Blast Of Icy Air Spreads

By The Associated Press

Most of the nation was enveloped in the season's coldest weather today.

A massive blast of icy air, which was spawned in the arctic region and moved into the northern Rockies with the new year, continued its slow but steady sweep south and eastward across the country.

By early morning the frigid air, powered by brisk northerly winds, reached the Atlantic and Gulf Coast areas. Winds from 20 to 35 m.p.h. whipped the cold air from the lower Great Lakes region southward to the Virginias and eastward to New England.

Bitter cold clung to wide areas in the midcontinent and sections of the Rockies.

The cold and snow was blamed for at least 15 deaths. At least three persons were found frozen to death. Others died from overexertion while shoveling snow and in traffic accidents on ice-slicked highways.

Farmers in Florida as far south as Ocala, in the northcentral region, got their smudgepots ready when they heard the cold wave forecast. Southeast Florida basked in summer-like climes, with another day of 70-degree weather in sight.

Most of the Deep South braced for below freezing weather.

Schools closed in some Texas communities.

Industry was hit in Texas and Colorado. Natural gas consumption was curtailed to several cities in Texas, including Dallas and Fort Worth, because of heavier than normal domestic demands for the fuel.

Temperatures dropped to 25 degrees below zero Sunday in the Texas Panhandle.

Snyder Shivers In Zero Weather

The coldest weather since 1951 hit the Snyder area during the weekend when the thermometer dipped to a low of zero.

Despite forecasts and the snow which has hit areas surrounding Snyder, it has been a dry cold so far, with no more snow than a few minute flakes Saturday.

Winter was late in coming here this year, with only a couple of bitter cold snaps prior to this, but this time it left good evidence of its bite in freezing up cars and water pipes.

Plumbers throughout Snyder were busy yesterday and today answering calls to repair burst or frozen pipes in homes and businesses here.

Churches reported Sunday school and church attendance below average yesterday, much of it resulting from cars not starting after the zero weather of the night before.

The city water department, by early this morning, had 10 calls on burst pipes, including three burst mains, according to George Lee, superintendent, who expected a bigger rush of calls later in the day to shut water off when residential pipes begin to thaw and reveal breaks. "It's just been too cold so far for leaks to show up," he said early today.

Lee said the three broken mains were not caused by freezing water in the lines but by contraction of the ground because of cold weather. The shrinking soil pulled the pipes apart, he said. The mains, he said, are buried at least 30 inches deep, and he opined that they would never freeze.

The temperature had not risen above the freezing mark since Friday. Friday's high was 58 degrees, according to David Strayhorn, weather observer, but the mercury dipped to nine degrees that night, zero Saturday night, and seven last night, reaching a high of only 27 Saturday and Sunday.

Zero is by no means a record cold here. The record is 10 degrees below zero, recorded Jan. 2, 1947, during the worst cold spell in history here. That temperature, incidentally, was double-checked at the time. Foy Wade, then a Snyder baker, was official weather observer, and his wife took the thermometer inside the house, "defrosted" it, and took it back outside, where it promptly returned to the 10-below mark. Nine inches of snow fell here during that spell, which at the time was compared to a spell in 1903 but was called worse.

The Saturday night temperature was lower than any here since the three-below readings of Feb. 1 and 2, 1951. It also dipped that low Feb. 1, 1950. Other colder marks here were seven below in 1933 and eight below in 1930.

An unusual-type rescue was made by the Snyder Fire Department at about 3:30 p.m. yesterday brought about by the freezing weather.

Firemen removed a stuck duck from ice frozen on the pond in Towle Memorial Park.

A large crowd of spectators witnessed the event.

The firemen poured water around the duck until enough ice had melted, then pulled it to shore with a rope.

The duck apparently was not hurt — just cold.

C. L. Callaway, manager of the Snyder office of Lone Star Gas Co., said there had not yet been any problems in gas service here.

Two local industries, Southwestern Brick & Tile Co. and Basin Wax Products Co., were affected by an industrial curtailment of natural gas during the cold spell, Callaway said. Those two were asked to cut to 75 per cent of maximum. Industrial gas output was lightly curtailed throughout Lone Star's system.

The company's first obligation, Callaway said, is to residential users, and as far as could be determined there had been no real pressure problems. During such cold spells as this the company's automatic boosting devices at its pressure station put the pressure at about double what it would be in summer weather.

Soviet Rocket Still Dashing Toward Orbit

MOSCOW (AP)—The Soviet Union's cosmic rocket continued its headlong dash toward a solar orbit today in man's greatest conquest of space.

Its radio signals ceased as the 1¼-ton device—now called Mechta (dream)—went past an estimated 370,960 miles in its plunge away from the earth. It had then been in flight 62 hours.

Resources for feeding the radio equipment had become exhausted, the Soviet news agency Tass said.

"The program of observations and scientific investigations of the rocket has been completed," an announcement said.

This predicted the rocket will finally enter an orbit around the sun Wednesday or Thursday. Mechta is due to take 15 months to go around the sun, traveling elliptically.

The Russians calculate this orbit would have a maximum diameter of 214¼ million miles. The rocket would get no nearer the sun than 91½ million miles. The sun averages 93 million miles from earth.

The name Mechta was applied to the rocket today by Pravda the Communist party newspaper. When it was announced last Saturday that the rocket was headed toward the moon, it was called Lunik, a combination of Luna (moon) and Sputnik.

Scientists here figured that it was travelling at a maximum speed of 1.52 miles a second when it passed the moon Sunday at a distance of 4,700 miles.

Results of radio transmissions between the rocket and ground stations will be published as soon as they are analyzed, Tass said.

The 62 hours of radio communication enabled observations to be made of the rocket's movements, and on the work of the scientific instruments aboard.

The actual number of days that will be required for the solar orbit will be 447, scientists said. This is 82 more than it takes the earth to go around the sun.

Dr. G. M. Clemence, scientific director of the U. S. Naval Obsevatory in Washington, said that some time in March or February the earth will pass between the rocket and the sun.

The earth has an elliptical orbit around the sun, the same as the rocket will have, but it is tighter. It takes the earth only 12 months to make the full swing.

The nearest point of the earth's orbit to the sun is about 91¼ million miles, the farthest 94½ million miles. The earth is now traveling away from the sun, having reached its closest point Jan. 1.

When the Soviet rocket starts away from the sun, it will swing away faster than the earth, and then the earth will pass between the rocket and the sun.

The earth and the rocket will be several hundred thousand miles apart and they will not be that close again for another two or three centuries.

As the rocket moved further in to space, the gravitational pull of the moon and the earth was lessening and the pull of the sun's gravity was increasing.

Oil Field Rentals Firm Is Purchased

HOUSTON (AP)—Hugh Q. Buck, president of Houston Oil Field Material Co., Inc., announced yesterday the firm has purchased Associated Oil Field Rentals for approximately eight million dollars.

Buck said directors of both firms approved the sale early last week.

Associated Oil Field Rentals, a division of Associated Oil & Gas, operates yards in Houston, Beaumont, Snyder, Odessa and Alice, Tex.; Harvey, LaFayette and Morgan City, La.; Oklahoma City and Duncan, Okla.; Hobbs, N.M. and Casper, Wyo.

Plunket Is Squiring Margaret Around

LONDON (AP)—There's a new entry in the Princess Margaret hand-holding stakes today — Lord Plunket, handsome, aristocratic, 35 and a bachelor.

The word is that the eligible bachelor, an official escort to the royal family, is squiring bachelor girl Margaret above and beyond the call of duty.

Lord Plunket is the deputy master of the royal household. Margaret and the rest of the royal family call him Patrick.

He and the 28-year-old princess have been constant companions since the royal family moved to the Queen's country estate at Sandringham before Christmas.

Slow Warm-Up Brings Relief To Panhandle Region

By The Associated Press

Temperatures over Texas climbed toward normalcy again Monday after three days of record cold that sent the thermometer far below zero in the Panhandle.

At least four deaths were attributed to the severe cold, some industries were curtailed and a few schools closed, but on the whole the state withstood the arctic blast fairly well.

The Lower Rio Grande Valley heaved another big sigh of relief as heavy clouds again prevented a general freeze in that area Sunday night.

A few points in the Valley had temperatures slightly below freezing but citrus and vegetables crops were believed to have escaped heavy damage.

The temperature early Monday dropped to 31 at Brownsville, 29 at Raymondville and 30 at Mercedes.

It was another bitter night in the Panhandle and North Texas, but the Weather Bureau said there would be a gradual rise in temperature during Monday. Dalhart had a low of 4 below zero.

Industries in many cities continued on a curtailed basis after gas companies ordered a 75 per cent reduction in their gas supplies.

Officials of Lone Star Gas Co. explained that this was a precautionary move to insure plenty of fuel for homes.

The greatest damage reported was to water pipes. Three Dallas schools were closed for this reason.

Early morning temperatures Monday ranged from Dalhart's 4 below to Galveston's one above freezing 33.

North Texas and West Texas had fair skies but it was cloudy over South Texas, where the prospective cloud cover helped save citrus and vegetables from damage in the lush Lower Valley region.

Gas Company officials Sunday cut supplies of natural gas by 25 per cent and were to cut them up to 75 per cent Monday. They said the step was made to insure adequate supplies for domestic use.

Four Dallas hospitals switched to stand-by oil heating and school officials closed three elementary schools there because of water pipes burst by the sub-freezing weather. Fire sprinkler systems broke in several Dallas stores, firemen said, but no estimate was made of the damage.

Lone Star Gas Co. said the curtailment of fuel to industrial users affected plants at Dallas, Corsicana, Fort Worth, Temple, Waco, Abilene, Sweetwater, Childress and Stamford.

Broken water pipes plagued residents in scores of towns across North and West Texas and deep into central and south central regions of the state. The fast-freezing, spraying water brought vistas of winter wonderlands that delighted photographers and children. But it brought uncomfortable work to city water crews and plumbers.

Steaming automobile radiators and stalled autos with their hoods sticking in the air marked damage to transportation of Texas citizens. Many were caught Saturday night and Sunday morning with insufficient anti-freeze in weather that broke all records for low temperatures.

Many stations Sunday morning reported the lowest temperatures on record. Many others reported the coldest weather in a quarter century.

Highway Project Here Being Pushed

The Texas Highway Department is now pushing ahead in preparations for construction of a four-lane divided highway along the route of U. S. Highway 84 through Scurry County.

Jake Roberts of Abilene, district highway engineer, indicated that this morning in a meeting with the county commissioners court. Roberts met with the court, of which three of the five members are new in office, to familiarize the court with status of highway department projects and plans here.

With Roberts at the meeting were Homer Ray of Snyder, resident highway engineer, and E. W. Couch of Abilene, head of the district's right-of-way department.

The U. S. 84 project is the major one of the highway department in this area and the only one which is at the present time definitely scheduled. The highway department is still in the process of laying out the route, performing many engineering tasks which are necessary preliminaries to highway building.

The four-lane road will be built by the state, with some federal aid, and the state will furnish half the right-of-way costs, plus costs of appraisals. J. Ray Martin, county judge, pointed out in this morning's session that the county

Castro Force Continues Its Victory March

By LARRY ALLEN

HAVANA (AP) — Fidel Castro and thousands of his hardfighting soldiers continued their slow westward march of triumph today, savoring the adulation being heaped on them as they approached Havana.

Tens of thousands in cities, towns and villages turned out to cheer wildly as Castro and his motorized columns made their way from the Oriente province center of their rebellion which overthrew the dictatorship of Fulgencio Batista last week.

The progress was slow. Camaguey, 300 miles from Havana, Sunday night; tonight, Santa Clara, scene of the decisive defeat which forced Batista to flee, 140 miles further along the march; Tuesday, Matanzas, 50 miles from the capital.

Castro and his men were expected in the capital Wednesday afternoon for one of the greatest welcomes in Cuban history.

In a prelude, Manuel Urrutia, named provisional president by Castro, was flying from Santiago de Cuba this morning to take the central government reins in Havana. A big welcome was arranged for him, with government offices closed so employes could participate.

The people of Havana awaited Castro with full stomachs for the first time since the collapse of the Batista government and the dictator's pre-dawn flight to Ciudad Trujillo.

The rebel chieftain, now commander in chief of Cuba's armed forces, ordered an end to the paralyzing general strike which had closed the nation's stores, stores, business and industries and tied up transport and communications.

Old Bolshevik Mikoyan Set To Confer With Sec. Dulles

By WALTER ROGERS

WASHINGTON (AP)—Old bolshevik Anastas I. Mikoyan, insisting he is just on vacation, set up a no-holds-barred talk about the cold war with Secretary of State Dulles today.

The 63-year-old Soviet first deputy premier flew into New York City Sunday and drove directly to Washington.

At New York's airport, he studiously ignored a group of Hungarian refugees, some of whom yelled "murderer" and "Communist dog" at him. But a larger contingent waited in vain at the Soviet U. N. mission headquarters on Park Ave., which he bypassed.

Today, however, some of the same determined picketers arranged to march with placards outside the State Department, where Mikoyan had his appointment with Dulles. Both Mikoyan and State Department officials indicated the Berlin situation would figure in the talks.

For Mikoyan so far the trip has been "America revisited." He came here in 1936, when he was so impressed with ice cream and the automat that he introduced both ideas to Russia. This time he got excited about cellophane-wrapped doughnuts, motels, parking meters and rental automobiles.

That much came out during his drive from New York to Washington and an unscheduled two-hour walk around Washington streets.

The days ahead also have no fixed schedule. Mikoyan says he will be happy to talk about anything Dulles wants, including Berlin. Dulles says "The initiative is his." Mikoyan says he would be pleased to talk to President Eisenhower if the President has time. The White House says it is up to Mikoyan to ask.

One thing stood out clear. The critical Berlin situation—provoked two months ago by Soviet Premier Khrushchev—is the biggest cold war issue at present, and hence the most likely topic of any talks Mikoyan holds here. The question in the official American mind was: How far is Mikoyan authorized to go—if at all—in backing down from Khrushchev's seeming utlimatum, rejected by the West, that the allies pull their troops out of West Berlin by next May?

A Khrushchev note Nov. 27 said Russia would turn over East Berlin to the puppet East German Communist regime in six months. The United States, Britain and France told Russia firmly, in a note last week, they were staying put in West Berlin, and called for big four conferences on the whole German question.

Mikoyan is expected to take off on a 10-day tour of several American cities Tuesday. He is reported considering stops at Philadelphia, Chicago, Detroit, Cleveland, Boston, Dallas, San Francisco and Los Angeles. He will address the Economics Club in New York City Jan. 14 and the National Press Club in Washington, Jan. 19.

But any attempt to learn details of his plans draws a Slavic shrug at the embassy and such comments from Mikoyan as, "I am on holiday and I am a free man."

Tonight Mikoyan attends a dinner given by Eric Johnston, head of the Motion Picture Assn of America. Johnston invited members of Congress and the executive branch. So far he has kept the guest list a secret.

Mrs. Carleton Dies Today

Funeral services will be held at 2 p.m. Tuesday for Mrs. Willie Virginia Carleton, 78, who died at the home of a daughter, Mrs. James Patterson, 319 Twenty-ninth Street, here about 7:15 o'clock this morning.

Mrs. Carleton was born Oct. 14, 1876, in Windom in Fannin County, Texas. She moved to Snyder from Windom in 1924.

Her husband, William V. Carleton, died in 1937.

Mrs. Carleton is survived by three daughters, Mrs. Leon Withers of Dallas, Mrs. James Patterson and Mrs. Paul Claybrook both of Snyder; two sisters, Mrs. Maude Duke of Amarillo, and Mrs. Cora Martin of Honey Grove, Tex.; nine grandsons, three great grandsons and two great granddaughters.

She was a member of the Twenty-fifth Street Church of Christ.

Funeral services will be held in the Twenty-fifth Street Church of Christ with Glen Pace, minister officiating, assisted by C. Dale Brooks, minister of the Thirty-seventh Street Church of Christ.

Burial will be in Snyder Cemetery under direction of Bolger Funeral Home.

Pallbearers are to be grandsons of Mrs. Carleton.

Brigitte Planning Wedding On Jan. 29

PARIS (AP) — France's well turned movie cutie Brigitte Bardot and her jazz-guitarist fiance Sacha Distel have set Jan. 29 as their wedding date, friends of the couple say.

WEATHER

SNYDER TEMPERATURES: High Sunday, 27 degrees; low, 7 degrees; reading at 7:30 a.m. today, 9 degrees. High Saturday, 27 degrees; low, 0 degrees; reading at 7:30 a.m. Sunday, 1 degree.

North Central Texas: Partly cloudy and not so cold through Tuesday. Lowest tonight generally in 20s.

West Texas: Partly cloudy and not so cold through Tuesday. Lowest 10 to 25 in Panhandle, South Plains and Upper Pecos Valley eastward.

East Texas: Partly cloudy to cloudy Tuesday with slowly rising temperatures. Cold tonight with lowest 20 to 30 in interior and 30 to 38 near coast. Some rain near coast Tuesday.

South Central Texas: Cloudy with occasional rain Tuesday and in extreme south this afternoon or tonight. Slowly rising temperatures. Lowest 30 to 40 tonight.

State's Toll Reaches 47

By The Associated Press

The long New Year's weekend brought violent death to 47 persons, most of them dying in fires, shootings and stabbings.

At last count, 13 had died in traffic accidents. The cold wave killed four others.

The Associated Press started its Texas count at 6 p.m. Dec. 31 and ended it Sunday Dec. 4 at midnight, a total of 84 hours.

The latest deaths recorded included:

Buster Clyde Burks, 21, was found shot to death in a Dallas apartment Saturday. A pistol was nearby.

A Missouri-Kansas-Texas freight train struck a car Sunday at a crossing in Celeste, Tex., and killed C. L. Burns, 66, of Celeste. The village is 10 miles north of Greenville.

U. S. Is Lucky In Cuban Revolution

By WILLIAM L. RYAN
AP Foreign News Analyst

HAVANA (AP) — The United States has been fairly lucky so far with the Cuban revolution.

The big neighbor to the north is still popular with the Cubans. But some of that popularity, as well as prestige elsewhere in Latin America, likely will be lost if Washington drags its feet about recognizing the new provisional government of Cuba.

By banning the shipment of arms to Fulgencio Batista's government during the revolution, the United States seriously hurt the dictator's cause. In Cuba it was considered the United States actually had sided with Fidel Castro's rebels, particularly since smuggled arms continued to stream steadily to the rebels from U.S. sources.

That built up goodwill for the U.S. government. But Washington likely would surrender some of that goodwill if it lets the Soviet Union and other Communist countries grab the distinction of being the first to recognize the new regime.

The United States has seldom in modern history been on the side of popular revolution in the non-Communist world. And it has had little hesitation in the past in recognizing regimes brought to power through military coups d'etat. American action in Cuba will be watched throughout Latin America as an indication of whether Washington learned anything from the riots that greeted Vice President Nixon in Venezuela.

There is no point now in Washington worrying about whether Communist elements are involved in the revolution. The rebel leaders have indicated they intend to keep the Reds at arms' length.

There can be no doubt about the popularity of Castro's revolution. The depths of the hatred of the Cuban people for Batista, his dictatorship and the dreary history of corruption on a fabulous scale has to be seen to be believed.

The new government is starting off on an enormous wave of popular support. Failure by the United States to encourage it—indeed to offer it help and guidance—is certain to be deeply resented.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS — Fred Linville, Lorena; Linda Milam, Route 1; Robbie Guinn, Hermleigh; Robert McKinney, 3702 Noble Drive; Loretta Curtis, Route 3; Eunice Odom Rowe 1; Beulah Ratliff, 1007 Twenty - third Street; Cheryl Ann Colclazer, Route 3; Dellene Leatherwood, Post Road; Lionel Richardson, 1910 Thirtieth Street; Renate Ranostaj, 2104 Fortieth Street; Ella Pendleton, Route 1; Virgil Joines, 102 Peach Street; Dianne Lilley, 2104½ Twenty-eighth Street; Nancy Griffith, 2700 Avenue G; James Lee, 1506 Twenty-sixth Street; Mildred Hall, 1113 Twenty-fifth Street; Della McPherson, Route 1; Ruby Parrish, 3009 Avenue T; Martha Leech, Hermleigh; Oliver Smith, 1113 Twenty - fifth Street; Ada Staton, Route 2; Bobbie Culp, Hermleigh.

DISMISSALS — Carol Calvert, 1805 Twentieth Street; Terry Alford, Snyder; Garfield Hembree, Snyder; Norma Neighbors, 309 Thirty - fourth Street; Bob McKinney, 3702 Noble Drive; Fred Linville, Lorena; Linda Milam, Route 1; Vera Gonzales, 2208 Avenue T; Mrs. W. A. Taylor, Route 1; Steve Boone, Midland; Jeanette Harmon, 2211 Fortieth Street; Lynn Bradley, Snyder; W. Collins, Snyder; Mrs. Lela Carmichael, Fluvanna; Rea Falls, Route 1; Stanley Camp, Route 1; James Buchanan, 1601 Twenty - seventh Street; Anita White, 2900 Avenue S; Joyce Ratliff, 1007 Twenty-third Street; Marvin Blalock, 3119 Avenue T; Lizzie Johnson, 906 Twenty - seventh Street; Johnny Everts, Route 3; Ruth Gregory, Snyder; Nancy Coffee, 1500 Avenue R; William Lee, Snyder; Viola Bowen, Box 1306; Lupe Prieto and baby, Route 3; Mrs. Ella Pendleton and baby, Route 1; Mrs. Dellene Leatherwood and baby, Post Road.

Holt Service Set Tuesday

GATESVILLE (Spl.) — Funeral services will be held here at 10 a.m. tomorrow for William Albert Holt, Sr., father of three Snyder men.

Mr. Holt died at 4:10 p.m. yesterday in Coryeal Memorial Hospital here after a long illness.

Born Sept. 14, 1890, in North Carolina, he first came to Coryeal County with his family when he was two years old. He once lived in Snyder, from 1926 to 1928, and was employed by Ely & Arnold Gin and Fuller Gin. For a number of years and until his illness he was in the laundry business here. He was a member of the First Baptist Church here.

The Rev. K. S. Rankin, Baptist minister of Amherst, will officiate at services at the First Baptist Church here, assisted by the Rev. Sam McNeil, pastor of a local Baptist mission. Burial will be in the Restland Cemetery here under direction of Scott Funeral Home.

Survivors include the widow, Mrs. Annie Holt; seven sons, Wayland Holt, district attorney in Snyder, Lowell Holt of Gilmer, Garland Holt of Kansas City, Russell Holt of Atlanta, Bradford Holt of Snyder, James Holt of Odessa, and W. A. (Dub) Holt, Jr., of Snyder; and 13 grandchildren.

W. T. Williams from Wilson Motors, 1959 Mercury four-door.

W. K. Bigham & Sons from Wilson Motors, 1959 Ford four-door.

McWood Corp., Abilene, from Wilson Motors, 1959 Ford pickup.

Burton Echols from Wilson Motors, 1959 Ford four-door.

Sidney W. Johnson from Lamb Chevrolet, 1959 Chevrolet station wagon.

T. Jay Rogers from Lamb Chevrolet Co., 1959 Chevrolet four-door.

Jackson New Board Head

By ED OVERHOLSER

AUSTIN (AP) — W. W. Jackson of San Antonio moved up from vice chairman to chairman of the Board of Education today.

Jackson was elected by acclamation to replace Tomas Ramey of Tyler. Cecil Morgan of Fort Worth was elected vice chairman and Mrs. Joe Wessendorff of Richmond secretary.

The board selected Horace Jackson, former mayor of Gatesville, and Herbert Willburn of Amarillo as new members.

Horace Jackson, president of the Gatesville Savings and Loan Assn., and a Baylor trustees, will replace A. F. Waggoner of Temple who resigned. Willburn replaces A. R. Bivins of Amarillo, who died Oct. 30.

Highway Project

Continued From Page 1

will actually be paying only about 10 per cent of the actual total cost of the project, and Roberts agreed.

Just when the road will be built is still indefinite. Roberts said the project is on the books for 1959-60 construction. When engineering work reaches a certain point, a public hearing will be held here, at which persons along the route and others interested will be told and shown just how they and their property will be affected by the road. An appraisal committee appointed by the state, composed of three men, will then appraise needed right-of-way, and the county will begin right-of-way purchases. By the time the county has completed right-of-way buying, the state will be ready to go on construction, Roberts said.

In the morning's discussion, Roberts was asked about the status of the proposed widening of Thirty-seventh Street from the Big Spring highway to the Sweetwater highway. Roberts said widening of that road was once approved, with the state to pay for construction if the county furnished right-of-way. It was approved about three years ago, and the state furnished the county deeds. Only a part of the right-of-way was ever bought, however, and because of the county's failure to buy right-of-way the state used the money elsewhere.

The court voted to ask Roberts to attempt to reinstate that project, and members of the court said this time the county definitely will secure the right-of-way. Robert asked the court to give him time to take a new look at the project. It was originally planned to be widened to a wide two-lane road. "It may need four lanes," Roberts said, adding that he must study the project. Any recommended project for that road must be submitted for state highway commission approval, he said.

Roberts also commented on possible widening of State Highway 350 southwest of here in the near future. The road is already wider in Howard County, and possible widening of the road the rest of the way to Snyder will probably come as soon as funds are available, he said.

The U. S. Highway 84 project, which actually will run from Roscoe to the Garza County line, will cost $2 to $3 million for construction. The total is 51 miles, 40.7 of which is in Scurry County.

Roberts said there will be a grade separation on the four-lane highway as it crosses U. S. 180 east of Snyder. A by-pass along the north side of Snyder will be included in the project. Roberts said he will recommend other grade separations, including one at each end. Right-of-way will be a minimum of 200 feet in width, instead of 300 feet, as originally proposed.

There is no good estimate yet, Roberts said, of how much right-of-way will cost. An estimate was made several months ago that total cost of the right-of-way will be some $750,000, of which the county will pay half.

Roberts said traffic on U. S. 84 does not in itself warrant a four-lane divided highway. However, the interstate highway system, which includes U. S. 80 and 66, brought about a need for a better arterial road system. Also, the heavy truck traffic in West Texas, as well as high speed of most traffic, are factors in the need.

A four-lane divided highway is already being built through Garza County on U. S. 84, and the project to get underway in this area will meet it.

BIRTHS

Born during the weekend in Cogdell Memorial Hospital:

A daughter, six pounds, five and three-fourths ounces, to Mr. and Mrs. Jose Prieto, Route 3, at 8:31 a.m. Friday.

A daughter at 2:30 p.m. Friday to Mr. and Mrs. Joe Leatherwood, Post Road, weight seven pounds, 12½ ounces.

A seven - pound, eight - ounce son to the Rev. and Mrs. Ralph Odom, Route 1, at 10:30 p.m. Friday.

A seven - pound, 12-ounce son at 6:30 a.m. Saturday to Mr. and Mrs. Jessie Pendleton, Route 1.

An eight - pound, five - ounce son to Mr. and Mrs. Edward Ranostaj, 2104 Fortieth Street, at 4:56 a.m. Sunday.

A son, six pounds, 10 ounces, to Mr. and Mrs. J. H. Parrish, 3009 Avenue T, at 8:45 p.m. Sunday.

A son at 11:35 p.m. Sunday to Mr. and Mrs. Donald Joe Culp, Hermleigh, weight eight pounds, 10¼ ounces.

A five - pound, 10 - ounce daughter at 4:45 a.m. today to Mr. and Mrs. Sylvester McKnight, Route 2.

Trailerhouse Is Damaged By Fire

A trailerhouse owned by E. B. Compton and located in Rigsby Trailer Courts was slightly damaged by fire about 9 o'clock yesterday morning.

Firemen who went to the scene said the fire started when occupants were attempting to thaw water pipes.

Death Count May Match Estimates

By The Associated Press

Traffic	370
Fires	61
Miscellaneous	112
Total	543

The nation's traffic death toll during the long New Year weekend, showing sharp upward trends at the start and the close, edged toward the preholiday estimate of 390 today.

The final count awaited delayed reports of accident deaths which occurred up to midnight Sunday. It started at 6 o'clock (local time) New Y.r's Eve.

Although it appeared possible the final total would reach the National Safety Council's estimate, indications were the final toll would be under the record traffic toll of 409 for a New Year holiday period. That mark was posted in a four-day period at the end of 1956 and the start of 1957.

The Council noted the swift pace of deaths on the highways Sunday as the homeward rush of motorists reached the peak of travel. The upturn was similar to the toll on New Year's Day after a relatively safe start.

Weather was a big factor in the count. Many accidents were attributed to the snow and ice-slicked highways. But the hazardous driving conditions also resulted in keeping many Sunday drivers at home. The bitter cold weather throughout many areas also was responsible for the lighter traffic.

The New Year traffic toll was far under the slaughter on the highways during the four-day Christmas holiday period. The Christmas accident deaths included 594 in traffic, 93 in fires and 97 in miscellaneous type mishaps, an over-all total of 784.

The Associated Press, for comparative purposes, made a survey of accident deaths during a nonholiday period of four days, from 6 p. m. Wednesday Dec. 10 to midnight Sunday Dec. 14. It showed 341 deaths in traffic, 106 in fires and 105 in miscellaneous type accidents, an over-all total of 552.

In the New Year period, California, as during the Christmas weekend, led all states in traffic fatalities. More than 40 were reported as against more than 60 in the Christmas period.

NAACP Says Unions Still Discriminate

NEW YORK (AP)—The National Assn. for the Advancement of Colored People has complained to the AFL-CIO that racial discrimination is still practiced in unions.

Returned To Home

Mrs. J. O. Leech, Hermleigh, was taken yesterday afternoon from her home to Cogdell Memorial Hospital by Bell ambulance.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*)—discovery of a world-famous research institute.

This substance is now available in *suppository or ointment form* under the name *Preparation H.** At your druggist. Money back guarantee.

OPTOMETRY: *The Art and Science of Visual Care*

This is a sign of LIFE

It takes time to see and time to act. That's why good vision is important to safe driving.

With 20/50 vision, you won't see a STOP sign nearer than 90 feet. At 60 miles an hour you will be 200 feet PAST the sign before you can stop.

And at night the problem is multiplied. That's why two-thirds of all traffic deaths occur at night.

Seeing quickly and clearly is vital to safe driving. An examination by a professional optometrist *every year* can tell you if you are visually prepared to drive. He might help you save a life — maybe your own.

Don't live to regret! Live to be thankful that you could *see* the Sign of Life.

EMPIRE WOOL JERSEY—From the tip of its portrait collar, underscored with a giant rose, to its sleek and fluid Empire silhouette, this Lebanon wool jersey frock has all the makings of the perfect, young, late-day dress. It is styled with modest cap sleeves, and includes taffeta lining throughout for non-cling benefits. The resilient Lebanon fabric in wool jersey keeps its smooth surface without pressing worries. A Jane Parker design comes in colors of Paris pink, corn-flower blue, lilac, and black.

WOMEN

Your Children Need After-School Snacks

By DOROTHY V. WHIPPLE,M.D.
AP Newsfeatures

Almost every child wants something to eat when he comes home from school in the afternoon. Teenage youngsters especially are famished by mid-afternoon. They raid the ice-box, the cookie jar, the breadbox, and sometimes they eat up what you had planned to serve the family for dinner. These snacks often interfere with appetites for dinner, especially if the snacks are mostly sweets. Then the youngsters passes up the good nourishing food you have prepared for him and you begin to worry about his health.

This is a little problem that exists in nine families out of ten all across the country. Some families just live with it, nagging sometimes when mother becomes especially annoyed. Some families try to forbid food in the midafternoon, others supply a bowl of fruit and hope the youngsters will be satisfied with that — usually they are not.

Why not just face the facts. Kids are hungry after school, but you also want them to eat enough good body building foods to keep them in robust health.

Plan Ahead

Prepare for an after school meal. Label one shelf in your refrigerator "Mabel" or "Tom". Every morning when you are cleaning up after breakfast put something good on that shelf. Something that tastes good and that the child likes and something that is good for him — not cake or pie or heavy swets but good protein food, cheese, hard boiled eggs or maybe even deviled eggs, a piece of cold meat. Add a piece or two of fruit and something to drink, either milk or fruit juice. Make that shelf something the youngster looks forward to. Explain to him why you don't want him to fill up on sweets just a little while before dinner. He will cooperate especially if he enjoys the food you fix for him.

If he eats a little less at dinner there is nothing to worry about, because the food he has had in the afternoon was as good for him as the dinner food.

Appreciation

Every last one of us likes to have others do things for us. It makes us all feel good inside to know that someone cares enough about us to go to trouble for us. Your teen-ager will appreciate your efforts and you can often improve your relationship with your often rebellious adolescent by going to some trouble to fix him a good after school snack.

Of course you may find that you are appreciated not only by your own child but by the neighborhood as well. Not only the trouble of preparing the food, but the expense can become considerable. If you find you're feeding an army, put up a little box and simply say the expense is getting you down and you would appreciate a few contributions. Let them give you what they'd otherwise spend in the corner drugstore. They'll do it and your child will be the envy of the crowd for having such a swell mother.

UNION NEWS

By MRS. J. B. ADAMS

Mr. and Mrs. Dee Myers and J. T. spent Christmas day with Mr. and Mrs. Clarence Myers at Barnhart, where they were met by the other brothers of the family.

Mr. and Mrs. Elzie Ledbetter, Donnie and Dannie, spent the Christmas holidays with relatives in Mineral Wells.

Mr. and Mrs. Jack White spent Christmas day in Lubbock with their daughter and family.

Visitors with Mr. and Mrs. Paris McPherson Christmas day were, Mr. and Mrs. Herman McPherson of Big Spring, Mr. and Mrs. Jimmy Boyd of Canyon, Mr. and Mrs. Byron McPherson of Sweetwater and Mrs. A. M. McPherson of Snyder.

Mr. and Mrs. Howard Hogue visited Saturday with relatives in Brownfield. They were met there by their son Mr. and Mrs. Royce Hogue and baby of Dallas, who came home with them for a visit.

Visitors this week with Mr. and Mrs. Jack White are their daughter, Mr. and Mrs. Grisham and children of Albuquerque, N. M.

Mr. and Mrs. Paris McPherson went to Plainview Monday for a get-to-gether of the Carrell children.

Mr. and Mrs. Hal Clarkson and children of Phoenix, N. M. spent the holidays with their parents, Mr. and Mrs. Everett Clarkson.

A watch night prayer service was held Wednesday night at both the Baptist Church and the Methodist Church.

The young people of the Baptist training union held a New Year's party at Mrs. Julieus Roemisch home before the watch night paryer service. About 20 attended with Mrs. Lonice Hall and Mrs. Jamie Roemisch as sponsors.

Holiday visitors with Mrs. J. B. Adams were Mr. and Mrs. E. M. Boles, Joe C. and Donna of Lamesa, Mr. and Mrs. Wayne Boles of Welch, Mr. and Mrs. Virgil Jones and Anita of Bangs, Mrs. Jimmy Moseley of Fort Worth, Mr. and Mrs. Don Adams and Joe Mark of Snyder, Mr. and Mrs. H. W. Adams, Robert and Marv Ann of McCamey.

WOMEN'S CALENDAR

MONDAY

Gamma Upsilon Chapter of ESA meets at 7:30 p.m. in the Snyder community room. Mrs. Darrell Black, hostess.

The Evening Circle of the First Methodist Church will meet at 7:30 p.m. at the church to study the book of Isaiah.

TUESDAY

A membership tea of Wesleyan Service Guild and WSCS with the Guild as hostess in fellowship hall of Trinity Methodist Church 7:30 p.m. Mrs. Robert Hargrove will give a book review.

Women's Culture Club meets at 3 p.m. at the Martha Ann Woman's Club with Mrs. Lora Miller, hostess.

Art Guild meets at 7:30 p.m. with Vivian Hill as hostess.

Exemplar Chapter of Beta Sigma Psi mets at 7:30 p.m. with Mrs. Arel Faver, 4107 Denison Avenue as hostess.

W. W. Club meets at 7 p.m. Bessie Stone 1008 Avenue R, hostess.

Alpha Study Club meets at 3:30 p.m. at Martha Ann Woman's Club. Mrs. Nolan von Roeder, hostess.

Buena Cloud Circle of the First Presbyterian Church meets at 9 a.m. with Mrs. Harriet Redwine, Denison and Forty-second Street at 9 a.m.

The Neomi Circle of the First Presbyterian Church meets with Mrs. W. R. Everett, 1901 Twenty-ninth Street at 9 a.m.

WEDNESDAY

Helen Clemmer circle of Trinity Methodist Church meets with Sarah West, 319 Thirty-fourth Street at 9:30 a.m.

Rebecca Circle of Trinity Methodist Church meets at 9:30 a.m. with Mrs. Ruby Spradlin, 2302 Forty-first Street.

Cosmorama Club meets at 4 p.m. at Martha Ann Clubhouse. Louise Kincaid and Irene Smyth hostesses.

Acacia Study Club meets at 3:45 p.m. at the Martha Ann Woman's Club with Mrs. J. D. Hinton, hostess.

Wesleyan Service Guild of First Methodist Church meets in Nancy Caton classroom at 7 p.m. Mrs. Billy Youree, leader.

THURSDAY

Twilight Garden Club meets at 7:30 p.m. at Martha Ann Woman's Club. Mmes. Phillips, Hurst and Pinkerton, hostesses.

Town and Country Garden Club meets at 2:30 p.m. at Martha Ann Club. Mrs. Sonne Umberson, hostess.

Opti-Mrs. Club meets at 7:30 p.m. in the community room of Snyder National Bank.

FRIDAY

Ladies Golf Association at the Country Club, 1 p.m.

Altrurian Club meets at 3 p.m. at the Martha Ann Clubhouse. Mrs. D. M. Cogdell Sr., hostess.

SATURDAY

Children's story hour at Scurry County Library 9:30 to 10:30 a.m.

SUNDAY

Luncheon at Martha Ann Woman's Club. Reservations deadline 5 p.m. Saturday.

NEWS FROM FLUVANNA

By MRS. SID MILLER

Mr. and Mrs. O. D. Jackson and family of Gail and Mr. and Mrs. O. D. Adams and family of Belton, spent Christmas with Mr. and Mrs. A. L. Odom. They all attended the funeral of Mr. Odom's mother on Christmas eve at Whitney, Tex.

Those visiting Mr. and Mrs. Robert Warren were their children, Mr. and Mrs. J. W. Warren and son of Grant, N. M., Mr. and Mrs. Noble Oliver and girls of Lovington, N. M., Mr. and Mrs. Jim Sullinger Jr. and family and Mr. and Mrs. Ralph Price and Ann all of Snyder, and Mr. and Mrs. Bob E. Warren and family.

Mr. and Mrs. Lee Roy Adams and family of Wingate visited her mother, Mrs. Viola Carmichael and other relatives here recently.

Mr. and Mrs. Bob Gregory and son of Arlington and Mr. and Mrs. W. E. Lovelace of Knox City, spent Christmas with Mrs. Viola Carmichael.

M-Sgt. and Mrs. John H. Roddy of Wichita Falls spent the Christmas holidays visiting Mr. and Mrs. A. M. Lindsey and other relatives here, and also Mr. and Mrs. Jim Roddy in Snyder.

Mr. and Mrs. M. Z. Carruthers of Snyder spent Christmas with her brother, Mr. and Mrs. Sid Miller and family.

Mr. and Mrs. Bob E. Warren and family visited Christmas day in Odessa with Mr. and Mrs. D. A. Perry and family.

Mr. and Mrs. H. M. Creek and Eddy of New Port, visited recently with Mr. and Mrs. Robert Jones and boys.

Mr. and Mrs. Robert Jones and boys and Mr. and Mrs. Billy Cade and family of Jayton, visited recently in Bangs with Mr. and Mrs. W. J. Strickland.

Mr. and Mrs. Benny Benson and family of Longview have been visiting his mother Mrs. Ruby Benson.

Those visiting Mr. and Mrs. Lee Lavender for Christmas were Mr. and Mrs. Rosser Lee Jones and daughter of Midland, her father, Mr. and Mrs. Bunyon McDow, Mr. and Mrs. Earl McDow and Mr. and Mrs. Frank Pruitt all of Snyder.

Mr. and Mrs. A. M. Lindsey and Elbert and Mr. and rs. Sid Miller and family had Christmas dinner with Mr. and Mrs. Bud Heath and family of Snyder. Other relatives there were Mr. and Mrs. L. B. McDonald, Raymond and Dorris McDonald and Buddy McCorkle all of Bangs, M-Sgt. and Mrs. John H. Roddy of Wichita Falls and Mr. and Mrs. Jesse Lindsey and Billy of Snyder.

Mr. and Mrs. Clint McCowen of Snyder visited Mrs. Dan Blair, Hylen and Dan Sunday.

Mrs. Mole: McDonald of Coleman is visiting Mr. and Mrs. Panch McDonald.

Those visiting Friday night with Mr. and Mrs. A. M. Lindsey and Elbert were M-Sgt. John H. Roddy of Wichita Falls, Mr. and Mrs. Ralph Lindsey and family of Ira, Mr. and Mrs. Bud Heath and family, Mr. and Mrs. Jesse Lindsey and family all of Snyder, Mr. and Mrs. M. Z. Carruthers of Snyder and Mr. and Mrs. Sid Miller and family.

Mr. C. R. Sneed and Joe Sneed, Mr. and Mrs. Guy Turner Jr. and family and Mr. and Mrs. Earl Sneed and Jimmy, visited recently in Winters with Mr. and Mrs. Jack Harrison.

Mr. and Mrs. Jack Turner and daughter of Arlington, Mr. and Mrs. Ernest Turner of Gail and Mr. and Mrs. Carl Turner of Snyder visited Mr. and Mrs. Guy Turner, Jr. recently.

Jimmy Sneed is visiting relatives in Oklahoma.

Mr. and Mrs. Ross Belew and children of Haswell, Colo. are visiting Mr. and Mrs. J. J. Belew.

OUR VIEW

Hollow Recognition

Van Cliburn, the sensational 21-year-old pianist from Kilgore, Tex., has been removed from consideration as one of America's 10 outstanding young men of 1958.

This revelation was made Saturday by the U. S. Junior Chamber of Commerce.

Spokesmen for the Jaycees hastily explained that Cliburn had not been dropped from the list on simple merits. Instead, the action was taken because Cliburn has an engagement to appear in Birmingham, Ala., on Jan. 17, which is the date set for ceremonies for the outstanding young men.

In other words, the Jaycee officials indicated that, regardless of accomplishments in life itself, the most important factor connected with the award is appearance in person at the ceremonies.

The announcement may come as a shock to the general public, and perhaps to some of those who have been selected for such honors. We had assumed that outstanding young men in various fields of endeavor got that way by virtue of outstanding achievements in their life's work, plus service to their fellow men.

Casting aside accomplishment in favor of personal appearance on a given date tarnishes the honor for those who actually receive it, because all have been served notice, in effect, that no matter what their claim to fame may be, their honors add up to naught if they are unable to appear in Fort Lauderdale, Fla., on Jan. 17.

New Senate Set For Rules Fight

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The new Senate explodes Wednesday in a fight over changing its rules. It may last weeks and much of it will sound dull. But it's far-reaching. This is an ABC on it.

A bloc of northern Democrats and Republicans wants to change Senate Rule No. 22, which makes it so hard to smash a filibuster that none has been broken in 31 years.

The Senate prides itself on its rule of practically unlimited debate. Debate can have two purposes: To discuss an issue fully before a vote on it or to prevent a vote altogether. The latter is the filibuster.

The 98 senators will do most of their business — passing bills — by just a simple majority of those present on the floor at voting time. A full majority, harder to get, would be 50 of the 98.

But under Rule No. 22, shutting off a filibuster against a measure —to let the Senate by a simple majority vote decide its fate—requires a two-thirds vote of all the senators, or 66 of the 98.

Getting such a two-thirds vote is almost impossible, except in some national emergency. The reason: So many senators, not just southern Democrats, favor the principle of unlimited debate.

It isn't hard for each to foresee the time when he, too, may want to use it to prevent passage of legislation he intensely opposes.

The filibuster has been employed against various proposals in the Senate's long history. In recent years southerners particularly have used it, and successfully, to prevent passage of civil rights bills.

The northerners, favoring new civil rights legislation, protest that Rule No. 22 permits a minority in the Senate, where southerners are in a minority, to thwart a majority.

Southerners argue that a minority under Rule No. 22 can protect itself against the unwelcome will of a Senate majority.

But why all the fuss about changing Rule No. 22? Since the Senate adopted this rule itself, can't it change it easily? Not easily. Here's why:

No time limit of any kind can be put on a filibuster against a proposal to change the rule.

This raises such an obstacle to changing rules once the Senate is in business that the northerners have settled on another plan. It failed in 1953, and again in 1957 and may not work this time.

Senators are elected for six years. Although every two years the seats of one-third of them are at stake in the elections, the other two-thirds are still in the Senate, serving out their unexpired terms.

Because of this, opponents of any change in Rule No. 22 argue that even when there is a new session of Congress, as there is this year, it does not mean a new Senate. They say:

The Senate is never a new but a continuing body. So in each new session of Congress the Senate continues to have the same rules under which it did business in the preceding Congress.

The northerners will argue Wednesday, as before, that each new session of Congress means a brand new Senate and as such the new Senate does not have to inherit rules but should adopt its own.

So they will ask Wednesday, before the Senate is fully in business, that it adopt new rules. If they can win that point, they will ask that Rule No. 22 be changed before it's adopted. They reason:

If the Senate agrees that the old rules don't apply until they are freshly adopted, then Rule No. 22, with its protection for a filibuster against a rule change, doesn't apply, doesn't exist, and can't work.

In short, the northerners argue: Until new rules are adopted, the Senate will not be operating under Rule No. 22 or any other previous rule but only under parliamentary law.

This will lead to argument on whether parliamentary law, where rules are concerned, requires a simple majority or two-thirds vote. And no doubt there'll be a filibuster of some kind.

All this should cause a parliamentary snafu on a grand scale.

American Bosses Out-Rate British

By HAL BOYLE

NEW YORK (AP)—Two pretty and adventurous British secretaries, after a 15-month work-travel tour of America, have come up with these conclusions:

"American bosses are more lenient than British bosses."

"In England you get longer lunch periods, but in America you have longer coffee breaks."

"Here a boy on a date asks a girl what she would like to do. In England he has a plan and tells her what they will do. But American boys, on the whole, are more enterprising."

The girls, Hilary Birley and Cecily Thompson, both 22, landed in this country in September, 1957, with $280 each and a determination to see the United States. They drew up their tour with the help of Manpower, Inc., an organization specializing in providing industrial firms with skilled employes on a part-time or emergency basis.

In their journey across America and back the two girls held some 40 jobs and earned about $2,200 each.

"We held about every type of job you can imagine," said Hilary. "We waited on tables in Aspen, Colo. We mixed drinks at a convention in San Francisco, we made surveys in Minneapolis, we worked as secretaries in several cities."

"People everywhere were friendly and willing to give us jobs," said Cecily. "We could have earned a lot more, but we took a number of vacations so we could get to see more."

The girls bought a second-hand car in San Francisco for $160—"we named it Celeste"—and drove it 9,000 miles. They then reluctantly sold it to a Minneapolis junk dealer for $30 rather than invest $50 more to repair it.

The high-spirited girls said the biggest blow to their pride came in Aspen when they overheard a chef grumble: "I wish those girls would learn to speak English."

"But we ran into a number of misconceptions about Britain," said Cecily. "Many people here still seem to have the idea that the British working class is oppressed, that food is rationed in our country, that the British have no sense of humor, and that everyone in England drinks tea. Neither of us happens to like tea."

What thing about America upset them most?

"I suppose," said Hilary, "it was the time we went on a date out West and one of the boys ordered a hamburger and topped it with a slice of pineapple and a maraschino cherry."

And the hardest thing about America to adjust to?

"Girls going to work in the morning still wearing bobby pins in their hair," said Cecily.

"No, men wearing T-shirts in public," said Hilary.

What did they miss most from their homeland?

"The taste of good sharp cheese," said Cecily. "Here all your cheese seems to be processed."

"We both missed the year-round greenness of England," added Hilary.

What quality do they think the British have that Americans lack?

"An ability to amuse themselves," said Hilary, after a thoughtful pause. "The British are more self-sufficient in the use of leisure. The American is likely to be at loose ends if he doesn't find something outside himself to entertain him."

And Cecily added: "The British young people have more respect for their government, their police, and their elders."

But both girls agreed they'd had a wonderful time and would like to come again. They also think it would be a fine idea if more American working girls would go to Britain and Europe and learn about living conditions there on a similar job-travel program.

"The best way to learn a country is to work in it," said Hilary.

Cars Near Limit On Size Changes

By DAVID J. WILKIE
A.P. Automotive Writer

DETROIT (AP) — The average American-made automobile rapidly is nearing its limit in length, width and low silhouette.

For 1959 many makes are wider—some as much as three inches.

Many makes are as low as 4½ feet. In many cars the lowered silhouette was achieved by the tendown design that sharply lowers car floor and seat.

But the longer, lower and wider automobiles are coming in for continuing criticism in numerous sources. Included are complaints that the longer vehicles are difficult to put into parking spaces and in conventional owner garages; that they cannot be conveniently handled on service station lifts and on regulation automatic wash racks.

It is true, however, that the increased length and width have added comfort and safety to the vehicles. With the lowered gravity center that goes with the lower and wider design, the cars are less easily overturned, industry engineers say.

These experts say road clearance has not been sacrificed to reduce over-all height of the car. One maker lowered the hump by moving the car engine forward several inches and increasing the length of the front compartment.

One sure thing about future design is that the big transmission hump eventually will disappear. It may require some important changes in the car transmission, but the auto makers do not like the criticism that the hump makes four-passenger cars out of what generally are called six-passenger vehicles.

Bearded Dog Lover Is Frozen To Death

AMARILLO, Tex. (AP)—Robert Tilton, 79, a bearded dog lover, was found apparently frozen to death in his unheated shack Sunday.

Nine dogs, mostly hounds, were in the shack with Tilton's body.

Peace Justice Clifford Roberts ordered an autopsy. He said the body "was frozen stiff and Tilton apparently had been dead for several hours." Temperatures had dropped to below zero.

Tilton was a familiar figure on Amarillo streets, accompanied by his beloved dogs.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THE INJURY "JINX" which plagued the Tiger footballers throughout the season, is already taking its toll with the Tiger basketeers.

It's still two weeks away before the Tigers will begin defense of their District 3-AAA title but already two regulars are on the sidelines because of injuries.

The most recent regular lost was center Tim Roberts who suffered a broken ankle in last Friday's game with Borger. Roberts' ankle will be in a cast some six or seven weeks, meaning, of course, that he'll be out for the remainder of the season.

This was a tremendous blow to the Tiger chances of making a serious bid for their third straight district title. Tim was the tallest Tiger at 6-3 and the team's top rebounder and second leading scorer.

Among Roberts' achievements this year was making the all-tournament team in the Vernon Invitational. Roberts scored 25 points in two games in the Vernon tourney.

With Roberts out of the lineup, the Tigers probably will have the shortest Class 3A team in the state. Only one Tiger regular now, Danny Tankersley at 6-2, stands above the 6-foot mark.

The other Tiger regular on the sidelines is guard Johnny Drake. Drake hasn't played a "down" this season because of a recurrence of an old knee injury. Drake, who started against Howard County Junior College "B" team in a pre-season practice game, re-injured his knee in the game and hasn't played since.

It's possible that Drake may return before the 3-AAA race starts but missing the first half of the season will hurt dearly.

Rugged Schedule

The Tigers will close out their pre-district schedule this week against two tough 4A foes, San Angelo and Midland, both on the road.

The Bengals have lost six games to date but five of those defeats were administered by classy teams, Tom S. Lubbock with a 10-3 record; San Angelo (11-2), Borger (10-3), Seminole (11-3) and Amarillo (7-6).

This week the Tigers will be going against San Angelo again and Midland which is sporting a 12-2 record for the season.

The Bengals, thus, are tackling one of the toughest schedules in several years. When you consider the Bengals opened with only three lettermen from last year and that one hasn't yet played, their 4-6 record at the moment is remarkable.

Out On Limb

It appears now that Hereford will again represent this region in the state tournament in Class 3A this season. Hereford returns three regulars from the team that won the region title last year and the Whitefaces are rolling along at a pretty rapid clip to date.

If we were to pick the four teams who'll be in the Region 1-3A playoffs now, we'd have to go along with Hereford in 1-AAA, Monahans in 2-AAA, Lake View in 3-AAA and Graham in 4-AAA.

We certainly would like to make one substitution, Snyder in 3-AAA, but the possibilities for this seems rather remote.

Boxing Show Here Tomorrow Night

Two boxing shows are on tap here this week, the first to be held tomorrow night.

Colorado City is sending over about four or five mittmen to contest the locals tomorrow night. Then Friday night the Snyder team will host Abilene.

Tomorrow's fights will be held at the Scurry County Boys Club, starting at 8. Friday's bouts with Abilene will be held at the Junior High Gym.

Snyder coach Lacy Boles reveals that at least 10 bouts will be on tomorrow night's program. In addition to the matches with Colorado City, five or six matches between members of the Snyder team will be held.

This week's bouts will be the final warm-up for the locals prior to next week's Regional Golden Gloves Tournament at Abilene, Jan. 16, 17 and 19.

The Snyder team took part in two "Fight Nights" in Abilene during the holidays and did right well on both occasions. The locals won two of three the first time and then won three and gained a draw in four bouts in the second show Saturday night, giving the resident team five wins, one loss and one tie in seven bouts.

Boles took 15 boys to Abilene Saturday night but only four were matched.

Abe Gonzales, David McKinley and Danne Beason registered victories for Snyder on Saturday's card while little Jackie Watson battled to a draw.

Fullbacks Steal Show

MOBILE, Ala. (AP) —Two of the finest passers in the land were on the field. But two hard running fullbacks took the laurels in Saturday's 10th annual Senior Bowl game, won by the South 21-12.

Coach Paul Brown of the Cleveland Browns had Baylor's Buddy Humphrey at the South controls in the nationally televised game. Lee Grosscup of Utah was the starter at quarterback for North Coach Joe Kuharich of Notre Dame.

Humphrey was the nation's leading passer this season. Grosscup was No. 1 a year ago.

But it was Theron Sapp of Georgia and Norm Odyniec of Notre Dame who won honors. They both scored TDs and tied in the poll of sports writers for most valuable player.

Brown found his ground game working so well that Humphrey tried only 11 passes, completing four for 97 yards and a touchdown. Grosscup connected on 14 of 26 passes for 168 yards.

The biggest yardage was amassed by the workhorse fullbacks. The 5-11, 180-pound Odyniec ran up 192 yards on 25 carries for a 7.7 average. Sapp, a 5-11, 200-pounder, got 158 on 23 cracks for 6.9 yards per carry. Most of the yardage came the hard way between tackle.

The other score came in the first quarter when Humphrey passed 20 yards to end Bob Pepe of North Carolina State in the end zone to cap a 67-yard drive after the opening kickoff.

Houston JC Tourney On Tap This Weekend

HOUSTON (AP)—Houston Milby, Port Arthur and Smiley rank among the top favorites in the 19th annual Junior Chamber of Commerce High School Basketball meet which starts here Friday.

First round pairings include Houston St. Thomas - Houston Lamar, Houston Austin - Houston Jones, Smiley- Houston San Jacinto, Clear Creek-Houston Reagan, Cayuga-Bellaire, and Huntington-Houston Sam Houston.

Wall Leads In LA Open

LOS ANGELES (AP) —Tournament-tested Art Wall Jr., who almost stayed home, led the way into the final round today of the $35,000 Los Angeles Open golf classic.

The personable Wall, a slender, youngish 35, went into the final 18 holes in quest of the $5,300 top money with rounds of 71-68-68 and a total score of 207, six blows under par for the distance.

He was one stroke ahead of 25-year-old Doug Sanders of Miami Beach, Fla.

The one-time Duke University star, who plays out of Pocono Manor, Pa., disclosed how he almost decided against coming out for this one. On Dec. 29 one of his four children, Gregory, 7, fell into a frozen pond.

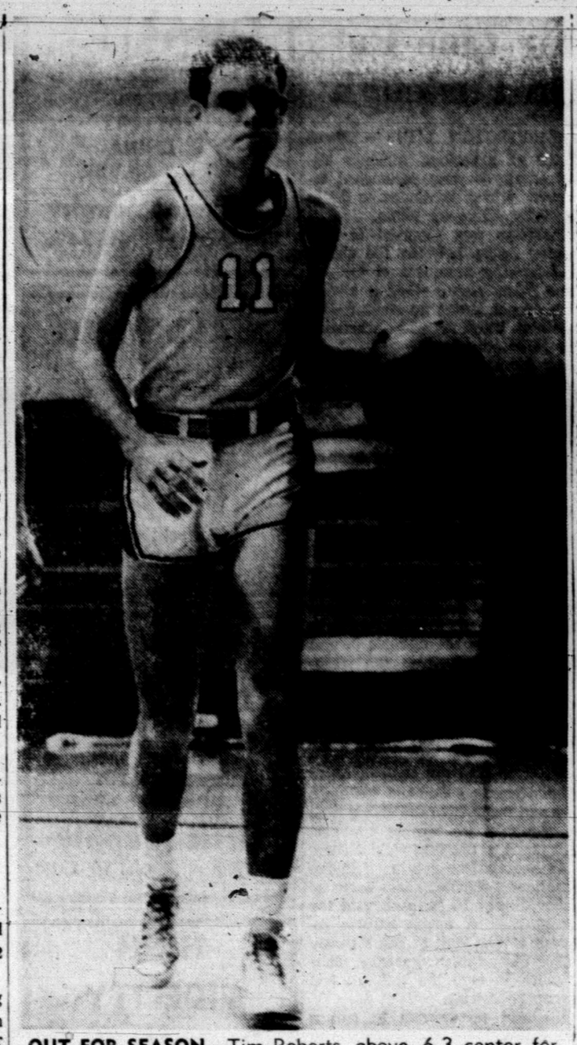

It could have been tragic but the lad was rescued in time. That, plus the strain of moving into his new home during the holidays and his busy golfing year, were the factors against coming west.

He actually didn't change his mind until a few hours before his plane left Pennsylvania Dec. 30.

Sanders, who led after two rounds, fell back Sunday with a 73. Also remaining in contention were Billy Maxwell, now at 209, and Tommy Bolt, Mike Souchak and John McMullin at 210.

Buffs Acquire Gorin

HOUSTON (AP)—The Houston Buffs of the American Assn. yesterday bought former University of Texas star hurler Charlie Gorin from the Milwaukee organization.

OUT FOR SEASON—Tim Roberts, above, 6-3 center for the Tiger basketeers, has been lost to the team for the remainder of the season due to a broken ankle suffered in last Friday's game with Borger. Roberts is the second leading Tiger scorer and the top rebounder. Going into the Borger game, Roberts had scored 94 points in nine games for a 10.4 average. (Lee Watson photograph)

BY COLLEGE BASEBALL COACHES

Closer Tie With Majors Sought

By JIM KENSIL
Associated Press Sports Writer

CINCINNATI (AP) — College baseball coaches today expressed optimism that a summit meeting may be held sometime in the future with representatives of the major leagues.

LeRoy Timm, coach at Iowa State College and president of the American Assn. of Baseball Coaches, stressed that the organization feels its relationship with professional baseball has improved and that such a meeting is not a necessity.

"We are not seeking a hassle with the pros," Timm said, "but we do, as always, object to indiscriminate signing of college players.

"If a boy is an excellent prospect and deserves a chance to play pro baseball, we are glad to see him get that opportunity, but we are never happy when pro scouts sign a boy and merely succeed in disrupting his education."

But Timm said he believes the whole subject of college-pro relationship in baseball has gotten out of perspective. He said a summit meeting between the college group and a major league delegation made up of Commissioner Ford Frick and the owners would help clear up the situation.

The coaches took no formal action along these lines, but day-long committee meetings were held Sunday as the AABC opened its 14th annual convention, one of several preliminary and allied meetings to be held here this week in conjunction with the 53rd annual convention of the National Collegiate Athletic Assn.

The majority of 2,200 delegates were on hand today as the NCAA and the American Football Coaches Assn. began to lay the groundwork for other meetings later in the week.

The executive committee of the baseball coaches decided Sunday to bring several items before the NCAA Council later in the week. The particular pieces of business were not disclosed, but they were believed to deal with college player representation in the Pan-American games in Chicago next summer, college baseball rules and a review of the program which regulates college boys playing summer baseball.

The baseball coaches had a round table discussion on those topics today and have their business session Tuesday.

Meanwhile, the executive and television committees of the NCAA met in closed session today. The rules committee of the football Coaches Assn. did likewise and is expected Tuesday to make known its recommendations to the NCAA football rules committee which meets next week in Los Angeles.

Otherwise, all was quiet on the convention front. The rumor mill that hires and fires football coaches faster than a T-formation quick-opener was unusually calm, although several top jobs, including those at Maryland and Baylor, are expected to be discussed, and possibly filled, before the week is over.

Loop Play Opens In BC

By The Associated Press

Arizona State, Texas Western and Hardin-Simmons, the only Border Conference clubs above .500 mark, are expected to fight it out in the championship race that starts this week.

Five games are scheduled against outside foes this week with the conference openers set Saturday night.

Arizona State leads the season standings with a 7-3 record.

Sul Ross of the Lone Star Conference upset Texas Western 86-80 last week while Arizona State beat Santa Clara 80-58 and San Jose State 62-58.

West Texas State hasn't won a game in seven tries and Arizona has lost 10 of 12.

Texas Western had a 5-game winning streak going when Sul Ross, led by Frank Trevino's 34 points, knocked off Texas Western in an overtime game.

Monday night Hardin-Simmons hosts Midwestern and New Mexico entertains San Jose State.

Tuesday Hardin-Simmons plays Trinity at Abilene while Wednesday West Texas State tries Oklahoma City at Oklahoma City. Thursday night New Mexico State hosts Wyoming.

Saturday the championship play starts with Arizona State meeting Hardin-Simmons at Abilene in the headline test. Texas Western takes on New Mexico State at El Paso while Arizona and West Texas State play at Canyon.

Layne Sparks Pros To Win

HONOLULU (AP) — Bobby Layne and Ollie Matson, who passed up the Pro Bowl game, starred Sunday as a professional team beat a band of collegians 47-27 in the 13th Hula Bowl.

Layne, a Pittsburgh Steeler quarterback, threw five touchdown passes, one a 60-yarder that end Billy Howton of Green Bay turned into a 91-yard touchdown play.

Matson, a Chicago Cardinal, was a big ground gainer. He and San Francisco 49er Joe Perry took the ball 75 yards in five plays in one fourth quarter drive.

Terrell Leads Balloting On All-State AA

By The Associated Press

Terrell was eliminated in the semi-finals but it still put the most players on the all-state Class AA schoolboy football team.

The Tigers, taken out by Stamford on penetrations in an 8-8 tie, got three—end Stanley Irwin, guard Tommy Anderson and back Paul Lea—on the first team. That was one more than Stamford, which went on to the championship.

Stamford did place the most highly favored player, however. He is Donald Davis, a back who drew 123 of a possible 125 points in the voting of the Texas Sports Writers Assn. selection committee. The other Stamford player to make the team was Jimmy Payne, 186-pound tackle.

Taylor, which didn't get outside its district, placed two men also. They were Gene Raesz, 185-pound tackle, and Donny Smith, a back.

Brady eliminated in the early playoff rounds, got two men on the team, too. They were Scott Appleton, guard, and Max Cox, center.

Others on the team, which came out with 12 men because of a tie for a backfield spot, were: Billy Placke, Giddings, tackle; Don Campbell, Bonham, back, and Randy Curson, Angleton, back. Terrell's Lea and Curson had tied for the fourth backfield place.

There were no repeaters from the 1957 season.

The second team:

Ends—Bill Patterson, Floydada, and Pat Keith, Richardson.

Tackles—Brooks Bradford, Anson; Ted Mitchell, Liberty.

Guards—Hal Stanislaw, Rockdale, and Coy Garbett, Seagoville.

Center—Don Kidd, Spur.

Backs—Jimmy Keller, Terrell; Jerry Candler, Ballinger; Sam Byer, Marlin, and Wilson Parma, Wilmer-Hutchins.

Layne, Howton Win Hula Bowl Awards

HONOLULU (AP) — Bobby Layne, who plays pro footbal in Pittsburgh, offered Hawaiians all-out Texas hospitality yesterday.

A fellow Texan, Billy Howton of the Green Bay Packers, likes Hawaii so much he says that he might move here.

Layne, who was born in Dallas and lives in Lubbock, was voted by sportswriters the outstanding back on the pro team that beat the college all stars 47-27 in the Hula Bowl.

Howton, a former Rice star and a resident of Houston, was voted the outstanding pro lineman.

Accepting their awards after the game, they expressed their sentiments before a crowd of 18,000 in Honolulu Stadium with these words:

Layne—"If you bring a clean shirt and $5, you won't have to change either of them when you come to Texas."

Howton—"If I can find a pad (bed) and three meals a day, you've got a new resident."

Cincinnati Starts Comeback Trail Against Tough Bradley

By ED CORRIGAN
Associated Press Sports Writer

Humiliated by two consecutive defeats in the Dixie Classic last week, Cincinnati and Big O, Oscar Robertson, jump right back into the fire tonight when they tangle with Bradley.

All last season, the Bearcats lost only three games. Bradley licked them early in the campaign. Then it was Oklahoma State and finally Kansas State in the NCAA tournament. They took Bradley over the second time around, however.

This is a big one for Robertson and company. Their pride has been hurt. More realistically, Bradley is rated the only team in the Missouri Valley Conference with the possible exception of St. Louis, with a chance of knocking Cincinnati out of the title.

The Braves also are undefeated, having raced past all eight of their opponents to date. They warmed up to their task by turning back Drake, 91-57, Saturday night.

Another worry for Cincinnati is the possibility of being knocked right out of the top 10 in the weekly Associated Press poll. None of the others in the select circle last week has lost more than one game and three—Kentucky, Auburn and Bradley—are undefeated.

Kentucky, riding along at the top of the heap with 11 victories—high in the nation—polished off Georgia Tech, 72-62, Saturday.

But Adolph Rupp's slick Wildcats may not have things easy this year. Already they're casting worried looks over their shoulder in the direction of Auburn. The Wildcats won the 1958 Southeastern Conference title by just one game over Auburn, which is about as thin as you can slice it.

The Plainsmen figure to make Mississippi their ninth straight victim tonight after dealing Mississippi State its first defeat, 97-66, Saturday.

Kansas State, No. 3 in the nation behind Kentucky and Cincinnati, has been the class of the Big 8 so far in non-league games and opens its loop season against Iowa State.

The same can't be said of Northwestern, which along with Michigan State, is the current co-favorite in the Big 10 race. The Wildcats barely edged Iowa, 80-77 in their league opener Saturday and Coach Bill Rohr observed that "we were lucky to get out alive."

Northwestern is ranked No. 6 and Michigan State No. 7 in the AP ratings. The Spartans had a close shave, too, nipping Indiana, the defending champion, 79-77.

Northwestern plays Michigan tonight and Michigan State goes against Iowa.

In the Atlantic Coast Conference, the main battle is developing between North Carolina and North Carolina State. They are running 4-5 in the AP poll and have almost identical records—8-1 for the Tar Heels and 9-1 for State.

The Tar Heels turned back Notre Dame, 69-54, in a nationally televised game Saturday.

Maryland plays three league games this week starting with Duke Wednesday.

After a week of activity in the Pacific Coast Conference, Southern California leads the parade with a 2-0 mark. Defending champion California has a 1-1 mark.

Texas A&M so far has justified its role as Southwest Conference favorite by clipping Southern Methodist, 65-63, Saturday to run its overall record to 9-1. In the Southern Conference, it's West Virginia (4-0) as usual at the top. The Mountaineers play Furman tonight.

Idaho State, with a 9-2 record in nonleague play, is the big favorite in the Rocky Mountain Conference. State opens its league season with a two-game set against Colorado this weekend.

Utah, the favorite, helps open the Skyline Conference season against Montana Wednesday night.

IN SWC HEADLINERS

Aggies Face Rice, Baylor This Week

By WHITEY SAWYER
Associated Press Staff Writer

Texas A&M, a deliberate—and winning—team, goes after Rice Tuesday and Baylor Friday in an effort to maintain its favorite's role in the Southwest Conference basketball race.

The Aggies, winners of the Southwest Conference pre-season tournament, knocked off Southern Methodist at Dallas 65-63 last week as championship play opened.

Texas toppled Rice 61-58 and Arkansas upset Texas Tech 61-57. Texas Christian beat Baylor 72-62, as expected. That left Texas, Arkansas, TCU and the Aggies tied for the lead at 1-0.

Six other conference games are scheduled this week. Baylor and Texas Tech play at Lubbock Tuesday night while SMU takes on Texas at Austin. TCU hosts Arkansas Wednesday night. Saturday SMU and Tech play at Dallas, Texas and TCU meet at Fort Worth and Rice and Arkansas tangle at Fayetteville.

Rice beat Texas earlier in the pre-season tournament and Tech had knocked off Arkansas. But the games didn't count then.

A&M, playing with the deliberate style taught by Coach Bob Rogers, ran its season record to 9-1, the best in the conference.

It was the first time in six years for SMU to lose its conference opener.

Wayne Lawrence did the damage with a field goal in the last three seconds. Lawrence had waited until there wasn't enough time left for SMU to catch up before he fired.

SMU's 6-7 sophomore Steve Strange was a bright spot for the Mustangs, however, bagging 20 points. Lawrence was tops with 21.

Albert Almanza, a 6-8 soph at Texas, fired for 30 points against Rice, 22 of them in the final 17 minutes.

Arkansas and Tech swapped the lead five times in the last half and Arkansas was ahead by only two points with three minutes left. But Tommy Rankin, Jay Carpenter and Jerry Thompson pushed the Razorbacks ahead.

H. E. Kirchner led TCU with 20 points as the tall Horned Frogs grabbed the lead early and held it most of the game. The Bears started whittling away in the last 12 minutes and pulled to within six points with less than two minutes left. But Baylor fouled too much and the Frogs used the free shots to ice the game.

Tom Robitaille of Rice is the top season scorer with 232 points, followed by Kirchner's 191. Almanza's 30 points is high in conference scoring.

Meredith Is Top Amateur

DALLAS (AP)—Don Meredith, the SMU passing man, was the outstanding amateur in Texas last year.

The talented quarterback who threw SMU to victory after victory was picked by the Texas Sports Writers Assn. for the award as amateur athlete and he will receive a plaque at the sports achieveent dinner of the association and the Dallas YMCA.

Buddy Dial, Rice's All-America end, ran Meredith a close second. The SMU football star got 24 votes while Dial polled 20.

Bobby Morrow, the Olympic sprint champion from Abilene Christian College who previously had won the award, placed third with 18.

SNYDER BUSINESS NEWS

FEW MATERIALS can give as outstanding appearance to a business front as can ceramic tile, such as this tile installed by Baldwin Floor Co. at the station being built by T. C. Goss on the Big Spring highway for A. K. (Smitty) Smith, Onyx products distributor here. Baldwin's also installed ceramic tile in the restrooms. (Lee Watson photograph)

Baldwin Firm Features Ceramic Tile

Many outstanding things can be done with ceramic tile inside or outside a building which are far superior to other materials.

For outside work on a business front, ceramic tile looks much better and lasts much longer than such materials as plaster and paint.

And Baldwin Floor Co., located on the East Highway at the traffic circle, is a specialist in installation of ceramic or asphalt tile.

A recent example of Baldwin's work which can be easily seen by the businessman planning a new store front or by anyone planning tile work is at the new service station being built on the Big Spring highway by T. C. Goss. Goss is building the station for A. K. (Smitty) Smith, Onyx distributor here.

At that station, which will be complete within about two weeks, Baldwin Floor Co. finished the front in ceramic tile, as well as installing ceramic tile walls and floorng in the restrooms. The tile gave the station front a smart appearance, as well as one which will last.

Baldwin's, which deals exclusively in Armstrong products, offers eight different colors in ceramic tile and can work any design desired into walls or floors. Baldwin's can install the tile with mortar or with mastic, whichever is preferred.

On display in Baldwin's showroom are six new patterns in Armstrong linoleum flooring.

Baldwin's sells and installs any kind of floor covering material except carpeting, including inlaid or sheet type linoleums and vinyl and asphalt tiles.

Included in Baldwin's stock is Armstrong cushion for linoleum flooring to eliminate the jar from walking on wood or concrete floors covered with linoleum.

Armstrong vinyl wax for any type floor, drain boards, cabinet tops, counter tops, and many other products are sold and installed by Baldwin's.

As specialists in floor work, Baldwin's also sands, finishes, cleans and waxes floors, combining outstanding service with the outstanding Armstrong products.

Clyde Baldwin, head of the firm, invites any residents in the area desiring information about flooring or tiling, as well as any other Armstrong products, to stop by the Baldwin store or call HI3-9703.

CENTRAL TIRE SERVICE—Central Tire Service, above, located at Avenue T and Twenty-fifth Street, offers a complete battery and electrical service for automobiles and trucks, as well as the sale of new Gates tires, guaranteed retreaded tires, wheel aligning and balancing, and a complete brake service. (Lee Watson photograph)

Central Tire Offers Full Auto Electrical Service

Has your car or truck been hard to start, or just plain wouldn't start, these cold mornings?

That's the shape many residents of the Snyder area have found themselves in lately, Stanley Noah, owner of Central Tire Service, Twenty-fifth Street and Avenue T, said.

"Electrical systems weakened by long use and wear, and weak batteries get their biggest tests on cold mornings when the car engine is stiff," Noah said.

"Oils in the engine and transmission get cold and stiff and make the job of starting the car difficult if everything functions properly, and almost impossible if the electrical system is not in top condition," he added.

Central Tire Service offers a complete electrical service for all electrical components in the car's system from battery to ignition parts, coils, wiring and lights.

Scientific equipment for the complete testing of all electrical system parts is used by the experienced servicemen at Central Tire Service.

"A short in wiring, sometimes hardly detectable under normal conditions, will really come to light on a cold morning when the car refuses to start," Noah said.

The equipment used at Central Tire Service quickly detects any malfunctions such as shorts in electrical wiring, parts which do not work, and other things which often go wrong with cars.

"We invite anyone who has trouble to come by for our service," Noah said.

He added that a quick check up in the electrical service department might prevent trouble for many persons later this winter.

Fishermen Stranded On Texas Peninsula

HOUSTON (AP) — Several groups of fishermen caught by the weekend's fast-moving northern found themselves stranded by rough water of Matagorda Peninsula yesterday but all were believed safe.

Fishing conditions are good just before a norther, fishermen say, and many outdoorsmen flocked to the area. "The whole island is crawling with civilians," an officer at Matagorda Air Force Base said.

Most sought shelter in an old Army building stocked with provisions for such emergencies. Fishing boats were unable to return to the mainland because of choppy water.

Resume Hunt For Airmen

BUNKER HILL AIR FORCE BASE, Ind. (AP)—Air Force officials resumed their search today for bodies of two of the three Airmen killed Saturday night when a C119 Flying Boxcar crashed while coming in for a landing.

Killed in the crash were Capt. Osmo B. Howell, 34, San Angelo, Tex., the co-pilot; Capt. Jac. E. Roosa, 40, Uvalde, Tex., the pilot, and S.Sgt. Rodolphi Quinones, 36, Corpus Christi, Tex., crew chief. There were no survivors.

Firefighting crews recovered Howell's body shortly after the crash.

The three men were members of the 433rd Troop Carrier Wing, a reserve unit based at Brooks Air Force Base, Tex. The plane was en route to Bunker Hill from Brooks on a cross-country training flight.

School Is Wrecked By Three Youngsters

HOUSTON (AP)—County probation department officials studied today the case of three grade school youngsters who said they wrecked a school seeking entertainment.

Vandals broke into the Garden Villas elementary school on New Year's Day and caused damage estimated at more than $4,000.

Three school boys, two aged 11 and one 9, told officers C. P. Anderson and W. T. Bolin yesterday they vandalized the school because they didn't have anything else to do.

Bonn Turns Down Plan Of Russians

BONN, Germany (AP) — West Germany today rejected the Soviet Union's proposal to turn West Berlin into a demilitarized free city and called on Moscow to restore the city to its place as capital of a united Germany.

In a note delivered in Moscow, the West German government stressed the four-power responsibility for German reunification and backed up the previous rejection of the Soviet proposal by the Western Big Three.

Berlin's future can be discussed only within the framework of the whole German question, which is indissolubly bound up with the problems of security and disarmament, the note said.

The note said pointedly that the Soviet proposal would place isolated Berlin at the mercy of the Communist East German regime.

Recalling the Communist attempt to blockade the city in 1948, the note said the "presence of Western troops in the city was welcomed by the inhabitants."

It is not the West German drive to the East, as the Soviet Union claims, that is responsible for the situation but on the contrary the Soviet thrust to West, the Adenauer governmen said.

Cuba has the largest Chinese population in Latin America. Rosendo Canto, 33, Cuba's ambassador to the Republic of China, is the youngest ambassador in Taipei.

Employes Of Air Line Put On Furlough

WASHINGTON (AP) — About 20,000 of American Airline's 22,000 employes were furloughed today as efforts continued to settle a 17-day strike by pilots.

Progress was reported in narrowing issues between the airline and striking members of the Air Line Pilots Assn. when a mediation session broke up early today. Another meeting was scheduled for 10:30 a.m.

American had announced in advance that the furlough order taking the employes off the payroll would become effective at midnight Sunday night if the strike was not settled. Employes kept on the payroll are in supervisory, maintenance and protective classifications.

Leverett Edwards, chairman of the National Mediation Board, said he would try to keep the negotiations going until a settlement is reached. The sessions are being held in his office here.

American is the nation's largest domestic airline from the standpoint of passenger miles flown. It normally carries an average of 22,000 passengers daily, serving 77 cities in the United States, Canada and Mexico.

About 1,500 of the airline's pilots walked out in a demand for more pay and fewer hours of flying time on the new jet airlines the carrier plans to put into service soon.

As negotiations continued in the American dispute, Secretary of Labor James P. Mitchell said the recent rash of airline strikes requires a new look at the Railway Labor Act, which governs labor troubles in both the railroad and airline industries.

He said he intends to call a meeting of labor and management representatives from the airline and railroad industries to ask their views on whether the act needs changes. It was indicated he plans to hold the meeting in a week or two.

The Railway Labor Act provides for a system of conferences, mediation and arbitration and for White House fact-finding boards to recommend settlement terms in disputes.

The grave of Gen. George S. Patton Jr., in the military cemetery at Hamm, Luxembourg, is marked only by a simple white cross like all the other American heroes resting there. Only difference is that Gen. Patton's cross has four small golden stars to denote his rank.

Russian Language Class Gets A Foothold In High School

ALICE, Tex. (AP) — Larry O'Rear of William Adams High School teaches what is believed the state's first fully accredited high school Russian language class.

Already he has 10 students, indications are that the class will expand next year.

O'Rear is no Russian specialist. He keeps a hop, skip and jump ahead of his class by correspondence studies.

When the Soviet Union put the first Sputnik in orbit, it should have astounded no one, says O'Rear.

The husky, 27-year-old teacher said the first Sputnik was discussed at length in Russian scientific journals for months before its rocket was fired.

"The United States was taken aback because most of our scientists, knowing nothing of the Russian language, had never read of the preparations to launch the world's first satellite," O'Rear said.

With a penchant for languages, the young science instructor got permission from School Supt. Jack Ryan, and High School Principal Harold Beam to organize his Russian class.

"As far as I know," he said," it is the first class of its kind in the state on a high school level. Last year, only eight public schools in the United States had classes in Russian. There was none in Texas.

The Alice Senior High School Russian language class is composed of 3 girls and 7 boys. They are: Margaret Dworaczyk, Virginia Moffett, Patricia Fried, Raymond Johnson, John Carroll, Carlos Rodriquez, Oscar Ortiz, Jack Gibbs, Roger Groot and Robert Easterling.

What textbooks do they use?

"There are no Russian language textbooks available on the high school level at the present time," said O'Rear." The class uses first-year college textbooks."

O'Rear said a knowledge of the Russian language is highly important outside the field of science. He said:

."Russian, the mother tongue of 150 million people, is one of the world's major languages. Only Chinese and English are spoken by more people."

O'Rear said the speakers of Russian live under a powerful government with a distinct ideology at variance with the rest of the world.

"In the realm of humanities, Russian culture, over the centuries, has offered much to mankind in history, philosophy, art, music and imaginative literature," the young instructor continued as he warmed to his subject.

"But most of this cultural heritage can be reached properly only through a knowledge of the Russian language."

A graduate of Falfurrias High School and Abilene Christian College, O'Rear has a knack with foreign tongues. Besides English, he speaks fluent Spanish, reads and writes Russian, French, German, Portuguese and Italian.

A member of the high school staff since 1953, the tall instructor with the crew-cut took a year's leave in 1957 to study for his Master's degree in Physics at the University of Texas. He already holds a Bachelor's degree in chemistry.

It was in Austin that he became interested in learning to speak Russian.

"The students earn a full credit for the course," O'Rear said. Next second-year class in Russian.

Demand For Citrus Low

MCALLEN (AP)—Demand for citrus was slow and vegetable shipments light as the Lower Rio Grande Valley produce market remained unsettled at the weekend.

The slow citrus market was blamed on a continuation of the long holiday lull, and citrus men said they expected little activity during the coming week. They said northern markets had ordered more than enough supplies before Christmas to last through early January.

Prices for oranges remained firm at mostly $2.25 a carton for early varieties, which are now becoming scarce. Harvesting of the large valenzia orange crop is to start this week with an expected price of $2.40 a carton.

Grapefruit prices weakened slightly. Shippers were quoting $1.50 a 40-pound carton of 96s and smaller ruby red and marsh white grapefruit and up to $1.75 for sizes 64 and larger.

Vegetable supplies were light. Cabbage was bringing $2.25 for a 50-pound sack, carrots $2.75 for a 48-pound crate in film bags, and lettuce $1.25 for a two-dozen lug.

Junior Editors Quiz on BIRDS

QUESTION: Does the crow fly the shortest distance between two points?

* * *

ANSWER: **The crow is a big black bird with large bill and feet. When flying with a definite destination in mind, he takes a comparatively straight course. So, when we say "as the crow flies," we mean a direct line to where we are going—and the shortest distance betwen two points is a straight line.**

The crow is an intelligent bird, about 18 inches long, with glossy black feathers that have a tinge of green. He has a raucous voice and is disliked by some farmers because he gobbles corn and snatches eggs and baby chicks when he can. But crows also help the farmer—they love white grubs, cut worms and other insect pests and one crow may eat as much as ten bushels of insects in a season.

Crows are easily tamed and they make good pets. They can be taught to talk like a parrot.

* * *

FOR YOU TO DO: Color this picture and keep it in your scrapbook. And when you are in the country, see if you can see a flight of crows.

* * *

(Mark Northcott, Oklahoma City, wins $10 for this question. If you have a good question, send it on a postcard to Violet Moore Higgins, AP Newsfeatures, care of this newspaper. Tomorrow: What did the message to Garcia say?) 1-5

Six Texans Are Involved In Pilot Training Experiment

By TEX EASLEY
Associated Press Special Service

WASHINGTON, (AP) — Six Texans are among flyers in an experimental pilot training project the Pentagon is watching with keen interest.

Under it, Air Force cadets and officers learn to fly from scratch in jet aircraft, by-passing the heretofore required stage of first soloing in a propeller driven plane.

The Texans in the 39-man class, which is in training at Bainbridge Air Base in southwest Georgia near the Florida line, are: Ronald N. Brown, Levelland; William E. Dunlap, Lubbock; James S. Freeman, Austin; Leo E. Wotipka Jr., Baytown; 2nd. Lieut. Calvin R. Popp, West; and 1st. Lieut. Burl R. Smithheart, Houston.

The first four are Air Force enlisted men now rated as Cadets. Mostly men with two to three years college, they took ground indoctrination courses at Lackland AF Base, San Antonio, and on Nov. 20 began studies at Bainbridge. If they go through 130 hours flying there, then finish a more advanced basic flying course elsewhere, they will get their wings and a lieutenant's bar.

The Bainbridge base is operated by Southern Airways under private contract with the Air Force. Instructors are civilians wearing uniforms like those of commercial airline pilots.

The experimental project, which may drastically alter present programs for turning out pilots, was outlined by officers of the Air Training Command headquarters at San Antonio, who flew a group of Washington correspondents to Bainbridge to see what's being done there.

The current class at Bainbridge was carefully divided into two groups, with neither rated superior to the other in any respect.

The group in which the Texans were placed are having 10 to 15 hours instruction in small, twin-engine T 37s.

The other group at the base is taking about the same amount of instruction in light propeller driven planes and then are ready for their solo hop. There is no Texan in this "control" group which will serve as a standard to check the progress of the students in the experimental class.

"We hope to learn or prove many things from this test," explained Col. James S. Edney, director of the ATC's primary pilot training division.

He said the test, results of which won't be known for several months yet, will show the relative efficiency of the pilots turned out under each program and the comparative costs.

If the project proves a saver in man hours and money, and at the same time increases efficiency, the all-jet training will be put into effect at the other private-contract operated bases around the country.

These schools, which do all the initial pilot training of Air Force personnel, have a Washington headquartered organization, the Aeronautical Training Society.

Boone Will Replace Van

TULSA, Okla. (AP)—The U.S. Junior Chamber of Commerce said singer Pat Boone has been substituted for concert pianist Van Cliburn on its list of 10 outstanding Young Men of 1958.

Cliburn was dropped from the list after he informed the Jaycees his concert schedule would not permit him to attend the award ceremonies at Fort Lauderdale, Fla., Jan. 17.

Boone, 25, previously had to reject the honor for the same reason, a Jaycee spokesman said. However, he informed the Chamber of Commerce he now can attend the ceremony, a requirement of the sponsors.

Names of the other nine men wil be publicly announced within the next few days.

Few Know Poll Topics

LOS ANGELES (AP)—Do people really know what they're talking about when polltakers quiz them?

To find out, Los Angeles Mirror-News columnist Paul Coates called 150 people by telephone and asked this question:

"Do you think the Mann Act deters or helps the cause of labor, and if you feel it deters, would you vote for its repeal?"

Coates found that 38 per cent of those polled want to repeal the Mann Act, which since 1910 has made it illegal to transport a woman across state lines for immoral purposes.

The columnist said only 12 per cent realized the question was rigged.

Sam Will Be 77 Tuesday

WASHINGTON (AP) — House Speaker Sam Rayburn (D-Tex) reaches his 77th birthday Tuesday.

The Texan will meet with fellow Democratic congressmen in the morning at a party caucus to map plans for the 86th Congress, which convenes Wednesday. A birthday reception in his honor will be given during the evening by Dale Miller, Washington representative of the Dallas Chamber of Commerce, and Mrs. Miller.

Born Jan. 6, 1882 in Roane County, Tenn., Rayburn went to Texas with his parents when a child and was reared on a farm in the northeastern part of the state.

Once speaker of the Texas legislature, the Bonham legislator was elected to Congress in 1913. He has been speaker of the U.S. House since 1940 except for four years when the Republicans were in the majority—longer than any other man in history.

Condition Of Actress Fair

NEW YORK (AP)—Movie actress Inger Stevens, found unconscious in her apartment late Sunday night, was reported in fair condition today at Columbus Hospital.

Doctors said she apparently had swallowed "a caustic — possibly cleaning fluid."

The superintendent of the fashionable Gramercy Park apartment where Miss Stevens lives found the 24-year-old bonde, clad in a nightgown, lying unconscious on her bed. A partly empty ammonia bottle lay nearby.

Police said there was no note or other indication of a possible suicide attempt.

The Swedish-born actress made her film debut opposite Bing Crosby in "Man on Fire." She has also starred in television plays.

One Clue Available

OWENSBORO, Ky. (AP) — Police have one clue to a men's store burglary here Saturday night.

They said $3,000 worth of clothing was stolen.

All size 42.

A WORD WITH SAM—President Eisenhower gestures as he talks with House Speaker Sam Rayburn in Washington at the end of the White House ceremony in which the President proclaimed Alaska the 49th state. Rayburn's home state of Texas now is second largest in the union. An aide holds out the new 49-star flag behind the President. Mike Stepovich, former governor of Alaska, is at extreme right with Waino Hendrickson, former acting governor, beside him. (AP Wirephoto)

Earth Will Take Inside Lane To Overtake Soviet Rocket

By FRANK CAREY
Associated Press Science Writer

WASHINGTON (AP) — By the familiar race track maneuver of cutting through on the inside lane, the earth will overtake and pass the Russian cosmic rocket as both orbit around the sun.

That's because the rocket, according to Russian reports and estimates, will swing in a wider orbit around the sun than does the earth. The rocket got off to a head start because of the force of its launching, but if it goes into the expected orbit, the earth will pass it in the next couple of months.

There's no chance of a collision of the celestial racers — because they'll be several hundred thousand miles apart when the earth moves ahead.

And it will be at least two centuries before they get that close together again.

At some time, many centuries hence, there's a chance the rocket may zoom again into the earth's atmosphere and be consumed like a fiery cinder — but the chance is only about one in a million.

These estimates on the future history of the rocket came today when a reporter asked Dr. G. N. Clemence, scientific director of the U.S. Naval Observatory, to analyze preliminary calculations of the Russians regarding the expected orbit of their "Lunik" around the sun.

The Russian scientists figure it will take the rocket 15 months to make a swing around the sun. It will be moving in an elliptical orbit whose nearest point to the sun is 91½ million miles from it, and the farthest point, 123¼ million miles, the Russians estimate.

The earth also has an oval-shaped orbit around the sun, but it's a tighter one. The nearest point, called the perinelion, is about 91¼ million miles from the sun, the farthest, 94½ million miles.

Because of its tighter pathway, it takes the earth only 12 months to swing around the sun, compared with the expected 15 months for the rocket.

Right now, thanks to the launching help it got from earthbound rocketeers, the rocket has a head start on the earth in the race around the sun — more than two days and some hundreds of thousands of miles, in fact.

Meanwhile, the earth is already swinging away from the sun, having reached its annual perinelion on Jan. 1.

The rocket is still approaching the sun, and won't reach its closest point until Jan. 14. But when it does start swinging away from the sun, it will swing out faster than the earth does.

It's roughly as though two racing cars had rounded the far turn at a race track and were heading towards the grandstand. Right now, the car representing the rocket has the inside track is in the lead. But as it swings out, the "earth" car will be moving closer to the inside rail and begin to creep up.

Sometime in February or March, Dr. Clemence estimates, the earth will overtake and pass the rocket.

GOP Claims Panel Report Is Slanted

WASHINGTON (AP) — Three Republican members of a House investigating committee charged Saturday that its report was slanted to put Republicans in a bad light but skipped over information derogatory to Democrats.

The report was made by the House Legislative Oversight subcommittee. That body, while investigating activities of regulatory agencies probed deeply into relations between former presidential assistant Sherman Adams and Boston millionaire Bernard Goldfine.

Adams resigned after the committee heard testimony he had accepted gifts from Goldfine and had made inquiries of government agencies about matters in which Goldfine was interested.

Rep. Joseph P. O'Hara of Minnesota said that as written by the subcommittee staff the report was "slanted to convey the impression that all major wrongdoing was found in one political party since 1953."

Another Republican, Rep. John B. Bennett of Michigan, said that "the report is silent as to William T. McCarthy, a federal district judge, a Democrat, and appointee of a previous administration and a long time personal friend and beneficiary of Goldfine's gratuities."

Holdup Man Swept From Liquor Store

LOUISVILLE, Ky. (AP) — A would-be holdup man was swept off his feet here.

The bandit entered a liquor store and pointed a gun at manager Sal Waldman.

Waldman, 67, grabbed a broom and started pushing the man out of the store. Janitor Clinton Calbert came from a back room and helped.

Waldman and Calbert wrestled the gunman, identified by police as Charles Ray Booth, 31, to the sidewalk, hit him with his own gun, and held him until police arrived.

Attendant Robs Injured Woman

HOUSTON (AP)—Officers prepared charges today against a morgue attendant who told them he took $550 from the clothing of a woman fatally injured in a highway crash near here last week.

Miss Hilja ELeminen, 54, New York, was killed when the sports car in which she was riding collided with another automobile at nearby Crosby. The driver, Henry Beener, 35, also of New York, was injured.

He told officers from his hospital bed that the woman had the money sewed into her skirt.

Detective Charles Albertson said a morgue attendant, 30, overheard a morgue official being told about the funds. Albertson said the man found the money and admitted spending $200 of it.

He said charges would be filed today.

Distress Call Is Labeled A Hoax

SAN FRANCISCO (AP)—A distress call supposedly from a ship in trouble off the Pacific Coast was labeled a hoax Sunday.

The Coast Guard, which sent two planes over the ocean near San Luis Obispo, learned after investigation the call letters used while sending "SOS . . . please help" were for an inoperative amateur station.

"Someone's idea of a joke," a Coast Guard spokesman said.

45 Enlist In Army Here During 1958

Forty-five men from the Snyder area enlisted in the U. S. Army during 1958.

All these men enlisted for three years, and their enlistments actually occurred since March, when the Army recruiting station was opened in Snyder, according to M-Sgt. Charles Young, local Army recruiter.

Names and assignments of the men were:

Kenneth D. Taylor, Signal Corps; Richard W. Herron, technical school; Thomas W. Womack, technical school; Delmar R. Proctor, technical school; Kelton P. Prather, technical school; Richard Martinez, technical school; Tom L. Taylor, technical school; Donald R. McFaul, Engineer Corps; Aaron Hartness, Engineer Corps;

Richard W. Masters, Engineer Corps; Howard W. Gordon, Engineer Corps; Billy J. Stone, Engineer Corps; W. H. Schoonover, Signal Corps; Joe M. Simmons, Signal Corps; Gerstal R. Boyd, techincal school; Thomas P. Barry, technical school; Wendell N. Greer, Army Air Defense Command; Jerry V. Curry, Army Air Defense Command;

Richard M. Fenley, Army Air Defense Command; Troy Logan, Military Police; James R. Hodges, unassigned; Calvin T. Richie, artillery; Marvin W. Moore, Army Security Agency; Cecil A. Fenley, unassigned; Robert O. Nail, technical school; Olen Watson, unassigned; Dalton Griffin, technical school;

Coleman John, unassigned; Raul Holguin, Engineer Corps; Jerry W. McGinley, technical school; Carl D. Wright, artillery; Ben E. Ensminger, unassigned; Ronald E. Proctor, artillery; Larry R. Page, technical school; Dwayne Carpenter, unassigned; Kenneth W. Palmer, unassigned;

Alfred E. Vernon, Engineer Corps; Donald R. Cranfill, Engineer Corps; Camilo Fuentez, technical school; Haley L. Sowell, Fourth Army assignment; Herbert W. Crowell, artillery; Gary D. Calvert, Transportation Corps; Johnny H. Tucker, airborne; Bobby L. Henderson, unassigned; Harold R. Minor, Ordnance Corps.

Officers Of Lodge Will Be Installed

Officers of the Hermleigh Hermann Sons Lodge will be installed in Haskell Jan. 18.

At the Haskell meeting, officers of six West Texas Hermann Sons lodges will takeplace at 2 p.m. at the Hermann Sons Hall. The lodges include those at Rheinland, Old Glory, Haskell, Roscoe, and Pep.

Sanford Schmid of Shelby will serve as installing officer. He is second grand vice-president of the lodge. He is also a member of the Texas Legislature.

The 48,000-member Texas fraternal organization has its home offices in San Antonio.

Plane In Collision With Galloping Horse

MALIBU, Calif. (AP)—Sheriff's officers here logged something new in the way of Sunday travel hazards: A collision involving a horse and an airplane.

Robert Goodyear, 49, glided in for a landing in an open field after his light plane ran out of gas Sunday. A horse galloped into the craft's path and they collided.

WASHBURN TAKEN TO STATE PRISON — Harry L. Washburn, right, convicted bomb slayer of his former mother-in-law, is escorted from Dallas County jail by Cecil Turner, Sheriff of Tom Green county, on his way to state prison at Huntsville. Washburn was convicted April 1957 and sentenced to 99 years in prison and has been in Dallas jail since. (AP Photo)

Washburn Is Set To Begin Term

HUNTSVILLE (AP) — Texas state prison officials expect today papers ordering convicted bomb-slayer Harry Washburn to start a 99-year prison term.

Washburn, 42, of Houston, was twice convicted in the 1955 car-bomb slaying of his former mother-in-law, Mrs. Harry Weaver of San Angelo.

Washburn was taken to Huntsville late Saturday from Dallas by Tom Green County Sheriff Cecil Turner and Texas Ranger Ralph Rohatsch.

The prisoner was taken directly to the Texas Prison System's administration building, but it was found that commitment papers had not arrived. A check showed the papers had been mailed from Austin Saturday.

Washburn was then placed in the Walker County Jail. Walker County Sheriff Floyd Farris will deliver him to Texas prison officials when they receive the papers from Austin.

The bespectacled Washburn said former U.S. Dist. Atty. Holvey Williams of El Paso would carry his appeal to the U.S. Supreme Court.

Washburn told Dallas reporters he was surprised he was being moved to Huntsville.

"I thought they would leave me here while the appeal goes to the Supreme Court, but they're moving me because they heard the churchs of Texas are going to raise money for my freedom."

Charles Tessmer, Washburn's attorney, said a Dallas woman with papers showing she is an ordained minister went to his office last week to volunteer the fund drive.

Washburn said the fund would be kept in an account which has been opened in his name at a Dallas bank.

Washburn received the 99-year sentence after being convicted in Dallas County. An earlier conviction at Waco was overturned.

CRMWD To Set Rates For New Year

A meeting of the board of directors of the Colorado River Municipal Water District has been called for noon on Jan. 14 at the Settles Hotel in Big Spring.

E. V. Spence, general manager, said that Charles Perry, Odessa, CRMWD president, had called for meetings of the water rate committee and the 1958 Construction Fund committee during the morning prior to the meeting.

Under terms of the indenture, the board must, at the outset of a year, establish water rates calculated to produce sufficient revenue for operation of the system and the amortizing of the bonded debt. For practical purposes, the general pattern for rates is shaped in the adoption of a budget the preceding November.

The construction committee may consider recommendations to the board concerning the construction of a pipeline to parallel the main supply line between Odessa and the Martin County pump station. Such a line would permit the use of lone leg for delivery of lake water and the other of well water for supplying peak demands to Odessa.

Purchasing Power Of Workers Rises

WASHINGTON (AP) — Secretary of Labor Mitchell said today the purchasing power of working people generally has been greatly strengthened in recent months.

Considerable improvement has been noted in both unemployment and inflation, Mitchell said in a new year statement.

He said the business recovery in the last half of 1958 "has been especially gratifying because simultaneously the cost of living has halted its rise." A slight increase was reported in November, the month in which the weekly eearnings of the average factory worker reached an all-time high of $86.58.

Mitchell said the nation's 22 million women workers make up one-third of the total working population.

Looking to the new year, Mitchell predicted jobs will remain scarce early in 1959 but that non-farm employment will climb to the highest point in history before the end of the year.

"But we must not ignore the fact that we still have too much unemployment," Mitchell said. "The situation is improving steadily, even though joblessness wil rise in January and February as a result of seasonal factors."

He said the outlook for the near future is for continued over-all stability in prices and rising incomes, so that further increases in consumer purchasing power and demand are very likely.

A government-sponsored survey on the 1959 industrial outlook was released Sunday by the Commerce Department.

The survey pointed to a steady but not spectacular rise in business activity based on a predicted 30 per cent increase in auto production, expected record activity in the construction field and a prospective continuation of the strong recovery in steel output.

Facetious Russians Ask U. S. Advice

MOSCOW (AP)—Moscow radio, with tongue in cheek, Saturday asked Americans for suggestions to help the Soviet seven-year plan.

The English-language broadcast beamed to the United States directed an appeal for advice and comment to American workers, farmers, intellectuals, clergymen and students.
