NUMBER 29

NEW POST OFFICE BUILDING TO BE DEDICATED WEDNESDAY

The new Knox City post office building will be formally dedicated Wednesday, June 25, Postmaster Jeff Graham has announced.

The dedication is sponsored by the Knox City Lions Club, and George A. Gray of Dallas Regional Director of the Post Office Department, will make the dedicatory address at the club's regular weekly luncheon.

Due to the number of guests expected, the luncheon will be held in the new school cafeteria. Open house will be held at the new office from 1:00 p. m. to 4:30 p. m., with everyone in the area invited to attend. Members of the 1946 Study Club will serve refreshments in the post office lobby.

The new facility, located at 407 Austin, is a part of the Post Office Department's commercial leasing program, which uses private financing to obtain needed facilities. Since the facilities remain under private ownership while leased to the government, they pay local taxes to the community, as well as eliminate the need of large outlays of money from the Federal treasury for construction purposes, the postmaster explained. Owner of the building is W. L. Collins.

Knox Area Gets Good Rain Monday

A rain that was "just right" for thousands of acres of young cotton fell in the Knox City area Monday afternoon.

Official measurement was 2.38 inches, but in the rural area the amount varied from 1.50 to 3.00 inches.

The rain was preceded by high winds, but no damage was reported. Harvest of the remaining grain in the area was delayed, but the grain was not harmed.

LIONS TO INSTALL OFFICERS AT BANQUET FRIDAY NIGHT

Otto Lawson will be installed as president of the Knox City Lions Club at the club's annual Ladies Night banquet tomorrow (Friday) night in the new school cafeteria.

The program, which will begin at 8 o'clock, will include dedication of the cafeteria, which was recently completed in the remodeled former high school building. Supt. Chas. E. Silk will make the dedication.

John Waddell, minister of the First Christian Church, will be master of ceremonies, and the Munday Madcats, an orchestra composed of Munday high school students, will furnish dinner music.

Joe Weaver of Olney, member of the International Council, will be in charge of the installation ceremony.

Other officers to be installed are Doyle Graham, first vice-president; Jack Fisher, second vice-president; Fuller Shannon, third vice-president; Joe Roy Smith, lion tamer; Bill Sams, tail twister; and G. W. Coats, secretary. Directors installed will be Pete Edge, H. L. White, J. C. Branch, Roy Smith, and Paul Hoge, immediate past president.

Program for the evening will be as follows: "America," led by Martin Smith; invocation, Rev. Floyd V. Bailey; dinner; recognition of guests; Paul Hoge; entertainment, Lynelle Tankersley and Glenda Givens; dedication of cafeteria, Supt. Silk; piano-violin duet, Mrs. Oran D. Driver and George Houston; duet, Cindy Huntsman and Lynn Clarke; skit, Jimmy Dutton and John Hansen; introduction of installing officer, Jeff Graham; installation of officers; National Anthem, and Pledge of Allegiance.

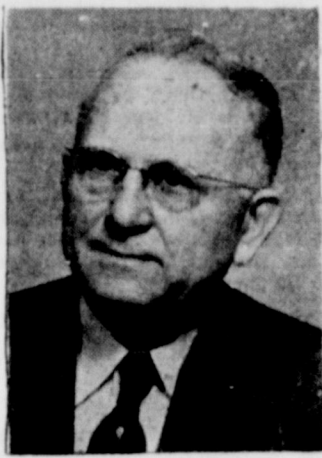

Besides Hoge, other retiring officers are Lawson, first vice-president; Graham, second vice-president; Fisher, third vice-president; Otis Cash, lion tamer; and Alton Fitzgerald, tail twister. Coats served as secretary last year.

The dinner will be prepared by Mrs. Guy Robinson and her group and served by the Home-making girls under the direction of Mrs. Chas. E. Silk.

Mrs. Thompson is well known in Knox City, having lived here most of her life. She is the daughter of Mrs. Mollie Hubbard.

Previous managers of the cafe were Mr. and Mrs. O. D. Reid, who managed it several weeks after Mr. and Mrs. Cameron Biffle moved to Arlington.

Mrs. Thompson invited the public to "come in and eat with us and take advantage of our cool private dining room."

Plans Made for Little League All-Star Game

Little League managers and officials Wednesday announced plans for an all-star game between the first and second halves of league play.

One all-star team will be made up of players from the first and fourth-place teams, and the other will be players from the second and third-place teams.

Changes were also announced in the schedule for the remainder of the first half of play. To avoid some teams having too many early games, two single games and one double header will be played next week.

Monday night the R.A.'s will play the Cards, and Tuesday night the Braves will meet the Tigers, with both games beginning at 7:30. Thursday night the regular double header will be played, with the R.A.'s facing the Tigers and the Braves meeting the Cards.

Last Thursday night the Braves beat the Cards, getting 11 runs on ten hits off of Tankersley, Shaver and Jim Reyes. The Cards made five runs on eight hits off of Braves pitcher Johnston.

The R.A.'s collected nine runs on seven hits to down the Tigers, who had one run on one hit. On the mounds for the Tigers were Ronnie White, Logan and J. Roddy, while Mark Anderson went the distance for the R.A.'s.

Tuesday night, the Braves surged into the lead with a 5-4 win over the R.A.'s. The Braves got four hits off Logsdon and Rios, with Wilcox banging a home run in the second. The R.A.'s made their four runs on three hits off Wilcox and Johnston. Mark Anderson hit a homer in the fifth.

The Cards made eight runs on four hits off Logan to down the Tigers, who made three runs on one hit off of Shaver. It was the Cards first win of the season.

With each team to play four more games in the first half of league play, team standings are as follows:

	W	L	Pct.
Braves	4	1	.800
R.A.	3	2	.600
Tigers	2	3	.400
Cards	1	4	.200

Tonight (Thursday) the Tigers will meet the Cards and the Braves will meet the R.A.'s.

She and her sister, Mrs. Byron Gist of Amarillo will leave Dallas the 20th stopping in Mexico City and in Panama City for brief visits. Mrs. Gist will visit the Jamisons in Peru for sometime. While in Knox City Mrs. Jamison was a house guest of Mr. and Mrs. Russell Boyd.

Knox City, Rochester Turn Down Lake Plan

Knox City voters Tuesday turned down, 115 to 40, a proposal to become a part of the North Central Texas Municipal Water Authority.

Of the seven towns which have been in preliminary planning, only Knox City and Rochester

voted against the proposal, and are out of the project. The vote at Rochester was 14 for, 32 against.

Voting to be members of the water district were Haskell, by a vote of 584 to 176; Seymour, 126 to 108; Munday, 215 to 11;

Goree, 71 to 12 and Rule, 82 to 39.

Goal of the authority is to build a lake on Miller Creek, east of Munday, to furnish municipal water to member towns. Estimated cost of the entire project, with seven towns participating, was about \$6.5 million. However, engineers will change their plans since the withdrawal of Knox City and Rochester, and the cost is expected to be proportionally lower.

The five towns remaining in the project will have two opportunities to withdraw at later dates—by turning down a bond issue and by refusing to execute water purchase contracts with the authority.

Many civic leaders in both Knox City and Rochester believe the two towns have ample underground water at present, and that the cost of the lake proposal is prohibitive.

VOTING PLACES SELECTED FOR WHEAT REFERENDUM

Voting places for the referendum to be held June 20 on marketing quotas for the 1959 wheat crop were announced today by H. H. Partridge, Chairman, County Agricultural Stabilization Conservation Committee. The locations are as follows:

Benjamin — Court House.
Truscott — Browder Service Station.
Gilliland — School.
Vera — American Legion Hall.
Goree — City Hall.
Munday — City Hall.
Rhineland — Gin Office.
Sunset — School.
Knox City — American Legion Hall.

Eligible voters may cast their ballots at their local polling places any time between the hours of 8:00 a. m. and 7:00 p. m.

School Library to Be Open During Summer

Beginning Saturday, June 21, the high school library will be open Saturdays during the summer from 4 to 6 p. m. Mrs. Philip Colehour, Knox County School Librarian, said Wednesday.

The library service will be for high school and grade school students only, Mrs. Colehour said.

The librarian is moving some of the grade school books to the high school library this week. Also included in the books for grade school students will be 150 new books which arrived recently.

Mrs. Colehour, who was recently elected president of a local chapter of Friends of the Library, said she has already accepted some books donated for a city library. About fifty books have been donated, with the promise of more.

To date, she has been unable to find a place to set up a temporary city library. She asked that if anyone has a place for a temporary or possibly permanent location to contact her.

A committee is working on a constitution and by-laws for Friends of the Library. She expects to call a meeting in the near future.

O'Brien Pastor's Wife In Abilene Hospital For Polio Treatment

Mrs. John Campbell is in O'Brien taking care of her son's children while their mother, Mrs. Mart Hardin, is receiving treatment for polio in Hendricks Memorial Hospital, Abilene.

Mrs. Hardin whose husband is pastor of the O'Brien Baptist Church, is receiving physical therapy in both arms and legs. She contacted polio soon after the birth of a son about five weeks ago. Doctors feel there will be no permanent disability. She had received three Salk shots.

The Hardins have another son, Billy Mart, who will be two years old in October.

Pony League Play to Begin Friday Night

Play will start Friday night in the Cotton Belt Pony Baseball League, composed of teams from Knox City, Haskell, Munday and Rule.

The Pony League teams are made up of boys 13 and 14 years of age.

Officers were elected at a meeting in Haskell last week, and a round robin schedule of games adopted.

Carl Anderson of Haskell was elected president; J. Omar Cure of Munday, vice-president; Erwin Meier of Rule, secretary; and Gene Thompson, Munday, player-manager and commissioner.

Bob Bailey and Ted Darland are manager and coach of the Knox City team.

All games will start at 8 p. m. in Rule, Knox City and Haskell, where lighted fields are available, and at 5:30 p. m. in Munday.

Schedule for the season, with the home team listed first, is as follows:

These boys were part of a super sales force that canvassed the town last week in the Knox City Lions Club's annual broom sale. The club's proceeds went to the Little League, and league players helped Lions in the sale. Gross sales were about \$800, and the Little League received \$235. The balance went to blind workmen who made the brooms, mops and other household items.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS — If a fire-breathing dragon were loose on the Texas countryside—smashing cars and their occupants, slapping down pedestrians—there'd be no question about the need to get rid of the monster. An aroused public would demand that SOMEBODY DO SOMETHING!

In actuality, innocent people ARE being maimed or killed every day as they go about their business. Thousands are lost every year.

But somebody IS doing something. Right now, officials and private citizens are forming a massive "posse". They're going after the killer—the monstrous indifference, carelessness and other difficulties that bring death on Texas streets and highways.

Leaders are members of the Texas Traffic Safety Council created by the Legislature just a year ago. Gov. Price Daniel is chairman; Col. Homer Garrison Jr., director of the Department of Public Safety, vice-chairman. Heads of numerous other state agencies are members.

Formation of the Council was the starting point for a campaign which, for the first time, brought the official power and prestige of state government to bear on a growing problem. For some years Texas vehicles and their drivers had been outgrowing highway facilities and out-

distancing law enforcement agencies by sheer weight of numbers. In 1956 Texas had an appalling all-time high of 2,611 motorcides.

Governor Daniel called it a public emergency.

With only a skeleton organization, the Council hammered away through 1957 at tightening enforcement, organizing holiday safety campaigns. By the end of the year the toll had dropped by 72.

In February of this year the governor appointed the state's first full-time traffic safety director. He is Brad H. Smith, veteran South Texas newspaper, radio and television man and past president of the Texas Press Association, who has for many years been a volunteer worker in traffic safety.

First move was to acquaint Texans with the enormity of the problem. In this Smith says he's had unstinting help from mass news media and volunteer assistance from every type of civic group.

In April Governor Daniel climaxed publicity efforts with a statewide broadcast calling for a "crack down" on two major traffic evils—speeding and driving while intoxicated. Simultaneously, local traffic safety councils were formed in 190 counties. An estimated 5,000 people participated.

Meanwhile, the battle is being pushed on other fronts. A survey of traffic-controlling resources resulted in recommendation of a 7-point program to bring Texas up to par:

1. A statewide program to bring greater public cooperation.
2. More rigid enforcement of present laws.
3. Adoption of the Uniform Driver's License Law.
4. A law to permit police to use chemical tests and other scientific aids to detect drunken drivers.
5. Development of strong, fair, effective traffic courts.
6. A State Highway Patrol double its present size.
7. Universal driver education

in public schools supported by state aid.

Besides the state agencies working cooperatively through the new Council, other groups are part of the crusade. A major source of help is the 20-year-old Texas Safety Association, a pioneer group which finances its efforts on a voluntary basis.

Texas Legislative Council is studying traffic problems and will report to the 56th Legislature.

Bringing new weight is the Governor's Highway Safety Commission. Scores of prominent Texans answered Governor Daniel's call to give citizen support to official efforts. First Commission meeting is set tentatively for Fall.

Results thus far are encouraging. For the first 23 weeks of this year, the toll was down 101 persons, about 11 per cent, from last year. There were 163 fewer deaths, down about 17 per cent, from '56.

Goal for 1958 is a year-long 10 per cent drop or 254 lives saved—a real stab at the dragon.

JULY SNOW STORM — Next summer's Democratic precinct conventions will be like an extra after-hours election. There will be rival "platforms" and rival candidates, but only one key issue—whose to control the party.

Battle lines were drawn when the State Democratic Executive Committee held its June meeting in Austin. Governor Daniel, as head of the party in Texas, called on his moderate-conservative cohorts to "snow under" the liberal-labor Democrats of Texas at the conventions. He accused DOT of trying to usurp the party name for a "splinter group."

SDEC is recommending electing delegates to county conventions by primary ballot and moving primaries up to May and June. It also suggests a search for means to prevent party line crossing at primary time.

DOT is pushing for its "code of ethics" for conducting conventions and a party registration law to keep out Republicans.

Relative merits of the two "platforms" may be as confusing to some voters as a snowstorm in July. What's clear is that if the moderate-conservatives win out, Governor Daniel will continue at the helm of party affairs in Texas. If the DOT prevails, Mrs. Frankie Randolph, national committeewoman and DOT chairman, will take the wheel.

New USDA Potato Grading Standards Effective July 15

COLLEGE STATION. — Potatoes to growers and handlers of this area will begin operating under a new schedule of grading standards on July 15, according to an announcement by the U. S. Department of Agriculture.

The revised standards, the first major changes in potato grades in 25 years, were developed by the USDA with close cooperation of trade representatives. Suggestions for further improvements have been invited.

Under the new standards, there will be no U. S. Extra No. 1 grade. Instead, there will be a newly defined U. S. Fancy grade, similar to the former U. S. Extra No. 1, except that it calls for higher requirements for maturity, shape and cleanliness.

In addition, the new standards involve modifying the definitions of "damage" and "serious damage," to improve the accepted standards of U. S. No. 1, U. S. Commercial and U. S. No. 2 grades.

Scoring of defects in all grades now is based solely upon the individual potato, not on the general appearance of defective potatoes in the lot. Changes in size classifications also are included and tolerance for over-size is reduced from 15 to 10 percent. A new Size C classification has been established to include potatoes ranging from 1 inch to 1 1/2 inches in diameter.

Copies of the new standards may be secured from the Fruit and Vegetable Division, Agricultural Marketing Service, USDA, Washington 25, D. C.

THE KNOX COUNTY HERALD, THURSDAY, JUNE 19, 1958

The Salvation Army in Texas will have a new commander, effective June 19, the first change in top command in ten years.

Chairman W. P. White of the Knox County Service Unit Committee, announced today that he had been notified that orders have been issued by Lt. Commissioner William Davidson, Territorial Commander of the Salvation Army in the Southern Territory, Atlanta, Ga., for the retirement of Lt. Colonel John A. Morrison as Divisional Commander of the Texas Division, effective June 18 and the installation of Lt. Colonel Ernest Pickering as Texas Divisional Commander, effective June 19, 1941, to January 1944. Colonel Pickering served as Divisional Commander of the Texas Division for the last two and

one-half years. The orders affecting Colonel Morrison and Colonel Pickering also include their wives who hold equal rank with their husbands and fill important executive positions on the Divisional Staff.

In the new assignment, Lt. Colonel and Mrs. Pickering are returning to Texas and to Dallas after an absence of 14 1/2 years. Both had previously filled two assignments in the Texas Division. From January, 1937, to January, 1941, Colonel Pickering served as Youth Secretary in charge of youth activities, and Mrs. Pickering was Director of the Guard; and from January, 1941, to January 1944, Colonel Pickering served as Divisional Secretary for the Texas Division and Mrs. Pickering was Divisional League of Mercy Secretary.

Quality Cotton In Good Demand

COLLEGE STATION. — Extra rewards await the cotton producer who succeeds in producing a high-quality crop this year, while discounts for low quality will continue to be stiff, reports Fred C. Elliott, extension cotton specialist.

The abundance of low-grade cotton that was left over from last year's crop will continue to depress the market for lower grades, points out Elliott. However, he adds, the present outlook for the 1958 crop indicates a continued shortage of high grade fiber.

A late spring, shortages of good seed, and too much moisture have contributed to a poor start for cotton this year in many areas. But the specialist says there is still plenty of opportunity to aim for high quality through careful management and harvest practices.

These practices include weed, disease and insect control; fertilization at rates based on Extension Service recommendations; irrigating for good maturity in areas where it is done with special reference to cutoff dates; careful harvesting and ginning; keeping low and high grade fiber separate and selling on grade.

Almost a third of last year's cotton crop classified as spotted, resulting in a lower average grade.

Almost a third of last year's cotton crop classified as spotted, resulting in a lower average grade for the 1957 crop than for any year on record.

Much of this spotting could have been avoided through better management practices, says Elliott. Widespread failure to adhere to such practices weakens cotton's position with synthetic and other fibers in marketing for many uses. And this, in turn, contributes to cotton surpluses and depressed prices.

County agricultural agents can provide the latest information on how to grow cotton for quality, and how to preserve that quality in harvesting and ginning.
