BIG PACKAGE OF TROUBLE FOR TECH—Forty-two members of the Baylor Bears squad arrived at Municipal airport this morning for the Red Raider-Bear football tussle at Homecoming Saturday afternoon. Here the husky squad members disembark from a Braniff DC-4 in which they flew from Waco this morning. (Staff Photo).

Tech Homecoming Launched

By OPAL DIXON
Journal Staff Writer

As Texas Technological college opened its 1949 Homecoming celebration today, a Silver anniversary celebration in 1950 loomed as one of the topics to come before the Ex-Students association council for discussion.

In a meeting at 3 o'clock this afternoon in the speech auditorium, the council was to discuss ex-student participation in celebration of the 25th anniversary of the college.

Executive Group Meets

Following the preliminary business session of the council and a session of the executive committee at 10 a. m. today, general

TICKETS ARE AVAILABLE

Need some Tech-Baylor football game tickets?

You still have a good chance to get general admission tickets for the end zones and a bare possibility of obtaining reserved seat tickets.

Approximately 1,800 general admission tickets still were available this afternoon and were being sold to ex-students asking for them. At 8 o'clock Saturday morning, those left will go on sale to the general public and to any ex-students who still need tickets, said Morley Jennings, athletic director.

Reserved seat tickets were held for ex-students until Oct. 1. After that date, the reserved seat tickets were released to the public but end zone tickets were held so every ex-student wishing to attend the Homecoming game could still obtain a ticket.

The public will be given opportunity at 10 a. m. Saturday to buy reserved seats held and not claimed by that time.

Extra bleachers in the end zone will make it possible for between 18,000 and 18,500 persons to see the game.

Homecoming events will open with a pep rally in the gymnasium at 7:30 o'clock tonight, followed by a bonfire and rally south of the gymnasium.

College cheer leaders, headed by Jimmie Carter and Glena Winston, will direct the program at the rally. Freshmen have guarded the bonfire pile the last two nights.

Reunion To Be Held

At 8:30 o'clock tonight, a reunion open to all men and women ex-students will be conducted in the green room in the recreation building, south of the administration building.

Saturday events will include registration, a parade, buffet luncheon, Tech-Baylor football game, entertainments by organizations and a Homecoming dance.

This morning's executive committee session was conducted in the Ex-Students association office in the administration building for purpose of reviewing business to be presented to the council at its session this afternoon.

Executive committee members present were Hurley Carpenter of Lubbock, president; Wayne Sellers of Fort Worth, second vice presi-

Maximum humidity 90%; minimum humidity 31%; humidity at 2:30 p. m. today 31%.

Little or no dew expected tonight.

5 Cars Found In Excavation

A school bus and four automobiles were stolen here in the night and driven down a dirt ramp into a basement excavation on the campus of Texas Tech, the police were informed this morning. None was damaged.

Whether the offenses were the work of pranksters or drunks, the police were not ready to say.

"We're investigating," they explained.

Jerry Hoover, desk sergeant, said the school bus and two of the cars are new.

Cause Work Halt

A workman engaged in excavating for a south wing to the Tech administration building telephoned Hoover at 8:08 a. m. He couldn't commence work with his power shovel because "a school bus and four cars are in the hole in my way. I'd appreciate it..."

Not all the owners had reported the thefts at that time.

One of the cars, a 1949 Plymouth, was stolen from John Huekabay of 2302 Broadway; a 1949 Ford from Buddy Crutchfield of 2319 Thirteenth; a 1939 Chevrolet from Hardy Scott of 2401 Fifteenth; a 1936 Chevrolet from Leo Southern of Tech dorm 4, and the school bus, a 1949 Chevrolet, from Ray Farmer. The bus was parked on Tech campus when taken, according to its driver, Hub Hicks of 509 Thirty-eighth.

Keys had not been left in any of the vehicles, so far as police knew.

Ignition switches were "wired around" by thieves in some of the cases, Hoover said the police had been informed.

A 43-year-old negro, Neely Robinson, was held by police for in-

Hopes High For Son Kidnaped Five Years Ago

Tests May Help Tell Whether Couple Are Parents Of Boy, 6

(By The Associated Press)

ANN ARBOR, Mich., Oct. 14.—Science went to its test tubes today to help solve the riddle which harasses Mr. and Mrs. Arthur Thompson.

Blood tests were to tell whether the Dayton, Ohio, couple might be the parents of six-year-old William Thomas O'Neill.

The Thompsons were in some ways nearly convinced, in others afraid to hope that "Tommy" is their own son, Ronald.

Physical similarities were striking.

"Our hopes are high," said Thompson, "but we aren't saying anything until we're sure."

Their baby boy, Ronald, was kidnaped five years ago. Since then the Thompson have waited prayerfully for his return. The present investigation developed as the result of a recent newspaper story.

Yesterday Mrs. Thompson clasped blond, blue-eyed Tommy in her arms.

"Something inside me seems to tell me this is my child," she said.

But even to that moment, there was no certainty of it.

Again, the Thompsons' hopes were dimmed by a police report last night from Dayton on a fingerprint comparison.

Police Chief M. C. Kirkpatrick said that Tommy's finger-

Attorneys Are Facing Prison For Contempt

Eleven Defendants Are To Learn Fate Early Next Friday

(By The Associated Press)

NEW YORK, Oct. 14.—A federal jury convicted 11 top-ranking American Communist leaders today of conspiring to teach overthrow of the U. S. government by Force.

The 11 defendants, all members of the communist national board, were remanded to jail to await sentencing next Friday at 10:30 a. m. They face sentences up to 10 years in prison and $10,000 fine each.

Were Free On Bail

Eight of the defendants had been free on $5,000 bail.

Immediately afterward, Federal Judge Harold Medina found five of their lawyers guilty of criminal contempt during the nine-month trial and sent them to jail for terms varying from 30 days to six months.

Eugene Dennis, a defendant who acted as his own lawyer, also drew a six-month contempt sentence.

Thus ended, after seven hours of jury deliberation that began yesterday afternoon, a strife-ridden trial unprecedented in American history.

Certain To Appeal

It was hinted during the trial that conviction of the leaders, who are certain to appeal to the U. S. Supreme court, might drive the Communist party underground in this country.

William Z. Foster, national chairman of the party, faces trial later on the same charge. He was indicted with the 11 others but was granted a postponement because of a heart condition.

A dead, shocked silence greeted the verdict. There was no demonstration. The defendants and their lawyers leaned forward eagerly, then sat back, impassive, when the word "guilty" was pronounced.

Defense Attorney Harry Sacher demanded and got a poll of the jury for the verdict against each defendant.

Crowded And Tense

The walnut - packed federal courtroom, scene of many a jangling outburst since the trial began last Jan. 17, was crowded and tense when the eight women and four men of the jury filed in at 11:28 a. m. (EST).

Speaking firmly, the foreman—Mrs. Thelma Dial, a negro — announced: "We find each and every one of the defendants guilty."

Besides Dennis the defendants in the trial were:

Jacob Stachel, 48, director of the propaganda and education division.

Gilbert Green, 43, Illinois, chairman.

John Gates, 36, editor of the

Ex-Sandie To Face Charges

AMARILLO, Oct. 14 — (U.P.) — Dwight Hoskins, 24-year-old one-time Amarillo High school football star, was held without bond today, charged in the robbery-murder of Charles Lee Freeman, crippled attendant at a filling station.

Sheriff Paul Gaither said a second man was expected to be taken into custody in the case.

Crippled Man Shot

Freeman, Crippled by polio, was shot to death in a $31 robbery at the filling station eight days ago. An Amarillo newspaper offered $1,000 reward for the capture of his slayer.

Hoskins was arrested and charged yesterday. He was a star on high school football teams here in 1941 and 1942.

Gaither said he had linked Hoskins with a foreign-made automatic pistol. A woman friend of the charged youth took officers yesterday to a place near the Canyon, airport and showed them where she had buried a Luger. She said Hoskins brought her the gun the morning Freeman was slain and asked her to dispose of it.

Fired Into Back

He returned and took possession of the gun again, she said, but later handed it to her again. She buried it after his second visit, she told Gaither.

Buried with the 9-milimeter

Labor Battle Is Asked

Stalin Cheers East Germany Into "Fold"

Early Treaty Predicted In Red Zones; Regime Called Turning Point In History

(By The Associated Press)

BERLIN, Oct. 14—Joseph Stalin today told East Germany's new Communist republic that the Germans and Russians together could keep Europe peaceful by fighting as hard for peace as they fought in war.

Stalin's message of congratulations to East Germany's Communist leaders brought predictions from pro-Soviet sources here that the Soviet bloc would sign peace treaties with the new Red satellite by January.

Drafts Are Prepared

These sources claimed tentative drafts of such treaties already have been prepared.

Stalin's congratulatory message last night to East Germany's President Wilhelm Pieck and Chancellor (Premier) Otto Grotelwohl called establishment of the satellite regime a "turning point in the history of Europe."

He declared that the Russian and German peoples made the greatest sacrifices in World War two.

"If both peoples," Stalin continued, "will show the same determination to fight with the same intensity of effort for peace with which they waged war, then peace in Europe can be regarded as secure."

Given Prominent Space

The statement was distributed here by Adn, the official Soviet news agency. It was given prominent space in Moscow newspapers today.

"There is no doubt," Stalin said, "that the existence of a peace-loving, democratic Germany, along with the existence of a peace-loving Soviet union, excludes the pos-

RED ASSEMBLY PASSES LAWS

Controls Clamped On Czech Churches

(By The United Press)

PRAGUE, Czechslovakia, Oct. 14. — The Communist-dominated National Assembly passed unanimously today two new bills to clamp rigid state controls on the Roman Catholic church.

The church control bills become effective Nov. 1. Informed observers said their passage meant the crisis had come in the long and bitter struggle between the church and state.

The assembly voted after hearing two leaders of the anti-Catholic campaign plug the bills and denounce the church. They were Justice Minister Alexej Cepicka and Josef Plojhar, excommunicated priest.

No Opposition Vote

No opposition vote was cast. No pro-church speech was made in the debate.

The new laws were keystones in the government campaign to stamp out church resistance to communism. They had the effect of:

1. Reducing the clergy to the status of civil service employes.

2. Putting all church affairs under the control of a government official.

Action Not Surprise

Neither the presentation of the measures nor their approval came as a surprise. The government announced last summer after its struggle with the church had reached an apparently irreconcilable stage that it would present laws giving it control over the church.

By coincidence or otherwise the assembly action came after 10 days of a wave of arrests in Czechoslovakia which was understood to have sent thousands of persons to jails or concentration camps.

Reliable sources said some of the business and professional men arrested in the drive were being sentenced to forced labor camps without trial.

Informants said the sentences ranged up to two years. How many persons were sent to camps was not known. Estimates of the number arrested in the campaign against the Czech middle class ran as high as 40,000.

Former Solon Named As Idaho Senator

BOISE, Idaho, Oct. 14. (AP)—Former Senator Henry C. Dworshak, a Republican, was appointed United States senator today, succeeding the late Sen. Bert H. Miller (D-Idaho).

Gov. C. A. Robins, a Republican, announced the appointment of the 55-year-old former Burley publisher who was defeated for re-election by Miller last November.

Miller died in Washington last Saturday and was buried here yesterday.

MOTION IS DENIED

NEW YORK, Oct. 14. (AP)—Alger Hiss' motion for transfer of his second perjury trial to Vermont was denied today.

MP At LAFB Sent To Jail

John Charles Sluss, 26, described by arresting officials as a military policeman at Lubbock Air Force base, was fined $25 and county court costs and sent to jail for 30 days this morning for aggravated assault upon his wife Earnestine, who had arrived here only a few hours earlier from Shreveport, La.

Two of the woman's children, 4 and 2, were in the hotel room with the man and woman when hotel officials called the sheriff's department and reported a disturbance there.

Other Cases Considered

Judge Walter Davies and the county attorney's department occupied themselves with other aggravated assault cases, as well.

Al Hays, 27, a negro who Jan. 11 had been fined $200 and court costs and sent to county jail five months on a plea of guilty of aggravated assault by knifing Ray Hall, pleaded innocent of a similar charge. The state accuses him of having stabbed Johnny Mack Gardner Saturday night. Bond of $500 was set in the case.

Bond of $400 was set for Charles Neff, about 25, charged with aggravated assault on a woman, Rosemary Noah. The woman said she and her husband were assaulted by two men after a traffic incident Saturday night. A simple assault charge was filed against the other man, Hugh Daniels, about 25, in the court of C. E. Lynn.

Hitchhiker Gets Surprise Of Life

A ride is a ride regardless of the mode of transportation.

That was the belief of Tech student Larry Tackett as he was hitchhiking to his home at Panhandle today.

A taxicab, driven by Kelly Hinkle, pulled alongside the hitchhiker and Pat Crow, of Amarillo, asked him if he wanted a ride as far as Amarillo.

"You bet," the surprised Tackett answered, expecting to be carted to the Panhandle city in a cab.

"Well, hop in," answered the attractive woman, "and you can ride with me in my airplane."

The astonished youth left Municipal airport shortly after 1 p. m. in an Amarillo-bound private plane piloted by Joe Price.

Argued Over Disposing Of Burglary Loot

Man Stabs Brother Who Tried To Prevent His Crime Career

SMITHTOWN, N. Y., Oct. 14. (AP) — Because Edward Hill wanted his kid brother to go straight, he is dead, and his brother, Wilbur, faces a homicide charge.

That's the story put together by police today after Wilbur, 24, was arrested last night in a midtown Manhattan hotel.

Edward, 28, a Brookhaven, N. Y., trucker and war veteran, was found slashed to death Wednesday night beside Jericho turnpike near here on Long Island.

Wilbur, booked on a homicide charge, was quoted by police as saying he stabbed his brother because the latter reprimanded him about some burglaries.

"I was out with Ed Wednesday night," police quoted Wilbur, "and he found some loot that I had in his truck. We got to arguing. He told me to throw it out and I didn't want to. He pulled up the truck and hit me in the nose. I took the knife and stabbed him."

John L. Calls On AFL To Aid In Steel Fight

Mine Leader Says He'll Put In $250 Thousand A Week

(By The Associated Press)

WHITE SULPHUR SPRINGS, W. Va., Oct 14—John L. Lewis of the United Mine workers proposed today that the AFL union join with him in providing the striking CIO steelworkers with $2,500,000 a week for an indefinite time.

Lewis made a sudden bid for labor unity in two major strikes by writing to William Green, president of the AFL.

Lewis proposed that nine of the AFL unions and his own United Mine workers each contribute $250,000 every week to the CIO.

The mine leader, whose own 400,000 soft coal workers have been on strike since Sept. 19, said this financial credit would enable the steelworkers "to win beyond peradventure."

Major Drive Urged

In a letter to Green, Lewis urged the AFL president to "subordinate every other consideration and rise to meet in this fashion the giant adversaries which would decimate the major units of organized labor."

In this way, Lewis who has fought both Green and Murray in the AFL and CIO, appeared to be making a tremendous bid to bring all of the major labor organizations into a drive to fight what he called yesterday "a combination" of powerful steel and financial interests to break down unions.

Lewis and his 600,000 member unions, were in the AFL until 1936, when he led the movement to organize mass production industries. Lewis and his vice president, Philip Murray, were instrumental in organizing steel, autos, rubber, electrical manufacturing, and other large-scale employing industries. But he was tossed out of the AFL for his efforts.

Bid Shades Negotiations

In 1940, Lewis quit the presidency of the CIO which he created as a federation of the mass unions in a fight over White House politics. Murray succeeded him and Lewis eventually unseated Murray as vice president of the miners.

Two years later, Lewis left the CIO. In 1946, he took the miners back to the AFL, but after a quarrel over the Taft-Hartley act, he "disaffiliated" a year later.

Lewis' bid for unity among labor pressed into the background for the moment the negotiations he is conducting here with northern

Rice To Curb Frosh Hazing

HOUSTON, Oct. 14 (U.P.)—Rice institute moved today to curb the old college practice called "hazing" by naming a special committee to quell broom-beatings, bomb explosions, molasses showers and other forms of "personal humiliations."

The extra-curricular activities had been too frequent of late—especially the bombings—the council announced.

Used Crude Bombs

A five-man committee was named to investigate the tortures usually ascribed for college freshmen. The moving factor was an innovation—crude bombs made out of beer cans, cardboard and coat hangers, which exploded in yards at the homes of two leaders in the anti-hazing crusade.

Tension grew, the council said, when the Rice institute newspaper revealed that four threats had been made against the safety of one student, 18-year-old Raymond Lankford of Houston, a junior councillor.

Lankford introduced the resolution that would have prohibited a so-called "freshman guidance

See RICE HAZING Page 10

Three Injured In Houston Collision

HOUSTON, Oct. 14 (U.P.) — A speeding automobile hit a parked trailer-truck early today on the Beaumont highway 12 miles from here near Sheldon reservoir, injuring one man critically and two others less severely.

C. B. Lane, 26, received a skull fracture. Hospital attendants here said he was unconscious and in "critical" condition.

Also injured were Donald W. Nivens, 35, and L. A. Johnson, 47, the truck driver.

Lane was riding in the car driven by Nivens when it hit the parked trailer, property of the Lake Truck lines of Eagle Lake, Tex.

Business And Program Hours Held By PTs

At meetings of Parent-Teacher association units held Wednesday and Thursday, programs were presented by pupils and guests and business sessions were conducted.

DR. TRAVIS WHITE IS UNIT SPEAKER

Group singing by the first grade pupils of Mrs. J. B. Airhart and Mrs. Clyde Gee of P. F. Brown school opened the Thursday afternoon meeting of the P-TA. One hundred twenty-eight persons attended.

The speaker, Dr. Travis White, was introduced by Mrs. W. C. Mingus. He spoke on "What Kind of Success for Our Children," and in his talk he gave this advice, "Achieve a life, then a living."

A P-TA sponsored Hallowe'en carnival will be given at the school Oct. 28 from 6 until 9 p. m.

McWHORTER P-TA HOLDS PROGRAM

In her talk on "Teamwork Between Home and School" for McWhorter P-TA Thursday afternoon, Mrs. J. T. Shaver said, "The parents and teachers are working for the greatest enterprise of our life time—the education of our children."

Room count was won by Miss Nellie Wingren in the primary level and Mrs. Lillian Davis in the intermediate level. Approximately 80 persons attended.

PRINCIPAL SPEAKS AT JUNIOR HIGH

Carl Bailey, principal of Carroll Thompson Junior High school, spoke on "Home and School Cooperation" when the school's P-TA met at 3:50 p. m. Thursday at the school building.

Mrs. Raymond Dunn, vice-president of the group, presided for business in the absence of the president, Mrs. W. B. Fort. Teachers, officers of the association and committee chairmen were introduced. The 75 members attending voted to send the president to the state convention to be held in Waco in November.

MRS. BOB BLANTON IS P-T OFFICER

When the ParentTeacher association of the School for Exceptional children met at Dupre school Thursday afternoon, Mrs. Bob Blanton was elected secretary. Mrs. Arch Harper presided.

The association will meet the first Thursdays of each month in the future.

Plans were made to cooperate with the carnival to be held at the school Friday, Oct. 21.

Two Clubs Will Serve As Hostess Groups

Shallowater and Arnett-Benson Home Demonstration clubs will be hostess groups at a semi-annual meeting of County Federation Saturday at the Shallowater clubhouse. The program which will feature talks and musical numbers will open at 9:30 a. m.

Mrs. Pearl Watson is to present a travel talk, Mrs. John Powers will discuss flower arrangement, Miss D'Ruth Hopping will read and Ishmael Hill, assistant superintendent of Lubbock Public schools, is to talk on provisions and effects of the Gilmer-Akin bill. Musical numbers will be by C. H. Brown, and Misses Glenda Ann Reed and Glenda Ruth Short.

A business session will be conducted and a covered dish luncheon is to be served at noon. Mrs. John Redwine of Shallowater is Federation president. Membership dues will be payable at the meeting.

Grosse Pointe Couple To Make Home In City

Mr. and Mrs. John David Lynch of Grosse Pointe, Mich., arrived today to make their home in Lubbock. Mr. Lynch received his law degree from the University of Michigan in June and has been admitted to the Michigan Bar association.

Mr. Lynch, a nephew of Geo. E. Benson, is to be associated with the Citizens National bank.

Mary Haworth's Mail

Girl's Parents Gave Consent To Marriage In June; Recent Affair Creates Trouble

DEAR MARY HAWORTH: I am a senior in high school, 17 years old but very mature for my age, and I am very much in love with John, who is 21 and very much in love with me.

We just recently became engaged and had planned to be married next June, and when we asked my parents' permission they agreed, because John has a good occupation and can support a wife.

However, just recently John and I started an affair and now I am pregnant. I am very much afraid to tell my parents because they have liked John so much, and if I let them know about this they may despise him. This was an innocent affair as I've never had an affair with any boy but John, who is the man I really love.

THINKS PARENTS MAY DISOWN HER

JOHN doesn't know yet that I am pregnant, and I am very anxious about the situation; and I don't eat anything unless he insists, because I have no appetite. Should I tell my parents and have them disown me for the rest of my life? Or should I tell John, so that me may elope to some other state and be married? All his relatives like me and we have many interests in common.

I think my mother suspects my condition, and the baby is due next May. Please advise me as soon as possible and try to disguise the details as everyone in the family reads your column.

(Signed) C. C.

IS SHE WRITING ABOUT HYSTERIA

DEAR C. C.: Your letter was mailed the first of September and you say the baby should be due next May. Well, in view of the fact that child bearing normally covers a span of nine months, it seems to me that at the time of writing for help, you were assuming the existence of pregnancy almost before nature could have given reliable evidence of it.

In the human species, when new life is conceived, the mother-to-be can't be sure of pregnancy until approximately two months to ten weeks later,—unless she hastens to a good internist for a laboratory analysis, in which case the existence of pregnancy might be confirmed sooner: say within the first month. But I feel sure you hadn't got a medical examination before writing me.

If I could have answered immediately in this space, I would have advised you to see a first-rate doctor at once: 1. To get a reliable interpretation of your symptoms, which might be caused counsel of restraint, and right instruction in sound sex hygiene, that a good physician would have given you and John, if it were a case of hysteria, not pregnancy.

DON'T LOSE FAITH IN MOTHER'S LOVE

HOWEVER, assuming that your claim is justified — and I wouldn't dispute the idea at this later date if you still insist,— then I think you ought to let John know first, and take your cue from his reaction, as to whether to slip away and be married, in confirmation of loyal intent towards each other and the new obligation, or whether to turn to your parents for help and protection.

It is my impression that John is chiefly responsible for the affair, thus if he is a sincere character he will insist upon facing the music with you. But if he hedges or whines or shows any signs of wanting an "out," you should turn immediately to your mother and let her plan the acceptable solution.

If your mother already suspects, it probably means that she is aware of the perils of young love and has watchful concern for you, that operates intuitionally from deep devotion; and that she would in effect move heaven and earth to try to repair the damage done, if you need protective help and will give her a chance to befriend you.

M. H.

Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of The Lubbock Evening Journal.

From Lou.. To Louella

DEAR LOUELLA: Johneen Bice, 1948 Tech beauty, and Willie Berry have recently added their names to the "going steady" list . . . Odell McCloud and attractive Mary Ann Kelley have been going together . . . Nettie Lou Keirsey is proudly showing the engagement ring she received Monday night from D. A. Crossley . . . Barron Spaulding, '49 Texas Tech graduate, was a spectator at the Red Raider-Tulsa game last weekend. . . . Pretty Amber Logan and Bill Abell make an attractive twosome.

• • •

NEW WRANGLER MEMBERS

Wranglers recently initiated twenty-six pledges as new members. They are Bobby Carnahan, Glen Chapman, Jim Choate, Ralph Culver, M. G. Davis, Mart O. Farrow, Bill Harvey, Brodie Wayne Hutchinson, James Jensen, Robert McKelvy, Russell Megert, Roy Keith Moore, George Morris, Burdell Morrow, Carter Page; Thomas Palmer, Paul Prokish, Jack Ramsey, Wayne Reed, Marvin Sentell, Harley Shannon, Russell Stephens, Jess Warren, Dean Wadsworth, Gene West and Robert Wood.

• • •

TECH-EXES

Among many of the ex-students who are arriving today for Homecoming festivities, which begin tonight at 7 o'clock with a pep rally-bonfire, are Hugh McCullough, Fort Worth; Carl L. Svenson, Austin; Bill Martin, Texarkana; John P. Ruhmann, Wichita Falls; Earl Fuson, San Angelo; J. Doyle Settle, Dallas; Charles Hugott, Longview; Hart Shoemaker, Abilene; R. W. Brassell, Mineral Wells; Guy Carter, Dallas; A. C. Bishop, Sweetwater; Wayne Sellers, Fort Worth and Joseph R. Griggs, Hartsfield.

• • •

DATES AND DATA

Laura Lou Bailey, dark and attractive LHS teen-ager, and Paul Snyder have been seen together lately . . . Harriet Moltz and Garrison Atwood will attend the Homecoming game Saturday afternoon . . . J. C. Chambers and Mary Duggan are a new couple . . . Jane Austin is wearing a Silver Key pin belonging to Dorrance Guy. Having been recently initiated into the club, Dorrance wore his pin about one week before giving it to pretty Jane last Friday night.

• • •

HERE AND THERE

Madison Neweton, 1947 graduate of Texas Tech, has returned to "Raiderland" this fall to review one semester before entering medical school at Galveston . . . Conrad Lusby from Seagraves was in Lubbock Thursday to see Margie Nichols, sophomore pre-med student from Seagraves . . . All classes at Tech will dismiss Saturday morning at 9:30 o'clock in order that students may witness the annual Homecoming parade, which begins at 10 o'clock.

LOVE,
LOU.

Saturday Is Poetry Day

In order to focus attention on the literary background of Texas and to make people more generally aware of what the poets have done to capture the rich heritage of the Southwest, Saturday has been set aside as Poetry Day in Texas by official proclamation of Governor Allan Shivers.

The governor is asking that schools, clubs, literary organizations and citizens pay honor to writers who have made distinguished contributions to the writing of poetry.

Poet Organization

The Poetry Society of Texas, organized in 1921, has within the past year increased its membership more than 100 per cent, with 1500 members and 101 literary members. Members are welcomed in several classifications: Active writers, Texas born or residing in Texas; audience members; national members, teachers who wish to make use of the printed material for classroom study and special programs and libraries.

David Russell, a recent poet laureate of Texas and producer of several books and on the faculty at Southern Methodist university, is president of the society. Mrs. Grace Noll Crowell and William E. Bard of Dallas and Arthur M. Sampley of Denton are vice presidents.

Mrs. Ruth Bransford Wilson of Lubbock is on the board of councillors.

Church Society Gives Tea In Residence

An afternoon tea given in the home of Mrs. O. R. Copeland, 2707 Thirty-third, by Forrest Heights Methodist church Wednesday was attended by approximately 50 women of the church and guests.

Members of the houseparty were Mesdames Copeland, Burgin Watkins, Paul Brenneman, O. C. Southall, S. L. Forrest, M. B. Hilburn, sr., J. O. Haymes and J. E. Crawford.

Proposed plans for the new Forrest Heights church were on display in the den.

The refreshment table was laid with an Irish linen cloth and centered with a bouquet of dusty pink dahlias flanked by tapers burning in candelabra.

Officers Are Elected By Energetic Club

In the home of Mrs. C. Murphrey, 2608 Twenty-first, Thursday afternoon, officers of Energetic club were elected as follows:

Mesdames J. C. Martin, president; J. B. Walker, vice president; and Tom Arnett, secretary-treasurer.

A program on autumn was given and Mrs. Martin and Mrs. Murphrey read poems. Others attending were Mrs. Exa Ewing, co-hostess, and Mesdames L. W. Bullock, Flora Nutt, Betty Vaughn, Jessie King, Laura Funk, R. C. Hopping, Jannie Larson, Frances Van Dyke and Roxie Crausbay.

Mrs. Bill Murfee Is Honoree At Parties

A breakfast given in the home of Mrs. W. C. McManus, 1611 Fifteenth, Wednesday morning was one of a series of parties for Mrs. Bill Murfee, bride. Mrs. McManus and her daughter, Mrs. Johnny Spikes, were hostesses.

Marigolds centered the table at which places were marked for the honoree, the hostesses, Mrs. Louis Murfee, sr., Mrs. Louis Murfee, jr., and Mrs. James Batson.

A hostesses gift was presented to the bride.

Mrs. W. J. Spikes gave a party and shower in her home Tuesday to compliment Mrs. Murfee. Twelve guests were on the list.

Both Mr. and Mrs. Murfee were honor guests at a Tuesday night barbecue given at the Party House at Mackenzie State park. The hosts, Mr. and Mrs. Louis Murfee, jr., invited 16 persons to the party.

Church Circle Plans Luncheon Oct. 21

When Susannah Wesley circle of Asbury Methodist WSCS met Thursday at the home of Mrs. W. B. Trotter, 1921 Twenty-seventh, plans were made for a luncheon at 12 o'clock noon Friday, Oct. 21, at the church.

The next regular meeting will be Nov. 7 at 3 p. m. in the home of Mrs. H. E. Ross, 2120 Twenty-first.

Saturday Coffee Will Honor Baptist Exes

A coffee will be given for Tech Homecoming guests Saturday morning from 9 until 10 o'clock at the Baptist Student center, 2401 Thirteenth.

All Baptists who are in Tech now or are ex-students of the college are invited to call.

Rinso gets out more dirt than any other type of washday product!

Civilian Board Proposed To Referee Bitter Defense Row

(By The Associated Press)

WASHINGTON, Oct. 14—Two key congressmen proposed today that President Truman name a civilian board to referee the bitter row over defense plans which has erupted in the armed forces.

Their suggesteion closely paralleled one already offered Mr. Truman by the Army-Navy union, an organization of present and former servicemen. The lawmakers' proposal came on the heels of the President's news conference statement yesterday that he sees no need to change the fundamentals of present defense policy.

Nevertheless, said Reps. Brooks (D-La) and Price (D-Ill), there is a disagreement and it should be settled. The two lawmakers are members of the House armed services committee.

B-36 Sounded Good

They brought up the plan after listening for more than a week as the navy fired repeated charges that the fighting power of the fleet is being weakened, while the air force gets funds and favors and builds B-36s to carry out a kind of warfare that the admirals called wrong.

Previously the air force had made the giant intercontinental bomber sound like a good thing to a lot of congressmen.

Brooks suggested to a reporter that the civilian board be named to find out who is right and settle the trouble that has boiled up in the armed forces. Price nodded agreement.

They figured impartial civilians could do a better job than the committee. Many members have served in one or the other of the armed forces and on the old House military and naval committees which now are combined.

Denfeld Testifies

The navy sent in its top officer, Admiral Louis E. Denfeld, to wind up its case yesterday. The marines take over Monday. Then the big brass and civilian chiefs of the army and air force, and Secretary of Defense Johnson, get their chance to sound off.

Rumors had floated around capitol hill that Denfeld, chief of naval operations and navy representative on the policy-making joint chiefs of staff, would ease up the relentless slamming of current defense policies and practices.

And he did propose some peace terms which he said should help bring about a unified approach to grave problems of defense.

Yet it was Denfeld, drawing on his inside knowledge of the defense machinery, who came through with some of the navy's most direct charges and hardest punches.

He said, for instance, that:

1. America has a monopoly and a 25-year lead on the carrier task force and its "power punch." But the air force has argued for "complete elimination" of "this most powerful instrument of modern warfare" and the army has recommended its "serious reduction."

Partnership Denied

2. The law says there shall be naval aviation and the proud Marine corps, and the sister services agree in public utterances. But in the "councils of the department of defense the opposite view is often evident."

3. These same councils repeatedly question why a strong navy is needed when o potential enemy has one of any size. As a result, "there is a steady campaign to relegate the navy to a convoy and anti-submarine service."

4. The navy is denied a "full partnership" in the defense system.

5. Unification is a good thing if it means coordination—but not merger, absorption or elimination. There has been "improper operation of unification," which is more harmful than no unification.

Morale Okay

6. There has been improper operation in pushing purchases of the B-36, in cancelling the navy supercarrier "United States" and in attempted curbs of the navy and marines. There have been "abritrary reductions that impair, or even eliminate, essential functions."

7. The navy's morale is all right. But the whole navy is "gravely concerned whether it will have modern weapons, in quality and quantity," to do the job expected of it if war comes.

8. The navy has no objection to seeing the B-36 developed enough to determine its value as a weapon. But it is "illogical, damaging and dangerous" to start buying it on a mass basis, before such an evaluation, "to the extent that the army and navy may be starved for funds and our strategic concept of war frozen about an uncertain weapon."

Reunion Is Underway For Baskin Family

Guests in the home of Mr. and Mrs. W. E. Baskin and Mr. and Mrs. Joe Manicapelli are Miss Daisy Baskin of Seymour, Mr. and Mrs. Elmo Low and son, Billy Bert and daughter, Mary Margaret of Laredo; Mr. and Mrs. E. Ross Camp and son, Billy Ross of Coral Gables, Fla., Mr. and Mrs. W. E. Baskin, jr., and daughter, Sara Jane, and son, Billy Wright, of Cement, Okla.

This is the first time since 1936 that the Baskin family has attended a reunion.

Homecoming Calendar Is Completed By Tech Clubs

The annual Homecoming weekend of Texas Tech opens this afternoon as events of a well filled calendar begin to take place. Out-of-town exes and alumni of the college who arrive today are to register at booths in the Hilton and Lubbock hotels.

Calendared today are: pep rally and bonfire, 7:30 p. m., Tech gymnasium; and Sans Souci Homecoming semi-formal dance honoring alumnae, active members, pledges and escorts, 9 to 12 o'clock at Hotel Lubbock.

Saturday events are listed below:

Dairy manufacturing club breakfast, 7:30 a. m., in dairy manufacturing laboratory in agricultural building, honoring former members; presentation of K. M. Renner Memorial plaque by Dairy Manufacturing club at 8:30 a. m. in the agricultural auditorium.

DFD breakfast at Hotel Lubbock, 8:30 a. m., given by active club for alumnae.

Baptist Student union open house and coffee at student center, 2401 Thirteenth, 9 to 10 a. m., all Baptist students and ex-students invited.

Home Economics club, Phi Upsilon Omicron and Lubbock Home Economics alumnae giving coffee in room 108 of home economics building, 9 to 10 a. m., all former members and families invited.

Double T association annual reunion and election of officers in varsity lecture room of Jones stadium, 11 a. m., for members only.

Las Vivarachas club open house and tea at the home of Mrs. E. B. Kelly, 1910 Thirty-first, 5 to 7 p. m., honoring alumnae, active members and escorts, given by patronesses.

Dinner for Silver Key club at Hotel Lubbock, 5:30 to 8 p. m., honoring alumnae and women guests.

A reception and dance staged by Los Camaradas club for members, alumni and their guests in Rocket room of Womble Olds building, 6 p. m.

Buffet supper for Delta Sigma Pi in Chimao and Colonial rooms of Hilton hotel, 6:30 p. m., for former members, their wives or dates.

College Club smoker in Hilton hotel Yaqui room, 7 to 8 p. m., honoring alumni and women guests.

DFD reception after the Tech-Baylor game at 2111 Twenty-eighth honoring club alumnae.

Annual Homecoming reception for Ko Shari club, alumnae, their husbands or escorts, patrons and patronesses, Hilton hotel Navajo room after the football game.

For Las Chaparritas

Las Chaparritas club members, alumnae, and their husbands or escorts, 9:30 to 11:30 a. m., coffee at the Frank Hudgins home, 3213 Twenty-third.

Centaur club smoker for exes, 5 p. m. to 12 at Hotel Lubbock junior ballroom.

Kemas alumni dinner, 6:30 p. m., Hotel Lubbock east ballroom, and registration for alumni in the Pine room of the hotel from 9 a. m. to 9 p. m.

Tau Beta Sigma and Kappa Kappa Psi dinner-dance at 7:30 p. m. in the Hilton hotel ballroom.

Block and Bridle club Homecoming breakfast to be at 7:30 a. m. in the meats laboratory of the agriculture building.

Luncheon On Saturday

Homecoming parade is planned for 10 a. m. and the annual alumni luncheon for 12 noon at the gymnasium. The ball game will be at 2:30 p. m. in Jones stadium and the annual dance for exes will be at 9 in the gymnasium. Tech students are to have a dance at 9 in the Tech Recreation hall.

The Cotillion club is to carry out a Homecoming theme at a dance from 9:30 until 12:30 o'clock at Hotel Lubbock.

On Sunday at 7:30 p. m., Gamma Delta will have a Homecoming social at the Parish hall.

Farm machinery suited to small holders will be made in a new Turkish plant.

Couple Honored

Mr. and Mrs. Bob Harvey of Sharon, Pa., who are in Lubbock as guests of his parents, Mr. and Mrs. R. C. Harvey of 2602 Twenty-second, are being complimented at a round of parties.

A coffee for Mrs. Harvey was hosted by Mrs. Douglas Witt and Mrs. G. C. Turner in the Witt home Wednesday morning.

On the list were Mesdames R. C. Harvey, Owen Gilbreath, Dan Young, David Weaver, Fray Smith, Cliff Barr, Hugh English, Bill Anthony, Don Furr, Fred Brown, Don Slaughter, Howard Schmidt, Floyd Read, and Misses Dorothy Brown, Mary Jane Hinchey and Bogan Sneed.

A luncheon for the Pennsylvania guest was given earlier this week by Mrs. T. C. Ingram and Mrs. M. D. Temple in the home of the former, 2411 Twenty-fifth.

Places were marked for Mesdames Maple Wilson, G. C. Turner, R. C. Harvey, C. E. Davis, George Langford, Turner Adams, Ed Hambright, J. D. Hassell, jr., Wright Kerr, George Cochran, Alton C. Hall, W. O. Daniels, Douglas Witt, Ben Peek, Walter Howard and Luther Godwin.

An autumn motiff was used in the decor.

Californian Visiting In Tech Dean's Home

Miss Laura Bowen of Los Angeles is the guest of Dean Margarette W. Walker, 2124 Thirteenth. She is executive secretary of the Pacific Mutual Insurance company and is president of a PEO chapter in Los Angeles.

Daughter Is Born To Julian Zellners

Mr. and Mrs. Julian Zellner of Midland are parents of a daughter, Nancy Pauline, born Thursday, according to Mr. Zellner's parents, Mr. and Mrs. T. B. Zellner of 2202 Sixteenth. The Midland man is a geologist with Sinclear Oil company.

Child Welfare Unit Talked At Luncheon

Miss Mary Louise Hawkins, a guest, discussed the work of the Child Welfare unit in Lubbock at a luncheon meeting of First Baptist Gleaners class Thursday afternoon at the annex.

Forty-two members and six guests attended.

HAVE EXECUTIVE HOUR

Ten members of First Baptist Homemakers class attended an executive meeting in the home of Mrs. L. J. Abbott, 1922 Twenty-seventh, Thursday. Mrs. W. H. Trice is class teacher.

Mrs. Murphy Qualls who was a student at Tech during its first year is a Homecoming guest here, and is staying in the home of her sister, Mrs. Preston Smith, 2808 Twenty - second. Mrs. Qualls, of Hillsboro, is a representative to Tech from the Ex-Student association there. She is the former Miss Hazel "Sammie" Smith.

Tradition Is Slated

Lubbock chapter, American Guild of Organists, will stage its annual organist-minister banquet Monday night at 7 o'clock at St. John's Methodist church.

Members and their families will be invited.

Dr. H. I. Robinson, pastor of First Methodist church, will be the speaker.

The Guild is made up of organists, choir directors, ministers and others interested in the study and promotion of worthwhile church music.

Reward Is Offered For Seminole Girl

SEMINOLE, Oct. 14 (Special)—Rewards totaling $600 were offered today for information leading to the whereabouts of Mary Donna Nelson, 12-year-old missing Seminole girl, Sheriff Robert McReynolds announced.

Sheriff McReynolds said $500 would be paid to anyone with vital information and that the $100 is offered to newspaper and radio men who might contact the girl and persuade her to return to her home.

The girl, who was last seen at her home at 10:30 p. m. Monday when she went to bed, was reportedly seen hitchhiking in company with another young girl Thursday about 11 miles west of Hobbs, the sheriff's office here has been informed.

She is believed headed to California to see her grandmother.

MUST FILL QUOTAS

PRAGUE, Oct. 14 (AP) — Czechoslovakia's coal miners were told today they must fulfill their fixed daily production quotas or stay down in the mines until they do.

Dry Campaign In State Urged

DALLAS, Oct. 14—(AP)—Dr. W. R. White, president of Baylor university, has advised Texas drys to start an immediate campaign for a statewide vote on prohibition.

"Some day it will be impossible to get a legislature to submit prohibition to the people," White said, because of redistricting which will give big cities—nominally on the wet side—more representation.

He said there should be "tremendous agitation" in Texas for the vote before such a condition arises.

Drys Had Prayer

White spoke at the annual directors meeting of United Texas drys yesterday. He was re-elected to the UTD presidency.

He called the dry victory in Oklahoma's recent election "the greatest ever" in that state.

"The dry forces didn't have money, but they had prayer and the weight of righteousness on their side," White said, attributing the comparatively small margin of victory (some 50,000 votes) to heavy expenditure of money by the opposition.

"Unless forces in other states stop the moral downgrade caused by retreat of dry forces, there will be no hope for civilization," said the Baptist educator.

Man Saves Life By Burning His Legs

OLUSTEE, Okla., Oct. 14. (AP)—A farmer was alive today because, his doctor said, he had the courage to push his bleeding and amputated legs into a fire.

Thirty-three-year-old C. B. Hughes lost both legs yesterday when he tried to free his arm pinned in a hay baler.

He attracted his wife's attention two hours later by setting a fire to a bale of hay.

Doctors described his condition last night as "fair." They said his arm will be amputated later.

Hughes pushed his legs—amputated below the knees—into the flame to stop their bleeding and to relieve the pain.

Culberson Urged To Enter Governor Race

VICTORIA, Oct. 14 — (AP) — Culberson-for-governor movement was launched at Edna yesterdey by a group of Jackson county citizens.

Railroad Commissioner Olin Culberson, honor guest at a barbecue given by the Edna and Ganado fire departments, declined to say whether he would run for governor next summer.

The first parliament of Western Germany will try to decide whether its capital shall stay at Bonn or move to Frankfurt.

WOMAN APPOINTED AMBASSADOR

President Believed Courting Liberals For 1952 Campaign

WASHINGTON, Oct. 14 (AP) — President Truman is working on his relations with those Democrats who group themselves as "liberals" in a way that indicates to some politicians he is thinking of running again in 1952.

For one thing, there was his last ditch — if futile — fight to save Leland Olds his job on the Federal Power commission.. Mr. Truman said yesterday that the overwhelming Senate rejection of Olds was a bad thing.

Also classed as a bid for the enthusiastic backing of the same party element that supported Olds was the President's nomination of Mrs. Eugenie Anderson of Red Wing, Minn., as ambassador to Denmark. She would be the first woman to hold the rank of ambassador.

Member Of ADA

Described as active in Democratic affairs since 1944, the 40-year old Minnesota matron is a member of the national board of Americans for Democratic Action (ADA).

Thus in this appointment, Mr. Truman has given recognition not only to the women members of his party, but to a political organization that in the past has demonstrated some suspicion about the philosophy of government held by the President.

The ADA was in the forefront last year of those who tried frantically to find someone else for the Democratic presidential nomination.. If Mr. Truman wants the nomination again in 1952, he obviously would like to avoid a repetition of this opposition

The ADA went along with Mr. Truman in the campaign — partly because it felt it had nowhere else to go — but some of its members had reservations about how liberal Mr. Truman would be if elected.

Efforts Unusual

Their complaint was that the President talked liberal but depended too much on conservative elements in his cabinet for policy decisions. They complained he gave his major appointments to Missouri cronies.

As for the Olds nomination, seldom has Capitol Hill seen such a widely publicized effort by a President to get confirmation of an appointee. Amid the trappings of a crusade, Olds was set up as a symbol of liberalism.

Mr. Truman said the big corporations were out to get the commission. He put the Democratic national committee to work trying to stir up grass roots support for Olds.

Mrs. Eleanor Roosevelt, active in the ADA, came out strongly for Olds. The CIO supported the nominess.

Speaking for the President, William Boyle, jr., the Democratic national chairman, said Olds stood for what the party stood for.

Defeat Severe

On the other hand, Senator Edwin C. Johnson (D-Colo) said Olds had "sewed the seeds of revolution" by admittedly radical writings in the 1920's. He said "no communist could speak more bitterly about this democracy."

When the Senate voted 53 to 15 Wednesday night to reject Olds' nomination — about as severe a political licking as a President ever got on a nominee — 21 Democrats went against the President and only 13 with him. Thirty-two Republicans voted "no" and only two — Senators Langer of North Dakota and Morse of Oregon — voted "yes."

Only two of the Democrats who supported Olds were from the south, Senators Graham of North Carolina and Ellender of Louisiana.

In another matter, on which he was balked by a southerner, Senator Byrd of Virginia, Mr. Truman refused to say at yesterday's news conference whether he will give former Gov. Mon C. Wallgren of Washington a recess appointment as chairman of the National Security Resources board.

Wallgren's appointment was withdrawn after Byrd cast the deciding vote to pigeonhole it in the Senate armed services committee.

"Useless Women Are Doomed To Extinction In Germany"

Husky Elli Schmidt Given Task Of Molding East German Women Into Fighters For Reds

BY RICHARD S. WEIL
INS Staff Writer

BERLIN, Oct. 14—Elli Schmidt, a 190-lb. plotter known to her Communist party comrades as "The Pear," has the job today of casting East German women into one mold—as the Nazis also were doing.

And there's no room for glamour under the new Communist "republican." As under both Hitler and the Russians, the role of East German women will be limited to hard work and childbirth.

Elli, 41, who frankly boasts of being "the most powerful woman in Germany," declares:

Useless Women Doomed

"We must see to it that the children imbide the revolutionary spirit together with their mother's milk. Communism must begin with the family.

"I intend to make the German woman into a fanatical fighter for the idea of world revolution.

"Useless women are doomed to extinction in a progressive Germany."

Elli's idol is Romania's woman Communist boss and Foreign Minister Ana Pauker. Elli, who display's Ana's picture in her office, closely resembles the husky, large-jawed Ana in both appearance and temperament.

Elli is another Moscow-trained Communist who arrived in Berlin behind conquering Russians in 1945. She quickly was set up as boss of nearly a half-million women members of the Communist Socialist unity party and the 400,000 members of the Communist front "Frauenbund," or women's league.

A former seamstress, she describes herself as "a party fighter first and a woman only second." She began carrying the red banner at the age of 17.

Women's Corps Organized

The East German state's constitution is thick with references to the "rights and guarantees" of motherhood and so-called "equality" of men and women in all work.

This means all work in production. Already a women's corps is included in the saetellite government's "people's police."

Already women traffic cops far outnumber men in Eastern Germany, releasing men for other aims of the Communists.

Women are pictured in slogans and banners as "plowers of the earth," "turners of the wheels of industry," and above all "bearers of children."

Cradle-to-crave control is the aim of the Communists in their stated program, and Elli is the pace-setter for German women.

Protege Of Red

Elli is a protege of the late Communist chief Ernst Thaelmann, whom the Nazis imprisoned, then executed near the war's end.

Elli is a close friend of Wilhelm Pieck, president of the NWE East German regime, and an underground worker as he was against both pre-Hilterite Germans and Hilterites. Her husband, Anton Ackermann, is a member of the Communist Socialist unity party (SED) "politburo."

Off duty, she has a fondness for gala parties and sweet liquers. And for relaxation? She says she reads Marx and Lenin—and devours biographies of women of power from Joan of Arc to Ana Pauker.

ATTENTION ALL PARENTS, TEACHERS, STUDENTS!

SHOULD HIGH SCHOOL SORORITIES BE BANNED?

Here and there, the nicest youngsters are members—and here and there, the nastiest.

Rivers of grass...

"Rivers of grass" flow across this country. Millions of cattle and lambs have spent the spring and summer turning grass into meat. Now they are ready for round-up and shipment. So in October they move to the markets—in a great flood of livestock. Many go direct from the range to meat-packing plants. Others go to the feed lots to be grain-finished. But, either way, these meat animals are mostly *grass*—which folks cannot eat—converted into appetizing, nourishing *meat* for people. They are adding greatly to the health and wealth of the nation. Without this "livestock economy," in which you and we are engaged, 779,000,000 acres of our United States would produce little food for human use.

Whether *you* ship your cattle and lambs early or late—whether it's to Chicago, Ft. Worth, Denver or any of scores of other markets—you'll find buyers there to bid for them. With many others, Swift & Company helps provide the year-'round daily market which is as essential to your business as it is to ours.

Your grass, turned into meat, is a vital raw material of all meat-packing operations. There is keen competition for it. Every meat packer and commercial slaughterer (and there are more than 18,000 of them in the United States) must have a regular supply of meat animals. Each buyer knows the *high bid* gets the animals. He knows also that his own price range is set by supply and demand. He sees your steers and lambs as so many pounds of meat and by-products. The price you are offered for your livestock is governed by what the meat packer can get for the meat and the by-products.

Your Markets for Meat

In the early days of our country, livestock was produced close to the point where it was eaten. But as the population grew, those conditions changed. Today two thirds of the people live east of the Mississippi, while two thirds of the livestock is produced west of that river. To bridge that gap of more than 1,000 miles is no small job. Millions of head of livestock must be processed and the meat distributed to where it is wanted. The facilities of nationwide meat packers provide you with markets for your meat animals; move the meat to cities and towns where it is in demand.

Swift & Company, and other *nationwide* meat packers, sell meat to retailers wherever there are people who want to buy it . . . no matter how far that may be from your farm or ranch. We bring you the benefit of national, rather than local, demand. This means that, in selling your livestock, you choose between the price created by local demand, or the price created by the national demand of millions of meat eaters.

We work hard to encourage people to serve meat oftener—to eat more of it . . . And we are proud that our nationwide system is one of the most efficient, low-cost food distribution systems in the United States.

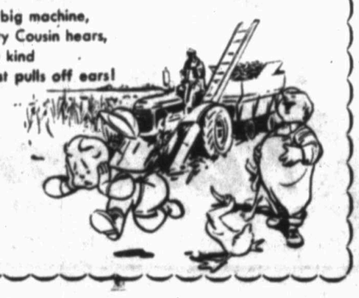

P. M. JARVIS
Vice-President Swift & Company

OUR CITY COUSIN

That big machine,
City Cousin hears,
Is the kind
that pulls off ears!

Martha Logan's Recipe for
SAUSAGE AND CORN BREAD

(Yield: 6 servings)

1 lb. pork sausage meat
1½ cups corn meal
½ cup sifted flour
½ tsp. salt
1 tsp. baking powder
1 tsp. soda
1 cup sour milk
1 egg
2 tbsp. pork sausage drippings

Brown pork sausage meat thoroughly in heavy skillet (about 9 inches in diameter). Drain off drippings. Sift together corn meal, flour, salt, baking powder, and soda. Combine egg and milk and beat until well combined. Add 2 tablespoons drippings to milk and egg mixture. Pour liquid into dry ingredients and stir just until well mixed. Pour batter over pork sausage in heated skillet. Bake in moderately hot oven (450°F.) until well browned, about 30 to 35 minutes. Serve hot as main luncheon dish.

Quotes of the Month

"We, as ranchers, are not sufficient unto ourselves. In fact, we are only the beginning of the beef line. Of equal importance are the feeder, the processor, the distributor and the consumer. Disregard the rights or welfare of any of these, and sooner or later we suffer."

Sam R. McKelvie
Pres. Sandhills Cattle Ass'n

"He gave it for his opinion that whoever could make two ears of corn, or two blades of grass, to grow upon a spot of ground where only one grew before, would deserve better of mankind, and do more essential service to his country, than the whole race of politicians put together."

Gulliver's Travels (*written in 1726*)

Supplement that *Poor* Forage

by Robert D. Rasmussen
New Mexico A. & M. College

R. D. Rasmussen

Dried-up pastures and winter weather create the same feeding problem for the cattleman. They simply mean that you have lower quality feed and less of it. And you have little choice as to what you can do about it. You can let the cattle eat what they can find. In this case you're likely to take a weight loss on your cows. You'll also take a chance on a weak calf crop. *Or you can feed a supplement.* If you feed enough of the right kind, your cows and unborn calves will come through in good, healthy condition.

California experiments on deficient range showed the cow herd that got a protein supplement produced a 91% calf crop. Cows on similar range, without a supplement, produced a 61% calf crop. Arizona found that feeding supplement increased the weight of the calves at birth by 10 pounds.

The amount of supplement needed varies. Cows carrying calves, and young stock require more protein than open cows or mature animals. A safe rule to follow is to watch the condition of the stock. Keep them healthy and thrifty.

Research by the New Mexico agricultural experiment station shows that during the winter months range forage is most critically short of phosphorus as well as protein. While some of the cake supplements are high in phosphorus as well as protein, most ranchers over the state are using mineral supplement for year-'round use. A mineral supplement containing at least 6% phosphorus should be made available at all times to range cattle. Experiments have shown that year-'round use is better and more profitable than seasonal use.

Here's a goal for cattlemen. Use whatever kind and amount of supplement is necessary to keep your cattle healthy and thrifty. (*Editor's Note: The principles of animal nutrition discussed above apply in all parts of the country.*)

Ex-Russian Officer Says That Stalin Was On Hand At Explosion Of A-Bomb

Diplomatic Correspondent
Paris Presse
(Copyright 1949 By United Press And Yves Delbars)

PARIS, Oct. 14—The first atomic explosion in Russia occurred in the Ust-Urt desert July 10, 1949, with Generalissimo Josef Stalin an eyewitness, and Russia does not yet have a stockpile of atomic bombs. Major Boris Silov, a former officer in the Soviet army, told me before sailing for South America.

Before Silov and two Russian companions sailed from Antwerp they answered a series of questions for me about atomic bombs in the USSR. It was Silov who told me last July that Russia did have the atomic bomb—a dispatch which was published in the July 30 issue of Samedi Soir.

Tired Of Tension

Silov and his companions said they left eastern Germany in June after deciding to join Silov's relatives in South America.

"We were just tired of the continual nervous tension and great fatigue caused by the constant feeling of insecurity that results from the severity of penalties which constantly menace those who hold high positions," Silov said.

Here are my questions and Silov's answers:

1. What were the conditions of the first atomic explosion in the USSR?

Answer—the first explosion took place July 10, 1949. It was a matter of any event of verifying and bringing to a head the first "normal" prototype of the atomic bomb. This prototype, to which was given the name molnia (lightning), gave satisfying results.

Stalin Claimed Present

During the week which followed this explosion experiments were made with two other prototypes, furnished with what can be called "disposative delay detonator." This was declared efficient for a period of from three to five days. These explosions took place in the southeastern extremity of the Ust-Urt desert east of the Caspian sea in the Soviet republic of Kazakh and Uzbek, where there exists a "zapoviednik" (forbidden reservation) a hexagon of 60,000 square kilometers (23,166 square miles).

2. Was Stalin present at the explosion of the first bomb?

Answer—Yes. He insisted on it in spite of the long trip by railroad. He never takes a plane anymore. Several members of the politburo were present, notably L. P. Beria, K. E. Voroshilov, A. I. Mikoyan and Nikolai Bulganin.

3. Who directed the experiment?

Answer—The vice-president of the atomic research commission, professor Adran Federovitch Joffe. He was assisted by Vavilov, Khlovine, Frenkel Soubotine, Skobeltzyne, Zaitzev. Also several German scholars, among whom the most well known are: Gustave Hertz, nephew of Heinrich Michelberg; Alfred Schmitt and Baron Manfred Von Ardenne, former chief of the experimental station of Penemuende, Germany.

Have No Stockpile

4. Does there exist a stockpile of atomic bombs in the Soviet union?

Answer—Certainly not. In order to begin mass manufacture it was first necessary to perfect a prototype. Consequently they could only start this manufacturing after the experiments of July 1949.

5. What are the means and possibilities of the USSR in this domain?

Answer—We must start by clearing up certain things which are not yet known by the public.

The USSR has pursued its studies in two directions. There exists therefore in Russia two different explosive atomic mixtures destined to the manufacture of the bomb. Both were tried in July 1949. They are:

A. "Normal mixture," that is to say uranium 235 plus plutonium.

B. "Auxiliary mixture," which means the combination thorium plus brevium.

Reserves Discovered

In spite of all the Soviet efforts the reserves of uranium which the USSR possesses constitute less than a third of those which the Anglo-Saxon countries have. One Russian geologian, Smirnov, in 1948 presented a report on the mineral riches of the northern spurs of the Altai mountains, and especially on the Soviet spurs of Pamir. Enormous reserves of thorium were discovered there.

These allow it to be affirmed that the USSR possesses at this time the most important reserves of thorium in the world.

At the time of the July experiments two "mixtures" were verified.

It is certain that for "normal" bombs (uranium plus plutonium) the USSR should not be able to produce annually more than 20 to 30 bombs. There, it is a matter of industrial and technical potential, which pose similar limits. As far as the thorium plus brevium bombs are concerned, production could reach 150 bombs but these are very much less powerful than the other ones.

6. In the press they speak about a bomb with a hydrogen base, and about cosmic rays. What about this?

Answer—In spite of everything they say the USSR does not have any bomb of this kind. Professor Abram Fedorovicht Joffe, the great specialist of research on cosmic rays, organized a number of studies and experiments in this direction in the Caucasus and in Pamir.

In a report presented to the atomic research commission he concluded that it was impossible in the present state of techniques to provoke 'a nuclear reaction of Bothe." We recall that this refers to a "helio-atomic" bomb, which is supposed, through the energy from cosmic rays, to turn hydrogen into helium. He concluded that all the heat necessary to put this reaction into operation could not be obtained on the earth, even with recourse to an explosion of a uranium bomb. On the other hand the Bothe cycle can be obtained partially and used for industrial purposes.

("A nuclear reaction of Bothe" apparently refers to a nuclear theory discovered by the German physicist Walter Bothe, professor of physics at Heidelberg university.)

Not Much Danger

7. Have the Russians experimented with radioactive clouds in the USSR?

Answer—Yes, several times. But it is believed that a defense against these can be very easily organized. Their danger is not taken very seriously.

8. How did the United States get confirmation of the explosion of the bomb of July, 1949?

Answer — They certainly got wind of the explosion through those people who had left the USSR, among whom were persons in the know. It must not be forgotten that every Soviet officer who passes the line of demarcation is obliged to reply to more than 40 questions contained in a special questionnaire which is supplied to him but it is obvious that this information was only accepted after very laborious verifications.

At the time of my last stay in central Asia and in Siberia, I had learned that our counter-espionage services, with their central headquarters attachment, had noticed several times the appearance of unknown airplanes flying over the regions which had "atomic" installations. These airplanes were flying at a very high altitude, and they were modern, super-fast types. It was believed at first that they were flights of super-sonic jet planes from the seventh corps stationed at Orenbourg. But it was learned that it was not that at all. They were able to establish then that the planes came from the direction of the Iranian frontier, and that their passage followed very closely all stages of the experiments.

Came From Iran

9. Do you have an idea where these planes, which you think were American, came from?

Answer—As I said, they came from Iranian territory. They may have taken off from an airfield located in Iran unless they came from the Bahrein islands, where an extremely powerful American airbase exists.

10. Do "atomgrads" exist in the USSR, as is often asserted?

Answer—They do not exist in the sense of the descriptions one often sees in the press.

The principle of atomic production in the USSR, or rather its organization, is different from that in the United States. In our country this production has been completely decentralized. There are several laboratories of which the best known are: the physico-chemical institute of Leningrad on the shores of Lake Ladoga; the P. N. Lebedev laboratory, at Mojaisk on the Moscow institute; very important laboratories of the institute of modern physics problems at Tirkovo; the Sanga laboratories in Armenia.

Three groups of atomic piles are located in Siberia and special workshops for manufacture of the bomb itself as well as a center for final mounting are installed at Sterlitamak and on the outskirts of the Ust-Urt desert.

Stalin Is Boss

11. Who is the big atomic boss in Soviet Russia?

Answer—It is Stalin in his capacity as president of the commission for atomic research. In actual fact it is his two assistants —political and administrative—in the persons of Lavrenti Beria and the man of science Professor Joffe.

12. What is Stalin's personal interest in atomic questions?

Answer—Stalin is literally hypnotized by it. He continually reads brochures in popular language prepared specially for him dealing with the question of nuclear energy.

He sends for specialists, asks them for detailed reports on the progress of the work, and reacts very violently to setbacks. This was the reason for the semi-disgrace of Kapitza after the 1947 failures and the catastrophic explosion of the atomic pile at Medvedovka.

13. What are the respective roles of the Russian scientists and German scientists in atomic research in the Soviet union?

Answer—It seems certain to us that from the theoretical viewpoint the German scientists who work in the Soviet union cannot equal Kapitza, a pupil of Lord Rutherford, or Joffe and other Russian scientist. This is all the more true because great German scientists like Heisenberg and Hahn did not want to go to Soviet Russia. But the Germans, particularly Baron Manfred Von Ardenne, who are practical technicians of great value, have contributed to advancing the perfection of the atomic bomb in less than two years. Their experience of very far advanced work on this during the war contributed to this.

Reasons Are Simple

14. Why did the Soviet government in its communique not confirm that the explosions of July 10 and 17, 1949, were atomic bomb tests? . . . It is true that the USSR has possessed the "atomic secret" since 1947 as the communique claims?

Answer—The reasons for this attitude are very simple: In confirming that they were trial explosions of atomic bombs (they were the first explosions registered by the USA and so sufficiently powerful to lead one to think they were tests of one bomb and not a small laboratory test) the Soviet government would have confirmed it did not possess the prototypes and that it still does not have a stock of bombs.

The Soviet leaders always feared the absence of a stock of atomic bombs in Russia might provoke a ireventative conflict.

For this reason they worded their communique in a very vague manner so as to lead one to believe the USSR had had the bomb since 1947 and that, in spite of that, the government still demanded destruction of the bomb and banning of the atomic weapon.

The atomic explosions in the Soviet union before those of July 1949 were simple trial with very small quantities of uranium 235 in laboratories.

Westerners Will Clash With Pampa Eleven Here Tonight

Undefeated Lubbock Gridders Bid For Fifth Straight Win

Pampa's Harvesters will be trying to make it three victories in a row over the Lubbock Westerners when the two teams meet in a non-conference grid battle at 8 o'clock tonight at Jones Stadium, but the odds heavily favor the local team in the encounter.

With help from the weatherman, attendance is expected to reach 14,000 persons by game time, and pre-game ticket sales have been far above average this week, E. J. Lowrey, athletic business manager reports.

★ ★ ★

Fresh from four straight 1949 triumphs, the Westerners are in no mood to be stopped by their former District 1-AA foes and have drilled hard all week for tonight's contest. But before the final gun sounds a thrilling grid battle is expected to be seen, and Westerner Coach Pat Pattison is not selling the Harvesters short.

Pampa Determined

As indicated by Pampa's previous record this year, the Harvesters have a determined club and one that will give any opponent lots of competition. Thus far the Threshers are sporting four victories and one defeat, and that loss was by one touchdown to Wichita Falls, considered the number two team in the state.

TICKETS AVAILABLE

Tickets for the Lubbock-Pampa tilt may be bought tonight at the gates at Jones Stadium, with reserved seats selling at $1.50 each. Radio station KCBD will broadcast the tilt.

The Westerners have won their first four starts by wide margins and are regarded as favorites to trip Pampa, but Coach C. R. Pattison is looking forward to the closest game so far this year in tonight's battle.

Pampa's record shows a 40-0 victory over North Dallas, 7-0 over Graham, 35-19 over El Paso High and an 8-7 decision over Vernon before losing to Wichita Falls, 14-6.

Local Record On Line

Lubbock puts its undefeated mark on the line, having beaten Childress, 47-0; North Side, 38-0; Plainview, 42-6; and Vernon, 42-12.

The last defeat heaped upon the Cowpokes was administered by the Pampans, that being a 26-19 loss after the Westerners had run up a 19-6 margin.

Coach Tom Tipps went into the season with a group of inexperienced boys, with only six lettermen to bolster the squad. But out of this group has come a fighting team and one which is backed by the desire to play on the part of every member of the team.

Injuries in both camps are light, but Pampa will miss the services of End Jim Parker and Halfback Charley Smith. Parker has been the leading punter all season, and Smith was a good runner.

Doing the quarterbacking and passing for the Green and Gold will be Carroll Smith, a 150-pounder who is one of the returning lettermen. At left halfback is Pete Cooper, co-captain, who weights in at 145. Carl Kennedy starts as fullback, and Jimmy Hayes will get the nod for the right halfback position.

Hayes Leads Harvesters

Hayes is only a junior, but the big 170-pounder is the workhorse of the Pampa squad. In the first five games he has scored 30 points and rolled up more than 500 yards on the ground, maintaining an average of 7.3 yards per try.

The line will be centered by Co-Captain Leon Taylor, 160. At guards are Marvin Harvell, 140, and Jimmy Campbell, 145. Both are small but hard working. The tackles are Eddie Scheig, 177, and Glenn Tarpley, 170, with the end post being filled by Tommy Allison, 170, and Weldon Witcher, 156.

Co-Captains Named

Co-Captains Bobby Brown and Malcom Young will lead the Westerners into the game, Brown at quarterback and Young at fullback. Halfbacks Wayne Stroud and Charlie Williams round out the backfield foursome.

Ends Garnet Reeves and Billy Wright, Tackles Joe Brock and Douglas Ross, Guards Freddy Gray and Sammy Modrall, and Center Douglas Wienke will be in the forward wall.

Thursday the Westerners went through a light, speedy drill at Chapman field. Emphasis was on running through plays against a dummy defense, and the boys looked well-trained and ready to go. Passing came in for a great deal of attention.

Game At A Glance

Who: Pampa Harvesters Vs. Lubbock Westerners.
WHERE: Jones Stadium.
WHEN 8 p. m.

Campbell	RG	Modrall
Tarpley	RT	Ross
Witcher	RE	Wright
Smith	QB	Brown
Cooper	LH	Stroud
Hayes	RH	Williams
Kennedy	FB	Young

Pioneers Beat Plainview "B"

Lubbock's Pioneers came back from a previous tie with the Plainview B team to down the visitors, 20-0, last night at Chapman field before 200 persons.

Earlier, in a game at Plainview, the two teams scored 13 points each to end in a deadlock, but the Pioneers broke out in front in the first quarter, scored again in the second period, and iced the game late in the final stanza with another tally. The victory was the third for the local eleven against one tie and one defeat.

Offensive star of the Pioneers was left Halfback Billy Tucker who scored 12 points. Tucker broke loose for the first Lubbock six-pointer midway of the first quarter on a 35-yard burst over left guard, and Ken Aldridge converted. Tucker's second score came on a 56-yard reverse around left end on the first play of the second quarter and gave the Pioneers a 13-0 halftime advantage. Late in the fourth quarter right Halfback Jeff Jones powered over from three yards out for the final marker to climax a 40-yard drive, and Wesley Curry kicked the extra point.

Plainview threatened first after recovering a fumble early in the first quarter on the Lubbock 33, but after advancing to the 20 the drive fizzled. Again in the second period Craig Silverthorn, Plainview left half, broke into the clear but was overtaken from behind by right End James Blazi after advancing to the Lubbock 12 on a 45-yard run around end. The ball went over to Lubbock on the five-yard line.

A pass interception in the third period gave Plainview the ball on Lubbock's 33, but the drive fell short after advancing to the five. A third-down pass from Charles Harris to Fullback Bryan Bell was dropped in the end zone.

Standouts on the Lubbock team were the two ends, Blazi and Roy Burrows, Burrows playing great ball on defense. John Pittman at center, Melvin Deardorff and Charles Nix at guards, and Tackles Ray McClarty and Harlan Cooke made their presence felt on many occasions when the going was tough. Tucker, Jones, Donnie Dean, C. D. Walker, and Charles Northington carried out Sammy Sayers' quarterbacking with lots of enthusiasm.

Bowling Results

Plamor No. 1, Plamor No. 2 and Miller & Miller scored victories in last night's competition in the Women's City bowling league.

Plamor No. 1, sparked by Peggy Gamble's 160-368 performance, won three straight games from Brooks Trailer sales. France Huckabe was high for the losers with 121-301.

Plamor No. 2 won two games while losing one to Home Lumber & Supply. Nell Gamble bowled the high game, 144, and Viola Limmer had high series, 389, for the losers. For Plamor, Mary Payne rolled the high game and also the top series, 460.

Miller & Miller scored a 2-1 decision over S & J. Catherine Royalty's 155 was high game for the victors, while Helen Pnebe (cq) had the high series of 371. For S & J, Nancy Gamble turned in a 137-363.

California Girl Is Meet Semi-Finalist

FORT WORTH, Oct. 14 (U.P.) — The Texas Women's Open golf tournament moved into the semi-finals today, with a 15-year-old girl golfer from Long Beach, Calif., continuing her bid for the championship.

Miss Marlene Bauer wrapped up a quarter-final 3 and 1 victory yesterday over Marjorie Lindsay of Decatur, Ill. She meets Bettye Mackinnon of Mt. Pleasant, Tex., today in an effort to gain a berth in the final round.

Miss Mackinnon rolled into the semi-finals by defeating Marilyn Smith of Wichita, Kan., 6 and 4.

The other semi-final match pits Beverly Hanson of Indio, Calif., against Mary Lena Falk of Thomasville, Ga.

Miss Hanson defeated Patty Berg, Savage, Minn., 3 and 1, yesterday, while Miss Faulk shaded Mrs. H. C. Riedel of Dallas, 3 and 2.

O. L. Slaton Juniors Top Plainview, 13-0

PLAINVIEW, Oct. 14. (Special) —Coach Bennie Williamson's O. L. Slaton Junior High Redskins Thursday scored a 13-0 triumph over Plainview Junior High's gridders.

Jimmy Welch paced the Redskin offense, scoring all his team's points.

In the line, Guard Jerry Martin and End Jimmy Crawford were outstanding for the victors.

Talks On Removal Of Franchise Set

DALLAS, Oct. 14. (AP)—Removal of the Corpus Christi franchise from the Class D Rio Grande valley league to the Class B Big State league will be discussed at the annual fall meeting of the Big State here Sunday.

George Schepps, owner of the Corpus Christi club, gave notice a month ago that he would apply for a place in the Big State league. He proposes to replace Greenville in the Big State with Corpus Christi and to place his Greenville franchise in the Class C East Texas league.

Valentino To Test Charles

SAN FRANCISCO, Oct. 14 (AP) —Boxing could crown a new heavyweight champion tonight but probably will not. The odds today were 1 to 5 that Ezzard Charles would successfully defend his N. B. A. title against the challenge of Pat Valentino in their 15-round fight at the San Francisco Cow Palace.

However, the 29-year-old Valentino may be a fairly strong challenger. He lost close decisions to Jimmy Bivins and fought two draws with Joe Maxim, both of whom extended the titleholder plenty, although defeated.

Charles Is Faster

Aside from the remote possibility he could become the upset victim of Valentino's punishing body attack, Charles figures to win rather handily. He is the superior boxer, much faster than his rival, and has proved he can take a knockdown punch and come back to win.

Charles is expected to weigh about 180 and his rival about 185.

The match will be worth $40,000 to Charles. The guarantee is the biggest for him since he joined the professional ranks in 1940.

Chance For Valentino

For Valentino it is the chance of a lifetime. The swarthy Italian-American, who wears his jet black hair almost long enough for ribbons, has won a majority of his fights since he started here nine years ago. He whipped Turkey Thompson last December for the California state title. This will be his first bout since.

A pre-fight rhubarb will send Charles into the ring minus his familiar mustache. Charles' manager, Jake Mintz, refused to permit Valentino—who cuts easily—to wear patches above his optics for the battle. And the San Franciscan's pilot, Jack Andrade, countered by forcing the champ to comply with California regulations outlawing facial adornment in the ring.

Last minute ticket sales were expected to account for gate receipts around $150,000. The Cow Palace seats 16,629 customers with 4,000 standing room.

The fight is scheduled for 10 p. m. (1 a. m. Saturday, EST).

TEXAS TEAM LOSES

ADA, Okla., Oct. 14. (AP)—East Central State built up an early lead last night and coasted to a 45-7 victory over Texas Lutheran college.

EVIDENCE—Frank Leahy blasted officials for meting out 135 yards in penalties against Notre Dame while the Irish were subduing Washington, 27-7, in Seattle. Pacific coast sources were quick to point out that Coach Leahy's men did not always keep their hands on their chest while blocking, as evidenced by this photo of Emil Sitko having an arm and handlock on End Chuck Olsen.

Tulane Seeks Revenge For 1947 Defeat

Notre Dame Favored By Two Touches Over Green Wave

SOUTH BEND, Ind., Oct. 14 (AP)—The game of gridiron 'possum as played by Notre Dame and Tulane thus far this season, will end abruptly at 2 p. m. (CST) here tomorrow.

In three games to date, each of the unbeaten juggernauts has been firm but coy on the attack, keeping a tremendously wary eye on their dynamite-filled meeting at Notre Dame stadium.

Tulane, pride of the South, hurled only 36 passes in subduing Alabama, Georgia Tech and Southeastern Louisiana. The nationally top-ranked Irish have tried the airlanes only 32 times in brushing aside Indiana, Washington and Purdue.

Irish Are Favored

Obviously, neither team has been close to fully extended. That will come tomorrow afternoon when an overflow crowd of 57,000 will see two powerhouses fling off their wraps and measure off one another for the kill.

It could be one of the season's most electrifying games, although the wagering lads see Notre Dame winning by two touchdowns, or 13½ points.

Green Wave Mad

Southern folks who have been grabbing up those odds figure the bet-makers don't know how boiling mad the Green Wave still is from the 59-6 plastering handed them by the Irish in 1947, their last meeting. Tulanes one-two punch of fullback Eddie Price and Halfback Bill Svoboda, were young innocents in that slaughter.

The Irish will be gunning for their 32nd game without defeat. A skein launched when they opened the 1946 season with a 26-6 win over Illinois. In between, however, came a scoreless tie with Army in 1946 and a 14-14 deadlock with Southern California in last season's closing game.

Tulane will have a weight advantage in the line of 206 pounds to 204, and a 15-pound pull in the backfield, 194 to 179.

Three national networks (ABC, CBS and NBC) will broadcast the game and one television network (Dumont) will telecast it.

Baylor Frosh Beat Texas Aggies, 13-0

COLLEGE STATION, Oct. 14. (AP)—Two touchdowns in the second quarter gave the Baylor Cubs a 13-0 decision over the Texas A. and M. fish last night.

Claude Kincannon scored from the one yard line and Jack Day went over the goal o na line plunge. Marvin Newberry kicked one extra point.

Upsets Feared In Grid Play

(By The Associated Press)

This could be an upsetting week in schoolboy football.

Eleven of 12 undefeated, untied teams in the City conference and Class AA are in action, some against opponents that could easily ruin their records.

Port Arthur and Galveston stand a chance to fall by the wayside, meeting Corpus Christi and Austin respectively.

Wichita Falls, Corsicana, Highland Park (Dallas), Grand Prairie and Galena Park shouldn't have too much trouble.

Pampa Strong Eleven

But Lubbock faces a strong Pampa eleven; Henderson tackles Longview; Marshall plays Gladewater and Ysleta meets El Paso High. Lamesa is idle this week.

A few games were played last night and there was really only one surprising result: San Jacinto's 14-0 victory over Lamar in a Houston City conference tilt.

Sunset (Dallas) blanked Weatherford, 40-0, Arlington Heights (Fort Worth) beat Carter-Riverside (Fort Worth), 12-6, and San Antonio Tech smothered Alamo Heights (San Antonio) ,48-18, in other games.

University of Arizona end Max Spilsbury has won the school heavyweight boxing championship three consecutive years.

Texas Tech Team Unimpressive In Drill For Tilt With Bears

Unless Texas Tech's Red Raiders tighten their defenses and sharpen up their offenses, it's liable to be a sad afternoon in Jones Stadium Saturday.

When the long drills on offense and defense had ended yesterday, none of the coaches looked pleased with the results. The various varsity teams, working on dummy scrimmage against the freshmen, didn't look good. And many of the players knew it. They admitted that they were too slow and the blocking not so good, but the biggest trouble was failure to think.

Rotating varsity teams, going from offensive drills to defensive, worked under the direction of various coaches. Coaches G. B. Morris and Polk Robison worked with the offensive teams. While the line blocking was fair, the holes closed too quickly and the downfield blocking was far from good.

Short passes were working pretty well, with Ernest Hawkins, Bill Lyman and Milton Rathbone tossing the aerials. Since there was no scheduled contact work, it was hard to tell about some of the blocking, but the passers were being given good protection.

Over on the practice field, Coach Dell Morgan was drilling the varsity teams on defense against Baylor plays and the results were not particularly good. Again dummy scrimmage was used and again the varsity didn't show up in a good light, with "Adrian Burk" completing too many of his passes too easily.

Burk, of course, is the principal threat the Raiders have to fear. The Bear quarterback has shown himself to be one of the great passers in the country today and his general work in the key backfield spot under the T formation has been impressive.

Backing up Burk at quarterback is another senior, Ray Painter, who also is a good hand. Also on tap are Hayden Fry and Larry Isbell, two of the better quarterbacks.

Halfbacks, especially seniors, come a dime a dozen. Dudley Parker is back to haunt the opposition, as are Lyle Blackwood, Frank McKinney, Johnny Curtis and Bobby Griffin, all veterans. James Parker and James Jeffrey are a pair of junior halfbacks who could cause trouble.

Baylor Line Big

Baylor has a mammoth line, too, with a defensive unit that weighs over 210 pounds on the average. Two 230-pound tackles, Steve Dowden and Ken Casner, spark this unit. Their main forward wall is punctuated with speed plus weight. End J. D. Ison is Burk's favorite passing target and Henry Dickerson, another wingman, is the afterpoint specialist.

Special Grid Train Slated

One or more special trains may be run from Lubbock to Amarillo for the big game between the Amarillo Golden Sandstorm and the Lubbock Westerners next Friday, providing the public here wants to make the trip by train.

So many persons have telephoned the Santa Fe office that Ray Forbes, division freight and passenger agent, announced yesterday that the Santa Fe would run the special train, providing the public demanded it.

Forbes sad that if 175 persons sign up for the trip, the Santa Fe would run a special to Amarillo. Tentative leaving time from Lubbock would be 4 p. m. for the two hour and fifty minute trip. The train would leave Amarillo approximately an hour after the game.

Cost of the round trip ticket to Amarillo would be $6.33, with children under 12 years of age going for half fare. Forbes pointed out that since over 4,000 persons will be making the trip, traffic, especially after the game, will be extremely heavy. There is constantly present the danger of a serious accident.

Any Lubbock residents interested in making the trip by train should call the passenger agent at 4472 or 4862 immediately.

The high school football squad, band and pep squad will make the trip bu bus, officials having made those plans some time ago.

Ponies To Tangle With Owls Saturday

Loop Games Top SWC Schedule; Baylor Favored Over Raiders

By HAROLD V. RATLIFF
Associated Press Sports Editor

Southwest conference football teams will be taking care of unfinished business at home this week-end.

Three conference games and one against an old buddy will make up the schedule.

Feature attraction will be at Dallas where Southern Methodist's defending conference champions make their start in the title race. The Mustangs play Rice and a crowd of 65,000 is expected to be in the Cotton bowl for the battle. It's the only night game of the week.

In other conference tilts, Texas A. and M. will play Texas Christian at Fort Worth and Texas will make its bi-annual pilgrimage to Little Rock to joust the Arkansas Razorbacks.

The Aggies and Texas will be playing their first conference games. Arkansas, which has won one and lost one, must take this test to retain a chance at the pennant. Texas Christian, which lost its only time out—against Arkansas—is in the same boat. Two liekings in this tough conference means the season is over except for the formality of playing out the schedule.

Texas Tech, which has long wanted in the Southwest conference, plays most of the conference teams each season. Baylor will be the third this year. The Red Raiders lost to Texas and Texas A. and M. They appear to have little chance against the ra.. -sharp Baylors.

Rice is slated the major contender for the championship. A win over Southern Methodist would, of course, install the Owls as the favorites.

Texas, now expected to be a most important factor in the title campaign — on the face of the Longhorns' great showing against mighty Oklahoma—ought to win from Arkansas going away. Texas has an injury list but that's nothing new. It had one of those against Oklahoma.

Baylor Is Favored

It has been two years since Texas Christian won a game at home. The Aggies present probably the best opportunity to break the string. But A. and M. is no setup, especially for a T. C. U. team that hasn't come close to meeting expectations itself.

We hit all except one last week (Texas did us dirt by losing to Oklahoma), and feeling greatly encouraged make another stab at perfection:

Rice vs Southern Methodist at Dallas—We'll take S. M. U. until somebody beats the Methodists; Southern Methodist by a touchdown.

Baylor vs Texas Tech at Lubbock — Baylor by three touchdowns.

Texas vs Arkansas at Little Rock —Don't sell Arkansas short—you know Razorbacks make good shortening; Texas by two touchdowns.

Texas Christian vs Texas A. and M. at Fort Worth—Look for a lot of touchdowns, with T. C. U. scoring the most. T. C. U. by 13 points.

Tahoka Opens Homecoming

TAHOKA, Oct. 14—(Special)—Tahoka High school got its annual homecoming events underway last night with a victory bonfire and the homecoming activities will be climaxed tonight with crowning of the football queen at the District 4-A conference game between Post and Tahoka here.

A special assembly will be held this afternoon at 3 in the high school auditorium for ex-students, who will be guests. There will be a big pep rally at that time. More than 200 ex-students, for whom addresses were available, have been invited to return.

All ex-students registering at the high school program Friday afternoon will receive free passes to the Post football game.

Coaches Jim Foust and Wayne Pipes are the only two persons who know the identity of the football queen. She was elected by secret ballot Monday morning. Candidates in the final balloting were Edith Aldridge, JoAnn Thomas, Elna Dunagan, Hazel Johnson and Geneva Marlin.

The girls will be driven onto the field on a special float 20 minutes before game time Friday and one will be crowned queen of the team by Co-captains Clark Farr and Bert Stevens.

The Tahoka homecoming activities and arrangements are under the sponsorship of the Tahoka High school student council. Members, elected by the student body are, John Shepard, president; JoAnne Bennett, vice president; Geneva Marlin, secretary - treasurer; Jean Henderson and Lester Cowan, senior class representatives.

Also, Wendell Moore and Patsy McGinty, junior class representatives; Tommie Wharton and Betty Huddleston, sophomore class representatives; Paxton Hutchison and Edith Aldridge, freshman class representatives; and Gary Mitchell and Jerry Aldridge, eighth grade representatives.

Dunbar Center Lost For Next Two Weeks

Dunbar Panther's 19-0 loss to Abilene Wednesday night was a costly one for the local school from the standpoint of the defeat and the loss of their flashy center, Odell Gary, for the forthcoming Odessa tilt next week.

After playing most of the first half, Gary was carried from the field in the third quarter, presumably with a head injury. A hospital examination showed the injury to be slight, but Gary was immediately confined to an Abilene hospital with pneumonia, Coach Damon Hill reported Thursday.

Treatments for the illness was started immediately, and Gary was reported to be in good spirits. According to Hill, Gary hopes to return to the lineup in two weeks.

Firing Of Coaches By A's Is Studied

PHILADELPHIA, Oct. 14. (AP)—The surprise firing of Coaches Al Simmon and Earl Brucker by the Philadelphia Athletics has started baseball's hot stove league boiling in the Quaker city much earlier than usual.

"What does it mean?" asked the A's fans as they pondered yesterday's dismissal by the club's board of directors of two men often highly praised by Connie Mack.

Were Simmons and Brucker let out to enhance the position of Earle Mack as manager when his 86-year old father decides to step down?

Does it mean that Jimmy Dykes, Athletics coach last season and one-time Chicago White Sox pilot, will step into the grand old man's shoes?

None of the Mack family would comment. Dykes was enroute to his Los Angeles home.

Deadline Set On Tech Grid Ducats

A block of reserved seat tickets, not called for by persons making the reservations, will go on sale Saturday morning at 10 at the Texas Tech athletic office in Jones Stadium for the Baylor game.

Tickets will go on a first come, first served, basis, with the general public reaping the benefits. Persons making these reservations have until 10 a. m. to claim them before the tickets are placed on general sale.

In addition to the reserved seats, there will be 1,800 general admission end zone tickets on sale at 10 a. m. Saturday. First chance at these tickets will go to Texas Tech ex-students, who may buy them before 10 a. m. The remainder will go on public sale.

All ex-students should register at a booth, either on the campus or in one of the Lubbock hotels. This registration will serve to identify them when they request end zone seat tickets.

Henderson Is Bout Winner

Fresh from an easy one-round knockout triumph in a Wednesday night exhibition at Carlsbad, N. M., Levelland's Bill Henderson has resumed training for his Tuesday night battle with Manny Ortega at Chapman fieldhouse.

Henderson romped through a brisk workout at City Club gym late Thursday—a session which gave him more exercise than his quick Carlsbad kayo of Freddie Marquez, brother of Hector Marquez, state bantam champion.

In another exhibition at Carlsbad, Leonard Duncan, Hale Center middleweight, suffered the first defeat of his pro career as he lost a six-round decision to Young Amado of El Paso. It was a close fight all the way, and Duncan's handlers protested vigorously when the decision went to Amado, whom Duncan had beaten in an earlier match.

Duncan is scheduled to meet Dick Smith, former Golden Gloves star from Oklahoma City, in a six-round bout on Tuesday night's card here.

Top Ring Go Slated

The Henderson-Ortega go promises to be one of the top ring attractions ever staged here. With 27 triumphs in 29 pro fights, Henderson has set his sights on a higher spot in the fistic world, and a win over Ortega would springboard him into regional prominence. Ortega, a former resident of Dalhart now fighting out of El Paso, holds victories over such standout boxers as Manuel Ortiz, present world bantamweight champ; Jackie Callura, and Pittsburgh Jackie Wilson.

In Tuesday night's eight-round semifinal, Gene James, undefeated Lubbock heavyweight, goes against Dickie Brown of Amarillo in a re-match. Brown gave James an all-out battle here several weeks ago over the six-round route, and since that time there has been considerable clamoring for another match between the two.

Neff Meets Olivas

Four-round preliminaries will find Charley Neff, Petersburg, taking on Tony Olivas, speedy El Paso lightweight, and Billy Brackeen facing Sam Inagio, also of El Paso, in another lightweight bout.

Officials of Veterans of Foreign Wars Post No. 2466, sponsor of the card, reported an unusually slow sale of tickets Thursday. Ducats, priced at $3.50, $2.50 and $1.50, are on sale at the Hilton hotel, Hub clothiers and City Club gym, all in Lubbock, and at Talley's Barber shop in Levelland. A total of 2,200 seats will be available, with all profits to be divided equally between the Lubbock Goodfellows fund and Girlstown, Inc., near Whiteface.

CZECH NETTERS PLAY

DALLAS, Oct. 14. (AP)—Jaroslav Drobny and Vladimir Cernik of Czechslovakia were to play first round matches today in the men's singles division of the Dallas Country club's invitation tennis tournament.

ATTENDANCE DROPS

NEW YORK, Oct. 14. (AP)—Major league baseball attendance dipped a slight 3 per cent from its record high of 1948 but unofficial figures show the 16 big league clubs still drew 20,312,327 customers during 1949. The New York Yankees were high with 2,321,302.

EIGHT PLAYERS BARRED

BIRMINGHAM, Ala., Oct. 14. (AP) — A strict enforcement of Southeastern conference rules is putting a fair sized dent in the big 12's football ranks. Eight players have been ruled off the gridiron in recent days.

Between the Lines by Joe Kelly

The Amarillo game keeps getting closer and closer, but before it arrives, the Westerners of Lubbock High school have a matter of a game tonight against Pampa. Mind you, we're not underrating the Westerners, nor are we overplaying the Harvesters, but Lubbock should win this one handily. As a matter of fact, even if you forget that Pampa nosed past Vernon only 8-7, the Westerners still have a potent ball club. So long as they keep their love for the game at top pitch, they'll keep winning. Of course love for the game covers terrific downfield blocking, sharp line blocking, the hard running of the backs and the scoring ability of the team.

• • •

Even if Lubbock should find Pampa no tougher than Vernon, North Side or any of the other teams—and we doubt that—don't look for a low score by the Westerners. Coach Pat Pattison doesn't want to kick the other guy, as he has shown by the limited length of time he has left the varsity in the game. But Pat also is a firm believer in having a comfortable score bhind him before he runs in the reserves. He admits frankly that in this day of specialized football, no coach can feel safe with a 21-point lead. It's like baseball where one team rolls to an easy lead early and then tightens off the opposition—maybe. Coach Pat wants that padded margin of safety.

• • •

Pampa doesn't appear to carry enough weapons with which to beat the Westerners, although anything is possible in a football game. The Harvesters did a fine job of kicking the underpinnings out from under Wichita Falls for a half last week, principally because Wichita didn't take Pampa seriously enough. The same could happen tonight. But Pampa's record against Wichita wasn't outstanding. They gained only 127 yards rushing and completed only one pass of six attempts for eight yards. On the otherhand, last year the Westerners rolled to an apparently secure 19-6 margin at the half only to lose 26-19. It was the last defeat handed a Lubbock team and the Westerners are looking on this game as a chance for revenge.

• • •

Welcome back to Lubbock, Texas Tech exes. We hope you find the city to your liking and that the weekend can be completed to your liking. You're in for a fine football game with one of the better teams in the Southwest Conference on hand. You may remember that the scholars weren't giving Tech much chance against Rice last year at homecoming. A couple of breaks and the Red Raiders would have sent the Owls winging back to Houston defeated. According to all the predictions on this game, the Raiders are as badly underdogs now as they were then. Baylor, under Coach Bob Woodruff's guiding hand, has come a long way from the days when Tech used to win from the Bears. In fact, Baylor is knocking on the SWC championship door.

• • •

The Bears have weight and speed, both in the line and in the backfield. Of 27 linemen, only seven stand under six feet and most of them weigh 190 to 230 pounds. It's a big squad, a rugged one, and even better than the squad that beat Tech 13-0 in the rain and mud of Waco last year. Adrian Burk, their passing sensation, is said to be the new Wizard of Texas in the aerial department. He's been doing everything a great passer should do—and been making it look easy. He turned what might have been a close Arkansas game into one of the worst routs between SWC teams seen in a long time. How often can a SWC team coast the last half the way Baylor did? Not often. We can only hope the Bears fail to take a good Tech team seriously.

• • •

Glenn Lewis is in town this week, looking for a coaching job. As he admits, the Green Bay Packers retained him a little too long this season for him to do much good on the coaching front. Glenn, looking sunburned and ready to go, watched Tech practice this week. He said that the Packers had cut him loose outright and he didn't catch on with any other eleven. Why they let him go puzzles him. He started four of six games and turned in a good job. He reported that Bill Kelley, who thought he was going to be used as a defensive end, wound up being used on offense. So far he has played in all the games and apparently is doing well. Glenn said that he survived a shake up that followed soon after he had been released. If you need a good coach, you might get in touch with Lewis through Tech's athletic office.

• • •

Choc Hutcheson, who writes a column for The Morning Avalanche, has succeeded to everlasting fame and glory. We refer, of course, to his election as honorary mayor of Lamesa. May we be among the first to congratulate him. All he has to do now, for 365 days, is to continue to praise everything in Lamesa as the garden spot of West Texas. No Lamesa manager can make a mistake. No Lamesa player can be anything but a complete gentleman at all times. No one else can have any ability and, if Lamesa should lose (heavens forbid), all the breaks went the other way. All of this was brought on by a Sunday column in which we passed on information received from some one else. The information was given us as reliable. Choc has his sources and we have ours. One thing is certain; it brought quick results.

England's Black Country has had recent earth tremors and walls shook at Dudley.

Anton Pounds Out District 3-B Win

ANTON, Oct. 14 (Special) — Anton High school was a notch closer to the lead in District 3-B today following their 25-0 rout of an outclassed Whitharral Panther eleven here last night.

Three speedy backs, Billy Ray Glascock, Bobby Harper and Billy Ray Estes combined talents to lead the Bulldogs to victory. It was an easy triumph for the Anton eleven.

Anton drew first blood early in the first quarter and added a second tally the same stanza to take a secure 12-0 lead. Glascock scored both tallies, the second climaxing a 25-yard march.

Harper jammed over the fourth tally, which came in the third quarter to cap a 30-yard sustained drive, and made the extra point attempt good. This drive followed a second quarter score racked up by Harper.

This was the Bulldogs' fourth win of the season and their third in conference play.

Houston Buffs Get New Pilot In 1950

HOUSTON, Oct. 14. (AP) — The Houston Buffs of the Texas league will have a new manager next season.

St. Louis, parent club of the Buffs, yesterday sold Del Wilber to Rochester of the International league.

Allen Russell, president of the Houston club, said "no one has been chosen to succeed Wilber. It is likely nothing will be announced within 30 days."

The Cards recalled Wilber upon completion of the Texas league season last month.

Texas League Player Limit To Be Boosted

DALLAS, Oct. 14 (AP) — Texas league club owners are due to wind up their fall meeting today with new player and salary limits the only important legislation.

They decided yesterday that the player limit would be increased from 19 to 20 and that the salary limit would be upped from $8,500 to $10,000 a month.

They voted the changes unanimously and said they did it in order to give better baseball by adding more depth to the reserve material. However, as one official pointed out, this also could mean adding a 20 or 30-game pitcher.

The salary raise was advocated last year by Dick Burnett, wealthy Dallas owner.

The 1950 race will open April 11 and close Sept. 10. Pairings for opening day were set as follows: Houston at Shreveport, San Antonio at Beaumont, Oklahoma City at Fort Worth, Tulsa at Dallas.

GAME IS SET

FORT WORTH, Oct. 14. (U.P.)—A barnstorming team of negro allstars, including Brooklyn Second Baseman Jackie Robinson, will play a picked team from the Negro American league at Lagrave field Oct. 28.

RAJK AND TWO OTHERS TO DIE

Hungarian Treason Sentences Upheld

(By The Associated Press)

BUDAPEST, Hungary, Oct. 14 —Hungary's court of appeal today confirmed the death sentence decreed for Laszlo Rajk, former Communist foreign minister who was convicted of treason and attempts to overthrow the government.

The court also confirmed the sentences passed upon five of Rajk's co-defendants — death for two others, life imprisonment for two and a nine-year jail term for the fifth. The sentences were imposed Sept. 24 by a Budapest people's court.

Scheduled to die with Rajk are Dr. Tibor Szoenyi, 46, a former member of parliament who directed the Hungarian Communist party's cadre system supervising the rank-and-file members, and his deputy, Andras Szalai, 32.

Confessed To Charges

The six convicted men, with two others being held for a court martial, confessed to charges that they plotted with American and Yugoslav agents to overthrow Hungary's Communist regime and put the country under the domination of Yugoslavia's Marshal Tito.

Both Tito and the U. S. government have denied any connection with the plot.

The court of appeal confirmed life sentences imposed on Lazar Brankov, 37-year-old Yugoslav who had been counsellor in the Yugoslav legation in Budapest, and Pal Justus, 44, former member of parliament and vice-president of the Hungarian radio.

Also confirmed was the nine-year prison term given Milan Ognyenovic, a Hungarian citizen of Serbian origin described by the government as a Yugoslav spy.

The people's court had ordered two other confessed conspirators held for court martial because they were military personnel. They were Lieut. Gen. Gyorgy Palffy, until his arrest commander of Hungary's army as its chief inspector and the highest ranking army officer in Hungary, and Col. Bela Korondy, commander of the Budapest' police.

After the judgment of the people's court, Rajk said he considered the death verdict against him justified, but his lawyer appealed the sentence on his behalf. The other five men sentenced, though they had abjectly confessed their guilt, appealed for a reduction of their sentences.

Rites Saturday For Mrs. E. H. Crandall

Services will be conducted at 2:30 p.m. Saturday at First Methodist church for Mrs. E. H. Crandall, 70, wife of the assistant pastor of the church, who died of a stroke Thursday morning at her home, 3101 Thirtieth.

Revs. H. I. Robinson, C. A. Bickley, J. O. Haymes and L. N. Lipscomb will officiate.

Burial will take place in Tech Memorial park under direction of McDonald Funeral home.

Pallbearers will be C. H. Hamilton, Frank G. Campbell, O. J. Edler, L. E. Davis and J. T. Carter, all of Lubbock, and Naymon Everette, J. L. Shoemaker, jr., Irvin Jones and R. O. Stark, all of O'Donnel.

Honorary pallbearers will be Methodist ministers of the Northwest Texas district, members of the board of stewards of First Methodist church and members of the Horn Bible class.

Stalin Speaks

(Continued From Page One)

sibility of new wars in Europe, makes an end to European bloodshed, and makes impossible the servitude of European countries under world imperialists."

"Both these peoples," the Russian premier declared, "have the largest potentialities in Europe to complete great actions of world significance."

To Renounce Claims

The sources who reported the impending peace treaties said the pacts would bind the new East German republic to renounce forever any claim on the former German territory now held by the Soviet union, Poland and Czechoslovakia.

They would also commit he republic to give the Soviet bloc the reparations it demanded and to forego "remilitarization."

The Communist Polish regime's representatives in Berlin were especially enthusiastic at the prospect of a treaty putting the Polish-German frontier on the Oder and Neisse rivers. East of that line, in the former German provinces of Silesia, Pomerania and East Prussia, six million Poles have settled since the war.

Revision Is Demanded

All political elements in the Allied-sponsored West German republic except the Communists have demanded recently that the Oder-Neisse frontier be revised. The major point of the program of East Germany's Communist Prime Minister Otto Grotewohl is German renunciation of these eastern war-lost colonies.

The United States, Britain, and France countenanced the expulsion of millions of German inhabitants from the lost eastern territories, but the Allied powers since have insisted that Germany's present eastern boundary is only temporary and is subject to change at the peace conference.

Ex-Sandie

(Continued From Page One)

Luger was an ammunition clip.

Freeman, 21, died shortly ofter the shooting without being able to tell officers any details.

The killer fired into his back, and the bullet coursed through his body and came out through his stomach.

Daily Market Report

Stock Market

MARKET RETREATS

NEW YORK, Oct. 14 (AP) — The stock market retreated today with the lossing running from fractions to 2 points.

During the final hour there was a scattered recovery from the day's low points in a number of issues, particularly in gold and mining shares and in aircrafts.

The volume of trading was about 1,100,000 shares for the entire day.

A number of times during the day there was an apparent tendency to rally but each time prices turned around and slipped lower.

A few issues kept ahead throughout including Admiral Corp., Motorola, Westinghouse, and Santa Fe.

Stocks on the downside included Union Pacific, Standard Oil (NJ), Gulf Oil, Loew's, U. S. Gypsum, Coca-Cola, General Electric, American Can, Allied Chemical, Dome Mines, Republic Steel, Youngstown Sheet & Tube, Studebaker, Sears Roebuck, Boeing, and Radio Corp.

Cotton Market

NEW YORK REPORT

NEW YORK, Oct. 14 (AP) — Cotton futures were firm today. The market was active in early dealings on extensive evening-up operations in nearby October prior to expiration of trading in those contracts at noon today. Thereafter, the market turned quiet, with traders particularly watching farm legislative developments at Washington which will determine the support level of the 1950 cotton crop. Nearby October expired at 29.94 cents a pound, up 45 cents a bale from the previous close.

Futures closed 20 to 40 cents a bale higher than the previous close.

	Open	High	Low	Close
Oct.	29.87	29.94	29.80	29.94-(X)
Dec.	29.67	29.73	29.64	29.71

Grain Market

CHICAGO REPORT

CHICAGO, Oct. 14 (AP) — Corn dropped a couple of cents in an all-around weak market on the board of trade today. The yellow cereal was under pressure from the start and worked downward throughout the day.

Cash prices also fell. The premium over the December delivery for No. 1 yellow corn was 7 to 9 cents compared with 9 to 11 cents yesterday. Dealers reported very little demand late in the day's trade.

The December wheat contract showed resistance to the general decline on buying by local traders and scattered orders from commission houses.

Wheat closed ⅛ to 1 cent lower, December $2.11⅝-½, corn was 1½-1¾ lower, December $1.15⅞-¾, oats were ⅛-⅜ lower, December 68-68⅛, rye was ½ lower to ¼ higher, December $1.47½.

FORT WORTH REPORT

FORT WORTH, Oct. 14 (AP) — Wheat No. 1 hard, 2.31⅛-37½.

Oats No. 2 white 85¾-86¾.

Corn No. 2 white, Texas only, 1.51½-55½.

Sorghums No. 2 yellow milo, per 100 lbs. 2.22-27.

Livestock

FORT WORTH REPORT

FORT WORTH, Oct. 14 (AP) — Cattle 400; calves 150; steady; common and medium steers and yearlings 16.00-23.75; beef cows 14.00-16.00 odd head higher; canners and cutters 10.00-14.00; good and choice slaughter calves 18.00-21.00; a few heavy calves up to 22.00 and above; cull, common and medium calves 12.00-18.00; stockers scarce.

Hogs 350; butcher hogs and sows mostly 25c lower with some sales 50c down; pigs 1.00 lower; good and choice 200-270 lb. butchers 18.25; a few 160-190 lb. 17.00-18.00; sows 16.00-17.25; feeder pigs 16.00 down.

Sheep 450; sheep steady; one load good and choice slaughter lambs with No. 2 pelts 22.50; a few cull and common yearlings 12.00-13.50; other classes and grades scarce.

KANSAS CITY REPORT

KANSAS CITY, Oct. 14 (AP) — Cattle 500; calves 200; not enough to make a market.

Hogs 800; fairly active, steady to 25 higher than Thursday's average; good and choice 190-280 lbs. 18.00-35; latter price rather sparingly on choice 210-230 lbs.; good and choice 160-180 lbs. 16.75-17.75; sows 15.00-17.50; stags 13.00 down.

Sheep 500; moderately active, lambs 50 lower, ewes steady; good and choice trucking native lambs 23.00; medium and good shipments 20.50-22.50; odd lots good and choice slaughter ewes 8.00.

Produce

CHICAGO REPORT

CHICAGO, Oct. 14 (AP) —Produce: Live poultry: 33 trucks; the market steady; no changes.

Butter: 609,878 pounds; the market steady; 93 score 62 cents a pound; 92 score 61½; 90 score 59; 89 score 54; carlots: 90 score 59¾; 89 score 55.

Markets At A Glance

NEW YORK, Oct. 14 (AP)—

STOCKS—Lower; trading quiet as prices fall.

BONDS—Irregular; some rails in demand.

COTTON—Quiet; evening-up operations.

CHICAGO—

WHEAT—Easy; upset by weakness in corn.

CORN—Weak; cash prices sharply lower.

OATS—Easy with other grains.

HOGS—Steady to 25 cents higher; top $18.40.

CATTLE—Fully steady; choice absent.

Modest Fisherman Keeps Clothes Dry

WILMINGTON, Calif., Oct. 14 —(AP)—James Hardin, lobster boat fisherman, is particular about getting his clothes wet. But withal he is a modest man.

So when the engine of his lobster boat broke down and the anchor dragged toward the rocky shore, Hardin swam for help.

He disrobed and towed his clothes in a tub behind him. Then he put them back on before he called the coast guard.

Shallowater Man Injured In Wreck

E. W. McClure, 31, of Shallowater, suffered a back injury about 8 a. m. today in a two-car collision two miles west of College on Fourth street.

He was taken in a Rix ambulance to St. Mary's hospital, where he was admitted for observation. Attendants said his condition was "good."

Murder Count Is Sworn Out

JERSEYVILLE, Ill., Oct. 14 — (AP) — A first degree murder warrant has been sworn out against Leonard (Lucky) Hawkins, travelin companion of a 23-year-old navy veteran whose body was found near here Wednesday.

Sheriff C. E. Wedding said he issued the warrant yesterday "on the basis of evidence against" Hawkins.

Police of several states began a search for the fugitive shortly after discovery of the body of Albert C. Clark of Boise City, Okla. Clark died of a bullet wound in the head and apparently was thrown out of his car on a country road south of here. Police have found no trace of the car, a new model.

Girl Was Kidnapped

The last report on the automobile came from Juanita Groves, 19, of Dalhart, Tex., who told officials there she was kidnapped in the vehicle last Saturday.

She escaped, she said, by striking her kidnapper on the head with a fire extinguisher.

The girl's report served to map the route of Clark and Hawkins, who set out from Clayton, N. M., Oct. 1 enroute to St. Louis. Both worked in Clayton and made the trip in hopes of seeing the World Series, which they thought would be played in the Missouri City.

Homecoming

(Continued from Page One)

dent; O. T. Lodal of San Antonio, director; Geore Langford of Lubbock, representative to the athletic council, and D. M. McElroy of Lubbock, executive secretary of the Ex-Students association. Members unable to attend were Ed McCullough of Midland, first vice president; Fred Rollins of El Paso and O. R. (Chick) McElya of Dallas, directors, and Guy Carter of Dallas, immediate past president.

The council is composed of presidents of 17 chapters of the Ex-Students association or representatives appointed by presidents; elected representatives of ex-students in each of the state senatorial districts; past presidents of the ex-students organization; officers of the senior class, and president of the junior class.

Other Business Studied

In addition to ex-student participation in the Silver anniversary celebration, business to come before the council included possibility the association will make an annual distinguished service award to the most outstanding ex-student at each spring commencement and consideration of an amendment to eliminate past presidents of the ex-students' organization from the council. The council also will consider officially adding the executive committee to membership of the council, of which committee members already are ex-officio members.

Schedule For Saturday

The schedule of Homecoming events Saturday, which will be official Homecoming day, follows:

8 a. m.—Opeping of registration in lobbies of Hilton and Lubbock hotels and in principal buildings on the campus.

10 a. m.—Homecoming parade starting downtown and going to the campus.

12 noon—Buffet luncheon in gymnasium, given by Furr Food stores and Texas, New Mexico and Oklahoma Coaches for all ex-students, their wives or husbands, and also all faculty members.

Game Is Highlight

2:30 p. m.—Texas Tech-Baylor university football game.

6 to 9 p. m.—Reserved for organizations having open house entertainments and other social events.

9 p. m.—Homecoming dance for ex-students and their friends, in Texas Tech gymnasium, with Burl Hubbard's orchestra playing, through courtesy of Avalanche-Journal Publishing Co. and KFYO.

New officers are to be elected by the association council at a breakfast at 8 o'clock Saturday morning in Hilton hotel. They will be introduced at the Homecoming luncheon.

Candidates for officers are Ed McCullough of Midland and Wayne Sellers of Fort Worth, for president; John Hiner Wilson of Lubbock and Hart Shoemaker of Abilene, for first vice president; W. W. (Windy) Nicklaus of Amarillo and Ralph Blodgett of Spearman, for second vice president; Forrest Weimhold of Levelland and Fike Godfrey of Spur, for director; and George Langford of Lubbock and Marion Harris of Muleshoe, for athletic council representative.

Entertainments Scheduled

Numerous entertainments by campus organizations are to be conducted during Homecoming.

A note of solemnity will mark the celebrations at 8:30 a. m. Saturday, when a bronze bust of K. M. Renner will be presented the college in the agricultural auditorium. Professor Renner was head of the dairy manufacturing department from 1927 until his death in 1947. Earl Collins of the Bell Ice Cream company will present the bronze bust on behalf of students, alumni and friends to Dr. E. N. Jones, vice president of the college. Money given for the memorial and left over after its purchase will go into a K. M. Renner Memorial Scholarship fund.

Forty-three floats have been entered in the Homecoming parade, in which campus organizations will compete for trophies in beautiful, descriptive and comic categories. In addition, the Thomas trophy will be given to the organization entering the float judged best among winners in all three categories. The trophies are given by Lucian Thomas, ex-student. The Tech band will lead the parade.

Between halves of the football game, the annual freshman shoe race is to be conducted and an elaborate performance is to be presented by the Texas Tech band.

Another tradition to be carried out is that allowing freshmen to remove their green caps if the Red Raiders win the Homecoming game. Otherwise they will wear the caps until Thanksgiving.

11 Persons Injured In Truck-Car Crash

One Victim Of Collision At Levelland In Critical State

LEVELLAND, Oct. 14 (Special) — John David Goley, 7, son of Mr. and Mrs. H. T. Goley, sr., of Blossom, remained in critical condition today at Phillips-Dupre hospital here of head injuries suffered in a car-truck collision two miles west of Levelland about 5:30 p. m. Thursday.

He was one of 11 persons injured in the accident.

Vivian Sue Justice, 18, daughter of Mr. and Mrs. J. O. Justice, living seven miles southwest of Levelland, was riding in the car with eight members of the Goley family. She received a dislocated right hip and scalp lacerations, but attendants said her condition was "good."

Robert Goley, 8, one of the six Goley children, also remained in the Phillips-Dupre hospital here today with less serious scalp lacerations, Mrs. Goley, 37, was hospitalized with several fractured ribs and a chest injury. Her condition was described as "fair."

Seven other persons receiving less serious injuries were dismissed after treatment for lacerations and bruises at the hospital. They were:

M. L. Abney, 39, and his brother, Reames Abney, about 42, Levelland oil field workers riding in the pickup, and the other four Goley children, H. T., jr., 14, Dorothy Faye, 18, James Elder, 11, and Ernest, 2, and the father, H. T. sr., 41.

Were Farm Workers

Sheriff Charlie Bullock of Hockley county said the Goley family was in the area to pull cotton and had been working on the Justice farm. Miss Justice was riding to Levelland with the family when the crash came.

Goley, his wife and two of their children were thrown along the roadway when their car was all but demolished in the crash, Bullock said, and M. L. Abney was tossed from the pickup.

According to Bullock, the collision came when Goley, driving east in a 1940 Plymouth, attempted to pass a car on a curve two miles west of Levelland on the Levelland-Morton highway, at a point near the Consumers Co-op refinery.

The 1949 Studebaker pickup, driven by M. L. Abney and owned by his brother, Reames, was going west, Bullock said. The sheriff said the crash was not head-on, but nearly so, as the pickup collided with one side of the car.

Bullock said the two-door Plymouth sedan overturned, but that the pickup remained on its wheels. The front of the pickup was heavily damaged, he said.

Seven of the injured were brought to the hospital by ambulance, while Bullock's deputies brought in the other four, he said.

Kidnaped Boy

(Continued from Page One)

prints "do not compare" with those taken from Ronald's playthings after his disappearance.

At the same time he conceded that the fingerprints on the toys might not have been Ronald's.

The blood tests of Tommy and the Thompsons might not givea final answer either, medical men pointed out.

The tests could prove that Tommy is not their son. On the other hand, they could not prove that he is.

Tommy, whose background is hazy, has been a ward of the state of Michigan since the state took custody of the boy from a Mexican family. The family said Tommy was the son of an unwed mother who did not want to keep the child.

Lewis Bid

(Continued From Page One)

and western mine owners.

Government seizure was on the minds of both owners and the UMW. Lewis said yesterday it might be the answer to the stalemate.

Today, the owners said they would prefer seizure rather than "cut our own throats" by yielding to Lewis' price demands.

Operators "Impoverished"

"If it has to go to government, let it go to government," said George H. Love, chief spokesman for the operators negotiating here for two-thirds of the nation's commercial soft coal production.

"The average operator is a pretty impoverished fellow," Love told a news conference.

"He is not going to cut his throat by increasing his costs this year. If there is a spontaneous movement in this industry, as Mr. Lewis says there is, it is among the small coal operators. They are unanimous in saying that they can't pay any more.

"There is no more reason to seize the industry than to seize the union," Love continued, hastening to add he was not suggesting that either.

Lewis yesterday said the 400,000 striking coal miners would go back to the pits under a "bona fide" seizure by the government.

Tech Board To Hold Session

Members of two committees of the Texas Technological college board of directors were arriving in Lubbock today to go into sessions preliminary to Saturday morning's regular meeting of the board.

The regular meeting is scheduled for 9 o'clock Saturday morning in the office of President D. M. Wiggins.

To Consider Contracts

The board will consider and possibly award contracts for plumbing, heating and electrical work in the two wings to be added to the administration building. General contract for that construction was awarded recently and work has opened.

The board also will study proposals for construction of wings to the engineering building and for construction of a new home economics building.

Two committees were to meet at 3 o'clock this afternoon. The building committee was convening to discuss further building projects on the campus and the finance committee was meeting to consider possibility of securing funds for construction of a student union building on the campus. The committees will report to the board Saturday morning.

Members Are Listed

Members of the committees are: Building—C. E. Weymouth of Amarillo, chairman, Robert B. Price of El Paso and Leon Ince of Houston.

Finance—Price, chairman, Ince, Charles Wooldridge of Dallas and C. T. McLaughlin of Snyder.

Other board member are Charles C. Thompson of Colorado City, Raymond Pfluger of Eden, A. G. (Pat) Mayse of Paris and Mark McGee of Fort Worth.

Ince and Weymouth were in the city shortly after noon and others were expected to arrive before committee sessions opened.

Hospital To Hold Open House Sunday

Sister M. Bertrand, superintendent of St. Mary's hospital, today extended a cordial invitation to Lubbock residents to attend an open house at the hospital from 3 to 5 p.m. Sunday to commemorate the new 18-room wing.

Rev. William F. Blakeslee, Pastor of St. Elizabeth's Catholic church, will say a prayer in the wing at 2 p. m. and then will ask the benediction in the Sister's chapel at the hospital.

A special guest at the hospital Sunday will be Rev. Mother Louis, mother general of the Sisters of St. Joseph, who operate the hospital.

Sister Michael Rene, business manager of the hospital, said patients will be admitted to the new wing as soon as the open house is completed.

Each room is private and equipped with new furniture. The entire wing is air conditioned and centrally heated.

Funeral Set Today For Hobbs Woman

HOBBS, N. M., Oct. 14 (Special) —Funeral services were to be held at 2:30 p. m. today in the East Side Baptist church for Mrs. Lettie Gaddy, 44, of Hobbs, who died in Hobbs, N. M., Thursday afternoon after an illness of several weeks.

Burial was to be in Lubbock cemetery under direction of Rix Funeral home.

Mrs. Gaddy had been a resident of this vicinity for 25 years. She is survived by four sons, Dillard Gaddy of Illinois; and Delton, Garland and Harold Gaddy, all of Hobbs; two daughters, Bessie Joy and Deneliene Gaddy of Hobbs; her mother-in-law, Mrs. W. B. Gaddy, 1610 Ave. E, Lubbock, and several brothers and sisters, none of whom live in this vicinity.

Congratulations to:

Mr. and Mrs. James Means of Ropesville on birth of a daughter weighing 7 pounds 6 ounces at 8:42 a. m. today at St. Mary's hospital. The father is employed by the Hamilton Roofing company.

Mr. and Mrs. Mack Liston of Tahoka on birth of a daughter weighing 7 pounds 9 ounces at 3:45 p. m. Thursday in Porter clinic. The father is employed at the Cain Motor company.

Mr. and Mrs. L. G. Thuett, jr., of Post Route 3 on birth of a son weighing 6 pounds 3¼ ounces at 2:06 p. m. Thursday in Lubbock Memorial hospital. The father is a farmer.

Mr. and Mrs. Charles Richmond of Slaton on birth of a son weighing 8 pounds 9½ ounces at 3:36 p. m. Thursday in Lubbock Memorial hospital. The father is assistant manager of a hardware store.

Mr. and Mrs. Joe P. Loving of 702 Ave. N on birth of a son weighing 7 pounds 14 ounces at 1:27 p. m. Thursday in West Texas hospital. The father is an automobile salesman.

Mr. and Mrs. M. W. Sinclair of 2121 Eighth street on birth of a daughter weighing 8 pounds 11 ounces at 12:50 p. m. Thursday in West Texas hospital. The father is assistant manager of Walgreen Drug store.

Mr. and Mrs. W. W. Clark of 414 East Yale street on birth of a son weighing 7 pounds 8 ounces at 5:05 p. m. Thursday in West Texas hospital. The father is an electrician for Anderson and Young Electric company.

Mr. and Mrs. Burl Jones of 2004 Sixth street on birth of a son weighing 5 pounds 12 ounces at 5:01 p. m. Thursday in West Texas hospital. The father is a salesman for J. M. Radford company.

Mr. and Mrs. K. E. Campbell of 3212 N. Third street on birth of a son weighing 7 pounds at 1:50 p. m. Thursday in West Texas hospital. The father is a pressman for the Lubbock Printing company.

Mr. and Mrs. T. C. Lowe of 2730 Sanders street on birth of a son weighing six pounds at 9:25 p. m. Thursday in West Texas hospital. The father is a bus driver for TNM and O lines.

Daily Worker.

Benjamin Davis, jr., 46, New York City councilman.

Gus Hall, 39, Ohio chairman.

Irving Potash, 46, CIO fur workers union official.

Robert Thompson, 34, New York state chairman.

John Williamson, 45, labor secretary.

Henry Winston, 38, organization secretary.

Carl Winter, 43, Michigan chairman.

Dennis is 44 years of age.

Gates, Hall, Thompson and Winston all served with the U. S. armed forces during the war.

Stachel, Potash and Williamson are foreign-born.

Warning To Jurors

Before dismissing the jury, and repeating his thanks to its members, Medina told the jurors:

"Do not discuss this case with relatives or friends or members of the pres, magazine writers or anyone who seeks to elicit from you any information about the case."

Then he turned to the defense lawyers. He accused them of "working in shifts, accompanied by shouting, snickering and sneering." The lawyers, he declared, "urged each other on to badger the court."

Their contempt was so great, Medina said, "as to make the imposing of fines a futile gesture."

Attorneys Sentenced

With that, he imposed the following sentences:

Harry Sacher, of New York, six months. Richard F. Galdstein of San Francisco, six months.

George W. Crockett, jr., of Detroit, a negro, four months.

Louis F. McCabe of Philadelphia, 30 days.

Abraham J. Isserman of New York, four months.

Dennis, general secretary of the party, was sentenced along with them.

Sacher vigorously protested the sentences, saying they "can only have the effect of intimidating the bar of America."

Three of the defendants—Green, Hall and Winston—already had been jailed for the duration of the trial on contempt charges and Medina had served notice that he would deal with their lawyers as soon as the trial ended.

In the historic trial the government charged that the Communist party was reorganized on orders from Moscow in 1945 as a conspiracy secretly devoted to violent overthrow of the American government.

The defense contended that the party is a legitimate political organization working for the establishment of soliacism by legal means.

Caution Urged For Heavy Grid Traffic

Policing agencies here combined this afternoon to urge "utmost caution" of motorists tonight in connection with grid traffic bound to and from Tech field.

"Be especially careful at Fourth and College and at Eighth and College," the police advised.

"We will have a patrolman on duty at each intersection to signal traffic with hand-operated lights.

"Those signals will change quickly, so every approach to the intersections should be slow.

"Avoid injury and property loss by keeping cars under control at all times."

Child Bride, Now 70, Advises Girls

ST. PETERSBURG, Fla., Oct. 14—(AP)—A bride at 11, a mother of nine at 25, and a grandmother at 30.

That's the story of Mrs. Olive Litz Maltz. Now at 70 she has this advice for married couples:

Don't run home to mama everytime something goes wrong. Shoulder your own burdens, and forgive and forget.

Mrs. Maltz and her first husband met at a party and married three days later. He was 31—her senior by 20 years. The marriage lasted Four years ago, she married again.

Headline Briefs

James Russell Gafford, 37, of Lubbock pleaded innocent this morning of drunk driving, and County Judge Walter Davies set trial appearance bond of $500. The arrest was by the state highway patrol at Posey community.

Lish Dansby, described as a negro about 35, was fined $25 and county court costs Thursday on a plea of guilty of aggravated assault upon Willie Mae Dansby, his wife.

The South Plains was represented by two county superintendents, Mrs. Willie Merle Haithcock of Hale county and Roy Boyd of Lubbock county, at the fourth national conference of County and Rural Area superintendents in Memphis, Tenn., Monday through Wednesday. Boyd was one of the resource persons for a discussion in a group meeting.

Mrs. J. O. Green has returned to her home at 2621 Twenty-fifth after undergoing emergency major surgery at West Texas hospital Sept. 23. Her condition was considered satisfactory today.

Lt. (jg) Dewey E. Ellison, USN, of 1802 Avenue H, Lubbock is scheduled to arrive at Norfolk, Va., October 15, after a three-week cruise in the Mediterranean a crew member of the destroyer mine sweeper USS Macomb. The Mccomb put in to Algiers, North Africa, to afford the crew a period of leave and liberty before leaving the Mediterranean for Bermuda, B. W. I., en route to Norfolk.

Cars Found

(Continued From Page One)

vestigation into his possession of a clarinet which had been stolen Monday from a City bus, from Billy Fleming, a student.

When arrested, Robinson was at the Fleming residence at 2623 Edna attempting to collect a reward for the instrument's return, officials said. He had the clarinet with him.

Dallas Officers Arrive

Police earlier received a tip that a witness had seen the theft of the instrument.

A charge probably will be filed in the case, police said.

Dallas officials, City Detective J. O. Fields of the criminal investigation division, and Dep. Sheriff E. L. Warnack, came here to accept custody of Calvin H. Garner, 53, who is charged in Dallas with embezzlement.

The suspect was arrested here this week by City Detective Robert West after inciting suspicion at a hospital where he had sought treatment. He was employed by a drug store in Oak Cliff when he left Dallas several days ago, the Dallas officers said. Included in property found in his possession here, they said, was a quantity of drugs.

Small Tropical Storm Located

MIAMI, Fla., Oct. 14. (AP)—A small tropical storm, with highest winds up to 45 miles an hour, churned into the Atlantic from the Bahamas today, veering away from the Florida coast.

The weather bureau here said at 5 a.m. (EST) that the disturbance was located about 100 miles north of Mayaguana island and was continuing its north-northeasterly course at about 10 miles an hour.

Caution Is Advised

The disturbance, still in its formative state, was expected to increase both in size and intensity. Forecasters added, however, that it was still too early to tell accurately what the storm might do.

The disturbance, attended by rain and thunder showers, was about 500 miles southeast of the Florida coast.

"Shipping in its path," the weather bureau warned, "should exercise caution."

Developed From Squall

W. R. Davis of the U. S. hurricane warning service said the storm developed in the southeastern Bahamas from a broad, flat squall condition that prevailed over most of the Bahamas Wednesday night and Thursday morning.

Military "hurricane hunter" aircraft planned to ride into the disturbance area today, forecasters said, which should give a clearer picture of the storm.

Rice Hazing

(Continued From Page One)

committee" from hazing practices.

Minor Hazing Allowed

Student Council President Ben Hammond said vigorous hazing had always been outlawed on the Rice campus, but that such traditional things as 'slime" caps for freshmen, the annual shoe scramble and the "slime" parade had been condoned through the years.

The 3-year-old "freshman guidance committee" claims freshmen will not participate in these traditional activities, Hammond explained, unless the broom is used.

Hammond viewed the brooming as one of the most "objectionable" hazing routines, but said the bombing had to go, too. He believed the bombing was just a fad. Likewise out the window would go molasses showers and other "personal humiliations," said Hammond.

The new committee will be a trouble-shooting body to investigate grievances and put a stop to any hazing that could cause physical or mental harm," Hammond stated.

Football Game Film Shown At ABC Meet

Warlick Carr and Hugh Anderson, Lubbock lawyers and members of the Toastmaster's club, today spoke in behalf of the Community chest drive to open next week at a luncheon meeting of the Community chest drive to open next week at a luncheon meeting American Business club at the Hilton hotel.

The program also included the showing of the New Year's Day Cotton bowl classic at Dallas between SMU and Oregon.

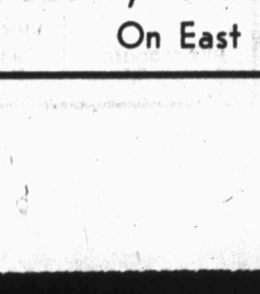

Club guests were J. D. Hunter, Hershel and Arch Lamb, Dallas Atkins, Jack Hall and Robert Dennis.

George Dale presided.

HST Likes News Broadcasts, Theater

President Truman Not Real Movie Fan, Reporter Finds

By BOB THOMAS
Associated Press Staff Writer

HOLLYWOOD, Oct. 14. (AP)—Here's another worry for Hollywood—President Truman is not much of a movie fan.

Through an official source, I submitted a list of question about the President's entertainment habits. Here, in part, is the reply:

"I hate to disappoint you, but there is little I can tell you about the President's movie habits. The reason is that he is not very much of a movie-goer.

"He likes to see a newsreel now and then in the movie projection room of the White House. Usually present with him are a few members of the White House staff.

HST Likes Theater

"He likes the theater, as was indicated by his published remarks at a press conference the other day.

"He likes news broadcasts on the radio, and listens when time permits. He has seen important news events on television, including the Democratic convention at Philadelphia before he went up there himself to accept the nomination."

Mr. Truman's lack of enthusiasm for movies contrasts with his predecessor. FDR was probably the most avid film fan of the presidents.

Earlier this year, Mrs. Roosevelt told me the availability of motion pictures made it the most practical entertainment for her husband, because of his incapacity. She said his biggest complaint was the length of "Gone With The Wind." He slept through part of it and awoke to scold, "no picture has a right to be that long."

Ban Is Scored

From reader Don McAnally of Toledo come some pertinent remarks on barriers against tourist visitors by film studios:

"Industry has learned that it is good public relations to open its doors to visitors. . . The fact that doors are opened, that visitors are wanted and welcomed, creates favorable public relation — the very thing which most studios want most, especially now, to build attendance and profits. It seems to me that the studios are taking the wrong approach to what could be a great trade builder."

LAST RITES SET

McALLEN, Oct. 14. (AP)—Last rites were to be held today for District Judge James Bruce Ferguson of Pharr. He died Wednesday night in San Antonio.

Crowds Jam Concert Of Margaret Truman

ATLANTA, Oct. 14. (AP)—A sell-out crowd of 5,500 attended the opening of the Atlanta concert season last night by Margaret Truman.

Music lovers and just about everybody who is anybody in the top-flight social brackets of this old time Confederate stronghold were on hand to greet the President's daughter with warm applause.

It was Miss Truman's first large scale appearance as a lyric soprano.

Unfortunately for Miss Truman, the night was warm and sticky and the audience sought relief from the oppressive heat in the non-airconditioned auditorium by fanning vigorously with programs.

Though Miss Truman appeared to be quite cool in her pink marquisette and black lace gown, she reached quickly for a towel each moment she was off stage.

Most of Miss Truman's program was well tailored for her voice—simple and sedate drawing room songs.

She was recalled for six encores.

HUSBAND BEATER

GRAND RAPIDS, Mich. (U.P.) — Grand Rapids police report a wife beat her husband so much he packed his bags and went home to father.

Europe's Currency Devaluation Is Not Cure For All Problems

By SIGRID ARNE
Associated Press Staff Writer

WASHINGTON, Oct. 14.—The cold arithmetic of American trade with Europe doesn't leave you quite so ecstatic about Europe's currency moves as U. S. government leaders sounded. There are some terrific hurdles for Europe to take, and a bitter pill or two seems inevitable for Americans. Here's why:

The British devalued their money—and other nations followed—for one primary purpose: To sell their goods here at lower prices with the hope of selling more, and hence of earning more American dollars.

But how much more must they sell? For what reason? Paul Hoffman, director of the Marshall Plan, told a press conference that Europeans must sell $2,500,000,000 more goods here a year. He added that would only be one per cent of our gross national production, now about $250,000,000,000 a year.

But our foreign trade experts in the Commerce department think Hoffman's figure was too low. They think Europe will have to sell nearly $4,000,000,000 more a year here. The Europeans' problem is to sell as much here as they buy, just to cover current expenses. If they want to pay their debts here they would naturally have to sell more.

Europe In Red

The first half of this year the U. S. shipped Europe goods worth $2,296,000,000 and bought from Europe goods worth only $400,000,000. That means Europe was in the red by $1,896,000,000 for just the first six months of this year.

In July both the stuff the U. S. bought and sold to Europe slipped in value. But the stuff it bought slipped farther than the stuff it sold. So Europe was sliding backward.

Suppose, however, as the trade experts do, that the pace of the first half of the year continued the whole year. By the end of December America would have sold Europe goods worth $4,592,000,000 and it would have shipped us goods worth $880,000,000.

For the whole year it would mean that Europe bought goods worth $3,712,000,000 more than it sold here. Or, to put it another way, it would have to sell four times as much goods here as it does to even accounts. Few Commerce Department experts think that Europe can jump its sales here four times in the next two years—the time left before the Marshall Plan ends. They do point a few factors which may narrow the deficit.

Tourist Spending Cited

The first half of the year American tourists spent $300,000,000 in Europe. That may double by the end of the year. But it is not a clear European profit. Europeans have to spend a good deal of travel money here because so many of the international meetings are now here.

Now that Europe has devalued its money, American dollars can buy European goods at lower prices. That is expected to cause a quick rise in American orders for European goods. So Europeans will be on the road to earning more of our dollars. But the Commerce department experts point out that will mean that more European goods will appear in American stores. Will Americans buy European goods in preference to American? If they do, it will mean that some American factories will have to lay off workers. Or can Americans keep right on buying as much American goods as they have and buy the increased European goods expected in our stores too?

What's more, since European money is "cheaper," it means that Europe will have to pay more for what they buy here. Will Europe begin to cut its buying here? Will that mean that factories and farms and mines will have to lay off workers? Or will American business leadership be wise enough to see that what Europe doesn't buy is priced right enough so that Americans will buy up the margin?

It will take months, maybe a year, before we know the answers to those questions.

EXECUTIVE "WOLVES" ARE AVOIDED

Film Emphasis On Sex Drives Girls To TV, Actress Claims

BY JOHN ROSENBURG
United Press Staff Writer

NEW YORK, Oct. 14 — Hollywood's emphasis on sex is driving hopeful young actresses to seek a career in television, a young TV actress said today.

They're coming to New York to be in television in preference to the movies, said lovely Kathleen O'Hara.

Miss O'Hara, a 22-year-old brunette, said she turned down Hollywood contracts twice for television. The reasons, she said, were many.

First, and most important, she said, was "this matter of sex."

"In Hollywood," she said, "they over-emphasize sex so much it frightens a girl. In television you've got to have it, it's true. But protocol doesn't demand that you over-emphasize it."

Wolves Not So Obvious

No all-night parties with executives whose wives don't understand them, she said. No wolves who promise a screen test and demand the key to the apartment in the same breath.

"And," she added, "there are no contract clauses that stipulate you must pose—in what is practically the altogether—for publicity pictures before you can get a 'break'."

From a professional viewpoint, she said, television has it all over the movies for the aspiring actress.

"It's possible," she said, "just as in radio, to play several roles a week. It's also possible to be engaged by more than one studio at the same time. And beginners, who have small parts, can make a good deal of money modelling or playing the night clubs in their spare time."

There was this to remember, too, she said:

(1) When a television actress becomes a star it isn't necessary for her to buy a swimming pool.

(2) Columnists don't have an ear to your keyhole.

(3) A bad performance is only seen once.

(4) There's little danger of being "typed."

(5) Television is a growing field, open to new faces and new ideas.

Miss O'Hara, who plays in the top-rated Alice Burrows needleshop show, also insisted that television is more satisfying to the actress than the films.

"Television brings you much closer to your audience," she said. "And you get nicer fan mail."

Besides, she blushed, TV's leading men are much younger and handsomer than those in Hollywood.

Truman Says Reds Have No Ethics

WASHINGTON, Oct. 14. (AP) President Truman believes communists have no ethics.

He told a news conference so yesterday after being questioned about his own philosophy.

His Philosophy, he said, is based on the Sermon on the Mount. The President told reporters they could learn all about it in 20 minutes by reading the Bible.

A reporter then asked his opinion of a proposal to set up a government department of ethics to resist communism.

Mr. Truman said, he'd never heard of the proposal, but that ethics have nothing to do with communism — communists have no ethics.

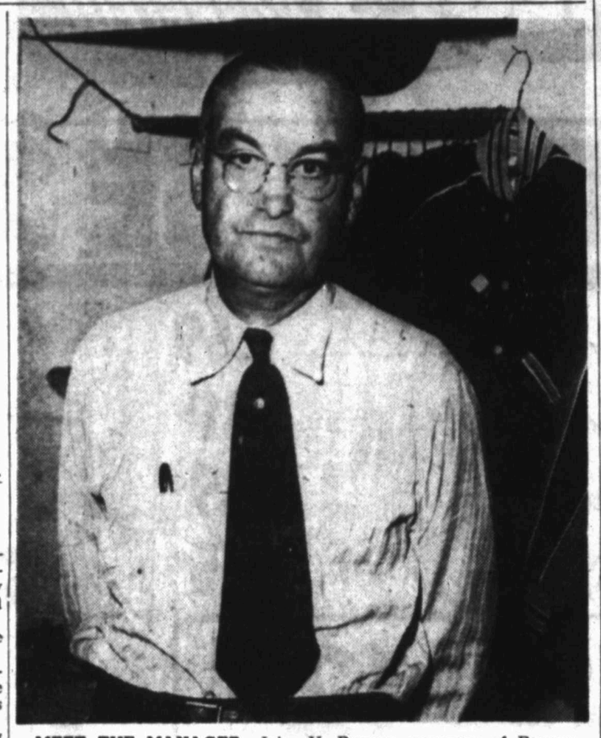

Fort Worth Shooting Declared Accidental

FORT WORTH, Oct. 14 (AP) — The fatal shooting of Lloyd Russell, 39, was termed accidental by Justice of the Peace Whit Boyd in an inquest verdict.

Russell was found by his wife in the kitchen of their home.

A 16 gauge shotgun still sheathed in its case was found beside him. The end of the gun case was ripped open by the blast.

His wife said he was preparing to go on a hunting trip.

MEET THE MANAGER—John V. Powers, manager of Powers Sporting Goods company, 1212 Ave. K, was born at Athens, but was reared at Waco. He attended Waco public schools, then Castle Heights Military academy at Lebanon, Tenn. He returned to Texas and attended Baylor university and Texas A. and M. college. He worked for Behrens Drug company in Waco for several years. He moved to Lubbock in 1937 to establish the Lubbock branch of the company. He remained with them here for two years, then entered the sporting goods business in 1939. He is a member of the Karem Shrine in Waco, the Rotary club, Lubbock Country club and First Baptist church. His hobbies include participating in hunting and golf, and watching all sports. Mr. and Mrs. Powers live at 3213 Twenty-first. (Staff Photo).

Agar Got His Film Start Through Her

Shirley Temple Divorce Seen As Blow To Husband's Career

HOLLYWOOD, Oct. 14 (AP) — The romance of Shirley and her sergeant is finished. The question now is: What happens to handsome John George Agar, jr.?

Shirley Temple, 21, no sooner had filed divorce suit than Hollywood fell to speculating today on the acting future of the six-foot two air force sergeant she married four years ago.

It is no secret that the 28-year-old Lake Forest, Ill., meat packing scion got his film start through his winsome wife, the Little Miss Marker of yesteryear. His first few acting roles, while adequate, have not drawn much praise from the critics.

Charged Cruelty

Agar left the enlarged dollhouse he and Shirley had occupied back of her parents' Santa Monica home. Then late yesterday she filed a brief complaint alleging:

"Since the marriage of the parties, defendant has treated plaintiff with extreme cruelty and has wrongfully inflicted upon her grievous mental suffering."

She asked custody of their daughter, Linda Susan, 19 months but no alimony or support. Shirley specifically requested, however, that Agar be given reasonable visitation rights.

Shirley, then 17, and Agar, stationed at nearby March Air base, were married Sept. 19, 1945, in a crowd of 12,000 thronged around a Wilshire Boulevard church. Gov. and Mrs. Earl Warren headed a guest list of 500.

Both Tried Hard

But "things"—what they were was anyone's guess—popped up to blur that starry-eyed matrimonial takeoff.

"We both tried hard—we really did" to make the marriage work, Shirley said. She admitted that she had gone to Palm Springs last week "to try to find some other way out, but divorce seems the only solution."

So ends another Hollywood era. And those who felt old when Shirley got married feel downright antiquated today.

The state flower of Kentucky is the goldenrod.

LAFB Personnel Demonstrate Equipment For Fire Fighting

Fire fighting equipment on an Air Force base is equal or superior to that in many cities boasting a much larger population, according to Ned McCleskey, installation chief at Lubbock Air Force base.

This was graphically illustrated Wednesday afternoon in a demonstration staged on the flight line as a part of the observance of National Fire Prevention week.

Complete Equipment Included

Fire fighting apparatus at the Air Force base is grouped into two main classifications: crash and structural. The former which is used mostly in case of aircraft fires included a 300-gallon, class 125, crash truck and a 1000 gallon, class 155 truck. Both of these are equipped with foam pick-up nozzles (for blanketing and smothering a fire) and with first aid accessories.

Structural fire fighting equipment includes a 750-gallon per minute (Seagraves) truck carrying approximately 2,000 feet of 2½ inch hose. All of these trucks also carry appropriate ladders, gas masks, first aid equipment and auxiliary lights.

Section Has 81 People

The personnel of the LAFB fire department is made up of both civilian and Air Force personnel. Approximately 81 people are assigned to the section, so that a full complement can be on duty at all times, day and night.

In addition to the special display on the line Wednesday afternoon, the LAFB department has put on two demonstrations each day during the week, showing the use of various types of extinguishers and hand equipment which is distributed about the base wherever there is a possibility that it may be needed. These were staged in various sections of the base so that all personnel stationed there would have an opportunity of attending at least one session.

Lectures Are Given

The lectures on the use of the equipment were given in each case by Assistant Chief Eunice A. Stewart with Carter Shaw, civilian fireman, manning the extinguishers and Sgt. C. E. Cunningham prepared the material for the demonstration.

Appropriate posters were distributed throughout the base, graphically illustrating the fire menace which is ever present, and calling attention to practices which might bring it into the open.

VARI-SPOKED WHEELS

English bicycles, unlike American ones, do not have the same number of spokes in both wheels, but have 32 in front and 40 in the rear wheel, according to the Encyclopedia Britannica.

Van Celebrating Oil Boom's Anniversary

VAN, Tex., Oct. 14 (AP)—Tribute will be paid today to the ways and means that have kept the Can oil field flowing for 20 years.

High officials of the Pure Oil Co. and other oil companies operating in the field will join local, regional and state leaders in the anniversary celebration.

After a noon barbecue, there will be an inspection of the discovery well, the No. 1 Jarman.

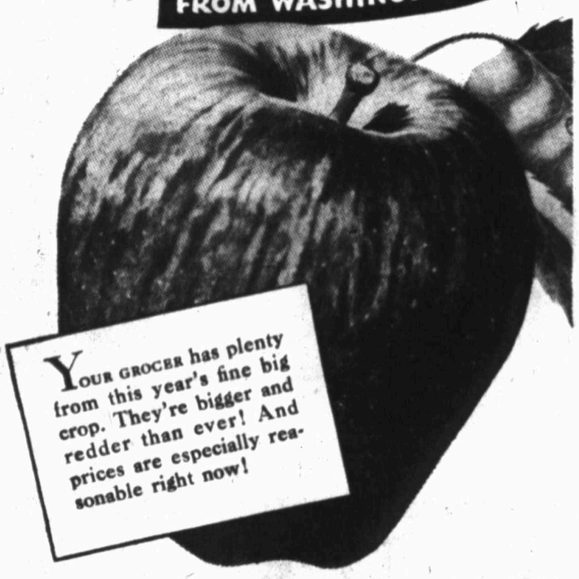

Principal speaker will be L. S. Wescoat of Chicago, president of the Pure Oil Co.

Carl Estes, Longview publisher, will be master of ceremonies.

Tomorrow—Try Golden Rice-Cheese Puffs

Each tender rice puff hides a melting heart of rich, nippy cheese—each one is Crisco-fried for golden crisp perfection!

Crisco—the one and only—brings you light, digestible fried foods!

Too often, fried foods are heavy and hard to digest. But when you fry foods light and crisp in digestible Crisco you can serve them without a worry. 9 out of 10 doctors say Crisco-fried foods are easy to digest!

FRIED RICE-CHEESE PUFFS
(4 Servings)

1 cup uncooked rice
1 egg
2 tablespoons flour
½ tsp. salt
¼ tsp. pepper
¼ lb. yellow cheese
½ cup fine bread crumbs
Crisco for deep-frying

All Measurements Level: Cook rice; drain thoroughly. Cool slightly. Add egg, seasonings and flour. Chill. Shape into balls around a ½" cube of yellow cheese. (Or add grated cheese to mixture before shaping.) Roll in fine crumbs. Fry in deep Crisco 365°F. (or until a 1" cube of bread browns in 60 seconds) 2 to 4 minutes until balls are crispy brown.

VEGETABLE SAUCE

2 tbsps. Crisco
2 tbsps. minced green pepper
1 tbsp. minced onion
2 tbsps. grated carrots
1 tbsp. flour
1 cup milk
½ tsp. salt
⅛ tsp. pepper
1 tsp. vinegar
½ cup cooked peas

Melt Crisco in frying pan. Cook pepper, onion and carrots slowly until tender. Stir in flour. Add milk. Cook until slightly thickened. Add seasonings, vinegar and peas.

For cakes and pies and tasty fries

use CRISCO

IT'S DIGESTIBLE!

TRUCK USED TO MAKE DELIVERIES

Lubbock Girl "Snowed Under" By Letters Of Well-Wishers

Receiving three or four letters in one single day is a big event for most people.

How do you suppose they would feel if they received as many as 1.500 or more in a day's time?

Frances Jondahl, of 2103 Fifth, says it feels "just like you're being snowed under."

And she should know. For she has received close to 3,500 letters and parcels within the past three days. It would be impossible to estimate how many will arrive in the next few days.

The letters are the aftermath of a letter written by Frances' mother, Mrs. H. S. Jondahl, to Jack McElroy, emcee of the Breakfast in Hollywood radio program, asking listeners to write letters to her daughter, who is a cerebral palsy victim.

The letter was read last Monday on the regular Breakfast in Hollywood broadcast over Station KFYO and hundreds of other such stations over the nation.

Letters and cards began to arrive in Lubbock the following day. Most of the early arrivals were sent air mail, special delivery and came from listeners on the West Coast.

By Wednesday the number of letters arriving here began to reach avalanche proportions. It was entirely too much for the neighborhood route mailman and the local post office began to send loads of mail out in a parcel post truck.

By Thursday, which, incidentally, was Frances' twenty-first birthday, the letters were being sent out to the Jondahl residence in bundles of 1,000 or more.

Frances and Mrs. Jondahl have not had time yet to open near all the letters. In fact the letters have been arriving faster than they can be opened and put away in a large basket to be read later.

"As soon as we can we'll open all the letters, then divide them by states, and then begin to read them," Mrs. Jondahl said yesterday.

"It may take the whole winter to get them all read," Frances added.

More letters have been received from California than from any other state, the mother and daughter say, with Louisiana next. Large amounts of mail also have been received from Colorado, Kansas, and Texas.

47 States Represented

In fact, letters have been received from 47 states. Mrs. Jondahl said yesterday she had not seen a Missouri postmark among the mail. However, J. C. Cummings, of the local post office, had brought a large bundle of letters just before she made that statement and she commented that when that bundle was opened and sorted Missouri quite likely would be represented.

While many greeting cards are among the mail, nearly every card of this kind has a note or letter inside. Quite frequently the writers include pictures of themselves, their children or grandchildren, or others in whom they are interested.

A large number of the writers are housewives. Quite a few college students also have written, along with a number of old people.

People in Lubbock and surrounding area have not only written letters and cards, but have also sent flowers, books, and candy.

Frances and her mother said yesterday that because of the large volume of local mail received, it would be impossible to write separate acknowledgements and thank-you's.

"We do want everyone who has written and sent gifts to know that we are grateful," they said.

Frances received a large orchid from Jack McElroy Wednesday. The bloom was sent to McElroy's aunt, Mrs. Carden Green, of 2409 Broadway, who in turn delivered it to Frances. Last Friday, three days before the broadcast, Frances received a package with instructions that it not be opened until Monday. At the specified time she opened the package to find a sterling silver "wishing ring," symbol of the Breakfast in Hollywood program.

Millionaire's Wife Files Divorce Suit

LOS ANGELES, Oct. 14 (AP) — It's Apablasa time in divorce court again.

John V. Apablasa, 73, Los Angeles real estate millionaire, was counter-sued for divorce yesterday by the former Mercedes Leon, 45, who asserted she was his eighth wife. She alleged he left her destitute in Guaymas, Mex., last year.

Apablasa, accusing his spouse of poor arithmetic, said she was only No. 4. He claimed she refused to accompany him to this country from her native Mexico.

Apablasa divorced the former Julie Ann Grant, 29, Milmaukee, Wis., at Juarez, Mex., Oct. 8, 1946, after two weeks of marriage. Two previous wives, Delia and Maria, obtained decrees here. That, says Apablasa, is as far as his records go.

Pillows That Wrap Around Your Ears No Good For Scalp

Bald-Headed Grousers Need Gripe No More-- Bad Sleeping Position Claimed Hair Thief

By HAL BOYLE
Associated Press Staff Writer

NEW YORK — Are you sleeping your hair away?

Well, if you're getting bald, the chances are—says Angelo Mantello—that the way you sleep has a lot to do with it.

Mantello is a middle-aged barber from Wilson, Conn., who spent four decades listening to customers grouse about their hair falling out. And after 40 years of pondering, he's come up with what he thinks is the cause of baldness.

"Such factors as heredity, nervousness and diet have no direct bearing on it," he said. "Baldness results from improper sleeping position.

Correct Habits

"Sleeping on the side and burying the forehead into the pillow causes baldness at the temples. Sleep on the back causes the crown of the head to become bald."

What's a thinning-haired man to do then—sleep standing up like a horse?

"Not necessary," said Mantello. "just correct your sleeping habits. Get a smaller pillow that won't wrap around your ears—a pillow you won't push up against the end of the bed with the crown of your head.

"And don't sleep with your head on your arms. Wherever hand or your arm or your pillow hits, you have no hair—in time."

Mantello looked critically at my own forehead, which has receded almost to the rear neck cuff.

"There is absolutely no reason for anybody to get bald," he said sternly.

Treatments Double Robbery

"It's so simple. People try to make hair grow like spaghetti or macaroni—by pressure. But you can't make hair grow that way any more than you can grass.

"Hair treatments that apply heat and massage are double robbery—they take away your money and they take away your hair. They make the hair fall out before it is ripe, or ready to shed. It's like shaking a fruit tree. If you shake the tree hard enough, even the green fruit falls off."

"If an improper sleeping position is the cause of baldness, why aren't more women bald? I asked. "They use pillows."

"Well, since women started cutting their hair shorter, more of it does fall out," he said. "But one reason they don't get as bald as men is that they wear their hair longer, and that helps keep the scalp moist."

And how do you cure baldness?

"If you don't get bald," said Mantello, tossing his black hair, "you don't need a cure. It's always harder to raise grass on a lawn after you put concrete over it."

AUTOMOTIVE HINT

If front tires on your automobile wear faster than those on the rear, you may be sure the car has lost balance, because wear on the rear tires normally is more rapid.

Borden's Presents EVERYWHERE YOU GO...

REDDI-WIP

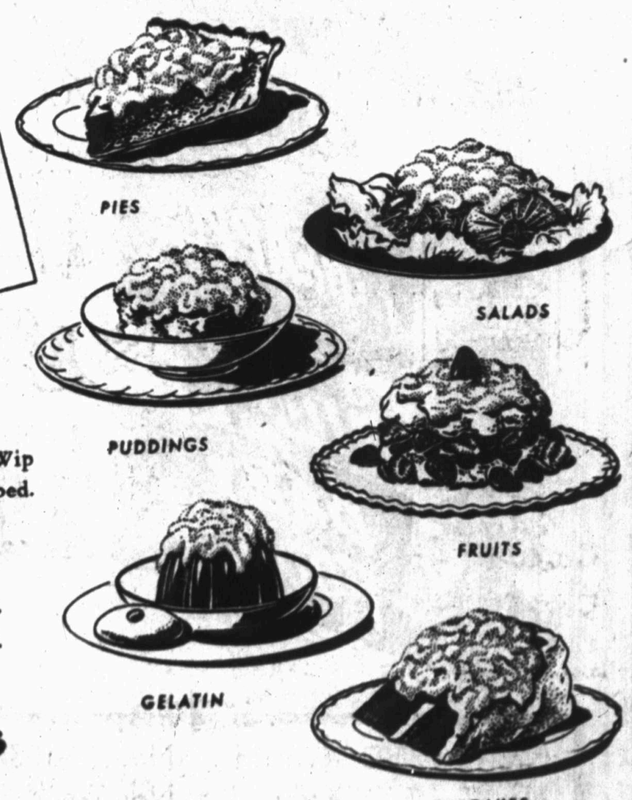

MADE WITH PURE PASTEURIZED CREAM

It gives you rich fluffy cream at the flick of a finger!

Yes, new, amazing Reddi-Wip gives you rich, delicious tasting fluffed cream anytime you want it! Pure, pasteurized Grade A Cream with sugar and vanilla added. Just keep a can in the refrigerator and in seconds you can add eye and taste appeal to a cake or a pie . . . salads, puddings, simple desserts. It's quick . . . easy! No beating or whipping! Put a can of Reddi-Wip in *your* refrigerator and see for yourself how convenient it is. Get Reddi-Wip TODAY!

KEEPS FOR DAYS IN YOUR REFRIGERATOR

You'll be amazed at how long Reddi-Wip lasts . . . how far it goes. Reddi-Wip gives you one-third more than you get from ordinary cream . . . when whipped.

GIVES PARTY-TIME FLAVOR TO EVERY-DAY MEALS

. . . yet costs so little. For just a few cents more, you can turn an ordinary meal into a big occasion—by dressing up dishes with Reddi-Wip.

Quick "Dress Up" for dozens of dishes

IN HOLLYWOOD: BY ERSKINE JOHNSON

Wife Tells How To Find Her Errant Hubby--Just Call D. A.

HOLLYWOOD, Oct. 14. (NEA) A famous star prominent in recent news headlines was called to the telephone in a Hollywood night club. His indignant wife was on the other end of the wire.

"How did you know I was here?" stuttered the film hero.

"It was simple, darling," cooed his wife, "I telephoned the district attorney's office. They ALWAYS know where you are!"

• • •

Sign of the times adv. in a Hollywood trade paper:

"For Sale. Star's beautiful furnished home at Palm Springs. Swimming pool, three bath houses. . . . "Cost $140,00. Want offer." The star is Frank Sinatra.

Oscar Homolka heads for London after completing RKO's "The White Tower." He'll talk to Korda about a movie giving a behind the scenes glimpse into the North African invasion.

• • •

I asked Claude Rains if he thought the movies would survive TV. I think he summed it up neatly with: "All movies have to do is be good."

• • •

Esther Williams has added a restaurant to her business enterprises. She also owns a gasoline station and an interest in a line of bathing suits. . . Louis Calhern inherits the Buffalo Bill role intended for Frank Morgan in "Annie Get Your Gun." . . . UI wanted Marilyn Maxwell to turn redhead for "Outside the Wall." Marilyn kept outside the argument and will remain a blonde."

• • •

PAT ON THE BACK

Great compliment for Charles Laughton. He read a scene from "Julius Caesar" to a group of English teachers at UCLA. Later, one teacher asked to see how he edited the scene.

Laughton replied: "I read it as Shakespeare wrote it. Why did you think I edited it?"

"Because," said the teacher, "it was the first time I ever really understood it."

• • •

Herbert Marshall's 16-year-old daughter, Sarah, makes her Broadway debut this winter in "Harlequinade," which Maurice Evans is directing. . . J. Arthur Rank quietly is trying to sell two of his studios in England—one at Shepherds Bush, the other at Islington.

• • •

Add football schedules: Jo Stafford plays Notre Dame Oct. 15. South Bend is the first date on her winter concert tour. . . George Jessel is talking to Frankie Laine about warbling "That Lucky Old Sun" in a Fox filmusical. It's Frankie's biggest hit. The recording has hit the million mark in less than five weeks.

• • •

Gene Tierney sings for the first time on the screen in "Night in the City." The song title: "Here's to Champagne."

• • •

Claudette Colbert is looking for a big dramatic role. Thinks she's done too many comedies. . . Walter Huston may go to England to do a play about the atom bomb, playing the part of an imaginary U. S. president.

• • •

IN TIME FOR TEA

Anne Baxter joins John Hodiak in England next month. He's working in a movie there. . . Vic Jory and his wife, Jean Innes, will celebrate their 22nd wedding anniversary with a three-month world cruise. Jean just made a film comeback in "The Gun Fighter" at Fox.

• • •

Talk at M-G-M of teaming Dick Haymes and Gene Kelly in a musical. . . Tommy Dorsey will convert his big Casino Gardens ballroom at Ocean Park into a TV theater.

• • •

Harry Sherman's next big western will be "Pride of Palomar," by Peter B. Kyne. It looks like George Montgomery in the starring role.

• • •

Hollywood is talking about:

M-G-M's efforts to put "Ivanhoe" on the screen. It's in public domain, but both RKO and Selznick have prior rights. . . Ty Power's ex, Annabella, coming back to Hollywood early next year to resume her U. S. film career. . . M-G-M plugging "That Midnight Kiss" with a Kisserchief—a hankie with a red center for wiping off lipstick. . . George Pal putting "Destination Moon" into production Nov. 7. Yep, it has an earth-to-moon rocket flight theme—Hollywood's longest "location" trip of the year.

• • •

Guy Madison, Rory Calhoun, Rhonda Fleming and Johnny Agar teaming up for vaudeville dates. They'll be billed as "Selznick Stars of 1950."

• • •

Frank DeVol, the music maestro, says he took his two daughters to the movies on Saturday morning to see an entire program of film cartoons. Later he told his wife: "Honey, I saw so many Donald Duck cartoons I'm suffering from Disney spells."

MIDGET CAMERA—This camera, exhibited at an industrial show in Frankfurt, Germany, is 1¼ inches in diameter, weighs under 7 ounces and used 8 millimeter film.

Sailor Gets Nabbed Stealing Police Car

SAN PEDRO, Calif., Oct. 14. (AP)—Clyde J. Hicks, 19-year-old Navy sailor on shore leave, needed a car.

He spotted a good looking machine in a garage, started the engine and let in the clutch. He raced the engine and tried again—and again.

Then the police arrived. The car, it developed, was in a police department garage.

The judge gave Hicks a 15-day sentence but suspended it so the young salt could go back to sea.

CAB Urged To Okay New Airline Service

WASHINGTON, Oct. 14 (AP) — The Civil Aeronautics board was urged today to authorize immediately new air service to several New Mexico cities.

Continental Airlines, Pioneer Airlines and Arizona Airways are seeking to operate the service. A CAB examiner has recommended granting Continental's application.

Testifying briefly before the board, representatives Fernandez and Miles, New Mexico Democrats, urged a prompt decision authorizing the new routes.

They specifically endorsed Continental's application, which proposes:

(1) A stop at Raton, N. M., on the Trinidad, Colo.-Las Vegas, N. M., leg of its existing route between Denver, Colo., and El Paso.

(2) Stops at Socorro, Hot Springs and Las Cruces, N. M., on the Albuquerque and El Paso; one of these flights would make the three proposed stops.

Robert Smith of Dallas, president of Pioneer Airlines, asked the board to approve an examiner's recommendation that his line be permitted to stop at Artesia, N. M., on its existing route from Amarillo to El Paso, via Clovis and Roswell, N. M.

Smith asked that Pioneer be permitted to abandon its present flights from El Paso to Las Cruces in the event the Continental application is approved, saying there would be an "economically unsound" duplication of service.

NO LONGER WILD

Although silkworms are not found wild today in any part of the world, it is certain that they had their origin somewhere in the Orient.

"PUBLIC WANTS ME," HE SAYS

Swindler Planning Ventures Into World Of Entertainment

CHICAGO, Oct. 14—(AP)—Sigmund (Swindlin' Sam) Engel, who says he has made millions by bilking wealthy widows, has new plans to make a million dollars, legitimately.

The 73 year old Lothario, released from jail Wednesday on $37,600 bonds on a half dozen confidence game charges, appeared enthusiastic about his proposed venture in the entertainment business.

"The public wants me," said Engel enthusiastically. "There'll be television and radio shows, personal appearances, movies and tours when I'm incorporated into a corporation."

Looking For Apartment

Engel, who visited several booking agencies yesterday to discuss a proposed vaudeville tour, said he expects to "make a million dollars." He did not discuss his booking in criminal court on Oct. 24 on one of the swindling charges.

The dapper old man also was busy searching for an apartment for Mrs. Pauline Langton of New York City, his "one and only true love," whom he married last June 14 shortly before his arrest here on a confidence game charge. After the marriage he disappeared with $50,000 of her jewels but all was forgiven when Mrs. Langton visited him in jail last summer.

Mrs. Langton, who described Engel as "the sweetest man in the world," had arranged to fly here yesterday but Engel told her to delay the trip.

Now Has Bodyguard

"She wanted to come and cook for me," Engel said, "but I told her to stay put until I can receive her properly."

Engel, living at a near northside hotel, has a burly bodyguard as a roommate. The bodyguard was assigned by Engel's attorney, J. Edward Jones. He was worried about the $37,600 bond his father put up for Enbel and wanted to be sure the suave old con man would be ready for his court appearance in 10 days. Engel at first objected, but later agreed, to the plan.

"So now I've got a bodyguard," Engel said. "Nice man he is, too,"

Wage Hike Accepted By Dallas Printers

DALLAS, Oct. 14. (AP)—Union printers on Dallas newspapers accepted a $2.50 a week across-the-board wage increase today, averting a possible work stoppage.

Members of the Dallas Typographical union No. 173, employed by the Dallas News, the Dallas Times-Herald and the southwest edition of the Wall Street Journal, accepted the offer by a 261 to 28 vote.

Secretary Bill Aiton of the local said the new contract is for 12 months effective today and that the wage increase is retroactive to Aug. 1 when the previous contract expired.

Aiton said the $2.50 offer was made late last night, not many hours before this morning's union meeting, called to poll members on whether to strike.

"The men are well satisfied," Aiton said. "The new contract vindicates our position. The publishers dealt fairly with us throughout the long talks. Today's agreement is a continuation of the amicable relations which have existed since 1885 between us and the publishers."

In a statement to employes, made through the union on Oct. 11, the publishers said the Dallas wage scale already was higher than the hourly scale paid in comparable cities of the south and southwest.

WHEAT BILLS OKAYED

WASHINGTON, Oct. 14 (AP) — The House and Senate approved legislation today to subsidize wheat shipments to ECA nations under the international wheat agreement which took effect Aug. 1. But each acted on separate bills. One or the other authorizing measures must be acted on by both chambers to complete congressional action.

Letters And Gifts Are Received By Ill Lamesa Girl

LAMESA, Oct. 14 (Special) — Mary Etta Arwin, 7-year-old Lamesa lass in bed with rheumatic heart, whose picture appeared in The Avalanche-Journal several months ago, is still remembered by many thoughtful people.

She has received over 1,000 letters and over 700 packages from over 20 states since her plea went out for mail, her mother said.

A soldier from Lubbock stationed in Germany has been writing her regularly for several weeks.

Her physician reports her condition improved and allows her to sit up in bed for short periods now but says she must remain in bed for many more months.

She is studying her second grade schoolwork at her home, and her teacher reports that she "is already ready for the third grade."

A Lubbock woman a few days ago brought Mary Etta a robe, which she had been wanting for months. A San Angelo resident is sending her a hospital bed.

Wednesday Joy Culp, "Queen of the South Plains" at the Dawson County Fair, thrilled Mary Etta with the presentation of the corsage which she had worn in the parade opening the fair.

Mosquitos spread such diseases as malaria, yellow fever and dengue.

Overseas Broadcasts Use Transcriptions

NEW YORK, Oct. 14 (AP)—Since all radio networks have lifted the ban against recorded relays, use of transcriptions for overseas broadcasts coming via short wave has noticeably increased.

Particularly is this true with news programs. Through the recordings, the original transmissions can come when the reception is best. Also, because of the wide time difference, they can be handled at hours convenient to both sides irrespective of the time the network relay is actually made.

Another point: Should some part of a broadcast be lost in interference, it can be repeated immediately or even later.

FIRST BALLOON ASCENT

The first balloon ascent in America was made in 1793 by Jean Blanchard, a Frenchman, who had achieved fame somewhat earlier by completing the first air crossing of the English Channel.

THEY FEAR FOR THEIR LIVES

Mickey Cohen And Henchmen Desire Safety Of The Clink

LOS ANGELES, Oct. 14—(AP)—Here's a switch: Mickey Cohen and his boys want to get INTO jail.

Professing fear for their lives, four of Cohen's dwindling band of henchmen asked to be locked up yesterday. And they were.

Cohen, who accompanied the quartet to court, indicated that he, too, might seek refuge behind bars in view of the strange disappearance of two of his aides, Frank Niccoli and Dave Ogul.

Wishes For Answer

"I'm ready to go to jail right now—for reasons of safety," the little gambler told reporters. "I'm worried. Iwish I knew the answers to these strange things that are going on."

Cohen and the queasy quartet are all that is left of the group originally charged with conspiracy to obstruct justice in an assault case last summer. Niccoli and Ogul are missing. Edward (Neddie) Herbert is dead, victim of the ambush that almost got Cohen.

The four henchmen now in jail are Eli Lubin, Jimmy Rist, Louis Sshwartz and Harold (Happy) Meltzer. Superior Judge Thomas L. Ambrose exonerated bonds totaling $150,000 and they marched off to jail, relieved. Their trial has been set for January 16.

More Collateral Asked

Cohen said he might ask exoneration of his $100,000 bond today and join the old gang in a cell.

"I came dressed for the can," he remarked to newsmen, the light glinting from his diamond-studded belt buckle.

A bonding company spokesman, however, gave the bizarre events a more sordid financial twist. He said it was just a case of the company getting worried and demanding more collateral after the disappearance of Niccoli and Ogul; so Cohen cashed the boys in.

Meanwhile, police found Ogul's expensive Cadillac parked not far from the henchman's apartment. There were no marks of violence on it.

HAS INCURABLE ILLNESS—Unaware she will probably die in less than a year, 7-year-old Belva Karen Rippetoe plays with her birthday dolls at her home in Bronte, Texas. Last May Belva was stricken with what doctors diagnosed as a light case of polio. After recent checkup at Mayo Clinic in Rochester, Minn., the child was revealed to be suffering from neuroblastoma, an incurable form of cancer. She has not been told the nature of her hopeless illness. (NEA Telephoto.)

Minnesotans Assail New Marriage Law

MINNEAPOLIS, Oct. 14 (U.P.)—Minnesotans aren't happy about their legislators passing a law permitting boys to marry at 16 with consent of parents and the judge of the juvenile court, according to a survey.

The Minneapolis Poll, operated by the Minneapolis Tribune, found that 84 per cent of those questioned disapprove of the law. Only 10 per cent approve.

Most of the objectors claimed 16-year-old boys are too immature to take on the responsibilities of marriage.

Orchestra Praised By City Leaders

Role Of Lubbock Symphony In Cultural, Civic Life Talked

How important a role the Lubbock Symphony orchestra should play in the cultural and civic life of Lubbock and the South Plains was discussed by musical, educational and business leaders at an appreciation dinner given Thursday night in the Hilton hotel ballroom under sponsorship of the board of directors.

Chas. A. Guy, editor of The Avalanche-Journal, was master of ceremonies at the dinner which was attended by 110 business and professional persons.

Invocation was by Dr. Jack M. Lewis, pastor of the First Presbyterian church.

Have Popular Numbers

William A. Harrod, director of the orchestra, pointed out that the orchestra programs are beamed to appeal to the cross section of the population and popular numbers are interspersed with the the symphonic selections.

"Because of the seating capacity of the Senior High school auditorium, 'name artists' are out of our financial reach and consequently we choose local artists and concentrate on pleasing programs, which will appeal to the greater group," he explained.

Tech Professor Speaks

Dr. Gene Hemmle, head of the department of music at Texas Technological college, in speaking on the symphony as an asset in the musical life of a community, said melodious programs are what the people want to hear.

"Music began with the people centuries ago," he pointed out. "Then the royalty and aristocrats took it from them and refused to let the commoners enjoy it. Now it is time for music to be taken out of the ivory tower and given back to the people."

The music head pointed out that a successful symphony orchestra is an asset to the chamber of commerce because it helps to further the publicity of a city; leaders of industry considering moving to such a city are interested because of the opportunity it offers to their families and employes, and it means added business for merchants from residents of nearby towns who attend symphony concerts.

He pledged the support of Tech's music department to the orchestra, especially in the stringed section, and said the college needs the symphony as a means of widening the students' experience through participation or attendance.

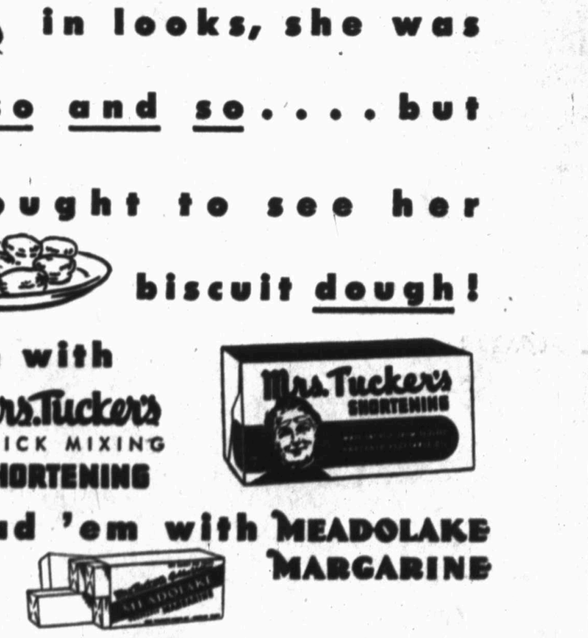

James L. Quicksall discussed the symphony as a civic and business asset. He suggested that Lubbock should support the symphony, because there are residents who are interested in orchestra music as an entertainment means just as much as there are those interested in sports and other forms of recreation.

As a Hub city, retailers and wholesalers seek to establish business relations and create friendly attitudes in nearby towns, Quicksall said. "It is their duty to provide entertainment when South Plains residents visit here," he added. "Since no orchestra is self supporting, it behooves the business men to contribute to the financial support of the orchestra as a civic project."

Roy Bass, chairman of the board of directors, reiterated that the occasion was not to be a fund raising event, but reminded the guests that symphony orchestras are never self supporting.

Guests included three officers from the Lubbock Air Force base: W/O Carmine Luce, LAFB band director; Maj. John Wood, special services officer and Col. George Blase, deputy commander.

CABINET WILL HAVE SLIM CHANCE

Jules Moch Becomes French Premier By One-Vote Margin

PARIS, Oct. 14 (AP) — Socialist Jules Moch got off to a shaky start as France's new premier today by narrowly winning a confirmation vote from the national assembly.

In a tumultuous session the assembly gave him its approval by a 311 to 223 vote. Thus he had only one vote to spare since he needed a minimum backing of 310 deputies.

Announcement of the final result could not be made for almost three hours after the ballots were cast because of disputes over the votes of several deputies. Two absentee votes put the new premier across.

Has Cabinet Problem

Moch, the retiring interior minister, gained a reputation as a "strong man" last winter when he crushed a communist-led wave of strikes. Now he faces the task of naming a cabinet which can cope with the nation's mounting wage-price crisis.

It appears that his cabinet will have only a slim chance of surviving for any length of time. He received the lowest postwar total for any premier on a vote of investiture. Usually a government in France commands progressively smaller votes in each important test. If Moch is to remain in office he must reverse that trend.

The 56-year-old Moch succeeds Henri Queuille, leader of the moderate Radical Socialist party. Queuille resigned as premier eight days ago, climaxing a growing cabinet crisis tracing back to the British devaluation of the pound Sept. 18.

Following Britain's lead, France devalued the franc. That step touched off a split among Queuille's ministers, with the Socialists demanding a general wage increase to meet higher living costs. Ministers of the conservative parties in the coalition cabinet insisted on a hold-the-line wage policy to combat inflation.

Bonuses Proposed

The same division of opinion was evident during the 12 hours of debate yesterday which preceded Moch's confirmation.

Moch proposed giving bonuses up to 3,000 francs (about $9) to workers receiving less than 15,000 francs (about $45) monthly. He also suggested that strenuous efforts be made to bring down prices and called for a return soon to collective bargaining and the elimination of government controls over wages.

Right wing deputies, led by former Premier Paul Reynaud, said Moch's program was inflationary. The communists contended that it did not go far enough.

The communists, whose hatred of Moch stems from his service as a strike-breaking interior minister, called him a "forger" and a "swindler." Communist spokesman Jacques Duclos provoked a hubub by referring to Moch as an "assassin." Other members of the assembly protested such a personal attack.

Immediately after Moch was confirmed he went to Elysee palace to inform President Vincent Auriol of the result. Auriol had named Moch to form a new cabinet. The assembly's vote was on approval of the president's selection.

Five Previous Regimes

The key ballots for Moch were the absentee votes of deputies Pierre Montel and Emmanuel Temple.

Montel, a member of the right wing Republican Party of Liberty (PRL) now is attending the United Nations assembly in New York. Under normal French voting procedure absentee members may have their votes cast for them.

After a period of hesitation Montel's vote was counted in favor of Moch despite the protest of a PRL party leader. Other PRL deputies voted against Moch.

Temple, an independent, now is in Brazzaville, French Equitorial Africa. His vote first was recorded as against but after a telephone conversation that was changed to a vote in favor of Moch.

There have been five previous governments in the two years and nine months since France adopted her present constitution. Among those regimes the lowest previous vote on investiture was 322 to 185 for Robert Schuman when he formed his second government Aug. 31, 1948. That cabinet lasted only five days.

Before Queuille's cabinet fell apart on the wage-price issue it established a postwar record for French regimes by remaining in office one year and 25 days.

Lubbock High Will Aid In Conducting Speaking Contest

Lubbock High School is joining in arrangements for conducting a "Voice of Democracy" public speaking radio contest, being conducted nationally as a special feature of National Radio week, Oct. 30-Nov. 5.

Lubbock High students will have an opportunity to express their views on democracy and at the same time compete for valuable prizes, Homer Wright, chairman of the local committee in charge of the contest, said.

Winners To Be Chosen

Four national winners of the contest will be chosen from recordings of speeches of state and area winners.

Each of the four national winners will receive a $500 scholarship and an expense paid trip to Washington, where they will meet the President and be honor guests at a banquet.

The third annual contest is sponsored by the United States Junior Chamber of Commerce the National Association of Broadcasters and the Radio Manufacturers association. Local representatives of these groups are cooperating in conducting the Lubbock contest.

IS IT WORTH IT?

Body Of Missing Tot Is Located In Creek

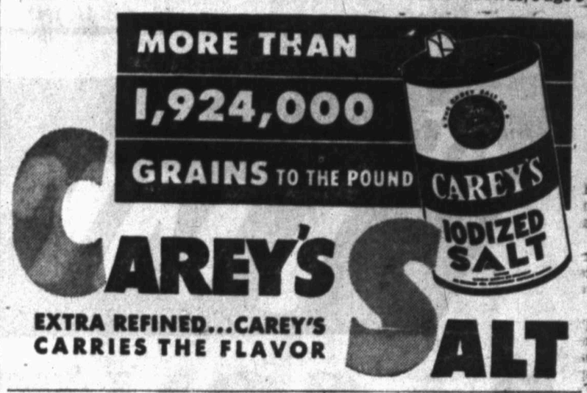

COLESVILLE, Md., Oct. 14. (AP) —A three-day search for missing six-year-old Otis T. Mason came to an end late yesterday with the discovery of the boy's body in a creek less than a mile from his home.

An overhanging bank had hidden the body from previous searchers. A fireman probing with a stick finally found it.

Montgomery county medical examiner Dr. Frank J. Broschart said appeared due to accidental drowning, probably on Tuesday night, soon after he was missed.

Some 500 searchers had combed the nearby woods for the boy after his father, Leroy W. Mason, expressed fear that Otis had met with foul play.

The Masons had moved into the relatively remote neighborhood 14 months ago to afford greater protection to their son, who was afflicted with thyroid gland trouble.

HERE IS ONE OF THE OVENS THAT BAKES THE BREAD YOU EAT

One of the many reasons why most women prefer and select HOLSUM BREAD . . . They realize **That Where Their Bread Is Made IS IMPORTANT TO THEM**

THERE IS A DIFFERENCE IN BREAD

A bad stain needn't mean the end of a good dress!

So OFTEN an ugly stain seemingly ruins a good dress, blouse, pillow-case, tablecloth or other article of white or color-fast cotton or linen.

But not in the millions of homes where housewives are familiar with Clorox! For Clorox removes stains... fruit, berry, coffee, tea, chocolate, wine, vegetable, flower, grass, blood, many dye, medicine, and other stubborn stains ... as well as scorch and mildew!

And Clorox whitens and brightens linens extra-gently... deodorizes, makes them sanitary... lessens rubbing, conserves fabrics.

And here's more Clorox "Magic"!

Sinks, drainboards, wash basins, tubs and toilet bowls often harbor germs... germs that ordinary cleaning can't kill. Clorox removes stains, deodorizes, disinfects ...makes these surfaces sanitary, safer... protects family health!

You get these 2 BIG EXTRAS with CLOROX

1. GENTLER BLEACHING ACTION ...longer life for linens!

2. GREATER DISINFECTING EFFICIENCY ...added health protection!

Clorox conserves costly linens and does a better job of disinfecting because it's free from caustic and other harsh substances...made by an exclusive formula protected by U.S. patent!

Exciting Cranberry Combinations

SUGGESTIONS WORTH TRYING BY THE FOOD EDITORS OF McCALL'S MAGAZINE

It all started back in the days of the Indians — this custom of pointing-up poultry and meat flavor with gay, bright cranberries. No longer, however, need we wait for winter holiday meals to enjoy it . . . both fresh berries and ready-to-serve sauce are in abundance, and most reasonable too.

Just for fun try some of these good variations. Peel and section tangerines or oranges and mix with cranberry sauce, or spoon some sauce over cooked or canned pears for Cranberry Ruby Pears. We McCall Cooks like lime juice with our cranberries plus a little lime rind for nice color, or try stirring in a teaspoon of chopped, fresh mint into plain cranberry sauce. You see there's no end to the exciting combinations.

New Lights And Street Signs Are Ordered For Lubbock

Five More Miles Of White Way Promised In The Near Future

Lights for approximately five more miles of "white way" streets in Lubbock were bought by the city commission at the semi-monthly meeting in the city hall Thursday afternoon.

The commission also approved the purchase of new street-name signs for every interestcion in the city and gave the "go ahead" signal for the provision of a separate building for the city-county department of public health and welfare in northeast Lubbock.

The newly lighted thoroughfares for which provision was made actually will be "blue ways." The new lamps, each the size of a medium wash-tub, will provide illumination of a delicately blue tint wholly free from glare.

Streets Are Announced

The streets, all heavy traveled and all part of the city's highway dispersal system, are:

Avenue A from Broadway to Nineteenth; College avenue from Fourth to Nineteenth; Texas from Nineteenth to Thirtieth and Nineteenth from Texas to Tyler.

The new lights are to be spaced at interals of 120 feet and will be alternated on opposite sides of the illuminated streets except on Nineteenth between College and Tyler. There they will be on the south side of the street only, and 240 feet apart.

Cost Figured At $50,000

The whole undertaking will cost about $50,000, according to the estimates of City Manager Steve Matthews and City Director of Public Works R. L. Oldham.

Most of the fixtures were bought from the General Electric Supply co., the lowest of three bidders. Purchases from this company aggregated approximately $25,000. Installations will cost almost as much more, all to be paid out of bonds voted for that purpose.

Deliveries were promised within two weeks. Matthews said installations will be started as soon as possible thereafter, but several weeks will be required to complete the work.

The new street signs were bought from John K. Taylor co., of Oklahoma City, on a bid of $8,207.29—the lowest of 17 submitted. The proposals were opened last month, and the intervening time has been devoted to an analysis of them and to studies and tests of samples submitted by each bidder.

The new signs display numerals and letters in black on a white background. The number of each block will be displayed on each sign which are of enamel upon sheet metal.

Different types of signs will be proided for the business district and the residence areas. In the business district, name signs will be bolted to metal posts at right angles to each other. There will be four of these signs at each intersection—one pair at each corner. In the residence area, the signs will form a cross-bar each designating its appropriate street.

Deliveries were promised in "about a month."

They will be erected without delay, the city manager said, and many new street names in Lubbock will go into effect as soon as they are put up.

Plans for the new public health and welfare center, now crowded into a first floor corner of the city hall, were presented by Gerald Jarvis, director of the department.

They involve the removal of the buildings which served as the base hospital of the wartime South Plains Army Air field to a city-owned site on Avenue A between Fourth and Fifth streets. Plans call for a somewhat elaborate although inexpensive landscaping of the site.

Cost Set At $13,000

Jarvis estimated the cost of moving and remodeling the building at a maximum of $12,000 to $13,000.

Building contractors estimated a structure of the type planned would cost $50,000 if built new. It was especially designed for hospital purposes. Its features include many walls lined with lead for x-ray rooms.

Routine action by the commission included:

Passed on first reading an ordinance taking Modern Manors addition inside the city limits. This $2,500,000 project in Southwest Lubbock is intended primarily to supply rental housing for the personnel of LAFB. Another reading will be necessary to complete action.

Welfare Fund Approved

Approved $2,000 toward the new budget of the Child Welfare group, of which Miss Mary Lou Hawkins is supervisor. The county commission appropriated an equal amount and the state nearly $11,000.

Refunded $150 to the junior chamber of commerce which had been collected as license fees for a benefit circus which played here Tuesday.

Authorized the use of a sound truck in getting the Texas Technological college Homecoming parade organized Saturday.

Authorized the purchase of

JOAN PROUTY

THE QUESTION

What are the principal reasons people ask for help from welfare organization?

THE ANSWERS

BILL ROBERTSON, 3519 Ave. R, social case worker for Salvation Army: "Most of them are financial difficulties to women and their children due to an alarming trend of desertion on the part of their husbands. In Lubbock there are a lot of seasonal labor problems. People come to Lubbock to pick cotton in the fall and then get caught here in the winter, the severity of the winters here prevent them from doing outside labor. A lot of people only have small problems, such as where to get food for the next two days."

MRS. ELIZABETH CRANDALL, 1722 Twenty-Sixth, home service worker for the Red Cross: "Right now, financial assistance with the opening of the air base brought on by unforeseen expenses of moving to Lubbock and the high rentals is our main problem. We also have a lot of calls for assistance in emergency illnesses of veterans or servicemen and their families. We also do a lot of help in adjusting claims and helping financially until government checks come in. In the case of our blood bank, all classes of people from a large area ask for service in replacing and securing all types of blood."

MRS. ROSA A. SETTLE, 2110 Twenty - Ninth, field worker for the State Department of Public Welfare: "The people usually mention health problems or their age. The aged mention that they have become too old to work, or that since they are old, no one will hire them. In the health problem, they are ill and unable to work. We also have problems pertaining to children where one parent is dead, and the other unable to work."

MISS MARY LOU HAWKINS, 2102 Twenty-Second, supervisor of the Lubbock County child welfare unit: "Perhaps the thing we hear most about now are requests from adoptive applicants. People who cannot have their own children want to know the proper procedure in adopting children. Another big problem concerns mothers wanting to know how to get along with their children, girls especially."

MRS. ROY L. KREBBS, 3112 Twenty-Seventh, secretary of the Community Chest: "They nearly all need some medical attention; that's the biggest reason. A few times they have come in when they have lost their home or furnishings or there has been a death in the family. They all need financial attention."

BEN MANSKER, 2501 Twenty-Seventh, chief executive of the City-County welfare organization: Most of them say that their husbands are sick or have deserted them and they need food and clothing. We don't have any able-bodied men asking for help now. They also ask for help in medical care and hospitalization."

Crenshaw Speaks To Group Of Engineers

Charles C. Crenshaw spoke to the South Plains chapter of the Texas Society of Professional Engineers on the subject of engineering law Thursday night in a dinner meeting of the group in the Chimayo room of the Hilton hotel.

The meeting was attended by 38 members and guests. R. W. Tucker, vice-president of the chapter, presided.

Dawson's Fair Draws Crowds

LAMESA, Oct. 14 (Special) — The second day of the Dawson County Fair and South Plains Horse show closed here last night with all performances well attended, although a complete count of visitors to the fair was not available.

The second performance of "Boom Days," a historical story of Dawson county, drew a large crowd to Lobo park where the pageant is being presented. Almost 500 Lamesa people appear in the show which consists of 14 episodes.

Record Crowd Drawn

The fair, which is Lamesa's largest, has a record number of 400 agricultural and community exhibits with 80 entries in the horse show, and drew a record attendance for its opening Wednesday when 5,000 persons came out to see the parade and initial performances of the fair.

Ackerly school was announced as the winner of the school float contest in connection with the parade Wednesday. A cash award of $50 was given Ackerly. Dawson received $30 for second place and Klondike received $20 for third place.

The horse show moved into the finals in the performance classes at the 1:30 performance Thursday afternoon in its show at the new Lamesa rodeo arena.

Kid Pony Show Included

In the Kid Pony show Larry Smith of O'Donnell took first; J. O. Creighton of Lamesa, second and Nelda Porter of Sand, third.

Rose Mary Rice of Big Spring took first in the reining class; Frances Weeg of Big Spring, second and Snooks Creighton of Lamesa, third.

In the Men's Flag race Stut Griffin of Lamesa took first; Vernon Creighton of Lamesa, second and Floyd Whisenant of Lamesa, third.

Snooks Creighton of Lamesa won the Women's Flag race followed by Sadie Smith of Gail, second and

SOUTH PLAINS PECANS—Mrs. Ed Greer shows off pecans on trees at her home at 1914 Ave. M. The 20-year-old trees bear some nuts most years, and they are large and good, although not of the paper shell variety. The crop this year promises to be the largest the Greers have seen since moving to that address. (Staff Photo.)

★ ★ ★

Who Said You Couldn't Raise 'Em Here?

Lubbock Couple Preparing To Harvest A Bumper Pecan Crop

There are those who say you can't grow pecans in West Texas, but Mr. and Mrs. Ed Greer will argue that point anytime.

The Greers are preparing to harvest a bumper crop of Burkett pecans from four stately trees in the yard of their home at 1914 Ave. M.

Although they have lived there only four years, they have harvested three crops of pecans. The fourth year was a complete failure due to early frost.

The trees were planted by R. B. Bruce of Lubbock in 1929 when his mother, now deceased, owned the home.

Last year Mr. and Mrs. Greer harvested an estimated bushel and a half from the four trees. They don't know exactly how many pecans the trees bore because they had plenty of help in harvesting them from children and others in the vicinity.

Greer says he hasn't taken any special pains with the trees, other than to keep them watered and fertilized. He started to have them sprayed once, then decided against it.

The pecans are not of the paper shell variety, but they are large in size. They are still in their green jackets for the most part, but a few are beginning to open and drop out on the ground.

Copenhagen, Denmark, will name a new international school for Count Bernadotte, the Swede who was assassinated in Palestine.

Would Boost Census Total

By H. I. KIEFER
Journal Staff Writer

The city commission was to meet in special session this afternoon to consider 12 recommended extensions of the city limits made at the semi-monthly meeting Thursday afternoon.

Officials estimated the annexations would add about 15,000 people to the population and approximately 10 square miles to the area of the city.

Action Was Deferred

Members of the commission deferred action on the proposals, explaining they wanted to consider the suggested annexatoins individually.

The additions were recommended after several months of study by a special chamber of commerce committee headed by J. Ray Dickey, former city commissioner. Dickey presented the recommendations. Homer D. Grant, chamber president, also attended the meeting.

To Study Costs Of Plan

The clear implications were that the special meeting will delve extensively into the cost of the proposed extensions, and how they might be financed. Commissioners W. B. Price and E. K. Hufstedler were particularly emphatic on this point.

"I want to try to find out what we are getting into before we get into it," Price commented, a remark which drew a fervent "amen" from Hufstedler.

But Mayor W. H. Rodgers and Commissioners John Spikes and Clarence Whiteside concurred in the view that each proposed annexation could be considered individually and in whatever detail circumstances seem to require.

No Indication Of Action

There was nothing to indicate what actions might be taken on the various proposals today.

But expressions indicated members of the commission are unanimous in their desire to hasten as much as possible any extensions which they consider within the financial capacity of the city.

In a general way, the recommended program proposes extensions of the city limits in all directions, but the greater portions in south, southwesterly and western directions.

Would Extend East

It also would include large areas of East Lubbock, fixing the new boundary at a point about two miles east of the present city limit, which crosses East Broad-

STOP-GAP FUNDS ARE OPPOSED

House Balks At Senate Plan To Finance Armed Services

WASHINGTON, Oct. 14 (AP)—A Senate proposal to finance the armed forces on a stop-gap basis until next January 15 got an indignant reception in the House today from Rep. Cannon (D-Mo).

Cannon, chairman of the appropriations committee, told newsmen he will ask the House to table —and thus kill — the Senate proposal. He said it would "seriously affect the national defense program at a time when chances cannot be taken."

"It is ridiculous," he added, "to ask the national military establishment to operate on an uncertain basis for one-fourth of the entire fiscal year in times like these."

Payday Saturday

One result of the tangled money situation is that the armed services have a payday coming up on Saturday, and no money to meet it unless something breaks in a hurry.

The regular Denfense department money bill, which should have been passed by last July 1, is stalled in Congress by stubborn Senate-House disagreement over funds for the air force. The Senate, with President Truman's backing, is holding out for a 48-group force, the House for 58.

Mr. Truman repeated his endorsement of the smaller figure at his news conference yesterday.

There also is a matter of a $275,000,000 Senate cut in funds for stockpiling strategic materials —a cut the House has refused to accept.

Adjournment Sought

The Senate, apparently despairing of agreement in the near future, voted late yesterday to continue financing the army, navy and air force on the same temporary basis that has provided the three services with money since July.

Congress is hoping to adjourn within a week; the Senate proposal would keep the military in funds until the lawmakers return in 1950.

Technically, the armed forces have been without official funds since last Monday, the expiration date of the last previous temporary measure.

The House on April 13 passed a $3,272,815,800 bill finaancing the military establishment for the present fiscal year. On August 29 the Senate passed the House bill after trimming the air force figure and knocking out the funds for the stockpiling program.

House Rejects Plans

Conferees went to work to try to adjust the differences. They agreed on everything but the size of the air force and the stockpiling program.

Last Monday the House, by roll-call votes of 305 to 1 and 305 to 0, refused to give in to the Senate on the two items. Subsequently the Senate, by voice vote, refused to back down.

House leaders believe the Senate will back down if the House refuses to accept the stop-gap appropriation bill which would let the military run on the Senate figures until January 15.

Some senators indicated that they might bow to the will of the House and hope that Mr. Truman will impound the extra House-voted air force funds.

Oral Surgeon's Fees Too High, Doc Says

SAN FRANCISCO, Oct. 14 (AP)—Many oral surgeons "have priced themselves out of reach of the average patient," one of them told the American Society of Oral Surgeons last night.

As an example, said Dr. W. T. Ewing of Akron, Ohio, some charge $10 to $15 for a penicillin injection.

"Penicillin costs only 80 cents for 300,000 units," he said, "and I think a fee of from $3 to $5 sufficient."

Three dollars per tooth for extractons and $5 for general anaesthetics would be reasonable fees, Dr. Ewing added.

Oral surgeons are dentists who, in addition to dental training have spent three years in hospital training.

Lubbock Infant To Get Medical Exam At Coast Hospital

Billie Eugene Williams left Lubbock last night for Galveston, where the eight-month-old boy will receive medical examination that may lead to an operation to correct his defective heart and lung condition.

The infant, whose plight brought contributions totaling $736.46 to finance a chance for a normal life, was accompanied by his mother, Mrs. B. A. Williams, and her sister-in-law, Mrs. Audie Ashworth.

They are scheduled to arrive in Galveston at 9 a.m. today, and will be met at the station by Capt. William Alling, commanding officer of the Salvation Army unit in Galveston.

Child To Go To Hospital

Billie Eugene will go to the diagnostic center of the University of Texas medical school, while his mother and Mrs. Ashworth will be provided quarters by the Salvation Army.

They left Lubbock at 7 p. m. in a Santa Fe Pullman. Capt. Tom Gregory, commander of the Lubbock Salvation Army post, made arrangements for transportation. Notification arrived in Lubbock Thursday afternoon that a hospital bed was available.

While Mrs. Williams is in Galveston for the week or 10 days believed necessary for the examination, her husband and relatives will care for the other three Williams children.

Part Of Fund Used

From the fund sent to The Avalanche - Journal for the Williams infant, $175 was turned over to the family for transportation and other expenses. The remainder will be kept to finance future medical treatment that might give the youngster a chance at a normal and healthy life.

Capt. Gregory said that Capt. Alling in Galveston will send him daily reports on Billie Eugene and the family. It was the Salvation Army which secured hospital admission here for the infant and guaranteed payment of the hospital bill.

Billie Eugene, whose ailment causes periodic attacks of blueness, was under oxygen treatment at West Texas hospital, but no oxygen was necessary for the train trip.

In one day, 175,000 gallons of gasoline are consumed at La Guardia Field.

Scenario On Prisoner Slated By California Screen Writer

NASHVILLE, Tenn., Oct. 14 (AP) The story of Frank Grandstaff may be filmed.

Screen Writer Douglas Morrow of Los Angeles said he planned to write a scenario based on the life of the Tennessee prisoner who wrote a 70-page cantata in his solitary cell.

Won Week's Liberty

The cantata, "Big Spring," recently won the life termer a week's freedom. He went to Big Spring, Tex., to hear his work performed as part of that West Texas town's centennial.

Morrow, who worte the "Stratton Story," and Earl (Shine) Philips visited Grandstaff at state prison yesterday. It was Philip's book that inspired the one-time piano salesman in West Texas to write the cantata.

Has Long Record

Grandstaff was sentenced to life in prison as a habitual criminal. He has a record of 20 convictions, mostly on larceny charges.

Gov. Gordon Browning said he would cooperate with Morrow and indicated he'll permit him to visit Grandstaff in prison to gather material for his scenario.

Browning said he was not considering a pardon for the convict despite several pleas from Tennessee and Texas.

"I doubt if those who ask me to pardon him know and understand his record," Browning said.

Morrow said he'd ask the 47-year-old composer-convict to tell his story "frankly and without varnish."

Hanging Of Veteran Is Declared Suicide

FORT WORTH, Oct. 14. (AP)—An inquest verdict of suicide was returned in the death yesterday of Charles D. Little, jr., 26, a war veteran.

Little was found hanging from a bed which had been placed on end at the U. S. Public Health Service hospital.

Justice of the Peace Frank Hurley said the veteran apparently had placed a sheet around his neck and jumped from the end of the bed.

Little entered the hospital in March, 1947, as a transfer from the hospital at Waco.

EDIBLE MAE WEST

MEMPHIS, Tenn. (AP)—Mae West entered a beauty contest in Memphis. But she's not the Mae of "come-up-and-see-me" fame. This Mae West is a five-foot-five, 135-pound waitress. She entered the Memphis Restaurant Association's "Miss Main Dish of 1949" contest.

One of the greatest sources of Florida's wealth are natural deposits of phosphate rock, which are used as fertilizer.

Pacific Coast Businessmen Hit Hard By Major Strikes

SAN FRANCISCO, Oct. 14 (U.P.)—Pacific coast businessmen estimated today it will take them at least three months to recover from the effect of two lengthy strikes, both called by the same union.

The CIO International Longshoremen's and Warehousemen's union went on strike against seven Hawaiian stevedoring firms last May 1. That walkout, involving 2,000 longshoremen, is almost settled.

On June 16, nearly 6,000 members of the ILWU in San Francisco went on strike against 172 warehouses in the bay area. The dispute was settled Oct. 3 with a wage increase.

Cost Is High

The cost of the two strikes is difficult to estimate. However, reliable business sources say the Hawaiian strike caused losses of over $100,000,000, while the warehousemen's dispute cost $10,780,000 in wages to strikers and employes laid off as a result.

The effects of the warehousemen's strike were less serious than those of the dockworkers' strike on Pacific coast economy. But the strike brought a creeping paralysis to bay area business, especially in drugs and groceries and to small retail stores.

Settlement of the Honolulu strike is held up while the union and employers negotiate demands for wage increases for 400 outport workers. They already have agreed on a progressive 21-cent hourly increase for 1,600 longshoremen.

Longshoremen Hit

Waterfront sources estimated Hawaiian trade accounted for 20 per cent of cargoes shipped across San Francisco bay area docks in the second quarter of 1949.

When the Hawaiian strike took full effect, it cut 30,000 longshore man-hours from the weekly 150,000-hour "work opportunity" in the bay area. The longshore payroll was reduced by $72,000 a week.

Other Pacific coast ports suffered direct losses, but in smaller proportions. The Los Angeles-Long Beach harbor area lost an estimated 7 per cent of its commerce, while ports in Puget Sound and the Columbia river lost roughly 3 to 5 per cent.

The strike also hit hard at another big bay area industry—sugar refining. The California-Hawaiian sugar refinery at Crockett closed its warehouse, idling 450 men, and then shut down its refinery, throwing another 1,500 men out of work. The refinery's monthly payroll totals between $600,000 to $700,000. The refinery processes all of Hawaii's sugar crop.

Crop Piled Up

The Hawaiian crop, worth $50,000,000, is now piled up in island warehouses awaiting the end of the dockworkers' strike.

California fruit growers and packers are facing losses because the $60,000,000 Hawaiian pineapple crop is similarly piled up. Pear growers especially have fared badly because pears and pineapples are staples in the fruit cocktail pack.

The Hawaiian strike hit other industries, such as taxicabs which get 30 per cent of their daily take from the San Francisco waterfront, hotels, entertainment and the tourist business. One of the Pacific coast's two major lines—Matson Navigation company—was unable to run its 14-ship fleet to or from Hawaii.

The strike also affected businesses directly dependent on shipping, such as ship repair, supplying, fuel oil, marine insurance, warehousing and trucking.

In Los Angeles, 2,400 firms engaged in exporting to Hawaii saw their $25,000,000 annual business at a standstill. In Portland, the 40,000 tons of cargo imported and exported to Hawaii from January to May fell to 8,500 tons from June through September.

ALL IN A LIFETIME PARENTAL PROBLEMS

RATE HIKE REFUSED

MARSHALL, Oct. 14. (AP)—The city commission has turned down for the second time a request for a gas rate increase.

The United Gas Co. said it probably would take its request for the increase to the state railroad commission for an appeal. The company wants a 12 per cent hike for both commercial and domestic users.

Books Recommended For Mental Health

SAN PEDRO, Calif., Oct. 14 (AP) Neurotic? Try Rabbi William M. Kramer's prescription for better mental health. A mental medicine chest, the cleric told the Kiwanis club here, is just as necessary these days as the family medicine cabinet. People must act to prevent disorders of the mind, as well as the body, he said.

To stock a mental medicine chest, Rabbi Kramer resommended four books. Written by a Catholic, a Protestant, a Jew and a layman, he believes they can help people maintain a normal outlook on life.

The books are: "Peace of Soul", by Fulton Shean; "Guide to Confident Living," by N. V. Peale; "Peace of Mind," by J. L. Liebman, and "How to Stop Worrying and Start Living," by Dale Carnegie.

TODAY'S POME

It's terribly irksome
To have to work some.

★ ★ ★

ONCE upon a time there was a man who had quite a large business and wanted to be personally acquainted with every one of his several hundred employes. Consequently, he often went around and about the plant, introducing himself to the workers and chatting with them on the job.

One day he went into the counting house and there saw a young man energetically counting stacks of money received by the firm and stuffing it into a sack.

"Good morning, young man," said the employer, affably. "I see you have something to do with our funds. Where did you get your financial training?"

"Yale," answered the young man.

"Well, well," said the boss, "that's fine. And what is your name?"

The young man replied:

"Yackson!"

★ ★ ★

This is not important, as information goes, but it may come in handy sometime when you're with friends and wish to astound them with the amount and variety of your knowledge:

"The Star-Spangled Banner" did not officially become our national anthem until the year 1931."

★ ★ ★

That Man on Avenue Q. says some of these guys who are so good at hitting doves, quail and ducks on the wing ought to try their skill, sometime on a late season housefly, cruising around a diningroom at about four miles per hour!

★ ★ ★

Shakespeare has gotten a lot of publicity over his remark that there's nothing in a name, but the fact remains that millions of dollars have been made by people who call old, dilapidated furniture "antiques."

★ ★ ★

LIKE people everywhere, citizens of Lubbock and the South Plains do a lot of yackety-yacking about the weather. But even so, it's a toss-up whether there's as much conversation about the weather in these parts these days as there is about the automobile accident toll.

You can't pick up an Avalanche-Journal without seeing one or more articles about people getting killed or hurt and most of the time there are pictures.

So people naturally are talking about the accident blight and it's too bad they aren't doing something about it.

★ ★ ★

Several local clubs and organizations are talking safety. A number of them have "safety committees" whose members send out literature, make speeches, flood the newspapers and the radio stations with material, etc., and etc. School kids get occasional lectures and frequent warnings and everybody pays lip service to the contention that all of us should obey the laws and drive safely.

But still the toll mounts, day after day and week after week. Like "Ol' Man River," the accident rate "jes' keeps rollin' along."

★ ★ ★

WHAT to Do about it? WHO is going to do it? HOW may the job be best done?

Or are we just going to continue, day after day and week after week, banging into each other, breaking legs, crushing chests, smashing skulls and turning expensive property into junk?

It is very easy for John Q. Citizen to read in his paper about another series of automobile accidents and then start raising hob about the way the police department isn't doing its job.

It's easy for John Q. to call the Editor on the phone—or write him a letter—to lodge his protests, and many do.

But how many John Q. Citizens observe ALL the traffic laws ALL the time?

How many of them are as stern with themselves as they are with the other fellow—and the police?

★ ★ ★

We agree that the traffic laws are not well enforced in Lubbock.

Whether this is largely due to police inefficiency, or to the City commission's lackadaisical attitude, or to a tenth street—all of us might have to pay a few fines before we straightened ourselves out. And we'd probably be pretty unhappy about it.

But at last notice, the City of Lubbock was needing money and we don't know of a better way to get it than by fining the socks off traffic law violators. That way, the City would get some needed money—along with greater needed safety.

★ ★ ★

IT PROBABLY is true in most cases, that more flies can be caught with molasses than with vinegar. But there also is some truth to the saw that "it's the exception which makes the rule."

Lubbock's molasses treatment of traffic law violators has gone for so long that all the molasses is about run out. There's nothing left but vinegar.

It's bad to have a leg cut off, but if that's the only way to save a man's life, then the amputation is the logical way out.

The same thing can be said themselves in an uncomfortable position in which they catch "hail Columbia" from all sides.

But even so, the accident situation has gotten to the point in Lubbock where stern, even harsh, methods are about the only thing left to try.

That is, unless we want to go along as we have been—doing nothing but moaning about the situation and picking up the pieces.

★ ★ ★

A right sharp enforcement of the laws applied to safety on our streets would be unpleasant for a lot of us.

We who insist upon speeding, upon reckless, or careless, driving; we who "run" or "jump" the lights; we who won't come to a full stop at stop-signs, or when we prepare to turn right against a red light; we who wander from lane to lane on Nine-combination of the two, we don't know and probably no one knows.

But whatever the cause, any sharp-eyed citizen can ride over Lubbock streets for 30 minutes and see at least a dozen traffic law violations. That's largely because our enforcement is below par. But a contributing factor is that many of us who drive are either ignorant of the law—or we plain don't give a darn.

★ ★ ★

IT'S NO fun to be a city official, hand down an order to "enforce the law"—and then have to take the criticism and abuse which always follows.

It is a matter of record that many people yell for reforms—but only for the other fellow. They can—and often do—get as abusive as all get-out when they, themselves, run afoul of law enforcement they've been crying for.

Therefore, the city officials who order any sort of crack-down—no matter how widely sought—put about making people protect the lives and limbs of others—along with their own.

LUBBOCK AVALANCHE-JOURNAL

An independent Democratic newspaper published every afternoon except Saturdays and Sundays and consolidated on Sunday mornings only with Lubbock Morning Avalanche in Lubbock Avalanche-Journal by Avalanche-Journal Publishing Co., Inc., 1211-13 Texas Avenue. BY DREW PEARSON: PRESIDENT HAS SOURED ON ANDERSON FOR PRICE SUPPORT STAND

Lewis At His Thundering Best In Strike Meeting

WASHINGTON. — Only a few insiders know it, but President Truman has turned sour against his former secretary of agriculture, Clinton Anderson. In fact, the other day the President hurled his favorite insult against Anderson, now serving in the Senate from New Mexico. He called him a "big-interest man."

PEARSON

What prompted this bitter epithet was Anderson's fight against flat, 90 per cent farm supports. The President had long suspected that Anderson was quietly knifing the Brannan farm plan, but the clincher came when Anderson urged a "compromise" 75 to 90 per cent, flexible price-support scale.

Anderson had spread the impression that the President was backing his compromise. Puzzled, a congressional visitor put the questions warily to Truman.

"In the Senate," he said, "Elmer Thomas (of Oklahoma) quoted you as being for 90 per cent parity, while Dick Russell (of Georgia) said he understood you were against 90 per cent."

"I don't know how Dick got that idea," Truman broke in.

"Senator Anderson seems to have taken command," added the congressman. "Personally I don't care for Anderson's philosophy."

"Well, Clint Anderson is a big-interest man," declared the President firmly.

"As between Anderson's bill and straight 90 per cent parity," Truman continued, "I naturally favor 90 per cent because we campaigned on that basis."

The President added that, of all the farm bills that had come out, he liked Congressman Stephen Pace's the best, because the Georgia congressman had included the production payment feature of the Brannan plan.

Referring again to Anderson, the congressional visitor pointed out that big-interest men who pose as liberals are much more dangerous than out-and-out reactionaries.

"There is no question about that," agreed the President emphatically.

NOTE—Secretary of Agriculture Charlie Brannan has been fretful over Anderson's opposition, but hasn't raised his voice against his former boss — because Charlie owes his job to him.

• • •

John L. Lewis Roars

John L. Lewis was at his roaring best when the coal operators met with federal mediation chief Cy Ching on their first try to settle the coal strike. While the meeting got nowhere, it certainly didn't lack sound effects.

The northern operators—led by Harry Moses, president of U. S. Steel's H. C. Frick company, and George Love, of the Pittsburgh Consolidation Coal company—suggested that negotiations be based on Lewis's last contract, which expired June 30. The southern mine owners, led by Joseph Moody, didn't want to go this far, contending there should first be reforms in the welfare fund.

Boiling mad, Lewis thundered: "I will not discuss the old contract. Unless you gentlemen are willing to talk about increased wages and payments into the welfare fund, as well as reduced working hours for the men who toil underground, there is no purpose in my remaining here."

Turning a baleful glare on Moses, Love and Moody, he added wrothily that he might have known he would be wasting his time endeavoring to deal with "these economic puppets of the United States Steel company and the Cleveland Trust company."

The operator trio chuckled. They had been called worse names than this by the eloquent miners' boss.

• • •

"WHY, YOU have no authority to speak for your bosses in U. S. Steel or the Cleveland Trust company," Lewis went on, referring to the Cleveland bank's interest in Pittsburgh Consolidation coal and U. S. Steel's ownership of the H. C. Frick Co. "So, why do you waste my time? If it was a question of matching your authority in the United Mine workers, I would send five of my local union presidents to deal across the table with you."

The operators reminded Lewis that he shouldn't accuse them of making no "offer" to settle the strike, since he had made no specific offer himself.

"I have labor to sell," replied Lewis. "It's up to the operators to bid for it."

• • •

Ching Gets Wordslide

Mediator Ching diplomatically remarked that the coal strike could never be mediated and settled until both sides showed a more cooperative attitude. But this provoked another wordslide from Lewis.

"What do you mean by mediation?" he demanded. "Why don't you use some on the operators to make them stop their highhanded oppression of labor?"

"I have no authority to make either side in this dispute do anything," replied Ching. "All I can do is bring you together and help you settle your differences."

"Then what are we talking for, if you have no authority?" bellowed John L. "Haven't you the interest of the American people at heart? Don't you know the difference between right and wrong?"

"Now, wait a minute," retorted Ching, curbing his temper. "No one is more desirous of seeing the coal mines back in production than I am. But this strike will never be settled without some give-and-take by both sides. I can only suggest and make proposals as we go along. I can't force either of you to accept anything. I'm no arbitrator."

In this note, the meeting finally broke up.

NOTE—There is little prospect of settling the steel strike until the coal strike is settled. For the steel companies won't start their furnaces until they are sure of coal.

• • •

NAVAL rebel — Capt. John Crommelin, now leaking propaganda for the admirals, was not always such a good friend of the admirals. Crommelin was the man who spilled the beans on the secret Green Bowl Annapolis fraternity by which certain admirals have sometimes dominated the navy. Crommelin claimed the Green Bowlers were a fraternity by which the admirals helped each other get promoted.

Utah judge's romance—The FBI has dug up a report on Willis Ritter, appointed to be a federal judge in Utah showing that back in OPA days, Ritter made some phone calls at government expense to a girl friend in Albuquerque; also that he took a trip to see her at government expense. While Ritter never should have done this, still if all the private phone calls and air junkets made at government expense were held against government officials, a lot of admirals, generals and even the secretary of defense would be out of their jobs today.

Who's Kidding Whom?

BY RUTH MILLETT: TO THE LADIES

The Feminine Viewpoint

SHE'S 17. Pretty, neat, nice figure. Boys like her and ask her for dates—but, writes her mother, "She doesn't mind double-dating with another couple she knows well but when a boy calls her up and asks her for a date by herself she becomes petrified. Most of the time she turns him down.

"Also when she talks to strangers she doesn't lift her eyes, but keeps her head down.

"If I knew she'd grow out of this I'd sit by and wait, but I know she is suffering as much as I but won't admit it."

MILLETT

It's natural for a mother to want her daughter to have a good time and to worry if she seems so shy that she makes herself miserable.

Because it is always so easy for an older person to see how crippling such shyness is and yet how simple it should be to overcome it.

But it isn't a simple problem for a teen-ager to overcome. And I'm afraid the more a mother shows her concern over the problem, the more self-conscious the girl becomes.

• • •

TRY LETTING HER ALONE

IT should be worth a long-term try for the mother in this situation to adopt a strictly "hands off' policy.

If the mother doesn't seem to notice or care whether the daughter accepts dates or not and does not scold her for her diffidence with strangers, the daughter may gradually begin to lose some of her fear and tenseness.

Double-dating ought to help her, too. She can depend on the other girl to help carry off the evening, until she has met all sorts of new situations, such as going to certain places to dance, etc., and knows what to expect. Then, perhaps, she won't be so fearful of striking out on her own.

If the girl doesn't gain in self-confidence during this "hands off" period the mother might feel it necessary to get the opinion of a qualified phychiatrist.

But oftentimes a tenn-ager can work out her own problems—if she doesn't feel that her parents are agonizing over all of her failures.

Today's Thought

Behold, I know your thoughts, and the devices which ye wrongfully imagine against me.—Job 21:27.

• • •

Good thoughts are blessed guests, and should be heartily welcomed, well fed, and much sought after. Like rose leaves, they give out a sweet smell if laid up in the jar of memory.—Spurgeon.

Laff-A-Day

"He's our official rain maker—he just washes his car, and it rains!"

By Bennett Cerf

"Try And Stop Me"

IF there is one joke about old age and the infirmities thereof that Al Jolson, George Jessel, and Eddie Cantor haven't pulled on one another in their many radio programs and banquet speeches, it is not the fault of their industrious gag writers and researchers. The "latest" has Mrs. Cantor surveying Jolson's huge collection of medicine bottles without labels. "How can he tell which one he's supposed to use?" she asks Cantor.

"What's the difference?" he answers. "No matter what they're for, Jolson's got it."

• • •

RUSSEL CROUSE, co-author of Life with Mother, decided to catch the Wednesday matinee of a two-day play that had been accorded murderous notices by the critics. Anxious to avoid giving the impression that he was coming to gloat over the corpse, Crouse sidled unobtrusively to the box-office and said, "I'd like a seat in the last row of the orchestra." The treasurer looked surprised, but handed him a ticket. "This is in Row D," protested Crouse. "I asked for the last row." "Mister," said the treasurer, "at this performance Row D is the last row."

Today's Journal Editorial

THE "DEDUCTIBLE CLAUSE" TEST

It is to be hoped the courts and everyone connected with the case will cooperate in hastening as much as practical a decision on the legality of the compulsory "$100 deductible clause" in all hail and wind damage insurance now written in Texas.

District Judge Jack Roberts has ruled the clause illegal. State Fire Insurance Commissioner Paul H. Brown properly announced the ruling would be appealed so as to get the decision of the higher courts in the matter.

As of now, such insurance is worthless to most property owners. His losses from hail or wind are exceedingly unlikely to run as high as $100, and insurance companies are forbidden to write protection for damage below that amount, although most of them would like to.

It is to be hoped the higher courts can interpret the laws in a way which will knock out the deductible clause. If not, then the Legislature should remedy this defect at the first opportunity.

BY ROBERT C. RUARK

Sentimental Writer Buys Old Home Once Owned By Grandpa

SOUTHPORT, N. C., Oct. 14 — This is a tiny sleepy little town at the mouth of the Cape Fear river, and if it were laid out in New England they would call it quaint. There is no industry here and never has been and probably never will be. It is no town to get ahead in.

RUARK

What there is here is an old pomegranate bush and the gardenias grow wild in Cousin Margie's yard and some old gnarled oaks with gray whiskers of Spanish moss. There is a mocking bird who sings in a magnolia tree, and this will be a very personal story about a mocking bird and a magnolia tree and a mortgage.

You may now refer to me as Cuhnel Massa Boss, or even as Marse Robert, because today I am the proprietor of a mocking bird and a magnolia tree and a mortgage. I need all three like I need three more dentists. If you favor a moral, it might be that you can get the boy out of the country, but you can't get the country out of the boy.

Once upon a time there was a large-eared, dripnosed fugitive from multiplication and Sunday school. He spent each summer of his greener years in this little town. He lived in the Victorian, gabled, ginger-bready house of his maternal grandpa, a sea-captain with a bushy mustache.

• • •

Very Good Whittler

This man's name was Edward Hall Adkins, and the colored folk called him Cap'm Hawley and the white folks called him Ned Hall. Ned Hall could shoot very fine and whittle very good and in his eyes a small boy was never, never very wrong—maybe just a little misguided. And he lived in this beautiful house, only a mashie shot away from the river. You could crawl under this house on rainy days and find all sorts of wonderful things.

Surrounding this beautiful corny house was an oak grove in which the redheaded woodpeckers and the bluejays rioted. In the side yard was a mangy old cedar tree and the finest, biggest magnolia tree anybody ever saw. When it came into bloom you couldn't think because all you could do was smell and if you picked one of the great fleshy blossoms it crinkled at the edges and turned brown.

• • •

IN this magnolia tree dwelt a fat and sassy mocking bird who hated daylight almost as much as he hated cats. He didn't tune up until about 10 p. m., and when he got a full head of steam, he didn't quit until 5—the exact time Ned Hall got up to go to the pilot house for a squint at the sea and his first cup of coffee.

Well, this little big-eared boy used to stay up all night when the moon was fat, listening to the sassy mocker scattering his arias with the abandon of a drunken Caruso. He would sneak out when the old man got up, and follow him down to the pilot house for big hard crackers and sweet condensed milk.

In the daytime he would pick the big black figs from the twisted fig tree, and steal pomegranates off Uncle Walker's bush. One time he fell and busted his arm playing Tarzan down in the shrimp house and another time he got sick off cigars and another time he had to cut a fish hook out of his own foot over on Battery island on the same day he discovered the washed-up drown-ded man in the marsh grass.

• • •

Man Buys House

Well, Cap'm Hawley come sick with the cancer and he died and died broke and his beautiful house was mortgaged and the family flew every whichaway. For 17 years a bunch of strangers lived in the house and beat it up awful. The dining room chandelier with the tinkling ding-dangs fell down and the sandspurs grew in the yard and the rose bushes died. But the real estate man who owned it wouldn't sell it to anybody but a member of the family, and what family there was was busted flat.

Well, you come back and what do you do? You come back and the woodpeckers chase each other in the oaks and the mocking bird starts playing Fritz Kreisler in the magnolia, and the back porch is falling off and the plaster's cracked and the old fig tree needs some help to get back on its feet again, so what do you do?

You go to the bank and say I got a mocking bird and a magnolia and now I need a mortgage, although you really need a mortgage like you need the gout, and furthermore anybody who says Marse Robert is sentimental is a dirty Fascist-Communist Republican-Democrat-type bum.

Senator Wherry (R., Neb.) says the Democratic Administration is running "the biggest give-away show on earth." Many agree—and as a show they find it highly unentertaining and unamusing.

Solution of Yesterday's Puzzle

CITY OF MILLION PEOPLE TENSE

Nationalists Flee Canton As Reds Seize Nearby Airports

CANTON, Oct. 14—(AP)—This tense and sleepless south China city today awaited the imminent arrival of the conquering communists.

Advance units were reported only ten miles from the center of the city. Truckloads of nationalist soldiers rumbled through the streets. All headed south, away from the front to the north.

(Telephoned reports to Hong Kong said the communists had seized White Cloud airport, the civilian field seven miles northeast of Canton. The Hong Kong dispatch was timed an hour and 55 minutes after this dispatch, which was written at 10 a.m. Canton time or 9 p.m. Thursday.

Talks Rumored

Thousands of soldiers left the city during the night. They moved westward, indicating there will be no fight for the city which only a few hours before was the provisional capital of nationalist China.

There were persistent rumors that the mayor and police will arrange a peaceful turnover to the communists. These accounts have it that the police already are negotiating with the communists.

(Hong Kong dispatches said Gen. Yu Han-Mou, nationalist commander in south China, was arranging to turn over the city through a representative who had left Hong Kong for Canton.)

Other reports said the communists had made contact with sources inside Canton appealing to them to avoid looting. There has been little looting so far, apparently.

Not all government officials had gone to Chungking, the new nationalist capital in western China. Some remained and were burning papers they did not want to see fall into the communist hands.

Military authorities announced that they would blow up ammunition dumps at Canton's air fields today.

(Official dispatches reaching Hong Kong said both White Cloud and the military air field were mined and may have been blown up.

(Among the last-minute arrivals in Hong Kong from Canton was Foreign minister George Yeh. Premier Yen Hsi-shan was in Formosa where he broadcast an appeal to all Chinese to support the fight against the communists.)

Canton spent a sleepless night. Citizens fearing looting stayed awake. Intermittent gunfire echoed through the downtown part of the city during the night. This was not explained.

At daylight this city of more than 1,00,000 population stirred back to life. The streets filled with pedicabs, bicycles, cars, trucks, buses and pedestrians. police directed traffic as usual.

Public utilities continued to function. Food markets, which had been closed with iron gates during the night, reopened. Some newspapers put out editions. The few Americans here are safe.

Canton, the cradle of the revolution which overthrew the Manchus awaits the new revolutionists inspired by Marx.

Byrd Claims Soviets Exploring Antarctic

NEW YORK, Oct. 14 (AP)—Rear Adm. Richard E. Byrd says Russian ships recently have gone to Antarctica and sent planes on exploration missions over the frozen continent.

"Whether they were looking for uranium or not, I cannot say," Byrd added. "The Russian ships are reported not to have had any names to identify them."

The veteran polar explorer, who spoke at ceremonies in his honor at the Hayden planetarium last night, did not disclose where he obtained his information.

Rites For Lubbock Woman Slated Today

Funeral services for Mrs. Henry Hunt, 68, of Tahoka highway, who died of a cerebral hemorrhage Tuesday in the Jefferson Davis hospital, Houston, were to be held at 2:30 p. m. today in the Sanders Funeral home chapel. Dr. M. Norvel Young, minister of the Broadway Church of Christ was to officiate. Burial was to be in East Lawn cemetery.

Mrs. Hunt was on a visit to Houston when she became ill and was hospitalized.

She is survived by Mrs. S. M. Guthrie, Lubbock, a sister; Mrs. J. E. Ellison of Lubbock, her daughter; and Mrs. J. Knox of Munnerlyn, a daughter.

Sanders Funeral home is in charge of funeral arrangements.

Hockley Farm Plans Okayed

LEVELLAND, Oct. 14 (Special)—Five farm plans and farm district agreements were approved at the October meeting of Hockley County Soil Conservation district's board of supervisors. The regular monthly business session of the supervisors was held in the library building.

B. Forman of Anton, chairman, presided. Supervisors C. D. Bond of Ropesville, Leon Lawson of Pettit and H. T. Harrell of Levelland, took part in the discussion. Marshal W. Howard, district conservationist of Lubbock, and Aubrey L. Holt, work unit conservationist of the Levelland Soil Conservation office, were also present.

Approved Plans Are Discussed

Farm plans approved were on the R. G. Epperson and G. H. Dalton farms, located in the Ropesville community; Elvis Jones, about five miles southeast of Smyer and the O. W. Moore place, operated by Melvin Schoppa, eight miles south of Opdyke. These farmers have agreed, Forman said, to install such conservation practices as terraces, contour farming, cover crops, irrigated pastures, alfalfa and bench leveling. Bench leveling, a new conservation practice in this district, is receiving a great deal of interest from farmers in the district. This practice, Forman said, makes irrigation easier on the smooth slopes as well as on the steep land. Water erosion is stopped by bench leveling.

Project Is Completed

J. M. Horton, district cooperator, assisted by Soil Conservation technicians, has just completed approximately 40 acres of bench leveling on his farm. This benched land has been planted to alfalfa, mixed grasses for irrigation, vetch and rye, and wheat. The vetch and rye were planted on the steeper slopes, as part of the top soil was removed in the benching operation; and to put this land back in top production, organic matter and minerals must be replaced. By turning the vetch and rye under in the spring much of the lost organic matter and minerals will be replaced in this area.

Horton said he used about 100 pounds per acre of 16-20-0 fertilizer on his vetch and grass planting. This, he said, would assure a fast start to the young plants, and he felt it essential to get the plants off to a good start. B. A. Warren, district cooperator, has benched about 15 acres on his farm. This area is to be planted in alfalfa and fertilized with about 200 pounds per acre of 20 per cent super phosphate. The new grass drill, recently purchased by the district, was used to make the planting on the two farms. This planter is so constructed that it will plant the large or trashy seed as well as the very smallest seed separately or in one operation. The drill also has a fertilizer attachment.

Young Republicans Wooing Teen-Agers

HARRISBURG, Pa., Oct. 14. (AP)—Now the Young Republican organization is going after the teen-agers.

Not to vote right away, you understand. You have to be 21 in most states to vote.

Here's the idea, as outlined by Charles R. Richey, executive secretary of the Young Republican National federation, in a talk for Pennsylvania Young Democrats today:

Is New Idea

"There has been conceived in our federation a comparatively new idea as far as politics is concerned known as a teen-age program.

"This program is designed to reach down into the high school level and not only educate, but also interest young people ranging between the ages of 13 and 20 in the cause of the Republican party, and therefore good government.

"I promise you that a great deal of attention will be given to this."

Ex-GI, German Youth Are Now Classmates

HAMILTON, N. Y., Oct. 14. (AP)—Four years ago, Ralph Williams of Peckville, Pa., was a corporal with the Army's 71st infantry division when it captured Regensberg, Germany.

Fifteen-year-old Wilhelm Schoppe watched the operation from his uncle's farm on the outskirts of Regensberg.

Today they are classmates at Colgate university. They room in the same dormitory.

Texan Voted Head Of Highway Group

SAN ANTONIO, Oct. 14. (AP)—A Texan, D. C. Greer of Austin, is the new president of the American Association of State Highway officials.

Greer, chief engineer of the Texas State Highway department, was named head of the group as the association ended its 1949 meeting yesterday.

Other new officers, all highway commissioners of chief engineers in their respective states, are: J. A. Anderson, Virginia, first vice-president; Spencer Miller, jr., New Jersey, A. E. Johnson, Arkansas, C. H. Ziegler, Michigan, and J. R. Bromley, Wyoming, regional vice presidents, and G. H. Anderson, Rhode Island, treasurer.

R. H. Baldock, Oregon; T. H. MacDonald, U. S. Bureau of Public roads, Washington, D. C.; S. C. Hadden, Indiana; R. E. Jorgensen, Connecticut; and W. C. Lefebvre, Arizona, were elected to the executive committee.

At Lyons, France, when the direction-finder at an airfield failed to operate, engineers found a camel chewing the aerial wires.

HOW TO CUT MONTHLY PAYMENTS IN HALF
Point 1. Add up all your bills.
2. Total monthly payments they require.
3. THEN ask us to show you how a Pacific Finance loan can often cut those payments by as much as 50 per cent. Come in tomorrow and get the details.
ONE PAYMENT COVERS EVERYTHING
RE-PAYMENT EXAMPLES

Cash to You	12 Mo. Payments	15 Mo. Payments
$100	$ 9.64	
$200	$25.06	$20.29
$500	$48.19	$39.03
$700	$67.46	$54.64
$1000	$96.37	$78.05

Other amounts in proportion
Above payments include insurance which pay the payments in case of sickness or accident or the entire balance in case of death. To apply phone or come in. Information gladly given.

City Leaders Study Plans For Extension Of Lubbock's Limits

(Continued From Page One)

way near the entrance to Mackenzie State park.

Excluded, however, would be some portions of East Lubbock where "shack-town" building and sanitary conditions are among the worst in any of the city's suburbs.

In more detail, here are the annexations recommended by the chamber committee, membership of which is composed of business and civic leaders both in the city and the suburbs:

Northern Area Extensive

No. 1. North Lubbock—An irregularly bounded area extending from North Tyler avenue eastward to include Country club addition. This area extends about two miles from east to west and would extend the city boundaries about a mile north of the present limits. Opposition to this extension has been negligible.

No. 2. North Lubbock—From the east boundary of No. 1 eastward to include the Clayton Carter addition. This area measures about a mile both from east to west and from south to north. Dickey said most residents of the area urgently desire annexation. The commission was advised, however, that Clayton Carter, developer of the addition, is opposing it vigorously.

Eastward Shift Favored

No. 3. East Lubbock between Fourth and Nineteenth streets, extending about two miles eastward from the present city limits, but excluding the Puckett and Morning View additions. Residents of the proposed area were reported overwhelmingly in favor of annexation.

No. 4. Southeast Lubbock, including the Sieber subdivision and a portion of the adjoining 2nd Wheelock addition. This area is relatively small, with sentiment apparently almost unanimously in favor of annexation.

No. 5 Southeast Lubbock from the present city limits southward to Thirty-eighth street, about three-quarters of a mile and eastward from Avenue A to Clutter's second addition, about a half mile, and including Berry addition. Sentiment there strongly favors coming inside the city limits, officials were told.

Opposing Petitions Circulated

No. 6 South Lubbock, between Avenues A and H and from the present city limits southward almost two miles to the traffic circle. Petitions both for and against annexation of this area have been presented to the city commission.

No. 7 South Lubbock between Avenues H and Q and southward from the present limits beyond the traffic circle, more than two miles. Sentiment here apparently favors annexation.

No. 8 South Lubbock, a quarter section of land adjoining No. 7 owned by J. C. Davis.

No. 9. South Lubbock between Avenue Q and Monroe avenue, nearly 1½ miles, and extending southward from the present city limits at Forty-second street to Fiftieth. Sentiment is repored favorable.

Some Residents Indifferent

No. 10. Southwest Lubbock, between Thirty-fourth and Forty-second streets and westward to the Slide road, more than two miles. Sentiment favorable, but with a good deal of apparent indifference among many residents of the area.

No. 11. West and Southwest Lubbock, a large triangular area bounded on the east by the present city limits, the south by Thirty-fourth street and the northwest by the Brownfield highway. Expressed sentiment was reported favorable to annexation, but with many residents indifferent.

No. 12. An additional section of the Texas Technological college campus and a portion of the "Westchester" area extending about three-quarters of a mile west from the present city limits to the eastern edge of Bobalet addition, which would remain outside the city. The proposed area is bounded on the north by approximately fifteenth street and on the southeast by the diagonal formed by the Brownfield highway.

No. 12 includes, among others, the Rushland park and Cain terrace additions.

Rufus Rush, developer of Rushland, appeared in opposition to the annexation of that area "until I know definitely when I'll get city services."

But he reacted approvingly of the city's going to the added expense of building water and sewer lines large enough to serve the area, when and if he considers it advantageous to seek annexation.

The clear indications were that, if the city commission undertakes an annexation program, it will be with emphasis upon the uncertainty as to when the city will have the money to provide many municipal services — particularly sewers, water and paving.

Many Benefits Available

Other services could be provided more speedily.

These would include police, fire and health protections, garbage and trash collections, some street and alley improvement and maintenance, and the immediate benefits of zoning which would place curbs upon the types of buildings which could be erected in annexed areas.

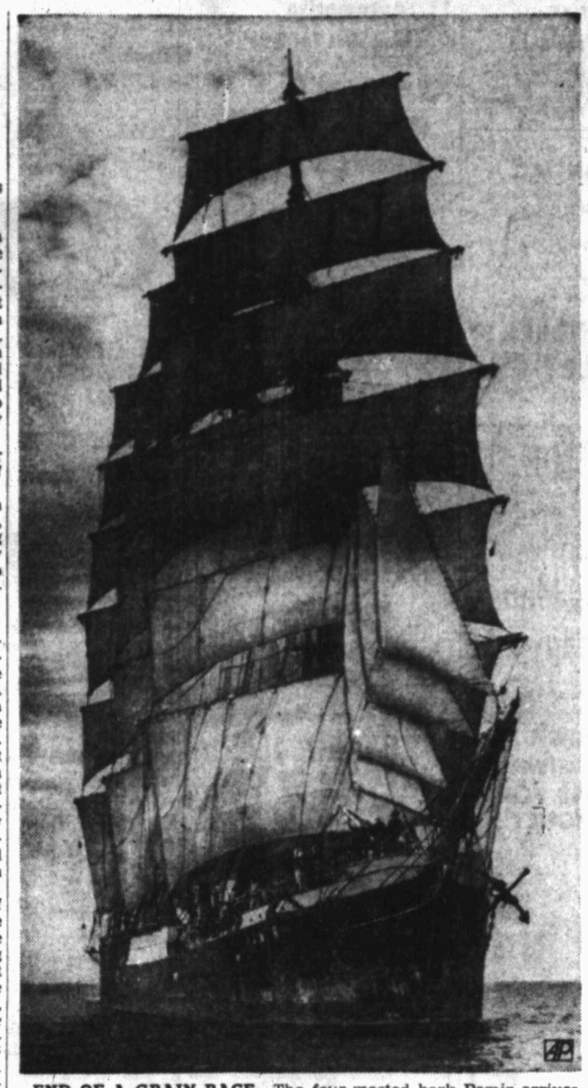

The indications also were that the procedure to be followed in any extensions program will be about as follows:

The commission will give notice by publication that it is considering ordinances providing for the annexation of specified areas.

Hearings will be set, probably for about mid-November, at which everyone interested will be given opportunity to appear for or against each proposal.

The commission then will either pass or reject the various ordinances, acting upon each separately. Passage on two readings, usually about two weeks apart, will be required to complete an annexation.

If completed by Dec. 31, the populations of the annexed areas will be included in that of the city of Lubbock when the 1950 federal census is taken.

END OF A GRAIN RACE—The four-masted bark Pamir arrives at Falmouth, England, carrying a cargo of 4,200 tons of grain after a stormy voyage of 127 days from Australia.

Dawson Fair

(Continued From Page One)

Rose Mary Rice of Big Spring, third.

Polly Rushing of Brownfield won the calf roping contest in 14.7 seconds followed by Phil Williams of Brownfield, second and Billy Winn of Brownfield and Rex Smith of O'Donnell, tie for third.

Gates will open Friday at 9 a.m. on the third day of the fair.

Judging Friday will include: The judging of Jersey cattle at 10 a.m., with 15 entries; judging of Hereford cattle at 1 p.m., with 30 entries and the judging of swine at 3 p.m., with 40 entries.

About 25 4-H and FFA calves will be exhibited Friday, according to Dawson county Agent Lee Roy Colgan.

The nightly performance of "Boom Days," historical pageant of Dawson county, and the carnival will open at 7:30 p.m.

Street Lights

(Continued From Page One)

about $8,000 worth of generators and other electrical equipment from Southwestern Electric Supply co., the lowest of four bidders.

Bought an International pickup truck from Commercial Truck co., for $1,320, the lowest of four bids.

Bought about 500 traffic signs of various kinds from National Safety Engineers, inc., for approximately $1,500, the lowest of five bids. Included among the signs are "no parking, "speed limit," "school zone," and the like.

REPTILE NOT BIRD

Struthiomimus Altus was a species of animal that lived on earth millions of years ago. Although closely resembling an ostrich, it was a true reptile.

Patrolmen Subjected To Last Strip Of Red Tape While Trying To Do Their Duty

PHILADELPHIA, Oct. 14. — Some days it just doesn't pay to be a policeman.

Take the case of Patrolmen Charles Bauman and Joseph Lorenz, who thought they spotted a stolen automobile while cruising along in their red car the other day.

Bauman and Lorenz gave chase down a Philadelphia street and right across the Delaware river bridge leading to Camden, N. J. As they neared the toll gates at the New Jersey end of the span, the policemen got close enough to see the other car was not the one they had been told to watch for.

Bauman and Lorenz asked for permission to make a U-turn on the bridge and return to Philadelphia. They were told they would have to pay 20 cents toll and pass through the gates before turning. Then they had to pay another 20 cents to go back through the toll gates.

Forty cents poorer, Bauman and Lorenz finally got back to Philadelphia.

Merchants At Slaton Hold Annual Banquet

SLATON, Oct. 14 (Special) — Approximately 85 persons attended the twenty-fifth annual banquet of the Slaton Retail Merchants association, held Thursday night in the Slaton clubhouse.

Howard Hoffman, president of the association, served as master of ceremonies.

During a business session, Mrs. Lee Green, secretary of the organization, presented a report to the assembled group entitled "RMA Through the Years." Following, Prof. W. L. Ducker, head of the Department of Petroleum engineering at Texas Tech, spoke.

A solo was sung by Mrs. M. G. Davis, with piano accompaniment by Mrs. W. B. Williams.

Ballots for election of four new directors of the association were filled in by members at the gathering. Names of the new directors will be announced later.

Retiring directors include W. T. Davis, C. M. Fields, Travis Reynolds, and J. S. Edwards, jr.

Holdover directors are Robert E. Ayers, R. C. Patton, C. Clark Self, Dr. R. W. Ragsdale, and Howard Hoffman.

Officers of the association include Hoffman, president; J. S. Edwards, jr., vice president; and Mrs. Green, secretary.

Chicago Student Is Named For Official

CHICAGO, Oct. 14. (AP) — As namesake of the chancellor of the University of Chicago, Robert Maynard Barker figures he is getting his higher education off to a good start.

Robert's father, Loyd H. Barker, is an alumnus of the university. The elder Barker is principal of the Kingsbury, Indiana, High School. He received his BA degree the same year Robert Maynard Hutchins became president of the University in 1930.

Namesake Robert Maynard Barker was born August 26, 1931. He entered the college of the University of Chicago this fall as a third year student.

Penthouse School Is Success—But Vacant

DALLAS, Oct. 14 (AP)—A penthouse school, on top of the steam plant at Southern Methodist university, is opening its third year but still has no pupils. In this research classroom, complex instruments record the changing light and brightness patterns under all conditions of sunlight. Prof. R. L. Biesele, jr., is using it on research in 'daylighting the classroom" under grant from the Detroit Steel Products Co. and Libbey-Owens-Ford Glass Co.

The classroom is 32 feet square. Each wall is completely open to daylight. The ceiling is adjustable in height. Movable partitions make any one side the light-receiving side. It has mock-up desks with a 10-degree tilt, blackboards and pin-up display areas.

But no pupils.

Muzzle-Loading Gun Club Shows Growth

PORTSMOUTH, O., Oct. 14 (AP)—A boast by "Ol' Uncle Eph" that he could "hit 'em in the eye at 50 yards" started a muzzle-loading rifle club here.

E. M. Farris, gun collector, said it began in 1930 when some oldtimers remarked to Farris and his uncle Oscar Seth about the prowess of their great-uncle with a shooting-iron.

Talks went into arguments and evolved into a club as the hobby of firing old guns spread. The National Muzzle-Loading Rifle Association was founded here and its official magazine, "Muzzle Blasts," and national headquarters still are in Portsmouth.

Farris said the rifle hobby has revived an almost lost art, for a demand has been created for old-type firing pieces that has craftsmen in this region busy.

NEWCOMERS TO BE "WISENED UP"

Movie Industry Declares War On Hollywood Criminal Class

HOLLYWOOD, Oct. 14 (AP)—The motion picture industry has declared war on criminal elements in the film capital. And it is planning to steer newcomers to the movies on a straight moral course.

The recently-formed Motion Picture Industry council, comprising nine major Hollywood guild, labor and management groups representing some 35,000 individuals, announced the new program today.

It was outlined at a recent meeting, held under the chairmanship of Ronald Reagan, president of the Screen Actors guild. Others present included producer Cecil B. De Mille, president George Marshall of the Screen Directors guild, and producer Dore Schary.

Crime Rate Not High

The council adopted a resolution asserting "the Hollywood area long has been made a special target of extortionists, shakedown artists and other criminal elements who seek to entrap, and prey upon, the unwary and the unwise."

While it said the Hollywood crime rate is "considerably lower than in comparable communities elsewhere," it added this is "insufficient" and promised its cooperation to all law enforcement agencies "to further reduce or completely eliminate this source of notoriety, disrepute and public jeopardy."

The council was organized eight months ago with the announced purpose of taking measures to counteract unfavorable publicity about the motion picture industry and its personnel.

To Include Talks

Its program for "protecting aspiring movie hopefuls from errors in personal and professional conduct," an announcement said, is intended to counteract "lack of psychological preparation for the sharp transition from relative obscurity to the Hollywood spotlight.

It will include "straight-from-the-shoulder talks by seasoned individuals, including newspaper men and women covering the Hollywood beats, who can detail past experiences."

It would give the youthful newcomers to the movies "an early orientation into the responsibilities and blandishments that go with public prominence so that they may be btter fitted to face the problems arising from such responsibilities."

That would include, the council said, "solid instruction in matters like personal deportment and public relations.'

FATALLY INJURED

HUGHES SPRINGS, Oct. 14. (AP)—Will Rowe, 61, was fatally injured yesterday when a team of mules ran away and dragged him across a field.

Rowe had been walking and driving the work team.

$72 Billion Damage Suit Filed By Pair

LOS ANGELES, Oct. 14. (AP)—An outsize $72,100,000,000 suit—claimed to be the largest damage action in history—is on file in federal court here.

Arthur R. Van Wyke and A. E. Harrison, management consultants of Los Angeles, lodged the mammoth complaint yesterday, alleging that amount was their potential profit from a metallic lubricant which they were going to sell world-wide.

Defendants in the suit include Standard Oil Co. of California, A. D. Innis and associates, several former employes and 100 John Does. Earlier, Van Wyke and Harrison filed a $12,000,000,000 suit against Innis.

Van Wyke and Harrison, who claim ownership of about 70 per cent of the Innis stock, allege that the defendants interfered with their efforts to sell the metallic lubricant and caused the cancellation of an agreement to participate in profits from world-wide sale of the product. They also claim that a sample of the lubricant was adulterated by defendants, injuring its reputation.

LIVE TOOTHPICK

In Africa, crocodiles have their teeth picked by a species of plover that enters the reptile's mouth unharmed. These birds also serve the reptile as lookouts against approaching danger.

BANDIT DEPLORES EVIL DETROIT (U.P.)—Tommy Ammett told a bandit he was alone in his wine shop. Then his wife walked in from another room and the bandit gave Emmett a lecture on the evils of lying while he scooped $1,030 from the cash box.

The surface temperature of the sun is estimated at 11,000 degrees.
