125 Die As Labor Day Weekend Starts

Serenade To September—That Old, Sad Song

Let's be honest, kids, let's face it; Summer hasn't been so hot.

Fishing, swimming, boating, loafing, Picnics, baseball—all that rot.

Let's forget that dreary August; Meet the joys of gay September.

Here's the month we start to live in; It's the start of school. Remember?

Sharpen up those brains and pencils; Wait with joy the teacher's bidding.

Give three cheers for... well, for... Ah, who in heck do we think we're kidding?

Yugoslavia Denies Fear Of Invasion

BELGRADE (AP)—Yugoslavia denied Saturday it fears a Russian invasion. A report that it is thinking of a possible Red Army attack was called pure guesswork. An official statement said: "The United Press printed news from 'official Yugoslav sources' to the effect that Yugoslav Government is supposedly considering the possibility of an invasion of Yugoslavia by Russian troops. "It is officially stated that this news to the effect that Yugoslav official circles made such statements is an ordinary fabrication and arbitrary guesswork of the correspondent of the United Press in Belgrade."

The United Press in New York had no comment. Tito's Ministry of Information denied also a Voice of America broadcast which said Belgrade had complained to the International Danube Commission about an armed Soviet ship on the Danube River last month.

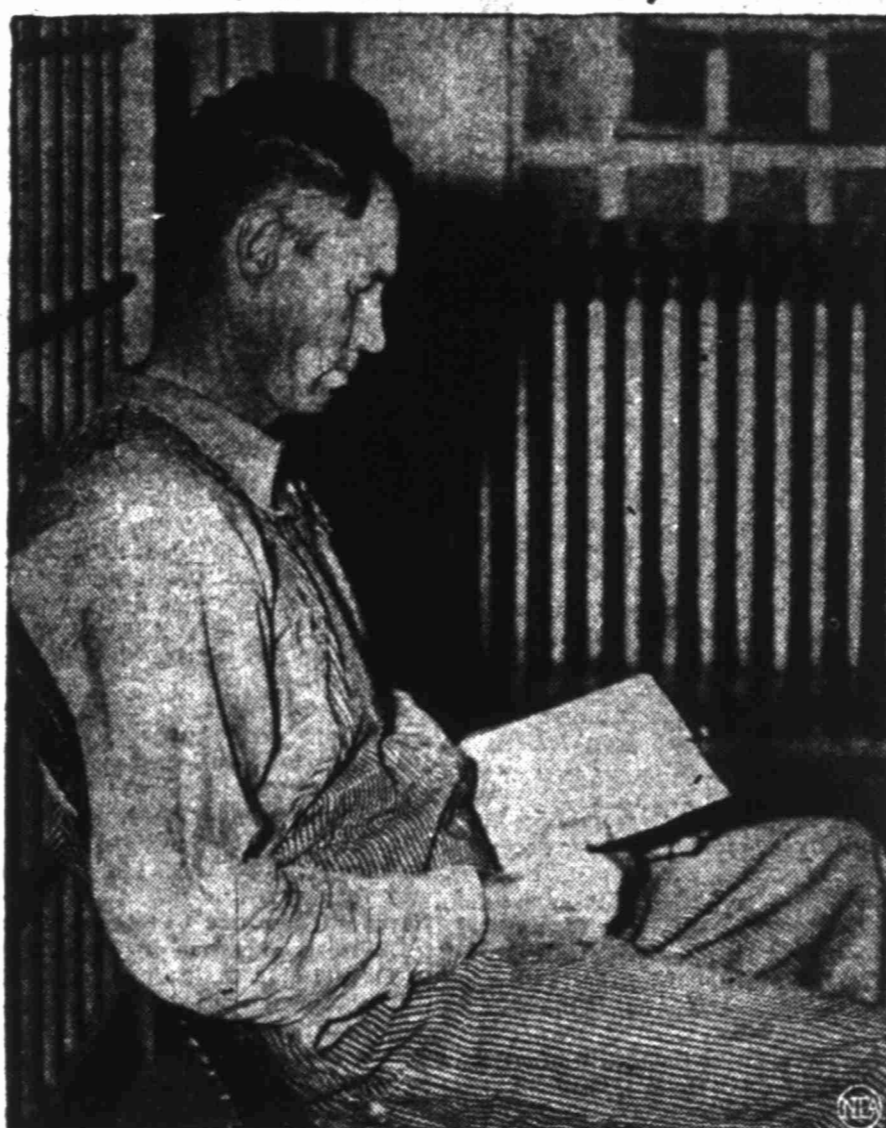

Tito is Prepared "It is officially announced," the ministry said, "that the news about this complaint is untrue."

In Paris, Kirtley Mather, an American professor, said Tito doesn't expect a Russian attack but is prepared for it if it comes. Mather said he had lunch with Tito last week. He said the Yugoslav leader was saying he had been on bad terms with Marshal Stalin since 1944.

Rumors have spread through Europe and America that Russia is sending troops to the Yugoslav border. A widely-publicized report said five Soviet divisions were grouped in Romania and Hungary near Tito's frontier.

Secretary of State Acheson said in Washington such reports appear to be part of a war of nerves.

Preacher Ends Nine-Day Fast

(NEA-Telephoto) The Rev. Earnest Wesley Cain, 45, reads his Bible while reading in the jail at Hobart, Okla., on a charge of not supporting his 14-year-old daughter. Cain went on a fast to be "nearer to God." At the end of his nine-day fast he complained only of a soreness in his legs.

\$1,000,000,000 Plus—

Texas Still Faces Financial Worries

AUSTIN (AP)—State revenue for the two-year period ended August 31 totaled \$1,036,033,071, State Comptroller Robert S. Calvert reported Saturday.

It was the first time in Texas history that revenues for a single biennium of state governmental operations had reached the billion-dollar mark. But Texas still faces future financial worries.

Revenue for the 1948-49 fiscal year was \$522,421,226, and for 1947-48, it totaled \$513,611,845.

Major sources of revenue for the year just ended were the state's four-cent-a-gallon motor fuel tax, which netted \$92,907,897; the gross production tax on crude oil, \$88,958,247; federal aid for public welfare, \$71,822,941; and federal aid for Texas highways, \$27,931,823.

The relief proposals were worked out in a week long preliminary survey by economic experts of the three countries which ended here Friday. They will form the basis of an agenda for the main conference opening Wednesday.

This will bring together the highest cabinet officials of the United States, Britain and Canada in a search for means to cope with the emergency which has clouded post-war recovery prospects for the entire western world.

No General Remedy Several score experts who made their preliminary study failed to come up with any general solution, it was made plain by officials with first hand information.

The experts worked out a detailed series of recommendations for consideration of Britain's Foreign Secretary Ernest Bevin, and Sir Stafford Cripps, chancellor of the exchequer; U. S. Secretaries Acheson and Snyder, and Canadian Lester B. Pearson and Douglas Abbott.

But officials noted virtually all these recommendations would require months to have any telling effect on the dollar shortage.

The general conclusion was that for the immediate future, it will be up to Britain herself to cut down probably even further on imports which must be paid for in dollars while doing all possible to step up exports which earn dollars.

Highway Toll Increases As Hours Go By

Labor Day weekend holiday accidents took 125 lives in a little more than 24 hours over the nation. Before Saturday midnight, a survey started at 6 p.m. Friday showed 111 persons killed in highway mishaps, five drowned and nine dead in miscellaneous accidents. The highway toll rose steadily as an estimated 35,000,000 cars took celebratory vacation spots.

Oil Compact Body Backs State Claims

ESTES PARK, COLO. (AP)—The Interstate Oil Compact Commission Saturday asked Congress for speedy recognition of state claims in the long standing Tidelands ownership controversy. A resolution adopted at the concluding session of the compact's Summer meeting called for immediate legislation which "will adequately and properly protect the rights of the states."

No mention was made of proposed compromise bills for settlement of the state-federal title question to the oil rich submerged coastal lands.

Hope was expressed final action will be taken at the current session of Congress. Sponsors by Texas: Texas Gov. Allan Shivers and Land Commissioner Bascom Gillespie. The compact also ratified its Public Lands Committee's opposition to proposed federal legislation which would grant leases on public lands only after competitive bidding.

A national resolution was adopted for the late Gov. Beauford Jester of Texas, the compact's 1948 chairman. Jester, who died July 11, was referred to as a "champion of conservation."

Recent foreign crude oil imports statements made by the Texas Oil and Gas Engineer to the Texas Railroad Commission and Texas Railroad Commissioner Ernest O. Thompson were endorsed.

Each defended the action of state oil and gas regulatory bodies in ordering cutbacks in crude oil production in view of market demand declines and crude imports increase.

The resignation, effective September 16, was attributed to ill health and plans to enter private business in Austin.

Lloyd has been with the commission 17 years and has served as chief engineer since last December.

Announcement of the resignation was made by Railroad Commissioner Olin Gulbreth, while speaking before the Summer session of the Interstate Oil Compact Commission.

Lloyd and Commissioners Bill Murray and Ernest O. Thompson also are attending the meeting.

San Angelo (AP)—Mipor Shutt, 59, circulation manager of the San Angelo Standard Times for the last 30 years, died here Saturday night. He suffered a heart attack ten days ago. Funeral services will be held here Tuesday.

MIAMI, FLA. (AP)—The new tropical disturbance in the Caribbean Sea has developed into a full-fledged hurricane with winds up to 80 miles an hour.

A Navy hurricane hunter aircraft—with one of its engines useless after a propeller ran wild—reported the rapidly developing storm had formed a definite eye with winds near the center at hurricane velocity.

The Miami Weather Bureau said the storm center was located about 250 miles north-northwest of San Juan, Puerto Rico.

It was moving in a west-northwest or northwest direction about 12 to 15 miles per hour.

Grady Norton, chief storm forecaster, said the storm is "increasing rapidly in intensity."

School Bells Ring Tuesday For 4,000 Midland Students

The doors of the eight public schools of Midland will open at 8:55 a. m. Tuesday for an estimated 4,000 students on the first day of the 1949-50 term.

A regular school day program with few exceptions will be carried out in each school. The buildings are ready for use and there are no vacancies in the faculty, Supt. Frank Monroe said.

The high school will begin classes in its new plant on West Illinois street in the location of the former John M. Cowden Junior High School. The plant is not complete in every respect, but a regular schedule will be initiated. The Midland Junior High School is in the location of the old high school building on West Texas Street.

Both the South and West Elementary buildings have four new classrooms to relieve overcrowded conditions.

Elementary Cafeterias Open Cafeterias in the North, South and West Elementary schools will serve lunch on the first day with a charge of 25 cents a meal. However, the junior high and high school cafeterias are not quite ready for use.

All high school students who have registered are instructed by Principal Charles Mathews to report to their first period classes, where they will receive textbooks and classroom assignments and will begin the course of study for the year. The few students who have not registered are requested to report to room 302 for registration. Any student who has lost his registration blank must report to the office for a duplicate before attending class. A total of 690 students registered during the registration period which began August 16.

Making plans for 900 students at junior high school, Principal Wesley Martin has asked sixth grade students to report to the gymnasium; seventh grade students to the auditorium; and eighth graders to the cafeteria as soon as they arrive. Here the homeroom teachers will call class rosters and will go with classes to their homerooms. Plans are to be in the regular schedule within one period.

New Students To Office New students who have not registered are requested to report to the office for registration and classroom assignment.

High period for both high and junior high schools will be divided into two periods to eliminate overcrowded conditions in the cafeterias. The periods are 11:30 to 12:35 and 12:10 to 12:55. High school students selected their lunch periods (Continued on Page Two)

Joan Edwards Fund To \$3,903.69; Big Game Wednesday

A special event in Midland to push the Joan Edwards Recovery Fund Plan is scheduled at 8:15 p. m. Wednesday in Indian Park.

It's a benefit baseball game featuring two highly-rated softball teams—Western Plastic and Joe's Gulf. Lovers of baseball, softball and general fun on the diamond will get a full bill. Colonel Wright is in charge of arrangements. His biggest job is expected to be keeping rival managers Joe Robertson and Leroy Hensley apart. He has asked help from the police department and the sheriff's department.

Harold Webb, owner-manager of the Midland Indians professional baseball team, donated use of the ball park and associated facilities.

84th Growing The Joan Edwards Recovery Fund still is growing. It is near \$4,000. Saturday contributions totaled \$41 to hike the total to \$3,903.69. Last Sunday the total stood at \$2,646.85.

Here are the latest contributors and standing of the fund:

Previously reported	\$3,861.69
Murray-Young Motors	25.00
J. M. Speed	6.50
Rayne Carroll	2.00

H. S. Scott	1.00
Total	\$3,903.69

229-Pound Belgian Negotiates Channel On Champagne Diet

DOVER, ENGLAND (AP)—Fernand Du Moulin, 229-pound Belgian industrialist, breast-stroked across the English Channel Saturday night.

The 33-year-old man from Liege was the 28th swimmer to cross the treacherous 21-mile stretch of water since Capt. Matt Webb started the sport in 1875, and the second this year.

Du Moulin, who scorned training in the approved manner, plunged into the water at Cap Gris Nez after a champagne party and treaded water enroute to take additional refreshment from a French beer bottle.

He remained on British soil only five minutes after completing the 8 1/2 hour swim.

Justice Rutledge Remains In Coma YORK, MAINE (AP)—Supreme Court Justice Wiley B. Rutledge went into his second 24 hours of coma Saturday.

He is in York Hospital, after having suffered a cerebral hemorrhage. Rutledge's physician, Dr. Elmer Tower, reported him as slightly improved physically although still unconscious.

Midland Indulges In 'Back-To-School' Shopping Spree

Shoes, slacks, shirts, dresses, table-sets, paper, pencils and other articles and supplies for students were in demand here Saturday as crowds swarmed downtown Midland in a last minute "back-to-school" shopping spree.

It was the last business day before school opens Tuesday, and parents took full advantage of ideal weather conditions and bountiful stocks of quality merchandise to outfit their youngsters for the 1949-50 term. They came to town early and stayed late.

Street and sidewalk traffic was heavy throughout the day and police were on the job to keep vehicles moving. Most streets were busy and clerks put in a full day. It was one of Midland's best business Saturdays in several weeks.

Doctors and dentists have been more than busy the last few weeks with examinations, physical check-ups and dental care for students.

Many out-of-city visitors shopped stores here Saturday. School clothes and school supplies are stocked in abundance by Midland merchants, and shoppers again discovered "You Can Buy It In Midland."

Although Saturday was considered a busy day, it likely will not compare with Tuesday when parents and children again flock to Midland to complete their school purchases. Midland stores again will be ready to serve them.

Midland Stores, Offices Close For Quiet Labor Day

Midland and its citizens expect to observe a quiet Labor Day Monday, with no holiday attractions scheduled in the city.

Most business establishments, including retail stores, service concerns, banks, Post Office, city, county and government offices, and professional and oil company offices will be closed. Labor Day is one of six holidays observed for observance here this year, according to Henry Murphy, chairman of the Retailers Committee of the Chamber of Commerce.

The Reporter-Telegram will go to press early Monday. September Dollar Day will be staged September 12.

Many residents are taking advantage of the long weekend to make final vacation trips before the start of the school term Tuesday.

Scores of baseball fans are expected to follow the Midland Indians to Ballinger for a double-header Longhorns League baseball game Monday night.

Experts Foresee No Quick Solution For British Dollar Crisis

WASHINGTON (AP)—For grim months to come, Britain apparently must rely on her dwindling resources to cope with the dollar crisis.

Officials noted this Saturday in measures of possible American aid reported ready to be submitted at the forthcoming top level American-Britain-Canadian financial conference—they are almost entirely long range in effect.

The relief proposals were worked out in a week long preliminary survey by economic experts of the three countries which ended here Friday. They will form the basis of an agenda for the main conference opening Wednesday.

This will bring together the highest cabinet officials of the United States, Britain and Canada in a search for means to cope with the emergency which has clouded post-war recovery prospects for the entire western world.

No General Remedy Several score experts who made their preliminary study failed to come up with any general solution, it was made plain by officials with first hand information.

Economy Demand On Senate Junket Stirs Comeback By Thomas

WASHINGTON (AP)—Senator Elmer Thomas (D-Okla.) Saturday curtly demanded that Secretary of Defense Johnson give him every detail of what officials in government plans—including President Truman.

The Senator called for a list of everybody who has used the former president's plane "Saturn" when Truman was abroad. He told Johnson he wants virtually every fact about each plane trip by Johnson as government expense and who went with him.

Thomas, stung by an "economy" letter from Johnson, firing the long list of requests at Johnson in a sharp retort. The secretary had proposed that members of Thomas' Armed Services Subcommittee who plan to fly around the world this fall should use commercial airlines instead of military planes.

Thomas told Johnson that "if savings can be made through denial to congressional committees the use of military planes, a further saving can be made by requiring private plane service for members of the executive branch of the government."

Then he demanded that Johnson furnish by September 30 the full report on who's been using the planes, where they've been, why they went and what it cost. Johnson's office said it would be done.

Three Negroes Are Convicted Of Rape

TAVARES, FLA. (AP)—Three negroes were convicted Saturday night of a rape that ignited race demonstrations by white mobs in this Central Florida area last July.

An all-white court jury found the three negroes guilty of raping a 17-year-old white farmwife but recommended mercy for Charles Greenlee, 18, one of the three charged. The death sentence is mandatory for the other two, Samuel Shepherd and Walter Irvin, both 22. Greenlee will be sentenced to life imprisonment or less by Judge Truman G. Fulk.

A fourth suspect, Ernest Thomas, was killed by a posse in Northwest Florida several weeks ago.

The rape brought demonstrations in white mobs against negroes in this Central Florida farming area. The Florida National Guard had to be called to restore order, but not until several negro houses had been burnt. The negro population of Groveland fled the town during the disorders.

Texas—

(Continued From Page One) is not enough to solve the financial shortage which the state faces on the basis of the comptroller's estimate of revenue for the next 12 months.

This is true because the comptroller had anticipated a decline in oil production through the summer months this year and an upward trend this fall.

At the September producing rate, state oil tax revenue for the coming year would be \$78,000,000—contingent on the price of oil remaining the same.

Further Rise Needed
The comptroller's statisticians figure that allowable oil production will have to go up another 260,000 barrels a day to make good their estimate of \$83,000,000 in oil tax revenue for the fiscal year which began September 1.

Even that revenue is not expected to keep the state out of the red. To balance the budget temporarily, the late Gov. Beaulieu H. Jessup vetoed \$17,000,000 from funds appropriated for operation of state eleemosynary institutions the second year of the new biennium.

Thus the 51st Legislature apparently will still have a tough financial problem to solve when it meets for the second time in January.

VISITING PARENTS

Mr. and Mrs. Henry Murphey, Jr., and son of Austin are visiting his parents, Mr. and Mrs. Henry Murphey, 107 North G Street. Henry, Jr., is a student in the University of Texas.

Texas Oil Allowable Hits Six-Month Peak

AUSTIN (AP)—The Texas crude oil allowable, boosted by an extra day of production for September, hit 2,104,647 barrels Saturday, the peak since March 26 this year.

The total average calendar day allowable was a 141,012-barrel increase over the daily average of 1,963,634 last week the Railroad Commission announced.

A one-day extension of the statewide and East Texas producing schedules by the commission accounts for the expanded September production.

Sharp reductions in the Texas crude oil allowable from January through August left Saturday's allowable still more than 600,000 barrels below the daily quota of late December, 1948.

During the week ended March 26, production was permitted to reach a 2,249,309-barrel daily average.

Oil well completions totaled 167 last week, bringing the year's total to 5,885 compared with 4,959 a year ago, the commission reported.

Nine gas wells were completed, making a 1949 total to date of 508. A year ago the total stood at 471. Fifty-nine dry holes were reported.

What drills produced five oil wells, one gasser and 33 dry holes.

A total of 57 dry holes were plugged, as were 42 oil wells and gas wells.

'Visit To Grandma' Ends In Tragedy For Houston Child

HOUSTON (AP)—Johnny Storm Plaza, almost three, set out Saturday morning to visit his grandma in California.

He never got there.

Johnny was steaming down the Burlington-Rock Island tracks—they run just behind his house—on his "trike" when a real train came along.

Engineer W. B. Phillips of Teague hit every control in the cab in an effort to stop his train. But a long and heavy train cannot be halted in its tracks, even for a little boy who was going to see his grandma in California.

David Leach, 10, who was playing with his pony nearby, saw the train crawling upon Johnny and screamed and screamed at the small traveler. But Johnny didn't hear David.

Another child saw Johnny knocked to one side of the track and his trike to the other. He told grown-ups, who carried Johnny to a hospital where the boy died within an hour.

While this was going on Johnny's mother, Mrs. Joseph B. Plaza, was searching the neighborhood for her son. Often, she said later, Johnny had frequent "trips." The trips generally ended when he'd get hungry or she could call him into the house from his play.

Funeral arrangements for the small overrider had not been completed Saturday night.

12 Nations Vote To Ask Economic Union In Europe

STRASBOURG, FRANCE (AP)—Europe's Consultative Assembly Saturday called for a European Economic Union and made plans to seek American aid in its creation.

The union would have a free money market and a single preferential trading system embracing European colonies and empires, and perhaps a single postage stamp.

The assembly of 101 delegates from 12 nations met overwhelmingly by a show of hands to call upon the Ministerial Committee, the upper house of the Council of Europe, to prepare such a program of economic union. The Ministerial Committee is to meet here next month to consider the recommendation.

Plans are afoot to send a delegation headed by Assembly President Poul-Henri Spaak of Belgium to Washington while the British-American dollar talks are in progress. The delegation's job would be to request tariff cuts and to negotiate for treaty changes.

Army Officer Dies In Traffic Accident Enroute To Wedding

BRECKENRIDGE (AP)—A Kansas Army lieutenant was killed in an auto accident Friday enroute to the home of the Texas girl he was to marry Sunday.

Lt. William H. Miller, 38, Coffeyville, Kan., was thrown from his convertible and killed 14 miles south of here on Highway 8.

Miss Jean Chriscio of Zephyr, Texas, whom he was to have married Sunday, came here when notified of the accident.

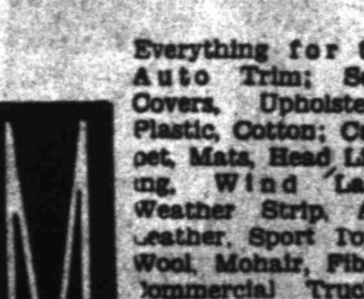

HOMEMAKERS TO MEET

ALPINE (AP)—Texas homemaking supervisors will convene Monday at Indian Lodge for a two-day conference.

"SEAT COVERS MADE TO YOUR ORDER"

Former Senator

James E. Taylor of Kerens, former newspaper publisher and chairman of the Texas Senate Finance Committee, resigned recently to become executive director of the Texas Motor Transportation Association. He also served as chairman of the Gilmer-Alkin Committee on Education.

Klan Kleagles Call For Cross Crusade Against Commies

TALLAHASSEE, FLA. (AP)—By the edict of "his majesty," Samuel H. Imperial Wizard 4-006800 Saturday, the nation is in for a week of cross-burning.

Anyhow, that's what one Bill Hendrix, who describes himself as adjutant for the Southern and Northern Knights of the Ku Klux Klan, said via "imperial" proclamation.

Hendrix declared the crosses would be burned in a crusade against communism and to give support to the veterans of Peekskill, N. Y., involved in a riot last Saturday.

The order of "his majesty" and 4-006800 commanded Klansmen "to burn a cross on open fields or on vacant lots in protest against communism in this country."

Houston Advances Tough Solution To Pioneer's Problem

HOUSTON (AP)—Officials of Pioneer Airlines and the City of Houston came up Friday with another possible solution to the impasse created by the eviction notice the air line received from the Air National Guard here.

But there is a catch to the latest plan. Pioneer officials have located a hangar they could buy and move here. However, there would be no utility connections available on the site the city has offered the air line. And Pioneer doesn't feel it can pay the approximate \$100,000 it would cost to extend the utilities from the present lines at the municipal airport.

The hangar Pioneer could buy is owned by Fred Buford of Dallas.

Couch Given 50-Year Sentence For Murder

AMARILLO (AP)—Sam G. Couch Saturday night was sentenced to 50 years in prison by a 47th District Court jury that convicted him of murder.

Couch, Amarillo used car dealer, was charged with shooting fatally his business associate, Jesse F. Tennyson, on Nov. 10, 1948.

URBANDALE FIRE CALL

Midland firemen extinguished a fire at the J. C. Coleman home in Urandale late Saturday afternoon. Slight damage to window curtains and kitchen furnishings was reported.

NEGRO STABBING

A negro man was given emergency treatment at the Western Clinic-Hospital early Saturday morning. It was reported he was stabbed by a female companion in a negro night spot.

HOW TO PLAY CANASTA: 6

Use Two Decks And Four Jokers

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

The laws of four-handed Canasta call for two regular decks of 52 cards each, plus four jokers.

In cutting for partners and seats, the ace ranks high and the deuce low. If a player draws a joker, he puts it to one side and draws another card.

The player on the right of the dealer shuffles, but the dealer also may shuffle the pack. The player on the right of the dealer must cut the cards. Tables are arranged as in bridge, by selection of partners or by cutting for partners.

The cards are dealt to each player one at a time. After each player has received 11 cards, the deck is placed on the table, preferably in a box or tray, and becomes the stock pile. The top card of the stock pile is turned over

Battle Being Lost By Nationalization

SYDNEY (AP)—Australia's Labor Government is doing little about nationalization. It hasn't the power: "Trade, commerce, and intercourse among the states, whether by means of internal carriage or ocean navigation, shall be absolutely free."

That sentence, in Section 92, has been the wreck of Labor Party dreams of nationalization. There have been 40 high court cases and two privy council cases in which judges and lords have decided how Section 92 applies in certain cases.

Today the general legal view is that Section 92 cuts right across plans for nationalization—transport, banks, coal mines, breweries, or almost anything else that has business in more than one state. Latest defeat of a nationalization plan was in the Banking Case. The privy council, in London, ruled the Australian Government has no power to make a law to nationalize private trading banks.

When it is a player's first turn to play, the first thing he must do is to remove the red treys from his hand and place them face up on the table. He is entitled to another card from the stock pile for each red trey he puts on the table.

If one of the cards he draws from the stock pile is a red trey, he must put that on the table and draw another card, so that at the start of the play he has 11 cards in his hand without any red treys.

The player at the left of the dealer begins the play by drawing the top card of the stock pile or the up-card. If the up-card of the pack is a black trey, even though you have two more black treys in your hand, you are required to draw from the stock pile.

Showdown Nears On Union Drive For New Wage Increase

NEW YORK (AP)—The union drive for a fourth round of wage increases will reach a critical point next weekend with the nation looking to the steel dispute as a weather-vane.

The report of President Truman's fact-finding board in the steel dispute is due at the White House by Saturday. It will carry recommendations for a settlement but these will not be binding.

Truman is expected to make the report public at once. Only three days will be left before the strike deadline for bargaining between the CIO Steelworkers Union and some 60 steel companies.

Developments in those days will determine whether 1,000,000 workers in one of the nation's basic industries will walk out at 12:01 a. m. September 14.

Girl Shot—

(Continued From Page One) Symphony concert this winter. She said no. I called her again and asked her if I might see her occasionally. She refused. It was a bit of a let-down. Then I walked out and decided to be married this month.

"I went downtown to a hardware store and bought a pistol and a box of cartridges. I put the pistol in my pocket and I carried the cartridges, which were wrapped in a package. Then I went up to see Carolyn."

"She told me then that she was going to be married next week to another man. She didn't want to have anything further to do with me. We argued. Then I walked out and went to a restroom. I unwrapped the package and loaded the pistol. I didn't intend to kill her at that time. I thought if I just threatened her she'd see things my way."

"I went back in the office and pointed the pistol at Carolyn and told her to get into the inner office. She screamed. I tried to hit her with the pistol. She grabbed at it and I started shooting."

"I really don't think she was very surprised. I think she felt I might do something like that. But she did look a little startled as the first bullet hit her. She reeled against a table and sank slowly to the floor. One leg was crumpled under her. She fell on her side and her face was turned toward the floor."

"I kept on shooting. After the six bullets were fired I started to reload. Then I saw blood staining her white blouse. She stirred, slightly, and said 'oh.' I felt her pulse, then pushed aside her butcher red linen jacket and felt her heart. I couldn't feel any beat. I bent down and picked her up and kissed her dying lips."

Petersen then called his parents, Mr. and Mrs. Lewis Petersen, and told them: "Then I asked someone to call the police."

"I had been writing a book of poetry to Carolyn," young Petersen said. "I have some lines already written. But I haven't done anything on it today. They won't even let me have a pencil."

Legion Hall Is Site For Wedding

Miss Flora Ellen Weathered of Andrews and Douglas Colston of Altus, Okla., were married in a ceremony performed Saturday night in the American Legion Hall here.

Justice of the Peace Joseph A. Seymour read the vows. The wedding was attended by a small group of friends.

After a short honeymoon, the couple will be at home in Andrews.

VOCATIONAL MEET ENDS

Announcement

to my friends and citizens of Midland

- ★ It is with pleasure that we announce the opening of a complete Insurance Agency, Mortgage Loan Agency, and Real Estate Agency with offices in the Wemple Building, W. Wall St., Midland, Texas.
- ★ For the past 15 years I have been actively engaged in the handling and adjustment of Fire, Automobile, Casualty, and Inland Marine losses for the largest insurance companies in the United States, which I believe qualifies me as an expert to answer this question . . . "What does my Insurance Policy cover in case I have a loss?"
- ★ I have personally appraised and valued over \$5,000,000.00 in commercial and residential property in Midland, Texas, for some of the largest Insurance Companies, and Lending Institutions in the United States, which I believe qualifies me as an expert to answer this question . . . "What is the true value of my property or the property I desire to purchase, and what is the maximum amount of mortgage loan the lending institution will accept?"
- ★ It will be the policy of my office to render prompt, courteous, and honest advice and service at all times.
- ★ I wish to invite your close inspection of my facilities, experience, and background. I believe you will find that I have one of the most excellent mortgage loan connections in the Southwest.

Phony Documents

In this age you can find statistics to back up almost any point of view you care to take. And that's a sad comment on a way of life that must be nourished on sound factual information if it is to flower.

As an example, note the current fact-finding inquiry in New York on the issue of the United Steel Workers' wage and pension demands.

Led by Philip Murray, president of the CIO, the steel workers' union presented a case rooted in the claim that steel wages have gone up far less in recent years than has worker productivity in the industry.

The contention is, in other words, that steel workers are not being rewarded in keeping with their increasing contribution to production.

Robert R. Nathan, well-known labor economist, appears to have marshaled the figures in support of the union's view. If the statistics are valid, they certainly strengthen the union's case.

But along comes Dr. Jules Backman for the steel industry. He tells the fact-finders that steel workers' wages in recent years have shot up twice as much as has worker productivity.

Now there may be different ways of measuring productivity. But output per worker is a matter frequently crucial to wage disputes and there should be some standard gauge for calculating it.

The National Labor Relations Board, aided by the Bureau of Labor Statistics, could determine such a measure.

Set against an accepted standard, productivity has either gone up more than wages or it has not. It cannot do both. And we are frankly tired of being told, in effect, that it can.

One might argue that is the fact-finders' job to decide whether the union's or the industry's claim is correct. Our belief is that the board should not have to weigh a matter that belongs in the realm of settled, known fact.

Productivity should be as firmly established by some regular agency as is the Weather Bureau's report of temperatures.

Somebody once said of the Russians: "If it's documents you want, they are only too happy to supply you with them in great number. All false, of course." Unless our leaders in government, business and labor make more judicious use of statistics in argument, they will bring down upon themselves the same sort of discredit the Russians earned by their phony documents.

It's when a witness says "I can't remember" that you're sure he knows all the answers.

The octopus is really not vicious, says an undersea photographer. Now what will politicians use to describe the opposition?

There's no agreement that marriage is a 50-50 proposition until the golden anniversary is finally reached.

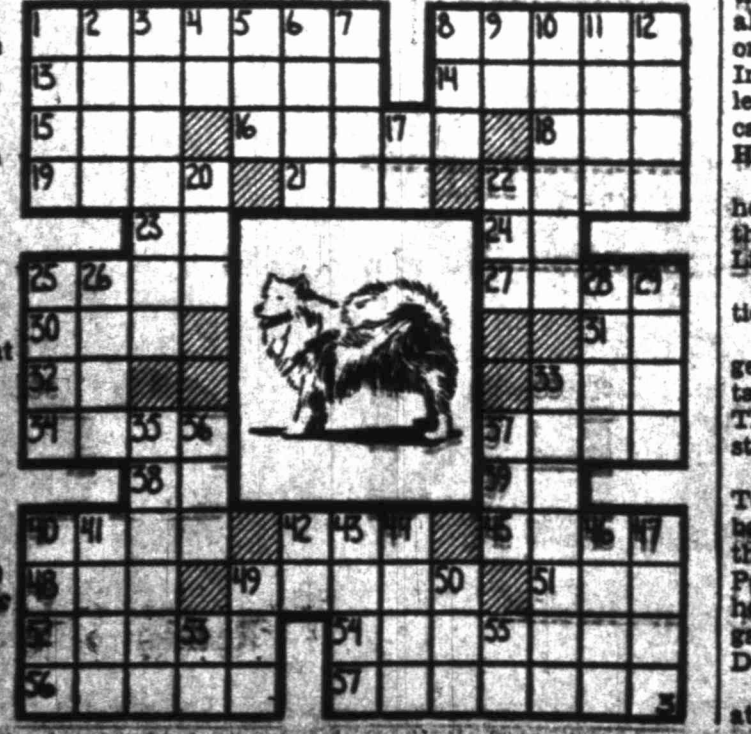

Bats avoid obstructions through a sixth sense—which doesn't explain your favorite baseball star's hitting slump.

Just Knock Twice And Ask For Joe

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Robert S. Allen says: Fabulous Major Lincoln, U. S. intelligence officer, is legendary hero in Middle East; Exploits outdo those of "Lawrence of Arabia"; Pentagon chiefs mum when his name's mentioned; How Lincoln and Douglas met.

WASHINGTON—This is a long-merited tribute to a fabulous American who, although unknown to his countrymen, is a legendary hero in the Middle East.

He is Major Robert T. Lincoln, U. S. intelligence officer. It is particularly fitting to acclaim him today because exactly 10 years ago Russia hurled its first blast at him. The Soviets were then the new allies of Adolf Hitler, and in a furious broadcast denounced Lincoln as an "American spy and saboteur."

Both the Nazis and Russians put a big price on his head, but he still is alive and annoying the gall out of the latter. To the awed Middle East, Lincoln is more extraordinary than Britain's late famed "Lawrence of Arabia." Tales of Lincoln's feats are even more numerous and astounding than those about Lawrence.

Pentagon chiefs depend on Lincoln as they do on no other intelligence officer. But they never discuss him. Questions about him are always answered with a blank stare. His whereabouts, his missions and his reports are so secret they are known only to the joint chiefs of staff.

But this much can be said about him: He is the eyes and ears of democracy in an explosive outpost of the world, and his services to his country probably are more hazardous and thankless than those of any other single individual.

The rare few who know Lincoln describe him as tall, rangy, with dark brown eyes and black hair which is beginning to show gray at the temples.

He is a superb horseman, a crack marksman, and a versatile linguist. He speaks Russian, Arabic and a number of other languages. He operates wholly alone, with no confidantes and no friends, but mingles freely among nomad tribes, particularly in the remote mountain areas of Iran.

The natives say Lincoln married the daughter of a Kurdish chief. There is no known proof of this. It is one of the many stories told about him.

Another is about his feat of acting as a native guide for a Russian armored patrol that made a raid into Azerbaijan, Northwest Iranian province, early this year. Lincoln obtained highly important military information as a result of this exploit.

Still another story credits him with buying food from pursuers who were trying to capture him. Also, there is a tale about a mission he performed in Baghdad while posing as a British tourist.

Note—When the Iranian colonel, who accompanied Douglas, learned about his meeting with Lincoln, the Iranian immediately ordered out a large cavalry detachment to scour the area. They rode all night but found no trace of Lincoln.

He met the mysterious intelligence officer during a recent mountain-climbing trip in Inner Iran. The meeting was as brief as it was startling. Douglas, his 16-year-old son, and Terry Dooper, of the U. S. Embassy in Tehran, were camped in the Bakhtiari country in Western Persia. The Bakhtiari are great horsemen and always ride at full gallop. One evening, they invited Douglas to ride with them. He accepted, and was soon racing at breakneck speed across the plain

McKenney on Bridge

By WILLIAM E. MCKENNEY America's Card Authority Written for NEA Service Today's hand came up at the Mayfair Bridge Club and top score on it was won by John McCormick, who is now living in New York.

Everybody agreed that South's first bid should be one heart. West should not double. A double at this point would be an informative double, asking his partner to bid, and West would be happy to have his opponents play the hand at hearts. Therefore, he should pass.

McCormick bid one spade, as did every other North player in the room. There are some players who would like to bid two spades, but holding two six-card suits,

Bridge hand diagram showing cards for North and South. North: ♠ A Q 8 6 5 2, ♥ N, ♦ J 7 4, ♣ 10 8 7. South: ♠ K 3, ♥ A J 8 3, ♦ 10 8 3, ♣ 9 8 2.

North should realize that his partner may have a similar holding in which case there is absolutely no fit. Therefore, one spade is the correct bid. East should pass. South should bid two clubs.

Now the question is, what should North do? Many players will say that North should bid two diamonds. If he does, South will bid three clubs. Now North will bid three diamonds or three spades, and South will take the contract to game in spades. Due to the fact that North has bid diamonds, East will not open a diamond. Probably the singleton heart will be opened, and the contract quickly defeated.

Over the two club bid, McCormick at his table signed the hand off with a two spade bid. He said, "I have a rule on these freak hands—lose as little as possible." South passed and the hand was played at two spades.

East opened the king of diamonds and McCormick proceeded to make four spades. He was not disappointed as he received top score, because those who had bid four spades were defeated.

The boys weaver-birds, of India, fasten fireflies into their nests.

Midland American Legion Post Sees 1950 Banner Year

Members of the Woods W. Lynch Post, Number 18, American Legion, of Midland have been notified that beginning September 1, purchases at the commissary may be made without a special monthly fee.

The Midland post is enjoying a banner year in 1949. It recently was awarded a bronze plaque at the state convention for exceeding the 1948 membership quota.

So they say

Our real problem today centers about what we are going to do about England. Everyone wants to know, a great deal depends on it. —Bernard Baruch.

The greatest problem facing the world today is that of raising the standard of living of the people, not just maintaining it. —Secretary of the Interior, Julius Krug.

The efficacy of the Bill of Rights depends upon the vigilance of the American people and the determination of each citizen to meet the obligation which citizenship confers. —President Harry S. Truman.

I am firmly convinced that without the Marshall Plan we would have had communism in Italy and France today. There would have been much distress and unemployment in England. —Wallace B. Phillips, president, American Chamber of Commerce in London.

It is difficult for me to ignore heartwarming and friendly overtures to return to my native land for which it is only natural for me to long. —Gen. Douglas MacArthur.

WASHINGTON COLUMN

Well-Greased Truman-Barkley Machine Runs Over Opposition

By PETER EDSON NEA Washington Correspondent

WASHINGTON—The Democratic National Committee meeting which elected William M. Boyle, Jr., as its new national chairman, provided a first-class example of how a well-oiled political machine should run. Also, how it should run over anybody that gets in its road.

The meeting was called for 10 a.m., but it didn't begin till almost 11. None of these things ever starts on time. It makes no difference because, when the machine is in perfect working order, it can run things through so fast it makes up for lost time.

Also, the delay enabled the delegates to wander around and find where they were supposed to sit. During the night, flunkies had typewritten the names of the national committeemen, a committee of women on slips of paper. These were pasted on the backs of the chairs. Some of them had come off and fallen to the floor. One young man was kept busy, as the delegates gathered, going around and sticking them back on again.

Some of the labels, it was noticed, had names of states on them, but no names of national committeemen. Alabama, Louisiana, Mississippi and South Carolina, Mississippi and South Carolina, Mississippi and South Carolina, Mississippi and South Carolina.

Some of the labels, it was noticed, had names of states on them, but no names of national committeemen. Alabama, Louisiana, Mississippi and South Carolina, Mississippi and South Carolina, Mississippi and South Carolina, Mississippi and South Carolina.

What the meeting finally was called as the first order of business, the names of the state whose committeemen were not wanted were merely skipped. Louisiana and Mississippi were practically read right out of the party. This in what is supposed to be a democratic process—full, free, open and fair elections by representative of the people.

A short time ago, a marvelous new electronic brain and calculating machine was unveiled at Department of Agriculture. In seconds, it could solve complicated problems that would take the human brain years.

But this Democratic Party machine had that scientific gadget beat it. Why? This Democratic machine even turned out the answers before it knew what the problem was.

For instance, retiring National Chairman J. H. McGrath appointed some committee. A Committee on Credentials, for instance; Chairman, Frank McHale of Indiana, David Lawrence of Pennsylvania, Jonathan Daniels of North Carolina, and so on.

The strange thing was that although this committee was appointed right there before your eyes, it already had been in session for 12 hours. It wound up its business at 3 a.m. on the morning of the full national committee meeting, with all its work done. Not even an electronic brain could beat that.

What this machine committee did was simply to kick out those Democratic national committeemen who hadn't supported the campaign of President Truman in the last election. Ousted were Marion Rushton of Alabama, William H. Talbot of Louisiana, S. B. Spitzer and Mrs. Hermes Gautier of Mississippi, Strom Thurmond and Mrs. Albert Agnew of South Carolina.

The brief effort by Byron G. Allen of Minnesota to kick out National Chairman McGrath, and Morrow and Mrs. H. E. Weisner of Texas, the machine refused to consider.

Retiring Chairman McGrath ruled that national committeemen were officers of the Democratic National Convention, holding four-year terms between conventions. He said there

Social Situations

SITUATION: A divorced woman wonders if it is correct for her to wear her wedding and engagement rings.

RIGHT WAY: She decides it would be incorrect for her to do so. WRONG WAY: She wears them, if she wishes.

LACERATION TREATED F. R. Abbott, 810 North Westford Street, was treated at Western Clinic-Hospital Friday afternoon for a lacerated thigh. The injury was suffered when a washed away from a sewing machine he was operating, the hospital report says.

"You sound as though you're afraid you'd lose me if we wait awhile!" "You're darn tootin' I'm afraid I'm afraid of you, my love. Your mother-in-law because you're a Betty too after all. So that the family could go on eating their cake and keeping it, too."

"You might marry Beesie," Gaynell said. "She's after you, my lad." She did not want to face those other facts just now; that the mustn't get into the family and Betty about Fritz.

"Beesie? Why, I didn't even remember who she was the first time she rang me up." So, Beesie had done the pursuing, then! "Not that I don't admire her gold freckles," Fritz added, with his grin. "In fact, red-heads are one of my few weaknesses. If you don't give me up quick, Beesie might get me on the rebound."

"Over my dead body," Gaynell said. "It was enough just to be together, in close, with only the heavy, heavy, slanting and round eyes and slanting nose."

"The thing for you to do," Fritz said finally, "is to have it out with your family. Tell them they'll have to come down to earth, give up the cake, balance the budget. You admit they could get along without your help if they would. Couldn't they, for example, give up that 24-room shack and move into some quarters? Can't your brother buckle down to taking a job seriously? Even Pat, it seems to me, should be trained for something definite so that in time she can contribute her share. You've had it all for five long years. Time to shuffle the cards. I'd say, it's been done before. Why not bring it home, Gorgeous?"

Steps to the Moon

By Adelaide Humphries

THE STORY: Although Gaynell's mother-in-law is really a very nice person, she has many prejudices that annoy her. She is a very much obliged, yes, you like, maybe, another slice of onion?"

Gaynell almost choked once more as she went on. "Onion and the garlic, the best of five little ones fat and healthy like me."

"I'll have another slice, Mr. Stand-in-loose," Fritz said. "Onion, she has the garlic away." "Who for me?" Gaynell broke in hastily.

"Here be me!" Mr. Stanislas presented the onion on the tip of a long knife. "Help yourself. And thank you, Gorgeous again."

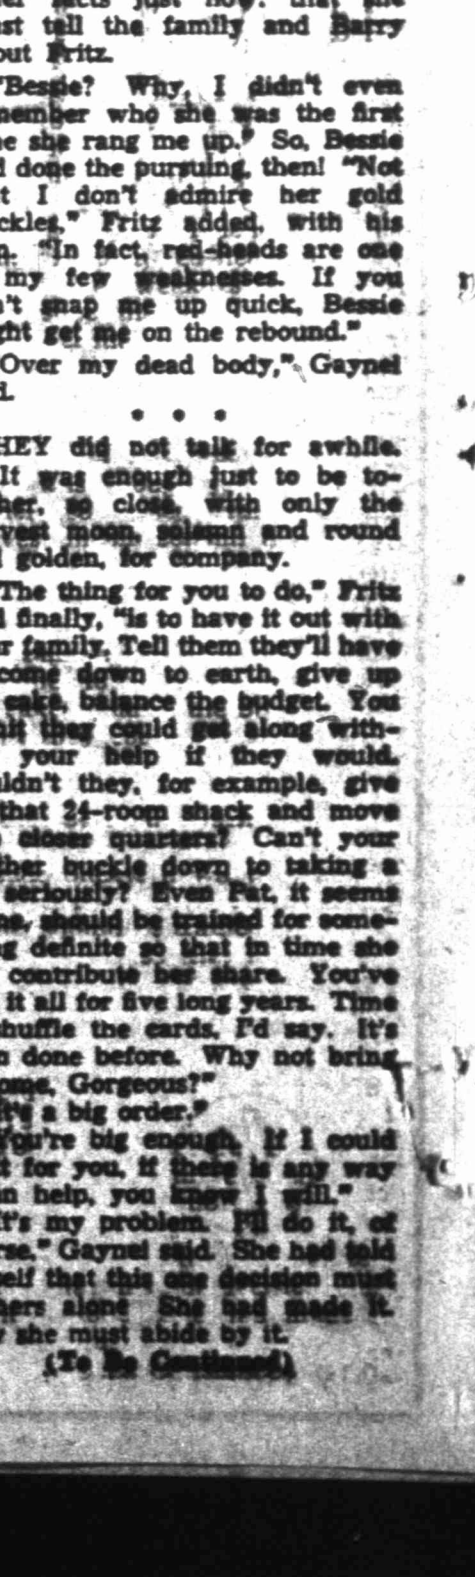

"Thank you," Fritz said, helping himself generously. "Well, eggs again, all right. When we have our five little ones we'll bring them along."

"What a man you are," said Gaynell, after they were seated at a bench one more, her head on his shoulder because now it was dark, and there were no automobile animals or people, and the city lights were so sweet and she wished this could last forever.

"I knew you were a perfectly outrageous young man the minute I laid eyes on you," she said. Then she sighed. "I guess that's why I love you."

Extended Scooter Sojourn

Getting set for a long journey, Mr. and Mrs. John Bessie climb aboard a scooter outside their home in Minneapolis, Minn. They plan to travel 3,700 miles in the contraption, going through Missouri, Kansas, Georgia, Alabama, Indiana and Illinois. They'll really have to scoot.

Opposes Winnie

William Brooks above, has been named as the Communist Party candidate who will oppose Winston Churchill in the British general elections next year.

Opening Of Paris Style Show Is A Three-Ring Circus

By CYNTHIA LOWRY
AP Newsfeature Writer

PARIS—The opening show of one of Paris' top couturiers is like nothing else in this world. Most of them combine the best and worst elements of a Broadway opening night, a high-society party with lots of gate crashers and a three-ring circus.

Fashion shows in America are run off in a business-like fashion and the interested parties sit around in chairs and regard the clothes. Occasionally someone decides to do something a little different, but that doesn't interfere with the presentation of the models.

But in this town, the couple of weeks devoted to showing the press and buyers of the western world what Paris has decided can be best described as a fascinating rat race. The salons and garden courtyards where the mannequins parade the new creations are filled with people from all walks of life.

American Representatives
First there are the representatives of the American fashion magazines. There are usually five or six representatives of each of the two best known, and each one carries herself as though she were aware of her position as high priestess-in-cult of fashion. The best seats in the maison de couture are reserved for them, too, and the designer himself is usually on hand to welcome them, with hand-kissing and a flurry of photographers' flash bulbs.

During the shows, they usually sit with poker-faces, jotting down an occasional note and once in a while conducting a whispered conference among themselves. I've never been able to eavesdrop on any of these, but I can imagine the fate of women's world depends on each exchange.

"I have decided," I imagine the editor-in-chief is saying to her handmaidens, "that before the first snow flies we will require every style-conscious woman in America to be wearing a double berth."

Then there is the group referred to as the "press." The French couture, to a man, thinks very little of the press, of France or America, and the newspaper writers have to be on their toes every second to make sure their seats have not been usurped by some press agent or representative of a girde manufacturer with a smooth line and better knowledge of French than reporters. You can spot the French press from a distance. They are usually shabbily dressed, make copious notes and are wildly enthusiastic about the clothes. I've seen little French-women, their faces aglow with joy, exclaim breathlessly over a dress, or become so enraptured by material that they reach out to touch it as the mannequin sweeps past them.

There are the buyers—most of them call themselves "fashion directors" when they get the Paris buying assignment. They usually dress in the height of fashion, in clothes by name dressmakers. They often sit alone because what you buy is as secret as how to make an atom bomb. They make lots of notes in handsome, leather-bound notebooks.

Finally, there are the special customers—wealthy women, women of title and beautiful women who show off clothes to advantage. They watch the clothes with narrowed eyes, imagining how they themselves would look in each model shown. Here and there are manufacturers of lace, textiles, gloves and fur processors.

Spectators Dress Formally
Champagne is inevitably served someplace along the line. Most of the spectators dress formally or in dinner clothes for the evening show. Frequently, when a particularly beautiful dress, or new piece of fabric is shown, there is applause. And if you look carefully around you, you can spot in inconspicuous places a ring of eager faces looking down at the show. These are the midnights, the "petite mains" whose handwork has gone into the clothes—and they are starry-eyed and excited.

No matter how hard-boiled you are, how much you believe that fashion is spinach, the whole atmosphere of an opening is exciting. I kept thinking: "In this house are all the people who dictate how women will dress for the next few months. They certainly look unhappy about it all too."

But I must say that the Dior opening was the most fun. It had all the atmosphere of the premiere of "South Pacific."

Tuberculosis Called Singapore Menace

SINGAPORE—The director of the Singapore Anti-Tuberculosis Association Clinic says this crown colony has the highest rate of active, positive tuberculosis of any city in the world.

Dr. G. E. Garlick described the city as "nearly saturated with the disease." He said his association puts the incidence of the ailment at 16 per cent with the dangerous age between 12 and 19 years.

PLEASE DON'T HURT MY KIDS

A TIMELY MESSAGE FROM
BROWNE'S WESTEND MAGNOLIA
SERVICE STATION

My daughter, who is seven years old, started for school the first time. Her brother was with her, but he's only nine himself, and he still looks pretty young to me. Their Scotty, whose name is "Scot" sat on the porch and whined his canine belief in the folly of education as they waved "Goodbye" and started off to the halls of learning.

Last night we talked about school . . . My daughter and I. She wondered what the teacher would be like . . . she hoped she could sit beside Mary (the little girl next door). She said her "letters" for me . . . just to be sure she knew them. Oh, we talked about a lot of things . . . tremendously vital, unimportant things. Then she tried on her plaid pinafore to show me . . . and then to bed.

She looks so helpless . . . sound asleep, with "Princess Elizabeth" (that's her doll) cuddled in her arm. You folks wouldn't hurt her, would you? You see, I'm her daddy. When her doll is broken or her finger is cut, or her head gets banged, I can fix it . . . but when she and her older brother start to school, when they walk across the street, then they are IN YOUR HANDS! They're nice kids, both of them. They like to ride horses, swim and hike with me on Sunday afternoons. But I can't be with them all the time. I have to work to pay for their clothes and education . . . so PLEASE HELP me look out for them. PLEASE DRIVE CAREFULLY, PLEASE DRIVE SLOWLY PAST THE SCHOOLS AND INTERSECTIONS . . . and PLEASE REMEMBER THAT CHILDREN DO RUN FROM BEHIND PARKED CARS!

PLEASE DON'T HURT MY KIDS!

Your Neighbor

Ellenburger Test In Reagan Slated By York & Harper, Inc.

York & Harper, Inc., of Midland, will start drilling at once on its No. 1 Suggs, a 10,700-foot wildcat in Northeast Reagan County. It is to explore into the Ellenburger. The venture will be at the center of the northwest quarter of section 101, block 2, TP survey.

McQueen & Cleverger have the contract to dig the venture with rotary tools.

It is on a block of acreage assembled by O. L. Johnson of Midland, and turned to York & Harper to drill. Johnson and associates retain considerable interest in the region.

The tract on which No. 1 Suggs is to be drilled was formerly held by Honolulu Oil Corporation, and was taken by Johnson on a farm-out deal.

Acreage in the vicinity of the deep wildcat is held by Honolulu. The Atlantic Refining Company, The Pure Oil Company and Bankline Oil Company.

mainder of the string was being racked.

Taking Another DST

Gravity of the oil in the mud was 46.6 degrees.

Operator was taking another drillstem test Saturday.

The investigation was covering the interval from 11,960 feet to the top depth of 12,060 feet.

The tool had been open one hour at the time this report was prepared, and it was still open. Gas of an unreported volume showed at the top in five minutes. No fluid had come out at the end of one hour.

This project is just inside the Midland County line, from North Upton County, and is 1,980 feet from west and 660 feet from south lines of section 30, block 40, TP survey, T-4-S. It is to continue to about 12,500 feet to find and test the Ellenburger.

It is a long northeast steepout to the same company's No. 1-A TXL discovery of the Pegasus field.

No. 2-30 Glass flowed oil from the Pennsylvanian and also indicated production from the Silurian. **Outpost Drills Ahead**

Magnolia No. 1-36 Glass, southwest outcrop to the Pegasus producer, and 1,980 feet from north and 660 feet from east lines of section 36, block 41, TP survey, T-4-S, had penetrated 12,795 feet in Devonian lime and chert, and was making more hole.

Magnolia No. 1-B TXL, one half mile south of the Pegasus discovery, and 680 feet from north and west lines of the southwest quarter of section 31, block 40, TP survey, T-4-S, was bottomed at 4,842 feet in Permian lime.

A string of 9 5/8th inch intermediate casing was being run and cemented. After the plug sets it will be drilled out and the venture will drill ahead to the Ellenburger.

Phillips Petroleum Company No. 1-BB TXL northwest flanker to the Pegasus operator, and 864 feet from south and 660 feet from east lines of section 25, block 41, TP survey, T-4-S, had penetrated below 8,283 feet in lower Permian lime and shale, and was drilling deeper. It is to go to 12,900 feet to explore the Ellenburger.

Deal On 10,700-Foot Venture For Dawson Is Being Considered

A wildcat to 10,700 feet in Central-Northwest Dawson County will be started soon, if a deal now being negotiated is consummated.

J. A. Lavender, Jr., and Reagan J. Carraway, both of Dallas, are taking the lead in trying to work out the deal.

It drilled the project will probably be their No. 1 T. A. Loc. Tentative location is understood to be in the northwest corner of tract 12, league 3, Taylor County School land survey. Lease on that acreage has been held by Humble Oil & Refining Company. It is reported that Humble has agreed to farmout the tract out to Lavender and Carraway in the event they drill the wildcat.

The tentative location is one mile northeast of Mungerville and about seven miles northwest of Lamesa.

Magnolia Petroleum Company, Standard Oil Company of Texas, Seaboard Oil Company of Delaware and Humble all have acreage in the vicinity of the proposed prospect. It is understood that each of those concerns have agreed to support the project.

It is reported that seismograph surveys indicate the possible presence of a structure in the region where the Lavender and Carraway exploration is proposed.

Midland Project Is Now Past 8,545 Feet

York & Harper, Inc., No. 1-A TXL, Central Midland County wildcat to 13,800 feet to explore into the Ellenburger, had reached 8,545 feet in sand and shale in the lower Permian, and was drilling deeper.

It is 12 1/2 miles south of the city of Midland, and 690 feet from north and 660 feet from east lines of the southwest quarter of section 25, block 39, TP survey, T-3-S.

General American Oil Company No. 1 Peck, in extreme Southwest Midland County, 30 miles southwest of the city of Midland, and at the center of the northwest quarter of the northwest quarter of section 21, block 41, TP survey, T-4-S, and five miles northeast of the Pegasus field, was moving in rotary tools, building derrick and drilling water well.

The venture will be spudded early in the week. Hall and Stewart are making the rotary drilling contract. The project is contracted to 13,900 feet, if it is necessary to go that deep to test the Ellenburger.

Spraberry Producer Finaled By Seaboard

Seaboard Oil Company of Delaware has completed another flowing producer from the Spraberry sandy lime section of the lower Permian in the Spraberry-Deerp field of Southeast Dawson County, 15 miles southeast of Lamesa.

Seaboard No. 2-B Spraberry was finished for 24-hour potential of 311.13 barrels of high gravity oil, and no water, flowing through a three-eighths inch tubing choke, from pay section between 6,511-6-809 feet. That section had been shot with a large load of nitro glycerin.

The venture drilled to a total depth of 7,200 feet. The interval between 6,809 feet and 7,200 feet was tested for a considerable period, and was plugged off with cement after it failed to develop commercial production. It did carry interesting signs of oil and some gas.

Seaboard No. 6-N Spraberry is located 660 feet from south and east lines of section 38, block 40, TP survey, T-5-N. It is one location outside of the heretofore proven area for deep production in the Spraberry area.

Ector Prospector Is Started By Lawson

Edward C. Lawson of Tulsa is to start drilling soon on his No. 1 Augusta Barrow, and others, slated 8,000-foot wildcat in North-Central Ector County, about 14 miles northwest of Odessa.

Rotary tools will be used to drill the venture which will try for production from the Clear Fork of the Permian.

Depth is 660 feet from south and east lines of the northeast quarter of section 44, block 44, T-1-S, TP survey.

Flankers Are Drilling Ahead In NW Borden

Each of four flankers to the Ellenburger discovery in Northwest Borden County, Sinclair Oil & Gas Company No. 1 Williams, are making progress toward their destination of about 10,000 feet to try for production from that depth. All are making more hole and so far no tests have been reported on these prospects.

Sinclair No. 1 Pratt was waiting on cement to cure after operator lost circulation from 5,205-5,210 feet. That zone had been cemented with 150 sacks to fill the cavity. It will drill ahead. Current depth of the venture was 8,506 feet in lime.

The drillsite is 660 feet from east and 1,980 feet from north lines of section 44, block 32, T-6-N, TP survey.

The company's No. 1 Reynolds, one and one-half miles north and slightly west of the discovery, and 660 feet from south and 1,980 feet from west lines of section 33, block 32, T-6-N, EL&RR survey, was drilling lime and shale below 8,614 feet.

Sinclair No. 1 Turner was boring ahead after progressing to 8,212 feet in lime.

It is 660 feet from south and west lines of the north half of section 44, block 32, T-6-N, EL&RR survey.

Another Ellenburger project, Sinclair No. 1 Bryan, was being deepened below 8,188 feet. Drilling was in lime and shale.

It is 660 feet from south and east lines of section 40, block 32, T-6-N, TP survey.

All of these explorations are about 11 miles northwest of Gail.

Upton Wildcat Makes Progress In Simpson

Republic Natural Gas Company No. 1 Powell, deep wildcat in Central-North Upton County, two miles southeast of the first producer in the Pegasus field, had reached 12,790 feet in Simpson lime and shale, and was boring deeper.

It is going on to explore into the Ellenburger, expected by the time the bit reaches 12,950 feet. This venture has shown some possibilities of production in several upper horizons.

Location is 660 feet from north and west lines of section 44, block 40, TP survey, T-4-S.

Republic Natural No. 1 American Republics Corporation, another deep prospect in Central-North Upton County, had progressed to 4,664 feet in Permian lime, and had cemented a string of 9 5/8th-inch intermediate casing on bottom.

When the plug cures it will be drilled through and the project will start deepening.

This exploration is contracted to 13,000 feet. It is 660 feet from north and west lines of section 6, block 40, TP survey, T-5-S.

Production Tests Will Be Made At Chaves Prospect

HOBBES, N. M.—Apache Oil Corporation, et al., No. 1 Nobles Trust, Northeast Chaves County wildcat, which develops interesting shows of gas and distillate in the Pennsylvanian lime between 7,206 feet and the current bottom at 6,392 feet, had cemented a string of 7-inch casing at total depth.

It is understood that the operator plan to produce the sand and make production tests between 6,206 feet and 6,392 feet and try to complete a gas and distillate producer from that zone, to open a new field.

Should the section fall to show petroleum in commercial quantities it probably will be drilled deeper. The venture is contracted to continue to 9,000 feet, unless it gets production or granite above that point.

Drills In Lime

Union Oil Company of California and DeKalb Agricultural Association, Inc., No. 1 State, Central Chaves County wildcat, approximately 15 miles east and slightly south of Roswell and six miles east of the Bottomless Lakes, was drilling below 7,409 feet in lime. Location is 1,980 feet from south and west lines of section 27-115-27e.

This venture developed a little gas and distillate in a drillstem test at 8,891-10,006 feet in Wolfcamp, lower Permian black shale.

More shows of gas were found in a drillstem test at 10,093-900 feet. It is 15 miles south of Roswell and 1,980 feet from north and east lines of section 31-25e-27e.

Discovery Being Completed

Another prolific flowing oil and gas discovery from the Devonian has been completed in Northwest Lea County, Amerasia Petroleum Corporation No. 1-BTB State.

That new well flowed 1,245 barrels of 57.1-gravity oil in 21 1/2 hours, through a 24/64-inch tubing choke, from pay section at 10,170-180 feet.

Gas-oil ratio was 431-1. Gas volume during the 21 1/2 hours of flowing was 603,200 cubic feet per day. The perforated section at 10,170 feet was washed with 250 gallons of acid.

Further production tests are now being run. It is expected that the well will shortly be completed and put on production. It has been designated as the discovery well of the Highwater field.

This important discovery showed for flowing oil from the entire interval between 10,090 feet and 10,200 feet. Operator elected to complete it from the 10-foot zone covered by the perforations.

It is 660 feet from north and west lines of section 26-12a-33e. That makes it four miles south of the same company's No. 1-BTA State.

Another Devonian discovery, completed since the water cushion and drilling mud flowed out at the top in 13 minutes. Oil started flowing in 23 minutes.

The well was flowed to pits for nine minutes to clean and was then shut in for 24 hours. The 140.6 barrel flow in 120 minutes resulted.

Oil String Is Cemented

Operator cemented a string of 7-inch casing on bottom. The cement was drilled out and the well will be completed through perforations in the pipe.

Mid-Continent Petroleum Corporation No. 1-D Sawyer, a flanker to Devonian production has been completed and put on production in the Highwater field of Northeast Lea County.

The new producer made 625 barrels of 42.6 gravity oil in 24 hours. Top of pay was 11,650 feet and total depth was 12,150 feet. Production was 190,000 cubic feet in 24 hours in the casing at 12,000-650 feet. Location is 1,980 feet from north (Continued On Page Seven)

through the Devonian, and into the Ellenburger, has shown some interesting signs of possible production in an upper Pennsylvanian formation.

This venture, located at the center of the southeast quarter of the southwest quarter of section 35-11a-35e, ran a four hour drillstem test in a lime section at 8,546-8,915 feet. Gas and distillate in the surface in seven minutes. The gas volume was gauged at 272,000 cubic feet per day.

Recoveries Gas, Distillate

Recovery was 30 feet of distillate over 780 feet of gas and distillate cut drilling fluid. There were no signs of formation water.

It is now drilling ahead below 9,136 feet in Pennsylvanian lime. No further shows of oil or gas have been logged below 9,015 feet.

Humble Oil & Refining Company No. 1-X State, in extreme Central-North Lea County, 17 miles southwest of the Crossroads field, and 660 feet from north and 1,980 feet from east lines of section 31-11a-35e, drilled to a bottom of 13,288 feet in Devonian lime and chert.

That zone made oily water, with no signs of oil or gas, in a drillstem test at 13,129-228 feet.

Operator had plugged back to 10,102 feet in the Pennsylvanian.

A string of 5 1/2-inch casing had been cemented at 10,102 feet. The section at 10,090-060 feet had been perforated and swabbing to test had started. It was showing mostly salt water.

At last report no appreciable amounts of new oil had been developed from that interval. The perforated interval was to be matted off and another zone tested.

Stepout To Complete

Magnolia Petroleum Company No. 1 Jack Markham, west stepout from the discovery well for flowing production from the Pennsylvanian, to the Benbow field in Northeast Lea County, a short distance northwest of the Crossroads field, is to complete and put on production as a one-quarter of a mile extension to that field.

Operator had plugged back to 660 feet from south and east lines of section 11-9a-35e, flowed 140.6 barrels of 47.0 gravity oil in two hours, through a five-eighths inch bottom hole choke, from the zone at 9,529-64 feet in the Pennsylvanian lime.

Gas-oil ratio was 1,915-1. That petroleum yield came during a two hour and 32 minute drillstem test. A 720-foot water cushion was used. Gas showed at the surface in eight minutes. The water cushion and drilling mud flowed out at the top in 13 minutes. Oil started flowing in 23 minutes.

The well was flowed to pits for nine minutes to clean and was then shut in for 24 hours. The 140.6 barrel flow in 120 minutes resulted.

TEXAS OIL ROUNDUP— Slump In Oil Production Fails To Stymie Search; Many Programs Started

By MAX B. SKELTON
HOUSTON—(AP)—Millions of dollars still are being spent in search for new oil reserves despite the 1949 slump in domestic production.

Current domestic output is approximately 800,000 barrels daily below a year ago but there still is a good chance more new wells will be drilled this year than in 1948.

Long-range, multi-million dollar exploration programs are well underway by several major companies.

Last week's edition of the Oil and Gas Journal reported 21,672 new wells having been completed the first seven months of 1949. This is only 16 less than the same period in 1948 when the industry's postwar boom reached its peak.

Last week Sinclair Oil Corporation announced details of a \$250,000, five-year expansion program concentrating on undeveloped leases.

Imports Are Vital

Meanwhile, imports of crude oil still dominate forecasts on production in domestic supply and demand the balance of the year.

Major importers recently advised the Texas Railroad Commission they expect imports to average about 430,000 barrels daily the last three months of 1949.

Russell B. Brown, general counsel for the Independent Petroleum Association of America, this week said such an estimate indicates a continued increase in imports.

The Texas Oil Regulatory Commission, following receipt of the import estimates, increased the state's September crude allowances by 132,000 barrels daily.

But Ernest O. Thompson, senior member of the commission, thinks the action may have been a mistake.

Domestic stocks, he said, still are in superabundance.

His remarks were in reply to a state department charge the commission has kept domestic supplies below desired levels by reducing Texas allowances seven times since last December.

Texas congressmen had solicited the state department's aid in curtailing imports.

TIDELANDS

Secretary of Interior J. A. Krug last week indicated the proposed compromise legislation designed to end the Tidelands ownership controversy can expect a veto from the White House.

Krug, testifying before a House Judiciary Committee, said a veto awaits any legislation turning control of coastal oil lands to the states.

Compromise plans reportedly would split control as well as oil revenues between the respective Tidelands states and the federal government.

Tidelands operators meanwhile hope for an early settlement, whether in favor of the states or the federal government. Some companies have declined to develop leases until the title question is settled.

Others have curtailed operations. Current operations, however, involve huge investments.

Walter S. Hallanan, chairman of the National Petroleum Council, advised the house committee investigations have exceeded \$190,000,000. Gross returns to date, he said, have totaled only \$900,000, or less than 0.5 per cent of the investment.

GAS BOOM

Industrial plants are carrying the weight of the Summer end of the postwar swing toward use of natural gas.

A Federal Power Commission report says natural gas company sales to commercial and industrial consumers increased in June 3.1 per cent and 3.6 per cent, respectively, over the same month last year. Household sales dropped 0.8 per cent.

Over-all company sales the 12 months ending June 30 jumped 16.8 per cent over the previous fiscal year.

Crude oil production cutbacks in Texas have caused little change in the state's gas output.

In June Texas gas production totaled 273,571,840,000 cubic feet, compared to 260,379,850,000 in June 1948. Oil well gas dropped 900,000,000 cubic feet but natural gas jumped 14,000,000,000.

Pipe lines took 50.85 per cent of the state's June production, compared to 45.21 per cent a year earlier.

How'de Do It?

A lot of fellows would like to know how Frank Kemp got Jeanale Woodburn into this glass container at the California State Fair in Sacramento. Kemp just grins and says, "It's a trade secret, boys." So, make the best of it.

Livestock Roundup

FORT WORTH—(AP)—Livestock compared week ago:

Best fed cattle steady, grassers 60-100 lower, cows steady to 50 higher, fat calves 50-100 lower, stocker cattle and calves steady, butcher hogs and sows 50 higher, pigs steady, Spring lambs and yearlings steady, feeder lambs and yearling strong.

Week's prices, slaughter steers and yearlings 14-24, beef cows 15-50-16, slaughter calves 12-24, stocker yearling steers 16-21, stocker calves 17-24, stocker cows 13-16, best butcher hogs at close 21-21.26, sows 16-17.50, feeder pigs 14-17, slaughter Spring lambs 20-22, yearling sheep 14-18, feeder lambs 17-20.

CONDITION IMPROVED

The condition of Troy Livingston, injured in a fall from a windmill Friday, was reported to be improved Saturday by attendants at Western Clinic-Hospital. He was treated for a back injury.

Eggs which get dirty and have to be cleaned lose quality more rapidly than eggs which are produced clean.

Humble Bores Deeper On East Upton Tests

Humble Oil & Refining Company continues to bore deeper on three explorations in East Upton County—all of them are outside the proven area in the Benedum multi-pay field.

Humble No. 1 Pembroke 860 feet from north and 2,247 feet from east lines of section 2, C. C. Dewitt survey, and six miles north of the Benedum field, had reached 11,898 feet in an unidentified lime, and was making more hole.

Humble No. 1 Mrs. Z. Oswald of Abilene, four and one half miles northeast of the closest producer (Continued On Page Seven)

Washington Oil— Oil Man Turns Tables; Writes About Capital Correspondent

By LAWRENCE E. SMITH
Independent Petroleum Association of America

WASHINGTON—Joseph B. Huttlinger, the Washington correspondent who regularly fills this space with news and views of national legislative and administrative action, has turned the tables on his correspondent. He has written a book, "The Oil Man Turns Tables; Writes About Capital Correspondent," which is being published by the Independent Petroleum Association of America.

Huttlinger, who has been a correspondent for the Washington Post for many years, has written the book from the point of view of an oil man. He has written about the oil industry from the inside, and has written about the oil industry from the outside.

The book is a collection of articles which Huttlinger has written for the Washington Post. It is a collection of articles which Huttlinger has written about the oil industry from the point of view of an oil man.

The book is a collection of articles which Huttlinger has written for the Washington Post. It is a collection of articles which Huttlinger has written about the oil industry from the point of view of an oil man.

His right wingtip dangerously close to the ground, and with landing gear retracted, Lt. Jack Becker, 28-year-old Navy pilot on leave, brings his P-38 in for a crash landing at the Cleveland Air Races. The plane caught fire on the second lap of qualifying trials for the Thompson Trophy Race in the National Air Races. The plane was completely washed out, but Becker walked away unhurt.

National Dog Week Will Be Observed By West Texas Fanciers; Statement Issued

National Dog Week will be observed by West Texas dog fanciers in September when three big shows will be held. The West Texas Dog Show Circuit has set the three shows. The first will be held at Amarillo September 18. A show is set at Odessa September 22 and one will be held at Abilene September 25. The elite of breeds will be on exhibit with many trained handlers from distant points. Competent judges have been obtained for all meets. Entries for the Odessa show close at noon September 9. Persons desiring to enter dogs may obtain entry blanks from Carl Wevick of Midland, president of the West Texas Kennel Club, or Mrs. Alberta Conner at Odessa, secretary. Mrs. Emma Loest of Kansas City, Mo., superintendent for the West Texas Circuit Shows, will be at the El-Hotel, Odessa, to assist personally local exhibitors in filling out entry blanks. In the spirit of National Dog Week, the West Texas Kennel Club has issued this statement:

"The most grateful thing in the world is your dog. Whatever you give him, whatever you do for him, he is never guilty of ingratitude. To him you are the most powerful personage in the world and beyond censure; you are your dog's god; you can do no wrong. "The most friendly thing in the world is your dog. Of all the animal kingdom, he alone serves man without whip, without compulsion, glad to be by the side of his master wherever he may be, whatever he may do, and sad and in heart whenever his master is away. "The most forgiving thing in the world is your dog. The one virtue most humans lack is that of forgiveness. But your dog carries no grudge and no spite. Punish him most undeservedly, and he comes to you, nudges his moist nose into your hand, looks up at you with pleading eyes, and wags his tail hesitatingly as though to say, 'Oh, come on, let's be pals again.' "The most loyal thing in the world is your dog. Whether you come home from halls of fame or from jail, whether you have made a fortune or lost your last dime, whether you are dressed in royal raiment or in rags, whether you have been hailed as a hero or a criminal, whether you live in a mansion or sleep in the gutter, your dog is waiting for you with a welcoming bark of delight, a wagging tail and a heart that knows no guile. "The world likes dogs because dogs are nearest to moral perfection of all living things."

Enlarged Aftosa Vaccine Plant Is Opened In Mexico. MEXICO CITY (AP)—President Miguel Aleman Saturday opened the enlarged plant making vaccine to stamp out aftosa (foot and mouth disease) among cattle and other animals here. The laboratory was established by the joint Mexico-U. S. Commission for the eradication of the foot and mouth disease. At present the plant produces 100,000 doses daily and the output is being increased. Cattle are being given three vaccinations at intervals so far, the commission says, the treatment has been highly effective and it expects to free Mexico entirely of the disease which has been a plague here. Mexico no longer is able to ship her normal 500,000 head of cattle to the United States but the industry is canning much beef. About 13,000,000 cattle have been vaccinated once, 7,000,000 twice and 1,000,000 for the third and probably last time. The three injections are expected to immunize the animals while the active campaign cleans out the disease in the present closely quarantined area affected in Central and Southeastern Mexico.

SCHOOL LUNCHES - Breakfast Beginning Monday, September 5th. We Will Serve BREAKFAST - HOT LUNCHES - SANDWICHES of All Kinds, Hot or Cold - COMPLETE FOUNTAIN SERVICE - SCHOOL SUPPLIES - Midland Malt Shop Across Street South From High School

Ellenburger Test—

(Continued from Page Six) in the Benedum field, had penetrated past 9,730 feet in lime and shale, and was boring further. It is 2,640 feet from south and 660 feet from east lines of section 12, block B, COSD&RGNG survey. It is contracted to 12,000 feet to try to find and test the Ellenburger. Humble No. 1 Parrott, 960 feet from south and east lines of section 3, block Y, EL&RR survey, and one half mile north of a well producing from the Pennsylvania on the northwest side of the Benedum area, had drilled to 11,074 feet in lime, and was digging deeper.

Flowing Producer Is Shown For Magnolia

Another stepout from production in the Kelly-Canyon field, of Central Scurry County has shown for flowing petroleum and will be completed and put on production. Magnolia No. 1 Biggs, 660 feet from north and east lines of section 208, block 97, H&TC survey, ran a four-hour drillstem test in the Canyon lime at 6,720-6,820 feet. Gas showed at the top in eight minutes, and mud flowed out at the surface in two hours and 15 minutes. Mud and oil started flowing in two hours and 53 minutes. The flow was run to pits to clean for seven minutes. It was then turned to tanks through a one-half inch bottom hole choke. In the first 30 minutes 4.1 barrels of oil was produced. During the first 60 minutes the well flowed a total of 15 barrels of clean oil. There was no water. Gas-oil ratio was 600-1. Operator is to run an electric log survey, cement casing and complete the extender.

Scurry Exploration Scheduled By Sunray

Sunray Oil Corporation and others, have filed an application with the Railroad Commission of Texas requesting permission to drill their No. 5-B R. B. Brown in the North Snyder field of North-Central Scurry County. It is to dig to 6,900 feet with rotary tools to test for Canyon lime production. It is in the southeast corner of tract 13, in section 26, J. P. Smith survey, approximately 960 feet from south and east lines of that tract. Drilling is to get under way immediately. The prospect is to be Low No. 1 Le Bell. The venture is near DeRidder in the central-north sector of Beauregard Parish and at the center of the southeast quarter of the southeast quarter of section 23-28-8w.

SW Louisiana Wildcat Is Planned By Lowe

Ralph Lowe of Midland is to start drilling at once on a 10,000-foot wildcat in North-Central Beauregard Parish of Southwest Louisiana. The prospector will be Low No. 1 Le Bell. The venture is near DeRidder in the central-north sector of Beauregard Parish and at the center of the southeast quarter of the southeast quarter of section 23-28-8w. It is to explore into the Wilcox horizon. The venture will be drilled with rotary tools. Kemp Drilling Company has the contract.

Jordan Deep Venture Is Slated By Texaco

The Texas Company is to drill another deep exploration in the Jordan deep-pay field of Southwest Ector County. The new development will be Texaco No. 41-NCT-1. W. E. Conner, location manager, promoted the venture. It is to be drilled to 11,850 feet in the Ellenburger. This prospect is 555 feet from south and east lines of the southwest quarter of section 24, block 13, University survey. Flows 914 Barrels Of Oil University Sinclair No. 3-153. University flowed 914 barrels of oil in 21 hours of which 461 barrels were new oil, and the remainder load oil. Gravity of the oil was 41.2 degrees and the gas-oil ratio was 255-1. It had a grind out of two and four-tenths per cent basic sediment and water. The new oil came after section above the total depth at 11,825 feet in the Ellenburger had been treated with 1,000 gallons of acid. Also 480 barrels of load oil were used in the treatment. Operator is now taking Railroad Commission potential test. It is 555 feet from south and east lines of the southwest quarter of section 13, block 13, University survey. Sinclair No. 4-153, another Ellenburger prospect, was drilling below 11,225 feet in lime and was continuing to make more hole. Are Deepening. The drillete of this prospector is 555 feet from east and 765 feet from north lines of the southwest quarter of section 13, block 13, University survey. The company's No. 9-154 University

Andrews Prospectors Test In Ellenburger

Two of Sinclair Oil & Gas Company's five Ellenburger explorations in the Shafter Lake field of North-Central Andrews County were testing in that zone, and three other projects are continuing to drill more hole. The company's No. 5-155 University swabbed down to 7,200 feet with the fluid level at 3,900 feet, and recovered 780 barrels of oil in 23 hours. Grindout of the fluid was 16 per cent drilling water and two per cent basic sediment. The venture is still swabbing to clean out and test. Total depth is 11,850 feet in the Ellenburger. This prospect is 555 feet from south and east lines of the southwest quarter of section 24, block 13, University survey. Flows 914 Barrels Of Oil University Sinclair No. 3-153. University flowed 914 barrels of oil in 21 hours of which 461 barrels were new oil, and the remainder load oil. Gravity of the oil was 41.2 degrees and the gas-oil ratio was 255-1. It had a grind out of two and four-tenths per cent basic sediment and water. The new oil came after section above the total depth at 11,825 feet in the Ellenburger had been treated with 1,000 gallons of acid. Also 480 barrels of load oil were used in the treatment. Operator is now taking Railroad Commission potential test. It is 555 feet from south and east lines of the southwest quarter of section 13, block 13, University survey. Sinclair No. 4-153, another Ellenburger prospect, was drilling below 11,225 feet in lime and was continuing to make more hole. Are Deepening. The drillete of this prospector is 555 feet from east and 765 feet from north lines of the southwest quarter of section 13, block 13, University survey. The company's No. 9-154 University

Oil Companies Will Observe Labor Day; 'Shutdown' Monday

All oil offices in Midland will be officially closed Monday to observe the Labor Day holiday. Practically the only work which will be undertaken at any of the operating headquarters in this city will be taking field reports and issuing necessary orders and instructions to keep drilling wells going. Labor Day is one of the few holidays of the year which is observed almost 100 per cent by all branches of the oil industry which can "shut down" for a full day. Some field work will also be suspended over the holiday.

Kelly Gets Four New Petroleum Ventures

Locations have been staked and drilling is to start soon on four new petroleum explorations on the north side of the Kelly-Canyon field in Central Scurry County. Each is to try for Canyon production around 7,000 feet. George P. Livermore, Inc., Lido Petroleum Company and Milner Oil Company, No. 2, J. E. Woodson is to be an east offset to their No. 1, E. Woodson, which is in the process of completion after showing for commercial production on the northeast side of the Kelly field. Using rotary tools, the venture will drill to 7,000 feet. The drillete is 660 feet from north and east lines of section 208, block 97, H&TC survey, and four miles west of Snyder. East Offset To Field. Magnolia Petroleum Company No. 1 Ray Haney, located 660 feet from south and west lines of the north-west quarter of section 209, block 97, H&TC survey, is to be an east offset to the furthest northwest producer completed in the Kelly field. It will drill to 6,900 feet with rotary tools to test for Canyon production. It is two miles west of Snyder. Spartan Drilling Company of Dallas, and Gene Goff of Midland, have staked two projects which are west flankers to their No. 1 Ohlenbusch in the Snyder field of North-Central Scurry County. The No. 1 Ohlenbusch is now being completed. To Test Canyon Reef. Their No. 1-A Lida M. Hardy is 660 feet from north and east lines of section 207, block 97, H&TC survey, and two miles west of Snyder. It is to drill to 6,900 feet, using rotary tools. The No. 2-A Lida M. Hardy is to drill to 6,800 feet to test the Canyon reef lime. Rotary tools will be used. The drillete of this exploration is 660 feet from north and west lines of section 207, block 97, H&TC survey which makes it two and one-quarter miles west of Snyder.

Lyman Is Drilling On New Mexico Wildcat

C. V. Lyman of Midland has started drilling on a wildcat oil test in Central-North San Juan County, in Northwest New Mexico, to explore to 1,800 feet to test the Picture Cliff horizon. It is located 660 feet from north and 1,980 feet from east lines of section 30-30N-12W. The face of Abraham Lincoln, sculptured into the rock of Mount Rushmore in the Black Hills, is so large that a man could stand erect in an eye.

Bowers Is Selected District Manager Of Oil Well Supply Co.

T. E. Bowers, assistant manager of Oil Well Supply Company's West Texas district, has been promoted to district manager. District headquarters are in Midland. Bowers has more than 20 years service with "Oilwell," having joined the company in March, 1929. He served in various branch sales stores in Texas, Oklahoma and New Mexico. In April, 1937, he became manager of the Odessa store. He held that position until he was named assistant manager for the West Texas district in June, 1948. Bowers is a native of Brooklyn, Ill. He received his high school education at Cherryvale, Kansas, and attended Kansas State Teachers College.

Permian Basin AIME To Hold Meeting At Odessa On Sept. 12

The Permian Basin section of the American Institute of Mining and Metallurgical Engineers will meet at 6 p. m., September 12, at the Roark Club in Odessa for a dinner and program. W. W. Owsley of Duncan, Okla., with Halliburton Oil Well Cementing Company, will give a paper on "Hydrate." Tom C. Frick of Midland, chairman of the section, will preside. W. N. (Bill) Little, vice chairman, will be in charge of the program. He also is a Midlander. Advance reservations for the dinner should be made with Jack Moore, section secretary at Dowell, Inc., in Midland.

The Tool Pusher

Permian Basin Has Increase In Number Of Active Rotaries

Petroleum development activity continues to pick up in the Permian Basin of West Texas and Southeast New Mexico. On September 1, 1948, the Permian Basin listed 426 active rotaries. This compilation is from the regular semi-monthly survey of Reed Roller Bit Company. It includes only those rotary rigs which were actually making hole. It does not take into account those which might be moving in, moving out, or standing idle over a well which is in process of completion. On September 1, 1948, the Permian Basin listed 426 active rotaries. This compilation is from the regular semi-monthly survey of Reed Roller Bit Company. It includes only those rotary rigs which were actually making hole. It does not take into account those which might be moving in, moving out, or standing idle over a well which is in process of completion.

Stanlind Engineer, Geologist Promoted

Stanlind Oil & Gas Company has announced the promotion of two employees in the company's North Texas-New Mexico division, with headquarters in Fort Worth. They are John B. Rosen, who will be district engineer in the Lubbock district, and George L. Ellis, who advances from geologist to senior geologist at the Fort Worth division office. Ellis will direct physical and geological coordination and replaces F. H. Schouten, who has been transferred to the Canadian division. Rosen joined Stanlind in 1934 and had been a petroleum engineer supervisor at the Tulsa general offices since 1947. Ellis had been a geologist for Stanlind since he was employed by the company in 1945.

Five Midland Area Employees For Shell Get Service Awards

Five production employees of Shell Oil Company, Inc., in the Midland area were presented service award emblems at a luncheon Thursday at the Midland Country Club. Sixty-five years of service with the company was represented by these awards which were presented to M. C. Brunner, area production manager. Those receiving awards for 15 years of service were J. A. Dumlup, Denver City, T. W. Hollis, Andrews, and C. E. Lain, Hobbs, N. M. Ten year awards were earned by E. L. Cook, Odessa and W. C. McSpadden of Eunice, N. M. Other production employees attending the luncheon included divisions manager C. R. Bickel of Odessa, and district superintendent F. R. Lovering of Hobbs, N. M., and W. G. Inabert of Denver City. Those from the Midland office included general superintendent E. L. Kinney, and A. J. Vineyard, personnel and industrial relation department manager.

Oil, Gas Lease Sale To Be Held Sept. 26 At Window Rock, Ariz.

The acting general superintendent of the Navajo Agency has announced the sale of oil and gas leases on the Navajo Reservation which is to be held at Window Rock, Ariz., September 26. Five tracts of tribal lands and one tract of individual allotted land will be offered separately for the highest cash bonuses in addition to regular stipulated production royalties of 12 1/2 per cent, and rentals of \$1.25 per acre per annum. Although there is some debate on the origin of meteorites, they were probably the remains of masses circulating about the sun.

Football-It's In The Air

Charles Crowley, Midland Bulldog, gets nice blocking from the line as he southpaws a pass to Half-back Jack Burrus in a squad scrimmage at Memorial Stadium. Coach Tugboat Jones, center, and Line Coach Garvin Beauchamp lend a watchful eye to the play. The Bulldog passing attack is improving nicely from such drills as this.

Western Plastic Takes Loop Flag; Benefit Tilt Set

Western Plastic brought the curtain down on softball in Midland for this season Friday night when it edged Joe's Golf 3 to 2 to annex the league championship. But the two teams will meet again Wednesday night—in a baseball game at Indian Park for the Joan Edwards fund.

44 Grid Games Blast Season During Week

By The Associated Press
Forty-four games bringing 70 City Conference and Class AA teams into action open the schoolboy football season in Texas this week.

Thirteen of the City Conference's 26 schools play games while 56 of the Class AA's 84 will roll. Some Class A features are slated.

Top game of the state appears to be the battle of Port Arthur with Odessa at Odessa Saturday. It matches two of the highest rated teams of the year.

Other games of interest in the week include: (Thursday) Austin at Thomas Jefferson (SA), Austin High (El Paso) vs Cathedral (El Paso); (Friday) Midland at Ysleta, North Dallas at Pampa, Woodrow Wilson (Dallas) at Mexico City Poly, Paschal (FW) at Weatherford, Kerrville at Brackenridge (SA), Big Spring at Plainview, Memphis at Quanah, Pecos at Brownfield, Lamesa at Levelland, Bowie (EP) at Carlsbad, N. M., El Paso at Roswell, N. M., Breckenridge at Abilene, Vernon at Sweetwater, Electra at Brownwood, San Angelo at Denison.

Midlanders On Winning Team At Big Spring
BIG SPRING—Five Midlanders were on a team which won the Hall-Bennett trophy matches in the Big Spring Country Club invitation tournament here Friday. They were Van Ligon, captain, and Bill Barker, Cliff Hall, J. W. Stone and Roy Minear. Other team members were Jack Williams and G. Barnard, Jr., of Snyder. The team beat a Big Spring 4-3.

Midlanders among leading qualifiers for the tourney proper were (with scores) Cliff Hall, 75; Roy Lockett, 76; J. W. Stone, 78; Pearl Ward, 78; Roane Puett, 79.

Saturday, Puett, who is 15 years old, defeated John Pipes of Big Spring (a city champion), 2-up. Puett birdied the last hole.

WASHINGTON—Allie Reynolds came up with his best game of the season Saturday for the New York Yankees, a 6-0, three hit triumph over tail-end Washington. The victory was Reynolds' fourteenth.

The score: R. H. E. New York 6 0 0 0 0-3 3 0 Washington 0 0 0 0 0-0 3 3 Reynolds and Silveira; Scarborough, Calvert and Early.

Edwin (Duke) Snider of the Brooklyn Dodgers has hit at least one home run in every National League park this season.

Coe Blasts Rufus King To Win U. S. Amateur Crown

ROCHESTER, N. Y. —(AP)—Charles Coe, with all the solemnity of a cigar store Indian, crushed his care-free Texas neighbor, Rufus King of Wichita Falls, 11 and 10 Saturday to become the amateur golf king of the U.S.

Coe, a native of Ardmore, Okla., but now an insurance broker in Oklahoma City, thus takes the title into the Southwest for the first time since the meet was established in 1895.

The defeat was the most lopsided since C. B. MacDonald routed C. E. Sands 12 and 11 in the inaugural tourney in 1895 and was accomplished before the biggest galleries since World War II.

At 25, Coe is the youngest man to wear the crown since Willie Turnesa took it as a 24-year-old back in 1938.

Different Personalities
Just as their personalities differed, so did the golf of the two contestants for the crown Turnesa vacated Friday by losing to the clowning King. Coe's game was precise, King's friendly.

Coe—poised, impassive and mercileas—levelled with all his superb equipment in the afternoon after building a five-up advantage on the apple-cheeked King in the morning's 18-hole round.

The champion lowers six feet, one inch. He weighs only 135 pounds. He was so tired Saturday morning, after the week-long marathon on the 6,800-yard east/course of the Oak Hill Country Club, he stayed in bed until the last minute and passed all chances for practice swings.

Completely cold, he almost lost the first and did lose the third hole. King was one up as the two led the gallery to the fourth tee. It was the only time in the entire match he was ahead.

Coe evened the count on the next hole and on the seventh started the series of four straight victories that about decided the title.

Coe won the final hole of the morning round and then opened the afternoon session by taking the first five. King conceded at the twenty-sixth.

SPORTSLANTS

The Midland Indian Pennant Fund is moving along now better than it did in the first week but more momentum is needed.

The decision of the Midland Jay-Cees to sponsor the drive for the fund is going to be a great help. The Jay-Cee Sports Committee will draft plans to intensify the drive early this week.

Pans have been kicking in at the ball park each night since the "Wishing Well" has been placed at the entrance. Some \$26 was contributed in two nights.

The Reporter-Telegram came through with a \$28 donation Saturday in the first of the larger contributions.

Phillips Electric Company has pledged a donation and several others are expected to deliver this week.

At present, Sports Slants is receiving the money for the fund. It will be deposited in the bank as it comes.

The Pennant Fund is one of the most worthy moves in sports each season.

Pans came through in fine style last season and gave enough for each player to receive \$100 from the fund. It is hoped the same may be accomplished this year.

The boys deserve it. They make a living in Class D baseball but that's all.

If it hadn't been for the pennant money last year, some of the players would have been forced to hitchhike home. As it was, they had money for their fare.

Midland always has taken care of its own. We know the ball players will be taken care of again this year.

Johnny Rhoden, vice president of the Midland Jay-Cees, has advised us

Black Indians Set For Two Tilts Here
The Midland Black Indians are slated to play baseball games in Indian Park both Sunday and Monday.

The Pecos Eagles will furnish the opposition at 3:30 p. m. Sunday. John Hall will be on the mound for Midland.

A Labor Day tilt between the Black Indians and the Odessa Black Oilers is scheduled at 3:30 p. m. Monday. Harry Dooley will do the toasting.

Phil Rizotte of the Yankees enjoyed his best season as a shortstop last season. He made only 17 errors in 128 games for an average of .973.

Ann Martin Highest Shooter In West Texas Open

San Antonio Lady Champ Annexes High Overall Title

Mrs. Ann Martin of San Antonio, national divisional skeet shooting champion, came through with flying colors in the Third Annual West Texas Open Skeet Tournament here Saturday. Her list of trophies and honors won is long and they are topped with the all important High Overall Championship. Mrs. Martin missed only 15 birds in 500, shooting with the .410, 20 and 12 gauge shotguns, to beat out runner-up Mickey Michaels of Galveston for the overall title Saturday. She also won the women's title with a 198 score.

She isn't through yet, either. She goes against Michaels and George Glass, Jr., in a shootoff for the 20-gauge championship and against Michaels and Wright Cowden of Midland in a shootoff for the runner-up spot in the all-bore event, at 1:30 p. m. Sunday. D. W. Conway of Clint won the all-bore with a 199 Saturday.

Mrs. Martin started the shoot by setting a world record for women in the sub-small (410 gauge) event on opening day Thursday. She has been equally great throughout the shoot.

She moved into a tie for the 20-gauge title by blasting 99 of 100 birds Friday and duplicating the scores of Glass, Jr., and Michaels, the national 20-gauge champion. The chips go down plenty Sunday afternoon in the shootoffs. That'll be it for all the shooters left in the meet. Everything else has been completed.

A handicap shoot will be held Sunday morning. The two-man team event ended in a tie Saturday, also, and a shoot-off will be necessary to determine the winner. The Galveston team of Bill Eggers and Mickey Michaels is tied with a Midland team, Wright Cowden knocked down 198 birds to clinch one spot on the Midland two-man team. The other spot will be decided in a shootoff between George Glass, Jr., and George Glass, Sr., and R. K. White. All finished with 197's. When the second man is determined, he will join Cowden to contest the Galveston team.

Even the professionals must shoot off for the Industrial Division title. Jack Garrett of Remington Peters goes against H. C. Armstrong of Western Winchester in the professional all-bore shootoff. Both posted 194's Saturday.

The Glass, Sr., and Glass, Jr., father and son team won this event Saturday with a total score of 394. Both had 197's.

Runnerup to the Glass team was the team of Fred Alford, Sr., and Fred Alford, Jr., of Dallas. They fired a 386.

The Midland five-man team came through with some hot shooting to compile a score of 980 out of a possible 1,000, to take the championship. Shooting on the team were Wright Cowden, George Glass, Sr., George Glass, Jr., R. K. White and Bill Epley.

The Lubbock team, Clyde Tatum, Joe K. Fulton, Hal Lankford, Ty Williamson and E. T. Daniels, won runnerup honors.

Jack Rogers, an eight-year-old

Texas' Split Duck Season Must Stick

WASHINGTON—(AP)—The Fish and Wildlife Service has ruled that Texas must stick to her original proposal for a split shooting season on wild ducks.

Albert M. Day, director of the service, told a reporter Saturday he had notified Texas authorities within the last few days.

Bulldog Booster Club Grows Fast

The Midland Bulldog Booster Club, official backers of the Midland Bulldogs in all sports, is growing by leaps and bounds as the result of a membership drive now in progress. The club will hold its regular weekly meeting at the high school Tuesday night.

Boosters also are promoting a drive for the sale of season reserved seat tickets to the home games of the Bulldogs. Football fans are urged to contact members of the Booster Club for the ducks.

Coch Tugboat Jones again will speak at the club meeting Tuesday night. He will report on the week's training and give a preview of the Bulldogs to be used against Yaletta in the season opener Friday night.

A year of increased activity has been forecast for the Booster Club by President M. A. (Red) Roberts. He said the club officials and the coaching staff are much gratified by the increase in membership and interest being shown.

The complete club membership list up to Saturday follows: M. A. Roberts, De Wayne Davis, John Scroggin, Frank Monroe, Bob Scroggin, Theo Ferguson, L. E. Evans, Clark Steinberger, Russell Cotton, Dan R. Carter, R. L. Wood, Dave Henderson, H. W. Coker, Lee Thomas, Joe Shell, Delbert Downing, Frosty Barnett.

R. D. Scroggin, Ray Howard, Bill Collins, Don Sadler, George Glass, James Allison, Harlan Howell, Dr. R. D. Spencer, John P. Frisberg, Roy Minear, R. M. Fielder, J. G. Sherwood O'Neal, John R. Grimland. More Members

Guy G. Vanderpool, Mike Brumbelow, Lionel Craver, Earl Burris, Ralph McCleskey, Walter Bodenman, Joseph S. Hillum, T. C. Witte, Jr., J. E. Warren, R. S. Brennan, Jr., H. J. Phillips.

Records Shattered Right and Left In National Air Races

CLEVELAND—(AP)—Husky Joe De Bona streaked home first in the Bendix Cross-Country dash Saturday to highlight a National Air Races program given entirely to record smashing.

De Bona's victory in the thirteenth running of the 2,000-mile push from Rosamond Dry Lake, Calif., was made with an average speed of 470.1 miles an hour. The record of 447.9 mph was set by Paul Mantz last year.

Bill Odom, who likes oceans and continents for his records, hung one up in his first try at closed course racing Saturday by winning the Soho trophy at an average of 388.3 mph. He exceeded Tony Le Vier's mark set in 1947 by 28 miles an hour.

Edward Crowds Tee Those two performances topped a day in which every speed record open to assault took a lacing. Even the crowd set a record. Air race officials said the 35,800 paid admissions were the greatest total for any opening day crowd since the National was begun, 20 years ago.

The fastest speed of the day in a long distance event was the 529.5 miles an hour averaged by Maj. Vernon A. Ford, of the Air Force, flying a Republic F-84 Thunderjet single engine fighter.

He led a small field of Thunderjets from Muroc, Calif., Air Base with a stop at Salina, Kan., to refuel. His elapsed time was three hours, 45 minutes, 51 seconds for the 1,993 mile trip.

The Navy established a mark in a new event, a jet fighter race from the deck of the carrier Midway. Lt. Dan Laird of Loomis, Calif., led his team in with an average of 548.5 mph for the 428-mile dash.

Giants Jolt Bums' Pennant Ambitions

NEW YORK—(AP)—Lefty Monte Kennedy threw a monkey wrench into the pennant ambitions of the Dodgers Saturday as he pitched the New York Giants to a 6-3 triumph over Brooklyn.

Kennedy granted nine singles, walked one and didn't strike out a batter. His mates were his worst enemies as they came up with four errors which led to two Brooklyn runs.

The Giants jumped on Starter Jack Banta for four runs in the first three innings and added two more in the seventh at the expense of Erv Falcha.

The score: R. H. E. Brooklyn 001 001 010—3 9 2 New York 121 000 20x—6 8 4 Banta, Erskine, Pallos and Campanella; Kennedy and Westrum.

The national singles tennis championship will be staged over the Forest Hills courts, August 28-September 5.

Polio Insurance 2 Years Coverage up to \$5,000 per person Costs just \$10 for the entire family

KEY & WILSON INSURANCE AGENCY 112 W. Wall Ph. 3305 or 3306

He's In The Clear—

Charles Crowley, Bulldog halfback, moves up field for a nice gain here. The boy about to throw a block on three of the opposition is L. C. Thomas. Jimmy O'Neal, with nose guard, is the man moving in for tackle. Bob Wood is moving up behind O'Neal. Scenes like this are common occurrence at Memorial Stadium, where the Bulldogs are going through two drills daily in preparation for the 1949 season.

Bulldog B Team Points For Season Opener In Workouts

Coach Red Rutledge, after looking at his Midland High School B Bulldogs in workouts for three weeks, says he has some of the finest material he has ever coached. That means a lot to football in Midland since most of the B squad boys are sophomores and will be moving up for three years of duty with the A team.

Rutledge and Coach Joe Akins have been working the B Bulldogs in a morning session each day since training opened August 15. They will play a 10-game schedule and are pointing toward the opener against Big Lake at Big Lake September 9.

Rutledge is especially pleased with the showing of his backfield. Dan Black, a 155-pound power-runner, is ticketed for the fullback slot this season. Much is expected of him as a yardage gainer and a scoring threat.

James McCandless, a sophomore, also is running at fullback. Jimmy Adams, another fine prospect, L. holding down a wingback spot and will be an offensive help with his blocking.

Passers Show Form Bill Grissett, a junior transfer, and Sophomore Harold Hensley will handle the passing chores for the B team. Grissett is a lefty which fits in perfectly for some of the pass plays being introduced.

Larry Lynn appears to be the break-away threat. He has speed now and is gaining more all the time. He runs from various backfield positions.

Robert Melton and Gaylon Strickland, both sophomores, are slated for blocking back posts.

The line has shown up good in workouts and will present a solid forward wall to the opponent. A good stock of hefty tackles and guards are on hand.

Guy Vanderpool, 200. Bill Laverty, 180. Don Frazier, all juniors and Sophomore Mark McKinsey head the list of tackle candidates.

Al Scroggins, one of the toughest little boys to be found anywhere, is

Tigers Score Early To Beat Chicago Sox

DETROIT—(AP)—The Detroit Tigers pushed over four runs in a big first inning and went on to defeat the Chicago White Sox Saturday 5 to 3 for their second straight victory. Vic Wertz of the Tigers got his nineteenth homer in the fifth inning after John Ostrowski had hit a four-bagger for Chicago in the second.

The score: R. H. E. Chicago 010 011 000—3 7 1 Detroit 400 010 000—5 9 0 Judson, Wight and Wheeler; Malone; Gray, White and Robinson.

Cincinnati pitcher Eddie Brant was the Pacific Coast League's strikeout king in 1946 when he was 21 years old.

DE SHANNON'S CONDITION IS MUCH IMPROVED The condition of Dr. J. O. Shannon, who returned to his home here last week after undergoing treatment in a Temple hospital, was reported Saturday to be "much improved." Although he will be confined to his residence for about two weeks, he is receiving visitors.

Bulldogs Battle Andrews In Hard Scrimmage Here

The Midland Bulldogs met their toughest scrimmage opposition of the training season in the Andrews Mustangs as they went through two hours of head knocking here Saturday afternoon. The Mustangs presented one of the toughest lines and the fastest all-around backfield we have seen this year.

Running from a T formation, Andrews used superior speed and fast ball handling to succeed against the crippled Midland team.

G. I. Madison, formerly of Stanton, is the man under for Coach Francis Tubbs and handles the passing chore. Wayne Graham, a bruising fullback with speed, comprises the most serious threat in the Andrews backfield. He is backed up by wingbacks Enoch Reed, a fine little performer, and Jack Smith.

The Midland line caught on to the movement of the T soon after the scrimmage opened and stopped the Andrews passing attack almost completely. Jackie Mobley and Dalton Byerley crashed through to nail the passer several times for big losses.

Bob Wood and Alfred Baze were tackling viciously and jarred the ball loose frequently. Baze was especially good at stacking the Andrews quick opening plays.

Red Gilmore was a standout on pass defense. He made three interceptions and broke up several others.

L. C. Thomas and Jack Burris teamed up to play a fine defensive game in the secondary.

Jerry Culp and Stan Coker were heard from when they were in the lineup.

Bob Burks, 145-pound center, played the entire game in place of Jimmy O'Neal, who was out with an injury. He moved up nicely from his linebecker position to throw all he had into a tough brand of defense.

Offensively, the Bulldogs sparkled

Sans Lace

Gussie Moran makes like a bird conditioning her gorgeous gains for women's national singles at Forest Hills. The Santa Monica beauty knocked Wimbledon dead with lace panties.

Lubbock Westerners, With Fast Backs, Heavy Line, Are District Title Threat

LUBBOCK — With 13 lettermen returning this year, the Lubbock High School Westerner team is expected to be one of the top teams in District 3-AA, but depth and reserve strength will present a strong obstacle to Coach C. R. (Pat) Patton's quest for the district crown.

In his second year with Lubbock, Coach Patton is introducing the T formation to the team for the first time, and the result of the experiment is yet to be seen.

Lack of reserves, however, presents the biggest problem. Last year every boy on the squad was lettered, and this year a complete crop of reserves will have to face the task of filling in in case of injury to an experienced grider.

In practice thus far the Westerners have distinguished themselves as a fast, aggressive team and one that will be capable of scoring from any part of the field. In defensive practices the linemen have been unable to hold the backs, however, and this will have to be worked on considerably. Defense against running and passing is very shaky.

Returning lettermen are Bobby Brown, 155; Wayne Stroud, 160; Charlie Williams, 150, and Malcolm Young, 165, in the backfield, and this foursome probably will be the main cog in the Model T attack.

All are fast boys and can maneuver quickly. Brown may not get to quarterbacking, with Stroud at left halfback, Williams at right halfback and Young at fullback.

Brown last year was one of the finest backs in the state from the single wing. He carried the ball 136 times for 1,003 yards an average of 7.4 per try, completed 27 passes for 260 yards and scored 10 touchdowns personally and passed for 100 yards.

Showing up well so far on the second team are Morris Turner at quarterback and left half, Billy Tooke at right halfback and Mack Taylor at left halfback.

Lettermen in the line include Wayne Noland, 145; Garnet Reeves, 170, and Billy Wright, 170, with previous service at end; Joe Brock, 200, and Douglas Ross, 195, at tackle; Freddie Gray, 175, Don Huffstetter, 155, and Curtis Roberts, 155, at guard; and Douglas Wience, 170, at center.

Noland and Wience have been out of the lineup for several days. Wience with a sprained ankle and Noland with a nose injury.

The squadman: Ends — Billy Wright, 170; Garnet Reeves, 170; Wayne Noland 145; Jerry Van Pelt, 175; Dean White, 165; Bobby Day, 140; and Lyndell Ross, 160.

Tackles — J. R. Bradford, 215; Joe Brock, 200; Frank Hill, 205; Sammy Modral, 225; and Douglas Ross, 195.

Guards — Weldon Cobb, 155; Ross Craig, 155; Freddie Gray, 175; Don Huffstetter, 155; Deverle Hensale, 145; Bob Newell, 170; Curtis Roberts, 155; and Dale Young, 155.

Centers — Dick Cobb, 145; Delwin Doyle, 155; Douglas Wience, 170; and Don Herriage, 160.

Backs — Bob Brown, 155; Billy Tooke, 160; Tommy Fisher, 165; Charles McCown, 140; Don Rawls, 155; Wayne Stroud, 160; Morris Turner, 155; Mack Taylor, 160; Billy Tooke, 150; Jack Weldon, 145; Charlie Williams, 150; and Malcolm Young, 165.

First World Series to draw a \$1,000,000 gate was the 1923 battle between the New York Yankees and the Giants.

The directors voted that none of the games would be carried by the home radio stations of the play-off clubs when they were playing at home.

A players' fund plan, which would split the receipts 40-30-30 among the four teams involved, was approved. The players fund will be built up from 25 cents on each dollar of the gate for the first four games of the play-offs.

The directors also agreed that the winner of the play-off would play the winner of the Rio Grande Valley League.

Mr. and Mrs. C. P. Yaden and Mrs. Vester Collins and son, 24, together, have returned from vacation visits in Colorado. Mr. and Mrs. J. L. Roach, parents of Mrs. Yaden and Mrs. Collins, remained for a longer stay. Yaden drove to Colorado a few days ago to return with Mrs. Yaden; she and the others have spent several weeks in Denver, Durango and other places in the mountains.

Poss Yeary To Conduct Rules Meet

More than 60 coaches and officials are expected to be on hand at 10 a.m. Sunday when a rules clinic opens at Hotel Scharbauer here. The clinic is sponsored by the Midland Bulldog Booster Club.

Poss Yeary is being sent here by the Southwest Coaches and Officials Association to conduct the rules interpretation session. He replaces the veteran Abb Curtis, who conducted clinics in this area in previous years.

The Booster Club will be host for a noon luncheon for visiting coaches and officials at the North Elementary School. An afternoon session will be held at the school building immediately after lunch.

Pat Murphy of Big Spring is president of the old District 3-AA Coaches and Officials Association. John Hart of Midland is head of the Midland-Odessa chapter.

All interested persons have been invited to attend both sessions of the meeting.

COURT SESSION SET

A civil session of 70th District Court will be held here Thursday, beginning at 10 a. m., with Judge Paul Moss presiding.

Stanton Buffaloes Prep For Season In New Conference

STANTON — The Stanton High School Buffaloes, 30-strong, are knocking down to hard workouts every day now in preparation for one of the toughest schedules in Class B football. The Buffs join District 5-B this season. Bronte, Coahoma, Robert Lee, Lorraine and Hermligh are the other conference members.

Coach Leo Fields and Assistant Coach Edwin Cotton are running a T formation and using R. S. Higgins, a letterman, as the man under. Whistle Lindsay, Leroy Gibson and Gerald Koonce complete the backfield.

Koonce is one of the best ball handlers on the squad and Higgins and Lindsay have speed.

B. G. Lewis, Wayne Cook and Neil Stovall are returning lettermen in the line. Cook, a bruising tackle, is a hot candidate for all-district honors.

Squadmen listed

Squadmen of last season back this year include Carl Koonce, Kenneth Hecker, Richard Rickel, Hecker, Fred Church, Alvis Fisher, Elvis Fisher, Lee Graves, Guy Eiland and Sadler Bridges.

The Buffaloes will play a 10-game schedule, seven of them on their home field. The Buffalo Stadium has undergone improvements during the summer and contract for steel stands has been let.

The season schedule follows: Sept. 16—Monahans "B" here. Sept. 23—Monument, N. M. here. Sept. 30—Coahoma, here. Oct. 7—Lorraine, here. Oct. 14—Bronte, here. Oct. 21—Big Spring "B" here. Oct. 28—Trent, here. Nov. 4—O'Donnell, here. Nov. 11—Robert Lee, here. Nov. 18—Hermligh, here.

Crane Gulf Oilers Enter World Meet

CRANE — The Crane Gulf Oilers, winner of five out of seven games in the recent West Texas-New Mexico Softball Tournament in El Paso, departed Saturday for Greeley, Colo., where they will enter the World Congress Softball Tournament.

The Oilers are scheduled against Toronto, Canada, in the tourney opener at 3 p. m. Monday.

Jim Paternoster, a pitcher, and Bob Collect, an infielder, were added to the roster recently.

Others in the traveling squad include Manager Darrel Havins, Red Denham, Bill Middlebrook, Neely Moore, Leroy Smith, L. E. Weak, Joe Goodwin, DePoyd, Burt Carter, Wally Watson, David Williams and Bob Harlowe.

Five times the New York Yankees and Giants have faced each other in a World Series, the last time in 1937.

Dirt, Squirt and Quirt

FARM, DAIRY AND RANCH NEWS

Showers continued in the Midland area late in the week following downpours, accompanied by high winds, in some sections of West Texas. Crop damage was said to be extensive in some sections. The moisture was most beneficial in this immediate area, and conditions continue good.

It surely was fine to wake up Friday morning to hear the water running off the roof from the early morning shower. The only thing better would have been to turn over and go back to sleep.

Sherwood O'Neal is reported to have some of the best cases ever seen in this part of West Texas on his farm just southeast of Midland. The stalks are high and higher and it is said a man of medium height could get lost pretty easy out in the commissioner's cane patch.

This column extends congratulations and best wishes to Charles Green upon his appointment as agricultural agent of Midland County. Success agency is predicted for the new agent.

It is probable there will be an increase in Midland County funds to assist farmers in carrying out approved conservation practices in 1950, according to W. E. Pigg, chairman of the county Agricultural Conservation Committee.

Congress has authorized \$285,000 for the 1950 program, as compared with \$265,000 for 1949. Pigg explained that this money is used to assist farmers in carrying out soil and water conservation practices on the individual farms. Practices for which payments are available are left largely to the county committee, which has the responsibility of deciding, within the limits of the county allocation, the amount available for each farmer.

The chairman called attention to the fact that county committees will be named in elections to be held probably in December. Farmers participating in Production and Marketing Administration programs are eligible to vote in the elections.

Bill Tripp of the Tripp and Whitener Farms in the irrigated center district near Big Lake, south of McCombs, was a Midland visitor one day last week. Tripp says he has about 1,000 acres in cotton which will average two bales to the acre. Tripp says the one cotton gin in the county sector will be mightily busy this fall.

He is a firm believer in permanent pasture improvements and now is working on a 30-acre project.

Ernest Ramm, Muleshoe; Kenneth Gregg, Plainview; and John A. Smith, Snyder, outstanding boys in Future Farmers of America activities in Texas, have been certified as winners of Santa Fe Railway awards by Robert A. Manire, state supervisor, Vocational Agriculture, at Austin.

Ramm and Smith are candidates for the American Farmer Degree and Gregg is a state officer of the Texas Future Farmers of America.

Historic, conservative Charleston, S. C., will look like a Western town the last week in September when the first full-fledged Wild West Rodeo ever staged in South Carolina comes to Charleston for the American Frontier Centennial.

Lewis Blackman's Diamond B outfit is scheduled for nightly performances September 28, 29 and 30, and a Saturday matinee on October 1, in Charleston's recently completed 25,000-capacity stadium. Bull riders, calf ropers, bronco riders, trick horsemen, bull doggers will perform, and cowboys and cowgirls mounted on especially bred Quarter horses will display rare horsemanship in contests with wild Brahman bulls.

The American Brahman Centennial, marking the 100th anniversary of the first Brahman cattle in America, is being held for the purpose of stimulating increased cattle production, regardless of breed, in the South.

Special entertainment features, besides the rodeo, are being planned for the city of Charleston prepares to be host of 3,000 cattlemen and their wives. As an official welcome, the city will stage a pageant of the leading of the first Brahman, with descendants of Dr. James Bolton Davis taking part in re-enactment.

Now is the time to start getting that milk price for the locker plant this fall, says Roy W. Snyder, extension meats specialist of Texas A&M College. He says tender, juicy and tasteful beef will go into the locker box if the calf you butchered is fat.

Snyder adds that a thin animal produces meat that is dry, tough and stringy but a fat calf furnishes the kind of meat everyone likes to eat. There is fat stored with the lean muscle and that is what makes a juicy steak or roast.

Snyder says the likes a calf which will weigh about 900 pounds on foot and is fat. It will dress out about 370 pounds—135 pounds to the side and the rest in bone, heart, lungs, tongue and liver. It is easy, he says, to cut it into any size family.

Commercial hatcheries in Texas produced 2,400,000 chicks during July according to the monthly report of the Bureau of Agricultural Economics. This was 29 per cent more than the 1,900,000 output during July, 1949, and 38 per cent above average. Even though hatcher prices were sharply the last week in July, hatcheries still placed orders during July that were substantially above placements a year earlier. Approximately 80 per cent of the July, 1949, hatch went to broiler production compared with about 70 per cent of the smaller July, 1948, hatch going into broiler houses.

Chick output during the first seven months of 1949 totaled 10,850,000, or 23 per cent more than the 41,370,000 chicks produced during the same period a year earlier.

The 1950 Maid of Cotton contest opened Thursday. Announcement of the contest by the National Cotton Council marked the beginning of an 18-state search to find King Cotton's twelfth good will and fashion ambassador.

The 1950 Maid of Cotton will succeed Sue Howell of Bakersfield, Calif., who in 1949 carried cotton's message to 30 cities in the United States, and over two oceans to England, France, and Honolulu.

More than 35,000 miles of interstate travel, an all-cotton designer wardrobe slated to be the year's top collection of fashion, and many other thrills are in store for the lucky young lady named to the title Memphis, Tenn., early in January.

Any single girl who is between the ages of 19 and 25, at least five feet five inches tall, and a native of a cotton-growing state may enter the Maid of Cotton contest. Places equal emphasis on background, personality, and appearance.

The 1950 Maid of Cotton will take her place in cotton's hall of fame with an impressive procession of brunets, blondes and redheads whose service to the industry have contributed significantly to its progress for more than a decade.

Preceding Maids have been Alice Hall of Memphis, 1939; Mary Nell Porter of Memphis, 1940; Alice Earle Besley of LaGrange, Tenn., 1941; Camille Anderson of Memphis, 1942; Bonnie Beth Byler of Lepanto, Ark., 1943; Linwood Glasard of Donaldsonville, La., 1944; Jennie Cole of West Point, Miss., 1945; Gwen Barnwell of Gastonia, N. C., 1946; Hilma Seay of Memphis, 1947; Matilda Lind of Fort Worth, 1948; and Sue Howell of Bakersfield, Calif., 1949.

With an estimated meat output of more than 1,347,000,000 pounds on its farm and ranches last year, Texas ranked third among all states in the production of this food product, according to a statement just issued by the National Live Stock and Meat Board.

The importance of Texas as a meat-producing state also was shown by the fact that the cash sales of cattle, hogs and sheep exceeded \$584,000,000, or an average of 1.8 million dollars per day.

Texas cattle ranked first among meat animals in the state's farm revenue, total cattle sales being \$473,412,000. The sale of cattle in 1948 accounted for about 81 cents of every Texas meat animal dollar.

The nation's production of meat last year totaled 21 billion, 541 million pounds according to the board. The average American ate 146.1 pounds of meat in 1948, including 63.4 pounds of beef, 9.4 pounds of veal, 58.2 pounds of pork and 8.0 pounds of lamb.

About 20 pounds more meat was consumed per person in 1948 than in the average year of the pre-war period, 1935-39.

Kruger and his partners held the lease contract on the north end of Lake Miller, an arm of Trinity Bay, where they believe Jean Lafitte's ship, "The Pride," may be sunk.

He and Leo T. Behne, Jr., of Houston had formed the K&B Exploration Company for the sole purpose of finding the buried treasure. Through a newspaper ad they got in touch with two men who knew of the sunken ship in Lake Miller and believed it to be the Pirate Lafitte's gold-laden schooner. The four traded out some difficulties over contracts recently and had said they would be ready next week to start work.

Special entertainment features, besides the rodeo, are being planned for the city of Charleston prepares to be host of 3,000 cattlemen and their wives. As an official welcome, the city will stage a pageant of the leading of the first Brahman, with descendants of Dr. James Bolton Davis taking part in re-enactment.

Now is the time to start getting that milk price for the locker plant this fall, says Roy W. Snyder, extension meats specialist of Texas A&M College. He says tender, juicy and tasteful beef will go into the locker box if the calf you butchered is fat.

This was 29 per cent more than the 1,900,000 output during July, 1949, and 38 per cent above average. Even though hatcher prices were sharply the last week in July, hatcheries still placed orders during July that were substantially above placements a year earlier. Approximately 80 per cent of the July, 1949, hatch went to broiler production compared with about 70 per cent of the smaller July, 1948, hatch going into broiler houses.

Commercial hatcheries in Texas produced 2,400,000 chicks during July according to the monthly report of the Bureau of Agricultural Economics. This was 29 per cent more than the 1,900,000 output during July, 1949, and 38 per cent above average. Even though hatcher prices were sharply the last week in July, hatcheries still placed orders during July that were substantially above placements a year earlier. Approximately 80 per cent of the July, 1949, hatch went to broiler production compared with about 70 per cent of the smaller July, 1948, hatch going into broiler houses.

Plans October Wedding

Marjorie McKee's engagement to Cletas Hines was announced at a mid-week tea when Mrs. R. C. Crabb and her daughter, Helen, entertained in their home. October 1 was revealed as the wedding date. The bride-to-be is the daughter of Mr. and Mrs. Newton David McKee and Hines is the son of Mr. and Mrs. C. R. Hines. After their evening wedding in the First Presbyterian Church, the couple will reside in Midland.

Midland Pair Wed In Carlsbad Church

Lillie Mae Stovall of Midland, daughter of Mr. and Mrs. A. K. Graham of San Angelo, was married Saturday evening to B. H. Van Horn, Jr., of Midland, son of Mrs.

Paintings, Ceramics Will Be Exhibited During County Fair

An exhibit of paintings and ceramics by Midland County artists will be shown this year in the Midland County Fair, sponsored by the Palmetto Club, it was announced Saturday by club officers. They invite all art hobbyists and students to enter work in the exhibit so fair visitors may see and enjoy the creative art work done in the county the last year. Rules of the exhibit provide that all work displayed must have been executed in the last 12 months, that the work be original and not copied from another picture, that pictures be limited in size to 18 by 24 inches or smaller, that paintings must be framed, and that all entries be taken to the City-County Auditorium by October 6. Prizes for first, second and third places will be awarded in the ceramics division. In painting, three prizes will be awarded in each of three classifications: portraits, still life and landscape, each in any medium. Information concerning the exhibit of paintings may be obtained from Mrs. W. C. Wilcox, telephone No. 2377, or Mrs. G. D. Fuller, telephone No. 214, while inquiries about the ceramics exhibit may be made to Mrs. Ralph Barron, telephone No. 14.

John Conners of Houston. The wedding was in Carlsbad, N. M., at 6 p.m. in the home of the Rev. Dan-do, pastor of the Presbyterian Church, who read the double-ring ceremony.

Reta Beights and Aileen Maxwell of Midland were the bride's attendants and Gene Purvis of Midland was best man.

The bride wore a pale pink wool jersey dress with rhinestone trimming around the high neck. It had cap sleeves, a fitted bodice and full skirt. Her accessories were brown and she wore a pale pink feather hat with brown feather trim.

Employed in Midland Miss Beights wore a blue faille dress with cocoa brown accessories and Miss Maxwell a beige suit with dark brown accessories.

Mrs. VanHorn is a graduate of San Angelo High School and of a business college in San Angelo. She has been living in Midland several years and is at present employed by Ralph Lowe. She is a member of Zl Theta chapter of Beta Sigma Phi sorority.

VanHorn was graduated from high school in Tulsa, Okla., and is office manager for Ralph Lowe and W. H. Black Drilling Company. He is a member of the Optimist Club. After Tuesday the couple will be at home at 702 West Kansas Street.

CULBERTSONS HAVE VISITORS Mr. and Mrs. E. A. Culbertson and Shirley have had as their guests Francis Young of Denver, Colo., Jean Carlisle of Evanston, Ill., Bob Balderson of Philadelphia, Pa., and Charles Herringer and Marion Herringer of Newport, Ky.

Cast Of 26 Is Completed For 'Sister Eileen'

A cast which will introduce numerous new-comers to Midland Community Theater audiences has been completed for "My Sister Eileen," a comedy which will be presented September 21-26 as the first Fall production.

The casting committee, of which Joe Koegler is chairman, spent more time than usual and conducted extra tryouts to fill all the 26 roles. Many of the parts are short, scarcely more than bits, but each is important to the story of two middlewestern girls who come to New York and encounter all sorts of unusual persons in their Greenwich Village apartment.

Playing the sisters will be Dorothy Smith as Ruth and Billie Love as Eileen. Their explosive landlord who has ambitions as a painter, Mr. Appopolous, will be enacted by Malcolm Gibson; The Wreck, a professional football player, by Stan Shaeffer; Helen Wade, his attractive friend, by Louise Harless; and Robert Baker, a magazine editor, by Fred Carroll.

Charles Berg will appear as the husky janitor, Jensen; Harry Harrison and Randall Gibson as street urchins; Loyd McSpadden and Bill Adam as curious passersby; Vic Chancellor as Frank Lippencott, ambitious young drug store manager; Lincoln Warren as Chic Clark, a reporter; Olga Frank as Mrs. Wade, Helen's mother.

Virginia Bedeaux will play Violet, the previous tenant of the apartment; Bob Surrey, a young man who calls on her; Jack Menish, a Cossack who also thinks Violet still has the apartment; Charles Hughes, Walter Sherwood, father of Ruth and Eileen; Ruth Shaw, a prospective tenant; Bob Sadler, Lomigan, the policeman.

In addition the action calls for six Brazilian cadets, who will be played by Frank Waddell, Clyde Conley, Jean Ingram, LaRue Donnell, and Surrey and Menish doubling their roles. Street vendors, passersby and a sand-hog also will appear as walk-on characters.

Dates originally announced for the play have been extended to include a Sunday matinee as well as four night performances. In addition, a preliminary performance for negro residents will be given, in Community Theater custom.

The Yucca Garden Club will sponsor this production and its members will conduct the advance sale of tickets.

Marriage Is Read In Study

Married in a simple ceremony in the minister's study at the Asbury Methodist Church, Mr. and Mrs. W. B. Stockton, Jr., left Friday on a trip through Midwestern states, and will return in two weeks to make their home here.

Mrs. Stockton was before the marriage Frances Jordan of Midland, daughter of Mr. and Mrs. A. D. Jordan of Benton, Ill. The wedding trip will include a visit with her parents. Stockton is the son of Mr. and Mrs. W. B. Stockton, Sr., of Dublin, Texas.

The Rev. J. Lennox Hester, pastor of the Asbury Church, read the double-ring ceremony in his study at mid-morning Friday. Attending the couple were Mrs. Wayne Butts of Monahan, matron of honor, and Bill Leavitt, Jr., best man.

A navy blue suit with white and navy accessories made the bride's wedding costume. She wore an orchid corsage. Mrs. Butts wore a Summer gown with a corsage of gardenias.

To Reside Here Mr. and Mrs. Stockton left immediately after the ceremony. They are to reside at 308 East Illinois Street.

She attended high school in Olney, and has been employed the last year as a secretary by the Mutual Benefit Health and Accident Association. Stockton, a Midland resident for a year and a half, is employed with the Schlumberger Well Surveying Corporation. He attended Dublin University, and served three years in the Air Force during World War II.

First Meeting Date Set By Lion Tamers

A meeting of the Lion Tamers Club, originally scheduled September 7 to begin a new season, has been postponed until October 5, Mrs. L. V. Basham, president, has announced.

The change in date was made because the September meeting would fall during the first-of-school week when most of the members will be busy. Mrs. Basham explained that the Lion Tamers Club is made up of Lions Club members' wives, and meets regularly twice a month except during the Summer.

Senisa Garden Club, Newest In City, Ready For Season

Ready for the first Fall meeting of the Senisa Garden Club next Wednesday, yearbooks for 1949-50 were completed last week and will be distributed to members at the start of the club's first full year.

The Senisa Club was organized last Winter and previously has not had a yearbook. Its first September meeting will be in the home of Mrs. Dell Taylor, 716 Nobles. Mrs. John Younger, a member, will be leader of the program on "How To Pep Up A Tired Lawn."

Because it was launched so late last season, the club did not choose new officers for this year. Ed Shakely, elected president at the start will serve through the term.

Officers with her are Mrs. Charles Sherwood and Mrs. Cal Glass, vice-presidents; Mrs. W. P. Goodman, recording secretary; Mrs. Younger, corresponding secretary; Mrs. Hastings Pannill, treasurer; Mrs. L. W. Sager, historian; and Mrs. John E. Reid, parliamentarian.

On the yearbook committee are Mrs. Ted Thompson, Mrs. Taylor, Mrs. Joe Chalmers, Mrs. I. W. Hynd. They prepared the yearbooks, which have covers decorated with a drawing in color of the desert sage for which the club is named.

Other standing committees are: Members—Mrs. W. T. Harris, Mrs. David Breth, Mrs. Ernest Sidwell and Mrs. W. O. Stallings. Program—Mrs. Cal Glass, Mrs. F. N. Littlejohn and Mrs. G. C. Hughes. Plant and seed exchange—Mrs. H. M. Glass, Mrs. N. J. Dilday and Mrs. Henry Spangler. Telephone—Mrs. E. M. Marvin and Mrs. Marvin T. Bryant. Entertainment—Mrs. Younger, Mrs. Reid, Mrs. Sherwood and Mrs. Richard Hinkle. Civic—Mrs. J. L. Metcalfe, Mrs. L. Johnson, Mrs. Sager and Mrs. John Stillely. Program Subjects Chosen The program committee arranged the course of study to be followed by the club through the season. (Continued On Page Eight)

Engagement Is Announced

Billy Jean Jones will be married on December 21 to Bruce Griffiths of New York City, her parents, Mr. and Mrs. Jack C. Jones, have announced. Plans for the wedding, which will be solemnized in Houston, were revealed at a tea in the Jones home Thursday afternoon. Miss Jones is to receive her B. A. degree from Baylor University in November, and Griffiths was a Summer graduate there. He plans to enroll in Yale University for graduate study, majoring in drama and radio.

Place And Date Announced For Beta Sigma Phi's Style Show

The place and a definite date for the annual Fall Style Show sponsored by Beta Sigma Phi members of Midland have been selected and the theme, "Models for 1950," chosen by show committee chairman.

Fashions looking forward to 1950 will be presented on September 24 in the ballroom and on the mezzanine of the Scharbauer Hotel, and tea will be served in the Private Dining Room. Bridge games will be arranged for spectators who wish to play after the style revue.

Because the models will parade through the ballroom and mezzanine, remarks by a commentator will not be used to introduce them. Rather, palette-shaped placards will carry out the artist models theme and give information about the costume.

Models Are Listed Mrs. Noel D. Cason, chairman of models, has announced a partial list of the Beta Sigma Phi members who will show the costumes from Midland stores.

It includes Mrs. A. R. Ayles, Reta Beights, Barbara Brannen, Betty Cooke, Mrs. W. S. Kotch, Jr., Mrs. Jack Stackpole, Jackie Pounds, Dell Steele, Mrs. J. W. Thomas, Jr., Sara Johnson, Billie Walker, Aileen Maxwell, Mrs. James Walker, Mrs. J. W. Skrabanek, Clyde Parnelly, Mrs. Clyde Pederson, Mrs. George Woody, Mrs. Charles Patterson and Mrs. Cason.

Carolyn Oates is general chairman of show arrangements, and all three of the Midland chapters of Beta Sigma Phi are cooperating in the show. It is an annual event in the sorority, to raise funds for charity and welfare projects. Co-Chairmen Named Assisting Miss Oates as co-chairmen are Mrs. Ayles and Mrs. Bryan Denson. Arrangements for housing the show have been made by Mrs. Lloyd Zellner, Mrs. Thomas and Mrs. Alton Brown. Mrs. W. G. Keeler, Mrs. John W. Rhoden, Mrs. Art Dimney and Mrs. Leroy Butler are contacting merchants and making the plans with them for the merchandise to be displayed.

Woman's Club Will Present Widely-Known Texas Reviewer

Placards announcing September 22 as the date for Evelyn Oppenheimer's review of "Twilight on the Floods," novel by Marguerite Steen, have been distributed by Midland Woman's Club members who are sponsoring this event in Midland.

Miss Oppenheimer is the dean of Southwestern book reviewers. This is the annual book review sponsored by the club, its chief financial project of the year. It will be presented at 10 a.m. in the Tower Theater.

Tickets will be on sale through member clubs in the Woman's Club, by individual members and downtown at the Book Stall. Ticket sales and other arrangements are in charge of the Ways and Means Committee, which includes Mrs. C. S. Britt, Mrs. Lamar Lunt and Mrs. W. C. Kimball.

Summer Reading Contest Winners Named

Pony Express contest winners and plans for a party for all contestants to be held next Saturday, from 3 to 5 p.m., were announced Saturday by Mrs. Lucile Carroll, librarian. The Pony Express Contest has been a Summer reading program sponsored by the Midland County Library.

In the elementary school division Jimmy Jones of West Elementary, reporting 165 books, and Vicki Anderson of North Elementary, 80 books, were the winners. Charles Fredrick with 114 books and Simone Walker, 86 books, are the winners for the junior high school division. Winners at the Dunbar Branch were Alva Mae Lee for the girls with 72 books and Herman Padua, 59 books.

Honorable mention readers include Landis Legge, South Elementary, 66 books; Pamela Miles, South Elementary, 55; H. C. Feemster, West Elementary, 66; Lena Marie Price, Greenwood School, 57; Oona Reyes, Latin American School, 12; Robbie Black, Dunbar Branch, 60; and Nathaniel Harris, Dunbar Branch, 27.

Party in Children's Room Prizes, games and refreshments have been planned for the end-of-the-ride party, which will be held in the Children's Room of the Midland County Library.

Mrs. E. Heald, Jr., Mrs. J. M. Conner and Helen Cartwright conducted the contest at the main library.

Pyrcantha Club To Begin Year Tuesday

Starting the new club year for the Pyrcantha Garden Club, members and their husbands will be entertained Tuesday night in the home of Mrs. Harry S. Murray on the old Andrews Highway. The party will begin at 8 p.m.

Party arrangements are being made by the entertainment committee, Mrs. E. V. Mitchell, chairman, Mrs. Brutus Hanks, Mrs. H. W. Stoltenberg and Mrs. C. M. Chase.

The Pyrcantha Club is one of the newer garden clubs of Midland, and is facing its first full season. It was organized in January, 1949, with Mrs. Chase as the first president. Mrs. E. W. Cowden succeeded her for this year's administration.

MEETING POSTPONED The Monday night meeting of the Past Matrons and Past Patrons Club of the Order of the Eastern Star has been postponed until September 12 because of Labor Day.

IN SAN ANGELO HOSPITAL

Mrs. J. L. Williamson is a patient in Shannon Hospital in San Angelo where she is undergoing medical treatment.

Activities Of Clubs To Begin This Week

When school bells ring here this week, students will not be the only ones summoned to return to study and work. Women's organizations which suspend or reduce their activities in vacation months accept the opening of school as the signal for getting back on schedule.

First-of-the-season meetings are scheduled through September and a few clubs do not start their programs until October, but meetings this week will launch several organizations into a busy year.

Business and Professional Women's Club members will gather Tuesday night for an introductory business session in the main studio of KCRS, after a Summer that has seen only informal outdoor entertainments since officers for this year were installed in June. Neta Stovall is the president who is to direct activities of 1949-50.

Also on Tuesday night, Beta Delta Chapter of Beta Sigma Phi will meet in the home of Mrs. Leroy Butler on East Highway 80. The other chapters of the sorority will meet Thursday night, the Xi Theta group in a regular session and the Iota Beta unit in the county library in the courthouse. In addition to starting study courses, all three chapters will discuss plans for the annual Fall Style Show which they will sponsor on September 24.

Coffee Scheduled A coffee will open the year Thursday morning for the Delta Delta Delphi Society. It will begin at 10 a.m. in the home of Mrs. Hal Peck, who was the chapter's president last year. Its first Mrs. Woodrow Campbell is her successor as president.

The Children's Service League, which has met once a month (Continued on Page 11)

Students Marry At Twilight

Two Hardin-Simmons University students who have been Summer visitors in Midland were married in a twilight ceremony Saturday in the Calvary Baptist Church. Betty Jean Snody of Olney became the bride of Gene Lake of Dallas.

Miss Snody has been a guest here in the home of her brother, Doyle Snody, and Lake has conducted a youth revival in the Calvary Church. They plan to live in Abilene and continue their studies in H-SU, where Lake will be a junior student and Mrs. Lake a sophomore.

Attendants Who stood with the couple at the candle-light altar were Saralyn Thaw, maid of honor, and David Warren of Abilene, best (Continued on Page 11)

Triantas-Pena Vows Repeated At Home Plate

Amid a setting of baseball in all its color but in a ceremony with the solemnity of the marriage vows themselves, Betty Triantas of Tuscon, Ariz., became the bride of Gus Pena of Midland Saturday evening in Indian Park just before the Midland Indian-Vernon Duster baseball game.

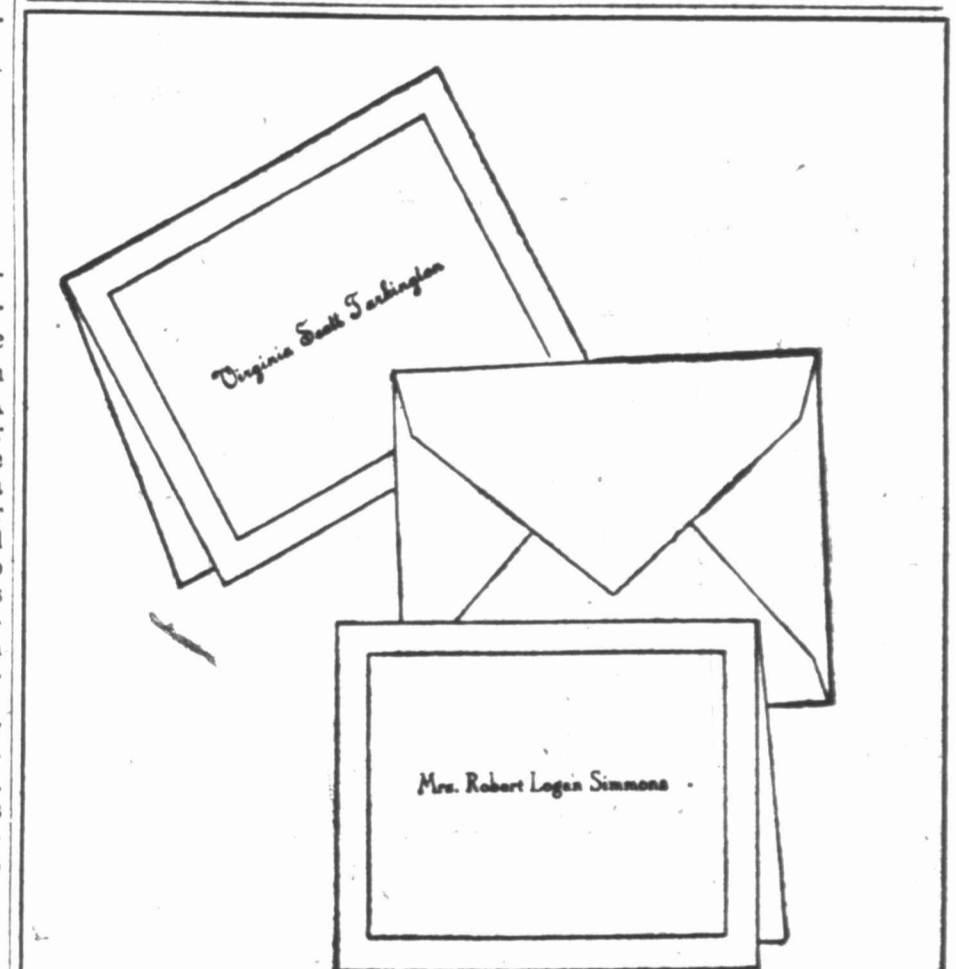

The bride is the daughter of Mrs. Dan Frederick of Tuscon, and Pena the son of Mr. and Mrs. C. Pena of Quincy, Mass. Pena has been with the Indians through this playing season.

The Rev. Vernon Yearby, pastor of the First Baptist Church, performed the double-ring ceremony at home plate of the baseball diamond.

Proceeding the ceremony the Rev. Raymond G. Hall, associate pastor of the First Baptist Church, sang "Through the Years," Youmans, accompanied by Mrs. Hall at the piano. She also played Wagner's "Bridal Chorus from 'Lohengrin'" for the processional and "Wedding March," Mendelssohn, for the recessional.

Wears Ankle-Length Dress Mrs. Kenny Peacock attended the bride as matron of honor and Harold Webb served as best man.

The bride wore a Summer wedding (Continued on page 4)

If you want clearer, whiter-looking hands, get ESOTERICA. Money back if the first jar does not bring desired results. Midland Drug Co. Walgreen Agency Drug Store

★ WE, THE WOMEN ★

Whining For Husband's Praise Is Trait Of Unhappy Wives

By NUTS MILLETT
NEA Staff Writer

Most unhappy wives seem to have one thing in common. They have husbands who don't appreciate all they do, who don't seem to realize how hard they work, who are stingy with their compliments. It's not the hard work these wives seem to mind so much. They're unhappy because they don't know how to get their husbands to show some appreciation for what they do. It would be a fine thing if all husbands were appreciative of their wives' work and all of them took the trouble to show it. But since it's easier for a woman to change her own attitude than it is for her to try to change her husband's, it seems to me these unhappy wives are overlooking the simplest solution to their problem. Why don't they just stop expecting appreciation and worrying when it isn't forthcoming? After all, a housewife can get along without appreciation the same as any other woman can do without it in her job. It's a rare employer who keeps praising his secretary for how neatly she files his letters, or tells her she's a genius because she can find the things she files for him. Yet that doesn't seem to bother the average secretary. As long as she holds her job and gets her pay check, she figures that is proof enough that she is doing her job satisfactorily. Unhappy wives will could adopt the same attitude. Perhaps Henry doesn't seem impressed with how hard his wife works and doesn't keep telling her what a manager she is. But if he hasn't strayed off the reservation and is still footing the bills, he must be reasonably satisfied with the woman

PARIS—(NEA)—The Orient, the 1920 flapper, flying kits, lassos and chicken wire—the only thing they have in common is that they all show up as influence on Paris' new fashions.

The first showings by Paris designers of their new Fall collections attracted fashion students, eager to see which way the New Look was going. But even the designers differed over current and future trends.

Pierre Balmain emphasized the Oriental motif. It showed up in his mandarin-styled coats, midcalf length lounging pajamas, and jackets. Hats, too, reflected the Chinese. With the straight-on-angle at which they're worn. Colors drew their names from the Orient—Lantern Yellow, Laquer Red, Lotus Pink, Son-of-Heaven Violet, Swallow Nest Blue.

With hems ranging between 13 and 14 inches from the floor, some skirts were full, but most were slender and tubular. Many featured hip drapery. Saahas, styled like the geisha girl's obi, wrapped the waists of many dresses. Most creations featured natural or sloping shoulders.

Necklines, for daytime wear were high, but the bodies clung closely to the figure. Balmain's suits emphasized wrist-length jackets with low lapels and a waistline that dipped in the back.

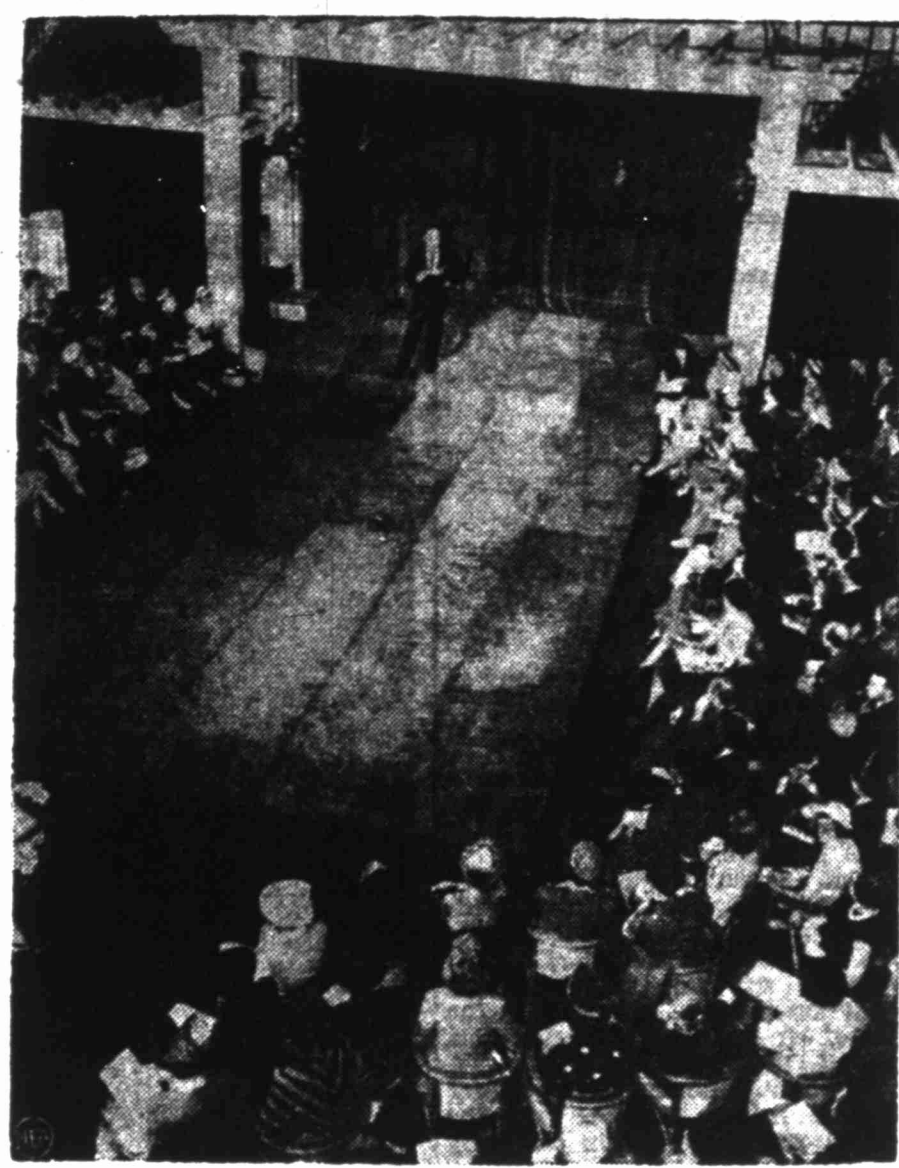

The emphasis on back interest was carried to its ultimate in evening gowns which well equip wearers to make dramatic exits.

There were frills—some shaped like shells and cornucopias—that stand well out from the torso. Although the necklines started at the neck in front, the backs were cut deeply.

Fabrics were luxurious, with many pure silk crepes, moires, brocades and a new gleaming material called satin. There were also, of course, cordurys and plain velvets.

Balmain's collection included many unusual touches, such as brown velvet pumps for town wear, spiky diamond-heeled evening shoes and gold-lined umbrella belts made out of chicken wire and tool leather.

Another designer, Marcel Rochas, concentrated his showing around a

Pierre Balmain, Parisian designer, addresses his audience in a Paris theater-restaurant he hired for the occasion, before showing them his latest fashion creations. Balmain's dresses featured the Oriental motif.

looped front hemline, which was featured for all except silk skirts. Rochas, otherwise, remained faithful to the ultra-feminine silhouette—small waist, rounded hips, and stressed bosom line—and a 13-inch hemline. Borrowing liberally from the 1920 flapper era, some of his topcoats

were unfitted and had bolster collars extending below the normal waistline. On several of his cocktail dresses, he featured the 1920-style fringe for an overskirt which draped a chemise dress of black satin. Believing that the average woman has little opportunity to attend a very formal occasion, Rochas went in for short evening dresses with

looped-up hems for general wear. His very formal gowns were daring. One was a black satin model with the skirt cascading into a train at the back. The low bodice front was trimmed with an enormous black bird of Paradise, its wide-spread wings reaching to the shoulders. The back was somewhere below the waistline.

Rochas kept black subdued, preferring such shades as Mustache Brown, Wine Red and Dragon-Ply and Bluebottle Blues. Designer Madeline Vramant launched the bias-cut "slip-dress," a modern version of the chemise frock. She called it a "second skin" which "acquires natural draped effects by the movements of the body." Because of the bias cut, it rounded the shoulders, shows an undefined break at the waistline and stresses slim hips.

Her creations favored black, followed by amethyst, green, red and yellow. For trimming, she used passementerie in the form of tassels, motifs, braids and fringe.

Nu Phi Mu Office Filled And Season's Plans Are Started

Dorothy Reising was elected vice president of the Nu Phi Mu Sorority in a business meeting in the home of the assistant advisor, La-fara Harbison, 410 North Loraine Street, Thursday night. The 200-sistered Rosemary Van-hooze, who resigned the office, Peggy Sanders was appointed chairman of the contact committee. A bake sale was scheduled for September 10. Those present included Helen White, Elizabeth Murray, Peggy Sanders, Helen Stephens, Eva Louise Haskins, Rita Livingston, Dorothy Reising and Norma Sinclair. The next meeting will be in the home of Bobbie Rodgers, 211 West Kansas Street, September 15.

Jean Desses showed the shortest-skirt, with hems ranging at high as 14 inches from the floor. He emphasized a slim silhouette. Turning his back on black, he preferred somber shades of eggplant, green, blue, and brown, especially for daytime wear. Desses showed two completely new skirt treatments, revolutionary but not easy to wear. The "lasso" skirt had the fulness hitched up off-side, back or front. The "flying kite" skirt had the fabric worked like pleated and re-pleated paper. The designer calls this treatment the triumph of asymmetry and he carried it through his bodices, which stressed the bosom line.

+Wink News+

WINK—Mrs. Revie Kegler and daughter, Angela Carol, have returned from a week vacation spent in Franklin and College Station with relatives. Mrs. W. F. Ammons, Mrs. Pat Ayers and Mrs. Ed Vaughn attended a demonstration on making aluminum trays, coasters and ash trays given by Mrs. Dinton Perrell, home demonstration agent, in her office Monday. Bowl at PLAMOR PALACE—you'll find the best equipment and congenial atmosphere. Good bowling form helps give you good figure form. Experts agree that bowling is healthful exercise. It's a good party fun, too. Why not make up a party of friends and come to Plamor Palace for an evening of fun!

What's Your Problem?—

The good mother is not necessarily the one who works hardest. You'll enjoy your children, more and they'll enjoy you if you spend more time with them instead of wearing yourself out slaving over wash tub or ironing board. School days are going to cause more laundry, too. Let RANEY'S LAUNDRY, 806 East New York, solve this wash day problem. They do wet wash and rough dry service and will pick up and deliver. Also, they have modern machines and plenty of soft water and steam to make the work easy if you choose to do your own wash.

Glorious Colors—

Spaciousness is effected with Wilton Carpets in room sizes, featured by the PERMIAN CARPET COMPANY, 306 North Main. Colors are Grand Canyon Rose, Alamo Tan, Great Lakes Blue and Shenandoah Green. Also, Administer Carpets, luxuriously textured in new light shades or rich dark tones. There are glorious colors and patterns in Wilton Broadloom—twist-weave, textured designs, and raised designs in self-tone. Also, see Gullistan for luxury and distinction.

Handsome—Is The Word—

Keep your car well-groomed. Handsome—the word for today's automobile. And it will look that way for many years if you give it proper care at the outset. Start out right for Fall. Let MACKAY MOTOR COMPANY, 200 South Loraine, take out the dents and touch up the paint—before rust sets in. Keep it looking good and you'll keep it longer. Drive in for an estimate on a repaint job.

Kromex Hostess Sets—

Give a bride a hostess set and you'll probably be her most frequently invited guest. The Kromex Tray and Fridge featured at MIDLAND HARDWARE GIFT DEPARTMENT won't tarnish. The Fridge is thoroughly insulated with fibreglass to serve the dual role of lending grace and beauty to a party occasion and keeping foods, ice cubes and liquids cool hours longer. There are also six beautifully tinted glasses making up the hostess set.

Special Sale!—

There is still time for many more Summer outings. If you haven't gotten your picnic ice box you'll be happy to know SOUTHERN ICE COMPANY is featuring a special sale on picnic ice boxes and ice cream freezers. Homemade ice cream is always a favorite treat. Why not take advantage of this special sale and get a freezer in the time to suit your family's needs. The picnic ice boxes are handy for keeping extra ice at home or for cooling beverages for parties.

Shotgun Packin' Octet— Straight-Shooting Women Are Entrants In West Texas Open

By FRANCES HAGAMAN
It still may be a man's world, but maybe women are about to take over. Even in shooting, once considered an exclusively male sport, women are keeping up with the men and, in many cases, shooting ahead of them.

Eight women are competing in the West Texas Open Skeet Shoot which opened Thursday and continues through Sunday at Midland Airport. They are Ann Martin of San Antonio, Woman's National Champion in 1948 and again this year; Mrs. D. W. Conway of Clint; Mrs. Fred Alford of Dallas; Mrs. E. L. Jenkins of Harlingen; Mrs. Pauline Amburgey and Mrs. Thelma Maxwell of Odessa; Mrs. R. Weddington of Waco, and Mrs. Thelma Brown of San Antonio.

National Champion
Mrs. Martin, who won the national championship this year with a score of 248 out of 250, broke a world's record for women here Thursday with a score of 94 out of 100 in the sub-small gauge event with a .410-gauge shot gun. The previous record was 93. Friday she tied George Glass, Jr. and Mickey Michaels of Galveston for top honors in the 20-gauge event with 99 out of 100.

Mrs. Martin, who began shooting in 1941 because she liked it and

because "my husband shot and I didn't want to be a hunting widow," is a native of San Antonio where she and her three and one-half-year-old son, Chip, now live. She attended the University of Texas and during the war taught skeet shooting to cadets at Eagle Pass Army Air Field.

During this Spring and Summer she has been to shoots in the East and South. She attended the Great Eastern meet in Connecticut the last of May, as did Mrs. Conway and Mrs. Alford, shoots in Pinehurst and Charlotte in North Carolina and an invitational meet at Sea Island, Ga.

Texas Competition Best
Mrs. Martin said she found the shooting competition in the East and South not as great as in Texas. "There are just not as many good shots up there," she added.

She also said she sees no reason why women should not shoot as well as men. It is a sport which does not require stamina, she added, and is not tiring unless 200 or 300 skeets are shot at one time.

In most shoots, Mrs. Martin said, women's scores must not be as high as men's to win most women's competitions but added that she sees no reason for this.

"I think," she said, "that when women get over the idea they can-

not shoot as well as men because they are women, there will be more women shooting and they will shoot better."

She said men do not resent having women at shoots and that persons competing in meets are better sports than in most forms of competition.

Family Pastime
Mrs. Conway stated she found that Eastern shoots did not provide the competition of those in Texas. She has been shooting about two years. Her husband also shoots and Thursday was champion of the 20-gauge event with 98 out of 100.

With the Alford, shooting is a family affair. Mrs. Alford was the first to take it up about a year ago "so I could hit more doves." Soon

her husband and 18-year-old son, Freddy, began shooting and now they are all active participants in the sport.

New Shooters
Of the eight women competing in the shoot, Mrs. Weddington and Mrs. Brown are the newest shooters. Mrs. Maxwell has been shooting about eight months and Mrs. Jenkins came the farthest to enter the meet. Mrs. Amburgey, who has been shooting about a year, is an excellent shot and is predicted to become a champion soon.

Many women bring their children to the meets and, not to be outdone, the youngsters have a sub-junior competition of their own. Friday, the sub-juniors were 10-year-old Bobbie Caudle of Odessa, 10-year-old Charles Prentiss of Fabins, Paul Davis, Jr. of Midland and eight-year-old Bill Rogers of Palestine.

Sashaway Club Adds Members And Has Dance

Fourteen new members were accepted into the Sashaway Dance Club at a meeting Friday night in the American Legion Hall. They are Mr. and Mrs. Oliver Haag, Mr. and Mrs. W. H. Hall and B. P. Matthews, George Glenn and his orchestra furnished the music.

An out-of-city guest for the dance was Helen Hodges of San Antonio, a sister of Mrs. H. L. Straghan. Other guests were Allen Watts, Mr. and Mrs. E. P. Birkhead, Mr. and Mrs. George Vanaman and Mr. and Mrs. Van Dornheim Heimer.

Members Present
Members present were Mr. and Mrs. Fred Bayless, Mr. and Mrs. Dean Corley, Mr. and Mrs. Earl Chapman, Mr. and Mrs. Max David, Mr. and Mrs. James Daugherty, Mr. and Mrs. Bob Estes, Mr. and Mrs. Tom Edrington, Mr. and Mrs. Russell Hayes, Mr. and Mrs. James Mashburn, Mr. and Mrs. Melvin McDonald, Mr. and Mrs. Matthews, Mr. and Mrs. H. L. McCormick, Mr. and Mrs. Mills, Mr. and Mrs. Roger Northup, Mr. and Mrs. Frank F. up, Mr. and Mrs. John Ruwee, Mr. and Mrs. Harry Rhodes, Mr. and Mrs. H. M. Shade, Mr. and Mrs. Straghan, Jr. and Mrs. John Sewell, Mr. and Mrs. Don Thompson, Mr. and Mrs. Ralph Troseth and Mrs. Jean Watts.

Mrs. Williams Will Start Piano Class

Mrs. H. D. Williams will open classes in piano Tuesday in her home, 901 North Main Street. She has not taught previously in Midland, during her three-year residence here, but has had 15 years teaching experience, the last in Big Spring.

Mrs. Williams studied in Peabody College, Nashville, Tenn., in the Cincinnati Conservatory and at North Texas State College as well as with private teachers. She is well known in Midland as a pianist and last year served as president of the Civic Music Club.

Strong-Brown Vows Are Repeated In Evening Ceremony

McGAMMY—Mary Louise Strong became the bride of Verle Brown in a ceremony solemnized Friday evening.

The bride was complimented with a shower in the Park Building Wednesday. Fall flowers decorated the entertaining rooms and a bride's cake decorated with miniature bride-and-groom figurines centered the table.

Wanda Duncan and Edith Sides sang "Because," D'Hardelot, before the gifts were presented by Mrs. Bill Cogley. Helen Hoffman presided at the bride's book and Mrs. C. F. Glibreath and Mrs. Sid Hoffman served.

Others in the house party included Mrs. T. A. Pauley, Mrs. Burt Williams, Mrs. Tom Edwards and Mrs. Leonard Shafer.

Approximately 30 attended.

Mark September 15 On Your Calendar, It's The Date Of Annual Policeman's Ball Here

Mark September 15 on your calendar. That is the date for the annual Policeman's Ball in Midland. This year's affair marks the seventh time for this heralded event.

Tickets are on sale. Policemen of the city's system would rather let you have one of these than traffic or parking tickets—at the moment.

Chief Jack Ellington started the publicity. He called in his boys and "laid down the law." It went something like this—"It's to your benefit, sell 'em and sell 'em some more."

The ball this year will be held at the spacious VFW Hall at Midland Air Terminal, where there is plenty

of fun space. And fun is just what the coppers say you will have aplenty! They are genial hosts. Hoyie Nix's Western Band will play. The entire proceeds go to the police department and nobody minds helping out the boys in blue. You can buy a ticket or tickets whether you attend or not. However, the boys of the force would prefer that you join in the fun.

Don't be surprised if a cop whistles you down in the near future, when you haven't done a thing any more wrong than driving 22 miles per hour on a two-way street. Apt as not he only will be offering you a ticket—to the policeman's ball.

Triantas-Pena—

(Continued from Page One)
gown of sheer white over blue, ankle-length, with a white horsehair picture hat and a white orchid corsage.

After the wedding and ball game, an informal reception was held at the Dunagan farm south of Midland.

To Reside Here
The couple will reside in Midland. They will delay their wedding trip until after the close of the baseball season, when they plan a trip to New England, including a visit with Pena's parents.

The bride formerly lived in Cleveland, Ohio, and attended schools there. Pena was educated in Quincy schools and in the University of Illinois and the University of Arizona. He is a veteran of three years' service in the United States Navy.

LOST and FOUND

Lost: A dry, parched skin that was making her look old beyond her years. **Found:** Endocrine Hormone Cream, the scientific face cream that has helped so many women regain a smoother, firmer, younger-looking skin. Not a cosmetic camouflage. Endocrine works beneath the surface to help offset certain causes of ageing and dryness of the skin. Many report flattering benefits within 30 days. Try it. \$3.50 plus tax at

CAMERON'S PHARMACY

A Budget Collection

Clothes designed to add style to a college wardrobe without subtracting much from the budget are the contribution of St. Louis dress designers.

A plaid neckerchief and pleated skirt unite to make a sweater-dress a smart fashion for school (above).

Black and white checked sharkskin tailors a new coat-dress (center right) with shirtband collar, tie and saddle pockets.

A gray and gold plaid skirt and weskit are ensembled with a gold wool blouse (right).

By EPSIE KINARD
NEA Fashion Editor

NEW YORK—So that Pop can tighten the reins on his runaway dollar, St. Louis designers are giving his school-girl daughter a lot of style for a little money. What takes the budget look off of these Fall fashions is smart design, eye-smacking colors, snappy styling. The design of the simplest woolen dress is calculated to make a girl's pulse flutter. There's one dress, for example, glorified to its last tassel of fringe by a bold

plaid neckerchief knotted at the neckline of its sweater-top blouse. This solid-color blouse tucks into a pleated skirt of matching plaid. Another fashion which aims to ease Pop's pains when back-to-school bills pour in is the coat-dress that goes fresh to campuses as a new co-ed style. Typical styling of one of black and white checked rayon sharkskin features a tiny shirtband collar, a row of black buttons, a necktie and big saddle pockets. The weskit which helps to turn a blouse and skirt into an outfit also goes to school with St. Louis designers' blessings. One woolen plaid weskit takes a matching plaid skirt. This outfit of gold and gray plaid is smartly ensembled with a gold woolen blouse for which buttons and bows are used to point up its elegance.

Rebecca Frantz Honored At Party

Rebecca Mae Frantz was the honoree Friday afternoon at a birthday party when her mother, Mrs. Ronald Frantz, was hostess. Rebecca was three years old. The children enjoyed games and birthday refreshments.

Guests were Lynn and Marshal Whitmire, Dickie Nelson, Meredith Nipp, Zeral, Patricia and Dianne Barber, Bill George, Judy and Marvin McReynolds, Barbara June and Tony Barber.

Adults present were Mrs. M. O. Whitmire, Mrs. T. N. Nipp, Mrs. T. J. Barber, Mrs. Dell McReynolds, Mrs. J. L. Barber, Jr., and the honoree's grandmother, Mrs. Pat Barber.

Mrs. S. J. Lones Is Travel Agency's New Manager Here

Mrs. S. J. Lones has assumed the management of the General Travel Company, 118 South Loraine Street, it was announced Saturday. Mrs. Lones, whose home is at 1803 West Wall Street, has lived in Midland since 1941 and came here from Kilgore.

The General Travel Company is a branch of a Dallas firm and Mrs. Lones is taking the place of Pat Burke, who formerly was manager of the Midland office.

She is downtown agent for the three airlines serving Midland and can make reservations and sell tickets for flights to or from the city. Also, she can arrange for cruises, train trips, hotel reservations, passports, visas and health certificates.

The purpose of the agency is to arrange all sorts of trips and take care of the details, and there are no charges for Mrs. Lones' services.

Mrs. Porter Honors Hostesses At Picnic

MCCAMEY—Honoring the hostesses at a shower given recently for her, Mrs. Frank Porter, the former Ruth Pulliam, entertained with a picnic in the City Park recently.

The honorees included Mrs. Frank Hines, Mrs. Lloyd Bowden, Mrs. Vera Christian, Mrs. Duard Cook, Mrs. Leonard Shaffer, Mrs. Jack Joyce, Mrs. Fush Patterson and Mrs. Eugene Welling.

CHANGE MEETING NIGHT
The American Legion Auxiliary meeting regularly scheduled for Monday night has been scheduled at 7:30 p.m. Tuesday. The change was made because of the Labor Day holiday.

VISIT IN SANTA FE
Mr. and Mrs. Watson LaForce and their son-in-law and daughter, Mr. and Mrs. P. Hall Keyes of New York City, are in Santa Fe for the fiesta.

HOME FOR WEEKEND
Lily Gilbert is spending the weekend at her home in Plainview.

+ McCamey News +

McCAMEY—Chamber of Commerce Manager Fletcher Stapp announced last week that Betty Jo Maleski had resigned the position of secretary to the Chamber of Commerce and Yvonne Goben had assumed the secretarial duties September 1.

Bill Franklin, who suffered a fractured hip and pelvis, and lacerations about the body recently was taken by ambulance to Abilene for further treatment. Franklin was injured when the wedding truck he was driving crashed into a road bridge about six miles west of Rankin.

Word was received here that Bill Owens, 19, and Harry Owens, 4, were recovering satisfactorily at the Shannon Polio Ward at San Angelo. Both were said to be out of danger and both had no signs of paralysis.

G. C. Pauley, business manager for the McCamey Independent School District, announced that more than 150 reserve seat tickets had been sold by Thursday noon, and at the present rate the 643 reserve tickets may all be sold by the opening game with Iraan September 9.

Eleven young men, beginning 18 during the month of August, have registered with the local Selective Service Board No. 121. They are: Lewis Gene Burnett, John Albert Boltz, Jr., Gene T. Schrader, all of McCamey; Roy Carroll Rogers

Crane; Sumner William Fowler and Donald Patterson Shattuck of Texas; Lyndal Winifred Enert and Adrian Edward Mullican, Jr., Big Lake; Roy Lee Bell, John Ben Broyles, Jr., and Ted Lamar Yocham of Rankin.

Mr. and Mrs. D. Breeding returned recently from a vacation and business trip to San Angelo, Brownwood and Rising Star. They were guests in the home of the W. Tylers in Rising Star.

Mr. and Mrs. C. O. Holt and family have returned from their vacation spent in Abilene and Post. Mr. and Mrs. Bill Winters were business visitors in San Angelo recently.

Guests in the home of the F. F. Caughran family recently were their daughter, Mrs. Carl Potette, and family of Houston, Clint Caughran and family of Goldsmith, and Felton Wright and family of Brownwood.

Mrs. Noel Joyce and daughter, Babe, were San Angelo visitors recently.

Receives Degree
Matt Dillingham, Jr., received his BS degree in animal husbandry from Texas Technological College in Lubbock August 26. Matt is a graduate of McCamey High School and served two years in the U. S. Navy in the Electrical Engineers Corps. He is employed here with the West Texas Utilities Company at the present time.

Mrs. E. C. Bone and her mother, Mrs. Margaret Littlejohn, returned last week from San Antonio where they attended the wedding of their niece and granddaughter, Miss Margaret Josephine White.

Mrs. A. E. Ford who underwent major surgery August 24, is reported to be "doing nicely."

Mrs. E. D. Yates of Rankin who has been undergoing medical treatment since August 27, is reported improving.

Doug Boyd, son of Mrs. Beelar Brown, was admitted to the hospital August 26 for an appendectomy.

Mr. and Mrs. S. E. Cook of Rankin are parents of a son, born August 28. He weighed six pounds and eight ounces and has been named Harold Eugene.

Mrs. A. J. Nelson of the Humble Pipe Line Camp has been moved to a hospital in Temple. Mrs. Nelson was confined to the Cooper Hospital for a week for medical treatment before being sent to Temple for further treatment. Her condition was reported as improved Thursday.

Mrs. Roy Johnson and son, Kenney, are visiting in Midland.

Mrs. Lee West left Thursday for a visit with her son, James, and family in Big Lake.

Mrs. E. D. Yates of Rankin is undergoing treatment in the McCamey hospital. She is the mother of Mrs. J. Cochran.

Breathing Spell—Mrs. Regan Liked Gay Capital Life, But Is Glad To Be Home

By SUE COLEMAN

"It's wonderful to be back home!" Roberta Regan declares as she supervises details of getting settled with her husband, Congressman Ken Regan, in their home at 1207 West Texas Street after residence in the nation's capital during a long session of Congress.

The session is not yet ended—only recessed—and Mr. Regan must return to Washington later this month but Mrs. Regan expects to remain in Midland "off and on" until the 1950 congressional term begins in January. They have been living in Washington since last December 26. She hopes there will be time for a real vacation for both of them sometime this fall, before the congressional must return to the continuous work of a new House session.

Although she expressed pleasure at being back in Midland, Mrs. Regan does not follow the lead of some congressional wives in bemoaning the hectic pace of Washington life and the demands it makes on her. She admits that she loves it.

Her enthusiasm does not extend to the summer climate in Washington, which is notoriously uncomfortable and which she experienced this year for the first time. Her anti-heat for the oppressive heat, which she describes as "the worst in years, was learning to play canasta. She managed to make interest in the new game take her thoughts off the weather.

However, she did not spend the summer playing games. Her activities included participation in several radio broadcasts, so many that she says she almost considers turning professional. One was a television broadcast, a quiz show in which former Senator Ashurst of Arizona also participated.

She was one of the vacation guests substituting for Nancy Cogood, woman commentator of Station WRCO, in a network broadcast August 11, when she interviewed the secretaries of Congressman Regan and Speaker Sam Rayburn, both long-time Capitol career women.

Two recordings for broadcast September 18, one from a Fort Worth station and one from El Paso, were made just before she left Washington. In one she was interviewed and in the other she was the interviewer, with the Mexican ambassador as her subject.

While they are in Washington the Regans live as do so many persons in the overflowing capital, in one of the suburban towns. When they first went up, for Regan to serve an unexpired term in the House preceding his election in 1948, Mrs. Regan did some intensive house-hunting before she found place in Chevy Chase, Md., where they have lived since.

She describes the house as "an unusual one, very old, full of interesting things from all over the world but sort of falling apart." Last winter she thought an apartment might be more desirable, but after another period of hunting the Regans decided to keep the house, and they expect to return to it in January.

In addition to managing the

house, finding time for all the social activities which are part of the obligations of a congressman's wife and such extras as the radio broadcasts, she likes to attend as many of the House and committee sessions as possible.

"Can Miss Too Much?" One of the things she does to assist her busy husband is read each day the newspapers from his district, clipping the items which she knows will interest him.

Brief trips to New York and other nearby cities, and one excursion to Nantucket Island have been made by the Regans, but Mrs. Regan says she doesn't like to leave Washington often because "we can miss too much."

She enjoys the parties with their international flavor, and constantly meeting persons of prominence from all over the world. When she first went to Washington she expressed the hope that she would meet Mrs. Perle Jesta, noted hostess, friend of President Truman and recently appointed minister to Luxembourg. She became well acquainted with Mrs. Jesta and attended several of her parties.

Persons famous in many fields are on the list of notables she has met in the capital. They include such diverse personalities as Gen. Omar Bradley, Vice President Alben Barkley, Mahatma Gandhi's son and the woman ambassador from India, Madame Pandit.

One of Mrs. Regan's problems in settling down in her Midland home is finding a satisfactory place to put the bulky scrapbooks which hold a record of their life in Washington. Stacked in the living room while she completes the addition of clippings, programs, letters and photographs, they preserve accounts of the events which the Regans most want to remember.

They also show that the press has given a full share of attention to the West Texas couple, including numerous photographs of the photogenic Mrs. Regan. One striking portrait study was featured by a Washington paper in its series, "Beauty of the Week," with a brief catalogue of the Midland woman's activities and hobbies.

Contributors Listed For Joan Edward's Benefit At Rankin

RANKIN—In addition to the generous donations of sandwiches, pies, cold drinks, cakes, coffee and money made by individuals at the Joan Edwards Recovery Fund party here, various merchants of Rankin and San Angelo contributed prizes.

Allen Company Opens For Business Here

R. W. Allen announces the opening of The Allen Company, exclusive representative of the Mortgage Investment Corporation of Dallas, in the Wemple Building here.

The Allen Company is a complete insurance, mortgage loan and real estate agency.

Allen has been actively engaged in the business for 15 years, handling adjustments for some of the largest insurance companies in the nation.

Uncle Sam produced more than 11 million bales of cotton, 308 million pounds of wool, and 975 million pounds of rayon in 1947.

This famous fighting unit, known as the "T-Patchers" by its distinctive shoulder insignia, saw about 363 days of front line service in Italy, France Germany and Austria. It fought in seven major campaigns, made two amphibious assaults—the famed "Bloody Salerno" landing of September 9, 1943, and the landing on the southern coast of France on August 15, 1944.

Peak of the wartime selective service program was in March, 1944, when the monthly induction figure reached 233,000.

Coming Back From Vacation Is Mankind's Greatest Jolt

By HAL BOYLE

NEW YORK (AP)—Some wise men believe the greatest shock in life to the nervous system occurs at birth. It's such a change. This I hold to be a grievous error. The average man usually is born only once. He has small memory of the occasion, and it merely leaves him with a slight feeling of gratitude to his mother. Some mothers even claim their offspring lose this sensation in time.

A greater shock to the nervous system than birth is coming back to work after a vacation, because it is an annual agony. Medical science has done much to make birth as pleasant as possible for all concerned—except for the forgotten man with the pocketbook who caused it all. But it has done nothing to cushion the mental suffering a man undergoes at having to return to his job after two carefree weeks of holiday.

This is the cruelest ordeal inflicted by a heartless civilization. The poor wretch lies shivering in his bed as the alarm clock bawls a call for him to rise and do his duty. Madly he tries to crawl back into his dreams, hoping vainly that somebody will drop an atom bomb or lightning will strike the place he earns his daily bread—anything, anything to stay joyously carefree for another week, a day, an hour . . . a minute . . . longer.

"Get up," says his remorseless hausfrau, "and go earn me a living."

And shivering and shaking, the despondent creature gets up, puts on his hairshirt, scratches himself and hops off to his daily routine at office or factory.

Nerve System Sears

All day long giving co-workers keep coming by and asking if he had a nice time at the seashore or "Where were you? Sick? I haven't seen you lately."

For a whole week the fellow doesn't do enough work to break a goat's back. Cut such a man open and you'll find he shows his age much in the same way as the rings in its trunk betrays a tree's antiquity. You count the big scars on his nervous system—one for each year he returned from a vacation—and add 21 for the time he spent learning to earn. The total will tell you exactly how old he is in suffering.

Crane Schools Open In New Buildings

The Crane public schools open Tuesday in new, spacious, attractive, modern and completely equipped buildings which are among the finest in the Southwest. Cost of the system's improvement and expansion program is in excess of \$1,500,000. Pictured are three of Crane's new school buildings—top, high school; middle, elementary school; bottom, band hall.

Opening Of Hobbs Airport Scheduled

HOBBS, N. M.—Plans for the formal opening of the new passenger and administration building at the Lea County Hobbs Airport September 11, are underway, Chamber of Commerce Manager Glen L. Scanlan announced.

Arrangements have been made for a number of army planes of different types to appear here and fly in formation maneuvers, while others will land for public exhibition on the field.

The airport, located on the Carlsbad Highway four miles west of town, is considered by many to be one of the finest in this section.

This new airport building has the distinction of being the first in New Mexico constructed with the aid of the CAA under the Federal Aid Airport Program.

More than 700 fires occur in homes daily, averaging about \$350 loss per fire.

Russian Views U. S. Fear Of Depression

MOSCOW (AP)—Peter Borisov, who visited the USA as guest of the All-American Congress in Defense of Peace has summed up his impressions of the country in "Znamya."

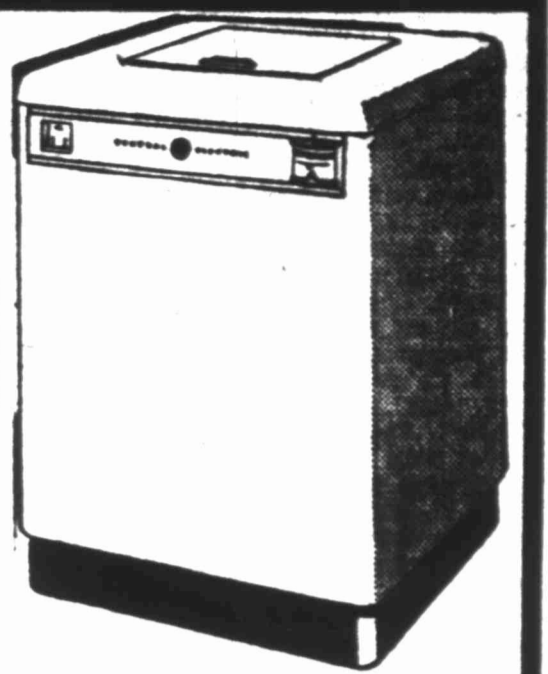

"The American people," he said, "sense that they are on the eve of an economic depression by comparison with which the 1931 catastrophe will seem utterly trivial."

Discussing the impression, Culture and Life, said the Soviet writer progressed with many representatives of progressive American intelligentsia. Their statements reduced themselves to one: genuine cultural life in the USA is being trampled by reaction.

Wedding Solemnized In McCamey Church

MCCAMEY—The First Baptist Church was the scene Saturday evening of the marriage of Shirley Rose Pulley, daughter of Mr. and Mrs. W. E. Pulley, and Robert E. Kellerman of Dallas, son of Mr. and Mrs. John A. Kellerman of McCamey.

The Rev. William I. Lee officiated for the wedding service. Mrs. Newton Key, pianist, played background music while Elmer H. Carpenter, brother-in-law of the bride, read Elizabeth Browning's sonnet, "How Do I Love Thee?" and sang the pre-nuptial solo, "I Love You Truly," Jacobs-Bond. She also played the wedding marches.

The bride was given in marriage by her father, and her only attendant was her sister, Mrs. E. H. Carpenter of Odessa. Jack Johnson of Clarendon served as best man, and ushers were Jimmy Hayes of Kermit, Jimmy Kellerman of Hobbs, N. M., and Bob Pauley.

Sherry Noel, daughter of Mr. and Mrs. W. D. Noel of Odessa, and Barry Carpenter, son of the E. H. Carpenters, lighted candles at the altar before the ceremony.

Greenery and white flowers banked the altar and a white wedding bell hung above, between improvised trees of white chrysanthemums.

An ivory satin gown with full skirt sweeping into a long train was chosen by the bride. The skirt was gathered to a fitted basque embroidered with seed pearls in an orange blossom design. Her fingertip length veil of silk illusion was carried by a white tulle and a white orchid which had a shower of satin ribbon tied in lovers' knots.

For "something old" she pinned her mother's cameo, a gift from her father on their wedding day, to the Bible.

Mrs. Carpenter's gown was of reseda green taffeta with a circular skirt and cap sleeves. Her head-dress was a puffed band of the same taffeta, and she carried a taffeta muff on which was fastened a bronze giant chrysanthemum with gold and green streamers. Miss Noel wore a frock of white taffeta, and a bandeau of white baby chrysanthemums in her hair.

Reception On Lawn
After the ceremony, the bride's parents were hosts for a reception on the lawn of their home in the Elmer Pipe Line Camp. Flowers and hedges growing on the lawn were supplemented by arrangements of chrysanthemums and huckleberry foliage.

Virginia Culwell served punch from a bowl set on a table decorated with white and yellow flowers. The wedding cake, which was served by Peggy McShan of Ballinger, centered a second table. White satin streamers with small white flowers extended from the cake to the edge of the lace cloth. Sylvia Partin presided at the guest book.

The couple left for a week's trip to Ruidoso and other places in New Mexico. Mrs. Kellerman wore for traveling a navy suit with white and navy accessories, and a white orchid pinned to the shoulder. After the trip they will reside at 411 Live Oak Street, Dallas.

Both University Graduates
The bride was graduated in January from the University of Texas with a Bachelor of Journalism degree. She is a member of Alpha Phi Sorority, was a Blue Bonnet Belle nominee for two years and a member of the Co-Ed Assembly.

Kellerman, who received a degree in Petroleum Engineering from the University in June, is employed with the Republic Natural Gas Company. He is a member of Tau Beta Pi, Phi Kappa Phi, Sigma Gamma Epsilon, Phi Eta Sigma and Cowboys.

Wedding guests from other cities included Mr. and Mrs. Jack Jones of Midland; Mr. and Mrs. L. E. Boyd, Mr. and Mrs. E. O. Kemper, Mr. and Mrs. Wilson Taylor and Mr. and Mrs. W. D. Noel of Odessa; Mr. and Mrs. Frank Kellogg of Houston; Mr. and Mrs. Hugh Lewis, Jr., of Robert Lee; Mr. and Mrs. Lee McMillan of Iraan; Mr. and Mrs. Frank Kellerman of Hobbs.

Members of the wedding party were entertained after the rehearsal Friday night with a dinner in the John Kellerman home.

Yugoslavs Prefer Australian Girls
MELBOURNE (AP)—Visiting Yugoslav soccer players are dazzled by Australian girls. They are the most beautiful and best dressed in the world, the Yugoslavs say.

And these lads have been in most countries around the globe. The unmarried ones, however, have met trouble on the road to romance. They can't speak English. But they are oak trees.

An oak tree may pass off more than 200 times its own weight in water from June to October.

Iraan Girl Dies Of Leukemia In Dallas

MCCAMEY—Gloria Jean Turner, age five, of Iraan died in the Children's Hospital of Texas, in Dallas, August 27. A victim of leukemia, she had been a patient in the Dallas hospital at intervals since April.

She was born, Nov. 15, 1944, at Iraan, Texas. Survivors include: parents, Mr. and Mrs. R. J. Turner; sister, Dorothy Irene; maternal grandparents, Mr. and Mrs. J. S. Wade, all of Iraan; and paternal grandmother, Mrs. Mary Guy Barnhart.

Services were held at 2 p.m. September 2 at the First Methodist Church in Iraan with the Rev. Frank Matthews, minister, officiating.

Interment was in the McCamey cemetery under direction of Jacobson Funeral Home.

Study Is Completed By WSCS Of Wink
 WINK—Seventeen women attended the last session of the study, "China—Twilight or Dawn?" at the meeting of the Woman's Society of Christian Service in the First Methodist Church Wednesday.

Mrs. L. G. Hanes brought the devotional and Mrs. George Ditterline read two letters from George W. Hollister, a missionary in Hingwa, Fukien, China. Mrs. Luther Anderson, Mrs. Carl Walker, Mrs. Ditterline and Mrs. Jack Nelson presented parts on the program.

In a short business session at the end of the program it was decided to entertain the district zone at an all-day meeting Wednesday.

There are no land areas lower than 3,340 feet above sea level in Colorado.

Officers Club Seeks Suggestions By Mail
 Members of the Midland Officers Club have been mailed questionnaires seeking suggestions for club improvement.

Suggested events include: tea dances, juke box music, movies, organized card games, square dances, strolling musicians, Sunday night suppers, style show, floor shows, bathing review, quiz program, cooking contests, dog show, baby show and others.

Members were urged to make constructive suggestions.

A dance was held Saturday night. And square dance lessons are scheduled to begin in September on two nights per month. Walter Waine, Jr., president of the board of directors, sent out the questionnaires.

Scottish Lassie Enrolls In Kermit Schools

Mrs. W. J. Maxwell and daughter, Juanita, of Glasgow, Scotland, discuss school entrance requirements with Mrs. A. M. East of the Kermit public schools. Mrs. Maxwell and Juanita are visiting in Kermit for three months and Juanita will attend public school while there.

Visitors From Scotland Find West Texas Real Wonderland

By MAUD GREEN

KERMIT—Still remembering the war days of their homeland of Scotland, where everything is under strict government control, Mrs. W. J. Maxwell and her nine-year-old daughter, Juanita, of Glasgow, who arrived in Kermit early in August for a three-month visit, are finding this country the wonderland of which they had dreamed.

Mrs. Maxwell, blonde, vivacious and charming, is taking a deep interest in the people, customs and opportunities of Texas, since the family has been contemplating moving to the States. To beautiful Juanita, known to her Kermit friends as "Snooks," with her big blue eyes and blonde braids, Texas is truly a fairyland, where a little girl, who has been allowed only four

ounces of candy a week, can take not only her pick but as much as she likes of the vast array of sweets on every hand.

There are many things in Texas which impress the visitors. Among these is the fact that "everybody owns an automobile." In Scotland less than one-half of the people have cars, since "petrol" is still very scarce and hard to get. And to all this may be added the amount and variety of foods which are available, the unlimited amount of clothing and materials, and the lack of realization by Americans of the terrors of war.

"All foods are rationed and very limited in Scotland. Money, not weight, determines the amount of meat one buys. At present, each person is allowed about 20 cents worth of meat each week. This is mostly lamb and mutton, with an occasional steak which usually is chopped and made to go as far as possible. Fish usually is plentiful, and clothing is no longer rationed but prices are prohibitive," the visitor says.

Maxwell, who is with the Scotland Board of Trade, was unable to make the trip with his wife and daughter. But he is not having much to eat since they left. His lone ration book makes it necessary for him to eat in restaurants, but even so, the amount of money one can spend for a meal is limited to about \$1.

Not only are all foods rationed, but a person is required to register. They cannot buy foods in any shop unless they are "on record."

Of all the red tape which is required in making such a trip, one thing gave Mrs. Maxwell a great deal of pleasure—that was when she was told to throw away their ration books and identification cards. This is done so no one else may use the rations. When the Maxwell's return home they will be issued new cards and books.

"The women of Texas are amazing," Mrs. Maxwell thinks. "When I first arrived and any one called by the house, I dashed to brush and comb my hair. You Texas women dress up in the most beautiful clothes, drive the biggest cars, and then go rushing around with your hair in pin curls. I love the easy-going informality in which you live."

Education in Scotland

There is one thing, as far as she has observed, in which Mrs. Maxwell thinks Scotland excels—that is education. Children start to school when they are five years old, and attend what is called a Corporation School, where everything is furnished.

When they are about nine years old, if the family is financially able, the children are sent to private, or "fee" schools. These are very expensive, but special efforts are made to send the children to such schools. Many babies at the time of their birth are registered at the school preferred by the parents. Everything already is prepared for Juanita to enter one of the best schools in Scotland.

What started as a hobby, mostly because such garments could not be purchased, has grown into a very profitable business for the Maxwells. During the war they began to design and make in their home a special type of brassiers. Demand for these has continued to grow and they now export the articles to Gibraltar, Bombay, Calcutta, and to exclusive shops in England. The brassiers are made of a fine satin and lace, imported from England, and are the same materials as used by England's Princess Elizabeth.

Visiting M. Easts

Mrs. Maxwell and Juanita are guests of Winkler County Engineer Alton East and Mrs. East, who is a member of the Kermit public school faculty. East became acquainted with them and visited often in their home while he was stationed in Scotland during the war. The Easts are former Midland residents.

"Snooks" is entering school in Kermit, in the third grade. Her teacher will be her dear friend, Mrs. East. But, school officials are a bit puzzled as to whether or not that will be the proper grade for the little girl from Scotland. As far as they can learn, she may be much further advanced in her studies.

But, Texas or not, Mrs. Maxwell still enjoys one of her favorite customs, tea between 3:30 and 4 o'clock each afternoon.

"You know," she smiled, "at first I had to drink tea alone, but now there are quite a few Kermit women who are finding it an enjoyable affair."

American railroads, in shipping perishables, use approximately one-third of all ice made in the country.

August Circulation Sets Library Record

The Midland County Library's August circulation set a new record for the institution with a total of 9,902 books, magazines and pamphlets checked out.

The previous record for the library was set in July, when 8,385 publications were checked out, according to Mrs. Lucile Carroll, librarian.

New borrowers during August numbered 133 and there were 19 re-registrations.

There were 36 new borrowers listed by the Children's Library during August.

WMU Gives Shower For Church Kitchen

WINK—A shower for the kitchen of the First Baptist Church was given by the Woman's Missionary Union recently.

Officers of the organization received the guests at the door. Mrs. Creek Brown presided at the guest book, and Mrs. Reuben Brinkley and Mrs. A. G. Lee were at the tea service.

A musical program was presented during the evening. Background music was furnished by Mrs. Bill Anderson, Clavel Strickland and Dorothy Langford.

Approximately 100 guests attended.

Anthropologists do not believe that any absolutely pure race of people exists in the world today.

Carolyn Duncan Is Honored At Party

McCAMEY—Honoring her daughter, Carolyn, on her tenth birthday, Mrs. A. D. Duncan entertained with a party in her home Friday.

Wanda Duncan and Donna Smith assisted Mrs. Duncan in serving. Those present were Johnny Wade, Alice Skains and Joyce Skains.

White-crowned sparrows feed their brood about 250 insects in a day, in addition to weed seed.

West Texas Gas Company Installs Short Wave Radio Network Nine Fixed Stations

West Texas Gas Company recently completed the installation of nine fixed short wave radio stations along its more than 800 miles of transmission lines.

This radio network, consisting of the most modern equipment together with more than 300 miles of company-owned telephone lines and long distance commercial lines, provides as good a communication system as is available.

The nine fixed stations are located at Lubbock (the Lubbock 200-foot antenna is shown at the left), Plainview and Midland, which are division nerve centers; at Odessa, which is near two sources of natural gas supply; at Turkey Creek Compressor Station in the Panhandle Gas Field, and at compressor stations near Canyon, Hereford, Littlefield and Tahoka.

Thirty Mobile Units

We have also equipped 30 trucks and automobiles with two-way radios.

The installation of the short wave radio system enables us to call together emergency crews at a few moments' notice. Licensed radio operators are on duty at all nine fixed radio stations. They keep in contact with maintenance men making repairs and new installations along the transmission lines and also dispatch pressure readings via radio when other communication systems are busy or out of order.

Communication between all points of West Texas Gas Company's transmission lines is very essential and must be maintained at all times in order that the company may render good natural gas service to the thousands of homes and businesses in the 23 counties it serves.

Good gas service doesn't just happen.

West Texas Gas Company

Married In Church At Crane

Mr. and Mrs. J. F. Miller are at home in Crane after their marriage in the Tabernacle Baptist Church there August 27. The bride was Joan Ragsdale, daughter of Mr. and Mrs. T. V. Ragsdale, before the ceremony at which the Rev. Raymond Dunn officiated. Miller is the son of Mr. and Mrs. J. M. Miller. Both families live in Crane.

Senisa Club—

(Continued from Page One) ter the meeting next Wednesday will be two programs stressing flower arrangement. Mrs. Marvin will discuss that subject in the home of Mrs. Sidwell on September 12, and each member will bring an arrangement to be judged at the meeting on October 5, when Mrs. Richard Hinkle will be hostess.

The subject on October 19 will be "Bubs for Early Bloom," presented by Mrs. Reid. Mrs. Sager will be hostess. Mrs. Stille is hostess on November 2, and Mrs. A. P. Shirey of the Midland Garden Club will be guest speaker on "Rose Culture." Mrs. Rankin will discuss "Indoor Flowers," and Mrs. Chastain will be hostess on November 16.

A guest tea and Christmas party on December 7 will be the only meeting of that month. Mrs. Pan-nill, Mrs. Hynd and Mrs. Younger will be hostesses.

"Trees and Flowering Shrubs" is the subject for January 4, with Mrs. Sherwood as leader and Mrs. Harris as hostess. On January 18 Mrs. Hughes will be hostess and Mrs. Chastain will discuss "Preparation of Spring Flower Beds." Mrs. Breith will direct the program on "Hotbeds and Coldframes" on February 1, when Mrs. Johnson is hostess; Mrs. Cal Glass will be hostess and Mrs. Harris leader of a program on "Culture and Care of Gladiolus" on February 15.

March hostesses will be Mrs. N. J. Dilday at the first meeting, when Mrs. Sidwell will discuss "Chrysanthemums," and Mrs. Sherwood at the second, when Mrs. Metcalfe will lead a program on "Transplanting in the Garden and Dividing Perennials."

Election of 1950-51 officers is scheduled April 5, when Mrs. Littlejohn will be hostess, and the Spring pilgrimage will be a part of the April 19 meeting. Mrs. E. R. Powell will be a guest then to demonstrate "Corsages From Your Garden" and Mrs. Thompson will be hostess.

On May 3 Mrs. Sager will discuss "Planting Annuals" and Mrs. Shakely will be hostess. The year will close with a social meeting May 17, when hostesses will be Mrs. Reid, Mrs. Goodman and Mrs. Stallings. Officers will be installed then.

Although it is the youngest of the six garden clubs in Midland, the Senisa Club is taking its part in all their joint activities.

Picnic For McCamey Eastern Star Held

McCAMEY—The Order of Eastern Star entertained with a picnic in the City Park recently with members' families as guests.

Attending were Mr. and Mrs. H. R. Maxey, Mr. and Mrs. Leo Plumlee and Jimmy, Mr. and Mrs. Harold Simmons and James, Mr. and Mrs. W. T. Simmons and Barbara, Mr. and Mrs. V. N. Rice and children, and Mrs. Beebe, Mrs. Rice's mother; Mr. and Mrs. J. T. Gibbs, Mr. and Mrs. A. K. Schandris and son, Mr. and Mrs. Olin Smith and children.

Mr. and Mrs. W. E. Boyett and Jean, Mrs. Roxie Nettleship, Mrs. Callie Fisher, Mr. and Mrs. Ellis Pinkerton and Jimmy, Mr. and Mrs. A. J. Tisdale and children, Mr. and Mrs. O. H. Haley, Mr. and Mrs. Tom Rowell, Mr. and Mrs. C. L. Nettleship and children, Mr. and Mrs. William Wolf, W. M. Strong and Buzze Sharp.

Elementary School Principals

Midland's elementary schools this year are headed by Principals W. D. Ladd at North, Leslie R. Hinds at West; and C. D. Johnson at South. Ladd is starting his second year at North Elementary while Hinds and Johnson are new to Midland's public school system.

Two New Principals Join Public School System This Year

Two new principals will begin the 1949-50 school year at two of Midland's elementary schools Tuesday.

They are Leslie R. Hinds, principal of West Elementary, and C. D. Johnson, principal of South Elementary. Hinds succeeds Wesley Martin, who assumes the position of principal of Midland Junior High School, and Johnson succeeds Mrs. Inez Luce, who becomes director of attendance.

Hinds comes to Midland from Friona where he was high school principal. His home is Amarillo and he attended West Texas State College, Canyon, and received his masters degree from the University of Colorado, Denver.

Was High School Principal Mr. and Mrs. Hinds and their two sons, Hugh, 6, and Michael, 4, five-months, reside at 306 Elm Street. They are members of the Northside Church of Christ. Also a high school principal, Johnson was at the Three Way High School in Bailey County last year. He did his undergraduate work at Southwestern University, Georgetown, and his graduate work at the University of Colorado and North Texas State College in Denton. His home is Weatherford.

Other Principals Mr. and Mrs. Johnson and their two sons, Hugh, 6, and Michael, 4, reside at 909 North Weatherford Street. They are affiliated with the First Methodist Church.

This will be Wesley Martin's fourth year as a principal in the Midland school system. W. D. Ladd, North Elementary principal, starts his second year, and Charles Mathews, high school principal, begins his third year in this position.

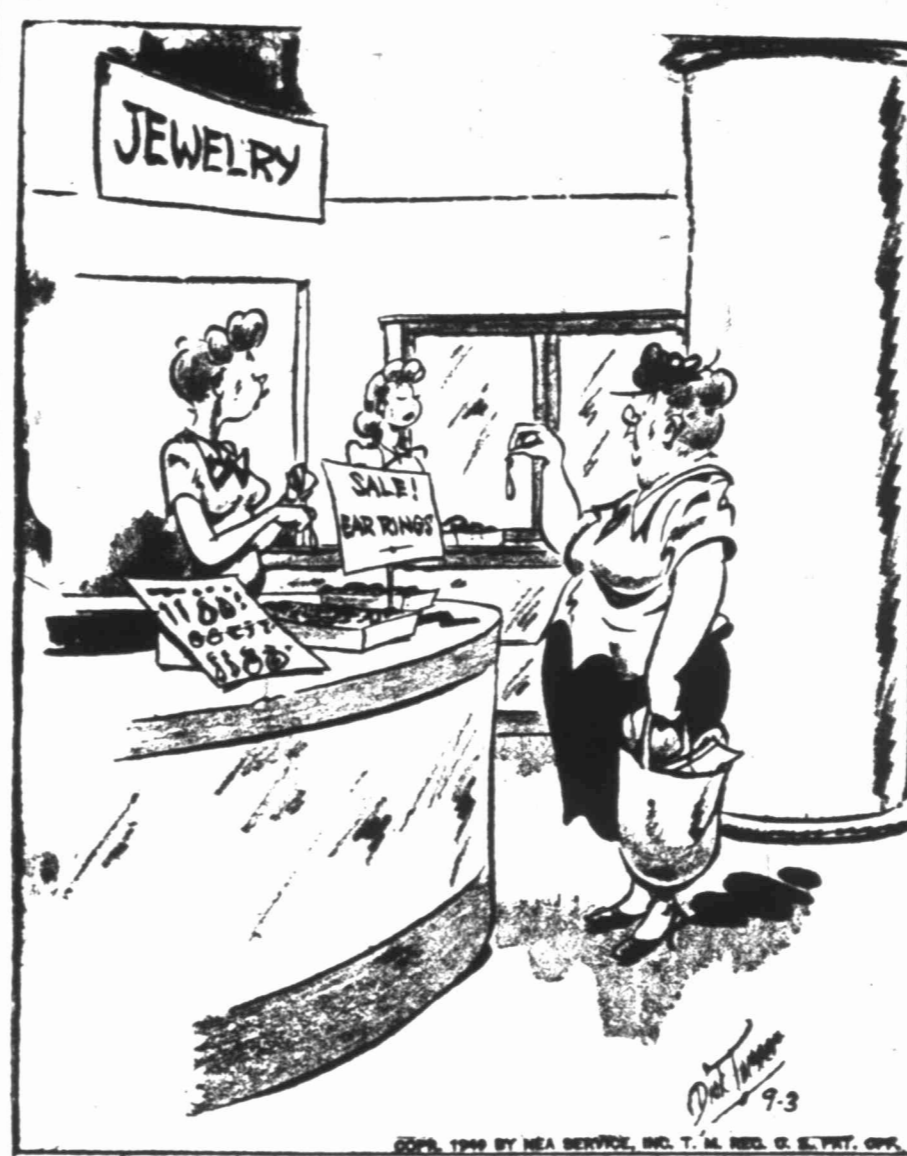

Many Ailments May Develop From Piles

Yasuo's Billboard Does Double Duty

TOKYO—(P)—Yasuo Kobayashi, 27, got the only job he could find—walking around town carrying a billboard.

That upset his wife, Katsuko, 28. This was no job for the son of a former Japanese Army Lieutenant General, she said—and left him. Yasuo added to his sign this advertisement of his own: "Bright and cheerful wife wanted. Would-be groom 27 years old."

Eight candidates applied. Trading his rounds Wednesday, Yasuo said if Katsuko does not return by the end of October he will marry one of the eight.

Six Negro Students Are Touring Europe

ROME—(P)—A group of six negro students from the Virginia Union University have completed their first Foreign Study Tour of Europe and north Africa. The group visited Ireland, England, Belgium, France; Luxembourg, Switzerland, Italy, and Tunisia. They left the United States June 19.

This first group was a small experimental one; to study the possibility for larger tours in the future. Students participating in the tour will get nine semester hours college credit for the trip. The credit is equivalent to that given to a student satisfactorily completing a full Summer session course on the campus.

WILSON'S

MIDLAND

In New Location— New High School Plant Is Sufficiently Large, Modern, Efficient For Community

By FAYE SHELburnE
A dream of many high school students of former years as well as of the present will come true Tuesday when the 1949-50 school term opens for Midland High School in a building which is large enough, modern enough and efficient enough for the needs of the growing community.

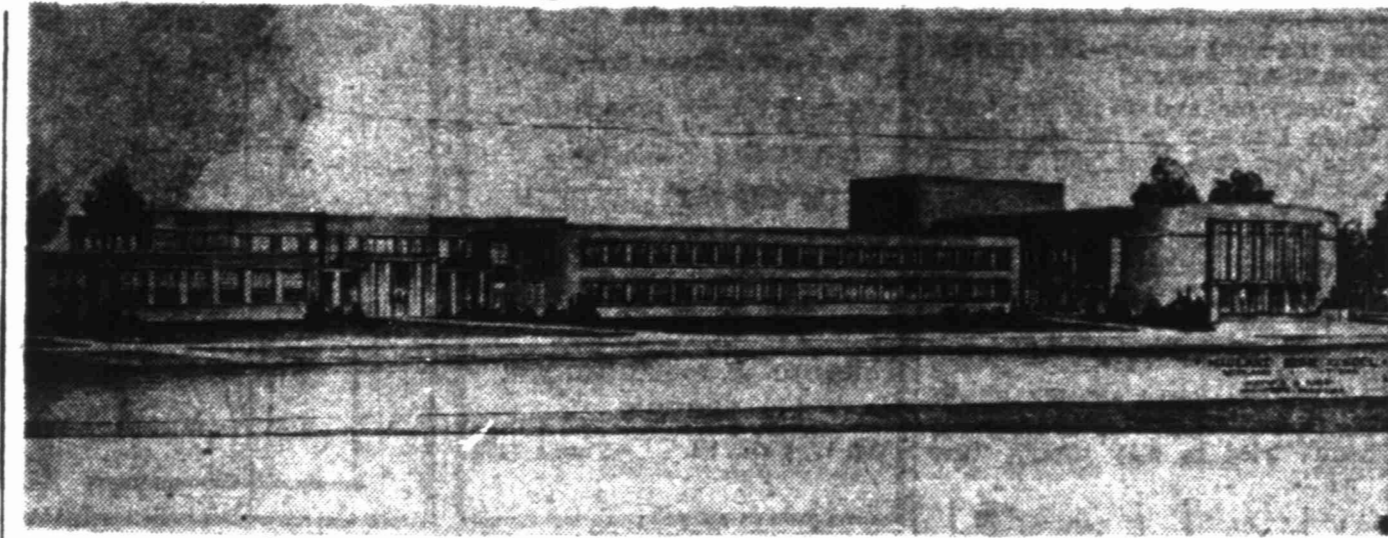

Although it is not complete in every respect, it will accommodate the pupils in a manner which former students were not privileged to experience. The gymnasium and auditorium still are under construction; otherwise, the rest of the buildings are ready or will be in just a few days.

As the student enters the southwest wing entrance from the columned porch and passes the principal's office on the right and turns either way down the hall it is easy to recognize this is the part of the building that used to be the John M. Cowden Junior High. But it has a new face. It has been redecorated completely and several changes made in the classrooms. The halls are done in tan block tile half way

up and a white smooth surface on the upper half. The floors are grey terrazzo. The walls of the classrooms are painted a light green with almost a touch of blue.

Library Extension
An extension has been added to the extreme southwest end of the wing to provide space for the library. Passing the study hall and going through double doors the student enters the large room which houses the library. Just in front of him is the librarian's office with plate glass enclosing the upper half of the room. Just behind this room is the cataloging room. The book shelves are done in a dark wood, the floor is laid with maroon asphalt tile and the walls are light green. A door opens from the library into the study hall, and another opens onto the porch.

Another change in the old building is the small room just next to the principal's office which is equipped with a hospital bed as well as regular office equipment. This room will serve as both the nurse's office and school infirmary, in case it is needed.

The new wing of the building is on the southeast end of the old building. The student will find the science department on the right as he goes from the old building into the new wing upstairs. The general science and the physics and chemistry rooms are separated from the biology room by sufficient closet space and an office for the science instructor. All of the classrooms are equipped with glassed-in show cases, some of which are built in and some portable.

To the left is the teachers' lounge with the speech room just down the hall. The walls are light pink and the floor is covered with maroon asphalt tile. A stage reaching across the front of the room is provided for plays and other dramatic productions. A door opens off the stage into the hall.

A couple of doors down is the room for the new art department. It is equipped with individual drawing tables with tops that may be adjusted to the angle desired. Stools with backs are provided. A sink in which to clean up after class is in the back of the room. The back

wall, one side wall and part of the front wall are covered with bulletin boards for display of work.

Individual Lockers
In the halls throughout the building are double deck individual lockers done in brown metal for the students. Each room has a teacher's locker for her coat, books and supplies. This will supplement and in some cases take the place of the desk. Most of the rooms are equipped with large bulletin boards and blackboards. Arm chairs are provided for the students, in lieu of the desks that were found in most rooms in years past.

Touring the lower floor of the new wing, the student will find the home economics department on his left as he goes down the hall of tan and brown terrazzo. A small room which will be equipped for laundry use can be seen just before the student reaches the door to the kitchen. The kitchen is equipped with one large steel kitchen unit including cabinets and a sink, and three small units which are separated with small snack bars, creating the effect of individual kitchens. Both the units and the walls are white. Two stoves are provided for the foods classes. Maroon asphalt tile covers the floor.

Complete Housekeeping Unit
Adjoining the kitchen is the dining room which has walls of pink. A display window large enough for a life-size model is located just at the entrance of the dining room with the show window facing the hall. A small bedroom and bathroom are between the dining room and the sewing room. The bedroom has blue block tile walls half way up with white plaster going to the ceiling.

The sewing room is equipped with long tables with drawers for the sewing materials. Close spaced and full length mirrors are provided to aid in the dressmaking process. Several small display cases are located conveniently for display of class work. Green walls and green asphalt tile complete this room.

Classrooms including the business administration department are to the student's right. The bookkeeping room, equipped with regular bookkeeping tables, is separated from the rest of the classrooms by a wall that has plate glass for the upper half, has all white walls.

Next to the cafeteria is the band room. It is equipped with enough storage space for the instruments, uniforms and music, seven sound-proof practice rooms, a repair room for the instruments, an office for the band director and a large assembly room. The assembly room has a sound-proof tile ceiling.

Visit Industrial Arts
Just across the hall from the band is the vocal music room. The room is elevated for more efficient practice for the a cappella choir and the other vocal musical organizations. Robe storage space is provided.

Leaving the building and going across to the Industrial Arts Shop, the student will recognize the football field to the right as the old Lackey Field, minus the stadium and fence. This field will be used by the band and drill squad for drill practice, therefore eliminating the necessity of many trips to the Memorial Stadium.

The Industrial Arts Building is the L-shaped, cream colored building west of the old football field

Entering the building from the south entrance, the student will notice a large amount of space devoted to closets for the machine shop. Passing machines of various kinds which mean nothing to the ordinary observer, but which are used by the manual training classes to make all sorts of things, he enters the mechanical drawing room. This room is practically all windows, providing sufficient light for the students at work.

Agriculture Machine Shop
Turning to tour the other section of the L, the vocational agriculture room and the instructors' office are next on the itinerary. A farm shop with more machines and a drive-in shop is at the west end of the building. FFA boys may drive their vehicles—tractors, pick-ups or whatever—into this shop and make the necessary repairs.

Just south of this building is the new gymnasium, which is still under construction, although it is supposed to be ready for use by the end of September. Entering from the west, the boys' team rooms, dressing rooms and equipment storage rooms are on the left and the girls' on the extreme right. The playing floor of the gymnasium may be used as two basketball courts running east and west or one running north and south. The baskets may be raised toward the ceiling when not in use. Telescopic bleachers will be installed and when not in use may be folded to the wall to take up only a few feet of space. Seating capacity will be 1,680.

Two Gyms In One
A feature of interest to the physical education student is the sound-proof, mechanically operated doors running east and west, which will separate the playing floor and make two separate gyms. This permits both girls' and boys' class to use the gymnasium at the same time.

Leaving the gymnasium, the student has made a complete tour of the high school facilities which are his for his school days. This "dream come true" should cause every student and citizen in Midland to be thankful as well as proud of such a modern and efficient school plant which carries out one of America's richest heritages—education for all.

Seating Capacity Of 1,822
The lower floor of the auditorium, to be furnished with theater seats, will accommodate 1,111 persons. Stairways on either side of the auditorium will take the student to the balcony, which will seat 711 persons, making a total seating capacity of 1,822.

A large stage is provided for the needs of the high school speech productions, as well as the regular assembly programs and civic uses. On the left of the stage is the ladies' dressing room with the deck above provided for the curtain and other property controls. To the right is the property storeroom with the men's dressing room above it.

New Cafeteria
Just across the hall, which may be reached by following the arcade around the west side of the building, is the high school cafeteria. The serving room will be equipped with all of the modern equipment, including a walk-in refrigerator and an incinerator. The walls of this room are done in tan and white. The dining room, which is separated from the serving room by a wall that has plate glass for the upper half, has all white walls.

Next to the cafeteria is the band room. It is equipped with enough storage space for the instruments, uniforms and music, seven sound-proof practice rooms, a repair room for the instruments, an office for the band director and a large assembly room. The assembly room has a sound-proof tile ceiling.

Visit Industrial Arts
Just across the hall from the band is the vocal music room. The room is elevated for more efficient practice for the a cappella choir and the other vocal musical organizations. Robe storage space is provided.

Leaving the building and going across to the Industrial Arts Shop, the student will recognize the football field to the right as the old Lackey Field, minus the stadium and fence. This field will be used by the band and drill squad for drill practice, therefore eliminating the necessity of many trips to the Memorial Stadium.

New Secret Service Setup Is Operating

CANBERRA—(AP)—Australia's new secret service is operating. Its head, Judge Geoffrey S. Reed, has reported to the government that the service is established and functioning as part of Australia's defenses. The official title of the new service is the Australian Security Intelligence Organization. Its job is to protect Australia from attempted sabotage, espionage, and subversive activities. It has secret "field men" in Government Department and industrial and defense works to report suspicious activities.

Large Meteorite Falls In Ural Area

MOSCOW—(AP)—A large meteorite fell recently in the Ural area. It exploded 22 miles over the earth's surface. Its fragments were scattered over an area of about 150 square kilometers. Many of these fragments already have been found and are being studied by Soviet scientists. They weigh up to forty kilograms each. The meteorite belongs to a group of rare stone meteorites.

Four of the big Elster fireflies of Mexico or Brazil can throw enough light by which a book can be read.

Schedule Changes Are Announced By Pioneer Air Lines

Midland will have greatly improved connecting service with other airlines in Dallas, Houston and Amarillo when Pioneer Air Lines' new schedules become effective Wednesday, Dave Clark, Midland district traffic manager, announced Saturday.

Clark pointed out that flights for Dallas-Fort Worth will leave Midland daily at 7:05 a.m., 10:40 a.m., 1 p.m. and 5:50 p.m. The 7:05 a.m. and the 10:40 a.m. flights provide service to Houston and Austin and are in addition to a daily 5:24 p.m. flight to those cities.

Flights from Dallas-Fort Worth will arrive in Midland daily at 10:09 a.m., 11:54 a.m., 5:30 p.m. and 8:37 p.m., while planes from Houston and Austin will arrive at 10:30 a.m. and 6:25 p.m.

Round-The-Clock Service
Midland will have round-the-clock service with a total of 11 flights daily by Pioneer, providing service to every city on the company's system on a commuter-type basis and making connections with other airlines in Dallas, Houston and Amarillo for all other major cities in the nation," Clark declared.

He pointed out there will be certain minor changes in the schedules on Saturdays and Sundays. These changes, he said, are usually in the form of later departures. Pioneer has been serving Midland since February 19, 1947. The company serves a total of 25 cities in Texas and New Mexico over a system of 2,200 route miles.

Forty-Nine Study Club Is Organized

WINK—The Forty-Nine Study Club was organized in the home of Mrs. Revie Kegler recently.

Mrs. Kegler was elected president; Mrs. Herbert Barton, vice president; Mrs. Claude Hanley, recording secretary; Mrs. William Estabrook, corresponding secretary; and Mrs. Earl McBee, treasurer. Sixteen have joined the club. Meetings will be at 7:30 p.m. on the second and fourth Tuesdays.

Congratulations To:

Mr. and Mrs. J. H. Holt on the birth Friday of a son, Johnny Wayne, weighing nine pounds, 11 ounces.

Band On Parade!

The Dream of Every Boy and Girl!

Where does your child fit in this picture? Is he just another wistful spectator dreaming of playing in a snappy parade band? Then don't delay your child's training any longer. Your schools now offer unlimited opportunities for low-cost music education.

Our staff will be happy to advise you in the selection of a proper instrument. And a gleaming-new instrument will be a big asset to your child's musical progress. See our complete display now. No obligation.

Ask about our student rental plan!

FUNNY BUSINESS

"It's the only way I could get some zip into tackle practice!"

DADDY RINGTAIL

Daddy Ringtail And Telephone Trick

Mugwump Monkey, the monkey boy, was there at the Huffen's hollow tree house. The Huffen was a friendly wolf, and all that, but he wanted to play a trick on Uncle Bunkum when Uncle Bunkum came for a visit. Mugwump wanted to do it too. To do it, they hid the Huffen's clock beneath a pillow that was close by the phone. "I'll ring the clock," said Mugwump, and Uncle Bunkum will think the phone is ringing. Sure enough, no sooner had Uncle Bunkum come in the house than Mugwump ran the alarm clock like a telephone ringing. "The call may be for you, it may," said the Huffen. "Uncle Bunkum, why don't you answer it?" Uncle Bunkum picked the phone up. I think it was going to ring by itself, for a voice said: "This is your radio quiz program. I have a question to ask you, and if you give me the right answer—if you

give me the right answer—I'll send you a thousand dollars." "Mercy me, and oh my, my," said Uncle Bunkum in his excitement. "Are you sure that you want to talk to me?" Said the radio man on the phone: "Uncle Bunkum, I wanted to talk to whoever picked up the phone to answer. Now remember—if you answer the question with no mistake, I'll send you a thousand dollars." Mugwump heard all this. So did the Huffen. They were wishing they hadn't tried to play tricks. They

were wishing that they had picked up the phone to answer the radio man, so they would have a chance to answer a question for a thousand dollars. "Uncle Bunkum, here is the question," said the radio man. "How many wheels does a bicycle have?" "Oh me, oh my!" said Uncle Bunkum, because he was so excited. "Official statistics show that a bicycle has two wheels. Uh, yes. Two wheels!" "Right you are!" said the radio man. "I'll send you the thousand dollars!" And it might have happened to the Huffen or Mugwump, if they hadn't tried to play a telephone trick, which is something that no one should try to play. Happy Day! (Copyright 1949, General Features Corp.)

IT'S A FACT AND WE CAN PROVE IT.

WATER PIPES OR BOILERS DO NOT "SWEAT" IN WARM WEATHER.

(PROOF NEXT SUNDAY) PROOF OF LAST WEEK'S AD: YOU CAN GET SUNSTROKE WHEN NOT IN THE SUN. The Encyclopedia Britannica defines sunstroke as a term applied to the central nervous system, and through it upon other organs of the body, by exposure to the sun or to overheated air.

Here's an educational pastime... In your mind put a "BEWARE" label on every source of possible financial loss. Then check how practically everyone can be covered with insurance; it pays to insure adequately.

Many Hunger Deaths Reported In Rangoon

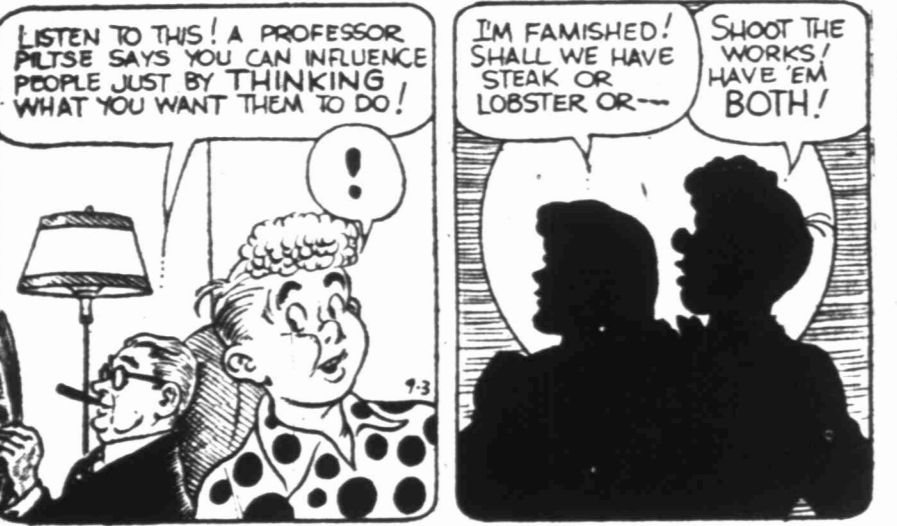

RANGOON.—(AP)—Malnutrition was said officially to be the cause of 30 per cent of deaths in Rangoon. Official statistics show that the city's daily average death rate is 40 persons. A newspaper investigation into living conditions showed that many wage-earners have as their daily diet boiled peas and rice. The paper reported that meat, fish, fruit and vegetables were beyond the means of most citizens. The present population of Rangoon is estimated to be 750,000.

Miss Hagaman Is New Society News Writer

Frances Hagaman of Ranger, a June graduate of the University of Texas with a Bachelor of Journalism degree, has joined the editorial staff of The Reporter-Telegram and has been assigned to the society desk for news and feature writing, assisting Sue Coleman.

Miss Hagaman is the daughter of Mr. and Mrs. Leslie H. Hagaman of Ranger, and is a cousin of Mrs. Hamilton McRae of Midland. Before attending the university, she was a student in Stephens College, Columbia, Mo., and received her Associate Arts degree there in 1947.

Activities—

(Continued from Page One)

through the Summer, will resume its bi-weekly schedule Friday, when Mrs. Alan Leeper will be hostess in her home, 1908 West Texas Street. League members will continue their program of assistance to crippled children and children in need of medical attention or clothing, under leadership of Mrs. C. H. Atchison, new president.

A luncheon Saturday will mark the start of another season for the League of Women Voters. This league invites all women of voting age to become members and to attend its luncheons. The hour for the Saturday meeting is 1 p.m. and the place is the Scharbauer Hotel. Mrs. Richard Hughston is president of the league for the coming year.

Garden Clubs Meet

Ahead of the school term, three garden clubs include the Midland Council of Garden Clubs began new years last week. The council met Tuesday in the home of Mrs. J. D. Dillard, new president. Midland Garden Club had a breakfast Thursday morning; the Yucca Club had a picnic luncheon and the Texas Club a morning meeting, both on Thursday.

Two others will meet this week, the Pyracantha Club with a party for members' husbands in the Harry Murray home Tuesday night, and the Seneca Club in Mrs. Dell Taylor's home Wednesday morning.

To avoid conflict with school opening activities, the Parent-Teacher Associations are deferring their initial meetings until later in the month. The City Parent-Teacher Council will meet the afternoon of September 12. Mrs. Bert Cole, Jr., president, has announced.

VISIT DAUGHTER IN DENTON

Mr. and Mrs. Forrest King will go to Denton next week to visit their daughter, Mrs. Bert Conley, and Mr. Conley. Mrs. Conley is the former Dorothy Jean King.

Mrs. Ailes Comes To Christian Church As Music Director

Mrs. Marian Ailes, new music director of the First Christian Church, also will have charge of the young people's work of the church. She came here recently after receiving her bachelor of music degree from Westminster Choir College in Princeton, N. J., in May. Her majors were organ and voice.

She is a former member of the Westminster Choir and has given concerts with the New York Philharmonic and the Philadelphia Symphony. Some of her work has been under the direction of Bruno Walter, Leopold Stokowski, Arturo Toscanini and Eugene Ormandy and she has appeared in concerts in both Carnegie Hall and Town Hall in New York City as well as in Philadelphia.

Mrs. Ailes also will teach piano, organ and voice.

With her is her 16-year-old daughter, Peggy Laird, who will be in school here. Mrs. Ailes is from Pecos and taught there before going to the choir college.

Valley View Club Plans For Exhibit At County Fair

The Valley View Home Demonstration Club made plans to use eggs as their educational exhibit at the Midland County Fair at a meeting Thursday in the Community Building. The group will meet September 23 to assemble and print placards for the exhibit.

During the meeting Mrs. Nettie B. Messick, county agent, gave a demonstration on kitchen arrangements and making covered buttons. Present were Mrs. O. O. Reid, Mrs. Will Long, Mrs. J. D. Bartlett, Mrs. T. O. Midkiff, Mrs. I. J. Howard, Mrs. J. C. Stevens, Jr., Mrs. Preston Vest and Mrs. B. L. Mason.

Midlander Is On Caribbean Cruise

NEW ORLEANS, LA. — Miss Elizabeth Pale of Midland, Texas, was among the passengers sailing Friday on the Alcoa Steamship Company's S. S. Alcoa Cavalier on a 17-day cruise of the Caribbean.

The Cavalier's itinerary lists calls at Cuidad Trujillo, Dominican Republic; La Guaira, Puerto Cabello and Guanta, Venezuela; Port of Spain, Trinidad; Willemstad, Curacao; and Kingston, Jamaica.

+ Terminal Tattler +

Mr. and Mrs. L. E. Blake of Sweetwater visited recently with Mr. and Mrs. L. E. Blake, Jr., and Mr. and Mrs. Alfred Arnold of Terminal. Their daughter, Mrs. Arnold, returned to Sweetwater with them for a brief visit.

Mrs. David Heath and children, Sandra and David, are visiting in Denison.

Mr. and Mrs. Guy Haverstock have had a brother, Roy Armstrong, of Crosbyton visiting with them.

Mr. and Mrs. Earl Watson and Mrs. Watson's father, C. C. Simmons, are visiting in Brownwood and Lawn this weekend.

Mr. and Mrs. E. B. Rinehart are vacationing in Lites Rock, Ark., and other points of interest.

Mr. and Mrs. Ray Lindsey, and Mrs. R. J. Lindsey are visiting in Teague over the holidays.

Dave Clark is visiting in Mineral Wells over the weekend.

Mr. and Mrs. Hoyt Morgan have returned from a visit with relatives in Houston. Peggy, their young daughter, remained for a three weeks visit with her grandparents.

Mrs. L. N. Rodenhiser has returned from a visit in St. Louis, Mo. Her daughter and son-in-law, Mr. and Mrs. Edward Shalper, returned with her for a visit here.

Mr. and Mrs. O. Stumbaugh were called to Oklahoma recently due to the illness of his grandmother.

John Carlson has been confined to his bed the last few days, due to illness.

Lions Meeting

The Terminal Lions had their family night Thursday evening. Barbecue was served to approximately 75 persons. Jim Daugherty, district governor, was the principal speaker. J. M. McDonald of Midland also spoke briefly to the group, as did the Rev. Curtis Rogers of Terminal. Jay Clark, Terminal Lions president, was master-of-ceremonies. A string band, composed of Terminal musicians, furnished music for entertainment; the youngsters played shuffle board; and many of the adults played "forty-two."

George Anders of Big Spring visited friends in the American Airlines office Friday.

Students—

(Continued from Page One)

man. The bride wore a teal blue street-length dress with brown accessories and carried a white Bible with gardenias. Miss Teaff was dressed in grey taffeta with a corsage of white flowers.

Before the ceremony, Richard Everett of Abilen sang "Because," D'Hardelet, accompanied by Mrs. Everett, and Gene White of Bryan sang "I Love You Truly." Jacobson-Bond. Mrs. Teaff played the piano accompaniment for White's song and also played the wedding marches. As the ceremony ended, White sang "I'll Go Where You Want Me to Go."

Members of the Senior Training Union of the church served as ushers and also were hosts for a reception in the Recreation Room.

Parents of the couple, Mr. and Mrs. W. D. Snody of Olney and Mr. and Mrs. L. L. Lake of Dallas, were out-of-city guests.

Family Night Proves New VFW Feature

"Family Nights" each second Thursday of the month are proving popular for members of the Midland Veterans of Foreign Wars post. Regular meeting nights of the unit are first and second Thursday of each month.

A recent bulletin to members indicated the VFW post is making progress and attendance is getting better. The unit will spend \$200 on repairs to Club 4149, its entertainment meeting place.

The VFW unit maintains a swimming pool, which was profitable this Summer.

Saturday night dances at the Air Terminal location feature music by Men Of The West. Name bands are scheduled at intervals.

LEAVES FOR COLLEGE

Rex Gerald left Friday for Tucson to enroll for the Fall semester at the University of Arizona, where he will be a Junior student. He has been visiting his parents, Mr. and Mrs. Roy Thompson, after attending the university's Summer Field School in Boulder City, Nev., and Point of Pines, Ariz.

the factors responsible for this unprecedented progress which in the last two centuries transformed a wilderness into the most prosperously advanced country ever known, and gave its people the highest standard of living in the world, is the American System of Free Enterprise. With the highest income and the fewest hours of work the average American has been able to produce more per hour than the worker of any other land. With this system, we are today the healthiest, wealthiest and happiest nation in the world. This system MUST be maintained for the benefit of humanity.

Soft Woods
Cone bearing trees, like pines, hemlocks and cedars, declares the National Wildlife Federation, are called conifers and are commercially classed as soft woods.

Human Bottleneck
The bottleneck in high-speed flight may be the human being unless science finds ways to protect him from the forces created by the higher speeds.

"LORD, TEACH US TO PRAY"

Long before Christ came upon the earth, men were resorting to prayer for divine help.

The people of Israel, we know, realized the power of prayer and prayed often in appeal for God's blessing in gratitude for His favors. Almost every one instinctively feels the need for prayer in time of danger and emergency.

Many people, unfortunately, do not know how to pray properly. Even the Apostles, watching as Jesus prayed, became conscious for the first time of the mighty power of a proper prayer. They could see on the Savior's face as He prayed, the reflection of a great inner peace and refreshment.

So they said to Jesus: "Lord, teach us to pray."
And Christ replied: "Pray thus... Our Father Who art in heaven, hallowed be Thy Name."

"Thy Kingdom come, Thy will be done, on earth as it is in heaven. Give us this day our daily bread."

"And forgive us our debts as we also forgive our debtors. And lead us not into temptation, but deliver us from evil."

The words of the "Lord's Prayer" are enshrined, of course, in the hearts of Christians everywhere. And yet Christ, in giving us this most beautiful prayer of all, did not tell us to "Pray thus." He said: "Pray thus."

He meant that we must pray with the realization that God is truly our Father... that His Name is to be revered as no other... that His Will is to be done here and hereafter... that we are to be truly

sorry for our injustices to others, and forgive those who injure us... and that we are to avoid sin.

People who question the value of prayer usually say they have tried it and "it didn't work." They mean by this, of course, that God

did not grant the things for which they prayed. A better understanding of proper prayer would make clear to them that petition for God's favor is only one kind of prayer... and that God does not grant every favor which we may want or think we need.

Proper prayer is not merely a petition for blessings, but also an expression of our love, our devotion and our gratitude to God... a declaration of our acceptance of God as our Father... a submission of our wishes and our will to the wishes and the Will of God.

Every day... in every land and every tongue... a mighty chorus of prayer rises from the hearts of Catholics to honor God—to implore His blessing—to pay Him grateful thanks. For the Church teaches... and Catholics know... that there is no power in the hands of men so great as the power of prayer.

The most famous collection of prayers known to history is the Book of Psalms... prayers in which God Himself teaches us clearly the dispositions with which we should pray.

To help you in your prayers, we will send you a beautifully illustrated edition of the Book of Psalms free of charge. Write today and ask for your copy of Book of Psalms No. 11—KC.

In New Location— Junior High School Ready For 'Biggest, Best' Year

By FAYE SHELburnE
With Wesley Martin as the new principal and with a new location on West Texas Street, the Midland Junior High School is prepared for 1950. Several new clubs which will be offered to the students for the first time this year will include the model airplane club, the puppet club and the press club. The clubs will meet during the activity period once a week. A student may join only one club.

The activity period, scheduled from 10:25 to 11:10 a. m., will include study hall, assembly programs, home room activities and club work on the various days during the week.

Also a full drill period each day will be provided for unit work. From 3:20 to 4 p. m. each afternoon the school will have a band, the various athletic teams, and the press club will meet as separate units for practice and work. Students requiring remedial work will use the drill period for special instruction and guidance.

Cafeteria Available
Classroom procedure for the school has been changed slightly. The sixth grade students will have all home-room instruction with the exception of music, art and physical education, which will be departmentalized. The seventh grade will be on a fifty-fifty basis with about half home-room and half departmentalized work. Eighth grade students will participate in all departmentalized instruction.

The new building just to the left of the tennis courts on the school grounds is the new cafeteria, another first for Junior High. Lunch will be served each day for students from 11:30 to 12:30 p. m. However, it is doubtful if students will be ready for use the first day of school. Two lunch periods have been scheduled in order to eliminate overcrowded conditions in the cafeteria lines and dining room. Sixth grade students will eat from 11:50 to 12:35, and the seventh and eighth grade students, from 12:10 to 12:55. The same schedule will be used for the high school cafeteria.

Student Council Plans
Something new which should be of special interest to the students is the student council plans. Junior High School will have a student council with officers elected from the student body as do many schools over the state. The council will be in charge of the ground work for the assembly programs. The president will preside over all of the assemblies.

Newspaper And Annual
A newspaper will be published by the press club, which will be organized soon after the beginning of school. The mimeographed paper will be organized and published on the basis of a commercial paper as nearly as possible. Also, an annual will be published by the Junior High students for the first time.

Shop will be offered for eighth grade students as a regular academic course. Woodcraft using hand tools and leathercraft will be included in the course of study. The shop in the gymnasium which formerly housed

location. It is located in the building which formerly housed the high school.

Ten additional Teachers
School will begin at 8:50 a. m., with 8:55 as tardy time, and will close at 4 p. m.

Ten additional teachers have been added to the faculty to take care of the enlarged program for the school this year. A full-time librarian will direct the students in an extensive reading program.

Many new policies and programs are being initiated by the administration and faculty. For the first time there will be a Junior High School Band with classroom instruction and study similar to that of the high school.

A newspaper will be published by the press club, which will be organized soon after the beginning of school. The mimeographed paper will be organized and published on the basis of a commercial paper as nearly as possible. Also, an annual will be published by the Junior High students for the first time.
