THE BAILEY COUNTY JOURNAL**

"GOOD WILL" Subscription Campaign

TO THE PUBLIC

Now is the time to take out that NEW subscription, or to renew through one of the candidates. And don't hold back that promise for it will count less votes each week, and VOTES WIN! Unlike most contests, the votes in the Journal Good Will campaign DECREASE As it progresses. The First Period closes Friday, July 19th. You aid your candidate by acting today.

The second period is July 20th, to and including July 26th--400,000 votes for each \$30 club.

DON'T BE AN 'IF'ER

Don't be an "If'er!" "If I had worked just a little harder--if I had written only one more subscription." Invariably the candidates who turn out to be "IF" workers are those who could have easily spent that little "extra" time in subscription getting, candidates who looked at a very serious business proposition as somewhat of a joke.

This is a business with leading candidates. It behooves every worker to do as they would expect to do by any other job or proposition.

Do the best you can and at the close of the drive you will not have the feeling that you could have spent those few extra minutes each day in the work, and in that way made yourself winner of the first prize, or any of the other attractive awards. You will have the feeling that it was that "extra" effort that made you the prize winner, or at least that you did your honest best.

TO THE CANDIDATES

In just a little while the votes hit rock bottom. Make these precious few days count. Get in touch with all those who have promised you and make every hour count. Be able to say "I HAVE DONE MY BEST." Remember . . .

"All things come to the other fellow if you sit down and wait." Don't be a waiter, but a go-getter. All the world loves a winner, and you can be a winner if you TRY!

Bond...

Cont'd from Page 1
The city and county will seek matching federal funds for these improvement programs. Those citizens who are not at present familiar with the operation and facilities used at present time by all law enforcement agencies within the county are urged to look over the situation before the bond issue comes up and are urged to compare local facilities with towns of comparable size and smaller.

Such a comparison reveals that both the city and county are far behind time on the route of progress.

decide within the next three weeks whether or not you will be one of the winners. We have repeatedly told each of you how to win this campaign. Call on every home in the territory, do not pass up a single place.

If you want to further your own interests and clinch a heart-warming prize for yourself, you must strike while the iron is hot. The question of territory and time has come up since this campaign was started. Let it be stated here and now that there are no time requirements and positively no territory restrictions.

Any candidate can work when and where he wishes. The amount of time that a candidate puts into the work is, of course, a factor in the final outcome. But far more important is the way in which this time is put into productive work and the number of calls made for each mile traveled.

Cadette Scouts Return Home

Camp Kiwanis is located only six miles from Amarillo with a lot of trees and hills to make camping more fun. It's close enough that the lights can be seen twinkling at night. Yet, life at camp is so different, so exciting, the girls remember it the rest of their life. To these girls, it was such an experience.

The first thing the girls reported was that they had to walk one - third mile for each meal and got first hand experience of primitive camping.

While at camp they learned how to paddle a canoe and also how to swim across the pool and back without much effort. The girls enjoyed horse back riding and also how to care for their horse, which was part of their work, so to speak. All in all the girls report a wonderful time and will be looking forward to camp next year.

Mrs. Byron Gunter accompanied the girls to camp on June 30, and then returned home. On July 12, Mrs. Richard Puckett went after the girls to bring them home.

Alma Henley Home, Scene Of SS Class

The Dorcas Sunday School Class of the Trinity Baptist Church met July 11, (Thursday afternoon) in the home of Alma Henley for their business and social meeting. Opening prayer was led by Eva Ashford.

Devotion was brought by Opal Pugh from the twenty-third Psalms. Minutes stand approved as read. Two poems were read by Vivian Morris "Socially Speaking" and "What If Christ Had Used Your Excuse?"

Odessa Slayden and Minnie Redwine favored the class with several selections of music on the guitar and violin. Refreshments were served by Eva Ashford, Odessa Slayden, Opal Pugh, Minnie Redwine, Josephine Wenner, Vivian Norris, hostess, Alma Henley. Also two visitors, Cleo Seagroves and Rene Seagroves, (daughter and great granddaughter of Alma Henley).

PROGRAMS, such as those of "Meet the Press" "Issues and Answers" and "Face the Nation" certainly make it possible for the public to form opinions about the rival candidates for the presidential nomination. Those who are photographic have an edge over their competitors but the real test comes in the way they meet or parry questions.

Ask Amy

BY AMY ADAMS

CAVE TALE SOUNDS LIKE TALL TALE

Dear Amy: Do you know of a cave discovered by the Indians where couples go to marry in one day? Someone told me it was mentioned over our local radio station, but I never heard it. Do you know where it is located and are couples actually legally married there?

I have a bet with this person and would like to find out.

T.S.: I've never heard of it, but it sounds like folklore to me, so if your wager is in the positive, I'm willing to bet you're a loser.

Why not call the radio station for clarification.

Dear Amy: I would like to know what you think about the crowd I hang around with? They're practically always cussing, but have the manners to at least say, "Excuse the language, Girls." They've just started the smoking kick, but I think that's just a way of attracting attention. Now even some of the girls are doing it. Even though they start fights with other corner-loungers, they're really not bad kids.

I don't say I never have any fun because most of them have a very good sense of humor and in a way are very daring. Do you think if I stay here it will be a bad influence on my personality? I'm 13.

One of the Moore St. Crowd

Dear one: The crowd you associate with will not only have an adverse effect on your personality but will downgrade your reputation as well.

People are judged by the company they keep — so drop them, honey!

PERSONAL TO Mixed Up: There is nothing wrong in contacting a friend by letter in the hopes of resuming a friendship. On the other hand, be honest with the present fellow. If you don't intend to marry him, tell him and return his gifts.

Dear Amy: My son, age 22, has been

going steady with a nice girl for about a year and a half. They became engaged before he enlisted in the Navy. Six weeks later he was medically discharged. Soon after he came home, she acted very cold and disagreeable and broke their engagement. Now she is engaged to another man.

My son feels very bitter about this. He is going out with the lowest kind of girls. One is very anxious to get married and he gets mail from her daily. The other one (18 years old) is waiting for her fiance and is a 2-year-old daughter.

He had 2 years of college, has a good job and is quite intelligent. He was quite choosy when he went out with before all this happened. Now his world seems to have crumbled. He's also under a doctor's care. What can I do to keep him from going to pot?

Dear Mother: Most young boys, sometime during the period of their single life, have a "fling" at the seamy side of life. This should pass over and he should be able to get back to his downward path and that he should elevate his aims and goals by spending his social life with the right kind of fellows and girls.

Friendships at this age usually lead to a future Mrs., so you must impress upon him how important it is to date decent, respectable girls.

PERSONAL TO? (Raymond, N. H.): You sound pretty sensible to me. Tell your friend to mind her own business and there's one way she will, that's for you not to tell her yours.

Address all letters to: AMY ADAMS c/o THIS NEWSPAPER For a personal reply enclose a stamped, self-addressed envelope.

Cook, Entitled To Vacation

COLLEGE STATION — The cook is entitled to a vacation from some of the kitchen chores so take advantage of the many types of ready-to-eat — meats, suggests Gwendolyn Clyatt, Extension consumer marketing specialist.

The more popular ones include frankfurters, bologna, liver sausage, meat loaf, head cheese, ham loaf, pickle and pimiento loaf and many others. Those ready-to-eat — meats may be made of beef, pork, veal or lamb or a combination of two or more of these. Seasonings are many and varied, says the Texas A&M University specialist.

In many milk solids act as a binder. The label gives a list of ingredients in order of predominance, the name of the meat, the manufacturer's name and address, and the weight of the package (if prepackaged). Manufacturers try to maintain consistent quality.

Mrs. Clyatt says the meats usually give 5 servings per pound. Since they are perishable keep them in the refrigerator. The proteins and vitamins in ready-to-eat — meats are equally as nutritious as those in any meat cut.

Mrs. Clyatt's other suggestions for budget stretching this month includes variety meats. Demand is greater for the tender steak cuts at this season so you'll find the economical beef choices to be round steaks, chuck roasts and steak and ground beef.

Best pork values are found on hams and picnic. Eggs are in plentiful supply at economical prices. Fryers continue to be bargain choices in most meat departments.

Watermelon highlights most produce counters since they are low in price. Cantaloupes, peaches, plums, grapes, Bing cherries, bananas, and nectarines are moderate to low priced fruit choices according to the specialist.

Fresh corn, green cabbage, carrots, radishes, green onions, salad tomatoes, bakchey peas, purple bell peas, potatoes and dry yellow onions are usually the economically priced vegetables.

HEALTH AND BEAUTY

Have you just tried on your bathing suit for the first time this season? If you have, chances are good, judging by the American average, you have decided something must be done about those extra pounds you put on during the winter.

You can look forward to enjoying your diet for if you choose the right kind of diet it need not be a lettuce-and-carrot-juice affair.

The best way to burn up fat is to step up your metabolism. The way to do that is to include lots of juicy steaks, thick lamb chops, and sizzling (lean meat) hamburgers in your diet. Other important items are fresh eggs, vegetables and fruits.

If you are on the right type of diet, the food you eat will provide the energy you need without adding more fat in the process.

Providing you are in good health, after a few days of a metabolism diet, you will feel better than you have for sometime.

Drink plenty of water between meals. Cut down on your salt intake if you use too much to season your food. This is important because salt tends to cause your tissues to take on added water. Take your vitamin pills if you think it necessary.

Use a non-caloric sweetener in your coffee and in cooking. Skim milk or buttermilk (without butter globes) can be a big help. Eat only a very small amount of fat of any kind, including butter. Fat has more concentrated calories than any other food.

STATE CAPITAL Highlights AND Sidelights by Wern Sanford

When the special session of the 60th Legislature called it quits and went home, its accomplishments seemed vast -- from a cold statistical point of view.

During the 30 days of the session called by Gov. John Connally, the 150 House members introduced 32 bills, and the 31 senators kicked in 30. When all was said and done, only five House bills and no Senate bills were passed.

However, two of those House bills were the reasons Connally called the session in the first place. So their passage within the allotted 30 days gave an appearance of success to the session.

One, of course, was the bill making state appropriations for the fiscal year beginning September 1, and the other was the tax bill to raise the money to pay for all those appropriations.

Texas taxpayers will start feeling the bite October 1 when the one-cent increase in the state sales tax, the one-cent increase in the motor-vehicle sales tax and the 50-cent per-\$1,000 increase in the franchise tax go into effect.

Rep. Frank Lombardino of San Antonio sponsored the only

other new law of interest to the average citizen. It prohibits the carrying of pistols or other concealable weapons into alcoholic -- beverage establishments.

The two remaining pieces of legislation were concerned with the internal affairs of state government -- transferring \$3,000,000 from the Operators' and Chauffeurs' License Fund to the General Revenue Fund and authorizing the Comptroller to transfer funds between items of his appropriation made by the 1967 Legislature.

Only other thing of substance that the two houses agreed on creation of the Governor's Advisory Committee on Physical Fitness. This was done by resolution.

Each house did create interim committees to study certain problems and report back to the next Legislature.

Senate set up a committee "to study the problem of locating and securing more land which could be set aside for parks and recreational purposes, the better utilization of existing parks and development of existing parks to accommodate more visitors."

House created interim committees to study the Texas Elec-

tronic Code, the financial relations under the Liquor Control Act and the need for laws on organ transplantation.

Also the lower chamber set up a Natural Fiber Study Committee and a Family Law Study Committee and asked the University of Texas Graduate School of Business to study the possible creation of a Texas Stock Exchange.

COURTS SPEAK -- Texas Supreme Court ruled that a water district -- failed to be created by the voters in its original district -- could not change its boundaries to include only those areas which approved it in that election. Court also said that the district's directors could not force the counties within its proposed area to pay its organizational costs.

In another case, High Court agreed that St. Louis Southwestern Railway Company of Texas should not be required to maintain its Texas general office and machine shops in Tyler.

Court agreed to hear October 2 appeals of two Dallas savings and loan associations which are seeking the same location for branch offices.

AUTO INSURANCE RATES RISING -- State Insurance Board experts have recommended an increase of about 2.8 per cent in auto insurance premiums.

Although statewide averages are misleading since rates are set by 40 different territories, liability coverage appears to be going up in 33 zones for most drivers. Young drivers face higher rates in 22 territories, lower in seven and the same in 11.

Biggest increase will be for comprehensive and collision policies -- where the insurance board staff has recommended a hike of 7.7 per cent and 7.1 per cent respectively.

Insurance company spokesmen claim rising cost of parts and repairs has offset a better traffic accident record.

CITY SALES TAX UP -- Cities are finding the new local option sales tax a better money-maker than they figured when more than 270 voted it into effect during the last few months.

Collections for the first quarter of 1968, generally the worst business period every year, ran about twice what was expected. Here's the way it turned out for the 14 cities which pioneered the sales tax:

Aransas Pass, \$15,746; Austin, \$641,003; Brackettville, \$994; Corpus Christi, \$544,765; Elgin, \$4,867; El Paso, \$709,686; Henrietta, \$4,756; Ingleside, \$2,688; Nacogdoches, \$58,855; Orange Grove, \$1,318; Port Aransas, \$2,407; Taylor, \$17,116; Texarkana, \$101,765; and Wichita Falls, \$236,235.

SHIP CHANNEL CHANGE PROPOSED -- A \$21,000,000 program for altering ship channels in the Corpus Christi Bay area has been placed before Governor Connally for approval by the Texas Water Rights Commission.

Federal funds would pay for all but \$1,600,000.

Engineers propose to deepen the 40-foot channels another five feet and widen them from 300 to 400 feet. Project would get its name changed from the Aransas-Corpus Christi Waterways to Corpus Christi Ship Channel.

New channels would accommodate loaded vessels up to 59,000 deadweight tons, with annual benefits estimated at \$4,600,000.

SALES -- TAX SCHEDULED -- When the new increase in the state sales tax goes into effect on October 1, shoppers in cities which have adopted the city sales tax will begin paying the first of the four pennies when they spend their first 13 cents.

Tax applicable to city-sales-tax-covered sales: From 1¢ to 12¢, no tax; 13¢ to 37¢, one penny; 38¢ to 62¢, two pennies; 63¢ to 86¢, three pennies; and 87¢ to 112¢, four pennies.

Shoppers in areas where there is city sales tax are facing this schedule: 1¢ to 16¢, no tax; 17¢ to 49¢, one penny; 50¢ to 83¢, two pennies; and 84¢ to \$1.16, three pennies.

However, the Legislature did kick in a few more exceptions. One exempts sales through a coin-operated vending machine when each sale is for 16 cents or less, and another will exempt shipping charges when they are figured separately from the price of the commodities.

A third will exempt machinery used exclusively on farms or ranches in the building or maintaining of roads and water facilities, and exempted from the new third state penny will be sales resulting from a written contract entered into before October 1, and sales for which bids were submitted prior to October 1.

The Sandhills Philosopher

(Editor's note: The Sandhills Philosopher on his Johnson grass farm reviews some problems but few answers in his letter this week. He's not alone.)

the end of the paved runway, where the grass begins.

It is just as well. You might say I live pretty close to the grassroots, in fact so close I could reach them with a hoe if I was a mind to, but any candidate who is planning on coming out here to get my opinion might as well stay at home.

I can list the problems all right:

Viet Nam.
Crime.
Riots.
College students.
Gun laws.
Taxes and debt.
Inflation.
Traffic.
Pollution.

But when it comes to supplying the answers, I can tell the candidates they could as well stay at home and beat their head against concrete as coming out here and beating it against the ground.

While it's preposterous for a politician to try to keep his ear to the ground when he's living in a high-rise apartment building -- nobody can lean out of a window that far -- still, even if he could, or if he couldn't and toppled, he wouldn't hear much.

Oh here, we've got far more problems than answers. I had always thought it was Washington's role to have far more answers than problems. Times are mixed up.

Yours faithfully,
J. A.

Dear Editor

Dear editor:

Several times lately I've read in copies of newspapers that have turned up out here on the Johnson grass farm that this or that candidate is seeking to find out what the grassroots opinion is on a given matter.

"A man has got to stay close to the people, to get down to the grassroots," a candidate will say as he boards a plane for another part of the country, but invariably he's standing on concrete and is in the air before the plane reaches

Bula News

by Mrs. John Blackman.

Rev. and Mrs. Harvey Whittenburg returned home about noon Saturday from a four week stay in Dallas where he was attending the SMU Perkins Theology School. Whittenburg has attended this school for the past three years and will have one more summer to go before he completes his work. They

lived in the apartments on the campus. They did some visiting with her two daughters who live in Dallas, Miss Shirley and Diana Cox. On their return home, they stopped for a short visit with his son and family, Mr. and Mrs. Pete Whittenburg and girls at Mineral Wells and with H. D. Cox at a rest home in Hamlin, Richard and Robert Earl Lancaster of San Antonio spent the past two weeks visiting in the home of their grandparents, Mr. and Mrs. Earl Lancaster. They accompanied their grandparents to Dumas on Friday to visit the Lancaster's son, Mr. and Mrs. Gayland Lancaster and

a daughter and family, Mr. and Mrs. Earskin Grayson. The boys stayed over for a longer visit. Mr. and Mrs. W. L. Clawson spent from Friday to Sunday visiting with relatives at Hobbs. They visited his sister, Mr. and Mrs. Mackney, her sister, Mr. and Mrs. P. A. Wardlow and a daughter, Mr. and Mrs. Travis Webb and a grandson, Mark Webb, came home with them for a visit of two weeks. They also went to see a new great-granddaughter, new baby of the Bernie Browns.

Mr. and Mrs. W. H. Arend and Mr. and Mrs. James Boleyn and boys spent Sunday afternoon at Palo Duro Canyon.

They enjoyed riding the sky lift and sightseeing. Mrs. Ivan Clawson has spent some time recently with her daughter and husband, Mr. and Mrs. Bernie Brown of Hobbs, and helping to care for the new baby girl, Robyn Mekale, born June 22 in Hobbs General Hospital. She weighed six pounds and four ounces. Paternal grandparents are Mr. and Mrs. Red Brown of Littlefield and maternal grandparents are Mr. and Mrs. Ivan Clawson, Bula. Following the Bula-Littlefield Pee-Wee ball game Saturday afternoon in Littlefield, the James Boleyn, Jimmy Cannon and Eddie Wallace families enjoyed supper at Underwoods in Lubbock and afterwards played miniature golf while the children played at Tiny Texas.

Mr. and Mrs. Stewart Sibtzy and children, David and Michael from Denver, Colo., spent the week in the home of her grandparents, Mr. and Mrs. F. L. Simmons. Sibtzy has recently been discharged from the Air Force and they moved to Denver from San Diego, Calif.

HIS FAVORITE...

Ah! Just smell that... This is his favorite... prepared just the way he likes it. He's in for a real treat. Everyone has certain foods that they prefer over others and this is his. Many people have favorite scriptures... these words can excite and satisfy the soul as certain foods satisfy the taste palates. The soul needs nourishment too. The church offers the best opportunities to satisfy your spiritual needs.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
