MOB OF STRIKERS
ASSAULT BUILDING800 MEN ATTACK STRUCTURE AT
NEW ORLEANS WHICH SHEL-
TERS STRIKEBREAKERS.

POLICE DISPERSE THEM

Strikers Declare Truce Until 3:30
O'clock this Afternoon—Demand
Removal of Strikebreakers.

By Associated Press.
New Orleans, La., Oct. 6.—Following an assault at eleven o'clock upon the brick building in which 215 strikebreakers are herded, 800 ex-employees of the Illinois Central and their sympathizers withdrew on the approach of the police. They declared a truce until 3:30 o'clock to permit the railroad company to comply with their demand that they transport the strikebreakers from the city.

Louis Lackaus, a strikebreaker, died of his wounds at eleven o'clock this morning.

Practically the entire force of police reserves is on duty in the railroad district today to prevent a repetition of the rioting. It is said that another day of bloodshed may force the governor to take a hand.

Twelve strikebreakers, six strikers and one detective are in jail charged with shooting and others are charged with an assault to kill.

Officer Roach, eight strikebreakers and a deputy marshal were wounded in yesterday's and last night's clashes.

The Situation at Houston.

Houston, Oct. 6.—One guard dead, another probably fatally wounded and three others confined to their beds by injuries and seven employees and former employees of the Harriman lines injured to date, the sixth day of the strike began with unsettled conditions and considerable feeling among the opposing sides. Fifty additional strikebreakers were placed in the shops yesterday, and the company contends it now has 70 per cent of a normal working force, but this is denied by the strikers.

The union men are obeying strictly the injunction issued yesterday in which more than one thousand are named.

The announcement is made that freight is moving promptly.

Will Hold Places Open Until Monday.

By Associated Press.
Houston, Oct. 6.—President Fay today served notice that the places of the strikers would be held open until Monday and then be permanently filled.

Taft's Travels.

By Associated Press.
Pocatello, Idaho, Oct. 6.—President Taft will turn north again tomorrow to invade Washington, but will turn back in this state for a few hours before heading for the Pacific Coast. At Pocatello the program includes an address at the Bannock County Fair. The President is expected to make a short speech at Caldwell. At Boise he will inspect the Boise Barracks. From Seattle the President will cross Puget Sound to Bremerton to visit the navy yards.

It is reported the Electra Oil and Gas Company, owners of what is known as the "Indiana" well and 160 acres of land in fee simple, have been offered \$40,000 for their holdings. According to information received here the deal has not yet been closed.

THEATER OPENS
TOMORROW NIGHT"THE GIRL IN THE TRAIN" IS THE
OPENING BILL—A SNAPPY
OPERAETTA.

GOOD SHOWS ARE BOOKED

Fewer and the Best Shows Are the Ef-
fort of the Management—Theatre
Staff Announced.

The theatrical season of 1911-12 in Wichita Falls will be opened at the Wichita Theatre tomorrow night when "The Girl in the Train" is the bill. This sensational operaetta was one of the successes in New York last season and has met with a favorable reception everywhere on its first tour of the country this season.

Messrs. Marlow and Stone have booked some of the best shows out and this season promises to be the best in the history of the local theatre. There will be fewer shows this season than heretofore, but practically all of them will be first class.

The following will be the theatre staff:

Manager—J. B. Marlow.
Booking Agent—J. W. Stone.
Stage Manager—H. E. Napier.
Assistant Stage Manager—H. H. Davidson.

Chief Usher—Jerome Stone.

Orchestra Director—Ernest Katz.

Following "The Girl in the Train," "Polly of the Circus" comes next Thursday and the "Third Degree" Saturday, October 14th. On October 20th "The Red Rose" one of the biggest productions that will come to the Southwest this season will be the bill.

The scenes from "The Girl in the Train" which opens the season tomorrow night are laid in Holland with its windmills and its picturesque attire. The first act represents a trial for divorce in Amsterdam, the second a masquerade ball and the third the public square in Makkum, one of the Dutch seaports. The trial for divorce results from an incident in a sleeping car, in which a fashionable actress and a court secretary were concerned. Mr. Kolb appears as Judge Van Tromp, before whom the trial takes place. This Judge is singularly impressed when he is obliged to undertake the examination of the various women witnesses, and the dialogue between judge, witnesses, lawyers and court officers is of a nature that makes one shriek with laughter. Violet Seaton will have the part of the wife who is suing for divorce. Olga Steck formerly of the Fritz Scheff Company, one of the most gifted of American prima donnas, will have the part of the actress. There will also be a large singing chorus, the many young women appearing as spectators at the divorce trial, as merry masqueraders and as Dutch peasants. One of the big features of "The Girl in the Train" is its charming musical settings by Leo Fall. There are a dozen catchy songs including several waltzes the most popular of which are "Follow Me," "I'm Fancy Free," "That's Why People Marry." The entire production is beautiful and pretentious.

Mrs. Thos. H. Peery left yesterday afternoon for Comanche, Texas, in response to a telegram announcing the death of her mother, Mrs. J. G. Kearby.

BELIEVE WAR SIGNALS
DESTRUCTION OF WORLDBase Belief on Refusal of Powers to
Help Turk in Final Expulsion
from Europe.

Washington, D. C., Oct. 6.—The second coming of Christ and the end of the world are presaged by the war in which Turkey and Italy are engaged. This is the view held by the Seventh Day Adventists, according to Rev. K. C. Russell of Takoma Park, D. C., an exponent of that faith.

"The Adventists have maintained for many years," said Mr. Russell, "that the refusal of the Powers to help the Turk in his final expulsion from Europe and the scramble for his territory by the Nations would be the signal for the second appearance of Christ. The basis for this belief is the prophecies in the Bible. In the book of Daniel is found:

"And he shall plant the tabernacles of his palace between the seas and the glorious holy mount; yet, he shall come to his end and none shall help him."

"The personage referred to is conceded by commentators to be none other than the Turkish Empire. And the text shows that this power shall come to his end and none shall help him. Then Christ shall come and deliver his people everyone that shall be found written in the book."

Mr. Russell construed the planting of the tabernacles of the Turkish palaces "between the seas and the glorious holy mountains" to mean that the Ottoman would transfer the capital to Jerusalem. He said the Adventists did not attempt to say just when these events would take place, but consider the present imbroglio as a step toward their consummation.

Clean-Up Day Oct. 9.

Austin, Texas, Oct. 6.—Governor Colquitt today issued a proclamation designating October 9 as Clean-Up Day in Texas. Citizens will be urged to clean up and put the State in a sanitary condition.

WOODRUFF FOR
MAYOR OF ELECTRAF. D. Woodruff will be appointed
mayor of the town of Electra to suc-
ceed Dr. Mouser, who recently re-
signed from that office. The two town
commissioners yesterday agreed upon
the appointment of Mr. Woodruff and
it is believed he will accept.

Electra is now enjoying a phenomenal growth and Mr. Woodruff is a progressive, enterprising citizen who ought to make a splendid mayor for that progressive little city.

Y. M. C. A. WILL PLAY
HENRIETTA OCTOBER 13

At a meeting held yesterday afternoon at six o'clock by the candidates for the Y. M. C. A. football team, Brewster Stanforth was chosen captain, and it was decided to accept a challenge issued by Henrietta for next Friday, October 13th; the proposed game to be played at Henrietta.

No practice will be held tomorrow afternoon in order to give the candidates a chance to rest up, but beginning Monday, daily practice will be continued every afternoon after six o'clock at the old high school grounds corner of 13th and Bluff streets, and it is urgently requested that everyone who has any desire at all to make the team be present at this practice in order that the best possible material may be selected for the approaching game with Henrietta.

The Y. M. C. A. team is not yet organized and there is a chance for any good man to make the team and so it is necessary that all who desire to make good turn out for practice.

Jack Bates who has been conducting the City Taylor Shop has sold out and leaves tonight for California, where he will be joined at Stamford by Mrs. Sel.

TO STRENGTHEN RANKS
OF STANDING ARMYRearrangement Result of Important
Lessons Learned During Recent
War Maneuvers in Texas Forts.

Washington, D. C., Oct. 6.—One of the most important lessons learned during the recent maneuvers in Texas was the necessity of keeping all troops, battery, and company organizations at all times at full war strength. To correct existing defects in that respect the War Department has issued an order rearranging the strength of the army.

One feature of the order is the addition of seventy men to each cavalry and seventy-two to each infantry regiment serving outside of the United States or in Hawaii. There are some slight changes in the strength in the field and coast artillery and provisions are made for permanent assignment for headquarters duty. The additional men are found by reducing by 1,000 the 8,000 men now engaged in recruiting.

The order fixes the strength of the army at 77,523 men, but this includes large detachments of scouts, prison guards, signal corps and other engaged in nonline duty, so that the normal strength of the actual fighting force is reduced to 66,598, which includes all of the troops serving outside of the United States.

REVOLUTION.

FLED TO SAVE HIS LIFE

Promises of Free Elections Fugitive
Declares, Have Been Violated and
State of Anarchy Exists.

New Orleans, Oct. 6.—General Bernardo Reyes, for years the idol of the Mexican army, long a political leader of that republic and recently a candidate for the presidency against Francisco I. Madero, Jr., gave emphatic denial last night to the publication connecting him with the organization of a new revolution in Mexico. General Reyes arrived here yesterday afternoon from Havana and will leave this afternoon for San Antonio, Texas, where he probably will establish a home for himself and family.

In a statement given to the Associated Press last night General Reyes admitted he will continue to manifest an active interest in the political affairs of Mexico, but brands as absurd the stories that he is planning the establishment of a revolutionary junta in San Antonio. "He was equally emphatic in branding as absolutely false the statement that he has formed an alliance with General Porfirio Diaz and the Mexican socialist leader Flores Magon. A combination with the latter, he said, was 'impossible'."

With a manifestation of deep emotion, the aged former military leader of Mexico declared he was forced to flee his country on the eve of the election because his life was hourly endangered as a result of the growing conditions of anarchy fostered by the recent revolution.

"The people of Mexico are greatly disappointed in Madero," said General Reyes. "The revolution was successful because Madero had solemnly and impressively declared for free elections and because he bitterly arraigned the clientelism. Now the people realize that he has failed in these promises, for they were not given a free election and instead of destroying the clientelism, he has joined hands with them."

"Not only were the promises of free elections nullified by the action of Madero in previously forcing upon the provisional president the appointment of only Maderistas to office in every part of the republic, giving Madero absolute control of the elective machinery, but all other political parties in the republic were openly persecuted and had not the guarantee of the slightest protection in making their campaigns."

Not only were the governors of states, the judges and minor officials of states Maderistas, declared General Reyes, but in every section of the republic the revolutionists retained their arms, and this was a constant source of intimidation to other political parties."

The persecution of their opponents by followers of Madero, he added was carried so far that men who sought to exercise the boasted freedom of speech were shot down in the streets of Huehuetan, Monteray and other places. Even in Mexico City he declared, people were imprisoned solely because they gave their support to the Revista party, whose

BONUS LIMIT IS EXTENDED

\$10,000 Will Be Given For First Well
Producing 200 Barrels of Oil or
5,000,000 Feet of Gas Daily

Formal announcement is expected tomorrow of plans for the drilling of a test well for oil five miles north of the city by local capital. A company has quietly been formed in Wichita Falls for that purpose and will be known as the Culbertson Oil Company. J. W. Culbertson, one of the Culbertson brothers, who have invested thousands upon thousands of dollars in Wichita Falls real estate and enterprises here, and who is an experienced oil operator, will have charge of the drilling. A rig is enroute here and is expected to arrive in a few days.

It is expected that matters will be in such a shape that the location of the well and the land under-lease will be announced tomorrow.

At a called meeting of the directors of the Chamber of Commerce this morning the time limit of the \$10,000 bonus offered for an oil or gas well which was about to expire was extended for another six months.

This sum will be given for the first oil well producing as much as 200 barrels daily or a gas well producing 5,000,000 feet daily within a radius of six miles of the court house. One half this amount will be given for an oil or gas well of the production given at a distance greater than six miles and less than ten miles.

J. A. Kemp subscribed \$5,000 of the \$10,000 bonus.

Wichita Southern Life Ins. Co.
Makes a Remarkable Record

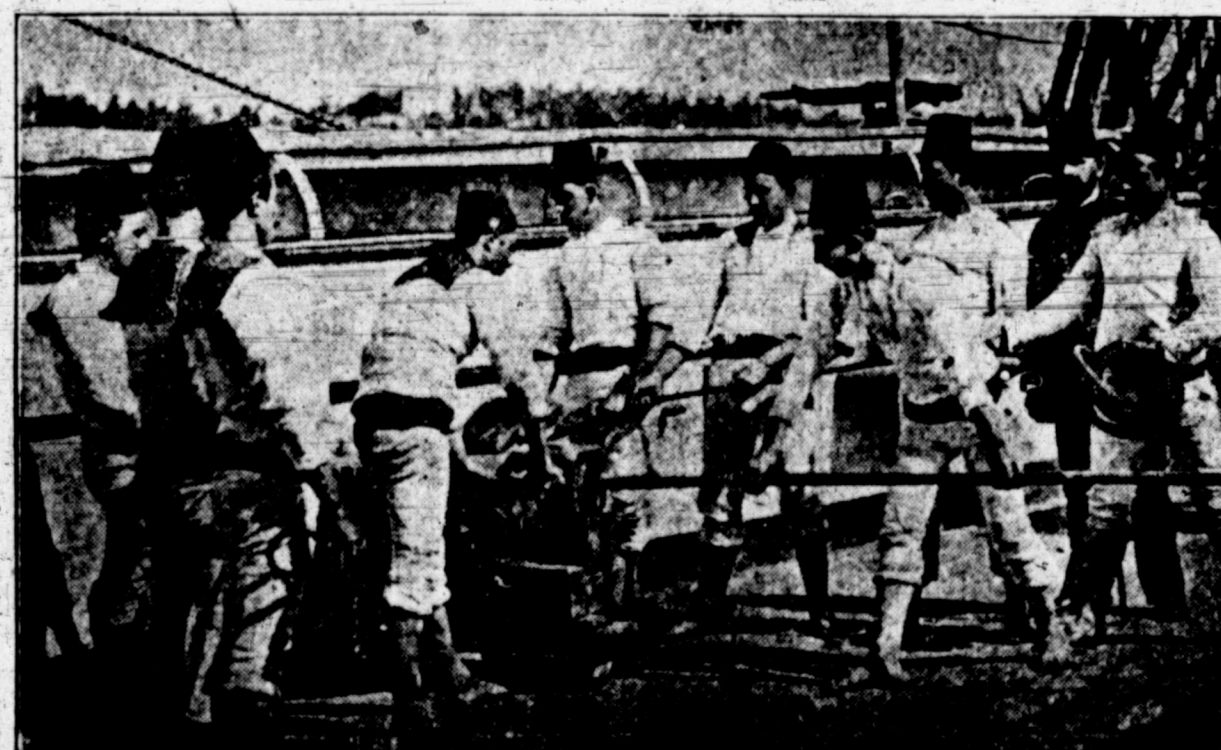

The Wichita Southern Life Insurance Company this morning passed the half million mark in the point of business written since its inception, thereby making a record which is hardly equaled in the history of new insurance companies, especially in the Southwest.

The company wrote its first policy on May 25th. In the four months elapsing since then the conditions throughout the territory principally occupied by the company have been very adverse for the promotion of any kind of business, and especially so for insurance, but in spite of this

the Wichita Southern has forged steadily ahead, until its books today show \$500,000 of insurance in force. At the time the company began writing insurance the officers felt that a million dollars of business would be all that the company could hope to do the first year, but now it is confidently expected that a million and a half can easily be written and even two million may be looked for.

SIMPLE STYLES OF HAIR DRESSING

Fashions of Our Grandmothers Have Come Back in Vogue—Days of Pompadour Passing.

The new way to dress the hair for the coming season is of interest to everyone. Nothing is more attractive than a pretty hair dress. A great many forms of new hair dressing are appearing in Paris, all of which give the appearance of youth and are simple in arrangement. Many of them simulate short hair, curled and softly arranged about the face. The absence of the artificial pompadour is particularly noticeable.

The hair is being dressed several ways. The ringlets about the face fall low on the forehead and conceal the ears. Another interesting way to dress the natural wavy hair is to part it on the side, drawn well over the ears. At the back is a coiled knot, slightly of the Psyche form. This knot is encircled with a band of hair which wraps the head and gives it a sharply outline. This style is sometimes worn with pearls pinned at each side of the knot, falling forward about the ears. Such ringlets are very popular.

Up to the present time there has been no particular interest manifested in the powdered hair effects that appeared last spring as the high loveliness in Paris. The tendency is much more the simple arrangement than the artificial effects. In hair dressing as well as in everything else that has to do with the present fashions the natural beauty is always desired.

The ringlet style of the sixties, the fashion of our grandmothers are the leading effects in hair dressing. In place of the pompadour or transformations, the French hairdressers are selling the false front parted at the left side either waved or with ringlets.

All hair dressings tend to make the head look smaller and the ornaments are used instead of the bands. These are usually more or less Oriental. Many of these are worn very low on the forehead dragging the hair to the temples and crushing the curls down about the ears. When styles less youthful are worn the hair is drawn back close with the oils at the back.

Hair nets are not worn so extensively in America.

Hats are now worn so low on the head that hairdressing must be simple and flat. The big crowns allow the hats to descend low on the forehead and partly cover the ears. The padded way of dressing the hair would be utterly impossible for the present styles in millinery.

Announcement.

I am a candidate for commissioner in the coming bond election. My friends not being able to get my name on the ticket without some extra trouble, have decided to run independently. Those voters who are willing to trust me with this responsible position will make it known by writing my name on the regular ticket at the polls. I am in favor of the bonds because I believe that good roads and streets are an asset to any community, but believe that the money should be used to the very best advantage for all concerned; that we should use home labor, and material as far as possible; that books should be kept, showing where every dollar is spent; and what it was spent for. If there ever was a time that we needed this money it is now. Vote for the bonds.

The Arctic Menagerie.

Before contemplating challenging the management of the Carl Hagenbeck and Great Wallace shows to a game of freeze out here on Wednesday, October 11, it may be well to remember that they have just added to their zoological collection a whole Arctic menagerie in the ferocious and fearsome shape of ten polar bears. Formerly, a single specimen big or little of this solitary and heretofore untamable species, has been carded as among the rarest of features. The cost and trouble involved in collecting ten of these only North Pole discoveries—a greater number than even any Arctic explorer ever saw together at one time—would make an ice trust magnate gasp and even perspire. They are a feature, and the biggest kind of a one. No doubt about that. They have been taught to do all kinds of tricks.

Pays Wife Alimony in Pennies

Adolph Radowski, a furniture dealer in New York, ordered to pay his wife \$3 weekly alimony, pays it in pennies, and insists each week on her collecting it in person.

"It's taxation without representation," he said. "If I've got to pay my wife for not living with me I'll make her earn the alimony counting it. It's the only fun I get out of it." He was happiest once when she was sick for five weeks and he waited and paid 1500 pennies at one time.

nine days after his collarbone was broken by an automobile.

After the accident he appeared to be unhurt, and said he was not injured. He suffered in silence until a woman accidentally put her hand on his shoulder and he fell in pain. He said he was afraid the doctor would "cut him up."

Theft of \$14,000 Jewels Is Traced to a Fox Terrier.

Detectives called to the home of Mrs. Robert I. Miller at Washington by the loss of a charms bag containing \$14,000 worth of jewels from her bedroom, found dog tracks.

Fritz, a small fox terrier, was found on the lawn with the missing bag in his mouth, scattering diamonds right

and left. All but two gems were recovered.

I assure you that in less than a week I up, and sometimes a little dry toast felt like a new man; I had gained six pounds in weight, could sleep well and think well.

ROAD SUPPLY COMPANY DOING GOOD BUSINESS

A Times reporter visited the office of the Texas Supply Company this morning where he found everyone as busily engaged as could be desired. Messrs. Hines and Pyle stated that the factory is running to capacity at this time and that they are receiving orders every day. Just now they are engaged in filling extensive orders placed by several railroad companies and by different counties in this section of the state.

These gentlemen located in this city about three years ago and established a road culvert factory which they called the Texas Road Supply Company. Since that time their business has grown by leaps and bounds and it has been necessary to enlarge the original factory several times already.

This fact is a sufficient guarantee of the merit of their work and it is to be hoped that their business will continue to prosper in the future as it has in the past.

Taft Nearing the Coast, Spokane, Wash., Oct. 6.—Cities and towns of Washington are preparing to cordially welcome President Taft who will enter upon a four day tour of this state. Walla Walla will be the first stop on his itinerary tomorrow and in the evening he will arrive in this city, where a banquet will be given in his honor. Governor Hay and other official representatives will meet the distinguished visitor at the Wash-

EXPOSE OF WHITE SLAVE TRAFFIC

"The Horrors of the White Slave Traffic" in all its seriousness and hideousness is the topic of a lecture and the subject of forty photographic views at the Colonial Theatre tonight. Mr. J. W. Sanders, a representative of the National Purity League of America, is the lecturer, and the scenes of his word pictures as well as the actual photographs, are said to be most lurid and tear-inspiring.

The pictures to be shown are those taken by the investigating committee appointed by the municipalities of Chicago and St. Louis.

The subject was discussed in one of the churches here last year, but since that time the league has changed its plan of bringing the matter before the people, presenting it now in the picture shows of the country, where it may reach a great many more people and at the same time be self-sustaining.

In addition to the white slave lecture, there is the vaudeville number and two good reels of pictures on the Colonial program.

TO TEST MUNICIPAL GAS CONNECTION

City Council Adopts Resolution Instructing Inspectors to Make Such Tests.

By a resolution adopted by the city council this morning the city gas inspector was instructed to test out all gas pipes in all buildings in the city on which a clearance has not already been issued. Where no leaks are found no charge will be made for the inspection and where leaks are found the gas will be turned off until the leak is repaired and the job stands the test required by the city ordinances.

This action was taken because of the fact that many houses in the city were piped before the inspector ordinance became effective and it is believed many leaks will be found which are now a source of danger and expense.

At the meeting this morning the council voted to accept a loan of \$600 from the Floral Heights Realty Company for the extension of the sewer to the site of J. A. Kemp's proposed new residence. The loan was made without interest. Alderman Reed declined to vote on the acceptance of the loan, and the vote resulted in a tie which Mayor Noble decided in the affirmative. Alderman Gardner and Richolt voted for the acceptance of the loan and Alderman Hughes and Young against the acceptance.

DIPHTHERIA SITUATION BELIEVED UNDER CONTROL

Dr. A. A. Jones, city health officer, believes the physicians of the city have the diphtheria situation under good control now, and thinks that there is no occasion for undue alarm.

"The physicians of the city are co-operating in the fullest measure to quarantine, isolate and fumigate where cases of diphtheria exist and the anti-toxine treatment is being used with success," said Dr. Jones. "All cases of sore throat are being watched, with great care wherever they are found and are isolated as soon as there are symptoms of diphtheria. At present there are five or six cases of diphtheria in the city."

Dr. Jones said there are fewer cases of typhoid fever in the city than usual at this season of the year and further states that all the cases he has investigated are patients who have been drinking water from wells and cisterns.

"I have not found a single case where the patient drank city water," said Dr. Jones.

"I advise however, that all water for drinking purposes be boiled whether it is cistern, well or hydrant water," he added.

BOLDS RECORD FOR STREET IMPROVEMENT

Harry Gomery, better known as Mike Flansigan, says he has worked out thirty-seven fines imposed by the city court for amounts ranging from \$10 to \$15.00, any of which would not have been imposed had he been a total abstainer.

The Key-note of Figure Building

THE hips are the key-note of figure building. The entire figure must be reduced or proportioned according to the shape of the hips.

This can be done in a scientific, hygienic manner if you wear Henderson Corsets.

Henderson Corsets are so designed that they will give a slender figure effect by harmoniously proportioning the entire figure.

We are enthusiastic about the new Henderson styles we are now showing.

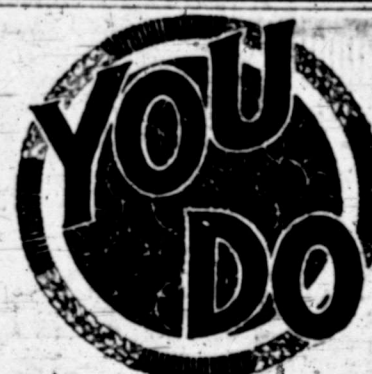

All of our customers who have seen and are wearing these new Henderson Corsets praise them highly.

We invite you to examine the Henderson Corsets shown at our corset department; and to allow our salesladies to serve you in demonstrating these corsets; their advice is valuable.

"Polly of the Circus."

What an interesting bit of humanity--for that is all she is with her sweet, childish face and not too long locks--Miss Ida St. Leon of "Polly of the Circus" is.

In this rush-a-day world where the majority of mankind have lost the spreading glow of content and first freshness of outlook it is a good thing to spend half an hour in such for an interview with Miss Ida includes her mother, Mrs. St. Leon and Miss Elsie St. Leon, who make up part of her real family as well as the stage circus folk--and spontaneous way of seeing everything through sunlit glasses, they are as refreshing as a breeze straight from the hills.

For they are really circus people you see, Miss Ida having been born in China and Miss Elsie St. Leon in Australia, while several other smaller members of the family claim different Eastern countries as their birth places. So while they have been decidedly in the world, covering it from one roundness to the other, they can hardly be said to have been of it, being such busy Nomads and living within the circle of a circus city of several hundred people only.

And that explains it in part per-

STATEMENT GOOD ONE EARNINGS INCREASE

Issued at St. Louis Last Night It Shows 365 Miles of New Trackage.

St. Louis, Oct. 5.--The annual statement of the Missouri, Kansas and Texas railway, issued last night shows a large increase in earnings and that 365 miles of trackage were added to the system. The gross earnings indicate a gain of \$2,509,477 over the previous year and the balance a gain of \$731,222. The gross earnings were \$29,065,293 and the operating expenses \$26,606,515.

Dandruff and Itching Scalp Yield to Zemo Treatment

Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will cure DANDRUFF and ITCHING SCALP.

This remedy is ZEMO, a clean, refined penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it.

A shampoo with ZEMO (ANTISEPTIC) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and seurf. Do not hesitate, but get a bottle of ZEMO today. It acts on a new principle and will do exactly what we claim for it.

Bishop Gabriels.
Rev. Henry Gabriels, Roman Catholic Bishop of Ogdenburg, N. Y., who recently celebrated the golden jubilee anniversary of his ordination to the priesthood, was born in Warrington, Belgium, October 6, 1828. His early education was received in the public schools of his native place. Later he attended academies in Audenarde and Ghent, and completed his studies at the celebrated theological school of Louvain, from which he was graduated in 1864. The same year he came to America to accept a place on the faculty of St. Joseph's Seminary at Troy, N. Y. Here he remained as a professor of theology until 1871. In that year he became president of the seminary and continued to direct its affairs until 1892, when he was chosen bishop of Ogdenburg. Bishop Gabriels is the author of a book on Public and a well-known translation of "Rudiments of Hebrew."

Fritz Staber has returned from Southeast Texas. He is thinking of making his home in that section.

Albert Bohn returned from Archer City, Monday.

F. J. Block made a flying trip to Wichita Falls, Wednesday.

Mrs. G. R. Decker and daughter, Mrs. Culley, have returned from Kansas.

The local union elected Misses Ida Decker and Dora Taylor and Messrs. T. B. Taylor, John Ground, Will Krebs, G. R. Decker and Ed Smith as delegates to the county union which is to convene at Archer City, October 4-6.

Last Wednesday evening the Y. P. A. held its regular business meeting. After all business was transacted the assembly adjourned to the parsonage, where cake and ice cream was served and a number of games were indulged in. The evening was spent most pleasantly by all present. Those present were Mrs. Pitts, Mrs. Otman, Rev. Bunse, Misses Bohn, Ford, Decker, Lizzie Bohn, Carrie Bohn, Oltman, Birdie Kerbs, Messrs. Frank Ford, Mahler, John Decker, Ben Ford, David Decker, Frank Bohn, Ed Smith and Charlie Ford.

Safe Food for the Little Ones

The delight of children is pastry, cookies, cakes, doughnuts, and other dainties, in many of which a cooking fat is used. Lard is risky; it is simply hog fat, sometimes impure, often indigestible. To use butter is expensive and often impracticable. However, Cottolene—the pure vegetable-oil cooking fat—can be used in every way the same as butter or lard; it makes light, digestible, healthful food, and at less expense, too; one-third less being required than of either butter or lard. If you value the health of your children, shorten their food with Cottolene.

Tablet to First President.

Washington, D. C., Oct. 6.—In the picturesque village of Falls Church, Va., nine miles from this city, a marble tablet placed upon the outer wall of the Old Falls Church edifice in honor of George Washington, was unveiled today with exercises conducted by the town chapter of the Daughters of the American Revolution. Gen. Washington served for twenty years as war-den and vestryman of the church, which is one of the oldest and most historic in this section of the country. The first church building is believed to have been erected about 1700, while the present edifice was built in 1734 with material brought from England.

Notes From the World of Labor

There are 125,000 cotton mill operatives in North Carolina.

Berkeley, California, is to have a municipal employment bureau.

There are now 105 unions in the Hebrew trades of New York city.

Thirty-five States of the Union have established bureaus of labor statistics.

Palestine is making preparations to entertain the next convention of the Texas State Federation of Labor.

Telegraphers on the Grand Trunk Railway are preparing demands for the betterment of the wage scale and working conditions.

When President Taft visits Milwaukee this month he will speak on industrial topics before a public gathering of 2000 employers and employees.

The mine workers of Northumberland, England, have declared themselves in favor of a strike for abolition of the three-shift system use now.

Labor unions throughout the State of Illinois have received ballots for the referendum vote on the formation of a labor party in the State.

The bakers' union of San Francisco, Calif., has established a co-operative bakery, where French bread is baked by union workmen under union conditions.

The Missouri State Federation of Labor is working to obtain a pardon for John F. Fitzpatrick of Kansas City, who killed a non-union hack driver during a strike several years ago and is serving a life sentence.

In Melbourne, Australia, facing the public garden, and immediately in front of the legislative hall, there stands a gigantic memorial pillar erected by the working people in commemoration of the adoption of the eight-hour law.

There is a powerful movement in Germany, headed by Fraulein Pauline Werner, to require all girls, regardless of station, to do compulsory domestic service, just as the young men are required under the law to do compulsory military service.

The union sailors of the Great Lakes are preparing a lengthy report on the conditions of their craft, to be submitted to Congress in support of the bill to be introduced at an early date by the sailors' union during the next session of Congress.

In England, when the present plans are fully completed, \$500,000 a year will be expended on government labor agencies in 240 places throughout the country, within an area as large as New York, Pennsylvania and New Jersey, with about twice the population of these States.

Plans have been drawn to publish in Manchester, England, a half-penny daily newspaper, devoted to the labor and Socialist movement, and called 'the Sun.' Trade unions and other organizations are being invited to subscribe the necessary capital.

At the last session of the Trades Congress of England the following was unanimously adopted: "That the time has now arrived when every man must be a member of a union of his trade and when the date is fixed, no one will work after that time with non-union men."

BALD HEADS NOT WANTED.

Baldness is too generally considered a Sign of Advanced Age. A bald-headed person does not have an equal chance with the one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit, and refuse to take men over 35 years of age as new employees.

Probably 65% of bald-headed people may regain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word, or hesitate to put our remedy to an actual test.

We want every one in Rochester who is suffering from any scalp or hair trouble, dandruff, falling hair, or baldness to try our Rexall "32" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected, and we exact no obligation from the user whatever.

We are established right here in Rochester, and make this offer with

WASTED MONEY

FOR POOR DRUGS

What a lot of money is added to the profits of unscrupulous druggists who substitute for an ingredient called for in a physician's prescription, or who substitute a cheaper article "just as good" when you call for some standard preparation.

Some people seem to care so little about it that it isn't any wonder the practice is so common. If honest goods, courteous treatment and prompt service means anything to you and you are not already our customer, give us a trial, put us to the test, and see how well we practice what we preach.

Mr. J. P. Jackson in another column in this paper announces as a candidate for Road Commissioner for Precinct No. 1. There are three commissioners to be elected, and as Mr. Jackson was not one of the six candidates named for these positions by the citizens mass meeting recently held at the city hall, his name will not appear on the regular ticket, for the reason he failed to make application in time to have his name appear on the regular ticket. He is, therefore, running as an independent candidate, and those who wish to vote for him for one of the three positions will have to write his name on the ticket. Mr. Jackson believes in the construction of good roads by voting bonds, and is therefore in favor of the bond issue. He is a good business man, and if elected to the office to which he aspires, is thoroughly capable of performing any of the work that might be assigned him. DEATH AND FUNERAL
OF D. L. HOLT

The remains of Mr. D. L. Holt, who died at 8 o'clock last night in this city at the home of his son, Mr. J. F. Holt, 1614 Tenth street, were shipped to Vernon at noon today, and on their arrival will be met at the station by the Masonic Order of that city, and given interment with all honors that can be conferred by the Order.

The remains were escorted from the family residence to the Union Station by members of the Masonic fraternity. At his death he was in his 82nd year, and came to Texas from Virginia in 1850, settling in Willbarger county near where Vernon is now located. He served four years as a Confederate soldier and rose to the rank of captain before the war closed. While he had resided in this city only for a short time, he had made many friends

George Westinghouse 65 Years Old. Pittsburgh, Pa., Oct. 6.—George Westinghouse, the celebrated inventor of the air-brake and of numerous important electrical devices, received the congratulations of many friends and business associates today on the occasion of his sixty-fifth birthday anniversary. Mr. Westinghouse was born in Schoharie county, New York, in 1846, and gave evidence of his genius at the early age of fifteen by inventing a practical rotary engine.

Crank on Valve at Gas Well

Back Fired, Breaking Man's Leg

T. N. Ross, an employee of the Lone Star Gas Company in the field at Petrolia, suffered the fracture of both bones of his right leg yesterday afternoon. It seems that it was the duty of Ross to look after the flow of gas from the wells in the big gas mains. The flow of gas is regulated by valves which are turned open and shut by means of a crank

It was while attempting to turn open one of these valves that Ross was injured. At first the valve stuck and in a second trial it came open and the gas rushed in with such force that the crank back fired and struck Ross on the leg.

Dr. A. D. Patillo brought the injured man to this city last night for treatment. J. W. Ross and wife and D. E. Ellis also accompanied him.
