Vichy States U. S. Boats Are At Suez

Willkie States Goods Must Get To Britain

Republican Leader Assures FDR Full Support Is Certain

By The Associated Press

WASHINGTON, May 3.—Wendell L. Willkie, saying that the administration's existing sea patrol "is not adequate," declared today that "we have got to get the goods delivered to Great Britain."

"The rate of sinkings is so serious that we should protect our cargoes of arms and food to England," the 1940 Republican presidential nominee asserted in an interview.

It was reported authoritatively that Willkie had sent word to President Roosevelt that he would support him in any move the Chief Executive might make to assure the delivery of American goods to Britain. Willkie himself told reporters.

"If my information is correct, the present patrol method is not adequate to prevent our products from going to the bottom of the ocean."

Would Get Expert Advice

Replying to reporters' questions, Willkie asserted that if he were president he would have military, naval and air experts advise him regarding the best method of protecting the shipments to Britain and then he would proceed on their advice.

"I am absolutely in favor of delivering the goods," he said, "whether it be by convoy, airplane accompaniment or any other method deemed best."

At the Capitol, meantime, there were indications that Congress would hear increasing demands from some of its members for American convoys.

Senator Guffey (D-Pa) voiced the first such plea on Thursday, and it was disclosed today that Senator Pepper (D-Fla) would express similar views in a Senate speech on Monday.

Defense Bond Sales In Midland Increase

Sale of defense bonds in Midland jumped yesterday with sales amounting to $3,500 at the Midland postoffice.

The total sale of individual bonds is approximately $6,031, Postmaster Allen Tolbert said.

Signs Bill Involving Lands In West Texas

AUSTIN, May 3—(AP.)—A bill signed today by Governor W. Lee O'Daniel will bear importantly on West Texas lands, land commissioner Bascom Giles declared.

The measure, by Rep. C. H. Gilmer of Rock Springs, provides all principal obligations of school land purchases will not become due before Nov. 1, 1951, thereby increasing the state's income through interest, Giles said. He added it would eliminate the necessity of land purchasers refinancing in order to meet obligations.

Oil Increases As Crane Deep Well Swabs Out Fluid

By Frank Gardner
Oil Editor

Prospects of the first West Texas production below the 10,000-foot level were further brightened yesterday as Gulf Oil Corporation No. 1-F University, in Eastern Crane County, swabbed two and one-half barrels of fluid per hour, three per cent oil and the balance wash water.

Oil was showing through over 7,000 feet of fluid. At last reports, oil and wash water had been lowered to 3,500 feet from the surface and swabbing continued through 2-inch tubing. No. 1-F University is bottomed at 10,658½, approximately 30 feet in the Ellenburger, lower Ordovician, cores of which carried oil stains. It is believed the well will attain commercial production when swabbed down and acidized. Location is 990 feet out of the southwest corner of section 22, block 31, University survey.

In the southwest extension area to the Sand Hills Ellenburger pool of Western Crane, Gulf No. 23 W. N. Waddell et al is drilling at 4,036 feet in Permian lime.

To Shoot 6 Wristen

It was reported yesterday Gulf will pull tubing, clean out and shoot with nitro in its No. 6 Wristen Brothers, second producer in the Shipley Silurian pool of Southeastern Ward County. Rated at 782 barrels a day after treating with 5,000 gallons at total depth of 7,080 feet, the well's output showed a marked decrease after second acid job of 10,000 gallons, only 195 barrels being tanked the last 12 hours of a 24-hour test.

Potential test is being taken at Continental Oil Company No. 8 J. S. Todd Unit, new producer extending the Todd Deep pool of Crockett County one-quarter mile south and east. Yesterday, after acidizing with 2,000 gallons, it was flowing from 25 to 30 barrels an hour. Producing horizon is crinoidal lime of the Strawn, lower Pennsylvanian, topped at 5,833 feet. Total depth is 5,879 feet in Strawn shale.

A scheduled 8,500-foot Ordovician test in Southeastern Reagan County, Amerada Petroleum Corporation No. 1-RA University, is drilling at 4,807 feet in black shale.

Teague Still W. O. C.

Magnolia Petroleum Company No. 1 N. B. Teague, in Northern Martin County, yesterday still was standing after cementing off 60 perforations in 5½-inch casing from 6,723-53 feet. It had swabbed salt water after the perforation job. Operators plan to re-perforate casing in a slightly higher horizon. Total depth of No. 1 Teague is 7,701 feet in lime.

Mascho Oil Company of Midland No. 1 M. M. Fisher, Northwestern Andrews wildcat, had drilled to 3,065 feet in red rock and anhydrite. The same firm's No. 1 University, also in Northwestern Andrews, still is shut down for repairs at 975 feet in red beds.

North of the west central part of the county, Magnolia No. 1-20-38 B. B. Ralph is rigging up rotary and drilling water well.

Anderson-Prichard Oil Corporation No. 1 F. L. Woodley, one-mile northwest outpost to the Cochran

Royal Air Force Fighters Shoot Down Six Planes

Nazis Throw Power At London And Spread Out Over Various Sectors

By The Associated Press

LONDON, May 4 (Sunday).—Britain's night fighters shot down six German bombers last night and early today in the first hours of a terrific duel with strong forces of Nazi raiders.

Liverpool — for the third straight night — appeared main target. Bombers rained down explosives there without the usual preliminary tactics.

Bombs falling on an East Coast towns caused several casualties among civilians trapped in wreckage.

The raiders fanned out over England.

John Garner Glad To Be John Citizen

John Nance Garner sits at his home in Uvalde, retired from politics and getting a "'kick" at being a private citizen for the first time in 45 years. The former vice-president is 72.

British Forces Take Opponents In Desert Rush

Axis Soldiers Stab At Britons At Tobruk But Make Little Progress

By The Associated Press

CAIRO, Egypt, May 3.—A British mechanized force cutting behind the German and Italian positions on the Egyptian frontier has raced across the desert plateau and taken by surprise a considerable body of Axis troops, middle eastern headquarters announced tonight.

This bold sortie, reminiscent of the tactics used in routing the Italians last winer, was carried out in the Salum sector while the Axis forces stabbed repeatedly at British-held Tobruk, 80 miles to the west, only to wind up still in the southwestern corner of that port's outer ring of defenses.

The thwarted Tobruk assaults

Convoy Goes Along With Aid Vessels

British Forces Repulse Attacking Iraq Troops In Area Of Basra And Contingents Arrive To Reinforce Soldiers Fighting In Wider Sector

By The Associated Press

British forces fighting spreading war in Iraq were reported early today in London to have repulsed attacking Iraq soldiers in the area of Basra, Persian gulf port, several hours after Vichy, France, sources said 26 American ships carrying war material had arrived at the Suez Canal.

Two contingents of British reinforcements have landed at Basra in recent days to help protect Britain's precious Mosul oil fields. Battling near Basra indicated the small-scale war had bubbled over into a new area. For two days most of the fighting has been west of Baghdad at Habbaniya airdrome.

The Vichy reports, coming from usually reliable diplomatic informants, said the American merchantmen were accompanied by "convoying" United States warships.

Immediately upon receipt of the report, the Navy Department in Washington, D. C., stated bluntly: "No United States Navy ships are employed in convoy duty."

These may be ships that left the United States with war material intended for Greece and Yugoslavia and were cleared for Red Sea ports after President Roosevelt's recent suspension of the neutrality ban on those waters. These were understood by maritime sources to have been Yugoslav and Greek freighters. Some informed sources suggested, however, that American vessels also might have sailed for Suez via the Cape of Good Hope.

Berlin Is Non-Committal.

Some British material losses in Greece are being offset by new equipment, much of it American-made, arriving in the Middle East, British sources in Cairo said Friday.

Berlin maintained a close-mouthed attitude concerning reported appeals by Iraq Premier Raschid Ali Al Gailani for Nazi military help.

But it was apparent Germany was not overlooking the possibilities of the Iraq fighting.

The Reichstag was called for a session tonight (Sunday) at 6 p.m. (10 a.m. CST) to hear "a declaration of the Reich's government." There was no further inkling of the purpose of the meeting.

The Ankara, Turkey, radio said Britain has at least 50,000 troops in Iraq.

The British admitted that a number of RAF planes had been destroyed on the ground and casualties suffered by British troops during the fighting at Habbaniya Airdrome, west of Baghdad, but answered Axis reports that Iraq forces had seiged all oil wells in the country with the statement that they had always been in Iraq hands.

Moreover, authoritative sources asserted that Iraq oil was still flowing through pipelines to the Mediterranean.

Heavy Rains In Texas, Oklahoma Force Rivers Out

By The Associated Press

A six-inch rain sent rivers in Texas and Oklahoma roaring out of their banks yesterday threatening highway bridges, and livestock.

Oklahoma highway workers were placed on guard at the Red River bridge on U. S. Highway 277 near Burkburnett as the stream was three feet below flood level and still rising.

At Victoria in South Texas the Guadalupe was slowly rising at 30 feet. Record stage there is 31.4 feet reached in 1936.

Lowlands south and west of Victoria were under water. The river was two to three miles wide.

Arterial highways were closed in the Austin area.

Traffic was expected to be resumed on the Fort Worth and Denver Railroad where three washouts were reported in Northwest Texas.

At Camp Hulen on the Texas Coast a heavy wind lashed the camp theatre into a welter of muddy canvas and smashed equipment. Torrential rains accompanied the twister.

The rain belt extended roughly over all West Texas from the Panhandle to the Gulf and Western Oklahoma.

Typical reports were: Alice 2.34, Carrizo Springs, 1.30, Fe...arrias 2, Hondo, 1.17, Uvalde, 1.28, Corpus Christi 2.48.

In West Texas: Ballinger 1.90, Big Spring 1.86, Brownwood 1.80, Dublin, 1.12, Eastland 2.40, Haskell 3.25, Kerrville, 1.31, Lampasas, 1.12, San Angelo, 1.63, Abilene 2.14, Brady 1.37.

Weather Breakup Predicted Monday

The Midland area, soaked by the heaviest spring rains in years, today faced prospects of continued wet weather.

Downpour began Friday and totaled 1.05 during the day. More rain Friday night and early yesterday totaled 1.25 bringing the 48-hour mark to 2.40 inches.

It rained again last night. At midnight the skies were heavy and no breakup was predicted until tomorrow.

The Midland Municipal Airport reported three and one-half inches of rain fell last week.

Highway traffic into the city moved cautiously but no accidents except a minor crash Friday afternoon were reported. No one was hurt, officers said.

Trains and buses were on time or near schedule. The Texas & Pacific railroad dispatcher reported the weather clearing near El Paso.

Office To Refund 136 Truckers Of Midland

The Midland County tax assessor-collector's office received notice from the State Highway Department of the approval of $2,673 refunds to 136 truckers in this county, under the new truck load limit law.

The tax office anounced yesterday it was ready to make the refunds and it requested truckers who registered vehicles for more than 6,000 pounds to call at the office.

Truck owners also will be asked to bring original license receipts.

The Traffic Cop

We now have our new chief of police, the new traffic ordinance has been published and Monday morning is the time to call you on all violations.

I want to help all I can so here are some dos and don'ts.

Do drive sanely at all times.

Do be courteous always.

Do give the other fellow the benefit of the doubt.

Don't turn right on a red light unless you STOP first.

Don't argue with the officer, take the ticket and argue with the judge.

Don't drive too fast, twenty-five miles an hour is plenty fast. Give the new chief a break as well as your fellow citizens.

LATEST NEWS FLASHES

Releases Richards Under $5000 Bond

HOUSTON, May 3—(AP)—Lucyle Richards, 27-year-old rodeo performer, was released under $5000 bond tonight on charge of murdering Frank Y. Dew, ranchman and rodeo promoter. Dew was shot to death in his apartment last Sunday night.

British Claim Eleven Planes Shot Down

LONDON, May 4 (Sunday)—(AP)—British night fighters reported today they shot down 11 German raiders as swarms of Nazi planes battered Britain's east and west coasts and bombed Liverpool hour after hour for the third successive night.

Carol And Madame Head For Cuba

ABOARD THE S. S. EXCAMBION, AT SEA, May 3—(AP)—Cuba-bound and happy about it, former King Carol of Rumania and Mme. Magda Lupescu put distance behind themselves and Europe's war-flaming atmosphere today.

Flames Sweep Manila Killing Three

MANILA, P. I., May 3—(AP)—Roaring flames raced through 3,000 tinder-like native houses crowded into a three-mile square area of the Tondo district today, killing three Filipinos and leaving 25,000 homeless.

Berlin Observers Predict Vital Turning Point In War As Reich Eyes Middle East Phase

By Alvin J. Steinkopf

BERLIN, May 3—(AP)—An important turning point in the war appeared almost at hand tonight as Berlin concentrated its attention on the swiftly moving events in the Middle East.

The possibility of some declaration of policy was discussed in informed quarters, and the words, "new phase" was being heard as events speeded up in the eastern Mediterranean and Asia Minor.

To date Germans have divided the war into sharply distinct phases: Poland, Norway, France, the Balkans.

Germans asked one another: Will a similarly distinct campaign be the Reich's next move?

Authorized spokesmen were non-communicative save for such observations as "the war doesn't stand still" or "coming events cast their shadows before them."

But Germany's intense interest in the Near East was obvious and the cheering for Iraq, now fighting the British Imperial forces, swelled as news reports told of expanding operations there.

Informed German sources estimated British shipping losses since the beginning of the war at close to 11,000,000 tons and added: "With the exception of the United States, there is no country which can relieve Britain's need for shipping space."

NEWS AT A GLANCE

HIGHER TAX MANDATE

WASHINGTON, May 3—(AP.)—Some members of the House Ways and Means Committee said today they viewed President Roosevelt's request for a $3,500,000,000 tax bill that would not "make the rich richer and the poor poorer" as a mandate for higher income taxes rather than new sales taxes.

* * *

IT WON'T "WILL"

CAMP ROBINSON, Ark., May 3—(AP.)—A tongue-tied whipporwill has the officers of the 137th (Kansas) infantry tearing their hair. The night bird haunts the officers' quarters. It starts out on the "whip-poor—" call in great shape but can't get out the "will."

"The damned thing is driving us mad," said Capt. Guy E. Vining of Horton, Kas., adjutant of the regiment. "Its like hearing an orchestra play everything in a song but the last note."

* * *

ANT HALTS FREIGHT

KANSAS CITY, May 3—(AP.)—A tiny red ant—the kind that climbs into your potato salad at picnics—halted a 67-car fast freight for 20 minutes today.

Electricians found the insect between the contact points of an automatic switch that refused to function.

* * *

HITS SECRET ARMIES

PARIS, Tex., May 3—(AP.)—Rep. Martin Dies continued his attack today on secret armies of totalitarian states operating in the United States in the 25th speech of his campaign for the United States Senatorship.

* * *

FDR TALKS AT 11

CHARLOTTESVILLE, Va., May 3—(AP.)—President Roosevelt today visited the home of President James Monroe, author of the famous doctrine barring further European colonization in the Americas, and then began drafting an address to dedicate as a shrine the birthplace of Woodrow Wilson, the World War president.

Mr. Roosevelt's address will be delivered tomorrow noon (11 a.m. Central Standard Time) at Staunton, Va.

OPM Slashes Output Of Automobile Firms

WASHINGTON, May 3—(AP)—Automobile manufacturers were advised by the Office of Production Management today that they could make 4,224,152 vehicles in the model year beginning August 1.

Individual allotments were assigned to each company, but officials said that the figures would not be disclosed by firms.

It was learned, however, that General Motors Corporation, Chrysler and the Ford Motor Company were reduced 21½ per cent below their production this year.

Total output of the automobile industry this year was estimated at 5,289,974 cars and the overall reduction will amount to 1,057,994 or 10.15 per cent.

Battalion To Hold Extensive Practice If Weather Permits

Stymied by the weather, soldiers of the Provisional Searchlight Battalion dug in for a week-end of rest and recreation yesterday and hoped for a break that would permit extensive maneuvers this week.

The soldiers last night, many of them with leave for the first time since paydays Thursday and Friday, were spending a lion's share of the $32,000 payroll with Midland businesses.

They had to wear their raincoats and left their tents six inches deep in water but the hardy northerners came to town last night.

Officers' pay of $5,000 Friday completed the payroll of the three batteries. The soldiers were paid $18,000 Thursday and $9,000 Friday.

Spirit Not Dampened

Officers yesterday said the spirit of the men was "definitely not dampened by the weather."

The men were combatting the flooded camp area Saturday, digging drainage trenches and otherwise setting the camp in order.

Utilizing every available hour of favorable weather this week, the batteries will practice day and night if possible.

If the maneuvers end on schedule camp will break May 15, completing the six-weeks period.

Service To Defer Medical Students

WASHINGTON, May 3—(AP)—To avert a possible national shortage of doctors, the selective service system today ordered deferment of military training for medical students who "give reasonable promise of becoming acceptable medical doctors."

A memorandum from Brigadier General Lewis B. Hershey, selective service deputy director, instructed state and local boards to continue such deferments as long as the students progressed satisfactorily.

Local boards were urged to make sure that requirements of the armed forces for physicians and surgeons were filled, without summoning to military duty practicing doctors whose services were necessary to the community.

Army Will Induct Three Men May 26 In Midland County

The Midland County draft board yesterday received a call for three men to be inducted May 26.

The call was the second in May for white men. Three will be inducted May 7 from this county. Two negro volunteers will be inducted May 19.

A volunteer, a transfer, and a draftee, are available for the May 7 call. The draft board expects to fill the May 19 call with volunteers.

Questionnaires Will Go To All Registered

AUSTIN, May, 3—(AP)—Questionnaires will be sent immediately to all selective service registrants although the procedure will not alter previously announced draft calls, state selective service Director J. Watt Page announced today.

The order which was dispatched to all local draft boards was to expediate classification and cut down time between calls for new selectees and their actual induction, Page said.

With classification complete, draft boards can more readily select the men to be called for physical examinations as quotas are announced, it was explained.

Mountain Locomotive Explodes Killing Four

SALINAS, Calif., May 3—(AP)—A huge mountain locomotive pulling a 94-car Southern Pacific freight train exploded with a deafening blast today, killing four trainmen and hurling jaggered smoking steel in all directions.

Twenty boxcars and oil tank cars piled up like toys along the right-of way. Wreckage of the powerful engine rolled 250 feet down the track after the blast and remained right side up. The explosion occurred six miles north of Salinas.

Mann Gives Pledge To Help Roosevelt

GLENROSE, May 3—(AP)—Attorney General Gerald C. Mann today pledged cooperation with President Roosevelt if he is elected to the United States Senate in the special election on June 28.

Behind The Headlines

By Kirke L. Simpson

Assuming Hitler will waste no time in seeking to exploit his Balkan victories, conjecture as to where he will strike next against Britain runs a wide gamut.

There is little yet of a definite nature, yet there is growing belief both in London and in Washington that England itself will bear the brunt of the new nazi-blows—this despite Nazi-Fascist diversions in the Mediterranean and Middle East.

Such a conclusion is suggested by American moves to extend sea patrol protection far into the Atlantic and to supplement quickly tonnage available for British war uses. Both London and Washington are increasingly apprehensive that a decisive shipping crisis in the Atlantic might come soon, months earlier than heretofore anticipated.

Prime Minister Churchill recently indicated to Parliament that he did not expect Britain's shipping problem to become critical before 1942.

No Official Estimates

There has been no official statements from London on shipping losses since mid-April. None is due before mid-May. However Berlin claims its air force, submarines and surface craft sank 1,211,000 tons of British merchant shipping space or space used by the British during April. Other scources tend to confirm some if not all German claims.

Rising uneasiness in London parliamentary circles is reported over recent developments in the Atlantic. It has inducted a promise by Churchill lieutenants of an accounting, probably in connection with the government - demanded conference vote test next week.

Escape from Greece of a far larger part of the Imeprial forces trapped there than could reasonably have been expected virtually assures an emphatic approval of Churchill's leadership. Cumulative

Lindbergh Declares U. S. Cannot Make British Nation Stronger Than Germany But Can Defend Ourselves

ST. LOUIS, May 3—(AP)—Charles A. Lindbergh declared tonight America was not prepared to wage war abroad successfully but pleaded that we must and can defend our own nation.

He stressed particularly, in a speech prepared for an America First Committee rally, what he said was our inadequacy in the air.

He said that no matter how many planes we built and sent to England, we could not make the British Isles stronger than Germany in military aviation.

"Not only is the performance of some of our vital types of service aircraft inadequate, but our total air force in the United States today, including both Army and Navy, both modern and obsolescent types, is not more than Germany can produce in a few weeks," he said. "It is a small fraction of her present air force. To enter a European war today with our air force would be almost as great a folly as that committed by France when she declared war on Germany in 1939."

It was Lindbergh's first speech since he resigned his colonel's commission in the Air Corps Reserve last Monday.

"This is the third great nation that I have watched being led into war without adequate preparation and without the true facts and issues of the war being placed before the people," he continued.

"I have seen France fall; I see England falling, and now I see America being led into the same morass."

A BIBLE THOUGHT FOR THE DAY

CHRIST RAISED HUMANITY TO THE DIGNITY OF DIVINE SONSHIP: And the high priest said, I abjure thee by the living God that thou tell us whether thou be the Christ the Son of God. Jesus saith unto him, thou hast said; nevertheless I say unto you, Hereafter shall ye see the Son of man sitting on the right hand of power, and coming in the clouds of heaven.—Matt. 26:63, 64.

About National Unity

It is perfectly clear that an appearance of disunity is a disadvantage to any country today. Other countries, to whom its policies are opposed, take heart from such signs.

However, any country which bases its policies on appearances of disunity in the United States today, is making a grave mistake. Only a country untrained in the democratic process could make the grave error of assuming that because there is discussion of the best future course for the United States there is any essential disunity regarding any course, once adopted.

* * *

The very essence of the democratic process is full debate on the merits of possible courses of action. But once those courses are chosen, democratic peoples no less than others are capable of closing ranks. Peoples in many other countries were amazed last year to see so spirited a national election so soon forgotten, its wounds so superficial, its bitterness so soon buried. So any country will be unpleasantly surprised which hears the acrid debate now going on about American relations to the war in Europe and deduces from it that the American people are basically disunited.

Too much unity before a course is finally decided upon would be a bad sign rather than a good one. It is only in choosing from among several courses that the democratic way really functions. It is idle, and worse than idle, to impeach the motives of adherents of one course or another without the fullest proof. Those Americans who wish anything but the good of their country are so few as not to count at all.

The basic, essential unity of the American people is there—they are all seeking what they believe is best for our country. The differences are only in what is the best course to achieve that good. It is natural, it is democratic, that there should be such differences, and that they should be heard.

* * *

The mistake is to reason from such differences to any essential cleavage among the people. There is none, and there will be none. Once decisions are made, and courses definitely charted, the American people will know how to rally united to supporting them. A hundred and fifty years of the history of the republic are proof that this is so.

Let not foreign countries, and above all let us not ourselves, confuse debate over policy with basic disunity in support of the republic once those policies and courses are set. The American people is a united people, welded and riveted together by ties of devotion to our free institutions which are not shaken by the whirlwind of debate or the hasty passions of a moment.

What Goes To Greenland?

What steps the government has taken to make good its guarantee to Greenland have not been revealed. To reveal now exactly what they are might be unwise from the military point of view.

It is to be hoped, however, that they are adequate steps. Nothing is worse than bluffing. We have said that we would not permit Greenland to pass into the hands of another European power than Denmark. We must make good. It must be made clear that when we draw a line, we hew to it. Whatever force is sent to Greenland must be neither too little nor too late. The folly of such gestures has been all too clearly shown.

When the information can be given without endangering the enterprise, the American people ought to know just what is being done. They ought, even before that, to be assured that what is being done is adequate.

Proud Purchasers

A long line of proud purchasers is visiting postoffices. They are the patriotic citizens who are entrusting their savings to their government.

By so doing they will be doing three things: providing part of the money needed for defense; providing a cushion of savings to help themselves and keep business buoyed up when the emergency is over; and voluntarily restricting their own present purchasing power and thus helping to avert the danger of price inflation.

Those are three mighty important objectives to achieve by merely stepping up to a window and pushing through a little spare money. They justify the pride every man and woman will feel as they stride home with the little savings bond tucked away in pocket or purse.

It's foolish to let secrets worry you. They're really nothing to speak of.

It's warm enough now to use your vest to patch your pants.

When in Rome, one no longer does as the Romans do. Even the Romans now must do as the Germans do.

Looking Over The Money Situation

Refugee Troops Still Block Oil

SOMEWHERE IN THE MIDDLE EAST, May 3—(AP.)—General Dusan Simovic, premier of the refugee Yugoslav government, declared today his troops had so effectively blocked the Danube river that it would be at least three months before the Germans could move any Rumanian oil into the Reich by barge.

Simovic said barges full of concrete had been scuttled in the Iron Gate, the gorge-like passage on the Yugoslav-Rumanian border and that by the most conservative estimates it would take three months to clear a channel.

The German radio reported only yesterday that the Danube had been cleared for traffic despite the Yugoslav sinking of barges and dynamiting of bridges wherever possible.

•CRANIUM CRACKERS

Cook's Tour.

Most of these foods could be found down at your neighborhood grocery store, but it would take quite a trip to visit the land of origin of each. Make a magic carpet out of your cook book and see if you can tell which of the countries named would be associated with the following foods.

1. Smorgasbord. (a) China; (b) Bulgaria; (c) Sweden; (d) Brazil.
2. Ravioli. (a) Italy; (b) Latvia; (c) Iran; (d) Iraq;
3. Hot Tamale. (a) Chile; (b) Greenland; (c) Mexico; (d) Russia.
4. Edam Cheese. (a) China; (b) Yugoslavia; (c) Netherlands; (d) Canada.
5. Borscht. (a) Greece; (b) Turkey; (c) Hungary; (d) Russia.

HERE FROM COURTNEY

Mr. and Mrs. Sid Cross and family were Midland visitors Saturday.

I. O. O. F. Members To Attend Big Spring Installation Meeting

Deputy Grand Master W. E. Johnson and members of the Midland I. O. O. F. lodge will attend an annual officers installation ceremony for the Big Spring lodge at a meeting there tomorrow night.

Nine new members of the Midland I. O. O. F. were initiated here Friday night. They are: C. E. Williams, E. L. Helbert, C. A Ponder, Roy Kennemer, W. W. Waddill, C. J. Friday, Thomas Gill, W. C. Tillman, and A. E. Murr.

The meeting ended a contest membership drive for the Midland lodge. A "blue" team won over a "red" team. Losers will entertain winners at a fried chicken dinner at 8 p. m. Friday night at the lodge hall, at Texas and Main streets.

First degree work will be given 15 candidates at the meeting.

May 23 a group from the Hobbs, N. M., I. O. O. F. will put on third degree work here for 15 or 16 Midland candidates.

Prison 'Home' For Toughies Is Museum

YUMA, Ariz.—(UP)—If the ghost of Pearl Hart, first "lady" stage robber of the old West, and that of Swede Rogers, as cool a murderer as ever fired a six-gun, are unusually unhappy today, there's a reason for it.

The old Arizona Territorial prison, which served as "home" for so many years to Lady Pearl, Rogers and scores of other toughies of the old West, has been converted from a grim showplace for tourists to a respectable and staid museum to house relics of days gone by.

Horsemen Of Today Follow Bridle Path

MEMPHIS, Tenn. (UP).—It was a long time ago that the car replaced the horse, but the day of the horse is still far from done. Today more horsemen and women will be found following the bridle paths than riding through the hills of Tennessee.

It used to be that the city folk went to the country when they wanted to ride a horse, but now it isn't at all unusual for the farm youth to drive to town to get a mount. The automobile has replaced the hay burner down on the farm, and tractors are fast taking over the duties of plow horses.

Business Men Attend Inventions Exhibition

A dinner and demonstrations of synthetic products and modern scientific inventions were given Friday night by representatives of General Motors to approximately 40 Midland men in the Crystal ballroom of Hotel Scharbauer.

Ernest L. Foss, director of Previews of Progress to be presented here tomorrow and Tuesday, conducted the demonstrations. Edward A. Bracken Jr., of General Motors presided at the dinner and introduced Foss.

DEMAND FOR EFFICIENCY!

That's Why Heavy Power Installations and Chrysler Cars Have *Fluid Drive*

"Immediate adaptation to variable power load"... that's how science describes the function of *Fluid Drive.*

To give gasoline engines the fluid flexibility of steam was long the goal of research engineering.

Efficiency and economy were demanded ... for industry must count the last penny of cost.

Flexibility to meet all load conditions ... scientific control of power slippage in place of the hit and miss power loss of individual driving ... ability to pick up great loads easily ... these were the economic requirements of industry.

Fluid Drive was the answer! Today the identical principle that drives your Chrysler Car is efficiently serving in Diesel powered ships ... great double-deck busses ... heavy tractor-trucks ... giant industrial refrigeration plants.

Fluid Drive gives industry, as it gives the driver of a Chrysler Car, double economy ... efficient application of power ... plus longer life because of lessened strain from jerks and jolts.

Now you can have this two-way efficiency in your own car—if it's a Chrysler—and in addition ... ease, smoothness and silence possible only with genuine *Fluid Drive.*

Owners of *Fluid Drive* Chryslers, for the third year, are reporting greater economy than from their former cars.

Why shift gears? Why stumble away when you can glide away? Chrysler *Fluid Drive*—jerk-free and jolt-free—is easier on both car and driver. The nearest Chrysler dealer cordially invites you to make a real test of *Fluid Drive* efficiency and ease.

BE MODERN WITH FLUID DRIVE AND VACAMATIC TRANSMISSION **BUY CHRYSLER!**

Carpets of Glamour

AN EXHIBITION of the Finer Fabrics of Today

Do you know the thrilling new beauties that are coming into carpeting? Have you seen the famous luxury creations which are setting the decorative trend of today? Are you looking for the high-style accent that sets a home apart? Then ... see this Exhibition which brings you the front-rank creations of the Makers of Gulistan ... carpets that have just been awarded the Gold Seal of the N. Y. World's Fair. See what wonderful things these fabrics do with color! Shimmering tone-upon-tone in the rich, silky fabrics of Gulistan and Trianon Carpeting! Carved and relief effects produced by a new weaving process, in Renaissance Carpeting. Unusual and exquisite decorator shades: Amethyst Rose, Roseglow, French Blue, Peachblow, Satinwood and many others. All these are shown in large display pieces grouped in suggestive color combinations by our decorators.

BARROW Midland, Texas

Former Midland Lumber Man Dies

Funeral services and burial for A. Harry Anderson, former Midland lumber dealer who died in California, will be held tomorrow afternoon in El Paso.

A telegram to Ray V. Hyatt, secretary of the Midland Masonic Lodge, said Masonic rites would be conducted by the Five Points Lodge No. 1137 of El Paso. Pall bearers will be 33'rd degree Masons.

Anderson lived in Midland from 1926 until 1940. He was co-owner of the Anderson, Sundquist Lumber Company. He was married to Mrs. George Gray, Midland, who died two years ago. Anderson was an active member of the First Presbyterian Church here, also a member of its board of elders.

He is survived by a daughter who lives in California.

UNNECESSARY NOISE DETRIMENT TO NERVES

STATE COLLEGE, Pa.—(UP).—Unnecessary horn-blowing, riveting and similar sudden and unexpected noises may do serious harm to the human body's nervous system, Dr. R. K. Bernhard, head of the department of engineering at Pennsylvania State College, believes.

Dr. Bernhard, who has just published studies measuring the effect of sounds and vibrations on both inanimate structures and human behavior, said that "there are definite limits to the amounts of noise and tremors the body can bear."

Flashes Of Life

CLEVELAND, May 3—(AP.)—David Newman, 36, arrested as he passed a cemetery at 44 miles an hour, explained: "I just have a fear a cemeteries. I like to get past them in a hurry. It's sort of a complex."

Judge William J. McDermott ruled it would cost Newman $5 for exercising that complex.

—O—

WILSON, N. Y. May 3—(AP.)—Mrs. W. J. High won two automobiles in contests while living at No. 307 Whitehead avenue. Later she moved across town and Mrs. Sid Webb moved in. That night, Mrs. Webb won a $150 theatre jackpot.

—O—

CAMP EDWARDS, Mass., May 3—(AP.)—"Popeye," the mascot parrot of Battery E, 180th Field Artillery, has disconcerted the whole battery. When the brief command "attention" is shouted, Popeye promptly responds navally: "All hands on deck, the general is here."

—O—

GOLDSBORO, N. C. May 3—(AP)—Miss Siddie Outlaw, 91, checked up two firsts. Wearing a 30-year-old taffeta bonnet, she came to town from her farm home to see her first movie. Then she had her first manicure at a beauty parlor.

A box car will be here Monday for loading gifts for Buckners Orphans Home, Baptist officials have announced. Those who wish to donate, food, clothing, or other gifts are asked to take them to the car or, if more convenient, to the First Baptist Church.

Southeast New Mexico Center Of Permian Basin Interest As Pair Of Interesting Tests Staked In Lea

HOBBS, N. M., May 3—Lea County has gained two more interesting wildcats, further centering interest on the Southeast New Mexico portion of the Permian Basin.

Less than one and one-half miles west of the Texas-New Mexico line, Helmerich & Payne, Inc. will drill No. 1 Phillips Petroleum Company-State 1,980 feet from the south and 660 from the west line of section 3-14s-38e. The test is scheduled to go to contract depth of 5,800 feet unless production or sulphur water in the lime is encountered at a shallower point. It is five miles southeast of Ventura Oil Company No. 1 Lowe, 6,300-foot dry hole.

Harry Leonard and Van Welch have staked location for No. 1 State, a wildcat three and three-quarter miles east of production at the north end of the Halfway pool in Western Lea. It is 660 feet out of the northwest corner of section 18-20s-33e, on a geophysical prospect.

Other Lea Wildcats.

Favorable structural position was shown by another important Lea wildcat, J. W. Brown, Inc. No. 1 State, a scheduled 5,300-foot test six miles west of Lovington and eight miles northeast of closest production in the Vacuum pool. With elevation at 4,043 feet it topped anhydrite at 1,785 feet and salt at 1,902 feet. Base of salt was logged at 2,798 feet and the test is drilling ahead below 3,234 feet in red rock and anhydrite. It has encountered the Yates sand but sample cuttings have not yet been examined for determination of the point. String of 8 5/8-inch casing was cemented at 1,806 feet with 175 sacks. Location is 4,620 feet from the south and 1,980 from the west line of section 4-16s-35e, in the center of lot 11. Richmond Drilling Company of Midland, Texas is contractor.

Depth of 950 feet in red shale had been reached by Fullerton Oil Company No. 1 State, a 5,300-foot test seven miles north and slightly east of Maljamar production in Western Lea. The wildcat is located 1,980 feet from the south and 660 from the east line of section 18-16s-33e.

The Maljamar pool of Western Lea and Eastern Eddy counties added three producers and two new locations. On the Eddy side Emperor Oil Company staked No. 3-B Puckett 660 feet out of the southeast corner of section 24-17s-31e. In Lea, Barney Cockburn staked No. 9-A Pearsall 1,980 feet from the north and west lines of section 33-17s-32e as a short southwest outpost.

Maljamar Trio.

All three new Maljamar oilers are in the Lea sector of the pool. The largest, Carper Drilling Company No. 4-A Simon, 1,980 feet from the south and west lines of section 29-17s-32e, flowed 190 barrels of oil in five hours after shooting with 240 quarts of nitro from 3,755 to 3,905 feet. Flow was through open 2-inch tubing set at 3,773 feet. The well topped pay at 3,755 feet and was bridged back to 3,910 feet from total depth of 3,935 feet in lime.

Maljamar Oil & Gas Corporation No. 7-B Baish, 1,980 feet from the north and 660 from the east line of section 22-17s-32e, was completed for daily flow of 75 barrels through 3/4-inch choke on 2-inch tubing set at 3,200 feet. Gas volume was estimated at 4,500,000 cubic feet per day. The well was shot with 470 quarts from 3,850 to 3,990 feet. It topped pay at 3,850 feet and is bottomed at 4,002 feet in lime.

Maljamar No. 14-A Baish, 1,980 feet from the south, 660 from the west line of section 21-17s-32e, was completed at 4,125 feet in lime for natural flow of 80 barrels a day through open 2-inch tubing set at 4,050 feet. First pay was logged at 4,105 feet.

Eddy Wildcat Failure.

In the southwest part of the Arrowhead pool of Lea, Ohio Oil Company No. 21 State-McDonald, in the northeast corner of section 24-22s-36e, responded to treatment with 1,000 gallons of acid by flowing 60 barrels of oil in three hours through open 2-inch tubing set at 3,701 feet. Pay lime was logged between 3,653 and 3,716 feet, the total depth.

Ohio next will drill No. 22 State-McDonald, 2,310 feet from the south and 1,650 from the east line of section 13-22s-36e.

A wildcat failure in Eddy was witnessed at Basin Oil Company No. 1 Kimmell, one and one-half miles west of the south end of Lake McMillan. It was abandoned at total depth of 1,630 feet in lime. The failure showed oil in upper horizons amounting to about one and one-half bailers daily but ran into a hole full of sulphur water in lime from 1,470 to 1,480 feet, with an increase in water from 1,490 to 1,510 feet. It was 330 feet out of the northeast corner of section 5-20s-26e.

"My Home Town" Speaking Contest Is Monday Night

With high school speakers from 12 West Texas towns and cities scheduled to take part, preliminaries in the West Texas Chamber of Commerce-sponsored "My Home Town" contest for Districts 6, 7, 8 and 9 will be held in the auditorium of the First Presbyterian Church here at 8 o'clock Monday night.

Consolidation of Districts 7 (El Paso), 8 (Alpine), and 9 (San Angelo) with District 6 (Midland), in the district preliminaries was announced Friday by Supt. W. W. Lackey, in charge of the event here. The chamber of commerce is assisting in conducting the contest, open to the public.

The event is free of charge.

Towns having announced they will have entries here for the contest are: District 6, Big Springs, Odessa, Andrews, Lamesa, Wink and Midland; District 7, Balmorhea, Pecos and Marfa; District 8, Del Rio and Alpine; District 9, San Angelo.

Name Speakers.

Names of only four of the speakers had been received at the chamber of commerce office yesterday. Thy are: Miss Lois Murphy, Odessa; Miss Eva Jean Ferguson, Alpine; Miss Betty Hurt, Lamesa, and Miss Matylee Killmer, Pecos.

The Midland entry will be selected at a contest in the high school Monday morning. Three contestants are entered. D. D. Shiflett, principal, is in charge of the high school contest here. Names of speakers from other towns are expected today or Monday.

Three judges, one from Odessa, one from Big Spring and one from Midland, will judge contestants. Judging will be based 50 per cent on subject matter and 50 per cent on delivery.

Winner of the contest here will compete against other district winners for the Thomas Etheridge loving cup and other prizes at the annual convention of the West Texas Chamber of Commerce in Mineral Wells May 15 and 16.

Prize For Winner.

A $10 prize will be awarded the winner of the consolidated district contest here.

This is the first year preliminary district contests have been held in "My Home Town" speaking. The plan was originated to provide for the increased number of entries which have grown from six in 1929 to about 75 each year.

Contestants must be bona fide high school students and must prepare their own speeches. Only one contestant may enter from any community. Speeches are limited to five minutes.

Preliminary district contests are being held this year in Canyon, Lubbock, Wichita Falls, Fort Worth, Abilene Stephenville, and Midland.

Bishop Holt Speaks At Methodist Church

Guest minister at the First Methodist Church this morning at 11 o'clock will be Bishop Ivan Lee Holt of Dallas.

Ordained as a minister of the Methodist Episcopal Church South in 1909, Bishop Holt long has been a leader in affairs of the church, serving on numerous committees and with church organizations, as well as doing pastoral duty, teaching, writing, and since 1938, serving as a bishop.

Understanding Draft Board Bows To Cupid

PHILADELPHIA (UP)—When Albert Gaudioso sent out invitations for his approaching marriage, he sent one to the head of his local draft board. That's why Gaudioso will be married this year.

Just after the invitation had been sent, Gaudioso was ordered to report for army induction—two days before he was to be married. Sadly he called all his friends and told them it was all off for the present.

But Chairman Frank Massey of the draft board, who noticed for the first time after receiving his invitation how the army was interfering with Cupid, decided the army could wait.

As a wedding present, Massey not only postponed the date so that the marriage could take place, but gave Gaudioso an extra week for a honeymoon before reporting for service.

Giant Coal Shovel Hoists Forty Tons

MACON, Mo. (UP).—A power shovel so huge that it can pick up 40 tons of earth and rock in one scoop is being used at the Bee-Veer strip mine near here.

The shovel weighs 1,500 tons, towers as high as a 14-story building, and is rated as one of the largest in the world.

Yet for all its size, the machine works with ease, swinging its 40-ton load a distance of 300 feet, releasing it and then returning to its normal position in 45 seconds.

The shovel is electrically operated and is used to strip the earth from shallow deposits of coal.

CALIFORNIA SCIENTISTS UPSET MILK THEORIES

BERKELEY, Cal. (UP).—University of California scientists have upset long-lived theories concerning iron in the milk of cows.

They reported iron begins to appear in the milk within five minutes after iron-containing food is eaten by the cow, this repudiating earlier theories that it takes considerable time for a cow to break down her food and make iron available to the lactating cells.

Dutch Indies Maintain $100,000 Trade Balance

BATAVIA, Java (UP).—Despite large purchases of war materials from the United States, the Dutch East Indies has been able to maintain a favorable trade balance of approximately $100,508,000.

This figure is calculated on the fiscal period from January to November, 1940. Ability to accomplish this unusual feat in wartime is laid to America's need for raw materials available in the Netherlands East Indies.

To Study War Problems At Ohio Radio Institute

COLUMBUS, O.—(UP).—Radio problems arising during war times will be emphasized at the twelfth annual Institute for Education by Radio to be held by Ohio State University.

Representatives of networks, individual stations, schools and colleges and national organizations making use of radio are expected to attend the open sessions of the institute.

New Scout Chief

Lord Somers, former assistant chief scout, shown at his desk in London after assuming duties of his superior, the late Lord Robert Baden-Powell, founder and head of the Boy Scouts.

Sees Service Danger In Medical Students

CLEVELAND, O.—(UP)—Dean Torald Sollmann of the Western Reserve University School of Medicine believes that uncertainty over the selective service status of medical students constitutes a "very real danger" to both civil and military medical service in the United States.

Dr. Sollmann said that an uninterrupted supply of new and fully-trained physicians is essential to civil and military life and that the number of physicians in civilian practice now is no larger than the needs.

"An increase in the supply," he said, "cannot be provided for five or six years and a deficiency cannot be made good."

Bell Develops Board For Blind Operators

PHILADELPHIA. — (UP) — A Braille telephone switchboard for blind operators has been developed by the Bell Telephone Company and installed at the Pennsylvania Institution for the Blind at Overbrook.

The switchboard, instead of having lights to guide the operator, is arranged so that when a call comes in a buzzer signals the operator and a plunger on the line is elevated one-eighth of an inch.

Trained fingers find the "up" plungers and another jack is located by Braille characters. Another buzzer sounds when a conversation is finished.

FOR RIDE...ROOM.... or MONEY'S WORTH

YOU'LL FIND THIS FORD A HARD CAR TO BEAT!

What are the things that will count the most when you trade for a new car?

Is roominess one? . . . Then step into a new Ford and enjoy the greatest passenger space in the whole low-price field!

Is riding ease one? . . . Then drive a Ford and try the ride that's wholly new this year. The soft and quiet ride that many call the finest they have ever had in a low-price car!

Is big value the thing? . . . Then try out the fine-car engine . . . step on the extra-big hydraulic brakes . . . test the easy, fine-car gearshift and note the many other fine-car features that set the Ford apart among all cars near its price for mechanical excellence!

Is a good "deal" your aim? . . . Then let your Ford dealer make an offer on your present car, and learn for yourself how little it will cost to own the finest Ford car ever built!

Whirlaway Thunders Home And Wins Derby

Fast-Closing Colt Of Wright Brings $61,000 To Owner In Greatest Race, And Breaks Record Of Twenty Grand

CHURCHILL DOWNS, LOUISVILLE, Ky., May 3—(AP)—"Whacky" Whirlaway, the little chestnut horse with the big full tail and the blinding stretch speed, ran away with the greatest Kentucky Derby of them all today.

Fairly flying down the last long quarter mile, the stretch-running-est son the Blue Grass has boasted of in a long time galloped home by eight lengths, laughing off all the "ifs" they had tagged onto his chances and bringing screams of admiration from the biggest crowd ever to see a horse race in America—an officially estimated 100,000.

He did it by coming up from eighth place in the field of 11 under masterful handling by wise Eddie Arcaro, and he put the crusher on his critics so convincingly that his smashing speed broke the Downs and Derby record for the mile and a quarter. He hit the wire in the red-hot time of 2 minutes, 1 2/5 second, two-fifths of a second faster than it took Twenty Grand in posting the fastest previous time in the 66 years of derby history.

Far down the track and out of the money as he came bouncing home all by himself were the "big horses" of this race—Charley (Lucky) Howard's California-owned Porter's Cap and Royce Martin's Our Boots, the colts which they said would leave Whirlaway in the dust when he committed his usual racing 'sin' of running wide at the last turn. But the little standard-bearer of Warren Wright just pointed his tail out in back like a rudder and ran as true as an arrow to give Chicago its second straight derby victory and win by as wide a margin as any horse ever has taken this run for the roses.

$61,000 To Wright.

Only Johnstown in 1939 and Old Rosebud in 1914 ever made such a show of their field. It was as if the derby was run in two sections, and the only contest in the face found the rank outsider in the field, Hugh Nesbitt's Staretor, driving to a neck decision over another long-shot, the New oYrk owned Market Wise, from the barn of Lou Tufano, for second place. Porter's Cap, leading money winner among the three-year-olds up to now and the colt the Far West was writing songs about, finished fourth.

Ten lengths away from "Whirly's" waving tail, was Rocky Palladino's Little Beans, the invader from Boston, fifth; The Texas speed horse, Robert Kleberg, Jr.'s Dispose, sixth; Tom Bragg's Blue Pair, seventh; Our Boots, eighth; J. Fred Byer's Robert Morris, ninth; Emerson F. Woodward's Valdina Paul, tenth; and trailing all the way, Cleveland Putnam's mud-running Swain, The Californian, who just couldn't get started on the lightning fast track.

Everything, crowd, betting, time, the money in the race, and the roar of the backers of the blue grass boy, made this the biggest derby of all the 67 run here. By his victory, the flying little son of Blenheim II gave his family a Kentucky Derby triumph to join his daddy's English "Darby" conquest. He brought $61,275 to owner Wright, the largest purse a winner ever picked up in the case after this $75,000-added rainbow. He rewarded his backers a favorite's price of $7.80 for each $2 winning mutuel ticket held on him in the record-breaking derby handle of $654,353.

Lipan High Athlete Betters Mile Record

DENTON, Tex., May 3—(AP.)—Dalton Campbell of Hood County's Lipan High clipped 6.7 seconds off his own mile record of 4:43.6 today at the state high school class B track and field meet.

It was the only new mark set. Mertzon of Irion County and Orange Grove of Jim Wells County fought to a first-place tie in team honors.

Beaumont Exporters Defeat Tulsa Oilers

BEAUMONT, May 3—(AP)—The Beaumont Exporters landed on Pitcher Clay Bryant for 14 hits and a 3 to 1 victory over the Tulsa Oilers here this afternoon.

Tulsa	000 100 000—1	3 0
Beaumont	100 020 00x—3	14 1

Bryant and Montgomery; Gann and Hinkle.

Arlington Youth Wins Schoolboy Golf Title

DALLAS, May 3—(AP.)— Billy Hightower, city champion from Arlington, annexed the Texas High School open golf championship today besting Bobby Davidson, of Sweetwater, 8-7 over long Cedar Crest Country Club course.

TEXAS AGGIES DEFEAT SOUTHERN METHODIST

COLLEGE STATION, Tex., May 3—(AP.)—A Texas League single by Ballow followed by Bill Buchanan's crashing drive over the left field wall gave the Texas Aggies enough runs today to defeat Southern Methodist 2 to 1.

RAF . . .

(Continued From Page One)

A Northeast coast town public shelter holding 200 persons was showered with bombs and rescue squads worked through the night attempting to free them. Many casualties were reported among the first 100 brought out.

Casualties were reported, too, in neighboring districts.

London went through a four-hour alert without incident except anti-aircraft bursts in one area. It was London's first alert since April 26.

READ THE CLASSIFIEDS

Midland Golfer Loses Match In Odessa Tourney

John Davis, Midland golfer, playing in the championship flight of the fifth annual Odessa tourney yesterday, lost a first round match to Ray Stoker, Odessa, one up in 20 holes.

Jay Floyd, of Midland, stroking in the first flight, won his first round match over Cunningham of Hobbs, N. M., 4 and 3. Fred Hogan, Midland, lost a first round match but won over Harbour in a consolation round.

Ralph Cooley and Walter Henderson are other Midland players in the tournament.

Henderson will play Floyd in the semi-finals of the first flight.

Contestants in the Odessa tourney total 110 in six flights. Thirty-two golfers are in the championship flight. Finals and semi-finals in all flights except the championship flight will be played today. Championship finals are Monday.

Favorites of the tourney, Harry Todd of Dallas and J. T. Hammett advanced in first round matches of the championship flight. Todd defeated Bob Farmer of Odessa, 2 and 1; Hammett took his first match, 3 and 2.

Other championship results: Tom Bolt defeated J. B. Dixon, 4-3; Red Roden defeated H. Mankin, 4-3; Max Boring (Odessa) defeated Chick Troutt, one up, 20 holes; and Morgan Neal defeated Perry Williams, two up.

Lenser Will Instruct Two Six-Man Football Sessions In Summer

CRANE, May 3—(Special)—Kurt Lenser, assistant coach in Crane high school and recognized six-man football authority, will instruct in two coaching schools during the summer.

Lenser will lecture at the Texas Football Coaching School Aug. 4-9 and at the Eastern Coaching School Aug. 18-23, at Brooklyn, N. Y.

Last summer he tutored at the New York State High Coaches School, at Saginaw, Mich.; Kansas school at Topeka; and Davis Mountain School, at Fort Davis.

Lenser is a member of the national six-man football advisory board, and has written articles and papers on the game. Included are his book, "Practical Six-Man Football;" and articles for "The Athletic Journal," "Scholastic Coach," and "Southern Coach and Athlete."

Officials Change Basketball Setup

AUSTIN, May 3—(AP.)—Competition in high school basketball will be split into three divisions next year, the executive committee of the Texas Interscholastic League decided today.

The 1942 basketball tournament will be modeled closely on the three-league football set-up, with competition in AA, A and B conferences.

League athletics director R. J. Kidd said the revision will mean a fairer matching of squads. Instead of eight teams meeting each year for state honors, 24 will come to Austin to seek titles in three divisions.

Conference AA will include 106 schools, divided into 16 districts; conference A, 291 schools, eight regions with four districts each; conference B, 721 schools, eight regions each with several districts.

Extra-Inning Homers Win For New York

CHICAGO, May 3—(AP.)— The New York Yankees had to hit two extra-inning home runs to down the White Sox, 6 to 5, today, Buddy Rosar's four-bagger to lead off the 13th finally settling the issue.

The Yanks had looked like winners three innings before, when Rolfe and DiMaggio got on base and Flash Gordon promptly brought them in with his fifth circuit blow of the season. But in their half the Sox got those three back. The score:

New York	020 000 000 300 1—	6 9 4
Chicago	100 100 000 300 0—	5 5 1

New York: Chandler, Murphy and Rosar; Chicago: Rigney, Appleton and Tresh.

Pirates Again Climb Out Of League Cellar

NEW YORK, May 3—(AP)—The Pittsburgh Pirates climbed out of the cellar again today, handing the Giants a 3 to 2 defeat that ran the New Yorkers' streak to six losses and a tie in their last seven starts.

The Bucs got a handsome pitching job from Big Max Butcher, who allowed only six hits, all of them singles, and gave up only one through the first six innings. The score:

Pittsburgh	100 000 110—	3 10 0
New York	000 000 200—	2 6 0

Butched and Lopez; Lohrman, B. Bowman and Danning.

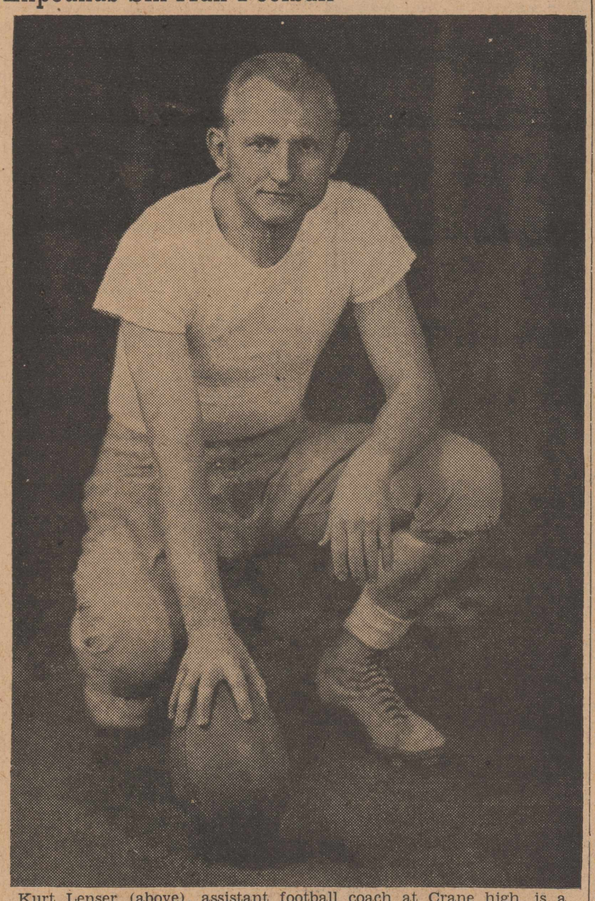

Houston Buffs Score Win Over Fort Worth

HOUSTON, May 3—(AP)—Breaking loose for five runs in the seventh inning, the Houston Buffs scored a 7 to 2 victory over Fort Worth here this afternoon for a sweep of the three game series.

Fort Worth	000 100 100—	2 9 1
Houston	000 020 50x—	7 12 1

Parrish, Moseley and Linton; Wilks and Narron.

Expounds Six-Man Football

Kurt Lenser (above), assistant football coach at Crane high, is a recognized authority on six-man football and will lecture at several coaching schools this summer. He is a member of the national six-man football advisory board.

District 3-AA Grid Coaches Will Do Lots Of Scouting Next Season With Four New Systems Making Bow

Midland Bowlers To Compete At Abilene

Midland bowlers will compete in sweepstake contests at Abilene a week from today.

A team from this city placed fourth in five-man team events at the New Mexico-West Texas tournament at Santa Fe. E. B. Dozier placed in singles and Richard Hoeckendorf and J. B. Thomas in doubles.

Midland will be host to the West Texas-New Mexico tourney next year. The date will likely be set at the annual banquet of the Midland Bowling Association soon.

Cronin And Prothro Need Hurlers Badly

NEW YORK—(UP)—Joe Cronin and Doc Prothro, managers of the Boston Red Sox and Philadelphia Phillies respectively, are two distinct baseball personalities but both have one thing in common—a dire need of pitchers.

There is hardly any comparison between the two teams as a whole. The Red Sox are backed by the millions of Tom Yawkey, have several able-bodied sluggers and a playing manager. The Phillies annually operate on a shoestring, have no outstanding batters and get their orders from the dugout.

"You know, I can't remember when I saw two of my pitchers go the full nine innings," said Cronin, in town for a recent series with the Yankees, "and come through with well-pitching jobs in the bargain.

Browns Win Battle Of Home Runs

ST. LOUIS, May 3 —(AP.)— It was a battle of home runs today as the St. Louis Browns broke their latest losing streak with a 9 to 7 victory over the Washington Senators.

The Nats drove in five of their seven tallies with four-baggers while the Browns contributed two over-the-fence wallops that accounted for three runs.

Washington	300 002 020—	7 9 0
St. Louis	103 131 00x—	9 14 0

Sundra, MacFayden, Carrasquel and Ferrell; Kennedy and Gruk.

Big Al Benton Again Safeguards Victory

DETROIT, May 3 — (AP). —The Detroit Tigers' star rescue man, big Al Benton, did his job again today to safeguard a victory over the Philadelphia Athletics, 4 to 3, and give the home club a sweep of the two-game series.

Taking over with young Hal Newhouser in a jam in the eighth, Benton befuddled the A's with his sinker ball to hold the Philadelphia rally to two runs. It was Detroit's fourth victory in five games. The score:

Philadelphia	00 001 020—	3 9 1
Detroit	201 010 00x—	4 6 2

Marchildon and Hayes; Newhouser, Benton and Sullivan.

Scout notes will be at a premium next fall with the District 3-AA coaching complexion changed.

Four new head coaches will be directing as many elevens in the district. They are Earle Clark at Midland, Lester Gregg at Lamesa, Vernon Hilliard at Abilene, and Rocky Rundell at San Angelo.

Another coach whose system will be new to opponents is John Dibrell, mentor of the Colorado City Wolves, new entry in the circuit. Dibrell, with seven lettermen from last year's regional Class A championship team, may spring a surprise in the league.

Gregg Succeeds McCollum

Clark, backfield coach at Midland last season, replaced L. W. (Bud) Taylor. His assistant has not been named.

Gregg, former assistant coach of the Lamesa Tornadoes, succeeds F. T. (Tad) McCollum, who resigned to devote his full time to teaching. Assistant coaches are Carr Spraberry and Wayne Rideout.

Hilliard took over the reigns at Abilene, replacing the veteran Dewey Mayhew. Hilliard came from Plainview high where he perennially got the most from material. He went to Plainview from Kerrville.

Takes Taylor's Place

Rundell assumed leadership of the Bobcats of San Angelo when Harry Taylor accepted a recreational director's job in Fort Worth. Hershel (Red) Ramsey, of Texas Tech and the Philadelphia professional Eagles is his assistant.

The "holdovers"—Larry Priddy at Sweetwater, Pat Murphy at Big Spring, and Joe Coleman at Odessa, must scout plenty to learn the new coaches grid magic.

So far the draft has not made great inroads in the coaching ranks of the district. But Bob Harrell, assistant at Odessa, expects to be called and Big Spring lost its basketball coach via selective service.

VISITS IN AUSTIN

Mr. and Mrs. R. D. Scruggs attended the Interscholastic League Meet in Austin this weekend.

Jeff Davis Wins Crown And Bulldogs Find Going Rough

Midland Relay Team And Hines Compete In Finals At Austin

By Harold V. Ratliff.

AUSTIN, May 3 — (AP.) — Iron-muscled Steve Lobue, mighty man of the Jeff Davis, (Houston) Panthers, won the Texas Schoolboy Track and Field championship here today—with a little help from three other fellows in the closing events of a thrill-filled meet.

Lobue, 160-pound football star, scored 10 3/4 points as Jeff Davis staged a startling upset to bag the title over a highly-favored Sunset (Dallas) team that finished in a tie for fifth place.

Another one-man team, Henry Adams of Kingsville, had his school in the running until the last event—the mile relay. Adame had won both dashes and might have won again if he could have had three others to run with him.

National Mark Equalled.

One state record was bettered and one national mark equalled. H. B. Pendleton, Jr., of Woodsboro hurled the shot 54 feet 3/8 inches to better the record of 53 feet 8 1/2 inches, set in 1936, by Monte Earwood of Rock Springs.

Sunset failed to come through but did produce the outstanding mark of the day when Bill Hamman, blond hurdler, ran the 200-yard low hurdles in 22.1 to equal the national scholastic record set by Pollum of Topeka, Kans., in 1938.

Bill Roark of Seminole and J. B. Patteson of Smiley tied for first place in the high jump at 6 feet, 3 inches, only one-fourth of an inch below the state record.

* * *

Midland high, whose sprint relay team qualified for the finals and whose Cletas Hines ran in the century and furlong finals, did not place.

Hines ran second to Adame, who won the finals, in a 9.9 seconds preliminary heat of the 100-yard dash. He won his heat in the preliminary 220-yard dash.

Midland's sprint relay four was one of seven teams in the finals.

Results of events in which Midland was entered:

440-yard relay: Thomas Jefferson, (San Antonio) first; Goose Creek, second; Uvalde, third; Adamson, (Dallas), fourth. Time—43.6 seconds.

100-yard dash: Adame (Kingsville), first; Anderson (Brackenridge-San Antonio), second; McLendon (Carrizo Springs), third; Tharpe (Amarillo), fourth. Time—9.9 seconds.

220-yard dash: Adame, first; Dennison, (Goose Creek), second; Anderson, third; Tharpe (Amarillo), fourth. Time—21.2 seconds.

Indians Extend Streak To Nine

CLEVELAND, May 3—(AP)—The amazing Cleveland Indians ran their winning streak to nine games today by the simple expedient of jumping on Mike Ryba for four runs in the first inning. The resultant 4 to 2 triumph over the Boston Red Sox was Southpaw Al Milnar's third in four decisions.

Mr. Ryba, so versatile that he's frequently called a "one-man team," and all eight of his mates couldn't prevent the quartet of extra-base blows which gave the league leaders the two-game seris.

Boston	000 2000 000—	2 6 1
Clveland	400 000 00x—	4 7 1

Batteries: Boston, Ryba, Harris, Wilson and Pytlak; Cleveland: Milnar and Desautels.

Parker Breaks Ankle In Baseball Contest

ASHVILLE, N. C., May 3—(AP)—Clarence (Ace) Parker, backfield star of the Brooklyn Dodgers Professional Football Team, broke his right ankle in a baseball game here today between the Asheville and Portsmouth teams of the Piedmont League.

Parker, left fielder of the Portsmouth Club, snapped the ankle sliding into second base in the third inning.

Tobin Wins Pitching Duel From Derringer

BOSTON, May 3—(AP.)—The Boston Braves uncorked a three-run seventh inning rally today to give Jim Tobin his first victory of the season, 3-2, in a tight pitching duel with Paul Derringer of the Cincinnati Reds.

The champions scored a brace of tallies in the third. The score:

Cincinnati	002 000 000—	2 5 2
Boston	000 000 30x—	3 4 0

Derringer, Beggs and Lombardi; Tobin and Berres, Masi.

Coffey And Riegel Go Into Finals Of Texas Golf Tourney

BEAUMONT, May 3 — (AP.) — Through a day of shot-making seldom equalled in the tournament's history, Billy Bob Coffey, the champion, and Bobby Riegel, a former titleholder, emerged into the finals of the Texas Golf Association tourney today.

Riegel started the fireworks in his match with Jack Tinnin, Houston insurance agent who won the medal. Riegel won 2 and 1.

Iverson Martin of Fort Worth fell before Coffey, 2 and 1.

Riegel, also a Houston insurance man, in the morning eliminated veteran Horace Young of Houston, 6 and 5.

Coffey had a shaky experience in the morning with 15 year old Tyrrell Garth, Jr., home course player competing in his first state tournament, but pulled out 1 up.

RICE GETS GOOD PITCHING AND DEFEATS T. C. U.

HOUSTON, May 3—(AP.)—Coach Cecil Grigg's Rice Owls got five hit pitching from Bill Telschow here today to defeat the T.C.U. Horned Frogs and chalk up their fourth straight Southwest Conference triumph.

Telschow walked nine men but tightened up in the clutches to leave 14 Frogs stranded on the base.

Cardinal Rookie Misses No-Hitter On One-Base Blow

PHILADELPHIA, May 3—(AP)—A single in the sixth inning ruined Rookie Henry Gornicki's chances of pitching the major league season's first no-hit game today as the tall right hander hurled the St. Louis Cardinals to a 6 to 0 one-hit victory over the Phillies.

It was the eighth consecutive triumph for the National League leaders and the second sparkling mound performance turned in by Cardinal rookies in the two-game series. Yesterday, Howard Krist set the Phils down 4 to 2 on five hits.

Until the sixth inning, Nick Etten was the only Phil to get as far as first base and he got there twice on walks. With two out in the sixth, Merrill May drew a pass and then came Stan Benjamin's single, but Terry Moore raced back to the centerfield wall to nab Joe Marty's hard drive to end the threat.

St. Louis	000 1000 401—	6 12 0
Philadelphia	000 000 000—	0 1 1

Medwick's Single Wins For Dodgers

BROOKLYN, May 3 — (AP)—A double by Pete Reiser and Ducky Medwick's single to left in the eighth inning gave the Dodgers their winning margin for a 4-3 victory over the Chicago Cubs today.

Kirby Higbe was credited with the triumph which he helped along with a two-run single in the fifth.

Chicago	000 002 010—	3 8 1
Brooklyn	000 030 01x—	4 7 1

Batteries: Chicago, Root and McCullough; Brooklyn, Higbe, Wicker and Owen.

Spring Cleaning Season Is Time To Make Clean Sweep Of All That Household Junk

By Marian Young
NEA Service Staff Correspondent

NEW YORK.—The house which will look best and be most livable once the spring housecleaning epidemic has run its course is the one that is supervised by a woman who got herself into a "throw it away" rather than a "save it" mood before the job was started.

In such a house, you can bet, there won't be stacks of old, dusty magazines in the attic, boxes of old glass jars in the basement, a weird collection of shapeless, outmoded hats in a closet and chipped dishes and glassware in the kitchen. All such debris will have gone the way of the daily garbage. And, as a result, the house will be ship-shape.

In addition, there will be shining evidence that soap and water still is the homemaker's best friend, and some of the efficacious, special cleaning preparations running a close second. Well worth investigation, for instance, are powders with which to clean upholstery, special pastes for making paint on ceilings, walls and woodwork look fresh and clean, and dry cleaning preparations for both rugs and clothes.

Quite properly, Mrs. Efficient Housecleaner begins in the attic and works downward. She may even begin a step higher than that, sending a man to the roof to clean the chimney. If there is re-roofing to be done—possibly with asphalt shingles which are bright and gay as well as fire-resistant—he orders it done before she attacks the attic.

GUARD RUGS AGAINST MOTHS

Then, into the clean attic go rugs that have been cleaned thoroughly, rolled tightly with plenty of moth balls between he layers and wrapped in heavy brown paper. Winter clothes are sent to the dry cleaner or cleaned in naptha in the back yard—not indoors) before being stored in chests or trunks. Toys and games, used only during winter months are also stored away.

Among the better tips from experts on the subject of spring housecleaning are:

Plain soap and water are best for cleaning chromium bathroom fixtures. For nickel fixtures use a nickel polisher.

Leather upholstery may be washed with neutral soap, such as castile.

To remove ink spots from a rug, pour milk on the spot, leave on overnight and wash away next morn—the varnish will become softened.

SHAMPOO RUG IN SECTIONS

To clean rug, first vacuum both sides. Then shampoo a small section with rich soapy lather and wipe this section with a clean, damp cloth before going on. Overlap the the sections to avoid streaks. Be sure to use only suds—not soapy water.

Parchment lampshades may be cleaned with a cloth that has been ing with soap and water.

Carbon tetrachloride will remove chewing gum. A tablespoon of vinegar, rubbed into the wood in the direction of the grain, will take away misty spots on table tops. An equal mixture of household ammonia and water will do away with white marks caused by hot dishes. However, the mixture should be left on only a few seconds. Otherwise, dipped in milk and squeezed out of mild suds, then rinsed with a cloth dampened in water with a bit of ammonia. Finally, use a chamois cloth for polishing.

Yellowed piano keys may be whitened with a mixture of alcohol and powdered chalk. Kitchen floor coverings should be cleaned with liquid wax, then waxed again—and polished. The modern homemaker no longer scrubs the kitchen floor with soap and water, thus wearing away the surface of the floor covering. She uses wax instead—both for cleaning and preserving of the coated fabric.

Efficient Housekeeper Will Take Time-Saving Hints From Experts

The smart homemaker, who wants to do a thorough spring housecleaning job, throws out old bottles and jars, newspapers and magazines and other debris. She gets completely into a "throw-out" rather than "save it" mood.

Seek Aviation Students Here

A survey to determine how many Midland residents are interested in taking a civilian ground school course in aviation in Midland will be started by the Chamber of Commerce tomorrow.

If sufficient interest is found in the course, arrangements will be made to hold classes here four nights a week—Monday, Teusday, Wednesday and Thursday—starting next month.

Officials of the Odessa Chamber of Commerce have offered to expand Odessa's Civilian Pilot Training Program to include Midland if sufficient interest in the project is found here. J. T. Long, chairman of the Odessa Chamber of Commerce aviation committee, and Jerry Debenport, secretary, recently conferred with Midland Chamber of Commerce officials on the matter.

Persons interested in taking the aviation course are requested to get in touch with the chamber of commerce here.

Has CAA Contract

Instructors for the course would be furnished by the Odessa Flying Service which has a Civil Aeronautics Authority contract to operate the school.

If 51 students are signed for the course the ten highest in grades between the ages of 19 and 26 years, who are eligible for competition, will be given 35-hours of free flight instruction. The flight instruction would be given in Odessa.

Enrolles of competitive age must pay a medical fee of $6. Other students pay $10.

At least 25 students probably would be required to bring the classes to Midland.

Midland residents who have enrolled for the course at Odessa include John Frederick Mitchell, Richard Paul Mueller, Joseph B. Teichman, Edward Floyd Dorsey, Leon A. Musgrove, Lawrence Fred Liberty, Neil Roselius, John C. Williams and Kenneth W. Germond.

SENATOR ACCUSES FDR FOR PUBLIC WAR MOOD

WASHINGTON, May 3—(AP.)—Senator Nye (R-ND) accused President Roosevelt tonight of letting his cabinet "take the lead in blitzing the people into a war mood."

"If they succeed," the North Dakotan said in an address prepared for broadcast over NBC, "then he will appear to have been forced to act."

Soap jelly lather is an all-purpose cleaner for the all-important spring housecleaning tasks. Soap flakes are dissolved in hot water and left in a bowl over night. Next morning, the layer of jelly at the top of the bowl is removed and whipped into a frothy lather. This is useful for cleaning everything from rugs to upholstery.

First Army Draft Eligibles Differ As To Camp Likes And Dislikes

By Paul Harrison, NEA Service Staff Correspondent

CAMP SHELBY, Miss.—Maybe you remember that tense moment of last November when a blindfolded secretary of war started this nation's first peace-time conscription by taking one of 9000 capsules from a bowl and handing it to Franklin Roosevelt.

About two dozen men here at Camp Shelby recall it well enough, because the President was summoning them to service when he announced: "The first number is one—five—eight."

Over the wires and the air it went. "One—five—eight!" Reporters at local draft board offices scanned lists, jotted addresses and went scurrying.

"A hunnert an' fifty-eight—my golly, that's ME!" Pictures in the paper, names read over the radio.

"'Proud to Serve', declare the 158'ers." Neighbors dropping in. Something special for dinner that night. And at the girl friend's house: "I'll write every day" . . . "A year is too long" . . . "Maybe they'll make you a captain or something."

Then the hoopla subsided as the Draft Boards classified thousands of men and assigned new numbers. Their original order in the draft lottery is not even on soldiers' records. When this reporter wanted to see how some of the first draftees were getting along, they were located only through announcements read to the companies.

Of 22 names turned in, I saw eight men, all from Ohio and the 37th Division. Their statements made a pattern: Most of the 158'ers don't like the Army, the pay, the quarters. Most have had a touch of flu, now feel fine, have gained weight, but say the chow is only fair. They're a little worried about their jobs and their girls at home.

They believe we will get into the war, hope not, but add that they could stand some excitement and justification for this drudgery. At the same time, they seem more concerned with rumors of a six-months extension of training than they are about having to remain in khaki for the duration of the fight.

KP Likes Army Life.

They're wondering — these first draftees—what happened to the promises that new men would be interviewed on preferences and aptitudes and would be transferred to specialized jobs. Things would be better then, but most are sure they'd never like the Army well enough to enlist.

There was an exception to each of those opinion. One man who finds he likes the life is Anthony V. Colby, 26, from Conneaut, O. I found him doing kitchen police in Co. F's mess hall—scrubbing pans in a vat of greasy water.

"I'm not on KP on account of I did anything out of the way," he hastened to explain. "I got an ingrown toenail and can't hike, so I volunteered for this.

"I wanted to go to the Army, and when my number, 158, was drawn I hollered, 'Ma!—Look how lucky I am!'

"I'd had two years in a secretarial course, but I put on my questionnaire that I wanted to be a machinist. In a few months I think I'll really enlist. It's a good life, only the time goes too fast. Mostly I write letters home and to some girls . . . well, six girls. I don't make carbon copies."

Roland A. Kline, 19, and Ralph K. Rutherford, 25, were first draftees, volunteered before being called, and both are in Co. G. Kline was a garage mechanic in Warren, O. His father is dead, and the soldier sends part of his pay to his mother and invalid brother. He has gained 15 pounds, likes the food better than anything else about the Army. "If we get furlough this spring, I won't take," he said. "If I got home I'm afraid I'd want to stay."

The blond, husky Rutherford misses the $10 a day he averaged as proprietor of a little coal mine leased in Logan County. His merchant father doesn't need financial help. "But just the same, I don't hardly even see my $21 a month," the soldier said. "I don't monkey with dames or bootleggers much; it's just those pay-day crap games."

Where Are Promises.

This reporter saw the 158'ers who asked not to be named or photographed. Both were bitterly unhappy and, I suspect, homesick. One had lost 14 pounds in a serious seige of flu.

William R. Adelman sat in his tent writing a long letter to the girl whom he had expected to marry last February. Writing is about all he does with his spare time.

He remembers the dull thud of a year dropping out of his life when No. 158 was read over the radio. Adelman heard it in his office in Cleveland, where he was an attorney for the FHA. He's 32, a graduate of the Cleveland Law School, and had been practicing 11 years.

Adelman doesn't like soldering—either the physical part or the close, inescapable associations of the six-man tent. He feels okay; said, "Naturally most of the men gain weight; they feed us starches all the time." He's sure he'd be happier using his law training in the Judge Advocate General's office, and he wishes somebody would get busy with the promised reassignments of the men to jobs for which they're better fitted.

Ralph K. Rutherford (in top bunk) and Roland A. Kline both had draft number 158, but volunteered before being called up. Rutherford misses the $10-a-day his Logan County coal mine brought him. Kline misses his home, thinks army chow is good.

Headlines . . .

(Continued From Page One)

bad news which may be coming on the shipping situation probably can be partially off-set, also, by reference to the American sea patrol and shipping pool maneuvers.

Look To America

Those American moves must have been dictated by Washington knowledge of actual or anticipated events not available to the public. It may be that this information led to the conclusion that, Nazi gestures eastward to the contrary, Hitler has signaled his forces to turn now on England for a death stroke.

There is a rising tempo to the Nazi attack on England by air and sea and a change in their pattern.

Of greater significance, however, is the British and American official view that it is only by smashing England that Hitler can win the war this year as he has promised, or any year.

Behind it lies further indicated conclusion in both capitals that if England can survive until winter, her ultimate victory with American resources to back her is assured.

Senate Campaign For Vacant Seat Picks Up Speed

By The Associated Press

Representative Lyndon Johnson's opening speech in his campaign for U. S. Senator, in which he urged unity behind President Roosevelt and questioned the right of labor to strike in time of danger, highlighted the race this week.

With Attorney General Gerald C. Mann mixing hand shakes with platform appearances, and representative Martin Dies bearing down on defense and fifth column activities, the campaign was gradually picking up speed.

Still a question mark was Governor W. Lee O'Daniel's decision on whether to run. This was somewhat complicated by a series of North Texas appearances by his friends, Hal Collins of Mineral Wells, publicly asking for a "go-ahead" sign from the voters. Collins, with an entourage of entertainers smacking of O'Daniel campaign tactics, drew good crowds in several cities last week.

Asparagus Offers Generous Range Of Possibilities

By Mrs. Gaynor Maddox
NEA Service Staff Writer

This is the fresh asparagus season, so let's look for delicious ways to use left-overs. In Clare Newman' and Bell Wiley's "A Cook Book of Left Overs" are the following economical left-over-asparagus recipes:

Suggestions For Using Left-Over Asparagus

Tender, left-over asparagus may be added to any hot mixed vegetable dish, or a salad. Since it is bland in taste and will not upsst the balance of flavor in any dish, it can be used in meat and fish dishes which call for vegetables.

The butt ends should not be thrown away. They must be cooked longer and will of course never be as tended as the tips, but they can be ground and used in souffles or pancakes.

Asparagus Turnover

Grind or chip fine left-over asparagus or the butt ends. Mix 1 cup ground asparagus with 1 cup seasoned, mashed potatoes. Stir in a beaten egg. Fry as patties or as an omlet, sprinkling with cheese before folding.

Asparagus Vinaigreete

Place several talks, cold cooked asparagus on lettuce leaves. Pile on the tips riced egg yolk, chopped egg whites, chopped pickles or olives, and if desired a little chopped pimiento and minced onion. Over all pour French Dressing.

Cream of Asparagus Soup

(Serves 4 to 6).

Two cups butt ends cooked very soft. 1 quart thin white sauce, salt, paprika.

Heat white sauce. Force soft butt ends through sieve. Season and heat thoroughly. Garnish with asparagus tips or whipped cream.

Thin White Sauce

(Yield: 1 Quart)

Two cups whole milk or light cream, scalded, 2 cups asparagus water, heated, 4 tablespoons flour, 4 tablespoons butter, 1 teaspoon salt, 1/4 teaspoon white pepper.

Scald liquid in double boiler. Melt butter slowly in a heavy pot, so it does not brown. Stir in the flour, mixing thoroughly, until perfectly smooth. Cook slowly over a low fire, stirring occasionally, and allow to bubble for several minutes, Remove from stove, and add scalded liquid slowly, stirring constantly. Put back over low heat, and again stir constantly, until thick and smooth. Add salt and pepper.

MENU:

Breakfast: Stewed dried apricots, oatmeal muffins, bacon, coffee, milk.

Luncheon: Cream of asparagus soup, French bread, baked apple, ginger bread, tea, milk.

Dinner: Roast beef hash, spinach with egg, catsup, asparagus vinaigrette, rhubarb lattice pie, cheese, coffee, milk.

It's Docie Do Here Monday For Dancers

It's swing your partner and docie do for Midland's dance minded!

Jimmie Clossin, expert square dance and folk dance specialist of El Paso, begins a week's instruction in folk and square dancing in Midland tomorrow, sponsored by the Midland recreation department.

Groups here already have reserved hours for instruction. The recreation department announced reservations could be made by telephoning Number 301.

There will be no charge for instruction.

This is the 14th of a series of 16 articles on World Bridge Olympic hands, giving the committee's par.

* * *

By Wm. E. McKenney
America's Card Authority

When the dummy goes down, South can see that he must lose two aces; therefore, to make his contract, he must lose only one club trick. If the king and queen of clubs are blank in one hand, his problem is easy. If the K-x or Q-x of clubs are in one hand with only two trumps, he still has a chance.

South wins either the first or second heart trick, depending upon whether East goes up with the ace. He returns a diamond, and when the ace is knocked out, he cashes two rounds of trumps and then runs the balance of his diamonds. The ace of clubs is cashed, and when only a small club is dropped from each hand, South continues with a low club. Even though West plays the ten-spot, declarer plays low from dummy. East must win with the king of clubs, and as declarer had reasoned, as East held only two trumps, he must lead either a diamond or a heart. In either case South is able to discard his losing club and trump East's lead in dummy.

Washington To Raise Sales Tax 1 Per Cent

SEATTLE, Wash. — (UP) — The state of Washington will raise its sales tax from 2 to 3 per cent to pay bigger old age pensions.

The higher levy is expected to bring in $18,000,000 more revenue than if the tax had remained at 2 cents on the dollar.

Voters last November approved old age pensions of $40 a month, but provided no way to raise the money. The legislature last month decided to raise the sales tax. The state had been paying an average of only $22 a month to old age pensioners.

U. S. Industries To Step Up Production

WASHINGTON. — (UP)—Present accelerated production of American industry will be doubled or tripled within the next few months to provide armaments for the army and navy and for the armed forces of Great Britain, China, Latin American nations and other friendly governments.

Defense officials predict that between July 4 and the fall months, 784 new gun, shell, airplane, tank and other armament factories will go into actual operation and many plant expansion projects will be completed.

Passage of the $7,000,000,000 lease-lend bill closely followed by Germany's conquest of Yugoslavia, prompted the army, navy and Office of Production Management to make further plans for approximately 100 more defense plants to be completed by early 1942.

Factories that have been idle since the early 1930s have been rehabilitated and enlisted for Armament production for the duration of the emergency.

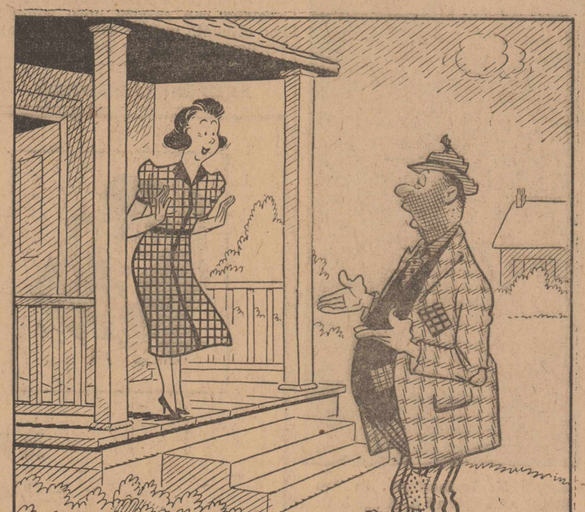

Finds Oil Well Close To Door, School Moved

BROOKSIDE TOWNSHIP, Ill.—(UP).—The children of this little community will have a new school building this winter—if the school board can find ground where there isn't an oil well.

It's not that the school district needs money. The reason it had to abandon the old one was that a fine producing well was located 10 feet from the door and the state fire marshal decided it was too close for safety.

That well provides an excellent income for the school.

Funny Business

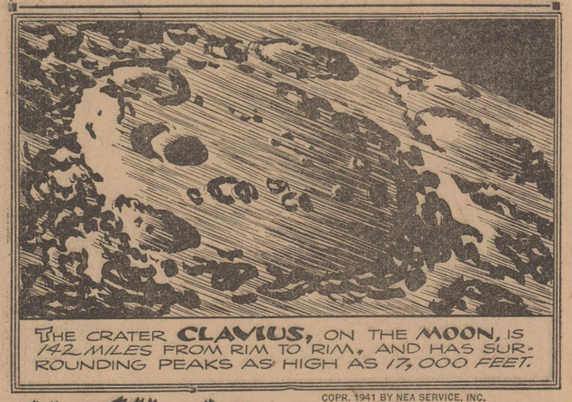

"Apart from having been offered work once, I have met with nothing but kindness."

Side Glances

"I probably would have amounted to something if I had gone to college and studied—but somehow I could never spare the time."

Hogs, salable 300; total 1,000; steady; top 8.60; packing sows steady at 7.00-7.25.

Sheep salable and total 50; today's trade nominal. Top spring lambs 10.40; most clipped lambs 7.75-8.25; medium grade clipped feeder lambs 6.00-6.75.

Wool

NEW YORK, May 3—(AP)—Wool top futures closed today .4 to .7 of a cent higher.

Cotton

NEW YORK, May 3—(AP)—Cotton for future delivery climbed sharply in the New York cotton exchange again today, closing 22 to 27 points, of $1.10 to $1.35 a bale higher as legislative trends in Washington hinted a "better break" through higher price pegs for the grower.

Active demand was attributed to senate agricultural committee approval of an 85 per cent parity loan for cotton. The senate committee action followed house approval of a 75 per cent parity loan earlier in the week.

Crane Bandsmen Train Hard For Region Contest

CRANE, May 3—(Special)—Jacques Nonce's 58-piece winning high school band is training intently for the national school music festival of Region 6 in Waco Thursday, Friday and Saturday!.

When the band participated at the state contest in Kermit it won first division in marching, sight reading and concert. To rate first division, a grade of 95 to 100 must be made, second division, 87 to 95 and third division, 80 to 87.

The following individuals received ratings:

First division: Terry Brunette, twirling, B-flat and tenor saxophone; Norman Brunette, alto sax; Guy Bosworth, B-flat clarinet; M. H. Boone, flute; M. H. Boone, Dorotha Belle McGehee, and Billy Allman, lute trio; Tommy Turner, cornet solo, student conducting; and Horace Harris, oboe solo.

Second division: Norman Brunette, tenor saxophone; Guy Eddie Bosworth, student directing; Billy Allman, flute solo; Bonnie Ruth Alldredge, Baritone solo; and W. H. Lovelace, trombone solo, and student directing.

Third division: Elmer Kelton, clarinet solo.

Accompanists Were "A"

Student accompanists were classified "A" including: Effie Lucille Fortenberry, Dorothy Belle McGehee, Tommye Lou Hamblett, and May Belle Bonner. Mary Louise Shackelford, only entry in piano, was rated 1 plus in the first division, performing with her left hand.

The following compose the Crane band: Clarinets, Terry Brunette, Guy Bosworth, Aileen Murtishaw, Dorothy Coker, Ted Hogan, Herman Hooper, Clara McElveen, Carlton Hutchison, Elmer Kelton, Darrell Warren, Wanda Budge, C. G. Liles, Bobby Higdon, Freda Jean Peck, Lewis Simon, David Bonner, James Hale, and Harry Gunn; trombones, W. H. Lovelace, Eddie Crabtree, Raleigh Wasson, A. L. Higdon; basses, Harold Wasson, Calhoun Lovelace, Billy Joe Waller, and Milton Currier; bell lyres, Joyce Allman and Effie Mae Asberry; oboe, Horace Harris; alto clarinets, Doris Coker, and Jean Logue; bass clarinets, Tommy Lou Hamblett, and Marie Alldredge; bassoon, Tom Hogan; cornets, Tommy Turner, Billy Rhea Wright, Dorothy Rogers, Bobby Brandt, Frank Hunsaker, and Tipton Murrell; baritones, Bonnie Alldredge and C. R. Ward; flutes, M. H. Boone, Billy Allman, Dorotha McGehee, Melvin Hawthorne; horns, Audevee Widdle, Lionell Pendleton, Irene Reddick, Rex Woods, and Bobby Smith; baratone sax, Zane Crownover; tenor sax, Norman Brunette; drums, D. W. Cheek, Bobby Pettit, Chester Pettit, and Gene Hogan; tympani, Doylene Miller.

SERIAL STORY

LOVE POWER

BY OREN ARNOLD

COPYRIGHT, 1941, NEA SERVICE, INC.

YESTERDAY: Bob is worried about the X-999. When the plane runs into a storm over the mountains, he is certain that it will crash, that the X-999 will explode. There is one chance for escape. Quickly, he forces Carolyn to don a parachute harness, orders her to jump. She kisses him, leaps into blackness.

* * *

SAFE LANDING

CHAPTER XVIII

CAROLYN never knew what strange, age-old impulse within her made her take that utterly impossible leap from the airplane.

It was as if she had been stripped of all superficialities, all earthly pretense, when she had lingered there that last moment in the ship. Bob was crazed with anxiety for her. He had ordered her to jump. She was unafraid!

And now, actually in the midnight storm, she still experienced no great terror. Her senses were temporarily numbed. She had shut her eyes tight against rain. She felt a harsh whirring, then a sense of ethereal, timeless floating as if in some fantastic nightmare.

First genuine consciousness returned when her ears began to "pop," as one's ears do in a swift elevator descent. Next instant she realized the rain was gone and there was even a hint of visibility.

"OH-H-h-h-h!"

The shriek was snatched out of her mouth. But now she was aware! She clawed at the metal ring on her chest.

WHOO-O-O-o-o-sh!

Invisible arms grabbed her, pulled her, snatched her, turned her crazily around—and then she began rocking.

The wind changed to a smaller cross breeze, and there was a singing tautness in her head. Breath came in gasps.

In the same moment, which had begun with a high point of fright, a triumphant exaltation seized her. Something in this appealed to her youth! Here was excitement! Daring! Adventure! Success!

She had no time to reason about that but presently her alert senses did tell her that she had literally dropped away from the storm. The worst part of it now was far overhead and driving toward the horizon.

A flash of frenzy assailed her—Bob Hale was still up there!—but common sense made her look immediately to her own welfare. For him she could only utter a quick, devout little prayer.

The pilot had said they were over mountains and she didn't doubt it. Obviously, then, she would strike one of them at any moment. She looked down.

There was an irregular black void, swelling and bulging and boiling. But no! The apparent boiling was due not to its motion, but to her own.

"In a minute—in just a minute—!"

She could not actually speak through the swift air stream, but she knew she was about to strike earth again and she wanted to do it safely.

She had no knowledge of landing technique. She realized only that she must land and then instantly get out of her parachute before it dragged her. She felt she could do that. She loosened a buckle tentatively.

The odd sense of elation and adventure in her was still strong. It was somehow comparable to riding a horse in a wild run, or being towed swiftly on an ocean surf board.

The end came in an abrupt jarring that shook her hard, heels to teeth, plus a rolling and a scrambling and a wholly feminine shriek.

For a long minute she was dazed.

"Lordy!" she murmured, then.

* * *

THE landing had been much harder than she had imagined. She was bruised all over. She sat on rocks. Wet, blond curls were plastered over her face. She had no hat—whatever had become of that, anyway, she wondered. Her heart was pounding. And there, not too far off, was a quite unmistakable mountain.

She stood up. "Well!" she said, inadequately.

She saw her parachute down the slope, flopping lazily. She had no idea how she ever got loose from the harness.

She looked around. She looked up. There were stars in half the sky. The storm? A remote black spot, still doing some thunder growling but fleeing like a beaten pup.

She took a few steps. She was still on rocks. Then a pin point of light assailed her from a distance and below, two pin points. She concentrated on them; yes, they really were moving.

"A road!"

But it was a long distance away and, unreasonably, she was suddenly terrified. She gave no thought to her remarkable exhilaration during the jump. Somehow that senseless plunge from an airplane, by a girl who had never done such a stunt before, did not seem frightening in the least, but here on good solid ground all manner of imaginary bugaboos loomed. In later, calmer hours, friends were destined to laugh at the feminine in that.

* * *

SHE walked about three miles to the road, slipping and sliding, falling over the rough ground. More cars following those first two guided her.

She was wet and cold, but the exercise of walking warmed her. She was happy to find a pavement. She stood there waving, thinking frantically now of Bob Hale.

The first car to approach her slowed down, wavered, then went on. The next one stopped. A slender, wet girl waving here after midnight—!

"Trouble, miss?" a genial voice inquired.

"Oh! Oh, yes!" Then and only then did Carolyn Tyler act normally. There before a complete stranger she broke down and cried.

Her samaritan was distressed.

It took him half an hour to hear her out, to comfort her and warm her with his coat, to walk incredulously back toward her parachute and then return without seeing it, and to start with her toward town.

He felt that he had picked up some sort of miracle. He was a pleasant gentleman, past middle age, to whom such things just never happened.

"I can never thank you enough," Carolyn began, when she was calm again. "Are—can you tell me where we are?"

"This is in Arizona, miss. Were you lost up there long?"

"Years, I think. I must know what happened to my friend! Is Arizona nothing but mountains? Oh, I'll go crazy if—"

"Now, now, miss, take it easy. There's not many people, but some. I looked on the gasoline map. Little place name of Blair is next community, and—"

"Blair?" She sat up. "That's where—where—oh, how far from Boulder Dam is Blair? Where is there a landing field? No! He said he would jump, too! Or maybe—

"Look, mister, have you heard an explosion? Any kind of noise? A really BIG noise? So big that—that—!"

She stopped, thinking frantically. The driver glanced once at her. Then he swallowed, and nodded in kindly sympathy.

Plainly he had to rush this stranded girl to a doctor, he told himself; delirium was setting in.

(To Be Continued)

"Handy" Hints For A Spring House Cleaner

By Alicia Hart
NEA Service Staff Writer

In addition to resolving that, for once, she just won't try to race through spring housecleaning in record time and that she will not start at all until she has written down step-by-step plans for the entire job, the smart homemaker resolves that she won't mistreat her hands and fingernails during the process.

She knows that there are rubber gloves and rubber mits on the market, from ten cents a pair up. She knows that these won't interfere with her skill in washing a ceiling or getting the porch furniture out of the attic.

She also knows that a thorough cleaning job can be done anywhere in the house with mild soap which won't make the hands rough and red. If she does not like rubber gloves, she washes her hands often and applies hand lotion afterward. She files her nails until they are quite short before she begins and thus avoids breaking off and splitting. She uses cuticle cream or oil every night.

USE CUTICLE CREAM, HAND LOTION REGULARLY

Whether she has to do the housecleaning or not, it's a good idea for any woman to remember to use cuticle cream regularly and hand lotion often. She would tell the manicurist not to scrape around the base of the nail with a steel instrument and not to file away the corners.

A section of nail which has been scraped at the base will be thin and weak when it grows out to the tip. The strongest nails are those which are broad at the tip, with corners intact instead of filed away.

Cuticle should not be cut or trimmed, of course. Jagged edges may be snipped off, but the rest of the cuticle should be softened with cream and then pushed back. Cuticle remover and wooden orange stick are best for removing dead skin just underneath cuticle.

'The Lady Eve' Will Offer Smart Comedy

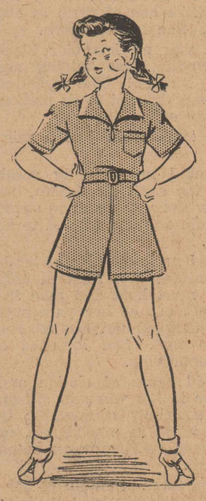

Henry Fonda

When a beautiful cardsharp marks a handsome, rich young man as her next victim, without reckoning on love taking a hand, there's danger of her heart being trumped!

What happens in this situation is the story that will be told in Paramount's new comedy, "The Lady Eve," starring Barbara Stanwyck and Henry Fonda, playing at the Yucca today, Monday and Tuesday. The fact that it was written and directed by Preston Sturges, who has flashed across the Hollywood scene like a brilliant rocket in the past year, is ample promise that the new picture is lively, witty entertainment.

"Mother, may I go out to play?"
"Yes, my darling daughter" . . . in these

MOTHER'S DAY, May 11th

MOTHER . . .

Remember the night when you hugged to your breast a little child frightened by an image of his dreams? . . . Do you recall the countless hours you hovered beside a crib with anxious heart? . . . To you, these were merely a performance of a Mother's duty . . . to us, they are a few of the cherished memories of the affection you lavished upon us . . . and now, for Mother's Day we wish for you the present you want, being surrounded by your family of good health . . . seeing in the eyes of your dear ones their happiness and a reflection for their love for you.

CHILDREN . . .

Regarding your Mother's Day gift, we offer a hint: Mother knows best . . . for over a quarter of a century the Mothers of Midland and West Texas have favored Wadley's for nationally known, dependable merchandise at savings.

We have a wide variety of appropriate gifts from which to choose, and please remember this: You never pay more at Wadley's.

"Pierre Radisson"

Headed straight for new Academy Award honors is Paul Muni, starred in a role unlike any he's ever had, in "Hudson's Bay," adventure film playing at the Ritz today, Monday and Tuesday. Depicting the daring exploits of colorful Pierre Radisson, the First Canadian, this 20th Century-Fox production is set in those epic times that saw a mighty new dominion given to the world.

Draft Board To Speed Work On Classifications

A speeding up of classification of selective service registrants was carried in a bulletin order to the Midland County draft board from government officials.

The bulletin read: "Any restrictions hitherto imposed upon the rate at which local boards should proceed with the classification of registrations is hereby removed."

"It is desirable that the classification of all registrants be completed at the earliest practicable date. Therefore, all local boards will proceed to the prompt classification of registrants at a rate which will not interfere with deliveries for induction."

"This directive should not be taken, however, to rescind the existing rule with regard to physical examination, i.e. no physical examination should be given at a date prior to sixty days before the estimated date of induction. Therefore, men not classified in Classes IV, III, or II who have not been physically examined, should be carried as 'Registrants Awaiting Physical Examination" until physically examined.

FCC To Change Radio Networks

WASHINGTON, May 3—(AP.)—The Federal Communications Commission approved today, by a 5 to 2 vote, regulations which it said were intended to increase the number of radio networks and give individual stations "wider latitude" in their dealings with the networks.

The new regulations, among other things, will:

Make it necessary for the National Broadcasting Company to dispose of one of its two networks, known as the Red and Blue; prohibit, unless it can be shown that public interest requires otherwise, the licensing of two stations in the same area to one network; sharply regulate the affiliation contracts between networks and station.

There was an immediate indication that the industry might challenge the regulations in the courts.

Strawberries For Color

Strawberry pie . . . good bet for May parties.

Pink Desserts Provide A Lift For Spring Meals

By Mrs. Gaynor Maddox
NEA Service Staff Writer

A delicate pink dessert seems just right for spring announcement and shower parties. Here are two recipes beautifully pink to look at and delicious to eat:

STRAWBERRY PIE
(Serves 6)

FILLING: Two packages frozen or 1 quart fresh strawberries, 3 1/2 cups, packed with sugar; 2 1/2 tablespoons quick-cooking tapioca.

Thaw strawberries according to directions on package. Add tapioca and let stand while preparing pastry.

PASTRY: Two cups flour, 1 teaspoon baking powder, 1/2 teaspoon salt, 2/3 cup shortening, 1/2 cup ice water (about).

Sift together flour, baking powder and salt. Cut shortening in with a pastry blender or two knives until the lumps are the size of large peas. Add ice water gradually, mixing it in with a fork and taking care not to add too much. As soon as dough will stick together, pat it together and chill if possible. On a floured board, roll out half of dough to 1/8 inch thickness. Line a 9-inch heat-resistant glass pie plate, leaving pastry 1/4 inch larger than pie plate.

Roll out remainder of dough for upper crust. Pour filling into pastry and cover with upper crust, which is also left 1/4 inch larger than plate. Moisten lower edge of upper crust and press against lower. Fold both crusts back toward center of pie to make an upright rim. With thumb and forefinger, flute edge. Make gashes in center of pie and also at edge, just inside fluted rim. Bake in moderately hot oven (400 degrees F.) about 45 minutes or until crust is golden brown. Serve hot or cold.

RHUBARB AND STRAWBERRY MERINGUE
(Serves 4 to 6)

Two cups rhubarb, 1 cup strawberries, 2/3 cup sugar, 2/3 cup water, 6 slices buttered bread, 2 egg whites, few grains salt, 1/3 cup sugar, 1/4 teaspoon lemon extract.

Wash and cut rhubarb and the strawberries. Add to sugar and water syrup and cook gently until tender. Pour into pudding dish lined with buttered bread. Top with meringue. Beat egg whites and salt until stiff; gradually beat in sugar, add flavoring and bake 15 to 20 minutes in moderate oven (325 degrees F.). Serve cold.

* * *

MENU

BREAKFAST: Sliced oranges, enriched bread toast, cheese, coffee, milk.

LUNCHEON: Creamed asparagus on toast, bacon, rolls, rhubarb tarts, tea, milk.

DINNER: Veal and vegetable pot pie, radishes, top onion, toasted corn muffins, strawberry pie, coffee, milk.

Johnson Lashes Out At Strikes In 'Danger Time'

SAN MARCOS, Tex., May 3.—(AP.)—Opening his campaign for U. S. Senator, New Deal Congressman Lyndon B. Johnson in a grim speech tonight questioned the right of labor or capital to strike in "this danger time" when the job of all is to save America.

The 32-year-old Congressman from Central Texas who announced for Senator after a conference with President Roosevelt declared "The government itself must prevent both capital and labor from taking advantage of the national need."

Johnson has been a close friend of Mr. Roosevelt since his election to the House of Representatives in 1937 to succeed the late Congressman James P. Buchanan of Brenham. In 1938 and 1940 he was returned to Congress without opposition.

Includes All Stoppages.

"The time has come to say: Strikes must cease!" Johnson asserted, "and saying it, to mean also shut-downs of coal mines, manufacturers who will not make bombers for Britain, and every form of monkey-wrenching defense.

"Anything less spells France. Anything less spells death for England.

"The issue is: No strikes in this danger time! There can be but one answer. Roosevelt, your leader in peace and war, or Henry Ford and the hundreds of little Fords who want to tell their government what to make, for whom, at how much profit, or John L. Lewis and the hundreds of little Lewises seeking things now at the price of production.

Oil News . . .

(Continued from page 1)

County sector of the Slaughter field, is drilling below 4,720 feet in lime.

North of Slaughter production in Hockley County, Magnolia No. 2 Maple Wilson is drilling at 4,370 in lime and anhydrite. First gray lime stringer came in at 4,010 feet.

Abell Pool

The Abell pool of Northern Pecos County, scene of the most drilling activity in the South Permian Basin, witnessed advanced depths in a number of tests as the week ended.

George T. Abell of Midland, and associates, No. 1 E. J. Rixse, one mile northeast of the discovery producer of the Simpson, middle Ordovician, pay, is reported to have twisted off drillpipe at a point slightly below 4,865 feet. At that depth it was believed near the top of the Simpson.

Stanolind Oil & Gas Company No. 1 Conry-Davis Unit, four miles east of the pool opener, is drilling past 4,445 feet in lime. A short east outpost, Sinclair-Prairie Oil Company No. 1 E. E. Grove, had reached 4,160 feet in Permian lime, while the firm's No. 1 Rosa R. Daley was drilling at 5,047 in Simpson shale topped at 4,760 feet.

Near the discovery area, Magnolia No. 1-B Markey Heirs is drilling plug from 7-inch casing cemented at 5,377, three feet off bottom; its No. 2 Crockett is drilling lime at 3,868; No. 3 Crockett is rigging up rotary; No. 1 J. F. McKee is drilling at 3,592 in lime; No. 1 State-Baldwin at 3,625 in lime; No. 1 D. P. Gerety at 4,243 in lime; No. 2 Markey is rigging up rotary; No. 1 Bowman has erected derrick and No. 1 State-Baldwin is moving in rotary.

Magnolia-Stanolind No. 2 Tex-Mex Petroleum Corporation-McKee had drilled to 4,015 feet in lime. Phillips No. 2 Sidney Silverman had passed 2,040 in anhydrite and lime.

Field Completions

Six wells were completed in six West Texas fields at the week's close.

Honolulu Oil Corporation No. 2-17 Igoe-Smith, in the Slaughter field of Cochran, flowed 492.60 barrels a day after 11,000-gallon acid treatment in lime from 5,016-53 feet, total depth.

In the North Goldsmith pool of Northern Ector County, Magnolia No. 2 R. B. Cowden flowed 103.68 barrels of oil, plus four per cent sediment and water on 24-hour gauge following treatment with 3,000 gallons at 4,400 feet.

W. J. Moran and John J. Moran No. 1 R. W. Smith, in the North Cowden pool of Northern Ector, pumped 470 barrels daily upon completion at 4,404 feet following a 450-quart shot.

Amerada No. 4 Robertson, in the Seminole pool of Central Gaines County, rated potential flow of 209.44 barrels per day in response to 2,000-gallon acid injection at 5,265 feet.

The Walker pool of Pecos County gained another producer in Childress Royalty Company No. 3-A White & Baker which flowed 118.04 barrels daily after shooting with 40 quarts at 1,940 feet.

In the Magnolia-Sealy (South) pool of Ward, Magnolia No. 8-41 Sealy was acidized with 750 gallons at 2,902 feet and was gauged at 24-hour flow of 770.89 barrels of oil plus seven per cent water.

British Forces . . .

(Continued From Page One)

were declared to have cost the Axis forces heavy losses. These attacks were carried out for the most part by Germans using tanks with considerable air support. The Middle East command said two Stukas were bagged.

Military sources said the persistence of the Axis attacks indicated fully the British hold on Tobruk was stalling the Axis drive across Northern Africa. They added that continuation of these attacks was to be expected.

Large Attendance Marks Success Of Service League's Benefit Party

Mrs. Leo Brady Is Honored At Surprise Shower

Honoring Mrs. Leo Brady, Mrs. W. F. Hejl entertained Friday afternoon at her home, 704 W Louisiana, with a pink-and-blue surprise shower. The courtesy was in the form of an open house from 4 o'clock until 6.

Party rooms were decorated with pink and white roses.

Mrs. Ollie Jones and Mrs. Alden Golladay poured punch.

About 35 guests called during the reception hours and gifts were sent by a number of friends unable to attend.

Mrs. A. G. Bohannon assisted the hostess during the afternoon.

Soldiers Honored With Tea Given By Committee Group

Soldiers from the Provisional Searchlight Battalion and young women of the town were entertained with a tea at the old Safeway building, Friday afternoon, from 4 o'clock until 6. The affair was sponsored by the soldier entertainment committee, with Mrs. N. A. Lancaster in general charge of arrangements.

Mrs. J. M. Haygood and Mrs. Paul A. Schlosser were in charge of refreshments.

An impromptu picnic supper was served to a group late in the evening and moving pictures were added recreation.

Approximately 400 Tickets Sold For Affair At Hotel

The benefit bridge sponsored by the Children's Service League at the Hotel Scharbauer, Friday afternoon, drew a large attendance, despite the unfavorable weather. Bridge games were played at about 25 tables while many women attended the distribution of prizes but did not remain to play. Total attendance was estimated at about 250 while ticket sales were approximately 400.

Prizes, donated by Midland merchants, were won by: Mmes. F. S. Keigey of Graham, E. H. Ellison, J. P. Ruckman, L. G. Byerley, T. G. Williams, David Googins, Malcolm Brenneman, Miss Gay Turner, Mesdames Chas. L. Klapproth, Butler Hurley, Phil Scharbauer, E. A. Wahlstrom, E. R. Osburn, Wm. N. Cones, O. K. Baker, H. E. Bahr, R. D. White, Ed Prichard, Howard Hodge, H. G. Bedford,

Mmes. Hugh Walker, John Skinner, Cora Brown, J. A. Nichols, C. W. Drake, Ray Rhodes, L. G. Lewis, R. R. Porterfield, R. M. Jones, Clifford Cool, Foy Proctor, James N. Allison, Ernest Sidwell, W. G. Frank, Johnson Phillips, Ross Williams, F. C. Cummings, Gladstone Stewart, and H. H. Watson.

Acknowledgment and appreciation were expressed by sponsors of the affair to: Eveready Auto Service for the use of a public address system; to Midland Hardware for coca-colas served during the afternoon; to Hotel Scharbauer for use of the ballroom and mezzanine; to The Reporter-Telegram for publicity and tickets; to Miss Maxine Sill for publicity; to two additional firms, Perry Bros., and Midland Floral Company, for donation of prizes; and to the general public for its cooperation.

The Child Study Club presented the League with a donation for the purchase of milk.

Proceeds of the bridge will go to continue the League's extensive program of welfare work, especially for children.

As You Like It Club Has Social

As You Like It Club met with Mrs. C. A. Ponder, at 723 W Louisiana, Thursday afternoon for a social.

Games of 42 were played and gifts were exchanged.

A refreshment course was served.

Present were: Mmes. Paul Smith, Joe Roberson, J. Wray Campbell, John Allen Sewell, Reece Tarver, R. L. Denham, F. E. Curtis, the hostess, and Mrs. Maude Newnham.

Next Thursday the club will meet Mrs. Joe Roberson.

Midland Couple Repeats Wedding Vows In Single Ring Ceremony At Home Of Mr. And Mrs. Nicholson

Miss Elizabeth Ward Becomes The Bride Of M. S. McDaniel

Standing beneath an archway defined by baskets of pink and white gladiolas, Miss Elizabeth Ward, daughter of Mrs. Alta Ward of Las Cruces, New Mexico, and J. S. Ward of Tucumcari, New Mexico, became the bride of Malcolm S. McDaniel, son of the late Mr. and Mrs. D. H. McDaniel of Dallas, in a single ring ceremony here Saturday evening.

The wedding took place at the home of Mr. and Mrs. H. H. Nicholson, 601 W Ohio, with the Rev. W. J. Coleman, pastor of the First Presbyterian Church, officiating.

The bride's only attendant was her sister, Mrs. G. T. Stafford of Lubbock, and Mr. Stafford attended the groom as best man.

For her wedding costume, the bride chose a redingote ensemble in Angelus blue with crepe dress and light wool coat. Her hat was of black straw, her gloves were pink and her corsage of pink rosebuds. For "something old," she wore a filagree silver necklace in daisy design that had belonged to her mother.

Mrs. Stafford wore dusty rose crepe with beige accessories and a corsage of sweetpeas.

Reception Follows

A reception followed the wedding.

Miss Rosellen Morrison and Miss Evelyn Haag assisted in the houseparty.

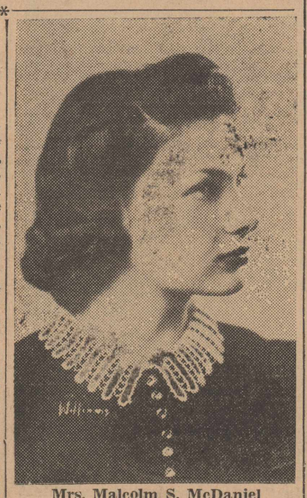

On the flower-decked dining table lighted by white candles, stood the double-tiered white wedding cake, touched with pink and topped with tiny figures of a bride and groom.

Mrs. McDaniel is a graduate of Polytechnic High School at Fort Worth. She came to Midland in October, 1940, and is employed in the offices of the Honolulu Oil Corporation.

Mr. McDaniel is a graduate of Woodrow Wilson High School in Dallas and attended A&M College for a year. He has lived in Midland for the past eight months and is employed with the Household Supply Company.

The couple will live at 108-A W Kansas.

Mrs. Ward, mother of the bride, was an out-of-town guest at the wedding.

Mrs. Malcolm S. McDaniel

Children Hear Four Stories At Weekly Story Hour

Twenty-two children attended the weekly Story Hour in the children's library at the courthouse Saturday morning.

Stories told were: "The Gifts of the Magician," "Eisenkopf," "The Terrible Head," and "Little Thumb."

Mrs. O. J. Hubbard was in charge of the Hour.

Present were: Orman J. Hubbard, Tommie Darnell, John D. Jensen, Billy Jensen, Charles Shepard, Emil Roper, David McPherson, Helen Golladay, Ruth Hall, La Verne Wingo, Dennis Stephens, Bert Lee McCasland, Duane Fritz, Donald Fritz, Paul S. Oles, Tony Dunagan, Marylin Dunagan, Paul Dale Smith, Wanda Pearl Earley, Lanetta Earley, and Bob Short.

Musicians Go To Waco Wednesday

Midland musicians, winners in state band regional contests at Kermit last weekend, will compete in the national regional contests at Waco, May 8-10.

A saxophone quartet and sextet will play. Joe Haygood, Dean Anderson, Helen Connor and Marjorie Hall compose the quartet. Peggy Anderson and Betty Jean McDonald will be added to form the sextet. They placed in the first division at Kermit.

Johnny Bizzell will enter marimba solo. He will be accompanied by Band Director M. A. Armstrong. Frank Troseth will play in clarinet solos, accompanied by Bizzell.

Edna Earl Linebery drum major of the Midland high band, will contest in twirling. She placed in the first division in state contests.

The contest at Waco is one of eight in the United States. Musicians from Texas, Oklahoma, and New Mexico will compete. Only first division winners at the nine state regional contests are eligible for the national regional contests.

The Midland delegation will leave for Waco Wednesday.

FIRST BAPTIST G. A.'s ELECT OFFICERS

Officers were elected in a meeting of G. A.'s at the First Baptist Church early in the week: They are: President, Dorothy Shelburne; vice president, Thelma Jo Brown; secretary, Lena Fay Shelburne; program chairman, Martha Jane Preston; social chairman, Pauline Wingo; pianist, Lou Nell Hudman; chorister, Pauline Wingo; reporter, Faye King; mission study, Hazel King; membership chairman, Daisy Barney.

GOLD MINING TOWN INSTALLS FIRST LIGHTS

GEORGETOWN, Cal. — UP) — Georgetown, historic gold mining center in El Dorado County, Cal., has just installed its first electric lights—in fact, its first street lights of any kind except for four gasoline lamps that were tried unsuccessfully about 30 years ago.

For years, Georgetown residents have been stumbling through the night with lanterns and flashlights. In 1910, they installed gasoline lights but the disadvantages were too great, and they were abandoned after five years.

Play Readers Club Celebrates Tenth Anniversary At Annual Guest Tea

Miss Berniece Clark And W. L. Hill Are Married At Odessa

Miss Berniece Clark of Midland, daughter of Mr. and Mrs. J. W. Clark of Eastland, and W. L. Hill of Odessa were married at the Odessa Presbyterian Church, Friday morning at 7:30 o'clock. The Rev. Thomas D. Murphy read the single ring service.

Mr. and Mrs. F. E. Gleaton were the couple's attendants.

The bride wore a navy blue redingote costume with white accessories and carried white roses.

Mrs. Gleaton also wore navy but her accessories were beige and she wore a white rose corsage.

Mrs. Hill has made her home in Midland for five years, being employed at Sybil's Beauty Shop. She will continue her work here until she and Mr. Hill find suitable living quarters in Odessa.

He is employed with the Humble Company.

Ruth Class Holds Monthly Meeting

Ruth Class of the Calvary Baptist Sunday school held its monthly meeting Friday evening at the home of Miss Marjorie Friday on S Loraine. Snapdragons decorated the house.

Mrs. Leonard Jones, class president, brought the devotional and Mrs. Fred McPherson led prayer. Miss Nellie Ingle, teacher, read a parable, "For the Master's Use."

Class pins were presnted.

The social hour was a farewell party for Mrs. Alvie Bryant who is leaving soon for San Antonio. A refreshment plate was served with wee airplanes as favors.

Present were: Mrs. Odie Morris, Miss Pearl Bush, Mrs. Bryant, Mrs. Jones, Miss Ingle, three visitors, Mrs. McPherson and son David and Mrs. Friday, and the hostess.

Next meeting will be with Mrs. Odie Morris at her home on South Big Spring street.

National Music Week Is Observed By Club At Program Meeting

Treble Clef Jr. Music Club observed National Music Week with opens today, in the program at the regular meeting Saturday morning at the Watson studio, 210 W Ohio. Keynote of the observance is "Make Good Music Familiar Music."

Miss Lydie G. Watson talked on the significance of Music Week, telling of its Texas origin.

Dorothy Barron gave a review of the opera, "The Marriage of Figaro," by Mozart, which she saw in Dallas.

A transcription of "Martha" by Flotow was played by Dorothy Jean Walston.

Joan Tom played "Runaway River" by Thompson.

Ned Watson closed the program by entertaining the children with a harmonica solo and guitar accompaniment both played by himself.

Bob Short and Niles Winter were at the attendance card, 15 children being present.

There will be no meeting of the club next Saturday on account of National Piano Playing Tournament at Abilene which will be entered by Shirley Winter, Peggy Riley, Wilma Dee Vaughan and Mildred Sipes who are prepared to play 45 selections from memory.

Mrs. Wilmer B. Stowe Reads Play For Large Group Of Guests And Members At Affair Given At The W. W. LaForce Home

Celebration of the tenth anniversary of the founding of the Play Readers Club lent special significance to the annual guest day tea of the organization which was held at the home of Mrs. W. Watson LaForce, 602 S. Main, Saturday afternoon at 3 o'clock.

"Life Of Christ In Song" Scheduled At Church Tonight

Mrs. Gladys Holsier Is Hostess To Belmont Class

Opening prayer was offered by Mrs. S. L. Alexander and dismissal prayer by Mrs. W. G. Attaway, when Belmont Bible Class held its weekly meeting, Friday afternoon, at the home of Mrs. Gladys Holster, 600 North A street.

The lesson for the day, the twenty-fifth and twenty-sixth chapters of Numbers, was taught by Mrs. W. L. Sutton.

Letters were read from absent members and from an Oklahoma City pastor.

Present were: Mmes. J. D. Webb, H. M. Reigle, A. C. Moore, Alexander, S. O. Love, Sutton, Attaway, C. G. Murray, and the hostess.

Next Friday the class will meet with Mrs. Murray for study of the twenty-seventh and twenty-eighth chapters of Numbers.

Mrs. LaForce, Mrs. Elliott H. Barron and Mrs. Chas. L. Klapproth greeted guests at the door.

Mrs. William Y. Penn, a charter member of the club, introduced Mrs. Wilmer B. Stowe, reader for the afternoon. Mrs. Stowe, director of the Civic Theatre's plays and an experienced teacher of expression, presented a reading of "Claudia" by Rose Franken, giving a pleasing interpretation of the story of young married life.

The tea hour followed the reading.

The Club's "birthday cake" in birthday colors of pink and white with white candles, was displayed on a mirror-placque on the dining table which was laid with Venise lace.

Mrs. De Lo Douglas and Mrs. Wallace Irwin poured punch.

Assisting in the dining room were Mrs. J. Howard Hodge, Miss Geraldine Dabney, Mrs. B. K. Buffington, and Mrs. Klapproth, while Mrs. Fred Fuhrman and Mrs. Earl Powell greeted guests at the dining room door.

Violin and piano selections were presented during the tea hour by Mrs. W. Lloyd Haseltine, Mrs. Fred Wilcox, and Mrs. Powell.

Mrs. J. M. Hawkins was at the guest register.

Roses, iris, pink honeysuckle, double poppies, and other spring flowers were used in the reception rooms.

Serving on the various committees for the affair were: Mmes. LaForce, R. M. Barron, Elliott H. Barron, Robert Muldrow, III, Fuhrman, F. B. Kingdon, Miss Eloise Norman, Mmes. J. M. Hawkins, W. T. Schneider, and Earl Powell.

The Play Readers Club is composed of twenty members who meet twice monthly to hear the reading of a play. Mmbership includes: Mmes. B. K. Buffington, R. M. Barron, Elliott H. Barron, De Lo Douglass, Miss Geraldine Dabney, Mmes. Fred Fuhrman, W. Lloyd Haseltine, J. M. Hawkins, J. Howard Hodge, Wallace Irwin, F. B. Kingon, Chas. L. Klapproth, W. Watson LaForce, Robert Muldrow III, Miss Eloise Norman. Mmes. William Y. Penn, Earl Powell, W. T. Schneider, Wilmer B. Stowe and Mrs. Fred Wilcox.

Guests registering were: Mmes. Lyman H. Dennis, E. C. Hitchcock, Edmond Hitchcock, L. V. Kenison, Misses Marie Harwell, Joe Hestand, Theresa Klapproth, Ruth Bryan, Tommie Smith, Marjorie Berringer, Mmes. I. E. Daniel, H. C. Wheeler, J. R. Martin, Wade Heath, Elliott Miller, P. A. Nelson, Cooper Hyde, Burton Atkinson, Chas. Brown, Ray Graham, Don Davis, Miss Lula Elkin, Mrs. Joe Thorpe, Odessa, Mrs. Joe Pyron, Odessa, Mmes. W. V. Robinson, Lamar Lunt, Clyde A. Martin, Jr.,

Miss Gertrude Low, Mrs. P. L. Daniell, Stanton, Mrs. J. E. Kelly, Stanton, Mrs. P. F. Brown, Mrs. David Googins, Misses Merle Smith, Tommie French, Vera Sadler, Annie Frank Stout, Ruth Carden, Mrs. Fred Turner Jr., Miss Gay Turner, Santa Anna, Mmes. E. Hazen Woods, P. J. Mims, R. I. Dickey, Thomas C. Bobo, Paul Barron, Misses Mary Wilson, Ruth Anderson, Sue Cecil, Frances Gillett, Mmes. Erma Mancill, J. M. Armstrong, Wm. Studdert, M. D. Self, E. H. Ellison, Chas. W. Sandford, Stephen Leach, James T. Smith, Richard F. Peters, Fred S. Wright, Miss Jesse Scott Price, Helen Armstrong, Mrs. J. R. Brooks Jr., Mrs. Robert Turpin and Miss Adele C. Semples, Mrs. John Perkins of San Antonio.

At Your Library

VERSAILLES TWENTY YEARS AFTER, by Paul Birdsall: A reappraisal of the peace that failed . . . and the forces involved in any new order.

BEHIND GOD'S BACK, by Negley Farson: This book, primarily, is a story of "modern" Africa.

THE UNITED STATES AND JAPAN'S NEW ORDER, by William C. Johnstone.

LIBERATORS AND HEROES OF SOUTH AMERICA, by Marion Lansing.

TOWARD FREEDOM, the autobiography of Jawaharlal Nehru, the man who shares with Gandhi the leadership of India's millions.

MEN OF DANGER, by Lowell Thomas. Here are the tales of men who daily risk their lives in callings that take them into the very teeth of death.

MANY A GREEN ISLE, by Glanville Smith: Adventure in the West Indies.

ZACHARY TAYLOR, Soldier of the Republic, by Holman Hamilton: Biography.

Latest installment of International Mind Alcove books. A gift to the library by the Carnegie Endowment for International Peace.

I SAW IT HAPPEN IN NORWAY, by C. J. Hambro: As its title implies this is the report of an eye-witness of the German invasion in Norway.

THE WOUNDED DON'T CRY, by Quentin Reynolds: A newspaper man's account of the effect of war in Europe.

THE DEFEAT OF CHAOS, by Sir George Paish: The author states in plain language why nations can no longer live to themselves alone. His especial emphasis is upon the demands of all nations for trade and the exchange of goods which necessitates world cooperation.

THE CITY OF MAN, by Herbert Agar and others: Many distinguished authors have combined in an effort to set forth in this book the claims which may justly be made upon this chaotic world for a finer and saner civilization in the future which is to come.

ROUNDABOUT SOUTH AMERICA, by A. M. Peck: Here is a book that introduces us to seven of the twenty Latin American republics.

Woman Wins Award; Shy For Decoration

LONDON, Eng. — (UP) — Brave enough to carry on while bombs were dropping all round, but qualmish about facing King George to receive a well-earned medal — that is Mrs. Amelia Matty, of Birmingham.

She even tried to get her sister to go to Buckingham Palace to receive her O.B.E.

Mrs. Matty, who is 35, won the order for carrying on with her job of serving munitions workers with tea and sandwiches after the factory had been bombed. She was injured.

CHIEF SAYS PATROLLING IS DANGEROUS OCCUPATION

SACRAMENTO, Cal. — (UP) — Chief E. Raymond Cato of the California State Highway patrol thinks the job should be classified as a "dangerous occupation."

He told the state legislature that 5 per cent of the highway patrolmen are continuously idle because of injuries. During 1940, he said, more than 800 injuries were sustained by the 719 officers and executives of the patrol.

"Plunging Neckline"

One of the new "plunging neckline" collars makes the simplest sort of dark day dress exactly right for tea at five or informal parties. This bit of lingerie neckwear is of Swiss organdy with lace and embroidery trimming.

Crewless Ship Reaches Dock Under Own Power

LONDON, Eng.—(UP)—Without a crew on board ,and with the engines still running, a ship was found by villagers, berthed safely in a deep water inlet within a few inches of dangerous rocks.

They informed the lifeboat authorities, and an amazing story of the sea was revealed.

The ship had been set on fire, and the crew had abandoned her. They did not even stop to take their personal belongings, and wallets containing money was found on board.

The vessel continued with the engines running slowly, while the fire burned itself out. The vessel had traveled about 60 miles.

State Plans Experiment For Tuberculosis Fight

ST. PAUL, Minn.—(UP)—An experiment perfected by veterinarians will be used by the Minnesota Medical Association in an attempt to free the state of tuberculosis by 1960.

Dr. B. S. Adams, medical association president, announces that the project will be started soon in Meeker County in western Minnesota.

"Through a modification of the method used by veterinarians to eradicate tuberculosis among cattle, we are going to try first to eliminate the disease in that county and then make the project statewide," he said.

Coming Events

MONDAY

Presbyterian Auxiliary will have an executive board meeting at 3 o'clock and a regular business session at 3:30 o'clock at the church.

SATURDAY

Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'colck.

There will be no meeting of the Treble Cleft Juvenile Music Club Saturday.

Dead Soldier Cost Is Set At $50,000

TARENTUM, Pa.—(UP)—The cost of killing a soldier has increased from $50 in the time of Julius Caesar to between $50,000 and $75,000 in the present war, according to H. V. Churchill, an industrial chemist.

Churchill told a meeting here the expense of war-time killing has risen steadily through the centuries, with a tremendously great advance occurring between the World War and today.

By the time of Napoleon, the cost had become $1,500 for each man killed, the chemist said, and during the World War the figure was about $2,500.

Delta Kappa Gamma Entertains With Founders' Day Banquet; Officers For 1941-42 Term Are Installed

Mrs. Alma Thomas Is Chief Speaker Of Evening; Miss Margaret Logsdon, Retiring President, Presides As Toastmistress

Society colors of red and gold distinguished appointments for the Founders' banquet with which Beta Kappa Chapter of Delta Kappa Gamma entertained in the educational building of the First Methodist Church, Saturday evening.

Installation of new officers, a Founders' Day program, and an address by Mrs. Alma Thomas were highlights of the evening's activities.

* Miss Margaret Logsdon of Odessa,retiring president, was toastmistress for the banquet, which was served at long tables set about three sides of a hollow square. Fluted streamers of red were laid down the centers of the white-spread tables, and tall red tapers burned in holders veiled in crushed gold cellophane. Place cards bore the Greek emblem of the society in gold lettering and banquet napkins in red and yellow with red nutcups added to the colorful theme of appointments. The chapter banner in red and gold was displayed.

Theme for the program was "Travel—Founders' Day."

Invocation was offered in concert by the chapter.

Earle H. Clark, head football coach of Midland High School, played a violin solo, "Romance" from the Second Concerto by Henri Wieniawski, accompanied by Roy DeWolfe.

Mrs. Thomas, principal of North Elementary School, was the featured speaker. Her subject was "Travel Possibilities on Limited Budgets."

Miss Gladys Pinson directed the candlelight Founders' Day program.

Officers for the 1941-42 school year were installed during the business session. They are: Anne Martin, Big Spring, president; La Marylis Wall, Odessa, vice-president; Agnes Currie, Big Spring, treasurer; Mary Lowry, Midland, corresponding secretary; Rita Cox, Odessa, recording secretary; Pauline Bulsterbaum, Odessa, parliamentarian.

Big Spring, Odessa, Stanton, and Midland were represented in the attendance list.

Present were: Letha Amerson, Big Spring, Lela Mae Billingsley, Odessa, Helen Brewer, Odessa, Pauline Bulsterbaum, Odessa, Ruth Carden, Midland, Rita Cox, Odessa, Agnes Currie, Big Spring, Mrs. Thurman Gentry, Big Spring, Lilla Hickerson, Odessa, Mrs. Grace Loveless Jones, Stanton, Theresa Klapproth, Midland, Margaret Logsdon, Odessa, Mary Lowry, Midland, Anne Martin, Big Spring, Ida McCown, Odessa, Dortha Orenbaum, Odessa, Mrs. Merle W. Paulsen, Big Spring, Gladys Pinson, Midland, Merle Smith, Midland, Mrs. Alma Thomas, Midland, LaMarylis Wall, Odessa, Mrs. R. L. Vickers, Odessa, Mrs. Tom Ellrod, Kathlyn Maxwell, Alma Schulkey, Sarah Beecroft, Sarah Truett, all of Odessa, and Mrs. Riggs Sheppard, Courtney. Eunice McReynolds, Odessa, Faye Waters, Odessa, and a guest, Miss Annie Frank Stout of Midland, in addition to program guests.

Miss Klapproth was local chairman of arrangements.

Frank Nixon Is Active In U. T. Musical Circles

By Billy Noble

AUSTIN, May 3.—Frank Nixon, an outstanding student of music while in Midland High School, was one of the students in the School of Fine Arts to play in a recital Wednesday in the student-series programs.

Nixon, a junior piano major, played Beethoven's B-flat Concerto No. 2. The recital was held in the Littlefield Music Hall.

Secretary of the University Chapter of Alpha Iota, national music fraternity, Nixon is well known as an accompanist for glee clubs and soloists. For two years, he was the personal accompanist for Frank Gardner, leading University tenor.

Thursday night he played the piano part in the orchestral accompaniment for "May Blossom," last major production of the Curtain Club, at a benefit performance for the World Student Relief Fund. He will also take part in the production in the regular performances, May 6 through May 10.

Students To Dallas

The week end of April 26 found C. A. Goldsmith and Jack Carroll, both Midland high graduates, in Dallas. Goldsmith, first-year law student, went with a group of students to see the Metropolitan Opera performances this year.

Carroll, business administration, senior, went to Dallas with the University chapter of Delta Sigma Pi, business fraternity, on its annual industrial tour. He is corresponding secretary for the fraternity.

While in Dallas, the fraternity attended the Regional Conference in addition to the tours made of industry and business in the city. The tour through the Federal Reserve Bank was the most interesting and most educational Carroll said.

Rides In Horse Show

Jeanne Davis, Midland equestrienne who was last fall initiated into Bit and Spur on her ability as a rider of gaited horses, rode in the club's annual horse show Saturday out at Camp Mabry.

She rode in the gaited-horse group of the show. Two performances were given, Saturday afternoon and night.

A sophomore in the University this year, Miss Davis, a Bluebonnet Belle representing the Midland-Odessa Club in the Round-Up Revue and Ball April 5, is a member of Zeta Tau Alpha sorority and "Foo," campus girls' club.

Initiated Into Phi Beta Kappa

Robert Payne, senior physics major, was formally initiated into Phi Beta Kappa, honorary scholastic fraternity, at the annual banquet Tuesday night.

With a background of physics and chemistry, Payne is looking to the study of medicine, he said, as soon as "I get what I want here." A member of Sigma Chi, he is also a member of the pre-med fraternity, Alpha Epsilon Delta, and Alpha Phi Omega, service fraternity.

For two years a lab instructor in physics, Payne this year is in charge of the department's display for the Power Show of the engineers and kindred departments. The Power Show was held Friday and Saturday.

VISITS PECOS COUNTY

George T. Abell was a business visitor in Pecos County Saturday.

MIND *Your* MANNERS

T. M. Reg. U. S. Pat. Off.

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should a woman who is trying on dresses in a store smoke while she is doing so?
2. Is it good manners to flip ashes on a carpet if you are in a public place, like a hotel lobby?
3. Does a courteous person blame a saleswoman for the merchandise carried by the store?
4. If you buy a piece of merchandise in a large department store and have a complaint to make about it, should you go back to the clerk who waited on you?
5. Is it good "consumer manners" to make a practice of buying clothes and taking them home to decide whether or not to keep them?

What would you do if—

you see someone half a block ahead of you that you would like to speak to, and you are both walking—

(a) Yell to the person?

(b) Hurry to catch up with the person?

* * *

Answers

1. No. Department stores say they have a considerable number of dresses ruined by women who refuse to stop smoking long enough to make their selection.
2. No.
3. No.
4. No. Go to the manager of the department or to the complaint department if the store has one.
5. No.

Best "What Would You Do" solution—(b).

Petroleum Class Course Members Have Barbecue

WINK, May 3—(Special)—A state vocational training course in Petroleum Production Practices, under way for the last six months at Wink High School, officially was completed Friday at a program which was preceded by a barbecue for class members and their families at the Humble recreation grounds. Some 50 people attended the occasion.

Superintendent Lee Johnson and Mark Lowrey of Odessa, were the guest speakers, with Class Instructor O. L. Furse, presiding.

Mother's Day

REMEMBER HER
WITH A PRACTICAL GIFT

Pamper Her
With Something
Pretty . . . . .

GOWNS

Because she loves nice things. Lovely batiste . . . crepe . . . satin nighties in pastels and prints.

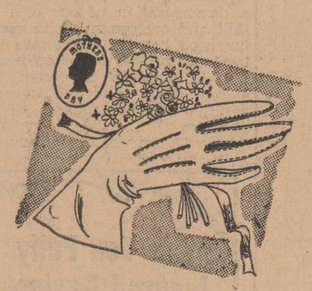

$1.00 to $2.95

GLOVES

New and different . . . they're longer wearing . . . fit superbly . . . smooth and cool . . . won't soil easily . . . wash like a hankie and dry quickly . . . they keep their shape.

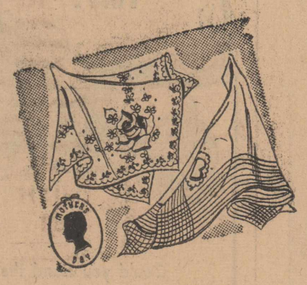

$1.00

Dainty
HANKIES

In linen with hand rolled hem—solid colors—white—prints . . . a practical inexpensive little gift that no woman ever had too many of.

25c to $1.00

SHOES

Mother's Day comes but once a year . . . so see that she looks her best. Give her a pair of Heel Latch shoes in the new spring color.

$4.95

She Would
Love a Pretty
House Coat

What would be a more lovely gift than a nice house coat or a house coat and pajama set to match? We have them in zipper or wrap-around styles . . . large floral designs or dainty patterns in all sizes.

$1.95 to $3.95

Costume
JEWELRY

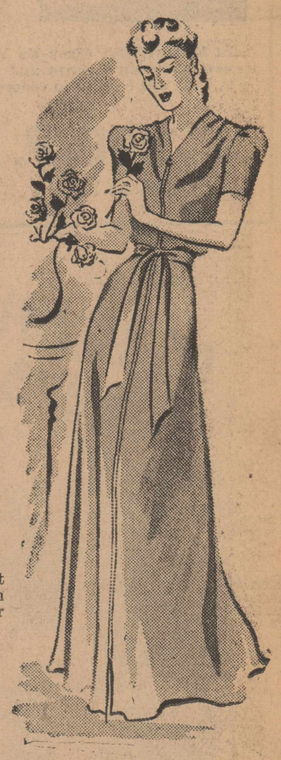

Really handsome lapel pins . . . bracelets . . . clips and necklaces for Mother's Day giving.

$1.00

Give Her
A Slip

A nice satin or crepe slip would be appreciated. We have a large selection to choose from in all sizes. Tailored or lace trimmed . . . white, opaline, shell pink and tea rose.

$1.00 to $2.95

BAGS

A gift that is sure to please . . . soft delicate shades—white . . . black in patent . . . kid . . . fabric.

$1.00 to $2.95

Corpus Christi Leads Cities In Week's Building

By The Associated Press

Corpus Christi led Texas' building permit tabulations with $283,380 the past week.

Houston was second with $217,710, bringing its current 1941 total to $7,234,469.

Permits include:

City	Week	Year
Corpus Christi	$283,380	$5,852,460
Houston	217,710	7,234,469
Austin	157,199	2,107,055
Fort Worth	111,699	1,936,889
Waco	85,648	1,901,051
Wichita Falls	59,788	522,719
Galveston	41,926	1,151,931
San Antonio	25,635	1,975,056
Pampa	17,650	146,705
Midland	4,450	125,420

Administration Has Big Job Selling War To People; Congressmen Laughed Out Experimental Blackout Measure

By Peter Edson
The Reporter-Telegram
Washington Correspondent

WASHINGTON, May 3 — The American people still don't think this war is real, or that it's coming over on this side of the ocean.

Peter Edson

No more significant proof of that statement could be asked for than is furnished by the refusal of Congress to pass a bill authorizing an experimental blackout for the District of Columbia. The reason for the defeat was simply that the congressmen didn't believe the country should be scared, didn't believe that anyone in the United States proper should feel that anyone in the District of Columbia was at all jittery about anything, although there isn't an air raid shelter in the city and the few anti-aircraft guns are old style and in the hands of the national guard.

The defense of Washington is right where it was in the 1790's when the French Major L'Enfant planned the city so that the Capitol and the White House could be surrounded with cannon to fire down the boulevards in all directions at anyone so bold and foolhardy as to dare an assault.

Dive Bomber's Paradise

It was only a few years later that the British sailed up the Potomac and burned the Capitol to prove that L'Enfant's defense plan was inadequate. And today, with aircraft carriers, dive bombers and parachute troops, Washington couldn't be defended at all.

So, if this war is going to be put over as something to get excited about, someone is going to have to get out and sell it to the people. All the billions of dollars Congress has appropriated for defense apparently mean nothing. Or at best they would seem to be an indication that perhaps spending this money for guns and planes and tanks and battleships is as good a way as any to boom the country back to prosperity.

As a matter of fact, this District of Columbia blackout bill was defeated by some rather smooth political work by the Republicans. Instead of arguing against the bill directly, the Republicans talked about the increase of federal employes in Washington from 65,000 in 1933 to 186,000 in 1940, Washington traffic jams, Washington's low tax rates, the decision of the Red Cross not to return to Washington for its annual convention because the delegates couldn't get rooms, the need for decentralizing the government, and the fact that fderal travel expenses were running $150 million a year..

Then, when Ham Fish of Dutchess county, N. Y., proposed a jazz amendment to put air raid sirens on all government buildings except the Department of Labor, and to provide tin hats and gas masks and asbestos suits for congressmen, the measure was simply laughed out of existence as spinach legislation.

Congress—and the country—still aren't in any mood to take defense or the war seriously, and that same psychology probably accounts for the fact that labor has refused to consider defense of the country as anything for which it should make sacrifices.

The problem of the administration is to wake the country up.

Car Curtailment Will Solve Labor Problem

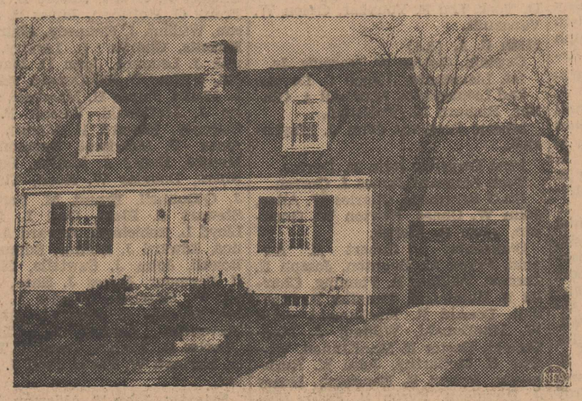

DETROIT, May 3—(UP)—Enforced curtailment of automobile production starting Aug. 1, will solve the labor problem for new defense plants springing up in the automotive industry, observers believe.

Cutting car output by 20 per cent should make available at least 100,000 employes either skilled or semi-skilled for the enormous job of turning out $2,000,000,000 worth of defense orders in the industry.

Before the reducation was ordered, manufacturers had hoped to find defense workers as they were needed in the plants, then rush them through a six-week training course. If a labor bottleneck developed, they said, workers would be taken from automobile assembly lines to fill defense jobs.

Classifieds—Small Cost—Big Results

House Is Planned For Efficient Living

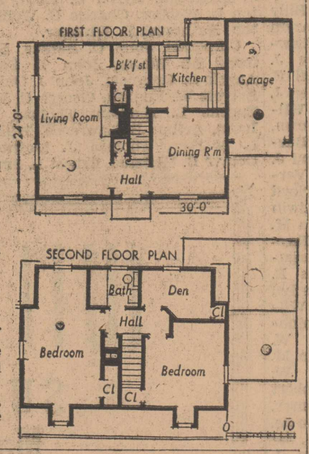

This house has a dignified exterior of Massachusetts Colonial, carrying out an old tradition in authentic detail.

Characterized by simplicity and convenience throughout, the house is designed in the conventional central hallway plan with living and dining rooms and bedrooms all opening from halls. There are departures from conventionality in the breakfast room downstairs and den upstairs.

The living room fireplace is flanked by closets, and the good-sized dining room provides privacy for old-fashioned entertainment. The kitchen is efficiently planned and well-equipped.

The property, located in Canton, Mass., was valued at $5,600 by the Federal Housing Administration.

Grafa Will Feature New Home In Texas Home Building Week

Observance of Texas Home Building Week here June 1 to 7 is assured. Barney Grafa announced construction of a "Texan" home already is under way.

The "Texan—the home built for Texans" is the typical home which builders all over the state are building in time for formal showing beginning Sunday, June 1, as a part of the activities during Texas Home Building Week.

Here, as in more than 140 cities and towns in the state, such a home will be exhibited to prospective home buyers and will be purchasable under the Federal Housing Administration's insured mortgage system with a modest down payment and the balance at less than a dollar a day, Grafa said.

"Texan Home" will be of modern design and will be typical of the community and this particular section of the state. The Federal Housing Administration already has issued a commitment to insure the mortgage upon completion and FHA inspectors will be on hand to inspect construction as it proceeds. His "Texan" will be located at 112 Club Drive.

"This community," Grafa said, "has long demonstrated its interest in home building and home owning and it is our desire to produce the type of home for which there is the greatest need here. Most important, of course, is the fact that this home will involve only a small down payment and small monthly all-inclusive payments. Briefly it will be the type of home which most of our citizens can well afford.

"Because it is in a sense to be a demonstration of our own local skill and craftsmanship in producing good housing I know that our local prospective home owners will find it attractive in design, thoroughly livable and full in accord withthe FHA's standards of construction.

"Our Texan will be entirely completed in time for formal showing June 1 and throughout that week. Construction is right on schedule at the moment."

Leaders Will Not Oppose Reynolds

WASHINGTON, May 3 —(AP.)— Administration supporters were reported today to have abandoned—largely because of Republican opposition—an attempt to keep the chairmanship of the important Senate Military Affairs Committee from Senator Reynolds (D-NC).

Reynolds, senior democratic member of the committee in point of service, has been in line for the chairmanship since the recent death of Chairman Sheppard (D-Tex).

By Senate tradition, a committee chairmanship goes to the senior member of the majority party. In the case of Reynolds, there were many protests against his advancement in view of his criticism of the administration's program of aiding Britain.

Some administration men attempted to lay the groundwork for a move within the democratic steering committee, which recommends committee assignments, to pass over Reynolds and place Senator Thomas (D-Utah) in the chairmanship.

Dairymen Delegation Will Attend Judging

Midland dairymen, eager to make a good showing in the Panhandle-Plains Dairy Show opening Tuesday, expect to send a delegation to the event and will enter a herd in the county herd class.

L. A. Brunson, R. O. Brooks, V. R. Drake, R. C. Vest, Jr., Jim W. Baker, and O C. Collins, Jr., will show 16 head.

Pasture and general feed conditions over the territory have been good.

Judging in Jersey classes is Wednesday.

Weather Delays City Construction; $4450 In Permits

Despite bad weather which slowed construction in the city, building permits last week totaled $4,450. Construction for the year is $122,675.

Higginbotham-Bartlett Co. received a permit for $3,850 to build a residence at 110 Club Drive in the Ridglea Addition. It will be a frame house, 45 by 32 feet.

Dolores Gonzales was issued a $200 permit to construct a frame building at 308 N. Terrell Street in the original township section.

J. A. Tom will build a garage with an apartment at 407 West Illinois St. Cost for the two-story building will be $400.

If You're Registrant, Here's Where You'll Wind Up In Big Draft

So you are a selective service registrant!

If you have not already—you will be classed in one of the following 15 groups.

Class I-A: Available, fit for general military service.

Class I-B: Available, fit for limited military service.

Class I-C: Member of land or naval forces of the United States.

ClassI-D: Student, fit for general military service; available not later than July 1, 1941.

Class I-E: Student, fit for limited military service; available not later than July 1, 1941.

Class I-S: Student in school who has not been examined physically.

Class I-A. O.: Conscientious objector to combat service; available for military service, no fighting unit.

Class II-A: Man necessary in his civilian duty.

Class III-A: Man with dependents.

Class IV-A: Man who has completed consecutively three years service in the U. S. army.

Class IV-A: Official deferred by law. Judge of a court of record.

Class IV-C: Non-declarant alien.

Class IV-D: Minister of religion or divinity student.

Class IV-E: Conscientious objector, available only for civilian work of national importance.

Class IV-F: Physically, morally or mentally unfit.

Negro Operator And Fiancee Receive Big Wedding In Building

David Vandyke, negro elevator operator at the Petroleum Building, has his "ups and downs," but David was definitely "up" yesterday afternoon.

David got married. The oil boys of the Petroleum Building saw to it that he got a real weddin'— preacher, license, reception, bride's bouquet, newspaper reporters, photographers, and all.

Vandyke, 21, married Kathryn Taylor, 18. The minister was the Rev. H. J. Johnson.

"I'm a Methodist minister and I married them good," said Johnson. "I met her in Odessa, I courted her in Midland, and the tips I got from the boys at the Petroleum Building "allowed" me to win her," the bridegroom said. "I'se happy," said the bride.

Members of the oil fraternity gave a party for the couple, and happy were the grinning minister, David and his bride.

Stocks Neutralize Early Week Losses

NEW YORK, May 3 — (AP.) — Behind a vanguard of strong rails which established numerous 1941 highs, the stock market moved ahead sufficiently today to neutralize losses incurred earlier in the week.

The best gains among the most active issues ran a little over a point, but steels generally failed to follow the upward lead and no great volume of buying developed.

The Associated Press average of 60 selected stocks gained .1 of a point at 39.4. Turnover was 197,750 shares compared with 156,000 last Saturday, the smallest short-session day since March 8.

The rail, and, with them, the shares representing railroad equipment manufacturers, got their big lift from a prediction by the Association of American railroads that carrier traffic would reach a maximum in 1943 and that roads would need 270,000 additional cars to carry prospective loads.

Gets Information On Notaries Applicants

Secretary of state officials notified Mrs. Susie Nobles, Midland County clerk, applications for notaries public received after May 1 will not be passed on until after June 1.

The county clerk has received 17 applications since April 1 for appointment during the term June 1 to June 1, 1943. Present notaries public will be re-appointed automatically. A list of approved applicants is expected to be received May 15.

"Notaries must appear in person before the county clerk, not before June 1, to qualify," Mrs. Nobles said. New and old notaries must file a new bond, she said.

ALIMONY PAYER ONLY 17

OAKLAND, Cal.—(UP)—Stanley G. Stevens is believed to be the country's youngest alimony payer. Pending outcome of an annulment suit with his estranged bride of two months, the court has ordered he pay his 19-year-old wife $30.00 monthly. Stevens is 17.

City Officials Launch Big Clean-Up Drive

Midland was ready today for the most extensive and biggest clean-up campaign in its history.

The city entered the official "Clean Up, Paint Up, and Fix Up Week" with 1800 citizens pledged to individual co-operation.

Downtown business firms, civic organizations, and the municipality indicated 100 per cent support to the drive. The campaign is sponsored by the city beautification committee of the Midland Chamber of Commerce. It will last one week.

Mayor M. C. Ulmer officially proclaimed the week. He said all facilities would be utilized in the campaign.

Sponsors urged individuals "to do your part" and reminded that "your part starts at home.

"At least for the week, we want Midland to concentrate on its 'home defense' as well as national defense—that would be doing everything to make this city the cleanest in West Texas," officials stated.

Ninety students received theatre passes, awards of J. Howard Hodge, for getting 20 names on pledge sheets.

Students of two ward and junior high schools participated.

A poster contest is being conducted among public school students. Prize winning posters will be displayed in downtown business show windows.

City officials requested property owners and citizens to place trash and other material to be hauled away in containers, boxes, or barrels so there will be no delay in the work.

Providing men could be obtained for the work, city officials said the municipality would assist in cleaning up vacant lots and alleys.

Sponsors urged citizens to be responsibile for individual premises and to clean their own alleys.

The city announced it would begin picking up trash from alleys Monday provided it was placed in a container. Two trucks are available for this work, A. B. Cole, city employe, said.

Citizens are requested to call the city hall, No. 565 when trash is ready to be picked up. A truck will be sent immediately.

Mustang Members Call Off Pet Parade Again

Twice postponed because of unfavorable weather conditions, the annual Mustangs' Pet Parade will be held Saturday.

Officials called off the event yesterday. The parade originally was scheduled April 26.

RURAL POWER GROWS

RALEIGH, N. C.—(UP)—David S. Weaver, acting director of the North Carolina Rural Electrification Administration, reports that approximately 20 per cent of North Carolina's 321,085 farms are now receiving electric service.

General Motors Previews Of Progress Shows How Synthetics Are Processed

E. L. Foss, director of the General Motors Previews of Progress demonstrates some of the synthetics now being processed from petroleum, including a synthetic tire. This free stage exposition will be at the high school auditorium Monday and Tuesday at 8 p. m.

Downy yarns made from milk . . . shimmering fabrics of purest glass . . . jewelry made from petroleum . . . sounds like a fashion parade of the future. Well it is just that but also much more. The General Motors Previews of Progress to be presented on the stage of the Midland high school auditorium tomorrow and Tuesday evenings at 8 o'clock will demonstrate some of the results of scientific research which have a direct bearing on national defense.

Petroleum furnishes a very good example. Aside from its tremendous importance in its usual functions of providing power, this industry today provides us with a material absolutely essential to the national defense, rubber. Rubber from petroleum sounds very odd, to say the least but then every new process, every new invention is startling in the beginning.

Knowing that the supply of rubber from overseas might be completely cut in time of war, research men have been working to find a substitute. How well they have succeeded will be shown on the stage of the auditorium with the presentation of an automobile tire which contains not one ounce of rubber. And best of all every "ingredient" is an American natural resource. The main base of the synthetic rubber is petroleum.

Highly entertaining is the experiment during which the commentator broadcasts music over a beam of light thus enabling him to conduct a "phantom" orchestra. But more important is the fact that the secret of this experiment, the photo-electric cell or electric eye is today used in hundreds of counting and sorting devices and for accurate measurements in defense industries. This device completely eliminates carelessness or human inability and speeds up many processes. The same identical system used in the talking flashlight sequence is now being experimented with as a new means of communication. Dirigibles have used it while in the air to communicate with their landing fields. Although it has many faults at present its chief asset is that it provides a means of spoken communication almost impossible to tap or otherwise overhear.

The glass industry has made a singularly valuable contribution to defense. By drawing molten glass into a fibre it is now possible to make a soft, light, flexible glass tape. The young ladies of the future may be walking down Wall street wearing a stained glass window for a dress because of this discovery but its prime importance at present is its use in the insulation of airplane engines, enabling manufacturers to greatly reduce the size and weight of engines with no consequent loss of horsepower.

The Previews of Progress has been designed to appeal to all ages and to the ladies as well as the men. This free exposition lasts about an hour and a half and its coming to Midland marks it last regular appearance in West Texas.

Cattlemen Give Report Approval

The report of Aldredge Estes, inspector, was approved at a meeting of directors of the Midland, Ector and Andrews Counties Cattlemen's Protective Association here Saturday.

Hence Barron of Odessa, president, presided at the meeting. E. H. Barron of Midland is secretary. Others present at the meeting included: H. G. Bedford, George Glass, George Ratliff, J. E. Hill, all of Midland, and Carl Roberts, Odessa.

The association inspector reported co-operation of peace officers in surrounding counties in curbing of cattle theft.

Next meeting of the tri-county association will be held in Odessa July 5. Meetings are every two months.

Soldiers Will Go To Caverns Sunday

A trip to Carlsbad Caverns for soldiers of the Provisional Searchlight Battalion, sponsored by citizens of Midland, was postponed to May 11 because of rainy weather.

Four or five hundred officers and soldiers will make the trip.

Truckers, who offered trucks for the trip, included: J. C. Miles, Earl Ray, Jakie Roberts, Claud Ramsey, W. E. Hankla, C. C. Whatley, Lloyd Mackey, and Houston Hill.

The trip will be made in one day (Sunday).

New Mexico state police wired sponsors that trucks would be given free courtesies at New Mexico's Malaga port of entry.

Plan Big Campaign For Defense Bonds In Midland County

Plans for launching a county-wide campaign through the service clubs, women's clubs, schools, churches, press and radio to promote the sale of national defense bonds and stamps in Midland were perfected at a meeting of the Midland County defense bond committee at the chamber of commerce Friday afternoon. Roy Parks, chairman, presided.

A publicity campaign through the press and radio was outlined and it was suggested newspaper advertisers carry "Buy Defense Bonds" lines in their ads.

Talks on defense bonds will be given before service clubs of the city this week to better acquaint club members with the program. Mayor M. C. Ulmer will speak at the Lions Club Wednesday and Delbert Downing will address Jaycees at their luncheon Friday. P. J. Mims will arrange for a speaker at the Rotary Club Thursday.

To Arrange Speakers.

Mrs. J. Howard Hodge will obtain speakers and arrange for talks before women's clubs of the city at meetings this week.

Ministers have been requested to remind Sunday morning congregations of the observance in Midland of "Defense Bond Week," proclaimed by Mayor Ulmer.

Talks at various schools in regard to defense bonds and stamps will be arranged by L. C. Link, president of the school board. E. H. Barron, county judge, will invite speakers to appear before rural schools.

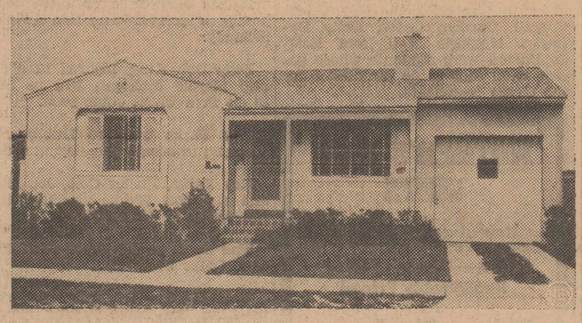

A joint Rotary-Lions committee will be appointed to work out details and to arrange for prizes in proposed essay and poster contests in city schools. Defense stamps will be offered as prizes.

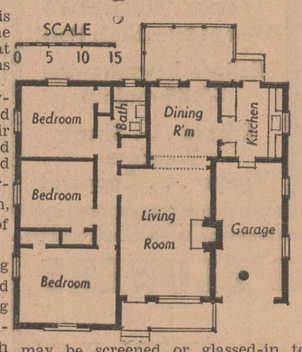

Attention was called to the fact bonds and stamps are in the price range of every man, woman and child of the country. They may be purchased at the postoffice or at the banks.

Hitler Supporter Volunteers

ROYAL OAK, Mich.—(UP)—German-born Henry Beirer has volunteered at 35 for the army even thought he hopes Hitler will win the war, and though he sees the possibility of having someday to fight against his own people.

Features Well-Planned Ventilation

Simple and effective in design, this Miami, Fla., property valued by the Federal Housing Administration at $4800, provides fine accommodations and privacy for a large family.

It contains three bedrooms, living room, dining room, kitchen and garage. Plans are complete in their arrangement of good circulation and with separation of the living and service quarters. It has an interesting plan for cross ventilation, economy of space, and simplicity of movement.

The three bedrooms are pleasing in the handling of proportions and details. A generous and inviting dining room helps create the illusion of spaciousness. A rear porch with an entrance on the dining room may be screened or glassed-in to make another room.

Lowe Brothers PLAX THE UNIVERSAL BEAUTY FINISH

FOR PERFECT ENAMELING RESULTS

Experts and amateurs alike acclaim LOWE BROTHERS PLAX, the universal beauty gloss for all enameling. And no wonder! PLAX makes it easy to obtain expert results. Adaptable to any surface, PLAX hides effectively, covers solidly and flows freely. What's more, PLAX resists wear and weather and many stains and acids—as dramatic "abuse tests" prove. And PLAX, the universal beauty finish, is economical, too, because ordinarily only one coat is needed for refinishing.

TEXAS HIGH SCHOOL PRESS ASSOCIATION
FOUNDED 1923 — HEADQUARTERS TEXAS STATE COLLEGE FOR WOMEN, Denton, Texas

HEDRICK AND WILLIAMS ARE HONOR STUDENTS

Foster Hedrick was named valedictorian and Kenneth Williams salutatorian of the 1940-41 senior class, D. D. Shiflett, principal, announced.

Mary Floyd, honor student of the junior class, will appear on the South Elementary school program.

Honor student of the sophomore class is Jacqueline Theis who will appear on North Elementary's program.

The freshman honor student is Faye Shelburne who will appear at South Elementary.

Names Three Students For Class Program

Three senior students, Liza Lawrence, James Mims, and Gene Ann Cowden, were elected by classmates to participate in the class night program. Miss Lawrence was selected class historian. She will review accomplishments of the 1941 class and James Mims, will predict the future of class members. Gene Ann Cowden will present each member a gift, and Roger Sidwell, president of the class, will deliver the last will and testament.

Trigonometry Class Visits Observatory

Under the supervision of Miss Merle Smith, the trigonometry class made an excursion to the McDonald Observatory Wednesday night.

Students and parents takink the trip were Tad Crane, Herbert Rheders, Roger Sidwell, Carroll Hyatt, Bill Wyche, Mary Helen Walder, Jimmy Harper, Payton Anderson, Joe Conkling, Mrs. Laura Neihbur, Mrs. R. C. Conkling and Bob, and Mr. and Mrs. W. D. Anderson.

Superintendent Sees San Antonio Parade

Supt. W. W. Lackey saw "The Battle of The Flowers" last week end and described the parade to the student body in assembly Wednesday. The main purpose of Lackey's trip to San Antonio was to take his new 116-page book "Five and Thirty Years" to a publisher there.

Seniors Will Present "What A Life" May 16

The cast of the senior play, "What A Life" is working nightly at the Midland High School auditorium.

"What A Life" is a comedy of high school life and activities. It is directed by Miss Pauline McMurrey.

News Of Former Midland Students

Barbara Jean Harper and Julianan Cowden, who attend Hockaday, Fred Gordon Middleton of NTAC, and C. A. Goldsmith of the University of Texas were among students who attended the opera in Dallas last weekend.

Melba O'Neil, student at a beauty school in San Angelo took the state examination in Austin last week and will return home today.

Buddy Van Huss, former student now attending JTAC, was visiting his parents here last weekend.

Bobby Walker, attending Texas U. has pitched two baseball games for the Longhorns

Presents Theater Play Sketch At Assembly

Mrs. W. B. Stowe, who directed the Civic Theatre play, "Margin for Error," presented at assembly a sketch of the play.

Music Class Has Opera Discussions

The fourth year music class is studying Wagner's life and compositions. Mrs. De Lo Douglas is telling her class the story of the ring operas, composed of a cycle of four operas. Other "Siegfrieds Tod," and "The Flying Dutchman."

Commercial Students Take Shorthand Test

Five members of the commercial department took the April Gregg shorthand theory test Tuesday afternoon from Mrs. R. D. Scruggs. One hundred words were dictated in 10 minutes and 15 minutes were given to transcribe the test. Gloria Coryell, Carolyn Oates, Betty Doherty, Marjorie Hall, and Betty Jo Barton were students whose papers were sent in as candidates for the Gregg certificate.

'Oh to Be . . .'

"Oh to be in England, now that spring is here" still seems to make sense when you look at this picture showing a little girl evacuated from London to Devon and its crocuses.

Students' Names In The News

Joe Conkling visited in Oklamoma last weekend.

Lucy Willis spent last weekend in Odessa and Kermit visiting friends and relatives.

Jane Hill attended operas in Dallas the last weekend.

Jim Turpin spent the weekend visiting in Dallas.

Jo Dozier visited in Goldsmith last weekend.

Patsy Collins is back in school after a tonsillectomy.

Maxine Hughes spent last weekend in East Texas.

Edith, Allan, and Fred Wemple spent last weekend in Dallas.

Sue Shepard went to Dallas last weekend.

Alberta Lee spent last Sunday visiting friends near Stanton.

Helen Armstrong was a member of the cast in the play given by the Civic Theatre Wednesday.

Muriel McHargue returned from a trip to Kerrville and San Antonio Monday.

Billy Bob King, injured in a car and bicycle accident, will be able to sit in a wheel chair soon.

Roy Parks went to Dublin last weekend to attend the annual rodeo.

Roy Parks, Buster Cole, Joe Midkiff and Bill Wyche are attending the rodeo in Carlsbad.

The O. C. A. Club met with Colleen Oates Saturday.

Mrs. Clinton Dunagan has been teaching the home-making classes during the absence of two teachers.

Mrs. Earl Morgan has been substituting for Mrs. James Dee, who was in Houston because of the illness of her husband.

Mrs. Bill Connor is keeping the third floor study hall for the remainder of the school year.

Homemaking Students Attend State Rally

Six representatives of the homemaking department left Wednesday for San Antonio to attend a State home economics rally there. Miss Iva Butler, Miss Jeanne Logan, homemaking teachers, Colleen Doss, Peggy Jean Gard, Jackie Theis, Nellie Elkin Brunson, members of the different classes attended.

Catoico Expected In Middle Of May

Finishing touches have been made on the MHS 1940-41 year book. It was sent to the printer and the proof is expected back soon. The sale of annuals has increased and the book is expected soon after the middle of May. 1

Lions Committee To Arrange Meeting Date

A committee of the Midland Lions Club has been appointed to set a date for a quarterly zone meeting to be held in Midland in the month of May.

Murray Fly, zone chairman, of Odessa, will preside. The meeting will be the last zone meeting before the District 2-T Lions convention in Amarillo in June.

The last zone meeting was held in Wink.

Midland Gets Buttons Publicizing Efforts For WTCC Conclave

One thousand "Midland Next" buttons to be used at the West Texas Chamber of Commerce convention at Mineral Wells May 15-16 have been received here. Midland seeks next year's celebration.

Registration badges for Mineral Wells meeting are expected Monday. This will signal the start of a drive in Midland to secure delegates to the convention.

John P. Butler and H. F. Fox, co-chairmen of the Midland Chamber of Commerce convention's committee, are expected to call a meeting early this week to discuss plans for delegation.

Midland has been invited to present a 15-minute program at the regional directors dinner May 15.

Midland will present a queen in a "Review of Queens" at the convention. She will be selected soon, chamber officials said.

Midland is making a determined pre-convention bid to get the '42 meeting. It has sent booster units to West Texas cities and publicized its efforts in various sectors.

Plan More Lines To South America

By Lawrence S. Haas
United Press Latin American Editor

United States airlines, serving as a spearhead of intensified American commercial penetration into Latin American, have increased their schedules and announced plans to establish new routes at an early date to link the two continents more closely.

These moves are being undertaken primarily to meet recent German air transport expansion in Latin America, constituting what may be a serious future competitive threat to United States flag lines. Furthermore, the new schedules and the newly-planned routes will facilitate business operations, tourist travel and cultural relations and will serve as a valuable aid to the practical workings of the good neighbor policy.

Canned Fruit Part of Estate

ALBION, Ind.—(UP) — Administrators of the estate of the late Mrs. John Winebrenner sold at public auction 2,500 cans of fruit, vegetables and meat, which she had canned and stored.
