Drainage Near M and 26th Is Council Topic

The city council last night discussed with property owners the rechanneling of rain water flow in the general area of Avenues L and M between Twenty-sixth and Twenty-seventh Streets.

Several lots in this area flood every time there is a rain of any size, Dwight Look, engineer, estimates that this block must handle the run-off from a two-section water shed.

The water flow now moves south on Avenue L across Twenty-sixth Street to Twenty-seventh Street, then west on Twenth - seventh to somewhere in the middle of the block and diagonally across several lots to Avenue M on the

This ditch together with the there the water runs back on Twenty-sixth Street and on into the creek a block away.

The council, before doing anything about this, changing the water's course, must have almost unanimous consent of property owners concerned and those who might be concerned, W. W. Park, city attorney, said. Caution must be used in a project of this kind because of the laws concerning water flow, he said.

Briefly the law provides that whenever the natural flow of water is changed, ample facilities must be furnished to handle whatever overflow there might be in the new channel, Park said.

The word "ample" cause some surprise among the aldermen because of its broad implications.

Four property owners from that area involved were present. The council and this group tentatively agreed that if all the property owners in the block surrounded by Avenues L and M and Twenty-sixth and Twenty-seventh Streets who own land abutting an east-west line down the middle of the block would give the city 10 feet of land on each side of the line, the city would build a drainage ditch three deep down that line.

This ditch togeether with the storm sewer being built on Twenty-sixth Street would handle any normal water flow from rain, it is believed.

The group felt that all property owners would agree to this.

Nolan Wildcat 3 Miles North Of Trammell

Three miles northwest of the Lake Trammell-Canyon 5,200-foot pool in Northwest Nolan County, Skelly Oil Co. has spotted its No. 1 Evelyn S. Cox as a wildcat location.

Drillsite is 660 feet from south and west lines of section 85, block 23, T&P survey. It is eight miles southeast of Sweetwater.

Rotary tools will be used in drilling to 7,600 feet to test the Ellenburger. Operations will start immediately.

STONEWALL WELL

McAlester Fuel Co. No. 1 Mrs. Ella Bunnell is a new 6,100-foot wildcat in Northeast Stonewall County.

Location is 12 miles northeast of Aspermont and 330 feet from north and east lines of the Thomas Constable survey A-62. That makes it two miles southwest of the Old Glory pool.

The projected depth of 6,100 feet is calculated to take the venture into the Bend conglomerate. Rotary tools will be moved in and drilling will be started at once.

ANDREWS WILDCAT

Seven miles north of the Smith-Clear Ford field of Northwest Andrews County, Markham & Cone and others of Lubbock have staked location for a 7,600-foot wildcat.

Drillsite is 660 feet from north and 1,980 feet from east lines of section 23, block A-28, psl survey.

Contract depth of 7,600 feet is calculated to take the prospector into the Clear Fork lime. The location is four miles east of the House-San Andres field of Central-East Lea County, N.M. It will be drilled as Markham & Cone No. 1 Southern Petroleum Exploration fee. Location is 35 miles northwest of Andrews.

PACKER FAILS

An attempted drillstem test on the Stanolind Oil & Gas Co. No. 1 Miller failed yesterday when the packer did not hold. The test was to have been run in the Pennsylvanian reef lime from 8,001-8,040 feet. Operator has conditioned the hole and is now making another effort to run a drillstem test.

The No. 1 Miller is located 660 feet from south and west lines of section 3, block 30, T&P survey and about five and a half miles north and slightly east of Gail.

Also in Borden County, Vickers Drilling Co. No. 1 McKnight is drilling below 5,833 feet in sandy lime. This wildcat ran a drillstem test from 5,580-5,726 feet in the Spraberry, with a recovery of 2,430 feet of heavily gas cut salt water. There were some pin-points of oil in the fluid.

Drillsite is 2,173 feet from east and south lines of section 367, block 97, H&TC survey.

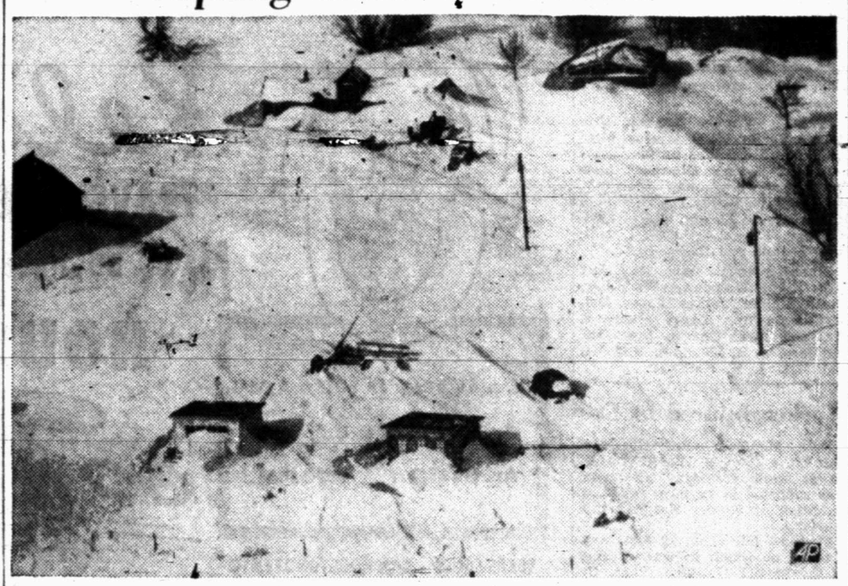

DAWSON WELLS

Atlantic Oil & Refining Co. No. 1 Hardy, wildcat eight miles west of Lamesa in Dawson County, is drilling below 4,730 feet in lime. It is projected to go to 10,500 feet to test the Pennsylvanian. Well site is 660 feet from north and east lines of tract 57, league 277, Higginbotham - Harris survey, subdivision No. 1.

Sunray Oil Corp. No. 1 Harris,

(See Oil News Page 8)

Spring Comes to Minnesota

Deep snowdrifts bring life to a standstill on this farm near Wheaton, Minn., typical of many in Minnesota marooned by three blizzards in eight days. Field operations normally would be under way on this first official day of spring. Instead, vehicles are almost buried in paralyzing drifts. This picture was made from a Civil Air Patrol plane, one of several answering emergency calls, mostly for food and fuel, from isolated homes in southern and western Minnesota.

French Army Leaves Cancelled In Effort To Halt Train Strike

By The Associated Press

PARIS, March 22. — France cancelled leaves for all army and police personnel today as a strike halted 80 per cent of the country's trains.

Those on leave were ordered immediately to rejoin their units, or the nearest unit they could find. Premier Henri Queuille, as interior minister, ordered the action after a series of conferences with ministers and labor leaders concerning the nationwide strike wave, which appeared to be spreading.

MORE STRIKES

Workmen in the nationalized gas industry, who struck in Paris Monday, extended their stoppage today to Lyon, Rouen and Reims. At Bordeaux there was no garbage collection this morning.

Food supplies continued to reach the great Paris market by truck and efforts were being made to keep a few trains running.

But Easter traffic from abroad was seriously threatened.

STEPS

Faced by a call for a general railway walkout, issued by the non-Communist and predominantly Socialist Workers Force (Force Ourriere) the government:

(. Requisitioned (drafted) several thousand key railway personnel to stay at their jobs on the government-owned rail system or face heavy fines and jail terms.

2. Set in motion a prearranged network of truck and bus services to replace as far as possible threatened loss of rail transport.

3. Promised to establish a new national minimum wage applicable to rail employees as well as to other workers in nationalized concerns. A decision on this was set for Friday.

See Production By Next June

Completion of the Snyder Gasoline Plant, three miles northwest of the city, is now in sight, and the plant probably will be in production early in June, E. J. Mills, superintendent, said yesterday.

Originally completion of the plant was planned for May 4, but difficulty in getting materials slowed some phases of the work, Mills said.

When completed the plant will process daily 70 million cubic feet of flare gas from some 900 oil wells each day. Products are to be natural gas, for sale to gas distributing companies, natural gasoline, butane, propane, and isobutane.

Twenty residences have been completed at the plant site, and about 10 have been occupied by permenant employees and their families. The remaining houses are expected to be occupied soon, Mills said.

A 135-mile pipe line net work which will gather flare gas to the plant is virtually complete, Mills said.

Vandenberg At Home Ill As He Becomes 67 Today

GRAND RAPIDS, Mich., March 22. (AP)—Sen. Arthur H. Vandenberg became 67 years old today still gravely ill at his home here.

The Michigan Republican, who has undergone a series of major operations in the last 17 months and suffered a setback Feb. 26, was reported slightly improved yesterday.

However, his personal physician, Dr. A. B. Smith, said "the senator's condition is about the same. The remission of symptoms has extended throughout the day."

Vandenberg, an expert on foreign policy, will complete 23 years in the Senate March 31.

Big Four Deputies Are Still Tied In Deadlock

PARIS, March 22. (AP)—Discouraged but unwilling to talk about quitting, the big four deputies try again today to break the deadlock over wording of an agenda for the proposed foreign ministers meeting.

Yesterday's session was a complete loss as far as results were concerned, a western spokesman said. Soviet Deputy Andrei Gromyko spent two hours and 10 minutes repeating arguments he has used many times in the past.

President Due Home From His Florida Visit

By The Associated Press

KEY WEST, Fla., March 22.—President Truman today put away his swim trunks and sun tan oil to leave Florida's sunshine for the political storms awaiting him in Washington.

He takes off from the Boca Chica Naval Air Station at 2 o'clock this afternoon to end a three-week vacation far removed from the troubles besetting his administration in Congress.

The President, deeply tanned and cheerful, appared physically fit for the encounters ahead as he talked with reporters upon his return last night from a cruise to Fort Jefferson in the Dry Tortugas aboard the destroyer Sarsfield.

He apparently didn't know it, but he narrowly missed being marooned overnight on Garden Key, on which Fort Jefferson stands.

The skipper of the 63-foot crash boat, "Big Wheel," which ferried the President to and from the island to the destroyer, anchored two miles off-shore, told the story.

"The water got so choppy after we put the President aboard the Sarsfield that if we had waited five minutes more we wouldn't have been able to get him off the island, Quartermaster 1-C Joseph D. Elmore of Tacoma, Wash., told reporters.

The President, however, said it was a fine trip, and that while the destroyer went through rain squalls going and coming, we had bright sunshine at Fort Jeffersn." He and his staff had a picnic lunch.

The President seemed cheerfully unconcerned that he looks a little heavier than his official weight of 176 pounds.

Upon his scheduled return to Washington, shortly after 5 o'clock, he will go immediately to the Blair House to spend the Easter week end with Mrs. Truman and his daughter, Margaret.

Presidential Secretary Joseph Short said the President likely will have a few engagements at the White House tomorrow and Saturday; but he didn't know whether there will be a cabinet meeting tomorrow.

Borden County Session Of District Court To Hear Theft, Arson Cases

Among the criminal cases slated for trial Monday at the first session of the 132nd district court at Gail, Borden County, will be four felony theft cases and one of arson.

The four charged with felony theft are C. C. (Ed) Burge, 38, of Albany; . H. Castleberry, 28, of Lovington, N.M. ;Gerland Paulsen, 20, Albany, and H. W. White, 35, of Seagraves. The quartet was apprehended in connection with the theft of about $16,000 worth of casing on Jan. 28, from the McAdams lease in Borden County. They were arrested by Sid Reeder, sheriff of that county, with the assistance of other officers.

The case of Dudley E. Powell, 40 of Shallowater, Tex., charged with arson, is also scheduled for trial. Powell is alleged to have set fire to pastureland in Borden County, about the same time similar fires were found in Scurry County and subsequent charges filed here.

The Borden County grand jury has already indicted the five men.

A petit jury has been called for Monday to try them.

Prowlers Gain Entrance Into RFC File Room

By The Associated Press

WASHINGTON, March 22.—Midnight prowlers were reported today to have gained access recently to confidential files of the Reconstruction Finance Corp. (RFC).

The files contain many confidential documents, some of them related closely to a Senate investigation of RFC affairs. Highly placed sources, declining to be named, told the story. Top officials of the big government lending agency were not immediately available for comment.

Qualified informants said it has not been determined whether any documents were stolen, but that the prowlers' visit explains the recent installation of special locks and a burglar alarm on the files.

A severed chain on a door leading to the file rooms gave evidence of the prowlers' visit, they said. They did not date the incident.

Senators debated, meanwhile, whether the RFC needs a new name as well as a change in top management to restore it to public confidence. They are considering President Truman's proposal to replace the five RFC directors with a single administrator.

Child Slayer Is Executed

JACKSON, Miss., March 22. (AP)—A former dairy herdsman, convicted of poisoning his granddaughter for her insurance, died in the state's portable electric chair early toay.

Dark-haired Houston Robert protested his innocence. He was convicted of mixing poison with medicine being given five-year-old Mary Louise Hill. The state contended Roberts wanted to collect the child's insurance to finance a love affair.

The 44-year-old slayer remained in a strait-jacket until a few minutes before the execution. He had tried to end his life Saturday by slashing his wrists.

He mumbled "bye bye" shortly before the first charge of electricity was sent through his body at 12:06 a.m. (CST). Five minutes later he was pronounced dead.

Gov. Fielding Wright refused to intervene in the execution despite pleas of the slain child's mother—Roberts' daughter, Mrs. Gladys Hill.

Hiss To Start Doing Time On Perjury Count

NEW YORK, March 22. (AP) —Alger Hiss, one-time bright young star of President Roosevelt's new deal, surrendered today to begin serving a five-year prison term for perjury.

The 43-year-old former high State Department official — his appeals to the higher courts rejected—gave himself up to Federal Judge Henry W. Goddard.

PERJURY COUNTS

Hiss was convicted Jan. 21, 1950 on two counts of perjury. The conviction, in effect, branded him a liar and traitor who betrayed his country by turning over government secrets to Whittaker Chambers, admitted courier of a Communist spy ring.

The courtroom proceeding lasted less than half a minute. David Sweeney, court clerk, called out Hiss' name and the lanky, convicted perjurer surrendered himself into the custody of Chief U. S. Deputy Marshall Tom Farley.

SMILES

Asked if he had any statement to make, the ex-diplomat smiled and said:

I have nothing to add to the statement which I issued when the Supreme Court denied certiorari."

Hiss then soutly maintained his innocence and expressed the belief that in time his name would be cleared.

Hiss then stoutly maintained his sat waiting for his name to be called.

Hiss, handsome and brilliant, was convicted after two trials, the first of which ended in a deadlocked jury.

Bill For A New County Court Is NotBroughtUp

A bill to create a new county court at law here is still in the state senate pending call to the senate floor from the docket of uncontested bills, Pat Bullock, state senator from Colorado City, was quoted as saying yesterday.

Robert Patterson, Snyder attorney, said this morning, that he had telephoned Bullock yesterday at the request of several attorneys here, and that Bullock informed him of the status of the bill.

The bill was introduced by Sterling Williams, representative from Snyder, recently and passed the state house of representatives without opposition about two weeks ago.

Wednesday of each week is "house bill day" in the senate, the day of the week in which bills originating in the house of representatives are called to the senate floor for action. This bill, however, was not called from the docket yesterday, Bullock said. Whether it will be called next week is not known.

If the bill passes the senate and is approved by the governor, Scurry County will have a new county court set up to be presided over by a judge appointed by the commissioners court. The bill was proposed because of crowded docket conditions due to the many and various duties required of the county judge.

Television Enthralling

PHILADELPHIA, March 22. (AP)—James Dunn was enthralled by the televised proceedings of the Senate Crime Investigators in New York. So much so he didn't even notice that his house was on fire.

The blaze had spread from a shed to the second floor and all across the roof before Dunn realized what was happening. It took firemen an hour to put out the flames. The house and its furnishings were heavily damaged.

St. Louis Man Named In Costello Testimony Denies He Knows Him

Patrol Fights Out Of Trap Set By China Reds

By The Associated Press

TOKYO, March 22. — An American tank-infantry patrol with mine-hunting engineers today shot its way out of a Communist ambush less than three miles from the Red Korean border.

The tanks were moving up one side of the Pukhan River north of Chunchon and the infantry were plodding along the opposite bank when the Reds opened fire.

From high ground they poured machine gun, rifle and mortar fire on all sides of the patrol.

WALKED IN

They let us walk into the trap and then they sprang it," said Corp. Charley Hamilton, Virginia City, Va. Our tanks opened up on the hillside with everything they had, but it didn't stop the Chinese.

Enemy fire was all around us everywhere we turned. We finally scrambled across to the tanks and they kept the Chinese down on one side while we moved out.

The tanks pulled back to Chunchon, carrying the wounded.

Lt. Gen. Matthew B. Ridgway, commander of the U. S. Eighth Army, disclosed that it was U. S. First Cavalry troopers who occupied Chunchon Wednesday.

GET MIG

In the air, American Sabre Jet fighters probably shot down a Russian-built MIG-15 jet and damaged another over Northwest Korea.

An estimated 6,000 Reds were reported dug in six or seven miles north of Chunchon.

The bulk of the Communist troops, however, appeared to have pulled back north of Parallel 38.

But in the west, the Reds were getting set for a strong stand south of the parallel.

Former Communist

Movie Actor Larry Parks admits before before the House Un-American Activities commtitee in Washington that he was a communist party member 10 years ago, but later quit. He was first witness in reopening of probe into Red influence in the movie capitol.

New Water Well Will Be Perforated Again

Casing was being pulled today on city water well No. 27 for further perforation in preparing for a test on the well later this week, W. J. Ramsey, city superintendent said.

The well, located about 600 feet west of the city's best producer, was drilled and cased last week.

However, it is believed that part of the water bearing sand or water stream was cut off from the well because perforations in the casing did not extend the full depth of the water sands.

Attempts to bail the water from the well during drilling failed to lower its water level when 90 gallons per minute was being bailed from it.

Members Appointed To KeyChamberCommittee

The civic improvement committee of the Chamber of Commerce held its first meeting yesterday with the chairman, Wayne Boren, presiding.

The committee, one of the most important in the chamber set-up, includes the following members:

Herman Doak, Bob Dupree, Hollis Fields, Leighton Griffin, Claude McCormick, Renal Rosson, Joe Stinson, and Olin Vinson.

O'Dwyer Not Resigned

KEY WEST, Fla., March 22. (AP)—A White House spokesman queried last night on whether William O'Dwyer would resign as ambassador to Mexico, said:

"He has not resigned and there is no undated resignation."

Moran Resigns $15,000 Job Under Fire

Senate Committee Gets Testimony Linking Gambling and Politics

By The Associated Press

WASHINGTON, March 22. — James J. Carroll of St. Louis denied to Senate crime investigators today he did business with Bookmaker Frank Erickson of New York or that they were members of a nationwide "betting syndicate."

He also said he does not know New York Racketeer Frank Costello or West Coast Gambler Mickey Cohen.

John Burling, committee associate counsel, then read from testimony Erickson gave another Senate committee last April. He noted that Erickson, in telling of his friendship with Carroll, said "We do business with one another."

ERICKSON IN JAIL

Erickson is now in jail on a state gambling conviction.

Carroll said "I do not do business directly with Mr. Erickson." He said Erickson "does business with Mr. Mooney."

This apparently was a reference to John Mooney of St. Louis. The committee has said Carroll has some part in Mooney's business operations.

Carroll said that many, many people believe they are doing business with him when actually they are not.

"You mean they do it with Mooney?" asked Burling.

"That's right," Carroll replied.

The committee's probing into betting operations was punctuated at one point by a demand from Sen. Hunt (D-Wyo.) that top telephone company executives be called to tell what they know about the use of telephones for gambling operations.

MORAN QUITS

The committee shifted its hearings back to Washington after an eight-day session in New York city which was still bringing political and other repercussions.

In New York, James Moran resigned as water commissioner under demands from Mayor Vincent R. Impellitteri. It is a $15,000 a year lifetime job.

The mayor fired his demand as a result of testimony from John P. Crane, president of the Uniformed Firemen's Assn., that he gave Moran $55,000 as a "good will" gift.

Moran had denied it.

Crane also testified he gave $10,000 to then Mayor William O'Dwyer. Now U. S. Ambassador to Mexico, denied that.

Here in Washington, the AFL International Assn. of Fire Fighters demanded that Crane resign as a vice president. President John P. Redmond gave him until noon tomorrow to get out of office or be removed.

TV ARGUMENT

Carroll, who modestly acknowledged that he has a reputation as something of an "expert" on some phases of horse race betting, told the senators they were wrong if they thought big bookies used "come back" men to force down the track odds on long shots.

The St. Louis odds men, who once refused to testify in his home city because TV cameras were trained on the witness chair, talked today after losing another argument over broadcasts.

Blanket Wheat Loss Predicted In The County

The prlonged drouth is slated to cause a blanket wheat loss in Scurry County, according to O.M. Fowler, county agent, today.

"What little wheat that had been planted has died for lack of moisture, and unless there is a soaking rain within the next few weeks, the cotton crop will be seriously affected," said the county agent.

"While its not to late for a big cotton yield, the ground is in need of sufficient moisture for the proper preparation by the farmers," he said.

One cotton grower told Fowler that unless it rains shortly, not a single boll in his field will be seen this year.

The last measurable rain in the county was in September when a total of 4.20 inches was recorded. There has been no precipitation since Sept. 25 of any consequence.

To Call New Labor-Management Conference On Wage Controls

By The Associated Press

WASHINGTON, March 22.—Mobilization leaders studied today whether to call a full-dress labor-management conference here in a final effort to get the stalled wage control machinery running again.

Industry leaders said it is apparent such a meeting—taking in representatives of unions, management, government and the public—must be called before the crippled Wage Stabilization Board can be revived as a disputes-settling agency.

Eric Johnston, economic stabilization administrator, answered questions on the issue by saying:

"We have some things in mind but we're not ready to discuss them."

Organized labor demands that the nine-member wage board, paralyzed by the walkout of its three labor members be reorganized to settle labor disputes as well as to fix wage ceilings. Johnston so far has failed to get either labor or management to agree on a compromise. He has proposed an 18-member board of labor, industry and public representatives having limited disputes settlement powers.

Johnston, taking to the radio tonight (10:45 p.m. EST), was reported to be planning a strong appeal to labor and industry groups to resolve their differences and settle the disagreement.

Some officials have predicted President Truman will issue an order carrying out Johnston's compromise proposal. But a new problem arises: Whether, under the Defense Production Act, Mr. Truman could act without first having called a formal labor-management meeting.

The law specifies that the President shall act only after receiving recommendations from conferences among labor, management, public and government representatives. Some officials believe that the frequent meetings called by Johnston in the last month in his efforts to solve the dispute would fill this legal requirement.

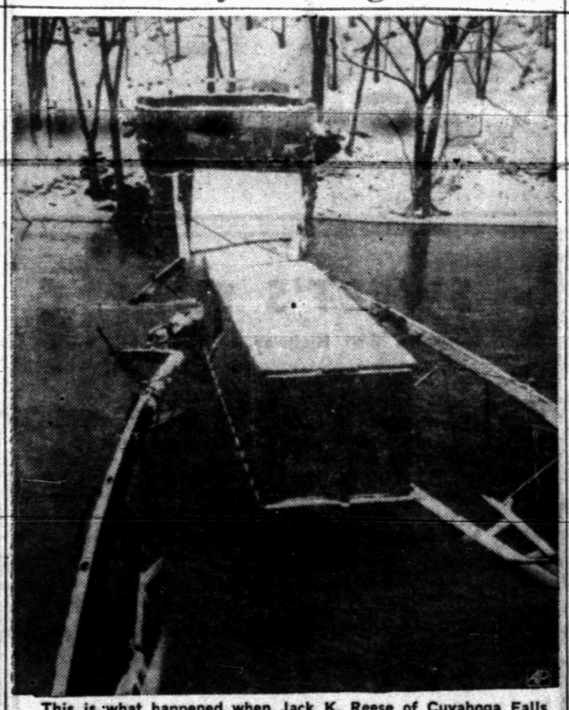

OTHER CONTENTION

Others contend that a formal full-dress conference must be held. Despite unofficial reports that the Justice Department holds the latter opinion, Johnston told reporters he does not believe this question has been decided finally.

Management evidently feels it has been. One leading spokesman for industry predicted the meeting will be called "within a week from today."

Johnston returned only yesterday from a conference with Mr. Truman in Key West. The ESA administrator said he had made a full report" to the President, but gave no hint whether they had agreed on any course of action.

Didn't Stay On Right Road

This is what happened when Jack K. Reese of Cuyahoga Falls lost his way and drove his truck over this rickety old bridge on Ford Road near Elyria, O. Although he suffered a serious back injury, the Direct Transportation Co. of Akron, O. The bridge for several years has been reported unsafe for heavy vehicles. Reese managed to swim ashore. His unloaded truck is owned by

Two Injured In Explosion

Two men were injured about 2 o'clock this afternoon in an explosion of a 60-gallón drum at the Snyder Gasoline Plant, three miles northwest of the city.

Those injured were B. F. Fincher, 42, and J. B. Briscoe, 43, of Lubbock, both employees of the Fluor Corp. Physicians at the Snyder Hospital, where they were taken for emergency treament, said Fincher suffered fractures of seven or eight ribs, a punctured lung, and deep lacerations. Briscoe suffered severe burns of both legs.

Physicians said both were in critical condition, but Fincher's condition was the more serious.

Employees of the Flour Construction Co., which is building the plant, said the drum, which had once held anti-freeze but had only fumes in it at the time of the explosion, was ignited while workmen were welding pipe nearby.

It was believed that the drum was being used to support the pipes which were being welded.

The explosion blew one end out of the barrel. The accident occurred near a fractionating tower at the new plant.

Weather

WEST TEXAS—Partly cloudy this afternoon, tonight and Friday. Not so warm in Panhandle and South Plains Friday.

EAST TEXAS—Partly cloudy and a little warmer this afternoon and tonight. Friday partly cloudy, a few scattered showers in northeast portion and near upper coast. Not quite so warm extreme northwest portion. Fresh southerly winds on the coast.

TALK OF THE TOWN

By FRANCES BIOW

"Clubwomen need to be as wise as Hollywod actresses about make-up tricks if they wish to avoid the ghostly effects of stage lighting," is the advice doled out by movie makeup expert Max Factor, Jr.

"When you rise to the rostrum to address your club, make a plea for funds, rally the vote, act as mistress of ceremonies, or gracefully accept the winner's award, the spotlight no doubt will be on you. You must prepare for it by using the right makeup."

• • •

What can you do to keep your features from blanching out in the sharp white of a press flashbulb, your face from fading into the eggshell paint on the wall behind the dias, or the reflecting of red, white and blue stripes from stage bunting on your face?

First step, says Mr. Factor, is to wear a foundation at least two shades darker than you normally use, a darker eye makeup, and a lipstick that is bright red to combat the blanching effects of stage lighting. It also will help play down any unusual reflections that are cast on your face.

• • •

Most women look well in a becoming sun-tan shade of makeup and it isn't a bad investment even if your speaking engagements aren't too frequent. You can haul it out again come summer to complement your suntan.

If you speak from an elevated platform (and this is important) be sure to carry yuor dark makeup well under your chin and down your collar line to avoid an unlovely contrast from the chin down, warns Factor.

Lip and eye makeup should bear an artistic relationship to each other in size and depth of accent, he says. The speaker who wants her brows to look all-there to her audience in the back row should expect just as much for her mouth.

The best way to make eyebrows look fuller is to build them up with two pencils, one black with a very sharp point and one brown with a full, almost flat point. Use the brown pencil to draw on your background shade very lightly. This is followed by using short hair-like strokes with the sharp-pointed black pencil. Browns should then be brushed carefully to reduce sharpness and blend into the brown background.

• • •

Use a lip brush, if you need to build up your lip line. Factor suggests stroking on lip rouge in one direction toward the mouth in order to eliminate color spikes around the edge. There is a lip gloss, a colorless coating for lip makeup which helps define the mouth and safeguard both color and sheen while speaking.

A clear, red lipstick will best hold its own against the color draining effects of light, and will clash least with the corsage you are likely to be handed. "If you are presented with a corsage that isn't too harmonious with your makeup, there's an easy way out of your delemma—just pin the corsage to your waistline where the possibility of color-clash is much more remote than if the flowers were nesting at your neckline."

• • •

A facial does something for a woman's spirit as well as for her wrinkles and blemishes! A facial to Grandma meant buttermilk smeared on under a clean rag at bedtime, or perhaps even the dubious pleasure of raw egg white applied to any stray freckle or bump.

• • •

One of the very new facial astringents, just marketed, is lime colored and feels as cool as it looks—a big improvement over the mud mask Ma made. It doesn't need to be rubbed into the skin. You smooth the cream lightly over your face and neck. When your skin tingles, the mask has begun its work. After it is dried it is rinsed off with clear, cool water. The astringent action of most masks is very rapid and they need not be left on too long to accomplish their good work.

The housewife will find that such a facial mask, applied ten minutes before the man returns for dinner, will allow her just enough time for powder and lipstick be-

fore she greets him at the door. The girl who toils in an office will be grateful for that last-minute facial cocktail to perk her up for a 5 o'clock date.

• • •

Spaghetti seems to be a lost dish in Snyder. Now and then, some enterprising hostess throws a spaghetti supper, but it's not a common item on the West Texas bill of fare... Seems in Italy a spaghetti "war" is raging around the toutists in Rome, Naples, and other big cities. Menu writers and chefs are trying to see who can contrive the most appetizing variation of the centuries-old king of the Italian dining table. Tourist-happy restaurants have called to the colors a host of enticing dish names to trap the unwary gourmet.

• • •

Pasta (dough) is the general term for macaroni, spaghetti, vermicelli, etc. A formidable aggregation is arrayed against just plain old spaghetti—which you can have with butter or tomato-meat sauce in any popular restaurant for 180 lire (about 30 cents.)

You might see "maccheroni alla cocottesca", which in plain English would be "macaroni a la flirt". The dish is a spiced up concoction which includes fresh tomatoes, olive oil, garlic, origan (oregano), anchovies, olives, capers and red peppers—all plus macaroni.

• • •

There are a dozen others such as spaghetti alla papalina (skull cap), linguettine alla campagnola (country style), linguettine al carrettiere (cart driver). Oh well, according to the better sources, there are at least 500 recipes for pasta dishes. Modern machines turn out the dough base in 180 different types—long, short, clyindrical, stamped, pressed, etc.

Before the weather grows too warm to make the spaghetti dishes unappetizing, why not try your hand at a real Italian spaghetti treat? There's no better eating (economical too) for a cool night with the gang all invited, informality the keynote.

The National Geographic Society says Russia has taken in territory more than equal to New England, New York, Pennsylvania, Maryland, Virginia and North Carolina in area since World War II.

Fashion Talk At Cosmorama Luncheon Meet

Cosmorama Study Club heard a fashion talk by Mrs. Dalton E. Hill at its Easter luncheon at the Village yesterday.

Mrs. Hill, manager of the Hollywood Shop, gave current spring trends and advice about choosing materials and styles.

Mrs. Max West, chairman for the day, had arranged the program. A guest was Mrs. Bruce Murphy of New Mexico, a former resident of Snyder.

The luncheon table was decorated in pastel-colored daisies, greenery running the length of the table with miniature chicks to carry out an Easter theme.

Members present were Mrs. H. F. Clark, Jr., Mrs. Fred Bullard, Mrs. John Lynch, Mrs. James Rosser, Mrs. Scott Casey, Mrs. Rich and Brice, Mrs. Holman Odom, Mrs. John Boren, Mrs. Renal Rosson, and Mrs. E. J. Richardson, Jr.

Mrs. Odom expects to entertain the club April 4.

Story and Music For Art Guild Program

"Behold, The Man", a moving Easter story, was narrated Tuesday night by Mrs. Jesse Lemons at a meeting of the Art Guild at the home of Mrs. M. H. Roe, 3107 Avenue U.

Also on the Easter program, directed by Mrs. John Pratt and Miss Polly Harpole, was "Easter Parade," sung by 5-year-old Melody White, and two selections sung by Mrs. Roe and Mrs. Robert White. Miss Harpole accompanied at the piano for all the numbers.

The hostess had decorated her home with a large Easter lily, with a pot plant of hyacinths nestled in Easter bunnies and eggs. A plate of cocktail sandwiches, garnishes, homemade strawberry shortcake, and triangle cookies was served.

Others present at the meeting were Mrs. Porter King, Mrs. Nolan von Roeder, Mrs. Silas Devenport, Mrs. Ivan Gatlin, Mrs. Dan Hamil, Mrs. Carl Herod, Mrs. Harry Lee, Mrs. Armor McFarland, Mrs. C. N. Popnoe, Mrs. Dell Smith, Mrs. M. E. Stanfield, Mrs. Ben Thorpe, Miss Ethel Mae Sturdivant, and Miss Katherine Northcutt.

Mrs. Dell Smith, 3108 Avenue T, will entertain April 3 with a program led by Mrs. Devenport.

Easter Egg Hunt At Birthday Party For Jimmy Tom Moss, 4

Mrs. Jim Moss, 3749 Avenue V, honored her 4-year-old son, Jimmy Tom Moss III, with a birthday party Wednesday.

The children had an Easter egg hunt. The birthday cake was decorated with an Easter bunny, and the children received an Easter egg with a toy hidden in it for a favor.

The one's attending were Jimmy Feather, Don Everett, Patricia Kruse, Gerry Kruse, Jean Annie Wright, Carolyn Wright, Thyron Pickering, Kirby McCravey, Mike Cowart, Susie Cowart, Charley Brown, Ruthie Bryant, Tom Bennett, Gary Martin, Jimmy Dick, Janis George, Tommy McMath, and Lana Brown.

The mothers attending were Mrs. LeRoy Brown, Mrs. Dub Everett, Mrs. H. J. Schulze, Mrs. Vernon Pickering, Mrs. David Cowart, Mrs. Bill Brown, and Mrs. Jim George.

Refrigerator Bought For Fire Department

The city council last night approved the purchasing of a $139.65 refrigerator for the fire department.

Lone Star Gas Co. gave a discount to the city, making their price the lowest of three submitted.

Mr. and Mrs. M. H. Roe, 3107 Avenue U, had as week - end visitors Mr. and Mrs. H. C. Michael, Jr., of Sweetwater, former residents of Snyder.

Kitchen Shower Given Mr. and Mrs. Collier

Mr. and Mrs. Keith Collier of Fluvanna were honored with a kitchen shower last Thursday. The party was given in the home of Miss Delphene Hataway. Hostesses assisting here were Miss Nelva Herring, and Miss Rona Merle Bley.

The honoree, Mrs. Collier, is the former Miss Janice Hughes.

Games of canasta and 42 were played. The hosteess served light refreshments.

Present were Jo Hughes, Miss Bonnie Holder, Billie Weston, Miss Sybil Ann Bley, Miss Barbara Reeder, Miss Eleanor Browning, Miss Doris Caldwell, Silas Flournoy, Bobby Glass, Buddy Drum, Jackie Hunnicutt, Ed Kerley, Don McDonald, Don Franklin, Jackie Pylant, Billy Pylant, and Dalton Ball.

Others present were Ray Jay Ball, Eddie Watson, J. W. Miller, Jackie Holder, James Blover, Delbert Hataway, Albert Hataway, Mr. and Mrs. Charlie Bley, Mr. and Mrs. J. R. Meadows, and Mr. and Mrs. I. N. Hataway.

Worker Injured In Fall

Pete Medford, Fluor Construction Co. employee who was injured at work yesterday afternoon, was reported to be in satisfactory condition at Snyder Hospital this morning.

Medford fell about 12 feet from a tower on which he was working at the Snyder Gasoline Plant. He fell on a steel rod, which passed through his left leg. He was taken to the hospital by a Dennis Funeral Home ambulance.

Mrs. McGrew to Speak At Garden Club Meet

"One of the easiest flowers to grow in this town is the gladiolus, which takes very little water, no enrichening of the soil, and, when planted at two-week intervals will bloom continuously for you all summer!" said Mrs. V. V. McGrew.

Mrs. McGrew will speak on the culture of gladioli at a meeting of the Snyder Garden Club tomorrow.

The group will take breakfast at the Village at 9:30 o'clock. They will also hear Mrs. D. S. Bodie speak on the care of house plants. Miss Myrtle Harrell, president of the garden club, said.

Getting A Toe Hold

Cliff Kays (left), Seattle Prep guard, shows pain from having the toe of Allen Perry, Yakima forward, solidly planted in his side while trying to retrieve the elusive ball during the state high school basketball tournament at Seattle, Wash. Yakima won the semi-final game of the tournament, 40 to 36.

Cohen To Talk To His Lawyers About Attending Texas Hearing

AUSTIN, March 22. (AP) — Gambler Mickey Cohen had an official invitation today to be the first big witness in a Texas crime probe—but some folks doubted he would show up without more legal urging.

While attending a funeral in El Paso yesterday, Cohen was handed a subpoena ordering him to appear here next Tuesday before a Texas House investigation committee.

"Those people in Texas will do practially anything for publicity," Cohen said after he returned to Los Angeles last night. But he said he would discuss the Texas subpoena with his West Coast lawyers.

DOUBTS APPEARANCE

State Rep. Clyde Whiteside of Seymour, Tex., author of the resolution creating the probe, said he doubted Cohen would turn up in Austin Tuesday.

"But if he fails to appear," Whiteside said, "I think we can get Gov. Warren of California to agree to extradition — assuming that Gov. Shivers (of Texas) will go along with us."

The Texas attorney generals office informed the committee that its orders could be backed up in court. Anyone wilfully failing to appear when ordered to do so could be fined $100 to $1,000 and imprisoned 30 days to 12 months.

DEEP

Whiteside's resolution calls for a statewide inquiry into organized crime. It says indications point to "powerful underworld interests" having thrust deep into "the very heart of Texas."

"This thing is crazy," Cohen told reporters in Los Angeles. "I can't tell those people anything about gambling or anything else in Texas."

The subpoena was served by Sheriff Jimmy Hicks while Cohen was in El Paso to attend the funeral of City Det. Ralph Marmolejo, Jr., killed Sunday night in a gun battle with three men he was investigating. After Marmolejo was fatally wounded he shot and fatally wounded Oscar Pichardo, 27.

Little Luck In Cutting Budget By The House

By The Associated Press

WASHINGTON, March 22. — Holiday absenteeism was blamed today for slowing down a House drive to cut President Truman's $71,600,000,000 budget for the fiscal year 1952.

Rep. Taber of New York, Republican spearhead of the cutting move, was disappointed but not discouraged by the initial results — a cut of 1.3 per cent in the first departmental appropriation bill passed this year by the House.

"We would have done much better if the members had stayed here a little longer instead of leaving early for the Easter recess," Taber told newsmen. "Perhaps it was just as well, because a few days at home with the voters will convince the members that the people want economy."

ENDS APRIL 2

The House Easter recess, ending April 2, got under way for most members yesterday after the House passed and sent to the Senate a bill to finance the Treasury and Post Office Departments for the year starting July 1. Officially it starts at the close of today's "no business" session.

Taber noted that only a little more than half the House membership was present when the bill was passed by voice vote. Many had left for home earlier in the day.

As it left the House, the bill carried $2,918,827,000, or about 1.3 per cent less than the total requested by the President. Of the $39,298,000 trimmed out, only $2,773,000 represented cuts made by the House itself. The appropriations committee had reduced the bill by $36,525,000 before sending it to the floor.

IN TREASURY

All the House-voted reductions were in Treasury Department items. The Post Office Department escaped the drive on the House floor although it took a $25,374,000 cut from the appropriations committee.

At one time the House, with Republicans and many southern Democrats voting together in what Speaker Rayburn of Texas described as a "honeymoon," decided to slash $22 million from the postal operating fund.

But it changed its mind later and restored the cut by a vote of 138 to 136 when the bill's handlers forced a roll-call.

TOTALS

The bill's final total included $2,335,500,000 for the Post Office Department and $583,327,000 for the Treasury.

The President had asked $2,360,874,000 for the Post Office and $597,251,000 for the Treasury.

In addition, the bill carries an estimated $11,500,000,000 in permanent appropriations covered by existing law. The largest of these fluctuating items is interest on the national debt, estimated to be $5,800,000,000 for next year.

Nobel Prize Winner In Physics Turns 83 Today

PASADENA, Calif., March 22. (AP) —Dr. Robert A. Milliken, Nobel prize winning physicist, is 83 today.

Still going strong, the co-founder of California Institute of Technology will attend an industrial relations conference today in Los Angles. He also is working on a new edition of his autobiography, soon to be published in England.

No Agreement By UN Group

SANTIAGO, Chile, March 22. (AP) —Delegates to ECOSOC—the United Nations Economic and Social Council—headed home today from their first meeting in Latin America. Their four-week session here has produced no more agreement between Russia and the West than had any other UN get-together.

The hottest clash came over rival resolutions to investigate forced labor conditions in the world. The council adopted, over Soviet bloc opposition, a British-American plan for an investigating committee appointed by UN Secy.-Gen. Trygve Lie and the director-general of the International Labor Organization (LIO).

Russia wanted committee representation according to labor union membership in the various countries, a plan permitting government-controlled unions in the Soviet bloc to dominate the investigation.

Western speakers charged the Soviet Union with using from 2 million to 20 million slave laborers.

Club To Stag Dinner As Unit

The Kiwanis Club at its luncheon meeting yesterday at the Manhattan Hotel voted to go in a group to the Texas Technological College athletic department dinner at 7 o'clock Wednesday night at the northwest elementary school.

The meeting, to be sponsored by all Snyder service clubs, will be a stag affair. Dr. D. M. Wiggins, president of the college, will be master of ceremonies.

The purpose of the meeting is to acquaint people of this area with the athletic department of the college.

DeWitt Weaver, recently named coach, will introduce the members of his athletic staff and athletic committee.

Sammy Baugh, famed Texas football star, will be one of the speakers. He is a member of the Texas Tech Foundation's athletic committee.

The club also made final plans for the "Womanless Style Show" to be held at the high school auditorium at 8 o'clock tomorrow night.

The cast, which includes many leading business and professional men, will attend a dress rehearsal at 7:30 o'clock tonight at the high school auditorium.

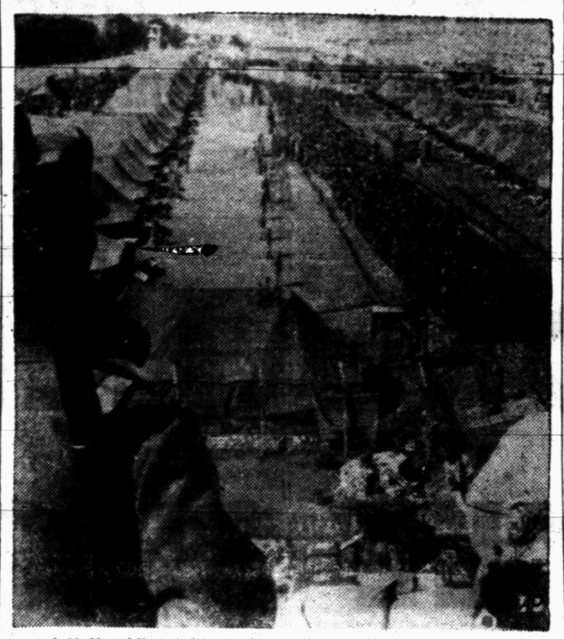

Offset Staked to South Extender in Andrews

R. L. Bauman and others No. 1 Munger Nix is to be a one-location east offset to Placid Oil Co. No. 1 Nix, recently completed south extender to the Fullerton-Clear Fork field of Central Andrews County.

Drillsite has been set 3,300 feet from north and 1,980 feet from east lines of section 21, block A-47, psl survey.

There is a dry hole between the No. 1 Nix and the field proper. Operations to 7,500 feet are to start immediately.

Prisoners Of War In Korea

A U. N. soldier (left) stands guard at a prisoner of war enclosure where a great mass of communist troops line up after their capture somewhere in Korea.

Lynn County Wildcat Will Be Abandoned

Magnolia Petroleum Co. is preparing to plug and abandon its No. 1 W. W. Caswell, Southeast Lynn County propsector.

That exploration is a west offset to the same concern's No.1 Garza Land & Cattle Co., discovery well of the O'Donnell - Pennsylvanian field.

It was barren in all sections of the Pennsylvanian and it made water in the Ellenburger.

The Magnolia No. 1 Caswell was one location southwest of Humble Oil & Refining Co. No. 1 Dulin, which also failed in the Pennsylvanian, but which made a small producer and a discovery from the Mississippian.

No. 1 Caswell tested the Mississippian over and extended period. It did not develop any possibilities of production from that zone.

On the last test it swabbed the interval at 9,020-40 feet after acid treatments and made 75 barrels of load oil and 160 barrels of acid water and salt water in 32 hours.

It did not show any new oil during that period. The abandonment was ordered after that swabbing.

Location was 660 feet from north and east lines of the southwest quarter of section 431, block 9, EL&RR survey. It was 10 miles east of Skeen.

Two Midland County Wildcats Are Staked

Drilling is to be started immediately at two new wildcats in Midland County. One of them will be an Ellenburger exploration to 13,500 feet in the southwest part of the county. The other is slated to go to 7,500 feet, in the northeast sector of the county, to try for production in the Spraberry sand.

Gulf Oil Corp. No. 1 John Windham will be the Ellenburger wildcat. It is located at the center of the southeast quarter of the northwest quarter of section 32, block 40, T-3-S, T&P survey.

That puts it 17 miles southwest of Midland. It is four and one-half miles south of the south side of the Parks-Pennsylvanian field and seven miles north of the Pegasus-Ellenburger area.

Murphy Corp. and Husky Oil Co. No. 1 Andrew Fasken will be the Northwest Midland County prospector.

It is to be 11½ miles east of Midland and one and one-quarter miles southwest of the nearest completed oil well in the Germania field.

The drillsite is to be at the center of the northwest quarter of the northeast quarter of Sec. 14, J. W. Stokes survey, block 37, T-2-S. It is to hunt production in the Spraberry sand, the pay zone in the nearby Germania field.

Compensation Suit Is Filed by Carpenter

S. B. Ward filed a $10,025 compensation suit against the Texas Employers Insurance Association and—or the Maryland Casualty Co. in 132nd district court yesterday afternoon.

In his petition, Ward cites that he is a resident of Scurry County and that on May 16, 1950, he was permanently injured while working as a carpenter on the United Supply Building in Snyder for a local construction company.

Ward alleges in his petition that while working on a building here cement caused infection of both legs, hands and arms, permanently disabling him.

The petition shows that Ward was earning $95 per week as a carpenter. He is seeking compensation from the date of the accident.

The suit says the defendants were compensation carriers for the local construction firm.

The suit was filed by John K. Ford, local attorney, for Ward.

Beaumont Utilities Co. Planning Sale Of Stock

WASHINGTON, March 22. (AP) —A registration statement has been filed with the Securities and Exchange Commission by Gulf States Utilities Co. of Beaumont, Tex. It proposes sale of 200,000 shares of its no par value common stock at competitive bidding.

The statement said net proceeds would be used for general corporate purposes and for 1951 construction. The financing proposal is designed to yield $3,500,000 to the company before payment of expenses.

The company said its 1951-1953 construction program is estimated to require approximately $62,481,000, of which about $22,480,000 will be expended in 1951, about $20,501,000 in 1952 and about $19,500,000 in 1953.

Mrs. L. L. Hall and daughter, 2218 Sunset Avenue, and Mrs. B. E. Leibe, Jr., 2226 Sunset Avenue, are visiting friends, Mr. and Mrs. Sam Fuller, in San Angelo this week.

Scurry County Medical Society Organization Discussed at Meeting

The organization of an independent medical association for Scurry County was discussed at a recent meeting of physicians at the Snyder Hospital.

At present the medical profession here is organized under a multi-county medical society including physicians from Scurry, Dickens, Kent, Garza, Borden, King, and Stonewall Counties.

At the same time the group discussed Snyder Hospital policies and means of improving hospital care.

Reagan Wildcat Gets Show in the Spraberry

Humble Oil & Refining Co. No. 1-N University, Southwest Reagan County wildcat, four miles northwest of the Big Lake field, found some shows of possible production in the Spraberry sand at 7,235-63 feet.

That zone was drillstem tested for two hours and 44 minutes. Recovery was 270 feet of oil and 1,250 feet of drilling mud, cut with gas. It is now drilling ahead past 7,1 272 feet in sand and shale.

Location is 1,980 feet from south and 660 feet from west lines of section 28, block 2, University survey.

LodgeMeetings

Scurry County Lodge No. 706, will meet in Called Communication tonight at 7 p. m. at the Masonic Temple for the purpose of conferring the Entered Apprentice degree. All Masons are invited to attend.

Snyder Council No. 221 will meet in Called Communication Friday night at 7 p. m. at the Masonic Temple, at which time the Council degrees will be conferred. Visiting Companions are welcome.

West Coast Ready And Waiting For More Defense Contracts

By The Associated Press

SAN FRANCISCO, March 22. — Out here on the West Coast they're itching to get on with the job of mobilization.

In tropical western fashion manufacturers are champing at the bit over delays in receiving defense contracts.

This is especially true of small manufacturers. They're afraid of being crushed in the materials squeeze if they don't get defense work.

There are few million-dollar contracts so far, outside of the aircraft industry. That industry alone can talk of rearmament in really big terms.

Real weapons of war are coming from the factories, such as the F-86 Sabre jets that are ripping into the Russian MIG jets in Korean skies.

But most defense contracts so far are for such unexciting things as petroleum, rubber products, food and chemicals, radio tubes, paper and allied products, electrical machinery, flints and lighters, safety razors, sandbags, coffee urns, pipe scrapers, valves, tools, aircraft and tractor parts, air coolers, electric generator sets and lumber.

IN NON-AVIATION

The largest single non-aviation contract is that received by the Food Machinery & Chemical Corp. of San Jose. This company, in the heart of the picturesque Santa Clara Valley, has a $177 million order to produce an unannounced type of land tank vehicle. Retooling is to cost $42 million additional. About $3 million is being spent on a new plant for the job.

The West Coast has a vastly expanded manufacturing capacity, a greatly increased steel industry and a larger manpower pool compared with 1940.

California is the hub of this industrial expansion. Since V-J Day private capital has invested more than $1,500,000,000 in 8,624 new or enlarged plants.

Counting government funds, more than $3 billion has been poured into industrial expansion in this state since 1940.

And the expansion continues. More money was spent or projected in January, 1951, for instance, than in January, 1950.

STEEL

A steel industry worthy of the name gives solid backing to far western manufacturing. Current steel capacity is placed at 4,586,000 tons of steel ingots annually. It will be 5 million tons within a year. This compares with 2,552,000 tons at the end of 1945.

U. S. Steel has a huge plant at Geneva, Utah, and subsidiaries in the Los Angeles and San Francisco areas. Kaiser Steel has a mammoth works at Fontana, near Los Angeles. Bethlehem Pacific plants are in the Los Angeles and San Francisco areas.

The aircraft industry has been hard at rearmament for months. Plants have been expanding and men have been added to payrolls at the rate of 200 daily. Employment totaled 120,000 in January.

BACKLOGS

North American aviation, maker of the F-86 Sabre Jet, has a backlog of $625 million — double last fall — and is employing 22,000. It doesn't expect to hit full stride for another year.

Lockheed Aircraft Corp., turning out various planes including the F-80 Shooting Star jets, has a backlog of $625 million. A year ago it was $447 million. It employs 18,000 and expects to have 30,000 workers by the year's end. It employed 85,000 at the World War II peak.

Douglas aircraft has a backlog of $600 million — more than double a year ago. Its working force of 28,000 — to be expanded by another 10,000 — is rolling out such planes as the B-47 Stratojet bombers and big transports.

Douglas has reopened its Tulsa, Okla., plant and is enlarging facilities at Santa Monica and El Segundo.

Northrop, maker of the Air Force's twin jet F-89 Scorpion Interceptor, has a backlog of $195 million, tripled in a year. It employs 9,000 and expects to pass its wartime peak of 10,000.

From San Diego, where the sprawling Consolidated Vultee Corp. works is modernizing huge B-36 bombers, important news came recently — they're going to mass produce guided missiles, first such production in the country. A new plant to occupy 200,000 square feet, with 1,500 employees, will turn out these weapons at first for the Navy.

SAN DIEGO

Aviation employment has doubled in San Diego in six months. About 27,000 are at work compared with the war peak of 60,000.

Defense work is going on under ground, too. The mining and oil industries are meeting the rearmament challenge with renewed activity.

Crude oil is pouring from the ground at an average daily flow of more than 960,000 barrels. That equals the record established in 1948.

Exploration and drilling for oil are getting feverish again. Standard Oil Co. of California has announced it will spend $16 million in exploration in seven western states in the first half of 1951.

In response to a government request for more benzene production, the company is putting $10 million into a new benzene plant in Southern California. This product is used in the synthetic rubber industry.

The mining industry has increased its efforts to develop new sources of strategic minerals and to boost production. The activity centers largely on tungsten, manganese, quick silver, sulphur and asbestos.

So far, state employment authorities say, only pinpoint shortages in manpower have popped up — mostly in the engineering field. Most communities report a surplus of unskilled or untrained labor. The unemployed were estimated at 259,000 in January, lowest for that month in recent years.

More Output Only Solution For Inflation

TEMPLE, March 22. (AP) — The regional head of the Office of Price Stabilization told a group of newspaper men here today that increased production of goods is the only cure for inflation.

Alfred Seelye, acting regional director of the OPS in Dallas, spoke at the morning session of the Texas Daily Newspaper Assn. annual meeting here.

CONTROL ALL

"As long as we're producing for war and for peace at one time," he said in his prepared speech, "we must find means by which to eliminate the economic pressures which develop — if we want to keep inflation in check."

He suggested direct controls on wages, rents and prices, emphasizing that "you can't control one without controlling the others."

State Selective Service Director Paul Wakefield also was a scheduled morning speaker.

OTHERS

Dr. William R. Spriegel of the University of Texas was to talk on the "price of leadership" at a noon luncheon.

K. A. Engel of Little Rock, of the Southern Newspaper Publishers Assn., was to discuss the SNPA during the afternoon session.

Tom Tanner, SNPA labor commissioner, headed a round table discussion.

A night reception and dinner sponsored by the Temple Telegram will begin at 6:30 o'clock tonight.

The meeting adjourns at noon Saturday.

Going To Cost Texas Money If Cohen Shows

AUSTIN, March 22. (AP)—It's going to cost the state some money if Gambler Mickey Cohen obeys the House Crime Committee's order to appear Tuesday.

When he was served the subpoena at El Paso yesterday, Cohen asked Sheriff Jimmy Hicks who would pay Cohen's way to Austin.

House Rule No. 27 outlines the pay of witnesses summoned to appear before the House or any of its committees. The witness shall receive $3 per day for each calendar day in attendance "necessarily consumed" in going to and from the place of examination.

Meat Packing Strike Is Said To Be Looming

CHICAGO, March 22. (AP) — Officials of two big meat packing unions met today to discuss plans for a possible nationwide strike of more than 200,000 workers.

They also had met for study of a wage hike offered by two major packers in an attempt to avert the walkout.

The workers are free to strike after midnight Sunday, at the expiration of present wage agreements. One union said it has "advised" Midwest and Southwest livestock producers and shippers not to ship cattle to Chicago because a strike is "imminent."

REJECTION

Today's meeting by officials of the CIO's United Packinghouse Workers and the AFL Meat Cutters and Butchers Workmen was arranged after the Wage Stabilization Board rejected the 11-cent hourly wage hike agreed upon by the unions and meat packing industry.

Armour and Co. and Swift and Co. yesterday suggested the workers accept a three-cent-an-hour increase retroactive to Feb. 9. The hike would fall within the WSB formula, limiting increases to 10 per cent above Jan. 15, 1950, levels. The packers said the 11-cent raise would be paid to the workers if and when it is approved by the WSB.

Although President Ralph Helstein of the UPW has rejected the three-cent proposal he said it will be submitted to some 200 delegates from the union's locals at today's meeting.

TO CUTTERS

The proposal also will be submitted to officials of the AFL Meat Cutters. President Earl W. Jimerson described the offer as having "some good and bad features."

Officials of the two unions, which claim a membership of some 225,000, met in Washington yesterday with five Democratic senators on the dispute. Sen. Gillette of Iowa said they reviewed the controversy. He did not say what action the senators planned.

Gratitude Expressed To Businessmen Who Bid In Live Stock Auction

"The Junior Livestock Association appreciates the co-operation of the business interests of Snyder and the ranchers and farmers of Scurry County in the recent show and auction," Weldon Johnson, chairman of the association's board of directors, said yesterday.

"The auction, the first we have attempted in three years, was well patronized, and we hope each year to make it more an event which the young farmers and ranchers of the county will look forward to," he continued.

"A livestock show, which offers valuable prizes and premiums through an auction is a excellent means of building good will throughout a city's trade territory. It is one which Snyder cannot overlook.

"In an enterprise of this nature, the business interest of the city and the farm and ranch interests of the trade territory co-operate in promoting better agriculture."

Pontiac To Build On Government Contracts

DETROIT, March 22. (AP)—General Motors' Pontiac division is preparing to build $57,500,000 worth of rockets and amphibious cargo carriers for the government.

The main work will be done in GM Pontiac plants, with Continental Motors Corp. of Muskegon supplying engines for the amphibious carriers and some 500 outside firms furnishing other parts.

The government ordered $12,500,000 in rockets and $45,000,000 worth of a new type cargo carrier operating on tank-type trucks with a stern-type propellor.

Small Boy, Victim Of Cancer, Dies In Houston

HOUSTON, March 22. (AP) — Five-year-old Luther Rae Stevens III died here yesterday, the victim of a cancer on the spine.

The little boy became unconscious Monday just before he and his mother were to fly to California to be with the father, Luther (Tommie) Stevens, Jr., serving with naval amphibious forces.

The father was rushed here by Navy plane. The boy was still unconscious when he arrived but regained consciousness about 15 minutes Tuesday night.

The boy became ill shortly after Christmas. An operation revealed the cancer. Doctors said there was nothing they could do. The mother and father had planned to take him to live near his father's station in Coronado, Calif., hoping the change might do the boy some good.

Texaco Wage Increase To 51,000 Workers

The Texas Co. has granted pay increases to its more than 51,000 employes in the United States.

These increases, together with a six per cent general increase granted last fall, make a total general pay increase of 10 per cent above the wages and salaries paid on Jan. 15, 1950. This conforms to Wage Stabilization Board's General Regulations No. 8. The company announced that the increases were effective March 1, except that for all employees represented by unions, the increases will be subject to negotiation with local bargaining agents.

Sulphur Shortage Critical In All Nations Around The World

By SAM DAWSON
(Associated Press Staff)

NEW YORK, March 22. — Uncle Sam has been having trouble in getting his friends the tin, rubber and wool he needs at prices he wants to pay. But today he finds himself on the other end of the stick. His friends and neighbors are howling because he has cut down on their supply of sulphur.

The sulphur shortage is now world wide and the clamor is growing. The United States produces 90 per cent of this chemical which is essential to many industries. Its critical shortage threatens to cut back production in many fields, here and abroad.

"Our record production of brimstone — from which about 80 per cent of essential sulphuric acid is made—just disappeared last year," says an American sulphur producer. "The demand was tremendous and there was some stockpiling.

"The official price is $21 to $22 a ton. But we have heard that one factory owner who needed sulphur badly for his production, paid $100 a ton recently for a supply here in New York harbor."

Normally the United States exports around one million tons a year, but the National Production Authority has cut that back to an annual rate of 800,000 tons, and predicts that this year's demand here will exceed supplies by 500,000 tons.

LOTS OF SQUAWKS

British industries and the Canadian newsprint mills are squawking. A top British official, Harold Wilson, chief of the board of trade, is planning to fly to Washington to beg for more sulphur. He says British defense production will suffer without it. Sulphur is used in rubber making, oil refining, steel making, rayon production and in automobile batteries.

Efforts are being made to expand production here and abroad. But sulphur industry spokesmen say that other sources of sulphur not yet tapped could be worked only at costs greater than the present price of brimstone under the general price freeze. Industry leaders say Washington may be asked to give subsidies or preferential price treatment to increase production from these low-grade sources.

ROME, March 22. — Italy is hurrying expansion of sulphur production in Sicily and on the mainland to meet mounting demands for this strategic raw material needed for European rearmament, it was announced Wednesday.

Sicily once was a major source of sulphur.

Vealmoor Field Well

Seaboard Oil Co. of Delaware has staked location for the No. 3 Mildred Jones, 19 miles north of Big Spring in the Vealmoor field. Location is to be 1,852 feet from east and 560 feet from north lines of section 32, block 32, T&P survey. Contract depth is 8,000 feet, with rotary tools to be used.

Decides To Stay Alive After All

OKLAHOMA CITY, March 22. (AP) —Mrs. Heart is alive — heartened with a new desire to get well.

In March, 1949, she asked the nation how to spend $10,000 in the year she thought was her last.

Doctors told the mystery woman a heart condition would bring death within that year.

"I have a new desire to get well," Mrs. Heart says. "And that's because of the interest so many strangers showed in me."

TELLS STORY

Mrs. Heart, a moderately wealthy Oklahoma City widow, told her story to the Daily Oklahoman just two years ago. The Associated Press relayed it to the world.

Letters poured in telling Mrs. Heart a multitude of ways to keep a spark of life. Others sought financial help — since she had $10,000 and didn't know what to do with it.

Today Mrs. Heart says her improvement has been miraculous, although "I'm still under a specialist's care."

"My state of mind has changed completely," she said, adding "I'm feeling much better now."

BACK HOME

Mrs. Heart is back home for a few weeks to attend to some business matters. She has been in California with her daughter much of the past year.

She still gets a few letters — some from people who don't know that the $10,000 is just about gone.

The mystery woman still nurses a deep secret in that heart that was supposed to quit ticking.

The public doesn't know her name — and probably never will.

Stamford Vote Today

STAMFORD, March 22. (AP) — Stamford residents voted today on a proposed $1,500,000 revenue bond issue set up for creation of a new municipal water supply.

Mexico City Chilly

MEXICO CITY, March 22. (AP) — A normal sunny day ended the capital's unusual rainy spell yesterday, but it remained chilly. Temperatures ranged from 69 to 38.

Oil News

(Continued from page 1)

wildcat in South-Central Dawson County, is drilling below 9,190 feet in lime and shale. This prospector indicated as a discovery from the middle Spraberry at 8,110-8,137 feet. Location is in labor 2, league 268, Moore County School Land survey.

Mid-Continent Petroleum Corp. No. 1 Moore, stepout to the discovery well of the Huddle-Manning - Spraberry field of Central Dawson County, is running a drillstem test in the Spraberry sand from 8,020-8,206 feet. An earlier test from 7,788-7,920 feet showed no porosity or fracture in the Spraberry. Recovery on that test was 75 feet of drilling mud with no shows of gas or water.

On the current test tool was open for one hour. A weak blow of air surfaced but died in six minutes. Recovery was 30 feet of drilling mud with no shows of oil, gas or water. Operator is preparing to drill deeper.

Location of the No. 1 Moore is in the northwest quarter of section 14, block 36, T-5-N, T&P survey.

DRILLING IN SHALE

Magnolia Oil & Gas Co. No. 1 Calloway, wildcat in the Southeast portion of Lynn County, is drilling below, 5,920 feet in lime and shale. It is located 660 feet from north and east lines of the southeast quarter of section 6, block 10, EL&RR survey and nine miles southeast of Skeen. It is two and one-quarter miles southwest of the O'Donnell field which has one producer from the Pennsylvanian lime and one producer from the Mississippian lime.

NOLAN COUNTY

Sun Oil Co. No. 1 Harp, Central Nolan County wildcat, has been spudded in and is now drilling in red beds and shale below 565 feet it is to drill to 6,200 feet to teest the Ellenburger. Drillsite is 1,980 feet from north and 660 feet from east lines of section 36, block X, T&P survey and 10 miles southeast of Sweetwater.

Sun No. 1 Cosstephens, Northwest Nolan County wildcat, is drilling below 3,835 feet in lime. It is 660 feet from north and 467 feet from west lines of section 75, block 24, T&P survey.

Sun No. 1-B Bilby Wallace Kent County wildcat, is drilling below 6,658 feet in shale and lime. It is projected to 7,600 feet. Location is in section 43, block 98, H&TC survey and four miles southeast of Clairemont.

GARZA COUNTY

Continental Oil Co. No. 1 Fumagalli, Northeast Garza County wildcat, is drilling below 4,480 feet in lime, shale and chert. It is located 13 miles northwest of Post and in section 14, block 8, H&GN survey.

2 Held in Connection With Theft of Motor

Two men were in custody of the city police department today for investigation in connection with the theft of an outboard motor.

Exact date of the theft has not been determined, because the owner of the motor is not sure when it was taken. He first missed it and reported theft of it March 13.

A Snyder man and an Abilene man are being questioned in connection with the theft.

No charges have been filed, but police said charges would be filed Thursday against one or both of the suspects.

The motor was recovered by Orange, Tex., police, and its recovery was reported to Snyder police. It was valued at more than $200.

Communions In Holy Week

Institution of the Communion or Lord's Supper on the night before the crucifixion will be observed tonight and tomorrow evening by Presbyterian, Christian, and Methodist churches in Snyder.

The First Presbyterian Church will observe a candlelight communion service at 7:30 o'clock tonight. Mrs. R. D. Perkins, will sing a Communion hymn and Rev. Ronald Hubbard will preach on "His Memorial Service."

The annual candlelight service will perform "Angel's Serenade" Church at 8 o'clock tonight. The service will follow the Scriptural story of the last supper, including the institution and serving of the communion.

Mrs. E. H. Hall, pianist, and Mrs. R. W. Tomlinson, violinist, will perform "Angel's Serenade" by Braga, and, "Intermezzo" from "Cavalleria Rusticana", by Mascagni.

During the serving of the sacrament, they will play "Mediation" by Bac-Gounod. Vocal solos for the service include "Beneath the Cross of Jesus", Mrs. Ross Blanchard; "Let Us Break Bread Together," Miss Zaida Brown; and "When I Survey the Wondrous Cross". The minister, the Rev. Clifford Taylor, and Elders of the church will preside over the service.

The First Methodist Church will include the observance of the Lord's Supper with their Good Friday service tomorrow night at 7:30 o'clock. The Easter Story will be told on the flannelgraph by Mrs. J. W. Burleson, with Mrs. Harry Lee as reader for the service.

Spring's Debut Mild

The first day of spring was warm in Snyder, with a maximum temperature of 76 degrees recorded yesterday afternoon. The minimum was also mild, a pleasant 46 degrees. The warm-up following the week end's cold wave is expected to continue through tomorrow, with the maximum today predicted near 80 degrees.

West Texas Chamber To Be Sponsored By Citizenship Clinics

Snyder high school is making plans to send the senior class to an education for citizenship clinic at Abilene April 20, Harold Bennett, Chamber of Commerce manager, said.

Citizenship and vocational guidance will be emphasized in the all day clinic to be held at Abilene Christian College, he said.

It is being sponsored by the West Texas Chamber of Commerce.

Fred H. Husbands, executive vice-president and general manager of the W. T. C. C. has sent letters to all area chambers of commerce asking that they urge the attendance of their high school's senior classes at the clinic.

Three such clinics will be held. One will be held at Amarillo, one at San Angelo, and the one at Abilene.

Mrs. W. E. Holcomb, 3106 Avenue T, is ill at her home with a virus infection.

Prisoner Is Taken In Custody by Sheriff

City police said that Alfred Castleberry, 46 year old Shreveport, La., man, was turned over to the sheriff's department yesterday for custody until his trial.

Castleberry was extradited from Louisiana March 9 by Chester Bairrington, chief of police, and Bill Mitchell, a police sergeant.

Castleberry was indicted by the grand jury here Nov. 25 on a charge of burglary with intent to commit theft. His bail was set at $700, but he was not in custody at the time.

Son Of Retired Judge Succumbs In Houston

HOUSTON, March 22. (AP)—Funeral services for Kennedy Smith, 47, will be held tomorrow afternoon in the Fort Sam Houston National Cemetery in San Antonio. He died yesterday in the Houston Veterans Hospital.

Smith was the son of Judge Edward W. Smith, retired chief justice of the Fourth Court of Criminal Appeals.

Malven Stevenson Is Named President Of Snyder Rotary Club

Malven Stevenson was elected new president of the Rotary Club in a meeting Monday night, Bentley Baize, outgoing president, said.

By laws of the organization specify that the out-going president will automatically become the vice-president, Baize said.

Tony Holcomb was elected secretary - treasurer.

Stevenson was also re-elected as a director of the club. Other directors elected were: Ralph Geisenhoner, A. C. Alexander, S. S. Steinberg, Walker Dabbs, and Weldon Kincaid.

Old directors are: Ennis Floyd, Al Leib, M. M. O'Rear, James Rosser, and Stevenson.

The club's new officers will take office July 1, Baize said.

Committees for the various club projects will be elected at the next directors meeting, he said.

Forest G. Sears will be a Snyder delegate to the Rotary International Convention in Atlantic City, N.J. which begins May 27.

PERSONALS

Mrs. Norman Stevenson, 2906 Avenue L, will begin work next Monday as clerk in the soil conservation offices in the courthouse. Mrs. Stevenson replaces Mrs. Prentice Bass, who resigned this week.

Mr. and Mrs. Norman C. Stevenson, 2906 Avenue L, entertained Mr. Stevenson's parents from Odessa over the week end. The elder Stevensons returned Sunday night.

Two Snyder families are being transferred out of town by their firm, the Mid-Continent Supply Co., this week. Mr. and Mrs. W. W. Arnold, 403 Thirtieth Street, will go to Midland where Mr. Arnold, who was district manager here, will assume duties as division manager. Mr. and Mrs. R. E. Dunn, 413 Thirtieth Street, will move to Sundown, Tex., where Mr. Dunn, a field salesman here, will become store manager in the firm branch there.

Mr. and Mrs. G. Edward Bolger were expected to return today from Austin, where they have been attending an insurance meeting for the last two days.

Don't Overeat But Don't Go Hungry Either

Are you one of those overweight gals who are trying to fight the "battle of the bulges" on a starvation diet? If you are, you probably have found the going a little rough. It just doesn't make sense to go on a starvation diet, take off weight and then quickly put it back on again when the diet period is over. For it is obvious that one cannot continue a rigid diet over a protracted period.

Other than the hunger and health angle, a starvation diet is apt to make one look haggard and "flabby". "What can I do then?" you ask. "How can I take off ugly fat otherwise?" Nearly four million bottles of a preparation, called Barcentrate have been sold in Texas in the past eight years.

When you buy Barcentrate, you buy a preparation for taking off weight. You do not follow a starvation diet, nor buy vitamins to fortify you against weakness from lack of food. You need never know a hungry moment while reducing with Barcentrate. It contains no harmful drugs, but does contain ingredients to make you feel better.

Barcentrate does this: First, cuts down your appetite. Barcentrate takes care of your DESIRE. Second, dehydrates and eliminates, so that water is eliminated—almost like melting fat. At the same time, you feel better, more peppy, more alive, but never starved or hungry.

Barcentrate is a home recipe. Just get four ounces of Barcentrate from your druggist. Pour into a pint bottle and add 12 ounces of canned grapefruit juice. Then just take two tablespoonsful twice a day. The makers agree to refund your money if the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles.

THE SNYDER DAILY NEWS

VOL. 1, NO. 268 — SNYDER, TEXAS, THURSDAY, MARCH 22, 1951 — SECTION TWO

West Texas Locations Rise To All-Time High; Scurry Gets 21

The all-time high for oil tests in West Texas was established during the week March 4 to 10, when 169 tests for oil, including 30 wildcats, were staked in 33 West Texas Counties.

The previous high for oil tests in West Texas was reported Feb. 1 of this year when 146 tests for oil, including 18 wildcats, were staked in 29 counties.

Totals for the first 10 weeks in 1951 became 962 in proven areas and 164 for wildcats, a grand total of 1,126. This is a weekly average of 112.6 up from 106.3 through the ninth week.

Pecos County led in wildcat locations with five, Garza added four, Andrews, Midland, and Runnels three each, Upton two, Borden, Coke, Concho, Crane, Howard, Jeff Davis, Lubbock, Mitchell, Reeves, and Tom Green Counties one each.

Scurry County was first in field starters with 21, Runnels 13, Midland 11, Cochran and Pecos 10 each, Garza eight, Andrews seven, Borden, Upton and Ward six each, Ector and Gaines five each, Crane, Glasscock, and Howard four each, Schleicher three, Crockett, Reagan, Sutton, and Terry two each, Coke, Dawson, Hale, Hockley, Kent, Kimble, Loving, and Tom Green Counties one each.

Holy Week

When morning was come, the chief priests and elders delivered Him to Pontius Pilate the governor.

And the governor asked Him, Art thou the King of the Jews? And Jesus said unto him, Thou sayest. And when He was accused of the chief priests and elders, He answered nothing.

Then said Pilate, Hearest Thou not how many things they witness against Thee? And He answered never a word.

Now at that feast the governor was wont to release unto the people a prisoner, whom they would. And they had a notable prisoner, called Barabbas.

Therefore when they were gathered together, Pilate said unto them, Whom will ye that I release? Barabbas, or Jesus? For when he was set down on the judgment seat his wife sent unto him, saying, Have nothing to do with that just Man: for I have suffered many things this day in a dream because of Him.

The multitude said, Barabbas. Pilate saith, What shall I do then with Jesus? They cried out, Let him be crucified. Pilate took water, and washed his hands before the multitude, saying, I am innocent of the blood of this just person: see ye to it.

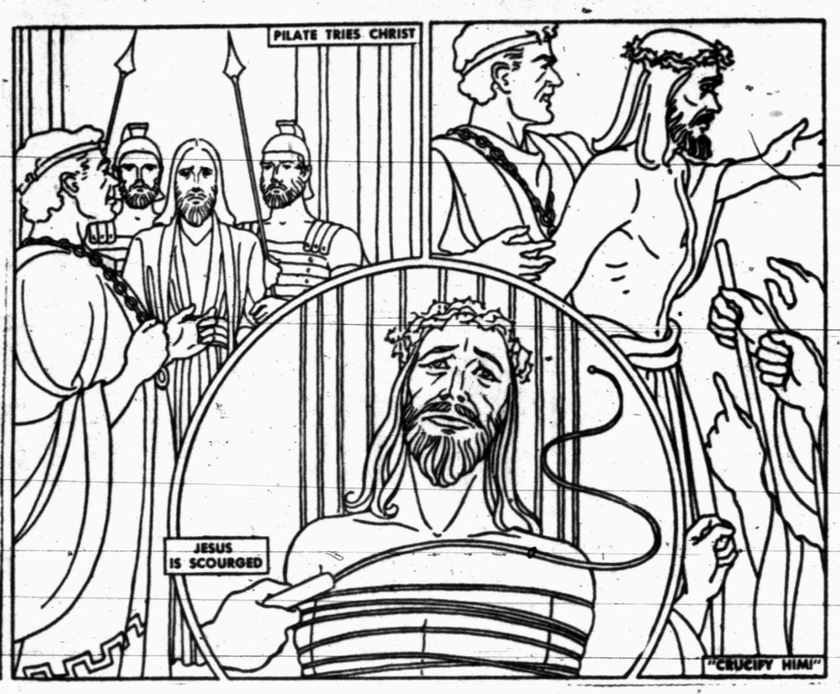

Then answered the people, His Blood be on us, and on our children.

Then released he Barabbas unto them: and when he had scourged Jesus, he delivered Him to be crucified.

Then the soldiers took Jesus and they stripped Him, and put on Him a scarlet robe. And when they had plaited a crown of thorns, they put it upon His Head, and a reed in His right hand: and they mocked Him, saying, Hail, King of the Jews!

(Condensed from St. Matthew 27, 1-29. Tomorrow: The Crucifixion.)

Jesus Condemned to Die

NEWS FROM HERMLEIGH

By MRS. MABEL WEBB

Mrs. K. B. Rector and Mrs. A. W. Mobley visited Mrs. Myrna Gardner in Clovis, N.M., Sunday. Mrs. Gardner is a former resident of Hermleigh.

Mrs. Jay Vaughn and daughter, Judy Vaughn, are visiting this week with Mr. Vaughn's brother, Capt. E. H. Vaughn, and Mrs. Vaughn at Fort Hood.

Mr. and Mrs. Dan Wright visited with relatives in Lubbock and Abernathy last week end.

Mrs. Thelma Hacker is home after spending several days in the Loraine hospital where she was ill with pneumonia.

Mr. and Mrs. Frank Andrews and children of Albany visited friends and relatives here over the week end.

Mr. and Mrs. M. U. Vernon visited friends at Colorado City Sunday.

Arlie McMallen of Snyder visited here Sunday.

Miss Christine Jackson spent Saturday and Sunday with her parents in Abilene.

Mark Search, city police chief, is in the hospital at Loraine being treated for a virus infection. Mrs. Search said he was showing improvement.

Mr. and Mrs. A. W. Mobley were in San Angelo Monday to attend funeral services for Mr. Mobley's sister-in-law, Mrs. E. M. Mobley.

Miss Frances Fargason, a teacher in the Sweetwater schools, has been at home here since last Tuesday, recuperating from injuries sustained in a car accident Feb. 20. She suffered a broken rib and sprains.

Mrs. Pearl Gleastine has returned home after visiting her daughter, Mrs. Mannan Murdocks, and family in Houston since early January.

Brady Man Makes Big Donation To Hospital

HOUSTON, March 22. (AP) — A Brady motor company owner whose wife is under treatment for polio here has made a $4,000 gift to the City-County Hospital.

Norman S. Lawler brought his 32-year-old wife here last December from San Antonio in an "iron lung trailer" he had built for the trip.

Lawler made the gift "in gratitude" for the attention his wife has received in the hospital's polio-center.

The money will be used to purchase a vacuum system for second floor patients.

Southeast Texas Plans Fete For Dam Opening

BEAUMONT, March 22. (AP) — Cities and towns of Southeast Texas are planning a big celebration May 5 to mark the completion of the Town Bluff Dam on the Neches River, 50 miles north of here.

Representatives of Beaumont, Woodville, Sisbee, Jasper, Port Arthur, Port Neches and Nederland met here yesterday to plan a barbecue and program for the opening.

The 6,867-foot earth dam is the first in a long range program for the Neches and Angelina Rivers. It will back water over a 16,830-acre area.

Repair - Remodel - Add Rooms!

Let us explain how this may be done on convenient, easy payment plan, no lien or mortgage required in most instances. Check the following list and let us know your wants—BRING US YOUR BUILDING PROBLEMS. ....

—Storage space added to any building
—New fences—Repair present fence
—New garage
—Additional porches
—Repair entire house or other building
—Walks and-or driveways
—Repaint entire house
—Install new cabinets
—Repaint other buildings, fences

There are a number of other things that can be done under the suggested easy payment plan. Competent personnel will give your needs prompt, courteous attention at no obligation on your part. CALL US TODAY!

"THE ONLY LUMBER COMPANY IN SNYDER GIVING S.&H. GREEN STAMPS"

NEWS FROM IRA

By Mrs. W. C. Fargason

Mr. and Mrs. B. F. Eades and children spent Sunday with her parents, Mr. and Mrs. Oscar Webb.

Mrs. Marie Kruse and Mrs. Nettie Webb attended a golden wedding anniversary celebration for Mr. and Mrs. D. E. Snow in Colorado City, Sunday afternoon.

Mr. and Mrs. Jessie Loper and daughter, Connie Loper, spent the week end with relatives in Merkel.

Mrs. Wiley Eubank of Seymour spent the week end visiting in the homes of M. L. Bryant and E. L. Eubank.

Mr. and Mrs. Sam Webb of Brownfield spent the week end with her mother, Mrs. Des Bryant, and sons.

Peggy West of Shallowater spent the week end with Sara Millhallen.

R. D. White and Wayne Eubank made a business trip toCiscoMonen.

Mr. and Mrs. Dave Mishurt left Friday for Cisco, where they plan to spend about a month receiving medical treatment.

G. H. Bishop visited his brother, Ross Bishop, and family, in Post part of last week.

Mr. and Mrs. J. A. Thompson were in O'Donnell Friday to attend funeral services for her brother, Clyde Fairley, of Long Beach, Calif. Others from here attending the services were Mr. and Mrs. W. R. Sterling, Mrs. Troy Bentley and Mrs. Bernice Crowder.

Mr. and Mrs. Autry Eubank and W. W. Isabelle were shopping in Abilene Monday.

C. C. Isabell has accepted a job with a service station in Snyder.

Mrs. John Day returned to her home in Odessa Sunday after visiting with her sister, Mrs. Evans Millhallen.

Helen Suiter of Snyder spent the week end with her parents, Mr. and Mrs. Grady Suiter, and also visited Sara Kruse.

Mr. and Mrs. C. C. Isabell and children spent the week end with relatives in Midland.

Sunday visitors of Mr. and Mrs. M. J. Bryant were Mrs. Wiley Eubanks of Seymour, Mr. and Mrs. Frank Bryant and children, Mr. and Mrs. John Webb and Mr. and Mrs. Lloyd Webb of Ira, Mr. and Mrs. Bob Bryant and children and Mr. and Mrs. Lloyd L. Bryant of Snyder.

Mr. and Mrs. H. M. (Mack) Kruse are now at home in Dell City following their marriage there last week. Mrs. Kruse is the former Ilene Sterling, daughter of Mrs. Annie Sterling. Mr. Kruse is the son of Amil Kruse.

Texas History Written in Brands

5ASH

BY JOHN M. HENDRIX

The Fiveash was started in Coleman County in 1880 by Dick Fiveash because the brand contained all of the letters of his name. It was later used in the same country by L. L. Shields, but is not being run now.

The Fiveash was one of the smaller brands of cattle that went to make up the thousands that ran in Coleman and adjoining counties in free-range in the '80s.

To Expand Amarillo Air Base Construction

AMARILLO, March 22. (AP) —Construction will begin next week on 119 barracks buildings at the Amarillo Air Force Base.

Dell E. Webb of Phoenix, Ariz., yesterday was awarded a contract on a bid of $3,942,000.

The violet is the state flower of Illinois, New Jersey, Rhode Island and Wisconsin.

Man Convicted In Death Of Waco Nightwatchman

WACO, March 22. (AP) — James Darwin Craft, 33, of Dallas was convicted here yesterday of murder in the suffocation slaying of a Waco nightwatchman. He had entered a plea of guilty to the charge.

Craft and Robert Wall of Denison were charged in the killing of Jacob B. Coleman, 64, here last Aug. 26. Wall was convicted in December and is under a death sentence.

Coleman was beaten in a Waco hotel room, then gagged with a handkerchief and old undershirt, and left to strangle to death.

Veteran Relieves Aches and Pains

HADACOL Relieves Aches and Pains When Due to a Lack of Vitamins B_1, B_2, Niacin and Iron

It would seem like being in two wars would almost be all one person would have to go through. But Emerson Parnell Brown, 412 South Harrison Street, Fort Wayne, Indiana, found more trouble staring him in the face just recently. As so many thousands, he put his faith in HADACOL, when he heard how it was helping folks with aches and pains due to a deficiency of Vitamins B_1, B_2, Iron and Niacin. Here are the wonderful results that he is more than glad to tell us about:

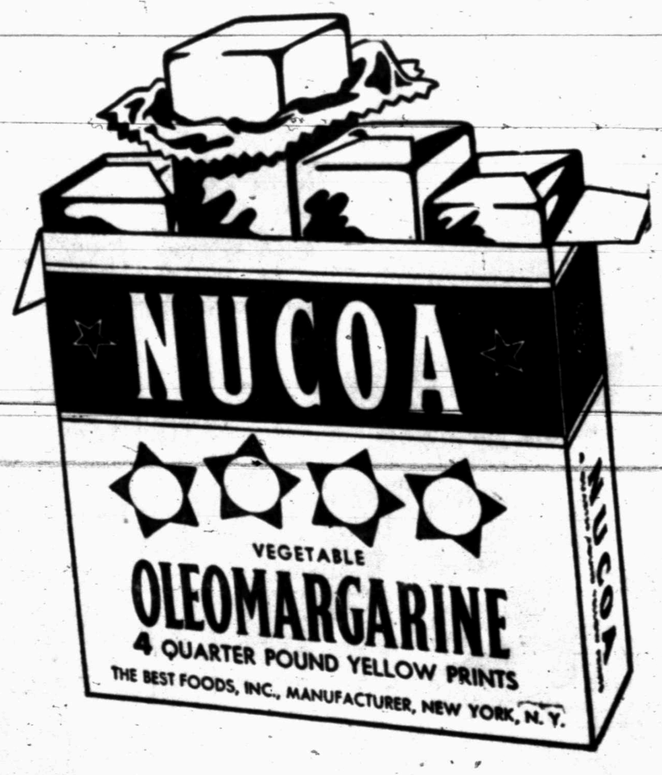

"I am a veteran of World Wars I and II. After I reached the age of 50, I had aches and pains. I also had gas on my stomach and was very nervous. After I took the first small bottle of HADACOL, I knew I had the right family formula. Then, I got a large size and I have just finished taking it. I work for the plumbing and heating company. I just started another bottle of HADACOL, and it is doing me so much good."

This may be your answer, too, if you are suffering from such deficiencies. For HADACOL supplies more than the minimum daily requirements of Vitamins B_1, B_2, Niacin and Iron, plus helpful quantities of Phosphorus and Calcium. And HADACOL builds up hemoglobin (when Iron is needed) to rush these vital elements to every part of your body. Many doctors recommend HADACOL—why not stop at your druggists today?

Salvage Plans For Ships Sunk During Last War

TOKYO, March 22. (AP) — Gen. MacArthur's headquarters are negotiating to salvage 410,000 tons of ships sunk around Pacific Islands during World War II.

Most of the hulks lie on the bottom at Palau, Saipan and Truk—one time Japanese island fortresses.

Subs Dangerous, But Also Have Number Of New Safety Features

(Editor's Note: The writer of the following dispatch has been on a four-day, underwater training cruise aboard a U. S. Navy snorkel submarine in Atlantic waters.)

By ELTON C. FAY

(Associated Press Staff)

ABOARD SUBMARINE GRAMPUS, March 8. (Delayed) — Are submarines dangerous?

The truthful answer to that is probably yes. They have more built-in hazards than other craft but that is the nature of the vessel. They must have them. But they also have a boatful of safety gadgets and techniques.

Let's consider the dangers first:

There is the matter of buoyancy. The margin between floating and sinking, when a submarine is operating on the surface, is more than for any other craft. It is almost a hairline difference. It has to be that way. The submarine must be able to submerge in a matter of seconds. In combat, a quick dive can save the boat, tardiness in diving will mean its destruction by aircraft or surface ships.

VULNERABLE

This low buoyancy factor means the submarine is particularly vulnerable to enemy gunfire or to collision. A ship's bow knifing through the sub's hull can send her down like a stone, too fast for bulkheads to be closed.

The second danger point is hydrogen gas from the sub's batteries, the ingredient for explosion and fire.

Personnel error? It happens in submarines as it does anywhere else.

The submarine is hard to see (as she should be because of her mission as a combatant vessel). But that means that under peacetime operation she is in a greater danger of being run down by some careless merchantman hurrying in or out of port.

What safety assets does the submarine have?

Except for impact from the sharp blow of a collision, the submarine has the strongest hull of any vessel. The inner hull of the boat is a tapered cylinder. That can stand almost unbelievable pressure. It can dive to hundreds of feet; the exact depth may not be stated. Her powerfully built hull means also she can stand a lot of depth charging.

The indicator board—the "Christmas Tree," so called because of its multitude of red and green lights—is a major safety factor, telling at a glance the condition of every opening in the boat's hull. Moreover, every important control on the boat is in multiple. If the normal control fails, there is an emergency power control. If that fails because of power loss (for instance, the flooding of a generator or failure of an air pump or tank) there are hand-operated controls.

In recent years, American submarines have been equipped with two escape features of prime importance. On the fore and after decks of the Grampus, as on other U. S. Navy submersibles, are yellow floats, the "messenger buoys." Engraved on plates of each buoy are the words "Submarine sunk here. USS Grampus, 523." The float is attached to the submarine by a cable which can be unreeled from within the submarine.

EASY DOES IT

The purpose is this: The rescue ship upon locating the marker buoy attaches to it a diving bell (much like diving bells which have been used for more than a century.) The bell is hauled down to the escape hatch on the submarine's deck where a watertight link is made. The bell can bring up an average of six passengers and two operators on each trip.

Submarines also are equipped with the "Momsen Lung," the breathing device which when held between the teeth enables a man to ascend slowly, easing himself to the surface along a knotted line. If he surged up fast from deep depth, the "diver's bends' might kill him by creating nitrogen bubbles in the blood stream.

Man Wanted In 3 Deaths Is Said Missing

NEW ORLEANS, March 22. (AP) — Officers say that one of two men missing aboard the fishing boat Helen C since March 14 is a Texan under indictment in the death of three men at Port Aransas, Tex.

The Coast Guard district headquarters reported yesterday it had not been able to find the boat in a search that has extended from Corpus Christi to Biloxi, Miss.

Sheriff S. F. Hutton, San Patrici County in Texas said one of the men aboard was Kenneth B. Cabbiness, under indictment in San Patricio County on a charge of "murder in performance of an illegal act."

Hunt said Cabbiness was to have appeared before District Judge W. G. Gayle for trial March 14. Since Cabbiness' disappearance the trial has been postponed indefinitely.

Hunt said Cabbiness was arrested Nov. 18 and freed under $3,000 bond. He is accused of being intoxicated and driving a car which struck down and killed three of his companions in the parking area of a cafe at Port Aransas.

The Helen C left Galveston, its home port, March 10 to fish between Freeport and Port O'Connor.

Hollywood Press Hands Out Annual Mickeys

HOLLYWOOD, March 22. (AP) — The Hollywood press had its fun last night, handing out awards for everything from popcorn to a midget.

The correspondents, who have covered numerous awards events in the past weeks, presented their own citations, called "Mickeys."

Best short subject of the year was Midget Billy Curtis. An achievement award went to a theatre chain for the quality of its popcorn. Other honors were won by a magazine which presented no awards and a theatre usher for leading the movie public to greater heights.

Petroleum Meet Opens

AMARILLO, March 22. (AP) — The spring meeting of the Mid-Continent chapter of the American Petroleum Institute opened here today.

Program Complete For Kiwanis Club Benefit, Womanless Style Show

A hilarious time awaits those who attend the "Womanless Style Show" at 8 o'clock Friday night at the high school auditorium, according to Frank Fisher, chairman of the show committee.

This event is being staged by members of the Snyder Kiwanis Club, with Mrs. Elaine Lambert School of the Dance providing several numbers and the Key Club quartet offering several songs as an added attraction. Also there will be a real Pottawatimie Indian from Oklahoma doing a war dance and Indian chants, Fisher said.

A full dress rehearsal of all the cast has been set for 7:30 o'clock tonight at the high school auditorium.

Tickets for the benefit show are on sale at all downtown drug stores and by Kiwanians. Adults will be admitted for $1 while children tickets are 35 cents.

Bernard Shaw Leaves Big Fortune In Will

LONDON, March 22. (AP) — Playwright George Bernard Shaw, who long advocated socialism, left an estate valued at $1,028,254.22 his will disclosed today.

The 14-page document directed that part of the money be used for promoting a 40-letter alphabet which was one of the Irish wit's pet projects.

Shaw died last November in his little cottage at Ayot St. Lawrence at the age of 94.

His net estate, after settlement of all outstanding obligations, was 301,585 pounds ($844,439). Estate taxes totaled 180,571 pounds ($505,599).

To give your family a change serve corned beef hash with a mushroom sauce. Cole slaw is good with this dish.

68 Years Old, Yet Now Climbs 155 Feet to Work on Scaffold

HADACOL Relieves the Cause of Nervousness and Weakness When Due to a Lack of Vitamins B_1, B_2, Niacin and Iron.

Seems like more and more folks are finding out every day that they have to keep themselves in tip-top condition to really stay on the ball as far as doing a good job is concerned. Mr. John L. Napier, Route 1, Moselle, Mississippi, certainly found out that aches and pains, weakness and nervousness were interfering with his work as a bricklayer and carpenter.

But Mr. Napier heard how HADACOL was helping folks with such conditions that may have been due to deficiencies of Vitamins B_1, B_2, Iron and Niacin.

Here are his own words: "Before taking HADACOL, I was suffering with aches and pains for awhile. Then, came the time when I was weak and nervous. I am a carpenter and bricklayer. I also run a farm. I kept feeling bad and getting worse. Then I heard about HADACOL and immediately began taking it. After taking only one bottle, when I retired at 9 P.M. I would fall asleep immediately. After the third bottle I went back to work, carpentering and laying bricks. Now, I climb as high as 155 feet and work all day on a scaffold. I have never felt so well in many years. I am 68 years of age. And, when there is no carpenter or brick work to do, I work on my farm, planting and harvesting my crops. Thanks to HADACOL."

There's a clue that may help you, if you are suffering from a lack of Vitamins B_1, B_2, Niacin and Iron. Why continue to suffer . . . why experiment . . . why let your distress drag you farther and farther down? For it is these very Vitamins and Minerals you may need that HADACOL supplies in a quantity greater than the minimum daily requirements. And this marvelous formula contains helpful quantities of Phosphorus and Calcium, too.

HADACOL builds up the hemoglobin content of the blood (when Iron is needed) to send these elements coursing, surging, throughout your body, to every body organ. Already dissolved, in a special liquid form, the elements are absorbed quickly and easily in your system. Carries a strict money-back guarantee.
