Beach Wins County Clerk Race: Run-off In Pct. 4

One incumbent was defeated, one was forced into a run-off and another incumbent easily won in local races as just over 2,000 voters went to the polls in the Democratic and Republican primaries in Mitchell County Saturday.

In the hotly contested race for county clerk—the only county-wide office up for election—Joan Beach, a former deputy clerk in the county clerk's office, scored an impressive win by more than a two to one margin as she defeated incumbent Marie Bassham by the vote of 1,369 to 605.

24 Vote In GOP Primary

In the Republican Primary a total of 24 persons voted with two of those voting absentee. The only contested race was for Governor. In that race Clarence G. Thompson received three votes, Ray Hutchison received seven and Bill Clements received 14.

On the proposition on horse race wagering, the vote was 11 for and 13 against. On the proposition for electing delegates to the party's national convention it was 7 for and 15 against and on the proposition to limit the taxes levied by governments, the vote was 11 for and 13 against.

In Loraine's Precinct 4 county commissioner race with three candidates, a run-off between Billy Preston and Incumbent Robert Bruce will be necessary. Preston got the most votes but not a majority as he got 200 and Bruce, 192. The third candidate, George Lee, got 76 ballots. The run-off will be held June 3. In all likelihood there will have to be other run-offs in the state including one for the 17th Congressional District which includes Mitchell County.

In the only other contested races in the county, Incumbent Ruby Sweatt easily won over Grace Plummer Johnson by a vote of 178 to 34.

In the 17th District Congressional Race, Charles Stenholm of Stamford carried the county by a vote of 710 while Jim Baum of Big Spring was close behind with a vote of 598. Dusty Rhodes of Abilene got 389 votes while Crews McCulloch had 106, Fike Godfrey had 61, Jim Sharp tallied 33 and Jim Snowden of Tye had 19.

It was reported to the Record that Baum was carrying his home area, Howard County, by about an 80 per cent margin and he also was in the top vote getters in Scurry County. However, on the eastern edge of the county, Rhodes was reported to be in the lead.

In a hotly debated issue, the county in both Primaries voted down the proposition for horse race betting by the vote of 1,104 against and 688 for. The other proposition on the Democratic ballot regarding higher interest rates was overwhelmingly downed by the vote of 1,516 against and 105 for.

In the race for governor, Incumbent Dolph Briscoe carried the county by the vote of 986 while John Lill got 839. Preston Smith got 108 for governor, Donald R. Beagle got 14 and Ray Allen Mayo tallied 6 ballots.

In the race for the U.S. Senate, Bob Krueger easily carried the county by a vote of 1,108 to 649 over Joe Christie.

The total vote in both primaries amounted to 2,016, not close to half of the counties number of registered voters.

Town Talk

By Mac McKinnon

A lot of work is being done by Chamber of Commerce officials in preparation for the July 5-8 Junior Rodeo Association rodeo here.

It should be a big event and will probably attract a lot of people here. This will start the day after the annual July 4 Fly-In at the airport. There's still no word yet on whether the fly-in will be held at the old airport or the auxiliary field.

Lots of people have already turned in yeoman duty in preparation for the rodeo and there's still much to be done. Among those who have already worked hard are Chamber President Jerry Putman, Vice President Ken Godsey, Directors Kenneth Beasley, Larry Blasingame, Don Banta, Chamber Manager Larry Winters and Chamber Secretary Dee McClure.

Efforts are underway to have a rodeo queen contest. There'll be more about that later.

Incidentally, if you're not a member of the Chamber, now is a good time to join.

Speaking of active organizations, the newly formed Optimist Club is a tremendous asset to our city. They have really jumped in and started a lot of activities that are needed to help young people.

One person who seems to know how to get things done and doesn't mind doing it is another asset to our community. That's Highway Patrolman David Hancock. It was through his efforts that the Optimist Club was formed and it is also through his efforts that we now have a girls softball league, something we've needed here for years.

The response by the young ladies in our community is proof of the need for the softball teams. Hancock took on the task of forming the league, getting all the necessary information and getting the city to help with preparing the field for the season opening next week.

Hancock and all those who have helped him are to be commended for their work. And I'm sure they can use some help if you have the extra time.

Baseball seems to be the predominate theme of conversation around the county and with the addition of the girls league this year,

Gregory Assumes Kindercare Slot

Ann Gregory has been named by the Board of Directors of Kindercare Daycare Center to fill the position to be vacated by Jon Shamburger.

Mrs. Gregory will serve in two capacities. She will be Director of Kindercare and Executive Director of Mitchell County Community Action Program.

Mrs. Shamburger, who helped initiate both programs, will remain until June 15 to instruct and assist Mrs. Gregory in the operation of Kindercare and responsibilities of the Community Action Program. Mrs. Shamburger's husband has been transferred by Sun Oil to Oklahoma.

Mrs. Gregory is the wife of Eddie Gregory. He is a line superintendent for Lone Wolf Electric.

They have resided in Mitchell County for the past 15 years. Mrs. Gregory is a native of Snyder where she attended high school.

For the past year she has attended child development, management and administration courses at Western Texas College in Snyder.

The mother of four girls, Deloras, 16, Denise, 11, Diane, 9, and Darla, 7, she is a member of the Church of Christ.

For the past eight months, Mrs. Gregory has worked at Kindercare as an attendant. "We don't babysit here, we help develop the child's learning

abilities," she commented. "The 13 member board reviewed and interviewed several applicants prior to choosing Mrs. Gregory," Mrs. Shamburger commented. "I feel that her previous business experience and practical experience here will be of great value to Ann in her new position. She is a person of high moral values and her commitment and concern

for the welfare of the children and program are an added plus."

The only changes for the school that Mrs. Gregory anticipates at the moment is to enlarge the outside play ground area and separate the toddlers and two year olds from the older children. She would like to increase the equipment to include swings and a jungle gym set.

Airfield Nabs Star Billing

The auxiliary airfield will take star billing at the regular meeting of the City Council of Colorado City Tuesday night.

At the April 25 called session of the council, members toured the former Webb Auxiliary field and deliberated on whether to renovate the strip for local use.

A resolution will be presented authorizing Mayor Marion Bassham to sign an application to the general services administration for the property at the auxiliary airfield, which is located 10 miles northwest of Colorado City.

Councilmembers will also consider authorizing the use of the auxiliary airfield as a municipal airport for Colorado City.

In other business, the council will consider authorizing payment to Parkhill, Smith & Cooper, Inc., for engineering services for

waterworks and sanitary sewer improvements.

Awarding a bid for Group Life and Health Insurance for city employees will also be considered by the council.

At Tuesday night's meeting the council will hold a second public hearing to select proposed projects for a grant application for community development block grant funds.

City Manager James Campbell has urged citizens to come forward with proposed projects to develop the community.

The council will consider a request by the Colorado City Jaycees for funds to sponsor a softball tournament.

The final special item slated on the agenda is a request by Jim Matlock, a local resident, for a permit to operate a taxi service.

The meeting will begin at 7 p.m. at City Hall.

'Guilty' Is Jury's Verdict

Luera Given Five Years

"Guilty" was the verdict brought back by the jury after six hours of deliberation in the James Hernandez Luera trial held Tuesday and Wednesday in 32nd Judicial District Court.

CISD Board To Review Renovation

Renovating Lone Wolf Stadium will be the gist of Monday night's 7 p.m. meeting of the Colorado City Independent School Board.

The board will consider various additions and improvements to the stadium to prepare it for installation of an all-weather track.

According to Superintendent Lloyd McKee, the board will discuss the possibility of building a retaining wall on the stadium before a new track is built.

In other business, the board will consider three teacher resignations and discuss the hiring of a third grade teacher, a librarian and a math and science teacher.

School board policies regarding admission and attendance requirements will also be discussed by the board.

Other items included on the agenda are:

—Proposal that the Colorado High choir take a trip to Austin May 11-13.

—A report on the progress of the construction of a vocational agriculture barn.

—Consideration of installing two guard light on the south end of the stadium.

In his charge to the jury of five men and seven women, Judge Weldon Kirk stated they could find Luera guilty or innocent on either of three charges—criminal attempt to murder, aggravated assault or reckless conduct.

The jury heard evidence for the prosecution presented by District Attorney Frank Ginzle and his assistant, Russell Carroll. Wayne Basden, of Big Spring, acted as defense attorney.

Game Warden Ronnie Aston was a witness for the prosecution. He gave testimony that he was driving south on Hickory Street when he saw two large dump trucks driving side by side bearing down on him at a high rate of speed. He stated he whipped off Hickory on to 7th Street to avoid them.

Aston pulled to a stop on 7th Street and reported he heard a noise he assumed to be a back fire at the time. Moments later, as he was stepping out of his car, one of the trucks pulled up beside him. Aston stated the driver, Charles Robinson, yelled that Luera had tried to shoot him. Robinson and Aston then got into Aston's car and followed the truck driven by Luera.

Luera stated in his testimony that he had driven in a circular route to return to the maintenance barn. Aston used his radio to contact Highway Patrolman Marvin Keenan who circled the front of the dump truck blocking the road as Aston pulled up behind it.

In his testimony before

the jury, Robinson said that he and Luera had been in an argument at the loading chute. He said Luera had been sitting on the loader talking to the operator when he had walked up.

Robinson stated Luera had been smoking a cigarette and flicked ashes in his face. He said he yanked Luera by the foot pulling him from the loader and slapped him several times in the face with his open hand then left.

Luera testified that Robinson had hit and kicked him at the pit. Luera said that he then went to the county barn and picked up a borrowed shot gun and shells and went back toward the pit.

He said he had intended to frighten Robinson with the gun. He stated as he was going toward the pit he met Robinson driving his truck and circled around to follow him.

Robinson testified that as the other dump truck pulled along side, he sped up and it followed. He said he saw Luera stick the gun out the window and heard the shot as it struck the truck just forward of the passenger seat. He stated that he turned off sharply to a side street, afraid Luera would shoot again.

He said he saw Aston and reported the shooting to him.

The jury decided on a charge of aggravated assault and found Luera guilty.

Judge Kirk passed sentence of five years in prison. Luera will appear before the court in ten days to begin the sentence.

Westbrook 4th Graders Produce Film On Passenger, Bicycle & Pedestrian Safety

Fourth grade students in Mrs. Royce Moore's class at Westbrook school have produced their own colorful filmstrip on traffic safety with materials provided free of charge by the Texas Office of Traffic Safety. In "The Safest Show on Earth," class members create their own illustrations for a full color, sound filmstrip exploring key aspects of passenger, bicycle and pedestrian safety.

The Texas Office of Traffic Safety makes available to the school all necessary materials without cost for "The Safest Show on Earth." After the students finish their illustrations, the drawings are processed into a filmstrip by Media Intensive Learning Corporation, designers of the program.

The filmstrip is returned to the class originating the drawings, along with a lively soundtrack cassette narrated by children. Both the filmstrip and the cassette become the property of the school.

More than a half million children across the nation have participated in the program to date. Initial evidence from evaluation efforts in Texas indicates that the program is contributing to a reduction in traffic accidents among schoolchildren.

Dr. Sprucie Newman, counselor at Del Mar College in Corpus Christi, will be conducting a Widowed Persons seminar Monday through Friday, May 15-19 at the Wallace Center.

The seminars are designed to help widowed persons adjust to their lives as single persons. The program will examine each phase of the adjustment as well as answering questions on specific problems.

All widowed persons of the area are invited to attend as well as those who have remarried. Also,

ministers and leaders of organizations who have members to whom this seminar would relate, are cordially invited to attend.

There will be two sessions each day—one in the afternoon from 2-5 p.m. and a repeat of the afternoon session in the evening from 6-9 p.m. for those who work. Each group is limited and you should call Bernice Hillard at 728-3946, Dona Reed at 728-2660 or Flossie Sweet at 728-2276 if you plan to attend.

Sponsoring this program are members of the Mitchell County Retired Teachers Association (a local affiliate of NRTA) and the local chapter of the American Association of Retired Persons, chapter #1461. Co-sponsors are other local organizations.

Board members of the Widowed Persons Service will meet in the Wallace Center Thursday, May 11 at 5:30 p.m. to prepare for the seminars. Anyone interested may attend, especially representatives of co-sponsoring organizations.

Dr. Newman, who will be presenting the program, has conducted many such seminars for the Widowed Persons Service. She holds a Bachelor of Arts degree, Master of Education degree and has recently returned from Washington, D.C. where she was coordinator and program presenter for two program sessions at the American Personnel & Guidance National Conference in March.

She has held counseling positions in high schools, colleges and senior citizens programs and has worked for civic and service organizations, one of which is conducting training seminars for Widowed Persons Service volunteers (usually people who have been widowed 2 years or longer to counsel with newly bereaved widows).

Jaycees Elect New Officers

Installation of new officers was the highlight of the weekly meeting of the Colorado City Jaycees Wednesday at the Civic Center.

Newly elected officers include Bob Bird, president; Don Bennett, vice-president; James Campbell, vice president; Bill Dockrey, treasurer, and Dennis Raesener, secretary.

Reviewing the activities of the Jaycees over the prior year, Outgoing President Jim Schmulen said that the Jaycees, in his estimate, were "again the most active civic club in the city."

With proceeds from money-raising activities, the Jaycees donated \$100 to the Woodland School, \$100 to the heart fund, \$350 to the Boy's Club, sponsored a little league team, contributed \$300 to help build the soft ball field and awarded a \$200 scholarship to a Colorado High School senior.

In addition, the Jaycees sponsored a local Jaycee Conference last August, a city wide tennis tournament, carp fishing tournament and the local punt, pass and kick competition. Schmulen thanked the club members for their support and interest and challenged the new officers to continue an active civic involvement, increase club membership and insure the financial stability of the club.

Bob Bird, newly elected president, requested the cooperation of the community and the Jaycee membership. He noted that goals for next year include the completion of the Jaycee soft ball field, organization of a regional soft ball tournament and a fall membership drive.

Presently there are 25 members of the Jaycees. Membership is open to anyone between the ages of 18 and 35. Interested persons should contact Bird, attend the weekly noon meeting of the Jaycees or contact Woody Anderson, chairman of the membership committee.

For Your Tire Dollars.
Every Michelin 'X' tire is backed by a 40,000 mile warranty for tread wear on domestic cars. That's just about twice the mileage you'd expect from a conventional tire under the same driving conditions. Also, because of its radial design the Michelin 'X' rolls with less road resistance than conventional tires, and that means you can save up to 10% on your present gas consumption (pretty good considering today's fuel crisis.) Plus, every Michelin 'X' tire gives you all the distinctive radial tire advantages over conventional bias-ply tires; smoother ride, easier handling, better traction and firmer road holding. And, they add up to a lot of comfort and safety. Invest in better driving. Stop in and have a set of Michelin 'X' radials installed today.

THOSE WERE THE DAYS

JEST FOR LAUGHS

by PAUL FUNG JR.

A Peking radio station told the incredible series of records set by an athlete named Lui who broke all existing world records for the 100 yard dash, the mile run, the five mile run and the cross country hundred mile run, overcoming such obstacles as a blizzard, a range of mountains, and the lack of water and little rest. "Unfortunately," added the announcer, "Lui's fantastic performance was in vain. He was captured and brought back to Peking."

A youngster asked his father, "Dad, what was the most money you ever earned in one year?" The man, looking up from his newspaper replied, "Ask your mother. I forget what I told her."

A missionary and a lion met head-on in a very impenetrable jungle. Escape was impossible. The missionary sank to his knees and prayed, and the lion did likewise. "How miraculous," babbled the astonished missionary, "to join me in prayer when just a moment ago I gave myself up for lost!" "Quiet," growled the lion. "I'm saying grace."

Foreign countries all seem to have the same motto: "Yankee, go home and leave us a loan."

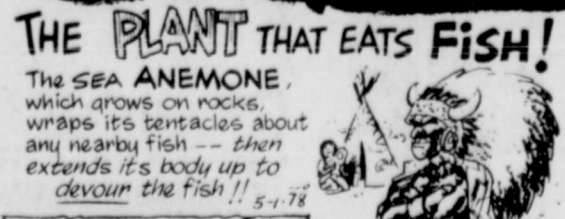

SAY! THIS DINNER IS DELICIOUS! IS THAT YOU, CAROL? CAROL!!

Lisa Anderson looked fashionable in a halter top, formal length gown of floral double knit fabric. Grace Ann Ellett and J. J. Ellett showed the stuffed bear that Grace had made for him.

The highlight of the evening was a musical performance by Danny Pennington and his group from Ira. Pennington is music director at First Baptist Church of Westbrook.

A FINAL GLIMPSE is taken of the fashions made and modeled by the Westbrook Future Homemakers of America students during the past school year. Some of the girls' fashions were made as a Homemaking project in school and others were made at home as part of the Encounter program of achievement. The girls, with sponsor, Mrs. Ather Ellis, planned the show as a regular feature of the annual Mother-Daughter banquet.

"Conversations On Carpeting"

By Fred Butts

WHY PADDING?
Although a completely separate item, padding plays a major role in the life of your carpeting. Padding is the cushion or underpad beneath your carpeting which protects it by serving as its shock absorber. It softens the jolts caused by pounding feet, and fills-in dips or uneven areas in the floor that could hasten carpet wear.

Padding also adds to the luxury of your carpeting. It increases the depth and creates a rich, luxurious feeling underfoot. Padding also provides you with increased insulation against cold and noise.

We have an excellent source of pad right here in Colorado City. We highly recommend the rebound padding made at Foam Tex. It has excellent resiliency and durable underfoot.

Be sure to buy padding of good quality no matter what type you prefer. Remember padding is a wise investment in the life of your carpeting. Also remember that we here at

Penton & Son
Floor Coverings, Inc.

Will be happy to assist you with the selection of padding for your carpeting. **NEXT WEEK:** Watch for column on "HOW TO HANDLE STAINS"

Parents Have a Lot to Learn

May Is Family Month

Teenagers know that nobody's perfect, especially parents. And parents know that tears, angry outbursts and sullen silences may mean broken communication.

Every family has conflicts. Tensions sometimes even break up a family.

A healthy family shares responsibility, love and respect and is a home base for resolving conflicts.

If you want help in coping with problems, we can make the effort together.

Fairview HD Club Has Quilting Bee

The members of the Fairview Home Demonstration Club met for an all-day quilting bee and covered dish luncheon in the home of Mrs. C. Ross Smith Monday, April 24 at 9:30 a.m.

The morning session was very busy with four machines in operation while the rest of the members kept busy cutting and assembling the quilt blocks.

At noon a meal was served which featured a menu of low-cost foods made from those recommended by the Extension Foods and Nutrition specialists at Texas A&M University.

Mrs. P. H. Pace, the program chairman, presented many excellent ideas on how to eat well for less. The key thought throughout the presentation was to plan to meet the family's nutritional requirements daily.

Good meals that go easy on the budget don't just happen; they result from

careful planning, buying, storing and cooking of foods. The foods one selects for family meals determine whether or not the family's needs are met.

The basic four food groups are a good place to begin in meeting the family's nutritional requirements. Spend first for the foods important for health; it is wasteful to neglect them to buy other foods.

The members were urged to attend the County-wide program on "Communication, It's More Than Listening," Tuesday at 2:30 p.m. at the C. C. Thompson Room. The program will be presented by Jenny Reinhardt, family life specialist with TAEX. The public is also invited to this lecture.

Present for the day were Mrs. Bonnie Hunter, Mrs. Susa Strain, Mrs. Wilma Womack, Mrs. Muriel Thurman, Mrs. Edna Pace, Mrs. Versie McMillan, Mrs. Mary Womack and Mrs. Billie Smith.

Farmers Need More Moisture

Tuesday's rain was well appreciated by area farmers, but more moisture is still needed before planting.

At least that's the report from Don Stewart, Agricultural Soil and Conservation Stabilization director, and David Kattes, Mitchell County entomologist, and David Stubblefield, a local producer.

Stewart noted that some spots of the county collected enough moisture from Tuesday's rainfall to plant and farmers will do so between May 15-20.

However, Stewart said that the rain was "not heavy enough across the county for all of them to plant-we still need another rain."

Stewart said that more moisture was needed especially south of Colorado City.

According to Kattes, most of the Mitchell County farmers said the rain was good, but there was not enough.

"Most of the producers in the area would like to see another couple of inches-at least-before they start planting," said Kattes.

Kattes explained that the subsoil moisture and the surface layer have not yet met and another rainfall might make that possible.

Stubblefield agreed with Kattes that about two more inches are needed before the soil will be moist enough for planting.

He said that enough rain may have fallen to plant grain sorghum, but not enough for cotton.

"Everybody's praying for rain," Kattes concluded.

Card Of Thanks

I wish to take this means of saying thank you to my many friends for your kindness and concern during my stay in the hospital. The visits, cards, flowers, phone calls, letters and prayers meant so much to me. A special thanks to the members of the Volunteer Fire Dept., especially Ray Dillard, who was so much help at the time of the accident and to the very efficient ambulance drivers.

Chamber Of Commerce

By Larry Winders, Chamber Manager

A lot of the conversation I engage in these days concerns industrial development for Colorado City, Texas. At this time let's concern ourselves only with the tangible results of a successful campaign. The economic benefits are astonishing.

We will deal with the figure of 100 new manufacturing jobs for our City. For a start it means 133 more households, five more retail establishments, 141 more passenger car registrations, 121 more children and 479 more people in the area.

Money wise it means \$1,601,117 increase of personal incomes, \$981,296 from the 100 new industry jobs and \$619,821 from the 74 jobs generated by the industry income. It also translates into \$650,093 more in bank deposits and \$200,117 for assorted purposes.

\$867,688 in additional retail sales, broken down this way: \$209,379 more to grocery stores (24.1%), \$59,099 more to eating and drinking places (6.6%), \$45,957 more to apparel stores and specialty shops (5.2%), \$39,933 more to furniture and household appliance stores (4.4%), \$167,786 more to automobile dealers (19.4%), \$69,346 more to gasoline service stations (8.0%), \$57,953 more to lumber yards, building materials, hardware (6.7%), \$36,871 more to drug stores (3.8%), \$111,467 more to department and dry goods stores and variety stores (13.7%), \$69,897 more to miscellaneous retail services (8.1%). \$867,688 total additional retail sales.

Each hundred new manufacturing jobs also means 174 more workers employed! One hundred more in the new industry itself and 74 in new non-manufacturing jobs. These 74 other jobs break down this way. Six in contract construction, six in transportation and public utilities, 20 in wholesale and retail trades, four in finance, insurance and real estate, 15 in service occupations, 20 in government at all levels and three in other occupations.

These figures have been transposed and an inflationary factor considered. Their statistical accuracy is well within acceptable limits. Therefore I think all of us can see for what enormous stakes we must consider when we speak of Industrial Development.

The Industrial Team and the Chamber of Commerce working and cooperating closely are planning a new

and expanded effort in this area. However, success will not come because of the efforts of these dedicated men and women. All citizens of our community can play an important part. Be enthusiastic about your town, it must be good—you live here. Don't downgrade our area to

strangers, or anyone else for that matter. Expend a little personal effort and quit littering, even better help clean up some of it. Let's make our city clean and attractive to all outsiders. Isn't it time we began to help ourselves to gain some of the benefits shown earlier in this article?

Coker "stripper" cottons usually staple 1 1/16 to 1 3/32"

Are you losing \$15.00 to \$20.00 a bale planting a shorter-staple cotton??

High yields, excellent quality & staple

Here are a few examples of Coker production in 1977 under varying conditions that illustrate the extra money-value per acre that Coker cottons offer you. Compare these average loan prices against the 40.00 cents per pound average loan on the Plains during the same period! They're based on USDA Cotton Quality Weekly Report, Texas-Oklahoma; the three productions here used the Coker Lint Block Concept.

Area	Planted acres	Per acre yield	Average loan price
Ocho Gin-Seminole Sprinkler Irrigation	1,015	1,035 lbs.	45.48
Kalgary Gin Crosby Co. dryland	1,133	500 lbs.	43.13
Canyon Gin-Lubbock *approx. 1,600 acres dryland	6,244*	666 lbs.	45.30

You too can profit from the cotton that has brought 5.14¢ per pound above the average loan. Plant Coker's!

A great dryland cotton! Performs better under stress conditions and makes more cotton with less water than any other cotton we know of. Very vigorous.

- TURNOUT — 20 to 25%
- STAPLE — 1 1/16 to 1 3/32"
- STRENGTH — 78,000 to 85,000 p.s.i.
