINE IS BEING STUDIED

WASHINGTON, Aug. 5 (AP)—Senator Kenneth McKellar of Tennessee and postoffice department officials had joined today in expressing hope that a proposed new air mail line between Kansas City and Tampa could be established within the next few months. The line would connect Kansas City, Springfield, Mo., Memphis, Birmingham and Montgomery, Ala., Tallahassee and Tampa, Fla.

Harlee Branch, second assistant postmaster general in charge of air mail, said the proposed line "has a good deal of merit." Among routes on the department tentative program, Branch said, are Brownsville, Tex., to Houston and Houston to San Antonio.

Farm Bloc

(Continued From Page 1)

tained the senate-approved sections prohibiting the board from fixing minimum wages higher than 40 cents an hour or a work week shorter than 40 hours.

At the behest of the American Federation of Labor, the committee struck from the bill a section giving the board supervision over wage-hour sections of the Walsh-Henley government contracts act. It inserted others prohibiting the board from lowering wage rates fixed by collective bargaining or from fixing wages below the "prevailing rate."

The committee retained its own amendments to prohibit shipment in interstate commerce of imports produced in violation of the bill's provisions. It eliminated a senate-approved exemption of employees of local retailers, except commission salesmen.

CROP CONTROL FIRST

WASHINGTON, Aug. 5 (AP)—A group of southern congressmen said after a White House conference today President Roosevelt had reiterated his stand that crop control legislation should precede a renewal of crop loans.

But one conference, Representative Ford (D-Miss) said the investigation indicated he would investigate the possibility of making loans on basic commodities if democratic congressional leaders gave him definite assurance that a crop control bill would be the first matter to be introduced at the next session of congress in January.

Ford said the delegation proposed a general commodity loan program similar to the 1936 act. But he added there was no discussion of whether loans on cotton, for example, should be ten cents, eleven cents or twelve cents.

Tax Laws

(Continued From Page 1)

provided," the report said, "without enabling wealthy individuals to escape substantial taxes through the formation of multiple personal holding companies."

New Method
With regard to taxing undistributed net income for foreign personal holding companies as though already distributed to American owners, the committee said it was recommending "a method of taxation which is a departure from any previously used with respect to corporate income."

The committee proposed that tax laws should be revised to encourage dissolution of foreign personal holding firms "as promptly as possible."

Asserting it found no justification for incorporation of yachts and country estates, the committee suggested that they be handled by revising the definition of personal holding corporations.

It also urged that deductions from gross income should not be allowed for expenses of operation and maintenance of property owned or operated by a holding company to the extent the expenses exceed rent or compensation, that the property was necessary to the conduct of the business or that it was held in the course of business carried on for profit.

TOM MOONEY ILL

SAN RAFAEL, Calif., Aug. 5 (AP)—Fifty-four-year-old Tom Mooney, San Quentin's most widely-known prisoner, was seriously ill in the prison hospital today with a gall bladder infection.

Govt. Forces
Defending
Road LinkClaim Victory Over
Moorish Forces In
Highway Skirmish

By the Associated Press
Spanish government forces, rallying to defend the Madrid-Valencia "life line" road, took defense positions north of a highway to Cuenca and announced they had won a skirmish from insurgent Moorish forces.

A government communique said hand-to-hand fighting, 10 miles southwest of Teruel, base of the insurgent Aragon drive, ended with the bodies of turbaned Moors strewn over the battlefield.

In northern Spain insurgents reported gains in a decisive defeat of their enemy near Cuero.

The insurgent gunboat Dato was reported to have sunk a small trawler of unidentified nationality as it attempted to run the blockade of government-held Santander on the Bay of Biscay.

Evacuation of Santander, reduced to serious straits by crowding and lack of food, was reported under consideration.

Valencia government officials, reporting efforts made to preserve Spain's art treasures, said two chests of jewelry, securities and art objects, believed lost in transfer at Barcelona, had been recovered.

The "hands-off-Spain" committee of nations was suddenly called together in London by its chairman, Lord Plymouth. Hope that the Soviet Union would agree to belligerent rights for insurgents in exchange for simultaneous withdrawal of volunteers were dim, however.

The war will continue to "the bitter end," Julio Alvarez Del Vayo, former Spanish minister, said at Valencia. Mediation is "impossible," he contended.

German Teachers Instructed To
Teach Children 'The Truth'
About Jews In History

BERLIN, Aug. 5 (AP)—German school teachers received instructions today to weave into boys' and girls' classwork on the three R's the idea that "we can expect no mercy" from any "Jewish god."

Opening the fall semester, teachers found in a new anti-Jewish handbook the suggestion that if they were alert they might find a chance to bring out "the truth about the Jews" in history, biology, nature study and anthropology.

The handbook was written by Fritz Fink, a Nurnberg school counselor, and published with a foreword by Julius Streicher, Germany's chief anti-Semite.

Fink declared there is a good opportunity for "conscientious" teachers to stress the subject wherever the name "Jehovah" (Jahweh) appears in history, literature or current events.

He urged them to call upon individual pupils for brief summaries of the "attributes" of the Jewish god. Such a recitation, it was explained, might follow these lines: "Jahweh is unjust. He divides the peoples into chosen and rejected. He is ferocious. He demands the extermination of the non-Jewish

peoples. He shows affection for only one nation, and that the worst and most degenerate of them all."

Teachers should cull from the Bible, Fink said, passages in which Jahweh commands his chosen people to "oppress and exterminate the non-Jews." The handbook explained these passages might be used effectively as blackboard exercises.

He also urged teachers to call upon individual pupils for brief summaries of the "attributes" of the Jewish god. Such a recitation, it was explained, might follow these lines: "Jahweh is unjust. He divides the peoples into chosen and rejected. He is ferocious. He demands the extermination of the non-Jewish

peoples. He shows affection for only one nation, and that the worst and most degenerate of them all."

FOURTH FATALITY

CHICAGO, Aug. 5 (AP)—Mrs. Helen Neff, 63, of Logansport Ind., died in a hospital at Chicago Heights today, the fourth fatality resulting from an automobile collision in suburban Bloom township last Tuesday.

The three other persons killed were:
The Rev. John Neff, 40, San Angelo, Tex., priest and son of Mrs. Neff; his housekeeper, Mrs. Rose Figener, 50, and his uncle, John Harrington, 60, of Chicago.

TO WIDEN BRIDGES

AUSTIN, Aug. 5 (AP)—Bridges on highway 1 through Hunt county will be widened at an estimated cost of \$6,000.

The highway commission allotted that sum today after recinding a previous appropriation of \$21,800, explaining it was advantageous to widen the structure more than was planned originally.

KILLED IN TYPHOON

KEIJO, Korea, Aug. 5 (AP)—One hundred thirty persons were killed and 18 injured today by a typhoon which caused widespread property damage in northern Korea.

Mrs. Jack Franklin has been confined to her home due to illness.

Pays Less, Thrills Greater—

Crime Fighting Different Nowadays

SANTA ANNA, Aug. 5 (AP)—The pay was less but the thrills were greater.

Thus an old Texas ranger, bred in the days when the southwest was fighting to establish law and order, sizes up his former career in comparison with modern crime fighting.

"Nowadays," says John Menges of Menard, who came here with 10 other former rangers for their annual reunion, "it is often necessary to determine first the motive of a crime and identify the culprit" before officers can set out after their man.

"Today they have to broadcast descriptions, explain the criminal's habits and describe his associates—after which the fugitive may be caught hundreds of miles from the crime scene."

In the old days, Menges said, things were man-to-man affairs. Strangers, easily spotted in the sparsely settled state, were under suspicion until they proved otherwise. "Where did you get your horse and what's your name?" was how Menges described it.

"Crime was dealt with on the spot," he added. "Justice was swift—there weren't many judges or lawyers around. Many trials were held and sentence imposed

by the posse or the ranger band which caught the criminal."

When the rangers of the 70's policed the state they got \$3 a day and each man fed his own horse. J. Allen Newton, 75, of Galveston, conceded "the law" had to fight crime on a wider front today, but said warring against murders, cattle thieving and fence cutting, in addition to Indian forays, was a lot more thrilling.

S. N. Sparks of Milburn, Okla., 87-year-old ranger, recounted the thrill of driving cattle through an Indian-infested country and getting a shot through his hat. Those kind of thrills are no more, he said with a proud sigh.

About half the honey produced in the United States is used in the baking and confectionary business.

Hiker Loses 20 Pounds
CLEVELAND (UP)—James Venesey, retired deputy police inspector, one of 48 to finish Bernarr McPadden's health derby walk, reported on his return that he hiked away 20 pounds of surplus flesh in the 325-mile trek from New York City to Danville, N. Y.

THE SPORTS PARADE

BY HANK HART

Big Spring will have two representatives on the football squad at New Mexico A. and M. Las Cruces, the coming season. Howard Schwartzbach will be finishing up his senior year and Louie Madison, co-captain of the Stars last fall, will enroll as a freshman.

The NM university is rated plenty strong this year due to the fact that they had only four lettermen graduating but they meet some tough competition, including the Texas College of Mines, among others.

Swatzy took part in the Christmas Day game against the Santa Barbara Junior College Broncos in a game that saw the Californians sweep from behind in the last five minutes of play to score the winning touchdown.

The Big Spring lad could have had two more years of eligibility but he chose to round out in summer school and will finish in the spring of '38. The New Mexicans were also on the trail of Jack Wilson but the husky guard hasn't finished his high school work and will enroll in Schreiner Institute at Kerrville.

A Las Cruces softball team grabbed up Howard and took him to El Paso where they won the Far West Texas tournament last month and earned the right to represent that city in the state meet to be held at Overton but Swatzy can't go. Incidentally, Jack Stevens, who pitched for the Cosden Oilers last season, was a member of one of the teams that fell for the Las Cruces.

Local sportsmen have started the surge toward the mountains. Elton Taylor and Jimmy Eason hunted up in the New Mexico mountains north of Santa Fe a few days ago and Taylor has already been promised one of the 100 licenses for elk hunting to be issued by that state for the approaching season.

Some of the "hottest" golf rivalry to be found in this city limits takes place at the local country club each week between the water and engineering departments of the city hall. Herb Whitney and E. W. Lowmire make up the team representing the H2O division while J. D. Stenbridge and B. J. McDaniel team up as the color bersers of the engineering department. If the quartet could ever settle the eternal argument as to who is the worst masher wielder they could qualify themselves for the Munny Golf leagues which will begin its schedule soon.

Billy Herman, ace Chicago Cub second baseman, has been up quite a bit longer than most people think. Billy, who is 28 years old, joined the Cubs in 1930, leaving the Louisville Colonels for the big leagues at the time. He was knocking the cover off the ball in American association play, hitting at a .366 clip when he joined the Bruins.

Cleaning the cuff: Harold Epps, Houston's sparkling outfielder, injured in a recent game by a pitched ball, is progressing rapidly. Several Beaumont ball players were in a train wreck last week, among them, Secory, who received slight injuries. What ever happened to Al Singer and Billy Petrolle, the once great lighter scrappers of their day? Sam Sain, who used to play a fair game of baseball around these parts, is still trying to make a go at the golfing game.

He's out at the country club until dark every afternoon... Lee Grissom, who is burning the big leagues up this year, will long be remembered in the Texas league. Lee used to be the "iron man" for the Fort Worth Cats but his weakness was his wildness. When asked why he never wound up, Lee would

MIKE JACOBS TAKES CHARGE OF MADISON SQ. GARDEN

Kilpatrick Gives Up Arena

Jim Johnson Is Ousted In Move By Promoter

NEW YORK, Aug. 5 (AP)—The varied destinies of the cauliflower industry passed today from the grip of Madison Square Garden which had held them since the reign of Tex Rickard, to Mike Jacobs, the man who paralyzed a brown bomber and a punch into the dictatorship of the fight game.

Jacobs, in leasing for two seasons the Garden and its outdoor arena, the big bowl in Long Island City, assumed Rickard's old past as the fight game's No. 1 promoter. He plans indoor boxing shows for the Garden this winter and next and outdoor fights at the bowl in 1938 and 1939.

Jacobs, a ticket-broker, learned the devious business methods of the fight game as Rickard's partner in the halcyon days of the million dollar gates and the 600 millionaires.

The shift in power from the Garden to Jacobs shows once more that the man who controls the heavyweight title, by far the richest in the industry, controls big money.

When Louis won the title from Braddock, Jacobs preferred on the stock market hit the top and he was ready to bargain with Colonel John Reed Kilpatrick, president of Madison Square Garden Corporation, for the use of the fight game's most famous arena.

Col. Kilpatrick gave business as the reason for the leasing of the Garden. "It means more money for us," said the colonel. "The Garden will collect a definite rental fee and a percentage on the fight gate promoted at the Eighth Avenue arena."

Sooner Grapplers Headline Meet

DALLAS, Aug. 5 (AP)—Noted grapplers of Oklahoma A. & M. bolstered by other entries from the Sooner state, were stand-out names today in the Pan-American games national invitational wrestling tournament starting here tomorrow night.

Coach E. C. Gallagher will bring three Olympic game performers in his squad of Oklahoma Aggies which includes Stanley Henson, national 145-pound collegiate champion; Ross Flood, national 134-pound collegiate titleholder; Joe McDaniel, national 118-pound A. A. U. and collegiate champion, and others.

Forty entries had been received today by J. T. Hooks, southwestern A. A. U. wrestling chairman. Hooks said he hoped to run off 15 bouts on Friday and Saturday nights.

Complete game rules will prevail, with decisions on take-downs rather than on time advantages. It will take five bad marks to eliminate any contestant. All matches will last 15 minutes unless a fall terminates the bout earlier.

replied that he had been so used to having men on the sacks that he'd forgotten how... The Texas Tech gridders play their first football game the second week in September against the Texas Mines which will probably make practice open any day now....

TWO TEXAS TEAMS CLASH IN DENVER TOURNAMENT

Bossox Begin To Look Like Real McCoy

Croninmen Move Within Game Of Second Place

By SID FEDEB
(Associated Press Sports Writer)
That big money that Tom Yawkey threw into the Boston Red Sox is talking again.

How long it can continue remains to be seen. The Sox probably will keep on surging until their series next week with the New York Yankees slaugherers, who are now coasting along on an eight-game lead. Then they'll go quietly back to sleep for a time, as usual.

Until then, however, the three-million dollar investment of Yawkey's is going to keep on doing a lot of damage among the loop's strong contenders. They haven't been beaten in nine starts. In their current home stand they have chalked up their longest winning streak under the Yawkey banner.

Former A's Shine

Big guns in this drive that has skyrocketed the Sox to a spot where they're flirting with second place have been four of Connie Mack's fancy-pied ex-Athletics—Eric McNair, Jimmy Foxx and Pinky Higgins with their bats, and Bob Grove with his baffling south-paw slants.

They started out the home stand by toppling the Browns in two out of three. Then they knocked the ears off the Tigers in three games and tied a fourth. At present they're working on the Indians with the same success. They made it three straight over the tribe yesterday with a doubleheader win, 8-6 and 6-5, as Foxx belted homers Nos. 27 and 28.

This twin win left them just a game back of the second-place White Sox, who learned first-hand again from the homer specialists, the Yanks that there's no come-back for a circuit clout. Bill Dickcyn belted one with the bases loaded and Lou Gehrig hammered his 23rd before a single by Jake Powell in the ninth broke up the game and gave the Yanks a 10-9 win, their third straight over the slipping Sox. The conquest boosted the Sox' league lead to eight full games.

The Giants cut their National League deficit to six games back of the Cubs by noosing out the Reds, 4-3. The Cubs lost a 2-1 heart-breaker to Lefty Lamaster and the Phillies.

The Dodgers pummeled the Pirates, 10-7. The Cardinals put on a ninth-inning five-run rally to beat the Reds, 7-6. The Tigers walked the Athletics, 11-7, and the Browns beat the Senators, 5-3.

San Antonio Edges Tulsa To Brink

By the Associated Press
Oklahoma City's hard-hitting Texas league paces showed Tulsa a notch closer to fourth position last night. The Indians vigorously applied the bat for three innings, got seven runs and coasted the rest of the way to win 7 to 4.

Steadily-winning San Antonio pulled within one percentage point of the Tulsa by whipping Galveston 6 to 2. The Missions scored all their runs in the fourth inning, after Eddie Cole, opposing hurler, was hit with a line drive.

Fort Worth gave Dallas a thorough licking in the only other league game. Hugh Shelley and Fred Frink of Fort Worth led the way to a 14-hit attack against three Dallas pitchers. The score was 8 to 1.

The Houston-Beaumont game was rained out.

Arkansas And A&M On Spot In Southwest

TCU Begins Season Against Ohio St., Rice Puzzle

By FELIX R. MCKNIGHT
DALLAS, Aug. 5 (AP)—Genuine grid fans, who merely tolerate baseball as a hot weather "filler," have just 31 more days before they shift from a hastily scanned box score to intensive study of the Southwest conference football scramble.

Eligibility lists have been issued, schedules released and now Johnny Q. Fan is wondering what the seven teams loaded with aerial magic can do with such intersectional foes as Ohio State, Fordham, Louisiana State, University of California at Los Angeles, Auburn, Mississippi State, Vanderbilt, Marquette, Oklahoma, Mississippi, Loyola of Los Angeles and University of San Francisco.

Will Arkansas university become the first in history to defend successfully a title? Will Texas A. & M.'s powerhouse make wise men or suckers out of experts who rate their pre-season favorites? Will D. X. Bible bring the University of Texas back into contention? Was Texas Christian, Sugar and Cotton Bowl kings, merely a "Sammy Baugh team?"

Answer those questions—without a bobble—and there's still room for argument as to which team can come through one of the nation's toughest leagues with the flag nailed to the masthead.

Hogs Intact

Bulk of the Arkansas Razorbacks, known for sufficient cause as "the passing team in the nation," will be back with Coach Fred Thomson. He has long-legged Jack Robbins, all-American candidate, Dwight Sloan and a bevy of backs to pitch planes to a pair of veteran senior ends, James Benton and "Red" Hamilton.

Bullish in the latter part of the 36 season, the Texas Aggies will, swivel-headed Dick Todd as their spearhead, are rated tops. Coach Homer Norton is looking for a good kicker and a tackle to fill in the spot left vacant by John Whitfield. Otherwise he is set with all-American Joe Routt at a guard and

Americans in the line and backfield to tear open holes for Todd, who didn't disappoint last year as 15 conference's most publicized sophomore.

Coach D. X. Bible isn't predicting he'll pull rabbits from a silk top at the University of Texas, emphasizing that he lacks an experienced field general and speed in the line, but Longhorn supporters are backing the man who guided Nebraska to six Big Six pennants in eight years. He will have Hugh Wolfe, all-conference fullback who may be converted to a quarterback; speedy Jack Atchison and Henry Hittmeyer as backfield veterans, along with Jeffery Bryan, and Charlie Hulse, a couple of very clever soph ball toters.

Tough Schedule

Sans their "Blingin' Sam," the T. C. U. Horned Frogs, notoriously weak starters, must have all their cunning at hand for the season opener against Ohio State. Little Davey O'Brien will be in Baugh's old passing role, with sophomore Spud Taylor as another capable sharpshooter behind the 215-pound average line. Coach Leo Meyer has an end problem, four seniors are being graduated, but he hopes to solve it with Slim Mabry and Russell Henschel, two juniors adept at pass snatching.

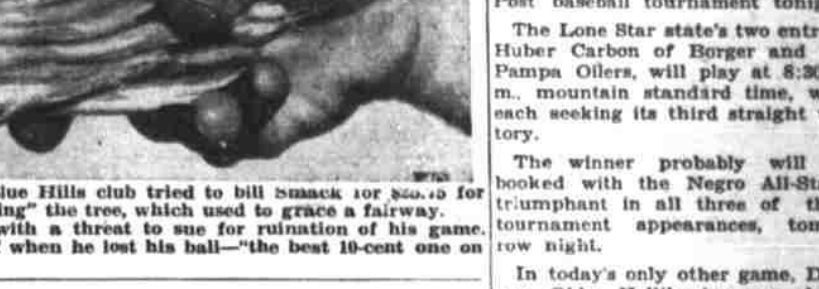

Coach Morley Jennings at Baylor says "you can jot it down on your cuff that we'll be stronger defensively this fall, but I can't see how we'll pack as much power offensively." Meaning, of course, that Lloyd Russell, his prize triple-threat, has ended his career. He'll have Billy Patterson, a great sophomore of '36, back in the harness. Two backfield veterans, Earl Brazell and Bubba Gernand, will bolster the halfback spots.

Question marks are Southern Methodist and Rice Institute. Coach Matty Bell, so the dope goes, will come up with a surprisingly strong Methodist eleven, a bunch far more seasoned than last year when they folded in mid-season after a great start. Shifting of Charlie Sprague from center to tackle should plug that vacancy while the ends are well taken care of by Bill Dewell and Pete Acker. The touchdown twins Johnny Stidger and John Harlow, sophomore year behind them, are dynamite.

Arrival of some brilliant sophomores at weakened spots will make Rice dangerous. Lain and Cordill, two soph ball carriers with the former carrying quite a reputation as a forward passer, should make the Owls dangerous offensively while the line lost little by graduation. Look no further than Rice for the "dark horse" team of the race.

He Found His Golf Ball ... Too Late To Play It

KANSAS CITY (AP)—They cut down the old poplar tree and they found C. L. Smack's golf ball—the one he lost in 1930.

Directors of the Blue Hills club tried to bill Smack for \$25.00 for "poisoning and destroying" the tree, which used to grace a fairway. Smack countered with a threat to sue for ruin of his game. He had to give up golf when he lost his ball—"the best 10-cent one on the market."

Cosdenites Seek To Snap Losing Ways Sunday

NEWPORT, R. I., Aug. 5 (AP)—It's the practically unanimous idea around Newport today that the America's cup races of 1937 may as well be written into the record books now as another triumph for the United States' defender.

Endeavour II, seventh challenger from over the sea, faced the fourth and possibly final duel with Harold S. Vanderbilt's three-victorious Ranger with no one willing to wager a Chinese copper that T. O. M. Sopwith's blue sloop could take the four straight victories now necessary to win.

Even those who thought Sopwith might win today confessed their belief was premature upon sympathy with the gallant Englishman than upon faith in Endeavour's ability to outfoot the fleet Ranger over the 20-mile triangular course laid out for today's test.

Endeavour II's performance in yesterday's third race, lost by 4 minutes, 27 seconds, was a distinct improvement over the 17 and 18 minute trouncings in the first two sailing duels, but not sufficient to raise British hopes or whet the appetites of the betting gentry.

Even Sopwith virtually conceded as hopeless his second quest of the elusive trophy, saying, simply "Ranger is a faster boat."

These Deserve Voters' Support

Discussed in this column yesterday were two of the six proposed constitutional amendments to come before Texas voters on August 23. On the same ballot will be three other amendments which The Herald believes should have approval of the electorate.

One of the proposed changes is designed to save the state banking system from destruction. The federal government, by statute and regulation, has relieved all national banks of the double liability requirement upon their stockholders. Texas can relieve state bank stockholders to the same degree—putting them on an equal basis, as it were—only by this constitutional amendment. The handicap would be too great for state banks to exist unless this amendment is adopted.

This amendment is important to the state generally, because of the wholesome service of the state banking system. Comparatively few people own bank stock and the amendment is not primarily to help them; its purpose is to prevent destruction of values in the state banking system and save the system from being driven out by the existing handicap.

Another amendment would provide a system of discounts for prepayment of property taxes, thereby rewarding those who are prompt in meeting their obligations at the tax collector's window. If this plan will end delinquency, or even substantially reduce it as its proponents claim, the amendment should be adopted.

The benefits accruing from such a discount system would be important; particularly for the large taxpayers would the savings be substantial. The amendment may be opposed by some tax authorities, merely because it would involve some added bookkeeping and record work, but this reason should not affect the voters' decision.

It has taken a long time to get the tax collection systems on a business basis, but we are swinging that way, with split payments and similar measures, and here is another step in the same direction.

Another amendment is purely local in nature, but it has statewide implications. Harris county wants to do away with the wasteful practice of building roads by bond issue, and substitute a pay-as-you-go policy by levying direct local taxes. If Harris county wants to make itself a laboratory in which to test out this theory, there is no valid objection. Later, if it works, it can be applied to the state as a whole. This amendment could reasonably be statewide in scope, but it is important because it is an opening wedge, and success in Harris county will mean future extension throughout the state.

Man About Manhattan

By GEORGE TUCKER

NEW YORK — What critics generally agreed was the best laugh of the week was the mirthful tale of the novelist, back from Hollywood, found brooding at a bar in 52nd street by Irving Hoffman, who has something of a genius for stumbling on such episodes.

The writer was disconsolately staring into space when Hoffman cornered him. "Didn't you like Hollywood?" he queried. "No," sighed the morose one wearily.

"But why?" ejaculated Hoffman. "They bought your novel! They paid you a fat price for it! They fettered you out there at a handsome salary to help write the scenario! Aren't they filming it after all?"

"No," yelled the novelist, "but they're making a hell of a movie out of the reviews."

Which, for no reason at all, reminds of the party Stuart R. Booker, the stocks and bonds man, reports attending in Nashville, Tenn. The talk got around to avocations and each described the businesses that had helped build the family fortunes. One was the son of a lawyer, another said his father was in the tobacco business. Finally they turned to a girl whose father was a prominent undertaker. "And what about you?" the lawyer's son asked.

"Well," she said, "I suppose you could describe me as just the daughter of a Southern planter."

Ambling through 42nd street of a late afternoon one stumbles across a reformed rumpot, a really brilliant writer whose former love of intoxicants cost him plenty of opportunity.

"Come on," he said, "walk down the street with me. I've got to find a stationery store and I want to talk with you. I'll bet you can't guess why I want a stationery store."

"No, I can't."

"Well, I want a note book. You know, a note book."

"But why a note book?"

"Well, it's like this. I've got a desk full of horses over at the office and I've got to put them in order. They're on slips of paper, and I'm afraid some of them will get lost."

"Ah, the races! So you're playing the horses!"

"That's right," he replied seriously. "Horses are a fine substitute for whiskey. You won't believe it, but I haven't had a drink in over a year. Horses keep my mind off brandy, and I'm breaking even. What more could a fellow ask?"

He strolled on down the street, hatless, at peace with

ON THE RECORD

By DOROTHY THOMPSON

INTERNAL TARIFFS

It is entirely probable that the wages and hours bill will have passed the house before this column appears, but nevertheless, it may still be of interest to point out exactly what we shall have done in passing it. We shall have created a mechanism for imposing a tariff between states in this country. By its very nature, that tariff will operate to protect those areas of the country which are richest, longest organized industrially, and have the greater advantages in climate, railroad rates, and trained populations of workers. The labor standards board is empowered to fix wages and hours in all industries up to a certain level and ban from interstate commerce goods whose production standards do not conform. We shall have taken no careful steps to see that this commission, given such extraordinary powers, shall be protected from political pressure and from the kind of lobbying which has been the curse of our foreign tariff policy.

As Mr. Lippman pointed out yesterday, it is highly significant that Henry Cabot Lodge, republican, from Massachusetts, voted for the proposal. He saw that the idea behind it is precisely Mr. Hoover's idea for the regulation of our foreign tariff—the equalization of costs of production. That was not Mr. Hull's idea, and never this column's.

But if it was a bad idea for the regulation of foreign trade, it is an idea full of dynamite when applied to domestic trade between the states. Mr. Lodge comes from a state where textile, shoe, and other industries have moved to the south and he wants protection for those industries. I can understand Mr. Lodge. But I cannot understand the southern senators who voted for this bill.

One of the major curses of this country is the centralization of industry. Twenty-six per cent of our total manufacturing are concentrated in six counties, which enjoy all the advantages of establishment, of favorable freight rates, and of a trained working class population. For generations the south has been treated as a colonial agricultural area by these northern and eastern manufacturing centers. This area has been the victim of foreign tariffs for the past 60 years. It is now faced with the situation that its greatest agricultural product, cotton, is undergoing sharp contractions as a result partly of our tariff policy in the past, partly because of foreign cotton growing, and the competition of synthetics. If now it attempts to turn to industry, it may find that the only natural advantages it has—a lower cost of living and therefore a lower wage standard, which does not necessarily mean a lower standard of living—can be arbitrarily eliminated by a tariff against its goods, inside America.

The south has the disadvantages of quality of population. It is the most illiterate part of the United States; its climate makes the average worker less productive than the worker in more temperate or colder zones. Its industrial training is backward and it is relatively remote from the great consuming centers of the United States.

It is going to take years to rehabilitate the south, and it certainly cannot be done by fiat. True, the labor standards board is hedged about by all kinds of qualifications. It is instructed to take account of varying standards, to protect production and employment, and so forth. But the labor standards board is composed of human beings; we have no well-established tradition of disinterested civil service; everything is in politics. Suppose a republican administration comes in again one of these days, dominated by the interests of the north and the east. They have in the past forced the agricultural south to buy in a market protected against cheap foreign goods. They could now force down any competition in the domestic market.

What is going to happen to manufacturers who have made contracts for future deliveries at a fixed price, if the labor standards board suddenly decrees changes in wages and hours which make it future delivery at that price impossible? Any industry can be ruined by it.

And if the principle of domestic tariffs is established, as I think it is under this bill, what is to prevent individual states from retaliating by setting up tariffs of their own? To be sure, that is forbidden under the constitution, but there are many ways in which it can be done in effect. As a matter of fact it is done in effect already by some states—some dairy states, for instance, have taxes on oleomargarine. If Mississippi cannot keep wages and hours conditions which enable her to export to other states, she may put an excise tax on products coming into the state, in order to protect the home market, thereby attempting to insure employment to her own workers by protecting that market.

Of course, the whole thing boils down to the point this column has repeatedly made. You cannot legislate prosperity. The only way to increase the national wealth and thereby the national wage is to produce more and to keep open the channels by which it may reach internal and external markets.

(Copyright, 1937, New York Tribune Inc.)

the world for the first time in his life. He said he was going to have a lot of fun corraling those horses in that new notebook.

Hollywood

Sights and Sounds
By Robin Coons

HOLLYWOOD — Walter Abel, the mystery man, is back in town. He's having a nice time playing golf in this town where they're all ways yelling for new faces.

Literally, Abel isn't a mystery man. The mystery is in Hollywood. Hollywood has him and Hollywood is using him with the same perspicacity it displayed on each of his three previous visits.

The first time was six or seven years ago. An agent took him out of a New York hit and said Hollywood had something colossal, terrific, or at least stupendous for him. After several months of waiting, it didn't happen. He went back to the stage, played in "When Ladies Meet," another hit. Paramount couldn't wait to jerk him west. That was in December. By June, Walter was still around. He was brought west to play "General Grant," a gentleman who rarely smiled, in a somber historical film. So Abel starred in four reels of tests, which with story preparations cost \$160,000 before the studio decided not to make it after all.

But Hollywood is ingenious. From General Grant to D'Artagnan was but a step. Abel took tests, signed a five-year contract, took an hour's fencing lesson, and started in "The Three Musketeers" the following Monday morning.

That was the beginning. The ending included "Second Wife"—but why go on?

I asked Abel about it. The guy's head is bloody but unbowed, and his grin revealed he still has a sense of humor.

"When I meet my friends back east, and we get to talking," he said, "I can always tell when that question is coming. There is always an embarrassed pause, and then: 'But Walter, did you have to make that picture?'"

"Second Wife" was Abel's goodbye to Hollywood before joining Katharine Cornell on the stage in "The Wingless Victory." He got good notices, but Hollywood hasn't read them. All Hollywood remembered is "Second Wife."

Yet to be discovered. There was, of course, his sound and rousing portrayal of the district attorney in "Fury," which made it look as if Hollywood had

FLAME TRAIL

By Marie De Nercaud

Chapter 37

THE STEEL NAIL HEAD
Something deeper and stronger than the jealous resentment that Kay had been cherishing took possession of her, and with a startled gasp she pulled herself up, as she suddenly saw the whole situation in a different light.

What did it matter whether he cared for her or the other girl? His very life was in danger, and she was doing nothing to help him! This vital issue surmounted everything else.

What could she do? What could she do? Kay clenched her fists until the nails bit into her palms. She must think of something! She lay back and concentrated on all she knew of the affair, trying to piece it together, and turn it some way to Ted's advantage. In spite of everything, she still believed him innocent. She shut her eyes, and pictured again the scene of the crime.

Josh Hastings' remark about Ted having crawled to the water flashed back to her, with his last explanation that he had only been imagining it. His whole manner had been very queer, and Kay felt again the conviction she had had then, that he knew more than he was telling.

A fresh wave of resentment against Tom Runyon for having brought her to the Flying Six swept over her. To be sure, she hadn't seen Josh Hastings since she had been there, but to be under this fresh obligation to him was decidedly galling. Even though she had not accepted his hospitality of her own free will, the fact remained that she had been under his roof all this time.

She had thought it was queer that she hadn't seen him, when she was better, but until today no one had told her anything at all. This news explained why he hadn't sought her out. He had gone to the trial to do everything in his power to convict Ted.

"If I could only have a little more time!" Kay moaned, half aloud. There must be more clues that she could follow up! A sudden memory of the tiny steel nail head she had found roused her. Getting up, she went to the closet and felt in the pocket of her leather coat. Her fingers touched the surface of the bit of steel, smooth on one side and rough on the other, where it had been broken off. Pulling it out she examined it carefully.

She soon came to the conclusion that there was very little help to be had from that. Nearly everybody on the range wore steel studded articles of one sort or another. She was about to slip it back in her pocket again, when her eyes sparked with an idea.

Josh Hastings' gauntlets! She had seen Josh Hastings with some studded gauntlets once, and this nail head was about the size that would be used on a gauntlet. It was almost too small for a foot or a saddle trimming.

Her heart beating fast, Kay unlocked her door, and gently opened it to peer into the hall. No one was in sight. She slipped out of her room and made her way to Josh Hastings' door. Noiselessly opening it, she slipped in and shut it.

She leaned weakly against the door and looked around, while her heart beat like a trip hammer. The room was fairly tidy. The closet door was half open, and a gleam of metal on the top shelf caught Kay's eye.

Crossing the room, she reached up, and pulled down the gauntlets she was looking for. She hastily turned them over and scanned the intricate pattern of their decoration. With a gasp, she caught a broken line in the point of a star.

Her hands trembled as she pulled out the bit of steel she had found, and fitted it into the gap. It matched exactly!

Kay hesitated a moment, then reached up and put the gauntlets where she had found them, and tiptoed back to her room. Once safely back, she sank down on the bed, weak with the excitement of her discovery.

Her mind flashed to the possible consequences, but it was all too confused to see anything clearly. However, one thing was certain in Kay's own mind—Josh Hastings had been at the scene of the tragedy and for some reason he had suppressed the fact.

She realized, only too well, though, that her slender evidence would be laughed to scorn, unless she had something more substantial to support it.

ADD—THURSDAY STORY

Realizing, however, that he would be bound and ignominiously carried if he couldn't make the grade on his own, he summoned all his strength, and pushed on.

Sam Cutler motioned him to the horse he was to ride, slit the ropes at his wrists, and watched him mount.

"You know what any try for a break means, don't you?" He put his hand on his holster.

Ted nodded. "I've given you my word not to make a break on this trip," he declared shortly.

"I ain't worrying about breaks on any other trip!" Sam Cutler gave a short, disagreeable laugh. "My guess is you won't be making so very many more trips."

Ted made no answer to this jeering observation, and the sheriff led the way to the summit of the central divide, and started down the west trail to Clear Water Basin.

IF YOU WANT to trade city property for a good farm, apply J. C. Rasco Shoe Shop, 307 1-2 East 3rd St., Big Spring.

Hall Moving From City

Will Reside At Seagraves; Commission Job Question Mark

Jess Hall, city commissioner, has consummated a deal whereby he will operate an ice factory at Seagraves in Gaines county. It has been learned here.

A resident of this city for more than nine years, Hall is former manager of the Southern Ice, Inc. plant here.

He was elected to the city commission in March, 1937, on a progressive ticket, pairing with R. F. Schermerhorn.

Already located in Seagraves, he plans to be joined by his family before September 1.

Seagraves is located in the center of oil play in Gaines, Yoakum, Terry and surrounding counties.

His entrance into business there has stirred speculation here concerning his probable resignation from the commission and the naming of a successor.

Rock Crushed For Highway, Street Needs Locally

Crushing of rock for the state highway No. 1 west job, and the laying in of a two-year store of crushed stone for city paving projects, may be completed by the middle of August.

Contractors believe that, barring breakdowns, sufficient yardage will have been processed by that time to be used in a two course topping on 10 miles of highway No. 1 west and the paving of a 50-foot (Third) street through Big Spring.

The city's two year, supply, or enough for at least 20 blocks of paving, has been finished by an arrangement with the contractors.

The crushers employed by contractors, Morgan Construction Co. and Brown and Son, are turning out approximately 400 yards of crushed rock a day. The rock, graded as hard limestone, is coming from the city's quarry south of the city park.

OH, HOW DO I KNOW? ALL I KNOW IS I CAN NEVER PUT DOWN A PIECE OF THE PAPER—NOT EVEN FOR A SECOND—BUT YOU GRAB IT!

BUT WHAT WAS IT? WHAT AM I SUPPOSED TO HAVE TAKEN? IT HAD A RECIPE FOR PARSLEY-FLAVORED MEAT LOAF

PA'S SON-IN-LAW

ATTEND THE COUNCIL MEETING, MY FRIEND, I DESIRE THAT YOU LEARN WHAT IT IS THE COMMONERS FLOT AGAINST OUR PRINCE!

OKAY, OL' SOKS! I'LL GET THERE!

THERE! YOU SEE? HE COMES FROM THE PALACE AND NOW HE CONFERES WITH OLD JOSIAH, WHOM WE SUSPECT IS IN ACCORD WITH THE NOBILITY! HE MUST NOT ATTEND THE COUNCIL!

HE WON'T! I GAVE HIM, AS THE MEETING PLACE, THE "BOOT AND TRUMPET" INSTEAD OF "THE SINGING DUCK" AT THE BOOT OR AND TRUMPET! HE WILL BE TAKEN CARE OF!

IF I CAN GET THINGS STRAIGHTENED OUT FOR ANGEL AN' MAKE THINGS SAFE FOR HIM HERE IN SHOOT-UP-IA, IT'LL BE WORTH TH' DANGER O' TRYIN' T' CRASH THAT COUNCIL MEETIN'! IT'S ME FOR TH' BOOT AN' TRUMPET!

UH-HEY! WHAT GOES ON HERE?

SASS ME, WILL YAT'IM GON' T' BASH IN YOUR JAW!

WE'VE JUST FORMED TH' WAYS AND MEANS COMMITTEE FOR SENDIN' ANGELICA TO CAMP TILL SCHOOL STARTS.

DIANA DANE

NOPE, MY BANK BOOK WON'T STAND IT, DOOLEY.

GEE, THAT'S TOUGH, POPS. WE'LL HAF TA THINK UP SOME OTHER WAY.

I'VE ALREADY GOT A BIG LOAN ON TH' HOUSE—SO THAT'S OUT TOO—

YEAH—

I COULD MORTGAGE TH' STORE, BUT I'D BE TAKIN' A CHANCE O' LOSIN' IT.

SAY—WHAT'RE YOU TWO SUPER MINDS UP TO NOW?

WE'VE JUST FORMED TH' WAYS AND MEANS COMMITTEE FOR SENDIN' ANGELICA TO CAMP TILL SCHOOL STARTS.

DEFENSE FUND

WHEN THE LAST OF RED'S BAND SWEEPS BY, SCORCHY AND BLIMEY BREAK FROM CONCEALMENT—

C'MON, BLIMEY—WE'LL HOOK ON TO THE REAR—

THINK TH' BLOOMIN' BLOKES WILL GET HEP TO US?

NO—THEY'RE MOSTLY NEW HANDS THEMSELVES—

IF ANYONE ASKS QUESTIONS, WE'LL JUST PLAY DUMB—WHAT THEY DON'T KNOW, WON'T HURT US—

MOVING SWIFTLY OVER ANCIENT ROADS, THE BAND FINALLY SWINGS INTO THE MAIN CAMP—

SCORCHY SMITH

YOU'RE MARY LOU'S FATHER—YOU'RE IN THE CASTLE—YOU SEE DABNEY LYING ON THE COUCH—YOU PULL UP YOUR SHOTGUN—AND LET HIM HAVE IT—

Y'SURE—THAT THING'S LOADED WITH BLANKS?

I'VE GOT YOU AT LAST, YOU FIEND!

HEY—DON'T PULL THAT TRIGGER!

IT'S ONLY A BLANK!

I KNOW IT, BUT I DON'T WANT YOU TO BLOW EGGERT'S WHISKERS OFF! YOU'RE SNEAKIN' THROUGH THE CASTLE, SEE, AND YOU SHOOT HIM FROM THE DOOR!

THIS SEEMED LIKE A SWELL IDEA WHEN I WROTE IT, BUT WHY CAN'T HE POISON ME OR SOMETHING?

AW LIE DOWN THERE! YOU KNOW DABNEY'S GOT TO BE SHOT!

NEWS NOTES FROM THE OIL FIELD COMMUNITIES

Bill Henry Campbell, who has been attending school in San Angelo through the summer, has returned to his home here until the fall session.

Maxine Thompson arrived here Monday from Lubbock, where she has been in summer classes, to spend the remainder of the summer with her parents, Mr. and Mrs. J. E. Thompson.

Mr. and Mrs. D. C. Rogers and daughter have returned here on the completion of summer classes in Texas A. and M. Also Mrs. Nora E. White who has been enrolled in Texas Tech at Lubbock.

Mrs. J. P. Lindley and son of Hobbs, N. M., and Miss N. Taylor of Wichita Falls have been guests in the G. H. Payne home this week.

Bill Williams of San Angelo is now located in the Foran Barber shop while A. F. Norman is away on his vacation. Mr. and Mrs. Norman are vacationing in Corpus Christi and other points on the coast.

Mrs. Ruby Bell arrived here from Wink this week for an extended visit with her parents, Mr. and Mrs. B. D. White.

Mr. and Mrs. L. C. Alston and daughter and son, Alida and Donald, are vacationing in Oklahoma and Arkansas with relatives.

Mr. and Mrs. Howard Parker of Odessa are guests in the home of Vera Harris and daughter, Myrr Nell this week.

Mrs. Bill Conger, Jr., is visiting her sister, Mrs. Jack Craig, in Fort Worth where Mr. Conger will join her the latter part of the week for a visit at the Frontier Fiesta.

Mr. and Mrs. J. J. Patterson motored to Cross Plains and Wichita Falls this week where they will visit with relatives for a week. Afterward they will visit friends in East Texas while on their summer vacation.

Mrs. O. M. Stephens and children of Breckenridge are the guests of her sister here, Mrs. Paul Sheedy and family.

Mrs. E. T. Brenham and children are spending the week with her parents in Ballinger.

Wesley Butler and Eddie Kuenstler visited friends in Stamford this week.

W. M. U. met at the Baptist church Monday for their regular study of foreign missions with Mrs. H. A. Hobbs as program chairman. The program, "The Indian" was opened with a song, "I Will Lift Up Mine Eyes," followed by prayer by Mrs. J. B. Hicks. The program included:

Devotional, Acts 13: 1-5 by Mrs. H. A. Hobbs.

The Indians Our Host, Mrs. W. H. Bartlett.

Treaties Made and Broken, Mrs. R. A. Chambers.

Prayer for Indian Missions, Mrs. I. O. Shaw.

Indian Missions Today, Mrs. O. A. Nichols.

Indian Baptist, Mrs. C. V. Wash.

Closing prayer by Mrs. E. T. Bevell. One visitor was present.

Miss Bennett, sister of Mrs. H. Hobbs.

Mr. and Mrs. Elmer Crumblly are in Aspermont this week with relatives. Mr. and Mrs. Crumblly are returning to Aspermont to make their home next month.

Fairview News

Revival meeting at the Fairview church will start on Friday night, August 13, instead of on August 20, as was previously announced. Rev. Cal Mahoney of Coombs will do the preaching.

Attendance at Sunday school last Sunday totaled 100.

Ann Couch of this community was one of the winners in the cotton grading contest, and will be given a trip to the A. & M. short course.

A. C. Wooten, who has been visiting relatives for the past two weeks, returned to Chicago Monday.

Mr. and Mrs. D. I. Knightstep were called to Bowie last week to be at the bedside of his grandfather. They have returned home.

Mr. and Mrs. H. P. Wooten spent Sunday in the home of his father. The Walker Reeds also were visitors in the Wooten home.

Spring spent last week with his Little Gerald Dean Bly of Big Aunt, Mrs. J. G. Hammock.

Crops of all kinds in this territory are needing rain, although it is raining now in fine shape. The severe heat is causing feed to wilt in the middle of the day and stock water is beginning to get low.

Song services and choir practice will be held Friday night at the home of Mrs. J. Tom Rogers. All singers are urged to be present.

Historic Plane in Junk File LONDON (UP)—Searching for curios in the Caledonian market, Townley Beale, secretary of the Collectors Club, came upon a lot of the treasures described as junk. Examination resulted in Beale recognizing the "junk" as the remains of a "Mellin's" which on Sept. 19, 1902, made history by flying from Crystal Palace over London.

The absorbs heat when melting. Another short wave radio operator company must explore opportunities.

ITEMS FROM MOORE

The Fairview-Moore home demonstration club entertained a large crowd at Moore last Saturday night with an ice cream supper and cake-walk. The women furnished a number of delicious cakes for the occasion.

Song services at Moore have been discontinued on two previous second Sundays, due to deaths, but will be held at 3:30 o'clock next Sunday, August 8. All singers and visitors are invited to attend.

Farmers are finding that crows are raiding melon patches while scarecrows are seemingly of no effect. Mirrors and other devices are being used, and seem more efficient than the scarecrow.

Miss Ella Ruth Thomas was hostess to Misses Rebecca, Ruth and Peggy Thomas of Big Spring last week.

Misses Margaret and Callie Wheeler were Sunday dinner guests in the home of Rev. and Mrs. H. C. Goodman in Big Spring.

G. C. Broughton, Milton Broughton and Lester Newton left Friday for Old Mexico on a fishing trip.

Guests in the home of Mr. and Mrs. R. M. Wheeler and daughters last Wednesday were Mrs. Jack Vale and son, George, of Hempstead, Mr. and Mrs. Luther Lancaster and children, Alfred Ray, Alice Marie, and Delbert Lee of Big Spring.

Mrs. W. H. Lynn and daughter, Miss Audie Marie Lynn, from Taylor county, visited in the home of Mr. and Mrs. Mac Thomas last Thursday.

Mr. and Mrs. Wesley Currey and Mrs. Edgar Abney, all of Abert, were guests in the home of R. M. Wheeler and family Tuesday afternoon. Mrs. Abney is the eldest sister of Mr. Wheeler.

George Villalba and children, Misses Mary, Ella, Besale and George, Jr., and Tommy Villalba, who were called to Alpine last week to be with an aunt who was seriously ill, have returned to their home. George Villalba, a cousin, accompanied them here.

Miss Mary Villalba sustained a major gash on the head last Tuesday afternoon when an iron rail fell, striking her above the eye.

Mrs. Joe Wheeler and sons, Max, Low Allen, and Alton Douglas, all of Coahoma, visited relatives in this community last Saturday.

'Songs All For You' Program Gets A Wide Response

Popularity of the "Songs All For You" program, regular feature of radio station KBST sponsored by Cunningham & Phillips, is shown in a window display being shown at the C&P No. 1 store on Main street.

A feature of the program is the reading of poetry submitted by listeners, and the window is filled with scores of such writings that have been submitted. Also displayed are letters and cards commenting on the program.

In the background of the display is a big reproduction of a part of the program's theme song, which begins with the words, "My Songs Are Sent To You."

The program is built around original selections, played by Jimmie Willson, KBST manager. Clarence Barnes, KBST commercial manager, is the reader and announcer. Pictures in the window display show Willson at the console of the organ at the First Presbyterian church, with Barnes nearby. Others photographed are Mary Jane Reynolds and Joe Robert Myers, who have appeared on the program as vocalists.

A Good Bank Loan

—benefits the borrower, the bank, the depositors, and the Community.

THE borrower is benefited, for it enables him to carry forward his business activities in a profitable manner and render useful service. The bank is benefited, for a good loan gives safe employment to the bank's funds and makes it possible for reserves to be set aside and surplus to be built up as a further safeguard for deposits.

Depositors are benefited by good loans which enable the bank to provide a safe, convenient place for their funds and to render numerous banking services. The Community is benefited by good loans which stimulate employment and business activities.

This bank stands ready to make loans which conform to sound banking principles.

Battle Shaft At Houston Is Tallest

San Jacinto Memorial Will Top Washington Monument

HOUSTON, Aug. 5 (UP)—Rising two feet daily, the San Jacinto battlefield monument on the shrine of Texas independence has become the state's tallest memorial and soon will be the tallest in the nation.

When completed, the \$1,300,000 shaft will outstrip the 555-foot Washington monument by at least 10 feet. It is located on the spot where General Houston's band of 1,800 Texans defeated a Mexican army twice its size 100 years ago.

The shaft, constructed with state and federal money, will be penetrated by two elevators which will take sightseers to a floor 493 feet above the ground.

To Be Completed In March Officials expect work to be completed by next March.

The monument will weigh 70,300,000 pounds. The outer surface is of Texas limestone, quarried and fabricated at Austin, the state capital. The limestone, varying in thickness from three to six inches due to vertical flutes in the sides, blends solidly with reinforced concrete poured against the interior to form the walls.

Large floodlights will play upon the lower part of the shaft at night, gradually fading toward the top. Then other floodlights located farther out on the terrace will focus upon a huge Texas star atop the monument.

Offers Extensive View With the shaft more than 50 per cent completed, a wide view of surrounding country side is possible at the present level.

To the westward, Houston's skyline is plainly visible 18 miles distant. To the north is seen the winding ship channel formed by Buffalo bayou on which banks the Texans and Mexicans fought. Eastward, the towns of Pelly, Goose Creek and Baytown, near the shore of Galveston bay, are visible, with coastal plains stretching into the distance to the south.

All around the monument, thousands of dollars are being spent to landscape the entire battlefield, to make it the patriotic showplace of Texas.

MAJOR LEAGUE LEADERS

AMERICAN LEAGUE
Batting—Travis, Senators, .384; Gehrig, Yankees, .376.
Runs—DiMaggio, Yankees, 98; Rofle, Yankees, 90.
Hits—DiMaggio, 137; Bell, Browns, 136.
Doubles—Vosmik, Browns, 35; Bonura, White Sox, 34.
Triples—Kreivich, White Sox, 12; DiMaggio, Greenberg, Stone and Kuhl, Senators, 10.
Home runs—DiMaggio, 32; Fox, Red Sox, 28.
Stolen bases—Chapman, Red Sox, 26; Walker, Tigers, 15.
Pitching—Murphy, Yankees, 10; Ruffing, Yankees, 14-3.

NATIONAL LEAGUE
Batting—Medwick, Cardinals, .403; Hartnett, Cubs, .392.
Runs—Medwick, 81; Galan, Cubs, 77.
Hits—Medwick, 149; P. Wanner, Pirates, 141.
Doubles—Medwick, 40; Moore, Giants, Martin, Phillies, and Cucinello, Reds, 25.
Triples—Vaughan and Handley, Pirates, 10.

Pitching—Fetta, Reds, 13-3; Carleton, Cubs, 9-3.

Leaf tobacco exports by the United States totaled 417,539,000 pounds in 1936.

I REPRESENT THE UNEMPLOYED

Senate debate on the wage-hour bill was interrupted when a man who said he was W. A. Maxwell (left) of Chicago, representative of the American Federation of Unemployed, was ejected from the senate gallery when he rose to his feet shouting to be heard.

SPORTS ROUNDUP

by EDDIE BRIETZ

NEW YORK, Aug. 5 (UP)—So Mike Jacobs moves into the Garden? Well, there wasn't much else for the Garden directors to do. The big money in fighting is in the heavyweights and Mike has almost all the good ones in his pocket—Louis, Braddock, Schmeling, etc. The deal makes Jacobs absolute czar of the cauliflower ear industry. They'll all have to call him uncle from now on. Everyone is wondering when will happen to Jimmy Johnston, for years maestro at the Garden. This corner predicts an early tie up between Jimmy and Jacobs which would be highly advantageous to all concerned.

It is against the rules for the Yanks to hit a single any more? Out in Chicago all they talk about is a world's series between the Cubs and the Yanks. The Los Angeles pro football team will try to buy Sammy Baugh, the forward passing expert of Texas Christian, from the Washington Redskins. What's this, the Dodgers have a big trade cooking? Properly handled, there is a bright future ahead of Sammy McDonald, the Dallas, Tex., heavyweight, who goes against Eddie Hogan in the Garden tonight.

Maybe you have often wondered what a ball player says to an umpire just before a run-in. We can tell you what one said. Down at Richmond, Va., the other day, a sandlotter told his nibs: "I've been wanting to do this a long time," and hauled off and socked the umps squarely in the old kisser. "Big Six" conference coaches all say to look out for Elmer Hackney.

YESTERDAY'S STARS

By The Associated Press

Johnny Moore, Phillies — Hit homer for winning run to beat Cuba 2-1.

Jake Powell and Bill Dickey, Yankees—Former's single in ninth with bases full drove in winning run.

run to whip White Sox 10-9; Dickey hit homer with bases loaded, his second in two days.

Frankie Frisch and Ducky Medwick, Cardinals—Frisch's single in ninth with bases loaded sent across tying and winning runs in 7-6 win over Bees; Medwick hit four doubles.

Rudy York, Tigers — Hit homer and double, driving in four runs in 11-7 win over Athletics.

Buddy Hassett, Dodgers — Hit triple, double, two singles, and drove in two runs in 10-7 win over Pirates.

Jimmy Foss and Joe Cronin, Red Sox—Foss hit homer in each game and Cronin drove in three runs with double and triple in nightcap in doubleheader win over Indians.

Harry Gumbert, Giants—Fanned four and allowed seven hits to beat Reds 4-3.

Why Finestone STANDARD TIRES are EXTRA SAFE

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From these plantations comes an ever increasing supply of the world's finest rubber. Economies in producing raw materials, manufacturing and distribution make it possible for Firestone to give you so much for your money.

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKIP MILEAGE because of the extra tough, long-wearing tread.

Firestone Standard Tires give you all these extra value features because they are first-quality tires built with high-grade materials and patented construction features. You SAVE MONEY because you buy this high quality and extra value at such low prices.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

Firestone STANDARD FOR PASSENGER CARS	
4.50-20 ... \$8.70	6.00-16 ... \$13.95
4.50-21 ... 9.05	HEAVY DUTY
4.75-19 ... 9.55	4.75-19 ... \$11.75
5.00-19 ... 10.30	5.25-18 ... 14.25
5.25-18 ... 11.40	6.00-20 ... 13.15
5.50-17 ... 12.50	

Firestone SENTINEL \$5.55 UP

Firestone COURIER \$4.87 UP

OTHER SIZES PROPORTIONATELY LOW

PRICES AS LOW AS \$6.40

DON'T RISK YOUR LIFE ON SMOOTH WORN TIRES

DO YOU KNOW THAT last year highway accidents cost the lives of more than 38,000 men, women and children?

That a million more were injured?

THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

At right is a section cut from a smooth worn tire. Note the thick, unyielding tread which provides no grip against skidding, blowouts and punctures. Come in and see a demonstration.

At left is a section cut from a new Firestone tire. Note the thick, unyielding tread which provides no grip against skidding, blowouts and punctures. Come in and see a demonstration.
