Truman Signs Wage Plan

BY ALLAN J. FUNCH
INS Staff Correspondent

WASHINGTON, Oct. 26. — President Truman today signed into law the bill boosting the national minimum wage from 40 to 75 cents an hour and providing wage increases for 1,500,000 workers within 90 days.

The new wage-floor applicable to all employes in interstate commerce, will cost employers an estimated $300 million annually.

Mr. Truman called the legislation "a major victory in our fight to promote general welfare of the people of the United States."

To Seek $1 Minimum

Emil Rieve, chief of the CIO Textile Workers union, said that the new law should be the signal for renewal of the campaign to establish a federal minimum wage of $1 an hour.

Mr. Truman issued a prepared statement as he signed the measure in a special White House ceremony attended by Labor Secretary Tobin, wage-and-hours officials, Chairman Thomas (D-Utah) of the Senate Labor committee, and union leaders.

In his statement, the President said he regreted that the new law exempts from its provisions some workers who have been covered heretofore and that it fails to extend coverage to many other groups who need its protection. Mr. Truman added, however:

"But the improvements made by the new act will go far toward achieving our basic purpose of assuring minimum labor stand-

City Group Calls For Civil Service Repeal

GALVESTON, Oct. 26 (AP) — The Texas League of Municipalities asked the legislature today to repeal the firemen's and policemen's civil service and minimum wage laws.

Another resolution proposed that acts of the legislature affecting city governments be evaluated first by the league's legislative or executive committees.

The 574 delegates adjourned after electing Mayor George D. Barber of Mineral Wells as president and picking San Antonio as the 1950 convention city.

In a morning speech, D. A. Bandeen of Abilene said federal and state controlled streams and bodies of water in Texas are being allowed to "stagnate in the name of material rights rather than human rights." The manager of the West Texas Chamber of Commerce said far more water has been set aside for industrial use than for domestic use.

The resolution asking repeal of the firemen's and policemen's civil service and wage laws said such acts take away local self government of Texas' cities and towns.

The league said its legislative committee will recommend policy on such bills to each member city so that "the proper city officials of each city may advise its senator and representatives of its desires."

CHILD IS FOUND

GROESBECK, Oct. 26 (AP) — Maurine Brown, a mute, five-year-old girl, disappeared today in a densely wooded area near her home today. Three school boys found her after a five-hour search. Then searchers spent the rest of the day tracking down 23 boys who were still looking for Maurine.

Training Center Activated At Ceremonies

Navy Commissions Reserve Unit Here

By BILL CLARK
Avalanche Staff Writer

THE roll of the Naval Reserve in providing individual "vocational training" against the possibility of future emergency was outlined by Capt. L. E. Coley, USN, Eighth Naval district director of the Naval Reserve, at a colorful commissioning ceremony Wednesday afternoon.

The commissioning was conducted in front of the Naval Reserve Training center at Eighth and College avenue, built, as Capt. Coley pointed out, at a cost of approximately $400,000.

One hundred members of Lubbock's Naval Reserve unit and another 100 spectators watched the ceremony. Civic leaders were guests of honor and sat on the speakers' platform.

Brief Ceremony Held

The formal ceremony was brief. It was followed by a personnel inspection of the men in uniform, conducted by Capt. Coley, Lt. Comdr. John E. Vickers, commanding officer of the Naval Reserve unit, and Mayor W. H. Rodgers.

Rodgers spoke briefly, commenting that in Lubbock, at least, the Air Force and Navy had achieved unity. He referred to the band from Lubbock Air Force base, which provided music for the occasion.

Dr. E. N. Jones, vice-president of Texas Technological college, praised the Naval Reserve unit and expressed pleasure that it was located on the college campus.

G. C. Dowell, a Lieutenant commander of the Naval Reserve, served as master of ceremonies for the occasion. He introduced Comdr. F. U. Sabathier, of Eighth Naval district headquarters at New Orleans, who read orders activating the reserve unit.

Yickers read his orders as commanding officer of the unit and accepted them.

An impressive presentation of national and unit colors was accompanied by the playing of "The

Tito Promises Slavs Will Fight

BELGRADE, Oct. 26 (INS) — Marshal Tito declared today Yugoslavia will "fight enduringly" against Soviet "exploitation" of Eastern Europe and simultaneously waved the olive branch at Italy.

He declared in a defiant new attack on Russia's "subordination" of smaller countries that Yugoslavia wants "closer" co-operation with Italy, with whom he has been feuding over territorial claims.

Tito told a group of Italian partisans who had fought with the Yugoslavs during the war that he would welcome the emigration of tens of thousands of Italians to Yugoslavia to help industrialize the country.

Talks Are Planned

(In Rome, an Italian government spokesman revealed that negotiations will be held there soon between Italian and Yugoslav representatives "on multiple technical questions.")

Yugoslavia, meanwhile, answered the Soviet demand for the recall of its ambassador to Moscow by pointing out he had been removed several weeks ago to assume another job and had no intention of returning.

Deputy Foreign Minister Leo

City Electrical Worker Hurt After Contacting Live Wire

Johnnie J. Warlick, 23-year-old city electrical department employe, was taken to West Texas hospital for observation about 3:30 p.m. Wednesday after he had been knocked from a light pole at the Lubbock Country club by contact with a live wire.

Hospital attendants said Warlick's condition was "very good." His left leg was injured when he struck the ground, it was reported.

Witnesses said the injured man's fall was broken by a guy-wire near the base of the pole. Warlick resides at 508 Forty-second.

Trio Charged With Robbery At Levelland

(Special To The Avalanche)

LEVELLAND, Oct. 26—Bonds of $10,000 each on charges of armed robbery were set here today for three Oklahoma men captured in a gun-battle with law enforcement officers on a country road near the city Tuesday night.

The trio was charged in the court of Justice of the Peace A. F. O'Dell with the robbery of C. E. Padgett at his farm home about seven miles northwest of here. The men had taken gasoline from Padgett, he charged.

Officials identified the three men as Dewey Grove, his brother, Truman, and Gaston Hickman, all of Ada, Okla. Truman Grove, it was reported, is under indictment in Ada for highway robbery.

Fought Strange Battle

The trio was arrested by Hockley county Deputy Sheriff Earl Ford and Bonded Patrolman D. B. Boone after two guns in possession of the men had jammed during a strange battle by car headlights shortly before 10 p. m. Tuesday.

(Assistant District Attorney E. G. Pharr told newsmen in Lubbock late Wednesday his office had not been notified of the arrests.)

(Levelland newsmen said they had not heard of the incident until late Wednesday.)

Ford and Boone launched a search for the suspects after Padgett had called the sheriff's office and told the deputy of being threatened by the gunmen when he refused to give them gas for their old-model car which had stalled nearby.

Car Is Located

The officers, accompanied by Padgett's son and son-in-law, who were present at the time of the alleged robbery, came upon the fugitives' car about a mile from the farm, but continued down the road another 200 yards before turning around.

Then, Ford said, with their headlights shining on the other car, he and Boone fired several shots into the air and demanded that the men surrender.

Instead, Ford said, one of the Groves brothers, carrying a .38 calibre Colt pistol, advanced toward the patrol car, ignoring demands to halt. Groves then crawled into a cotton field and, although plainly visible to the officers who were firing over his

Talks On A-Bomb Curb Plan Fail

LAKE SUCCESS, N. Y., Oct. 26. (INS)—The five Western Powers reported to the United Nations today that Russia refuses to participate in the Baruch atomic plan and the split on a global control scheme remains unsolved.

The Baruch program was endorsed by President Truman as "a good plan" during the dedication ceremony of the permanent UN home in New York Monday.

The United States, Britain, France, Canada and China announced jointly that 10 secret meetings held with the Soviets have failed to make any progress toward solving the dispute over the aims and methods of global controls.

Records Published

The Western Powers published the documented records of the meetings.

The five-power report concluded that the secret negotiations failed because Russia ranks national sovereignty as inviolable and above international control considerations.

Stress has been laid in past months by top western statesmen on the absolute necessity of sacrificing sovereignty rights to meet the urgent demands of the atomic age. By refusing to recognize this necessity as outlined in the Baruch plan, Russia blocked hope for drafting an acceptable atomic control convention in the foreseeable future.

The Soviet standpoint also foreshadows complete and final re-

Lubbock Chest Drive Still Far From Goal

The next few days will see the climax in Lubbock's 1950 Community Chest drive, Earl Kerr, Chest manager, said last night. "Our total to date is $22,415.60," he said. "This is approximately the same amount collected during the same period of time in last year's drive. Using that as a comparison, Friday and Saturday should find the drive reaching its peak."

"The collections Wednesday were a little disappointing," Kerr said, "but the team captains and field workers are doing their best and Lubbockites are co-operating generously."

The Men's Sales division of the Chest drive, that unit working with the city's small businesses, is lagging far behind the other divisions, the Chest manager stated. Only one-third of their reports have been received.

Big Spring Man Seriously Burned By Electric Wire At Lamesa

LAMESA, Oct. 26. (Special)—James Reed, 26, of Big Spring was seriously burned here Wednesday afternoon when he came in contact with 12,500 volts of electricity.

The accident occurred about 4:15 p. m. at the Texas Electric Service Co. sub-station about a mile south of here, where Reed was installing new equipment for a new circuit into Lamesa.

Reed was knocked from the ladder on which he was working and burned from his waist up. His face and head were not burned.

He is in the Lamesa General hospital, where Dr. J. V. McKay says he is getting along very well.

JOINT STAFF CHIEF SAYS 'INCIDENT' POSSIBLE

General Bradley Warns National Guard Members To Be Prepared As 'War Could Strike Suddenly'

By THOMAS J. FOLEY
INS Staff Correspondent

MONTGOMERY, Ala., Oct. 26—Gen. Omar N. Bradley today compared present world conditions with those preceding World War II and warned that "war could strike suddenly."

Bradley, chairman of the joint chiefs of staff, told the 71st annual convention of the National Guard association in Montgomery that "some miscalculation or some unfortunate incident might lead" to hostilities.

Diverting from his prepared address, Bradley told the guard members they should be prepared to be sent into a combat zone "which might be anywhere." He said:

"In case of an attack tomorrow, we would have 100,000 servicemen in Europe. We might find it expedient to reinforce these troops.

"Under the Atlantic pact and the military arms program, we are permitted to do this."

Because of our wider commitments, he said, the guard as an integral part of our defense system must be prepared to meet greater responsibilities.

Recalling that the second world war started with a "despicable and unprovoked attack on Poland," the general added:

"The parallel is simply that there is much similarity between the unsettled conditions and tensions of our present day and those of 1939."

In the event of war, Bradley said, regular Army units would be sent overseas first. But he warned the National Guard to be "ready to move some divisions to combat areas upon short notice in the event of mobilization."

Pointing out that "inspired resistance" of Western European nations is a vital factor in the defense of the United States, the general denied that the European arms aid program will interfere with guard training.

Bradley said that the potential enemy (Russia) believes that "the destruction of all but its own system is mandatory." He declared that the United States believes dissimilar ideals can live together in the world.

Earlier, the association was asked to demand that the "high command of the Defense department" stop "sabotaging" the National Guard's plans and directives.

In one of the 51 resolutions introduced before the NGA, Defense Secretary Johnson was urged to

U. S. Scores Red Methods

By FREDERIC TUTTLE
INS Staff Correspondent

WASHINGTON, Oct. 26 — The U. S. denounced in biting "cold war" terms today "police state" methods of dealing with American diplomats and other officials by the Russian-dominated Communist regimes of Czechoslovakia and China.

Secretary of State Acheson told a news conference that:

1. The State department is contemplating sending a note to the Czech government protesting spy charges against three U. S. representatives in Prague. He said the U. S. considers that the charges "have been obviously trumped up in order to intimidate further the local population and lay grounds for further trials" of the kind common in all Kremlin-directed satellite states.

Takes Serious View

2. The U. S. takes a "serious view of the flimsy pretext" used by Chinese Communists in refusing exit visas to American diplomatic officials.

3. The American consul at Shanghai has filed a written protest in the case with Red authorities "setting forth the facts and asking for remedial action at once."

4. U. S. policy toward China must, of necessity, be different now from what it was some months ago. Acheson did not elaborate. Acheson branded as without foundation Czech spy charges against Isaac Patch and John Heyn, assistant attaches to the U. S. embassy in Prague, and em-

Heavily Armed Men Flee Delaware Jail

WILMINGTON, Del., Oct. 26 (AP) —Eight prisoners whom police said are heavily armed escaped tonight from the New Castle county workhouse three miles south of here.

State police summoned all off-duty officers and threw up road blocks on all highways leading in and out of Wilmington.

Police said that one of the escapees is Danny Norris, serving a life term for the murder of Wilmington Detective Thomas Conaty.

A state trooper said the prisoners "are carrying guns and are dangerous."

He said that telephone lines into the workhouse were cut by the prisoners as they escaped. No shots were fired. Details of how the men broke out were not immediately available.

Police reported that Mrs. J. L. Elliott whose husband was working on his car about two blocks from the workhouse, said her husband had disappeared and the car was gone. They said the prisoners may have commandeered the car and forced Elliott to go with them.

Shallowater Flier Receives Honor

Lubbock's West Base Renamed Reese AFB

LUBBOCK Air Force base has been officially renamed Reese Air Force base by the Department of the Air Force, according to a telegram received by The Morning Avalanche last night from Sen. Lyndon B. Johnson of Texas.

The telegram stated that the base was renamed in honor of First Lt. Augustus F. Reese, jr., of Shallowater, killed in action May 14, 1943, at Cagliaria, Sardinia, while flying a volunteer mission to destroy an enemy supply train.

★ ★ ★

LT. AUGUSTUS F. REESE, JR.

Rededication Rites Planned

Tentative plans for a formal acceptance and rededication of the newly named base are set for Nov. 5, according to a statement released late last night by the Public Information office at the Air Force base west of Lubbock.

Several dignitaries and high ranking officers are expected to attend the ceremonies, which will include a parade, presentation of a medal to a local man, and the awarding of several decorations posthumously.

More definite plans probably will be released sometime today, the statement said.

Three Names Submitted

Reese's name was selected from three forwarded to the Department of the Air Force by a special committee of Lubbock civic leaders, headed by Neil Wright, jr. The committee selected the three names for presentation from 38 suggested by local citizens.

Wright said Reese's name had been suggested by a number of people. Committee members, besides Wright, were Clifford Hunter, Rodrick McDougall, Edward Belavan, and Douglas Adams. George A. Bond of the chamber of commerce, was secretary to the committee.

Mr. and Mrs. A. F. Reese, sr., of Shallowater, were "very happy" when notified of the honor that had been bestowed upon their son. They will be guests of honor at the rededication services.

Reburial services for Reese, who was 26 at the time of death, were

Firing Of NLRB Official Urged

CLEVELAND, Oct. 26. (AP)—CIO President Philip Murray today asked President Truman to fire Robert N. Denham, general counsel of the National Labor Relations board.

Murray accused Denham of favoring employers and chasing down "frivolous and unfounded charges" by plant owners.

In Washington Denhem said he had no comment in reply.

The CIO chief, in a pre-convention blast at the principal enforcement officers of the NLRB, said Denham had used "his injunctive powers in a reckless and vengeful manner in order to suppress legitimate strikes and other concerted activities of unions."

Activities Scored

"Mr. Denham's activities and the provisions of Taft-Hartley making him a czar over labor have proved so obnoxious that even Senator Taft has come to recognize that the broad powers of this general counsel should be substantially curtailed.

"Immediate action, however, is necessary to put an end to Mr. Denham's excesses. The President can and should act promptly to remove Mr. Denham from office."

Murray left tonight for New

Two Persons Die In Oil Truck Explosion

HOUSTON, Oct. 26 —(AP)—An oil truck explosion today killed two men and critically injured another.

The explosion occurred at the York Transport company's Houston-Baytown highway plant shortly before 3 p.m.

Killed instantly were Eugene Wisofski and Arnold M. Smith, mechanics for the company.

Square Battle, an odd-jobs employe at the company's repair shop, was hospitalized with severe burns received in a flash fire that preceded te explosion.

No fire followed the explosion but the galvanized iron shop building was damaged severely.

Tom York, assistant manager of the company, said the explosion resulted from petroleum fumes in a tank truck. He did not know how the fumes were ignited.

Official Says This Weekend Is Deadline

(By The Associated Press)

PITTSBURGH, Oct. 26.—President Truman is reported ready to step into the steel and coal strikes unless they are settled this week.

The disclosure came today from a top administration official who said pressure for some sort of action "is getting terrific and is increasing steadily."

This source, who has been in touch with the White House but wouldn't be identified further, told a reporter:

"We can't let this thing go on beyond this week. It is getting out of hand and playing havoc with the economy."

Injunction Believed Out

He would not say what form of government intervention Mr. Truman has in mind in connection with his weekend deadline for settlement. But he indicated the Taft-Hartley act's injunctive provisions will not be used.

Previously from the White House came word that Mr. Truman is not inclined now to step into the crisis. Another official denied that a deadline had been set.

As the twin strikes stopped many trains and spread their creeping paralysis into business, a group of small steel producers tried to drive a peace wedge into the steel deadlock.

Little Optimism

There was little optimism but government mediators continued conferences with leaders of the U. S. Steel corporation, the industry bellwether.

The coal work stoppage remained stalemated as well with all negotiations off until Tuesday.

A half dozen Pittsburgh district companies urged recall of the steel industry's fact finding board. A spokesman said the move could lead to a clearer recommendation for company-by-company contract bargaining. He said that could bring industrial peace.

Explanation Urged

President William H. Colvin, jr., of Crucible Steel company urged Cyrus S. Ching, director of the Federal Mediation service, to recall the steel board to explain what it meant by "good faith individual collective bargaining."

Colvin said the 25-day old strike of 450,000 CIO United Steelworkers for free pensions and insurance could be settled "by means

Shivers Favors Omnibus Tax Bill

EL PASO, Oct. 26. (AP)— Gov. Allan Shivers said today the state needed more money for charitable institutions and he favored raising it by an omnibus tax bill to spread a tax increase over a wide base.

Shivers addressed a rural electrification co-op meeting with representatives from Texas, New Mexico and Arizona.

He said that he opposed new or increased taxes for the co-ops.

In an interview before the address he said a special session of the Texas legislature in January will consider funds for the state's charitable institutions.

Will Run For Governor

As for his political plans, he said what he has said before—"I will run for governor. I have made no formal announcement yet, but I will be a candidate."

In his address he said he could not foresee necessity of state regulation of power rates paid by farmers and ranchers who have

CONNALLY PREDICTS FUNDS SLASH

Marshall Plan Nations Warned To Intensify Recovery Efforts

By STERLING F. GREEN
Associated Press Staff Writer

WASHINGTON, Oct. 26 — Paul G. Hoffman left Washington today with a grave message for Europe: Unless united and drastic recovery efforts are made, a dissatisfied Congress may refuse to vote next year's Marshall plan billions.

Senator Connally (D-Tex), chairman of the Foreign Relations committee, demonstrated Congress' mood. He forecast that European recovery funds will be cut by at least $1,000,000,000 next year.

"Europe must work out her own destiny," Connally told a reporter. "We can't carry indefinitely such a heavy burden of financial help."

Economic Co-operation Administrator Hoffman consulted with President Truman before leaving the capital for Montreal to deliver a speech before flying to Paris.

At the White House he told reporters that ECA would like to see the Marshall plan nations "go further and faster than they have gone" in striking down trade barriers.

Mr. Truman gave him a message for Europe, too, he said—the assurance that "America's great

NEW EFFORT MADE TO SETTLE SERVICES FEUD

Bradley Reported Winner Of Last-Minute Fight To Prevent Removal Of Denfeld As Naval Chief

By JAMES LEE
INS Staff Correspondent

WASHINGTON, Oct. 26.— Gen. Omar Bradley was reported today to have won a last-minute fight against immediate removal of Admiral Louis E. Denfeld as chief of naval operations.

Bradley, chairman of the joint chiefs of staff, was said to have pleaded for reconsideration of a plan reputedly approved by President Truman and Defense Secretary Johnson which called for Admiral Forrest P. Sherman to succeed Denfeld.

(At Montgomery, Ala., Bradley flatly denied having said that he opposed removal of Denfeld as chief of naval operations. However, he did intimate the turbulent waters stirred up over the Denfeld and the unification fight may be calmed.)

A highly-placed source quoted Bradley as telling his superiors that it would be better to make a new attempt to have the present chiefs of staff resolve troubles between the armed services than to touch off a Navy "explosion" by firing Denfeld.

Whatever personal differences developed between Bradley and Denfeld as a result of their diametrically opposite testimony in the congressional probe of unification policies were said to have been laid aside at Tuesday's meeting of the joint chiefs.

The JCS meeting, which Bradley described as "harmonious," presumably convinced the chairman that there is at least a chance of solving the bitter inter-service rivalry without an immediate shakeup of the Navy high command.

The issue of Navy criticism of Johnson's administration of the unification law will be threshed out further Thursday at a meeting of the armed forces policy

SOVIET BLOCKS PEACE MOVE

U. S. Faces Mounting Trouble In Bringing End To War In Greece

By J. M. ROBERTS, Jr.
Associated Press Staff Writer

The United States, trying to liquidate the Greek civil war — it's first big underwriting job under the Truman doctrine for containing communism — is running into trouble on all sides.

The Greeks are reluctant to reduce the army they built up to fight the Communist guerrillas. They say the whole Balkan situation is too volatile.

Greek Money Diminishing

However, the government is showing signs of coming around on this angle, since it is really in no position to block U. S. wishes. This year's appropriation for military aid to Greece was based on belief in the end of the war, and there isn't much money left.

In the United Nations the U. S. effort to get formal settlement of the dispute has run up against the usual barrier. Cloaked by the direct demands of the Balkan states, the issue remains the cold war with Russia.

One big project of the "peace campaign" of President Romulo at the UN General assembly was a move to get the big powers together on Greece. It failed.

Russia used the Greek-Albanian border question to snag these initial negotiations. The western powers supported a settlement under which Albania and Greece would agree not to resort to violence over the question. Russia held out for final establishment of the border as it is now, meaning Greece would abandon her claims.

Andrei Vishinsky tried to make this appear the only barrier to settlement. Actually, the whole dispute over Russian hedgemony in the Balkans is involved. Russia has used the death sentences imposed on Greek underground leaders in an effort to balance the civil rights violations for which her satellites have been condemned.

Now the United States is taking a new tact announced as aimed at settlement, but which seems likely to produce merely another General Assembly condemnation of the Russian bloc.

Brannan Boosts Truman Plan For Aiding Backward Areas

KANSAS CITY, Mo., Oct. 26 (INS) — Secretary of Agriculture Charles Brannan today labeled President Truman's program to aid the under-developed areas of the world "common sense" in laying "the groundwork for a healthier foreign trade in the future."

Brannan asserted in a speech before the annual meeting of the Association of Land Grant colleges and universities that the program "is one of the requirements for the maintenance of our own national prosperity."

He said the United States needs "markets for prosperity — secure and expanding markets," pointing out that U. S. farmers now are producing about 40 per cent more than before World War II. He added:

"No underdeveloped area of the world can possibly be a good customer for American agriculture and industry."

Milton Eisenhower, president of Kansas State college and former chairman of the U. S. Commission for Unesco, told the meeting Unesco has taken a good stride forward in promoting understanding among the peoples of the various countries. Eisenhower added, however, there is still much work to be done.

The granddaughter of a North Devon, England, man is a grandmother at 39.

DO YOU KNOW—

that to stop at 20 M.P.H. it takes:
26 ft. on wet concrete but only
21 ft. on dry concrete?
69 ft. on packed snow with no chains but only 40 ft. on packed snow with chains?
169 ft. on glare ice with no chains but only 88 ft. on the same ice with chains?
When roads are bad, SLOW DOWN. If conditions require chains, put them on; if roads are wet, allow extra room to stop. Remember, you're one foot from trouble — *your* foot on the accelerator.

Chinese Forces Face Red Attack

CHUNGKING, Oct. 26. (AP) — Possibly 225,000 seasoned Chinese Communist troops were reported massing today for a breakthrough into Kwangsi province, keystone of Nationalist resistance on the mainland.

Against this array of force Gen. Pai Chung-Hsi, the Nationalist commander, has 200,000 troops. He also is said to be drafting more recruits for what may prove to be a decisive battle.

Seven Armies Assembled

Official reports say Gen. Lin Piao has assembled seven Red armies of possibly 175,000 men for the attack on Kwangsi from the north.

Two Red armies of Gen. Chen Keng, who occupied Canton, are reported moving westward for an attack on Kwangsi from the east.

The preliminary skirmishings have begun. Nationalist dispatches insist the Reds so far have been held off.

Press dispatches say Lin's 39th army suffered heavy losses in fighting around Sinning, 90 miles northeast of Kweilin, capital of Kwangsi province.

It is on this front that the Reds are trying to drive into Kwangsi from the north along the railway to Kweilin.

The drive from the east may come up the west river valley, where the Reds are attacking near Tsangwu (Wuchow). This city 160 miles southeast of Kweilin controls the river route of invasion.

Pai himself was reported back in Kweilin to direct the defense after a visit to Hainan island off the South China coast. He is believed to have conferred with Nationalist generals there on plans for the last stand in South China.

Camp Hood Airfield Is Given Name Of Gray Air Force Base

WASHINGTON, Oct. 26. (AP)— The Air Force announced today that the airfield at Camp Hood, near Temple, will become the "Gray Air Force base."

The name involves only the airfield at the camp, which is the home of the Second Armored division.

The Air Force notified Rep. Bob Poage of Waco of the name selection.

It was made in honor of Capt. Robert Manning Gray, who took part in the Doolittle air raid on Tokyo and later was killed in a plane crash in India.

Gray was a son of Mr. and Mrs. J. M. Gray of Killeen, Texas.

Custody Struggle Throws Child's Race Problem Into Court

BUFFALO, N. Y., Oct. 26. (U.P.)— Negroes and whites rallied today behind five-year-old Mary Marshall — a child whose race problem the court has to decide.

Neighbors and friends of the light-skinned youngster said that Mary was welcome in either the "black belt" or the "white" section of the city.

The decision as to where the youngster will live rested in the hands of Supreme Court Justice Alger A. Williams.

Seek Custody Of Child

The case came up in court when Mrs. Marguerite Marshall, 24, attractive white mother of the child and her negro husband sought to regain custody of Mary from the woman's parents.

Mrs. Marshall, who lives in the negro section of town with her husband, Emerson Marshall, 32, contended her mother spitefully was attempting to keep Mary from the Marshall home.

The grandparent, Mrs. Ella Freitus, 52, claimed that the Marshalls were unfit to care for the child, an accusation denied vigorously by Mary's mother.

Husband Is Butcher

"My husband earns a good wage as a butcher," Mrs. Marshall declared. "As long as we give her a good, Christian home we have a right to bring her up as we see fit."

Mrs. Marshall, who has another fair-skinned child nine months old, declared that her mother invited Mary into her home as a guest and then refused to give her up. Mrs. Freitus said she kept the child because the Marshalls were unable to support her as an infant.

Sherman L. Walker, negro supervisor of the district where the Marshalls reside, declared Mary's future as a part-white, part-negro would "have its difficulties."

Justice Williams indicated that he would announce his decision in the case in about a week.

Rockefeller Center's tallest building — the RCA Building — is 850 feet tall.

'LOON' CLAIMED ABLE TO CARRY ATOM WARHEAD

New 200-Mile Range Rocket Bomb Receives Tests In Military Maneuvers Now Underway In Pacific

By FRANK NEILL
INS Staff Correspondent

WITH WESTERN TASK FORCE OFF HAWAII, Oct. 26 — An American "buzz bomb" was disclosed today by Navy brass hats with the Western Task force who said the weapon may mean the margin of victory in the event of war.

The Navy said the rocket, which has a 200 mile range, is an "historical step in the exploitation of sea power and the beginning of ultra-pushbutton warfare."

Officers said it can carry an atom bomb warhead 200 miles when fired from the deck of a submarine.

The radio-controlled Buck Rogers affair—called a "loon"—weighs 15,000 pounds and is similar in size and performance to a wartime Nazi "buzz bomb."

Military observers said the "loon" had been amazingly successful in the practical tests it received in "Operation Miki"—the current war games off Hawaii in which an "American" amphibious force is attempting to dislodge a mythical "aggressor" assumed to have taken the islands.

The rocket is operated with a pulsejet engine. The missile itself is 32 feet long with a wingspread of 22 feet.

Battle Tests Slated

Elaborate tests will be given the loon Nov. 7 when 70 ships of the western task force and 400 airplanes will attempt to shoot several of the rockets out of the air.

They will be fired to an altitude of 4,000 feet.

Meanwhile, in the land phase of the maneuvers, which are the largest amphibious war games in the nation's history, spearhead units of the crack Second Army division stabbed three miles inland on Oahu.

30,000 Men Pour Ashore

Wave after wave of assault troops numbering 30,000 men poured ashore from the task force armada of 100 ships maneuvering six miles off the beach at Pokai bay.

A high surf bogged down the initial landings, miring tanks, guns and other equipment in steep sand dunes. Twenty landing craft were wrecked and there were at least 14 casualties, three of them broken legs.

A protective canopy of 400 airplanes thundered overhead as the attack forces consolidated their beach head and began to move slowly inland, hampered by the lack of artillery support.

The "aggressor" force of 12,000 men resisted the attempt to retake the island and they gave ground slowly as the attackers tried to force them back up into the hills of Oahu.

Shock troops of the tank-led crack Ninth Infantry regiment spearheaded the drive.

57 New Polio Cases Reported In State

AUSTIN, Oct. 26. (AP)— Polio flared again in Texas last week.

Fifty-seven new cases were reported for the week ended Oct. 22, compared with 36 the previous week.

"The old enemy is still alive and kicking," commented Dr. George W. Cox, state health officer.

So far this year, 2,103 cases have been reported from 194 of the state's 254 counties.

Despite cooler weather, the health department said, polio continues to spread. Comanche, Ilano and Somervell counties reported the disease for the first time.

New cases last week, by counties: Tarrant 12, Harris 5; Somervell 4; Howard 3; Dallas, Ector, Taylor, Tom Green, Wheeler, 2; and these counties with one — Brown, Childress, Coleman, Comanche, El Paso, Floyd, Gray, Hale, Hamilton, Hardeman, Hidalgo, Hopkins, Hutchinson, Jefferson, Lamb, Lampasas, Llano, McLennan, Parmer, San Saba, Upton, Wilbarger, Young.

Supreme Court Splits Over Corpus Christi Man's Will

AUSTIN, Oct. 26. (AP)— The Supreme court split 7 to 2 today over what the late W. W. Bagnall of Corpus Christi meant by the phrase "while gone" in a paper offered as his will..

The majority held the document was not subject to probate as Bagnall's will. The minority believed it was his will.

Records in the case showed that Bagnall wrote the paper on the eve of a hunting and fishing trip. The document, in his own hand and dated Oct. 5, 1929, said:

"Remember me W. W. Bagnall by this. If anything happens to me. While gone. All my belongings and estate goes to James B. Bagnall brother of mine."

Bagnall went on the trip and came back. He died about 18 years later. The document was offered for probate by his brother, James B. Bagnall. Another brother, Sam, contested probate on grounds it was a conditional will and the condition in it had not occurred.

Lubbock Men Named To Board Of WTCC At Meeting Held Here

Lubbock directors on the board of the West Texas Chamber of Commerce were nominated at a meeting of directors of the local chamber this morning, but their names were withheld pending their acceptances.

Homer D. Grant, president of the local chamber, said however that none of the present WTCC directors were renominated. They are Earl B. Collins, Joe Nislar, Harry Morris and Grant. All requested that they not be returned to the WTCC board, local officials said.

The directors also authorized Grant to name a committee to arrange an open house for the recently completed chamber building, Ninth street at Texas avenue.

The Bronx Zoo exhibits a pair of gorillas behind glass for their own protection from the coughs and colds of human beings.

Granbury Farm Couple Are Killed In Crossing Accident

GRANBURY, Oct. 26. (AP)— Mr. and Mrs. I. D. Brand, well known farm couple who live a mile and a half north of Granbury, were killed this morning, when their light truck was demolished by a through Santa Fe freight train at a crossing here.

The crash occurred at a time when automobile windshields and windows were obscurbed by a fog.

Justice of the Peace Ed Larned returned an inquest verdict of death by unavoidable accident.

Jimmy Durante Attends Opera, Startles First-Nighter Group

LOS ANGELES, Oct. 26. (AP) — Jimmy Durante went to the opera last night and was he mortified—he "couldn't unnerstand a woid."

The schnozzola startled first-nighers by the opening of the San Francisco Opera company's season here by appearing among the minked and ermined crowd.

Durante said he rubbed elbows with the Los Angeles socialites in the bar during intermission. "I had to rub elbows, nobody would shake hands with me," he added.

The date palm is the sacred tree of the Arabs.

Hailstones are made of layers of compact snow and ice, which are built up through the freezing of rain drops and successive gatherings of coatings of snow and frost.

The Woman's Angle
By Margaret Turner

THE person who measure his life alone by three meals a day and eight hours of sleep, isn't after all much of a person. He may live long on earth, but he hasn't lived.

• • •

JOHNNIE WILLIAMS

THE sudden death of John L. Williams was a great shock to his friends, who had not known that his illness was so critical.

Our first acquaintance with Johnnie came last year when he mailed a small crucifix that he picked up in the ruins of St. Stephens cahtedral in Vienna, Austria, where he was stationed for several months with the Army of Occupation. After we returned from Europe in May, Johnnie came down to the office one afternoon and we had fun comparing notes on cities and people and the differences in living abroad and in America.

The silence of the young man's personality long will be felt by his mother, Mrs. Margaret Williams, because Johnnie had just finished re-decorating and refurnishing their home at 1918 Seventh.

The youth was very devoted to his mother and dedicated the few months that were left to him after he was discharged from the service in March to making her happy. After his untimely death last Friday, Mrs. Williams said she felt that she could no longer live in the home that was such a reminder of Johnnie. Later she realized that as time goes by she will actually cherish the nice things he planned for her comfort.

• • •

CROSBY'S METHODS

THE modern parent who sees no need for using discipline in bringing up his youngsters gets no sympathy from Bing Crosby, who is raising four fast growing boys. Crosby tells how he faced this problem and the responsibility of fatherhood in today's fast changing world in a current national magazine.

Believing that work is a part of discipline, the crooner prescribed regular tasks for his sons at their home, such as sweeping up leaves in the patio. This past summer they were hard working hands at their father's sweeping ranch in Nevada. Privileges are withdrawn as a means of punishment — if punishment is necessary. And Bing is not averse to using a sapling when other means fail.

Leaders rise from men with the common touch, such as Eisenhower and Spaatz, Bing says. He has done everything in his time, from selling papers, to working in a pickle factory, driving a truck, ushering in a theater, picking strawberries, and he thinks all youngsters should have that background.

• • •

OUTPOST OF DEMOCRACY

MARGARET Lee Runbeck, author and lecturer, in presenting the keynote address at the conference of Camp Fire Girls, Inc., in Portland, Ore., Tuesday said that "the most alive people on earth today are those between twelve and twenty."

What the youngsters do with their abundant energy depends on their leaders, she believes. The best way to mend this broken old world is to become a hardworking citizen of the bright new world which is springing into beauty from within our hearts and hopes.

The writer believes that America's greatest resource is its youth. No activity, social or political or industrial, is more important than developing that resource for maximum advantage. No inventor, no artist, nor great industrialist is more important to tomorrow than the man or woman who is in a position to help even one young person become his greatest self.

School Is Finished

Towns of District 1, Texas Garden clubs, Inc., which were represented at the flower show judging school held here Tuesday and Wednesday were Lubbock, Levelland, Morton, Littlefield, Anton, Sundown, Olton, Donna, Midland, Big Spring, Hereford, Amarillo, and Phillips. Other guests were from Roswell, N. M., and Dallas. Fifty-five persons took the examination at the close of the course which was taught by Mrs. John R. Salois and Mrs. Steve Barrett of Dallas. Sixty-four names were on the register.

Plans for the school were made by Mrs. J. A. Fortenberry, district flower show judging school chairmen. Credits received from the course may be used toward meeting requirements for a state or national judging certificate.

Mrs. Barrett, who spoke Wednesday, defined flower arranging as the art of organizing the elements used according to the principle of design to attain beauty, simplicity, expression and harmony. She urged a concentrated study of the color wheel in working out color harmony.

Flower arrangements brought by various persons were used to illustrate color harmony. The arrangements were scaled or judged by those taking the examination on the course.

The speaker said, also: "Color is important in flower arrangements because it catches the eye first."

Mrs. Salois spoke Tuesday on flower shows and on horticulture. The meetings were held at Lubbock Women's clubhouse, 2020 Broadway.

Athenaeum Club Votes To Meet At Clubhouse

Mrs. C. A. Bickley, 1917 Twentieth, was hostess to a Tuesday afternoon meeting of the Athenaeum club which was held in her home. Attending were 19 members.

Mrs. B. E. Needles, City Federation council representative, gave a report, and the club voted to meet every second Tuesday in the Lubbock Women's clubhouse at 2020 Broadway.

Mesdames Stella Brown and C. C. Coffee were appointed as hostesses for the state survey for tubercular tests.

The program theme for the afternoon was "Education in Our Democracy." Mrs. Reuby S. Rhodes led a panel discussion on "Do We Want Federal Aid to Our Schools?"

Mrs. O. C. Southall, speaker for the affirmative, said, "Democracy is in danger unless our schools are improved." Taking the negative stand, Mrs. A. W. Young declared that, "The states are more qualified to support schools than is the federal government," and that "A school should be the work and pride of the community which it serves."

AAUW Branch To Meet Tonight At Women's Clubhouse

At 7:30 o'clock tonight at Lubbock Women's clubhouse, the October meeting of Lubbock branch, American Association of University Women, will be held.

A former story erroneously set the meeting in the Tech Aggie auditorium.

Dr. O. A. Kinchen of the faculty at Texas Tech college will be the main speaker. He will discuss "An Angle of Today's World." This will be recognition of the United Nations.

Costumes Worn At Birthday Party

Carolyn Zachary was honored on her ninth birthday when her mother, Mrs. Bobbie Zachary, entertained Tuesday afternoon in their home, 2223 Twenty-third. A Hallowe'en motif was featured.

Twenty-five children attended in costumes. Five mothers were present.

The honoree's aunt, Mrs. D. G. Zachary, cut he cake.

Hallowe'en Events Are Calendared

Larrymore's studio at 1910 Ave. R Friday night at 8 o'clock will be scene of a Hallowe'en carnival to be given by the student nurses of Lubbock Memorial Hospital School of Nursing. There will be no admission charge.

Hallowe'en events scheduled for tonight are those planned by the Parent-Teacher association units of Overton and McWhorter schools. The Overton carnival will be at 7 o'clock and the McWhorter party will be at 7:30 o'clock at the schools.

Colonial Needle club is having a Hallowe'en party this afternoon at 3 o'clock at the home of Mrs. Bain McCarroll, 2506 Twenty-sixth.

A pioneer party for the junior High group of First Presbyterian church is on the calendar for 7:30 o'clock tonight at the church's Fellowship hall.

Federation Will Meet

Installation of officers will feature a fifth Monday meeting of the Church Women's Federation at First Presbyterian church Monday at 3 p. m.

Mrs. Ben F. Brewer will review Vincent Sheean's newest book, "Lead Kindly Light."

Rev. Hubert Bratcher will ask invocation and Mrs. Paul Glasgow will sing.

November Supper Scheduled By Auxiliary To BRT

A box supper to be given Friday, Nov. 4, at 7 p.m. at IOOF hall was planned by Auxiliary to Brotherhood of Railroad Trainmen Wednesday when the following members met at the hall:

Mesdames L. E. Berry, hostess, J. D. Mullins, W. D. Donald, N. M. Lowery, R. J. Clark, Ervin Grady, Paul Seay, T K. Martin, E. G. Wylie, H. F. Whitson, D. R. Patterson, Clark Zachary, Arno Boyd and L. D. Hogan.

The women voted to present a pot plant to the Sunday school class of exceptional children which meets at Asbury Methodist church.

Officers of the auxiliary will be elected Nov. 9 at a regular meeting.

Forty-Two Club Has Wednesday Guests

Guests of 1936 Forty-Two club Wednesday afternoon were Mesdames Ollie Martin, Pauline Owens, C. P. Cox and Sue Jenness. Ten members also attended the party which was given at Mrs. Margueret Rampy's, 820 Ave. K.

The club will meet Nov. 9 at 2:30 p. m. with Mrs. Jenness, 908 Ave. M.

Reviews Presented For Readers Club

Two reviews were given when Tuesday Readers met with Mrs. R. L. Fletcher, 1624 Ave. Y, last night. Mrs. M. V. Gray discussed "Bright Leaf" (Foster Fitz-Simmons) and Mrs. Ben White reviewed "Poor Man's Doctor" (Lewis R. Tryon, M. D.).

Seventeen members and two guests, Mesdames M. A. Bennett and E. L. Price, attended.

It's not necessary to use a double boiler for making cream or white sauce. Just be sure you keep the heat low and stir constantly.

SHORTY CARDIGANS . . . These are the first choice of stylewise sweater girls this fall, for wear to class or office. Favorites are of fine zephyr knit, come just to the waist and accent a trim midriff. Left is a diagonal cable knit cardigan in tobacco brown with gold buttons; right, a cherry red zephyr knit with plunging neckline, cuffed cap sleeves, tinsel stripes.

Today's Calendar

Lubbock Square Dance federation, 8 to 11 p. m., Playmor on the Slaton highway.

Junior High group of First Presbyterian church, 7:30 p. m., pioneer party at Fellowship hall.

Zeta Delta chapter, Beta Sigma Phi, 8 p. m., Hotel Lubbock.

Pythian Sister Temple, 7:30 p. m., K-P hall.

Rebekah lodge, 7:30 p. m., IOOF hall.

Overton P-TA, 7 p. m., school, Hallowe'en carnival.

Girl Scout leaders Dramatics workshop, 9:30 to 11:30 a. m., Blakeslee hall.

Colonial Needle club, 3 p. m., Mrs. Bain McCarroll, 2506 Twenty-sixth, Hallowe'en party.

Thursday Book club, 1 p. m., Hotel Lubbock, Mrs. W. W. Rix, hostess.

Law Course Lesson Changed To Tuesday

Because of Hallowe'en festivities, Mrs. H. F. Godeke is postponing the lesson of a Parliamentary Law course from tonight until Tuesday night, according to an announcement made Wednesday afternoon.

The class will meet in room 201 of Carroll Thompson Junior High school Tuesday.

Former Resident Is Ill In Dallas

Jack King who is suffering from glandular fever at Medical Arts hospital in Dallas is much improved, according to word received here by friends Wednesday. He is son of Mr. and Mrs. John King of Kilgore, formerly of Lubbock. Jack is a May graduate of Lubbock High school and has been attending the University of Texas this semester.

MRS. R. E. ADDINGTON

Miss Dunlap Is Married

Mr. and Mrs. J. A. Dunlap of Rt. 6 are announcing the marriage of their daughter, Miss Pansy Lee Dunlap, to Robert Eugene Addington of Pampa, which took place Monday night at the Dunlap home. Elder P. J. Ausmus of the Primitive Baptist church performed a double ring ceremony.

The bride wore a dress of soldier blue satin with brown accessories. Her maid of honor was her twin sister, Mrs. Ray Smith of Tahoka.

Albert Boyer served as best man.

A reception was held after the ceremony for family members and close friends.

Mrs. Addington is a graduate of Tahoka High school and has been employed by Southwestern Bell Telephone company in Pampa. Mr. Addington, who served three years with the armed forces, is associated in business with his father. After a wedding trip to points in New Mexico, the couple will be at home in Pampa.

Enough clay wall tile is produced in the United States in a year to cover about 1,000 city blocks.

Couple Will Be Married

Mr. and Mrs. Fred H. Miller of route 1, Lubbock, announce the engagement and approaching marriage of their daughter, Miss Pauline Miller, to Cleon L. Hamilton, son of Mr. and Mrs. Velmer Hamilton of route 1, Abernathy.

The wedding will be solemnized at 7:30 p. m. Thursday, Nov. 24, at the Canyon chrurch, route 1.

Culture Club Has Program On Bible

IDALOU, Oct. 26 (Special) — Mrs. L. E. Countess was hostess to the Idalou Civic And Culture club Tuesday afternoon.. Mrs. R. A. Boyd directed a program on the Bible, assisted by Mesdames Weldon Boyd, Bailey Guess and Earl Weaver.

The club will meet with Mrs. Clayton DeBusk as hostess Nov. 8.

Members present were Mesdames Virgil Isom, H. M. Lowe, Earl Yarbrough, Johnny Joiner, Clayton DeBusk, J. O. Barnhart, E. T. Daniell, Otis Isom, Frank Guess and J. N. Marks.

Nominees for M-SU Queen Are Listed

ABILENE, Oct. '25. (Special)—Thirteen Hardin-Simmons coeds have been nominated by classmates as candidates for the university queen. The primary election will be held Saturday Nov. 2, in Behrens chapel and the runoff will take place on Nov. 9.

The nominees were selected by ballots to become eligible for nomination. Each girl had to be a senior and have 75 supporters.

The 13 nominees are Virginia Bush, Childress; Jesse Myers, Abilene; Fay Huff, Brady; Ruth Hamilton, Abilene; Earlene Singleton, Vidor; Sue Ann Duncan, Gilliland; Wanda Baker, Wilson; Libby Sumrall, Palestine; Virginia Dunagan, Midland; Kitty Ritter, Anson; Virginia Randel, Withita Falls; Ganelle Newman, Brownfield; and Ann Givens, Texarkana.

SLAV POLICY GAINS SUPPORT

Left Wing Groups From Many Nations Join Tito Movement

By VICTOR KALMAN
United Press Staff Writer

LONDON, Oct. 26 — Marshal Tito of Yugoslavia is building the foundation for a "fifth international" movement in a strong bid to unseat Soviet Premier Josef Stalin as the world's No. 1 Communist, well informed British left-wing sources said today.

These sources, some of whom know Tito and other members of the Yugoslav politburo personally, said Tito visualizes a Communist-Socialist-Labor entente which eventually might head a world federal government.

Tito Gains Support

They said Tito has gained "immense" support in the left-wing movement in Britain and elsewhere and they believe he has a good chance to gain Social Democratic support, where Stalin has failed.

"There are patriots in every country who want a Socialist state, but their own state and not as part of the tail of the Soviet kite, a prominent British left-wing politician said.

It was understood two left-wing groups are considering forming a splinter party in the forthcoming general elections.

One is composed of members of parliament who were expelled by the Labor party as apologists for Moscow. The other is made up of left-wing members still in parliament but opposed to some of the policies of the Labor government.

May Tie To Belgrade

This splinter party's foreign policy, it was understood, would be tied generally to the Titoist movement and not to the Kremlin.

Only last week Tito, in an interview with a British correspondent, called upon British left-wing support for Yugoslavia in its fight against Moscow.

But Britain is not the only country Tito is wooing.

Last week a group of Italian wartime partisans, including members of the Italian Communist party, visited Yugoslavia. During the past few days the Yugoslav press has quoted them as denouncing the Soviet Communists for trying to make all other Communists tools of Russia.

French Group Visits Tito

This week, 40 French politicians, including French Communists, are touring Yugoslavia and were to meet Tito.

A split in the Trieste Communist party was noted in the general elections last spring.

Yesterday, a British intelligence agent said the Titoist movement, backed by a strong underground, was gaining momentum "day by day" in eastern Europe. He said Russia has moved thousands of troops into the satellite countries to stamp out underground movements.

PLUNGES TO DEATH

LONDON, Oct. 26. (AP) — The Honorable Peter Beatty, 29, son of a famed admiral and grandson of Chicago merchant prince Marshall Field, sr., plunged to his death today from a sixth floor window in the fashionable Ritz hotel.

He had just been told he was going totally blind.

Book Is Reviewed

Mrs. F. A. Kleinschmidt presided at a meeting of John Elder chapter, Colonial Dames of the Seventeenth Century, Wednesday afternoon and reviewed the book, "Love and Courtship in America," (Hill). Mrs. W. L. Baugh was hostess in her home at 1811 Thirteenth.

During a business session, Mrs. Leroy T. Patton was elected treasurer to replace Mrs. J. T. Hutchinson who has resigned. Mrs. Elkins reported that the local chapter has sent a contribution to the fund for a national home of the organization in Washington, D. C.

Among those present was Mrs. Sam D. Jones who arrived in Lubbock from Virginia Tuesday for a month's visit.

Needle Clubs

Mrs. W. B. Atkins was hostess to Wednesday Needle club yesterday afternoon in her home at 2220 Seventeenth. The 14 members attending spent the afternoon sewing and visiting.

Chrysanthemums and dahlias from the Atkin's flower garden were arranged throughout the house.

* * *

Eleven members of 1941 Needle club met with Mrs. W. A. Pettey, 3001 Thirty-second, Wednesday afternoon.

Plans were made for a Nov. 9 meeting which will be held at 3 p. m. in the A. E. Dietering home, 2205 Twenty-first.

* * *

Friendly Nine Needle club met Wednesday for a coffee in the home of Mrs. Tom Ogg, 1629 Seventh. Mesdames A. M. Box, Fred O'Dell and M. L. Vance were the visitors attending and eight members were present.

Next meeting of the club will be with Mrs. John D. Stephenson, 2010 Fifth, for luncheon from 10:30 a.m. until 3 p.m. on Nov. 9.

The 20th Century began Jan. 1, 1901, not 1900. If the 19th century had entered on Dec. 31, 1899, the first century would have covered only 99 years.

Town Talk

MISS MARION OSBORNE, a native of Virginia, arrived Wednesday on the afternoon train from California to be a guest in the home of Mr. and Mrs. R. A. Mills, 2627 Twenty-second, for 24 hours.

The charming young southern woman is on the staff of the historic project titled Colonial Williamsburg, and Mrs. Mills met her during a recent visit to Virginia.

The Lubbock hostess will entertain with a brunch this morning in her home as a courtesy to her visitor, and attending will be several women of the city who are interested in the re-creation of Williamsburg.

City Federation of Women's clubs will entertain with a program tea this afternoon beginning at 3 o'clock in the Hilton hotel ballroom.

"The Best of Life," will be discussed by Mrs. J. N. Michie and Mrs. Fred Stanley will be soloist for the afternoon.

Members may bring guests, and hostess clubs will be Lubbock Woman's Forum, Allegro Music, District Nurses and Bud to Blossom Garden clubs.

Family night at the Lubbock Country club will be observed tonight rather than on Friday.

Only members of the club may attend.

Mr. and Mrs. H. C. Burrus of 2102 Main have returned home from a visit with their son and his family, Mr. and Mrs. H. C. Burrus, jr., of St. Louis, Mo.

Young Mr. Burrus is an instructor in the physical education department at Washington university, and during his parents stay in Missouri they were able to attend a football game between his school and Butler university. All of the Burruses were pleased because the score favored the Washing university team.

Gay and colorful, original and varied were the costumes seen Tuesday night at the Masquerade ball given in the ballroom of the Lubbock Country club with Messrs. and Mesdames T. E. Patterson, Wright Kerr, C. A. Tubbs and Guy McAfee as hosts.

Providing lots of merriment for the crowd were Big Chief Ernest Joiner and his "squaw" of Ralls. Charming Mrs. Joiner looked the part of an Indian maiden in her plain "Indian-fashion" dress and her long braids. Other redmen masqueraders were Mr. and Mrs. Jack Stone, who came to the ball dressed as an Apache couple.

Wayne Henly reverted to his boyhood for the night and played the part of "Wayne Henly as a college freshman." Costumed as a gaucho from the Argentine Pampas was George Livermore.

Among the more timely costumes seen at the ball were those worn by Dr. and Mrs. David Haymes. Dressed as a linesman on the Amarillo Golden Sandstorm squad, Mrs. Haymes portrayed "the only casualty in the Lubbock-Amarillo football game," as she was carted about in a wheelchair by her husband, masquerading as a member of the victorious Westerner squad, shoulder pads, helmet and all.

Floyd Bowen disguised himself so well that his friends didn't recognize him and used about the least make-up of anyone there. Wearing a Chinaman's togs complete with skull cap and queue, he Wearing a Chinaman's togs complete with skull cap and queue, he ers. Then, presto! "Nobodee Knowee."

A rubber mask transformed Joe Leaverton into a very convincing Mortimer Snerd, Mesdames Arnold Maas and Marshall Harvey put in an appearance as the pickaninny Gold Dust twins.

The ornately dressed Sultan and the blonde "Egyptian" beauty accompanying him were Mr. and Mrs. Bob Womble. Mr. and Mrs. Frank Gumm wore costumes copied from the Gay Nineties era. He appeared as a mustached bar tender, and she was dressed as a hoop-skirted coquette. Mrs. O. B. Ratliff went to the ball as a Gay Nineties fashion plate, and her husband played the part of an old-time politician.

Using two straight-hanging mops for wigs, Mrs. Earl Hunter and her sister, Mrs. Fenton Harding, were dressed identically and wore signs asking, "Which twin has the Toni?" Mrs. Hub Jones and Mrs. Morley Jennings went to the ball as characterizations of "The Idiot Sisters" and entertained friends with their antics during the entire evening.

An out-of-town couple coming to the masquerade as a Swedish burgomaster and his old fashioned girlfriend were Mr. and Mrs. Arno Struve of Abernathy.

Of course, there were dozens of other unusual costumes, and doctors, bakers, hula dancers and a multitude of clowns were running everywhere helping to make the Tuesday night entertainment one of the best of the season.

Two Are Initiated By OES Chapter

Freedom chapter, Order of Eastern Star, initiated Dr. and Mrs. O. A. Kinchen in a ceremony held at IOOF hall Tuesday night. Sixty-six attended.

Mesdames Russell Hardin, Gene Knox and William G. Dingus were hostesses during a social hour. Hallowe'en colors were featured in decorations.

There were visitors from Good Hope, Ill., Amarillo, Littlefield, Truth and Lubbock OES chapters.

Grand officers attending were Mesdames Pat Boone of Littlefield and Carl Stewart, Ben V. Smith and L. D. Thomas of Lubbock chapter.

XMAS GIFT

UNIVERSITY, Miss. — (AP) — Three members of the Ole Miss football squad make one day do for two holidays. Rocky Byrd of Paseagoula, Lindy Callahan of Meridian and Showboat Boykin of Greenville all were born on Christmas Day. Byrd was born on Christmas, 1928, the other two on Dec. 25, 1929. All three are sophomore backs.

School Expected To Serve As Pilot Plant

WASHINGTON, Miss., Oct. 26 (AP) — A school here, asked by its wealthy benefactor to "teach the superiority of the Anglo-Saxon and Latin-American races," is only a pilot plant in a huge educational plan.

Allen Jack Armstrong, son of the George W. Armstrong who proposes endowing 47-student Jefferson Military college with mineral rights and land worth $50 million told a reporter that "Jefferson will be a sort of pilot plant."

"My father told me that if Jefferson is a success, he will spend every cent he owns on similar endowments to other schools."

The elder Armstrong at 84 is one of Mississippi's more colorful characters. He is a "Jeffersonian Democrat and States' Righter" who parlayed a Texas oil field banking venture into a fortune. He has vast holdings in Mississippi, Oklahoma and Texas oil lands and has steel and utilities interests in Fort Worth.

Trustees denied that the 147-year-old prep school would teach white supremacy.

Railroad Wins Damage Suit Against Trucking Company

CLEVELAND, O., Oct. 26. (AP) —This time it was the railroad which was awarded damages in a crossing accident.

The Erie railroad yesterday won a $100,000 judgment against the Elmer C. Breuer trucking interests because an Erie freight train rammed a Breuer truck. The railroad asked $246,622. It said a steel-laden Breuer truck was left stalled on the Erie's tracks at Ravenna for seven minutes with no attempt being made to signal the approaching train.

Damages were awarded by a federal court jury.

ACHESON ATTACKS METHODS

Czechs Accused Of 'Trumped Up' Spy Charges Against Americans

BY JAMES E. ROPER
United Press Staff Writer

WASHINGTON, Oct. 26. — Secretary of State Dean Acheson today accused Communist-dominated Czechoslovakia of bringing "trumped up" espionage charges against six American employes of the U. S. embassy in Prague.

Acheson coupled this with a blistering attack on police state methods by Communist regimes of eastern Europe.

And, in so many words, he said the Czech regime is lying when it talks of having obtained "confessions" and "irrefutable proof" of espionage activities.

U. S. May Send Protest

Acheson told a news conference he is considering sending a protest direct from Washington on the espionage charges. This would supplement the American embassy's protest to the Czech foreign office.

He also ripped into the Czech government for demanding that two embassy officials leave the country in 24 hours. He branded this as "typical of the disregard of usual international courtesies by the Communist regimes of eastern Europe."

As for the espionage charges against six Americans, Acheson said that is "politically inspired propaganda" aimed at intimidating the Czech people and laying the groundwork for "further trials of the kind which is now common in the Communist-dominated territories of eastern Europe."

Acheson Denies 'Proof'

Acheson scoffed at Czechoslovakia's claims that it had "irrefutable proof" that the accused Americans were spying on uranium rich Czechoslovakia.

"The recent charges of the Czechoslovakian government that certain employes of the American embassy have been engaged in espionage activities have been obviously trumped up in order to intimate further the local population and lay the grounds for further trials of the kind which is now common in the Communist dominated territories of eastern Europe,' Acheson said.

Practices Known To U. S.

"The charges are alleged to be based on 'irrefutable proof' and 'confessions' of Czechoslovak citizens. This government has sufficient knowledge of the police methods and practices employed by the present regime in Czechoslovakia to know how much credence should be placed in 'confessions' and 'irrefutable proof' in politically inspired propaganda cases of this kind. In the past, Czechoslovak citizens are known to have been arrested and questioned by the secret police simply because they visited the library of the United States information services or because they visited the embassy on routine matters.

"This government cannot admit the principle that mere contact by its officials abroad with the citizenry of a friendly country constitutes espionage."

In Prague, meanwhile, the Czech government put off a scheduled visit by a U. S. embassy official to Samuel Meryn, embassy clerk who has been held incommunicado since he was arrested last Friday on spy charges. Meryn is among six Americans accused of espionage. The visit to Meryn was "postponed." The Czechs asked for a retraction of a Voice of America broadcast which, they said, announced that they had "rejected repeated requests" to see Meryn.

Two Ordered To Leave

Acheson noted Meryn's case today and referred to Isaac Patch and John G. Heyn, two other employes ordered by the Czechs to leave the country within 24 hours.

Both Patch and Heyn already were out of the country when Czechoslovakia sought to expel them, but that obviously did not ease Acheson's annoyance at the Czech tactics.

"Although in conformity with usual diplomatic practice, this government has acceded to the request for this withdrawal of the officers concerned, the unusual and drastic demand for departure in 24 hours is typical of the disregard of usual international courtesies by the Communist regimes of eastern Europe," Acheson said.

American officals fear that Czechoslovakia has started an anti-American campaign of harassment and that relations will get worse before they get better.

The index finger of the Statue of Liberty is eight feet long.

Grandmother Ends Term In Prison To Resume Honeymoon

PLYMOUTH, Mich., Oct. 26 (INS) — A 66-year-old grandmother and her baldish husband today resumed a honeymoon which was interrupted 26 years ago by a life-term in prison for Mrs. Maude Cushing Storick.

Flushed and excited as a schoolgirl, Mrs. Storick walked into the arms of Emory Storick, 67, the man to whom she had been married only a month when she was convicted of the poison death of her first husband, Claude Cushing.

A full pardon from Michigan Gov. G. Mennen Williams opened the door of Detroit's House of correction this morning to the woman who so persistently proclaimed her innocence over the years.

Plans Still Uncertain

Storick was anxious to "get home before dark" to the home at Paw Paw lake, which he has kept waiting for his bride of 1923. But Mrs. Storick, overwhelmed by her new freedom, was not quite sure just what she wanted to do at the moment. She said:

"I just don't know whether we're going right home. I think maybe we'll go on a little honeymoon."

Mrs. Storick had a new hair-do and was dressed in a new-look outfit which she bought in Plymouth. Storick met her early at her prison cottage. Taking her in his arms, he said: "Hello Dearie."

Mrs. Storick was nearly incoherent with happiness as she buried her head on his shoulder.

Husband Holds Wife

But Storick just held her at arms length and beamed:

"Now my life is complete."

The black-haired, matronly-looking woman was asked how she felt. She told newsmen:

"It's a little hard to explain how I feel. Of course, this freedom is wonderful. But you see, I have expected it all the time. I always knew it was just a question of time and now is the time.

"I have prayed long and hard and my prayers are answered."

Woman Tortured On Main Street

"They're killing me," she cried. "My burning calloused feet." But why moan about it when groovy medicated Ice-Mint does such a grand comforting job. Starts with amazing speed to soften stinging corns and calluses. So cooling, restfully refreshing for tired burning feet. Get Ice-Mint today.

Evans To Speak On Amendments

William H. Evans, Lubbock attorney, will speak on constitutional amendments to be voted on by the Texas electorate Nov. 8, as a feature of the bi-monthly luncheon program of Lubbock County Bar association Saturday noon in Hilton hotel.

The bar, which numbers more than 100 members, has decided to invite guests to the program, inasmuch as knowledge of what the amendments would provide is of especial importance to every voter.

Others May Invite Guests

In addition, attorneys of bar associations embracing other South Plains cities, such as Brownfield, Lamesa, Crosbyton, Ralls, Levelland, Morton, Littlefield, Tahoka and the like, likewise are invited to attend and bring a guest.

Those who will attend are asked, however, to notify Warlick Carr, secretary-treasurer of the bar association here, of their plans, together with the number of guests they will bring. They should do so before Friday night.

That, it was explained by Rayford L. Ball, chairman of the permanent program committee, and George W. McCleskey, bar president, would allow officials time to make definite arrangements with the hotel's kitchen.

There will be a round-table discussion of the amendments after Evans' address.

Murder Suspect Captured By FBI Agents Near San Antonio

SAN ANTONIO, Oct. 26. (AP)— The San Antonio office of the FBI Wednesday announced the capture of Donald Franklin Dalton, 26, wanted on an Indiana indictment charging murder of three men in a poker game hold-up Oct. 15.

C. A. Weeks, special agent in charge of the San Antonio office, said Dalton was apprehended at a tavern a few miles from the city by federal agents assisted by John Carver, former Kelly AFB investigator.

Norsemen made a soup, full of Vitamin C it was later found with a base of rose haws.

Ohio Youth Must Lose 50 Pounds Or Go To Jail

MOUNT VERNON, O., Oct. 26 (AP) — If Melvin Bross can melt off 50 of his 290 pounds, he can escape eight months in a workhouse.

Judge Robert J. Crossman sentenced the 20-year old Bross for contributing to the delinquency of four minors. He led the children on a corn-shock-upsetting foray on a farm near Amity.

Friends interceded for Bross. Judge Crossman said he'd forget the sentence if Bross would serve two years in the Army.

Recruiting officers told Bross they'd take him if he lost 50 pounds. The judge gave Bross a month to start losing weight and another to get rid of all 50 pounds.

New Pipeline To Carry Oil From West Canada To East

EDMONTON, Alberta, Oct. 26. (AP)— Oil from Canada's western province of Alberta is seeking out eastern Canadian markets through a 1,150-mile pipe line which will run from Edmonton to Superior, Wisconsin.

It will cost $90 million and will cross the prairies to Lake Superior in three great jumps — Edmonton to Regina, in the province of Saskatchewan, 450 miles; Regina to Gretna, on the Monitoba-North Dakota border, 340 miles; and Gretna to Superior, 360 miles.

Work already has started and oil is expected to be flowing from Edmonton to Regina by the fall of 1950 and to Superior by early 1951.

Initial capacity from Edmonton to Regina will be 95,000 barrels of crude a day; and for the rest of the distance 70,000 barrels. da

New Mexico Rancher Claimed By Death

T. N. Miller, 77, of near Lovington, N. M., died at 12:30 p. m. Wednesday in Lubbock Memorial hospital. He was admitted to the hospital late Tuesday afternoon.

Miller, a rancher, had lived near Lovington since 1906.

The body will be taken overland for burial in Lovington. Arrangements are under the direction of the Rix Funeral home.

He is survived by his wife; two daughters, Mrs. Roy McAdams and Mrs. M. J. McClish; and a son, E. N. Miller, all of Lovington.

Southland Private Assigned To Duty With Group In Japan

Pvt. Victor Reyes, son of Mr. and Mrs. Juan Reyes of Southland, has recently been assigned to duty with the First Cavalry division at Camp Drake in Tokyo.

Pvt. Reyes duties will include that of security guard and patrolling in the thickly populated Tokyo-Yokohama area.

Pvt. Reyes will be eligible to take training in many varied fields now offered in the Army education program. He is with Company B of the Seventh Cavalry Regiment.

South Plains Schoolboy Football Has Light Schedule

Lamesa's Invasion Of Lubbock Tops List Of Grid Attractions

BY CHOC HUTCHESON
Avalanche Sports Writer

A lighter-than-usual meal is offered on this week's South Plains schoolboy grid menu, but there are several appetizing bites among the limited number of games.

Only 20 tilts are on the docket, since many teams are taking a rest over the Hallowe'en weekend. Of the score of contests on the slate, 17 are conference engagements.

Because of Friday night Hallowe'en observances at several schools, three games this week have been advanced to Thursday night. These are Abernathy at Ralls, Petersburg at Cooper and Frenship at Whiteface. All other encounters are set for Friday night.

Lamesa Invades Lubbock

Topping the list of attractions is Lamesa's invasion of Lubbock. The visiting Tornadoes, beaten only once (by Pampa), will be definite underdogs against a Lubbock team rated by sports scribes as the state's No. 1 Class AA aggregation, but a wide-open offensive display is in the offing. It will be the first District 3-AA game of the year for both clubs.

No other Class AA contests involving area teams are scheduled, as both Plainview and Brownfield have open dates.

Floydada's Whirlwinds, setting the pace in District 3-A, get a real test when they take on Lockney's big Longhorns at Lockney. A loss in this one would drop the Whirlwinds into a tie with the Spur Bulldogs, who are idle this week. Crosbyton's Chiefs play hosts to the improving Matador Matadors, who last week held Floydada to a 12-12 scoring deadlock only to lose on first downs. Abernathy's Antelopes are at Ralls Thursday night, while Friday night Paducah goes to Tulia.

Littlefield In 4-A Clash

Littlefield, the 4-A North co-favorite, entertains Sundown in a conference clash. Levelland, currently in third place in 4-AN, travels to Post to square off against the high-scoring Antelopes.

In 4-A South, O'Donnell at Slaton is the only district game scheduled. Coach Clarence Tillery's spirited Slaton crew can climb into a first-place deadlock with Post by winning this game. Seagraves, another 4-AS member, takes on Coahoma at Coahoma.

The lone District 5-A contest involving a South Plains aggregation is Seminole at McCamey.

A full program is on tap in District 3-B, where Olton's front-running Mustangs play hosts to the dangerous Anton Bulldogs. Dimmitt, the second-place team, faces Friona at Friona, while defending champion Hale Center is at home against Whitharral. In other games, it will be Farwell at Amherst and Springlake at Spade.

Meadow, the top team in 4-B, gets a comparative "breather" when it invades Plains. Ropesville, scrapping to get back into title contention after last week's loss to New Deal, journeys to Idalou. As listed above, Thursday night games find Petersburg at Cooper and Frenship at Whiteface.

Lindy Berry May Set Passing Mark

FORT WORTH, Oct. 26 (AP)—Lindy Berry, Texas Christian's perpetual man-in-motion, appears certain to better the passing records of his illustrious predecessors—Sam Baugh and Davey O'Brien.

Berry is averaging more than 12 pass completions per game and has four games to go. He needs only 36 to beat the Baugh and O'Brien marks made when they were seniors.

O'Brien in 1938 set the Frogs' all-time record for completions in one season—110. This was one better than Baugh's top mark of 109 in 1936.

But O'Brien took 11 games to establish his record and Baugh was in 13. With 75 completions to his credit in six games, Berry, also now in his senior year, is thus already ahead of the pace of both O'Brien, 11 per game, and Baugh, 8.4 per game.

The only phase of O'Brien's record that does not appear to be in danger is that of yards gained. O'Brien's 110 completions were good for 1733 yards, which leaves Berry, who now has 1032 yards on his 75 passes, 701 yards to go to pass this mark.

Gains from Berry's pitching have a good chance of Baugh's best in this regard, however, as Berry needs only 340 yards more on his passing total to exceed the 1371 yards gained through Baugh's 109 completions.

Berry is not only making T.C.U. passing history; he is setting the 1949 passing pace for the nation. Again this week he is ranked No. 1 in national collegiate passing records, a position he has held for five of the six weeks to date, having dropped into second place just last week only to bounce right back on top with 13 completions for 207 yards and three touchdowns last Saturday night against Ole Miss.

The Wichita Falls whiz's best one-game performance, however, was against Oklahoma A. & M. when he completed 22 for 270 yards gain and two touchdowns.

Pioneer Gridders Travel To Littlefield For Game Today

Lubbock's Pioneers are scheduled to travel to Littlefield today for a 4 p.m. encounter with the Littlefield B team.

The meeting between the two schools will be the second of the season, with the Pioneers winning a handy 31-12 victory in their first encounter.

Last week Levelland lowered the boom on the Pioneers, winning a 12-7 game and giving the local club its second loss of the year against three wins and one tie.

Top Elevens In Jeopardy

BY HAROLD V. RATLIFF
Associated Press Sports Editor

Prospects are good that the thinning list of undefeated, untied teams in Texas schoolboy football will be cut to paperweight size this weekend.

Six teams have that distinction—Wichita Falls, Lubbock, Grand Prairie, Henderson, Port Arthur and Corsicana— and all except Grand Prairie have games this week.

Henderson and Corsicana have just cause to worry. The former takes on vengeful Marshall and Corsicana meets its perennial nemesis—Waco's deflated but dangerous Tigers.

Wichita Falls plays Quanah, Lubbock takes on Lamesa and Port Arthur meets Orange. All three should triumph.

Henderson tackles a Marshall club on the rebound from an upset last week at the hands of an in-and-out South Park (Beaumont) outfit. Waco has not shown anything like the brilliance of last year when the Tigers swept undefeated to the Class AA state crown. But Waco always is something to worry about with its great manpower.

City Conference teams get a respite from beatings by archrival Class AA. This season the CC boys have been having more trouble than a flock of kids in a farmer's watermelon patch and the farmer waiting with a shotgun.

Thus far Class AA teams have walloped City Conference outfits 45 times. The CC teams have been able to get only 25 wins.

Anyway, this week each division plays in its own back-yard. John Reagan of Houston is the last unbeaten team in the City Conference and it has been tied. The Bulldogs clash with Milby of Houston in a District 3 Conference game.

In all there are 49 games in the state, 39 of them being Conference affairs. These will pave the way for the stretch drive toward district titles in November.

The weekend schedule in Texas:

Thursday—Sunset (Dallas) vs. Forest (Dallas), Fort Worth Tech vs. North Side (Fort Worth), Reagan (Houston) vs. Milby (Houston), Sam Houston (Houston) vs. St. Thomas (Houston), Jefferson (San Antonio) vs. Alamo Heights (San Antonio).

Friday—Crozier Tech (Dallas) vs. Woodrow Wilson (Dallas), Amon Carter-Riverside (Fort Worth) vs. Paschal (Fort Worth), Lamar (Houston) vs. Jeff Davis (Houston), Brackenridge (San Antonio) vs. San Antonio Tech, Elk City, Okla., at Borger, Ysleta at Amarillo, Graham at Electra, Childress at Vernon, Wichita Falls at Quanah, Lamesa at Lubbock, Midland at Odessa, El Paso High vs. Bowie (El Paso), San Angelo at Brownwood, Abilene at Sweetwater, Cisco at Mineral Wells, Stephenville at Breckenridge, Denison at Paris, Sherman at Greenville, Highland Park (Dallas) at Denton, Sulphur Springs at McKinney, Henderson at Marshall, Gladewater at Kilgore, Beaumont at Tyler, Nacogdoches at Conroe, Bryan at Jacksonville, Lufkin at Palestine, Port Arthur at Orange, South Park (Beaumont) at Port Neches, Galena Park at Freeport, Texas City at Galveston, Pasadena at Baytown, Ennis at Hillsboro, Temple at Cleburne, Corsicana at Waco, Corpus Christi at Kerrville, Lanier (San Antonio) at Kingsville, Harlingen at Alice, Corpus Christi college-Academy at Robstown, St. Edward's at Laredo, Edinburg at McAllen.

Saturday—North Dallas vs. Adamson (Dallas), Austin (Houston) vs. San Jacinto (Houston), Big Spring at Austin (El Paso).

Westerners Prep For Tornadoes

Coach Stresses Aerial Defense

Everything but scrimmaging was included in Wednesday's Westerner football practice as Coach Pat Pattison continued to ready his squad for the invasion of the Golden Tornadoes of Lamest at 8 o'clock Friday night at Jones Stadium.

Evidently impressed by the display of passing in last week's Pampa-Lamesa tilt, Coach Pattison held a lengthy drill on pass defense, using all three squads alternately on offense and defense.

RESERVED SEAT TICKETS
Reserved seat tickets for the Westerner-Tornado contest Friday may be purchased for $1.50 each at the athletic office in Lubbock High school between 8 a. m. and 5 p. m. daily.

Defenses Good

Defensively the teams were showing heads up play, but many passes by Bobby Brown and Billy Pressley were hitting their marks. Even the best defensive specialists would have had trouble batting down these bullet-like heaves.

Following straight pass protection workouts, the whole team gathered together for dummy drills, with the offensive elevens running plays similar to those used by Lamesa.

A short tackling session and laps around the field ended the workout, one which afforded the players an opportunity to pick up many valuable pointers on defense.

Although most of the practice session was defensive work, time was spent also on running plays. More of this type drill is expected today.

Team In Top Shape

The whole Lubbock squad is in good mental shape in preparing for the district opener with the Tornadoes, and enthusiasm was high as the players went through their workout.

Only minor bruises are slowing up the boys, with the exception of right Halfback Charlie Williams, who missed practice today because of bad cold. Williams is expected to be ready by Friday night, however, Coach Pattison said at practice. End Billy Wright is still bothered by a charlie horse in his left leg, but it is rounding into shape rapidly.

The Tornadoes are expected to field a scrapping ball club for tilt Friday, and the spirit of the team is expected to be better than at any time this year. With only one defeat marring their record, the Lamesans can be expected to fight, and fight hard for a victory over the Westerners, now rated as the first team in the state.

The last meeting between the Tornadoes and Westerners took place in 1946, and that year Lubbock scored a thrilling fourth quarter victory over Lamesa, winning 7-6, in the last three minutes.

Local Fans May Receive 2,000 Tickets For Odessa-Lubbock Game

A possibility exists that Lubbock football fans may receive 2,000 general admission tickets for the Odessa-Westerner game November 11, allowing all persons with reservations to purchase tickets.

The ducats will not go on sale until Monday, October 31, however.

Regular reserved seat tickets will also go on sale that day, and persons having reservations are urged to pick up their tickets as soon as possible. No more reservations are being made, but it is felt that with the additional number of tickets all Lubbock fans can gain admittance to the contest.

LUBBOCK MORNING AVALANCHE
Sports
PAGE EIGHT. LUBBOCK, TEX. THURSDAY, OCT. 27, 1949

Two Players Knocked Out In Drill

Raiders Go Through Rugged Scrimmage

Texas Tech's football squad, hoping for an upset victory over Rice Institute Saturday at Houston, suffered two minor setbacks yesterday when Guard Bobby Garner and Center Red Phillips were injured.

Garner and Phillips both were knocked unconscious in the rugged scrimmage session through which the Red Raiders were being sent. Garner, knocked out early in the drill, was taken to West Texas hospital for observation, but was released.

Phillips was taken to the Raider locker rooms, where he came out of it with no apparent after effects. Both players will be ready for limited action today, final session before the 40-man squad enplanes for Houston Friday morning.

Defense Looks Good

Yesterday's scrimmage was a stiff one, with the Raider defensive line looking good against Rice plays operated by the varsity. Time and time again Rice line plays were broken up and if the Techsans can function that well against Rice Saturday, the Owls might be in for a rough afternoon.

Against pass offense, such as Quarterback Tobin Rote will be throwing to End Froggy Williams and others, the Raiders didn't look as well. Several of the aerials clicked for long gains and one or two went for touchdowns.

Coach Dell Morgan repeatedly instructed the defensive team in errors it was making in an effort to tighten up the defense. He knows that Rice could, if it wanted, make things as miserable as Texas did Sept. 17. There is one big difference. The Raiders won't face the extreme heat and will be in better physical condition.

Much of the Raider attack will be left in the hands of a blocking forward wall and a backfield that is topped by Fullback Bud Conley. Conley has gained 390 yards on 90 carries this year to lead the team and also is the top scorer with four touchdowns.

Halfback Ike Stuver has 274 yards in 39 tries, Fullback Earl Jackson has 205 yards in 47 carries and Halfback Cal Steveson has 169 yards in 55 carries. Stuver and Steveson, along with End Jack Davis, have two touchdowns each and Halfback Tim Hatch has booted 13 of 16 conversion efforts.

Quarterback Ernest Hawkins has connected on 18 pass completions in 46 attempts for 320 yards and three touchdowns. Quarterback Milton Rathbone, out with a knee injury, has hit nine of 25 attempts for 84 yards and three tallies. Bill Lyman has connected on seven of 20 attempts for 63 yards.

Davis leads pass receivers with 104 yards on five catches, while Stuver has 103 yards on six completions and Hatch has 68 yards on six completions.

Stuver, leading Raider punter, has averaged 37.3 yards on 28 punts this year.

Michigan State's track team this season won the IC4A triple crown—the cross-country, indoor and outdoor championships.

Tech Fish Meet Odessa Juniors

Lubbock football fans are in for a good grid weekend with a first rate high school game Friday night followed by a top college game Saturday afternoon at 2:30 in Jones Stadium.

Coach Red Coats' Odessa Junior college eleven comes here to give the Picadors their second test of the season and Lubbock fans should turn out to see future Red Raiders in action. Coats, a former Tech center and letterman, has rounded up a good squad in his first year at Odessa and it should be a first class exhibition.

Tech's first year men rolled to an impressive 59-7 rout over the West Texas State college freshmen in their first game, then were rained out of a game last Saturday night at Roswell. They were scheduled to meet New Mexico Military Institute, but the game has been cancelled.

Top Frosh Squad

Coach Allie White has rounded up what has been termed the finest freshman squad in the history of Tech football teams and many of the first string players made all-state teams in Class AA and Class A circles last year. In addition, the Picadors have all-state players on the squad from Alabama, Georgia and West Virginia.

After providing competition for the varsity much of the time, and especially Monday of this week, the freshmen have been working by themselves. Coach White yesterday sent them through a long dummy scrimmage, with emphasis on blocking assignments and timing.

Madison, Seale Leaders

Directing the club Saturday afternoon will be a pair of outstanding quarterbacks, Carl Madison of Atmore, Ala., and Don Seale of Idalou. Both are good field generals and fine forward passers, while Seale also is a fine punter.

The ground game will employ half a dozen outstanding backs, including Waldo Young of Monahans, W. H. Barker of Colorado City, Ronnie Miller of Albany, Carrol Drye of McAllen, Chuck Reynolds of Atlanta, Ga., and Sandy Welton of Fairmont, W. Va.

The devastating pass attack, spearheaded by Ends Alton Linne of Monahans and Jim Thames of Alvarado, a six foot, four inch, 220-pounder, is aided by Reynolds and Young.

Crippled Lamesa In Good Spirits

LAMESA, Oct. 26 (Special)—The Golden Tornadoes, somewhat crippled by injuries and sickness but displaying their best spirit of the season, will "battle all the way" Friday night against Lubbock's Westerners, according to Lamesa Coach Bob Harrell.

Lubbock's wonderful Westerners, riding high after thumping their ancient rival, Amarillo, 47 to 7, will be heavy favorites to hand the Lamesans their second straight defeat against five victories. Pampa, beaten by Lubbock, 33-20, knocked Lamesa out of the unbeaten ranks last Friday by a 32-13 count.

Fans Have Upset Fever

More than one Tornado fan has "upset fever" this week, and Coach Harrell says his club played Pampa a much closer game than the score indicated, adding that Lamesa played one of their worst games but against their strongest opponent.

The Tornadoes have done their best work of the year in this week's workouts, Harrell reports, and says his lads have high hopes of knocking over the state's number one team.

Jamie Pearson, regular left tackle, is sick in bed with a virus infection and will not play. Replacing him will be Phil Johnson, a 14-year-old junior who has been improving rapidly.

Substitute Guards Don Holt and Donald Cotten have the flu, but Cotten may be able to play some.

Don Hackney, second string fullback, suffered a broken right hand in a rugged scrimmage session Tuesday, but will see some action. The rest of the squad is in fair shape.

Stresses Running Game

Lamesa has stressed pass defense and the polishing of its offense, especially the running game. The Tornadoes piled up lots of yardage in the air against Pampa, but couldn't go on the ground.

Sparking the offense against Lubbock will be passers Bobby Hawkins and Ronald Chapman, and running backs are Dick Echols, Larry Lattimore and Delbert Dickenson.

The Tornadoes, a good little team, will be meeting a good big team in the Westerners. Lubbock will outweigh the visitors approximately 15 pounds to the man.

Lamesa has scouted Lubbock thoroughly, and several hundred Tornado fans are expected to make the trip to Lubbock in the hope that the locals will surprise the highly-touted Westerners.

GAME DUCATS AVAILABLE

AUSTIN, Oct. 26 (AP)—A thousand tickets to the previously "sold out" Texas-Southern Methodist football game at Dallas Saturday will go on sale here tomorrow. The tickets will be available at 5 p. m. at the U. T. athletic office at $3.60 per.

Rowland Sets Torrid Pace

ABILENE, Oct. 26 (AP)—Brad Rowland, McMurry's mighty man, already has gained almost six-tenths of a mile this season.

He has averaged better than 167 yards per game.

Statistics of the Texas Conference released today show Rowland to have rolled up 903 yards carrying the ball in six games. He did it in 95 tries.

Rowland is more than 300 yards ahead of Alton Green of Abilene Christian college, who ranks second.

Brad also leads in total offense with 1044 yards on 111 plays (he picked up 141 yards passing), in kicking with an average of 38.0 on 23 boots and in scoring with 78 points. In fact he leads the nation in point-making.

Al Langford of Howard Payne tops the circuit in passing with 57 completions out of 122 attempts for 815 yards and eight touchdowns. Bill Ayres of Abilene Christian college is second with 248 yards on 22 connections out of 67 throws.

Langford is second to Rowland in total offense with 965 yards on 187 plays. Langford has been in seven games.

Billy Jay of Howard Payne is second in punting with 37.7 on seven boots. Green is second in scoring with 48 points.

McMurry leads in team offense with 2619 yards—an average of 437 per game. Howard Payne is second with 2385-an average of 341.

Parks Bests Getz In Go

Al Getz may not know it, but his show is slipping.

At least a near capacity house at Sled Allen's arena last night might agree that the durable Dutchman is losing his grip. Getz accepted the challenge of Herb Parks and met him in the main event at the arena last night. Parks promptly lent credence to the belief that Getz isn't what he was by taking two out of three falls.

In the semi-final match, Alex Kasaboski lasted longer than the Grey Mask, but the hooded man from California won both falls when the mad Russian was disqualified.

Salvador Flores and Charley Carr put on a good 20-minute show in the preliminary, wrestling to a draw.

Getz showed that he had stamina by going 22 minutes before winning the first fall from Parks with a rolling leg split. Before that, the two wrestlers had been pretty tame, content to try few holds and say with them.

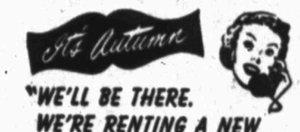

But the final two heats were more in the rollicking style associated with Getz. He roughed Parks up, slammed blows to the head and neck, rubbed his eyes on the ropes and generally made things as unpleasant as possible.

Parks, durable himself, took all Getz had to offer and dished out his own share of punishment. It gradually wore the Dutchman Parks applied a reverse toehold and Parks aplied a reverse toehold and arm stomp to win the second fall.

Then the Canadian from the far north came back to stand off Getz' rough tactics and grab the final fall. Getz apparently had Parks in trouble when he applied an arm lock cradle roll. But Parks suddenly braced his feet and caught Getz on his back, while the referee intoned the fatal three-count. It took seven minutes.

In the SMI-final, Kasaboski was treating the Grey Mask roughly and appeared well on his way to winning when he was disqualified. The Russian tossed the Mask over the top ropes in the first fall and the referee awarded the Mask that fall after 38 minutes of furious wrestling.

The second fall didn't take so long. With less than seven minutes remaining for two more falls, Kasaboski came out intent on ending it quickly. He grabbed the Mask, caught his head in a lock and began to rub his eyes. That

Coach At Gallaudet College For Deaf Has Plenty Of Troubles

Silent Gridders Use Sign 'Talk'

By EARLE MARCKRES
INS Sports Writer

WASHINGTON, Oct. 26.—Football coaches who think they have troubles should consider the plight of Tom Clayton, head mentor at Gallaudet college, the only college for the deaf in the U. S.

Gallaudet has a 23-man squad. All are deaf. Less than half can talk. One is blind in one eye. Another is near-sighted. Only about a half dozen have had previous football experience.

In addition, the team's captain and triple threat star, Marvin Tuttle, 178-pound quarterback from Winston-Salem, N. C., dislocated his knee in practice before the opening game and probably will be out for the season.

Last Saturday, before Gallaudet's game with Hampden-Sydney (Va.), Clayton was asked what the score would be. He smiled and added crisply:

"Fifty to nothing, if they use their second team."

Was Moral Victory

The score was 50 to 6. And H-S's 40-man team had to use a two-platoon system. But in a sense, it was a moral victory for Gallaudet. Three minutes after the kick-off, Truitt Saunders, 165-pound end from Castonia, N. C., intercepted a pass and scampered 50 yards for the first touchdown.

After that, is was no contest. Gallaudet's first — and only — team played virtually the entire game. There are few subs for the 60-minute "iron men."

In Gallaudet's glorious era, roughly between 1904 to 1916 the deaf boys took on the likes of Harvard, Penn and Navy. It was the heyday of brawn, and the "silent powerhouse" held its own.

Deaf Invented The Huddle

Some coaches credit deaf schools with inventing the huddle. Gallaudet's president, Dr. Leonard M. Elstad, has this theory. Elstad says two deaf teams had to huddle to keep the other from stealing signals. Others copied the idea.

Clayton's problems arise from the complexity of modern football. He pointed out that deaf players are basically handicapped by poor equilibrium. He said:

"They have trouble judging high punts, and they're unable to react quickly enough to spot passes and fast-opening plays."

Instruction, too, is a laborious process, Clayton said. All students at Gallaudet are winners of scholarships in their respective states. Usually, he said, football prospects have never competed before or they have played against other deaf boys. He remarked:

P. F. Brown, George M. Hunt Schools Vie For Flag Title

Coach Frank Latta's P. F. Brown team and Coach D. C. Heath's George M. Hunt eleven meet at 3:30 p.m. today at George R. Bean field in a game to decide the elementary school "flag football" championship for the north half of the city.

The south half titlist will be determined Monday at 3:30 p.m. when Howard Price's George Wolffarth aggregation goes against William Lowrance's Sanders squad at K. Carter field.

The victors in the Brown-Hunt and Wolffarth-Sanders games will meet the night of Nov. 4 at Chapman field for the city elementary school championship.

Arrangements for the playoff games were announced Wednesday by Marlin Hayhurst, coordinator of the elementary school physical education program.

SPORTS Slants

BY CHOC HUTCHESON

Interest in a "Junior World Series," matching the runners-up in the big league baseball races, is being revived, according to The Sporting News, and it's quite possible that the plan will be put into operation next year.

First proposed by Columnist Walter Winchell, the Junior World Series scheme would pit the American league runner-up against the second-place National league club, with all profits to go to the Damon Runyan Cancer fund.

Winchell's suggestion, made at the close of last season, came too late to be put to a test in 1949, but it now appears that there's a good chance for such a series in 1950. At least, the matter will be discussed at the annual December meeting of major league executives.

Latest modifications of the original idea call for at least part of the games of the "Junior World Series" to be played on the Pacific coast, as a sort of "measuring stick" for the popularity of big league baseball in the Far West (where the St. Louis American league franchise is almost certain to be transferred eventually). Series games not played in the West would be staged in the home parks of the two competing clubs.

My guess is that the idea, if adopted, will be heartily received by the public—particularly if 1950 produces two such red-hot pennant races as the 1949 campaign. There are still those who maintain, you know, that the two best teams in the majors (Boston's Red Sox and the St. Louis Cardinals) didn't get to the World Series this year.

* * *

Up Olton way, a friendly little organization known as the Olton Quarterback club is doing a great job of boosting town pride in the high school football team.

Earlier this week, I visited this group on the occasion of its annual "guest night" entertainment for visiting coaches and football officials. I was impressed by club members' "live wire" attitude.

Blessed this year with a first-rate ball team, the Olton Quarterback club has gone all-out in coordinating the town's support of the high-flying Mustangs. For instance, car caravans of 350 and 150 automobiles accompanied the squad on trips to Dimmitt and Farwell, respectively.

In addition to boosting interest in the high school eleven, the Olton organization has, according to Coach T. M. Cox, done much to advance the cause of good sportsmanship, and better relations between fans and game officials.

A doff of the derby for a job well done.

* * *

Jack Christian, the veteran football official who lives in Littlefield, thinks that this year's set of football rules are, in many instances, too hazily-worded. As a result he expects clarification of the current set no later than next year.

Most of the confusion (in the minds of coaches, officials and fans alike) this year is due to the vast number of changes from 1948 playing regulations. He points out, for example, that under Southwest conference standards, pass interference against the defensive team does not carry an automatic first down for the offensive team, while in the Missouri Valley circuit it does carry an automatic first down, regardless of yardage gained as a result of the penalty.

With such situations as this in existence, it's obvious that certain changes will have to be made at the close of the current season.

Incidentally, Christian, who has been officiating on the gridiron since 1931, will handle Friday night's Lubbock-Lamesa game at Jones stadium.

* * *

Last Sunday's meeting of Longhorn league baseball executives made it final that Abilene will remain in the WT-NM circuit next year. Blue Sox bosses had been considering transferring to the Longhorn league, provided it would move up from Class D to Class C status. But when Longhorn execs voted to remain in the D classification, the idea was dropped. As matters now stand, both loops will operate in 1950 with the same lineups as last year . . . While Meadow, Olton, Dimmitt, Hale Center, New Deal and Whiteface are setting the Class B grid pace on the South Plains, White Deer, Canadian, Turkey and Silverton loom as the top Class B clubs in the northern half of Region One . . . A widespread rumor around Amarillo early this week had it that Tailback Jack Newby had been lost to the Sandies for the season because of a foot injury suffered in the Lubbock game. Newby did sustain a chipped bone in his right foot late in the Westerner tilt, but he is not expected to miss any action because of the injury, which is a minor one . . . Congratulations to Mr. and Mrs. David Cook on the birth of a daughter here Wednesday. Cook, you'll recall, is the new Westerner basketball coach.

Robert (Red) Rolfe scored runs in 18 consecutive games for the New York Yankees in 1939, an American League record.

Sandie Players Of Future Impressed By Westerner Gridders

Add Amarillo - Lubbock stories, which we think is the best one yet to come out of last week's 47-7 thumping administered the now-lowly Sandies by the Lubbock Westerners.

From Putt Powell's column, "Putting Around," in the Amarillo Daily News, we quote:

"A SANDIE FAN" writes: "I have a 12-year-old son who plays on a Kids, Inc., football team. Friday night we saw Lubbock slaughter the Sandies.

Now, my boy, and most of the other athletically-inclined lads with whom he runs around, has always dreamed of the day he'll be a Sandie. He's wanted to be a Sandie ever since I can remember.

"Sunday, his Kids, Inc., team had a game. His team was ahead, 21-0, at the half. When they trotted off to the sidelines, what do you think my boy and several of his teammates who have always wanted to be Sandies were doing?

"They were strutting off the field with their chests out yelling 'We're Lubbock, we're Lubbock' We're really mowing 'em down!"

Ain't that a H—— of a note?"

Buffalo Lakes Are Restocked

Next spring, Buffalo lakes probably will be the "fishingest fishing hole" in West Texas.

That was the comment of Ed Hambright, Lubbock insurance agent, after helping unload approximately 60,000 fish into one of the lakes this afternoon.

Hambright, who has been instrumental in getting fish for restocking lakes in this area which were drained last May when flood waters washed out a number of dams, said the shipment probably was the largest ever to be brought into this area at one time.

The fish were brought in by special truck from the state hatchery at Dundee by J. D. Crane, an employe at the hatchery.

Crane estimated that the shipment included 30,000 channel catfish, 20,000 big mouth bass, and 10,000 crappie. Some fish were quite large, but the average size was four inches.

Hambright said the fish would be ready for fishermen by next spring. "Next year, everybody can fish at that lake, because there will be plenty for all," he said.

The fish were brought up in a seven-compartment tank which had an oxygen pump attached for supplying the fish with air.

They were packed in tightly, but seemed to suffer no ill effects from the long trip. Hambright said the fish represented about 30 five-gallon cansful. Upon being dumped into the lake, they churned the water into a froth, then disappeared into the depths to grow to maturity.

Hambright confided that he was somewhat overwhelmed by the size of the shipment. He said the most they had ever received before was about 15,000.

"Barring another washout, that lake should never need restocking," he said. The lake lost its abundant supply of fish last May when the dam washed out and left thousands of fish to die along the banks of the canyon.

At that time, Lubbock residents went fishing with tubs and buckets instead of rods and reels.

Hambright has supervised the restocking of several washed out lakes in this area, and plans to restock several more before spring.

UCLA, Portland and Sone Jose State replace SMU, Michigan State and Nevada on Santa Clara's football schedule next fall.

GRAND OLD FAMILY—Amos Alonzo Stagg, long famed as a football coach, now has assistants. The Grand Old Man of football is shown here with his son, Amos Alonzo Stagg, jr., head coach at Susquehanna university, and Mrs. Stagg. The elder Stagg is advisory coach to his son and Mrs. Stagg assists.

Dunbar, Vernon Will Meet Here Tonight

Dunbar High school's Panthers will be playing before hometowners again tonight when they meet Vernon at 8 o'clock at Chapman field.

Coach Damon Hill's eleven has won all its home games this season, and Coach Hill said Wednesday that he "thinks we can win tonight."

Over the season the squad has a four and two won and loss record, defeating Hobbs, Amarillo, Midland and Odessa and losing to Wichita Falls and Abilene.

Ready to go are the four fleet-footed backs, quarterbacked by Fred Wright. At halfbacks are Lawrence Robinson and Otis Walker, and Eddie Bullock holds down the starting fullback position.

Price of admission to the contest has been set at 74 and 30 cents, and a large crowd is expected.

Texas Linemen Concentrate On Stopping SMU Offensive

AUSTIN, Oct. 26 (AP) — Texas linemen concentrated on ways of stopping the S.M.U. offense here today while varsity backs got a look at the Mustangs defensive patterns.

The Longhorns will be trying for their first win in the Dallas Cotton Bowl in two years when they meet the Mustangs there Saturday afternoon.

New Mexico Freshmen Tangle With WTSC Frosh Saturday

ALBUQUERQUE, N. M., Oct. 26. (Special)— Continuing to move in overdrive, the New Mexico freshman football club takes its potent offensive punch to Canyon, Tex., Saturday to try out on the frosh of West Texas State.

On the basis of comparative scores, the Lobo Cubs will be prime favorites to add another victory to their winning season. The NM team goose-egged the Sandia Bombers 34 to 0 while the first-yearmen at Canyon got away with only a 7 to 6 verdict.

Walker Out Of Hospital

DALLAS, Oct. 26. (AP)— Doak Walker went home from the hospital today after a siege of the flu and there was joy at Southern Methodist university with prospects that the All-American back might be able to play Saturday against Texas.

Walker missed last week's game when SMU played Kentucky.

His mother, Mrs. E. D. Walker, said he was fully recovered from the flu and that the only thing bothering him now was a slightly infected wisdom tooth.

The Doaker wasn't home 30 minutes before he said he thought he'd just mosey over to the school to see his gridiron pals.

"I don't think he ought to play Saturday," Mrs. Walker said, "but I can't tell you what Doak will do. It wouldn't surprise me to see him playing 60 minutes against Texas."

"I feel fine," Walker said.

The past few days Walker has been doing push-ups in his hospital room so he'll get back into playing condition. He hasn't lost any weight and looks fit and ready.

Early Action To End Tieups Seen

(Continued From Page One)

of individual collective bargaining, company by-company, as the board recommended."

President Truman's fact finders recommended that industry and union agree on company-paid pensions and insurance costing 10 cents an hour. The union accepted. The industry balked.

Colvin contended the report referred specifically to 19 large steel companies.

Another Telegram Sent

Allegheny Ludlum Steel corporation also sent a telegram to Ching but officials would not discuss it.

Other companies said to be taking part in the action included Sharon Steel company, A. M. Byers Pipe Co., and Latrobe Electric Steel company.

Dr. Carroll R. Daugherty, chairman of the steel board, said in Pittsburgh Monday that the board could be recalled at the request of both union and industry.

The White House said President Truman has no plans for intervening in either steel or coal strikes.

With American railroads dropping about 600 coal-burning trains from service to conserve coal, one Pennslyvania community, Oil City, found itself without any passenger train service for the first time in memory.

Needy Workers Get Food

In steel centers, like Pittsburgh and Youngstown, needy steel workers lined up before soup kitchens and at union headquarters for free food packages. Merchants felt the pinch. Relief rolls climbed steadily.

Only gloom hung over the empty (coal) conference room at Bluefield, W. Va., vacated by negotiators for the United Mine Workers and southern owners.

They broke up their bargaining after a 90-minute session.

The operators said they received an ultimatum calling for a seven-hour day, a big increase in wages and a higher contribution to the UMW welfare and pension fund.

Miners now receive $14.05 for an eight hour day. Operators pay 20 cents for each ton of coal mined into the union's pension and welfare fund. John L. Lewis has estimated the union's demands would cost about 30 to 35 cents more a ton.

Armed Services Feud

(Continued from Page One)

council.

Denfeld will have an opportunity at the meeting to face Johnson for the first time since the congressional inquiry at which the admiral charged that existing unification policies are worse than no unification at all.

Johnson today held his second conference with Mr. Truman within 24 hours. The defense secretary again refused comment on the reports that Denfeld's ouster had been decided.

Presidential Secretary Charles G. Ross likewise countered all efforts to pry the lid of secrecy off White House developments in the unification row. Ross snapped a terse "no comment" to all questions on the matter.

Admiral Would Resist

Intimates of Denfeld said flatly that the admiral would not submit meekly to any ouster move. They insisted that if he is forced out he will "go down fighting."

Denfeld's normal two-year tour of duty as chief of naval operations expires Dec. 15, but Mr. Truman reappointed him last August for another two-year term and the Senate granted prompt confirmation.

Sherman was one of the few top admirals who did not participate, either actively or unofficially, in the Navy's attack on defense policies at hearings held by the House Armed Services committee.

Instead, by request of Navy Secretary Matthews, Sherman attended the hearings as an "observer."

Sherman Said Recommended

Both Matthews and Johnson are said to have recommended to Mr. Truman that he appoint Sherman to replace Denfeld. Sherman, who now commands the Sixth Task fleet in the Mediterranean, is a combat hero of World War II, a veteran naval aviator, and a co-author of the original military unification bill.

As the controversy headed for either "harmony or hell let loose," as one naval officer put it, Capt. John G. Crommelin declared he believes he achieved his "objectives" in taking the action which led to the congressional investigation.

Crommelin said he is submitting to Denfeld a formal explanation of his action in making public the confidential communications in which Denfeld and Admirals Gerald Bogan and Arthur W. Radford expressed to Johnson their criticism of defense policies.

The captain, who is under limited arrest and facing possible court martial, said he will not reveal the nature of his statement to Denfeld, but added:

"It seems to me that my objectives—that is, getting the senior Navy officers up there before the armed services committee—have been achieved and that it would be best for me not to have anything else to say."

$25,000 Highway Project Is Okayed For Terry County

A $25,200 state highway construction project in Terry county was authorized Wednesday by the State Highway commission, according to an Associated Press dispatch from Austin.

The project, approximately 4.2 miles in length, was described as extending from U.S. Highway 62 market road 403 near Brownfield north to State Highway 51.

The Terry county project was one of 11 highway projects authorized by the commission, with the total cost estimated at $389,700.

Navy Commissions

(Continued From Page One)

Star Spangled Banner" by the Air Force base band.

Capt. Coley then read orders activating the training center itself, and Lieut. John E. Ruzic read his orders designating him officer-in-charge of the training center.

Inspection Tour Made

Following the personnel inspection, the members and guests made an inspection tour of the training center.

Guests on the speakers' platform were Dr. Jones, Mayor Rodgers, Capt. Robert T. Canon, USNR, Comdr. A. H. Ashton, USN, of Eighth Naval district headquarters, Col. George H. Blaze, executive officer, and Col. H. D. Wallace, wing commander, both of Lubbock Air Force base; Comdr. R. D. Hutchins, director of the Naval Air Reserve at New Orleans, George Dale, president of American Business club, Col. James E. Becker, chaplain at Lubbock Air Force base, Chas. A. Guy, editor and publisher of The Avalanche-Journal.

Lt. Col. Ross Ayers, commanding officer of the 131st field artillery of the National Guard, W. T. Gaston, business manager of Texas Technological college; Robert W. Sisson, manager of the Veterans Administration regional office; Homer D. Grant, president, and A. B. Davis, manager of Lubbock Chamber of commerce; Russell (Curly) Wilkinson, president of Lubbock Junior Chamber of commerce.

Other Guests Listed

H. G. Urguette, president of Knights of Columbus, Dr. Fred W. Sparks, president of Kiwanis club, R. W. Matthews, superintendent of schools, G. C. Victory, president of Rotary club; Mrs. W. E. Klein, president of the Navy Mothers club; and M. B. Hilburn, jr., president of the Exchange club.

In a talk sparked with humor, Capt. Coley pointed out that the question existed as to why the Navy establishes training centers so far from large bodies of water. He explained that through job analysis the Navy has made each Reservist a specialist in his field, and through the Reserve program, attempts to give each member the type of training that would enable them to serve their country best in time of war or emergency.

Payroll Boosts City

Emphasizing the importance of the Naval Reserve Training center to Lubbock, he pointed out that the unit brings an annual payroll of $40,000 to the city.

In passing, he remarked that salt water was not as far away as generally thought, since it often gives oil drillers trouble in this area. Referring to Mayor Rodgers' allusion to Navy-Air Force unit, he pointed out that he had found unfailing cooperation on "his level" with the Air Force.

The formal ceremony Wednesday afternoon was followed by a dinner at the Hilton hotel Wednesday night honoring Capt. Coley, Comdr. Ashton, Comdr. Sabathier and Comdr. Hutchins. Hosts were officers of the Lubbock Naval Reserve unit.

Those in attendance included Lt. Comdr. Vickers, Lt. William Wayne Kitts, executive officer, and the following officers of the unit: Lt. Comdr. Alfred P. Couch, Lt. Comdr. Clayton P. Jones, Lts. John Ragland, William C. Clark, Luther Edwards, Lts. (jg) Noel Johnson, Johnathan Lindsey, Byron Bennett, Robert L. Mason and Jack Riggs; and Ensigns Frank A. Smith and Don G. Smith.

Get Acquainted Party Slated Here Nov. 4

Final plans for a "get acquainted party for Lubbock Army Air Force base personnel on Friday, Nov. 4, were made last night at a meeting of Lubbock Post 2466 of the Veterans of Foreign Wars.

The party, to be held in the VFW clubhouse at Thirty-fourth street and Ave. N, also will have members of the Lubbock National guard unit as guests. The 7:30 p.m. party will begin with a short entertainment program, followed by a Dutch lunch and soft drinks.

William Earl Creel, VFW commander, said more than 500 members and guests attended the meeting last night. With 33 new members added to the roster, the membership now totals 1,662.

Joe Meador, post member, entertained with a comic speech.

Plans for the annual Armistice day breakfast also were completed. The breakfast will be held at 7 a.m. on Nov. 11, in the VFW building, with all veterans invited.

Four VFW buglers, riding in trucks, will tour Lubbock between 5:30 and 6:30 a.m. on Armistic day, sounding reveille to wake up the town.

Whiteface Farmer Indicted For Murder

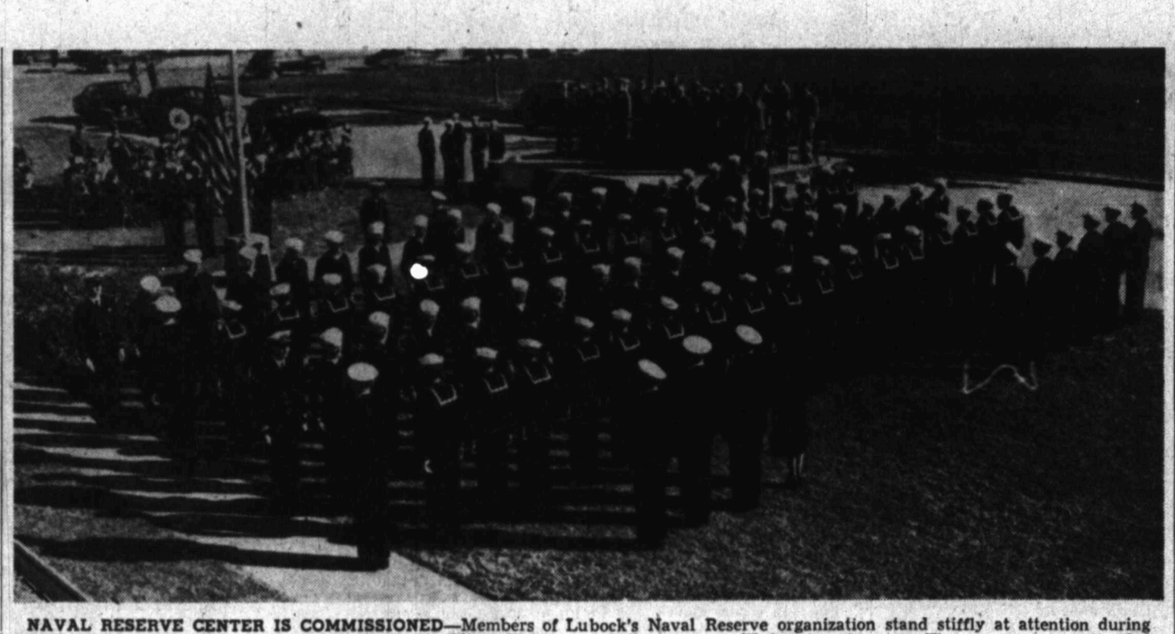

MORTON, Oct. 26. (Special)—Leo Nichols, 37-year-old Whiteface farmer, was indicted today by a 72nd district grand jury for murder in the gunshot death of his wife.

Judge Dan Blair ordered the defendant held in denial of bail.

Nichols, has been held in the Hockley county jail in Levelland on a charge of assault with intent to murder since the Oct. 14 shooting at his farm home. His wife died Oct. 22 of a bullet wound in her chest.

The grand jury also returned an indictment of assault with intent to murder against Jimmie Johnson, 38-year-old Waxahachie negro cotton puller in connection with the Monday night shooting of another negro. Bond of $2,000 was set for Johnson.

The victim, James Rocher, 30, was described in good condition at West Plains hospital here where he was taken with a bullet in his left lung.

NAVAL RESERVE CENTER IS COMMISSIONED—Members of Lubock's Naval Reserve organization stand stiffly at attention during an impressive commissioning ceremony at the building, Eighth and College avenue, Wednesday afternoon. The ceremony was attended by many Lubbock civic leaders and high-ranking officers from Lubbock Air Force base. (Staff Photo.)

European Warning

(Continued From Page One)

hope is a strong and prosperous Europe."

Hoffman said he will wait until reaching Paris before deciding what he will tell Europe's Marshall planners. But he gave this much of a hint: They should "do better" in their efforts at mutual aid, and must try to increase dollar-earning exports to America.

Unions Sought

ECA officials said guardedly that his foremost hope is to persuade the 19 Marshall plan countries to form regional economic and monetary unions across Europe, eliminating tariff and exchange barriers within those regions.

As a second aim, it was disclosed, Hoffman will propose to the British the creation of an Anglo-American council on merchandising.

Hoffman, it was said, is prepared to "get tough" in talking to the central council of the recovery program, the Organization for European Economic co-operation (OEEC). It will meet Nov. 3.

Connally, one of the Marshall plan's most influential friends in Congress, said talking tough is "the right thing." He added: "He should have done it earlier."

The forecast of a billion-dollar cut, Connally said, is his personal guess on what Congress will be willing to do next year.

Hoffman was reported to be gravely worried over the outlook in Congress, and fully prepared to lay his fears forcefully before Europe's own recovery planners.

Lamesa To Be Host For Carnival Tonight

LAMESA, Oct. 26 (Special)—The annual Hallowe'en carnival sponsored by the Lamesa P-TA will be staged tomorrow night at 7 o'clock at McCollum field.

Over 1,900 school children, from 55 home rooms in the first through the eighth grades, paraded through the business section this afternoon for an hour to advertise the event. The parade was led by the Junior High school band, directed by Miss Jamie Trainer.

The carnival, featuring 35 booths ranging from foods to sideshows, doll racks and balloon stands, will be highlighted by the crowning of the carnival queen.

Eight school girls are in the queen race, and the voting will close at 8:30 Thursday night. The race will raise a total of about $1,300 for the P-TA, according to Principal G. L. Trice, and the P-TA has already allocated the money for the purchase of 50 top-quality football uniforms for elementary teams.

P-TA officials are Mrs. J. H. Baldwin, president; Mrs. Robert Koger, vice president; Mrs. Bowen Cox, treasurer; Mrs. Ella T. Alverson, secretary.

Rites Slated Friday For Mrs. A. W. Jones

Funeral services for Mrs. Aubry W. Jones, 64, a Lubbock county resident for the last 57 years, who died early Wednesday afternoon at the home of her daughter, Mrs. Emmett Burford of Lubbock route 1, will be held at 2:30 p.m. Friday in the Monroe Church of Christ.

Dr. M. Norvel Young will officiate and burial will be in the Pioneer cemetery at Estacado under direction of Sanders Funeral home.

Mrs. Jones was born in Fort Griffin, Texas, and was the daughter of Mr. and Mrs. W. E. Bledsoe.

She is survived by, besides Mrs. Burford, two children, Mrs. E. W. Woods, Pittsburg, Calif., and Mrs. Cecil Simms, Canyon; five brothers, Robert L. Bledsoe, of Petersburg, Carl of Aroya, Colo.; J. Frank, of Lorenzo; Henry, of Cheraw, Colo., and Ed, of Colorado Springs, Colo.; five grandchildren and two great-grandchildren.

A sister, Mrs. J. O. Jones of Abernathy and two brothers, Roy and Jim, both of Lubbock, preceded Mrs. Jones in death.

U. S. Scores Reds

(Continued From Page One)

bassy clerk Samuel Meryn. Patch and Heyn were given 24 hours to leave the country and Meryn was arrested.

Acheson said:

"This government cannot admit the principle that mere contact by its officials abroad with the citizens of a friendly country constitutes espionage."

Acheson added that he regards the Czech action as "an unusual and drastic demand" which is "typical of the disregard of usual international courtesies of the Communist regimes of Eastern Europe," despite the fact the U.S. had acceded to the withdrawal request.

The secretary noted that the charges against the diplomats and the clerk were said to be based on "irrefutable proof" and "confessions" of Czech citizens. He said:

"This government has sufficient knowledge of the police methods and practices employed by the present regime in Czechoslovakia to know how much credence can be placed in 'confessions' and 'irrefutable proof' produced in politically-inspired propaganda of this kind."

In the Chinese controversy, Acheson referred to Chinese Communist refusal to grant exit visas to Gen. Robert B. Soule, U. S. military attache in Nanking, and Comdr. Morgan Slayton, assistant U. S. naval attache. Others being refused visas by the Chinese include Dr. G. C. Shram, U. S. public health office, and Chief Yeoman Alvin E. Shrout, in Shanghai.

Acheson said all four had completed the necessary procedures for obtaining their exit permits.

NEWS BRIEFS

Dr. D. M. Wiggins, president of Texas Technological college, has been absent from his duties since Monday because of a cold which has kept him in bed. Officials at the college did not know when he could return to work.

Leo Dean Townsend, 21, of 508 Forty-fourth, was arrested here Wednesday for Hobbs, N. M., authorities on a warrant charging robbery from the person. The suspect, who has waived extradition, was taken into custody at fourth and Ave. H at midmorning by City Patrolman H. A. Cunningham who recognized him as the man described on police radio broadcasts. New Mexico officials indicated they would send officers to accept custody of the suspect.

Seven women arrested by city police in several downtown hotels last night on charges of vagrancy by prostitution were released after posting bonds of $200 each following pleas of not guilty, police records showed.

200 School Leaders Attend Lamesa Meet

LAMESA, Oct. 26. (Special)—More than 200 school administrators from 20 counties met here at 8 p. m. today for a banquet in the Lamesa High school cafeteria.

County superintendents, school superintendents, principals, and supervisors of District IV of the West Texas State Teachers association listened to the main address by Delbert Downing, secretary of the Midland Chamber of Commerce. Downing spoke on the teaching of Americanism and free enterprise in schools today.

The group inspected the new $850,000 Lamesa High school building.

Musical selections were presented during the banquet by Miss Jay Wiggins, Lamesa High school student, on the piano and by the Lamesa High school A Capella choir.

Joe C. Hutchinson, Littlefield school superintendent, presided over the banquet.

Three Men Charged

(Continued From Page One)

head, refused to come out. It was believed later Groves had entered the field in an attempt to repair the jammed weapon.

Slipped Up On Suspect

Groves was captured when Ford managed to flank the suspect's position in the road by edging through a cotton field in the darkness while Boone shouted commands for him to surrender.

Groves, who has given a stock answer of "come and get it" to Boone's orders to drop his gun, finally laid the weapon in the road and was seized by Ford.

Following Groves' capture, the officers stationed themselves on either side of the suspects' car. The remaining two gunmen gave up without resistance when efforts to repair their .22 calibre Winchester rifle failed. The rifle was later found in a nearby field where one of the men had thrown it before surrendering. The two men had fired several shots at the officers as they closed in on Groves.

Several Shots Fired

Ford said he and Boone fired "about 15 shots" in the affray. "Several shots were fired from the rifle," he said.

Padgett told officers that the three men had appeared at his farm demanding gas, producing the pistol to back up their request. He stated they threatened to shoot his son and son-in-law, officers said.

Padgett drove to a cotton gin about three miles from his farm and notified the sheriff's department after the men left with the gas.

Truman Grove, Oklahoma authorities told Hockley County Sheriff Charlie Bullock, was to have been tried Monday in Ada on charges of robbery filed against him there.

Bradley Warns

(Continued From Page O

get things started on a form of universal military training "in accord with the realities of the existing situation."

The resolution also repeated the guard's opposition to federalization. This stand, later in the day, received the support of Alabama Gov. James E. Folsom and U. S. Senator Lister Hill (D-Ala.).

The term "atlas" was first used for a book of maps by Mercator, a Flemish cartographer.

Truman Signs

(Continued From Page One)

ards necessary for health, efficiency and general well-being of workers."

The President pointed out that the new law contains seven major provisions, which will:

1. Require all employers to pay a minimum wage of 75 cents an hour to employes if they are engaged in commerce or in the production of goods for commerce. This would mean average wage boosts of from five to 15 cents an hour.

2. Require every employer to refrain from employing "any oppressive child labor in commerce or in the production of goods for commerce."

Suits May Be Filed

3. Enable employes to recover unpaid back wages owed them under the wage-hourt act in suits brought by the wage-hour administrator on their written request.

4. Provide a comprehensive definition of the term "regular rate" used in the wage-hour act as a basis for computing overtime pay when employes work more than 40 hours a week.

5. Encourage the development of plans for employment on an annual basis through collective bargaining "by providing greater stability in the overtime provisions" and assuring stability of income for wage earners and of operation for employers.

6. Bring within the coverage of the minimum wage employes of airlines and of fish and seafood canneries.

7. Preserve and strengthen restrictions on industrial homework "where necessary to protect the minimum wage."

Tito Pledges Fight

(Continued From Page One)

Mates said that Karl Mrazovic, who was accused in a Soviet note of "spying and subversive activities," had been elected president of the Croatian republic several weeks ago and now is in Zagreb.

Note Termed Defamatory

Mates termed the note a "defamation and attempt to make an honest man a spy and darken his character in the eyes of the world."

Tito, whose country long has been at odds with Italy over claims to Trieste and adjacent territory, said Yugoslavia needed a large number of specialists and skilled workers from Italy to aid industrial development.

Such development has been at the heart of the Soviet-Yougslav fight, with Russia demanding that Yugoslavia serve as a raw material supplier for eastern Europe and Yugoslavia refusing to accept this role.

Visits Are Urged

Tito accepted the suggestion of the Italian partisans, whom he met at a reception in Belgrade, that Italians visit Yugoslavia to see "socialist reality" in action and added:

"We have nothing to be ashamed of. I invite all those who wish to learn the truth to come and see for themselves."

Tito accused Russia of erring in carrying out Marxist-Leninist policy "by aiming at the political and economic subordination of small countries."

Reiterating his previous stand on this question, Tito declared:

"This we will not permit."

It was Tito's first opportunity to hit back at Russia's demand for the recall of the Yugoslav ambassador to Moscow.

(Continued From Page O

held March 28 in the Fort Sam Houston National cemetery in San Antonio. The Rev. J. H. Bryant, pastor of the First Baptist church of Lorenzo, officiated. His parents and a sister, Mrs. Bruce Shepherd of Post, attended the services.

Reese joined the Army in January, 1941, and was assigned to the 133rd Division at Camp Bowie in Brownwood. In November, he was transferred to the Air Corps, and went first to Rankin field in California. He received his wings at Stockton field, Calif., in May, 1942.

He served for a while as a P-38 test pilot at Patterson field in Dayton, O., and was transferred to England in October, 1942.

He ferried planes to North Africa, then was transferred to that area, where he was based at the time he was killed. Only two weeks before his death, he crashed in bad weather, and had to live with natives before returning to his base.

Reese was born in Josephine, Collins county, and moved with his parents to West Texas in 1929. He attended Shallowater High school, and was graduated in May, 1935. He was a member of the high school basketball team, which won the district title one year.

He was graduated from Texas Tech in August, 1939, with a degree in civil engineering. He worked with the Texas Highway Department before he joined the Army.

Hallowe'en Carnival Slated At Frenship School Friday Night

WOLFFORTH, Oct. 26. (Special)—Frenship school's annual Hallowe'en carnival will be held here Friday night, with a busy night scheduled for the students and their parents.

A coronation of three queens to reign over the carnival will climax the festivities which are scheduled to begin at 7 p.m.

Concessions and booths will be in the high school building and the cafeteria. This year's carnival will offer fortune telling, a country store, a shooting gallery, a cake walk, basketball shooting, chunking at teachers, movies, a traveling race, a food booth, and a fish pond.

Masquerade Parade Planned

Those in costume will participate in a masquerade parade in the high school gymnasium, after which cash awards of $2.50 each will be given to those judged to have the prettiest, the ugliest, and the most original costumes.

According to school Supt. E. A. Deering, the parade probably will begin about 9:30 p.m., after which the coronation of the three queens will be held.

The identity of the queens will not be revealed until they are presented at the ceremony. Two will be chosen from the elementary school, and one from the high school.

Candidates Are Listed

Elementary school candidates, listed with their escorts, are: Judy Faye Jackson with Robert McMullen, and Sharon Ann Kiser with Phillip Steyerman from the first grade; Karen Williamson with Michael Hilburn, and Gail Beason and Irvin Wilson from the second grade; Tommye Richardson with David Swinford, and Patricia Patterson with Billy Baker from the third grade.

Zonetta Fain with Donnie Gillit from the fourth grade; Sylvia Burroughs with George Celler from the fifth grade; Cornelia Rogers with Sidney Dalton from the sixth grade; Janelle Williams with Freddy Jerden from the seventh grade; and Nancy Cade with Billy John Haws from the eighth grade.

One queen will be chosen from the first five grades, and another from the sixth through eighth grades.

The high school queen will be one of the following, listed with their escorts: Ruth Williams with Wayne Ramsey from the senior class; Janelle Goodpasture with Lon Ed Cox from the junior class; Peggy Denton with George Hughes from the sophomore class; and Mona Dell Goodpasture with Don Davis from the freshman class.

Delmer Green, a senior, will be narrator at the coronation. Edward Steyerman, a freshman, will be herald. Ringbearers will be Jimmy Flournoy, Bobby Alexander, and Victor Matula. Flower girls will be Norma Fain, Gwendolyn Crump, and Trina Pat Gibson.

Bradford Bullard will direct special music for the occassion, with the grade school girls chorus singing. Mrs. Lorena Holden will be accompanist for various musical numbers.

Arrangements for the carnival have been under the direction of the school's 12-member student council, headed by Earl Ray Swinford, in cooperation with Principals J. Weldon Bennett and Mack Steger, and members of the faculty.

The public is cordially invited to attend.

PLAN TO CARVE UP CIO LEFT WING UNIONS BARED

CLEVELAND, Oct. 26. (AP)— A right wing plan for carving up at least three major CIO unions under so called left wing control was disclosed tonight in advance of a convention showdown. The convention begins here next Monday.

The rightists — representing the anti-Communist elements in the CIO — were reported to have agreed with CIO President Philip Murray on this general plan for disposing of their politically leftist enemies:

1. The United Electrical workers, Farm Equipment Workers and Mine, Mill and Smelter Workers would be tossed out of the CIO forthwith.

2. A new charter "probably" would be established in the electrical field so that the right wing faction, headed by CIO Secretary-Treasurer James B. Carey, can start all over again to organize electrical, radio and television workers.

3. Murray's own steelworkers union would absorb the Mine, Mill and Smelter Workers — an organization for almost all the nation's miners outside the coal fields.

4. A special organization committee would be set up for the public workers, white collar and other jurisdictive fields now controlled by the CIO's 11 or 12 so called left wing unions.

5. The approximately 50,000 members of the Farm Equipment Workers, directed by the CIO executive board to merge with Walter Reuther's auto workers after last year's convention, would be turned over in a bloc to Reuther. FE President Grant Oakes has tried to take his union under the wing of the leftist-dominated UE, the CIO's third largest union with about 500,000 members.

Congratulations to:

Mr. and Mrs. David A. Cook of 2211 Twenty-third on birth of a daughter weighing 7 pounds 6 ounces at 3:13 p. m. Wednesday in West Texas hospital. The father is Lubbock High school basketball coach.

Mr. and Mrs. O. Marcy of 621 Thirtieth on birth of a son weighing 8 pounds 14 ounces at 12:51 p. m. Wednesday in West Texas hospital. The father is employed by the National Biscuit company in Amarillo.

Mr. and Mrs. George Adcock of 2614 Fifteenth on birth of a son weighing 7 pounds 14½ ounces at 6 a. m. Wednesday in West Texas hospital. The father is stationed at LAFB.

Mr. and Mrs. E. S. Foster of 238 Ave. M on birth of a son weighing 7 pounds 9 ounces at 12:35 p. m. Wednesday in West Texas hospital. The father is a cook at the Shamrock cafe.

Mr. and Mrs. John Greenshaw of 1312 Lillian on birth of a son weighing 7 pounds 2 ounces at 6:09 p. m. Tuesday at Porter clinic-hospital. The father is a truck driver.

Mr. and Mrs. Ven Pieper of 2618 Thirty-eighth on birth of a daughter weighing 7 pounds 8 ounces at 4:21 a. m. Wednesday at St. Mary's hospital. The father is employed by Holsum bakery.

Mr. and Mrs. Alberto Villa of Lubbock route 4 on birth of a son weighing 1 pounds 8 ounces at 1:58 p. m. Tuesday at St. Mary's hospital. The father is a farm laborer.

Mr. and Mrs. S. P. Berry of Levelland route 5 on birth of a son weighing 6 pounds 2¼ ounces at 11:18 p. m. Wednesday in Lubbock Memorial hospital.

Atomic Control Talks

(Continued From Page One)

jection at an early date by Russian Foreign Minister Andrei Vishinsky of President Truman's Baruch plan endorsement.

Little Hope Held

The Russian attitude as displayed in the documented report made it evident to the West that the Soviet government under no circumstances will lift the iron curtain to permit a UN inspection team or control agency to cross the borders, except in extremely limited capacity.

The record of the secret sessions at Lake Success put emphasis on Russia's insistent demand that atomic plains within any state be of national ownership instead of any international agency set-up.

The report further disclosed that Russia failed to present new ideas or offer any approach to a compromise solution, which led the five powers to observe that in the absence of agreement the talks "have served to clarify some of the points on which there is disagreement."

Differences Emphasized

The five-power statement summarized the deadlock on atomic control efforts by declaring "there is a fundamental difference not only on methods but also on aims." It emphasized that all the powers, except Russia, are ready to sacrifice principles of sovereignty in favor of world atomic security.

The statement added:

"The government of the USSR puts its sovereignty first and is unwilling to accept measures which may impinge upon or interfere with its rigid exercise of unimpeded state sovereignty."

The five nations concluded that if this fundamental difference could be overcome, "other differences which have hitherto appeared unsurmountable could be seen in true perspective, and reasonable ground might be found for their adjustment."

Russia Holds Key

The core of the East-West controversy lies in Russia's refusal to support the rigid international inspection system and control provided for in the American plan approved overwhelmingly by the UN General Assembly.

The West has insisted on establishing effective controls first, but Russia has demanded abolition of the atomic bomb and has opposed the inspection system. According to the Soviets, the American plan seeks to set up a "super atomic trust" that would hamper atomic production in other than Anglo-American countries.

The records, comprising the period from Aug. 9 to Oct. 30, 1949, also show that Soviet Delegate Jacob Malik declared that the United States no longer has a monopoly on the atomic bomb.

Shivers Favors

(Continued From Page One)

banded together in an electric co-op.

Shivers said the argument had been advanced that because the REA is big business in Texas and getting bigger, it should have to pay more taxes.

See No Advantages

"Insofar as the state of Texas is concerned, I know of no advantage that is now being enjoyed by the REAs. East REA pays a franchise tax of $10; other private corporations pay according to the amount of capital invested in the business," Shivers said.

"But these other corporations are organized to make a profit so they can pay dividends to their stockholders. By requirement of the constitution, the rural electric cooperatives pay ad valorem taxes just as do other private corporations.

Governor Shivers, with a party which included U. S. Senator Lyndon Johnson, left El Paso at noon by plane for Austin.

Plainview Man Suffers Minor Injuries In Highway Crash

No serious injuries resulted from a two-car collision about 7 p.m. Wednesday one mile southeast of Posey on the Slaton-Lubbock highway.

Scott Earl Wallace, 34, of Plainview, was taken to Mercy hospital in Slaton by Williams Funeral home ambulance, where he was treated for a gash across his left eye. He was later released.

Henry Weston Dial, 37, of Lubbock, driver of the other car, was uninjured.

The Texas Highway patrol reported that Wallace and Dial both were driving northwestward toward Lubbock at the time of the accident. Wallace's 1946 Ford sedan struck the rear of Dial's the Chevrolet to overturn an fell into an adjoining cotton field. Highway Patrolmen were continuing investigation of the accident last night.

BANQUET SCHEDULED TONIGHT

Plans For New Church Building To Be Presented To Methodists

Members and friends of Forrest Heights Methodist church will attend a banquet at 7:30 p. m. today in Fellowship hall of First Methodist church.

A highlight of the gathering will be the presentation to the church congregation of the plans for the new church structure which is to be built at Thirty-third and Monroe Ave.

Rev. H. D. Seago, pastor of the First Methodist church of Seminole, will be principal speaker at the banquet.

To Plan For Drive

Another feature of the banquet will be the presentation of plans for a fund-raising campaign to finance construction of the church building. However, no solicitations will be made at the dinner meeting, Rev. Burgin Watkins, pastor, said.

Short talks will be made by church officials, and a brochure on the new church structure will be presented to members and church friends. Dr. J. O. Haymes, Methodist district superintendent, will be among the guests.

Forrest Heights Methodist church was organized last spring and currently has a membership of more than 130 members. The church is to be built on a site given by the late S. Lamar Forrest. The first unit of the building to be constructed will cost in the neighborhood of $80,000, and will be used for educational purposes after the church sanctuary is built at a later date.

The building is of contemporary design. Plans were drawn by the architectural firm of O. R. Walker.

Mrs. O. R. Copeland general chairman for the banquet. Committees and their members are as follows:

Arrangements, Mrs. Perry Craddock, chairman, Mrs. Paul Brenneman and Mrs. :W. C. Warren.

Food, Mrs. S. C. Rawlings, chairman, Mrs. O. E. Baker, Mrs. F. H. Bryant, and Mrs. R. L. Ellison.

Tickets, Mr. and Mrs. E. E. Hewett, Mr. and Mrs. Frank Page, Mr. and Mrs. Wade Larner, Mr. and Mrs. Gordon Mills, and Mr. and Mrs. Dan Heath.

Ralph Krebbs will be master of ceremonies for the banquet.

Tech Students To Complete Pledgeship Into Fraternities

Approximately 100 men students at Texas Technological college will complete pledgeship to social fraternities in a convocation to be held from 4:45 to 6:15 p.m. today in Aggie auditorium, Dean of Men James G. Allen announced Wednesday.

Names of those who will be initiated into one or the other of the fraternities will be released later.

Visitors To Tech Face Confusion Over Dormitories

Imagine the confusion if Joe College's mother came to Texas Technological college only to learn that her son is living in women's dorm number one.

A little sensational? Maybe so, but Mama might not be any more enlightened when she learns that women's dorm Number One is really Doak hall and that men live there now.

So, Mama picks up the telephone directory. Maybe that'll help. Here's Men's dorm Number Three East West Broadway. What? Oh, boy's dorm Number Three is really East hall and it's located on West Broadway. That clears up matters a lot.

Now let's see, daughter Mary lives in women's dorm Number Four. But that's not listed. Oh, someone says, women's dorm Number Four is really the other half of women's dorm Number Three. You can call there by asking for women's dorm Three West.

Oh, yes, wanta call Drane hall, too. That's not listed either. Maybe I oughta try this — "Dietician girls dorm Number One Tech college." Now, what kind of talk is that? Huh? Oh, yeah, Drane hall is really girl's dorm number Two. Girls don't live there though. Half of it's reserved for couples now.

And, if I want to call someone in West hall, should I dial for boy's dorm Number One west hall or boy's dorm Number Four West West Broadway?

Might as well wait for the new city phone directories. Maybe they'll clear matters up—Maybe.

Why is the present phone book so confusing? Well, all the dormitories on the Tech campus have two names—numbers and words. Feel any better?

Funeral Services Are Held At Slaton For Post Resident

SLATON, Oct. 26. (Special)—Funeral services were held at 3 p. m. today in First Methodist church here for Erwin Willhelm Bruedigan, 38, of Post, who died in Corpus Christi Monday.

Rev. Lowell C. Green, pastor of the Ev. Lutheran church of Southland, officiated at the services, assisted by Rev. David Sieberg pastor of the Shepherd King Lutheran church, Lubbock.

New Dial Telephone System To Be Set Up On Tech Campus

A private branch dial telephone system will be ready for use at Texas Technological college by the 1950 fall semester, M. L. Pennington, comptroller, has announced.

Installation of the new system, for which a contract was signed this week, will make it possible for persons in main campus buildings to dial dormitories without going through the operator, Pennington said.

New Trunk Lines Planned

The Tech operator will handle only incoming campus calls when the dial system is begun, since collegians and teachers may reach downtown numbers by dialing nine. An addition of five trunk lines to the 10 currently held by Tech will be reserved exclusively for outgoing calls.

Increased efficiency is expected to result from the telephone change. Several factors, including the assembling of new equipment and completion of wings to the administration building, are responsible for the delay of the project until next fall. Equipment and operating rooms for the new system will be housed in the building's east wing, now being constructed.

There will be 160 stations with 70 extensions under the new setup as outlined by Pennington. That number can be increased to as many as 200 stations with an unlimited number of extensions. The five additional trunk lines will all connect to the main campus, with all dormitories retaining their current number of lines.

A directory of staff members, listing the numbers of each, will be published by the college, according to the comptroller.

Oklahoma, Kansas, Texas Lead In Number Of Oil Wells Drilled

TULSA, Okla., Oct. 26. (U.P.)—Oklahoma, Kansas and Texas led the nation in the number of new wells drilled last month; the Oil and Gas Journal reported today.

Oklahoma completed 346 wells, Texas completed 1,289, and Kansas completed 316. Of Oklahoma's total, 209 were oil and 16 gas, while 121 were dry holes.

In total footage, Oklahoma, with 1,282,078 feet, ran third behind Texas and Louisiana. Texas reported 5,415,879 feet and Louisiana 1,358,832.

Only Texas topped Oklahoma in the number of rigs at work during the month. Texas had 1,439, Oklahoma 622.

The Oil and Gas Journal said that new wells drilled during September missed the year's record of 3,673, reached in June, by the slight margin of 162. A total of 3,511 were completed during the month, with 2,266 oil and gas wells and 1,245 nonproducers.

Completions for the first nine months of 1949 were down 503 wells, or 1.7 per cent, compared with the same period last year. However, footage showed a gain of 2,210,342, or 2.2. per cent.

Texas, New Mexico Officials To Discuss Pecos River Problems

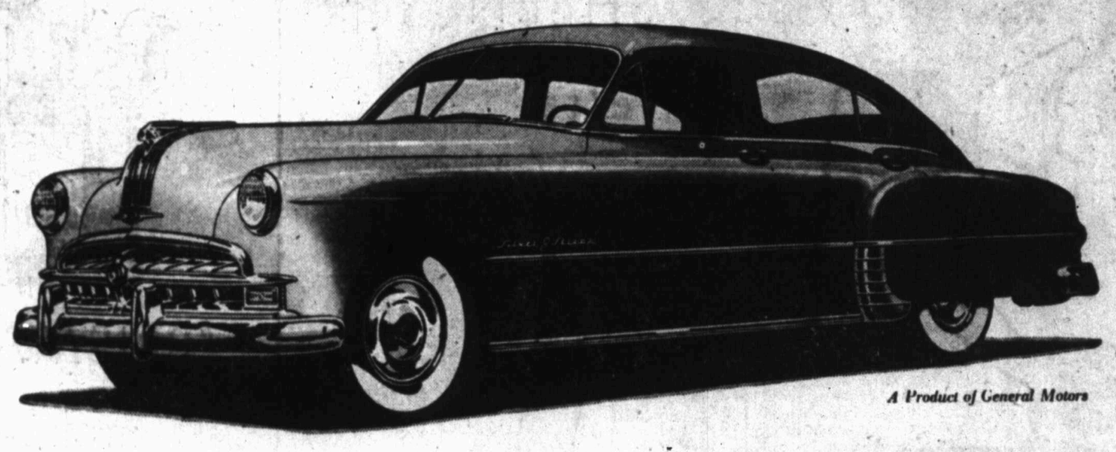

WASHINGTON, Oct. 26. (AP)—Texas and New Mexico problems relating to the Pecos river will be discussed by Sen. Chavez (D-NM) and J. C. Wilson, Texas Pecos river compact commissioner, at a meeting in December, Chavez' office said today.

Frank Burnett, a member of Chavez' staff, made public a letter from Wilson accepting an invitation to the conference. He said it probably will be held in New Mexico. Neither the date nor the place of the meeting has been set.

Wilson wrote the senator with regard to the Pecos river that he would be glad to talk over "the various controversial problems in the hope that a better understanding can be reached between Texas and New Mexico which will in the end work to our mutual benefit."

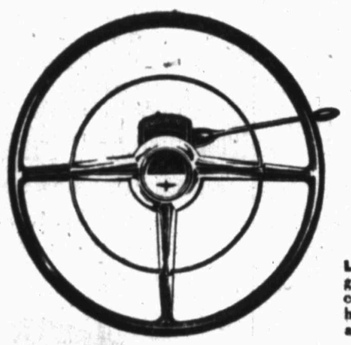

One of the matters expected to be discussed will be the nature of flood control works to be proposed for Roswell, N. M., Burnett said.

You ought to be driving a PONTIAC

A Product of General Motors

Come In—See How Little It Costs!

Where the new Pontiac is concerned, there are just two kinds of people—proud owners and ardent admirers. And for every owner there are ten admirers!

If you are still among the many who admire Pontiac from afar, we can only tell you this: We are glad you like this beautifully impressive car, but we can't help wondering what keeps you from fulfilling the wish to own one!

The chances are you are missing a lot of satisfaction and pleasure simply because you do not realize how very, very easy it is to own a Pontiac. For Pontiac, in spite of its unrivalled beauty, is a low-priced car. It is, in fact, the lowest-priced straight eight in America, lower priced by far than a great many sixes!

Come in and let us show you just how little money it takes to become a Pontiac owner. You'll be pleasantly surprised—because it's a *lot less* than you think!

LOWEST-PRICED CAR IN THE WORLD WITH HYDRA-MATIC DRIVE gives you unsurpassed "automatic" driving ease. No clutch pedal. No continuous shifting. You just sit back *and drive!* GM Hydra Matic has proved, in millions of miles of driving, the most economical of all automatic transmissions! Optional on all models at extra cost.

Warning Sounded Against Rush To Area

Alaskan Prospectors Brave Sub-Zero Cold To Seek Gold

FAIRBANKS, Alaska, Oct. 26. (INS)— Reports of further discovery of nuggets at Fishwheel were assayed tonight as a "ton of talk to an ounce of gold."

This evaluation was given by Fred Weiler, manager of the federal land office at Fairbanks, who said:

"What this office has is reports — not gold. And the only credible reports I have received indicate that the total amount of gold known to have been removed from the Fishwheel site ads up to about $25."

Weiler said he informed the Interior department in Washington, D. C., yesterday that:

"New reports received in my office (Tuesday) disclose further discovery of nuggets."

He emphasized today that the word "reports" should be underlined and added that:

"There have been a considerable number of people in the office the past few days, but the ofice is quiet today. It appears that the Fishwheel strike has been overplayed. Certainly, local interest has died down.

No Rush Nesessary

"My advice is this:

"Tell no one to leave the United States on a wild goose chase to Fishwheel. Tell them that most of those who went from Fairbanks are back already."

This was substantiated by Ed Toussaint, Fairbanks bush flyer, who returned from Fishwheel today to report:

"There now are about 50 persons at Fishwheel and about one-fourth of these are from Fort Yukon, near the scene.

"Most of the men who flew in from Fairbanks came back one or two days later.

"The so-called tent town consists of about 10 or 12 tents pitched several hundred feet apart.

"It looks like the stampeders have calmed down and finally are in a mood to listen to warnings that they might be risking their lives by staying there without proper gear for a sudden cold snap."

Toussaint said he saw one half-breed woman, from Fort Yukon, who has opened a tent coffee shop.

Shallowater To Hold Hallowe'en Carnival

SHALLOWATER, Oct. 26 (Special)—The annual Hallowe'en carnival at Shallowater schools will be held Friday night at 7 p. m. in the high school gymnasium, it has been announced.

A Hallowe'en Queen contest is now in progress at the school, with the winners in high school and grade school to be crowned at the carnival. Glenda Morgan and Lamont Stokes, first graders, will be crown bearers.

Queen candidates and their escorts include: First grade, Kara Jo Anderson and Wendel Williams; second grade, Jane Anderson and Adrian Brown; third grade, Twila Haught and Rex Farris; fourth grade, Jeannie Newman and Bob Pettiet; fifth grade, Sara Boone and Steve Lee; sixth grade, Norma Evans and Jay Stanton; seventh grade, Nancy Coats and Charles Luck; and eighth grade, Mary Ann Holly and Frank Clark.

In the high school race, candidates and their escorts are: Freshman, Imogene Walker and Roy Scooter; sophomore, Marlene Evans and Roy Herron; junior, Francell Williams and J. D. Young; and senior, Alice Russell and Newman Lusk.

Ptolemy, an astronomer and geographer who lived 18 centuries ago, is believed to have made and used the first atlas.

Progress Report On Texas Schools Made

AUSTIN, Oct. 26. (AP)— A progress survey of public schools released by state Superintendent L. A. Woods today claimed sweeping advances for Texas education during the Woods administration.

The study was made in the division of information and statistics under the direction of Miss Myrtle L. Tanner.

It covered the years 1933 to 1949, after Woods took office and prior to the foundation school program this year.

Salary increases during the period ranged from 130 percent for superintendents to 153 percent for administrative personnel, 204 percent for white classroom teachers, and 369 per cent for negro classroom teachers, the report said.

Increase in college training of school personnel was reported as 41 per cent for superintendents, 54 per cent for administrative personnel, 161 percent for white classroom teachers and 203 percent for negro classroom teachers.

Increase in amount invested in school property was carried as 77 percent in white schools and 134.6 percent in negro schools.

Cost of transportation increased 688 percent, the report said.

Decrease in number of common school districts was carried at 46 percent prior to consolidations made since April of this year.

Per capita cost was shown to have increased 316 per cent and the state apportionment 243 percent.

Shortage Of Water Faces Hard Drinking New York Residents

NEW YORK, Oct. 26—(U.P)—New York City's millions, who each year consume 60,031,249.6 quarts of hard liquor, 979,314,000 quarts of beer and 61,400,800 quarts of wine, were toud today that they are running out of water for chasers.

The big town is going dry.

It faces the most critical water shortage in its history, city officials said.

And it looks like the next six years will be dry ones.

The city fathers attributed the acute situation to three things:

Last summer's drought, which received a lot of publicity because of burning crops in the surrounding country.

The October drought, which hasn't attracted much attention but has the city teetering on the brink of water rationing—only .10 of an inch of rain has fallen so far this month against a normal 3.53 inches.

The city's population is growing at the rate of 30,000 persons a year—and most of the newcomers are water-drinkers.

The city administration took drastic measures to cut down on its own water consumption last weekend.

1,100 Persons Take X-Ray Tests At Tech

Over 1,100 students and faculty members at Texas Technological college have taken the x-ray examinations offered as a free public health service by the state mobile x-ray unit during its first two days on the campus, officials said Wednesday.

The unit will be open from 8 a. m. until 4 p.m. today and until 6 p.m. Friday on the campus. It will move downtown Wednesday for free examinations of any person in the country over 15 years of age.

The Lubbock County Tuberculosis association and the Hub City Kiwanis club are sponsoring the x-rays to Lubbock citizens and collegians. The unit will be located in the American legion post next to the city hall from Wednesday through Nov. 12.

Object of the x-rays is to locate any possibility of tuberculosis in those persons examined, with subsequent treatment and cure of the disease if it is present. Physicians have long stressed that early discovery of the illness aids greatly in its cure.

Fried bananas taste good with griddle cakes and thin slices of frizzled ham. Serve with maple syrup.

Scarcity Of Coffee Expected To Hit World Market

NEW YORK, Oct. 26—(U.P)—Coffee drinkers of the world faced today for the first time in history a scarcity of the bean they love to gulp.

The world coffee appetite is soaring, but in Brazil there has been a drought. And in Guatemala there have been floods.

There are some market authorities in this country who forsee $1-a- pound coffee at retail just around next year's corner.

Waste May Stop

Other authorities said that before we get to $1 coffee in the United States, the consumer will stop thowing coffee down the drain, will stop making five cups of coffee when he needs only three, and the drop in consumption will halt the upward price trend.

Coffee prices at retail are heading higher. One big food chain boosted its prices two cents a pound this week. Other roasters have advanced prices from two to five cents.

Good Attendance Reported For Student Play At Tech

Tickets for tonight's production of "Twelfth Night", presented by the Texas Technological college speech department, have been almost sold out, Miss Cecilia Thompson, director, announced Wednesday.

A few tickets are left for Friday night's final production of the play, she said.

Near capacity audiences have crammed the small speech building auditorium for all of the three performances given so far this week. The Shakespearean comedy is the first by that writer to have been produced by Tech students for at least 20 years, according to the director.

Tickets for the Friday play may be obtained through the speech department. The production runs approximately 90 minutes and all proceeds go to cover costs of the presentation. Costumes and stage effects were made by students.

Formation Of New Insurance Agency In Lubbock Announced

Formation of the Gideon-Williams Insurance Agency by E. R. Gideon and R. S. Williams is being announced. The agency, which handles general insurance, hospitalization and accident and life insurance, is located in the Sanford building, 1009½ Texas avenue.

Gideon, who formerly operated a grocery here, has been in Lubbock 18 years and in the insurance business about 2½ years. Williams has been a resident of Lubbock since 1926 and has been associated with varous local firms before going into government work prior to the war.

The firm is general agent for th Continental Casualty Co., and represents only old line stock companies in other insurance.

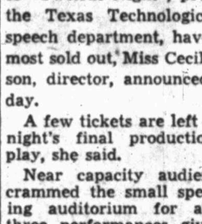

For a company vegetable dish, couple green snap beans with slivers of mushroom or celery crescents. Or serve the buttered cooked snap beans sprinkled with slivered browned almonds.

1948 Convention Action Attacked

By DAVE CHEAVENS
Associated Press Staff Writer

AUSTIN, Oct. 26. — Judges of the state Supreme court today heard a heated re-hash of the stormy 1948 state Democratic convention in Fort Worth.

They were asked to consider not only legal points questioning validity of the session, but to take judicial notice of maneuvers that gave the liberal pro-Truman faction control.

Gillis Johnson of Fort Worth, attorney representing Neville Penrose and Mrs. Bennett L. Smith, shouted charges that the Tarrant county delegation was ejected through "trickery, fraud and illegal action."

This action, Johnson cried, was not only illegal, it was "arbitrary, oppressive and fraudulent."

Court Order Obtained

Penrose and Mrs. Smith obtained a district court injunction that prohibited Jack Carter and Mrs. J. W. Douglas of Fort Worth from serving as members of the state executive committee. Carter and Mrs. Douglas were named by the liberals, who won control of the session, to replace Penrose and Mrs. Smith.

Their attorneys labelled Johnson's accusations as a "jury speech." They said the real issue was whether or not a party convention has the right to admit its own members and bar those whose views are in basic conflict.

The Supreme court had granted the review on claims by Carter and Mrs. Douglas that a district court can not decide contests within a political party, except for a place on party tickets for elective offices, and that a district court has no jurisdiction to settle contests for membership on the executive committee.

It thus could settle the row on jurisdiction grounds, or it could consider any point brought up in the voluminous record, or the oral arguments. It may be months before the court rules.

Johnson argued the courts do have jurisdiction "when the pacts show the statutes have been violated." He said Calvert, who presided over the frenzied opening hours of the session, had violated the law when he accepted a motion by Byron Skelton of Temple which led to exclusion of Penrose's Tarrant county delegation.

He charged that Calvert had "secretly promised Skelton he would accept the amendment" to the executive committee report making up the convention's temporary roll.

Calvert retorted that a group opposing the national nominee for President (Truman) thought they had the right to come back to the September convention and substitute electors who would vote for

Teachers Meet To Open Friday

Interest will be centered on reading when teachers of junior and senior high schools and colleges in District IV of the Texas State Teachers association meet Friday and Saturday at Senior High school.

A detailed program in which various phases of the reading problem will be discussed has been announced by Miss Glennys Honey, program chairman.

Leaders Are Chosen

Discussion leaders have been chosen to present the point of view of junior and senior high school and college teachers and other educators concerned with the problem of reading.

A session will be held from 1:30 to 4 p. m. Friday in Lubbock Senior High school auditorium, followed by presentation of 'Twelfth Night" by Tech speech department and Alpha Psi Omega in the speech auditorium on Tech campus, and by a dinner and program opening at 7:30 o'clock at Luby's cafeteria, 2410 Broadway. The final session will be held from 9 a. m. to 12 noon Saturday in the high school auditorium.

Music During Registration

Gerre Hancock will present organ music during registration opening at 1 p. m. Friday. In the afternoon session, Dr. W. B. Gates of the Texas Tech faculty, president of the Texas Conference of College Teachers of English, will welcome visitors. Kline Nall of the Tech faculty, chairman of the session, will present the theme, "Problems of Reading Comprehension."

Discussion topics and leaders will be "An Over-All View of the Reading Problem Confronting Teachers of English," Mrs. J. L. Teal, Lubbock city schools; "The Slow Reader," Mrs. Mary W. Blomshield, Big Spring Junior High school; "Vocabulary Development as an Aid to Reading Comprehension," Dr. Everett A. Gillis, Texas Tech; "The Non-Directive Approach as a Means of Interesting Students in Reading," Dr. L. C. Hutchins, Texas Tech; "Visual Problems as Related to Reading Comprehension," Dr. J. Davis Armistead, Lubbock optometrist.

Miss Cecilia Thompson will direct "Twelfth Night," to be presented from 4:15 to 5:45 p. m. A

County Continues To Hold Area Oil Spotlight

New Scurry Producer Completed

Lion Oil Company has completed its No. 1 Frank Strom as a one-mile west extension to the proven limits for production from the Canyon reef lime in the Diamond M field of Southwest Scurry county.

This new producer was finished for a daily potential of 352 barrels of 43.4 gravity oil, flowing through a 16/64th inch tubing choke. Gas-oil ratio was 702-1.

Production Natural

The production was natural and came from perforations in the casing at 6,686-6,710 feet. Total depth is at 6,715 feet. Casing is cemented on bottom.

Top of the Canyon reef was at 6,686 feet, which was 100 feet low to the closest completed oil wells in the Diamond M field.

The well is 662 feet from south and 1,836 feet from west lines of section 198, block 97, H&TC survey.

It is an old dry hole to 2,903 feet drilled in 1946, which was re-entered and deepened to the Canyon.

SHOWS OF PRODUCTION REPORTED DEVELOPED

L. H. Lockhart of Corpus Christi No. 1 B. M. McHaney, one mile south of the nearest completed producer on the southeast side of the North Snyder field in north central Scurry county developed some shows of possible production in a drillstem test at 6,830-70 feet.

The tool was open two and one-half hours. Gas of an unreported amount showed at the surface in 20 minutes. Recovery was 900 feet of heavily mud-cut oil. There were no signs of water.

The project is slated to drill a little deeper and then run another drillstem test.

Location is 467 feet from north and west lines of the lease in section 177, block 3, H&GN survey.

Glasco, Chambers, Zonne and Olson Drilling Company No. 1 Green, wildcat to test the Pennsylvania, two miles south and three quarters of a mile east of the southeast side of the North Snyder field, and two miles north of the town of Snyder had reached 7,393 feet in lime and was making more hole.

This project has been logging streaks lime and then streaks of shale for a considerable distance. Up to now it has not reported having logged any possibilities of production.

Location is 660 feet from north and west lines of the northwest quarter of section 157, block 3, H&GN survey.

SLIGHT SHOWS OF OIL AND GAS REPORTED

Stanolind Oil & Gas Company continues to develop slight shows of oil and gas in the Mississippian lime and chert at its No. 1 J. G. Whatley, central-north Scurry county wildcat, three miles north of the northwest side of the North Snyder-Canyon field.

The latest shows were in a drillstem test at 7,980-8,080 feet. The tool was open two hours and 30 minutes. There was a good blow of air throughout the period.

Recovery was 3,600 feet of free gas in the drill pipe; 55 feet of slightly gas-cut drilling mud. There were no signs of water.

The prospector drilled ahead to 8,138 feet in lime and chert and was preparing to run another drillstem test.

NO SUCCESS NOTED AT GARZA WILDCAT

Seaboard Oil Company of Delaware and Republic Natural Gas Company No. 1 OS Ranch, (Connell) Southeast Garza county wildcat, 15 miles southeast of Post, has failed to develop any indications of production in the Ellenburger in the section so far drilled of that formation.

Tentative, unofficial top of the formation was called at 8,034 feet.

A drillstem test was run at 8,014-59 feet. The tool was open for one hour. Recovery was 30 feet of gas cut mud.

Another drillstem test was taken at 8,059-8,084 feet. Recovery was 30 feet of drilling mud, with no show of oil, gas or water. The tool was open for one hour.

Location is at the center of the southeast quarter of the southwest quarter of section 2, block 5, GH&H survey.

LOCATIONS FOR THREE TESTS ARE MADE

Standard Oil Company of Texas

Mrs. J. C. Freeman, Of Crosbyton, Dies

CROSBYTON, Oct. 26. (Special) —Funeral services for Mrs. J. C. Freeman, 62, who died at 5 a.m. today in Crosbyton hospital, are still pending the arrival of relatives. Mrs. Freeman came to Crosbyton 28 years ago from Graham.

She is survived by two daughters, Mrs. J. S. Wheeler of Gordon, Neb., and Miss Nell Freeman of Crosbyton; two sons, Joseph and Willis, both of Garfield, N. M.; a sister, Mrs. Sally Godfrey of Tahoka; two brothers, John and Bill Timmons, both of Tahoka; and five grandchildren.

King Funeral home is in charge of funeral arrangements.

Lubbock Man Convicted In Jury Trial On Drunk Driving Charge

Charles M. Gaddy, 34, of 1612 Ave. E. was convicted of a charge of drunk driving in a jury trial before Judge Walter Davies Wednesday. He was fined $50 and court costs. The state introduced several witnesses including State Highway Patrolman Jim Riddles and City Patrolman W. C. Johnson. The defendant was represented by Ben Kucera, the state by Dudley Brummett and Travis Shelton, assistant county attorneys.

FOURTEEN PERSONS INJURED

Investigation Is Underway In Dallas Apartment House Blast

(By The Associated Press)

DALLAS, Oct. 26.—An investigation was launched today to determine the cause of an explosion late last night that blasted an apartment house into a shambles—injuring 14 persons.

Fire Marshall W. G. Burns directed a staff of investigators who probed the ruins of the four-family apartment house. Fourteen residents narrowly escaped death as a rumbling blast collapsed the one-story building.

All 14 were treated for injuries and six were hospitalized. Some were burned in a flash fire that occurred at the time of the explosion.

"A heavy concrete sill probably saved the lives of all occupants," Fire Battalion Chief Jack Johnson said. "It kept the heavy roof from going all the way to the floor."

One of the most narrow escapes was that of Robert Lodowski, young son of Dr. and Mrs. Charles Lodowski. The 20-month-old boy was pinned to his bed by a heavy section of roof. Rescue workers said bed springs and his mattress cushioned him, probably saving his life. He was not seriously hurt.

Victims Are Named

Still in the hospital were:

Mrs. Lodowski, severe burns, condition fair.

Charles Lodowski, 4, another son of Dr. and Mrs. Lodowski, severe burns, condition fair.

Michael Staton, 4, son of Mr. and Mrs. Herbert Staton, head injury. Condition fair.

Mrs. Virginia Ballard, 29, burns. Condition fair.

David Ballard, 7, son of Mrs. Virginia Ballard. Head injury. Condition fair. A delicate operation was performed on him.

J. L. Stephenson, jr., director of the Dallas Housing authority which operates the housing project, said the agency makes full use of every known check and inspection to guard against gas leaks. He was contacted in Galveston where he was to address a meeting of the Texas League of Municipalities. The only gas in the building was for cook stoves he said.

Lee Shannon, one of the occupants, said he had told officials of the projects a month ago that: "I was smelling gas around our place. I could smell it in the walls."

Stephenson said the walls were sealed.

P-TA GROUPS SPONSOR EVENTS

Hallowe'en Carnivals Slated At Two Schools Here Tonight

Hallowe'en entertainments will be given tonight in two public schools.

Overton school will entertain with its first Hallowe'en carnival and McWhorter school will conduct a "fun night" program. Both will be sponsored by Parent-Teacher associations of the respective schools.

Time of the Overton school carnival has been changed from 7 p. m. to 6:30 p. m. Program features will include a children's movie, kitchen bazaar in which aprons, dish towels and other items will be sold, minstrel show, making of photographs, the "biggest baby in town", fortune telling, wishing well, Hawaiian serenade and others. Sandwiches, cookies, cakes and bottled drinks will be sold.

Rooms have been decorated elaborately by students. Drawings, posters, cut-out cats and witches and other Hallowe'en symbols and pack-o-lanterns will be included in decorations. The event will be open to the public.

At McWhorter school, "fun night" features will open at 7:30 o'clock. They will include a talent show in which children will participate; a "house of thrills;" negro minstrel; Hallowe'en parade through halls and the school auditorium; "country store"; movies presenting children's stories, and others. Cold drinks, coffee, doughnuts, caramel apples, popcorn balls and homemade candy will be sold.

Proceeds will be used to increase the school's art collection. The aim is to have one or two reproductions of good paintings in every room. Record albums will be bought for the music department.

WORKERS FINANCE NEW PLANT

'Strike-Proof' Plywood Industry Stakes New Million Dollar Plant

BY GEORGE L. SCOTT
INS Staff Correspondent

PORTLAND, Ore., Oct. 26—A "strike-proof" plywood industry, which has operated quietly in Washington and California for the past 28 years, without labor trouble, staked out a million dollar plant in Oregan today.

Announcement of the purchase of the new Portland Plywood corporation holdings in Portland by the newly-formed Multnomah Plywood corporation, was made by F. A. Johnson, president of the purchasing firm.

Workers To Own Plant

Johnson said the plant would be owned and operated by 150 qualified plywood workers who can raise $2,500 for an initial share of stock. Along with the share of stock goes the purchasers guarantee of a job and the right to buy one more share at $50 a month deducted from his paycheck.

Thus financed, the mill's working wage will be based on earnings.

Johnson said that experience of seven such "worker-owner" plywood mills, five in Washington and two in California, has proved that they can pay wages to working stockholders well above union scale. Incentive to work has been so great that production booms.

Production Rate High

Johnson said, "this is due to the fact that all workers are owners. They really get in and pitch. Production is generally 25 to 35 per cent higher than in private plants.

"The union scale in the plywood trade averages about $1.60 an hour. Men in owner-worker plants, taking out the profits in wages, earn between $2.50 and $2.75 an hour. Some of the most efficiently operated mills pay as much as $3 an hour.

Johnson said strikes have been unknown since the Olympia (Wash) Veneer company started the experiment 28 years ago. He explained:

"Worker-owners will cut their own wages and work harder when times get tough just to keep wheels rolling."

Board Reserves Right

If a worker wants to sell out, the corporation's board of directors reserves the right to purchase his stock or pass upon a worker who wants to take over.

In the event a stockholder becomes incapacitated, the management has the right to hire a union man at union scale to fill his job.

But no dividends go to the idle stockholder, if he wants to share in the plywood "gravy" he has to work.

Managers and supervisors are the only salaried workers. They can not own stock and can be hired and fired by the worker-owner board of directors.

According to Johnson, all such mills have successfully weathered business slumps and have continued to operate when other plywood operations have been closed by strikes.

Block Captains For Decorations To Meet

Block captains for the downtown Christmas decorations program were named Wednesday morning and theyl were called to meet at 10 a.m. today at the Chamber of commerce.

They are Miss Pauline Myers, John W. Broome, C. D. Abbott, A. A. Goldstucker, B. Ridgely Mills, James Chandler, Russell Wilkinson, C. A. Gammill, jr., L. C. Peveto, Abe Kelner, E. A. Manning, J. E. Griggs, Frank Campbell, B. H. Beaird, Harry Lipshy, William T. Bradbury, Jess Walters R. J. Neary, Ronald Duncan, J. W. Mallory, Joe Thomas, Marvin Hendricks and Harry G. Urguette.

Each will head a committee to collect the merchants' share of the cost of decorating downtown streets from Tranksgiving through the New Year.

The cost will average about 65 cents a front foot for the business places on the decorated streets, members of the committee have been advised by Ruel Martin and O. W. Ribble, co-chairman.

They emphasized the merchants will be asked to pay only the actual cost of the decorations. The city will erect them and supply the electricity for thier illumination.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM
Try This Delicious Chewing-Gum Laxative

● When you roll and toss all night—feel headachy and just awful because you need a laxative—do this . . .

Wife Gets Divorce; Man's Sense Of Humor Is Blamed

SANTA MONICA, Calif., Oct. 26 —(U.P.)—Grayce Shifflet had a divorce today from airline pilot David Shifflet because she said his sense of humor was too much for her.

He would say "moo" every time she fed their baby, she explained.

Superior Judge Alfred Bartlett granted the divorce yesterday.

Funeral Rites Are Held For Retired Dawson County Farmer

LAMESA, Oct. 26. (Special) — Funeral services for John D. Parker, 59, a retired farmer who died in a local hospital Tuesday, were held at 3 p.m. today in the Higginbotham Funeral chapel. Burial was in Lamesa Memorial Park.

He had been a resident of Dawson county for 13 years, coming here from Bell county. He was a member of the Christian church.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcentrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears — how much better you feel. More alive, youthful appearing and active.

10 pounds lost in 10 days

Mrs. M. C. Britton, 306 W. Wildwood, San Antonio, Texas, writes us as follows: "I am a faithful user of Barcentrate. I had dieted for weeks without your product and needed so badly to lose 10 pounds, so I started using Barcentrate and my worry was over for I lost the 10 pounds in 10 days. I now weigh 135 pounds.

"I eat most anything I want and hold my same weight."

Demos Continue To Hold Firm Grip On Vote, Survey Shows

By GEORGE GALLUP, Director
American Institute of Public Opinion

PRINCETON, N. J., Oct. 26 — The powerful hold of the Democratic party on the American electorate one year after President Truman's 1948 victory, is dramatically demonstrated in a public opinion survey just completed by the Institute.

This shows that the Democratic party has shouldered aside the G.O.P. as the majority party in America — taking over the position enjoyed by the Republicans from the Civil War to 1932. Although the Democratic party won occasional elections between 1860 and 1932 when the Republicans were divided or when great emergencies arose, the majority of voters always considered themselves Republicans.

The G.O.P. has lost this basic allegiance.

Throughout the 48 states, interviewers for the Institute put this question to a balanced cross-section of the voting population:

"In politics as of today do you consider yourself a Republican, a Democrat or an Independent?"

The results are:

Democrat	48%
Republican	32
Independent	20

Since the Independent vote has, in recent Presidential elections, sided with the Democrats, the potential Democratic strength in elections is even greater than the above table would indicate.

G.O.P. Problem

The significance of these figures for the G.O.P. is obvious. The Republicans can win only if they put up a candidate who is so vastly more popular than the Democratic candidate that he can make millions of voters switch allegiance, or if G.O.P. leaders hit upon an issue which so strikes the imagination of the people as to cause a wholesale shift in the political line-up.

The survey results indicate that a candidate who is merely "as good as" the Democratic standard bearer has comparatively little change of winning, for he would enter the race without the great reservoir of votes from which the Democrats can, as the preferred party, draw support today.

The Democratic Problem

The Democratic party problem, as in previous elections, is the problem of mustering potential party strength, that is, of getting its vast number of sympathizers to the polls on election day.

It is chiefly a problem of getting out the vote in the middle and lower economic levels, for the split in political opinion along economic and educational lines, which began in the early days of the New Deal, continues today.

Here is the way voters of varying educational background classify themselves politically:

	College	High Sch'l	Grade Sch'l
Democrat	32%	47%	53%
Republican	42	33	28
Independent	26	20	19

* * *

Attitude of Youth

One of the greatest sources of Democratic strength is the youth of America. In today's survey a clear majority of persons aged 21 to 30 classify themselves as Democrats. This new blood is a priceless advantage to the Democratic party.

Here is the vote showing how the various age groups classify themselves according to party:

	Age 21-29	30-49	50 & over
Democrat	51%	50%	43%
Republican	23	30	39
Independent	26	20	18

Texas' Oldest Junior College May Face Last Homecoming

HILLSBORO, Oct. 26. (U.P.)—Hillsboro Junior college — Texas' oldest public junior college and currently beset by financial difficulties—may see its last homecoming tomorrow.

Hill countians recently voted against creation of a countywide junior college system.

A business meeting, preceded by entertainment and refreshment for ex-students, will be held at 10:30 a. m. tomorrow. A parade will be held in the afternoon, followed by the homecoming football game between Hillsboro Junior college and Allen academy.

The citron is one of the oldest citrus fruits known to man, and is mentioned in the early part of the Bible.

Economist Says U. S. Prosperity To Double

BOSTON, Oct. 26—(U.P.)—Harvard economist Sumner H. Slichter were told today that they are today and predicted that the United States will be twice as prosperous then as it ever was.

By 1980, Slichter said in the November Atlantic Monthly, Americans will be working only 30 hours a week and enjoying air-conditioned homes, private swimming pools and two cars for most families.

Slichter, chairman of the research advisory board of the committee for economic development, predicted that in 30 years the annual national income will be at least $416 billion and more likely in excess of $550 billion.

That compares with a national income of $246 billion in the peak year of 1948.

He said he anticipated that his prediction might be called "irresponsible."

The same, he said, might well have been said about any forecasts in 1900 that by now Americans would be working only 40 hours a week and that nearly every family would have an automobile and radio.

HST SETS STAGE FOR BATTLE

Congress Expected To Lock In New Civil Rights Fight In 1950

By JACK BELL
Associated Press Staff Writer

WASHINGTON, Oct. 26. — The Senate seems likely to face an endurance contest early in its next session as a result of President Truman's new call for action on civil rights legislation.

Senator Myers of Pennsylvania, the assistant Democratic leader, conceded frankly that a southern filibuster is in prospect when leaders try to call up anti-poll tax, anti-lynching and anti-job discrimination bills.

Myers told a Philadelphia audience yesterday he doesn't think a new Senate rule will operate to cut off the continuous talk.

The Senate now has in effect a rule under which 64 of the 96 senators must be present and vote "yes" to adopt a petition to close debate. If only 63 voted "yes," the proposal would lose. That's what the southerners count on.

President Truman laid the background this week for an enlarged appeal to Congress to act on the civil rights question.

Mr. Truman said in his United Nations speech that the countries behind the Soviet iron curtain are suppressing human rights and freedoms.

He said, too, that "we believe strongly that the attainment of basic civil and political rights for men and women everywhere—without regard to race, language or religion—is essential to the peace we are seeking."

The President's friends in Congress are expected to expand the argument that this country is being hampered in its conflict with Communism because some segments of the American population are denied equal rights in the practical application of Democracy.

In the next session, the administration is expected to center its efforts on attempts to enact anti-lynching and anti-poll tax bills into law.

A Fair Employment Practices commission measure also is pending.

Exile For Convicted Subversives Urged

WASHINGTON, Oct. 26. (U.P.)—Rep. Omar Burleson, (D-Tex.), proposed today that the United States establish an Elba-type island for the confinement of persons convicted of subversive activities.

Burleson made his suggestion in a letter to Attorney General J. Howard McGrath. He congratulated McGrath for the Justice department's handling of the Communist conspiracy trial in New York and said it is "regretful" that the present law does not provide stiffer penalties.

It is "lamentable," he said, that the Communist leaders cannot be deported even though they are not aliens.

"This suggests to me that the law should be amended to allow the exile of traitors of this type, and I will seriously consider introducing a measure in the next session of Congress providing for a place operated and supported by this government as a sort of 'Elba' for such convicted citizens," he said. "From my experiences in the Navy in the last war, I know some places in the Pacific which would be ideal for this purpose."

Driving a motor car is twice as dangerous in the country as in the city with 10.8 deaths per 100,000 vehicle miles in the country as compared with 5.3 deaths in the city.

Indiana University Fraternity Pledges Nine-Week-Old Youth

BLOOMINGTON, Ind., Oct. 26 (INS)—Phi Kappa Psi at Indiana university is reaching out early to beat the pledge rush these days.

Today Mark Schmader, nine-weeks-old, received his pledge pin.

But Mark can credit an assist to girl students in the home economics building at Indiana university: It seems the Phi Kappa Psi boys' football catapulted into the building. The girls made a deal:

Make Mark a pledge and get back your football.

Today Mark is a fraternity man.

Quickly Relieves Distress of
Sneezy, Stuffy Head Colds

A few drops of Vicks Va-tro-nol in each nostril work fast to relieve head cold distress, make breathing easier. And if used at first sniffle or sneeze, Va-tro-nol helps to prevent many colds developing! Try it. Follow directions in the package.

Double-Duty Nose Drops Work Fast!

VICKS VA-TRO-NOL

Neighbors Unite To Aid Stricken Family

ABILENE, Oct. 26 (AP)—Twenty neighbors who met at a neighborhood grocery formed themselves into the Person family fund to help a tornado-stricken family.

Mrs. A. H. Person was killed when a tornado last Friday splintered their home. The neighbors want to build a new house for her blind husband and their two children—Eddie, 14, and Mina La Dell, 11. All three were injured.

Yesterday total of all funds collected for the Person family stood at $3,535.

TIRE PRICES HIKED

AKRON, O., Oct. 26. (AP)— Firestone Tire & Rubber Co. boosted tire prices 3½ per cent today, falling in line with a similar boost announced yesterday by Goodyear Tire & Rubber Co. The action affects all types of tires.

Vatican Raises Rank Of Pope's Representative To Germany

VATICAN CITY, Oct. 26 (AP)—The Vatican is raising the rank of the Pope's representative in Germany. A high church source said the action has no political significance since "diplomatic relations are not presently allowed with the West German government."

The Vatican announced yesterday that Bishop Aloisius Joseph Muench of Fargo, N. D., has been named regent of the apostolic nunciature in Germany. With headquarters at Eichstaett in Bavaria, Bishop Muench for several years has been apostolic visitor to Germany.

The apostolic nunciature is the office of the representative of the Pope at the seat of a government. The high church informant said the Vatican has "decided to revive the nunciature for purely church affairs."

GOVERNOR TO SPEAK

OKLAHOMA CITY, Oct. 26. — (U.P.)—Gov. Roy J. Turner will address the Texas League of Young Democrats at their state convention in Fort Worth Saturday, he said today. Turner will share the spotlight with Sam Rayburn, speaker of the house from Texas.

How I Subdued Wild Fiery Itch—

Dr. Dennis' amazingly fast relief—D. D. D. Prescription—did the trick. World popular, this pure, cooling, liquid medication speeds peace and comfort from cruel itching caused by eczema, pimples, rashes, athlete's foot, factory itch and other itch troubles. Greaseless, stainless. Trial bottle, 35c. First application checks even the most intense itch or money back. Ask druggist for D. D. D. Prescription, now.

JUDGE TO REVOKE PAROLE

Girl Judged Juvenile Delinquent Escapes Immediate Murder Trial

SAN SABA, Oct. 26 (AP) — Sandra Petersen, 17, charged with the hitchhike murder of a Brady man, was declared today a juvenile delinquent.

She was returned to custody of the McCulloch county sheriff to be held in jail until the State Youth Development council decides what to do with her. So was a young companion who has been held as a material witness.

Judge Jack Miller ordered Sandra placed in custody of the council "for an indeterminate period, not to exceed Dec. 11, 1952."

Later Trial Possible

Sandra will be 18 Dec. 11 of this year. Under Texas law, she can be tried for murder after that date.

Judge Miller said the Youth Development council told him in a telephone conversation from Austin it wanted Sandra held in McCulloch county until it decides whether to commit her to the State School for girls at Gainesville.

She was brought into Juvenile court today charged with aggravated assault against a man who gave her and Loretta Fae Mozingo, 15, of Austin a ride from Lampasas to San Saba on Aug. 24. She said the man propositioned her and her friend. He denied it.

That was the day before the body of Lewis Patterson of Brady was found in a roadside ditch. He had given the two girls a lift from the edge of Brady.

Sandra is charged with murder in McCulloch county and has been held in the county jail in Brady since Aug. 25.

Loretta Fae has been held since the same date as a material witness. The girls were arrested in San Angelo the night Patterson's body was found.

The younger girl also was charged with aggravated assault in the case heard today.

Girl Previously Paroled

Judge Miller said Loretta Fae was not tried, however, because he learned that she previously had been found a juvenile delinquent in Travis county (Austin) and was free on parole to her father. The judge said the court had not been able to find Loretta Fae's father to serve papers on him in the aggravated assault charge, as is necessary in juvenile cases.

He said he contacted Judge J. Harris Gardiner of Travis county, who indicated he would revoke the parole, thus returning Loretta Fae to custody of the Youth Development council.

Miniford McCoy of Merkel testified he gave Sandra and Loretta Fae a lift from Lampasas and was going as far as Lometa.

But he testified that when they reached Lometa the girls forced him at gun point to drive on to San Saba, 39 miles away. There the girls got out.

Both Sandra and Loretta Fae testified that McCoy propositioned them. McCoy denied this. Sandra admitted she pulled a pistol on him and held it but said she did it only after the proposition was made.

Sandra's husband, Mauritz Peterson, jr., 27, said a month ago he would do everything he could to help her. At that time he was in a Sacramento, Calif., jail for hit and run driving and failure to provide for a child by a former marriage.

His sentence will end Oct. 31 and he planned to go to Sandra then.

In Somerville, Mass., her mother, Mrs. Charles Anargeros, said she didn't want to have anything further to do with her daughter.

"I don't feel sorry for my daughter," she said. "I feel sorry for the man they say she killed, and the man's family. I give no excuses for her."

PIN-WORMS NOW CAN BE BEATEN!

A new, scientific treatment now offers real relief to the millions who suffer from the maddening rectal itch and other miseries caused by Pin-Worms. And experts report that at least one out of every three persons is infected with these ugly pests. Whole families may have Pin-Worms and never even know it.

But now you can and should do something about this common condition. Jayne's P-W Vermifuge contains a special, medically-approved ingredient that attacks Pin-Worms in the intestine and removes them from the body.

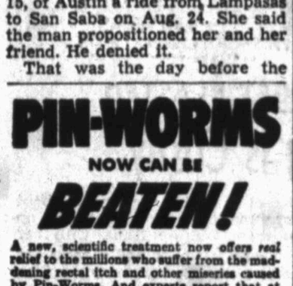

Play it safe! At the first sign of Pin-Worms, ask your druggist for P-W, the small, easy-to-take tablets perfected by the famous Jayne Co., specialists in worm remedies for over 100 years. Destroy those Pin-Worms . . . relieve that itch!

Just Remember: P-W ® for Pin-Worms!

Scurry Producer

(Continued From Page One)

has made locations for three new explorations to test the Canyon reef lime in the North Snyder field of north-central Scurry county. All are to drill to 7,000 feet, using rotary tools.

The company's No. 11-7 J. W. Brown is to be located 680 feet from north and 1,980 feet from west lines of the south half of section 450, block 97, H&TC survey, and 11 miles north of Snyder.

Standard No. 2 L. N. Periman will be 467 feet from south and east lines of the northwest quarter of section 394, block 97, H&TC survey. That puts it 7 miles north of Snyder.

The drillsite for the third project will be 660 feet from south and 1,980 feet from west lines of section 393, block 97, H&TC survey and nine miles north of Snyder.

Drilling is to begin in the near future on these operations.

NEW PRODUCERS IN SCURRY COMPLETED

Three new producers from the Canyon reef lime have been completed in the North Snyder field of north-central Scurry county.

Barnsdall Oil Company finished two of the projects and the other completion was made by Standard Oil Company of Texas.

Flowing natural through a three-quarter inch tubing choke, Barnsdall No. 2 O. C. Rinehart, made a calculated 24-hour potential of 1,560 barrels of 43.2-gravity oil, with a gas-oil ratio of 900-1. It also made nine-tenths per cent drilling water and basic sediment.

Flowing casing pressure was 110 pounds and the flowing tubing pressure was 300 pounds.

Completion was from open hole between the 5½-inch oil string set at 6,670 feet and the total depth at 6,828 feet.

Location of the new well is 467 feet from south and west lines of section 26, block 1, J. P. Smith survey.

Barnsdall No. 8 A. L. Wren was completed for a flowing 24-hour potential of 1,344 barrels of oil, plus eight-tenths per cent drilling water and basic sediment. Gravity of that oil was 42.9 degrees and the gas-oil ratio was 833-1.

The flow was natural through a three-quarter inch tubing choke.

The production was from open hole between the 5½ inch oil string cemented at 6,767 feet and the total depth at 6,905 feet.

The well is 467 feet from north and west lines of the lease in section 20, block 1, J. P. Smith survey.

Standard completed its No. 10-1 J. W. Brown, 1,880 feet from east and 680 feet from south lines of section 450, block 97, H&TC survey, for a daily potential of 1,560 barrels of 43.5-gravity oil and no water.

Gas-oil ratio was 970-1.

It completed from open hole between the 5-inch oil string set at 6,729 feet and the total depth at 6,917 feet in the Canyon reef.

Teachers Meet

(Continued from Page One)

75-cent admission charge will be made.

Films To Be Presented

Educational films suitable for teaching of reading are to be presented Friday afternoon and Saturday morning, through courtesy of the extension department at the college.

J. Herbert Priddy of the O. L. Slaton Junior High school faculty will be chairman of the Friday night dinner program, theme of which will be "Quantity and Quality of Students' Reading." R. C. Janeway, librarian at Texas Tech, will speak on "The Role of the Library in the Improvement of Reading." Discussion topics and leaders will be "Increasing athe Quantity and Quality of Students' Reading," Mrs. Gladys Sims, Carroll Thompson Junior High school; "What Is Now Being Done in the High Schools," Mrs. L. H. McElroy, Seminole High school; "Guidance of Free Reading and Individual Class Reading," Mrs. R. Briggs Irvin, J. T. Hutchinson Junior High school; "Reading Guidance for Superior Students," suggestions and discussion by Dr. Alan L. Strout and H. N. White of the Texas Tech English department and others.

Topics And Leaders

Mrs. Nils Akeson of Plainview High school will be chairman of the Saturday morning session, in which the theme will be "Development of Critical and Judicial Reading Attitudes." Discussion topics and leaders will be: "Critical Reading of Newspapers," Mrs. James G. Allen, of the Texas Tech faculty; "Critical Reading of Books," Mrs. Robert Dobson, Wayland college. State committee recommendations concerning the Association of Childhood Education English cooperative test and remedial reading program will be presented by Dr. Alan M. F. Gunn of the Texas Tech faculty. A question period in which all teachers present are to participate is to be led by Miss Dorothy Lomax, director of secondary education in Lubbock public schools. A business session from 11:30 a. m. to 12 noon will conclude the program.

More than 125 teachers are expected to attend the program.

Court Hears Dispute

(Continued From Page One)

the State's Rights nominees.

George Sergeant of Dallas, another executive committee attorney, said the Tarrant county delegation backing Penrose was not permitted to sit in the convention "because it refused to take the pledge." He asked the court to reaffirm previous decisions holding that the pledge is required of those who take part in party councils.

Ernest May of Fort Worth argued if there is a contest within the party for a party office, the proper party committees have jurisdiction. Where the property rights to public office are concerned, he said, the courts have jurisdiction.

Its tough, hard work to drive a "shimming" car, not to mention the danger incident to loss of steering control.

We correct "shimmy" scientifically, lastingly.

Lubbock High School Group Plays At 20-30 Club Meet

A quartet of saxophonists from the Lubbock High school band entertained at the weekly meeting of the Lubbock 20-30 club last night in Hotel Lubbock.

The club made plans to distribute 20-30 road signs on major highways leading into Lubbock. Two such signs are to be put out each Sunday for the next three Sundays.

Eighteen members and four guests attended the meeting. Guests included Pablo Britner of El Paso and Bob Parks, Ed Lankford and John Crow, all of Lubbock. Members of the saxophone quartet were Don Wortham, Richard McCullom, Milton Herring, and John Austin.

The goard of directors of the local 20-30 club will have a meeting at noon today at Chicken Village, it was announced.

Lubbock Youth Awarded Law Class Scholarship At Texas U.

AUSTIN, Oct. 26. (Special) — Terry Erle Wilson of Lubbock has been awarded the 1911 Law Class scholarship of $300 at the University of Texas.

The scholarship, established in 1948, assists an outstanding student in the School of Law for one year.

Wilson, son of W. D. Wilson of 1907 Twenty-third, is a third-year student in the School of law. He is book review editor for the Texas Law Review and holds membership in Chancellors, honorary law organization at the University of Texas. He also is a member of Phi Delta Phi, international honorary legal fraternity.

Before entering the University of Texas School of law, Wilson did pre-law work at Texas Technological college and Notre Dame university. He served three years with the U. S. Navy, attaining the rank of ensign.

The average capacity of U. S. freight cars is more than 50 tons.

"Suffered 7 years —then I found Pazo brings amazing relief!" says Mr. M. W., Los Angeles, Calif.

Speed amazing relief from misery of simple piles, with soothing Pazo®. Acts to relieve pain, itching instantly. Lubricates dry, hardened parts. Helps prevent cracking, reduce swelling. Don't suffer needless torture of simple piles. Get Pazo for comforting relief. Ask your doctor about it. Suppository form or tubes with perforated pipe.

*Pazo Ointment and Suppositories

Heard Reinstated As Mayor Of Hobbs By Court Decision

LOVINGTON, N.M., Oct. 26 (INS) — J. Paul Heard is the mayor of Hobbs again.

Judgment of the court reinstating Heard was filed today in district court at Lovington.

The mayor had been suspended from office Aug. 29 by the state comptroller following an audit of the Hobbs city books.

VIDEO CAMERA SENSITIVE

NEW YORK,—(AP)—The modern camera, known as the "image orthicon", is so sensitive that it will work under unusually poor lighting conditions. In fact it will function in the late dusk when even the human eye has to strain a little.

New York has 2,554,162 people between the ages of 5 and 24 attending school — more than any other state in the union.

Seventy five thousand men were directly employed in the construction of Rockefeller Center, New York.

Guard Your Health

TWO among many reasons why everyone offered the opportunity should take the X-ray examinations now being made available here by the State Health department under the sponsorship of the Lubbock County Tuberculosis association and the Hub City Kiwanis club are these:

First, they are free; a similar examination at any other time would cost as much as a day's pay for the average man.

Second, and of far greater importance, no one can appear so healthy as to make inadvisable a double-check whenever opportunity offers against the possibility that something is developing which an X-ray might reveal. Such people as Presidents are given a physical checkup nearly every day, which is pretty good evidence of their desirability when practical.

No one has anything to lose by taking the examination. Some might have everything to gain. It is pointless to take any chances when the splendid service can be had for the asking.

An Issue For '50

PROBABLY not one American in 100 will pretend to know who may be right, or wrong, in the seemingly endless bickering among the armed forces.

But one thing is sure. The great majority of patriotic citizens — and taxpayers — are darn well fed up with the interminable quarreling.

They are disgusted by the demonstrations of friction which, in many instances, obviously are as juvenile as two kids yammering because one may get a bigger piece of candy than another. They are alarmed, too, because their common sense tells them that such disunity is perilous to the national security for reasons too apparent to discuss.

It is of secondary importance as to where chief blame may rest in the quarreling. The only thing that really interests most Americans is that the fuss must be stopped, preferably by the armed services themselves.

If the services fail to do so, the responsibility for calling a halt rests squarely upon congressional shoulders.

Failure to discharge this duty fearlessly, and as ruthlessly as may be necessary, properly could and should become a major issue in election campaigns next year. It would be a proper cause for throwing out of power the individuals and party responsible for the failure.

A Worthy Move

THE localities which tolerate "speed traps" have become rarities. Not too many years ago they were a nationwide scandal. Only a few still survive, and they are the same old racket. Some are in Texas.

The pattern of the traps has varied only in details. A common practice in many small communities and precincts was — and, in limited degree, still is — to set up trick traffic regulations. Officers would lie in wait for violators.

The victims invariably were motorists who obviously were driving through. The officer would arrest them and take them before a magistrate, usually a justice of the peace. The "judge" would impose a very nominal fine plus "costs." When the racket was at its worst in Texas, the usual fine was $1. Costs were nearly $15. The judge, arresting officer and county attorney, then obtaining most of their compensation from fees, would cut up most of the "take" among themselves. The fee system largely has been abolished in most states, but not entirely.

In Texas and a good many other states, occasional localities still operate similar systems. Their legality is questionable if the trapped motorist could go to the time and expense of fighting the case. Few ever have done that. They almost invariably have paid off rather than going to the expense and trouble of posting bond, hiring a lawyer, returning for a trial and, if convicted, appealing to a higher court.

Fortunately, this evil is nearing extermination. Only here and there does the racket still survive.

But even a little of this kind of business is too much. So the Oklahoma Highway commission has set an example which similar agencies in numerous states might follow. The Oklahoma commission has declared war on speed traps in the Sooner State and has warned that traffic will be warned to avoid the town and precincts where such things exist.

It is safe to say that if similar agencies in any states needing such protection would adopt the same plan, the extinction of the speed trap would be final and complete.

One Minute Sermon

O send out thy light and thy truts: let them lead me; let them bring me unto thy holy hill, and to they tabernacles. Psalm 43:3.

Hey! What's Wrong With The Air Supply?

Someone To Love

BY IRENE LONNEN ERNHART
Distributed By NEA, Inc.

(THE STORY: Jenny's marriage to Tod Duncan bogs down with many difficulties, but she hopes for a change when at last she finds a basement apartment in the city where she, Tod and their twin sons can live. Tod, however, is unable to forget Liz Conover, who jilted him before he married Jenny. He is also worried about his mother, who dislikes Jenny and who has tried to break up the marriage. Jenny, hearing that Tod's mother is ill, decides to call on her and make amends. But she finds Mrs. Duncan gone and learns that Mrs. Duncan has become an addict to a certain "nerve medicine." Then Mrs. Duncan falls down a stairway and is taken to a nursing home. Although this will end the medicine habit, Tod's payments to the home make their financial situation worse.)

XXII

WITH the hospital bill for Ma piled on top of a budget already strained, it was ridiculous to think of buying anything but the barest necessities. To keep the twins both well fed and warm was the main thing. Even then, in December, they began having colds.

Nina, the only person Jenny saw with the exception of the landlady and Tod and the grocer, came often and offered advice in copious quantities. "You ought to apartment, Jenny," she suggested apartment, Jenny,' she suggested one day. "And why don't you get yourself some new clothes, hon? It would pep you up. Max would still give you a discount."

Jenny, worn out from all-night croup sessions, and worrying about saving pennies, and trying not to mind her own shabby appearance, struck back that day with the pent-up resentment of months. "We're lucky to have this apartment. And as for clothes — it's ridiculous to even think of getting any for myself."

"Tod always looks like a fashion plate."

"That's diffeernt. His job depends on it."

"Jenny, you owe yourself something. Look at you — your hair needs fixing, and you've got circles under your eyes from being up at night with the twins—"

"They're worth it, Nina."

"Of course! But Tod should think of you once in a while."

"Tod's doing the best he can. He has to take care of his mother."

Nina stared at her for a moment or two.

"I don't want to hear any criticism of Tod," Jenny said. "If you don't like him, Nina, we can't be friends."

Without another word Nina picked up her coat and hat. At the doorway she turned back and said, "If you'd rather hide your head like an ostrich, hon, I guess it's not my place to spoil things for you. Let me know if you need me. Maybe you're right. Maybe I'd better stay away, because I can't keep my mouth shut about Tod."

• • •

TOD came home half hour later to find Jenny crying as she went about getting their supper.

Jenny faced him wildly, her face flushed and moist, her eyes puffy from crying. "Nina criticized me for not getting new clothes and — well lots of other things. She wanted to tell mae things about you too. But I wouldn't let her."

"I wouldn't let Nina upset me." Tod said. He went into the other room, where one of the twins was whimpering.

He felt guilty at Jenny's words because only this afternoon Liz had wanted him to come to a cocktail party Conover Advertising, Inc., was giving for a big industrialist — a client.

Liz had said, "If you think Jenny would disapprove of your going, we'll take her along."

He know he didn't dare go with Liz. If he went to the party with her, he might start going other places with her. He'd meet her places clandestinely — well it was just no good.

While Jenny got the twins ready for bed he said, "I wish I could find the money, Jenny, for you to get some clothes, but you know how it is."

She was in an awful mood tonight, quite unlike herself. She whirled around, her face red and said, "I suppose you're ashamed of me!"

"No, Jenny, it isn't that at all." He turned away and went into the bedroom to get ready to go visit Ma at the nursing home. He went twice a week. Tonight he knew it was a good thing he was going out.

After Tod had gone, Jenny took up the evening paper and tried to read, but she was too tired. She got ready for bed and tried to relax then, but she was too exhausted to go to sleep immediately.

Not having enough money was a dreadful thing. It spoiled one's outlook. And besides that she was awfully tired from staying up late night with the babies. Yes, she was awfully tired.

• • •

SHE lay there awake a long time thinking, trying to remember exactly how she had felt that March day so long ago — no not so long ago either, only two years

See SOMEONE TO LOVE Pg. 7

Looking At Life -- By Erich Brandeis

HERE are a few seemingly important observations — yet they are significant.

I was sitting in the coffee shop of the Mayflower Hotel in Washington a little while ago, waiting for my five-minute boiled eggs.

At the next table sat a young couple, evidently newlyweds.

I envied them. Not their happiness — as far as matrimonial happiness is concerned — lots of married folks are happy. But I envied them their youth, their health, their vigor.

BRANDEIS

Just then the thing, took a little vial out of her purse. From it she detracted two WHITE pills and swallowed them with a few sips of water.

A couple of tables further down sat a couple of elderly gentlemen. They looked like Senators or Congressmen.

When they were through with their breakfast one of them pulled a little bottle out of his pocket. This one had yellow pills in it.

The same thing happens wherever I go in my travels.

Pills, pills, pills.

We are a nation of pill-eaters.

Our own medicine chest at home chests (one wouldn't do) — are chock full of bottles.

I counted twenty-eight of them the other day. Three were dated 1949. The others went back as far as 1945.

Most of them still had pills left in them. But I haven't the slightest idea what they were for. They could not have done us much good or we wouldn't have had to get prescriptions for more and more pills.

• • •

Look in YOUR medicine chest some time. I am quite sure it's full of second-hand pills that were supposed to cure your ills and make a new woman or man of you again.

What is the reason for all this pill-eating?

No other nation eats as many pills as we do.

It's because we want short-cuts for everything. We want short-cuts to wealth; short-cuts to success; short-cuts to health.

We rush through life like mad, wear ourselves out with worry, with late hours, with speed.

It has taken our body years of abuse to get into the shape it is in.

• • •

THEN we rush to the doctor and say: "Doctor, I feel awful. But I have an important appointment next Tuesday. Please give me some pills that will fix me up."

The doctor, being an obliging fellow, prescribes some nice pink or yellow or white pills, and by next Tuesday at least you THINK you feel much better.

But on Wednesday you are ready for the next prescription.

Another thing I noticed while waiting for my eggs was the great

WASHINGTON.—State Department officials have been growing more and more angry ever since the Air Force and Navy have been washing their dirty linen in public at the hearings before the House Armed Services Committee.

The diplomats' attitude, privately expressed, is "a plague on both your houses." They fear that even more harm has been done to our diplomatic position than to our military security by the sensational disclosures.

The battle of the Pentagon is far from over. Censorship veiled the virulence of the inter-service feuds during the war. Later all branches went through the motions of unification. But now each side is hurling reckless charges.

• • •

BRAWL: Washington is used to scraps. Congressmen berate each other on the floor. Then they and their wives go to dinner together. Even grim John L. Lewis can be chummy with the big coal operators after hours.

A certain amount of healthy rivalry always has been present among air, ground and sea. But this latest blow-up is no debate. It is tooth-and-claw jungle stuff. Great American heroes are acting like participants in a Saturday night bar-room brawl. The hearing room has been packed with gold braid and their wives, cheering or growling, depending on who was speaking.

• • •

SECURITY: Air Secretary Symington complained that naval officers had imperilled the national security by revealing technical and operating details of newest equipment and by uncovering our plan for defense. Congressional committee members say they consulted with our own military and with European military experts and both agreed that no secret information had been exposed to a potential enemy, beyond what he already knows.

State Department bigwigs view the matter quite differently. They point out that for months Russia and her satellites have been telling Europeans that we were warmongers and that we planned to drop the atomic bomb on continental cities. Now Moscow can say, "I told you so."

• • •

PROPAGANDA: A similar belief is held by Senator Henry Cabot Lodge and other Congressional leaders, who have recently returned from Europe where they were confronted by Red propaganda about America's "imperialistic war." Our staff at the United Nations and several of our embassies already report bad reaction. They think that the Soviet Union has been given a priceless propaganda theme to broadcast again and again.

The crux of the embittered dispute is the changing times. The older services are conscientiously fighting for principles which they believe are vital to our security and against being shunted to the side.

As late as the Crimean War the British navy still clung to sailing ships although a steamship had crossed the Atlantic 30 years earlier. In our time, we have seen the horse at bay against the motorized weapon.

"The B-36 is the champ today," said a Senator to a group of friends. "But in a few years you will see these same Air Force fliers up here, like the admirals today, fighting with their backs to the wall to keep the airplane from being pushed aside by whatever service handles the guided missile."

• • •

BOMB: Already we are moving toward guided missile warfare. The Nazis did not originate the V-1 type of projectile. As early as 1918 the United States Army Air Corps devised and tested a flying bomb which is the parent of all modern pilotless aircraft. Lack of funds prevented development.

But in 1939 we brought out the glide bomb, equipped with wing and tail. The mother aircraft could release it and turn back before encountering enemy fire. Since the war we have perfected radio control and devised mechanisms which act almost like magic in drawing a bomb to its target.

We not only are developing a super V-2, we are experimenting on defensive rockets that can be launched in a split-second to intercept a hostile rocket travelling toward us at the supersonic speed of 3,000 m.p.h. This means our "flying watch-dog" must go 4,000 m.p.h. It will not be long before the B-36 loyal rooters must recognize these newcomers.

• • •

SUBS: Many unbiased witnesses of the Air-Navy squabble think the Navy put too much effort into tearing air facts to pieces and not enough in presenting the facts about its own importance. It may well be that the first deadly thrust against us by a European foe will be by submarine. Russia under German scientists is building an enormous fleet.

We may bottle up her subs in the Black Sea. But to stop them from emerging from the Baltic will not be easy. In World War I, Admirals Harris and Belknap strung a mine barrage across the North Sea. Although it was very effective, some U-boats dived under the nets.

• • •

DANGER: An American Admiral, who was in Siberia during the war, tells me that he watched many prefabricated Russian submarines unloaded from trains and launched in the Pacific.

A diplomat back from Brazil informs me that Rio is worried over the problem of guarding its long coastline in case of war. South American strategists forecast that Russia would send over hundreds of giant subs, by way of the African bulge, hide them in Brazilian coves and bays, and move them up the coast to attack ports and shipping in the United States.

If the Navy told the American people of this danger, it might win greater public support than by telling the World how bad the Air Force is.

Down Memory Lane

(Taken from the files of The Lubbock Morning Avalanche, Oct. 27, 1929.)

Lubbock county cotton ginning showed a gain of 5,362 during the past week, according to an unofficial estimate made by The Sunday Avalanche-Journal. Total ginnings up to Saturday night stood at 23,218. Many ginners reported their belief that half of the crop has already been gathered, some of them thinking more than 50 per cent is now baled.

Lubbock leads the county in total bales bundled, having gained 1,620 during the past week and bringing all handled by the city's seven gins to 6,910.

Slaton, with six gins, has ginned approximately 4,448, and gained 915 bales over the previous week. Idalou's four gins have a total of 2,970 to their credit this season, gaining 764 for the week, while Shallowater, with two gins, reports 2,720 bales, ginning 763 of these during the past seven days.

• • •

Announcement was made late Saturday afternoon by officials of Texas Technological college of a substantial gift to that institution by the late Dr. R. J. Hall, pioneer physician of Lubbock and the South Plains.

The gift was made possible through a clause in the will of Dr. Hall which stated that after his estate had been settled, one-tenth of the residue was to be presented to the college as a revolving loan fund to worthy young men and women.

Announcement of Dr. Hall's bequest was made by Dean J. M. Gordon at the alumni banquet last evening.

Believe It Or Not -

GOP ATTACK ON BUDGET BLASTED

Military Spending Is Costly

Special Correspondent

WASHINGTON—President Truman's suggestion of a tax increase to balance our now-unbalanced budget naturally provoked demands for a reduction in government spending, instead, as the way out of deficit financing.

That is logical. But when it comes to the question of where spending is to be reduced you run into the most illogical proposals that take no account whatever of the realities and, in many cases, merely reflect the current campaign against the government's social welfare activities.

STOKES

Typical was comment of Rep. Joseph W. Martin (Mass.), House Republican floor leader, who blurted out that President Truman wants more taxes to put "his socialistic schemes over on the American people."

• • •

Military Budget Heaviest

The truth is, if Congress cut off every existing social welfare, health and security program the government budget for next year of some 36 or 37 billion dollars would be reduced by only three billion dollars or less. These programs might be curtailed somewhat, but the saving would be negligible in relation to the total budget.

If the government closed down every department and agency except the military, stopped all of its civilian activities and suspended every one of its services to its citizens—farmer, labor, businessman, etc. — except military protection, it would save about nine billion dollars. They are 24 percent of our budget.

• • •

THE other 76 percent, as pointed out here before, goes for defense, foreign aid programs, care of veterans of past wars and for interest on our huge war debt —in short, for past wars and insurance against future wars.

We intend to take proper care of our veterans and to pay interest on our war debt and, for the sake of national security, we have decided—or Congress representing us has—to maintain our military strength and to build up our allies in Western Europe and elsewhere, economically and militarily.

Those are the bare and grim facts. Why don't Joe Martin and the others who are crying about "spending for Socialism" face up to them and be frank with us?

There is undoubtedly room for saving in the ordinary civiliar departments and agencies of government, and there certainly is room for saving in the military costs, as Secretary of Defense Johnson is insisting. That should be done. But as long as we live in the sort of world we do, we'll have to continue to spend and be taxed for the basically wasteful things that a "cold war" demands and we can find no easy scapegoat in shouting about the really negligible amounts comparatively that we spend for our own people, meanwhile, to maintain health and decency that are so necessary for national strength.

There is something in this whole situation that is too often overlooked.

• • •

Programs Aids Business

Aside from providing defense, our military program is very good business for our great industries, as well as such small ones as are able to get military orders. And it is from some of those interests that we get the biggest clamor for cutting off "social welfare spending." They do not complain about military costs and the necessary waste involved.

This military spending also has become a prop for our economy. This is very plain when you remember, as you are not often reminded, that it pours well over 20 billions of dollars into our economy—15 billions for military supplies of all sorts for our defense, nearly a billion and a half for military supplies for our Western European allies, and five billions for economic aid through ECA. If we suddenly cut off that pump-priming for our industry, agriculture and labor we'd be in for trouble. No one would dare pull that plug suddenly.

• • •

WHAT we have, of course, is a circle in which the stability of our economy is involved, as well as our "cold war."

No shadow-boxing and sham-battling about "social welfare spending" should divert us from the fundamental problem involved which is, first, to get a peaceful, stable world in which so much of our substance won't have to go for arms, and, once that is done, to increase rather than diminish services for our people to meet the gap caused by cessation of military expenditures.

Side Glances - - - - - - - By Galbraith

"We're making a survey, madame—how much of your leisure time do you spend in the public library?"

Government Is Urged To Use Oil Reserves As Price Fixing Check

WASHINGTON, Oct. 26. (AP)—Former Power Commissioner Leland Olds proposed today that the federal government use its oil and gas reserves — including tidelands oil — as a check against price fixing by private industry.

Olds told the American Veterans committee that the real issues involved in the Senate's refusal to approve his nomination for a third term on the commission had nothing to do with his so-called radical writings of two decades ago.

Convinced Of Theories

Olds said the attacks upon him before the Senate "have gone far to convince me that there was a good deal in what I wrote 25 years ago about the influence of great corporations in the government, and about political influence generated by private ownership of utilities."

Olds said on his oil and gas price point:

"We might have the government—which has considerable reserves of oil and gas in addition to the tremendous tidelands reserves under its control—instead of leasing this property set up its own operations to provide a yardstick by which it can determine what is a reasonable return."

Production Curbs Claimed

Olds told his World War II veterans audience that some utility companies are holding back in gas and oil production "hoping to get a price three or four times what it was a few years ago."

He described Senator Kerr (D-Okla), one of his opponents at the hearings on his nomination as a wealthy oil man, closely associated with Phillips petroleum." He said Kerr clearly expressed the power utility viewpoint with the question, "does not the producer have the right to sell what he owns for what he can get for it?"

Someone To Love

(Continued From Editorial Page)

— when she had gone down to the Union Station to meet Tod.

It was snowing, she remembered, and the store windows were full of spring things. She had been so excited about seeing Tod again. He had liked her hat. That little brown velvet bonnet. She still had it, only she never had any occasion to wear it any more. But Tod had said she looked cute in it.

She crawled out of bed suddenly, throwing back the covers, and went to the closet and found the box where her old hats were. She fished out the velvet bonnet and brushed it off. The tulle ribbons were frayed. She went to the mirror and snapped on the dressing table light and put the hat on her head. She stared at herself for a long moment, her heart sinking. She looked terrible, her eyes puffy, no make-up, hair stringing down on either side of her face. And then too, a velvet bonnet doesn't look too becoming atop a pair of faded cotton pajamas. She flung it on the dressing table, tears rolling down her cheeks now. Tears of self pity.

Geologist Files For Vast Area Off California Coast

SANTA BARBARA, Calif., Oct. 26. (AP)— A claim has been filed to a 5000 square mile triangle of ocean bottom which a geologist believes contains two billion barrels of petroleum.

The geologist, Willman A. Hansen, 50, of Long Beach, Calif., has filed the claim and said yesterday there is no controversy about his title. He contends there are precedents for claiming submarine regions below the 100-fathom line and said the area is outside the disputed tidelands zone.

However, the president of the United States would have to proclaim jurisdiction over the area and then recognize Hansen's claim.

Oysters of many varieties are found along almost every seacoast of the world where the water temperature rises to 70 degrees F. or more.

MARKET HITS NEW HIGH

NEW YORK, Oct. 26. (AP)—Late buying lifted the stock market to a new average high for the year today.

Key issues moved up fractions to a top of more than 2 points. Most gains were under a point.

The rise, according to Wall Street sources, appeared due mainly to a revival of hopes for a quick end of the steel and coal strikes.

Turnover stepped up to 1,626,000 shares from 1,190,000 yesterday.

The Associated Press average of 60 stocks advanced .4 of one point to 67.7, the best since 68.4 on Nov. 4 last. The industrial component easily outdistanced the railway and utility groups.

1,083 individual issues changed hands, of which 645 advanced and 202 lost ground.

New highs for 1949 were established by 96 stocks and new lows by 5.

Jones & Laughlin Steel lost more than a point at the outset following word directors had postponed dividend action. The stock rallied, though, and finished only ¼ down at 36½.

Deere & Co., makers of farm implements, was well in front of the field with a jump of 2⅝ at 43¾. Directors voted at $3.50 dividend on the common, which compared with $1 paid in September.

Boeing aircraft, up ¾ at 23¾, had the benefit of a $1 dividend, second this year for that amount. U. S. Steel, a late starter, ended ½ up at 35, tops for the year and evidently a reflection that traders were satisfied with the earnings and dividend reports issued after the close yesterday.

Benguet Consolidated Mining, a gold issue, slipped a trifle early but ended unchanged at 2½.

Others higher included Du Pont, Canadian Pacific, Studebaker, Bethlehem Steel, Chrysler, Goodrich, United Aircraft, Admiral Corp., Philco, American Telephone, American Smelting, Kennecott Copper, McIntyre Porcupine, Dow Chemical, Southern Pacific, Standard Oil (NJ), Gulf Oil and Transcontinental and Western Air.

Allied Chemical slipped a bit, with Westinghouse Electric, and Loew's.

Last-hour buying powered an advance in railway bonds: Long-term U. S. government issues rose as much as 4/32 of a point in over-the-counter dealings.

Higher in the curb were Humble Oil, Imperial Oil, United Light, Cities Service, and Calgary & Edmonton. On the minus side were Electric Bond & Share, and Croft brewing. Sales of 360,000 shares compared with 290,000 Tuesday.

Octopuses have an ink sac from which they can squirt a colored fluid which they use as a kind of smoke screen.

MARKETS at a glance

NEW YORK, Oct. 26. (AP)—STOCK: Higher; many leaders at new highs.

BONDS: Steady; expanded demand for rails.

COTTON: Quiet; southern buying; profit taking.

CHICAGO:

WHEAT: Mixed; trade light, price changes small.

CORN: Mixed; only fractional price changes.

Oats: Steady; cash receipts small.

HOGS: 15 to mostly 25 cents higher; top $18.25.

CATTLE: Best steers 50 cents to $1.50 higher; top $41.50.

Cotton

NEW YORK REPORT

NEW YORK, Oct. 26 (AP) — Cotton futures were irregular today with old crop deliveries firm on mill and southern buying, with hedge selling light. New crop positions eased on profit taking. Some traders expressed the opinion that the cotton crop may fall short of the last government's forecast because of the slow rate of ginnings.

Futures closed unchanged to 60 cents a bale higher than the previous close.

	Open	High	Low	Close

Livestock

FORT WORTH REPORT

FORT WORTH, Oct. 26 (AP) — Cattle 3,000; calves 1,800; cattle trade slow, most steers and yearlings weak to lower; cows 50c or more down; bulls and stockers about steady; slaughter calves weak to 1.00 off; good slaughter yearlings 24.00-28.00; common and medium steers and yearlings 14.00-22.00; beef cows 14.50-16.50; canners and cutters 10.00-14.50; bulls 13.00-17.50; canners and cutters 10.00-14.50; bulls 15.00-17.50; good and choice fat calves 18.00-22.00; choice heavy calves on yearling order 22.00-25.00; culls, common and medium calves 13.00-19.00.

Hogs 1,300; butchers steady to 25c above Tuesday's average with some sales 50c above that day's low close; sows were steady to 50c lower; pigs unchanged; good and choice 200-270 lb. butchers 18.50-75; good and choice 280-350 lb. 17.75-18.25; good and choice 160-190 lb. 17.00-18.00; sows 16.00-17.00; feeder pigs 16.00 down.

Sheep 1,600; all classes steady; good slaughter lambs 23.50; medium and good shorn slaughter lambs 19.50; cull to medium slaughter ewes 8.50-9.50; feeder lambs 21.00 down.

KANSAS CITY REPORT

KANSAS CITY, Oct. 26 (AP) — Cattle 5,000; calves 1,000; slaughter steers mostly steady, slow, uneven on medium to low good short feds; good fed heifers steady; medium short feds draggy; cows weak to 50 lower; bulls firm; vealers and killing calves steady; stockers and feeders unchanged; high medium to average good fed steers 24.50-29.00; short feds lower medium grade 20.00-24.50; good fed heifers 26.00-28.00; common and medium beef cows 14.00-15.50; bulls 18.00; vealer top 25.00; medium and good killing calves 15.00-20.00.

Hogs 2,500; active, mostly 10-25 higher; good and choice 180-300 lbs. 18.00-25; sows 15.50-17.50; stags 13.50 down.

Sheep 3,000; slow, little done; good and choice clipped lambs with No. 1 and No. 2 skins steady to strong at 24.00.

Grain

CHICAGO REPORT

CHICAGO, Oct. 26 (AP) — Weakness in soybeans acted as a drag on the rest of the grain market today. Beans fell around 2 cents at times, the major loss being shown by the December delivery. Other grains did not do much.

Wheat closed ½ lower to ¼ higher, December $2.14½-⅝, corn was ⅝ lower to ⅜ higher, December $1.18⅝-¾, oats were ⅛-¼ higher, December 73⅝, rye was ½-1¼ lower, December $1.49⅛, soybeans were 1¾-2¼ lower, November $2.26-2.25½, and lard was 3 cents lower to 3 cents a hundred pounds higher, November $10.45.

FORT WORTH REPORT

FORT WORTH, Oct. 26 (AP) — Wheat No. 1 hard 2.33½-39½.
Oats No. 2 white 89½-90½.
Corn No. 2 white 1.53½-54½.
Sorghums No. 2 yellow milo per 100 lbs. 2.16-21.

Tito Approves U. S. Diplomat

BELGRADE, Yugoslavia, Oct. 26—Yugoslavia has approved assistant Secretary of State George V. Allen as the new United States ambassador, it was disclosed today.

Allen's appointment was announced a few hours after Russia demanded the recall of Yugoslav Ambassador Karlo Mrazovic from Moscow on charges he spied against the Soviet union.

Eventual Break Expected

Observers believed Mrazovic's expulsion was a step leading toward an eventual break in diplomatic relations between Russia and Marshal Tito's government.

The Russian action made no impression here. Mrazovic in Belgrade six months and the Russians have had no ambassador to Yugoslavia for four months.

But Allen's appointment to replace Ambassador Cavendish Cannon, retiring because of ill health, was regarded as a pledge of support by the western powers should Tito's dispute with the Kremlin go to the United Nations security council.

It was recalled that Allen was American ambassador to Iran during the crisis in the security council created by Russia's delay in evacuating the northern province of Azerbaijan.

The name of Allen, whose appointment had not yet been officially announced by Washington, was submitted to the Yugoslavs late last week.

The announcement said Allen was suggested for the post a few hours after Cannon left for the London conference of U. S. envoys from eastern Europe.

Allen was accepted by Belgrade Saturday, the announcement said.

Looking At Life

(Continued From Editorial Page)

number of people who wear eyeglasses.

I counted thirty-five people in that coffee shop. Twenty-two of them wore eye glasses!

What is the reason for that? I don't know. But when I get back home I must ask some eye doctor.

Observation No. 3.

Why is it that when people go to conventions they have to make darn fools of themselves?

Take any number of men who, at home, are highly respected citizens of their community. They go to church on Sundays; they are well-behaved fathers and husbands. Then they go to a convention, put on a badge—and turn into roaring rowdies.

What is the psychology of that? I don't know. Although I can guess—little boys just dismissed from school.

Fort Worth Traffic Offenders Warned To Answer Summons

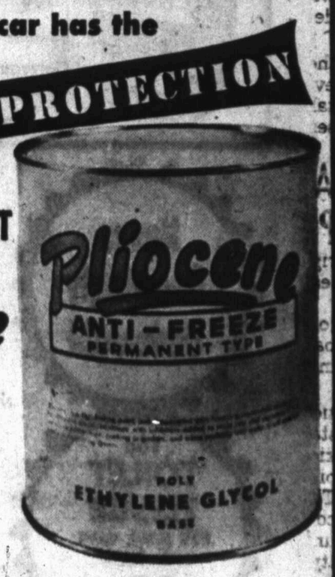

FORT WORTH, Oct. 26. (U.P.)— Fort Worth traffic offenders who don't pay their fines within 18 days will be hailed into court with a $3 knock on their door.

A new stringent policy in dealing with offenders who ignore traffic summons was announced by police today. The $3 door knock will be the cost of serving a warrant, in addition to the fine.

"COME AND GO BY T. N. M. & O."

Gayle's swallowed a bobby pin!

When her two-year-old daughter swallowed a bobby pin late one evening, Mrs. Chenoweth rushed to the telephone—and this series of calls followed. She says that she wouldn't even try to guess what these calls were really worth to her. But she can tell you what her actual cost was—*less than 2c each!*

Mrs. Chenoweth knows the cost because she kept an accurate record of all her telephone conversations, then checked it against her monthly bill. "I never realized before," she reports, "how much the telephone helps me run our house, keep in touch with our friends and meet emergencies. It's a real bargain!"

To Mrs. Chenoweth's verdict, may we add: We're doing our best to make your telephone service a real bargain today... and to keep it growing in value every year. Southwestern Bell Telephone Co.

What else gives so much for so little?

Mrs. George Chenoweth

HOW TO CUT MONTHLY PAYMENTS IN HALF

Point 1 Add up all your bills.
2 Total monthly payments they require
3 THEN ask us to show you how a Pacific Finance loan can often cut those payments by as much as 50 per cent Come in tomorrow and get the details

ONE PAYMENT COVERS EVERYTHING

RE-PAYMENT EXAMPLES

Cash to You	12 Mo. Payments	15 Mo. Payments
$100	$ 9.64	
$250	$25.06	$20.29
$500	$48.19	$39.63
$700	$67.46	$54.64
$1000	$96.37	$78.05

Other amounts in proportion

Above payments include insurance which pay the payments in case of sickness or accident or the entire balance in case of death. To apply phone or come in. Information gladly given

STATE OFFICIALS STUDY PROBLEM

Author Defends Book Banned By School Board At Houston

HOUSTON, Oct. 26—(AP)—The author of "American Government" today said his paragraph which offended the Houston school board merely was a philosophic definition of Socialism and Communism.

Dr. Magruder, retired Corvallis, Ore., professor, said the board's banning the civics course textbook from use in Houston's six senior high schools is an "unfortunate and unique experience for me."

He made his comments in a telephone interview with the Houston Chronicle.

Houston Board Bans Book

The Houston board banned the book Monday night after objecting to a paragraph which listed free public education as an example of communism.

It appeared today the book will continue in use here until a substitute is acquired.

Dr. W. E. Moreland, city superintendent of schools, tonight said State Department of Education officials did not have a ready answer on how to solve the problem.

He said he discussed the board's order with J. A. Glass, state textbook supervisor.

Moreland said he will write a letter to State Superintendent L. A. Woods, quoting the board's decision and asking what procedure should be followed.

Magruder had been unavailable for comment until today.

"None of the editions of my book have ever been banned before," the nationally known textbook writer said.

"The 1949 edition does not contain the paragraph that the Houston board objected to because my publisher and I decided it might be misleading if taken out of context."

The only board member voting against the ban thought today this possibly had happened.

Mrs. Olon Rogers had asked the board not to take action without having at least read the entire chapter in which board member Ewing Werlein, an attorney, found the paragraph.

Magruder told the Chronicle:

"I am not interested in Communism, know no Communists and have never voted for Socialism or Communism. All of my books are opposed to revolution. I think our own revolution never accomplished very much."

A member of the Oregan Textbook commission today said the loyalty and integrity of Magruder are "unquestioned and unquestionable."

Federal Agents Sent To Mexican Border In Search For Desperado

SAN DIEGO, Oct. 26 (AP) — FBI agents were sent to the Mexico border south of here today after persistent reports that the jail-breaking Jack Tatum had been seen in the area.

One report was that Tatum, who broke out of the Phoenix Ariz., jail Saturday and had previously made a jail break at Minden, Nev., Aug. 13, had been seen crossing the border to Tijuana, Mex.

The sheriff's office set up a highway check to assist the FBI.

Spawning among oysters occurs when the water in which they live reaches a temperature of 68 to 70 degrees F.

ORDINANCE NO. 945

AN ORDINANCE ANNEXING AN AREA AND TERRITORY ABUTTING AND ADJACENT TO THE CITY LIMITS OF THE CITY OF LUBBOCK; PROVIDING FOR PUBLICATION AND FINAL PASSAGE UNDER THE PROVISIONS OF SECTION 3A, ARTICLE I, CHAPTER I OF THE CHARTER OF THE CITY OF LUBBOCK AND EXTENDING THE CITY LIMITS TO INCLUDE SAID AREA DESCRIBED BY METES AND BOUNDS AS FOLLOWS, TO-WIT:

AREA NINE A. BEGINNING at the Northeast corner of Survey 6, Block B; THENCE South following the old Tahoka Road about 1350 feet to a point in 38th Street; THENCE West about 1640 feet following 38th Street to the Southeast corner of Clutter 2nd Addition; THENCE West about 3580 feet to a point in the East boundary line of Highway Number 87; THENCE North following the East boundary line Highway Number 87 about 3150 feet to a point in South boundary line of F. W. & D. C. Ry. right-of-way and which point is an intersection with the City limit line; THENCE in a Southeasterly direction following the City limit line and South boundary line of the F.W. & D. C. Ry. right-of-way about 5450 feet to a point in the East boundary line of Survey 3, Block B; THENCE South about 115 feet to the place of beginning.

WHEREAS, a large group of property owners and others residing within the hereinafter described area, or owning property within said area, have petitioned the Governing Body of the City of Lubbock to annex and include said area within the corporate limits of the City of Lubbock and the Governing Body is of the opinion that said area is in line of development, growth and expansion being experienced by the City of Lubbock, and that the inclusion within the corporate limits and annexation of said area is in the public interest, and said Governing Body being empowered by Section 3A, Article I, Chapter I of the Charter to annex by Ordinance additional territories lying adjacent to the City Limits and said area and territory herein described is adjacent to and abuts the City Limits of the City of Lubbock, THEREFORE,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF LUBBOCK:

SECTION 1. That the hereinafter described area and territory be and the same is hereby annexed to and included within the corporate limits of the City of Lubbock, said area being described by metes and bounds as follows:

AREA NINE A. BEGINNING at the Northeast corner of Survey 6, Block B; THENCE South following the old Tahoka Road about 1350 feet to a point in 38th Street; THENCE West about 1640 feet following 38th Street to the Southeast corner of Clutter 2nd Addition; THENCE West about 3580 feet to a point in the East boundary line of Highway Number 87; THENCE North following the East boundary line Highway Number 87 about 3150 feet to a point in South boundary line of F. W. & D. C. Ry. right-of-way and which point is an intersection with the City limit line; THENCE in a Southeasterly direction following the City limit line and South boundary line of the F.W. & D. C. Ry. right-of-way about 5450 feet to a point in the East boundary line of Survey 3, Block B; THENCE South about 115 feet to the place of beginning.

SECTION 2. This Ordinance shall be forthwith published in a daily newspaper published in the City of Lubbock, Texas, one time and shall not be thereafter finally acted upon until at least thirty (30) days have elapsed after such publication, and if finally passed in its present form the boundary limits of the City of Lubbock shall thereby be fixed to include the area, territory and extension described in Section 1 of this Ordinance.

On motion of Commissioner Hufstedler, seconded by Commissioner Whiteside, and carried by an affirmative majority vote of the City Commission of the City of Lubbock, this Ordinance was ordered to be published at a Special Meeting of the City Commission this the 21st day of October, 1949.

Land On Camp Maxey Military Reservation To Go On Sale

BROWNWOOD, Oct. 26—(AP)—Tracts of land on the Camp Maxey military reservation near Paris, Tex., will be offered for sale with priority to former owners.

John Sharp, manager of the Camp Bowie surplus land disposal office, said about 29,000 acres of the land have been assigned to the Houston Federal Land bank for sale. Sharp said he will open a branch office in Paris to manage the sale.

Nehru Given Tumultuous Midwest Welcome By Cheering Chicagoans

By ROBERT N. SCHWARTZ
INS Staff Correspondent

CHICAGO, Oct. 26.—Prime Minister Jawaharlal Nehru of India came to Chicago today to a tumultuous midwest welcome.

The leader of the world's second most populous country was greeted by a cheering crowd of 300 persons, including at least a score from his own land, as he stepped off a plane at Chicago's Municipal airport.

Nehru, clad in western garb, smiled and waved in response. His smile broadened as Miss Ammu Menon, 26, of Madras, India, a University of Chicago student, presented him with a garland of carnations on behalf of the Hindustan Students association.

Native Dress Worn

Miss Menon wore a red and blue sari, native feminine dress of India.

Nehru flew to Chicago from Gattawa in a Canadian government plane. He will make a major address before the Chicago Association of commerce and the Council on Foreign relations tonight at the Hotel Sherman. The address will be broadcast at 9:30 p. m. (CST).

As he moved through the cheering crowd at the airport, the Indian leader was escorted by a squad of 25 Chicago policemen. His personal guard included three detectives usually assigned to protect President Truman and other distinguished visitors.

Mayor Extends Welcome

The escort accompanied Nehru to the office of Chicago Mayor Martin H. Kennelly, where the mayor extended him the city's official welcome.

With the Indian leader was his daughter, Mrs. Indira Gandhi, who serves as her widowed father's hostess.

The prime minister spoke briefly at a private luncheon at the Chicago club, thanking members for the cordial welcome extended his party by the city.

Later today he joined Dr. Robert M. Hutchins and Prof. Robert Redfield in recording a University of Chicago round table broadcast which will go on the air next Sunday.

He will leave Chicago Friday morning for Knoxville, Tenn., aboard President Truman's private plane.

The United States has one of the world's highest accident rates, an annual 67.1 deaths per 100,000 population compared with a world average of less than 50.

Dr. Hemmle Named To Board Of Texas Music Schools Group

Dr. G. L. Hemmle, head of the music department at Texas Technological college, has been appointed to the board of directors of the Texas Association of Music Schools, it was announced Wednesday.

The TAMS is the accrediting organization for all colleges within the state which offer music degrees. Duties of the board of directors include setting up the curriculum standards and investigating member schools as well as those colleges applying for membership.

Dr. Hemmle joined the Tech staff as head of the music department this fall. He was formerly on the staff at Texas Western university.

Bell To Be Placed In Belfry Of Redeemer Ev. Lutheran Church

The 600-pound bell to be placed in the belfry of the new church building of Redeemer Ev. Lutheran church at Twenty-second and Ave. W did not arrive in time for the dedication service Sunday and will be hung Sunday morning, Rev. Karl Keller, pastor, said Wednesday.

The bell will be rung at sunset on Saturdays, in keeping with Lutheran custom, as a reminder that the following day will be the Sabbath. It will be rung at 10 a. m. and 11 a. m. on Sundays.

Representing the Trinity, it will be tolled once at the beginning, the middle and the close of the Lord's Prayer, when that prayer is presented during a regular service.

Largest dinosaur found in South Dakota's White River area, home of pre-historic monsters, was the brontotherium. This was similar in appearance to a rhinoceros and reached the size of a full-grown elephant.

Reward Offered For Information About Missing Houston Airmen

HOUSTON, Oct. 26 (U.P.) — A $1200 reward was offered today for information about two Houston airmen who disappeared last Friday on a flight from Tulsa.

The family of George H. Harrington, consulting geologist, said $1000 would be paid for finding Harrington and his pilot, Orville Sweitzer, jr., and $200 would be the reward for any information leading to their discovery.

The missing men left Tulsa in a maroon-colored Navion plane at 6 p. m. Friday. Volunteer rescue plane and Civil Air patrol craft are still searching East Texas in the belief that the light ship was forced down in rain and fog.

Last Services Are Scheduled Today For Lamesa Resident

LAMESA, Oct. 26. (Special)—Funeral services for William Sherman Compton, 83, who died suddenly at his home here Tuesday morning, will be held at 3 p. m. Thursday at the Higginbotham Funeral chapel. Elder J. P. Jones will officiate. Burial will be at Celeste.

Coming here from Georgia 32 years ago, Compton farmed until 1940. Since that time he has been in the real estate business.
