By Jordan & Hayden

100 Howard County Folks to San Angelo May 21-22-23

DEVELOPMENT SLOW BUT SURE

at McDowell No. 4, Enders-Cushing No. 1 and at McCarty No. 1 New Going Forward

McDowell No. 4, in charge of the work on McDowell No. 4 in an effort to prove that a prolific oil field has been tapped in that test region. Excellent progress had been made so far and they were hopeful of the well cleaned out and in within sixty days.

A string of 1200 feet of casing removed from the well this week. The spear was caught Thursday. It is believed this can be easily removed. Three more joints of casing and a string of tools are to be removed. It will then be necessary to underream one thousand feet casing to shut off water.

McDowell No. 4, in charge of the work on McDowell No. 4 in an effort to prove that a prolific oil field has been tapped in that test region. Excellent progress had been made so far and they were hopeful of the well cleaned out and in within sixty days.

at the Enders-Cushing Well

Seven hundred feet of heavy casing has been received to complete the Enders-Cushing No. 1 of the Cushing Ranch Drilling Association, located twenty miles from this city. This casing has been moved to location and the work on it in the well was started today. With this casing set and water cut off, everything will be in place to bring the well in.

McDowell No. 4, in charge of the work on McDowell No. 4 in an effort to prove that a prolific oil field has been tapped in that test region. Excellent progress had been made so far and they were hopeful of the well cleaned out and in within sixty days.

Foster No. 1 of Magnolia Company drilling at 3885 feet. Crawford No. 1 of Gulf Production Co. drilling at 2268 feet. Nat Smith No. 1 drilling by tools at 2825. J. J. Moore of Lou, Tex. No. 1 in Scurry County drilling at 1400 feet. The Badgett No. 1—the famous salt well—has stopped flowing. The Fensland Co. is to drill a well near this test. The following production is reported: E. Smartt No. 1, 200 barrels; Le Sue No. 1, 60 barrels; Coleman No. 1, 50 barrels; T. & P. No. 2, 50 barrels.

Mrs. B. J. Lindner Claimed by Death.

To the relatives and host of friends in this city the announcement of the death of Mrs. B. J. Lindner at Lorena, Texas, last Friday night came as a great shock. Apparently on the road to recovery after undergoing a serious operation, her death came most unexpectedly and loved ones were unprepared for such a blow. There was deep sorrow throughout our city following the announcement of the death of one loved by everyone who has ever come in contact with her, and her place in the hearts of our citizenship cannot be filled.

On May 4, 1923 at the home of Dr. and Mrs. T. F. Miles of Lorena, Texas, Mrs. Jaenette Elizabeth Lindner was called to her Heavenly Home.

She was born in Matagorda, Texas, January 31, 1859, and had made her home in Big Spring since 1902. "Aunt Net," as she was lovingly known to many of her friends, was beloved and esteemed by all who knew her. She was a true friend, a loyal wife and a faithful mother, and the loss of her companionship and love will be deeply felt by relatives and friends.

Services were conducted by Rev. Sloane of the Episcopal Church of Houston, Texas, in the Methodist Church at Lorena on Sunday May 6. She is survived by a husband, B. J. Lindner; and a son Charles E. Hatch, both of Big Spring; a brother, William E. Austin of San Antonio; and two step-daughters, Mrs. R. A. Gordon and Mrs. Wesley Mann, both of Lorena, Texas, and to these who mourn for one deeply beloved is tendered the deep sympathy of our entire citizenship.

Miss Merrick After a Prize

In the Dallas News of May 8th appears a two-column photo of Miss Norma Merrick, a former resident of this county, daughter of C. A. Merrick, who is in the race for one of the big prizes in the subscription contest being conducted by the Dallas News.

The News had the following comment to make relative to Miss Merrick: "On numerous occasions Miss Merrick has demonstrated her ability to get what she goes after, and now she is using the same determination and drive that has been responsible for other successes in order to win the Packard Twin Six; one of the twenty automobiles to be awarded by the Dallas News on June 10th."

She is secretary to P. K. Baker, assistant general manager of the Southwestern Bell Telephone Company, and is receiving substantial support from her co-workers as well as from numerous friends in city and state.

Miss Merrick has a host of friends in Howard County who hope to have her win a first prize.

Entertainment at Midway May 14th.

The closing exercises of Midway School will be held Monday, May 14th and a fine program will be presented at the school building Monday night. There will be songs, recitations, declamations, drills and two plays, a program that will surely please young and old.

A cordial invitation is extended everyone to attend these exercises.

Mrs. W. J. Gordon left last week for a visit with friends and relatives in Fort Worth, Texas and Muskogee, Okla.

Chautauque Campaign

An active campaign to boost for the big Chautauque which opens with a seven-day program, May 28th, will be inaugurated next week.

Everybody is strong for our Chautauque so get in line and help in a snappy campaign.

It seems that most of our folks are depending upon George to represent us at the "big doings" at San Angelo May 21, 22, and 23. George needs a little company so a few should arrange to go

ALL ABOARD FOR SAN ANGELO

Prospects of a Delegation From 300 to 600 From Big Spring Now in Sight

Of course you are going to attend the big celebration in San Angelo May 21-22-23. If you can't be there all three days you can be there part of two days—to witness the big Texas Pageant, Tuesday night and the big parade, Wednesday. Anyway, you should be able to be there one day and help boost the old home town in the parade.

Rest assured you can secure accommodations. San Angelo guarantees that. If you doubt their ability to look after the visitors, load a tent into your car and arrange to pitch camp on the banks of the Concho. Remember everybody in Howard County who is anxious to see the "Tech" located in our county is urged to join in and help by being with the boosters at San Angelo. Men, women and children.

An inexpensive uniform has been decided upon—phone 512 and get the dope. The women are urged to appear in an all white costume for the parade. No need to get anything special if you have a white dress of any character.

A camping ground and parking place for the Howard County delegation has been secured. All we ask is that you call at the local Chamber of Commerce and let us know we can depend on your going. Angelo wants to know how many folks she must prepare for.

Be sure, before you start to San Angelo, call at the office of the Chamber of Commerce, and get advertising matter to be placed on your car as well as get information concerning camping ground, parking site or accommodations at San Angelo. We want to be in a bunch if we make an impression at the convention. Arrangements will be made to have watchmen at the Big Spring camp to look after the cars and men to direct the late comers to our parking place and headquarters.

It would be well if every business house would close at least one day—say Wednesday. That, however, must be left up to you business men. If any man is opposed to closing he should at least permit and encourage these of his clerks who desire to go, to go.

An effort will be made to have a

big delegation leave Big Spring at noon Tuesday, May 22nd, and everyone who can go at that time is urged to register at the Chamber of Commerce at once. If your car is not loaded already state how many you will be able to take at this time. Do it now. A representative will remain at the Chamber of Commerce until 8 a. m. Wednesday morning to issue advertising, supply information and notify San Angelo that you are headed for that city.

The time is getting short to complete all necessary plans so help the Marshal of Arrangements, E. E. Fahrenkamp, by registering as to the time you expect to go to San Angelo and how many folks you can take in your car. Just phone 512 and give this information. It certainly will be appreciated.

Big Spring can certainly let them know we are in town if from 300 to 600 folks want the Tech College strong enough to devote one day to boosting at San Angelo.

Folks from Coahoma, R Bar, Center Point, Midway, Vincent, Luther, Auto, Knott, Moore, Elbow, Hart Wells, Morris, Richland, Soash or any other community in our county should be just as strong for having the "Texas Tech" located here as are the Big Spring folks and they are extended a cordial invitation to be with us and help boost at San Angelo.

What do you say folks? Let's all go.

Brown-Warden

Miss Grace Warden became the bride of J. W. Brown Saturday evening, May 5th. The wedding ceremony took place in the home of the bride's parents, Mr. and Mrs. J. W. Warden, 1100 Elm street. Only relatives were present and Rev. Ed. L. Millican officiated. The bride was costumed for the occasion in a frock of blue Canton crepe, with accessories matching. She carried an arm bouquet of roses.

Sweet peas and roses decorated the Warden home and after the ceremony an informal reception was held and ice and cakes were served.

Mr. and Mrs. Brown are at home at 1001 East Nevada street.

The bride has lived here all of her life and was educated in the El Paso schools.

Mr. Brown, who came here a year ago, formerly lived in Baton Rouge, La., and in Big Spring, Texas. He is an electrician at the smelter. — El Paso Herald.

An effort will be made to have a

Herald want ads get fine results.

SUNDAY MAY 13TH IS MOTHER'S DAY

Special Mother's Day Service Will Be Held at Lyric Theatre Under Auspices of Y. M. C. A.

While Mother's Day services will probably be held at the various churches in Big Spring and throughout the county, a big Special Service for every man, woman, boy and girl in Howard County is planned to be held at the Lyric Theatre in Big Spring at 3 o'clock Sunday afternoon, under the auspices of the Y. M. C. A.

J. M. Manuel, general secretary of the Y. M. C. A., has planned this meeting and is going to make it one of interest to everyone—an occasion wherein all can join in paying homage to Mother.

On Sunday afternoon there is scarcely a person who cannot find time to spare an hour and especially so on an occasion such as this. If our people turn out as they should the seating capacity of the theatre will be taxed to the limit. But even so, some of us can afford to stand up during the services.

Keep this occasion in mind and plan to attend. Tell the other fellow about it and urge him to attend. The folks from Coahoma, Moore, Elbow, Knott, Auto, Richland, R-Bar, Center Point, Vincent, Luther, Soash, Hart Wells are especially invited and their presence will be appreciated.

Song.

Opening Prayer—Rev. E. N. Strother

Scripture—Rev. Ben Hardy.

Solo—Mrs. Chas. F. Morris.

Reading.

Address—Rev. W. L. Shepherd.

Reading.

Solo—Mrs. J. C. Yates.

Male Quartette.

Closing Prayer—Rev. Geo. J. Ruth.

Purser-Crenshaw

At the Methodist parsonage in this city at 3:30 o'clock Sunday afternoon, May 5th, Rev. Ben Hardy performed the ceremony which united in marriage J. D. Purser, of this city and Miss Essie Fay Crenshaw of Mineral Wells.

This popular couple stole a march on relatives and friends as only the intimate friends who accompanied them to the pastor's home were aware of their plans until after the ceremony had been performed.

The bride is well and favorably known in this city having won a wide circle of friends while here on a visit to her brother, W. W. Crenshaw and family at different times during the past two years. She is a young woman of a winning personality and will make a true helpmeet to the man she has chosen as her life's companion.

The groom is one of our esteemed and popular young business men, a member of the firm of W. R. Purser & Sons, dealers in furniture, and has the goodwill of our entire citizenship. We join many friends in extending congratulations and best wishes for an ideal wedded life.

American Legion Meeting

Fifty ex-service men answered roll call at the meeting of the American Legion at the office of the C. of C. Monday night and one of the best meetings yet was the verdict.

The big feed "hit the spot" and that may have had something to do with making everyone have a good time.

The committee on the auditorium was not in a position to make a report so the main business of this session was a discussion of the big Fourth of July Celebration the members of the Legion were going to stage in Big Spring. Committees were advised to get busy as the date was going to roll around "pronto" and everyone would have to "get up and hump" in order to put the celebration over in a big way.

The members of the Legion request the cooperation of everyone in making the celebration on July 4th a real success.

B. P. O. E. Dance

One of the finest dances enjoyed at the B. P. O. E. Hall in quite a while was in order Tuesday night. An exceptionally large number were in attendance, fine music was furnished by Bobby Miller's Orchestra, and the best time ever was the report of the dancers. Visitors from Sweetwater, Midland, James, El Paso and other points were in attendance.

Another Fine Rain

We had a series of rains, and some hail, last Sunday night, the total rainfall for the spell measuring 1.05 inches at the U. S. Experiment station. The first rain appeared from the northeast about eight o'clock Sunday evening; another heavy rain set in about midnight and at 4:30 o'clock Monday morning another regular gully washer appeared. A spectacular electrical display was in evidence during these rain storms.

These rains covered an extended territory, practically covering the Plains and extending from Tulsa to San Angelo and from Big Spring to Baird. The heaviest rainfall was reported at Brownfield where two inches were received. From one half to an inch rainfall was the average for the entire district.

The rainfall came down in sheets and it was feared that replanting would be necessary, but most of our farmers in the sections where the downpour was heaviest have been busy scratching the ground to overcome the damage caused by the packing rain and it is thought it will not be necessary to replant. It would have been hard luck if replanting was necessary as most every farmer in the county spent all last week planting crops and the work of planting is still underway. Several weeks of bright, warm weather are what we need most and here's hoping we get it.

Tech Committee Studying Briefs

Arrangements are being made by the locating board of the Texas Technological College for a tour of the Western section of the state on which practically all of the thirty-seven applicants for the college will be visited. It is not expected the tour will be made until the latter part of the month, at least until after the adjournment of the special session of the legislature.

Thirty-seven West Texas towns have filed briefs ranging from a few pages of type-written material to elaborately bound volumes setting forth the advantages of their respective towns for the newly created college. The briefs are being studied at the present time by members of the locating board in preparation for the tour of the west.

Towns that filed briefs are: Wilson, Vernon, Plainview, Buffalo Gap, Sweetwater, Munday, Quanah, Colorado, Brownwood, Spur, Post, Stanton, Miles, Seymour, Boerne, Snyder, Paint Rock, Ballinger, Menard, Big Spring, Haskell, Midland, Brady, Abilene, Tulsa, Coleman, San Angelo, Claude, Amarillo, Lampasas, Memphis, Lubbock, Floydada, Clyde, Olco, Stamford, and Crosbyton.

Boy Scouts Summer Camp

The Boy Scouts are making plans for their big two weeks' camp on the Concho River and expect to leave here about July 3rd. It is thought that five dollars from each scout will cover all costs of the two weeks' outing.

The Scouts have adopted some new rules in reference to this year's outing. It has been agreed that none but bona fide members of the Boy Scouts shall be permitted to go on this trip. All dues must be paid up. All boys expecting to go must become members of the Boy Scouts by June 1st.

New Business Building

Work on a business building on East First street is now underway. The excavations for the foundation were started Wednesday afternoon and the construction work will be carried forward rapidly under the direction of J. M. Morgan who was awarded the contract by J. & W. Fisher.

This will be a one-story brick structure, twenty-five by seventy-five feet. W. W. Crenshaw, dealer for Dodge Brothers automobiles, has secured a lease on the building.

Potash Drilling Resumed

Drilling at the potash well eighteen miles west of here was resumed first of the week. Over-reaming has been the cause of the delay. They are now at depth of approximately six hundred feet. The drillers stated Sunday that drilling would be pushed as much as possible. They are betting on striking the same strata as was struck in the Texon St. Rita No. 1 more than a year ago at 1100 feet.—Big Lake News.

Dr. W. C. Barnett left Thursday evening for Fort Worth being summoned there by the serious illness of W. R. Cole.

MISS NELL HATCH

Who will be "Miss Big Spring" at the meeting of the West Texas Chamber of Commerce at San Angelo May 21, 22, 23. She wants 500 citizens to go with her and boost for Big Spring and Howard County.

Presbyterian Auxiliary Notes
Next Monday from 4 to 6 the "Mexican Fiesta" will take place at Mrs. Little's home. Many interesting features are on the program of an unusual and unique character. Some Mexican young ladies are expected who will tell of their needs and desires. After listening to them no one can refuse to give generously to the Girl's School which the Presbyterian Women of Texas are providing.

Invitations have been sent out, but all who care to come will be welcome at this affair.

Delicious refreshments in keeping with the Mexican idea will be served by the committee in charge. A good time and a good offering is the forecast for this occasion.

The following program will be observed:

Leader—Mrs. A. W. Flaniken.
Devotional—Mrs. W. L. Shepherd.
"Why Have a Christian Industrial School for Mexican Girls"—Mrs. H. W. Taylor.

"Our Mexican Girls"—Mrs. W. C. Barnett.

"A Mexican Fiesta"—

Characters:
Mrs. J. I. McDowell—President.
Carmencita—Miss Ruthie Miller.
Juanita—Miss Ruby Miller.
Maria—Miss Mary E. Allen.
Louisa—Miss Agnes Currie.
Anna—Miss Elsie J. Barnett.

Little Sisters:
Fannie Sue Read, Mary Jeanie Dubberley, Gertrude Brauer.

Prayer Circle No. 8

Prayer Circle No. 8 met with Mrs. W. H. Rogers; Mrs. Cowan led; Circle will meet with Mrs. Mason next Tuesday; Miss Mary Rogers will lead.

Sorghum Seed for Sale

300 pounds of Red Sorghum seed, for sale. Also two good young milch cows must be sold. See me at once, or phone 126. FRANK POLACEK. It.

Mr. and Mrs. Robt. T. Piner and daughter and Michael Michalep's left Thursday morning for an auto trip to San Antonio. They expect to spend some time at Medina Lake enjoying the fine fishing.

The history of medicine shows that the remedies of one age become discarded the next.

At one time disease was a sure indication of evil spirits within you, to be driven out by charms and incantations. Later you were thought to have too much blood, and so it was drawn off by leeches and the surgeon's lancet. Still later they dosed you with calomel until toothless and hopeless.

But medical fashions continue to change. Now you may have all your teeth extracted for everything that ails you. You may have everything cut out that hurts you, and you don't need the organs the Creator gave you anyway. If you are well, you may take serums to keep from getting sick. If you are sick, you may take serums to get well. If you are old, you may take monkey's glands to recover youth. Wonderful, isn't it?

But history repeats itself, and as other fads and fancies have passed, so may these fade also.

Contrast medicine with Chiropractic—the release of pressure on nerves shutting off the vital power generated in the brain—a power that can and will give health to every organ in your body.

A little thought and investigation will convince you that the principle of Chiropractic is right—a principle that has never changed since its discovery. Consultation is free.

Committee to Make Report

Little Rock, April 28.—The legislative joint committee appointed to investigate recent disorders at Harrison growing out of the strike on the Missouri and North Arkansas Railroad will receive the report of the subcommittee Monday when final action will be taken by the full committee. It was learned from reliable sources tonight that the committee will make no recommendation whatever and will state that the evidence fails to show that union workers were responsible for any depredations on the North Arkansas line and that the action of various "committees" in examining witnesses was more in the form of grand jury action, probably acting in a few instances outside strict interpretation of regular legal courses, while in other cases following authorized legal channels.

The report, reviewing in detail its various transactions since its appointment under the legislative act, goes into detail of proceedings, both in Little Rock and Harrison, calling attention to the testimony of Judge J. M. Shinn of Harrison. J. C. Murray, general manager of the Missouri and North Arkansas, and of Mrs. E. C. Gregor, widow of the union mechanic and striker, who was hanged by unknown parties on the night of January 16. Testimony of other union workers is reviewed also.

The report points out that no discrimination is sought between the statements of union workers that they were "demanded" to renounce their union allegiance and were ordered out of the various towns and the counter testimony of citizen's committees that these organizations merely "suggested" to union men that these steps be taken to insure peaceful operation of the railroad system.

The legislative investigating committee is composed of Senator M. Brooks Norfleet as chairman; Senator Jake Wilson, Senator C. O. Bogle, Senator W. H. Abington and Representatives Rohlfinger, Harrelson and Chaney. —Harrison (Ark.) Times.

Home For Sale

Paints Glowing Picture of Conditions

James R. Crawford of the National Carbon Co., New York, after making an extensive survey of business conditions, especially in the northern and western States, predicts a cheering and optimistic outlook:

"We are now on the eve of the greatest era of prosperity the United States has ever known. All over the country, such is the demand for homes and business houses, building activity is at its height so that the allied industries, the makers of hardware and brick and cement and lumber are being hard pushed to keep up with the demand. Our farmers, the foundation-rock of our prosperity, were never in better shape. By the wise provision of Federal statutes the farmers can get all the money they need at reasonable rates for the betterment and conduct of their farms and they are getting good prices for their products. Manufacturers everywhere are facing an avalanche of orders; the railroads have so far recovered from their temporary stagnation that they are beginning to order new equipment, new steel cars, new rails, new locomotives and the result of this new work is being felt all along the line. That is one fine thing about the present move toward prosperity: when one wheel turns they all begin to turn, showing that the American industrial machine is one big unit, and the good times coming are not for any one class, but for all sorts and conditions of men."

Cattlemen Attention

Wanted—five thousand dry cattle hides; two thousand green hides. Bring them to Williams Dry Goods Co., and get the highest market price. Williams Dry Goods Company, Big Spring, Texas.

Furnished Rooms

Have two nicely furnished rooms for rent close in—410 Runnels St. E. B. NEST JONES.

Gustav Krupp, president of Krupp, the greatest industrial works in Europe, was found guilty of conspiracy by a French military court and sentenced to 15 years imprisonment. Four directors of the plant were sentenced to serve 20 years each, two to serve 15 years each, and another to serve 10 years. A fine of 100,000,000 marks was also assessed against each of these convicted of this charge.

A cold high area of unusual magnitude for the season pushed southward from Manitoba Monday and brought freezing temperatures as far south as Kansas and as far east as Wisconsin. Frost was predicted for parts of that section. The cold wave reached this section Tuesday afternoon and it was rather chilly here Tuesday night.

J. B. Patterson, district manager of the Southwestern Bell Telephone Company, has purchased a residence lot in the 1000 block on Main street and will make some improvements thereon at once. Mr. Patterson plans to build a two-story garage and light house-keep in the upper part until he can have a home erected.

A box supper will be held at Sparenberg, tonight, May 11th, for the benefit of the Sparenberg band, which has been lately organized with Mr. Blount as director.

Green Watches—The better kind of watch—priced very reasonable. Clyde Fox Jewelry & Drug Co.

Luther Burbank says, "Whoever believes there is a great gulf between plant life and human life is wrong. Racial improvement, like plant improvement, is all a matter of heredity, environment, selection and crossing of types. The strongest conviction I have, after breeding plants 60 years, is that what can be done with plants can be done with human beings—and must be done if our civilization is not to be overwhelmed by the unfit. Plant life, I am convinced, is no more plastic than human life."

Folks are having a lot of fun with poor old Wall Street. Just recently the president of the "Piggy Wiggly" Company had them on the run and on Monday a bunch of worthless checks were sent in with which to buy stocks and a near panic took place when the hoax was discovered.

City Drivers Must Have License

The City of Big Spring is going to demand that drivers of service cars within the city limits have a license in the future. The license law becomes effective at once.

The license fee will be small, only \$5, but only reputable citizens will be granted a license.

The ordinance which was adopted at the regular meeting of the city council Tuesday night prescribes that no one shall operate a service car within the limits of the city of Big Spring without a license. The penalty for conviction of violation of this ordinance shall be a fine of from \$5 to \$100 for each separate offense.

An application for license must be signed by two reputable citizens stating that they will vouch for the good moral character of said applicant. The application must be approved by the City Council. The ordinance specifies that a man with a bad reputation, one who has been convicted of crime or generally suspected of moral turpitude will be denied a license.

The ordinance is proposed as a measure of protection to the wives, mothers and sisters of our citizens as well as the women of other cities and towns who may have occasion to need the use of service cars and especially to those who arrive on passenger trains after nightfall. It was held that they should not be left to the mercy of thugs and criminals who might be using the service car business as a blind for their unlawful acts. If a man is granted a license they can be reasonably certain he is an honest and reputable citizen earning an honest living and if not his license will be revoked as soon as complaints are substantiated.

The members of the City Council will have the hearty commendation of our entire citizenship in the passage and strict enforcement of this worthy ordinance.

Pioneer Bridge Club

The members of the Pioneer Bridge club were the guests of Mrs. Bernard Fisher Wednesday afternoon and an especially delightful meeting was enjoyed. Mrs. Del Elliott had the honor of making visitor's high score while Mrs. Joye M. Fisher made club high score. The delicious refreshments served were a real treat.

Notice

I am in no way connected with A. B. Winslow in the contract for concrete work of any kind, neither do I direct any work of his, so when you want me to do your work see me and no one else. All my work is guaranteed. JIM WINSLOW. 33-2t.

Reward for Lost Traveling Bag

A black leather traveling bag was lost on Johnson street Thursday night. Finder please return to Herald office.

R. D. Matthews made a business trip to Midland Thursday.

Mrs. E. P. Teale of Garden City was a visitor here Wednesday.

Hardy Morgan was in Thursday from his ranch in Dawson County.

V. F. Roberts of Coahoma was a business visitor in this city Wednesday.

See your Dentist: Its a painful but necessary visit. Cunningham & Phillips.

Mr. and Mrs. Paul Noack arrived Thursday morning from El Centro to look after property interests in this city.

Mrs. Cecil Wasson and daughter arrived Thursday from Graham to join Mr. Wasson and make their home in this city.

R. H. McNew, W. W. Rix, E. E. Fahrkamp, Wm. Fisher, Fox Stripling, Ynell Robb, O. H. Morris, Miss Nell Hatch and Miss Mary Johnson are attending the closing exercises of the Coahoma Public Schools today.

Lubbock Avalanche Loses Plant
The printing plant of the Lubbock Avalanche and three grocery stores were destroyed by fire at Lubbock Monday.

James A. Dow, owner and publisher of the Avalanche, sent his force to Amarillo and the daily paper was put out on time Tuesday. The paper will come out on its own presses just as soon as new machinery can be installed.

Mr. Dow's loss will approximate \$50,000, and he carried but \$18,000 insurance on plant and building.

Lookout for Stolen Money Orders

Blank Money Orders forms Nos. 46,243 to 46,400 have been stolen from the postoffice at Murchison, Texas. Banks, merchants, and others should keep a close lookout and if any should be presented for payment, hold and notify the Postoffice department, this city.

A collapsible baby cart—good as new—for sale. Phone 495. 34-tf.

99c — ALUMINUM SALE — 99c

Saturday Only

Stone's Variety Store

J. O. Tamsitt returned Tuesday morning from Dallas where he had been in conference with railroad officials relative to a settlement of the strike on the Texas & Pacific railway system.

Sam Little, breeder of big type Poland China hogs, Thursday shipped a year-old boar of the well known Liberator breeding to Curtis and Baugh, statewide known breeders at Belton. Mr. Little has leased this fine boar to the above named breeders for the next few months. Mr. Little's success as a breeder of champion hogs is recognized thruout the State and it is worthy of note that a firm of breeders at Belton come to him to secure an animal to be used for breeding.

The Men's Brotherhood Bible Class of the First Christian Church at a class meeting last Sunday, decided to change the name of the class and the class will now be known as Big Spring Men's Bible Class (non secular) and a systematic study of the Bible will be taken up and studied in such a way that those attending cannot help but be interested in it.

If you are not attending bible school we kindly invite you to pay us a visit, and let us get acquainted.

A photo of Miss Nell Hatch who is to sponsor for Big Spring at the annual meeting of the West Texas Chamber of Commerce at San Angelo May 21, 22 and 23, occupied a prominent position among a page of photos of sponsors of West Texas cities in the Dallas News last Sunday, and was declared the best looking one in the bunch; and as quite a few of our folks have remarked Big Spring made no mistake in selecting Miss Hatch as Miss Big Spring.

D. C. Maupin returned Tuesday from an extended trip thru the Panhandle and Oklahoma. He states that in no town in which he visited did he find conditions as good as they are in this city; and he returns home better satisfied than ever with Big Spring.

A. L. Houston was here Thursday from his ranch in Martin County. He reports a nice rain up his way early last Monday morning, and everything in fine shape in his section.

Your presence is desired at the special Mother's Day Service at the Lytle Theatre at 3 o'clock Sunday afternoon, May 13th. This invitation is extended to every man, woman, boy and girl in Howard County. The services are under the auspices of the Y. M. C. A.

Thursday's Luncheon Club

The session of the Thursday Luncheon Club this week was arranged by Miss Nell Hatch and Sam Brewer and was one of the "peppiest" meetings ever held by the membership.

Mr. Brewer, presiding, stated that no special program had been prepared but the main business would be completion of plans to go to San Angelo in a bunch and loaded for bear. He stated that he had been telling them that Big Spring was one of the liveliest towns in West Texas and they could expect our folks to make a big hit May 21, 22, 23. He stated that anyone and everyone having any suggestions to offer to add to plans for a big showing at San Angelo would be gladly listened to.

J. E. Mundell called upon stated that we are now on the last lap of the fight for the location of the Texas Tech and we can hardly afford to weaken or "lay down" at this critical stage. He stated that it would all be over but the shouting within the next thirty days and we should keep on our fighting clothes until the gong sounded. He gave it as his opinion that the locating board would have no trouble in thinning the thirty-seven competing towns down to six, and that Big Spring would be one of the six. It was then up to us to maintain a fighting spirit till we were winners over the other five live burrs, and in his opinion Big Spring folks were not the kind to quit in the middle of a good scrap.

W. W. Rix, asked to outline some of the plans for the convention, stated that space had been provided in the Angelo Furniture Company for Big Spring's headquarters—this building being in the heart of the city and easy to locate. Camping grounds and parking space were being secured so the Howard County delegation could stay together. Advertising novelties had been secured and would be distributed at Angelo. Signs for cars can be arranged for at the local Chamber of Commerce office and everyone is urged to call for same. A decorated car has been arranged for Big Spring's sponsor in the big parade at Angelo. Nifty uniforms—an all white dress for women—were approved and everyone is urged to appear in the parade in such uniform. This is important and everyone was urged to join in. Everything but a brass band is going to boost for Big Spring and we won't need that as we expect to have other attractions to counteract, such as real singers with Mrs. J. C. Yates as song leader and Carroll Barnett, Miss Elsie Willis and others to assist. He stated that if we would send a delegation 300 strong that our city could hold her own with any burg in West Texas.

E. E. Fahrkamp, in a red hot speech, argued that if we expected to keep Big Spring in the race for the Tech we had to let Texas know we wanted it and the best way to do so was to send a large delegation to San Angelo.

Homer McNew urged a systematic campaign to arouse our folks to the necessity of going to Angelo, urged the closing of the stores at least one day and a systematic plan to have all cars leave at the same hour Tuesday. He urged the appointment of a marshal of arrangements to see that all cars left on schedule time Tuesday.

M. H. Morrison made a strong plea on loyalty to our town. He stated we had made a great fight for the location of the Texas Tech up to the present and we could not afford to fall by the wayside now. He said we had selected a Queen to represent us—and our queen expected and had a right to expect a delegation five hundred strong to accompany her. He stated we could not afford to send just a handful to represent our city if we wanted West Texas to know we are in the race for the college. He said it was a mistake to think it's all useless and nothing to be accomplished. He said that Big Spring had already benefited from the Tech fight in a big way even though we have not quite clinched the college, for we have secured a sewer system, practically solved our water problem, inaugurated a policy of economy which will enable our city to get out of debt and secured a spirit of cooperation among our citizenship which is remarkable. When you consider these great accomplishments secured by a citizenship that is working together you can understand why it is so essential for us to stick together and work together. Go to San Angelo and boost for Big Spring to the limit was his advice to those present.

Sam Hall, Wm. Fisher, T. S. Currie and others made short talks and offered suggestions as to the convention and the necessity of a big delegation being there to represent us. The meeting was treated to pep songs led by Mrs. J. C. Yates as a closing number. Miss Nell Hatch and S. H. Brewer wore costumes selected for the convention. J. E. Mundell and Carroll Barnett were appointed to arrange the meeting for next Thursday. When the members filed from the dining hall they found their hats decorated with white bands with the following words thereon: "I am going to San Angelo. Are You?" These being prepared by the secretary, Miss Hatch, to remind folks to plan for the trip.

Wholesome
as well as
EFFICIENT!

You should use Rumford not only because it is a perfect, dependable and economical leavener, but because it is also a true phosphate baking powder. Phosphate is a vital food necessity—present in the grain, but partially lost in the milling. Rumford restores what phosphate flour lacks—makes baked foods more delicious, digestible, wholesome.

Prayer Circle 4C

Prayer Circle 4C met with Mrs. W. J. Crawford, Wednesday with eight present. Mrs. B. L. Smith was leader. The Circle meets with Mrs. Jim Campbell on next Wednesday and Mrs. W. C. Barnett will be the leader.

We haven't any special information relative to the proposed American Legion Memorial Hall and Auditorium but understand the committee are securing an estimate of the cost as well as looking into a suitable location for this structure.

"A Poor Married Man" will be in the spotlight at the High School auditorium tonight. This is a splendid farce comedy given as a benefit for the Big Spring Chapter of De Moley. Attend—a worthy cause and enjoy a delightful entertainment.

For Plumbing and Stove Repair
See the old reliable. Have doing first class work in Big Spring for years. All work guaranteed. Leave orders at or phone the Restaurant. J. S. JOHNSON.

The closing exercises of the home school are in progress today. A splendid program was arranged for the occasion. A baseball game between the Coahoma and Lorraine teams will be played this afternoon. A play by the High School students will be presented at the school auditorium at 8 o'clock Saturday night.

Olie Cordill returned Sunday from Dallas where he had been to take two weeks' special course at the Auto School. Mr. Cordill is in the department of the Motor Company in this city.

Sam Lamar returned Monday on a visit at Cross Plains and other places in Callahan County. He reports conditions in that section far more favorable and states it is going to West Texas to produce bumper crops.

Day. Come mothers, fathers,
and let us make it a day
of devotion to all.

Car Driver's License

License relating to the issuance
of drivers of service cars
of Big Spring, is to be pub-
lished in the next issue of the Herald
and received too late for this
issue.

Recital at Baptist Church

Harry Hurt, assisted by Mrs.
Hurt, will present part of her
recital at the First
Baptist Church at 8:15 tonight. A
recitation is extended everyone.

New Cemetery is one spot Big

Big Spring is not going to neglect
the new cemetery. In the fact
the new cemetery is one of our
best features. We should make
it a place of pride. More
money should be spent on it.
The entire tract should
be protected against de-
velopment by rabbits and livestock. It
should be made improvements,
and donated toward this work.

Phillips and son, Dan, My

Worland Hardy, Oscar Koberg
and son, about June 1st.
Hardy, Oscar and Charles who
are taking a course in dentistry
at the University have done
well in their work. They have
been awarded a high scholar-
ship.

Richardson who underwent

operation for appendicitis last week
is to be moved from Mercy
Hospital today.

R. True returned this morn-

ing from Fort Worth where he at-
tended the annual meeting of the State
Association.

Jones of San Angelo, district

judge for the Star motor car is
a visitor here.

Phillips and daughter are

home having been moved from
hospital Tuesday.

"Sunshine" Gilmore Visits City

B. M. "Sunshine" Gilmore of Waco,
was a pleasant caller at the Herald
office last Saturday. Mr. Gilmore is
editor of the theatre and church news
department of the News-Tribune of
Waco; and was editor of the Baptist
Booster at the Baptist Encampment at
Christoval last year.

He is on a vacation and is making
an auto tour of West Texas, the only
portion of Texas he has not visited.
From here he went to San Angelo, and
thence southwest to Del Rio. From
there he will go along the Rio Grande
and return home via Galveston and
Corpus Christi.

He stated that he liked West Texas
fine as it is so different and one
seems to much more at home with her
hospitable people.

New Furniture Store Opened

The new furniture store of W. R.
Purser and Sons, opened for business
this week at 214 Main St. The first
carload of furniture arrived Thursday
has been unpacked and placed on dis-
play.

Other shipments will arrive shortly
and it will be but a short time until
they have a complete stock and can
supply your every need in the line of
furniture.

Coahoma and Center Point Games

At the ball park in Big Spring last
Saturday afternoon the Coahoma base
ball team "poured it on freely" while
the Center Point team was trying to
come out from under.

The Center Pointers didn't appre-
ciate the one sided game so they de-
cided to give Coahoma a dose of her own
medicine. In a game at Coahoma Mon-
day, the Center Point team won by the
decisive score of 8 to 0.

Cotton Seed for Sale

Have some fine cottonseed, suitable
for planting, for sale. Call at my
farm, 8 miles northwest of Big Spring.
J. A. DAVIDSON.

J. D. Hassel arrived Monday from
San Angelo to take charge of the
bookkeeping department of the Albert
M. Fisher Co. store. Mr. Hassel has
been secretary of the San Angelo
Water, Power and Light Company, re-
signing to accept the position here.
We extend him a cordial welcome to
our city.

A party of immigrants from East
Texas were here Thursday to investi-
gate a 10,000 acre tract of land, which
they plan to purchase and colonize.
There were twelve men in this party.

Window and door screening, our
specialty—see us at shop west of
Hardin Lumber Co.

W. E. Phillips was here last Satur-
day from his ranch in the Konohasset
section.

ANSWER THE ALARM!

Big Spring People Should Not Delay.
If your kidneys are inflamed,
Don't stand around and do nothing.
Like a fire it will soon be beyond
control.

You will get the alarm in time—

Backache, or dizziness or disorders
of the urine.

Heed the warning.

Give your kidneys a rest by living
more carefully.

Use Doan's Kidney Pills to help
stamp out the cause.

Profit by a Big Spring man's ex-
perience.

B. J. Campbell, 107 Benning St.,
says: "I am glad to recommend
Doan's Kidney Pills, for I have used
them and they have brought me fine
relief. When I was troubled with a
touch of kidney trouble, my kidneys
were acting too freely, but Doan's
brought me good results."

Price 60c, at all dealers. Don't
simply ask for a kidney remedy—get
Doan's Kidney Pills—the same that
Mr. Campbell had. Foster-Milburn Co.,
Mfrs., Buffalo, N. Y.—Advertisement

Methodist Notes

Two hundred sixty six of the 275 ex-
pected were on hand last Sunday.
For Mother's Day we are sure to have
our 300. Let all Methodist families
put forth a little extra effort to bring
this desired result.

Directly after the lesson at 10:30
we are to have another Baptismal ser-
vice. Parents are cordially urged to
bring their little ones at this time.
Mrs. Morris will give an appropriate
solo. No day could be better for our
Infant ceremony than Mother's Day.
Bring the babies.

Our Methodist Home at Waco asks
all Methodist Sunday schools to assist
in building a larger home. The plan
suggested is to subscribe to the "Sun-
shine Monthly," the official organ of
the Home. One dollar will pay for
three years subscription, and our Sun-
day school should easily take out ten
of these specials. Will not those fami-
lies who are fortunate enough to have
no vacant chair make an offering of
one dollar as a Thank offering, to
help these fatherless and motherless
little ones? Anyone may subscribe.
Bring your dollar to S. S. As we do
honor to the living mothers let our
gift of love go as a memorial to the
mothers "gone on before." Don't for-
get this. Our "Home" looks to us in
faith. We must not fail these children.

Thursday Rook Club

The members of Thursday Rook
Club were charmingly entertained by
Mrs. Bob Austin this week. The
spacious rooms at her home on Main
street were artistically decorated in
honor of the occasion.

Eight tables of players took part in
the series of interesting games and a
jolly time was in order thruout the
afternoon.

Mrs. Chas. W. Davis had the honor
of making club high score while Mrs.
H. W. Leeper and Mrs. A. J. Galle-
more tied for visitor's high score.
Mrs. Leeper won in the cut.

Handsome hand-made favors pre-
pared by the deft hands of the hostess
were presented each guest.

The enjoyment of delicious refresh-
ments at the close of play was the
crowning feature of this delightful
afternoon.

Card of Thanks

We wish to extend our heartfelt
thanks to our friends in Big Spring,
Lorena and elsewhere for their many
kindnesses and expressions of sym-
pathy when we were called upon to part
with our loved one. Only those who
have been compelled to suffer the loss
of their best beloved can appreciate
how such kindness and sympathy ten-
dered at such times, is appreciated.
We especially wish to thank our
friends for the beautiful floral offer-
ings.

B. J. Lindner.

Chas. E. Hatch.

Miss Hilda Majors.

Mrs. R. A. Gordon.

Mrs. Wesley Mann.

Card of Thanks

We take this method in expressing
our heartfelt thanks to our neighbors
and many friends for the kindness and
beautiful floral offering during the
illness and death of our beloved wife,
daughter and sister, Effie. May God's
richest blessings be upon one and all,
is our prayer.

Boosting for Big Spring

The May issue of the Radford Gro-
cery News—issued monthly by the
J. M. Radford Grocery Co. is known as
the Big Spring Number and is dedi-
cated to Big Spring and the Big
Spring Country.

In addition to write-ups, views of
Big Spring folks and scenes appear in
this issue. On the front cover appear
photos of J. B. Hodges, manager, and
his assistant, J. D. Hair; H. V.
Kneaster, Jones Lamar, M. M.
Richardson and Howard Nall. The
views are of the U. S. Experiment
Station and Moss Springs. A picture
of a farm exhibit and a map showing
the "Crossing of the Ways," also ap-
pear. The following introductory
under the caption, "The Big Spring
Country," appears:

Mr. J. B. Hodges, our Manager, and
his live-wire bunch appear in this
number. They represent one of the
most important and oldest branches of
the J. M. Radford Grocery Company.
The fact that it is an important point
explains itself: it is a fine section and
one of the most productive in all Texas.

East of Big Spring quite a good deal
of oil development is taking place. All
around the town very intensive agri-
cultural development is going forward
very rapidly. Many large ranches are
being cut up into farms, and indica-
tions are that the farm population in
all the counties in that section will
show a material increase this year.

There are a number of good towns
in that vicinity, and they are all en-
joying the same rapid growth and
development. In former years it was
one vast ranch, but now the farming
industry is rapidly taking the day.
However, the ranches still stand out
prominently, and some of the finest
pure-bred cattle in the country are
raised on these ranches.

We take a great deal of pride in the
fact that we have grown up with the
country from its infancy, and all
things of interest to the towns in the
Big Spring territory are of vital inter-
est to us. It is our pleasure to dedi-
cate this number of the Radford Gro-
cery News to that fine territory.

Another article by Miss Nell Hatch,
secretary of the Chamber of Com-
merce, follows. Headed "Big Spring
—The Heart of West Texas."

The best little city in the West is
the title that has been handed Big
Spring by those who have had occasion
to travel the length and breadth of
West Texas. Big Spring, the capital
of Howard County, is located in the
heart of West Texas on the trunk line
railroad, the old reliable Texas and
Pacific, about midway between Fort
Worth and El Paso. It is one of the
few cities that can boast of being at
the crossing of two National High-
ways—The Bankhead Highway which
joins Washington, D. C., and San
Diego, California, and the Puget Sound
to Gulf Highway which joins the Puget
Sound and the Gulf of Mexico cross
at this place. These are all-the-year
highways and are used by ever-increas-
ing numbers of tourists.

Big Spring is founded on a sub-
stantial basis; being surrounded by as
fine agricultural land as is to be
found in Texas, and all kind of field
crops are profitably produced. Cotton
does especially well in this section,
and one-half bale or more per acre is
raised on that land that can be pur-
chased, in some instances, at twenty-
five dollars per acre. The old Big
Spring country has not grown by
booms, but substantially and steadily,
with the result that no section of the
state is in better condition financially
or otherwise. The town of Big Spring
has kept pace with the development of
the agricultural section but has not
forged too far ahead with the result
that business conditions continue good
—not only in crop marketing time, but
throughout the year.

No firm is in a better position to
attest to the dependability of the Big
Spring business interests than the J.
M. Radford Grocery Company, for
this was one of the first wholesale
grocery firms to locate in Big Spring
and the business enjoyed has been of
large volume and profitable, as failures
in this portion of the West are prac-
tically "nil."

There has never been a bank failure
in this city, and today the deposits in
the three local banks are the largest
of any year in their history.

Last year the cotton crop of our
county amounted to 13,000 bales, and
with the present favorable outlook and
the putting in of an additional 20,000
acres of land, indications are that
more than 20,000 bales of cotton will
be produced in Howard County this
year. With a price in excess of 20
cents our growers will have money and
to spare this fall.

With the fine climate, the long
growing season, the most healthful
section in the state; an abundance of the
purest water from deep wells, a fine
system of public schools, good churches
and the best people in the world there
is no wonder that more and more peo-
ple are coming to seek a home in the
Big Spring country. Not out where
the West begins but in Central West
Texas.

This is Big Spring — The Heart of
West Texas.
One of the big announcements we

"Business is Business"

"BUSINESS IS BUSINESS," THEY SAY, "TREAT
THE OTHER FELLOW FAIR AS LONG AS IT COSTS
YOU NOTHING." THAT'S THE IDEA THAT PRE-
VAILS WITH LOTS OF SO CALLED BUSINESS MEN.

No enduring success can be made with a policy of this
kind, for Success never stays long with the undeserving.
Sharp practice—questionable deals—taking undue advan-
tage—skimping here and there—pinching of quality—fail-
ure to make good when the work fails to, are all frequently
justified by merely saying "BUSINESS IS BUSINESS."
That may be a good way to clear one's conscience.

It is time to make business really business and it can
only be done when we stand for upright dealing, and down-
right honesty. When we are giving—not once but always
the utmost in Style, Fit, Quality and Workmanship—when
we are showing the same consideration we would expect if
we were in your place.

If you insist on a service like that, then get in touch
with us, for here you get it whether you insist on it or not

Honoring Miss Pemberton

Last Thursday, May 3, the Christian Endeavorers of the Presbyterian Church gave a party, at the home of Dr. W. C. Barnett, honoring Miss Marian Pemberton of Midland, president of Midland District Endeavorers.

At 8:15 Miss Pemberton called a council meeting, which met in the dining room. There matters of business were attended to and plans for the coming year talked over. Someone happened to mention the convention to be held here in the fall and in connection also mentioned the Texas Tech. Quite an argument ensued as to whether Midland or Big Spring should get the college. Miss Pemberton was strong for Midland of course but I feel sure that she was thoroughly convinced that Big Spring is the place that will get the Tech.

When we adjourned the party was in full swing. I didn't catch just what the game was, but each person was to perform for the amusement of the rest; something which he had previously been told to do. But woe to the fellow who laughed for he must pay a forfeit, and goodness gracious the things they had to do in order to redeem those forfeits. One poor girl had to propose to some boy in the room. You know I surely was glad it wasn't me for I would have been afraid that I'd have been accepted. But fortunately she wasn't.

Many enjoyable games were played. Among them were cross questions and crooked answers. Also telephone, two kinds. A real funny one was where two persons holding an end of the line, act as the conversationalists. In between the wire is held by other persons acting as poles. One person says "Hello, what have you?" The other says "A String of fools." You should have seen the scramble to get away.

During the latter part of the evening we were entertained by the Barnett musicians. Delicious refreshments were served to all present. "It was a very enjoyable evening," was the verdict of each one as he departed.

Reporter.

Brown Items

A wide scope of our county was visited by heavy rains and a generous sprinkling of hail last Sunday night, driving many joy riders to the nearest shelter.

The baseball game Sunday afternoon was a decided success from the Brownies' point of view. Knott came over and played Brown with a result of 20 to 13 score in favor of Brown.

The singing at Mr. and Mrs. Etheridge's home Sunday night was well attended and enjoyed as was the party at this popular home, two weeks ago.

A number of the Brown men were in Big Spring Saturday. All faces were broad grins—the "satisfaction grin," which only prospects of a bumper crop can bring to a farmer's face.

Several families, we understand, are planning a picnic dinner for the coming Sunday. We wish them all the good times they expect, but personally we are betting on the "chiggers."

A crowd of our young folks are hoping to attend the picnic and dinner at Buzzard Wells, given for the Knott school closing, next Friday. We always enjoy a day with the Knott people, to say nothing of the dinner.

The party at Mr. and Mrs. Lacey's last Saturday night was a treat to be remembered by practically all Brownies. Everyone attending reported a fine time. Mr. and Mrs. Lacey and family are one of many, many newcomers lately moved to the country and who are helping to make this the most interesting and profitable season we have ever had and, we, the old settlers, take this space in telling you how welcome you are and how we appreciate your continued cooperation in our efforts for clean sports and community good times.

XXX.

Presbyterian Notes

The coming Sabbath will be Mothers Day in the Presbyterian Church. Sabbath school will meet at usual at 9:45 a. m. in which the thought of Mother will predominate.

And at 11 a. m. the service will be in honor of Mother. And the pastor will preach a sermon, especially for Mothers.

The Senior Christian Endeavor Society will meet at 7 p. m. And at 8 p. m. the pastor will preach the third sermon on the life of Joseph, using for his subject: The Prison Cell.

We will be glad to see you, and make you welcome at these services.

\$5

ENROLLS YOU

You Can Now Buy and Pay
for a Ford Car Out of Your
Weekly Earnings on the

Ford Weekly Purchase Plan

Thousands of families are taking advantage of this new way of buying a Ford and will soon be driving their own cars, enjoying all the benefits and advantages of motor transportation.

The Ford Weekly Purchase Plan is amazingly simple. You can enroll with an initial payment as low as \$5.00. Each week you add to your first payment—as much or as little as you feel you can afford. This money is placed in the bank and draws interest. In a short time your deposits, plus the interest paid by the bank, will be sufficient to obtain delivery of the car.

Start today and before you realize it you will be driving your own Ford Car.

Notice Endeavorers

On account of the Senior Class play being on the 18th of May we have been obliged to change the time of our election from the 18th to the 17th. That is just one day earlier, on Thursday. Don't forget to come and nominate your man. There will be a party afterward, the place to be told at the meeting. So if you want to get in on the party be sure and be at the Christian church Thursday, May 17, at 7:30 p. m. Please be on time, for the later you are the less party you'll have. Meet me there and let's elect the right officers.

Be sure and be at choir practice Friday, May 11th at 7:30 p. m. You don't know what you missed last Friday night by not being there. Mr. Dabberley taught us just lots about music. We Endeavorers are going to have a choir as well as the older folks. I'd advise you to get in on the first so you won't miss anything. We surely want to see you there at 7:30 sharp. Be there and be on time.

We'd like to see you at Sunday evening services. Remember we start at 7 o'clock. We always have a good program, so come. You're sure to get something from the meeting and perhaps you could give us an idea of how to make them better. Be sure and come. We need you and you need us. Come, you're sure to find a welcome there.

Reporter.

Listen Folks!

Most of you will be thru planting by May 21st, and those of you who are not need a few days vacation. Why not take out for a few days, and treat the family to a fine time. Camping sites can be arranged and a fine time enjoyed if you will join the delegation that is to be at San Angelo, to let the world know that Howard County folks are interested in securing the Texas Tech for our county.

A big three-day celebration will be staged at San Angelo May 21st 22nd and 23rd and everybody in West Texas has a cordial invitation to be present.

If you can attend let it be known at once so we can go in a bunch and make a better impression.

Phone or call at the Chamber of Commerce—phon 512—and tell them you can go with the bunch and help boost for old Howard County. Other West Texas counties will have delegations from 300 to 1,000 strong and we should have a big delegation to let them know we are in the race for the college.

Handbag Found

A black handbag was found in an alley in Big Spring. Owner can secure same by calling on J. A. Stephens and paying for this notice.

Amendment Should Carry.
The amendment to the constitution of the State is to be voted on. This amendment will lay the highway program in the hands of the people and will benefit every element of the population.
Defeat of the amendment will result in highway progress in the State because it not only would mean definite postponement of the connecting our highways into a system, but it would mean the loss of Federal aid for highway building in Texas.
The people realize this they will vote the amendment overwhelmingly, the only way to bring them to an understanding of the matter is by presenting the matter in an understandable manner.
Much confidence and a lack of confidence in many who favor highway building might result in the defeat of the amendment.
Let us all provisions and explain the amendment to your neighbor.

General Assembly Presbyterian Church
Members of the Southern Presbyterian Church are looking forward with great interest to the sixty-third annual meeting of the general assembly of the church, to be held in the Anderson Auditorium, Montreal, N. C., May 17th. The general assembly is the highest court of the denomination, its sphere of activity reaching into fifteen states, eight countries and four continents. A number of important matters relating to the future plans and growth of the church will come before this body for consideration.
Montreal, the church's summer conference grounds, located in the heart of the Blue Ridge Mountains, should prove an ideal and most acceptable meeting place. The new auditorium where the sessions are to be held is a marvel of beauty and efficiency—said to be the greatest auditorium in the south.
At the last meeting of the assembly the church reported a membership of 411,854; ministers 2,056; churches, 3,492; and per capita gifts to all causes for the previous year amounting to \$28.50. In per capita gifts, the Southern Presbyterian Church, with one exception, occupied first place among the churches of America. In the light of a recent announcement that the churches of America have shown more growth and advancement during the past year than during any previous year, the reports from the various committees and departments on the efforts and work of the year ending March 31, will be received with unusual interest.
The Montreal assembly has been designated as a "prayer assembly." Prayer will therefore be one of the dominant features of this meeting and it is believed that a deep note of spirituality will pervade and characterize the daily sessions. The pre-assembly conference on evangelism will take place on Wednesday evening, May 16, when Hon. William Jennings Bryan will deliver an address in the auditorium. And the assembly will convene 11 A. M. Thursday with an opening sermon by the retiring moderator, Dr. R. C. Reed, Professor Columbia Theological Seminary.
Among the important matters coming before the assembly will be: reports of executive committees, committee on men's work, ad interim committees, stewardship committee, woman's auxiliary, overtures.
All churches are entitled to representation at the Assembly through commissioners elected by the respective

Presbyteries. The following will represent the Synod of Texas at the approaching Assembly:
Rev. W. N. Sholl, Bryan; Rev. W. J. Eakens, Hempstead; E. B. Barden, Houston; Geo. A. Schuler, Houston; Rev. S. J. McMurtry, Gatesville; Rev. F. L. McFadden, Marlin; H. K. Black, Temple; J. B. Sawtelle, Waco; Rev. T. O. Perrin, Dallas; Rev. A. E. Wallace, Lancaster; J. B. Murdick, Ennis; F. M. Hammon, Lancaster; Rev. T. M. Hunter, Beaumont; H. H. Thompson, Trinity; Rev. W. M. Fairley, El Paso; E. B. Daniel, Toyah; Rev. W. T. Riviere, Cleburne; Rev. F. R. Young, Fort Worth; J. E. Watts, Itasca; T. J. Barton, Itasca; Rev. R. M. Hall, Longview; D. F. McCollum, Commerce; Rev. R. D. Campbell, Austin; C. S. Guerrero, Austin; Rev. E. P. Day, Brownsville; Rev. Wm. P. Diekey, Kerrville; T. P. Lenoir, Victoria; A. J. Durham, Sabinal.

Only T. & P. Men Quit Strike
No other railroads are effected by the order received Saturday by striking Texas & Pacific shopmen ordering them to return to work, following a vote favoring this action cast by shopmen of the system thruout the state and tabulated in Dallas. This was the statement, Monday, of B. H. Cooley, local representative of the Machinists' union.
The order affects 300 Fort Worth men. Cooley indicated he believed the majority of these would be reemployed. He said he based his opinion on assurances made to Joseph F. Myers, state labor commissioner, by J. L. Lancaster, receiver of the T. & P. and A. P. Prendergast, superintendent of motive power. The men have been given 10 days in which to file their applications to return.
The strike opened July 1 of last year.—Fort Worth Press.

Youngblood Ordered Released
Hull Youngblood, adjudged in contempt of a joint legislative committee for refusal to testify on statements he is alleged to have made regarding the legislature, was ordered released on the 20-day jail penalty assessed by the committee by the court of criminal appeals. The court in an opinion by Judge Morrow held that the legislature cannot delegate to a committee its authority to hold any individual in contempt.

Room for Rent
A nice bed room, close in, for rent. Phone 313.

Swat the Fly
A little fly flew in the door. Then laid some eggs, and laid some more. The eggs hatched out in a very few days. And the little flies flew in different ways. Then they laid eggs, and laid some more. And the same things happened that happened before. And the husky fly that started it all was alive and kicking till late in the fall. She called a reunion of all her descendants. And they wrote a declaration of independence. To give you their names would be tedious and long. For her descendants numbered five trillions strong.—Western Review.

Rooms for Rent
Two nice light housekeeping rooms for rent at Compton residence. Reference required. Phone 456. 23-11

Buying Wallpaper
A figured paper always makes the room appear smaller than plain paper. Red absorbs more light than any other color, and should never be used in a small or dark room. As a rule, it is a poor color to pick in buying wall paper.
Yellow adds light and warmth and should be used in rooms having a northern exposure.
Green or blue should be used in rooms having much sunshine.
Pink of a light shade adds light and warmth to a room.
Wall paper should be light or dark enough to make a good background for the furniture. The design should never be prominent enough to compete with the furniture or people.—Southland Farmer.

Cotton Seed for Sale
Pure Mebane cotton seed—first year seed—for sale. The very best at \$2 per bushel. Call at my place 6 miles north of Big Spring, or phone G. W. Amos. T. F. ANDERSON. 11-11

For Sale or Trade
One half block in College Heights addition for sale or trade. Write, Box 33, Coahoma Texas. 17-11

Local Baseball Fans

You have heard about them and read about them, but now is your chance to see. The Independent Baseball Team of your city in action. The team will meet the Snyder club on the local diamond Sunday, Monday, and Tuesday, the 13th, 14th, and 15th; rain or shine.

The local teams have had from 15 to 20 out every afternoon for practice, and have been showing lots of ginger and pep in their workouts. This team met the Snyder club in their home town about three weeks ago, and walked off with the bacon by taking two games out of the three played.

Snyder has a salaried ball club and are coming here with the idea in their heads of walking over Big Spring.

Turn out in force and show the club you are behind them; win or lose. Because if we are to have a winning club we will need the backing of the local fans.

The price of the game will be 50c with 5c war tax as 10 per cent of the gate receipts goes for the upkeep of the ballpark and 10 per cent to Uncle Sam. Now take an afternoon off and come see—the Independent ball club pour it on Snyder. Contributed.

Grand Carnival Coming Attraction—To be held on the courthouse lawn afternoon and evening of June 15th. Make no other engagements for this date.

Given under the management of City Federation. Watch for further announcements.

Don't fail to see "A Poor Married Man," and learn whether or not marriage is a failure. It's a laugh provoker and you'll surely enjoy the fine specialties between acts.

Y. M. C. A. Committees

The following committeemen for the Y. M. C. A. have been announced: **MEMBERSHIP** — W. R. Martin, W. E. Carnrike, W. W. Rix. **FINANCE** — R. T. Piner, F. W. Bettie, W. W. Rix. **HOUSE** — F. W. Bettie, F. Wynn, W. E. Carnrike. **EXECUTIVE** — C. S. Holmes, W. R. Martin, W. W. Rix, F. Wynn, F. W. Bettie. **RELIGIOUS** — Frank Wynn, Geo. Mims, J. N. Cowan.

Honor Students in Our Schools

In comparison of grades for school work of the year the following are awarded honors in the Big Spring Schools: Louise Mosley made the highest grade in the Senior class and is to be Valedictorian of the Class, and Miss Frances Sullivan is to be Salutatorian.

Miss Lillian Shick won the honor in the Grammar Grade and is the honor pupil of the class of fifty that will be graduated from the Grammar school to the High School.

Auto for Sale or Trade

Have a Hupmobile touring car—in first-class condition, for sale or trade. If you need a car, see, or phone or write. V. F. ROBERTS, Coahoma, Texas. It-10

Memorial Service

Sunday evening at 8 o'clock at the Episcopal Church there will be a Memorial service for Mrs. B. J. Lindley. All friends are invited.

Mr. and Mrs. Geo. Webb of Odessa after a few days' visit with her sisters, Mrs. Seth Pike and Mrs. Steve Baker, left Monday morning for their home.

High School Notes

(Frances Sullivan & Frances Melton) The Senior Class play will be given Friday night, May 18th.

The characters are:

Deacon Penrose—Herbert Whitney. Calvin Spangler—His nephew. Rev. Dr. Sopher—Robert Lee Pike. Mr. Rafferty—Buell Carlwell. Harry Baxter—Morris Williams. Mrs. Penrose—Frances Sullivan. Ruth Penrose—Pauline Williamson. George Sopher—Miriam Kennedy. Katy—Ruth Miller.

The story of the play: Everyone supposed Calvin Spangler was going to study for the ministry, so when he drops in upon his astonished Chicago relatives and turns out to be a slinky hero of the diamond, he gets a varied reception.

Cal is a pitcher de luxe and also a clean-up clouter. In other words, when the game is close and a hit means a run, he is rushed into the battle and usually comes through with a hit.

His first "error" is to fall in love with the minister's daughter. Then, in attempting to show his uncle, the Deacon, a good time, they are arrested and the Deacon spends the night in a cell. Scandal is imminent—disaster impends—uncle goes on the war path.

The big day of the crucial game arrives. Nearly everybody's reputation and peace of mind depends on the outcome. Here it is. In the half-raising tenth inning, that Cal unlimbers his trusty pitching arm and also delivers the timely punch that saves the day for all concerned. He proves, in the end that he is a pinch hitter in the affairs of real life as well as upon the diamond.

"The ministry's all right. I'm not knocking it as a profession, but you can never see your name in big headlines in that business unless you steal the contribution box or run off with a 'fairy in the choir.'"

Don't fail to see the play.

A Senior meeting was held Thursday of last week. Mr. Flanken took charge of the meeting. A committee was appointed to secure the music for the commencement exercises, consisting of the following: Aline Crowley, Berdie Shockley and Frances Sullivan. Herbert Whitney, Anna Agnell, Robert Lee Pike, Morris Williams, Helen Hayden, and Frances Sullivan were appointed to plan the program for the closing exercises. Mr. Flanken announced that Louise Mosley would be Valedictorian and Frances Sullivan would be Salutatorian. The class voted that Mr. Edwin A. Kelley should deliver the graduating address, and that Mr. Flanken should deliver the diplomas and that no one has been selected to deliver the Baccalaureate sermon.

On Friday night, May 4, in response to the invitations received, the Seniors all dressed as little kids, began assembling about 8 o'clock at the home of C. S. Holmes. By 8:30 the yard was completely filled with tiny girls and boys. Games, such as, "The Farmer in the Dell," "Cat and Rat," and "We're marching Round the Levy" were played among roars of laughter and giggles. Later, they were invited into the dining room where each was allowed to cut a slice of the birthday cake. Soda pop (strawberry red), lollipops and chewing gum were issued out until it would have been hard to find the winner of a toy pig. Music was given by Maude Carter and Helen Wolcott. Little "speeches" and songs were given by the "tiny tots."

At 11 o'clock the little kids left the party, with many thanks offered to the Juniors for the best time that the Seniors had had this year and for entertaining them so royally.

The Home Economics classes have been entertaining the faculty this week to luncheon. Section I, entertained the High School Faculty Wednesday and Section II, entertained the Grammar Grade teachers Thursday. The Home Economic girls are very interested in their work, and with the help of Miss Eupank, they have accomplished many things in the planning, preparing and serving of menus.

State examinations have been given this week in all H. S. subjects.

The following theme was the best one handed in by the Freshman class: Fire Prevention by Hugh Dubberly. The fire loss in this country is about two dollars and fifty cents per person on an average. For several reasons this is, perhaps, the greatest loss of any country on earth.

In Europe the buildings are usually made of brick or stone and therefore are harder to catch on fire; while in the United States the chief building material has been wood. The buildings in the old countries are usually subject to inspection and in the United States very few towns have building inspectors. Then, too, the building regulations are stricter in Europe than in this country.

In the older countries, such as England, France, Italy and Germany, one hardly ever sees a rubbish heap as one so often sees in America. This is because that if a rubbish heap is found on one's premises, he would be subject

to a heavy fine.

Another cause for so many fires in the United States is the general carelessness and wastefulness of our modern American people. We seem to think that if a thing is destroyed it can easily be replaced while in Europe where most of the people have been under forced economic conditions they are naturally more economic than we Americans are.

As a result of a far reaching campaign of education the American people are beginning to be more careful both in factories and at home. Stricter regulations on erecting buildings, inspectors from the fire department and other such things are going to help fire prevention.

All cities, towns, or even villages have either an employed or a volunteer fire department that helps to prevent the spreading of fires.

Fire proof constructions are also a help to fire prevention. Modern fire proof construction began with the use of iron in construction.

Such things as faulty electric wiring, faulty flues and leaky oil stoves should be fixed as a serious fire might be caused by them. Electric wiring should be done by an expert and inspected every few years. Flues should be examined and cleaned every year to prevent fires. Oil stoves that are not in good condition should not be used as an explosion might be the result of them.

Careless things such as leaving matches where children can get them or leaving loose matches around any easily inflamed material should be avoided. Smoking near explosives should be prohibited.

Fire under control is man's greatest friend, but out of control is one of his greatest enemies. Every precaution should be taken against letting fire get out of control.

Most of these measures are being taken in this country and in a few years I believe that the United States will set the standard for the rest of the world in fire prevention.

Home and School Club

The last program meeting of the Home and School Club for the year was held Friday April 27th at Central School. There was a very good attendance of mothers and teachers, who enjoyed the interesting program.

Mrs. Kolberg, the president, presided. Mrs. Stripling led in prayer, after which the club was favored by the High School Glee Club girls who sang very beautifully. Miss Lomax who is leader of the Glee Club, was given a vote of thanks for arranging this attractive number.

Mrs. Flanken read a splendid paper on "What Benefits the Club has Derived from the Year's Programs." She called for different ones to tell just what points they remembered that were brought out in the papers given at all the other meetings this year. A great number responded to this request and it was easily seen that the various subjects under discussion had been of great benefit to the club members. Mrs. Flanken said that the program committee of which she had been a member, had endeavored to give the Club the very best that was possible, and to bring before the club, those things which were of vital importance in helping mothers and teachers solve the many problems that confronted them.

A vote of thanks was extended the program committee for arranging such a useful and instructive program.

One of the committee members said that she regretted that they had not had a discussion of the "Law of Self-Control" as this is a subject of utmost importance. We hope to have this at some future time.

It was moved that a vote of thanks be extended to Mr. Flanken and the retiring members of the board of trustees for the successful way in which the school affairs have been carried on. It will be remembered that things were in a serious condition from a financial standpoint as well as in many other ways and it took judicious management to accomplish the many great things that have been accomplished by this board. The school indebtedness has been wiped out and the next year will be started out without this incumbrance. Several credits have been added and many other things too numerous to mention have been done.

The Club members think it best to ask the Dixie Lyceum Bureau for an unconditional release from their contract. Everyone seemed to think it would be unwise to undertake to have the Lyceum course again.

The contest for the room in each building having the largest representation of mothers resulted in Mrs. Agnell, Central school; Miss Jordan, South Ward; Miss Davidson, grammar grade. A tie between the Seniors, Sophomores and Juniors for High School.

Another meeting of the club will be held the third Friday in May for the purpose of winding up the year's business and electing officers for the ensuing year. Every member is urged to be present at this meeting.

Reporter.

PHONE 400—WE DELIVER

Things for His Majesty
or Her Highness

THE BABY

—Infants Nightgales of crepe de chine or cashmere in white, pink or blue. Pretty smocked or hand-embroidered and ribbon trimmed styles. Priced \$1.25 to \$4.

—Sweaters of fine quality wool in white; some have collar and cuffs of light blue, others have a touch of embroidery in pink or blue. Priced \$2 to \$3.50.

—Loose woven Sacques of all wool in white with pink or blue trimming. Priced \$1.25.

—Cotton filled Carriage Robes with coverings of crepe de chine or jap silk in pink or blue. All have beautiful embroidered designs in harmonizing colors. Priced \$4 to \$6.50.

Charges Blanton of Criminal Libel

Comanche, Texas, May 5.—An indictment charging criminal libel was returned by the Comanche County grand jury Saturday against Congressman Thomas L. Blanton. A warrant for his arrest was issued and sent to the Sheriff of Taylor County, who reported that he could not serve it, as Mr. Blanton was not in Taylor County. The indictment grows out of an article said to have been published in the El Paso Morning News of El Paso, Texas, on July 16, in which Mr. Blanton is declared to have charged Oscar Callaway, former Congressman, with having urged his friends "not to buy Liberty Bonds during the World War, not to conserve food and sought to obstruct the selective draft law." Each of the charges named are made separate counts in the indictment.

Some time ago Mr. Blanton sued Mr. Callaway for \$52,500 in the District Court of Shackelford County, alleging he had been slandered. Mr. Callaway had sued the El Paso News in connection with the alleged article upon which the Comanche County indictment was based.

Mr. Callaway, who lives at Comanche, made an unsuccessful race against Mr. Blanton for Congress in the last Democratic primaries. Dallas News.

**Under Light of a Lamp Just Per-
fected by Dr. Daleo, colors may be
seen as accurately as if they were
being viewed in the light of the sun.
In some ways, indeed, this lamp is
more satisfactory than daylight, as the
light varies somewhat with meteorolog-
ical conditions, and is furthermore
affected by reflections from colored
walls or furniture.**

The principle of this new process for
obtaining artificial daylight consists
essentially in filtering the light from
an electric bulb so as to absorb a part
of the red and yellow light rays. The
ray filter is made of quality.

A curious fact in connection with
this new invention is that Dr. Daleo,
the president of the "Aga" company,
and the inventor, if not the inventor,
of most of the company's products, is
himself blind, having lost his sight
while completing experiments with
some of his inventions, the automatic
light box, which is known to mar-
vels all over the world. Dallas
News.

PHILIPS

Page King Solomon

Chicago, a big city of many thrills,
has been all a-flutter of late over a
poor little girl who was born out of
wedlock.

She was adopted in infancy by a
kind hearted couple and brought up as
their own daughter. Every possible
love and care was lavished upon her,
she was happy and contented, and the
world was ignorant of the stain upon
her birth.

The little girl is now twelve years of
age, too young to understand the pen-
alties and the purgatory of illegitimacy
as many others have known before her.

But she will not always be in ignor-
ance, for the real mother claimed her
and went into court to obtain posses-
sion of her, revealing her shame to the
world.

Some day this little girl will be a
young woman, and then she will
understand, and will feel, and the blush
of shame will never leave the fair
young brow.

What think you?
Should the real mother have claimed
the child after all of these years, mak-
ing public the shame of its birth, or
should she have continued to bear her
heart pangs in silence in order that
her innocent flesh and blood might be
saved pangs equally as great?

What would genuine and un-
selfish mother love have done?
Frankly, we don't know.

Gompers to Oust Radicals

Samuel Gompers has launched what
labor leaders interpreted as a fight to
drive from the American Federation of
Labor the radical movement represented
by the Trade Union Education League,
including W. Z. Foster and C. D.
Ruthenburg.

Denouncing the one big union as the
ideal of men whose slogan was
"Amalgamate or annihilate," Mr.
Gompers said:

"If these men had all the gold of
the capitalized class in their pockets
they could not better serve the cap-
italists to the detriment of the working
man than by doing just what they are
doing."

Hemstitching 7 1/2 Cents Per Yard

7 1/2 cents per yard and guarantee
work to be satisfactory in every way.
Workroom opposite postoffice: open
from 8 a. m. to 6 p. m. Phone 200.
29-11. Mrs. Chas. Eberley.

A man never realizes he disapproves
of so many things until his daughter
reaches 16.

The "Wildcatter's" Role

I have just finished reading the
communication from W. S. Parker on
"Oil Men, Good and Bad." I heartily
agree with him, both as to the neces-
sity for finance for oil development
and the need for a strong legal safe-
guard for joint stock associations.

The legitimate "wildcatter" is en-
titled to a niche in the hall of fame.
In many fields of endeavor, as well as
in the oil business, he has contributed
largely to our progress. The man who
does something that has not been
done before is a "wildcatter." Bell,
Morse, Whitcomb, Arkwright, Stevenson,
Field, Swift, Westinghouse, Edison,
Henry Ford and many others that these
names will call to mind, were, at the
outset, "wildcatters" in the industrial
world. It takes no great stretch of
the imagination to picture the loss to
the world which would have resulted
had these men been unable to finance
their dreams.

This country owes its discovery and
subsequent settlement to "wildcat-
ters." The westward flow of the tide
of immigration drew its inspiration
and motive power from the "wild-
catter," and many a treasure trove has
been uncovered by a man who was
"grub staked" by trusting friends.

The same is true in the oil produc-
ing industry. The "wildcatter" has
enhanced our national wealth, commu-
nity treasury; he has added cubits to
the stature of our industrial smoke-
stacks. Our National Government
recognizes the importance of the "wild-
catter" in all legitimate fields. Every
aid, encouragement and assistance are
extended to the man who sincerely is
striving to develop our natural re-
sources, grow a better stalk of cotton,
or make two peaches bloom where only
one bloomed before.

Inasmuch as the Government wants
to separate the tares from the wheat,
and since legitimate "wildcattering" is
desirable to all parties concerned,
would not a board of control solve the
problem? This board would supervise
all companies desiring to sell stock
to the public. It would examine the
properties forming the basis of cap-
italization, appraise them, and grant, or
refuse to grant, a charter on the find-
ings of its investigation. Upon grant-
ing a charter and permit to solicit sub-
scriptions from the public, it would
render an opinion to be incorporated in
the advertising matter of the company.
It would also issue a license number
which, in itself, would be evidence of
sincerity of purpose. Furthermore,
this board would require a complete
report every month, showing a pro-
gress of development, list of stock sub-
scriptions received, money spent for
promotion, etc. In short, this board
would see to it that the stock-buying
public got a "run for its money."

The expense of maintaining such a
board of control would be borne by the
companies receiving permits to do busi-
ness. In Oklahoma, for instance, cot-
ton gins are classed as public utilities
and are under State supervision. The
ginners pay 3c on each bale ginned to
maintain this supervision. A few cents
on each share of stock sold would
abundantly finance such a board as
outlined above. This would eliminate
the unscrupulous, restore public con-
fidence and clear the tracks for contin-
ued progress.—WILL S. HENSON,
1808 Jackson street, Dallas, in Dallas
News.

Hazing Should be Abolished

Hazing and class fights in colleges
and universities have reached a point
where the public should call a sudden
and emphatic halt.

In 1921 a young man who took part
in a class warfare at one of our big
universities disappeared during the
fight and no trace of him could be
found. A few days ago his skeleton
was discovered and identified by a
belt buckle and bits of clothing. Ap-
parently he had been killed in the fray
and his body hidden under an
old unused pier.

This is only one case—a sample of
conditions that exist in some of our
big institutions of learning.

If the authorities of these universi-
ties can not maintain order and dis-
cipline, then parents should cease to
send their sons to such institutions.

They are a menace and are not
worthy of confidence and public sup-
port.

Burkett Likely to Run for Governor.

Austin, Texas, May 5.—R. R. Mizell,
an attorney of Eastland, was in Aus-
tin Saturday on legal matters and in-
cidentally discussed the gubernatorial
situation.

"We, west of the Brazos are as much
interested in the welfare of Texas as
any other section of the State. That
part of the State has never been recog-
nized as having much weight politi-
cally, but next year we think we will
have a competent man in the race.

"Our citizens are urging Senator Joe
Burkett of Eastland to make the race,
and while he will not indicate just what
he will do, we believe he will make the
race, especially if the voters over Texas
who think as he does on the political
issues of the day, will urge his candi-
dacy as we are doing.

"Senator Burkett—we all call him
'Joe' out our way—has a broad ac-
quaintance over the State, having been
district judge of the 42nd and 88th
District Courts during the oil boom in
that section and as such he met the
leading lawyers over the State who are
unanimous in saying he made an ex-
cellent record as district judge. He
resigned as judge in the fall of 1919
and entered private practice, which
grew rapidly, and he and his firm now
enjoy one of the most extensive legal
businesses in our section of Texas. In
1920 he was elected Representative

from Eastland and Callahan Counties
without opposition, and was elected
State Senator in a special election in
1921.

"Joe" is not much of a talker but
is rather a doer of things. It is claim-
ed by his friends that he can out-com-
paign any man in Texas and if we can
get him to run we believe he will be
elected our next Governor."—San An-
tonio Express.

From San Antonio to San Angelo

Incorporation papers of the San
Antonio, Medina Lake, & Western
Railroad Company have just been filed
at Austin. The capital stock is \$190,-
000, and it is proposed to build a line
from San Antonio to San Angelo, 190
miles. The general offices are in San
Antonio. Incorporators: W. L. Wil-
liams, P. G. Lucas, and Paul Hansen,
all of San Antonio, and others. This
road will connect with the Santa Fe at
Menard and with the Kansas City,
Mexico & Orient and the Santa Fe
lines at San Angelo. It will traverse
the heart of the sheep and Angora goat
grazing region of Texas. It is stated
that application for permission to
build it has been filed with the Inter-
state Commerce Commission.

Day by day conditions in the Big
Spring section get better and better.
Harvest time is going to find our
country in ideal shape if we are not
badly mistaken. This portion of West
Texas is going to surely move forward
from now on.

The Sioux Indians have entered suit
against the United States for \$750,000,-
000 as payment with interest for lands
and property taken from them by the
palefaces years ago. Of the total de-
manded more than half a billion dol-
lars represents interest.

A Delight to All Women!

Our new spring and summer dry goods and furnishings are a delight to the women of this community. A careful search of the wholesale market enable us to price these goods at figures that enable our customers to preserve economy while at the same time keeping right in the latest of style. We feel ourselves fortunate in being able to offer them such splendid values for their money.

We especially wish you to call and inspect our Ladies Organdy and Gingham Dresses and our immense line of dress goods.

For men—we are featuring Style-Plus Spring and Summer Suits in Greys and Mixtures—that are winners at only \$25.00. See them.

Straw hats, light weight underwear, shirts, ties for spring wear are here for your selection. Boys' Suits, Red Goose Shoes and the best of everything needed for any member of the family. Goods continue to advance in price and you can secure articles at less now than you can for some time unless a bumper cotton crop is made this fall.

We purchased our goods when prices were lowest and we are giving our customers the benefit of our good fortune.

We make the statement that we sell good merchandise for less. We want you to make us prove it. Go to any dry goods store in West Texas—get their prices and then visit our store. We stand behind our statement that we can save you money.

Pay us a visit. You are welcome at our store whether you buy or not.

Remember you Can Buy for Less at Our Store

We Have Them in Big Spring

There is always someone ready to take a public slam at the United States, and that someone is generally a citizen of the United States.

He is not only a citizen, but he makes his money here, enjoys his pleasures here, and is indebted to this country for everything that he has.

He is the fellow who finds every thing wrong, and yet does nothing to remedy the conditions of which he complains.

He is the one who rails over the election of inefficient men to public office, and yet does nothing to secure the election of men who are known to be efficient.

He is the bird who criticizes the authorities for creating soft berths for political henchmen, and yet would grab off one of those berths in a holy second if it came his way.

He flails the air because his neighbor means does not pay his just proportion of taxes, and then turns heaven and earth in an effort to slide out of paying his own.

He is a citizen of the United States, yes, but judged from the standpoint of true citizenship he is a rare old bird and a lame duck.

Mothers of Men

All over this country our people observe Mothers Day. They listen of words of praise of the mothers of men, give credit to the mothers of other people, and perhaps a passing thought to their own mothers.

It is human nature, the way of the world. We see the good traits of the mothers of other boys because we view them from a distance and analyze them from a disinterested standpoint.

We often overlook the excellent qualities of our own mothers because we have been accustomed to them since birth and accept their solicitous care and attention as our due and as a matter of course.

There is no one like the mother. She is the one who brings us into the world—the one who guards and trains us from infancy to maturity—the one who gives of such love as no other human being may ever know.

No pedestal is too high and no consideration is too great for the mother of man.

For mother is mother, the most wonderful work of Him who creates all peoples and all things.

As to Vocations

Here is something for fathers and mothers and young people to consider in their educational planning. It is the view of a responsible officer in a big industrial concern:

"The fact that the PICK of the technical school graduates may be had for laborer's wages and kept on practically indefinitely at a wage little better than that, is going to make itself felt in the attendance in these schools. These schools will begin to realize this and, instead of increasing in size, they will little by little tighten up entrance requirements, in order to reduce the number of applicants. The reaction of the general public may be quicker than that, however.

"With the present tendencies, it is not beyond probability that the laborer will be more than able to earn more than the skilled mechanic. The mechanic may have his choice of taking less agreeable work at a higher wage or continuing on his more exacting, more responsible, but more agreeable work at a lower wage. This has been the case with our great mass of clerks for some time. It is the case with many of our good technical men now and it is reasonable to believe that the skilled mechanic may come into this class next."—Fort Worth Press.

How About That Vacuum Cleaner?

Land for Sale and Land for Rent

Good agricultural land for sale on ten years time. You furnish the energy, I furnish the land. Let's go. Also one farm to rent. For particulars see—A. L. WASSON. 27-17

After we have boosted some men up the ladder of fame they begin to proclaim themselves as self made men.

Laws Must Be Impartially Enforced.

The daily press continues to report and occasional lynching—not always in the south.

For years it was the favorite past time of certain northern editors to flay the south because of its lynchings. Then the north began to feel lonesome, and adopted the lynching habit itself.

Sheriffs and courts and juries in the south didn't always bother to punish the lynchers. Perhaps they felt that there was some moral justification for the infliction of such summary punishment.

Again the north in time became lonesome, and now many of its officials are conveniently deaf, dumb and blind in the matter of punishment where the people have resorted to mob law.

As a matter of fact, human nature is the same all over this country of ours—north, south, east, west, or in the middle.

When the law repeatedly and flagrantly fails to mete out punishment to a certain class of criminals it is not strange that people can be found with the will to take the law into their own hands. It is not long ago that church leaders burned women at the stake under the mistaken belief that they were witches.

We condemn mob law, and it is right that we should, but we should remember that mob vengeance is seldom wreaked upon the innocent. Human passions are only aroused to such a point by the acts of human fiends who have no moral right to live.

The responsibility of mob law lies at the door of legal law, which dismally fails to convict and adequately punish in proportion to the crime.

When the laws of the land are impartially and energetically enforced we have no more incentive to lynchings. These may be unpalatable truths, but they are nevertheless truths that can not be refuted.

Registered Bulls for Sale

39 registered Hereford yearling bulls, Fairfax and Anxiety breeding. My ranch is on Gall road, twenty miles northeast of Big Spring. See these animals at my ranch, or address me at Luther, Texas. J. H. SIMPSON. 33-37pd

You Still Occasionally See One

They're not all as black as they're painted—these modern flappers. Flapperism, after all, isn't so much a matter of looks as it is a state of mind. At heart we all enjoy the looks; it's the boy-struck, pleasure-mad shirker of responsibilities that has called forth a deluge of printer's ink dense enough to drown the whole rising generation.

But you still occasionally see such a delightfully wholesome, efficient young person—as agreeably flapperish as the next one when it comes to looks—that it helps to revive your faith in human nature.

When you come right down to it there are no virtues in a woman which surpass the old fashioned ones of thrift, housewifely accomplishments, and the ability to conduct a home as efficiently as the man of the house is expected to conduct his business. These virtues of our grandmothers are not incompatible with running an office or carrying a social career; in fact they add lustre to any sphere in which a woman chooses to shine.

But as long as the race exists, the average woman's most important business will be to make a home, the real kind that radiates joy, and contentment, and friendly hospitality. And when all is said and done, isn't that just about the greatest achievement anyone can hope to accomplish in this world.

There are still girls who can cook, make their own clothes, and plan the family budget as efficiently as they sing and dance and drive the car. So don't give up hope—they're not all bona fide "flappers"—we're still going to have some real homes.

MANAGER WANTED

In this country for the Unexcelled Telephone Intensifier Baryphone; a whisper carried clearly; must have small capital for office and handling of salesmen; demonstration makes a sale. S. & S. MANUFACTURING CO. 3323 Seminary Avenue Chicago, Ill. 26-10c.

Stringing Tea

During a recent political campaign two deacons of the same faith religiously, but on opposite sides of the fence politically, attended prayer-meeting service.

"O Lord," intoned the Republican deacon, "I pray thee that the Republicans may hang together."

"Amen!" ejaculated the Democrat. "But not, O Lord," continued the Republican, "in the sense that my Democratic brother means, but in the sense of accord and concord."

"Any cord'll do, Lord; any cord'll do!" was the Democrat's closing thrust. — The Watchman-Examiner (New York.)

Would Ban Vice News in Marion Star

Washington, May 7.—The Marion Star is not for sale.

President Harding, its chief owner, says so.

In the days before he went to the White House, the Star, a prosperous and sizeable "country daily," furnished Mr. and Mrs. Warren G. Harding a comfortable living and some of the luxuries of life.

"I am hanging on it," the president said recently, "because I would rather be a newspaper publisher than anything else in the world."

The President has not been active as editor of the Star for at least eight years. When he went to the senate, the active editorial direction of the paper was transferred to one of his assistants, but during all of that time, and in the White House now, Harding as publisher of the Star has kept in intimate contact with it.

Hundreds of newspapers come to the White House daily, but of them all, the Star is the president's favorite. A copy is always on his desk and, as in the old days, he takes it "home" in the evening so Mrs. Harding can read it.

When he resumes active charge of the Star, Mr. Harding says, he will eliminate news pertaining to the failings of people.

"I think the most unfortunate contribution to the disturbing tendencies of today is the excessive publication of sensational vice," Harding told a group of editors recently. "I believe if I were to write the code, and could write it for all of the newspapers of America, I would ban everything of a vicious character except that which is necessary as a public warning."

"If I ran a newspaper to suit my own ideals, there would not be a police court reporter on the paper—never a police court column in the paper," Fort Worth Press.

Cement Work

I am prepared to do all kind of cement work, such as coping, walks, water troughs, tanks, etc. I refer you to any work I have done in this city as my reference. A. B. WINSLOW, 34-121-pd.

Detroit, Mich.—Predictions made early in the year that 1923 would see a large increase in the use of the one-ton truck both in commercial and agricultural fields are being borne out in sales records of the Ford Motor Company here.

The rapidity with which the one-ton truck has come into popularity in delivery and hauling systems is shown in recently compiled figures which disclose that 80 per cent of all the motor trucks in service in the United States are one-ton or less and indications are that this high ratio will be materially increased during the present year. The growth has come during the last six years during which the one-ton truck jumped from 48 per cent to the 80 per cent mark.

Registration figures as of December 1, 1922, showed the total number of commercial cars and trucks in use in the United States to be in excess of 1,300,000 of which fifty-one per cent were Fords.

The turn to the use of the one-ton truck for delivery and hauling purposes came quickly. Business firms who a few years ago looked to the larger trucks because of their load carrying appeal soon discovered that delivery systems could be more easily adopted to the one-ton truck at less investment and at the same time would afford more load moving units with increased efficiency and constant activity at the loading station.

Delivery systems were adopted to provide a variety of ranges so that each truck carried an average load over a maximum portion of its route and the economy of these frequent trips soon became apparent.

And while the commercial field has been constantly calling upon the one-ton truck to solve its delivery problems, those in the agricultural field are rapidly turning to it for general farm use and in providing speedier and more economical transportation of products from the farm to the city.

In adapting their delivery and hauling systems to the one-ton truck, commercial and agricultural users have found the Ford Truck Chassis comes most nearly meeting all requirements. Its ease and simplicity of operation makes it the most practical; its sure, constant operation makes it the most dependable and its adaptability to all purposes make it the truck of greatest appeal. Then, too, its service facilities are universal.

Land For Sale

"Pencil" the 100 per cent pure Pennsylvania lubricating oil for all motor cars and tractors. Stokes Motor Company.

The Age of Wonders

We are living in the age of wonders. Where ten years ago folks would scoff at a new idea and say, "Impossible," they now consider it seriously and admit, "Well, that might be one. Nothing is really impossible."

Especially does this seem true of the wireless. The latest discovered use of wireless is its ability to make the deaf hear. Many people who have never heard any sound, have listened to music and the human voice for the first time in their lives, because the ear drums were effected by the finer vibrations of wireless when the ordinary tuning fork vibration made no impression.

In a most remarkable book, "A Dweller on Two Planets," dictated by Phyllos, one who lived on this earth 12,000 years ago, through the medium of automatic writing, we learn that wireless was developed beyond our present conception by a civilization far superior to the generation of our day. In ancient Atlantis an instrument called the "nalm" enabled one to see distant events as they transpired and to talk face to face with friends, though thousands of miles separated their physical bodies.

We are about to rediscover this remarkable wireless mirror. At the present time, Edmond Belin, distinguished French scientist, is working on an invention which he calls the telephoto device, that when perfected will equal the "nalm," product of a forgotten civilization.

Nicola Tesla, American electrical wizard, is also experimenting along the same line and says that the means of seeing by wireless as well as hearing can and will be accomplished within a short time.

Imagine sitting in your home and seeing some world event take place as vividly as if you were actually present, even to the hearing of the things that transpire. Distance is no barrier. The device will work at a distance of five thousand miles as easily as five miles. The vibrations will pass through the earth's surface unbroken.

This is a subject which would stand columns of writing and not decrease in interest. We are led to make another worn expression at the future possibilities of our world today. "Will wonders never cease?"

No Precaution Is Equal to the Protection of Insurance

Some people think that INSURANCE is money wasted. After the fire they bemoan the fact that they were not insured.

Precaution against fire is always commendable, but INSURANCE is the essence of wisdom.

The cost of insurance is so small as to be negligible. Its value is only fully realized by those who have been burned out and had no insurance to make good the loss.

When shall we talk to you?
A. J. GALLEMORE
Big Spring, Texas

Better Not Say It!

Bad news travels faster than good news. There is an old saying, "No news is good news." Let a man be converted at a church service and there is not much of a stir, but let a resident be convicted of some crime and the news leaps by word of mouth from one end of the community to the other.

How thoughtlessly unkind we sometimes are when neighbors of ours suffer misfortune! Troubles are bound to come to us all in some shape or form and what we say about our friends and acquaintances today may apply to us tomorrow. News is no respecter of persons.

We are prone to consider the ways of others not our ways when we would be watching our own step. What folks say of one another sometimes hurts more than anything they could have done. News, either good or bad, grows and becomes exaggerated and distorted with peddling. When the news is good it makes no material difference how it is exaggerated or distorted—it can never do anyone positive harm. But bad news, given wings, may bring sorrow and ruin upon people who certainly are not deserving of a punishment beyond the penalty of their mistake.

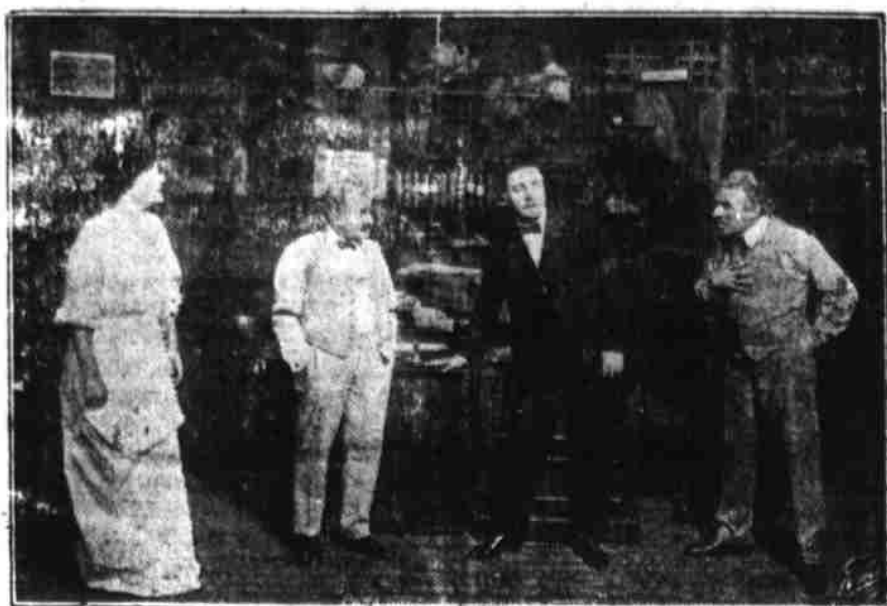

More charity for others will mean more charity for ourselves and we will gradually come to take a keener delight in reporting something good of some person than something bad. Good is constructive, bad is destructive. Just before you are about to let out a bit of "bad news," stop and think a moment. See if you can't think of something good to say in place of it. The chances are ten to one that you can and that you will.

Buy a Lot and Play Safe

Better get in on the ground floor by investing in a good resident lot or two before it's too late. Big Spring has a good chance to get the Texas "Tech". Play safe by purchasing a desirable lot. See me at once. J. F. HAIR.

Frequent Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Va. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Thedford's BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Thedford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when it is torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught. Sold everywhere.

The reformer justifies his existence when he begins on himself.

It is only a fool girl who deliberately makes a fool out of a man.

The Merchant Prince
There was an old geezer
And he had a lot of sense,
He started up a business
On a dollar eighty cents.
The dollar was for stock
And the eighty for an ad
Which brought him three dollars
In a day, by gad.

Well, he bought more goods
And a little more space,
And he played that system
With a smile on his face.
The customers flocked
To him two by four
Soon he had to hustle
For a regular store.

Upon the square
Where the people pass,
He cobbled up a corner,
That was all plate glass.
He fixed up the windows
With the best he had,
And told them about it
In a half page ad.

He soon had 'em coming
And he never, never quit,
And he wouldn't cut down
On his ad one bit.
And he kept things humming
In the town ever since,
Now every one calls him
The Merchant Prince.

Some say its luck—
But that's all bunk—
He was doing business
When times were punk!
People have to purchase
And the geezer was wise—
He knew the way to get 'em
Was to advertise!

—The Fourth Estate.

Cut Worms

As was predicted in late winter, these insects have proved troublesome this spring. Their damage may be expected to increase as cotton appears above ground.

They may be effectively controlled at this time by putting out poison bran mash alongside of garden plants to be protected, or drilling along rows of sprouting cotton or other plants in the field, using a planter from which the shoes have been removed.

Make up the poison mash as follows: Mix, while dry, 25 pounds of wheat bran and one pound of paris green or white arsenic. Mix the juice and pulp of six finely ground lemons with one quart of low-grade molasses and about a gallon of water. Add this fluid mixture to the poison bran mixture and stir. Then add just enough water to make a mash that will be thoroughly moist and yet will readily fall apart when squeezed in the hand. Apply this late in the afternoon or evening.

We have always argued that Big Spring is the best little city in West Texas and we have no reason to back down on this statement.

Paint in small cans for any purpose. Figure with us, Cunningham & Phillips.

T. & P. Shopmen's Strike is Ended.

Settlement of the shopmen's strike on the Texas & Pacific Railroad has been effected, according to members of a committee representing the striking workers which met at a local hotel Saturday afternoon to tabulate the referendum vote of the men. F. L. Organ of Marshall is chairman of the committee and J. O. Tamsitt of Big Spring is secretary.

The proposition for the settlement of the strike has been submitted to the men three times, the last time on April 25, the results of which were announced Saturday night. This last time the mediation was effected thru the efforts of J. S. Myers, State Commissioner of Labor, who acted as conciliator.

It was declared that the basis of settlement will give striking shopmen seeking re-employment preference, and will go into effect immediately. The question of seniority was not discussed according to those present at the meeting Saturday.

The action of the men marks the termination of a strike of shopmen that began July 1, 1922, and which has affected approximately 1,400 men. All points on the Texas & Pacific system were notified Saturday night that men must go back to work, the order affecting shopmen, machinists, boiler-makers, blacksmiths, sheet metal workers, carmen, electricians, and in a few instances, some firemen and oilers.

The principal shops of the Texas & Pacific are maintained at Fort Worth, Big Spring, Marshall, and Shreveport, with shops of minor importance being established at about ten other points.

—Dallas News.

Most everyone of our folks want the Texas Tech located at Big Spring and are willing to do their utmost to secure the location. We must let the world know we want the college and a good way to do this would be to attend the West Texas C. of C. Convention at San Angelo May 21, 22, and 23, with "bells on." We want you there.

When are you going to decide whether or not you are going with the "bunch" to San Angelo May 21, 22 and 23rd? All who expect to go should register at the office of the Chamber of Commerce at once. Other West Texas cities have whopping big delegations lined up to go and Big Spring must not be left in the lurch.

If Big Spring was sure of getting the Texas "Tech" everything would be as fine as we could wish for. With the finest season ever, right at the proper planting time, our folks enthused over the fine prospects for bumper crops and a big building campaign in sight the outlook for an era of great development was never brighter.

Wall paper is an investment that is worth while. Cunningham & Phillips.

F. H. "Happy" Farris, a representative of the Humble Oil Company, was a business visitor here this week.

QUINCY ADAMS SAWYER

The greatest home-folks story ever written, enacted by a cast that has never been equaled on the screen:

Blanche Sweet
John Bowers
Louise Fazenda
Hank Mann
Gale Henry
Billy Franey

Lon Chaney
Barbara La Marr
Elmo Lincoln
June Elvidge
Victor Potel
Edward Connelly

The Thrilling
River Scene:

Blanche Sweet
as Alice; John
Bowers as
Quincy.

Five Famous Characterizations:

Hank Mann as Ben Bates; Louise Fazenda as Mandy Skinner; Lon Chaney as Obadiah Strout; Barbara La Marr as Lindy Putnam; Elmo Lincoln as Abner Stiles.

Adapted from Charles Felton
Pidgin's novel, by Bernard
McConville.

Directed by Clarence G.
Badger.

More than 10,000,000 persons have read Charles Pidgin's famous novel "Quincy Adams Sawyer"—so you may rest assured that the film version will be of extraordinary excellence.

Everybody knows the story of "Quincy Adams Sawyer." Everybody knows and loves its quaint rustic characters. The story of the young lawyer from Boston, Quincy Adams Sawyer; his coming to the small town of Mason's Corner; his experiences in running down a dishonorable scoundrel; his great love affair—all this is part of the attractive novel which is now a screen play. The delightful rural characters are fun-provoking to the extreme, and the fresh, clean, humor will appeal to all lovers of better photoplays.

A lavish production has been given this famous story. To enact the roles in the picture, the entire motion picture industry was searched for its best material. As a result, one of the highest-priced assemblies of talent is seen. WE KNOW YOU WILL ENJOY THIS WONDERFUL PICTURE. YOU CAN'T AFFORD TO MISS IT.
