Five Children Killed In Viet Ambush

SAIGON, South Viet Nam (AP) — Communist guerrillas killed six women and five children in a bloody ambush in central Viet Nam last weekend, American sources reported today. Twenty-one women were wounded.

Two American special forces men who helped fight off the knife-wielding Viet Cong have been recommended for the Silver Star, the sources said.

A three-truck convoy was moving from An Khe to the special forces camp of Plei Ta Nangle in Binh Dinh Province when it was stopped by heavy machine-gun fire.

Traveling in the trucks were a few Vietnamese special forces men, the two Americans and about 40 women and children.

The Viet Cong rushed the vehicles, brandishing pistols and knives. A Vietnamese sergeant major, his wife and two children were slain in the front seat of the lead truck.

Passengers in the backs of the trucks cowered as the guerrillas leaped among them, demanding to know who they were.

One man said he was a civilian tailor at Plei Ta Nangle camp. He was spared. But the guerrillas slaughtered a man who said he was the camp cook.

Several of the Vietnamese troops also were killed or wounded.

The two Americans were traveling in the second truck and kept the Viet Cong off for some time by firing at them.

Cyprus Cease-Fire Shattered By Mortar Agreement Short-Lived

NICOSIA, Cyprus (AP)—Mortar shelling by Greek Cypriots ringing St. Hilarion Castle today broke the cease-fire proclaimed by their government only 13 hours before.

The United Nations announced seven mortar shells were fired in 15 minutes at the Turkish Cypriot stronghold in the Kyrenia Mountains, resuming an offensive the Greek Cypriots have waged with the professed aim of clearing Turkish Cypriot gunposts from the Nicosia-Kyrenia highway and vantage points overlooking Greek villages.

There was no immediate report of damage to the castle.

A spokesman for the Greek Cypriot government expressed surprise at the U.N. announcement. He said that, so far as he knew, the cease-fire still was supposed to be in effect.

The United Nations thrust a new element into the confused situation. After telling of the shelling, the United Nations said it is going to set up permanent observation posts in the Kyrenia range, where it has been using patrols to try to stop the fighting.

"Now that President Makarios has ordered his government forces to cease fire in the area, it has been decided to convert these patrols into permanent U.N. posts in the area," it was announced. "It is hoped this cease - fire will be fully observed."

Two U.N. patrols came under fire in a continuation of the hostilities that U.N. Secretary-General U Thant is seeking to end through a new nine-point peace plan, presented Wednesday to the Security Council in New York. There were no casualties in either case.

Canadians of the peace force drew fire on a visit to the Turkish village of Aghirda, in the Kyrenia foothills 10 miles north of Nicosia. Presumably the shots came from Greek Cypriot positions in the range overlooking the village. The Canadians did not return the fire.

A Swedish contingent disarmed a group of Cypriot battlers Wednesday night for the first time since the peace force went into operation March 27. The Swedes seized weapons from Greek Cypriots who apparently had fired on them in the mixed Greek-Turkish village of Timi, near the western port of Paphos.

A U.N. spokesman said the Swedes were attacked when they intervened to halt a gun fight between Greek and Turkish Cypriots. He said the Swedes fired 45 rounds before halting the fight.

Both the U.N. command and the Turkish Cypriots had looked with skepticism on the cease-fire, which was announced after both Thant and the U.N. command of Indian Lt. Gen. Prem Singh Gyani put strong pressure on the Greek Cypriots to drop the Kyrenia campaign.

In Nicosia, the first reaction of the Makarios regime to Thant's call for peace was favorable. A government spokesman said the plan was constructive.

There was no immediate Turkish Cypriot comment.

British Urged To Review Cuba Policy

By JOHN M. HIGHTOWER

WASHINGTON (AP) — Top U.S. officials are understood to have urged anew in private talks here this week that Britain revise its policy of trade with Cuba and support the U.S. effort to deny vitally needed industrial and transportation equipment to the Castro government.

Secretary of State Dean Rusk has held a series of discussions on world problems with British Foreign Secretary R. A. Butler. President Johnson had a conference with Butler Wednesday.

Officials have confirmed that Cuban issues were raised in the Rusk-Butler talks. The White House only said that the foreign secretary and the President discussed matters of mutual interest.

Butler has been in Washington for a conference of the Central Treaty Organization which ended Wednesday. He is going on to Japan and the Philippines for talks seeking some way to avoid a serious crisis between Indonesia and British-backed Malaysia over territorial claims pressed by Indonesia.

Butler is understood to be pleased by the support Britain has received from the United States in its efforts to preserve the territorial integrity of Malaysia.

Top U.S. officials by contrast are known to be displeased by Britain's Cuban trade policy which they regard as a breaking of the barrier of economic isolation from non-Communist trade which the United States has been working to build around Cuba.

Butler is believed to have been told, as U.S. officials have recently said publicly, that the denial of important industrial and transportation supplies to Castro is the only effective weapon presently available to the United States for countering Castro's attempts to spread communism in the Western Hemisphere through propaganda and subversion.

The British counterargument to the U.S. boycott policy is that the boycott is not really effective, that the United States trades with various Communist countries including the Soviet Union, and that Britain traditionally trades with all countries regardless of political considerations.

Britain made a deal with the Castro government last January to sell Cuba 450 buses and spare parts at a total cost in excess of $12 million. France followed with a deal to sell trucks to Castro. The United States protested against both sales.

Officials Arrested In Bootleg Ring

RICHMOND, Ky. (AP) — A county judge, two former state policemen and two other persons have been arrested in connection with an alleged southeastern Kentucky bootlegging ring.

Glenn Lovern, state public safety commissioner, said Thursday Judge Arch M. Bell of Owsley County was charged with conspiracy "to do an unlawful act." Lovern said he could not elaborate until the cases go to grand juries in June.

Jack Manley, a former State Trooper, 33, of McKee, was charged with both accepting bribes and giving one and with conspiracy.

Harry L. Crawford, a former state police post commander, was charged with "being an accessory before the fact to the crime of bribery."

Vincent Marino, 33, Richmond, and Carlene Bowman, 44, Sturgeon, were charged with giving bribes.

Living Costs Inch Upward In March

WASHINGTON (AP) — Living costs inched up one-tenth of 1 per cent in March as prices rose for virtually all consumer items except food, the government reported today.

Lower food prices were offset by higher costs of housing, medical care, transportation and other basic items, bringing the consumer price index to 107.7.

This means that it now costs $10.77 to buy goods that cost $10 in the 1957-59 base period.

A Labor Department spokesman said costs could be expected to go up again for April, but he added "there is not the slightest indication of any serious inflation."

The spokesman, Deputy Commissioner Robert J. Myers of the Bureau of Labor Statistics, said relatively stable prices during a general business upturn provided "a very reassuring performance."

Food prices generally declined three-tenths of one per cent, mostly for meat and eggs.

Fruit and vegetable prices increased 1.1 per cent from February, however, largely because of shortages caused by late winter freezes in Florida.

Household costs rose two-tenths of one per cent mainly because gas bills began returning to regular levels following last month's government-ordered refunds.

Transportation costs went up three-tenths of one per cent, largely because of higher gasoline prices.

Jury Rules Suicide In Candidate's Death

STATESVILLE, N.C. (AP)—A coroner's jury ruled Wednesday that Benjamin Sanford Carlton, 49, a Negro candidate for the Irdell County Board of Commissioners, died April 23 of a self-inflicted gunshot wound.

Witnesses told the all-Negro jury that Carlton had been depressed because of financial difficulties.

Ruby Case In New Phase

By TOM JOHNSON

DALLAS (AP) — The Jack Ruby case enters a new phase today as lawyers begin formal preparation of appeals documents for the Texas Court of Criminal Appeals.

Attorney Joe Tonahill said he hopes to have the matter before the state's only appellate criminal court within six months.

Judge Joe B. Brown denied a defense motion for a new trial Wednesday—exactly a month and a half after Ruby received a death verdict from a Dallas jury.

The 53-year-old former night club operator was convicted of murder with malice for the Nov. 24 killing of Lee Harvey Oswald, alleged assassin of President John F. Kennedy.

Should the court of criminal appeals rule against Ruby, he and his lawyers will have to turn to the federal courts. Observers say the appeal of the verdict—a sensational climax to a sensational chain of events that began in Dallas Nov. 22—could take years.

Wednesday's hearing on a motion for a new trial was marked by repeated clashes between opposing lawyers.

Tonahill, a 6-foot-4-inch 240-pound giant of a lawyer from East Texas, was cautioned at one point by Brown:

"Mr. Tonahill, don't make me hold you in contempt."

Ruby's lawyers asked the judge to let them elicit testimony from witnesses they said would impeach the trial testimony of a key prosecution witness. But Brown refused to hear any witnesses, and sustained many state objections to that effect.

Tonahill said Ruby had been convicted on "false and perjured testimony." He said some of the witnesses subpeonaed for the hearing would give concrete evidence that Dallas Police Officer P. T. Dean had committed perjury at the trial. As the judge denied development of the testimony, Tonahill rose to his feet, spread his arms, and pleaded:

"For God's sake, do your duty, Judge, and hear this testimony."

Among witnesses Tonahill said could controvert the policeman's testimony was Ray Hall, an FBI agent.

Defense lawyers listed 203 assignments of error which, they said, led to the conviction of Ruby. The state objected to each defense allegation, and the judge sustained the state.

Asst. Dist. Atty. A. D. Jim Bowie told Tonahill at one point that the testimony asked by the defense was not covered by the original motion for a new trial, and that the motion did not have the proper affidavits attached to it.

"If you had any guts, you would go out and get affidavits from these witnesses and from Officer Dean," Bowie said to Tonahill.

Tonahill shouted back:

"If Mr. Bowie has any guts, let him show it by hearing this testimony."

Regardless of the fate of Ruby's appeals, he could cheat the electric chair by reason of present insanity. Brown said a sanity trial for Ruby may begin within 30 days. If the jury finds him insane, he will be committed to a mental institution.

Ruby walked with a heavy-footed shuffle as guards brought him to and from the courtroom Wednesday. On returning to his jail cell, he whispered to his brother and sisters:

"Goodbye, I'm not coming back."

Kidnaped Chicago Baby Still Missing

CHICAGO (AP) — Police and FBI agents pressed a search today for a baby kidnaped from a hospital, although clue after clue proved futile.

The latest lead to fizzle was that concerning a practical nurse who once worked at Michael Reese Hospital. Two witnesses, however, said Wednesday that she was not the woman dressed as a nurse who last Monday took the baby boy from his mother at the hospital.

The woman had told the mother, Mrs. Chester Fronczak, 28, she wanted to return the infant, Paul Joseph, who was born last Sunday, to the nursery.

Police first became interested in the unnamed practical nurse when they learned that she had been placed on probation in 1962 for taking a five-year-old girl from a carnival.

The woman was released after she was viewed by Leo Kelsey, a cabdriver who drove the kidnaper from Michael Reese Hospital to a nearby South Side neighborhood and by Mrs. Joyce S. Doane, 24, who shared a room at the hospital with Mrs. Fronczak. They said she was not the woman who took the baby.

The kidnaper has been described as about 40 years old.

British Buses Due Soon In Havana

MIAMI, Fla. (AP)—The first of 450 British-built buses will reach Cuba in June, Havana radio said today.

The buses—plus quantities of spare parts—were ordered to shore up Cuba's rickety public transportation system. They represent an $11.5-million deal between the Fidel Castro government and Leyland Motors Corp. of England.

The broadcast, monitored in Miami, said labor unions representing Leyland employes, congratulated the company "for resisting Yankee imperialist pressure" against selling buses to Castro.

DeGaulle Leaves Paris Hospital

PARIS (AP) — President Charles de Gaulle left Cochin Hospital today after prostate gland surgery two weeks ago.

De Gaulle was seated in a limousine beside Mrs. de Gaulle.

A crowd applauded as De Gaulle left the Left Bank hospital for a drive across town to Elysee Palace. De Gaulle waved at the crowd.

IN RIGHTS BILL

Humphrey Claims Changes Possible

WASHINGTON (AP) — President Johnson will accept some changes in the civil rights bill as long as the Senate produces enforceable legislation, Sen. Hubert H. Humphrey said today.

Humphrey, assistant Senate Democratic leader who is floor manager for the measure, said Johnson prefers the House-passed bill as it stands. But, he added, the President is not against amendments that do not weaken it.

Humphrey told this to a reporter as the Senate headed into its 44th day of debate. The civil rights leaders apparently are determined to move to shut off debate next week on a pending compromise jury trial amendment unless Southern opponents agree to a fixed time for voting on it.

Humphrey, apparently more optimistic than some other supporters of the bill, doubts it will be necessary to file a cloture petition to break down Southern resistance.

"If we have to file, we'll file it on Monday," the Minnesotan said. "We have the votes for cloture. I doubt if we'll have to file."

Cloture is the Senate's procedure for choking off a filibuster. To invoke it requires two-thirds of the senators on hand, or 67 if all 100 are present.

Sen. Richard B. Russell, D-Ga., chief strategist for Southern opponents of the bill, reported after a caucus Wednesday that they declined to agree on a time for voting on the jury trial amendment.

Sponsored by Democratic Leader Mike Mansfield of Montana and Republican Leader Everett M. Dirksen of Illinois as a substitute for a proposal by Sen. Herman E. Talmadge, D-Ga., it would provide jury trials in all criminal contempt citations that involved sentences of more than 20 days and fines above $300.

Russell told reporters and then informed Dirksen that the Southerners did not rule out a vote next week, but said "we are not going to make any commitments now." Dirksen had insisted on some word from the Dixie forces Wednesday.

Immediately afterward, Dirksen and Mansfield conferred and Dirksen announced, "It would appear that our only out is a cloture petition."

Bitterness Grows In Race Of McLendon, Yarborough

By PEGGY SIMPSON
Associated Press Writer

With elections two days off, dramatic Senate race between Democrats Sen. Ralph Yarborough and Gordon McLendon reached a new high of bitterness.

McLendon, Dallas radio executive, told a statewide television audience that Yarborough once used campaign contributions to pay off personal debts.

In Corpus Christi, Yarborough called his opponent "a slanderous huckster who is a spokesman for the hate merchants who dominate the political scene in Dallas."

Meanwhile, a Republican candidate for the same U.S. Senate seat in Saturday's primaries, George Bush, predicted that McLendon and Yarborough have "pretty well cancelled each other out. . . These two men . . . have swapped such vicious charges that the voters don't know which one is telling the truth."

McLendon brought forth legal papers Wednesday night he said represented a lawsuit filed in Travis County by James Nichols against Yarborough for past due debts totaling $6,200. He said Yarborough "escaped from this embarrassing lawsuit" by agreeing to apply to the note 50 per cent of all funds received on his campaign debts after Aug. 30, 1956.

"In other words, Yarborough used your campaign contribution to pay off his personal note for campaign expenses for which he was being sued. How about that for political morality?" McLendon asked.

McLendon also contended that Yarborough's 1960 visit to Pecos for a Billie Sol Estes-sponsored barbecue was not as spontaneous and unplanned as the senator indicated. McLendon showed an invitation to Pecos citizens to attend the barbecue and meet Yarborough which he said was printed well in advance of the occasion. McLendon earlier brought forth two witnesses who said they saw Estes, convicted West Texas promoter, hand Yarborough an envelope they said contained $50,000 in cash.

Yarborough, who has denied the $50,000 cash report as false, said in Midland Wednesday that one of McLendon's witnesses was not in Pecos at the time of the barbecue, according to records of servicemen in the Reeves County courthouse.

The senator said he received only $970 on the night of the barbecue and the money came from "nine or 10" contributors, including Estes. He said that Estes then was "a highly respected young man. It is tragic that he fell into evil ways. He kind of went nuts, you would say."

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: What do you do when you finally find out that what you had suspected deep down in your heart was true: My sister-in-law telephoned the other day to inform me that my husband had an affair about a year ago with a supposedly good friend of mine. She said she and her husband had known it all along. Suddenly a lot of things began to fit into place, such as cancelled checks made out to strange places, and several unexplained late evenings. Each time I confront my husband with the accusation, he denies it. I would gladly give him the benefit of the doubt, but there is no doubt. I can't raise four children alone. Do I just forgive and forget?

HEARTBROKEN

DEAR HEARTBROKEN: Yes. Obviously your husband wants to forget, too, but when you try to sweat a confession out of him, he can't. Forgive. Truly forgive. Only then will you be able to forget.

• • •

DEAR ABBY: My husband and I are both in our mid-40's. We are neat dressers, and everyone compliments us on how "young" we look. Whenever we go out, my husband spots a "friend" at another table, and up he jumps, leaving me to sit alone anywhere from 15 minutes to half an hour. When I complain he gets mad and says he likes to talk to his friends. What's bugging him anyway? This has been going on for years.

LEFT SITTING

DEAR LEFT: If your table-hopping husband is running for office, grin and bear it. But if he's just a friendly-type guy who likes to talk to his "friends" tell him that you are his best friend, and you didn't go out to sit alone.

• • •

DEAR ABBY: When I was 12 and my brother was 10, our father died. Our mother married again, and she stayed married to this man until she died. At the time of her death neither my brother nor I could afford to buy her a headstone. Now we have the money and want to buy her one, but here is the problem: We want our mother's FIRST HUSBAND'S name on the headstone instead of her second husband's. After she died, we never saw our stepfather again. Our family did not care especially for my mother's first husband (our real father), or her second husband, so they want us to put her MAIDEN name on the headstone. Since my brother and I are paying for it, we think we should be able to put what we want on it. What is your opinion?

WONDERING

DEAR WONDERING: It will be YOUR headstone over YOUR mothers grave. Put on it what you will.

Harlem Pair Knifed By Teen-Agers

NEW YORK (AP)—A woman was knifed to death and her husband critically stabbed by one of eight teen-agers who invaded the couple's second-hand clothing store in Harlem Wednesday.

The eight, described as Negroes ranging in age from about 14 to 19, disappeared into the late afternoon crowd on busy West 125th Street just off Fifth Avenue.

Magit Sugar, 45, of Woodside, Queens, was killed by a single thrust in the heart with a double-edged dirk.

Her husband, Frank, 50, wrested the knife from the killer, but not before he had been stabbed six times.

Police said the stabbings were apparently "senseless." If robbery was the youths' motive, they failed. There was no cash register in the store and Sugar's wallet was not taken.

Sugar was taken to Harlem Hospital in critical condition, but was reported to have improved after blood transfusions.

The Sugars, who came here as refugees from the 1956 Hungarian revolt, had operated the second-hand clothing store since 1960.

Texans Seek Funds For Flood Control

WASHINGTON (AP)—Texans asked Wednesday for funds for flood control and navigations before a Senate Appropriations subcommittee.

Before the House Appropriations committee, the Texans usually asked only for the amounts recommended in President Johnson's budget.

A delegation from the Beaumont, Port Arthur and Orange area asked $1.5 million to start deepening the Sabine - Neches waterway to 40 from 36 feet.

Funds were not included in the budget recommendations although the work has been authorized. The group urged funds to permit a start on the replacement of a bridge. They said the span now is a navigation hazard.

The Orange Chamber of Commerce asked that no money be provided for the bridge project but asked waterway deepening funds.

The Orange group said mobile drilling rigs requiring clearances up to 238 feet are built and repaired above the proposed bridge site, then towed out to sea. The proposed bridge would have clearance of only 138 feet — two low to accommodate the drilling rigs.

The brief said the work involving the rigs is one of the area's "significant industries and a substantial contributing factor to a number of others."

Dale Miller, executive vice president of the Louisiana-Texas Intracoastal Canal Association, and Duane Orr, engineer for the Nueces County, Tex., Navagation District, urged funds recommended by the budget bureau for various navigation improvements along the Gulf Coast.

Truman To Be Honored

INDEPENDENCE, Mo. (AP)—In his 1949 inaugural address, Harry S. Truman proposed four major courses of action for his administration.

The last of these, known as Point IV, started an increasingly successful program of agricultural, technical and industrial aid to underdeveloped nations.

Friday, Truman will be honored by the Farmers of America for his contributions to agriculture.

The tribute, beginning with a noon luncheon, coincides with the former president's 80th birthday next Wednesday.

A message from President Johnson will be read by Orville L. Freeman, the secretary of agriculture.

Jack Cox Family All Campaigners

By GARTH JONES
Associated Press Writer

Jack Cox thinks that campaign experience is the best teacher a politician can have.

"John Tower didn't get elected to the U.S. Senate until his third statewide race and Ralph Yarborough didn't get elected until his fifth statewide race," Cox says to prove his point.

"I'm the only Republican senatorial candidate who has ever made a statewide campaign," says Cox, who has three party opponents in the May 2 GOP primary. "Never in this entire century has a U.S. senator been elected in his first political campaign in Texas."

In 1960, running as a Democratic candidate, Cox lost the party nomination for governor to former Gov. Price Daniel by 289,000 votes. In 1962, running as a Republican, Cox polled more votes than any Republican candidate for governor in the history of Texas but lost to Gov. John Connally by 132,000 votes.

This is his year to win, says Cox, 42.

"There is a different feeling now than before," Cox told The Associated Press. "Right from the beginning people have recognized me as a definite contender. I've been in all of the 254 counties in previous campaigns. Now when we go back we know so many people. It's like a family reunion everywhere you go around the state."

But Cox has seen political campaigning change in the last six or eight years.

"No longer is the party primary the big thing, the same thing as getting elected for Democrats," he says. "Now the campaign is not settled until the November general election. To me, that is a sign this is already a two-party state."

State Republican leaders once estimated a 300,000 voter turnout for GOP primary. Cox thinks 225,000 is more like it.

Cox goes at top speed when he is shaking hands or making a speech, then when he and his wife Joyce crawl into their rented two - engine plane to travel to another stop, Cox relaxes and usually is asleep in a few minutes.

"Joyce is a terrific campaigner," says Jack.

But both agree that the family's most arden campaigner is Jack Jr., 20, a University of Texas student.

"We have to keep reminding him that the primary reason we sent him to the university was not to campaign but to study," Joyce says.

Police Car Involved In Mishap While Answering Call

A Snyder city police patrol car was involved in a mishap at 6:40 p.m. Wednesday on the East Highway just west of Apple Street.

The patrol car was answering a call to investigate a reported drunken driver at the time of the mishap.

The police car was traveling west on the East Highway when a 1950 Chevrolet pickup driven by Glen Lee reportedly pulled out onto the highway in front of the officers. The patrol car struck the left rear fender of the pickup and spun around striking a 1951 Chevrolet at the side of the road which was driven by James E. Cain. Damage to the police car was estimated at $700; to the pickup at $10; and to the Cain car at $250.

The officer driving the police car was taken to Cogdell Hospital for examination of possible head injuries. He was not believed to be seriously injured and was not admitted to the hospital.

The mishap was investigated by the Texas Highway Patrol.

The DWI suspect was arrested by another unit of the Snyder city police.

Guilty Plea Heard

Wesley Floyd pleaded guilty Wednesday afternoon in county court to a charge of DWI which had been filed by the sheriff's department.

Floyd had pleaded not guilty on June 24, and had been free on $500 bond.

Following his change of plea, he was fined $50 plus costs of $26.35 and was sentenced to three days in jail.

LONDON (AP) — "We have nine children," said Lionel Burleigh, 57, "and after 25 years of going steady I think Vivian and I should get married.

"I don't feel a man should get married until he's had children. I feel very strongly on the subject."

Burleigh and Vivian, 44, tried to get married Wednesday but the Holborn Registry Office told them to come back next Wednesday. He didn't have the right papers.

The couple was accompanied to the office by four of their children.

As they left the office, 9-year-old Samuel asked: "Are you married yet?"

"No," replied Vivian, "Daddy didn't have the papers showing his old divorce had been made absolute. So we can't get married today."

"Oh, dear," said Samuel, "how madly gay."

"I got a divorce in 1944," Burleigh told newsmen. "I thought the absolute decree came along automatically. I've got the papers somewhere. We'll be back next week with the proper documents."

When William, 12, showed annoyance, his sister Mercedes, 19, said: "You've waited 12 years for them to get married. A few more days shouldn't hurt you."

To reporters she added: "I was against their getting married at first. They've been living together for 25 years. There didn't seem much point in getting married but it's what they want."

Group To Hear Sheen And Wallace

WASHINGTON (AP) — Gov. George C. Wallace of Alabama and Bishop Fulton J. Sheen of New York head the witness list today at House hearings on the use of prayers in the public schools.

They'll appear before a House Judiciary Committee that has been accused of stalling in the hearings by Rep. Frank J. Becker, R-N.Y., chief sponsor of a proposed constitutional amendment to permit school prayers. Bishop Sheen is auxiliary bishop of the Roman Catholic archdiocese of New York.

Becker, who pressed Chairman Emanuel Celler, D-N.Y., for hearings for nearly two years, said Wednesday he will insist the hearings end May 14.

That was the date originally announced by Celler for ending the hearings, but the slow progress of the sessions so far has thrown the schedule badly out of kilter.

Test Homes Show Damage

OKLAHOMA CITY, Okla. (AP) — Some damage in test homes has been found since the Federal Aviation Agency began its sonic-boom program here, but a spokesman said it is not believed that the trouble was caused by faster-than-sound airplanes.

In a report to the FAA Wednesday, two firms said they found cracked wall mirrors, an extended crack in wood trim and some missing grout. Four houses are used as tests.

The report said the damage was minor and was not believed due to sonic booms.

FAA has been conducting the sonic-boom program since Feb. 3 to test reaction of people and property to the noise and vibration created by the aircraft.

I NEED WORK

I do my job and finest of all, my thousands of references will tell you so.

My upkeep is far less, my days off are next to nothing. Over the years if I do need anything special you will find that the people who made me will always have anything I need readily available. Some of my rivals wear out fast and cost you much in severance pay. But I won't wear out, and I will always be worth something a great deal more.

Difference in policies and my employment service is what makes me really great. Thousands of my brothers and sisters, regardless of age are working today because of better service.

My salary for many, many years of work is negligible. You can pay me as little as $7.00 a month if you choose.

My name is Miss General Electric Dishwasher and I live at Roe's Furniture & Appliance Store.

You can order me in ten minutes because the folks at Roe's will make it very easy for you to own me.

WOMEN

THE FIRST COPIES of a booklet compiled by the Home Demonstration Agent's office are distributed by the agent, Miss Ruby Butts, left, to representatives of several ladies' groups. The booklet describes a number of areas in Scurry County in which progress and improvement could be made. Those getting the first look at books are, seated, Miss Ethel Mae Sturdivant and Mrs. Frances Brown of the Business and Professional Women's Club, and Mrs. Vera Baize of the Union Home Demonstration Club, and standing, Mrs. Martha Huddleston of the clothing committee, Mrs. Barbara Newman, Tri-County Home Demonstration Club, Mrs Lillian Ashley, clothing committee chairman, and Mrs. Peggy Taylor, Ira Home Demonstration Club. The ladies discussed a clothing exhibit to be presented in the near future.

Clothing Planning Group Meeting Held Monday

Plans for a city-wide exhibit on wardrobe planning for every member of the family were discussed at the meeting of the clothing sub-committee of the County Program Building Committee Monday night in the county extension office.

Representatives of women's clubs had been invited to attend and join in the discussion since they are being asked to help with the giant exhibit being planned for the early Fall.

Mrs. Lillian Ashley, chairman of the clothing committee, presented the plan to Mrs. Frances Brown and Ethel Mae Sturdivant from the Business and Professional Woman's Club, Mrs. Bentley Baize of Union Home Demonstration Club, Mrs. R. B. Taylor of Ira Home Demonstration Club, and Mrs. Garland Newman of the Tri-Community Home Demonstration Club.

Other members of the clothing committee attending were Mrs. Billy Don Huddleston and Mr. Charles Hartman, manager of the local J. C. Penney Store.

Miss Ruby Butts, County Home Demonstration Agent, led a discussion on how the exhibit might be publicized to make it most useful. She also showed the group copies of the "County Program," a mimeographed booklet on Scurry County including much useful information on the people and the local situation.

Copies of this county program booklet will be available later to clubs and other groups interested in Scurry County.

Plans were made for the group to meet again on June 8 to develop the plans for the exhibit further. Any clothing retail merchant or member of a woman's group in Scurry County will be welcome to attend.

Woman's Club Installation And Coffee Set

The Martha Ann Woman's Club will hold its annual general membership coffee Saturday, May 2 at 10 a.m. at the clubhouse.

SORORITY MEMBERS of Lambda Kappa Chapter of Beta Sigma Phi are busy making posters for their Style Show to be presented May 5th at 8 p.m. in the High School auditorium. From left they are Joyce Brewer, Eilene Snyder and Pat Pate. The public is invited to attend the event. Tickets will be available at the door.

RE-ELECT THE QUIET MAN WHO GETS THINGS DONE

OMAR BURLESON

INCOME TAX REDUCTION

The income tax reduction bill that became effective in April of 1964 had the vote and support of OMAR BURLESON who has long felt that tax relief for the public was one of the most important issues before Congress.

LIMITED BEEF IMPORTS

OMAR BURLESON introduced a bill in Congress to limit the imports of beef from foreign countries. With a 25% wholesale price decrease caused by foreign imports this bill would provide a broader market for the ranchers and cattlemen. Retail pices remain high.

REDUCE FEDERAL BUDGET

Long an advocate for lower federal spending, OMAR BURLESON, in his 18 years in Congress, has voted to reduce the federal budget from three to 13 BILLION dollars each of his nine Congressional terms. He has never voted to reduce defense expenditures.

CUBAN EMBARGO

During the Cuban affair OMAR BURLESON introduced a bill for a complete embargo on trade with that country. He voted against the sale of wheat to Russia, recognizing that it would encourage our allies to sell to Cuba which they have done in fact.

CIVIL RIGHTS

Because the present form of the Civil Rights bill contains provisions to limit the freedoms of all Amerians, he voted against it. He is for the constitutional guarantees for all Americans regardless of status.

LIMITED OIL IMPORTS

In 1949 OMAR BURLESON introduced the first bill to limit oil imports, and then voted for the bill that gave the President of the United States power to limit or abolish oil imports.

REDUCE COMMITTEE BUDGETS

As chairman of the House Administration Committee, OMAR BURLESON has consistently reduced the spending of congressional committees. He reduced Adam Clayton Powell's committee spending budget by 50%.

FOREIGN AID

OMAR BURLESON has voted against foreign aid since the late 1940s. The recent reaction in Congress as to drastically reducing foreign aid and discussion about abolishing it proves him correct.

Davis Believes Doctoring Is Good Political Training

By GARTH JONES
ASSOCIATED PRESS WRITER

Dr. Milton V. Davis thinks doctors make good politicians.

That's why the 42-year-old Dallas heart surgeon, a Republican, wants to be Texas' next U. S. Senator.

"The practice of medicine is fundamentally a political endeavor," Davis told The Associated Press. "People come to us in pain and panic and doctors have to be tremendous politicians to deal with them.

"How do you go about telling the parents of a six - year - old boy that the kid has to have heart surgery? You have to use politics. Then there are some people who get mad if you examine them and find nothing wrong with them. You have to use politics," he said.

Doctors are accustomed to working the 16 and 18 hours a day common in a political campaign. They are used to the irregular hours for sleeping and eating. "Doctors have a mental attitude of persistence that is good for politicians," Davis said. "I tell my medical students that they should act like they think every patient is going to get well. I think that is the way to run a political campaign too."

Actually, Davis' campaign is pretty much a family matter. He and his wife, Vera Nell, travel together and run the campaign almost entirely alone. They have only one paid employe, an office secretary, "and she isn't paid very good," Davis said.

Davis took a leave of absence from his Dallas partnership, beginning the first of April. He and Mrs. Davis make out their own itinerary and he writes his own speeches. When they think a press release is needed they look up a public stenographer and he will dictate a statement.

This is Davis' first experience as a candidate but not as a Campaigner. "We ran the first race with John Tower in 1960 when there were not 20 people in the state who knew him," Davis said. He was state chairman of both the Doctors for Nixon - Lodge and Doctors for Tower organizations. He was founding secretary - treasurer of the American Medical Political Action Committee (AMPAC) which helped defeat the Democratic administration's medicare legislation proposals in 1962.

But he considers Mrs. Davis his most valuable political advantage.

"There's never been a candidate elected to statewide office who married an east Texas girl. She's from Route 2, Gilmer — and you don't hardly get any more East Texas than that."

Although the device still is in the experimental stage, it is expected to be tested in the field by troops beginning in October.

The instant foxhole varies from 20 to 36 inches deep and about two feet in diameter.

Mississippians Fail To Stamp Out GOPs

JACKSON, Miss. (AP)—The move to stamp out Republicanism in Mississippi with new election laws looked like another lost cause today.

The 22 bills backed by Gov. Paul Johnson, which passed the State Senate, ran into surprisingly strong opposition in the House.

After two straight setbacks in House votes, Rep. Roy Strickland, floor manager of the package of bills, showed little hope for future victory.

"I think Wirt Yerger, State Rep. M. L. McAllister and Sen. Dirksen have won their battle," he said.

Yerger is state GOP chairman. McAllister is the only Republican in the Mississippi Legislature. Sen. Everett M. Dirksen, R-Ill., is the party's Senate minority leader.

The revolt against Johnson's election bills was signaled Tuesday when a key bill was sent back to committee for further study.

Rep. Abie Miller of Greene, told the House the move against the GOP "could upset bringing in industry to Mississippi."

Strickland's second defeat came Wednesday.

Key bills in the package would force the state's budding GOP to measure up to major party standards in organization and operation.

At present, the GOP couldn't make the grade.

The party made its first serious bid for the governorship in the last election, astounding Democrats by drawing almost a third of the votes. The proposed election laws were the reaction.

The key bill referred back to committee would set these standards:

Half the precincts in a county must stage precinct conventions before a county convention is valid.

Thirty of the state's 82 counties must stage valid county conventions before a state convention is valid.

Foxhole Digger Could Be Infantryman's Best Friend

COLUMBUS, Ga. (AP) — The U.S. Army has come up with a successful device destined to gladden the heart of every infantryman—an instant foxhole.

To dig a proper foxhole in the past, a soldier needed a pick, shovel, stamina and sometimes a prayer. And there were reports that some GIs and Marines in a hurry dug sufficient holes with their bare hands.

A team from the U.S. Combat Development Command's infantry agency put the new development on display Wednesday at Ft. Benning.

The result may make it possible for a soldier to pick up a one-pound foxhole digger from the supply sergeant and take a rest while the thing digs a hole for him.

What's more, says the Army, the hole can be dug in the hardest, rockiest ground.

The foxhole digger comes in two parts—the first part for blasting a small hole two inches in diameter and several inches deep. This is known as a pilot hole.

The second part of the device is placed in the pilot hole, a primer is set, and the soldier gets out of the way for about 30 seconds while a cratering explosion digs the foxhole.

The instant foxhole was developed at the Engineer Research and Development Laboratory, Ft. Belvoir, Va.

The demonstration showed the device works best in hard, rocky, clay-type soil or frozen ground. This is because dirt blasted from soft, loam-type soil tends to cave in along the sides and the soldier has to pitch it out with a shovel.

The True Facts About Federal Oil Control

Misleading newspaper advertisements are being carried by my opponent on my attitude toward federal control of the petroleum industry by erroneously quoting statements I was supposed to have made at Wichita Falls. My actual statement, made in Wichita Falls on March 26, follows:

"'. . . Although the quotas would be set and administered by an intermediate board, the Compact Commission, this would be done under federal legislation and come close to placing production under federal control.

"The late James V. Allred of Wichita Falls, was Governor of Texas in 1935 when this proposition was laid out. Governor Allred blasted it off the table with a few hundred choice words, including these:

"'. . . Federal control means the end of personal effort, it means the end of personal freedom, it means the end of local self-government, it means the end of states' rights; it means a levelling out process at the hand of the government, trying to equalize and put everybody on the same basis, irrespective of initiative, irrespective of industry, irrespective of individual talent and all those sorts of things that have helped to make America great.'

"Governor Allred recognized even then, nearly 30 years ago, that there was only one way to enforce production quotas as between states, and that was for the federal government to do it. That is just as true today, and probably more so. He was against it then, and I AM AGAINST IT NOW.

"I repeat, as emphatically as I can: Whatever the motives of people who call for mandatory or any other kind of state production quotas, they are inviting — yes, THEY ARE BEGGING FOR FEDERAL CONTROL OF THE PETROLEUM INDUSTRY."

LET'S KEEP JIM LANGDON

Railroad Commissioner

[POL. ADV.—Paid for by Jim Langdon Campaign Committee. Charles Langdon, Chairman]

Snyder Buyers Are Certain To Get Dollar's Full Value

The Snyder housewife's chances of getting an accurate weight on foodstuffs at her local grocery store were four times better this year than they were in 1962, according to Agriculture Commissioner John C. White.

And the Snyder motorist is assured of getting a full measure of gasoline as a result of a city-wide weights and measures survey made earlier this month by inspectors of the Texas Department of Agriculture.

Commissioner White said a total of 84 grocery store scales were checked for accuracy in Snyder and only 6 were found incorrect. Of this number, 2 of the scales were giving an over measure of food and 4 scales were weighing short.

Some 264 gasoline pumps were also calibrated for accuracy and 262 of them were correct, White said. Of the inaccurate units, 1 pump was giving too much gasoline and 1 was giving too little.

White emphasized that all the incorrect devices were required to be repaired and sealed during the survey, regardless of the kind of error.

"We find very few cases of deliberate fraud," said Commissioner White. "Most violations are the result of careless maintenance. Essentially, our inspection program is not a police action to ferret out criminals, but rather a service of government to see that equality prevails in all commercial transactions."

Pre-packaged foods such as meat and frozen commodities cause the most difficulty, White pointed out. Meat has a tendency to shrink and lose weight after packaging. The customers should ask that a package be re-weighed at the checkout counter to make certain they are getting all the meat they are paying for, he added.

During the Snyder survey, a total of 880 pre-packaged foods were weighed by the inspectors. Some 259 of the marked weights were incorrect, with 208 of the packages over tolerance and 51 under tolerance.

White explained that some packers give an overmeasure of goods in an attempt tomake allowance for possible shrinkage. Also, some frozen goods pick up frost which accounts for the goods having more weight than is marked.

Inspectors require that underweight packages be re-marked correctly before they leave the store. Overweight packages are handled individually, depending on the cause. If the package has absorbed additional moisture, the original weight is retained to prevent the housewife from paying for frost or accumulated water.

Commissioner White said the Snyder survey was a part of the regular state-wide check of all weights and measures devices made by his department.

The state survey showed 94 per cent of all the gasoline pumps were giving a correct measure of fuel. Some 2 per cent of the inaccurate pumps were dispensing too much gasoline and 4 per cent were giving less.

Grocery store and pre-pack scales had a 96 per cent accuracy. Pre-packed foods made the poorest showing. Only 71 per cent of the meat packages were correct, with 17 per cent over tolerance and 12 per cent under tolerance. Some 19 per cent of other types of pre-packed foods were out of tolerance with about a 50-50 chance of being over or under weight.

White said constant vigilance is maintained in weights and measures work but errors are bound to occur. Any shortages should be reported to Agriculture Commissioner John C. White in Austin.

Episcopal Council To Meet Friday

St. Christopher's Church, Lubbock, will host the Sixth Annual Council of the Episcopal Diocese of Northwest Texas on May 1-3.

Delegates to the Council from St. John's in Snyder will be the Rev. Truman E. Bennett, vicar, Charles G. McCaleb, Jr., Warden of the Bishop's Committee, David D. Adams, Robert R. Patterson and William E. Byers.

The Council will open at 8 p.m. Friday, with service of Evening Prayer. At this time, the Bishop of Northwest Texas, the Right Reverend George H. Quarterman, will deliver his annual address to the Council.

The business session of the Council will convene on Saturday morning following the Holy Communion Service at St. Christopher's.

Mr. Peter Day, the Ecumenical Officer of the National Council of the Protestant Episcopal Church, New York, will be council guest and speaker at the council banquet on Saturday evening.

Mr. Day is the author of two books for laymen: "Saints on Main Street" and "Strangers No Longer." He served on the staff of The Living Church for 28 years, and as editor for the past 12 years prior to his recent appointment to the office of Ecumenical Officer.

The Churchwomen of the Diocese will also be in session May 1-3. Churchwomen representing St. John's, Snyder, will be Mmes. Truman E. Bennett, David D. Adams, Robert R. Patterson, Charles G. McCaleb, Jr., and William E. Byers.

Texas Indians Seek To Support Selves

WASHINGTON (AP) — The Area Redevelopment Administration plans to find out if tourist and recreation facilities could be feasibly developed on the Alabama - Coushatta Indian reservation in East Texas. The tribal council hopes to make the reservation self - sustaining through tourism and recreation on its location, 90 miles northeast of Houston.

Bob Lee Hurls Like A Champ For Angels

By MURRAY CHASS
Associated Press Sports Writer

Bob Lee, who took an automobile ride to notoriety last season, is flying high these days with the Los Angeles Angels.

Lee, a rookie right-handed pitcher who jumped to the Angels from Class D competition, won his first major league game Wednesday night, hurling a one-hitter for seven innings as Los Angeles whipped Washington 5-1.

Only last Saturday night, Lee held Cleveland to four hits in 10 innings in a game the Indians eventually won 2-1 in 11.

Lee's automobile trip came during the tremendous year he had for Batavia of the New York-Pennsylvania League. Then the property of the Pittsburgh Pirates, Lee was called on to pitch in an exhibition game at Cleveland against the Indians.

He drove to the game, struck out 16 and rapped two doubles in a 7-1 victory, then drove back to Batavia.

He proceeded to finish the season with a 20-2 record and a 1.70 earned run average, the best marks in the league.

Actually the rise from Batavia to the Angels was not as meteoric as it might seem. The 26-year-old Iowa native spent so much time prepping for the majors he should have considered pushing for an old-age pension plan for the minor leagues.

Lee pitched in the minors for eight years, starting in 1956. His record in that time wasn't even good. Before Batavia, he won 38 games and lost 55.

But now, suddenly, after two starts and 21 innings with Los Angeles, he has compiled a 1.29 earned run average.

Lee's performance Wednesday night highlighted an American League schedule riddled by rain. Detroit nipped Kansas City 5-4 in 10 innings, and Baltimore downed Boston 4-2 in other games. Rain washed out Chicago at New York while wet grounds knocked out Cleveland at Minnesota.

In the National League, Milwaukee edged Pittsburgh 1-0, Los Angeles dropped Houston 7-2, St. Louis squeezed by New York 4-3 in 11 innings and San Francisco blanked Chicago 4-0. Rain postponed Philadelphia at Cincinnati.

Lee, making his second start, gave up only a single to Dick Phillips with one out in the fifth inning. He was removed from the game when he tired in the eighth after walking Hunt. While he was in, the Senators didn't move a man past first base.

After he walked Hunt, though, Washington scored on singles by Don Lock and Ken Retzer off reliever Bob Duliba.

Joe Koppe tripled home two runs for the Angels in a three-run second inning. Tom Satriano and Bob Rodgers knocked in runs in the third.

Don Demeter's home run off John Wyatt gave the Tigers their extra-inning triumph. Detroit had taken a 4-0 lead, but the Athletics roared back behind the hitting of Ed Charles.

Charles slugged a solo homer in the sixth, then capped a three-run rally in the seventh with a run-scoring single. Dick Green's single and a double play accounted for the other two runs in the inning.

One Wrong Guess Ruins No-Hitter

By JIM BECKER
Associated Press Sports Writer

Tony Cloninger said he had been throwing curve balls all night to Willie Stargell—so Willie probably wouldn't be looking for another one.

Stargell said Cloninger had been throwing him curve balls all night—so he was looking for another one.

Willie was right. Tony curved him, Willie rapped a single to right with two out in the seventh inning and ruined Cloninger's bid for a no-hitter.

But Cloninger, a 23-year-old right-hander who got a $100,000 bonus from the Milwaukee Braves and was expected to start paying dividends this year, went on to pitch a one-hitter and a 1-0 victory over the Pittsburgh Pirates.

That evened Cloninger's record on the year at 1-1. The loss was to Houston's Ken Johnson, who later went on to pitch his no-hitter—and lose.

"I'd rather pitch a one-hitter and win," said Cloninger.

In other National League action, the Los Angeles Dodgers won their fourth straight game, 7-2 over Houston, the San Francisco Giants dumped the Chicago Cubs 4-0 and the St. Louis Cardinals edged the New York Mets 4-3 in 11 innings. The Philadelphia at Cincinnati game was rained out.

In the American League, Baltimore defeated Boston 4-2 as Wes Stock won his 10th straight in relief for the Orioles, Don Demeter's 10th-inning home run gave Detroit a 5-4 triumph over Kansas City and Los Angeles whipped Washington 5-1 as Bob Lee and Bob Duliba combined for a three-hitter. The Chicago at New York and Cleveland at Minnesota games were rained out.

Victim of Cloninger's one-hitter was Bob Veale, who threw a six-hitter for the Pirates. Felipe Alou singled the only Milwaukee run across in the third.

Don Nottebart of Houston, who had a no-hitter last year, flirted with another one against the Dodgers—and it looked for a while as if he might duplicate Johnson's losing effort. Although he had not allowed a hit, Nottebart trailed 1-0 with two out in the seventh.

Then rookie John Werhas broke it up with a single. Werhas batted in three runs on the night. Another rookie, Nick Willhite, pitched the victory, a five-hitter. He was the latest Dodger to step in and take up the slack left by injuries to Sandy Koufax and Johnny Podres.

The Dodgers, who lifted their season mark to 6-9, now have allowed only three runs in their last four games.

Junior Golf Tournament Ends Today

Red hot battles loomed in the 7th and 9th grade divisions after the first two rounds of play in the fourth annual junior golf tournament.

The junior linksters are playing three 9-hole rounds in three divisions. Ribbons will be awarded the top three in each division after 27 holes of play, the third and final round being set for 4 p.m. today at the Country Club course.

After 18 holes of play, Steve Holder led the 7th graders with a 94, while Mitch Rambin was close behind with a 97 and Bennie Ward was third with a 99. Other 7th grade scores included Ritchie Thompson with a 111 and Leland Herod with a 114.

In the 8th grade division Max Moreland held the lead with a 106, Frank Grimmett had 110, Jackie Weaver 114, Tony Suttle 124 and Richard West 145.

Don Copeland's 88 was low after 18 holes in the 9th grade division. Alex LeFeuvre had a 90, Mark Wilson 114, Sandy Wellborn 116 and Vernon Moore 129.

Patterson Planning For His Future

NEW YORK (AP) — Floyd Patterson has a plan for the future. Contrary to the opinion of some people, he thinks his future still is ahead of him.

"If I beat Eddie Machen (July 5 at Stockholm) I am going to try to get Cassius Clay," the former world heavyweight champion said. "I feel I may get the chance. After that, if I am victorious, I want to fight Sonny Liston. Then I shall retire — provided I don't get knocked out in the first round.

"I would have retired after my second fight with Liston in Las Vegas if I had made a better showing. When I got knocked out in the first round again I had to remain in boxing."

Patterson and Machen were at a midtown restaurant Wednesday to sign contracts for their 12-round match at 45,000-seat Solna Stadium, a Stockholm football field. Edwin Ahlquist and Al Bolan, the copromoters, talked of a possible $450,000 sellout. Bolan said he was negotiating with John Vrba of Los Angeles, head of Fourth Network, to fly the films back from Stockholm for a 10 p.m. showing on U.S. television the same night, a Sunday.

Wildcats Favorites

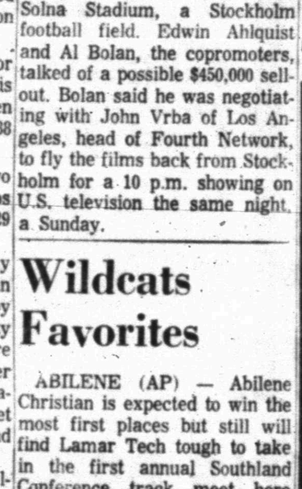

ABILENE (AP) — Abilene Christian is expected to win the most first places but still will find Lamar Tech tough to take in the first annual Southland Conference track meet here May 8-9.

The Christians lead in 12 events and are runnerups in two. Lamar Tech tops in five events but is runnerup in 12. On a point basis, Lamar Tech would appear to have a good chance of taking the title ahead of ACC.

The big man for Abilene Christian will be Jerry Dyes, decathlon champion of the Kansas Relays, who is tops in three events—the broad jump, triple jump and javelin.

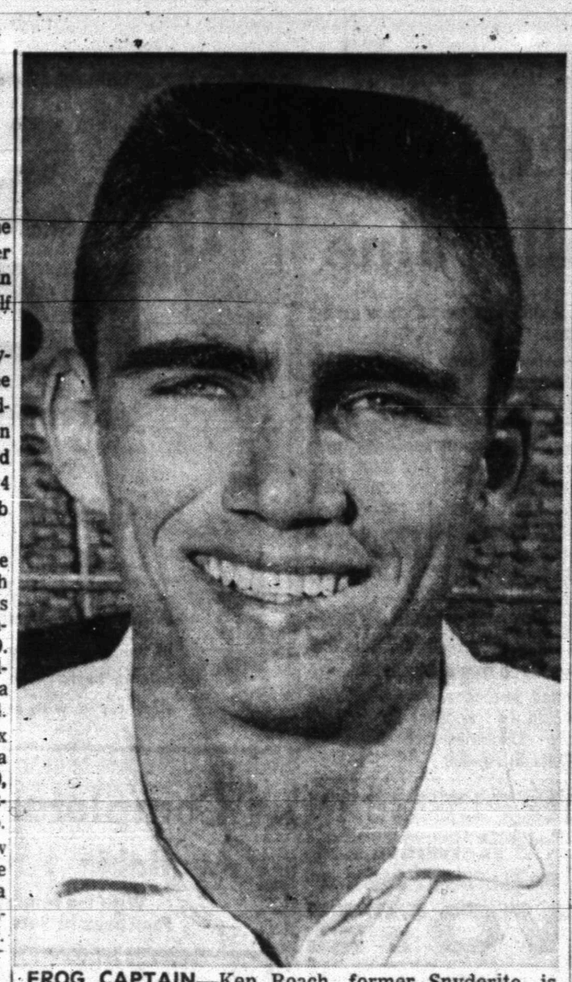

James McLatchie is a three-event leader for Lamar Tech—the mile, two-mile and steeplechase.

All winners will automatically set records since the meet is new.

I would appreciate your vote for Tax Assessor - Collector on May 2. I was unable to see all the voters personally in the county, due to sickness, but I want and need your vote!

3-Team Race Due

By The Associated Press

Samuell and South Oak Cliff of Dallas and Cooper of Abilene will fight it out for the championship and two state records — both of which might be expanded to national marks — are indicated in the Class AAAA division of schoolboy track.

Samuell appears to have the top point potential because of two fine relay teams. The Dallas school has done 3:15.9 in the mile relay — just seven-tenths of a second over the national record.

It also ran a 41.8 in the 440-yard relay in the regional meet. This was second best since South Oak Cliff did 41.6, which was only a tenth of a second over the national mark.

South Oak Cliff tied the state record while Samuell was two-tenths of a second better than the state mile relay record.

The relays count 20 points in the state meet at Austin next week. Samuell, thus, appears capable of at least 36 points. South Oak Cliff should make 32.

Abilene Cooper has more balance but has no relay teams, thus will have to pick up its points in the individual events which count half of what the relays bring.

Cooper has the leading broad jumper in Ricky Smith and the No. 2 miler in Dale McDonald, who did the event in 4:27.4 in the regional meet. Cooper also has one of the best pole vaulters in Pinto Beene plus several minor point potentials.

Highland Park, with its great sprinter George Aldridge, who should win both the 100 and 220, and Tom Raggio, the leading miler, may make it a four-way proposition.

A good bet to be high point man is Johnny Morris of Houston Jones, son of the University of Houston track coach. Morris could win the high hurdles, high jump and 180-yard low hurdles or place high enough in them to roll up about 26 points.

Bearcats, Sul Ross Close Out Series

HUNTSVILLE (AP) — Sam Houston hopes to close out the series with Sul Ross Saturday in the fight for a spot in the NAIA baseball playoffs. Sam Houston beat Sul Ross at Alpine 3-0 and 8-1 last week. The third game of the series is scheduled here Friday. If Sul Ross wins another game will be set Saturday.

Trinity Netters Hike Their String

SAN ANTONIO (AP)—Trinity holds the nation's longest dual collegiate tennis streak.

When the Tigers shut out Baylor 6-0 Wednesday they extended the string to 57.

Frank Froehling beat Jacky Griffin 6-2, 6-0 in the No. 1 singles match.

Pursuit Of Dollar Indicates Some Easing Of Cold War

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP)—One of the healthiest recent signs that the cold war has diminished a bit is the dollar sign.

Businessmen here and elsewhere show a developing desire for a buck, even if it means trading with Communists.

It showed up Wednesday at the annual meeting of the U.S. Chamber of Commerce, one of the most non-pro-Communist organizations in the country.

About 90 per cent of the businessmen there voted for increased trade in nonstrategic goods with Russia and her European satellites.

Some even wanted trade with three countries totally embargoed by this government: Red China, North Korea, North Viet Nam. There was no vote on this.

Why this surge, and it has been growing, to trade with the Communist world? Speakers explained in dollars and cents:

If American businessmen are prevented from selling to the Reds, the trade will go to businessmen in other Western countries which have fewer restrictions.

The British, just as anxious for the money, give their motivation a little more philosophical twist:

"A fat Communist is a little less belligerent than a lean one."

Exports to Communist countries now by Western Europe and Japan are running at about $3 billion a year.

West Germany leads the list—with Britain and France next—but mostly because of exports to Communist East Germany. The United States is at the bottom of the list.

Most of the Allies' trade with the Red nations has been in machinery and other nonstrategic goods.

But there has long been a feeling in this country that selling anything to Communists simply strengthens communism.

A classic example was the fight in Congress — it finally lost — against selling even wheat to Russia.

Secretary of State Dean Rusk ran head-on into this attitude last month in telling Congress there should be more flexibility in trade with the Reds.

He takes this line — and it's the Johnson administration line—that the United States should pick and choose between Communists nations on trade.

This is the reasoning: That trade with certain Communist countries may encourage them to show more independence of Moscow.

But he wants a tight boycott—which American allies are ignoring — in dealing with Fidel Castro's Cuba.

For this reason in this case: The tougher the economic squeeze on Castro, the less successful communism in Cuba will be and the more he will have to depend on Moscow which is helping to bail him out at a cost to Russia of about $1 million a day.

This reasoning gets a little puzzling, since Rusk wants to make some Red countries less dependent on Moscow but Cuba more so.

But the businessmen at the meeting Wednesday, while wanting more trade with the Reds, voted against giving them long-term credits.

If there are no long-term American credits this in the end may put American businessmen behind the eight ball anyway in dealing with the Communists.

For instance, the British are considering long-term credits. So the Russians, being businessmen, too, will naturally shop where it's to their advantage.

At the same time Secretary of Commerce Luther Hodges has said he thinks this country is "moving toward a more normal trade relationship" with Soviet Russia and her European satellites.

So, while there have been arguments among the Allies on such things as credit terms and what to sell, the main point is: The growing desire among businessmen on both sides of the ocean to make money from the Communists.

If long-term credits become the custom, even though they're guaranteed by the individual Western governments to their businessmen, it will be a pretty good sign those same governments don't expect war while the credits last.

Columnist Plans For Retirement

By HAL BOYLE

NEW YORK (AP)—What do you plan to do if and when you retire?

That seems to be the most popular topic of conversation in America now.

It isn't limited to older people. The second question a college graduate asks during job interviews now is, "How soon can I retire?" The first question is, "When can I begin my four-week vacation?"

Experts say you should have sunset goals for your twilight years, that you should map your retirement program early. This seems to be about what nine-tenths of America's employed class—from hired hand to board presidents—are doing.

Most of them enjoy doing it on company time, too. Nothing makes the working day go faster than day - dreaming what you're going to do when Uncle Sam delivers that first Social Security check.

Here are a few of my retirement ambitions:

Settle a problem that has been bothering science for a long time: Whether it's more fun to rock north and south in a rocking chair, or east and west.

Eat an eel in England, a snail in France, a baby octopus in Italy, and a suckling pig at a luau in Honolulu.

Be the first man over 65 in my neighborhood to learn to play the ukelele.

Learn to pitch an honest game of horseshoes.

Build two bird houses and rent them free—one to a wren, one to a bluebird. I'd like a couple of Baltimore orioles around the place, too, but they prefer to knit their own wind-danced home high in the tree.

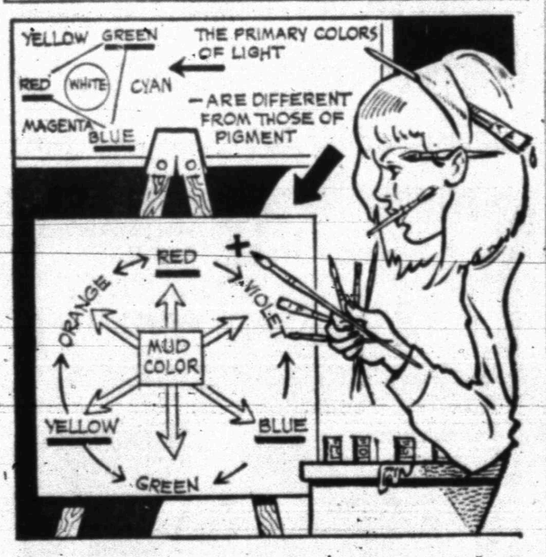

Figure out a way to beat my wife at gin rummy.

Outlive my wife's doctor—the one who keeps telling her how I ought to change my ways if I expect to be long for this world.

Discover an ingredient to put into martinis that will make them bring out the best in people rather than the worst.

Never go anywhere the rest of my life where I had to keep my shoes on more than four hours at a stretch.

Junior Editors Quiz on PRIMARY COLORS

QUESTION: How are the other colors made from the three primary ones?

• • •

ANSWER: There are two sets of primary colors which work differently. The primaries of light rays, the kind of color we see in the rainbow, are shown at top; they are red, green and blue. If you were in a lightproof room and had three flashlights one covered with red cellophane, the others with green and blue, you could throw a spot of red light on a white screen, cover it with a spot of green, and the two would make a light yellow. Put together, all these colors would make white.

When you come out of the dark room and start mixing paint made from pigments the three primary colors are red, yellow and blue. The other colors are made by mixtures as shown in our picture. Mix all these colors together and you get, not white, but a dirty, dark, muddy color. The colors connected with arrows are called "complementaries." For example, red is the complementary of green. When you put touches of these complementaries side by side they sparkle and they increase in brilliance. Mix equal parts of red and green and you get ugly mud; but mix a touch of green into red and you get a beautiful soft red. This will work with the other complementary pairs.

• • •

FOR YOU TO DO: Get red, blue and yellow poster paint and make the color wheel; then experiment with the complementaries. What is the cross Phyllis is pointing to? It's the mixture of red and violet, or red violet. Try other mixes of this kind, like yellow green, the complementary of red violet.

Friday Is Designated 'Loyalty Day'

A proclamation designating Friday, May 1 as Loyalty Day in Snyder has been signed by J. Mark McLaughlin, mayor of Snyder.

All individuals and business firms have been urged to display flags Friday.

The text of Mayor McLaughlin's proclamation is as follows: "GREETINGS:

"May 1st of each year has been designated by an Act of Congress as National Loyalty Day. For the past 12 years the VETERANS OF FOREIGN WARS OF THE UNITED STATES have sponsored patriotic observances designed to make May 1st National Loyalty Day for every American.

"National Loyalty Day is set aside to inspire a greater love of country and rededication to principles of freedom. This observance also shows, by patriotic and peaceful assembly, our unrelenting opposition to anti-American movements. It gives each of us an opportunity to renew our personal pledge to uphold our God-given rights in defense of which thousands of Americans have died on battlefields throughout the world.

"THEREFORE, as Mayor of Snyder, Texas in the County of Scurry, I hereby designate May 1st, 1964 as NATIONAL LOYALTY DAY"

Trial Will Move Again

LAGRANGE (AP)— The murder trial of Rudolph Coffey of Cocoa, Fla., will be moved again, Dist. Judge J. Lee Dittert decided Wednesday.

Coffey's trial for murder in the fatal shooting Nov. 15 of Elgin Police Chief J. M. Mumford previously was moved here on a venue change from Bastrop.

When only nine jurors had been selected from 210 prospects since Monday's trial start, the judge decided the trial should be transferred.

Coffey also is accused of the shooting and critical wounding of state highway patrolman Tommy Mosley. Mosley and Mumford stopped Coffey and a 16-year-old girl for questioning as they rode in a car.

"PAGAN JUSTICE"

I have little patience with the fears and complaints expressed by the calamity howlers in this sheriff's race. I know, being a human, I have made mistakes, one bad mistake I made, I corrected 3 years ago.

However I have never made the mistake of being a character assassin. If I knew anything against the character of any of my opponents in the sheriff's race, I would never expose any of their past weakness, for all the money in Scurry County.

Frankly speaking I believe they are all good men. I believe the people in Scurry County believe in Justice, The Apostle Paul himself had to appeal to the civil power of pagan Rome for a justice which he could not procure from his religious brethren, according to the flesh. When Jesus desired judgment against Paul the pagan testers answered, "It is not the manner of the Romans to deliver any man without the accused have the accusers face to face. I believe the people of Scurry County will at least give me papan justice.

These backyard clothes line, over the fence gossipers know my weakness of the flesh was corrected 3 years ago, and when you vote Saturday May 2nd, in this sheriff's race you remember Shot Allen will always go farther to help you than he will to hurt you.

If elected sheriff of Scurry County I want you to bring your problems to me. Together we will work them out, and no one will ever hear from my lips the weakness of my fellow man.

Shot Allen,
Candidate for Sheriff
of Scurry County

Students Are Real Knights To Kentucky Mountaineers

By BOB COOPER

HYDEN, Ky. (AP) — Like knights of old, college students sally forth each weekend to help the distressed mountain folk of eastern Kentucky.

Instead of armor, they wear sweat shirts and blue jeans. They carry hammers and nails, and bring, among other things, big sheets of wallboard.

The students call themselves the Appalachian Volunteers, a loosely-knit group from 19 colleges who want to do their bit to help.

"We don't have any membership as such. No one carries any kind of membership card," Milton Ogle, director of the group, said.

But what began as a spark with four students three months ago has fanned into a flame involving more than 100 students working on six to eight projects every Saturday.

As a starter, the group decided to work on some of the 1,004 one-room schools in eastern Kentucky, many of them sorely in need of repair. They have organized recreation and health education at some of the schools.

"It's sort of a people-to-people program," Ogle said. The volunteers go only to communities where local residents will pitch in and help.

A $50,000 grant from the Federal Area Redevelopment Administration and donations from private individuals and firms finance the project. The grant is earmarked for salaries. Private donations buy materials.

The students receive only gasoline money and lunch.

The decision on which schools will be worked upon, Ogle said, is made on the answers to these questions:

1. Will the school be eliminated through consolidation within one year? If so, no work.

2. Is the school genuinely in need of repair?

3. Is it reasonably close to the campus from which the volunteers will come.

4. Are the county school board and local residents willing to cooperate?

If the answers to the last three questions is yes, then the volunteers try to work it into their schedule.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — "Papa," he said, "why is that guy standing on the other guy's head?"

"My boy," I replied, "the gentleman agonizing on the floor of the ring is Frankenstein and the gentleman treading on his cranium is The Saint. And the reason for this is The Saint became angry because Frankenstein bit him on the neck."

I do not mind telling you my ten and a half year old heir was aghast at this news.

"Holy cow," he sputtered. "You mean he is a REAL saint?"

"By no means, boy. This is merely the name he uses for the wrestling industry."

"Papa, tell me about when you were a wrestler . . . oh! Look what Frankenstein just did!"

Well, all Mr. Frankenstein did was flip up and plant a heel in El Santo's mouth. And The Saint responded in a most unsaintly manner.

I get lassoed into the grim story of my past every time we enter a wrestling arena. And it goes as follows:

"A few years back, when I was a desk man with the United Press here, I took leave a couple of nights each week and entered into combat under the name of Earthquake McGoon. And since it is a well known fact that newsmen are poverty stricken souls, this side career aroused more sympathy than curiosity.

"Now it so happened," I said, "that your old father was signed for a tag team bout with a gentleman called The Mongol against Mr. Pablo Romero and Mr. Ray Zalvalza."

"Did you win?"

"Don't get ahead of the story. It was a very unfair encounter because The Mongol was a small fellow of only 190 pounds and I was a trim 230. And Mr. Salvalza and Mr. Romero weighed in at something like 240 each. So you can see it was terribly unfair.

"Now The Mongol and I tried various types of strategy in the first fall to overcome this disadvantage. All of which were misinterpreted by the referee."

"You mean you fought dirty?"

"It is very ungentlemanly to question your father's honor in the ring. I mean the referee was near sighted and lacked understanding."

"Okay, you lost. Then what?"

"Why, The Mongol and I conferred at length, wiping each other's bleeding nostrils with towels and concluded it was a situation which required desperate measures.

"Therefore, near the end of the second fall your cagy father maneuvered Mr. Romero into a corner where The Mongol held his arms behind the top rope so Mr. Romero could not escape. The old Earthquake scampered across the ring a number of times, rebounding from the ropes and sailing into Mr. Romero's abdomen. And Mr. Zalvalza became so emotional that it was necessary to deposit a fist on his jowls to keep him from entering the ring, which is strictly forbidden by the rules.

"When Mr. Romero began sagging, The Mongol shouted to belt him on the chin. And it was on this return trip from the ropes that I executed a beautiful swan dive clear across the ring, aiming my head at the sconce of Mr. Romero.

"Unfortunately, Mr. Romero had the foresight to duck but The Mongol didn't."

"Gee, you mean you hit The Mongol?"

"In the face, to be exact. And he fell in the third row from whence he was carried to the dressing room. At that point, Mr. Romero and Mr. Zalvalza extracted me from the ropes where I was hanging by my neck and said, 'dinner is served, Earthquake. Come in and get it.'"

"What did they serve you, Pop?"

"Many knuckle sandwiches. And that, my boy, is how I happen to be wearing these nice plastic teeth in front. Which I remove for a good brushing after every meal. And which remind me constantly that the typewriter is a much safer place than the wrestling ring. Although not nearly so spectacular."

Expert Sees Economy At High Level

HOUSTON (AP) — A former member of the board of governors of the Federal Reserve has predicted the U.S. economy will stabilize at a slightly higher level and unemployment will be somewhat reduced.

Mat S. Szymczak, Washington, D.C., financial economic consultant at Georgetown University, addressed the closing session Wednesday of the 17th annual convention of the Financial Analysts Federation.

He predicted a slight change for the better in the unemployment picture but emphasized that the improvement would not be dramatic.

"Interest rates in the bond market will rise further and that will be followed by a change in the discount rate," he said.

Three other economists agreed on the general theme of the wealthy economy as they spoke before a stock market forecast seminar at the convention.

Gov. Scranton Says Demos In Trouble

PHILADELPHIA (AP) — Pennsylvania Gov. William W. Scranton, taking note of Tuesday's primary election in his state, predicts trouble for Democrats in Pennsylvania next November.

He said "it is quite clear" the Democratic party "is broken to pieces" in Pennsylvania. He added that President Johnson will have "a hard time in his own party" in Pennsylvania next November because of an "internecine fight of major proportions."

The governor, at a news conference Wednesday, also repeated that he is not a candidate for the Republican presidential nomination, despite the write-in vote of more than 220,000 votes—a state record — he received. He said the vote did not change his stand "one iota."

He based his prediction of Democratic troubles in November on the close race between State Supreme Court Justice Michael A. Musmanno and Genevieve Blatt, state secretary of internal affairs, for the Democratic nomination for U.S. Senate. Miss Blatt is holding a slim lead. The outcome will have to await the counting of some 10,000 absentee ballots early in May.

Scranton expressed surprise at his write-in total, which topped a previous state high of 183,073 votes recorded by the late President John F. Kennedy in 1960.

The governor said he guessed his total might reach 40,000; his wife, Mary, guessed 67,000.

The governor will go to the Republican National Convention in San Francisco in July with 62 of the state's 64 delegates pledged to him as a favorite son.

Second only to Scranton's total was the write-in vote for Ambassador Henry Cabot Lodge who polled almost 80,000 votes. His showing was more than double that of Richard M. Nixon, former vice president, and Republican. The only two delegates elected by Republicans in the state not pledged to Scranton as a favorite son are Goldwater men.

But it was the battle by Miss Blatt against the Democratic organization which attracted the most interest in the state.

Incumbent Sen. Hugh R. Scott, Republican, had no trouble winning renomination, soundly defeating W. Henry MacFarland, a fellow Philadelphian, by a margin of almost 8-1.

With all but 19 of the state's 9,261 precincts reported unofficially, Miss Blatt led Musmanno—454,020 to 450,566.

Mr. Carriker: Just One Question . . .

You Say You Are For

PROGRESS . . .

You say you will represent ALL the people . . . WHERE WERE YOU during your county's and our county's effort to obtain a junior college for our counties?

You were sent brochures, personal letters, kept informed on activities in Fisher and Scurry counties. But you never answered.

Our Representative responded to every communication.

If you can't show at least an INTEREST in such a venture, how can you now say that you are for progress?

AND NOW YOU WANT TO REPRESENT US IN WASHINGTON!

Flying Objects Unproved As Alien Space Vehicles

By FRED S. HOFFMAN

WASHINGTON (AP) — The Air Force has investigated more than 8,000 reported unidentified flying objects in 16 years "and has yet to discover any evidence that UFO's represent a threat" to U.S. security.

It also said today that probes of such sightings back to 1947 have failed to turn up any evidence that UFOs are "alien interplanetary space vehicles under some form of intelligent control."

This report was furnished to The Associated Press as the Air Force looked into a new epidemic of strange sightings in the skies over New Mexico.

One of the Air Force's leading civilian consultants on UFO's has gone to Socorro, N.M., to investigate the latest reports. He is Dr. J. Allen Hynek, director of the Dearborn Observatory at Northwestern University.

The latest report on "Project Bluebook," the congressionally ordered Air Force study of unidentified flying objects, extends through 1963.

It shows that over that 16-year span, 7.7 per cent of the 8,128 reported cases remain unidentified.

The Air Force is not conceding that there is anything sinister about these unexplained sightings. It just says, in effect, they can't be correlated with any known objects or phenomena.

It was stressed that a "great majority of the unidentified cases occurred during the first five years of the project," before analysis techniques were sharpened.

Last year there were 382 UFO reports and only 15 are still listed as unidentified.

These included "two objects described as an ear of corn and a banana (which) performed a series of maneuvers near Vandalia, Ohio" last Sept. 15.

Others involved "an unusual observation of four pink wheels" moving west over New Jersey, an object that exploded into a ball of fire near St. Gallen, Switzerland, a recurring series of flashes near Warrenville, Ill., and the like.

Air Force sleuths decided that one woman who turned in a UFO report actually had seen spots before her eyes.

One incident at Fritch, Tex., last August was not strictly a UFO, but it was investigated anyway.

It concerned a heart-shaped mark found on the ground—dark purple, phosphorescent under the sun and smelling of acid. Two rains didn't wash it away.

Air Force analysis showed the material to be eggs of a kind of grass fly.

Sales May Turn Dream To Reality

By JACK LEFLER
AP Business News Writer

NEW YORK (AP)—The automobile industry is dreaming of an eight-million car year in 1964.

Thinking in Detroit is that this dream might turn to reality.

This optimism is based on the booming sales pace that is running ahead of last year, when 7.7 million cars were sold in the United States.

Unless there should be a long strike this summer, it is virtually assured that the industry will ring up its third successive seven-million-plus year in 1964. That has never been done before. In the past, sales have fluctuated from one year to another.

One of the most optimistic statements to come out of Detroit is from George Russell, executive vice president of General Motors Corp.

"Based on the sales performance in the model year to date, and assuming that general business continues to be favorable, there is every reason to expect industry sales of some eight million 1964 passenger cars, including imports, and about 1.4 million trucks," Russell said.

Through last week the domestic industry had turned out 2,790,856 cars this year, a gain of 8.8 per cent over the 2,565,072 assembled in the like period a year ago.

Expectations were that April production would be the greatest in history for the month. Output was estimated at 785,000 units, up 13 per cent from the 691,079 cars built in April 1963.

Nine of Ford's 16 assembly plants were on overtime.

This heavy production pace may be at least partly due to apprehension that a crippling strike could develop when labor contracts expire this summer but none of the motor companies has said so.

BRIDAL COUPLE ADAPT TO CIRCUMSTANCE—In the absence of the bride's father, Prince Carlos of Bourbon-Parma, pretender to the Spanish throne, escorts his bride-to-be, Princess Irene, down the aisle to the altar in Rome's Basilica of St. Mary Major to take their marriage vows. None of the Dutch royal family attended the ceremony because the Dutch government did not want the royal family involved in the contest for the Spanish throne. (AP Wirephoto via cable from Rome)

FCC Says TV Firm Not Exempt

By JOSEPH E. MOHBAT

WASHINGTON (AP) — The Federal Communications Commission is sticking to its guns in a controversy involving the television holdings of President Johnson's family.

It has struck down again a bid by a Texas firm—TV Cable of Austin—to free itself of FCC restriction and compete all-out with KTBC-TV, the station owned by the Johnson interests in Austin.

In doing so, it increased the prospects that a competing firm will win the race with TV Cable for subscribers—and profits—in Austin. And the Johnson interests have an option to purchase half the stock of that competing firm at low cost.

The 6-0 vote Wednesday was another chapter in the lengthening wrangle between two Texas pay television operations seeking to give Austin residents more programs than KTBC, the city's only station, can provide.

KTBC is owned by the Texas Broadcasting Corp., formerly the LBJ Co. Mrs. Johnson—to avoid conflict of interest questions—placed her controlling interest in the company in the hands of trustees shortly after Johnson became President. But control of the station reverts to the Johnson family when Johnson leaves federal office.

TV Cable had asked the FCC to reconsider its earlier refusal to lift the restrictions under which TV Cable must operate in competing with the Johnson station. TV Cable still could continue its fight beyond the FCC in the courts.

TV Cable picks up network programs from three stations in San Antonio and one in Waco with an antenna near Austin. Then it relays them by cable into the homes of subscribers, who pay a monthly fee.

This operation is known as community antenna television. It is aimed at providing more variety—and in some cases television for the first time—in remote areas having few or no television stations.

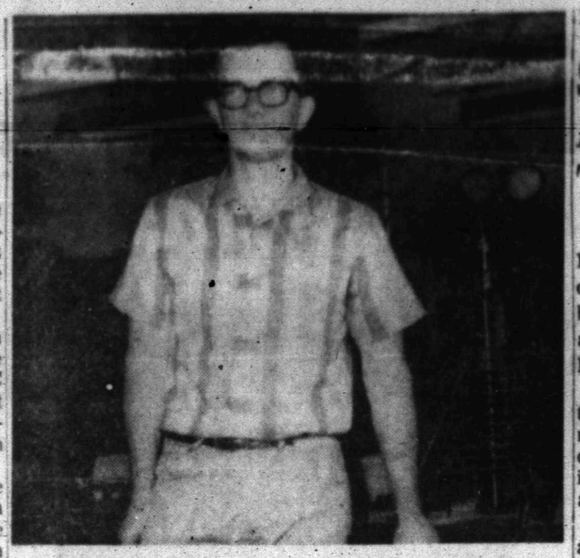

Methodist Church Revises Hymnal

PITTSBURGH (AP) — The Methodist Church is going to have a revised hymnal that includes Negro spirituals, folk music and lower pitch songs rendering easier singing for men.

Delegates to the 1964 general conference of the Methodist Church approved the revision Wednesday.

Houston's Budget Up

HOUSTON (AP) — The City Council adopted Mayor Louie Welch's $77,102,000 budget Wednesday. It is 8.36 per cent higher than last year's $71 million.

SCIENCE WINNER at the regional Interscholastic League competition Saturday in Odessa was Snyder High School student Dwane Butler. He competed there with the two top students from each of the six schools in the district. The examination covered biology, chemistry, physics, and other scientific fields. As a result of his first place at regional, Butler will now compete in the state-wide contest in Austin May 7.

Luci Baines Is Queen Of Apple Blossom Festival

WINCHESTER, Va. (AP)—Luci Baines Johnson is crowned queen of the Shenandoah Apple Blossom Festival today and asked to offer her prayers for a bountiful harvest.

The 16-year-old daughter of the President, surrounded by a court of princesses, maids of honor and a military escort was to take the oath before an expected crowd of thousands. Festival officials were praying, too, for a break in the rainy weather.

The coronation ceremony on the stately columned steps of Handley High School is the highlight of the three-day festival in this apple growing capital.

With State Sen. Harry F. Byrd Jr. as her escort, Luci will kneel on a pillow to receive the crown from Gen. Curtis LeMay, Air Force chief of staff. Her oath includes a promise to govern her domain with prudence and justice.

As "Shenandoah XXXVII, fair queen of apple blossom," Luci will reign over parades, square dances, folk singing and receptions for the next two days.

Festival officials picked a nearby orchard with the best blossoms to provide a background for Luci's coronation day picture.

Sheriff Free After Flight To Mexico

EL PASO (AP) — Paul B. Bone, suspended sheriff of Somervell County, was free on $5,000 bond today after his arrest on a charge of unlawful flight to Mexico to avoid prosecution.

Bone, sheriff-tax collector in the Central Texas county for nearly eight years before his disappearance and suspension, is charged with embezzling about $23,000.

The 37-year-old politician was arrested Wednesday by FBI agents at International Airport as he waited for his wife to arrive by plane. She arrived a few minutes after his arrest.

Bone pleaded innocent to the embezzlement charges when arraigned before U.S. Commissioner Henry Clifton.

He told Clifton he went to Mexico to "think things out" and returned to the United States to surrender on the embezzling complaint filed in Cleburne.

Capt. Clint Peoples of the Texas Rangers filed the unlawful flight charge in Waco. It is a federal charge.

Ed Foreman Honored At USCC Dinner

WASHINGTON (AP) — The U. S. Chamber of Commerce honored Rep. Ed Foreman, R-Tex., at its annual dinner Wednesday night.

Foreman opposed a $5 million federal project in his district to eradicate salt cedar weeds on the Pecos River by asking "Couldn't we do this job ourselves better and cheaper?"

Chamber executive Vice President Arch Booth cited Foreman for having "done important things and stood for significant principles."
