Gospel Meeting Planned By Silverton Church

The Church of Christ here in Silverton is having a gospel meeting the week of March 23-29, and invites all the citizens of the community to attend. Douglas Lawyer of Olton will be doing the preaching for the evangelistic effort.

Mr. Lawyer was born October 2, 1927, in Blackwater, Missouri. He was the eighth son of twelve children. In July of 1952, he married the former Charla Cranford, and they now have four daughters.

Mr. Lawyer finished Harding College in Searcy, Arkansas, in 1949 with majors in Bible, history and physical education. In 1960, he completed work for his master's degree in history and speech at Texas Technological University. During the intervening years he preached for several congregations in Arkansas, Kansas and Texas.

In December of 1960, Mr. Lawyer took his wife and two daughters to Nigeria, West Africa where they served as missionaries until 1965. While in Nigeria they worked among the Ibo tribe which comprises the recently fallen nation of Biafra. He served as principal of a Bible Training College and carried on evangelistic endeavors among the Ibos. They had one child born to them while on the mission field.

Upon returning from Nigeria in 1965, Mr. Lawyer became principal of Lubbock Christian High School in Lubbock. After one year in school work he returned to preaching full time. He presently serves the Church of Christ in Olton.

Each year he engages in several evangelistic meetings and teaches in Christian youth camps in the summer. His activities this year will take him to the states of Tennessee, Arkansas, Kansas and New Mexico, as well as his own area of Texas.

"We sincerely hope that everyone in Silverton will take advantage of the opportunity to hear this great man of God," said Edwin Myers, the new evangelist for the Church of Christ in Silverton, who will be directing the song service. "Come and let us reason together, saith Jehovah—Isaiah 1:18."

Services will be at 7:30 p.m. each evening and devotional services will be held each morning, Tuesday through Friday, at 7:00 a.m. which will be followed by a fellowship at which coffee and donuts will be served.

Graveside rites were held at 5:30 p.m. in the Loraine Cemetery at Loraine, with Rev. Charles Bush of Roscoe officiating.

Brown was one of two Tech students who died Saturday after a car-truck collision near Winters.

The other victim of the accident was Danny Adrian Martin, 20, of Sudan

Investigators said Martin was dead at the scene of the crash, the intersection of U. S. 277 and FM 53 about 37 miles west of Abilene and 20 miles north of Winters.

Brown was driver of the late model car in which Martin was a passenger. The vehicle was in collision with a Milk Producers, Inc. truck driven by Houston Edward Chonce, 61, of Stephenville.

According to investigators, the car driven by Brown was traveling south on the farm-to-market road, and the truck was heading east on the highway.

Officials said that both vehicles were heavily damaged in the accident which occurred at 10:30 a.m.

A spokesman at Sneed Hall, where both students lived at Tech, said they left Lubbock early Saturday morning en route to Winters to attend a wedding.

Brown was born June 8, 1949, in Loraine. He was a 1967 graduate of Sudan High School, where he had been an all-district football player and Junior class president. At Tech he was a Junior arts and sciences major.

Brown was a former Silverton resident and attended the Silverton Schools before moving to Sudan.

Survivors include his parents, Mr. and Mrs. Richard L. (Hank) Brown of Roscoe; two sisters, Ian and Pax, both of the home; and his paternal grandparents, Mr. and Mrs. S. P. Brown of Silverton.

Harber Is New President of Citizens State Bank

Norlan Dudley announced last week that Bob Harber, executive vice-president of the Citizens State Bank in Earth, was promoted to president of the bank during the regular meeting of the board of directors on March 10.

At the time of Harber's promotion, Dudley was advanced to the co-chairmanship of the board and is now the chief executive officer of the bank.

Dudley said that he would continue to reside in Earth and maintain his office in the bank, and will remain active in conducting business from that office.

Dudley went on to explain that since he was currently serving as co-chairman of the board and chief executive officer of Winkler County State Bank at Wink and senior vice president and vice-chairman of the board of Farmers State Bank at Hart, this did not permit him to spend full time at any one of the three banks. He went on to say that with Harber as president the banking business could be carried on a hundred per cent in his absence.

Harber, a former Silverton resident as is Dudley, has been associated with the Earth bank three years and has been executive vice president since 1969.

The Harbers will be moving to Earth in the near future.

Abused Rangeland May Be Subject To Erosion

The Soil Conservation Service predicts that rangeland abused over the past years will be subject to wind and water erosion this spring.

In order to keep rangeland in good condition, Arnold King of the Soil Conservation Service says that approximately 50% of the current year's growth should be left at the end of the grazing season.

A stunted root system cannot support a large growth of leaves; neither can top growth, that is kept small, supply a large root system with plant foods. For every pound of grass grown, an equal amount of roots are produced. These are some of the basic principles a rancher or farmer should be familiar with if he wants to get the maximum benefits from his grass resources.

Structural practices such as cross fences, ponds, diversions, brush control and water storage facilities are often needed in order to achieve proper management. These practices can be cost-shared through the Great Plains Conservation Program administered by the Soil Conservation Service.

Guest speaker for the meeting was School Superintendent J. S. Hinds, who presented "Expansion of Knowledge." He discussed the PESO program for public schools and told of many teaching aids available through this service.

Mr. Hinds showed the plans for the remodeling of the high school building and construction of the new junior high.

When the meeting was adjourned, the clubwomen ate lunch with the students in the school cafeteria. They later visited classrooms of their choice.

IGHWAY COMMISSION TO AINTAIN ROADSIDES

The Texas Highway Commission as reaffirmed its concern with aintaining a safe and pleasant adside environment for those ho travel the 69 thousand miles State-maintained highways in exas.

In a special order, the Commison noted that Texas has conducted extensive programs for the preervation and enhancement of natural beauty along its highway orridors for more than four decades.

The order noted that the Texas ighway Department was one of e first highway agencies in the ation to employ professional staff embers to advise and stimulate a eautification program.

Now, the Highway Department has personnel in every part of the State with years of academic training and practical experience in such programs. They are re-inforced by research and expert advice afforded by research conducted by the State's principal universities.

The Texas Highway Department was undoubtedly the first in the nation to construct roadside parks, the order noted. Now, according to a survey made by the U. S. Bureau of Public Roads, Texas has about one of every seven such facilities maintained by all the State highway departments in the nation.

Wildflowers also have been a special concern of the Texas Highway Department. Native flora along the more than 840 thousand acres of right of way have been preserved, and in many cases planted, by the Department. "Flowers of Texas," depicting in full color 56 favorite Texas flowers, is proving popular with Texans and visitors alike.

The order notes that plantings and landscaping serve practical as well as esthetic functions. Roadside parks provide sites for short breaks from driving, combating fatigue and enhancing safety.

Plantings also subtly call attention to potential hazards along the roadside. Carpets of wildflowers retard erosion and protect the public's investment in highway facilities.

Also mentioned is the Highway Department's continuing campaign against litter. Cost of picking up after careless motorists in Texas is now $1.9 million annually. The Department provides hundreds of litter receptacles along Texas highways and conducts an educational and informational program to inform the public of the losses in tax dollars and economic waste resulting from roadside litter.

In all, the order reviews the efforts of the Department to enhance the driving environment—from policies safeguarding against pollution resulting from construction and operation of highway facilities to the maintenance of a display of desert plants at the Roy Bean Visitor Center in Langtry.

The Commission took notice of the cooperation between the Department and many other groups and agencies on all levels in programs to beautify, preserve and enhance natural surroundings.

In addition to reaffirming standing policies, the order pledged the Commission "to continually encourage and stimulate activities for the preservation, enhancement and development of the environment along the highway facilities under its control."

By-Mail Registration Deadline has Passed

The deadline has passed for ordering 1970 Texas motor vehicle registration plates by mail, but there is still time for motorists to register their vehicles without a lot of the bother of former years.

The cutoff date for mail orders was March 1. But the three-part computerized form which all Texas vehicle owners received just after January 1 still will save time—if motorists act quickly.

All one needs to do is to take the registration application to his county tax collector's office or sub-station with the fee.

The process is greatly simplified and the lines—if any—are fast-moving.

That's still no guarantee there won't be big lines facing those who wait until the last minute before the April 1 deadline. Each year, thousands of motorists put off registering their vehicles until the last minute.

And, each year, the final days of the registration season find tax collectors' offices and sub-stations jammed with procrastinating drivers.

The Texas Highway Department has these tips for quick and easy registration:

Don't throw away your registration application; don't write on it or mar it. However, if the address is incorrect, you should show your correct residence address in accordance with instructions on the form.

Don't separate the three parts of the form. Take it to the county tax office in one piece.

Don't send your application to the Highway Department in Austin; and remember that the deadline has passed for ordering license plates by mail.

If you did not receive a three-part registration form by mail, or if you have lost it, take last year's motor vehicle registration receipt and your car title to the county tax collector's office or sub-station. Your vehicle registration will be processed as before, and you'll receive a time-saving computerized form next year.

DESIDERIA

Go placidly amid the noise and haste, and remember what peace there may be in silence. As far as possible without surrender be on good terms with all persons. Speak your truth quietly and clearly; and listen to others, even the dull and ignorant; they too have their story.

Avoid loud and aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain and bitter; for always there will be greater and lesser persons than yourself. Enjoy your achievements as well as your plans.

Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism.

Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity and disenchantment it is perennial as the grass.

Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue and lonliness. Beyond a wholesome discipline, be gentle with yourself.

You are a child of the universe, no less than the trees and the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should.

Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors and aspirations, in the noisy confusion of life keep peace with your soul.

With all its sham, drudgery and broken dreams, it is still a beautiful world. Be careful. Strive to be happy.

"I REMEMBER" BY THE OLD TIMER

From Mrs. M. R. McKee, Springfield, Ohio: I remember when we lived in Clifton. We kids would go down to the mill with fertilizer sacks and Mr. Preston, who ran the mill would fill them with corn cobs. He gave them to us as no one knew what else to do with them, except burn them. We would pile a wheel-barrow full of the sacks and sell them to Clifton people for 5c a sack.

On Saturday nights we (5 kids) would each get a nickel from dad to go to Clark's Grocery and buy candy. We bought hard tack and I remember how we counted the pieces to see if someone got one or two more pieces than anyone else.

Money was hard to get in those days and I could remember my mom fixing a meal of what we had and calling us all in. There wasn't much at times, and she would say, "You go on and eat. I'm not hungry." Being kids we did not know there just wasn't enough and she wanted us to have plenty.

We had an organ and in the evening people would come and mom made popcorn balls while we sang church songs.

Mom took us fishing, played ball with us and lots of other things. Mom baked bread often and I remember how we brought other kids home from school, and we would all sit around and eat hot biscuits and butter to our heart's content.

Is it true that there were more Church of Christ kids at the Baptist fellowship than there were Baptists?

Do you suppose that Tommy really plugged his ears up when the Baptist Bugler started playing his trumpet?

How was Rhonda, Evelyn, Paula and Romburger's weekend at Tech?

Oh yes, only four Juniors were noticed at the Senior Play. A few showed up at the party at Bailey's house, though—right??

Wonder how the boys got Tootie out of the office, out of the building, off the steps, around the railing and into the snow? Why didn't he use Judo like Mr. Stephens?

It's been said that the reason they are drafting Junior High boys for Judo is because Terry and Walter Carl can't beat any of the High School kids.

Did you know that Bill Brooks' shoes fit Marsha's feet? They were probably a little wet after she played in the snow awhile.

Are you going to go through another year thinking you can't afford an Oldsmobile?

Our own surveys indicate that quite a few people *think* an Oldsmobile is out of their reach. They *think* it costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money.

It's so unnecessary, too, because Oldsmobile has many models that are priced right down with the so-called low-priced cars.

So why settle for the ordinary when you can step up to an Olds and all the value that an Olds represents.

Take this big, exciting Delta 88, for example. It starts out with a surprisingly modest price. Add to this the features that make it such an outstanding value—extras that are included in the modest price: ☐ Regular-gas Rocket V-8 ☐ Power Steering ☐ Power Brakes, front discs ☐ Nylon-loop carpeting ☐ Bias-Belted Tires ☐ Door Side-Guard Beams ☐ Hidden Radio Antenna ☐ Flo-Thru Ventilation ☐ Bigger, better riding 124" wheelbase. Check these extra values at your Olds dealer's today!

Best Thing That's Happened in Forage Crops Since Alfalfa!
• Great for summer forage, whatever the season . . . DeKalb Sudax Brand Varieties, the *original* Sorghum-Sudangrass hybrids, are bred to make the most of every drop of moisture. In favorable seasons, they grow and grow, producing green feed early and often. When it's dry, growers say Sudax Brand continues to produce palatable forage, often after other crops dry up. Order DeKalb Sudax Brand Hybrids right away.
THE ORIGINAL SORGHUM-SUDANGRASS HYBRID
"DEKALB" and "SUDAX" are Registered Brand Names. Numbers are Variety Designations.
