DON'T NAME IT

By HONEST BILL

President R. L. Grimes, of the Panhandle State Bank of Borger, Publisher J. C. Phillips, and Editor Bill Certain of the Borger Daily Herald, Bob Lindsay, President of the Borger School Board, and civic leader, Jimmie Koerue, past President and secretary of the Borger Lion Club, were interviewed Monday of this week by this writer, relative to the possibility of Borger citizens setting behind a movement to help secure a large lake project for Hansford county. While these men were careful in their statements, and were not willing to speak for Borger as a unit, all expressed their personal approval of such a movement.

It is known that Hansford county would not have man-power to build a large dam site, and the logical place to secure additional man-power would be among the unemployed of Borger. Borger has used Hansford county recreational sites during the last 7 years. Many of the citizens of Hansford would like to see a place for one of the largest lakes in the entire north West Texas area. They enjoyed duck hunting and fishing in this county during the last 7 years, and would welcome the opportunity to have a recreational park at their disposal.

Some was made this week by a member of the Hutchinson commissioners' court to view the possible lake site and perhaps talk with Hansford commissioners.

If Spearman and Hansford citizens will get behind the proposed lake and show proper officials we really want such a recreational spot, this writer believes that the project can be worked out rapidly!

Borger with their prosperous population and their rich oil interests are in a position to do more for the Hansford dam project than can be realized. Borger has a population of VOTING as a unit when they want to secure any possible advantage. They have sufficient population to demand recognition. PAMPA has already secured a very healthy appropriation of something more than \$300,000 for a proposed 300 acre lake. Borger has perhaps as large industrial population as Pampa. Our government officials realize that much of the revenue for the extensive social improvement program is coming from industry, and is anxious to appease both workers and capital.

This writer would like for every citizen of this county to use their influence with Borger friends in gaining their help in bringing to successful conclusion the application of our commissioners' for a major lake project.

There is entirely too much of the "You can't Trust Him" attitude among our American citizens today. Rapidly there is being sown a distrust for everybody and everything. Of course there is much basis for the rapidly growing feeling. Men and communities who have various causes have caused the distrust. Business and the administration in their respective attitudes must have contributed much to the feeling. On every hand we are seeing picking at the fault and shortcomings of each other rather than lauding the accomplishments.

It is a fact that the administration has accomplished wonders during the time it has been in power. On the other hand, this writer has found sound business men willing and able to make sacrifices. It is time the nation began to realize that underneath we are all BROTHERS.

It wouldn't it be refreshing for administration to come out in comments and brag on the accomplishments of their families, or at least that of the mythical wealthy group who are planning to spend literally millions of dollars in improvements—apparently just to cooperate in providing needed employment. Then it would be right refreshing for some National, O

35 MILLION FEET OF SWEET WET GAS IN ITIO TEST

STRATFORD, Feb. 3.—Operation continued this morning on the I.T.O. Davis No. 1, 12 miles south of Stratford, at a depth of 2,958 feet in a white dolomite formation. Thirty five million cubic feet of sweet wet gas was escaping from the well.

The volume of gas has continued to increase in the well since one and a half million feet was found at a depth of 1,700 feet. At 2,835 feet with the gas pressure continuing to increase, a light spray of oil was blown from the well.

Prospects Good
As the drill neared the white dolomite formation Wednesday morning a quiet hush fell over the crew, who continued to be courteous to visitors but had no information for them. Ranking company officials scurried about and were seen in conference with the drilling superintendent.

Young Drillers On Job
Young drillers have been put on the test to replace older men. Work is progressing, but trouble has developed during cold weather, by the freezing of water pipes to the well.

Boiler Moved 300 Feet From Well
The boiler furnishing power for machinery at the well was moved to a distance of over 300 feet from the well the latter part of last week. Elderly drillers on the tower complained work was becoming too dangerous.

FSA APPLICATIONS FOR LOANS START NOW

In order to have money available at the time it is needed, the Farm Security Administration is preparing loan applications for Spring crops at this time.

According to T. L. Taylor, FSA supervisor for Hansford county, all FSA borrowers and new applicants who expect to apply for a further loan should do so as soon as possible.

FARM LIMITING IS POSTPONED

Congressional conferees reported today they had agreed to postpone until 1939 a \$10,000 limitation on federal benefit payments under the new farm program.

They previously had agreed to limit to \$10,000 the amount any corporation could receive for compliance with the program, and to permit individuals or partnerships farming in several states to receive no more than that amount for compliance in each state.

They said they decided to delay the limitation because many large land owners and corporations had made leases and agreements for 1938 while expecting federal farm programs to continue as at present.

Delaying the limit to 1939 will give them plenty of notice said Senator Carl Hatch (Democrat, New Mexico).

Vera Beth McClellan, Craig Davidson, and Joe Womble of Texas Tech have been in Spearman this week.

JANUARY IS DRY AND DUSTY

According to the records of U. S. Weather Observer, F. W. Brandt, not a single trace of moisture was recorded during the month.

There has been 7 months without any moisture during the past 59 years. However, January is always the driest month of the year, the record showing more than 30 years with less than 1-2 inch of moisture, and 15 years with less than .10 inch of moisture. February is also a dry month according to past records, there having been 8 February's without a single drop of moisture during the past 59 years. There are only five months of February during the past years that had more than 1 inch of moisture, but two of these five years recorded a total above 2 inches per month.

According to the record we have had only 5.10 inches of moisture since the June rains of last year. This covers a period of 7 months, and is far below the normal rainfall for that period of time.

January brought several dusts, and the February duster of Tuesday and Wednesday of this week indicates that we will have recurrence of the dust storms without moisture arrives. Some Hansford land moved this week.

DUSTERS SUPPORT THEORIES OF SCS GROUP

The first dust storms of the year, causing considerable soil movement in the wind erosion area with a resultant damage to wheat in some sections, give conclusive evidence of soil and moisture conservation practices on a wide scale, says H. H. Fennell, Director of the SCS in the Southern Great Plains region.

The drifting soil, which in the form of dust storms, is plaguing a large portion of the Plains again comes from fields lacking in vegetative cover.

High winds normally prevail in this area from January until May the director points out. The extended drought with resultant crop failures where moisture was not conserved, has caused the organic matter to become exhausted in millions of acres of cultivated fields. Actually, when the period of high winds comes, the finely pulverized top soil of these unprotected areas becomes subject to blowing and dust storms result.

However conditions in the wind erosion area comprised of parts of Texas, Oklahoma, Kansas, Colorado and New Mexico are much improved over last year.

During the blowing season last year, more than 300,000 acres in these demonstration areas were subject to wind erosion damage. This year, only 100,000 acres are reported to be subject to erosion of this type.

Contour tillage, supplemented by terraces where necessary, has held the water on fields where it fell and conserved moisture for crop growth. By the growing of soil binding cover crops and protecting farmers have anchored their soil. Improved cropping systems have been adopted and protective strip cropping has been used in parts of the region. On range and pasture land, contour furrows have conserved moisture and provided better grass growth. Controlled grazing to prevent depletion of the range has become more widespread.

Even with subnormal rainfall over most of the wind erosion region during the 1937 growing season, farmers who conserved the available moisture were able to grow crops. In portions of the region where better moisture conditions prevailed, farmers found that soil and moisture conservation practices were of material aid in boosting their crop yields.

All one needs to do to determine where dust storms originate is to inspect a few fields when high winds are blowing. Practically no soil movement will be observed on fields having a good vegetative cover. On the other hand, fields without this protection may be seen contributing valuable top soil to the dust storms which plague the area and take their heavy toll in lost crop yields.

MRS. BERT O. CATOR CELEBRATES BIRTHDAY

Tuesday Feb. 1, was the occasion for a most enjoyable affair, in the ranch home of Mrs. Bert O. Cator, near Morse, Texas. She was pleasantly surprised when a group of relatives and friends gathered to help celebrate her 71st birthday. Mrs. Cator is a pioneer resident of Hansford County, having come here as a bride in 1900. She and her late husband Bert O. Cator have been instrumental in the upbuilding of this plains country, he, having served as Sheriff and Tax Collector in the early days of Hansford County.

They have reared a fine family of five sons and one daughter, who are living near and were all present on this happy occasion. One granddaughter, Bertie Louise daughter of Mr. and Mrs. Bertie Cator also celebrated her 5th birthday on this day.

The honoree received some lovely gifts one being a friendship quilt.

After partaking of a sumptuous dinner, the afternoon was spent visiting and reliving some past experiences with the old time friends.

The guests departed in the late afternoon wishing Mrs. Cator many more happy birthdays.

Those present were, Cordia Lanners, Edith Cator, Edith M. Murphy, Irene Ryan, Louise Nobles, Lola Mae Cator, Alvin Cator, George Cator, Buster Cator, Bob Cator, W. J. Mathis, Bert Cator, John Cator, Chester Mitts, Eva Pierce, Opal Cator, Leone Cator, Ola Balentine, Jessie Hays, Mrs. J. S. Caldwell, Mrs. J. M. Miller, Ruby Womble, and two children Mrs. Raymond Keith and four daughters, Ina Ryan, Emily Smith and daughter, Mrs. H. J. Gay, Keece Richardson, Mrs. W. E. Caldwell, Annie E. Coffee, Mrs. W. J. Mathis, Ella Womble Mrs. C. C. Kellog and daughter, Mrs. Jack Johnson, Daphne Womble, Vina Hampe, Beattie Mitts and two sons, Belle Barkley, Ginger Cator, Leslie J. Cator, Olene Cator, Betty Joyce Cator, Bertie Cator, Helen Buchanan Fisher, Marshall Cator, Pete Cator, Gladys Cator, Vina Cator and Patsy Cator.

LIONS WILL SPONSOR AMARILLO CARAVAN MARCH NINTH

Members of the Lion club voted to sponsor a caravan of Spearman citizens to attend the Mother-in-Law Day at Amarillo March 9. The club will take care of transportation for others who do not have ways to travel.

A spirited contest is planned in the club membership between Lion County Agent Joe Hatton and Lion School Supt. W. R. Finley for the privilege of being the Spearman representative to preside at Mrs. Roosevelt with a bouquet of roses. Both men are better than 6 feet 2 inches in height, weigh more than 200 pounds and are quite handsome. The club members have accepted the campaign and are holding out for more than 250 a vote, the first offered by Lion Hatton. Lion Finley is pretending that he is not much interested but an office girl at the school building declared she was looking over advertisements of toupees—Wednesday.

While Mr. Finley is not by any manner bald, there is just a scarcity of hair and should he win in the beauty contest, it is alleged that Mrs. Roosevelt will never know but what he has a full head of hair.

Agriculture Meeting At Gruver Feb. 10th

The regular meeting of the Hansford Agricultural Association will be held next Thursday night Feb. 10th at the School house in Gruver, beginning at 7:30. Every one is urged to be present, we hope to have some definite information on the new farm bill now in conference, also the number of new members joining recently and other discussions in general will be brought up.

Fathers Night' PTA Program Tuesday

One of the outstanding programs of the year is planned for members of the PTA organization and friends who will attend when "Fathers Night" will be held Tuesday evening Feb. 3, at the high school. All parents are urged to attend the meeting.

Pupils of Mrs. Loftin and Mrs. Daily To Appear In Recital Feb. 10th

Thursday night at 7:30, Feb. 10, pupils of Mrs. F. J. Daily and Mrs. A. F. Loftin will appear in an Ethelbert Nevin recital.

LION CLUB MEMBERS ENJOY SCHOOL KIDS PROGRAM

Two talented members of the Spearman HI school were guest artists at the regular meeting of the Lion club held Tuesday noon. Miss Martha Delon Kirk gave a humorous reading and J. D. Wilbanks gave three combination song-guitar and harmonica selections. We hasten to say that the harmonica and guitar was one combination and the song and guitar was another combination. Young Wilbanks is very talented but has not yet been able to play the guitar, sing and play a harmonica at the same time.

LET'S HELP LITTLE ORPHAN HANSFORD

An Editorial appearing in the BORGER DAILY HERALD.

Hansford county is making a spirited fight for the location of a major lake project within the border of the county. Every advantage is available except a concentrated population.

Our neighbors who have been our friends and have supported us in our varied social, and business enterprises, are now asking that we join them, and add the weight of our population, and such political prestige as we may have to their plea for a major lake project.

Hutchinson county, so we are informed, has not made application for a major lake project. This because no favorable site has been located within the boundary of the county.

It appears an open and shut case of everything to win and nothing to lose. Should we help our friend and neighbor in carrying to a successful conclusion their project for a lake, labor from Hutchinson county would be used, perhaps in greater numbers than that of Hansford county, since there would not be sufficient labor in Hansford county to complete a major project. The lake would be open to the Hutchinson public, and scarcely a 30 minute drive from our doors in Borger.

It appears from a brief review of a lengthy editorial written by Bill Miller of the Spearman Reporter, that this immediate section of the Panhandle has been sadly neglected in the matter of Federal Aid. To the average Borger it certainly does not arouse much enthusiasm to realize that they must get in their cars and drive over rough roads to Gray County and fish and hunt in the large \$300,000 800-acre lake the Federal Government is building for the benefit of the oil fraternity and workers to our east. We cannot help wondering why the Federal Government could not spend a smaller sum (it would not take nearly so much) to build a lake in Hansford county. The general opinion in Hansford county is that a dam could be built on the Palo Duro that would impound a lake of some 2,000 acres for less than half the sum the government is spending on either of the two largest projects already approved.

After all, the people of this section of the Panhandle were of the opinion that the proposed program of lake building was for flood control and prevention of soil erosion. Since it appears that the program has turned into a race for RECREATIONAL adventures that can advantageously service the largest blocks of our population, then it certainly gives Hutchinson county the chance to prove their friendship for our next door neighbors.

FARM SUPERVISOR VISITS COUNTY

Mr. Walter R. Allen, Amarillo, district supervisor of farm debt adjustments, FSA has just visited Hansford County. He says that under the present program, any farmer-debtor, whether or not a borrower from the FSA may have private confidential aid in making an analysis of his debt situation by applying to T. L. Taylor of Spearman, county supervisor for Hansford county, or to any member of the local farm credit committee composed of A. L. Jackson and Homer Allen.

If desired by the debtor, a meeting of the committee may be called and all creditors concerned notified with a view to adjusting debts through agreement by scaledown or extension, or both, to the ability of the debtor to pay or reasonable expectation of paying. This service is offered without charge by this division of the Department of Agriculture.

Funeral Services Held For Former Citizen

Funeral services for J. M. Beck Guymon pioneer, and at one time resident of Hansford county, were held at Guymon Methodist Church Sunday afternoon Jan. 30.

Death came as result of an accident when Mr. Beck was hit by an automobile driven by Wm H. Robertson, member of the state highway engineers staff of Guymon.

Mr. Beck was the father of Mrs. Bill Nollner of Hansford county, and the father of a former citizen Jim Beck. Several years ago the elder J. M. Beck made his home with Jim Beck here in Hansford county, and many of the old time residents became well acquainted with him.

Funeral services were conducted by the Masonic Lodge of Guymon, Mason Homer Long acting in the capacity of Master delivering the main part of the eulogy.

Among the people of Hansford county attending were: Dr. F. J. Daily, L. S. McClellan, R. L. McClellan and M. R. Grandon.

Agricultural Meeting At School Auditorium Monday Feb. 7th

MILITARY UNIFORMS FOR BAND MEMBERS PLANNED

A movement is on foot to secure military uniforms for the Spearman school band members. The original plan was to purchase these on or before the band goes to the state meeting at Vernon in the Spring. Since the band will take part in the Mother-in-Law parade at Amarillo, and it is expected that 200,000 people will be present to see the parade and visit Mrs. Roosevelt, those behind the movement are working towards securing the uniforms for the March 9th event.

Newspapers Lauded As Advertising Media

Giving due credit for the best year in its history to the heavy use of newspaper advertising the Continental Oil Company has announced that its 1938 advertising appropriations for newspaper space will be increased by 17 percent over the 1937 expenditures.

Continental, during the coming year, will allot to the daily and weekly press about 66 percent of all that is to be spent on consumer media and will place advertising in approximately 1,250 newspapers. The new advertising will continue to deal with Conoco Bronze gasoline and Conoco Germ Processed motor oil and the action of this lubricant, due to the presence of a product of the research laboratories, in forming an abnormally tough film that stays on metal surfaces even while the motor is idle instead of draining off.

International Sunday School Lesson

By Dr. J. E. Nunn

"And he arose and followed him." From his simple statement of fact at least the following truths may be gathered: Matthew had absolute confidence in the Lord Jesus Christ; he believed that the ideals and principles of Jesus were, though he was not living them, absolutely right.

Jesus is not like a foolish woman who tries to mend an old worn out robe with a piece of goods fresh from the loom. The reason is that the piece put in tears away from the old garment, the new from the old, and a worse rent is made. Discard the old entirely, and accept not merely a bit of the new, but all the new in its completeness.

DO NOT NEGLECT A COLD Rub soothing, warming Musterole well into your chest and throat. Musterole is NOT just a salve. It's a "counter-irritant" containing good old-fashioned cold remedies—oil of mustard, menthol, camphor and other valuable ingredients.

A renewal of the belief that stripping plants in this section of Texas is causing the continued drought becomes emphatic. When we review the facts that the gases hoisted into the air is stripped of most of its moisture contents, when the gasoline is removed from the gas, it does not become hard to believe that this gas which forms a vapor cloud around this area would affect the humidity of the air.

In the discussion of the prospective agricultural program for Hansford county, C. A. Gibner revealed that some of Hansford citizens had been very successful in sheep raising during the past two years. This is one source of income that could be studied and perfected by many of Hansford citizens. Of course if every land owner in Hansford and adjoining counties should take up sheep herding on a large scale the price would soon become so low that a deficit would be encountered instead of a profit. Never the less, this writer believes that the sheep raising industry can will help bring Hansford out of the red.

PAPER WADS

The students of Spearman Schools are to be congratulated on their conduct in chapel last Friday. For once there was not a great deal of confusion; every one filed in quietly, took a seat, and gave his attention to the program instead of the person sitting next to him.

R. V. CONVERSE SAYS:

A Spearman girl remarked to her friend about a certain young man, the friend replied, "Yes he looks like holding company to me."

Speaking of things going round and round, a Mrs. Blowers who lives in England says, "A good mouse has a tail that will reach its nose". She is engaged in raising different colored mice for the market.

President Roosevelt has recommended a cut in the government money to be allotted to Texas for roads, and there is a strong protest going up. I wonder how they suppose he can balance the budget if there is no one to take the cut.

The writer was at the Holt School House last Friday night and attended the Agricultural Association meeting. The program was an excellent one, the county Agent of Hutchinson county displayed a map showing where the committee had located the land to be taken out of production and put back to grass.

Garland Caldwell, D. W. Hazelwood, and Kathleen Greecer. B—Everett Clement, J. E. Gerber, Elnora Close, Mary Nell Harbour, Eva Hilton and George Hightower.

J. Hamilton Lewis, Dem. of Ill., with the idea that nations owing war debts to our Uncle Sam should assign certain islands in the Atlantic and Pacific Ocean as part payment. Someone should point out to him that we had a hard time getting rid of some islands just a short time ago and it cost plenty. We might trade for colored mice and then kill the mice, like the merchant who traded a bad debt for a dog and then killed the dog.

DORCAS SOCIETY

The Dorcas society met in the home of Mrs. Ike Kutts on Thursday Jan. 27. Devotional was taken from the 1st chapter of Rev., led by Mrs. C. L. Scheil. A very interesting lesson study led by Mrs. Jess Womble, was taken from the 18th and 19th chapters John.

Refreshments were served to the following members: Mesdames Jess Womble, C. L. Scheil, Jess Yates, L. E. Wilbanks, Vester Hill and Miss Carrie B. Neabitt. Mrs. Floyd Wilbanks was a visitor. The next meeting will be at the home of Mrs. L. E. Wilbanks Thursday Feb. 3.

MRS. LILLIE ENTERTAINS

Mrs. T. R. Lillie entertained with a "42" party Saturday evening celebrating the birthday of Mr. Lillie. "Forty-two" was played at four tables. At a late hour an attractive salad course was served to the following: Mr. and Mrs. Bob Archer, Mr. and Mrs. Olin Sheets, Mr. and Mrs. Tom Allen, Mr. and Mrs. Paul Roach, Colleen Burkes, Elizabeth White, Rhoda Overton, Mr. and Mrs. Claude Sheets the hostess and the honoree, Mr. Lillie received many birthday presents.

FUN AND FROLIC

- Here are eight reasons why you get gray. 1. The fellow who bluffs—the boy or girl who says "I'm a head and the loud voice." 2. The fellow who took the before and knows just coming next. 3. The sweet little beauty that don't know what it's all about. The silent bird who might something to say but keeps himself. The fellow who hasn't read a line that far in the text and attempts to stage a filibuster and wins the entire class off the stage. 6. The deadly serious young radical that knows only that he's radical. 7. The boy taking the course just for the credit. 8. The sleepers—they don't count unless they snore. —The Salemica. When girls used to go to swim they dressed like Mother Hubbard. Now when they go to swim they dress more like her cupboard. —Copied. An airplane is like poison because one drop will kill you. —The Brand.

SCRAPS

"The Citadel" reviewed by Mrs. Upshaw here last week was very interesting. This is one of the best books of the season and everyone should read it. It is very realistic and true to life. It is good in describing a man striving for success. Just when he was becoming successful, he began to plan and set his ambitions on getting money instead of helping people. For a while his desire for money conquered him. But the story becomes much better when he goes back to his work, and the way the story ends—well, that's for you to find out.

My Definition Of A Bookworm

—BETTY MORTON

A bookworm is a person that is different from almost any other specimen of humanity. Instead of going out after school to play ball or to visit a friend, this curious creature is content to curl up in a soft chair with a book. So incomprehensible is this soul, that Webster's unabridged dictionary for perusal (if an unabridged edition is not available, a pocket dictionary will do).

NEW PUPILS IN SPEARMAN HIGH SCHOOL

The students of SHS are very glad to have as a classmate, Aline Bagwell, who moved here from Texhoma, Oklahoma. Boy, can she twirl a baton! She has taken lessons at Texhoma and has stirred up much enthusiasm here with her feats. She modestly refused to be our Drum Major, although she is well fitted for the position.

Primary Dept. Organizes For League Meet

The Primary Dept. met some time ago to organize for interscholastic league meet. The following will have charge of the different phases of work. Spelling, Miss Hale; Story Telling, Miss Bailey and Miss Roach; Declamation, Miss Douglas and Mrs. Tuttle; Music Miss Gantt; We are going to work hard to win some of the prizes this year.

IT ISN'T THE SCHOOL—IT'S YOU

If you want to live in the kind of a school, That's the kind of a school you like. You needn't slip your book in a grip. And start on a long, long hike; You'll finally find what you left behind; For there's nothing really new. It's a knock at yourself when you knock the school. It isn't the school—it's you. Real schools are not made by lads afraid To work hard to get ahead; When everyone works and nobody shirks You can raise a school from the dead, And if while you make your personal gain. Your neighbor can make one too Your school will be what you want to see! It isn't the School, it's YOU! —copied.

Ida Mae McLeod Awarded Sportsmanship Trophy

Last weekend at the Canadian Tourney, Ida Mae McLeod, No. 4, of the Spearman Lynxettes was awarded a large, bronze sportsmanship trophy. Ida Mae won it by smiling through every difficulty out on the court and by being a good sport in every way. The Spearman Lynxettes are certainly proud of her and feel that she surely deserved the trophy. Out of the 18 teams attending the tournament consisting of 108 players, Ida Mae was the one chosen by the Judges to receive this award. Here's an orchid to Ida Mae for all her pluckiness and here's hoping she wins many more such trophies.

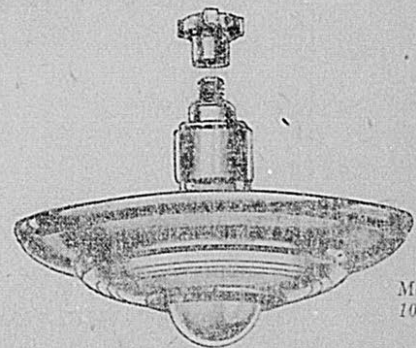

Home Ec. 1 News

The Home Ec. 1 girls are studying child care and training. Each girl pretended that she was a teacher telling her first grade class a story. They were very interesting, and those tiny freshmen girls enjoyed them immensely. The Home Ec. girls are going to study interior decorating and are anxious to begin as they think it will be interesting. those infallible symptoms of that annoying piece of humanity, The Bookworm.

BUT, many people who are complaining about the amounts of their gas bill, are rather careless in the care of their gas appliances. Of course we are glad to get as large volume as possible, but we do want you to get the best value for your money. We suggest you check up, and see that your gas appliances are burning the correct amount of gas—and not wasting gas. When you leave your home, don't leave a roaring fire—it is a fire hazard, and foolish waste of heat.
