No Clean-Up Necessary

All of the people of this community will join in a Memorial service at the Ochiltree cemetery at 10:30 Saturday morning. A short and appropriate program has been arranged by the committee in charge. Rev. H. W. Hartenberger, pastor of the Lutheran church, will deliver the Memorial day address. The service for the occasion will be furnished by the Perryton High School and will be under the direction of W. I. Romig.

In past years, it has been the custom to have a general clean-up of the cemetery a few days before Memorial day, but due to the splendid condition of the graves and grounds this year, it was decided that this would not be necessary.

TAX REMISSION IS GREAT AID

Remission Remitted to Ochiltree County Wind Erosion District Amount to \$4,371.47

Ochiltree county has received \$4,371.47 as a result of voting a wind erosion conservation district, authorized under a new state law, and sponsored by Panhandle representatives in the legislature.

Under the law the counties voting district get back for the years 1935-1936 all state taxes except school and moderate pension levies. County commissioners govern the district within their own county. Commissioners are empowered to supervise wind erosion work on farm lands and county highways, and, if necessary, take the necessary conservation measures. Cost of the work may be assessed against the land so long as the assessment does not exceed actual benefits to the land. The cost becomes a lien against said land.

Land clearing away dirt and sand from highways and lateral roads, etc., are lawful uses of the land.

To Make Main Address

Irvin E. Buchanan Invited to Make
Memorial Day Address in
Central Texas

County and District Clerk Irvin E. Buchanan expects to leave Friday for Bryan, Texas, where he has accepted an invitation to make the principal address at the annual home coming day at the "Steep Hollow" cemetery located seven miles east of Bryan. This is the third time that Mr. Buchanan has been honored by being invited to be the principal speaker at this event, but this is the first time that he has been able to accept.

The "Steep Hollow" community is the native land of our fellow townsman and his father and sister are buried in the cemetery, however, Mr. Buchanan has not resided in that section since he was 12 years of age. The annual Memorial Day homecoming is an event of much importance in that section of the state and attracts thousands of people every year. They have an all-day program with a big basket dinner.

Consistent use of Herald Want Ads will bring fine results.

PASTOR SIBLEY GOES TO TULSA

PASTOR OF FIRST BAPTIST TO
DELIVER FAREWELL SER-
MON SUNDAY; GOES TO
LARGER CHURCH

Rev. J. M. Sibley, pastor of the Perryton First Baptist church for the past five and one-half years, has resigned his charge here to accept the pastorate of the Phoenix Avenue Baptist church, Tulsa, Oklahoma. While it is with much regret that the members of the church and his many friends in Perryton hear of Rev. Sibley's resignation, yet they rejoice in the fact that his call to Tulsa is a great promotion and a signal recognition of his ability as a pastor and church leader.

The Tulsa church to which Sibley goes has a membership of 500 and is fourth in size of the 12 Baptist churches in the Oklahoma oil city. Rev. Sibley and his fine family expect to leave Perryton about the middle of next week. His successor has not been chosen.

The Perryton church has made great progress under his very able administration. The following figures show some of the increases made: Membership: total additions, 281; by baptism, 175; by letter, 106; net gain, 113. Sunday school: from an ungraded to a graded and standard with an enrollment increase from 220 to 317. B. T. U.: from one Union to eight; enrollment increased from 50 to 175; and general organization instituted. Stewardship: from six tithers to 91; donations to missions and benevolences increased from \$80 in 1930-31 to approximately \$900 in 1934-35. Baptist Standard Club organized with present membership of 23 taking the State Baptist paper. Church debt reduced from \$8,500.00 to \$3,000.00.

HOME EC COURSE TUESDAY-FRIDAY

THOSE ATTENDING HOME EC
COURSE SELECT SUBJECT
TO STUDY; CLASSES
TUES.-FRI.

Tuesday afternoon, Miss Roberta Hutchison conducted the first class in Home Economics, offered to adult women of this community. This was the beginning of a month's series of meetings under the direction of Miss Hutchison, head of the Home Economic department of the Perryton high school. Due to the bad condition of the roads, few country women were able to attend, but the nine women present were very enthusiastic. The subject for the afternoon's discussion was, "The Setting of the Table and Table Etiquette."

Classes will be held every Tuesday and Friday afternoon at three o'clock, in the Home Ec rooms at the high school. No definite schedule of topics will be announced, as the women are to decide each time the subjects they desire discussed at the next meeting. Friday (tomorrow) afternoon will be given over to a demonstration and discussion on salads and desserts.

The classes are open to all who wish to attend. While Miss Hutchison would like as many as possible to enroll, it is not necessary to be regularly enrolled to attend any of the classes. Many subjects of interest to women and the home will be discussed and much beneficial information will be available.

As stated last week, a recent ruling of the state department of education requires that home economics work in all high schools be on a ten months basis, hence the decision to use the extra month as a service to the adult women of the community.

Mrs. G. W. Smith, Sulphur Springs, is visiting this week in the home of her sister, Mrs. W. J. Brewer. Miss Luta and Russell Smith and Miss Mary Miller accompanied Mrs. Smith and visited until Tuesday in the Brewer home.

Miss Christine Anderson entertained friends with a party on Friday evening. Several hours were enjoyed dancing.

Randal Jones and Wilford Lance visited Friday night with home folks. They accompanied Dr. Bradford Knapp, president of Texas Tech, who was here to deliver the commencement address that evening.

WIN FARM-HOME COUNTY CONTEST

FARNSWORTH COUPLE AWARDED
FIRST IN FARM AND
HOME CONTEST; WILL
TRY FOR DISTRICT

Mr. and Mrs. L. R. Conner of the Farnsworth community were awarded first place for Ochiltree in the Centennial Farm and Home Demonstration Contest. This contest conducted by the Co-operative Extension Service of the A. and M. College of Texas, and sponsored by The Dallas Morning News and The Semi-Weekly Farm News, was started last fall. The county winner was selected last Thursday, after a careful inspection by the judges. Mr. and Mrs. W. R. Norris of Notla were a close second in the scoring, for Ochiltree county.

"Living at home and boarding at the same place" could easily be taken as the motto of the Centennial home and farm demonstrators. Contestants were limited by the rules, which required the home and farm to be adjacent to the highway.

Points on which the contestants were scored were: the buildings and equipment, the grounds, the soil and its management, the crops or land use. Live stock and the family food supply came in for serious consideration.

The district agricultural agent and district home demonstration agent will select the district winners from the county winners. State winners will be selected from among the first place winners in the districts. There will be five prizes offered in each district, and nine state prizes. All prizes are cash. First prize in the district is \$75.00; first for the state \$250.00.

SIX DAY RAIN TOTALS OVER FOUR INCHES

Slow Easy Downpour Soaks Ground
Giving Best Season for Row
Crops in Many Years

General Over Southwest

Assures Fair Yield of Wheat Over
Part of Trade Territory Ad-
jacent to Perryton

"The best rain in many years" is what everyone has to say about the wonderful downpour of the past six days. Hope has been rekindled in the breasts of many who had commenced to wonder if the drought that has afflicted the Southwest for several years would ever end. But the rain did come and now Panhandle-Plains people have taken a new lease on life and are making preparations for the planting of the biggest feed crop ever known in the Southwest. The first rain fell in Perryton last Friday and the precipitation up until Wednesday at 6:00 p. m. totalled 4.16 inches.

The rain came down slowly and practically every drop soaked into the ground. Here is how the rain measured in the official gauge kept by Attorney Jack R. Allen:

Friday, May 22	.02
Saturday, May 23	.90
Sunday, May 24	2.43
Monday, May 25	.40
Tuesday, May 26	.09
Wednesday, May 27	.24

Total 4.16

The rainfall of the past six days added to the .73 inch that fell on May 7, 10 and 20, makes a total of 4.89 for the month. The rains were general over the Southwest. Liberal, Kansas, received over six inches. Boise City, Oklahoma, and South-eastern Colorado received very little moisture. The Dalhart country got about an inch. With these exceptions, the entire Southwest got a glorious soaking.

Prospects for a wheat yield in some parts of the Perryton trade territory are now much brighter. The extreme south part of Ochiltree county will make a good crop, as will the Farnsworth country, and there are a number of good fields in the northwest part of the county, as well as fair prospects in other portions.

MEMORIAL SER- VICES BETHENY

PEOPLE OF BETHENY COMMU-
NITY WILL OBSERVE MEMO-
RIAL DAY ON SUNDAY AT
SCHOOLHOUSE

W. C. Bryan of this city who has been president of the Betheny Cemetery Association for many years, announces that the people of that community will hold their Memorial Day services on Sunday afternoon.

As usual, the services will be held in the Betheny school at two-thirty in the afternoon, after which the people will proceed to the cemetery, located just a short distance west of the schoolhouse.

The Memorial Day services at Betheny are of much interest to many Perryton people as dozens of citizens of this city at one time resided in that community and have many relatives and friends buried there.

Miss Gaynell Smith, who has been visiting with her aunt, Mrs. B. B. Lee, will return to her home in Lockney Saturday. Mr. and Mrs. Lee and sons will take her and Mrs. Lee and the boys will visit with relatives there for two weeks.

Let the Modern Phaethons Beware

Down thru the ages with the **SPEED DEMON**

The speed demon has always existed in one form or another. Greek mythology is the story of how Phaethon drove his father's chariot. Perhaps the earliest example of what can happen when people drive a vehicle so fast that it gets beyond their ability to control it. It will be remembered that Phaethon wished the power that Apollo, the God of the Sun, was his father, and for his speed, sought to persuade his father to let him drive the chariot. Apollo finally consented with reluctance, and after many warnings and instructions, the boy set out. Then Phaethon lost control of the fiery horses and set the world on fire. Phaethon had to toss a thunderbolt at Phaethon to stop him.

This myth is strangely modern. People are warned today about the dangers of speed. But many drivers try to set the world on fire by their speed, just as Phaethon did.

When the horse and buggy cluttered up the streets, the speed demon was in evidence. Usually the horse made up for any deficiency in the judgment of the driver. Then, when the bicycle came along, it was a good imitation of how a human being tried to overcome the force of wind resistance. In the early days of the automobile, loud complaints were made about the dangers of a speed of five or ten miles an hour.

The public today may be inclined to poke fun at the earlier examples of the speed demon, but perhaps the present age will be laughed at in some distant day because of the way many rush about in cars.

Last year the rate of death per accident which involved exceeding the speed limit was 35 per cent worse than the average death rate for all accidents due to improper driving practices. A word to the wise is sufficient. It has been said that if everybody would drive about 20 per cent slower a lot of the national oversupply of automobile accidents would be reduced.

Erosion Control Proof

Comparative Tests Show Great Value of Contour Treatment Following Panhandle Rains

There was a considerable difference in moisture penetration following the rain of about two inches near Memphis, Texas, on April 26, 1936. Tests were made on terraced and pasture furrowed land on the Soil Conservation ECW camp area and compared with untreated land.

On the pasture of G. W. Sexauer, rancher and farmer west of Memphis, a two inch rain wet the soil to a depth of twenty-four inches in and near the contour furrows. The rain penetrated to a depth of ten to twelve inches on a portion of the pasture that has not been furrowed.

On the F. A. Finch ranch, also west of Memphis, moisture was found to a depth of three and one-half feet in and near the pasture furrows while eight feet above the furrows moisture penetrated to only 14 inches.

W. P. Rogers, who had contour listed some of his terraced row crop land before the rain had moisture to an average depth of twenty-five inches, while on similar adjoining land farmed in straight rows the soil was wet to a depth of sixteen inches.

J. H. Scoggins had moisture to a depth of twenty-three inches on terraced and contour listed row crop land and on an adjoining field farmed in straight rows the depth of the moisture was eighteen inches.

The Perryton area in tests made May 12, following an estimated 3 inch rain on May 7, followed by 1 1/2 inch rain on May 11, show that moisture penetration at furrows on contoured pasture was more than

36 inches. Four feet above the furrow the moisture penetrated to a depth of eight inches; four feet below the furrow the penetration was five inches and 34 feet from furrows penetration was only three inches.

Many farmers and ranchers in this area are contouring now and those who have on their contour furrows lighted with the result.

WILLING WORKERS CLUB

Jakie Jackson, Reporter

"A dress should be made to im- prove your looks," said Miss Marie Ludwig, home demonstration agent, at the Willing Workers 4-H Club held in the W. L. Herndon home, Thursday, May 21.

When making a dress, trim it so it will make your best features more noticeable. Get a color that be- comes you. Choose your clothes and make them so that you will look well groomed.

During the business session of the meeting, the club discussed several different ways by which they could earn money. Nothing definite was decided.

Refreshments were served to Misses Lila Jackson, Jackie Calli- ham, Bonnie Dell Harblson, Jakie Jackson, Marie Ludwig and the hostess, Mrs. Herndon.

After paying the disabled veterans for making these poppies, the local unit will have approximately \$60.00 for relief work among needy veterans and their families.

Members of the American Legion Auxiliary wish to take this means of expressing thanks to every one who cooperated in making this sale a success. Realizing the scarcity of money, they especially appreciate the liberality of those buying a poppy.

El Paso May 26.—While economic conditions are uppermost in the minds of legislators, slashing taxes to the bone at the present time, like closing the barn door after the stock is gone, according to Clint Small, He referred to assistance payments amounting to a deficit of \$12,000,000 in 1934, which must be met by the state.

Future now appears free from demands for spending of "emergency money," he said. "Although there has been no reckless excess in Texas, as compared with other states and by the government, drought and unemployment compelled the legislators to expend bills that otherwise would have been in vain."

Legislators are improving. The people are gradually becoming conscious that the state funds work on both rich and poor. The money must be used.

He reminded taxpayers of a overwhelming vote for the pension amendment, the expense of not less than \$100,000,000 to be paid annually. The burden, he declared, is only strict economy in the operations of the government but a new revenue to pay the pension clamor of the state.

The oil industry can bear taxation to relieve the state treasury," Small said. "It would be unable to compete in other states to close its doors and the goose that lays the egg for that much labor."

Mr. Senator Small has proposed to increase the tax on oil to 10 percent on all natural resources and corporate interests. Research a bill, he announced, but \$8,000,000.

For an income tax or a sales tax is the only other way," he said. "A state in implementing the federal revenue act, seems to be unable to all classes in the field of necessity hit a varied group."

He suggests a tax similar to one on gasoline, cigars and wine—to which he complained. Small but on still other non-essential pay the pensions and deficit.
