Water Rights Of West Discussed At Kiwanis Meet

The data project meeting held at Abilene recently had its three-back in the meeting of the Lubbock Kiwanis club at noon today when W. C. Rylander, discussing the situation from a historical angle, was heavily applauded when he took a stand against the proposal of a large power and light company to dam West Texas water for private use.

When my last brother died just before the war I found myself with a million dollar, 80 year old enterprise bearing my family name. I was staggered by the responsibility. What she did was characteristic of her sense of responsibility. She knew a lot about watches and the business that from being her watchmaker talk. But she had had no training, having been engaged in home making for those three brothers first in Neuchatel, Switzerland, and then here. So she pitched in and learned every phase of watch making. Her department heads all say she knows as much about their work as they do.

When you see the old world side of Miss Wittnauer, visiting her factory office, high in a building in New York's busy wholesale district, Lucy iron grille work from an Italian palace fashions the entrance to her richly paneled and frescoed sanctum and gives an air of seclusion, strangely incongruous to the humming sales rooms for hats, vests and felt hats on the floors below.

Here you note Miss Wittnauer's old world manner of maintaining the traditions of the craftsman's guilds among her 100 employees of 10 nationalities. Her watch makers have the joy of making a whole watch, not just a standardized part of many. And they have a sense of security above their jobs, many of them having been there 25 years. The only employee she has fired was a habitual postprohibition drinker.

Mrs. Coolidge And Her Pets Get Acquainted

Mrs. Calvin Coolidge's private manager is growing during her stay in the Black Hills. Here she is shown with three new additions—Ebenesser, a Demolition mule, Diana, a white collie, and "Tiny" Tim, a chow, Ebenesser and Diana, it should be noted, are just getting acquainted.

Unassisted Triple Play Is Rare Feat, Records Show, With Only Seven Major Leaguers Accomplishing Play

BURNS COONEY WRIGHT PADGETT NEUN

BY BILLY EVANS

A triple play unassisted is unquestionably baseball's rarest fielding feat.

Despite the fact that the National League has been in operation over 50 years, being formed in 1876, and the American League has been in business since 1900, a mere matter of 26 years, only seven unassisted triple plays by infielders have been made in the majors.

Neal Ball, shortstop for the Cleveland club, made the first unassisted triple play in 1909. It was the 10th season of the American League. During its 24 years of existence prior to that time, no National League infielder had ever retired all three men unassisted on the same play.

Once Neal Ball started the vogue, it became popular and now seven players are entitled to a rating in major league's Hall of Fame because they have made triple plays unassisted.

It is a very interesting fact that all seven players who have performed this extraordinary feat are still connected with baseball. Five are still in the majors, two of them, Burns and Padgett, are on the same club, Cleveland. Neun is with Detroit, Wright with Philadelphia, and Cooney with Philadelphia.

The other two triple play heroes have passed to the minors. Bill Wambegans, the only player ever to have turned the trick in a world series, is now with Kansas City. This happened in the 1920 clash between Cleveland and Brooklyn.

Wambegans played second base for the former. Neal Ball recently resigned as manager of an Eastern League team.

No third baseman in the majors has made a triple play. It has been performed by shortstops and twice by first and second basemen.

Recently the triple play unassisted germ became contagious. In 1925, George Burns and Ernie Padgett came through with only a short space of time between the two plays. This year but a few days separated such plays as Cooney, then with the Chicago Cubs, and Neun of Detroit.

For an infielder to make a triple play unassisted it is almost necessary that the hit and run sign be out. The baserunners must be in a short space of time between the two plays. This year but a few days separated such plays as Cooney, then with the Chicago Cubs, and Neun of Detroit.

FAST BASEBALL EXPECTED HERE IN CITY TILTS

TAYLOR AND SMITH TO HOOK UP IN MOUND DUEL TODAY

Promising a fast brand of the national pastime and with the most capable lineups in the City of Lubbock arrayed for combat, the Wholesalers and the All-Stars will meet today at Merrill park.

Manager O. A. "Terrible" Terry will throw his veteran lineup of city league champions into the game, he said today, depending upon the strong right arm and ready brain of "Preacher" Taylor.

Manager Jesse Andrew Riley, Jr. of the All-Stars, will probably pitch his old banker standby, Moody Smith, the husky right-hander who defeated Amherst Monday after Taylor had fallen on the hill the day before.

Smith is in top form and has enjoyed the best season of his career this year.

Baseball history records that when he was a member of the Providence team in 1882, he handled five put-outs and 11 assists in 17 chances and for the old New York Giants in 1890 he took 11 assists and two put-outs in 14 chances.

Denny was known in every section as the greatest fielder of his day and ranked with such men as the noted Jim McGarr, Billy Nash and Ed Williamson, which was many years before the reign of Jimmie Collins, records as best of the more recent third basemen.

Denny resided at Bridgeport, Conn., after his retirement from baseball in 1904. To the last he gave his love for the game which he loved him fame through all the years of his scandal and upheaval. He died while on a visit to his daughter in Houston August 16.

Denny Shown As Star Ball Player With Bare Hands

(By the Associated Press) HOUSTON, Aug. 25.—Jerry Denny, once a colorful major league baseball player, whose gentle personality merged with immortality at the home of his daughter, Mrs. N. A. Carroll here, came down through baseball history as the outstanding bare handed player of all time.

For some obscure reason, Denny spurned the use of a glove. For more than 15 years he stopped the ball bare handed in the old National league games and for more than 10 years he caught them the same way in the minors. Denny played third base, the "hot corner," yet his hands, as photographs showed, bore no marks.

Questions on Yankees

With the New York Yankees far out in front, the most interesting feature of the American league race at present is the hectic struggle between Babe Ruth and Lou Gehrig for the home run championship.

What are Gehrig's chances to beat Ruth to the honor? Is there a possibility that either of the two will beat Ruth's record of 59 home runs made in 1927?

These are just a few of the questions, inspired by the battle between Ruth and Gehrig, that have been fired at me recently. Here is my angle on the various queries:

How does the public and players view the struggle between the pretenses for the crown and the king? These are just a few of the questions, inspired by the battle between Ruth and Gehrig, that have been fired at me recently. Here is my angle on the various queries:

FOREIGN EXCHANGE

NEW YORK, Aug. 25 (AP)—Foreign exchanges steady. Great Britain demand 4.85 1/2-16; cables 4.85 1/2-16; 60 day bills on banks 4.81 1/2. France demand 2.91 1/2-15; cables 2.91 1/2-16. Italy demand 5.44 1/2; cables 5.44 1/2. Belgium 12.91. Germany 23.80; Tokyo 47.37 1/2; Montreal 100.02 1/2.

WALL STREET TRADING

NEW YORK, Aug. 25 (AP)—Prices ranged fractionally higher at the

opening of today's stock market. General Motors old and new stocks quickly sold up to new high prices at 230 5/8 and 211 1/2, respectively. U. S. Steel, however, was heavy. Cautious pessimism in the current reviews of the steel trade evidently created a feeling of hesitancy. Railroad shares in some instances moved ahead in the face of relatively poor current earnings report and continued decline in freight traffic from last year's figures. Midland Steel Products quickly reacted to a new high above 700. Mackay's companies went up 3 points in a new push on expansion plans, but Radio Corporation fell back 2 points. American Smelt jumped 3 points in the first half hour. Point or better gains were recorded by New York Central, St. Louis and San Francisco. National Biscuit, International Agriculture Chemical, and others soon after the opening. Oils appeared little affected by additional cuts yesterday in crude oil prices. Houston Oil quickly gained about a point. Foreign exchanges opened soft with Spanish pesetas down 2 points around 17.82 1/2 cents. Deutscher Sterling closed close to 34.85 3/4, and French francs below 2.91 cents.

Edward Temme, shown with his mother at the completion of his 14 hours in the water, is the seventh person to swim the English Channel. Temme a young Englishman, swam from Cape Gris-Nez to Dover.

Grain Market

CHICAGO TRADING
CHICAGO, Aug. 25 (AP)—Relative strength in Liverpool led to moderate buying of wheat early and a fractionally higher range here today. Less pressure was in evidence and with weather conditions in the wheat territory generally favorable, the market soon eased lower; creamery firsts 42 1/2; standard 39 1/2; extra firsts 40 1/2 @ 41 1/2; firsts 37 1/2 @ 38 1/2; seconds 35 @ 36 1/2.

a set back all around. Higher temperatures over the belt gave sadness to corn. Fair buying on the hips brought about a slight recovery, but as offerings were absorbed, the market suffered a further decline starting 1-3 to 1/4 cent off. Corn recovered somewhat and then fell lower than before. Oats were affected by the action of corn and provisions ruled firm in line with higher quotations on hogs.

The Inevitable Result of Progress Is Expansion

The Texas Utilities Company has made great strides in serving the people of the South Plains. No better evidence of this could be made than the expansion of our services and facilities.

Today, in nearly every town and section of the South Plains, the Texas Utilities Company has extended every possible effort to not only provide its services with dependability and quality, but to be able to care for growth that is not now indicated.

The present plant of this Company at Lubbock has no superior for its kind; certainly there is no electrical service superior and very few that equal it.

If you are unacquainted with Texas Utilities Company service make inquiry among your neighbors.

 In Master Farmer
 Race Over State**

Entering the final after a re-scoring effort, Douglas Pounds of the Acuff community remains as one of the four farmers of this district to contest with 35 other farmers of Texas for the title of Master Farmer which will be given with awards to 15 farmers of the state by the Progressive Farmer, a magazine publication, of Dallas.

In the scoring yesterday at the Pounds farm agent John T. Egan, district farm agent from College Station; Paul Hute, field editor of Progressive Farmer; David F. Edson, Lubbock County Agent; and Miss Myrtle Murray, district home demonstration agent, were judges.

Winners of the contest, 13 in all, are to be treated to a big banquet in Dallas in December and will be given a gold medal by the publisher.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the disease so fatal to child life. The safe course is to give a few doses of White's Cream of Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 25c. Sold by Halsey Hall Drug Co.

FLIERS' HUNT

(Continued From Page 1)

Kierle, chief of naval operations in Washington, D. C., authorized Admiral R. H. Jackson, in charge of the hunt, to use his own judgment as to how long the search should be continued.

The result was a radio order to the Omaha and her fleet to continue on to Honolulu, sweeping probable drift areas between their present positions and the Hawaiian Islands.

Tests of rubber raft, the same in every respect as those carried by the Dole fliers, renewed hope that the lost aviators might still be afloat.

Search is intensive

Search in Hawaiian waters and on the islands yesterday continued intensively, but without developing a trace of the lost fliers.

Martin Jensen, who finished second in the Dole flight flew to the island of Hawaii and returned having seen nothing to indicate that the lost fliers were on the lefty mountain, Mauna Kea where a green flare was reported seen Monday night.

The missing fliers are Miss Mildred Doran, John Auggy Pedlar

**Degrees Given 12
 Tech Students In
 Brief Ceremony**

Although the summer session of Texas Tech does not officially close until tomorrow, the bachelor of arts degree was informally conferred upon the twelve graduates yesterday shortly before noon by Dean J. M. Gordon, at a convocation of the student body.

Ten young women and two men compose the graduating class, the second in the history of Texas Tech. Those receiving degrees are: Misses Alice Alverson, Rosalie Beth Bennett, Edith Carter, Iris Crouch, Willie Mae Hawthorne, Rebecca Quinn, Anna Sylvan, Paula Warren, Sylvia Wilson, Mrs. Marion Morrison and Mr. H. T. Groves and Mr. Eldon M. Thorp.

BRANDED FLAPPERS

RICHMOND, Va.—A "brand" about six inches above the knee in the latest fad of the flapper bathing beauty in the Old Dominion. A few pieces of adhesive tape, a few idle hours on the beach, or at the lake, and the girl wears the brand of her choice, usually that of some favored college Greek letter fraternity. The tape prevents sunburn and tanning, leaving the letters plainly visible.

SHAM STUDENT MARRIAGES

MOSCOW—Since the only accepted pretext for transfer of a student from provincial educational institutions to Moscow is the presence of husband or wife resident in Moscow, soviet students have taken to contracting sham marriages with Moscow inhabitants, municipal marriage registry offices here complain.

TO LICENSE ACCOUNTANTS
 PARIS—Expert accountants who

prove their worth are to be vouchered for by the government hereafter. A preliminary examination, five-years experience and a final examination are the requirements for certificates to be issued by the ministry of public instruction. Hereafter there have been no requirements for accountants.

PASSENGER UPSIDE DOWN

SALZBURG—A passenger embarking in a Vienna-Salzburg commercial plane was carried upside-down over the city when his foot became entangled in the rods of the plane as it was taking off. Rocks were fired to attract the attention of the pilot to the plight of his dangling passenger. The plane descended and the passenger was taken off unharmed, but unconscious.

CHUCKLES OVER 'EM

C. Francis Jenkins, the inventor who made the first movie projector and who first showed moving pictures on a screen, recalled these days with frequent chuckles in an interview, with your correspondent.

"At first only the novelty of the new art made it attractive," Jenkins said. "We didn't have any titles to show except motion. We had pictures of Annabella in her serpentine dance and Carmelita in a Spanish dance, but there was nothing resembling plot or continuity."

NICKEL PLACE SORTED IT

"Then one day a Jew opened a five-cent place and offered to rent a picture each week. Others opened up after he had succeeded and the exchange developed. The exchange made the motion picture industry just as the telephone exchange made the telephone industry."

"We began to introduce stories and for a long time we made little but 'chase pictures.' These pictures, in which people are pursued all over the place, are still popular in modern comedies."

**Movie Infant Once A Ne'er Do Well
 Cinema Industry's Early Life Hard**

Mary Pickford as she looked years ago in her first starring part—in the days when a movie actress figured \$25 a week was a high salary.

**BY RODNEY DUTCHER
 NEA Service Writer**

"Everyone's seen your pictures now, Jenkins, and no one wants to see them twice. They're rotten anyway. I don't want them any more."

"But I persuaded him to use them as a chaser at the end of the vaudeville to get the people out of the theater. Women used to say to their husbands: 'Henry, let's get out of here quick. Them things will ruin your eyes!'"

"No, we couldn't see anything to do with this thing now we had it."

JUST FROM NEW YORK

"My first picture story showed a foreign prince putting a stunt and I made a few things for the Navy during the war and occasionally went riding in planes. At the end of the war I bought a surplus Navy plane, although at first no one would try to teach an old fellow years how to fly."

we made similar pictures for weeks. Then Loumery came over from France with his 'mystery' picture—'frisks' which caught the popular imagination. Someone produced 'Day in the Life of a Fireman' at the industry was on its way."

"Carl Laemmle set up a film-making place in New York at gathered in street urchins as extras. One of his first pictures showed a poor old blind fiddler, 'one-eyed'—followed by a little boy who had made many pennies and poured them into the cup."

"That boy was Mary Pickford. Some one had bought her a boy suit for the act—it was her first 'prominent' role—and I remember they tore up the suit to make her look ragged. I happened to be there at the time because I had 'sold' them some cameras."

Sold out for \$5000

"I had sold my rights, however for \$5000. I stuck the money in my pocket and went to see my girl and we had a whole of a time. There was a club of us and for awhile paid all the bills for their good times, too."

The latest Jenkins inventions are designed to remove all major dangers which beset airplane pilots. They are four of these and the assure quick launching from a 100 foot runway, enable aviators to hold a definite course by means of a radio guiding channel, make possible for a pilot to know his distance from the ground as he descends and permit a plane to be stopped in flight at its own length—on a flat roof.

Another new Jenkins invention is a movie camera which takes 2200 pictures a second, allowing hitherto impossible photography of motion too rapid for the eye. This camera takes pictures 290 times as fast as a regular movie camera.

The main apparently is turning out important inventions faster than any other man in America to day. He is as common as an old shoe and takes nothing seriously, no even himself. He gets a whole lot of fun out of life and is interested only in inventing, refusing to bother with manufacture of his varied devices. He is now 29 years old.

"I can't take much credit," says he. "I just happened to be born that way. When I was a kid on an Indiana farm, my father, a Quaker, observed me fix a moving machine and said, 'That's thy talent.' One of my first inventions was a foot building machine and I followed up with a wagon jack which could be operated by a boy instead of necessarily by a man. I sold some of these and found that if you painted 'em red you could sell 'em, but I got tired of that."

"These aviation inventions came after I had operated a plane and realized what aviation needed. I made a few things for the Navy during the war and occasionally went riding in planes. At the end of the war I bought a surplus Navy plane, although at first no one would try to teach an old fellow years how to fly."

MOODY ENJOYS PLANE RIDES

GOVERNOR TELLS HIS OBSERVATIONS IN RECENT FLIGHTS

(By the Associated Press)
AUSTIN, Aug. 25.—Becoming an airplane enthusiast after several recent flights, Governor Dan Moody today told of his observations of changed aspects of things from air.

He has noticed that the natural color of the state capitol makes it difficult to see when approached from the air, and that the University of Texas Memorial stadium, which is only about one fourth the height of the state house, coming from the high points of each, is 317 feet to the statue tip on capitol, which is 7 feet higher on the national flagpole.

You can see the stadium before you can locate the capitol," the governor said.

May Fly To Fort Worth
He may fly to Fort Worth for September 25 reception of Colonel A. Lindbergh, Texas aviator hero, whom he met at St. Louis on the Texas Good Will tour.

Although the governor took his first flight only a short time ago, he is an American Legion member at Fort Worth. He has flown several hundred miles since then, only last week he raced a heavy-duty-driven rain into Austin, and at it to the ground in an army plane bearing him from Camp Crockett in enough time to reach Austin before the downpour.

He made the 176 odd miles in 90 minutes.

Railroads Like Highways
Railroads look very much like good roads and a wagon road like a railroad, when you are 30 or 2,000 feet in the air," the governor said.

Creek looks like a dry road in a sandy country, and a fellow can't tell whether he is flying over Texas, Georgia or Oklahoma, unless he happens to have a personal acquaintance with the structures in the city or with the territory surrounding it.

PENCIL-WOOD IN TURKES-TAN

SAMARKAND, Turkestan.—Enough pencil-wood to overcome Hitler's not only in Russia but in the whole world has been discovered in the Zaminik district in Turkestan, according to explorers just returned. There are said to be 50,000 acres of "archa" forests, a timber suitable for manufacture of pencils.

A \$40,000,000 PLANT

Behind Budweiser Real Hop Malt Syrup is the finest plant of its kind in the world, a \$40,000,000 structure comprising more than 110 separate buildings and covering more than 70 city blocks. A million-dollar unit is devoted just to sorting, grading, cleaning and malting the natural barley grains.

This entire plant is designed, built and equipped for malting. Facilities for the proper storage of barleys and hops are provided. Every operation is done by automatic machines built to standards set by Anheuser-Busch. And every step of manufacture is under the watchful guidance of the world's foremost malsters.

It takes a plant like this—an organization like that of Anheuser-Busch—and the experience of Anheuser-Busch—to produce a malt as good as Budweiser Real Hop Malt Syrup. Do you know of any other place on earth where such a combination can be found?

Jack Lockwill at Summer Camp

(Creator of Frank Merriwell)

By Gilbert Patten

"That's dirty stuff!" cried a shrill voice. To the bully's surprise, Peewee Lannan rushed up and stood looking at him with contempt and hatred in his faded blue eyes. "A fellow that'll sock his best friend is a rotter!" said Peewee. "Oh, is that so, you little snipe?" snarled Saunders, seizing Lannan and wringing his arms. "Take 'back or I'll twist your wing off!"

"Oh—oh, don't!" squawked Peewee, writhing in distress. "You're breaking my arm!" "I'll turn it out of the socket, you miserable runt!" threatened the ruffian.

Lannan's cries brought many other boys hurrying to the spot. But, though they muttered angrily among themselves, fear of the bully kept them from interposing.

Lockwill, having dressed after a rub-down, heard Peewee's yelps of pain as he came out of the gymnasium tent. The sounds took him to the scene in haste. Usually cool-headed and self-controlled, Jack's wrath mastered him when he saw what Saunders was doing. For a second time, he hit Buke and knocked him cold. Then he carried him on to the float and threw him overboard.

It's always a relief when a boy gets big enough so his father can wear his discarded clothes.

Years After
The breaking up of the Geneva arm party, President Coolidge's withdrawal from the 1928 campaign and the intense interest in the Sacco-Vanzetti case crowded from public attention the meeting in Louisiana, Switzerland, of representatives from 27 Christian denominations who seek some means whereby they may unite all Christian peoples under a common creed, a common basis of faith, and a common form of church organization and administration.

Evangelist Will Hoag said in a recent sermon that some of our young people should crawl on their knees to the altar to ask forgiveness for the way they have been living.

Any ordinary straw Kelly which can be picked up in Sixth avenue for a few dollars, is likely to cost at least twenty before it is thrown in the ash heap at the end of the summer.

It seems likely, for instance, that Hoover will enter the arena with more delegates than Dawes, but from that time on the prospect of a swing to Dawes probably would be very real.

Our dramatic appreciation seems to be improving. No longer do they dress Hamlet in pinstripes to prove that he was crazy.

It was almost exactly 1900 years ago that Jesus Christ set out upon his great ministry. That ministry, lasting some three years, was the foundation of the Christian church.

Speaking of laws, we need to follow to lead us out of the wilderness of disregard for peace and order, what's the matter with the Ten Commandments? If we'd follow them to the letter we could throw away our statutes, padlock our courthouses and turn the jails into community centers.

Anybody who goes about a lot can expect the cost of his hat to run around 50 cents a day or \$15 a month. If the hat lasts six months it has cost him \$90 above the original price.

It is a safe bet that the Ohio boom man who stabbed to death a 100-pound catfish couldn't emerge unscathed from a battle with a can of sardines.

Old Master's
O Reader, hast thou ever stood to see The Holly-tree? The eye that contemplates it well perceives.

Two hundred years ago—one hundred years ago—the believers in one creed could see no possible good in the creed of any other church. Toleration, however, has spread, and the result is that today representatives of the 37 creeds in some thirty different countries can admit that the spirit of their religion is and should be more important than mere details of ceremony and church organization.

Here lies the body of William Remmy. He broke the speed laws. One time too many.

A busy man must hire the janitor or one of the professional "doers" if he is to have a pure in his basement. Janitors make considerable side money playing nursemaid to tenants' dogs, and innumerable jobless men take on this task while looking around for work.

O Reader, hast thou ever stood to see The Holly-tree? The eye that contemplates it well perceives.

As time goes on, the world, moving at greater and greater speed, has seen the ages become shorter and shorter. The age of the invertebrates may have lasted some thousands and thousands of years. The iron age lasted only a few centuries, giving way to the age of steel. Upon us now, we are told, is the age of electricity, known in the vulgar as the age of jazz.

That Girl on Broadway says the philosophy of an wrong about beauty being only skin deep. A lot of it can be rubbed off with a little soap and water.

Flashes Of Life (By The Associated Press)

Handsome Groom NEW YORK-Major General Robert Lee Bullard at 66 is a handsome bride groom. It turns out that he was photographed on his 65th birthday in a West Point uniform and it had exactly the same measurements as the one he wore upon graduation 41 years before.

Plane Elopers LANCASTER, Pa.-And now airplane elopers. Holding a bouquet of four leaf clover Alma Matze, 18, and Caspard Dickel, jr., 22, flew in a commercial plane to Belair, Md. The plane had to land in a field. Then after a journey of three miles in a farmer's automobile they found an obliging parson.

Approved Fiancee NEW YORK-Society looks with approval on the fiance of Millicent Rogers, at least his looks. The two appeared at a tea. Arturo Ramos, smiling, six foot two, dark and slender, wore a double breasted serge and gray trowsers. Millicent had a blue taffeta gown with three quarter sleeves of chiffon, a felt hat with a boyish bob, tan gloves and black shoes with huge rhinestone buckles.

Green With Envy YELLOWSTONE NATIONAL PARK-Farm and Alta Smith of Lyons, Kansas, college students, are the envy of other girls working in the park for the summer. They danced with John Coolidge.

Plenty Of German NEW YORK-Berlin, which is all agog over Mayor Jimmy Walker, will perhaps be pleased to note that "Miss New York" is of German descent. The father of Frieda Mirso, who has been selected to represent the city in the Atlantic City display of pulchritude, is on his way to visit his mother in Halle, Germany.

Knows His "Yatz" BERLIN-A German journalist asked Mayor Walker what he thought of "yatz" music. The mayor was puzzled, knowing nothing much of yachts, till he learned the German pronunciation of "jazz."

Society Working NEW YORK-More society folks are getting jobs. "Buzzy" Warburton, whose divorced wife is generally expected to wed W. K. Vanderbilt, jr., is an assistant director at a movie studio. His sister, Mary Brown Warburton, is designing costumes for the movies. Mrs. Frank C. Henderson of Park avenue is publishing a book of poems.

Changing Times ASBURY PARK, N. J.-Evelyn Cohen in her professional capacity is a brunette one day and a blonde the next. A "pander" found that out. He accused her when she was a blonde. He said he had heard that she thought the Asbury Park police woman had dark hair. Then her disguises with wigs were disclosed.

Doheny Is Ponder With Common Folk FORT STOCKTON, Aug. 25.-When Edward Doheny, oil magnate was looking over the peccs edifice oil fields, recently, he became quite popular among the working people in this section because he manifested interest in commonplace things.

Mr. Doheny, unaccustomed to the arid climate of this section of Texas, appreciated the water supply near Fort Stockton. He said that Comanche Springs and Leon Springs, "are wonderful blessings to the people in this seemingly arid land."

CHICAGO CLOCK TO BE TORN DOWN CHICAGO-One of the most familiar of the big clocks that look down from the towers of the board of trade building is raised to make way for a new grain man. The clock was put in place in 1891. It cost \$885.

5-Clara Bow's hair is red. 6-Dorothy Arzner is the first woman director. 7-Adolph Menjou was born in Pittsburgh. 8-Sally O'Neill's real name is Christie Noonan.

9-Bruce Bairnfather created the character of "Old Bill" who was the hero of "The Better Ole". 10-James Cruze directed "Old Ironsides," in which a frigate plays the title role.

CITATION ON APPLICATION IN PROBATE THE STATE OF TEXAS To the Sheriff or any Constable of Lubbock County, Greeting: You are hereby commanded to cause to be published once each week for period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Lubbock County, a copy of the following notice:

THE STATE OF TEXAS To all persons interested in the Estate of J. J. Gosdin, Deceased, Letta Kate Gosdin has filed in the County Court of Lubbock County an application for Probate of Will which said application will be heard by said Court on the 15th day of September, 1927, at the Court House of said County, in Lubbock, at which time all persons who are interested in said Estate are required to appear and answer said application; should they desire to do so.

Herein fail not, but have you before said Court on the first day of the next term thereof this writ, with your return thereon, showing how you have executed the same. Given under my hand and the seal of said Court, at office in Lubbock, Texas, this 23 day of July, 1927.

AMOS H. HOWARD, Clerk County Court, Lubbock County, Texas. By FLOE SWENSEN, Deputy.

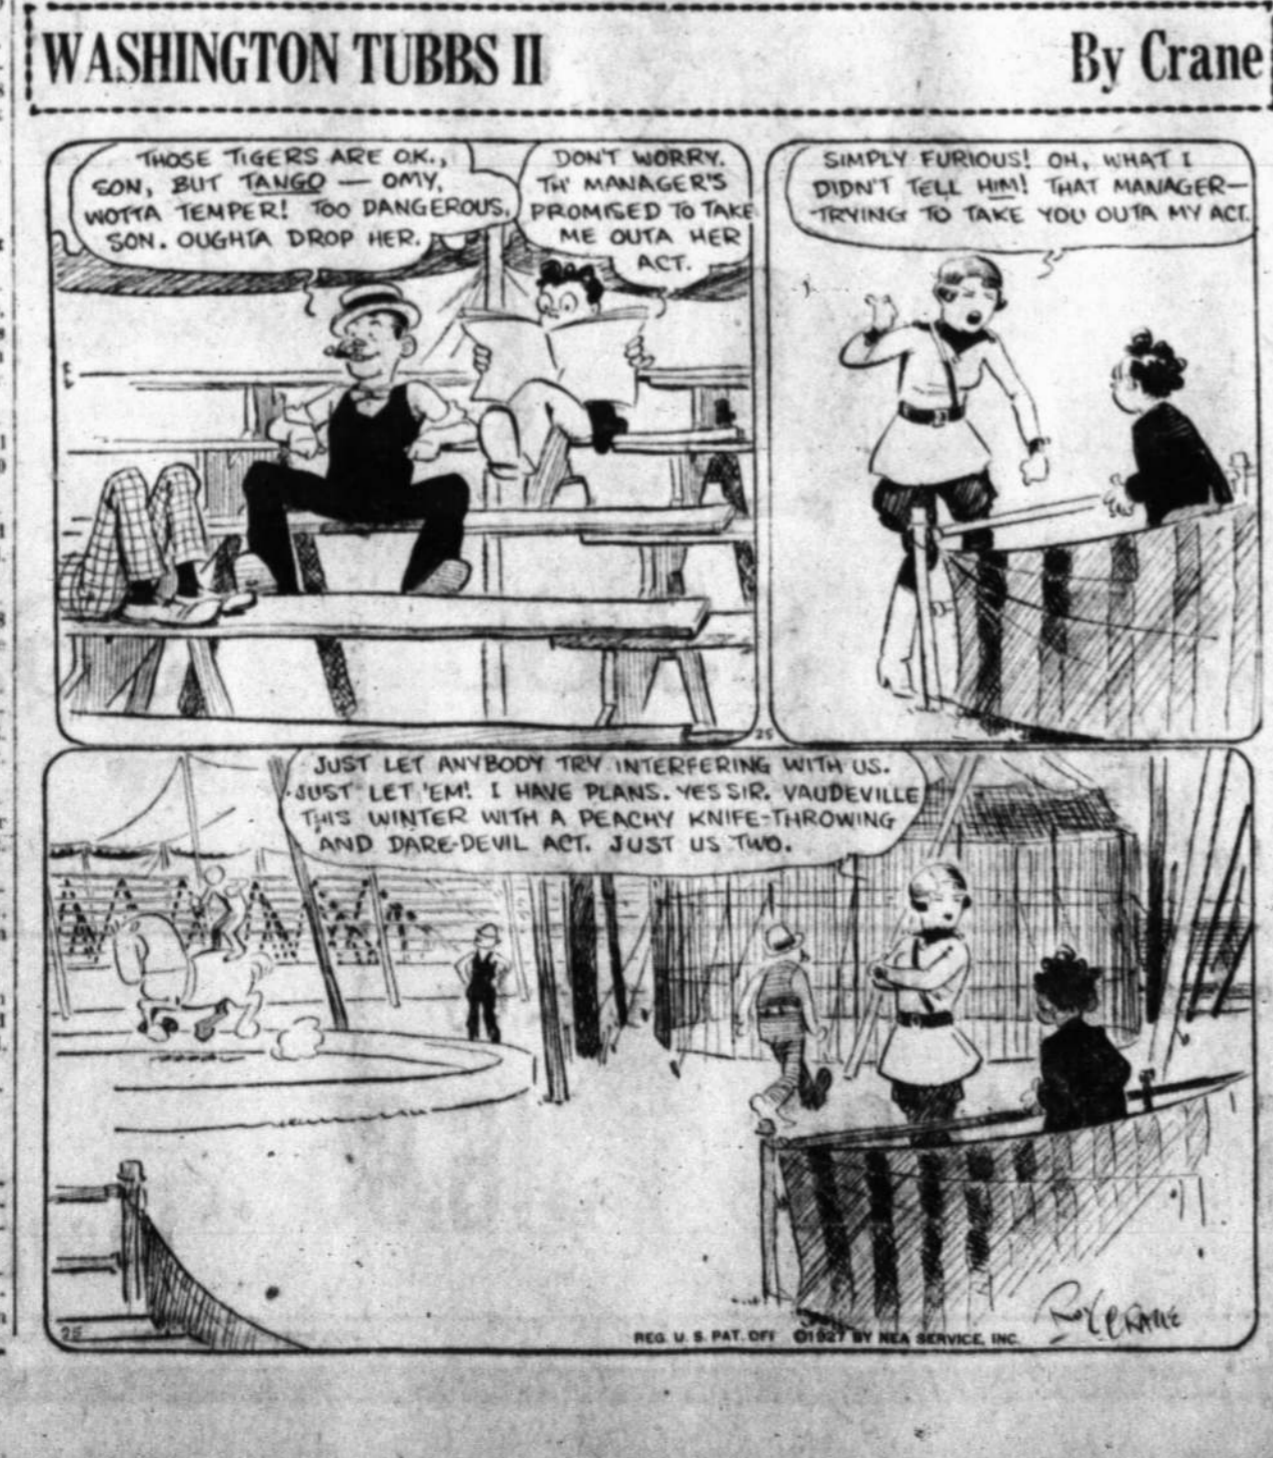

CITATION BY PUBLICATION THE STATE OF TEXAS To the Sheriff or any Constable of Lubbock County, Greeting: You are hereby commanded to summon Homer A. Starr by making publication of this Citation once in each week for four successive weeks previous to the return day hereof in some newspaper published in your County; if there be a newspaper published therein, but if not, then in any newspaper published in the 99th Judicial District; to appear at the next regular term of the District Court of Lubbock County, to be held at the Court House thereof in Lubbock, on the 1st Monday in September, A. D. 1927, the same being the 5th day of September, A. D. 1927, then and there to answer a petition filed in said Court on the 3rd day of August, A. D. 1927, in a suit, numbered on the docket of said Court No. 3032, wherein Pauline Owens Starr is plaintiff and Homer A. Starr is defendant, and said petition alleging plaintiff and defendant were married March 26th, 1925, and separated March 12th, 1927 on account of cruel treatment by the defendant towards the plaintiff of such nature and character as to render her unable to cohabit with him incontinently, showing in this connection the defendant was addicted to drink and assaulted plaintiff with his fists just before their separation, which humiliated her and impaired her health.

Further alleging she owned in her own separate right lots L. 2 and 1 to 3 inclusive, and also lots 16 to 24 inclusive, in block 12, Roberts & McWhorter Addition to the town of Lubbock, Lubbock County, Texas; also lot 29, block 2, Ellwood Place Addition to the town of Lubbock, Lubbock County, Texas. She prays for title to be quieted in her, in and to said lots as against defendant.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court at office in Lubbock, Texas, this 3rd day of August, A. D. 1927.
