STORM DAMAGES TRAILERS

Heavy damage near Nederland, Beaumont

Heavy Winds Race Along Texas Coast

By The Associated Press

Damaging winds up to 75 miles an hour knocked over an entire trailer court outside Nederland today, while heavy rains and scattered tornadoes whipped the Southeast and South Central Texas areas.

At least 13 persons were injured in the trailer court, three of them believed seriously.

LIGHT TORNADO

In Houston, a light tornado accompanied by winds gusting up to 40 miles per hour dealt considerable property damage in the northeast part of Harris County.

Two eyewitnesses to the trailer destruction, Mr. and Mrs. Henry Simmons, said a rumbling noise was their only warning. Mrs. Simmons said the trailer was "lifted up, twisted and laid on its side, then up-righted again." She and her husband protected their three small children by throwing themselves atop them when the trailer started tilting. A refrigerator fell on Simmons but was lifted again when the trailer was upright.

The bookstore of the Southern Bible College was damaged when trees craved in the roof.

The Weather Bureau clocked winds up to 60 miles per hour and the Coast Guard at Sabine Pass recorded winds up to 75 miles in the Sabine-Port Neches area. Wind gusts in downtown Beaumont were smashed in, and tree limbs scattered the streets. Power was out for a short time in southwest Beaumont.

A small tornado struck early Thursday in a rural area 10 miles northeast of Beeville, demolishing the garage on the Gene Rosebrook farm.

Official rainfall measurements for the 24 hours preceding 7 a.m. included Dallas 1.66 inches, Lubbock .62, Midland .63, El Paso .21, Galveston 1.60, and Sherman 2.24.

TO LOUISIANA

As the vicious wind and rain storm moved into Louisiana, the Weather Bureau hoisted small craft warnings from east of Port Arthur, Tex., to Apalachicola, Fla. Southeasterly winds of 15 to 30 knots were forecast, gusty near scattered thunderstorms.

Mayor H. B. Graves of Brookshire Village, in Brazoria County, said his town was swept by a twister that knocked down power lines and sent trees awry. He said an Alvin, Tex., woman was hospitalized with a broken shoulder after a tree smashed into her trailer house.

Five miles northeast of downtown Houston, residents spotted a tornado that unroofed garages and houses and demolished a 36-year-old brick company, the Cordell Brick Plant. The manager said about 40 employees in a nearby housing development were trapped within the area due to fallen trees and power lines but none was injured.

HEAVY RAIN

Beaumont recorded 1.72 inches of rain from six hours after midnight.

More than an inch of rain fell

Pressing For Pilots' Release

WASHINGTON (AP)—Secretary of State Dean Rusk called in Soviet Ambassador Anatoly F. Dobrynin today as the United States stepped up its diplomatic pressure for return of the three U.S. fliers downed in East Germany.

Dobrynin declined comment after the 15-minute session except to say he had no further information about the plane incident and that he had not received a note from Rusk.

In South Central Texas during a six-hour period, Kelly Air Force Base at San Antonio reported 3.31 inches, and the city of San Antonio had 1.42 officially at the airport.

The downtown section of the Alamo City, however, recorded more than three inches in four hours. The southeast section was without electricity for a short time, and many motorists in north San Antonio were stranded by high water.

One car was reported carried away by swirling Alazan Creek waters, but no persons were believed inside. Freeways were closed in at least three spots due to high water.

MIDLAND Two small tornadoes terrified Texas areas late Wednesday but injured no one and caused only minor damage. A twister at Midland skipped about the outskirts of the oil city, and another smashed a farm in far Southwest Texas 30 miles south of Uvalde, at Batesville.

Big Spring and the Howard County area received from .65 inch to 1.81 inches of rainfall Wednesday afternoon and night. The Big Spring Experiment Station's gauge reading at 8 a.m. today showed one inch, a 64-year record for the date. The former record was set in 1914 when .43 inch fell.

The rainfall was uniform over the area, although the Texas Electric Service Co. gauge at Chalk showed 1.50 inches, and Forks received from .87 to 1.51 inches.

By DON McKEE No wind damage was reported, although rain fell hard for short periods. The rainfall brought the 1964 total for Big Spring to 1.76 inches. The last rain measurement was .10 inch Feb. 21.

Farmers and ranchmen over the area were wearing big smiles Thursday morning when rainfall checks were made. The rain fell just about right, and will speed up crop planting.

Howard County rainfall reports showed from .65 inch in the western part of Big Spring, .75 inch in the Kentwood area, one inch at the junior college; Moss Creek Lake, .70; Coahoma, .75 and .90; Elbow, .80; Lomax, .70; Lee's Store, .60 and .90 a half mile away; Vealmore, .70 to .75; Fairview, .75; Knott, .70 to 1.00; Luther, .80; Big Spring switching station, .81.

Garden City reported 1.11 inches and the St. Lawrence area received 1.50. Reports from Texas Electric Service Co. showed Lamesa getting .60 inch; Sweetwater, .66; Lake Colorado City, .65; Eskola, .92; Morgan Creek plant, .69; and Colorado City, .89. Lake J. B. Thomas received a half inch and the lake level rose .04 foot from elevation 2,249.67 to 2,249.71 feet.

Colorado City Lake on Morgan Creek stood at 2,063.10 feet and Champion Creek Lake, where .61 inch fell, stood at 2,055.20 feet.

MARTIN LUTHER KING

Hot Summer Predicted For Civil Rights Work

ATLANTA, Ga. (AP)—Dr. Martin Luther King Jr., leader of the Southern fight against segregation, predicted today that civil rights demonstrations will reach record proportions this year.

"I think we will see the hottest summer in terms of civil rights," King said in an interview. "I think we will see demonstrations on a level and size we've never seen before."

PLANS OUTLINED Outlining plans for 1964, King reiterated that Alabama has been chosen as the main target this year by the Southern Christian Leadership Conference he heads.

The Alabama campaign will begin in late April or early May, King said, and it might be centered on Montgomery or spread out over five major cities.

A team is working in Alabama to mobilize Negroes, King said.

"We are hoping to get at least 10,000 recruits for a non-violent army who will be willing to spend their vacation in jail if necessary," he said.

King declined to go into details of the Alabama drive.

He said SCLC is helping in

Destruction Of Planes Proposed

GENEVA (AP)—The United States proposed to the Soviet Union today that they each destroy 480 planes from their strategic bomber fleets over a two-year period.

The proposal for destruction of American B47 and Soviet TU16 Badger bombers was made at a meeting of the 17-nation disarmament conference by U.S. negotiator Adrian S. Fisher.

Fisher suggested that the two big powers should each destroy 20 planes a month over a two-year period. In addition, he said the United States is prepared to destroy an additional agreed number of planes in its mothball reserve.

Fisher stressed that the destruction of planes would have to be carried out under strict observation by the other nation.

"The B47 and the TU16 bombers are logical armaments with which to start the process of physical destruction of arms," Fisher said. "The United States and the Soviet Union possess roughly comparable numbers of these aircraft and the two types of aircraft have been assigned generally similar strategic roles."

Fisher met in advance an expected Soviet objection that both the B47 and the Badger are being phased out of battle-ready forces as obsolete.

"The phasing out of aircraft does not mean destruction," he said. "Bombers in storage can be flying again in short order."

Fisher warned that the B47 and the Badger also could become a threat to peace if they fell into the hands of nonnuclear powers, which have no plane of similar performance.

WASHINGTON (AP)—Former Undersecretary of Defense Roswell L. Gilpatric says if there is a continued easing of East-West tensions the United States possibly could eliminate

De Gaulle Ends Good Will Tour

MEXICO CITY (AP)—President Charles de Gaulle ended his visit to Mexico today after three days of trying to project a new image of France as a big brother of Latin America.

The French president and his wife left by plane at noon for the French Caribbean island of Guadeloupe. After visits to Cayenne, French Guiana, and Martinique, they return to Paris March 23.

In a joint communique signed with Mexican President Adolfo Lopez Mateos Wednesday night, De Gaulle pledged France would work at the U.N. Trade Conference in Geneva next week for "new formulas" that would pay Latin America better prices for its raw materials and manufactured products.

The two presidents also pledged to work for development of exchanges between Latin America and the European Common Market, calling such exchanges "desirable for their mutual benefit."

De Gaulle arrived Monday by jet to an enthusiastic welcome. Despite his 73 years, he carried out a schedule much younger men might have found exhausting.

VOTER DRIVE "I plan to travel into Northern communities and try to initiate a very massive, intensified voter registration drive," he said. "We have studied marginal districts all over the United States—those districts where congressmen barely got elected and additional votes would make the difference."

"In many instances, these congressmen have been wishy-washy on civil rights and new voters could change that," King said he will call a conference, probably in September, "to launch a nationwide selective buying program" on a national basis.

President Johnson prepared, for the \$100-a-plate dinner, a speech expected to set the tone for the coming campaigns to keep the Democrats in office.

WASHINGTON (AP)—Led by that eminent Irishman, Lyndon B. Johnson, Democratic legislators gathered tonight for an "Irish party" calculated to fatten the party's campaign war chests by \$50,000.

President Johnson prepared, for the \$100-a-plate dinner, a speech expected to set the tone for the coming campaigns to keep the Democrats in office.

WASHINGTON (AP)—Led by that eminent Irishman, Lyndon B. Johnson, Democratic legislators gathered tonight for an "Irish party" calculated to fatten the party's campaign war chests by \$50,000.

President Johnson prepared, for the \$100-a-plate dinner, a speech expected to set the tone for the coming campaigns to keep the Democrats in office.

No Waste Promised In Foreign Aid Bill

WASHINGTON (AP)—President Johnson asked Congress today for \$3.4 billion in foreign aid to help "build a world in which the weak can walk without fear."

In a special message to a Congress which has become increasingly resistant to foreign aid in recent years, Johnson depicted the program as a bulwark against both war and "the ambitions of Communist imperialism."

He promised no waste in the operation and asked for permanent authority for U.S. arms aid abroad.

On Capitol Hill, there were prompt predictions of trouble ahead for the President's proposals.

Senate Republican leader Everett M. Dirksen of Illinois said there were "still possibilities for real economies." Senate Democratic leader Mike Mansfield of Montana commended the President for the reduced requests but said "as always, the program will have to plow a difficult road."

MUCH LESS Rep. Otto E. Passman, D-Ia., chairman of the House Appropriations subcommittee which handles foreign aid, said he hoped Congress would approve less than \$3 billion.

House committee hearings on the measure may open next week, but Senate hearings are not expected to begin until after the Easter recess.

Johnson laid the groundwork for his request—\$1 billion in arms aid and \$2.4 billion for economic assistance—with this summation:

"The proposals contained in this message express our self-interest at the same time that they proclaim our national ideals."

HARVEST OF WOE "We will be laying up a harvest of woe for us and our children if we shrink from the task of grappling in the world community with poverty and ignorance."

"These are the grim recruiting sergeants of communism. They flourish wherever we falter. If we default on our obligations, communism will expand its ambitions."

"That is the stern equation which dominates our age, and from which there can be no escape in logic or in honor."

Johnson disclosed in the long-awaited message that he has decided against any major shake-up in the overseas assistance program. He had appointed a special committee to study reorganization possibilities.

BOOST EFFICIENCY Instead, Johnson concentrated on a number of streamlining activities which he said would boost efficiency of the program, help U.S. friends abroad get off the dole and at the same time "aid in frustrating the ambitions of Communist imperialism" for world domination.

Johnson noted the \$3.4 billion for the fiscal year starting next July 1 is \$1.5 billion below President John F. Kennedy's original foreign aid request a year ago.

President Asks For \$3.4 Billion

Johnson noted the \$3.4 billion for the fiscal year starting next July 1 is \$1.5 billion below President John F. Kennedy's original foreign aid request a year ago.

Fighting Flares Up On Cyprus

NICOSIA, Cyprus (AP)—Fighting flared up in troubled Cyprus early today with Greek Cypriots reported using mortars against a village of Turkish Cypriots 28 miles west of Nicosia.

It was the first fighting on the east Mediterranean island in a week.

A British army spokesman said firing started at the village of Ghaziveran, said to be surrounded by Greek Cypriots.

First reports said the trouble appeared to start over a roadblock erected by the 500 Turkish Cypriot villagers as a protection.

Greek Cypriots objected to the road barriers which were astride the main road from Nicosia to the west of the island.

Turkish Cypriots in the all-Turkish town of Lefka, 5 miles southwest of Ghaziveran, threatened to attack Greek Cypriot villages near them if the Greek Cypriots did not cease firing by 10 a.m. But 15 minutes after that hour, there was no word that an attack had started from Lefka.

The British said Turkish Cypriot leaders were flown to Ghaziveran by helicopter. Fires were reported inside the village.

The British said firing continued through the morning as the Turks refused to surrender. The Greek Cypriots halted a patrol of British, Greek and Turkish Cypriot troops east of Ghaziveran.

WASHINGTON (AP)—Convicted Teamsters' President James R. Hoffa is seeking to quell any budding revolt in his giant union by personal appeals to its 1.7 million members.

His approach, in a previously unpublished letter, is that he will eventually upset his eight-year federal jury tampering conviction—and that if he does not, all Teamsters would have as much to lose as he does.

LETTER Hoffa's letter to all Teamsters' officials and members seeks to identify the unions' interests with his own in his long battle against Justice Department efforts to put him behind bars.

Hoffa, 51, told his members: "I have never backed away from a fight in my life. In all my 32 years in the labor movement, I have consistently refused to 'conform' as a price of peace, for the simple reason that I have always known that the price would come out of the pockets of the rank and file."

AS USUAL "The business of the International Brotherhood of Teamsters will be conducted as usual. Whenever possible, I will be in the field talking with you, the rank and file, finding out firsthand what your problems are, and working with you to come up with solutions," Hoffa's letter said.

He called Dallas "a festering sore" and said, "Now we see the shame of Dallas in all its glory."

The president of the American Bar Association called Belli's remarks "intemperate and abusive."

In Mexico City, Belli commented to a friend that "public opinion, and especially my fellow attorneys, should not judge me until my handling of the trial and all technical details are generally known."

He also told the friend, Mexico City lawyer Victor Velasco, that "I feel I did everything that could be done. I am not repentant. I did my utmost."

Belli left for his San Francisco home.

Ruby's sister, Mrs. Eva Grant, told the Dallas Morning News she sent the dismissal letter by airmail Wednesday night to Belli's San Francisco law office.

Ruby and his family "were dissatisfied with the defense presented by Belli and shocked at the tirade he delivered," Mrs. Grant said.

The letter said Ruby "tried to disengage" Belli Jan. 22, after a disagreement over defense tactics, but Belli "bitterly" opposed and forced himself "on Ruby and would not consent at that time to any local, adequate, competent counsel."

Copies of the letter also went to the other defense lawyers, Joe Tonahill of Jasper, Tex., and Phil Burleson of Dallas, but it was not immediately known how their status was affected.

The family said it has a note Belli wrote Ruby, saying his defense would not cost anything. A brother, Hyman Ruby, of Chicago, said, however, that Belli "has put all of us deeply in debt."

Ruby realized \$24,000 from a newspaper serial of his life, written by a California author, which the family said, helped finance the trial.

The letter said, "We do not know what we will do for further counsel."

Strike Talk Soft-Pedaled

WASHINGTON (AP)—Railroad industry and union negotiators kept up their war of nerves today, but soft-pedaled talk of a nationwide strike.

The Labor Department expressed cautious hope that the two sides can work out a new basis for negotiating their long dispute over wages and working conditions.

Chief industry negotiator J. E. Wolfe said Wednesday night that a nationwide strike was imminent. This was the second time he had done so this week, and a union spokesman promptly denied it.

The strike talk appears to be part of the maneuvering between five operating unions and negotiators for nearly 200 railroads.

WASHINGTON (AP)—Convicted Teamsters' President James R. Hoffa is seeking to quell any budding revolt in his giant union by personal appeals to its 1.7 million members.

LETTER Hoffa

The Kansas Board of Regents banned cigarette sales on the campuses of state-operated colleges and universities after reviewing statistical evidence illustrated by this chart Monday. The chart, presented to the regents by Dr. W. Clarke Wescoe, chancellor of the University of Kansas, was prepared by the American Cancer Society. The regents' ruling does not prohibit smoking on campuses—only the sale of cigarettes, effective 30 days from March 16. Cigars and pipe tobacco are not affected. (AP WIREPHOTO)

ATLANTIC CITY, N.J. (AP) — Bonus pay while on vacation and a coffee break for production workers are among contract improvements which Walter P. Reuther says his AFL-CIO United Auto Workers will demand this year.

Higher pay while on vacation, "to cover the extra costs of travel and spending time away from home," was described by Reuther, UAW president, Wednesday as a new concept to be raised in negotiations with auto makers.

This and the coffee break proposal were disclosed by Reuther at a news conference. Delegates from across the country gathered here for Friday's opening of the union's convention.

The union also will demand a

wage increase.

Three-year contracts between the auto workers and the automakers expire Aug. 31. Negotiations begin 60 days earlier.

Roundtable Set

A Scout Leaders Round Table will be held at 7:30 p.m. today in the old student union building at Howard County Junior College. Garrett Patton will be in charge of the meeting. The theme for discussion will be "Camping Out," and demonstrations will be given on the use of the compass and in camping techniques.

Reuther said it might not be possible because of the nature of the work to force all auto manufacturers to require a employees to take vacations.

Reuther said he thought union sentiment favored requiring vacations for all. He said enforced vacations and abolition of "excessive overtime" were among means to accomplish the union's "major thrust in the direction of creating job opportunities for those now unemployed."

Reuther said working conditions must be improved to include rest periods in addition to the 12-minute relief break per shift for sleeping.

"Something like a coffee break," Reuther said, "executives get a coffee break. Why not the workers?"

A Scout Leaders Round Table will be held at 7:30 p.m. today in the old student union building at Howard County Junior College. Garrett Patton will be in charge of the meeting. LIMA, Peru (AP) — Unconfirmed reports say Peruvian troops have rescued 37 engineers as savage Indians closed in on them after a week's siege in the Amazon jungle. Another engineer was believed killed in the siege.

The reports in Lima newspapers said the group of Peruvian government employees was saved Wednesday when 50 to 75 soldiers hacked their way through dense forests to a tiny

they set out from Requena to map a road through the jungle to the Brazilian frontier 75 miles to the east. Requena is 550 air miles north of Lima.

The Indians' strength was variously estimated at from several dozen to several hundred.

The engineers had a mobile radio transmitter and tapped out an urgent Morse code message received by a military post in Iquitos, 100 miles north of Requena.

However, the Ministry of Aviation said the latest report it had was relayed by one of several air force planes which had been bombing and strafing the Indians, who reportedly had the engineers surrounded on a knoll about 30 by 90 feet in area.

Some newspaper reports said 34 Indians were killed, but the government said it knew of only two dead. Two engineers were believed wounded.

An official said the Indians were believed to be of the Mayayuna tribe, described as "wild, naked savages still living in the stone age."

Jim, weight three pounds, and Judy, weighing a little more, were poisoned Tuesday night. Jim died on the doctor's table Wednesday morning, but Judy may live through it.

Jim and Judy are small Chihuahuas dogs, owned by Elton Taylor, 710 E. 13th. Somebody threw poison in the Taylors' back yard Tuesday night, and the Chihuahuas ate it.

"We went to Lubbock Tuesday and got home about 10 p.m.," Taylor said. "We had taken Jim and Judy with us, and turned them in the yard for a short time after coming

Douglas Bailey, 14, son of Mr. and Mrs. Melvin Bailey, 209 N. Nolan, was treated at Howard County Community Center for a knife wound in the back about 1:30 p.m. Wednesday. Five stitches were required to close the wound, in the shoulder area. The boy returned to his classes in Rumrills Junior High after treatment, and the wound was not considered serious.

The cutting occurred across the street from the school where several boys were gathered.

[illegible]

An unidentified motorist fled the scene about 7 p.m. Wednesday after crashing into the rear of a car owned by Austin G. Morton, 1314 Harding, according to police.

Many people find it hard to believe that the church of Christ is not a denomination.

We readily admit that a church could call itself "Church of Christ" and actually be a denomination.

We contend, however, that it is possible to exist as local churches of Christ without being a denomination. This we are trying to do. We are encouraged by Bible example to try to do so. Hundreds of years before denominations came into being, the Lord's one church functioned in independent congregations.

Human nature has not

changed, and the Word of God has not changed. Why cannot the church function today as it did in the long ago? Echo: Why?

We believe it is doing so; and invite you to come and see.

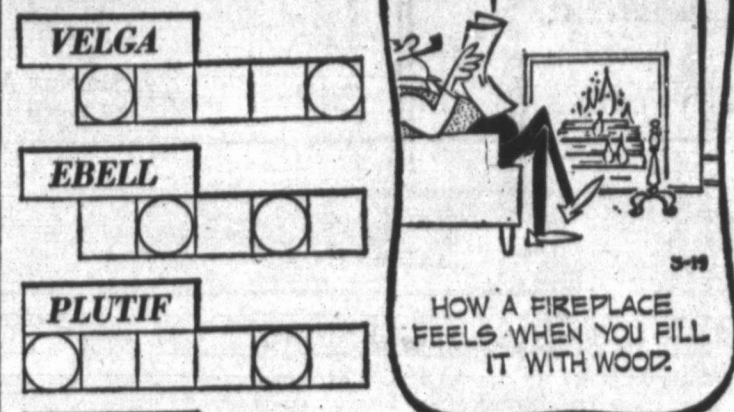

We also invite you to come and help us in this noble undertaking.

You are always welcome.

An Autograph On Concrete

Lucie Baines Johnson finishes up her autograph on concrete slabs at the National Capital Flower Show in Washington. The 16-year-old daughter of President and Mrs. Johnson used a paint brush to sign her name at the Presidential Garden exhibit which featured the Speaker Sam roses—named after Sam Rayburn, late Speaker of the House. (AP Wirephoto)

Success For New Airlifts

WASHINGTON (AP)—Pentagon sources today reported success in testing a new method of airlifting lightly armed troops thousands of miles and equipping them with heavy gear from waiting ship depots.

Even a raging tropical storm failed to disrupt the operation seriously, authorities said.

The test was held in late January and February. A 4,000-man brigade of Army infantry was flown from Hawaii to Okinawa and mated with tanks, artillery, ammunition and other stocks unloaded from depot ships.

Army and Defense Department observers have reported since that there were no serious hitches—that the method was shown to be both operationally and economically practical, sources said.

This could mean that the so-far limited plan involving three "forward floating depots" may be adopted on a wider scale.

Secretary of Defense Robert S. McNamara has told Congress that if the Pacific test was successful "we will propose an expansion in the forward floating base program next year."

This concept is one way of permitting the United States to

airlift troops swiftly to crisis points in various parts of the world.

The men travel with only their basic personal effects, rifles and other light arms.

Depot ships set sail from strategically located ports and rendezvous with the soldiers.

In the recent test, three depot ships moved from Subic Bay in the Philippines to meet the brigade at Okinawa.

The three converted World War II Victory vessels under Navy control were moored in Subic Bay about a year ago after being loaded on the U.S. East Coast with combat equipment.

The big question posed by Pentagon officials: Would the gear be in combat shape when it was needed?

The observer reports showed that none of the equipment and supplies stockpiled aboard the three ships had deteriorated. None had to be replaced.

Sure Enough, No Tank Either

MIAMI BEACH, Fla. (AP)—The rented sedan driven by Guy V. Whitner Jr. of Newberry, S.C., stalled in the driveway of a Miami Beach hotel.

Whitner checked the gas gauge. Empty!

Hotel doorman William Benway called a service station to deliver some gasoline then opened the small door that hides the gas cap—and stared in disbelief.

No gas tank.

Police picked up the tank 18 blocks and nine traffic lights away.

"I can't understand how the car ran that far without a tank," said Benway.

Bill Would Tighten Up Driving Law

DALLAS (AP)—New examinations for motorists who seek renewal or reinstatement of drivers' licenses would be permitted—but not required—under proposed Texas legislation.

This is among 52 provisions in a bill to clarify and tighten the present statute, Inspector N. W. Jackson of the Department of Public Safety said Wednesday at the Texas Safety Conference.

He said the projected measure is aimed particularly at keeping habitual or frequent violators from operating motor vehicles.

It retains a definition of habitual violator as one with four moving violations within a year, the legislation would apply the same tag to drivers with six violations in 24 months, instead of seven as at present, and add a section making eight violations the figure for 36 months.

"This gives the authority in case we are ever in a position to require regular re-examination," Jackson said. "But to re-examine over half a million drivers every two years would mean expanding our 172 inspectors 18 times at an annual cost of \$7.5 million."

Seat belts can mean survival of sudden stops in automobile collisions, the conferees were told by Col. John P. Stapp, whose statements are backed by his rocket sled experiments.

"As long as you stay below 60 miles per hour, seat belts should be adequate restraint in a 5-foot stopping distance—even 3 feet," Stapp said.

He is deputy chief scientist of the Aerospace Medical Division at Brooks Air Force Base in San Antonio.

General Motors Plans Huge Building Program

FREMONT, Calif. (AP)—The \$2-billion capital spending program of General Motors Corp. for the next two years shaped up today as a force in the nation's economic future.

Big GM, world's largest manufacturing corporation, will spend the \$2 billion on new plants and equipment in this country and abroad.

Fifty thousand new jobs in the United States will be one result of the program, General Motors said.

The new factory and plant expansion plans, announced by GM Wednesday, embrace more than two dozen cities in the nation.

In addition, General Motors will spend \$1.2 billion on special tools to make its cars, trucks and other products.

GM's investment in the future, Chairman Frederic G. Donner said in a speech at Fremont, is geared to an anticipated automobile market of 10-million sales a year by 1970.

There was no immediate comment from the White House on the GM announcement. President Johnson in the past has expressed hope for industrial expansion that would stimulate continuing growth in national production and create new jobs.

The present tax cut was backed by the Johnson administration and the late President John F. Kennedy as a means toward this.

Michigan Gov. George W. Romney hailed GM's announcement as an "expression of faith" in Michigan.

One-half to 55 per cent of the \$2 billion is to be spent in Michigan, Romney said it would mean 25,000 more jobs for Michigan.

igan, where unemployment has been a problem.

Two cities, Kalamazoo and Tecumseh, will get General Motors plants for the first time. GM facilities in 10 other Michigan cities will be expanded.

Walter P. Reuther, president of the United Auto workers Union, said at Atlantic City, N.J., Donner's 50,000 new jobs figure could not be measured as an

Pershing Missiles Go To Europe

WASHINGTON (AP)—The first 400-mile range Pershing bombardment missiles are expected to arrive in Europe next month to provide added nuclear striking power for the U.S. 7th Army in West Germany.

The movement of the most advanced Army battlefield missile to Europe has been foreshadowed for quite some time.

Dr. Wiener Dies

CAMBRIDGE, Mass. (AP)—Dr. Norbert Wiener, 69, famed scientist and considered the father of automation, died Wednesday in Stockholm, Sweden. Dr. Wiener, a native of Columbia, Mo., had been on the Massachusetts Institute of Technology faculty for 42 years before retiring in 1960.

Air Passengers Are Kept Advised

ZURICH, Switzerland (AP)—Way back in the dark days of air travel, when planes never flew on time, the long-suffering passengers didn't get the word.

They just sat there, in one dingy air terminal after another—and waited.

The women got wrinkled and the men grew beards. The children whimpered.

In the jet age things are different. Passengers sit around one chromium and fluorescent air terminal after another—and

wait. But now they always get the word.

They are told every 10 minutes that their plane will be delayed another hour, and they are told the reason why. The trouble is they can't understand the word when they get it.

The airlines people speak a jargon that is comprehensible only to briefing officers in the Pentagon and inhabitants of the darker reaches of Madison Avenue.

Here's a typical announcement:

"Pan-Eagle Airways regrets to announce that flight 16205 to Podunk and Texarkana has been delayed. The reason is a mechanical on the aircraft."

"A mechanical on the aircraft," indeed. Aside from the fact that it isn't English, what does it mean?

Did the engine fall out? The tail drop off?

Or this announcement: "Flight 278-b for Addis Ababa and Azusa has been delayed. The reason is a service delay due to ramp congestion."

Here's another, exactly as it emerged from the loudspeaker of a leading airline: "Flight 102 to London has been delayed. The reason is ramp congestion and the replacement aircraft is a turnaround."

Take this announcement fresh from the airport loudspeaker in Zurich: "We regret to announce a delay in the flight to Milan, due to operational reasons."

What could be clearer than that? And in three languages? It's about time that the airlines came right out and told us in plain words why we have been sitting around the terminal for hours.

I'll submit these sample announcements, for openers: "The midnight flight to Salt Lake will not leave for about two more hours. The reason is that the plane is in such terrible shape that the pilot won't fly it, and we are working on finding another pilot."

"We are afraid that we will have to cancel the 10 a.m. flight to Houston. The reason is that the airplane we were going to use seems to have disappeared somewhere between Boston and Norfolk, Va., and we haven't any idea where it is."

"There will be a slight delay on the noon flight to Albuquerque. The reason is that the airplane is on fire. The flight will leave as soon as we put it out."

YMCA Representatives To Attend Area Council

Four Big Spring YMCA representatives left early this morning for the Southwest Area Council meeting at Corpus Christi. The meeting continues through noon Saturday.

The Southwest Area Council includes Texas, Oklahoma, Arkansas and Southern Louisiana.

Clyde McMahon, member of the Texas executive committee; Arnold Marshall, immediate past president of the Southwest Area Council; Curtis Mullins, local general secretary and assistant recording secretary of the council; and Jim Smith, secretary of the Lakeview Branch of the Big Spring YMCA, will attend the meeting, which will be held at Hotel Driscoll.

Among speakers for the 27th annual meeting will be: Gordon Peterson, director of personnel, Texas Aluminum Co., Rockwall, Thursday night; Harold Phillips, senior vice president, First National Bank of Oregon at Portland, Friday morning; Rudolph Evjen, associate executive director United Community Funds Council of America, New

York City, Friday afternoon; Dr. Vance Rogers, president of Nebraska Wesleyan University at Lincoln, Friday night.

George Corwin, director of programming, National Council of YMCA's, New York, and Phil Hopkins, director of field services, National Council of New York, will be moderators of panels for discussion groups on social services.

Bill Lowe, president of the Oklahoma City Area Council, will preside at the meetings.

She Knew Him, Only Too Well

OROVILLE, Calif. (AP)—When Judge William Savage asked the 20-member jury panel if any of them knew the defendant, Lynn C. Green raised her hand.

"What relation?" asked the judge.

"I am his wife," Mrs. Green replied.

She was excused.

Later a jury was selected. It convicted Nathan F. Green, 34, on a drunken driving charge.

Smoke Industry On Full Steam

LOUISVILLE, Ky. (AP)—The smoking-health scare appeared a forgotten item today in Louisville's cigarette industry.

P. Lorillard and Philip Morris reported plants on a five-day week while Brown and Williamson Tobacco Co. said its operation called for a nine-hour, or one-hour overtime schedule on a five-day week. American Tobacco Co. said it was operating full schedule on two brands and four-day weeks on two others.

Short schedules became effective after the government panel reported unfavorably on cigarette smoking though most tobacco company spokesmen discounted speculation that the report was involved in the cut-back.

Leukemia Victim Dies Wednesday

VANCOUVER, B.C. (AP)—Little Bradley McDonald, the 5-year-old leukemia victim whose stepfather stole so that his last months might be happy, died Wednesday.

Bradley's stepfather, Gordon James McDonald, 35, served a month in prison last year for stealing \$680 from his employer. His original six-month term was reduced by the British Columbia Court of Appeal when it learned McDonald had stolen for Bradley.

Watches For The Blind

Morris Zale, left, president of Zale's Jewelers of Dallas, explains the operation of a Braille watch to Dr. Jose A. Mora, center, Secretary General of the Organization of American States, and Sen. Ralph Yarborough, D-Tex., at the Pan American Union in Washington yesterday. Zale's firm contributed \$90 watches for use by blind persons in Latin America. (AP WIREPHOTO)

Texans To Plant Cotton On 6 1/4 Million Acres

WASHINGTON (AP)—Texas farmers reported plans March 1 to plant about 6,225,000 acres to cotton, the state's principal farm crop.

This is approximately 100 per cent of the acreage of last year's cotton crop in the state.

Nationally, farmers said they would plant about 310 million acres to crops for harvest this year, the largest acreage since 1960.

The Agriculture Department report was based on a nationwide survey. It may not be borne out in actual plantings.

For example, wheat-cotton legislation pending in Congress, if enacted in time, could result in smaller acreages of wheat and cotton than indicated in Wednesday's report. The legislation, if approved, would provide payments to growers who reduce plantings.

Other acreages Texas farmers indicated they would plant include the following:

Rice, 462,000 acres; 100 per cent of last year.
Barley, 405,000 or 90 per cent.
Peanuts, 281,000 or 98 per cent.
Sorghums, 6,682,000 or 98 per cent.
Flaxseed, 132,000 or 70 per cent.

Runaway Tank Wrecks Store

ATHENS, Ga. (AP)—Groceryman Ed Booth plans to open as usual today despite a gaping hole in the wall caused by a runaway 50-ton Army tank.

The tank, en route to a nearby training site Wednesday, caught fire and was abandoned on a steep hill. Its brakes failed and backward it rolled, knocking Booth's store off its foundation.

Smoking Hearings Close On Warning

WASHINGTON (AP)—In the CIGARETTES: The Federal Trade Commission has concluded three days of hearings on its proposals to brand cigarettes and advertisements with an antismoking warning.

Interested parties have until April 15 to submit additional statements for the commission's consideration. Meanwhile, two commission divisions are preparing supplemental reports for introduction into the public record.

REVIEW: President Johnson has directed Secretary of the Treasury Douglas Dillon to make certain that the three federal regulatory agencies — the Comptroller of the Currency, the Federal Reserve Board and the Federal Deposit Insurance Corporation — settle their differences.

Johnson made no mention in his directive Wednesday of Comptroller James J. Saxon,

who has disagreed on occasion with the Reserve Board, FDIC and the Justice Department.

The President said he was concerned about reports of a lack of coordination among the federal agencies.

CANAL: The Organization of American States has asked its special mediation commission not to abandon efforts to mediate the U.S.-Panama dispute.

The request was made after the mediation commission had reported Wednesday that its efforts to resolve the conflict over the Panama Canal and to re-establish diplomatic relations between the two countries have resulted in failure and frustration.

Last Sunday the commission announced the United States and Panama had agreed to renew solutions. But on Monday President Johnson said there had not been "any genuine meeting of the minds" between the two countries.

Panama notified the OAS Wednesday that it regards Sunday's declaration as "clear and precise." However, most Latin American diplomats feel Johnson has thrown cold water on hopes for a quick settlement.

State Oratory Contest Set

AUSTIN (AP) — Four young Texans will compete Friday in Waco for a chance to represent the state in the National American Legion Oratorical Contest, the Legion's Texas department says.

The winner of the 27th annual statewide contest will compete in a regional contest in Houston, the winner of which will vie for \$8,000 in scholarships in the national competition.

Winners of the four divisions of Texas, who will be in the Waco contest are: First division, Tom Hylden, Dallas; second division, Rick Simon, Houston; third division, George M. Fleming Jr., Texas City, and fourth division, Gary Priour, Kerrville.

Woodbury Willoughby, 59, who arranged the rescue of a treasure gold and silver from the Philippines just before the fall of Corregidor during World War II, died Wednesday of cancer.

Rescued Treasure

WASHINGTON (AP) — Woodbury Willoughby, 59, who arranged the rescue of a treasure gold and silver from the Philippines just before the fall of Corregidor during World War II, died Wednesday of cancer.

Carrier Leaves For Cyprus Tour

HALIFAX, Nova Scotia (AP) — The Canadian aircraft carrier Bonaventure, 20,000 tons, sailed for Cyprus in a snowstorm Wednesday night.

The carrier's taking supplies, equipment and 96 reinforcements for the Canadian peace-keeping force on the Mediterranean island.

Quarter Horse Show Scheduled

The Carl Vickers Memorial Quarter Horse show will be held in George West April 4. It will be presented by the Live Oak County Fair Association with approval of the American Quarter Horse Association.

Breeders Association, and PAQHBA. D. C. Weinert, Nixon, will judge the show which benefits the West Texas Rehabilitation Center in Abilene.

Halter classes, which must be entered by 8 a.m. April 4, will be judged at 8:30 a.m. Performance classes must be entered by 11 a.m. and will be judged at 12:30 p.m. A National Cutting Horse Association open will also be staged at the show.

You cook for pennies...

when you cook electrically

You'll be delighted to find out how little it costs to cook the modern electric way. Surface units cook by direct contact with utensil bottoms, use heat thriftily. The electric oven, insulated all around including the bottom, keeps heat inside where it belongs. And once the oven reaches the temperature you select, it uses electricity about one-fourth of the cooking time. It costs the average family only about 3¢ a meal to cook with flameless electricity. See your electric range dealer soon. Cook better... live better... electrically!

Two Women Charged With Threatening Connally

AUSTIN, Tex. (AP) — Two women were charged Wednesday with making a threatening telephone call to Texas Gov. John B. Connally on the day a Dallas jury decreed the death sentence for Jack Ruby for the slaying of Harvey Lee Oswald, accused assassin of President John F. Kennedy.

Federal Bureau of Investigation agents identified the women as: Christine Burke, 34, and Norma June McGriff, 38.

They were arrested Wednesday at their Nashville homes and waived a hearing before U.S. Commissioner A. B. Neil Jr. Each was released under \$2,500 bond. They entered no plea to the charge.

The FBI in Nashville said the women likely will be tried in the San Antonio, Tex., federal court. J. Myers Cole, special agent in charge of the San Antonio FBI office said the complaint charges that the two women "on or about March 14 at Nashville did wilfully and knowingly

transmit in interstate commerce from Nashville to Austin a telephone call containing a threat to injure the person of Gov. John Connally, in violation of federal statutes."

Neither the FBI nor Connally's office would amplify the "threat to injure the person" charge.

Only one call was made but two women talked, the FBI said.

Connally said he knew about the call but would have no other comment.

The governor's office said the March 14 call was received by Texas highway patrolman Bill Nelson, regularly assigned to guard the mansion. Nelson

in prison and \$1,000 fines.

The announcement came while Connally was in Dallas for a checkup on the bullet wounds received Nov. 22 at the same time President John F. Kennedy was assassinated. Doctors removed the cast from the governor's right arm and said it is unlikely he will need further surgery. He also is recuperating from a wound through the right chest and another in the left leg.

C-C To Ask Sign Bids

Bids will be opened March 31 at a called meeting of the advertising and promotion committee of the Chamber of Commerce, for highway signs along IS 20, east and west of Big Spring.

The committee looked at several samples and discussed sizes, materials, lighting and maintenance at a meeting Tuesday. It decided on a 10x40-foot sign, for each location, inviting the motoring public to use the IS 20 business route.

Specifications and bid forms were to be mailed out today to

Holley Sign Co., Big Spring; Thomas Sign Co., Abilene, and Tesco Signs, Inc., Roswell, N.M., Bob Schaff, assistant manager of the Chamber, said.

"Bids are to be on several types, and will include the number of signs (from four to 10), materials, lighting on all or only two with the others Scotch-lighted," he said. "Bids will be for a three-year period to include purchase or lease of land, maintenance, electric power, and painting."

Schaff said bids were to be in March 30, and considered at the next day's meeting. Contributions will be asked to cover the cost for the lowest bid.

No signs are being considered for US 87. The traffic count does not warrant them, Schaff said.

Big Spring (Texas) Herald, Thurs., Mar. 19, 1964 5-A

Tender Play Is Happy Choice For Easter Show

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP) — James Costigan's tender play, "Little Moon of Alban," could not have been a happier choice for NBC's "Hall of Fame" Easter program.

The 90-minute drama Wednesday night was a new production of a play first presented six years ago.

The play was rich in sentiment and often lit by flashes of wit and humor, but has a tri-

umphantly religious theme.

It is the story of a young Irish girl, who shocked and grief-stricken by the death of her fiancé in the "trouble," retreats desperately into a religious order. As a nursing sister, she finds her spiritual strength in her love for a British officer as she nurses him back to health.

Julie Harris, who played the girl in the original version, may be a bit mature but she is such a superb and sensitive actress

and so right in the role that the

question of age was soon forgotten.

Dirk Bogarde, a handsome young Englishman with some of James Mason's angry good looks, played convincingly and attractively the part of the caustic British lieutenant whose love triumphed over his terrible wounds.

The new character of an attractive young congressman, belatedly introduced on CBS' "East Side, West Side" in an effort to improve the series' ratings, was conceivably inspired by a real member of the House of Representatives, New Yorker John Lindsey.

Recommended tonight: Suspense Theatre, NBC, 10-11 (Eastern Standard Time) — "Cause of Anger," with Brian Keith.

Brady Man Heads Cattle Raisers

DALLAS (AP) — Fred Wulff of Brady was elected president of the Texas and Southwestern Cattle Raisers Association to highlight the closing sessions of the 87th annual convention of the TSCRA here Wednesday.

Other newly elected officers are Ben Carpenter of Dallas, first vice president; T. L. Roach Jr. of Amarillo, second vice president, and Paul Mason of Fort Worth, secretary-treasurer.

New directors are Dan Harrison Jr., of Houston; Richard M. Lucas of Berclair; Lee Hudgins of Sherman; Hayes Mitchell Jr., of Marfa; Vestal Askew of Sonora; Bill Brannan of Marietta, Okla., and Noah Guedry of Opelousas, La.

More than 1,000 cattlemen attended the three-day convention, and through resolutions recommended that no tariff concessions be granted on live-

stock, meat and meat products at the forthcoming Geneva trade talks, and reconfirmed the association's strong endorsement of two pending measures to establish import quotas at 7½ per cent of domestic beef production. Last year beef imports amounted to 11 per cent of domestic production.

They also passed resolutions pointing out that the general public is the major benefactor from federal meat inspection, and urged that this service not be charged to processors as proposed, but that it continue to be paid by the government.

The cattlemen asked that ranch and farm property be evaluated on the basis of productivity and earning capacity for estate tax purposes; commended the National Livestock and Meat Board for their promotion, education, information and research programs; went on record as opposing the national interstate identification system as a move which would serve no useful purpose and one which would be particularly inconvenient on movement of cattle from certified areas.

In one resolution, the beef producers said the Texas Animal Health Commission is spending more money on recertifying modified, certified brucellosis counties than it is on clearing up new areas. They recommended that either the present recertification period for brucellosis control areas be extended for longer times or other means of recertification be established.

U.S. Sending Feeds To India

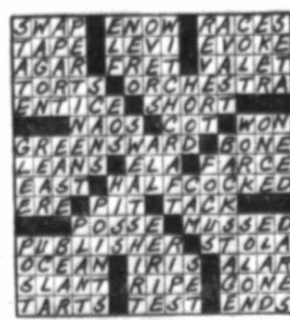

WASHINGTON (AP) — The United States is sending 46,000 tons of wheat and livestock feeds to northwest India, where 500,000 persons are reported suffering from famine.

The Agency for International Development announced the gift Wednesday night. It is valued at \$4 million under the food for peace program.

The up-to-the-minute fabrics! The proportioned sizes! Come get extra once-a-year savings . . . now!

DEAR ABBY

Only One Solution

DEAR ABBY: I am 49 and have been going with a 51-year-old man for the past two years. He has been wonderful to me. He takes me to nice places and buys me lovely things. He asked to marry me, so I took him over to meet my son and daughter - in - law one evening. Well, it seems by daughter - in - law became interested in him (she is 28) and I was told that she called him up and invited him over when her husband wasn't home. My son travels three days a week, so she has a clear field. I notice when my son is out of town, his wife is never home and I can't find

my friend, either. He takes me out only when she can't go. They have three little children. Abby, and now I feel guilty for taking him over there. Although she ran after him, if my son finds out he will half-kill my friend. I need this man because we had plans of marriage. What should I do?

HAS TROUBLES

DEAR HAS: Drop your friend, and tell him why. He'll undoubtedly pass the word on to your daughter - in - law and it might scare some sense into them. A woman with a two-timing friend doesn't know what

trouble is until she has a two-timing husband.

DEAR ABBY: This is being written by FOUR women who are in agreement on a neighborhood problem. There is a young, widowed woman in our neighborhood who is very well proportioned. She strings a clothesline across her FRONT porch. It is very embarrassing to see her flimsy nightgowns and all the underthings that women wear flapping in the breeze. What do you suppose she is advertising?

4 DISGUSTED NEIGHBORS
DEAR DISGUSTED: She is "advertising" the fact that she has no clothes dryer. Neither has she a man to set up a clothesline in her back yard.

DEAR ABBY: I can understand how one of those store-bought "ACCEPT MY SYMPATHY" cards would be acknowledged with an equally impersonal printed one stating, "The family of — wishes to thank you." But Abby, when a person goes to the trouble to write an expression of sympathy

in his own hand, don't you think he is deserving of a personal "thank you" note?

JUST WONDERING

DEAR JUST: Yes. But I am at the number of supposedly well-bred people who do not know that one original, handwritten sentence is more meaningful (and in better taste) than the most elaborately printed or engraved message.

CONFIDENTIAL TO "RELIEVED": The letter to which you refer could not have come from any of the cities you mentioned.

Get it off your chest. For a personal unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Ghana Appears To Be Endlessly Celebrating

ACCRA, Ghana (AP)—A new-come to Accra might think the city is celebrating endlessly. Decorative lights are permanent fixtures on utility poles. Like many other things in the bustling capital, their purpose is political. Ghana is host to so many meetings, conferences and visiting dignitaries that it is simpler to leave the lights up between events.

Accra is a mainly pleasant seacoast city of 380,000 under the vast bulge of West Africa about 500 miles from the equator. The old British Gold Coast colony it rules is about the size of Illinois and Indiana combined and has 50 languages or dialects in its seven million population. Like most African capitals, Accra is a city of sharp contrasts. Gleaming skyscrapers rise beside rusty-roof hovels, beautiful residences and stinking slums; there are modern

clinics and medicine men, new industry and primitive handicraft, ocean liners and dugout canoes, air-conditioned hotels and mud huts, sleek British tailoring and the national toga.

The country appears trim and more prosperous than most in West Africa. The impressive Volta Dam hydroelectric project is half completed and on schedule. The national airline, shipping company and railroad seems efficient. But poor economic planning has resulted in commodity shortages and sugar is rationed.

Ghana has one legal political party and a dictatorial president.

A newcomer would be excused if at first he thinks every other street, hospital, school, park, government building, social organization, state farm and army battalion is named after Kwame Nkrumah.

Texas Teams Are In Catbird Seat

HOUSTON (AP) — Texas teams ruled as favorites today in the fourth annual champions cup golf tournament.

However, sponsors Jackie Burke and Jimmy Demaret, who started the competition to stimulate interest in amateur golf, say the field is so well balanced that at least half of the 60 teams entered are capable of winning.

George McCall and Roane Puett of the Country Club of Austin, Tex., are back to de-

fend their championship, and contending for the fourth time are Don Marett and Tom Parnell of Fort Worth, Tex., who won the first tournament in 1961.

Half of the 1962 championship team of Don Cherry and Gene McBride of Wichita Falls, Tex., is in the field again. Cherry is now a professional and McBride has Bill Thomas as his partner.

Harvie Ward Jr., who has won two national amateur championships, is the biggest

name in the tournament since the withdrawal of the current U. S. amateur King Deane Beaman.

Another late pullout was film and television star Bob Sterling. Sterling was an entry along with the Rev. Len Scannell, a former assistant pro who may be the best putter in the tournament. Father Scannell, who will play with a fellow Californian as his partner, took 22 putts in a five under par practice round as amateur teams from nine states took final practice shots Tuesday.

The Sunday winner will be determined by the best low two-ball score for 72 holes for the 7,100-yard, par 71 swank course opened six years ago by Burke and Demaret.

Also returning this year are Don Addington and Chuck Ribelin, a Dallas team that tied for the runnerup spot a year ago.

Anthony's C. R. ANTHONY CO.

Touring Caddy Rates Hogan, Snead At Top

By PAT WASHBURN

Phil Miller will always be lonely. He's a man without close friends, a man in a hurry, a man on the run. It's his trademark. He seems to be chasing something he'll never find—real happiness.

"I've never had time to marry and raise a family," he says without regret. "I've never stayed in one place long enough. But I'm not sorry." You wonder.

Miller "thumbed" his way into Big Spring earlier this week. He was "thumbing" out of town two hours later. All that stood between him and starvation was \$1.81, the clothes on his back, and a battered suitcase stuffed with a lot of old memories and a few wrinkled shirts.

But in those two hours, Miller had a story to tell. And he was restless doing it, too—always moving his feet, nervously drumming on a desk-top with his fingers, shifting his eyes, digging weatherbeaten hands deep into worn pockets. It was almost as if he had only a little time left to live and still a lot of world to hear his tale. It was worth listening to. Whether some of it was imagined or not, probably not many people will ever know.

At 65, Miller is a "golf tourist." But perhaps that is glorifying him—he's really just another "knight of the road." A pork-and-beans eater... a sleeper on park benches... a hopper of occasional fast freights.

TAKES CHARGE
He calls himself a "caddy master," the man in charge of a large group of boys at a big golf course, who get paid for carrying members' clubs. But that's only partially true.

The job lasts from early spring to mid-fall in some northern country club above the Mason-Dixon line. But when the snow and sleet arrives, Miller migrates south to the warmer climate of Florida with 300 other golf pros and "caddy masters." There he does about six weeks more work with some club, but he mostly just hitchhikes around the state caddy for the "name pros" as they play the winter circuit "because it's something to do to cover expenses and I can make a good living at it."

In a conversation he's great at sprinkling the names of his "personal" friends—Walter Hagan, Gene Sarazen, Sam Snead, Gary Player, Jack Nicklaus, Ben Hogan, Bobby Jones, Arnold Palmer, Babe Zaharias. He drops these tidbits with complete nonchalance as he casually remarks, "We've been good buddies for years."

Miller began caddying in 1910 when golf was still in its infancy. He carried his first bag of clubs when he was 11 years old at the Silver Springs Links (they were called links then and not courses) in Hillsboro, R.I. "It was a six-hole course," he explains. "We'd do one round for a nickel and go 18 holes for 15 cents. If you caddied all day Saturday and Sunday, 36 holes a day, you'd make 60 cents. That was a lot of money in those days."

"We'd go down to the nickel-odeon and be able to buy a nickel glass of sarsaparilla or birch beer and a candy bar. That was really living!"

He saw his first big tournament in 1913, and it was a memorable experience. It was later to become known as the first U.S. Open.

"One of my school chums told

VET CADDY PHIL MILLER Chats with Pro Wendy Green here

me about this tournament they were having down in Brookline, Mass., so I decided to go and do a little caddying," he remembers.

"I skipped school, hopped a train, and arrived with nothing but the clothes on my back. At the time, they mowed the courses with huge rakes pulled by horse power, and they had a barn with the hay for those animals. The greenskeeper let seven or eight of us caddies sleep in the loft on the hay since he knew none of us smoked and there was no danger of a fire."

"We were all standing around one day and the caddy master said 'I need a boy with good eyes to shag balls.' I could always see real well so they yanked me out of the group and gave me Harry Vardon's bag. I was his caddy for the rest of the tournament."

"The rest is history. He went on to tie with Francis Ouimet and Ted Ray at the end of the regulation 72 holes and then came in second in the playoff. That was bad luck. Vardon gave me \$27 for the five days. I never had thought there was that much money in all the world. My father was working for the railroad at the time and I was making more than he was."

Miller became an apprentice member of the Professional Golfers Association (PGA) in 1916, the first year of its existence, and was authorized as a "caddy master" in 1920. His big adventures began in 1925 when he hopped freights across the country with several other boys, caddying along the way for money, from Rumford, R.I., to Los Angeles. This was the beginning of almost an annual succession of nationwide travels which would see him caddy in every important golf tournament except for the Masters in Atlanta, Ga.

"No white caddy has ever been allowed there," he said with disappointment. "Bobby Jones wouldn't permit it. A lot of guys who caddied there at first were winos and they stole, drank, and cursed so bad, that all white caddies were barred forever."

When he came through Big Spring, it was his 22nd cross-country trip.

"I move all the time," he said. "I jump at a chance to caddy. After all, that's food money and that's what gets me across the country. I just pick up a few dollars here and there and move on. I know a lot of these pros at the different clubs and they'll always make sure I get a good job and have enough to eat. Some people are awful nice to me."

"Of course, several places I've had a choice of eating or sleeping. Then I'll hitchhike all night. I can usually find someone who likes to sleep while I drive."

"I've lost 14 pounds on

this trip. I guess this will be the last one. When I reach San Francisco, I'm through. I'll sure be glad."

ABOUT THROUGH
After reaching California, he'll fly to Colorado Springs where he'll be in charge of the pro shop at Dow Finsterwald's Broadmoor Country Club. He'll spend the winters at Florida's North Palm Beach Country Club as a "caddy master."

At the same time, the A. S. Barnes Co. in New York is supposed to release a book, "55 Years at the Golf Game," a story of golfing experiences from the caddy's viewpoint. He has been guaranteed \$5,000 at the minimum.

He talks golf constantly: "I don't think anyone will ever be better than Ben Hogan, and I'd rate Sam Snead right behind him. At their peak, they had better golf swings and more concentration than Palmer has ever had."

"Snead was the hardest to caddy for. He'd be playing a round and ask a caddy how far it was to a green. And then he'd hit it exactly that far. If it wasn't right on the pin, he'd hand the boy five dollars and tell him goodbye. Then he'd just get another caddy when he reached the clubhouse. He had the money to spend and could afford it. He never dismissed me."

"Nicklaus, a caddy at one time, will eventually pass Palmer and I believe last longer at the top than Arnie. Being a caddy is one reason he's so great. He loves the game, he's studied it from every angle, and he has the swing and physique to hit the ball a long way. He should be one of the greatest."

That's Phil Miller on golf. He's colorful, and he's fun to talk to. And he has a pretty good line.

PUBLIC OFFERING
FOR SALE BY COMPETITIVE BIDDING
The Federal Housing Administration invites bids for the following group of properties. Bids will be by and competitive bidding for all of the properties as an entity following the submission of qualifying tenders of the minimum price as to each property stated hereafter. To qualify for consideration each tender on its face shall be firm, unconditional, responsive, fixed in one amount certain and not in the alternative, not to the FHA, and shall be submitted on a form to be obtained from the undersigned. Bids are returnable for public opening at 11:30 A.M. local time on March 22, 1964 at the Federal Housing Administration, Office of Amortization, 1601 Avenue N., Lubbock, Texas.

All of the properties, identified as Group No. 116 for bidding purposes are located in Big Spring, Howard County, Texas.

A. PARCEL NUMBER	B. MINIMUM BID AMOUNT	C. PRICE NOT LESS THAN
1	3708 Hamilton St.	\$ 9,845
2	1509 Bluebird	5,965
3	1900 Winston	8,640
4	1201 College	5,500
5	2903 Cactus	5,610
6	1603 Avion	5,325

\$44,945

TERMS: The properties are sold as is. Upon execution of the sales contract the successful bidder is required to pay over to the FHA the amount of the difference between the aggregate Minimum Bid Amount stated above and the price established by the competitive bidding. This is to be paid by the successful bidder in cash upon receipt of the deed to the property. The successful bidder is required to close the sale by payment of the agreed sales price in cash upon receipt of the Third Party Purchaser by the successful bidder and, as to any property sold to a Third Party Purchaser within 4 months after execution of the sales contract by paying to the FHA the amount established by the competitive bidding. The FHA to accept a purchase money mortgage for the Minimum Bid Amount.

FURTHER INFORMATION: An information Bulletin with copy of the sales contract, including the Minimum Bid Amount, and a list of the properties, and an authorization to examine the properties, may be obtained from the undersigned.

The Federal Housing Administration reserves the right to reject any and all bids to waive any informality in any bid and to reject the bid of any bidder who, in the opinion of the FHA, lacks the essential qualifications, intentions, or means of successfully performing the contract. If an acceptable bid pursuant to this advertisement is not received on the date on which bids are returnable, the FHA without further notice may thereupon accept the first bid meeting the requirements specified herein, or withdraw this offering.

FEDERAL HOUSING ADMINISTRATION
FHA-Wash., D. C.

Go-Karters Have Races

The Big Spring Karting Association will hold races this Sunday at 2 p.m. on its 1/4-mile track west of town across from the Sahara Drive in.

There will be four classes of races—fast, intermediate, slow, and junior—with three 10-lap heats in each class. The top three competitors in each division will receive a trophy. There will be 10 local drivers in the events and approximately 30-35 karts are expected overall from surrounding towns.

Admission will be free to the public. The races will be much more of a spectator sport than the Enduro held earlier this month on the runways of Webb AFB. The entire track course can be seen from anywhere around the edge of the runway and with six sharp curves, the races will test to the utmost the competing drivers' road skills.

Anyone seeking further information should call race director Tommy Thompson at EX 8-5122.

Father's Tragic Burden

The body of a child killed in a battle in South Viet Nam today is held by his father as Rangers of the Vietnamese Army look down from a tank. The child was killed in battle as the government forces pursued

Viet Cong guerrillas into a village near the Cambodian border. The Vietnamese forces used bombers and armored personnel carriers against the guerrilla forces. (AP WIRE PHOTO CABLE FROM SAIGON)

Syria Has Reason To Beware March

By WEBB MCKINLEY
DAMASCUS, Syria (AP) — Syria, like Caesar, has reason to beware of March.

Plots thicken as the warm spring wind begins sweeping off the desert into the wide streets of Damascus. In March 1962, and March 1963, they resulted in violent overthrow of Syrian governments.

Troublesome symptoms are again present as Syria faces another March.

Internationally, the country stands alone—edgy about neighboring Iraq, distrustful of President Gamal Abdel Nasser's United Arab Republic, at odds with the Jordanian monarchy, brimming with enmity towards Israel, suspicious of the West and against the Communist East.

In the recent Arab summit conference in Cairo, Syria hardly nibbled at the lovefeast. Syrian delegates went home complaining of weak resolutions against the Israeli plans to divert Jordan River waters.

Domestically, the Baath government which came to power in a military coup last March 8 seems equally alone. Supporters of Nasser are still hankering for Syria's return to union with Egypt. They seize every opportunity to cause trouble for the government.

In the city of Homs, 110 miles north of Damascus, they infiltrated an anniversary celebration of the foundation of the UAR and tried to promote a general strike.

The government called it a "dangerous move against national security" and hastily convened a special military court. Less than 24 hours later, five men had sentences ranging up to 20 years at hard labor.

Other intriguers could see the hint—the government will react strongly to threats of a general strike.

The greatest trouble now facing the government is economic. The winter has been bad for crops. Syrian business is stagnant, prices are rising and investments are a standstill. The Socialist moves by the Baath—nationalization of banks, tight restrictions on foreign exchange and general discouragement of private business—have thrown the powerful merchant community into despondency.

Maj. Gen. Amin Hafez, Sy-

ria's tough premier, and the remote intellectual theorist of the Baath, Michel Aflak, have no desire to see either their rule or Syria finished. Their policy now is turning toward appeasement.

A government spokesman concedes the Baath has not been meeting its economic goals. "It has become clear that a compromise between the economic private sector and the Baath party is possible at the economic level," he said.

"This country is a beehive of intrigue," said a diplomat

"There may be dozens of splinter groups, each with one Sten gun, hatching their own plans for coup d'etat."

Despite her nervous March history, Syria may not be heading that way soon again. Gen. Hafez and his fellow Baath officers have adopted precautions the Baath party failed to take during its brief reign in Iraq—they have purged the army of anti-Baath officers. A coup probably would have to be set in motion outside the army—from the ranks, for instance, of the retired officers.

Fascinating History For Appaloosa Breed

DEL RIO (AP)—With a history as fascinating as its odd coloring, the Appaloosa, a horse of the Old West which is becoming increasingly popular, was considered a "lost" breed in America a mere 30 years ago.

Yet the spotted steeds have been traced back 20,000 years to the ending of the Ice Age in Europe, according to Dr. Francis Haines, an authority on the breed. They have been used as mounts for more than 5,000 years by people speaking many languages.

From Chihuahua, the spotted horses spread north and west in a wild state, along with other types, eventually reaching the Nez Perce country about two centuries ago.

INDIANS
The Indians captured and began breeding the spotted ones. Stressing speed, vitality, endurance and surefootedness, they watched their herds carefully, gelding the inferiors, trading the culls to neighboring Indian tribes and selecting only the superiors for their own use.

DENMARK
In Denmark, for example, they are called "Knabstrupper Tigre"; in Spain, "Chuberrri Altigrado"; in Argentina, "Tigre Pintado"; in Mexico, "Guinduri" or "Wynduri."

The name in this country derives from the Palouse Valley in the Columbia River basin where Nez Perce Indians first developed the spotted horse as a breed.

There were no horses in America at the time of the Conquistadores. Hernando Cortez, during the conquest of Mexico in 1519-21, brought in horses from Spain, among which were some Chuberrri Altigrado.

Gen. O. O. Howard was sent against Joseph. He reported to his superiors that the Nez Perce abstained from scalping, let captive women go free and did not murder peaceful families.

But the old Indian fighter said he had never before met up with anything like their warriors who all seemed to be riding spotted horses.

When Chief Joseph stole away over Lolo Pass into Montana, Howard sent Col. Nelson Miles in pursuit. Miles chased Joseph's band through Montana into Wyoming and back into Montana. Finally, with winter as an ally and trooper carbines beginning to find their mark, Joseph and his warriors were subdued near what is now Chinook, Mont., in 1877. A nearby highway marker says:

After a three-day siege, Joseph surrendered to Col. Miles. This greatest of Indian generals fought against fearful odds. He and his warriors could have escaped by abandoning the women, children and wounded.

But he refused to do. His courage and fairness were admired by Miles who promised his safe

return to Idaho. One of our blackest records in our dealings with the Indians was the government's repudiation of the promise.

The first thing Miles did to immobilize the Nez Perce was to take away their horses. He gave them to his Crow scouts or sold them to Midwest farmers. The Indians were sent to a reservation. The Appaloosas were scattered, their history neglected.

"Western Horsemen" featured a story in 1937 about the Palouse horse. Response indicated a widespread interest. The result was the founding of the Appaloosa Horse Club at Moro, Ore., in the following year with six charter members.

By 1950, the club had moved its headquarters to Moscow, Idaho, and grown to a point where it successfully petitioned the National Association of Stallion Registration Boards for recognition. Meanwhile clubs were formed in Canada and England.

Membership in the original club has passed the 3,000 mark and there are 30 regional clubs in operation in the United States. Horse registration overall is more than 25,000 and is increasing at about 7,000 a year.

The breed is most frequently identified by the markings on the rump—usually a blanket of white on which there may be spots or smaller flecks of one or more colors.

General conformation is that of the close-coupled western stock horse, standing 14-2 to 15-2 hands high and weighing 950 to 1,100 pounds.

Square Dancers Meet At S-City

Sterling City square dancing enthusiasts were host to groups from Big Spring and San Angelo last Saturday night at the Sterling City Community Center.

The purpose of the "Half-Way" dance was to create interest in square dancing among Sterling City's teen-agers. Seven squares were presented by the visitors with Joe Connally, Big Spring, and Wayne Smith, San Angelo, sharing the calling duties.

Other adult callers included A. V. Lewis, Coahoma, and Major Browning, San Angelo. Visiting teen-age callers also participated in the event.

Awards Arrive For Spelling Contest

An attractive engraved (Herald) Spelling Bee, has arrived. Also on hand are blue permanent possession of the boy ribbons for each of the 17 school or girl who wins Saturday's champions who are to try for second annual Howard County the county championship. Each

TROPHY COULD BE HERS

Susan Ward and County Spelling Bee Plaque

Susan Ward Is Kentwood School's First Entry

Susan Lynn Ward, 9, champion speller from Kentwood school, has a double assignment. She is the school champion with no alternate named. She is the first spelling champion that Kentwood has entered in the Howard County Spelling Bee. Last year, when the first Annual County Bee was held, there was no Kentwood school. Susan, a precise talking little lady, is a fourth grader, and the daughter of Mr. and Mrs. Joe Ward, 2407 Alendale Road. Her teachers say that Susan has a knack with words which makes her an exceptional speller for her age. She has been

speller will be presented with an inscribed ballpoint pen.

The county spelling championship will be determined at 10 a.m. Saturday in the Howard County Junior College Auditorium. The public is invited to attend. Each of the schools in Big Spring has selected a spelling champion, and champions have also been chosen by Forsan Junior High School, Midway Elementary School and the parochial school of the Immaculate Heart of Mary Catholic Church.

Winner of the championship, in addition to the plaque, wins a free trip to Lubbock April 11 to compete in the regional spelling bee. Winner of the regional contest goes to Washington to try for the national championship.

This is the second year the Herald has sponsored the Howard County Spelling Bee. Last year, the champion from this county, in competition with the champions of 22 other West Texas counties, made an exceptionally good showing at Lubbock. Some of the spellers this year, who will be contesting Saturday, are veterans of the first bee. Burma Gentry won the 1963 county title.

The same format will be followed this year that was used last year. Mrs. Elizabeth Martin will be the pronouncer. Capt. Ewing Werlein, Mrs. Sebron Williams and Miss Elizabeth Daniels will be the judges. Walker Bailey will be master of ceremonies.

All spellers and judges will be guests of the Herald at luncheon after the bee has concluded. Bailey asked spellers to be on hand at 10 a.m. A short meeting is planned at which the rules will be discussed and any questions about the procedure will be ironed out.

Contract Awarded

WASHINGTON (AP)—Robert E. McKee, General Contractor, Inc., of Dallas is low bidder on erecting a federal office building in Fort Worth. Sen. Ralph Yarborough, D-Tex., reported Wednesday. He said the General Services Administration would award a \$12,296,500 contract today.

Ferrante And Teicher Due

Ferrante and Teicher, popular two-piano team will appear here on Saturday at the City Auditorium, in a concert presented by the Big Spring Concert Association. It is the fifth and last of the current series.

The offering, entitled Ferrante and Teicher "Strike Up The Grands," will demonstrate the artistry and sense of humor of two performers who have occasioned one New York critic to call them "the most exciting piano team of our time." The program will include show tunes, today's (and yesterday's) popular melodies and the "pop" classics, all served up with the style and wit that have come to be synonymous with the music of Ferrante and Teicher.

These amazing artists have been an important factor in popularizing "movie" music with their recordings of "Exodus," "The Theme From 'The Apartment,'" "Tonight," and "Love Themes from Cleopatra."

Their humorous approach to music has also been displayed on radio and television shows.

Marion Trial Jury Picked

LUBBOCK (AP)—Eight men and four women occupied the jury box today for the start of testimony in the trial of the accused slayer of Mrs. Fred Turner Jr., wife of a wealthy Midland oilman and race horse owner.

The defendant is James Lee Marion, 22, Midland Negro.

Selection of the jury began Monday and was completed at nightfall Wednesday. The case was transferred here from Midland.

Mrs. Turner, 66, was beaten to death after finding an intruder in her swank home last Oct. 29.

Officers searching the neighborhood found Marion hiding in a storeroom. Prosecutors qualified jurors on the death penalty.

Founder Honored

The Leon P. Moffett chapter of DeMolay placed a wreath on the grave of Mr. Moffett Wednesday afternoon in remembrance of the founder of the Big Spring chapter. Shown kneeling in prayer are: left, front to back, Danny Brewer, Mike Hampton, and Jim Walker; right, Waylan Gillman, Leopold Guinn, and Mike Kelley. Mrs. Moffett stands in the background.

DeMolay Chapter Honors Founder

Six members of the Leon P. Moffett chapter of DeMolay gathered at Mr. Moffett's grave Wednesday at 5 p.m. in the Coahoma cemetery and put a wreath on the grave in remembrance of the founder of the Big Spring order.

After Jim Walker placed the wreath, Danny Brewer, Mike Hampton, Waylan Gillman, Leopold Guinn, and Mike Kelley joined him and Mrs. Moffett in prayer.

Being National DeMolay Week, this was the beginning of a project for the upkeep of Mrs. Moffett's mother and husband's graves. The project will be carried on throughout the year. Members of the local DeMolay chapter plan to trim the bushes surrounding the graves in the near future.

"You just can't realize how much I appreciate what you have done here," Mrs. Moffett said after the ceremony. "This would have meant so

Drinks Boiling Cup Of Cyanide

BURBANK, Calif. (AP)—A woman mistakenly poured herself a cup of boiling cyanide solution instead of coffee, sipped it and died, within five minutes, police said.

"What was it?" were the dying words of Mrs. Adeline M. Kehoe, 57, Wednesday.

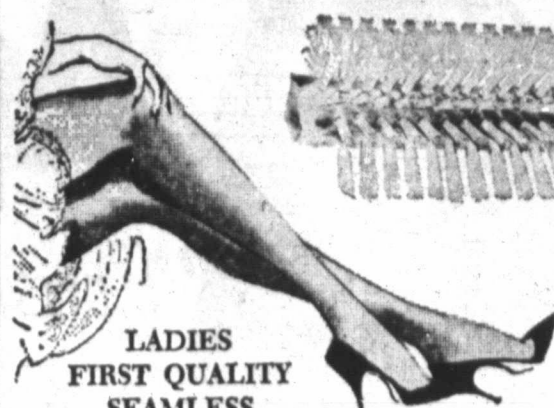

It was Mrs. Kehoe's first day on the job at a metals firm. Officers said she apparently noticed the pot of amber-colored cyanide boiling on the stove and mistook it for coffee. A coffee urn was on a box nearby.

The cyanide is used in metal processing.

Bonanza Of Beef In Market

By The Associated Press

Look to the beef counter for a bonanza of protein value this week and in weeks to come. Supplies are so huge the Agricultural Marketing Service has given beef top billing on its monthly list of plentiful. The cattle industry is working with meat retailers to move the abundance to you at attractive cost.

Traditional Easter hams also are in good supply at low prices, as are eggs.

Apples, bananas and lemons provide good buys among fresh fruits. More strawberries, cantaloupes and watermelons from Mexico are arriving. Volume shipments of Louisiana berries will begin in about three weeks, weather permitting.

Modest wholesale prices prevail in most Texas markets on large supplies of cabbage, carrots, greens and green onions, dry onions, potatoes and turnips.

Celery and tomatoes are higher at most markets. Potatoes, sweet corn, peppers and eggplant are higher in some areas. New-crop onions from Texas are arriving at lower cost.

Yellow squash, radishes, carrots, lettuce and green beans cost less than a week ago. Cucumber prices remain quite high.

Lamb Casserole Is Taste Treat

Coconut makes a tasty topping for this hearty lamb casserole.

CURRIED LAMB FRANCES

- 1 cup converted-type rice
- 4 tbsps. butter or margarine
- 4 tbsps. flour
- 4 tps. curry powder
- 2 cans (10½-ozs. each) condensed beef consommé
- ½ cup water
- 1 qt. diced (1-in. cubes) left-over roast lamb
- ½ to 1 cup flaked coconut

Cook rice according to package directions. Melt butter in a medium saucepan over low heat; blend in flour. Stir in curry powder; add undiluted consommé and ½ cup water. Cook and stir constantly until slightly thickened and bubbly. Reserve 1 cup of sauce. Mix remaining sauce with the cooked rice and lamb.

Turn into a greased 2-quart oven-proof glass baking dish (11½ by 7½ by 1¼ inches). Tuck pieces of lamb under rice. Sprinkle with coconut. Bake in a hot (425 degrees) oven until reheated and coconut is toasted—about 15 minutes; if coconut begins to get too brown before rice and lamb are hot enough, cover dish with foil.

Reheat reserved sauce and serve for those who want a little extra sauce. Makes 6 servings.

QUICKER THAN YOU CAN SAY

WHAT'S FOR DINNER? MRS. SKINNER?

2 Delicious Skinner Dinner Quickies

QUICK MACARONI PARMESAN

- 2½ to 3 cups SKINNER Elbow Macaroni
- 2 cups shredded American Process Cheese
- ¼ cup grated Parmesan Cheese (or more)

Cook macaroni as directed on package; drain. Immediately add the shredded cheese and toss until macaroni is coated. Turn into heated serving dish and sprinkle Parmesan on top. Serve at once. Serves 6. Preparation time: 10 minutes. Average cost per serving: 12¢.

HASTY HOT MACARONI SALAD

- 1½ cups SKINNER Shell or Large Elbow Macaroni
- 1 10½ oz. can Cream of Celery Soup, diluted with ½ cup milk
- 1½ tbsps. vinegar
- ½ cup pickle relish

Cook macaroni as directed on package; drain. Heat diluted soup; add vinegar and relish. Pour over cooked macaroni and mix well. Serves 6 to 8. Preparation time: 10 minutes. Average cost per serving: 7¢.

Extra delicious, nutritious, because you begin with Skinner Macaroni... made only with 100% amber durum wheat. Get 10 Skinner Dinner Quickies in Recipe Folder at your grocers.

Lubbock Convention Attracts Gardeners

Five local garden club members attended the spring convention of District I, Texas Garden Clubs, Inc. which was held in Lubbock March 16-17 at the Ko Ko Inn.

They were Mrs. Dale Smith, Mrs. Kyle Cagle and Mrs. W. D. Caldwell of the Spader's Garden Club, and Mrs. D. S. Riley and Mrs. Gordon Bristow who are members of the Big Spring Garden Club.

Mrs. Bristow, district awards chairman, announced that two local clubs placed in the yearbook judging. First place went to the Big Spring Junior Club and third place was won by the Big Spring Garden Club.

Mrs. Smith was a speaker at the awards banquet Monday evening. Her topic was "Fun With Abstract Design." Mrs. Cagle president of the District One judges council, presided at that meeting Monday afternoon.

The convention was held in conjunction with the 17th short course given at Texas Technological College. A lecture was given at the college by John Mark Gosdin, a senior major in park administration, whose top-

ic was "Garden Landscape." The second speaker was Horst Schach, also a student, who discussed "Horticulture and Entomology."

Highlighting the meeting was Mrs. John Minton of New Mex-

ico and California, noted artist who spoke on "Flower Arranging Way Out In the West." The 1964 fall board meeting will be held in Odessa and the 1965 spring convention in Amarillo.

College Baptist Has Coronation Service

The World for Christ was the theme of the Girls Auxiliary coronation held at College Baptist Church Wednesday evening.

Janice Anderson, queen-with-a-scepter, was honored by the group and received her award from the Rev. Byron Orand. She was escorted by her brother, Donald Anderson, flower girl, Dee Ann Cravens and scepter bearer, Tim Blackshear. She presented the GA aim, an outline on two studies, and her favorite scripture.

Pam Welch attended by crown bearer, Kent Rainey, and Sandra Patterson escorted by crown bearer, Mike Webb, were crowned and charged as they knelt before Rev. Orand.

Mrs. L. B. Thomas and Mrs.

Charter Draped For Mrs. Arnold

Mrs. J. C. Cravens presided at the draping of the charter ceremony held by the Grand International Auxiliary to the Brotherhood of Locomotive Engineers Wednesday morning.

Fourteen members were present in Carpenters Hall to honor the late Mrs. O. T. Arnold. The next meeting will be held April 15.

Engagement Noted In Colorado City

COLORADO CITY (SC)—The engagement and approaching marriage of Miss Judith Ann Bilberry to Arthur Barnes of Poteau, Okla., is being announced by her parents, Mr. and Mrs. Henry Bilberry of Colorado City. Barnes is the son of the late Mr. and Mrs. Lee Barnes. The wedding will be June 6th in the First Methodist Church in Colorado City.

D. Richardson played the prelude and Mrs. Paul Peterson sang "Tell It Again." Mrs. Bill Blalack gave the welcome and opening comments. As each step was reviewed Mrs. Marshall Kuhns asked the questions and Mrs. Dwayne Thompson gave the charges and awards.

The girls receiving their Maiden emblem were Charla Wash, Sharon Hanson, Billie Peeples, Susan Balzer, Lydia Whitworth.

The ladies-in-waiting were Kathy Blalack, Kathy Newton, Kay Bellamy, Nancy Wise, Debbie Wash, Terri Hull and Marsha Kuhns.

Dedicatory prayer was offered by Rev. Orand.

A reception was held in Fellowship Hall where the work that Miss Janice Anderson had accomplished to complete her step was on display.

The refreshment table was decorated with pink carnations, and serving the guests were Mrs. T. Whitworth, and Mrs. E. Wise.

Party Held For Student

Miss Janice Boland, daughter of Mr. and Mrs. J. F. Boland, was the honoree at a farewell party Tuesday in the home of Mr. and Mrs. John Annen, 417 Westover Road.

A corsage of green and white miniature carnations and remembrance gifts were presented to the honoree who will be attending school in Abilene.

Twenty-four guests were served from a table covered with green linen and centered with an arrangement of Easter lilies. Crystal and silver appointments were used.

Texas Fashions Shown

Oh, what a beautiful morning and night in Henson-Kirkner's dream duo, left, as seen at the Texas Fashion Creators show in Dallas. Drifts of durable are tied up empire style in both pieces. Shown center is an arnel-cotton seersucker in strong stripes ac-

cented by a sleeveless white vestee blouse by Donovan-Galvani of Dallas. At right is "The Gun Moll—the dress that comes with a hood" by Charles Dickey. It is marshmallow dacron crepe for yards of after-five glamour. (AP WIREPHOTO)

Imagination Makes Texas Fashions Fun

DALLAS (AP)—Seersucker goes elegant with velvet, calico turns to giant strawberries, and high-heeled boots make gay tote pockets on some of the Texas-made creations shown at the 14th annual showing of summer collections sponsored by the Texas Fashion Creators.

Dallas is the country's third largest style mart.

Gay Simpson, fashion editor of the Dallas Morning News, said summer showings have ranged from fine tailored suits to imaginative fun outfits.

She said fashion writers attending the show had to feel as well as see the new "miracle fabrics" which are designed for summer, transition and even year-round wear.

Nardis of Dallas has developed a three - ply Dacron knit which refuses to wrinkle, is washable, doesn't cling, takes

color well and is spot resistant. It was shown in two - toned, three - piece suits.

Also new by Nardis was a suede blond fitted coat with a matching mink collar. A blank antelope coat in an empire silhouette was shown with a black-dyed mink collar.

The shirtdress, the sheath and the tailored suit continue to

Americana look," Miss Simpson said, "with gingham checked ruffles on a long white tunic overblouse, a Texas-sized strawberry trim and a hootenanny bib with a mandolin trim." They were shown by Bogart of Fort Worth.

The shirtdress, the sheath and the tailored suit continue to

ST. PATRICK NOTED

Tall Talkers Present Gift Of Gab Program

The "Gift of Gab" was the program theme at a meeting of the Tall Talkers Toastmistress Club held Tuesday evening in the Blue Room at Cosden Country Club.

Mrs. W. R. Brown was in charge of the program and introduced Mrs. Dick Wilson who talked on the subject, "Silence Is Golden." Mrs. Ken Pfeil gave a reading on the history of St. Patrick, "The Fire of Slaine."

Speech valuator were Mrs. Hank McDaniel and Mrs. Joseph Johnson. The general valuator was Mrs. Thomas Seebo.

Mrs. Seebo announced that any cancellation of reservations for the next meeting, March 31, must be made by noon March 29. Mrs. Johnson, AM 3-6488, is in charge.

Guests included Mrs. James Hudson, who will be initiated as a new member, Mrs. Conrad Kay and Mrs. Opal Engle.

This Is The Way—

Mrs. C. L. McClendon gives the proper pronunciation of a Spanish word to third grade pupils at Marcy Elementary School as Mrs. W. E. Harris shows Jerry Lamb an illustration of the classroom lesson.

Spanish Instructors Get Warm Welcome

By MARY COCHRAN
Buenos Dias Senora Harris! Buenas Tardes Senora McClendon! These enthusiastic greetings can be heard mornings and afternoons in the third and fourth grade classes in twelve Big Spring elementary schools.

Pupils don't squirm in their seats or pass notes back and forth when the Spanish teacher arrives. It's a special and exciting adventure to the youngsters to be getting their first taste of a new language.

The school system initiated the bilingual program at grade school level for the first time this year, and two teachers, Mrs. W. E. Harris and Mrs. C. J. McClendon handle the entire teaching agenda. Class periods are 20 minutes long and the students receive five lessons in a two week period.

Mrs. McClendon has developed a study program and a work book for classroom use that has been illustrated by Mrs. Harris. This will serve as a teaching guide for future use within the local school system. They are in the process of compiling a simple book that will be useful for teaching both Spanish and English translation.

These two teachers converse only in Spanish in the classrooms and begin the year with simple words and illustrations. Gay songs are taught by means of recordings and the students find it anything but dull to sing along with teacher, particularly when there are lots of gestures to go with the tune. Mrs. Harris has illustrated these songs with bright pictures that help put across the meaning.

Throughout the year, pupils will follow the adventures of an imaginary family and become so familiar with them that they will develop a kinship with their culture, language and customs. By the simple means of exposure to correct grammatical usage, they will subconsciously learn the proper forms of the new language.

Mrs. McClendon is in the process of obtaining her doctorate from the University of Texas at Austin. She chose a subject close to her heart for a thesis, "The Use of Spanish Among the Children of Spanish Speaking Parents in the Big Spring Area."

She received her BA and MA degrees at Texas University with a major in Spanish. Her high school work was done in Glendale, and she spent two years at the University of Rochester in Rochester, N.Y. Her husband is minister of the Presbyterian Church in Coahoma, and the couple spent twenty years in Mexico in the state of Guerrero where they served as missionaries. Mrs. Harris is interested in

painting as a hobby and finds pleasure in illustrating the school materials being used in the Spanish program. She received her education in Los Angeles, Calif., and is a graduate of the George Pepperdine College of that city. Her major is in the field of elementary education, and she has been studying

Mary Zinn Circle Conducts Panel Program Tuesday

Mrs. Jackie Bishop conducted a questionnaire panel at the Tuesday meeting of the Mary Zinn Circle of the First Methodist Church. Mrs. S. Felton Smith served as hostess.

Assisting Mrs. Bishop in studying Christian perfection were Mrs. W. A. Miller, Mrs. Clarence Shive, Mrs. S. E. Nobles, Mrs. J. P. Meador, Mrs. Felton Smith, Mrs. Dave Duncan and Mrs. Ollie Belew.

Mrs. Nobles presided and Mrs. Miller gave the devotion. Refreshments were served to 12 members by Mrs. Smith.

The next meeting will be a general session at the church March 24 with the Mary Zinn Circle serving as hostesses.

Charter Draped For Mrs. Arnold

The charter was draped in memory of Mrs. O. T. Arnold by the Ladies' Auxiliary of the Locomotive Firemen and Engineers Wednesday afternoon at Carpenters Hall. Mrs. J. C. Craven presided.

Refreshments were served to 16 members by Mrs. C. L. Kirkland and Mrs. P. L. Bradford. The special prize was awarded to Mrs. F. B. Wilson.

The next meeting will be held at the hall April 15.

Miss Klaus Talks To Lomax Youths

Miss Audrey Klaus talked on "Method Demonstration" to members of the Lomax 4-H Club at a meeting Wednesday in the Community Center.

Brad Posey discussed improvements in raising pigs and Danny Fryar talked on gardening. Bobby Adkins, president, reported on the recent 4-H Club and FFA Fat Stock Show.

Ken Harrod, new assistant county agent, was introduced by David Adkins to the seven members present.

A bridge party at the lake home of Mrs. M. C. Grigsby was a compliment to Mrs. Yeargin Monday evening. Guests spent the night at the lake, returning to town at noon Tuesday.

ing Spanish since her junior high school days. Her husband is Major Harris who is stationed at Webb Air Force Base.

The challenge of teaching a new language to young children is an exciting field for both of these dedicated women. When they say "Adios" at the end of the school year it will not be final.

The program is scheduled to continue in the local schools and there will be classrooms full of eager youngsters waiting to learn the language of their southern neighbors.

HINTS FROM HELOISE

Freeze Onion For Storing

Dear Heloise:
Here is now I freeze chopped onions for spaghetti, salads, etc.

First, peel, chop and prepare the onions, then spread them out on a cookie sheet and place cookie sheet, onions and all in a plastic bag. Put this in your freezer.

When thoroughly frozen, the onions may be removed from the cookie sheet, broken into bits and put in a plastic bag to conserve space.

This way one can remove the exact amount desired and they are not frozen together. I do hamburger this way, also. I always keep several packages in my freezer.

The point is, when spreading them out thin on the cookie sheet, they freeze quicker and any amount can be removed and used immediately without a long thawing period involved. Any type of food can be done this way, thus saving us cooks lots of time. ... C. J.

Dear Heloise:
When you put on a sweater or light-sleeved coat over a three-quarter-length sleeve dress or blouse ... if you put a rubber band around the lower part of the sleeve cuff, the sleeve will not creep up on your arm while putting on the coat or sweater.

After you have dressed in the coat or sweater, remove the rubber band from your arm and your three-quarter sleeve underneath the jacket stays in place. ... H.I.Q.

LETTER OF TRUTH
Dear Heloise:
My late husband's mother taught me not to throw something out the back door into the garbage pail, and then take my pocketbook and go out the front door to buy something to replace it. ... Frances Hurd

Dear Heloise:
When the time comes for wild bird feeding, we always have the regular wild bird seed in our feeders, but had quite a time about the suet. ... So instead of buying a suet feeder, I now save the mesh bags when I buy onions, etc. at the grocery store. I put the suet in them and hang them on the trees in our yard.

This serves just fine for this purpose because the birds pick right through the mesh and eat

Gardeners See Wild Flowers

The bounty of wild flowers that grows in Texas were described by Miss Bessie Love at the Tuesday evening meeting of the After Five Garden Club. Mrs. Tom Ivey, Silver Heels, was hostess.

Miss Love used slides to show the colors of Indian Paint Brush, wild asters, cacti blossoms, and other flower species that grow in various sections of the state.

Mrs. Joe Peay presided, announcing judges for the club's April 25 placement show. Local qualified judges who will serve are Mrs. Dale Smith, Mrs. Odell Womack, Mrs. Dave Dorchester, Mrs. Zack Gray, Mrs. V. A. Whittington and Mrs. D. S. Riley.

Mrs. James Gilmore reported a successful sale of the Texas theme stationery. The supply on hand was sold and she has re-ordered. Anyone wishing to purchase the stationery may do so by contacting a club member.

Committee reports were heard, and the group agreed to assist the Big Spring Garden Club Council in decorating a float for the rodeo parade.

Eighteen members attended and one guest, Mrs. Clarence Emrick, mother of Mrs. Adrian Randle.

Circles Convene, Name Chairmen, Announce Goals

Two circles of the Woman's Missionary Union of College Baptist Church met Tuesday in separate sessions.

The Day Circle met in the home of Mrs. L. C. Alston, Moss Lake Road, to elect circle officers. Mrs. Jack Swearingen officiated and Mrs. E. E. Mason worded a prayer and read the prayer calendar. Sixteen members were present.

Mrs. Byron Orand was hostess and presided at the Night Circle meeting where she discussed the characteristics of a chairman. Mrs. Alston, WMU president, presented aims for advancement and the mission of WMU in the church.

Both circles will meet at 7:15 p.m. March 24, at the church for a Royal Service program.

To Marry

Mr. and Mrs. Everett Bowman of Lamesa announce the engagement and forthcoming marriage of their daughter, Donnette Findley, to Bobby Wesley Gaskins, son of Mr. and Mrs. Junier Gaskins of Knott. The couple will be wed June 5 in Lamesa. The bride-elect is a granddaughter of Mrs. R. L. Findley of Big Spring and the daughter of S/Sgt. Robert C. Findley of Ft. Benning, Ga.

Philippine Ministry Discussed

Mrs. Phil Grisham told of personal experiences in church work in the Philippines at the Tuesday meeting of the Woman's Missionary Union of Baptist Temple Church.

Others on the program were Mrs. Billye Boyer who discussed chaplain work and Mrs. Brad Redman who spoke on evangelism.

The group concluded a study of the mission book, "Apogee," Mrs. Ross Hill, mission study chairman, talked of soul winning, and a film, "Fruit of Faith," concluded the program.

The morning coffee session was closed by a prayer worded by Mrs. R. J. Stricker.

Gay Hill Club

Tea towels were hemmed at the Tuesday meeting of the Gay Hill Sewing Group No. 1 in the home of Mrs. G. W. Murphy. Jane Murphy, junior leader, will discuss good grooming at 4:15 p.m., April 6.

Westbrook Briefs Tell Travel, Guests

WESTBROOK (SC) — Mrs. Frank Oglesby has returned from a visit in Abilene with her brother-in-law and sister, Mr. and Mrs. Joe Brackeen. Mrs. Oglesby attended the Wilson lectures at McMurry College while in Abilene.

Mr. and Mrs. J. A. Moody, Mrs. Jansen Jones and children of Abilene, and Mr. and Mrs. J. R. Hampton and children of Denton, were guests of the A. C. Moodys over the weekend.

Mr. and Mrs. Robert Miller of Coahoma were guests of his mother, Mrs. C. J. Miller, and brother, Clyde, Saturday evening.

Mr. and Mrs. Altis Clemmer were transacting business in Abilene and San Angelo last week.

Mr. and Mrs. R. E. Shrimsher of Monahans were guests of the Altis Clemmers Sunday afternoon after attending the funeral services in Colorado City for the daughter of Mr. and Mrs. Billy Haggerton of Monahans. Haggerton and Schrimsher are employees of Standard Oil Co. of Texas and former residents of Westbrook.

Mr. and Mrs. Ira Hambrick, who are now making their home in Brownsville, are spending a few days in Westbrook transacting business and visiting with friends and relatives.

Mrs. Gay Moore is a patient in Root Memorial Hospital, Colorado City.

Mrs. Edna Rabb has returned from a visit in Midland with Mr. and Mrs. G. C. Ranney.

Mrs. L. F. Forbes is a patient in Root Memorial Hospital, Colorado City. Mrs. Forbes is owner and operator of the Westbrook Beauty Shop. Mrs. Loyd Hart Jr. is operating the shop while Mrs. Forbes is ill.

Why is Borden's the milk for children?

Because it's tested for flavor every day.

We test Borden's Milk in the laboratory. We test it by tasting it ourselves. We test it before it's accepted. And we test it after it's bottled, just to make sure. So, to make sure your children drink plenty of milk, make it the milk they prefer. Make it Borden's, with the flavor that's tested.

Farewell Luncheons Honor Mrs. Yeargin

Farewell affairs are being held this week in honor of Mrs. B. F. Yeargin who will be leaving soon with her husband for Phoenix, Ariz. Col. Yeargin is retiring from the Air Force and the family will reside there.

LUNCHEON
Mrs. Alan J. Grill, 46-B Chant, was hostess Wednesday at a luncheon held in her home. A jeweled brass ashtray was presented to Mrs. Yeargin as a remembrance gift.

in a spiraled candelabra on the buffet table where 10 guests were served. Yellow, green and beige cloths covered the tables for four where centerpieces were white rice bowls holding yellow and white daisies with greenery.

LAKE PARTY
A bridge party at the lake home of Mrs. M. C. Grigsby was a compliment to Mrs. Yeargin Monday evening. Guests spent the night at the lake, returning to town at noon Tuesday.

Mrs. Havens Finds Fishing Fascinating

By JO BRIGHT

Being dealt a handsome bridge hand is one of life's small, but satisfying pleasures. To some women, devotion to the game rules out anything as being comparable to the delightful feeling of power that a handful of good cards produces.

Mrs. J. J. Havens, 810 E. 18th, can bid with the best of them but, nevertheless, there's one thing for which she will desert duplicate play. Mrs. Havens loves to fish.

"I've put off a lot of bridge games when the weather was good and the fish biting," she said, "but even when I don't catch a thing, it's still fun to try."

Havens is production superintendent for Shell Oil Co., and their home here was originally a company house which they purchased in 1952. It is quiet, comfortable and has a look of adult living.

"There are things we'd like to change, but we don't plan to redecorate until our grandchildren are older, maybe not until Jess retires," explained Mrs. Havens.

CHILDREN

The Havens' children, now grown, are Sandy Havens and Mrs. Ray Young. Sandy lives with his wife, Helen, and their six-months-old daughter, Juli, in New York City where he has been associated with various theatrical productions. The first show that he helped see a successful run was "Mr. President" with music by Irving Berlin.

Mr. and Mrs. Young make their home in Roswell, N.M. They have just returned there with their children, ChuChu and Jackie, after a week's visit with the Havens.

"The hardest thing I had to learn, after our children left home, was not to cook too much," said Mrs. Havens. She noted that the living pattern changes completely as parents adjust to living alone when the children establish their own homes.

"It takes a while to learn to stop walking the floor and start

MRS. J. J. HAVENS

enjoying yourself again," she remarked. Mrs. Havens now plays bridge several times a week and fishes at every opportunity.

Mr. and Mrs. Havens own a cabin at Lake Thomas with a brother-in-law and sister, Mr. and Mrs. L. B. Sherman of Odessa. There they have a fishing house on the water which is equipped with lights, heat and a hole in the floor which enables them to fish the year round. One night the women spent the night in the shelter, having set out a number of lines in anticipation of a good catch.

They didn't try that again. The reels buzzed all night, keeping them awake, but by the time they were up it was impossible to tell which line had been hit—and the fish were gone.

GOOD CATCH

Last spring they had good catches of black bass weighing five or six pounds and "bushels" of crappie, which Mrs. Havens believes are the best fish for frying. They keep them in the deep freeze to have plenty on hand when a crowd is invited up for a fish fry. "We roll the fish in corn-

meal mixed with a little flour, and Jess prefers to fry them in peanut oil," said Mrs. Havens. "We always serve them with plenty of potatoes fried with onions and garlic bread or hush puppies."

Some of the larger bass are scored and broiled slowly as they are basted with lemon butter.

Recently, when Mrs. Havens was spending the day at the lake with Mrs. Floyd Mays, Mrs. Jack Cook and Mrs. Zell Smith, she took this and that from the pantry shelf and created a dish that has proven popular with several friends. Here is the recipe.

GREEN CHILI DISH

- 1 10 oz. can roasted green chilies
- 1/2 stick butter or margarine
- 5 eggs
- 1/2 cup cream
- Dash salt and pepper
- Cheese as needed (any kind)

Melt butter in casserole and spread with a layer of chilies, then one of cheese. Beat eggs, cream, salt and pepper together, pouring over top. Bake at 400 degrees about 20 minutes or until eggs are done.

CHEESE AND SHRIMP PEPPER PERFECTION
With cheese that blends for custardy sauce

Shrimp, Cheese Stuffing Makes Marvelous Meatless Menu

The next time the meatless menu urge strikes you, try this recipe for cheese and shrimp pepper perfection.

CHEESE AND SHRIMP PEPPER PERFECTION

- 1 (8-oz.) pkg. cream cheese
- 4 green peppers
- 1 egg
- 1/2 cup grated American cheese
- 1/2 lb. chateau cheese, finely shredded
- 1 (5-oz.) can frozen cooked, shelled, deveined shrimp, defrosted

Let cream cheese soften at room temperature. Remove tops and seeds from green peppers. Parboil 5 minutes; drain. If necessary, remove a very thin

slice from bottoms of each pepper, so peppers will stand.

Beat cream cheese until fluffy; beat in egg until mixture is light and well blended. Gradually stir in remaining cheese and shrimp.

Spoon mixture into green peppers. Bake in moderate oven (350 degrees F.) 20 to 25 minutes or until peppers are tender and cheese is well blended. If desired, garnish with cooked whole shrimp on top of each pepper. Makes 4 servings.

TOMATOES STUFFED WITH SHRIMP

- 3/4 lb. cooked shrimp
- 6 large tomatoes
- 1 tsp. salt

- 1 cup cooked rice
- 1 cup grated cheese
- 1 egg, beaten
- 1 tsp. salt
- Dash pepper
- 1 tsp. butter or other fat, melted
- 1/2 cup dry bread crumbs

Cut large shrimp in half. Wash tomatoes. Remove stem ends and centers; sprinkle with salt. Combine rice, cheese, egg, seasonings, and shrimp. Place in tomatoes. Combine butter and crumbs; sprinkle over top of tomatoes.

Place in a well-greased baking dish. Bake in a moderate oven, 350 degrees F., for 20 to 25 minutes or until tomatoes are tender. Serves 6.

8-B Big Spring (Texas) Herald, Thurs., Mar. 19, 1964

Sunday Seafood Brunch

After early Sunday morning church services, nothing is more inviting than a delicious Sunday brunch.

Seafood a la Reine blends nicely with tomato aspic, artichoke hearts vinaigrette and applesauce-lemon torte to make a tempting buffet.

SEAFOOD A LA REINE

- 1 package (6) frozen patty shells
- 1 can condensed cream of mushroom soup
- 1 cup evaporated milk
- 1/2 teaspoon basil
- 1/2 teaspoon thyme
- Dash pepper
- 2 canned pimientos
- 1 cup canned peas
- 1 can (4 1/2 to 5 ounces) jumbo shrimp
- 1 can (6 1/2 to 7 1/2 ounces) crab meat

Bake patty shells following package directions. Combine soup, evaporated milk and seasonings. Simmer gently a few minutes. Add pimiento cut in half-inch pieces, drained canned peas, shrimp, and crab meat broken into bite-size pieces. Mix gently. Heat to serving temperature. Serve in patty shells, or over hot cooked rice if preferred. Six servings.

TOMATO ASPIC

- 3 envelopes unflavored gelatin
- 4 1/2 cups canned tomato juice
- 1 teaspoon seasoned salt
- 1/2 teaspoon onion salt
- 1/2 teaspoon pepper
- 1 teaspoon sugar

Sprinkle gelatin over 2 cups tomato juice in a medium size saucepan; let stand 5 minutes to soften gelatin. Heat slowly until gelatin is dissolved, stirring constantly. Add remaining tomato juice and seasonings. Pour into lightly oiled 5-cup mold. Chill until firm. Serve with Blue Cheese Dressing. Six to eight servings.

BLUE CHEESE DRESSING

- 1/2 cup evaporated milk
- 1/2 cup salad oil
- 3 tablespoons cider vinegar
- 1 teaspoon salt
- 1/2 cup crumbled blue cheese (2 ounces)
- 1/2 teaspoon instant minced onion

Combine all ingredients in container of electric blender. Cover and blend for a few seconds until smooth and thickened. (Or, place all ingredients in a pint jar with a tight fitting lid. Cover and shake vigorously until creamy and smoothly blended.) Chill tightly covered. Makes about 1 1/2 cups.

APPLESAUCE-LEMON TORTE

- 1 cup butter
- 2 cups sugar
- 3 eggs
- 1 cup canned applesauce
- 3 cups sifted flour
- 1/2 teaspoon salt
- 1 teaspoon cinnamon
- 1/2 teaspoon cloves
- 1/2 teaspoon allspice
- 1 teaspoon soda
- 1 cup evaporated milk
- 1 tablespoon lemon juice
- Lemon filling
- Confectioner's sugar

Cream butter and sugar until light and fluffy. Add eggs, one at a time, beating well after each addition. Blend in applesauce. Sift together flour, salt, spices and soda. Stir lemon juice into evaporated milk. Add sifted dry ingredients to creamed mixture alternately with evaporated milk, beginning and ending with dry ingredients. Turn batter into well greased and floured 9-inch cake pans. Bake in preheated moderate oven (350 degrees F.) until done when tested, about 35 to 40 minutes. Meanwhile, prepare Lemon Filling. When cake layers are done, cool in pans on cake rack 10 minutes. Turn out and cool completely. Place one layer on cake plate; spread with Lemon Filling; then top with second layer. To make lacy design on top, place paper doily upside down on top layer; sift confectioner's sugar over doily, then lift off carefully. (Confectioner's sugar is absorbed by the cake and the pattern disappears if done too far ahead. It is best if this topping is done just about an hour prior to serving time.) Eight to ten servings.

LEMON FILLING

- 3/4 cup sugar
- 3 tablespoons cornstarch
- 1/2 teaspoon salt
- 1 egg, well beaten
- 1/2 cup lemon juice
- 1/2 cup water
- 1 tablespoon butter
- Few drops yellow food coloring, if desired

Mix sugar, cornstarch and salt in small saucepan. Blend in beaten egg, lemon juice and water. Add butter. Stir over low heat until clear and thickened, about 10 minutes. Stir in food coloring, if desired. Cool thoroughly before using.

LOBSTER NEWBURG

- 3/4 pound cooked lobster meat
- 1/4 cup butter or margarine
- 2 tablespoons flour
- 1 teaspoon salt
- 1/4 teaspoon paprika
- Dash cayenne pepper
- 1 pint coffee cream
- 2 egg yolks, beaten
- 2 tablespoons sherry
- Toast points

Cut lobster meat into 1/2-inch pieces. Melt butter; blend in flour and seasonings. Add cream gradually and cook until thick and smooth, stirring constantly. Stir a little of the hot sauce into egg yolk; add to remaining sauce, stirring constantly. Add lobster meat; heat. Remove from heat and slowly stir in sherry. Serve immediately on toast points. Serves 6.

ITALIAN TUNA WITH PEPPERS IS A TREAT
This combines tuna with tomatoes, basil, onions and peppers

Italians Add Peppers To Multiply Flavor

Nutritious and delicious meals, a combination every homemaker seeks when planning the family menus. Italian tuna with peppers is both nutritious and delicious.

ITALIAN TUNA WITH PEPPERS

- 1/2 cup olive oil
- 2 large onions, sliced
- 4 large green peppers, coarsely chopped
- 2 tsp. basil

- 1 1/2 tsp. salt
- 1/4 tsp. pepper
- 2 cans (6 1/2 to 7 oz. each) tuna, drained and flaked
- 3 large tomatoes, cut into wedges

Heat oil; add onions and cook over low heat until lightly browned. Add green pepper and cook, covered, stirring occasionally, over medium heat 10 minutes. Add basil, salt, pepper, tuna and tomatoes; mix well. Cover and cook over low heat 5 minutes or until tomatoes are tender. Makes 6 servings.

PIZZA

- 1 envelope active dry yeast
- 1/2 cup lukewarm water
- 1 tsp. sugar
- 3/4 cup hot water
- 6 tbsps. lard or shortening
- 1/4 cup sugar
- 1 tsp. salt
- 1 large egg
- 5 cups sifted flour (about)
- Pizza filling (recipe below)
- Spanish sausage (Chorizos)
- Stuffed olives
- Mozzarella cheese, sliced
- Anchovy filets, sliced
- Parmesan cheese, grated

Mix yeast with warm water and the 1 teaspoon sugar. Let stand 10 minutes to soften. Combine in a mixing bowl hot water, lard, the 1/4 cup sugar and salt. Stir until lard is melted and sugar is dissolved. Cool to lukewarm.

Stir in yeast and egg. Gradually add enough flour to make a soft dough. Knead dough until smooth and satiny. Place in a greased bowl to grease all sides. Cover with towel. Let rise until double in size in a warm place, about 1 hour.

Divide dough into two equal parts. Cover and let rest 10 minutes. Roll each out very thin on a lightly greased cookie sheet in a 12x18-inch rectangle. Chill while preparing Pizza Filling.

Spread Pizza Filling on each rectangle of dough. Top a portion of the pizza with each of the following: Sausage which has been sliced 1/4 inch thick and browned on both sides, sliced olives, Mozzarella cheese and anchovies. Bake at 400 degrees F. 15 to 20 minutes or until crust has browned and edges are crisp. Remove from oven. Sprinkle with Parmesan cheese. Cut into serving size pieces. Yield 2 pizzas.

PIZZA FILLING

- 2 cups cooked tomatoes
- 1 can (6 oz.) tomato paste
- 1/4 cup finely chopped green pepper
- 1/4 cup finely chopped onion
- 1 clove garlic, minced
- 2 tps. oregano
- 1/2 tsp. salt
- 1/4 tsp. pepper
- 1 tsp. water

Mash tomatoes; add tomato paste, green pepper, onion, garlic, oregano, salt and pepper. Cook over moderate heat until very thick, about 1 1/2 hours.

Save That Grease

After frying food in deep fat, strain the fat through several thicknesses of cheesecloth to get rid of food particles. This way you'll lengthen the life of your frying fat.

COMBINE VEGETABLES, EGGS
Cheese sauce makes excellent accent

Eggs Top Vegetables In Lenten Team Dish

Here is a flavorful meatless dish for a Lenten dinner. The mixed vegetables, blended with cheese and topped with eggs, makes an unusually appetizing item.

VEGETABLES AND EGGS AU GRATIN

- 2 tbsps. butter
- 1/4 cup chopped onion
- 2 tbsps. flour
- 1 cup milk
- 1 cup grated Cheddar cheese
- 1/2 tsp. salt
- 1/2 tsp. pepper
- 3 drops Tabasco sauce
- 1/4 tsp. dry mustard
- 1/4 tsp. Worcestershire sauce
- 1 pkg. (10 oz.) quick-frozen mixed garden vegetables
- 3 hard-cooked eggs

Melt butter in saucepan. Add onion and saute until golden brown. Add flour and blend

well; then add milk gradually. Cook and stir until mixture is thickened. Add 3/4 cup of the cheese plus salt, pepper, Tabasco sauce, dry mustard and Worcestershire sauce; blend.

Meanwhile, cook the mixed vegetables as directed on the package; drain.

Pour half the hot cheese mixture into a 1 1/2-quart shallow baking dish. Cut 1 1/2 eggs in quarters lengthwise; chop remaining eggs and sprinkle these over cheese mixture.

Cover with the mixed vegetables. Arrange egg quarters attractively on mixture, then add rest of cheese mixture. Sprinkle remaining 1/4 cup grated cheese on top.

Place under broiler to brown lightly. Makes 3 servings.

A Devotional For The Day

Be ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you. (Ephesians 4:32.)

PRAYER: Our heavenly Father, we thank Thee for Christ, who gave His life for us as a ransom. Teach us Thy lovingkindness so that Thy kingdom may enter our hearts. Through love make our earth a paradise for Thy honor and glory. For Jesus' sake. Amen.

(From the 'Upper Room')

In Reflected Honor

Once again, our city stands in the reflected honor earned by our young people.

Last Saturday, the students of the high school and junior high schools made a big mark for themselves and their instructors by winning 45 top ratings in the regional solo and ensemble music contest. In addition, they brought back a basketful of Division II honors, which is an enviable mark in itself.

With this fine showing, competing with 48 other schools in a field of 1200 students, our youngsters earned the right to send 47 senior high students to the State Music Contest at Austin in June.

In the regional competition, there are five ratings possible in three classes. Big Spring musicians garnered more than their share of the upper categories.

These honors point up the excellence of the music program in the schools here, the hard work of the instructional staff, and the foresight of the administration and trustees in keeping the program geared to a high level.

The quality of local band performances is certainly no secret to those who attend the periodic concerts offered here. But having the experts recognize it too, is icing on the cake.

Look Out, It's Almost Here

No need to look at the calendar, just look on your family grounds for a bit of green here and there. It won't be something left over from St. Patrick's Day, unfortunately.

More than any calendar, those bits of green represent the advance vanguard of spring. And if your luck is no better than ours, the green may be the leaves of crabgrass, rather than the lawn you nursed to luxurious growth last year. All of which is to remind you that the growing season is upon us and it's time to clean away the debris of the long winter months,

and make way for the fruits of spring and summer.

In a few short weeks, various civic groups will be urging you to clean up, fix up and paint up. And an early start will make the job all the more easy. Indeed, your chances for a beautiful front yard, a blooming flower bed, or an abundant garden may depend on how soon you shake off the drowsiness of winter and pitch in to the work ahead.

It's a program in which all of us can participate and enjoy together, as it makes our city a more inviting place in which to live.

David Lawrence

The Other Side Of The Question

WASHINGTON—Congress has by law required that "equal time" be given to rival candidates during a campaign, but very little, if anything, has been done to correct the unfairness that exists today in the period prior to actual beginning of the campaign.

When the three nationwide TV networks permit their facilities to be used simultaneously for a political talk by the President at any time, should an opportunity be given to the other side to present its viewpoint to the same audience?

MANY SURVEYS show that, long before either national convention is held, somewhere between 70 and 80 per cent of the voters make up their minds which party they will support, and sometimes even about possible candidates.

The politicians concede that what is being said today is far more important in many respects in influencing the votes in the coming election than what may be said after the campaign formally begins in July.

NOBODY CAN quarrel with the right of the President of the United States to speak to the American people on any subject, whether or not it has political implications. President Johnson in his hour-long talk over three radio and TV networks on Sunday evening covered many subjects, both political and non-political, and it was a good presentation. The President increased his political strength by the answers he made. He is indeed one of the most effective campaign speakers prior to convention time that has been seen in many a year.

But however good an impression the President makes, it doesn't advance the cause of fairness in American politics if the opposite side doesn't have equal opportunity to present its case before the very same audience.

ON THE SUBJECT of the "Bobby Baker case," for instance, Mr. Johnson was rather generalized in his statements, and certainly the opposition would have presented far more pointed questions than did the three newsmen who were on the panel with Mr. Johnson.

One of the newsmen asked the President whether he intends to make "a few old-fashioned, non-political conversation tours or inspection tours" in the near future. This was a reference to the obviously misleading use of the term "non-political," which was begun by the late President Franklin D. Roosevelt, who used to campaign for re-election by making "inspection tours" at government expense. Mr. Johnson has been making some of these tours and attending political dinners at the same time. Many voters

argue that public funds for travel should not be used for campaigning, directly or indirectly.

ANOTHER interrogator requested that, "while we are on politics," the President give his analysis on the New Hampshire primary. Mr. Johnson's answer was not itself as significant as the fact that he was able to give his evaluation of Henry Cabot Lodge, which some voters will feel was not entirely "non-political." Even on the subject of foreign policy, the President had an opportunity to answer some of his critics, but no such nationwide audience will hear the opposition viewpoint in rebuttal.

On the matter of civil rights, the President had a chance to make a very extended campaign speech. It is, of course, a piece of legislation currently pending before Congress, and nobody would deny the President the right to speak about it. But it is a controversial subject, and there are two sides to it.

MR. JOHNSON discussed the process by which a vice presidential nominee will be chosen. He declared that he does not think it wise for Attorney General Kennedy to participate at this time in a campaign for the vice presidential nomination. Whether or not this is desirable from the President's standpoint, it is a definite political subject on which another side might have been given an opportunity to be heard. There are many people in this country who do not think the presidential nominee should choose his running mate any more than they believe that a President should name the vice president when a vacancy occurs, as is now being suggested. It's a growing issue.

THERE IS NOTHING more important to the operation of a representative system of government than for the people to hear all sides in public debates. Failure to give equal prominence to an opposition viewpoint on Sunday over the three networks to the same audience was a dramatic illustration of an advantage enjoyed by an incumbent President in getting his political utterances before the American people that is not offered to the opposition side.

Billy Graham

Where is the joy Christians talk of? I hear you speak of the joy of following Christ, but I have only experienced it on a few occasions. Honestly, I want to know. Where is this joy?

Where is the joy Christians talk about? I saw it on the faces of the widows of those missionaries who were killed by the Auca Indians when they were taking Christ's message to them. I saw it in the face of Betty Eliot, the wife of one of those men, who went back with her little child to evangelize the tribe that killed her husband.

Where is this joy? I saw it recently on the face of Fernando Vangioni, who suffers from crippling arthritis, but travels in great physical pain to the cities and jungles of Latin America, because he believes that Christ is the answer to the anguish of the human heart.

Where is this joy? I saw it in the face of Tom Allan, one of Britain's greatest preachers, who in the midst of a coronary thrombosis, smiled and said: "Through this God is getting me ready for a larger ministry."

I saw it on the face of Dr. William Sangster, who, while dying of atrophy of the muscles, said: "Billy, go tell everyone that I said Christ is equal to every crisis, and that it is more blessed to serve Christ with a broken body, than to be well without Him!"

'AND SOME DIPLOMATS CALL THIS NORMAL'

James Marlow

Pattern Is Pretty Clear

WASHINGTON (AP) — The pattern of Lyndon B. Johnson's presidency in 1964 is now pretty clear. The pattern includes preparation for the supreme test of his life: Election to the presidency on his own.

This is it. At home he cautions: seek the broadest public appeal and approval; don't give the critics ammunition; be plain, humble, and homey.

Abroad: Be nice, pleasant, but stiff.

HE SHOWED what he was aiming at in a recent interview when he said he wants to be a "people's president." Whether in the long run all this is good leadership or just accommodation to public mood remains to be seen.

As of now Johnson, who succeeded to the presidency without winning it, seems certain of the Democratic nomination. Would-be Republican presidential candidates trail him in the polls.

Hal Boyle

There Are Compensations

(Substituting for Hal Boyle)

WASHINGTON (AP) — I've switched from cigarettes to pipe smoking. If the national production of matches and lighter fluid keeps steady, I think I might make it stick.

Keeping the pipe burning requires so much time and concentration I've scarcely given a thought to cigarettes.

Besides, a variety of compensations have come to light. For example:

There's a strong camaraderie among pipe smokers. They freely swap tobacco and pipe cleaners—and they welcome a novice as though he were a lodge brother. Generous with advice to neophytes, they even offer tips on pipe smoking by wearers of false teeth, which I have escaped so far.

I've regained a measure of youth in the eyes of my daughters, who say: "Dad, you look positively collegiate."

I had been a cigarette smoker for about 30 of my 54 years when the report of the surgeon general's committee finally prompted me to try to quit.

I had been reporting scientists' treatises on the health hazards of cigarette smoking for years without giving up cigarettes.

In fact, some of my heaviest smoking has been done while writing such stories.

When the words wouldn't come the way I wanted them to, it was comforting to light a cigarette and inhale deeply. Maybe, too, there was an aspect of having something to do with

temporarily idle hands. Maybe chewing on a pencil would have had the same effect.

At any rate, I've found a pipe to be such a pacifier.

I've picked up some tips about pipes and the art and science of pipe smoking.

Here's a rundown: Keep your new pipe clean, but you'll never really enjoy it until you build a layer of carbon inside the bowl.

You'd do well to line up a stable of pipes—one for every day in the week — to assure keeping all of them cool smoking.

Don't rush your smoking; and don't chain smoke. If you do, you'll wind up with a tongue that feels like red ants had been at it.

Never inhale — you'll blow your hat off.

You can never hope to get over that ceaseless match-scratching. It's just a cross a pipe smoker has to bear. However, with practice, you'll develop a "smoking rhythm" which will help you keep the fire lit.

However, your pipe has other advantages beyond smoking pleasure. In subfreezing weather, it provides a bit of heat for the nose; and, cradled in the hand, it can prevent frostbite.

If you want to cheat — and still masquerade as a self-disciplined soul — a cigarette crumpled up and shoved into the new pipe's bowl tastes just like a cigarette.

ceded to the presidency without winning it, seems certain of the Democratic nomination. Would-be Republican presidential candidates trail him in the polls.

Thanks to his tactics, their criticism of him has been weak. Mostly, they've been thrashing around among themselves. It may be different next summer when Republicans pick their candidate and the campaign begins.

Last year Congress, after whittling, permitted exactly \$3.4 billion, including \$400 million in carryover money. So Johnson is not asking a dime more. Republicans and the economy-minded can't find much to criticize there, unless they want to abolish foreign aid.

JOHNSON has cultivated both business and labor, praised free enterprise, offered an anti-poverty program, backed civil rights, and is all for medical care for the aged.

That covers a lot of the population, most of them voters. Southern whites may get mad about civil rights but there may not be much heat on the rest, particularly since Congress may not act on them this year.

Johnson has been proper but stiff with Premier Khrushchev, hardly an unpopular performance in this country. Even in the dispute with little Panama, Johnson has managed to deprive Republicans of much to criticize.

THEY WARN against making concessions under pressure. Johnson wasn't under any crisis pressure about Panama but he leaned over backward to avoid any appearance of conceding anything.

His chances for big mistakes are far greater in foreign affairs than domestic ones. His experience was all domestic, not foreign. Understanding American politics is not the same as sensitivity to other peoples.

For instance: While Johnson may have seemed pleasantly firm and unbending to Americans on Panama, he angered Latin Americans by the way he handled it.

Around The Rim

May Be Worth The Wait

Apparently the city budget is in shape for another year with only the stamp of approval needed to put it into effect. A cursory glance reveals little to find quarrel with, since the matter of the payroll will not be considered. With the exception of the city manager's salary, apparently other paychecks will remain the same until a special study can be completed concerning job classification. And although the various city employees will not get immediate relief, at least there is the promise of some consideration when the study is completed — and the proposed budget can stand about \$40,000 in pay increases.

IT ISN'T going to take that study to reveal that the city employees, for the most part, are underpaid. But the study should pinpoint where the inequities are the greatest, and I suppose these will be the first to feel the benefits. Moreover, this study will be a continuing thing. If placed properly into operation, the salary situation of the city will be constantly reviewed and revised keeping the pay scales in step with industry and other cities.

At best, the city's pay scales in the past have been a matter of falling way behind, then catching up about half way. Few departments can boast of having comparable wages with that of industries in the city; or of neighboring cities.

AS IMPORTANT, the job classification study will indicate where some departments may be short of enough people to adequately handle the responsibility. By the same token, some

departments may have too many people. I suspect there will be instances of both.

Inevitably, there will be many employees disgruntled that they were passed over at budget time; indeed, there are such rumblings evident now in some areas. However, I think the special study now being done will prove quite valuable to the average city employee. It is not a one time consideration, but a system from which he will benefit each year—keeping him abreast of current trends.

IT WILL BE of value to the taxpayer as well. A system that will encourage employees to stay at their posts, rather than seek higher pay elsewhere, is certain to provide wider coverage from the tax dollar. It is expensive to train employees, only to have them take this training elsewhere for practice. Perhaps the study can prevent this, to a large degree. Adequately paid personnel are not prone to move on.

Nor does higher pay for city employees necessarily mean higher taxes. Higher pay also means better trained people can be obtained who can do the jobs better than, perhaps, two less able people. This savings continues to return to the taxpayer each day.

SO PAY SCALES are not a question at budget time this year. But the money is available when the pay scale and job classification study is completed this summer. I believe it will be worth the wait for most city employees. —V. GLENN COOTES

Holmes Alexander

Canada, Cuba And Panama

WASHINGTON — The saying attributed to Theodore Roosevelt, that everybody makes mistakes but only a fool makes the same one twice, could well be inscribed above the portals of many public buildings of the nation's capital.

In a year when we are smarting from the mistakes of Cuba and Panama, we seem about to make the same sort of error in the instance of another Western Hemisphere neighbor—Canada.

THE WATER supply for our Guantanamo Bay Navy Base lies in what used to be the friendly nation of Cuba. But nothing is more changeable than international friendships, and now we are forced to seek a self-sufficiency in water because the Cuban government has turned hostile.

Luckily, we are able to do this because Gilmo is no bigger than a village, and because we have remarkable facilities for meeting the emergency. But what if Gilmo were the size of New York City? And what if the water hole, instead of being only a short stroll away, were 1100 miles distant and lying in a wilderness?

THESE STAGGERING conditions will come into being if a pending deal relating to a Canadian water source goes through. With the fervid approval of our State and Interior Departments, the Consolidated Edison Company is negotiating with a Canadian firm to buy electrical power that will be generated by a dam at Hamilton Falls, in the fastness of Labrador. The Con Ed company supplies much of Manhattan with light, heat and air-conditioning. What's going to happen if, ten years from now, a Canada-first ministry, like John Diefenbaker's, be-

gins to regret its bargain for the Yankee dollar?

SUCH REGRETFUL afterthoughts would not be novel in Canadian-American relationships, as cordial as they have generally been.

I have talked with a spokesman of the Con Ed company, who says that his firm would have a solid contract with a private enterprise concern in a nation which has always honored its pacts. The statement is indisputable, but it would be more reassuring if the example of Panama, and of other bits of history, did not clamor out a warning.

WE HAVE a contract with Panama too. We are under a treaty obligation to make generous payments "in perpetuity" for exercising the national necessity of operating and protecting the Canal. But we know now, and many who have watched the situation closely have known for many years, that it's been a mistake to regard this treaty as the paramount factor in our relations with Panama.

Well, Hamilton Falls is a national asset to Canada, a cascade of spectacular beauty and utility. Its height is 245 feet, which compares with the 167-foot drop of Niagara Falls on the American shore. The New York Times of last January 12th estimates that the Hamilton Falls potential output of electrical power is a prodigious 20 million kilowatts.

I WOULDN'T want to bet that Canadian national pride, like Panama's, won't be a paramount factor in future relations over this possession. And I doubt if the American government, with Cuba and Panama in mind, ought to bet that way, either.

(Distributed by McNaught Syndicate, Inc.)

Richard Starnes

Johnson's Folksy Approach

WASHINGTON—Those in the craft of gathering and interpreting news would doubtless have liked to see a few more flashes of fire during the President's folksy conversation with three television reporters on Sunday.

They would certainly have welcomed more candor in his discussion of the disenchantment between him and Attorney General Robert Kennedy, and some might have been hoping for a headline describing the nasty surprises we have in store for the North Vietnamese.

BUT NEWSMEN'S likes and dislikes butter few parsnips for a man facing a Presidential election. Lyndon Johnson was using an immensely powerful medium in a homespun format that suits him ideally—and he made the most of it.

His sincerity and dedication could not be doubted, even in rambling locutions that occasionally reminded one of the finest tangled syntax of the Eisenhower Administration. He showed — to a degree that must dishearten contenders for the G.O.P. Presidential nomination — a great deal of the old shoe magic that got Harry Truman elected when all the experts had long since counted him out. LBJ, for all his rugged good looks, is not as handsome as Henry Cabot Lodge; he is not as quick-witted as Richard Nixon, nor as rich as Nelson Rockefeller. But the impression grows that he could lick all three in the same evening.

A PERCEPTIVE oracle of the female persuasion, consulted immediately after the President's interview was concluded, had this to say—

"He's not flashy, but he is honest and sincere, and he knows what he's talking about. People are going to trust him. I liked his sense of responsibility about Cuba and Viet Nam. He's right—nobody wants to see a war start. I liked the idea that he was wise enough to know that we couldn't make everyone in the world do what

we want them to do. I hope Goldwater was listening to him.

"I'LL TELL YOU another thing—I liked his concern for people who are not well off, and I felt in my bones that he really meant it. He's going to do his best. I just wish he wouldn't work so hard."

It is, to be sure, dangerous to generalize from one off-the-cuff reaction. But it is no more than reasonable to suppose that the one female vote Mr. Johnson tucked safely in the bank was duplicated many times over throughout the land Sunday night.

IT IS POSSIBLE that the political pros (that is to say those who make bum guesses for money) would say the President's fervent peroration as genuine cornball, but one viewer's guess is that the people who elect American Presidents found it moving, reassuring and believable.

For all his dedication to the homely virtues of peace, fiscal responsibility and patience in the face of travail, the President's sure political instinct told him that standpatism was a luxury he could not afford. He said he wanted to be a progressive "without getting both feet off the ground," and he was canny enough to give substance to what might otherwise have been a meaningless platitude by allying his message to Congress outlining his program for making war on want.

IT IS HARD to flaw his performance, except in minor detail. He shouldn't squirm so much, he ought to try smiling more often, and, having chosen an informal format, he might have found profit in being a little less wary and a little more relaxed.

Americans have outgrown the galus-snapping, thigh-thwacking school of politicians. But they like a man who talks to them as equals (witness again Mr. Truman), and this is a valuable fact that President Johnson seems to have learned.

EDDIE'S TEXACO AT MARCY AND BIRDWELL
Texaco Products and service are top features to keep customers

Eddie's Texaco Station Features Custom Service

Texaco Fine Products and service are featured at Eddie's Texaco Station at Marcy and Birdwell Lane. Cecil E. Harris, owner, says courteous service and top products bring customers back.

In fact, he was the first Texaco station owner in Big Spring to receive Texaco's Star Dealer award which reads: "Texaco Star Dealer Award for integrity and service to customers. In recognition of his service to the motoring public Cecil E. Harris is named Texaco Star Dealer in accordance with his pledge to serve his customers with integrity and to provide them courteously with the high quality of service that made him worthy of this award."

Eddie, who was a salesman before taking over the station, attended two schools before he opened. One was the Texaco Training School which he attended for five weeks. He is also a graduate of United Delco's basic tune-up school.

"We handle Texaco products first," he said, "but along with these products goes service which includes the custom wash jobs, Marfak lubrication, complete brake jobs, including installation of shoes, and adjusting; repair any size flat and put on new U. S. Royal tires; install mufflers, tune up engines, and service electrical systems; install stock shock absorbers in the Columbus line (the first to be guaranteed for 24,000 miles); wheel balancing; new windshield wiper blades; radiator hoses; air filters; fan belts, and service starters."

en with the sale of products and shock absorbers, wheel bearings, universal joints, and cooling system. We invite the owners to have a look at conditions found under their vehicles. We raise the vehicle up where we

"After five p.m. we feature a free safety check for our customers," he continued. "This includes inspection of the exhaust, raise the vehicle up where we

can walk under it and see everything." Road service, including free pickup and delivery of cars for servicing, is available.

Harris has been a resident of Big Spring for 20 years. He has two full-time employees, both trained in their work. They are Richard Bain, a native of Big Spring, and James Hinson, who attended the Howard County Junior College mechanic's school.

"We invite Big Spring car owners to give us a trial," Harris said. "Our service is stressed at all times, and customers receive that extra bonus in stamps for what they purchase."

Have difficulty finding a place to park to do your banking? You won't find this difficulty at Security State Bank. There is off-street parking front, south, and rear, and two handy drive-in windows for making deposits from your car. The Fifteenth and Gregg Street location was chosen for this convenience.

The "Banking with the Personal Touch" was uppermost in the minds of Security State Bank officials when the building was located, and the motto is "It's Easy to Do Business With Security State."

Courteous personnel and officials are conveniently located on the first floor to discuss problems with customers, and advise them in business financing. Their experience is available when considering a move, remodeling, refinancing, building, farming, ranching, or other matters.

Security State has micro-filmed all checks cleared through the bank for a long time. This guarantees proper recording for future reference. It is a permanent record that will legally stand up in case the cancelled check is lost, or there is a question about what

may have been written on it. Safety deposit boxes are available for customers who have valuable papers, or other items, which need to be placed in a safe vault. This is to relieve any anxiety over their security.

Personalized checks are made available to Security State's customers. They may carry a photograph of the depositor, if he wishes, and they carry a coded account number to protect the depositor against fraud.

The all-year temperature controls in the building make banking a pleasure during the coldest part of winter or the hottest part of summer.

Security State Bank welcomes you at any time, whether it be problems on which you need help, or funds to place in savings accounts to draw interest.

Piggyback Service Growing Yearly
Piggyback shipping over the nation's railroads has become more popular over the past few years. It is saving shippers millions of dollars in cost, time, and wear and tear on former equipment, as well as insuring safe delivery.

Texas and Pacific Railway's streamlined flatcars and multi-decked, extra-length Trailer Train cars, are speeding over thousands of miles of rails every day.

THE SIGN OF SERVICE
It's easy to do business inside

Banking With Personal Touch Found At Security

Have difficulty finding a place to park to do your banking? You won't find this difficulty at Security State Bank. There is off-street parking front, south, and rear, and two handy drive-in windows for making deposits from your car. The Fifteenth and Gregg Street location was chosen for this convenience.

Yard Lights Cost Little

The modern yard or security lights, seen around business parking lots and homes can be furnished by Texas Electric Service Co. at nominal cost.

These lights are becoming more and more a necessity to provide adequate lighting in areas where darkness may draw undesirable activities by prowlers.

There is practically no danger of burglaries or thefts from parked cars, business houses, or homes, where adequate lighting is provided. The lights may be installed on your own pole or you may have one set.

Call Texas Electric Service Co., AM 4-6383, for information about this valuable protection.

Burma Established As Socialist State

RANGOON (AP)—Two years of military rule has firmly established Burma as a socialist state.

Gen. Ne Win's rule is stern but not fatal. Those defying his authority are not shot or tried but are kept under "protective custody."

Ne Win's purposeful drive toward socialism and the determination of his 14-man revolutionary council have not won cheers from the easygoing Burmese. Ne once told an ambassador: "After 15 years of political misrule, the Burmese have lost their sense of purpose and are prepared to let things slide. Now is the time to tighten our belts, girdle our sarong and get down to work."

This the Burmese have found hard to take.

For instance, Ne Win doubled yearly loans to farmers to \$60 million this year, then warned that every cent would have to be repaid. In the past, loans to farmers were usually written off.

New discipline imposed on Burma's civil service has brought about some results, but morale has dropped.

Horse racing and other forms of gambling have been banned and those found breaking the rules are dealt with severely.

Socialism has disrupted normal channels of trade resulting in shortages. Curtailment of private trade has caused a shortage of jobs. The press is expected to toe the government line.

Ne Win's purposeful drive toward socialism and the determination of his 14-man revolutionary council have not won cheers from the easygoing Burmese. The bidding:
South West North East
1 ♠ Pass 2 ♠ Pass
2 ♥ Pass 2 ♠ Pass
3 ♠ Pass 4 ♠ Pass
Pass Pass

Opening lead: Two of ♠
It has been said that the toughest defenders rarely false-card. But a false card may be effective if it can't possibly fool partner but might fool declarer. In today's hand East seized the opportunity to make a seemingly innocuous false-card which posed a problem that declarer couldn't solve.

The bidding, which followed routine lines, caused no comment except that North might have tried three no trump over South's three spades in an effort to explore the best contract. There is little doubt, however, that the final contract would have been the same.

West chose the unbid suit as his opening shot, which was properly ducked in dummy and

East won with the queen. Declarer stepped up on the heart return and attempted to sneak thru his singleton club. West rose with the ace and returned a diamond, East winning and exiting with a second heart.

Since the defenders had book in, declarer couldn't afford any loss in the trump suit. But, with five trumps to the king-ten outstanding that prospect was none too bright. However, a low trump was led thru East who innocently followed with the seven spot. Declarer inserted the jack which held the trick when West followed with the four spot.

Entry to dummy was regained with a diamond, and this was the problem that confronted declarer. The missing trumps were king, ten, and six. The king was marked with East and apparently the six was marked with West. Therefore East's holding could only be king alone or king-ten. If it was the latter East had a sure trick. If it was the former, a low lead would pick up the king and dummy's queen would then pick up West's ten. Declarer led low and when East produced the hidden six spot the defense had a sure trump trick.

Notice that had not East false-carded on the first lead of trumps declarer would have had an even chance to pick up the trumps without loss. On the second lead of trumps he could lead the queen thru East picking up the king and ten in one fell swoop.

Buried Treasures Of Fabled Past

ROME (AP)—After 20 to 30 centuries, Italy's greatest goldmine is still the buried archaeological treasures of its fabled past.

The take each year is fabulous—in priceless finds for museums and hundreds of thousands of dollars in contraband for smugglers.

LOST COLONY
Found in the past few months have been the long lost Greek colony of Sybaris, whose dancing horses led to the downfall of a luxury-loving populace, and the mystery mummy girl of Grottarossa whose body after 1,800 years still is scented with the perfume of an unknown art of embalming.

Still sought were Spina, last mystery city of the long dead Etruscans, a Rosetta stone clue to translation of the still unreadable Etruscan language, and relics of the Greek war fleet that sank 2,376 years ago at Siracusa (Syracuse) in the greatest naval defeat in history.

LAW
Under Italian law all archaeological objects—the old or the newly discovered—are property of the state.

That was prompted by necessity. A few centuries ago noble Roman families hauled away statues and whole buildings of ancient Rome to decorate their villas.

In far southern Italy aerial photographs finally disclosed the outlines of what Italian archaeologists are convinced is long

lost Sybaris. Digging has just started.

Sybaris was the Greek colony whose late to bed and late to rise habits made Sybarite a synonym for voluptuous living.

DANCED TO DOOM
It was founded by the Greeks in 720 B.C. and was danced to doom 2,500 years ago by its performing horses.

The Sybarites had trained them to dance to music as entertainment at the nightly wine fetes. When Sybaris was attacked by its poorer and weaker neighbor Croton, the Crotonians won by a trick.

When the famed Sybarite cavalry charged their infantry ranks, the Crotonian band played dance music and the charge broke into chaos as the Sybarite horses pranced and pirouetted to the tune.

The latest major find was the mystery mummy of a girl of 7 or 9, dug up amazingly after 18 centuries at Grottarossa, just north of Rome.

EMBALMING
The embalming process, with a fluid still fragrant after the centuries, is believed to be Oriental or Egyptian. The theory is that the child was the daughter of a Roman consul in the east, that she died there and

was embalmed so that her body could be brought home for burial. American archaeologists, particularly from Princeton University and the University of Pennsylvania, have taken a prominent part in the excavations in Italy.

Texas Has Big Stake In Aero Space Projects

AUSTIN (AP)—Texas has a big economic stake in the civilian space programs, a Texas business survey says.

The state can expect as many as 10,000 new jobs by 1970 in the aerospace industry, with civilian space projects the most likely source of the increase, the study by Robert Williamson of the University of Texas Bureau of Business Research said.

Commenting that defense spending for missiles and aircraft is expected to drop within the next few years, Williamson said Texas probably will not be affected by the decline during this decade.

"Assuming a continued decline in the nation's military aerospace requirements," he said, "the principal factor which might support long-run growth in Texas aerospace activities is the possibility of new civilian space programs."

"Texas is favorably situated with respect to the 'golden crescent' of the Gulf Coast area, which contains most of the key NASA installations." The aerospace industry—aircraft and electronics, chemicals and components used in missiles—employs about 50,000 in Texas, making it one of the

Well, It's A Little Late Now

If Mrs. R. N. Adams, 1209 Dixie, or her son, Paul, who lives in the Soash community, have any need for the things, Mrs. Zirah LeFevre, county tax assessor-collector, has a spare car tag for them.

Some time ago, Mrs. Adams and Adams were issued license plates DJ 1238 and DJ 1237. Tuesday Mrs. LeFevre's deputies pulled out two plates. One was a DJ 1238 and the other DJ 1237. How the error developed and the two spare plates happened to be printed is not explained.

Mrs. LeFevre said she would send the off-beat license tags back to the Highway Department.

Justice Writes Footnote To Crimes Of Auschwitz

By LOYAL GOULD
FRANKFURT, Germany (AP)—Slowly but faithfully, justice is writing its meager footnote to the incredible story of Auschwitz—nearly 20 years after it became a symbol of Nazi barbarity.

NEW ASPECTS
New aspects of the Nazi concentration camp in Poland, where four million to five million persons perished, are being revealed bit by bit to the German people and the world.

The scene is Germany's largest war crimes trial, against 22 Germans who were

SS guards or functionaries at Auschwitz during World War II. Since it began last December the trial has boiled down to a relentless account of atrocities. Judge Hans Hofmeyer often pales with revulsion.

The defendants listen impassively, now and then scribbling notes for their attorneys. Confronted face to face with a witness who recognizes them after so many years, they indignantly insist the witness has confused them with someone else.

ON ORDERS
Their defense rests mainly on one point—"What I did in Auschwitz, I did on higher orders."

German historians testify that SS guards could do practically anything they wished with prisoners since Hitler's concentration camp system was built to rid the world of what Nazi ideologues considered inferior people—Jews, Slavs, gypsies and others regarded as unfit to contribute to Nazi Germany's glory.

The German press has given the trial extended coverage, at times highlighting gruesome details that otherwise don't find

their way into the pages of family newspapers.

20 YEARS
Why did it take almost 20 years to get the Auschwitz trial rolling?

The force behind the trial, Fritz Bauer, chief prosecutor in the state of Hesse, is himself a veteran of Nazi concentration camps.

He says part of the difficulty in preparing the case stemmed from the early postwar period when the Allied victors held war crimes trials and then shipped Nazi archives to Washington, London or Moscow.

Since this country is organized on a federal basis, coordinated work was difficult. Persons lacking enthusiasm for further exposes of the Nazi era found it possible to hamper investigation and pass the buck from state to state.

FRIENDS
Many West German police officials are old colleagues or friends of persons suspected of crimes against humanity.

The trial, expected to run about a year, took four years for Bauer to prepare. During this time, 1,300 people were heard in pretrial investigations.
