The boy's father, the late E. B. Hubble, died in 1944.

LT. COL SHARP ASSUMES COMMAND OF SUPPLY GROUP AT GOODFELLOW

Lieutenant Colonel Savell Lee Sharp, son of Mrs. Annie Sharp of Sonora, assumed duties last week as Commanding Officer of the 3435th Maintenance and Supply Group at Goodfellow AFB, replacing Major Benton W. O'Neal, who was recently transferred to Flying Training Air Force Headquarters at Waco.

Returning to active duty from reserve status March 13, Colonel Sharp performed duties as Executive Officer of Air Base Group until his recent assignment.

Prior to his return to service, his home was at Sonora.

Colonel Sharp served in the capacity of Band director at San Angelo College in 1949-50, and previously was the head draftsman for the architectural firm of John G. Becker at San Angelo.

Entering the service in December, 1940, as an aviation cadet, Colonel Sharp received his commission as a second lieutenant with his silver pilot's wings in August, 1941.

He is a graduate of the Air Command and General Staff School at Leavenworth, Kansas, and also attended the Orientation Course at the Air University, Maxwell, Alabama.

A veteran of 23 missions in the Southwest Pacific theatre, Colonel Sharp holds the Air Medal with three clusters, and battle stars representing anti-submarine campaign around New Guinea, Bismark Archipelago, North Solomon, South Philippines, and Luzon.

A graduate of the Sanderson Texas High School, he received his Bachelor of Science degree from Sul Ross State College, Alpine, Texas, in 1939, and did graduate work at the University of Texas, at Austin.

Visiting her daughter and family, Mr. and Mrs. Vernon Luckie, is Mrs. J. E. Godwin of Socia, California. Godwin will join them at the latter part of the week.

Attend SOME Church Sunday.

HUSDPEITH HOSPITAL AFFILIATES WITH TEXAS BLUE CROSS PLAN

Lillian M. Hudspeith Memorial Hospital is affiliating with the Texas Blue Cross Plan, William Burge, Administrator announced today.

In affiliating with the Texas Blue Cross Plan, Lillian M. Hudspeith Memorial Hospital joins 460 other hospitals in Texas and 4,000 hospitals throughout the United States and Canada, in serving over 22,000,000 Blue Cross members. This means that 85 per cent of the general hospital beds are now available to one out of every four citizens of the United States as Blue Cross members.

Blue Cross is a non-profit organization sponsored by the hospitals and the medical profession. The original prepayment plan was born December 20, 1929, in the school rooms of Dallas, Texas, in cooperation with Baylor University Hospital and was known as the Baylor Plan. Given credit for the origin is Dr. Justin Kimball, then associated both with the Dallas school system and with Baylor University.

By August of 1937, Blue Cross had its first million members, doubled in the next twelve months. The American Hospital Association gave its official approval to the plans, setting up its essential requirements of plans with an Approval Program - these requirements being non-profit organization and control, hospital-guaranteed services, sound accounting practices, adequate financial reserves, a record of community service, comprehensive hospital service, and hospital service available everywhere.

School To Open Tuesday, September 4.

First day of regular classes in the Sonora Schools system will be Tuesday, September 4, according to Superintendent E. A. Brodhead. Brodhead said there will be no special registration days for high school students, but that all high school students will call on Principal Norman S. Davis between August 15 and September 1 to arrange their subjects and check their schedules.

Staff meetings and staff planning sessions will be held at 9:30 o'clock each morning from August 30 through September 1.

Other important days during the year are Thanksgiving holidays November 22 and 23; Christmas holidays December 21 to January 7; Easter holidays April 11 through April 14.

Last class day for seniors is May 23, with May 25 as Baccalaureate Sunday. Graduation exercises are planned for May 26, and school will close May 26.

14 4-H Boys Attend Camp

Fourteen Sutton County 4-H Club boys attended the District 11 4-H Club Camp at the Alte-Frie Baptist encampment near Leakey August 2, 3, and 4. Four hundred and one delegates from eighteen counties attended the camp. Edgar Glascock Wayne Ogden and Clint Langford were Sutton County Adult sponsors.

Joe Renfro was elected Co-Chairman of the camp and George Spinks was elected camp Sheriff, which was quite an honor for the Sutton County delegation. Charlie Genrich was selected as group Chairman for his age group.

The boys participated in rifle shooting, swimming, baseball, crafts and an amateur program. Jack Johnson won second place in the senior free style swimming contest and George Johnson won first place in the Junior free style swimming contest. Jack Johnson, George Spinks, Jack Adkins and Joe Renfro accompanied by Wayne Ogden, represented the Sutton County 4-H Club on the amateur program and won fourth place.

Those attending the camp were: Harold Garrett, Charlie Genrich, Rodney Davis, Roger Fawcett, Gene Eubanks, Ted B. Jay, George Spinks, Rus Chalk, Joe Renfro, Jack Adkins, Birl Davis, George Johnson, Jack Johnson, and Dewey Shroyer.

To Attend Fire Training School

Fire chiefs and fire marshals from four surrounding towns will join with these officials of the Ozona Fire Department in a fire marshal's training school to be held at the Ozona Fire Station the last two weeks in August.

Attending from Sonora are R. M. McCarver, fire marshal, and Lee Patrick, fire chief.

The school sessions will be held every other day, session dates being announced as August 20, 22, 24, 27, and 29 starting at 7:30 o'clock at night. Fire Departments from Big Lake, Eldorado, Rankin, and Sonora have been invited to participate in the school.

The school will be under the direction of A. J. Fogaley, field instructor of the Texas A. & M. Fireman's Training School.

According to H. R. Brayton, director of the school, this school has just one purpose in starting this type of training. That is to be of service to the various communities in assisting their efforts to reduce loss of life and property from fires which can be prevented.

THE AMERICAN WAY

Let's Put All The Cards On The Table

GOVERNOR ALLAN SHIVERS gets a smile from little Janalee Davis of Del Rio, formerly a patient at the Gonzales Warm Springs Foundation for Crippled Children. The governor has accepted the general chairmanship of the Foundation's committee for the third successive year and will spearhead the fall campaign to provide additional facilities vitally needed for the rehabilitation of thousands of physically handicapped Texas little ones.

SHIVERS NAMED CHAIRMAN OF GONZALES FOUNDATION

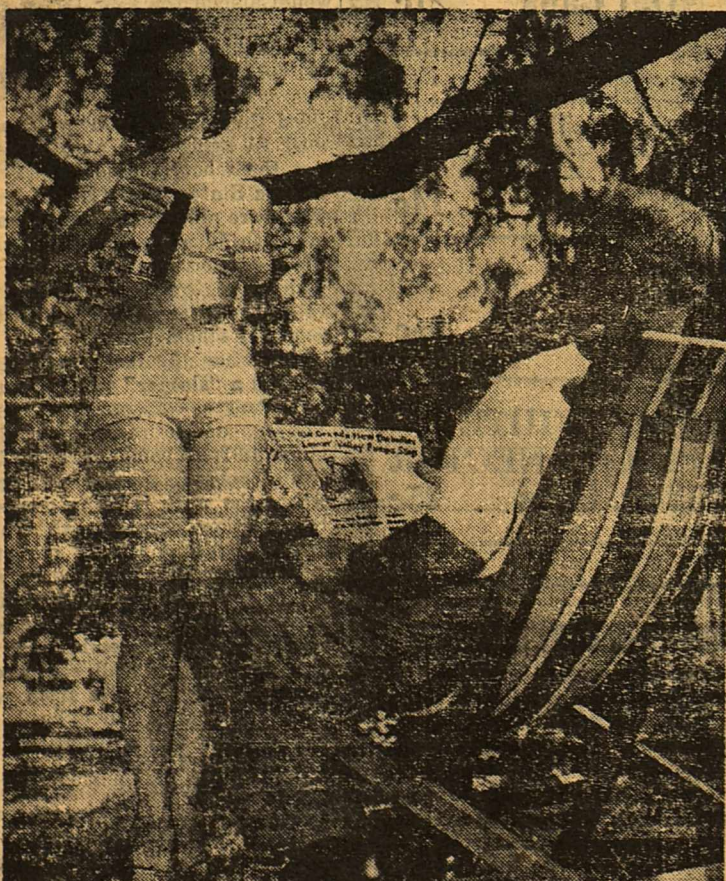

Governor Allan Shivers has accepted the general chairmanship of the Gonzales Warm Springs Foundation committee of Texas for the third successive year, it was announced today, and will spearhead the fall campaign to provide additional facilities for the Gonzales treatment center, dedicated to the welfare of the thousands of physically handicapped children of Texas.

The Gonzales hospital of physical medicine and rehabilitation is state-wide in scope and since its founding in 1937 has treated patients from the majority of Texas counties. Non-profit and non-sectarian, it accepts any Texas child, regardless of color, creed or financial conditions, who can benefit from the treatment program.

In accepting the chairmanship, Gov. Shivers pointed out that because of the pressure of his many duties he has been forced to reluctantly decline active participation in many worthy causes, but that the welfare of the crippled children of Texas was most close to his heart.

"The Gonzales Foundation must continue and enlarge its program for the benefit of our physically handicapped little ones," he said, "to the end that they become happy, useful citizens. We must provide a treatment center for our crippled children that is second to none."

Mr. and Mrs. Bud Chenoweth spent the weekend in Dallas on a business trip and to visit friends.

"LET THEM DRINK CITRUS JUICE," says Raymond Smith, czar of the Rio Grande Valley's dwindling water supply. Luscious Nancy Lou Shindler obliges, and invites her fellow Texans to "drink up." State-wide sales are expected to boom during sultry August.

State Draft Up In October

The Texas draft call for October is 742 men, Brig. Gen. Paul L. Wakefield, state Selective Service director, announced today.

This compares with a September quota of 619 and an August call of 772. From March through July, state calls were decreased; but beginning with the August call, quotas have been increased, the state draft director pointed out.

The October quota of 742 is the state's share of a national quota of 41,000, biggest national monthly quota since March. Part of the September and October quota of men will see service with the Marine Corps.

General Wakefield said that local board quotas for October will be assigned and mailed "around August the 8th or 9th." No local board quotas will be available until that time. Local boards have received September calls.

The state director of Selective Service said his headquarters had received information that not as many male college students in the Southwest had taken the Selective Service qualification test as in other areas.

Figures received showed that 6 per cent of male college students in Western South Central states took the test, as compared to 18 per cent in Northeastern states, and 11 per cent over the nation and

territories as a whole.

State headquarters also has received new regulation which permits some registrants who appeal for occupational deferment to have a choice of appeal boards. For example, a man registered in Texas who is working in California, upon request, may have his appeal forwarded to a California appeal board having jurisdiction of the area in which he works.

The draft registrant must make such a request at the time he files an appeal. A registrant has a right to appeal, if he takes such action within 10 days after his local board mails him a notice of classification.

General Wakefield said his headquarters also has been giving official notice that men who have been examined and found acceptable for service will continue to have the privilege of enlistment until the end of August, provided they enlist before an order to report for induction is mailed to them.

"This means active duty enlistment," General Wakefield pointed out. "It does not mean such men will be privileged to enter reserve units."

This arrangement has been in effect since early summer. Previous to that time men who had received orders to report for armed forces examination did not have enlistment privilege under the regulations.

Attend SOME Church Sunday.

THE OVERWHELMING APPROVAL of the tidelands bill by the House, with votes to spare to override a veto, barring an unexpected switch of votes, has left the militant opposition a bit groggy but still counting heavy on President Truman to save the day with a veto. But one hears speculation that should the Senate add a strong approval the President may hesitate to again flaunt the will of the people thus expressed on several occasions.

One of the oddities of the anti-States' rights forces which opposed the tidelands measure was the claim that it was being pushed by the "lavishly financed Oil Lobby." That is a typical technique often employed by special interests in attempts to arouse prejudice and venom to take the place of merit and reason. It is reminiscent of the old Communist line, now used constantly in Pravda and the Daily Worker, which proves every anti-American point by simply describing it as a "Wall Street profiteering stunt" or as a product of "Wall Street wor-mongers", etc.

Certain left-wing columnists use this technique all the time in their subtle attempt to play on prejudice and poison of the unsuspecting reader. For example, all during the fight for socialized housing everyone who dared oppose this British plan for America was described as a victim of the "Big Real Estate Lobby"! And when an attempt was made to put some common sense into the meat control law and keep the supply of beef from being snarled by methods to curtail the production and distribution of beef, the howl of "Millionaire Cattle Baron Lobby" was repeated time and again. Socialized medicine is, of course, according to these sources, opposed only by those who surrender to the big "American Medical Association Lobby"! And so it goes.

Getting back to Tidelands, the simple truth is, as everyone knows, that many of the oil companies favor Federal ownership, or else do not care one way or another. The oil companies will get about the same return, about the same royalty interest in production, whether the States or Uncle Sam happens to be the other contracting party.

The moral is: Beware of the arguments by those who in the absence of fact to support their argument, use the "big Lobby" hoax when there actually may be no lobby at all involved other than the "Big Lobby" of which those who use that old time technique are members.

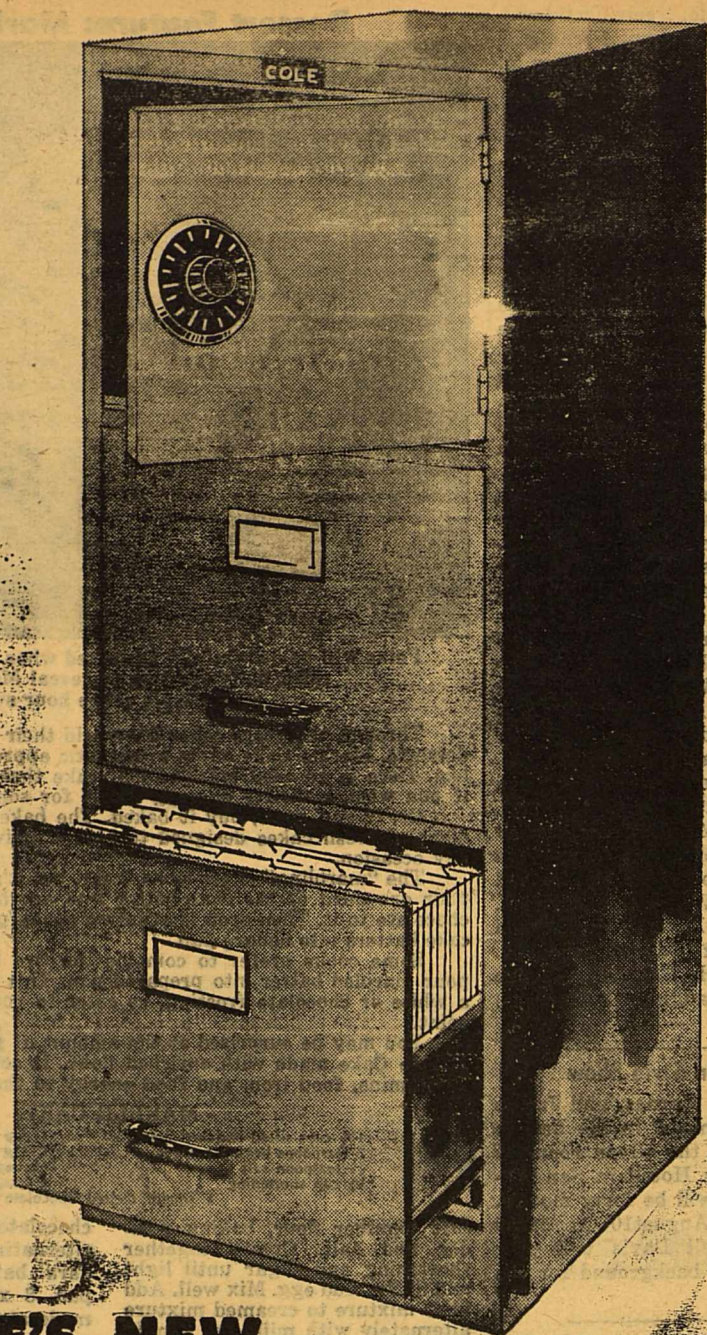

SELECTED FROM TEXAS by the American Legion Auxiliary to represent our State in the "Citizens of Girls Nation", which met in Washington from July 27 to August 2, were Ernestine Woodward of San Angelo and Dinah Lee Van Zandt of Bellville. Each of them will enter their senior year of high school this fall. They were carefully chosen from all over the State to participate in the national program for developing good citizenship.

HEARINGS WERE HELD last week by the House Committee on Education and Labor on bills which would amend the Fair Labor standards Act so as to permit migratory families to help harvest cotton crops in west Texas and elsewhere. Until last year the law provided that children under 16 could work in agriculture provided they met the school attendance laws in various States. Many Latin-Americans were able to leave their homes in South Texas and follow the harvest seasons northward to the plains and into other States, then return home in time to fill in their required school year.

But when the law was amended in 1949 a "sleeper" was inserted in the Senate, offered by Senator Pepper, which prohibits children under 16 from working in the fields if a school is in session at the place where the work is being done—even though they comply with the annual attendance law of the State.

This provision has seriously interfered with the cotton picking in west Texas where the peak is reached during September and October. It has and will continue to prevent many families from earning their normal livelihood and provide food and clothing for the ensuing school year.

Bills to amend the law were introduced earlier this year by myself, Mr. Mahon, Mr. Rogers, and several others. We all testified in behalf of the proposed amendment and were joined by several witnesses from the plains area. Further hearings will be held before the Committee acts.

Presido Sheep Project Results In Better Wool

Houston E. Smith, Presido county agent, reports that better uniformity of lambs and general improvement in the quality and yield of wool from yearling ewes has resulted in a Complete Sheep Production demonstration being conducted on the Ira Y. Blanton ranch.

This demonstration has been in progress for three years. Blanton has set a goal of better than 100 per cent lamb crop and better than 10 pounds of wool per ewe. This year he had a 95.4 per cent lamb crop after shearing.

At shearing time this spring, slightly over five pounds of wool per ewe was obtained from the entire flock of 1892 at eight months. The yield from 287 ewes was slightly over seven pounds.

Blanton will keep all of the ewe lambs produced this year and cull better than 1,000 of the older ewes out at the fall shearing. He expects this to reduce stocking a great deal, reduce feed costs and improve the wool yield next year.

W. G. Godwin, Schleicher county agent, reported that 300 ewe lambs were culled for length of staple, size, open faces, wrinkles, absence of medial folds and general appearance recently in a demonstration held on the John Rae Powell ranch.

Of the 300 lambs, 104 were culled out, leaving 196 for replacement.

This is the third year that ewe lambs have been culled on the Powell ranch. Powell's oldest ewes are now coming four year old.

Staple length has increased from 52 per cent to 76 per cent the

second year to 87.5 per cent in 1951. There was not a clothing

fleece in the flock this year. Average weight of the fleece has increased with the length of staple.

Godwin says that other sheep producers in Schleicher county have obtained as much improvement

from culling practices.

Mr. and Mrs. Louis Davis returned Thursday from a vacation in Oklahoma and Arkansas. While away they visited Mr. and Mrs. G. A. Browne parents of Dr. Charles F. Browne, in Fayetteville Ark.

Tittle - Meckel Rites Read Friday Morning

Miss Geraldine Meckel became the bride of Bill Tittle in a ceremony performed Friday morning in the home of the brides parents, Mr. and Mrs. Ben F. Meckel. The double ring rites were read by the Rev. W. H. Marshall, pastor of the First Methodist Church here.

Vows were exchanged before an improvised altar of white gladioli. Arrangements of cut flowers were used at vantage points throughout the room.

The bride wore a beige dress of imported lace with brown accessories, and carried a white Bible topped with an orchid. She was attended by her sister, Mrs. Jimmie

ROYAL SERVICE HELD BY MISSIONARY UNION

The Women's Missionary Union met at the First Baptist church for Royal Service meeting. Scripture reading were given by Mmes. Jim Cauthorn, Newt Poteet, and J. H. Brasher. The song sung was "The Light of the World is Jesus", and prayer was led by Mrs. Fred Spinks. Those other who were on the program were Mmes. W. A. McCoy, Rip Ward and A. F. Spinks, who was in charge of the program. The group was dismissed by Mrs. Rip Ward.

SUBSCRIBE TO THE NEWS**Dessert Feature: Marble Cake**

Folks will be delightfully surprised when you cut through the thick fluffy frosting to reveal Marble Cake, a delectable coffee hour sweet.

Through the years cakes have held their popularity as true party desserts. Marble Cake offers a dramatic approach to the dessert problem. Here is an easy marbled loaf cake that you can make at home, if you wish, a thrifty one-egg recipe for something extra-special. Or, if you want, buy it baked. The baker daily offers an assortment of fresh cakes designed to please individual tastes and to suit any occasion.

The "marbling" effect looks fancy, but it's really easy. To achieve, pour one-third of the cake batter into another bowl and add melted chocolate to it. Then drop alternating spoonfuls of plain and chocolate cake batters into square pan.

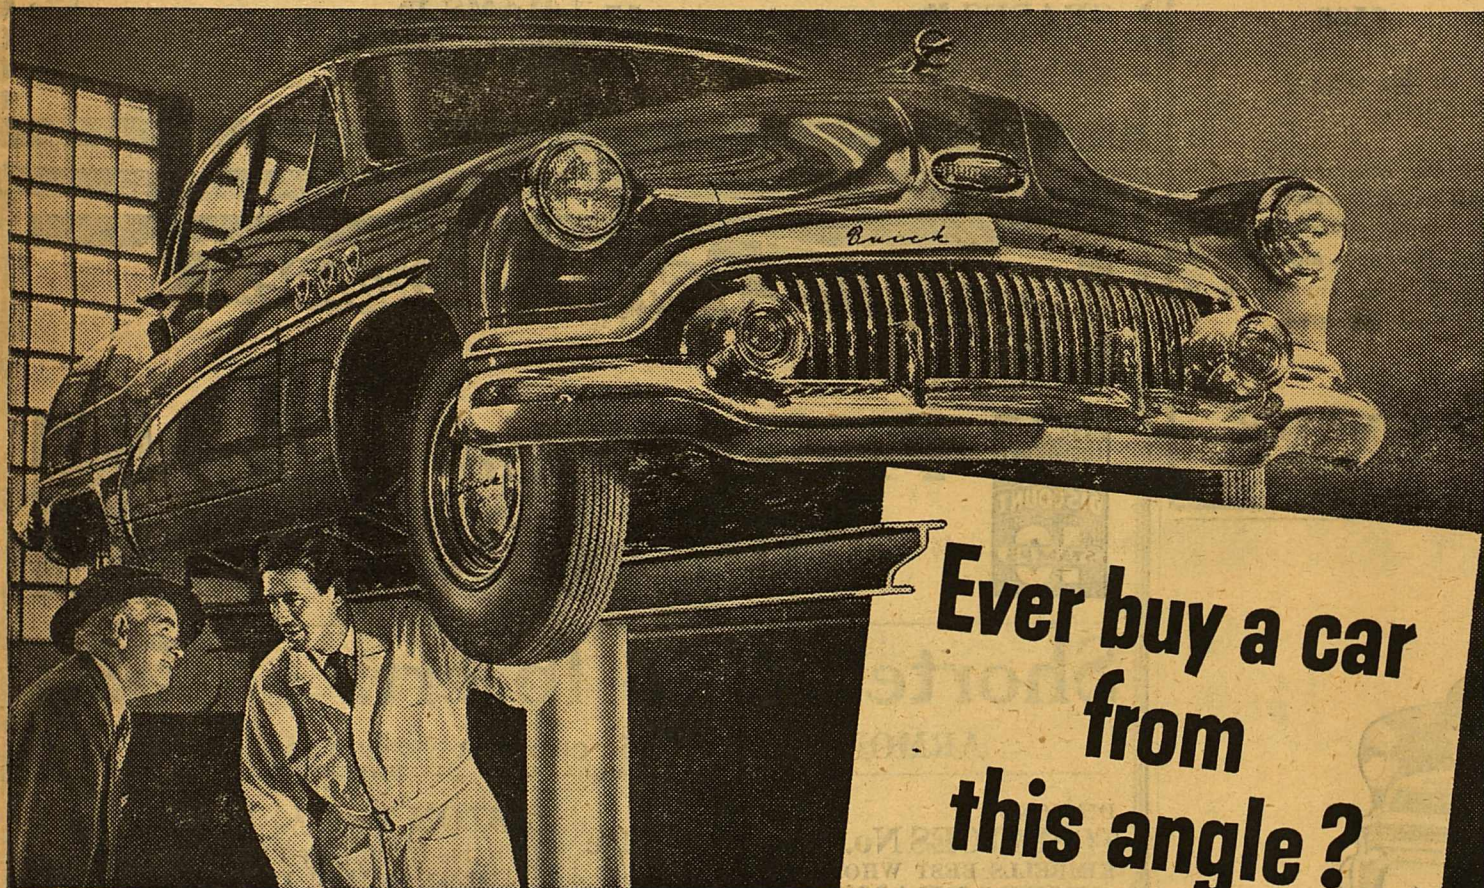

Some cooks prefer to combine the two batters lightly and then pour marbled batter into prepared pan. This cake is good with either a white or chocolate frosting, so cater to your family's taste on this point.

You may be surprised at the amount of good nutrition offered by Marble Cake made with enriched flour. It contributes three essential B-vitamins, food iron, and food energy to the dessert course.

MARBLE CAKE

Ingredients:
1 1/2 cups sifted enriched flour,
1 teaspoon baking powder,
1/2 teaspoon salt,
1/2 cup shortening,
1 cup sugar,
1 egg,
1/2 cup milk,
1 teaspoon vanilla extract,
1 square melted chocolate.

Directions:
Sift together flour, baking powder and salt. Cream together shortening and sugar until light and fluffy. Add egg. Mix well. Add flour mixture to creamed mixture alternately with milk and vanilla extract. Four 1/4 of the batter into a small bowl and add melted chocolate. Mix thoroughly. Pour alternating spoonfuls of white and dark batter into greased cake pan, 8 x 8 x 2 inches. Bake in moderate oven (350°F.) about 80 minutes. Makes 1 8-inch layer.

SURE, a trim new Buick makes a mighty pretty picture when you see it in your driveway, or watch it wheel by.

But if you could get a mechanic's-eye view of this big, broad beauty as it sits on a lift, you'd see an impressive picture of rugged brawn that makes good-to-look-at Buicks give such a good account of themselves on the road.

You'd see the full-length torque-tube drive that firms the whole power relay system, and steadies your going like a giant hand beneath you.

You'd see big sturdy wheels with really wide rims that provide surer footing, give better car control, make tires last longer.

You'd see all four wheels cushioned by stout coil springs that are completely service-free, practically breakproof—and a principal reason for the ever-level Buick ride.

But mainly, you'd see the massive foundation that backbones every Buick—

the deep, wide, X-member frame that's rugged as a rock, and a brute for strength.

So when you look at the beauty of a Buick—the big mileage power of its valve-in-head Fireball Engine—and the moneysaving ability of its Dynaflo Drive*—don't overlook the tough stamina that goes with it all.

And don't overlook the fact that a new '51 Buick, with all its heft, costs less per pound than any other car of comparable size, structure and weight.

Better come see us first chance you get—and find out what a smart buy this is—from every angle.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

No other car provides all this:

BRACEROS EXEMPT FROM SOCIAL SECURITY

Mexican agricultural workers imported under contract are no longer subject to Social Security according to a statement by George D. Clark, manager of the San Angelo Social Security administration office today.

This change has come about by the passage of Public Law 78 amending the Social Security Act to exclude services performed by foreign agricultural workers under contracts entered into by their government and the United States. The effective date was July 12, 1951.

Beginning on January 1, of this year, agricultural workers were brought under the Social Security Act if they worked regularly for one employer (60 day in a calendar quarter, following one full calendar quarter) and received cash pay of \$50 or more in the calendar quarter. This still applies to Mexicans illegally in this country who are doing agricultural work, if they meet the regularity and cash pay test and to processed Mexican laborers prior to July 12, 1951.

Boyd Lovelace, Earl Lomax, and M. C. Scott went fishing Monday and Tuesday on the Llano River below Camp Allison.

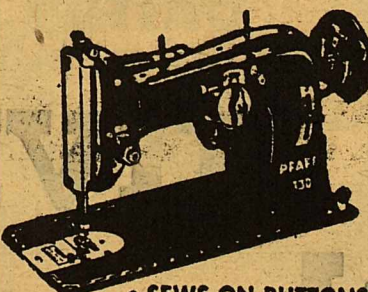

Tooth Replanted

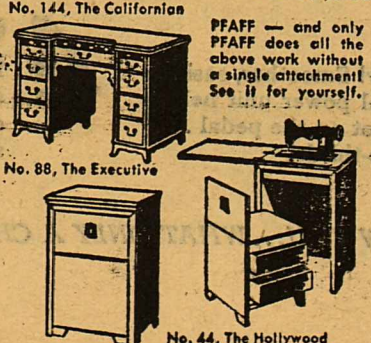

Washington Star Photo
Jan Dockins, of Hollywood, Md., points to a permanent front tooth that was saved by a unique dental procedure. The 8-year-old fell on the sidewalk and an incisor tooth was pushed up into the jaw, almost out of sight. The dentist to whom he was rushed, decided to attempt saving the tooth by replantation, a difficult procedure. He removed the uninjured tooth, and while it soaked in aureomycin, the socket was cleaned. The dentist held the tooth in place for 20 minutes while a temporary blood clot formed. Jan's parents then held the tooth in place for 10 hours. At last report, the tooth was firmly in place and serving Jan well. An important factor in the success of such a procedure, is that aureomycin, an antibiotic drug, is effective against many bacteria found in such a wound and at the same time, is not harmful to tissue cells.

Defense is your job, too!

Searching our coastal waters for unidentified submarines, this Navy blimp pilot is constantly on the alert to protect American shores. His blimp carries the most effective airborne detection gear in the world, enabling him to pinpoint and track a target even when it is submerged. And he is doing a vitally important job in defense of America.

Defense is your job, too. And one of the best ways for you to do your part is by keeping yourself and your country economically strong. Buy U. S. Defense Bonds now and regularly. Go to the pay office where you work and sign up for the Payroll Savings Plan or join the Bond-A-Month Plan where you bank. But don't put it off—do it today!

The U. S. Defense Bonds you buy give you personal financial independence

Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own automatically goes on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not \$25—but as much as \$33.33—if you just hold it the extra ten years! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's, too, buy U. S. Defense Bonds now!

*U. S. Savings Bonds are Defense Bonds Buy them regularly!
