C-City Fly-In Plans Include Prizes & Breakfast

Plans for the eighth annual Fly-in at the airport here have been completed by the Chamber of Commerce Aviation Committee with the event set to begin at 7 a.m. Sunday, June 30.

First Fly-in program with Colorado City as host was staged in 1961. Each year since, between 50 and 60 visiting private planes have landed at the airport bringing as guests flying fans from as far away as Amarillo and Ft. Worth, and from most area cities.

Traditional chuck wagon breakfast is a major feature. Breakfast will be served from 7 a.m. until 9:30 a.m. In charge of the food service and menu to be served are Dr. Elton Berkman and Gerald Gordon. Bacon and eggs, hot chuck wagon breakfast, coffee, and milk will be served with butter and jelly.

Tickets for the breakfast are \$1.25 each and may be bought from any member of the Aviation Committee or at the Chamber office.

"Everybody is invited to come out and watch the planes land and see the Sky Divers' stunts, whether they buy breakfast tickets or not," said Sekon Pickens, Chamber manager, Wednesday.

Sky Divers Club of Odessa will again stage their aerial show at the 1968 Fly-in. An additional feature will be the arrival and take-off of a group of miniature, handcrafted private planes from two midjet plane clubs at Arlington and Ft. Worth. Some of the home-built

midjets are powered by Volkswagen engines and all seat just one passenger — the pilot. The midjet delegation.

City To Buy Rotary Beacon For Airport

Colorado City Council has approved the purchase of a new rotary beacon light to be installed by the city at the local airport.

The new rotary light will be bought from Crabtree Electric Co. of Crabtree, City for the low bid of \$800. Installation charges will be in addition to the purchase sum.

Motion for the purchase was made by J. C. Brown and was seconded by Edna Pineda during a Monday night meeting of City Council at City Hall.

Members of the Council also gave vocal approval to a proposal submitted by Mitchell County Utilities Corp. The corporation, in the process of installing a new water system for Lake Colorado City cottages and camps proposes also to service additional customers within an area bounded by State Highway 163, Lake Colorado City and Interstate 20.

Additional rural homes to be served with treated water, sold by the city to Mitchell County Utilities Corp., lie in the area between the filter plant and the lake but do not necessarily have lake frontage, said City manager J. A. Sadtler, Jr.

In other action the Council voted unanimous approval of a transfer of money from the Lake Fund to the General Fund in the amount of \$6,808.47. The transfer was made to cover the cost of a new water crossing over Lone Wolf Creek in Ruddick Park.

Work on the crossing, recently completed, raised and widened the creek bridge adding more than three feet of water to the duck pond in the park. Park expenditures are paid from the General Fund and to which the amount was transferred from the Lake Fund on motion of C. G. Harkins, seconded by R. J. Hoback.

Dr. W. K. Cowan, city

physician, was reappointed by City Council to a new two-year term to begin July 15. Salary was set at \$50 per month. Motion for the reappointment, made by Mike Barr, City J. C. Brown seconded, was passed.

Mr. Barr also voted to ask the City Council to get in touch with Mrs. Corley, Reeves, concerning renewal of her contract for the 160-acre water well field.

City fathers are preparing to lead the way this week in the downtown improvement project.

Cokcrete trim around City Hall is to be repainted in "off-white" to brighten the exterior of the building.

Jimmy Harrison has the paint job contract and was to start Wednesday.

Other recent improvements at City Hall include new wood paneling in Council conference room. The four-foot paneling was installed to the wainscoting

height. Panel is also complete in the new office of the city manager and offices of secretary Mrs. Rip Wallace. Sadler now occupies the southeast office in the front of City Hall with the city secretary's office. In the joint rooms formerly occupied by the school tax office, Zaniel, of Police Jesse Browning, has moved his office in the north of the building. Bud Dean, first lieutenant of police, has moved his office in the basement.

Loraine Thefts Reported To Sheriff Here

Three Loraine residents have notified Mitchell County Sheriff's Office of theft or attempted theft upon their business or autos.

All incidents occurred late Saturday evening, June 8, or early the following morning.

Bon Furrow reported a car stereo and about 8 tapes were taken from his 64 Ford Falcon early Sunday morning. Furrow said he left his locked car at the Dona-Lin Drive in after shows Saturday and returned at approximately 1:30 a.m. to find the property missing.

He values the four- and eight-track stereo unit alone at about \$70. Most of the tapes were in a bag on the

floorboard of the hardtop. Furrow's theory is that a clothes hanger must have been slipped between the window and the insulating rubber to unlock the car.

Perry Bond, manager of the Dona-Lin Drive in, alleges that an unsuccessful attempt to enter the theater's building was made Sunday sometime after 12:15 a.m.

Entry into the building was not gained because "they just didn't have enough tools," Bond stated. He said that a board had been broken from the doorway and that there was evidence that a screwdriver had been used in trying to pry the door open.

Mother On Pilgrimage Mrs. Jim Nunn To Visit Son's Grave

Twenty-four years after his burial there, Mrs. J. P. Nunn of Buford will visit the grave of her son, James Edward, in the National Cemetery of the Pacific in Hawaii.

With her on the trip to Hawaii is her daughter Mrs. Malcolm Mayes of Arlington. The mother and daughter left June 8 from Dallas

for Los Angeles. Lt. Nunn lost his life in World War II while "flying the hump" in the Indo-China area as pilot of a P-38 fighter plane.

Shot down while on a mission, he was reported missing in action from 1942 until 1944 when his plane was eventually located in a dense jungle area. Burial followed in the National Cemetery at

Hawaii.

The trip to Hawaii, for Mrs. Nunn was long planned by the family for her and her husband, the late Jim Nunn, who was fatally injured in an automobile collision earlier this year.

Mrs. Nunn and her daughter are participating in the Ft. Worth Star Telegram Hawaii Tour of two weeks.

Mrs. Nunn And Daughter In Hawaii

Mrs. J.P. Nunn of Buford Community, Colorado City, and her daughter Mrs. Malcolm Mayes of Arlington left Dallas Saturday for Los Angeles where they embarked for Hawaii. While there they will visit the grave of James Edward Nunn, World War II pilot who lost his life in the Indo-China theater.

Vest Directs White Sox Victory

The White Sox held determinedly to their leading position in the Junior Teen League Monday night, mauling the Lions 12-2. Earlier in the evening, the second place

Colts stamped the hapless Braves 17-5.

White Sox vs Lions
Versatile Steve Vest led his teammates to a sweeping victory over the Lions.

Whether his performance as a hurler or a batter looked best Monday would have been good material for an undecided argument.

Vest pitched a one-hitter,

throwing only to 18 Lions in five innings.

At the plate Vest couldn't miss. Three singles and a double (all one on the first pitch) enabled him to score

three times but had one hit. The 2 Lion scores were made in the fifth frame by Joe Clark and Larry Williams.

Pitching for the Lions were Randy Wright, Carl

Devore and Clark. **Colts Beat Braves**
It was a colt game from beginning to end, as the victors out-swung the Braves 17-5.

Jerel Lynch and Bill Dockrey each captured two hits and four runs in their efforts to raise the Colt score

to an astronomical sum Monday. John Lelak and Ruben Molina were two other top Colt sluggers with a couple of hits and two runs apiece.

It was also a holiday for Mike Carney, who cracked two singles and a double. The Braves didn't have it

so easy, but their most successful man at bat, Larry May, bagged a double and three scores.

Winning pitcher was Molina, with Lynch relieving in the fifth. Throwing duties for the Braves were shared by Tommy Guetker and May.

Senior Teen League

The Snyder Clippers over-whelmed the Colorado City Reds 8-2 here Wednesday night to decide 1st and 2nd places in the young Senior Teen League season. Steve Holder was the winning pitcher; Randy Parker hulked for C-City.

The Snyder Jets eased in to third place among the four teams in the league after watching an eight-score surge against the C-City Blacks in the first inning. The game ended 10-0 after five innings. Mike Garrett and Jimmy Haggerton pitched for C-City the first two innings and Mike Hillhouse took over in the third. Mercy Hernandez was the winner.

Previous Games

The Reds blitzed the Blacks 10-0 in Colorado City's opening Senior Teen League game Tuesday, June 4.

Red pitcher Albert Lujan allowed only two hits during his five innings on the mound and struck out a total of twelve Blacks. All six Black batters of the second and third frames went down on strikes. Lujan was also high scorer for the Reds with three runs.

Randy Parker, the Reds' relieving pitcher in the sixth, also had a successful day at the plate. He was responsible for a double, a single, and two scores.

Red short stop Robert Bracy played the crowd pleaser, a home run in the third inning. Pitching duties for

The Blacks dizzily rotated between Mike Garrett, Jim Haggerton, Nathan Hoyle, and Randy Hillhouse.

Reds 1 — Jets 0
The Reds continued their opening winning streak with a 1-0 victory the Snyder jets here last Friday night.

Randy Parker was the big factor for success this time. Pitching all seven innings for C-City, Parker struck out 13 and allowed only one hit, and one walk. The only other Jet to reach base, losing pitcher Brad Morgan, did so because of a second baseman's error.

Parker proved equally important to the Reds at the plate. He managed to convert one of his two base hits into C-City's only score.

The only other two hits earned from Snyder's Morgan were made by Kenney Key and Albert Lujan.

Clippers 10 — Blacks 0

Colorado City Blacks fell to the Snyder Clippers last Friday night with a disastrous score of 10-0.

For a short time things looked promising to C-City after Dale Morris sent the third pitch of the ball game spiraling into right field for a triple.

But third base was as far as any visiting C-City player got Friday night. Singles, later in the game by Nathan Hoyle and John Medreno could produce no scores.

Snyder's Randy Levens and T. Holt were responsible for the bulk of the Clippers' scores, each crossing the plate three times. Levens singled once and doubled twice out of four triples to the batters box.

His last two bagger hit drove in the winning run, so to speak. The game was stopped in the fifth, in accordance to Senior Teen rules, after the Clippers had established a 10-point margin.

Winning pitcher was Tony Suttle, who was relieved by Jim Patrick, Jimmie Haggerton and Alex Roche hurried for the Blacks.

CONVERSATION CORNER

HELLO!

In case you've missed these wandering lines the last three issues of the Record it's only fair to inform you that Conversation Corner has not been on vacation. Not yet, at any rate.

On the contrary she has been living low on a bed of woe—a situation brought about by a twisted ankle. And a vacation is what a sprained ankle just aint.

That's one of the main troubles with this not-so-very-jolly old world.

Theoretically, ten days at home when the days grow longer and hotter sound fine. Theoretically, there would be time for watching the World Turn, eat ice cream, read and listen to records. Sit around in slacks and slides.

ACTUALLY, ten days and endless nights in company with a pain in the foot is not conducive to such a celebration.

In addition to misery in the ligaments there is the matter of manipulating crutches. Ever try to get a refill on a cup of coffee while navigating via crutches? It can't be done, friends.

In the first place, this gal has absolutely no talent for getting along with crutches. It would have been easier, methinks, to acquire a workable knowledge of the Russian language than to learn the art of dragging from bed to bath.

There are always things some people just can not do. Things like bone a chicken or a brook trout, paint a portrait, change a tire.

Topping the personal list of mission impossible for now is making progress with crutches.

FAVORITE characteristic in any human happens to be compassion. Feeling for others.

Following close behind that favorite characteristic is sense of humor. And this example is too good to keep.

By the time this writer was transported bodily to the clinic, she was glassy-eyed and almost incoherent.

That's how come it happened. The doctor asked with concern, "Where does it hurt most, Ruth?"

And his patient jabbered, "Oh, it's my chin, Dr. Heel!"

He just laughed and said kindly, "I've been called worse." And so to John Chin goes the FWTFP award of the week—Fellow With The Funny Bone.

Blessed be the man who can laugh, even in the face of a semi-leitrous insult!

KEPT recalling, all the sorrowful week just past, a favorite sonnet sequence by Edna St. Vincent Millay, mat-chless American poet.

She called it, you remember, "Epitaph For The Race Of Man." In stately sonnet form she reviewed man's courage, his resilience, his faith in the face of natural dangers.

Sonnet by sonnet she praised the race of man for his bravery in the battle against wild beasts, his come-back after natural disasters—earthquake, volcano, tidal wave.

In the final lines of the sequence Millay, who was a lifelong pacifist, made her idealism and her disappointment in the human race clear.

"You shall achieve destruction where you stand
"In intimate conflict at your brother's hand"

At this point her lines, written in the early 'thirties, would seem prophetic. Prophetic and true. So tragically, terribly, heart-breakingly true.

THE NEW Crime Commission, to be headed by Milton Eisenhower, will not find the answers in a study of social injustices, poverty, racial unrest.

The answer lies in a four letter word, HATE.

We've had it since Cain. The answer lies in the heart of men who flaunt the laws of this great nation and defy the laws of God—"Thou shalt love the Lord thy God . . . and thy neighbor as thyself . . . Thou shalt not kill."

One man with hate, in his heart. One gun. And hundreds of millions to weep and wonder . . . wonder and weep.

SEEN, not lately but just before the minor catastrophe, were: Dortha Hunter and her tall son Glenn . . . Porter Richardson . . . Blanche Bell.

Knee Deep In June

Out at the city-owned Ruddick Park there are flowers blooming, grass and trees and ducks on the pond.

This week, thanks to city officials, there's a sight even prettier than the bright flowers. It's the sight of little girls—Girl Scouts and Brownies.

Day Camp for Girl Scouts and their adult leaders is in progress each day from morning until after the lunch hour with crafts, nature study and camping arts the order of the day.

Thanks to the city the girls are swimming in Ruddick Park Pool every morning.

Thanks to Milton Bodzin and his wife Aline, now of Abilene, there are swimming and water safety lessons. Bodzin, former C-City teacher, has probably taught more C-City youngsters to swim, through the years, than any two dozen men you know.

Let's all thank him and Aline for their steady helping hands!

If you're counting on a new VW, you can stop at \$1797

In fact, when it comes to money, a VW will save you a lot of counting after you buy it, too. On gas bills. (It gets about 27 mpg.) On tires. (They average 40,000 miles.) It hardly ever needs oil between changes. And, since the engine is air-cooled you never have to dish out for anti-freeze. So if you don't like to count, buy it figures.

Oil & Gas Wells Helpful To Economy Of Mitchell County

Oil and gas wells provide approximately \$5.9 million a year of Mitchell County's economic output, according to statistics released this week by Texas Mid-Continent Oil & Gas Association.

Based on most recent U.S. Bureau of Mines production figures, the Association compilation showed that Mitchell County produced crude oil valued at \$5.8 million in 1966 and natural gas worth \$68,000.

Texas oil production in 1967, responding to demands for more domestic crude as a result of the Israeli-Arab conflict, totaled 1,050,000 barrels; a statewide increase over 1966 of about 5 percent. Production last year varied widely among state

Railroad Commission districts, however, ranging from 3.5 percent below 1966 to 15 percent above.

"Production from Mitchell County last summer helped prevent any oil scarcity for U.S. consumers at a time when one-third of the world's supply was cut off," said Corbin J. Robertson, Houston, Association president. "We must keep in mind, however, that it may be difficult for Texas fields to sustain production in future emergencies if the discovery of new reserves continues to lag, due to lack of exploratory drilling."

The annual study showed that Mitchell County ranked 119th among Texas counties in total value of its production of some 2 million barrels

of oil and 529 million cubic feet of natural gas.

Texas oil men, according to Rinehart's yearbook, drilled 27 wells in the county during the year. Likewise, twenty-six percent of them were dry holes, costing about \$509,000.

County landowners and others with mineral interests cashed royalty checks totaling about \$738,000 during the year. Likewise, the county's flow of oil and gas generates \$270,000 a year in production taxes paid by producers and royalty owners to the state treasury.

Reports from the Texas Employment Commission show some 109 persons directly employed by the oil and gas industry in the county, with an annual pay-

roll of \$599,000. Plants which convert crude oil and natural gas into useful products also add to the value of a county's output. The Oil and Gas Journal lists one refinery with a B.D. capacity of 13,000.

A WORLD IN TROUBLE

What has happened to this marvelous world of ours in this twentieth century of God's grace? Mankind seems to be passing through a sea of troubles which has no counterpart in human history.

There are wars and rumors of wars among the nations, and many of the nations themselves are split into warring factions, each faction striving for supremacy, and each intolerant of the views, hopes, and rights of others.

The great trouble with the world is that men have forgotten God. They no longer seek spiritual guidance, but follow the vain ways of the modern world. We have become a cynical, materialistic generation.

If this drift toward world tragedy and chaos is ever stopped, the churches of the world must do it. The world's hope—our hope—is in God and His Church. He alone can save mankind from a sorrowful fate.

The Church seeks to turn the hearts of men from the ways of war and fear and hate to the ways of peace and love.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
