## Tigers Invade Powell Field Friday Night

The Skyrockets return to Powell Field Friday night, Nov. 2, to meet the McLean Tigers in the third conference tilt for both. Game time is 7:30 p. m.

"The Tigers are not a real big team. The line is probably a little bit quicker and the backs have about the same speed that we do," Coach Don Beck said.

"McLean runs a wide open offense and they are liable to do anything off of it. They split both ends, unbalance the line, set floaters and flankers both ways, and split their line pretty wide sometimes," the coach continued.

"Defensively they are liable to do anything also. Primarily they run a four-man line with five linebackers."

Coach Beck picked a wide open of the better players No. 33, Dickie Crockett, a 180-pound, backfield man; the quarterback Woods, a good runner and fine passer; Graham, another good running back, and Windon, a good receiver.

"They throw the ball well and we expect them to throw

## Pioneer Ranch Woman, Mrs. G.H. Aldous, Dies

Mrs. Lillie Aldous, pioneer ranch woman living in the north part of the county, died in Shamrock Hospital Saturday, October 27, at 10:30 p. m. after being in failing health several years.

Coming to the county in 1903 as a young woman, she was closely identified with the cultural and religious growth of that section, as well as its development as a livestock area.

Her husband was the late G. H. Aldous, who came to his Collingsworth county ranch from Ipswich, England. This couple, with the others arriving in that period, brought English traditions and ways that still prevail.

After the death of her husband Aug. 20, 1923, Mrs. Aldous took over the management of the ranch. The manner in which she conducted its affairs won for her the respect of the

## No Backdown in Cuba, Rogers Says Here

"Castro knows, and Khrushchev knows, that if any missile is fired from Cuba, even accidentally, in only a matter of hours Cuba would be wiped off the face of the earth and Russia would be devastated. It would not strain this country one bit to carry this out," Congressman Walter Rogers assured a group of Collingsworth county supporters Saturday morning, Oct. 27.

The 18th District Congressman reviewed the Cuban situation briefly at a coffee given to honor him and Mrs. Rogers on a campaign visit to the county.

"We can devastate Russia, and as far as I am concerned we are going to remain in that position," he declared again as he closed his talk. "We are not going to back up one bit."

Mr. Rogers traced briefly the steps which led up to the President's quarantine of Cuba, based on pictures secured of the missile bases.

"The Russians had lied not only to the U.S. but to everyone in the U.S. in saying that these were defensive missiles, which have a range of 25 to 40 miles.

## County Votes Tuesday in General Election

Collingsworth county voters will ballot in the general election Tuesday, November 6, centering most of their interest in district rather than state races. Tuesday evening 40 applica-

tions had been made with Lorene Jenkins, county clerk, for absentee ballots. These voters have until Friday to return their notarized ballots. This is far lighter than in

the second primary elections, but Mrs. Jenkins pointed out that as it fell during the summer, many of those who voted absentee then were on vacation or working in the harvest.

Facing voters is the largest array of state and district Republican candidates so far seen. All Republicans seeking office on the district level have conducted handshaking campaigns in Collingsworth and the most intensive vote-getting drive ever conducted by this party has been under way during recent weeks.

Emil Kersten, seeking the office of county judge on the Republican ticket, is the only candidate on the county level.

Three parties are listed on the official ballot: Democratic in the first column, Constitution in the second, and Republican in the third. There are no names in the independent and write-in columns.

The following are the contested offices in this election:

Governor: John Connally, Democrat; Jack Carswell, Constitution; Jack Cox, Republican.

Lieutenant Governor: Preston Smith, D.; Bill Hays, R.

Attorney General: Waggoner Carr, D.; T. Everton Kennerly, R.

## The Constitutional Amendments

The people of this county as well as every other in Texas will vote on 14 constitutional amendments on November 6, but only one of these is highly controversial on a statewide basis.

Some of these amendments are local in nature and have no immediate bearing on this county. For instance one is for local hospital districts, another concerns an independent school district in Dallas county and still another on coastal beaches applies only to counties on the Gulf of Mexico.

We hold to our old rule about voting no when in doubt, but on those amendments that do not affect us we believe the best course is to remain neutral which can be done by leaving that amendment alone or by marking out both the For and Against opposite that amendment.

The Fourteenth Amendment—the last on the ballot—does affect everyone and we believe it should be given a negative. This amendment has drawn the endorsement of The State Bar of Texas, but it should be noted that 3,932 members of the state bar voted against the amendment. It is also endorsed by the AFL-CIO.

On the other hand it is vigorously opposed by cities, school districts and many other organizations.

One legal firm: "The proposed amendment would violate the separation of powers intent of the state constitution by giving the Legislature unlimited power to expand or contract the powers, functions and duties of the executive and judicial branches at will. Another distinguished firm says that instead of guaranteeing the right of a trial by jury it would give the Legislature the right to destroy it."

We believe that the best vote is "NO" when you come to the 14th amendment.

## CROSSROADS REPORT

Dear Editor:

I see where a discontented writer wants our election ballots fixed so we can cast a negative vote against a candidate, to be subtracted from the regular votes he gets.

And this would be better than the present system where we can register against an office-seeker only by voting for his opponent, which could lead to our life-long, if not eternal, regrets.

After all, a negative vote ballot would be fair to all candidates, as it would naturally give the office to the one with the smallest vote deficit.

I see where the Potomac politicians have finally noticed that a Communist Cuba is a menace, which most folks down here on the forks of the creeks could see two or three years ago.

And my formerly proud neighbor says with the U.S. taking up for itself again, he notes that old feeling of self-respect is creeping back over him.

Says maybe we ought to hold elections every month or two if it helps this much for our politicians to get out among the people and find out what is going on in the world.

**LEADING COMPOSER SET  
MUSIC FOR "KING OF KINGS"**

Dr. Miklos Rozsa, whose musical scores for outstanding films have won him three Academy Awards, undertook the most ambitious assignment of his distinguished career in composing the music for "King of Kings."

This film will be shown at the Ritz Theatre Sunday, Monday, and Tuesday, Nov. 4, 5 and 6, according to Mrs. Lydia McPherson, manager.

For the musical score of the Biblical production, Dr. Rozsa visited Madrid during the making of the film, journeying to Europe's cathedrals and cultural centers seeking themes of ecclesiastical inspiration.

In scoring "King of Kings," after many months of composition development, Dr. Rozsa utilized the talents of 75-piece M-G-M symphony orchestra, a chorus of 50 voices, and rare period instrumental interpolations.

As with his Academy Award winning score for "Ben-Hur," Dr. Rozsa's "King of Kings" music is featured exclusively in a new M-G-M album, already in high demand.

Dr. Rozsa, a native of Budapest, is also noted for his composition of the music scores for such other films as "Spellbound," "A Double Life," "Quo Vadis" and "Song to Remember."

**Attends Ground  
Breaking of  
Canyon Theatre**

Thirty-one mayors and representatives of ten other communities broke the ground for the amphitheater in the Palo Duro Canyon in an impressive ceremony Sunday afternoon, Oct. 14.

As the crowd gathered, each mayor found his spade and his place behind the sign bearing the name of his community—and stood there during the ceremony. Henry Sullivan represented Wellington.

Eddie Melin of Amarillo acted as master of ceremonies and introduced the Rev. Newton Starnes who gave the invocation. This was followed by singing of the Star Spangled Banner, led by the West Texas Band.

R. Earl O'Keefe, president of the Amarillo Area Foundation welcomed the crowd, emphasizing the fact that it is particularly fitting for the people of the Panhandle to be interested in presenting their story to the world—because the sense of freedom and independence is particularly strong in this area.

Messages from the head of the Parks Board, the president of West Texas Chamber of Commerce, and Isaacs Van Grove, the composer of the musical score, were read.

Next William A. Moore read some excerpts from Paul Green's letters about the drama, ending with:

"Van Grove has arrived and we have already got down to work. You can spread the news that the play is well under way. We have accomplished a lot during his stay. Last night he played over the music arrangements he has completed and they are gorgeous. The theme of the play of course is the winning of the land against all difficulties and the final establishment of homes in that wide and once-fearsome range coun-

from the People**

23rd October 1962

College Station, Tex.

Mr. Wells:

We enjoyed your reply to our letter but we feel that you were wrong in a few aspects.

First, we are not engineering majors. One of us is majoring in Agricultural Education and the other is majoring in Animal Husbandry.

Second, there was no upperclassman standing over us. In fact, one of us is an upperclassman.

Third, we do realize that Texas A&M is one of the branches of the University System. In the state constitution (Article 7, sections 13 & 14) it states that A&M is a part of the University System. We were joined with this system to give the State of Texas a better University System rating. Through this act we were entitled to part of the oil money, but we can not find any record of the college hiring a battery of Texas lawyers. The only record of a lawyer's help in this matter is of that of the Texas A&M Board of Director's legal advisor, Judge Phillips.

Mr. Wells, we would like to know how you classify the reports from the Experiment Station and Extension Department as editorial propaganda? Also, we would like to know whether you receive anything in return for publishing these reports or does the Leader devote this space for nothing?

If A&M is a part of the University of Texas, how did the offspring come into being before the parent?

## Benefit Masquerade Ball Saturday Night Keynotes Fall Social Season

Rhymed invitations adorned with glittering masks brought guests from in and out of Collingsworth county to the St. Joseph's Hospital Auxiliary Benefit Ball. This costume masquerade occurred at the VFW building on Saturday, October 27.

Gala decorations greeted the colorfully costumed guests. The "ghost and goblin" season gave impetus to the surge of jovial "Mr. Pumpkinheads" and jazzy skeletons which cleverly transformed the entertaining rooms. A combo of skeletons personified with fashionable evening attire were on the band stand. One wall mural portrayed a mischievous fortune teller.

An eerie light spotlighted a life size scarecrow and a shock of feed, topped with an impish owl. In front of this arrangement was the snack table, covered with a turquoise cloth. Pumpkins held the refreshments. Jack-o-lanterns and witches' hats were on the guest tables.

The guests' costumes varied from mystic to humorous. The auxiliary president, Mrs. B. M. Sims, announced the judges' decision as Mrs. H. L. Duncan Jr. benefit ball chairman, presented the prizes to the winners.

First place went to Mr. and Mrs. Bob Choice as Raggedy Ann and Andy; second place, Mr. and Mrs. Allen Sharp of Wichita Falls as Court Jesters; honorable mention, Mr. and Mrs. James Stavenhagen and Mr. and Mrs. Mack Saied Jr. as Spacemen.

**? Why Take a Chance ?**

**IF YOU BELIEVE:**

- Good Government begins at home
- That strong and effective local and state government is the best answer for less Federal control.

ANDY has employed every practical means (often at his own expense) to keep his record and that of your legislature open and available to the public for inspection and judgement.

Yet there has never been any large or responsible group or element who could claim that Andy Rogers has not represented, with vigor and integrity, the principles, ideals and interests of our Senate district, State and Nation.

- 37 Years Old — Democrat
- Wife, 2 daughters, 1 son
- Stock Farming and Businessman
- 7 Years College
- 14 Years Seniority (4 Years In House of Representatives, 10 Years as your State Senator)
- WWII Veteran, Baptist, Rotarian, Farm Bureau and several Fraternal Org., etc.

**INDEPENDENT IN THOUGHT AND ACTION — THE COURAGE TO DIFFER WITH FRIEND OR FOE WHERE PRINCIPAL IS CONCERNED.**

Andy Rogers — Your State Senator receiving oath of office as President Pro-Tempore of our Texas Senate. Oath administered by Lt. Gov. Ben Ramsey.

This is the highest office, honor and recognition that can be bestowed upon a Senator by his colleagues. The duties of the office include presiding over the Senate and acting as Lt. Governor and Governor, when one or both are absent from their office or state.

Andy had the honor of serving in each of these capacities.

**ANDY has ACTED and REPRESENTED YOU**

**FOR:**

- Right to work law.
- Private ownership and control of underground water.
- Bill that outlawed Jimmy Hoffa's operations in Texas.
- Resolution to PREVENT Red China's admission to U. N.
- More Representation for West Texas
- More competitive free enterprise.

**AGAINST:**

- 80% of new State taxing and spending of last 14 years.
- More government and monopoly controls.
- Income taxes in Texas.
- Deficit spending.
- Pari-mutuel horse race gambling.

In 1951 Andy (then a member of the House of Representatives) and others achieved the impossible . . . a 50% increase for our area in representation in the Senate. The entire South Plains Panhandle Area had only 2 Senate seats. Redistricting occurred. East Texas lost (1) Senate seat. The South Plains Panhandle area gained this seat — "Our 30th Senatorial District."

# Lefors Bests Rockets In Conference Game

By JACK FORD

Capitalizing on two Skyrocket mistakes, the Lefors Pirates who were heavier and faster, downed the Wellington Skyrockets 18-6 Friday night, Oct. 26 at Lefors.

An estimated 1500 fans saw the Pirates turn a Rocket fumble and pass interception into touchdowns. Two key 15-yard penalties helped stop two Rocket drives, one in the first quarter and one in the fourth quarter.

The Rockets provided their fans with the most excitement when Raymond Sanders ran for a 65-yard touchdown. Then in the fourth quarter Sanders pitched a lateral, just as he was being tackled, to Craig Bergvall, who made a 60 yard run to the Pirate 10-yard line.

Another outstanding play that brought the fans to their feet was when Herbie Duncan, behind some good blocking by his teammates, returned a kickoff to the Rocket 40 yard line with only one Pirate between him and the goal line making the tackle.

Lefors won the toss and chose to receive with the Rockets kicking from the north end.

The kickoff was taken by R. Airington on the Pirate 20 and returned to the 50. In 12 running plays the Pirates scored their first touchdown, but the try for extra point failed.

The Pirate kickoff was taken on the Rocket 15 by C. Bergvall and carried back to the Rocket 21 where he slipped on the wet field and fell. Sanders and Bergvall moved the ball to the Rocket 45 where a 15-yard penalty moved them back to the 35 and they were forced to kick on fourth down.

From this point up to the latter part of the second quarter both teams had a hard time trying to get their offense going.

Then the Pirates capitalized on a pass interception on the Rocket 30. Nine plays later they went over for a touchdown. Try for extra point failed. Score: Pirates 12, Rockets 6.

On the kickoff H. Duncan took the ball on his own 10 and ran back to the Rocket 40. A 5-yard penalty set the ball back to the 35. On the next play R. Sanders took the ball, went off to his right side and behind some fine blocking went all the way for the only Rocket touchdown. Try for extra point failed. Score: Pirates 12, Rockets 6.

The end of the third quarter saw a good Rocket drive stopped by a fumble on the Pirate 49. The Pirates recovered and in seven plays made another touchdown. Try for extra point failed. Pirates 18, Rockets 6.

In the fourth quarter the Rockets took the kickoff on the 20, but a 10 yard penalty (half the distance to the goal) put the ball in play on the 10. In two plays Sanders moved the ball to the 30. On the next play which was a lateral from Sanders to Bergvall, with a key block by H. Duncan, on the Pirate 35, the ball was moved

to the Pirate 10. But a 15 yard penalty moved the ball back to the Pirate 25. However, the Rockets failed to put the ball across to pay dirt.

The game ended seven plays later, with the Pirates in control of the ball.

The Rocket linemen, led by G. Thomas, T. Bailey, and J. Wells did a good job stopping a number of Pirate drives and handling the heavier Pirate line.

R. Sanders and C. Bergvall had a good night. Sanders had 146 yards in 19 carries, for a 7.7 yard average. Bergvall had 101 yards in 11 carries for a 9.2 yard average.

Mrs. Joe Shields of Amarillo visited in the home of her father, E. N. Lewis, and sister, Mr. and Mrs. Harold Watkins Saturday and Sunday. Mrs. Shields was accompanied by Mrs. Pearl Caldwell who visited her sister, Mrs. W. R. Orr.

Mr. and Mrs. Glenn Reeves of Canyon visited their parents, Mr. and Mrs. Harold Keller and Mr. and Mrs. W. C. Reeves Saturday and Sunday.

### JOHN ZAHN SENATOR 30th DISTRICT

JOHN ZAHN, a native of Haskell County, resides in Farwell, Texas with his family, including two sons. JOHN ZAHN is a graduate of Baylor with a B.A. degree and many years successful business and farming experience.

JOHN ZAHN BELIEVES in leaving for our children the heritage and high principles given us by our founding fathers.

#### Another Step Toward

#### Centralized Government

On July 13, 1961, Andy Rogers, John Zahn's opponent, introduced Senate Bill No. 8, to force all Commissioners Courts to buy all their road building, road maintenance equipment, tires and tubes through the State Board of Control.

JOHN ZAHN BELIEVES this is a drastic and dangerous step to deny local government and to place control of county government in the hands of the State.

If YOU BELIEVE as JOHN ZAHN BELIEVES, that local progress can be realized cheaper, more efficiently and better by local citizens, go to the polls November 6th and

# Rocket B Skins the McLean Tigers 20-6

Sam Hughes' 95-yard touchdown run on the opening play of the game keyed the Rocket B-team victory over McLean Saturday morning, Oct. 27.

This 20-6 win brought the B team to five victories and one tie—without a single loss. The Tiger B team kicked to the Rockets to open the play. The ball took a bad hop over Hughes' head, and he had to run back to his 5 yard line to grab it up.

Sammy Hollingsworth threw a key block, Lyndal Bowen and Johnny Maxwell got in some effective blocking, and Hughes turned on the speed and ran the ball the 95 yards for the first score.

Phillip Hughey added the extra point. The stunned Tigers came back quickly and the remainder of the first half was a defensive battle.

The Rockets had several opportunities to score but penalties kept them from making the necessary yardage.

Coach James Stavenhagen attributed this to failure to get blocking plays correct, and illegal use of hands on sweep plays.

The Wellington boys came back with a little bit more determination after the half.

The Rockets kicked to the Tigers, who were unable to make first down on that play and after a series of plays, Hughes took the ball over the goal line.

This play was called back,

however, due to a clipping penalty.

Wellington was unable to make any yardage from that point and McLean took over on downs. The Tigers couldn't advance either, and punted.

On the third play from scrimmage, Wayne Barton faked a delay play, circled right end and cut back to the left side of the field to score from 50 yards out.

Freddy Bobo and Lyndal Bowen threw key blocks to spring Barton loose on this touchdown run.

Hughey again kicked the extra point. After the Rockets kicked, the Tigers completed two long passes from their quarterback to left end to penetrate deep in Wellington territory.

A dive play to the right was good for the lone McLean score but their try for extra point was no good.

Receiving the kick-off, the Rockets kept hitting the line for short yardage, moving the ball down the field. Andy Moreno picked up several 6 to 8 yard gains. Then Phillip Hughey scored on a dive play from about 20 yards out. The try for the extra point was no good.

From that point on, the game again resolved into a defense battle with neither team able to score.

"Danny White, Larry Henard, Sam Hollingsworth and Gary Judd surprised us with their defensive play in this ball game," Coach James Staven-

hagen commented. "They did a real good job, and some of the other kids who played a real good defensive game were Adam Garcia, Jackie Duncan, Dwayne Poteet and Freddy Bobo."

Seeing action in the game were Poteet, right end; Johnny Maxwell, right tackle; Don Sweat, right guard; Ray Floyd, center and fullback; Garcia, left guard; Bowen, left tackle; and Bobo, left end;

Wayne Barton, quarterback; Hughey, Hughes and Jackie

Duncan, halfbacks; and Moreno, fullback. Others were White, Jim Harris, Judd, Hollingsworth, Henard, and Gary Bergvall.

## Cunningham at Homecoming

Orville Cunningham, president of the 1937 graduating class of West Texas State College, presided at the silver anniversary reunion held in connection with the annual college homecoming recently. He was then chosen to head the class organization which will continue in operation.

Of the 102 graduates, 63 were present for the anniversary reunion, Cunningham said. Other Collingsworth members of the 1937 class were Jesse Coleman and Mayme Ruth Clark King, as was the late Miss Effie Rankin.

The reunion opened with a coffee and period for visiting. Dr. J. A. Hill, long-time president of WTSC, was the principal speaker.

A yearbook type publication was planned, featuring pictures

and sketches of the various class members. Toby Waggoner of Plainview and Brady McCoy of Amarillo will edit the book, to be published during the coming year, and to be followed by similar publications each five years.

Texas has about 200,000 miles of public roads.

Mr. and Mrs. C. S. Graham visited for a few days in Dallas with their niece, Mrs. Charley Petr, and with relatives in Wichita Falls, with Mrs. A. L. Eubanks, who is Mrs. Graham's sister; in Greenville with her brother, J. B. Hill; and his brother, George Graham, and their families. They returned Monday.

## Crackers Take 2-A District Junior High Football Crown

Wellington Firecrackers, with an unblemished season's record, took the District 2-A junior high championship Thursday night, October 25, in an 8-6 victory over the McLean Cubs.

This is the first time in recent years a junior high team has come home with district honors, and there is the added distinction that it is one of the larger squads in junior high football history.

The teams went into the contest about evenly matched. McLean also was undefeated until the Thursday night game, which also ended the season on the junior high level.

Tommy Yarbrough made the touchdown for the Firecrackers and the pass team of Andy Bell and Randy West added the two points that spelled out the victory.

The first quarter went scoreless and Yarbrough's 30 yard scoring run came in the second.

McLean kicked to the Firecrackers to open the third quarter. After being held for three downs, Wellington punted. The Crackers fouled up the next play and Baker of McLean got loose for a 50 yard run that set the ball down on Wellington's 20 yard line.

The Cubs started a series of power plays and after great effort, Baker took the ball over for a touchdown on an off tackle play. He tried for the extra

point but was stopped cold.

The fourth quarter was nip and tuck. Finally McLean worked the ball down on the Firecracker 5-yard line, and in what was some of the finest defensive playing the Wellington team has done all year, the boys held McLean four straight downs without budging an inch.

Star of the McLean team was Baker, a 175-pounder of the powerhouse type.

"The boys did a wonderful job in stopping him. David Caisson and Wesley Ward stopped him cold time and again," said Coach Harvey Millsap.

"McLean was the best team we have played all year," he continued. "They were large and tough, but our boys proved just a little tougher."

"It was a hard fought game and our boys were hitting and hitting hard. They did a fine job and they deserve to be district champions."

Playing in the game against McLean were Andy Bell, quarterback; Jimmie Black, Neal Roberts, Randy West, Donald Wolf, Wesley Ward, and Tommy Yarbrough, halfbacks; and David Graham, center; Andy Henard, Joe Wood and Doyle Stewart, ends; John R. Henard and Sidney McGill, guards; Jim Rudy and Steve Trapp, tackles.

Coach Millsap cited a group of boys who didn't get to play in every game, but who were

in all or almost all the workouts: Alfred Allred, Keith Brown, Kent Clark, Jim Henard, Paul Jones, and Billy Neel-ey, ends;

Jimmy Campbell, Alan Fires, Johnny Harris, Jimmy Hodge, Gary Killian, and Jim Lindsey, guards; Stevie Davis, James Ha'e, Dan Hatch, Jackie Hunt, Rodney Cain, George Porter and Jimmy Gibbons, tackles; Michael, Gilmore, center;

Joe Aguirre, Sandy Covey, and Kenny Brown, halfbacks; Marion Barton, Freddy May-high, quarterbacks; and Nat Holton and Tim White, full-backs.

Lewis Watkins began the season with the team, but after he received a broken leg, he joined Henry Wells and Buster Howard as managers.

Cheer Leaders were Becky Brewer, Judy Millsap and Nell Tarver, for the eighth grade; Jan Blain, Tanya Horton and Nancy Sikes, for the seventh.

McColum, Southwestern area manager of the Cotton Division at Dallas. This service will be provided to the limit of available instruments and facilities.

Both sides of each cotton sample will be tested and the micronaire readings will be recorded on a card attached to the Form 1 (Green) Card. The fee for such air flow tests and reporting of micronaire readings will be 8 cents per sample as prescribed under the Regulations for Cotton Fiber and Processing Tests.

If producers are interested in this service, it will be necessary for gins to make appli-

cations to the classing office that is serving the farmers of their respective communities.

As soon as applications are received and the micronaire cards are available, the service of recording micronaire readings on the Form 1 (Green) Card will begin. This service is voluntary on the part of the participant.

## Many Causes Result in Wasty Cotton

This is one of a series of articles on cotton classing and problems encountered by cotton producers, prepared by K. E. Voelkel, in charge of the USDA cotton classing office in Memphis.

### WHAT IS WASTY COTTON AND THE REASON FOR IT

Wasty cotton may be defined as cotton which has a weak, irregular and immature fiber. Because of this fiber condition, the cotton is less desirable on the market, and generally is penalized from two to four cents a pound as compared with sound fibered cotton of the same staple length.

The misconception exists that Wasty cotton prevails only with the shorter staple lengths and lower grades, but this is not always the case. Some of the causes for Wasty cotton are explained in the following paragraphs.

Weather conditions, such as an early freeze on bolls that are not fully grown, stops the maturity processes and this results in Wasty cotton. However, a freeze will not affect those bolls that are mature or already open.

A drought may also cause Wasty cotton. If the cotton plant does not get sufficient moisture during the crucial fruiting period, the growth cycle of the cotton fiber is upset, and results in a weak fiber.

Plant diseases may cause an inferior quality of cotton. Nematodes or "root rot" causes cotton to die. If these plants die after the fruiting, which they often do, the bolls may open. Often this cotton is immature and weak and causes the staple length to be designated as Wasty.

A culling process sometimes takes place at harvest. After the second or third hand pulling, only unopened or partially opened, immature bolls may be left. When these bolls are ginned with mature fibers from fully grown bolls, the result may be Wasty cotton.

Defoliation before maturity may result in Wasty cotton. When the defoliant is applied and becomes effective, the maturity processes are stopped. Then, when the cotton is harvested, which in most cases includes mature and immature bolls, chances are that the classification assigned to the staple length will be Wasty.

The above are some of the reasons for Wasty cotton. An early freeze and droughty conditions are natural causes and a farmer can do nothing about them. However, early defoliation of immature bolls and the harvesting of partly grown, unopened bolls are problems in the hands of the producer and he can do something about them.

## Former Vinson Youth Dies in Plane Crash

Ronnie Joe Casey, 16 year old Ponca City youth who formerly lived at Vinson, died Sunday, Oct. 21 in a crash of a small airplane near Marland.

Funeral services were at 2 p.m. Tuesday at the Vinson Church of Christ, with Milton Simmons, minister of the Ponca City Church of Christ officiating. He was assisted by J. V. McElroy, Mangum.

Burial was in Roselawn Cemetery north of Mangum, with Greer Funeral Home in charge.

Casey was a passenger in a plane piloted by Gary Guinn, 25, of Ponca City. The plane crashed and burned about 10:20 a.m. in a field about three miles west and two south of Marland.

Highway Patrolman Don Gourley, Ponca City, said he received a report the plane had dived, apparently toward a coyote, and plunged straight into the ground. Guinn and Casey apparently were returning to Ponca City following a coyote hunt in which several others using dogs and autos were participating.

Casey, born Nov. 8, 1946 at Hollis, had lived in this area until this past year. A junior at Ponca City high school, he had attended Vinson schools the first ten years.

Surviving are his parents, Mr. and Mrs. Leadell Casey of Ponca City; a brother, Jimmy Leadell of the home; his grandparents, Mr. and Mrs. Jim Casey of Vinson, and Mr. and Mrs. Early Darrow of Willow; his great grandmother, Mrs. M. P. Darrow, of Willow.

## Keep SS Record of Crew Leaders, Farm Workers

Farmers need to keep a record of their farm workers and of crew leaders, advises Hal Geldon, manager of the Amarillo district Social Security office.

Geldon points out that farmers must report and pay social security taxes if a worker earns \$150 or more in cash wages in a year, or if a worker works on 20 days or more during the year for any amount of cash paid on a time basis (hour, day, week or month). The employer tax and the employee tax are each 3 1/4%, for a total of 6 1/2% of wages. These earnings are reported on Internal Revenue Form 943.

Farmers are also required to report the name, permanent address, and employer's identification number on Page 2 of Form 943 of any crew leader or farm labor contractor who furnished him with agricultural workers.

To obtain the proper forms, and an employer's number, farmers should complete a Form SS-4, Geldon states. These can be obtained from the nearest District Director of Internal Revenue, or at the Amarillo Social Security office.

in the grocery, hardware and furniture business, and operated farm and business properties.

Even after he retired from active business, Mr. Lewis remained keenly interested in the activities of the town.

More than most men, he found time to give to the civic welfare of his town. He served as a member of the city council and as mayor from 1927 to 1929.

He led the city council in planning and executing the paving program which gave Wellington a street system unusually complete for that period, and laid the basis for the present system.

During World War II he was chairman of the Collingsworth County Ration Board.

Mr. Lewis was a member of the Catholic Church.

He was a Republican and over the years was one of the small group who helped to keep the party active here.

There was a side of Mr. Lewis' life which he turned away from the public eye—and this dealt with the generosity and charity which he extended to untold hundreds. Most of his gifts were never known except by the few.

Following Mrs. Lewis' death he gave in her memory the organ now in Our Mother of Mercy Church.

Surviving Mr. Lewis are a son and two daughters: Ralph Lewis of Camden, Ark.; Mrs. Joe Shields of Amarillo, and Mrs. Harold Watkins of Wellington; a sister and two brothers: Mrs. Edna L. Boyd and R. G. Lewis of Tucson, Ariz., and Ernest Lewis of Wellington; 7 grandchildren and 7 great grandchildren.

## LP Gas Safe, but Be Careful

COLLEGE STATION. — LP gas, or liquefied petroleum gas, is now being used more and more on Texas farms and ranches as a fuel for tractors and for household purposes, says Henry O'Neal, extension agricultural engineer, Texas A&M College. As with any combustible fuel, safety precautions are necessary when using LP gas to prevent injury and damage by explosion or fire, O'Neal adds.

One important precaution is to locate the tank at least 50 feet from any major building and 20 feet from other tanks containing flammable liquids, according to O'Neal. Also, the tank should be located so that it is isolated from open fires, sparks and other sources of ignition.

If a pump is used on the tank, erect a low fence around it to prevent accidental damage to the pump, hose connections, and the pipe fittings which may cause dangerous leaks.

Low spots and holes around the tank should be filled because LP gas is heavier than air and gas that leaks from the tank will settle in these low spaces and become a fire hazard, O'Neal says.

If leaks are suspected in the tank they should NOT be detected by using a flame, he warns. Keep away from the tank and call the local service man and let him get blown up.

LP gas is a fuel and should never be used for cleaning purposes or to inflate tires.

According to O'Neal, LP gas is a safe fuel and can be used without fear of explosion or fire if proper care and safety practices are observed.

### MORE MACHINES TO BLAME STUFF ON

AUSTIN.—If you don't like the way your new highway is built, there's nobody you can blame it on.

A machine probably figured it out.

State highway department has added a computer to work out problems of highway design, hydraulics, earth work, land measurement and traffic signalization.

The gadget can read and interpret 8,000 cards a minute from a tape.

Things were simpler in Austin when people ran the government.

### NEW BOOGER IN TEXTBOOK ROW

AUSTIN.—Texas State Teachers Association has broken its silence on the textbook controversy to warn that the next session of the legislature may bring attempts to put the burden of school book purchases back on the individual parent. Some school leaders regard the attacks on textbooks as essentially an attack on the public school system, says TSTA. Texas furnishes textbooks at a cost of less than \$4 a year for each child. If parents bought the books, the cost would be approximately \$30 for each child.

The St. Louis, Mo., Republican Party reported it failed in attempts to rent an elephant.

# County Judge

Should be a legally trained man, for the reason that he presides over the County Court, both Criminal and Civil cases. He is also probate judge, which involves much of the property titles, by probating Wills, hearing administration cases and presiding at guardianship hearings. Your County Judge, hears all insanity matters and is also juvenile Judge, for all youthful offenders. Last but not least your County Judge is the presiding officer of the Commissioners Court that transacts all the County Business. The County Judge is the County Finance officer, making the budget to be submitted to the Commissioners Court.

Collingsworth County is in good financial condition and is operating strictly on a cash basis. At the present schedule, we will soon be a debt-free County. On these qualifications and record I as asking for reelection. Thanking you, I remain.

## C. C. Bishop

Democratic Candidate for County Judge  
Collingsworth County, Texas

In May Primary Democrats voted 1672 and  
Republicans voted 50.

In the Democratic Primary I ran against Representative Grainger McIlhany as a Democrat. As in all Political campaigns, we had differences of opinion . . . but these were the type of differences of opinion that has made the Democratic Party in Texas the Party of Progress and Responsible State Government.

In my campaign in the Primary all my statements were those of a Democrat. I request that each of you now actively work for and support Grainger McIlhany as our Party Nominee for State Representative.
