LATE NEWS BULLETINS

GRAIN FLUCTUATION LIMIT IS SET

WASHINGTON, July 25 (AP)—Farm administrators and representatives of grain exchanges today agreed tentatively to limit daily fluctuations in prices on wheat and other grains to 5 cents a bushel as a permanent policy.

STOCK PRICES MOVE UPWARD TODAY

NEW YORK, July 25 (AP)—Stocks moved higher today. Many opening advances of $1 to $4 were reduced by profit-taking sales, but the market later rose again. Rail stocks, favored by the substantial increase in June earnings as well as good loadings reports, strengthened. Many leading industrials moved narrowly, even at the outset, although numerous specialties, such as the "repeal" issues, showed higher prices.

GRAIN MARKET DISPLAYS STRENGTH

CHICAGO, July 25 (AP)—The grain market displayed strength today and prices advanced in all pits as buying again became general. Wheat prices climbed more than four cents a bushel with the December delivery again nearing the dollar mark, after descending to a low of 90 cents a bushel last Thursday. All grains showed strength after a somewhat slow start.

BOY KILLED WHEN HIT BY CAR

HENDERSON, July 25 (AP)—Lawson Gray, 11, of Henderson, was killed today when he jumped off a wagon and was struck by a passing car. The driver of the automobile was not blamed and the accident was held unavoidable.

Huge Recreational Center Proposed Here

FLOOD SPREADS OVER EASTERN TEXAS

LOSS WILL BE HUNDREDS OF THOUSANDS

CREEKS CONTINUE ON RAMPAGE; FIVE MEN ARE RESCUED

(By The Associated Press)

HOUSTON, July 25.—A flood menace spread over the northern part of eastern Texas today following rains that have averaged 15 to 22 inches since Saturday.

Everywhere rivers and creeks were on rampages washing out corn, cotton and watermelon crops. Carcases of numerous animals were seen floating down their turgid currents, indication of heavy livestock loss.

Shelby county estimated its loss would be around $1,000,000. Panola county's damage will be around $500,000, it was thought. Other damage from Lufkin north to the Louisiana border will run into hundreds of thousands.

Five Men Rescued

There had been no loss of life reported. Five men, who had clung to branches of trees for four hours when trapped by rising waters of Flat Fork creek, were rescued about 8 p. m., yesterday.

The men had attempted to cross the creek on foot when the yellow torrent bore down on them so quickly they were forced to climb into trees to escape.

Highway and rail traffic around Center and Joaquin was at a standstill. Whole sections of roadway were washed out on highways leading from these towns.

It was reported that 93 miles of railway road bed between Joaquin and Shreveport was so weakened it was not safe to run trains.

Bridge Threatened

The Sabine river rose a foot during the night and was continuing. Reports from Logansport, La., said the bridge over the river there was "swinging" in the water and was expected to go out.

An inch of rain fell during the night at Joaquin and it was still

AIMEE RETURNS PROTESTING SHE LOVES HUSBAND

ABOARD THE LINER CITY OF HAVRE, Off Norfolk, Va., July 25 (AP)—Aimee Semple McPherson Hutton, the evangelist, returned to America today, protesting she still loved her husband, David Hutton, "more than anything in the world."

Asked about his recent action instituting divorce preceedings, she said:

"Oh, I can't believe it. Of course I still am in love with him."

Attended by nurse, she lay on a bunk in the captain's quarters to receive newspapers as the City of Havre pulled into port.

"It is all so hasty that I don't know what to say," she said. "His last word was that he was counting the hours until I returned. It has been a tremendous shock."

She was pale, and her lips trembled as she talked.

POSTAL EXAMS TO END SOON

AUGUST 14 DEADLINE FOR APPLICATIONS FOR POSTMASTER

The United States civil service commission today announced receipt of applications for examination for the postmastership of Lubbock will close in Washington, D. C., August 14.

The three highest in the examination will be certified to the postmaster general for recommendation to the president for nomination, the Associated Press reported. Salary for the position is $3,600 a year. The Lubbock postoffice is of the first class.

To Determine Fitness

Conducted under President Roosevelt's order of July 12, and not under the civil service act and rules, the examination will be of a non-assembled type, consisting of application forms submitted by each competitor and an individual investigation of him and his training, experience, and general fitness.

Competitors will not be required to report for an examination at any place, ratings being based entirely on information in the application forms and separately compiled supplementary and corroborative data.

Forms Available

Application forms may be obtained from the secretary of the board of civil service examiners at the postoffice here or from the civil service commission in Washington. They must be properly executed and filed with the commission in Washington prior to the hour of closing business August 14.

Education and training will have 20 per cent weight, business experience and fitness 80 per cent, in ratings.

RIVAL TO LAKE WORTH SEEN IN PROJECT

DENTIST HEADS LOCAL GROUP PLANNING ON $200,000 PARK

A gigantic recreational center rivaling Lake Worth, Lake Kemp, Lake Cisco and other water sports centers of Texas to be constructed on the east fork of the Brazos five miles north of Lubbock is planned as a project under the National Industry Recovery act by a group of Lubbock men headed by Dr. Clyde C. Craig, dentist. Plans for the project were announced today by Dr. Craig.

Estimated to cost approximately $200,000 and to offer employment for 400 to 500 men from six to eight months, the project calls for the erection of a large dam on the canyon site just north and west of the Lubbock Country club grounds, forming a lake covering 257.9 acres, exceeding two and one-half miles in length and from one-quarter to a mile in width. It is planned to contain 1,142 acre-feet of water ranging in depth from two to twenty-five feet.

Self-Liquidating

The project is destined to be the largest and most complete of its kind west of Fort Worth and the only lake of its kind in a radius of 125 miles of Lubbock. It is claimed to be self-liquidating and engineers state the loan can and will retire itself over a period of ten years.

Efforts are to be made to seek sponsorship of the project by the Lubbock City commission in the application for the loan under the Recovery act.

Surveys and estimates of the project have been drawn by C. B. Hudspeth, local engineer. A map of the entire project has been made. J. H. Goodman is aiding in the project.

The lake center would offer all sorts of outdoor amusement including boating, fishing, swimming, hunting and other water sports. Tennis courts, dance pavilion, board walk, bathing beaches, casino, concessions and other projects would be included in the amusement center besides several hundred lake cottages, a $20,000 club house and parks. The upper end of the lake is planned as a duck hunting ground with several miles of shallow water planted to cattails and grass suitable for hunting.

Will Be Stocked

The lake will afford excellent fishing within two years time, Dr. Craig said. It will be stocked with all sorts of game fish including bass, crappie, and brim.

There will be practically 80 miles of shore line to the lake and ap-

Italian Planes Start Homeward

GENERAL ITALO BALBO LEADS 24-SHIP ARMADA OF THE AIR ON FLIGHT TOWARD SHEDIAC

(By The Associated Press)

NEW YORK, July 25—General Italo Balbo led his 24 plane armada of the air on toward Italy today, leaving the seaplane base of Floyd Bennett field, for Shediac, N. B., 650 miles away.

The first plane was in the air at 9:01 a. m. Eastern Standard time, and the last at 9:18.

Because it has been General Balbo's custom to lead the way into the air on every takeoff of the long flight from Italy to Chicago and New York, it was supposed this morning that he was in the first plane to rise from the waters of Jamaica bay, and was so reported.

It was later determined, however, that the order of takeoff had been almost completely reversed and that General Balbo was in the 20th plane to leave the water. The other planes circled over the field until the general and the planes leaving after him were in the air and then, with Balbo in the lead, flew away.

It was said the reversal of takeoff order was decided on because of the position of the planes in the inlet.

This was the second lap of the return flight to Italy. Balbo's destination in the United States on his flight from Italy was Chicago where he and his officers visited the Century of Progress exposition last week.

Dr. James H. Kimball, government meteorologist, reported to General Balbo that weather conditions on the route to New Brunswick had improved. It was raining in southern Maine, was cloudy in northern Maine and partly cloudy in New Brunswick, Dr. Kimball said.

The last triad rose from the water at 9:18 and the armada, which had been circling over the field until all planes were in the air, flew away in formation toward the northeast. There was a 25-mile headwind.

There was a crowd of several thousand persons at the seaplane base and around the field administration building almost a mile away a great cry of "viva Balbo" and "viva Italia" rose as the great armada roared away.

APPEAL GIVEN OUTBURST OF ACCEPTANCE

TELEGRAMS START TO POUR IN AS SOON AS PLEA MADE

BY JAMES COPE
Associated Press Staff Writer

WASHINGTON, July 25.—A flood of telegraphed pledges, hundreds upon hundreds of them, answered today President Roosevelt's appeal to the nation for immediate enrollment of all employers under the blanket agreement to raise wages and create new jobs.

Hardly had he finished last night the plain-worded, direct call for patriotic and unquestioning acceptance of the voluntary and individual employer-pledges to raise pay and shorten hours before the answers began to come in. Within an hour 300 promises had come, a few more minutes and the number doubled and still there appeared no end to the flow.

Leaders Gratified

The president and Hugh S. Johnson, the man who is running the industrial recovery unit, were reported profoundly gratified. A White House secretary said it was the greatest spontaneous outburst that had greeted any of the president's utterances.

His appeal was terse:

"We are not going through another winter like the last . . . it is time for courageous action, and the recovery bill gives us the means to conquer unemployment . . .

"The proposition is simply this:

"If all employers will act together to shorten hours and raise wages we can put people back to work. No employer will suffer, because the relative level of competitive cost will advance by the same amount for all. But if any considerable group should leg or shirk, this great opportunity will pass us by and we will go into another desperate winter. This must not happen. . . .

"I ask that even before the dates set in the agreements which we have sent out, the employers of the country who have not already done so—the big fellows and the little fellows—shall at once write or telegraph to me personally at the White

Fiendish Slayer Object Of Hunt

BODY OF BOY VICTIM, BADLY MUTILATED, IS FOUND IN BAY

(By The Associated Press)

SAN DIEGO, Calif., July 25—The entire San Diego police department today searched for some clue that might lead to the slayer of Dalbert Aposhian, 7, whose mutilated body was found in San Diego bay.

Mothers, worried concerning the safety of their children, organized to demand speedy solution of the murder. Telephone calls to city officials from representatives of one group of 100 women asked that the slayer and all of his kind be rounded up immediately.

Sailors crossing the bay yesterday found the body of the boy, missing a week from home.

Dr. F. E. Toomey, county surgeon, said the boy's death was from "multiple mutilating operations." He said the body had been in the bay about four days.

Chief of Detectives Harry Kelly assigned all his men to search isolated dwellings, shacks and lots along the water front and in other parts of the city. Many men, listed in police records as suspicious characters, were brought to the police station but none was held.

The boy left his home last Tuesday with a playmate. They went to a department store and looked at toys. Then they separated, Dalbert saying he was going to the park to visit the zoo. At 5:30 p. m. that day he was seen in the neighborhood of the cleaning establishment operated by his father and mother, Mr. and Mrs. George W. Aposhian. He did not go home, however. At 1:30 a. m. Wednesday G. K. Rose, a taxi driver, saw the boy on a downtown street. Dalbert asked for permission to sleep in Rose's car, but a fare made it impossible.

Rose was the last person known to have seen the boy alive.

Five Arrested As Kidnaping Suspects

(By The Associated Press)

Federal government agents held four members of the "Terrible Touhy" gang in Milwaukee Tuesday on warrants charging them with kidnaping, and arrested another Chicago gangster, Leo Mongoven, a survivor of the George "Bugs" Moran gang, for questioning in connection with an epidemic of kidnaping throughout the nation.

The Touhy mob was charged with the abduction June 15 of William Hamm, jr., wealthy St. Paul brewer later released for $100,000 ransom. They were arrested in Elkhorn, Wis., last week in connection with the snatching of John Factor, Chicago barber turned stock operator, who was held for more than a week for $50,000.

"Badge Of Honor" Red, White, Blue

WASHINGTON, July 25 (AP)—The American red, white and blue is the coloring of the "badge of honor" which employers cooperating in the national recovery movement will display in their windows and on their goods.

A distinctive eagle, holding in its talons an industrial cog-wheel and a sheaf of lightning bolts representing the power of united action, makes a splash of blue in the center, against a white background.

At the top in huge red blocks are the letters "N.R.A.", which stand for National Recovery Administration. The word "member" in blue comes directly under this, while at the bottom of the badge a brilliant red line says: "We do our part."

CLYDE BARROW ESCAPES NET

TEXAS DESPERADO AND TWO MEMBERS OF HIS GANG ARE SOUGHT

(By The Associated Press)

SUTHERLAND, Ia., July 25—Federal, state and county officers were preparing for a countywide search today in an effort to locate three members of the Barrow gang who escaped during a gun fight near Dexter, Iowa.

The officials are seeking Clyde Barrow, Texas desperado, a woman companion, and a man identified, the authorities said, as Jack Sherman of Dallas, Tex.

One Brother Caught

In the fray yesterday, Marvin Barrow was seriously wounded and his wife taken prisoner.

Heavily armed, the peace officers gathered here last night after receiving reports that the three fugitives had been seen in a stolen automobile headed for Sutherland, known to be in the vicinity of one of the gang's hideouts.

The officials charged the hideout in a ravine seven miles east of here but found no traces of recent occupation. Returning to town, they received orders from Park R. Findley, chief of the bureau of investigation, to remain here overnight to await further instructions.

Wanted For Murder

Both Barrows are wanted for murder. Jack Sherman is suspected of being Bob Brady, Oklahoma convict who escaped from the McAlester prison, was captured in Des Moines, sentenced to the Kansas state prison, and later escaped.

At Perry, Ia., Marvin Barrow was reported by hospital attendants as "resting easily." His principal wound is in the forehead.

Morrison Returns To New York Today

NEW YORK, July 25 (AP)—Ralph Morrison, of San Antonio, Tex., a delegate to the world economic conference in London, returned on the liner Ile De France today.

He said it was apparent soon after the conference began that there would have to be an adjournment. He said he believed it would be resumed but not until certain conditions have been cleared up.

ALLRED TO PROBE LOW OIL PRICES

WASHINGTON, July 25 (AP)—James V. Allred, attorney general of Texas, said here today he had ordered investigation into reports that major companies buying oil in West Texas pools were paying 40 per cent less than for oil of the same quality from other fields in the state.

A large part of the oil produced in western Texas around San Angelo comes from acreage owned by the State university and the State public school system, Allred said, adding that "arbitrarily" lowered prices cost these institutions hundreds of thousands of dollars.

He said four or five major purchasing companies were the principal buyers in the area, naming them as including the Humble Oil company, the Royal Dutch Shell Oil company, the Gulf Oil company and the Texas Oil company.

The companies contended the lower price was justified because of increased transportation costs to market, but Allred said "40 per cent lower is unreasonably out of line with transportation costs."

Kansas Newspaper Slashes Work Week

PARSONS, Kas., July 25 (AP)—Former Governor Clyde M. Reed, editor of the Parsons Sun, today sent a telegram to President Roosevelt saying "my newspaper subscribes fully to your program for recovery. We announce a 35-hour week today."

Plains Farmers Plow Up Cotton

MRS. URSCHEL NOT WORRIED

OFFICERS CALLED OFF AS WORD AWAITED FROM KIDNAPERS

(By The Associated Press)

OKLAHOMA CITY, July 25.—Unalarmed, Mrs. Bernice Urschel waited today in her unguarded mansion for word from the kidnapers of her husband, Charles F. Urschel, trustee of the $23,000,000 Slick oil estate.

"We have done everything we can," she said. "Now we are just sitting here waiting for them to make the next move.

Wife Not Worried

"The officers have given us every cooperation. They have agreed not to spread any net while we are dealing with the kidnapers.". Mrs. Urschel did not seem worried about the silence from the hoodlums who interrupted a bridge game at the Urschel home last Saturday night, and, prodding them with machine guns, hustled Urschel and W. R. Jarrett, his oil man friend, away. Jarrett was released later.

Mrs. Urschel indicated she did not expect to hear from the abductors until tomorrow.

Others at the home retained an air of composure. They were waiting for the arrival of Arthur Seeligson, who, like Mr. and Mrs. Urschel, is a trustee of the great estate of Tom B. Slick, "king of wildcatters," Mrs. Urschel's first husband.

Will Take Charge

Seeligson, coming by train from North Carolina, is to be in complete charge of negotiations.

PERMITS RECEIVED BY 200 THIS MORNING; WORK STARTED

Actual plowing up of part of the 1933 cotton crop in Lubbock county began this morning after 200 farmers who received their temporary permits. Reports from Shallowater, Grovesville, Monroe and other sections indicated several farmers began in each community this morning.

County Agent O. G. Tumlinson late yesterday called in one member of each community to his office to meet with the county committee this morning. During the night Mr. Tumlinson had 3,000 copies of the blanket permits printed by a local house and this morning the committee began filling out blanks and signing them.

All available space in the federal building was in use and some of the committeemen went to the Texas Cotton Cooperative association office where they signed up blank permits. By noon many of the 29 communities had almost completed their work.

"We are going ahead with these blanket permits, although we do not have the original blank that is to be sent to Washington. We keep one duplicate in the office here and another one is kept by the farmer," Mr. Tumlinson said.

Mr. Tumlinson expected to finish the work by night. By Wednesday nearly every farmer in the county who contracted will have a permit, he said.

On applications involving over $1,500 no permits are to be issued until countersigned and inspected by J. H. Taylor of Ralls, federal inspector for the county.

DENTIST FOUND DEAD

NEW YORK, July 25. (AP)—Dr. E. Warren Sylla, 60-year-old dentist, was found dead today in his apartment, a gag over his mouth, a sheet around his neck and his hands tied.

AGREEMENTS WILL GO OUT THURSDAY

WASHINGTON, July 25 (AP)—Starting Thursday, letter carriers will begin delivering to 5,000,000 employers the proposed agreements between them and President Roosevelt voluntarily to raise wages and limit hours of work.

Immediately upon receipt, the employers have been asked to sign them and return them to the president.

They become effective on August 1 or any time after they are signed.

Upon presentation of the agreements at the local postoffice, the employers will receive the national recovery administration's insignia bearing the initials N. R. A., an eagle and underneath the inscription "we do our part."

Car Mishap Victim Not Yet Identified

AMARILLO, July 25 (AP)—The body of a man about 65, who was killed in an automobile accident six miles west of Adrian Monday, remained unidentified at a local morgue today.

A name and address, "N. A. Hannah, 1823 N. 49th Avenue, Omaha, Neb.," was found on his person, but no reply has been received from telegrams sent there.

PAPER ADOPTS CODE

TUSCALOOSA, Ala., July 25 (AP)—Bruce Shelton, publisher of the Tuscaloosa News today telegraphed President Roosevelt the News had established maximum hours and minimum wages and advised the chief executive all daily newspapers in Alabama had been requested to follow suit.

THE WEATHER

WEST TEXAS: Generally fair tonight and Wednesday.

EAST TEXAS: Partly cloudy tonight and Wednesday, except showers in extreme east portion tonight. Light to moderate variable winds on the coast, becoming southerly.

OKLAHOMA: Generally fair tonight and Wednesday.

BUCK BARROW WON CLEMENCY ON PLEA BY HIS WIFE, AN EXPECTANT MOTHER

(By The Associated Press)

AUSTIN, July 25—A plea made by Buck Barrow's wife, about to become a mother, who hitchhiked to Austin to see the woman governor—Miriam A. Ferguson—helped win clemency for the man who since has left a trail of crime across several states. Mrs. Barrow hitchhiked to Austin leaving three children at home.

Governor Ferguson's immediate predecessor, former Governor R. S. Sterling, released Buck's brother, Clyde, from the Texas penitentiary on a general parole.

Before Mrs. Ferguson when she acted on Buck Barrow's application for clemency, were letters from a number of prison officials recommending that he be pardoned, in which the now desperado was described as "a model prisoner."

Prison officials urging the governor to give Buck Barrow his freedom were V. G. Isvekov, director of the penitentiary laboratory; E. W. Anderson, medical supervisor of the prison system,

Law Changes Seen From Stock Decline

WASHINGTON, July 25 (AP)—Senator Steiwer, (R-Ore.), a member of the banking committee, today forecast legislation by the next session of congress to minimize the possibilities of a recurrence of "the panic of 1929 and the past week's experience with its abnormal shrinkage of prices."

After asking Ferdinand Pecora, committee counsel, to determine causes of the recent stock slump, Steiwer proposed that business leaders and economists study propositions for consideration next session.

Minimum Oil Price Plan Is Endorsed

WASHINGTON, July 25 (AP)—The proposal authorizing the government to fix minimum oil prices was endorsed by a group of independent distributors and others today at hearings on the various codes suggested to govern the petroleum industry.

The power for governmental price-fixing is contained in a code of fair competition put forward by the American Petroleum institute. This section is opposed by an independent group, led by John B. Elliott of Los Angeles, which has submitted a code of its own.

FOREIGN NATIONS ASKING FAVORABLE TREATMENT IF PROHIBITION REPEALED

(By The Associated Press)

WASHINGTON, July 25—Foreign powers already are clamoring to get favorable treatment for their wines, whiskies and beers in case the Eighteenth amendment is repealed.

France and half a dozen other nations have sounded out American officials in London and Washington on the possibilities of tariff trades on alcoholic beverages.

The line up of Tennessee, Arkansas, and Alabama for prohibition repeal, many diplomats say, has persuaded them that the American market will be opened to liquor imports by the end of this year. Naturally, they want information about the tariff policy this government will adopt in connection with foreign beverages—and concessions, if they can get them.

Portugal, Great Britain, France, Spain, Germany and Italy were the countries from which the United States extensively imported pre-Volstead beverages.

The imports of alcoholic drinks into the United States in 1913 totaled over 17,000,000 gallons with a value of $20,743,129.

Studies Of Mission Work, Business Sessions And Devotionals Interest Women Of Churche

Members Received In Some Societies

Studies of home and foreign mission work, business discussions and devotionals engaged the attention of several hundred women Monday afternoon when church societies had regular weekly meetings.

Members of the First Christian General Aid society and the First Baptist Women's Missionary society met in various homes for study and devotional lessons. The First Presbyterian auxiliary, Asbury Methodist, Central Baptist, First Methodist and Nazarene Women's Missionary societies met at the churches. Members of the Calvary Baptist Women's Missionary society met with Mrs. L. F. McCrummen and the First Methodist Mary Helm auxiliary met at that church.

Mrs. R. D. Moxley was leader of a program on home missions that was presented at the Presbyterian auxiliary meeting.

She was assisted by Mesdames J. M. Holloway, J. A. Pressley, G. W. McCleary, W. L. Hester, N. L. Peters, J. B. Waltrip, J. J. Clements, Ed Ainsworth, H. A. Davidson and Miss Virginia McLean.

Virginia Lee Barr reported on the recent Presbyterian encampment at Ceta canyon.

Study Biblical Characters

Members of the First Christian General Aid society continued a study that they are making of "Women of the Bible."

Circle 2 met with Mrs. C. C. Crenshaw with 15 in attendance. Mrs. A. T. Biggers led the devotional. Mesdames George Kuykendall and M. L. Grady were on the program. Two new members, Mesdames Jay Harston and J. S. Rogers, were received.

Seventeen women attended a meeting of Circle 4 with Mrs. A. M. Johnson as hostess. Mrs. John Green was assisting hostess.

Mesdames Sam J. McFarland, W. J. Duncan, Floyd Coffman and Vernon O. Marshall presented the program.

Mrs. K. M. Renner, 2301 Eighteenth street, was hostess to Circle 3 in her home.

Nance Marie McFarland played a piano selection.

Those attending were Mesdames Jim McFarland, D. N. Leaverton, Irene Wiley, Fred Childress, J. W. Kolb, F. C. Robinson, C. R. Miner, Isabel Garrison, R. S. Mays, J. E. Cozby and J. D. Nelson

Study Mission Work

Missions in Africa were discussed at gatherings of the First Baptist church circles

Mrs. J. D. Carnett led a devotional lesson at a meeting of Circle 6 with Mrs. C. W. Byers, 2108 Sixteenth street. Others on program were Mesdames Harry C. Burrus, C. W. Byers, W. B. Yeager and Mabel and Joyce Jackson. Mrs. H. L. Byers of Amarillo was a visitor. There were 12 members present.

Mrs. Mary McComb led a program at a meeting of Circle 2 with Mrs. J. E. Hamilton. Mrs. J. W. Grady had charge of a devotional. There were 9 present.

Mrs R. R. Holmes was program leader when members of Circle 5 met with Mrs. J. I. Nash, 910 Avenue R. There were 6 present.

Mrs J. H. Hankins was hostess to members of Circle 7. Mrs. D. J. Wilhelm led a devotional. Mrs. W. A. Clark led the program. Talks were made by Mesdames O. W. McLeod, Hankins and W. F. Fry. Mrs. W. D. Lee was received as a member.

Ten members and one visitor gathered for a meeting of Circle 9 with Mrs. H. W. Cherry. Mrs. J. M. Ford was leader of the missionary lesson.

A Bible study was conducted by Mrs. Fred Litton at a meeting of Circle 12 with Mrs. E. H. Switzer. Eight women were present.

Mrs. W. W. Ray conducted a prayer service at a meeting of 17 members of the Calvary Baptist society in the home of Mrs. McCrummen, 1614 Avenue N.

There were 13 women present at a meeting of the Central Baptist W. M. S. Mrs. H. F. Reese led a devotional lesson. Missions were discussed.

Mrs. E. B. Holland, president of the society, presided for a business meeting.

Members of the Mary Helm auxiliary and Jennie K. circle met for a business session. Mrs. C. M. Chandler led a devotional.

Mrs. George R. Bean, president of the First Methodist W. M. S., presided for a business meeting of the society. Reports from officers and circle chairmen were made. Mrs. R. F. Dunn led a devotional.

Plans were made to have a food sale next Saturday at Brewer Store No. 2 by members of the Asbury Methodist W. M. S. when they met in business session presided over by the president, Mrs. E. S. Fisher.

Mrs. W. F. Bonds led a prayer and a devotional was brought by Mrs. Orion W. Carter. There were 24 present.

Wear Wide-Shoulder Effects To Be In The Fashion

Restrained, new ways of achieving the modish shoulder width and bodice fulness, give individual distinction to new semi-formal afternoon things. (Left) Black and white marocain are combined in new manner with white sleeves capped by the black shoulders. A string belt motif and hat decoration add interest. (Right) Brown and beige dotted crepe faconne has bouffant sleeves which give the required shoulders, in novel manner, and an asymetrical cut to the body of the gown lends distinction. The brown straw hat is trimmed with beige grosgrain.

BY JEAN PATOU
Written for NEA Service

PARIS—Any style worthy of interest is one which must leave its imprint on all the categories of clothes which together constitute what is known as the mode.

When a new fashion is perfectly understood, and the predominating feature has the necessary qualities to inspire a definite trend, then can you trace its principles in every type of dress, where they are more or less apparent.

In any event, whatever guise these principles may affect, they must never be used in too emphatic or too sudden a manner Rather must their influence be divined in the guise of fantasies which soften the general effect.

Fantasay, With Discretion

There is no other type of dress to compare with the semi-formal afternoon gown where the couturier finds himself right on the limits of fantasy and where there are so many occasions of exaggerating, especially where a new style is concerned.

This is easily understood if you remember that because of the note of distinction women expect to find in models of this category, at the same time they also have to show a certain discretion. Monotony here is more or less attenuated according to the degree of fantasy applied.

The chief characteristic of the semi-formal afternoon dress is indeed a definite note of elegance which cannot be separated from certain principles of cut and trimming. I will take two concrete examples in my present collection to illustrate my meaning.

Contrast Hints Fulness

In the first model, a black and white combination, there is a decided effect of fulness at the top of the silhouette, a characteristic of the season. Here you will see that this movement can be translated in another way than by volume and that this impression can be conveyed by the introduction of a contrasting color.

This is a means which has the added advantage of making the silhouette appear considerably narrower at the waist and hipline without extra bulk at the top.

Balance Preserved

The same effect can be seen in a more sober and simple dress of dotted crepe faconne. Here the sleeves show the fashionable fulness but within the limits required of a relatively simple gown. The note of fantasy is supplied by the asymetrical effects of cut and the play of dark and light backgrounds.

Asymetry is always permissaole and is certain of producing attractive results provided always it carries with it a perfectly balanced compensation in the basic structure of the gown.

YWA Meeting Is At Church Monday

Mrs. R. G. McLeod taught a Bible lesson Monday evening at a meeting of the Central Baptist Young Woman's auxiliary at the church.

Miss Bearldine Person was received as a new member. Miss Edna Upton was a visitor. Other members attending were Misses Jennye Mae Whittaker, Annie Brooks, Thelma Hughes, Nell. Marie and Bennie Medley, Modina Chambers and Mrs. W. C. Powell.

Canyon Women Have Meeting Monday

There were 37 women at a meeting of the Canyon Women's Missionary society Monday afternoon at the Canyon church. Mrs. Sudie Coleman was a visitor. Mrs. L. M. Biffle led the devotional and Mrs. Harold Biffle was chairman of a social hour.

Memphis Visitor Will Be Honored

As a courtesy to her guest, Miss George Lee Drake, of Memphis, Mrs. Merle Fulton is entertaining at her home, 2207 Fourteenth street, Wednesday afternoon at 3 o'clock.

Horn Class To Have Picnic Tonight

Members of the Horn Bible class of First Methodist church and their families are to attend a picnic at Shannon park this evening at 6:30 o'clock.

CLIFFORD JONES SLATED FOR POST

DALLAS, July 25.—(Special)—Clifford B. Jones, former president of the West Texas Chamber of Commerce, of Spur is a probable appointee as public works administrator for Texas, Louisiana, and New Mexico, the Dallas Times Herald's Washington correspondent said in a story printed Monday afternoon.

Jones had been slated for the position of state administrator when it was decided to substitute a plan of regional administrator with an advisory board in each state.

Later, Jones was selected as a member of the Texas advisory board with Col. H. B. Moore of Texas City as regional administrator. Moore declined the position because of ill health.

Fingerprinting Is Spare Time Hobby

PLAINVIEW, June 25.—(Special)—Desiring to become a fingerprint classification expert, Miss Mozelle Groner, secretary to Joe Sharp, county attorney of Hale county, is studying fingerprinting in spare time.

Miss Groner graduated from a junior college at Marshall last June and accepted the local post. She became interested in the fingerprinting work in the office of Sheriff Nath Burkett. Now she hopes to go to Chicago and study there.

NEW ZEST TO BEANS

If your family is tired of homemade baked beans with salt pork, try baking them with pieces of fresh pork. You'll be surprised how much more appealing they are cooked that way. Besides, a pan of baked beans, with generous squares of fresh pork scattered throughout, constitutes a whole meal.

LOCALS

Miss Loraine Miller of San Angelo, who spent the week-end here as the guest of Mrs. M. L. Price, has returned to her home. She accompanied Miss Jane Scheman and her mother. Misses Miller and Scheman plan to return to Lubbock and enter Texas Technological college this fall.

Mrs. M. L. Lindsey and children of Levelland are visiting Mrs. Lindsey's parents, Mr. and Mrs. J. K. Wester.

Mr. and Mrs. Harry Morris and son, George, and Mr. and Mrs. E. R. Allen have returned from a vacation trip to Santa Fe and other points in New Mexico.

Mr. and Mrs. Cecil Burnam of Big Spring have moved here to make their home. Their small son, Charles, is seriously ill in the Lubbock sanitarium. Mrs. Burnam's parents, Mr. and Mrs. H. M. Murphy, and Mr. Burnam's parents, the Rev. and Mrs. H. L. Burnam, of Whiteflat, are here to be with the child.

Lewis Wesler, manager and owner of the Ponca Mercantile company, is here for a few days. His home is in Panhandle.

Mr. and Mrs. B. Ausmus of Big Spring are here for a few days.

Mrs. W. S. Thrash has returned from Fort Worth where she was called by the death of her sister.

Miss Hattie Garrett of Sterling City is staying with Mrs. R. M. McCollom and attending Texas Technological college this term.

Miss Louise McIlhaney and nieces, Joan and Nancy Jane McIlhaney, have returned from a visit with Miss McIlhaney's mother in Farmington, N. M. They were accompanied back by Sam McIlhaney and Miss Floy Herron of Farmington.

G. W. McCleary, W. T. Gaston and W. W. Condray are expected to to return Wednesday from Austin.

Miss Ina Mae McCollom is expected home today from a trip to the Rio Grande valley where she visited her sister.

Mr. and Mrs. T. M. Rogers and son, Eugene, and Mrs. Cope of Dallas, have returned from a trip to New Mexico. They spent some time in the Cimarron canyon.

Mr. and Mrs. Ford Benham have gone to Waco to take Mr. Benham's parents home after they visited here.

Mr. and Mrs. H. D. Kirk of San Antonio are moving to Lubbock and are expected this week-end. Mrs. Kirk and Mrs. Owen W. McWhorter are sisters.

Miss Ora Mills of Comanche, is visiting Mr. and Mrs. Guion Gregg.

Mr. and Mrs. R. W. Glass of Dallas and Miss Faye Blankenship of San Antonio have been visiting Mrs. Glass' and Miss Blankenship's aunt and uncle, Mr. and Mrs. A. W. Blankenship, 1408 Avenue R. They have just returned from a trip to Grand Canyon and New Mexico.

J. N. Nicholson of Mabank has been visiting his daughter, Mrs. J. B. Maxey, and family.

Mrs. F. A. Tucker of 1012 Ninth street is leaving this afternoon for Belin, N. M., where she will spend a few days with her parents, Mr. and Mrs. E. N. McReynolds.

The suburb of Lakewood, O., has ranked first among cities of its size in the United States five times for its fire prevention record.

Beauty Secrets? There Are None

* * * * * * * * * *

BY JULIA BLANSHARD
NEA Service Writer

NEW YORK—"There are no beauty secrets in the world! But there is a great deal of beauty information that every woman can apply to advantage."

It is on this frank premise that Madame Berthe Le Bloss Marlaine does a big business. She is one of the few women perfumers in America. And she is the cosmetician who this spring launched the funny-colored cream that, when it touches the skin, gives a girl the kind of natural rouging that makes her eyes sparkle and her lips smile.

"Cultivating beauty is an art," Madame Marlaine insists. "Women should realize that it takes time and thought—just as any other worthwhile pursuit. No artist gets the effects he wants on canvass immediately. But no artist lets his first botchy effort stand. He will mix colors, change values, experiment until he is suited.

"But the average woman still buys her cosmetics, in the dark, we might say, slaps them on and steps forth. The problem is to learn your own self, then cultivate your beauty until you are an original, not a copy."

* * *

Madame Marlaine started out to be an artist herself. At her home in Paris she studied art, hoping to become a second Rosa Bonheur. While still quite young, she came to America with her brother, who was a sculptor. Once here she got a job designing dresses for a manufacturer and when her brother went home, she stayed.

"My first big thrill with America came when I exhibited my first collection," she relates. "It was a tremendous success. In France things never happen so suddenly and spectacularly as here. America, I decided, was the place for a young woman. So I stayed. Silks and woolens became my medium. I made frequent trips back and forth to Paris for new inspiration. And didn't I feel important!"

"After I got over the thrill of seeing copies of my own designs and a keener observation replaced my first excitement, I began not only to study clothes more closely but the woman who wore them well.

I decided it was grooming, and a skillful knowledge of make-up that made some women look so much better in certain things than did other women. The beauty field began drawing me away from clothes. And just at that moment I met my husband, a Frenchman who was in the cosmetics business. So I've been in it ever since."

* * *

Madame Marlaine early faced the problem that sooner or later all women struggle with—graying hair.

"I had that blue-black hair that nearly always becomes prematurely white," she told me. "I found, however, that if I gave up black and hard colors and went into softer tones, pastels and white, that my hair was an asset. And I found that my make-up had to change too. My rouge needed to be lighter, so did my powder. I firmly believe that if women studied their make-up more carefully they would not mind gray or white hair.

"There is no hard and fast rule for make-up. Suit the individual is the real rule. Don't waste time thinking there are beauty secrets. Just learn what looks best on yourself and beauty will be yours."

Two Plays Are To Be Presented Her

The Eschylian Dramatic club of Asbury Methodist church is presenting two one-act plays in the church annex this evening at 8:30 o'clock. These plays are "When Love is Young" and "Enter Dora—Exit Dad."

Six new members were received at a social meeting Monday evening with Miss Ruby Lee Ater, 1610 Tenth street. These are Miss Jamie B. Collie, Miss Sarah Agnes Bryant, Huburn Freeland, Russell Torrence, Misses Carrie Bell Turner and Rowena Turner.

Mary Frances Pirkey Is Complimented

Mrs. G. W. McCleary entertained Monday night with a slumber party for her niece, Mary Frances Pirkey, of Honey Grove, who is visiting here. The girls slept on the lawn of the McCleary home, 1117 Nineteenth street. Guests were Annette Wulfman, Betty Alice Gordon, Polly Peters, Frances Wilson, Sarah Symes and Mary Elizabeth Brown.

Billie Jean Johnson Is Given Party

Mrs. Douglas Johnson, 2014 Avenue J, entertained Monday afternoon for her five-year-old daughter, Billie Jean, in their home.

Guests were Dorothy Dell, and Mary Joe Brown, Betty June and Bobbie Joe Herron, Wanda and Jean Scott, Florence Lorene Wandell, Alford Ray Park, Mildred Scott, Theda Johnson, Tommy Lou and Sonny Johnson, Herschel Wayne Brown, Mary Ethlyn and Max V. Myatt, Nellie Mae Ingram of Post, Doris Dale and Walter D. Wray, Joyce Patterson, Elvin Street, Betty Jewel Johnson and Bonnie Lou Johnson.

Positive Relief For Itchy Skin

Cooling and soothing Blue Star Ointment melts on the skin, sending rested medicines deeply into pores where it quickly kills itch, tetter, rash, eczema, foot itch, ringworm etc. Money back if it fails.—Adv.

Equalizer KOTEX

gives 20 to 30% greater protection!

Illustration and text copr. 1933, Kotex Co.

NEWS! Equalizer Kotex—a processed strip in the center of each pad, which adds greatly to the service without a bit of extra bulk or uncomfortable thickness. Read the direction sheet to learn intimate facts about the Equalizer.

All of the former advantages of Kotex are still here, of course—the softness, the ease of disposal, the absorbency, the "Phantomized" ends, rounded and tapered; the fact that it can be worn on either side with equal protection.

Buy Kotex with Patented Equalizer, assured of such safety and comfort as you never before dreamed of.

Taut Nerves

mean tired tomorrows

"Did you hear that noise...?"

How many times have husbands been awakened in the middle of the night by that tense question? How many times have wives been rudely reminded . . . "It's your imagination . . .!"

But, fear is something real. Taut nerves cause sleepless nights and tired tomorrows. A woman is afraid...and a man fails to make an out-of-town trip essential to his business. Serious illness often is traceable to fear.

May we suggest a simple remedy?

Have a telephone installed within easy reach of the bed. It's a comfort to know that police, firemen, physicians, await your call. And, wouldn't it be a pleasure to have a willing servant ready to run your errands, help you to visit with friends . . . 24 hours a day?

You can have a telephone for less than a dime a day. Call the Business Office. Say: "I want a telephone."

SOUTHWESTERN BELL TELEPHONE CO.

BEER REVENUE TOTAL HIGH

TAXES FOR JUNE SET AT $13,750,000 FOR INCREASE OVER MAY

(EDITOR'S NOTE: This is another of a series of stories by staff writers of the Associated Press and administration legislation now in effect).

By MELBOURNE CHRISTERSON

WASHINGTON, July 25. —(AP)—Stronger beer is sold now and new revenue flows into the treasury as a result of fulfillment of that part of the Democratic platform which called for modification of the Volstead act.

The brew has a limitation by law to an alcoholic content of 3.2 by weight or 4 per cent by volume, and is taxed $5 a barrel.

Taxes Increase

Figures released today show June brought to the treasury over $13,750,000 from taxation of beer and on brewers and dealers, and more than $11,530,000 in May.

Congress also has removed virtually all restriction on prescription of liquor for medicinal purposes. With encouragement from the president, an active campaign to speed repeal of the 18th amendment is being conducted by Postmaster General Farley.

The financial and personnel strength of federal enforcement agencies has been diminished markedly in economy measures.

The prohibition bureau has directed its agents to concentrate on big violators and leave speakeasies to the states for prosecution. With funds sharply reduced, over 1,000 agents have been let out.

Meet To Draft Code For Coal Mining Industry

Leaders in the coal industry met in Washington to draft a trade agreement under the industrial recovery act to raise wages and shorten hours in the bituminous mines. Left to right, the code committee: George B. Harrington, Chicago; George Heaps, jr., Des Moines; T. G. Essington, Chicago, and John L. Lewis, president of the United Mine Workers of America. (Associated Press Photo)

AMERICA'S WOMAN DIPLOMAT SEEKS TRADE WITH DENMARK; SHE'S BUSY

* * *

COPENHAGEN, July 25 (AP)—Personally popular with the Danes, Mrs. Ruth Bryan Owen, the new American envoy here, has also endeared herself to the American community.

They were "for her" more than ever when she stated:

"I am a business woman and I am here to assist in restoring the normal flow of trade between America and Denmark. That is my principal business."

See Danish Leaders

And she has set about that business with zest.

She is negotiating not only through the Danish foreign office but keeps in touch with other cabinet ministers and with the Danish captains of industry and commerce.

With the latter she is exceptionally popular. They like her business-like methods and not the least that she can talk to them in German or French, if they themselves are not masters of English.

Shortly, Mrs. Owen expects to be able to talk to them in Danish. She is studying the language intensively though she is at work in the legation office from early morning till late in the afternoon daily.

Fixes 'American Home'

Upon the American community here she has impressed the idea that they are to consider her house their American home in Denmark. She brought her own colonial period furniture with her; the walls of her study are lined with the best in American literature; and everywhere are to be found pictures by American painters.

When Mrs. Owen was in Denmark two years ago, she and her children motored through the country and she had many invitations to revisit scenes of that trip.

Legation business, however, will prevent her from making long excursions this year, though she has managed to visit Aalborg, the capital of North Jutland.

En route, she stopped at Odense, the birthplace of Hans Andersen, the poor Danish boy who became the teller of fairy tales to the children of the whole world.

In this place she was presented with a stone from the house in which he lived. She had the name of Hans Andersen chiseled on it and it has now been dispatched to Rollins College, Winter Park, Fla., where it will form part of the famous flagstone path.

Mrs. Ruth Bryan Owens, U. S. envoy to Denmark, is busy with commercial problems.

FISHERMEN DENY SHARKS WILL ATTACK HUMANS

GALVESTON, July 25 (AP)—The theory that sharks relish human flesh and will attack swimmers wantonly is another illusion of landlubbers inspired by legends, if statements of veteran seamen and fishermen around Galveston are to be accepted.

They never fail to get a laugh from the stories which make the rounds every bathing season of fatal encounters with sharks. The thing that makes the tales so absurd is, they say, that the shark naturally is one of the most timid and cowardly of all fish. It is first, last and always a scavenger.

In a tight spot, according to old salts, a shark will fight. As for attacking a human being while alive and in motion, it would as readily make a trip ashore—the last likely of its actions. If particularly hungry, a shark may take a nip at objects floating or being dragged slowly through the water, but if that object is in motion it prefers to leave it alone.

The baracuda, found in tropical waters, is the only fish known, they say, that will attack a human being without provocation. Some species of sharks are more vicious than others, but they stick to the deep sea where they were born. Litoral or coastal sharks are nothing more than scavengers.

Old-timers tell how negro boy servants at a popular resort hotel on the north jetty here used to make great sport of diving into droves of sharks that hung around the pier feeding on refuse—just to see them scatter.

MOLLISONS TO TAKE REST

FLYING COUPLE WILL TAKE IT EASY AFTER PLANE CRACKUP

NEW YORK, July 25 (AP)—The flying Mollisons, who set bravely out from Wales in their own plane only to reach New York in a flying ambulance, settled down today for "a good long rest" and said little about their plans for the future.

Capt. Jim and the former Amy Johnson, stars of British aviation, arrived last night from Bridgeport, where their plane Seafarer was wrecked Sunday night within sight of the lights of New York.

Travel As Passengers

They came as passengers—in a roomy cabin plane converted into a sky ambulance for the trip. They lay wearily back on white hospital pillows. A nurse and two physicians sat beside them. A four-plane escort of honor, led by Commander Frank Hawks, accompanied them.

When the planes swept down at Floyd Bennett field, a crowd set up a shout. It quick diminished to a sympathetic silence as policeman lifted the two young fliers into an automobile.

Mrs. Mollison, clad in bright yellow, her light hair newly dressed, grinned in pain. Her right hand and her legs were bandaged.

Capt. Mollison wore a bandage on his head, where 30 stitches had been taken. He appeared utterly tired. A woman in the crowd waved her hand and cried:

"Scotland, forever, Jimmie!"

Mollison, the Scot, raised his hand weakly and waved back.

Want Long Rest

"All we want to do is to go to bed for a good long rest," said Amy, hugging a bouquet that the city's official greeter handed her.

They were put to bed in a hotel suite. The official reception will await their recovery. Meanwhile, they have expressed fear they cannot get a plane to continue their flight, which was to have taken them to Baghdad and then back to England.

REPORTS COTTON BLOOMS

SEAGRAVES, (Special)—C. L. Edmonson reports it took his cotton seven weeks after planting to put on first blooms. He has 72 acres in cotton.

Ohio is noted for its number of historic markers.

Boy Held In Banker's Kidnaping

John K. Ottley (right), Atlanta banker, is shown with Police Chief Sturdivant near Atlanta where they set a trap for one of two men who kidnaped Ottley on his way from his home to his office. James Pryor Bowen, 17 (inset), who helped in the abduction, was arrested after the banker had persuaded him to release him. The boy said he participated so he could gain the victim's gratitude by helping him escape. (Associated Press Photo)

Texas Newspapers Told To Draft Code

DALLAS, July 25. (AP)—Information received here Monday from Carl Estes, Tyler newspaper publisher, said that A. B. Dickson, chief of the control division of the administration office of the national industry recovery act, had advised him that newspapers in Texas and elsewhere should promulgate a code governing newspaper publishing, not later than September 1.

Estes, who is a member of a committee representing the Texas Daily Press League, said Dickson made this recommendation in a conference at Washington.

About 43,000 pounds of paint are mixed when the dome of the Capitol in Washington is painted and it takes 35 men three months to complete the task.

Diogenes Probably Looking For Him

CHILDRESS, July 25 (AP)—Diogenes, in his search for an honest man, probably was looking for W. G. Redding of Childress.

Redding, whose only employment is that offered by the R. F. C. committee at $1 a day, found a purse containing $112.05. He immediately turned it over to authorities and the owner was found in Dallas. Redding found the purse under a tree where the Dallas man had stopped by the highway for an outdoor lunch.

FAIR AT PETERSBURG

PETERSBURG — (Special) — Petersburg is planning a community fair here this fall. There will be a cash premium list as well as ribbons.

Cripple Negro Is Sought In Slaying

FORT WORTH, July 25. (AP)—The finding of foot prints made apparently by a limping man caused Sheriff J. R. Wright and deputies today to take up the trail of an 18-year-old cripple negro as a suspect in the double slaying Sunday night of A. S. Pete Michael, 33, and Geneva Cantrell, 19.

The suspect also is sought as the slayer of another negro at a Saturday night dance row in which five negroes were wounded by two shotgun charges.

The bodies of the man and woman, with bullet wounds in the back of their heads, were found at 6 a. m. Monday.

GRADUATES IN FAIR YEARS

ADA, Okla. (AP)—Forty years ago Mrs. W. C. Farmer was graduated from high school and went to the Columbian exposition in Chicago. This summer her plans include graduation from East Central Oklahoma Teachers college and a trip to the Century of Progress. In the meantime she has reared a large family.

NO MORE SLAVERY TO HARSH LAXATIVES

THE cow has recently given to Medical Science an easy, *natural* way to stop constipation—*without injurious drugs.* This new product is taken from the livers of healthy cattle. The best doctors are prescribing it, and thousands can tell you it corrects the stubbornest bowel delay *overnight.*

As you know, most constipation comes from sluggish liver. The liver manufactures a liquid called the bile, which is Nature's own purgative. When not enough bile flows into your bowels, you are constipated. Yet ordinary physics and laxatives never touch the liver.

Now scientists have taken the bile from cattle and put it up in convenient little tablets called Kompo and Bile Salts Tablets. They quickly get your own liver working *naturally.* If you want to stop constipation entirely and quit taking habit-forming laxatives and physics, get Kompo Tablets from your druggist today. Results guaranteed *or every cent back.*

SPECIAL FREE OFFER: Clip out this offer and mail it to us with your name and address and a small trial package of Kompo Tablets will be sent you absolutely FREE. Kompo Company, Dept. R27, Atlanta, Ga.

FLASHES OF LIFE

* * *

As Brought Over Associated Press Wires Today

Phychological Ape

CHICAGO—Policemen whose lives were complicated by a monkey's antics learned that the animal was the subject of psychological experimentation, having undergone a brain operation at a University of Chicago clinic.

It escaped from the dog pound after running away from the clinic, but ran into an electric wire and was knocked out. Later it was returned to the clinic. Scientists feared the shock would be fatal.

Real Hay Ride

MANCHESTER, Ia.—A few moments passed as slowly as that many years for James Havens, farmer, as he swung suspended head downward from a hay rope at a height of 40 feet with only the tricky catch of a hay sling holding him to life.

His foot had become entangled in the rope as he stood on a load of hay. His son failed to hear his cries and he was hoisted to the peak of the barn gable, in through the open door, and bounced neatly onto a pile of hay unhurt.

A Fatal Bite

HASTINGS, Neb.—It's common knowledge, the old rule about it being no news if a dog bites a man. But what if a dog bites a man and a few hours later turns up his toes and dies.

"He was just a little dog," said T. C. Young, the man. "And I suppose he couldn't take it. He chawed my finger and did a good job of it, too—look at that finger. Poor little feller, how little he knew.

Young said that in justice to the dog it must be said that shortly before the biting episode a three-ton truck ran over the animal.

HAVE SHORT LIVES

WASHINGTON (AP)—The bureau of standards has found that the paper of books stored in city libraries deteriorates more rapidly than the paper of an identical volume which has been kept in country institutions. This is ascribed largely to the presence in city air of sulphur dioxide, an acid forming gas resulting from the combustion of fuel.

Furriers sometimes have to go through as many as 300 rabbit furs to find 30 of equal appearance.

PILES Relief at Last!

No more torture! Walk, sit and sleep in comfort. Go to the stool without dread. For Pazo Ointment absolutely puts an end to Pile suffering of all forms—Blind, Itching, Bleeding and Protruding!

Pazo does the three things necessary. (1) It soothes—relieves the soreness and inflammation. (2) It heals—repairs the torn tissue. (3) It absorbs—dries up the excess mucus and reduces the swollen blood vessels which are Piles.

The method of application makes Pazo doubly effective. Special Pile Pipe attached to tube permits application high up in rectum so all parts are thoroughly medicated. Get Pazo today and realize the relief in store for you!

because "*It's toasted*"

SPORTS

Abernathy Will Battle Lubbock

SPYING ON SPORTS
BY COLLIER PARRIS

BASEBALL THIS AFTERNOON, at College Avenue Park. Should this information reach you a little late, you still have time to see a good ball game, because these clubs start all over at the beginning of every inning. That's how close this tournament is.

• • •

Lubbock and Abernathy play today, beginning at 3:30 o'clock. If you miss it, come back tomorrow and see Lorenzo and Post tangle in another tournament feature. They're the teams which got beat Sunday, and they'll be struggling to stay "in the money" tomorrow. One of them will be eliminated, the other will have a chance to win the tourney.

• • •

Lorenzo and Post should be able to send their ace moundsmen back to work tomorrow, and Carl Weaver and Rabbit Middleton ought to put on a great show. Weaver has a fast ball that you just hear when it hits the catcher's mitt, and Middleton as an upshoot that catches 'em around the neck when they're swinging from the shoulder.

• • •

This afternoon should see a fine chunkers battle between Lefty Doss Wright of Lubbock and Hanks of Abernathy. Yep, they say they're ready to go back in, and it's a good thing because Sled Allen isn't overburdened with pitchers. Post smacked Wright for three safe hits Sunday, only one of them a real bingle.

• • •

Suggested use of R. F. C. funds: Clearing and improvement of grounds in the vicinity of Lubbock High school to be used as a combination football-baseball-track field by Lubbock High school athletics and any other locals who would cooperate.

Now that the football season is just around the corner, it's time for our annual yelp about Lubbock High school's practice football field, located on yonder side of the city from the high school proper. A peculiar shame, methinks.

• • •

Life's most uncertain career—that of a league baseball manager. We're thinking of Gabby Street, the Old Sarge, who passed from the St. Louis Cardinal picture yesterday, succeeded by the popular and lightning-like Frankie Frisch. To hold a job in the majors, you're got to win every year, which means that about fourteen skippers are wondering where they're going to roost next. And you've gotta win from the first. No slouching along until mid-season or later and then coming to the fore, as we expected the Cards to do in a couple of weeks. Kinda hate to hear of the Old Sarge losing his job. The Cardinals and Gabby Street have been almost synonymous terms.

• • •

A name that promises to become popular in local sport annals was published for the first time yesterday with the announcement that Phillip D'Horton would conduct a series of classes for ambitious tennis players here. D'Horton, it appears, is Texas Tech's new tennis coach, who hopes to be here permanently. A former tennis instructor at the University of Washington and at the Olympic club of Seattle, D'Horton professes to know more than considerable about the fundamentals and theories and facts of the net game.

• • •

Local tennis enthusiasts may take advantage of Coach D'Horton's knowledge by enrolling for his series of lessons, which begin this afternoon at the Texas Tech courts. To players other than Tech students, the charge for the 20-hour course will be one wheel. The class meets on Tuesdays and Thursdays.

• • •

D'Horton is offering the series of lessons at the bargain price as a sort of prelude to what he hopes will develop into a Lubbock Tennis club. Other cities of this size have 'em, and there's no reason why Lubbock should go tennis club-less. Tres bien et beaucoup luck, Monsieur D'Horton. Voila! Il n'il pas de quoi.

WANTED: A FIGHTER

Do you have a little boxer in your home? If so, and if he's not too little, nor yet too big, he stands challenged to defend himself before the leather-covered fists of young Hugh P. Harbert, Jr., claimant of the southwestern fleaweight boxing championship. Harbert wants a match for Monday night, and Texas Tech coaches want it, too, to feature a special "fun nite" program designed to welcome visiting coaches to the third annual Texas Tech coaching school. It's free to the public, and will be held on the track in front of the football stadium. Harbert, moved here this spring from Plainview, will meet any lad between 12 and 15 years of age who doesn't weigh more than 85 pounds. Harbert weighed in yesterday at 81 1-2, and is willing to give from three to 5 pounds. Anyone willing to meet Harbert is requested to call Pete Cawthon or Dutchy Smith at the Tech gymnasium, or this department as early as possible this week.

ONLY ONE GAME WILL BE PLAYED TODAY IN TOURNAMENT

Lubbock meets Abernathy this afternoon as the second annual Avalanche-Journal invitation baseball tournament continues at the College Avenue park. Only one game is scheduled for today, that beginning at 3:30 o'clock.

Post and Lorenzo, losers in Sunday's games to Lubbock and Abernathy, respectively, will clash tomorrow afternoon at 3:30 in a game which shall see one team eliminated from the turnament. The contests the rest of the week promise to be as thrilling and chilling as Sunday's exciting games, won by slight margins.

Manager Sled Allen said Doss "Lefty" Wright, from whom the Post-Lubbock Rambler combination gathered only three safe hits last Sunday, would be ready to take his turn this afternoon, and Abernathy was pretty sure to send in young "Bud" Hanks, who pitched six-hit baseball for Abernathy in a 7 to 4 victory Sunday. In addition to pitching close ball, Hanks banged a home run with two mates aboard to win his own ball game in the eighth inning after the score had been deadlocked at 4-all.

Carl Weiver, Lorenzo's ace moundsman, is due to oppose Rabbit Middleton, husky chunker from Post, in tomorrow's battle at the tournament grounds.

FRANK PARKER LIKES GRASS

SEVENTEEN - YEAR - OLD TENNIS STAR WINS FIRST MATCH

SEABRIGHT, N. J., July 25. (AP)—Grass-covered courts fail to worry 17-year-old Frankie Parker, the lad who rose to national tennis fame on the clay-surfaced playing fields of the midwest.

Young Parker is playing this week in the annual invitation tournament of the Seabright Cricket and Tennis club—his first tourney effort on grass courts. Yet, with all the other seeded stars among both men and women, he emerged successfully from his first round battle and was ready today for another.

"I like grass," the youngster remarked after he had beaten Samuel Lee of Berkeley, Calif., 6-3, 6-3, yesterday, "and I think I'll go on it just as well as on clay as soon as I get more experience."

The national clay court champion spent last week practicing on the courts of the Orange Lawn Tennis club to get in trim for this event and said he had learned a lot about it already.

Today Parker was matched against Gray C. Frank, only one of six Englishmen who managed to pull through the first round yesterday.

ABC And Kiwanis Teams Meet Today

The Kiwanis club of the local Junior Baseball league is scheduled to entertain the A. B. C.ers this afternoon in a regular league ball game. The game is slated to start at 6 o'clock.

The Rotarians defeated the Lions, 5 to 3, yesterday and increased its lead in the league's first half, which ends this week. The victory virtually cinched the first half championship for Manager Dutch Leuenberger's team.

Pitcher Miller for the Rotarians faced Lefty Oar of the Lions in an interesting pitchers battle, the Lions gathering only three hits off Miller while Oar gave up seven. Each team committed numerous errors, but the game proved interesting to a good crowd of spectators.

The lineups yesterday:

Lions: T. White, lf; E. White, 1b; Sheppard, cf; O. White, cf; Dowell, c; Calhoun, ss; Lane, 2b; Oar, p; Terrell, rf; Chase, 3b.

Rotarians: Haney, 2b; Donaldson, 2b; Britton, 2b; Buckner, 3b; Hill, ss; Miller, p; Campbell, c; Johnson, rf; Tyson, lf; Williamson, lf; Gantz, cf; Smith, cf; Davidson, 1b.

Student ticket books to sell for $5 will admit University of Iowa students to three home football and 11 home basketball games in the 1933-34 school year.

SENATORS WIN DOUBLE BILL, TAKE LEAD

WIN OVER GROVE AND EARNSHAW; YANKEES REMAIN IDLE

BY HERBERT W. BARKER
Associated Press Sports Writer

Through the once impregnable pitching armor of the Philadelphia Athletics' twin mound aces, Bob Grove and George Earnshaw, the Washington Senators have blasted their way once more to the top of the American league standing.

Taking advantage of the New York Yankees' idleness, the Senators battered the A's into defeat in both games of a doubleheader yesterday, 5-2, and 10-6, and moved into first place by a half game margin. The third-place Athletics, at the same time, fell to a point 11 games behind the Yankees.

Grove Is Victim

Grove, who had won six games in a row, was the victim of bunched hits in the second and fourth innings. The Senators scored three runs in the second on four safeties and two in the fourth, coupling three hits with an error. Grove's defeat was his fifth against 15 victories. Bob Burke, who has started only three games for Washington all year and won them all, allowed only two hits in the five innings he worked, one a home run by Mickey Cochrane, but was relieved by Jack Russell after Roger Cramer singled and Cochrane walked with none out in the sixth. Russell halted that threat and allowed only two hits the rest of the way, one being Bob Johnson's tenth homer.

The Senators drubbed Earnshaw for 11 hits and eight runs in seven innings in the second game which wouldn't even have been close except for a five-run rally, climaxed by Jimmie Foxx's 28th homer in the ninth. Alvin Crowder pitched his 14th victory but lost control in the sixth and was replaced by Bill McAfee, young relief ace. McAfee retired the side then without a score but his later exertions at the plate where he produced a triple and a home run took their toll in the ninth and Russell again had to be summoned after the A's had scored five times.

This double-header marked the only competition in either league but the national circuit reached the headlines when the St. Louis Cardinals announced the appointment of Frank Frisch to succeed Gabby Street as Cardinal manager.

VINES' FAINTING SPELL MAY START AMERICAN PROBE

NEW YORK, July 25. (AP)—Ellsworth Vines' now-famous fainting spell on the red clay courts of Auteuil may be the starting point for an intensive investigation into this country's Davis cup tennis training methods.

While newspaper observers, here and abroad, continued their attacks on the methods of Bernon S. Prentice, captain, and charged that America's two singles aces, Vines and Wilmer Allison, were overtrained and worked up to an excessive nervous pitch for the interzone finals against England, there were indications that a full explanation for the team's collapse would be demanded at the next annual meeting of the United States Lawn Tennis association.

There was not a little criticism of America's Davis cup methods at the last meeting, and the new president, Harry S. Knox, and western delegates, especially, are expected to force discussion of the debacle of Auteuil upon the convention floor.

The wrecking of American hopes to regain the Davis cup generally was blamed on the pressure placed on the players, over-confidence and finally the apparently poor condition of Vines and Allison.

LEADERS IN THE TEXAS LEAGUE

(By The Associated Press)

Leading Hitters

Player	AB.	H.	Avg.
Purdy, San Antonio	328	120	.366
Strohm, Fort Worth	127	44	.347

Car Built In 1900 Still Chugs, Runs

CLEVELAND, July 25 (AP)—An ancient automobile, built in 1900, once given to leading parades and taking part in important affairs of a glorious past, still manages to chug, puff and run.

It is the famous automobile of Tom L. Johnson, famous mayor of Cleveland and the inspiration of liberals in this country in his time.

Johnson used the automobile to dash from one political meeting to another, and to make fast trips from one conference to another. It is owned by Ira Hellman, who received it in a roundabout way from Johnson's brother.

Jimmy Dykes, White Sox third baseman, has played every position in organized baseball and with clubs that have finished in every position in the standing — including seven consecutive times in eighth place and three straight times as champions.

QUALIFYING ROUND TO END HERE TODAY IN WOMEN'S TOURNEY

The 18-hole qualifying round for the annual Lubbock Women's Open golf tournament must be concluded this afternoon, tournament officials have announced, in order that match play may begin as scheduled tomorrow at the Country club. Qualifying is played at the Meadowbrook course.

Promise of a field exceeding any previous turnout was indicated yesterday when nearly a score of lady golfers registered and started the medal round. Match play begins in the morning at the Country club. Second round matches will revert to Meadowbrook and finals at the Country club.

Although she is not required to qualify for the first flight, Mrs. Rhea Vernon, defending champion, is competing in the qualifying competition for medal honors. Medal scores will be announced tomorrow, following completion of all qualifying rounds.

Prizes Listed

Sixteen prizes await winners in the tournament. Medalist will receive three new golf balls, offered by Professional Paul Denson of Lubbock Country club; Three golf balls will go to high qualifying scorer, given by W. G. McMillan. Other prizes offered:

Sports sweater by Craig-Gholson for best dressed golfer, sports hat by Wilda Stewart's Hat Shoppe for winner blind bogey; golf bag by J. & J. Sporting Goods company for championship winner; sports dress by Cinderella Dress Shop for runner up; hose by Anne Ford shoppe for consolation winner.

Zipper bag for winner first flight; skirt, by the Vogue, for runner up; purse by Abney shop for consolation winner, zipper bag, hose and dress for winner, runner up and consolation winner of second flight; zipper bag, perfume and sweater for winner, runner up and consolation winner third flight, prizes offered by Freed's, Wylie-Jarrett, J. & J. and Grollman's. The prizes are on display at the sporting goods store.

FRISCH NAMED CARD PILOT

SUCCEEDS STREET AS MANAGER: MAINTAINS HOPES OF PENNANT

ST. LOUIS, July 25 (AP)—Frankie Frisch, one of the few collegians to jump directly from college campus into big league baseball and stick will make his debut as manager of the St. Louis Cardinals today against the Cincinnati Reds.

The Fordham flash was named pilot of the Redbirds yesterday, succeeding Charles E. "Gabby" Street, who had been at the helm of the Cardinals since 1930.

Frisch Optimistic

Although eight games behind the league-leading New York Giants, Frisch was somewhat optimistic about St. Louis' chances.

"If we can get the winning spirit," he said, "we may be up there on top in October.

Following his release, Street went to his home at Joplin, Mo., without discussing his future plans, except to deny a report that he was planning to buy the Joplin Western league club.

Meanwhile, a feeling existed, the Globe-Democrat said, that the next man to leave the Cardinals would be Rogers Hornsby.

This feeling was strengthened, the paper stated, when Branch Rickey, vice-president of the club, asked whether the change in managers would affect the status of Hornsby, declared:

"I don't want to discuss that now."

Future In Doubt

"That would indicate some doubt as to Hornsby's future with the Cardinals?" he was asked.

"I don't know about that," Rickey replied, "but I can't discuss Hornsby's position now."

Hornsby, who led the Cardinals to a world championship in 1926, returned to the club this spring, after being let out at Chicago last summer. After the close of the season, he was traded to the New York Giants in exchange for Frisch.

When Bill Killefer resigned as manager of the St. Louis Browns last week, reports were current that the Rajah might succeed him.

Amos Alonzo Stagg started his coaching career in the midst of a world's fair (1893) and closed his Chicago coaching career with the advent of the current exposition.

STEERS SMASH MISSIONS IN TWIN BILL

PURDY, LOOP LEADING HITTER, INJURED IN FALL TO GROUND

BY BILL PARKER
Associated Press Sports Writer

San Antonio took three wallops on the button Monday night. The first was a 3 to 2 loss to the Dallas Steers. The second was an 8 to 3 loss to the Steers. The third was an injury to "Pid" Purdy, diminutive centerfielder and the league's leading hitter, that will keep him out of the lineup for several days.

After getting three consecutive hits in the first game, Purdy was at bat with runners on second and first and the score tied. With two strikes on him, he fouled off a curve. In following through he fell to the ground. An examination revealed that an interior semi-lunar ligament was badly twisted and torn. The hard-hitting outfielder probably will be out ten days or longer.

Buffs Increase Lead

While the Missons slipped a few notches at third place, the pace setting Houston Buffaloes breezed along with a 4 to 0 decision over Tulsa. Ed "Caveman" Greer stopped Tulsa with four hits while his mates pounded Frank Barnes for eight. It was Greer's eighteenth victory this season and his 20th complete game.

Neither did the Galveston Buccaneers lose ground. They bolstered their second place berth with a 6 to 1 victory over Oklahoma City. Jorgens went to the mound with a lot of control plus a fine curve ball. The two combined halted Oklahoma City with four hits. Chamberlain and King allowed the Buccaneers nine timely hits.

Cats, Beaumont Won

With the veteran Dick Whitworth in winning form, the Fort Worth Cats won the first game of a twin bill from Beaumont, 4 to 3. Whitworth pitched seven-hit baseball against the eight hits allowed by Ray Fritz.

Instead of seven it required eleven innings to settle the second game which Beaumont eventually won, 4 to 3. The Cats tied it up at 3-all in the seventh to force the issue extra innings. It was early Tuesday morning before the game ended.

Thirty-one cities of the world have more than 100,000 telephones.

THREE GAMES ARE SCHEDULED TODAY IN TWO LUBBOCK SOFTBALL LEAGUES

Three games are scheduled today in the Lubbock Softball association, with two contests slated in the American league in order that the first half may end next week. The National league ends its first half this week.

Peoples Ice company, successors to Lubbock Clearing House plays Dee's Coffee Shop at the 25th street and Avenue K park, and Quicksall-Pryor meets the Federal Employes at 22nd street and Avenue P in the American league program today. Both games are to start at 6:15 o'clock. In the National league, City Hall meets Avalanche-Journal at Fair Park field.

Huie-Ribble and A. W. McKee won yesterday to boost their American league standing, with Hotel Hilton and Lubbock Compress on the losing ends.

Huie-Ribble scored seven runs to beat the Hilton's four, Pitcher Ribble giving up five scattered hits, two of them to Don Maddox.

McKee defeated the Compress team, 15 to 9, with Cooper pitching a nice ball game for the winners.

Yesterday's lineups:

Huie-Ribble: Tatum, lf; Red Stewart, 3b; J. B. Wilson, 1ss; Terrell, rss; Cunningham, 2b; Ribble, p; Huie, c; Parker rf; McCarty, cf; and Rhea, 2b.

Hilton Hotel: T. Pullem, 2b; P. Pullem, rss; J. Drown, 1ss; Nixon, 3b; Schultz, p; Maddox, lf; Zarafonetis, 1b; Mayhew rf; Hughett cf; O'Reilly, c.

A. W. McKee: Hale, c; Knight, cf; Higgins, 1b; Dowell, 3b; Allen, lss; Watkins, rss; Stalnaker, 2b; B. Cooper, rf; Ingram, rf; McClure, lf; W. Cooper, p.

Lubbock Compress: Littrell, lf; Kittrell, 3b; Flake, ssl; Freeland, 1b; Brown, cf; Reeves, rf; Conner, c; Lewellyn, rss; Taylor, 2b and Dunlap, p.

Brooklyn Dodgers Release Joe Judge

NEW YORK, July 25 (AP)—The Brooklyn Dodgers of the National baseball league announced today the unconditional release of Joe Judge, veteran first baseman who was signed this spring by the Brooklyn team after 17 years with the Washington Americans.

Judge was spiked a few days after he joined the Dodgers and has played little since that time and a few weeks ago the club acquired Sam Leslie, a first baseman, from the New York Giants.

Jim Mosolf, .380 slugger sold by the Kansas City Blues to the Cubs, studied law at Leland Sanford university.

...ENIES RUMOR OF DIVORCE

...ARY PICKFORD SAYS THAT SHE HAS NOT BEEN TO RENO

RENO, Nevada July 25 (AP)—Reports Mary Pickford planned to establish a divorce residence in Nevada were without direct confirmation today although J. W. Dignan, member of the law firm which represented her in a suit for freedom from Owen Moore in 1920, said she had been here recently.

(In Hollywood, Miss Pickford, whose separation from Douglas Fairbanks was announced several weeks ago, said she had no divorce plans.

"Nothing To Report"

"I have not been in Nevada and I give you my word of honor there is nothing to this report that I have made divorce plans," she said.)

Information from a usually reliable source said the film actress conferred with attorneys here two weeks ago and completed plans for divorce residence.

Dignan parried questions with the declaration: "You should have asked Mary all about her plans when she was here." The attorney said he had not seen Miss Pickford. He declined to state whether she had conferred with his law partner, United States Senator P. A. McCarran, who was in Reno July 4.

Divorced In 1920

Miss Pickford obtained her divorce in 1920 from Owen Moore at Minden, in the Carson valley south of here, where Elliott Roosevelt, son of the president, was divorced from Mrs. Elizabeth Donner Roosevelt last week.

Reports said if Miss Pickford comes to Nevada she may stay at Lake Tahoe where Carole Lombard, actress, is establishing residence to divorce William Powell, actor.

CONTRACTS TO BE AWARDED

HIGHWAY COMMISSION TO LET MAINTENANCE PROJECTS TODAY

AUSTIN, July 25 (AP)—Maintenance projects to cost approximately $140,000 for highways in nine counties have been advertised by the Texas highway commission for letting today.

The projects, by counties:

Scurry and Mitchell: 9.3 miles bituminous seal coat from the Nolan-Mitchell county line nine miles north on highway 7.

Rusk: eight miles triple bituminous surface from the Smith county line to Pitner's Junction via Overton on highway 135.

Anderson: 14.8 miles double bituminous surface from courthouse in Palestine to the Neches river on highway 22.

Jasper: 4.6 miles double bituminous surface from highway 45 west of Jasper to highway 45 east of Jasper on highway 63.

Fayette: 4.6 miles double bituminous surface from LaGrange east on highway 71.

Bee: 10.8 miles special rock asphalt from Paesta creek in Beeville to highway 12 in Skidmore on highway 16.

Morris: 8.7 miles double bituminous surface from Omaha to Sulphur river on highway 11.

Karnes: 15.5 miles special limestone rock asphalt from Eclete creek to the Wilson county line on highway 112.

Thrane Quits His Snyder Bank Post

SNYDER, July 25.—(Special)—Resignation of O. P. Thrane from the executive vice presidency and a directorship of the Snyder National bank was handed to the directors at a semi-annual meeting here.

A. C. Alexander, cashier, was named executive officer succeeding Mr. Thrane. He also was added to the board. Wayne Williams was advanced to the post of assistant cashier.

Officers now are: M. A. Fuller, president; A. C. Alexander, cashier and executive officer; A. J. Cody, assistant cashier; Wayne Williams, assistant cashier. Directors are: M. A. Fuller, J. J. Koonsman, A. D. Erwin, Harrie Winston and A. C. Alexander.

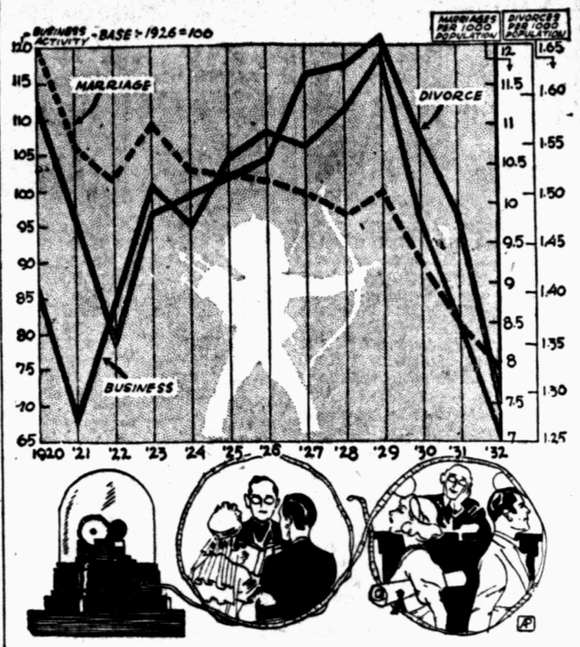

REPAIR PARTS-BOUGHT

NEW YORK (AP)—Repair parts appear to be the most important sales item of the machine tool industry at present, as demand for new heavy machinery and various types of machine tools continues relatively low. Further expansion of industrial activity probably will enlarge requirements for heavy tools.

Experts say that a herring contains weight for weight, as much nourishment as a good beefstake.

BUSINESS FOUND SETTING PACE FOR MARRIAGES, MARITAL DIFFICULTIES; BOTH TEND TO FOLLOW ECONOMIC CONDITIONS

* * * *

The chart illustrates how marriage and divorce rates tend to follow the curve of business activity, with divorces apparently responding more readily than marriages to any change in business conditions.

NEW YORK, July 25 (AP)—Mr. Cupid's marriage business has been given a powerful jolt by the depression, his nameless competitor who manages the commerce in divorce has suffered even more, federal statistics show.

That both marriage and divorce tend to follow economic conditions is the opinion of Dr. Lucy J. Chamberlain, New York University sociologist, who points out that divorce in particular is affected by the state of business since very often divorce is an expensive procedure.

The decline in divorce, she suggests, is not necessarily indicative of a gain in marital felicity, because it may be that desertions have increased while unhappy couples may still live together or, to save divorce expense, merely separate.

Fewer Marriages and Divorces

The rate of decline in divorces last year was larger than in marriages for the first time since 1929. There were 981,759 marriages performed in the United States during 1932, a decrease of 79,032, or 7.5 per cent, compared with 160,329 divorces, a decrease of 23,335, or 12.7 per cent.

For each thousand of population, 7.9 couples were married last year, against 1.28 couples which were divorced. In 1929, at the height of prosperity, the rate for marriages was 10.10 per cent, and for divorce, 1.66.

Since 1920 there has been a steadily increasing divorce rate, which was augmented during the period from 1923 to 1928, when the number of marriages per thousand of population actually declined despite prosperous business, while the divorce rate advanced with extreme rapidity.

Women In Business

Sociologists, asked to comment on this failure of marriages to accelerate with business improvement, suggested that the rapid movement of women into business and industry, as well as other factors which tended to increase women's economic independence, was a prime factor.

ABERNATHY FINDS IT PAYS TO KEEP ITS CHAMBER OF COMMERCE INTACT

ABERNATHY, July 25.—(Special)—Although Abernathy has a population of only 800 persons, it has found it pays to keep intact its chamber of commerce, which has functioned continuously for 13 years.

The Abernathy Chamber of Commerce was first organized in 1920. Its first president was F. W. Struve, who is a partner with his brother, Ben F., in operating the Struve Cheese factory. W. A. Richter served as the first secretary from 1920 to 1924. The next secretary was J. P. Nystel, who served from 1924 to 1926. C. W. Beene, director of Abernathy's famous band back in 1925 to 1927, served as secretary for one year, from 1926 to 1927. Nystel was again elected secretary in 1927 and has served in this capacity since then.

No Salary Reduction

The organization did not begin paying its secretary until 1928. No reduction has been made in the secretary's salary since it was first passed upon.

Among accomplishments during the organization's history are the sponsorship of community fairs in 1925, 1926 and 1927. In 1929 it sponsored its first poultry show, cooperating with the high school vocational agriculture teacher and students. The fourth annual poultry show was held in 1932, and plans will be laid soon for the fifth this year. The organization has also sponsored four dairy shows, the first in 1930.

Trades days during the summer months are also sponsored by the chamber of commerce. Those conducted in 1932 were highly successful, merchants reported. A home-products show was conducted in August of 1932, the first of its kind held here. Articles made and manufactured by Abernathy individuals and industries were exhibited during this event, which may become an annual show. Eleven local industries and two dozen individuals had displays during the affair.

Handle Charity Work

Charity work in Abernathy is also handled through the chamber of commerce. It was through its efforts Abernathy secured some of the Hale county Reconstruction Finance Corporation loan for wages for unemployed. Considerable civic improvements have been done with these funds, giving employment to more than 30.

Abernathy has no intentions of disbanding its chamber of commerce according to opinions expressed by merchant members, and will operate when business has "turned the corner," they say.

Fisherman Casts, Catches Rabbit

CHILDRESS, July 25 (AP)—Here's a story for the anglers to shoot at—and the cowboys as well.

"Red" Fitzgerald, while fishing on Lake Childress, about 100 feet from the bank, noticed a jack rabbit which had approached the water's edge to nibble at the tender grass shoots. Fitzgerald, who was fishing for bass, decided to make a "cast" at the rabbit. The first was a little high, but the second wrapped the line around the rabbit's neck, the plug providing enough weight to keep it from unwinding, and the fisherman reeled him in.

Fitzgerald caught a wild duck in a similar manner last fall. There were witnesses to both "casts."

Carter Chosen To Represent Unions

Thomas H. Carter, a printer, was chosen by Lubbock union men last night to represent them in a city-wide committee which Hugh S. Johnson, administrator of the national recovery act, has asked the chamber of commerce to organize.

Dick Gosden, a carpenter, presided at the meeting in the Knights of Pythias hall at 1318 1-2 Texas avenue. Hours and wages under the Roosevelt "new deal" were discussed. The session, under sponsorship of Central Labor council, was well attended, it was said. N. L. Bail, printer, is secretary.

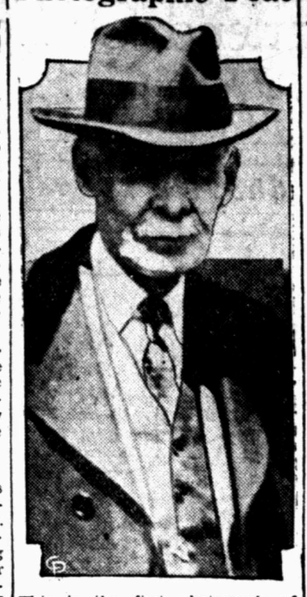

Farm Workers Are To Meet In Lubbock

Lubbock was selected by the Texas Agricultural Workers association Monday in College Station as the site of the association's annual meeting the first week in January, the Associated Press reported. Association members were attending a shortcourse at Texas A. & M. college.

The short course program stressed demonstrations and actual participation in the making and doing of things, rather than lectures. Monday's demonstrations included farm forestry, farm machinery, hand weaving and the making of butter, cheese, cakes, cookies, bread, syrup, hooked rugs, mats and moccasins.

By use of airplanes for part of the route. Fresh eggs are delivered from Seattle to Ruby and other mining camps in Alaska in less than 10 days.

Photographic Feat

This is the first photograph of former Congressman Andrew J. Volstead, father of prohibition, taken in several years. He is shown leaving his office in St. Paul. The fact that Volstead has been in poor health for months has had a tendency to increase his dislike for newspapermen and photographers.

Engaged

The engagement of Evelyn Ames of North Easton, Mass., to John P. Davis, son of Norman H. Davis, has been announced.

MAY MOVE CABIN

MARYVILLE, Tenn. (AP)—The little log cabin in which Sam Houston taught school in 1811 and 1812 may be moved to Texas. Now tenanted, the cabin is being sought by citizens at Huntsville, Tex., as an ornament for Sam Houston park, according to Charles McGhee Kennedy, the present owner.

MARVIN JONES TO BE FETED

CELEBRATION MONDAY AT AMARILLO WILL HONOR SOLON

AMARILLO, July 25 (Special)—A Panhandle-wide celebration to honor Hon. Marvin Jones of Amarillo, member of congress from the 18th district and chairman of the powerful committee on agriculture, is to be held at the Tri-State Fair grounds Monday, July 31. The Amarillo Globe-News is sponsoring the affair.

The celebration will be in the form of a barbecue from 6:30 to 8 p. m. and tickets will be necessary to admit persons to the grounds. John Snider, well known barbecue authority, will prepare the meal. Entertainment is planned during the serving of the barbecue.

Jones To Speak

"'Old Tack' of the Globe-News will be asked to introduce Marvin Jones, who will be the only speaker," Wilbur C. Hawk, said. "Our representative will be invited to speak on any subject he chooses and the entire program will be over by 9 o'clock.

"This barbecue will afford us an opportunity to pay publicly our respects to the man who has rendered us much good service as law giver," Mr. Hawk said.

Members of the state legislature also are to be invited, Senators Clint Small of Amarillo and Arthur P. Duggan of Littlefield and Representatives H. K. Stanfield, Amarillo; B. L. Rogers, Farnsworth; John Puryear, Wellington; A. B. Tarwater, Plainview; John Thomas, Tahoka, and Bob Alexander, Childress, are included on the list to be introduced by Mayor Ross Rogers.

Mayor Rogers has invited mayors of all the cities in the territory and Mr. Hawk has invited newspapermen, county officials and Democratic county chairmen.

SECT LIMITS AGE

BOMBAY (AP)—A resolution that no one over 40 be allowed to marry was adopted by a conference of Oswals, a sect of Jains which, in turn, is a sect of Hinduism. Penalty for violation of the rule will be excommunication from, or social boycott by, this caste.

Childless marriages are nearly twice as numerous in American cities as in rural districts.

Soviet Leader

Lazarus Kaganovich, above former journeyman saddler, is rising in prominence in Soviet Russia, and is regarded as second in importance to Joseph V. Stalin, the dictator. Kaganovich is Stalin's chief lieutenant in industrial and farm organization work.

Child Electrocuted By A Charged Wire

DALLAS, July 25. (AP)—Barbara Jean Shuford, 6, was electrocuted here late Monday when she touched a wire netting fence across which a charged electric wire had fallen.

The wire had been used for lighting a garage at the home of W. J. Moorman, where the child was playing. Moorman recently removed the wire from the garage while rebuilding it. He had coiled the loose end of the wire and hung it on a pole nearby. In some manner the end of the wire had fallen low enough to come in contact with wire netting in a fence.

New Dealer Named For Allis-Chalmers

The Plains Tractor company has been appointed dealer for Allis-Chalmers tractors and equipment in Lubbock, W. D. Davidson, owner of the firm, announced this week. Salesroom and service quarters have been established at 1009 Texas Avenue.

Mr. Davidson is moving his family here from Levelland, where he has lived since 1925. He has been Allis-Chalmers dealer in Levelland for two years and his dealership there will be maintained.

The new implement firm also handles B. F. Avery and Son farm equipment.

FLIGHT SHORTENED

MOSCOW (AP)—The first passenger plane has flown over the Caucasian range at a height of 14,000 feet. The route shortens the air trip from Tiflis in Georgia to this city by 600 miles and the journey, since several stops are eliminated, by 15 hours.

GYM FOOT

That dread malady which so painfully attacks the feet and toes of all athletes, golfers, swimmers or those who do "gym" work can be quickly routed by FLEET-FOOT POWDER. For relief from ATHLETE'S FOOT, sweaty feet, foot odor, ringworm and many other skin infections, FLEET-FOOT is wonderful. Once used, you'll never be without it. On sale at Bowen's Drug Store or write direct, $100 prepaid. Money-back guarantee.

The Most Exciting 2½ Hours You Have Ever Spent!

6 average cars proved it!
Gulf-lube cuts oil costs 28½%!

HERE THEY ARE—*the 6 average cars—old cars, new cars, ready for the test that made motor oil history*

Lasts 28½% longer than other famous 25¢ oils

ON THE Indianapolis Speedway, Gulf-lube proved itself "the finest motor oil a quarter ever bought!"

Using 6 cars of different makes—old cars, new cars—the Contest Board of the American Automobile Association tested 4 leading 25c oils. For 4 days, they tried to "burn 'em up"!

And when the test was over, the average of the figures showed this... *Gulf-lube lasted 28½% more miles per quart than its competitors.* It saved 28½ cents out of every dollar!

If you want the surprise of your life, switch to Gulf-lube now. You'll buy *less* oil. And, because you get better lubrication, you'll spend less for repairs. Try it! At all Gulf Stations.

Thought For Today

He that giveth unto the poor shall not lack: but he that hideth his eyes shall have many a curse. —Proverbs 28:27.

• • •

We are rich only through what we give, and poor only through what we refuse.—Madame Swetchine.

Funniest Story

Whatever the Pulitzer prizes for next year may be, the funniest story of the summer of 1933 seems already to have established itself. It is, unquestionably, the story by a Viennese newspaper stating that Adolf Hitler, Nazi chancellor of Germany, is of Jewish descent.

To be sure, this story has drawn indignant and heated denials from Berlin. A dispatch from Vienna remarks that the genealogy drawn up to prove Hitler's Jewish ancestry contains "doubtful entries."

But the story was worth reading, and laughing over, just the same. For the head of a dictorial party which seeks to solve a great nation's troubles by persecuting the Jews to be found to be of Jewish blood himself—that would be one of the most notable ironies of all history.

• • •

News that longer dresses are again fashionable should please the average married man. He has always wanted his wife to wear her dresses longer—months longer.

• • •

Scientists are so absent-minded. One in Canada reports the discovery of something 100 times sweeter than sugar; but neglects to tell who she is.

• • •

Despite all this hot weather we've been having, the average girl is more likely to be sun-struck than sun-struck.

• • •

Bourbon is the best base for a mint julep, contends Irvin Cobb. Wouldn't you have supposed that a man with that name would have preferred corn?

• • •

Prince of Wales' airplane was forced down the other day by fog, but dispatches fail to state if it was that arising from London economic conference.

• • •

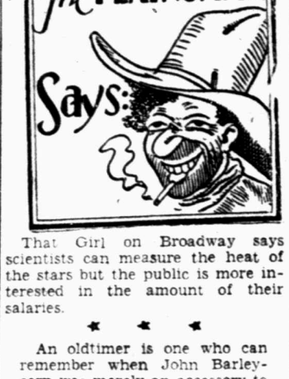

Scientists at U. S. Department of Agriculture announce progress in war on garden pests. But so far they seem to have been unable to do anything about the neighbor who is always borrowing our rake.

Flapper Fanny

A girl has to have a good line to make a substantial catch.

The PLAINSMAN Says:

That Girl on Broadway says scientists can measure the heat of the stars but the public is more interested in the amount of their salaries.

* * *

An oldtimer is one who can remember when John Barleycorn was merely an accessory to an election instead of an issue.

* * *

DR. Clyde C. Craig, a Lubbock newcomer showing unmistakable signs of being a longtime good citizen, has taken the lead in a project which has long been discussed here.

The Plainsman refers to the construction of a lake on the Yellowhouse canyon about which can be builded a great outdoor recreational spot.

* * *

The doctor, who moved here less than a year ago from Ranger, is an outdoors man.

Early residence in Corpus Christi imbedded in his nature a great love of water, boating and other water sports.

Cocking an eye at the national recovery program which offers aid for the construction of lakes and dams and self-liquidating projects of many kinds, and looking over the canyon terrain, Doctor Craig got busy. With the aid of Hebe Goodman, J. E. Vickers and others he secured the services of Engineer C. B Hudspeth who drew a map of the entire proposed project.

The proposal has been laid before the Lubbock city commission for its action in the matter and is one to make the heart of the sports-lover and outdoors addict beat considerably faster.

* * *

THE project, as worked out, provides for a 'turn key' job very similar in form to the Lake Worth project at Fort Worth.

There are proposed all sorts of concessions, cabin sites for purchase or lease, permanent home sites, cabins for overnight rental, a community clubhouse, bath houses, boathouses, fishing lanes and hunting privileges.

In other words, if the federal money can be secured, Doctor Craig and those who have gone thoroughly into the matter believe the project could be liquidated in something like ten years—and maybe before.

* * *

The site selected, roughly, is northwest of the Country club on the property of Ed Rouse about three miles north of Lubbock and adjacent to the Lubbock-Plainview highway.

The dam would be directly west of the draw which Lubbock negroes have been using for fishing and picnic grounds the past several years.

The lake itself would be something over two miles long and at the deepest point would be something like 20 to 25 feet.

It would lend itself to all sorts of aquatic sports.

* * *

IF it can be financed, the project would be a great boon to Lubbock and to this part of the Plains area.

Included in the plans already drawn are terracing, tree and shrub planting and park beautification which, with the lake and the concessions, would furnish the city and area with a great playground—something long needed.

The proposal is entirely worth serious consideration on the part of the city commission and the citizenship, as well. It should be gone into from all angles and should not be turned down or pigeon-holed until every possibility is exhausted.

Doctor Craig figures that an expenditure of $200,000 will furnish the finished job. Under the recovery act, projects sponsored by the federal government are furnished, as a gift, with 30 percent of the total fund allowed.

Lubbock thus would have 40 years, if needed, to pay off the $240,000 principal and small rate of interest on the lake project.

It looks like a great proposition if the financing can be arranged and too much of the city's revenue does not have to be pledged against self-liquidation. And if, as preliminary investigation indicates to engineers, sufficient water is certain to be forthcoming from the West Texas and Eastern New Mexico basin to assure the large lake.

* * *

Judging from press reports Mr. Aimee Semple McPherson wants to get his maiden name back.

* * *

That Man on Avenue Q says the numerous kidnapings might come under the heading of prosperity pointers. They prove, at least, that not everybody in the country is broke.

* * *

And they also remind us that it's time we made the big-shot kidnapers the big-shot-ats.

* * *

WHAT this country needs to take its mind off its troubles is some serious minded soul who is ready to stage a real campaign to prove that the world is coming to an end at some certain date.

They've got one of 'em up in Long Island and he's been a great help to the folks in the way of furnishing conversation.

Immediately after he came out with the statement that the curtain will drop on October 10 you couldn't even get the Long Islanders to discuss inflation or the national recovery act.

Why they won't even take time out to argue about prohibition!

* * *

Such a Moses would be a great boon and salvation—and if his argument was good enough we might be plumb out of the depression before we tired of discussing his ideas.

There's little or no merit in anybody's opinion of the ending of the world but there's plenty of merit to the conversational angle!

* * *

Now that the Forgotten Man is taken care of, how about turning our attention to some of the Forgotten Manners?

HERE'S A SWAP THAT WOULD BE GOOD

There is an ambitious, studious Tech graduate of engineering and architecture who has a big yen to go to the World's fair to perceive there the wonders in his line of work.

He's steady, honest and reliable and is really serious about turning a visit to the fair into self-benefit for the years to come.

He has enough money to pay all expenses save transportation and is looking for someone who will exchange transportation for his driving on the trip.

Anyone who needs a driver between here and Chicago and return will be doing a good turn to this young man in making the swap.

Get in touch with The Plainsman for the young man's name, address and complete references.

Give The Kid Credit

Steel Code's Start Is Quiet But Its Acceptance Termed Beginning Of What May Be Major Test For Recovery Act

BY RODNEY DUTCHER
The Evening Journal's Washington Washington Correspondent

WASHINGTON, July 25.—The actual presentation of the steel code, after weeks of pulling and hauling, came quietly enough but it only marks the start of what may be a major test for the new recovery act.

Everyone had waited breathlessly for this contribution to recovery from the behemoth of business—the industry on which our machine civilization rests and the most powerful foe of organized labor.

Dutcher

Robert Patterson Lamont, former secretary of commerce and now president of the American Iron & Steel Institute, was discovered groping in the corridors of the Commerce building. (Once he had his own private elevator there.)

"Mr. Lamont, are you lost in your own building?" a reporter asked.

"Yes, I am. "I'm looking for General Johnson's office."

"And what's that you have under your arm, Mr. Lamont—is that the steel code?"

"Yes, thats the steel code."

Lamont reached Johnson's office during a staff conference and had to wait. Industrial Adviser Dudley Cates led him in while Johnson was still talking to someone.

"I'm glad to see you, Colonel Lamont," the general said.

"I have this code to present," said Lamont, adding a few words about the co-operative attitude of steel men and the hard work they had to put into the code.

Even Johnson was somewhat solemn. He complimented leaders of the industry on their success in finally producing a code. He couldn't very well say that the terms would throw labor leaders into a furore and provide the most important and interesting of all the hearings under the recovery act. Lamont left after about three minutes.

It wasn't long after this before organized labor discovered an "open shop joker" in the steel code and let out a tremendous protest. In this it was joined by General Johnson, who takes the view that the "company union" does not conform with the spirit of the law.

• • •

One of the government's efficiency experts recently suggested to his chiefs that every official and sub-official in their department keep two tumblers on his desk, one to be full of beans at the beginning of each day.

The arrival of every caller would be made the occasion for ostentatiously depositing a bean in the other glass. Thus the visitor would be made to feel that his call was regarded as a matter of importance. The suggestion was laughed down.

• • •

Those Postal Appointments

Roosevelt has been appointing no postmasters—only acting postmasters. The secret can be found in his recently revealed intention of putting 15,000 first, second and third-class postmasters under civil service.

As acting postmasters, the new appointees will have to take examinations like everyone else, whereas if they had been given interim appointments as postmasters they could have been qualified by mere confirmation of the Senate.

Roosevelt hopes for a service full of real postmasters. Under the present system there are plenty of garage men, insurance agents, merchants and others holding postmasterships and collecting the salaries while assistants do the work and allow the postmaster to attend to his regular business. Politics preserves this graft and the government may save a lot of money if it's abolished.

• • •

Busiest Since War Time

While the administration pushes the program of shorter hours in industry, officials of the New Deal are burning midnight electricity in their offices and working longer hours than were ever experienced here except in war time. One "little cabinet" member, who for several nights hadn't quit before 1 a. m., was asked whether his duties and worries didn't weigh on him enough to wake him up at night.

"They would," he replied, "if I ever got to sleep in time to wake up."

With 'Whiz' BARRY Under The Capitol Dome

BY R. W. BARRY
Associated Press Staff Writer

AUSTIN, July 25 (AP)—The Texas legislature passed a law permitting street cars to be replaced with buses wherever that idea was adopted by a traction company as a means of serving the public and at the same time saving money for its stockholders.

San Antonio was the immediate beneficiary of the law. Under the statutes, before they were changed, it was not possible for a traction company to take off its street cars, just as a railway cannot abandon its lines without good reason.

Can Sleep in Quiet

San Antonio is the only large city in Texas that does not have street cars. There are no interurbans out of San Antonio, all of which makes it possibly the one foremost city in the state where one can sleep in quiet. No rumbling, lumbering street cars pass hotel windows until the wee small hours of the morning nor by offices during daylight. Quiet, smooth-running buses go where the street cars once crashed their way.

San Antonio always was individualistic. Its meandering San Antonio river finds its way in many turns through the city. It made quite a few complete circles before it got out of town but, like replacing street cars with buses, the "city fathers" decided to make it modern. They cut a straight-away path through town for the river, at the same time leaving the meandering stream to its original course so long as flood waters did not try to pass through it. Heavy rains on the Olmos watershed and high water in the San Antonio river now means that the artificial channels are opened and the surplus water is not retarded by the many turns in the natural river bed.

Streets Straightened

Crooked streets first were made straight thoroughfares. That's the way one of the south's most individual cities has been made modern. Crooked river straightened; crooked, narrow streets straightened and widened and street cars replaced with buses. On with progress, but with progress went some of the landmarks that possibly, in time to come, will be replaced—artificially.

OPERATE DINING ROOM

RALLS, (Special)—Mrs. D. W. Williams and son Jack are now in charge of the dining room at the Ralls Inn, Mrs. W. E. McLaughlin, owner, announces. Mrs. Williams comes from Lufkin where she and her son were in the restaurant business.

NEW CAR AGENT

HALE CENTER, (Special)—Elmo Caudle has taken over the agency of the Ford Motor company for Hale Center. He also will handle oil and gasoline. His location is the former Winn Motor company place and he plans a repair and service department.

Movie star, so the Hollywood press agents say, practices singing his popular song hits while in the bathtub. Maybe that explains his liquid notes.

RM SESSION S PLANNED

STATE CONCLAVE N AGRICULTURE TO BE AT PLAINVIEW

AINVIEW, July 25—(Special)— have been started for a tri- conference of agricultural s by the Board of City De- ment of Plainview with the Cooperative Council of Ag- ure cooperating, according rady Shipp, manager of the Date is tentatively announced gust 30-31.

itations have been sent to Sec- y of Agriculture Henry Wal- Henry Morganthau, jr., farm administratof; J. E. Mc- ld, Texas commissioner of ag- ure; Dr. T. O. Walton, presi- of Texas A. and M.; Dr. ford Knapp, president of Texas nological college at Lubbock; in Jones, Amarillo, 18th dis- congressman, and chairman of ongressional agricultural com- e and others.

Other Leaders Invited

aders in the movement in New co and Oklahoma, including of the state agricultural ls, state and national farm s and others, also have been ed.

s first day, conference will be over to a meeting of state sectional leaders with Secre- Wallace, Administrator Mor- hau and others. The two men to be given a close-up picture griculture in the Southwest and eeds under present conditions.

To Honor Jones

the second day, which is large- honor Marvin Jones and his as author of so many con- sional laws dealing with agricul- there will be a continuation he program.

omer D. Wade, secretary of the erative council, has been here erating with Grady Shipp in nation of plans for the meeting. e formerly was manager of the al chamber of commerce group e Panhandle five or six years

e state extension service ugh Dr. O. B. Martin and dis- leaders and county agents and state extension service through . Connor, director, also are ex- d to cooperate.

PLEDGES

(Continued from Page One)

se, expresing their intention of g through with the plan."

hey did, big fellows and little. of the big ones was Harvey S. tone, who pledged to put the ram into effect immediately.

While the mass movement was on, ding the gun on the campaign h gets under way officially day tomorrow and seeks to have million men reemployed by labor with increased wages for those now have jobs. Johnson and a of lieutenants worked away collection of difficult problems tinued and new hearings on eral codes of fair competition oil, lumber, wool weaving and weaving industries; com- of widespread discrimina- by industries against union pathizers; puzzling requests for rpretations of the blanket re- loyment agreement.

To deal with demands for clarifi- ion of the "blanket code," a ial committee headed by Gen- Thomas H. Hammond, new di- of the re-employment cam- n, was set up. Questions should ent direct to him, and will be wered personally.

The president's address served ar warning that selfish interest not going to be let stand in the y of the re-employment drive. d that he is satisfied the blanket reement is fair to all.

Mentions Penalties

"There are, of course, men, a few them, who might thwart this at common purpose by seeking ish advantage," he said. "There adequate penalties in the law. I am now asking the coopera- n that comes from opinion and m conscience. These are the only struments we shall use in this eat summer offensive against un- mployment.

"But we shall use them to the mit to protect the willing from e laggard and to make the plan ceed."

With this statement he joined the llowing:

"You can look on every employer ho adopts the plan as one who is oing his part, and those employers serve well of everyone who works r a living. It will be clear to you, it is to me, that while the shirk- g employer may undersell his mpetitor, the saving he thus mak- is made at the expense of his ountry's welfare."

"We Do Our Part"

It was a deliberate urging to pa- onize only establishments on the oll of honor," those that have the ght to display the blue eagle with he legend: "We do our part."

The president heeded a number requests for a word to labor gainst stirring up strife:

"While we are making this great ommon effort there should be no iscord and dispute. This is no time o cavil or to question the standard et by this universal agreement. It s time for patience and under- tanding and cooperation.

"The workers of this country have ights under this law which can- ot be taken away from them, and obody will be permitted to whit- le them away but, on the other and, no aggression is now neces- ary to attain those rights."

The origin of whist in England s obscure, but under its old name Triumph, it was well known as rly as 1529 when Bishop Latimer reached a Christmas sermon at Cambridge and based the allegories on the game.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, July 25 (AP)—Cotton opened steady, 5 to 9 points advance on higher cables and buying by mills. Oct. 10.77; Dec. 10.96; Jan 11.06; March 11.24; May 11.30.

There was a very fair volume of business at the opening. Houses with Liverpool and continental connections were early buyers, but the advance met New Orleans and southern selling, also further liquidation. October, after advancing to 10.78, reacted to 10.66, or about 8 points net lower, but met a little more buying on the setback and rallied to 10.72 by the end of the first half hour. Trading was comparatively quiet. The market held generally steady with prices about 1 to 2 points net higher on the more active positions.

Trading continued quiet through the forenoon but, prices held generally steady, light offerings being absorbed by covering combined with a little trade and commission house buying.

July was relatively easy under a little scattering liquidation, but after selling off to 10.32, or 10 points net lower, steadied up to 10.45, or about 33 points under the price of October. New crop positions at midday were steady at net advances of 6 to 9 points with December selling at 10.99.

NEW ORLEANS REPORT

NEW ORLEANS, July 25 (AP) — Cotton had a steady opening today. First trades showed gains of 3 to 7 points on the active months. July, which expired at noon, advanced 19 points on the call owing to some final evening up in that contract.

Prices continued to improve after the start on fair trade buying. October advancing to 10.72 and December to 10.93, up 8 to 9 points from the close of yesterday.

Later, the market reacted on selling by ring traders and moderate long liquidation. October dropped to 10.60 and December to 10.81, down 12 points from the early highs to levels 3 to 4 points under yesterday's close. Before the end of the first hour prices recovered 2 to 4 points on the lows to about a level with the previous close.

The market was comparatively quiet but steady all morning. As there were torrential rains in central Louisiana, East Texas, and other portions of the belt as well as advices reporting increasing weevil activity, the market gradually improved until October traded at 10.79 and December at 11.00, or 19 points up from the early lows and 15 to 16 points up from yesterday's close.

The July contract, expiring at noon, advanced to 10.51, a gain of 22 points net, due to some final covering by shorts in that month.

At midsession the market was steady and about 4 to 5 points down from the best.

COTTON FUTURES

NEW ORLEANS, July 25. (AP)—Cotton futures closed steady at net declines of 6 to 10 points.

Stock Market

WALL STREET REPORT

NEW YORK, July 25 (AP).—Stocks pressed forward today at a fast pace.

The noon opening found prices of many of the leaders up 1 to 4 or more points with the so-called "wet" issues again out in the lead. Various specialties also drew renewed followings. At the end of the first hour of speedy transactions some of the pivotal stocks tended to ease off and follow a rather narrow range. Grains at Chicago were fairly steady, with wheat, corn, oats, and rye up 2 to 3 cents a bushel. Barley was under pressure, however, and was off about 5 cents a bushel in the restricted trading. Winnipeg wheat was up more than 4 cents. The dollar was somewhat lower in foreign exchange markets. Cotton moved indifferently and silver futures were a bit reactionary. Bonds were steady to firm.

Alcohol shares, up to around 3 points, included U. S. Industrial Alsohol, American Commercial Alcohol, Owens-Illinois, Commercial Solvents and Standard Brands. Allied Chemical came back for a gain of more than 2 and Case, reactionary yesterday, recovered about 3. Industrial Rayon moved up more than 4, and advances of 1 or more were registered by Cleanese, International Silver, Pennsylvania, Santa Fe, Baltimore & Ohio, Public Service of New Jersey, Proctor & Gamble and U. S. Rubber. U. S. Smelting dropped a point or more.

Livestock Market

FORT WORTH REPORT

FORT WORTH, July 25 (AP)—Cattle 2,300; bidding 15 to 25c lower; steers 5.50-6.00; medium to good yearlings 4.50-75; butcher cows around 2.00 bulls 1.65-2.25.

Calves 1100; light weight white faced 4.50; bids around 3.50 for plain quality; culls 1.50-2.00.

Hogs 1200; 25c lower; bulk 4.30; few up to 4.35; packing sows 3.00-3.25.

Sheep no morning sales.

KANSAS CITY REPORT

KANSAS CITY, July 25. (AP) (U. S. Dept. Agr.)—Hogs: 6,000; 15-30 lower; good and choice, 140-200 lbs., 2.90-4.25; 200-350 lbs., 4.00-30; packing sows, 275-550 lbs., 3.15-65.

Cattle: 6,500; calves: 1,000; indications weak to 25 lower on fed steers and yearlings; other classes steady; steers, good and choice, 550-1500 lbs., 5.50-7.00; cows, good, 3.15-75; vealers (milk-fed), medium to choice, 3.00-5.50; stocker and feeder steers, good and choice (all-weights), 4.50-5.75.

Sheep: 6,000; lambs steady to 15 higher; sheep and yearlings steady; lambs, good and choice (x), 90 lbs., down, 6.75-7.65; yearling wethers, medium to choice, 90-110 lbs., 4.00-5.50; ewes, good and choice, 90-150 lbs., 1.25-2.25.

(x)—Quotations based on ewes and wethers.

Lubbock Markets

These prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg company, delivered Lubbock; Grain—S. E. Cone Grain and Seed company, following prices being bid by Lubbock grain dealers: Cotton—Blocker Cotton company. All prices subject to change during day.

LAKE PROPOSED

(Continued from Page One)

proximately 11 miles of shore roads, Dr. Craig said.

Water for the lake would come from the Yellowhouse canyon drainage area and watershed for a distance of 125 miles extending to beyond the eastern New Mexico line. Principal drainage would be from Bailey, Lamb, Hale and Lubbock counties. Other water source will be springs in the present channel of the canyon and should a dry year cause the water line to decline, a battery of shallow wells working from a single pump-jack would supply water for the lake, Dr. Craig said.

The dam site will be located approximately one-quarter of a mile back of the Country club grounds. The depth of the water at the dam will be 17 feet while the depth runs to 25 feet further back in the lake. The principal part of the lake will be from the dam to approximately three-quarters of a mile and approximately one-half mile in width.

The dam spillway would allow ample water for the Country club lake, Shannon park and other dams along the canyon.

Trees Planned

Several thousand trees will be planted on the edge of the lake and around the camp sites and parks, Dr. Craig said. Boathouses will be constructed at various points along the lake.

Estimated revenue of the lake is placed at $33,140 yearly by Mr. Hudspeth. Club memberships at $25 a year expect to total $5,000 annually. Sites for permanent cottages will be sold to individuals while approximately seventy cottages will be constructed for lease. The cottages would be built at a cost of $30,000.

Other revenues of the amusement center are estimated as follows: lots for camp sites, $3,600 per year; cottages, $5,500 per year; swimming, $2,600 a year; fishing, $2,700 a year; boating, motor, canoeing, sail, fishing boats, $4,140 a year; shacks (thirty at $60 each lease), $1,800 a year; concessions (50 at $10 per month), $3,000; Arcadia, $600; filling station, $300; cafe, $300; dance pavilion, $2,600 and refreshments sale, $1,000.

Cost of the project as detailed by Mr. Hudspeth is as follows: land, $37,60; dam, $25,000; clubhouse, $20,000; dance pavilion, $15,000; Arcadia, $7,000; filling station, $3,000; water plant, $15,000; roads, $10,000; trees and beautification, $5,000; bathhouse, $85,000; boathouse, $2,000; boats and boating equipment, $5,000; public park and equipment, $5,000; cottages (70), $30,000 and maintenance, $15,740.

Need Is Seen

A vast need for the project by the people of this section is seen by Dr. Craig and his associates.

"Lubbock and the South Plains has citizens who are crying for this project," Mr. Hudspeth said. "It can be sponsored as a self-liquidating project by the City commission and this amusement center can be obtained through the National Recovery act without costing the city one cent."

Motorboat regattas, canoe racing, sailboat racing, bathing beauty revues and carnivals, picnics and other outdoor amusements could be staged at the lake at all times of the year. There is a possibility that ice skating would be provided for portions of the lake in the winter.

Dr. Craig, who has been in Lubbock about a year, is an outdoor enthusiast, having formerly resided at Corpus Christi where aquatic sports form the greatest amusement for thousands of South Texans. The doctor came to Lubbock from Ranger.

The bulk of the lake site is located on property owned by Sid Rouse, although the upper portion of the lake would lie on land belonging to Mrs. Elizabeth J. Vickers.

Jones Called Back To Capital Today

AMARILLO, July 25 (AP)—Congressman Marvin Jones of Amarillo, who returned to his district from Washington a week ago, was called back to the capital today to aid in handling farm problems now before the administration.

Jones will be present Friday when President Roosevelt hands the first government check for cotton acreage reduction to a Texas farmer, and as chairman of the house agricultural committee, will participte in the ceremony.

He was called back by C. A. Cobb, head of the cotton administration setup.

Four hairs of good strength will hold suspended a one-pound weight.

Brevities

Complaints Prepared—Complaints of drunkenness and disturbing the peace were being prepared in the county attorney's office this morning against two men and two women arrested last night by the sheriff's department, which reported seizure of about 95 bottles of beer at their home, about one-half mile south of the junction here of state highways 24 and 137 west and southwest.

• • •

Branam On Bond—O. L. Branam, charged before United States Commissioner Victor H. Lindsey with prohibition law violation, was released from county jail this morning in bail of $500.

• • •

Fire Extinguished—Fire department apparatus, answering an alarm about 9:55 o'clock this morning, went to 1712 Avenue J, where fire originating from electric wiring was extinguished, Fire Chief W. E. Twitty said. Damage was negligible.

• • •

Veterans Meet Tonight—The Lubbock post, No. 2466, Veterans of Foreign Wars will meet in room A-16 Hotel Lubbock tonight at 8:30 o'clock. Delegates to the National convention in Milwaukee are to be elected.

• • •

Lions Hold Gathering—Representatives of the Plainview and Brownfield Lions club are here today for a group meeting with the Lubbock club and Del Harrington of El Paso, district governor. They attended the club luncheon at the Hilton today noon where Mr. Harrington talked on Lionism and its benefits and urged expansion of the organization's work throughout this section. President S. J. McFarland of the local club and J. B. Morrisset, secretary, made reports on the recent international convention they attended. Governor Harrington presented Victor Lindsey, local club member, with a master key plaque at the close of his talk in recognition of Lindsey's securing ten members for the club. Prior to his talk, Mr. Harrington was presented with a silken lei by President McFarland and Brownie Akers on behalf of the Lubbock club. Plainview was represented by: Pres. L. A. Umphress, Doc. Hinds, Milton Beavers, T. L. Hawkins, Dr. D. C. Rougeou, Alex Nesbit, Ed Hart and S. J. Burrows. Paul F. Lawlis represented Brownfield.

Traveling Bag Lost—Loss of a black traveling bag, containing a box of jewelry, including an engagement ring set with small diamonds, and some clothes, from an automobile between Avenue R and Fourteenth street and seven miles east of here on state highway 24 was reported to police last night. Finder was asked to inform Virginia Forbis, 2011 Broadway.

• • •

Tailors Return — Operators of five Lubbock tailor shops, O. W. McLeod, John L. Stinson, William H. Bray, H. D. Boyd, and J. C. Sanders returned Monday from a state meeting in Waco upon a proposed code of fair competition for cleaners and dyers, as asked by Hugh S. Johnson, administrator of the national act. South Plains plant owners and employes met here recently, preliminary to shaping recommendations to the state assembly, which in turn will send its findings to a national code-compiling body.

• • •

Ribble Returns—Upon returning from state florists conventions in Temple and Oklahoma City, O. W. Ribble, a Lubbock florist, Monday said his industry was falling in line with the recently enacted recovery program. Mr. Ribble was one of the delegates chosen to arrange flowers at instructional sessions attended by about 300 florists from Oklahoma, Kansas, Texas, New Mexico, Arkansas and Missouri.

• • •

Stolen Car Found — A DeSoto roadster, which the owner, Barron Holmes, 1320 Thirteenth street, informed police Sunday had been stolen, was found Monday near Tulia, Hale county, police were informed. Condition of the car when found was not reported.

TEXAS FLOOD

(Continued from Page One)

raining. A total of 22 inches had fallen since Saturday night.

The Angelina and Neches rivers were rising rapidly and "feeder" creeks were out of bounds in many sections. Water swept over the lowlands, washing away all crops and drowning hundreds of head of livestock.

Center and Joaquin were isolated, except for telegraph and telephone lines.

Southern Pacific headquarters in Houston said that several sections of track had been washed out on the Houston-Shreveport line chiefly in Shelby and Panola counties, and that repairs were being rushed.

Motorists Marooned

Hundreds of motorists, caught by the deluge, were marooned in a score of towns.

Hundreds of farmers, who had expected to pull through this year because of their fine corn, cotton and watermelon crops, are expected to need relief.

Total rainfall at Longview from Saturday night to 9 a. m. today was 9.96 inches. There had been an almost continuous downpour or drizzle there for the past 60 hours. The Sabine river was bankfull with lower grounds flooded. No damage was reported, however. Oil wells near the river were still operating without damage. Cotton crops were hurt but other crops were not damaged.

Port Arthur's overnight rainfall measured 2.21 inches, most of which fell in the period between 2:15 a. m. and 2:50 a. m. It raised to 12.75 inches the rain from 9 a. m. Friday, breaking all records. Heavy clouds today indicated further rains.

Wilbur Gorst, of Seattle, is planning to open a 2000-mile air taxi service in Alaska.

PROJECTS ARE ANNOUNCED

ALLOTMENT OF PUBLIC WORKS FUNDS GIVEN OUT BY ICKES

WASHINGTON, July 25 (AP)—A $19,851,648 allotment of public works funds to create more jobs, including $6,971,648 for federal buildings, was announced today by Secretary Ickes.

It brought total allotments from the $3,300,000,000 public works appropriation to $773,802,836 since the law's enactment a little over a month ago.

The public building money went to 14 postoffices in nine states. The rest of the distribution included:

$6,000,000 for 23 war department ordnance establishments which Ickes said would retain 7,122 employes on the payroll;

$5,000,000 for soil erosion work under the agriculture department, to be allotted to states in proportion to their cultivated areas as shown by the 1930 census;

$325,000 for the Panama Canal Zone.

"The board adopted a resolution," the secretary said, "that it was the sense of the board that in local projects local labor be used as far as possible, and that as far as possible building material, stone and so forth, of that state and area be used.

"The board also resolved that no projects approved by the Reconstruction Finance corporation can come before this board until the R. F. C. has rescinded its approval, and then the projects must be submitted to the state boards."

Regarding the use of local labor and materials, Ickes said clauses probably would be written into contracts stating this to be the government's policy, but that the price factor would enter into its application.

The board directed that the $5,000,000 soil erosion program be completed by November 1, 1934.

FARMERS APPROVE SETTING MINIMUM

AMARILLO, July 25. (AP)—Panhandle wheat growers today expressed their approval of fixing a minimum price for wheat, concurring in the belief that the uncontrolled market would have been disastrous.

"I think the action of the administration in establishing a minimum grain price was justified by the emergency which existed," said Lester Stone, one of the Panhandle's biggest wheat growers, whose average crop is 5,000 acres.

"Of course I approve of it," said O. L. Campbell, who grows from 500 to 700 acres, which is an average size crop for this area. "I'd approve of it as a permanent measure. Then the farmer would know what he was going to get for his product and could plan his farming systematically."

Spitzbergen's tallest trees are about six inches in height.

BARROW'S WIFE

(Continued from Page One)

and by his successor, W. B. Veazey; C. E. Garrett, Methodist prison chaplain; W. W. Wald, warden and R. H. Baughn, assistant warden.

W. W. Heath, secretary of state, and Henry Owsley, of the state department, reviewed the application of Buck Barrow for clemency and recommended the pardon to the governor.

Buck Barrow was sentenced from Denton county to four years imprisonment for burglary and felony theft. At the time he was pardoned he had served nearly three years of the term. He was received at the prison on January 27, 1930. He received his pardon on March 20, 1933.

Clyde Barrow, sentenced to 14 years imprisonment from Hill and McLennan counties for burglary and theft, had served two years and four months of his term when given a general parole by Governor Sterling on January 27, 1932.

On November 17, 1932, Governor Sterling revoked the parole, but Barrow never could be apprehended. The parole was revoked by Governor Sterling after he received a letter from J. W. Freeland; sheriff of Hill county, advising that Barrow was wanted in Hill county for murder, in Oklahoma for murder, in Dallas county for highway robbery, in Grayson county for robbery with fire arms, in New Mexico for kidnaping and in Wharton, Tex., for assault to murder.

Governor Ferguson was powerless to act with reference to Buck Barrow since an unconditional pardon cannot be revoked.

Auto Dealers Plan Competition Code

FORT WORTH, July 25 (AP)—Strict and eager compliance with the president's business recovery program was indicated by members of the Fort Worth Automobile Dealers' association here as the executive committee of the State Dealers' association drew up a code for competition and employment.

The code drafted by the committee today calls for a 35 hour maximum week and a 40 cent hourly wage for skilled labor and a 35 hour maximum week and a 35 cent wage for unskilled labor.

Members of the state executive committee present included G. D. Fox, Wichita Falls.

Officers Installed By Snyder Legion

Several members of the Allen Brothers post of American Legion went to Snyder Monday night where they had charge of the installation of officers in the Snyder Post. Chas. Whitacre was chairman of the program, the principal talk being made by Judge Clark M. Mullican.

Those attending from Lubbock besides Whitacre and Mullican were J. A. Raley, A. C. Jackson, H. D. Woods, and Geo. Meiser. Post was represented by N. L. Outlaw, W. L. Underwood, H. Jones and Commander Weakley.

ROAD PLAN IS APPROVED

DISTRICT ENGINEERS PASS ON PROJECTS FOR WEST TEXAS

A comprehensive road building program for West Texas was approved at a meeting last week in Abilene of district resident engineers of the state highway department and Gibb. Gilchrist, engineer in chief, will announce the program probably late this week, Guy R. Johnston, district resident engineer, said today.

"The state is planning small lettings of contracts at frequent intervals instead of large ones," Mr. Johnston said. "This is in order to keep costs down and in anticipation of increases in material costs. First letting will be in August, the date to be announced from Austin.

Based On Population

"The program is based on population, rather than some other matter. Relief of unemployment over the state rather than actual connecting up of present paving jobs, is the objective.

"As far as this division is concerned, we got our share of the money appropriated for Texas; perhaps a little bit more. But there will be more lettings soon and we will get more right along."

Right-of-way problems are being settled rapidly over the division. Swisher county reports securing necessary land from Tulia south to Hale county, with the easements for between Tulia and Happy available when needed.

On highway No. 7 the right-of-way is complete from Lubbock county to Farwell. In Floyd county the only papers lacking are between Floydada and Lockney and the county is condemning land there. Lamb and Bailey counties have secured their necessary acreage.

South of Lubbock No. 9 is virtually complete in Dawson and Lynn counties and work on the remainder is under way and nearing completion.

Lubbock, Dawson Projects Included

Lubbock and Dawson county construction projects were among those announced by the Texas highway commission today in Austin as planned from federal recovery funds in nine counties, the Associated Press reported.

They were 6.8 miles of caliche base with bituminous surface treatment on highway 24 in Lubbock county from Idalou to the Crosby county line, and 17 miles of grading and drainage on highway 9 in Dawson county from Lamesa to the Lynn county line.

Red & White Store Picnic Is Planned

Representatives of 23 South Plains towns are expected to go to Buffalo Gap, Wednesday, to take part in an all-day picnic of the Red and White stores of West Texas, Tom Pearce, representative of the Lubbock district said today. About 2,000 people are expected to attend he event.

Dr. J. W. Hunt, president of McMurry college, Abilene, is to be the principal speaker. An old-fashioned basket picnic will be spread.

Representatives of Red and White units from the Wichita Falls, Stamford, Snyder, Spur, Big Spring, Sweetwater, Abilene, Lubbock, Coleman and San Angelo districts are expected to attend the affair.

SPARTANBURG, S. C. (AP)—H. M. Stackhouse, 94, received his diploma at Wofford college, here, this year—72 years after he first entered the school.

Hoot Gibson Has New Girl Friend

Gibson, movie cowboy recovering from injuries received in an ne crack-up, and June Gale, 21-year-old film actress, agreed they "madly in love." At the same time Gibson announced he and his Sally Eilers, plan to be divorced. (Associated Press Photo)

LEGAL NOTICES

—Legal Notices

SHERIFF'S SALE

STATE OF TEXAS, TY OF LUBBOCK.

ice is hereby given that by virtue of tain Order of Sale issued out of the able 72nd District Court of Lubbock y, on the 24th day of July, 1933, by lerk of said Court for the sum of Hundred Eighty-Seven and 17-100 17) Dollars and costs of suit, under dgment rendered, in favor of Pan- e Construction Company, a Corp. vs. r E. Grice, et al and, placed in my s for service, I, Tom Abel as Sheriff bbock County, Texas, did, on the 24th f July, 1933, levy on certain Real Es- situated in Lubbock County, Texas, ribed as follows, to-wit: West Fifty- and one-half (51 1-2) Feet of Lots one and Two (2), Block 1, Summers- ell Subdivision of McCrummens Addition, to the City of Lubbock,

LEGAL NOTICES

39—Legal Notices

Lubbock County, Texas, and levied upon as the property of Walter E. Grice, et al and that on the first Tuesday in September, 1933, the same being the 5th day of said month, at the Court House door of Lubbock County, in the City of Lubbock, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue for cash, to the highest bidder, as the property of said Walter E. Grice, et al.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Avalanche-Journal, a Newspaper published in Lubbock County.

Witness my hand, this 24th day of July, 1933.

TOM ABEL,
Sheriff Lubbock County, Texas.
By B. F. CARPENTER, Deputy.

Here's Man With Most Unusual Job!

He's Chauffeur To The Pope And Has Five Automobiles Of Four Nationalities Under His Command; Has One Patron

Giovanni Politi has been chauffeur for Pope Pius since the days when the pontiff was Cardinal Ratti of Milan. He is shown beside one of the five cars owned by the pope, from which the latter has just alighted.

BY ANDRUE BERDING

VATICAN CITY, July 25 (AP)—Gray-haired, kind-faced Giovanni Politi, 50 years old, has one of the most unusual jobs in the world. He is the pope's chauffeur.

He has five automobiles of four nationalities under his command.

The most he drives them is a half-hour a day except for Sundays, when an assistant takes the wheel.

Drives Only 2 Miles

The fartherest he drives is the two-mile circuit in the Vatican gardens.

The only passenger he drives is Pope Pius.

Politi revealed that the pope likes to drive with the top down.

"Of the five cars the Holy Father has for his personal use," he said, "one is American, two are Italian, one French and one German.

Prefers American Car

Of them all the Holy Father prefers the American car. He uses it four days in the week. This is particularly because he likes to look at the landscape and breathe the pure air and he orders the rear part of the top opened. The American car is the only one of the five which has this feature."

The chauffeur said that His Holiness is always silent while they drive.

Has Mechanic

"Do you have to take mechanical care of the pope's five machines?" the chauffeur was asked.

"Ah, no," he replied, "I have a mechanic."

"And do you get a day off?"

"For Sundays and holidays there is an assistant."

By winding around all the narrow gravel roads in the vatican gardens, an automobile can go at most only about two miles without retracing its path.

Politi is a citizen of Vatican City By birth he is a Milanese. He has been Pope Pius's chauffeur since 1921, when His Holiness became cardinal-archbishop of Milan. Previously he was chauffeur to the late Cardinal Ferrari, of Milan.

When Cardinal Ratti became Pope Pius he brought his Milanese housekeeper and his chauffeur with him. The housekeeper since has been pensioned. But Politi stays on.

Herbert Hoover is the first President of the United States to have a telephone on his desk.

PASSION PLAY PURIFIED AFTER THE CHURCH FROWNED ON ITS COARSENESS

EDITOR'S NOTE: This is the fourth of six articles upon the history of the Passion play, which will be presented, in English, at Texas Technological college athletic field, Friday, August 4, under auspices of the Avalanche-Journal newspapers.

• • •

Starved for entertainment, the people eventually took the play for themselves, and in their own crude way. They filled it with their own coarseness and their own obscenity. They wove through it the threads of their own rough humor and clownishness. They gradually, as generations passed, made it a perfect reflection of themselves and their times, down even to the very cloth they wore upon their backs.

The Church Frowns

The church turned its August frown upon these riotous celebrations of the passion of our Lord. Papal bulls were hurled at it, and the voices of the priests rang out in denouncing it. It lived, and continued to live. Gradually, under the church opposition, it waned in influence, and gradually, too, it purified itself of the coarseness and vulgarity with which the robust fellowship of the common people had permeated it.

Now we find the Passion play returning to the pure standards of the original writers, though it retained all of the characters, and also the tradition of rich and sumptuous presentation which had been given to it by the rich cities of medievalism.

The Benediction monks of St. Call in Switzerland were probably the first people to take the ritual of their church as inspiration for tableau and dialogue. At Ghent, in Belgium, and at Floury-sur-Loire, this idea took place. On Good Friday, it became the custom to swath a crucifix in cloth and lay it in a shallow trench like a grave. There, tion was played.

Drama Charted

Then the short charted drama came into being, and popular lighting began to develop as the idea become more colorful and dramatic.

In the 14th and 15th centuries, there were 224 such plays known in Europe, 159 in Germany alone, 52 in France, and they dotted Italy, Spain, Switzerland, Holland and England. There are in Germany today, 42 Passion plays, most of them local presentation. The Freiburg play is the oldest one to survive, older than the famous one of Oberammergau.

The Oberammergau presentation differs in some respects from the old Freiburg play. Oberammergau is a small village, 'way up in the Bavarian mountains, and all the performers are peasants of that neighborhood. They are a very orthodox folk and would consider it a sacrifice to perform anywhere else except upon the sacred premises of their native village. They perform just once every ten years and have done co continuously since 1633, as a Thanksgiving sacrifice and a jubilation of deliverance from the black plague so prevalent in central Europe toward the end of the dreadful thirty-year war.

Pledge Of Support Given To President

SACRAMENTO, Calif., July 25.(AP)—A pledge of "wholehearted and active" support of the national recovery program was sent to President Roosevelt Monday in the name of the states represented at the national governors conference as the state executives completed the initial session of their twenty-fifth annual convention.

The pledge, made on a motion and following a stirring appeal by Governor Paul V. McNutt of Indiana, followed a warning during an address by Secretary of War H. Dern that if the recovery program fails "our national existence will be at stake."

Only young chiggers human beings.

Skin-Itch Torture Ends; Millions Praise Z

The first application of soothing healing Zemo quickly relieves torture of Itching Rashes, Eczema, Ringworm and similar skin troubles. For 25 years Zemo has been used and praised by millions as a clean, safe, dependable remedy for family use to relieve and clear away skin irritations. A trial will convince you of its great merit. Insist on genuine Zemo; it's worth the price because you get relief. 35c, 60c, $1. All druggists'. Ad
