

BY KAY DANIEL
There is love by the bushels in the Eastland Public Kindergarten.

And, well, the children really "cotton to" her. She's their buddy.

While visiting with Miss Young Friday, I enjoyed watching the children arrive at school. As each child walked in, Miss Young greeted each and called

Love Is Theme At Kindergarten

walked in, Miss Young turned her full attention to her and asked about her hand and inquired as to how long she'd have to wear the sling on her arm.

I got the impression that the children felt so big and important because of the way they were treated. This need to have the feeling of importance is apparent.

When the children first arrive, they have "play time". This is a very important part of the day. Miss Young can observe the children while they are playing and she learns a lot

about their individual behavior. This helps her to understand each child.

There is a new program the school has adopted this year. It is called "Alpha Time". There are 26 blown-up figures, and each one has a big letter on the front. Each one is dressed as "Mr." or "Mrs.". Each letter has a name like "Mr. H", and they say "Mr. H. has horrible hair". This helps the children hear the sound of H in words, and by saying the funny names, they are impressing images in their minds, she explains.

Children get the idea in a hurry. Teachers call the whole

process "reading readiness", "math readiness", or "life readiness". To the five-year-old it means looking at the world around them--and then using language to translate that world into something they can understand.

The children are learning about the months, days, seasons, and what year it is. They can now tell you it is Monday, October 27, 1975, and know what they are talking about.

Kindergarten is the stepping stone up to the rest of the

school. Kindergarten helps the children get their minds ready to start the first grade and children do a lot of growing up in kindergarten.

It's an important part of the Eastland Public School System.

N-E-A-R-L-Y THERE!

With "just a little help" the 1975 Eastland United Fund Drive could "go over the top".

It's close, close, but that last-minute, extra-effort is needed says President Norris Starr and Drive Chairman Jim Wortman. We're so close, but so far," they report as they make plans to wrap it all up Monday, and announce victory on Tuesday.

Firms and individuals who have not made their Fair Share gifts to the UF are urged to do so Monday so the drive may be successfully ended.

Provided that these last minute givers come in, the UF organization is planning a Tuesday morning, 10 a.m. Victory Celebration at the Eastland National Bank Conference Room.

Workers and volunteers need to finish up their calls and report in to Treasurer Richard Watson Monday, and individuals who still need to make gifts may contact him at U-Save Pharmacy.

Vice President Ken Reese and Assistant Drive Chairman Ron Patton join other UF officers and directors in urging a speedy Monday wrap-up.

"Tuesday will be V Day, IF Monday is a productive GIVE day," they report.

Unofficial totals show a whopping \$10,360 given, with just a few hundred dollars lacking to top the goal.

"Your gift could be the one that pushes it over", Wortman says, in urging the wrap-up.

Some 16 worthy organizations benefit from Eastland UF gifts.

Here's the way current dollars are allocated:

Teenage League, \$1,200; Boy Scouts, \$1,700; Salvation Army, \$829; Red Cross, \$1,000; USO, \$220; Little League, \$1,400; Texas United Fund, \$50; Cancer, \$100; Heart, \$100; Birth Defects and Arthritis, \$100; Eastland Welfare Association, \$640; West Texas Rehabilitation Center, \$1500; Campaign Expenses, \$50; Camp Fire Girls, \$360; Girls Soft Ball, \$700; Senior Citizens, \$520.

Mail contributions may be addressed to Eastland United Fund, P.O. Box 391, Eastland, Texas, 76448.

With a little generosity at this point, the victory announcement could be forthcoming.

TAKING SHAPE and looking good is Real Estate Men M.L. and Rodger Terrell's new office building on the north side of Hwy. 80 east. It'll be a pretty new addition to that end of town.

EVERY YEAR about this time as the Swiss Colony, Wisconsin etc. gift cheese magazine start arriving in the mail, we (not altogether like Little Orphan Annie) got all mad all over. For years, we've collected these with a vow to "Gettin' ousy" next January to put together an Eastland County peanut gift book to be ready for the following holiday season. Of course, we've never it done and it's a shame we don't all work to getting one put together. With our peanut economy, it'd be no problem at all to offer our roasted peanuts, pecans, peanut brittle, peanut butter, raw peanuts, peanuts cooked in the shell and what have you, in pretty gift packs, perhaps utilizing the beautiful ceramic items from locally made House of Webster Gifts, to make a very attractive, and undoubtedly profitable mail order catalog business to further benefit the peanut industry. This year's mail has also brought a California almond gift book as well as a Schulenburg, Tex., smokehouse gift catalog. We really should get a catalog put together.

SCOUTS REPORT that our old friends, KRBC TV (Channel 9) in Abilene, have filed a formal complaint with the Federal Communications Commission demanding that Southern Television System Inc. be forced to stop carrying KTXS (Channel 5) in the Eastland and Cisco system. Apparently there'll be a period of legal jockeying, but unless the FCC can be convinced otherwise, there could come a time when we no longer can see Channel 5 in Eastland because of the selfish attitude of the folks in Abilene. We plan to let our feelings be known to:

Vincent Millins, Secretary
Federal Communications Commission
Washington, D.C. 20554
Richard Wiley, Chairman.
Heart - felt letters addressed to "members of the FCC" could get the job done.

WHAT'S A GOLF course worth? Might not always depend on whether you're a player or not.

Judging from a recent article on the subject, Eastland can well take pride in its course at Lakeside. An authority says that an 18-hole course today could cost from \$350,000 to \$500,000 PLUS buildings, equipment, roads, irrigation system, etc., so it's no small thing.

Texas reportedly falls sixth in the nations lineup of golfing states with number of courses - - and there's many a building. The report shows 592 courses in Texas with 116 of that number being municipal. Eastland boasts two fine courses in Lakeside and the excellent Lone Cedar Country Club.

In 1960, there were about 6,300 golf courses in the United States and about 4.4 million players. Since then, the number of courses has increased about 70 per cent, while the number of golfers has nearly quadrupled. Today there are some 11,000 golf courses and about 16 million players, with the ranks growing at the rate of 10 percent per year.

During a company's first aid seminar, a doctor asked a worker what he would do if he learned he had rabies.

The worker answered without hesitation, "I'd bite my supervisor."

Instructor and is an emergency medical ambulance operator.

Rites For Mrs. Montgomery Pending

Mrs. Carrie V. Montgomery, 83, of Eastland, died at 4 a.m. Friday at Northview Nursing Center after a brief illness. Services are pending at the Memphis Funeral Home in Memphis, Tenn.

Burial will be in Forrest Hills Cemetery in Memphis, Tenn. Local arrangements were handled by Arrington Funeral Home.

Born Oct. 1, 1892, in Ayres, Miss., she had lived in Eastland three years. She moved to Eastland from Memphis, Tenn. She married Henry Clay Montgomery in Memphis, Tenn. He preceded her in death.

She was chief operator for Southwestern Bell Telephone for 37 years.

Mrs. Montgomery was a member of the First Baptist Church of Memphis.

Survivors include a sister, Eula Mae Bailey of Fresno, Calif., and several nieces and nephews, including Mrs. Allean Gibson, Irene Overand and Charlie Williams of Eastland and Claude Williams of Abilene.

The body arrived in Memphis Saturday morning.

Loboes Smack Mavs 54-7

The mythical county grid title which has been prized by fans and teams in Eastland, Cisco, and Ranger for many years, must be awarded (if there really were one) to the Cisco Loboes this year, as they rolled over the Mavericks Friday night in Cisco, 54-7.

The Powelson, Kent and Kanady offensive threesome of Cisco enjoyed a hayday Friday night against the Mav defense to rack up score after score tilting the game into their behalf early in the night.

Mavs played hard throughout the night looking for the key play or turnabout which might bring the momentum to their side. But as time rolled along, it became evident that the Mav defense and offense was in for a long night against the powerful Lobo roster.

Eastland's key figures during the night who thwarted and aided to some offensive and defensive efforts were: 22 Mike Stutts, 11 Brian Haun, John Hill and Elwin Davidson, who gave it their all throughout the night.

The Lobos ran up a 20 point margin in the first quarter which padded their efforts throughout the night.

Their first score came after the first nine plays of the game, on a third down play. Kent took a handoff from Powelson and went in for the score. Hollander added the point after.

Next it was Jimmy Kanady's turn to put the points on the board. His scores came for 21 and 13 yards out, on an end around and a big up the middle play. Hollander managed to get another point after on the two plays to help with amazing the large Lobo homecoming crowd that filled the Cisco stands.

It was Mike Stutts who drove for several long gains to get the ball from the Mav 14 yard line to the 7 of Cisco and enable Mike Lewis to give to John Hill with the aid of Ronnie Pinkerton for the Mavs only score of the night. The point after attempt by Hill was also good.

Before the half was to end, Kent and Kanady were able to pick two more to put more icing on the cake.

Kent scored from the Mav 6 yard line and Kanady made a 12 yard pass reception from Quarterback Powelson to wind up the first half with a score of 32-7 in favor of the Loboes.

It was homecoming night in Cisco, as was evident in the pre-game activities, when all senior members of the Lobo team were recognized separately.

During half an end to the suspense of wondering who would become Football Sweetheart for the Loboes.

The list of nominees were: Marcia McDaniel, Julia Richie, Robin Schutts, Iris Tipton and Sharon Sawyers. All of the girls

were escorted onto the field by senior members of the Lobo team, to hear the announcement of Sharon Sawyers, cheerleader, for the Lobos, named football sweetheart for 1975.

Loboes were able to make one more score in the third quarter. This time with 1:59 left Powelson went in on a quarterback sneak. Hollander's extra point attempt was good.

Mavericks came into the 4th quarter looking like a well organized ball club with a fresh start. With Lewis riffling passes to Brian Haun for 8 and 10 yards, a pass intended this time for the hard hitting running back Elwin Davidson was deflected by Kent and picked off by Kanady who ran to the goal for another Lobo score.

The Lob's last score was from Puryear who went in with 1:18 left to play in the game on a quarterback sneak. The extra two point conversion left the final score 54-7 in favor of the Loboes.

The Mavs outstanding players were Mike Stutts who carried the ball 11 times for 63 yards and Elwin Davidson who carried 16 times for 33 yards.

Lobo outstanding players were Kelly Kent who carried 18 times for 164 yards.

Although the game stayed in the favor of Cisco throughout the night, key Mavericks Morgan, Pinkerton, Wheat, Haun, Lewis and Wharton gave it their utmost.

Hopes are that the 1976 square off will bring another exciting game for Eastland County football fans.

Gets UT Honor

LISA GERMANY

In a surprise "tapping" ceremony in Austin Thursday evening, Lisa Germany became one of 19 new members of The University of Texas Orange Jackets. The organization is composed of "outstanding" sophomore, junior and senior women, based on scholarship, leadership and contribution to the community. Members act as official hostesses for the University and as a service organization.

Dressed in "orange jackets" members go in a group to seek out newly-elected members, announcing the honor to the recipient with a "tap" on the shoulder.

A junior, Miss Germany is second vice-president of Kappa Kappa Gamma Sorority, is a member of the Texas Student Union Fine Arts Committee, the Student Government Education Committee, and the University of Texas Bi-Centennial Committee.

In the past she was Kinsolving Dormitory student advisor, member of Cordettes (Women's Auxiliary to the Army R.O.T.C.) and member of the Texas Student Union Interaction Committee, only student member on the University of Texas Self-Study Committee for Accreditation, and was on the Dean's List for scholarship.

Miss Germany is the daughter of Mr. and Mrs. Jack Germany and the granddaughter of Mr. and Mrs. Victor Cornelius.

Jr. High & B Teams Score

The seventh grade football team beat Cisco 8-0 in Thursday football. The eighth grade won over Cisco 16-12. However, the B team lost to Cisco 31-0. All three games were played on the Eastland field.

October 26, 1975 Water Solution Facing The High Plains

AUSTIN--A water import project appears to be the only valid long-term solution to the water problems facing the High Plains. Water, Inc., told members of the Texas House Natural Resources Subcommittee on Water Resources at a hearing in Austin. "Such a project must remain an integral part in the Texas Water Plan if the plan is to indeed fulfill its purpose," the testimony concluded.

Subcommittee Chairman Tom Craddick of Midland responded to the Water, Inc., testimony with "the economic importance of the High Plains and West Texas is too great for the rest of the state to ignore its water problems."

"The High Plains of West Texas produced 55 percent of the state's cotton during 1974, 12% of the nation's," testified Tommy Swann, Water, Inc., staff economist, and he noted that last year was an "off" year because of adverse weather conditions. In 1973 those figures were 67% for Texas, 24% for the nation. Other 1974 production data revealed the High Plains produced 43% of the state's grain sorghum, 51% of the wheat, 83% of the corn and 81% of the fed cattle. "That's enough fed cattle to supply 18 million Americans with red meat for a year," Swann said.

"Water is the key ingredient that makes this kind of agricultural production possible," Duncan Ellison, Water, Inc., executive director, told the subcommittee. He added that import water would be necessary if agricultural production is to be maintained down through the years.

The Natural Resources Subcommittee is gathering testimony with an eye toward recommendations for legislation it will make to the next session of the state legislature.

OWN YOUR OWN BUSINESS - BE YOUR OWN BOSS, here's the opportunity you've been waiting for in CISCO. A thriving service station on a major highway. Sales price includes building, tools, equipment, tanks and pumps. Will inventory property, (gas, oil, tires) at jobbers prices. Owner will finance.

COUNTRY HOME ON HILL, wake up to a soft breeze and the nostalgic sounds of country living. Nice home on Hwy. 570 near Lake Leon. Over 1300 sq. ft. the convenience of city water, creek, tank, and even a water well. Up to eight acres. New carpet. Will V.A.

IF TWO WILL DO, **SOLD** 90 sq. ft. of living comfort in this cute two bedroom, fully rejuvenated and READY TO MOVE INTO. Stately live oak trees grace the large 75' x 115' lot. Carpet, fireplace, formal dining area, one car carport. Companionable CISCO neighborhood.

WHAT CAN'T GET LOST, NOBODY CAN STEAL IT AND IT WON'T BURN UP! LAND!! We have offered forty - nine acres just touching EASTLAND City Limits. Accounting this excellent investment is a two bedroom cottage, nestled among eighty - one fruit bearing pecan trees, and a small orchard. A crackling fire in an impressive double log burning fireplace shuts out the cold winter's night. Total electric and on city water, the sunken master bedroom has a new modern bathroom. Beautiful new carpet, wall coverings, paneling and a covered enclosed patio. A storm cellar also out buildings and steel pens, CHECK IT OUT. RETIRE WITH INCOME, four rent houses in Humbletown. Occupied. Storage house, ten pecan trees, storm shelter, trailer hook up, in CISCO, good investment, call today.

MAN WITH TWO HOUSES AND ONE WIFE, SAYS SELL ONE HOUSE!! Extra nice four bedroom, two bath home. Blue Flame Preferred Rate. LOADED with extras such as the natural log burning fireplace, dishwasher, disposal, eye - level oven. New carpet, choice location in CISCO. Friendly, pleasant neighborhood, LOW down payment, FHA financing.

CAN YOU HANDLE THE CHALLENGE of a dream come true? The desire you have for your family to have a home that feels like home, a neighborhood they can call theirs!! New construction on a site superb of all RANGER, on top of a hill. Exquisite view. Three bedrooms coinciding with an ultra - modern hollywood bath. Carpet, central heat and air, two car garage. FHA financing.

HE WHO HESITATES - PAYS MORE!! We offer here, what you've always wanted. "Just a couple of acres right outside of town". Some of the best soil in EASTLAND COUNTY, guaranteeing to grow a prolific garden of fresh and tasty tomatoes, onions, squash, and strawberries. Complimenting the abundant soil, beside a small pecan orchard lies a small two bedroom country home, generous windows provide fresh air in every room, with paneling and the convenience of city water. Call today.

OLDER BUT NICE, WELL BUILT, with formal living room including fireplace, formal dining area, new carpet, natural log burning fireplace in sunken den. Large kitchen with breakfast nook. Spacious pantry. Three bedrooms, two baths, situated on a quiet corner lot, established yard. FHA financing, in CISCO.

YOU WILL SAVE MONEY ON THIS ONE. Check the comparables on this new brick home in CISCO. Owner being transferred out of state. A home so well insulated, it will make your family feel like they're under a warm blanket on the approaching fall evenings. Feel as though you're walking on air with the plush cool multi - colored green carpeting. Also enjoy the conveniences of "today's" living in the beautiful kitchen with birch cabinets. Only three blocks from the "Hub" of all LOBO COUNTRY, Cisco High School. His 'n Her garage, small equity and assdme loan.

LOOKING FOR QUIET LIVING? We offer a lovely home overlooking LAKE CISCO. The 20' x 40' covered boat dock is ideal for those "quick" fishing trips. Spacious lot, beautiful shade trees, fenced yard front and back, with curbs as well, for that tailored look. Over 1400 sq. ft. of convenient, modern lake living in this two bedroom, two bath chalet, paneling throughout. Extra large family room. Individual water system. Call today.

WATCH YOUR INVESTMENT GROW, NOT YOUR RENT RECEIPTS! If you are a discriminating home buyer looking for an outstanding buy, we have the property for you. In CISCO two bedroom, brick, with Central Heat and Air, Carport and S Storage. Low payments, cheaper than Rent.

Deer Permits

Antlerless deer permits will be issued to qualified landowners or their agents in Eastland County on November 3 & 4, 1975.

Maps indicating compartments and ranges of antlerless permit issuance are posted in the county courthouses. Landowners must have the full acreage as posted in the courthouse to obtain each permit.

Authorized agents must have a description of the property including the location and number of acres.

Permits in Eastland County will be issued in eastern Eastland County in an area south of 1 - 20 and east of Hwy. no. 571 at a rate of 1 permit to 106 acres.

GORDON SPOT

We have had several calls from home gardeners requesting information on storing dry beans. Dry beans and peas will keep in storage for a long period of time if they are protected from insect pests.

Storing dry beans or peas in sealed metal or glass containers will prevent insect infestations. But what if insect infestations occur in the field before harvest?

This calls for decontamination by freezing, heating or fumigating.

If freezing is used, place the products in a deep freeze for 48 hours before sealing.

When heat is used to eliminate insects, heat the beans or peas to a temperature of 130-140 degrees F. for 30 minutes. An ordinary oven may be used. Seal the beans or peas immediately after cooling.

For fumigation use Hi-Life (carbon disulfide), which is available at drug stores or garden centers. Fumigation must take place in an air-tight container for 48 hours. Do not place the chemical directly on the beans or peas, instead place it in a saucer or similar container on top of the products and seal the fumigation chamber. Use one tablespoon of chemical per five gallons of beans or peas. After fumigating, aerate the products for 24-48 hours before sealing and storing.

Before beginning the fumigation process, read the label on the chemical and follow all directions.

Pecan harvesting is beginning here in Eastland County. Over-all quality will be good this year. We hope you will save about 40 pecans of each variety for the county pecan show which is scheduled for December 5 and 6. Save the largest and heaviest pecans of each variety.

Pecans harvested this fall can be maintained in a fresh condition until they are consumed if they are properly handled and stored. It must be understood that storage does not improve pecan quality and at the very best maintains the quality present when they go into storage. Freshly harvested pecans when well cured contain about 12 percent protein, 10 percent carbohydrate, 70 percent oil, 3 percent water, and 1.6 percent ash made up of various mineral elements. Pecan oil is about 93 percent unsaturated, thus pecans are considered by many to be one of the best health foods in existence. However, since oil content is so high, rancidity development at warm temperatures is very noticeable. Lowering the temperature will delay rancidity development.

In-shell pecans that may remain good for only six months at 70 degrees F. can be successfully stored for 18 months at 32-36 degrees F. Storage life of in-shell nuts may be extended to 6 to 10 years when stored at 0 degrees in a deep freeze.

Pecans should be stored as soon as their moisture content is down to 3 to 3.5 percent. About four weeks are required for very

green pecans to lose sufficient moisture in common storage to be ready for cold storage.

Pecans should be thawed slowly after removal from frozen storage. They can be safely removed from storage if allowed to come to equilibrium in 32 degrees F. storage and then to rise to the existing temperature in a 50 degree F. storage. A series of gradually increasing temperatures will prevent moisture condensation at room temperature.

Golf Scramble
Sunday At L-C

A Golf Scramble will be held at Lone Cedar Country Club Sunday, October 26. Tee-off time will be at 1:30 p.m. This will be Lone Cedar's last golf scramble of the season.

'Patron's Concert'
Scheduled At
Hurst Playhouse

The first Eastland Music Study Club "Patrons' Concert" will be November 1, 3 p.m., at Bell Hurst Playhouse. The Classic Arts String Quartet of Fort Worth, Texas, will play compositions by Felix Mendelssohn, Charles Ives, and Maurice Ravel. The violinists of the quartet are Kenneth Shanewerk, TCU violin professor, and Richard Plier, former concertmaster of the Abilene Philharmonic Orchestra. Sheila Plier will play the viola and Monte Knutson will play the cello.

Tickets for the concert are \$2.00 and may be purchased from Mrs. Ernie Rice, phone 629-1550, who is in charge of ticket sales. Since the seating capacity of the Playhouse is limited, early ticket reservation is suggested.

Thoughts
From The Living Bible

This song of David was written at a time when the Lord had delivered him from his many enemies, including Saul. Lord, how I love you! For you have done such tremendous things for me. The Lord is my fort where I can enter and be safe; no one can follow me in and slay me. He is a rugged mountain where I hide; he is my Saviour, a rock where none can reach me, and a tower of safety. He is my shield. He is like the strong horn of a mighty fighting bull. All I need to do is cry to him -- oh, praise the Lord -- and I am saved from all my enemies!

Oil News

Medders Oil Co. of Wichita Falls will drill No. 1 Coolidge-Byrd as a proposed 4,600 foot wildcat in Erath County.

Location is 35 miles southeast of Ranger on a 532 acre lease. It spots 2,130 feet from the south and 1,830 feet from the east lines of Henry Baker Survey, A-48.

Dallas Oil & Gas Inc. will drill No. 1-33 Howard Graves Heirs in the Rector (Marble Falls) Field 18 miles northeast of Ranger.

Having a proposed depth of 4,100 feet, it spots 700 feet from the north and 1,150 feet from the west lines of Section 69 Burleson CSL Survey, A-30. The lease is composed of 60 acres.

H. Bryan Poff of Fort Worth will drill No. 1 Tom M. Ballas a proposed 4,200 foot wildcat in Eastland County.

Location is two miles west of Cisco on a 152 acre lease. It spots 330 feet from the north and east lines of the southeast quarter of Section 13, Block 2, BBB&C Survey.

A Palo Pinto County wildcat has been completed as a Marble Falls gas well 20 miles east of Ranger and prorated in the regular field.

It is Rhodes Drilling Co. of Abilene, No. 1-C R.M. Barton. Site is 1,240 feet from the north and 1,700 feet from the east lines of W. Barley Survey, A-1004.

Absolute open flow was 1,550,000 cubic feet of dry gas daily from perforations at 3,209-16 feet. Operator set the 5 1/2 inch casing at 3,645 feet.

The hole was drilled to a total depth of 3,650 feet and plugged back to 3,425 feet.

C.B. Hazel of Ranger completed No. 5-B Swenson Ranch in the Little Cedar (Strawn) Field 16 miles north of Ranger.

Location is 2,390 feet from the north and 1,700 feet from the east lines of Section 19, Block 6, T&P Survey.

Daily potential was 168 barrels of 41 gravity oil, plus 10 barrels of water. Flow was through a 24-64 inch choke with 750 pounds casing and 148 pounds tubing pressures.

It is producing from perforations at 2,930-40 feet, treated with 500 gallons of acid. The pay was fractured with 60,000 pounds of sand and 1,000 barrels of water.

Operator set the 4 1/2 inch casing at 3,024 feet. The hole was drilled to a total depth of 3,025 feet and plugged back to 2,996 feet.

Gas-oil ratio was 750-1.

No. 8-C Swenson Ranch spots 2,233 feet from the north and 2,250 feet from the west lines of Section 19, Block 6, T&P Survey.

Daily potential was 147 barrels of 41 gravity oil, plus 12 barrels of water. Flow was through a 24-64 inch choke with 750 pounds casing and 125 pounds tubing pressures. It is producing from perforations at 2,936-52 feet, treated with 500 gallons of acid and fractured

Absolute, open flow was 88,000 cubic feet of dry gas daily from perforations at 3,220 to 3,440 feet opposite the Marble Falls.

The pay was treated with an unreported amount of acid and fractured with 20,000 gallons of water and 20,000 pounds of sand.

Operator set the 3 1/2 inch casing at 3,680 feet, total depth.

Congratulations Mrs. Moore

Congratulations go to Mrs. Travis Moore, of Rt. 1, DeLeon, the winner of \$900. Her name

was drawn at Comanche's Thrift Mart on October 18, 1975.

"Rural Building A Better Way"

WASHINGTON—Techniques for improving the quality of rural life are described in a 11-minute color slide presentation and filmstrip produced by the U.S. Department of Agriculture (USDA).

The narrated presentation is called "Rural Building: A Better Way". It shows how a hypothetical community uses the Rural Development Act of 1972 and other legislation to upgrade itself in the areas of human and economic development, community facilities, and environmental improvement. No one community is likely to use all of the techniques employed in the show. They are used in the presentation to

demonstrate what is possible through the more than 500 federal programs available to rural communities, according to USDA's Rural Development Service.

Copies of the 103-slide set can be purchased for \$21.50 from the Photography Division, Office of Communication, U.S. Department of Agriculture, Washington, D.C. 20250. Order the filmstrip for \$16 from Photo Lab, Inc., 3825 Georgia Ave., N.W., Washington, D.C. 20011.

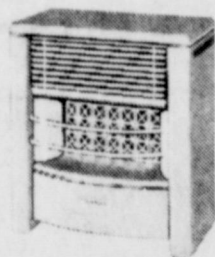

A cassette with soundtrack including both 50 Hz and 1,000 Hz pulses to change frames automatically and two copies of an illustrated narrative guide are included in the prices.

WHEN YOU CHOOSE DEARBORN IT'S FOR A LONG, LONG TIME

Plan on Lots of Warm Winters With the Unvented Deluxe

Chases chills from hard to heat spots and fills a room with delightful warmth in almost no time. Features the Forward Heat Flow that keeps the cold from settling along your floors. Often copied, but never matched in efficiency and durability, the Deluxe has a cool-to-touch cabinet for extra safety, a lifetime burner—and is Dearborn crafted for dependable, long life. Natural or LP gas. Sizes 12,000 to 39,950 BTUs.

The most respected name in gas area heating

A Home Halloween Party Will Assure A Safe Holiday Season

COLLEGE STATION—Texas now boasts another woman on the statewide campaign trail. She's a foods and nutrition specialist with a "revolutionary" idea for celebrating Halloween.

"Surprise the family with a new Halloween tradition this year—a party at home for children and friends," Frances Reasonover with the Texas Agricultural Extension Service, the Texas A&M University System, suggests.

She pointed out that this will help assure a safe holiday season—devoid of broken razor blades or other harmful materials that are plaguing the Halloween celebrations in recent years.

"Games and food can be planned around a theme—'why pumpkins mean Halloween's here' is one theme suggestion. Older children can research the local library to learn all they can about pumpkins and Halloween before the party. And younger children could talk with their oldest friends or relatives to find out all they know about pumpkins.

"Then everyone can tell stories around a large pumpkin jack-o-lantern named 'The Great Pumpkin'."

To start "pumpkin lore" research, Miss Reasonover said that although the custom of jack-o-lanterns at Halloween is considered native to America, actually Irish people made lanterns as far back as Druid worship, long before the discovery of America.

But since pumpkins didn't grow in Ireland, people hollowed out large potatoes and turnips, then cut faces in them for lanterns. Irish immigrants who fled the famine in the 1840's discovered that the American pumpkin was excellent for carving the jack-o-lantern, the specialist continued.

"Pumpkin is nutritious—it's rich in Vitamin A needed for growth and night vision. Vitamin A also helps protect against infection by keeping linings of the mouth and digestive system in good condition.

"One-third cup of pumpkin will furnish the average adult almost all the Vitamin A needed daily and more than the daily requirement for young children," she pointed out.

Pumpkin lends itself to a variety of dishes—perhaps each person attending the party could prepare a pumpkin dish to bring. This could turn into a smorgasbord of taste treats, from sandwiches on pumpkin bread to pumpkin chiffon pie for dessert.

Miss Reasonover suggested the following pumpkin treats:

PUMPKIN BREAD

1/2 cup shortening
2 1/2 cups sugar
4 eggs
2 cups or 1 lb. can pumpkin (cooked, mashed carrots or winter squash may be substituted)

1/2 cup water
3 1/2 cups flour, sifted
2 teaspoons soda
1 1/2 teaspoons salt
1/2 teaspoon baking powder
1 teaspoon cinnamon
1 teaspoon cloves
1/2 cup coarsely chopped nuts
1/2 cup raisins

Cream shortening and sugar. Stir in eggs, pumpkin and water. Sift together flour, soda, salt, baking powder, cinnamon and cloves. Blend into a smooth dough. Stir in chopped nuts and raisins. Fill baking pans about three-fifths full. Place baking pan in center of preheated oven, at 350 degrees F. Bake large loaves 60-70 minutes, or until a clean wooden pick inserted into center of bread comes out clean. Remove from oven. Let stand five minutes in pan. Remove from pan and cool. Yields: 2 loaves 9x5x3; 3 loaves 8 1/2x4 1/2x 2 1/2; 4 no. 2 1/2 can size breads; or 30 cupcakes.

PUMPKIN CHIFFON PIE

2 teaspoons plain gelatin
1/4 cup water
3 eggs, separated
1/4 cup light brown sugar, packed firm
1/2 teaspoon salt
1/2 teaspoon ginger
1/2 teaspoon cinnamon
1 teaspoon orange peel

1/2 cup milk
1 1/4 cups pumpkin
1/4 cup white sugar
Soak gelatin in cold water. Put egg yolks in top of double boiler and beat slightly with a fork. Add brown sugar, salt, ginger, cinnamon, orange peel and milk. Then add the pumpkin. Cook, stirring constantly until thick. Remove from heat. Add soaked gelatin and stir until dissolved. Cool. When mixture begins to thicken, fold in stiffly beaten egg whites to which 1/4 cup white sugar has been added gradually. Pour into 9 inch baked pie shell. A frozen shell may be used. It may be served with whipped cream if desired.

Mrs. Gwendolyn Clyatt, consumer marketing information specialist, adds her support to the "celebrate Halloween at home" campaign with some other ideas.

"Among items to consider for

both decorations and refreshments are apples, popcorn and cheese, along with pumpkins—all available at the local food store.

"For decorations or jack-o-lanterns, select a pumpkin 10-12 inches in diameter, weighing 20 pounds or even more. When the pumpkin has a thin shell it enables light from within to really glow. But remember to use extreme care in lighting a jack-o-lantern—a flashlight will give the same effect as a candle and will be much safer," she said.

Mrs. Clyatt is with the Texas Agriculture Extension Service, the Texas A&M University System.

Red Delicious and Jonathan are two popular apple varieties for "bobbing" at the party, as well as for eating and table decorations.

"And a favorite of all is popcorn—a bowlful of buttered

popcorn with apples is always welcome for a snack, and youngsters will be sure to appreciate popcorn balls.

"Try a cheese platter to add variety and flavor—and nutrition—to the Halloween party. Serve it with fruit or crackers for a snack.

"Youngsters are more likely to enjoy mild flavored cheeses. Remove the cheese from the refrigerator about an hour before time to serve it because cheese develops full flavor at room temperature," she said.

We're building power plants that use lignite coal.

It's our answer to the rising price of natural gas.

This power plant is being built in East Texas at Martin Lake near Henderson. It will make electricity by burning lignite coal.

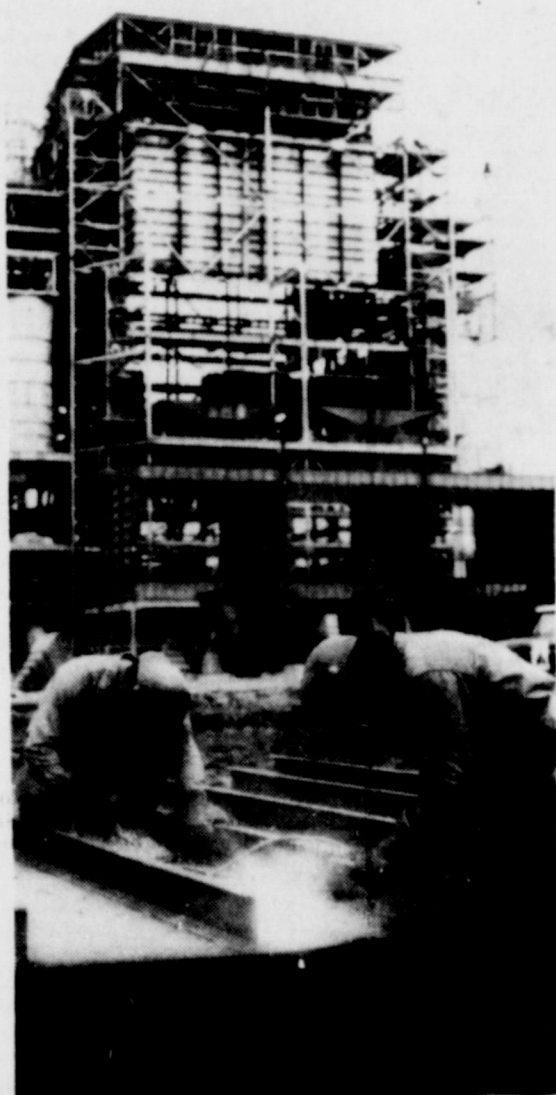

We have to build lignite plants because we're running out of low-cost natural gas, our main fuel today. New supplies are hard to get and very costly.

Lignite plants cost more than twice as much to build as comparable gas-fired plants, and that means electricity will cost more. But expensive as they are, lignite plants will still make electricity more cheaply than plants using high-priced gas.

That's because our large lignite supplies, acquired many years ago, are much cheaper than new supplies of gas. And using cheap fuel is one way we're keeping your electric bill as low as possible.

The average bill for Texas Electric customers is already 27 per cent below the national average, and we're working to keep it that way.

To Preserve the Beauty of Texas.... The Beautify Texas Council Needs Your Help... Now!

AS A MATTER OF FACT, EACH AND EVERY TEXAS CAN PITCH IN AND HELP CLEAN UP OUR STATE

YESTERDAY
A few years ago, a number of
concerned persons joined to-
gether to form the BEAUTIFY

TEXAS COUNCIL. Their pur-
pose was to enhance the beauty
of our state by educating
citizens on the proper disposal
of litter.

As a statewide, nonprofit, non-
partisan organization, the
Council expanded that goal and
adopted a practical philosophy

as exemplified in its official
bylaws:

TO SERVE as an educational,
advisory and coordinating -
agency through which business
and industry, government and
public and private organizations
may work together to prevent
pollution, to ensure clean,
attractive neighborhoods, beau-
tiful highways, beaches and
well-kept historical shrines and
monuments.

TO ENCOURAGE the preser-
vation of Texas' natural beauty
and environment through pro-
grams of public education, with
emphasis on prevention of litter
and pollution in all forms.

TO DEVELOP among resi-
dents of Texas a pride in their
communities and their state,
and to emphasize the benefits of
a clean, healthful and beautiful
state.

TO ENCOURAGE and assist
in developing voluntary com-
munity improvement through
enlightened leadership, thereby
creating an appreciation for this
state through good citizenship.

TODAY

More than 50 organizations,
businesses and governmental
agencies are actively represen-
ted on the BEAUTIFY TEXAS
COUNCIL, and there is a
growing membership of con-
cerned private citizens as well.

BEAUTIFY TEXAS COUN-
CIL activities include:

*Annual sponsorship of the
Governor's Community Achieve-
ment Awards. The Governor of
Texas presents the awards to
six cities and towns that have
been judged most progressive
in improving their quality of
living.

*A monthly newsletter, **Beau-
tiful**, highlights current beau-
tification activities throughout
the state and achievements by
individuals, cities, industry and
organizations.

*A Beautification Improve-
ment Kit is made available to
those individuals and groups
desiring to organize local
efforts. This "how-to" manual
has proved its worth in many
cities and towns where it was
used to establish sustained
clean-up and beautification
activities. The Council also
distributes free of charge book-
lets on many special problems.

*Resources Available to
Beautify Texas", is another
publication made available by
the Council. An invaluable
guide, the publication lists
sources for financial and educa-
tional assistance, films and
other training aids, and gives
data on existing programs and
awards.

☐ Individual	5 - 10*

*Increased fee after June 1, 1973.

*Public service materials
geared toward anti-litter mes-
sages are provided to the
broadcast and print media.

*A speakers bureau has been
established to educate con-
cerned groups and organiza-
tions on the voluntary ways of
solving litter and pollution
problems.

TOMORROW

Litter can ruin the beauty,
cleanliness and character of our
environment. Litter is costing
Texas millions of dollars an-
nually. The Texas Highway
Department spends more than

\$3 million each year in clean-up
operations. Litter is a fire
hazard and a threat to our
health and safety.

But litter is **not** necessary!!
The Council wants to see Texas
become the cleanest and most
beautiful state in the nation.
Whether you're a businessman,
civic leader, or just a concerned
citizen, you can help.

Perhaps you're thinking now,
"What's in it for me?" Well,
think about this:

*Everyone wants a clean and
beautiful place to live and work.
We will be happier, play harder

and work more effectively if we
can take pride in our commu-
nity.

*This brings up the point that
a beautiful, clean community
literally has a welcome mat out
for tourists and expanding or
new industries. Let's face it,
tourists and investors alike
prefer to spend their time and
money in an area where clean
streets and well-kept neighbor-
hoods are evidence of commu-
nity pride and civic responsi-
bility.

*The frontier spirit still
prevails in Texas, where survi-

val, at one time depended on
good neighbors helping each
other. The volunteer approach
is still the best one here, for
citizens and industries alike.
It's far more practical to
volunteer now, than to chafe
under more restrictive legisla-
tion later.

Let's all join together to make
ours a cleaner, more beautiful
state. The best way to start is by
becoming a member of the
BEAUTIFY TEXAS COUNCIL
to ensure a beautiful, prosper-
ous Texas for future genera-
tions.

Of Interest to Women

The Eastland County Home
Demonstration Club members
have received the new direc-
tory for the courthouse. The
bronze directory will be
placed in the courthouse lobby
and gives the location of each
office located in the cour-
thouse. This is the club
women's Bicentennial project.
Plans will be made in the near
future for the dedication of this
permanent plaque.

Pecan season is here! Pecans
have a place in the well -
planned diet because their good
flavor, food value and many
uses in main dishes, breads,
cakes, cookies, desserts, salads
and candies.

While no one food provides all
the nutrients needed for good
health, pecans are a good
source of protein, phosphorus,
thiamin, unsaturated fats and
energy. Although pecans are a
high energy food, they have
fewer calories than most nuts!

Pecans become rancid after
several months storage unless
properly canned or frozen. The
Extension Service recom-
mends the following ways for
storing pecans:

CANNING PECANS IN PRESSURE CANNER:

Select well - cured nuts; sort
according to size. Place in
shallow pan and heat in 250 to
300 degree F. oven for 10
minutes. Pack hot into hot, dry
jars or tin cans. Leave 1 inch
headspace in jars; fill cans to
top. Close jars or seal cans.
Process in pressure canner at 5
pounds pressure for 10 minutes.
Open petcock and let steam out.
Remove jars or cans from
canner. Complete seal on jars if
closures are not self - sealing
type. Cool cans in cool water.

CANNING PECANS IN WATER BATH:

Follow directions for
preparing pecans for pressure
canner. Place jars in water
bath, with water 1 inch below
the rim of the jar; water should
cover cans. Process in boiling
water for 15 minutes. Remove
jars and complete seal if
closures are not of self - sealing
types. Cook cans in cool water.

FREEZING PECANS:

Package freshly shelled
pecans in moisture - vapor
proof bags, freezer jars or
plastic containers. Quick
freeze and store at 0 degrees F.

SHELLED PECANS:

Store unsheled pecans at a
temperature range of 32
degrees F. to 38 degrees F.
They will keep fresh for about a
year.

The Extension Service
Publication entitled **EAT
MORE PECANS** is available at
the local extension office. The
publication also contains some
excellent ways to use pecans in
your family meals. A favorite
recipe is

PECAN - MERINGUE CHEWS

2 egg whites
2 cups brown sugar
4 cups pecans, chopped
Beat egg whites until stiff.
Fold in brown sugar, add
pecans. Drop by spoonfuls onto
greased baking sheet and bake
at 375 degrees F., until golden
brown; about 10 to 12 minutes.

Before storing plastic blow-
up wading pools for the winter,
dry them thoroughly. And to
prevent sticking, sprinkle with
corn starch before folding for
storage.

Deer season opens next
month. If you have a hunter in
your family you might like to
request a copy of the Extension
publication "Wild Game--Care
and Cooking".

Game meat adds variety to
meals and is high in nutritive
value. It is an excellent source
of high quality proteins, fat,
minerals, iron, copper, and
phosphorus and the B vitamins
Thiamin, niacin, and riboflavin.
Venison is a rather dry meat
and improves with the addition
of moisture and fat. A recipe
that you might like to try this
coming month is...

VENISON SWISS STEAK

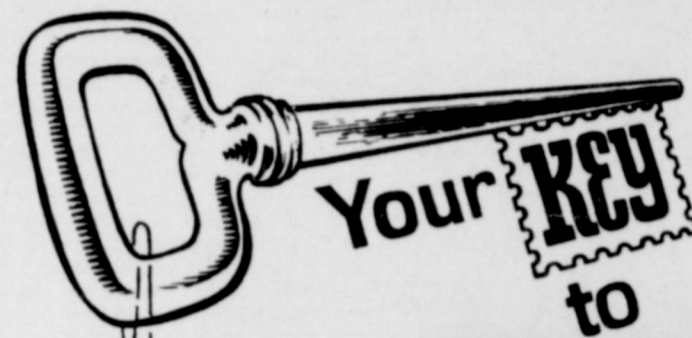

Combine 1/4 cup flour, 1
Tablespoon salt, 1/2 teaspoon
pepper.

With wooden mallet or edge
of heavy plate, pound flour
mixture into 3 pound venison
steak, 2 inches thick.
Heat in deep heavy skillet or
Dutch oven over medium heat
1/2 cup shortening.

Slowly brown steak in hot fat
and add 2 medium onions,
sliced; 1/2 cup sliced celery, 1
can (16 ounce) tomatoes, 1 cup
water.

Cover and bring to boil.
Reduce heat and simmer 2 1/2
hours. Makes 6 servings.

A bale of cotton that brings
less than \$175 to the producer
increases in value to \$4,800
when made into dresses.

In The Kitchen

BY DINAH WILSON

It is time for us to begin preparing our larders for the barrage of holidays ahead. Now, we realize that the calendar has not yet reached November, but our motto has to be "Be Prepared". With all the activities ahead, you need to use this quiet time before the storm to get yourself prepared. The holidays are always a fun time at our house because this is the only time of the year when we start our candy factory. Around the middle of November we begin making our sweets for the sweet, and we keep the thermometer on soft ball until the week before Christmas. Along with the various candies and all the other confections, there are always cookies, pies, and cakes which must be baked. With all the cooking to be done, we have very little time to gather the items needed to make all the recipes we have in mind. So, we must begin now. Most all the ingredients needed can be found at any of the local grocery stores. You can add a few ingredients each time you shop and it will make the cost of holiday cooking spread over a period of time instead of one big bill.

The largest item on our list, and probably the most costly is the nuts. To us this should be really a small problem since we live in the Peanut Capital of Texas. There are several places in Gorman where you can buy salted and roasted nuts already shelled and ready for a relatively small fee. The Nutri-Rich Company has these prepared nuts ready for you to take home and even has fresh peanut butter made right in their own company. Raw peanuts can be purchased at Birdsong Peanut Company in Gorman. A five pound box of raw peanuts can be purchased at the office for \$3.50 or mailed to you or a friend for \$4.50.

You better get your old nutcracker out for the pecans. They are beginning to fall from some of the trees and before long they will be ready to spend long, tedious hours shelling pecans we suggest you do a little pecan trading. There are many companies which have pecan shelling operations. Possibly the closest to Eastland is Abilene Pecan Company. Your pecans will be purchased for anywhere from 28c to 60c per pounds in the shell, depending on the variety. You can then buy shelled pecan halves or chopped pecans for \$2.20 per pound. A little fast arithmetic will show us that 50 lbs. of pecans in the shell (about a bushel basket full) can be traded for, say, 40c per pound. The trade would be equal to nine pounds of shelled pecan halves or chopped pecans. This will equal about 20 cups of prepared pecans. Most recipes call for an average of two cups of pecans, so you can see that you would have a lot of pecans to cook with. A drive to Abilene only takes a couple of hours, but shelling 20 cups of pecans would take a couple of days.

If you are worried about storing nuts until the cooking begins, there is no problem. The best place you can store nuts is in your refrigerator or freezer in air tight containers. They will keep for several months without becoming stale or rancid.

As the season progresses, we will take more time to talk about using these peanuts and pecans. There will be no problem with supply this year, because Eastland County promises to produce a bumper crop of both peanuts and pecans. With a little work, our larders will be full for the holidays.

UNTIL NEXT TIME

It's a Fun Family Thing—Read the Want Ads.

SEWER SORROWS

A recent caller to the Texas Water Quality Board revealed that she didn't know that the water she uses in her home and the wastewater that leaves her home weren't treated in the same place in the same way.

This is worth a brief explanation.

The key here is "water treatment" and "wastewater (or sewage) treatment." Water treatment makes water fit for drinking and wastewater treatment, if properly done, makes sewage unharmed to the streams into which it is discharged.

Picture a mythical river we'll call the Waxatawnee, a stream flowing 500 miles across Texas toward the Gulf of Mexico. This stream is the source of drinking water for the towns along its course and

wastewater is discharged into it after it is used by people and businesses in the towns and treated at the sewage treatment plants.

HOUSES

3 bedroom, 2 bath, central air and heat, built-in oven range, and dishwasher, new carpet and drapes. Extra nice. 150' x 150' corner lot, \$29,500.

2 bedroom home, nice yard, with good repair. Located on North Daugherty Street.

3 bedroom, 1 bath, carpeted with central heat. Good location. Shown by appointment only.

3 bedroom, 2 bath home with fireplace, could be arranged for a duplex.

Lake Lot and one room cabin at Lake Leon \$5,250.00

1 acre with a 3 bedroom, 2 bath home in Olden.

SURE NOT COONS

M.L. Hughes of Baird, and Jack Jernigan of Eastland show their coon hunting catch Thursday

Sunday, October 26, 1975

Mr. and Mrs. Homer Smith of Eastland attended the Tyler Rose Festival last week-end. Their granddaughter, Miss Julie Smith, was an attendant to the queen, Nannette Oge. Julie is the daughter of Dr. and Mrs. Don Smith of Tyler.

Guests at the Queen's Tea in the Tyler Rose Garden were received by Queen Nannette from her throne in a latticed pergola. She is flanked by her attendants, Miss Julie Smith (left) and Miss Catherine Cobb. The Ladies - in - Waiting are in the foreground.

O.E.S. Attends Convention

Members of Eastland Chapter #280, O.E.S. attending the 93rd session of the Grand Chapter of Texas, Order of the Eastern Star at the Dallas Convention Center during the week of October 6, were Mrs. Betty Wilcoxen, Worthy Matron; Mrs. Bernice Tankersley, Secretary; Mrs. Ima Jordan, Mrs. Eloise Zuspunn, and Mrs. Mary Edwards.

A special meeting was held October 8, 1975, in recognition of the work of the special committee on Kidney and Cancer Research. Over \$100,000.00 was contributed through garage sales held by this committee throughout the State of Texas, and the money was used to purchase Ten Kidney Dialysis Machines to be placed in hospitals to serve the most remote areas from Brownwood and one in Mineral Wells to assist in this area; also \$12,000.00 was donated to M.D. Anderson Hospital, \$12,000.00 to Baylor Medical Center and

\$12,000.00 to Southwestern Medical School to be used in the field of Cancer and Kidney Research.

The 94th Installation of Officers for the ensuing year concluded the session on October 9. Mrs. Betty Wilcoxen served with other Worthy Matrons in the state in a beautiful drill, acting as Honor Guards for the presentation of the American Flag during the Installation Ceremony. The 1975-1976 officers were installed and Mrs. Doris Easterling, Worthy Grand Matron, of the Grand Chapter of Texas, appointed those who would serve on Committees of the Grand Chapter during the year.

Eastland members who were presented and received appointments were: Mrs. Mary A. Edwards, District 3 Welfare Committee; Mrs. Eloise Zuspunn, American Heritage Committee; Mrs. Bernice Tankersley, Sojourners Committee; and Mrs. Ima Jordan, Time and Talent Committee.

H.S.U. Concert To Feature John Phillip Sousa Music

Music by John Phillip Sousa, the noted March King who was one of the greatest American composers, will be featured in a program by the Hardin Simmons University Concert Band Tuesday, Nov. 4.

The concert will be in Behrens Chapel-Auditorium beginning at 8 p.m. and will be free to the public.

Lawson Hager, director of bands at H-SU, said the program will be about one hour in length and will include three of Sousa's compositions, in addition to Howard Hanson, Walter S. Hartley and Rex Mitchell, who also are American composers.

One Sousa number, naturally, will be the most popular march ever written, "The Stars and Stripes Forever", which became so well known at one

time that it almost replaced "The Star Spangled Banner" as America's National Anthem.

Stacy Blair, a junior from Eastland, will be featured in this number with a piccolo trumpet solo.

Other Sousa competitions will include "Semper Fidelis" and "At the Movies", a three-part suite in which Sousa gave his impressions of the movies in 1922.

Featured in this number will be Carolyn Hale, freshman alto saxophone soloist from Abilene; Kent Jordan, senior from Artesia, N.M., and Marty Myrick, freshman from Odessa, cornet duo; Mark Smith, graduate student from San Diego, Calif., oboe solo; and Tim Owens, freshman from Abilene, bassoon solo.

The H-SU Concert Band is comprised of 71 members.

"A Circle Of Service"

Service to and from the Senior Citizen will be the theme of a Workshop called "A Circle of Service," to be held on the Cisco Junior College Campus, Friday October 31, from 10:00 a.m. to 2:00 p.m.

From Waco Mr. Carlos Smith, Assistant State AARP Director who organized the local chapter, will return to Cisco as one of the featured workshop panelists. He will lead a discussion of "The Basic Assumptions of Service," Like Mr. Smith, Mrs. Verna Newman, Local Coordinator for the Santa Anna Program, qualifies as a Senior Citizen on the giving side of service. Her topic is "Basic Needs-Oriented Human Services."

After "The Resources are

Analyzed" by Lou Prange of the Senior Citizens' office, M. George Brassell, Head of CJC Sociology Department, will "Translate the Philosophy into a Plan of Action."

Following lunch at the College Cafeteria, Rev. C.C. Schultz of the Cisco United Methodist Church will "Interpret the Priorities" from a Christian standpoint.

Designed primarily for leaders working with the aging, the workshop is nevertheless open to all AARP members and any other interested party. "The panel discussions," says Project Coordinator Roy Carter, in charge of arrangements, will encourage full audience participation.

Morton Valley Club Meets

Leta Brockman, vice president, was in charge when the Morton Valley H.D. Club met Wednesday afternoon for a regular meeting. Emily Hartsell led in the opening exercise. Bessie Peoples read from the 6th chapter of 2nd Chronicles for the devotion. Ada Tankersley read the previous minutes and they were approved.

Emily Hartsell turned in her birthday dollar. We just had a short business meeting and adjourned in order to prepare for a thrift sale for Friday and Saturday.

Leta Brockman, hostess, served canapes, coke and punch.

The following members answered roll call with "What I Liked About the Good Old Days": Bertha Asher, Veta Cozart, Ada Tankersley, Bernice Tankersley, Mabel Garrett, Bessie Peoples, Flora Kincaid, Kay (Richardson) Proctor, Emily Hartsell.

The next meeting will be November 12, with Mabel Garrett as hostess.

Club To Hold Turkey Shoot

The Eastland Rifle and Pistol Club will sponsor a turkey shoot at the new club shooting range, southeast corner of the airport.

Events will be held for archery, large and small bore rifles, skeet and other shotgun events. Frozen turkeys will be awarded the victors of each flight in each event.

The shoot will start Sunday, Nov. 2, at 1:30 p.m. Come join the fun.

NEEDED: COMBAT ARMS PEOPLE

If you qualify, we'll teach you a job, pay you while you learn, and give you one of the best benefit packages anywhere. Then you'll earn your keep and know a job. Join the people who've joined the Army.
