THE SNYDER DAILY NEWS

VOL. 1—No. 57 | SNYDER, TEXAS, SUNDAY, JULY 16, 1950 | FIVE CENTS

Telephone Company Will Ask For Bids On Its New Building

NEW TWO-STORY BUILDING to house Snyder's dial telephone system, is shown above in an architect's drawing. The system is expected to be in operation here within 18 months.

Bids Will Be Due Aug. 8, and Construction of the Masonry Building Is to Be gin Shortly Thereafter

Snyder's new one and one-quarter million dollar dial telephone system will move a step closer to reality this week when the Southwestern Bell Telephone Co. will ask for bids on the new telephone central office building to be erected here.

The building, photographed above, will be located on the northwest corner of Avenue R and Twenty-seventh Street.

BLUEPRINTS READY

Plans and specifications for the new building now are being printed, Marshall Kemp, Sweetwater, area manager, said yesterday. The plans will be in the bidders' hands within a few days and will be due Aug. 8. Contracts will be awarded a few days after the bids are due, he said.

The green light was given the project Tuesday when the telephone company agreed to go forward with their plans for the dial system here despite the fact that rate increases granted by the city council the night before had not been what the company asked.

The council Monday night authorized the new schedule of telephone rates asked by the company, with two exceptions. The company had asked $8.25 a month for business telephones and was granted a rate of $8, and has requested $4.25 a month on private-line, and was granted $4.

The new rates are effective at the next billing date.

The two-story building, to be of masonry construction faced with brick, will measure 62 by 92 feet, Kemp said. It will have a basement as well as the two floors above ground.

"The first floor will house the commercial business office," the manager explained, "as well as the terminal room, where all lines coming into the building in cables will be distributed on frames for connecting to the dial equipment.

UPPER FLOOR

"The second floor will house the switch room, containing long rows of sensitive dial switches, and the traffic operating room, with switchboards of long distance, assistance, and information operators.

"The operators' lounge and locker room also will be located on the second floor."

The basement of the building will be used for the power plant, boiler and heating equipment, club room and storage room.

Kemp said it is expected the building will be completed in time to house the dial system mechanism as it begins to arrive from the factory.

Work on the building and the new system will be expedited as much as possible, Kemp stated.

"Plans for the new building already have been prepared, so that work can start as soon as the contract is let," Kemp added. "Engineering for the new system, especially designed for Snyder, now is under way.

"When the equipment is installed, it will require literally hundreds of thousands of connections, each of which must be made by a skilled telephone workman, so that any telephone in Snyder may be connected almost instantly with any other telephone."

Stake Extension To North Snyder Strawn Field

Herman Brown has completed his No. 1 G. E. Parks, as a one and one-half mile northern extension to the North Snyder-Strawn field in Central North Scurry County.

It potentialed for 175.26 barrels of 38.5 gravity oil in 18 per cent water daily on the pump from perforations between 7,292 and 7,311 feet. The pay zone was treated with 4,000 gallons of acid. The pay was topped in the B zone of the Strawn at 7,292 feet. Hole was bottomed in the C zone at 7,478 feet.

The No. 1 G. E. Parks is 467 feet from south and east lines of the lease in section 442, block 97, H&TC survey.

REINECKE EXTENSION

Ralph E. Fair, George Parker, and Charles L. McCune, all of San Antonio, have started operations at their No. 1 Griffin, the southwest side of the Reinecke Canyon Field in Southeast Borden County.

The prospector is 660 feet from north and west lines of the northwest one-fourth of section 46, block 25, H&TC survey.

It has started drilling with rotary tools and had progressed below 2,993 feet in shale and anhydrite. It was making more bole.

The venture is projected to 7,000 feet to explore the Pennsylvanian lime, which is making oil in the Reinecke field.

BORDEN OFFET

Standard Oil Co. of Texas has scheduled an east offset to the discovery well of the east Vealmoor Pennsylvanian lime reef field of Borden County. It is the No. 1 W. F. Hechler and others, 644 feet north west of Vincent. Operators plan to commence rotary operations to 7,500 feet July 19.

Hearing on Avenue S Paving To Be Held Tomorrow Night

Property owners along Avenue S will be asked to attend a hearing at 8 o'clock tomorrow night concerning their share in the paving of that street. The hearing will be held by the City Council at the City hall.

The state highway department has announced that it will repave Avenue S where it coincides with Highway 84 and add a strip of paving to make the pavement 64 feet wide, or from curb to curb.

The city will be responsible for curbs and gutters. Property owners will be assessed $1.50 for the construction of curbs and gutters.

The highway department has already announced that it will pave Avenue R to be used as a by-pass while Avenue S is being repaired.

More Than 4,000 Texans To Be Examined for Draft Call

Nolan, Fisher, and Scurry Counties, which compose draft board No. 96, will send 20 men to be examined in the first draft call, State Selective Service said yesterday in Austin.

Local boards in Texas are being asked to funnel 4,020 young Texans into a draft examination pool from which the September quota of 1,005 is to be taken.

The 4,020 will take examinations in August.

Brig. Gen. Paul L. Wakefield, state draft director, told the 137 local boards by mail of their physical examination quotas. These calls should be delivered by Monday. Processing will begin immediately.

DEALING WITH SONS

"We must keep in mind oa all times that we are not dealing with Selective Service numbers, but with the sons of our neighbors and friends," Wakefield said in his letter.

"Our government has not yet gone through the Democratic ritual of making a formal declaration of war, but the wheels of the selective service system are already in motion. The ability of the Texas state headquarters to deliver its quota is almost entirely dependent upon the alert and proper functioning of the system at the local board level.

"As horrible as war is to those who have felt its fire, the loss of liberty is a far deeper wound. We propound the obvious to remind ourselves of the countless noble deeds of self-sacrifice by Texans from Pearl Harbor through V-J day and beyond. Now, in this new emergency . . . Texans of all ages are feeling and conducting themselves as they have in all past crisis—that is, putting love of country before self-interests."

AUG. 7-11 ARE DATES

Texans sent up for physical examinations will go to centers at Shreveport, Amarillo, Dallas, El Paso, Houston and San Antonio Aug. 7-11. Whether they pass or not, they will then be returned to their local boards.

Inductions will start in September.

Following are (1) the local board numbers, (2) the West Texas areas in which they ar located, (3) their quotas:

6, 7, 8, 9, 10—Bexar, Bandera—224; 14—Brewster, Jeff Davis, Presidio, Terrell—12; 15—Brown, Comanche—24; 21—Coleman, Runnels—16; 24—Culberson, Hudspeth—4; 32—Borden, Dawson, Gaines—16; 37—Ector, Andrews—28; 50—Gillespie, Blanco, Kerr, Kendall, lano—20.

84—Lampasas, Mills, Burnet, San Gaba—16; 88 — Lubbock, Garza, Crosby, Lynn—68; 89—McCulloch, Concho, Mason, Menard—12; 96—Nolan, Fisher, Scurry—20; 105—Pecos, Reeves, Ward, Winkler, Loving—28; 110—Sutton, Kimble, Schleicher, Crockett, Edwards—8; 115—Taylor, Callahan—36; 118—Tom Green, Irion, Coke—32.

121—Upton, Reagan, Crane—8; 122—Uvalde, Real, Maverick, Dimmitt, Zavala—28; 123—Val Verde, Kinney—12; 137—Midland, Sterling, Glasscock—12.

Abilene Doctor Dies

ABILENE, July 15. (AP) — Dr. S. W. Bailey, 44, practicing physician here 11 years and a World War II Pacific veteran, died today. He suffered a heart attack last Sunday. Funeral services will be here Sunday.

Censorship Hint In Barring Of War Writers

(By The Associated Press)

TOKYO, Sunday, July 16. — The army barred two U. S. correspondents from the South Korean front yesterday and word got around today that military censorship of war news may be invoked.

U. S. military officials abruptly notified Tom Lambert, of the Associated Press, and Peter Kalischer of the United Press that they could not return to the war zone.

Shortly afterward, an officer high in Gen. MacArthur's headquarters said Lt. Gen. Walton H. Walker, commander of the Allied forces in Korea, had been given authority to apply military censorship over correspondents in the war area.

The officer, who declined the use of his name, said the question was being studied.

Many correspondents have requested formal censorship as a means of helping clear away the confusion attendant on trying to report the Korean campaign.

Lambert was halted as he was about to board a bus in Japan to start a return trip to Korea. He had been in Tokyo for a brief rest.

Col. M. P. Echols, Gen. MacArthur's public information officer, said the action was taken because of the material in Lambert's dispatches has given "aid and comfort to the enemy."

Col. Echols conceded that the objection was not based on a question of accuracy or security in Lambert's news reports.

The officer cited as an "aid and comfort to the enemy" objection an excerpt from one of Lambert's dispatches which quoted a frontline soldier saying "this is a damned useless war."

Two-Truck Crash Near Eden Fatal To Midland Man

A 22-year-old Midland man died and a Littlefield family of three was seriously injured last night in a two-truck collision 11 miles north of Eden on Highway 87.

Landrum W. Pavey, 22, of Midland, was decapitated. He died instantly.

Mr. and Mrs. L. E. Moore and a daughter-in-law, Mrs. Barbara Thomas, were given emergency treatment and hospitalized at a San Angelo hospital.

Hospital attendants said their injuries were serious and injuries to Mr. Moore, the driver, may prove critical.

RIDING IN CAB

The Moores and Mrs. Thomas were riding in the cab of a two-and-a-half-ton truck. They were en route to Camp Hood to visit Pfc. James L. Thomas, Mrs. Moore's son by a previous marriage.

Mrs. Moore said Thomas was to be transferred Monday from Camp Hood and that the party intended to visit him before he left.

8n.n fvnv8n9 o9ails othe4 thann aPye 8m6796,u8li9 m)u8u0 nobo2'er, received fractured ribs

Mrs. Moore, 40, was treated for deep lacerations of the back, leg and forehead. Mrs. Thomas, 19, received leg injuries.

"HEADED FOR US"

The half-ton truck driven by Pavey was proceeding toward San Angelo at approximately 7:30 o'clock when, according to Mrs. Moore, it "headed for us and just kept on coming."

Mrs. Moore said her husband attempted to avoid the collision but that Pavey "kept coming straight at us."

Both trucks overturned. Damage had not been estimated Saturday night.

Passersby attempted to render first aid to the three injured persons until ambulance arrived Three Cox Funeral Home ambulances answered the call.

Allied Forces Halt Red's Drive Across Kum River

(By The Associated Press)

Attacks have hurled some North Korean troops back across the Kum River, General MacArthur reported today, but communists still hold a firm bridgehead 15 miles southwest of Teajon.

Field dispatches reported the North Koreans were checked generally along the Kum. Dispatches said one new Red crossing attempt was repulsed before dawn today. The Communists came across the shallow Kum River under cover of motor fire and tanks guns on the north bank.

Alert defense likewise threw back numerous feelers thrusts across the river by Communists patrols.

TOKYO, Sunday, July 16.—U. S. infantry, supported by around-the-clock bombing, checked the North Korean luge across the Kum River near strategic Taejon in heavy fighting today.

Field dispatches said the Communists attempted to build up their forces south of the river, but a number of patrols were thrown back by an alert American defense.

The North Koreans were acknowledged earlier to have enlarged their bridgehead on the south bank of the Kum about 20 miles northwest of Taejon. Field dispatches indicated the Communists have advanced five miles from this river and are about 15 miles west of Taejon.

ATTACKS 'STRONG'

A headquarters spokesman with the U. S. Eighth Army described the Communist attacks as "strong." Presumably, he referred to Red attempts to break out from the bridgehead and overrun Taejon and its air field.

There still was no evidence that the Northerners had moved tanks across the Kum, said Associated Press Correspondent William R. Moore. Tanks have spearheaded the North Korean invasion from the outset.

Intense aerial assaults were believed to have disrupted enemy attempts to bolster the bridgehead, Moore said. Another front dispatch said U. S. air strikes on targets along the north bank had touched off 18 fires.

DUMP THOUGHT HIT

One flamed 100 feet into the air. It was believed to have been a supply dump. Night bombers lashed at two concentrations of North Korean tanks north of the Kum.

An Eighth Army spokesman announced that a naval party landed on South Korea's east coast, created a landslide with demolitions about 90 miles north of the important port of Pusan, and withdrew.

Stalled Communist truck columns then were shelled from the sea. This was the first report of an Allied naval landing. Whether the landing party was American or British was not indicated.

The fighting tempo was fastest on the western part of the front which stretches across the Korean Peninsula.

SOUTHERNERS YIELD

While the Americans were holding along the south bank of the Kum, the South Korean army on the east flank had to yield some ground.

The South Koreans are fighting doggedly, however, and so far have kept the invaders from reaching the Kum River. A break across the river here might put the Reds in the rear of the American positions north and west of Taejon.

Moore said the Communists attacking the U. S. lines northwest of Taejob threw in artillery and possibly self-propelled guns. American artillery returned the fire. It was believed that every new crossing attempt was crushed.

The Reds, who launched their invasion of South Korea three weeks ago today, were using every trick, including night-striking guerrilias in American fatigue uniforms.

The situation in the main sector west and northwest of Taejon was described as "fluid" by Gen. MacArthur's communique early Sunday. Headquarters conceded the North Korean bridgehead, west of Taejon, "remained intact despite heavy losses."

Snyder Splits Old Seams, Spreads in All Directions

"My, how you've grown!" is the first thing most people think of when they come back to Snyder after two or three years absence.

With whole new streets of colorful little houses, acres of trailer courts and a hodge-podge of shops and stores, it's obvious that Snyder certainly has grown.

Literally and legally, Snyder's area—that is, the part of town actually within the city limits—has increased by about one-sixth this year.

GAIN 200 ACRES

The increase has come about because seven new additions have been taken into the city limits. Annexation has added a total of 202.59 acres, or approximately one-third of a square mile, to the city's area. Before the first of the new areas was taken in, Snyder had an acreage of about two square miles.

It is estimted that the new additions, when completely developed, will raise Snyder's population figure by at least 1,500.

It's not as simple as it sounds for a town to grow this way.

There are streets and alleys to be laid off and dedicated, a plat that must be drawn up before the owners can petition for admittance, and then petition itself, which the city council must apprive.

And of course the addition must be adjacent to the city limits before it can even ask for admission.

Noble Heights, for instance, had a wait of nearly a month from the time it first petitioned before the council could legally consider its petition.

The 37-acre addition, bounded by the Big Spring Highway, Avenue O, and Thirty-seventh and Fortieth Streets, first asked admittance on May 29. On the same date the Warrencrest addition, covering 41 acres between the Big Spring Highway and Avenue V, Thirty-third and Thirty-seventh Streets, presented its petition to the city council.

NO LINK TO CITY

Warrencrest had to be admitted before Noble Heights would be adjacent to the city limits, and it was soon discovered that the plat of Warrencrest lacked the proper dedication of streets. It was June 9 before the Warrencrest petition was finally accepted and Noble can take in new territory, but the Noble Heights experience was not exactly typical.

Finally, at the June 20 meeting of the council, the Noble Heights petition was accepted unanimously and that addition became part of the city of Snyder.

There is just so much "red tape" involved before the city can take by postal authorities.

A plat that shows exactly where the area lies, and convincing proof that streets, and alleys are laid off is about all that is necessary—except that the addition must lie along the city limits at some point.

Among the earliest additions to meet city specifications and find their way into the city limits were Highland Park and a 1.39 acre tract belonging to A. T. Mays, W. S. Mays and O. P. Tate. This small area is on the west side of town, south of Highway 180.

Highland Park brought approximately 40 acres into the city, with a potential 170 homes. Situated south of Thirty-seventh Street, about two blocks west of the Big Spring Highway, the addition is one of the largest areas brought into the city this year.

BIGGEST ADDITION

Largest is Belmont Park Heights, containing 44 acres. Admitted July 10, this addition is also the newest one in Snyder. It is located north of town, adjacent to Avenue S on the west.

Another large residential area was added to the city July 3 when Von Roeder Heights petitioned for admission and was accepted by the council. Containing about 35 acres, this addition has space for about 65 or 70 medium sized homes. It is a roughly triangular area situated south of Highway 84 and adjacent to the east city limits.

Also admitted July 3 was a tract belonging to Gordon Goss, Jack Terry, Joe Jabor, Eddy Ayoub, John Ayoub, Simon Steinbert, A. E. Henry and Sam Spikes. Including five lots, this area amounts to 4.2 acres. It lies along the Big Spring Highway, beginning at Thirty-seventh Street on the north, and is mainly a commercial area. Gordon Goss has built his new drive-in restaurant on the southernmost lot of the group.

Snyder has literally spread out into the cow pastures and cotton patches this year, and with the city limits being moved back as rapidly as they have been even the person who hasn't been out of Snyder can wake up any morning to exclaim how the town has grown.

Reconnaisance Near Formosa Begun By U. S. Navy Aircraft

TOKYO, Sunday, July 16. (AP) — General MacArthur announced today that U.S. naval planes have begun aerial reconnaissance of the South China Sea coast and Nationalist Formosa.

A brief announcement said U. S. Seventh fleet planes had been sent aloft to assist in preventing Chinese Communist attack on Formosa.

It said the aerial operations also were to prevent any air or sea operations by the Nationalists against the Communist mainland.

President Truman in a directive June 27 ordered the Seventh Fleet to protect Formosa from invasion but requested the Nationalists to refrain from air and sea attacks on the mainland.

Texas May Be Fifth State In Population

PHILADELPHIA, July 15. (AP)—Texas may replace Ohio as the nation's fifth most populous state. California may take over Pennsylvania's No. 2 spot.

Preliminary figure for Ohio has been announced as 7,501,791, an increase of more than half a million. The Texas figure has not been announced. Estimates are that Texas will exceed 7,500,000. Only Harris County which includes booming Houston—has not been counted.

HOUSTON, July 15. (AP)—Houston's lagging census report became more confused Saturday night as district supervisor George Findlay said he had been relieved of his duties.

Findlay said the order relieving him of responsibility for populous Harris County's census came from area supervisor James W. Stroud of Dallas.

A telegram received from Stroud Friday, Findlay said, advised him Stroud will be here Monday to take charge.

Moscow Derides UN Aid Appeal

MOSCOW, July 15. (AP)—The United Nations appeal to 52 member countries to rush effective aid to South Korea's defense was described by the Literary Gazette Saturday as a farce.

"The hopes are vain," said the magazine, an organ of the Soviet Union of Writers. "The face at Lake Success cannot cover up the quarrels among the imperialist powers."

Britain recalls she is busy in Malaya, it said and France remembers she cannot spare forces from Indochina.

The Literary Gazette said it would be very difficult for the UN to organize significant detachments of Asiatic armies.

"Not by chance have a number of Eastern countries refused to support the resolution of the Security Council on the Korean question," it said.

Inspection of Fire Department Cannot Be Made Until Later

The State Fire Insurance Division at Austin has notified N. W. Autry, fire chief, that it will be several months before they are able to make an inspection of the Snyder Fire Department.

Autry had written asking for an inspection and recommendations for improving the fire department.

Scurry Over Top In Bond Campaign

Scurry County went over the top in the Independence Savings Bonds Drive, exceeding its quota by 151.9 per cent.

The county's quota in the bond drive, which continued from May 29 through July 4, was $48,500. Keith Merrick, county bond drive chairman, announced yesterday that bonds amounting to $61,087 had been sold.

Most of that amount had been sold since the appearance of the Liberty Bell replica here June 29 climaxed the bond campaign. On June 9, $20,250 had been raised.

The treasury department's Liberty Bell tour, which featured an exact replica of the historic Liberty Bell, was the keynote of the Independence bond drive. Its appearance here was accompanied by speeches from Merrick, the Rev. W. W. Adcock, Mayor Forest Sears, and Nolan Watson.

Man Improvises Gun To Take Own Life

FREDERICKSBURG, July 15 (SC)—Edward Schilling, 75, retired farmer, died here Saturday of wounds which Justice of the Peace William Bruns ruled were self inflicted with an improvised gun.

The lifeless body of the aged man was found at the home of a son-in-law, John Sweatman, here. There was a bullet wound in the man's right temple.

Bruns said that Schilling's family had been alarmed at his threats of suicide, because of failing health. They had removed the bolt from the rifle. Apparently undaunted, Schilling sawed off the barrel contrived a firing pin from a piece of steel, tied it to the barrel with a shoe string, and hit it with a hammer to fire the fatal charge.

Schilling was a native of Kendall County where he was born Dec. 26, 1874. Funeral services are slated from the Schaetter Funeral Home Sunday afternoon. Burial will follow at Comfort.

Survivors include three sons, Ernest of Willow City, Albert of Kerrville, and August Schilling of Berne; and two daughters, Mrs. Louis Robin of Houston and Mrs. John Sweatman of Fredericksburg.

House to Consider Changes In Wheat, Cotton, and Peanut Law

WASHINGTON, July 15. (AP) — Legislation covering cotton, wheat and peanut acreages for 1951 under the price support program has been approved by the House Agriculture Committee.

Rep. Bob Poage of Waco, said several of the provisions would especially aid Texas farmers.

Under the cotton plan marketing quotas would be continued for 1951 and 1952, regardless of whether there is a small crop this year. It sets up a new standard for the secretary of agriculture to decide whether quotas are needed.

A provision which would apply only to Texas directs that its allotment be based on the years of 1945-48 inclusive. The same rule would apply to all Texas counties and farms.

Poage said this would change allocations to shift some 400,000 acres from West Texas to central and east Texas counties.

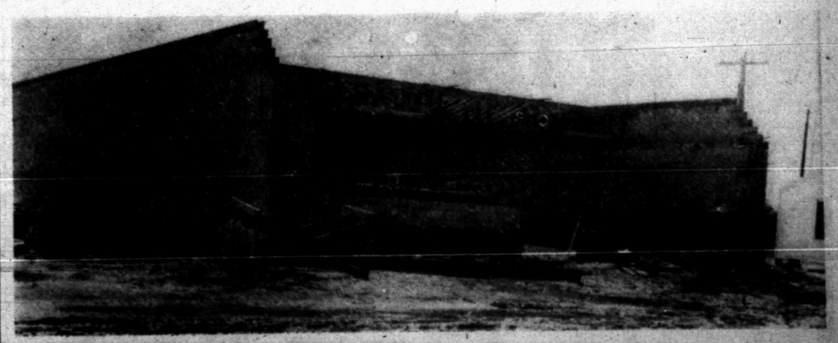
Another new provision would make the base allotment for each state the acreage it was allotted in 1950. Each farmer would have his acreage this year as his base. Any national cuts or increases would be figured on these bases. However, no farmer could devote more than 45 per cent of his cultivated land to cotton unless a county committee gave him five per cent more.

The proposal also would provide a long staple cotton program under certain conditions.

The wheat section would provide that a county's 1950 allotment could be reduced by any national percentage cut, but not more than five per cent in addition to any such cut.

Poage said the peanut section would mean about 41,000 more acres to Texas and would also help Oklahoma. It would provide that the secretary of agriculture could increase the 1950 acreage for any particular type of peanuts which were scarce, even if a general reduction in peanut acreage is ordered for 1951.

The bill, as approved also would continue county agriculture conservation committees for another two years. Under present law, their authority would expire Dec. 31.



POST OFFICE EXTERIOR NEARLY COMPLETED—The new building at 2211 Avenue R, being built by George W. Gray of the Snyder Gray Lumber Co., is shown above, its concrete block walls almost finished. Going up rapidly, the building is expected to be ready to house the post office before the lease on the present post office on the square expires Aug. 31. The new building will be easily accessible to patrons when Avenue S has been paved.—(Joe Dave Scott photograph).

BOMBING NORTH KOREAN BRIDGE—This stick of 500-pound bombs heads for a bridge across the Hamhung river, extreme bottom of the picture, at Hamhung, important North Korean industrial center and rail terminus. Bombs from B-29 scored a direct hit on the bridge, knocking out important link in the North Korean supply line. This picture was made during a raid on July 5. (AP wirephoto).

Jim Ikard Asks Election As County Collector-Assessor

Jim Ikard; unopposed in his race for county tax assessor-collector, has been employed in the tax office for the past year and a half.

Working under Holly Shuler, present assessor-collector, he says, "I still have a lot to learn to be as good as he, but if elected I will continue to work and will try to fill the office the very best I can."

Ikard has lived in Scurry County for more than 35 years and in Snyder for 29 years. He is married and has two daughters, Oleita Ikard of Snyder, and Mrs. Jimmy Coffee of Big Lake.

He has been employed mainly as a bookkeeper in various firms in Snyder.

"I am not making any promises if elected," Ikard says. I expect to make you the best hand I can make. Realizing that I am asking for a pretty big job, I believe I

Missionary Ship Lost a Month, Reported Found

CHICO, Calif., Jul 15. (AP)—A DC-3 plane which disappeared last month while carrying 15 members of a missionary party to South America has been found burned on the Venzuela-Colombia border and all aboard are presumed dead, the mission's headquarters reported Saturday.

The word came to the New Tribes mission here from two of its representatives at Maracaibo, Venezuela, Robert Shaylor and Carlton Hilker, whose wife and three children were aboard the ill-fated craft.

Their cable said they had located the ship, "a charred wreckage," the Venezuela-Columbia border and from the border between Venezuela and Colombia. The message made no mention of survivors.

The two said they had first sighted the wrecked plane from the air on July 6. After returning to their base at Maracaibo, they set out on foot and reached the crash on July 9.

The New Tribes Mission trains missionaries for work in widespread sections of the globe. The plane left Miami June 9 for Maracaibo and was not heard from again.

Man Arrested On Charge of Statutory Rape of 12-Year-Old

Milton C. Collins, 26-year-old neon sign worker, of Snyder, was charged Friday afternoon with statutory rape against a 12-year-old Snyder girl.

Collins, arrested by C. C. Dawson, patrolman, on the Post highway Thursday, waived a preliminary hearing in justice court Friday afternoon, and his bond was fixed at $3,000. The appearance bond, binding him over to the next session of the grand jury, was approved yesterday afternoon.

The charge against Collins was made and filed by Eldon Mahon, district attorney, upon the complaint and information of Chester Barrington, chief of police. Barrington said the arrest was made after investigation of complaints. Collins resides west of Snyder on the Lamesa highway.

Anti-American Slogans Painted On U. S. Embassy

MEXICO CITY, July 15. (AP)—Anti-American elements eluded police today and scrawled "Gringos—go home" on walls of the U. S. embassy.

Another slogan written on the economic section building said "out with Miller." This referred to Edward G. Miller, Jr., assistant secretary of state for inter-American affairs. He is visiting here.

Police placed the guard around the two embassy buildings Tuesday.

The embassy said it had not asked protection. It was first established because a Communist party meeting was scheduled Tuesday near the embassy and continued because of a leftist meeting later in the week.

The guards are still there but behind them on the walls are the partly-erased slogans. "Gringo" is a derisive term Mexicans use for U. S. citizens.

Young Mexicans who visit the embassy to volunteer for service in the U. S. army pass these slogans on their way in. They are thanked for their offers, but told there is no way for them to join the U. S. forces.

Attorney Is Named Mayor of San Saba

SAN SABA, July 15. (SC)—William F. Jameson, 32-year-old attorney, accepted the mayorship here Saturday. The post had been vacant since the resignation of E. J. Clark June 1.

Jameson will be sworn in Monday.

Without a mayor, the city has been unable to settle litigation over a new dump ground and to complete plans for distribution of city water and other pending problems, it was related to Commissioners J. Hudson Kelley and Charles H. Little.

Korea Bound GI Quick to Marry

CAMDEN, N. J., July 15. (AP)—A bridegroom was off for a special assignment in Korea Saturday, a bridegroom, that is, because a lot of people went to a lot of trouble for little Dan Cupid.

Here's how it all happened:

Sailor Roy Autry, an Oklahoma City, Okla., native stationed at the Philadelphia Naval Base, planned to marry Ladislava Pietrzak, 22, of Philadelphia, next Monday.

But Friday he was notified that he'd be leaving for Korea Saturday.

So the 25-year-old teletype operator, got in touch with Miss Pietrzak and they hustled off to Camden City Hall to see Esther Weinberg, who had given them a license the day before.

She sent them to Anna Lochwood, secretary to Judge Bartholomew A. Sheehan, to try to get a waiver of the three-day waiting period. Judge Sheehan was on vacation.

But Miss Lochwood called in court stenographer William MacDonald who knew where to locate Judge Sheehan. He found the judge who told him to bring the application for waiver and he'd sign it.

Then MacDonald remembered he had no car. So, William Sawyer, a court attache, got into the act and drove to Judge Sheehan's house with the application. And the judge gave it his okay.

Back to City Hall went the couple to be married by Judge Benjamin Izick. The best man: MacDonald. The maid of honor: Miss Lochwood.

War Possibility Has Effect on Markets

NEW YORK, July, 15. (AP) — The Associated Press commodity index made its sharpest gain in more than four and one-half years this week as traders eyeing the Korean war developments rushed to buy raw materials.

The index of 35 important wholesale commodity prices soared to 178.81 on Thusday—highest since Dec. 7, 1948. Then it dopped off slightly to close the week at 178.73, compared with 174.94 a week ago and 152.09 a year ago.

The index base year of 1926 equals 100.

Nearly Million New Telephones Ordered in 1950

NEW YORK, July 15. (AP)—The demand for new telephones across the country continues at a high level, the American Telephone and Telegraph Co. said Saturday.

In its quarterly report to stockholders, AT&T said its Bell System gained 425,000 telephones in the second quarter of 1950 to bring the increase so far this year to 935,000.

The Bell system, which operates slightly over four-fifths of the nation's telephones, now has about 34,325,000 telephones or double the number of ten years ago.

The report showed the Bell system, composed of AT&T and its principal telephone subsidiaries, had net income of $87,929,330, equivalent to $3.13 a share, for the three months ended May 31 compared with $53,366,325 or $2.20 a share in the like 1949 quarter. For the 12 months ended May 31, earnings were $294,935,228 or $11.22 a share against $212,987,234 or $8.89 a share the previous year.

Funeral Arrangements For Newspaperman Not Yet Complete

No funeral arrangements have been made for Frank Lander Moorman, 57 years old, former Douglas, Ga., newspaperman, who was found dead here Friday morning.

W. C. Davidson, justice of the peace, ruled that the death was apparently a suicide, resulting from an overdose of sleeping capsules. A signed note requesting that his body be taken to Cloverport, Ky., was found near his bed with a bottle containing one sleeping capsule.

Mooreman's wife was expected to arrive here today to complete funeral arrangements.

Moorman, who had lived here only a few weeks, said he was the originator-sponsor of the National Leave Us Alone Week. Clippings from several newspapers and magazines found in his possession carried his photographs and stories of his work as a journalist and originator of the week.

Letters in his possession indicated he had been in public relations work for lease selling agencies. He had a room in the home of Mr. and Mrs. Orville Robb, about 11 miles east of here.

Man Suffers Injury When Barrel Explodes

Wirth B. Putman, 44, of Abilene was injured Friday when he was cutting the top out of an oil barrel. The barrel exploded, breaking his arms and cutting him severely.

He received emergency treatment at Snyder Hospital Clinic and was taken to Hendrick Memorial Hospital, Abilene.

Amnesty Bill Gives Freedom To Prisoners

ISTANBUL, Turkey, July 15. (AP)—A general amnesty bill that will give about 20,000 prisoners their freedom was approved today by the Grand National Assembly.

Persons convicted as spies, traitors or Communists, or who have incited revolt among the armed forces are not included under the bill's provisions.

New Home Building Hits Postwar Peak

WASHINGTON, July 15. (AP) — More new homes were started in the first half of 1950 than in any other six months of American history. The number was 687,000.

Also, June rolled up the highest monthly total of homebuilding "starts" ever recorded, 142,000.

Those preliminary estimates were announced today by the Labor Department's Bureau of Labor Statistics. They showed that homebuilders have kept right on breaking records as the great 1950 construction boom continued.

Alpine Gets Relief From Water Shortage

ALPINE, July 15. (SC)—Recent rains have put an end, at least temporarily, to Alpine's water shortage. However, engineers are going ahead with surveys with a view of obtaining an unfailing supply from the mountains outside the city limits.

Candidate Urges More Cotton Acreage

DALLAS, July 15. (AP) — John C. White of Wichita Falls, candidate for Texas commissioner of agriculture, urged today that cotton acreage allotments be expanded in view of the Korean war.

In a telegram to Secretary of Agriculture Brannan, White said "the nation's agriculture should be immediately readied for an international emergency."

The U. S. Department of Agriculture Friday asked farmers to plant a bigger wheat crop for 1951. White said he approved the step.

State Candidates Outline Platform for Women Voters

By WILLIAM C. BARNARD
Associated Press Newsfeatures Writer

What are your intentions, please? That, in effect, was what the League of Women Voters of Texas, a powerful statewide organization, asked candidates for major offices in the July 22 Democratic primaries.

The replies were published in the "Voters Guide," an entirely neutral publication published annually by the league.

PLATFORMS

Here are some of the platforms and comments on major issues received from candidates:

Governor's race:

The question: "What do you consider the major issues before the state at this time."

The answers:

Governor Allan Shivers: "Economy—of money, water and soil."

Gene S. Porter, Houston: "More pensions for the needy and aged due to the high cost of living. To stop the trend towards socialized medicine. Promote unity between capital and labor. States rights or local self government is another important issue."

Wellington Abbey of Houston: "Equal rights for women; state bonus for vets; old age pensions."

NO REPLY

Caso March was one candidate for governor from whom no reply was received. But in speeches, March has emphasized that he would put a tax on Texas natural gas transported out of the state to build rural roads, develop water resources, build school facilities and exempt every home from all forms of taxes. March advocates a minimum old-age pension of $50 a month "as a matter of right and not charity."

Lieutenant governor:

The question: "What do you consider the major issues before the state at this time?"

The answers:

Virgil E. Arnold, Houston: "The question as to how we can cut the high cost and operation of our state government and this also implies jointly with the state, the high cost of our national government."

R. B. McAshan, Ingram: "Equal rights as to color. I think everyone should have equal rights."

EFFICIENCY

G. C. Morris, Greenville: "The progress of our educational system. Keeping state expenditures to a minimum and obtaining the same grade of efficiency in state government that one demands in private business."

Ben Ramsey, San Augustine: "Recodification of Texas election laws. Revitalization of rural community and farm life through adequate roads, better schools and the installation of rural telephones and other conveniences. The census shows a drift away from farms and smaller communities. This trend must stop."

W. O. Reed, Dallas: "Taxation, economy, conservation of our oil and water, schools, eleemosynary and correctional institutions."

Preston Smith, Lubbock: "Reorganization of the executive branch of the state government soil and water conservation. A secret ballot that is secret. Continued program of improvement in our state hospitals."

MAJOR ISSUE

Kyle Vick, Waco: "The major issue at the next session of the Legislature will be a tax bill for not less than $130,000,000. This tax should be raised by increasing and broadening the present Omnibus Tax Bill on natural resources."

Cyclone Davis, Dallas: "First, a fair and equitable pension to the state's aged citizens. Second, to forestall the encroachment of creeping Communism, death, debt decay and poverty, leading to crime, corruption and war. Third, a stop gap on Republican slush funds to elect wolves in sheeps clothing upon Democratic ballots."

DUAL SYSTEM

Peyton Elliott Womack, Negro, of Austin: "The problem of a dual system of education. Shall it continue notwithstanding our recent Supreme Court decision. I answer: Yes. Negroes have access to two state universities. State's task of financing these two systems of education. Adequate old age assistance legislation. State or national ownership of tidelands."

Commissioner of Agriculture:

The question: "Please state your platform."

The replies:

J. E. McDonald, Austin, incumbent: "I have no platform except to continue the policies established during my 20 years administration. My office is open to any group or individual seeking advice or assistance in any matter pertaining to agriculture.

REORGANIZE

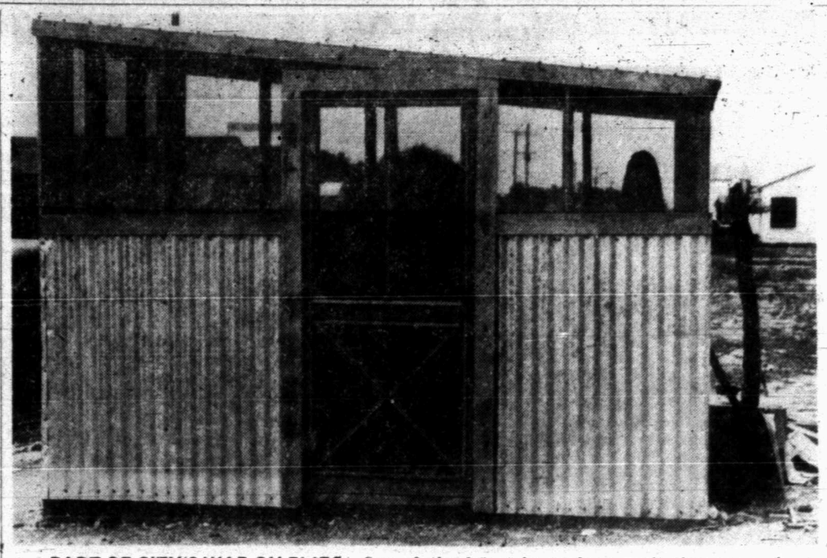
Tom Fairey, Austin: "The basis of my platform is a program of reorganization and modernization of the State Department of Agriculture."

Charles McLellan, Colorado County: "To actively work with all farm and ranch groups to promote the general welfare of rural Texas, to help make rural Texas so livable that the trend towards city life will not be necessary to reversed. To administer all laws regulating industry and business fairly, keeping the cunsumer informed properly. Economy in administration of the department. To seek better state participation and less federal help."

John C. White, Wichita Falls: "Enforce seed laws. Cut out deadwood in the department and employ qualified agricultural men. Maintain young people on the farm in Texas. Sound, workable soil conservation program. Additional irrigation in Texas. More comprehensive soil analysis service. Additional seed testing laboratories. Livestock feeding program that will enable farmers and ranchers to mix their own home-grown feeds. Fatten their own cattle and save out-of-state shipping prices. Insect control and experimentation in cotton growing. Reforestation."

Fuller Said Insane

GOLDTHWAITE, July 15. (AP) — Tom Fuller, who wounded four persons and terrorized downtown Goldthwaite with a shotgun last May, has been declared insane.



PART OF CITY'S WAR ON FLIES—One of the latest in modern sanitation measures is this garbage receptacle at the Ranch House Cafe on the East Highway designed to keep insects away from garbage awaiting its trip to the refuse disposal grounds. The receptacle not only provides a neater and more sanitary place for temporary garbage storage but also reduces danger of fire since the structure is fire-proof and also screened in. Recommended by the state health department as an ideal provision for eating and drinking establishments where garbage accumulation is heavy, the receptacles are being promoted by L. T. Barnard, sanitation officer of the city-county health unit. Several other cafes, grocery stores, and other food handling firms have built similar ones, and others have begun building them. Cost of construction is generally considered very low.—(Joe Dave Scott photograph).

Oil Operator Dies As Plane Burns

HACHITA, N. M., July 15. (AP) — An ambulance plane burst into flames as it landed here Friday and the patient it carried—a Texas and Oklahoma oilman—died strapped to a cot.

Burned to death was L. H. Prichard, 42, Oklahoma City and San Antonio oil operator and landowner in the Texas Rio Grande Valley. The pilot of the plane was burned, but two others escaped uninjured.

Prichard reportedly was ill with pneumonia and was being flown from California to San Antonio.

U. S. Border Patrolmen said the plane made a "perfect landing" at the Hachita airfield and burst into flames immediately.

What caused the twin engine Cessna to catch fire was not known.

Pilot J. P. Jones, Van Nuys, Calif., was burned about the face and hands as he scrambled from the plane. A. J. Ford, Los Angeles, a medical attendant, was unhurt. Dr. Andrew S. Tombs, Victoria, Tex., physician also escaped without injury.

Yugoslavs Charged By Red Neighbor

PRAGUE, Czechoslovakia, July 15. (AP) — Albania has sent Yugoslavia a note charging her with border violations "aimed at starting a war," the Soviet news agency Tass said in a dispatch published here today.

The dispatch, from the Albanian capital of Tirana, said the Albanian legation handed the note to the Yugoslav foreign ministry in Belgrade Friday.

The communication was quoted as saying that in June "the Yugoslavs were guilty of seven provocations on land and two in the air against the Albanian people's republic."

No Egyptian Troops To Go To Korea War

ALEXANDRIA, Egypt, July 15. (AP) — Mustafa Masrat Bey, Egypt's minister of war and navy, declared today Egypt will not send troops to Korea in response to the appeal Friday by Trygve Lie, secretary-general of the United Nations. Egypt abstained in the security council vote on the decision to intervene in Korea.

Gallup Poll

One in Seven Drinkers Says Liquor Has Been a Problem

By GEORGE GALLUP
Director, American Institute of Public Opinion

PRINCETON, N. J., July 15 — Six out of every ten U. S. adults drink beer or other intoxicating beverages, though many of these are only occasional drinkers and liquor has been a cause of trouble in the homes of one out of every seven drinkers.

Those are hte highlights in a national survey on drinking habits in which interviewers for the Institute questioned a balanced cross-section of voters in all sections and in all walks of life.

The survey found that one in every six persons, who use liquor, drink almost every day, and about one-fourth drink "a few times a week."

The survey inquiry on frequency of drinking and the proportion of homes where liquor is a problem originated from a suggestion by the Reverend Leland Stark of the Church of the Epiphany in Washington D. C. Commenting on earlier Institute surveys on drinking, the Reverend Stark declared in a letter to the Institute that ". . . it would be helpful to know the percentage of Americans in whom drink has become a serious problem."

In conducting this survey the Institute, as in an earlier survey on drinking, first asked each person whether he ever had occasion to use alcoholic beverages and found that approximately six in every ten do.

Four in every ten say they are total abstainers.

Those who say they use alcoholic beverages were then asked:

"About how often do you like to take a drink?"

Here are the replies:

Almost every day—17 per cent.
Few times a week—23 per cent.
Occasionally—once or twice a monthly—42 per cent.
Seldom—few times a year—18 percent.

Persons who drink—100 per cent.

Since it is human nature for most drinkers to underestimate rather than overestimate the frequency or amount of their drinking, the above figures probably give a minimal picture of drinking habits.

* * *

PROBLEM DRINKING

The problem of excessive drinking has been attacked by the liquor industry itself, which has sponsored campaigns to encourage temperance and research into the causes and possible cures of chronic alcoholism.

Alcoholics Anonymous, a private organization to help problem drinkers overcome their difficulty, has had spectacular success in dealing with alcoholics.

While it is often embarrassing for people to admit that liquor is a cause of trouble in their homes, it is interesting to note that quite a number of drinkers in today's survey were willing to admit that drinking is, or has been, something of a problem in their homes.

All persons in the survey who say they drink either regularly or occasionally—constituting approximately six out of every ten—were asked:

"Has liquor ever been a cause of trouble in your home?"

VOTE OF PERSONS WHO DRINK

Yes, it has—14 per cent.
No it has not—86 per cent.
Total—100 per cent.

A report by Dr. E. M. Jellinek, director of the Yale University Section of Studies on Alcohol, estimates that in 1945 there were approximately 750,000 chronic alcholics in the United States, and an additional 3,000,000 "inebriates" — persons who are heavy and continuous drinkers although not chronic alcoholics.

WET OR DRY?

A final question in the survey asked all persons, whether drinkers or abstainers, how they would vote if the question of national Prohibition were to come up again.

More than two out of every three persons in the sample of the voting population said they would vote against the return of Prohibition. Among those adults who drink, more than eight out of every ten would vote against it.

Rodeo Will Open This Week, Offers Purse of Nearly $3,000

More than $2,900 will be given away in prize money during the fourteenth annual Scurry County Rodeo to be held in Snyder Wednesday through Saturday.

There will be $401 in first place money, $305 for second money, $195 for third place, $97.50 fourth, and $72.50 for fifth place in each group-day. There will also be $400 for best two group averages in two events.

TWO GROUP DAYS

Wednesday and Thursday will constitute the first group-days and Friday and Saturday will constitute the second group-days. All contestants must enter for both group days.

All of the entry fees to the rodeo must be paid in advance to the secretary, O. D. McGlaun, before the deadline at noon on Wednesday and Friday. For the two day averages, Wednesday and Thursday will go together as group No. 1 and Friday and Saturday will go together as group No. 2.

All of the roping events are for amateurs only and any contestant entering the senior events is barred from the junior events.

There will be four group-day average prizes. A $60 first and a $40 second prize will be awarded for the best two group-day average on wild cow milking and calf roping. A $60 first and a $40 second prize will be given for the best two group-day average on steer riding. The best two group-day averages on bronc riding will receive $60 first and $40 second prize as will the best group-day average in the senior sponsor contest.

One hundred seventy-five dollars in prizes will be given in the wild cow milking contest with a $100 group-day average prize along with calf roping each group-day. The entrance fee is $6 each group day. The group day prize money is $75 first, $50 second, $25 third, $15 fourth, $10 fifth. The same prize money that is given in the wild cow milking is also given in the calf roping contest.

JUNIOR EVENTS

Group-day prize money totaling $82.50 will be awarded in the junior ribbon roping contest including $35 first, $20 second, $15 third, $7.50 fourth and $5.00 fifth. The entrance fee is $2.50 each group day. The contestants for this event must be under 18 and have been a resident of Scurry County for 60 days or more.

The same entrance fee and prize money will be given in the bareback riding contest.

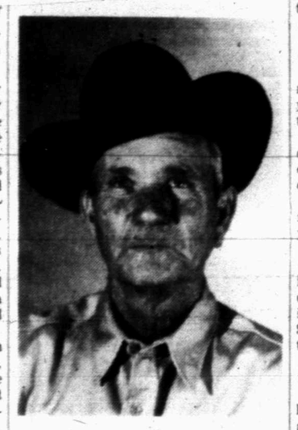
The steer riding contest, the cutting horse contest, and the senior sponsor contest will have the same amount of prize money although the entrance fee is different and the group-day averages are different. The three contests have $50 first, $40 second, $25 third, $15 fourth, and $10 for fifth prize.

The entrance fee for the steer riding contest is $3 each group-day, while there is no entrance fee in the senior sponsor event. The entrance fee for the cutting horse contest is $10. The cutting horse contest is final money while the other two have group-day money.

Contestants in the steer junior riding contest must be under 18 years of age and have been a resident of Scurry County for do days or more. The fee in this contest is $2 each group-day with group-day prize money of $25 first, $15 second, $10 third, $5 fourth, and $2.50 fifth. The rules for this contest are the same as those in the regular senior steer riding contest.

The bronc riding contest will have an entrance fee of $3 each group-day with group-day prize money of $60 first, $40 second, $25 third, $15 fourth, and $10 fifth.

Walter Grant, Candidate, Experienced in Road Work



Seeks post as county commissioner — Walter Grant.

Walter H. Grant, candidate for commissioner from Precinct No. 1, has had 26 years of experience in road work.

He ran the first maintainer for the city of Snyder shortly after World War I. He has also done road work for Scurry County, the state of Texas, and for private contractors. He laid the foundations for the city's paving and operated the city maintainer until his resignation from the street department a few weeks ago, he stated.

Grant, who is 64 years old, has lived in Scurry County since 1900. He was born in San Saba, moved to Breckenridge when he was a small child and lived there until he came to Scurry County.

He lives at 1412 Avenue I with his wife and one of his three sons, Ballem Grant. His other sons are W. H. Grant of Snyder, H. P. Grant of Sweetwater, and he has a daughter, Mrs. L. D. Taylor, of Snyder.

In his statement of candidacy, Grant said, "I would like to be commissioner of Precinct No. 1 for the next term. I will not say what I will do, but am asking for a chance to show what I can do."

Grant is opposed by C. A. (Clarence) Wade, S. W. (Red) Trevey, Raymond Smith and T. B. Knight.

First Patients Will Enter Big Spring Hospital Monday

BIG SPRING —(Spl)—The Big Spring Veterans Administration hospital, already a beehive of activity for several weeks, will admit its first patient tomorrow.

Although patients will be limited to emergency cases needing immediate hospitalization during early phases of operation, it is expected that 50 beds will be made available in the near future. Then, as the staff is enlarged and other preparations are completed, the hospital will be opened to its full, 250-bed capacity.

Dr. L. B. Andrew, superintendent, has already organized a substantial portion of his staffo. Ultimately, personnel will be comprised of about 180 professional people and 125 in administration.

Meanwhile, supplies and equipment have been moving steadily into the hospital in preparation for the opening. All facilities will be ready for operation Monday in the portions which will be used for the first patients.

Persons who served in military forces during periods of war who have discharges other than dishonorable, and those who have been in peace-time service and discharged under conditions other than dishonorable with service connected or service aggravated disabilities, are eligible in most cases for hospitalization at the Veterans Administration facility.

The hospital, which was constructed at a cost of over six-million dollars, required over two years to build. Construction was started in February, 1948, and the project was turned over to the Veterans Administration last spring.

Famous Texas Lawyer Dies in Fort Worth

FORT WORTH, July 15. (AP) — Jewel P. Lightfoot, the attorney general that made an oil company pay a multi-million dollar fine in cash, died Friday.

The 77-year-old lawyer and prominent Mason died after an illness of six months.

It was as an assistant attorney general in 1905 that he directed prosecution of the Waters-Pierce Oil Co., a subsidiary of the Standard Oil Co. This anti-trust suit resulted in a fine of $1,784,000 and Lightfoot demanded it be paid in cash. Company attorneys and officials piled $10,000 bills, smaller currency and $50,000 in gold upon a table of an Austin courtroom.

A past grand master of the masonic Grand Lodge of Texas, he held every top Masonic honor.

Three Are Charged In County Court

P. D. Cline, 33, of Snyder, was charged yesterday with possession of liquor for purpose of sale in a dry area.

Cline was already on bond of $1,000 pending trial on a similar charge when this case was filed. He pleaded not guilty, and bond was fixed at $2,000.

George Melvin Hodges, 26, of Snyder, was also charged in county court with unlawful possession of liquor. After pleading not guilty, his bond was set at $1,000.

Also charged in county court yesterday was Henry Clarence Hoepfl, 26, of Hermleigh, who paid a fine of $123.50, including court cost, after pleading guilty to driving while intoxicated.

Hoepfl wes arrested by Bill Zimmerman and E. W. Green, highway patrolmen, and Hodges and Cline were arrested by members of the sheriff's department.

Youth Sent to Vernon To Face Theft Charge

The sheriff's department Thursday committed John Tarlton, 19, of Snyder, to the custody of Wilbarger County law enforcement officials, who returned him to Vernon to face a charge of automobile theft.

Tarlton was arrested here July 9 by Lloyd H. Merritt, sheriff, who said he was found in possession of a 1942 Mercury sedan, said to have been stolen in Vernon. Merritt said the car was one located here after it was first reported stolen but was stolen the second time from the possession of the Ezell Motor Co., where it had been taken for keeping until claimed.

Ed Luttrell, Jr., sheriff of Wilbarger County, said another youth was still at large and wanted in Vernon as an accomplice in the theft.

Traffic Clogged Hours By Mule, Man and His Dog

JERSEY CITY, N. J., July 15. (AP)—The Pulaski skyway was clogged yesterday with what police described as the worst 20 minute traffic jam in its history, all because of a man, a mule and a dog.

The man, who identified himself as Clarence Hornback, 57, said he only was looking for the road back to Galesburg, Ill., and nobody had told him the Pulaski Skyway, main road from New York to Philadelphia, wasn't for mules.

When the congestion attracted the attention of police they found Hornback shuffling along the elevated highway leading his mule and his dog. Behind trailed a long, long line of cars.

While police were escorting Hornback and his caravan off the high speed skyway, the strap holding the pack on the mule suddenly let go. Assorted bundles of clothing and camping equipment scattered over the road.

Hornback tugged at the mule, two policemen scurried around clearing up the debris. By the time the situation cleared, traffic had backed up about four miles.

Hornback, Hudson County Police Chief Joseph Neary said, repeated he had gone to New York with his mule and dog last month on a bet. He got on the skyway looking for the way back to Galesburg, Ill.

Police said they'd press no charges and sent Hornback on his way.

Neary said he knew when to let well enough alone.

Girls Can Register Now for Day Camp

Registration is still open for the day camp being planned for Snyder girls by Girl Scout workers in Snyder and the area. The camp is scheduled from July 31 through August 4, from 4:30 to 7:30 in the afternoon.

Open to all girls in Snyder, whether or not they are Girl Scouts, the camp will include outdoor cookery, hiking, nature study and craft work.

A registration fee of $2.50 will cover the cost of food. The girls will prepare their own evening meals.

Mrs. Lindy Clark will direct the camp and Miss Mary Cates, a professional Girl Scout counselor, will work with the group.

Mrs. Clark explained that girls could register for the camp in the Chamber of Commerce office. Only the first 100 girls who register will be able to attend.

Four Held After Peace Petition Starts Argument

NEW YORK, July 15. (AP) — Three women and a man circulating the Communist-sponsored world peace petition were arrested Friday after arguments started in a crowd of several hundred near Union Square.

The square is New York's traditional site for political rallies and soap box oratory.

Police Sgt. Fred Kowsky said the arguments led him to order the four to move on, but they refused to do so.

They were booked on charges of disorderly conduct, causing a crowd to collect, and refusing to move on police orders.

The four were Naomi Narol, 21, a clerk; Mrs. Esther Coch, 51, housewife; Mrs. Frieda Chilvers, 57, attorney, and Harry Zlott, 57, an unemployed cabinet maker, police said. All pleaded innocent. Mrs. Chilvers was paroled and the others held in $500 bail.

The petition bore the name of the "campaign Committee for World Peace Appeal," police said. The world peace appeal is circulating an American version of the Communist-sponsored "Stockholm Petition" supported by the Soviet Union.

British Ship Hits Mine Near Coast

DEN HELDER, The Netherlands, July 15. (AP) — The 560-ton British freighter Fanstone, carrying iron from Emden to Hull, struck an old mine off the Dutch north coast Friday and sank within a few minutes. Her crew of 11 was picked up.

Pressure Cookers Tested At Office Of Demonstration Agent

The Dunn Home Demonstration Club held a pressure cooker clinic at the community school house Thursday, Mrs. Mildred Sparks, county home demonstration agent, said.

The clinic was for the purpose of checking the working order of pressure cookers before canning begins. All other persons wanting their pressure cookers checked for safety and effeciency may bring them to her office in the basement of the courthouse, Mrs. Sparks said.

Retired Steamship Executive Dies

GREAT NECK, N. Y., July 15. (AP)—Joseph P. Grace, 78, retired head of the Grace Steamship Line, died today at his Long Island estate. He had suffered from a long illness.

He was the son of William R. Grace, twice mayor of New York and founder of W. R. Grace and Co. The company owns the Grace Line, has a half-ownership in Pan-American-Grace Airways, and is active in a number of other inter-American industriat and trading activities.

Injured 'Workman' Is Found To Be a Woman in Disguise

LITTLEFIELD, July 15. (AP)—Officers Saturday night continued an investigation into the background of a young woman whose leg was crushed Friday at a concrete company where officials employed her under the impression that she was a man.

Hospital attendants said the woman, who identified herself as Thelma Elizabeth Eaton, 20, of Alvin, is apparently recovering satisfactorily from injuries suffered in the accident. Doctors were forced to amputate her left leg above the knee after her foot was caught in machine gears and chewed up beyond the ankle.

Questioned after the mishap shortly before noon Friday was a second woman, who identified herself as Betty Louise Davis, 24, of Little Rock, Ark., Deputy Sheriff Dick Syer of Littlefield said Saturday night.

The Davis woman first told officers she was married to the victim of the accident, but later explained they had lived together for about two months.

Upon further investigation officers discovered that the two women were accompanied to Littlefield last week by two infants, an 18 months old boy and a 16-months old girl. The injured woman later told officers the boy was her son. The Davis woman claimed the little girl.

The Eaton woman, wearing a mannish crew type hair cut and men's clothing applied for a job at the concrete plant late Thursday. She appeared for work Friday morning and according to plant officials worked along with men employed, who did not suspect she was a woman.

The woman handled heavy loads of building materials and pushed a 250-pound wheelbarrow load around. She slipped through a grating and was caught in the gears in the process of her work.

Saturday night, Deputy Dyer said the Davis woman said she met the Eaton woman, whom she believed to be a man, in Houston two months ago. She the "man" promised to work and make them a living if she would take care of "his" 18 months old son. With the children they hithiked to Littlefield where the Eaton woman started working.

The Davis woman said she never suspected the injured woman was not a man. Officers found a marriage certificate bearing the name of "Joe L. Monneyhan" in the injured woman's possessions. That was the name she used to gain employment.

Saturday night the Davis woman was placed on a bus for Little Rock and a brother of the injured woman was expected Sunday from Alvin.

Texas Civilian Defense System Being Prepared

(By The Associated Press)

If war comes, how soon would the Texas civilian defense system be in operation?

"Almost immediately," says Gov. Allan Shivers. By that, says the governor, he means three or four days.

A world conflict would flip the switch on an immense preparedness plan which is the result of months of intense study.

Long before the Korean war on April 14—the governor told the citizenry the broad outlines of the system. A few days after the Korean fighting started, a letter went out from Shivers' office to every every county judge and mayor. The letter described state plans and made "preliminary recommendations" for local preparations.

The Texas plan was made up with the help of the National Securities Resources Board in Washington.

That board, of course, is concerned about what would hppen to Texas' great industries—the B-36 plant at Fort Worth, the vast oil and chemical plants at Houston, the newly-important rubber plants at coastal cities, and many others.

Besides measures to protect such facilities the plan includes provisions for emergency shelter, food, clothing, and medical supplies throughout the state. Of Texas' 254 counties, 251 have disaster relief organizations.

Routes have been planned should it be necessary to evacuate citizens from any area. "Emphasis will be placed also," said the governor's April memorandum, "upon rapid enrollment of many more lay citizens in courses on first aid and home nursing.

The Texas disaster control center would be in the new million-dollar public safety building in Austin. But there are "alternate" sites —unpublicized.

Texas doctors have been offered courses in medical aspects of atomic warfare.

There would be four principal divisions of the state civilian defense organization. They are: military affairs (to be handled by Selective Service, Texas National Guard, Texas State Guard Reserve Corps; transportation and communication; civil protection (fire control, aircraft warning service, defense police mobilization, evacuation, emergency medical service, emergency sanitation and radiological service) and resource and production (mobilization of natural, industrial and human resources).

Those responsible for areas of industrial concentration already have acted.

Canadian High School Boy Faces Charge In Death of Classmate

WINDSOR, Ont., July 15. (AP)—A high school youth faces prosecution in connection with the death of 16-year-old Margaret Jean Smith, whose body was taken from the Detroit River Wednesday.

David Carswell, 18, a classmate of Margaret, was arraigned yesterday in magistrate's court on a charge of attempting an illegal operation. He was held for a hearing July 19. There was no plea.

Coroner C. V. Mills sid that Margaret's death was caused by an attempted abortion. Her body, weighted with pieces of steel, was found in the river by boys out fishing.

Police said Carswell made a statement but they declined to disclose its contents.

Lions Hit Chicago For Week-end Convention

CHICAGO, July 15. (AP) — The Lions hit Chicago this week end—30,000 strong. Members of Lions International open a five-day convention here tomorrow night, and everything from high jinks to solemn speeches on the nation's future is on the program.

59-Pound Tumor Is Removed

SAYRE, Pa., July 15. (AP)—A 60-year-old woman was reported "doing nicely today after an operation during which a 75-inch, 59-pound tumor was removed from her abdomen.

Surgeons at Robert Packer Hospital disclosed that the operation was performed yesterday. The surgeons declined to permit publication of their names or of the woman's name.

The 59-pound tumor is not a record, a hospital spokesman said, adding that there are records of a 66-pound tumor having been removed at Mayo Clinic, Rochester, Minn.

The spokesman described the tumor as an ovarian cyst and said it had been growing for about three years. He described the woman as normally weighing about 150 pounds.

She is expected to recover.

Junior Choir Program

Special song service by the Junior Choir of the First Methodist Church will be broadcast from the church at 11 o'clock this morning over KSNY. The singing program will be followed by the regular morning sermon of the Rev. W. W. Adcock, pastor.

Cardinals Beat Phils 8-6 On Nelson's Bases-Loaded Double

ST. LOUIS, July 15. (AP)—Pinch-hitter Glenn Nelson's timely eighth inning double with the sacks loaded produced two runs for the St. Louis Cardinals and an 8 to 6 victory over the Philadelphia Phils today.

Nelson's two-bagger was one of eight hit in the game off three Philly and four Redbirds hurlers. The victory brought the Cards up even with Philadelphia in the clubs' race for the National League top position.

Cards and Phils Tied For Top In National League

with the count tied 6-6 in the last of the eighth and Cardinals holding down third and second, relief hurler Jim Konstanty walked weak-hitting Del Rice, apparently to force Redbird Manager Eddie Dyer to Yank pitcher Fred Martin, or miss a chance to use a pinchhitter.

Dyer elected to send Nelson in. He doubled, put the Redbirds in front and Al Brazle came to the mound in the ninth and retired the Phils without trouble.

The Phils drew first blood against starter Max Lanier in the opening frame.

The first Redbird tally came in their half of the first.

Three runs in the third put the Birds ahead. That was all for Kenny Heintzelman.

Enos Slaughter added two more to the St. Louis scores with a home run in the fifth.

The Phils got to Lanier in the sixth for three runs.

They tied the score 6-6 in the seventh.

Indians Lose Game On Rizzuto's Tenth Inning Infield Hit

NEW YORK, July 15. (AP)—Phil Rizzuto beat out a bunder to short with two out in the tenth today and pinch-runner Al Marin scored from third to give New York a 4-3 victory over the Cleveland Indians. Just before his hit, Rizzuto lifted a foul fly that first baseman Luke Easter dropped.

Pitcher Eddie Lopat opened the winning rally with a single. Gene Woodling followed with a single which sent Lopat to third. Martin went in to run for Lopat and scored the winning run.

Bob Feller opened for Cleveland and surrendered two runs in the second inning.

The Indians tied the score in the fourth.

Cleveland moved ahead, 3-2, in the fifth on a walk, sacrifice and Al Rosen's two out single but the Yanks deadlocked the issue again in their half with Brown singling home Tommy Henrich from second.

Feller left for a pinch-hitter in the tenth. Early Wynn was tagged with the loss.

Pirates Edge Giants On Werle's Pitching

PITTSBURGH, July 15. (AP)—Lefty Bill Werle outpitched Larry Jansen today with a brilliant two hitter as Pittsburgh edged the New York Giants, 2-1.

Danny Murtaugh clubbed a homer in the second. Ralph Kiner drove in the winning run with a fly in the third.

Second Baseman Ed Stanky and Manager Leo Durocher of the Giants were tossed out in the first by Umpire Dusty Boggess. Stanky disputed a called strike and Durocher tried to continue the argument.

Philley Homers Twice As White Sox Win 7-3

BOSTON, July 15. (AP)—Dave Philley's two homers accounted for four runs today and sparked Chicago to a 7-3 victory over the Boston Red Sox. Randy Gumpert did a fine relief job for the victors, giving the Red Sox but one hit over six innings.

Brooklyn Uses Five Homers To Beat Cubs

CHICAGO, July 15. (AP)—Brooklyn blasted out five home runs today to trample the Chicago Cubs, 13-5. Roy Campanella and Carl Furillo socked two apiece and Duke Snider banged the other. Don Newcombe went all the way to post his first victory since June 17.

Ted May Not Be Able To Break Home Run Record

CAMBRIDGE, Mass., July 15. (AP)—Ted Williams wants to get back in the Red Sox lineup this season in time to knock in 17 more runs—but doctors say the odds are against his getting the opportunity.

Propped up in a hospital bed, with his left arm nearly covered by a plaster cast, the American League slugger said today he may have to undergo a second operation on the elbow he fractured in the all star game in Chicago.

In such an event, said Dr. Joseph Shortell, the entire radius bone would have to be removed.

The surgeon said it need not be a handicap and that he would be as good as ever after sufficient rest.

Meanwhile, Baseball Commissioner Albert B. Chandler telegraphed General Manager Joe Cronin that Ted could return to his left-field duties whenever he is ready. He will not be placed on the disabled clubs will have a hard time holding to the rule of staying on their donkey.

Tickets sell for 50 cents for adults and 25 cents for children, and can be bought from Jaycee and Lion members and from Dunlap's, Williams' Jewelry, and the West Texas State Bank.

Greek Song Colt Wins Arlington

CHICAGO, July 15. (AP)—Greek Song, a chestnut colt owned by Donald T. Ross, Wilmington, Del., charged from ninth place to win the $77,275 Arlington classic by a nose today in possibly the most thrilling finish in the history of the race.

Greek Song closed with a tremendous strength drive to conquor Bed O'Roses, only filly in the 10-horse field.

Your Host finished third, a length back of the leaders.

Fourth place went to Hawley. Oil Capitol, 6-5 favorite, lumbered in sixth.

The winner returned $10.80, $6.00 and $4.20. Bed O'Roses paid $7.80 to place and $5.60 to show. The show price on Your Host was $4.40.

Hawley, in fourth place, was eight lengths back of Your Host.

Then came Lotowhile, Oil Capitol. Lot O Luck Wisconsin Boy, Air Mail, and French Admiral.

Bleachers Being Moved to New Gridiron Site

Stands from the old high school stadium are being moved to the new stadium site this week to help supplement the new stands being built. The fence around the inside of the old football stadium is also being moved.

The old field will be used for a practice field and a locker room is going to be built on the west side of the field.

Grassing is almost completed at the new stadium, where seeds were planted more than a month ago. Grading and other preliminary construction has also been completed and the final phase is going to start in a few weeks.

Plans call for a 440-yard cinder track with a 220 straightaway, broad jump pit, pole vault, and high jump pits besides the gridiron.

The seating arrangement this year will hold about 4,000 people, but it will be enlarged next season to hold 10,000. The field must be ready for play on September 8, when the Tigers play their first game.

Grass Coming Up on Greens At Country Club

The Burmuda grass is beginning to come up on the greens and tees at the golf course at the Snyder Country Club, according to Donald Ray Scott, chairman of the Country Club golf committee.

Although the grass is starting to sprout, it will be some time before the grass will cover the tees and greens. The area which the course is laid in had to be cleared out with a bull-dozer by Dave Kober, professional greens keeper, and the greens and teps have just been built.

Constant watering is necessary to get the grass started, and the course is hampered by heavy rain and dry spells. The Burmuda grass which is being grown will be replaced with bent grass in the near future. Scott said that he hopes the course will be ready for play on September 1.

Kober, who has been in golfing for over 40 years, has served as a "pro" at Coral Gables, Fla., Chicago, California, and other courses over the United States. He will remain here until all of the layout work is completed.

The course will be a 9-hole layout with a putting green. Fairways are being laid out along level ground with the course of natural grass. The fairways will be over 3,000 yards in length with a par of 35. There will be one "dog leg" around the club house while the rest of the fairways run a straight course.

The course will be the only one in Snyder. The nearest course at present is at Colorado City.

Browns Win Over A's On Upton's Home Run

PHILADELPHIA, July 15. (AP)—Tom Upton's home run gave the St. Louis Browns a 3-2 victory over Philadelphia in 10 innings today. Philadelphia dropped into the American League cellar and the Browns took seventh place.

Teams Train For Donkey Baseball Game Tuesday

Reports from the training camps of the Junior Chamber of Commerce and the Lions state that although some of the older members are out of condition, the teams as a whole are in good spirits and each team is confident of winning the donkey baseball game. The five-inning contest will be held Tuesday night at 8:15 at Memorial Park.

All of the proceeds from the game will be given to the Snyder Youth Center to help with the new building.

Coach "Speedy" Moffett will be the captain for the Lions and Jack Riggs will captain the Junior Chamber. Bill Swinler from Cisco, Tex., is furnishing the donkeys and the equipment for the game. The players are required to ride the donkeys around the bases and to field while sitting on them. Needless to say, some of the members of the list. Chandler said inasmuch as the injury was suffered in the charity all-star game he would do the same time in the case of any club so affected.

Williams said he hurt his elbow when he struck his left wrist against the wall after catching Ralph Kiner's fly-ball in the first frame of the all-star tilt. Ted played on until the eighth and batted in a run.

Stitches will be removed from the elbow early next week and then Williams can go home. Subsequent therapy treatment may tell how long he will be out and whether further surgery is required.

Paris Franchise Goes Back To East Texas Loop

PARIS, July 15. (AP)—Owner Fred Kirby said today that he is turning the Paris franchise back to the East Texas League.

His decision came after a citizen's drive to raise $20,000 and form a new corporation to take over the club stalled at $13,500.

Kirby has agreed to turn the club over to the proposed new corporation if they would pay off $8,000 in debts against it. The drive stalled with $6,500 still needed.

After conferring with East Texas League President J. Walter Morris, Kirby said that the Paris club would go ahead and play its game in Marshall tonight. The league will operate the team for the next four days while plans are made for dropping Paris or placing the franchise elsewhere.

The Panthers will play Longview here Sunday and Monday then go to Longview Tuesday and Wednesday.

Mrs. Phillis Goff, 1902 Park Ave., Indianapolis, Indiana, is now able to go about her housework in less time than it takes to talk about it. That is, of course, since Mrs. Goff has been taking wonderful HADACOL. Mrs. Goff had been suffering from deficency of Vitamins B1, B2, Niacin, and Iron, which HADACOL contains.

Now full of pep and energy, Mrs. Goff is able to give this fine statement: "It's pretty bad when you are in a run-down condition when you are only 32. That includes headaches, loss of sleep . . . I was also terribly nervous all the time. Then I heard about the wonderful results other folks were getting from HADACOL. After taking a few bottles my nerves were calmed. I got a good night's sleep, and I gained five pounds. I think HADACOL is wonderful. I recommend it to all my friends."

This is another one of the statements the fine folks who have been taking HADACOL gave us. Yes, there are thousands and thousands of people all over the country who are getting blessed relief from wonderful HADACOL when they needed Vitamins B1, B2, Iron, and Niacin.

Let HADACOL Help You

. . . if you are suffering from stomach distress, nervousness, insomnia, constipation, aches and pains of neuritis, or a general run-down condition, caused by such deficiencies. Remember, it will cost you nothing if HADACOL doesn't help you. Buy either the trial size for $1.25 or the large family or hospital size for $3.50 and if you are not completely satisfied—return the bottle and your money will be refunded. (adv.)

Jr. State Meet Won by Ellis As Wear Blows Up

SAN ANTONIO, July 15. (AP)—Wesley Ellis, Jr., of San Antonio rode into the state junior golf championship today, 6 and 5, on the strength of the worst blow up in the 24 year history of the event, with Frank Wear, Jr., of Paris the victim.

From three-down, Ellis won nine straight holes during the afternoon round of the scheduled 36-hole match, to close out Wear on the 31st hole.

Four of the holes went to Ellis on birdies, but Wear's game fell apart at the same time and he presented Ellis with five holes on pars.

Dallas To Be Site Of Amateur Golf Meet

DALLAS, July 15. (AP)—A. L. Exline, member of the sectional affairs committee of the United States Golf Association, said today entries for the National Amateur Tournament must be in by 5 p.m. July 24.

Sectional qualifying is scheduled at Brook Hollow Country Club here Aug. 8 with practice Aug. 7.

Cincinnati Continues Terrific Playing With Win Over Boston 9-4

CINCINNATI, July 15. (AP)—Ted Kluszewski and his Cincinnati teammates continued their terrific pace today as the Reds walloped the Boston Braves, 9 to 4. Kluszewski got three hits to give him 10 in the series.

Extradition Will Be Necessary To Bring Ochoa Back

MEXICO CITY, July 15. (AP)—A long legal fight to extradite George W. Ochoa, charged with murdering two men at Laredo, was projected Saturday when the customs broker of the border city said he (Ochoa) would not return voluntarily to the United States.

Contest of Hospital Bond Election To Civil Court Tomorrow

The county hospital bond election of April 1 will be contested in civil district court here tomorrow on a petition filed May 9 in behalf of 13 plaintiffs seeking an injunction against the issuance of any bonds based upon the election.

The election is being contested on five grounds that it was illegally held, one of which being that the voters of the Cottonwood Flat community precince were got permitted to vote in the election because materials for the election were not delivered to them. There are 9 qualified voters listed in the Cottonwood Flat precinct.

The plaintiffs will be presented by Lloyd Davis, Snyder lawyer. The defense will be represented by Ben Thorpe, county attorney, who has filed an answer to the contest upon request of the commissioners court who voted unanimously to employ the firm of Sentell, Beene & Rosser, of Snyder, to assist in the defense, also employing Frank A. Day, Plainview attorney, to work on the defense.

Slander Suit Will Be Heard Monday

LUFKIN, July 15. (AP)—Lufkin of the Gulf Coast League will move to Leesville, La., because of heavy losses in operating here, Manager Carl Carter said today.

The club is going to Leesville tonight and will finish the season there.

Dale Peterson, owner of the franchise, lost $13,000 in Lufkin, Carter said. It was lowest in league attendance.

Lufkin is fourth in standings.

As a result of the famous brass key kite incident in 1752, Benjamin Franklin is credited with being the founder of the study of static or atmospheric electricity.

FOR SALE

To the discriminating person who wants a larger home and doesn't want the nervous strain and worry of building during these times of too high costs on inferior materials and workmanship, I have a lovely 2 story brick house, with 4 bedrooms and bath upstairs, living room, dining room kitchen, breakfast room, et cetera down stairs. Has a double garage with quarters over the garage for servants. This home is situated on ½ block of ground, has 300 feet of frontage. Due to the fact that owners have not lived in house but very little during past several years and during that period it was rented out the house is in need of repairs. Home is within a block of high school and junior high school.

For the investor, this house can be easily converted into four apartments and has ample grounds on either side to build additional large rental units.

This property will be sold at a bargain price because the owning family lives elsewhere and are desirous of getting it "off the books". Will show this home by appointment only. No curiosity seekers or agents please.

MacARTHUR RECEIVES UNITED NATIONS FLAG — Gen. Douglas MacArthur, commander-in-chief of the Far East Command, right front, receives the United Nations flag at Tokyo Friday from Gen. J. Lawton Collins, left front, U. S. Army Chief-of-staff. The UN flag flies between the U. S. stars and stripes and Gen. MacArthur's five-star general's flag. (AP wirephoto via army radio from Tokyo).

Selling Cotton Farmers On Mechanization Is Group Aim

GREENVILLE, Miss., July 15. (AP)—Full cotton mechanization is a worthwhile aim, but its advocates will have to sell the idea to cotton farmers.

Delegates to the Cotton Mechanization Conference, sponsored the the National Cotton Council, were told that Saturday. Appearing on the closing panel of the three-day meeting, A. P. Fatherree of Jackson, Miss., state supervisor of agricultural education, said:

"It's one thing to develop the machines essential to mechanize cotton farming and quite another to educate the farmer of today to the proper and economic use of these machines."

Veterans programs and vocational-agriculture schools are only a few of the mediums that could be employed to sell the mechanization idea to future generations of farmers, Fatherree said.

A suggestion that elimination of high-cost production areas could take up the slack of reduced acreage by increased crops in the low cost section was advanced by the assistant chief of Bureau of Agricultural Economies in Washington.

Dr. Sherman Johnson told Saturday's session that cotton production must be centered in areas best adapted to the crop. Land unsuited to cotton must be urned to livestock and other uses, he said.

The South's industrial expansion will help care for workers temporarily dislocated by the cotton concentration, Dr. Johnson added. He predicted that a successful transition would result in higher income and income oportunities for farm laborers.

Alexander Says Six Divisions Needed in Korea

CALGARY, Alta., July 15. (AP) — Viscount Alexander, governor-general of Canada, declared today the United Nations will need at least six divisions in the field before they can hope for victory in Korea.

Alexander, who commanded allied armies in Italy during World War II, predicted the Korean conflict will last several months and could be prolonged if Communist international brigades are used to help the northern invaders.

Alexander spoke at a luncheon meeting of the United Services Institute.

"I am of the opinion," he declared, "that the United Nations, or the Americans who are fighting under the United Nations' flag, will require at least six divisions with supporting arms before they can hope for victory."

"When I say victory, I do not mean the establishment of a stable front in Korea," he added. "Victory means pushing the north Koreans back to the 38th parallel."

For the future, he said, a great deal depends on what Russia does.

"There is no sign of it at the moment," he said, "but you may find the north Koreans reinforced by Communist volunteers from China and Russia, and that will be a rather serious matter."

Wholesale Prices Going Up Due To Korean Situation

WASHINGTON, July 15. (AP)—Using the Korean war as a springboard, prices are rising on many things people eat, wear or use.

This was demonstrated Friday by a weekly report from the Bureau of Labor which showed virtually all wholesale prices headed upward. Retail prices generally trail wholesale prices by only a few days.

The report followed by one day President Truman's news conference statement that there is no shortage of food in sight, no excuse for hoarding and no prospect of rationing.

The question of possible home-front mobilization was discussed by Mr. Truman and his cabinet yesterday. The President indicated at his news conference this week that he had no immediate intention of asking for emergency authority to establish price and wage controls.

The Bureau of Labor Statistics said wholesale prices climbed on the average 1.8 per cent in the seven days ending Tuesday. The index stood at 161.8, which means 61.8 per cent higher than the 1926 average. A year ago it was 154. The peak was 170.3 in August, 1948.

Corn, hogs, cotton and cocoa beans were pace setters in the

Three Children Burn To Death in Home

HUGO, Okla., July 15. (AP)—A kerosene range exploded here Saturday and three children—including twins—burned to death as neighbors restrained their screaming mother from rushing into the flaming frame home.

The victims, children of Mr. and Mrs. Paul Poindexter, are:

William Earl and James Harold Poindexter, 13-month-old twins, and their four-year-old brother, Thomas Anthony.

The explosion's cause has not been determined.

Mrs. Poindexter and another son, six-year-old John Raymond, had just walked to a neighbor's to borrow some aspirin for her illness when the kitchen stove exploded.

Little is known of the migration habits of the ocean perch, or rosefish.

Slight Injuries In Car-Truck Collision

No serious injury resulted late Thursday when a car driven by Darrel C. Box, 1411 Twentieth Street, and a pickup truck driven by Eugene Hutchinson, 49-year-old Snyder painter, collided near the East Highway bridge and the Y of U. S. Highways 84 and 180, southeast of town.

With Box were his mother, Mrs. C. B. Box; her granddaughter, Cynthia Green, 4; her mother-in-law, Mrs. Vonnie Box; and another son Jerry Donald Box, 12. All passengers of the Box car were taken to the Snyder Hospital but dismissed after examination for injuries.

The accident occurred as the Hutchinson truck entered the highway from a parking area near the Stone Lumber Co. office about 239 feet southeast of the bridge, according to E. W. Green, highway patrolman.

Hutchinson was charged in county court Friday with driving a commercial vehicle without a commercial operator's license, failure to yeild right of way, and failure to give signal before turning into the highway. He pleaded not guilty to each charge, and bond was set in each case at $100. The charges were filed by Green and Bill Zimmerman, highway partolmen who investigated the accident.

Former Chamber Presidents Laud Bandeen Achievement

Three former presidents of the West Texas Chamber of Commerce Saturday highly lauded the work of D. A. Bandeen, who Friday resigned as manager of the regional body after more than 20 years service.

Bandeen resigned because of his health, the executive board announced. In recent years he has had a serious leg ailment that required extensive medical care.

The board offered him an advisory and research post with WTCC at a minimum salary of $300 a month. Bandeen accepted through September.

WORK A MONUMENT

Houston Harte, San Angelo Standard-Times publisher and WTCC president in 1931, teamed Bandeen's work "monument enough for any man." Harte's statement follows:

"With W. B. Hamilton of Wichita Falls, and two others, I served on a committee which selected D. A. Bandeen and recommended him to the directors of the West Texas Chamber of Commerce as its new manager. I have not regretted that choice.

"Bandeen was at that time manager of the El Paso Chamber of Commerce. His work as the active manager of the West Texas Chamber of Commerce during the last 25 years is monument enough for any man.

"I am grateful that the organization he found in debt and put upon and kept in a sound financial condition had seen fit to offer him an advisory position at an adequate remuneration. He deserves anything that is done for him."

SAID OUTSTANDING

Describing Bandeen as "one of the outstanding thinkers in West Texas," John D. Mitchell, chairman of the board of the First National Bank at Odessa, and immediate past-president of WTCC, said:

"State of health of both Mr. Bandeen and his wife made his resignation mandatory. The board, of course, accepted his resignation regretfully, but felt that in justice to Mr. Bandeen and his family there was nothing to do but accept.

"While he will be a great loss to us, we feel that in retaining him in an advisory and research capacity, we still can have use of one of the best brains in West Texas.

"I personally feel that he is one of the outstanding thinkers in West Texas and will be hard to replace. I have nothing but the greatest of admiration for D. A. Bandeen."

ULMER'S STATEMENT

Bandeen's work has been "a real contribution to West Texas," said M. C. Ulmer, president of the First National Bank at Midland, WTCC president during 1944,46. He added:

"D. A. Bandeen has done outstanding work for this area. He was very active, highly efficient, and one of the best all-around men I have ever known; a man of sound thinking and sound judgement.

"He believes in business-like economy. I recall that when he assumed the managership of WTCC, the organization was heavily in debt. Its financial status now is a tribute to his management throughout the years.

"Personally, I am grateful for his years of service. D. A. Bandeen has made a real contribution to West Texas."

Killer of Two Caught After Long Gun Battle

CHICAGO, July 15. (AP)—A young Negro, wounded and armed with a .38 caliber revolver, was captured by police yesterday and admitted slaying two veteran city detectives in a gun fight.

Police trapped the youth, Bernie Davis, 21, in a closet of a third floor flat four hours after the gun battle with the detectives in his west side flat.

"Don't shoot. I'm the man you're looking for. I shot the two policemen," officers quoted Davis as saying as he climbed from a closet shelf, his arms raised over his head.

Three detectives seized Davis. They took him from the flat, some three miles from the scene of the shooting, to the state's attorney's office. Officials said Davis in a signed statement admitted shooting the detectives.

Later Davis, who was shot in the right knee in the gun fight, reenacted the shooting in his flat at 2343 Maypole Avenue.

State's attorney John A. Boyle said two charges of murder will be filed against Davis today. He was held overnight in the Bridewell city jail hospital.

The two detectives, Edward T. Crowley, 43, and Donald E. McCormick, 39, members of the robbery detail, each were shot three times. They died shortly after they were brought to the Cook County hospital.

Consumer Buying In Sharp Upward Trend

NEW YORK, July 15. (AP) — Clearance sales and the tense international situation brought a flurry of consumer buying in home appliances during the past week, Dun and Bradstreet reported.

The Dun and Bradstreet trade review of the week through Wednesday said there was particularly heavy demand for refrigerators, washing machines and ranges. Sales continued strong in television sets and in some electrical appliances.

Total retail volume for the week was estimated at one to five per cent above a year ago. Regional estimates varied from last year's levels by these percentages: Southwest, from same at last year to four per cent higher.

Reds Quote Yank Prisoners "Who Didn't Want War"

LONDON, July 15. (AP)—The Communist Pyongyang radio quoted 117 American war prisoners in Korea Saturday in a new attempt to prove that President Truman "muddled" and America breached the peace in the Korea war.

As the Communists reported their stories, the American soldiers never wanted to fight for Southern Koreans—they did so only because "President Truman dreams of world domination."

Only three of the servicemen purportedly putting out this line were named. Those named were given sketchy identifications.

One was described as Donald Sirman, of Philadelphia, a pilot. Another was called Aitin Peterson, described as a 19-year-old farmer's son from Michigan. The third was identified only as a grey-haired captain named Ambrose Newzetta.

Prowlers Blamed For Gas Tank Explosion

TERRE HAUTE, Ind., July 15. (AP)—A gasoline storage tank blew up today, rocking a large area of this city and causing damage estimated at hundreds of thousands of dollars. A truck driver was hurt slightly.

Police blamed prowlers for setting off the blast which was followed by a fire that destroyed a bulk storage plant at the Mid-Continent Petroleum Company.

Carl Lee, 29, of Terre Haute, a tank truck driver, was knocked down.

A watchman at a nearby steel plant called police early today, reporting that two men were atop a tank, hammering on it. Officers investigated, but found no one.

Lee reported for work soon after that and said he saw no one. But shortly afterward the explosion went off.

Scores of buildings in the south central section of the city were damaged.

Rubber Strike Ends In Akron, Ohio, Plant

AKRON, O. July 15. (AP) — A two day strike at Seiberling Rubber Co. ended Friday.

A spokesman for Local No. 18 of C.I.O.-United Rubber Workers of America said settlement of a wildcat walkout was reached after the union and company found a basis for agreement. The dispute started over pay rates in the mill

Divorce Granted; Criminal Case Is Continued

The civil district court Friday granted a divorce in the case of Travis W. Burleson vs. Ruby Inez Burleson and ordered all property owned jointly to be sold and the proceeds divided equally.

The Burlesons, married since 1940, owned several pieces of property, including 137 acres in Scurry County with three-fourths royalty, an additional quarter of a section of land, a home, some farming machinery and vehicles, and another farm with a home on it. They had no children.

A criminal trial set for early Friday was postponed until next Thursday after a motion for continuance was filed by Wayland Holt, of Snyder, attorney for the defendant, Reamon Boyd Harrison, 36, of Oklahoma City, charged with assualt with intent to murder.

The motion was filed on grounds that some of the witnesses had not been subpoenaed because they had not been located. Harrison is charged by grand jury indictment with attempting to murder B. B. Kelley, employee at Harold Denson's service station, here on the night of June 13.

A. S. Mauzey, of Sweetwater, district judge, dismissed last week's jury panel Friday morning because no other jury trials were set on the week's docket. The court so far in this session has made 14 felony convictions, according to Eldon Mahon, district attorney. This includes pleas of guilty, he said.

Armed Guard May Be Increased on Laid-Up Merchant Fleet

WASHINGTON, July 15. (AP)—The government has received a tentative go-ahead from a powerful House committee to strengthen the armed guard on the laid-up merchant fleet and get more of the ships ready for use.

Chairman Thomas (D-Tex) of an appropriations subcommittee in charge of maritime administration funds said he has told the agency to prepare quickly estimates of how much more money it needs.

"I have suggested to them," he told reporters, "that they double or treble the guard now maintained on the laid-up fleet harbors and ask for Marines to help on guard duty.

"They also should determine how much more money is needed to put the fleet in better shape so it can be used quickly if needed."

Gulf State Company Purchases Woodville Electrical System

BEAUMONT, July 15. (AP) — The Gulf State Utilities Co. has announced the purchase of the electric system at Woodville owned by the Community Public Service Co. of Fort Worth.

Included in the deal is the electric distribution system of Gulf States in Alvin, Brazoria, which is being sold to community public service.

The purchase must be approved by the federal power commission.

North Koreans Deny Atrocities

LONDON, July 15. (AP)—North Korea denied Saturday that its soldiers are committing atrocities against captured Americans. It said prisoners are treated "with rules of international law."

It said in a statement distributed by the New China News Agency from Pyongyang, Northern Korean capital:

"According to an American broadcast of July 12, MacArthur's headquarters made a statement in which he blatantly asserted that the People's Army of our republic has murdered American prisoners. This is without the slightest foundation of fact. The general headquarters of the People's Army of the Korean People's Democratic Republic hereby makes this refutation. American imperialists fabricated such groundless news with the purpose of threatening the U.S. servicemen who they have forced to intervene in Korea's internal affairs. Prisoners are treated with the rules of international law."

Brownwood Man Dies

FORT WORTH, July 15. (AP) — W. A. Bell, 74, well known Brownwood business man, died early today of coronary occlusion at the home of a son, Joe Bell. Bell had stopped in Fort Worth en route to Brownwood where he was returning his wife, who underwent major surgery at a Dallas hospital July 6.

Ocean perch are caught only in the daytime, while they lie on the bottom.

THE SNYDER DAILY NEWS

VOL. I—No. 57 SNYDER, TEXAS, SUNDAY, JULY 16, 1950 SECTION TWO

Mary and Riley Miller pose with their favorite mounts bef ore the huge bell on the ranch that tolls the men to meals. (J. Lawrence Devers photographs).

Expansive Hospitality At Clyde Miller Ranch Home

The Clyde Miller ranch rests lushly between grass-grown canyons west of Fluvanna, over 10 miles of creek-riddled ranch roads and hillside curves.

Mr. and Mrs. Miller are the embodiment of that lauded western hospitality you read about. You park behind the ranch station wagons and cars and are taken into the massive Austin-stone house.

Mrs. Miller's flair for decoration would put a New York pent house decor artist to shame. With a steady hand she has brought life—western, comfortable, and luxurious—into the wind-swept rooms of the hillside home she dreamed of for years.

It stands upon the very spot where the old frame ranch house was throughout the years of acquiring and building Miller Ranch as it is today.

BEAUTY IN VIEW

The vast living room is livable. You stand at the broad picture window that looks out on mesquite-grown expanses of pasture, the lowing of Grade A beef, and the cavorting of spotted cow ponies. Twilight there is the most enchanted time, when the bull frogs set up a majestic symphony and the huge Chinese lamp softly touches the corners of the big front room.

You pass into the den, over Navajo rugs, strewn with abondon and, yet, design. That den snares the real spirit of the Miller Ranch life, from the solid desk and usual red leather chair, to the business-like gleam of a steel vault. Daughter Elizabeth's widely-won horsemanship trophies cover one wall and there is Mr. Miller's collection of Indian corn grinders and remains he picked up on long rides around the ranch.

As any woman, Mrs. Miller is partial to her bedrooms, and treats you with a long, spicy sniff into her famous cedarlined closets. Her own beautiful master bedroom has artfully matched blues, the draperies, the vases, and bric a brac. Showplace of the house, some think, is absent artist son Dick's room. It is furnished in dark Viking oak, leather pieces in more somber shades of red. Traveled and cultured touches are all over-his Japanese swords, Chinese figurines, relics of other worlds, faraway places. Last masterful touch to this great room is the lobby-sized bathroom.

PITCHER COLLECTION

When we finally reach the gleaming porcelain kitchen, peep into the loaded pantry, it's time to sit over a cooling drink and inspect Mrs. Miller's collection of pitchers, big, little, wee, exotic, ordinary, gift and memory-laden ones.

From the window she points out the bell, which summons the men to meals, but has never been rung in trouble. Alone for long periods of time when the men-folk ride the range and work the cattle, her husband brought it from South Dakota for her to ring if she needed aid. "The one time I got scared and banged it, the man who went around the house turned out to be one of my favorite neighbor boys."

Their great red barn is the last word in great red barns. Atop it cockily sits the children's rockie-horse. Her daughter Elizabeth now Dick captivating Broadway audiences; and her two strapping rancher sons riding the home range, she feels the rockie horse has rightfully retired.

A large handblown Blenko vase with its bottle green color, traps the light rays, exudes a warm and lovely glow. For Mother's Day, it arrived from Dick, affectionately read. "To a beautiful house and a beautiful lady."

Dick is a fond subject with his mother, quite understandably, as his rise in the theatre is astronomical. He fairly walked into a Broadway agent's office and copped a part on the starry circuit. Now he runs his own summer stock theatre, can set up the stage with artistry, dab on professional make-up and then step into a major role. Traveling the straw hat circuit with Charlie Ruggles several times endeared him to large audiences everywhere.

Having more rugged and western affinities are the other Miller children. Newest addition to the family is Riley's bride, the former Miss Mary Harris, who rode into western rodeos and spellbound the bleachers, sponsoring Odessa. She and Riley sharing this fondness for horse leather, ride to their heart's content over the verdant black acres of the ranch.

These two married May 1 with traditional trappings, a receiving line in Odessa, then left for, of all things, a rodeo honeymoon, the rodeo life being closest their hearts. And in Franklin, Tenn., before 5,000 fans, Mrs. Miller won the cutting horse contest. Ralph, the calf roping prize, and Riley won the bronc riding contest!

Mrs. Miller is a native of Scurry County. She was born Bessie Riley in a house which still stands, 16 miles north of Snyder. Mrs. Miller has lived here all of her life, as have most of her large family. Her six sisters are Mrs. Margie McClinton, Snyder; Mrs. O. D. McGlaun, Snyder; Mrs. Minnie Whatley, Fluvanna; Mrs. Emma Myers, Hobbs; and Mrs. Ada Williamson, Clovis, N. M.; and two brothers are A. J. Riley and Ira Riley, both living in this area.

Mrs. Miller recalls that her mother was a tiny little person, four feet, 10 inches, who managed her family of 9 without a ripple of trouble. From her mother, Mrs. Miller has learned the patience and beauty of a good life in the open. Mrs. Miller was apparently an apt student of her managing mother, as she now presides perfectly over her own ranch domain.

FIVE SONS

Mr. Miller is one of five sons, all living in this area, all members of the ranching Miller family. R. N. (Uncle Rich) Miller was a pioneer Fluvanna ranchman, going on to establish ranching empires in South Dakota and Colorado. He taught his sons thorough lessons in the ranching game, a game sometimes rough, sometimes grueling, but never dull or stereotyped.

Mr. Miller's brothers are Charlie Miller, who ranches near Fluvanna; Bill Miller who followed family holdings to South Dakota; Frank Miller, at home on the Borden County ranch; and Ed Miller, a cattle man south of town. The father, Rich Miller, died two years ago. He was widely written up when at the age of 81, he bought a large ranch in South Dakota, just to keep in condition.

Healthy, clean cut, enterprising, friendly, the Miller brothers all somehow depict Texas ranchers at their best. That fair fortune and full lives have rewarded them seems as it should be.

Mrs. Miller led me back to the concrete-floored back porch, the favorite flopping place of the men as they return dirt-stained and dusty. Boots hit the floor and the big leather chair receives attention. Across the grassy slopes you can now see the men returning. There's only time for a peep at Dick, the theatrical son's scrapbook, meticulously kept by his mother.

It seems Dick draws brilliant cartoons and likenesses throughout his communications with Mrs. Miller. He has a masterful touch, can catch a funny mood with facility. Hard at it with his summer theatre, The Hayloft, in Linclon, Neb., Dick can't possibly come in home before October. His theatre, which he owns and manages with an artist-actor friend, Dave Andrews, is time-consuming, as it plays nightly to large crowds, and hires well known actors from New York and Boston.

PERSONALS

Mrs. J. L. Weathers, 1011 Twenty-seventh Street, was in Lubbock last week visiting her neice, Mrs. Earl Cary.

Mr. and Mrs. Harley Smith of the Murphy community spent Thursday and Friday with their mother, Mrs. Lula Alexander, 3101 Avenue K.

Mr. and Mrs. Bill Line, Sig Line, and Miss Marie Scott of Brownwood have just returned from a 14-day trip through California, Nevada, and Colorado. Bill Line is employed by Standard Oil's distributing offices here. Sig Line operates a Chevron service station on the East Highway. Miss Scott, who works for the telephone company in Brownwood, has been here visiting for some time.

Jack Mason, employed by the telephone company, suffered minor injuries Thursday when he fell while working on some wires. He was treated at Snyder Hospital, and is now back on the job.

New Member Joins Hermleigh H-D Club

Miss Minnie Lee Williams gave a demonstration of frozen lemon tart dessert when the Hermleigh Home Demonstration Club met Tuesday in the home of Mrs. T. E. Shellburne. Presiding was Mrs. W. T. DeHay. The roll call was answered by naming a favorite dessert.

Mrs. A. B. Casstevens was in charge of recreation. Mrs. Faxton Williams, Mrs. Ivy Sturdivant and Miss Williams won prizes.

Mrs. L. H. Terrell joined the club. Refreshments were served to Mrs. DeHay, Mrs. Casstevens, Miss Williams, Mrs. Sturdivant, Mrs. Ben Henderson, Mrs. Frank Nachlinger, Mrs. C. L. Banks, Mrs. Terrell and Miss Sandra Gayle Sturdivant.

The club will meet July 25 with Mrs. C. L. Banks, 1001 Twenty-sixth Street.

Union H-D Club Has Picnic in Bethel

Members of the Union Home Demonstration Club brought covered dishes to the picnic held in the yard of Mrs. H. J. Schulze, Bethel community, Thursday night. Mrs. Jim Moss and Mrs. C. L. King assisted.

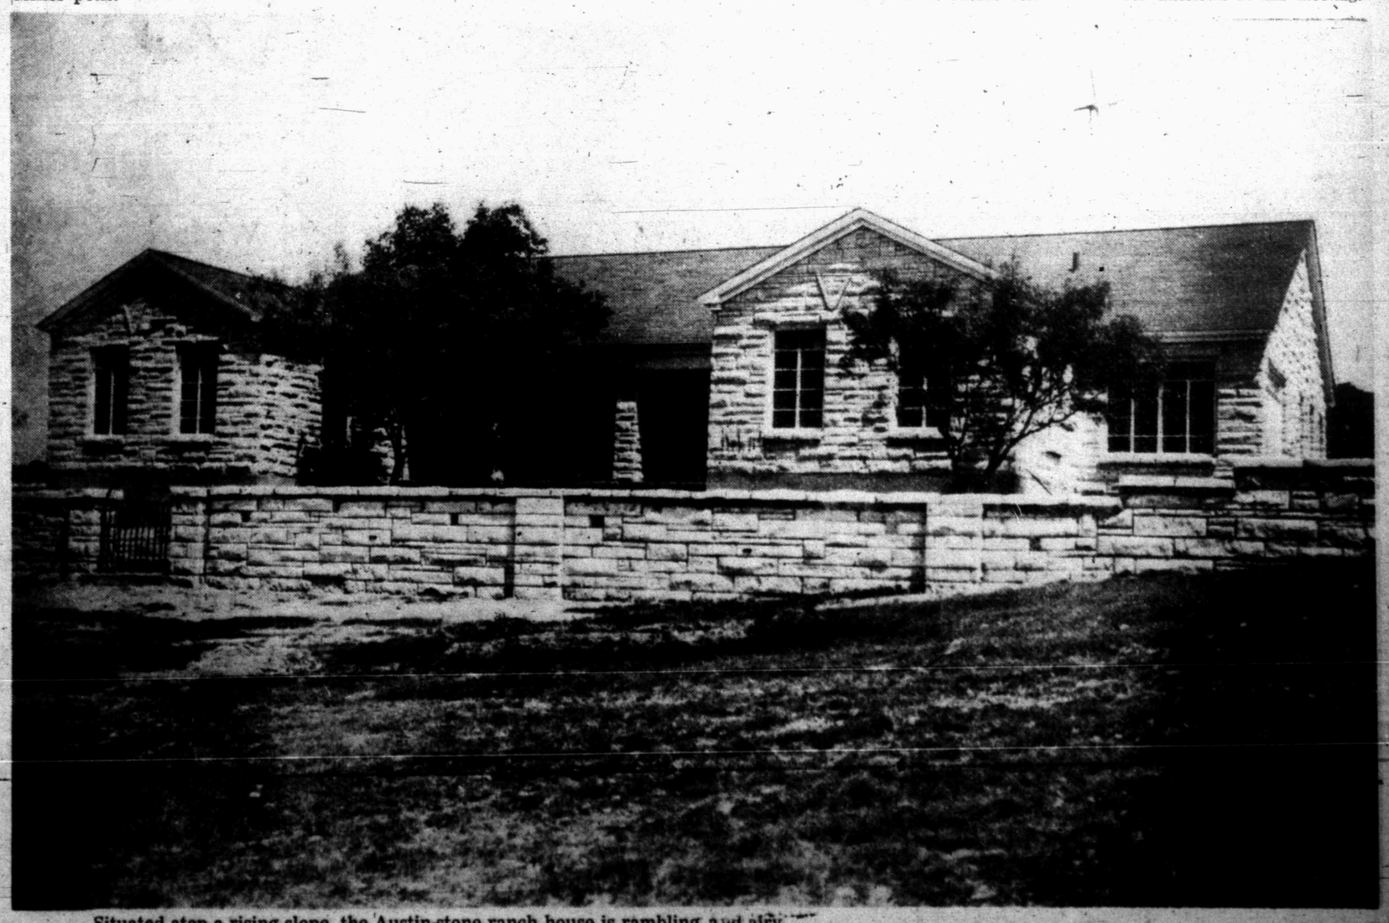
The group will meet next Wednesday with Mrs. Bill Pate of Bethel.

They will reveal their secret pals and each bring a gift of lingerie for Girlstown at this meeting.

Mrs. Clyde Miller passes on a few secrets about salad mixing to her daughter-in-law, Mrs. Riley Miller. The well-stocked kitchen is one of the showpieces of the ranch.

Ralph Miller, who joins Riley in riding in rodeos far and near, shows his prowess in the Miller pens.

No, you aren't mistaken. They're buffalo on the Clyde Miller ranch.



Situated atop a rising slope, the Austin-stone ranch house is rambling and airy.

Miss Opal McCormack Bride In Dunn Church Ceremony

Mr. and Mrs. R. L. Blakely shown immediately following their wedding recently. —(Jeff Brown photograph).

R. L. Blakely, Bridegroom, Is Son of Mr. and Mrs. Harvey Blakely

Greenery and cut flowers formed the background for lighted candles at the marriage rites of Mr. and Mrs. R. L. Blakely Friday night at the Dunn Baptist Church.

Mrs. Blakely is the former Miss Opal McCormack, the daughter of O. S. McCormack, route No. 3, Snyder. The bridegroom is the son of Mr. and Mrs. Harvey Blakely, route No. 1, Snyder.

Miss Patsy von Roeder, accompanied by Mrs. C. J. Smith, sang "I Love You Truly" for the wedding. Rev. C. J. Smith, Dunn Baptist pastor, officiated at the ceremony.

Mrs. Blakely's maid of honor was Miss Toady Yarbrough of Roscoe; Mrs. Smith was the matron of honor. Sgt. Wayne Blakely, of Roswell, N. M., brother of Mr. Blakely, was his best man.

Given in marriage by her father, Mrs. Blakely wore a white embroidered organdy dress, a small hat and white accessories. She carried a white Bible with red rose buds.

At the reception, Mrs. James Earl Lewis and Mrs. Maurine Richardson presided at the cake; Mrs. Burton Echols at the ice cream service and Mrs. Smith at the punch bowl.

After a honeymoon trip to San Antonio and points south, the couple will live in Snyder.

PERSONALS

Miss Lynn L. Logan, daughter of Mr. and Mrs. Archie Logan, Arah, left recently to visit with Mrs. Logan's brother, Dennis Adams, in Los Angeles. She will remain there until the middle of August.

Mrs. Clyde Hall, Jr., is a guest here in the home of Mr. and Mrs. Wayne Boren, 3112 Avenue X. Mr. Hall is associated with Mr. Boren in the insurance agency. Mrs. Hall will move to Snyder permanently when they can find housing.

Chuck Egner, 1010 Twenty-eighth Street, is making a trip to Shreveport on business for his company, Lion Oil Co.

Mrs. Jim Sullenger, 1008 Twenty-eighth Street, is ill.

Mrs. Marvin Scott and her two sons from Eden, Tex., have just left Snyder after visiting several days with Mr. and Mrs. Roy Weeks, 2205 Avenue M. Mrs. Scott is a daughter of Mr. and Mrs. Weeks.

Mrs. Carroll Hodges and two children from Rotan are week-end guests with Mrs. Hodges' parents, Mr. and Mrs. Roy Weeks.

Mrs. O. D. McGlaun and Mrs. Margie McClinton went to Abilene Friday to attend a bridal shower given in honor of Miss June Hale, Abilene, who will marry Jack McGlaun from here in the near future.

Mr. and Mrs. Bill Grimmett, 1301 Avenue R, are now in Ruidosa, N. M., vacationing. Mr. Grimmitt is part owner of the Grimmett Sand & Gravel Co., 1807 Fourteenth Street.

Mr. and Mrs. Bernard L. Holly, 3008 Avenue S, have as a visitor Mr. Holly's sister, Miss Daisy Nell Holly from Post.

Mrs. Dave Houston and children, 1611 Twenty-eighth Street, are spending today in Lubbock, visiting with old friends, Mr. and Mrs. Ralph Cline.

Mr. and Mrs. R. B. Sears, 3301 Avenue U, arrived home today after a week's vacation. They picked up their neice, Miss Shirley Mae Melton, at Camp Kickapoo, Kerrville, Tex., and then traveled on to Houston and other southern cities.

Mr. and Mrs. Myron Hubbard, 2900 Avenue V, are spending the day today in Sweetwater with Mrs. Hubbard's mother, Mrs. Tom Crow.

Mr. and Mrs. Norwood Vickers, 3108 Avenue B, had a baby son, born Thursday at the Snyder Hospital.

Mr. Travis Abels went to Abilene Monday.

Miss Frances M. Autry of Ira is one of the twenty students who were rated in the upper 5 per cent of the Dean's list at Sul Ross State College, Alpine, Tex. The total enrollment of the college is 1,000. Miss Autry is a senior student there.

Mr. and Mrs. V. Whitlock of Beaumont were in Snyder yesterday on their way to Los Angeles for a vacation. Mrs. Whitlock is the former Velma Beal of Snyder.

Bob Enfield, 2306 Thirty-second Street, returned to Snyder last week, after several days absence on business in Clarendon.

Mrs. R. H. Curnutte, 2306 Thirty-second Street, is in California for an indefinite length of time, vacationing and visiting with relatives.

Mr. and Mrs. Jack Yeaman of Austin were expected in Snyder this week end.

Miss Ouilda Houst and Mrs. Homer Moore are driving to Wichita Falls this week end to visit friends.

Mr. and Mrs. C. E. Odstreil, of Hermleigh, are the parents of a baby boy, born yesterday at the Snyder Hospital.

Mr. and Mrs. William J. Caley, 2901 Avenue S, had as guests the past week Mr. and Mrs. Manford Watson of Pekin, Ill. Mr. and Mrs. Caley are former residents of Pekin. Mr. Caley is a printer at the Snyder Daily News.

Dick Leurig will leave Snyder tomorrow for Pekin, Ill., his former home. Dick is the son of Louis Leurig, former publisher of the Daily News.

Mrs. Gail Grissom of Abilene will arrive in Snyder this week end to visit with her grandparents, Mr. and Mrs. H. P. Brown, Sr., 2812 Avenue U, and also with her uncle and family, Mr. and Mrs. Harold Brown, 2408 Avenue I.

Harold Brown and Bob Bickerstaff returned this week end from Dallas, where they have been on a business trip for several days.

Mrs. Jack Taylor of Austin is in town, visiting with her parents, Mr. and Mrs. C. C. Miller, 2807 Avenue T, and with her husband's parents, Mr. and Mrs. Elmer Taylor, 3104 Avenue T.

Mr. and Mrs. Minton Alvis, 2001 Avenue R, have had as visitors the past week Mrs. Minton's mother, Mrs. Freida Sandell and her neice, Miss Patsy Colfee, and Mr. Minton's mother, Mrs. D. A. Minton, all from Harlingen, Tex.

Mrs. Stella Winston and Mrs. J. P. Morgan made a shopping trip to Abilene Monday.

Mr. and Mrs. Carl W. Taylor, 3010 Avenue K, have a new baby boy, born July 9 in the Roby hospital.

Mr. and Mrs. J. B. Duncan, 1904 Avenue N, have just returned home after visiting relatives in South Texas, they picked up their twin daughters, Judy Duncan and Jane Duncan, and another daughter, Emily Duncan, en route.

Mr. and Mrs. Willie Keel, 1310 Twenty-ninth Street, are parents of a baby girl born July 7 in the Sweetwater Hospital. The child, named Elizabeth Ann, weighed 6 pounds 5½ ounces. Mrs. Keel's sister, Mrs. T. J. Womack of Abilene, is here caring for her. With her is also Mr. Womack. They were to return to Abilene this week end.

Mrs. Horace Edelman was dismissed from the Roscoe Hospital Tuesday. She had been a patient there for six days.

Mrs. Gwynn Olinger Hickox, cosmetician at Harris Pharmacy, has just returned from a trip to Dallas, where she shopped for additional stock for her cosmetics bar.

Mrs. Carl Keller, and Don Keller and Linda Kay Keller, 2311 Avenue I, visited in Ardmore, Okla. the past week. Accompanying them were Mrs. Keller's parents, Mr. and Mrs. J. H. Huey, 2101 Avenue M. The group attended a Huey family reunion, spending some time on Murray Lake near Ardmore.

Miss Marsha Youngblood, daughter of Mr. and Mrs. C. W. Youngblood, has been visiting with Mr. and Mrs. W. G. Herring and daughter, Sally Jane, San Angelo. Mr. and Mrs. Youngblood will make the trip to San Angelo this week end to get her.

Mr. and Mrs. Charles H. Cooper, 3007 Avenue S, are away until the end of July, touring Mexico and the western states. They were photographed above just before they departed for Mexico.—(Joe Dave Scott photograph).

Miss Wanda Mills To Wed Dimmitt Man

The engagement and approaching marriage of Miss Wanda Mills, daughter of Mr. and Mrs. John A. Mills, 903 Twenty-fifth Street to Andy Behrends of Dimmitt, Tex., has been announced. The ceremony will take place August 3 in Lubbock.

Mr. Behrends is the son of Mr. and Mrs. Andred Behrends, Dimmitt.

Miss Mills is a graduate of Snyder High School. She attended Abilene Christian College and Texas Technological College.

Mr. Behrends was graduated from Springlake High School and has attended Texas Technological College for the last three years.

Mr. and Mrs. Charles Hugh Land are pictured at the reception following their marriage this month. Mrs. Land is the former Miss Ann Dillard, daughter of the Rev. and Mrs. Dillard. Mr. Land is the son of Mrs. Leamon Land. The young couple will make their home here. Mrs. Land works at the Charm Beauty Shop, and Mr. Land as cashier at the RS&P railway offices.—(J. Lawrence Devers photograph).

Teen-Agers' Rodeo Party Set Tomorrow

Western attire is a must if you attend the Youth Center Rodeo party, to be given by Mrs. J. B. Nowlin tomorrow night at 8 o'clock.

The party will be held at Mrs. Nowlin's residence, near the rodeo grounds.

All teen agers in Snyder are cordially invited, says Mrs. Nowlin, who gives a monthly party for the teen agers. Last month's entertainment was in the form of a hobo party. Mrs. Nowlin plans to give a Photographer's party next month.

Mr. and Mrs. J. B. Nowlin have had as visitor in their home Mrs. Nowlin's father, P. O. Beck of Wilhelmina, Ore.

Candidates for State Offices Plan Fast Finish to Campaigns

By DAVE CHEAVENS
Associated Press Newsfeatures Writer

War-worried Texans go to the polls next Saturday to elect a governor and 11 other state officers after a campaign which so far has hit a new low in public interest.

Allan Shivers and Caso March, the two most active candidates in the race for governor, both planned whirlwind finishes—partly by plane—to take in a maximum amount of territory. All candidates will concentrate on heavily-populated areas in their efforts to attract the electorate and get their names and faces known.

MANY CANDIDATES

Actually the vote July 22 comes in a Democratic primary in which nomination is the equivalent of election.

The ballot will be crowded with names. There are seven candidates including one woman in the governor's race, 12 for lieutenant governor, 10 for three places on the state supreme court, eight for a judgeship on the court of criminal appeals.

Even before outbreak of the Korean war, candidates reported tough sledding to get crowds. They have swarmed to conventions, luncheon clubs, church suppers, picnics and rodeos where crowds gathered anyway.

ESTIMATE OF VOTE

There are an estimated 1,662,599 qualified voters—half a million less than the record electorate in 1948. In 1948 only 53 per cent of those qualified voted in the first Democratic primary. Political professionals were forecasting a probable vote this time of between 700,000 and 900,000—maybe a million at the outside.

Shivers, seeking election to his first full term after stepping into the governorship on the death of Beauford H. Jester last July, will close his campaign with a big homecoming rally at Woodville Thursday.

March, making his third try for the governoship, will park his lumbering cottage-trailer and fly to the big cities in a plane paid for by union labor. He has challenged Shivers to debate the issues.

UNIONS SUPPORT

March has campaigned for higher old age pensions, "a tax-free home for every citizen," increased natural resources taxes, repeal of labor-control legislation. He has been endorsed by the state organizations of both the C.I.O. and the A. F. of L. and said he wants a shooting war with Russia to settle that issue now.

Shivers has campaigned for economy in use of state money, in soil, water and human resources. He has come out for lifting the ceiling on pension spending and pointed to forward steps in treatment of the mentally-ill and wards of the state during his one year in office. He has made no specific recommendations on taxation, saying he would depend largely on findings of his Economy Commission for his recommendations to the Legislature. Shivers emphasized his was not a "campaign of promises" but of his record in office.

STUMP SPEECHES

March has travelled thousands of miles and made many stump and radio speeches from his trailer cottage — the only candidate in the race to put on a traditional barnstorming tour. Shivers has done most of his campaigning by radio and by appearances at luncheon clubs and other similar functions in virtually every section of the state.

Shivers' backers are mostly worried over the outlook for a light vote on the theory that "agin" voters will turn out, whereas an incumbent's friends are sometimes inclined to complacency.

Wellington Abbey of Houston and Gene S. Porter, also of Houston, have campaigned with considerable activity. Abbey has used a hillbilly band. Porter has appeared at many political rallies, urging higher old age pensions and a broad tax to pay for them.

VOTING BLIND

Other candidates for governor are Charles B. Hutchinson of Dallas, J. M. Wren of Houston, and Mrs. Benita Louise Marek Lawrence of Washington County.

In many races for state office, lots of voters admit they will be going to the polls more or less blind because they just don't know who the candidates are or what they stand for.

J. E. McDonald's successful court fight to stay on the democratic ballot brought him considerable publicity in the race for Commissioner of Agriculture, in which he seeks re-election to his 11th term. Others in this race are Tom Fairley of Travis County, John C. White of Wichita County, Charlie McLellan of Colorado County.

OTHER CANDIDATES

Legislators and former legislators make up the majority of the field in the catch-as-catch-can lieutenant governor's race. Most of the candidates for this important office have trumpeted opposition to a general sales tax, and grasped every device in the book to identify themselves for the voters.

These are the men who want to be lieutenant governor; W. O. Reed of Dallas, Kyle Vick of Waco, Cyclone Davis of Dallas; R. B. McAsh of Kerr County, G. C. Morris of Greenville, Fred (Red) Harris of Dallas, Virgil E. Arnold of Houston, Preston E. Smith of Lubbock, Ben Ramsey of San Augustine, Pierce P. Brooks of Dallas, Roger Q. Evans of Denison, P. E. Womack of Austin.

In the race for the Supreme Court, Place One, Fagan Dickson of Austin, Will Wilson of Dallas and Walter L. Wray of Dallas have put up a battle to succeed Associate Justice W. M. Taylor, who did not ask re-election.

WIDE OPEN RACE

Two other Supreme Court justices seek election after appointment to office.

For Place Two, the incumbent is Hicks Harvey of Cass County, opposed by Robert W. Calvert of Hillsboro and Alfred M. Scott of Austin.

Meade F. Griffin of Plainview is the incumbent in Place 3. Seeking to unseat him are Matt Davis of Gilmer, George W. Harwood of Dallas, Robert B. Keenan of Gregg County.

In the wide-open race to succeed retiring Judge F. L. Hawkins on the Court of Criminal Appeals are W. A. Morrison of Milam County, Robert L. Lattimore of Dallas, G. H. Nelson of Lubbock, Cecil Storey of Longview, William E. Myres of Fort Worth, Joel W. Cook of Houston, David Wuntch of Tyler, James Hill Letts of Houston.

Attorney General Price Daniel, Railroad Commissioner William J. Murray and State Treasurer Jesse James are unopposed.

Comptroller Robert S. Calvert of Austin is opposed by Clifford E. Butler of Houston. James L. Allred of Tarrant County is seeking to defeat incumbent Bascom Giles for Land Commissioner.

Safe Stolen From Market Is Recovered

A safe stolen from the D & R Food Store on the east side of the square Friday night was recovered yesterday morning near Fluvanna.

The theft was discovered and reported to police about 7 o'clock yesterday morning. The safe was found by J. E. Miller of Fluvanna, about 300 yards west of Highway 84 on the Fluvanna road, at about 8:15 o'clock yesterday morning.

Almost $100 in cash was missing from the safe, which had been blown open. Approximately $25 in change and $17.50 in checks was recovered.

Chester Barrington, chief of police, said the thieves evidently had approached the store through the alley, broken the lower panel out of the door and crawled through.

He said the job of blasting the safe was one of the best he had ever seen and that it obviously was not done by amateurs.

Police were working yesterday morning on clues that were expected to aid in identification of the automobile used in the job.

Red Star Declares Swedes to Join U. S.

MOSCOW, July 15. (AP) — The army newspaper Red Star said today reactionary Swedish circles, including Gen. Helge Jung, commander-in-chief of the Swedish army, are preparing for a war with Russia.

It said Jung is trying to force Sweden into a venturous war alliance with the United States and said such a policy would be "fatal for the Swedish people."

Hospital Notes

Admitted to Snyder Hospital Clinic Friday and Satruday were:

Margaret Nell Steel, Dermott.
Ernest L. Shook, Route No. 1.
Mrs. Ralph Wampler, Avenue R.
Oscar Finney Crawley, 1611 Ninth Street.
Roy George Ashley, Roby.
Brady T. Bynum, 605 East Twenty-ninth Street.
Mrs. C. E. Odstreil, Hermleigh.
T. A. Nix, Haworth, Okla.
Mrs. Joe Geurin, 1802 Avenue O.

Discharged Friday and Saturday were:

William Garner Drummond, Clairemont Route.
Mrs. B. J. Williams, Route No. 3.
Luther H. Cecil, general delivery.
R. C. Hardy, 3001 Avenue M.
Vaughnie Box, 1411 Twentieth Street.
Mary Melendrez, general delivery.
Mrs. Mary Morning, 2202 Sunset.
Mrs. Pearl Lee James, Snyder.

FIFTY YEARS AGO

Taken from the files of the "Coming West," the official paper of Snyder, Scurry County, and West Texas, Thursday, July 12, 1900.

William Jennings Bryan was nominated for the Democratic President and Stevenson for vice-president at the national convention at Kansas City.

* * *

A total of two boys and two girls were born this week in the Snyder vicinity.

* * *

Prospectors continue to be numerous in this section, a large number of wagons passing through every day.

* * *

D. Nation, Joe Strayhorn and J. H. Pruitt attended the convention at Colorado City Saturday, and represented the Snyder Democrates.

* * *

Grasshoppers have become so bad near Cuthbert that the children have to go into the fields with clubs to kill the insects.

* * *

Mrs. Wilmeth will open lessons here in piano, mandolin, and guitar on July 23.

* * *

Ex-Confederate army men are trying to organize an Ex-Confederate Camp and reunion in Snyder.

* * *

John Pyron visited here after spending the Fourth in Sweetwater with his brother.

* * *

Jim Fields, the merchant prince of Tap, Tex., stopped in Snyder this week to purchase supplies for his Dickens County store. He remarked that the mail service is inconvenient, but he is trying to secure a route from Clairemont to Tap for better mail service.

Coach Bill Jeffrey's soccer team rolled up Penn State's only unbeaten record during the 1949-50 sports years.

We the undersigned citizens of Scurry County, know about the

ALLAN SHIVERS

PROGRAM FOR TEXAS

And We Like It

★ **PUBLIC WELFARE**

ALLAN SHIVERS, when he was a State Senator in 1935, wrote the first old-age assistance law enacted in Texas. He helped to write the tax bill which to this day pays for old-age assistance and other public welfare items. He is clearly on record as favoring removal of the $35,000,000 ceiling on expenditures for public welfare. He will oppose any proposal to place a lien on property owned by Texans receiving old-age assistance.

★ **SOIL AND WATER Conservation**

ALLAN SHIVERS for years has provided leadership for soil and water conservation movements. Last spring he launched a ten-year pasture improvement program, which has been hailed by farm and ranch experts as one of the greatest forward steps ever taken on behalf of Texas agriculture. "My principal ambition as Governor," he has said, "is to do whatever is in my power to advance to the greatest degree possible the conservation of our irreplaceable soil and water resources for the benefit of generations of Texsans yet to come."

★ **ECONOMY**

ALLAN SHIVERS is a conservative in the spending of money—his own money and the public's money. He established the Texas Economy Commision and appointed as its members more than 500 prominent Texans, asking them to find out where savings can be made in the executive branch of the State Government.

★ **SCHOOLS**

ALLAN SHIVERS, as State Senator, as Lieutenant Governor, and now as Governor, has consistently supported measures to give Texas boys and girls a public school system second to none.

★ **GREATER TEXAS**

ALLAN SHIVERS has complete confidence in Texas and Texans. He knows that Texans, working together, can continue to build a Greater Texas. He knows that Texas will not lag behind in the march of progress—and, on the other hand, that Texans will never fall for crackpot socialistic theories. His vision of Texas is typically Texan.

ALLAN SHIVERS IS MAKING TEXAS A GOOD GOVERNOR

AFTER COLLISION WITH TRAIN—Show n above is the five-ton truck, owned by Clarence O. Lee, proprietor of the Clarence O. Lee trucking service here, which was struck Wednesday night about six miles north of the city. The vehicle stalled on the railroad tracks, and the driver was unable to flag down an eastbound Santa Fe freight, which hit the truck. (J. Lawrence Devers photograph).

Votes on Korea Aid Suddenly Loom Important in Election

By The Associated Press

The Korean fighting has put life into some of the Texas races for Congress.

It seems some incumbent congressmen voted against Korean aid last January. Now their opponents are demanding why—and hoping the answer won't satisfy voters in Saturday's Democratic Primary.

Among those called on to explain are Rep. Ken Regan of Midland, seeking his second full term from the 16th district; Rep. Bob Poage of Waco, after his eighth term, and Rep. J. Frank Wilson of Dallas, who wants a third term.

NEGATIVE VOTE

"Mr. Wilson's conscience must be bothering him," says Jimmy Jeffries, Dallas radio man and Wilson's only opponent. He said Wilson's vote last January "gladdened Communist hearts."

District Judge Paul Moss of Odessa, one of Regan's two opponents, said:

"When South Korea needed help, he (Regan) voted no."

The third candidate in Regan's district, El Paso restaurant man Fred Hervey, hasn't made this an issue.

Poage, ranking member of the House Agriculture Committee, explained he voted against Korean aid because the State Department then stated Korea would not be defended if attacked. Regan says he voted against economic aid because similar help to China proved fruitless and costly.

HOTTEST RACES

Of Texas' 21 members of the House of Representatives, only 13 have opposition Saturday. And of those 13, not more than half a dozen face experienced, well-organized and well-financed opposition.

Hottest races are those in the vast West Texas 16th District now represented by Regan, the 18th (Panhandle) District where four Democrats seek the right to oppose Republican Ben Guill this fall, and the Southeast Texas and Coastal Second District, where Rep. J. M. Combs of Beaumont seeks a fourth term.

The 16th's three most populous cities are represented by a candidate each—Hervey of El Paso, Regan of Midland, and Moss of Odessa. Regan accuses Moss of neglecting his court duties soon after being appointed to a bench he was unable to win at the polls. Moss makes a point of Regan's vote against Korean aid. Hervey, youngest of the trio, says West Texas needs a young lawmaker who can build up seniority.

PRO-LABOR

Combs' big opposition comes from Price Rogers, stocky Beaumont insurance man who says the former district judge is pro-labor and pro-administration. Rogers has campaigned vigorously. The third candidate, Port Arthur refinery worker Hugh Wilson, hasn't set a fast campaign pace.

The Panhandle district race may be won by a woman, Mrs. Altavene Clark of Amarillo. A longtime government worker, Mrs. Clark polled more votes than the ten other democrats in last May's special election to fill the vacancy created by Eugene Worley's appointment to a federal court. But the winner was the lone Republican, Ben Guill of Pampa.

One of her opponents, Walter E. Rogers of Pampa, calls Mrs. Clark pro-administration and Worley's hand-picked successor. Youngest candidate in the race, and a political newcomer, is Pete LaMasted of Perryton, who called for American intervention in Korea before President Truman acted. The fourth in the race is J. Blake Timmons of Amarillo, a member of the Texas Legislature and a political veteran though only 33.

All have been active, touring the Panhandle and using newspaper and radio. A run-off is likely—and the winn erm usft cau Gnlile the winner must face Guill in November.

POAGE ACCUSED

Waco's Bob Poage is accused by one candidate of voting like a Republican, and by another of being too liberal. Richard Bush, former Waco mayor, says Poage is guided by GOP leaders. But John Bates, young Waco war veteran and attorney making his first try for public office, says Poage is helping the spread of Socialism.

Poage's third opponent is Mrs. Tom Travis, Waco real estate woman who says there'll be no war if the profit is taken out of it.

Rep. Tom Pickett, Palestine lawyer seeking his fourth term in the Seventh District, has two opponents. District Attorney J. S. Holleman of Livingston has been stumping the East Texas farm district intensely. He wants the Communist party outlawed. Former State Senator Roger Knight of Madisonville third man in the race, has been less active. Knight has stressed his plan to increase cotton acreage allotments.

SWAP BLOWS

In the Fifth District, comprising Dallas County, two candidates have been exchanging blows from 1,500 miles apart. Rep. J. Frank Wilson has announced he cannot leave Washington to campaign. Jimmie Jefferies, Dallas radio man who thinks two terms is enough for Wilson, says his opponent votes like a Republican, voted against Korean aid, and caters to the moneyed class. Wilson calls Jefferies his "C.I.O-Political Action" opponent.

Rep. Lindley Beckworth, Gilmer lawyer seeking his seventh term from the Third District, is opposed by an outspoken anti-Truman man, Longview Attorney E. A. Martin. The 59-year-old Martin says he's against just about everything Mr. Truman is for.

WOMAN SEEKS OFFICE

A 67-year-old woman seeks to unseat Rep. Ed Gossett of Wichita Falls, who wants a seventh term. She is Mrs. Edith Wilmans, a former Dallas lawyer and state legislator who now ranches at Vineyard in Jack County. Mrs. Wilmans, an active member of the Women's Christian Temperance Union, wants federal old age pensions of $50 a month to everyone over 65.

There are contests in only five other districts.

In the big West Texas 19th District, Rep. George Mahon, Colorado City attorney, is opposed by a political newcomer, A. M. Ripps, 65-year-old Big Spring retired railroader.

The eight Texas congressmen without opposition are Sam Rayburn of Bonham, House speaker seeking his 20th term from the Fourth District; Olin E. (Tiger) Teague, College Station, seeking third full term in Sixth District; Albert Thomas, Houston lawyer, eighth term from Eighth District; John E. Lyle, Jr., Corpus Christi lawyer, fourth term from 14th District; Lloyd M. Bentsen, Jr., McAllen lawyer, second term from 15th District; Omar Burleson, Anson lawyer, third term from 17th District; Paul J. Kilday, San Antonio lawyer, seventh term from 20th District; O. C. Fisher, San Angelo lawyer, fifth term from 21st District.

TALK OF THE TOWN

BY FRANCES BIOW

Every complimentary magazine or newspaper hitting our offices gets eventually thrown down among the already towering pile of debris accumulated on my 3 by 2 foot desk. This could be because the circulation department reads the column and feels I need further material badly. Or it might be because they have the desk confused with the wastebasket. Anyway, today there was a "Texas Outlook" and in it a story about the Amarillo Center.

Seems in 1942 a retired grain dealer donated his 21-room home to the West Texas College, 17 miles out of Amarillo. What to do with a house so far from home base took some thinking, but they came up with the idea of a night adult school. Housewives, businessmen, clerks, teachers attended—170 of them. Many go purely to learn something new; others take the credit for their courses from the college, all love the opportunity to attend.

Any requested course is considered; some interesting twists in education have been tried out, consequently. There's a Charm course, an off branch of psychology. One student is quoted as saying, "Did you ever chance to ask a neighbor for the loan of a ten penny nail and have him send you home with the nail, his tool kit, television set, and the key to his house? Dr. Bolger is like that. They put up S. R. O signs on his classroom door."

A school like that here could fill a crying need for entertainment, a place to go, and mental fodder.

* * *

MRS. GWYNN OLINGER HICKOX took a racer to Dallas, says she wrote a check in the four-figure class on her boss for a heap-big purchase of perfumes. The place will reek elegantly if she puts out all that stock in Germaine Monteil, Cara Nome, Lentheric, etc.

* * *

Plan, right now, to be downtown two minutes sometime during the week of August 17! This is imperative, and I quote DR. FRED DINKLER, MRS HARRY WARD, MRS. NOLAN von ROEDER, MRS. HAROLD BROWN and all sorts of other pillars of the village, who make up the steering committee for bringing the first mobile Tuberculosis X-ray survey here. You simply clutch onto those two minutes and take them into where a hostess will greet you cheerfully and its already nearly over. You needn't undress. You receive your letter at a future date, apprising you of the exact state of your lungs. You can be happy if they're hale and hearty; warned if they're not. All free. The County Parent Teachers Association is pushing the poject, their pet, as it is the first major drive they have mothered. You will be deaf, dumb, and blind if you escape the poster campaign and publicity headed your way for this very worthwhile thing.

* * *

MRS. MERT JONES, who drove in some 30 mlies from Borden County to serve on a committee planning the Tuberculosis survey, defies legends of ranch women who get into town twice yearly. Coolly and charmingly turned out in becoming blue, she was full of ideas, as she has been ever since she began P.-T. A. work some years ago, upon getting her own two children mostly reared. Able to sum up a situation and get things done P. D. Q., Mrs. Jones contributes to any woman's project.

* * *

MRS. E. P. KETNER and MRS. HILTON LAMBERT, the former a clever arranger of any floral spectacle, the latter definitely an expert on stage setting and costume, sat in our committee. (It seems the town has been hopping with committees all week!) The bunch was trying to conjure up a vision of the float that Business and Professional Women's club will have in the rodeo parade three nights running. It's all most seeret, but just as HILTON LAMBERT telephoned his wife to hurry home for the cold watermelon he'd brought, we had struck on a very OILY theme, and now every girl in the club is vieing for the role of tool pusher on the float!

* * *

MRS. JILL EGNER is a woman of many parts. Out of $1.20 worth of cotton material her mother-in-law gave her for pajamas at Christmas, she designed an evening frock, quite wearable. She's that kind of woman who can stick eight pins in her mouth, stand you on a hassock, deftly drape a couple of yards of cloth about you, nip and tuck at strategic points, and by datetime the job is done and and you've beat the sales tax. JILL operates, non-professionally, at 1010 Twenty-eight Street, and, while she appears constantly to have somewhere to go, if you were pinched for something to wear, that red-headed energy of hers and the creative flair might produce something for you.

* * *

COL. and MRS. ROY IRVIN relaxed among a group of friends in MRS. ALICE NORTHCUTT'S pleasant living room, and JOE DAVE SCOTT and I found it hard to tear ourselves away from all the Japan talk, the Irvin's having spent months there in Tokyo in "what looked like an FHA housing project in Boothland!" All wasn't familiar and modern-American, though. Best of Mrs. Irvin's stories is the one which bears out the Oriental penchant for flower arrangements. Flowers must fill every room. They pop out of that verdant, moist soil so fast its no problem getting them. And the native maids lovingly filled the bathroom with blossoms, too! More about Col. and Mrs. Irvin next week.

New Ruling Will Give Scurry Fields 25 Days

AUSTIN, July 15. (AP) — More Texas oil will flow next month as a reserve against military needs.

The war-cautious Railroad Commission yesterday ordered August allowables increased 107,523 barrels to boost the state's permissive flow to 2,580,328 barrels daily.

All of August's increase will come from return to the wartime formula of permitting fields to operate at their most efficient rate of production. Twenty-one operating days were allowed the state in general with the big East Texas pool kept on its present 19 days.

SCURRY AREA 25 DAYS

Five West Texas fields were excepted from the general pattern. They were the "Diamond M" Canyon lime, Kelley-Snyder, Sharon Ridge Canyon, Cogdell and Reinecke, all in the Scurry County area. That area was given 25 producing days, four more than present, but daily allowable was held down by use again of the current yardstick formula. That pattern was aimed at keeping daily production in line with pipeline capacities for moving crude out of the area, commission spokesmen said.

Permissive production of natural gasoline and distillate during August was set at 302,809 barrels daily. It would boost the state's total daily flow of all petroleum liquids to 2,883,137 barrels.

The next statewide oil hearing was set for Aug. 17 in Austin.

RUNS, BY DISTRICTS

August allowables, by districts, compared with July:

1. Southwest Texas, 31,827, up 44.
2. Northwest Texas, 143,981, up 561.
3. Gulf Coast, 449,493, up 39,398.
4. Southwest Texas, 228,658, up 567.
5. East Central Texas, 42,702, up 4,879.

If War Comes, Oil Industry In Better Shape Than 1940

By MAX B. SKELTON

HOUSTON, July 15. (AP) — The domestic oil industry is in much better position to meet a war emergency than it was in 1940.

Korean fighting as yet has had little noticeable effect but oilmen are perfecting blueprints for quick mobilization should the Far East conflict mushroom into another world war.

These plans for rapid conversion to war production are classified for security reasons but current industry statistics reflect a very healthy position when compared with the situation of 10 years ago.

SLATE 10 YEARS AGO

In July 1940 Hitler issued his ultimatum for the British to surrender or face destruction. His air blitz against England was in full swing. United States support to the British, including tanker after tanker of petroleum products, was being speeded.

On July 13, 1940, domestic crude oil production averaged 3,560,000 barrels daily. Refineries were operating at 82.3 per cent of capacity and processing an average of 3,565,000 barrels daily.

On that same date, the Houston Chronicle commented: "Houston oil circles today reported definite indication of arrival of the long awaited war demand for oil and its products."

GREATER CAPACITY

Exactly 10 years later — last Thursday—the National Military Petroleum Board met in Houston to study the current situation. The deliberations were secret but the board, appointed by the Secretary of the Interior, had this information available:

Domestic crude output last week averaged 5,475,500 barrels daily—1,915,500 above 1940. Refinery processing of crude has reached an all-time high of 5,912,000 barrels daily—2,347,000 above 1940.

Total domestic refinery capacity as of June 30 was placed by the American Petroleum Institute at 6,617,000 barrels daily. The 1940 daily capacity approximated 4,330,000 barrels.

These statistics indicate the industry's possible conversion to war production could be carried out much more rapidly than was the case in 1940-1941.

REQUIREMENTS HIGHER

But the figures do not take these points into consideration:

1. Civilian and industrial demand for petroleum products now is much greater than in 1940.

2. Military requirements for a World War III would be much greater than World War II. For example, much more crude is needed for a refinery to turn out a barrel of fuel for jet propelled airplanes than is needed to produce a barrel of aviation gasoline.

Should another full-scale conflict develop, it is probable civilians will have to face a much stricter petroleum products rationing program than existed during World War II.

7 MILLION BBLS. DAY

An encouraging point, however, is the domestic industry's reserve crude oil producing capacity. If all the nation's oil wells were operating at capacity, the daily output probably would come close to 7 million barrels.

Last week Texas was producing crude at a rate of 2,369,700 barrels daily. William J. Murray, Jr., chairman of the Texas Railroad Commission, said the state, if necessary, could boost this figure by 1 million barrels by permitting all wells to operate at their maximum rates of efficiency.

This does not mean that every well would begin to turn out more oil. For example, there is indication there would be a waste or damage to the underground oil reservoir if the vast East Texas field were permitted to exceed its current output of around 275,000 barrels daily.

BASIN RESERVES UP

On the other hand, it is believed the West Texas permian basin area — including the sttill booming Scurry County flush production area—could be boosted from a current 773,050 to around 1,230,000 barrels daily without injury or waste.

Walter S. Hallanan, chairman of the National Petroleum Council, undoubtedly had such factors in mind when he advised Washington officials last week:

". . .The industry has a detailed plan under which it can turn overnight all of its facilities to the national defense. . .the oil industry is ready to meet any call which may come from our government."

Southwest County Field Has Two New Projects

R. E. Smith of Houston has located two projects in the Sharon Ridge-Canyon field in Southwest Scurry County for immediate drilling.

They are the No. 5-B C. V. Thompson, 1,680 feet from west and 960 feet from north lines of section 10, block 25, H&TC survey, two miles west of Knapp, and the No. 3-B C. V. Thompson 660 feet from west and 860 feet from south lines of section 121, block 25, H&TC survey, two miles west of Knapp. Both ventures are projected to 7,000 feet.

Pure Oil Co. and Skelly Oil Co. have each staked locations on the edge of the Diamond M-Canyon field in Scurry County.

Pure's venture is the No. 3 Nellie Williamson, 467 feet from east and 1,400 feet from south lines of northeast quarter of section 245, block 97, H&TC survey, on the north side of the field and eight miles west of Snyder.

Skelly's venture is the No. 1 J. S. Head, 467 feet from south and east lines of section 290, block 97, H&TC survey, on the west side of Snyder. Drilling is to commence immediately on both projects which are projected to 7,000 feet.

Standard Oil Co. of Texas has located its No. 10 Tom C. Davis and others Unit, 1,006 feet from west and 2,318 feet from north lines of section 339, block 97, H&TC survey, Kelley-Snyder field, seven and one-half miles northwest of Snyder.

Wildcats Started In Borden, Terry

Magnolia Petroleum Co. has staked a wildcat one and one-quarter Borden County two and one-half miles east and slightly south of the Reinecke field.

The venture is the No. 1 Ella M. Conrad projected to 8,500 feet with rotary equipment. It is located 660 feet from west and north lines of section 79, block 20, Lavaca Navigation Co. survey, 23 miles southeast of Gail.

A dry hole was abandoned at 4,392 feet in the same quarter of the section.

Amerada Petroleum Corp. has staked a wildca one and one-quarter miles north of the Von Roeder field discovery well of Southeast Borden County.

It is the No. 1-A J. R. Canning, 2,002 feet from south and 1,958 feet from east lines of section 118, block 25, H&TC survey.

Operator plans to drill to an estimated 7,500-foot depth. The project is five miles west of Knapp.

Field-Edge Well Completed by Standard of Texas

Standard Oil Co. of Texas has completed its No. 2-5 Martin located on the northeast edge of the North-Snyder-Strawn field in Scurry County.

It potentialed for 1,703 barrels of 39-gravity oil and no water daily from a perforated section from 7,363 to 7,419 feet. Top of pay was reported at 7,357 feet with a total depth of 7,517 feet.

The potential was based on a natural five hour flow through a one-half inch choke. This production is from the B zone of the Strawn. Operators plan to also complete from the C zone.

Sun Oil Co. has plugged and abandoned its No. 2-A Randals located in the Diamond M Canyon field in Scurry County at a 3,484-foot depth on account of unfavorable structural position.

The project was projected to 6,950 feet. It is 467 feet from east and 760 feet from north lines of southeast quarter of section 245, block 97, H&TC survey, nine miles west of Snyder.

Pan American Production Co. has staked the No. 3 S. J. Castevens in Kelley-Snyder field seven miles northwest of Snyder. It is 660 feet from south and west lines of the northwest quarter of section 247, block 97, H&TC survey.

Five Locations Staked in County

Five new locations have been reported in Scurry County.

The Texas Co. has spotted four edge locations to the Cogdell field in Central-North Scurry County.

They are No's 57 through 60 P. L. Fuller. No. 57 is at the south edge of the field, 467 feet from west and 1,921 feet from north lines of section 614, block 97, H&TC survey.

No. 59 P. L. Fuller a southeast edge location, 467 feet from west and 1,982 feet from north lines of section 652, block 97, H&TC survey.

The No. 60 is an extreme west edge project, 467 feet from west and 3,350 feet from north lines of section 650, block 97, H&TC survey.

All four of the Texas Co. ventures are to be rotary drilled to an estimated 7,000 feet depth, work to begin at once.

Honolulu Oil Corp. has staked the No. 4 Frank Strom, 660 feet from south and 1,951 feet from west lines of section 147, block 25, H&TC survey, northwest edge of the Diamond M-Canyon field, 15 miles southwest of Snyder.

Two Rescued From Bay By Helicopter

BAYTOWN, Tex., July 15. (AP)—A helicopter rescued two men Friday after they had been marooned 26 hours in a grounded skiff on Black Duck Bay.

The men were Henry Lewellen, 52, and his son, Kenneth, 20.

They entered the bay in a 14-foot skiff Thursday morning. The skiff became stuck in mud when the wind shifted and the tide went out.

Once they attempted to walk to the shore 1,200 feet away but got stuck in the mud.

Business Outlook

Wall Street Believes U. S. Heading Into War Economy

By J. A. LIVINGSTON

This is where an awful lot of people came in. It's discombobolation, the word President Roosevelt coined in May, 1940, when he told reporters that he hoped the defense program would not upset the normal habits of the country too much.

The Korean discombobolation is already evident in Wall Street. The stock market is down 13 per cent from its June high. General Motors, which sold at $99 after the company announced plans for a two for one stock splitup, dropped to below $80. Television stocks likewise were badly mauled. Admiral slumpd from $36 a share before Korea to $20; Philco from $49 to $33; RCA from $22 to $15; Zenith from $63 to $40.

That's Wall Street's way of saying we're heading into a war economy. Automobile companies are great users of steel. But if steel is needed for tanks, shells, ammunition cases, and so on, fewer autos will be made. Television production likewise will be cut. Electronic parts will be diverted to signal and detection equipment for the armed forces.

PRIORITIES AGAIN?

President Truman, Chairman Symington, of the National Security Resources Board, and Secretary of Defense Johnson now face the task of building up war production fast. That goes beyond merely placing orders. They must see to it that the companies which get war orders receive deliveries from their suppliers and so on—right down the line to the raw materials.

Clearing such a circuit was accomplished during the last war only through priorities. Thus, Truman, Symington, and Johnson must determine to what extent the Korean crisis requires the institution of controls over the flow of materials and supplies.

The personal problem, for any business man, is this: He wants to work on defense production. He's patriotic, isn't he? His customers are patriotic too. But they haven't had the direct order from the Department of Defense. They're clamoring for deliveries—else their competitors will march merrily ahead of them.

Priorities—controls—cut through this pressure. Under a priority, the business man who gets a war order has no choice but to fill it. The problem goes even deeper than priorities. Will the companies be willing to clear floor space and provide managerial talent for war production—to the detriment of their civilian operations?

When Germany marched into Poland, business men welcomed war orders. The steel industry was operating at only 72 per cent of capacity. In June, 1940, when France fell, steel operations were only 84 per cent. Not so today, when steel is around 100 per cent of capacity. Yet, then, war production didn't really get rolling until strict limitations were placed on civilian production, until passenger automobile output was stopped.

No such drastic "stop-production" order now impends. For one thing, we have greater automobile and steel capacity today then in 1939 and 1940. We can have guns and some butter too. For another thing, converting to a full-scale war economy now would be a gamble—an all-out bet on an all-out war. At the same time, it's a conceivable that definite percentage cutbacks of civilian production may be ordered. That would serve a three-fold purpose:

1. Automatically cut down civilian demand for steel, copper, textiles, and so on.

2. Free plant space and managerial skill for war work.

3. Put all competitors on the same footing in relation to "business as usual."

That would be a step toward partial, industrial mobilization. For this much emerges from the Korean conflict. The United States will be on a war footing for a long time to come. Defense expenditures may easily double. (That's why Secretary of the Treasury Snyder suggested to Congress to defer action on a tax bill.) Personal and corporation taxes may have to go up. Result: The business man can now regard Uncle Sam as a regular customer, not a buyer who vanishes with the peace.

Meanwhile, the Korean discombobolation comes at a time when the country has finally gotten readjusted after the last war. Not only has production risen to a new postwar high, but workers have settled down. Labor turnover is at the lowest level in five years. Quits today are running at a rate of only about 10 to 20 per thousand workers per month. Just after the war, when GIs took jobs they weren't quite suited for, when many round pegs were in square holes, the quit rate ran above 50 per thousand workers (see chart).

As war production increases, quits will increase. Workers in low-paying, nonwar jobs will probably shift to higher-paying war industries. Layoffs may increase, too, if cutbacks in civilian output are ordered. But for the most part, companies will try to hold onto workers. Labor will presumably be in scarce supply.

Miss Reeves Is Wed To Elton Lee In Hermleigh Ceremony

The parsonage of the Church of Christ in Hermleigh was the setting for a double ring ceremony the night of July 1, when Mr. and Mrs. Elton Lee exchanged vows before L. M. Gray, Church of Christ minister.

Mrs. Lee is the former Miss Hazel Joy Reeves, the daughter of Mr. and Mrs. Lloyd Reeves of Hermleigh. Mr. Lee is the son of Mr. and Mrs. J. E. Lee of Snyder.

Attending the couple were Mr. and Mrs. Vestal Boothe, sister and brother-in-law of the bride. Present also were Mr. and Mrs. Reeves, the bride's parents, and Mrs. Gray, the minister's wife.

Mrs. Lee chose a street length dress of white marquisette over white taffeta, with navy and white accessories. She wore a corsage of pink carnations.

Mrs. Lee is a graduate of Hermleigh High School, where she was active in school activities. She was crowned queen of the school in 1949.

Mr. Lee attended Snyder schools.

Immediately following the ceremony, the couple left for a honeymoon trip to San Angelo. They are now at home in their apartment on Avenue R.

Red River Arsenal Steps Up Tempo

TEXARKANA, Tex., July 15. (AP)—The Red River Arsenal near here is stepping up its tempo as fighting in Korea worsens.

"General activity has been accelerated," said H. S. Dorsey, public information officer at the plant.

Increased activity in the arsenal's railroad yards has been noted, indicating ammunition is going out in considerable quantity.

Dorsey confirmed that officials of the B. F. Goodrich Co.—which operated the Lone Star Ordnance Plant during World War II—had been conferring here to draw up final plans for mobilization of that plant if it should become necessary.

He said swing and graveyard shifts, 4 p.m. to midnight and midnight to 8 a.m., had been started in some departments of the Red River plant.

Second Man Killed

RAYMONDVILLE, Tex., July 15. (AP)—Manuel Vullafrana Robles, 24, was killed Friday when he leaped from a moving truck trying to catch his hat which had blown off his head.

He was the second person to be killed this week in the Rio Grande Valley while attempting to retrieve a hat which had blown from a moving truck.

Ordinance Lists Streets Included in Paving Plan

The paving ordinance ...tly will get priority in the new paving passed by the city council specifies the streets and avenues which program.

Property owners will be assessed one-third of the cost of paving, with the city paying the remaining one-third. The city will pay for improving intersections and other special costs, expect that the improvement of area between rails and two feet on each side will be paid for by the railway company involved, the ordinance specifies.

The law also states that assessments may be paid by installments with the final payment due four years after the completion of paving.

The following streets were recommended by the council for improvement.

Unit No. 1. 23rd Street from Avenue T to Avenue Q.
Unit No. 2. 23rd Street from Avenue M to Avenue H.
Unit No. 3. 24th Street from Avenue T to Avenue Q.
