SEEKING FUNDS FOR UPRISING

Russian Revolutionists Coming to United States

GORKY IS ON WAY

Noted Author Expected to Solicit Means for Demonstration Against Czar

By Associated Press.

NEW YORK, April 7.—The Times today says:

Some inside facts in connection with the new revolutionary movement in Russia were told yesterday by one of its chief agents, who for the last five weeks has been in hiding in this city with a price of 50,000 roubles on his head, laid by the czar's government. This man, who for the present appears as Ivan Narodny, is 36 years old. He was the leader of the Cronstadt uprising last October and was the head of the provisional republic which, unknown to the outside world, existed in the Baltic provinces during three weeks in November and December last, until it was snuffed out in an orgy of blood and excesses by the Cossacks who killed Narodny's wife and two children and burned his home. It was then that the price was set on Narodny's head. Prior to that he had spent four years in the fortress of St. Peter and St. Paul, the grim bastile of the czar's capital.

M. Narodny comes to this country with credentials from the Russian military revolutionists for the purpose of raising funds to render effective the new Russian revolution. In this he will be aided by Nicholas Tchayoffsky, who is known as "the father of Russian revolution," and by Maxim Gorky, the writer, who is due here next week.

An Armed Revolution

"Our next move," said M. Narodny, "will be more far reaching and entirely different from any of the movements that have preceded it. These have been little revolts; this will be an armed revolution. The uprisings that have gone before have been more or less local in nature and generally started by some one party or organization. This movement will sweep the country and will have behind it every organization working for social reform. The ultimate goal will be not a constitutional monarchy, but a republic.

"A few months ago many of the liberal organizations would have been satisfied with a constitutional assembly and a constitution. Now we will not stop short of the republic. On that point there is complete uannimity among the revolutionary bodies who now for the first time are working harmoniously together through a central committee. Russia will be free.

"In the coming revolution we place almost our chief reliance on the army. But the army is more prone to start a revolution than almost any part of the Russian people.

"I know the army very well, for I have been in intimate touch with it for many years. A majority of the officers and the men in practically every infantry and aritllery regiment in St. Petersburg and in northern Russia are in sympathy with our movement now. Others will be won over before fall. The only uncertain element is the Cossacks and the crack cavalry regiments of the guard. But even the latter have been reached by our propaganda. I would almost be inclined to say that the Cossacks are the only standby of the Russian government and they will desert when the government is unable to pay them."

M. Narodny was asked what influence the convening of the douma would have on the revolutionary movement.

Douma Not Enough

"None, whatever," he replied. "The people in the provinces will never be satisfied with the douma. The leaders of liberal thought to whom the oppressed people looked as their future delegates to the national assembly have either been killed, cast into prison, sent to Siberia or into voluntary exile.

"The government has placed in the hands of the officers supervising the elections in the provinces a list containing fthe names of candidates that must be elected. Some tool of the government places them in nomination and the people are either coerced into voting for them, or where this is impracticable, they are declared elected on fraudulent counts. In the large cities, however, where public opinion is better crystallized and under more competent leadership, the government cannot commit the same outrages as in the country districts, where there is a lack of such leadership. Especially is this true of St. Petersburg, which besides, in a sense, is under the keen gaze of the outside world. But the douma will in no sense be a body representative of anything except the existing government and but few people in Russia are fools enough to believe it will be.

Takes Hope in Witte

"When M. Witte returned to Russia after concluding the peace of Portsmouth and took up the reins of government our hopes were centered in him for a time, as we looked to him as another Moses, who had a glimpse of the promised land. One of my friends had a talk with him and held out to him the prospect of co-operation of all the revolutionary organizations in his plans on condition that they were granted the freedom of speech and the right of meeting in public. He assented, but he kept none of his promises.

"M. Witte undoubtedly meant well," added M. Narodny, "but the trouble with him is that he lacks character and backbone. He is completely in the hands of the grand ducal ring, as is the czar. We do not blame all the excesses and outrages on the czar even. He is undoubtedly a young man with a kindly disposition. But the tragedy of the Romanoffs seems to have culminated in him. He is insane—else things might have been different."

FOR DEFENSE OF SLOCUM PILOT

New York Master Mates Raising Fund

By Associated Press.

NEW YORK, April 7.—The local branch of the American Association of Master Mates and Pilots of Steam Vessls has raised more than $1,000 for the defense of Captain Van Schaick of the steamboat General Slocum, and contributions are coming in generally. When Captain Shaick was sentenced to a term of ten years for manslaughter because of his connection with the burning of the steamboat, the local association began to raise a fund to enable him to appeal, and to give him the best legal aid possible. Seattle sent $100, San Francisco $150, and $150 came from Honolulu. From Washington, D. C., came $81 yesterday, with a note saying that every licensed pilot except one in the harbor had contributed. Up to date only one-third of the country's harbors have been heard from, and it is believed that $5,000 will be raised before the case comes up on appeal in October. Captain Van Schaick is now out on bail.

Corporations Delinquent

AUSTIN, Texas, April 7.—There are still a large number of corporations that have not as yet complied with the provisions of the Williams intangible tax law and filed reports with the comptroller's department. A penalty of $200 is provided for all such corporations and the time for filing these reports expired March 1, 1906.

CHAFFEE MAY BE S. P. C. A. PRESIDENT

Office in Humane Organizations Pays $6,000

By Associated Press.

NEW YORK, April 7.—The Herald today says:

General Adna R. Chaffee very probably will succeed John P. Haines as president of the Society for the Prevention of Cruelty to Animals. The place has not been formally offered to him, nor has he positively said that he would accept, but it was learned yesterday that his name is the one most prominently before the committee which is seeking a new head for the organization, and that this committee has recently been in communication with him.

With the arrival in New York early next week of General Chaffee, it is understood that the matter will be laid before him. The office carries a salary of $6,000 a year.

MONEY CLOUDS DARK

Sky of Wall Street Market Black With Financial Storm

By Associated Press.

NEW YORK, April 7.—Stocks started the week in Wall street in brisk demand and at higher prices, but the growing stringency of the money market paralyzed the demand and led to a reaction. The money stringency increased from day to day instead of relaxing, and thus disappointed speculative calculations. Large demands for currency from interior points which draw down the cash reserves of the New York banks was the immediate factor in squeezing the money market. But the large tie-up of capital in new bond and stock issues, in extensive outlays for expansion in various lines of industy and in real estate investment and speculation, together with heavy demands for circulation on account of the trade activity were recognized as the predisposing cause of the money situation.

ASCETIC BETS HE CAN MAKE GOOD

Prof. Gluck to Tell Truth and Eat Raw Food

By Associated Press.

CHICAGO, Ill., April 7.—Professor Adolph Gluck is to tell the truth a year on a wager of $25,000. The agreement will be entered into today with Rudolph Jones, a neighbor, and Professor Gluck's property will be staked as the issue of his adherence to the plain, skeletonized, colorless truth.

Professor Gluck holds the degree of doctor of philosophy from the University of Lemberg, Galatia. As he expresses it, he is to demonstrate empirically what he has long held to be rationally true—namely: That long continued mendacity will in time lead a man to a point of "sad satiety," where he will find it more pleasing to leave the trimmings of his conversation and reduce it to the scriptural yea, yea, and nay, nay.

Professor Gluck will undertake not only to cleave to the truth during the year, but he will enter into an ascetic life which would have done credit to a middle-age adept.

In the event of Jones' refusal to sign the articles of agreement today, Professor Gluck makes the following announcement to the public:

"I am willing to give a demonstration of the philosophy which I have been teaching for years and I am willing to agree to live according to this philosophy for one year on a wager of $25,000. I will agree during that time not to utter a single falsehood, to eat nothing but raw, uncooked foods, to fast thirty-six continuous hours every week and to forego pleasure of every description. Any person making this wager with me may take any means he chooses of satisfying himself that I keep my agreement, even to the extent of placing a watch over me.

"All philosophies which have been developed in the history of the world have amounted to nothing, because there has be neno demonstration of their use or their soundness. Before beginning I will sign an agreement to deed over all my property if a single violation of my pledge is found."

CAMBRIDGE WINS IN THAMES RACE

Oxford Loses Big 'Varsity River Contest

By Associated Press.

LONDON, April 7.—Cambridge won the university boat race from Oxford on the Thames today, time 18 minutes. The start was made at 12:03 p. m., and Cambridge finished at 12:21 o'clock.

Today's Oxford-Cambridge boat race was the sixty-third contest between the crews of the two great English Universities. Since 1853 races have been held annually. Between 1829, the year of the first aquatic contest between these universities, and 1905, Oxford won thirty-four and Cambridge twenty-seven times, the race in 1877 resulting in a dead heat. Last year Oxford won by three lengths, rowing the course from Putney to Morelake in 20 minutes and 35 seconds. At the outset of this season Oxford was regarded as having a better chance at winning, her oarsmen being superior in weight and physique to those of Cambridge. Later, however, several members of the Oxford crew were incapacitated, and, in the betting yesterday, Cambridge was the favorite.

Special to The Telegram.

QUANAH, Texas, April 7.—While Tom Cole, son of Mrs. Thomas Cole, was in company with another small boy, swimming his horse in the irrigation lake four miles south of this place, he fell into the lake and was drowned before assistance could reach him. The water was twenty feet deep. The body was recovered after three hours.

WESTERN PA. STRIKE OVER

Companies Handling 3,000,000 Tonnage Sign Agreement

SCALE OF 1903

Five Thousand Bituminous Miners Will Resume Places Monday Morning

By Associated Press.

PITTSBURG, Pa., April 7.—With only one mine controlled by the Pittsburg Coal Company idle in the Pittsbug district, the disruption of the "Stand Pat" organization of independents last night, and the break in the ranks of the strikers in the iron field miners' strike, so far as the bituminous coal fields of Western Pennsylvania are concerned, is practically over.

Following last night's action of the independents in dissolving the mutual compact not to sign the scale of 1903, the announcement is made today by officials of the Mine Workers' union that nine firms placed their names to the agreement. The companies signing were: Pittsburg Buffalo Company, 1,000,000 tons.

Kirbride Coal Company, 70,000 tons.
Clyde Coal Company, 200,000 tons.
Meadow Lands Coal Company, 360,000 tons.
Diamond Coal and Coke Company, 225,000 tons.
Carnegie Coal Company, 600,000 tons.
Fayette Coal Company, 200,000 tons.
Charleroi Coal Company, 200,000 tons.
Pittsburg and Washington Coal Company, 65,000 tons.

These companies represent a total tonnage of nearly 3,000,000 tons, and employ 5,000 men. During the past week they had the mines closed and repaired, and work will be resumed Monday.

Railway Men to Return to Work

By Associated Press.

SHAMOKIN, Pa., April 7.—A number of Pennsylvania railroad employes who were laid off this week owing to the suspension of mining, were today ordered to report for duty Monday. The miners believe this is an indication that the operators intend making some move which will cause President Mitchell to order the men to return to work.

Indiana Signs

By Associated Press.

INDIANAPOLIS, April 7.—Eighteen per cent of the total coal tonnage of Indiana signed the 1903 scale as a result of the first week's strike. The miners say they are satisfied with the progress of events to date.

BACK TAXES GO TO PRIMARY SCHOOLS

Michigan Railroads Begin the Payment of Old Dues

By Associated Press.

LANSING, Mich., April 7.—The Chicago Northwestern railroad yesterday paid into the Michigan state treasury $640,758 for back taxes. This is the first road to pay up its taxes under the recent decision of the United States supreme court upholding the Michigan ad valorem tax law of 1901. The railroads, while continuing the new ad valorem law, continued paying their taxes each year under the old specific law. They now have to pay the difference and to pay in addition a penalty of 1 per cent per month for the delay in complying with the terms of the new law. This penalty in the case of the Chicago Northwestern amounted to $106,140.

These heavy payments of back taxes from the railroads will go into the primary school fund. It is estimated that the aggregate amount which will be received by the schools of the city of Detroit alone will be $800,000, and schools throughout the state will receive their due proportion. For paying the 1905 taxes, the railroads have the remainder of April before the 1 per cent per month penalty will run against them. For the previous years since the ad valorem law went into effect the penalty is already running.

"LOOK OUT FOR DOWIE" IS WARNING CRY AT ZION CITY

Fiery Leader Is Expected to Make a Desperate Effort Toward Again Rallying His Followers. May Use Physical Force.

Special to The Telegram.

ZION CITY, Ill., April 7.—The religious zealots of this little city are not a unit against Dr. Dowie, the deposed leader, by any means. The majority are following Voliva, Granger and other rebels, of course, but that Dowie still retains friends and many others who are on the fence is evidenced by the frequent remark you hear on the street:

"Wait till Dr. Dowie comes back."

The Dowieites as a general class are impressionable, credulous folks, easily swayed by a leader.

If Dowie, with patriarchal beard, snow white hair, sonorous, musical voice, great personal force and powers of eloquence, returns to Zion, it is not improbable that he might inflame the colonists with their former religious zeal and win them back.

Lawyers assert he has suffient grounds to establish strong equitay claims to recover all he has been divested of.

It is within the range of possible events that Dowie may attempt an invasion by physical force. He has frequently declared himself a believer in the biblical injunction to "destroy evil." Everything which runs counter to the opinion of the "apostle" is "evil," and he has said the use of force is justifiable in resisting the "devil."

Many former adherents of Dowie who now follow the leader of the younger leader could be won with one of Dowie's fiery sermons.

Dowie is thought to have between $100,000 and $200,000 in his possession in Mexico. He owns a concession in Africa on which he expects to borrow $1,000,000. It is threatened he will be prosecuted if he returns to America.

Much of the foundation for the startling stories told of Dowie's personal relations with members of his flock is found in the alleged discovery of what purports to be self-accusing letters in the private vault at Zion City, due to the work of a committee apointed pby Zionites for the purpose of clearing the atmosphere after the famous telegram had been dispatched to Dowie in Mexico announcing to him that he had been deposed.

FIELDING H. WILHITE, Field Secretary of Zion, Appointed Chief at Zion City by Dowie Until the Latter Gets Back.

One of these purported letters was addressed to Mrs. Emily Weare before she was read out of Zion church. An extract from it is deemed to be most sensational, and reads as follows:

"Venomous tongues shall be torn from their roots. The people shall not hearken to slander.

"If in the sacred presence of Jehovas I pray for the complete cleansing, which is a matter between God and me, the divine will prompted such measures as were thought fit in the interest of your case. As a servant of the Lord I carried them out. I have no recollection in fact of what occurred beyond the knowledge that mine own soul was contaminated in a degree in saving yours. I paid your debts at the instigation of God. I cleansed your body at His command."

Ten affidavits by household servants also are said to be in the possession of the new general overseer, Wilbur Glen Voliva, relating the domestic difficulties and secret religious teachings of their leader and employer. Some of these have reference to the ejectment from Zion of Miss Ruth Hofer, the Swiss convert.

THE GREAT LACE MILLS AT ZION CITY

The financial base of prosperity for Zion, according to Prophet Dowie's original plans, was the lace mills. Organized five years ago and incorporated for $500,000, stock was sold throughout the world aggregating, it is claimed, $2,500,00. An immense building was erected in Zion City. It covered half a bolck of ground and was a story and a half in height.

Several hundred thousand dollars' worth of English lace making machinery was imported and set up. Skilled workmen were employed at Nottingham, England, and brought here on contract, some of which involved $50 a week in wages. Some time after the mills were started about 400 persons were at work on day and night shifts. Then according to Samuel Packard, the lawyer who carried on the negotiations for the purchase of the land at Zion City, Dowie began to take from the lace industry the money necessary for its successful conduct as a business enterprise. The business lagged until the number of employes dwindled to less than fifty two months ago. At the present time, however, there art 200 people at work. It was Dowie's intention ultimately to have 1,000 persons employed and conduct the biggest enterprise of its kind in this country.

Frank Mabry Charged With Embezzlement

Special to The Telegram.

WACO, Texas, April 7.—Frank Mabry, vice president of the McGregor National bank, who was arrested yesterday afternoon on a charge of embezzlement after Bank Examiner Logan had gone to McGregor, was one of the most prominent citizens of that place and has a large family. He has enjoyed the confidence of the people of that section and is a young man. He lived in Temple for a while, and has been in McGregor and active in business matters for the past few years. The bank was recently sold to W. W. Dyerle, and the denouement of yesterday came as one of the results of the change. Mabry was brought to Waco on the Cotton Belt train at 5:30 o'clock.

He appeared at once, in company with his attorneys, before United States Commissioner A. P. McCormick, and made bond for his appearance in the case.

SLEEP WALKER HANGS HIMSELF

Ohio Man Takes His Life in Dream

By Associated Press.

AKRON, Ohio, April 7.—Jacob Stair, aged 65, who has been noted as a sleep walker, arose early today while asleep and walked down stairs and deliberately hanged himself to the floor joist with a piece of twine. He is said to have discussed the horrors of suicide with his wife last night. He was a prominent Mason and ex-city councilman.

SWIFT WILL PROBATED

Gift to Church and Annuities Given Employes—Remainder in Trust

By Associated Press.

SALEM, Mass., April 7.—The will of E. C. Swift, the millionaire packer, was admitted to probate today in this city. Beyond a bequest of $5,000 to a church at Sagamore, Mass., there are no public gifts. Except for this donation and small annuities for two long-time employes, Mr. Swift's estate, estimated at about $10,000,000, is left in trust for the benefit of the family testator.

Special to The Telegram.

MUSKOGEE, I. T., April 7.—William Sperry, manager of the Wear Coal Company of Broken Arrow, whose headquarters are in this city, chartered a special train to go to the bedside of his wife in Pittsburg, Kan. Mr. Sperry received a message which stated his wife was seriously ill. The special left over the Missouri, Kansas and Texas at 11 o'clock a. m. Connection was made at Chetopa and Mr. Sperry arrived home in probably the shortest time of any one who ever made a trip from Muskogee to Pittsburg.

BATTLE STIRS DOWIE'S BLOOD

Lieutenant Says Fight Has Acted as Tonic

IS NOW IN TEXAS

Party Will Spend Sunday in San Antonio Before Proceeding to Zion City

By Associated Press.

LAREDO, April 7.—John Alexander Dowie and party arrived here on schedule time from Mexico City this morning. Dowie and his followers, numbering five, occupied a Pullman. John Lewis, who is Dowie's first lieutenant, and who has supervised all the affairs connected with Zion City's business affairs and aspirations in the sister republic, looked after the party in New Laredo, Mexico.

Mr. Lewis acted as spokesman and stated that the party had not visited any yellow fever district, and had there was absolutely no danger of the typhus infection. In response to the immigration official, Dowie took the oath that he is an American citizen. He especially emphasized the fact that he had taken out final papers by remarking, "I am an American citizen and I am proud of it."

Dowie was somewhat indisposed as the result of his tedious journey, but enjoying on the whole very good health, his trip to Jamaica and to the shores of Lake Chapala, near Guadalajara having greatly benefited him.

Mr. Lewis was asked if the recent turn of affairs in Zion City had in any way been detrimental to Dowie's health. He replied that it had not; that on the contrary it had been beneficial, if anything, as it roused his combativeness and acted as a sort of tonic. Dr. Dowie did not arise upon his arrival on this side of the Rio Grande, but remained in his birth, the Pullman which he occupied being coupled to the outgoing International and Great Northern train. Dr. Dowie was asked by the correspondent of the Associated Press for an expression of his views. He stated that he had given the Associated Press representative in Mexico an interview, and he did not care at the present time to say anything additional. He said he stood by the interview and could neither add to nor detract from the same. The Associated Press correspondent, in the interview with Mr. Lewis, asked for an expression regarding the statement published in a Chicago paper to the effect that Dowie is bringing $10,000,000 in gold, several scrolls of parchment, upon which are written the five books of Moses, etc., to Zion City. Mr. Lewis did not care to make any statement, but it was evident from the way in which he spoke that he ridiculed the idea. After the revision of baggage on the American side the party departed from San Antonio, where they expect to lay over at least one day in order to recover from the fatigue of the long journey.

LOSSES IN WYOMING

Melting Snow Causes Damage to Property—Two Men Killed

By Associated Press.

CASPER, Wyo., April 7. — Snow melting in the foot hills with the continued heavy fall of moisture during the past ten days, have caused unprecedented damage in central Wyoming.

The Belgo-American Oil Company is the principal loser. Its great oil receiver, situated on the Little Pope Agie river, has been completely destroyed and 100,000 barrels of oil lost.

The Belgo-American Company sustained other losses, which will bring the damage high into the thousands.

Contractor Lost

In the Shoshone reservation John Trulson, a well known railroad contractor, attempted to cross the Muskrat river during the flood. Heh was swept off his horse and, although his cries attracted a number of railroad graders, they could not save him. The body was found far below at the confluence of the Muskrat and the Big Horn.

At Fort Washaki a freighter known only as "Shorty," is believed to have been drowned with his entire outfit, consisting of a four-horse team and wagon. He was making his regular trip when last heard of ten days ago.

RESTAURANT ROBBED

Thief Gets $31.90 in Money and Five Ball Tickets

While G. W. Goodale, who had charge of "The Bill and Joe" restaurant, 1111 Main street, slept Saturday morning some thief sneaked to the cash register and stole $29.40 from the till and also a tin box containing $2.50 and five tickets to the I. O. O. F. Canton ball of Fort Worth lodge No. 9. The robbery occurred about 4 o'clock Saturday morning and it was not discovered for some time.

The restaurant is one that remains open all night and is generally in charge of G. W. Goodale, who was at his post Friday night. The cash register is near the front door, easy of access to anyone. At the time of the robbery Goodale was sitting by the stove asleep. He had sat down to warm by the stove and fallen asleep. Later he was awakened by a customer, who jokingly told him to wake up, as he might be robbed. An investigation showed this had been the case.

There is no clew to the thief and no arrests have been made in connection with the robbery.

FOOT CRUSHED

Theo. Eberling Injured Near Navasota

Word was received in Fort Worth Friday by his brother that Theodore Eberling of this city had his foot badly crushed on the International and Great Northern railroad near Navasota, and that amputation was necessary. The injured man was taken to the company hospital at Palestine, where the operation will be performed. Theodore Eberling was raised in Fort Worth and for a long time worked for the Texas and Pacific. At the time of the accident he was brakeman on the International and Great Northern.

ON WAY TO DAMSITE

Cecil Lyon Brief Visitor in Fort Worth

Cecil Lyon, chairman of the republican state committee, was in Fort Worth Saturday en route to Damsite, near Quanah, at which point a company in which he is interested is building an extensive irrigation system. An immense dam and ditches are being built on land owned by the company that will put under irrigation an immense body of land. Just how long it will take to complete the work cannot be stated as it may be extended beyond present plans.

TELEPHONE LINE SECURED HERE

Independent Company's Property Is Purchased

TO FORM NEW COMPANY

J. A. Murray and J. C. Casler to Incorporate Company Connecting Lines Here and in Parker County

Sale of the Riddle or Independent Telephone Company of Weatherford to J. A. Murray and J. C. Casler of this city, who will shortly incorporate the Home Telephone Company of Weatherford, together with a number of capitalists from that city, the new company to be connected with the local exchange of the Fort Worth Telephone Company and also with numerous rural lines about Weatherford, is announced.

The company, which will be capitalized at $50,000, will have Texas capital alone behind it, according to the statement of Mr. Casler, who is at present local manager of the Fort Worth Independent Telephone Company.

The Weatherford exchange will be remodeled, $25,000 being expended in this work, and the installation of a complete central energy system as used here. The organization of the new company, he says, will open up a wide surrounding territory to the people of Weatherford and also by connection in this city open the same territory to Fort Worth.

J. A. Murray, who is associated with him in the purchase, was formerly manager of the independent telephone plant in this city and is now in charge of lines of the Texas Long Distance Telephone Company.

AMUSEMENTS

Marie Cahill in "Molly Moonshine"

And now comes the best educated chorus girl on the stage. She is Anna Mooney of Marie Cahill's "Molly Moonshine" company, which will be seen at Greenwall's opera house Tuesday night, April 10, after ten a weeks' run in New York, and her friends put forward the above claim for her and offer as a proof an essay which she wrote for the Cleveland "Leader," and which won an honorable mention in a competition including hundreds of working girls. School teachers competed and in fact almost every branch of woman's work was permitted as a qualification in the contest.

Miss Mooney was educated at the Visitation Convent, Washington, D. C. She has aspirations. Here is her idea of what a girl should do to prepare for a happy old age. It won her the prize:

"The recipe of a working girl who desires to prepare for old age is to mind as follows:

"In the bowl of experience, mix economy and faithfulness; add to it the sweet spice of cheerfulness and bake gradually with the warmth of enthusiasm.

"The solid old bowl of experience made of hard and unbreakable agate is resting on the shelf of everyone's pantry. It may be lost but not broken, scratched some maybe, and it will rust if neglected.

"The principal and necessary ingredients for matured happiness are economy and faithfulness. They make the best foundation.

"The hardest of these to get is economy. It is, shall we say, a trick—yes, a simple trick. Save ten per cent of your salary every week. If you get only five dollars a week, save fifty cents. Save it in spite of everything. In two years you have something, in ten you have more. But you must live longer and old age must come.

"Faithfulness must be present, for the spice of cheerfulness will not mix well with economy alone. The sense of duty well done is necessary to cheerfulness.

"And then the baking of the cake of matured happiness. It must be in a slow oven with the glow of a quiet, sweet enthusiasm ever present.

"Old age must come, don't look forward to it with hatefulness; but rath live every day creating memories which will illuminate the wrinkles with the irridescent glow of content.

"An old age without sweet memories is dry and unpalatable."

"Buster Brown"

Melville B. Raymond's "Buster Brown" will be given at Greenwall's opera house Wednesday night and Thursday matinee and night, April 11 and 12, by the well known manager who has secured for the title part a clever little comedian. The dog Tige, will be played by a well known animal impersonator. This is an elaborate spectacle, entailing the services of some fifty people, including a chorus, ballet and a bevy of girls. Matinee Thursday at 3:15 p. m.

At the Majestic

The last two performances of Ameta, the "Hazardous Loop;" Peter Baker and the remainder of the fine program at the Majestic will take place this afternoon and this evening. Miss Chick, it will be remembered, wears the title of champion woman bicyclist of America in addition to her thrilling feat of going through the loop. Miss Chick will be seen during the performances in the loop.

The management underlines for the coming week a great bill, which will include James Newton Drew and company in Myles McCarthy's play, "Jim's Brother Bill;" Galbreth and Ferrell in "The Red Head and the Coon;" Barry and Johnson and company in the travesty, "Held for Ransom;" Sam De Vries, presenting "Aga, the Mystery;" Cora Youngblood Corson, euphonium soloist of the Helen May Butler band; King Kollins, America's greatest banjoist, and Mr. and Mrs. Edward Kunz.

Skating Club Formed

The opening session of the first regular weekly skating club took place at the Summit Avenue rink Friday night. The Friday Night Club has been organized among a number of the skaters of the city, and they will have the rink every Friday night from 10 until 12 o'clock. This form of amusement has been very popular in other cities, and the opening at the Summit Avenue rink on Friday night was well attended. Another club is now being organized which will have the rink on Tuesday night, the first meeting to be on next Tuesday.

Gap of Death

De Ariel leaping the Gap of Death is announced as a feature at the Fort Worth skating rink Saturday night, statement being made also that other special attractions will be given as often as they can be secured. Announcement as made for Saturday night says the gap jumped will be twenty-five feet, following the rapid trip down the plane from the roof. New skates, fine floor and courteous attendants are to be had at the rink.

Good to Watch

Spectators sitting about the Ellis Hall skating rink Friday night showed that it is not those alone who skate that are enjoying the present roller skating enthusiasm in Fort Worth. Graceful skating in the rink, together with the attempts of beginners in the inner square, where they do not interfere with others, form interest for many hours.

Verdict Given

Justice John L. Terrell has returned a verdict in the case of W. E. Brown, found dead under a Fort Worth and Denver trestle Monday morning, to the effect that Mr. Brown came to his death by being struck by a Fort Worth and Denver train. The matter, however, will go to the grand jury when it convenes for further investigation.

TO TAKE UP DELAYS

Fort Worth Live Stock Exchange Will Present Complaints

A meeting of the Fort Worth Live Stock Exchange was held Saturday morning, this meeting being in place of the regular monthly one that was due Friday but not held. The business before the meeting was to receive the report of J. R. Lambert, the inspector appointed to investigate the delay in transferring cars of stock from the railroad yards to the Belt line and from it to the yards. He reported that he had made investigations at the points of junction and suggested that the matter be taken up with the higher authorities of the road with a request that the records of the several companies be opened to the inspection of the exchange inspector. The suggestion was received and it was resolved to follow the advice and ask permission of those who had such matters in charge for the required permission.

The exchange was pleased to hear that the evils caused by delay in delivery were reported to have become less frequent since the matter had been systematically taken up by the committee appointed by the exchange to investigate the matter.

BANK CLEARINGS

Slight Decrease Shown Over Figures of Former Year

Bank clearings for the week ending Saturday, April 17, for Fort Worth were $5,385,785.20, as against $5,968,771.54 for the corresponding week of 1905, a decrease of $582,986.34.

According to the Bradstreet report for the week ending Thursday, the clearings were $5,290,580, a decrease of 6.3 per cent over the corresponding week of 1905.

Results Being Posted Once an Hour

9:30 a. m.—$8,304.70.
10:30 a. m.—$8,472.50.
11:30 a. m.—$8,534.20.
12:30 p. m.—$8,630.20.
1:30 p. m.—$8,630.20.
2:30 p. m.—$8,780.20.

Such was the progress of the morning's campaign of the final day of the canvass for the $12,000 for the additional floor for the Y. M. C. A. building. At each half hour of the day the total results are being posted.

Saturday morning's canvass showed a steady increase at the rate of about $100 an hour, but the rate was not high enough to reach the mark set, and a brisk canvass of the last few hours will be necessary to raise all the thermometers to the $1,000 mark.

Almost all of the active workers during the campaign have been lending their assistance all day and others have been added to the list. One man alone on Saturday morning spent two hours canvassing, and added forty-one names to the subscription blanks for various amounts.

Several of the business firms of the city have witnessed an active canvass on Saturday, including McCord-Collins, Burton-Peel, Carter-Hunt, Waples-Platter, A. & L. August and others.

In speaking of the matter Saturday at noon, Secretary Jones stated that the various committees were making a last round of the city and that telephone calls were expected up to the last minute, adding to the list. The telephones at the Board of Trade, 788 old, and the Y. M. C. A., 977 old phone, will both be ready for use, and any one wishing to aid in the matter can use either to get subscriptions to the committee.

The mothers' campaign added about $200 to the list, most of it coming in over the telephone. The mail canvass has also been working to advantage in the past few days, the answers to letters bringing in about $400.

TEXAS GRAZING LAW

Much Interest in Habeas Corpus Hearing Now On

Judge Mike E. Smith of the Seventeenth district court took up the habeas corpus case of John F. Swayne and J. B. Williams at 9:30 a. m. Saturday, and was engaged in hearing it until noon, and then took the matter under advisement, reserving his decision.

The relators, John F. Swayne and J. B. Williams, were tried in the county court before Judge Robert F. Milam on a charge of permitting their stock to run at large at Arlington Heights in violation of the stock law prohibiting it. Both were fined and as the amount of the fine did not entitle the defendants to an appeal to any other court, they applied to Judge Smith for a writ of habeas corpus, alleging that they were illegally held in custody by the sheriff of the county, and attacking the validity of the stock law under which they were convicted in the county court. The case is of much interest, as upon the final decision in it depends whether or not cattle can run at large in Tarrant county.

SWINDLING CHARGED

Young Man Brought Back from Oklahoma

Constable Henry Cantrell returned from Oklahoma City Saturday morning, bringing with him as a prisoner Charles Muckleroy, who is wanted in Fort Worth to answer a charge of swindling pending against him in Justice Terrell's court.

Affidavit was made by Leon Gross before Justice Terrell, charging Muckleroy with securing from Goss $50 by means of a check on the Kaufman National Bank for that amount. Gross alleged that he advanced the money on the strength of a statement by Muckleroy that he had funds in that bank and that the check would be honored. The check was sent to the Kaufman bank, but payment was refused for the alleged reason that Muckleroy had no funds on deposit there.

By the time the check was returned to Fort Worth, Muckleroy had disappeared, but was located by Constable Cantrell at Oklahoma City two days ago, and his arrest was made by Oklahoma officers. Muckleroy is a young well-dressed man and said that his home was at Kaufman, Texas. He was lodged in the county jail pending his examining trial in Justice Terrell's court.

CREDIT BUREAU FORMED

Charter Secured for Organization with Headquarters Here

Special to The Telegram.

Three-Story Structure in Houston Street to Be Erected

Work will be started Monday on the new three-story building to be erected by W. D. Reynolds in Houston street, between Tenth and Eleventh streets. The building will be built on a vacant lot on the east side of the street and will be 50x100 feet in size. It will be a three-story brick building with a basement and will cost $25,000. No contract will be let for the building, but it will be built under the direction of a foreman. A building permit was issued for the building on Friday.

SCENES HEARTRENDING

Villagers Near Naples Stack Goods in Street Waiting to Flee

By Associated Press.

NAPLES, April 7.—Boscoreale has been surrounded and invaded by lava, and one stream is closely threatening Ottajano. New craters are opening in the volcano.

The population of towns and villages near the danger zone are still panic stricken. Whole families, surrounded by their household goods, are waiting in the street, hoping to find a cart, horse or donkey, to help them place their possessions beyond danger. Many heartrending scenes are hourly witnessed. Artillery cars have been sent to help the fugitives.

Cardinal Joseph Prisco, archbishop of Naples, has ordered that special prayer for the safety of those who are in danger, and it is said he will go to the scene of desolation. Boscoreale, one of the villages in danger of destruction, is the birth place of the cardinal, and the home of most of his relatives.

NEITHER SIDE READY TO VOTE

Forty-five Needed to Pass Railroad Rate Bill

WASHINGTON, D. C., April 7.—The reason no agreement has yet been reached in the senate for a vote on the railroad bill is that neither side is assured it has enough votes to win, there being fifty-five active republicans in the senate and thirty-three democrats. Neither the Tillman bill's leader nor the conservatives, headed by Aldrich, are yet satisfied they can command forty-five votes. Tillman today said:

"The President has apparently burned his bridges behind him, has advanced a proposition unacceptable to the majority of his party and called in the democrats. We can give him twenty-eight votes for a limited court review amendment and the suspension of the rate, pending proceedings in court. Whatever votes are lacking the President must supply from the republican ranks.

Crane, speaking for the conservatives, said forty republicans are ready to vote for a board court review amendment. This means five democratic votes are needed, and taking the two statements together, they probably seem to favor the adoption of the board court review amendment, which embraces a cash deposit with the court to cover the difference between the original rate and the commission's rate, for the protection of the shippers.

TWO KILLED IN FIRE

$100,000 Damage to Portland Commercial Club

PORTLAND, Ore., April 7. — Fire seriously damaged the upper story of the Chamber of Commerce building yesterday. The building is eight stories high. The fire was on the upper floor, which is occupied by the Commercial Club. It was in the room of the Commercial Club that the flames broke out. A southeasterly wind blew dense clouds of smoke toward the northwestern corner where crowds of men and women had gathered to escape by means of the fire escapes.

Firemen took a number of men and women from the upper stories of the burning building by means of the fire escapes and ladders.

Homer Hallock, for twenty years an employe of the Oregon Railway and Navigation Company, jumped from the eighth story into the court and was instantly killed. Another man was perhaps fatally injured by jumping.

At 3:20 p. m. the fire was gotten under control. The loss probably will exceed $100,000.

MAN WEARS DRESSES

Is Not Prosecuted Because Displays Badge

WASHINGTON, D. C., April 7.—Professor Randolph Millburn, a music teacher, who created a sensation by appearing on the streets in woman's clothes, no longer is barred from female costume. A large silver badge, with the inscription, "Randolph Millburn, I am a man," worn in a conspicuous place, gives him the right to dress as a woman if he so desires.

He claimed that as Dr. Mary Walker was wearing man's clothes, he with equal legality could wear woman's clothes. He searched the legal precedent and discovered, as he says, that he may dress as he desires, provided that he makes no attempt at deception as to his sex.

He says he has legal advice that wearing a heavy beard and mustache or a conspicuous sign, stating his name and the fact that he was not a woman, will bar prosecution.

STOCK EXCHANGE HELD A TRUST

Decision of Importance Rendered in Kansas City

Special to The Telegram.

TOPEKA, April 7.—In deciding the Wilson case today the supreme court declared the Kansas City Live Stock Exchange a trust. The decision practically invalidates all the chattel mortgages on cattle given in Kansas to members of exchanges, and is one of the most far-reaching decisions in years, as thousands of investors throughout the country hold Kansas cattle papers. Charles Wilson sold cattle mortgaged to a member of the Kansas City exchange, was convicted and sentenced to five years. He appealed and the verdict was set aside today. The court holds any association which has by-laws forbidding members to buy or sell live stock on commission for less than 50 cents a head violates the anti-trust law, and because one part of the transaction is contrary to law, the whole transaction is null and void.

ARRESTED AT A DANCE

Young Man Charged with Deserting Army

Grundy M. Jobe, a Tarrant county young man, was arrested at Bedford Friday night while enjoying himself with his sweetheart at a dance, by Deputy Sheriffs Ollie Buck and R. S. Cloud, brought to Fort Worth and lodged in jail on a charge of deserting the United States army at Fort McIntosh, March 6. It is charged that Jobe was enlisted at Fort Worth by Corporal Langhorne Jan. 29, 1906, was assigned to Company C, Twenty-sixth United States infantry, which is now stationed at Fort McIntosh, and was in the service less than two months before he tired of it. He will be held for an officer from Fort Sam Houston, the officer in command there having been notified of the arrest. There is a reward of $50 in this case.

DOWIE BACK IN HIS OLD FORM

Zionist Apostle Roars Against Charges Made

Special to The Telegram.

SAN ANTONIO, Texas, April 7.—A Scripps-McRea man rode with Alexander Dowie, the avenging angel of Zion, from the Mexican border to San Antonio, this morning. Dowie does not call newspaper men unclean devils now, but welcomes them. In his Pullman section, as he spoke, his rage mastered him time and again and he roared out statements which were heard throughout the car. He said:

"I will drive my wife and son from the city of God. They are unnatural and are possessed of devils. The love of God died in their hearts. I have been true to every trust placed in me, and to God alone am I accountable, and not to those I placed in stewardship. Charges of extravagance are the foul mouthings of a curse; that I taught polygamy is a devil-born lie; that I have been guilty of improper relations with youthful proselytes is a slander that the might of a just God will avenge upon the high priests of iniquity who longed for my death. My people have $21,000,000 and the debts of Zion are as a molehill to a mountain. The receivership and curtailing of my commands are illegal acts and in the courts as well as with my hand I will smite them and lay them low. Women may prove the downfall of prophets of old, but they cast no spell upon the modern prophet. It's a lie to say I lost millions in Wall street—a lie which will choke my accusers as their souls depart. With regard to the lustful letters purporting to have been written by me, I will prove their authorship by putting their creators behind prison bars."

By Associated Press.

CHICAGO, April 7. — While John Alexander Dowie is traveling from Mexico to Zion City, measures are being taken by the officers of Zion church to render him absolutely powerless before he can arrive among them. It is asserted that, by the time he reaches Zion City, the last vestige of his authority will have disappeared except in so far as he may restore it through legal proceedings. Three hundred officers of the church have signed a statement upholding General Overseer Voliva in his fight against the "first apostle."

ELEGRAM

A Weak Heart

Seldom gets strong again without help. Awake or asleep, it never stops, and consequently has no period of rest or relaxation in which to regain lost vigor. You should avoid exertion, excitement and worry as much as possible, to relax the strain, and take Dr. Miles' Heart Cure, which is a heart tonic, to strengthen and restore vigor to the heart nerves and muscles. The symptoms of a weak heart are shortness of breath, palpitation, feeble or too rapid pulse, hungry spells, hot flashes, dizziness, smothering spells, pain in heart or side, etc.

"I had been treated for heart disease by different physicians without any improvement. Finally my doctor informed me that there was little hope of my ever being able to do a day's work again. About that time a gentleman called upon me, and said, 'I heard of your condition, and have come to tell you that Dr. Miles' Heart Cure saved my life, and I want you to try it.' I did so, and after a week or so I went to my physician and told him I had been taking Dr. Miles' Heart Cure. He examined me and said, 'God bless Miles' Heart Cure, it has made you better in a few days than I ever expected to see you again.' I am now well, having fully regained my health by the use of this remedy."

B. R. LANSING, Rensselaer, N. Y.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Funniest Clowns in the Show
Business With Sells-Floto Co.

A good circus makes all the world agin—at least that portion of humanity within the reach of any big circus. It always has been thus and always will be as long as human nature is human nature.

A boy never forgets his first circus—neither does a girl forget it. It is one of the milestones which mark the altogether too fleeting years of childhood's career of innocent and harmless pleasure. What would a circus be without a band? What would it be without a clown?

The circus clown dates his origin back to the beginning of the circus itself, and from time immemorial he has been one of the most important features. During the growth and development he has by no means been left behind. He is funnier now and can do more tricks than ever before. In the old days one clown sufficed to satisfy the demand for the showgoers, but now it takes twenty-five for the Sells-Floto shows. Nowadays the clown who could not do anything but grin and drive a donkey that played a tattoo with his hind heels on the dashboard of a little cart could not get a job. He must be versatile or look for another position.

The acrobatic work is only a small part of a clown's performance. There is scarcely a humorous phase of life which the clowns do not touch or a heroic feature which they do not burlesque. This always delights the crowd, for one of the things which pleases an American audience is to see some one ridiculed.

It is the rough and tumble and apparently furiously abusive acts, knocks and slaps of the clown that invariably create the most laughter. The more they kick, pound and beat and club each other over the head, face or back, the more pleasing it seems to be.

It has been one of the best circuses on the road for years, but what would its vast array of circus talent amount to if it were not for the tireless work of the "funny fellows?" The presence clowns, the rube clowns, the graceful of clowns is essential. The rube clowns, the short clowns, the tall clowns, the graceful clowns, the awkward clowns, all form a strong contingent of more than twenty-five with Sells-Floto.

Without the clown, the petite, pretty equestrian could not have his brief visit, the acrobats could not get their second breath, and the musicians could not catch a second's rest. Originally a "fill-in" to cheapen the salary list and to serve the above purposes, the circus fools feature with a circus and command liberal salaries. They are no longer used to fill in. All the clowns will be here with the big shows in Fort Worth next Monday.

NORTH FT WORTH AND ROSEN HEIGHTS.

North Fort Worth and Rosen Heights office of The Telegram is located at 117 Exchange avenue, old phone 3959, where news items, subscriptions, advertisements and complaints of delivery should be left.

B. Castleman and W. C. Jounte have just opened a new hotel, the "Maverick," at the corner of Exchange avenue and Main street. This new hotel has accommodations for about 100 guests, and is being fitted up in the most modern style.

The hotel proper occupies the two upper floors of the new three-story building, and in connection there is a cafe downstairs fronting on Exchange avenue. This new place is another of the many signs of general activity that has marked North Fort Worth for so long a time.

The poles on the west side of Main street, from Twenty-first to Twenty-third street, are being moved back ten feet. This is being done in order that there may be room for a driveway outside the car tracks on that side of the street.

The work of graveling Main street has now progressed as far as the business portion of the street, and it is thought that the work will be practically finished as far as Central avenue by Saturday night. The street through the business section will only be graveled, as it is very nearly up to the required level as it is.

The school board has just selected a lot south of East Twelfth street, where the frame school building is to be located for the use of the negro school. There are two teachers employed in this school, and there are about eighty scholars.

Mrs. J. B. Collier has been very ill since Tuesday. Saturday morning, however, she was much better, and it was reported that she was thought to be out of danger.

There has been some talk among the friends of Mayor-elect W. D. Davis of having an inaugural ball Tuesday night. It is doubtful if this will be given, however, as Mr. Davis wishes everything in connection with his taking office done as quietly as possible and without any demonstration. The question will be decided Saturday night.

The regular meeting of North Fort Worth lodge No. 330, Knights of Pythias, was held Friday night, and a report was made by the committee on progress in plans for the entertainment of officers of the grand lodge who will visit the lodges of the order in Fort Worth on their way to the Galveston meeting. The committee from the North Side lodge is composed of D. C. Claypool, B. R. Daniels and F. T. Hopkins. The officers of the grand lodge will arrive in Fort Worth Friday, April 20, although some of them will spend that day in Dallas. They will all be in this city on Saturday, April 21, and an elaborate program is being prepared for that day, a session of all the lodges to be held in the Knights of Pythias temple being arranged.

REVIVAL CONTINUES

Successful Meetings Being Held at First Methodist Church

During the past week revival services have been held at the First Methodist church and much interest has been manifested in the meetings by both the members and those outside the church. These meetings are being conducted by Rev. Alonzo Monk, who is being assisted by Rev. J. H. Stewart of Polytechnic College. There have been two services daily, and this order will be continued throughout the coming week, at 4 o'clock and 8 o'clock, afternoon and night. Special music is one of the features of the meeting.

The program announced for Sunday is:

Preaching at 11 o'clock in the morning and 8 o'clock at night by the pastor, Dr. Monk. Sunday school in the morning at 9:30 o'clock. Epworth League service at 7 o'clock at night.

STUDENTS RECEIVED

Dr. and Mrs. Suggs Entertain Classes at Two Colleges

Dr. and Mrs. Leonidas Suggs Friday night held their annual reception for students of Fort Worth Medical College and the Fort Worth Kindergarten College.

Dr. and Mrs. Suggs were assisted in receiving by Miss Ward, principal of the Kindergarten College, and Misses Portman and Hawkins, also of the college. An amusing recognition contest helped to make all acquainted.

First prizes were awarded in the contest to I. L. Taylor and Miss Hazel Halstead. The booby prizes fell to Y. J. Mulkey and Miss Portman. Following the contest an informal musical program was rendered by several of the guests, following which refreshments were served.

GIRL IS RECOVERING

Although Spinal Cord Was Severed by Bullet

PHILADELPHIA, Pa., April 7.—Through an operation performed by Dr. Francis S. Stewart of this city on Miss Clara Nicholas, whose spinal cord was severed by a bullet five years ago, the first case of what is apparently signal regeneration is taking up the attention of surgeons here and in other cities. Dr. Stewart sutured the broken cord, and with three stitches of catgut united the severed parts. For three or four months the patient lay on her back in the hospital and her death was daily awaited. The parts of her body below where the shot had entered had been completely paralyzed. She did not even experience any sensation in taking food or water.

Dr. Stewart, however, insisted that in time his patient would regain sensation and that in the course of years she would recover her full motor power.

For two years she was kept in the hospital, where daily massage was given her, and where, little by little, her powers of sensation returned. At first she could merely tell when she was touched. But today, for the first time, she was able to distinguish, when blindfolded, the locality of the sensation. In the last week she has been able to walk.

In the meantime neurologists all over the country are skeptical about the case.

RIGHT TO BECOME PERMANENT

The Breeders' Gazette, of Chicago, the foremost live stock publication of the world, was represented at the recent Fat Stock Show held in this city, and has had many kind things to say of this great enterprise. The Gazette believes this Fort Worth enterprise has now demonstrated its right to be regarded as one of the permanent live stock institutions of the country, and entitled to recognition as such. It says:

The tenth annual live stock show at Fort Worth, Texas, has demonstrated beyond all question its right to become a permanent organization. There has been marked advance noted in these shows from year to year, and in the extent and character of exhibits the show held March 22 to 25 surpassed all previous events.

Nowhere is the value and importance of the use of good blood more in evidence than at the Fort Worth show. The longhorn, the dun and the brindle are rapidly yielding supremacy to the improved blood of the several beef breeds. The modern type that holds favor in the cornbelt is now produced in great volume on the Texas ranches. It is the result of the diligent and persistent demand of the Texas ranchers for purebred bulls and who, in spite of the heavy losses from Texas fever, have repeatedly and wisely invested liberally in good blood.

The show has entirely outgrown its present quarters—a fact that is recognized by the management—and a move is now on foot to effect a permanent organization. Particularly is a show pavilion needed and work in this direction has already begun and has progressed sufficiently to assure the erection of a building costing from $40,000 to $60,000 before the next annual show. This accomplished and the future success of the show is assured. The importance and value of such an enterprise to Fort Worth and the live stock interests of Texas can hardly be estimated.

Happily the weather was favorable and those who witnessed the judging and the sales were not seriously inconvenienced. Had the weather, however, been unfavorable, the open sheds of the stock yards would have failed to afford protection and the attendance would necessarily have been diminished. The breeding classes were large and the cramped quarters of the show ring not only impeded the progress of judging, but gave the onlookers little opportunity for comparison and study of types. In this last named feature the Texan is vitally interested, for nowhere is enlightenment upon the merits of the several breeds of cattle of so far-reaching importance. It was evident that interest centered not so much in the fancy fitting—the showman's art—as in the actual individual merit and the comparison of types. Texas is in the cattle business pre-eminently, and fancy showing engages minor attention.

The native Texan is a big hearted broad gauged hospitable fellow who takes you into his arms, figuratively speaking, and makes you feel at home. He takes an interest in progress in a broad way and is doing his part toward making Texas a great state agriculturally There is much immigration now from the North, especially from Illinois, Iowa, Nebraska and Kansas, and land values are rapidly advancing. These people who are coming in in large numbers are for the most part thrifty and well-to-do and will contribute much toward the advancement of agricultural interests in the state.

The sales were successful, though some of the consignments were not of as high order as the occasion warranted. Care should be taken in the future that a better class of cattle is catalogued for these animal sales, as there seemed to be a disposition to buy good ones and to pass by the inferior lots. The Shorthorns averaged $103; the Herefords, $123.

It should be borne in mind that the Fort Worth Fat Stock Show was begun very much as an experiment, and it has had to encounter all the vicissitudes and disappointments incident to such undertakings. It has only been during the past year that the enterprise may be said to have gotten on its feet, and from now on progress will be rapid.

Steps have already been taken which insure the holding of the next annual event on a much larger and grander basis. Our Chicago friends who come down to see us next year will find that within the space of a single twelve months the Fort Worth Fat Stock Show has grown to be a formidable rival of the great International event, with which Chicago seeks to attract the attention of the world. The Fort Worth enterprise is young yet, but it is the huskiest youngster of the kind now in existence, and will do a great work for the live stock interests of the Southwest.

Next year the character of the cattle offered in the sale ring will show the same great improvement as these brought here for exhibit. The stockmen of Texas are sufficiently progressive to amply insure that fact. Next year we are going to do things, and hope our Chicago friends will be with us in full force to verify the fruition of the prediction. The Fort Worth Fat Stock Show is already upon a permanent basis.

HOW TEXAS IS LOSING OUT

The Fort Worth packing houses are bringing to that market by the trainloads fat lambs and mutton sheep from Omaha, Denver and Kansas City. In other words, the farmers of Nebraska, Colorado and Missouri are furnishing the sheep of Texas mutton consumers. It appears to us that if the farmers of those states can grow mutton sheep at a profit and pay the freight to Texas markets that the farmers of Texas ought to make money in this industry. Texas soil and climate is ideal for the profitable production of sheep. Then, too, those feeds that fatten sheep the quickest are grown more cheaply in Texas than elsewhere. Tens of thousands of early lambs and choice mutton sheep should be raised on Texas farms each year. A market is already assured and the price for good stuff is generally sufficiently remunerative.—San Antonio Stockman.

Texas farmers have been generally too indifferent in matters of this kind and are letting millions of dollars go into other states and territories that should be kept circulating in Texas. Ever since the packing houses were established here there has been a steady and persistent cry for more hogs. The Fort Worth market has been paying prices for hogs that were a shade better at times than Chicago or Kansas City were paying and numerous inducements have been held out by the packing houses and stock yards company to induce the production of more hogs. And while the situation shows some improvement, the fact remains that Texas is not producing one-half the number of hogs needed right here in Fort Worth.

The surprising part of the situation is that so many men are neglecting a golden opportunity existing at their very doors. It does not require a great deal of money to get into the hog business on a small scale, and it is easy to enlarge operations as the business proves profitable.

The old idea that corn can not be depended upon as a staple crop in Texas has been exploded, just as it has been proven that there are other methods of producing pork except from the corn crib. Panhandle stock farmers are finding hog raising profitable, in a section of country where it is practically impossible to produce corn. Out in the Pecos valley country of New Mexico enterprising stock farmers have for years been producing a fine quality of porkers principally on alfalfa, feeding just enough grain at the proper time for finishing purposes.

At one time Texas was the greatest sheep producing state in the union and it can be easily remembered that times were pretty flush in those days. With two crops of wool to sell every year and a big mutton crop also to go to market, there was a great deal of money circulating in this state that went out of business with the decadence of the sheep industry. Texas sheepmen formed the mistaken idea that free grass was absolutely necessary for the maintenance of the sheep and wool industry, and when free grass played out the sheep business came very near going with it. Only during the past year or two has there been anything like a revival of interest in the situation, and it is gratifying to note there has been some improvement in the situation.

But there has not yet materialized the proper and necessary improvement. There is still money to be made in the sheep business in Texas, and the neglect of opportunity is costing our people very dearly. So long as we are content to drift along in old channels we may expect to play a losing game. We must learn to do the right thing at the right time and in the right manner, and when we do this we will find a most gratifying change for the better.

Several thousand coal miners have quit work in Texas, but it is hoped matters will be straightened out and a new contract signed in a few days and the men resume work. The men need the money in exchange for their daily toil, and the great industries of Texas need the coal that is to be brought up out of the bowels of the earth through their labor.

The pure food show held here last week was instrumental in bringing at least one new business to Fort Worth, and so it is with many things. All people have to do is to be made conversant with opportunities existing in this city. The wise man can see things for himself at a glance.

The south Texas oil field may prove the salvation of Texas railways if the coal strike is of long duration. It does not require much time to convert a coal burner into an oil burner, and while the supply of coal on hand is being used up the locomotives can be gradually made over into oil consumers.

The senate is reported to be very much displeased with the President's proposed amendment to the rate bill. But that is not at all surprising. It has been clearly understood from the beginning that the senate was not pleased with any of the provisions of the President's rate bill.

Governor Lanham should deal very firmly with the members of the state legislature who are showing a disposition to run things over him. If the executive has backbone now is the time for him to begin to make that fact clearly evident.

The daily toot of those steam whistles tells a very pleasing story of the progress that is being made in the Y. M. C. A. subscription list. It tells a story of Fort Worth enterprise and liberality that carries its own moral.

Fort Worth is to get $150,000 for an addition to her federal building and while that is not nearly so much as is needed, it will be sufficient to make a very decided improvement over the existing situation.

There are some members of the state legislature at Austin who evidently regret having put their John Henry to that agreement to serve without the customary emolument.

Albert T. Patrick has lost none of his resourcefulness. He will teach those New York lawyers a whole lot of new tricks before he is done with them, and before they finally land him in the electric chair.

It is said that doubt exists in Washington as to whether the state of New York is more completely misrepresented in the United States senate by Depew, who is absent, or Platt, who is upon the scene of action.

VERSES THAT RING

PAW'S SKATING EXPERIENCE

Paw he's at home wrapped up in bed;
He says there' nuthin' ails his back.
It ain't the grip he's got to dread—
It was a roller rink attack.
Maw sez he looks jest like a fright.
I guess he does at any rate
I bet paw won't forget the night
He went to try to learn to skate!

The craze had got to such a pitch
That all the neighbors went to learn;
Paw said it made him fairly itch
To go down there an' do a turn.
"Now, when I was a boy," sed paw,
"On skates I wasn't very slow."
"Well, that may all be true," said maw,
"But that was years an' years ago."

Maw tried her best to talk paw out
Of goin' down there to the rink.
She told him that he was too stout,
"Why, what will all the neighbors think."
Said maw to him. "If you should fall
I bet that you would be cured;
I tell you it isn't safe at all,
You haven't got your life insured."

Paw sez his back is offul sore,
An' that he's feelin' lame an' sick.
Maw told him when he struck the floor
It sounded like a ton of brick.
He groans an' sez he feels so bad;
An' I should think he would, by links!
There ain't no doubt but that paw's had
Enough of the roller skatin' rink!

ROSEN BUILDS AT ROSEN HEIGHTS

Plans Being Drawn for $10,000 Residence

Sam Rosen is having plans drawn for a $10,000 residence for himself at the corner of Twenty-fifth street and Loving avenue, Rosen Heights, work upon which will be started within a week. The building will be colonial in architecture with large columns in front. It will be built of brick and will be two stories and a half in height, room being made for a billiard hall on the top floor. A basement will also be built. There will be ten rooms in the house.

Contracts have been let and work started upon buildings and pavilions at the White City within the past week which aggregate 480 feet frontage. The work is being done by E. P. Moore and W. B. Reynolds.

Provided favorable weather exists all day Sunday the street car track to the White City will be finished and cars ran to the park for the benefit of visitors on Sunday afternoon. The park as far as completed will be open to inspection at that time.

A new party has been formed in the house of commons, but its object is not political. What it hopes to effect is a reduction, in the parliamentary barber shop, of the price of shaving from 24 cents to 12 cents.

A candidate for parliament at the recent election in Great Britain has filed a petition in bankruptcy, owing $106,140 and having assets, estimated, of the value of $8,405. He was an enthusiastic "fiscal reformer."

NEED ARMORED CARS

Mexican Miners Place Unusual Order at Buffalo

Armored cars are in demand as a necessary adjunct to gold mining in Mexico. An order was received last week at the plant of the E. R. Thomas Motor Company at Buffalo, N. Y., for a car of this variety from L. M. Hart of Boston, and another came from the Western Motor Car Company at Los Angeles, for an armored car for the Giroux Consolidated Mines Company of that city.

Both the Girous Company employes and those of the concerns in which Mr. Hart is interested have had numerous brushes with the Yaquis, while transporting gold from the mines to the railroad.

Both cars are to be designed in part by the purchaser and both are radically different in form, according to the preliminary plans. Mr. Hart's design contemplates the complete protection of the engine and all working parts, as well as the space for the driver, guards and gold, as his car is to be equipped with rapid fire guns.

The car for the Giroux Company affords protection for the driver, guards and gold. Harveyized steel is to be used, and a compartment, the size of the complete body of the Thomas "Flyer" with a square top and roof covering, is planned.

Rapid fire guns will not be used, but space is made for four guards and rifle racks. Slits are to be made in the front, sides and rear for the rifles of the guards. The car, despite its weight, is to have a speed sufficient to race it out of rifle range within a few minutes.

At the same time it will have enough protection that, should it be surrounded, the guards need not fear a long siege. The entrance to the car is to be through the rear, while a double locking steel-clad door is located.

The need of this car has again been demonstrated by the reports received recently that a family of six Mexicans had been the victims of a Yaqui massacre while returning from the gold country.

COLLEGIANS END PRO DISCUSSION

Session of State Association Closes Saturday

Final day of the convention of the Texas State Intercollegiate Prohibition Association held at Polytechnic college had a number of interesting topics for discussion. The convention has been a success and all the delegates will soon return home well satisfied with the work done.

Following was the program for Saturday:

"Why a Political Solution," by delegates, discussed for 25 minutes; "The Liquor Problem," H. S. Warner; music, college band; "Prohibition Workers on the Field," P. F. Paige and H. S. Bonsib; music, college band; chapel address, "Young People and Civic Righteousness," by Dr. L. W. Doolan, Baylor; "Social Demands," by H. S. Warner; music, Professor J. D. Sanderfer also addressed the meeting.

An interesting discussion closes the meeting, topic being "Why We Do Or Do Not Believe in Prohibition."

Form of discussion will be: Popular objections to prohibition, 15 minutes, M. W. Splawn. Answers, delegates, 15 minutes, 20 minute discussion, Professor Iliff. What can the league do to help solve the problem, 15 minutes, 10 minute discussion, Poly League.

FREIGHT AGENT IS INDICTED

Charged With Compelling Men to Work on Sunday

The first indictment on a charge of compelling men to work on Sunday ever returned by a Tarrant county grand jury was returned Friday against A. W. Montague, local freight agent of the Texas and Pacific railroad company.

Naming J. T. Langley, A. D. Roberts, J. H. Dehn, Howard DeWitt, K. D. Belden and Walter E. Ebough the indictment charges that the said A. W. Montague, freight agent for the Texas and Pacific Railroad Company, compelled them to do manual labor on the Sabbath day, the same not being a necessity or work of a charitable character. The men who, it is alleged, were compelled to work on Sunday are employed as follows:

J. T. Langley, check clerk, resides at 922 East Annie street.

A. D. Roberts, check clerk, 703 Kentucky avenue.

J. H. Dehn, expense bill clerk, 922 Cannon avenue.

Howard DeWitt, check clerk, 1729 Arizona avenue.

K. P. Belden, clerk in freight rooms, 804 Taylor street.

Walter E. Ebough, collector, 618 West Seventh street.

Mr. Montague declines to have anything to say regarding the indictment.

COAL STRIKE IN TEXAS IS ENDED

Remaining Operators Sign the 1903 Agreement Scale

Information has been received from Peter Hanraty, president of the Mine Workers' union of the Twenty-first district, that the Texas and Pacific Coal Company, with offices in Thurber, Thursday night signed the 1903 scale agreement with representatives of the Miners' union, ending the strike there and allowing the men to go to work.

The miners employed at Strawn and Lyra by G. E. Bennett returned to work Friday, and it is expected that by Monday all the mines in the district will again be in regular operation.

The agreement signed Friday night affects about 2,000 men.

Another settlement was made Friday on behalf of the mine workers at the mines in Wise county, owned by the Wise County Coal Company, and the settlement was effected upon the same basis as that of the mines at Strawn, Lyra and Thurber, namely, the company agreeing to the scale of 1903. The Wise County Coal Company employs 150 men, and operations will be resumed at these mines at once.

FARMERS ASK FOR WAREHOUSE

Proposition Presented to Local Business Men

OFFER GOOD TWO WEEKS

Arrangement Must Be Provided or Cotton Will Be Taken to Some Other Market, Says Union

At a meeting held in the Labor Temple Saturday morning between a committee appointed by the Tarrant County Farmers' Union and business men of the city, the committee of farmers stated that the union had decided Friday that the citizens of Fort Worth were to be given two weeks time in which to make their decision concerning the building of a warehouse here for the use of the farmers in storing cotton. The warehouse, if established, is to be managed by the Farmers' Union and is to be open alike to the members and non-members of the union.

The Farmers' Union committee which was appointed at the meeting on Friday, was composed of C. A. McMeans, chairman, of Kennedale; Sterling Cox of Azle and Howell Bryant of Rendon and the business men of the city who conferred with them were W. C. Stripling, W. S. Knight and W. H. Tanner.

The meeting was called on Saturday morning and on account of the short time given, more of the business men were unable to be present. Those that were there, however, agreed to take up the work of investigation of the warehouse and see if it could not be provided. This committee will have a meeting on Tuesday morning in which plans will be made for the furnishing or renting of a warehouse.

C. A. McMeans, chairman of the committee, stated the proposition as advocated by the Farmers' Union as follows:

"At the meeting Friday the farmers decided that they wanted to come to Fort Worth, providing Fort Worth would provide the warehouse that we want. This is the place for the Tarrant county farmers to come to, but we must have a warehouse in which to store our cotton, as the Farmers' Union is determined upon that point as we intend to store our cotton until we get the price we want. We have had propositions from other places in the county, but we have stated to them that we will see what Fort Worth will do first before considering your offers. Grapevine now has a warehouse for us that is 100 feet square. If Fort Worth won't help us we will go elsewhere. You gentlemen can easily see what it will mean to Fort Worth to have the union behind this movement, as it will bring cotton to this city that has never been brought before."

Plans of the Warehouse

The warehouse as proposed by the farmers must be suitable to store at least 5,000 bales of cotton. The management of the warehouse will be turned over to the farmers according to their requests and they will appoint a manager to take care of it. The warehouse will be open not only to the members of the union but to whoever wishes to store cotton there, and the price paid by all must be the same.

In planning for the warehouse, the farmers do not want an inclosed place, nor is a floor necessary, as they prefer to have the cotton placed on blocks so that air can circulate all around it. A substantial roof must, of course, be provided. It was estimated by the members of the union that 90 per cent of the members would store their cotton this fall and that if Fort Worth has the suitable warehouse a great deal of it will come here of not almost all.

In speaking of the plan to store cotton, Chairman McMeans said: "We want to store this cotton until we can be paid a fair price, covering the cost of production. We do not intend to hold it as a means of extortion. We would rather come here and if we sell out cotton here it is sure that we will buy what we want here. As it is now almost all of the members go to Arlington, and after being paid for their cotton there, they buy there even at a higher price, rather than come fourteen miles out of the way in order to get to Fort Worth and buy here. Now, we want the people of the city to provide a warehouse for us and we want the whole town to do it, not just a few people and merchants, as we would rather see the expense of providing this warehouse and the subsequent cotton market in the city borne by all. You have two weeks in which to make your decision. If at the end of that time you are not ready to talk with us, we will have to go elsewhere, as we must have the warehouse this fall."

Any Site Will Do

The location of the warehouse is not of so great importance to the farmers, excepting that they do not care to build one near the railroad. They consider that the insurance on the cotton while stored will be less at a place where there is no danger from flying sparks, and that the amount saved on insurance will more than pay the extra drayage. Several sites were discussed at the meeting Saturday, all of which were acceptable to the farmers' committee.

In speaking of the matter, the business men of the city who were present at the meeting were confident that the amount needed for the building of the warehouse could easily be raised, but at the present price of land in Fort Worth will make the securing of a site a more difficult matter.

About 1:30 o'clock Friday morning a burglar broke into the residence of Samuel E. Flynn, 600 East Second street, by way of the back door, the lock of which he had to break in order to efect an entrance. The burglar secured only $6 cash, which he found in the trousers' pockets of Mr. Flynn. At the same time he missed two gold watches which were lying on the dresser in the same room.

You're growing more beautiful day by day, dear Grace,
I hope you're not using cosmetics on your face;
Oh, Charlie, this is a great injustice to me,
I'm simply using Rocky Mountain Tea.

The bids for the erection of the new building to be built by Fort Worth Lodge No. 251, I. O. O. F., were opened at 5 o'clock Friday afternoon, but the building committee, which consists of A. Hummel, W. R. Francis and J. M. Davis, took them under advisement. It is probable that he award of the contract will be made late Saturday, and that the contract price for the building will be about $12,000.

Reserve $2,500,000 Less Than Legal Requirements—Values Only Slightly Affected

Special to The Telegram.

NEW YORK, April 7.—Stock values held up very well today, considering the existing conditions in the monetary situation, which portends an imminent crisis in the financial world, without quick relief is forthcoming. The important development today was the bank statement, which traders had anticipated would show a very unsatisfactory condition, but hardly expected that it would be as unfavorable as the figures [illegible] when given to the [illegible] reserve is now $2,500,000 under the legal requirements, while the [illegible] deficit is $6,502,505. Prior to the [illegible] of the statement the market [illegible] ruling rather quiet, with the principal activity among holders of long stocks, who, being averse to carrying their committments over Sunday, took refuge in liquidation, resulting in a fractional lowering of values. The bank statement served to rather increase operations of this character, and although support was sufficient to prevent a serious break, the market closed easy, with the majority of issues near the lowest of the day, showing substantial fractional declines, while Union Pacific lost 1½ points.

American stocks in London firm.

Bank statement very bad.

Mexican Central earnings increase $3,812,000 for March.

The London fortnightly settlement begins on Monday.

Dun's Review says.: "Were it not for a few labor controversies the commercial horizon is cloudless."

Gross earnings of Missouri Pacific for the fourth week of March decreased nearly $100,000. The decreased earnings are explained by the statement that there was an exceptionally large traffic at the time last year, following relief of congestion coincident with a big flood, and the comparison is not fair.

CHICAGO GRAIN

Wheat Prices Hold Firm—Trading Light—Corn and Oats Strong

Special to The Telegram.

CHICAGO, April 7.—Wheat held firm and closed a trifle higher, though trade was light throughout the day. The strength in coase grains had a beneficial effect, as did reports of Duluth values in No. 1 northern to eastern lake points. Cables were a shade lower. World's shipments for Monday are estimated at 10,000,000 bushels. Australian shipments for week, 1,412,000 bushels. Northwestern receipts small, but 279 cars, as compared with 153 a year ago. Total primary movement, 387,000 bushels, or 1,000,000 bushels more than last season. Clearances, 185,000 bushels. Local receipts 5 cars with 2 expected on Monday. This market has shown a consistently good undertone under adverse conditions.

Corn was the strongest of the cereals, advancing ¾c for the May delivery, which was stronger relatively than either July or September. The gain is based entirely upon the immense cash business, both domestic and export, and on the liberal clearances for shipment at the opening of navigation. This means that local stocks will increase rapidly. At the same time the country is selling absolutely nothing. Clearances wwere fairly liberal at 432,000 bushels. The cash market was strong and ½c higher. Liverpool closed a shade lower. Local receipts, 176 cars, with 159 expected on Monday. Total primary movement, 365,000 bushels as against 619,000 bushels a year ago.

Oats were strong on a fair trade, reflecting the strength of corn and also the improvement in the cash situation. The domestic demand is quite good and the export trade is picking up. Two hundred and twenty-five thousand bushels of standard oats were canceled to load out today. Minneapolis stocks will decrease 600,000 bushels for the week. Local receipts were 172 cars, with 155 expected Monday. Clearances, 190,000 bushels.

Provisions closed firm at material advances. A moderate demand on the part of packing interests met with scant offerings until prices were up considerably, and then the selling was mainly by scattered longs. The recent decline eliminated a large line and numerous smaller longs. Estimated hogs for Monday, 37,000 head and 150,000 head for next week.

Industries Wanted

The Chicago and Northwestern Railway is receiving information from desirable points on its lines that industries of various kinds are desired. The opening up of the spring season, with good prospects for a continuance of the large business of the past year, is causing many communities to make strong efforts to locate new industries. Among the establishments desired are iron and woodworking concerns, cereal mills, canning works, cold storage plants and mills of various kinds, as well as mercantile establishments. Requests for particulars address to the Industrial Department of the C. and N. W. Ry., Chicago will be promptly attended to.

Liverpool Advance Surprises Talent. Reflected on This Side—Closing Prices Higher

Special to The Telegram.

NEW YORK, April 7.—An unexpected sharp advance in prices on the Liverpool market, which, according to private advices, was due to the very favorable week-end statistics and a very bullish circular from the bull leader published in the foreign papers this morning, was the principal factor in a sharp advance on this side.

Opening prices were 12 points above yesterday's finals. The proceedings offered a distinct contrast to the usual week-end variety, inasmuch as the liquidation which is generally a prominent feature on Saturday, was almost entirely lacking and although the volume of business was not more than the usual standard, longs seemed to be perfectly content to carry their committments over the holiday and manifested considerable elation over the outlook for higher prices, as indicated by the statistical position of the staple.

After the opening the range of fluctuations was very narrow, the low point being 2 points below the opening figures, while the high level was at a net gain of 13 to 14 points.

The market closed steady with prices practically at the opening figures for the old crop months and a net gain of 11 to 12 points for new crop options.

Spots were quiet with prices 10 points higher at 10.70c for middling. Sales, 400 bales.

NE WORLEANS, April 7—The combined influences of an unexpectedly strong Liverpool market, the anticipation of a bullish circular from the leader of the upward movement and a map indicating weather conditions for the belt over Sunday, imparter a good tone to the local market and influenced considerable buying, causing a reversal of the usual week-end price movement and resulting in a sharp rise in values.

On the first call prices were 8 to 11 points higher, the old crop months showing the most improvement. This gain was eventually increased 3 to 4 points, but a slight recession in the last hour carried prices back to practically the opening figures and the market closed barely steady with prices 10 to 11 points net higher for old and 9 points higher for new crop months.

Spots were steady with prices 1-16c higher at 11¼c for middling. Sales, 2,350 bales on the spot, and 750 bales f. o. b.

Liverpool Cotton Cable

Special to The Telegram.

LIVERPOOL, April 7.—The cotton market exhibited surprising strength for a week-end session.

Opening prices were unchanged with the market quiet, but heavy buying supposed to be for the American bull crowd soon started prices upward and the close was firm, with old crop positions 5 points net higher and distant options 4 points higher. The enormous weekly rate of consumption indicated by the visible supply statement was the principal factor in the advance.

Spots were steady with prices 4 points higher at 6.10d for American middling. Sales, 8,000 bales, of which 5,830 were American. Imports, 15,000 bales, 9,800 American.

Trade Notes

Handle the bull just as you would dynamite. He is just as dangerous.

Don't breed horses with weak feet. If the foot is no good the horse is useless.

Give all stock outdoor exercise and fresh air, but do not expose them to a cold rain.

Don't be in a hurry to get the stock on grass. It is too juicy to contain much nourishment.

Many will be shearing sheep this month. Dip everything for ticks right after shearing.

VIEWS ON THE MARKET

Ware & Leland

Stocks

NEW YORK, April 7.—The stock market this morning was extremely dull and featureless. The publication of the bank statement took the market in surprise inasmuch as it was worse than generally predicted. Nevertheless it appeared to have no appreciable effect on the market and the close found only fractional changes. The point generally made by the bulls is that the statement brought out the fact that the worst is known and the market should improve next week. London was no factor in this market and there was no foreign news of consequence. We look for a dull and narrow market until after the money situation clears itself and the coal strike situation is brighter and would buy stocks only on soft spots.

Cotton

NEW YORK, April 7.—The present cotton market seems to have alternate days of strength and weakness. This is accounted for by the fact that there is so much cotton for sale on every sharp rise that prices sag off following each advance and on the decline professionals sell only to find themselves short and the larger interests give a turn of the screws to have the advance repeated. For some time the market has been a trading one within a 30-point limit. Everything depends on the intention of the larger operators next week. They may conclude to keep the market within these same limits or, again, buying orders may be put in the market and the May option advanced once more. There was more attention paid to the new crop today prices advanced more in October than in July. Fear of rains over Sunday caused an advance in these months. In fact, the market in general showed no change and with a satisfactory weather may on Monday, there will unquestionably be considerable cotton for sale on the next advance.

Vivion Commission Company

FORT WORTH, Texas, April 7.—Continued unfavorable weather and bullish week-end did the work today, Liverpool first going higher and the American markets following. Price was doing his share, but simply based his operations on the legitimate influences at hand. Sellers were shy and people who have been talking about consumption demand being satisfied had to admit their error. Figures were there to show the takings of American for the week being 261,000 bales, only 16,000 bales less than for the same week last year. The total takings for the season are 8,090,000 bales, considerably more than a million a month.

The movement into sight decreased about 110,000 bales as compared to the same week last year.

All kinds lost 139,000 bales compared to last week, and compared to last year 109,000 bales. The total now is 4,525,000 bales an excess of 302,000 bales. The market opened firm and about 10 points higher, with little or no offering save a few liquidating sales. Cables said France had bought over there, and the sentiment was bullish; that the continent was short of actual and that a further advance was expected. The weather map showed rains to be scattering over western belt, but a bad looking storm was just west of the belt, and it was moving towards it, making further unfavorable weather almost a certainty.

The eastern belt had little rain, but was cool, frost being reported from the far eastern section. Spot demand was said to be better, New Orleans wiring that business was good at an advance of 1-16c. Factors were demanding higher prices and buyers were not getting much, as they were hesitating about meeting prices, fearing that the advance would not hear and they would be caught by the reaction.

The support in new crop months was as good as ever, and if it continues a little louger and prices work a little higher, some interesting things may be expected from the large short interest in the belt. It looks like a continued scalping affair, with best chances on the long siide unless the weather suddenly becomes perfect.

STATE BANKS INCREASING

Total Number Chartered Under New Law Is Eighty-One

Special to The Telegram.

AUSTIN, Texas, April 7.—There has been a steady increase in the filing of state banks throughout the state under the new state bank law and it now appears as if the realization of those who advocated the passage of this law during the last regular session of the legislature will be fulfilled.

Almost daily there is at least one charter filed in the secretary of state's department providing for the organization of one of these banks. Up to date eighty-one state banks have been chartered, and it was the prediction of those who were instrumental in the passage of the law that there will be 100 of these state banks in operation by the time the law because one year old, which will be Aug. 14, 1906.

ORDINANCE NO. 955.

An ordinance regulating the alignment and grades of street curbing in the city of Fort Worth.

Be it ordained by the city council of the city of Fort Worth:

Section 1. Hereafter it shall be unlawful for any person to construct any curb on any street in the city of Fort Worth without having first obtained a permit therefor from the city engineer.

Sec. 2. Application for such permit shall be made in writing at office of the city engineer (on forms provided by said office), at least three days prior to issuance of permit, and on permit shall be issued until the city engineer or his duly authorized assistant shall have demarkated by proper stakes the alignment and grade of such curb, which alignment and grade shall be conformed to by the person constructing said curb.

Sec. 3. On all streets not now occupied by street car tracks, or over which street car privileges have not been granted, or applied for as required by law, the following widths of roadway shall be given and staked out by the city engineer, to-wit:

On streets of 80-foot width, 30 feet.
On streets of 60-foot width, 30 feet.
On streets of 50-foot width, 26 feet.
On streets of 40-foot width, 26 feet.

The middle of the roadway space to be at the middle line of each street, according to and corresponding with the records of the city engineer's office.

Sec. 4. On all streets over 80 feet, or under 40 feet, in width, curb lines and grades shall not be staked out by the city engineer, nor permit issued, until the city council shall have determined upon a proper roadway width for such street, and shall have directed the city engineer what width to demarkate.

Sec. 5. No charge shall be made by the city engineer for the work of giving lines and grades for curbs.

Sec. 6. Any person violating any of the provisions of this ordinance, shall, upon conviction thereof in the corporation court, be fined in any sum not less than ten ($10.00) nor more than one hundred ($100) dollars.

Sec. 7. All ordinances, or parts of ordinances, in conflict with the provisions of this ordiance, to the extent that they conflict herewith, are hereby repealed.

Sec. 8. This ordinance shall take effect, and be in force from and after its passage and publication, as required by law.

ORDINANCE NO. 954.

An ordinance regulating the cutting into and filling trenches on certain streets in the city of Fort Worth, Texas.

Be it ordained by the city council of the city of Fort Worth:

Section 1. It shall hereafter be unlawful for any person, firm or corporation to cut into the surface of Belknap, Weatherford, First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth and Fifteenth streets between Throckmorton and Calhoun streets in the city of Fort Worth, for any purpose whatsoever, unless upon the written permit of the city engineer.

Section 2. Prior to the issuance of a permit for such work, the city engineer shall require a cash or equivalent deposit of a sum of money sufficient in his judgment to refill and cut about to be made into any of said streets with suitable cement concrete, and to replace any paving that may exist thereon, such moneys shall be deposited by the city engineer with the city treasurer who shall hold the same in a special fund until such time as the city engineer shall make certificate that the work for which said deposit was made has been properly done and the trenches and paving properly refilled and replaced. However, as soon as said filling and repairs and replacing have been satisfactorily made and the city engineer shall have so certified in writing, the city treasurer shall refund the full amount of the said deposit to the party depositing same. However, in case the person, firm or corporation digging into the surface of the said street shall fail to properly do the things herein provided for and obtain the said certificate of the said city engineer, then the said city engineer shall be and is hereby authorized to do the same and charge the cost thereof against the deposit as aforesaid, and the party making the deposit shall only be entitled to receive the balance of his deposit after there has been charged against the same the cost of the work done as aforesaid.

Section 3. Any person violating the provisions of this ordinance shall upon conviction in the corporation court be fined in any amount not less than ten dollars and not more than one hundred dollars.

Section 4. All ordinances and parts of ordinances conflicting with this ordinance, to the extent that they conflict herewith, are hereby repealed.

Section 5. This ordinance shall take effect and be in force from and after its passage and publication as required by law.

POLY MAN HAS SECOND PLACE

Baylor First in Prohibition Oratorical Contest

THE RESULT IS CHEERED

Polytechnic Students Appear at Contest in City Hall and Show Growing College Spirit

"Third place, C. J. Carter of Texas Holiness; second place, C. A. Bickley of Poly—" Prolonged cheers interrupted the announcement at this point Friday night at the city hall on the occasion of the second annual Texas oratorical contest of the Intercollegiate Prohibition Association, and it was several minutes before the waiting Baylor crowd heard the welcome news that O. E. Bryan of that school captured the first honors of the evening and the prize of $60. Upon the name of Mr. Bryan being given out as the winner, he was grasped by a dozen waiting hands and lifted on sturdy Baylor shoulders, carried to the rostrum and his friends there engaged in the usual demonstration of loyalty to their college and admiration for its champion.

Various colleges represented were as follows:

Baylor University, O. E. Bryan, "The Transitional Epoch."

Decatur Baptist College, J. C. Boyd, "The Authority of Law Over Liquor."

Burleson College, H. N. Harrison, "A Dream of Prohibition."

Texas Holiness University, C. J. Carter, "The Necessity of a Complete Overthrow."

Polytechnic College, C. A. Bickley, "God, Home and Native Land."

The speakers were heard on the subjects mentioned and in the order given.

Judges of the contest were: County Judge R. F. Milam, Rev. R. R. Hamlin, pastor of the First Christian church, and O. S. Lattimore.

Poly Crowd Enthusiastic

Shortly after 7:30 o'clock Friday night the cheering line of Polytechnic students, over 400 strong, arrived at the city hall and entered the building with their enthusiasm wrought up to the highest pitch through the singing of class songs composed for the occasion, the giving of various class and college yells, several being improvised for special use at the contest, while the girl students, numbering about half of the Poly forces, were each provided with canes, to which were strung the pennant of the school, done in crimson and black, the colors. A continual din of changing vocal expletives, rounded into expressive sentiments, made the auditorium present a very lively sight, while the ear was treated to rythmic jargon intended to strike terror to any and all other collegiate hearts present.

Others Well Represented

But the overwhelming noises that came from the balcony, which was packed by the Poly students, did not drown the enthusiasm of the collegians seated in comparatively small groups on the first floor, for while the Poly crowd could, at will, make all other "rooting" bear a marked semblance to the ripple of waves in Galveston bay as compared to a storm on the Gulf of Mexico, yet the spirit of Decatur Baptist college often seemed to almost carry the boys off their feet and the Poly crowd would politely waive the right to "demonstrate" forever, being at home, so that everybody had a chance to yell himself hoarse and did so.

Announcements Cheered Wildly

At the request of the presiding officer for the evening, John Wilton of Baylor, there was little or no demonstration during the time the various contestants were delivering their orations, although the appearance of Mr. Bickley, as his theme was announced, **seemed to be a general signal for another** prolonged outburst of applause from the balcony, where "R-a-h—R-a-h—R-a-h—Poly" was given repeatedly before the local students would permit their representative to begin his address. There was also a generous share of long-continued applause preceding and following each speaker on the program. Upwards of thirty students from the Decatur Baptist College made the lower floor gay with waving banners, and the entire audience, numbering between 800 and 1,000 people, rose to its feet to cheer the winner as his friends brought him on their shoulders to the platform.

Poly Band Concert

Polytechnic College brass band was present and rendered more than a dozen splendid numbers, to the evident pride of the balcony and the general satisfaction of the entire audience. A spontaneous outburst greeted the rendition of "Dixie," while the judges were in the ante room making up their decision.

The annual oratorical contest is an adjunct of the Texas Intercollegiate Prohibition Association, which opened its sessions at Polytechnic College Thursday.

Officers of the association are: John W. Milton, Baylor, state president; William M. Le May, T. C. U., vice president; Wallace Gregg, Polytechnic College, secretary; L. B. Newberry, S. W. U., advisory.

Leagues are maintained in this state at Southwestern University, Georgetown; Texas Holiness University, Greenville; Howard Payne College, Brownwood; Texas Christian University, Waco; Polytechnic College, Fort Worth; Burleson College, Greenville; Baylor University, Waco; Baker College, Brownwood, and Decatur College, Decatur.

The winner at this contest represents the state association in the middle west contest to be held at Lincoln, Neb., this summer, and the winner there will be sent to the contest at Chicago or New York.

WEATHER REPORTS

Heavy Rains Have Fallen Along the Denver Road

An unusual low barometer area is centered over Denver, and for a radius of several hundred miles snow and rain are falling. The conditions at Fort Worth are about normal, this point being about an equal distance from the low center at Denver and a high center in East Tennessee.

The average temperature in Texas was about 69 degrees. At Fort Worth this was the maximum for the day. States east and north of Texas have had considerably lower temperatures, frost being reported from North Carolina.

Generally cool and cloudy weather was reported Saturday morning along the Denver road. Hard rain had fallen from Amarillo to Texline, and light showers from Childress to Amarillo.

The temperature at Texline at 7 o'clock Saturday morning was 50 degrees; Amarillo, 48; Childress, 50, and Wichita Falls, 55.

The weather bureau statement is:

"A low barometer area of considerable energy is centered over Denver, causing snow in Utah and rain in Colorado, Kansas and Arkansas. Another low area is noted in northern Montana, causing rain in Oregon.

"A high barometer area dominates the southeastern state, causing cooler conditions, heavy frost occurring in Virginia and light frost in North Carolina.

"The southern states are generally cloudy, but without precipitation since last report.

"Texas is fair in the Panhandle section."

RANCH SOLD HERE

Dawson County Property Transferred to Jerry Williams

A deal was concluded in Fort Worth this week for the Old Fish ranch and cattle in Dawson county. The sale was made by G. W. Linger, manager of the L. S. Cattle Company, to Jerry Williams of Colorado City. This property was formerly owned by C. A. O'Keefe in this city.

There are about 2,400 head of cattle included in the sale and sixty sections of leased land, together with all improvements. The amount paid was about $40,000, delivery to be made June 1. It is understood that Mr. Williams will look after the management of the ranch in person.

The L. S. Cattle Company is a company composed of English interests.

HEAD OF LODGE IS ENTERTAINED

Fraternal Mystic Circle Gives Program at Tabernacle

An elaborate entertainment was provided at the Christian Tabernacle Friday night in honor of Ferdinand H. Duckwitz of Philadelphia, supreme mystic ruler, by Fort Worth Ruling No. 349, Fraternal Mystic Circle. The platform was filled with potted plants and large bunches of carnations, while over the platform was a large sign bearing the inscription, "F. M. C. Welcome," in incandescent lights.

An elaborate musical program was prepared for the occasion, which included some of the best singers in the city. Despite the threatening weather, there was a large number of people present at the entertainment, including members and non-members of the order.

The program was as follows: Introduction, T. J. Powell; address, F. H. Duckwitz, supreme mysic ruler; solo, "My Dreams" (Tosti), William J. Estes; piano, "Rustle of Spring" (Sindig), Guy Richardson Pitner; solo, "The Flower Girl" (Bevignani), Miss Pearl Calhoun; solo, "The Song of Hydrias the Cretan" (Elliott), Joseph Rucker, Miss Gillespie accompanist; violin solo, "Adoraton" (Browski), Mrs. Goodridge V. Morton; duet, "A Night in Venice" (Lucantoni), Miss Calhoun and Mr. Estes. G. R. Pitner, accompanist.

The entertainment committee in charge of the program was composed of H. L. Calhoun, J. O. Terrell and John A. Kee. The reception committee was composed of J. A. Beasley, R. S. Pardue, Mrs. R. S. Pardue, Mrs. A. M. Cole, A. W. McDuffie, H. L. Calhoun, Mrs. J. O. Terrell, Mrs. R. L. Shelb, Mr. Cannon, J. O. Terrell, J. M. Furman, Mrs. Lula Kee and Mrs. H. L. Calhoun.

OLD HOME SOLD

Property at Texas and Taylor Streets Transferred Friday

The old Carter homestead at the corner of Texas and Taylor streets was sold Friday by Dr. Frank Rainey, superintendent of the Masonic Home, to Mr. Bruce, a non-resident of the city, who will move here and make Fort Worth his home. The price paid for the house and lot was $8,500. The lot is 100x100 feet in size and is occupied by a two-story residence.

RAILROAD RUMBLING

C. J. Larimer, division superintendent of the International and Great Northern railroad, who has been residing at 802 West Fifth street, this city, was here Saturday from his headquarters at Mart, making arrangements to move to that place, where he will be nearer his office.

C. & S. Officers

A. L. Cochrane, general purchasing agent of the Colorado and Southern, and H. W. Cowan, chief engineer of the same road, were in Fort Worth Saturday morning in conference with Denver officials. As previously announced in The Telegram, extensive improvements, both in rolling stock and roadbed are to mark the present year for the Denver road.

Texas Central Plans

H. C. McHarg, president of the Texas Central railroad, was in Fort Worth Friday night, being joined here by Charles Hamilton, vice president and general manager of the line.

The object of Mr. McHarg's visit is to look into the contemplated building of the extension or branch line from De Leon to Rising Star, and the building of the extension now in course of construction in Fisher county, a distance of about forty miles west of Stamford.

The Texas Central has in contemplation the building of a branch line from De Leon to Rising Star, a distance of about thirty-five miles, in Eastland county. When the line will be built has not been decided upon, but the matter will be discussed at length, Colonel Hamilton says, and in all probability the line will be built. The country through which the proposed line is to be built is one of the richest sections of Texas. Mr. Hamilton made a trip over it a few days ago and is most favorably impressed with the idea of building the branch and will put the matter in the strongest light before President McHarg on this visit.

Further extension of the line is declared to depend upon the development of the country.

Big Deal Pending

NEW YORK, April 7.—It is reported here that the Rock Island interests have completed final arrangements for the option on the stock of the Colorado Southern, New Orleans and Pacific railroad, which is to run from Houston to Baton Rouge.

At a meeting to be held on Wednesday a decision will probably be arrived at as to whether the Rock Island or Frisco will take over the project.

A financial plan is under consideration which may involve an issue of $7,500,000 short term notes to be guaranteed by the acquiring road. At the same time, it is admitted that the scheme to raise funds for the new project may be of a different nature.

It is hoped that B. F. Yoakum may have recovered sufficiently by Wednesday to take part in this conference. Mr. Yoakum is recovering rapidly from his recent operation.

Notes and Personals

Charles Grimes of the engineering department of the Rock Island, has been sent to Nebraska on special work for the company. It is understood that his trip is in connection with bridge work at the Platte river crossing.

E. B. Pierce, auditor of the Frisco, has gone to Sherman.

Phil A. Auer, general passenger agent of the Rock Island, has returned from the meeting of the Southwestern Passenger Bureau held at Kansas City.

COURT IS ADJOURNED

Federal Term at Fort Worth Ended Saturday

In the Federal court Friday Judge E. R. Meek rendered a decision giving a judgment against the Texas National Bank of Dallas for $34,184. This decision was the result of a suit filed by Neal Starks, trustee for A. F. Hardie, former merchant of Fort Worth.

Saturday morning the Federal court adjourned for the term here and will meet next in Abilene.

MAIL HANDLED HERE

775 Tons of Matter Record for Month of March

Seven hundred and seventy-five tons of mail matter were handled at the mail transfer office at the Texas and Pacific passenger station during March. This is equal to 1,500,000 pounds and the average amount handled each day in the week is 50,000 pounds.

Ten men are employed to handle this immense amount of mail, and every pound of it is taken out of the mail bags and distributed among other bags before it leaves Fort Worth. Of the ten men who do this work, however, only seven of them are on duty at any one time.

This mail matter includes that to and from Fort Worth and that brought in on all the trains for other points than Fort Worth. The volume of mail matter handled is steadily increasing, and if it keeps on at the present rate of increase it will not be a great while until the tonnage reaches 100,000 or 600,000 pounds each month.

PARK ASSOCIATION IS NOW ORGANIZED

Seventh Ward Body Adopts Constitution

The meeting held by the Park Association of the Seventh ward, at the Seventh ward school house, Friday night, was slimly attended, but what it lacked in numbers was made up in enthusiasm. Several addresses were made, commending the objects for which the association was organized, and as an evidence of the popularity of the movement, there were present many people from without the ward who signified their desire to become members of the association.

The business of the meeting was that pertaining to a constitution and by-laws of the association, and the election of a secretary and treasury. A constitution and by-laws as prepared by the committee appointed for that purpose was read and unanimously adopted.

Miss Maggie Barton was placed in nomination for secretary and treasurer and was elected without opposition.

Among those from other wards present at the meeting were James W. Swayne, Professor Alex Hogg and Clarence Ousley, all of whom addressed the meeting indorsing the park association and its purposes.

James W. Swayne made a strong park improvement talk, and like Mr. Ousley, said he wanted to become a member of the Seventh ward association, because he always took a deep interest in that part of the city. He not only wanted to become a member himself, but wanted the names of his wife and daughter enrolled as members.

Professor Alex Hogg followed Mr. Swayne, indorsing the park movement, which he said should be taken up ar[illegible] in every ward in the city, [illegible], in his opinion, contributed so much to the attractiveness of a city's parks, and San Antonio was re[illegible] to as proof of the fact.

Captain B. B. Paddock was the last speaker, and he talked entertainingly on parks, and strongly indorsed the work the association had taken in hand, and said that it should be kept up until Fort Worth was dotted with parks or breathing places in summer for the people, especially for the women and children. The meeting then adjourned to next Friday night.

As first announced in The Telegram, the Park Association was organized upon call of Dr. C. P. Brewer and R. L. Armstrong, alderman-elect of the ward, to urge a park and other improvements for the Seventh ward. A campaign among the school children has been a feature of the movement.

PANTHERS WIN FIRST

Victory Comes to Panthers in Game at Galveston

In their first game of the series with Galveston at that place Friday, the Fort Worth Panthers won after a close, exciting struggle, by a score of 1 to 0. This is the first game the Panthers have won this season. The Panthers play at Galveston again today and also Sunday.

The score by innings Friday was as follows:

```
                                    R. H. E.
Fort Worth..0 0 0 0 0 0 0 1 x—1 4 4
Galveston ...0 0 0 0 0 0 0 0 0—0 3 2
```

Batteries—Walsh, Ort, Jones and Boles; Slater and Moore.

POLYTECHNIC WINS

Local College Defeats Decatur Baptist in Close Game

Polytechnic College baseball team defeated the Decatur Baptist College Friday afternoon at the college grounds by a score of 3 to 2. Things were quite even throughout the game, which was a pitcher's battle. Horton who was in the box for the Baptists, had rather the better of the battle, striking out seventeen of the Poly. boys, against seven by Heyser of the Poly. team.

The ground was a trifle wet for fast playing, but this did not prevent a good game being played by both teams. There will be another game Saturday afternoon between these teams.

Summary of the game Friday: Strike-outs, Poly. 7, Decatur 17; hits, Poly. 5, Decatur 4; errors, Poly. 4, Decatur 6.

Masonic Home Wins

A team from the Masonic Home defeated the Poly. Stars Friday afternoon, by a score of 6 to 5. The feature of the game was the two-base hit of Brewster of the Masonic team, in the last half of the ninth inning. This hit won the game, by bringing in a man from third.

The Masonic Home boys have organized two teams, and will soon play a series of games to decide which of the teams is the better. The winner is to be awarded a mask, catcher's mitt and other baseball equipment, prizes given by a local Mason in order to stimulate the interest in baseball at the home.

Pretty Polly

The Polly Parrots defeated the Glenwood Stars by a decisive score of 7 to 1 Friday afternoon, at Glenwood grounds. Sanders and Wyatt were the battery for the Polly Parrots, and Douglass and Purvis for the Glenwood Stars.

Baseball Sunday

The Denver Road and the Southwestern Telegraph and Telephone Company will play ball at Haines park Sunday afternoon at 3 o'clock. These two teams will be composed of the pick of the City League, which will guarantee a good game.

The Denver Road team won The Telegram pennant for 1905, and the telephone team is about the same as the Keller team of last year. The Keller team led the race until the last two games, which were captured by the Denevrs.

Series at San Antonio

Special to The Telegram.

WACO, Texas, April 7.—The ball team of Waco goes to San Antonio today to play three games. From San Antonio the team will visit the other chief cities of south Texas and play a series of games in each of these cities, returning home April 20 to play Austin three games on the diamond here.

WILL SPEND $100,000

Postal Telegraph Company to String Additional Wires From Texas

Special to The Telegram.

DALLAS, Texas, April 7.—The Postal Telegraph and Cable Company will spend $100,000 in stringing additional wires from Texas to the north and east. General Manager S. M. English, who has just returned from a business trip to New York, announces that the work will be commenced at once and be completed this year. These additional facilities are made necessary by the fast increasing telegraph business in Texas.
