Bloc Fails To Delay Vote On Branding Reds

LAKE SUCCESS, Jan. 30. (AP)—The Soviet bloc tried unsuccessfully today to delay for 24 hours a United Nations vote on the United States demand that Communist China be indicted as an aggressor in Korea.

Russia, Poland and Czechoslovakia appealed for an adjournment of the UN Political Committee on the ground that they had received no instructions on amendments to the U. S. proposal and to an Arab Asian resolution calling for a seven-power conference on Far Eastern problems.

The committee turned down the adjournment proposal by a vote of 22 against, 10 in favor and 12 abstentions.

The committee then went ahead with its debate, which was expected to lead to a vote some time during the day. At least two-thirds of the 60 nations were expected to vote for the U. S. proposal.

Informed quarters said Britain had received instructions to support the U. S. proposal, together with two Lebanese amendments, and to abstain in the Asian-Arab proposal.

The United States put all the pressure at its command, including a statement by President Truman and resolutions by the House and Senate, into the drive to label the Communist Peiping regime an aggressor.

Chief opposition came from the Soviet bloc, which maintains that the U. S. is the aggressor against Korea and China, and from India which fears a sharp word to the Chinese Reds may set off World War III.

India sparked a drive to push through a resolution calling for another peace appeal to Peiping. The Chinese Communists have already rejected three previous such offers.

Sir Bengal N. Rau, Chief Indian delegate, said yesterday refusal to pass his resolution, co-sponsored by 11 Arab-Asian nations, would close the door to a peaceful solution.

Other diplomats asked how it was possible to close a door on someone who never had admitted it was open.

Draft Of 18-Year-Olds And Married Men

WASHINGTON, Jan. 30. (AP) — A former defense official said today he thinks it probably will be necesary soon to draft both 18 year olds and young married men.

Tracy S. Voorhees, former undersecretary of the Army, gave this opinion to the Senate preparedness subcommittee. Members of this committee have been debating whether it would be best (1) to draft married men under 26 who have no children, or (2) extend the draft to 18 year olds as recommended by the Defense Department.

Voorhees replied that he favored taking 18-year-olds first but added:

"It won't make very much difference except in timing, in my personal opinion. We are going to have to take them both over the next 18 months or two years."

Both the Senate group and the House Armed Services Committee are holding hearings on legislation to extend the draft to 18-year-olds as a move toward eventual Universal Military Service and Training (UMST) for all physically fit men, beginning at that age.

Voorhees and two World War II scientific leaders, Dr. Vannevar Bush and Dr. William C. Menninger, joined in urging an immediate start on UMST.

Meanwhile, Mrs. Anna M. Rosenberg, assistant secretary of defense, told the committee the Defense Department is opposed to raising the draft age above 26 years.

She said thao train men above the age of 26 would not be economical because the big intent is to establish a trained reserve and it might be that when such men are called they would be too old for service.

Some of the House committee members have been suggesting it would be better to take older men rather than draft 18-year-olds. The draft now reaches only those aged 19 to 26.

Substitute Bill For New Court

A substitute bill has been drawn in Austin by the attorney general to take the place of a bill introduced recently in both houses of the legislature asking for creation of a permanent judicial district for Scurry and Borden Counties, according to seven Snyder attorneys who returned from Austin last night after meeting with the legislature to promote the bill.

The substitute bill was drawn to create a temporary district here for the next six years, or possibly 10 years, depending on the senate and the house. It differs from the former bill, approved by judicial district committees in both houses, only in the time element. The new substitute bill may be placed on the call docket to await the consideration of the two bodies immediately, it was announced.

The amending of the bill to create a permanent one was done because of some opinions by legislators that the boom here might recede enough in six or 10 years to eliminate the need of a permanent district.

The original bill —and also the substitute—will create an additional district in the state which will include Borden and Scurry Counties, now in the 32nd Judicial District, which is also made up of Mitchell and Nolan Counties.

Attorneys from Snyder met with the legislature yesterday to present information proving the need of a separate district here. They were Jack Kennedy, Bob Davie, Ross Hemphill, Wayland Holt, Renal Rosson, James Rosser, Robert Patterson, and John Ford. Eldon Mahon, of Colorado City, district attorney, also accompanied them in behalf of the request.

Deadline For City Tax Is Tomorrow

Payment of city taxes must be made either today or tomorrow if the property owner is to escape penalty payments.

The deadline for these taxes, J. Ramsey, city superintendent, announced today is Jan. 31, or closing time at the city hall tomorrow afternoon.

Ramsey stressed that the taxes can be paid by mail.

Those who fail to meet the deadline will automatically be faced with a one and one-half per cent increase as a penalty for the month of February. For March the penalty is three per cent, and thereafter the penalty rate increases progressively.

Dawson County Well Recovers Salt At 7,900

James H. Snowden and Associates are preparing to set casing and test the Spraberry sand and try to complete an oil well and a new discovery of that zone at the No. 1-32 Dern, Northeast Dawson County wildcat.

This exploration ran a one-hour drillstem test in the Pennsylvanian reef lime at 8,392-8,700 feet. Recovery was 7,900 feet of salt water. There were no shows of oil or gas.

Operators are now preparing to

Foxhole D ecoration

Sgt. Elmer H. Wood, Winchester, Va., was too occupied to leave his foxhole on Korea's central front. He received the Silver Star Medal for gallantry in action in this unusual ceremony at a front line outpost. Making the presentation is Brig. Gen. George Peploe, San Antonio, Tex., commander of the Second Division.

Central Part Of Country Is Crippled By Severe Cold Wave

(By The Associated Press)

Midwinter's most severe weather lashed most of the nation today and there wasn't much relief in sight.

A severe cold wave gripped the central part of the country.

It was warmer near the Arctic Circle in Canada than in many parts of the mid-continent.

For the second straight day temperatures dropped far below zero in the midwest. One reading early today was 45 degrees below.

And it was cold and icy and wet over widespread areas of the East. Colder weather was on the way, said U. S. forecasters, for much of the East and parts of the South.

There was a mounting death toll attributed to the cold and icy weather. Hundreds suffered injuries in falls on icy streets.

TWO FREE

The cold air missed only two parts of the country — the extreme Southeast and the Far West—forecasters said. The rest of the nation, they said, was feeling the sting of the cold Canadian air.

The Midwest, like yesterday, got the most severe cold, with readings far below zero. They also reached sub-zero levels in the Northern and Central Rockies.

The below-zero line extended as far south as the Southern portions of Illinois, Indiana, Missouri and Kansas.

Wisconsin and Minnesota reported the lowest marks in the early morning — 45 below at Lone Rock Wis., and -37 at St. Cloud, Minn. It was -23 at Mason City, Ia., -19 at Milwaukee, -14 at Chicago, -7 at Lansing, Mich., and -1 at St. Louis.

LITTLE CLIMB

There was considerable freezing rain and sleet in a narrow band from Northern Virginia southwestward through Tennessee and Southern Kentucky into southeastern Texas.

Temperatures in the east generally were below freezing — and more cold air was predicted to move in during the day and tonight.

But in most of the Midwest readings never climbed as far as zero all day yesterday and then started falling after sundown. Chicago had a high of -3 yesterday after an early morning low of -9. It was colder today — with a minimum of -14.

HIGHWAYS

Highways in the immediate area were clear, but people traveling away from the city were warned they were doing so at their own risk.

Ice was heavy on highways around Austin, Waco, Houston Fredericksburg, Dallas, Fort Worth, Boerne, and Carrizo Springs. There were three inches of ice on roads from Tyler east to Little Rock, Ark.

U. S. Highway 83 south of Junction, toward Uvalde, which was closed all day yesterday, was open today, but there was still plenty of ice. The Highway Department warned people "do not travel unless in case of extreme emergency."

Minimum of Seven For Second Straight Night

The low temperature last night was seven degrees, but had climbed to eight at 7:30 this morning, Mrs. D. P. Strayhorn, weather observer here, said.

High for the previous 24 hours was 21 reached sometime yesterday afternoon, she said.

It's Warm Inside And School Will Keep

School children in the Snyder school district are not getting the breaks some children in the state are getting today. Snyder students are having school as usual.

The cold wave over most of the state has closed some schools through insufficient heating and hazardous roads. M. E. Stanfield, superintendent of schools, said today that as long as roads are passable schools will remain open here. To his knowledge, he said, cold has never been the cause of schools closing.

To Fight In Korea

Major Sabiha Gokcen, (above), 36-year-old adopted daughter of the late Kemal Ataturk of Turkey, is going to Korea to serve with the United Nations Air Force. She recently volunteered for active combat service. The Istanbul press reported approval apparently with the consent of General MacArthur's headquarters. She was graduated as a regular Turkish Air Force pilot and in 1935 flew combat missions against rebellious Kurds in Eastern Turkey. For a time Sabiha was chief instructor of the Turkish Civil Air Force.

County Charity Bill $13,000; Qualified Investigator Sought

No one has yet been appointed to the position of county investigator, according to Edgar Taylor, county judge, who said today that a man would be hired for the position as soon as one was found who could qualify for the job.

The office was created recently by the commissioners court, as a means of efficiency in handling of charity cases for the county.

"I believe the county could pay a good salary for a full - time investigator who could save thousands of dollars a year," Judge Taylor said.

INEFFICIENT NOW

The county by the approval of the commissioners court—the county's only existing authority on charity cases—has helped scores of persons with requests for financial assistance, and it was later discovered that some of the cases actually needed no assistance, Judge Taylor said. Many of the cases did need help and were deserving charity, but the amount of money spent by the county could have been reduced greatly if the deserving had been the only ones aided, he said.

Records in the county treasurer's office show that the county last year and during the first month of this year spent $13,319.39 on charity cases. This total amount included assistance to the poor in hospital bills, funeral expenses, cash contributions, gasoline, groceries, medical and drug bills, and other similar expenses.

HOSPITAL CASES

The treasurer's records list the larger contributions as payments of hospital bills on chairty cases. Early in the year the county paid a total of $426.45 to clear in full a number of charity case hospital bills that had been charged there over a period of several months. The settlement was made upon the selling of the hospital in February.

Later in the year, the commissioners approved payment of $10,000 to the hospital as settlement of 110 charity case statements presented to the court for a total of $19,322 which had accumulated since February.

The court on Dec. 11 voted to hire a person to investigate all cases claiming to require charity from the county. No qualifications were named at the time of the court's decision, but the court agreed to pass on the qualifications of any applicants for the job.

FULL TIME JOB

To qualify for the position, the applicant must be able to devote his full time to the investigation of cases claiming charity, Judge Taylor said, and he must be able to learn the circumstances in each case and be familiar enough with the type work to do an efficient job handling the cases himself.

The court in its last meeting decided against making any more financial contributions. Instead, all charity assistance will be given by authorization to grocery stores etc. to sell the necessary goods to the persons granted assistance, billing the county for them. This will be done only in cases where the merchants are notified by the judge or the court to make such sales.

Allied Advance Slows When It Engages Main Enemy Force in West

Fire Damage Over Million In Childress

CHILDRESS, Jan. 30. (AP)—Ice-coated firemen brought a stubborn pre-dawn fire under control here today after it had razed six buildings at an estimated loss of a million dollars.

Temperatures as low as 5 degrees above zero hampered firemen from eight Texas Panhandle cities in fighting the downtown blaze. They and their equipment were covered with heavy ice before the fire was controlled at about 7 o'clock this morning.

Two firemen were slightly injured when the glass window of a drug store blew out. No other injuries were reported.

The damage estimate was made by the Childress index. Childress is in the southeast part of the Panhandle.

Firemen from Quanah, Wellington, Memphis, Crowell, Paducah, Vernon and Chillicothe helped local firemen.

Fire Chief John Ballew said the fire appeared to have broken out in the Prather-Williams Drug Store about 4 o'clock this morning.

Shortly after firemen arrived, a big explosion blew the front window from that store. Bert McDearman and Bill Sims, local firemen were burned and cut but released from a hospital after emergency treatment.

The buildings burned were the First State Bank of Childress, a Western Auto Store, the drug store, the Gem Theatre, the Hood News Stand and Fashion Shoppe.

All but the news stand and Fashion Shop were on Commerce Street (the main street of Childress). The other two buildings were around a corner on the same city block.

The Cline Appliance Store also was damaged.

Home Burns To Ground Today

A large stucco house burned to the ground shortly before noon today about three blocks west of the water tower on Thirty - second Street near the west city limits.

The entire roof was blazing when the call was received, but firemen arrived in time to prevent two other dwellings from igniting. The house was unoccupied at the time, and the owners, Mr. and Mrs. Arthur French, were out of town. French is owner of the Mid-Continent Construction Co., a new firm here.

John Cameron, a carpenter who had been remodeling the house, said that Mr. and Mrs. Franch and their two small sons had moved here recently from Ardmore, Okla., and were having the house remodeled, planning to move into it in the next few days. He said they had been living in a small stucco dwelling immediately behind the larger house. They have gone on a trip to Fort Worth, he presumed.

Cause of the fire was not determined, but the blaze was believed to have started in the attic. Firemen fought the blaze from about 11 o'clock until after noon, also spraying other nearby buildings, including a garage, the small dwelling behind the house, and another large house about 40 feet south of the burning home.

Made Her Nervous

Quiet and somber, Actress Elizabeth Taylor leaves a Los Angeles courtroom after winning a divorce from Hotel Heir Nick Hilton. Tears filled her eyes as she testified Hilton was neglectful and made her nervous.

Night Club Is Razed By Fire

High winds during the year's coldest night swept flames rapidly through the Ex-Servicemen's Club on the Colorado City highway south of Snyder about 8:30 last night. It was completely destroyed.

The building, owned by Ray C. Helms, C. O. Helms, and C. E. Helms, was leased to the club, Ray Helms said. It was built about 11 months ago, and was known for many months as the Catalina Club.

No cause for the fire has been determined. Firemen said, however, it probably started from a heating unit which apparently was overheated due to last night's temperature.

"We have no plans for rebuilding the structure at present," Helms said.

He said the value of the building was approximately $8,000. It was insured.

Both the city's fire trucks went to the blaze along with 12 volunteer firemen, but were unable to do anything except keep the fire from spreading to nearby buildings. They sprayed water that turned to ice when it hit a number of smaller buildings in the area.

No one was injured.

The building was outside the city limits, and no water except what was carried in the fire truck's storage tanks was available to fight the blaze, which had engulfed the building when the firemen arrived.

Little Out Of The Way

WOODSTOCK, Ill., Jan. 30. (AP) — Mr. and Mrs. Kenneth W. Hood have just received a Christmas card from Oregon, Ill., 55 miles away.

It was delayed because the post office sent it by way of Honolulu, Hawaii, about 10,000 miles away.

Report May Show Freezes On More Farm Products Advisable

WASHINGTON, Jan. 30. (AP)—A government price report was due to show late today whether any additional major farm products have reached levels at which price ceilings can legally be fixed.

Under a price freeze order issued last Friday, only cotton, wool, rice, cottonseed, beef cattle, veal calves, lambs and hogs were declared to have reached ceiling levels.

The order, however, did not place ceilings on these or any farm products themselves, but only on foods and materials processed from them.

Few if any additional farm commodities were expected to be added to the minimum ceiling list. The bulk of agricultural products is selling below levels at which they can be controlled, under terms of the law, despite an overall increase of 16 per cent in farm prices during the last half of 1950.

The law says ceilings on farm products must not be fixed below the higher of these figures: (1) Parity prices or (2) the peak prices farmers received in the period of May 24 to June 24, the month before the Korean war began.

Today's report — to be issued by the Agriculture Department — was due to give January parity prices for about three dozen farm products. Parity prices for more than 100 other will be issued Wednesday. These parity prices will guide control operations for the full month of February.

Today's report was expected to show increases in parity prices of most farm products. There may be exceptions in the case of a few commodities for which the department will use a revised formula for calculating parity. Those commodities include potatoes, citrus fruits, eggs, barley, oats, rye, grain sorghums and fruits and vegetables.

UN Ships And Planes Pound Korean Town

Terrific Losses Said Inflicted Upon Reds By U. S. Spearhead

(By The Associated Press)

TOKYO, Jan. 30. — Doughboys spearheading the allies limited offensive were slowed to a crawl by die hard Red resistance today. An officer said they apparently hit the main enemy force arrayed along the frozen western Korean warfront.

On the east coast UN naval power hurled hot steel and bombs into a North Korean town from carrier-based planes and big guns of warships.

Hundreds of enemy supply vehicles were seen in North Korea moving southward toward the western battle line.

SLOW GOING

Forward UN units in the western sector advanced laboriously only a few hundred yards on the sixth day of their northward limited offensive.

On the flank, however, gains up to six miles were recorded.

An enemy division may be manning the Red defense line on the western half of the 40-mile front.

"They're well dug in and determined to stay" Lt. Col. Bernard Peeters of Park Falls, Wis., executive officer of a spearhead regiment, told Associated Press Writer Jim Becker.

Advance allied units, he added, were suffering their heaviest casualties of the offensive, but these were far below the "terrific losses being inflicted on the enemy."

For the second straight day Chinese artillery pounded away at UN positions nine miles northwest of Suwon. About 100 rounds were fired Tuesday. Seven miles northwest of Suwon American units were fired on by Reds in well-hidden caves, and made only a small advance.

PATROL RESCUED

One 45-man allied patrol, entirely surrounded by a Chinese Communist battalion Monday 18 miles northwest of Wonju, was rescued Tuesday by another UN patrol after 15 hours of arduous fighting.

The Battleship Missouri and a heavy naval attack force teamed with carrier-based planes to plaster the Korean east coast town of Kansong, 25 miles north of Parallel 38.

The Navy's east coast bombardment was called the heaviest of recent months. A spokesman said rail and highway bridges were the principal targets.

A naval release late Tuesday said the Battleship Missouri alone poured more than 1,000 rounds of 16-inch and five-inch ammunition into the Kansong area in the first hour of the neutralization bombardment.

ATTACK REPULSED

An enemy attack west and northwest of Ichon was repulsed early Tuesday. An allied armored patrol re-entered Hoensong Monday and found it empty of Communists. Small scale clashes with guerrillas continued south of Tanyang on the central front.

The North Korean radio claimed Red troops had shot down and captured four UN fliers. The broadcast on the Pyongyang radio asserted North Korean Communist troops had inflicted "great losses" on UN troops in the Suwon area.

U. S. Fifth Air Force planes Monday night loosed the heaviest fire bomb attack of the war on villages scattered in the Seoul area. By early morning fires crackled all over the area as village after village sheltering the Reds went up in flames.

Chinese Withdrawal In Korea Is Denied

TAIPEI, Formosa, Jan. 30. (AP)—The China Union Press said today thousands of badly mauled Chinese Communist troops in Korea were being reorganized near the Manchurian border.

It said reports from Peiping and Tientsin indicated there had been no withdrawal of Chinese Reds from Korea to Manchuria.

Weather

WEST TEXAS: Cloudy with occasional light freezing rain or snow this afternoon, tonight and Wednesday. Continued cold. Lowest temperatures 5-15 Panhandle and South Plains and 10-25 elsewhere tonight.

EAST TEXAS: Cloudy with occasional freezing rain in south and some light freezing rain or snow in north portion this afternoon, tonight and Wednesday. Continued cold. Lowest temperatures 10-20 in north and interior of central portion and 20-30 in extreme south portion and along the coast tonight. Fresh northerly winds on the coast.

Water Board With Broad Power Would Replace Engineer Group

(EDITOR'S NOTE This is the second in a series of articles on bills introduced in the Texas House of Representatives and Senate which would rewrite state water laws.)

By KATHARYN DUFF
Abilene Reporter - News Staff

The Texas Board of Water Engineers will die a quick death, if the Texas Senate and House of Representatives enact into law a proposal written into the new state surface water code which has been introduced into both legislative houses.

In its stead there would be created a more powerful Texas Water Commission.

But that wouldn't leave the present Board members without jobs. They would become the first members of the new Commission—at nearly double their present salary.

The present members of the three-man Board draw $4200 yearly. The jobs on the three-man commission would pay $8,000 yearly.

The commission members would serve six-year terms, as do the present engineers, with tenure staggered so that one goes out of office every two years.

They would be appointed by the governor, with the advice and consent of the Senate.

The state would be divided into three water districts—as it is today—with one of the commissioners coming from each district. One district would be West Texas—the area north of the 30th parallel and West of the 100th meridian. The south boundary would be just south of Sonora and the east boundary between Abilene and Sweetwater—putting Abilene in "East Texas" as it is under the present water board set-up.

The East Texas division would be from about Abilene east, with a south jog to take in the Houston coastal area. The rest of the state—from about an Austin-Sonora line south—would be the third division.

Where the powers and authority of the present Board of Water Engineers are limited and confused the new commission will have broad powers, said Senator Rogers Kelly, chairman of the interim committee which framed the bill and of the Senate panel which will consider it.

The commission shall "inquire from time to time" into the use of waters from all the state's streams and tributaries to determine waste and to determine if the water laws are being violated. It shall issue water permits, hear evidence on water use and regulate, in general the water resources of the state.

Great emphasis is put, in the bill, on elimination of waste. The powers of the commission, in this respect, are modeled largely after the Railroad Commission, Senator Kelley said in an interview.

The commission would employ a water engineer, to be paid $10,000 yearly, who would be the administrative officer. His role would compare with that of the state engineer of the Highway Department.

Generally reaction to the reorganization of the administration of state water laws, as outlined in the bill, seems favorable.

One point of disagreement, however, was sounded on the size of the proposed commission.

FOR LARGER BOARD

J. E. Sturrock, general manager of the Texas Water Conservation Association, said he personally favored a larger commission.

Three members are too few to represent all the varied sections which have particular interest in the state's surface water. Six could give a much more general representation, Sturrock believes.

Senator George Moffett, active on the interim committee which rewrote the water laws, disagreed.

A six-man board would be too unwieldy, Moffett said, "too large to get the job done." A man from each of the three geographic areas would give ample representation Moffett believes.

New Storage Method For Bone Banks Developed By The Navy

(By The Associated Press)

CHICAGO, Jan. 30. — Development of a new method of preserving human bone for "bone banks" was announced by the Navy today.

It may allow storage of bones for surgical use for as much as seven years, compared to an estimated one year limit for bone preserved by a previous method involving storage in a deep-freeze cabinet.

The new technique entails only a "quick-freeze," followed up by drying in a vacuum — and then storage in sterile containers at room temperature.

MORE ADVANTAGES

Navy doctors said it had these further advantages over preservation by deep-freezing, or by another previous method involving placement of unfrozen bone in antiseptic chemicals.

1. Simplification of storage and transportation problems. Deep-frozen bone must be kept in a big refrigerated cabinet. Bones preserved in antiseptics, while capable of indefinite storage at room temperature, necessitate frequent changing in the chemical preservatives used.

2. Better actual preservation of certain easily-damaged constituents of the bone.

The new method was described to the 18th annual meeting of the American Academy of Orthopaedic Surgeons by a team of doctors from the U. S. Naval Medical School, Bethesda, Md. The team was headed by Capt. F. P. Kreuz.

SIX HEALED

They said six human patients have been bone-grafted with this new type of preserved bone and "they have apparently healed in a normal manner."

In another report, Dr. Murray Copeland of Washington, D. C., said that radioactive materials of the atomic age are "far from replacing" radium and X-ray on any large scale in the treatment of cancer and allied diseases.

The Georgetown University medical school doctor said that certain radioisotopes are being employed to supplement "and, occasionally, to replace X-rays and radium" in the treatment of such ailments.

STUDIES SET

And he added that widespread studies are under way, designed to investigate further possibilities along this line with other isotopes, but he declared:

"There are relatively few artificial radioisotopes out of a total of 750 which have practical application in the medical (treatment) field at the present time."

He pointed out, however, that a number of these atomic substances are proving of value in the diagnosis of various diseases.

General Walker Paid Tribute In Korea By United Nations Leaders

PUSAN, Korea, Jan. 30. (AP) —Korean and United Nations leaders paid tribute yesterday to Gen. Walton H. Walker, the Texas general killed in Korea Dec. 22 in a traffic accident.

The Korean National Christian Council sponsored the service for the Belton general, now buried in Arlington National Cemetery. He was called a "soldier of democracy."

"His successor is equally determined to uphold the principles of the United Nations — the attainment of peace through international control," said Dr. Bernabe Afraica of the Philippines, January chairman of the UN commission in Korea. Walker was succeeded as Eighth Army commander by Lt. Gen. Matthew Ridgeway.

Services For Oilman

FORT WORTH, Jan. 30. (AP) — Funeral services for Glenn W. Garrett, 61, for many years head of Gulf Oil Co.'s land leasing department, will be held here tomorrow morning at 10 o'clock. Burial will be in DeLeon.

He died here yesterday of a heart ailment.

To Revise Slaughter Grades Veal, Calves

WASHINGTON, Jan. 30. (AP)—The Agriculture Department proposes to revise the carcass and slaughter grades for veal and calves. The changes would be in line with those made in cattle and beef grades recently.

The department said the changes are needed because of differing livestock production practices and consumer preferences.

Interested persons have until March 2 to submit objections.

Shaving Brush Leaving

NEW YORK, (AP) — The shaving brush is on the way out, according to results of a recent poll of examining boards governing such matters. Even in states where regulations do not forbid brushes in barber shops for sanitary reasons, the trend is toward electrically operated lather machines.

One manufacturer of a new, push-button shave rather, Carter Products, Inc., of New Brunswick, N. J., reports numerous requests from barbers for wholesale privileges even though their product is intended for the retail home market.

Negro Prays As Attorneys, Judge Debate

LITTLE ROCK, Ark., Jan. 30 (AP) — Douglas Williams, 40, prayed on his knees and chanted spirituals yesterday while Circuit Judge Gus Fulk and attorneys discussed his case.

He was on trial accused of stealing $420 in goods from the Arkansas Electric Co. Deputy Prosecutor Paul B. Pendleton pointed out that Williams had made restitution of the amount, and that the firm had recommended leniency.

"I just don't suspend sentences twice for the same person," said Judge Fulk, referring to a five-year suspended sentence on a similar charge in 1947.

Williams' chanting intensified.

"You should have started praying before you got in this trouble," commented the judge.

He then sentenced Williams, a Negro, to two years.

The praying helped some, however. The judge, contrary to usual procedure, did not revoke the original five-year suspended sentence.

British Titleholder Dies At Age Of 90

LONDON, Jan. 30. (AP) — Lord Nelson, fifth holder of the title created in 1805 to honor Britain's famous naval hero, died in a London hospital today after a brief illness. He was 90.

With his death ends a 5,000 pound ($14,000) annuity which a grateful government granted to the family after the Battle of Trafalgar. The labor regime in 1947 decided to abolish the stipend on the fifth Lord Nelson's death.

Nelson was a great-great nephew of the admiral who won for Britain some of her most famous naval victories. Survivors include five sons and three daughters.

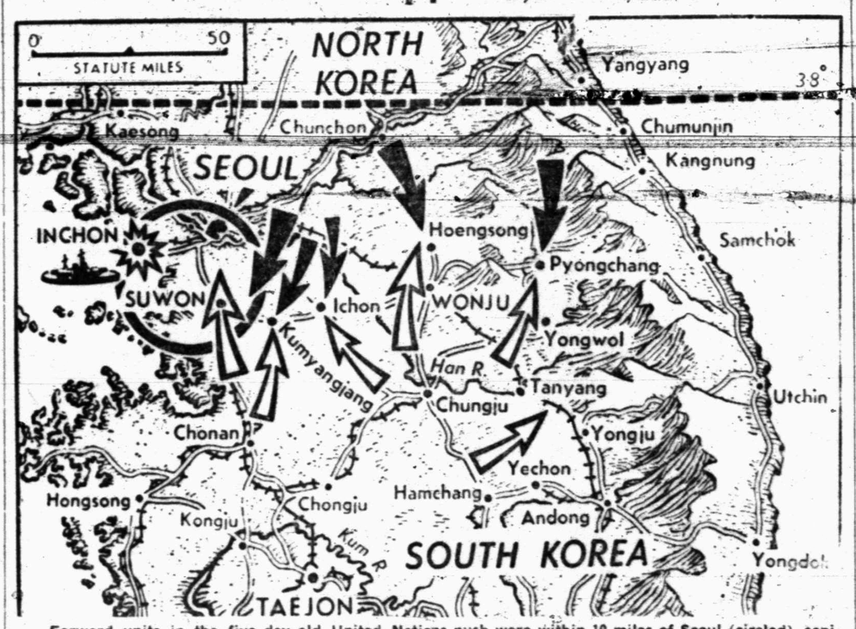
UN Forces Approach Seoul



Forward units in the five-day-old United Nations push were within 10 miles of Seoul (circled), capital of South Korea. Inchon, Seoul's port city, again was bombarded (blast symbol) by naval vessels. White arrows show other advancing U.N. units; black, the opposing Reds.

Sam Rayburn Sets New Record For Tenure As House Speaker

(By The Associated Press)

WASHINGTON, Jan. 30. — Sam Rayburn today surpasses the record for tenure as speaker of the House of Representatives established by Henry Clay more than a century ago.

The crack of the stocky, bald Texan's gavel calling the House to session at noon exceeded Clay's record of eight years, four months and 11 days as presiding officer of the House.

In neither case was the long tenure continuous.

TO POST IN '40

Rayburn assumed the post on Sept. 16, 1940, filling a vacancy created by the death of the late William B. Bankhead of Alabama. His service as speaker was interrupted during the Republican-controlled 80th Congress in 1947-48.

Statisticians in the congressional library have figured that the record Clay set in between 1811 and 1825 totaled 3,056½ days. Today is Rayburn's 3,057th.

During the past three months Rayburn also has exceeded the eight-year records as speaker chalked up by two other men. They were Joseph G. (Uncle Joe) Cannon of Illinois, 1903 to 1911; and Champ Clark of Missouri, 1911 to 1919.

The speakership of the House, sometimes hailed as the second most powerful position in the nation, carries with it the right of succession of the presidency if the President and vice president die or cannot serve.

A native of Tennessee, Rayburn went to Texas with his family while a child. As a small boy he rode 12 miles on one occasion to listen to Joseph Weldon Baily, a noted Texas orator of the day. He has since said that incident started him on the career which took him to the post he wanted.

He has often said publicly that his greatest ambition always was to serve as House speaker.

Before coming to Congress in 1913, Rayburn served four years in the Texas House of Representatives, and was its speaker for two years. He was 69 years old on Jan. 6. He is a bachelor.

Famous Woman Attorney Dies

MARY D. BAILEY

ST. PETERSBURG, Fla., Jan. 30. (AP) — Mary D. Bailey, who as an assistant U. S. attorney in Chicago during prohibition days padlocked 2,500 night spots, died yesterday at the age of 73.

Until prohibition was repealed in 1933, her chief assignment was handling Volstead Act violations. She also specialized in narcotics and juvenile cases during her career as an assistant U. S. attorney from 1921 to 1944.

She won 95 per cent of 5,000 cases of all types she tried in her first 17 years.

Since becoming ill four years ago, she spent most of her time here.

Rest Is Important, Says Housewife

It has been said that there are lots and lots of ways for people to try to get some sleep at night. Some folks paint their windows black, others use ear plugs to shut out noises, while others count sheep. All of these are good and they do help some folks get their rest, but Mrs. Frank Jones, 1220 Bell, Montgomery, Alabama, has the best way to get a fine night's rest. Mrs. Jones, who didn't rest well at night before she took HADACOL, is able to say, after taking HADACOL, "I rest wonderfully now!" Mrs. Jones found that HADACOL supplied Vitamins B1, B2, Niacin and Iron in which her system was deficient.

Here is Mrs. Jones' own statement: "For a long time I had been bothered with indigestion and sour stomach. Food didn't seem to agree with me. I always had that uneasy fullness after I ate. I got to where I didn't want to eat. I had no energy. Felt like I couldn't make it during the day. I also was very nervous. I didn't rest well at night. A friend of mine told me about HADACOL. After the fourth bottle I felt wonderful. My food agreed with me — no more indigestion or sour stomach. My appetite is terrific. I now have lots of energy and my nervousness has gone. I rest wonderfully now. In fact, I feel good all the way 'round. I recommend HADACOL to everybody—it's wonderful."

Dutra Will Head Mexican Golfers In Texas Tourney

AMARILLO, Jan. 30. (AP) — Olin Dutra, former American golf star will head the Mexico team which meets a Texas team in International Cup Matches here during the Texas PGA Tournament May 28-June 4.

The former National Open and PGA champion is the golf co-ordinator of Mexico and lives in Mexico City.

Edmundo Salas, president of the Mexico PGA, also announced other members of the tentative ten-man team. They are Al Espinosa, Al Escalante, Margarito Solis, Amado Martinez, Juan Neri, Antonio Pedroza, Juan Castorena, Felix Perez and Salas.

Byron Nelson will lead the ten top pros of Texas in the matches.

The matches will be May 30 — the day before the PGA Tournament opens.

58 Years Of Transquility

LONG BEACH, Calif. (AP)—Fifty-eight years of married life without a quarrel—that's the record claimed by Mr. and Mrs. Benjamin C. Scott.

"It's the truth," Mrs. Scott told a dubious reporter. "There's no use in arguing or fussing. What good does it do? We just haven't done it."

"No," Mr. Scott nodded, "we haven't."

What do they do when they get mad at each other? "I just let 'mad,'" said Mrs. Scott. "I just let it pass over," said Mr. Scott.

Change For Better?

WEST PALM BEACH, Fla., Jan. 30. (AP) — Circuit Judge Joseph S. White yesterday granted a petition authorizing Jack Jackson to change his name to Narciso Saccomani.

Mighty Rocky Trip For Team

(By The Associated Press)

NEW YORK, Jan. 30. (AP) — Long Island University's touring basketball forces are finding their 6,000-mile road trip mighty rocky, not at all like playing at home, where they have won 139 straight games.

The Blackbirds have won once and lost twice on the current swing and, perhaps, the worst is yet to come, as LIU plays Kansas State tomorrow night and St. Louis Saturday.

Arizona staged a brilliant rally last night to nip Long Island, 62-61. Jerry Dillon's free toss in the waning seconds enabled Arizona to extend its home floor string to 73 consecutive victories.

Meanwhile, Kentucky, ranked No. 1 in this week's Associated Press poll, blasted Tulane, 104-68, in a Southeastern Conference game.

In two Western Conference tilts, Northwestern stomped on Ohio State, 78-67, and Purdue climbed out of the cellar with a 59-55 victory over Michigan State.

Other leading games saw Villanova spank Duquesne, 68-65, Princeton rip Rutgers, 73-56, Detroit down Tulsa 62-50, Iowa State trim Creighton, 75-49, and Utah whip Denver, 67-53.

LEGAL NOTICE

NOTICE TO CONTRACTORS

Sealed proposals addressed to F. G. Sears, Mayor, for furnishing bond, labor and materials for the construction of Flexible base and single asphalt surfacing on Avenue R from 24th street to 13th street and 13th street from Ave. R. to Ave. S for the City of Snyder, Texas will be received at the office of the City Secretary, Snyder, Texas, until 7:00 P.M. February 14, 1951, in accordance with this notice, special instructions to bidders, proposals, plans and specifications on file with the City Secretary of Snyder, Texas, and publicly opened and read, after which the bids will be considered by the City Council and award of contract made as soon thereafter as practicable.

A certified or cashier's check on a bank in the State of Texas, or a bidder's bond from a reliable surety company, authorized to do business in the State of Texas, payable without recourse to F. G. Sears, Mayor, for the amount of not less than five per cent (5) of the total bid as a guaranty that if awarded the contract, the bidder will promptly enter into a contract and execute a performance bond of One Hundred Per Cent (100) of the contract price, shall accompany the bid.

Plans, specifications, proposal forms, special notice and instructions to bidders, bond and contract forms may be seen and examined at the office of the City Secretary, City Hall, Snyder, Texas or at the office of Jas. V. Curnutte, Consulting Engineer, in the City Hall at Snyder, Texas.

The City reserves the right to reject any or all bids, to waive any or all formalities and to make award of contract in accordance with "Special Notice and Instructions to Bidders". The City will not accept a proposal after the closing hour advertised.

Recipes

TV SNACKTIME

American Cheese Spread* Potato Chips and Crackers
Pineapple Upsidedown Cake Beverage
(Recipe for Starred Dish Follows)

AMERICAN CHEESE SPREAD

Ingredients: I cup grated American cheese, 1/4 cup chopped roasted unblanched almonds, 2 diced pimientos, 1/2 teaspoon Worcestershire sauce, onion salt (to taste), mayonnaise.

Method: Mix cheese, almonds, pimientos, and Worcestershire sauce with onion salt (to taste) and enough mayonnaise to moisten. Use as a topping for potato chips and crackers. Makes 1 1/4 cups spread.

SUNDAY DINNER

Broiled Deviled Chicken Legs Mashed Potatoes
Buttered Broccoli Winter Fruit Salad
Bread and Butter
Vanilla Ice Cream with Sherry Nut Sauce*
(Recipe for Starred Dish Follows)

SHERRY NUT SAUCE

Ingredients: 1 tablespoon cornstarch, 1/3 cup brown sugar, 2/3 cup cooking sherry, 1/3 cup cold water, 2 tablespoons butter or margarine, 1/2 cup finely chopped walnuts or pecans.

Method: Mix cornstarch and sugar thoroughly in saucepan; gradually add sherry and water, stirring until mixture is smooth. Stir over low heat until mixture boils and thickens, then continue cooking for 2 more minutes. Remove from heat; stir in butter or margarine until melted and nuts. Serve warm over vanilla ice cream. Makes about 1 cup sauce.

Mason-Dixon Line Survey Show Most of Markers Still Intact

(By The Associated Press)

ANNAPOLIS, Md., Jan. 30.—The Mason-Dixon Line is still there—or most of it anyway.

The state of Maryland has just finished the first complete survey ever undertaken since it was marked out by Charles Mason and Jeremiah Dixon between 1763 and 1767. The southern boundary of Delaware, surveyed by a colonial commission in 1750, also was rechecked for the first time.

Both original surveys were ordered after a series of colonial commissions had sought to settle long-standing boundary differences between Maryland and Pennsylvania.

"The monuments marking the boundaries are remarkable intact," said William H. Bayliff of the Maryland Board of Natural Resources, "but something must be done to restore the lost markers."

Many of the limestone monuments imported from England have decayed to such an extent that they now look like ordinary labs of stone, Bayliff said. "You can hardly recognize the crests of Wiliam Penn and Lord Batimore any more."

SET EVERY MILE

The square monuments, about five feet high and a foot in width were set up every mile of the Mason-Dixon line and at five-mile intervals on the older colonial boundary. Some have been covered with underbrush or stolen; some have fallen or been thrown into lakes.

This has given border citizens a great deal of satisfaction. If approached by a Maryland game warden or tax collector, a "bi-state citizen" can claim allegiance to the state of Pennsylvania. When a Pennsylvania official comes long the border dweller becomes Marylander.

Maryland has no authority to set up new markers along these boundaries, Bayliff complained. "The adjacent states must co-operate however, we don't want to push them into anything until we know just what the situation is."

The Maryland legislature last year appropriated $3,000 for a preliminary survey and report. Bayliff expects to have his report ready for Gov. McKeldin about the middle of February.

The 200-mile east-west boundary between Maryland and Pennsylvania seems to be in the best condition. New markers have been added to this line, which was checked at the turn of the century. Of the original 216 monuments all but two have been accounted for.

"As a matter of fact we just dug the ground. We received hints there might be a lost marker there, so we poked around iwth a rod until we found it," Bayliff said.

The last 35 miles of the Mason-Dixon Line which separates Pennsylvania and West Virginia has not been checked. Maryland paid Mason and Dixon for surveying this stretch in mistaken belief it bordered on its territory.

Mason and Dixon stopped at Dunkard Creek, the terminal point because of trouble with Indian guides and workers. According to a journal kept by the two men their Indians "would not proceed a step further" after encountering a warpath of the Shawnee and Delaware tribes.

The North-South division between Delaware and Maryland should have 95 markers. Some of these reportedly were lost as far back as 1850.

"They're still lost," Bayliff said. "However, we've found all but five of the original number on this line."

The southern tip of Delaware on peake Bay was pegged-out at five-mile intervals. Although seven monuments should have been erected, only six were put up. The colonial surveyors found the exact center of the border fell in the Pocomoke River. They were too perfectionist to put the center stone up on one or the other of the banks.

ARE OBSOLETE

These monuments are a little obsolete even if you can read them. The stones facing Delaware are carved with a "P" for Pennsylvania, since Delaware did not exist in 1750.

The new surveys were made by a Johns Hopkins student who received his draft notice just after completing the long trek and an optemetrist who, according to Bayliff, "prowls around the border as a hobby."

Stressing the need for restoration, Bayliff pointed to the original declaration drafted by a colonial commission which states

"Moreover it shall be recommended by the respective proprietors of the said several provinces and counties, forthwith to pass acts of legislature for the visitation upon certain fixed days, at least once every three years, and for the continued reparation of the said boundaries that no dispute may hereafter arise concerning same."

Although a three-year check might be overdoing things, Bayliff agrees in principle. He thinks a survey should be made more often than every 300 years.

Dick Savitt Wins Australian Title

SYDNEY, Australia, Jan. 30. (AP) — Curley-haired Dick Savitt of Orange, N. J., today became the third American in history to win the Australian tennis championship. He defeated Aussie Davis Cup player, Ken McGregor, 6-3, 2-6, 6-3, 6-1 in the final.

Savitt takes his place alongside F. B. Alexander and Don Budge as the only Americans to take the coveted title back across the Pacific. Alexander triumphed in 1908 and Budge won it in 1938.

Cotton Exchanges Not Operating Again Today

NEW YORK, Jan. 30. (AP) — The New York and New Orleans cotton exchanges will suspend trading again today while awaiting clarification of the federal price freeze order.

There was no trading yesterday.

A traffic death occurs about every 16 minutes in the United States.

Americans own approximately 30,545,000 automobiles.

Vallaree Ruminer And Dan Wright Married In Hermleigh Church

Miss Vallaree Ruminer, daughter of Mr. and Mrs. H. H. Ruminer of Hermleigh was married Thursday night to Dan Wright, son of N. M. Wright of Bradwood, at the Church of Christ in Hermleigh.

Mr. Pleasant, minister of the Hermleigh Church of Christ, officiated at the ceremony, which was held before a flower-decked altar

Mrs. Wright was accompanied by her matron of honor, Mrs. L D. Beaver of Lubbock who is also her twin sister. Don Duty of Abernathy served Mr. Wright as best man.

Mrs. Wright wore a navy crepe informal frock with navy accessories, carrying a white Bible adorned with a spray of pink rosebuds. She is a 1942 graduate from Hermleigh high school and has been working for the telephone company in Hermleigh.

Mr. Wright is a 1943 graduate of Abernathy high school and is employed as bookkeeper for the Higgenbotham Bartlett Lumber Co in Hermleigh.

Following the wedding, a reception was held in the home of the bride's parents. The table was laid with a hand-made lace cloth and centered with a two-tiered wedding cake.

Other guests attending the ceremony and party were Mr. and Mrs. Harold Boyd Vernon, Miss Wanda Jean Vernon, Mr. and Mrs. Ruminer, Don Beaver of Lubbock Mr. and Mrs. Harvey Myers, and Mrs. Pleasant.

Following a short wedding trip to the southern part of Texas, the couple will be at home in Hermleigh.

Talk of the Town

You have two days now in which to mail in to the Daily News your entry of a citrus fruit recipe.

The recipe may be a salad, drink dessert or any other type of foodstuff prepared with citrus fruit the chief ingredient.

Mrs. Mildred Sparks, County Home Demonstration Agent, in charge of judging the recipes, urges that more women enter this first recipe contest of a series which are to follow, one each week.

Prizes, furnished by local grocerymen will be: First place, a $15 grocery order from the D&H Super Market, 1400 Twenty - fifth Street; second place, a $10 grocery order from Furr's Super Market, 1616 Twenty - sixth Street: Third place, a $5 grocery order from Beadel's Rainbow Market, 1614 Twenty - fifth Street, and for three runners - up, each a sack of citrus fruit from Scott's Cash Grocery, East highway, D & B Food Store, 2518 Avenue R, or B & B Food Market, 2112 Avenue S.

All entries must be postmarked by Thursday midnight or brought to the newspaper office by Friday. Winners will be published in Sunday's Daily News, and participating grocerymen will honor your winning certificate any day next week.

Teague Asks Inquiry Into Funds Mishandling

WASHINGTON, Jan. 30. (AP) —The House Rules Committee has approved a bill by Rep. Teague of Texas for an inquiry into alleged mishandling of the multi-billion dollar soldiers home loan guaranty program.

Teague heads a subcommittee which checked abuses in the veterans education program.

The rules committee also approved a request of Rep. Patman of Texas to extend the life of the small business committee two more years.

$1,000.00 REWARD

L. H. Armer will pay the above amount cash for information leading to recovery of 123 joints of new 7-5/8 inch, 24 pound spang thread and collar oil well casing which has been missing from his McAdams Lease in Vealmoor Field of South Borden County 21 miles north of Big Spring, since Saturday night.

The casing was on rack at that lease, and apparently was carried away during Saturday night.

Each joint of casing had large red paint mark on the collar and pipe.

Any information regarding pipe should be communicated to Sheriff's Office at Big Spring or to L. H. Armer's Office in Fort Worth or Midland.

Leatherneck On Guard

Small icicles hang from the rim of his helmet and a coating of ice covers his coat as fireman E. L. Young has a cup of coffee during lull while fighting an early morning fire in a downtown apartment house in Dallas, Jan. 29. Firemen fought the blaze in 20-degree cold during a sleet storm.

Shower Honors Miss Dewey Fay Everett

Miss Dewey Fay Everett was honored last night with a kitchen bridal shower, given in the home of Miss Mary Edith Scarborough, 2207 Thirty-second Street.

Hostesses planning the party for Miss Everett, who will marry Ralph Miller Feb. 10, were Mrs Eldon Perry, Miss Durelle Stokes and Miss Jonnie Dell Brock.

A Valentine motif in red and silver was carried out throughout the rooms, a silver - covered skillet filled with red carnations centering the dining table. An arrangement of red heart favors containing candy formed a design of the Miller ranch brand.

Signing the guest book last night were Mrs. Riley Miller, Mrs. Jesse Everett Miss Lou Miller, Miss Ann Richardson, Miss Ramona Harless, Miss Joan Gee, and Mrs. Lee Thompson.

At least one other large tea will be given to honor Miss Everett before her marriage.

Mrs. R. J. Randals expects to fete Miss Everett with a three-hour bridal reception, during the hours 5 through 8 o'clock, Feb. 5 at the Randals ranch west of the city.

Hostesses assisting Mrs. Randals at the party will be Mrs. Bryan Jordan, Sr., Mrs. Amos Joyce, Mrs. Mabel Brock, Mrs. Whit Thompson, Mrs. Holman Odom, Mrs. Paul Colins Mrs. Charlie Longbotham, and Miss Ruth Davis.

Leviness Begins Murder Defense

ANAHUAC, Jan. 30. (AP) — Alex Leviness began his defense here today against a charge of murder in the Sept. 28, 1948 slaying of Mrs Eloise Twitchell, Beaumont housewife.

The state rested yesterday afternoon. Shortly afterwards District Judge P. C. Matthews overruled a defense motion for an instructed verdict.

Leviness, of Orange, and Darius Goleman, of Hampstead, were convicted on a murder charge in a joint trial at Kountze last year. They were given death sentences but the court of criminal appeals ordered a new trial. Golemon will be tried a second time here April 10.

Mrs. Twitchell's body was found near Kountze Oct. 4, 1948.

Valley Farmers Get Pumping Schedules To Conserve Water

WESLACO, Jan. 30. (AP) — The Valley Water Conservation Assn. has set up an irrigation pumping schedule designed to divide dwindling waters on the Rio Grande between the upper and lower valley areas.

At a meeting yesterday the association voted to divide the pumping time of 168 hours a week between the two areas on the basis of irrigated acreage. Pumping will be restricted to 78 hours a week for the valley north of Mercedes where 220,000 acres are under cultivation. South of Mercedes pumpers will be alloted 90 hours for 256,000 acres.

Due to the cold wave and decreased demand for water, the committee decided to leave upper valley pumpers on their present restricted pumping of six second feet per thousand acres until midnight Wednesday at which time the lower valley pumps will start on their 90 hours.

Two city pumps at Brownsville went into action yesterday as the Rio Grande yielded a disappointing flow after the 84-hour holiday observed by upper valley pumpers.

A business visitor to the Pan American Production Co. offices has been J. L. Hoyt, Jr., assistant general superintendent of the oil firm from Houston. Mr Hoyt has returned after visiting the West Texas district several days.

GREETING IN SNOW— Sculptor Raimar Von Bonin finishes giant snow figure of an ice hockey goalie for International Winter Sports Week at Garmisch-Partenkirchen, Germany.

'BUCKING' FOR RELEASE — This lassoed seven-point buck swims with all of his frightened energy as he tows the rowboat of fishermen Sonny Fratus (left) and Pashey Madeira at Stonington, Conn. He was released after pulling boat about 15 minutes.

MEETING THE HOST — Helen McIntosh, 5, wearing a grass skirt, shakes hands with London's Lord Mayor Denys Lowson during children's party at Mansion House, London.

TO SUIT THE PURPOSE — A crashed C-119, with its windows boarded up and a door added, is converted into a snack bar for officers on air strip somewhere in South Korea.

SNOW-TRACK DEMONSTRATED — Leonard N. LePage, young Roseville, Mich. toolmaker, shows his device that will enable the ordinary auto to mush through snowbound areas.

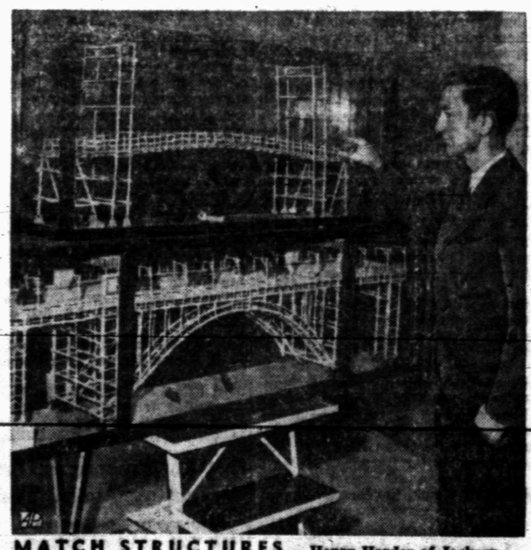
FISHY FASHION — Spring creation by Lemonnier of Paris is diamond studded "sole" in grey faille reposing on a straw platter. The eye and spots are embroidered in orange raffia, sparked by diamond studs from the Paris house of Van Cleef and Arpels.

HAMPERED SPANIEL — Taffy, three-month-old Cocker Spaniel, wears a steel-braced cast on foreleg, broken on stairs of Chicago home of her master, Arthur Grab.

PUTTING MUSCLES TO WORK—These cerebral palsied children at New York clinic use untrained hand and finger muscles by cutting out figures from Christmas cards.

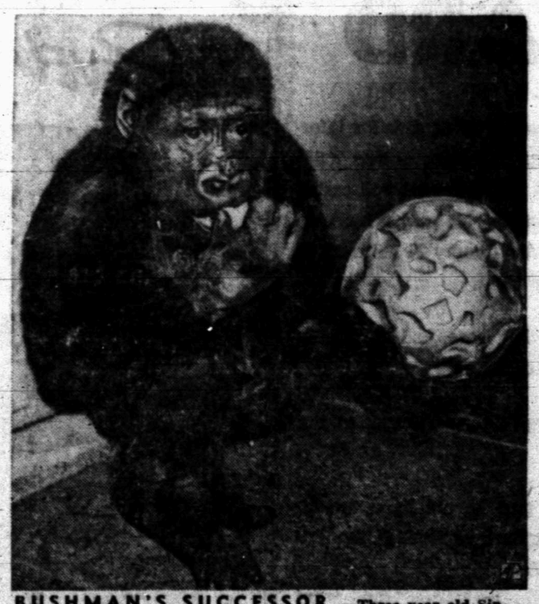
RODEO QUEEN — Sonja Hulme, 18, will reign as queen of the 11th annual Palm Springs, Calif., winter rodeo which will touch off the 1951 "Wild West" season.

LUNCH HOUR HALT — This trolley car and its trailer made an unscheduled stop in restaurant of Copenhagen, Denmark, hotel after it derailed descending a long hill.

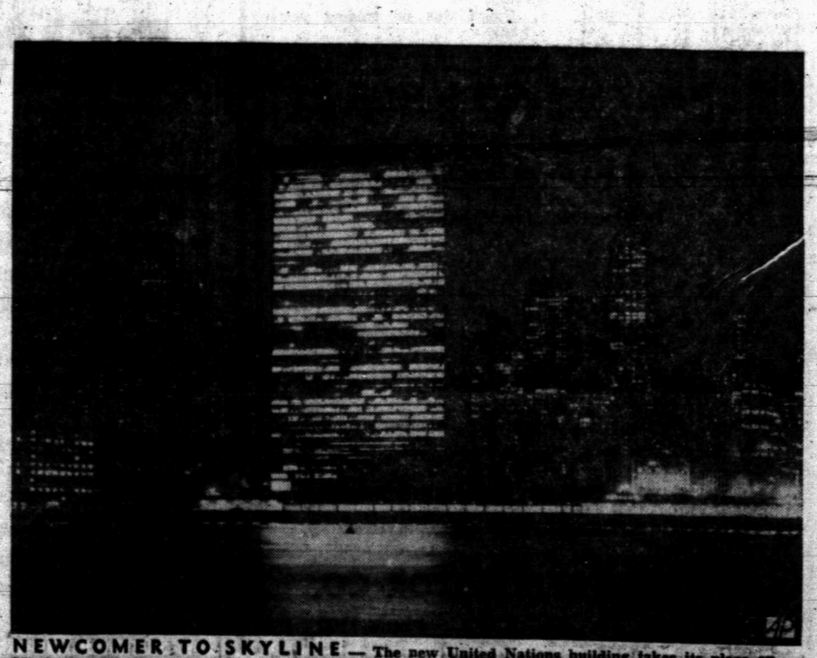


MATCH STRUCTURES — Henry Harder of Jacksonville, Fla., looks over two model bridges, suspension (upper) and arch, which he completed in a year using 8,350 match sticks.

FASHIONS ON ICE — Leah Jahns, Leia Roth, Vel Dorne, Jeri Raye and Terry Gay (left to right) model bathing suits on ice stage at fashion show in North Conway, N. H.



BUSHMAN'S SUCCESSOR — Three-year-old Sinbad, the Chicago Lincoln Park Zoo's successor to Bushman, munches an apple presented to him as reward for picture posing.



NEWCOMER TO SKYLINE — The new United Nations building takes its place on Manhattan's skyline as seen from Queens. It is flanked by Empire State (left) and Chrysler Buildings.

FARMS & RANCHES M5

FOR SALE

One of the best and most modern stock farms in Nolan County. Has beautiful $20,000.00 Brick and Austin Stone home, seven room and two tile baths, double garage with storage or work shop. Good set of tenant quarters, 2 wells with pressure pumps. 380 acres of cultivated land, more that can be if desired. Balance of 1,510 acres in pasture land with plenty of grass and water and sheep proof fences. This place is just off the pavement on an all weather road and school bus route, has butane and REA and is in a prosperous farming community with good roads, good school and shopping center and good churches. A real buy if you are looking for one.

We also have several smaller farms and a small ranch, two good business propositions, both small and worth the money, and some good rental units.

Pressure On Coaches Same As That On Any Big Businessman

By HAROLD V. RATLIFF
(Associated Press Staff)

DALLAS, Jan. 30 — You hear much these days about "pressure" in football. It grinds the coach down, makes his life unbearable, gives him ulcers.

The fans demand a winner. If they don't get it they take it out on the coach.

The coaches are always talking about the terrific pressure, threatening to quit, declaring football is overemphasized. "It is, after all just a game," they say, "but the fans make it a matter of life and death."

Wes Fesler resigned at Ohio State because of the pressure. He went into the real estate busines. That lasted six weeks. Then he became coach of Minnesota where the pressure is just as strong as any school in the country. Bernie Bierman quit because of it.

Frank Leahy tried his until quickly didn't he? Perhaps there was more pressure in the real estate business, at least so far as making a living was concerned.

Abandonment of the sanity code of the NCAA will undoubtedly add to the pressure because now athletes can be offered more and competition for them will be stronger.

The fact remains that the more a man makes the heavier the pressure. College coaches now are getting into the $20,000—year bracket

College football has grown into a great industry. Gates of a quarter of a million dollars are common The coaches have built a Frankenstein. They used every method to get the best athletes. Everybody wants a winner and when it became the goal of every coach to get into a bowl game or produce a national champion, the tails swung into line.

Some of the boys were sitting around figuring out what Fred Benners, Southern Methodist's mighty bomber, would have to do next fall to beat the greatest passing record in Southwest Conference football history.

That record is 599 attempts, 274 completions for 3,449 yards in three varsity years. Sam Baugh, the old Texas Christian star holds it.

Benners in two seasons tried 277 connected on 156 for 2,067 yards.

So he will need to throw 323 and complete 119 for 1,413 yards next fall to better Baugh's record.

Quite a job.

REAL ESTATE M

For Sale: Building, 28x42' completely equipped for cafe. To be moved. See it today located next door east from Rio Theatre, North Side, Big Spring, Texas. Inquire for Louis Gonzales.

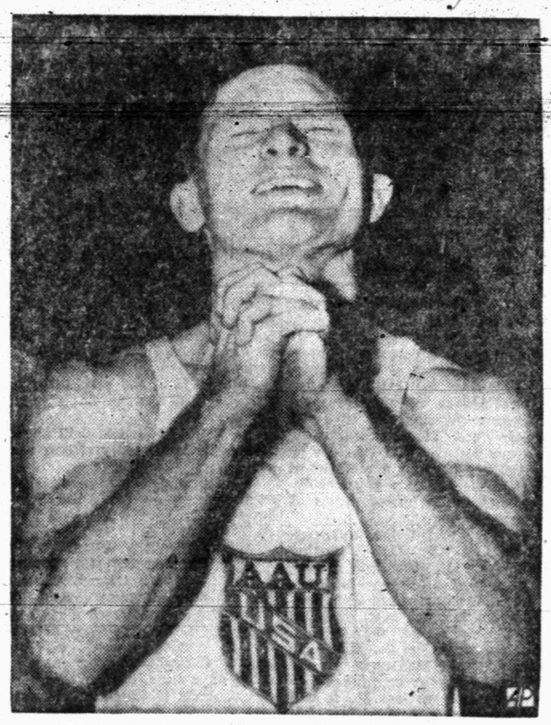
Parson Richard's Prayer



Bob Richards, the parson from La Verne, Calif., clasps hands in prayer as he waits for officials to measure the height of his record-equalling pole vault in the Millrose Games in Madison Square Garden, New York. His prayer was answered. Measurements proved that Richards had become the second man in pole vaulting history to clear the bar at 15 feet, 1 inch.

Golden Gloves Regional Meet Feb. 2, 3, 5

Boys of Snyder who like to box, and fans who like to see amateur boxing at its most interesting, are reminded that Golden Gloves time is fast approaching.

The fourteenth annual Abilene Reporter - News Regional Golden Gloves Tournament is scheduled for the nights of Feb. 2, 3, and 5, at Rose Field House on the Hardin-Simmons University campus. It is open to all amateurs 16 years of age and older.

Three general groups, each with eight weight divisions, provide a place for every boy regardless of boxing experience and weight. Those with little or no ring experience will compete in the novice class; those who have had previous experience and who are physically fit will box in the open class, winners in which continue to Fort Worth to enter the State Golden Gloves Tournament.

In addition there is a class strictly for high school teams or individuals. Neither division "mixes" with the other in regional tournaments.

Winner and runner-up in each of the eight weight divisions in each of the three classifications, or a total of 48 boys, will receive trophies and prizes at the conclusion of the tournament. Weighing-in and physical examinations start at 1 o'clock Friday, Feb. 2. Cards or letters indicating desire to compete should be addressed at once to Golden Gloves Director, Reporter-News, Abilene.

Fans desiring to purchase tickets in advance or order them by mail may do so. Mail orders should be addressed to E. W. Ledbetter, Hardin-Simmons University, Abilene. Tickets may be purchased at box office located at the Mackey Co. downtown or at the Hardin Simmons business office.

Tyler Slated For Big State

ABILENE, Jan. 30. (AP) — Tyler is due to enter the Big State League today, bringing the membership to eight clubs.

Greenville yesterday surrendered its franchise when it said it could not obtain players. Tyler immediately asked for the Greenville place and Howard Green, league president, conducted a poll of the seven members.

Results of the poll will be announced today. Green said it appeared pretty certain that Tyler would be voted in. Only a majority is needed.

Tyler has been in the East Texas League but that circuit will not operate in 1951.

Green said Otis Dunnagan, president of the Tyler Sports Association, and Vernon and J. C. Stroud of the Henderson club, also a member of the old East Texas League, have pooled their players and will operate a joint club using Tyler's name and park.

Longview, which had applied for Big State League membership, withdrew its application yesterday, Green said.

Speculation On H-Bomb Differs Among The Scientific Experts

By ED CREAGH
(Associated Press Staff)

WASHINGTON, Jan. 30. — One year ago tomorrow President Truman gave a momentous order to the Atomic Energy Commission: Get to work on the hydrogen bomb.

Today, with armed conflict raging in Korea and with a third world war a grim possibility, there is abundant evidence that the atomic scientists went to work with vigor and promptness.

But what progress they have made — how near they are to exploding the superweapon that could level cities and wipe out armies—is a secret locked in the minds of a very few men.

TOP SECRET

It's so closely-guarded a secret that the best informed people "on the outside" don't even agree on whether the H-bomb ever can be developed.

William L. Laurence of the New York Times, the only reporter allowed to see any of the wartime development of the atomic fission bomb, said in a recently published book — "The Hell Bomb" — that the first H-blast may occur this spring or summer.

Yet David E. Lilienthal, former chairman of the Atomic Energy Commission, said only last week there is "only a remote possibility" the H-bomb can be built at all."

The commission itself has a chance to give some official word in its ninth semi-annual report, due tomorrow. But the odds are heavily against anything beyond the oft-repeated statement that the H bomb is somewhere between the realm of the possible and the probable.

LOTS OF MONEY

This much is sure: A lot of time, money and manpower are going into an all-out effort to make the bomb—lest the Russians make it first.

They know the basic "secret." It long has been known to scientists everywhere that you could "blow up" hydrogen, with a tremendous release of energy, if you could build a fire hot enough. And the A-bomb burning with a temperature upwards of 50 million degrees Fahrenheit, may provide the necessary fire to trigger it.

As for the technical know-how: The Russians learned a good deal—it hasn't been announced how much—from Dr. Karl Fuchs, the British scientist who has confessed passing on to them top secret data to which he had access as a trusted member of the allied A bomb team.

Fuchs' arrest and confession, coming on the heels of Russia's A-bomb explosion, came shortly before our hydrogen bomb program

Wildcats Top AP's Weekly Cage Ratings

By JOHN CHANDLER
(Associated Press Staff)

NEW YORK, Jan. 30. — With another full month before the first of the basketball tournaments begins, the Kentucky Wildcats and Oklahoma A&M appear due for a battle right down to the wire for the No. 1 collegiate ranking.

For the second week in a row, Kentucky topped the weekly AP poll today, but the margin was by a slim 19 votes over the Aggies of Oklahoma.

Here are the leading teams with points based on ten for first place vote, nine for second, etc. (first place votes and season records including last night's games in parenthesis):

1. Kentucky (42)	(16-1)	983
2. Okla. A&M (31)	(18-1)	969
3. Indiana (7)	(13-1)	636
4. Long Island U. (3)	(16-2)	568
5. Bradley (1)	(18-3)	551
6. Columbia (4)	(12-0)	435
7. Kansas State (4)	(13-2)	400
8. N. C. State (7)	(19-2)	376
9. St. John's (2)	(13-2)	341
10. St. Louis (14-4)		238

Ben Hogan Is Named Most Courageous In '50

PHILADELPHIA, Jan. 30. (AP) — Ben Hogan, the Fort Worth golfer, is the most courageous athlete of 1950.

The Philadelphia Sports Writers Association named him that last night.

They noted he was nearly killed in a Texas auto accident near Van Horn two years ago, but recovered and won the National PGA title.

Fire Destroys Building

TRENTON, Jan. 30. (AP) — A water heater's pilot light was believed the cause of a $40,000 fire here yesterday which destroyed a building in which the Trenton High School gymnasium and lunchroom were housed.

Texas History Written in Brands

DZ

By JOHN M. HENDRIX

In the early '80s James Newman of Sweetwater went far out across the plains and into the Salt Lake County of New Mexico to found the DZ range and brands which he operated for a number of years, building it into a ranch of good proportions with some 12,000 to 15,000 cattle. He eventually sold it to [illegible] who operated it until the final settlement by farmers in that portion of New Mexico.

The founder, Jim Newman, came originally from Navarro County to Nolan County in about 1881, securing ranges in Nolan and Fisher Counties, eventually moving to New Mexico when conditions became crowded there. While ranching in New Mexico his home remained in Sweetwater. He was sheriff of Nolan County for a number of years and developed a racing stable famous the nation over. His thoroughbred mare, Pan Zareta, set a record on the race tracks of New Orleans that stands until this day.

Mose Newman, a son, lives in Sweetwater and ranches on most of the original Newman property. Three other sons, at one time prominent in the Newman affairs, have passed away, leaving Mose, a former national trapshooting association champion. It was men of the type and forcefulness of Jim Newman who were responsible for the early usage of cattle ranges and their ultimate development into agriculture lands in West Texas and New Mexico.

Coach Favors Speedy Game

NEW ORLEANS, Jan. 30. (AP) — The surest way to kill basketball as America's number one spectator sport is to slow the game down to a waltz, Kentucky Coach Adolph Rupp said today.

The coach of the nation's number one ranking basketball team believes his players should run with the speed of a bluegrass thoroughbred. His team walloped Tulane 104-53 here last night to give his argument a convincing ring.

Rupp declared in his twangy rural accent:

"Basketball is a game of action. When you take the action away, the customer will stay away, too."

A bitter opponent of slow-style deliberate basketball, Rupp picked up a newspaper to make a point.

"Look here," he said as he pointed to a story of the Oklahoma A&M-DePaul game last Saturday in Chicago.

"Only 7,000 people turned out to see the Aggies play in DePaul in Chicago, Fifth largest town in the world.

"The Aggies are coached by the Veteran Henry Iba, leading exponent of a slow deliberate offense that is built around ball control.

"Why when we played DePaul at Lexington, a tank town in comparison to Chicago, we had 'em standing in the aisles. Sold all 13,500 seats and standing room, too."

Buster Chatham New Manager For Waco

PITTSBURGH, Jan. 30. (AP) — Charles L. (Buster) Chatham will be business manager of Waco's Class B Big State League baseball team this year. He succeeds Joe E. Brown, Jr.

Chatham coached the New Orleans Pelicans in the Southern Association last year. He used to shortstop for the Atlanta Crackers. Waco is a farm of the Pittsburgh National League entry, which announced the appointment.

The earth is nearest the sun Jan 1—91,447,000 miles — and farthest from the sun, July 4 — 94,562,000 miles.

Republican Senator Warns Of Darkening Clouds Of Socialism

JOHN M. BUTLER

HAGERSTOWN, Md., Jan. 30. (AP) — Sen. John Marshall Butler (R., Md.) told 200 businessmen last night that if we submit "to the multitude of government controls and restrictions in a time of peace, we may find the country bound in a socialistic maze."

He urged them "to call a halt on the attempts to tell you how to run your business or you may never regain control of it."

Butler, who defeated Democrat Millard E. Tydings in last fall's election, addressed the Hagerstown Manufacturers Bureau's annual dinner.

He recalled the "controls, the red tape, the frustration" of the dreadful years of World War II."

"In today's situation," Butler said, "you are going to face all that again and more. You are going to [illegible] for your country you [illegible] could not in any [illegible] to obstruct the economic [illegible] of your country.

"I would, however, caution you to be on your guard to examine and [illegible] upon to work on.

"If we [illegible] to the multiple of government controls and restrictions in a time of peace, we may find the country bound in a socialistic maze of government from which you may never be able to extricate yourselves."

Tigers Tackle [illegible]

Tonight the Snyder Tigers, top basketball team in District 6-A, meet the bottom team, Rotan, in a game that will be played in Rotan.

Snyder so far has outshined the Rotan team in every department. Rotan has lost every conference game they have played, while Snyder has won five and lost one.

However, Snyder is not relaxing or building up too much confidence, because the advantage of playing on the home court will be with Rotan, and as is often the case, a dark horse can run the fastest when the pressure is on.

None of the district's games tonight would seriously affect district standings except the one between Merkel and Roscoe at Roscoe. Roscoe is tied with Colorado City for second place in the district, having won five and lost two games. Merkel is in fourth place with four wins against three losses.

Colorado City meets Roby at Colorado City. That game pits sixth place Roby against Colorado City which is tied for second. Odds on that tussle are with the Colorado City power house because they play on their home court, and have a much more impressive won - lost record.

Friday night is when heads may roll in the district. Snyder plays Rotan here, Colorado City plays Roscoe at Roscoe, and Rotan plays Merkel at Merkel.

Much depends on this week's game outcomes in the district. Snyder would have to lose two games before they would be out of first place, but the tie for second place between Roscoe and Colorado City will definitely be broken before the week is gone.

Here is what most Snyder fans would like to see happen: Snyder win both its games, Merkel defeat Roscoe tonight, and Roscoe defeat Colorado City Friday night. That would put Snyder far in the lead—but so much for the dreaming.

Snyder's starting lineup for tonight will look like this:

Post W. G. Birt
Guards Max Coffee and Bill Hanks
Forwards John Gary and Bobby Shipley.

Tells Of Atom Tests

NEW YORK, Jan. 30. (AP) — Brief Voice of America announcements—without speculation — are telling the world about the new atomic energy tests in Nevada, a voice official said yesterday.

Permian Basin Oil News

Harvey Field Is Extended

Another important extension has been assured for the Tex-Harvey field of Central-East Midland County and of Central-West Glasscock County.

J. H. Floyd and A. N. Hendrickson No. 1-24 Kendrick - Gentry, approximately one mile south and east of the nearest completed Spraberry oil wells on the southeast side of the field, and in Central-East Midland County flowed 335 barrels of oil and no water in 20 hours through a 26-64th inch tubing choke.

That petroleum from open hole between the bottom of the 7-inch casing cemented at 6,945 feet and the total depth at 7,161 feet.

That zone had been hydrafraced. Operators are now preparing to take potential test and complete.

Location is at the center of the northeast quarter of the southeast quarter of section 24, block 37, T&P survey, T-3-S. That makes it 19 miles southeast of the city of Midland.

* * *

Attempt to Complete Well Between Germania And Tex-Harvey Fields

James H. Snowden and associates No. 1-58 McClintic, indicated Spraberry producer about midway between the Tex-Harvey and Germania fields of Midland County, recovered between five and seven barrels of oil per hour on the swab after hole was re-hydrafraced from 7,239 to 7,256 feet.

After several hours of swabbing at the above rate, the well settled down to about one and one-half barrels of oil per hour. It showed no water.

After being shut-in for 20 hours, tubing pressure built up to 325 pounds, and 6,000 feet of fluid rose in the hole.

The operator is shut-in to move rig off. After it is off, operator will continue testing to try to complete the expected producer.

Location of No. 1-58 McClintic is 990 feet from north and 2,310 feet from west lines of section 58, block 37, T&P survey. T-2-S.

* * *

Small Ector Discovery

Larson & Thomas No. 1 O. B. Holt has been completed as a small discovery from a lower section of the Permian in the North Cowden field of Central - North Ector County.

The new oiler was completed through perforations at 5,035-5,066 feet for a daily potential of 20.08 barrels of oil.

It was completed on the pump. The well made 41 per cent water during the 24-hour potential test. Gas-oil ratio was 200-1. Gravity of the oil is 37 degrees.

Location is 660 feet from north and west lines of section 13, block 43, T-1-N, T&P survey.

* * *

Well Completed In The Germanio Area For 397-Barrel Potential

James H. Snowden and others have completed their No. 1-18 Andrew Fasken in the Germania area of Northeast Midland County.

The well flowed 24 hours through a one-quarter inch choke and made an initial production of 397.44 barrels of 37-gravity oil and no water.

Flowing tubing pressure was from 400 to 90 pounds. Gas-oil ratio was 624-1.

Top of the Spraberry pay was 7,109 feet and total depth was at 7,179 feet. A five and one - half inch liner was cemented at 7,087 feet.

The pay section had been hydrafaced.

Location of the new producer is 660 feet from north and east lines of section 18, block 36, T-2-S, T&P survey, and 14 miles east of the City of Midland.

* * *

Big Lease Deal In Presidio County

Two large blocks totalling 58,720 acres have been leased in Presidio County by Cities Service Oil Co. and C. L. Griffin of Midland.

Cities Service acquired 43,680 acres from Mrs. L. C. Brite. Griffin in a seperate deal, leased 15,040 acres from the Fowlkes brothers. Terms, except that they were 10-year leases, were not disclosed.

Acreage acquired by Cities Service, as recorded in Presidio County, includes the following sections:

Block 12, GH&SA survey sections 1 through 5, west half of 6, 7, 8, west half of 9, 11, 12, 15, 16, west half of 17, 26 through 70 south half and northeast quarter of 71, 73, east 170 acres of 76 east half of 97, 98, 101, east half of 102, 105, 106, 109 through 113, 115;

Block 4, GH&SA 136 through 139; block 4, H&TC 3, 3, and 319; and section 2 in the H. V. Chapman survey.

Griffin acquired the following acreage:

Block 339, GC&SF sections 10, 498 and 506; block 330, J. K. Inman survey; 24; block 330, A. C. Faudlon survey; 22; block 312, GC&SF; 38, 40 and 508;

Block 313, TC; 14, 16, 18, 20, 22, 24, and 26; no block, GC&SF; 640; no block; F. Parker survey; 320; block 249, T&STL; 12, 14, 16; block WJC2, TC; 34; block 330, TT; north half of 14; block 330, TT; 18; no block, GC&SF; 510; and block 330, TC; 768.

* * *

Locations Made For Ellenburger Tests In Southwest Ector County

Humble Oil & Refining Co. has staked two new locations in the Yarborough & Allen field of Southwest Ector County.

Both these tests will be drilled to 11,000 feet to test the Ellenburger with rotary tools, beginning immediately.

Humble No. 21 Yarborough & Allen is 1,980 feet from south and 660 feet from east lines of section 23, block B-14, psl survey and 10 miles northeast of Monahans.

Drillsite for No. 22 Yarborough & Allen is 10 miles northeast of Monahans and 660 feet from north and 330 feet from east lines of section 28, block B-14, psl survey.

* * *

Terry Venture Will Test Various Zones From Pennsylvanian Up

Union Oil Co. of California No. 3 Christova Stitt, on the southwest side of the Brownfield, South-Canyon field in East-Central Terry County, has been bottomed at 10,998 feet in the lower Strawn lime and shale of the Pennsylvanian series.

Electric logs run on the project showed the following markers. Top of the Cisco, 10,050 feet; top of the Canyon 10,285 feet, and top of the Strawn 10,555 feet. Elevation is 3,272 feet.

Operator plans to start making tests of various zones in this project, working from the bottom upward to and including the Cisco

Some streaks in the Strawn showed slight signs of oil and gas and the interval at 10,060-130 feet in the Cisco had a recovery of 360 feet of oil and 1,350 feet of mud cut oil during a two and one-half hour drillstem test.

This exploration was low to the nearest completed producers in the Brownfield, South - Canyon field.

Location is 1,980 feet from south and west lines of section 91, block T, D&W survey and four miles southeast of the town of Brownfield.

Forty-Two Party For Polio Foundation Drive

For the benefit of the March of Dimes, the Lions Club in Hermleigh is sponsoring a forty - two party Thursday night at the new high school auditorium there.

No admission is to be charged, but a voluntary donation will be collected during the evening, it was announced. The public is invited.

Fines Assessed Against Six Who Plead Guilty

Six men pleaded guilty to county court charges of driving while intoxicated yesterday and were fined a total of $791, including court costs of $23.50 each.

Robert Vance Sinclair, 39, of 1713 Eighth Street was fined $173.50, including costs, after pleading guilty to drunken driving when his car was involved in a minor accident four miles south of town on the Big Spring highway. His car sideswiped another, damaging a fender on each, but no one was injured, Homer Whisnand, deputy sheriff, said.

Fines of $123.50 each, including court costs, were assessed Wesley Willis Hunt, 54, of Plainview; Carlos Ramirez, 38, Snyder; Clifton Morris Minor, 25, Hermleigh; Grady Arthur Craig, 43, of 1602 Avenue M; and T. M. Pickle, 44, of Fort Worth.

Still No Report From Doris Beachem Autopsy

The final autopsy report in connection with the recent death of Mrs. Doris Beachem, 23, Negro has not been received from the toxicologist at San Angelo, according to W. C. Davidson, justice of the peace, acting coroner in the case

Eldon Mahon, district attorney told the sheriff's office this morning that he had not received any word from the toxicologist as to the final results.

Thus the official cause of death is still unsettled.

Benefit Show Is Put On For Girl Scouts

At a joint meeting of the American Legion and Veterans of Foreign Wars last night, it was voted to sponsor a benefit show for Snyder Girl Scouts at the High School on Feb. 7-8, according to Hilton Lambert, chairman of the joint group.

Miss Dorothy Jackson, of Kansas City, who is a member of the United Productions company, will stage the show for the veterans here. Miss Jackson comes to Snyder well recommended for productions of home talent shows, said Lambert.

The name of the show, which will be a three-act comedy, is "Aunt Silly" the American version of the English play, "Charlie's Aunt" which enjoyed a long run in both American and English theatres.

A cast of 200 Snyder people, many well - known in social and business circles will be included for parts, said Miss Jackson. Selection of the cast starts this afternoon, with George Killam, Jr., as chairman of the cast committee.

"This is slated to be an elaborate show, with fun and laughs galore, and special numbers between acts," said Lambert, who with Don Adams, commander of the V.F.W. Post, are in charge of the arrangements. One of the speciality acts will be the appearance of students from the Elaine Lambert School of Dancing, and with Boy Scouts participating in a patriotic number in the grand finale

This benefit show, according to Lambert, is to raise funds for the Girl Scouts to equip their building, which is being set aside for them at the new high school.

Other committee chairmen include, Jack Caperton, tickets; J. C. Turner, advertising, and C. W. Bradley, publicity.

Lewis J. Adams, of the Millwhite Mud Service, who has spoken to ... civic groups on "Guided ...", addressed the veterans on the same subject last night. Adams was formerly with the Los Almos project. He is a petroleum engineer here.

Furniture Needed For Victims Of Apartment House Blaze Here

A plea for odd pieces of furniture for the victims of the fire Jan. 22 was made today by John Lynch, Sr., fireman, who has been assisting in collection of needed articles.

"We have collected a sufficient amount of clothing, but do need some chairs, small tables, and cooking utensils," Lynch said.

"We are requesting the donors not to deliver any furniture to the station but to hold the articles, giving us the name of the donor, telephone number and address, as we do not have space at the fire station to store the articles," said Lynch

Most of the 18 victims of the fire have come to the fire station and received temporary aid, he said.

Of course, groceries are also needed, he added, especially milk for the 12 children in the group.

Snyder Child Dies In Abilene Yesterday

Judy Lynn Talley, two-year-old daughter of Mr. and Mrs. Joe M. Talley of Snyder, died yesterday afternoon at Hendrick Memorial Hospital in Abilene.

The child was admitted to the hospital as a possible polio victim but a diagnosis Saturday revealed no symptoms of polio. The child's attending physician said a verdict of the cause of death should be reached today. An autopsy was to have been performed last night.

Judy Lynn was unconscious when admitted to the hospital. She was placed in an iron lung and died there.

Mr. and Mrs. Talley have been making their home here in a trailer court. He is an oil field worker.

Funeral plans were not known in Abilene last night.

Atomic Explosion Makes Him Happy

PASADENA, Calif., Jan. 30 (AP) — The atomic blast in Nevada Sunday gave Adolph Schlicher a big boost.

Schleicher, who two years ago found a bat cave there full of Guano worth perhaps $500,000, reported that the explosion started an earth slide that opened up another chamber of the cave.

This recess is even bigger and richer in guano than the first, he said yesterday.

Guano is used in making commercial fertilizer.

Byrd Unhappy With Truman

BALTIMORE, Jan. 30. (AP) — Sen. Byrd (D-Va), one of the Senate's foremost economy advocates calculates that the federal government is now giving away the dollar equivalent of one state of Virginia every 10 months.

In an address yesterday at the Potomac State Bakers' Assn. meeting, the veteran Virginia legislator reckoned that his home state is worth about $8 billion and said:

"In the last five years, we have given away $47 billion — the equivalent of six states of Virginia."

Converted to other terms, the senator's figures have Virginia's equivalent disposed of one and one-fifth times yearly, or once every 10 months.

Along with criticism of the government's spending policies, Byrd had sharp words for the public health program, the Brannan Farm Plan and federal aid to education.

He suggested that during the present emergency when the people are called on for added sacrifices in the form of increased taxes, President Truman's administration also should sacrifice something — specifically, the so-called fair deal.

About 285 bakers from Marvland, Virginia and the District of Columbia attended the luncheon at which Byrd spoke.

Scurry County Shriners Will Meet to Organize A Chapter in Snyder

An organizational meeting for the formation of the first Shrine Club in Snyder, has been set for 7 o'clock Thursday night when a group of about 30 Scurry County shriners will meet at the Longhorn Cafe, it was announced today by Hilton Lambert.

Election of officers, selection of a name for the club, and other business will feature the meeting.

Following organization of the club, the Suez Temple, San Angelo Shriners, will be invited to install the new officers here, said Lambert.

"There are about 100 members of the Shrine in this county," he added.

$1,000 Reward Offered For Information About Stolen Pipe Joints

L. H. Armer, Fort Worth oil operator, is offering $1,000 cash reward for information leading to the recovery of 123 joinnts of new seven and five - eights inch, 24 pound spang thread and collar oil well casing which has been missing since Saturday from his McAdams lease in the Vealmoor field of South Borden County, 21 miles north of Big Spring.

Armer said the casing was on the rack at that lease and apparently was carried away on a truck sometime Saturday night. By noon today, no trace of it had been found.

Each joint of casing had a large red paint mark on the collar and pipe. Any information regarding the pipe should be communicated to the sheriff's office at Big Spring or to L. H. Armer's office in Fort Worth, or 415 West Texas Street, Midland.

Snyder Group To Sweetwater C.A.P. Meeting

You don't have to own an airplane or be a veteran to become a member of the Civil Air Patrol, the Sweetwater patrol and a group of Snyder visitors were told last night at a meeting of the squadron and prospecuve members, at the Avenger Airport.

R. Kay McKinney, commanding officer, said last night. "Qualifications for becoming a member of the Civil Air Patrol, which is the civilian branch of the Air Force, include a paramount interest in the defense of our county, citizenship in the United States, and willingness to volunteer service during disaster and to assist the Air Force at all times."

He pointed out that there is no age limit to become a member of the C.A.P. except for physical defects that would hinder duties of the organization.

McKinney told of the work performed by the C.A.P. during World War II, when this organization played an important part.

"While this immediate West Texas district has not been declared a 'bomb area' nevertheless there is important work for the C.A.P. to perform," said McKinney.

When the Snyder membership in the squadron, reaches 21, it will be designated a flight wing, but attached to the Sweetwater squadron. It was announced that the Snyder wing is expected to be organized within the next month or two, as nearly half the quota has already been reached.

Among those joining last night were Dr. John Broaddus and Walter Birt, both of Snyder.

Others from Snyder who attended the meeting included M. W. Pilcher, Charles Wolfe, John Borden, Willard Cogdell, Jr., C. V. Thompson, Jr., and Lloyd Clark.

Persons in the Snyder area seeking further information regarding the Civil Air Patrol, are invited to contact Pilcher, at telephone 1315.

Other Snyder C.A.P. members are Paul Cunningham, Ray Perkins, and Dr. Raymond Sims.

At the Sweetwater meeting, the Rev. James S. Butler, rectir of St. Stephen's Episcopal Church in Sweetwater and All Saints' Church at Colorado City, was named chaplains on defrosting an airplane leave shortly for Washington, D.C., by army plane, for a conference there in connection with the C.A.P.

The group last night saw two films on defrosting an airplane when in flight.

Two Men Charged With Theft Held Following Their Arraignment

Both James T. Smedley, 21, Snyder, and Wayne Flippen, 20, Hobbs, N.M., were held under $1,000 bond following their arraignment yesterday on burglary charges before W. C. Davidson, justice of the peace. Both were held to await action of the Scurry County grand jury.

They were arrested by the police in connection with the burglary of the house of Jimmy Smoot, Permian Mud Service, 1807 Fourteenth St., on Jan. 21.

Charges were filed by E. O. Basinger, assistant chief of police.

Junior Chamber Plans To Show Achievements

The Junior Chamber of Commerce discussed the making of a scrap book at their weekly meeting last night. The book is to show the achievements of the club during its first year, Myron Fenton, president, announced.

Members believe, Fenton said that the club has an excellent chance of winning an award which is given to first year clubs for outstanding achievement. The scrap book is being compiled in an effort to win the award.

Oil News

(Continued from Page 1)

cement five and one-half inch casing at 7,500 feet to test the Spraberry through perforations.

The wildcat had a recovery of 3,200 feet of free oil on a drillstem test in the Spraberry at 7,273-7,313 feet during six-haur investigation. There were other shows of oil and gas in the Spraberry between 7,-313 and 7,590 feet.

Location is 660 feet from south and east lines of section 32, block 1, J. Poitevant survey. It is 11 miles northeast of Lamesa.

Snowden and Associates No. 1-30 Dean, one and one-half miles southeast of the No. 32 Dean, and 660 feet from north and east lines of section 30, block 1, J. Poitevant survey, was bottomed at 7,-686 feet in lime and sand in lower Permian and was running electric log surveys.

The project will then drill ahead to explore the Pennsylvanian section.

It had already shown possibilities of producing oil from the Spraberry in the section between 7,257 and 7,414 feet.

STONEWALL WELL

Cities Service Oil Co. No. 1 Baitz, Stonewall County wildcat two and one-half miles east of Old Glory and 467 feet from north and 2,167 feet from west lines of section 27, BBB&C survey, was reported running pipe after encountering oil on a drillstem test of a congomerate at 6,014-21 feet.

Top of the pay was picked at 6,004 feet. There was a drilling break at 6,014-6,021 feet. A drillstem test open two hours had gas to the surface in seven minutes.

Oil flowed by head when the tester was pulled. Recovery was 1,650 feet of oil and 30 feet of oily mud. There was no water. Shut-in pressure was 1,925 pounds and flowing pressure was not available

PLUG FAILURE

Seaboard Oil Co. of Delaware No. 1 Sparks, one location east of the discovery of Pennsylvanian pay production in the same concern's No. 1 Edwards, which recently opened the Double Mountain field in Southwest Stonewall County, has been plugged and abandoned at 6,458 feet after having missed the pay found in the discovery.

No. 1 Sparks was drilled 660 feet from south and west lines of section 317, block 2, H&TC survey.

LUBBOCK DRY HOLE

Burdell Oil Co. No. 1 J. O. Long, Southeast Lubbock County wildcat four and one-half miles north of Slaton and 660 feet from south and east lines of section 2, block 1, drilled to total depth of 9,105 feet in lime and chert, which may be the top of the Mississippian, and has been ordered plugged and abandoned.

The project did not log any possibilities of production in any zone it drilled through.

Efforts were made to finance drilling the prospector on down to the Ellenburger but mechanical difficulties made that impossible and operator issued orders to plug it.

Burdell's No. 4 Sowell, Runnels County prospector, is now swabbing before acidizing at total depth of 5,355 feet. The same concern's No. 2 Seekamp, Gaines County field location, is acidizing in an attempt to complete as a producer. It has given indications of being a good well.

Miss Louise Metz of the Snyder Hospital expects to leave for Guadalajara, Mexico, within a few days, there to join her parents, Judge and Mrs. P. W. Metz, who are on an extended vacation. Miss Metz plans to be away at least two weeks.

UN Navy Units Report 24,500 Reds Are Dead

TOKYO, Jan. 30. (AP) — Vice Adm. C. Turney Joy, commander of United Nations naval forces, said today 24,500 North Korean and Chinese Communist troops have been killed by allied naval action since the start of the Korean war.

The seven month boxscore was compiled from official action reports up to Saturday midnight.

Joy said the enemy also "sustained heavy losses" in rolling stock, vehicles, shipping and buildings through UN naval air and surface pounding.

He listed 6,316 buildings destroyed and 1,941 damaged; 1,115 railroad cars destroyed and 1,747 damaged and 1,944 trucks and other vehicles destroyed and 1,226 damaged.

The boxscore also included 81 enemy aircraft destroyed and 85 damaged.

Fire Department Will Name Assistant Chiefs

Two assistant fire chiefs will be elected at the regular meeting of the city fire department Feb. 8, G. L. Autry of the fire department said today.

A vacancy in the assistant fire chief's position in the department occurred recently when Hal McClinton resigned because he was moving to Fort Worth. At that time there was no provision in the department's constitution and by-laws for filling the vacancy. Along with making provision for filling the vacancy, it was decided that two assistant fire chiefs were needed, Autry said.

Mr. and Mrs. L. J. Tolle, have returned from their wedding trip. Mr. Tolle, is an engineer at the Pan American Production Co., Lamesa highway.

Encouraging Show On Poll Tax Receipts Being Issued Here

With the fast approach of tomorrow's deadline on the payment of poll tax, the number of receipts issued climbed slowly to 2,890 by noon today, when 386 exemption certificates had been issued.

The total number of certified voters still remains 709 less than that of last year, when 3,915 poll taxes were paid, and 70 persons obtained exemption certificates.

Poll taxes must be paid not later than tomorrow at the office of the county tax assessor - collector, main floor of the courthouse. Persons 60 years old or older and those to vote for their first time since becoming 21 are eligible for exemption, but they will be required to obtain certificates before the deadline.

Dallas Building Is Purchased By Lewich

DALLAS, Jan. 30. (AP)—The Lowich interests of Dallas and Waco have purchased the eight-story Butler Brothers Building here for more than $3 million.

The Dallas News said today that Butler Bros., a wholesale firm, would retain three floors under lease and the remainder of the building would be converted into a merchandise mart.

Milwaukee Temperature

MILWAUKEE, Jan. 30. (AP) — The U. S. Weather Bureau here reported the temperature reached 53 degrees below zero today at Lone Rock, Wis.

Mr. and Mrs. Homer Graham, 3110 Avenue U, went to Lubbock Saturday on business.

Mr. and Mrs. R. M. Wemple, Pan American Production camp, Lamesa highway have as a visitor Mr. Wemple's mother from Cheneyville, La.
