Olton's First Shetland Show Saturday

Parade Slated For Ten; More Entries Welcome

Sidelights of Olton's First Annual Shetland Pony Show will shine on a parade and a pony giveaway Saturday.

The parade will start the day's activities. It will begin at 10 AM "sharp," V. L. 'Smitty' Smith, parade chairman, said.

Drawing for the pony will be held at the conclusion of the day's events—after the classes have been judged. No time has been set for the drawing but it will be "somewhere around" four o'clock, Robert Akin, secretary of Olton Shetland Pony Club—the organization which is sponsoring the show—said.

First, second, and third prizes will be awarded in eight different divisions in the parade. Donor of first place trophies was City of Olton. Circle Gin gave the second place awards, and Curtis Wilkinson, county attorney, donated the third place awards.

Classes to be judged are best groomed horse (Shetland) and boy rider, best groomed horse and girl rider, best clown, best horse-drawn vehicle, best costumed dog, best represented organization, best decorated vehicle, and best decorated bicycle.

Olton implement dealers have promised to have tractors and other machinery in the parade, Mr. Smith said, and Olton's Mus-

tang Band will march. There is no deadline for entering the parade, the chairman said, and participants will be welcomed up until the time for it to begin.

The procession will originate at the FFA barn. It will go downtown and then back to the barn.

Six Olton businesses are making the pony giveaway possible. Children between the ages of six and 16 have been signing tickets for the pony, complete with bridle and saddle, for the past several days. Tickets may be signed until near the drawing time.

Firms participating in the promotion are Sherman Food, Merrill's Farm & Ranch Store, Ben F. Smith Grain Co., Higginbotham-Bartlett Lumber Co., Thompson Implement Co., and Thompson Chevrolet.

Another added attraction will be an exhibition by L. W. Smith, Tulsa Shetland showman and breeder. Mr. Smith shows horses

on the national circuit and will have a "fancy turnout" to show here. His horses will not compete in the show.

Parade trophies will be awarded at the close of the show, Mr. Akin said.

Olton FFA girls will have charge of the concessions at the show barn. They will serve sandwiches, pie, soft drinks, coffee and candy.

Golf Tourney Sunday

First golf tournament in the history of Olton Recreation Center course is Sunday afternoon. It will be of the sweepstakes variety. Glenn Miller, club pro, announced this week.

Though this initial meet is primarily for members, it will be open to the public. Ralph Glover, a member of the tournament committee, said.

Golfers will be divided into three flights—according to handicaps—and three prizes will be awarded in each flight.

Each player will be charged \$1 entrance fee. Fees will be used to buy the prizes. "The quality of the prizes depends on the number of entries we have," Mr. Glover explained. Deadline for entering is Friday.

Winners will be those who have low scores on 18 holes. A sweepstakes - tournament. Committee member Glover said, is one in which entrance fees are used to buy the awards and the club makes no money from it.

Joe Turner and Miller are other members of the tournament committee.

Every child admitted to Olton Independent School at the starting of 1958-59 year will be required to show evidence of smallpox immunization. Miss Leta Bell, school nurse, announced this week.

"While it is not mandatory that each child be immunized against whooping cough, diphtheria, and tetanus, it is advisable," Miss Bell said. Also, she said parents should consult their physicians in regard to booster shots if their children have had these shots.

Smallpox immunization is required by ruling of the school board.

Group Considers Disaster Action

City hall will be headquarters in case Olton is struck by a tornado. In a Monday night meeting at the first station, a group of citizens made plans on what action to take in case of disaster.

Fire Chief Tom Smith presided at the meeting. It was decided fire department members would be in charge of rescue and evacuation.

T. M. Campbell, a city alderman, was assigned the task of getting the names of station wagon owners, and forming an emergency ambulance service. Mr. Campbell requested that owners of station wagons who would be interested in helping at disaster time call him. His telephone number is 4226.

Dr. B. J. Souders was named by Chief Smith to head the medical committee. A list of residents who know first aid and who will be available to help will be compiled.

Injured people will be taken to the Boy Scout building in the south part of town and in the north section they will be taken to Thompson Chevrolet and Thompson Implement. The two stations were set up so that if one is hit by a storm, the other will be available. If neither is hit, the one nearest the scene will be used.

Mr. Smith said the fire department would accept cots, blankets and other items which would be needed at a time of disaster if

citizens had some which weren't being used.

Mayor D. Y. Ray, who was present at the meeting, requested that a ruling be made that it would be necessary for all people going into a tornado-stricken area to have a pass, which would be issued at city hall.

Police Chief Vernie Head said emergency operators for the police department's two-way radio had been named and would be on duty when tornado warnings are out.

Other details will be worked out when the committee chairmen have had time to appoint assistants. Mr. Smith said a "disaster plan" would possibly be drawn up and mimeographed.

Teacher Career Month Being Observed In Olton

BY GAYLE McANALLY
(Olton Enterprise Staff Writer)

Looking for a husband? If so, the teaching profession is the very place to be, as Ethel Hulsey Gordon can tell you. She wasn't particularly "looking" when she came to Olton and started teaching. But, nevertheless, she found a husband in the form of Fred Gordon, who is now grade school principal.

Statistics from National Education Association prove that more than half of all woman teachers are married. This percentage is about the same as that of married women in the general labor force.

The humorous fact that mar-

riage prospects are good in the teaching profession is just one of the many facts which have been brought out as a result of National Education Association's attempt to publicize the need for more and better teachers.

Teaching Career Month is the official name of a much-needed

attempt to make the nation aware of the increasing importance of recruitment, training, and retention of top quality teachers. April is the month which has been set aside for the first observance and Olton teachers are going all out to help.

Five of the objectives of TCM are:

(1) To raise the prestige of teaching as a profession . . . among students, teachers, parents, and the entire community.

(2) To encourage larger numbers of qualified youngsters to become teachers.

(3) To influence more good teachers to remain in the profession, and encourage others to become teachers.

(4) To educate parents on the tremendous opportunities and rewards the teaching profession offers their children.

(5) To show that, for our country's survival, teaching must be the pre-eminent profession in American life.

Teachers of all shapes, forms, and fashions are needed to fill the demanding classrooms. The teaching shortage is affecting communities and will be for some time to come unless qualified teachers can be persuaded to teach.

Here are some figures which explain the shortage: 100,000 teachers will be graduated this June. But a third of these will not be teaching this September. Some will never enter a classroom. Teachers now employed in our schools number 900,000 but some are not up to the standards we want for our children. They have only emergency or temporary credentials. As many as 116,000 teachers will leave the schools this year. Thirteen per-

MUSTANG TALE

BY GAYLE McANALLY

Lila Lee McFadden gave a slumber party for the "ever to-

gether six" at her home Friday night. The question isn't what did they do; but what didn't they do! Actually, they did everything from making popcorn to looking at annuals. Staying up till sometime in the morning were Sharon Smith, Lonna and Donna May, Shirley Cole, Cecilia Gallaway, Lila Lee, and more than likely, the rest of the McFadden family. (How could they sleep with those six around?)

What in the world were Sonny Bryant and Nell Smith doing Saturday night? And was Charlotte Gibson in on it? Just "Walking in the Rain," I guess!

Lenora Woods was with Rande Buchenau Friday, Saturday and Sunday nights. That's getting around, isn't it?

Charlotte Joyner and David Hamm took in the show at Olton Sunday night.

cent will enter other work.

Never in history have there been so many opportunities for teachers. The NEA reports there will be positions for approximately 125,000 to 150,000 newly qualified public elementary and secondary teachers each year through 1965.

One way to help the teacher shortage is to encourage young people to become teachers. Seven out of ten graduates of teacher education institutes take teaching jobs in the county they came from, according to the NEA. So, after graduation, many students will return to their hometown to work. Thus, the problem is started on its way to recovery.

CARD OF THANKS

We wish to thank each and everyone for the beautiful cards, prayers and words of sympathy given us at the passing of our Mother and Grandmother. May God bless each and everyone of you.

Improved Cotton and Sorghum Yields With Phillips 66 Ammonia

Martin Schur, Plainview, Tex., says: "I farm 420 acres, and last year I ran 30,000 pounds of Phillips 66 Agricultural Ammonia through my rig. That shows how I depend on this fertilizer to give me high yields of cotton and maize. I put all my Phillips 66 ammonia down pre-plant, in order to get the job out of the way before the busy spring season."

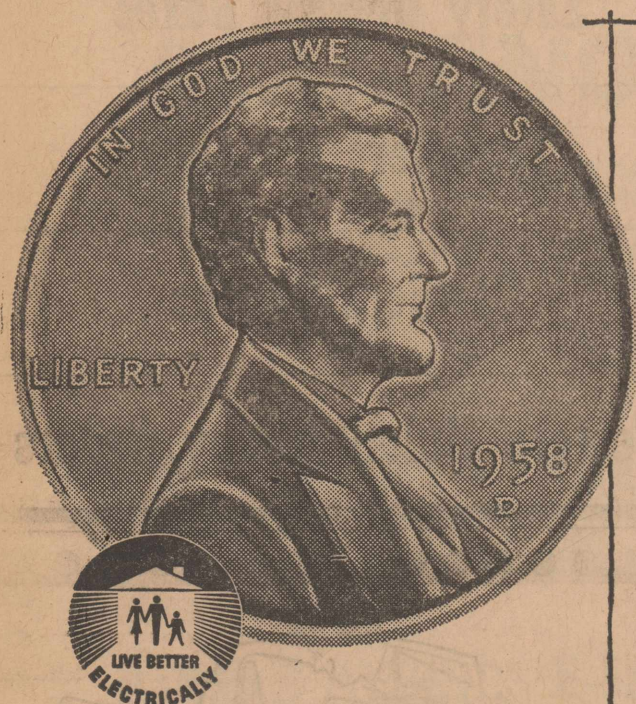

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin . . . yields of sorghum grain and ensilage are increased . . . more marketable vegetables are harvested . . . and profits on wheat are increased through higher yields of grain and extended grazing periods.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

THESE YOUNG MEN don't like their gals draped in sack dresses. In protest to the latest female rage these gallants draped themselves in tow sacks, from which High School Principal J. A. Williams quickly undraped them, once they entered the high school building last Thursday. From left are Butch Hulsey, Winfred Hair, Roger Stephens, Billy Hair, Freddie Gordon and Bill Austin. PS: The effect on the girls was profound. The gals are still wearing sack dresses.

Chamber Committee Chairmen Called

Six committees will serve as the backbone of Olton Chamber of Commerce and Agriculture for its 1958 program of work. Chairmen of all but one of the committees were named recently at a meeting of the chamber's executive committee.

Committees, other than the executive group, which will function are civic affairs, budget and financial, retail trades, highways and transportation, and agriculture.

Executive committee members are the three top officers of the organization and one director—Don Williams, president; Glen Exter, vice president; Russell Grimes, secretary-treasurer; and Merrill Brigrance, director.

Chairmen of the other committees were contacted by a member of the executive group to see if they would accept and serve in their appointed positions.

G. H. Bley will head the civic affairs committee. Ed Thompson will be in charge of the budget and finance committee. Herman Meyer will handle retail trades. The highways and transportation group, headed by Ralph Glover, has already been functioning. Assisting Mr. Glover on the committee are Fred Thompson and Basil Sherman.

Agriculture committee is the only one without a chairman, Joe Wood, chamber manager, said, and that appointment is scheduled to be made in the near future.

Chairmen will appoint chamber members to serve with them.

Scene for the service was the First Baptist Church at Halfway. Baskets of white gladioli accented with chamadore were flanked by candelabra and greenery. A kneeling bench and white bows completed the church decor.

Pre-nuptial selection and the traditional processional and recessional were played on the organ by Larry Horrell of Plainview. Miss Anita Sorley sang, "I Love You Truly" and "Bless This House," accompanied by Mr. Horrell. "The Wedding Prayer" was sung by Mrs. Terry Beckham of Lubbock as a background during the ceremony prayer.

Jack Condra of Lubbock was best man. Ushers were Glen Hatla of Littlefield and James Dunn of Lubbock. Mr. Hatla and Mr. Dunn also served as candle-lighters.

Could you guess what's good about a headache?

If you happen to have one right now, probably all you need is an aspirin. But the fact is: a headache sometimes is a signal. It may be telling you something is wrong . . . perhaps something quite remote from the pain. In this event it's a symptom—valuable information for your physician. So if you have a persistent or recurring headache and don't know why, see your doctor. Don't take a chance. Your physician can probably clear up your problem in short order. Of course, he may say all you need is aspirin—but even that's worth knowing.

Purpose of the demonstration is for students to see for themselves how the false impression and sense of security that a driver of a car gets, can and does, often lead in the danger zone and trouble, according to a press release from Farm Bureau announcing the event.

The press release says: "High point of the demonstration is when driving tests are made with various students and faculty members in the specially equipped car. An electric detonator which is mounted on the front bumper of the car will fire yellow paint bullets to indicate the distance required to stop the car in an emergency.

"The driver being tested will be signalled to stop by the report of the first shell. The second will be fired automatically when the brake is applied, and the third when the car halts. Distance between the spots of paint will then be measured to determine the reaction and braking distances.

Olton Grade Schoolers Are Fourth In District 2-AA Literary Events

Olton finished fourth in District 2-AA grade school literary meet Saturday at Dimmitt.

Tulia was first with 91 points. The Swisher County school was trailed by Muleshoe with 68; Dimmitt had 53; and Olton 52.

Dalhart and Canyon, also schools in the district, didn't enter students in the literary events.

Also a part of the meet was a volleyball tournament. Olton finished third in it.

Those placing in the literary events were Travis Carruth, first, and Geneva Curry, third, seventh and eighth grade declamation; Carolyn Carson, second, and Don Curtis, fifth, in fifth and sixth grade declamation; Tanya Bryant and Alice Ross Bryant, second, seventh and eighth grade spelling team; Coy McGill and Elaine Fisher, fourth, fifth and sixth grade spelling team; Betty Williams, fourth, and Darleen Langford, eighth, ready writing; and Geneva Curry, second, Joe Price, third, seventh and eighth grade number sense.

Thirteen students made up Olton's picture memory team, which was third. They were Stephen Smith, Elaine Fisher, Coy McGill, Topper Maxey, Pam Hair, Mike Dellis, Lana George, Mike Hipp, Jan George, Iva Tanner, Linda Collins, Charles Church and Mike Fite.

Elementary Principal Fred Gordon explained that Olton was handicapped in its total points by the fact that the three towns which finished ahead of it have two elementary schools.

"Our standing would have been higher if the points of the two schools in each of the other three towns hadn't been combined," he said.

Jerry Mathis was 10th high individual in dairy judging. Some 30 teams were in that contest.

Other land judging team members were Jerry Moore, Eugene Howard, and Mack McGill. Dairy judges, other than Mathis, were James Simmons, John Wayne Hair, and Jimmy Tollett.

The boys were accompanied to Plainview by FFA Advisors J. C. Lane and Harold Warren.

Saturday's contests served as an elimination ground for state competition. Top three teams in each division are eligible to participate in state events.

Fire Destroys Cafe Equipment Thursday Morn

A Thursday morning fire destroyed a four-room farm laborer house and a stock of cafe fixtures at the Hubert Moses farm.

Olton Volunteer Firemen were called to the scene, which was three and a half miles north and a mile west of Olton, at 8:45.

By the time firemen arrived, it was too late to salvage the building or its contents. Tom Smith, fire chief, reported.

The cafe fixtures were formerly used in Clara's Cafe here. They included a refrigerator, stools, chairs, tables, and two pop boxes.

One of the fire department's trucks made the trip. Seven firemen fought the blaze.

Origin of the fire was unknown.

MRS. LINNIE CAMPBELL ...
... eighth grade teacher

Mrs. Linnie Campbell Comes From Good Recipe

BY GAYLE McANALLY
(Olton Enterprise Staff Writer)

And so the recipe reads: Take 1 heaping gallon of the desire to teach; 2 pints of education; 1 quart of firm hand; a dash of life; and 3 quarts of experience. Bake until done. This recipe will produce an excellent teacher if the recipe is blended and baked correctly.

The desire to teach: "Ever since I can remember, I've wanted to be an instructor during the wintertime and a store clerk during the summer. Somewhere along the way I lost the idea of clerking, for I've never done it!"

And as for the education: She was graduated from West Texas State College, Canyon; after attending both Southwestern State College, Weatherford, Okla., and Oklahoma A & M in Stillwater, Okla. She took her degree in elementary education and speech. A firm hand? That she has for every one of her students. Ask most any of her former students and they will tell you that she may have been their hardest teacher, but that she is still one of their favorites.

Her love is abundant for all and every student finds her understandingly helpful.

Of course, she has seen life with all its joys and tragedies. Both have made her what she is now.

Her experience is counted by the 15 years she has given to her chosen profession. Twelve of these have been in Texas; the remaining three being in Oklahoma.

Linnie Lyon Campbell has indeed proven herself to be a teacher with great ability to instruct. She is now the instructor of reading, spelling and English in the eighth grade in Olton Schools.

She was born in Granite, Okla. At the age of 13 she and her family moved to Floydada. They stayed there only one year and then returned to Oklahoma. This time they settled in Lone Wolf. She entered the eighth grade in the Lone Wolf schools and continued there until her graduation from high school.

Mrs. Campbell has two brothers and one sister. R. L. is a farmer near Olton and brother Jewel is a farmer near Granite, Okla. Her sister, Mrs. Bertha Martin is a housewife in Elk City, Okla.

One incident which is prominent in the memory of Mrs. Campbell is hearing her Grandfather Lyon preach when the regular circuit rider was unable to make it to the churches. Linnie declares that some of the best sermons that she has ever heard were preached by Grandfather Lyon.

Her first chance to teach came when she was a junior in high school. The faculty of the school each year chose a junior and a senior student to be substitute teachers for the school system. Linnie was chosen as the junior and Susie Hanna, now Mrs. Roye Aikman of Olton and a teacher in the primary grades, was the senior student.

An unusual experience which happened while she was substituting in the primary grades is sighted by Mrs. Campbell: "There was one small boy in the class who we had been told to try to help but not to worry about him because of his low mentality. I

was very busy with the rest of the class when I noticed that he wasn't taking part. I turned around and saw that he was lying down and had gone to sleep!"

Mrs. Campbell's first school was at Perry, Okla. Her position required the instruction of the first through the eighth grades. Some of the students were older than Mrs. Campbell—she having graduated from high school only a few months before—and several of the boys were taller. She laughingly says that she had to look up to those boys. Although some students were older and taller, no discipline problems presented themselves.

She was teaching at the New-Kirk, Okla. schools when she married John Campbell. She had met him while they were both in the eighth grade at Lone Wolf.

After her marriage, she quit teaching and didn't resume her career until both of her daughters were ready for high school.

Her daughters, Eleanor Sudduth and Carmaleta Barnett, both live in Olton. Carmaleta is one of the third grade teachers in the primary school.

Carmaleta and Mrs. Campbell both teach in the Olton schools. This is something that is very unusual, for not very many mother and daughter combinations are found in the same school system.

Both of her daughters have a child who was born on July 5. John Carl Sudduth will be two on that date, and Kim Barnett will be one. These two are her only grandchildren.

Mrs. Campbell was vice president and secretary of the former Faculty Club and she started the Classroom Teachers' Club. She served as president of that club for two years.

She organized the Campbell Future Teachers of America club in the high school. She has served as sponsor of that group for three years.

Until last year she had a Sunday School class at the Baptist Church. She was assistant teacher of the young married ladies' class and taught the intermediate class for some time.

A member of the Eastern Star for 32 years, Mrs. Campbell is a Past Worthy Matron. Both of her daughters were members of the Rainbow Girls, which is a branch of Eastern Star, and Eleanor was a charter member of the local association.

Did you (like me) think you were "off your rocker" when it began snowing Sunday (right in the middle of the downpour of rain)?

Wanda (Mrs. Doug) Owen had a very nice idea. She gave a "hello" Coke party Saturday afternoon as a chance for us young matrons to meet the new young married women in town.

Everyone was enthused over meeting personality-plus Florence (Mrs. Max) Malone; beau-

tiful Joy (Mrs. Allen) Johnston; and captivating Peggy (Mrs. Garland) Duprain.

It hadn't been raining like "mad"—more would've been buzzing around at the party.

Seems like Olton has more than her share of charming, lovely young matrons, who are new in her city limits.

By the way, Peggy and Joy have both taught school. Now there's some pretty substitutes when you teachers are sick!

Ugh! What delicious-sounding dishes they're serving in the fancy food department at the annual food and confection show in New York...
