Soviets Re-Stress West Coexistence

Policy Opposed By China

By RICHARD H. GROWALD

MOSCOW (UPI) — The Soviet Union, in the midst of truce talks with Communist China, stressed again today that it will follow a policy Peking opposes — peaceful coexistence with the West.

Pravda, the Communist party newspaper, said in an editorial that "the activity of the Soviet Union in the field of foreign policy is based on the Leninist principles of peaceful coexistance with states with different social systems."

Communist Chinese Premier Cou En-lai, who is reported to be meeting privately with Soviet party leader Leonid I. Brezhnev, has attacked co-existence many times in the past as capitulation to the West. Peking's more militant policy was one of the main causes of the Sino-Soviet split.

Informed sources said the Chou-Brezhnev talks would continue most of the week. Chou, they said, is trying to arrange further private talks in Peking early next year and seeks to put off a December meeting of 26 Communist parties.

Ousted Premier Nikita S. Khrushchev called the December meeting as a preparatory step to expelling the Chinese from the world Communist movement. The final expulsion was to come at a Communist summit next summer.

Pravda said today that a new world Communist meeting to deal with the Sino-Soviet conflict was "clearly overdue." It avoided mention of the December meeting.

It said such summits are "an effective means" of solving Communist differences.

But Chou was reported trying to obtain Brezhnev's agreement to hold bilateral peace talks in Peking before putting the issue to the world meeting.

NEW STRIPES — Taking advantage of a brief respite in the damp, foggy weather, city employes Tuesday set about marking Pampa's crosswalks to prepare for possibilities of a hard, wet winter. In photo are Albert Phillips, left, and J. C. Chennault.

Conservatives In GOP Fighting Delaying Action

Top Leaders Call for 'Waiting Period' Instead of Rash Action

WASHINGTON (UPI) — Republican conservatives fought a delaying action today against demands by GOP moderates for a changeover in the party leadership following its crushing election defeat.

Conservative leaders called for a "waiting period" of calmness in party ranks. Sen. Carl T. Curtis, R-Neb., floor manager for Sen. Barry M. Goldwater at the San Francisco convention, said the "period of calm should last through the holidays."

Sen. Bourke B. Hickenlooper, R-Iowa, chairman of the Senate GOP Policy Committee, said that "rash actions" might result in decisions by the party that would "not be in the best interest of the country."

Curtis and Hickenlooper gave their views in separate interviews with UPI as pressure mounted from moderate Republicans for a quick swing away from the Goldwater-conservative leadership.

Leading the demands was Gov. Robert E. Smylie of Idaho, chairman of the Republican Governors' Association. He called Sunday for replacement of Dean Burch, a Goldwater choice, as GOP national chairman.

Smylie, who has called a governors' meeting for early next month, indicated he would be available for the party chairmanship if he is wanted and it is compatible with his other duties.

Sen. J. Caleb Boggs R-Del., endorsed a proposal by Atty. Gen. Edward W. Brooke of Massachusetts that an interim GOP national convention be held next summer to review party policy. Boggs told UPI he thought it was "a terrific idea."

However, Boggs said he agreed generally with the view expressed earlier by Senate Republican Leader Everett M. Dirksen, Ill., that it was time for "solid thinking" and not impetuous action.

Democrats Laying Safeguard Plans

WASHINGTON (UPI)—Democratic leaders laid plans today to safeguard their big new House majority against revival of the conservative coalition that once held a death grip on liberal legislation.

Their present intention is to restore the "21-day rule" by which foot-dragging in the powerful House Rules Committee was curbed during the 81st Congress, but which later was repealed.

They also indirectly may liberalize the vital Ways & Means Committee by adding two or three Democratic members to reflect the bigger Democratic majority in the House elected on Nov. 3.

In another possible move against a continuing conservative stronghold, the leaders also are considering enlarging the Democratic membership of the District of Columbia Committee to help get a House vote on some kind of "home rule" for the nation's capital.

A leadership source indicated that pressure of the growing House liberal bloc for even further steps intended to loosen the conservative hold probably would be resisted.

The liberal Democratic group, which had about 115 members in the 88th Congress, hopes to pick up 40 to 50 as a result of the Democratic election landslide.

One point on which the leadership and the liberal bloc appear in agreement is that two House Democrats who openly supported Sen. Barry Goldwater for president should be deprived of their rank in the party.

This would knock Rep. John Bell Williams, D-Miss., from his No. 2 spot on the Commerce Committee and out of a chance later to become chairman. The other party defector, Rep. Albert W. Watson, D-S.C., has too little seniority to be much affected.

Firemen Request Toys to Repair For Yule Gifts

Pampa firemen have launched their annual Christmas project of repairing used toys for underprivileged children.

Each year the firemen undertake the work of making new toys out of old ones and turn them over to the Veterans of Foreign Wars for Christmas party distribution.

The firemen say they would like to have the donations of used toys start at once.

They repair almost every kind of a toy with the exception of bicycles.

The need, they say, is for tricycles, small wheel toys, wagons, trains and especially dolls.

Persons having toys that can be repaired are asked to take them to any fire station or call the Veterans of Foreign Wars and they will be picked up.

City OKs Water Rate Boost Despite Plea

Former Mayor E. C. Sidwell asked the City Commission today to reconsider and reduce Pampa's water rates 10 per cent instead of raising them approximately 14 per cent.

After lengthy discussion which brought forth banter between the ex-mayor and Mayor H. R. Thompson and Commissioner Jim Nation, an ordinance to increase the rates was passed unanimously on second reading.

Third and final reading of the ordinance is scheduled next Tuesday. If it is passed then, the new rates will become effective.

Sidwell asked the commission to reconsider the rate increase and stated that Pampa already is known as "the city of high water rates."

The former mayor said he thought it was wrong to take money from the water and sewer fund to pay for the city's general services. He said other cities leave a percentage of water revenues for a contingency fund.

He said he also thought it was "morally wrong and probably legally wrong to put water outside the city limits without a master meter."

"And," the former mayor said, "I think it is wrong for the city to build a half-mile long water line for one customer outside the city."

Commissioner L. P. Fort wanted to know "how do you quit?" in reference to transferring money from the water fund to the general fund. He said the same thing has been done by city commissions for many years.

Directing his comment to Sidwell, Commissioner Nation said:

"You admit that you did the same thing and that the same things that exist now also existed under your administration."

Commissioner Fort then stated that "if someone will show us how to operate and give the needed services without taking this money out of the water fund, we'll be happy to listen to them."

Mayor Thompson said, "the only other method is to increase the amount of tax money to be used for the general fund and we can't do that under our present charter." The limit for operating expenses is now $1 of the $1.47 tax rate.

Sidwell stated that the city could increase tax valuations from 40 per cent to 80 per cent of true property values without raising the tax rate.

Commissioner Fort said he thought "this little raise in water rates (it will bring in an additional $85,000 annual revenue) is only a whistle stop as to what is coming when we begin paying for the Canadian River Dam project.

At one point in an exchange of words between Sidwell and Mayor Thompson, Sidwell said:

"So long as I am a taxpayer, I will continue to oppose bad government. If you don't like opposition, I suggest that you relinquish your position."

At Sidwell's suggestion to increase property tax valuation from the present 40 per cent to 80 per cent, Commissioner Nation said:

"If we did that you would be up here pounding the table, just as you are about the increased water rates."

In other business:

More than two dozen bids from firms from all sections of the state were opened at today's meeting for the purchase of an air compressor, ditching machine, backhoe, front end loader, trucks, and vitrified clay pipe and fittings to be used in con-

GM's Troubles Over, Ford's Loom Greater

DETROIT (UPI) — General Motors' labor troubles with the United Auto Workers Union were formally over today but Ford's problems were bigger than ever.

GM and the UAW Monday signed a new three-year contract covering nearly 350,000 workers to wrap up the 1964 round of auto talks which saw the union strike the industry for 45-days on the national and local levels.

Top Ford and UAW bargainers worked to end a five day walkout at nine plants around the country by nearly 16,000 workers.

The Ford strikes have cut the company's auto production by nearly 15 per cent and truck production by about 34 per cent. The walkouts came despite a national contract agreement between Ford and the UAW Sept. 18.

Bargainers representing five of the struck plants were in session Monday in an effort to end the strike. The sessions covered manufacturing plants that have to be settled so that other Ford production will not be curtailed by parts shortages.

Union and company negotiating committees from three-out-of-state plants and the Ypsilanti, Mich., parts plant met at Ford headquarters in suburban Dearborn Monday.

Funeral Set for Carl E. Benefiel

Funeral services for Carl E. Benefiel, 61, of Amarillo will be held at 2 p.m. Wednesday in Blackburn-Shaw Memorial Chapel. Burial will be in Fairview Cemetery in Pampa.

Mr. Benefiel managed the old LaNora and Rex Theafers here in the late '30s and '40s.

He was past president of the Pampa Chamber of Commerce and Lions Club and was one of the early supporters of the movement which brought about construction of Highland General Hospital.

Mr. Benefiel moved from Pampa to Amarillo in 1949, where he owned and operated the Victory Theater.

Survivors are his wife Wilma; one son, Charles of Phoenix, Ariz; two sisters, Mrs. Lige Linton of Tonkawa, Okla., and Mrs. Lillian Vandelier of Washington.

News Reporting Blamed on Defeat Of Goldwater

WASHINGTON (UPI) — Sen. Strom Thurmond, R-S.C., blames the nation's news media for the defeat of Sen. Barry M. Goldwater.

He says Goldwater would have won the presidency if it weren't for slanted reporting by the biggest news media.

The senator first made the charge in South Carolina, then expanded on his views in an interview with UPI here before leaving on an overseas tour.

Thurmond, who switched to the Republican party after Goldwater's nomination, also vowed to do everything possible for the GOP's conservative wing in the fight for party control.

If both parties were dominated by liberals, he said, a new party would be needed.

Rusk Arrives for Talk With Johnson

JOHNSON CITY, Tex. (UPI) — Secretary of State Dean Rusk arrived by jet plane at LBJ Ranch today to discuss with President Johnson friction among the NATO allies.

Rusk and the President also were to discuss other international problems. McGeorge Bundy, the presidential special assistant on national security affairs, was to join in the discussions.

The President concentrated on trimming the defense budget and NATO problems in cabinet-level talks at the ranch.

Johnson is trying to keep his 1966 budget below the $100 billion dollar mark. He hopes to frim waste from the defense budget to finance programs to make his "great society" a reality.

The high-level budget review with the economy axe sharpened — began Monday with the arrival of Defense Secretary Robert S. McNamara and Deputy Defense Secretary Cyrus R. Vance.

They worked long into the night on preliminary defense spending for the fiscal year starting July 1 and stayed overnight.

Pour Over Figures

The White House said Johnson and McNamara searched the figures with an eye for maintaining the "highest degree of national security within the lowest possible cost."

White House sources said Johnson has not settled on a total budget target but that normal projections, including precommitted increases, would put it between $103 billion and $105 billion.

The present over-all budget figure is $97.2 billion, of which $49.9 billion is earmarked for the Defense Department.

There are 13 task forces at work drafting programs which Johnson may eventually include in his legislative recommendations. Officials pointed out these necessarily will increase the budget proposals.

They also noted built-in money increases inherent in the new education and anti-poverty programs approved by Congress.

To Study Budget

Johnson planned to hold meetings over the next several weeks with agency heads to go

Search on For Suspect In Poisoning

SAN FRANCISCO (UPI)—Police and the Federal Bureau of Investigation today joined in a nationwide search for a San Francisco psychologist suspected of trying to poison his wealthy aunt, a former wife of bandleader Paul Whiteman.

The missing man, William W. Cootes Jr., 40, is accused of having administered small, cumulatively lethal doses of carbon tetrachloride in coffee of Vanda Hoff Unger, 66. Mrs. Unger was a well known dancer in the 1920's and 1930's. She was married to Whiteman from 1922 to 1931.

Mrs. Unger has been a patient in a convalescent hospital for the past 14 months. She is reported sufficiently recovered from the effects of the poison to schedule a visit out of the city with friends in the near future.

Two San Francisco police warrants against Cootes charge him with administering poison with intent to kill and wilfully poisoning food and drink. Each carries a sentence of 1 to 10 years.

The FBI warrant charges Cootes with unlawful flight to avoid prosecution. Bail has been set at $5000.

Steelworkers to Decide Fate of Wage Bargaining

PITTSBURGH (UPI) — The Executive Board of the United Steelworkers Union convened today to decide whether to reopen wage negotiations with the basic steel industry.

USW President David J. McDonald called the meeting to order. On his right was seated I. W. Abel, the USW secretary-treasurer, and to his left was Howard Hague, the union's vice president.

Abel and McDonald are vying for the presidency of the nation's third largest union. McDonald was affable but close-mouthed prior to entering the meeting room at the Penn-Sheraton Hotel.

"I have no comment," McDonald said.

William Mahoney, national director of the USW in Canada, which embraces Districts 2, 5 and 6, was also questioned about the Abel-McDonald power struggle.

"I will definitely have a comment after the meeting," Mahoney said.

The Executive Board will decide during its session here whether the USW should reopen contract negotiations with the nation's basic steel producers in January.

The board is composed of 29 district directors in the United States, Mahoney, Abel, Hague and McDonald.

Defense Starts In Slaying Case 20 Years Old

CELINA, Tenn. (UPI) — Defense attorneys today were set to question a man whose 12-year investigation of his father's traffic death led to the arrest of their client on second degree murder charges.

Welby Lee, 51, a lumberman from nearby Tompkinsville, Ky., resumes the witness stand in the Clay County courtroom.

Monday he told the story, after more than 20 years, of how he had traveled an estimated 100,000 miles and spoke to "thousands" of persons in his search which led to the arrest of Grover Jones a year ago.

Jones, 55, an Indianapolis, Ind., handyman, is charged with second degree murder in connection with the New Year's Eve, 1944 hit-and-run traffic accident which took the life of 64-year-old Newt Lee.

Welby Lee testified that he had visited Jones on three occasions before the arrest. He said he confronted him with signed statements from nine persons who had seen him in this rural Cumberland mountain area over the 1944 holiday period.

The witness also said that he traced a bumper section, found at the scene of the fatal accident, to Jones' 1939 Ford. In the last conversation, Lee said, "I told him I knew he was the

PAMPANS PLAN QUIET VETS' DAY

Pampans are planning a quiet observance of Veterans Day tomorrow.

Most of the retail stores will remain open for business as usual, along with the Gray County Court House.

City Hall, with the exception of the police department, will be closed for the day and there will be no regular mail deliveries tomorrow.

Business places and residents are asked to fly the American Flag tomorrow in observance of Veterans Day.

Darwin Wins 14-6

'Monkey' Game Ends in Texas

By William Hamilton

AUSTIN (UPI —The Texas "monkey war" ended Monday. Darwin won 14-6.

The "monkey war" was fought over five high school biology textbooks. Some religious leaders opposed the books, on the grounds they were too strong in teaching Darwin's theory of the evolution of man from lower species.

The books were accused of being "Godless," "contrary to the Bible," and "pagan."

The State Board of Education voted 14-6 Monday to approve use of the books in the state school system.

Those opposed to the books called the decision "truly a great step forward toward atheism," and talked of getting a court injunction to counter board's ruling.

The anti-evolutionists failed earlier to get the State Textbooks Committee to disapprove the books. The state education commissioner, Dr. J. W. Edgar, was then asked to overrule the committee. He refused.

Texas H. Stevens of Houston, editor of a Church of Christ newspaper, and Vernon Decker of El Paso talked of the possibility of court action to continue the fight, now that all three levels of state educational authority have ruled against them.

The central issue of the group's complaint was that the books taught the evolution of man as an accepted fact, and not as only an unproven theory. The textbook publishers and various educational leaders disagreed with them.

The books objected to were "Modern Biology," published by Holt, Richardson and Winston; "Biological Science for High School," Ginn and Co.; and what is known as the BSCS series: "Biological Science: An Inquiry into Life," Harcourt Brace and World; "High School Biology," the Rand McNally Co., and "Biological Science: Molecules to Man," Houghton Mifflin Co.

Those board members who voted against approval of the books Monday were:

Tom Houghston of Clarksdale, Mrs. George H. Swinney of Abilene, Dr. B. E. Masters of Kilgore, Paul G. Greenwood of Harlingen, Vernon Baird of Fort Worth and Paul Mathews of Greenville. Mrs. Will Miller of Corsicana was absent.

Bank Vault Burned Open

BYERS, Tex. (UPI) — The vault of the First National Bank of Byers was blasted or cut open today and an undetermined amount of money taken.

When officials arrived at the bank, it was smouldering from a fire started by the blast.

Joe Tom White of radio station KWFT, Wichita Falls, talked to the Clay County sheriff by mobile telephone. The sheriff said he was inside the bank and wearing a gas mask.

He told White a gaping hole had been cut in the vault.

Highway patrolmen and salvage and rescue units from Wichita Falls were en route to Byers.

US Writer Gets Term in Poland

WARSAW (UPI) — Melchior Wankowicz, a writer who is a U.S. citizen, was convicted Monday of "slandering" Poland abroad.

The 72-year-old author, who has protested censorship here, was sentenced to three years in prison. But the Queensman court reduced the term to 18 months as a result of a recently proclaimed amnesty.

Despite the sentence, Wankowicz beamed as he emerged from the courtroom and received the best wishes of his family and friends.

He has been under arrest since Oct. 5, but the court said he could return to his home here pending possible appeals by the prosecution or defense.

Air Force Planning Piggyback Satellite

CAPE KENNEDY (UPI)—The Air Force plans to orbit secret experiments next month with a new piggyback satellite that may save taxpayers an estimated $370,000.

It was learned this week that the satellite will hitch a ride into space on the side of an Atlas missile scheduled to be launched at Vandenberg Air Force Base, Calif., on a ballistic re-entry test.

The unique 300-pound spacecraft, called OV-1, is equipped with its own propulsion system. When its Atlas nears the peak of its climb into space, the satellite will separate from the missile, coast a few seconds and then will be kicked into orbit by its own rocket.

The Atlas will continue its separate mission and send its test re-entry vehicle diving into a Pacific target area.

Since the launch rocket was already assigned another mission, the piggyback satellite will get a free boost into space and needs only its own propulsion system to speed it into orbit.

Informed sources estimated the satellite alone costs about $150,000. By subtracting the cost of the craft's development and rocket system from the $1.1 million price of a launch rocket, about $370,000 will be saved for each of the six launches in the OV-1 series. Savings on later flights would be greater.

The spacecraft can loft 200-pound payloads and are expected to carry a wide range of scientific experiments for the Air Force Office of Aerospace Research.

Plans for Census On Agriculture Given by Leader

Plans for taking the 1964 census of Agriculture in Gray County were announced today by Mrs. Thelma Bray, newly appointed census crew leader for the county.

The job will be done in three stages, Mrs. Bray said. First will come recruitment and training of enumerators to count all farms in the county. About one enumerator for each 150 farms will be needed.

Shortly after Nov. 19, the Bureau of the Census, an agency of the U.S. Department of Commerce, will start the second stage by mailing agricultural census questionnaires to all rural boxholders in the county. This will give farm and ranch operators, who are required by law to fill out the forms, a period of time to consult their records and fill in answers to the questions.

In the final stage, enumerators will visit each farm in the county to collect the questionnaires. At the time of this visit, the enumerators will help farmers complete answers to any questions the farmers may have had difficulty with. Enumerator visits are scheduled to begin in this county on Nov. 23. Enumerators will take about three weeks to complete their work, the crew leader estimates.

The Census of Agriculture is taken every five years in the years ending in "4" and "9" to gather up-to-date information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U.S. economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventory, information on farm equipment and facilities, farm products sold, and use of fertilizers, insecticides and herbicides.

2 Plead Not Guilty In County Court

Two persons pleaded not guilty to separate charges late yesterday during county court proceedings.

Bill Warren of Pampa pleaded not guilty to charges of aggravated assault with a serious bodily injury. He was placed under a $500 bond. The complaint against Warren was signed by Thomas Stillwell, also of Pampa.

Donald G. Cole, 1912 Coffee, entered a plea of not guilty to a charge of swindling with worthless check.

He was also placed under a $500 bond.

Red Cross Board OKs Mobile Units

Reports from various standing committees and the approval of four mobile first aid units consisted of the agenda today in the regular monthly Gray County Red Cross board meeting.

The board met at 7 a.m. in Coronado Inn.

In other action, the board voted to cancel next months meeting and to meet again in January of 1965.

Nineteen persons were present this morning.

Nikita Ghost Laid to Rest By Leaders

MOSCOW (UPI) — Less than a month after his ouster, Nikita S. Khrushchev's political ghost appears to have been laid to rest.

Informed sources said today that the past four days of talks between Khrushchev's successors and visiting foreign Communist leaders have produced very few inquiries about the former premier and party chief.

Contrary to some expectations, visiting Polish, Czech, Hungarian, and other Soviet bloc leaders have not asked to see Khrushchev, who is believed to be in the capital. The sources said they have not even pressed for details of his dismissal in their meetings with the new party chief, Leonid I. Brezhnev, and the premier, Alexei N. Kosygin.

Some of the visitors, notably Communist Chinese Premier Chou En-lai, were too pleased with Khrushchev's eclipse to want to ask questions about the circumstances. Chou told newsmen in Peking shortly after Khrushchev's dismissal Oct. 15 that he considered it a good thing for Chinese-Soviet relations.

Others, such as East German chief of state Walter Ulbricht, have a long record of unquestioning acceptance of Moscow's choices.

According to the sources, the visiting Communist leaders have been told no more than the Western world has learned of Khrushchev's downfall from the pages of the official Soviet press.

Obituaries

Ben Hildenbrand

Funeral services are set for 2 p.m. Wednesday in the Lutheran Church for Ben Hildenbrand, 67, of Pampa who died at 4 p.m. yesterday in his home, 1926 N. Sumner.

Mr. Hildenbrand was born in Russia and moved to the United States when he was a small child. He was married in Lipscomb to the former Pauline Appel in 1917. The couple farmed near Lipscomb until they moved to Pampa in 1959.

Survivors include his wife; two daughters, Mrs. Fred Weeks of Pampa and Mrs. Babe Detrixhe of Amarillo; one son Abraham of Pampa; one brother, Abe of Canadian; one sister, Mrs. Lydia Schilling of Follett; one half-brother, Henry Schneider of Greensburg, Kans; four half sisters, Mrs. Lena Glasgow of Follett; Emma Laurie of Darrouzette; Mary Page of Denver and Mrs. LaNora Dykes of California and six grandchildren.

Pallbearers will be Lindy Houck, Glen Shave, Don Lamar, Ed Finson J. T. Carlson and Joy Thomas.

Rev. A. A. Bruns will officiate at the services and burial will be in Memory Gardens Cemetary, under the direction of the Duenkel - Carmichael Funeral Home.

● Commission

(Continued From Page 1)

nection with Pampa's sewage improvement program.

The bids will be tabulated and contract awards made at next week's meeting.

Commissioners also heard a request from Ray Bryant, electrical contractor, asking that the city's electrical code be brought up to date. Among other things, Bryant claimed that electrical inspection fees, which are passed on to the customers, are too high. The matter was referred to the city's Electrical Board for further discussion.

City bills totaling $18,652.44 and Lovett Memorial Library bills for $362.16 during November were approved for payment.

The City Secretary was authorized to re - invest $44,500 from the Water & Sewer and the 1948 interest and sinking fund.

Now You Know

By United Press International

Rheumatic disease cost Americans more than $2.5 billion last year, more than three quarters of which resulted from wages and salaries lost due to crippling arthritis and rheumatism, according to Life and Health magazine.

And the Play Must Go On

Tonight's performance by Pampa Little Theater of "Doctor's Orders" will go on as scheduled despite a threat of cancellation due to illness of cast members.

The presentation starts at 8 and tickets may be purchased at the door, 601 W. Browning, or reservations may be made by calling MO 9-9051. Tonight is the last night of the current production.

Sheriff Locates Stolen Property

The Gray County sheriff's office was on the finding end of things today as a pickup, reported stolen in Kansas, and various items of clothing and luggage, reported stolen in Amarillo, were recovered early this morning.

Sheriff's officers found the clothing and luggage in a small lake about 25 miles north of Pampa, just off Highway 66.

The items were reporteds tolen sometime Saturday night from an automobile owned by Joe Hume of Nagshead, N.C.

Officers also discovered an abandoned pickup early this morning, four miles north of Pampa on Highway 70.

The truck was reported stolen Saturday night in Liberal, Kan.

4-H Members to Attend Banquet

Two outstanding 4-H'ers from each of 22 Texas Panhandle counties will be in Amarillo Saturday for a District-wide Gold Star Banquet.

Danny and Cynthia Hogsett will represent Gray county at the banquet.

The banquet will be held starting at 6 p.m. in the YWCA, 1006 Jackson, Amarillo. Presiding at the banquet will be Allen McCloy, chairman of the District 1 4-H Council.

Special music will be furnished by members of the D. C. Barlow family from Ochiltree County. Featured speaker will be Billy Don Rives, 4-H member from Wheeler County.

Each Gold Star boy and girl will be awarded a framed Gold Star certificate by Jesse Cooper, Dumas, member of the Texas Commission on Higher Education.

LION-SIZED PROBLEM — Howard Sauter, a filling station operator in Abington, Pa., has a problem. Seems that neighbors aren't happy about Leo, Sauter's 300-pound pet which roams his backyard. Sauter brought the lion home two years ago with a broken leg. Neighbors have signed a petition to get rid of Leo, but Sauter is prepared to fight.

US Eyes Anew Cuba Sites for Missiles

By DONALD H. MAY

WASHINGTON (UPI) — On Oct. 27, 1962, an American U2 reconnaissance plane was lost on a mission over Cuba, presumably shot down by a surface-to-air missile fired by a Soviet crew.

The incident happened at the height of the 1962 missile crisis. It is the only instance in which one of Russia's antiaircraft missiles, known as SA2's or SAMS, stationed in Cuba has been fired at a U.S. plane.

Tuesday administration officials were focusing new attention on the network of SAM sites in Cuba. The new interest stems from Premier Fidel Castro's disclosure that the SAMS now have been turned over to Cuban control.

The news did not come as a surprise to U.S. officials. The Russians had been training Cuban crews to operate the missiles for about a year. There had been speculation the transfer of control would take place last May, but it was apparently delayed.

Russian Force Cut

The State Department said Monday that Castro's claim of control was "consistent with our information." It also said Russia's military force in Cuba, once 22,000 or more men, had been reduced during the past two years to "a few thousand" advisers and technicians scattered about the island.

Of more interest to U.S. officials was Castro's disclosure that in assuming control of the SAMS he had made an agreement with Russia on their use. Castro spoke of an "arrangement" under which he would not "unilaterally" use the SAMS against U2 planes. This could be read as a pledge not to fire them without prior consultation with the Russians.

"The commitment we assumed was that all legal means to put an end to U2 flights should first be exhausted; but this is not a commitment for an indefinite period," Castro added.

Respond Strongly

U.S. officials had assumed it would be in Russia's interest to obtain such an agreement because if Cuba shot down a U2, the United States could be calculated to respond with strong measures such as bombing the missile site involved.

Russia has an implicit commitment to defend Cuba. And the Cubans, if they were trigger happy, could draw the Russians into a crisis with the United States.

Copper was the first metal to be utilized by primitive man.

Shooting Incident Brings Charges

A shooting incident last night led to charges of disturbance and intoxication being filed today against two Pampa brothers.

Kenneth Mason, 17, 616 N. Zimmers, was found guilty this morning by City Judge John Warner for reason of failure to appear on disturbing the peace charges.

His 22-year-old brother, Don Mason, was found guilty of intoxication also for reason of failure to appear.

Both had their $25 bonds forfeited and were fined $25.

According to the police report the pair had gone to the home of James Richardson, 743 Brunow, to get a ring the younger Mason said he had given to Richardson's daughter.

Following an argument, Mason said he fired six shots from a .38 pistol into the air as they were driving off.

They were arrested a few minutes later in the 600 block of N. Zimmers.

School Board Sets Review of Audit

A review of the Pampa Independent School District's 1963-64 audit is scheduled among top items on the agenda for the regular meeting of the school board Thursday.

According to the agenda released today, other items will include consideration of a valuation engineer contract, and a report on "Distributive Education" by students of the DE class at the senior high school and their teacher, Elbert Albritton.

The board's regular monthly meeting is scheduled for 10 a.m. Thursday in the Pampa Junior High School.

US Writer Gets Term in Poland

WARSAW (UPI) — Melchior Wankowicz, a writer who is a U.S. citizen, was convicted Monday of "slandering" Poland abroad.

The 72-year-old author, who has protested censorship here, was sentenced to three years in prison. But the three-man court reduced the term to 18 months as a result of a recently proclaimed amnesty.

Despite the sentence, Wankowicz beamed as he emerged from the courtroom and received the best wishes of his family and friends.

He has been under arrest since Oct. 5, but the court said he could return to his home here pending possible appeals by the prosecution or defense.

Air Force Planning Piggyback Satellite

CAPE KENNEDY (UPI)—The Air Force plans to orbit secret experiments next month with a new piggyback satellite that may save taxpayers an estimated $370,000.

It was learned this week that the satellite will hitch a ride into space on the side of an Atlas missile scheduled to be launched at Vandenberg Air Force Base, Calif., on a ballistic re-entry test.

The unique 300-pound spacecraft, called OV-1, is equipped with its own propulsion system. When its Atlas nears the peak of its climb into space, the satellite will separate from the missile, coast a few seconds and then will be kicked into orbit by its own rocket.

The Atlas will continue its separate mission and send its test re-entry vehicle diving into a Pacific target area.

Since the launch rocket was already assigned another mission, the piggyback satellite will get a free boost into space and needs only its own propulsion system to speed it into orbit.

Informed sources estimated the satellite alone costs about $150,000. By subtracting the cost of the craft's development and rocket system from the $1.1 million price of a launch rocket, about $370,000 will be saved for each of the six launches in the OV-1 series. Savings on later flights would be greater.

The spacecraft can loft 200-pound payloads and are expected to carry a wide range of scientific experiments for the Air Force Office of Aerospace Research.

Plans for Census On Agriculture Given by Leader

Plans for taking the 1964 census of Agriculture in Gray County were announced today by Mrs. Thelma Bray, newly appointed census crew leader for the county.

The job will be done in three stages, Mrs. Bray said. First will come recruitment and training of enumerators to count all farms in the county. About one enumerator for each 150 farms will be needed.

Shortly after Nov. 19, the Bureau of the Census, an agency of the U.S. Department of Commerce, will start the second stage by mailing agricultural census questionnaires to all rural boxholders in the county. This will give farm and ranch operators, who are required by law to fill out the forms, a period of time to consult their records and fill in answers to the questions.

In the final stage, enumerators will visit each farm in the county to collect the questionnaires. At the time of this visit, the enumerators will help farmers complete answers to any questions the farmers may have had difficulty with. Enumerator visits are scheduled to begin in this county on Nov. 23. Enumerators will take about three weeks to complete their work, the crew leader estimates.

The Census of Agriculture is taken every five years in the years ending in "4" and "9" to gather up-to-date information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U.S. economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventory, information on farm equipment and facilities, farm products sold, and use of fertilizers, insecticides and herbicides.

2 Plead Not Guilty In County Court

Two persons pleaded not guilty to separate charges late yesterday during county court proceedings.

Bill Warren of Pampa pleaded not guilty to charges of aggravated assault with a serious bodily injury. He was placed under a $500 bond. The complaint against Warren was signed by Thomas Stillwell, also of Pampa.

Donald G. Cole, 1912 Coffee, entered a plea of not guilty to a charge of swindling with worthless check.

He was also placed under a $500 bond.

Red Cross Board OKs Mobile Units

Reports from various standing committees and the approval of four mobile first aid units consisted of the agenda today in the regular monthly Gray County Red Cross board meeting.

The board met at 7 a.m. in Coronado Inn.

In other action, the board voted to cancel next months meeting and to meet again in January of 1965.

Nineteen persons were present this morning.

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH at any drug counter.

Nikita Ghost Laid to Rest By Leaders

MOSCOW (UPI) — Less than a month after his ouster, Nikita S. Khrushchev's political ghost appears to have been laid to rest.

Informed sources said today that the past four days of talks between Khrushchev's successors and visiting foreign Communist leaders have produced very few inquiries about the former premier and party chief.

Contrary to some expectations, visiting Polish, Czech, Hungarian, and other Soviet bloc leaders have not asked to see Khrushchev, who is believed to be in the capital. The sources said they have not even pressed for details of his dismissal in their meetings with the new party chief, Leonid I. Brezhnev, and the premier, Alexei N. Kosygin.

Some of the visitors, notably Communist Chinese Premier Chou En-lai, were too pleased with Khrushchev's eclipse to want to ask questions about the circumstances. Chou told newsmen in Peking shortly after Khrushchev's dismissal Oct. 15 that he considered it a good thing for Chinese-Soviet relations.

Others, such as East German chief of state Walter Ulbricht, have a long record of unquestioning acceptance of Moscow's choices.

According to the sources, the visiting Communist leaders have been told no more than the Western world has learned of Khrushchev's downfall from the pages of the official Soviet press.

US Eyes Anew Cuba Sites for Missiles

By DONALD H. MAY

WASHINGTON (UPI) — On Oct. 27, 1962, an American U2 reconnaissance plane was lost on a mission over Cuba, presumably shot down by a surface-to-air missile fired by a Soviet crew.

The incident happened at the height of the 1962 missile crisis. It is the only instance in which one of Russia's antiaircraft missiles, known as SA2's or SAMS, stationed in Cuba has been fired at a U.S. plane.

Tuesday administration officials were focusing new attention on the network of SAM sites in Cuba. The new interest stems from Premier Fidel Castro's disclosure that the SAMS now have been turned over to Cuban control.

The news did not come as a surprise to U.S. officials. The Russians had been training Cuban crews to operate the missiles for about a year. There had been speculation the transfer of control would take place last May, but it was apparently delayed.

Russian Force Cut

The State Department said Monday that Castro's claim of control was "consistent with our information." It also said Russia's military force in Cuba, once 22,000 or more men, had been reduced during the past two years to "a few thousand" advisers and technicians scattered about the island.

Of more interest to U.S. officials was Castro's disclosure that in assuming control of the SAMS he had made an agreement with Russia on their use.

Castro spoke of an "arrangement" under which he would not "unilaterally" use the SAMS against U2 planes. This could be read as a pledge not to fire them without prior consultation with the Russians.

"The commitment we assumed was that all legal means to put an end to U2 flights should first be exhausted; but this is not a commitment for an indefinite period," Castro added.

Respond Strongly

U.S. officials had assumed it would be in Russia's interest to obtain such an agreement because if Cuba shot down a U2, the United States could be calculated to respond with strong measures such as bombing the missile site involved.

Russia has an implicit commitment to defend Cuba. And the Cubans, if they were trigger happy, could draw the Russians into a crisis with the United States.

Copper was the first metal to be utilized by primitive man.

Shooting Incident Brings Charges

A shooting incident last night led to charges of disturbance and intoxication being filed today against two Pampa brothers.

Kenneth Mason, 17, 616 N. Zimmers, was found guilty this morning by City Judge John Warner for reason of failure to appear on disturbing the peace charges.

His 22-year-old brother, Don Mason, was found guilty of intoxication also for reason of failure to appear.

Both had their $25 bonds forfeited and were fined $25.

According to the police report the pair had gone to the home of James Richardson, 743 Brunow, to get a ring the younger Mason said he had given to Richardson's daughter.

Following an argument, Mason said he fired six shots from a .38 pistol into the air as they were driving off.

They were arrested a few minutes later in the 600 block of N. Zimmers.

School Board Sets Review of Audit

A review of the Pampa Independent School District's 1963-64 audit is scheduled among top items on the agenda for the regular meeting of the school board Thursday.

According to the agenda released today, other items will include consideration of a valuation engineer contract, and a report on "Distributive Education" by students of the DE class at the senior high school and their teacher, Elbert Albritton.

The board's regular monthly meeting is scheduled for 10 a.m. Thursday in the Pampa Junior High School.

'Profiles in Courage' Comes to Television

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD (UPI) — The late President John F. Kennedy's "Profiles in Courage" has come to the television screen in a new network series which promises to entertain as well as inform.

The man who makes the promise is producer Gordon Oliver. "Our show is not a series of biographies. We are taking incidents in the lives of men and show how they react to great crises."

Oliver, who produced "Peter Gunn" and "Mr. Lucky," is a dynamic, white-haired man who organized the series when President Kennedy was alive, gaining JFK's approval of stories, directors, actors and other details of production.

"He was vitally interested in the project," Oliver said.

Thirteen of the stories from the book will be dramatized on the air. An additional 13 — all approved last year by JFK — have been filmed to fill out a full 26-week schedule.

Included in the series are segments on John Adams, Thomas Hart Benton, Daniel Webster, Sam Houston, Richard T. Ely, Andrew Johnson, Charles Evans Hughes and Robert A. Taft.

"Profiles in Courage" will be seen Sundays at 6:30 p.m. EST via NBC-TV in the time slot opposite "Lassie."

"Our stories involve men from many walks of life, politics, education, religion and the military," Oliver explained. "However, we don't take an event and make it the star. We start with the man and let the event happen to him.

"People won't tune in if they think they're not going to be entertained. So we've taken history lesson subjects and treated them dramatically and commercially, but we're also sticking to the facts.

"A great deal of the dialogue is exact; taken from the Congressional Record."

When JFK agreed to allow his Pulitzer Prize-winning book to be transformed to television he stipulated that it could not be aired before Nov. 3, 1964, on which date he had expected to run for reelection.

Soviet Oil Rigs To Work Mexico

MEXICO CITY (UPI)— Ten Soviet petroleum drilling rigs are due to arrive in Mexico shortly, it was announced by Pascual Gutierrez Roldan, director general of Petroleos Mexicanos.

The rigs, purchased by a Mexican trade mission to the U.S.S.R. and Eastern Europe earlier this year, are valued at $250,000. They will be used in Pemex's Gulf Coast drilling programs.

DECA Week Proclaimed in City

Mayor H. R. Thompson signed a proclamation last week declaring the week of Nov. 8 to 14 as DECA Week in Pampa. This week is being observed across the nation as National DECA Week.

The local Distributive Education Club of America is composed of students enrolled in distributive education at Pampa High School. This club is sponsored by Elbert L. Albritton, coordinator of Distributive Education.

In Pampa there are 25 young persons being trained by working in 21 local business places. Students average some 25 hours per week in this on-the-job training.

The National Association of Distributive Education Clubs of America was founded 18 years ago with only a handful of dedicated members. It is forecast that the membership will go over 50,000 members this year. Many of the state organizations will increase over 50 per cent of the previous year.

DECA was organized to aid the students enrolled in Distributive Education as was FFA organized to help the students enrolled in Vocational Agriculture.

DECA has many purposes: (1). To develop leadership in the field of distribution; (2). To develop a sense of individual responsibility; (3). To provide opportunities for intelligent career choice in distribution; (4). To encourage ethical practices in business; (5). To engender a a healthy respect for education and (6). To create and nurture and understanding of our free competitive enterprise system.

Through the understanding of these purposes DECA can help develop the future leaders for marketing and distribution.

Many of the businessmen across the nation got their start in the distributive education class in school and by belonging to the local DECA club. It is through this program that they learned how to work together with the store managers and store personnel to put into actual practice the theory of the retail and wholesale practices taught in the classroom.

The DECA emblem is in the shape of a diamond with a wrapped package in the center. The points of the diamond stand for vocational understanding, civic consciousness, social intelligence and leadership development. The wrapped package is symbolic of a job well done. Without a complete understanding of these points, no job can be well done.

Red-Called Strike Snarls Line of Italian Railway

ROME (UPI) — A Communist-called strike by railway workers snarled Italy's transportation system Monday. A seperate strike by merchant seamen delayed shipping.

The leftwing railroaders, who are asking extra benefits over and above wage raises agreed on by the government and other unions, Sunday started a week of strikes by walking out for three separate hour-and-a-half periods.

Although the government said little more than 50 per cent of train engineers walked out, Sunday's stoppages were effective enough to create chaos.

The Transport Ministry said the first two stoppages held up 1,269 out of 1,609 trains scheduled during the strike hours. The Communist-led union claimed the strike was 99 per cent effective in some places.

Job Corps Sites Named Over U.S.

WASHINGTON (UPI) — The anti-poverty office of economic opportunity announced Monday 22 new proposed job corps sites in 11 states, bringing the total of proposed sites to 42.

R. Sargent Shriver Jr., director of the office, said each of the 22 proposed centers would have 100 job corpsmen. The majority of the sites are expected to be opened within the next six months as part of the administration's war on poverty.

The states where the new sites are proposed are: Arizona, California, Illinois, Kentucky, New Mexico, North Carolina, Ohio, Oklahoma, Oregon, Virginia and West Virginia.

Titmice in England have learned to open milk bottles.

Dallas Deputy Killed Trying To Save Man

DALLAS (UPI)—Dallas County lost a deputy sheriff to gunfire Monday for the first time in 30 years. Ironically enough, he was trying to save the life of the man who killed him.

It all began when Russell Meetz, 55, ran into his front yard in Seagoville, 20 miles southeast of Dallas, screaming "I'm going to kill myself."

He was waving a rifle in his hand.

A neighbor, Mike Person, telephoned the Dallas County sheriff's office, and deputies Troy McKenzie and J. W. Hill were sent to prevent the suicide.

But as Hill stepped from his patrol car, Meetz fired at him from his house with the 30-30 rifle.

As Hill dropped, struck in the chest by the bullet, Meetz turned the rifle around and killed himself.

Hill, 26, who had a 9-month-old son and another on the way, was rushed to Baylor Hospital, where he died in surgery five hours later.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

The Soviet Union has added another zag to the zigs and zags which have characterized Communist policy toward agriculture since the days of Lenin.

Sabotage by the peasants forced Lenin in 1921 to permit a limited return to private enterprise, including the peasants' right to sell their produce on the free market.

By 1928, Stalin had won his struggle for power inside the Kremlin and was ready to declare his war on the peasants who by this time had amassed 25 million small holdings averaging 20 acres apiece. In the succeeding five years, two-thirds of these were eliminated and their small holders (kulaks) forced into collectives.

Millions of peasants were killed, others deported.

Slaughter Livestock

In the first three years of resistance, the peasants slaughtered nearly half their livestock, leading to the famine of 1931-32 and death by starvation of an estimated three million persons.

Systematic, all-out terror finally overcame peasant resistance and by 1937, most of their holdings had been merged into a quarter of a million collectives.

Historically, Communist collective agriculture has never worked anywhere.

And the reason that Soviet agriculture is not in worse shape than it is can be found in the tiny fraction of the land which the Soviets reluctantly have granted to farmers for their own use.

On these plots have been produced more than half the country's vegetables, eggs, fruit, poultry and milk.

Partly out of sheer necessity, partly in an over-all attempt to curry favor among the population, the new Soviet leadership has disclosed that the role of the private plot again is to be increased.

In the Ukraine and Estonia decrees limiting the size of the private plots already has been rescinded. Similar action is expected among the 13 other republics which make up the Soviet Union.

Still Seek Answer

The announcement of the increased role of the private plot by new secretary first party Leonid I. Brezhnev indicates that the new leadership, even as the deposed Nikita Khrushchev, has yet to find the magic formula to overcome the admitted lag in Soviet agriculture.

One whose career has had almost as many ups and downs as Soviet agriculture is one who has been closely associated with it through the days of both Stalin and Khrushchev.

He is Prof. Trofim D. Lysenko who believes that inherited characteristics of plants could be changed by man's control of their environment. Since, if his ideas had worked they could have produced whole new varieties of plants to multiply Soviet food resources, the Lysenko theory attracted first Stalin and then, after a period of obscurity, Khrushchev.

Under the new leadership it has indicated it will follow the more practical course of increased agricultural investment and fertilizer.

If the enlargement of the private plots, it even will revert to capitalism.

RED BEAUTY—Soviet film actress Natalya Fateyeva says she is not interested in a Hollywood career because she can make more money in the Soviet Union. The 25-year-old beauty was in London promoting a Soviet film week.

Duchess to Abdicate for Son

By WILLIAM ANDERSON

LUXEMBOURG CITY (UPI) —Grand Duchess Charlotte of Luxembourg will abdicate in favor of her eldest son this Thursday.

And as one Luxembourger put it: "Unlike the Russians we will not take her pictures down. We will just add those of Prince Jean."

The "grand old lady," 74 and ailing, has ruled this tiny but Sovereign nation for more than 45 years.

The long-expected abdication to the 42-year-old prince will consist simply of a signature on a document at an intimate ceremony in the grand ducal palace.

Prince Jean will then drive to Parliament to swear fidelity to the laws and people of Luxembourg and the new reign will have begun.

When she announced her intended abdication some months ago, the ailing 74-year-old Grand Duchess gave the following explanation to her 320,000 subjects: "It seems to us that the length of our reign and common sense form a basis for the retirement."

Grand Duchess Charlotte and her husband Prince Felix whom she married a few months after acceding to the throne, plan to retire to a manor house at Fischbech some 15 miles from the capital.

Prince Felix, considered one of the best shots in Europe, may find more time for his favorite sport while the Grand Duchess may not find retirement as quiet as she expects. She has 25 grandchildren and they call frequently.

The transition should be smooth. Prince Jean, 42, has been assuming numerous executive powers since his mother nominated him lieutenant representative of the duchy three years ago.

This took some of the burden from her houlders and enabled Luxembourgers to become used to the idea gradually that their "grand old lady" was preparing to say farewell.

Prince Jean still looks like what he once was — an officer in the British Grenadier Guards. The tall, slim, straight-backed prince spent World War II in Britain and rode a tank into his liberated capital in 1944. He brought a British army sergeant-major along with him and the non-com stayed on to make the Luxembourg army one of the smartest on parade if not the biggest in Europe.

In 1953 he married Princess Josephine-Charlotte, sister of Belgium's King Baudouin. They have five children including 9-year-old Prince Henri who next Thursday becomes hereditary grand duke of the 999-square-mile duchy.

Chinese Want To Buy Planes For Long Range

LONDON (UPI)—Communist China wants to buy long range jet planes from Britain to operate a direct route to Cuba through Pakistan and Africa, it was learned Monday.

Peking's interest in jets is part of its search for expanded trade with the West.

Latest British estimates suggested that trade with Red China could be expanded over the years to come to a figure approaching $300 million annually.

Peking's interest in Western supplies and Britain's expectations for expanded trade with Red China have been spotlighted by the current British trade fair in Peking and the visit there of Laborite Board of Trade President Douglas Jay.

The government estimates that the going will be slow but that long range prospects are promising.

The drying up of Soviet supplies resulting from the Sino-Soviet conflict have caused China to turn to the West. Britain, France, and Japan have been the main centers of interest.

Pampa Minister Named to Board

Rev. Therman O. Upshaw, pastor of Central Baptist Church of Pampa, was elected as a trustee for the Baptist Executive Board by messengers to the Baptist General Convention of Texas meeting in Corpus Christi last week.

The election came during the Thursday morning session of the three-day state Baptist convention.

The 192-member board is composed of pastors, laymen and women throughout the state. It meets four times a year to conduct the denomination's business between annual sessions.

The board's primary purpose is to promote all phases of Texas Baptist missions both at home and abroad, and to teach, enlist and train in Christian service and stewardship in all areas of life.

Members of the board serve as representatives for more than 1.7 million Baptists who are members of the denomination's 3,908 churches in Texas.

Methodist Group Names Officers

AUSTIN (Spl) — Trustees of the Texas Methodist Foundation meeting in Austin last week named Grogan Lord, president of Texas Capital Corporation, as chairman for the coming year. At the same time the foundation named as new directors Dr. William H. Dickinson, pastor of the Highland Park Methodist Church in Dallas; Roy Furr, president of the Furr grocery chain headquartered in Lubbock; and Barney Greathouse, prominent Midland oilman and retailer.

More than 60 trustees gathered at the Commodore Perry Hotel for the meeting Wednesday, heard that the Foundation has approximately doubled its assets each year since opening its offices in Austin in 1960.

Pampa trustee of the Texas Methodist Foundation attending the meeting was Dr. R. Luther Kirk.

Son of Residents Elected at School

Richard Eugene Cree, son of Mr. and Mrs. Richard Cree, 1912 Charles, has been elected secretary-treasurer of the high school sophomore class at Schreiner Institute at Kerrville, the institute news service has announced.

Elections were held under direction of the government and civics classes at the school and officers will serve for the current year.

COPTER HITS CARRIER

SAN DIEGO (UPI)—Navy authorities sought the reasons Saturday why a remote-controlled anti-submarine helicopter went astray and crashed into the mast of the carrier Bennington.

The unmanned helicopter veered off course Friday eight minutes after it was launched from the destroyer Eversole in an anti-submarine exercise about 40 miles offshore.

The carrier's bridge and some antennas were damaged by the craft, which fell into the sea. No one was injured, the Navy said.

Dear Abby....

Biggest Chasm in the World Starts With the Tiniest Gap

By ABIGAIL VAN BUREN

DEAR ABBY: We have been married for 24 years and we have no problems except that my wife likes to read the newspaper in bed before going to sleep. I like to read in bed, too, but my wife is still reading the newspaper long after I have dozed off. She has a certain way of turning the pages with a quick swish, which invariably wakes me up. (Now that I have put it in writing it looks like such a silly little thing but, Abby, you have no idea how irritating this can be!)

She promised a few times that she would not read the newspaper in bed any more, but she always starts up again. I just moved into another bedroom. No fights. Just a decision. Was I wrong?

ETHEL'S PARTNER

DEAR PARTNER: No. It's too bad that more people don't realize that the biggest chasm in the world started with the tiniest gap.

DEAR ABBY: Last August a niece of mine was married. Two of my daughters were bridesmaids and my little boy was the ring-bearer. There were three showers for the bride, which my daughters and I attended. (This meant nine separate gifts.) In addition to that, we gave her a very expensive wedding present. The bridesmaids' dresses were store-bought and came to $49.50 each. I am not counting the shoes, gloves and incidentals. The boy's ring-bearer suit was made by a dressmaker, and that was not cheap, either. You can imagine how much all this added up to, but I'm not complaining. I loved every minute of it.

My sister (the bride's mother) paid a photographer to come and take pictures of the wedding. She had a book made up and it was beautiful. I asked for a picture or two. My sister said I could buy them from the photographer. I told her the one that was in the newspaper would do me all right. Now she's peeved at me and refuses to talk to me. Will you please tell me if relatives and members of the bridal party are supposed to buy pictures?

ONLY A SISTER

DEAR ONLY: Close relatives and members of the bridal party are usually given a picture of themselves and one of the bridal couple. Your sister is either uninformed or tapped out. (And possibly both!)

DEAR ABBY: I am 18 and am engaged to be married soon. I wear braces on my teeth and have for two years. My dentist tells me that I must wear these braces for another year. He has offered to remove them for my wedding if I will let him put them back on afterwards. My fiance feels that I should get married with the braces and complete the treatment. I just can't see myself getting married with braces on my teeth. And then wearing them after I am married. What would you do?

BRACE PROBLEM

DEAR PROBLEM: I would let my dentist remove my braces for the wedding, replace them afterwards and complete the treatment.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 69700,

---

Skinny strings of leather are a popular method of belting long-jacketed suits and slim coats in fall fashion collections. The belts ride low on the waistline and in most instances are removable.

FANCY FOOTNOTES

Perfect for relaxing moments — fancy boots to keep your toes warm! These colorful boots are easy to sew from felt and trim with gay flower stamps-ons. Make a pair for yourself and another for gift-giving.

No. 316-H has pattern pieces; for sizes small, medium and large, inclusive; color transfer.

To order send 50 cents in coins for each pattern to: Creative Woman, Pampa News, Box 438, Midtown Station, New York 18, New York. Add 10 cents for 1st class mailing. Print name, address with zone, style number and size.

Mrs. Lola Adcock Honored by TOPS

CANADIAN (Spl) — Pound Parters of TOPS Club met recently at Girl Scout hut and honored Mrs. Lola Adcock with a salad supper in observance of her first anniversary as a KOP, a person who has reached her weight goal.

The honoree was presented with a gift by the members of the club.

Before the supper, the monthly awards were made. Mrs. Juhree Carr won the trophy and Mrs. Reba Presson won the linens. Mrs. Ruth Yarnold won the fruit for losing the most weight during the week.

Those present were Mmes. Opal Davis, Helen Brock, Lois Flowers, Louise Moore, Arlene Sword, Margarette Price, Juhree Carr, Ruth Yarnold, Lola Adcock and Reba Pesson.

Durable melton, a smooth surfaced wool, crops up repeatedly in coat collections for the new season. Watch for it in various shades of off-white. Arthur Jablow called his off-white "mushroom."

Brethren Church Groups Meet for Joint Sessions

Wednesday evening at 8 o'clock, Lydia and Deborah Circles of the Church of the Brethren met at the church for a business meeting and Thanksgiving program. The Men's Fellowship met at the same time.

Mrs. Johnnie Meadows conducted the business meeting. Mrs. Ray Burger was in charge of the program.

Singing of the hymn "Count Your Blessings" opened the meeting after which readings were given. Those participating on the program were Mrs. Dean Burger presenting "Autumn;" Mrs. Bob Swope, "Thanksgiving" and the first proclamation of Thanksgiving day issued by George Washington in 1789, was read by Mrs. Charlie Pipes.

Hostesses, Mmes. Harry Miller, Nadine Godfrey, Ray Burger and Charlie Pipes served refreshments of pumpkin pie with whipped cream and coffee during the social hour at which time a quiz on the life of Christ was conducted with both men and women participating.

Mr. and Mrs. Willie Harless attended the meetings as guests.

CLASSIFIED ADS GET RESULTS

TEL Class of Canadian Meets

TEL Class of the First Baptist Church met recently with Mrs. Stella Evans opening the meeting with prayer.

Mrs. Marie Smith read, "A Prayer of Thanksgiving." Mrs. Vollie Varnell read the minutes of the last meeting.

Members signed cards to be mailed to Mrs. Ora Belle Mooney and Mrs. Ed Little, who were unable to be present because of illness.

Mrs. Virginia South gave the devotional using the theme "Let Us Keep Faith." Mrs. Stella Evans gave the thought for the day, "Be Wise."

Pumpkin pie and spiced tea were served.

Those present were Mmes. Marie Smith, Virginia South, Velma Matthews, W. P. Varnell, Elsie Ayers, Florence Rose, Mildred Graham, Paul Malcolm, Esther Bentley, P. Bryant, Masters, Kelly, Cain and Mathis.

Mrs. Gist Receives Weekly Club Honor

Pampa Pound Pirates TOPS club met recently for a regular business meeting in Reddy Room of Southwestern Public Service Co. Mrs. Gene Leigh conducted a short business meeting.

Mrs. Elzie Teague reported a loss of nine pounds with one pound gained. Following the weight report Mrs. Dayton Wallace gave the treasurers report and called the roll. Eight members answered roll call.

Two new members were welcomed into the club. Mrs. Judy Rollins was crowned monthly queen with Mrs. Leon Brown as runner-up.

Mrs. O. C. Gist won the fruit bowl for being the best looser for the week.

The mystery box was guessed by Mrs. Gist. The singing of the theme song closed the meeting.

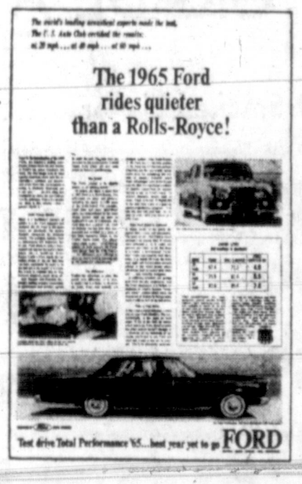

"Bunk!"

"Hard to believe..."

"Must have had a 50-year-old Rolls..."

"Come on now..."

"Amazing..."

"This ad kills me..."

"Incredible!"

"Ridiculous!"

"Far fetched!"

"Hooey!"

To the 5 out of 10 people who didn't believe this ad...

a sporting proposition

Take a no-obligation test drive in a 1965 Ford. Maybe you just couldn't believe the ad (reprinted above) which appeared in this paper a few weeks ago. After all, many consider Rolls-Royce to be one of the world's finest cars. But Ford does ride quieter: The world's leading acoustical experts (Bolt, Beranek and Newman, Inc.) made the tests. The U.S. Auto Club certified the results.

This year's Ford has the strongest body ever . . . a revolutionary new frame that "tunes out" vibrations . . . new ultrasoft coil-spring suspensions—all contributing to the new hushed ride. But the ride is only part of what's new.

■ New swept-back instrument panel adds five inches extra knee room. ■ Transmission tunnel is lower than in competing cars for extra foot room. ■ Trunk has more usable space than ever—holds four 2-suiters standing upright.

■ New ultra-luxurious LTD series—unmatched by any other car in Ford's class. ■ Silent-Flo ventilation (standard on 4-door hardtops) removes stale air, provides fresh air even with all windows closed. ■ Exclusive new twin-edge key—works with either side up.

■ Hot, but hushed, 289-cu. in. V-8 is standard equipment in XL and LTD models.

■ Smooth, thrifty all-new Big Six in other models—the most powerful standard Six offered by any car in Ford's class. ■ V-8 options to 425 hp.

■ All Ford automatic transmissions have 3 speeds, not 2 as in many competing cars. ■ Fully synchronized manual transmissions—you can even shift down to first without clashing gears.

If all this sounds like a lot for one car to offer . . . take a test drive. See why more people are buying Fords than ever before in post-war history.

this cockeyed phone can't ring

BUT IT WILL SIGNAL TO LET YOU KNOW THE RECEIVER IS OFF THE HOOK...SO YOU WON'T MISS CALLS

When your telephone receiver is off the hook, your phone can't ring. It's closed to incoming calls. This kind of trouble we can't prevent.

But when it happens, a signal is sent over the line to attract your attention. All you do is replace the receiver properly on the cradle. Now your phone can ring.

We hope this will make your telephone even more useful and of greater personal value.

SOUTHWESTERN BELL

Making telephone service better to serve you better

Clothes Poll

By HELEN HENNESSY

A friend of mine who thinks boots belong only on storm fighters and fishermen declared her delight at the feminine trend the new fashions are taking.

"At least the sportive is gone and we'll see no more boots on sunny days."

I had to disillusion her for boots will be around in force for fall — rain or shine. And they are not to be considered a departure from the elegant, feminine path fashion is taking, either. Quite the contrary, in fact.

Research done by a New Yorker named William Manowitz, president of a well-known bootmaking firm (Huskies), shows that boots were considered the ultimate in femininity by stylish women of history, including such belles as Madame de Pompadour and the red-haired Elizabeth I. Even the legendary Diana the Huntress is pictured as a fetching little goddess in boots.

Manowitz, whose occupational disease takes the form of counting boots instead of sheep at night, said: "The first instance I can find of women wearing shoes at all is an Egyptian beauty, Mimmert, circa 2500 B. C.

"Then just a thousand years later boots entered the picture. (We would save money if fashion still moved at that pace.) The boots were worn by a Cretan princess and they were high, with lifted heels."

Later Greek women wore ornamented silk boots as objects of luxury and flirtation.

Henry VIII's dashing daughter, Elizabeth, brought in the fashion for boots with dainty heels and Madame de Pompadour added a touch of French styling and the imaginative use of velvet, lace encrusted with precious stones, trims of silk roses and decorative revers.

Well, enough of ancient history. We won't be walking down Main Street in bejeweled or rose-bedecked boots. But if these great ladies of the past, known for their feminine wiles, preferred to shod their dainty feet in boots when they held court, who are we to argue that boots are not feminine?

All kinds of boots will return to the scene for fall — suede, butter-soft kid, fur - trimmed leather and a new man made material that looks and feels like leather, resists scuffs and can be wiped clean with a damp cloth. For evening wear they turn up in silk and lace.

We have witnessed the demise of the sportive look, but boots, gone glamorous, are still with us.

Proper length and size of nylon hose mean better appearance, greater comfort and better wear, reports Mrs. Mae Barton, Pennsylvania State extension clothing specialist. Once you find the brand of stockings that fit your legs satisfactorily, ask for them each time you buy.

CONVERSATION CENTER — A "new" idea in conversation centers is the low party table which shares the limelight here with three low chairs in blue and white fabric over latex foam cushions. The table grouping serves handily as a gaming center or for after-dinner bridge. Small bright green pull-up stools live under the hearth when not in use.

Senior Center Corner

By MRS. O. A. WAGNER

Wasn't the moisture grand; for the farmers and the city dwellers lawn? But the "fly in the ointment" was—couldn't it have come a day or so later, or earlier so your reporter could have enjoyed more of the OES school of instruction Thursday, and Senior Center too? Did get in part of the school and all of the Center.

Correction: It was Louise Sewell and not Ruth who was serving at the center last week. Have know both for many years.

Guests of Mrs. C. L. Long Tuesday was son, L. E. Long and wife from Amarillo.

Sorry to hear that Mrs. Gladys Higgins is confined in Highland Hospital. The lovely centerpiece of spider mum, pom-pom mums and glads furnished by Mrs. Roy Kay was sent to Mrs. Higgins.

Mrs. Corneilson was missed. Understand she was under the weather.

Mrs. Margaret Snider was a visitor and reports she is going back after Christmas to her home in New Haven, Conn. Mrs. Snider is visiting her daughter, Mrs. Don George.

Guests of Mr. and Mrs. J. C. Moseley are Mrs. Moseley's sister, Mrs. Jewell McCampbell of Post and brother O. M. Pruett of Amarillo who were guests of the Center this week. Mr. Moseley, who is an infrequent member, came along.

Mrs. D. H. Porter of Shamrock, was a Friday visitor last week of her mother, Mrs. C. E. Miller and brother, Bill.

The Altrusa Club was hostess for the monthly birthday meeting, serving cake, ice cream and coffee. Those having birthdays were Mmes. Fred Cullum, J. C. Moseley, Maggie Deal, Iva Ward and Mr. R. H. Dilley. Each received a nice gift from the club. Altrusans serving were Mmes. Louise Sewell, Lena Pearl Hobbs, Mabel Hukill and Marion, Jamison. The birthday cake was furnished by Mrs. Emily Coston.

Gray Ladies serving with transportation were Mmes. Jess Hatcher, Oma Drew, O. F. Kreimeyer and A. D. Hills.

Was sorry to learn of the death of Jay Flannigan's sister. Our sympathy is extended.

Mrs. Lillian Brunelle has been taken from the hospital to the rest home in Canadian. Am sure she would love to have company from friends here.

WS Guild of First Methodist Continues Study of Genesis

Wesleyan Service Guild of First Methodist Church met recently in the home of Mrs. L. M. Harrah, 2401 Duncan.

Meditation, "What Can Thanksgiving Do For You?" was presented by Mrs. L. B. Penick, who challenged the group to watch each day for new opportunities to express thanks for some of the lesser things in life which are ordinarilly overlooked.

Continuing the study of "Genesis," Mrs. Luther Kirk presented the lesson on "Abraham, Man of Great Faith."

During the social hour which followed the program, the hostess served refreshments to members present and three guests, Mmes. Luther Kirk, Bonnie Hutchinson and Bill Hutchinson of Lima, Peru.

Mrs. Alma Wilson, vice president, conducted the business session.

Men's wear fabrics especially the wools with pin striping, go into women's suits for fall and winter. Look also for coats and suits in cavalry twills and in whipcord.

Skellytown's GA's Feted at Party

SKELLYTOWN (Spl) — GA Girl's of Skellytown First Baptist Church, sponsored by leaders, Mrs. Captola Lynch and Mrs. Lorene Cone, enjoyed a Halloween masquerade party recently in Fellowship Hall of the church.

New officers elected for the coming year were president, Carla Sangester; vice president, Renee Allen; secretary, Stephanie McDonald; forward step chairman, Valerie Wimsett, song leader, Denise Mathew; and musician, Renee Allen.

Refreshments of candied apples, cookies, candy and hot chocolate were served.

Attending were Debbie and Renee Allen, Rebecca Fox, Karen Ledford, Paula Lane, Tresa Tietz, Tresa Campbell, Carla Sangster, Valerie Wimsett, Renee Noble, Pam Duckworth, Judy Hassler, La Ronda Fanning, Kathy Lynch, Pat Shoulders, Sarah Lynch, Stephanie McDonald, Sherri Pershall, Helen Flippo, Sharon McDonald, Ann Penland, Gayle Trolinger and Rena Tosh.

More heat will be reflected into a room if you thumb-tack a piece of heavy aluminum foil behind the steam or hot water radiators.

Sherri Pershall Is Honored by Parents

SKELLYTOWN (Spl) — Mr. and Mrs. Ray Pershall honored their daughter, Sherri Lynn, with a party recently on Miss Pershall's 11th birthday.

Following opening of gifts and playing games, guests were served cake, ice cream and punch.

The serving table was covered with a dark green cloth and appointed with yellow twisted tapers in white milk glass holders. A white sheet cake with decorations of pale blue and yellow decorations, centered the serving table.

Atteding were Sherri Pershall, Ann Penland, Vicki Cowan, Vicki Robinson, Ruth Neill, Denise Mathews, Pam Sargant, Kathy Lynch, Barbara Beckloff, Carla and Pam Duckworth, Stephanie McDonald, Tresa Tietz, La Ronda Fanning, Judy Hassler, Dona Duckworth and Tony and Richard Pershall.

Gardeners are advised to remove flower heads of lilacs, early - flowering rhododendrons, peonies, and similar plants immediately after the blooming period.

The U.S. Department of Agriculture says the widest variety of foods at supermarkets is found in lower income neighborhoods. The cost - conscious homemakers need the widest selection of foods to make their budgets stretch.

Modacrylic fibers (Dynel, Verel) require the lowest ironing temperature, approximately 225 degrees, for satisfactory results. The highest temperature, 350 dgerees, is needed for satisfactory results with cotton and linen.

Sporting Sidelines

By JEFF COHANE

Tonight, Randy Matson will be honored by the City of Pampa for the fame he has brought this community as a great athlete.

In my own small way, I would like to add a tribute to the many that will be spoken tonight, but I would like to comment on Randy Matson the man.

This young man has achieved at the age of 19, the heights that he set he heart on when a youngster. . .heights that no one really believed he could accomplish so young. Today, he is without question, the world's greatest shotputter. In the words of the retired Dallas Long, the only man to ever put the shot farther than Randy, "Matson is the greatest."

How does it feel to be the greatest? Well, if you are a Cassius Clay, you wear it like a suit. . .you eat, sleep and live "the greatest." But if you are Randy Matson, you stay absolutely unchanged. . .the same friendly, likeable, straightforward youngster you have always been.

I have known a great many athletes. Some of them have achieved the pinnacle of fame. Some of them have remained unchanged, but many have succumbed to the glitter of their own headlines. . .have begun so deeply to believe what is written and said about them that many times sportswriters have, in effect, created a monster.

I, for one, can proudly say that neither I, nor any other sportswriter has created any kind of Frankenstein in Randy Matson. If there is to be an example of true manhood and humility in one of the greats, to offset the phonies, I present for your inspection . . . James Randal Matson.

The only change in the tall, muscular youngster that came in to visit on his triumphal return from the Olympics and the youngster, say, that went off to his first state track meet has been an added poise, articulateness and maturity, all of which suit him well. The same politeness, respect and frank answers which always characterized him are still there, and probably always will be.

In a long conversation, Randy gave me enough material for two or three columns. . .all of which we will take up shortly . . .but for right now, before he leaves Pampa for Abilene, I just want to say that if Randy is typical of the young men the United States is sending to the Olympic Games, this country will never lack for young men to be proud of. Randy Matson is a great athlete, the greatest in the world in his field. . . .but more important, Randy is a gentleman.

Rick Pezdirtz Goes to Valley

Richard (Rick) Pezdirtz, former sports editor and managing editor of The Pampa News, has been named sports director of the Valley Morning Star in Harlingen, the Brownsville Herald and Evening Monitor in McAllen.

All three are sister newspapers of The Pampa News.

Pezdirtz was employed by The Pampa News in the 1950s. For the last three years he has been golf editor of the Miami (Fla.) News.

OU Frosh Win

NORMAN, Okla. — The University of Oklahoma freshmen won their opening game yesterday afternoon, defeating Tulsa, 32-14. Ricky Goodwin of Pampa played most of the game at middle linebacker and also kicked off. Bob Patton of McLean is reported unofficially as having turned in his suit, due to an infected shoulder. The OU frosh play the Oklahoma State frosh at Norman on Nov. 23.

HARVESTER OF THE WEEK — Carl Johnson became the second lineman to be named Harvester of the Week. The "big Swede" won the honor for his outstanding two-way play against the Amarillo Sandies, one of the leading tacklers on defense and a standout blocker on offense.

Hank Bauer Named Manager of Year

NEW YORK (UPI) — Hard-bitten Hank Bauer was honored today as the American League's manager of the year for his role in leading the Baltimore Orioles to a third-place finish.

The 42-year-old Bauer, whose team improved by 16½ games over its 1963 showing, won the honor in the annual voting of a United Press International board of baseball experts. Bauer received 10 votes, Manager Al Lopez of the Chicago White Sox got eight and Yogi Bera of the New York Yankees was the choice of two experts.

The season ended on a disappointing note for Bauer when his Orioles faded to third place after leading the league in the late stages of the race. However, before the campaign even started Hank had said he would be more than pleased if his team finished third. The Orioles were fourth, 18½ games out of first place at the end of the 1963 season.

An Oriole coach in 1963, Bauer was chosen manager because General Manager Lee MacPhail believed his hard-driving approach would unite the diverse elements on the team. Bauer proved more than equal to the challenge.

It was evident from the beginning of the season that Bauer had instilled a new "professional" spirit in the Orioles. Although a no-nonsense fellow, Bauer also displayed qualities of understanding and patience which helped, for example, to make an 18-game winner of raw rookie Wally Baunker.

Under Bauer's leadership, third baseman Brooks Robinson became one of the biggest stars in baseball and Milt Pappas matured into a star pitcher.

The Orioles, however, were hurt badly when they lost the service of slugger Boog Powell during the late stages of the season and then suffered an even more important blow when their bullpen crew finally broke down under the physical strain of the long season.

Sun Bowl Seeks One Saturday

EL PASO (UPI)— The chairman of the Sun Bowl football game, C. B. Bobo, said Monday he hopes to select at least one team this week for the game Dec. 26 in El Paso.

He stayed with his original look-list except Notre Dame, which announced that it would not play in anyone's bowl.

The teams on Bobo's list are Alabama, Arizona State, Arkansas, Auburn, Duke, Florida, Florida State, Georgia Tech, Georgia Kansas, LSU, Mississippi, Missouri, Nebraska, New Mexico, North Carolina State, Syracuse, Tennessee, Texas Tech, Texas, Tulsa, Wyoming and Utah.

Bobo said he expects to scratch some 10 of those after next Saturday.

AA Play Winds Up Regular Season

By United Press International

Nineteen empty berths in the 32-team Class AA playoff bracket remain to be filled when that division of the Texas schoolboy football race winds up the regular season schedule this week end.

In most cases, winners of showdown games will march into the bi-district round next week along with Phillips, Iowa Park, Denver City, Stamford, Nocona, Grapevine, Marlin, Taylor, Katy, Port Acres, Boling, Floresville and Bishop — all of whom have clinched their spots.

These showdown games include Friona at Flydada in District 3, Hamilton at Dublin in 7, Fredericksburg at Llano in 8, Plano at Rockwall in 11, De Kalb at Liberty - Eylau in 13, Atlanta at Gladewater in 14, Canton at Kaufman in 16, Rockdale at Cameron in 17, Humble at Sour Lake in 23, Yoakum at Palacios in 25, Boerne at Randolph Field in 27, Hondo at Devine in 28 and Freer at Premont in 31.

Alpine can win in District 6 by beating Marfa, but a victory by the latter would pave the way for a three-way tie involving Crane.

Winnsboro can win in 15 by beating Cooper, but Mt. Vernon would figure in a three-way tie if Cooper won.

Columbus can win the 19-AA berth by beating Hallettsville, but if the latter team wins, La Grange will get the playoff spot. Columbus and La Grange tied during the regular season with Columbus having the edge in penetrations.

Cleveland can win it in 21 by beating Rusk, but Crockett becomes involved in case of a Rusk victory.

Palacios can win it in 25 by beating Yoakum, but Edna will figure in the picture if Yoakum wins.

Winson can win it in 29 by beating Taft, but a Taft victory coupled with a Goliad triumph over Refugio would give it to Goliad.

In 32 - AA, Los Fresnos has finished its season with a 3 - 1 district record, while Ed-Couch-Elsa and La Feria have 2-1 marks and are favored over Lyford and La Joya this week to set up a three-way tie.

Los Fresnos has beaten Ed-Couch-Elsa, but lost to La Feria which was beaten by Ed-Couch-Elsa. A coin flip would be needed.

The Atlanta-Gladewater battle is the only one on the final week matching unbeaten teams.

Chance Winner Of Young Honor

BOSTON (UPI) — Wilmer Dean Chance, whose chief claim to fame had been as Bo Belinsky's partner in a variety of improbable escapades, has been voted baseball's outstanding pitcher.

The 23-year-old Los Angeles Angel righthander was an easy winner in Cy Young Award voting announced Monday. And his victory margin was in sharp contrast to the scores of nine of the games he pitched last season.

Chance, who tied the major league record for most 1-0 victories in a season at five, rolled up 17 of the 20 votes filed by a select committee of the Baseball Writers' Association of America.

Larry Jackson of the Chicago Cubs was second with two votes for his baseball-leading total of 24 victories while 1963 Young award winner Sandy Koufax picked up the odd vote for a 19-5 record with the Los Angeles Dodgers.

The easy selection of Chance came after the quick-working fast ball pitcher tied the 1-0 record last set in 1933 by Carl Hubbell. But not even Hubbell had the luck Chance did because he lost four games by the identical score this past season.

Chance, who turned in one of his finest performances by shutting out the National Leaguers for three innings of all-star play last season, said he was "real happy" over his selection but admitted he had been told three weeks ago that he had been chosen.

Hy Hurwitz, national BWAA secretary who announced the poll results, said Chance's unidentified informant was premature because the ballots were not tabuated until Monday.

Upon getting the news officially, Chance insisted on sharing credit with at least five other members of the Angels — Coach Marv Grissom first baseman Joe Adcock, shortstop Jim Fregosi, second baseman Bobby Knoop and outfielder Lou Clinton.

"I hope to win eight or nine games before the All-Star break next season," said Chance, who had only a 5-5 mark at midseason. "If I can do that, I know I can have another good year. I have always been a strong finisher."

Baseball Commissioner Ford Frick, who presents the annual award, admitted he would have voted for Chance himself if he had been on the selection committee.

"He's one of the great ones," Frick said of the Wooster, Ohio, resident.

Chance's 1964 record was in sharp contrast to his earlier major league efforts. He won 20 lost 9, pitched a lively-ball-era high of 11 shutouts and a league peak of 15 complete games. He had a 1.65 earned run average in 278 innings during which he walked only 86 and struck out 207.

His previous two and a fraction seasons with the Angels had produced a career mark of 27 wins and 30 losses and a 3.23 earned run average with a high of 14 victories in 1962 as a rookie.

SWC Roundup

By United Press International

They drew applications Monday for Cotton Bowl tickets, and the first name that came up was Bennett M. Wilson of Cabot, Ark. About one-third of the 40,000 requests for the 25,000 available seats are from Arkansas, which may mean something.

Frank Broyles, the man Arkansas expects to deliver this New Year's Day present, ran his Razorbacks through a typically light and brief Monday drill. The Hogs loosened up and ran in sweat clothes. They play Southern Methodist Saturday.

Coach Hayden Fry gave his SMU Mustangs a loosening-up workout and dismissed them for the day, warning that hard work is ahead in preparation for the Razorbacks in Fayetteville.

In Austin, University of Texas coach Darrell Royal denied his men had plowed into Baylor players out of bounds Saturday. Bear Coach John Bridgers had unhappy words Saturday after Texas defeated his Bears 20-14. Baylor halfback Henry Pickett got three broken ribs in that melee and catch specialist Lawrence Elkins was badly bruised.

TCU was idle last weekend. That gave them a three-day holiday, but Abe Martin got his men into the swing of things Monday with a two-hour drill. Martin was happy with how they worked.

He called the Frogs "in rip-top shape" physically, adding they must be in good shape when Texas comes calling Saturday.

In Waco, the Bears reviewed offense in preparation for Saturday's game with Kentucky in Lexington.

Clint Mitchell, a junior letterman from Carrollton, replaced Pickett, who is through for the season. Elkins was taking it easy Monday and will keep on taking it easy for the rest of the week, nursing those bruises.

Texas A&M spent their workout on defense, getting ready for their trip to Houston to face Rice.

Rice Coach Jess Neely said his Owls "are going to have to find a way to score" if they intend to beat the Aggies.

"We're just going to have to go out there and try to become a quicker football team."

Any offensive improvements Neely dreams up likely will be minus the services of Paul Piper, the fullback who hurt his knee against Arkansas last week. Neely said Gene Walker will understudy Pipe and start at fullback Saturday if the knee does not knit.

In Lubbock, the Texas Tech Red Raiders switched on the lights at Jones Stadium and drilled into the night. They play Washington State Saturday in Lubbock.

Coach J. T. King said a knee injury has ended the collegiate grid career of end Tommy Doyle. Doyle suffered torn ligaments Saturday in Tech's 48-0 victory over West Texas State.

Crimson Closes In On ND Irish

NEW YORK (UPI) — Alabama's Crimson Tide, the most consistent team in the United Press International college football ratings this season, edged within 13 points of top-ranked Notre Dame today.

Alabama replaced Ohio State in second place following Penn State's crushing 27-0 victory over the Buckeyes Saturday which tumbled the Ohioans to seventh place in the UPI standings. Alabama ranked third the first month of the season and advanced to second two weeks ago before returning to third last week.

The Tide rallied to beat Louisiana State 17-9 Saturday to clinch the Southeastern Conference championship and extend its winning streak to eight.

Notre Dame (7-0) lost two first-place votes from its total of 21 a week ago but retained its total of 329 points to hold the top spot for the second week. Alabama received 10 first-place ballots from the 35 coaches on the UPI rating board.

Arkansas and Nebraska took advantage of Ohio State's misfortune to move up a notch to the third and fourth spots, respectively. Both have perfect 8-0 records.

Texas, No. 5, and Michigan, No. 6, each climbed two places from the preceding week, while Oregon State (7-1), the Pacific (AAWU) Conference leader, made the biggest advance — from 12th to eighth.

Georgia Tech dropped from sixth to ninth after being knocked from the unbeaten ranks by Tennessee, and Louisiana State, which lost its first ranks by Tennessee, and Louisiana State, which lost its first game to Alabama, slid from ninth to 10th.

Michigan State, which meets Notre Dame next week and is riding a streak of three consecutive Big Ten victories including a 21-7 upset of Purdue Saturday, vaulted from 16th to 11th.

Syracuse moved from 14th to 12th; Oregon remained 13th; Purdue dropped from 10th to 14th and Florida State, tied with Purdue last week in 10th, skidded to 15th place.

Georgia ranked No. 16 followed by Arizona State and Bowling Green, one of six major college teams with a perfect record, in a 17th-place tie. Florida State, Auburn, Southern California and Utah were locked up in a four-way dead heat for 19th.

Notre Dame and Alabama, the only two teams ranked in the top 10 at the start of the season which have not been beaten, face the stiffest competition this weekend. Notre Dame hosts 11th-ranked Michigan State and Alabama visits ninth-ranked Georgia Tech.

Georgia, Vols Gator Hopeful

JACKSONVILLE, Fla. (UPI) —Georgia and Tennessee have joined the teams they upset last week and eight other college teams as candidates for the 20th annual Gator Bowl.

Georgia (5-2-1) gained the list, announced Monday, in beating Florida (5-2-1) and Tennessee (4-2-1) was added after handing Georgia Tech its first loss in eight games.

Other new teams on the list are Texas Tech (5-2-1), Tulsa (5-2) and Boston College (4-2.

Others remaining on the list from last week are unbeaten Alabama (8-0), Louisiana State (5-1-1), Arkansas (8-0), Texas (7-1), Nebraska (8-0), Syracuse (6-2), and Florida State (6-1-1).

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human relations Commandments, the Golden Rule and the Declaration of Independence.

Our Stand on Communism

The recent political campaign brought forth a great many comments concerning communism, the danger of communism, the nature of communism, and so on.

There is a great deal of information and mis-information being circulated concerning communism. Therefore, we thought it might be helpful to summarize certain important features of communism so that our readers might again be reminded that the Pampa News has been and remains consistently opposed to communism at all levels and in all guises.

What is the central theme of communism?

It is the theme, carefully enunciated by all communist and most socialist writers and thinkers that men have no rights to own property and to manage it privately. The especial feature of communism, according to Marx in his Communist Manifesto, is that it does not oppose all private ownership or all private management of property; it opposes "bourgeoisie" property. That is, it is unalterably hostile to the idea that a private capitalistic system should exist.

It favors the abolition of private industry. It proposes to replace private industry with governmentally owned and operated industry.

Does communism favor the overthrow of government?

No, it does not. It favors the TAKING OVER of government by men who are committed to seizure of private property, on any pretext, so that that property can then be managed by the government.

Is communism a Russian device?

Again the answer is in the negative. Communism is an international doctrine, aimed at creating a world commune. Its purpose is to cause all the workers of the world to "unite" for a world movement which will transfer all capital goods into the hands of the state.

Production is to be in favor of "social service" rather than for profit.

Profits, rents and interest charges are viewed by communists and fellow travelers as inimical to the concept of a world commune.

To combat communism with foresight and intelligence requires not so much an attack on persons who may have accepted certain communist ideas without question, but primarily the putting forward of sound free market ideas in support of private property and private management of property.

Unfortunately, there are many men in government who do not understand the basic issue communism has raised. Thus, in their efforts to win popularity and to retain power, they constantly offer various panaceas to the public, every one of which, in order to be implemented, will require the seizure of someone's property. Thus, although men in government are not at all committed to communism as a doctrine, a goal or a method, they none the less further the communist advance in their various political activities.

Is a communist a person who belongs to the Communist Party?

Not necessarily. A person who belongs to the Communist Party is obviously a communist. But there are thousands of persons, perhaps millions, who favor communism as a doctrine to a greater or lesser extent. These people, unknowingly, are the greatest danger we have in the country. They are in favor of wiping out private capitalism, which has made this nation the greatest productive force for good in the world, and replacing it with governmental ownership and management. Nor do they view the emergence of a world commune as harmful. They actually favor Marx without ever having taken the trouble to read what he says or to understand what he is attempting.

The Pampa News has consistently through the years favored private property, private management of property and freedom of the individual out from under the tyrannous controls inflicted by governments at all levels which lead toward communism. We will continue to oppose communism totally.

'Recovery' Is the Word

Almost since the beginning of civilization, man has looked down on the excessive drinker as weak and immoral, setting him apart from society as he progressively loses control. Even today, the average person regards the victim of alcoholism as an outcast who simply lacks the will to keep from drowning in a bath of alcohol and self-pity.

Only in recent times has alcoholism been accepted as a disease, mainly by medical men and those who study the ways of the mind. The American Medical Association has officially accepted this idea. Behind this achievement is the 20 year fight of the National Council on Alcoholism, headed by Mrs. Marty Mann, its founder and executive director.

NCA is the only organization in the nation dedicated to education, field service, research and rehabilitation in the field of alcoholism. It is backed by 71 affiliates throughout the United States. Neither "wet" nor "dry," the organization is concerned only with getting America to understand that a great number of the country's 5 million victims of alcoholism can be rehabilitated for family and job.

Industry alone suffers an annual loss of $2 billion a year from alcoholism among workers at all levels. Meanwhile, NCA has already won acceptance of its alcoholism rehabilitation programs among 50 of the country's largest companies. No longer do they consider problem drinkers a lost cause.

Success in industry provides vital proof that "recovery" is the theme in approaching alcoholism and getting employes back to fruitful work. There is now new hope for reversing the approach to this major problem — alcoholism.

Have Degree, Will Orbit

American scientists have been arguing for more of a "front-line" role in space for a long time. The recent flight of Russia's Voskhod capsule, which carried a physician and a scientist along with its astronaut pilot, evidently supplied the clincher.

National Aeronautics and Space Administration is now accepting applications for the newly created position of scientist-astronaut.

Candidates must be U. S. citizens, 34 years old or younger, six feet tall or shorter, and hold doctorate degrees (or be able to convince NASA that they have the equivalent in experience) in the natural sciences, medicine or engineering.

Inquiries and applications, which will be accepted up to Dec. 21, should be sent to NASA at P. O. Box 2202 in Houston, Tex. The hope is to have a pool of 10 or 20 trainees by early next year.

One thing. Candidates should not sell their belongings and break all ties with home. No scientist - astronaut missions are contemplated until some time in the 1970s.

Sensing The News

By THURMAN SENSING

PROSPERITY —REAL OR FALSE?

About 200 years ago, when our original states were still colonies of Great Britain, Professor Alexander Fraser Tytler gave a lecture at the University of Edinburgh in which he made the following statement:

"A Democracy cannot exist as a permanent form of government. It can only exist until the voters discover they can vote themselves largess (we call it relief, subsidies and doles) out of the public treasury. From that moment on the majority always votes for the candidate promising the most benefits from the public treasury with the result that Democracy always collapses over a loose fiscal policy, always to be followed by a Dictatorship." (Dictatorship nowadays can mean one-man rule, Socialism or Communism).

Professor Tytler was talking about the fall of the Athenian Republic —but the principle is just as true now as it was then. Will this happen in our case?

A very significant sentence appeared as a subheading to a headline of an article in one of our national magazines recently: "Prosperity is living on borrowed money and borrowed time."

Such a statement is contrary to most of the current opinion popular in the country today. One of the main planks in the platform of the Johnson administration as it ran for reelection was the Prosperity Plank. Most all economists, most all financial advisers, most all bankers, most all businessmen will tell you that we are now having the greatest prosperity in our history. Upper income voters switched over to the Democrats in droves on this very point, wanting to do nothing to disturb this prosperity.

This question far transcends partisan politics. If we are having false prosperity, if we are having only an illusion of prosperity, it is a question that seriously affects every man, woman and child in the country, regardless of political affiliation or station in life.

Prosperity "living on borrowed money", that is, inflation built on continued deficit financing and continually increasing debt, can only result in steady erosion of the value of the dollar or even runaway inflation — and inflation, it might be pointed out, has resulted in more human misery and suffering in this world than anything short of war, famine and pestilence.

So let's consider for a moment the situation as it is with us.

During 28 of the past 34 years, our Government has had a deficit in the federal budget, has spent more than it has received. The current fiscal year, beginning last July 1st, will make it 29 of the past 35 years that we have had a deficit in our national budget, shall live beyond our means. No one is willing to predict when we shall ever have a balanced budget.

Our budget deficit for the last fiscal year, ending June 30th, was $8.3 billion. Spending last year was $5.1 billion more than for the previous year. The budget deficits for each of the last four years, which the administration brags about as the most prosperous in our history, total $24.8 billion — the highest four-year peace-time deficit in our history.

We operated under a federal budget last year of $97.7 billion —second only to the peak fiscal year budget of World War II. Bills already passed by the 88th Congress will increase spending this year about $5 billion.

During the last 34 years, our national debt has increased from $16 billion to $131 billion. The increase in the national debt since the end of World War II has amounted to $44.2 billion.

If our so-called prosperity is "living on borrowed money" — and all indications are that it is —then let's not forget from whom it is borrowed — our children. Now, I submit that it wouldn't have been so bad to have spent $97.7 billion last year if we had had it. It wouldn't have been so bad to have been wasteful and extravagant with our own money — but to spend $97.7 billion in a year like last year, when we only had $89.4 billion is inexcusable, to be wasteful and extravagant with our children's money —which is exactly what we are doing when we undergo deficit financing—as a deed of unforgivable irresponsibility.

The dollar is now worth only 43 cents as compared with the dollar of 25 years ago — and this erosion steadily continues. This is the road to ruin.

It is therefore a serious question as to whether we are having REAL prosperity or an ILLUSIONMENT of prosperity.

Shall We Try My New Branding Iron?

Backstage Washington

ROBERT ALLEN

Not Just Warsaw and Moscow — State Dept. Knows All U.S. Embassies in Red Countries Are 'Bugged'

PAUL SCOTT

WASHINGTON — The State Department has irrefutable evidence that all U.S. embassies and legations in Iron Curtain countries are bugged.

U.S. security officers have uncovered "wired microphone systems" in buildings housing American officials in Bulgaria, Czechoslovakia, Hungary and Romania — in addition to those in Russia and Poland announced by the State Department.

The eavesdropping devices were installed by local secret police working with the Soviet KGB, which has its own undercover apparatus in all the satellites.

The carefully organized and sweeping nature of the Communists' bugging operations has not been fully revealed to the American people, because State Deparment authorities fear this would adversely affect the administration's policy of expanding and improving relations with the Soviet bloc.

The pre - election announcement of the October 7 discovery of a number of microphones in the walls of the U.S. embassy under construction in Warsaw was made on direct White House orders. According to insiders, this exception was made for the express purpose of diverting public attention from the costly Viet Cong raid on the Bien Ho jet bomber base in South Viet Nam.

Similarly, the State Department maintained tight silence about the extensive bugging of the Moscow embassy until that was disclosed by this column last May.

Then the department belatedly acknowledged that more than 150 highly sensitive listening devices, some with ranges up to 50 miles, were found in every room in the building.

So far, the Kremlin has flatly rejected U.S. demands for compensation for repairs necessitated by ripping out embassy walls to get rid of the hidden microphones. The Soviets own the building, but the repair costs running into many thousands of dollars are being footed by U.S. taxpayers.

TIPPED OFF — State Department authorities were warned about these Communist bugging operations as far back as early 1960, when a Polish KGB officer defected to the West.

He not only disclosed that all U.S. embassies behind the Iron Curtain were bugged, but that the Soviet KGB had "penetrated" U.S. staffs in those countries, particularly members working with codes.

One of these Americans in the Warsaw embassy, the defector revealed, had given the KGB secret information concerning State Deparment operations.

This individual, who subsequently was permitted to resign quietly, had been recruited as a Russian agent while working in Poznan, Poland, and continued undetected until unmasked by the defector.

The latter also identified two other U.S. embassy employes— one of whom is still in the government.

JOINING THE PROCESSION —With direct State Department blessing, a group of leading U. S. businessmen are flying to Moscow to see if they can stimulate more trade between the two countries.

This American participation in the growing parade of Western businessmen to the Soviet will be under the sponsorship of Business International, Inc., New York research and publishing company. Working directly with the State Department, a series of November 15-20 meetings have been arranged with top Kremlin leaders.

They include President Mikoyan, Premier Alexei Kosygin, Foreign Minister Gromyko and Foreign Trade Minister M. S. Patolichev.

The agenda of the five - day visit calls for discussions on the following:

"USSR import and export policies; financing USSR foreign trade; USSR as a licensor and licensee; foreign trade organizations of the USSR; arbitration in Russian foreign trade; research and product development for manufacturing industries in the USSR."

U.S. business and industrial leaders participating are:

William Blackie, president, Caterpillar Tractor Co., Peoria Ill.; J. F. Ballard, president, Royal McBee International Inc., N.Y.; R. L. Frederick, vice president, International Division, Timken Roller Bearing Co., Canton, O.; James H. Goss, vice president, General Electric Co.; R. P. Gwinn, president, Sunbeam Corp., Chicago; John J. Jackson, president, Sperry Rand International Corp., N.Y.; W. Jerome Kane, vice president and general manager, Boeing International Corp., Seattle; P. F. A. France, Ford Motor Co.; L. L. Waite, senior vice president, North American Aviation, Los Angeles.

A task force set up by President Johnson on East - West trade is scheduled to report to him in December.

NEW ROUND OF RHETORIC —The State Department is starting a new round of briefings for select groups of "college and above level."

According to a memorandum Acting Assistant Secretary Robert E. Lee has sent members of Congress, these briefings will differ from previous ones. He explains just how as follows:

"Geared to the college and above level, the new briefings, given by various department office directors, will feature in depth discussions of specific areas or subjects, such as Viet Nam, NATO, foreign trade, and other subjects and problems of particular concern at the moment."

Lee says the briefings are available to members of Congress — presumably on the theory they are "geared to the college and above level."

Cannel At Bay

By Ward Cannel

Just How Would You Pack for Space Trip?

NEW YORK (NEA) — It is a great relief to be over the election campaign.

We were getting quite impatient to start worrying about the news that a civilization may exist in a neighboring galaxy. But you simply do not have the energy to investigate anything while you are trying to keep an open mind.

Anyway, it is futile to begin a quest into the unknown when you are up to your ears in the commonplace, and must decide by Election Day whether haste makes waste or a stitch in time saves nine.

We were, therefore, glad to have made our choice and been done with it. The possibility that Russian astronomers had located another civilization in the universe was, the more we thought about it, overwhelmingly dismal.

Not that we begrudged the Russians their discovery if it proved to be true. What bothered us was the evidence — reception of civilized - sounding radio signals from a couple of pinpoints 3,000 million - million miles out in the universe.

If further radio reception confirmed the Russian report, we were quite certain that preparations for making the journey would begin at once.

(Do not laugh and slap your thigh. We are describing a basic instinct in human nature. Primitive people used to brave thousands of miles long before the space age in order to see for themselves the personalities they had heard on the radio.)

And after talking with a space capsule designer the other day, we have no doubt that the trip can be made once a few mechanical details are worked out. Three - thousand million-million miles may sound like a lot, but if you travel at the speed of light, you can cover the distance in well under 600 years.

The part that we found overwhelmingly dismal was the packing for the trip.

We have done a lot of traveling in our time and invariably take too much. But even if you are very careful and economical in what you take, 600 years is a long flight. Why, the sandwich bags alone would probably take up all the closet space.

And what about the bottle tops and apple cores? Yes, and what about the people? It seemed to us that even a space scientist would clutter up the place after he got to be a couple of hundred years old.

So, the other afternoon we went down and conferred with a bunch of life-sciences laboratory men who are working on this problem. And we can report that there is hardly anything unknown about it.

Unfortunately, we cannot tell for sure what we saw there as we still do not believe it. Nor did we eat or drink any of it (nor anything else in the two days since) although we are certain it was both nutritious and pleasant.

But that is beside the point. What really matters, we learned, is that nothing is ever lost in a closed life system such as a space vehicle. It only changes its molecular structure.

Rearrange the molecules and you're back where you started. All you need for the job is energy, and there's plenty of solar energy in space. Nothing could be more commonplace.

Haste makes waste. And waste makes hay while the sun shines.

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

Question: "The power to make laws resides in Congress. In time, will Congress have put so many laws on the books that their job will not be writing new laws but repealing old ones?"

Mrs. K. M.

Answer: Until there is a complete reversal in the "There Ought to Be a Law" thinking of the people, we suspect there is not much likelihood that there will be a reversal in the trend of voting more and more laws.

It is pointed out by many legal authorities that laws are passed on top of new laws and that it is like putting patches on patches. The whole system becomes more and more unwieldy each year.

One lawyer once told of a former member of a state legislature who each year when the legislative session opened offered a proposal that all the state laws be repealed and be replaced by adoption of the Ten Commandments.

"I used to laugh at him then," said our attorney friend. "Now I think maybe he had the proper solution."

If ever the bulk of the people realize that the Human Relations commandments are the only proper guides to human conduct, it may be that then the hodgepodge of man-made laws will begin to disappear.

Individuals must recognize a single standard of right, applying equally to all individuals, all groups and all governments.

The Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor:

The National Investigations Committee on Aerial Phenomena (NICAP), headquarters, 1536 Connecticut Avenue, N. W., Washington 36, D. C., has just recently published its long awaited "The UFO Evidence" Report. This illustrated, fully documented 184 - page Report, containing over 200,000 words, is the result of NICAP's seven-year investigation of Unidentified Flying Objects (UFOs) and proves, beyond any reasonable doubt, that UFOs are unknown superior machines under intelligent control, emanating from an extraterrestrial source, and official secrecy on same.

It is hoped that this Report, a copy of which has been presented to every Member of Congress, will instigate open Congressional hearings on UFOs in order to end the unwarranted United States Air Force policy of secrecy and censorship on same.

Anyone wishing to purchase a copy of this unique document should write NICAP at the above address for the required information.

Matawan, N. J.

Editor:

In reference to a letter published in the Clearing House recently concerning the supposedly high cost of our utility bills, I have only this to say:

There is no law whatsoever, stating that any home owner be required to use any of the following, for example, electric lights, washer, drier, refrigerator, dishwasher, toaster, TV, radio, mixer, ironer, actually the list is almost endless.

Our utilities keep us cool and comfortable in the summer and warm and cozy in the worst of blizzards during the winter. To me, it is well worth the few dollars we all pay monthly.

There is always one solution to the problem, simply pick up the telephone, call the utility companies, and tell them you wish to go back a hundred years or so in progress. I'm sure they will read your meters out immediately and your problem will be solved.

(Name on file with the editor.)

CAPITOL EYE:

Our Nuclear Scientists Are Worried

By BRUCE BIOSSAT
Washington Correspondent

WASHINGTON (NEA) — With the election over, the President and his defense secretary must now make some hard military research - spending decisions.

The nuclear balance of power between the United States and the Soviet Union is so unstable, some key Pentagon scientists say privately, that it could be upset quickly by three Soviet research breakthroughs:

— Development of an effective antimissile - missile network capable of handling massive attacks of extremely sophisticated ICBMs with a high rate of kill.

The concept these men have in mind would be long jumps beyond Nike-X. The antimissile-missile system they envisage might in fact clobber ICBMs a thousand or more miles from target or even before they were airborne.

The Russians are experimenting heavily with electromagnetic pulse and radiation from strong nuclear explosions for killing missiles in their siloes before they are fired.

— Development of a family of ICBMs so accurate that more than half of those fired would hit within 500 yards of target.

The extremely large boosters available to the Russians make possible their use of larger, more reliable guidance systems. Russian technical literature indicates the Reds are putting a sizable chunk of top caliber manpower into improving their electronics and guidance.

Some scientists here predict this super accuracy guidance before 1972.

— Development of a military world - wide communications system invulnerable to electronic countermeasures. They have assigned large numbers of scientists to research on a series of wayout blue sky communications methods not susceptible to any known interference.

The worried U. S. scientists are not comforted by the thought that the United States now heavily outweighs the Soviet Union in nuclear weapons.

Unclassified studies include estimates that the United States now has more than 50,000 nuclear weapons, compared with 5,000 to 8,000 in Soviet hands.

But these U. S. research men point out that regardless of this 1964 U. S. supremacy, and sizable American research and development expenditures, U. S. miscalculation on what research leads to push heavily, or better Russian guesses, or Russian luck, or more Russian funds could put the Reds ahead in one or all of these three key research fields.

There is deep concern here that the Russians are putting more money and effort in these key areas than is the United States.

U. S. research has gone all-out on "penetration aids" for ICBMs. Top Defense Department men are convinced the United States can devise ways to get missiles through, regardless of Russian improvements in antimissile defense.

But despite this confidence, the Russians, if their research goes well, might be able to knock out U. S. missiles before they even got out of their silos. Then penetration aids would be of no value.

Or the Reds could knock out U. S. communications.

In the congregation of a church during Sunday morning service was a young bride, whose husband was an usher. Becoming terribly worried about having left the roast in the oven, she wrote a note to her husband, sending it to him by another usher.

The latter, thinking it was a note for the pastor, hurried down the aisle and laid it on the pulpit. Stopping abruptly in the middle of his sermon to read the note, the astonished pastor was met with this written injunction:

"Please go home and turn off the gas.

Search Resumes For Wife of Sinatra Pianist

BURBANK, Calif. (UPI)—A search resumes today for the wife of Frank Sinatra's pianist, missing in a mudslide that damaged hr home and nearly trapd her husband and 17-year-old daughter.

William Millere 49, Sinatra's pianist for many years, was injured seriously Monday while trying to save his wife, Aimee, 47. Their daughter, Meredith, escaped by making a perilous 90-minute climb over the Verdugo Mountains.

Friends of Sinatra reported that he helped rescuers look for Mrs. Miller Monday night before the search was temporarily halted about 10:15 p.m. PST.

The Miller home, valued at $35,000, was damaged extensively. Police speculated that Mrs. Miller might have been buried under tons of mud and debris piled 20-30 feet deep about three-fourths of a mile from the home.

While being treated for scratches at Community Hospital, Miss Miller—unaware that her mother was missing—told newsmen of her ordeal:

"t was like a flash flood. The mud just came down the canyon and filled one side of the house. We shut that off, but then it started breaking the house up.

"I said, 'we have to get out of here,' I ran out the back way and up the mountain before the house started falling apart."

Miss Miller said she climbed steep cliffs by holding onto plants and scrub brush.

"When I got halfway up, I looked back," she continued. "Mud was going in one side of the house and coming out the other. The walls were broke and mud was pouring out. I kept going."
