

Rivercrest Rebels Outmanned By Cooper

By Diana Eudy

It was a long night for the young Rivercrest Rebel team last Friday. The Cooper Bulldogs played a strong game on offense and defense to claim a victory over the Rebels 34-0.

Rivercrest's Jerry Belcher started off with a quick ten yard gain, but the team couldn't build momentum as they fell for a three yard and then a ten yard loss. On third down, a quarterback sack by the Bulldogs effectively stopped the Rebs.

The running of Bulldogs Cris Carter and Bart Tatum gave the Bulldogs their first score of the evening. Carter carried the ball in from the one, the extra point kick was good for a 7-0

lead over the Rebels.

Rebel quarterback Jimmy Lewis connected with split end Chris Anderson on a 6-yard pass play and Jerry Belcher and Bubba Simpson went to work running the ball. The Cooper defense held them and a short punt gave the Bulldogs good field position on their own 36.

Cooper advanced down to the 14-yard line then gave the ball to Bart Tatum who carried it in for the score with 2:01 remaining in the first period. The extra point was good for a 14-0 Bulldog lead. The score held through the first period.

The Rebel defense tightened up their line in the second quarter. They

contained the Cooper threat time after time as they hit and hit again. Clint Stephenson, 167 pound fullback, made several good tackles. Charley Martin broke up a Cooper pass attempt and forced them to punt back to the Rebels.

The score read 14-0 Cooper at halftime when the bands took to the field. It was the first opportunity for fans to see the Reel Band perform on the field this season. They did a fine job with their playing and marching skills under the direction of Alvis Worthen.

Turnovers hurt the Rebels as they turned the ball over eight times. Cooper fumbled twice.

The Bulldogs received the opening kickoff in the second half and ran only seven yards before Bart Tatum fumbled the ball to the Rebels.

Rivercrest was unable to move the ball and fumbled back to the Bulldogs on their second play. Bart Tatum redeemed himself as he covered the ball for Cooper.

Several rounds of punting back and forth followed, as neither team could seem to get anywhere. Then, with 3:43 left in the third quarter, Cooper's Bart Tatum gathered in an interception and took it in for the six points. The extra point hit the mark for a 21-0 score. Tatum wasn't finished yet as he pulled in another interception two

plays later and went into the endzone for another TD. The extra point kick failed and the score read Cooper 27-0.

The final quarter began with a series of incomplete passes and a Cooper fumble recovered by the Rebels. The Rebs drew an illegal motion penalty and on their next play, passed the ball into the hands of Bulldog Pery Wilkins. Bart Tatum again carried the ball in for the touchdown for the Bulldogs with 1:30 left in the game. The kick was no good for a score of 34-0.

Rebel Head Coach Terry Giddens commented on the game, "We got whipped. We had a run of bad luck and we wanted to stick with our game

plan. We worked on what we'll try to do in district play. We worked on our passing game. Our quarterback is young and he got rattled. We're trying to get him out of that before District play and get him some experience."

He continued, "We watched the Cooper films Saturday and we hope to iron out the kinks for this week. We play Mt. Vernon Friday night and they are equal to the quality of Cooper or better."

Game time is 8 p.m. in Mt. Vernon Friday night.

Does the advent of the autumn season just automatically prompt people to begin remembering? Does nostalgia settle over the land like cooler weather, sifting memories down like leaves from the trees?

It sometimes seems so. Recently I have found myself looking backwards, at school beginnings, other autumns.

I put it down to getting older. But apparently I'm not alone in opening scrapbooks to the past.

Visiting last Thursday, I found people with boxes of old photographs hauled out. Not for any particular reason, just looking backwards at family reunions...at group shots and school pictures.

Several other newspaper columnists have been peering back into the past, recalling the Civil War, bygone cotton days, in general it just seems that the time has come to look back and remember.

Remembering can be a bitter-sweet thing. The memories that come filtering through like shafts of late-afternoon sunlight aren't always beautiful. Those who are gone, those whose paths no longer cross ours, the losses and painful incidents of the past come back just as surely as the good times.

But the good times shine a little brighter, bringing a smile to the face and lightness to the heart.

How life changes over the years...and how unchanged some things are is always a mildly disturbing fact.

How young we all looked in old photos...how styles have changed, and times. The smiles have a little sorrow in them at the progress of time. The laughter is an echo of that long-ago mirth.

But consider that today will be the same. In a few years, the events of this year...this time...will be faded away, or captured in a newspaper clipping or photo.

This year's school pictures will be a treasure to parents, and a source, most likely, of embarrassment to the youngsters, all grown up and self-conscious!

But that's what life's all about...change and progress, time flying by.

And perhaps that's one thing fall is for too...to look behind us for a little while, before turning to look ahead once more. Enjoy.

An Editorial

By Nanalee Nichols

Guns aren't toys. Hunting is a sport that requires dedication, attention and rigorous attention to the rules of hunting safety.

Apparently there are some would-be hunters around who aren't paying much attention to the safety rules.

Within the past few weeks there have been reports of a .22 shell going through a pickup side window, charges being filed against two youngsters for improper shooting in a small community, a hole shot in the Lamar County Water Supply water tank, and a house spattered with bird shot!

Sunday afternoon, the silence at our house was shattered when a loud boom was followed by shot rattling down on the roof and windows. Thomas was outside and a piece rained down on his arm!

The source of the bird shot was a shotgun in the hands of a teenage boy,

who promptly leaped over our fence and drove off!

Such incidents aren't amusing. They are dangerous, and sooner or later will result in serious injury or a death.

It just isn't necessary.

Hunting without knowing what lies behind where one is shooting, hunting on land without permission, not observing the rules, often created for the safety of the HUNTER, all result in the possibility of a terrible tragedy.

Parents should take a lot of time to teach their youngsters the proper respect for a gun. Serious consideration should be given to whether a child is ready to hunt on their own or not.

Adults should ALWAYS observe the same respect that they teach their children.

Please folks, let's all have a SAFE hunting season!

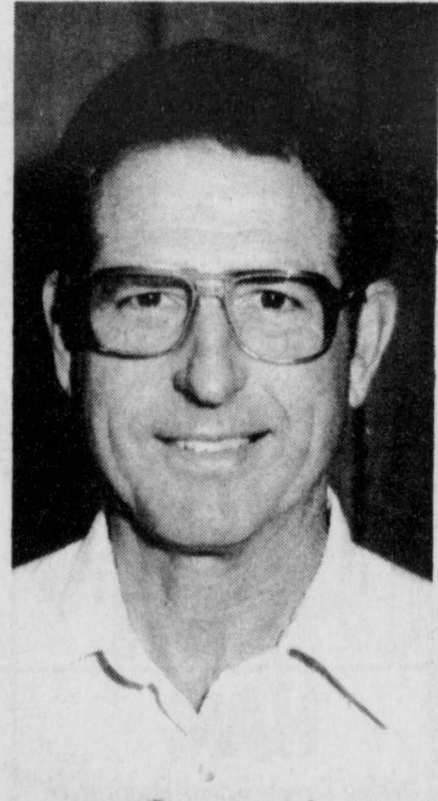

Bobby Dickey New Precinct 1 Commissioner

Bobby Dickey from Pine Branch is the new commissioner for Precinct 1. Dickey is 54 years old and is familiar with construction work. He was appointed September 6 by County Judge Bill "Scotty" Whiteman. The position was vacated by Drue Pirtle, who Whiteman told last week he could no longer serve as representative of the precinct because state law prohibits him from serving as commissioner and a Talco-Bogata school board trustee.

Dickey is a native of Bay City, where he worked as a pipefitter with Phillips Petroleum, and then moved to Bogata in 1964. He was a licensed plumber and took a position with E.L. Dalton and Co., a Dallas underground utilities installation company. Dickey formed his own backhoe company here and in Dallas before working for Simmons General Contractors in Talco. He has a 21 year old son completing undergraduate studies at East Texas State University.

Dickey voiced his appreciation to all his friends for their support, "I have received many calls of support. If I can be of any assistance, please call me at home or the courthouse in Clarksville. I also want to commend

the county crew for carrying on business as usual during this change-over."

City Council Urges Observance Of Laws

The Bogata City Council met in special session on Monday night and awarded a contract to the low bidder on the rebuilding of the sewer plant and let a contract to the low bidder on the rebuilding of some of the main sewer lines.

This was done under recommendation of the engineer. Actual work should begin in about ninety days.

The council also would like to make citizens of Bogata aware of a few things:

There is getting to be a dog problem in the city. People are getting angry and complaining. There are laws about rabies vaccinations and it is the responsibility of dog owners to see that their dog is vaccinated and kept up. It isn't right for animals to be bothering other people.

There is an ordinance against throwing trash over the fence or beside the fence at the trash compounds. Trash is picked up every

Wednesday and trash not picked up then can be put inside the dumpsters. The lot is open five days a week from 8 until 5 daily.

Citizens of the City of Bogata are the only ones who have the right to use these containers. A fine from \$25 to \$200 can be imposed for violation of this ordinance.

Burning barrels currently in use behind the stores in Bogata downtown will be discontinued and moved. The only place to dispose of trash will be by city pick up. Please, help your council make Bogata a cleaner, better place to live.

Deaf And Hearing To Meet

The Red River Valley Deaf and Hearing Association will meet at the First Assembly of God on Thursday, September 19 at 7 p.m. in Paris.
It is fine to know that nine deaf children are enrolling in AM Aikin Elementary School this year. They can grow up at home while being educated.
Guest speaker will be Mrs. Lois Moore. She has reared a deaf son, therefore, she will have good information for all parents who have children with impaired hearing. Why? She will not be talking from book knowledge, but from experience.
Final plans will be made for National Deaf Awareness Week. It is the 22nd through the 28th. Did you know there are 1,500,000 deaf and impaired hearing people in Texas? Eighty-five percent of this group use manual or signed communication. American Sign Language is the fourth most widely spoken language in the United States.
Also, the Paris Public Library has 11 books on deafness, sign language; books, Guide to parents of deaf children, a fiction book very true to life by Joanne Greenburg, and a New Testament, English version for the deaf.
The Voice, the publication for the hearing impaired, has recently come to the attention of the association. It is published bi-monthly and mailed directly to hearing impaired people and hearing health professionals throughout the United States.

John A. Nelson Continues A Folk Art Tradition

By: Nanalee Nichols

John A. Nelson is a woodworker....a craftsman of the highest order. He is one of only five men in the entire United States who makes their entire living from carving decoys.

His simple shop, located behind the family home in Detroit, is filled with a range of waterfowl as varied as a 'bird book.

Nelson, his wife Nancy, and two children, a boy, age 17 and a girl, age 15, are all involved in the business.

Although Nancy is currently in college to become a registered nurse, she "is" the shipping department for the business.

His daughter does base painting, and paints the primitive and folk art items that are also for sale in the shop.

The son is carving too, and helping make various items.

But the main attraction is John's birds and fish. Exquisitely detailed as if they are "decorative decoys" are perfectly balanced and painted to draw birds to them if they are functional decoys, they form the mainstay of the shop's business, and go all over the United States and to France.

Last year John did an exclusive series of waterfowl for the Neiman-Marcus Christmas catalogue. They are sold out completely.

This year he is doing a series of fish for an exclusive shop in Dallas. They want a pike, carp, sucker, bass, rainbow trout, brook trout and brown trout. The graceful forms sit in rows on John's workbench, some in the rough, some almost carved, some base-painted and others nearly complete. The ripple of water past their bodies is almost palpable, they seem almost catchable!

The fish are decoys, too, John says. They are used to attract predator fish in the north country. They are weighted and suspended by a tiny line beneath a hole in the ice, while a wily fisherman waits with a spear to skewer an approaching predator, such as carp.

The shop is filled with the rich smell of sugar pine, the wood John uses for his various creations. The big room is packed with a variety of specialized tools suited to his trade, and the walls are hung with templates, patterns and various clutter pertaining to different projects.

On shelves at the top of the room, ducks of all varieties, shore birds, pelicans and geese are lined up like a waiting flotilla.

John is from Michigan. His wife is the East Texas native, having grown up in the Paris and Manchester area.

They moved from Michigan to Manchester, then about a year ago, moved to Detroit.

John is an expert at his craft. He can talk about "tip-ups" or "feeder" decoys (a carved duck "behind" that looks like a duck feeding with its head underwater). He explains that certain features of a working decoy may be exaggerated instead or ornithologically correct.

"The purpose of a working decoy isn't realism...it's to draw birds down to the decoy."

His decorative decoys are perfect in detail, however.

John is knowledgeable in the different kinds of decoys necessary for different waters. On big water, such as the Great Lakes, a decoy must be larger, be able to ride a stronger wave pattern. They are very different from those for use in this area, on small ponds, for on creeks or bayous such as are found in Louisiana.

He has tapes of bird and animal calls from the woods, to listen to, and knows the coots, mallards, pintails and geese that make up his collection almost intimately. He has, he says, always been interested in working with wood, the outdoors and sports, therefore, five years ago he began to work entirely with the decoys and woodcrafts. He spent the years before

that developing his markets, and working at various other crafts such as furniture building or carpentry.

He has, he states, contentedly "always worked with wood, it's natural to me".

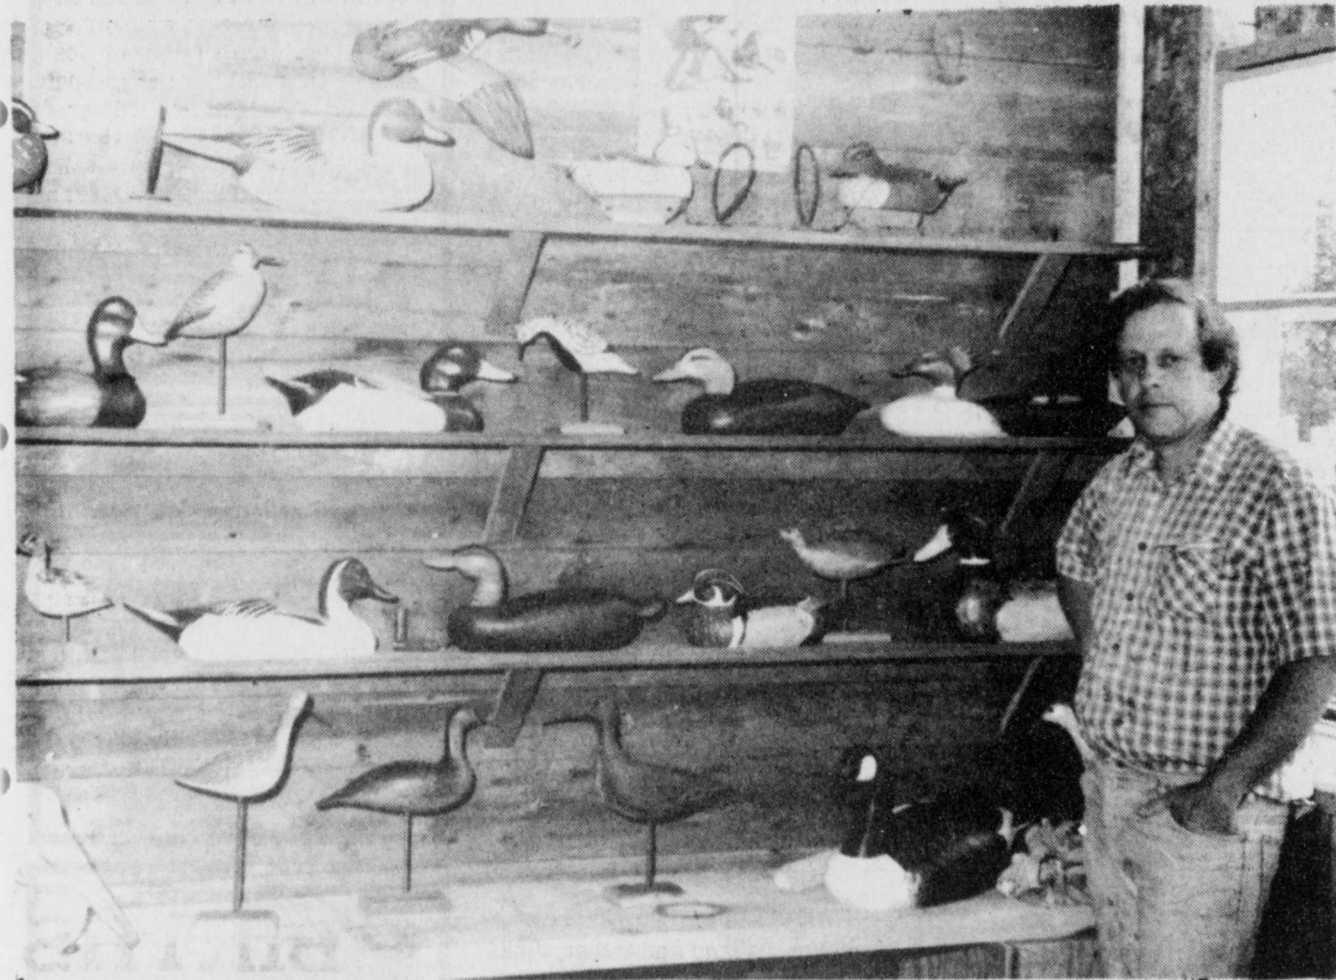

In all, he does over 75 different varieties of birds or fish. From an exquisitely tiny hummingbird to a huge, white swan, the birds run the gamut of the bird world. Cardinals, petite shore birds, huge geese or ducks, they all bear one thing in common....skill of the craftsman.

John puts his profession quite simply, but with quiet pride. "I am", he states, "carrying on an American art form and tradition." He is, and the results are beautiful.

Duane Allen To Be Honored

Paris Junior College will honor one of its most famous graduates, Duane Allen of the Oak Ridge Boys, at a special Homecoming celebration scheduled for Saturday, October 12 on the PJC campus, according to Glen-na Carrington, president of the PJC Former Students and Friends Association.

A 1962 graduate of Paris Junior College, Duane has sung his way to the top of his profession as lead singer with the multiple-award winning country music group, Mrs. Carrington said. As a tribute to the Lamar County native, PJC is planning an outdoor celebration including a barbecue luncheon, entertainment by the Prairieland FFA Talent Team and others, all-campus open house a program and reception.

In conjunction with the Homecoming for all former students and friends, present students and their families will be invited to the festivities. Special attractions for children such as clowns, popcorn, pony and amusement rides will be arranged for the day.

Tickets for the barbecue luncheon, which will be outside in the center of the PJC campus, must be purchased by Monday, October 7, so food arrangements may be completed. The

tickets are \$6 for adults and \$3.50 for children under 12. They may be purchased at the PJC College Store or the Chamber of Commerce office.

Homecoming events will begin with registration and coffee from 10 a.m. to noon that Saturday in the Rheudasil Learning Center. All campus tours will be from 10 a.m. to 1 p.m., and serving for lunch will be from noon to 2 p.m. Entertainment by the Prairieland FFA Talent Team and other music will be from noon to 2 p.m. John Allen, Duane's nephew, is a member of the talent team, which has won state competition.

During the program, an introductory speech will be given by Larry Franklin, who was a classmate of Duane's in 1961-62. Larry is executive vice-president and chief operating officer of Harte-Hanks Communications, Inc., which operates newspapers, radio and television stations, and specialized delivery systems in 87 markets in 27 states.

Specially honored guests will be all members of the classes of 1960, 1961 and 1962 as well as faculty members during those years at PJC.

Duane, the son of Mr. and Mrs. Fred Allen of Cunningham, continued his education at PJC after graduating from Cunningham High School.

At PJC, he was freshman class president and president of the PJCingers as well as a member of several clubs and organizations. He went to PJC morning and night and worked at Belk Department Store in the afternoons to put himself through school. Later, while attending ETSU, he worked at KPLT and sang with the Southernaires Quartet, his first paid job in music.

After graduating from ETSU with a bachelor's degree in music, Duane joined the KPLT staff on a full time basis for a few months. In 1965, he joined the Prophets, a gospel group out of Nashville, and in 1966, he was asked to join the Oak Ridge Boys, a gospel group which had been formed shortly after World War II.

In 1975, the Oaks crossed over from gospel to country/rock, and, after releasing Ya'll Come Back Saloon in 1977, they established themselves in the country music business.

They have won a string of impressive honors including Vocal Group of the Year from both the Country Music Association and the Academy of Country Music. They are title holders for Single of the Year, Album of the Year, and Country Music Group of the Year from every music trade publication.

Why did TNP Employee Lloyd Sexton install a Nite-Liter?

When the sun goes down and darkness falls, you need extra light to safely enjoy your outdoor activities. The Nite-Liter is an economical way to provide that extra light you need. The mercury vapor unit provides up to a 100 yard diameter of usable light more efficiently than ordinary incandescent lighting so you get more light for your money. TNP employee Lloyd Sexton of Valley Mills, enjoys the Nite-Liter's added convenience of automatically turning itself on at dusk and off at dawn—throughout all kinds of weather. Enjoy the added convenience and increased security and safety of the Nite-Liter at your house. Call our office today for all the details.

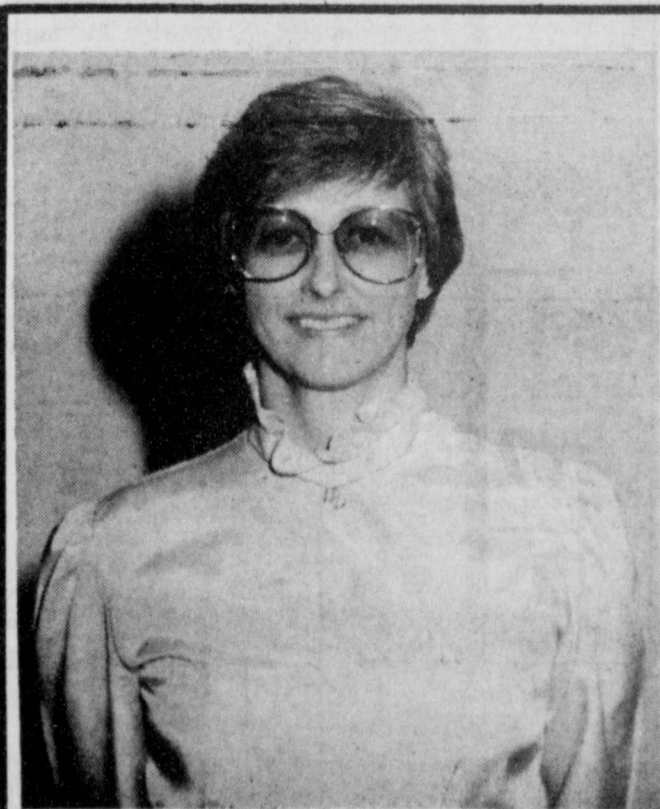

TNP Employee Lloyd Sexton of Valley Mills, enjoys his Nite-Liter.

FOOTBALL CONTEST

WIN FIRST PRIZE \$12

WIN SECOND PRIZE \$7

WIN THIRD PRIZE \$5

RULES OF THE GAME

CLIP OUT THIS PAGE AND MARK YOUR CHOICE OF WINNERS OF THE GAME THAT APPEARS IN EACH OF THE ADS ON THIS PAGE.

Do not guess the score, just the winner. If you predict a tie, so indicate with the word "Tie" written across the ad.

GUESS BOTH THE WINNER AND THE SCORE FOR THE GAME MARKED "TIE-BREAKER", THAT APPEARS ON THIS PAGE.

Tie-breaker game winner will be counted with other games but tie-breaker game score will be used only to break ties among contestants, with the game winner first, margin of victory second, total game points third and total points by winner fourth. If still tied, the prize money will be divided equally.

Fill in your name, address and phone number (if any) and either mail or bring this page, or a reasonable fac-

simile of the list of games, to either The Deport Times or The Bogata News.

Entries brought to either of the newspaper offices, must be in that office no later than 5 p.m. Friday of this week. If mailed, entries must be mailed to either The Deport Times, P.O. Box 98, Deport, Tex., 75435; or The Bogata News, P.O. Box 306, Bogata, Tex., 75417. All mailed entries must be mailed in time to arrive with the Saturday morning mail.

It is requested that only one entry per person be submitted. In event of more than one entry from a contestant, that person will be eligible for only one prize in that contest week.

Everyone eligible except employees of The News-Times newspapers and their families. Decision of judges will be final.

Baptist Women Have Week Of Prayer

The women of the First Baptist Church met last week for the Annie Armstrong Week of Prayer for State Missions. Theme for the week was "Deny; Take-Up; Follow." Leader for the week was Mrs. Kathleen Brantley.

Monday and Tuesday's programs were given Tuesday by Mmes. Wanda Bankston, Inez Montgomery, Bob Posey, Regan Bell, Richard Ward and Glen White. Benediction was by Mrs.

Brantley. The men had charge of the Wednesday program at the prayer meeting service. Taking part were Bro. Bob Posey, C.D. Glass, Glen White and Buddie Damron.

Thursday morning, the programs for Thursday and Friday were given by Mmes. Bob Posey, Ann Cody, Luke Crayton, Benita Ann Shupp, C.D. Glass. Mrs. Richard Ward read the Prayer Calendar.

Sunday School Luncheon Held

Mrs. Ann Cody brought the devotional Wednesday when the Adult 2 Department of the First Baptist Church of Bogata met for the monthly luncheon in the Fellowship Hall of the

church. She read from Ecclesiastes and spoke on God's plan for things in our lives. Twelve members and Bro. and Mrs. Bob Posey were visitors.

Arigo Riders Hold Meeting

Arigo Riders had a meeting on Tuesday, September 10 at the Fulbright Community Center. Project books for the coming year were distributed and discussed, and two new members were registered. Thirty-four people attended.

Special thanks to those members who participated in the Clarksville High School Rodeo on September 6

and 7. Pivot setters were Danny Tabb, Michael Tabb, Dee Tabb, Brandon Williams, Chad Martin, Scott Denny, Jennifer Glass and Misty Chaloner. Others participating members were Shawn Woodall, Amy Hervey, Tina Smith, Chad Wolfe, Melanie Williams, Amanda Callaway and Cami Eilers.

Neil Rozell Speaks To Consumer Education Class

Neil Rozell, president of First National Bank in Bogata, spoke to members of the Rivercrest High School Consumer Education class recently on the topic of money management. He emphasized the need for planning the use of income and of setting aside something for that "rainy day". He told the group that no matter how small one's income, he can save a part of it regularly.

Mr. Rozell discussed the necessity of establishing a credit rating, of knowing your limits in regard to the use of credit, of making payments promptly, and of keeping careful records. Topics covered during a question and answer period included buying an automobile, checking and savings accounts, and the importance of understanding contracts.

Consumer Education is a home economics course and is taught by Mrs. Anita Stubblefield.

Homemakers To Hold Get-Acquainted Dinner

An informal get-acquainted dinner will be held at Rivercrest High School on Tuesday, September 17 at 6:30 p.m. in the homemaking room. A door prize will be given.

There will also be a short discussion

Pine Branch 4-H Meets

The Pine Branch 4-H Club met Monday night at the Bogata Community Center for their regular monthly meeting.

After the call to order, those participating in the Red River Valley Expo held in Paris last week gave a report of their projects shown and the results. Haley Griffin and Brad Branch entered the Junior Poultry Show Wednesday and the Open Poultry Show Saturday. Haley won one blue, three red, two white and one yellow ribbon and Brad received five blue ribbons. He also was awarded two blue ribbons for his horned Hereford heifers he entered in the Junior Beef Show on Saturday.

Plans were discussed and finalized for participation in the Stew CookOff

to be held in Clarksville on Saturday, September 14.

The County Fair entries were discussed and the sign-in times were given for the different divisions and categories. Each member registered their projects to be shown.

Mrs. Rue Anna Bell volunteered to sponsor a cooking and sewing group. Upon securing the requested literature and information, the class meeting times will be scheduled.

Welcomed as new members were Audie Earley, Chris Earley and Cami Eilers.

Upon adjournment, the members, sponsors and parents enjoyed refreshments furnished by Mrs. Sandra Ingram.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 5, 1985

PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with \$400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, subsidence control, recharge, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

PROPOSITION NO. 2 ON THE BALLOT

Section 3 of House Joint Resolution 6 proposes a constitutional amendment that would allow the Texas Water Development Board to issue and sell Texas agricultural water conservation bonds in an

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 21 proposes a constitutional amendment that would authorize the use of the proceeds from the sale of permanent school fund land to acquire other land for the permanent school fund. Currently, the constitution requires that proceeds from the sale of such land be invested in certain bonds and other securities.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 89 proposes a constitutional amendment that would enable the legislature to regulate the provision of health care by hospital districts by determining

the services the district must provide, by setting requirements a resident must meet in order to qualify for services, and by determining any other relevant provisions necessary for providing health care to residents.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to regulate the provision of health care by hospital districts."

PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment that would enable the State of Texas to enter into an agreement with another state to confine inmates from the state of Texas in penal or correctional facilities of the other state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit state prisoners to be placed in penal facilities of another state pursuant to an interstate agreement."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 27 proposes a constitutional amendment that would authorize the commissioners court of Chambers County to divide Chambers County into not less than two and not more than six justice precincts. Under current constitutional law, Chambers County may be divided into not less than two and not more than five justice precincts.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing Chambers County to be divided into two to six precincts."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would grant an additional \$500 million in bonding authority to the Veterans' Land Board for the veterans' housing assistance program. Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than \$800 million in bonds, \$500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to \$1.3 billion in bonds, \$1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing \$500 million in additional bonding authority for the veterans' housing assistance program and changing the definition of those veterans eligible to participate in the veterans' land program and the veterans' housing program by authorizing the legislature by law to define an eligible veteran for the purposes of those programs."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 72 proposes a constitutional amendment that would permit the legislature either to enact a statute or to attach a rider to the General Ap-

propriations Act to require prior approval of the expenditure or emergency transfer of any funds appropriated by the legislature to state governmental agencies.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to protect public funds by authorizing prior approval of expenditure or emergency transfer of state appropriations."

PROPOSITION NO. 10 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds, the proceeds of which would be deposited in a fund to be known as the farm and ranch finance program fund. The fund would be administered by the Veterans' Land Board and would be used to make loans and provide other financial assistance for the purchase of farm and ranch land. The amount of bonds outstanding at any one time would be limited to \$500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of general obligation bonds to provide financing assistance for the purchase of farm and ranch land."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 16 proposes a constitutional amendment that would define indictments and informations as instruments charging a person with the commission of an offense, and would delete certain technical requirements as to the form of writs and processes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment relating to the manner in which a person is charged with a criminal offense and to certain requirements applicable to state writs and processes."

PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 10 proposes a constitutional amendment that would grant the Texas Supreme Court and the Texas Court of Criminal Appeals jurisdiction to answer questions of state law certified from federal appellate courts. In addition, the two courts would promulgate rules of procedure relating to the review of those questions.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment granting the Supreme Court of Texas and the Court of Criminal Appeals of Texas jurisdiction to answer questions of state law certified from a federal appellate court."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that would create a board with responsibility for the reapportionment of judicial districts, subject to legislative approval. The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment

will be the responsibility of the Legislative Redistricting Board if the Judicial Districts Board fails to make a timely reapportionment. The amendment would provide for the creation of judicial districts smaller than a county in counties where the creation of such districts has been approved by the voters at a general election. The amendment would provide for more than one judge for a judicial district. The amendment would rename supreme judicial districts as courts of appeals districts. The amendment would provide that the jurisdiction and terms of court of district and county courts may be as provided by law. The amendment would provide for the jurisdiction of justice courts, which may have additional jurisdiction as provided by law. The amendment would provide for rules of judicial administration and civil procedure to be promulgated by the Supreme Court, and would provide that the legislature may delegate additional rule making power to the Supreme Court or to the Court of Criminal Appeals. The amendment would provide that courts and judges in existence at the time of its adoption remain in existence until otherwise provided by law.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the reapportionment of the judicial districts of the state by the Judicial Districts Board or by the Legislative Redistricting Board, and providing for the administration and jurisdiction of constitutional courts."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment that would abolish the office of County Treasurer in Andrews County and transfer the powers and duties of that office to the County Auditor. The amendment would also abolish the office of County Treasurer in El Paso County if, at the statewide election at which this amendment is submitted to the voters, a majority of the voters who vote in El Paso County favor the amendment. The functions of the office of El Paso County Treasurer will be performed by a person employed or designated by the El Paso County Commissioners Court. The amendment also provides for the abolition of the office of County Surveyor in Denton, Randall, Collin, Dallas, El Paso, and Henderson Counties upon approval of such abolition by a majority of the voters who vote on the question at an election called by the commissioners court of the county. If the office of County Surveyor is abolished in any county, the commissioners court may employ or contract with any qualified person to perform the duties of the office.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for:

- (1) the abolition of the office of county treasurer in Andrews County and El Paso County;
- (2) the abolition of the office of county surveyor in Collin, Dallas, Denton, El Paso, Henderson, and Randall Counties."

My Dad
By Becky Martin

He used to walk the fields of cotton
Never thinking someday they'd be forgotten.
He used to haul those bales of hay
Hoping it would all be different someday.
Now Dad worked so hard and long
But Dad was sad and all alone.
So God sent a woman into his life
of forty-two years, my Dad's wife.
From their love came a girl and boy
That made their hearts proud with joy.
Then came six little kids more
Not knowing it would be such a chore.
Now Mom and Dad had to work long and hard
For their little kids would have starved.
Now we're all bigger, older and grown
and Mom and Dad sit talking all alone.
Mom's doing what she came up knowing,
Cooking, cleaning, quilting and sewing.
And Dad thinks no one seems to care
As he sits watching from his wheel chair.
And he feels so useless as he sheds a tear
Cause he can't do the things he did in his younger
year.
On January 5, my Dad took his life,
Left behind 8 children, a home and a wife.
But Dad's left us with years of smiles and joys
About the times when he was just a boy.
I wish there was an easy way
I could ease Mom's pain every day.
But now we just weep and wonder
And hope to see him in the blue yonder.
When he'll stand so big and bold
As he walks in the streets of purest gold.

"Wish Book" Fun For Today's Kids

It was with pleasure that I discovered today's youngsters still using the "wish books" as much as ever.

My seven year old nephew revealed this fact by calling me one night recently and proceeding to read, in lengthy detail, the description and price of every bee-bee gun listed in the catalogue. We went into shipping weight, expense and dimensions.

It brought back the hours I spent at his age diligently perusing every page of the Sears and Roebuck Christmas Catalogue.

Searching for Santa Claus gifts used to be a major thing. About this time every year the catalogues would arrive, and the reading lessons began.

Sometimes those gifts never arrived. I cannot recall ever being really disappointed when I didn't receive what I had written for, however.

A hobby horse was on my list for several years. I wanted one, either on the springs, or preferably, the exotic one where you moved your feet on the stirrups and the legs of the horse moved. I think anticipation of rollers grinding across the floor may have kept THAT gift from ever arriving.

One office employee wanted a train set. As the only child (a girl) she simply could see no reason not to receive that set, along with some high heeled shoes. She showed her parents every train set, but all to no avail.

Those wish books were calculated to drive a youngster to distraction. Instead of simply saying "I want a doll", the catalogue provided one with at least twenty or thirty different KINDS of dolls to choose from! Oh, that could be an awful decision to make.

Today's kids have the problem even greater. There are dozens upon dozens of different models and designs of toys to choose from.

The variety of figures, games, dolls and products is truly staggering. The advertising campaigns promoting those products are pretty staggering too.

But that doesn't mean much to a child, who simply gets pleasure from poring over the pages of the wish book for hours, trying to make up his mind what to ask for.

Most youngsters have a grip on reality, too. They know that Santa isn't going to spring for everything in the book. Nor is he going to bring the most expensive of everything. So they begin about now trying to pare the list down to within reason.

They spend a lot of time pestering moms and dads about which should they ask for. Do they think Santa would bring this and that and that? Well, if not, how about this one and that one? It takes a lot of time to get

a Christmas wish list just right.

And, if it isn't time for Christmas, the arrival of those "wish books" starts the ball rolling, and by the time December arrives, those kids, just like yesterday's youngsters, will be ready, willing and able to announce

just precisely what they want the jolly man in the red suit to bring.

But, when they are grown, if they are like me, they might find that it's the time spent looking that was special...most of the toys have actually faded from memory!

**Texas Crime
Rate Up
From 1984**

The crime rate and number of major crimes reported in Texas during the first half of 1985 increased, according to statistics furnished by the Texas Department of Public Safety. "Compared to the first six months of 1984, the crime rate for the first half of 1985 was up eight percent to 3,111.7 crimes per hundred thousand population," said Colonel Jim Adams, DPS director.

All major crime categories showed increases in the number of offenses reported.

Rape led the four violent crime categories, increasing 13.8 percent. Aggravated assault, murder and robbery were up 9.6 percent, 8.7 percent and 3.1 percent respectively.

"Motor vehicle thefts rose 12.4 percent," Adams pointed out. "Burglary increased 8.3 percent and theft was up 10.6 percent."

Of the total index crimes reported, 21 percent were cleared by arrests in the first half of 1985. The value of property stolen during the commission of the index crimes was estimated at over 585 million dollars, with approximately 230 million dollars in stolen property recovered by police.

"Two Texas law enforcement officers were killed in the line of duty by criminal action in the first six months of this year," Adams said. "Two officers lost their lives in duty-related accidents."

The DPS also said a total of 1,733 assaults on officers were reported.

DWI arrests in the first half of 1985 were up 2.6 percent, totaling 68,717. Drug arrests increased 14.4 percent to 31, 913.

The crime statistics were derived from reports submitted by 790 law enforcement agencies in the state.

The spacecraft Pioneer 10 has traveled more than 3 1/2 billion miles since its launch in March 1972, reports National Geographic World.

'Greenhouse Effect'

Methane gas, a potential contributor to the "greenhouse effect," has been increasing in atmospheric concentration since 1977, according to researchers at the University of California, Irvine.

A team led by F. Sherwood Rowland, professor of atmospheric chemistry, has regularly collected air samples worldwide for nearly seven years and found an annual methane increase of 1.1 percent throughout the earth's troposphere, or lower atmosphere.

New 'Insanity' Plea Would Expel Experts

A way out of the maze of complex legal precedent and psychiatric confusion surrounding the insanity defense is offered by philosopher Herbert Fingarette of the University of California, Santa Barbara.

He would replace the traditional "not guilty by reason of insanity" plea with a legal concept based on community judgment, not that of experts.

Dr. McLeod To Conduct Revival

The leaves begin to turn, some fall to the ground, there is a change in the season. Around the corner the sound of slamming doors, the laughter of children, mom's voice in the air. It's revival time again at First Baptist Church in Bogata.

September 27, 28, 29 are the dates set for revival. Bring a relative and

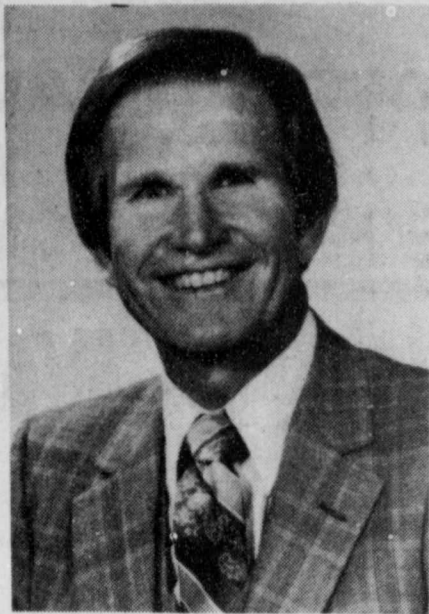

friend and enjoy the music and message.

Join in the fellowship with Evangelist Carlos McLeod, a native Texan. Dr. McLeod became Director of Evangelism for the Baptist General Convention of Texas Nov. 1, 1981. He earned the Bachelor of Arts degree from Wayland and graduated from Southwestern Baptist Theological Seminary, Ft. Worth. Presently, Dr. McLeod is chairman of the board of Golden Gate Baptist Theological Seminary in Mill Valley, California. He and his wife, Bonnie, have three daughters: Mrs. Roody (Ann) Pearce, Gale and Amy.

Dave Renfro, Music Director at First Baptist Church Bonham will be leading the music. He has been here before, so let's welcome him again. Come join in the music.

This revival's events are as follows: Friday night starts off as children's night. Saturday night is family night, so bring all your relatives and share in the fun and fellowship.

Sunday there will be a covered dish lunch for everyone at noon in the fellowship hall. Bring a healthy appetite. Sunday night will be youth night so please plan ahead, mark your calendar and we'll see you at the revival 7 p.m. each night and 11 a.m. Sunday.

Dr. Carlos McLeod

Davidson, Morrison And Skidmore Take Football Loot

The newspaper Football Contest kicked off with a number of entries, and some mighty good guessing on the part of the readers.

The \$12 first prize was claimed by Mike Davidson of Pattonville, who missed three games and said Prairiland would win 32-0 over Wolfe City.

In second place was Jeff Morrison of Blossom, who also missed three games and predicted Prairiland to win 36-0.

The \$5 third place booty went to Timothy Skidmore of Paris, who missed four games.

Missing five games were Tobe King, Hayden Martin, Lee King, R.V. Glasener, Kevin Parker, J.J. Young and Andrew Cox.

No one guessed the tie between U.C.L.A. and Tennessee. Enter today and perhaps you'll win some cash!

Winning teams were: Prairiland 28-Wolfe City 0; UCLA tied Tennessee; Louisiana State; Oklahoma State; Brigham Young; Michigan State; Cooper; Georgia; Prairiland; Arkansas; Texas Tech; Detroit; Paris; Clarksville; Alabama; Redwater; Maryland; Ohio State.
