Calves will be sold at 1 o'clock Thursday, February 20, the day of the show, in conjunction with the Registered Hereford Sale.

Best Speakers at Baptist Church

Douglas Carver, pastor of First Baptist Church of Pampa, will be the speaker at the Sunday morning worship hour in the First Baptist church Feb. 16. This arrangement was made by Rev. O. H. Harts, local pastor, who left on Wednesday to conduct a mission at Petersburg, Texas.

The evening hour, Rev. E. Malone of Spearman will be the speaker, and following the service there will be a baptism service with Rev. Malone officiating for the Spearman congregation.

Perryton's Feeder Airline Will Be Decided at Feb. 24 Hearing

Hearing to be held in Washington, February 24 will determine whether or not Perryton gets a feeder airline, according to word received by the Chamber of Commerce this week.

Information came in the form of a letter from R. G. Wemple, president and general manager of West Central Airlines, which is to establish an air freight line through Perryton.

Wemple called upon the Chamber of Commerce to assist in convincing the Civil Aeronautics Administration of the necessity for a feeder airline. The application will be judged solely upon this need for such an airline, and the CAB will be more influenced by recommendations from the people of the community than anything else, he stated.

The Chamber of Commerce, the Mayor, Council and the North Plains Association have pledged support for this application. Wemple has written letters to Senators Hargrove and Connally and to Com-

House Numbers May Be Had at City Hall

Persons in doubt as to their correct house number may find out their official number from the map which has been prepared in accordance with the change in house numbering system put into effect by the city council several weeks ago and which is kept in the City Hall. Postal regulations require that the house number be placed on each house receiving city delivery and the number should be readily visible from the street. House numbers should be of a color contrasting with that of the house.

Firemen Hold Post-War Fete Monday Night

The first post-war banquet for members of the Perryton Fire Department was held Monday night in the Club Cafe. Steaks were served to 15 members and three guests.

A review of the number of fires during 1946 revealed that the department answered 17 fire calls during 1946, ranging from trash fires to a residence blaze. There were only three fires during the first six months of 1946, the remainder of the 17 coming during the last six months. Most of the fires were minor blazes which were quickly extinguished.

In the annual election of officers, Tom Waugh was re-elected Fire Chief and Lester Norris was re-elected secretary-treasurer by members of the department.

Members present at the banquet were Tom Waugh, Lester Norris, Paul George, Rufus Bolerjack, Joe Schollenbarger, John Schollenbarger, Ray Barkley, Jim Davis, J. D. Mayberry, C. L. Schell, Jack Holden, Monte Collins, O. C. Watson, Raymond McCurdy and George Cleman.

Guests were Milam Cudd, city secretary.

SERVICEGRAMS

Tax Collectors Set High Mark in '46 Receipts

The three tax collecting agencies in Ochiltree county made an exceptionally good record in collecting taxes this year. School taxes and city taxes are 96 per cent collected, while state and county taxes are 94 per cent collected.

F. B. Sumpter, collector for the school districts reports that of a tax roll of \$99,037.01, collections in the amount of \$95,879.63 have been made, leaving but \$3,157.38 delinquent. This is a better record than last year, he stated.

City taxes collected amount to \$29,640.60 from a tax roll of \$30,771.75. City Secretary Milam Cudd reported. This collection percentage is slightly below the collections last year, he stated, but is higher than previous years.

State and county taxes are 94 per cent collected, with \$92,639.27 being paid on a tax roll of \$97,909.51.

Rangers Try For Title at District Meet

Although they sport a bare 500 average for the season, the Ranger basketball team will enter the district tournament at Canadian this week-end no worse than an even choice for the district championship.

In winning the Canadian tournament, the Rangers defeated Panhandle, White Deer, and Canadian, three of their five district opponents, and have edged Phillips in a regular season game. Lefors, the other district contestant, is an unknown quantity, as Perryton has not played them this year.

The tournament begins Thursday.

Boy Scouts will Have Program at Legion Supper

Members of the American Legion and Auxiliary were reminded this week of the monthly potluck supper to be held at the Legion Hall on Monday, February 17, by Miss Anna Tevis, president of the Auxiliary.

It is planned to have demonstrations of Scout work and other entertainment by members of Boy Scout troop 55. Troop 55 is sponsored by the Legion.

Miss Tevis asked all Auxiliary members to bring two dishes instead of the usual one, because of the large number of guests who will be present.

Hostesses at the supper will be Mrs. Oris Bruner, chairman, Mrs. Elmer Harryman, Mrs. Jimmy Palmer, Mrs. Lonnie Sullor, Mrs. E. W. Hearn, and Miss Angie Nell Tevis.

A Perryton delegation will meet in Lubbock Friday with officials of the Southwestern Associated Telephone Co. regarding the installation of new telephone equipment for Perryton.

Meeting with the delegation will be R. B. Fairly, president and general manager of the company, and Roy F. Red, assistant secretary and assistant treasurer. Local men who will make the trip are Max W. Boyer, Alton Boxwell, Aldon Bell, Giltner LaMaster, John Sammons, Drew Ellis and Lee Little.

The telephone company agreed to install a common battery system in Perryton within two years after they entered into a franchise agreement with the city. This franchise was drawn up on February 27, 1940, and was to last for 39 years, stipulating that as a franchise fee, the telephone company would pay the city 1 per cent of the gross revenue from the Perryton telephone office.

Also contained in the franchise was an agreement which nullified the franchise in the event a common battery system was not installed by February 6, 1942, except when such installation was prevented by acts or conditions beyond the control of the telephone company.

Since no equipment has been installed, city officials informed the telephone company that the franchise was considered void. This information was given to R. F. Red, assistant secretary of the telephone company, in a letter written by City Secretary Milam Cudd in March, 1945.

Red's reply, on behalf of the company, was that sufficient equipment was on hand immediately before the war to install a new telephone system in Perryton, but when war broke out, the War Production

Six Seniors Given Who's Who Honors

Six seniors in Perryton high school were honored this week by being chosen as members of Who's Who in a meeting of the faculty Thursday morning. These students will have their pictures placed in a prominent place in the school annual this year.

Those chosen were Duane Bell, Nina Phagan, Colleen Milledge, Edward Dear, Ruth Wade, and Mavis Hardy.

Basis of selection for Who's Who is scholarship, character, leadership and service.

Jaycee Officers To Be Installed On February 19

New Jaycee officers will be installed Wednesday night, February 19, at a dinner and dance to be held at the Lake Fryer clubhouse.

Approximately 100 members and guests are expected to be present. The officers to be installed at this affair are Dean McCutcheon, president; Ray McWilliams, first vice president; Al Tremble, second vice president; George Statham, secretary-treasurer; A. P. McElvey and O. C. Watson, directors.

Community Public Service Moves to Permanent Home

After maintaining a "temporary" office in the City Hall for 12 months, the Community Public Service Co. moved this week to their new location in the Allen building on Main street. With the increased storage space and display room, the company plans to expand their sales of electrical appliances, stated C. E. Whippo, district manager.

Other improvements in electrical equipment are slated to make the light and power service even better for electric users of this area. An automatic reclosing oil circuit breaker is now being installed which will stop line failures instantly. Also on order is an automatic voltage regulator.

The conductor between Perryton and Spearman is being changed and the new conductor will handle a larger load and improve the service, stated Whippo.

C. E. Whippo has been associated with light and power in Perryton since the founding of the town in 1919. He and J. F. Mead owned the first power plant in Perryton, a small affair powered by a 50 h. p. motor. In 1923, the power plant was sold to the City of Perryton, but Whippo remained as manager. He also remained as division manager when the city sold the power plant to the Inland Co. in 1927. In 1929, Inland sold the plant to the Community Public Service Co., and Whippo remained as district manager, the position he now holds.

JUST HERE and THERE

For many years we've been very much interested in news reports and other information reaching us about Alcoholics Anonymous, an association of problem drinkers, who were bringing themselves and other fellow sufferers back from the brink of oblivion to useful citizenship.

As the years went on we had first hand information as to the recovery of some of our personal friends, who had sunk to the gutter from high places in this world, only to be snatched back to their families and a useful position in society through Alcoholics Anonymous.

Then as time went on we began to see the actual living results of Alcoholics Anonymous right here at home in Perryton. . . . the recovery of men, close friends of many years standing. It was driven home to us that there was really something to the movement when these "new men" chief interest was to start others on the road to recovery from an affliction that had made a hell on earth existence for them.

Last evening it was our privilege to attend a public meeting sponsored by Alcoholics Anonymous. . . . a meeting directed by busi-

Safety Award To Be Given

Recognition of an outstanding safety record will be made in Perryton Friday when the Perryton division of the Community Public Service Co. will be presented with a plaque for having the best safety record of any company division during the past year.

This honor is not new to the Perryton division, as for 9 of the past 10 years, this plaque has been awarded to the Perryton division. This exceptional record was made by frequent checks of automotive equipment and thorough observance of all safety driving rules. During the past 10 years, the Perryton division has had but one accident.

The safety plaque will be presented by C. C. Wagset, general field superintendent of the Community Public Service, who will also make individual safety awards. The ceremony will take place in the new offices of the company.

Outstanding Hereford Cattle From Best Herds in North Plains Area To Be Sold Here

Some of the finest registered Hereford cattle in the North Plains area will go on sale in Perryton on Thursday, February 20, at the First Annual Registered Hereford Sale, sponsored by the North Plains Hereford Breeders Association.

Only 2 Weeks Left to File for City Offices

Only two weeks remain for candidates for city offices to file their petitions. Milam Cudd, city secretary, announced this week. The elections will be held on April 1, and the deadline for filing is March 1, Cudd stated.

Names of candidates must be filed with the city secretary on a petition addressed to the "Mayor of Perryton," not later than March 1, which is 30 days prior to the election, as required by law. The petitions must carry both the names of the candidates and the position.

North Plains Flyers Enjoy Big Banquet and Kangaroo Court

Fifty members of the North Plains Flying Association attended the first annual banquet of the organization held in Perryton Monday night. Members were present from Perryton, Canadian, Booker, Darrouzett, Waka and Gray.

Following the meal, the evening was taken up with a kangaroo court, where members were tried for various infractions of flying rules. Money for the organization is raised in this manner.

Carl Ellis and T. B. Penn were to have served on the judges' bench with Fred Turner, but Ellis and Penn were removed because they were to be tried by the court. Howard Holt and Oney Griffin took their places on the bench.

First case was that of A. R. Hogland, who was charged with landing on a taxi strip, in violation of the rules. In spite of his plea and protestations of innocence, was fined 50 cents.

Tom Penn pleaded guilty to a charge of flying 25 feet off the ground and was fined 25 cents. The court set the rate of fine at 1 cent per foot.

For passing too close to a plane piloted by Red Edwards, Carl Ellis was fined 50 cents. Edwards, in turn was fined 50 cents for being lost, since Ellis testified that he couldn't tell where Edwards was going and thus came too close to the other plane. Edwards admitted that he didn't know where he was going, either, and paid the 50 cents fine.

A second fine was levied upon Tom Penn for landing against traffic. In defense, Penn said that his passenger, W. C. Gadberry of

Everything is in readiness for the big event, stated C. A. Hoover, president of the association. The how ring is completed, and adequate seating facilities are assured. The sale starts at 1 o'clock Thursday afternoon in the Southwestern Industrial Works building. Everyone is invited to attend the sale and see this outstanding array of blooded Hereford cattle.

Twenty-four registered Hereford bulls and 13 females will be offered at the sale. Regulation of sale and guarantee of animals will be governed by the customary rules recommended by the association.

Election Judges For Two Years Named by County

The Ochiltree county Commissioners' Court in a meeting held Monday, February 10, appointed general election judges for the next two years, set the county tax rates, and selected a county depository.

Tax rate for the next year was set at \$1.05, the same rate as is now in effect. Property valuations also remain practically the same as for the past year.

The First National Bank was designated as depository for county funds, having submitted the highest bid to the Commissioners' Court.

Election judges for the 12 precincts include R. H. Daley and George Dietrich of precinct 1; D. D. Hummer and B. L. Hurter, precinct 2; Sam J. Handly and Lawrence Ellzey, precinct 4; J. W. Moore, Jr. and E. N. Plathers, precinct 5.

R. L. Flowers and L. T. Parnell of precinct 6; Fred Tarbox and G. B. Mears, precinct 7; A. D. Reed and W. R. Greever, precinct 8; Herman Hargrove and Dean Conner, precinct 9; Harley Ellledge and Jake Boese, precinct 10; A. K. Wooten and J. R. Thomas, precinct 12.

No election judges were named for precinct 3 (Perryton) and precinct 11 (schoolhouse).

March of Dimes Collects \$1,415.15 In Recent Drive

March of Dimes collections in the county for aid to infantile paralysis victims totalled \$1,415.15 in the drive which ended on February 1. Gus Henshaw, county chairman, reported this week.

Largest contribution was made through solicitations at the Ellis Theatre, stated George Statham, county chairman. During the week that collections were made at the theatre, \$703.65 was received.

The coin boxes located in business houses brought in \$137.95. Statham said that one box was stolen from the Perryton Lumber Co. offices.

Other contributions include \$328.90 from mailing cards; \$34.68 from the Waka PTA; \$23.52 from a collection at the Perryton Sales Pavilion; \$83.45 from the Perryton school children; other collections, \$100.

One-half of this money remains in the county to help local polio victims, the other half goes to the National Foundation for Infantile Paralysis to aid victims over the nation.

Classes will be held from 9 o'clock each morning until noon and from 2 until 5 o'clock each afternoon. Graduates will be given their diplomas by President Berry following Colmery's commencement address on Sunday afternoon, February 23.

Perryton Paint Co. in New Building

The Perryton Paint Co. moved from temporary quarters back to their old location last week, but not to the same building. Their store is now located in the recently completed Allen building in the 100 block of Main street.

Feature of the new building is their well-lighted and well-displayed showroom. A lounge where customers may be seated while looking at paint and wallpaper samples is an added attraction of the showroom.

The showroom is lighted with the latest type of cathode lights, which enables purchasers to see paint samples inside as they will appear in actual daylight.

This company first opened in Perryton on February 1, 1946. Owners are Mr. and Mrs. D. R. Stevens and Mr. and Mrs. Jack Stevens. Originally their work consisted almost exclusively of contract painting but, since establishing the business, the owners have expanded to carry a complete line of paints, varnish, shellac, wallpaper, carpets, linoleum, and venetian blinds.

The Stevens came here from Houston, where D. R. and his son, Jack, were contract painters for various industrial concerns. The elder Stevens has had over 25 years painting experience, while Jack has been in the business for 16 years.

Jack served in the Navy during the war, from July 1942 until Oct. 1945.

The owners invite all their friends to come in and see their new store and their fine selection of merchandise.

Average wages paid on U. S. railroads increased from about \$17 a week in 1916 to almost \$60 a week in 1946.

Beaver County Pioneer Dies

Bert Freeman, pioneer resident of Beaver County, died Wednesday, February 5, at his home near Gray, Okla. Funeral services were held Friday, Feb. 7, at Gray, with burial in the Gray cemetery.

W. C. Bryan, Perryton, assisted by Rev. J. A. Haworth, was in charge of the services. The community choir sang, The Old Rugged Cross, Does Jesus Care, and Rock of Ages. Mrs. Wm. McCarter was at the piano.

Paillbearers were Frank Duff, Reuben Penner, C. B. Gift, C. H. Stewart, C. A. Trimmell and Joe Claybrook.

Robert H. Freeman, son of B. F. and Nancy J. Freeman, was born November 29, 1877, at Sullivan, Ill. He departed this life at his home near Gray, Okla., Feb. 5, 1947, at the age of 69 years, two months and seven days.

When a small boy, he moved with his parents to Beaver County, enjoying and enduring the hardships experienced by those who had the stability to establish a home in a new country.

October 16, 1898, he was married to Miss Ollie Todd, and to this union eight children were born. Three sons preceded their father in death. Mr. Freeman became a member of the Methodist Church in 1906.

Survivors are his wife; two sons, Ralph, Turpin, Okla., and John of home; three daughters: Mrs. W. H. Weaver, Albuquerque, New Mexico; Mrs. Luther Browder, Sunray, Texas; Mrs. Lloyd Christmas, Thayer, Kansas; his mother, Mrs. Nancy Freeman, Gray, Okla.; one brother, five sisters; twelve grandchildren and one great-grandson.

Title of the play is "Aunt Samantha Rules the Roost," a story of an old widow who strives to become mayor of a small town and at the same time attend to the proper rearing of her two nieces.

Major part in the play is taken by Nina Phagan, Ruth Wade, Pat Adams, June Phebus, Carol Smith, Edward Dear, Mavis Hardy, Buddy Dillingham, Duane Bell, Gene Stinson and Bob Watchous make up the rest of the cast.

Directors of the play are Miss Jane Moore, Miss Sue Morgan and Miss Evelyn Milam.

Date for presenting the play has not been set.

Rawlings Holds Booker Meeting

Lee E. Rawlings, minister of the Perryton Church of Christ, opened a 12-day meeting for the newly established congregation of the Church of Christ in Booker on Feb. 12. The meeting will continue thru Sunday, Feb. 23.

The Booker church was established by the Perryton Church of Christ some two weeks ago with more than 30 charter members. At the present time, the Booker, congregation is being assisted by the Perryton and South Flats, Oklahoma churches of Christ.

Services are conducted at the building which was formerly Dean's Cafe in Booker, located on Main Street. During the meeting, services begin each evening at 8 o'clock.

This meeting at Booker is the first of eight meetings that will be conducted by Rawlings and the Perryton Church of Christ during 1947.

Some people think about the blackeyed pea once a year—around New Year's. But if any member of the agriculture class of '47 was given the "most likely to succeed" title, B. Pea would be a strong contender.

Texas farmers have found they can help pocketbooks and land, too, by planting the pea with the eye in the middle. Dawson county agent T. A. Barfield is the latest to report big cash dividends from this crop.

An average of \$110 per ton in the

hull was paid for the 1946 crop of green field peas in West Texas, he said, reporting that in Dawson County alone, acreage was between 20,000 and 25,000 acres. A yield of 400 to 2,000 pounds per acre was realized.

And just to show that B. Pea is gaining quite a reputation is the report of buying at Lamesa. Barfield said the minimum price in Lamesa was \$80 per ton, with competitive buying boosting it to a top price paid of \$130 per ton.

A second factor that makes the blackeyed pea important is in its aid to land. It helped restore much needed nitrogen to the soil in Dawson county.

Lubbock, Lynn, Terry, Bailey and Hale counties are others that went in heavily for blackeyed peas last year.

Notes 'n' such:

Lamar county is going in heavily for livestock water dams. Since 1940, 1,400 have been constructed. Last year 107 were constructed by 103 farmers and ranchers.

Denton county corn growers are turning to the hybrid strain in increasing numbers. The yield is said to be much greater than that of ordinary variety.

Pet Crow is a Toast Of the Neighborhood

BILLINGS, Mont. (AP) — Unlike the owners of some parrots who like to brag about what their birds say, Jerry Holzer has trouble the other way. Enthusiastic neighbors always are putting more words into the mouth of his pet crow, "Blackie," than Jerry admits that he says.

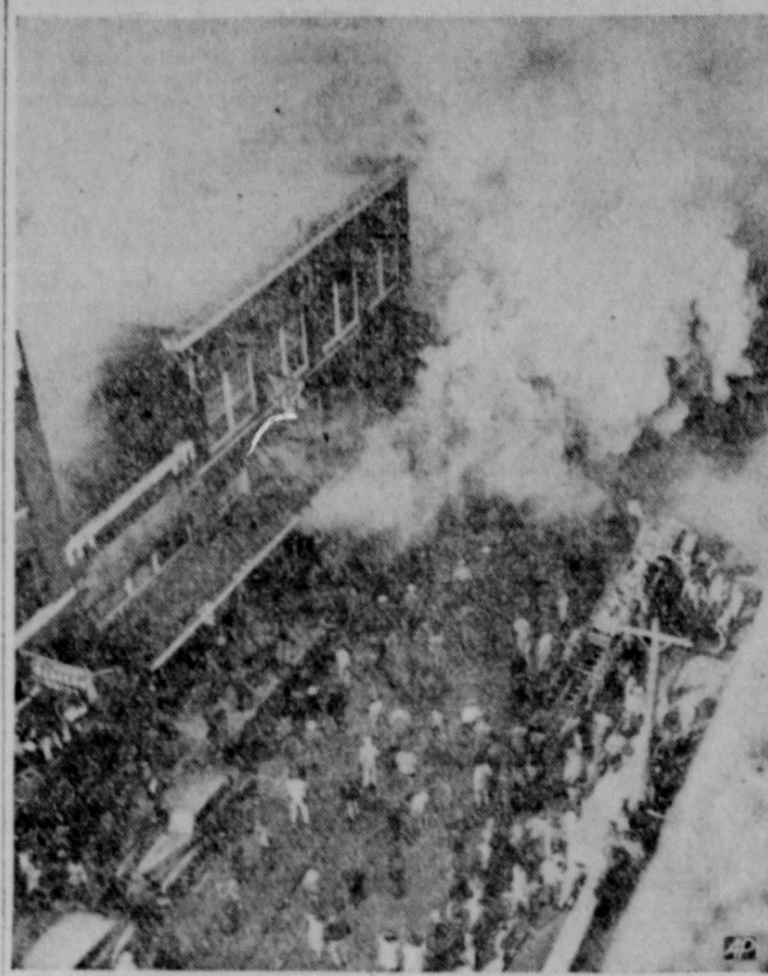

Picked up as a nestling two summers ago, "Blackie" began talking without any instruction or urging.

All the Holzer family ever have heard "Blackie" say was "Hello, Blackie" and "Oh Boy" although he's mighty good at imitating a dog's bark or a woman's laugh.

But neighbors insist they've heard the bird say "I want some toast," "I don't want toast," and "I won't do it."

Cut ups Are Cutting

SANTA BARBARA, Calif. (AP) — Eight Santa Barbara jewelers are hunting "Al and Bubbles," who never rob, but simply inscribe their names on jeweler's windows—with a glass cutter. Insurance firms, billed for the damaged glass, authorized a reward.

FIRE DAMAGES THREE FIRMS—Fire (above) caused an estimated damage of \$78,000 to the equipment and stocks of three firms in a downtown business building in Paris, Texas, and sent three firemen to the hospital. Two of the firemen were overcome by smoke and the third suffered a back injury. Fire equipment from nearby Camp Maxey was used to assist city firemen in controlling the flames. (AP) Photo.

They're Standing in Lines To Get Divorces in London

(AP) Newsfeatures

LONDON — Probably the most pompous queue in London is the daily one at the Royal Courts of Justice, where bewigged barristers, overworked solicitors and their harassed, morning-coated clerks stand in line to find out when their clients' divorce cases are likely to come up.

Of the 35,000 divorce cases filed last year—and a higher figure is expected this year—5,600 were heard in the last eight weeks. Undenied divorce petitions are going through on a time schedule of ten minutes a case, or 140 cases a day.

This speed is a headache to jovial 48-year-old Cornishman, J. L. Truscott, who as clerk of the rules has the job of making up the lists.

Heckled by solicitors who want to put cases forward or back, Truscott still keeps his temper, though he lost his voice and his little white traditional starched bib is somewhat awry.

Pleasantly he answers each query, insisting however that poor person's divorces don't get pushed to the end of the list.

FOREST FIRE FIGHTERS BATTLE TEXAS BLAZE—A fire crew of the Texas Forest Service, A. & M. College, is shown as they attempted to head off this fire in Southeast Texas. They are using a special air-plow to open a lane around the blaze and then setting a back-fire from which to hold their line. The fire is spreading. The view was made from one of the planes used by the Forest Service in spotting in the present emergency. Messages are dropped to ground crews from an observer in the plane, or direct air to ground radio communications are used. (P) Photo.

Separate petitions must be filed for the office of Mayor and of Aldermen, although a petition can name more than one candidate for either office.

Petitions must bear the names of 5 per cent of the number of voters, voting at Perryton, in the last general election. This was 529, so a petition, to be legal, must bear a minimum of 26 names. The signers of a petition must be legally qualified voters.

The terms of Mayor G. T. Leatherman, City Secretary Milan Cudd, and Aldermen Howard Holt and Rufus Bolerjack will expire this year. None have indicated whether or not they will run for re-election.

Absentee voting will start on March 7 and ends on March 27, three full legal days before the election on Tuesday, April 1. Ballots must be printed 10 days before absentee voting begins.

Time for Family To Take a Year Off

LORDSBURG, N. M. (AP)—V. L. Thompson hopes the old saw about a family doing the rest of the year what it does at the beginning has no foundation in fact.

Thompson's son, Dickie, smashed a finger in a door at the dawn of 1947, took ether for treatment, then caught pneumonia and suffered an attack of tonsillitis.

Then Thompson put up a shop and a high wind blew it down. The next day he went to bed with the mumps.

NEW RUDDER—C. Douglas Van Patten displays his new rudder, designed for better stability and more speed in pleasure sporting boats. Van Patten, a top speed boat designer, has adapted hull and rudder designs previously restricted to expensive racing boats and power yachts, to small and comparatively inexpensive outboard and inboard fishing and pleasure boats. The boats, soon to be in mass production, feature a more rounded hull and sharp-edged rudder, thus eliminating pitching and rolling, welcome news to weak-stomached fishermen.

Speeder at 71 Weaves Dollies But Not at Last

Newsfeatures

POTTSTOWN, Pa. (AP)—Bernath Roth, 71-year-old shoe-maker who has fashioned shoes for no less than Jack Dempsey, figures there's nothing like a hobby to keep a man young and sprightly.

His hobbies are fast motorcycles and making dollies.

Weaving dollies, blankets, fancy pillow case tops and bedspreads is an art he picked up from an ex-Navy man of World War I.

Riding fast motorcycles is his own idea. He's been a cyclist since 1911.

"Years ago, before they had speedometers on motorcycles, I used to time myself by smoking cigars. One cigar for every nine miles," Roth recalls.

Accustomed to buying a new cycle every year, Roth is passing up the 1947 model.

"They don't have enough chromium on them yet," he explained.

Dinner guests in the Alton Witt home Sunday evening were Mr. and Mrs. Fred Nies and Sharon and Mrs. G. T. Leatherman.

Cop Finds Job Exciting When It's in Story

Newsfeatures

PHILADELPHIA — When Patrolman Bill Meyer sits down at his desk machine gun blasts echo, sinister figures come creeping out of the shadows and violence and sudden death are all about.

But there's nothing to worry about, assures the genial policeman.

"I've been on the police force for six years and I've yet to fire a shot—except for practice."

"But," he proudly admits, "there's plenty of fireworks in my stories."

Beyer, who admits his police duties are relatively prosaic compared with his stories, has authored approximately 30 magazine stories and two detective novels in his spare time.

The patrolman-author, who had been selling fiction for a couple of

years before he took his present job, said, "I was writing detective stories all the time and it struck me that getting a job as a policeman would be a good way to secure authentic background."

"I thought I'd stay on the police force just a couple of years; then I discovered I liked the job."

Beyer does his writing in the basement of his home where he has

set up his desk and typewriter that he can work after his man's hours.

Sheriff and Tax Collector W. H. Lance reported.

Lance also stated that his office had collected \$6801.98 in sales taxes on automobile transfers during 1946. This indicates that at least \$68,019.80 in automobile sales were made in the county.

Auto registration fees for the year were \$48,340.69, Lance stated. Under the law, all amounts below \$60,000 remain in the county, which means that Ochiltree county retained all these fees except a few minor charges for replacement tags, etc., which went to the state.

All tax collections were emphasized that the collections were not completed, and that their percentage of collections would be somewhat higher at the end of the fiscal year.

ness leaders from Oklahoma City Dalhart and Seiling... men who had gone down to the brink thru drink but had recovered and now were dedicating much of their time to an effort to help the recovery of fellow problem drinkers.

Here are the twelve steps of the Alcoholics Anonymous program for recovery.

We admitted we were powerless over alcohol... that our lives have become unmanageable.

Came to believe that a Power greater than ourselves could restore us to sanity.

Made a decision to turn our will and our lives to the care of God as we understood it.

Made a searching and fearless moral inventory of ourselves.

Admitted to God, to ourselves, and to another human being the exact nature of our wrongs.

Were entirely ready to have God remove these defects of character.

Humbly asked Him to remove our shortcomings.

Made a list of all persons we had harmed, and were willing to make amends to them all.

Made direct amends to such persons wherever possible, except when to do so would injure them or others.

Continued to take personal inventory and when we were wrong promptly admitted it.

Sought through prayer and meditation to improve our conscious contact with God as we understood Him, praying only for knowledge of His will for us and the power to carry that out.

Having had a spiritual experience as the result of these steps, we tried to carry this message to alcoholics, and to practice these principles in all our affairs.

Boiled down, these 12 steps mean, simply: admission of alcoholism, personality analysis and catharsis, adjustment of personal relations, dependence upon some Higher Power, and working with other alcoholics.

If you are an alcoholic, admit it to yourself... there is then help for you. There is now an ac-

tive Alcoholic Anonymous group in Perryton. Their next meeting will be closed and for alcoholics only. It will be in the courtroom next Monday evening at 7:30 o'clock.

We ask that you attend this meeting... go unannounced and without invitation if you desire... if you do not know any of the active members, see us and we will have them better informed than us to talk to you.

Board from all such equipment and in this case, moved the switchboard and other equipment to the Hobbs Army Air Base in 1942. The company promised that Perryton was scheduled for conversion to a common battery system when equipment again became available. No definite date was set for such conversion.

The Perryton representatives, in their meeting with telephone company officials, are taking the stand that ample time has elapsed for installation of a better telephone system and that equipment can be obtained. Max W. Boyer, chairman of the delegation, stated that if the Southwestern Associated Telephone Company, didn't want to make the necessary changes in telephone systems in Perryton, there were alternatives that Perryton could take to secure a modern telephone system.

The Southwestern Associated Telephone Co. is a subsidiary of the General Telephone Co. of New York and is not affiliated with the Bell Telephone System. It operates in the smaller cities and towns throughout the Panhandle and South Plains of Texas, and has some connections in Oklahoma. Main offices are in Lubbock, home of R. B. Fairly, president.

From where I sit... by Joe Marsh

That Ring Around the Bathtub

Jeb Crowell blew his top the other day. Seems that for weeks he's been trying to get his youngsters to scrub out the bathtub after using it. And this night he sees two rings around it—one where young Sonny left off, and another about Pinky's level.

He raves and rants—and takes it out on the missus for her lack of discipline. And later that evening he sees her quietly polishing the hardwood table that's right by his chair. She's removing the rings he's left there with his evening glass of beer!

From now on, Jeb's careful to put his glass down on the table cover—like the missus does. And I hear he's a little more forgiving about rings around the bathtub. Just keeps on patiently reminding.

From where I sit, there are little annoyances in every family—confining habits and opinions in every community. A little patience—a little more "forgive and let live" is the only antidote.

Here's Proof of Extra Mileage in the Tire That
OUTWEARS PREWAR TIRES

Testimonials like the above letters about the new B. F. Goodrich Silvertown are not uncommon. Nor are we surprised at this evidence of long mileage. This extra mileage was scientifically engineered into the tires. First, a wider, flatter tread against skidding for longer wear and greater protection against skidding. Second, to hold that huskier tread a new 35% stronger cord body was developed.

That's why we say, see us today... equip your car with the new B. F. Goodrich Silvertown... the tire that outwears prewar tires.

LOVE MAKES WORLD GO ROUND—Hearts are trumps in any old language and romance has been bread-and-butter for the poet, the playwright and the artist. There is no record of what Adam said to Eve, but history reveals that even tongue-tied Romeos manage to find a way to express love sentiments to their Juliets. Lack of pencil or pen has seldom deterred man from communicating his thoughts to his lady love. The cave man probably carved his love message out of a slab of rock. But the modern lover has an easier job of it. Ever since 1857, valentines have been manufactured for romantic lads who lack the imagination to produce their own. This year, as usual, valentine greetings are being sent by both the shy and adventurous swain.

The four tables of players included Mesdames Jerome Woods, Oris Bruner, H. J. Boudorf, A. C. Witt, W. L. Herndon, Russell Asmell, Clifton Bell, Aldon Bell, F. L. Gerard, Oscar Flowers, Harold Malone, J. C. Sims, A. V. Goff, O. C. Watson, Jack R. Allen and Gilbert Mize.

Entertains Club

Mrs. W. L. McConnell was hostess when members of the Friday club met for their regular games of bridge. Mrs. W. C. Herndon was high for club members and Mrs. Cecil Dodd for guests.

Seated for the games were Mesdames Dodd and L. C. Hartman, guests and Mesdames H. C. Brillhart, Glen McGibbon, Vance Apple, Herndon, Harlan Hawk and LaRue Norris, guests.

Mrs. Schwalk is
Complimented

A group of friends gathered in the Lester Schwalk home on Friday evening, February 7 to surprise Mrs. Schwalk on her birthday. A potluck supper was enjoyed and the evening was spent playing "42" and visiting.

Those present to wish her a "happy birthday" were Messrs. and Mesdames G. M. Dietrich, Fred Huston and Mickey, John Huston

HISTORIC HANDIES — These exquisite old gloves are museum pieces owned by Fownes, Ltd., of London. Did you know that long ago a swain used to give his true love a pair of gloves instead of an engagement ring, and that the gauntlets were just as binding as a solitaire. Queen Elizabeth of England, for instance collected gloves from her admirers and is said to have had 2,000 pairs of these romantic tokens which she prized as highly as she did her jewels.

Q. Is it true that the maximum fee for the services of an attendant for a disabled veteran has been changed?

A. Yes. Previously the maximum fee was \$5 for attendant service for 24 hours and fractional rates for periods of service less than 24 hours. However, since Jan. 1, 1947, the maximum fee for attendant service has been \$8 for 24 hours; \$5 for the first 8 hours; \$1.50 for the next 8 hours and \$8 for any period over

16 hours.

Q. I am a veteran with a service connected disability. Does Veterans Administration hire disabled veterans for work in its offices?

A. Yes. It is the policy of Veterans Administration to employ disabled veterans and other physically impaired persons whenever possible.

Q. Do Veterans Administration chaplains report to their respective churches and are the reports official VA statements?

A. VA chaplains in their capacities as ministers, priests and rabbis

may forward direct reports to their denominations. In each case, this is personal report and not an official VA statement or report.

Q. My first husband was killed in World War II and I remarried. I divorced my second husband and now would like to know if my widow's pension can be reinstated?

A. Existing legislation provides that compensation or pension shall not be allowed to a widow of a

World War II veteran who has remarried. Her status cannot be changed if she is divorced.

BABSON DISCUSSES STOCK MARKET

ROGER W. BABSON, Editor-in-Chief

BABSON PAIR, Feb. 7-4
advances the following ten reasons
as to why this is no time to sell
stocks which are paid for and held
for income.

1. The huge amount of available
money in circulation. This has in-
creased from 7 billions in 1940 to
28 billions in 1947. It seems as if
more of this would be coming into
the stock market.

2. Only small amounts of listed
stocks are outstanding, no more
than in 1940. Hence, any concerted

buying would send up prices.

3. Comparatively little speculation
has been going on in stocks since
1929. The stock transactions on the
N. Y. Stock Exchange equalled the
total National Income; but in 1947
they were only 15% of the total National
Income.

4. Profits have been paid out
only for 75% of the time. This keeps
people out of the market and there-
fore should prevent too severe
market breaks.

5. Banks now pay no interest on
checking accounts and only 1% on
savings accounts; while Govern-
ments average less than 2% per
cent. Hence, to get from 3 to 4
per cent one must buy stock.

6. This should tend to stabilize safe-
income-paying stocks.

7. The monthly purchases by In-
vestment Companies amounting to
\$50,000,000 should be a market
stabilizer. This, however, is only a
bout 5 per cent of the total monthly
N. Y. Stock Exchange transactions.

8. Corporations whose securities
are listed on the N. Y. Stock Ex-
change have the greatest cash re-
serves in their history—huge sums.
Many have also large backlogs of
unfilled consumer orders.

9. Wage increases will give the
masses more spending money. This
especially should help merchandis-
ing companies.

LAZY MAN'S SKI—It takes
less energy to ride down a slope
on a ski-bike, they say, and this
fellow demonstrates the proper
technique as he glides along at
Bear Mountain, N. Y.

8. President Truman can balance
the Federal Budget in 1947-48 if he
desires and could also reduce
taxes. This should stabilize the
markets and restore much confi-
dence. The only uncertainty would
be a severe draught or a very bad
foreign situation.

9. The improved political out-
look. The new Congress is deter-
mined to reduce expenses, cut in-
come taxes, and amend the labor
laws to treat fairly all interests.
There may never be a real solution
to the labor problem; but Congress
can very much improve the present
unfair situation.

Conclusions: Considering these
ten reasons for higher stock prices,
why does the market continue to
drift around? Why are people now
laid to buy for permanent invest-
ment and income? Millions would
be content with a fair rate of in-
terest with safety, irrespective of
whether the market goes up or
down, were it not for some hidden
reason which I now will explain.

Strikes—Communism—Morals

We have witnessed the use of old-
fashioned brute force in the settle-
ment of political and labor disputes.
It is this revived use of force, now
apparent all over the world, which
is frightening investors. Even Com-
munism as an economic philoso-
phy might not be feared if the
Communists were willing to leave
the question to the free vote of the
people. But they are not. In fact,
Communism is a very real threat to

capitalism, the same as Fascism is en-
forced Capitalism. Russia blames
the for talking about the possi-
bilities of World War II and ques-
tioning the success of the United
Nations; but if labor, management
and politicians cannot get along in
this country peacefully, and leave
decisions to the courts, how can we
expect over fifty different tribes to
unite and co-exist?

"Juvenile Delinquency" which
really should be known as Parental
Delinquency is undermining confi-
dence. Parents are responsible for
the filthy picture shows, with their
jungle dances, and low stuff that
was not even allowed in saloons a
decade ago. We parents are respon-
sible for the bad radio programs
from which our children learn of
the underworld doings of gangsters,
cowboys and petty burglars. Even
our magazines, in their stories and
illustrations, appear to be lowering
their standards by featuring drink-
ing, carousing and the like. Modern
"art" does not bother me, but with
"sensible" people buying such crazy
pictures it is not surprising that
too many conservative investors are
bored on everything.

Artistic conception of scene as Edison and assistants successfully tested
the first practical incandescent lamp, Menlo Park, October 21, 1879.

THIS week America pays tribute to Thom-
as A. Edison, "Wizard of Menlo Park,"
who was born February 11 one hundred
years ago.

Edison's legacy to the world included such
inventions as the phonograph, motion pic-
tures and fluoroscope, but he is most fa-
mous of all for his work in the field of
electric lighting and power distribution.

Edison not only invented the first practical
incandescent lamp, but also created a com-
plete central station electric system, in-
cluding dynamos, conductors, meters, fuses and
all other apparatus needed to make the new
light commercially feasible. This was the
famous Pearl Street Station in New York,
forerunner of today's giant power systems,
built in 1882.

A few years before Mr. Edison's death in
1931, he stated that the electrical age was
still in its infancy and predicted that the
power he had harnessed would constantly
widen in usefulness and steadily decrease
in cost, with resultant benefits to all man-
kind.

Today, Edison's prediction is borne out by
the fact that home consumption of elec-
tricity has more than doubled since 1930,
while the cost per unit has been approxi-
mately halved.

Electricity's ever-widening usefulness, in-
terpreted in terms of lessened labor, greater
production and better living at lower cost,
is a true measure of Edison's great contri-
bution to posterity, and the most enduring
monument to his genius.

Christian Science

"Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 16.

The Golden Text is: "My soul shall be joyful in the Lord: it shall rejoice in his salvation" (Psalms 35:9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Then Jesus answering said unto them, Go your way, and tell John what things ye have seen and heard; how that the blind see, the lame walk, the lepers are cleansed, the deaf hear, the dead are raised, to the poor the gospel is preached" (Luke 7:22).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Knowing that Soul and its attributes were forever manifested thru man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation" (page 210).

A Real Cough EXPECTORANT

Send a few cents today at any good drug store for a bottle of Buckley's CANADIAN Mixture (Triple Action). Take a couple of sips at bedtime. Feel the powerful, pungent action spread thru throat, head and bronchial tubes. Start right in to loosen up chest, stickle phlegm, soothe irritated membranes and ease hard coughing spells. Sufferers from those persistent, nasty irritating coughs due to colds and flu find Buckley's brings quick relief. Get Buckley's CANADIAN Mixture today.

SOWING and REAPING

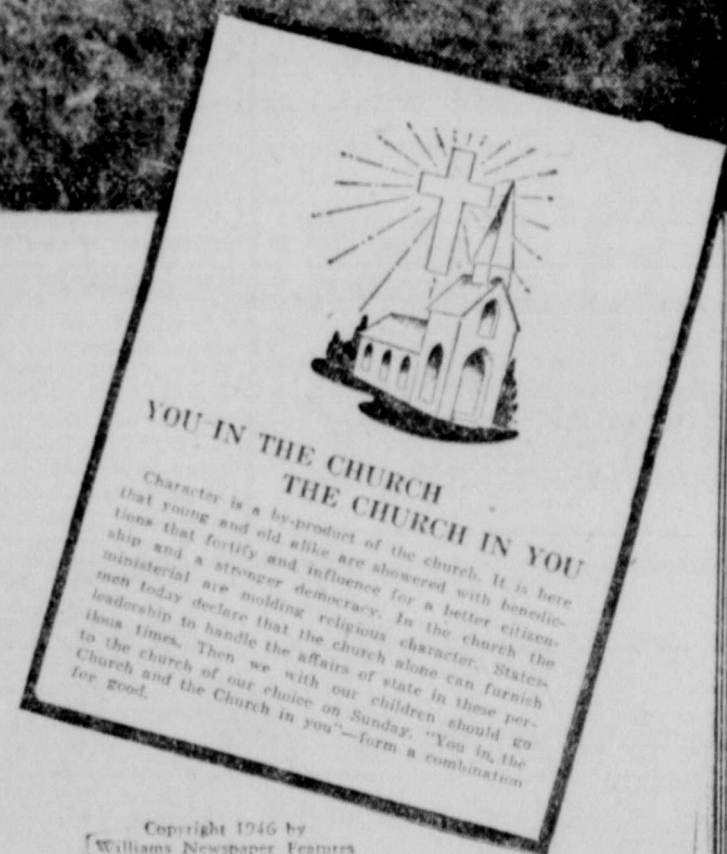

After every sowing there must some day be a reaping. In whatever church you may attend you'll be taught that "Whoever sows, that shall he also reap." These men sowed wheat, good wheat, and as you can well see they are reaping a bountiful harvest.

Stop, my brother—what of the seed you are sowing, as along life's way you go? Do you choose them with carefulness, knowing you're going to reap just what you sow? It may be thoughts and words you're sowing which into deeds will surely grow; bringing blessings or curses but—you're going to reap just what you sow.

If you sow of the flesh do not expect to reap of the spirit, for you may be sure that by and by when your harvest you garner—you're going to reap just what you sow. Attend the church of your choice regularly and your sowing will be for glory and honor.

Veterans' NEWS

An innovation in veterans' training—a foreign trade school—was recently established in New Orleans with an enrollment of 112 veterans from a half-dozen states.

It is the Import-Export Institute of the Mayhew School sponsored by the New Orleans Parish School Board. New Orleans foreign trade executives are helping train the veterans.

Purpose of the two-year course is to train veterans to take positions in New Orleans' booming foreign trade business, especially with South America.

The curriculum stresses foreign trade, Latin American culture, Spanish language and general business subjects. Ages of veterans attending range from 18 to 43 years.

The initiative of a former Army Air Force Captain, with an associate from a GI guaranteed loan, has provided Mississippi banks and business a new protection in the shipment of money and valuables.

Kevin C. Humphreys, Jr., who served in the Army for more than five years, is now operating the only armored car service in Mississippi.

Incorporated as the Jackson Armored Car Service at Jackson, Mississippi, Humphreys' firm is conveying payrolls and money shipments for businesses in all parts of Mississippi.

The former GI established his unique business in May, 1946, after he had secured a government guaranteed loan to help in the purchase of armored cars and other equipment.

Gilbert Warren, 24, of Lumberton, Texas, a rodeo performer, before he entered the Army, is one of many Southwestern veterans who are overcoming war disabilities and learning new vocations.

Fighting with the Infantry, Warren's right arm was torn away by a German machine gun shell during an assault on a position in the Siegfried Line.

Under Veterans Administration supervision, Warren is now training in Houston, to become a newspaper circulation manager. He has already worked up to the position of District Circulation Manager with the Houston Chronicle.

TEXAS TODAY

By B. F. PITTINGER
Dean of the College of Education,
University of Texas

When times are "good" economically, school teachers are scarce; when times are "bad" they are super-abundant. In ordinary times, while there are usually enough teachers of sorts, the turnover in the profession is rapid.

Today, with wages and profits generally high, living costs inflated, and other jobs plentiful, the supply of teachers in this country has reached a record low.

There are many causes for this condition, but three are at the heart of the matter. The main cause is that teachers' salaries are lower today, in relation to costs of living and wage averages elsewhere, than they have been for a generation. Another cause is the tendency of many communities and school boards to subject their teachers to unfair requirements and restrictions. Teachers are entitled to the privileges that are commonly accorded to decent people and good citizens. A third cause is the extremely heavy work load that is being imposed upon many teachers.

Since the low purchasing power of teachers' salaries is a major factor, some people argue that the hope of the schools lies in a return to depression conditions. A depression undoubtedly would return the teachers to the classrooms; but at what a price!

Raising salaries sufficiently would accomplish the same end.

To take the depression route rather than the increased salaries route would be to cut tens of billions of dollars annually from the national income in order to save for two or three billions required to provide teachers with adequate pay.

The hope of the future lies in good times, not bad; but they must be good times for everybody, including teachers.

On the teacher's side, the situation calls for both tolerance and firmness; for patience with unreasonable legal delays; and for loyalty to the children, the profession, and the nation.

There is much evidence of a real awakening of the public to the heavy responsibility. Teachers should help in this awakening and give it a chance to produce.

Now is the time for maintaining confidence and cooperation, for improving the public; and for helping it to find ways and means to improve conditions.

It is not a time for denunciation, self-pity, or wide-spread strikes. What the teachers do, as much as what the public does, at this juncture, will determine the standards of teaching for the next generation.

Their words and actions advertise the status of their profession, not only to taxpayers, but also to the young people who must fill the vacancies in their depleted ranks.

If teachers ignore the many advantages of their calling and other attention only upon its disadvantages, they can do their own profession irreparable harm.

The truth must be told, of course, but let it be the whole truth; the good as well as the bad, including

Musical Performers To Compete at Geneva

GENEVA, Switzerland (AP)—The third international competition for musical performers will be held here Sept. 22 to Oct. 5. Categories will include singing, piano, violin, chamber and trumpet. Artists between 15 and 30 years of age may compete. Last year there were 200 contestants from 32 countries.

Switzerland Fights Venereal Disease

BERN (AP)—The Swiss federal council has ordered every physician to report names of venereal disease to national authorities for compulsory treatment of individuals who decline to be treated.

In some nations, said a federal report, syphilis and gonorrhea cases in 1946 increased from three to five times the number of cases during the preceding year.

Because of increased international traffic, the report added, it was feared that post-war increase of venereal disease in Switzerland would be more marked than it was after the 1914-1918 conflict.

TEXAS INDEX OF BUSINESS ACTIVITY—Texas business indicators compiled by the University of Texas Bureau of Business Research revealed the level of 1946 business to be 80 per cent above the average pre-war year. The composite business index, based on six series representing important indications of business activity, stood at 188.2 per cent of the 1935-39 base in December. Yearly average of the composite index was 178.5 compared to 1945's 204.9.

This 12.9 per cent decrease is largely due to the declines in indicators representing manufacture and transportation of war materials. The series reflecting changes in manufacturing fell below their wartime peak; employment was down 21 per cent for the year and pay rolls were 27 per cent lower, but the index of 196 was almost doubled prewar pay rolls. Miscellaneous freight car-loadings saw a 15 per cent drop but were 37 per

cent better than the average 1935-39 year, and electrical power consumption fell off 5 per cent but was almost 2 times greater than the prewar yearly average.

On the asset side of the ledger were the indexes of crude runs to stills (up 1.5 per cent) and the sales of department and apparel store sales (up 25.4 per cent). Crude runs to stills were half again as large as the average runs in the prewar years and department and apparel store sales zoomed almost three times above the 1935-39 level to mark up a record for dollar sales in December and for the year as a whole.

After its Oct. 1945 slump Texas business has begun to get back on its feet and show steady, significant gains during the months of 1946 with only minor drops. The peak of business activity in 1946 came in August when the index stood at 189.7.

"In Thy Majesty Ride Prosperously" in Cabs

SALEM, Ill. (AP)—The City Cab Co. takes people to and from churches and Sunday schools for nothing.

Russell Williams, owner of the taxicab firm, said he adopted the free-ride-for-the-faithful plan because he thought it was "a good way to help out the churches."

Five cabs are in service continually between 9 a. m. and 11 a. m. and between 6 and 7 p. m. each Sunday. The drivers are so busy, the boss reports, that they lose track of the number of payless passengers.

Mr. and Mrs. Ward H. N. Gregg left Sunday night for Fort Worth where they are attending a minister's institute. They will return to Perryton Saturday evening.

Small Town Life And Romance Told In "Kings Row"

Warner Bros.' stirring romantic drama, "Kings Row," starring Ann Sheridan, Robert Cummings, Ronald Reagan and Betty Field, comes to the Ellis Theatre Friday for a return engagement.

Adapted from Henry Bellamann's best-selling novel of the same name "Kings Row" presents the dramatic story of two independent romances set against the background of a small, typical American town at the turn of the century. One—the romance between Robert Cummings as Parris Mitchell, gently-reared grandson of a foreign noblewoman, and his childhood sweetheart, Cassandra (Betty Field)—comes to a tragic end. But Parris eventually finds some consolation and a promise of future happiness in his work and in his meeting with Elise (Karen Verne). The other love story involves Ronald Reagan, as Drake McHugh, life-long friend of Parris, who is embittered by early reversals, but who eventually finds his happiness with Randy Monaghan, (Ann Sheridan), a girl from the wrong side of the tracks.

Perfect Marriage Not So Perfect, This Pair Learns

When is a perfect marriage not a perfect marriage? It could be just about the time of the tenth wedding anniversary, as Loretta Young and David Niven find out in their picture "The Perfect Marriage" which plays at the Ellis on Thursday and Friday, February 20-21.

Loretta Young and Britisher David Niven make an admirable team, each complementing the other in good looks and individual comedy style. They, as a couple ideally wedded for ten years, are the focal point around which the hilarious and romantic marital mix-up revolves.

The story begins, and the marriage almost ends, as the blissful pair are celebrating their tenth anniversary. At this joyful moment, a silly argument begins, enlarging with time and anger, until each confesses that love has died, and life as husband and wife has become very boring indeed. They become spiteful, suspicious and jealous, and the divorce court rears its ugly head. However it is the fond remembrances of things past, the very things they found so hateful in each other, that save their wounds and prepares them for the celebration of many, many more anniversaries to come.
