Failure to yield right-of-way causes...

Traffic accidents on rise

There has been a recent rise in traffic accidents in Colorado City over the past two weeks and Colorado City Police Chief Ed Wheat is cautioning all drivers to be extra careful when operating their motor vehicles.

Since July 14, the Colorado City Police Department has handled eight accidents, an abnormal amount in such a short period of time in a town the size of Colorado City. The eight

accidents in two weeks equalled the total amount of accidents for the entire month of May 1983.

"I think the main causes for the majority of these accidents has been people failing to yield right-of-way at an intersection," stated Wheat. A lot of the time drivers do not pay attention to the three driving conditions, which are road conditions, weather conditions or people

the chief of police.

Citizens in the county have had access to purchase beer and liquor for approximately two months and since that time there have been 34 accidents, nine more than this time period last year. But only one of the reported accidents in that two month period of this year has been alcohol related.

"So far there has not been an increase in alcohol related accidents since the county went

wet," stated Wheat. "I expected the accident rate to rise, but so far it hasn't. It may be too early to tell how it will affect our records," he concluded.

The present year accident totals 105, and last year at this time there were 79 accidents reported, an increase of 25 percent. At the present accident rate, it will be a 12 percent increase over 1982.

Monthly breakdown of accidents reported to

the Colorado City Police Department in 1982 looks like this: January 10; February, six; March 15; April 13; May 10; June 15; July 10; August 16; September 20; October 16; November 17 and December 12.

The monthly breakdown for the present year looks like this: January 14; February 16; March 13; April, eight; May 20, June 12 and July 22.

Wheat has listed some tips to help prevent traf-

fic accidents:

1. Don't drive and drink; 2. Always watch out for the other driver; 3. Watch your posted speed limit; 4. Always look good before you back out. Wheat says this is a traffic hazard in Colorado city because of the angle parking design in the downtown area; 5. People should not be in such a hurry to rush to and from their destination.

Wheat cited another See TRAFFIC, Page 2

Seal-coating of streets to begin

City Manager Rick Crowley said Tuesday he hopes to start seal-coating designated streets in Colorado City within a couple of weeks.

Seal-coating repairs pot holes and cleans the streets from grass and weeds. Hot asphalt is laid on the present surface and packed in.

Total cost for the project will be about \$51,000 and all work will be done according to State Highway specifications. H. P. Lee has been retained by the city to inspect all phases of the street repair.

The bid was awarded in June to Price Construction Co. of Big Spring See STREETS, Page 2

Grass fires keep department busy

The Colorado City Volunteer Fire Department has answered 20 alarms so far this month and the majority of them have been grass fires,

according to Fire Marshall L. O. Scahfer.

Monday at 4:07 p.m., firemen answered an alarm of a car fire on Highway 208 south of the city.

The vehicle was a 1974 Chevrolet Trans Am which had caught fire under the hood. One unit and 10 men answered the call. They had the blaze under control in a matter of minutes. Scahfer noted that the vehicle was heavily damaged under the hood, but the inside of the car was all right.

Moore places at district meet

Five members of the Mitchell County 4-H Club travelled to San Angelo Monday to participate in the District Seven 4-H Fashion Show.

The five young ladies were Shelia Benson, Yolanda Lee and Robin Woods in the senior division, Nikki Holmon in

the Intermediate Division and Brooke Moore in the Beginners Division. Moore was the only local contestant to place in the top three as she captured first place in her division.

The event is sponsored annually by the Extension Service and West Texas Utilities. Sixty-five 4-H Club members from the district modeled fashions.

4-H'ers were judged in three divisions: beginners, those nine to 12 years old; intermediate, those 12 to 14 years old and seniors, those 14 to 19 years old.

Seniors are judged in four categories: Tailored Daywear (which are garments such as jackets and blazers), non-tailored daywear (such as jeans and shorts), active sportswear, (such as jogging suits) and evening and specialty wear (which includes formal wear and costumes). Beginners and intermediates were not judged in any one category, but on individual garment.

Winners at all levels were determined by the garment's appearance, construction and 4-H'ers knowledge of the garment.

Awards which were presented during the show were given by several West Texas firms. West Texas Utilities provided the overall winner awards, which was presented by Kit Horne of Abilene. Cotton awards were presented by H. H. Lindemann with rolling Plains Cotton

Compress. Wool and mohair presentations were made by Robert Carothers, President of the First State Bank of Paint Rock.

Winners of the Senior Division at the District Show are eligible to compete on the state level competition September 14-16 in San Antonio.

Miss Moore is the 10-year-old daughter of Mr. and Mrs. Stanley Moore of Colorado City.

The five contestants were accompanied by Marian Morris, County Extension Agent for Home Economics.

St. Joseph's festival slated August 21

St. Joseph's Catholic Church in Loraine will hold their annual festival on Sunday, August 21 beginning at 10:30.

Tentative activities for the festival include a barbeque luncheon, food booths featuring Mexican favorites such as burritos, a ducking booth, horseshow throw and a cake walk.

One of the highlights of the festival will be the crowning of the festival queen. This year there are two young ladies competing for the title. The two candidates are Cristina Lopez and Amy Garcia.

Miss Lopez is the nine-year old daughter of Mr.

and Mrs. Manuel Lopez of Loraine. She is a fourth grader at Loraine Public School and attends St. Joseph's.

Miss Garcia is the daughter of Mr. and Mrs. Gabriel Garcia of Colorado City and she is 12 years old. She will be a seventh grader at Colorado Middle School and she attends both St. Joseph's and St. Ann's Catholic Church. Amy stated that she entered the contest "to help raise money for the church and because it would be fun."

Everyone is invited to come and enjoy the festival.

HOT-HOT-HOT—Temperatures tipped the 100 degree mark for the last four days. The weather is expected to stay hot and dry for the rest of the week.

Cotton conference slated August 9-11

The annual Western Cotton Production Conference will be held on August 9-11 at the Holiday Inn, Las Cruces, New Mexico.

"The conference is the largest annual event for western cotton growers," said Dr. Bob Metzger, cotton specialist with the Texas Agricultural Extension Service, Texas A&M University System.

The first session on August 9 will deal with the worldwide cotton supply and usage. Reports on the PIK program, a look ahead to

the 1984 farm program, and a producer's experience with HVI classing will also be featured plus research updates on hybrid cottons, Pima developments and breeding Acalas for stripper harvesting.

The afternoon session that day will be devoted to discussions on experimental row spacings and harvesting techniques. Research data comparing quality and yield differences with spindle pickers and strippers in California will be presented. Results of field demonstrations comparing strip-pickers and pickers in Oklahoma will follow.

By MARSHA RICKARD

Everyone is real proud of our new globe lights lining the front of our building. If you are out in the evening, drive by and look at them.

The summer days and heat wave have made outdoor activities difficult, so we have improvised with some indoor fun. Embroidery and quilting have become more popular and attendance for morning exercise has improved. A new up-coming event is an "Invitation Only Party." Small groups will have social interaction on a more personal level. Personal music therapy is being organized to enhance reality orientation. This was sparked by a group of gospel singers who entertained us last week. They were a marvelous and talented group: those who sang were: Diana Castro, Rosa Benitez, Adelita Ceballos, Linda Moreno, Gloris Lucas, Doris Ransberger, Pat Torrez, Ramona Go-

mez, Oralia Pineda, Edna Rivera, Susan Ransburger, Becky Gomez, Nathan Ransburger, Timothy Ransburger and Tami Fraley. Their singing was outstanding and our dining room was crowded with a delighted audience.

The summer has many people out on vacations and perhaps this is what has brought so many visitors and family members to our home lately. For whatever reason everyone has brought their own special sunshine to us and we hope to see them all again soon.

Taking time to assist us with bingo prizes, magazines, books and flowers were: Lois Phillips, T. J. Green, Woodrow Pratt, Pricilla Thompson, Ruby Lee Small, Mildred Lee, Verla Liles, Mrs. Cornutt and Ruby Epperson.

Crowley also stated the city would try to notify all property owners in advance so all vehicles, tractors, boats, etc., can be moved from the street.

Fires

From Page 1
Although the vehicle was registered to a Pampa resident, no one was at the car when firemen arrived.

Schafer says that it is not uncommon for there to be so many grass fires during this time of the year. "It is natural for us to answer this many grass fires this time of the year because it is so hot and dry," he explained.

"People have to be careful, especially when burning trash. A lot of grass fires start while people are burning trash and some of the trash gets out of the barrel and gets into the field and starts a fire," Schafer concluded.

Officer Suarez says from what he has seen of Colorado City "it is a pretty good area."

Traffic

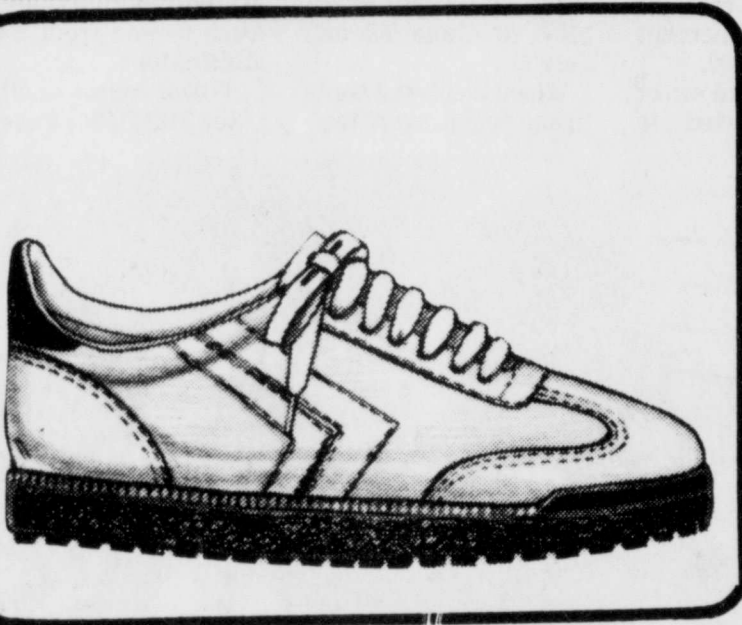

From Page 1
driving problem in the city is drivers failure to move out of the way for emergency vehicles.

"We have a lot of volunteer firemen rushing to the fire in their own vehicles and some drivers fail to make way for them. They have red lights on the top of their vehicles and drivers should be on the lookout for them," he explained.

It is a state law to follow emergency vehicles to the scene of the incident.

All drivers should follow these helpful hints listed, and try to make Colorado City a safer place to drive.

USGA Division II place 3rd in tourney

The local Division I and II UGSA All Stars teams travelled to Andrews this past weekend to compete in the UGSA District Tournament and the Division II All Stars had the best showing finishing in third place.

The Division II All Stars won their first contest of the tourney by taking a 12-4 win over Sweetwater. Misty Strain went the entire distance for C-City as she was backed up by some fine defensive play. Colorado City held a commanding 12-0 lead going into the sixth inning of play.

In the Division II All Stars' second contest, they were nipped by the other team from Sweetwater by a score of 21-16. Kim Wulfjen was the losing hurler for Colorado City.

The Division II Stars were downed by An-

draws 16-1, eliminating them from the tournament and leaving them with a third place finish. The Division II squad were presented with the team sportsmanship award, an award voted on by opposing coaches and the tournament umpires. Making the All Tournament squad were Denise Lowrance, Yolanda Salazar and Kim Wulfjen.

The Division I All Stars found the going rough as they dropped their first two contests.

In the opening contest, they were defeated by Kermit in a close 22-21 contest. In the second contest, they were downed by Andrews.

The Division I Stars also won the team sportsmanship trophy and Nat Gabba and Jennifer Munoz were named to the All Tournament Team.

News from... Root Valley Fair Lodge

By PAM JARNAGIN
Last Wednesday, we took a ride to Prairie Dog town in our State Park. Mrs. Girlie Lowe, Mrs. Mattie Hines, Mrs. Bertie Strain and Mr. Hubert Saling enjoyed taking a loaf of bread and feeding the Prairie Dogs.

Each one was more than ready to scramble after the treat and enjoy it for our pleasure.

Mr. Saling was puzzled about how they got their drinking water.

We drove around the lake and took the long way home. We got back just in time for supper.

Thursay we had a watermelon party. We enjoyed yellow and red meat melons. Every one

had fun at the get-together.

Mrs. Isabell Ratliff is a new resident in Root Lodge. We want to welcome her and let her know we are so happy to have her.

Mrs. Myrtle Womack went on a small shopping spree and ran some errands. She saw some old friends and enjoyed visiting with them.

Mrs. Velma Sheppard and family went to Buffalo Gap to enjoy their festivities for a day.

Pam Jarnagin was everywhere with her camera last week as residents and staff were caught unaware. "Candid Camera" does have its risks."

Let's talk.

Information about your changing telephone service from Jim West, Community Relations Manager

Optional phone purchase again being emphasized

You may have noticed recently the national advertising reminding customers that they now have the option of buying certain telephones which are currently being leased on a monthly basis.

As you'll recall, this optional sales plan became effective in Texas in March. Should you buy your telephone? The decision is yours. One of the biggest advantages of buying your phone is that you'll eliminate the monthly leasing charge. On the other hand, one of the biggest advantages to leasing is that we'll continue to repair your set for no additional charge.

Telephones which may be purchased include the Standard, Princess and Trimline models — both desk and wall units with either rotary or Touch-Tone dialing — plus certain "functional" sets such as the Action Phone*, TeleHelper** Answer and Record Unit, TeleHelper Speakerphone, Touch-a-matic* S, Touch-a-matic 16 and Touch-a-matic 12 dialer.

In addition to the above listed telephones which are presently in service, the company also has the same type of sets for sale from its inventory. The price of in-inventory phones is higher, though, since those sets are either brand new or completely reconditioned.

All single-line customers in Texas — both residence and business — are eligible to participate in this plan. Because of FCC regulations, party-line customers are not eligible at this time to buy their leased telephones.

Speaking of party-line customers, we received a call the

other day from a party-line customer with a question. "Have you folks forgotten about your party-line customers?" he asked.

This customer was concerned — understandably so — about what will happen in the future to party-line phones. We haven't said much about the future of this service in talking about changes coming in our business. We don't have all the answers yet, but this we do know: Party-line customers will not lose their service. We certainly have not forgotten about these customers.

It may be that customers on party-lines will be able to purchase their phones, if they wish. This can't be done now because of the wiring. Or it may be that these customers still will lease their phones.

The point is, though, that party-line customers need not worry about having phone service. One thing you can be certain about. Telephone service will still be available to you.

Incidentally, you may have heard you will be forced to buy your phones after January 1, 1984. That's not true. You may continue to lease your phones, whether they're owned by Southwestern Bell or AT&T.

Remember, if you have a question or comment you'd like to pass along, don't hesitate to let me know. Here's my address.

Garcia helps Rangers down Brady

The Rangers, representing Colorado City in the Texas Freshmen League District Playoffs got off on the right foot Monday night in the opening rounds as they took two contests thanks to the bat of Ray Garcia.

Garcia, whom the Rangers picked-up from the Dodgers, played "long ball" all night long as he blasted three

home runs in two contests while driving in 10 runs in three times at bat.

Garcia hit a three run shot in the third inning of the Rangers opening 12-3 victory over Hawley.

The 12-year-old third baseman went one better in the second contest against Brady. In the fifth inning with the

Rangers leading 11-6, he came up with the bases loaded and slapped a round tripper to put the game out of reach. He then followed up his act in the sixth inning as he smacked a three run shot, as the home team went on to down Brady 24-12.

In the Hawley contest, Colorado City pitcher Mark Molina put on a sterling performance as he tossed a three-hitter and fanned 12 opponents along the way. In fact Molina had a no-hitter going until the third inning until Hawley's Michael Cain hit a single.

The contest was a pitcher's duel between Molina and Hawley hurler Raymond Campos for the first two stanzas as Molina had recorded five whiffs and Campos four strikeouts.

But in the top of the third inning the Rangers exploded for seven runs, thanks to River's three run blow. Michael Morales started things off with a single, Coley Ramage reached base on a force play and Mark Alvidrez walked. Catcher Mark Russell then collected his second hit

of the evening with a single up the middle which scored Ramage and Alvidrez. Beau Rees and Kyle Stewart and Victor Luera singled scoring Russell and Rees to make the score 4-0. This set the stage for Rivera's first homer of the afternoon, and Colorado City held a commanding 7-0 lead.

Hawley scored two runs in the bottom of the third and the Rangers added two more tallies in the top half of the fourth thanks to a double by Stewart and the score read 9-2 in favor of Colorado City. The rest of the contest was anticlimatic as C-City cruised to a 12-3 victory.

Colorado City got 30 minutes rest before their next encounter against Brady.

Yankee pick-up player Rees started the contest for Colorado City while Marty Wilson was the hurler for Brady.

The contest was all Colorado City from the start, as the home team pieced together two innings in which they scored a combined total of 16 runs. Rees received the win going three and two-thirds innings and fanning seven opponents and allowing three hits. He was aided in relief by Rivera. Brady used three pitchers during the course of the game, but none could withstand the barrage of C-City bats.

The big innings for Colorado City were the second and sixth, in which they scored seven and nine runs respectively.

Colorado City drew first blood in the opening inning as Alvidrez doubled and scored on a single by Russell. In the bottom of the first inning, Rees mowed down all three Brady batters with his blazing fastball.

In the second inning, Colorado City scored seven runs with two outs. After Brady's Wilson got the first two outs he had a "wild streak" which saw him walk five consecutive batters which padded the C-City lead to 3-0. The home team went on to score five more runs on a single by Rivera and doubles by Russell and Alvidrez.

runs in the second and Colorado City added three runs in the third making the score 11-2.

In the fifth inning, Alvidrez singled, Russell singled and Rees walked to load up the bases. Brady then made their third pitching change of the game and inserted John Salazar.

Up to the plate comes Rivera and answered the pleas of the crowd with a grand slam which pushed the C-City lead to 15-6.

In the sixth and final inning, the roof fell in on Brady as Colorado City added nine insurance runs. The big blow was

Sweetwater Elks blast Loraine Red Sox

The Loraine Red Sox dropped their first contest of the Texas Freshmen League District Playoffs to the Sweetwater Elks by a score of 9-3.

The Elks drew first blood in the first inning as they scored two runs off Loraine starter Terry Woods who pitched the entire game for Loraine. Woods got the first two batters out, but then allowed a double and two singles as the Elks took the lead and never relinquished it.

Loraine looked like they might score in their first time at bat as Woods singled, advanced to second on a throwing error, and later moved to third. But he was thrown out at home plate as he tried to score on a passed ball.

Sweetwater added two runs in the second inning and three runs in

the third stanza. Loraine got on the scoreboard in the third inning when Woods singled and Juan Abrigo tripled, scoring Woods. Abrigo, who is a pick-up player from Roscoe, later scored to leave the score at 7-2.

Loraine scored their final run in the fourth inning when Roscoe pick-up player Brent Allen doubled and scored on a single by Woods, who picked up his third hit of the night.

Woods pitched a fine game for Loraine as he struck out nine Elk players.

In the other Monday contest, the Elks scored three runs in the final inning as they came from behind to down the Sweetwater Rebels by a score of 3-2.

Soviet-Backed SWAPO Terrorists Grab For Strategic Minerals

The Soviets, operating through a "puppet" terrorist group known as SWAPO (South West Africa People's Organization), are trying to seize power in South West Africa/Namibia.

Namibia (South West Africa) is a country generally unknown to Americans despite the important U.S. national defense interests involved there.

Namibia is the gateway to minerals, are vital to the U.S. industrial base. Without access to these strategic minerals, U.S. electronic computer aircraft and defense industries will be hopelessly crippled.

Without access to these countries of Western Europe. More than 28,000 ships a year follow this sea route around the Cape Of Good Hope.

Operating from military bases in the southern part of Soviet-controlled Angola with the help of 30,000 Cuban soldiers, SWAPO, armed with Soviet military equipment, is conducting a terrorist campaign across the border against the black civilian population of northern Namibia.

Not only does Namibia have the largest uranium mine in the world, and vast resources of copper, diamonds, lead, tungsten, tin, zinc and oil, but it's western coast deep-water port can harbor Soviet nuclear submarines in a position to bisect the oil and mineral lifeline from the Persian Gulf to the U.S. and NATO countries of Western Europe. More than 28,000 ships a year follow this sea route around the Cape Of Good Hope.

If the Soviets and their SWAPO proxies can drag Namibia behind the "Iron Curtain," the U.S. loses another ally in the mineral "resource war" and Russia makes a huge gain in its campaign to deprive the U.S. of the strategic minerals in southern Africa.

The Soviet-dominated United Nations General Assembly provides SWAPO with about \$100 million a year. And the U.N. supplies millions to other Soviet sponsored terrorist groups such as the Palestine Liberation Organization (PLO), the Cuban guerrillas in Angola, the Caribbean, and elsewhere in Africa.

The U.S. Congress annually appropriates over \$1 billion of hard earned U.S. taxpayers dollars to the United Nations -- 1/4 of the total U.N. budget.

Few Americans are aware that to the extent they allow the United Nations to use American taxpayer contributions to finance pro-Soviet terrorism, they are helping finance their own destruction. It is not time for the U.S. taxpayers to ask their representatives in Congress to stop this flow of U.S. tax dollars through the U.N. to SWAPO, PLO, Cuban guerrillas and other Soviet backed terrorist group?

Merchant: The Story of William Henry "Pete" Snyder." It will be available for sale in January, 1984, but advance orders are being taken for a special limited edition. Persons interested in reserving a copy of the limited edition are to contact Hugh Boren, Jr., at 2501 College Avenue in Snyder. Price will be \$22.50 plus tax and postage.

Six years of research went into the Snyder

biography, which includes Snyder's service record during the Civil War, maps and photographs not previously published, and personal letters. The book is about 200 pages in length. It has received the endorsement of the Scurry County Historical Commission and has been reviewed by a committee from the Commission for accuracy.

Snyder, who was born in Pennsylvania in 1837,

opened a trading post for buffalo hunters on Deep Creek in 1878. He later moved his store to a small wooden building on what is now the southeast corner of the courthouse square in Snyder. Snyder filed for 640 acres of land which included the townsite. However, Tom Nunn, a rancher, had applied for a patent on the land through the state and the Supreme Court of Texas awarded the land

to him. Snyder moved to Colorado City in 1881 and rarely visited the town which bore his name. He died in 1916 at the age of 79 and was buried in the Colorado City cemetery.

The town of Snyder became the county seat of Scurry County when the county was organized in 1884. The town was incorporated in 1907.

Anderson is also the author of "In Search of the Buffalo," a biogra-

phy of famed buffalo hunter J. Wright Moorar. Moorar was a contemporary of Snyder and an early-day rancher in Scurry County.

Born in Cox City, Okla., Anderson later moved with his family to Mount Pleasant, Tex. He received the bachelor of science degree from Abilene Christian University in 1957 and the master of education degree from ACU in 1958.

Time to start planning fall vegetable garden

Although there is still plenty of hot weather ahead, it's time to start getting things in shape for your fall vegetable garden.

Much of Texas is well suited for year-round gardening, and fall vegetables generally have better quality and flavor than those grown in the spring, says Dr. Sam Cotner, horticulturist with the Texas Agricultural Extension Service,

Texas A&M University System. Many popular warm-season vegetables such as tomatoes, peppers, eggplants, pole beans, potatoes, okra, cucumbers and squash can be planted during the coming weeks.

Also, the so-called "winter" vegetables such as broccoli, cabbage, cauliflower, greens, parsley and carrots can be planted now

for early harvesting. Later plantings of these cold-hardy crops will supply fresh vegetables well into winter.

What are some of the important aspects of fall gardening?

First of all, get the land into good shape, suggests Cotner. If you had a garden this spring and fertilizer was applied, little if any additional fertilizer will be needed before fall planting.

For new gardens, apply two to three pounds of a complete fertilizer such as 10-20-10 per 100 square feet and work it into the soil, recommends the horticulturist. If plants make slow growth, apply a light amount of fertilizer between rows and water it into the soil.

Adequate water is vital for a successful fall garden, particularly for seed germination and

early plant growth. Cotner suggests "pre-irrigation" before planting followed by subsequent, light waterings three or four times a week to keep soil from drying and crusting. Water stress during early growth of plants can reduce later yields.

Transplanting is a good practice in the fall since this allows seed to be started in areas sheltered from high temperatures and drying winds. Check at garden centers for recommend-

ed varieties of vegetables and strong, vigorous, healthy plants. Or you

may want to grow your own transplants, notes the horticulturist.

County wheat producers prepare for 1984 crop

Mitchell County wheat producers have begun land preparation for their 1984 wheat crop.

"Generally, 1983 will be remembered as a pretty fair wheat year. Winter snows gave us better

than average subsoil moisture and colder than average soil temperatures. The winter subsoil moisture helped generate some unusually high dryland yield in the Rolling and High Plains of Texas," the county agent says. However, our thoughts must now be directed toward next year and it always seems that we have to manage closer to our hip pockets. Soil testing is just one of many management tools available, but it helps remove fertility guesswork and unwarranted fertility cost.

"If we are not taking advantage of soil testing, then many of us are guessing about crop fertility needs over one square mile or more," Bob Benson said. That guess covers a sizeable area and Texans are gambling with bigger odds than producers from other states. Texas farmers only average one soil sample per 640 acres while the national average is one sample per 144 acres. This low rate of soil sampling points that Texas is doing a poor job of managing soil fertility and a high probability exists that a good management tool is not being utilized.

Why is soil testing so important for 1984? First, we have many fields in the PIK program or fields that were grazed out in 1983. The fields in the PIK program that were fallow have accumulated some nitrogen. Here is an opportunity to reduce nitrogen application cost for some. Fields that were grazed out will need more nitrogen due to stubble removal.

Second, we are entering into an era of minimum tillage so one frequently is doing more than one operation. This step means that one has to alter planned dates of soil sampling and testing. If this is your intention for 1984, then now is the time to submit soil samples to the Soil Testing Laboratory. Contact the County Extension office on soil testing for wheat and information sheets and soil sample bags.

Wheeler's host pot luck supper

The back yard of the Raymond Wheeler's was the site of North Loraine TEHA Club's annual family supper at 7 p.m. Friday July 22. It was a pot luck supper. Husbands and friends are invited to this occasion.

Following the meal, the women met in the house for a business session while the men had a "gab fest" outside.

Service records for the past 12 months were compiled to be mailed to Mitchell County TEHA Chairperson, Mrs. Jo Tiller. She then combines it with other club's records in the County, and it all eventually goes into State and National records.

Those attending the supper were Messrs. and Mmes. Hubert Meadows and James, T. L. Holman, Roy Wells, J. M. Templeton, C. A. Matejowsky, Jack Linam, Doyle Hester, Mr. and Mrs. Wheeler, Mrs. Rita Richards, Mrs. Margaret Brame and Price Hall.

leisure time.

So stop energy leaks from getting out of hand and help hold

down your electric bills. The "Unhandy Person's Guides" are yours for the asking.
