Members of the Retail Merchants Committee who participated in this past weekend's Sidewalk Sale reported that this was the best yet in terms of number of folks who attended the annual event.

The downtown area was jam packed by 9 a.m. and the crowds continued on through the lunch hour.

Gaynelle Riffe reported the Girl Scouts sold out of hot dogs before noon with about 600 going fast and furious. She also reports that next year they will have ample supplies of hot dogs in order to accommodate every order.

Darla Moon, chairman of the retail merchants committee, said everybody enjoyed the event and most were looking forward to having a bigger and better sale next year.

Yours truly owes an apology to Carrol and Sherry Wisdom. Seems that last week we left True Value off the list of merchants who contributed toward the Girl Scout project. We are sorry for the oversight and hope they forgive our short memory.

Again, all the merchants had a fine sale and asked us to pass along their appreciation to everyone who helped make it a success.

Alfred Pronger was by Monday afternoon to get a photo taken concerning Farm Safety Week and in jawing with him we found out that another government program bit the dust after a lot of hard work on the local level.

Seems that the recent grasshopper spray program was to be paid for by the landowner, state and Federal government, each sharing one third of the cost.

Ernest Goule put in about two full weeks hard work getting it lined up in Sherman County and we had three big spreads to spray, one along the Dallam-Sherman county line, up along the Oklahoma line, then down on the Bivens Coldwater Ranch.

Guess what got sprayed... yep, only the Coldwater Ranch!

Now that was fine for those folks, but what about the remainder of the areas that were to be sprayed...no soap! Over in Dallam county we hear a government expert, who finally found his way from Amarillo to Dalhart, surveyed to see if there were any grasshoppers. It only took the man about a half day to report that the only things he saw was yucca and bear grass and it wasn't worth spraying. Later it was also learned the "expert" spent the entire day lost somewhere between Boys Ranch and Dalhart!

Then Jimmy Carter wonders why we don't have any faith in our government. Lord, no wonder when half of them couldn't find their behinds with a roadmap!

This weekend the Chamber will be sponsoring their first annual Golf Tourney at the Country Club. We urge all golfers to sign up and participate in the event. Who knows, the Chamber has even taken out a policy to where if you are the first to make a hole in one on Number 3 you will win a free Chevy Malibu.

Someone may be lucky enuff to win the auto...so get on out and get with the action this weekend.

By Doris Dyess

In the spring of 1925 a class of 15 graduated from Elementary School in hope of entering Stratford High School in the fall. We were anxious and well prepared to further our education as our teacher, Mrs. Timmie Brown, had prepared us well.

By the time school started

we had lost a few members and during the next four years we lost more but also gained a few new ones. When graduation time came in 1929 there were only four of the original group who had entered as Freshmen but we had gained four new ones so there were eight of us to don our caps and gowns and proudly march across the stage to receive our diplomas.

The High School faculty at that time consisted of four members: Dow Patterson, Superintendent and Boys' basketball coach; Miss Alma Hall, Math and girls' basketball coach; Mrs. Kathleen King, English and Latin; and Mrs. Mary Peach Smith, History teacher. Miss Alma Hall also served as Senior Class sponsor.

Even though the class was small we were very active and kept things moving along all through high school. We had a Halloween Carnival and actually made over \$50. This may have been the first of the Halloween Carnivals at this school. We sold sacks of homemade candy, had a fishing pond and a Horrow House. Since no one had even thought of Senior Trips back then, the money was used to

ELEMENTARY GRADUATES IN 1925--This group of students showed how it was back in 1925 as they prepared to enter high school in Stratford. Front row, Garnet Douglas, Anna Ree Parsons, Vera Harrison, Mildred Garst and Bonnie Pendleton; second row, Lora Mae Tracy, Velma King, Opal Butler, Doris

buy a machine for the school so we could print our own paper, "The Duster." I've forgotten just what kind of machine it was but we were really proud of it. After gathering the news, etc. the stencils had to be cut, ink put in the machine and we invariably got too much or not enough. Then the pages ran through one at a time as the crank was turned by hand. We

learned pretty quick that an extra sheet of paper had to be placed between each page to blot the ink or the print would blur so it couldn't be read. We spent many long, hard hours publishing "The Duster" but the whole school, and even the town folks looked forward to the day the paper came out. "The Duster" staff could easily be recognized by the ink on their hands and clothes. It

would not wash off and didn't even wear off from one week to the next.

The 1929 SHS graduates who entered as Freshmen in 1925 were Opal Butler, Bonnie Pendleton, Vera Harrison and Doris Pronger. The ones that joined us later were Chester Garst, Thomas Hart, Mae Griffin and Opal Griffin.

Thomas Hart and Opal

Griffin were married soon after graduation. They moved to California and are still living there. Mae Griffin also moved to California and is deceased. Bonnie Pendleton Mosely and her husband are living in Marietta, Georgia, near their daughter. Bonnie retired from school teaching. Chester Garst and his wife

**LEARN
TO READ
YOUR
ELECTRIC
METER
AND SAVE!!!**

It will let you determine how many kilowatt hours you use in a given period of time — an hour, a day, a month or a year. That's how electricity is measured — by kilowatt hours (kwh) used.

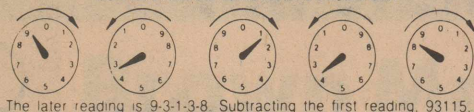

Your residential electric meter will have either 4 or 5 dials

Electric meters are easily read from right to left as you look at the meter. If the pointer on a dial is between two numbers, write down the smaller number. When the pointer is directly on a number such as one (1) (see center dial above) then read it as 1. If the pointer on the next dial immediately to the right has passed zero (0). However, read it as zero (0) if the pointer on that dial to the right has not reached zero.

The dials above read (from left to right): 9-3-1-1-5. If, however, the pointer on the second dial from the right above was between 9 and zero then the center dial would read as a zero.

Now let's read the same meter 24 hours later

The later reading is 9-3-1-3-8. Subtracting the first reading, 93115, from the new reading of 93138 — the answer is 23. Thus you would have used 23 kilowatt hours in the 24 hour period. Each kwh costs approximately five cents.

When you learn to read your electric meter, you will be able to see where your energy dollars go — then learn to use energy wisely & save!

"Husbands, love your wives, even as Christ also loved the church, and gave himself for it."
-Eph. 5:25

It is odd and marvelous how such a small short passage of the holy scriptures can teach so much. We have the foundation of society and the redemption of man neatly woven together in glistening eternal inspiration.

God reveals man should love his wife with the fervent love of Jesus for his church. He is to protect, nourish and cherish his wife even as our Lord lavishes his love upon the redeemed that he purchased with his blood.

There are those in society who harbor the desire to destroy the family unit. In fact that insist the world would be better by its demise. To this God through Jesus states, "What therefore God has joined together, let no man put asunder" (Mark 10:9). Our text obligates man even further because "love never ceases" (1 Cor. 13:8).

Today we hear "Christ, Yes! the church, no!" Again, the futility of ignorance. If Jesus gave himself for the church and loved the church to the extent that he died for it, is it not ridiculous to think we would have Jesus as Saviour while eliminating what he died for?

Paul states again, "Unto him be glory in the church by Christ Jesus throughout all ages, world without end, Amen" (Eph. 3:21). According to Paul the church glorifies God, is loved of Jesus and will remain throughout all ages, world without end. The church is not an after thought but the blessed of God in Christ.

Stokes, Beaty Exchange Wedding Vows Saturday

Miss Cynthia Gay Stokes became the bride of Mark Alan Beaty Saturday, July 21 in the First Baptist Church. Bob G. Beaty, father of the groom, performed the double ring ceremony.

Parents of the couple are Mr. and Mrs. Arthur L. Stokes of Stratford and Mr. and Mrs. Bob G. Beaty of Amarillo.

BRIDAL GOWN

Given in marriage by her father, the bride selected a formal gown of ivory qiana designed with a Victorian neckline and empire waist. The bodice was enhanced with Venice lace and seed pearls; the back highlighted with a wa-tae capelet edged in Venice lace. The long full skirt fell to a Venice edged hemline which swept into back fullness cascading into a chapel train. She wore a matching ivory hat with three soft ivory roses accenting the end.

She carried a cascading bouquet of white roses, spider mums, centered with gardenias. She presented the mothers with a silk apricot rose.

TRADITIONAL

For "Something Old" she wore a paternal great grandmother's and maternal and paternal grandmother's wedding rings. Her "new" was her dress and she borrowed her mother's diamond earrings. She wore the traditional blue garter.

WEDDING MUSIC

Wedding selections were provided by Mrs. Bob Boardman, organist, and Mrs. Jim Ingham, soloist. Songs presented were "Wedding Song" and "The Twelfth of Never".

HONOR ATTENDANTS

Gary Ferguson served the groom as best man while Vicki Stokes of Birmingham, Alabama, was her sister's maid of honor. Bridesmaids were

Prisca Young of Canyon, and Mrs. Russell Maddox of Dallas.

Ushers and groomsmen were John Severyn and Phil Ward of Amarillo.

The bridesmaids wore floor length gowns of apricot qiana designed with a scoop rounded neckline. The slightly empire waistline was accented with a self fabric belt. The dresses were enhanced with rounded side splits and a light ruffle down the sides. They carried bouquets of sonia roses and gardenias, cascading with greenery and streamers.

CHURCH DECORATIONS

Guests were registered by Debbie Crawford of Dalhart. The aisle was closed by a white aisle post. The altar was centered with an archway covered with greenery and spider mums. A unity candle was centered under the archway. Lighted candleabras flanked the archway. Bouquets of mums, gladiolas and carnations were placed in front of the piano and organ. Pews were decorated with apricot bows, greenery and baby's breath.

MOTHER'S GOWNS

Mrs. Beaty wore a pink knit gown with pink chiffon capelet extending to the floor in back. Flowers and sequins accented the scooped neckline. She wore a corsage of off white cymbidium orchid on an off white background.

Mrs. Stokes chose an apricot chiffon gown with knee length chiffon overlay. A single chiffon rose accented the scooped neckline. Her flower was an off white cymbidium orchid.

WEDDING RECEPTION

The reception was held in the fellowship hall of the church. The bride's table was covered with an apricot cloth with a white lace overlay. The cake was three tiers with accents of apricot and white roses and wedding bells. Silver appointments were used to serve punch and cake. Servers at the bride's table were Patti Stokes and Glyna Beaty, sisters of the couple. The groom's table was covered with an apricot cloth. Silver appointments were used to serve chocolate cake and coffee. Susan Stokes, sister of the bride, assisted with serving.

Pam's Scratchpad

by Pam McReynolds

Making new acquaintances is one of my favorite things to do, but there was one that "ran into" me the other day at my Grandad's who hopefully isn't around any more.

Rattlesnakes really aren't my type and this fact definitely came to my attention the other day while yours truly was plowing.

An irrigation pipe had to be moved out of the way and in the process of doing this, the new "friend" caught my eye. Have you ever heard of the farmer who flew to his tractor? Although my grandparents were a couple of miles away, surprisingly enough they did not hear me scream. Feeling a little braver, we ran over the snake (in the tractor, of course) but didn't wait around to see if it killed him. Hopefully the next time someone (or something) new is around, we'll be properly introduced! By the way, the pipe is still there if anyone would like to volunteer to move it.

Futurity activities will add to a long list of events at the 1979 State 4-H Horse Show at the Ector County Coliseum in Odessa July 24-28.

Futurities for yearling fillies, yearling geldings and two-year-old western pleasure horses will be held the first two days. A futurity horse sale featuring 53 lots of horses will begin at 1 p.m. on July 26.

Horses entered in these futurities are projects of 4-H members from throughout the state, point out Dr. Doug Householder and B.F. Yeates, horse specialists with the Texas Agricultural Extension Service, Texas A&M University System. The Extension Service is the parent organization of 4-H.

Chamber Chatter

by Pinky Plunk

The retail merchants Side Walk Sale was a big success this year. Parking space was hard to find down town and the stores were crowded most of the time.

It is strange what a sign marked 50 percent off will do to people, it is similar to seeing a highway patrol car on the side of the road. It makes us slow down and think.

The trouble with me, I did not realize soon enough. While saving 50 percent on my purchases, if I would have stayed at home I could have saved 100 percent. It was a great sale and the merchants appreciate you for shopping at home.

The Chamber of Commerce Golf Tournament will be held this weekend and some of you indicated you wanted to play but have not signed up.

Remember we can only have a total of 100 players. If you want to try your skill at making a hole in one and be the proud owner of a new Chevrolet Malibu sport coupe, then call the Chamber office, 2260, and enter this funfest.

XXX

The Stratford High School Reunion will be held August 11, and from all reports, there will be many out of town grads back to their old home town. All the local graduates should be sure to attend. In the past many students return to see some of their local friends and were discouraged because the home town people were not present.

Come on out and enjoy an evening of entertainment and see how fat and how thin the hair is on some of your old school mates.

Front Lawn Provides Enjoyment

The front lawn deserves a special award from the Environmental Protection Agency. A landscape horticulturist says that plants growing outside the front door contribute much toward producing a better environment.

Everett Janne, with the Texas Agricultural Extension Service, says that living plants not only provide beauty, but also help remove many undesirable products in the air. Through photosynthesis, plants use carbon dioxide in the air and release pure oxygen. It is estimated that a 50 feet by 50 feet plot of grass can provide enough oxygen for a family of four.

Grass and trees are also effective dust traps. Dirt particles are attracted to leaf surfaces through static electricity or are trapped by dense foliage. Rainfall washes these particles back into the soil, continuing the recycling process.

Janne says grass also acts as a cooling system. Grass releases water through a process called evapo-transpiration, which cools the surrounding air. Grass absorbs only 50 to 60 percent of the sun's incoming heat while buildings and pavement absorb up to 90 percent.

So, for a pleasant as well as healthful environment, lawns make a valuable contribution, believes the horticulturist.

Tri State Fair Talent Best Yet

The 1979 Tri State Fair gets under way September 17, with one of the most impressive arrays of talent in the event's history. The Fair Committee has booked an outstanding entertainer for each day of the week-long fair, and some shows feature two headliners.

All shows this year will be enhanced by sound and lighting from a professional firm and the arena stage has been enlarged and relocated at the north end of the coliseum.

All tickets will be priced at \$6, \$7, and \$8, and there will be two daily shows, at 5:30 and 8:30 p.m.

On opening day, Monday, September 17, the ever popular Charley Pride will headline both shows.

On Tuesday, September 18, the record-breaking duo of Kenny Rogers and Dottie West will perform in another double-header.

On Wednesday, September 19, Ronnie Milsap returns with the great show that impressed fair-goers in 1978 and has earned him many awards by his peers and fans.

On Thursday, September 20, will feature the solid, entertaining show of the Statler Brothers and Barbara Mandrell, who set records at the 1978 fair.

Friday, September 21, will see the impressive shows of the "man in black," Johnny Cash.

Closing out the week, on Saturday, September 22, Marty Robbins and Stella Parton will claim the spotlight for the last two shows. Advance tickets are available by mail, and orders should indicate day and time tickets are desired, and addressed to P.O. Box 31087, Amarillo, Texas 79120.

CARD of THANKS

The Stratford Little League would like to thank the following businesses for their help and contributions this year: Cut Rate Grocery, Duncan Chevrolet, Elk Pharmacy, M&R Dairy Queen and O'Bryant Drilling Co, Bloomfield, New Mexico.

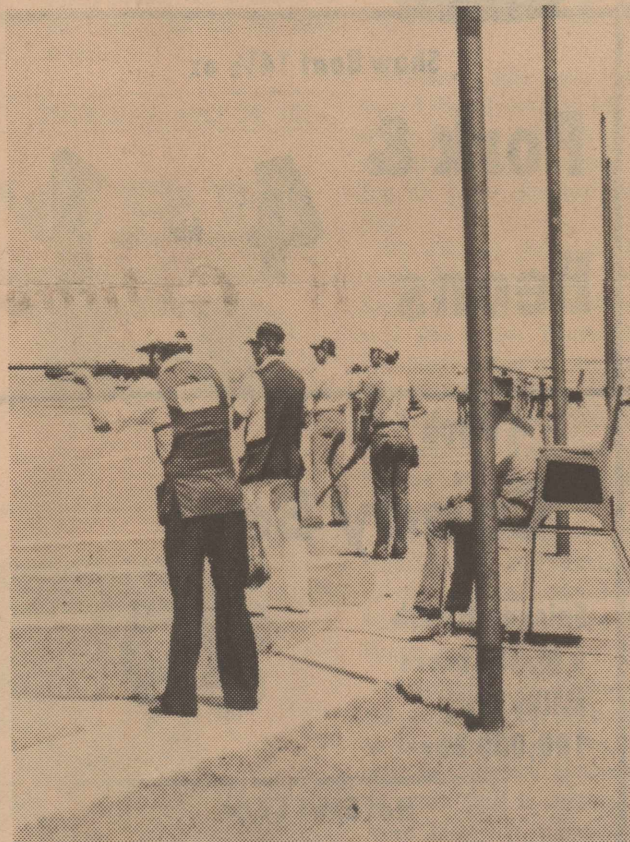

A special thanks goes to all the individuals that gave their time working on the field before each game and to the men that umpired the games. The concession stand was run by the parents and each one was deeply appreciated for doing their share and more.

Thanks to each business that bought a sign or sponsored a team. We could not have had a baseball program without all the help from everyone.

STRATFORD RESIDENT IN CAPITOL--Miss Pam McReynolds is shown with Rep. Bob Close on the House floor in the State Capitol in Austin. Miss McReynolds, daughter of the Dave McReynolds, was a House Sergeant when the Legislature was in session. Rep. Close has decided not to run for re-election.

TRAP SHOOTING ACTION--Over 100 shooters were in competition at the Gun Club Sunday afternoon with representatives from a four state area trying their luck. Jimmy Borum won the High Overall award with 283 hits out of 300 nosing out James Spurlock of Stratford who hit 282 and earned runnerup honors.

It's often believed good luck to dream of onions.

Tradition has it that daisies came to America with the hay brought to feed the horses of Gen. John Burgoyne's army during the Revolution.

Study Shows Hidden Asthma New Problem

Some people diagnosed as emphysema patients may instead have a newly discovered--and reversible--condition called "hidden asthma."

This is the surprising finding of an extensive study of patients at the University of Colorado Medical Center, whose original purpose was to evaluate a pilot program of home-based care for emphysema patients. Nearly 20 percent of those diagnosed as suffering from irreversible

emphysema responded early in treatment to bronchodilators and corticosteroids.

All patients entered into the study with at least 50 percent loss of lung function. The unexpected, fast response to treatment of some patients prompted closer examination. "The features of these patients were a family history of asthma and obstructive lung disease without a very heavy smoking history," says Thomas L. Petty, M.D., Chief of Pulmonary Disease at the University of Colorado Medical Center.

Unlike emphysema, which is caused chiefly from heavy cigarette smoking, asthma can be triggered by an enormous variety of events. While asthma involves a constriction of the air passages of the lungs, emphysema results in destruction of the air sacs, where oxygen and carbon dioxide are exchanged. Both involve marked difficulties in breathing.

A spirometry test, which measures the amount of air in exhalation, was invaluable in unmasking hidden asthma patients.

To find out more about all types of lung diseases and their causes, contact your local American Lung Association--the Christmas Seal people. It's a matter of life and breath.
