Vol. XI, No. 5.

COLORADO, MITCHELL COUNTY, TEXAS, FRIDAY, OCTOBER 29, 1915

Whipkey Printing Company.

## LET'S HAVE A FAIR NEXT FALL.

The Record hopes that the exhibit of the Clubs of Agriculture and Animal Husbandry held on the court house lawn last Tuesday, may be the beginning of an annual exhibit of like nature, that will soon develop into the dignity and scope of a county fair. And why not? No county of West Texas is the peer of Mitchell in agricultural and livestock products; no county of like population has more or better improved farm homes, and certainly, no county has more progressive farmers and ambitious boys and girls. Given these fundamentals, it would require but a little enthusiasm and local pride to start the good work along.

Colorado at one time had a very attractive fair ground laid out and the proposition backed by a regularly chartered association, which promoted several quite successful meetings, and that in years too, far less prosperous than the current ones at a time when the population of the contributing territory was vastly sparser than now. To this desirable end, the Record, strictly within its prophetic functions, hereby appoints every male citizen of Mitchell county, with our efficient and ever diligent County Demonstrator, W. A. Dulin, chairman, a committee of the whole, to stir up the gift that is severally in us, and conduct a whirlwind campaign of education along the lines that lead to a big and successful agricultural fair for Mitchell county next fall.

## TWO MORE FOR CONGRESS.

Hon. John M. Wagstaff and Judge Thos. L. Blanton, both of Abilene, have announced for congress, subject to the usual Democratic conditions. In his announcement in the Abilene Reporter, Judge Wagstaff says he will "inject some live issues into the campaign," while Judge Blanton promises that "his platform will contain many demands that will advance the interests of the common people." Judge Blanton also said: "I have never quit running since. I announced two years ago. I am in the race and expect to make the most energetic campaign of my life, speaking in every county in the district, and am already receiving much encouragement."

## FOR INDIGESTION.

Never take pepsin and preparations containing pepsin or other digestive ferments for indigestion, as the more you take the more you will have to take. What is needed is a tonic like Chamberlain's Tablets that will enable the stomach to perform its functions naturally. Obtainable everywhere.

Saloon licenses, which formerly sold as high as \$2,500, in Chicago, are offered cheap by the owners now on account of the enforcement of the Sunday closing law. One saloonkeeper offers the use of his license free.

Get your base burners, I have plenty of anthracite coal.—Porter.

## BAD ACCIDENT BARELY AVERTED.

Nearly two years ago the Record called attention to the unprotected condition of the big dump on the hill one mile west of town on the West-brook road, and predicted that a serious accident would occur there sooner or later. In short the Record has an "I-Told-You-So" package to hand the powers that be.

One disabled automobile was being dragged into town by another, when the procession met a wagon driven by a Mexican and containing his family on the steepest grade on the big dump. The team naturally scared and backed off the high hump, spilling the occupants of the wagon and shocking a woman into insensibility.

This is enough of the story to point the moral and press home upon our honorable county commissioners the urgent necessity of building a parapet wall on the north side of this steep grade. It has always been a mystery to every one who has passed up or down that hill, why the rock taken from it was not used for building a protecting wall instead of being hauled more than two hundred yards and dumped into the valley. But it is not too late to save life or limb nor the county a heavy damage suit, by building a stout protecting wall on the north side of the fill. It is evidently somebody's business and sworn duty to conserve the safety of the tax payers of the county.

## DON'T DUMP THE MARKET.

A good many farmers of thrifty proclivities in Texas and Louisiana, are producing a surplus of hay of various kinds upon which they naturally desire to realize early in the season. It has been observed, however, that the price is usually much higher in the winter, along toward spring, and sales much easier to make at the price. This would seem to indicate that the advice as to holding cotton to relieve the strain of the fall rush to sell, would apply equally well to the hay situation.

And the same may be said of stock peas. These are in demand mainly for seed, and naturally the planters hold off buying till nearly planting time. Hence it would seem to be good business for the growers, or the merchants who purchase from the growers, to not crowd the market unduly till it is ready for the stuff.

R. R. CLARIDGE, Agricultural Agent, T. & P. Ry. Co., Fort Worth, Texas.

## PLOT TO RUIN MUNITION SHIPS.

New York, Oct. 25.—Paul Daeche was arrested today in connection with an alleged German plot. Lieutenant Robert Fay and Walter Sholtz were arrested yesterday. The police say this morning Lieutenant Fay had confessed that he was a German lieutenant and had intended to attach a machine to the propellers of munition ships to explode and disable them.

## CLUB MEETING GREAT SUCCESS.

Creditable Exhibit by Mitchell County Agricultural and Animal Husbandry Club.

The first annual exhibit by the Mitchell County Agricultural and Animal Husbandry Club in this city last Tuesday, was a success in every feature. There were present about 60 boys aside from quite a number of ladies and visitors. The exhibits were displayed about the band stand and attracted general attention. The animal and poultry exhibits were exceptionally good, and should prove the inspiration to greater effort and pride in these lines.

Mr. Ed T. Cox, of the U. S. Department did all the judging and the following prizes were distributed. After the final judging the children were given a ride over the city and tickets to the picture shows:

Baby Beef Club—First prize, Jack Perry, Cuthbert, Texas, \$10.00; second, Earl Powell, Colorado, \$5.00.

Pig Club—First prize in the Poland-China, Ray Womack, Cuthbert, a registered Poland-China pig. In the Duroc contest, first prize, Paul Rogers, Colorado, Route 4, a registered Duroc pig. First prize on cross-bred pigs, Beecher Aihart, Car, Texas, a thoroughbred Duroc pig.

## TYPHOON IN LUZON KILLS 170.

Manila, Oct. 27.—A typhoon in southern Luzon has killed 170 and injured 800 persons. The damage to the hemp and rice crops is \$1,000,000. A heavy landslide during the storm destroyed part of the volcano of Mayon.

## GOVERNOR AGREES TO MEET FUNSTON FOR A PLAN TO END RAIDING.

Intimated That Power Approaching Martial Law Will be Given U. S. Troops On The Border.

San Antonio, Oct. 26.—While Governor Ferguson would not tell the committee of citizens from the lower Rio Grande what action he would take to give them better protection from Mexican bandit raids, he gave them to understand he would act quickly.

Tonight it is learned he has arranged for a conference with General Funston, commanding the Southern department, here tomorrow. It is also learned that a proposition to give the army more power in the Rio Grande country without actually declaring martial law met with favor of the governor and he arranged a meeting with General Funston, who announces that he is ready to do everything possible to bring permanent peace to this section of the state and will send additional troops to the border if necessary.

General Funston stated tonight that additional infantry troops will be sent to Arizona from Texas to further protect the border from Villa attacks. The 4,000 troops on the Arizona border are not considered sufficient to insure neutrality should Villa's forces attack Mexican border towns. The Brownsville committee will wait here pending the conference between General Funston and the governor and may not have to go to Washington.

## HELD UP KATY TRAIN.

Enfola, Okla., Oct. 27.—Three posies today are beating the forests and marshes of the Canadian river bottoms near Onapa and one working their way toward the winding-stair mountain, searching for the seven robbers, who this morning held up southbound Katy passenger train No. 9.

They failed in their attempts to open three express safes and did not molest the passengers.

The hold-up occurred a few miles north of here, the same place where the same train was robbed three weeks ago.

Two of the bandits, it is believed, boarded the train at Muskogee. Later they crawled into the cab. When the engineer attempted to stop they ordered him to keep the train running and did not slow down until they reached a camp-fire near the track where the other bandits were waiting.

They held the train two hours working on the safes, then wished the trainmen "good night" and left.

## No Money Secured.

St. Louis, Mo., Oct. 27.—The American Express Company officials here say today that no money whatever was in the robbed Katy train safe and that the robbers took a package of claim vouchers and railroad tickets.

Dallas, Oct. 27.—Katy officials here say that four sacks of cheap jewelry resembling money bags were the principal loot of the robbers.

## CARRANZA TO BUY OFF GEN. VILLA FOR \$250,000.

El Paso, Oct. 26.—Carranza will try to buy off General Villa and his revolution, it was learned from persons in the chief executive's confidence.

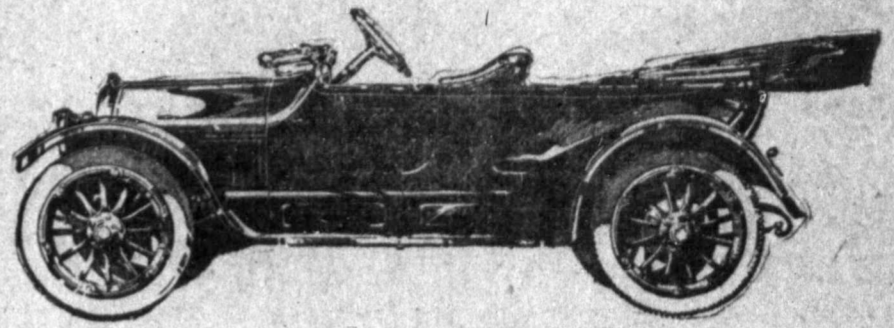

Recognized by the great powers, Carranza was said to feel that the end was worthy of any means to restore complete peace in Mexico.

A quarter of a million dollars will be offered to Villa to leave Mexico immediately. Special State Department Agent George C. Carrothers was understood to be taking the offer to Villa. In addition, Carranza will assure his principal opponent complete amnesty later and permit him to return to reside in Mexico with every guarantee of security. A position in the Mexican army may even be offered Villa at some future time.

## 34 TO BE SHOT BY GERMANS AT LIEGE.

Wholesale Death Sentences For Prisoners Accused of Espionage.

Amsterdam, Oct. 26.—According to the Tyd, thirty-four additional death sentences against persons who were charged with espionage and treason have been pronounced by court-martial at Liege. The newspaper adds that Pope Benedict, the King of Spain and President Wilson have been appealed to by telegraph to intervene in behalf of the condemned persons.

## AUSTRO-GERMAN

LOSSES 5,000,000 MEN.

London, Oct. 26.—The Rotterdam New Current today published a statement that the total losses of Austria and Germany so far in the war are 5,000,000 men.

The total Prussian losses are given at 2,021,078.

The German losses from October 11 to 20 were 54,242 in dead, wounded and missing.

## MIGHT TALK PEACE.

London, Oct. 26.—A report reached here today that Prince von Buelow, former German chancellor, will shortly submit to President Wilson and King Alfonso of Spain, an outline of conditions on which Germany might be disposed to discuss terms of peace.

The report comes from a Reuter's Madrid dispatch and from no other source today.

It gives an Italian nobleman, a brother-in-law of von Buelow, as authority for the story.

## RALLYING TO SUPPORT

OF DEFENSE PROBLEM.

Washington, Oct. 25.—Mobilization of the full strength of Administration forces in support of the national defense program apparently was assured today when Representative Hay of Virginia, chairman of the House Military Affairs Committee, after a conference with President Wilson announced himself in favor of the army increase plans.

Senator Chamberlain, chairman of the Senate Military Committee, already has approved the proposal to build up a regular and continental army of more than 1,000,000 men in six years. Formal publication of the plans in detail will follow Senator Chamberlain's conference with the President next week. The navy \$500,000,000 five-year building program already has been approved by both House and Senate leaders.

Less than 500 bales of cotton have been ginned at Wichita Falls this season. A year ago some of the gins were running night and day whereas now they run only one day a week. It is estimated that not more than 1,000 bales have been ginned in the county, and it is probable that the entire crop will total not more than 1,000 bales.

**THE ART OF WRITING.**

The London Times, in commenting on a letter from a Russian soldier to an English friend, in which he says that he is but little educated, and so can not express himself as he ought to, remarks: "And yet this letter is faultless in its natural and graceful simplicity." It then adds: "The great mass of bad writing is produced by people who have nothing to say, and therefore can use neither the language they ordinarily speak nor the language of men of thought. What they do use is an imitation of the latter, because they wish to convince themselves and others that they are expressing emotion or thought, when they are not. This imitation, unfortunately, is very catching, and is often caught by people who have something quite simple to say, and who therefore become unable to say it. Writing when it is artless is very easy; when it is art it is very difficult; but when it is neither it is impossible."

The art of writing, in our judgment, consists in having something to say, and saying it as simply and directly as possible. Writing is simply recorded conversation, real or imaginary; or earnest argument, or the expression of sincere conviction, or a record of something we have seen, heard or felt.

If you expect to move others to action you must fully and sincerely believe what you say. Long ago Horace, in his Ars Poetica (the art of writing poetry,) said: "If you wish us to weep, you must yourself weep." In other words, you must feel what you say. You must be genuine. You must not try to imitate any other person or try to express an emotion or conviction you do not feel.

The country is full of young people who would like to make some money by writing for the papers or magazines; and they try to imitate the arid, over-wrought, flatterer's stuff with which the so-called "popular" magazine is so often filled. Don't do it. What makes the talk of children so interesting and charming? Their simplicity and guilelessness. What makes the private letter interesting? Because they are written naturally, and not intended for publication. For the same reason, the letters that many farmers write us, which they forbid us to publish, are most interesting.

The first principle of good writing is to have something to say, and to feel it strongly enough to want to say it without regard to pay. You must know what you are talking about. If you are talking about life on the farm, you must know that life and be in sympathy with it. If you are telling of the peculiarities of your fellow-beings, you must really like folks, and have a saving sense of humor, the genuine humor that grows out of sympathy with your fellowman.—Wallace's Farmer.

**A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE.**

If Cross, Feverish, Sick, Bilious, Give Fruit Laxative at Once.

Every mother realizes after giving her children "California" Syrup of Figs, that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

**"MEN LEARNED IN THE LAW."**

(Kansas City Star.)

Courts should be usable by the people without paying fees to lawyers.

The new Lawyer's Law for Missouri is fundamentally wrong in that it puts more lawyer's fees between justice and the people.

Probably only "men learned in the law" ought to draw wills, deeds, etc. Only "men learned in the law" should give legal advice and counsel. Only "men learned in the law" should assist judges and juries in court trials.

But "men learned in the law" do not need to be privately paid lawyers or advocates. They should not be so confined.

As to wills, for example: Every

will has to be approved by the probate court. Why should not the probate judge's duty include writing a will without charge—except such nominal fee as the one for probating and recording the will?

Why should not somebody in the recorder's office, "learned in the law," draw deeds or mortgages and take acknowledgments?

The idea of safeguarding the legality of legal documents is right. The idea of putting that function in the exclusive hands of private practitioners for money is wrong.

Justice and what pertains to justice should be free except for such small and regulated fees as would run the necessary public departments well but economically.

If that right rule of free justice prevailed there would be no class of able men interested in making legal terms non-understandable and, legal forms complex. There would be none interested in technical rules of the game for the suppression of facts and the perversion of justice. Instead, everybody would be served best by simply language in legal documents and by common sense rules for getting at truth and for keeping justice on straight.

**PROSPERITY NO GHOST, BUT A COLD REALITY.**

Facts as to American Business Revival Attested in Review of Week.

New York, Oct. 24.—With bank clearings the largest in the history of the country; the superabundance of cash at most leading reserve centers almost a source of embarrassment; not the slightest disturbance in interest rates as a result of the initial payments connected with the Anglo-French loan; railway earnings increasing; United States Steel's rise to its best price in five years and a general condition in the entire steel industry more promising than at any time since 1909-10, not to mention a general improvement in the stock market, there probably is to be found no better indication of the prosperity now embracing American business.

The week in the stock market was one of general improvement, albeit gains were largely limited to war specialties. Speculation in these issues was renewed almost on the scale of recent weeks and the freedom with which these securities were absorbed, or steady advances to new high records implied undiminished belief in the intrinsic value of some of those properties.

United States Steel's rise to its best price in five years was predicted mainly on favorable expectations regarding the corporation's quarterly financial statement to be published Tuesday. Independent steel companies report activity up to full capacity and further upward price revisions are probable. Taking the steel industry as a whole, conditions are more promising than at any time since 1909-10.

General lines of business are going forward, according to reliable data, and the crop movement soon to begin will give tremendous impetus to railroad tonnage. Railway earnings are increasing. Europe continued to liquidate stocks and bonds and to that fact as much as any other was attributed the semi-demoralized state of international exchange, demand sterling showing a decline of about 15c for the week. It is not improbable also that further private interests have reached large totals in recent weeks. Domestic demand for investment stocks was relatively light, but the average price of high-grade railroads was near the year's high level.

The most remarkable feature of the domestic monetary situation was the fact that initial payments connected with the Anglo-French loan made not the slightest disturbance in rates. Bank clearings are the largest in the history of the country and the superabundance of cash at most leading reserve centers is almost a source of embarrassment.

**RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.**

"Last winter I used a bottle of Chamberlain's Cough Remedy for a bad bronchial cough. I felt its beneficial effect immediately and before I had finished the bottle I was cured. I never tire of recommending this remedy to my friends," writes Mrs. William Bright, Ft. Wayne, Ind. Obtainable everywhere.

**PREPARE TO FIGHT THE BOLL WEEVIL.**

"Unless by the work of man or the intervention of unexpected natural causes and favorable weather conditions something is done to destroy boll weevils now in the cotton fields of Texas, this pest will destroy a million or more bales of cotton in this State next year, says W. F. Proctor, State Agent in charge of demonstration work in Texas.

"There are more weevils in Texas at this time than at any time since they made their appearance in this State," continued Mr. Proctor, "and they are scattered over a large area. The damage to this year's crop was large, but it is a trifle in comparison with the loss they will cause Texas farmers next year unless something is done to prevent it.

"The heavy growth put on by the cotton plant after the rains that accompanied the gulf storm has furnished the weevils an ample food supply to carry them into winter quarters and unless farmers destroy them early they will have an immense army to fight next spring and summer."

Mr. Proctor urges all farmers to give attention to the weevil menace as soon as they finish picking cotton. Where the size of the stalks and the number of cattle permit the stalks may be pastured, but this plan is not advised unless the farmer has enough cattle to clean up all the stalks.

Another plan recommended by Mr. Proctor is to cut the stalks green and plow them under. If that cannot be done he advises that the stalks be cut and burned.

If the latter plan is followed he suggests that every 11th and 12th row be left standing. The weevils will desert the dead stalks and crowd into the two rows left standing. When the cut stalks are dry enough to burn rake into windrows alongside the standing stalks and burn. The fire will lay over and destroy the trapped weevils.

Laredo, Texas, Oct. 23.—Permission for 5,000 Carrancista troops to journey through American territory from here to Douglass, Arizona, where they will re-enter Mexico, has been granted by the United States Government, according to reliable reports here tonight. No troops have moved yet.

**SPECIAL ANNOUNCEMENT.**

It is our desire that everyone within a radius of 200 miles of San Angelo know that we are going to have the biggest Fair in the history of West Texas, beginning November 2nd, and closing November 6th.

We have appropriated \$10,000.00 for premiums and the entertainment of our visitors and we have arranged with all the railroads for especially low rates—tickets sold on the 1st and 2nd will be at 75 per cent of the one-way fare for round trip. As this is to be Everybody's Fair, we have endeavored to furnish entertainment which will please everyone attending.

We have appropriated \$1,000.00 for special music—Ezell's Selected 20-piece Concert Band, with Miss Annie Lee Andrews soloist from Dallas, Prof. Alvin B. Risch, cello soloist, of Dallas, Prof. Guy Mack tenor soloist, of San Angelo, Prof. Westbrook, the world's famous whistler, of Chicago, assisting in the musical program.

For those who like thrills—we have provided sensational aeroplane flights and the demonstration of the use of the aerial war bomb. We have also been fortunate enough to secure the S. W. Brundage Carnival Company, traveling in their own train of 15 cars. This company will assure you of excellent entertainment during the evenings.

Goat Roping and Broncho Busting Contests, Bicycle Races and Children's Sports and Athletics, social events for the young ladies and gentlemen, football and basket ball games, will be some of the features of the program at the grounds.

The agriculture and live stock exhibits will be second to none and every department has had the supervision of an expert in their particular line, and every display will be worth your while. There will be a special parade each day, including Auto Parade, Old Timers' Parade, Grand Burlesque Suffragette Parade and Style Show, Children's Parade and something doing all the time to entertain our visitors.

We have made all this preparation for your entertainment and comfort, and you "Sure Want To Be There."

R. J. IRVINE, Chm. Advertising Committee.

The passenger traffic on the T. & P. road has never been as heavy as during the Dallas Fair. Trains have to run in sections east of Abilene, while in returning from Dallas, the passenger scrap like people in a panic for seats. This is another evidence of the unusual prosperity of West Texas. People without money don't ride 250 miles on the Pullman cushions to mill around all day on the fair grounds.

**WEST TEXAS LAND IN BRISK DEMAND.**

Austin, Texas, Oct. 23.—Texas lands, especially in the Western part of the State, are in great demand according to statements from the general land office here. On September 1st, the State placed on the market 1,000,000 acres of State land for which bidding has been quite active. Many of the applicants are from Northern and Northwestern States. Purchasers are given forty years in which to pay for this land at a five per cent interest rate. The maximum amount that may be purchased by one person is 640 acres.

Mindful of the fact that "mony a mickle makes a muckle," Postmaster John Person saw no need to throw aside the twine with which the letters are tied that come to this office from the railway service and using it in tying up the packages of letters going from his office. By the practice of this small economy he has saved the government the expense of about 400 pounds of twine, heretofore requisitioned by this office. On the occasion of a recent visit of the inspector to this office, he noted Mr. Person's consideration of departmental expense and mentioned it in his report to headquarters. Consequently, Mr. Person received a highly commendatory letter from the Third Assistant Postmaster, recommending a like frugality in all postoffice employees.

**NATURE WARNS AGAINST USING CALOMEL.**

The sickening, nauseating feeling that follows the use of calomel is the natural result of disarranging your entire system. Doctors everywhere are agreeing that the action of calomel is much too strong, and leaves the body sick and weakened.

LIV-VER-LAX is a wonderful substitute for calomel, that has all of its good effects and none of its bad ones. It acts soothingly but thoroughly on the liver, cleansing it of bile, and ridding the entire system of stagnating poisons.

LIV-VER-LAX is strictly a harmless vegetable compound, and is guaranteed to give satisfaction or your money will be returned. Insist on the original, bearing the likeness and signature of L. K. Grigsby. For sale at 50c and \$1.00 at W. L. Doss Drug Store.

**OPPORTUNITY.**

Texas, with its area of 265,000 square miles, and 167,865,000 acres of tillable soil, of which only 27,000,000 acres are yet in cultivation, is the greatest agricultural country under the sun, which is justly proved by the fact that immigration is flowing into the State at the rate of 75,000 annually.

The population and wealth of Texas are increasing so rapidly and condensed figures are too large to grasp, and only by a close study of Federal and State detailed statistics can one be acquainted with the great wealth, undeveloped resources and wonderful opportunities of this Empire.

Accurate and honest information and detailed statistics will be promptly given to all inquiries addressed to

**TEN THOUSAND DOLLARS IF ROOSEVELT WILL FIGHT.**

New York, Oct. 22.—Theodore Roosevelt has a small fortune awaiting him if he joins the English colors. George Gess, a real estate dealer, living at 1640 De Kalb Avenue, Brooklyn, will hand over a certified check for \$10,000 if T. R. will shoulder his musket and start for France. He made the offer last night and told a reporter that other German-Americans living in Brooklyn would double the sum.

"I voted for Roosevelt three times," he said. "When he ran for governor of New York I supported him, and I even went so far as to leave the Republican party in his behalf. But he talks entirely too much for me. I want to see him back up some of his remarks. I want to see him start out like a real fighting man, and if he does I have \$10,000 I shall hand him."

"Roosevelt denounces Germany, and even insults our President, our Secretary of War and our whole Administration. What we citizens should do is to let Wilson alone."

Mr. Gess said that the men willing to offer the money were representative business men. He stipulated that Roosevelt should not get the money until he was actually on the firing line.

COTTON \$100 PER BALE; SEED \$60 PER TON.

New Orleans Newspaper Man Quotes Congressman Hefflin of Alabama.

From Washington, Paul Wooten, correspondent of the Times-Picayune of New Orleans, writes to that paper: Predicting cotton at \$100 a bale and cotton seed at \$60 a ton, Representative Thomas Hefflin, of Alabama, issued an optimistic statement today regarding the outlook for disposing of the South's cotton crop.

There is nothing "bearish" about the views of Mr. Hefflin, who says the cotton holding movement will soon become general in the South. Discussing the probable size of the crop and the demand for the staple abroad, the Alabama congressman, who is a member of the house committee on agriculture, says:

"We have exported more than 9,000,000 bales of cotton since August of last year, and the cotton spindles of the United States have consumed 6,000,000 bales. The cotton crop of 1915 will not be more than 10,000,000 bales. I do not now believe that it will reach 10,000,000 bales. Our cotton mills will consume more than 6,000,000 bales of this crop, and if war continues American powder mills will consume more than 2,000,000 bales. That will leave not more than 2,000,000 bales to be exported—2,000,000 bales short of the amount exported up to September 30, 1915. So cotton for spinning purposes, smokeless powder and other explosives will be in greater demand than ever. Cotton prices are bound to be higher, higher than at any time since the war between the States. The European countries are now paying 35 cents for dry batteries that used to sell for 17 cents. They are now paying \$1.75 a pound for picric acid, used in making explosives. It used to sell for 35 cents a pound.

"And they are going to pay 20 cents a pound for cotton and they will pay that before very long. Germany is already in the Southern market, buying and storing cotton for future use. We will require more than 500,000 bales of cotton and lint for the manufacture of powder and high explosives shells for our army and navy. The cotton holding movement will become general in the South before long, and then prices will soar. I shall not be surprised to see cotton seed selling at \$60 a ton before Christmas. Cotton seed meal is selling as high as \$36 a ton, and some are asking \$40.

"Cottonseed oil has advanced in price, and is in great demand. Cottonseed hulls are being used more extensively than ever, and the linters cut from the seed are being consumed more rapidly than ever before. When bleached linters sell for 10 cents a pound, I am expecting to see \$100 and more for a bale of cotton and \$60 or \$65 for a ton of seed."

A STITCH IN TIME.

Colorado People Should Not Neglect Their Kidneys.

No kidney ailment is unimportant. Don't overlook the slightest backache or urinary irregularity. Nature may be warning you of approaching dropsy, gravel or Bright's disease. Kidney disease is seldom fatal if treated in time, but neglect may pave the way. Don't neglect a lame or aching back another day. Don't ignore dizzy spells, irregular or discolored urine, headaches, weariness or depression. If you feel you need kidney help begin using the reliable, time-tried remedy, Doan's Kidney Pills. For 50 years, Doan's have been found effective. Endorsed by grateful people.

B. F. Davis, Snyder, Texas, says: "I used several boxes of Doan's Kidney Pills and they did me a world of good. Several years ago I had pains across the small of my back and in my sides. As Doan's Kidney Pills were recommended, I got a supply and used them as directed. Two boxes were all I needed for a cure. I recommend Doan's Kidney Pills to anyone suffering from weak kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Davis had. Foster-Milburn Co., Props., Buffalo, N. Y.

Time was when lotteries did an immense business in this country. The effect thereof was so demoralizing to public morals that the government felt constrained to suppress all such concerns. People who believed in lotteries and patronized them denounced the interference of the government in unmeasured terms. But that had no effect on the government. It took no stock in the contention that "the people" should have whatever they may think they ought to have. A good many persons stand in need of guardianship.

WONDERFUL, WONDERFUL INDEED.

Notwithstanding the fact that for many years Thomas A. Edison, the great inventor, worked hard to perfect the telephone, he had never until October 21st last, Edison Day, carried on a conversation by telephone, says the report of the event received here by Manager Higginbotham of the Southwestern Telegraph & Telephone company.

At that time, as part of the celebration of the thirty-sixth birthday of the electric light, an address of congratulation by Miller Reese Hutchinson, chief engineer of the Edison company, reproduced from the disc of a phonograph at Orange, New Jersey, was transmitted, part way by wire and part way by wireless telephone, to Mr. Edison, guest of honor at the San Francisco fair. Results were perfect. The American Wizard heard words that had been spoken into a "talking machine," brought to life again and projected through the ether across 3,400 miles of intervening space. Mr. Edison used the transcontinental wire lines of the Bell telephone system for his reply.

"Wonderful, wonderful!" exclaimed Mr. Edison over the telephone wires. Shortly thereafter he gave out the following remarkable statement, as quoted in the report received here by Manager Higginbotham.

"It may seem strange to those who know of my work on the telephone carbon transmitter, that this is the first time I have ever carried on a conversation over the telephone. To talk across a line 3,400 miles on my first attempt at a telephone conversation seems to be pretty big undertaking, but the engineers of the Bell system have made it easier to talk that distance than it used to be to talk thirty-four miles. In my research work I have spent a great many years listening to the phonograph, but it gives me a singular sensation to be in California and hear the phonograph over a telephone all the way from Orange, New Jersey.

GIRLS! HAVE WAVY THICK, GLOSSY HAIR FREE FROM DANDRUFF.

Save Your Hair! Double its Beauty In a Few Moments—Try This.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flamb, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; use a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

In a single year the government saved "the people" (that is the gullible ones) \$118,000,000 by its vigilant and energetic interference with the various types of sharpers who make their living by swindling operations of endless variety. It is now saving thousands upon thousands of persons who become addicted to the use of opiates from going pell-mell to absolute destruction. Government is doing its utmost to prevent the people from being poisoned by adulterated food and impure milk. And so on and so forth. If ever a large proportion of the people on earth needed governmental guardianship of one kind or another it is the present generation.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

CUPID.

Did you ever hear a wise guy clamor lustily and loud that he'll never fall for marriage to a wise and knowing crowd? And he'll chatter long and freely, until Cupid, on the wing sends a dart into his bosom with a buzz, whirring zing. Did you ever hear a maiden sling the chatter in your ear that she'd never let a person interfere with her career? Oh, she jabbers like a parrot till a bandy-legged bloke whispers sonnets to her softly—the career goes up in smoke. Yes, you've got to bow to Cupid, be you skinny, short or fat; handsome, shy or looks or stupid—paste this classie in your hat. For he does just as he pleases, gets us mated up somehow; and he sways us like the breezes with his arrows and his bow. Now, he nabs some mortals early and he books some others late; but he'll catch you, when you're napping. If your name be on his slate. You may think it soft to dodge him and decline his aid with thanks; you may feel securely anchored in the free, unmarried ranks. But he'll get you if he wants you, and a doughnut to a prune that he'll make you step quite lively to a mushy, spooning time. Now, of course, some want him badly, but I guess that Cupid thinks that they'd be all right for bracelets, but they'd never do for links. Some folks think they've cheated Cupid, in their lonely singlehood; but it's soup to nuts that Cupid passed 'em by for better wood. Any way, he's got us guessing, and a jitney to a dime, if the little rascal wants you, that he'll get you ev'ry time.—Walt Mason.

### IN BEHALF OF THE SANITARIUM.

At a meeting of the friends of the local sanitarium at the residence of Dr. Phenix on Monday night, Rev. R. A. Clements presiding, Dr. Phenix stated to the meeting that the sum of \$1,000 was needed to complete the sanitarium; that he could hardly work with a less amount without severely crippling himself financially.

Mr. Porter proposed that each person present pledge him and herself to raise \$25 within the next week, to which suggestion the majority agreed. A motion prevailed that a committee of five be appointed to canvass the town and country in an effort to raise the amount needed for the institution's completion. The chairman announced that he would appoint this committee later.

Mr. L. W. Sandusky was appointed to draft a letter to be printed and sent to several hundred in the county, soliciting help for this enterprise.

The meeting adjourned to meet at the same place and time, on Friday, November 6th. There was a spirit of enthusiasm in the meeting that was a prophecy of success. It is earnestly hoped by every friend of this much needed and laudable enterprise that ample funds will soon be in hand to complete the sanitarium and equip it so that it may meet every demand of the best service.

### SPECIAL SERVICE FOR MEN.

Married—Last Friday afternoon, at 2:30 o'clock, at the Presbyterian manse, by Rev. Guy B. Duff, Mr. G. H. Zinnecker, of Windom, Texas, and Miss Enla Mae Hathcox, of this city. Mr. Zinnecker is a young man of industry and integrity, and holds the responsible position of carrier on Route 2, out of Windom. Miss Hathcox spent her early life in this community and has many friends, who in common with the Record, wish the happy couple a long and happy life.

### WHITE HOUSE WEDDING TO TAKE PLACE DECEMBER 20.

Washington, Oct. 25.—The wedding of President Wilson and Mrs. Norman Galt will take place shortly before the Christmas holidays, probably December 20, at the home of Mrs. Galt on Twentieth street, according to definite information obtained today.

The announcement was made unofficially, simultaneously with the announcement of the President's daughter, Miss Margaret's intended departure for Madison, Wis., next Tuesday to resume social service work.

The wedding, it is said, will be an afternoon affair, with only members of the two immediate families present. The wedding trip will be in the South.

Engagements of the President in the next several weeks include a speech in Columbus, Ohio, December 10, voting at Princeton, N. J., in the State election next Tuesday, and a speech at New York before the Manhattan Club.

Miss Edith Benham, daughter of the late Rear Admiral A. E. Benham, United States navy, today assumed the duties of social secretary to Mrs. Galt, whose correspondence and social duties have greatly increased. Miss Isabelle Hanger having resigned as White House social secretary to marry, Miss Benham is believed to be in line for her post.

# FACTS FOUNDED ON KNOWLEDGE BY EXPERIENCE

A great many people may be as well tuned up as a violin, but still not be able to play, in a like manner you are not realizing what a saving in prices and chance of winning prizes that will be of great value to you and your family we offer you. Regardless of how much you earn, you will never accumulate any money unless you save same and that is easily done by you buying from us. All to win, nothing to lose. Begin now, today, and you will rapidly realize where your saving will begin. In a like manner, just as little drops of water make the mighty ocean, so do small savings build big fortunes and the thought is that each dollar you spend with us you stand a chance of supplying yourself and family with a 5-Passenger Automobile, Buggy and Harness, a Sewing Machine or a fine Piano, free of cost to you. Prices on about all lines of merchandise are advancing rapidly. All of the Dry Goods we now have on hand were bought before any advance and we are selling them cheaper than ever before in the history of our long business experience. In a like manner for Groceries. Today some of the leading mills are asking \$3.50 for the best Flour, while we are still selling the very Best Flour for \$3.25 per hundred. Meat, Lard, Coffee and Sugar, in fact, all staple lines have advanced beyond your expectations. We earnestly plead that you come in and buy your Dry Goods, Shoes, Clothing, Comforts, Blankets and Groceries from us before we will have to advance. The value of your time cannot be estimated and should not be considered for if you buy goods from us now you may win one of the valuable prizes.

## The Success of Perseverance

"Resolved, that I will buy my goods from Edmondson & Co., believing that I will get a prize. There is pleasure in working for a dollar and spending it with Edmondson & Co. knowing that I will receive a dollar's worth of merchandise and a dollar's worth of satisfaction and a free chance to draw a valuable prize. For the pleasure of myself and family, this opportunity we must accept. It would be an injustice to our families not to accept these valuable offers. The worth of reputation and character Edmondson & Co. have built with us naturally obligates us to trade with them. The power of kindness and benefits they have been to our fellow men cites us to their place of business in preference to all others. The influence and examples and kind treatment we get at their places of business cannot be excelled by any stores of West Texas. The opportunities for us to win—they are many, and the chances to sustain loss—they are none. The wisdom of economy and the opportunity of saving were originated by them through their business. Their virtue of patience along the line of success has been wonderful—their competitors constantly kicking and knocking against them. Their improvement of talent as business men, brought out and shown to their customers has been wonderful along the lines of their success."

The joy of originating the success in our business is not confined to the managers only, but to all parties employed. There is no one that enjoys helping the laboring man more than we do, for they made us just what we are today. Don't forget we have the best and cheapest goods in town and we want the chance of giving you a nice prize for your trade. Don't forget to ask for tickets.

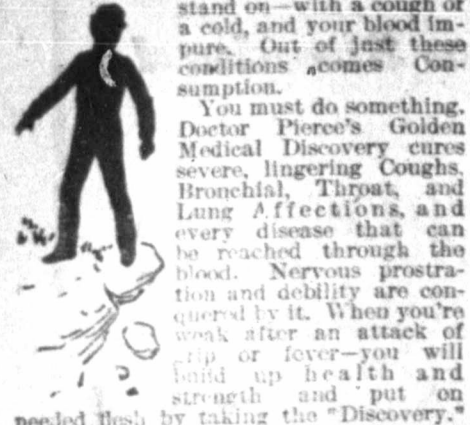

In our last week's ad, where we used the word "we" in reference to Loraine Premiums, we meant the business men of Loraine. This applies to Loraine Premiums only.

FLOWERS FOR THE DEAD.

(Fort Worth Record.)

O. Henry was the greatest short story writer of the age in which he lived. First came Edgar Allen Poe; then Francis Bret Harte and the master king in the short story field, Sydney Porter was born in North Carolina, eked out a brief existence in Texas, journeyed to New York, became famous as O. Henry, and then died in his prime. Porter lived in Austin for a number of years, working in the land office as a draftsman, and in a bank.

He had his dreams. He had heart burnings. He had heartbreaks. Unrecognized genius is hell. Mediocrity always clubs it.

He married an Austin girl, Miss Roach. Her mother is still a resident of that city. Sydney Porter aspired to Journalism. He was turned down by at least three managing editors of three so-called great Texas newspapers.

Now he is one of the immortals. The world never heard of the three managing editors.

Harry Stegar was a Bonham boy. He aspired to literature and he won. Unrecognized at home, he made his way to New York, and there the laurels came to him. He met Sydney Porter in New York and they became pals. O. Henry's fame was known throughout the English-speaking world. O. Henry was a modest man. He never sought the limelight. He didn't need to seek it; his pen spoke for him, and the creations of his brain won for him millions of admirers. He died long before man's allotted time.

Harry Stegar was connected with a large publishing house in New York. This firm, under his supervision, brought out two editions of Henry's collected works, one a de luxe manuscript edition and the other a popular price edition. Harry Stegar, brilliant and impulsive and movable at the time of his death, was at work on the biography of the successor of Poe and Harte in the rich field of short story literature.

Now Dr. C. Alfonso Smith, professor of English in the University of Virginia, is at the State capital. He visits Texas to get into the O. Henry

atmosphere to talk with friends and acquaintances of this short story writer and gather what new material he can to supplement that already gathered by the lamented Stegar before death cut him down in the hour of his usefulness and on the very threshold of a career of great promise.

No professor of English will come to Texas to gather material for the biographies of the very learned and acute managing editors who could not see a gleam of intelligence or a spark of genius in the eyes or the compositions of the unknown Sydney Porter.

SECOND NOTICE.

Two hundred and fifty stories. And every story a good one. They are entertaining, but that is not all you can say about them. You know there is hardly a periodical published that is not full of time-wasting stories, but not a single story in The Youth's Companion is a time waster. Take the stories of C. A. Stephens. It would be hard to pick out one from which you cannot learn something useful and yet entertaining.

Some of The Companion stories refresh your knowledge of geography; some tell you the mysteries of chemistry, some reveal the secrets of forestry and of general farming. They cover a wide range. They are chosen with an eye to the possible linkings of every member of a Companion family—stories of vigorous action and stirring adventure for boys, stories of college life and domestic vicissitudes for girls, stories that range all the way from sheer drollery to deep seriousness for men and women. There are no stories quite like those in The Companion.

If you are not familiar with The Companion as it is today, let us send you sample copies and the Forecast for 1916.

New subscribers who send \$2.00 for 1916 will receive free a copy of The Companion Home Calendar for 1916, in addition to all the remaining 1915 issues from the time the subscription is received.—The Youth's Companion, Boston, Mass.

WM. WIRT MILLS NEW YORK LETTER.

How quickly do events shove one another out of the picture in this kaleidoscopic country! Only the other day the one thought of Woodrow Wilson was as the bridegroom-to-be proudly escorting his fiancée to theater and ball game.

Some of the real facts about the loan to England and France are coming out. The loan was not greatly over-subscribed and the amount was made up by bankers and ammunition makers.

Why go to the Yellowstone to see a geyser spouting hot water. New York gave a respectable imitation of the natural phenomenon the other day when steam issued whistling and roaring from seven flues in Fifth Avenue.

"Your child or his money!" This was the melodramatic choice given by

Justice Goff the other day, when he ruled that a wife suing for divorce might have alimony only upon allowing her husband the custody of their eight-year-old daughter.

"Till death do us part," is not in the phrase book of the Socialists, who this week duly solemnized a marriage with the substituted pledge, "While love lasts."

The possibilities of America for the immigrant were dramatically illustrated here this week when Jacob H. Schiff, the banker, celebrated the fiftieth anniversary of his arrival in this country by presenting to Barnard College for Women half a million dollars to erect a students' hall.

Heroism has always been rewarded in the police department. Now meritorious service is to be recognized by the awarding of medals. The ordinary day in and day out, doing of hum-drum duty is to be encouraged.

The New York "World" has resumed its exposures of British interference with American commerce, revealing that English cable censorship is costing American firms millions in ruined trade, business being diverted to English merchants and the growth of commerce between America and neutral countries being restrained.

There are surprising turns of fortune in this world. A Roumanian Jew sings at his work as a truck driver. By chance an Impresario hears him, and Morris Horn is being trained for grand opera.

The "iron horse" will have to look to its laurels for speed. Locomotives have made 120 miles an hour for short distances, but in the automobile races here the other day Anderson sustained a speed of 102 miles an hour for 350 miles.

An effort to commit a husband to a sanitarium because of his jealousy of his wife was halted the other day by Judge Niemann, who ruled that jealousy, however obstreperous or unfounded, was not in itself an evidence of insanity.

Again the old familiar cry of "Hard Times" has been sounded by one of the advance agents of the historic

party of the "full dinner pail," but inconveniently enough one of his fellow partisans in the State administration brings out on the same day that there are 222,025 automobile owners in this state.

The persecution of the Jews in Russia and in Russian Poland has become an issue in the New York daily newspapers. Heretofore only the surface of the Jewish problem has been skimmed, for Russia was able to suppress the facts as to the terrible events and the only information obtainable was from private sources.

The Boy Scouts of America are being attacked with rare impartiality as too military and as not military enough. The fact is that the training of a Boy Scout does not include the manual of arms, but it does give him every other qualification for a good soldier.

There is a great adoo over taxes here, with the city levy taking a quarter of the income from real estate and other forms of property going practically free, and out of the uproar there may come a small income tax that no one would seriously feel, but that would meet the necessities of government by producing a large aggregate of revenue fairly distributed.

The moves in the new war theater in the Balkans have profoundly stirred pro-Ally circles here and it is notable that the ablest of the pro-Ally newspapers frankly admit the seriousness of the situation, with scant concern for English sensibilities, pointing out the probability of establishing a Teutonic throughfare to Constantinople, the possibility of forcing Russia to a separate peace, and the menacing of the British empires in Egypt and India.

This new 1916 Forty H.P. FOUR sets a new quality-mark even for Studebakers. For no effort has been made to produce a car to compete solely on a price basis.

school. Sixty-seven odd jobs that afford employment from time to time are distributed among the applicants.

At the beginning of the term, 185 applications were on file at the office. Of this number many of the students did not arrive to attend the University.

Of the permanent positions obtained, three are at the Driskill Hotel and five at the Avenue Hotel. Interesting stories are told about the way the students earn money.

One young man coming from Stephenville, Texas, in the summer is now at the University. He came all the way to Austin riding on wagons, walking and earning money picking cotton.

Upon the young man asserting he could pick 300 pounds of cotton a day, Secretary Currie of the "Y" immediately sent him out to the cotton patches.

Just before school started he returned and found a job washing dishes for a downtown restaurant for his room, board and \$4 a week. He still had \$10.85 he had made in the cotton fields.

The young man who arrived in Austin some weeks ago expecting representatives from the Young Men's Christian Association to be at the railway station to meet him, also has a job. Secretary Currie said he got a position and has been busy ever since.

## STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good.

I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

### \$51,000,000 IN TAXES DUE STATE.

Delinquent Taxes For 30 Years to Be Collected Under New Law.

When the task of compiling the delinquent tax records in the controller's department of the various counties in the state, in accordance with the requirements of the new delinquency tax law, it will disclose the interesting fact that there is due by the people in state and county taxes the colossal sum of \$51,000,000. This sum embraces delinquent taxes due for a period of 30 years, or from 1885 to 1905. Of the \$51,000,000, it has been ascertained, \$15,000,000 is in state taxes, while the balance, \$36,000,000, is due by delinquent taxpayers to the counties.

Under this law it is made mandatory for the tax collectors to collect this tax, and after giving due notice to the delinquents, and they fail to pay up, then it is made the imperative duty of the county or district attorneys to institute suit to enforce the payment of such taxes. Under the old order of things, county officials have been rather lax in enforcing the payment of delinquent taxes, first because it was an unpopular job and second there was no financial incentive, and third, it was not a mandatory requirement, but now under this law, there is no option left in the matter.

It has also come to light that there are delinquent taxpayers in every county in the state, with one possible exception, that being in Gillespie county. In that county it was found that the amount charged up as delinquent is \$2.99, and this is said to be an error.

### CALOMEL DYNAMITES A SLUGGISH LIVER.

Crashes into sour bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless pleasant and safe to give to children they like it.

### POPULAR EDUCATION.

Popular education is necessary for the preservation of those conditions of freedom, political and social, which are indispensable to free individual development. And, in the second place, no instrumentally less universal in its powers and authority to government can secure popular education. Without popular education, moreover, no government which rests upon popular action can long endure. The people must be schooled in the knowledge, and if possible in the virtues, upon which the maintenance can last in health if it lose hold of the traditions of its history, and in the public schools these traditions may be and should be sedulously preserved, carefully replanted in the thought and consciousness of each successive generation.

What we seek in education is full liberation of the faculties, and the man who has not some surplus of thought and energy to expand outside of the narrow circle of his own task and interest is a dwarfed, uneducated man. We judge the range and excellence of every man's abilities by his play outside the task by which he earns his livelihood. Does he merely work, or does he also look abroad and plan?—Woodrow Wilson.

### SPECIAL NOTICE TO COLORADO FOLKS.

We wish to announce we are exclusive Colorado agents for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka. This remedy, used successfully for appendicitis, is the most THOROUGH bowel cleanser ever sold. It is so powerful that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. Adler-I-ka never gripes, is safe to use and the INSTANT action is surprising. W. L. Doss, Druggist.

### HELEN GOULD SHEPARD ADOPTS AN ORPHAN.

White Plains, N. Y., Oct. 21.—Mrs. Finley J. Shepard, formerly Miss Helen Gould, and her husband, it was disclosed to day by papers filed with the county clerk, have adopted an orphan boy, nearly 5 years old, from St. Christopher's Home, in Dobbs Ferry. The orphan adopted was known as "John Doe No. 104; alias, Austin McCleary," according to the documents. He was committed to St. Christopher's in 1914 from the Children's Court, Manhattan, on an affidavit that he was without a home, had been abandoned, neglected and had no visible means of being maintained. The petition says the Shepards desire him as their lawful child.

Whenever You Need a General Tonic Take Grove's Tasteless Chill Tonic. The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well-known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

### BILLION DOLLAR FARMERS.

The harvest of the American farmers this year is certainly abundant. With a wheat crop exceeding a billion bushels, three billion bushels of corn, a billion and a half bushels of oats, surely we might be called billion-dollar farmers. But this is not all. Cellars, pantries, storehouses, etc., are filled with foods, barns full of feed, fat cattle graze the pastures and the banks are custodians of the farmer's cash.

Our export demand has emptied the warehouses of last year's crops and products of the farm, orchard and garden are bringing excellent prices. Today we are at peace with the world and in a condition to supply a large part of the foods needed by the armies of Europe.

There has never been a better opportunity for farmers and other business than now. There is every reason why intelligence and perseverance should succeed. There is business for the deserving who work for it and who are willing to give a dollar's worth of service for a dollar in cash.—Farm and Ranch.

### CARRANZA TROOPS TO ENTER UNITED STATES.

Eagle Pass, Oct. 24.—Five thousand Carranza troops, mostly Yaqui Indians, arrived at Piedras Negras, the Mexican town opposite here last night, which will form the Carranza forces to be sent through the United States from Eagle Pass to Douglas, Ariz., and thence to Agua Prieta. All arrangements have been made for their transportation.

Permission for the passage of foreign troops through Texas and Arizona soil has already been granted by the United States. All arms, cannons, ammunition and supplies will be placed in box cars and sealed officially by Consul Blocker at Piedras Negras. The cargo will be shipped as ordinary freight under guard of United States soldiers. The Mexicans will be transported in passenger coaches and will be accompanied by a detachment of American soldiers. The Mexicans will be in charge of Generals Castro, Maycott and Benjamin Hill. The Mexican officers have expressed themselves as being positive this coup will enable them to win decisively from General Villa in the expected battle at Agua Prieta.

### HEAD AND NOSTRILS STUFFED FROM COLD.

"Pape's Cold Compound" Ends a Cold Or Grippe in a Few Hours.

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

### RUSSIA AUTHORIZES IMMENSE WAR CREDIT.

Petrograd, Oct. 24.—An imperial ukase issued today authorizes the Russian Minister of Finance to transact on foreign markets credit operations amounting to 5,500,000,000 rubles (\$2,750,000,000), and also to issue abroad the necessary treasury bonds in pounds, francs and dollars.

### COTTON PICKER MAKES RECORD

Ballinger, Texas.—E. C. Gary, a cotton picker, living six miles from Ballinger, challenges the State record of the picker recently published in the News, having picked 11,759 pounds of cotton in the last twenty days, or over eight bales of 1,350 pounds to the bale. On last Thursday Gary picked 900 pounds. He is the only picker employed to pick the field of D. L. Brevard.

### FATE OF EDITH CAVELL IS WITHOUT PARALLEL.

London, Oct. 24.—Sir John A. Simon, British home secretary and former attorney general, in an interview declared that the fate of Edith Cavell, the English nurse executed by the German authorities at Brussels, had and could have no parallel in the records of Great Britain's treatment of persons accused of military offenses.

Even in cases of clearly proven espionage Great Britain has, according to the home secretary, meted out to women no death sentence.

### BANDITS AGAIN ATTACK BORDER SOLDIERS.

Brownsville, Oct. 24.—Soldiers of the Fourth United States infantry and Mexican bandits engaged in another skirmish tonight shortly after 8 o'clock at the scene of the train wreck robbery and series of murders last Monday. But one American soldier, Private Herman E. Moore, was wounded in the fight, according to reports received at Fort Brown. Moore was struck in the abdomen by a Mexican bullet and probably will not live. Moore's home is French Lick Springs, Ind.

Sergeant Arthur Estridge, of Company C, Fourth Infantry, was in command of the detachment attacked. He reported to Fort Brown headquarters that five Mexicans were seen to cross the railroad track just beyond where the infantry was stationed. The soldiers promptly opened fire on the Mexicans, while the commander gave the alarm to headquarters. When the Mexicans returned the fire their numbers seemed larger.

But Jim got by with his defense in the Sierra Blanca misunderstanding. But James does not seem to be as bughouse about liberty as our old friend Patrick Henry of colonial eloquence. We had hardly laid by the paper announcing his clearance from the toils of the federal law before we read in another paper that friend James had been remanded to the custody of the sheriff after habeas corpus proceedings before County Judge Price, in a case involving the ownership of a kodak. The alleged offense was labeled on the court docket as Theft.

### "JIM THE PENMAN."

For the first time in the history of feature film productions, the leading man and woman of two contemporary Broadway successes appear in supporting cast of a prominent legitimate star in the film version of a celebrated play. This unusual combination of stellar talent is included in the Famous Players Film Company's five part screen adaptation of the international dramatic success, "Jim the Penman," by Sir Charles L. Young, the current Paramount release at Opera House Movies, Tuesday, Nov. 2nd. The two distinguished members of the cast in support of this star are Marguerite Leslie, leading woman of the current stage triumph, "Outcast," and Frederick Perry, leading man of the dramatic sensation, "On Trial."

When John Mason announced his intention of making his first appearance in motion pictures, in the renowned role of "Jim Raiston," whose clever pen wrote the success of Sir Young's greatest play, the news was received in theatrical and motion picture circles with some surprise, as M. Mason has previously refused many offers from leading film concerns, and his acceptance of the Famous Players contract was judged as another indication of the esteem in which that concern is held by the foremost artists on the legitimate stage.

The Famous Players have greatly extended the interest of this notable drama by studied amplification of the stronger elements of the plot, which the wider scope of the screen made possible, and John Mason portrays a more interesting Jim Raiston than has ever been offered in any of the stage presentations of the famed character.

### CHARLTON IS FOUND GUILTY.

Como, Italy, Oct. 25.—Porter Charlton, the American who has been on trial here charged with murdering his wife in 1910, was today condemned to six years and eight months' imprisonment.

Baron Cchiacca, the presiding judge, before the case went to the jury asked Charlton whether he had anything to add to the defense. With tears in his eyes Charlton exclaimed: "I trust entirely to Italian justice. I can only say that I am a most unfortunate man."

Both the prosecutor and the counsel for the defense made stirring pleas, the former for the imposition of a heavy sentence and the latter, composed of Signors Gataneo, and Michelli Picardi, for acquittal on the ground that the prisoner was totally irresponsible when the crime was committed. Signor Picardi declared that no man in Charlton's condition could be responsible for his actions under any law.

The Jury found Charlton only partially responsible and that there were extenuating circumstances.

Owing to amnesty Charlton will serve only twenty-nine days in prison.

### FACTORY GIRLS LOSE LIVES IN A PITTSBURGH BOX FACTORY FIRE.

Pittsburg, Oct. 25.—Fire this afternoon in a feed store on the North Side spread to a box factory where a number of girls were employed. First reports said that a number of lives had been lost.

The factory was operated by the Union Paper Box company and officers said thirty-two girls were at work when the fire broke out. Seven of them jumped and three were taken out by firemen before the building collapsed, leaving twenty-two unaccounted for.

As the flames rushed upward through the flimsy building, frightened girls began jumping to the street. In a short time he whole structure was in flames and gathering crowds heard the screams of those unable to reach the windows.

Seven women were quickly gathered from the sidewalk and hurried to a nearby hospital, where one died soon after being admitted.

### PLACES COST OF WAR AT 300,000,000,000.

New York, Oct. 24.—"The financial situation in England is far more serious than the British people realize."

This significant statement was made today by Edward Shearson, of the New York banking firm of Shearson, Hamml & Co., who returned on the American liner St. Paul.

"The daily cost of the war is enormous," he continued. "But despite this I think the war will last another eighteen months at least."

"At a rough estimate I think the cost of the entire war, including property damage, will reach \$300,000,000,000."
