PRIMARY JUDGES SELECTED BY COMMITTEE

Interest Centers on Sheriff, Treasurer and County Judge Candidates

Run-off Primary

Will be Held in Three Commissioners Precincts; Clerk and Attorney Unopposed

With the Democratic primary only a few days off, interest in the county election is growing and the candidates are busy "hitting the high spots" in their quest for votes. The race for treasurer is causing much interest. With the present incumbent, Mrs. O. E. Blank, running for re-election, opposed by three rivals, Mrs. Arthur Slavin, Mrs. C. E. Marty, and Mrs. Cora Lee Lawrence, this race is almost certain to go into the run-off primary in August.

County Clerk Irvin R. Buchanan and County Attorney Max W. Boyer are not a care in the world for either have an opponent. R. C. Allen, county surveyor, and Dewey J. Allen, for return as Justice of Peace, are also unopposed for re-election.

There is probably more talk about the sheriff's and judge's races than any of the others. Sheriff Talley, now serving his 26th year as sheriff, has a tax collector, for his opponent, M. M. Cuda, present assessor. By action of the voters of the state, the office of sheriff, tax collector, and tax assessor, is combined in this county on January 1, 1935. The race for county judge between R. T. Correll and Dave Banks looks like a close contest.

R. A. Fuller, veteran commissioner from Precinct No. 3, is just watching the other boys get out and hustle for support for he has no opponent this year. In Precinct No. 1, P. L. Garrett and W. L. Anderson are in the race. In Precinct No. 2, W. E. Yeary is opposed for re-election by E. W. Rogers, while in Precinct No. 4, Commissioner W. R. Norris, also has an opponent, J. H. Callahan.

On the ballot for Ochiltree county in the district races, there is only one contest. B. L. Rogers, Farnsworth, present representative from the 124th legislative district, is opposed by John R. Smith, Borger, District Judge E. J. Pickens, and District Attorney W. L. McConnell, neither have any competition. Congressman Marvin Jones is also being returned to office without an opponent.

For members of the Democratic Executive Committee, the candidates are Van W. Stewart, county chairman; precinct chairman are: No. 1, O. H. Black; No. 2, J. L. Hurter; No. 3, R. H. Francis; No. 4, Val McLanahan; No. 5, Frank L. Hamilton; No. 6, T. C. Lott; No. 7, Walter Keim; No. 8, W. M. Shradler; No. 9, L. L. Swink; No. 10, E. A. Grever; No. 11, J. W. Rogers; No. 12, C. Barber; No. 13, A. R. Hogland; No. 14, Jack Allen.

Pending judges for the primary will be held Saturday, July 28, were named by the county committee at their recent meeting. The judges will select their own associate judge and clerk. The presiding judges are: No. 1, Courthouse, O. H. Black; No. 2, Huntton, J. L. Hurter; No. 3, Lone Tree, R. H. Francis; No. 4, Alalfa, Val McLanahan; No. 5, Not-A-Ranch, Frank Hamilton; No. 6, Tax, T. C. Lott; No. 7, Crowe, Walter Keim; No. 8, McMillen, Audie Conley; No. 9, Cedar Bluff, C. S. McCasraugh; No. 10, Black, W. M. Deck; No. 11, Farnsworth, W. B. Dennison; No. 12, Waka, J. R. Stump; No. 13, New Hope, S. R. McClure; No. 14, Perryton school, Abe Green.

PERRYTON SCHOOLS TO OPEN SEPTEMBER 16TH

All schools in the Perryton Independent School District will open for regular work on September 16. This is one week later than the former opening dates. There are several reasons for this plan. Many of the boys are needed in the fields a few days longer; vacation periods after harvest may be extended; most of the schools in our section of the state are to open on September 16; teachers who attend summer schools will have time to rest a few days before schools open, etc.

This opening date was suggested at the close of school last May, but this definite announcement will enable people to make their plans accordingly in advance.

LEGION NAMES NEW OFFICERS

W. M. BOSTON ELECTED AS COMMANDER OF PIERCE JOHNSON POST OF THIS COUNTY

W. M. Boston of the Piggy-Wiggly of this city, was elected as Post Commander of the Pierce Johnson Post of the The American Legion at the annual election held in the Legion Hall Monday evening. The new commander and the other officers will take office in October.

Other officers elected were: H. I. Hudson, 1st vice commander; A. N. Dowers, 2nd vice commander; C. C. Bull, adjutant; C. B. Rogers, finance officer; J. R. Thomas, chaplain; Paul Bowen, sgt. at arms; W. P. Ballew, service officer; Ed Doores, liaison officer; Van W. Stewart, historian; P. L. Garrett, Horace Lackey and Jack Allen, elective members to serve with the elected officers as members of the executive committee of the Post.

The following delegates to the state convention at Mineral Wells were elected: P. L. Garrett, C. C. Bull, Omar Truax, M. W. Truax, R. C. Allen and Van W. Stewart, delegation chairman. Alternate delegates selected are W. P. Ballew, C. B. Rogers, Paul Bowen, Jack Allen, W. M. Boston, and Harry Nail.

At the conclusion of the meeting, the Legion joined with the Auxiliary in a social hour at which refreshments consisting of ice cream, cake and lemonade were served. The Truax Brothers, Glenn, Beano, and Omar, rendered several vocal selections which were very much enjoyed. This trio, a favorite with audiences in all parts of the Panhandle, and especially in Legion and Auxiliary circles, has been asked to appear on both the Legion and Auxiliary programs at the state convention.

Mrs. R. B. Guthrie returned to her home in Oklahoma City on Wednesday of last week after a two weeks visit with her mother, Mrs. Emma Glasgow and other relatives.

R. T. Shindler, Carvey Farnsworth, Paul Ballew, Miles Edwards and Bill Massey left Saturday night on a two weeks fishing spree in Colorado.

In our issue of July 5, 1934, the Herald predicted that the naming of additional drouth stricken counties in Texas was a deliberate attempt on the part of the Texas Relief Commission, the present administration, and the "down-state" politicians to divert a greater part of the special Federal appropriation that was set aside and designated for the relief of the counties in the Panhandle and West Texas that have been suffering from almost unbearable drouths for the past three years.

Now the "boys" and also "girls" down at Austin have come out in the open and shown their dirty, robbing hands, just as the Herald predicted they would do. Under date of July 10, Adam R. Johnson, director of the Texas Relief Commission, sends an order to H. Shindler, Ochiltree county relief administrator, stating that there are now 192 counties designated in the drouth area, (we have since learned that this list has been increased to 199), and that although previous instructions had indicated that a mere adequate budget could be given to the relief workers in this funds would now have to be distributed among the 192 counties, and as a consequence all budgets in this county would be reduced to \$20.00 per month regardless of needs of workers and his family. The previous orders had allowed workers to be given time on a strictly budget needs basis. In other words, a man on the relief rolls was to be given work in each month to the amount necessary for him and his family to exist.

The Herald don't mince words when we call this one of the dirtiest, low-down tricks ever handed the Panhandle by the Austin politicians.

COUNTY AGENT TAKES CHARGE

J. T. STOVALL ARRIVES TO ASSUME DUTIES OF COUNTY FARM AGENT; FROM WINTERS

J. T. Stovall, for the past three years vocational agriculture instructor in the schools at Winters, Texas, is now in charge of the county farm agent's work in Ochiltree county. Mr. Stovall and his family arrived in Perryton the fore part of this week.

Mr. Stovall is a native Texan, being raised at Mt. Calm in Hill county. He is a graduate of the Texas A. & M. College and has had many years experience in farm extension work.

He was located at Brownwood, Texas for a number of years as vocational agriculture instructor and agriculture agent of the Brownwood Chamber of Commerce.

Mr. Stovall comes to Ochiltree county highly recommended by his associates and co-workers in former positions. Guy R. Sheets, former county agent, is now located with the federal department of agriculture at Tucson, Ariz.

INSTALL MASONIC OFFICIALS

ELDON RUPPRECHT INSTALLED AS NEW WORSHIPFUL MASTER PERRYTON MASON LODGE

Eldon Rupprecht was installed as Worshipful Master of Perryton Lodge No. 910, A. F. & A. M., at the regular installation meeting Monday evening. Duane Roberts, immediate Past Master, was the installing officer, with J. N. Conley serving as Marshal.

Other officers installed were: J. M. Anderson, senior warden; Audie Conley, junior warden; J. R. McLarty, treasurer; Jas. E. Barbour, secretary; W. H. Lance, Tyler; H. W. Yorke, senior deacon; J. A. King, junior deacon; W. G. Yeary, senior steward; and G. B. Mears, junior steward.

Royal Arch Masons

Will Install Officers and Put on Degree Work Tuesday, July 24, 8:00 p. m.

All members of the Perryton Chapter, Royal Arch Masons, are notified of the meeting to be held at the hall on Tuesday evening, July 24, eight o'clock, for the purpose of installing the newly elected officers.

In addition to the installation ceremonies, there will be degree work. Members are requested to be at the hall promptly at eight o'clock, so that lodge may be opened on time.

R. T. Shindler, Carvey Farnsworth, Paul Ballew, Miles Edwards and Bill Massey left Saturday night on a two weeks fishing spree in Colorado.

Smith Here Tuesday

Candidate for Representative from Borger Addressed Voters on Street

John R. Smith, Borger, candidate for Representative from this, the 124th legislative district, was in Perryton Monday and Tuesday in the interests of his candidacy. Mr. Smith addressed the voters with his loud speaking equipment on the streets here Tuesday evening.

SMALL CREATED REFUND ON GAS

A. C. JOHNSON, FORMER REPRESENTATIVE, GIVES SMALL CREDIT FOR CREATING BILL

AMARILLO, July 18.—"It was the fight of Senator Clint C. Small in the Senate that created the Gasoline Tax Refund law," A. C. Johnson, manager of the Small campaign in the Panhandle said today. "It was also his fight there since the law was passed that has kept it in force. This one law is a direct benefit to all the Panhandle, paying in tax refunds something near a million dollars annually. Every county in the Panhandle gets a benefit from the refunds with nearly one-third of such refunds coming to farmers of the 31st Senatorial District."

These funds taken from a report of the Comptroller's department are an example of the annual refunds to a number of the Panhandle counties last year. Swisher, \$65,337.74; Ochiltree, \$40,664; Carson, \$42,497.29; Deaf Smith, \$48,642.35; Dallam, \$41,630.22; Floyd, \$36,756.80 and Hale \$57,680.19.

Johnson points to Small's position benefiting Panhandle counties by passage of the Road Bond Assumption Act. Senator Small opposed the state-wide bond issue proposed four years ago, and was the leader in writing the law to divert one cent of the gasoline tax for the assumption of the bonded indebtedness of counties which had voted bonds for paving state highways through such counties.

The bond assumption act relieved every county which had bonds for paving highways, thereby saving thousands of dollars in tax money in the Panhandle. Counties in which paved roads are to be built in the future are relieved of the necessity of voting heavy bonded indebtedness to finance highway construction.

A number of rallies are being held in Panhandle towns this week, as a part of the intensive campaign being waged by supporters of Senator Small's candidacy for governor. The organized goodwill tours in behalf of Senator Small are meeting with splendid response.

Reports from all sources indicate that the Small bandwagon is gaining strength in all sections of the state. Senator Small speaks at Abilene Saturday night. Next week he goes to El Paso and Fort Worth.

Miss Lema Jane Butcher, Pollett, was a Saturday night guest with Miss Johnny Helen Gray.

RODEO JUDGES ARE SELECTED

SECOND ANNUAL WOLF CREEK HOMESPUN RODEO LINN RANCH, ON FRIDAY JULY 27, 1934

Roy Linn, manager of the second annual Wolf Creek Homespun Rodeo to be held at the Linn Ranch, located 17 miles southwest of Perryton on Wolf Creek, on Friday, July 27, announces that the following judges have been selected to pick the contest winners: J. H. Palmer, C. E. Bryant, G. B. Mears, and W. E. Tandy. All of these judges are practical cattlemen.

Z. D. Davis, director of the Perryton twelve-piece Rodeo Band, made up principally of experienced musicians from the Perryton high school band, has made arrangements with Mr. Linn and his associates to furnish music for the cowhands' show.

A small admission charge is made at the show to help defray the expenses of the contests, which will include calf roping, wild cow riding, wild cow milking, cutting horse contests and relay riding. Entrants will be charged a small admission fee, same going into the prize money.

The rodeo held by the Wolf Creek punchers last year was a big success and furnished much entertainment, both for spectators and contestants, and the promoters are promising a bigger time than ever this year. Make your plans now to attend.

Irvin In California

Supt. and Mrs. Irvin are Attending University of California This Summer

W. B. Irvin, superintendent of schools of the Perryton Independent School District, and Mrs. Irvin are living at Berkeley, California this summer, where they are both attending the University of California.

Mr. Irvin is taking some advanced work in the field of School Administration under Dr. W. W. Kemp, Dean of the School of Education; and under Dr. F. W. Hart, a nationally known educator, who has made school surveys in many of the leading cities of the United States.

Mr. Irvin expects to complete sufficient work this summer, with work already finished, to give him one-half of the credits necessary for his Doctor's degree. Mrs. Irvin is doing full time work in the School of Physical Education at the university. They expect to return to Perryton in ample time for the opening of the schools of the Perryton district.

Mr. and Mrs. Leonard Robertson announce the birth of a daughter on Tuesday, July 17, 1934. The little lady has been named Arlene Leona.

Mr. and Mrs. Pedro Dial, Miami spent Tuesday evening in the J. W. Richardson home. They were enroute home from the Colorado mountains.

TYLER PUBLISHER PUTS SMALL IN THE RUN-OFF

Tyler, July 18.—Sentiment for Senator Clint Small's candidacy for governor is sweeping East Texas and the West Texan has made remarkable gains in the eastern section the last few weeks, according to Carl Estes, Tyler publisher.

"I am supporting James V. Allred for governor," Mr. Estes said, "but I predict that Clint Small and Allred will be in the run-off. I base my estimates of Small's strength in East Texas on a trip from the Red River to the Sabine made in the last ten days."

SOIL TERRACING DEMONSTRATION

COUNTY AGENT STOVALL WILL SUPERVISE CONTOURING AND TERRACING DEMONSTRATION

County Farm Agent J. T. Stovall has scheduled a demonstration in soil contouring and terracing on the Everett D. Clement farm located one mile east of the Black school house, for Wednesday, July 25.

He is anxious that all farmers in the southwest part of the county attend this demonstration. Everyone is welcome and as contouring and terracing is a moisture preservation measure, all persons in the county should be interested in this demonstration.

Work will start promptly at 8:30 Wednesday morning, July 25, and will last until noon.

Eastern Star Officers

Mrs. W. L. Lovett is New Worthy Matron of Perryton Chapter of Masonic Auxiliary

The newly elected officers of the Perryton Chapter of the Order of the Eastern Star presided at the regular meeting of the order on Tuesday evening. Mrs. W. L. Lovett is the new Worthy Matron, succeeding Mrs. J. O. Wooten, who has just concluded a very successful year's administration.

Other officers are: John McLarty, worthy patron; Mrs. Joe Willey, associate matron; H. W. Ragan, associate patron; Mrs. J. O. Wooten, Ada; Mrs. Mildred Wright, Ruth; Mrs. Louise Roberts, Esther; Mrs. Elizabeth Richardson, Martha; Mrs. L. R. Conner, Electra; Mrs. LaRue Norris, conductress; Mrs. L. E. King, associate conductress; Mrs. H. W. Ragan, chaplain; Mrs. P. H. Sebastian, treasurer; Mrs. Orvil Jacobs, Warder; J. O. Wooten, sentinel; Mrs. A. L. Dowers, marshal; and Mrs. John Johnson, organist.

Mr. and Mrs. Tom Henry and daughter, Tomasine, of Pollett were guests in the home of his sister, Mrs. Virgil Castle, Saturday and Sunday. Mr. Henry is attending to business in Wichita, Kans., this week and the family remained here for the week.

COUNTY CANDIDATES TO ADDRESS VOTERS

Club Women Will Serve Box Lunch on Courthouse Lawn Saturday, 6:30 to 8:30 p. m.

Judge Pickens Speaks

Loud Speaking Equipment Will Be Installed; State and District Candidates Also

The largest crowd ever to assemble in Ochiltree county for a political rally is expected at the courthouse in this city on Saturday evening, July 21, at the candidate's rally and box lunch, sponsored by the County Council of Women's Home Demonstration Clubs.

The club women will serve a box lunch from 6:30 p. m. to 8:30 p. m. The menu will consist of fried chicken sandwiches, salad, cake, homemade ice cream, and a cold drink. The price for the lunches will be 45c each or two boxes for 75c. The profits from the box lunch sale will be used for the purpose of defraying the expenses of the winning Club Girl and Home Demonstrator to the Short Course to be held at College Station July 30 to August 3.

Mrs. Jim Dodson will preside at the program which will follow the supper. Introductions of candidates, whose speeches will be limited, will be made by Mrs. W. B. LaMaster. J. T. Stovall, the new County Farm Agent, will make a short talk, and the Truax Brothers trio will appear on the program.

An opportunity will be given all county, district and state candidates to speak in behalf of their candidacy. It is expected that a number of short addresses will be made in the interests of candidates for state offices. Loud speaking equipment will be installed in order that all speakers may be heard.

The main address of the evening will be made by Judge E. J. Pickens, Canadian, district judge of this judicial district. Judge Pickens will address the voters of Ochiltree county in behalf of the candidacy of Senator Clint Small, the Panhandle's own candidate for governor.

On Education Tour

Mr. and Mrs. Spencer Whippo on Tour Sponsored by West Texas Teachers

Canyon, Texas, July 17.—Among the students leaving today on the first educational tour sponsored by the West Texas State Teachers College are Mr. and Mrs. Spencer Whippo of Perryton, Texas.

Some points of outstanding interest listed on the itinerary of the group, who will start their trip today are Pike's Peak, Colorado Springs, Rocky Mountain National Park, Boulder, University of Wyoming, Yellow Stone Park, Salt Lake City, Mesa Verde Park, and the land of Billy the Kid. Faculty members who will teach on the journey are Dr. A. M. Meyers of the education department, Mrs. Geraldine Green, Dean of Women, and Professor Frank R. Phillips, Head of the Department of Agriculture.

The personnel of the group will consist of students regularly enrolled for the second term which opens July 16. They will carry on their study while away, and return to the campus to take their examinations at the regularly scheduled time August 24.

Theatre

Attractions at the Elys Theatre for the coming week:

July 19-20—Jack Haley, Mary Boland, Patricia Ellis and Neil Hamilton in "Here Comes the Groom".
July 21—Charlie Ruggles, Una Merkel and Mary Carlisle in "Murder in the Private Car".
July 22-23—Marion Davies and Gary Cooper in "Operator 13".
July 24-25—Jack Oakie, Ben Bernie and Dorothy Dell in "Shoot The Works".

Austin Politicians Rob Panhandle Drouth Counties

The Federal government made this special appropriation for the benefit of 23 counties, which had been in the drouth area for three and four years. Now we are being robbed of "our money" by it being spread over 199 counties, practically all of whom have been suffering from extremely dry weather for the last two or three months. It is a fact that only a few months ago, a number of the counties now listed in the drouth area were receiving relief funds because they were in the flood area.

This but another glaring example of the step-child treatment that is always accorded West Texas and the Panhandle in particular by the clique of Austin politicians who control the affairs of Texas. In the eyes of these "bosses", about all the eye Texas has for the Panhandle is the taxes that we pay. How many Panhandle men are on the state pay roll? How many state institutions are located in the Panhandle? How many fat juicy contracts for printing, merchandise and other state business are ever let to Panhandle people? How does the Panhandle compare with the rest of the state in the matter of paved state highways? Think over these question and then wonder why it is that there is just a one way road that our tax money travels and that is from the Panhandle to Austin.

Panhandle voters now have an opportunity before them to make a change in this "Taxation without Representation" form of government under which the Panhandle is attached to the grand and glorious state of Texas for the purpose of paying taxes only.

The Panhandle has a candidate for governor in the person of Senator Clint Small, who without question has better than a fighting chance to go into the second primary if the people of his own county go to the polls on July 28, and vote not only for Clint Small, but for the Texas Panhandle. A vote for Small is a vote for the Panhandle.

Let's have an "about face". Let's have "Taxation with Representation". With Clint Small as governor of Texas, the Panhandle will be given a square deal in state affairs, and the rest of the state will receive the same fair treatment. The Panhandle does not want any special favors or privileges, but we do feel that we are entitled to our just share of the public funds and favors.

Clint Small is the Panhandle's candidate but from all reports he is the candidate of all Texas and will receive support in all parts of the state. Vote for Clint Small and the Panhandle on July 28.

Special Contests, Exhibits Feature Fair Farm Week

Henry Ford's Industrialized Barn, shown here, a new exhibit at the Chicago World's Fair this year, demonstrates how farmers can effect their own relief by raising and pro-

cessing soy beans. Left inset: John C. Dameron, Weston, Ill., whose hog-calling championship will be a mark for farmers to shoot at during Farm Week at the Fair, Aug. 11 to 18. Right inset: Mrs. Nick Owenga, Blue Island, Ill., last year's husband-calling champion, whose title is also at stake. The milk-maids' championship is up, too.

FAIR PLANS BIG FARM PROGRAM

Barn Dance, Rural Events Featured at Chicago Aug. 11 to 18.

Chicago.—Four million persons have entered the gates of the new World's Fair since it opened here May 28. Most of the throngs that have thrilled to the new spectacle, the new "foreign villages" which offer in themselves a "tour of the world," the new shows and the free entertainment projects, are city dwellers. Chicagoans, visitors from other cities all over the United States and visitors from foreign countries have poured in, in large numbers.

But the real farmer-visitor's invasion of A Century of Progress has not yet begun. It will reach its peak when the Fair celebrates Farm Week, from August 11 to August 18, inclusive.

Last year Farm Week accounted for the largest single week's attendance of the entire Fair. Plans to

make the celebration interesting and important to farmers are even more elaborate now than last year, according to the events division of the exposition.

W. L. S. Barn Dance at Fair.

Saturday, August 11, will lead off the program with a massive farm parade, including bands, farm implements, machinery and equipment and farm animals. Depicting the modernization of agriculture, it will be one of the longest and most comprehensive pageants of the entire exposition.

Sunday, August 12, will see special music and farm programs interlinked with the observance of Chicago Incorporation day, with Chicago acting as host to the out-of-town multitudes.

Rexford Tugwell, assistant secretary of agriculture, has been invited to be the principal speaker of the Farm Organization day program Monday. Tuesday will be farm radio day, with the entire WLS "Barn Dance" cast presenting a program in the Court of States; 40,000 persons saw this event in 1933.

Aerial Sham Battle Planned.

The farmer's wife will have her day Wednesday, August 15, which has been named Farm Women's day, with special programs arranged

to pay tribute to the women who battled to carve a nation out of the wilderness. Farm Youth day, Thursday, will be full of recognition of the future farmers of the land, with emphasis on 4-H club work.

Programs of interest to rural newspapers and magazines will feature Farm Press day, Friday, Saturday, August 18, will be farm music day, with its high spot the gigantic Chicago Land Music festival in Soldier Field, adjoining the Fair grounds. This annual event has attracted more than a half million persons in the four years of its existence. This day will also see many special contests, such as milk-maid, husband-calling and hog-calling contests.

Saturday is also Illinois day. There will be a review of 10,000 troops and demonstrations by anti-aircraft artillery units, shooting with tracer bullets at balloon targets towed by airplanes.

Farm Exhibits Are Many.

During Farm Week parties of farmers will be taken on free guided tours of the Fair grounds. Farm visitors, with only a limited time to spend, will this way be able to see everything of vital interest to them.

Henry Ford's industrialized barn,

where he shows how the farmer may, at low cost, raise soy beans, obtain the residue and process it himself, making industrial products for which he can obtain a profitable revenue, is one of the new exhibits. Another is the International Harvester company's radio-controlled tractor, which demonstrates how farming may some day be done from an easy chair on the veranda. Model farm homes will attract many rural sightseers, as will the exhibits of the great packing plants and the automobile manufacturers.

The Brook Hill Dairy farm, with its model farm of 1930, shows the last word in modern milk production, from cow to bottle. The International Egg Laying contest is a huge laboratory where the farmer may study the latest egg-production methods first-hand. Scores of commercial exhibitors will have displays of prime interest to Farm-Week visitors.

Special Rates Lower Cost.

Special railroad and bus rates will make it easier for the farmer to get to the Fair this summer. Automobile agencies and oil stations will give him assistance in high-way travel. At the Fair, he will find costs surprisingly low. Restaurants are cheaper, transportation is cheaper, there is plentiful free entertainment and eighty per cent of all the comfort stations are free.

Probably one of the leading attractions for rural visitors will be the foreign villages, so faithful in their reproductions of life and scenes in fifteen countries that they offer the equivalent of a tour of the world, right on the Fair grounds.

El Paso For Small

El Paso Times Takes Attorney General Allred to Task for Law Non-enforcement

AUSTIN, July 10.—The El Paso Times, which is supporting Senator Clint Small for governor, has presented several lucid editorials on the issues offered in the current campaign. One of its interpretative articles follows:

"A Peculiar Campaign"

"Attorney General James V. Allred is waging a peculiar campaign for the governorship. In a good many years of observing politics we have seen nothing like it.

"He is asking to be elected governor on issues which condemn his own administration as attorney general.

"Mr. Allred cites the evils of lobbying, misconduct by public utilities contrary to the people's interest, and monopolistic tendencies in general.

"There is not a candidate in the field but would curb these evils, and they can be curbed. But the curbing cannot be done by the governor, and any candidate who says he will stop them if elected to the executive chair is deluding either himself or the voters.

"The matter is one of law enforcement only. The attorney general's office is the law enforcement arm

of the state government. If the evils cited by Mr. Allred still continue—and, of course, they do, especially lobbying by oil, public utility and other large interests—that very fact is an indictment of Attorney General Allred for having failed in his duty as chief law enforcement officer of the state.

"If he contends that present laws are inadequate, he again indicts himself. The legislature has been in session numerous times since Mr. Allred became attorney general. Never once, to our knowledge, has he called the attention of the legislature to defects in the law against lobbying, for instance, which render it unenforceable. We may draw the conclusion, then either that the defects do not exist or that the attorney general was not sufficiently interested to ask the legislature to correct them.

"If the defects do not exist, Mr. Allred has raised a straw man in order to knock it down; fabricated an issue in order to catch the popular ear and get elected governor. If they do exist and Mr. Allred was not sufficiently interested before this campaign to ask the legislature to correct them, what reason have we to suppose that he would undertake their revision and enforcement when once he had been elected governor?"

Making A Direct Appeal To The Voters Of Ochiltree County

Owing to the fact that I have no car, it has been impossible for me to make a personal canvass of the entire county. I am taking this means of seeking your support and influence in the coming primary election, Saturday, July 28.

I need the position and income of the office to support myself and children.

I have lived in Ochiltree County for 29 years and received my education in Old Ochiltree High School, graduating in the Class of 1914.

I realize you have a choice of three other good and capable women in casting your ballot for the office of County Treasurer and I will therefore greatly appreciate your vote and influence.

I feel that I am fully qualified to discharge the duties of the office in a capable and efficient manner. This is my first time to ask the voters for any consideration or any office, but you know my circumstances and you know my needs.

I want to assure my friends who are supporting me and working in my behalf that I sincerely appreciate their generous attitude.

Mrs. Arthur Slavin
Candidate For County Treasurer
Ochiltree County, Texas

A Plea For Loyalty

In appreciation of the loyalty and hard work of our fellow citizen, B. L. Rogers, the only man ever sent to the Legislature from Ochiltree County, and the only man with strictly rural and small town background ever sent from this district; this ad is run by farmers and friends.

Let it not be said that the voters of Ochiltree are unappreciative, or that more than a very few, allow themselves to be misled or let some minor matter outweigh the great service he rendered us by his energetic work, SAVING THE FARM FUEL REFUND, SECURING THE HALF RATE LICENSE FOR FARM TRUCKS, and much else.

Let there be few indeed, who will ally themselves with the powerful utilities and special interests who are frankly and openly trying to defeat Rogers, because of his consistent record FOR THE PEOPLE and especially the farmer and small town folks.

If in doubt, ask anyone who knows the facts. Don't be misled by one who wants his job, and who is being supported by the UTILITY COMPANY IN BORGER, and the powerful gas monopoly whose strangle hold was broken by the passage of the law permitting gas to be used for making gasoline.

CHRISTIAN SCIENCE

"Life" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 22.

The Golden Text is: "As the Father hath life in himself; so hath he given to the Son to have life in himself" (John 5:26).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "That thou mayest love the Lord thy God, and that thou mayest obey his voice, and that thou mayest cleave unto him: for he is thy life, and the length of thy days" (Deuteronomy 30:20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Because Life is God, Life must be eternal, self-existent. Life is the everlasting I AM the Being who was

and is and shall be, whom nothing can erase" (page 289-290).

Thousands See President Light New World's Fair

Through the medium of a motion picture shown at the Lagoon theater, President Roosevelt turned on the lights of the new World's Fair in Chicago for a record opening day crowd to see May 28. Visitors, who thronged in great numbers to the fifteen foreign villages that feature the exposition this summer, were surprised when they found that the Fair was complete and ready to receive them.

New World's Fair at Night

New lighting marvels are one of the most impressive features to greet crowds at the new World's Fair in Chicago. This view was taken from the 200-foot level of the Sky Ride, looking south.

"Good sod prevents erosion by wind as well as by water," points out Dr. A. J. Peters of the Bureau of Plant Industry. "There is no doubt that there is much land in cultivated crops that might have been left in grass or might be in grass or legumes a part of the time. Now that there are additional reasons for going 'back to grass,' the factors of wind and water erosion should have even more weight than usual."

"Dust storms only add to the discomforts and economic loss of a drought. Wind erosion brings immediate loss in seed blown from the soil and in the damage to growing crops and households. Every acre in sod means much less soil erosion and that much less dust in the air."

GUYPON LADY REMEMBERS WHEN GUERRILLAS RAIDED

(The following story is reprinted from the Texas County News, published at Guymon, Oklahoma. This paper is publishing a very interesting series of articles on highlights in the lives of the county's oldest inhabitants.)

Mrs. Nancy Tucker, Guymon, one of the oldest living residents in the Oklahoma Panhandle, this week, gave a graphic account of highlights in her experience during the Civil War and during the depression that followed.

"Yes, Civil War days were terrible," said Mrs. Tucker. "Most of the men and boys had enlisted in the armies, so that left the women folk to tend to the things around the home."

Nancy Tucker, born in Green

county, Ky., was next to the youngest of five brothers and sisters. Her father died when she was small. She will be 91 December 14.

"I distinctly remember the time when the word was passed that the Guerrillas were coming. We took all valuables that we could carry and hid them in the tobacco patch. Another time they came before we were warned. The leader of the bunch ordered my mother to fix them something to eat. I had never hurried so and was never so scared in all my life."

"Gun powder was high and no one was allowed to have any as they were saving it for the armies."

Mrs. Tucker lived a short distance from a Union camp.

"The camp was to be moved so a few friends and myself were allowed to go visit it. My brother and sweetheart were there."

"My brother obtained a pound of gunpowder for me to take home to one of our neighbors. I tied it to one of the hoops in my skirt. Our friend was never so proud of gunpowder. He was disabled so spent most of his time hunting."

"Black gun powder was one dollar a pound at the stores before it was taken off the market for the soldiers."

Gun powder sells for 30 cents a pound now.

Another comparison in prices was offered by Mrs. Tucker.

"My uncle, with whom I was living before my marriage, bought me a calico dress. Ten yards of the goods came at five dollars. I think you could get that much now for 50 cents."

"About a year after the war I was

Mexico at Fair

This is an every-day street scene in the Mexican village at the World's Fair in Chicago. Fifteen foreign villages offer the visitor the equivalent of a tour of the world in a day or two at the exposition this year. Low ticket costs and added Free Fair features make a Fair vacation cheaper this summer.

married to Henry Tucker, July 27, 1866.

When asked to compare the past depression with the one after the Civil War, she replied: "There is no

comparison! That was the most terrible time I have ever spent in life."

"A man couldn't get 30 cents a day for labor. A basket of wheat for flour was \$18 for pounds. The worst of the depression lasted two or three years."

Mr. and Mrs. Tucker moved to "No Man's Land" in 1877, and at Coon, about 32 miles from Guymon.

Mr. Tucker died in 1908, 40 years after this Mrs. Tucker came to Guymon.

"Times have certainly changed since I was a girl," volunteered Tucker. "My Mother wanted me keep company with the boys till I was 16. The man I married the only one I have kept company with. Of course I walked home from them from church, but never kept company with them."

A son was born Monday, July 16, to Mr. and Mrs. Andy Tucker.

Vote For Small

Put A Panhandle Man in The Governor's Chair at Austin

Give West Texas "A New Deal"

CLINT SMALL has lived 43 years in West Texas. He knows West Texas problems better than any candidate for Governor. During his six years in the Texas Senate, Clint Small has never betrayed West Texas in its legislative battles. Clint Small fought for West Texas in passing the famous Small river bed bill and Small land bill; he fought to save the Colleges of West Texas from destruction.

CLINT SMALL'S candidacy is based upon accomplishment, not on promises. His record is filled with effort in behalf of West Texas. CLINT SMALL stands for the same constructive progressiveness he has exhibited during 18 years of public service as City Attorney, County Attorney, County Judge, District Judge and State Senator.

"Clint Small Deserves To Be Governor"

West Texas and the Panhandle have long been ignored by the "Down-state" politicians. With Clint Small in the governor's chair, the Panhandle will get a square deal. He will be fair to us and all of Texas. Just as long as West Texas citizens cast their ballots for the "down-state politicians, the Panhandle will have "Taxation Without Representation".

A VOTE FOR CLINT SMALL WILL BE A VOTE FOR SOUND PROGRESS AND A SAFE, EFFICIENT ADMINISTRATION THAT WILL MERIT THE RESPECT OF ALL FORWARD-LOOKING TEXANS.

J. H. WALKER

FOR COMMISSIONER GENERAL LAND OFFICE

In selecting a Commissioner For the General Land Office, you should use the same care as you would exercise in choosing a person for a position of trust in the management of your private affairs.

The Land Office has become a business institution as well as the depository and conservatory of all land titles in Texas, which date from 1758, and has custody of school land contracts aggregating more than \$100,000,000 in value. The Land Office, under the direction of Mr. Walker, collected for the school fund in the last four biennial terms \$20,603,456.39.

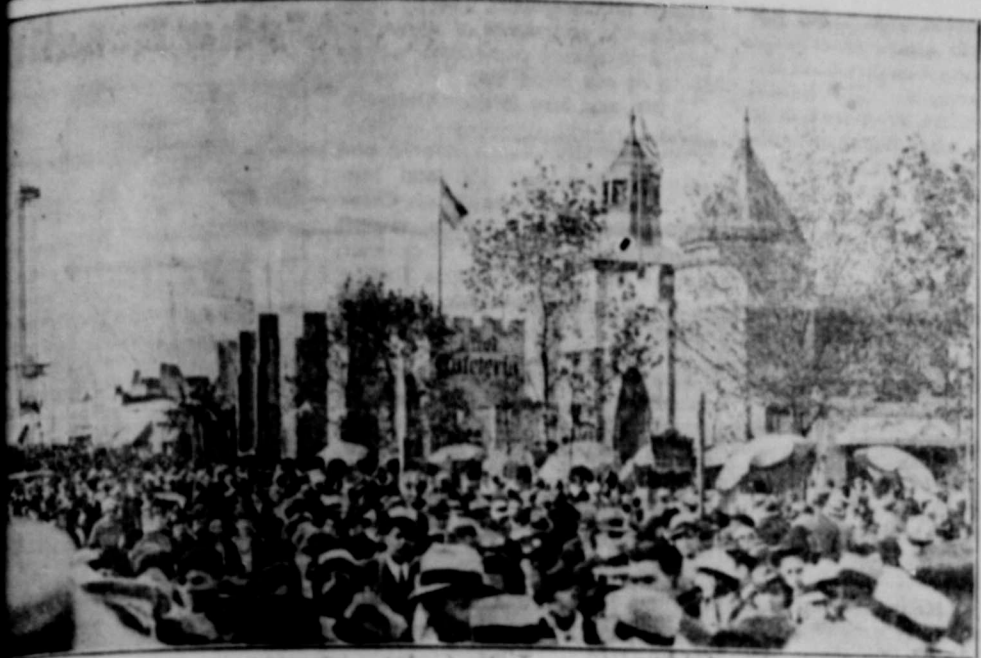

Having lived in the West, Mr. Walker, the present incumbent who is asking for reelection, knows some of the privations of the settlers here and has exercised every care and caution for the protection of the purchasers of school lands. There have been no forfeitures where conditions preventing payment of interest were known to exist, and no demands on people have been made for the annual payment of a part of the principal—the thought being that loans in this way would be distributed among the people and the security better than bonds.

MEAT PLANNING TOLD

body requires in the way of proteins, minerals, vitamins, and calories. No, it is not enough for our meals to possess all the virtues of good nutrition; in addition they must have that more subtle characteristic—flavor.

That's probably the reason that meals which are planned around meat are satisfying. Meat heads the list of foods rich in natural flavor

and it extends its flavor to the other foods served with it—this is one reason why a meal is looked upon by most everyone as complete. According to Inez S. Wilson, home economist, one reason for this is that meat has a greater "satiety value" than any other food. Now, satiety value is a high sounding phrase with a very simple meaning, which is the quality of satisfying; expressed in an old-fashioned way, "meat sticks to the ribs."

It is true that flavor and satiety value do not mean the same thing, but the combination of these two characteristics make meat an important item in the satisfactory meal. This is true of all meats and meat cut from the lordly crown roast to the lowly stew.

Try one of these recipes for meat combined with other foods for the sake of flavor. Either one is a dish that will fit into the economy meal, but either may appear with perfect propriety at any time on any table.

Bagout of Beef

3 lbs. beef shank
3 teaspoons salt
1-4 teaspoon pepper
1 bay leaf
1 cup rice
3 cups tomatoes
1 small onion, minced
2 tablespoons green pepper, minced
Simmer the meat until tender, having added salt, pepper and bay-leaf. Remove the meat from the bone and cut into medium-sized pieces. Cook the rice with the tomatoes, onion, and green pepper. Line a casserole with the rice and fill the center with the meat. Thicken the meat stock and pour into the casserole. Bake for 45 minutes in a moderate oven (350 F.) until the rice has absorbed the gravy.

Cut cold cooked lamb in small pieces and heat in left-over gravy. Put in a baking dish and dot with bits of butter. Cover with hot mashed potatoes and spread with beaten egg yolk mixed with a little cold water. Bake in a hot oven until brown.

FARM INCOME CLIMBS YEAR OF ADJUSTMENT

Cash income of American agriculture increased more than 39 per cent during this year which ended May 1, 1934. This marked improvement was cited by the Agricultural Adjustment Administration last week in a general summary of the first 12 months' operations under the Agricultural Adjustment Act passed May 12, 1933.

Estimated farm income, exclusive of the value of products used on the farm, was \$3,979,000,000 for the year ending May 1, 1933. For the year just ended the cash income was estimated at \$5,530,000,000. The increased income was more than one and one-half billion dollars. Rental and benefit payments to farmers who cooperated in adjustment programs accounted for more than 12 percent of this increase.

At the close of the first year under the Adjustment Act, farmers have signed more than 2,860,000 contracts to restrict acreage. In addition about 800,000 farmers are benefiting from marketing agreements put into effect during the year.

Definite progress has been made toward "parity" for farm prices, which is the object of the Adjustment Act. A year ago the ratio of prices the farmer received to the price he paid was 52. It now has advanced to 62.

Are You Buying A New Car This Summer?

Let One Of These Perryton Agents Write Your Insurance Policy!

It is a general opinion that insurance of financed cars has to be placed with the finance corporation. This is not a fact. You have the right to place your insurance with reputable companies and through local agents of your own choice.

Some finance companies policies only protect the amount yet owing the finance company, leaving the car owner without protection in case of loss.

WE BELIEVE YOU WOULD RATHER PLACE YOUR INSURANCE WITH A LOCAL AGENT THAN A FOREIGN AGENT, AND WE WOULD APPRECIATE DISCUSSING THIS MATTER WITH YOU BEFORE YOU CLOSE YOUR DEAL ON FINANCED CARS.

To The People Of Ochiltree County

As a candidate for County Judge I solicit your support.

The principal duties of the County Judge in this county are to superintend the schools, serve the Commissioners' Court and preside over the County Court. Of course there are many other duties attached to the office.

As school teacher in the county schools for several years, and as Clerk of the courts of the county for a number of years, I feel that I am qualified to perform the duties of County Judge.

While I am not a licensed lawyer, my experience in dealing with various matters concerning the duties of a County Judge together with other legal matters has brought me a fair knowledge of the laws of the State in a general way. A County Judge is not required to be a licensed lawyer. The majority of those in the Panhandle at least, are not lawyers. The County Judges are not lawyers in the counties where Lipscomb, Canadian, Stratford, Channing, Dumas, Dalhart, Vega, Pampa and Amarillo are located.

If elected, I shall administer the affairs of the county (in so far as pertains to the office) to the best interest of the general public, with fairness toward all and prejudice toward none.

As Mayor of your county seat town since April 1931, it has been my aim in so far as I have been concerned to carry on the City's business with the least possible expense consistent with proper operations of the City's affairs. Despite the heavy obligations of the town and general economic conditions since that time, we have paid off several thousand dollars indebtedness, have kept most of our interest paid, have remained practically on a cash basis during the whole time, and have incurred practically no new obligations. In addition to the above the tax valuation of the City has been reduced nearly 40 per cent.

I have no particular promise to make. What any candidate promises before he goes in to any office is not half so important as what he does after he gets into office.

My record as a public servant and as a private citizen is known to you. I have made the best record that I could as school teacher, county official and city official, and on that record I stand.

Should I be the one that you choose to preside over your County and Commissioners' courts; should I be the one that you choose to administer your public school affairs and deal with your school teachers and your school children as ex-officio County Superintendent of your schools; should I be the one that you choose to perform any other duties in connection with the office I seek, you will find me endeavoring to do the job well.

If you prefer me to serve you when you have business with the County Judge and cast your ballot accordingly, I will certainly appreciate your action, and I will go the limit in performance of my duties that you may not regret your selection.

Plan to Drain Lake

Lake in Drouth Stricken Moore
County to be Drained to
Recover Locomotive

A 235,000 pound railroad freight engine laying over on its side in a lake of water formed by drainage in dry Moore County has presented a difficult problem to the Rock Island and Santa Fe Railway Companies.

This engine, followed by its tender and two freight cars crushed a railway embankment belonging to the Rock Island Railway Company that had been softened by the lake formed by heavy rainfall about half way between Sunray and Phillips. This trackage is used by agreement by the Santa Fe Railway Company and this Santa Fe engine tooped into this lake about a month ago. The box cars and the tender have been recovered but the engine still lays on its side in about four feet of water which has dried from a six foot depth. The trackage has been repaired sufficiently so that traffic could be resumed.

Rock Island officials have come to the conclusion that it will be necessary to drain the lake, reinforce the roadbed through the lake and erect out-rigging to put the engine back on the track. They estimate that from 50 to 60 tons of mud suction must be overcome in lifting the huge engine. Both railways have brought derricks to the scene of the wreck but efforts to lift the engine have been futile.

The hope to have their equipment ready for another trial to remove the engine the latter part of this week—Moore County News.

Reptile With Duck's Bill and Hen's Comb

CORYTHOSAURUS (helmeted reptile) used to be as common in America as deer are today. This queer beast may be seen in the Sinclair Dinosaur Exhibit at the 1934 Chicago World's Fair. Here, with other dinosaurs, he symbolizes the tremendous age of the crude oils which are refined into Sinclair Opaline and Sinclair Pennsylvania Motor Oils. These oils are now sold by Sinclair dealers in Tamper-Proof cans at no extra price. We suggest that you drive into a Sinclair station and try them—and examine the new Tamper-Proof cans.

LEAVE SEVENTEEN CIRCULARS AT ONE HOME

If merchants want to get full value from their advertising, they had better be careful in the use of circulars. The Herald prints circulars, but there is little doubt but what newspaper advertising is far more effective.

Consider The Herald editor's amusement when he returned last Saturday night and found 17 copies of an Amarillo firm's circulars behind his screen door. It is probable that the distributor delivers these circulars by the thousands and if he was as liberal with the Herald's neighbors, he should collect a nice profit in a hurry.

You can be assured that a newspaper will not be so foolish as to leave 17 copies at one household.—Panhandle Herald.

Mrs. A. J. Kelly and daughter, Miss Kathleen, returned Sunday from Guthrie, Okla., where they have been visiting in the home of Mrs. Kelly's parents, Mr. and Mrs. Ellis Demo, and with other relatives and friends for the past ten days.

Bobby Whippo, Jack Woodward and Albert Pachner returned home Saturday from a ten day vacation trip, spent in the mountains of New Mexico.

Mr. and Mrs. W. V. Wright, Dallas, and Mr. and Mrs. Jack Allen and children were Sunday visitors in Liberal, Kans.

Dr. Powell, Eye, Ear, Nose and Throat Specialist, will be at Dr. Brewer's office, Tuesday, July 24. Glasses fitted, tonsils and adenoids removed. 26-11-c

Mrs. Carl Ellis, Mrs. Virby Conley, Mrs. Liel Lewellen and Mary Jane Conley spent the day Tuesday in Amarillo. Billy Ann and Peggy Jane Lamb, who have been visiting in Perryton all summer, accompanied them to their home in Amarillo.

The Wm. Stramp family, who recently moved to Enid, Okla., spent several days last week in Perryton visiting with relatives and friends.

Candidate For Re-election For The
Combined Offices of
Ochiltree County Sheriff,
Tax Assessor and Collector

Nearly all the voters of Ochiltree County have been solicited by me for their vote and influence in the coming July Democratic Primary Election. It is difficult for me to say anything different from what I have said to each of you individually, namely that I feel qualified to serve the citizens of this county in discharging the duties of the office I seek.

With the combining of the offices of Tax Assessor, which office I have filled honestly and to the best of my ability, with the office of Sheriff and Tax Collector, it places more work and greater responsibility upon the man holding this office. I feel that my past work and experience has equipped me to handle these duties and will consider it a privilege to continue to serve you. I pledge you that I will always strive to give the public an honest and efficient administration of these duties and that your confidence in me will not be misplaced.

In concluding this appeal for your vote, I wish to thank all of you in advance who vote for me in the coming election. I sincerely appreciate the generous cooperation of all the people of the county in carrying out the duties of my office in the past and whether you favor me with a vote or not, I will continue to consider all of you as my friend.

CHISEL BRINGS UNUSAL YIELD

BEAVER COUNTY FARMER INCREASES WHEAT YIELD BY USE OF HOME MADE DEVICE

In the spring of 1933 when land around him was blowing badly, R. B. Duckett, farmer living 21 miles southwest of Liberal, invented a device to use on his lister which he calls a chisel or deep furrow drill. As a result of the use of this invention Mr. Duckett got an average of 28 bushels of wheat to the acre on the first 60 acres he cut this year and the entire 250 acres on which it was used averaged about 24 bushels to the acre, while land all around produced from 3 to 4 bushels and some of it was not even worth cutting. On one quarter which was not blowing and on which Mr. Duckett did not use the deep furrow drill, the average was only 3 bushels to the acre.

He has no patent on the invention and says he is glad to have anyone copy it and use it to increase his yield. A sample is on display in the News window. The cost is not more than \$3.00 or \$4.00 a set at any blacksmith shop.

For several years Mr. Duckett had been studying a successful method to stop land from blowing and he finally decided to try a piece of steel four inches wide and from one-half to three-quarters of an inch thick. Taking the moldboards of his four bottom lister he put on these pieces of steel, attached to a strip of metal some 14 to 16 inches long, one to each lister.

He went over his 250 acres, and some of it twice when adjoining land had begun to blow on it. His whole purpose was to prevent blowing, which he did. He did not realize at the time that this working the land would have an especial effect upon the yield. In some places the land was so dry that the chisels did not cut down in and Mr. Duckett says he can walk out over the stubble field right now and pick these out, so pronounced is the difference in the way the wheat grew on those places.

His brother, J. L. Duckett, living on an adjoining farm, used the invention on 90 acres, which this year yielded 26 bushels to the acre. A neighbor used it on a field which was blowing. Wheat was not sown on the ground until near Christmas, yet it made 17 bushels to the acre.

Mr. Duckett is going to use the invention to go over his ground after harvest this year again. He says it can be run in the wheat where it is already up, if the land starts blowing.

He especially cautions anyone having the chisels made to have the edge flat as he has in his sample in the News window and not bring it to a point. He tried the latter method and it did not work

nearly so well, not going down in and turning the soil so deeply.—Liberal News.

Tom Odell was a business visitor in Wichita, Kans., Friday and Saturday.

Mrs. A. B. Hammon and sons visited with relatives in Liberal, Kans., Sunday, while Mr. Hammon and the employees of the local Ideal Store attended a dinner and district meeting of all Ideal employees at the Warren Hotel.

Mr. and Mrs. Chas. R. Garrett visited Sunday in her parental home at Woodward, Okla. Her sisters, Misses Faye and Edith Stimmel, accompanied them home for a week stay.

Mr. and Mrs. Frank F. Dodson were business caller in Amarillo, Thursday.

A Privilege To Serve You!

Although I have no opposition in my campaign for re-election as your County Attorney, I wish to take this means of expressing my thanks to you, the voters, for the privilege you have given me.

I consider it an honor to be in a position to serve you and pledge anew, a sincere and honest discharge of the duties of this office.

I will do everything possible to show my appreciation of the confidence you have bestowed upon me during the next two years as I have always tried to do in the past. With the past experience I have gained in this office, I feel that I am better equipped to fill the office and make the voters of Ochiltree county a better County Attorney.

"Reliability and Honest Values"

ality of the syrup however, depends upon the character of the fruit.

General Rules

1. Sterilize jars and lids.
2. Use large flat enamel-lined or aluminum pans or kettles for cooking and cooling.
3. Cook small quantities at a time, preferably two or three quarts.
4. Cook rapidly to retain bright color, flavor and good texture of the product.
5. Stir frequently to prevent scorching.
6. Skim frequently.
7. Cool rapidly. Rapid cooling gives better color and flavor.
8. Paddle bubbles out of jar with spatula.
9. Seal by filling into a hot jar with hot syrup, or by processing for 15 minutes at simmering temperature, or covering with hot paraffin.

Cherry Preserves

Wash and stone cherries. Place in a shallow pan. Cover with a syrup made of three parts sugar and two parts cherry juice or water. Boil gently for 10 minutes; remove from fire and let stand in covered kettle from 6 to 12 hours. Drain off juice and pack cherries in sterilized jars. Heat the syrup and concentrate it if necessary; pour hot into jars and seal at once.

Cherry and Black Raspberry Conserve

- 1 cup pitted cherries
 - 1 cup black raspberry pulp
 - 2 cups sugar
- Cook cherries in small amount of water until tender. Add raspberry pulp and sugar, and cook mixture until it is thick and clear. Pour hot into hot jars and seal.

Cherry and Pineapple Marmalade
Use one-fourth as much shredded pineapple as cherries (run through a food chopper). Mix the two fruits and use two-thirds as much sugar as fruit and fruit juice. Cook mixture until clear and thick. Pour hot into hot jars and seal at once.

Raspberry Marmalade

Heat the berries in a kettle with a very small amount of water. Bring quickly to the boiling point. Remove and run through a sieve. Use three-fourths as much sugar as pulp. Boil gently for 10 minutes, or until thick.

Blackberry Jam

Mash berries and heat without adding water. Run through sieve. Add a cup of sugar to each pint of pulp. Cook rapidly until thick.

Apricot and Pineapple Preserves

- 2 quarts apricots (halved or quartered)
- 1 pint shredded pineapple
- 2 cups sugar
- 2 cups water

Wash and halve apricots. Leave skins on. Add the shredded pineapple and a syrup made of the

sugar and water. Cook slowly until fruit is tender and clear (about 25 or 30 minutes).

A record-breaking demand has sent Chevrolet
Production to its highest total in four years

Since January 1, Chevrolet has produced more than half a million cars and trucks. This tremendous total has broken all Chevrolet records for the last four years. And here is the reason behind it: No other manufacturer has so much to offer as Chevrolet.

Chevrolet is the only low priced car with patented Knee-Action, and only patented Knee-Action gives you shock-proof steering combined with the new jolt-proof gliding ride. Chevrolet alone in the field provides Fisher bodies, cable-controlled brakes, Y-K frame, and a dozen and one other important features. Do you wonder that the trend is to Chevrolet?

Home Demonstration Club Department

MISSOURI AVE. CLUB

Mrs. Clarence Brown, Reporter
"You may always be assured of success in jelly making if you use the pectin test, either with denatured alcohol or epsom salts", stated Miss Marie Ludwig, county demonstrator, at the meeting of the Missouri Avenue club in the J. R. Thomas home on Wednesday, July 11, at two o'clock.

Other truths she brought on jelly making were: "Boil jelly rapidly to make a pretty, clear jelly. Never attempt to make jelly in iron or tin vessels because of the acid in the fruit. Jelly that is like syrup has too much sugar and when it is tough it has been boiled too long. If jelly is cloudy, the fruit was cooked too long before it was drained."

The meeting was called to order the president and reports were given from all committees. The selling of dressed chickens proved so successful that another committee was appointed to solicit more chickens. The business was made short as our demonstrator gave a demonstration on making jelly. A glass of wild plum jelly was made and each step explained.

Refreshments were served to the following members and visitors: Mesdames J. H. Key, Curtis Roach, Cora Lawrence, French Lawrence, G. M. Cooper, W. B. LaMaster, Clarence Brown, Miss Marie Ludwig, Willie Ray and Peggy Thomas and the hostess.

The next meeting will be with Mrs. W. B. LaMaster on July 25, the program is "Meal Planning". All members are urged to be present.

OCHILTREE CLUB

Mrs. Kirt Williams, Reporter
"To make perfect jelly one must make a pectin test of fruit juices to determine the amount of sugar to be used", was stated by Miss Marie Ludwig at the meeting the Ochiltree home demonstration club at the home of Mrs. Jim Dodson on Friday, July 13.

The topic, "Jelly Making" was discussed and a test made. The most satisfactory time for jelly making is just before the fruit is fully ripened. The lesson proved very interesting.

Because of the busy season only four members and five club girls were present. They were Mrs. T. M. Osborn, Mrs. Jack Dodson, Mrs. Kirt Williams, Beryl and Walden Dodson, Ruth and Dorothy Osborn, Lillian Williams and the hostess.

A called meeting has been set for Friday, July 20, in the home of Mrs. Chas. McCartney. Some very important business will be brought to the members and all are urged to be there.

McMILLEN 4H CLUB FAIRIES

The McMullen 4H club fairies met Friday afternoon, July 13, in the Clifford Finney home. An interesting feature of the work was the discussion of the good and bad points told them on the dresses exhibited at the style show last Friday.

It was decided to hold an ice cream social at the McMullen school on Friday evening, July 20. The proceeds to be used to send the club representative to the short course at A. & M. The Trew Blue band will furnish music for the evening and everyone is invited to be present.

Those present for the afternoon were Wilma, Helen and Sybil Hardy, Nadine and Wanda Bryan, Rosie Barnes, Rachel Finney, Miss Marie Ludwig, Miss Nedra Mae Andrew, Mrs. B. L. Barnes, Mrs. Audie Conley and children, Miss Kathleen Cook, Mrs. J. L. Bryan and Mrs. Finney.

The next meeting will be held in the Calep Howard home on July 26.

MARION DAVIES PLAYS IN CIVIL WAR DRAMA

The wealth of detail that historical motion picture production demands to insure its authenticity is revealed in "Operator 13," Metro-Goldwyn-Mayer's co-starring vehicle for Marion Davies and Gary Cooper, which shows Sunday and Monday at the Ellis Theatre.

The production is based upon the thrilling spy story, "Operator 13," the last best-seller novel written by the master story-teller, Robert W. Chambers, before his death last year.

It centers around the earlier years of the Civil War when the South seemed certain of winning the conflict and at a time, with the Confederate forces dangerously threatening Washington, D. C., when the labors of spies, both Union and Confederate, provided many of the dramatic incidents of all military history.

To film such a story called for a great labor of research and exploration into many of the historical libraries and societies of the North and South before the first foot of film could be exposed.

Carter Pens at the Herald office

A Few Facts About Clint Small's Record

Largely responsible for law providing refund of gasoline tax to farmers. As a result, between half a million and a million dollars have come back each year to the farmers of the Panhandle and West Texas where power farming is practiced on a large scale.

Wrote the bill providing for the assumption of county road bonds by the State out of the gasoline tax thus taking approximately \$8,000,000 in ad valorem taxes off real and personal property throughout Texas.

Fought the proposal to move the State penitentiary system to a new location near Austin on the basis that the present system needed only efficient management. Thus saved \$15,000,000 to the taxpayers of Texas. Under splendid management of Lee Simmons the prison system is making great strides toward self support.

Clint Small has effectively fought off every effort to levy discriminatory taxes that would have crippled or destroyed industries connected with natural gas development in the Panhandle, and has constructively labored to bring order out of chaos in the oil industry.

Called a number of his fellow Senators together at Dallas just before the relief bond election, and group, by pledging the people of Texas that necessary safeguards would be thrown around the expenditure of relief funds, assisted materially in the passage of the constitutional amendment providing the bond issue.

Passed the Small river bed bill over the Governor's veto thus protecting farmers and ranchmen in Panhandle oil territory from vacancy grabbers who sought to file on "navigable" stream beds among the dry arroyos of this section after oil was discovered.

Worked day and night during the First Called Session of the 43rd Legislature to perfect relief legislation that would keep politics out of relief administration. The final bill was, of course, a compromise like all other legislation, but had Senator Small's original ideas been enacted in their entirety, Texas would have been spared some of the shameful discrimination and inefficiency that has characterized the relief administration.

He is the champion of public schools and higher education. He believes in constructive and not destructive economy. Has definite suggestions on improvements in state machinery without impairment of efficiency or the levy of additional taxes. Believes that the State ad valorem tax can be gradually reduced and perhaps finally abolished altogether. Has a sane,

sensible platform devoted to discussion of practical problems of government gained through long experience, avoiding entirely Utopian dreams and impractical promises.

ANOTHER PIONEER CITIZEN PASSES ON; BURIAL AT GRAY

Funeral services for William Sargent, age 83 years, 3 months and 12 days, were held at Gray, Okla., on Friday morning, July 13 at 10:00 o'clock. Rev. W. C. Bryan was the minister and burial was in the Gray cemetery.

William Sargent was born at Oakland, Ill., on March 28, 1851 and passed away at his home in Cleo Springs, Okla., on July 10, 1934. He grew to manhood in the vicinity where he was born. On November 29, 1882, he was united in marriage to Miss Helen Arminta Stephenson near Tuscola, Ill.

To this happy union five children were born. A daughter died in infancy. Others are Charles B. of Strasburg, Colo.; George S. of Gray, Okla.; Mrs. Roena Sargent McBride, Hydro, Okla.; and W. T. of Galena, Okla. After living in Nebraska, Missouri and Oklahoma, the family came to the Gray, Okla., community in 1905. Mrs. Sargent passed away in 1909.

In a few years, Mr. Sargent and W. T. returned to Galena, Okla., to reside and on October 9, 1912 Sarah M. Bish and Mr. Sargent were married. For fourteen years they made their home on their farm near Galena, moving to Cleo Springs in 1926. Soon after this his health failed and he spent his declining years there in peaceful retirement, surrounded by loving friends and cared for by his devoted and faithful companion who survives him.

Beside the widow and children mentioned the deceased leaves three step-children, a number of grandchildren and a host of other relatives and friends.

It can truly be said of Mr. Sargent—he was a grand old man; an optimist, patient and courageous in his sufferings; appreciative of his loved ones and their tender care; cheerful, always a smile and pleasant greeting for his friends; and a heart full of gratefulness for his many blessings from his Maker.

Mr. and Mrs. W. E. Foglesong and children were visitors over the week-end with relatives in Elk City, Okla.

Mr. and Mrs. Robert Lawrence and children and the Irvin George family left on Thursday of last week for Colorado, where they will enjoy a ten day fishing trip.

SPECIAL FREIGHT RATES TO PANHANDLE FARMERS

STILLWATER, Okla., Freight reductions covering shipment of livestock and feed for the drouth areas have been extended to August 4. E. E. Scholl, acting director of extension, Oklahoma A. and M. college, and director of drouth relief for the state, announced.

The rates permit shipping livestock to new feeding areas at 85 per cent of the regular rate, with return shipment at 15 per cent. The return rate is designated to encourage return of foundation stock. Grain and feeds may be shipped in at two-thirds of the normal rate and hay at half the normal rate. Panhandle and adjacent counties are in the Oklahoma drouth areas.

Mr. and Mrs. Ray Christopher were in Miami Saturday night and Sunday and visited in the home of his parents, Mr. and Mrs. W. D. Christopher.

Miss Irma Allen returned to her duties at the Perryton hospital Monday evening after a weeks vacation spent visiting with her folks in Wichita, Kans.

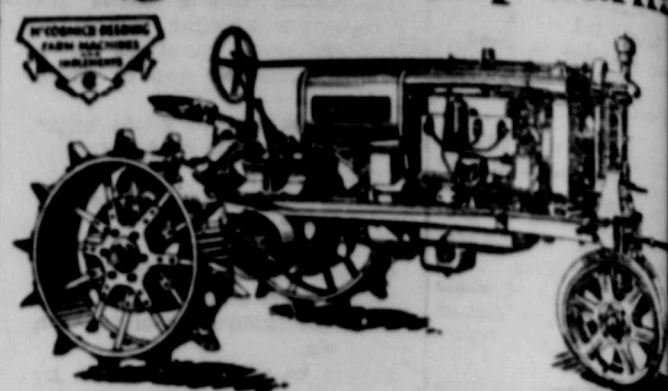

Miss Jean Morgan, Hereford, is a house guest of Miss Marguerite Hicks this week.

I Will Appreciate Your Vote And Influence

Feeling that I am well qualified to discharge the duties of the office of Treasurer of Ochiltree County, and owing to the fact that I am not financially able to make a canvas of the entire county and make a personal solicitation and appeal to every voter, I am taking this method of bringing my candidacy to your attention.

In the first place, I need the office and the financial remuneration from same in order to support my two fatherless children and meet the many obligations that I owe.

I have been a resident of Ochiltree County for 25 years and during this time have ever been active in the church and school life of the community.

My late husband and his family are real pioneers of the Panhandle. They have been residents of this county almost 40 years and I believe all will agree that they have been builders of this great "Empire of the Southwest".

If elected, I pledge you my best efforts in the administration of this office.. I thank you!

G-3 Users Report 43% is Too Modest—They're Getting More Extra Non-Skid Mileage Than That—But We Prefer to Be Conservative

Yes, there's quite an uproar over our G-3 advertising. People who got the first G-3's put out—months before the public announcement—say "you're pulling your punch"—cite mileage records to prove 43% more non-skid life is an understatement. Very likely it is low—very likely the G-3 does do better—but, by speeding up to 50, jamming on brakes, every few miles day and night, in harder driving than most people do, the Goodyear test fleet established the average of 43% greater non-skid wear—and we'll stick to that figure because: That much extra safety at no extra cost is plenty to offer! If you have yet to see this amazing new Goodyear All-Weather, don't wait longer—come in right away!

A PRACTICAL EXPERIENCED LAWYER IS:

John H. Sharp of Ellis County, candidate for Associate Justice of the Supreme Court, to succeed Judge Thomas B. Greenwood, who will not seek re-election.

He is now a member of the Supreme Court Commission. He has filled this position with honor and distinction. He will deeply appreciate your support.

Born and reared in Robertson County; educated in the public schools of Texas and Southwestern University at Georgetown, Texas where he graduated.

Moved to Ellis County, where for more than 25 years was engaged in the active practice of law in all its branches.

Was appointed a member of the Supreme Court Commission by the Governor in 1929.

In 1930 the law was changed making the Commission appointive by the Supreme Court, and under this law he was reappointed for a six-year term.

His experience as a lawyer and his services as a judge peculiarly fit him for a Justice of the Court. He seeks promotion.

FARNSWORTH MAN HAS 57 VARIETIES OF PLANTS IN IRRIGATED GARDEN

B. L. Rogers of Farnsworth is shown above in two views of his garden, in which he has grown 57 varieties of plants, shrubs and trees. In the upper picture, Mr. Rogers is shown gathering the first "mess" of English peas on May 16.

Fifty-seven varieties of plants, shrubs and trees are grown in a garden cultivated here by B. L. Rogers, representative of this district in the Texas Legislature.

Mr. Rogers' garden, at his home at Farnsworth, on Highway 117 between Spearman and Perryton, is declared one of the finest in this section of the state.

Thirty-two varieties of garden truck have been grown by Mr. Rogers this season, in addition to his

thornless honey locust, cherry, peach, and hackberry trees and grape vines, all grown from seed by the representative. Also in the garden are many native flowers and plants, including yucca and cactus.

Fruit trees in the garden are loaded with fruit this season. A record for early production in this territory was set by Mr. Rogers in the growing of English peas. He gathered plenty for a meal for his family on May 16.

FACTS ABOUT THE HORSE RACING BILL

A whispering campaign is under way about Senator Small's vote on the horse racing bill. Photostatic copies of pages in the Senate Journal are being exhibited with the statement that on page 1892 of said Journal, the record shows that he did vote to legalize horse racing in Texas, but no explanation is being offered as to the true facts.

Horse racing was legalized in Texas during the regular session of the 43rd Legislature in 1933 by a rider attached to the departmental appropriation bill known as H. B. 167. After this bill had passed both houses in the usual course of such bills, it was referred to a conference committee to adjust differences between the House and Senate, and when it came out of this committee, it had had the horse racing rider on it.

The only action that can be taken on any conference report by either House is to accept or reject. The report did not come up for consideration in the Senate until May 18, 1933, nine days beyond the 120 day limit of a regular session, when every effort was being made to bring about final adjournment.

Under the constitution, all appropriation bills are in effect for only two years and then automatically expire. This particular bill also provided for economies of more than \$4,000,000 under a similar bill for the previous biennium. To reject it, meant endless wrangling and indefinite continuation of the legislative session with the added possibility of losing some of these economies. A number of members of both Houses opposed to horse racing voted for the departmental appropriation bill with the horse racing rider attached because of these conditions. This is the vote recorded on Page 1892 of the Senate Journal.

In order to establish horse racing on a more permanent basis and to avoid the two year limitation of the appropriation bill carrying the

riding rider, H. B. 12 was introduced in the First Called session of the 43rd Legislature. This was a bill that dealt directly with horse racing and nothing more.

On Pages 312 and 313 of the Senate Journal of the First Called Session of the 43rd Legislature, the record shows that Senator Small voted AGAINST legalization of betting on horse racing both on passage of this bill to third reading and on final passage.

It is also a matter of record that on all other occasions when voting directly on horse racing, he also voted "NO".
