Snyder Airport Plans Moving Ahead Daily

D. P. Yoder Confers With Texas Air Transport Co., Inc., Tuesday

Plans for Snyder's new 200-acre airport are rapidly being formulated and construction of landing runways and other data will soon be announced. This announcement is being made following a conference Tuesday in the offices of the Texas Air Transport, Inc., at Fort Worth, Tuesday when D. P. Yoder and the Senior Editor were guests of the organization ascertaining the complete and necessary details for the local port. Constructive suggestions were given Mr. Yoder on the landing field here, both by General Manager Tom Hardin and Vice President Silliman Evans. Nothing definite was promised the Snyder committee at the present time, but the "air-mindedness of Snyder" was liberally commented on by the Texas Air Transport officials who bear the reputation of being the most famous aviation institution in the South, with a record of having one of the most complete flying schools in the universe.

If Snyder can complete its airport and be backed by the hearty co-operation of the citizenship whose "air-mindedness" must be 100 per cent, Snyder stands in a most conspicuous position for developing into the airport center of West Texas. If Snyder could secure one of the six division points of the Texas Air Transport, it would mean a point where every passenger and mail plane would stop, would also include shops for the repair and rebuilding of motors and planes, together with selling agencies for several types of planes, a stock of accessories and the maintenance of a licensed flying school. This would bring another new industry to Snyder, and of natural sequence an added payroll.

But very few Snyder people realize the tremendous growth of aviation in the past five years, even the last year, as far as that matters. Statistics compiled by the Department of Commerce Aeronautics, show that there are now 26 operators of scheduled air routes flying about 31,420 miles daily; that about 600 firms are engaged in the business of operating airplanes for hire on other than regular routes; that 4,898 regular pilots' licenses are issued or pending; that 20 aeronautical journals are published in the United States alone; and that 7,698 miles of airways had been lighted for night flying by June 30, 1928. The Department reports airplane engine and accessory production in the U. S. A. as increasing from $7,430,824 in 1921 to $21,161,853 in 1927, while aviation exports have increased from $472,548 in 1921 to $1,903,583 in 1927. Post office figures on compensation paid to contractors for carriage of air mail show this figure to have about doubled in the past twelve months. The above information is authentic and comes from officials of the Texas Air Transport, and can be verified by records given the Times-Signal.

Officials of the Texas Air Transport are to come to Snyder for a luncheon with the Lions Club and local business men as quickly as landing strips are prepared at the field. Mr. Yoder is completing the architectural plans of the new filling station, restaurant and camp grounds and hopes to start building within the next two weeks. Clearing of the landing field is to be started at once.

Snyder is on the way, folks, to a constructive program with aeronautics that none can realize until the airport is here. Aviation is so big, has made so many outstanding advances that none but those who have been in intimate daily touch can really know of its most remarkable and miraculous progress and future.

WHY, GERALDINE!

The "gasoline-editor" of the Times-Signal had occasion to drive to Fort Worth Monday afternoon. En route and in most places gas was selling at 16 cents and in some places at 14 cents a gallon. Yet we folks out in this felt-boot part of the world continue to pay 22 cents—seem to grin and just bear it. The dealers are not at fault; we wonder where the rub comes in? Whatever is causing us to pay a premium should be knocked in the head pronto—and that ain't no bologney, either!

SPEAKING OF HENS

Sixteen hens, eight of which were ten month old pullets, brought a total of $23.04! Who ever heard of such a thing?

Well, that happened right here in Snyder. Friday, Mrs. George W. Brown sold 16 of her Jersey Black Giants to the Snyder Produce Company, receiving $1.44 for an average price of the sale.

What has the one-crop idea man have to say about that?

What argument could he raise any more than he could rise up and argue with Mrs. Joe Wolf, who molded and sold more than one ton of butter in 1928?

Snyder and Scurry County are moving onward, folks.

West Texas A. A. U. Meet Here Drawing Teams

Plans for the forthcoming West Texas Girls High School A. A. U. Basketball Tournament are rapidly shaping up, and if all indications mean one single thing, Snyder will be entertaining the largest athletic event for a three days session that has ever been held in West Texas, or the state, so far as that matters.

The entry committee has already received inquiry from 59 West Texas high schools, sixteen having already mailed in their acceptance, while fifteen other teams have written that they would be in Snyder for the event with their teams and their entry fee.

Teams that have already entered include: Breckenridge, who will be entertaining the state meet a month following the Snyder tournament; Hobbs, Ira, Fluvanna, Sierra Blanca, Blackwell, Pecos, Divide, Ralls, Roby, Lorenzo, Tulia, Rankin, Colorado, Lamesa and Big Spring. Just those teams will bring more than 225 young ladies, not counting their coaches and escorts who have given their written word that they would be here.

According to W. H. Jacoby, secretary-treasurer of the Texas A. A. U., the Snyder trophies should arrive here this week, as they were due to be shipped from Dallas Monday by express. These trophies will be on exhibition at a point selected by the Lions Club.

Official score-keepers for the tournament will be voted some time this week. A chairman and assistants will be named by a special committee of the Lions Club.

Sec'y Paul T. Vickers of the Midland Chamber of Commerce has advised that if the new Snyder airport will be ready in time for the tournament, the Mirland High team would be brought here in one of the large transport planes that are at their famous landing field.

Alice Phillips of the Big Spring Chamber of Commerce has also written the local committee that the "air-mindedness" of their hustling city in all probability will mean the bringing of their squad to Snyder via airplane. Big spring has just recently opened an airport.

Committees

Committee's and officers already appointed include:

General Chairman, A. A. Bullock.

Finance: A. A. Bullock, chairman; C. Wedgeworth and George F. Smith.

Entertainment:- Mrs. H. G. Towle, chairman; Mrs. Joe Stinson, Mrs. Dixie Smith and Homer F. Springfield.

Registration: H. J. Brice, chairman; Warren Dodson and R. S. Sullivan.

Housing: Presidents of all the federated clubs.

Arrangements: John Spears chairman; Abe Rogers, J. M. Claunch and General Whitaker.

County Judge Horace Holley has notified the housing committee that there will be accommodatoins for eighteen girls in the jury room of the court house.

Entry in the Snyder tournament will not bar a team from the annual Texas A. A. U. meet to be held at Breckenridge March 14, 15, and 16.

The Lions Club is also contemplating adding a retiring room to the west side of the Wolf Park Gymnasuim for the convenience of visitors. Mayor Towle and the City Council are also to be asked to pipe fresh running water to the park.

Snyder is getting set—and set in time—for this great athletic event which will herald the good name of our hustling Scurry County city to all points of the compass, especially our home state. Representatives of the Associated Press and United Press, together with our nearby dailies have all been invited to send an official reporter for their papers. Folks, that means hundreds of lines of good, wholesome copy that will emblazon the name of Snyder in every hamlet, every crossroad and the larger zones of living in all parts of Texas.

FUNERAL FOR W. P. DUNN HELD FRIDAY

Funeral services for W. P. Dunn, Scurry County pioneer, were held at the Methodist Church at Dunn Friday in charge of Rev. W. W. Riley.

The deceased had lived in Scurry County since March, 1890, and came from a pioneer family of the West. Surviving him are his wife and five children, mother, one brother, J. A. Dunn of Dunn; two sisters, Mrs. Geo. Richardson, Dunn, and Mrs. C. S. Smith of Abernathy.

Mr. Dunn counted among his friends all with whom he had ever come in contact. Counted as another of our pioneers, he had come and wrested from the virgin earth a sustenance for himself and family and was known for his interest in the church and the schools. Before death he made it known to those close to him of his final resting place and would prepare a home for those he loved on earth when they ceased their labors here.

The family have the deep sympathy of the community in their loss of this fine husband, father and brother.

BABY DIES

Wilbur Earl Taylor, three-month old son of Mr. and Mrs. Sterlin A. Taylor, died of pneumonia Monday. Funeral services were held Tuesday afternoon at the First Presbyterian Church, with Rev. E. C. Lambert officiating.

Hugh Taylor & Co. Add Machine Line to Store

Massey-Harris Co. Products To Be Handled By Local Firm

Hugh Taylor & Company closed a contract yesterday whereby they have taken over the Massey-Harris Company line of modern farm equipment, which was formerly the J. I. Case Plow Works organization.

C. D. Taylor of Dallas, in charge of the heavy machine department for the company, was here completing all necessary arrangements to get the line started with a huge farm demonstration in Snyder Tuesday, Feb. 5.

According to a bulletin issued by the company, the Massey-Harris Companies combined constitute one of the oldest, largest and financially strongest manufacturers of farm machinery in the world. They manufacture over 1200 types of machines, the simplest being of eight parts and the most elaborate of 9,840 parts; there are also 325,000 complete machines manufactured annually by this company.

Hugh Taylor & Company are to be congratulated on bringing this world known company to Snyder, whose products will soon be on display in a room specially prepared in the rear of their store room, with a new side entrance that is to be built. Hugh Taylor is a Scurry County product you neer catch napping, and his newest accomplishment is but another step in the agricultural forwardness of the best county in West Texas.

Snyder Banquet Next Tuesday

The annual Scurry County Chamber of Commerce banquet and election of officers will happen next Tuesday night at the First Presbyterian Church with a program that is declared to be the best that the organization has ever attempted.

Pat Bullock will be toastmaster which insures a most happy handling of the arduous duties that confront the man who attempts to handle the office. Mr. Bullock has been a most proficient president during the past year and has passed through hails and blizzards but with a disposition that stamps him as a "regular feller."

Mr. Bullock will have a full program to play with, with many speakers to make every moment a delicious pleasure, with an old Snyderite, Judge James P. Stinson, of Abilene as the principal speaker.

The musical features of the evening will be ably handled by the High School Orchestra which is arranging some special numbers, together with vocal selections.

Hopes of the committee are that more than one hundred county farmers will be present at the meeting to join in the festivities of the local body. Merchants are inviting old and particular friends, and from present indications, it looks like a crowd of three hundred will sit down to enjoy every minute of the program.

SNYDER MAN IS AGAIN NAMED ON OPTICAL BOARD

Mayor H. G. Towle, O. D., was advised this week of his re-appointment to the State Board of Examiners in Optometry without even making a request, either personally or by any of his friends. The recognition by Governor Dan Moody is a most worthy one and attests the high degree of skill and expert knowledge of optometry of our fellow citizen. A telegram also came to Judge C. R. Buchanan, local Democratic leader, confirming the appointment of Mr. Towle.

Howard, old boy, we congratulate you from the bottom of our boots to the one lone and finely meshed bit of hair that tops our editorial dome.

DISTRICT COURT TO HAVE MANY CHANGES

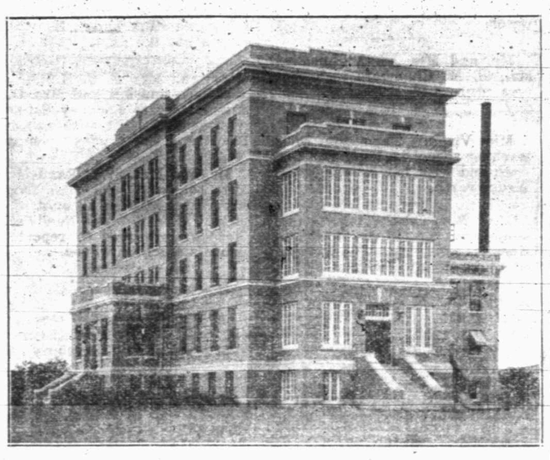

The house last week finally passed the bill by Reid, Johnson and Metcalf, providing for re-arrangement of court terms of the district court in the 32nd judicial district, which provides that three terms of the district court shall be held at Colorado and Snyder, and four terms at Big Spring and Sweetwater each year.

The bill carries the emergency clause and therefore will become a law effective immediately upon being signed by the governor.

The arguments in favor of such an act which brought about its presentation and passage are that there are many prisoners unable to make bond who are kept in jail from one term of court to another, denying them the constitutional right of a speedy trial, and that the counties will be relieved of the expense of boarding and caring for the prisoners. The further argument that land titles that are to be cleared by the court action are delayed for at least six months as well as other matters awaiting court adjudication.

At a meeting of the lawyers of the 32nd district some time ago the need of this act was discussed, and a committee was appointed to work out a bill to be presented to the Legislature. This bill has been rushed through and will take effect soon it is thought.

West Texas Baptist Sanitarium

This remarkable institution will be the subject of a special program at the First Baptist Church Sunday at the regular 11 o'clock preaching hour. Supt. and Mrs. L. A. Sanders, their two sons, and Head Nurse Louise Armistead will have charge of the program.

New Business Course is Added to High School

Snyder High School now has a fully complete commercial department in operation. Commencing last Monday morning the following studies were added to the high school:- Typewriting, Shorthand, Bookkeeping, Commercial Law and Commercial Arithmetic. Miss Margaret Person will be head of the department.

Students of Snyder public schools now have it within their grasp to take a complete commercial course along with their school studies, which is one of the finest possible improvements that Supt. C. Wedgeworth and the school board could have given our citizenship. The new arrangement is a part and parcel of the school system, and the success of the newly acquired studies is further shown when thirty-one students were enrolled, had paid their fees and were ready to go to work when the department opened Monday morning.

Coupled with the affiliated credits that Snyder High now boasts with the other credits that have been asked for this year, 35 units will be Snyder's standing for 1929 which is eclipsed by but few schools in West Texas.

In addition to the day students there will also be held a night school at the school building in which pupils unable to attend the day sessions may pursue their work.

Congratulations and bouquets a-plenty are now in order, and the best wishes are always ready for the Snyder schools from a citizenship that is back of the greatest single industry in the city.

Students already enrolled who started work Monday morning include: Dana Davis, Mildred Harless, Melba Richter, Mack Jones, Herman McPherson, Roy Davis, Edda Von Roeder, Alvin Curtis, Jack Isaacs, Bessie Burk, Jewell Sturdivant, Rachel Sanders, Eldes Hester, Mack Winston, Grady Wallace, Hugh Taylor, Stanfield Cooper, Wesley Norred, Leota Glen, Grady Ferguson, Armour McFarland, W. R. Clements, Cloyce Drinkard, Billie Mitchell, J. T. Jenkins, Fred Yoder, Vernon Littlepage, Baby Dell Warren and Reva Lewis.

LITTLE GIRL DIES

Virgie Lovelady, 5, daughter of Mr. and Mrs. J. S. Lovelady of Polar, died last Sunday evening about 7 o'clock. She was taken suddenly ill and rushed to the Emergency Hospital but lived only a few minutes after reaching the hospital.

The funeral services were held at the Odom Funeral Home Monday afternoon at 3 o'clock, with Rev. W. H. Harris of Fluvanna officiating.

Arthur Bullock Succeeds With Ralls Chamber

Arthur V. Bullock, Snyder boy who has been successfully handling the secretary's job of the Ralls Chamber of Commerce, has been making definite headway in that section, since accepting the position the past summer. His outstanding work has been in the dairying line.

Mr. Bullock, a Simmons alumnus, has had a varied experience in business, mostly tending toward promotional angles, and he has been bearing down hard in every phase of the work to which he has committed himself.

Working hand in hand with the agricultural committee of the chamber of commerce, Bullock has secured the co-operation of thirty farmers in a "More and Better Cows" movement.

According to the Ralls Banner, Mr. Young, vocational agriculture teacher in Ralls schools and an expert judge of dairy cows, has located some good ones well worth the money down state.

Both the First National and Security State Bank and Trust company of that city have signified their desire to cooperate in the movement to stock the Ralls country with better dairy cows, and are anxious to assist their farm customers in acquiring the animals at the lowest price possible, with no profit on the first cost of the cows.

Now, that's the way to do things, folks. We have in a manner gone on financial rocks trying to plant the whole earth in cotton. While the cotton was being hailed out and eaten by worms, feeds crops went right ahead and matured abundantly. We have gobs of feed in this country, and now that we know how to grind and mix it so that it's as good dairy feed as is obtainable anywhere, all we need is more and better cows and a lot of regular toil in pulling the milk out of the cows, to place this country back in a prosperous condition. Oh, of course, the country is not "broke" like a lot of countries are, but we are worse off than a country having the fertile soils that we have ought to be. The one crop method did it, and the only way to pull out is to have plenty of cows, chickens, turkeys and hogs to market our feed crops through at the greatest profit.

"Mr. Farmer," said Mr. Young, "if you are interested in more and better cows, see Mr. Bullock at the Ralls Chamber of Commerce or talk it over with your banker."

R. F. JOYCE DIES

R. F. Joyce, 87, of Pyron, died of pneumonia at his home last Thursday morning. Funeral services were held last Thursday afternoon at the family residence, with Rev. J. W. McGaha officiating. Mr. Joyce was the father of Ed Joyce of Snyder.

To Appear on Special Program

L. A. SANDERS

Superintendent of the West Texas Baptist Sanitarium, Abilene, who will be here Sunday.

LOUISE ARMISTEAD, R. N.

Superintendent of nurses of the West Texas Baptist Sanitarium, who will halk here Sunday.

"Blues" Forge Ahead in Lions Club Contest

Fifty-One Join in Great Program of Luncheon Organization

"Wow, the carnage was awful!" said a friend at our elbow yesterday noon "when the Blues reported seen new members as against NONE for the Reds in their attendance contest. Leader Warren Dodson looked jubilant at his rival captain, Abraham Rogers," continued our helper.

Counting noses at the luncheon yesterday, the Blues showed 27 members and new "jiners," while the Reds mustered 24, a number of whom were $1.00 paying guests only.

Opening the dinner with the song "America," the "king of the white ivories," Homer "Fuller" Springfield, delighted the 51 present with some real piano music, while Miss Maurine Stimson added to the occasion with two vocal numbers that were most pleasing.

To start other things moving came Vocational Agriculture Teacher C. C. Redman, en route to the International Harvester school farm course program with the Snyder Hardware & Implement Co., stopped into the dining room to pay their respects. The "gang", gave them the old-fashioned roar that traveled up and down the rooms like near and distant thunder. This vocational class is the fourth largest in the state.

Then the Gold Dust Twins, Jimmie Greene of the Colorado Chamber ot Commerce, and Bill Cooper, editor of the Colorado Record, put their voices and pleasant personalities in the picture. These disciples of that peculiarly voiced "bit of blarney" that rings true with Mitchell County verbiage, did their stuff up brown, particularly with their stories, but they were happy to see the spirit that has been created in the Lions Club here.

Mrs. C. R. Buchanan, honor guest of the luncheon and a representative of the Business & Professional Women's Club, brought nearty good will from that organization with the thought that they had set as their first and most necessary objective, the marking of Snyder streets. Asserting that their organization would stand a proportionate amount of the expense incident, Mrs. Buchanan asked for assistance from the Lions Club, which was given by a vote of 100 per cent. "We want to share the burden of the work," said Mrs. Buchanan, "and feel that the marking of the streets is one of the most outstanding needs of our city."

After voicing their cooperation, Pres. Wedgeworth stated that the Board of Directors would work with the Civics committee of the women's club. Pat Bullock placed the motion, with every member present voting aye.

Chairman Wedgeworth could not refrain from telling several stories, one of which was a bull's-eye, at Jimmie Greene, but of the two stories that were told, while the Senior Editor was acclaimed a "star" in more than one instance, we vote for Greene of Colorado on telling the best one yesterday. We say this, too, in view of the fact that we must live here every day in the year with this young "Wedge" fellow.

D. P. Yoder received a real ovation when he stood following the chair's introduction of him as the gentleman who had made Snyder's announced airport a reality. The speaker told of how he had studied the aviation matter for more than a year, and that the future of aviation was something that no one could really define at the present, and that his unbounded faith in Snyder was fundamentally the cause of his placing the landing field here.

After announcing the Scurry County Chamber of Commerce Banquet next Tuesday night, the bunch dissipated with blood in the eye of the Reds, and with a "bit of chuckle" on the part of the Blues. No one can tell what may happen next Wednesday. Oh yes, and by the way, Judge J. Martin Harris of Luling (a Blue) was present.

Last but by no means the least, Landlord Deakins (a Red) passed the cigars and announced that the Lions plaque would soon be placed in the lobby.

Bill Cooper and Jimmie Greene stated before leaving that they had assimilated enough Snyder pep to have at least one or two real rousing meetings in Colorado before long.

MEN'S BIBLE CLASS TO MEET IN SOCIAL TONIGHT AT CHURCH

Tonight at the First Baptist Church, basement the Young Men's Bible Class members with their wives, sweethearts and other guests will meet in a social gathering. Invitations have been extended to two or three hundred members and guests, and it is expected that over a hundred people will be present to enjoy the festivities.

According to the invitation committee, if you did not receive a personal invitation, you are invited just the same. A special invitation is extended to men who are not now members of a Sunday school class. A special campaign is being launched in an effort to enlarge the class membership.

The meeting time is 7:30 this evening. You whil have a good time. You are cordially invited and urged to attend.

WTCC District Meet to be Held Here March 5th

Snyder is entertaining the West Central District convention of the West Texas Chamber of Commerce Tuesday, March 5, when more than a thousand visitors are expected to swoop down on our city to be our guests, enjoy our hospitality and join in the business program that is to be offered by the largest regional organization in the world.

A fine program is being arranged with some of the most widely known speakers in West Texas to appear on the program, which will be open to every citizen of Scurry County. To those who register and attend the luncheon, there will be a registration fee of $1.00. The program as it now stands is mostly tentative, but full assurance has been given that President Andy Bourland, Manager Homer D. Wade, Publicity Manager E. H. Whitehead, together with many members of the Board of Directors will be here on the ground floor and join in the day's enjoyments.

Many questions important to citizenship of West Texas will be discussed, the agricultural situation coming in for a major part of the program. It is for that reason that farmers of the county should join whole-heartedly with the Scurry County Chamber of Commerce in making this day one long to be remembered.

The complete program when fully confirmed will be published in the Times-Signal.

White Way Soon To Be Finished

Snyder's new whiteway system is coming in for no end of comment from local citizens who are enthusiastic over the discarding of the old system and adding the newest in making the public square and business district the sort of a place that it should be at night.

In a conversation with Mayor Towle yesterday, the Times-Signal asked him to explain the new whiteway system that is being installed in Snyder.

"Snyder street lights cost on the old rate $106.85 per month, flat rate, and most any citizen will agree that we had the poorest lighted town in this section of the country, considering our population," said Mr. Towle.

Continuing, he said: "Under our new white way light contract, most all our lights were replaced with new 250 candle power lights in place of the old 100 C. P. at no cost to the City, and we were put on a meter. Our bill for December, with the two and one-half times more light was cut to $57. December is always the heaviest light month in the year on account of the long nights.

"The new cable is being furnished and installed by the Texas Electric Service Co. absolutely free of cost to the City of Snyder. They give as their reason for not using the old cable that was put down some three years ago that it is too small. It is No. 8 wire, and they are laying wire nearly three times as large."

According to Mr. Towle, the City is paying for the standards only. The Texas Electric Service Co. is installing these on concrete base and painting them without any cost to the City of Snyder.

The six new 250 candle power lights, including all of the old street lights, will cost the City per month about $119, so the total operating expense of the new and old system combined will be only $12.15 more per month than our old dark system was costing us.

"Personally," said the Mayor, "I am very enthusiastic over this splendid deal with the light company. It represents a saving of several thousand dollars for the citizens of Snyder over what our neighboring towns have been out for their white ways, and I want to take this opportunity to express my appreciation for the splendid cooperation of Mr. Blakey, the local manager of the Texas Electric Service Co. We have found the Texas Electric Service Co. ever ready and willing to help us analyze our lighting and power problems," concluded Mr. Towle.

W. H. HUCKABEE DIES SUDDENLY

W. H. Huckabee of Dunn died Tuesday at the age of 73 years, 7 months and 23 days, after an attack of heart trouble. He had been a resident of Scurry County for about twenty-three years.

Funeral services were held Wednesday afternoon at 2:30 o'clock at the First Baptist Church of Snyder with Rev. T. L. Nipp of Dunn officiating, asssited by Rev. L. D. Sanders and Rev. W. F. Ferguson.

He is survived by his wife and nine children (who are: Herman, Wray, Lester and Druie Huckabee, and Mrs. J. P. Watts, Mrs. Stewart Womack, Mrs. Joe Eicke and Miss Lois Huckabee, all of Snyder, and Mrs. Duke Jeffries of Wichita Falls. J. R. Huckabee of Snyder is a brother of the deceased.

Like Shooting Fish

Uncle Charley Shaffer, who operates a gasoline filling station on North Clairemont street, has his hands full. He called a Times-Signal reporter to drive up and collect his subscription one day last week, and when we got there nine cars were standing in line to buy gasoline at 19 cents a gallon.

NOTICE TO BIDDERS

Notice is hereby given that on the second Monday in February, 1929, which is the 11th day of February, 1929, at ten o'clock A. M. on said date at the court house in Gail, Borden County, Texas, the Commissioners Court of said county will receive sealed proposals from banking corporations, associations, or individual bankers desiring to be selected as the depository of the funds of Borden County, Texas. The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for the selection of a depository, interest to be computed upon daily balances. Each bid shall be accompanied by a certified check in the sum of Five Hundred ($500.00) Dollars as a guarantee of the good faith on the part of the bidder, and that, if his bid is accepted he will enter into a good and sufficient bond as required by law, provided however, that in the event the bidder so selected shall fail to give the bond required by law the amount of such certified check shall go to the county as liquidated damages and the County Judge shall thereupon re-advertise for bids.

D. DORWARD,
County Judge,
31-4tc Borden County, Texas.

NOTICE TO BANKERS

Notice is hereby given that on the second Monday in February, 1929, the same being the 11th day of said month, at 10 o'clock A. M. at the court house at Snyder, Texas, the Commissioners Court of Scurry County will receive sealed bids from any bank or individual banker desiring to be selected as depository of the funds of Scurry County, Texas.

The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for selecting a depository, interest to be computed on daily balances.

Each bid shall be accompanied by a certified check for six hundred ($600.00) dollars as a guarantee of good faith on the part of the bidder and that if his bid is accepted he will enter into a good and sufficient bond as required by law, provided howeved, that in the event the bidder so selected shall fail to give the bond required by law, the amount of such certified check shall go to the County as liquidated damages, and the County Judge shall re-advertise for bids.

HORACE HOLLEY,
County Judge, Scurry County.
32-3tc

STATE OF TEXAS,
COUNTY OF SCURRY.

TO THE CREDITORS OF F. T. WILHELM & SON:

You are hereby notified that F. T. Wilhelm & Son of the County of Scurry and State of Texas, on the 18th day of January, 1929, executed a Deed of Assignment, conveying to the undresigned all property of said firm for the benefit of its creditors, and that the undersigned has accepted said trust and has duly qualified as required by law. All creditors consenting to said assignment must, within four months after this notice, make known to the assignee their consent in writing, and within six months from the time of the first publication of this notice, must file their claims as prescribed by law with the undersigned, who resides at Snyder, Texas, which is also his post office address.

WITNESS MY HAND this, the 18th day of January, 1929.

J. M. HARRIS, Assignee.
H-32-3tc

Winter being here brings joy to many or to some like the coal man; to many it seems extra expense—bad colds for the kids and sickness in the family if you are not careful. But the worst part of it all, it stops the street corner gossip or curbstone clatter. The only chance is the drug store, but nowdays they don't have the room in the back end of the drug store like there used to be. We heard a bright remark from one of these never-had-a-job fellows, that the storekeepers are not as accommodating as they once were. After all, it is getting to be a tough old world for loafers.

Courtesy of the Domestic Science Department, Perfection Stove Company

LIKE a great many women, Mrs. Alden was inclined to resent the interference of any outsider into her kitchen affairs. Her kitchen was her own; and while she attended the meetings of the Kitchen Club, and was glad to give suggestions, she decided to make her improvements without calling the Club in.

However, when the job was done, Mrs. Alden invited the Club in to see it; for, after all, she had been inspired to dress up her kitchen by seeing what was done for other women.

"Girls," she said to the Kitchen Clubbers before they went in to look at it, "My kitchen might not suit anybody else in the world but me. But I have made it remind me of the thing I love most—the sea—and now it makes me happier just to go into it. I was born on the coast of Maine, as you may know, and I never got over missing the water with its marvelous blue and green and white. Come and see how I have reproduced it in my kitchen!"

"O a life on the ocean wave—!"

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Alden's kitchen is a dream! It has all the cool, restful effect of the sea itself. Washable paint walls of the palest blue-green; dark blue and white "marbleized" linoleum; jade green chairs and kitchen cabinet; white shelves lined with jade green; white porcelain enamel oil range; jade green table with white porcelain enamel top. Dark blue woodwork. A beautiful print of the ocean, hung right above the sink! It's surprising to see pictures in the kitchen; but, after all, why not? And why shouldn't a woman make her kitchen a picture of the thing she loves best, if it will make her happier?

New Heat Indicator

Mrs. Alden's new range has a heat indicator which she says is the most accurate she has ever seen for an oil stove. It is built into the side of the oven.

We got some recipes for excellent imitation sea dishes this afternoon. Here they are:

Beef Oysters

Beat one pound of round steak. Cut it into pieces the size of an oyster. Soak for ten minutes in water with a teaspoon of baking soda in it. Take out, dry, salt and pepper. Dip in meal. Fry in hot fat until very brown. This process makes the steak taste very much like oysters, and it can be eaten at any time of year.

Tomato Oysters

Slice half-ripe tomatoes. Salt, pepper, and dip into cracker crumbs. Fry in deep fat. This dish also tastes like oysters, and many like it better.

Salsify (Oyster Plant)

Scrape the salsify. Boil it tender. Remove from fire; mash well and mix with cracker crumbs, butter, salt, pepper and a beaten egg. Make into patties the size of an oyster, roll in cracker dust and fry in hot fat.

"Treasure Chest" Sal

"Yo ho ho and a plate of salad!"

Take curved leaves of lettuce. Wash and arrange on plate. Halves of fresh or canned peaches. Scoop out center of both halves. Set one half on lettuce leaf. Fill with grated pineapple. Cover with other half. French dressing and paprika over the top. Makes a beautiful salad, as curved lettuce leaf resembles a sea shell; and the peach, of course, is the treasure chest.

A new all-metal flying boat developed in Europe has 4 seats for passengers, is driven by four 2,000 horsepower motors and can travel 126 miles an hour.

Mrs. Jr. J. Jarnowski, who had previously devoted herself to her duties as a housewife, was recently appointed a recorder of Cook County, Ill., at a salary of $9,000 a year.

Robert Thomas, 15, of Kenosha, Wis., is the champion junior bicycle rider of the United States, holding two national records.

Balanced Rations of Plant Food in Soil Best For All Farm Crops

A balanced ration is best for both human beings and livestock. This fact has been proved by science. Food authorities tell us to use a mixed diet balancing the different kinds of food substances, making sure to obtain sufficient mineral material and vitamins.

Producers of livestock have found that proper feeds must be used in order that their stock may make the most economical gains. The progressive dairymen recognize the necessity of a balanced ration for their cows as a means of obtaining more profitable milk production.

Balanced Rations for Crops

Balanced rations for crops are just as necessary for best growth. It is not difficult to observe when plants in a field are starving to death, and each summer many fields are seen where the plants are dying for lack of plant food. In other fields it is apparent that the crop is receiving plenty of some plant foods but lacks others—an unbalanced ration. A balanced ration would be a fertilizer containing the right proportions of nitrogen, phosphoric acid and potash, according to the Soil Improvement Committee of the National Fertilizer Association.

The progressive dairyman is looking for cows of large capacity, cows that can eat large amounts of feed, for he looks on them as a sort of factory and takes the cheap raw feeds, such as hay, silage and grain, and changes them into a more valuable product—milk. As a rule, the more feed a good dairy cow consumes the more milk she will produce, and the more profit she will make for the owner.

The grower of field crops, the cotton grower for example, should look at his cotton crop in much the same way. The cotton plant takes cheap raw materials, which are called plant food, and converts them into much more valuable cotton lint and seed. As a rule, if it is a good variety of cotton, grown under favorable conditions, the more plant food the cotton plants use, the more cotton will be produced and the more profit will be made.

Experiments conducted by agricultural authorities in many states have definitely shown that cotton and other crops as well make most vigorous growth and are less likely to be seriously affected by disease when fed liberally with well balanced plant food. Complete commercial fertilizers of various analyses are manufactured to supply balanced rations for crops on different soils. The use of the proper fertilizer will result in a better crop and a more profitable production.

RESOLUTIONS OF RESPECT

Whereas in the Divine Order of Events it has been seen fit to remove from the ranks of this Commandery our true and well loved Sir Knight, T. L. Lollar, into that realm where the militant soldier and his sword of war seek peace;

And whereas not only as a Mason and as a true and loyal Knight of Snyder Commandery, but as a Citizen of our town and community as well as wherever he was known, had he proven himself a man among men,

Now therefore, we, the Knights of Snyder Commandery do hereby resolve that the kindliness of character, the unusual broadness of spirit in his attitude toward the affairs of others and his willingness to assist any and all who called upon him be commended to all of us and that we as Masons and Sir Knight Members of this Commandery, take note thereof for our future guidance.

And be it further resolved that a copy of this resolution be forwarded to his surviving wife and daughter; that one copy be placed of record in this Commandery and that a third be given to our local newspapers for publication.

Respectfully submitted,
J. MONROE,
E. J. ANDERSON,
32-1tc

DERMOTT NEWS

There are no serious cases of flu at present.

Mrs. Sallie Scrivner returned home this week from Sterling City where she has been visiting with her mother, Mr. Welch, who has been quite ill.

Mr. Click left last week for the Santa Fe Hospital at Clovis, N. M., to have some dental work done.

John Browning is having his old home place west of Dermott terraced. He is looking for a better crop next year.

L. N. Periman was in Dermott in a flashing new Ford sedan recently.

Mr. and Mrs. Robert Fletcher moved near Bethel last week.

Mrs. Myrtie Edmonson left Friday for Oklahoma to spend several weeks with relatives.

Charlie Wilks was called Saturday to Slaton to see his mother, who is very sick.

Mr. and Mrs. Charlie Browning are the parents of a baby girl born the first of the week.

M. J. H.

Mrs. Roscoe Vaughn of Wichita, Kan., is the first president of the Women's Aeronautical Association.

Miss Alice Y. Lee, a Chinese girl of San Francisco, a graduate of the American Institute of Banking, is the first woman of her race to become a banker in California.

Plow With the Farmall!

THE McCormick-Deering Farmall offers the new-crop farmer a wonderful advantage. With this sturdy, 4-cylinder, 2-plow tractor on the farm you can put all your work behind you quickly with power—from the first tillage job in spring to the last belt job in winter. The Farmall pulls a 2-bottom plow as ably as does any other tractor. It turns short, handles easily, operates economically, and requires very little attention.

As the season progresses you can shift from one important job to another with amazing speed. Tilling, plowing, seeding, planting row crops (with 4-row planter), cultivating row crops (with 2 or 4-row cultivator), mowing, raking, loading hay, harvesting grain, harvesting corn, and doing the hundred and one belt jobs around the farm.

You can't beat the Farmall. It makes the horseless farm practicable and possible. It cuts the corners off expense and puts the profit in your pocket.

We can't TELL you the whole Farmall story here; but we can prove every point in mighty quick time if you'll ask us for a field demonstration.

Snyder Airport Plans Moving Ahead Daily

D. P. Yoder Confers With Texas Air Transport Co., Inc., Tuesday

Plans for Snyder's new 200-acre airport are rapidly being formulated and construction of landing runways and other data will soon be announced. This announcement is being made following a conference Tuesday in the offices of the Texas Air Transport, Inc., at Fort Worth, Tuesday when D. P. Yoder and the Senior Editor were guests of the organization ascertaining the complete and necessary details for the local port. Constructive suggestions were given Mr. Yoder on the landing field here, both by General Manager Tom Hardin and Vice President Silliman Evans. Nothing definite was promised the Snyder committee at the present time, but the "air-mindedness of Snyder" was, liberally commented on by the Texas Air Transport officials who bear the reputation of being the most famous aviation institution in the South, with a record of having one of the most complete flying schools in the universe.

If Snyder can complete its airport and be backed by the hearty co-operation of the citizenship whose "air-mindedness" must be 100 per cent, Snyder stands in a most conspicuous position for developing into the airport center of West Texas. If Snyder could secure one of the six division points of the Texas Air Transport, it would mean a point where every passenger and mail plane would stop, would also include shops for the repair and rebuilding of motors and planes, together with selling agencies for several types of planes, a stock of accessories and the maintenance of a licensed flying school. This would bring another new industry to Snyder, and of natural sequence an added payroll.

But very few Snyder people realize the tremendous growth of aviation in the past five years, even the last year, as far as that matters. Statistics compiled by the Department of Commerce Aeronautics, show that there are now 26 operators of scheduled air routes flying about 31,420 miles daily; that about 600 firms are engaged in the business of operating airplanes for hire on other than regular routes; that 4,898 regular pilots' licenses are issued or pending; that 20 aeronautical journals are published in the United States alone; and that 7,698 miles of airways had been lighted for night flying by June 30, 1928. The Department reports airplane engine and accessory production in the U. S. A. as increasing from $7,430,824 in 1921 to $21,161,853 in 1927, while aviation exports have increased from $472,548 in 1921 to $1,903,583 in 1927. Post office figures on compensation paid to contractors for carriage of air mail show this figure to have about doubled in the past twelve months. The above information is authentic and comes from officials of the Texas Air Transport, and can be verified by records given the Times-Signal.

Officials of the Texas Air Transport are to come to Snyder for a luncheon with the Lions Club and local business men as quickly as landing strips are prepared at the field. Mr. Yoder is completing the architectural plans of the new filling station, restaurant and camp grounds and hopes to start building within the next two weeks. Clearing of the landing field is to be started at once.

Snyder is on the way, folks, to a constructive program with aeronautics that none can realize until the airport is here. Aviation is so big, has made so many outstanding advances that none but those who have been in intimate daily touch can really know of its most remarkable and miraculous progress and future.

WHY, GERALDINE!

The "gasoline-editor" of the Times-Signal had occasion to drive to Fort Worth Monday afternoon. En route and in most places gas was selling at 16 cents and in some places at 14 cents a gallon Yet we folks out in this felt-boot part of the world continue to pay 22 cents—seem to grin and just bear it. The dealers are not at fault; we wonder where the rub comes in? Whatever is causing us to pay a premium should be knocked in the head pronto—and that ain't no bologney, either!

SPEAKING OF HENS

Sixteen hens, eight of which were ten month old pullets, brought a total of $23.04! Who ever heard of such a thing?

Well, that happened right here in Snyder. Friday, Mrs. George W. Brown sold 16 of her Jersey Black Giants to the Snyder Produce Company, receiving $1.44 for an average price of the sale.

What has the one-crop idea man have to say about that?

What argument could he raise any more than he could rise up and argue with Mrs. Joe Wolf, who molded and sold more than one ton of butter in 1928?

Snyder and Scurry County are moving onward, folks.

West Texas A. A. U. Meet Here Drawing Teams

Plans for the forthcoming West Texas Girls High School A. A. U. Basketball Tournament are rapidly shaping up, and if all indications mean one single thing, Snyder will be entertaining the largest athletic event for a three days session that has ever been held in West Texas, or the state, so far as that matters.

The entry committee has already received inquiry from 59 West Texas high schools, sixteen having already mailed in their acceptance, while fifteen other teams have written that they would be in Snyder for the event with their teams and their entry fee.

Teams that have already entered include: Breckenridge, who will be entertaining the state meet a month following the Snyder tournament; Hobbs, Ira, Fluvanna, Sierra Blanca, Blackwell, Pecos, Divide, Ralls, Roby, Lorenzo, Tulia, Rankin, Colorado, Lamesa and Big Spring. Just those teams will bring more than 225 young ladies, not counting their coaches and escorts who have given their written word that they would be here.

According to W. H. Jacoby, secretary-treasurer of the Texas A. A. U., the Snyder trophies should arrive here this week, as they were due to be shipped from Dallas Monday by express. These trophies will be on exhibition at a point selected by the Lions Club.

Official score-keepers for the tournament will be voted some time this week. A chairman and assistants will be named by a special committee of the Lions Club.

Sec'y Paul T. Vickers of the Midland Chamber of Commerce has advised that if the new Snyder airport will be ready in time for the tournament, the Mirland High team would be brought here in one of the large transport planes that are at their famous landing field.

Alice Phillips of the Big Spring Chamber of Commerce has also written the local committee that the "air-mindedness" of their hustling city in all probability will mean the bringing of their squad to Snyder via airplane. Big spring has just recently opened an airport.

Committees

Committee's and officers already appointed include:

General Chairman, A. A. Bullock.

Finance: A. A. Bullock, chairman; C. Wedgeworth and George F. Smith.

Entertainment:- Mrs. H. G. Towle, chairman; Mrs. Joe Stinson, Mrs. Dixie Smith and Homer F. Springfield.

Registration: H. J. Brice, chairman; Warren Dodson and R. S. Sullivan.

Housing: Presidents of all the federated clubs.

Arrangements: John Spears chairman; Abe Rogers, J. M. Claunch and General Whitaker.

County Judge Horace Holley has notified the housing committee that there will be accommodatoins for eighteen girls in the jury room of the court house.

Entry in the Snyder tournament will not bar a team from the annual Texas A. A. U. meet to be held at Breckenridge March 14, 15, and 16.

The Lions Club is also contemplating adding a retiring room to the west side of the Wolf Park Gymnasuim for the convenience of visitors. Mayor Towle and the City Council are also to be asked to pipe fresh running water to the park.

Snyder is getting set—and set in time—for this great athletic event which will herald the good name of our hustling Scurry County city to all points of the compass, especially our home state. Representatives of the Associated Press and United Press, together with our nearby dailies have all been invited to send an official reporter for their papers. Folks, that means hundreds of lines of good, wholesome copy that will emblazon the name of Snyder in every hamlet, every crossroad and the larger zones of living in all parts of Texas.

FUNERAL FOR W. P. DUNN HELD FRIDAY

Funeral services for W. P. Dunn, Scurry County pioneer, were held at the Methodist Church at Dunn Friday in charge of Rev. W. W. Riley.

The deceased had lived in Scurry County since March, 1890, and came from a pioneer family of the West. Surviving him are his wife and five children, mother, one brother, J. A. Dunn of Dunn; two sisters, Mrs. Geo. Richardson, Dunn, and Mrs. C. S. Smith of Abernathy.

Mr. Dunn counted among his friends all with whom he had ever come in contact. Counted as another of our pioneers, he had come and wrested from the virgin earth a sustenance for himself and family and was known for his interest in the church and the schools. Before death he made it known to those close to him of his final resting place and would prepare a home for those he loved on earth when they ceased their labors here.

The family have the deep sympathy of the community in their loss of this fine husband, father and brother.

BABY DIES

Wilbur Earl Taylor, three-month-old son of Mr. and Mrs. Sterlin A. Taylor, died of pneumonia Monday. Funeral services were held Tuesday afternoon at the First Presbyterian Church, with Rev. E. C. Lambert officiating.

Hugh Taylor & Co. Add Machine Line to Store

Massey-Harris Co. Products To Be Handled By Local Firm

Hugh Taylor & Company closed a contract yesterday whereby they have taken over the Massey-Harris Company line of modern farm equipment, which was formerly the J. I. Case Plow Works organization.

C. D. Taylor of Dallas, in charge of the heavy machine department for the company, was here completing all necessary arrangements to get the line started with a huge farm demonstration in Snyder Tuesday, Feb. 5.

According to a bulletin issued by the company, the Massey-Harris Companies combined constitute one of the oldest, largest and financially strongest manufacturers of farm machinery in the world. They manufacture over 1200 types of machines, the simplest being of eight parts and the most elaborate of 9,840 parts; there are also 325,000 complete machines manufactured annually by this company.

Hugh Taylor & Company are to be congratulated on bringing this world known company to Snyder, whose products will soon be on display in a room specially prepared in the rear of their store room, with a new side entrance that is to be built. Hugh Taylor is a Scurry County product you neer catch napping, and his newest accomplishment is but another step in the agricultural forwardness of the best county in West Texas.

Snyder Banquet Next Tuesday

The annual Scurry County Chamber of Commerce banquet and election of officers will happen next Tuesday night at the First Presbyterian Church with a program that is declared to be the best that the organization has ever attempted.

Pat Bullock will be toastmaster which insures a most happy handling of the arduous duties that confront the man who attempts to handle the office. Mr. Bullock has been a most proficient president during the past year and has passed through hails and blizzards but with a disposition that stamps him as a "regular feller."

Mr. Bullock will have a full program to play with with many speakers to make every moment a delicious pleasure, with an old Snyderite, Judge James P. Stinson, of Abilene as the principal speaker.

The musical features of the evening will be ably handled by the High School Orchestra which is arranging some special numbers, together with vocal selections.

Hopes of the committee are that more than one hundred county farmers will be present at the meeting to join in the festivities of the local body. Merchants are inviting old and particular friends, and from present indications, it looks like a crowd of three hundred will sit down to enjoy every minute of the program.

SNYDER MAN IS AGAIN NAMED ON OPTICAL BOARD

Mayor H. G. Towle, O. D., was advised this week of his re-appointment to the State Board of Examiners in Optometry without even making a request, either personally or by any of his friends. The recognition by Governor Dan Moody is a most worthy one and attests the high degree of skill and expert knowledge of optometry of our fellow citizen. A telegram also came to Judge C. R. Buchanan, local Democratic leader, confirming the appointment of Mr. Towle.

Howard, old boy, we congratulate you from the bottom of our boots to the one lone and finely meshed bit of hair that tops our editorial dome.

DISTRICT COURT TO HAVE MANY CHANGES

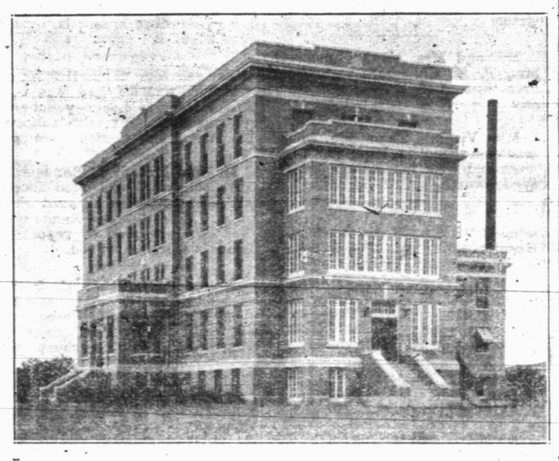

The house last week finally passed the bill by Reid, Johnson and Metcalf, providing for re-arrangement of court terms of the district court in the 32nd judicial district, which provides that three terms of the district court shall be held at Colorado and Snyder, and four terms at Big Spring and Sweetwater each year.

The bill carries the emergency clause and therefore will become a law effective immediately upon being signed by the governor.

The arguments in favor of such an act which brought about its presentation and passage are that there are many prisoners unable to make bond who are kept in jail from one term of court to another, denying them the constitutional right of a speedy trial, and that the counties will be relieved of the expense of boarding and caring for the prisoners. The further argument that land titles that are to be cleared by the court action are delayed for at least six months, as well as other matters awaiting court adjudication.

At a meeting of the lawyers of the 32nd district some time ago the need of this act was discussed, and a committee was appointed to work out a bill to be presented to the Legislature. This bill has been rushed through and will take effect soon it is thought.

West Texas Baptist Sanitarium

This remarkable institution will be the subject of a special program at the First Baptist Church Sunday at the regular 11 o'clock preaching hour. Supt. and Mrs. L. A. Sanders, their two sons, and Head Nurse Louise Armistead will have charge of the program.

New Business Course is Added to High School

Snyder High School now has a fully complete commercial department in operation. Commencing last Monday morning the following studies were added to the high school: Typewriting, Shorthand, Bookkeeping, Commercial Law and Commercial Arithmetic. Miss Margaret Person will be head of the department.

Students of Snyder public schools now have it within their grasp to take a complete commercial course along with their school studies, which is one of the finest possible improvements that Supt. C. Wedgeworth and the school board could have given our citizenship. The new arrangement is a part and parcel of the school system, and the success of the newly acquired studies is further shown when thirty-one students were enrolled, had paid their fees and were ready to go to work when the department opened Monday morning.

Coupled with the affiliated credits that Snyder High now boasts with the other credits that have been asked for this year, 35 units will be Snyder's standing for 1929 which is eclipsed by but few schools in West Texas.

In addition to the day students there will also be held a night school at the school building in which pupils unable to attend the day sessions may pursue their work.

Congratulations and bouquets a-plenty are now in order, and the best wishes are always ready for the Snyder schools from a citizenship that is back of the greatest single industry in the city.

Students already enrolled who started work Monday morning include: Dana Davis, Mildred Harless, Melba Richter, Mack Jones, Herman McPherson, Roy Davis, Edda Von Roeder, Alvin Curtis, Jack Isaacs, Bessie Burk, Jewell Sturdivant, Rachel Sanders, Eldes Hester, Mack Winston, Grady Wallace, Hugh Taylor, Stanfield Cooper, Wesley Norred, Leota Glen, Grady Ferguson, Armour McFarland, W. R. Clements, Cloyce Drinkard, Billie Mitchell, J. T. Jenkins, Fred Yoder, Vernon Littlepage, Baby Dell Warren and Reva Lewis.

LITTLE GIRL DIES

Virgie Lovelady, 5, daughter of Mr. and Mrs. J. S. Lovelady of Polar, died last Sunday evening about 7 o'clock. She was taken suddenly ill and rushed to the Emergency Hospital but lived only a few minutes after reaching the hospital.

The funeral services were held at the Odom Funeral Home Monday afternoon at 3 o'clock, with Rev. W. H. Harris of Fluvanna officiating.

Arthur Bullock Succeeds With Ralls Chamber

Arthur V. Bullock, Snyder boy who has been successfully handling the secretary's job of the Ralls Chamber of Commerce, has been making definite headway in that section since accepting the position the past summer. His outstanding work has been in the dairying line.

Mr. Bullock, a Simmons alumnus, has had a varied experience in business, mostly tending toward promotional angles, and he has been bearing down hard in every phase of the work to which he has committed himself.

Working hand in hand with the agricultural committee of the chamber of commerce, Bullock has secured the co-operation of thirty farmers in a "More and Better Cows" movement.

According to the Ralls Banner, Mr. Young, vocational agriculture teacher in Ralls schools and an expert judge of dairy cows, has located some good ones well worth the money down state.

Both the First National and Security State Bank and Trust company of that city have signified their desire to cooperate in the movement to stock the Ralls country with better dairy cows and are anxious to assist their farm customers in acquiring the animals at the lowest price possible, with no profit on the first cost of the cows.

Now, that's the way to do things, folks. We have in a manner gone on financial rocks trying to plant the whole earth in cotton. While the cotton was being hailed out and eaten by worms, feeds crops went right ahead and matured abundantly. We have gobs of feed in this country, and now that we know how to grind and mix it so that it's as good dairy feed as is obtainable anywhere, all we need is more and better cows and a lot of regular toil in pulling the milk out of the cows, to place this country back in a pro-perous condition. Oh, of course, the country is not "broke" like a lot of countries are, but we are worse off than a country having the fertile soils that we have ought to be. The one crop method did it, and the only way to pull out is to have plenty of cows, chickens, turkeys and hogs to market our feed crops through at the greatest profit.

"Mr. Farmer," said Mr. Young, "if you are interested in more and better cows, see Mr. Bullock at the Ralls Chamber of Commerce or talk it over with your banker."

R. F. JOYCE DIES

R. F. Joyce, 87, of Pyron, died of pneumonia at his home last Thursday morning. Funeral services were held last Thursday afternoon at the family residence, with Rev. J. W. McGaha officiating. Mr. Joyce was the father of Ed Joyce of Snyder.

To Appear on Special Program

L. A. SANDERS
Superintendent of the West Texas Baptist Sanitarium, Abilene, who will be here Sunday.

LOUISE ARMISTEAD, R. N.
Superintendent of nurses of the West Texas Baptist Sanitarium, who will halk here Sunday.

"Blues" Forge Ahead in Lions Club Contest

Fifty-One Join in Great Program of Luncheon Organization

"Wow, the carnage was awful!" said a friend at our elbow yesterday noon "when the Blues reported seen new members as against NONE for the Reds in their attendance contest. Leader Warren Dodson looked jubilant at his rival captain, Abraham Rogers," continued our helper.

Counting noses at the luncheon yesterday, the Blues showed 27 members and new "jiners," while the Reds mustered 24, a number of whom were $1.00 paying guests only.

Opening the dinner with the song "America," the "king of the white ivories," Homer "Fuller" Springfield, delighted the 51 present with some real piano music, while Miss Maurine Stimson added to the occasion with two vocal numbers that were most pleasing.

To start other things moving came Vocational Agriculture Teacher C. C. Redman, en route to the International Harvester school farm course program with the Snyder Hardware & Implement Co., stopped into the dining room to pay their respects. The "gang" gave them the old-fashioned roar that traveled up and down the rooms like near and distant thunder. This vocational class is the fourth largest in the state.

Then the Gold Dust Twins, Jimmie Greene of the Colorado Chamber of Commerce, and Bill Cooper, Editor of the Colorado Record, put their voices and pleasant personalities in the picture. These disciples of that peculiarly voiced "bit of blarney" that rings true with Mitchell County verbiage, did their stuff up brown, particularly with their stories, but they were happy to see the spirit that has been created in the Lions Club here.

Mrs. C. R. Buchanan, honor guest of the luncheon and a representative of the Business & Professional Women's Club, brought hearty good will from that organization with the thought that they had set as their first and most necessary objective, the marking of Snyder streets. Asserting that their organization would stand a proportionate amount of the expense incident, Mrs. Buchanan asked for assistance from the Lions Club, which was given by a vote of 100 per cent. "We want to share the burden of the work," said Mrs. Buchanan, "and feel that the marking of the streets is one of the most outstanding needs of our city."

After voicing their cooperation, Pres. Wedgeworth stated that the Board of Directors would work with the Civics committee of the women's club. Pat Bullock placed the motion, with every member present voting aye.

Chairman Wedgeworth could not refrain from telling several stories, one of which was a bull's-eye, at Jimmie Greene, but of the two stories that were told, while the Senior Editor was acclaimed a "liar" in more than one instance, we vote for Greene of Colorado on telling the best one yesterday. We say this, too, in view of the fact that we must live here every day in the year with this young "Wedge" fellow.

D. P. Yoder received a real ovation when he stood following the chair's introduction of him as the gentleman who had made Snyder's announced airport a reality. The speaker told of how he had studied the aviation matter for more than a year, and that the future of aviation was something that no one could really define at the present, and that his unbounded faith in Snyder was fundamentally the cause of his placing the landing field here.

After announcing the Scurry County Chamber of Commerce Banquet next Tuesday night, the bunch dissipated with blood in the eye of the Reds, and with a "bit of chuckle" on the part of the Blues. No one can tell what may happen next Wednesday. Oh yes, and by the way, Judge J. Martin Harris of Luling (a Blue) was present.

Last but by no means the least, Landlord Deakins (a Red) passed the cigars and announced that the Lions plaque would soon be placed in the lobby.

Bill Cooper and Jimmie Greene stated before leaving that they had assimilated enough Snyder pep to have at least one or two real rousing meetings in Colorado before long.

MEN'S BIBLE CLASS TO MEET IN SOCIAL TONIGHT AT CHURCH

Tonight at the First Baptist Church basement the Young Men's Bible Class members with their wives, sweethearts and other guests will meet in a social gathering. Invitations have been extended to two or three hundred members and guests, and it is expected that over a hundred people will be present to enjoy the festivities.

According to the invitation committee, if you did not receive a personal invitation, you are invited just the same. A special invitation is extended to men who are not now members of a Sunday school class. A special campaign is being launched in an effort to enlarge the class membership.

The meeting time is 7:30 this evening. You will have a good time if you are cordially invited and expected to attend.

WTCC District Meet to be Held Here March 5th

Snyder is entertaining the West Central District convention of the West Texas Chamber of Commerce Tuesday, March 5, when more than a thousand visitors are expected to swoop down on our city to be our guests, enjoy our hospitality and join in the business program that is to be offered by the largest regional organization in the world.

A fine program is being arranged with some of the most widely known speakers in West Texas to appear on the program, which will be open to every citizen of Scurry County. To those who register and attend the luncheon, there will be a registration fee of $1.00. The program as it now stands is mostly tentative, but full assurance has been given that President Andy Bourland, Manager Homer D. Wade, Publicity Manager E. H. Whitehead, together with many members of the Board of Directors will be here on the ground floor and join in the day's enjoyments.

Many questions important to citizenship of West Texas will be discussed, the agricultural situation coming in for a major part of the program. It is for that reason that farmers of the county should join whole-heartedly with the Scurry County Chamber of Commerce in making this day one long to be remembered.

The complete program when fully confirmed will be published in the Times-Signal.

White Way Soon To Be Finished

Snyder's new whiteway system is coming in for no end of comment from local citizens who are enthusiastic over the discarding of the old system and adding the newest in making the public square and business district the sort of a place that it should be at night.

In a conversation with Mayor Towle yesterday, the Times-Signal asked him to explain the new whiteway system that is being instaned in Snyder.

"Snyder street lights cost on the old rate $106.85 per month, flat rate, and most any citizen will agree that we had the poorest lighted town in this section of the country, considering our population," said Mr. Towle.

Continuing, he said: "Under our new white way light contract, most all our lights were replaced with new 250 candle power lights in place of the old 100 C. P. at no cost to the City, and we were put on a meter. Our bill for December, with the two and one-half times more light was cut to $57. December is always the heaviest light month in the year on account of the long nights.

"The new cable is being furnished and installed by the Texas Electric Service Co. absolutely free of cost to the City of Snyder. They give as their reason for not using the old cable that was put down some three years ago that it is too small. It is No. 8 wire, and they are laying wire nearly three times as large.

According to Mr. Towle, the City is paying for the standards only. The Texas Electric Service Co. is installing these on concrete base and painting them without any cost to the City of Snyder.

The 68 new 250-candle power lights, including all of the old street lights, will cost the City per month about $119, so the total operating expense of the new and old system combined will be only $12.15 more per month than our old dark system was costing us.

"Personally," said the Mayor, "I am very enthusiastic over this splendid deal with the light company. It represents a saving of several thousand dollars for the citizens of Snyder over what our neighboring towns have been out for their white ways, and I want to take this opportunity to express my appreciation for the splendid cooperation of Mr. Blakey, the local manager of the Texas Electric Service Co. We have found the Texas Electric Service Co. ever ready and willing to help us analyze our lighting and power problems," concluded Mr. Towle.

W. H. HUCKABEE DIES SUDDENLY

W. H. Huckabee of Dunn died Tuesday at the age of 73 years, 7 months and 23 days, after an attack of heart trouble. He had been a resident of Scurry County for about twenty-three years.

Funeral services were held Wednesday afternoon at 2:30 o'clock at the First Baptist Church of Snyder with Rev. T. L. Nipp of Dunn officiating, asssited by Rev. L. D. Sanders and Rev. W. F. Ferguson.

He is survived by his wife and nine children, who are: Herman, Wray, Lester and Druie Huckabee, and Mrs. J. P. Watts, Mrs. Stewart Womack, Mrs. Joe Eicke and Miss Lois Huckabee, all of Snyder, and Mrs. Duke Jeffries of Wichita Falls. J. R. Huckabee of Snyder is a brother of the deceased.

Like Shooting Fish

Uncle Charley Shaffer, who operates a gasoline filling station on North Clairemont street, has his hands full. He called a Times-Signal reporter to drive up and collect his subscription one day last week, and when we got there nine cars were standing in line to buy gasoline at 19 cents a gallon.

BEAN SOUP O TURKEY?

With fifty-one busine of Snyder together with sitting down yesterd break bread it sort of in that this bean soup-turk test is going to grow int proportions before it nates in April.

The Reds led in the week, but the Blues through yesterday with new members, so th claim they are taking all out of their shoes and w mence to work. Will Rogers, their captain, that, and Captain Warr son saying like things, test will no doubt prove interesting proceeding now on.

Cows and Co-operation

To every farmer or farmer's boy in this community who is interested in procuring a few purebred dairy cows for the farm, this bank offers every co-operation.

Intelligent Diversification and a living at home is the basis of all farm prosperity, and nothing contributes more toward successful and profitable farm management than a few purebred dairy cows.

More and Better Cows as permanent residents of this section will mean individual prosperity and added community wealth.

LOCALS

L. Caskey was reported to be Monday.

V. R. Royalty of Rotan is a tor in the city this week.

. D. Curry was a business vis- in Amarillo Tuesday.

am Jenkins of Lamesa spent week-end with his parents.

V. P. Babb of Abilene was a iness visitor in Snyder Monday.

C. W. Cecil of Abilene was a business visitor in the city Monday.

Dan Whatley of Wichita Falls has been a business visitor in Snyder.

Mr. and Mrs. R. H. Odom and two children were visitors in Colorado Sunday.

H. F. Lloyd of Post was a business visitor in the city several days this week.

A. G. Deakins of Dallas visited his brother, E. M. Deakins, last Saturday and Sunday.

Mrs. Lee Newsom left Saturday for Dallas and expects to be gone all week on business.

Mrs. J. L. Caskey and daughter, Miss Inez, visited friends in Hermleigh Sunday.

A. V. Jones of Springfield, Mo., was a guest of Miss Alma Nell morris over the week-end.

Mr. and Mrs. S. C. Randals of Abilene spent last week-end with Mr. and Mrs. Dick Randals.

Mr. and Mrs. R. E. Gray and daughter, Miss Gwendolyn, were visitors in Lubbock Sunday.

Mrs. W. H. Ward of Hermleigh visited in the home of Mr. and Mrs. C. E. Ross one day last week.

Mesdames E. E. Wallace, Landrum and Randolph Patton were visitors in Colorado last Thursday.

Mrs. Kate Cotten and daughter, Miss Thora, visited Mr. and Mrs. G. M. Cosby in Lubbock Sunday.

Mr. and Mrs. Wallace Jones of Fluvanna are the happy parents of a baby boy born Sunday, Jan. 27.

Miss Gwendolyn Chambers spent last week-end with Miss Mary Jane Mitchell in Sweetwater.

Mr. and Mrs. W. B. Lee and Mrs. P. M. Chambers were business visitors in Sweetwater Monday.

Miss Virginia Thompson, who is teaching school in Post, spent last week-end with her sister, Mrs. C. Wedgeworth.

Mrs. Ben Brooks underwent a minor operation at the Emergency Hospital Saturday. She is reported to be doing nicely.

Miss Thelma Leslie, who is attending school at the Tech, spent last week-end with her parents, Dr. and Mrs. A. C. Leslie.

Mrs. E. L. Darby and son, Herman, accompanied Miss Waunita Darby to Amarillo where she will attend a business college.

Herman Darby left Tuesday for Austin where he will enter the University of Texas. Herman will be classified as a junior.

Mr. and Mrs. S. C. Porter visited their daughter, Miss Polly, in Lubbock Sunday. Miss Polly is attending school at the Tech.

Mrs. E. A. Birdwell returned to her home in Abilene last week after a two weeks visit with her daughter, Mrs. Walter Weathers.

Mrs. O. D. Carter spent the first part of the week with her parents, Mr. and Mrs. M. C. Thomas, and other relatives and friends in Sweetwater.

Mrs. J. K. Mitchell and daughter, Miss Gladys, and Mrs. J. H. McClinton and daughter, Miss May, were visitors in Sweetwater Monday.

Mrs. Dixie Smith and Mrs. D. C. Howell left last Thursday for Fort Worth to be with Miss Ruth Smith, who is in a sanitarium at that place.

Mr. and Mrs. Erle Grantham and children and Miss Edith Grantham visited Mr. and Mrs. R. C. Grantham and family in Lubbock Sunday.

Mrs. Charles Stokes and little son returned to their home in El Paso Wednesday after a two weeks visit with her parents, Mr. and Mrs. J. F. Lawlis.

Miss Myrtle Harrell was taken to the Lubbock Sanitarium Sunday and was accompanied by Mr. and Mrs. C. J. Harrell and Garrett Harrell. Miss Myrtle underwent an appendicitis operation Monday morning at 8 o'clock.

Mrs. J. W. Welch, who lives at the Alamo Hotel, got her right hand caught in an electric washer Monday morning. Her hand was badly lacerated.

Charles Noble left Monday night for the St. Louis market to buy goods for the Bryant-Link dry goods store here. He will be gone about ten days.

Mr. and Mrs. J. B. Hunter and son, Jack, and Mr. and Mrs. O. D. Carter went to Lockney Saturday afternoon to visit with relatives. They returned Sunday evening.

Mr. and Mrs. J. R. Randals and little son were called to Lamesa last Wednesday on account of the serious illness of Mr. Randals' father. We are glad to report Mr. Randals much improved.

Mr. and Mrs. W. H. Ritzenthaler returned last Saturday from a two weeks visit with Mr. and Mrs. J. L. Ritzenthaler and other relatives in Salisbury, Mo.

Mr. and Mrs. H. P. McGinty returned Saturday morning from a month's visit in Phoenix, Arizona. They visited their daughter, Mrs. W. W. Hull, Saturday and Sunday and returned to their home in Sweetwater Sunday.

W. M. Speck, pastor of the Church of Christ, went to Abilene last Wednesday and was accompanied home by his wife and two children. They will be at home at D. P. Yoder's apartment house on the East Highway.

Miss Ruth Lawlis, who is teaching school in Anson, spent last week-end with her parents, Rev. and Mrs. J. F. Lawlis. She was accompanied home Sunday by her sister, Miss Mary.

Mr. and Mrs. R. A. May left today for Colorado where they will make their home. Mr. May has purchased the Buick agency there. The Times-Signal wishes them success in their new home.

GRAMMAR SCHOOL HONOR ROLL

Following is a list of the pupils of the primary and intermediate departments of the Snyder Grammar School who made the honor roll for the third six week:

Intermediate

Edna May Dunnam, Margaret Howell, Maxine Huckabee, Geraldine Longbotham, Netha Lynn Rogers, Estine Dorward, LaFrances Hamilton, Frances Northcutt, Virginia Wills, Ruth Hedges, Earl White, H. P. Grant, Jessie Mae Hanson, Johnie Matheson, Jeanette Lollar, Horace Holley Jr., John Blakey Jr., Vera Gay Arnold, Evelyn Erwin, Mittie Idellah Crowder, Nadine Keith, Geneva White, Margaret Miller, Sam Wilborn, Saxton West, William Miller, Odus Weller, Lola Mae Littlepage.

Primary

Marion Howell, Louis Delatte, Billy Hutcheson, James Raney, Max West, Wilma Terry, Bertha Merwin, Donald Darby, Melvin Barron, Mary Jane Carnes, Louise LeMond, Elizabeth Ditto, Edna Hester, Leon Autry, Wallace Smith, Barbara Davis, Dorothy Jones, Doris Wilson, Charles Harless, Jay Rogers, Dorothy Pinkerton, Josephine Kelley, Vivian Chenault, Ernestine Norton, Homer Adams, Ethel Gertrude Ross, Katie Marie Lauder, Elizabeth Alexander, Virginia Egerton, Victor Baze, John Henry Boren, Marie Oliver, Florentz Winston, Juanita Sentell, Geneva Allen, Billy Hamilton, T. J. Kite, Gladys Crowder, Jewell Gentry, Llays Moreland, Ruy Nell Shaw, Lorene Denny, Lorene Rollins, Balumn Grant, Robert Pitner, Glenwood Trigg, Jay R. Huckabee, Billy Perry, Geneva Glasscock, Josse Lee Huey, Dwain Kite, Melvin Newton, Dorothy Fay Best, Doris Worley.

Those deserving "special mention for having earned the highest average among the pupils of their respective classes are:

Estine Dorward, Netha Lynn Rogers, Virginia Wills, Jessie Mae Hanson, Horace Holley Jr., Evelyn Erwin, Donald Darby, Mary Jane Carnes, Wallace Smith, Doris Wilson, Charles Harless, Dorothy Pinkerton, Homer Adams, Ethel Gertrude Ross, Victor Baze, Florentz Winston, T. J. Kite, Jewell Gentry, Lorene Rollins, Glenwood Trigg, Rosanna Reynolds, Marion Howell, Wilma Terry, Melvin Newton, Dorothy Fay Best.

LIONS ATTEND ABILENE PARTY

President C. Wedgeworth of the Snyder Lions Club, Watt Scott and Homer F. Springfield made up the Snyder party who acted as official good will ambassadors at the Lions Club celebration to International President Ben Ruffin at Abilene Friday night. President Wedgeworth told what Snyder was doing, while Homer Springfield broke the party up with two pianologue numbers that greatly assisted in keeping Snyder before the many Snyder customers who had gone to Abilene to pay their respects.

BOY, 10, SIX FEET TEN INCHES TALL, WEARS NO. 25 SHOE

A pair of size 25 shoes has just been made for a 10-year-old schoolboy at a Racine shoe manufacturing shop.

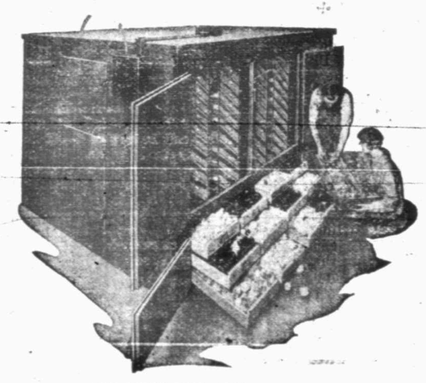

The boy is Robert Waidlow, an elementary school student of Alton, Miss. The boy is 6 feet 10 inches tall and weighs 250 lbs.

Five square feet of leather was used to manufacture the pair of shoes.

Physicians say if the boy continues to grow he will be 9 feet tall when he reaches maturity.

As long as we're ready to sign for $10,000 homes on $2500 incomes there's no need to worry about the decay of American optimism.

Frau Augusta Gurvosch of Hamburg, who died at the age of 87, had outlived eight husbands.

READY TO GO

We Are Hatching Every Monday

Eggs from the best flocks in Scurry County, and have for sale the best hatched incubator chicks you can buy.

Reds, Rocks, Minorcas, Wyandottes $13.00 per 100.
White and Brown Leghorns, Anconas, $11.00 per 100.
Heavy mix for table, $10.00 per 100.

We have booked several orders already and would like to book your order now for later date to assure filling it when wanted, for you can't beat our prices, and our White Leghorns have never been beaten at the shows.

We do custom hatching, 3 cents per egg.

Come to see us.

THANKS.

GOODYEAR Announces the Appointment of

The Highway Garage

MASTER SERVICE STATION

TRUCKS AND PASSENGER TIRES

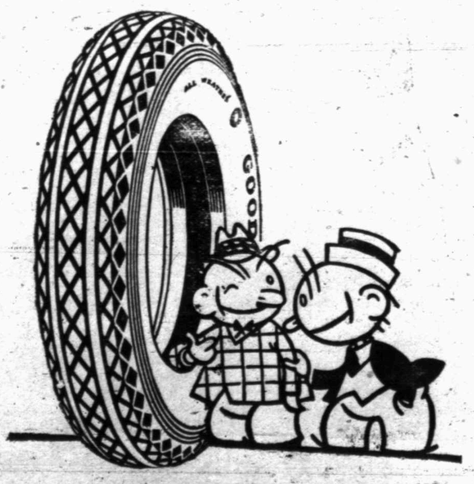

The Goodyear Tire and Rubber Company's appointment of the Highway Garage as a Master Service Station in Snyder places a new and more efficient tire sales system within reach of everyone.

The Highway Garage has earned a reputation for close attention to the special needs of every customer.

Drive-In Service Service has also become a part of the new system. An appropriate rest-room has been installed for the ladies to enjoy while their tires are being repaired. Every facility has been added to give Snyder car owners the finest, most efficient consideration possible.

This leadership in service, combined with the sale of world-famous Goodyear Tires, has been accomplished with only one objective . . . MORE SATISFIED CUSTOMERS.

AT YOUR SERVICE!

The Highway Garage

J. R. HICKS, Prop. Snyder, Texas

Hoarding Money

Individual safety and community growth depend upon the banking of money.

In the case of the individual, hoarding money about the person or premises endangers every waking and sleeping hour through fear of loss by fire or burglary.

To the community, hoarding money and keeping it from circulation in the banks retards the growth of the community, and thereby lessens the usefulness of the bank in its service to depositors.

Your own personal safety and your duty to your community demands that you put your money in the bank. We solicit your account here.

Capital, Surplus, and Undivided Profits, $150,000.00

THE SNYDER NATIONAL BANK

The Oldest Bank in Scurry County—Nearly a Quarter Century Complete Banking Service.

Pyron Puts Over Worthy Project

The vocational agriculture class of the Pyron Rural High School put over a project last week that is worthy of commendation and a little publicity, although they did not do it for publicity. The class studied out a plan to finance and build a nice lot of stables, saddle and harness rooms, etc. on their school ground to take care of the numerous horses that are brought to the school by children who ride. This stable or barn is 100 feet long and 14 feet wide, having 20 stables or stalls and the room for riding and driving equipment in the center. This work was fostered and put over solely by the class in industrial education with the assistance of their able instructor, M. M. Vick, their superintendent, T. J. Bryant, and a few of the interested parents who saw fit to drop in and see the work and to lend a helping hand where they could.

Now it may seem to some that such work as this has no place in the school, but, according to Pat Bullock, county superintendent, "I take the position that this is real education. Education does not consist solely in what is to be had from the printed pages of the textbooks. This is all well and good, but in order to give a child a real well rounded education, other things must be added to the textbooks, and the industrial training is by far the most important of all the subjects offered in any rural school. This class, and all other similar classes in the county where the industrial work is being offered, are learning first hand how to do things they will be required to come up against all their lives. They are learning to build, to terrace, to do finishing work, to mend tools, to do cabinet work and many, many other things too numerous to mention, and along with this work the girls' work goes hand in hand. The girls are learning to sew, to cook, to be real home makers and home builders. People of the rural communities, I ask you, what can be of more value to our boys and girls than this practical education offered in the schools giving this work?"

Other things done by the class and the good people of Pyron are as follows: painting the interior of the class rooms, white washing the curb around the campus, and many other things.

Other schools in the county offering industrial training to the children are Ira, Hermleigh, Bison and Canyon. It is to be hoped that many others will join the ranks next year.

W. T. C. C. HEAD MAKES REGION TOUR

During the past week Prseident A. M. Bourland of the West Texas Chamber of Commerce, accompanied by E. H. Whitehead, publicity manager, has made a tour of West Texas towns in behalf of the Small and Woodward Bills now pending in the State Legislature.

Mr. Bourland declares the Small bill, which has to do with land title validation, is one of the most important pieces of legislation to confront the people of Texas for the last half century. Many Texans who for forty years have thought themselves secure in the titles to their land have recently discovered that when the old time maps and surveys are checked by modern instruments that errors are found which make vacant strips in the middle of many of the best farms and ranches in the state. Because of recent oil development in West Texas this land has been very alluring to land grabbers.

Under the old laws a navigable stream is any creek that is 30 feet wide, even if it is dry all year through. The beds of these streams revert back to the state if the land becomes valuable, as in case of oil discovery.

The Small Bill seeks to validate titles held by the present owners, or to give the adjacent property owners prior right to purchase the "vacant" land.

The Woodward Bill would give the use of water in Texas streams for domestic and irrigation uses to municipalities prior to power companies for hydro-electric power and other uses. The fight against power companies using the water in Texas when it was needed for drinking and other domestic purposes has engaged the West Texas chamber for over a year. Of several bills in the legislature now, the Woodward Bill gives the most protection, according to Mr. Bourland.

THIS is to call to your attention that Mrs. Sam Hamlett is in market this week purchasing the new spring stock of ladies' ready-to-wear, millinery and piece goods.

These latest of spring styles, fashions and colors will be arriving within the next few days, so do not make your purchases until you have seen this line, which will be up to the high Caton-Dodson standard.

Caton-Dodson

Dunn, Loraine and other points nearby Sunday, why not you? It is wonderful to be in the house of the Lord and sweetly worship the Lord in song, in prayer, and in service. Then let's fill the house Sunday! Thanks.

PRESBYTERIANS TO FINISH THEIR CHURCH

Preparations have been made for the building of the First Presbyterian Church, with Contractors A. J. Olson fo Cisco and J. A. Farmer of Dallas already on the job, with bricklaying to start next Monday.

Through the untiring efforts of Pastor E. C. Lambert and the enthusiastic cooperation of the membership this is good news to the many friends of the congregation here. The estimated cost of the new edifice will be around $14,000 and may be increased.

The congregation is hoping to dedicate this new church home some time in May. When completed it will be one of the most modern in West Texas, consisting of an auditorium, ten Sunday school rooms, banquet room, kitchen, session room, minister's study and rest room.

The Times-Signal surely joins in congratulating pastor and congregation.

HERE IS WHAT HAPPENS WHEN ADVERTISING STOPS

A generation ago "St. Jacob's Oil" was one of the most widely advertised products in America. It was a patent medicinue enjoying enormous sales. When Charles Vogeler, the head of this business, died, an "expert" went over the balance sheets and saw the enormous advertising appropriation.

This "expert" trimmed the advertising expenditure to little or nothing, reasonnig that St. Jacob's Oil was so well known that it was unnecessary to spend money any longer to advertise it. Orders dwindled as advertising contracts run out; business departed, never to return, and it is safe to speculate that hardly one in fifty who ever reads this article remembers or ever heard of St. Jacob's Oil, one of the best knwon products on the continent 35 years ago.

A similar thing happened to James Pyle's "Pearline"—a company which used a $500,000 advertising fund as far back as 1904 and was one of the best known products in the entire world. The ad fund was "lopped off;" the business went dead. It tried unsuccessfully to make a come-back in 1914, and its plant sold for junk to a large soap manufacturer.

Killing off the ad appropriation wrecked both of these prosperous businesses, and it would do the same thing to almost any great advertising concern today.—St. Louis (Mo.) Times.

CHURCH OF CHRIST

Attendance was fine Sunday, with 157 present at Bible study. A happy band of five Christian worshipers, with a zeal that will move things for the Lord.

Sunday morning Mr. Speck spoke on the subject of Appointments, showing we must meet God in Christ for forgiveness; Christ in prayer for devotion; meet Him at the cross for sacrifice; meet Him on Lord's Day for communion; meet Him in study for development; meet Him in Obedience for favor; that we may meet Him in the clouds for reward.

Come next Sunday. We will look for you. We will make you feel welcome. We had some from

WHAT'S DOING IN WEST TEXAS

One of the major projects of the Rock Springs vocational agriculture class is the construction of kid shelter boxes for ranchmen. This is done with no expense to the ranchmen provided the supply the desired amount of material.

The building of the new modern two-story brick Masonic hall at Ralls is under way, the corner stone having been laid recently. The building is to cost $20,000, the upper story to be used exclusively for lodge activities and to include lodge rooms, banquet rooms, kitchenette and modern conveniences.

Guy Powell is the new Wise County Agent according to the Decatur News. He has had practical and college experience in every department of farm and rural life, having graduated from A. & M. He was manager of the first cow testing association organized in Texas.

A swimming pool to cost approximately $20,000 is one of the objectives of the Kerrville Chamber of Commerce. Visiting engineers assure the city of a supply of water that will be as pure as drinking water. This will be the initial step in the building of a large recreation center.

The work of remodeling and enlarging the showroom for the Morgan Chevrolet Company at Olney has just about been completed, and the new arrangement will more than double the floor space. A hundred foot frontage completely enclosed in plate glass is one of the features of the building.

Work is to start on road pavnig in Fabens, according to County Judge E. B. McClinton and County Engineer Erde Wilson. The paving will extend from below Fabens Compress through town and to the Hansen road on the Island.

Because there were no destructive fires last year, Moran was granted a 3 per cent reduction in fire insurance key rate the first of the year. Moran also has a fire marshal and an active fire department.

Years, Then Took Suffered For 15 Sargon, He Says

New Treatment Did Him More Good Than Trip to Hot Springs Declares Texas Man

"For fifteen years I suffered from a complication of troubles that I believe started with an inactive liver. I was weak, nervous and generally rundown. I frequently had sharp, shootnig pains in my side. My sleep was poor and I lost weight, strength and energy. Nearly everything I ate caused indigestion. I took a trip to Hot Springs, but got no relief there and then I visited several health resorts in the North seemingly without benefit.

"A friend of mine told me about the fine results he had gotten from Sargon and Sargon Soft Mass Pills, so I bought a bottle. I could see a difference for the better from the first few doses. I began to sleep better and to eat anything I wanted.

"I now feel like a new man. My appetite is fine. The pains in my side have disappeared. I am not the least bit nervous and am full of new energy. I have gained weight and my friends are all commenting upon my wonderful improvement.

"Sargon Soft Mass Pills are wonderful. They ended my constipation and biliousness without griping in the least.

"I wouldn't be without Sargon if it cost twenty dollars a bottle."

The above remarkable statement was made by A. J. Mason, residing at the Colonial Hotel, Ft. Worth, and owner of considerable property in that city.

Sargon may be obtained in Snyder at Warren Brothers.—Adv. 1c

Mrs. J. A. Farmer left yesterday for Dallas where she will visit her daughter, Mrs. R. A. Whitaker, several days.

The Dairy Cow comes to Texas

delivering a constant flow of cash to Texas Farmers

Probably no development is as widely important to Texas today as is that of dairying. The dairy cow brings ready money to the farmer; cash trade to the retailer; increased deposits for banks; greater buying power to all the people; paves the way for various types of industries; establishes agriculture on a permanent basis; encourages the building of good roads; improves school attendance; and, in short, makes for a balanced development of Texas which is beneficial to *all the people.*

TEXANS LET'S TALK TEXAS

A Topic for Conversation

Texas goes outside her borders for approximately $16,000,000 worth of dairy products annually. It will require long sustained development of dairying to supply this ready market

From all over the state word comes from editors, educators, bankers, business men and farmers alike saying that the dairy cow is the salvation of Texas agriculture. Cities endeavoring to build themselves are turning a helping hand to the farmer, realizing that a balanced development is permanent. The Texas Electric Service Company welcomes this change in Texas agriculture and in the attitude of business toward farming.

IN APPRECIATION OF GRANDOLD TEXAS

Editorial in the Denver Post

Do you know that Texas is one of our very best neighbors and friends—this wonderful State to our south with about a thousand miles of sea coast?

Do you know that during the Summer three-fifths of our tourists to Colorado—that's over half—arefrom Texas?

Do you know that Texas is our best customer for our fruits and vegetables, and that carload after carload of celery, apples, potatoes, etc., are shipped into that State from Colorado?

And do you know that for a warm, Winter climate it is unexcelled in the United States, and that Brownsville, Texas is the farthest southern point in the United States with the single exception of Key West, Fla.?

Do you know that the hotels of Texas are unusually good, the rates unusually cheap and the service excellent. And Texas is full of the best fellows in the world. They are big people, a generous people, have plenty of money and love to spend it in a hospitality that is as broad as her domain. And Texas lies a thousand miles north and south, a thousand miles east and west from extreme points?

Do you know that vessels sail almost daily from Houston, Galveston, Brownsville, Por tArthur and Corpus Christi to all points in the world, and that these ports are our nearest seaports?

Now, let's reciprocate and be just as good to Texas as Texas is to us. There are a world of the finest, warmest, Winter resorts on this continent in Texas: Corpus Christi, San Antonio, Port Arthur, Galveston, Houston, Brownsville, Austin, Fort Worth and, Dallas, and all up and down that wondrous citrus and tropical valley of the Rio Grande.

If you are thinking of going to a warmer climate this Winter, run down and pay Texas a visit, don't let them be more generous to us than we are to them.

Texas has everything down there that we haven't up here, and we have everything up here they haven't down there. Texas is nearer us than any other warm Winter resort.

Let's be just as hospitable and generous to them as they are and have been to us for years.

DID YOU EVER STOP TO THINK

By Edson R. Waite
Shawnee, Ok.

W. G. Skelly, president of the Skelly Oil Company, says:

THAT the overwhelming victory of Herbert Hoover and the assurance that he will have a congress behind him means that the United States has another era of great prosperity ahead. This is particularly so of the oil industry.

Our president-elect has a greater knowledge of economic problems than any man who has ever been chosen to head our government. He is, in fact, a specialist in economics. He knows America's commercial problems and the world's commercial problems and their relation to each other. And there is no greater international economic problem than oil.

Mr. Hoover can be counted upon to look out for America's interests in oil. The petroleum producers of the mid-continent fields can go ahead with their work confident that the man in the White House will back their interests to the limit in event of international competition.

All this, coming at a time when the oil situation in the mid-continent fields is naturally on the upturn, assures the industry of good and better times ahead. With the election out of the way, and the people of the nation overwhelmingly behind their new president, we may all go ahead with confidence and put new impetus into our own work.

MRS. THOS. H. LEE'S DIARY

(Nee Lizzie Lee Watkins)

1908 Continued

Friday, May 1, 1908. A lovely day. Miss Daisy Brady's room of children came up and visited my room. My children gave a real interesting program. Mrs. Daugherty (Boon) and Miss Johnnie Shepherd were our "grown up" visitors.

Sunday, May 3. Bro. Reed preached today, a sermon that touched everyone present.

Miss Collins and Mrs. Longly, L. P. Barnes and I attended church at night, but we were frightened so at a storm that we all ran home. Min and Charles, Maude and Ritter, Bridgeman and Hattie, Kemp and Fannie Woody all sought shelter in our house for a while. (Do you kiddies remember that?)

May 4. Mr. and Mrs. Billie Lee and W. E. Clark were converted and joined the church today. Bro. Reed is certainly a wonderful evangelist.

June 6, 1908. Quite a number of people left Snyder for pleasure trips that afternoon. Miss Jackson, Miss Rose, Mr. and Mrs. E. B. Barnes, Miss Grace Foster, Miss "Jack" Dutton, Herman Nickleson, Mr. Predeaux, Mr. Eddleman, Mr. and Mrs. Hobson, Buford Harrison and myself. We took that R. S. & P. train to Roscoe, thence to T. & P. I went to Fort Worth to attend a teachers meeting.

Buckner Allen of Roby and Lizzie Howard of Sweetwater married last week. (Several old timers here know Mr. Allen.)

June 5. Wreck on T. & P. near Strawn.

June 7. Ida Ingle, Miss Mason, Ed Lewis (the young man Ida married later) met us at train. We went to Ed Lewis' home and were entertanied.

June 19. Miss Ida Ingle and Ed Lewis married in Fort Worth at Mr. and Mrs. H. E. Lewis' home.

Jeff Merrill of Hardware Store here is in Fluvanna this week.

Miss Duncan gave a recital tonight. Jim Evans and I attended.

Mrs. Charlsie Spoonmove is with us yet. Her daughter, Willie Belle, is a cute little girl. (By the way, Willie Belle is married to her fourth husband and is living in Dallas. I saw them when I was in Dallas Christmas week.)

June 24. Mr. and Mrs. Walker (Emma White), Mrs. Roland Bell will remember her—came to visit her parents here.

June 25. Jim Chinn came in today from the O. S. Ranch.

June 26. Waldo Watkins of Valliant, Okla., came in to visit his brother and family this week.

June 27. Miss Ethel Brazell, Billie Wilsford, May and Naomi McClinton, Mr. Bane, Tom Logan (the violinist) all met at our hotel. We had good music and singing.

June 29. Carl Wlisbn and W. W. Hamilton began rooming with us.

Harry Nelson died at 1:30 this morning and was buried at 5 this afternoon.

July 7. Mr. and Mrs. Bucklin began boarding with us today. We have forty-two regular boarders now, the "best people" in Snyder.

July 8. G. G. Johnson left for Fort Worth to study pharmacy. (G. G. is now owner of one of the best drug stores in Lubbock.)

July 10. Stafford Day, Cora Wells, Ethel Fickas and I went to the Apostolic Church tonight.

"The Merchant of Venice was played by home talent. Real good. Ida Godly and I attended together, Mr. Barnes escorting.

Mlle. Eloise Challier, daughter of a banker in Marseilles, eloped with the family chauffeur, formerly an army officer.

Sir Leonard Dunning, high police official in London, stated at an inquiry that policewomen were failures because they were "nosey parkers."

ABOUT BUTTER AND AIRPORTS

Last week's Graham Leader editorially told something of interest after its editor had looked over our issue of January 17th.

Editor J. E. Kelly, who surely knows his "onions" when it comes to throwing the king's English, said:

"There is always something bobbing up in Snyder that is an eyeopener to the outside world. The live newspaper that it is, the Scurry County Times-Signal, never loses an opportunity to publish these items, and from this suorce is where we get this information that worthwhile things are popping up almost overnight in that thriving little city. Last week the Times-Signal had strung across the front page a streamer set in about 120 or 200-point letters announcing the purchase of 200-acre tract for an airport. It is to be made an A1A landing field with all the necessary improvements and to cost $50,000. This has been made possible by one of Snyder's boosters who made the purchase. Over in another column on the same page appeared almost equally as important item as the airport, but it bore a single column 24-point head announcing that a lady of that counyt had molded and sold more than a ton of butter during the year from an average of six cows. She received a net balance of $653.73 for her butter or more than a net profit of $100 per cow for the year. An airport is a fine thing, and all live towns are going to have one of some sort, but the item that struck us as for more important than all the airports that could be crowded in the state was that one of the little lady who sold over a ton of butter. A few ladies like that over in Scurry County, or any other man's county, would be worth more than a whole flock of airports."

BASEBALL STARS GATHER FOR LATEST DIX PICTURE

Surrounding himself with some of the greatest stars and ex-stars of the diamond, Richard Dix, the Paramount star, put on the spikes and warmed up his pitching arm for the baseball sequences of his new production, "Warming Up," the picture booked for the Palace Theatre Wednesday and Thursday of next week.

Heading the list of the veterans is Mike Donlin, one of the most colorful figures the game has ever known. Donlin acted in the capacity of baseball technician and, in addition, had a role in the production.

Joe Pirrone, leader in semi-professional ranks, assisted Donlin in lining up the talent.

In addition to the latter, such players as Chet Thomas, Bob Murray, Don Rader, Truck Hannah, Gus Sandberg, Wally Hood, Gale Staley, and many others as seen with Dix in the picture.

"Beans" Reardon, one time Coast league umpire, now with the National league, and Jimmy Toman were selected as act as the umpires for the screen battles.

The games were played daily at Wrigley field, Los Angeles. Fred Newmeyer, formerly with the Wichita club, directed.

Zoesben, Germany, claims the most powerful radio broadcasting station in the world.

Works Hard, Dances, Gains 3 Lbs. a Week

"I work hard, dance and have gained 3 pounds a week since taking Vinol. My nervousness is almost all gone."—Mrs. F. Lang.

Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very first bottle often adds several pounds weight to thin children or adults. Tastes delicious. Warren Bros., Druggists. 5

TEXAS LEADS IN NUMBER OF JERSEYS

By Jack Shelton,
Pres. Texas Jersey Cattle Club

The Jersey cow has played an important part in transforming Texas from a land of longhorn cattle to the leading agricultural state in the Union. The Jersey was brought into Texas from Tennessee and Virginia by some of our pioneer farmers. She proved to be well adapted to Texas conditions and has increased in numbers until today Texas has more Jerseys, both registered and grade, than any other state in the Union. The largest Jersey herd in the world is that of Ed C. Lassiter of Falfurrias, Texas.

The quality of the Texas Jersey will compare favorably with that of the best. Only last year the grand champion cow at the National Dairy Show was a Texas cow from the Taft Ranch Jersey Farms. Texas also won first place in the state herd class.

The surface has only been scratched in Texas, so to speak, in the development of our dairy industry for when we say dairy cow in Texas we refer to the Jersey cow. Because the Jersey is so firmly established in all sections of this state she is going to serve as a medium through which the raw products, consisting of grazing crops, rough feed and grain are converted into a concentrated products to supply the dairy plants. The dairy plants are one of the fast developing lines of industry in Texas, for since the creameries have increased in numbers and capacity, they have brought into Texas the milk products plants and the cheese factory.

Agriculture in its development in this state has reached that place where we are placing it on an efficiency basis. For agriculture to be profitable we must have a high acre yield because the production cost per acre is practically the same whether the yield be high or low. The most practical way to secure this high yield and the only way to maintain it is through the practice of crop rotation. To practice crop rotation we must grow feed stuffs such as corn, grain sorghums and legumes and in turn market these feeds through livestock and return the manure to the soil. In other words, livestock must form the basis of any permanent agriculture.

John Macauley of Dublin willed his $85,000 estate to his daughter, who disappeared many years ago.

After serving on the force for 20 years, Policeman Henry Carter of Cardiff was sent to prison for stealing chickens.

BASKETBALL DOPE

The Snyder Tigers (that in name only) played the Big Spring Steers on their floor Friday night and were walloped 20 to 6, but local basketball fans will chirp and laugh gleefully at the score when it is known that three speed boys of the local quintet were not in Big Spring, namely, Bryan Moore, G. L. Huestis and Sykes Curry. The Big Spring correspondent in the Sunday daily press expressed the joy over their victory over the "muchly touted Snyder Tiger team," and sister, just wait until the Steers appear on a local floor and the tra-shooters start working.

Saturday Nnght

The Snyder Tigerettes are rounding to their true form nobly and defeated Dunn High 28 to 0, with May Jo Glen and Bessie Burk doing their best work thus far this year. The pair will make most remarkable forwards before the season gets more than half under way and may be the means of Snyder having a good shot at the West Texas tournament that will be held here. Guards Walton and Jones are coming fine, and it was only through their fine guarding efforts that Dunn was unable to score. Centers Glen, Doak, Dooley and Lewis are looking better in every game.

The high light of the evening's entertainment was the decisive victory of the Tigers over the Post Antelopes who came here with blood in their eyes. At no single period in the evening's proceedings did the Post team lead our boys, and it was a battle from start to finish—depend on Post and Snyder when it comes to that. Forwards Buddy Martin and G. L. Huestis were all over the floor, with Bryan Moore a most imposing center who covered every foot of his ground. Guards Curry and Head were on top of their men at every turn, and it surely appealed to the house full of company with the score resulting, Snyder 17, Post 11.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Church Service

There were services at the Christian Church last Sunday morning, and at the First Baptist Church Saturday night, Sunday morning and evening; but, as V. P. was not in attendance he cannot give a detailed report on them. Suffice it to say, however, that all these services were interesting and profitable.

At the morning service at the Presbyterian Church the pastor spoke on "The Crime Wave" — its causes and its remedies. After reading several appropriate passages of Scripture he stated that no informed person will question the fact that a dreadful crime wave is on. The recent robberies here at Fluvanna are cases in point, and the more recent round-up of more than 4,000 suspects in the city of Chicago is further and more conclusive evidence. The pastor insisted that, while many circumstances combine to produce a general cause, there is one cause greater and much more far-reaching than any of the rest, and that is the woeful lack of proper home training of our young people from babyhood up. It is not so much the fault of our young people; it is the fault of many parents and others who have to do with the care and training of the young. Ample facts were produced to prove this proposition. Finally, the pastor insisted that the only logical and effective remedy for the dreadful condition now existing is careful and persistent home training, aided by the Sunday schools and public schools. "As a man thinketh in his heart, so is he." The ideals of our young people must be wisely shaped during the formative period of life by those responsible for this work or he will evidently suffer more dreadful consequences a few years later than are now upon us. "Train up a child in the way he should go, and when he is old, he will not depart from it." Prov. 22:6. Compare Eph. 6:4.

Next Saturday there will be quarterly conference and preaching services held at the Methodist Church, beginning at ten o'clock and this followed by an afternoon service. Also services will be had at the same church next Sunday.

About twenty-two Leaguers, together with several League members from Union, went to Gail last Sunday afternoon where they put on an interesting program.

The Methodist Women's Missionary Society entertained their husbands in a delightful manner at the parsonage Monday night. The men are reporting a fine time, but V. P. is wondering how the women are going to get even.

Sickness

There is some sickness in the community, but nothing like a scourge as seems to be the case in some quarters. Mrs. Green (widow), now residing on the D. A. Jones farm, is said to be quite ill. Mrs. Jim Mears has been sick for several days and not yet able to be up. B. F. Dargitz has been right sick for some time.

Wallace and Mrs. Jones are the proud parents of a fine ten-pound son, born last Saturday night in the Emergency Hospital at Snyder. Wallace just wouldn't be just like the other brothers, so his is a son. Mother and child are doing fine.

Visits

Mrs. Jim Green, formerly of this community but now of Plainview, N. M., is here visiting relatives. She came with J. E. Jones, who recently made a trip to the Green home.

Bill Dane was visiting relatives and friends here the first of the week.

Mrs. Garley Dargitz and children of New Mexico came in Sunday to visit her father-in-law, B. F., who is ill. Jim Mears made a flying trip to Roscoe Sunday to meet and bring these people out.

J. A. Martin and family of the Polar community visited the Christopher family here Sunday.

J. I. Boren and family visited relatives in Lamesa last Sunday.

Edd Deere, A. J. Deere and wife, also E. B. Deere, formerly of thsi place but now of Lampasas and Lometa, were in Fluvanna the latter part of last week visiting relatives and shaking hands with old friends. Mrs. Jewel Daniels and baby (relatives of the above) have just returned from a three weeks visit in Lampassas and Lometa. Buster Deere spent the week-end with his mother, Mrs. Friffis, in Abilene.

Club Meetings

The Demonstration Club met last week in special session with Mrs. Ola Stavely. Seventeen women were present; also Miss Davis, county demonstration agent, was present and gave an interesting talk on the selection of suitable eggs for setting purposes. A demonstration was also given on the making of sandwiches for school children. The meeting closed with a social function at which time refreshments were served. The next meeting will be held in the home of Mrs. Thomas Matlock at 2:30 p. m. on Wednesday, February 6, at which time Miss Davis will give a demonstration on the preparation of one-dish meals.

Strange Things

Judge Holley does not blame Jim Jones for looking so ugly, but he does think that Jim should stay at home until he gets his new teeth. Now, Judge, the very idea of a man staying at home with his wife so long a time! Preposterous!

JAS. H. TATE.

School News

On last Wednesday morning at our regular chapel hour Rev. Tate delivered a very inspiring talk to the student body on the subject of "Truth". It was a very helpful and interesting talk, and we are always glad to have Brother Tate with us.

The Dramatic Club staged "An Old Fashioned Mother" last Friday to an overflowing house. It is needless to say that the play was a huge success. It proved such a howling success that the "angry mob" demands it again, so the same show will be staged again next Saturday night, Feb. 2. Be there early if you want a good seat. We will have that merry group of Snyder High musicians with us again under the direction of Homer F. Springfield. It is necessary to have this group of merrymakers to balance up the sobs and snobs that come to you in the play.

The club will carry this play to the Dunn High School Friday of next week, Feb. 8.

Our boys' and girls' basketball teams will combat the Hermleigh "Red Birds" Friday, so let us carry a good bunch of rooters to help our bunch win at Hermleigh.

School Reporter.

POLAR NEWS

The general health of our people is good.

We are very sorry to report the death of little Virgie Lovelady, baby girl of Mr. and Mrs. Scott Lovelady. The baby apparently had croup Saturday, but she began to grow worse Sunday and was taken to Snyder late Sunday evening, but it was too late to save her. Funeral services were held in the Odom Funeral Home Monday afternoon by Rev. W. H. Harris. A host of friends were at the funeral to sympathize with the beloved parents and brothers and sisters. Friends of Polar give their heartfelt sympathy to these good people in this hour of sorrow.

There has been no Sunday school for the past few Sundays on account of bad weather. Mr. Elkins informs us that there will be Sunday school next Sunday; also preaching by Bro. Williamson.

The Clairemont school will give a western play at Polar Tuesday night.

Kent County Sheriff R. I. Goodall was a Polar visitor last week.

J. T. Simms and wife were business visitors at Fluvanna last week.

Roy Elkins was a guest of his parents, Mr and Mrs. G. M. Elkins, Monday.

A family by the name of Cantrell from Arkansas moved to our community last week.

Mrs. B. A. Moore has started teaching music at the church building. She has four pupils at present.

W. S. Cumbie has purchased a new four door Essex sedan.

Scott Stanfield and wife and J. T. Sims and wife were Snyder shoppers Tuesday.

F. A. M.

DERMOTT NEWS

A cold wave swept over our community Friday morning, the temperature dropping to 11 degrees, the coldest we have had this year.

Pervie Dowdy is running a filling station next door west of Jim Dowdy's new restaurant on the north side of Main Street.

Herman West and Mrs. Bertha West and little son, Mrs. Mary Ruth West and little daughter of Plainview, were here Friday shaking hands with old friends and visiting relatives.

S. H. Lebow and daughter, Miss Ruby, spent Saturday visiting with friends in Happy.

Newton Frisbie and family visited with friends in Slaton Thursday.

Mr. and Mrs. Freeman are leaving the first of the week to visit relatives in Arkansas.

Mary Hulsey and children spent Sunday with Mrs. Chowns.

Mr. and Mrs. Bill Cooper of near Fluvanna spent last Saturday night with her sister, Mrs. Claud Wilson.

Mr. Lock and family took dinner Sunday with Mr. and Mrs. Newton Frisbie.

Mrs. S. H. Lebow and children spent Saturday and Sunday visiting friends in Lubbock.

M. J. H.

PLAN THAT ALWAYS WORKS

Financially speaking, there are two classes of farmers, those in debt and those out of debt. The man out of debt has a chance to get a head; the man in debt has a chance to pay up.

Being out of debt does not make a man a successful farmer, but the man who opterates on a cash basis and owes no one cannot be called a failure. He may live closely and simply, but at least he lives contentedly.

The manner in which farmers get out of debt and stay out of debt has often been told. The process involves no secret. They first of all raise the food that is put on the table three times a day. Feed for all the stock is raised as a matter of course.

But the raising of the food and feed is not quite all needed to keep on a cash basis, although most borrowed money is used to purchase those things. The cash income from a few cows, a flock of hens, a truck crop or two and perhaps a litter of pigs keeps the cash coming in that meets the farm and family bills.

Such a simple plan enables a man and wife to use the money from the main crops and livestock to get ahead and stay ahead. It is the way that renters become home owners. It is the way to satisfaction and comfort on the farm.

Eats Sauerkraut Now, Feels Years Younger

"Now I eat even sauerkraut and sausage and feel fine. Adlerika ended stomach gas and I feel 10 years younger."—Mrs. M. Davis.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Warren Bros., Druggists. 6

COMMUNITY PROJECTS

A CLUB HOUSE ON A SHOE STRING

The subject of a club house for Snyder is being discussed in various clubs in the city and county. Here is how such a project was put across in Arkansas:

Using as a keynote the one word, "Together," stressing the fact that women collectively can put across any undertaking, and that "Coming together is a beginning, keeping together is progress, and working together is success," Mrs. Frank H. Dodge, president of the Women's Federation of Clubs of Little Rock, Ark., launched her idea of a club house in November, 1927.

An opportunity immediately presented itself to purchase the home of a man's organization, a handsome four-story brick and cut-stone building at 4th and Scott Streets for the sum of $65,000.

After due consideration, the initial payment of $500 was made, this sum being derived from sponsoring the Gannaway Budget Guide. It was then necessary to raise $25,000 within four months to complete the purchase. This was accomplished by the Woman's City Club, as a holding company issuing three thousand shares of non-assessable stock at $25 per share. These shares were sold to finance the purchasing and remodeling of the building, and were placed within reach of all, some of them being sold on the instalment plan of one dollar down and one dollar per month.

The two insurance policies, the furnishings, draperies, siler, etc., were financed by tea room activities. The club women of the city donated their time and efforts daily, serving luncheans to different organizations and social affairs.

Today the Woman's City Club, Inc., of Little Rock, is one of the outstanding projects of accomplishments of the year in Arkansas history. It is an educational, civic and financial success, and is representative of the efficiency, continuity and stability of this organization. Aside from being an excellent business investment, it is a step forward toward what is being accomplished in club homes for women in every section of the country.

A membership in this club house carries with it at the exceedingly low cost of five dollars a year, all the privileges of a well rounded clubhouse, benefiting the women of the state, and solving the problem of a working center; also offering a permanent meeting place for the thirty-two clubs, constituting the City Federation of Women's Clubs, and verifying motto: "Our Best for Our City."

Mrs. Dunn Campbell,
1422 Scott Street,
Little Rock, Ark.

Mitchell Ranks of London characterized the institute of brewing as holy and sacred because it was finding the "best way to use God's malt, hops and water."

Within the Reach

of every woman—health and strength. They're brought to you by Doctor Pierce's Favorite Prescription, which is sold by druggists. It will build up, strengthen and invigorate the "run-down," nervous, or delicate woman.

One who has used it remarked:—"I think Dr. Pierce's Favorite Prescription is the best tonic a weak woman can take. I had a long spell of sickness, was in a very nervous state, got so weak that I could scarcely be on my feet. I took Dr. Pierce's Favorite Prescription and it relieved me of all nervousness and restored me to health. I never took a medicine that did so much for me."—Mrs. P. C. Cromwell, 1415 N. Calhoun St., Fort Worth, Texas.

Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y.

STOP AND THINK

By Edson R. Waite
Shawnee, Ok.

THAT a city-booster radiates optimism.

THAT the real booster makes each step a forward, constructive one.

THAT the passimist feels that the trend of his city is backward.

THAT the booster never feels that way. He is too full of the progressive spirit and knows that where there is a will there is a way; he has found the way and that way is forward.

THAT the people radiating the spirit of optimism and progressiveness are what build towns into cities and keep the wheels of industry moving at a rapid rate.

THAT nearly everyone can combine business with pleasure.

THAT it is both business and pleasure to take an active part in the upbuilding and betterment of the home city.

THAT to follow the leaders in city-building is a good policy.

THAT most cities lead because they have leaders and the people as a whole stand behind their leaders.

Some cities fail to go ahead, not because they do not have good leaders, but on account of the indifference to their city's welfare by the majority of the citizens.

"Your Honor, please give me a little time to square myself," pleaded G. V. Robertson of Chicago, arrested for beating his wife. "All right," said the court, "30 days—in jail."

Frog leg hunters in America earn about $50,000 a year. It's a pity they can't capitalize on the kind of legs that are plentiful and most easily found!

Palace Theatre

PROGRAM For WEEK

Friday, Feb. 1st
Sir Harry Lauder in
"HUNTINGTOWER"
with Vera Voronina. Laugh with Lauder and laugh louder. You'll laugh for days. Comedy, "Wives Don't Weaken."

Sat., Feb. 2nd
Tom Tyler and Frankie Darro in
"TRAIL OF THE HORSE THIEVES"
Thrills you'll never forget as this dare-devil horseman battles lone-handed the outlaw band for life and for love. Comedy, "Smith's Holiday."

Monday and Tuesday, Feb. 4th and 5th
Victor Hugo's immortal classic,
"THE MAN WHO LAUGHS"
with Conrad Veidt, Mary Philbin and a huge cast. Acclaimed greater than "The Phantom" or "The Hunchback of Notre Dame." Comedy, "Two Tars," Paramount News.

Wed. and Thurs. Feb. 6th and 7th
Richard Dix in
"WARMING UP"
Wham! Dix scores again! "Warming Up" is a real big-leaguer with Dix as a rookie pitcher who is followed by a jinx and who finally "strikes it out." Comedy, "Call Again," and Paramount News.

How to Raise Poultry

By Dr. L. D. LeGear, V.S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE VI

AS YOU FEED SO SHALL THEY LAY

Records Show Egg Production Often Doubled or Trbeled by the Addition of One Simple Element to the Feed—Extra Profits from Correct Feeding More than Offset the Slight Additional cost.

From somewhere way back in my third reader days, I recall the story of a miser who tried to feed his horse shaings. It would save the price of hay, he reasoned, and if the change was made gradually the beast would never know the difference. Maybe the horse was fooled, but nature most certainly was not. Long before the diet got to be all shavings the poor old horse gave up the ghost.

As I observe the way a great many people feed their chickens, I am often reminded of that story. I don't mean they are stingy, but their lack of knowledge about expecting the impossible and wonexpecting hte impossible and wonder greatly why they are so consistently disappointed.

The first thing that must be thoroughly understood is that from the hen's point of view egg laying is a secondary matter. She eats first of all to build up and maintain her own body. If, after enough has been eaten for that purpose, she can be persuaded to eat still more of the right kind of food correctly proportioned, she will lay eggs. That's all there is to the theory of scientific poultry feeding.

The next essential fact to be mastered is that different kinds of feeds produce widely different results. Grains furnish, for the most part, substances called carbohydrates which are transformed into fat for the fowl's body and alubumen or egg whites. Other substances, known as proteins, build up the muscles of the bird and furnish yolks for eggs. Proteins are usually fed in the form of meat scraps, milk or tankage. There are some proteins in grains but not enough for the hen's body and eggs too.

For the egg shells and bones of the fowl, minerals are required, calcium carbonate being the principal one. For that purpose, crushed oyster shell or limestone is kept before the fowls at all times.

A certain amount of green food is also required. It helps prevent digestive disorders and contains the two valuable vitamins, A and D, so essential to the proper assimilation of other food. Without vitamin D, for example, the minerals in the feed cannot be made over into bone and egg shell.

Once it is clearly understood that each different kind of feed has its own individual job to do, the very term, "balanced ration," ceases to sound quite so much like a foreign language. It becomes plain that the ration must consist of just so much material containing carbohydrates and a proportionate amount containing proteins.

An example of what I consider a well balanced ration is the one given b elow, which I have used successfully for a number of years. For the sake of those not familiar with this method of feeding, I shall explain that mashes art customarily put in hoppers and kept constnatly before the hens at all times. The grains are preferably fed by hand with the feedings far enough apart so the hens will eat plenty of mash between times. The grains are called scratch feeds, by the way, because they are usually buried in deep litter. That makes the hens have to scratch it out, thus getting much needed exercise.

A BALANCED POULTRY RATION

Scratch Feed

100 lbs. yellow corn.
100 lbs. wheat or heavy oats.

Mash Feed

100 lbs. wheat bran.
100 lbs. middlings.
100 lbs. yellow corn meal.
50 lbs. ground oats.
100 lbs. meat scrops.
5 lbs. common salt.

Plenty of seasonable green stuff should accompany this ration. Grit, charcoa and oyster shell should be kept before the hens at all times. And water! Yes, of course. Eggs are 65 per cent water, and a plentiful supply of fresh, clean water should always be on hand to supply that requirement. It is also essential for the health of the floch.

The feeding of balanced ration will work wonders. There are plenty of examples of flocks that were fed all grain rations with only fair results, but which doubled or even trebled their output as soon as a good mash with the necessary protein element was added. It is not enough, however, just to feed 50-50 mash and scratch feed ration all the time. The successful poultry man will study his flock. He will know whether they are being forced and producing beyond their normal capacity, or whether they are getting too fat and lazy so they are not laying as much as they should. If the former, he will cut down on the mash and feed more grain. If the latter, he will cut down on the grain and increase the mash to make birds consume more protein.

NOTE—I will gladly answer questions about any phase of poultry feeding which mya be addressed to me in care of the Times-Signal, Snyder, Texas.

(Copyright, 1929 by Dr. L. D. LeGear, V. S.)

JOE NUNN SUCCESSFUL IN KEARNY CO., KAN.

The following article entitled "Calves at $100 Each" was taken from the Garden City, (Kan.) News. Joe Nunn was formerly a Scurry County man and worked for several years on the Fuller ranch north of Snyder. The News says:

Fifty head of yearling calves raised on the Joe Nunn ranch near Lakin, in Kearny County, sold last November for $12.50 a cwt.; their average weight was 800 pounds. One of the calves weighed 1,030 pounds when sold; it was just 1 year and three days old.

Mr. Nunn lets his calves run to self feeders out in the pastures from the time they are big enough to eat, and keeps the feeders full of a generous supply of corn chop at all times. In the fall they are given all the black strap molasses they will eat.

Mr. Nunn landed in western Kansas a few years ago flat broke after a reverse in the cattle business in Texas. He worked by the month for two years on a ranch in Kearny County until he could buy a few cows and get credit to buy more. He now owns one of the best ranches in Kearny County and leases another, and ships some of the best calves to market each year that leave wsetern Kansas.

S. M. U. STUDENTS RECOVER $5,000 FROM RADIUM WASTE

Hardly larger than the head of a pin, but valued at $5,000, radium that had been discarded with hospital waste later reduced to ashes in the Fort Worth incinerator, represented a $5,000 loss to a group of doctors of that city until two Southern Methodist University students of physics went to the rescue.

Directing three electriscopes into the heap of residue, J. G. Kearby and Paul Jeffers, chemistry major students, recovered the precious metal within an hour. It was encased in a minute brass capsule and unharmed by the heat. The students were assigned to the task by Dr. J. D. Boon, professor in physics, when an appeal for assistance from a radium expert was sent to the Dallas school.

COUNTY SEAT REMOVAL GETS FAVORABLE REPORT

A West Texas county seat controversy was embodied in a bill given a favorable report last week by the House Committee on Counties. It was by Representative Warwick and permits the removal of a county seat by majority vote from one place to another where neither is in five mile center radius of the county. The bill is made to apply to counties of between 1,100 and 1,400 population according to the 1920 census, and makes it applicable to Lamb County in particular, where an effort is being made to take the county seat from Olton. Littlefield, Sudan and Amherst are possible contenders. The bill may affect some other counties.

DUNN FUNERAL HELD HERE LAST FRIDAY

Funeral services for William P. Dunn, 50, of 1928 Avenue E, Lubbock, who died at 8:30 o'clock Thursday morning in a Lubbock sanitarium, was held at Snyder last Friday afternoon, the body having been sent here Thursday by Bynum Brothers.

Survivors are his widow; three sons, Drew, of Midland, and Russell and Oliver Dunn, of Lubbock; two daughters, Vera Lee and Era Mae Dunn, of Lubbock; one brother, J. A. Dunn, of Snyder, and his mother, Mrs. A. T. Dunn, of this city.

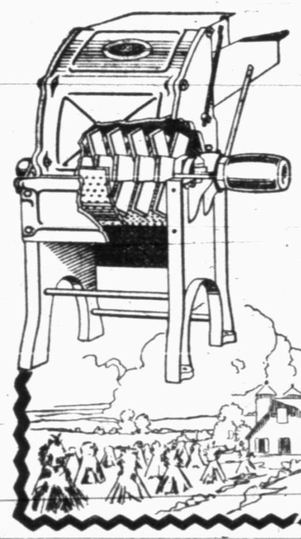

The most profane man in the world will quit cussing long enough to be operated on for appendicitis.

Louis Hoyt of Haverstraw, N. Y., reported to police that chicken thieves raided his hen coop and carried off 56 hens, passing up six young chickens, but left a note which read, "fatten them up and we'll be back later."

Mrs. Joseph Gumbin of Chicago applied at a police station for a dioree five days after her marriage.

Don't Pour Money down the Manger!

W-W HAMMER-TYPE FEED GRINDER

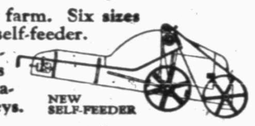

YOU pour good dollars down the manger when you feed unground grains and roughage. For one-third of the value of unground feed lies in the stalks and stems which livestock leaves untouched.

Stop that waste! A W-W Feed Grinder turns alfalfa, snapped or ear corn, oats, maize heads, fodder, bundle feed, etc., into valuable mixed feed that goes a third further. Grinds and mixes everything from the ground up with lightning speed—separately or together.

Thousands of farmers everywhere are cutting production costs with a W-W. Built for tremendous capacity and a lifetime of hard wear, the W-W has become recognized as the world's greatest feed grinder. *Powerful steel hammers do the work!* No burrs, gears or knives to break or give trouble.

A W-W to fit every farm. Six sizes—elevator, blower or self-feeder. All equipped with Timken Tapered Bearings—Alemite-Zerk lubrication—Rockwood pulleys.

NEW SELF-FEEDER

Come in and examine this wonderful grinder. We will gladly give you a W-W demonstration right on your farm.

THE FIRST LAW OF MOTORING— be sure of your OIL

IF motorists could only be thoroughly impressed with the paramount importance of *proper* lubrication, cars would last longer, depreciation would decrease and operating costs would tumble to a fraction of their present staggering figure.

When you allow an unknown, unbranded, "mystery" oil to go into your crankcase you are violating the first law of economical and efficient motoring.

By demanding the tried and tested brands marketed by the Continental Oil Company you are *sure* of your oil. Back of each of these brands stands the experience of almost 50 years—and a reputation which stands for nothing but the best. Ask for these brands at service stations and the better garages.

Conoco Motor Oil insures protection. It seals compression—saves gasoline—fights friction Flows freely at low temperatures. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather. Ask for the grade made especially for your car.

CONTINENTAL OIL COMPANY
Producers, Refiners and Marketers
of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts. Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate *properly* under the most trying conditions of motor operation.

CONOCO MOTOR OIL — Extra life for your car

EXTRA LIFE for your car

CONOCO AMALIE PENNSYLVANIA OIL — CONTINENTAL OIL COMPANY

ANNOUNCEMENT

We Are Pleased to Advise Our Trade That We Have Taken On a Full Line of Farm Implements Manufactured and Marketed Throughout the World by the Massey-Harris Co.

WE WANT YOU TO KNOW—

That the MASSEY-HARRIS Companies combined constitute one of the oldest, largest and Financially Strongest Manufacturers of Farm Machinery in the World.

That MASSEY-HARRIS manufacture over 1,200 types of machines, the simplest being of eight parts and the most elaborate of 9,840 parts; also that 325,000 complete machines are manufactured annually.

That MASSEY-HARRIS Machines are being sold in 53 national markets comprising practically every country on the globe in which modern farm machinery is used.

That to supply the demand for MASSEY-HARRIS Farm Machines, seven factories having a total floor space of 91 acres are engaged in their production, and that it is possible to load 90 cars of MASSEY-HARRIS products at one time.

That a glimpse in the shipping rooms would reveal from time to time names of foreign ports, each a romance in itself, Buenos Aires, London, Paris, Moscow, Berlin, Melbourne, Montevideo, Copenhagen, Auckland, Oslo, Valparaiso, Singapore, Reval, Algiers, Stockholm, Smyrna, Dunedin and Basra—on the way to Bagdad.

That MASSEY-HARRIS accounts are settled in more than fifty currencies and invoiced in as many as forty languages.

That the MASSEY-HARRIS Line has proven to be an asset to Farmers in all parts of the World who are demanding the BEST in Haying and Harvesting Machinery and other Farm Equipment.

(Massey-Harris Co., Former ly J. I. Case Plow Works, Inc.)

After Careful Consideration

We Have Chosen to Handle the

Massey-Harris Co.

Line of Farming Implements, Because:

1. This machinery is best adapted to West Texas Farming.
2. It enables us to furnish you any implement of any type—when you want it.

TUESDAY, FEB. 5th DEMONSTRATION TUESDAY, FEB. 5th

On Tuesday, Feb. 5, we will hold our first Massey-Harris Co. Farm Implement Demonstration of THE PULVERATOR—COMBINE PLOW. This machine will be pulled by a 20-30 Wallace Certified Tractor.

IF YOU WANT TERMS, WE ARE IN POSITION TO GIVE YOU 1 OR 2 YEARS AT LOW INTEREST RATE.

GREETINGS, MR. CROP PRODUCER!

Fo raise a crop you must have a seed bed. For years, to get a seed bed you have been plowing, discing, harrowing; and at best the seed bed was not over two inches deep. Many fields have no seed bed, but only broken ground. Many fields have been plowed the same depth and the top soil is worn out and contaminated with weed soil. You can't divide the soil between Johnson grass and cotton, corn, oats, etc., and get the best crop. Many farmers cut off and burn up all vegetation in the field so they can plow, thereby losing its fertile qualities. Many farmers want to plow deeper but are afraid the supsoil will not grow the crop that year. You are a victim of one or all of the above troubles. With few improvements, the method of plowing today is the same as was used thirty years gao. Radios and aeroplanes were innovations in their lines.

For further information on this celebrated line of farming implements, SEE US!

HUGH TAYLOR & CO

Distributors and Dealers for Massey-Harris Co.
SNYDER, TEXAS

...e High Sixth B Class met ...day morning for the purpose ...rganizing. The following of...s were elected: Miss Elva ...ons, sponsor; John Blakey, ...ident; Royce Eiland, vice ...nt; Evelyn Erwin, secre...; Leslie Kelley, reporter; Bev... Chambers, critic; Joe Dean, ...eant at arms.

...was decided to divide the ... into two groups and elect a ...captain for each side. Cer...things will add points to the side on which the pupils who do these things are on, while other things will take away points. The captains elected were Vera Gay Arnold and Helen Cauble.

The second meeting of the club will be held Wednesday. The program will be given by Vera Gay Arnold, John Blakey, Derwood Burditt, Maurcie Burditt and Alma Caskey.

Each member of the class will answer to roll call with a verse from the Bible.

Reporter.

PLEASANT HILL CLUB

The Pleasant Hill Club met with Miss Davis Friday morning and reorganized the club and elected new officers as follows: Fannie Lea Woody, president; Nora Rhodes, vice president; Alma Bills, secretary; Maude Merritt, reporter; Alma Bills, song and yell leader; Mrs. Charlie Rhodes, local leader.

The club has ten members in all, and several more are expected to join at the next meeting. There are several second and third year club girls on the roll.

The club meets every second and fourth Friday of the month.

BAPTIST WORKERS CONFERENCE TO BE HELD AT WESTBROOK

Following is the program to be carried out February 5 when the Workers Conference of the Mitchell-Scurry Baptist Association will be held with the Westbrook Baptist Church:

10:00 a. m. Devotional, W. C. Ashford.

10:15 Duty of Pastor to the Church, E. K. Daugherty.

10:30 Duty of Pastor to His Mission Points, A. C. Hardin.

10:45 Duty of Pastor to His Associational Work, W. F. Ferguson.

11:00 Sermon, B. G. Richburg, former pastor at Westbrook.

12:00 Dinner.

1:30 W. M. S. Session and Board Meeting.

2:30 Devotional, F. L. Nipp.

2:45 Bible Discussion, G. W. Parks.

3:30 Reports and Resolutions.

Mrs. Frances Tullett of Chicago claims a world's record for her cat, which caught 26 rats in a singie day.

Telephoning Mrs. R. C. Hebburn of Chicago that her husband had been hurt, a burglar robbed her house when she left for the hospital.

ALPHA STUDY MEETS

Mrs. Albert Norred was hostess to the Alpha Study Club members Tuesday afternoon at her home. The members answered roll call by giving some particular statistics on Texas. The following program was given:

Reading, Mrs. Joe Graham.

Review of Outstanding Events on Why Texas was a Republic, Mrs. Charles Noble.

Talk, "What Texas Has Done for Sam Houston and What Sam Houston Did For Texas," Mrs. J. G. Hicks.

Argument, "Did Houston Render Greater Service to Texas than Did Austin?" Mrs. Ixon Joyce and Mrs. Wayne Boren.

Refreshments were served to the following: Mesdames Wayne Boren, Forest Sears, Melvin Blackard, Ivan Dodson, Charles Noble, J. E. Sentell, Wayne Williams, Joe Graham, J. G. Hicks, Howell Harpole, Wraymond Sims, Tom Gates, G. B. Clark Jr., Homer Snider, Ixon Joyce and Misses Hattie Herm, Neoma Strayhorn, and guests, Mrs. W. Norred and daughter, Miss Maggie, and Mrs. H. W. Landrum.

MOTHERS SELF-CULTURE CLUB MEETS

Mrs. George Northcutt proved a very gracious hostess to the members of the Mothers Self-Culture Club Tuesday afternoon. After a short business session in which Mrs. McCarty was elected a new member, the lesson was entered into with Mrs. J. A. Woodfin as leader. The subject was "Noted Women, Including Biblical Characters.

Mrs. B. M. West gave an interesting sketch of the life of Martha Washington, Julia Ward Howe and Mary A. Livermore. Mrs. J. J. Taylor told the life of Sarah. Mrs. H. L. Davis rendered an interesting story of Ruth, and Mrs. W. F. Ferguson presented the life story of Mary, the mother of Jesus. Mrs. C. J. Yoder gave a musical reading, "The Battle Hymn of the Republic," accompanied by Mrs. W. W. Hamilton at the piano.

An appetizing refreshment plate was passed to Mesdames J. A. Woodfin, P. C. Chenault, E. F. Sears, J. J. Taylor, J. W. Ely, L. G. Ely, C. J. Yoder, Richardson, H. L. Davis, W. F. Ferguson, Horace Leath, B. M. West, George Northcutt and McCarty, members, and Mesdames W. W. Hamilton, J. B. Scott, J. E. Sentell and O. S. Williamson, guests.

W. P. GIBSON DIES OF PNEUMONIA

W. P. Gibson, 55, of near Dunn died Monday after a short illness of pneumonia. Funeral services were held Tuesday afternoon at 3 o'clock at the family residence with Rev. W. F. Ferguson, pastor of the First Baptist, officiating. Interment was made at the Snyder cemetery. Deceased is survived by his wife and four sons and one daughter.

David Swanberg, an Oakland, Calif., boy, is very proud of a personal letter received from President-elect Hoover, to whom he had sent a note of congratulation.

Miss Ivy Smith of St. Louis cut off part of Joseph Dugmore's ear because he jilted her.

James C. Darven, a bank official of Glasgow, is very fussy about his false teeth and has different sets for morning, afternoon and evening.

GROWTH OF DAIRY INDUSTRY IN WEST TEXAS COUNTIES IS BROUGHT OUT IN LATE REPORT

A recent publication of the United States Census Bureau shows try since 1920 and including 1925. The growth from 1925 up to try since 1920 and including 1025. The growth from 1925 up to the present time has in many cases doubled the figures of that year.

A comparison of Scurry County with nearby counties will give some idea of the growth which has come to stay and that will ever grow as the months and years come and go:

Counties	Cows		Gals. Milk Produced		Value Products	
	1920	1925	1920	1925	1920	1095
Borden	445	385	99,160	163,707	$ 11,280	$ 15,936
Dawson	1,244	2,107	320,545	790,990	44,113	88,418
Fisher	3,956	5,204	722,844	1,405,118	112,063	129,648
Garza	1,140	1,586	247,863	364,004	37,742	32,735
Howard	1,158	1,799	305,193	547,460	72,256	58,297
Kent	429	685	157.467	204,804	25,495	28,327
Mitchell	2,006	1,236	302,542	830,580	58,130	95,090
Nolan	2,108	3,455	421,806	930,528	72,683	119,592
SCURRY	**2,167**	**3,001**	**540,641**	**959,700**	**73,738**	**89,134**

According to the publication, which was sponsored by R. A. Stangl, professor of Animal Husbandry, Texas Tech, the Plains of Texas showed the most remarkable development of the dairy industry between the years of 1920 and 1925 of any section of the United States. The 1930 report, which will be included with the U. S. Census, indicates an even greater interest with records that will sweep aside any previous period of work.

HIGH SCHOOL ATHLETIC STATEMENT

NOTICE TO BIDDERS

Notice is hereby given that on the second Monday in February, 1929, which is the 11th day of February, 1929, at ten o'clock A. M. on said date at the court house in Gail, Borden County, Texas, the Commissioners Court of said county will receive sealed proposals from banking corporations, associations, or individual bankers desiring to be selected as the depository of the funds of Borden County, Texas. The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for the selection of a depository, interest to be computed upon daily balances. Each bid shall be accompanied by a certified check in the sum of Five Hundred ($500.00) Dollars as a guarantee of the good faith on the part of the bidder, and that, if his bid is accepted he will enter into a good and sufficient bond as required by law, provided however, that in the event the bidder so selected shall fail to give the bond required by law the amount of such certified check shall go to the county as liquidated damages and the County Judge shall thereupon re-advertise for bids.

D. DORWARD,
County Judge,
31-4tc Borden County, Texas.

NOTICE TO BANKERS

Notice is hereby given that on the second Monday in February, 1929, the same being the 11th day of said month, at 10 o'clock A. M. at the court house at Snyder, Texas, the Commissioners Court of Scurry County will receive sealed bids from any bank or individual banker desiring to be selected as depository of the funds of Scurry County, Texas.

The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for selecting a depository, interest to be computed on daily balances.

Each bid shall be accompanied by a certified check for six hundred ($600.00) dollars as a guarantee of good faith on the part of the bidder and that if his bid is accepted he will enter into a good and sufficient bond as required by law, provided however, that in the event the bidder so selected shall fail to give the bond required by law, the amount of such certified check shall go to the County as liquidated damages, and the County Judge shall re-advertise for bids.

HORACE HOLLEY,
County Judge, Scurry County.
32-3tc

STATE OF TEXAS,
COUNTY OF SCURRY.

TO THE CREDITORS OF F. T. WILHELM & SON:

You are hereby notified that F. T. Wilhelm & Son of the County of Scurry and State of Texas, on the 18th day of January, 1929, executed a Deed of Assignment, conveying to the undresigned all property of said firm for the benefit of its creditors, and that the undersigned has accepted said trust and has duly qualified as required by law. All creditors consenting to said assignment must, within four months after this notice, make known to the assignee their consent in writing, and within six months from the time of the first publication of this notice, must file their claims as prescribed by law with the undersigned; who resides at Snyder, Texas, which is also his post office address.

WITNESS MY HAND this, the 18th day of January, 1929.

J. M. HARRIS, Assignee.

DID YOU EVER STOP TO THINK

By Edson R. Waite,
Shawnee, Ok.

H. A. Sprague, publisher of the St. Joseph (Mo.) News-Press, says:

THAT publicity is to a community what gas is to an automobile. It is that indefinable something that pushes ahead and develops growth, that brings people together for the common good, that eliminates crying evils, creates public enterprises and produces 100 per cent fine civic consciousness. It is a modern business topic, which once inculcated into the gray matter of a populace, sooner or later induces every man to respond to the call of improvement, thereby dissipating all dry rot, bringing men into closer and better and more unselfish fellowship. It is then—and not until then—that the highest type of a true, intelligent public spirited citizen becomes an actuality. The mere gathering together of many persons who live in houses does not of necessity constitute a city. We have a city only when men come to have common ideals, when men come to develop a love for the community in which they live and are ever ready to sacrifice time and money and energy to the end that those common purposes and aspirations are realized.

Properly created advertising develops character for a community as well as for an individual. It creates this character whether the investment is made by an individual, a firm, a corporation or by the community itself. Publicity uplifts the moral tone of a city more than all the ordinances and courts and metropolitan police systems combined and its tendency is continually to elevate. It generates desire waves that groove in with the scheme of the city beautiful; it pricks the pride and warms the cockles of the hearts of men, which condition germinates latent civic energy; it tends to curtail adverse criticism on the part of "sour bugs," when the prgoressive element of a population is extending itself to the utmost in an endeavor to create and wish on the people much needed improvements, while the rest of the population, passively interested but apathetically inclined, looks idly on. It is one of the most deserving, hard-working, stimulating known influences in the development and elaboration of a city's resources and prosperity. Its value to a community, therefore, cannot be measured by cold dollars and cents.

Publicity is a harbinger of constantly improving prosperity. And your newspapers—your chief mediums for talking to the world—are undeniably the truest, cheapest, most dependable and most thorough disseminators of dent-producing publicity yet discovered.

SURE

A recruit was at target practice for the first time. He was not hitting the target at all, and the Colonel happening along, watched him for a few minutes, took the rifle from him, fired and made a bullseye.

"There," said the Colonel, "that's the way I shoot."

Rather pleased at his success, he fired again but missed by several feet. He handed the weapon back to the private and calmly remarked, "And that's the way YOU shoot."

Misses Betty Huyler of the Huyler family of chocolate fame, Miss Grace Incals, a stenographer, and Miss Barbara Bright, an actress, all qualified for aviation licenses the same day at Roosevelt Field, New York.

Policeman George Clements of Chicago stopped two men pushing a baby carriage at 3 a. m. and found the perambulator contained stolen sliver worth $3,000.

Police raided a prize fight in Dresden in which the combatants were two nude women, and more than 200 spectators were arrested.

CARD OF THANKS

We wish to express our appreciation for the kindness and sympathy extended by our friends in the loss of our baby.

GUARDIAN'S NOTICE OF APPLICATION FOR MINERAL LEASE

No. 396. Guardianship, Estate of Reuben Popnoe and William Popnoe, minors. In the County Court of Scurry County, Texas.

Notice is hereby given that I, C. W. Popnoe, guardian of the estate of Reuben Popnoe and William Popnoe, minors, have this day filed my application in the County Court of Scurry County, Texas, in said above entitled and numbered cause, for an order of the County Judge of said Scurry County, authorizing me as such guardian of said estate, to make a lease for oil and gas prospecting purposes upon the interest of said wards in and to the North ½ and S. E. ¼ of Section 158 in Block 3 of the H. & G. N. Ry. Co. surveys in Scurry County, Texas, upon such terms, consideration, and conditions as may be ordered and directed by said court;

Said application will be heard on the 7th day of February A. D. 1929, at the court house in the City of Snyder in said Scurry County, Texas.

C. W. POPNOE,
Guardian.

"THE MAN WHO LAUGHS" IS ONE OF THE YEAR'S BEST

Epic Picture Coming to Palace Theatre Among Artistic Screen Triumphs

A dictionary of superlatives would be required to amply describe "The Man Who Laughs," which opens Monday at the Palace Theatre.

This Universal super-jewel will go a long way toward replacing the motion picture in its rightful place as the world's most popular form of entertainment. Universal has never failed to make a great picture from a Victor Hugo story, for example, "The Hunchback of Notre Dame" and "Les Miserables," but "The Man Who Laughs" so far surpasses these productions that it will be ranked at the end of the year as one of the finest and most beautiful artistic triumphs ever screened.

Never has a more beautiful love story been told than that between Dea, the blind maid, and Gwynplaine, the maimed clown whose facial deformity dooms him to a perpetual grin. Mary Philbin, as Dea, has a role of rare ethereal beauty which again proves her to be the most beautiful and the most tragic of all screen stars.

Frau Hedwig Ansitz of Vienna fasted for 36 days and reduced her weight 62 pounds.

When 18-year-old Jane Gillen of Buffalo was arrested for wearing male clothing, she had on three pairs of trousers.

Miss Jane Reichenberg of Melbourne has begun her 61st year as organist of St. Joseph's Church.

Mrs. Irene Coulter of Philadelphia was ordered to pay all costs in her husband's divorce suit.

Cured of paralysis in a Ch... hospital, James Remson ser... institution $70,000.

SALE OR TRADE

Modern six-room home, garage and servants room, large corner lot, West Side.

Large corner lot, east front, West Side, will trade for automobile.

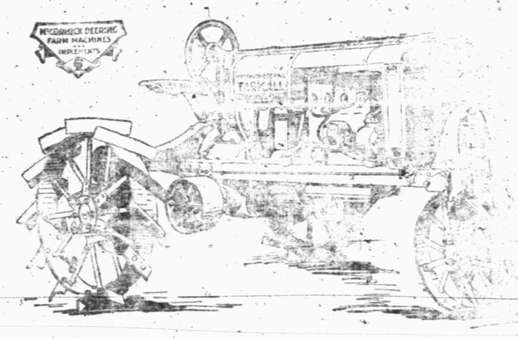

11 acres good sandy land with good six-room home, good well and mill, concrete storm house, a real place for cows and chickens; will sell cheap and take trade; located adjoining city limits on East Side.

80 acres, 45 cultivation, 3-room house, good orchard, 9½ miles southeast of Anson, Jones County, good oil possibilities, not leased, clear of debt; will trade for land near Snyder.

Good corner lot on East Side on Highway, clear, to trade for good car.

WATT SCOTT, Owner

Plow With the Farmall!

THE McCormick-Deering Farmall offers the row-crop farmer a wonderful advantage. With this sturdy, 4-cylinder, 2-plow tractor on the farm you can put all your work behind you quickly with power—from the first tillage job in spring to the last belt job in winter. The Farmall pulls a 2-bottom plow as ably as does any other tractor. It turns short, handles easily, operates economically, and requires very little attention.

As the season progresses you can shift from one important job to another with amazing speed. Tilling, plowing, seeding, planting row crops (with 4-row planter), cultivating row crops (with 2 or 4-row cultivator), mowing, raking, loading hay, harvesting grain, harvesting corn, and doing the hundred and one belt jobs around the farm.

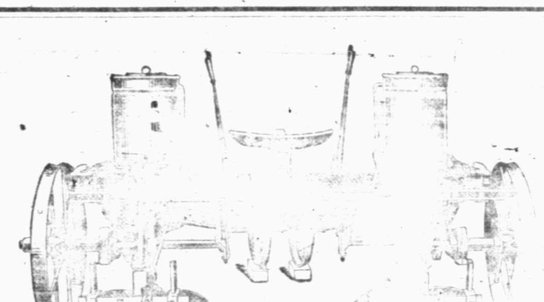

You can't beat the Farmall. It makes the horseless farm practicable and possible. It cuts the corners off expense and puts the profit in your pocket.

We can't TELL you the whole Farmall story here; but we can prove every point in mighty quick time if you'll ask us for a field demonstration.

JUST RECEIVED

A Carload Shipment

..OF..

Farming Implement

THE plowing season of 1929 is here—the early bird gets the worm—just so with the man that does his plowing early. The best way to start the season right is with good implements. John Deere and Avery implements are built for the hard service of West Texas. No better investment can be made than in John Deere and Avery Farm Implements.

We also carry a full line of farm supplies—collars, harness, shoulder pads, hames, single trees and all farm needs. Come in and let us fill your needs.

WE have just received a carload shipment of John Deere Farm Implements, and they are now on display at our warehouse. This car contained all the latest and newest in farming implements: 2-row listers, beam hitch listers, 2-row planters and all other machinery adapted to making farming easier and more successful in Scurry County. REMEMBER, whatever you need, we can supply it. Come in and see these implements.

Good Equipment Makes a Good Farmer Better!

Spring Arrivals!

MR. Charley Noble and Mrs. Lee Newsom left this week for St. Louis where they will purchase the new spring stock of merchandise and ladies' ready-to-wear for the Bryant-Link Store. In the next week or two these new goods will be arriving. Wait for the arrival of this merchandise, for this shipment will contain the same high class merchandise and men's and women's ready-to-wear that has aalways characterized Bryant-Link service. The latest in style, fashion, mode, materials and colors will be included, of course.

NOTICE TO BIDDERS

Notice is hereby given that on the second Monday in February, 1929, which is the 11th day of February, 1929, at ten o'clock A. M. on said date at the court house in Gail, Borden County, Texas, the Commissioners Court of said county will receive sealed proposals from banking corporations, associations, or individual bankers desiring to be selected as the depository of the funds of Borden County, Texas. The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for the selection of a depository, interest to be computed upon daily balances. Each bid shall be accompanied by a certified check in the sum of Five Hundred ($500.00) Dollars as a guarantee of the good faith on the part of the bidder, and that, if his bid is accepted he will enter into a good and sufficient bond as required by law, provided however, that in the event the bidder so selected shall fail to give the bond required by law the amount of such certified check shall go to the county as liquidated damages and the County Judge shall thereupon re-advertise for bids.

D. DORWARD,
County Judge,
31-4tc Borden County, Texas.

NOTICE TO BANKERS

Notice is hereby given that on the second Monday in February, 1929, the same being the 11th day of said month, at 10 o'clock A. M. at the court house at Snyder, Texas, the Commissioners Court of Scurry County will receive sealed bids from any bank or individual banker desiring to be selected as depository of the funds of Scurry County, Texas.

The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for selecting a depository, interest to be computed on daily balances.

Each bid shall be accompanied by a certified check for six hundred ($600.00) dollars as a guarantee of good faith on the part of the bidder and that if his bid is accepted he will enter into a good and sufficient bond as required by law, provided howeved, that in the event the bidder so selected shall fail to give the bond required by law, the amount of such certified check shall go to the County as liquidated damages, and the County Judge shall re-advertise for bids.

HORACE HOLLEY,
County Judge, Scurry County.

"THE MAN WHO LAUGHS" IS ONE OF THE YEAR'S BEST

Epic Picture Coming to Palace Theatre Among Artistic Screen Triumphs

A dictionary of superlatives would be required to amply describe "The Man Who Laughs," which opens Monday at the Palace Theatre.

This Universal super-jewel will go a long way toward replacing the motion picture in its rightful place as the world's most popular form of entertainment. Universal has never failed to make a great picture from a Victor Hugo story, for example, "The Hunchback of Notre Dame" and "Les Miserables," but "The Man Who Laughs" so far surpasses these productions that it will be ranked at the end of the year as one of the finest and most beautiful artistic triumphs ever screened.

Never has a more beautiful love story been told than that between Dea, the blind maid, and Gwynplaine, the maimed clown whose facial deformity dooms him to a perpetual grin. Mary Philbin, as Dea, has a role of rare ethereal beauty which again proves her to be the most beautiful and the most tragic of all screen stars.

Frau Hedwig Ansitz of Vienna fasted for 36 days and reduced her weight 62 pounds.

When 18-year-old Jane Gillen of Buffalo was arrested for wearing male clothing, she had on three pairs of trousers.

Miss Jane Reichenberg of Melbourne has begun her 61st year as organist of St. Joseph's Church.

Mrs. Irene Coulter of Philadelphia was ordered to pay all costs in her husband's divorce suit.

Cured of paralysis in a Ch... hospital, James Remson ser... institution $70,000.

SALE OR TRADE

Modern six-room home, garage and servants room, large corner lot, West Side.

Large corner lot, east front, West Side, will trade for automobile.

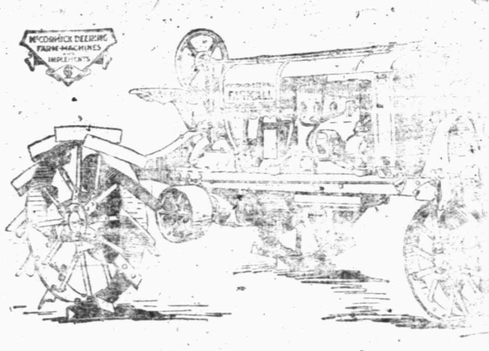

11 acres good sandy land with good six-room home, good well and mill, concrete storm house, a real place for cows and chickens; will sell cheap and take trade; located adjoining city limits on East Side.

80 acres, 45 cultivation, 3-room house, good orchard, 9½ miles southeast of Anson, Jones County, good oil possibilities, not leased, clear of debt; will trade for land near Snyder.

Good corner lot on East Side on Highway, clear, to trade for good car.

WATT SCOTT, Owner

Plow With the Farmall!

THE McCormick-Deering Farmall offers the row-crop farmer a wonderful advantage. With this sturdy, 4-cylinder, 2-plow tractor on the farm you can put all your work behind you quickly with power—from the first tillage job in spring to the last belt job in winter. The Farmall pulls a 2-bottom plow as ably as does any other tractor. It turns short, handles easily, operates economically, and requires very little attention.

As the season progresses you can shift from one important job to another with amazing speed. Tilling, plowing, seeding, planting row crops (with 4-row planter), cultivating row crops (with 2 or 4-row cultivator), mowing, raking, loading hay, harvesting grain, harvesting corn, and doing the hundred and one belt jobs around the farm.

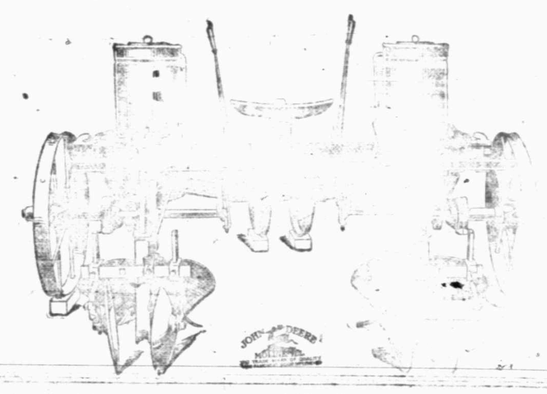

You can't beat the Farmall. It makes the horseless farm practicable and possible. It cuts the corners off expense and puts the profit in your pocket.

We can't TELL you the whole Farmall story here; but we can prove every point in mighty quick time if you'll ask us for a field demonstration.

JUST RECEIVED

A Carload Shipment ..OF.. Farming Implement

THE plowing season of 1929 is here—the early bird gets the worm—just so with the man that does his plowing early. The best way to start the season right is with good implements. John Deere and Avery implements are built for the hard service of West Texas. No better investment can be made than in John Deere and Avery Farm Implements.

We also carry a full line of farm supplies—collars, harness, shoulder pads, hames, single trees and all farm needs. Come in and let us fill your needs.

WE have just received a carload shipment of John Deere Farm Implements, and they are now on display at our warehouse. This car contained all the latest and newest in farming implements: 3-row listers, beam hitch listers, 2-row planters and all other machinery adapted to making farming easier and more successful in Scurry County. REMEMBER, whatever you need, we can supply it. Come in and see these implements.

NOTICE TO BIDDERS

Notice is hereby given that on the second Monday in February, 1929, which is the 11th day of February, 1929, at ten o'clock A. M. on said date at the court house in Gail, Borden County, Texas, the Commissioners Court of said county will receive sealed proposals from banking corporations, associations, or individual bankers desiring to be selected as the depository of the funds of Borden County, Texas. The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for the selection of a depository, interest to be computed upon daily balances. Each bid shall be accompanied by a certified check in the sum of Five Hundred ($500.00) Dollars as a guarantee of the good faith on the part of the bidder, and that, if his bid is accepted he will enter into a good and sufficient bond as required by law, provided however, that in the event the bidder so selected shall fail to give the bond required by law the amount of such certified check shall go to the county as liquidated damages and the County Judge shall thereupon re-advertise for bids.

D. DORWARD,
County Judge,
31-4tc Borden County, Texas.

NOTICE TO BANKERS

Notice is hereby given that on the second Monday in February, 1929, the same being the 11th day of said month, at 10 o'clock A. M. at the court house at Snyder, Texas, the Commissioners Court of Scurry County will receive sealed bids from any bank or individual banker desiring to be selected as depository of the funds of Scurry County, Texas.

The sealed proposals shall state the rate of interest offered on the funds of the county for the term between the date of such bid and the next regular time for selecting a depository, interest to be computed on daily balances.

Each bid shall be accompanied by a certified check for six hundred ($600.00) dollars as a guarantee of good faith on the part of the bidder and that if his bid is accepted he will enter into a good and sufficient bond as required by law, provided howeved, that in the event the bidder so selected shall fail to give the bond required by law, the amount of such certified check shall go to the County as liquidated damages, and the County Judge shall readvertise for bids.

HORACE HOLLEY,
County Judge, Scurry County.
32-3tc

STATE OF TEXAS,
COUNTY OF SCURRY.
TO THE CREDITORS OF F. T. WILHELM & SON:

You are hereby notified that F. T. Wilhelm & Son of the County of Scurry and State of Texas, on the 18th day of January, 1929, executed a Deed of Assignment conveying to the undresigned all property of said firm for the benefit of its creditors, and that the undersigned has accepted said trust and has duly qualified as required by law. All creditors consenting to said assignment must, within four months after this notice, make known to the assignee their consent in writing, and within six months from the time of the first publication of this notice, must file their claims as prescribed by law with the undersigned, who resides at Snyder, Texas, which is also his post office address.

WITNESS MY HAND this, the 18th day of January, 1929.

DID YOU EVER STOP TO THINK

By Edson R. Waite
Shawnee, Ok.

H. A. Sprague, publisher of the St. Joseph (Mo.) News-Press, says:

THAT publicity is to a community what gas is to an automobile. It is that indefinable something that pushes ahead and develops growth, that brings people together for the common good, that eliminates crying evils, creates public enterprises and produces 100 per cent fine civic consciousness. It is a modern business topic, which once inculcated into the gray matter of a populace, sooner or later induces every man to respond to the call of improvement, thereby dissipating all dry rot, bringing men into closer and better and more unselfish fellowship. It is then—and not until then—that the highest type of a true, intelligent public spirited citizen becomes an actuality. The mere gathering together of many persons who live in houses does not of necessity constitute a city. We have a city only when men come to have common ideals, when men come to develop a love for the community in which they live and are ever ready to sacrifice time and money and energy to the end that those common purposes and aspirations are realized.

Properly created advertising develops character for a community as well as for an individual. It creates this character whether the investment is made by an individual, a firm, a corporation or by the community itself. Publicity uplifts the moral tone of a city more than all the ordinances and courts and metropolitan police systems combined and its tendency is continually to elevate. It generates desire waves that groove in with the scheme of the city beautiful; it pricks the pride and warms the cockles of the hearts of men, which condition germinates latent civic energy; it tends to curtail adverse criticism on the part of "sour bugs," when the prgoressive element of a population is extending itself to the utmost in an endeavor to create and wish on the people much needed improvements, while the rest of the population, passively interested but apathetically inclined, looks idly on. It is one of the most deserving, hard-working, stimulating known influences in the development and elaboration of a city's resources and prosperity. Its value to a community, therefore, cannot be measured by cold dollars and cents.

Publicity is a harbinger of constantly improving prosperity. And your newspapers—your chief mediums for talking to the world—are undeniably the truest, cheapest, most dependable and most thorough disseminators of dent-producing publicity yet discovered.

SURE

A recruit was at target practice for the first time. He was not hitting the target at all, and the Colonel happening along, watched him for a few minutes, took the rifle from him, fired and made a bullseye.

"There," said the Colonel, "that's the way I shoot."

Rather pleased at his success, he fired again but missed by several feet. He handed the weapon back to the private and calmly remarked, "And that's the way YOU shoot."

Misses Betty Huyler of the Huyler family of chocolate fame, Miss Grace Incals, a stenographer, and Miss Barbara Bright, an actress, all qualified for aviation licenses the same day at Roosevelt Field, New York.

Policeman George Clements of Chicago stopped two men pushing a baby carriage at 3 a. m. and found the perambulator contained stolen sliver worth $3,000.

Police raided a prize fight in Dresden in which the combatants were two nude women, and more than 200 spectators were arrested.

CARD OF THANKS

We wish to express our appreciation for the kindness and sympathy extended by our friends in the loss of our baby.

Mr. and Mrs. Frank Eoff
and Children. 33-1c

CARD OF THANKS

We wish to thank our many friends for their kindness and sympathy during the illness and death of our darling baby and sister, Virgie. May God's blessings be with each of you in your time of sorrows. We also wish to express our appreciation and thanks for the beautiful floral offering.
