Star Police Killers War on Gangs

CRIMINALS
KILLED BY HIM

CRIMINALS
KILLED BY HIM

Two of the star criminal killers on the Chicago police force detailed to lead special "execution squads" in the newest war on gangsters are pictured here. Left is Lieutenant Al Booth who has killed six men in furious gun battles; right, Lieutenant Patrick O'Connell, who has five dead gangsters to his credit.

Second Note From Maniacal Slayer Says That He Has Spared His Third Victim

NEW YORK, June 19.—The maniacal slayer, who unflinchingly killed two men as part of his announced plot murder 16 persons to retrieve some mysterious "papers," wrote today that he had spared his third victim.—W. R. V.—

It was the second note the slayer had sent to the New York Journal today. In the first he boasted that he had killed this third victim—despite vigilant watch by hundreds of detectives in the College Point section—and that the body would be found on the "Boston Road."

The first letter said the dead man's name was "Harold Bridenbach," and added, "find the woman and you've got me."

The second letter today did not mention the previous boast of death but said W. R. V.—8 had returned the "papers" and \$37,000 blackmail money.

NOTE DIRECTS POLICE

NEW YORK, June 19.—The maniac, who already has killed two persons, boasted today that he had claimed his third victim and directed police to the Boston road where, he said, they would find the body of Harold Bridenbach.

His announcement was contained in a letter to the evening Journal, and it started police on a search of the Boston road. Fog hampered their work during the early hours of today. The maniac who is searching for some "important papers" eluded police last night when 2,000 patrolmen de-

METHODISTS TO BEGIN MEETING NEXT SUNDAY

The series of revival meetings at the First Methodist church this summer will begin next Sunday, the pastor, Rev. F. E. Singleton, announced. The pastor will do the preaching for the first two days of the series. Tuesday the Rev. T. Edgar Neal, new presiding elder of the district, will begin preaching.

Mr. Neal is prominently a pastor-evangelist and comes to Cisco with the reputation of being one of the best preachers in the conference.

Services will be held at 8:15 a. m. and 7:30 p. m. Arrangements will be made later for the day ser-

COUNTY RED CROSS UNIT ORGANIZES

J. E. Spencer of Cisco Is Elected Chairman of Chapter

Reorganization of the Eastland county chapter of the Red Cross for the ensuing year and for the roll call campaign to take place between Armistice Day and Thanksgiving next fall took place at a meeting held at the chamber of commerce in Cisco last night. Mrs. Grace Ashbaugh, national field representative of the Red Cross was present.

J. E. Spencer, of Cisco, was elected chairman of the county chapter and A. B. O'Flaherty, of Cisco, vice-chairman. H. G. Bailey, of Cisco, was elected chairman of the work with ex-service men and their families.

Mrs. Paul M. Woods was chosen chairman of the roll call campaign and Miss Ester Hale chairman of volunteer service. Other chairmen were named as follows: W. B. Statham, life-saving work; A. B. O'Flaherty, disaster relief and Dr. E. L. Graham, first aid work. Miss Lucille Pierce was named secretary-treasurer and the following were elected directors: Mrs. W. W. Wallace, Mrs. J. C. McAfee, Mrs. Don Sivalds and Miss Letha M. Eager, of Cisco; Milburn McCarty and Mrs. Joseph Perkins, of Eastland; and Mr. Harwell, of Ranger.

B. A. Butler of Cisco, and Boyce House, of Ranger, were named as publicity committee.

Reports Given

W. B. Statham, chairman of life-saving, gave a report on the last year's work and an outline of the work for 1930 which was endorsed by the chapter. A report of war work service was given by H. G. Bailey, chairman of that committee. Mrs. Ashbaugh gave an account of disaster work in the state and urged complete chapter plans for preparedness in event of disaster in Eastland county. Texas has been unusually free from disaster but from the period 1925 to 1929, she said. The national organization together with chapter assisted in 15 tornadoes in this state, one hurricane one hail storm and one flood. In all 18,000 families were affected and \$75,000 expended in their relief. Mrs. Ashbaugh pointed out that 32 per cent of all funds secured through the national society are designated for disaster relief. It is estimated that this year will require the expenditure of over a million dollars. This amount does not include sums raised for specific disasters for they go direct to relief of disaster specified. The second largest appropriation in the national budget has to do with the work of the ex-service men and their families. During the fiscal year the national organization assisted 12,000 men or their families monthly and local chapters reached 38,000. New legislation makes for increased burdens upon the chapter. The local chapter carries this as its major service, puts on a life saving program each year and assists the national in production of Christmas bags which are sent to soldiers of the regular army overseas.

Already the maniac has killed Noel Sowley and Joseph Moynski. In both cases they were shot as they sat in parked automobiles with young women. The two girls, Catherine May and Betty Ring, are at liberty in \$5,000 bail each as material witnesses.

If the man who signs himself as "3-X," really has committed another murder, he has displayed the same cunning that has characterized his career of crime. It was pointed out that he chose the Boston road for his latest exploit—a section that is miles away from College Point where police were massed all last night on the strength of a letter from "3-X" boasting that his next crime would be in that district.

Two men arrested last night near College Point were released when Miss Ring failed to identify them.

All night the 2,000 policemen kept vigil in Queens as terrified residents of the section barred their doors. Every ruse known to experienced detectives was utilized. Policemen, wearing women's coats with high fur collars, sat with drawn pistols in automobiles expecting any moment to be confronted by the maniac.

Police commissioner Mulrooney believes the man worships at the shrine of some strange deity that has commanded him to kill whenever he encounters a man and a girl sitting in a parked automobile.

Attorney Is in Critical Condition

DALLAS, June 19.—Harry MacDermott, Dallas attorney, was in a critical condition in a local hospital today as the result of a bullet wound he suffered about 7:30 a. m.

MacDermott was shot through the head with a .32 calibre rifle, which was found nearby.

He left a note in his room saying he intended to take his life because he was unable to find employment.

Damage Suit Now Before 88th Jury

EASTLAND, June 19.—The damage suit, filed by next friend of the minor children of M. J. Borland against F. J. Hiddlebaugh, in the amount of \$2,995 has been on trial in the 88th district court, and is now before the jury.

The suit grew out of an accident which is alleged to have occurred between a bus owned by Hiddlebaugh and another automobile.

Another Rip Winkle Frog

HOUSTON, June 19.—At this late date comes another frog seeking Rip Van Winkle honors. Mrs. M. Butler tired of her old refrigerator which she had for 30 years, and bought a new one. But she dismantled the old one, as she wanted to save an opal glass built into it.

"I took off the glass plate, exposing a thick piece of tar paper, which was intact," she said. "I took that off and found this space tightly packed with asbestos. As I pushed my screw driver into the asbestos, I saw a head and a pair of eye looking at me."

The frog, small and scrawny, still was alive.

"The refrigerator was made in Indianapolis," she said. "Nothing could have got in the place, at least since we have had it, and we've had it 30 years."

RIISING STAR SCOUTS WILL GET HONORS

A Boy Scout court of honor is to be held at Rising Star tonight at which four boys will receive the rank of Eagle Scout.

There are but two Eagle Scouts in the Oil Belt council at present and both of them are members of the Rising Star troop, making that troop not only the first to have an Eagle Scout but it also has the honor of having six Eagles before any of the other troops have one.

Those who will be made Eagle Scouts at the court of honor tonight are Lionel Lee, Weldon Bryant, Russell Day and Charles Bury. Carl Rotrammel and Charles Rutherford are the other two boys from Rising Star who have received this honor.

Cisco and Eastland both have scouts that will be ready for the Eagle badge within a short time as these boys have almost completed the required work.

A court of honor will be held at Cisco on Friday night with more than 33 scouts receiving merit badges.

Jones Scores Par in Second Round

HOYLAKE, Eng., June 19.—Bobby Jones scored a par 72 in his second round of the British open golf championships today and had a total of 142 to lead the field in a comfortable margin.

Bobby's lead appeared to be safe for the day as the other leaders yesterday had dropped back with the pack. They were Henry Cotton, young British pro, and Mac Smith, veteran from overseas.

Jones, Cotton and Smith each had a 70 yesterday. While Bobby had a total of 142, Cotton had 149, and Mac Smith had 147.

Horton Smith's 145 was the nearest approach to the Jones Mark with most of the leaders through for the day.

Garner's Clearance Sale Opens Today

Jno. H. Garner's clearance sale opened today with a bang. It was an unusual sale—unusual for Garner. It came a little earlier than this firm usually puts on their annual summer sale and then their annual summer sale and their offerings were unusual, according to Manager Drumwright. More new goods than usual were in the slaughtering, he said, and prices out of the ordinary are being offered.

A great throng had been patiently waiting for quite a while for the door to be opened and when it did, customers swarmed all over the store. It was difficult to handle the eager buyers for a while—in fact he says, many perhaps will not be able to complete their purchases until tomorrow or even the next day, but all will finally secure what they want, provided, of course, some one else has not already carried that particular merchandise off. Friday will be another rush day and likely more salespeople will be secured to facilitate the handling of customers.

DAVIDSON IS OUT OF RACE FOR GOVERNOR

Candidacy Would Only Scatter Votes, He Explains

HOUSTON, June 19.—Former Lieut. Governor Lynch Davidson of Houston today withdrew his name as a candidate for governor. Davidson's name had been placed on the ballot by a petition of Hunt county citizens.

"In my judgment" Davidson said in withdrawing, "most of the number who are now contesting for the governor's office are professional politicians, seeking the office solely for selfish reasons. The election of Love, Mayfield or Ferguson would be a great drawback to the interest and welfare of Texas. If my remaining on the ticket and assure their defeat, I would not hesitate to do so."

"On the other hand it is possible my remaining on the ticket might further scatter the votes and save to bring about their election, for the good of Texas, and for that reason only, I have decided to withdraw my name from the ticket."

Later, Davidson said, he will declare for the candidate who nearest meets his ideals of government.

The Houstonian has twice been a candidate for governor. In 1924 he missed getting in the second primary by 2500 votes and in 1926 he ran third in the Moody-Ferguson battle, polling 126,000 votes.

WRIGHTSMAN GIVES ROTARY FLAG TALK

L. S. Wrightsman gave the flag talk at the meeting of the Cisco Rotary club today noon. Mr. Wrightsman's subject was Belgium and his talk certainly one of the best of that character that the club has heard.

Philip Pettit was in charge of the program.

Miss Mattie Lee Kunkel is the new pianist for the club, taking the place of Miss Mason who is away at school. Miss Kunkel appeared with the club for the first time today.

Among the visitors present at the meeting was W. A. Watson, a native of England who has been with the Humble Oil and Refining company in this section for a period of ten years and has but lately returned from a four-months vacation spent at his old home in Leeds, England.

His description of business and employment conditions affecting England at this time is enough to put local calamity cries to shame. So serious have such conditions become over there, he says, that ordinary charity organizations are impotent and the government has for the past two or three years maintained a "dole" system by which millions of unemployed are kept from starvation through long periods of unemployment. Many people have been without work for two years or more, living solely upon the "dole" they receive from the government. The money for the payment of these "doles" is secured through heavy taxation of salaries. It costs more to grow potatoes in England than to import them from Germany, Mr. Watson said by way of illustrating conditions. This commodity is imported from the continent and sold in England at the rate of one cent a pound.

First Water Show at Lake Tonight

The first water show of the season will be held at Lake Cisco this evening at 8:30. It was announced. There will be the usual number of races, contests and stunts. Music will be furnished by the Lobo band.

With the arrival of warm days the Lake Cisco swimming pool is growing rapidly more popular and a large attendance for this evening's program is expected.

Mail Carrier on Annual Vacation

W. J. Tickner, veteran mail carrier of Cisco, began his annual vacation today. Mr. Tickner has been mail carrier out of Cisco for 25 years. During that time he has seen many changes, including the transformation of dirt roads into fine pavements and the evolution of the mule and buggy into eight-cylinder automobiles. Where he once drove a mule over his route he now drives a car, making a much longer trip in but a fraction of the time.

FRENCH MAKE STUDY OF U.S. TARIFF RATES

PARIS, June 19.—The cabinet met today and studied the new American tariff schedules.

Pierre Etienne Flandin, minister of commerce, ordered an immediate survey of the repercussions from the tariff in France and her colonies.

The United States tariff legislation was seen in French political circles as exerting a favorable influence on the heads of governments to which foreign minister Aristide Briand presented his scheme for a European federation.

The Hawley-Smoot bill has not evoked the volume of opposition which generally was expressed in the press or other quarters but it was believed probable that comment would increase as soon as the new regulation begins to affect trade relations with the United States.

Most observers believed the tariff would give impetus to the European political and economic union on which the 26 nations have been formulating replies to the French questionnaire. Business leaders maintained that it is becoming more difficult to trade with the United States every year.

Edouard Herriot, socialist leader and once French premier, attacked the tariff in an article in the newspaper L'ere Couvelle. "The problem of the American tariff is most grave," he wrote. "Unless we Europeans are willing to make a concerted action, we are on the threshold of ruin for our industries, and unemployment and misery for our poor working classes."

It will not suffice to propose reprisals. We must develop—and the sooner the better—a European order, a European entente, a European division of labor.

HAVANA, June 19.—A tariff war on the United States was advocated by the press here in editorials bitterly denouncing adoption of the Hawley-Smoot tariff bill.

El Mundo, a morning paper, summarized the comments of other papers here when it said:

"From now on we in Cuba and the other American nations have to regard the United States as a formidable enemy which X X X attempts X X X to starve us out."

Hickman Will Seek Retraction

LONDON, June 19.—Capt. Tom Hickman of the Texas rangers, who is in England, intends to call on the London Evening Standard to ask retraction of a story printed about Gov. Dan Moody of Texas, the publicity department of the United States lines said today.

Hickman, who recently landed in England, was said to seek correction of a story in which the Standard quoted Gov. Moody as saying that he would not allow guardsmen to kill white men during race trouble with negroes. Hickman had not yet visited the Standard today.

Wounded Negro Prowler Held

DALLAS, June 19.—Brought down by a pistol bullet as he fled from a house he was prowling, a negro was being held by police today.

D. E. Bubeise wounded the negro as he fled his house. The bullet broke the burglar's leg, and he fell into the gutter moaning.

Police found a suitcase filled with loaded dice and marked cards in the negro's home.

3 PLACES ARE BURGLARIZED DURING NIGHT

Both Railway Stations Entered; Total of \$12 Taken

Knob-knocking is a poor way to gain a livelihood one or more members of that shady profession will testify after a descent upon three Cisco institutions last night which netted little more than \$12 in cash and a number of unnegotiable checks.

The three places visited were the Texas and Pacific and M. K. and T. freight offices and the Triangle Welding Machine shop. The M. K. and T. lost heaviest to the stealthy visitor and the Triangle shop the least. At the former \$9.36 was obtained along with a sheaf of checks which were found discarded under the overpass over the railroad at Eighth street. At the Triangle the safe had been left open with no valuables of any consequence to reward the thief for his pains.

At the Texas and Pacific office \$3.32 obtained from the cash drawer.

Knobs on both the T. and P. and M. K. and T. safes were broken open and the cash drawers prized open. Contents of the safe were scattered recklessly about the floor. The cash drawer at the Katy was taken off bodily together with a number of records. Entrance to both offices was gained by prizing open the front doors. At the Triangle the burglar entered through the rear door.

Seek Blame for Dynamite Blast

HUNTSVILLE, June 19.—Investigations were under way today to place responsibility for the dynamite blast which killed three children here late yesterday as they walked home from working in the fields.

Only scattered portions could be found of the bodies of Ruby Cadenski, 18, and her sister, Claudia, 17. Their brother Jack, 12, died in a hospital.

The blast was said to have been fired by scouts of the Texas Oil company who were trying to locate an oil-bearing formation.

Workers today were searching the spot in an effort to find more of the girls' bodies, although it was feared the bodies had been entirely shattered.

Mexico Opens Courts to Foreign Concerns

WASHINGTON, June 19.—American firms doing business in Mexico, as well as government trade agencies here, have received with satisfaction reports of an imminent decision by Mexico's supreme court conceding foreign companies liberal use of Mexican courts.

The decision, according to reports from Mexico, will be rendered in the case of Chickering and Sons. It is diametrically opposed to a decision handed down last fall in the Palmolive case.

Its principal benefits will apply to American companies selling through Mexican distributors, but not maintaining their own branches in that country. Previously, such firms have feared deprivation of legal rights if they were not registered.

LABOR CONDITIONS IN THE SOUTH

It is announced by labor leaders that the communists failed to make headway in the organization work in the southern textile centers. Their leader, Albert Weissbord, has been expelled from the communist party according to the report of progress by the American Federation of Labor in the South. President William A. Green of the American Federation of Labor is quoted as follows:

"Unquestionably real and substantial progress is being made in the South. Even the manufacturers, hard pressed as many of them are by the uneconomic conditions of the industry, are beginning to appreciate the need for the stabilizing influence of the union."

President Green admits unionizing work is handicapped by the lack of money. Also that a great deal has been poured in, but there are more calls for organizers than Paul J. Smith, in charge of the work, can supply. Just now the outstanding spot in the South is Danville, Va., where 4000 operatives in the great mills of that section have been enrolled in the union despite the discharge of many for "joining up."

Discharged workers are being cared for by the labor organizations in one way or another.

There is cheap cotton everywhere. There are cheap goods everywhere. President Green must be right. Uneconomic conditions are playing havoc with the textile industry as well as with the pocketbook of the southern farmer who sells cotton at a price far below the cost of production.

IOWA LIVESTOCK GROWERS ORGANIZE

Iowa's livestock growers have formed the first regional association in the United States under federal farm relief board plans. It is a stock marketing association, the association is to have a capital stock of \$10,000 which will be sold to members at \$10 a share based on the shares for each ten decks of livestock shipped from May 1 of last year to April 30 of this year.

Farmers from 18 Iowa counties joined in the movement and perfected the organization.

Farm cooperatives are growing numerically strong in the middle-west and the northwest. They say they have behind them the federal farm relief board and the congress of the United States. Alexander W. Legge has been renamed chairman. Will the senate confirm or reject the nomination of the blunt westerner who gave up \$100,000 a year job for an office worth \$12,000 a year in order to be in a position where he could do something to push along the cause of the growers of American staples?

TEXANS SHOULD KNOW THEIR TEXAS

Texans are reminded by Wm. C. Edwards, head of the Texas public service information bureau, that the commonwealth produced in 1929 more than 62 per cent of all the carbon black made in the United States; that it more than doubled its output between 1928 and 1929, the figures being 100,828,000 and 22,183,000 pounds, adding 11,700,000 dollars to the income of the state. He makes no comment as to what will happen when the wells go dry. Texas exported through Texas

ports, 9,594,922 short tons of its derivatives totaled more than half of it, 5,396,634 tons. Cotton furnished 1,188,938 tons. Sulphur gave 883,121 tons, and wheat was next with 851,555 tons. To be exact, imports totaled 1,421,669 tons. Houston, with 419,841 tons exported, and 393,906 tons imported, led Texas ports in 1929. Galveston, with 2,128,948 tons exported, and 363,901 tons imported was second. Port Arthur, with 1,699,012 tons of exports and 354,713 tons of imports stood third, while Beaumont, with 830,209 export tons and 254,331 imports, was given fourth place.

Away back in the dead ages, Capt. Lafitte, the boldest of the Spanish Main buccaneers, was the master of the Galveston pirate isle. Houston had a place on the map in the early days of the Texas republic. Port Arthur was planted on the fringe of the Gulf coast in the not remote past. Think of its growth in a few short years.

Did You Ever Stop to Think?

By EDSON E. WAITE
Shawnee, Oklahoma.

H. G. Rhawn, editor of the Clarksburg (W. Va.) Exponent, says:

That well-planned use of black and white, in the form of printer's ink on newspaper, can turn the bluest business color scheme into a veritable rainbow with its celebrated pot of gold.

But the one who would be an artist and aspire to deal with these magic black and white mixtures must do it advisedly. The man who advertises should have a well defined mental picture of the end he strives to attain, else money can be wasted and the potent black and white will not transform business blue very much.

True some results will be obtained by mixing the magic potion of newspaper advertising whatever the method used, but the truly telling type of using newspaper space requires depth of study to the problem at hand and deft use of the black and white.

Don't expect your advertising to perform miracles unless you have mixed a modicum of gray matter with the black and white.

MONKEY LEADS CHASE

LONDON—Lulu, an African monkey, escaped from an animal store, dashed across Waterloo road while taxi drivers cheered, side-stepped a flying tackle from his keeper on the steps of St. John's church, and was captured inside the church only after three clergymen joined in the chase over pews, through aisles and under chairs.

CRACKS IN THE DOME

By POLITICAL ANALYST

AUSTIN, June 19.—Whether women would show an interest in the candidacy of R. S. Sterling for governor was a question that left political guessers uncertain after Mr. Sterling entered the race. It is vitally important what the feminine half of the voters think and do, particularly with one candidate for the office boldly appealing to the women voters as women, rather than as citizens.

The question seemingly was answered at Mexico to the full satisfaction of Sterling's friends, when half the 200 first-day members of the Sterling for Governor club were women. There were Mrs. J. K. Hughes and a long list of Mexico's other women voters who are prominent in club activities among the list.

The women attended the Sterling organization rally in numbers equal to the men. They will have an equal share in the work in Limestone county in his behalf.

Indications were that over 50 different counties will be represented at Huntsville Friday afternoon when Mr. Sterling opens his campaign and makes the first political speech of his life. They will attend from as far away as Dallas and Fort Worth. There will be a large number of visitors from Harris county and from the group of east Texas counties around Huntsville.

Friday, the state pipe line regulation and "common purchase" of oil bill becomes a law, along with the other 90-day bills of the fifth called session.

Measures goes into effect with considerable doubt and uncertainty in the minds of the oil independents and others as to how it will work out. Already, the Humble company has been reported to have discontinued its purchase of oil. The step generally was credited, when announced, to avoidance of possible onerous regulations to which a purchaser company may become subject under the new law.

The new law says that pipe lines shall accept oil from all producers ratably; and that companies, whether pipe line operators or

not, which hold themselves out as purchasers of crude, must buy ratably from all who offer oil for sale.

The bill was sought and won by over 200 independent operators, who said the life of their industry depended upon some form of regulation.

The majors chipped in and helped them write the bill. Governor Moody permitted it to become a law, saying it may do no good, but he had not been convinced it could work any harm.

Travis county Friday becomes the only organized county in the state without a court house. Yet this county will make out conveniently.

A law effective Friday cancels the county's lease on a half-block of the capitol campus and turns the ownership, but not possession of the 56-year-old county court house to the state.

The county is building its own court house and has 18 months from Friday in which to clear out of the old court house.

Relief From Curse Of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug store. Dean Drug Co.—Adv.

Nimrod Sets Fair Date for Sept. 11

A meeting has been held at Nimrod for the purpose of selecting a date for the community fair and to select committees to have charge of the various departments.

It was decided to hold the fair on September 11. The names of those selected on the committees have not been announced.

A similar meeting is to be held at Okra today at which time the committees will be selected. The date of the Okra fair has already been selected, August 30 being decided upon by those who will superintend the fair.

GOLFERS TAKE NOTICE

LITTLE ROCK, Ark. — Golfers have got their eyes on this law suit. Whether a poor drive is attributable to "negligence" is to be decided in a suit filed by Olaf H. Kyster for \$556 against Dr. F. D. Woods. Kyster complained that Dr. Woods "negligently" drove his ball to the left striking him.

Grain Sorghums for West Texas

Results of exhaustive experiments conducted at Texas agricultural experiment stations at Spur and Lubbock have recently been published in a bulletin from A. and M. college. Reports of these tests are of much concern to the agricultural interests of west Texas.

The following two paragraphs from the bulletin are of particular interest to this immediate section:

Best Adapted grain sorghums: In a comparison of a large number of different strains and varieties of grain sorghums since the establishment of this station, it has been found that Dwarf Yellow milo, Spur feterita and Texas Blackbird kafir are the three dependable varieties adapted to this region. Average yields for all three are around 31 bushels per acre. Hegari has become quite popular in recent years but is not as dependable under stress conditions.

The Effect of Date of Planting Sorghums on Yields: May 15th date of planting has returned greater yields than either April 15th or June 15th. In the early date of planting, stands are usually uneven on account of lack of moisture and cold soil. Also, the plants usually enter the fruiting stage during periods of dry weather and high summer temperature. June 15th plantings are occasionally caught by frost, so that May 15th plantings are the best over a period of years.

Sentences Upheld by Mexican Court

MEXICO CITY, June 19.—The first circuit court has upheld the sentences of Carlos Castro Balda and his associates, given in a lower court upon their conviction of a conspiracy to assassinate the late General Obregon and General Calles three years ago. Castro Balda's sentence is for eight years while his alleged accomplices received lower sentences. His fiancée, Maria Elena Manana, was sentenced to four years. The defendants were also accused of an attempt to dynamite the chamber of deputies.

Mexican Commercial Agency Organized

MEXICO CITY, June 19.—A Mexican commercial agency to promote business between the northern section of the republic and Texas is soon to be opened in El Paso, according to an official announcement.

Senor L. Medina Barron, consul at El Paso, is quoted in the announcement as expressing confidence that the new agency will result in an important increase in trade between the two countries. The chamber of commerce of El Paso is cooperating in the establishment of the agency.

MOODY INVITED
MEXICO CITY, June 19.—Many of the leading cities of northeastern Mexico have sent Governor Dan Moody of Texas urgent invitations to visit them in the course of a trip he is expected to make to Tamaulipas.

Tire prices are down!

— anyone can afford Goodyears this summer

When rubber goes down, tire prices follow.

Rubber is 'way down now, and tire prices are the lowest they've ever been.

Wise buyers are taking advantage of this

situation — reaping the utmost in value.

They're buying Goodyear Tires in greater volume than ever before.

The reasons

why Goodyear Tires give utmost value are not hard to state.

In both the two main parts of

a tire, Goodyears are definitely superior.

The Goodyear All-Weather Tread is superior in traction.

The Goodyear Supertwist Carcass is superior in vitality and long life.

If you think these are merely advertising claims demand to see the proof.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires do give extra value.

That's why more new motor cars

leave the factories on Goodyear Tires than on any other kind!

That's why more transcontinental, urban and interurban buses and coaches operate on Goodyear Tires than on any other kind!

That's why more truck tonnage is hauled on Goodyear Tires than on any other kind!

That's why, throughout the world, year after year, more people ride on Goodyear Tires than on any other kind!

No mistake about it, this season is the chance of a lifetime to take full advantage of low tire prices and high Goodyear value.

Therefore: now is the time to get yours!

Cook, son of Mr. and Mrs. John Cook of this place, student in the law department of the state university, has recently completed his third year in this institution with honors, having made the second highest average in his class. He has been selected as quiz master for 1930-31 term at the close of which he will have completed the four years prescribed work and will receive his degree.

Mrs. George McCool, Miss Maymie Coppenger and Mrs. Claude King chaperoned a party of the younger set at a picnic on Harper's Hill on Monday afternoon. Many and various were the games played on this occasion and a merry time was had after which the following were served: the splendid lunch prepared especially for them: Mary Lou Eubank, Laverne Hampton, Myrlene McCool, Mildred King, Maxine Hampton, Willie Morris King, Morris Harper, Keith King, Calvin King, Bobbie Clinton, and Clinton King. They report a most enjoyable evening.

Misses Willie and Lois Kennedy entertained with a picnic Thursday evening honoring their cousin, Miss Charline Kennedy of Fort Worth. The young people met in the home of Mr. and Mrs. M. Kennedy and went from there to the Williams ranch, west of town, where lunch was spread. The guests for the evening were:

Misses Charline Kennedy, Ted Moore, Maymie Coppenger, Velma Eubank, Mary Yeager, Mildred Yeager; Messrs. Fred Heyser, Ungren, Louis Williams, Collier, J. D. Yardley, Louis Jenkins, J. Y. Culwell, Truman Peek and the hostesses Misses Willie and Lois Kennedy.

TIRES
as good as
USUALLY COST A LOT MORE

... but these are Goodrich
Cavaliers... really fine tires
at really low prices

MEAN that? Of course, we mean it! And we can prove it, too... any way you want to name! Find a tire that matches the Cavalier point by point and you'll find a tire that costs more!

That's because Cavalier is made by Goodrich. Made under the strictest standards in the business. Made to stand up as only Goodrich Tires stand up... in spite of bad roads, high speeds, quick stops, constant punishment.

It's bigger in cross section to give it riding comfort. It's thicker

through the tread, to give long life and high mileage.

Its carcass is of wettest cord... its tread rubber is dense and slow wearing. And the whole tire is water-cured to give it equal toughness all the way through.

Yet with all that, Cavaliers cost less than just ordinary castings.

So if you want to see a good tire... see Cavalier. Your size in stock now... and two sizes for trucks. They won't last long, sure, come in quickly. Tomorrow, sure.

OIL NEWS OF SOUTHWEST

FORT WORTH, June 19. — Ector county oil producers will ask the state railroad commission to institute proration in the Penn pool, according to a decision made at a meeting here Wednesday. The basis of regulation and outlet would be left to the commission, representatives of the Penn operators voted. Supporters of the plan pointed out that present yield from more than 30 producers exceeds available pipeline outlet and that at least one company now is being forced to store oil.

CANTON, June 19. — The L. G. Priest well on the Blanche Blewett tract four miles south of here was expected to be spudded in today. Drilling will start soon on the B. P. Hervey lease block surrounding the old Bethel cemetery, nine miles south.

ODESSA, June 19. — Skelley Republic's No. 1 McKenize in the Penn pool was drilling at 3,665 feet today with 1,000 feet of oil in the hole. It is a south offset to the Texas Pacific Coal and Oil No. 1. One of the best producers in the field. Cosden's Kioh, No. 2, flowed 400 barrels of oil in 15 hours after it came in this week.

HOUSTON, June 19. — Humphrey's corporation's No. 1 F. Barber, deepened to 6,521 feet St. Barber's hill, came in yesterday with an initial flow of 4,000 barrels pipe line oil on a three quarter inch choke. It had a working pressure of 800 pounds. In the same field McAlburt Oil's No. 6 Woodward made 500 barrels at 3,650 feet.

The Union Sulphur company brought in a 2,600 barrel well in No. 742 feet at Sulphur, La., at 3025 feet.

Battle to Drill in City Is Still On

OKLAHOMA CITY, June 19. — The battle to drill an oil well on the doorsteps of the state capitol has not ended. Wirt Franklin, city field operator, said today.

"In fact, it has only begun," Franklin said after the city planning commission denied the chairman of the city field operator's committee the right to make a test on the Harn tract on which the Cromwell-Franklin Petroleum Corporation holds valuable oil and gas leases.

Branding the action of the commission as unofficial and not final, Franklin prepared to file an application to drill with the city council.

The application was denied by the commission after a petition signed by 2,500 taxpayers had been presented in protest to drilling on the capital tract.

U.S. REFUSES TO BELIEVE RUM SUSPECT DEAD

By GEORGE E. SCHUPPE

United Press Staff Correspondent
SPRINGFIELD, Ill., June 19. — Still doubting that the body of a man, found bound with bailing wire and floating on the Sangamon River near here is that of Dominic Tarro, alleged bootlegger of Bend, federal authorities have adopted a policy of watchful waiting confident from past experiences that Tarro will show up eventually.

Tarro, indicted as the alleged agent for "big business" in the distribution of yeast and corn syrup among Bend bootleggers, was arrested on a charge of conspiracy to violate the national prohibition law in January. He is claimed to have handled the distribution of products of two companies and his books were expected to aid the government in the trial of the two concerns and nearly two score individuals, all indicted on charges of conspiring to violate the dry law.

Soon after his arrest, Tarro was freed on bonds aggregating \$30,500 and disappeared. Last month a decomposed body was found floating in the river. An inquest was held and a coroner's jury decided the body was that of Dominic Tarro af-

ter friends and relatives identified it as such. The relatives say he was kidnapped by enemies and thrown into the river alive.

The government's refusal to accept the identification was disclosed when it refused to agree to a motion to set aside a court order forfeiting Tarro's bond of \$30,500.

It is contended by United States District Attorney Walter M. Provine that Tarro is alive and will turn up eventually. Government agents are investigating a theory that he went into hiding to escape threats of being "given a ride."

Provine has had experience with

"dead" men here before. He points specifically to the case of Albert Blewett, alleged bootlegger and rum runner recently captured several months after his "body" had been found floating in the Sangamon river near Petersburg. Blewett was arrested in Wisconsin and is awaiting trial in federal court.

EIGHT CLUBS WEAKENED BY HURT PLAYERS

Eight of the sixteen major league baseball clubs today were counting upon the return of injured players and the addition of athletes secured in recent trades to provide strength for the second half of the 1930 pennant race.

Most of the stars were expected to be back in uniform before the halfway mark is reached, July 4.

At Simmons, Philadelphia outfielder, got back in the game yesterday and helped the Athletics defeat Cleveland, 7 to 3. The victory increased Philadelphia's American league lead to 1-2 games and dropped the Indians from second to fourth place.

Pittsburgh lost a 4 to 3 decision to New York in the only other scheduled game, but the Pirates took renewed hope in the news that Lloyd Waner had been discharged from the hospital and soon will be ready to play.

The Giants won the game with a 3-run attack in the seventh but it took an unassisted double by Hughie Crite to check a Pirate rally in the ninth.

Brooklyn's Robins, National league leaders, opened their western invasion today encouraged by the prospect of shortstop Glenn Wright returning to the lineup. Wright, "Sparkplug" of the club, has been on the bench for the past 10 days.

Other National league stars slated for early return include Rogers Hornsby of the Cubs and Frankie Frisch of the Cardinals. Hornsby was expected to be out for the season with a fractured ankle but now hopes to be ready to play early next month.

The Cardinals also count on Burleigh Grimes to aid their pennant fight.

Washington appears to have fared best in last minute American league swaps, securing outfielder Manush and pitcher Crowder from St. Louis and first baseman Art Shires from Chicago.

TEXAS LOOP TO DECIDE SPLIT SEASON TODAY

Texas league baseball magnates today were to ballot by telegram to determine whether or not the 1930 season is to be cut in half with the two winners meeting in a special series to decide the championship.

Waco, staging a 10-run rally in the seventh inning, defeated Wichita Falls, league, 11 to 8, Wednesday. The Cubs drove three Supder pitchers from the mound, Munson, Waco right fielder accounted for four of the 10 runs when he hit a home run with the bases loaded.

After trailing most of the game, the Shreveport Sports scored seven runs in the seventh inning to defeat San Antonio, 9 to 7. Holman, Sport third baseman, hit two home runs to account for five scores.

A smooth-working double steal, engineered in the ninth inning, gave the Dallas Steers a 7 to 6 win over Beaumont. Gene Moore, Steers center fielder, was the batting star of the day driving in three runs.

Joe Brown, Houston hurler, held Fort Worth to seven scattered hits, three of them scratches, and allowed his mates to win, 8 to 0. Ed Brown, Houston left fielder, hit four singles and drove in six runs.

Games today:
Dallas at Beaumont.
Fort Worth at Houston.
Wichita Falls at Waco.
Shreveport at San Antonio.

YESTERDAY'S HERO

Hughie Crite, of the Giants, who atoned for his error on Brickell's easy grounder in the ninth by a sensational stop of Braine's grounder and forcing Brickell at second. A moment later Crite engineered an unassisted double play to check a Pittsburgh rally, giving the Giants a 4 to 3 victory.

Daring Flier Takes Food to Marooned

EDMONTON, Alta., June 19.—A daring aviator today had removed the treat of starvation from 120 men, women and children marooned in the far north country where they went to establish a settlement.

Word reached here over a single telegraph wire that Capt. "Wop" Pay, veteran Canadian flier, had landed safely at Smith, in the Wild Peace river district in northern Alberta. He carried a supply of concentrated foodstuffs for the marooned settlers.

The expedition of home-seekers was made up of residents of Edmonton and other Alberta cities. They started out several weeks ago in automobiles.

Rains made impassable the northern roads and the automobile caravan was halted. The settlers toiled on afoot to Smith where they were given refuge by the few residents.

Not until the food supply at Smith was almost exhausted was a telegram line repaired and a plea sent out for aid.

SPORT SHOTS

PLANO, June 19.—Crawley, Plano pitcher, let McKinney down with four well scattered hits and enabled the local nine to take a north Texas amateur league game here yesterday by 3 to 1.

PALESTINE, June 19.—Four Palestine women comprised the team which won the east Texas women golfers association cup in the tournament which ended here Wednesday. With an aggregate score of 413, the team took first place. It was composed of Mrs. Claude Anthony, Mrs. Bee Cockrell, Mrs. Will Keller and Mrs. A. M. Burns.

DALLAS, June 19.—More than 50 women athletes will participate in the state A. A. U. track and field meet to be held here Saturday. Gold and silver medals will be awarded in each event.

Comm'n May Try to Force Rematch

NEW YORK, June 19.—The New York State Athletic commission met today to consider the fiasco which resulted from the waiving of its regulation concerning fouls in the Schmeling-Sharkey championship bout.

Ostensibly the board is meeting to consider Max Schmeling's foul victory and to rule on awarding him the title, but the principal business is expected to be an attempt to force a rematch under Madison Square garden promotion in September.

William Muldoon, sponsor of the recent elimination series, has gone on record as favoring another meeting between Sharkey and Schmeling.

James A. Farley, chairman of the board, intimated that he considered Schmeling entitled to the championship. General John J. Phelan, third member of the commission, supported Farley's view.

Jack Sharkey attended the meeting to request the commission refuse Schmeling the championship unless Max agrees to an early return bout. Sharkey based his plea on the contention that New York rules calls for a majority decision by the three officials on fouls. In the Sharkey-Schmeling bout, both Referee Crowley and Judge Mathison said they did not see the foul blow, and the decision was given on the judgment of Judge Barnes.

GATE RECEIPTS OF \$100,000 FOR CHICAGO BOUT

CHICAGO, June 19.—Young Stribling and Otto Von Porat are to go through ten rounds or less of fighting here tomorrow night which may or may not have anything to do with helping to make one of them a heavyweight title challenger. But nevertheless the battle has been so great that gate receipts of approximately \$100,000 are expected.

And it is a fight which both fighters have tried to avoid. In the beginning, Sidney Strota, Chicago stadium president, was forced to call in the Illinois Athletic commission to get Von Porat's name on a contract after he allegedly had given his verbal promise.

Stribling came to town confident. Then he began to hear about the famed "one punch knockout" ability of Von Porat and ere long he complained of an injured hand which doctors said was all right. Finally the commission allowed him an additional two days and the bout was put over from last night to tomorrow night.

DRYS INSIST MORROW WIN UNEVENTFUL

By RAYMOND CLAPPER
United Press Staff Correspondent

WASHINGTON, June 19.—Though anti-prohibitionists are still cheering the victory of Dwight W. Morrow in New Jersey, drys insist it means nothing so far as a change in the federal liquor laws is concerned.

In the wake of Morrow's victory, house members had before them today a definite resolution to change the existing prohibition setup by amending the eighteenth amendment. It was introduced late yesterday by Representative Michaelson, republican, Illinois, hitherto classed as a "dry." He also made a statement advocating a national prohibition referendum or a referendum by the states.

His resolution would authorize congress to suppress or regulate intoxicating liquor. Its purpose, he explained, would be to allow the various states to be "wet" or "dry" as they choose.

The Illinois representative explained his changed views on the prohibition question were impelled by the Literary Digest poll, the St. Valentine's Day massacre in Chicago, and a belief that the present prohibition system was detrimental to the nation's political welfare.

75 Per Cent Dry

In viewing the present political situation as it may effect prohibition changes, observers find the present congress is about 75 per cent dry in both houses. Primaries have been held in 12 states to select candidates for the house and senate of the next congress. Candidates for 10 senate and 143 house seats have been selected.

Drys, scanning these primary results, are convinced that supporters of prohibition are being sent back to congress regardless of signs which wets claim to have discerned that the country is turning against prohibition.

If Morrow is elected to the senate in November he will bring great personal prestige to the anti-prohibition cause. It has been lacking in leadership and has had no one of the calibre and strength of Morrow to fight its battle in congress.

However, repeal of the 18th amendment can come about only in two ways. One is by legislation of two-thirds of the states calling upon congress to summon a constitutional convention to consider amendments. The other is by two-thirds of each house voting to submit a proposed repeal amendment which would have

to be ratified by three-fourths of the senate.

Sentiment Opposed
As to modification of the Volstead act, sentiment in congress at the moment appears still opposed to it.

The administration is preparing to make a supreme effort to enforcement with the transfer of the machinery from the treasury to the justice department July 1. If that does not improve conditions, some modification proposals might be made late next year, possibly.

Commenting on his change of views, Michaelson, who voted for the severe penalties of the Jones "five and ten" law, said in a statement printed in the congressional record.

"I believed, as did the public generally throughout the country that a more severe penalty for the commercialized law violators might produce a deterrent effect on organized crime."

"Whatever hopes anyone had in this regard have since been dashed to the ground. Crime is on the increase and the emphasis that was put on the stone piles as deterrents is meeting with contempt."

HIGHEST FIRE IN HISTORY

TOLEDO, Ohio. — When combustible building materials caught fire on a top floor of a new building here, firemen carried chemicals on foot up 24 flights of stairs. It was the highest fire in the city's history.

STATE ASYLUMS FIRE HAZARDS REPORTED ON

AUSTIN, June 19.—More chemical fire extinguishers, more fire hose and nozzles, greater care in handling trash and improvements in electrical installation are the major recommendations of State Fire Marshal J. W. Deweese to lessen fire hazards at eight state eleemosynary institutions.

Conditions generally are not as serious as those recently reported in other state institutions.

Unprotected table tops under electrical equipment and an unapproved picture projection room in the chapel are among the faults found at Wichita Falls state hospital for insane. The Abilene state hospital for epileptics was found deficient in fire hose, nozzles and chemical extinguishers. It also has an unapproved projection booth in the chapel, unsafe storage room for X-Ray films and overloaded electrical equipment.

Terrell hospital for insane beside lack of sufficient extinguishers and hose has badly corroded condition in 1948 occupants in places providing for not over 1900. Some badly oil soaked floors were noted.

A non-standard projection booth

in the auditorium was reported. The state home for neglected children at Waco. More outside chemical extinguishers together with corrections in electrical equipment.

Lack of sufficient exits in porter in two dormitories at girls training school at Gainesville. Like other institution it has more extinguishers and hose in care of trash and improvements electrical equipment.

Unsafe waste receptacles criticized at the state orphan at Corsicana and also the neglect of leaving gasoline and rags in its projection booth in the auditorium was also found non-standard.

No hand chemical extinguishers were found at the Rock Hill hospital for insane. Open storage of X-Ray films, an unprotected roaster and other equipment criticized. Deweese reported one standard outside hydrant, dear storage of cotton should be stopped, he said. Fire escapes needed on a third floor at Gatesville boys school.

COLEDS BEST SCHOLARS

TEFFIN, Ohio. — Co-leaders of better students than men at aberg college here, a classification recently completed showed Co-leaders 1.81 as compared with 1.71 for men, a report said. The age rating for the school was 1.81. The best students are senior according to the figures. Their rating was 2.12.

1930 IN CHELSEA HOUSE

Promise! I'll get some money. Of course, Chummy must have everything.

"Oh, how splendid that she's getting better!" cried Clara. She proceeded to execute a weird, shuffling dance that would have brought down the house if she had performed it on a stage. Judy laughed till the tears rolled down her cheeks.

All that morning her thoughts were busy with Alan Steyne as he posed for Max Dickbreed's Spanish dancer in her vivid yellow-and-black dress, with immense scarlet poppies under the lace mantilla that covered her flaming hair. She had not seen Alan since that night. Of course, when Chummy was well again, she would have to. He must come to see Chummy. He had said he was fond of her. He must be. Everybody was. Those brief moments at the foot of the staircase had been madness. No doubt he regretted them bitterly.

Judy was an incredible optimist, but she had at the same time no very high opinion of men. She had seen too much of them.

The dinner, the lights, the wine, the music — and those laughing eyes! Was Alan Steyne really in love with her? She did not believe it for a minute. Was she in love with him? She pulled a little shutter down over her thoughts, and would not answer that question at all.

In the early afternoon she went to Vincent Stornaway's house. The artist had written to her, asking if she would sit for the head and shoulders of Queen Elizabeth as a young girl. He had for the moment abandoned portrait painting, and was engaged on a large historical building.

Judy could not afford to turn down any offer of work, particularly at this moment; and she could not help feeling a little flattered. Stornaway had never asked her to sit for him before. In his letter he referred to her hair and her eyebrows as suggesting to him the coloring and lineaments of the young princess. The interview that resulted was satisfactory, and it was arranged that she should go to him when Max Dickbreed could spare her.

Stornaway proved restful after her tyrannical genius. He talked to her kindly, and gave her tea. As she left his house—a large, low, many-windowed building of red brick, which suggested the country she fed her eyes on the snow-drops that spread a field of gleaming whiteness over the lawns on either side of the path. The grounds were inclosed by a high wall that had a gate set in it, and as he opened the gate a man met her.

She recognized him with an inward grin. She did not know why, but even the thought of him made her laugh. It was Bruce Gideon, white and heavy-jawed, with pale eyes, black hair, and peevish mouth. Chummy's description of him as Punch came back to her. He wore correct afternoon dress, which made him look old-fashioned. A shining top hat was on his big head.

At sight of Judy his lips opened in a smile which chased the peevish look from his face, but brought out its coarseness.

"Do you remember me, Miss Judy?" he asked, holding out his hand.

Judy, glad of her new work, and still rejoicing in Chummy's escape from death, answered gladly:

"Of course I remember you, Mr. Punch!"

"And here comes dog Toby!" Gideon went on, as Stornaway's terror came trotting down the paved path. "Now we can give our show!" His little eyes rested on her glowing face with a covetous gaze that made her draw back into her shell.

"And how is your friend who called me Mr. Punch—the beautiful girl with the sad story?" "Who told you her story?" Judy asked.

"Stornaway," replied Gideon. "He knew her, it seems."

"She has nearly died," Judy

"Oh, Judy," said Chummy's low, lazy voice, "What do you think? I dreamed that Alan had come back."

"And her young man has come back," said Chummy.

"Ah! Then I suppose there will be a happy ending?"

In her heart she meant that there must be a happy ending. Alan Steyne would recover from his madness. All would be well with Chummy.

"I wonder would you dine with me tonight?" Gideon went on.

"No, thanks."

"Will you lunch with me tomorrow?"

"No, thanks."

"When your friend is well again—then, perhaps?"

"If it would amuse her," said Judy, with cool scorn.

"I shall make it my business, then, to amuse her."

"You are ridiculous, Mr. Punch!" She glanced at him with the same feeling that had often made her lay her little hand like a snowflake on Bastien Dumont's arm only there was less kindness in her eyes. A single drop of water would quench Bastien's generous ardor; this man needed a garden hose. "Please let me pass!" she added.

"Au revoir, Miss Judy," he said.

Morrow's Lead

Is Unprecedented

NEWARK, N. J., June 19.—Ambassador Dwight W. Morrow won the republican nomination for the United States senate by a margin unprecedented in New Jersey's history.

When the 37 districts still missing are tabulated, Morrow's lead over his nearest rival, Representative Franklin W. Fort, is expected to total slightly more than 300,000, double what was predicted before the primaries, even by his most enthusiastic supporters.

The latest tabulation, with 37 districts missing, gave the vote as follows: Morrow 314,279; Fort 115,497; and Frelinghuysen 47,609.

As a result of Morrow's declara-

tion for repeal of the eighteenth amendment the republican state convention, meeting in Trenton next Tuesday, is expected to adopt a repeal plank in its platform. Morrow will return to Mexico City in about a week to conclude his affairs as ambassador.

27 SUBJECTS OF GREAT BRITAIN DIE IN STORMS

LONDON, June 19.—Twenty seven persons are dead in the British empire as a result of storms and a tidal wave.

Seven were killed by a spectacular rain and electrical storm which struck southern England with unexpected suddenness. The other 20 were sailors, who were drowned by a tidal wave which followed an earthquake in New Guinea.

By a queer freak of nature, a large section of England between Dorset and Essex was suffering from a severe drought at the moment the rain storm struck.

One of the dead was Walter Kolbein, a bookmaker who was struck by lightning while he stood only a short distance from the royal box at Ascot, where King George and Queen Mary were seated. Three other persons were drowned in the new mill of Manchester.

The king and queen escaped without a drenching, unlike the hordes of fashionably dressed men and women who thronged the Ascot racing grounds. Thousands of dollars worth of garments were ruined.

In the rural areas, many farms were isolated, houses were half submerged, and many cattle were drowned.

Coincidentally with the storm here, reports from New Guinea said 20 fishermen were drowned by a tidal wave following a earthquake, and Australian dispatches told of devastating floods.

In New Guinea the natives were terror stricken when two coral islands 70 yards long emerged slowly from the ocean as the earthquake shook the land.

Miss Stroebel Weds Paul Weiser

A wedding of interest to many was that of Miss Freda Stroebel, daughter of Mr. and Mrs. Henry Stroebel, to Mr. Paul L. Weiser, son of Mr. and Mrs. O. P. Weiser. The ceremony was performed Sunday afternoon at 4 o'clock by the Rev. E. Steyer, of Christ's church, south of Cisco. The church was beautifully decorated with summer flowers, palms and ferns.

The wedding march was played by the brother of the bride, Henry Stroebel, Jr. The bride was met at a laced gate, held open by Miss Dorothy Luker, flower girl, and Ralph Weiser, ring bearer, by the bridegroom, Mr. Paul L. Weiser, and was led to an arch of greenery and flowers.

The bride wore a becoming white satin back crepe gown trimmed in lace. Her tulle veil was arranged with a cap effect and was held in place by a wreath of orange blossoms. She carried a bouquet of white rose and snapdragons.

Miss Alma Stroebel, sister of the bride, and maid of honor wore pink crepe and carried pink carnations. Miss Dorothy Luker, flower girl, wore pink crepe and carried a miniature bouquet. Ralph Weiser carried the ring on a white crepe pillow. Mr. Martin Weiser, brother of the groom, was his best man and Messrs. Herman and Alvin Stroebel, brothers of the bride, were members of the wedding party.

Immediately following the ceremony the relatives of both parties sang "Guide Me Thou O Great Jehovah" and was followed by "Abide With Me" sung by Miss Dorothy Luker.

A reception was held after the wedding at the home of Mr. and Mrs. Henry Stroebel, parents of the bride, and was attended by about 150 friends and relatives.

Mrs. Weiser has lived near Cisco for a number of years and has been connected with the First National bank for the past 4 years, and has a host of friends who wish her much happiness.

Mr. Weiser has also lived near Cisco and is now with the Coca Cola company at Del Rio.

Mr. and Mrs. Weiser expect to leave the latter part of this week for Del Rio where they will make their home.

West Texas Crops in Good Condition

ABILENE, June 19.—West Texas crops are in satisfactory condition, at present, according to a survey just made over the 45 counties which the West Texas Utilities company serves. This is due to the good rains which have been had during the spring and early summer at all points over the section.

Crops as a whole over the West Texas properties will average normal to 15 per cent increase in production if rains continue through the full growing season as they have this year to date. Though cotton and wheat crops have shown a near normal production, feed crops have been above average this year. Trade and business conditions are reported to be much better than thirty days ago but are still sub-normal.

While crops are in a satisfactory condition at present and promise an average to above normal production, at least moderate rains must continue through the summer to insure their full success.

Rogers Unable to Attend Funeral

TAHLEQUAH, Okla., June 19.—Will Rogers, the cowboy humorist, was unable to attend the funeral services of his aunt, Mrs. Martha L. Gulgler, because he was not notified of the death in time to come here from Boston.

Mrs. Gulgler, pioneer Cherokee woman, was buried here late yesterday. She was 85. She died on the same tract of land on which she was born in 1845. At that time it was part of the Cherokee nation.

Commerce—Frame work for new cotton gin now completed.

ANTI-BOND MEET NEARLY YOUNG RALLY

DALLAS, June 19.—Members of the association opposed to the state-wide road bond issue awaited a call of their president for their next meeting today after Wednesday's session here had almost been turned into a testimonial gathering for James Young, of Kaufman, candidate for governor, in the opinion of several of the delegates.

Soon after the delegates voted unanimously that the organization be a non-political one, several speakers arose and stated that their loyalty was unswerving toward Young. Nine of the delegates here were registered from Kaufman and the delegation was headed by James Young, Jr., of San Antonio. It was learned.

Opening guns against the proposed road bond issue were sounded and \$205 subscribed to a fund to assimilate data on the project.

The political angle was injected into the meeting by Stanford Payne, of Del Rio, who asked whether the association was going to endorse Lynch Davidson for governor, as intimated in a newspaper interview granted by Davis. Payne then made a motion that the delegates adopt a non-political stand and he was given unanimous support.

In discussing the proposed road bonds, Judge Rice Maxey, of Sherman, said:

"When the facts are out about this issue of something like \$350,000,000 they will not allow it to pass."

J. E. Newberry, of Dallas, scored the project, saying "where there is this much money involved, there must be some temptation involved."

Mistaken Identity Blamed in Shooting

EL PASO, June 19.—Mistaken identity was believed today responsible for the fatal shooting of Antonio Visconti, Juarez bartender, at Juarez last night.

Visconti was shot seven times, according to police, by William Meers, Meers' only statement after the slaying was: "I wanted to kill him. He is held in jail at Juarez."

Officers said they believed Meers thought the bartender was Manuel Villalaz, train robber and bandit, wanted here for the murder of Meers' father, William J. Meers, former El Paso train clerk.

Move to Hasten Vets Bill Proposed

WASHINGTON, June 19.—A plan to lay aside the rivers and harbors bill and attempt to bring the disabled veterans measure to a vote under a limitation of debate agreement was proposed today by weary senate leaders. They hope to send the later to the white house as soon as possible.

Democratic leaders have given notice they will not allow adjournment until the president has either signed or vetoed the veterans bill. They fear a pocket veto and propose to repass the bill if one is forthcoming.

The plan formulated today provides for a vote either today or early tomorrow on the veterans bill with the possibility of a vote on the rivers and harbors bill by tomorrow night. Afterward both measures will have to go to conference.

The veterans bill would add about \$75,000,000 a year to compensation for disabled veterans.

Byrd Party

the City of New York and the hand-shaking began. Byrd said little except to repeat over and over his pleasure at being home.

Then all were transferred to the Macom and the trip up the bay began, amid a bedlam of screaming whistles.

As the Macom neared the battery Byrd came to the bridge with his mother on his arm and there they stood as the cutter was swung into the slip.

With the welcoming escort the party was brought ashore, while a crowd which filled the battery park cheered, bands played and the blizzard of ticker tape, New York's welcome to distinguished guests, began falling into Broadway's canyons from Whitehall to Park place.

A parade formed. The police and an escort rode ahead. The Richmond Blues, in their brilliant uniform, marched. Bands played.

Governor Pollard, Lieut. Governor Price and a delegation from the house of delegates of Virginia, had position of honor.

There Mayor James J. Walker was waiting at a columned-platform erected on the steps of the century old structure. In the park, the grandstands gay with bunting and the two-starred Admiral's flag, were filled with people.

Byrd and his men were escorted to the platform. "In the next three months," said Walker to Byrd, "I imagine every scientist in the country will tell you just what you did down there at the south pole."

"I don't want to tell you that. I want to tell you how glad we are that you are home. Twice before we have welcomed you here and we thought we had done it well. But today we are so glad that we are outdoing all previous welcomes."
