

Corregidor Guns Blast Japs American-French Break Is Expected

FDR Seeks Laval War Plans, Aim

Cabinet Meeting To Hear Views On Next Step In New Crisis

Welles Says Will Not Tolerate Laval Plans To Aid Hitler Regime

WASHINGTON (AP)—President Roosevelt moved up his cabinet meeting to Thursday from its accustomed Friday date and expectations were that Acting Secretary of State Welles would present a report on French developments which have strained relations with Vichy almost to the breaking point.

Welles also made a late day appointment to receive the French ambassador, Gaston Henry-Haye. Speculation about Henry-Haye's mission included the thought that he might be bringing a declaration of Vichy's total absorption in Hitler's "new order" for Europe.

The Washington-Vichy crisis mounted sharply amid general expectations that France would proclaim her solidarity with Germany and that Adolf Hitler might soon get his hands on the French fleet.

U. S. consular officials urged all Americans to leave unoccupied France as soon as possible. Vichy's Ambassador Gaston Henry-Haye had an appointment to meet acting Secretary of State Sumner Welles Thursday, and Washington observers expressed belief that he would deliver official notification of an open French-Nazi collaborationist policy by Pierre Laval's new regime.

Welles has already made it emphatically clear that the United States has nothing but scorn for collaborationists and would consider such a regime unqualified to represent the French people.

Laval himself, now France's most powerful figure, with the aged Marshal Philippe Petain, only a figurehead, returned to Vichy from Paris where he was said to have conferred with Hitler's agents—presumably receiving the Fuehrer's orders for the future government of France.

He was immediately received by Petain.

In Washington, Senators gloomily forecast that the French fleet—once Europe's second largest—would soon bolster Axis sea power, jeopardizing Anglo-American domination of the North Atlantic supply routes to England and Russia, and also imperiling British control of the Mediterranean.

W. P. (Bud) Estes Is Constable Candidate

W. P. (Bud) Estes, pioneer Midland peace officer and resident, has announced his entrance into the race for constable of Precinct 1, Midland County.

Estes has served Midland in various branches of service as a peace officer including: city marshal, constable, deputy sheriff, and night watchman. He has been associated with police work for more than twenty years here, and is well known throughout the vicinity.

Estes is a member of a pioneer family of Midland, and for many years has made his home here.

If elected constable, Estes pledges himself to the correct and efficient execution of duties of that office. Upon his qualifications and his pledge, Estes asks the sincere cooperation of the people while in the race for constable.

Geologists To Meet, Instruct Delegate

West Texas Geological Society members will meet Thursday night, 8 o'clock in the county courtroom, to give instructions to C. D. Vertrees, who will be official delegate of the society at the annual convention of the American Association of Petroleum Geologists.

R. K. DeFord will read a paper on "Future of Oil Finding in the South Permian Basin."

American Aircraft On Offensive In Battle Of Australia

Five types of American-built aircraft are now on active combat duty in Australia while four other models are on their way to her defense. In a specially-prepared montage, the Aviation News Committee of the Aeronautical Chamber of Commerce brings you pictures of the nine American warplanes that are in the vanguard of the vast "more aid to come" program which will ultimately sweep the invader from the United Nations sky. Reading counter-clockwise, the pioneer American warplanes are: 1) the Boeing Flying Fortress, which, with 2) the Consolidated B-24, or "Liberator," constitutes the Army Air Corps' team of heavy offensive weapons; 3) the Bell P-39, or "Airacobra," best described

as a "cannon on wings"; 4) the Douglas A-20A, invaluable for lightning-like day or night thrusts at the foe; 5) the Lockheed "Hudson," affectionately called "Old Boomerang" by R.A.F. pilots for its amazing ability to return under the most trying conditions; 6) the Martin B-26, the twin-engine deadly attack bomber; 7) the Curtiss P-40, or "Tomahawk," the standby of the American Volunteer "Flying Tigers" in Burma; 8) the North American B-25, the Air Corps' twin-engine bomber which combines speed with a large bomb-load; and 9) the Consolidated PB-5, or "Catalina," whose job it is to patrol the coast and blast the U-boats from the seas.

Midland County Wildcat Regionally High On Top Clear Fork Formation

By Frank Gardner Oil Editor

A comparatively thin San Angelo section in the Broderick & Calvert, Inc., and George P. Livermore, Inc., No. 1 Billy Bryant, wildcat test 13 miles south of Midland, has indicated high regional position for the well. With elevation of 2,690 feet it topped the San Angelo at 4,915, and top of the Clear Fork, lower Permian, tentatively has been placed at 5,230 feet, where black shale and black lime were picked up. Early Thursday the wildcat was drilling below 5,518 feet in black shale and sand. Its original contract depth of 5,500 feet was changed to 6,000 feet, with the possibility that pre-Permian horizons might be tested if the Clear Fork-Wichita group in the basal Permian proves dry.

Unconfirmed reports are that the extreme northwest part of Midland County is in line for a 6,000-foot wildcat test to be started about the middle of May. Price Drilling Company of Wichita Falls will operate the project, which probably will be in the southeast quarter of section 23, block 40, township 1 south, T. & P. survey, on land belonging to J. O. Nobles of Midland.

In Eastern Upton County, Plymouth Oil Company No. 1 D. L. Alford et al. deepest active wildcat in the district, is drilling at 10,314 feet in lime and chert. About one and one-half miles east by north of Rankin in Upton, M. & M. Production Company and Porter Rankin of Midland No. 1 Goodie had reached 1,185 feet. Samples had not been examined, but top of anhydrite was expected at around 1,200. Operators plan to set 8-inch pipe on top of the anhydrite.

West Texas' second deepest active wildcat, Shell Oil Company, Inc., No. 1 Sealy-Smith Foundation, in Northeastern Ward County, is drilling shale below 10,042 feet.

Magnolia No. 1-11-37 Ralph, five-eighths of a mile west by southwest of the deep Permian discovery producer in the Fullerton pool, North-

(See OIL NEWS, page 5)

L. C. Link Again Heads Midland School District

L. C. Link again heads Midland's independent school district. At a meeting of the school board Tuesday evening, returns of the recent election were canvassed and Link was re-elected president.

Charles D. Veeres was re-elected secretary.

Heads Rotary

Percy F. Bridgewater was elected president of the Rotary Club Thursday

WPB Order Stops Road Contracts

AUSTIN (AP)—A War Production Board order stopping non-essential construction has caused the State Highway Department to hold up award of contracts for road improvements in 47 counties which were submitted to bids April 10. The WPB ruling does not affect Military access roads or arteries on the strategic Military network.

City Council Passes Anti-Livestock And Bicycle Ordinances; Talk New Garbage Plan

Body Of Slain Man Found At Slaton

SLATON (AP)—The body of Homer F. (Buck) Johnson, 36, was found near his home three miles north of here today by a farm worker. Johnson had been slain with gunshot.

Bicycle Laws, Rules Discussed At Meeting Of Safety Council

Discussion of the new bicycle ordinance which has been adopted by the City of Midland, and correct rules and laws governing bicycle riding were the main issues, at the meeting of the Midland Safety Council at the Chamber of Commerce office Wednesday evening.

Bicycle license plates are to arrive within the next few days, and all bicycles are to be licensed. The fee for plates will be fifty-cents, and an additional charge of twenty-five cents will be made on all transfers or replacements. Plates will be for sale at the Police Station. When plates for bicycles are purchased, the owner will also get a serial number stamped on the frame of the bicycle, and in case of theft the bicycle can be identified.

Bicycle racks are to be erected throughout the city here, and all bicycle riders must make use of them. No parking of bicycles will be permitted in the streets or on the sidewalks.

The bicycle ordinance is to go into effect five days after publication. The ordinance will be published within the next few days along with re-publication of bicycle rules.

Finger Printing Discussed
All school children and adults who are willing, will be finger printed in the near future. The

(See BICYCLE LAWS, Page 5)

Ordinances prohibiting the keeping of livestock in most sections of Midland and regulating bicycle traffic were passed on final reading by the city council at its regular meeting Wednesday afternoon.

Five days after publication of these ordinances they will be in effect. Publication will be made within a few days.

The livestock ordinance prohibits keeping of stock within 300 feet of any occupied residence in the area West of Main Street and North of the T. & P. Railroad. Livestock may not be kept within 300 feet of any store, cafe or other food establishment and may not be kept within 300 feet of any public school, church or hospital.

Must Register Bikes
The bicycle ordinance regulates bicycle traffic and carries provisions to curb thefts of cycles. It contains the standard traffic rules for bicycles and provides cyclists must obey all traffic regulations.

It also provides each bicycle must be registered with the city. Registration will cost 50 cents for each bike and the city will issue tags for the cycles and also stamp serial numbers on all bicycle frames to curb thefts. The license fee is required only once and not annually.

City officials are making arrangements for installation of bicycle racks in the business district.

Teachers Available For First Aid Work

Any group of Midland citizens wishing to sponsor a First Aid class and which can offer a class of at least 15 persons and has a place for meetings may contact A. L. Gilbreth, Red Cross first aid chairman, for an instructor.

Qualified instructors are available and if not sufficient for the demand now probably will be in the near future.

Gilbreth may be contacted at the Junior High School, phone 674, or at his home, phone 433-W after 6 p. m.

Dana M. Secor Takes Seat On City Council

Dana M. Secor, geologist, became a member of the city council late Wednesday afternoon, succeeding Barney M. Greathouse, druggist.

Dana M. Secor

After the council had canvassed returns of the city election, showing Secor a write-in candidate, had won council seat No. 4, Greathouse quickly introduced a motion that the returns be accepted and that Secor be declared elected. Councilman D. H. Roettger seconded the motion and the oath of office was given the new councilman.

Secor received 172 votes and Greathouse 134.

McHargue Starts New Term
Councilman Paul McHargue, re-elected in the municipal election, started another term at the session.

Four friends came with Secor to the meeting to see him installed. On minutes of the city council was written:

"In view of the statement of Mr. Greathouse that he would not con-

(See SECOR, Page 5)

Troop Concentrations Shelled, Trucks Wiped Out By Artillery Fire

Australian Says Tide Of Battle Turning, As Praises Raid Made By Bombers; Cebu Forces Are Holding

WASHINGTON (AP)—The War Department reported Thursday that Corregidor's guns scored hits on troop concentrations and truck columns on the Philippines' Bataan Peninsula, and that enemy ammunition dumps were hit and blown up.

Japanese casualties were believed to have been heavy. Fierce fighting continued in the Island of Cebu, more than 300 miles to the south, where the Japanese last week landed an invasion force estimated at 12,000, which was supported by dive bombers and tanks.

P. F. Bridgewater Is New President Midland Rotarians

Percy F. Bridgewater Thursday was elected president of the Midland Rotary Club at its meeting in Hotel Scharbauer.

Tom Sealy who retires as president becomes vice president. Ly Pratt was re-elected secretary and treasurer.

Fred Fromhold, J. P. Carson, R. V. Lawrence and Ray Uphan were elected directors. The new officers take over their duties July 1.

The nominating committee's report was accepted by a unanimous vote. Percy Mims was chairman of the committee.

Grant Is Speaker
"The Importance of Metal Mining" was the subject of an address by Lester Grant at the meeting. The speaker was introduced by Bob Hill.

Grant told the history of mining, described how various metals are found and of methods to put them to commercial use. Various new metals were described and their uses explained.

Mining, Grant said, is a legitimate and basic business of civilization, but he advised Rotarians that if they wanted to invest money in mining they should first employ a mining engineer.

Troy West was the high school senior guest of the club at the meeting. The Rotarians voted to spend \$10 for braces for a crippled child from Midland now undergoing treatment.

WAR BULLETINS

WASHINGTON (AP)—The Navy reported Thursday that Japanese bombs falling on and near Corregidor had sunk the U. S. minesweeper Finch, 840-ton vessel built during the World War. The Finch went down without any loss of personnel.

BERN, Switzerland (AP)—Pierre Laval, advocate of French cooperation with Adolf Hitler, completed the formation of a new French government in Vichy Thursday night in which he assumed the post of "chief of the government."

RIO DE JANEIRO (AP)—Reports of a running sea fight in which the armed Norwegian merchantman Baalbek sank an Axis submarine were received here Thursday. The action took place off Brazil's north coast.

WASHINGTON (AP)—President Roosevelt reorganized the Office of Civilian Defense Thursday, retaining James M. Landis as director, but creating a civilian defense board to advise and assist him.

LONDON (AP)—The thunderous roar of hundreds of British fighter planes filled the English Channel sky Thursday in what coast watchers believed to be the RAF's greatest daylight sweep of the war against German holdings in France.

WASHINGTON (AP)—House passage by unanimous consent sped to the Senate Thursday legislation authorizing the construction of 200,000 tons of new submarines at a cost of \$900,000,000.

BUT BEYOND THE CROSS THERE IS A CROWN: And he that taketh not his cross, and followeth after me, is not worthy of me.—Matt. 10:38.

The Day Of The Substitute

For want of a nail a nation was lost! You remember—the want of a nail caused loss of a horseshoe, then the horse, the general, the battle and finally the nation. All U. S. industry is united today to see that no "nail" is wanting to win this battle.

Many of our sources of supply have been cut off—many vitally needed "nails" of production are difficult to get, and without some of these materials it might seem as if certain "horseshoes" would be impossible. But industry and science are developing substitutes for these "missing materials" as they disappear from the market. This is the day of the substitute, and in many cases the substitute may be coming to stay.

Metals—the backbone of America—metals for planes, for tanks, for ships, for ammunition. The mad scamper for materials to replace metals is giving plastics the greatest opportunity they have ever had to prove their industrial worth. There are plastics which are tougher than steel yet weigh but half as much.

Wool for our army—at the very time when the country needs it most to outfit a victory army with uniforms, blankets, and many other necessities a shortage of raw wool seems imminent, but industry is coming to the front with all sorts of substitutes.

Parachute troops in the United States need no longer depend on Japan for silk, and the Army may soon be marching on composition soles, which wear better than leather.

These are only a few of the many products. American industry is lining up for the future. Substitutes so that we can be independent of many articles that we used to import. Substitutes because there is one thing for which we know no substitute—our democracy and American way of life!

New Slogan

"You can't improve on perfection," people used to say. But now that slogan itself has been improved on. Progress has hit it, too, and today's byword is, "You can always do better."

At least, according to the news reports, that's what they're saying in war factories all over the country; it's one of the reasons for the rapid rise in output of the weapons we need so badly. Mass production of modern war materials requires a great deal of ingenuity and the development of many new techniques. Their development isn't easy, but, just the same, they are being perfected now, just as they have always been in peacetime.

You remember the early days of radio, when almost every man who liked to tinker with machines built a home-made set. A lot of them were improvised out of odds and ends—stray bits of wire, a few pieces of crystal, a couple of tubes, and a speaker made out of an old strip of metal. By today's standards they weren't the best—but they worked. And a lot of experiments carried on while they were built led to the perfection of the fine receivers we have today.

In this present emergency people are using makeshift equipment once again—this time to turn out weapons. The same ingenuity and imagination that developed automobiles, radios, and all our other world-changing inventions, are being turned now to war work. In our modern war factories production experts and workers are forever tinkering with old tools and making them do new jobs when new tools are not to be had. Makeshift operations of this kind enabled one automobile factory to produce guns almost five months ahead of schedule. Other companies have reported similar speed-ups. All along the line war work is going faster because Americans refuse to be stopped. With American ingenuity and determination, they can always do better—and they're doing it now.

—Buy War Bonds And Savings Stamps—

The War That Never Ends

No official communique was issued. Headline writers almost passed it up, unnoticed. But America has scored an important victory against a hated enemy, an enemy that has struck even at the President.

The good news comes from Dr. E. C. Rosenow, Mayo Foundation bacteriologist who reports that 25 years of research on the cause of infantile paralysis has been rewarded with the scientific proof that the minute, visible streptococcus germs, not an invisible virus, as commonly accepted, are the causative organism.

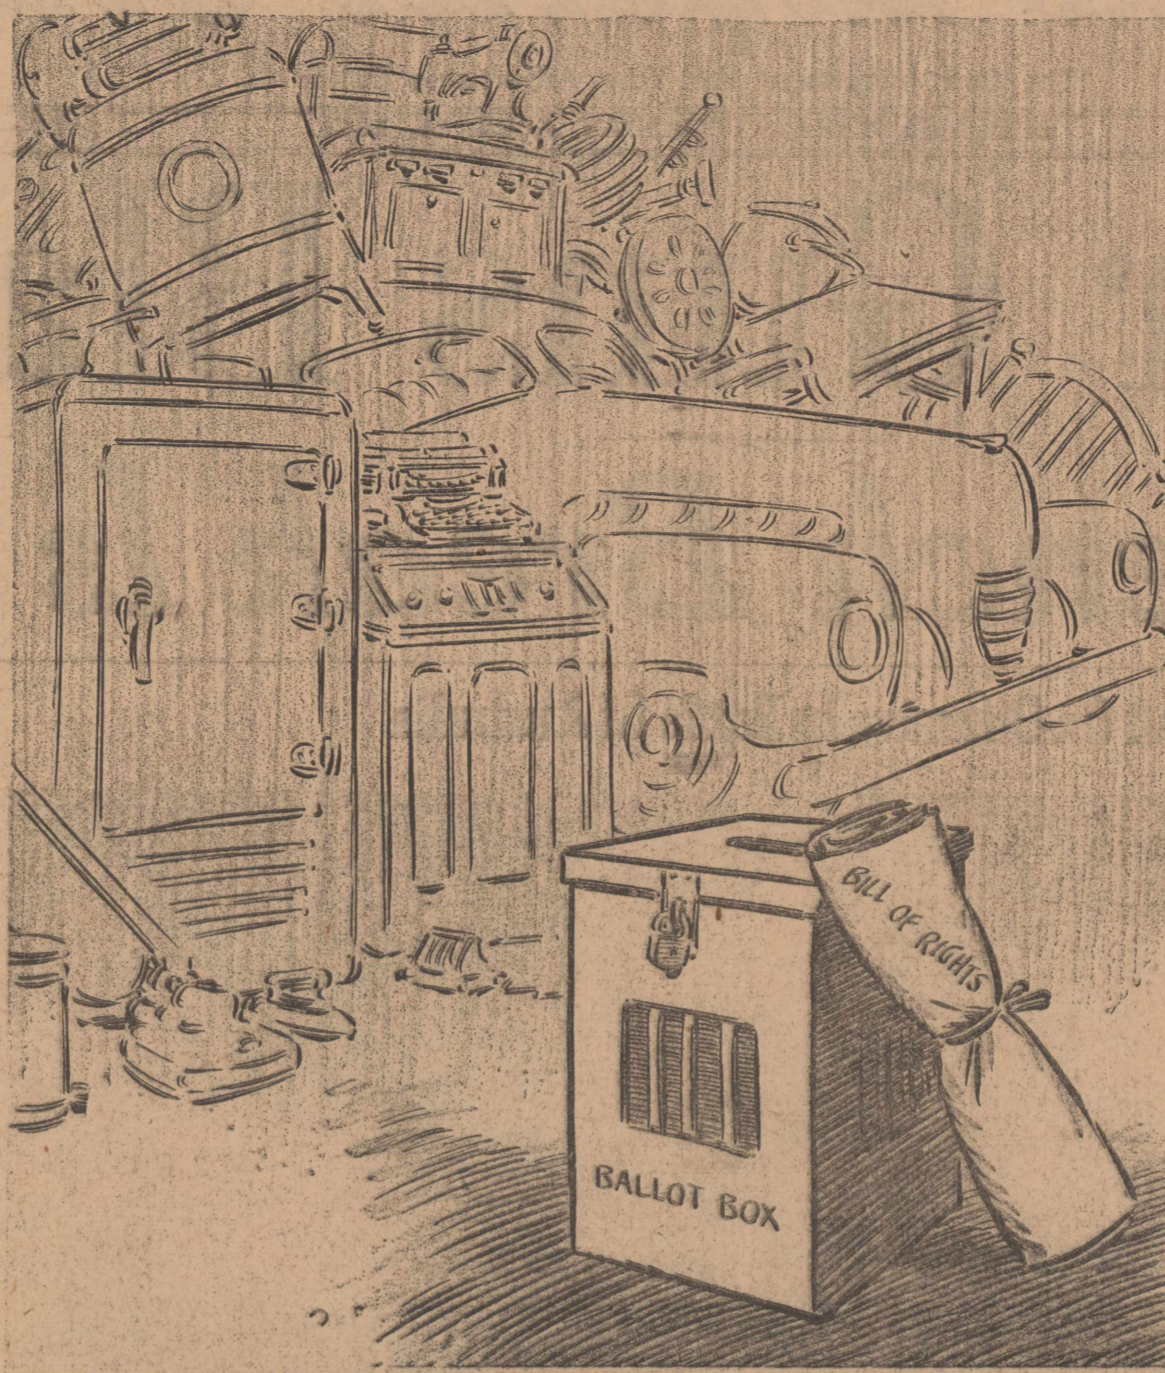

The doctor now proposes to use an anti-serum, already perfected, and possible skin tests to detect the disease in its earliest stages. He has practical proof in the use of the anti-serum on 2000 human patients, with marked mortality reduction.

This major victory, yet to be fully confirmed by subsequent practice, should not go unsung. Infantile paralysis needs no bombing planes, no saboteurs to strike at your own home. The war of science against this enemy goes on, in time of peace and time of war.

One machine makes 40,000 matches a minute—which apparently isn't enough to keep smokers from being out of them.

Among The Things We'd Lose If The Axis Won

With One Exception, Midland Army Flying School Has Most Perfect Weather Conditions For Flight Operation Of Any U. S. A. Field

With one exception, the Midland Army Flying School has the most perfect weather conditions for flight operations of any field in the United States, but that is sold comfort to the weather officer here. First, Lt. Donald C. House.

"A weather man never guesses when he makes a forecast," said Lt. House, "but in West Texas he sure sticks his neck out."

On an average of 288 days of the year the Midland Army Flying School's bombardier cadets, who are learning to operate the carefully guarded bomb sight with deadly accuracy, make their training flights over the MAFS bombing ranges under sunny skies. Lt. House believes that only the Murdoch Bombing Field at Bakerfield, Calif., has a better average—about 320 clear days a year. But it isn't the 288 good days at MAFS that bother Lt. House; it's the other 77.

The Guadalupe Mountains, a little more than 100 miles west, are the trouble-makers. The MAFS weather station will be keeping tabs on a storm approaching from the west. Complicated calculations will clearly forecast rain. Then the storm gets tangled up in the Guadalupe, and after it has passed them, it can't shed a drop. It just sails right over the flying school and doesn't get down to raining again until it is another hundred miles east.

But every now and then a storm right on raining as it goes crosses the mountains and goes on the field. That gives a headache to Lt. House and the fourteen men who work under him, for there is plenty to do around the weather station, even when the sun shines bright.

Large Weather Staff
The staff includes four enlisted forecasters, all with college training and graduates of Chanute Field (Ill.) Forecasting School, and ten trained observers, who also operate the teletype machines over which MAFS sends its hourly reports to weather bureaus as far away as

Kansas City, Phoenix and Fort Worth.

The men work in eight-hour shifts. On each shift is one man who makes observations at least once an hour, a second who enters these readings in the station's records, and a third who decodes reports that constantly pour in from 400 United States weather bureaus.

Without accurate forecasts the bombardier school, the largest of its kind in the country, could not plan the flying operations of the men it is training. Not a plane leaves the ground at MAFS without first consulting the weather station for information. The forecasting of MAFS is remarkably accurate, and the staff takes pride in its March record—only six predictions wrong out of sixty-two.

To fill a need for more skilled observers, Lt. House has started a training course open to all men on the post.

It's an excellent chance to learn a profession, and MAFS is offering it free to any enlisted man who wants to take advantage of the opportunity.

WAR QUIZ

1. This insignia is a dead giveaway. It plainly shows the wearer belongs to a parachute outfit. But which—Army, Navy or Marine?

2. Robert Gordon Menzies, a former prime minister in the British Commonwealth of Nations, warned the United Nations might lose the war. Is he English, Canadian, South African, New Zealander or Australian?

3. A returned American sailor described Murransk as a battered, but busy port. Do you know where it is?

Answers on Classified Page

Men Who Register April 27 Will Not Do Military Duty

One and one-half times as many men are expected to register April 27 as in either of the previous registrations, according to General J. Watt Page, State Selective Service director, who wrote to the Midland County Board regarding the registering of all men between 45 and 65.

Page pointed out that these men are not to be liable for military service, but will be registered in much the same manner. Local boards will conduct the registration, with the assistance of volunteers. Registration cards will be buff in color. There will be no national lottery, and no order numbers will be assigned, although the cards will be serially numbered by the local board.

Registration will be made as convenient as possible, with special provisions for transients. For the convenience of men subject to registration, but who expect to be away from the city or county on April 27, local boards will register all such on April 24 or 25.

Any person who is in doubt as to whether or not he must register should consult the registration officials.

Government Needs Old Surveying Instruments

DALLAS (AP)—Through the Division Engineers office here Thursday the War Department issued an appeal to the public for surveying instruments for the use of the Corps of Engineers in construction work.

Urgently needed are transits, levels and plane tables. The Corps of Engineers is prepared to rent, purchase or borrow these instruments, all sales to be made with or without recapture clause, as the owner shall desire.

The first visit of white men to the Texas coast took place only 7 years after the discovery of America.

Twenty Million Men Under Arms, As War Involves All Leading Nations

WASHINGTON (AP)—Nations at war today have more than 20,000,000 men under arms.

The total may even be as high as 30,000,000, for such figures have long since become jealously guarded military secrets, and in the case of some nations the last available military statistics are several months old.

When the war began for the United States on December 7, 1941, this country had an army of approximately 1,600,000 men, with 33 divisions.

U. S. Divisions
Of these 13 were National Guard "square" divisions of approximately 20,000 men each, nine were regular Army "triangular" divisions of approximately 15,000 each; two were cavalry divisions and four were armored divisions, the latter containing upwards of 12,000 men. The square divisions have been reduced in size and reorganized along the lines of the regular Army divisions.

Since then, the U. S. program has been stepped up sharply with the idea of an eventual goal of 3,600,000 men, including 1,000,000 in the Air Forces. Three additional armored divisions already have been organized and three more are to be formed in the next few months. Moreover, the Army plans to activate 32 new Infantry divisions during 1942, and some of these already have been organized.

Other Nations
Reports on the armed might of other nations have been obscured, but the most recent official and unofficial estimates, based on 15,000 men per division, give this picture:

Great Britain: From 3,000,000 to 3,500,000 men under arms.

Russia: At the time Germany attacked Russia, the latter probably had about 232 divisions and an army of around 5,000,000 men. New troops have been trained, but casualties also have been heavy.

China: At least 2,000,000, possibly as many as 6,000,000 men under arms.

Germany: From 6,000,000 to 8,000,000 men in the army, with about 300 divisions. In addition, Germany has called to a greater or lesser degree, on the armed strength of satellite Central European nations—Hungary's 200,000 to 400,000 men, Finland's 250,000 men, Bulgaria's strength roughly the same as Hungary's, and Rumania's army of more than 800,000.

Japan: Probably about 3,000,000 in the army, but military observers have said that Japan lacked the capacity to provide complete equipment for more than 66 divisions.

Italy: At one time probably 1,500,000 men.

The largest group of Indians living in Texas at the time of the coming of the white man was the Caddo tribe. The Caddos lived in permanent homes, tilled the soil and maintained a rather high state of culture.

MacArthur Attack Lifts Spirit Of Allied Nations

By DeWitt MacKenzie
Wide World War Analyst

MacArthur's great aerial coup against the four Philippine bases was in a manner of speaking a token raid, for one of its chief purposes was to place the General's seal on his pledge to take the offensive against the enemy.

That purpose has been so brilliantly achieved that the resultant lift to Allied morale rather pushes the material damage into the background. The thing which matters is that the Commander-in-Chief has spread his wings of victory and daringly spanned a 2,000 mile stretch of ocean to strike a mighty blow, thereby creating a record for such a major, long-range operation in the battle of the Pacific.

Uncle Sam's chin is a bit higher and his step a little more jaunty. Let the reader consult his own outlook. Don't you feel the uplift? Sure you do.

Goes Into Action
MacArthur has demonstrated by a dangerous but skillfully executed operation that America definitely is swinging into action after many disconcerting setbacks. He has given us an exhibition of the strategy upon which we are likely to depend, or so I believe, to crush the Japanese—war from the air with a vast navy of matchless flying fortresses and fighters.

The C-in-C has proved again that the Yankee airman is absolute tops as a fighter, and that American warplanes are worthy of these grand men. He has shown now, even in these early stages of the conflict while we still are in a state of preparation, the widely distributed Japanese bases and attenuated communications in the Southwest Pacific can be blasted.

Our leader has given Nippon a preview of the day when the sun over Japan will be obscured by an armada of American warplanes, for that is the way we ultimately shall exact retribution. When the Japs stuck a knife in Uncle Sam's back at Pearl Harbor they asked for trouble, and they are going to get their bellies full of it.

On the whole, this demonstration of air-power and military efficiency must be about the most disconcerting thing which has happened to the Japanese since they violated the laws of civilization in attacking us. At the same time, it should give the American public great courage and confidence, because it emphasizes again that when the United States once is fully armed, there is nothing on earth which can stop it.

General Royce Once Was In San Antonio In Command Brooks

SAN ANTONIO (AP)—Brig. Gen. Ralph Royce, who led the flight of 13 United States bombers in raids on Japanese bases in the Philippines, is another of the long list of Army officers formerly stationed here who are taking leading parts in the present war.

He commanded Brooks Field several years during the early 20's when the primary flying school was conducted here.

Born in Marquette, Wis., June 28, 1890, Royce was graduated from West Point June 12, 1914, and his first appointment was as a second lieutenant in the Infantry.

Royce served as a pilot during the punitive expedition into Mexico in 1916, and a year later went to France as commanding officer and pilot of the First Aero Squadron.

He served in the defensive sector near Toul, France, during May and June, 1918, and was awarded the Croix De Guerre for bravery while commanding the First Squadron in this sector. He also was engaged with the First and Second Army Corps at Chateau-Thierry and during the St. Mihiel and Meuse-Argonne offensives.

Royce returned to the United States in June, 1919, and was assigned to Fort Sam Houston. He was appointed Philippine Department Air Officer with headquarters at Manila on July 1, 1937.

Royce returned to the United States in 1939 as commanding officer of the 7th Bombardment Group at Hamilton Field, and a year later moved his group to Fort Douglas, Utah.

On May 3, 1941, he was assigned to duty in the War Department in preparation for his next post as Military Attache for Air in London, England, where he served from July 25, 1941, until he returned for active duty following the outbreak of the Pacific conflict.

Amichel was the first name given to Texas by Alonzo Alvarez de Pineda, probably the first white man to set foot on what is now Texas soil.

SOCIETY

Two Midland Women Are Elected To Offices In District Six PTA; Midland High PTA Wins Award

Mrs. L. G. Byerley, Outgoing President, Presented With Gift

Election of two Midland women to district offices and Midland High School PTA's winning of the award for the largest increase in membership marked the annual conference of the sixth district, Texas Congress of Parents and Teachers, which closed a two-day session at Sweetwater, Wednesday. The Midland High School PTA, with membership four times that of last year, led the PTA's of the district in increase.

Mrs. Ernest Sidwell was chosen recording secretary and Mrs. D. R. Carter parliamentarian for the district.

Mrs. L. G. Byerley of Midland, outgoing president, will be a state vice president for the next year and also district life membership chairman.

Frank Monroe, principal of Midland High School, is state chairman of recreation.

The new district president is Mrs. J. C. Stewart of Lawn and Mrs. Fred Stirman of Odessa is vice president.

San Angelo was selected as site of next year's meeting.

Panel Discussions
Three panel discussions featured the conference. Mrs. Carter and Mr. Monroe took part in panels and Mrs. Byerley presided.

Dr. Bernice Moore of Austin conducted a youth panel in which eight young people of Sweetwater participated.

"What the Superintendents of Schools Expect of Parent-Teacher Associations" was the subject of another panel in which the conclusion was reached that "There is no such thing as a problem child. It is the problem parent."

On behalf of the district, Mrs. Carter presented Mrs. Byerley with a silver bonbon dish in appreciation of her services as president.

Highlight of the conference entertainment was a chuckwagon dinner, Tuesday evening, at the Sweetwater Bowl.

Nearly 300 were present for the conference, the tire situation accounting for a decrease in attendance.

Present from Midland, besides those already named, were Mrs. L. F. Joplin and Mrs. E. E. Reigle. Most of the Midland group was present for the entire conference.

Two Hostesses For Shower Honoring Mrs. Bill Cook

Mrs. Bill Cook was complimented with a pink-and-blue shower for which Mrs. Curtis Cook and Mrs. J. C. Roberts, Jr., were hostesses at the home of the latter, 600 N. Colorado, Tuesday afternoon.

Gifts were presented to the honoree and refreshments were served. Attending were: The honor guest, Mmes. Mack Richards, Jack Lundie, Gene Washam, Elmer Bizzell, Jr., J. E. Wallace, Jr., Leo Jones of Odessa, A. L. Bryan, Nettie Tisdale of Odessa, Nancy Tisdale, L. E. Cook of Monahans, Lloyd Wimberly, Ray Pool, W. E. Hankla, H. A. Norton, J. C. Wats, C. E. Anderson, C. E. Hall, Opal Naron, A. G. Bohannon, Tom Hale, Ernest Richters, B. T. Hall, and the hostesses.

Sending gifts were: Mmes. Eddie Rutherford, A. T. Davis, Mary Bryant, Wayne Merriam, Dan Edinger, Helen Washam, I. J. Prager, R. A. Hale, J. C. Storman, W. H. Strader, H. C. Hannaford, Miss Daisy Tisdale, Mmes. Johnny Doyle, Bert Knight, R. A. Lamey, W. T. Chandler, Ed Damell, Elsie Carlson, Sam Wimberly, and Clay Cottrell.

Sorority Plans Founder's Day Banquet Program

Plans were made for the Founder's Day banquet at a meeting of Beta Sigma Phi Sorority in the private dining room of Hotel Scharbauer, Wednesday evening. A program was planned for the affair which will be April 30.

Mrs. M. D. Johnson, Jr., was in charge of the study for the evening, based on the text on "Happiness". Taking part were Miss Wilma Ruth Holman, Miss Roselle Girard, Miss Alma Heard, and Mrs. T. H. Stringer.

The chapter has received a new member, Mrs. O. I. Tufty, a transfer from the Alpha Chapter at Sioux Falls, South Dakota.

Present were: Mmes. Frances Stallworth, Buford Bain, Johnson, Stringer, Geo. Marquardt, Cecil Waldrep, Tom Potter, John A. Porter, Jimmy Walker, Riley S. Parr, Ralph Guyer, Misses Heard, Mac-dale Roberts, Norene Kirby, Marguerite Bivens, Girard, and Holman.

Next meeting will be Wednesday, May 6.

Maypole Theme Marks Party For Tachies Club

Miniature maypoles with tiny figures attached centered luncheon tables when Tachies Club members and guests met for a bridge-luncheon, Wednesday, at the Log Cabin with Mrs. Chas. Canfield and Mrs. H. E. Berg hostesses. The maypole theme was carried out in appointments.

Club guests were: Mmes. Kenneth Goetzke, J. G. White, Louis Matthei, Sam Parham, and W. A. Landreth.

Members present were: Mmes. H. L. Beckmann, Canfield, Harvey Hend, J. W. Hunt, C. M. Linehan, Stanley Moore, and Elwood Turrentine.

In the three tables of bridge played, high score went to Mrs. Beckmann, second high to Mrs. Turrentine, and bingo to Mrs. Linehan.

Next meeting will be the first Wednesday in May with Mrs. Herd and Mrs. Hunt hostesses at the Log Cabin.

Society Calendar

FRIDAY
Red Cross workroom in the Old Heidelberg Inn will be open Friday morning from 9 o'clock until 12 and Friday afternoon from 1:30 o'clock until 5.

Home nursing class for Women's Bible Class of the Church of Christ will meet with Mrs. Addison Young, 604 N. San Angelo, Friday afternoon at 3 o'clock.

Women's Golf Association will have its weekly luncheon at the Country Club, Friday afternoon at one o'clock.

Belmont Bible Class will meet in the educational building of the Methodist Church, Friday afternoon at 3:30 o'clock.

Senior Methodist League will have a weiner roast at the home of Mrs. N. G. Oates, 610 N. Main, Friday evening.

Ex-students of Hardin-Simmons University will meet at the First Baptist Church, Friday evening at 8 o'clock. Harry Hayes of Abilene, president of the Ex-Students Association, will be present. All ex-students and alumni of the school are urged to attend.

Advanced nutrition group will meet with Mrs. A. P. Shrey, 211 South L Street, Friday morning at 9:15 o'clock.

SATURDAY
Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Treble Clef Juvenile Music Club will meet at the Watson Studio, 210 W. Ohio, Saturday morning at 10 o'clock.

Soldiers' dance at the recreation hall, 213 N. Main, Saturday night from 8:30 o'clock to 11:30, for men in uniform and members of the Corps Club. No civilians. Corps Club members wishing transportation are asked to call hostesses.

There will be a dinner for Country Club members and their house-guests at the clubhouse, Saturday evening at 7:30 o'clock. Hosts will be Mr. and Mrs. P. H. Liberty and Mr. and Mrs. W. G. Henderson.

Carden, Maria Spencer, Kathleen Eiland, Iva Butler, Mmes. V. A. Walston, Robert Farmer, Lucille Arick and Curtis Erwin.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Present were: Messrs. and Mmes. Koch, K. S. Ferguson, Wheeler, John J. Redfern, Jr., Chas. Henderson, B. A. Ray, H. S. Forgeron, E. E. Reigle, W. C. Fritz, Geo. Gibson, John Kellough, Ely, R. M. Turpin, A. L. Gilbreth, Mrs. Bob Clarke, Misses Merle Smith, Gertrude Cronan, Annie Frank Stout, Gladys Pinson, Theresa Klapproth, Ruth

Mrs. Ernest Sidwell, district recording secretary.

Mrs. D. R. Carter, district parliamentarian.

AAUW Group Hear Talk, N.E.I.

Thomas W. Koch, geologist who lived for several years in the Netherlands East Indies, was guest speaker at the meeting of the International Relations group of AAUW at the home of Mr. and Mrs. H. S. Forgeron, 901 Cuthbert, Wednesday evening.

Mr. Koch discussed the various types of natives in the islands, noting their characteristics, and displaying and explaining some of their handwork. He told briefly of the various invasions which have played a part in the history of the land and answered questions asked by his audience.

He and Mrs. Koch displayed a beautifully-carved wooden head, Batik work, Dyak knives (which he praises as the best), jewelry, kris, a blowgun and other souvenirs of their residence in the N. E. I.

Miss Maria Spencer introduced the speaker.

About 40 persons, including AAUW members and their guests, were present.

Present were: Messrs. and Mmes. Koch, K. S. Ferguson, Wheeler, John J. Redfern, Jr., Chas. Henderson, B. A. Ray, H. S. Forgeron, E. E. Reigle, W. C. Fritz, Geo. Gibson, John Kellough, Ely, R. M. Turpin, A. L. Gilbreth, Mrs. Bob Clarke, Misses Merle Smith, Gertrude Cronan, Annie Frank Stout, Gladys Pinson, Theresa Klapproth, Ruth

Mrs. Fulton Hostess To Dessert-Bridge For Club, Guests

Iris from the hostess' yard decorated the party room when Mrs. Merle Fulton, 716 W. Kansas, entertained the Cactus Club with a dessert-bridge, Wednesday afternoon.

A trio of guests was present including Mrs. J. S. Lock, Mrs. Lester Short, and Mrs. O. L. McNew.

Members attending were: Mmes. J. W. Campbell, Wallace Ford, R. Chanslor, Robert Cox, and the hostess.

High score in the bridge games went to Mrs. Lock and bingo to

Modern Study Club Meets At Workroom

Modern Study Club met at the Red Cross workroom, Wednesday afternoon.

Present were: Mmes. Geo. Abell, A. J. Bedford, James H. Chapple, Austin Flint, J. M. Haygood, Lamar Lunt, H. E. McRae, Chas. Sherwood, D. H. Turner, Fred Turner, Geo. Vannaman, and J. M. Devereux.

The group decided to study current events for next year using the Time Magazine club plan. Mrs. Sherwood is chairman of the year-book committee.

Members present were: Mmes. J. W. Campbell, Wallace Ford, R. Chanslor, Robert Cox, and the hostess.

Next meeting will be with Mrs. S. H. Hudkins.

Sub-Deb Club Makes Plans For Picnic

Plans for a picnic on Saturday, April 25, were made by members of the Sub-Deb Club, meeting with Elsie Schlosser, 1714 W. Holloway, Wednesday.

Present were a guest, Patsy Warren, and the following members: Jo Ann Blair, Patsy Butcher, Otella Flynt, Wanda Girdley, Elaine Hedrick, Margaret Mims, Jo Ray Murray, Janice Pope, Virginia Stolte, Patsy Tull, and the hostess.

A refreshment course was served. The meeting was an outdoor one, held in the back yard of the Schlosser home.

Next meeting will be with Virginia Stolte.

Alpha Club Meets For Dessert-Bridge

Mrs. A. Knickerbocker, 409 North D Street, was hostess to the Alpha Club and a trio of guests with a dessert-bridge, Wednesday afternoon.

Two tables of bridge were played with high score going to Mrs. Ed Prichard.

Members present were: Mmes. Jas. N. Allison, Geo. Bennett, Roy Downey, Prichard, and the hostess.

Next meeting will be with Mrs. W. C. King.

Sugar Ration Blanks To Be Available Soon

DALLAS (AP) — Rationing blanks for retailers, wholesalers and industrial users of sugar will be available within a few days from local boards.

Max L. McCullough, regional director for the office of price administration, said Thursday the forms for the April 28-29 registration are in the mails.

Probably the first white man to visit Texas was the Spanish explorer, Alonso Alvarez de Pineda, who was sent on an exploring expedition in 1517 by Gov. Francis de Garay of Jamaica.

Reds Force Nazi Abandon Big Area South Of Moscow

KUBYSHEV, Russia. (AP)—Red Army units which knifed through the first line of Nazi fortifications in the Bryansk sector southwest of Moscow have advanced and occupied a dozen settlements abandoned by the Germans, dispatches said Thursday.

A central front report said the Germans were increasing their troop reinforcements constantly for sniping attacks against the Red Army.

It cited 18 minor counterattacks by the 263rd German Division. The 63rd Division was said to have tried 12 all failing, and six reserve battalions which recently joined the 63rd were said to have been badly mauled.

Thawing of snowbanks has uncovered the bodies of Germans killed in winter operations, adding to horrible aspects of the front, the dispatch said.

Red Army forces, already credited with breaking the first German lines in the Bryansk sector, have captured another fortified point on the central front, the Russians announced.

"In the course of the day and night the Germans lost more than 500 officers and men killed," the Soviet information bureau said.

Front line dispatches said guerrillas hampered the movement of Nazi reinforcements to the Bryansk sector.

The Russian irregulars were reported to be wrecking trains, sniping at motor transport outfits and attacking airdromes.

Bill Asks Power To Seize Cars For War Purposes
WASHINGTON (AP) Senator Downey (D-Calif.) Thursday introduced a bill that would give the President power to seize any and all privately-owned automobiles.

At the same time, the California Senator recommended that immediate steps be taken to "remove some 10,000,000 cars from the roads and place them in a vast pool to meet a serious transportation crisis we can expect within a year or so."

SERIAL STORY

FRANTIC WEEKEND

BY EDMUND FANCOTT

THE STORY: Returning on a train to Montreal after a week-end vacation, Myra Mack, a plain, likeable young stenographer, strikes up conversation with a Canadian Lieutenant. Their introduction is mutual admiration of a pretty girl on the station platform.

CHAPTER II

"I KNOW where I've seen you!" said the soldier suddenly, snapping his fingers as his memory obeyed him. "You're the girl Ferdy Lorton painted, against a background of Laurentian hills."

Myra stared at him. "Don't tell me you know Ferdy?"

"I do. He's a great friend of mine."

Myra nodded. "It doesn't surprise me. He's a great friend of most every man in Montreal."

"I'd better introduce myself. Nigel Monkhouse, lieutenant, Royal Canadian Artillery. I saw your picture first in the Spring Exhibition."

"Luckily most of my friends didn't recognize me," said Myra. "I'd never have lived it down. He had a crazy idea that there was some relation between all those bumps and hills in the Laurentians and my face."

"Maybe he was right at that."

"Ferdy thinks the world of you."

"In a purely platonic way, of course," said Myra. "Now if you really want to meet that rhapsody in blue, he is the man to help you. He not only knows every man in town, but sooner or later he seems to meet all the prettiest girls."

Lieutenant Nigel Monkhouse puffed at his cigaret. He nodded slowly. "It gets me. I don't know how he does it. With that sandy hair and that grin of his, I suppose. He's not tall, he's not dark, he's not even handsome, he looks at times as though he slept out all night on the tiles, and yet he always seems to have a pretty girl or two in love with him. There should be hope for me."

He said it half humorously but Myra took him up.

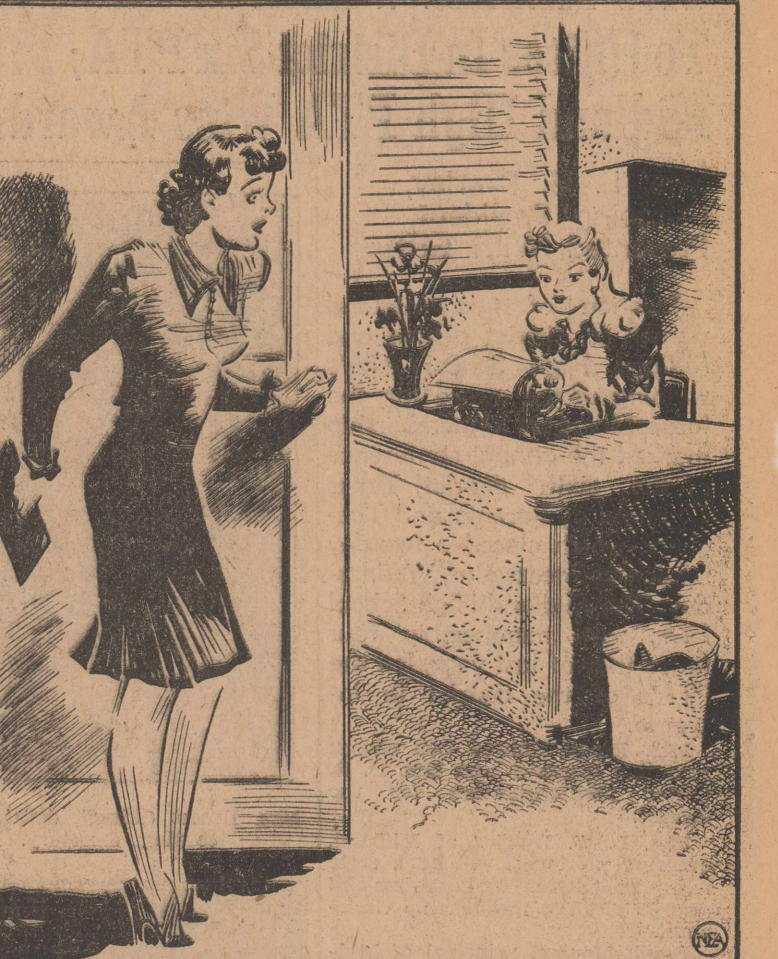

"I doubt it," she said. "You're a nice enough boy, but you've got no nerve. The ones that speak to me like you did are always the ones that would run a mile before speaking to a girl like Blue Hat on the station."

Nigel Monkhouse blushed and grinned. "Well there's something so comfortable about you . . . no nonsense and all that sort of thing."

Myra shook her head without the flicker of a smile on her face. "No. That's not it. I know your type. You look at a pretty face and fall for it and it frightens you so much you rush right into the arms of a motherly sort to tell her all about it. But that's the way it goes. You pay for your weaknesses in this world. Here we are at Montreal West and you could have been sitting with the redhead all this while in an aura of ecstasy, instead of with a deadpan like mine. That is if you'd had enough nerve."

There the incident might have ended. The conversation made the rest of the journey to Montreal go very quickly. Myra said a quick farewell to Lieutenant Monkhouse on the station platform and made her way to St. James Street and the office.

THE offices of Consolidated Steel were even more busy than usual with war work and Myra

In the outer office Myra saw Miss Blue Hat at a desk and crossed to her. "I saw you on the platform at Lakeside this morning."

was soon plunged into the Monday thick of it. She was secretary to Mr. Macallum and the more his work grew the more hers increased. By eleven o'clock she had forgotten about the girl at the station and the shy young officer in the train. In fact she had forgotten all about the weekend by noon and it seemed as though she had never done anything but work.

But two interesting things intruded into the busy morning. Her young sister telephoned to say that her brother had arrived home suddenly from England. That was important news. He was Myra's favorite brother and had been overseas with the First Canadian Division since the first sailing; his return was unexpected. But apparently he had been commissioned in England and was one of a number of officers sent back for posting to the Third Division.

The other thing that happened was not so important.

"Miss Mack!" Mr. Macallum's voice startled her from a steep stack of papers she was sorting. "I want you to slip over to Ransom's office. As she reached the door it opened and she bumped right into the girl who was coming out. She gasped and the girl gasped, then the girl apologized but Myra only stared. Miss Blue Hat—the girl on the station platform.

MYRA went past her and delivered her envelope. Mr. Ransom asked her to wait outside for a return envelope which would be ready in a minute. In the outer office she saw the girl at a desk and crossed to her. "Sorry I banged into you so hard just now."

"Why not?" echoed Myra slowly. "Well, if you ask me, I should say you make up to compete with women rather than to interest men."

A smile flickered for a moment on the girl's face. "You might explain."

"Simple," said Myra. "Look at your lips and your eyes. If you had a face like mine you'd need twice as much as that, but with a face like yours you need about a quarter of it."

There was no time to say any more because a boy had brought an envelope to Myra who smiled at her well to the girl and moved to the door.

The girl watched her go with a faint smile playing about her lips. Then Mr. Ransom came out of his office and crossed to her.

"Well, Fay," he said to his daughter, "what does an office feel like after the hectic life?"

"Not so bad." She smiled up at him. "One meets as many strange people here as anywhere else. Who was that girl who came in just now?"

"That girl? Oh, John Macallum's secretary. He thinks the world of her. I could use a girl like that myself."

"Won't I do?"

"Temporarily, yes, my dear. Until we get some real work to do." (To Be Continued)

Hard Work, Fun, And Lonesomeness Found By Our Boys In Australia

U. S. ARMY HEADQUARTERS IN AUSTRALIA (AP)—United States soldiers encamped in Australia are discovering that Army life is Army life wherever they go—a mixture of hard work, fun and boredom.

"About the only difference is the food," said Private Louis Sandor of Cleveland. "We do not have as much variety as back home and the helpings aren't as big. At that, it's better than we figured on for war time. We are not kicking."

The Army brought large quantities of canned foods, Australia is providing fresh fruits, vegetables and dairy products.

Reveille is about 6 a. m. The work day ends at 5 p. m. After dinner there usually is entertainment in the camp meeting hall or a large tent. Most tennis courts and golf courses are open to soldiers free.

Two Night Leaves
 The men get a couple of nights leave a week, in rotation. Those near cities may go to restaurants, movies, plays, skating rinks and dance halls. Saloons are closed after 6 o'clock. City parks, race tracks and fair grounds are among the camp sites.

At one seaport camp the soldiers do stevedore work to help relieve the Australian labor shortage. At another the men are engaged in airport tasks. At others they spend long hours on the target ranges.

Texas War Work To Be Stepped Up Soon

DALLAS (AP)—Texas' lead in war production and military cantonments will be further increased U. S. District Attorney Clyde O. Eastus predicted on returning from Washington.

Texas "haven't seen anything yet to what they will see in government activity in the state," he declared.

Eastus announced establishment of a regional office of the land division of the department of justice here to acquire more property for government use.

ANSWERS TO WAR QUIZ

Questions on page 2

1. He is a parachutist in the U. S. Marines.
2. Menzies was prime minister of Australia.
3. Murmansk is an Arctic port of Russia in Europe.

Texas is the only state in the Union which has been an independent nation.

It is estimated that Indians were living in Texas 100,000 years ago.

Hidden Base Used By Attackers Is To Be Used Again

UNITED STATES HEADQUARTERS IN AUSTRALIA (AP)—Brig. Gen. Ralph Royce, volunteer leader of the bomber squadron which delivered the United States' first long distance smash in the Philippines, disclosed Thursday that the raiders used a base hidden in the islands, protected by fighter planes, and provisioned it for future use.

Twelve planes of the 13 which for two days wrought destruction and dismay among the enemy at the start of the week ferried 44 passengers on their return trip to Australia—30 crewmen from a fortress bomber lost on the foray and 34 Army men and civilians from Bataan, Corregidor and other island points.

Most of the evacuees were airmen, indicating that while the Americans still have fighting planes in the islands, as Royce said, they have a surplus of men to fly them.

Royce said that the morale of the men left behind was excellent, especially now that they have plenty of food. The American fighter planes cooperated with the Australia-based bombers, shooting down two Japanese planes that tried to attack the bomber squadron.

The hidden field served the 10 medium and three fortress bombers as a forward base on their 4,000-mile roundtrip attack. The fortress craft lost on the flight was grounded there, having an engine changed, when a Japanese bomb hit destroyed it in flames.

The advance base may figure prominently in future attacks, for the assaults of last Sunday and Monday were acclaimed here as only a sample of heavier blows still to be delivered in an effort to turn the tide of battle in the Southwest Pacific.

Indeed, Australia's prime minister, John Curtin, declared Thursday that the Royce exploit showed that the tide of war was turning against Japan.

He added that it was but the first drive into the heart of Japanese military positions and in time would be followed by the operations of vast air fleets.

City Council—

(Continued From Page One)

Propose New Garbage Plan

A proposed garbage ordinance, requiring payment of fees for hauling garbage ranging from 50 cents monthly for a residence upward was pending on the amount of waste collected, was discussed and referred to a committee composed of Councilmen Dana M. Secor, Paul McHargue and D. H. Roettger for study.

They will make a study of fees charged for this service in other communities of this area.

A request from approximately 20 residents of the negro and Mexican sections of the city for water service also was discussed. Officials estimated 1800 feet of 2-inch pipe, costing \$630, would be required to serve the area. Whether federal war regulations will permit the use of this pipe will be determined.

A proposal for filing special assessment certificates on all delinquent property accounts also was discussed during the session, but action was deferred until the next meeting. It filed with the county clerk each certificate becomes lien on the property if it is ever sold.

Secor—

(Continued From Page One)

test the recent city election, and based upon his resignation of his office and request that Mr. Secor be declared elected thereto, the city council of the City of Midland unanimously declares Mr. Secor elected councilman for Place No. 4.

As soon as the formalities were completed, the council dug into its regular business.

Trial Of Homer Bartchy Starts In Houston

HOUSTON (AP)—Trial of Homer Bartchy, alias Homer Brooks, former gubernatorial and senatorial candidate and state Communist ticket, began here Thursday on a charge that he failed to report for induction or to keep his draft board informed where mail could reach him.

Bartchy was arrested in New York recently and returned here for the trial.

LIVESTOCK

FORT WORTH (AP) (USDA) — Cattle 1,700; calves 600; steers and yearlings barely steady, other classes cattle and calves firm; good fed steers and yearlings 11.50-12.50; common and medium grades 8.75-11.25; beef cows 7.50-8.50; bulls 7.50-11.25; beef cows 1.50-9.50; bulls 7.50-12.00-13.50; common and medium lots 9.00-11.50; good and choice stocker steer calves 12.00-14.00.

Hogs 2,300; top 13.95; packer top 13.85; good and choice 180-280 lb 13.75-95; good and choice 160-175 lb 13.25-70.

Sheep 9,500; all classes steady; spring lambs 11.00-12.00, clipped, lambs mostly 9.00-25; no choice clipped lambs offered; to year old wethers with number 2 pelt 8.00; fresh shorn aged wethers 6.50, shorn feeder lambs 7.00-8.00.

Wool

BOSTON (AP)—(USDA) — The Boston wool market was fairly quiet today. There was some demand for graded fine territory wools of average to good French combing length at \$1.15 to \$1.18, scoured basis. Fine clothing territory wools brought mostly \$1.05 to \$1.08. Graded three-eighths and quarter blood combing bright fleeces wools had a little demand at 52 to 53 cents, in the grease.

High School Actors Do Well With 'Ile', Eugene O'Neill Play

"Ile", a one-act play presented by the Midland High School Dramatic Club before the West Texas Geological Society at noon Thursday, is one of the typical Eugene O'Neill sea stories, and was well handled by the young cast. Coached by Miss Pauline McMurrey, speech and dramatics teacher in the high school, the play was selected because of the especially good talent available for a play of such type.

MISS PAULINE McMURREY

Joe Haygood carries the role of Captain Keene, Kathryn Hanks that of Annie the wife, Tommy Nolan the steward, Glenn Murray the cabin boy, Roy Long the second mate, Glenn Parrott the role of Joe, and Billy Brown that of a member of the crew.

Suited as it is to a small setting, the play will be presented several times. Friday it will be shown before the Junior Chamber of Commerce luncheon, and on Wednesday night, April 22, will be presented on the stage of the Yucca theatre, starting at 9 o'clock.

The cast took first honors with the play in the recent interscholastic meet, held in Midland, and Haygood took honors as an individual actor.

Oil News—

(Continued From Page One)

western Andrews County, recovered 90 feet of drilling mud slightly cut with gas when two-hour drillstem test was taken of zone from 7,320-50 feet. It is drilling ahead past 7,378 feet in lime.

Fullerton No. 2 Wilson is drilling lime at 7,165 feet and No. 3 Wilson lime at 6,595.

Thirteen miles west of the Fullerton pool Humble No. 1 Sims et al is drilling below 1,655 feet in anhydrite. Top of anhydrite has not yet been announced by the operator.

Mascho Oil Company of Midland No. 1 University, in Southern Andrews, drilled plug from a 5 1/2-inch casing cemented at 4,373 feet and showed a scum of oil, with a little gas, in swabbing fluid down to within 400 feet of bottom. Total depth is 4,514 feet in lime. Operator will run tubing, test further, then acidize.

An 8,500-foot Ordovician test in Southwestern Andrews, Phillips No. 1-A University-Andrews, is drilling in lime at 7,075 feet.

Bicycle Laws—

(Continued From Page One)

fingerprinting move has been discussed with officials and everyone is in favor of the idea. There will be no compulsory move made, but anyone wishing to be fingerprinted may do so.

Attending the meeting besides the president and secretary were: Mrs. George Glass, representing the Women's Wednesday Club; Mrs. P. D. Monkress of the 20th Century Club; Mrs. Paul Casper of the Delphian Club; and Mrs. H. A. Hemphill of the Junior High School P. T. A.

LEAVE FOR SAN ANTONIO

Joe Mims and Ed Prichard left Thursday morning for San Antonio on business.

British, Russian Air Attacks Are Gaining Strength

LONDON (AP)—Royal air force bombers "heavily attacked" the Ruhr last night in the second large scale penetration of Western Germany in as many nights, the air ministry announced, and today the around-the-clock offensive continued with forays across the channel.

LONDON (AP)—The Vichy radio broadcast Thursday that a fire of enormous proportions had been raging for two days in Fontainebleau and had burned 250 homes. Fontainebleau is two miles from the left bank of the Seine and 37 miles southeast of Paris.

Fighters and bombers joined soon after daylight in a sweep over the Dunkerque area, the scene of the dramatic British withdrawal from France in 1940, authorities said.

Four planes were announced as missing from the night attacks which also included raids on St. Nazaire, docks at Le Harve and airbases in the low countries.

The Ruhr, site of the Krupp works and other industries which form a backbone of the Nazi war effort, caught most of 1,000 tons of bombs reported dropped on Germany last week and observers expressed belief it was well on the way toward receiving another 1,000 tons this week.

KULBYSHEV, Russia (AP)—Major Nikolai Krainev, aviation authority of the government newspaper Izvestia, declared Thursday that Russian forces had destroyed more than 1,000 German planes in March and another 500 in the first 10 days of April alone as the Nazi air force swarmed to the front in spring observations and attacks.

Friendly Planes Bring Raid Alert

SAN FRANCISCO (AP)—San Francisco and the bay area had its first daylight alert of the war Thursday as listening posts flashed warnings of the approach of unidentified aircraft.

The alert, sounded at 9:57 a. m. lasted only until 10:12 a. m. when the planes were identified as friendly.

Radio broadcasting stations were ordered off the air at 9:51 a. m.

The alert, which precedes any warning of an air raid alarm, caused no stoppage of work.

Teachers Resign At More Than Twice Usual Rate In 1942

AUSTIN (AP)—Texas teachers have been resigning at more than twice the usual rate this year, according to a statement made to the state board of education by B. F. Pittenger, president of the Texas State Teachers' Association. He warned that if the movement continues unchecked the training of high school students in mathematics, shop work, physics and chemistry will be very adversely affected. Eighty-six per cent of all the changes among high school teachers during the first half of the current school year have been in these fields.

Since most of the men teachers in high school are in these fields, Pittenger said, the draft and attractive inducements to go into war production work and other related activities are responsible for their leaving. No doubt, he said, the services of these teachers are badly needed in the places to which they have gone, but sooner or later the supply of trained persons in these subjects will come up short, both as to quality and quantity.

Gomer Smith Enters Oklahoma Campaign

Smith, a lusty campaigner in Smith, Oklahoma City attorney and former congressman, entered the race for the Democratic nomination for governor of Oklahoma Thursday.

OKLAHOMA CITY (AP)—Gomer four previous statewide races, said he would make formal announcement of his candidacy in a radio address Friday night at 8:30 p. m.

Recklessness Cause Of Air Accidents

WASHINGTON (AP)—Lieut. Col. S. R. Harris, chief of the Air Corps safety section, disclosed Thursday that 79.98 per cent of all Army aircraft accidents in the last fiscal year were caused by errors or omissions on the part of personnel.

"The vital drive, the urge to fly in a manner approaching recklessness, the lack of fear that makes our pilots feared and respected in combat also makes for airplane accidents in routine operations," he told Senator Johnson (D-Colo.).

Texas Aggie Has Different Idea

COLLEGE STATION (AP)—A Texas Aggie whose uniform is the same as those of regular Army units dropped in at the Houston USO headquarters last week-end and a kindly lady, trying to be as motherly as possible remarked:

"I think it's wonderful so many of you fine boys are willing to lay down your lives for your country."

The Aggie quickly set her straight: "No'm, I don't intend to do that. I aim to make the other guy lay down his'n."

Hobby And Wiess To Address Oil Meeting

SAN ANTONIO (AP)—Former Governor W. P. Hobby of Houston will address the fifth annual South Texas Oil Men's meeting Friday.

Harry C. Wiess, president of Humble Oil and Refining Company, W. M. Griffith, vice president of Plymouth Oil Company, and Maj. Gen. Richard Donovan, Commander of the Eighth Corps Area, will attend.

The meeting is sponsored by the South Texas Chamber of Commerce.

To Ring Doorbells; Sell Victory Bonds

WASHINGTON (AP)—Secretary Morgenthau said Thursday the Treasury plans to "ring" every doorbell in the country once a month, in an effort to increase voluntary purchases of War Savings Bonds.

He made the statement to the House Ways and Means Committee as he advocated a continuation of the voluntary savings program, then added quickly:

"We don't intend to paint houses yellow or put them behind barbed wire if they don't buy these bonds."

No Rubber In New Tires Being Made

AKRON, Ohio (AP)—Goodyear Tire and Rubber Co. is testing automobile tires made without rubber.

"We have test cars on the road which are running on tires made without rubber," said an announcement. "We can make no further comment on this development at this time."

Morgenthau reiterated a previous statement to the committee that he wanted to try out the voluntary system at least until July 1.

WELCOME

to SUPER FOOD VALUES

NEW NEIGHBOR WEEK

There are several reasons why it will pay you to get acquainted with West-Tex. You'll discover how easy and enjoyable shopping can be. You'll be sure of the full-flavored goodness of every food you buy. And, last but not least, you'll get real low prices every day of every week. . . SUPER FOOD VALUES that help solve your budget problems. Come in today and look around. Seeing is believing—and you'll see convincing proof of economy in every appetizing display.

The Great Joe DiMaggio Gets Homer, Double, Single As Yankees Take Washington 9 To 3; Newsom Fails

By Judson Bailey

The rookie who has made probably the flashiest debut in the major leagues this year is Willard Marshall, an unheralded outfielder of the New York Giants, whose story is one of baseball's strange interludes.

When he bashed a terrific belt into the upper rightfield stands at the Polo Grounds for a home run with the bases loaded to beat the Brooklyn Dodgers 6-4 Wednesday, a lot of people began wondering who he was and where he had been. As a kid fresh out of Wake Forest College he was something of a sensation his first season, getting 14 home runs and batting .314 in 1940.

His second time around this time with the Southern Association Marshall's batting average dropped to .276 even though he stepped up his home runs to 21. Atlanta put him on the market last winter but there was no eager waiting list. Brooklyn turned him down for \$20,000. The reason was that Marshall had become susceptible to the draft—turned 21 just three days before the registration in February.

Finally the Giants took him to camp on a basis of no down payment and \$30,000 if they kept him. Mel Ott took a quick look at the recruit in Miami and made him a regular outfielder, first in center and eventually in left.

DiMaggio Gets Homer
Another New York club collected a dividend on a big investment Wednesday at Washington, where Joe DiMaggio led the Yankees to a 9-3 triumph over the Senators.

DiMaggio wangled a contract for \$42,000 out of the world champions last month to become the highest salaried player in baseball. To show why he is worth it he hit his first home run of the year with two on in the fifth and added a double and a single to drive in a total of five runs. This assault spoiled the return of Washington's prodigal pitcher, Buck Newsom.

Another important home run of the day was delivered by a rookie trying to make good — shortstop Vernon (Junior) Stephens of the St. Louis Browns, who connected with two aboard in the ninth inning at Chicago to whip the White Sox 6-5.

Rudy York homered with one on and Paul (Dizzy) Trout hurled seven-hit ball as Detroit crushed Cleveland 6-2, and Joe Dobson pitched the Boston Red Sox to a 3-1 victory with a six-hit job on the Philadelphia Athletics.

National League
In the National League the St. Louis Cardinals turned the tables on the Chicago Cubs 4-2 as Harry Gumbert distinguished himself with a four-hit pitching performance.

The Pittsburgh Pirates solved Elmer Riddle with a five-run raid in the first inning and won 6-2 on six-hit pitching by Lloyd Dietz. The Boston Braves punished the Philadelphia Phils by the same score with Jim Tobin hurling a steady eight-hit game and hitting a two-run homer.

Hardin-Simmons Exes To Form Association

Hardin-Simmons University alumni and ex-students in the Midland area will hold an organization meeting to form a permanent association, at the First Baptist Church here, at 8 p. m. Friday.

The date is the annual Founders' Day for the Abilene university, observing its Golden Jubilee anniversary this year.

Mr. and Mrs. Halle Daniel, Mrs. Ray Howard, Wallace Wimberley, and others are an informal committee making plans for the event, to which all H-S exes are invited.

Harry H. Haynes, university field representative, will come here for the meeting.

It is estimated that around 30,000 Indians lived in Texas at the time it was discovered by the Spanish.

All Star-Army Game Prospects Grow Brighter
NEW YORK (AP)—Members of baseball's advisory council went in to another huddle Thursday amid enough gold braids to indicate that a game between a major league all-star team and the best players of the nation's Armed Forces might be added to the summer diamond menu.

The game would be played July 7 in Cleveland's Municipal Stadium, just 24 hours after the annual All-Star game between the picked teams of the two major leagues in New York.

Both dates, as well as the sites, were selected Wednesday when Commissioner Kenesaw M. Landis, President Will Harridge of the American League, and President Ford Frick of the National League, the council members, opened their two-day conference.

In addition, the council decided that both games should be played at night in order to get as large crowds as possible.

If the council decides against the Service game, the Cleveland contest will be a repeat performance of the July 6 outing.

ALBUQUERQUE HAS BASEBALL TROUBLE
ALBUQUERQUE, N. M. (AP)—The Albuquerque Dukes are less buoyant about the start of the West Texas-New Mexico league April 28.

A hustling New Mexico University nine downed them Wednesday, 11-7, in a 10-inning game.

Beaumont, Fort Worth Play Shutout Games In Hot Texas League

By The Associated Press
The Houston Buffs took their third whitewashing in four starts Wednesday night when Spud Overmire, pudgy little southpaw, scattered five hits to give Beaumont a 4-0 win.

Oklahoma City's Indians handed the Dallas Rebels their fourth straight Texas League defeat, 5-1. Fort Worth nosed out Tulsa, 1-0, and San Antonio beat the Shreveport Sports 3-1.

Impotence at the bat with men in position to score cost Dallas' team. The Indians got to pitcher Johnny McPartland for five hits and five runs in the third inning.

Except for the third inning, McPartland pitched excellent baseball until the seventh, when he retired for a pinch hitter, with Clem Hausmann, another youngster from the West Texas-New Mexico League, finishing.

At Houston, Pierre Roy, up from the Canadian American loop, started for the Buffs and was banged for nine hits and three of the runs during his seven inning hitch. Ralph Scheef finished and gave up two hits and one run.

Bill McClaren was the big noise for the Shippers. His triple in the opening inning scored J. P. Wood, who had walked and that was enough for Overmire.

Julian Tubb of Tulsa allowed only one Port Worth runner to reach first base, but that runner scored and Tubb lost his ball game, 1-0.

Bunched hits, aided by errors, enabled the San Antonio Missions to score three runs off Bruz Hamner and beat the Sports, Speer, who relieved Hamner in the third, never was in trouble.

Sports Roundup

By Hugh Fullerton, Jr.
Wide World Sports Columnist
NEW YORK (AP)—The way Larry MacParril figures it, the Giants' and Dodgers' contributions to Army and Navy Relief may amount to as much as one third of the whole season's profits.

They're each giving the entire "take" of a game against the other, which ordinarily would be \$20,000 to \$25,000, and Larry figures a club that clears more than \$75,000 above all expenses is rolling in dough.

Eddie Ainsmith, who used to catch Walter Johnson, has been appointed athletic director at the Republic Aviation Plant at Farmingdale, N. Y., and Tex Carleton, the old National League pitcher, will handle a similar job at the new Consolidated Bomber Plant at Fort Worth.

Both will concentrate on getting as many employees as possible to participate in some kind of athletic activity.

Superstitious? Jack Meagher, Auburn football coach, won't let any of his boys wear jersey 13 since one of them broke a leg while wearing that number some years ago.

Jimmie Hitchcock, his assistant and head baseball coach, uses 13 every chance he gets. . . . Welterweight champ Red Cochrane has written the lyrics for a song, "Hail To The Navy," composed by a shipmate, Art Small.

Today's Guest Star
Sam Atcheson, Memphis Commercial Appeal: "They say that there's a movement on to stop Sunday fishing. What's the use-fishermen would only lie about something else?"

Service Dept.
All-America Johnny Harmon and All-America John Kimbrough both are stationed at the Santa Ana Calif., Air Corps Replacement Center. When last reported Lieutenant Kimbrough was a tactics instructor and Cadet Harmon was on K. P. duty. . . . The sports experts of the ninth division at Fort Bragg, N. C. (and that includes practically everyone in camp) predict another nickel world series between the Yanks and the Dodgers. The ninth is mainly a Brooklyn outfit.

Private Joe Collins, veteran Oklahoma high school coach, is taking orders at Abilene, Texas, from a sergeant who was center on Collins' Garber high team two years ago. . . . Earl Flora, former Ohio State Journal sports writer, has the laugh on other members of his profession. While the scribes have had to return from the south for the baseball season, Earl is in the Air Corps Officers' Training School and is occupying a room in a swanky Miami Beach Hotel.

Pop Pops Off
"General MacArthur and General Wainwright both were star baseball players at West Point. . . . Anybody should know that from their Bataan averages."

Baseball Certainties Of 1942

MAFS Softball Loop Having Hot Battles

Scoring—and a lot of it—was in order in the Midland Army Flying School Softball League Tuesday and Wednesday, Tuesday, the second day of play in the newly organized league, the 852nd Ordnance Squadron stopped the 489th School Squadron 11 to 5, and the Medical Detachment rolled over the Quartermasters 19 to 14.

And Wednesday, the Bombardiers really got in the saddle for big scores. The 486th School Squadron scored 39 direct hits on the 97th Material Squadron's hurler to take the game 39 to 12.

In the show-stealing game Wednesday, Headquarters and Headquarters combined a triple-killing play, some masterful pitching by Rod Riquez, and three home runs to stop the 493rd by a 14 to 3 count. Durant, Headquarters center fielder, started the triple play, and when it ended the 493rd was retired. Jennings did a short stretch of mound duty for the winners. LaFerney and Riquez gathered the two homers along with another by an unidentified player.

Jaycees Announce New Committees

Members of the Midland Junior Chamber of Commerce will meet at the Crawford Hotel Friday noon for their regular bi-monthly luncheon, with Clint Dunagan, new president of the organization, presiding.

A new committee setup will be announced and objectives for the year will be discussed. Dunagan said the war effort will head Jaycee objectives for the coming months.

The twelve standing committees of the organization have been divided into two groups, with Vice President Taylor Cole having been appointed general chairman of one group, and the second vice president, Frank Monroe, general chairman of the other group.

Committees under Monroe's direction include safety, Americanism, sports, victory bonds, MAFS, and Army and Navy enlistments.

Social affairs, program, publicity, membership, attendance and get-out-the-vote are the committees under Cole's direction.

Brooklyn Dodgers Resume Support Of Their Dependent N. Y. Giant Team

Durocher and Frisch Pay No Heed To New Ban On Charging Umps
By Harry Grayson
NEA Sports Editor
NEW YORK (AP)—Them Beautiful Bums lost no time in resuming the support of the dependent Giants.

All boxes and reserved seats—the gravy—for the opener at the Polo Grounds were sold days in advance, the inimitable backers of the Brooklyn crossing the river in force.

Meanwhile, the Braves and Phillies were virtually starving to death at Shibe Park, while squawking about the rich getting richer, etc.

Inasmuch as the Brooklyn-New York feud is a Grade A draw at any time, sending the Dodgers against the Giants in the opening game and matching these outfits in two of the three holiday double-headers is indeed poor business for their poor relations.

It is mis - scheduling like this that causes Gerry Nugent of the Phils to reiterate: "We're broke, hopeless and downtrodden, but not for sale." About all the Phils can do this trip is change their name back to the Phillies and send Hans Lobert on a scouting trip.

The Dodgers have kept the Giants in the National League for the past three campaigns.

The Giants played to 350,000 paid admissions in 11 games with the Dodgers at the Polo Grounds in 1941. They played to no more than 450,000 in 66 appearances of other aggregations in the lee of Coogan's Bluff. That gives you a rough idea.

Dykes Is Unshackled
Ford Frick's rule forbidding managers, coaches or any one else to rush on the field to protest against rulings by the umpire-in-chief on called strikes, etc., is quite likely to leave Brooklyn, Pittsburgh and Boston without a manager a good deal of the time.

Imagine Leo Durocher, Frank Frisch and Casey Stengel paying any attention to a red light when a close one is called against them. A regulation of that kind will cause Onkie Franz Frisch to butt his head against the water con-

Brooklyn Dodgers Resume Support Of Their Dependent N. Y. Giant Team

tainier harder than ever. Meanwhile, Jimmy Dykes of the White Sox, unshackled in the American League, will keep repeating that there's nothing wrong with umpires that a pair of glasses wouldn't cure.

The Reds, among other things, are fairly certain to buy a left-fielder during the baseball season.

Ernie Lombardi figures to hit into a record number of double plays at Braves Field, where Strategist Stengel permits the lush infield grass to grow thick and tall, the better to enable Eddie Miller and the boys to get their hands on what otherwise would be hot grounders.

The Cubs can be depended upon to make a bad deal.

Break Up The Yankees!
There'll be a renewal of the cry, "Break up the Yankees."

Connie Mack will concede the pennant to the Bombers.

If the Indians run true to form, there'll be union agitation in Cleveland, with the noble athletes carrying their complaints through Alva Bradley's swinging door.

Bo-Bo Newsom, with the Senators, will spout: "The Tigers wish they had me back. They miss me somethin' terrible."

Clark Griffith will demand more night games for Washington government workers.

Having no one else to blame, the Browns will change managers.

In late September, Will Harbridge will say: "It has been a great season. A fine club won the flag. The fans are happy. Judge Landis is happy. We're all happy. The Yanks will win the world series. The Browns will be stronger next year."

President Frick will ditto: "A magnificent season. A superlative ball club won the flag. The fans are ecstatic. Commissioner Landis is ecstatic. We're all ecstatic. The Cards will beat the Yanks in the series. My, didn't the Phils do well this year?"

About this time, Larry MacParril will take a punch at Lippy Leo Durocher for not being in shape to spell Pee Wee Reese.

Sun Again Looms As Derby Threat

LEXINGTON, Ky. (AP)—Out of Keeneland, where more than two dozen Kentucky Derby candidates are on display these days, they have concluded there's one sure thing about the big race this year—Warren Wright's Calumet Farm really is trying for a repeat.

And the boys add, with Sun Again as Calumet's leading hopeful and Canny Ben Jones at the controls, it will might happen.

If Wright makes it two in a row with Whirlaway last year and Sun Again this year, it will be the first such double since Col. E. R. Bradley scored in 1932 with Burgoo King and in 1933 with Broker's Tip.

Speculation on Sun Again's chances went soaring Wednesday when he led mighty Whirlaway himself, as well as two other Derby nominees, to the finish in Keeneland's \$1,500 Sesquicentennial Handicap.

President Frick will ditto: "A magnificent season. A superlative ball club won the flag. The fans are ecstatic. Commissioner Landis is ecstatic. We're all ecstatic. The Cards will beat the Yanks in the series. My, didn't the Phils do well this year?"

About this time, Larry MacParril will take a punch at Lippy Leo Durocher for not being in shape to spell Pee Wee Reese.

Plane Makers Paying Employees Big Bonus For Ideas

'Texas' Is 'Old Indian Name For 'Friendship'

The word "Texas" is thought to have originally been an Indian inter-tribal watchword, probably meaning "friendship". Its first use is dated from the expedition of De Leon and Father Massanet in 1535. Before then, the land now comprising the state of Texas was known

PHILATELIST

King George V of England was an ardent philatelist and had agents throughout the world on the lookout for desirable stamps for his collections.

variously as Amichel, Florida, Apacheria (Land of Apaches), Nueva Filipinas (New Philippines) and Quivira.

Horsewomen Sign For Red Cross Troop Duty

ALBANY, N. Y. (UP)—Twenty-six young horsewomen have formed a mounted troop of the Red Cross Motor Service. The girls have special uniforms and train under a Red Cross staff instructor.

Members feel they will be able to

HARDENED LEAVES

Unlike those of the rose, some thorns, or spines, such as those of the barberry, are hardened leaves, and those of the hawthorn are hardened shoots.

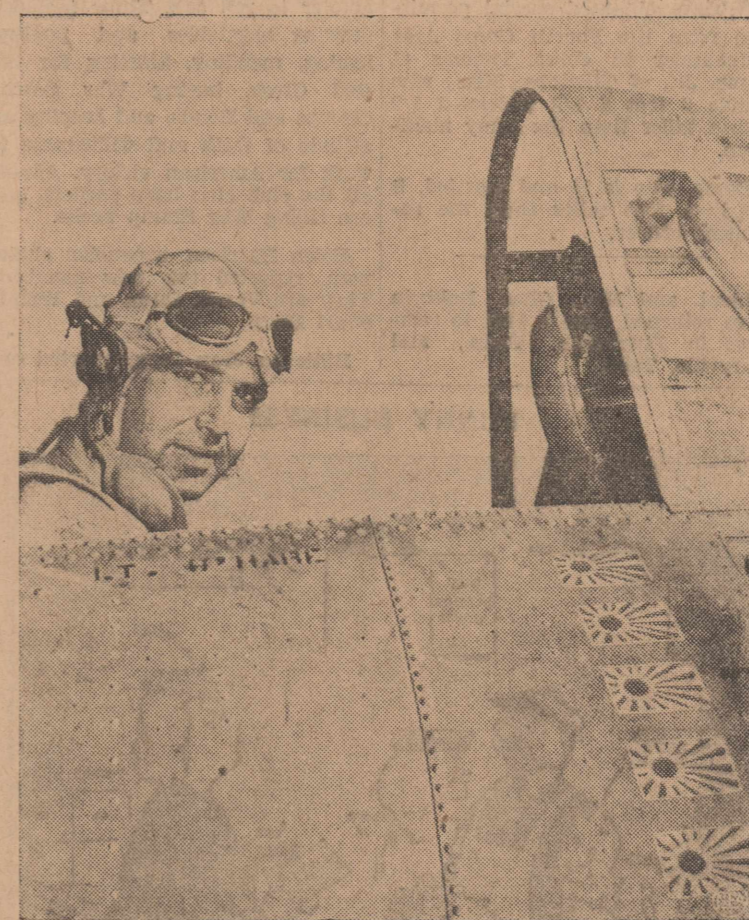

play an important role in time of disaster, as they can go where automobiles and motorcycles cannot travel.

Tire Saving Effects Were Almost Disastrous

MELROSE, Mass. (UP)—The all-out effort on the home front nearly cost Charles L. Simmons his life. To conserve tires and gasoline, the 35-year-old milk dealer exchanged his truck for a horse which bolted the first day on the route when frightened by a train.

Simmons sustained near fatal internal injuries and a skull fracture.

Brings Out Many Plans That Have Been Accepted

By Neil Burkhardt
United Press Staff Correspondent

LOS ANGELES (UP)—The "suggestion box," that often neglected but long established institution in many American offices and factories, has come into its own in Southern California's aircraft industry.

Aware that many a time-saving plan lurks in the back of a skilled employe's head, the major aircraft factories in this area are expanding programs to encourage employe suggestions for increased efficiency.

A survey by the Aeronautical Chamber of Commerce shows that the various airplane companies are paying bonuses ranging from 25 cents in defense stamps to \$1,500 in cash for every workable idea submitted. During the month of March, the survey disclosed, the companies spent more than \$10,000 on suggestions and improvements submitted by employes.

Ideas Compete on Merit
Although the "suggestion box" accent is on speeding-up production, rewards are also being paid for ideas which might help to improve methods, conserve material, reduce handling, combine operations, conserve energy and increase safety. All of these ideas are solicited by the suggestion box method.

Placed on convenient locations throughout the plants, these boxes are equipped with blanks on which the employes can sketch or outline their suggestions. Filled in forms are picked up at regular intervals, and, at some plants, pickups are made daily with all suggestions promptly acknowledged.

All ideas of the employes compete on their merits alone and are submitted anonymously before an impartial committee of experts before they are discarded or accepted.

Suggestions Increase
After each suggestion is accepted, the company's Time Study Department studies the amount of time the device or idea might conceivably save. It is then forwarded to the Production Research Division for active production evaluation such as: How much material the idea might save, or what other advantages it might offer.

Since Dec. 7, the survey shows, suggestions have been pouring in at a record rate. One Southern California plant alone received more than 1,000 ideas in five weeks from its employes, while nearly every company reports a 15 per cent increase in employes' suggestions.

Workers at one aircraft plant became so enthusiastic over "idea bonuses" they submitted a number of suggestions on ways to improve the motor and propeller design of the engines they were putting on their planes, even though their company did not produce the engines.

One employe suggested that a Red Cross mobile unit be asked to stop by and collect blood at the various plants, while another, in an effort to streamline the suggestion box itself, offered a new type of blank designed to reduce to a minimum the amount of time and trouble required to make a suggestion. This idea won him \$10.

Texas Gets More Major Army Air Force Schools

SAN ANTONIO (AP)—By mid-summer Texas will have nine more airfields for training air crew members and pursuit pilots, Major General Hubert R. Harmon, Commander of the Gulf Coast Corps Training Center, announced.

In trend with the heavier pressure for training of air crew members to man bombers, the Army Air Force's most effective, long arm weapon, the training center announced additional schools for bombardiers will be activated at San Angelo, which already has a basic school, and Big Spring.

Advanced twin-engine pilot schools are planned for Lubbock and Waco, which already have training schools in operation. A new school for navigators is to be set up at Hondo. The center's only navigation school now is at Kelly Field here. It will be transferred to Hondo when the station there is ready. It was announced, Kelly Field also gives advanced pilot training.

Eagle Pass will get a school for advanced training of single-engine plane pilots.

Down on the coast where they will have the Gulf of Mexico to shoot into, pursuit plane gunners from the four single-engine schools will be trained on gunnery ranges at Matagorda Island and Matagorda Peninsula.

Greenville will get a new basic flying school, making a total of seven of this type for the center, it was said. In basic schools aviation cadets get their first experience with military type aircraft. There has been no addition to the list of civil elementary schools. It is expected that the 16 in operation will expand existing facilities.

HEAVY BOLTS
Some of the bolts used in the mechanism which controls the flow of water at Boulder Dam are so large that a man cannot lift one of them.

"Make 'Em Last"

Frequent "Easy" Washings Will Make Blankets Last

By NEA Service

The Federal government has effected sharp reductions in the manufacture of woolen goods. This affects the householder most in the blanket, clothing and rug fields. These tips will help you in the selection and care of blankets:

Naps is essential for creating "air pockets" that act as insulation. For moderate climates, pure or high-ratio wool is not necessary. A blanket with cotton warp cuts down shrinkage, loss of shape, cut. But a blanket with less than 25 per cent wool is a poor investment. Holding a blanket to the light will show if it has the necessary firm, even weave. Lift a blanket by the nap to test the strength and lasting qualities of the material.

FREQUENT WASHINGS MORE BENEFICIAL

Laundering is important. Frequent "easy" washings are more beneficial than one hard one for a badly soiled blanket. Use a soft lukewarm water with natural suds. Rubbing mats and shrinks a blanket. Wash quickly, squeezing suds through the fabric. For spots, use a gentle brush and soap. In a washing machine use rich suds. Always rinse two or three times, squeezing water out quickly. Never twist a blanket or wring it through rollers. Hang the blanket to dry on a strong line, half on each side. Keep it out of direct sunlight or heat. Pull it into shape gently as it dries. When thoroughly dry, brush up the nap with a soft brush. Remember frequent washings always cause some shrinkage. When buying a blanket, allow four or five inches in both direc-

After rinsing, shake the blanket well before hanging it up to dry. This will prevent the nap from matting and destroying insulating qualities.

tions for shrinkage. Pulling wears and stretches. These directions apply in general to all woolens, though knitted things and smaller pieces should be dried flat.

SOLVED PROBLEM

The gourde, monetary unit of Haiti, is named after the common gourd. Christophe, a ruler of Haiti, confiscated and held, for a ransom of coffee, all the gourds in the country, in which the natives used to carry liquids. He then sold the coffee in Europe to establish a treasury.

Traces of dwellings having more than 100 rooms have been found by archaeologists in Texas along the Canadian River, where the prehistoric culture once flourished.

player, always the first to congratulate his opponents.

Fishbein gives a good lesson in today's hand. He sat North. After the dummy went down and declarer made just two clubs, an opponent remarked, "How did you dare bid one spade, vulnerable, on only four to the nine-spot? I should think you would bid no trump to keep out of trouble?"

Fishbein replied, "It was the spade bid that let my partner sign off. If I should bid no trump, he might go two or three. I know that, because he has shown a good hand by his reverse. I can't pass, but I must warn him that my hand is weak. So I bid one spade.

Now my partner asks himself why I have dodged no trumps when apparently I have the fourth suit protected. It must be because by hand as a whole is weak, and one of my suit bids shows some length without adequate stoppers."

Here is a point worth noting in the difficult art of signing off.

Mrs. R. C. McBride left by plane Wednesday night, for Fort Worth and Dallas, returning to her home at Kelly Field, San Antonio. She has been visiting her parents, Col. and Mrs. I. Davies.

New Dirndl

Something new in dresses of that popular long-torso-dirndl-skirt silhouette! A dress juniors will welcome because it offers an opportunity for smart contrast in this delightful jacket effect top — use a plain fabric with a print here or mix two plain colors, crayon blue with rosy red, for instance. A style worthy of a star role in a carefully planned vacation wardrobe or even in a trossau; you'll find it effective for summertime cottons, linen, or rayon materials.

Pattern No. 8163 is in sizes 11 to 19. Size 13, short sleeves, takes 3 yards 39-inch material, 1 1/8 yards contrast for top portion.

For this attractive pattern, send 15c in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W. Wacker Drive, Chicago.

A new Fashion Book has just been published! Send today for your copy of this valuable guide to the latest patterns for summer sewing. Frocks, aprons, slacks, sports suits—for all sizes from 1 to 52.

Tall Boy Gets Special Permission To Enlist

MEMPHIS, Tenn. (UP) — Sgt. John Newsom of the Memphis army recruiting office, has enlisted what he believes is the tallest man in the U. S. Army.

Newsom obtained special permission from the Fourth Corps Area commander to enlist Thomas C. Dame, Jr., of Tillatoba, Miss., who stands 6 feet 8 1/2 inches—2 1/2 inches taller than the army maximum.

Dame, who is 24 and married, is nearly a foot taller than the recruiting officer.

Lieut. and Mrs. Chas Baldwin have returned from a visit to relatives in Pittsburgh, Penn., and Maryville, Tenn.

PRAIRIE LEE CLUB HAS NEW MEMBERS

The Prairie Lee 4-H girls met at the schoolhouse Monday with a program in honor of 4-H club week.

Things which club girls can do to help win victory were given in answer to roll call. These included growing vegetables and poultry, sewing, mending, knitting for the Red Cross, buying War Saving Stamps and Bonds, and keeping an attitude of faith and willingness to work for American victory. Almost all the club girls have gardens and are filling War Stamp books.

Helen Harrison, expansion chairman, reported two new members. They are Vanda Dunn and Wanda Pearl Elms.

Billie La Jean Pigg reported one

dollar and fifty-five cents made from the grab box.
Helen Calhoun, exhibit chairman, reported girls took exhibits to Midland the last meeting.

Plans were made for a picnic meeting at Cloverdale April 28, when the program will be on protecting the garden from chickens and crows and insects. Club girls will also bring their sewing boxes and learn how to work buttonholes.

CHOSEN REPRESENTATIVE

Miss Gene Ann Cowden, daughter of Mr. and Mrs. Guy Cowden of Midland, has been elected sophomore representative to Snider Hall (girls dormitory) self governing association on the campus of Southern Methodist University, Dallas, it was announced by Dean Lide Spragins, dean of women.

Miss Cowden is a freshman in the School of Arts and Sciences where

COUPLE RETURNS FROM HONEYMOON

Lieut. and Mrs. Robert A. Strauch have returned from a wedding trip through the Western States and are now at home in Midland. The couple visited Carlsbad and Santa Fe, New Mexico, the Grand Canyon, Hollywood, and other scenic points.

Courtney Resident Honored At Dinner

STANTON (SpI)—Mr. and Mrs. H. E. Geurin of the Courtney community entertained with a dinner Sunday at their home in honor of Mrs. Geurin's birthday. She received numerous gifts.

All the couple's children were present except two sons, one in the Army in Oregon and one in the Army service at El Paso.

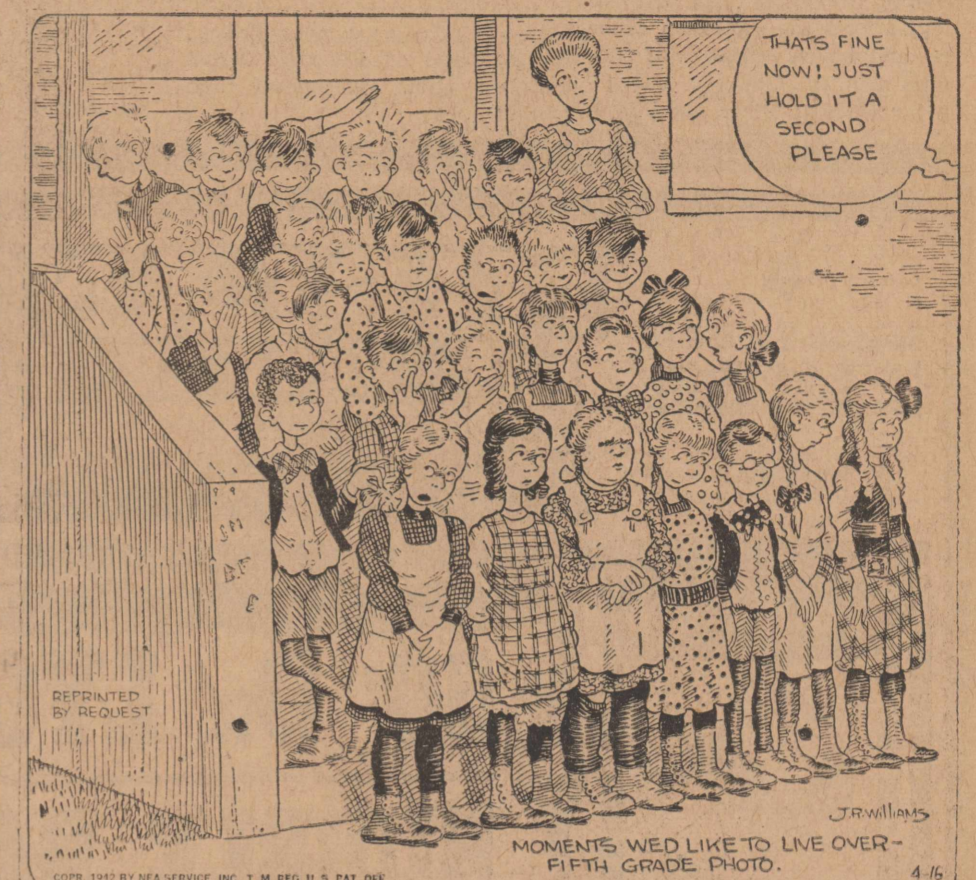

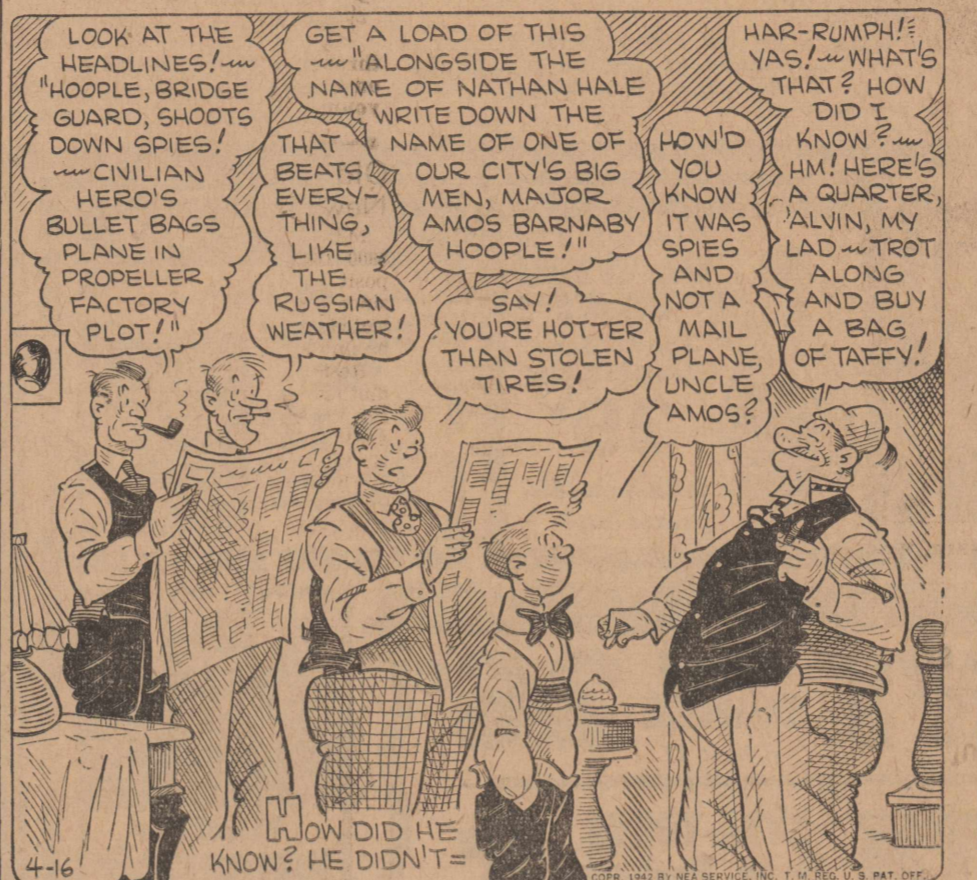

Twenty-eight were present at the dinner including Mr. and Mrs. N. W. West, Colorado City; Mr. and Mrs. Clyde Clevenger and son, Colorado City; Mr. and Mrs. B. Durham and son, Midland; Mr. and Mrs. Benson Durham and daughter, Patsy, Fort Stockton; Mr. and Mrs. Ezell McKaskle, Mr. and Mrs. Clyde Geurin and family, Mr. and Mrs. R. C. Campbell and Bobby, Mr. and Mrs. H. L. McKaskle, Mary Ellen and John McKaskle, Mr. and Mrs. Chester Hopper, all of Stanton.

Army Boys Vote Chocolate Cake Their Favorite

By Mrs. Gaynor Maddox
NEA Service Staff Writer

Any young sister of a boy in the armed forces will tell you nothing is too good for her soldier or sailor brother. As part of her education in wartime participation in the family's commissary department, allow her to bake a regal cake to send to the boys in camp. The Army votes chocolate as its favorite flavor.

CHOCOLATE ORANGE CAKE
Two and one-quarter cups sifted cake flour, 2 1/4 teaspoons double-acting baking powder, 1/4 teaspoon salt, 1/2 cup butter or other shortening, 2 teaspoons grated orange rind, 1 cup light corn syrup, 2 eggs, unbeaten, 1/2 cup milk, 1 1/2 teaspoons vanilla.
Sift flour once, measure, add baking powder and salt, and sift together three times. Cream shortening with orange rind; add syrup gradually, beating well after each addition. Add 1/4 of flour and beat until smooth.

Add eggs, one at a time, beating well after each. Add remaining flour in thirds, alternately with milk in halves, beating very well after each addition. Add vanilla.

Bake in two greased layer pans in moderate oven (375 degrees F.) 30 minutes, or until done; or greased 9x9x2-inch pan in moderate oven (350 degrees F.) 45 minutes, or until done. Spread Bittersweet Chocolate Frosting on top and sides.

BITTERSWEET FROSTING
Eight squares unsweetened chocolate, 1 cup sugar, 2/3 cup water. Melt chocolate in double boiler. Bring sugar and water to a boil. Cool until lukewarm. Add gradually to chocolate, stirring until blended and cool.

CHOCOLATE NUT SQUARES
(Makes 20 squares)

Three-quarter package semi-sweet chocolate, 1/2 cup sifted flour, 1/2 teaspoon double-acting baking powder, 1/4 teaspoon salt, 1/2 cup sugar, 1 egg, well beaten, 1 teaspoon melted butter or other shortening, 2 teaspoons hot water, 2/3 cup broken walnut meats.

Cut each square of chocolate into several pieces. Sift flour once, measure, add baking powder and salt, and sift again. Add sugar gradually to egg, beating thoroughly. Add butter and water; then add nuts and chocolate, mixing thoroughly. Mix flour gradually.

Turn mixture into 8x8x2-inch pan which has been greased, lined with waxed paper, and again greased. Bake in slow oven (325 degrees F.)

Soldiers Choice

Chocolate cake, with bittersweet frosting, gets a warm welcome from boys in the armed forces.

25 to 30 minutes. Cool. Remove from pan. Cut in squares.

MENU
Breakfast: Sliced bananas, corn flakes, whole-wheat raisin bread, coffee, milk.
Luncheon: Egg salad with tomatoes, buttered rolls, chocolate nut squares, tea, milk.
Dinner: Fillets of flounder, baked new potatoes, carrots and peas, cucumber salad, chocolate orange cake, coffee, milk.

Co-Ed Becomes More Serious In Crisis

ATHENS, Ga. (U.P.)—The co-ed of today is more serious than her prototype of a generation ago.

At least that's the conclusion reached by Dr. Joseph B. Gittler, associate professor of sociology at the University of Georgia, in his forthcoming book "From Pinaflore to Mortarboard."

According to Dr. Gittler, the college co-ed has passed through three different stages. First she was the prim and tailored champion of emancipation and suffrage. Then with the roaring twenties she was a short-skirted lass with a flask in her pocket book and no objection to "petting."

Sweater Girls Today
But the college girl of today has world problems, psychology, science, journalism, and "getting a job" on her mind.

Dr. Gittler said that today's co-ed wears "a definite Monday-to-Friday attire which stamps her immediately." According to the sociologist you can set a girl off as a co-ed if she's wearing dirty white saddle oxfords, socks, sloppy sweaters with sleeves pushed up to the elbows, and a single strand of pearl.

NO ROADS
There are no roads to Isle Royale National Park, and no roads after you get there. The park is on an island in Lake Superior and you can reach the interior only by foot trails.

MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below.

1. Is it good manners for a girl to ask her escort to carry her compact, lipstick, and comb in his pocket?

2. If a man asks a girl for a first date, should she invite him to her house for a definite evening when she tells him good night?

3. Should a girl meet her date on a street corner or in front of a movie?

4. Is it good manners for a girl to keep looking at her reflection in store windows as she walks down a city street?

5. Is it good manners for anyone to call a friend or an acquaintance on the telephone and say, "Guess who this is?"

What would you do if—
You are a girl who has borrowed the automobile of a young man you date—

(a) Have at least as much gas in it when you return it as it had when you borrowed it?
(b) Use the gasoline that is in the car, and don't bother to put any in before returning it?

Answers
1. No.
2. No. That makes her appear to be rushing things.
3. No. That is undignified. He should come to her house for her.
4. No. It makes her conspicuous and also shows her up as being vain.
5. No.
Better "What Would You Do" solution—(a).

Make Sugarless Candies For Boys In Armed Forces

By Mrs. Gaynor Maddox
NEA Service Staff Writer

Even in wartime sweets are dear to the American appetite. But these sweets must use very little or no sugar to comply with national rationing. These recipes, easy for the schoolgirl cook, fit deliciously into our sugarless schedule. Young sis-

A young cook makes sugarless cookies for brothers in uniform.

ters may want to ship a box of them off to brothers in uniform.

HONEY DROP COOKIES

Two cups sifted flour, 1/2 teaspoon soda, 1/4 teaspoon salt, 1/3 cup sugar, 1/4 cup butter or margarine, grated rind of 1 lemon, 1 egg well beaten, 1 cup honey, 2 tablespoons lemon juice, 1/3 cup chopped nuts.

Sift flour, soda and salt together. Cream the sugar, fat and lemon rind together until light and fluffy. Add the egg and beat well. Add the flour mixture alternately with honey and lemon juice. Add the nuts. Drop by teaspoons on a greased baking sheet and bake at 375 degrees F. for 10-15 minutes. For young children the nuts may be omitted.

CHOCOLATE CHIP PEANUT CLUSTERS

(Makes 12 clusters)
One-half package semi-sweet chocolate chips, 2/3 cup roasted peanuts, skinned.

Heat chocolate over boiling water until partly melted; then remove from boiling water and stir until blended. Add nuts and mix well. Drop from teaspoon on waxed paper. Cool until firm. Peanuts may be salted or unsalted.

For chocolate marshmallow clusters, substitute 6 marshmallows cut in eighths, for peanuts in above recipe.

CHOCOLATE CRUNCHIES

(Makes about 40 crunchies)
One package of semi-sweet chocolate chips, 5 cups corn flakes, 1 1/3 cups or 1 can sweetened condensed milk.

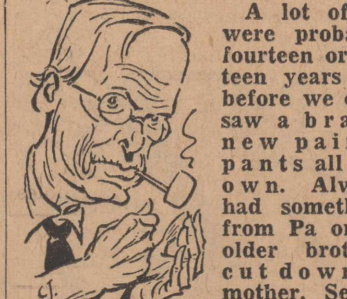

Combine chocolate chips and corn flakes. Add condensed milk and mix well. Drip from teaspoon on greased baking pan; flatten slightly, shaping edges with spoon. Bake in slow oven (325 degrees F.) 15 minutes or until done. Remove from baking sheet immediately, using knife or spatula.

NOTE: If crunchies stick, place pan over very low flame for a few seconds.

MENU

Breakfast: Grapefruit, soft-cooked eggs, enriched toast, coffee, milk.
Luncheon: Fruit salad, cottage cheese, wholewheat muffins, honey drop cookies, tea, milk.
Dinner: Tomato juice, roast pork, apple sauce, mashed potatoes, green beans, coconut layer cake, coffee, milk.

UNCLE EF

A lot of us were probably fourteen or fifteen years old before we ever saw a brand new pair of pants all our own. Always had something from Pa or an older brother, cut down by mother. Seems to me we lived through it, and if shortages bring on those times again, I guess the youngsters can take it.

Old Fund Will Go Into New World War Work

MT. MORRIS, N. Y. (U.P.)—An \$800 fund which has been on deposit in the Pavilion State Bank since the last war, when it was collected for the relief of soldiers, may be put to use in the present conflict.

Residents who have discussed methods of disposing of the money for the past two decades now favor contributing the fund to the United Service Organization.

The money was collected by an excited populace in rural Covington more than 20 years ago, when word spread that American doughboys in France would be compelled to pay their own passage home. Quickly \$900 was raised and placed in the Pavilion bank, but the rumor proved false and there was no need for the fund.

Food Handlers Will Have Classes Here

A school for food handlers will open in Midland April 28, and will be taught by E. C. Saeger, and will be announced Wednesday by Dr. W. S. Brumage, Midland County health officer. The course is to be offered in cooperation with the State Department of Health.

Comprehensive courses in bacteriology, communicable diseases, medical zoology, foods, disinfection and sterilization, personal hygiene, and sanitation will be thoroughly covered, as a special training for all those who serve food and deliver food stuffs for Midland people.

"It is just as important for a food handler to know about how to keep those foods healthy as it is for a bus driver to know how to protect the lives of his passengers," said Dr. Brumage. "For a food handler has as much to do with saving lives as anyone, and we want to see all such in Midland competent to afford full health protection to the people on whom they wait."

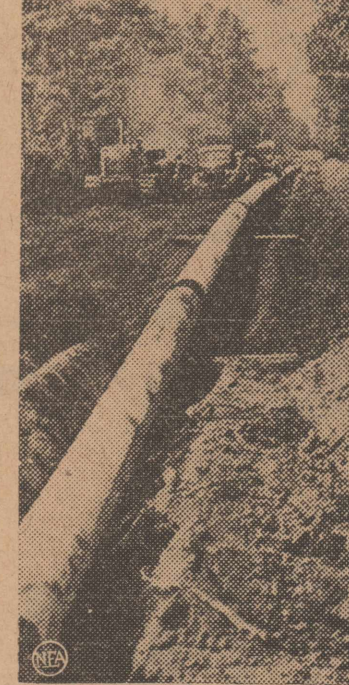

SEWING CLUB MEETS

STANTON (Sp.)—The Stitch and Chatter Club met Friday at the home of Mrs. Guy Eiland. Fifteen members and two visitors were present.

Visitors From Los Angeles

Mr. and Mrs. J. H. Raney of Los Angeles are visiting Mr. and Mrs. W. P. Dykema. Mrs. Raney and Mrs. Dykema are sisters.

Pipe of War

Wartime demands for oil in eastern U. S. rushed construction of Plantation Pipeline to carry gasoline from Louisiana to North Carolina. Piece of pipeline is shown being lowered into three-foot trench that hides it from air attack.

Texas is considered to be one of the most fertile fields in North America for archaeological research.

Divorce Ends In Few Minutes After Pleas

COLUMBUS, O. (U.P.)—True love, aided by four small children, brought Mr. and Mrs. Clyde Rist together after the couple had been divorced for 30 minutes.

Mrs. Rist recently obtained a divorce from her husband on grounds of neglect and her husband was ordered to pay \$100 a month for support and alimony.

The couple and their four children walked out of the courtroom but met in the hall to say goodbye. Rist made a final plea to his wife for a reconciliation and the children took up the cry.

A few moments later the couple walked back into the courtroom and found Common Pleas Judge Dana F. Reynolds.

"We've changed our minds," Rist said. "We're going back together."

Judge Reynolds agreed to stroke the divorce and alimony from the court record.

Modest Young Woman Dresses By Candle Light

PORTLAND, Ore. (U.P.)—A startled Portland police desk sergeant dispatched a patrolman to investigate when he received a report of a shadowy figure "moving silently around in a gloomy room lit only by a mysterious blue flame."

The patrolman reported back: "I found the lodger was dressing by candle-light because her room had no shades."

Discard Forced Savings Plans
WASHINGTON (P) — "Forced" saving as a means of raising new revenue and helping combat inflation was reported Thursday to have been discarded by the Administration in the belief that voluntary purchases of War Bonds would be adequate for the government's great borrowing program.
Well-informed sources said that President Roosevelt had sided with Secretary of the Treasury Morgenthau rather than with Leon Henderson, Price Administrator, and other officials who had advocated forced saving and an increase in the pending \$7,610,000,000 tax program to discourage rising living costs.
House Ways and Means Committee Chairman Doughton (D-NO) discussed the whole tax situation with the President at the White House Wednesday and said later that he had "no reason to expect" that the Administration would boost its tax recommendations.
It was reported that Doughton told the President that Congress would encounter difficulty in raising even the \$7,610,000,000 unless a general sales tax was written into the bill.
Mr. Roosevelt was understood to have reiterated his opposition to that kind of levy, except as a last resort.
