SUPPORT OUR HOME TOWN

SWEET-N' SOUR

By A. Dill

Consider the ant, thou slug-gard - and do you have your Christmas cards addressed, all ready for the mailing? What about your fruit cake and plum puddings? Are they baked, soaked in brandy and hidden away? This is exactly the half-way mark till Christmas and surely you have some of these things taken care of. Of course if you insist on ignoring the time element you can always dash about like the oft cited chicken, minus his head, and bemoan the fact that you'll never get it all done. Come to think of it, that works rather well, too.

Summer visitors are beginning to come home, at least for brief holidays and the D. C. Abernathy's welcomed guests in their home last week, Mr. and Mrs. Ed Sessions and son of Ft. Collins, Colo., and Mr. and Mrs. Edgar Sessions and son of Midland.

Helen and Earl Ellis are here from San Antonio to visit her mother, Mrs. Settle, and add a very special pleasure to vacation time for her.

Mrs. Agnes Murphy and Frances were happy this week to have a visit from Mr. and Mrs. Bill Lamb and baby son, Dennis Mark of Odessa.

Mrs. Mina Cook went visiting last week - she'll be with friends in Putnam for several days.

Mrs. Henry had guests in her home this week, D. D. Towler of Richmond, Ky., G. B. Towler of Phoenix, Ariz., and G. W. Erickson of Long Beach, Calif. Mrs. Henry also made a very important and happy trip during the past week - to Garland, to be an honored guest at the wedding of her granddaughter, Carolyn Towler, daughter of Mr. and Mrs. W. W. Towler.

Margie Ray had a special visit from special people - Mr. and Mrs. Bill Ray and daughter, Michelle, and that's always reason enough to mark it a festive occasion.

Elise and Lawrence Bowles have recently returned from Lubbock, where they visited son and family, Dub, Rae Jean and Barry. Barry returned with his grandparents to enjoy a summer holiday with them. Also a guest with the Bowles family this week is Mr. Bowles' sister, Esther Belle Haley of Big Spring, God-t-see dept. - Clifton Harris of California, home for his school class reunion and visiting with his many friends here. Cliff was a "printer's devil" at the Baird Star when this column came toddling out on its uncertain legs (then it was youth that accounted for it's haphazard course - now it staggers from age, but one excuse is as good as another, we always say). We well remember one cold Thursday in December when the entire township took off to the big Regional football game - all except the Star force who had paper to get out. How he ever thought of it we'll never know, but about an hour before the motorcade left town for the game, Cliff caught his hand in the typewriter, had three stitches taken in his wrist, and took off for the game, the happiest accident victim you ever saw and we still think, to this very day, that the whole deal was rigged.

The Greens, Maggie and Glen visited in Sonora and Eldorado Sunday with both their families and were accompanied home by their niece, Georgann Schweining of Sonora, who will vacation a few days here.

Ann Mae Lamb of Ajo, Ariz., is visiting with her father, G. H. Corn and other relatives and friends this week.

And still more good to see dept. items - Hub Warren Jr., of California, visiting his parents and kin. Hub is making a remarkable recovery from severe injuries, but then Hub is a rather remarkable fella' and if anyone can beat a bad-time right down to size it's this lad.

Another persons who always come back fighting and like just whatever odds that come along is Doc Griggs - he's dragging Main Street now in one of those sport model wheel chairs and getting better by the day - look for him out for fall football training in August.

Jim and Link Lawrence spread the red carpet of welcome for two grandbabies last week - Julia and Mary Lynn Lawrence, children of Dr. and Mrs. J. T. Lawrence of Breckenridge.

Happy days are here for Lou-lamae and Ben Russell and one look at those smiles tell you they are thoroughly enjoying them - daughter Elaine Hampton and her lovely children.

Safe Driving Urged Over July 4th

An alert went out to Texas motorists today as the Texas Department of Public Safety predicted 27 motorcades will occur on streets and highways of this state during the three-day Fourth of July week end.

The period covered by the prediction, during which time the Texas DPS will conduct its Operation Deathwatch, extends from 12:01 a. m. Saturday, July 2 through 11:59 p. m. Monday July 4. The DPS Statistical section keeps the official state records of the holiday death count on the calendar day basis, in contrast to wire service counts using fractional parts of days, and different holidays periods.

The DPS prediction released by Col. Homer Garrison, Jr., director, emphasized that 4,000 cars will be damaged requiring garage repairs - some a total loss - during the three-day period. The report said that 1500 persons will receive bodily injury with some persons being crippled for life.

"These are some of the factors on the grim side of the holiday," Garrison said, "but it is necessary to relate them in order to explain the seriousness of the holiday traffic situation to Texas motorists."

"The Fourth of July is a holiday in which Texans go out of doors and do lots of driving. I wish everyone a good time during the July Fourth week end. At the same time I would like to advise them to be careful. "Let someone else drive if you drink, watch your food and keep it refrigerated, and don't mar your holiday with personal injury, death, or damage to your automobile. We will have on the highways to help you every available patrolman. You can make their job easier by planning safety into your holiday activities."

Soil Conservation District News

GRAIN STUBBLE - How should it be handled? Grain stubble can be used to insure more moisture penetration into the soil. It can be used as a cover to hold down evaporation of soil moisture and to hold soil temperature down.

To get the greatest benefit from grain stubble, it should be left on the surface of the soil. Many farmers ask how weeds can be controlled without breaking the land. Weeds can be controlled by using sweeps, preferably large 30 inch sweeps.

Where there is extra heavy stubble, a rolling coultter will need to be used ahead of the sweep to cut through the stubble.

Advantages of this method of handling grain stubble are: 1. More moisture in the soil for crop production; 2. Lower soil temperature; 3. Less evaporation; 4. Less run-off.

County Agent's Column

Callahan County wheat farmers are rapidly winding up the harvest of the best wheat crop they have made in many years. They should be practically finished by the last of the week. The Callahan County Farmers Co-op has handled about 8 million pounds of wheat, with about 6 million pounds going through the plant at Baird and about 2 million pounds being handled in the plant at Clyde. Dale Gary at Cross Plains has handled considerable wheat, and some wheat from Callahan County has gone to Coleman, Abilene, Cisco, and Moran. A conservative estimate on the value of the wheat grown in Callahan County this year is between \$250,000 and \$300,000. Some of the old timers in the wheat growing business say this is the best wheat crop ever grown in Callahan County, or at least the best since 1919, and that's a few days ago. A crop of this farm value is worth about six times that much to the community in trade value. The merchants get a share of the trade and the wheel keeps on rolling.

Dudley Reunion Cancelled for Year

Fire has robbed Dudley of its annual homecoming according to Ott Neal, vice president of the association.

The affair which has drawn from 500 to 1,000 for the past 10 years will not be held this year and likely never again. It was held at the Baptist church which burned to the ground several months ago, together with seats, tables, musical instruments and other appurtenances of the homecoming association.

"We lost everything in the disaster," Neal said. Frank Carpenter and Lehman Hayhurst, both of Dudley, were president and secretary of the association.

"We've decided to co-operate and participate with Potosi and Rogers in their annual homecoming reunions," Neal said. "We are located between these two communities."

New Pension Plan Effective July 1

Several thousand widows and children of deceased veterans of World War II and the Korean Conflict will become eligible to receive pension benefits on July 1. These dependents will be entitled to these benefits as the result of a new pension law enacted by Congress last year, according to B. C. Chrisman, County Service Officer.

Prior to passage of the new law, known as the Veterans Pension Act of 1959, dependents of deceased World War II and Korean Conflict veterans were entitled to pension if the veteran had a disability which resulted from his active military service. The new law provides benefits to dependents of deceased veterans of World War II and the Korean Conflict if the dependents meet certain limitations with regard to income and the size of their estate.

Chrisman said that a very small percentage of the widows and children in Texas who could benefit from this new law have applied to the Veterans Administration for the benefits to which they are entitled. Chrisman pointed out that the children of deceased World War II and Korean veterans are eligible to receive pension, even though their mother may have remarried since the death of her veteran husband, and even though the children may have been adopted by the mother's new husband. These children are eligible to receive pensions while they are unmarried and under the age of eighteen years. They may continue to receive pension until age twenty-one if they remain unmarried and are attending an approved school, and may receive pension indefinitely if they become physically or mentally incapable of self-support before their eighteenth birthday.

Unmarried widows and the custodians of dependent children may receive further information and assistance in obtaining these benefits by contacting B. C. Chrisman at his office located in the County Courthouse, or from any office of the Veterans Affairs Commission of Texas.

Sister of Local Woman Injured In Lawn Store Robbery Monday

Mrs. L. B. Windham, 69 year old attendant at the Lawn Cash Grocery, was admitted to Hendrick Memorial Hospital for treatment of bruises suffered when she was knocked to the floor and beaten by Eric Person as he attempted to rob the store early Monday morning.

Mrs. Windham is a sister of Mrs. R. F. Mayfield of Baird, who called her by telephone as soon as the news of the robbery reached here, and Mrs. Windham stated she was badly bruised about the face, but otherwise unharmed.

The 21 year old Connecticut youth was being held in Taylor County Jail in lieu of \$5,000 bond Monday evening following his capture three hours after beating the elderly woman attendant and robbing a grocery store at Lawn.

Eric Person of Columbia, Conn., was captured by a posse of lawmen and volunteers from a three county area while hiding in a grassy field one and one-half miles north and one-half mile west of the small community.

"I started to take the money when she started screaming," Person said. He said that he hit her "two or three times" in an attempt to knock her out and silence her screams.

Person signed a statement admitting the assault and robbery and related events Monday afternoon.

Mrs. Windham had opened the store at 6:30 a. m. Person said he entered the store shortly before 7 a. m. He asked for several articles and Mrs. Windham said that when she went to the rear of the store to get the articles, the youth followed her.

The suspect then asked for the store's money, and when she refused to give it to him and started screaming, Person hit her. She said she was thrown to the floor and beaten about the face.

Mrs. Windham's cries for help were heard by Asa McMillon, who rushed into the store and

Mrs. H. R. Morton Saves Child's Life

Mrs. H. R. Morton of Lubbock, daughter-in-law of Mrs. Lillie Morton of Clyde, and daughter of Mrs. Jack Wilson of Rotan, was credited with saving the life of a small neighbor girl, Boneva Martin, last Thursday afternoon, after the child fell into a back yard swimming pool.

Boneva slipped and fell into the pool in the back yard of her parents home, while her mother was standing a few feet away. Her mother rushed to her aid and quickly pulled her from the pool, but the child had ceased breathing.

Mrs. Morton quickly applied mouth-to-mouth respiration to the two-year-old daughter of Mr. and Mrs. Jimmie Martin, her next door neighbors, after hearing the cries for help from the child's mother.

Mrs. Morton crashed two gates to get to the child, and her quick thinking and mouth-to-mouth respiration restored the child to life. When the fire department reached the scene with a respirator, it was found unnecessary to use the oxygen. Lt. Bolin Wilson, of the Lubbock Fire Department, said Mrs. Morton's action definitely saved the child's life.

Jane Ann Harris of Roswell, N. M., spent a week with her cousins, Robert Lee and Vicki Griggs. They went home with her for a few days.

Bruce OBrien Bell of Abilene, spent the week end with his grandparents, Dr. and Mrs. R. L. Griggs and family.

surprised the youth. Person was said to have jumped up, grabbed most of the money from the cash register, and fled out the front door past McMillon.

As the suspect fled, Mrs. Windham called Howard Roundtree, Taylor County Juvenile officer who lives at the Lawn community. Roundtree notified other law enforcement officers, which converged on the area for the search.

Within 30 minutes, units from Nolan, Callahan and Taylor counties converged on the community of 311 people to begin the search. The trail was not difficult to follow. After stuffing \$682 taken from the store into his shirt the youth, in his haste to get away, lost \$451 in high weeds at the rear of the building. Tod Newton, Callahan County deputy sheriff of Baird, assisted in the manhunt.

OUT WHERE THE COUNTRY CAN
TEAR A TRUCK TO PIECES—

Chevy middleweights get 1/3 more work done in a day!

Where they used to deliver 2,300
gallons of liquefied petroleum gas
in other trucks, Petrolane Gas
Service of Long Beach, California,
can now deliver 3,500 gallons a
day! That's 7 days a week usually,
over back trails and up into high
rock country with maximum GVW
loads. And with Chevy's Torsion-
Spring Ride paving every foot of
the way! "You don't get any more
jolting on washboard roads than
you do in a passenger car, or any
sideway on curves," says driver
Bernie Stone. "I used to take some
rough roads at from 5 to 8 miles
an hour. Now I can go 30 over
them." Petrolane has over 200
Chevrolets hauling for them.

If you think we're excited about
Chevy's independent front suspen-
sion, you ought to talk to the truck
owners who are profiting by it.
They'll tell you Chevy's torsion-
spring design is the hottest thing
to hit the industry since trucks be-
gan. Drive one—that's the proof,
short and sweet.

Union Usuals and Unusuals By Veda Yarbrough

Hi neighbor, how did you survive the awful hot weather we had last week, especially Wednesday? I believe for awhile Wednesday the wind blew the hottest I ever felt. I don't see how the little cotton survived, but it did and is growing. The grasshoppers are getting pretty bad in some fields, John Mc-

Intyre is putting out poison on the Abernathy place also on the Isenhower place, Roma said. There were both kinds, the flying and the jumbo, say do you remember when we used to take a stick and go around the field of cotton about five times a day and kill these old jumbos, guess will have to do that again if they get too bad.

Johnny May Ramsey had several in Sunday honoring Burette and Reba Francisco birthday. Our pastor, Wayne Blankenship and wife, Walter and Reba Francisco were there. Burette's birthday was the 20th of June. Reba's is the first of July.

Jim had a granddaddy card Saturday from James and Sherry Carter, they got moved to Free Port. They like it pretty good. James is working for Dow Chemical Co.

Bill and Retha Brown of Midland and Kim and Keaven Burnam of Hobbs, N. M. are spending this week with Mark and Ollie Burnam and Gayle. Retha and Bill have been on their vacation and have visited several places in the Oklahoma, Arkansas, Kentucky, Tennessee and Missouri.

Jack and Mary Everett and girls visited the Burnams Sunday.

Combining is a thing of the past around here now. Grain did better than most people thought it would.

Good morning, this windy Tuesday. Still no rain. Maybe it will rain the 4th of July. I can remember when it never failed to rain the 4th. This was way back when we used to have big picnics on the 4th.

Wayne and Sue Blenkinship spent Saturday night with Jim and I. We enjoyed them very much.

I hear Mr. and Mrs. Mabry Tatom are grandma and grandpa again. Mr. and Mrs. Bobby Ray Tatom of Albany have a new baby. I forget whether it is a little girl or boy, and our line is out so we can't call anyone to find out. The Tatoms went up Sunday to see the new baby and family.

Think Little Boy Jim is going to Eastland to the sale after while.

Mark Burnam and Bill Brown went to Abilene Auction sale Monday.

Weldon and Louise Isenhower and boys visited Sunday with her parents, Mr. and Mrs. Frank Allyn of Trent.

Our telephone line is still dead, so can't find out any more news, so be good and I hope to see you next week.

DETERGENT ACTION

Under modern driving conditions crankcase fumes, exhaust from other cars, smoke and dust enter your car's carburetor through the air-intake. These contaminations form hard deposits on carburetor walls and throttle plate, causing gasoline waste, rough idling, stalling.

But now TOTALLY NEW Premier gasoline with Motor-Clene packs detergent action to prevent deposit buildup • cut down repair bills • deliver more power • increase gasoline mileage.

Start using TOTALLY NEW Premier with Motor-Clene today. Get all the performance your car was built for.

LIGHTNIN' SAYS:

If Premier doesn't quit making gasolines better and better, hosses are gonna be out of a job.

SWEET AND SOUR

(Continued from Page 1)

Ronny and Beth are visiting now, and later Ben Lewis's small son Randy, will join them.

Birthday greeting to two especially nice June Bugs - Byron Snyder celebrated on the 8th, and his dad, James, will have his big day on the 28th. Come November the other half of the Snyder team, Marguerite and Jim will have their fling at the birthday cakes 'n stuff like that.

July birthdays coming up will include Cora L. Finch of California, who will be 90 years of age on the 3rd, and her daughter, Winnie Lucille, whose day is July 11th -- greetings to both of you.

Congratulations to the L. V. Hagans of Rt. 1, Baird, who are announcing the arrival of a new grandbaby - Catherine Lynn Corcoran. The baby, born June 4, weighed 6 lbs. 4 ozs., and is the daughter of Mr. and Mrs. Paul E. Corcoran of Ft. Worth.

It's a baby girl for Ruth and Cobble Strickland -- the young lady, Martha Ann, weighed in at 7 lbs. 15 ozs, June 20th, and everyone, including her two brothers, David and Paul, are happy about it.

Need a cat -- kitten-sized cat? The Abernathy children Joaquin and Ruby have two little-thistle down balls of fur that are ready for a home -- call and ask about them.

Three mighty cheers for our ever-loving school board who have hired you the best possible head of your high school Home-making department. Mrs. Hamrick, who taught here for several years before taking a year

away from work to complete her new home then under construction. That job is satisfactorily accomplished and Mrs. Hamrick is once more back at the work she loves best -- guiding young people in the fine art of home-making. Mrs. Hamrick was and is one of the most widely and genuinely loved people we know of -- her adult classes as well as her school work met with overwhelming success here in Baird, and we'll welcome her back to the faculty and to the town, for she is an asset to both.

Want some sage advice on how to beat the heat and really enjoy these warm summer days? Tell the kids at municipal pool to move over and splash right in the middle of it. The Howards who supervise the pool this season, keep it sparkling clean and va' know, even if ya' didn't care for making like the ducks, you'd enjoy visiting with Mr. and Mrs. Howard and the girls, have you ever met more thoroughly likeable people?

That about twines the forget-me-nots around this June package for the next visiting time it'll be sure'nuff July, and by the way, thank you everyone for asking about our absence last week. Made us feel life can be beautiful and that sort of thing, there is no substitute for friends and no way to properly say thank you for the lift they give your heart.

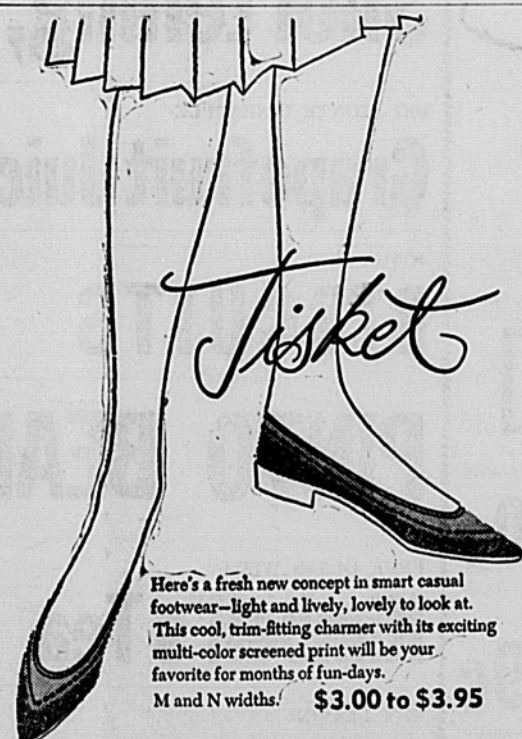

Mr. and Mrs. Buddy McWilliams and children of San Angelo, are in Dayton, Ohio, for 10 weeks while Buddy attends school.
