Results have been excellent in killing the grasshoppers with this poison and Timmons urges every farmer who has grasshoppers to use this bait now and not only keep grasshoppers from eating up his wheat now but avoid a serious infestation in the spring.

Grasshoppers have been quite destructive to grass land and field crops during the past year. Government spraying operations during the summer did an effective job of killing grasshoppers in this area, but on October 5-6 a new wave of migratory grasshoppers lit in this vicinity, bringing up another problem of control.

Smith Service Formal Opening Set Saturday

Hundreds of guests are expected to attend the gala grand opening of Smith's new service station at 1006 South Main, on Saturday, Oct. 22.

Highlight of the event will be the awarding of a set of four Goodyear nylon white wall tires to some lucky person at the drawing at 8 p. m. Saturday, Harley Smith, owner said.

Favors of potted ivy plants will be available for all ladies, household oil and lighter fluid for the men and suckers, balloons and yoyos will be given to all children.

The new station features the complete line of Sinclair petroleum products, Goodyear tires, tubes and batteries plus many other accessories for the automobile.

Sinclair officials are trying to route one of the big blimp-type balloons to Perryton for the big day, however, final confirmation has not been received, Smith pointed out.

Ticket Sale for Lion Club Show Opens This Week

Ticket sales are booming for the big Lions Club "Parade of Quartets" scheduled on Thursday, November 17 at the school auditorium, according to W. H. Lance, president.

Giltner LaMaster has been named advance ticket sales chairman and every member of the local club has tickets available for the big-time entertainment.

The "Parade of Quartets" features the international champions, The Four Hearsemen, winners of the 1955 barber shop singing event. Two other popular Amarillo SPEBSQSA quartets are also on the program, the Cheer-

Survey Reveals Dental Defects In Half of Pupils

Half of the youngsters who went through the school health clinic last week have defective teeth.

This was the somewhat startling result of the clinic which also saw the examination of children for skin, eyes, ears, nose, throat, lungs, heart, and pulse rate.

There were 546 children examined. Of this number, there were 272 with dental defects, including cavities, malformed teeth, and other defects.

Examining dentists remarked that they saw dental defects which they had seen a year ago, when the clinic was held, indicating that parents are doing nothing about having their children's teeth repaired.

There were 58 of the 546 youngsters with diseased or enlarged tonsils, affecting their health.

Other disorders were few in number. There were two with skin diseases, two with ear defects, four with heart defects, and three who were seriously overweight.

The health clinic was sponsored by the Perryton Parent-Teachers Association.

Dental defects were broken down as follows: 1st—32 of 97; 2nd—58 of 129; 3rd—72 of 133;

Two Locations East of Town For Texas Co.

The Texas Company has staked two wells east of Perryton, both near the area where Woodson Oil Co. has found gas and oil in two tries. Both Texas Co. wells are on land owned by Julius Pshigoda.

One is to be located in Sec. 841, H&TC Survey, about six miles southeast of Perryton. This location is about a mile south of the Texas Co. Cutter well which was completed for 28,000,000 feet of gas last week.

The other new Texas Co. location is in Sec. 1007, H&TC Survey, about a mile and a half north and east of the Cutter well.

Both of these locations are approximately three miles east of the Woodson 1-A and 1-B Perry units.

In other county wells, the Magnolia Petroleum No. 1 George-Mounts, located in Sec. 55, Blk. 11, Ahrenbeck Survey, about six miles north of Perryton, had a show of gas and has set casing in the lower Morrow sand, 7,955 feet. Testing is continuing.

The Union Oil No. 1 Russell, in Sec. 3, Sub. 1, C. Zimines survey, swabbed 270,000 feet of gas at 8651-58 feet. This well is located about four miles due south of Farnsworth.

Other wells being drilled are the Machris Harbaugh, 26 miles south of Perryton; the National Associated Petroleum Co. R. H. Holland, located about 18 miles northwest of town; the Union Oil No. 1 Buckhaults, located about five miles south of Farnsworth; and the Parnell well in Sec. 494, H&TC Survey, on Wolf Creek.

'Scotch' Tourney Planned Sunday By Country Club

A "Scotch Foursome" tournament will be staged Sunday afternoon at the local course by the Perryton Country Club, with prizes of wood covers and golf balls provided for the winners.

The turnament will be medal play, with partners competing with one ball between them. Each partner may hit a tee shot to begin with, then they select one ball which they will use the rest of the round. Partners hit the ball on alternate strokes until it is holed out.

The tournament committee has set a score of 86 as a minimum combined score of the two players. In selecting a partner for this tournament, players must pick one whose posted score added to his will total 86 or more.

This eliminates the prospect of two low score golfers playing the dubbers.

The entry fee is 50 cents per person and the tee off time is 1 p. m.

The following scores will be used in pairing:

36—McClung, Ferguson; 37—Gray; 38—Leatherman; 39—Burwell, Turner, Burk, Pyles, Hoots, Don Ellis, Faries.

40—Talley, Aldon Bell, Rogers, Redfern, Ashley, A. C. Witt, Holland; 41—Jines, Harvill, Roy

Rangers Meet Dalhart Friday In Third Conference Contest

Two Fire Calls During Week

Firemen answered two calls this week, neither one very serious.

On Monday afternoon, fire broke out in the smokehouse at the rear of The Food Bank. Owner Rufus Bolerjack said accumulated grease along the ceiling caught fire and the roof smouldered for about an hour before things were brought under control.

Damage was slight to the building, but Bolerjack lost some "over-smoked" bacon.

On Tuesday afternoon fire broke out in the attic of the Oren Gatewood home, 209 S. Colgate. A penny in the fuse box was blamed for overheated wiring which smoked up the house and attic before being stopped. The house is being remodeled and the family has moved out until the work is completed. No clue was found as to who put the penny in the fuse box.

Bank Deposits Show Decrease

Bank deposits in Perryton showed a slight decrease from the previous call on June 30. On October 5 Perryton deposits totaled $7,501,306.91 as compared with $7,584,763.84 on June 30.

The First National Bank had on deposit on Oct. 5 $5,403,047.27 and the Perryton National Bank had $2,098,259.64.

Loans and discounts of the two institutions rose from $3,575,554.65 on June 30 to $3,940,792.06 on October 5.

Borger Vicar Is Guest Speaker at PTA Meeting

Another record-breaking crowd is expected for the second Parent-Teachers Association meeting at 8 p. m. Monday, Oct. 24 to hear Rev. Walter E. Hoskin, Vicar of St. Peter's Episcopal Church in Borger, Mrs. Clifton L. Bell, president announced.

Mrs. Max W. Boyer, program chairman, also revealed that a special chorus from the elementary grades would be presented in concert by Mrs. Vera Keller, music instructor.

Rev. Hoskin received his education at Baldwin-Wallace College, and Bexley Hall, the Seminary of Kenyon College in Ohio. He spent the first years of his ministry in Ohio and then moved to West Virginia where he was Youth Director for the Diocese of West Virginia for five years.

The Vicar moved to Borger on July 1, 1953 and besides being pastor of the St. Peter's Church, he also acts as Youth Advisor

Annual Boy Scout Drive Opens In Perryton On October 25

The annual Boy Scout fund drive will open in Perryton with a kickoff breakfast for team captains and workers in the Hotel Coffee Shop Tuesday morning at 7 o'clock.

J. B. Whigham, general solicitations chairman, will preside at the meeting. Team captains are Dean McCutcheon, Gordon Shacelford, Gilbert Mize, Max McLarty, Walter LaMaster and Troy Sullivan.

About 40 workers will attend the breakfast.

The advance gifts committee, headed by Vance Apple, has been working this week and will complete this stage of the campaign by Thursday, Oct. 20.

Sidney Jines is general chairman for "Operation Greenback," which will open in the 35 communities of the Adobe Walls Council on Oct. 25. Goal for the council is $12,000 for the 35 communities.

Other chairmen for the local drive include Max W. Boyer, arrangements; Jack M. Allen, prospect and rating; Vance Apple, advance gifts; Harold Hudson, publicity.

A goal being followed by the solicitation workers is to secure as many $12 contributions as possible, since it takes this amount to keep a boy in Scouting for a year.

New District 3-AA Is Organized At Childress Meeting

The organizational meeting for the new District 3-AA was held in Childress Tuesday afternoon, when the rules and regulations for play in the five member district were set up.

Supt. Gilbert Mize and coach Pete Peterson represnted Perryton at the meeting, which also included coaches and superintendents from Childress, Quanah, Wellington and Shamrock.

It was decided that the proceeds from the sale of all reserved seats would be split between the two schools for each game, and that all other gate receipts would be shared equally.

In determining a district football champion, tie games will count as one-half game won and one-half game lost. In the event two teams are tied at the end of the season, the team that beat the other will represent the district and they will be co-champions. If the two teams tied in regular season play, they will flip a coin.

The district schedule was drawn up for 1956, and the Rangers got an even break, playing Childress and Shamrock away from home, meeting Quanah and Wellington in Perryton.

The district schedule is: Oct. 19—Quanah, Here; Oct. 28—Childress, There; Nov. 2—Wellington, Here; Nov. 9—Open; Nov. 16—Shamrock, There.

Newell Odell of Childress was named district chairman.

Three Dealers Show Plymouth Here Friday

Plymouth's new aerodynamic 1956 cars will be displayed by Perryton dealers beginning Friday, October 21.

They will be shown in Perryton at the Hobbs Motor Co., Chrysler-Plymouth dealers; Holdeman Motor Co., DeSoto-Plymouth dealers; and Littau Motor Co., Dodge-Plymouth dealers.

The new Plymouth incorporates major advances in every phase of automobile design, with special emphasis on engine performance, safety and aerodynamic styling.

Plymouth has a wholly new engine for 1956. It is a Hy-Fire V-8 with 277 cubic inch displacement and a 8 to 1 compression ratio.

Other major innovations include airfoil rear fenders; push button drive selector; improved Powerflite; new safety door latches; new 12-volt electrical system; new pull-type door handles; and Highway Hi-Fi, a new car phonograph providing an hour of uninterrupted entertainment and new Search-Tune radio.

Plymouth will continue to of-

Locals Rated Favorites In District Clash

The Rangers will be mild favorites in their third conference game at Ranger Field Friday night when they entertain the Dalhart Wolves. Dalhart has a season record of two wins, three losses, the latest loss being a 62-0 trouncing from the Phillips Blackhawks.

Perryton holds an edge over Dalhart in reecnt years. They won in 1953 and last year had a 40-6 victory. Dalhart this year lost to Lefors, 20-0; beat Guymon, 12-0; trimmed Clayton 27-19; lost to Springlake, 32-13; and to Phillips, 62-0.

Bob Gray is the spark of the Wolves and fullback Larry Womble furnishes much of the offensive power. These are two of the six regulars who returned from the 1954 team. Others are linemen Ronnie Hammett, tackle Bill Cassio, center Norm Bradley, and halfback Kenneth Meeks.

The Wolves will outweigh the Rangers in the line, tilting the scales at 171 pounds per man. In the backfield, they average 162 pounds per man.

Ranger prospects received a jolt Monday when Bill Jines, the middle man on defense and an chisel through his left hand outstanding blocker, ran a wood while in manual training class. The chisel went completely through his hand.

Other Ranger cripples are rounding into shape. Dempsey Gyger, Charles Bulls and Dan Pearson are all limping, but are expected to be ready to go Friday night. Jimmy Todd is in the best shape since the start of the season and of course this gives hte Rangers a ground game hard to stop.

Game time is 8 p. m. The bands from both schools will be on hand for a half time demonstration and a large crowd from Dalhart is expected.

Veteran Groups Will Finish Seats For Wrestling

All members of the VFW and American Legion posts are asked to report to the Veterans Memorial Building Sunday afternoon at 1:30 o'clock ot work on the bleachers for the wrestling matches.

Each member is asked to bring a hammer.

Some of the bleachers have been moved into the main auditorium and it is planned to get the rest of the seating in place Sunday.

Plans are made for a wrestling card to be presented every other Friday night in the Veterans Memorial Building under the joint sponsorship of the VFW and American Legion.

Date for the first bouts will depend upon when the bleachers and ring are put in place.

Perryton will be on a wrestling circuit with Borger, Pampa, Midland, Odessa and otnet cities of the Panhandle and South Plains.

Bridge Benefit For Teen Town

A bridge benefit for Teen Town will be held Saturday night in the Gaither building on Main street, sponsored by the Beta Phi chapter and Xi Lambda chapter of Beta Sigma Phi sorority.

Pitch will be played by those who do not play bridge, and free pie and coffee will be served. A door prize will be given as well as prizes for high scores.

Admission will be 75 cents per person.

The committee from the Beta Phi chapter includes Mart Bennett, Helen Wood, Kathleen Lee, June Osborne, Phyllis Monroe, and Peggy Whigham. The Xi Lambda committee is composed of Alta McGarraugh, Mabel Halsey, Mary Jane Luthi, Doris Chase, Yvonne Rogers, Louise Wright, Gwen Wade, Lorene Richardson, Polly Heil and Lena Mae Brillhart.

LOTS OF ENSILAGE—Approximately 1,000 tons of ensilage are packed in these two silos at the L. R. Conner farm at Farnsworth. The ensilage was cut from an irrigated field and made about 20-tons per acre. It was packed in these upright silos and will be used for livestock feed this winter.

Quick Tricks for Home Decorator

By DOROTHY ROE
Associated Press Women's Editor

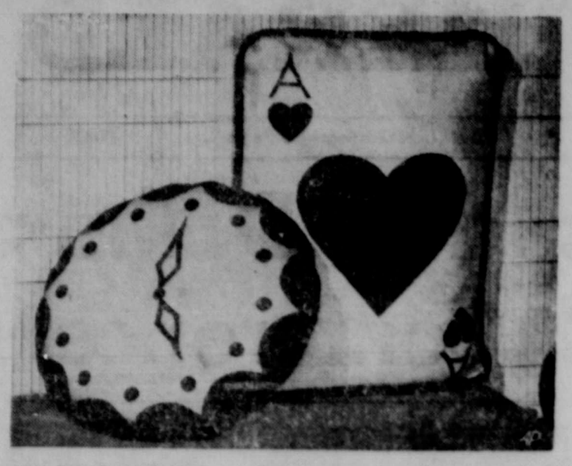

Gay, original color accents are no headache for the busy gal who is her own home decorator.

Bright pillows tossed on the couch add unexpected vitality to a monotone color scheme. Local sewing center experts suggest a variety of sizes, shapes and designs, with amusing felt covers over foam rubber. A standard pattern includes transfer designs for the covers and directions for making the cushions as well.

Felt is ideal for a project like this. Even a beginner seamstress will be able to do a perfect applique job, since felt requires no hemming. One bright idea is a round black felt pillow with a bright yellow clock face. The other side is in reverse combination. Another white felt pillow has a red Ace of Hearts on one side, a black Ace of Spades on the other.

The applique designs are easy to attach if you use the automatic zigzagger on your sewing machine, setting it for a narrow satin stitch. Cut out your designs an inch larger all the way around, stitch along the transfer lines and trim away extra fabric close to the line of stitching. All pillow covers zip on and off, and the zipper foot attachment for your machine will help you do a neat job of zipper insertion.

Also included in the parttern envelope are directions for a daisy, a rose, a compass. Chinese money and a flanged square. Pick your color scheme, pick your design and use your imagination—decorate a couch, a small stool or even hang the pillows on the wall of a rumpus room, for use during sitting-on-the floor parties.

Journalism and Speech Day is Set at Tech

LUBBOCK — The 1955 Speech and Journalism Activities Day at Texas Tech will be held Saturday, November 19, on the Tech campus.

Co-directing the day's program, which is expected to attract approximately 300 West Texas high school youngsters, will be Dr. P. Merville Larson, speech department head, and Dr. William E. Hall, journalism department head. The two groups will meet separately.

Dr. Larson announced that demonstrations by volunteer high school students would be given in debate, extemporaneous speaking, senior and junior declamation and poetry reading. The demonstrations will be followed by discussion and criticism.

Highlights of the journalism program, according to Dr. Hall, will be an exploration of career opportunities in journalism by a panel of professionals. Panelists will include representatives from the daily and weekly newspaper fields, magazine journalism, advertising, public relations, radio and television.

Following the morning-long program and a luncheon, the students and their sponsors will be guests of Texas Tech at the Tech-College of Pacific football game.

Phony Medical Cures Cost U. S. Citizens Millions

No one knows how many millions of dollars Americans donate each year to perpetuate the institution of medical quackery, say the editors of **Changing Times, The Kiplinger Magazine.** Nor is it known how many persons sacrifice their well-being and even their lives in a mad gamble for an easy, painless way to health.

Quackery is good business. In the cancer field alone, it is estimated that $10,000,000 goes annually to quacks. Self-styled "curers" of diabetes, arthritis and other incurable diseases take millions more. Diabetics living normal lives with the aid of insulin throw away their needles, take promising nostrums instead, and die in comas. Cancer victims forego lifesaving surgery and pin their faith on useless pills. Sufferers from arthritis pay high prices for pills they could buy cheaply under the familiar label, aspirin. Most drugs now offered for internal use are not in themselves dangerous, but hazardous in that they keep the gullible from seeking competent medical advic.

The age of electronics has given buzzing short-wave radio transmitters, numerous dials, flashing lights and mysterious radiations to the medical device racket. Fancy or primitive, no one is ever cured by phony treatment machines or costly bottles of worthless pills. To avoid being taken in by the quacks, **Changing Times** offers these ways to protect yourself:

Ask your family doctor about the product, device or treatment. Be wary of anyone in the healing arts who advertises his product or services or who refuses or discourages consultations. Be wary of any promoter of a medical product or service who claims he is being "persecuted" by the medical profession. Don't fall for anything that promises to cure cancer, diabetes, arthritis or any serious condition. Don't be taken in by testimonials from grateful patients for the quack's "cured" patients often have only his word that they had the disease in the first place.

Pencil makers report that life expectancy of their product has increased until a 7-inch pencil can be sharpened 17 times and write 45,000 words.

1956 PONTIAC 870 FOUR-DOOR SEDAN MORE POWERFUL — The popular Pontiac 870 four-door sedan offers more power and higher performance in 1956 with its bigger 205 h.p. Strato-Streak V-8 engine, and an improved Hydra-Matic transmission that gives smooth economical performance. Displacement of the 1956 Strato-Streak V-8 has been increased to 316.6 cubic inches and compression raised to 8.9:1. Exciting new colors in "Vogue" two-toning, sumptuous interiors and new styling features add new beauty to the four-door sedans, available in all three series.

Farm Bureau Meeting Set In Ft. Worth

FT. WORTH—Some 1,500 Farm Bureau members, including nearly 500 official voting delegates, will convene here Nov. 7-9 at the Hotel Texas for the 22nd annual meeting of the Texas Farm Bureau.

Vital state and national issues affecting agriculture, such as water legislation, price supports, acreage controls, rural roads and taxes, are expected to come before the voting delegats. State policies to guide the state farm organization through 1956 and recommendations to the American Farm Bureau on national issues will be adopted by the delegates.

Three distinguished nationally known speakers will address the convention. Senator Clinton P. Anderson of New Mexico, former Secretary of Agriculture and now chairman of the Joint Committee on Atomic Energy; and American Farm Bureau President Charles B. Shuman will speak at the afternoon session, Tuesday, Nov. 8. Senator Albert Gore of Tennessee, chairman of the Public Roads Subcommittee of the Senate Public Works Committee, will be banquet speaker that evening.

Registration will begin at 3 p. m. Sunday, Nov. 6, in the lobby of the Hotel Texas. Vesper services will be at 7:30 that evening.

An open session on resolutions will be held the next morning, Nov. 7, and special conferences will be that afternoon. Conferences will be held on poultry, livestock, field crops, dairy, soil and water, rural health and Blue Cross, farm safety and rural education, labor, wheat, cotton, peanuts and rice.

Counties with outstanding accomplishments in organization work will be presented awards and certificates during recognition ceremonies starting at 7:30 Monday evening. One of the main attractions of the meeting, the state finals of the Texas Farm Bureau queen contest, will be reeled off beginning at 8:30 p. m. Queen candidates from all 13 Farm Bureau districts will compete for the coveted title of queen. "Farm Bureau Roundup" announcer, Goodson McKee of Waco, will act as master of ceremonies for the contest.

CUTIE IN SHEEP'S CLOTHING—This Texas miss is Miss Wool of 1956. She's Jan Tubeville, a senior at the University of Texas, who has been chosen to represent the wool industry. Jan's duties will be to model her $4,000 all-wool wardrobe in the nation's fashion centers. The coronation gown is an all-wool white crepe embroidered with crystal beads and rhinestones, and to keep in tune with the theme, the gloves are white kid. (AP Photo)

Whistle Weakens

JACKSONVILLE, Fla. (AP)—Big Jim the city whistle that sounds each day at 7 a. m., noon, 1 p. m. and 5 is going to be a little weaker.

Reason is that oil costs have gone up. Oil is used for fuel to make the steam that blows the whistle and the city is going to cut down on the steam.

It takes about $12,000 a year just to blow Big Jim.

In 318 relief programs last year, the American Red Cross gave emergency help to 62,000 families and long term aid to 7,100 families.

Back Again

NORFOLK, Va. (AP) — M.Sgt. Margaret Robertson of the Marines spent her 60-day leave and a good part of her savings touring Europe. She returned to the Fleet Marine Force here and found orders to report for duty with Allied forces in Southern Europe.

Hard Headed Victim

LAKELAND, Fla. (AP)—A .45 caliber bullet smacked H. D. Van Sickler in the head but didn't do much more than make him angry.

Police said apparently the pellet was hurled from a slingshot rather than fired from a pistol. Van Sickler was treated for a minor laceration.

Iraq is developing an industry which will make sugar from dates.

Range 4-H Club Has Meeting

"A good characteristic to remember in judging beef cattle is to see if the animal is low on the ground," said Delbert Timmons, county agent, at the meeting of the Range 4-H Club Tuesday afternoon in the home of Gary Smith.

Knowing grasses, like knowing livestock, is a great fundamental in successful range management, Timmons pointed out. He took the boys on a tour of the pasture

Present for the meeting were grasses.

The annual FFA box supper will be held Friday night, Oct. 21 in the Balko school gymnasium. Some slides of the boys activities wil be shown and the FFA Queen will be crowned.

Ranger B Team To Dalhart

The Ranger B team will go to Dalhart to meet the Dalhart B team.

Perryton holds a 3-1 season record, having beaten Borger, Canadian, and White Deer while losing a 13-7 decision to Borger.

Last week the Ranger B team smashed out a 25-6 victory over White Deer. Bill Apple and Keith Shaffer each scored two touchdowns in the victory.

Juniors Trim Liberal Tuesday

The Perryton junior high football team won their second game of the year by taking a 13-0 decision from Liberal Papooses Tuesday night at Ranger Field.

The Perryton juniors scored early in the game, and held a 13-0 lead at halftime.

Tommy Ellzey, Perryton fullback smashed over guard from seven yards out for the initial touchdown and Rickey Shaffer attempted to run the extra point, but failed.

In the second quarter Shaffer circled right end for 12 yards and a touchdown and Ellzey added the extra point on a plunge over tackle.

Coach Joe Champion used his entire 50-man squad in the game, alternating by teams and as individuals. Liberal threatened late in the game when they drove to the three-yard line against the Perryton sixth grade team, but the locals held off the scoring threat.

Illegal Bathtubs?

ANDERSON, S. C. (AP)—Bootleggers hereabouts have a new gimmick that presents a nice legal question for officers.

Sheriff Clint McClain reports that some of the dealers in illegal booze empty a case at the time into a big stew pot, and put the pot in a bathtub in their homes.

Comes a customer, the bootlegger ladles up the purchase. Comes the law—and adequate warning—the bootlegger tips over the stew pot and the liquor gurgles down the drain, sometimes chased with a dash of disinfectant to kill thes mell.

State law says the liquor and the container must be confiscated. McClain figures he'll have to get a ruling from the attorney general on whether to haul in the tubs, too.

A typical American family spends 15 per cent of its food budget for milk and milk products which provide 30 per cent of the family's nutritional needs.

Tech Homecoming Set November 5

LUBBOCK—The most extensive Homecoming program in Texas Tech history is being planned for alumni who return November 4-5 for the 28th celebration of the event.

Two Homecoming dances, one for students and one for alumni, have been scheduled for November 5 to accomodate expected record-breaking attendances, according to L. C. Walker, executive secretary of the Tech Ex-Students Association.

Another new feature of this year's program will be an alumni-faculty reunion in the Student Union the afternoon of November 4, Walker said.

Class reunions will be staged that night following the student-planned Homecoming Queen coronation, pep rally and bonfire.

A series of both off and on-campus open house will precede the Homecoming parade, November 5, with the alumni to be feted at a buffet luncheon in the gymnasium. The traditional Homecoming luncheon is provided by the Lubbock Auto Co., Texas - New Mexico - Oklahoma Coaches, Furr Foods, Inc., and Dunlap's.

Tech's Red Raiders will meet the University of Arizona Wildcats at 2 p. m. in the annual Homecoming gridiron event.

AD-A-LINE

by Paul Loftin

J. W. Putman has moved into his new building at about 812 South Main. That puts the Olds agency in new quarters two full months ahead of schedule. Putman thought that January 1 would be moving day when he started his new building.

Thanks for calling about a house for Arlen Rogers, the Woodson Oil employee that is now making Perryton his home. The Adman understands that he's still looking, so if you have something to rent why not get in touch with one of the real estate men in Perryton and they will contact Rogers. Thanks very much.

Bill Sanders of Hurn's may have a good suggestion. He thinks that Ranger football fans should band together and charter a bus from J. H. Brashears for the Quanah and Childress games next year. That is if they are both scheduled away from Perryton.

A young Wolf Creek rancher is a favorite of The Herald. He spent some years overseas in WWII and learned to appreciate The Herald and now every year he comes in with a handful of money and says: "Send as many Heralds as you can to boys in the service." That's a right nice old-fashioned spirit, bless him.

As predicted five weeks ago, the Adman's football forecasting hit a snag last week, four of 'em to be exact, Texas A&M, SMU, Arkansas, and Michigan State. After the smoke cleared away the record for last week was a very low-grade result, won 5, lost 4 and tied one.

See the Rangers Friday Nite!

However, the season average on guessing is a rather encouraging total, won 53, lost 10, tied 5.

This week the Adman hopes to stage a comeback and picks Perryton over Dalhart by four TDS, Phillips over open date, never heard of that team but they'll win; Canyon over Shamrock and Dumas over Hereford.

See the Rangers Friday Nite!

Arkansas over Mississippi, us Baptist and Baylor over upstart Texas A&M, Rice over Texas, SMU over Kansas by five TDs, TCU by a single point over rough Miami, Notre Dame over Purdue, Oklahoma over Colorado, Texas Tech over Houston and West Texas State over another bunch of Baptist from Hardin Simmons.

Gets $400 Fine And Thirty Days

T. C. Morton of Perryton was fined $400 and sentenced to 30 days in jail after pleading guilty in county court Saturday to a charge of possession of liquor for sale.

He was arrested Friday night on North Main by city policeman Les Crain and deputy sheriff Luther Daves. A pint of whiskey was confiscated.

Morton was taken to Stinnett by Deputy Daves Tuesday afternoon to serve out the jail sentence.

Teachers Wanted

CHARLESTON, W. Va. (AP)—Soon after the State Chamber of Commerce pooh-poohed the West Virginia teacher shortage in a bulletin to members, Managing Director Harry A. Stansbury received a letter.

Wetzel County School Supt. S. R. Wood wrote facetiously asking if Stansbury could supply him with: a band instructor, an athletic coach, two librarians, a manual arts teacher, and a home economics teacher.

Rev. Eckel to Speak Oct. 26 In Local Church

Rev. W. A. Eckel, veteran missionary to Japan, will be the special speaker in a missions rally to be held Wednesday night, October 26, at the Church of the Nazarene, Fifth at S. Amherst, in Perryton, according to an announcement by J. Reynolds Russell, pastor. The meeting will begin at 7:30 p. m.

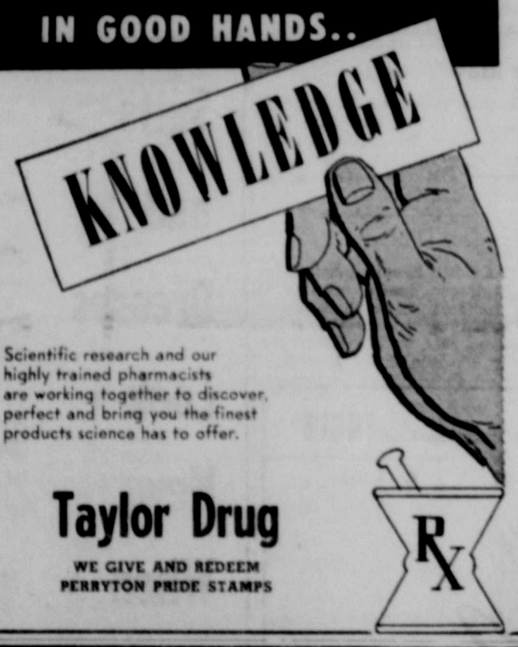

The Rev. Mr. Eckel went to Japan in 1916, under the auspices of the Nazarene Church to serve as superintendent of the work there. At the time of the outbreak of World War II, he was recalled to the United States, where he served for a number of years as superintendent of the Rocky Mountain District of that denomination. He returned to Japan in 1947 and has done a remarkable job of rebuilding mission stations and other missionary interests there.

Accompanying the Rev. Mr. Eckel here will be Rev. Orville W. Jenkins, Superintendent of the Abilene District of the Church of the Nazarene. The meeting is open to the public.

'56 Chevrolet sets new Pikes Peak record in top-secret test!

Not long ago a hush-hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR* certified record—the first time that old King of the Mountain has seen a new official stock car record in years! And what a road! 170 chilling turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction! The '56 Chevrolet showed the kind of performance that makes driving safer and more fun. So wait for the car that beat the King of the Mountains!

Mr. McFadden reminded motorists that although less driving is done in the hours of twilight, darkness and dawn than is done in daylight, the number of people killed in traffic accidents during those hours exceeds the number killed in traffic accidents during daylight hours.

"This applies to pedestrians as well as to drivers and passengers in cars," Mr. McFadden said. "According to the National Safety Council, about one out of three walkers killed in traffic during the fall and winter months meet their deaths between the hours of 5 and 8 p. m.

Mr. McFadden cautioned elderly pedestrians especially to use extra viligance if they venture out into traffic in the dark.

"Traffic takes a heavy toll of walkers in the 65 or over age bracket," he said. "In fact, about two our of five pedestrians killed in traffic are from this group."

Hardesty Soldier In Maneuvers

FORT HOOD, Tex.—Army 2d Lt. Billy A. Brown, son of Harry R. Brown, Route 2, Hardesty, Okla., is scheduled to participate in Exercise Sage Brush, the largest Army-Air Force maneuver since World War II.

The two-month exercise will be held in Louisiana starting in November. Some 110,000 Army troops will take part, testing the latest concepts of atomic, bacteriological, chemical and electronic warfare.

Lieutenant Brown, an aviator in the 4th Armored Division's Aviation Company, is regularly stationed at Fort Hood, Tex. He was graduated from Oklahoma A. & M. College in 1954.

Mrs. John Robertson and Tanya of Edwardsvill, Ill. are visiting her sister-in law and family, Mr. and Mrs. Bob Lewis and Howie.

Phyllis Vernon ROTC Candidate

CANYON — Phyllis Vernon, daughter of Mr. and Mrs. Ike Vernon, is one of the thirteen candidates for Honorary Colonel of the college Reserve Officers' Training Corps of West Texas State College. These girls act as sweethearts of the platoons.

Each platoon of the cadet corps has named a candidate, and cadets vote through contribution of pennies to select three of the girls.

Phyllis, a Speech major, is from Perryton.

Mr. and Mrs. Elmer Stauffer; Mr. and Mrs. A. J. Schmidt of Hubbard, Oregon; Mr. and Mrs. Albert Kilmer, Ft. Sumner, New Mexico, visited relatives here over the week end. The two ladies are sisters of Mrs. T. S. Pletcher and Mr. Kilmer is her brother.

WHAT'S THE EXCITEMENT?—When a penny in the fuse box heated the wiring at the Oren Gatewood home, 209 S. Colgate, the fire department and most of the neighbors showed up to see the excitement. Damage was negligible and the Gatewoods haven't found out yet who put the penny in the fuse box. The fire alarm was sounded here Tuesday afternoon.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD

AUSTIN, Tex. —Texas public schools will get state aid this year whether intergrated or segregated.

Right of both to state aid was upheld last week by the Texas Supreme Court. It says the U. S. Supreme Court decision overturns Texas' school segregation laws but does not force immediate integration.

Apparently the court action removed need for a special session of the legislature.

Litigation originated in Big Spring. Suit was brought by the Texas Citizens Council in district court to prevent payment of state funds to mixed schools. High court judges, in effect, upheld District Judge Charlie N. Sullivan's ruling that portions of state law requiring segregation are unconstitutional.

Gov. Allan Shivers was quick to point out that neither the state nor U. S. courts set a deadline for desegregation, but both leave it to local school authorities.

Atty. Gen. John Ben Shepperd, who had sided with the Citizens Council, merely said the decision "settles the law in Texas on a statewide basis." He added that timing will be a "district-by-district matter."

Hospitals Move Forward

A priority list has been set up to use the remaining $10 million in the state hospital building program fund during the next two years.

On the day a new medical and surgical building was dedicated at the Austin State Hospital, the State Board for Hospitals and Special Schools decided on this order for new projects, by cities: Mexia, Wichita Falls, Austin, San Antonio and Abilene.

Two others, one in Austin, one in Harlingen, are under construction now.

Governor Shivers spoke at the dedication of the $1,312,000 medical-surgical hospital in Austin.

Narcotics Hearings Under Way

Texas has been labeled a "national gateway" for illegal narcotics trade from Mexico.

Witnesses so testified before U. S. Sen. Price Daniel's subcommitte in Austin.

Depaprtment of Public Safety Director Homer Garrison charged that Mexican authorities are not cooperating with Texas officers in trying to halt the flow of dope across the border. Garrison and W. E. Naylor, chief narcotics agent of the department, testified that 90 per cent of the heroin and 95 per cent of the marijuana reaching Texas or flowing through Texas, came from Mexico.

Daniel invited the Mexican secretary of state and the Mexican representative on the narcotics committee of the United Nations to attend hearings. They did not show up at Austin, however.

Rugs For Retirement

DAKOTA, Ill. (AP)—Frank Bolender, 87, a retired carpenter, says he has found the secret of growing old gracefully.

"If you're going to sit in the corner and twiddle your thumbs, you'll either drive yourself crazy or six feet under," he says.

Bolender retired five years ago. For the first three years, time hung so heavy on his hands, he says, that at times he hardly felt he was "even existing."

Then he started to keep scrapbooks of newspaper clippings on things which interested him and he began to make hooked rugs. When he feels ambitious, Bolender works on a rug from six to seven hours a day. At this rate it takes him four days to finish one.

Darrell Morris Wins Coveted Farmer Degree

Joining Oklahoma's farm-boy hall of fame, Darrell Morris, son of Mr. and Mrs. John Morris of Balko, was one of 16 youths from over the state who were awarded degrees as American Farmer in ceremonies last week during the 28th annual National Future Farmers of America convention in Kansas City.

The 16 young farmers were selected to receive the coveted degree by the national FHA board of directors, on their records in farming, leadership and scholarship.

The degree is limited to members who have been out of high school at least one year and who are showing evidence of becoming successfully established in farming.

Each of the American Farmers from over the United States received a certificate and gold key and $75 check, and will be eligible in selection of three regional winners who will get $500 each. The Star Farmer of America, chosen from these three, will be presented a $1,000 check in ceremonies in Washington, D. C.

Darrell Morris is now 21, and is a student at Panhandle A&M College where he is studying animal husbandry. He plans to return to the farm after completing his college work.

A well-established Angus cattle breeder, he figures his net worth at more than $28,000. He owns 52 head of registered Angus cattle and rents 233 acres of crop land. He has been vice president of his FFA chapter and president of the Panhandle district group.

He has won many prizes at the North Plains Fair since it was organized, and has taken part in the registered Angust cattle sales of this area.

Burger Farm Is Mystery Series

The home of Mr. and Mrs. G. A. Burger, located three miles south and two miles west of Farnsworth, was pictured last week as the Herald Mystery Farm of the Air.

The farm had been pictured in May, 1954, indicating that the aerial photographer who made the pictures was a little bit off on his directions the second time he visited the county.

Mr. and Mrs. Burger have lived on the farm for 30 years and the land was originally owned by Mrs. Burger's grandfather. The land was in native grass until it was plowed during the first World War by Mrs. Burger's grandfather, N. S. Messenger and her father, D. B. Stump.

Mrs. Burger was Miss Viola Stump before their marriage in 1923. They have four children. David lives on the same farm and he and his wife have four children. Mrs. Arlyn Heusinkveld lives in Wichita Kansas and another daughter, LaVerne, lives in Elgin, Ill., where she works for a publishing house. The other daughter, Jean, now Mrs. Eldon Perryton.

Gurley, lives on a farm west of

Mr. and Mrs. Burger have 10 grandchildren.

There are 1600 acres in the Burger farm, including 210 acres in irrigation. They have an 8-inch well which pumps from 440 feet, and which has been in use for two years.

Wheat and grain sorghum are the principal crops, with additional emphasis being placed on en- silage with the use of the tion well. Cattle are o kept for winter pasture.

West Texas State College Will Hold Largest Homecoming Day

CANYON, Ovt. 17, (Special)—West Texas State College's largest student body in history is ready to welcome back to the campus a record-breaking crowd of ex-students for the annual Homecoming celebration Oct. 22. Members of the Class of 1930 will be honored during the day.

Program for Homecoming Day and "Western Days" preceding the celebration has been completed, with the traditional parade, barbecue and football game heading the list of attractions. An assembly, held for the first time last year, will again be featured during the morning.

"Western Days", when students and faculty don western clothes on penalty of being thrown into a tank of cold water, opens Oct. 20 and continues until Homecoming Day. Students get the celebration underway Oct. 19 at the annual Western dance sponsored by Gamma Phi Sorority. On Thursday, Oct. 20, the traditional Homecoming Assembly is slated, and a bonfire and pep rally is to be held Oct. 21.

Exes will begin registering at 8 a. m. in the Administration Building, where they will be given barbecue tickets. A general assembly for students and exes is scheduled at 10:45 a. m., when Luther Roberts, minister of the Gatewood Church of Christ, Borger will be speaker. Roberts is a member of the Class of 1930. Climaxing the assembly will be the crowning of WT's Homecoming Queen.

Campus clubs, organizations and groups will entertain their exes from noon until 3:30 p. m. at teas, smokers and get-togethers. An ex-student band, composed of former members of the Buffalo Band, will be organized for the first time at 1 p. m. at the Band House. The group will lead the Homecoming parade and take part in half-time activities Saturday night.

The annual parade, featuring several bands, riding clubs and floats from the campus and Canyon, will state at 4 p. m. through downtown Canyon. The barbecue will follow at 5:30 p. m., and the football game between the Buffs and Hardin-Simmons is at 8 p. m. Closing the day's events will be a dance at the Student Union Building after the game.

Special recognition will be paid to the Class of 1930, celebrating its silver anniversary. The group will register at Randall Hall beginning at 8 a. m., where they will visit until the general assembly. The class, with faculty who were on campus in 1930, will march together into assembly. A buffet luncheon at Randall has been arranged for the class.

Ochiltree Soil CONSERVATION District News

Mr. Hamilton Murphy, cooperator of the Ochiltree Soil Conservation District, has recently contacted the local SCS for assistance on necessary preliminary land and topographic information for the tentative leveling operation of some 100 acres of his farmland.

A topographic map has at this time been completed by Murphy with the assistance of SCS personnel and staking of cuts and fills will begin in the very near future.

The actual land leveling operation will be done by either a private contractor who has equipment for doing such work or else by the SCD equipment operator with the use of district equipment.

Murphy drilled and developed his present irrigation well sometime during the past summer and had plans to eventually develop more irrigation water to supplement water from the present well.

The present irrigation well is pumping some 700 gallons per minute.

Long range plans are to install underground concrete pipe irrigation system to facilitate more effective distribution of irrigation water pumped to the 100 acres presently under preparation for land leveling and some 60 additional acres which will be leveled when conditions permit.

John Daniel will seed a 6 acre waterway on his farm south of Farnsworth to western wheatgrass sometime within the next few days.

Waterways are prerequisite to the orderly removal of runoff water from diversions constructed on land of this area and should be properly designed, constructed and sodded with perennial grases prior to the construction of such systems of diversions.

Indications are that several waterways are needed throughout the district as is evidenced by gully erosion due to runoff water from the recently past rains.

To those farmers who are interested in the establishment of waterways on their farms it is suggested that they should contact anyone of the board of supervisors of the district or the SCS for such needed assistance as regards to this matter.

Kirk Douglas Star in 'Ulysses'

The story of history's most glorious adventure and most tested and abiding love—a story that has thrilled the world for thousands of years—has been brought to the screen in "Ulysses" which comes to the Ellis Theatre on Sunday and Monday.

Based on Homer's "Odyssey," the might epic stars Kirk Douglas as the great Greek warrior, Silvana Mangano in the dual role of the enchantress Circe and Ulysses's faithful wife Penelope, and Anthony Quinn as Antinous, the most formidable of Penelope's many suitors, with Italian beauty Rossana Podesta in a featured role.

The film was made in Italy and is in Technicolor.

Van Heflin Turns Preacher in Civil War Film

The most unusual story of a most unusual guy, "Count Three and Pray," comes Tuesday-Thursday to the Ellis Theatre, starring Van Heflin.

Van is seen as a woman-chasin', horse-racin', hell-raisin' man who decides he's through with sin, only to learn that sin isn't through with him.

Joanne Woodward, Phil Carey, Raymond Burr and Allison Hayes co-star.

In "Count Three and Pray," Heflin is seen returning to his hate-loaded, Southern town, a Civil War veteran determined to be a parson. Nobody believes in his reformation—least of all the three most notorious women in town: 'Lizzy, the gun-toting orphan who makes the abandoned parsonage her home even after Luke moves in; Georgina, the whip-wielding town aristocrat, and Selma who runs the local gambling hall. Burr, a man of vicious influence in the village, also does what he can to create trouble for the new parson but Heflin manages to build a church with lumber he wins in a Sunday horse race, and a congregation.

Van Heflin turns in an exceptional performance, topping even his "Shane" and "Battle Cry" triumphs, as the roisterer turned preacher who fights for his right to be a man of peace. Miss Woodward, in her screen debut, is impishly excellent as the sharp-shooting waif whose unexpected conversations with the Bishop, at the film's close, lead to Heflin's ordination and, as important, to a wedding ceremony during which the Bishop himself holds her gun.

In far northern latitudes, mirages often appear as ships upside down in the sky.

Cheaper To Pay

DALLAS, Tex. (AP)—A large number of police and highway patrolmen descended on the muddy Trinity River bottoms to hunt two men who had robbed Charlie Jones, 78 of $7.

One patrolman's car got stuck in the mud. Other officers floundered in bushy wetness.

Someone suggested it might be better to give Charlie Jones $7 and forget the whole thing.

And that's what they did.

LOCUST VALLEY, N. Y. (AP)—Like many a dog, Rusty, a Collie, fetches her master's evening paper. She does it by sticking her head out a second-floor window.

The paper, neatly rolled and tied with a string, is tossed up to Rusty by a trainman of a passing Long Island Railroad train. She never misses.

Rusty's master Henry S. Whitney is a block signal operator.

"One time," he said, "a mean trainmen threw an entire Sunday paper up. Rusty caught it and wouldn't let go. I grabbed her hind paws just as she was tumbling out the window.

...RE ARE a lot of pitfalls in ...ate contracts of sale. You ...the only person who may ...fied by them. More than ...yers, specializing in real ...recently pondered these ...alities at the Home Title Guaranty Co. symposium for attorneys in New York's Town Hall.

An expert, Milton R. Friedman, read a thesis devoted to the troubles people get into by signing contracts hastily. He emphasized the importance of having every pertinent detail mentioned in the contract.

"A contract of sale," he said, "is a rather final instrument. If something is not in the contract when it is signed, it is not apt to get into the deal later.

"Of course," he told the lawyers, "you can always ask for things," but after a contract is signed, your asking has no power behind it.

Among the many details you should have in a contract, Friedman cited mortgage terms, such as a right to pay off a mortgage ahead of time, "grace clauses" to allow enough time to pay interest and taxes before a loan may be called, cancellation of leases and who should pay for any compensation involved to get tenants out.

* * *

GETTING actual possession of a house can be another problem that should be foreseen in your contract. You may be buying the property, but can you move in?

Friedman recited a court case in which the man who sold the house refused to get out until after title had closed. The man who was buying the house insisted that the seller should be out before title closing. The court held that the man selling the house could stay there until the price had been paid and that the man buying the house could not break his contract merely on the possibility that the seller might break his word about getting out.

If more than 2,000 lawyers can worry about things, home buyers and home sellers should read and understand what they sign.

How Perfect Clinch Holds Nailed Joint

AP Newsfeatures

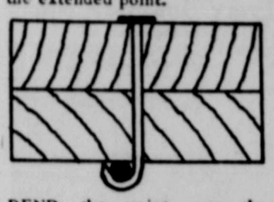

A STRONG nailed joint depends much upon a perfect clinch, says the National Lumber Manufacturers Assn. Here's how a perfect clinch should be made:

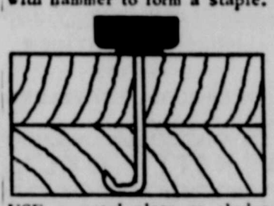

DRIVE the nail through both pieces of lumber.

HOLD a larger nail against the extended point.

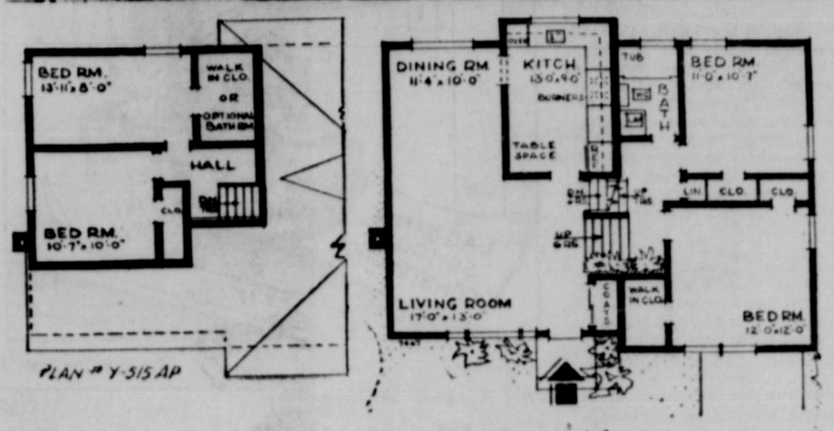

BEND the point over the larger nail, tapping lightly with hammer to form a staple.

USE a metal plate or sledge to hold the nailhead in place while you drive the stapled point into the wood.

Veterans Forum

Q. I would like to go to France to study cooking under the Korean GI Bill at one of the world-famous French restaurants. Would this be possible?

A. It would not be possible. Foreign training, under the Korean GI Bill, is limited only to VA-approved courses in colleges and universities.

Q. I am a service-disabled Korea veteran. Recently I was blinded in an industrial accident. Would I be entitled to VA aids for the blind, even though my loss of sight was not service-connected?

A. So long as you have a service-connected disability, you may be entitled to VA aids for the blind. Blindness itself does not need to be service-connected.

Q. I hold a World War II GI insurance policy. I have just been married, and I would like to change the beneficiary from my mother to my wife. Am I supposed to notify my mother of this change?

A. You have the right to change beneficiaries without notifying either the old or the new beneficiary. All you have to do is notify the VA district office that handles your insurance account.

Q. I am a Korea veteran with a 20 percent disability rating. Would that automatically make me eligible for vocational rehabilitation training?

A. Not necessarily. In order to qualify, you must have a need for training to overcome the handicap caused by your disability.

A Good Scout Makes A Better Man

On October 25, the Boy Scouts will ask us to support them in the coming year. Perryton will be generous, because the community supports no organization that ranks higher in accomplishment.

Beginning as a Cub Scout at eight or nine, the boy becomes a Boy Scout at eleven, and finally enters the Explorer program at 14.

These are the formative years, and a boy that enters wholeheartedly into Scouting benefits from his experience morally, mentally and physically.

The Scout Oath and Scout Law state personal ideals which any parents would wish to be goals for their son. Beyond that, Scouting gives every boy a sense of accomplishment. As he advances through the various grades of Scouting, and wins merit badges, he meets standards of mental and physical fitness that are positive benefits to his development.

The funds to be raised next Tuesday will make it possible for every interested boy to enter Scouting. And there is no denying the fact that a good Boy Scout makes a better man. Thus a donation to the Scouts becomes an investment in the future welfare of the community.

As this year's Scout slogan puts it, today's Scouts will build "tomorrow's better Texas."

The All American Joke

Here it is only October and the November issues of the sports magazines have long been on the shelves. Contained in most of these are the various "All American" football teams for the 1955 season.

Considering the fact that these November issues were laid out and made up in September, we must give the pickers credit for quite a bit of crystal ball gazing to tell who is the nation's best at the end of the season.

All-American football teams have long been a bunch of hokum. The selections are usually made on the basis of the previous season's showing and of course the selection of a player depends upon his team's standing in the conference.

The best player in the nation couldn't make the All American team if his team is a losing one. Conversely, no matter if there are no stars on a championship outfit, the pickers will find one.

Actually, there are so many All-American teams that whenever we read about a former college football player in later life, he is nearly always described as a "former All-American."

We suppose that this bit of hokum doesn't harm anyone, as long as we all know All-American teams for what they are—a bit of hokum.

From Light To Sound

Grandpa probably wouldn't have believed it, but down at Americus, Georgia, the Bell Telephone Laboratories engineers have put a small rectangular frame on top of a telephone pole and have captured the sun's energy to operate a telephone line.

The frame contains a solar battery consisting of 432 discs of pure silicon treated with boron, arsenic and other elements.

Connected with a storage battery to retain voltage for hours of darkness, it was used to provide the small amount of power required to operate a rural telephone circuit.

Scientists predict a day when solar energy will be used for heating houses, operating machines and doing more and more of mankind's work.

And we predict they will also find a way to put a charge on this energy. The public utilities companies are not going to stand by and let its customers trap free rays from the sun. But it's a goal worth striving for, at any rate.

From the SIDELINE
with HAROLD HUDSON

"The Yellow Rose of Texas" may lead the nation's hit parade, but down at Hereford the song they talk about is "Shake, Rattle and Roll." It was the question of whether or not the Hereford high school band would be allowed to play this jazz number at a football game that led to heated words between parents, school board and school administration. And this "Shake, Rattle and Roll" dispute finally led to the resignation of Supt. George Graham, head of the Hereford schools for some nine years.

We visited briefly with Jimmie Gillentine, editor and publisher of the Hereford Brand, while in Hereford last Friday night for the football game. Jimmie said there had been so much agitation over the "Shake, Rattle and Roll" business that the football game had taken a back seat. If we remember correctly, Sheree North introduced a rather sexy, shaking dance in the motion picture "How to Be Very, Very Popular," and the musical accompaniment was "Shake, Rattle and Roll." In fact, several of our younger acquaintances sat thru the show twice to see this dance, they say.

We can see an objection to putting on this sort of dance at a football game, but without it, the music itself is no better or no worse than dozens of similar tunes on the hit parade.

With Halloween only a week or so away, we would like to repeat the story of the Chicago businessman who made a trip to Texas and returned home a week or so later driving a big new blue Cadillac. His wife, both astonished and delighted, asked him how come. It was nothing, said the Chicago man, and he had three more Cadillacs as soon as he could get them home, he said.

"I was in Dallas on Halloween," he explained, "and we played trick or treat."

A honeymoon is just the vacation a man takes before going to work for a new boss.

We don't always agree with Editor H. M. Baggarly of the Tulia Herald and in fact almost never agree with his views on politics, but his column last week found us in complete agreement when he poured it on some Tulia teen-agers. A young fellow had written to the Herald, saying that it was Tulia's fault if they had vandalism and juvenile delinquency. There was nothing to do in Tulia, he said. The town had built a swimming pool, but it was just a pond, the kids were tired of picture shows, television, etc.

Baggarly said in reply, "Vandalism seems to increase in direct proportion to recreational devices provided youth. Best solution to the current vandalism problem lies in a general awakening of the youth to the fact that nobody owes them anything, that their parents and society have provided them food, clothing, shelter, more entertainment than any generation in the history of the world—radio, television, cars, magazines, and a hundred other things all the money in the world couldn't have bought 50 years ago—and more important, the tools with which to get education, broadening their minds and providing skills with which to earn a living. What would Lincoln have given for such opportunity?"

The only money that goes as far as it did ten years ago is the dime that rolls under the bed.

The tragedy at the State Fair last week when a Memphis high school girl was killed and her two companions injured could have happened to the Perryton band group. The Ranger Band members were taking in the fair at the same time, and when the Memphis girl fell from the top of the ferris wheel, several Perryton youngsters were standing below, waiting their turn to ride. This accident put a damper on the spirits of the entire band group assembled for the biggest concert in Texas.

Texas University, which has won only one game in football this year, is about to have a change, if the rumblings we hear are going to amount to anything. We used to get a copy of the Longhorn Club's news bulletin, but since we have never paid any dues, we got off the list. But we hear that certain groups of alumni are negotiating with coach Red Sanders of UCLA and Jim Tatum of Maryland, seeking to replace Ed Price with a big name coach. Right or wrong, coach Price is taking the brunt of the abuse for his team's dismal showing and we suppose this is one of the penalties of football coaching.

A woman is the only hunter who uses herself as bait.

Sen. Jimmy Phillips of Angleton, one of the probable candidates for governor, has sent out reprints from a column by Drew Pearson in which Pearson gives Phillips credit for breaking the veterans land scandal. This isn't quite the way Texans heard the story, but you must remember that Drew Pearson is not noted for his accuracy. He is the guy who spent much time and effort telling the world that Texas was attempting a "gigantic land steal" when they wanted their tidelands back.

Strange how some folks get discovered, while others just get found out.

Wolf Creek Philosopher

Not Worried About Town Farmers

(Ed. note: The Wolf Creek Philosopher wouldn't trade his work problems on the farm.)

Dear editar:

Everybody is talking about the farm problem these days and I always listen carefully, not to find out what the experts think the solution is but what they think the problem is.

One idea that attracted my attention the other day was a statement by an expert that the farm problem is being made worse by the fact that farm population is dwindling, but I couldn't follow him. The way I see it, farmers are producing too much as it is, and anything that reduces the number of farmers might reduce the surplus, although this doesn't necessarily work that way, as we've already got fewer farmers and more surplus than any time before in history.

Another expert said the cause of some of the farm problem is the fact farms are being bought up by "doctors, lawyers, bankers and merchants" and used to cut down on their income taxes from profits made in town.

I do not see how this constitutes a farm problem. The best way I know to cut down on the farm surplus is to turn some land over to a town farmer. Most of em go strong for a little while, fixing up the place, throwing paint around, stretching new wire, etc., but in a little while their interest seems to play out, along about the time they begin figuring up what it's costing them and how little they're producing.

In fact, one of the best ways I know to reduce the farm surplus in this country would be to turn over all farming operations to lawyers, bankers, doctors, and merchants for a couple of years. I guarantee the surplus would disappear completely.

There's something about farming that looks easy from behind a steering wheel while you're driving along the road, but the picture changes completely when you get behind the steering wheel of a tractor.

Of course, the same thing would work in the other direction. Any time this country gets a worrysome surplus of money on hand, just put me and a bunch of other farmers in charge of banking and we'll take care of it.

Yours faithfully,
J. A.

From where I sit ... *by* Joe Marsh

Tie This One For Consideration—

Closed the office early last Saturday to go after pheasants with Pops Foster. I used fewer shells than the old gentleman and took home more birds—but *not* because I did better shooting.

I'd borrowed a dog for the occasion. Pops took along Blue, his ancient pointer. Several times I noticed Pops walk up to a clump of bushes Blue had pointed at and fire into the air—though he hadn't flushed a single bird.

Naturally, I wanted to know why. "Well," he said sheepishly, "I've been hunting with that dog for 11 seasons. His nose isn't much help any more—but I'd rather waste a shell than let him know."

From where I sit, Pops always shows consideration for *people*, too. For instance, this is a small thing, but he puts a bottle of beer on ice for me when I visit him—though he never takes anything but coffee himself. Even if he doesn't agree with me on a matter of personal choice (which is his right) he'd rather not make a "point" of letting me know.

This is the fourth in a series of messages written by ministers of this trade area. This week's message was written by Rev. Charles Ellzey, Pastor of the First Methodist Church, Follett, Texas.

SELF AND NEIGHBOR UNDER GOD

"Thou shalt love the Lord thy God . . . and . . . thy neighbor as thyself" (Matt. 22:37,39).

In Jesus' statement about loving God and others, there is a third kind of love which many times is overlooked or at least neglected: that of love for self. Jesus seems to have taken for granted a self-love which would be the basis for the love we should have for others. Our present-day undrstanding of human nature has finally caught up with Jesus' insight at this point. We have come to recognize that we cannot have a sincere, healthy love for others without a healty love for ourself.

Such a love means that we see ourself as a part of God's creation, with value and worth in His sight as illustrated in Jesus' attitude toward people. We see that, being a creature of God we are of equal value with others and that our basic needs as persons—to be liked, to be needed, to have a chance to love and be useful, to be deeply happy, in short, to develop mutually satisfying relationships with others and with life itself—all have their legitimate places. A healthy love for ourself means that we are concerned about satisfying these needs, and about the development of the potentialities which God has created within us.

In the light of Jesus' teaching Christian love for others takes on the same characteristics. It means being actively concerned about the well-being of the other person as a creature of God, nation or other nation. It means seeking to provide for the satisfaction of his needs as a whole person—physical, intellectual, emotional, and spiritual, to the same degree to which we are concerned about our own well-being. This means we see both the other person and ourself as being within the realm of God's love, and both in need of respect, acceptance, and concern, that is, Christian love.

"Thou shalt love the Lord thy God . . . and . . . thy neighbor as thyself."

Rangers Hammer Out 19-7 Verdict Over Swift Hereford Whitefaces To Keep Record Intact

The Rangers hammered out a hard won 19-7 victory over the Hereford Whitefaces Friday night at Hereford to preserve their undefeated season record. Hereford was considered a slight favorite by the experts, including the Amarillo Daily News, although they were slaughtered 73-27 by Phillips the week before.

The game was a tight one which saw some of the most bruising blocking and tackling of the season. Hereford, which had toppled four foes before losing to Phillips, was fighting for this victory, but were held off by a stout Ranger forward wall and alert secondary.

Halfback Jimmy Todd, wearing a smaller bandage on his injured leg, showed some of the form which made him the leading ground gainer of the Rangers last year. He ran harder and with less apparent effort than at any time since the Panhandle game, in which the leg was hurt.

The Rangers, without a passing threat of any description, had to hammer at a 9-man line most of the night and still succeeded in piercing the Hereford forwards for 234 yards. Tommy Johnson, who played most of the game at quarterback, displayed fine form in deception as he handed off to Todd, Dan Pearson, Charles Bulls and Dempsey Gyger.

On defense it was Bill Jines again who led the tackling brigade. The 170-lb. junior was a real standout, as was linebacker Hobart Buxton. Tackle and co-captain Bob Williams was expelled from the field shortly after the game began after a mix-up with a Hereford player and his absence was felt keenly during the first half.

The game started off like it would be a runaway for Perryton. The Rangers kicked off, promptly held the Whitefaces for three downs, then the Ranger line spilled kicker Walter Kaul on his 31 when he fumbled a high pass from center on the attempted punt.

On the second play, Todd squirted through right tackle, brushed aside a couple of would-be tacklers and sprinted into the end zone for the initial touchdown with less than two minutes gone.

The attempted kick was low and to the left, leaving it 6-0.

But Hereford wasted no time getting back into the ball game.

They took the kickoff, drove outto the 35, then started marching. A 31-yard pass from quarterback John Bryant to end Bobby Veigel set the ball on the Ranger 25. Four plays later fullback Bill Calloway burst through the Ranger line from the 7 to tie up the game. The attempt at the extra point was wide, but the Rangers were offside and the Whitefaces got another try.

This time it was good and Hereford led, 7-6.

The game rocked along with this kind of score until midway in the second quarter, when the Rangers backed the Whitefaces down to the 25. A short punt went to the Hereford 40 and the Rangers started to roll.

Gyger made 5, Todd added 16, Pearson drove to the 7 for a first down. Pearson made it to the 2, and on the next play quarterback Johnson sent Gyger into the line, but when the Hereford linemen recovered, they saw halfback Charles Bulls circling left end all alone into the end zone. This made it 12-7, and the score remained that way when the attempted kick was low.

The third quarter was scoreless, with both teams battling fiercely in midfield. So close was the battle that only one first down was recorded that quarter, and Hereford made it.

The final quarter was a different story. The Rangers took a Hereford punt on their own 20, and started to drive. Making short yardage, but piling up first downs, they moved slowly down the field with Gyger, Todd and Pearson hammering the Hereford line. They used up 15 plays and four first downs in reaching the Hereford 29, and from that point Dan Pearson circled left end to the Hereford 8, where it was a first down.

Two plays later Jimmy Todd drove over left guard for the score, putting the game on ice as far as the Rangers were concerned. Kent Apple tacked on the extra point when he circled right end on a keeper play from quarterback position.

The rest of the game was spent in staving off a frantic Hereford passing attack, which got down to the Ranger 35 before Perryton put out the fire.

Phillips Still Leads

The Phillips Blackhawks maintained their scoring pace with a 62-0 stampede over Dalhart this week. This kept the Blackhawks as the highest scoring football team in Texas, with an average of 59 points per game in six games.

A mild surprise this week was the 6-6 tie between Dumas and Canyon. Dumas had been favored, but had to come from behind the final three minutes to tie the game with the Canyon Eagles. This gives the Perryton Rangers a good chance with Dumas, since they also tied with Canyon, 7-7.

Hereford, after winning four games, were slaughtered by the Phillips Blackhawks 73-27, and found the Perryton Rangers too tough. They meet Dumas this week and the Rangers can get another good idea of how these two teams stack up, and form some conclusions on the game Nov. 11 with Dumas.

Shamrock, which went through the 1954 season without winning a game, staged a victory celebration after beating McLean, 13-6 in the season opener. Things have been bleak since then, however, the latest crusher being a 32-0 loss to Lefors last week.

The Phillips Blackhawks are prohibitive favorites in District 1-AA and perhaps for the state crown again. The rest of the teams are playing for second place, barring an upset of Phillips which would surely shake the state, no matter which team fashioned such an upset.

Introducing A BIG AND VITAL GENERAL MOTORS "AUTOMOTIVE FIRST"!

A new Strato-Flight Hydra-Matic—coupled with Pontiac's 227-H.P. Strato-Streak V-8—results in performance so new and dramatic it must be experienced to be believed!

With all that's newest in glamour—*and all that's greatest in "go"*—the fabulous '56 Pontiac, now on display, awaits your hands on the wheel.

And when you drive it, you will get the biggest thrill in all your motoring experience—because this car is *really* loaded!

The big and vital General Motors "First", which leads its long list of look-ahead features, couples the two most advanced high-performance developments in the industry:

1. An all-new, big-bore Strato-Streak V-8 engine that puts 227 blazing horsepower at your toe-tip.

2. A completely new Strato-Flight Hydra-Matic that delivers this terrific "go" with a smooth surge of power at any speed.*

You now sweep from take-off to top performance with the ease of a sailplane.

You slow down for traffic, speed up for passing, or gun for a high hill with the changing pressure of your toe on the accelerator the only sign of effort.

You may have had it smooth before—but never like this! It literally must be experienced to be believed.

That's plenty—but there's much more to make this a date to be long remembered.

There's smart new beauty and luxury for America's most distinctive car. There's the safety of big brakes and road-hugging length . . . the security of a smooth new ride and sure-footed cornering.

There are many, many other things which mark this beauty as the glamorous pattern for tomorrow's cars. But come in and see for yourself. Take a long look at the six luxurious new Four-door and Two-door Catalina hardtops. Sample the results of its fabulous General Motors "First".

Sure as you enjoy thrilling action, here's your next car!
