Sun Donates Buildings To Hospital District

Sun Oil Company officially donated their vacated office buildings located at 1325 Westpoint to the Mitchell County Hospital District Tuesday.

These buildings were vacated about a year ago when the company reorganized and consolidated the personnel located in Colorado City into the Midland and Oklahoma City Offices.

Sun Oil Southwest District Manager Robert Beggs and General Services Supervisor Elton Ramsey, both of Midland presented the deed for the property to President of the Board of Directors of the hospital Murrell Blassingame after a brief tour through the 43 room structure.

The building sets just back from Business High-

way 80 on a 48,000 square foot lot (a little more than an acre) and contains 10,000 square feet of floor space.

There is a small communications building located just behind the larger structure which was included in the donation. This building will continue to be used by Sun Oil as a communications building and they will pay the Hospital

District rent on the space.

"We are very glad to donate this building to the Hospital District. In the 30 years our company has been located here we have had extremely good relations with the people of Mitchell County," Beggs stated.

He noted there were still several employees of the company residing and working in the Mitchell County area.

"This hospital has delivered a great many Sun babies and many of our retired employees liked it here so well, they still live in Colorado City," Beggs said.

He commented there are several Sun Oil fields still producing in the area and he anticipates, if the oil companies get a price break, they will continue to produce and be operated for another 20 years.

In regard to the price break, Beggs explained his viewpoint, was not necessarily that of Sun Oil but he believes the public needs to be better educated on the oil business. "We have stock holders who are entitled to a fair profit," he commented.

He noted the fields in this area have technical problems that will cost great many dollars to correct. He continued, a company can only afford to stay

with a piece of property that is losing money for a limited period of time before it is necessary to go on to something else that will show a profit.

He indicated that certain wells in this area could be repaired with possible increased production. Wells that for the past two years have lost money could be brought back into production with necessary costly repairs.

The government has made so many rules and regulations that it is costing vast amounts of money just to keep up with the paper work. He indicated there are currently 28 different varieties of oil produced by Sun although all the oil is exactly the same.

These varieties of oil are determined by when it was drilled, how it was drilled and where.

The public is being informed by a group of politicians who know very little about the oil business, he said. It seems when the government wants any information on a subject they go outside to persons who know little of the actual problems involved, he stated.

He indicated the oil companies have had great difficulty in reaching the public with the necessary because of the "I can't know things about all business and it is not right to

expect the public to know but it is time they decide if they want free enterprise (on which this country was founded) or socialism (which we are rapidly approaching), he said.

This country would never stand for socialism if it were called that but the politicians with their bureaucracy are slowly stealing the rights of the people, he said.

Another bureaucracy is formed to serve a particular purpose and it perpetuates itself, going far beyond the original specifications. Voters never come back to look at what is being done and say stop, we didn't ask you to go beyond this point, Beggs said.

He stated Sun Oil is interested in the people of this county.

"We considered selling the property or moving the building and taking it apart to make several buildings. Because this area has been so good to us we decided to donate it in hopes the whole county could derive some benefit from it," he said.

Blassingame noted some of the possible uses for the building. The hospital district

use office spaces in part of it, he stated.

YOUR COAT, HARVEY, says Elwood P. Dowd (Kent Womack) in this scene from "Harvey" the story of Dowd and his constant companion, a 6-foot, 3 and half inch tall rabbit who is invisible to some people. Harvey is portrayed by himself. The comedy goes on stage at the Colorado City Playhouse for six nights starting Thursday, August 2 and continuing through Saturday August 4, and then again on Thursday through Saturday, August 9-11.

NURSE KELLY (Paula Chastain), left, attempts to find out just who is crazy in this scene from the upcoming Colorado City Playhouse production of "Harvey". She is talking with Veta Simmons (Mario Jackson) who is attempting to commit her brother, Elwood P. Dowd, to Chumley's Rest.

Vandalism Is On Increase

A semi-annual report released Tuesday by the Colorado City Police Department revealed a slight increase in accidents and a sizeable increase in vandalism in Colorado City during the first six months of 1979 over the same period last year.

The report stated that up to June 30, there were 101 accidents here with about \$40,000 worth of damage. Broken down, this included 90 minor accidents, 11 major accidents and one fatality.

Through June 30, 1978, the city had 96 accidents

which included minor mishaps seven major accidents and no fatalities.

The damage for those accidents was only \$19,000, however, as compared with the \$40,000 given above for this year. Assistant Police Chief Jerry Cowin stated that the difference in the damage figures was due to the fact that there had been more demolished cars this year.

Vandalisms showed a sharp increase both in the number and in the amount of damage.

Through June 30, 1979 there were 20 cases of

vandalism reported with about \$4,000 worth of damage as compared with 14 cases last year and about \$1,200 worth of damage.

Cowin stated that a large part of the vandalism damage this year had come from the destruction of houses that were already vacant.

Both last year and this year, there had been four of the vandalism cases cleared through the first six months.

Crimes against persons here decreased from 19 in 1978 to 11 in 1979.

The 19 crimes of this type in 1978 included 14 assaults, two robberies, one sex offense, one rape and one attempted murder.

The 11 crimes given above for this year include 10 assaults and one rape.

Another area in which the report revealed that crime was down slightly was property crimes which includes burglary and arson.

Through June 30, 1979 there had been 64 of these type crimes reported here with 25 being cleared. In the same period of 1978 there were 67 property crimes with 25 being cleared. In both years there was about \$10,000 worth of damage reported to the property involved.

There has been one reported case of arson here this year with about \$200 worth of damage. There were none reported in 1979.

Director To Aid Grant Program

A welcome visitor came to City Hall Tuesday morning in the person of Irma Facundo, Director of Planning with the West Central Texas Council of Governments.

Facundo, originally from Laredo, works out of the Abilene Office.

Her principal duties are to assist local governmental bodies in preparation of grant applications.

Center Is Step Closer

One more step toward construction of a 2.5 million dollar shopping center has been brought Phase I of the project closer to realization.

The City Council met Tuesday afternoon to hold a public hearing. The purpose of the hearing was to give interested persons a chance to express views on how funds from a federal grant should be used.

The council has proposed the grant be used to extend utilities to the new shopping center.

No protest or public opinions were expressed during the hearing and the council voted to submit an application for \$156,329 to UDAG to extend utilities to the Town Center.

A review of all applications is made by WTCOG to insure they meet federal requirements and conform to regional needs with no overlapping in funding before they are presented to the federal government.

Facundo was here at the request of City Manager Ray Mason to check the fine points of an application to the Urban

Development Grant program requesting assistance in extending utilities to a proposed shopping center.

She comes highly qualified, holding a masters degree in Urban and City Management and practical experience including a tenure with the governor's public internship program with the Council of Governments in Laredo and again in Houston. She received a fellowship award while there and spent two years working with the "White Settlement COG in Fort Worth before moving to the Abilene office.

Best man was Kenneth Merket, father of the groom.

The bride's table was laid with a white linen cloth centered with an arrangement of summer flowers. A three tiered wedding cake, lime punch, shaped mints and nuts were served from crystal and silver appointments.

The groom's table was covered with a green and white checked cloth topped with a crocheted cloth make by the bride's grandmother. German chocolate cake and coffee were served from a silver coffee server.

Guests were registered by Tanna Merket of Longview, sister-in-law of the groom.

Tanna Merket, Joann Henson, cousin of the bride, Lisa Fullwood and Lee Ann Chancellor served at the tables.

After a honeymoon trip to the Fort Worth-Dallas area, the couple will make their home in Lorraine.

Cooper To Speak Sunday At First United Methodist Sunday

Mrs. Joyce Cooper will be the special mission speaker Sunday at the First United Methodist Church during the morning worship hour.

Mrs. Cooper is a teacher from the McCurdy School in Espinola, New Mexico. The school is a project of The Board of Global Ministries of the United Methodist Church. It seeks to fill the need for an academic program which can prepare young people to complete with others from anywhere in the country, freeing them from the bonds which tie them to lives of low-paying jobs and isolation.

This training is done in an atmosphere designed to create an awareness of the fullness of life that come from knowing oneself as a child of God and accepting this relationship personally. Chapel programs, religion classes, morning devotions, and significant relation-

ships with staff members all provide an influence that feeds the soul as well as the body of McCurdy.

McCurdy accepts students without regard for ability to pay, often from broken homes, homes where there are family problems, and any other situation where a home-away-from-home is needed.

Mrs. Cooper was commissioned as Deaconess of the United Methodist Church in May of 1974. She has taught the fourth grade in Espinola since that time. A native of Rockwood she had taught school in Snyder for sixteen years. She is the mother of two sons and a daughter. She holds a B. S. Degree from McMurry College.

NOTICE

IF YOU SMELL NATURAL GAS, FOLLOW THESE 3 STEPS TO SAFETY.

The natural gas industry has an excellent safety record.

The fact that you can smell natural gas is because we add a harmless chemical to it as an extra safety feature. Otherwise, it would be completely odorless. If you detect faint whiffs of what you think may be gas, investigate. It may be something that is as easily and safely corrected as a pilot light that has gone out, or a burner valve that's partially open.

If your equipment seems to be working properly and the odor intensifies and seems to be everywhere, please follow these precautions:

1. Do not switch anything electrical on or off. Do not use the telephone in your own home. Do not strike a match. Do not do anything that might cause a spark.
2. Have everyone leave the house immediately, leaving doors open to help ventilate.
3. Go to a nearby telephone and call Lone Star Gas Company. Wait until we have found the source of the odor to determine whether it's safe for you to return to the house.

You may never have a natural gas leak, but we want you to be informed in case one does occur. Please make sure your family is aware of these precautionary steps. And we suggest that you keep this message for future reference.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN While President Jimmy Carter is shaking up his administration, Texas Democrats are busy selecting a method of picking delegates to the 1980 presidential nominating convention.

Some party leaders favor a presidential preference primary like the Texas Republicans are going to have. Others favor picking national convention delegates through the state convention route. The State Democratic Executive Committee is scheduled to approve an official plan on July 28, and many Capitol insiders feel the decision is more important than is generally believed.

Mrs. Carrin Patman of Ganado, Chairman of the SDEC rules committee, says she is convinced SDEC will vote for a convention plan but leave room to add a nonbinding presidential referendum to the primary ballot to be used as a guide at the state convention. The plan is a reasonable compromise between those who want a binding primary and those who don't want any kind of presidential contest on the primary ballot.

State Sen. Oscar Mauzy, D-Dallas, is among the Democrats who favor a binding primary in which delegates would be apportioned according to popular vote.

During a Dallas County hearing last week, Mauzy argued that failure to hold a primary would signal the voters that Texas Democratic Party was heading back to the days when decisions were made in "Smoke-filled rooms" and by manipulating the precinct-to-state convention process.

State Rep. John Bryant said "it would be a very bad mistake" to not hold a primary. The Dallas legislator said Democrats would be hard-pressed to explain to voters why the party is not holding a primary when the Republicans are gearing full steam for theirs.

One reason the Republicans are so eager to hold a primary which they feel will attract a significant number of conservative Democrats to cross party lines is they are proud of three Texas Republicans: announced presidential candidates John Connally and George Bush and dark-horse Gov. Bill Clements, often mentioned as a vice presidential choice should Connally and Bush both falter.

Clements has refused to take sides in the primary matter, at least publicly. A possible Clements opponent in 1982, Speaker of the House Bill Clayton also refuses to take a public position other than neutral in the issue of the Democratic primary. Clayton, by the way, attended the Southern Legislators' Conference in Louisville, Kentucky last week with Reps. Dan Kubiak, Bill Presnal and Bob Davis.

Education Shake Up

Dramatic changes have already taken place in the state's public education system and more changes may be ahead.

Texas Education Agency Commissioner Marlin Brockett announced he will retire

later this year, and two deputies will leave with him.

Gov. Bill Clements has appointed a special advisory committee on education to study the public education system. He campaigned last year with a promise to return to basic education in Texas. Recently he has stated it may be necessary to

change the make-up of the State Board of Education from an elected one to one appointed by the governor with Senate confirmation.

Legislation to phase out the elected officials will have to be introduced in the next legislative session if Clements decides to go ahead with the plan.

Public Not Allowed

Clements' new committee met last week and ran into a collision over the open meetings law with a House Education Committee official.

Saying the public was not allowed to attend,

Clements' office manager Allen Clark asked Education Committee Clerk Rock Fritz to leave a meeting of the governor's advisory committee. Allen said the committee wanted to talk "about personalities, assigning people to committees."

Fritz checked with the Texas Attorney General's office for an opinion on whether the Texas open records Act applies to advisory panels and was told the law was not clear.

Farmers Seek Explanation

Leaders of an agriculture group said Agriculture Commissioner

Reagan V. Brown didn't go far enough last week in explaining why he refused to back a proposed agriculture products commission to advise the governor. The group also charged Brown made ethnic and racial slurs when he lost his temper in a meeting with them on the issue.

Brown subsequently apologized publicly to black leaders for the slur he felt was made in a private meeting in his office.

The farmers later met with Clements and said he told them he would consider forming the advisory agriculture group

Physicals Due For Gridders

the same time. They will be given their physical by Dr. Pat Thomas.

Players who are unable to show up for the physicals should call Ramsey at 728-5908.

Church Meeting

The Crockett and Smiley Street Church of Christ in Loraine will be conducting a meeting beginning July 29 and will continue through August 3rd.

Alvis Fisher of Brownwood will be the guest speaker for the services.

Services will begin each night at 8 p.m. Sunday services will begin at the regular time, morning service at 10:30 a.m. and the evening service at 6 p.m.

Everyone is cordially invited to attend.

Braves In Tourney

As of Tuesday night the Braves of Colorado City Junior Teenage League were still alive in the regional junior teenage league tournament at Sweetwater.

The Colorado City team took their first game Monday night from Clyde by a score of 11-5. Tim Nobles was the winning pitcher.

The Braves played Snyder Tuesday night and were defeated 12-3. The tourney is a double elimination affair and Colorado City was scheduled to play Sweetwater at 5 p.m. Wednesday. That contest was played after the Record went to press.

They will review the application to UDAG and suggest any proposals or changes they feel necessary or advised.

In other business the council opened bids requested on the sale of a 1964 4,000 Heavy Duty Industrial Ford with front end loader and 12 inch back hoe.

Felix Franco Sr. and Felix Franco Jr. bid \$4,200 for the machine. James Light bid \$375.

The council voted to accept Franco's bid.

Monies from the sale will be placed in the water and sewer department budget. \$2,750 of the money has been previously designated to replace and repair the sidewalk around Costin Implement.

Moore, Franco Take Net Meet

The doubles teams of April Moore-Tony Franco and Tracy Rees-Tim Nobles emerged as the Division "A" and "B" winners in the Colorado City mixed doubles tennis tournament played at the middle school tennis courts this past weekend.

There were eight teams competing in the "A" Division of the tourney and 10 teams playing in the "B" Division.

In the "A" Division Moore and Franco took their title as a result of a first round win over Rod Reeves and Angle Neff (6-1, 6-1) followed by a second round victory over Jackie Palmer and Bill Reilly. (6-1, 6-1).

Moore and Franco took on Chop Love and Diane Kelley in the championship match and again came out on top in sets of 6-1, 6-3.

Kelley and Love advanced to the championship match with wins over Tracy Rees and Tommy Aguillon in the first round (6-1, 6-3) and Nancy Gierhart and Freddy Alvarez in the second round (6-2, 6-3).

* GRANT, From Page 1

The organization serves as a regional planning and service commission and is a voluntary association.

The objectives of this council is to encourage and assist local governments to join and cooperate with each other to solve mutual problems and meet common needs through intergovernmental coordination and planning, according to County Judge Bill Carter who is on the 1978 Board of Directors of COG as is S. L. (Mac) Morris, representing the school district.

It assists in such programs as rural nutrition, senior citizens centers and activities, rural development, improv-

ing utilization of human resources through training of school dropout prone youth, a program called Comprehensive Employment And Training (CETA) and many others.

WTCOG assisted twelve local criminal justice agencies in the development and administration of grant programs during 1978.

A resident engineer is available to offer advice and service upon request.

All of these services are free of charge.

Carter noted that COG had recently received some bad publicity be-

cause smaller communities had not received what they thought to be their fair share of federal funded programs.

He stated, however, he had been very successful in receiving assistance, and indicated the existing senior citizen's programs, nutrition programs, law enforcement communications assistance, alcoholism outreach, community planning, criminal justice assistance and engineering assistance.

This is a valuable organization and we must all put forth our best efforts to make it work properly, he said.

Softballers To Play Monday

With a little luck and some sunny weather, the Mitchell County Mens' Church League Softball Tournament will resume play at 6 p.m. Monday.

The event has been in limbo since July 17. Play has been postponed since that time, first because of rain and then because of other activities involving six individual players.

At present 10 of the 13 teams are still in contention for the tournament title. The Church of Christ B, St. Ann's C and Calvary B teams have been eliminated.

If there are no more postponements, the meet is due to end with either a 9:30 p.m., or 10:30 p.m., contest Wednesday.

The following is the schedule for the re-

mainder of the tournament.

Monday: 6 p.m. St. Ann's B vs First Methodist; 7 p.m. Calvary A vs. Baptist Mission B; 8 p.m., Oak Street Baptist vs. Baptist Mission A; 9 p.m., Loraine Baptist Church of Christ A; 10 p.m., First Baptist vs. St. Ann's B or First Methodist.

Tuesday: St. Ann's A vs. Calvary A or Baptist Mission B; 7 p.m. Oak Street, Baptist or Baptist Mission A vs. Loraine Baptist or Church of Christ A; 8 p.m. teams to be determined; 9 p.m. teams to be determined; 10 p.m. teams to be determined.

The final contests of the tournament will be played at 8:30 p.m., and 9:30 p.m. Wednesday. There will also be a 10:30 p.m., contest if it is necessary.

Medical Training To Be Offered

Opportunity for emergency medical training will be offered in Mitchell County starting August 27.

This will be a complete course in emergency medical treatment. Persons who complete the course will be eligible to be licensed by the state as emergency medical technicians.

Ray Dillard and Joe Stockton, will be instructing, with classes to be held Monday and Thursday from 6-10 p.m.

This is a three month course with 40 hours in hospital training. These 40 hours will include eight hours in surgery at Root Memorial Hospital and three shifts, eight hours each, in emergency room at Hendrick Memorial Hospital in Abilene.

Training will include basic and some advanced air-ways mana-

gement (basic life support systems with some mechanical aids).

Also included will be emergency child birth management of bleeding, trauma victims and trauma scenes.

Completion of this course is a pre-requisite for eligibility as a paramedic (this requires at least 1 and one half years more training).

Tuition for the course will be determined by the number of students enrolled.

Pre registration deadline is August 20. Anyone interested in the course should call 728-5075 and add their name to the pre-registration list.

Library Films

The films to be shown at the Mitchell County Public Library at 2:00 p.m. Saturday, are as follows:

Dream Of Wild Horses: This film utilizes slow motion to create dreamlike effects that evoke the wild horses.

Christmas On Grandfather's Farm: Children and grandchildren spend an old-fashioned Christmas with grandparents at the big farmhouse. It shows grandpa reading the biblical account of the first Christmas, twinkling candles, and the homemade gifts.

Animals Can Bite: The film teaches how to minimize the chances of being bitten and what to do if they are. Children learn to be more aware of animals and treat them with respect.

Now that temperatures and electric bills are up, your air conditioner needs all the help it can get.

Hot summer temperatures make your air conditioner work longer and harder. That's what drives up your electric bill.

But there are some things you can do to help. Change or clean your air conditioner's filter to let air flow freely. And trim grass and weeds from around the outside unit for good air circulation.

Inside, close blinds and drapes to help keep out the heat. And try to

cut down on the number of times you open doors — an open door lets hot air rush in.

Keep your thermostat set at 78° or higher.

To feel cool at this temperature, use a small portable fan to circulate air in the room.

For more ways to cut down high summer electric bills, get Texas Electric's free energy tips booklet. Just call Texas Electric or ask for the booklet on the comment portion of your bill.

Wolves Picked To Finish Third

The Top-O-Texas Football Magazine, just out on the newstands, has picked the Colorado City Wolves football squad to finish third in the District 6-AA grid race this fall.

The magazine which predicts that the Wolves will finish behind Coahoma and Abilene Wylie says, "New grid mentor Tom Ramsey is going to have to start from scratch. He only inherited one defensive starter and four lettermen. So the Wolves will have to rely on team quickness."

The magazine gives lots of hope for the Wolves to have a strong finish and it notes that they will play both Stamford and Coahoma in Colorado City.

It concludes by saying, "If the pack doesn't win it this season, look out for '80 because they will be loaded again."

The magazine ranked the top 10 class AA

schools in districts one through seven and two of the Wolves opponents were ranked in this top ten.

Slaton, with whom Colorado City will open the season on September 7, was ranked third and Coahoma was picked as number seven.

Texas Football Magazine also gave a quick run down of the Wolves 1979 district title chances stating that "Super quick tackle Brit Chaney returns to lead a talented group from last year's junior varsity which features center Johnny Lowrance, Halfback Doug Johnson and Running Backs, Mark Piland and Jay Green. Russell Noel returns on offense as Colorado City relies on attitude,

strength numbers and a winning edge to pull it through in '79."

After saying all this however, the magazine picked Coahoma to win the district.

USGA Girls To Play Sweetwater

Girl's Softball League Division I will scrimmage Sweetwater girl's All Stars Friday from 7-9 p.m. Division III girls will scrimmage Sweetwater girl's All Stars from 9-11 p.m. at the girl's softball field in Ruddick Park.

Hot dogs and cokes will be sold at refreshment stands and a cake auction held during intermission.

Proceeds will go toward paying expenses of the team when it travels to Abilene to compete in the State tournament August 2, 3 and 4.

About \$140 was raised toward those expenses Saturday, by the girls as they washed cars on the

First Methodist Church parking lot.

Almost \$800 worth of \$1 tickets for a free shopping spree held July 25 at E-Z Way Superette, were sold. The drawing held at E-Z Way at 8 a.m. Wednesday was won by Jeane Hudson. She was out of town and unable to attend the shopping spree at 10 a.m. Wednesday. Her mother, Dorothy Hudson, shopped in her place.

During the five minutes of uninterrupted shopping, she filled her cart with \$113.47 worth of groceries.

At Jeane's request, this amount of money was donated to the Girl's Softball League.
