TOTIN' about 200 pounds of cotton bolls, a puller takes his load to be emptied in a trailer so that he can start filling it again. Although most of the cotton is being harvested by the stripping or mechanical method of harvesting, cotton pullers started swarming in area fields last week. About 600 bales have been processed in county gins, as compared to about 1,800 at this time last year. (Staff Photo)

Milo Nears Finish But Cotton's Slow

As harvest of the 1960 crop of grain sorghum nears final stages, bailing of cotton is just beginning to get in swing in Deaf Smith County.

Processing of carrots and cabbage, the only remaining vegetables in area fields, continued at a steady pace last week in spite of sub-freezing temperatures recorded Thursday, Friday and Saturday mornings.

Some 1,300 acres of sugar beets will be harvested through this month and possibly the first part of December. Grain sorghum is relatively

light and moisture content is high as compared to last year's crop, but considering adverse weather conditions earlier this

year, farmers and elevator managers are pleased with loads crossing the scales for storage in this county.

Visitor From Nixon's Home Backs Kennedy

Sentimentality should be excluded from your mind when you're choosing the next leader of your country, contends Mrs. Walter Ellis of Strathmore, Cal., a small town where Vice President Richard M. Nixon was reared.

Mrs. Ellis, 79 and proud of it, for the past three weeks has been visiting her sister, Mrs. J. T. Rose, in Hereford.

She and her husband have lived in Strathmore, which has a population of about 2,500, for the past 11 years.

"No, I have never met Vice President Nixon, but they tell me he went to grammar school

Another week of fair weather should see the bulk of milo in local elevators. As harvesting of maize started reaching final stages, influx slowed considerably last week.

Moisture content of the crop is ranging from 13 to 15 percent. It is testing at from 55 to 57 pounds, elevator managers told the Brand Saturday morning.

Quality and quantity are fairly high, considering a drought this spring followed by heavy rainfall in the summer.

About 600 bales of cotton have been processed in county gins. At this time last year, about 1,800 bales had been turned out by local gins.

More than 8,000 bales should come from the approximate same number of acres in the county this year, a gin operator predicted Saturday. Average yield is about a bale per acre or more. He said yields throughout the entire cotton belt are

MINOR CHANGES IN VOTE TOTAL

Cain Takes Over Clerk's Office Following Canvass

A canvass of Tuesday's General Election results by Deaf Smith County Commissioners Thursday showed some slight changes in the totals polled by various candidates.

Immediately after the can-

vass, County Judge Homer E. Henslee swore in B. F. Cain as County Clerk. Cain replaces Mrs. Lurline Smith, who had been appointed to fill the vacancy left by the death of her late husband, Ralph Smith, last spring.

Mrs. Smith previously announced her intention to resign Thursday. Able Crume, chief deputy in the clerk's office, resigned

her post Wednesday after an unsuccessful write-in campaign for the clerk's office.

Mrs. Cynthia Vines was promoted by the court to the post of chief deputy. Cain said he had arranged temporary help in the office for the present and would make his recommendations for another deputy later.

Attending the meeting was county judge-elect Don Zimmerman. He will be sworn in during a Commission meeting Monday, replacing Judge Henslee, who has disclosed his intention to resign immediately.

Henslee first resigned last spring in order that a candidate for the office could be named. He was appointed to fill the vacancy until the successful candidate could be qualified.

The following are final totals of the county vote in the contested elections and proposed amendments. Most of the changes were minor in nature: (The Democratic candidate is listed first in each case.)

For President: Kennedy, 1299; Nixon, 2024; For Governor: Daniel, 2670; Steger, 740; For Lt. Governor: Ramsey, 2632; Harrison, 657; For Attorney General: Will Wilson, 2638; Treadaway, 639.

Cherryhomes To Head Potter Co. Record Bureau

L. R. Cherryhomes, who has been a law enforcement officer in Hereford for nearly three years, Tuesday will join Potter County Sheriff's Office in Amarillo as head of the department's identification bureau.

His duties will include making and filing department records, fingerprinting and various phases of photography work.

Cherryhomes resigned from Hereford Police Department Nov. 1 this year to accept the post in Amarillo. He had been a patrolman for more than two months.

Prior to joining Hereford Police Department, Cherryhomes was a deputy in the Deaf Smith County Sheriff's Department. He became a deputy here Jan. 12, 1958, and resigned on Aug. 15 this year.

Before coming to Hereford, Cherryhomes was a patrolman with Amarillo Police Department and was a Potter County Deputy under Sheriff Bill Adams. He also was a farmer before joining the department here.

In September, 1958, he received his diploma upon completing a correspondence course offered by the Institute of Applied Science in Chicago.

He and his wife, Oveta, will move to Amarillo this week.

Hoot Mon, Wee Scotch Golfing Meet Starrts

Qualifying rounds for the Scotch tournament slated at the John Pitman municipal links in Hereford begin Sunday and will continue through Sunday, Nov. 20.

The tourney will be held from Nov. 27 through Dec. 18. First round matches in all flights will be held from Sunday, Nov. 27, through Sunday, Dec. 4. Second round matches will be held from Sunday, Dec. 11, through Sunday, Dec. 18.

Wildcats Drop Herd, 15-6 In Final Contest Of Season

Littlefield coach Don Williams kept the jinx on his older brother, Hereford coach Bobby Williams, Friday night with a 15-6 victory in 1-A-A-A competition. It was Don's third straight win in as many meetings.

Hereford scored after less than 90 seconds of play, but bobbed another quick scoring opportunity. The Wildcats came battling back with touchdowns in the second and third periods behind the running of halfback Jerry Koller and the passing of De Pierce.

It was the final game of the season for the Whitefaces, who ended up with a .500 record in nine games. They won four, lost four and tied one.

Littlefield remained in contention for the district crown with a 2-1 mark. Dumas and Levelland also are 2-1 with showdown games next Friday. Dumas hosts Phillips, which is 1-2, while Littlefield and Levelland battle.

Victories by Levelland and Dumas would give the Demons the right to enter bi-district,

since they smashed Levelland 27-8 Friday night. Wins by Littlefield and Dumas would put the Wildcats into the play-offs.

A Phillips victory would give the winner of the Lobo-Wildcat game the nod for post-season play.

Hereford end Wesley Poarch was instrumental in the Herd's lightning-quick score Friday.

On the first play from scrimmage, Littlefield quarterback De Pierce passed from his own 25, but had it intercepted by Poarch, who moved to the Little-

Ivan Dement, Inc., of Amarillo Thursday was awarded a contract to widen U. S. 60 within the Hereford city limits. Cost of the project, which also includes widening of South Main from U. S. Highway 60 to the Tierra Blanca creek bridge, is \$437,572 for 2.6 miles of work.

Work is expected to begin within the next 30 days on the project, but may be slightly sooner if favorable weather continues.

Optimists Set Salute To Youth

To recognize the 95 percent of youth in America who are not delinquent, Hereford Optimist Club will observe its fifth annual Youth Appreciation Week beginning Monday.

Youth from all Hereford public schools will be honored at the regular meeting of the Optimist Club Tuesday noon in I. O. O. F. Hall. Representatives of all the schools will be present at the meeting.

Tentative plans of the Optimists include holding a Youth Appreciation movie Saturday at the Star Theatre. Free tickets will be distributed to all students in local elementary schools and Stanton Junior High.

"We sponsor this week to show that 95 percent of our youth are not delinquent," said Roy Boyer, Optimist boys work committee chairman. "Only five percent of the youth in our country are delinquent, and they get most of the headlines."

Contract includes widening of the highway within the city to 62 feet from U. S. Highway 385 east to Lawton and to 84 feet from Lawton east to the east city limits.

The road will be widened to provide four lanes of continuous traffic, plus median dividers and turn lanes.

Award of the contract by the Texas Highway Commission in Austin climaxed more than two years of work, planning and negotiations.

City of Hereford will pay about \$80,000 of the cost, while property owners along First Street and South Main will be assessed about \$23,800 for their part of the project.

District highway engineer C. W. "Chili" Smith of Amarillo said the project would take about a year to bring to completion. In a meeting with interested property owners and city officials last December, he said the state would require the contractor to keep at least one access road across the highway open at all times.

The hot-mix type highway project also includes drainage underground for part of the distance, eventually channeling the drainage onto Santa Fe Railroad right-of-way.

In connection with the project, new flasher lights and crossing will be installed at the railroad intersection on south main.

The City of Hereford already has on hand new corner traffic control lights to be installed at the Main Street-U. S. 60 intersection.

City officials recently studied a plan for new lights along the highway, but took no action. The medium dividers between the east and west traffic flow will resemble long, skinny "S" figures, providing left turn refuges at each intersection.

A slight change is planned in the traffic flow at Park Avenue will turn south briefly to approach the highway at a right-angle, while traffic going west off U. S. 60 to Park Avenue will have a brief one-

No Longer Are Boy And Bike Inseparable

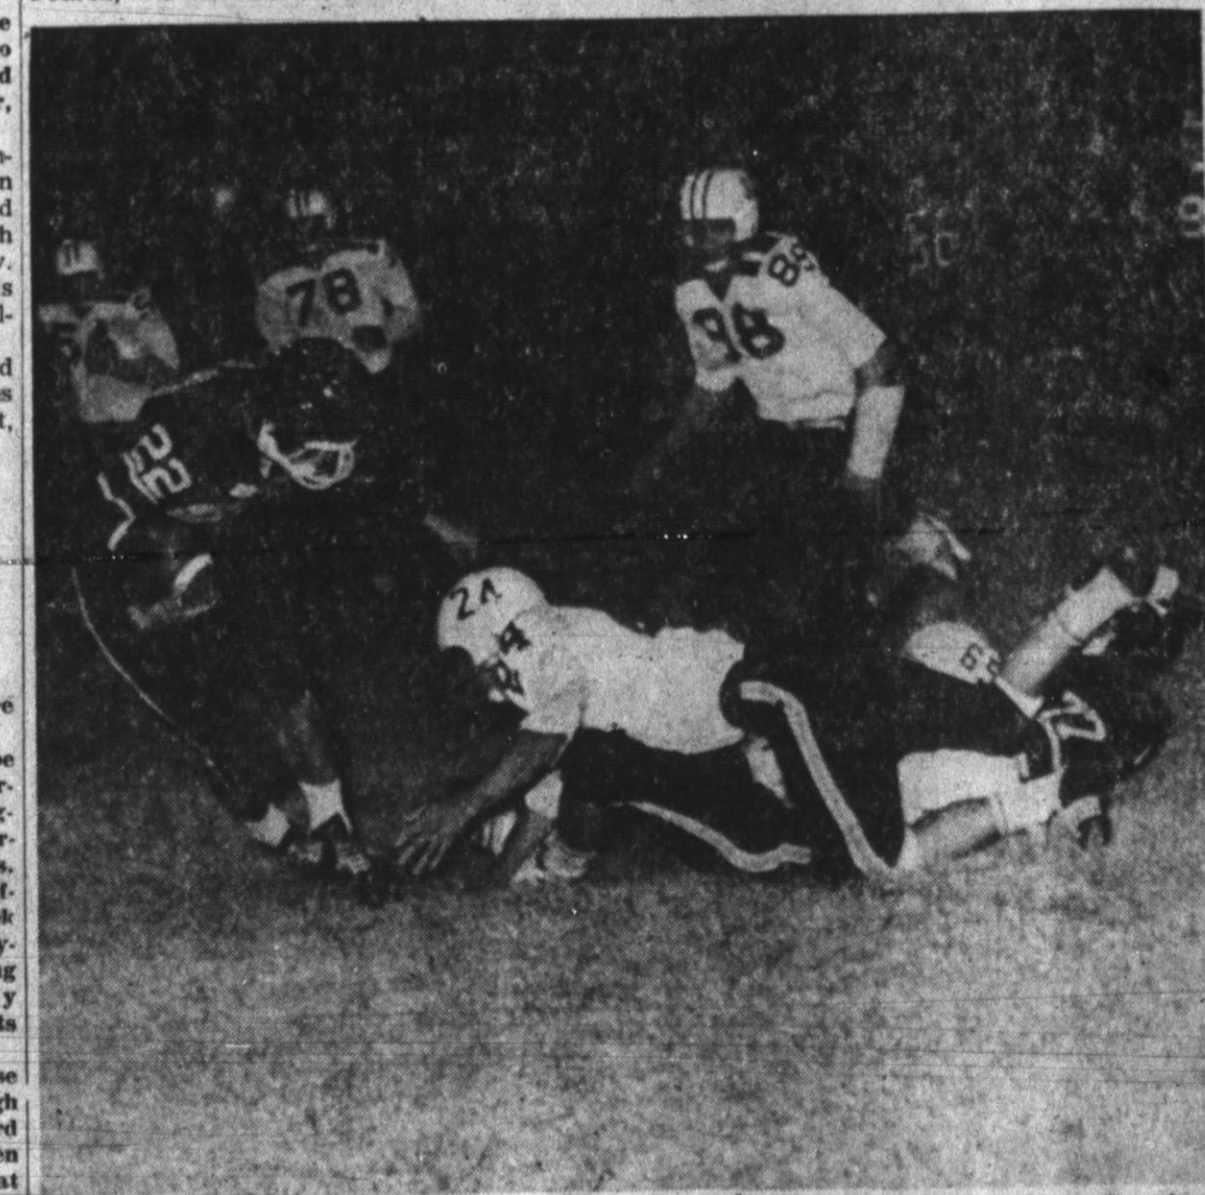

A boy and his bicycle are inseparable friends.

At least that used to be true before the age of motorized go karts and the getting-plumper - every day generation - of American boys.

Hereford High School officials were puzzled this week when they discovered a bicycle lingering on the parking lot Monday and Tuesday nights after all the students had gone home.

"Won't the owner please come and get his bike?" high school principal Bill Stanford pleads. The bicycle has been placed in a storage room at the school.

Stanford said the bicycle might have been left at the school Friday night, when the Hereford-Dumas game was played at Whiteface Field.

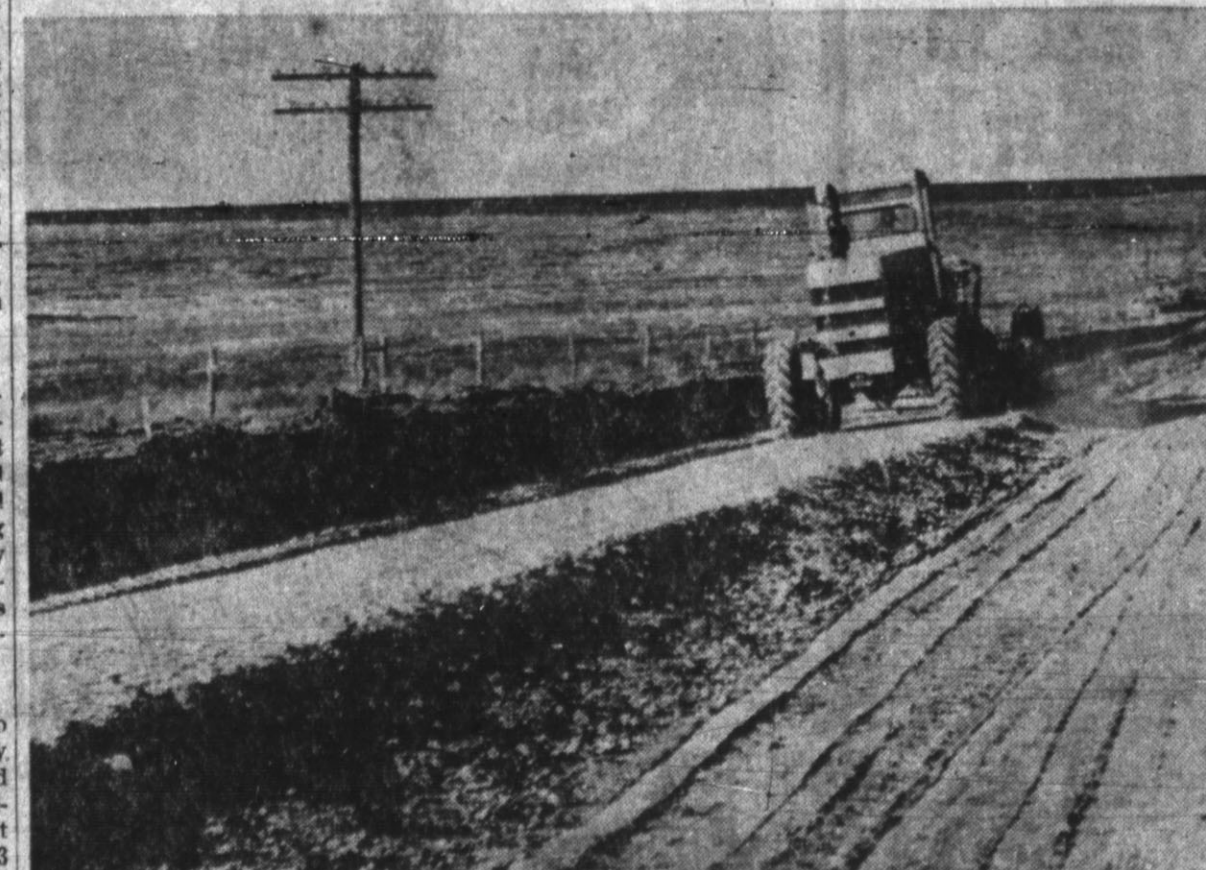

DODGING Littlefield tacklers, Whiteface halfback Mack Canler (22) moves the ball down the field with all the agility of a ballet dancer. Side-stepping Littlefield halfback Max Ball, who tried to make a shoestring tackle from his knees, Canler is being chased by Wildcat Jerry Brantley (54), Mickey Montgomery (78) and William Bankston (88). The game was played Friday night at Wildcat Stadium in Littlefield, where the Whitefaces lost their last game of the season, 15-6. (Staff Photo)

Around Town

Naturally, we were disappointed with the outcome of Friday's football game at Littlefield. But it has been a much better season than last year's ten losses. We just broke even with four wins, four losses and one tie, which is a hard thing to manage on a nine-game schedule. But our heart sank Friday during pep rally when the 15 seniors on the squad were introduced. They leave some big shoes to be filled next year. But we are really proud of our team. Our defense was particularly good, since we didn't allow more than 16 points in any game.

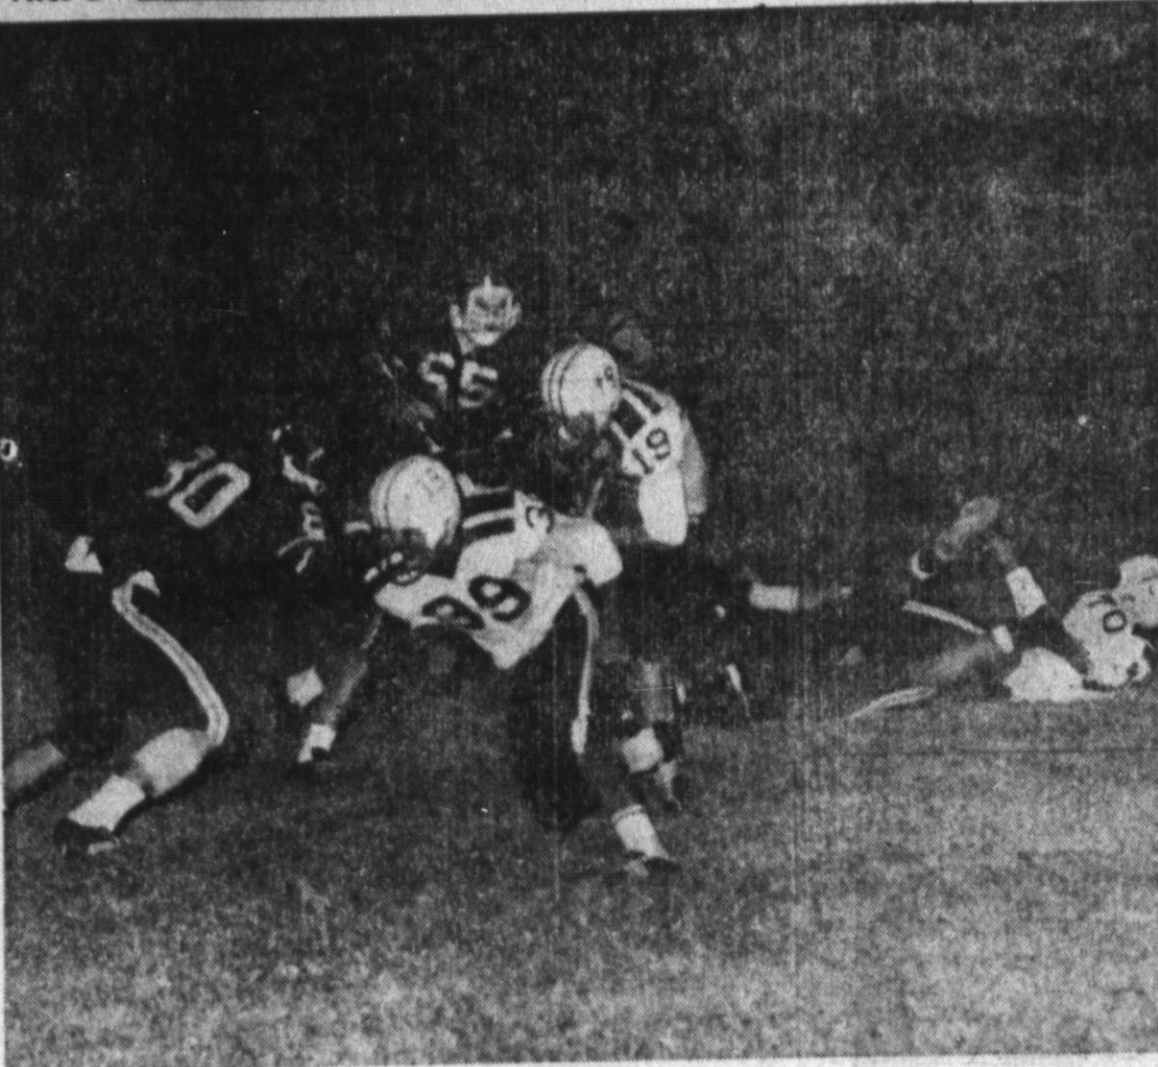

Boy Scout Troop 56 of Hereford was to usher for Saturday night's football game at West Texas while the Hereford High Big Domino Band acted as official band for the visiting New Mexico State University team. Scoutmaster Wayne Lawrence was to take 18 Scouts to the game at Buffalo Stadium.

I was outflanked by my two sons and their friends Friday night. They carefully prepared the following item for this column: "There is to be a puppet show on Sunday afternoon at 3 p. m. at 505 Avenue J." But I must warn any of you who are puppet show fans that a very small admission price is to be charged by the young showmen. (Continued on page 2)

EXCAVATING of Frio Road south of Hereford continued last week in preparation for widening and extending pavement to Easter Community. Pavement of Frio Road ends about four miles south of the roads inter-

section with U. S. 385. Motorists are asked to drive with caution when traveling through the site of construction. Construction will include about seven miles of presently unpaved road. (Staff Photo)

TRAPPED by Whiteface tacklers, Littlefield quarterback De Pierce (19) is about to be dropped by Hereford's Lee Kimball (80) and Roy Rogers (65) in a game played at Wildcat Stadium in Littlefield Friday night.

Wildcats...

(Continued from page 1) after being partially blocked by Littlefield end William Bankston. Littlefield failed to move after taking the kick off and punted.

Moving from their own 36, Hereford raced downfield. Cansler got three before Collier turned right end for a 17 yard dash. Halfback Dennis Hodges got six. Skypala went around right end for 12 and Cansler went around left end for 18 to the Littlefield eight.

With first and goal, Hodges got three and Skypala one before Littlefield got tough. Collier was held to no gain on an

end sweep and Skypala lost three.

Littlefield punted and then stiffened its defenses. Collier took losses of six and 11 yards as his pass protection leaked.

The Wildcats took over on their own 42 and marched 58 yards in nine plays. Halfbacks Max Ball and Tony Estrada carried most of the distance, but a 12-yard jump pass play from Pierce to end Weldon Pace put the ball on the Hereford two.

Estrada powered over from there to tie the score at 6-6 with 8:48 left in the second quarter. The Wildcats lined up to kick, but Hereford was penalized 1½ yards, so Pierce went around left end for two points.

Hereford moved from its own 23 to the Littlefield 35 before losing the ball on a fumble. The Wildcats got back to the Hereford 27 before losing the ball on downs just one play before the half ended.

In the third period, Hereford's ground game sputtered to a halt twice, with Cansler punting deep into Wildcat territory. A penalty moved the Cats back to their own 13.

But Don Williams' crew was not satisfied with a two-point lead. Koller, Pierce and Estrada ripped through Hereford's usually rugged defense for good gains on a sustained march.

Without trying a pass, Littlefield moved 83 yards in 13 plays. Key run in the series was a 24-yard scamper by Pierce around left end to the Hereford five. On the next play, Koller crashed his way up the center for the touchdown. Koller booted the extra point as Littlefield had a 15-6 lead with 1:33 left in the third quarter.

After a punt exchange, Hereford took advantage of Cansler's misplay to move to the Cat 32. Koller ripped off a 23-yard advance and Pierce passed to Pace for 11 to the Hereford 27.

But Cansler intercepted Pierce's aerial on the Hereford 11 late in the game. With time running out, Hereford stayed on the ground until the last play of the game, when Collier passed to Cansler for 34 yards.

Hereford held the edge in statistics in the first half, but couldn't keep a drive going in the second half. Pierce's passes kept the Herd off-balance, as he hit seven of his 14 attempts for 65 yards.

The City already had \$50,000 of the \$60,000 cost it must provide from a 1958 street bond issue. Remainder of the necessary money will be available when needed.

Several delays were attached to the project. Originally, the city's part was estimated at \$50,000 to \$60,000. Later this was raised to more than \$100,000. The City objected to the increase and said it would participate in the project only with a \$60,000 ceiling stipulated.

Then it was necessary to get permission to use railroad right-of-way for part of the drainage. This permission took several months to be granted.

Final matches in all flights and consolation flights will be held from Monday, Dec. 12, through Sunday, Dec. 18. Players may select their own partner, either a man or woman golfer, and shoot an 18-hole qualifying round by Sunday night, Nov. 20. Eight teams will be placed to each flight, based on qualifying scores. A week will be allowed for the playing of each match, play being by hole or match play.

All men and lady golfers from Hereford, Dimmitt and Friona are invited to enter, according to Hereford pro Bud Posey. Prizes will be turkeys, hams, hens and chickens.

In a Scotch tournament, two golfers play one ball, with selective tee shots being used. Both players drive on each hole and the pair may choose one of the two tee shots—then alternating shots are played until the hole is finished.

Some 50 area golfers are expected to enter, Posey said. A Scotch tournament was held here in the fall of 1958.

Commissioners expressed the opinion that a record vote probably had been cast in the county, but were unable to confirm it since many of the election officials failed to record the total vote cast. Some ballots were thrown out during the election.

Highest apparent total in the balloting was 3411, total vote cast for various candidates for governor.

This is slightly lower than the 1952 record of 3,456. In the 1956 general election, county total was 3,057.

Beauty At Home

Q. My skin is abnormally oily. What is a good corrective treatment for this?

A. One often-beneficial treatment is the regular sponging of the face with equal parts of cologne water, witch hazel, and rose water.

Q. How can I make the usually difficult job of removing all grime from under my fingernails much easier?

A. Try putting some cuticle remover on the grime with an Orange stick. Then, after a moment or so, scrub with a nail brush and soap and water.

Q. Are there some foods you can suggest which encourage beauty and health in the hair?

A. Foods containing iodine are most important to hair beauty—such as sea greens (powdered), codliver oil, fish, and pineapple. Peelings of apples, potatoes, and other fruits and vegetables contain much iodine. Eat them for more beautiful hair.

Q. How can I remove the telltale marks left on a wool or cotton dress after the hem has been changed?

A. These old hem marks can be erased by placing a cloth dipped in vinegar under the old hem seam and pressing with a hot iron.

Q. How can I avoid a "mask contour" in the application of my makeup?

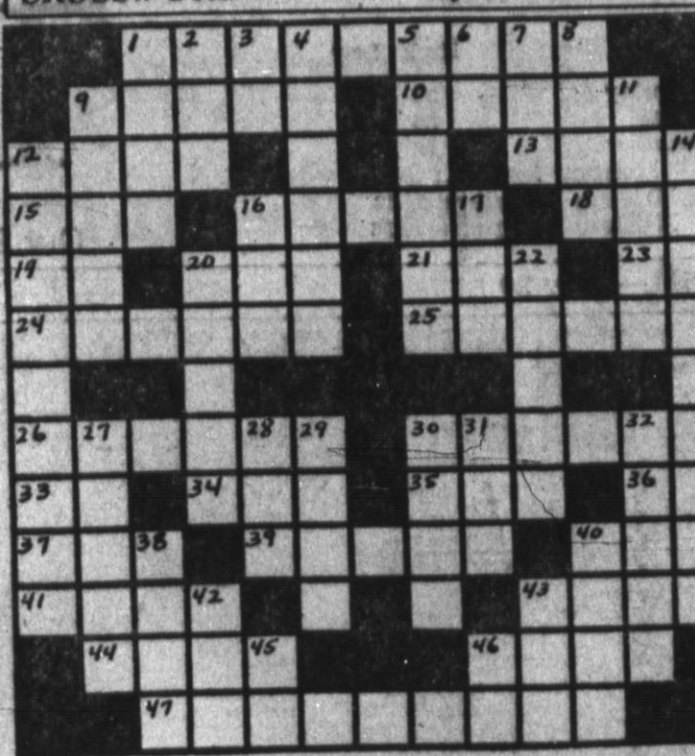

A. Although you can't see the area between the edge of your cheeks and your ears when you face a mirror, your critics can. So, don't stop short. Continue your makeup right to the ears, pull it down even to your ear lobes, and see the natural glow your entire makeup takes on.

LADIES CAST A LINE

LONG BRANCH, N. J. (U) — The little woman, toggled in everything from Long Johns to army surplus hand-me-downs, has found her way to the pier here to join her outdoorsman in the rigors of winter fishing.

And she seems to be enjoying it.

Many of the women who line the pier are as zealous in the pursuit of fish as their husbands, and complain less of the cold. And as one grandmother, who joins her husband once a week on the pier to fish, explained: "It's our night out."

Theodore Roosevelt in 1906 became the first American to win the Nobel Peace Prize.

EXPENSIVE ARGUMENT

NEW HAVEN, Conn. (U) — Through action in the state legislature, New Haven recently won the right to annex an outlying section called the 32nd ward.

Even more recently the city was presented a \$3,000 bill — legal fees for ward residents' unsuccessful battle against annexation. The city agreed to pay the bill.

THE HOME TOUCH VIRGINIA BEACH, Va. (U) — Bartow H. Bridges Jr., reports this sign at a filling station here "We wash foreign cars with imported water."

for the incomplete building couldn't be diverted to the other school because they were too small for the age groups there.

EXECUTIVE HELPER

MCLESTER, Okla. (AP)—Customers at a grocery store

here did a double take at one of the "boys" carrying a sack of groceries to cars. It was Oklahoma Lt. Gov. George Nigh helping out in his father's store during a rush.

Estimated population of Newfoundland is 300,000.

Beauty At Home

By Lynn Carter

Q. What should be done about the ears when the hair is worn swept away from the ears and neck?

A. You must remember to extend your makeup behind your ears and blend it down over your neckline. The face, ears, and neck should be all one lovely color. The thinnest application will do the trick, and produce untold added glamour.

Q. What are some good, general rules for true hair beauty?

A. Wash the hair as frequently as necessary. Brush it every day without fail. Change hairstyles with the seasons. Be sure to examine carefully the back as well as the front of the coiffure with a hand mirror. Be sure the hair receives sun, air, exercise, nourishment, and a medicine or tonic, if needed.

Q. How can I add more gloss or luster to my eyebrows and eyelashes?

A. Try smoothing a bit of brilliantine on them with some cotton on a toothpick.

Q. What is a good exercise or massage that will help me rid myself of the "spare tire" around my middle?

A. After covering your hands with some massaging cream, grasp the unwanted flesh around your middle and squeeze hard for a number of times. After this, put a turkish towel over the part you're working on and slap hard. Massage such as this should always be preceded by scrubbing with a brush to stimulate the layers of tissue, to break up the fat cells, and to induce circulation so that the broken down cells will dissipate into the blood current.

Q. How can I add a delicate fragrance to my handkerchiefs?

A. When laundering them, put a small piece of orris root in a muslin bag and boil this with the hankies. This will add a faint aroma of violets.

Phillips Frosh Run Over Stanton Freshmen By 32-8

BY WAIN MILLER
BRAND SPORTS WRITER

The Stanton Junior High freshmen climaxed their football season with a 32-8 thrashing by the Phillips Frosh at Whiteface Field Thursday night.

The determined Blackhaws were led to victory by their speedy quarterback, Lynn Roe, who completed five of seven aerial attempts, which were good for 88 yards and two of the five touchdowns.

Phillips received the opening kick-off on their 24 and returned it to the 30 before Jim Haney halted the runner. Steve Conaway and J. Carter stopped the first play from the line at the line of scrimmage.

Phillips scored a first on a ten yard scamper, and then racked up a 20 yard end sweep before Mike Ferguson topped the carrier on the Dogie's 40. Phillips faced a fourth and five situation when half back Terry Smith raced the remaining 35 yards for the first Phillips mar-

ker. Haney returned the kick to the 25 for the Dogies. Big Eddie Johnson bulled his way through the middle for seven, and then Eugene Green added five more for a first. Haney's third down pass to end Bill Hill fell incomplete, and then the Dogies lost the ball as they failed a fourth and three plunge.

Stanton's defense refused to give in and the Blackhaws didn't make a fourth and five try around end. Eugene Green's pass to Jim Haney was intercepted by Blackhawk Lynn Roe on the 39 to set up the second Phillips touchdown.

Terry Watson brought down the halfback after a 29 yard sprint on the ten. Halfback Richard Reno scored from the ten to make it 12-0 early in the second period. The pass for the extra point fell incomplete.

The pigskin changed hands twice in midfield as a result of fumbles, before Phillips final-

ly received the ball on the 46 late in the second quarter.

They made it to the 32 for a first before Eddie Johnson moved in to bring down the carrier. Mike Ferguson stopped a third

and two plunge at the line, but Phillips got the first on the next try at the 20. Ferguson stopped the runner again on the six as the half ended.

Stanton returned the kick to the 34 in the third quarter. Green picked up eight to score a first. Haney added another first to place the ball on the 44. Phillips refused to budge and gained possession after quarterback Jim Higgins didn't make a fourth and six try.

Phillips received the ball on

the 31 and picked up three first downs to bring the ball to the 19. Quarterback Roe completed one to end Donald May for their third t. d. of the evening.

Green returned the kick-off 23 yards to the 32. Johnson drove for four, and then Haney advanced 13 more for a first on the 49. Powerful Haney moved on to the 10 in three plays, and then went on to score the only Dogie marker of the evening. Jim Higgins completed a pass to end Ron-

nie Duncan for the extra points to make it 18-8 at the end of the third quarter.

The Blackhawk fourth down pass fell incomplete to give Stanton control again on 32. Stanton gained a first before losing the ball on fourth down. Phillips received possession on their own 38. Halfback Richard Reno saw daylight and streaked 62 yards for another Phillips score.

Green returned the kick to the 40. Stanton failed two passes,

and then Haney completed one to Bill Hill good for five yards. Higgins fed to Green who made 12 yards before being up-ended on the 47. Haney made it to the 37. Higgins completed a pass to Ronnie Duncan who made it to the 24 for 12 yards. Terry Watson carried for six yards, and then the ball got away from Haney, and Stanton faced a fourth and 22 on the Phillips 36. The Blackhaws took the ball on the 43 with 33 seconds remaining in the game.

Quarterback Roe fired one to Jimmy Zell which was good for the final touchdown, and used the same play to score the extra points. This put the final score at 32-8.

The Stanton Frosh ended the season with six wins, and four defeats. Two of their downfalls came in Conference play. The Dogies racked up a total of 78 points this season, with 149 points scored against them by their opponents.

REMEMBER WHEN?

BY CHARLIE SEEDS

This was one of the greatest comebacks ever witnessed in sports. The experts said he would never play golf again after the crippling accident just outside Fort Worth, when his legs were badly damaged. But he was a fighter, and he fought back to prove them wrong. Bantam Ben Hogan's stiffest test of his career came at the U.S. Open Championship held at Merion, just outside Philadelphia, his first Open after the accident. The course was a tough one, and the field was even tougher. But Hogan played brilliant golf. In the final round he was near collapse on the 14th hole, and he barely finished. Then his score was tied by Lloyd Mangrum and George Faxio, forcing a playoff.

That night his wife Valerie and his doctor worked on Hogan's legs until four in the morning. When day came, Hogan hobbled out to the course, and went on to win. Remember the year? That was a year when the auto business was returning to normal. New cars were more plentiful, and a buyer was able to shop and bargain for a good deal. The year was 1950.

Today is a real "buyer's market." You'll see what we mean when you check our deal on a new 61 Ford. We're offering the highest trade-in allowances ever, and monthly budget terms that make it easier than ever to drive a new 61 Ford. Stop in now, at CHARLIE SEEDS MOTOR CO., INC., W. Hwy. 60. LIKES HIS MEDICINE
ST. LOUIS —The "prescription" wasn't in the traditional Latin but druggist Thomas H. Garnett got the message. A man handed him a note which read "This is a stickup." "Now," said the robber, "fill that prescription." Garnett handed over the money in a cash register and presumably the patient felt better immediately.

BY JIMMIE GILLENLINE

A lot of folks are feeling much better about the election, including some of the most rabid anti-Kennedy people. The big reason centers around the fact that the popular vote was so close; less than one-half of one percent.

This situation, they say, will keep many of the socialistic proposals from passing. Things like socialized medicine, federal school controls and other so-called public benefits. They figure that the conservative Democrats and the Republican bloc will hold down these "sweeping innovations." Wall Street seems to have taken this attitude. Anyway, the stock market has been going up since the election and, more important, the volume of buying has been unusually heavy.

Had the election been a landslide, the socialistic trends would have been mandatory on the Democrats, who are in control of both the executive and legislative branches of our government. Even many of the Democrats seem happy that the election was close. Besides, it will tend to heal the campaign wounds much faster, and we need unity more today than ever before in the United States of America.

In this cold war with Russia, I wonder why the U. S. has never emphasized the fact that people all over the world want to come to America. This is now, and has long been, an ambition of people from practically every nation in the world. Remember how the Hungarians sought refuge, even the people from Korea and Japan? "Going to America" has ever been a dream with thousands and thousands of Europeans. So many people want to come here that we have been forced to enact and enforce strict immigration laws.

But since Stalin and the Red regime took over, how many people want to go to Russia? Even the Communists in this country don't want to go to Russia. Propaganda-wise, this situation can be even more effective than the H-Bomb. It needs to be sold and re-sold, then sold and sold.

again.

It looks as if Ira Qit and the local Legion boys have set a pattern for other posts all over Texas, perhaps all over the nation. Since our boys started handling the display of American flags on holidays and other proper occasions, the post in Amarillo has moved in with some 2,000 installations. Hereford group is getting more and more inquiries. The movement really started here because the flags were seldom properly handled, but it is providing an economical arrangement for merchants — and it is profitable to the Legion post. All in all, it gives them a nice bit of operating capital.

I notice that they are using an old ambulance for their props car, but it probably has no specific connection — except that the body is long enough to handle the flag poles. I mention this for Earnest Langley's benefit, because I am sure that he will never be out early enough to see the equipment in operation.

Ken Coker, Bartley Dowell and several other boys with sharp pencils have been around to challenge The Brand on tabulated election returns. Things just don't add up to the totals we carried. This is true. The Commissioners canvased returns Monday, and came up with several glaring errors. The returns and totals appearing in the tabulation came from the Clerk's Office and, in turn, can be traced back to some of the precinct reports. Fortunately, none of the results were close enough to matter much, but they will be carried in another article today, as canvased by the Commissioner's Court.

Cliff Acker used to keep us straightened out on things like this, but he is either slipping, or has decided that we are beyond hope.

I notice Urrin Streu walking to work these days. He is setting a good example for a lot of us, but I doubt if it will "take" very rapidly. Jim Witherspoon used to walk to work, but so many people offered him rides that he finally went back to his car. This, at least, was

the excuse he offered when I questioned him about it.

John McClesky says the cotton business is lagging. They have out about one bale for each 10 they had this time last year. From now on in, John figures the gins will probably go on a night and day basis, pending proper cooperation from the weather department.

Most of the milo boys, too, are busy eating dust these days. The harvest was slowed down earlier, but it is getting into high gear this week and will continue right along; anyway, that's what most growers plan and hope.

These situations probably account for all of the farmers you have not been seeing around town in recent weeks.

Up Perryton way, Editor Harold Hudson is complaining about the state line beer situation. He says:

"The proprietor gets the money, Oklahoma gets the tax, the Texas Highway Department gets the beer cans, and Perryton gets the drunks."

Area FHA Holds Formal Initiation

BY MRS. R. L. PINNELL
The local chapter of Future Homemakers of America held a formal installation service Thursday evening in the school cafeteria. Installing officers were from Hereford High School

with their instructor, Mrs. Dorothy Prowell. Miss Patsy Loerwald, Hereford, served as installing officer and presented the Badge of Authority to president Glenda Homfeld as a representation of

the local chapter. All chapter parents were invited guests. Following the service Miss Maribeth Gilliland introduced their foreign exchange student, Heidi Rutishauser of Switzerland, who talked to the girls for several minutes.

After the program the group went to the homecoming room for refreshments. Visiting girls included Judy Fewkes, Judy Rowland, Elizabeth Fuhrmann, Nancy Edwards, Maribeth Gilliland, Patsy Loerwald and Heidi Rutishauser.

Local FHA girls attending were Gail Brown, Donna Brownlee, Glenda Homfeld, Cathy Kromer, Sue Brownlee, Paula Creitz, Twilla Story, Sue Johnson, Linda Grulkey, Jo Heaton, Michael Hays, Madeline Weidner, Coralle Fortenberry, Sue Brownlee and Phyllis Peters.

Parents attending were Mr. and Mrs. Lorin Creitz, Mrs. Jake Fortenberry and Mrs. C. F. Homfeld.

The annual FHA Mother-Daughter banquet will be held next Thursday at 7 p.m. in the homecoming department. Special guests will be the FHA bean, Wayne Milner, and his mother, Mrs. Kenneth Milner. The girls will prepare all the food, and will plan and decorate for the affair.

The WSCS circles I and II met Monday evening to begin a four-week study of the book, "Into All the World Together." The Vega organization will drive over for the study.

Those from Vega attending the meeting were Mesdames Raymond Thompson, Elmer Cook, Mary Weisman, Everett Weisman, J. B. Fowler, Wayne Richardson, Ruth Halliburton, Vern Halmig, Cliff Wimberly, and guests Mrs. Bob Hermansmyer and Mrs. Holland of Amarillo.

Adrian ladies participating are Mesdames E. N. Jacobsen, Anna Witt, Edd Olomon, Hazel Chilton, Jim Cavin, Robert Jacobson, Lorin Creitz, Gene Moore, and N. L. Jacobson.

How Can I?

Q. How can I eliminate the nuisance of sparrows' nesting under the eaves of my house?

A. Fill small cheesecloth bags with camphor balls and hang them from the eaves. Those disgusted sparrows will set up housekeeping elsewhere.

Q. How can I easily loosen a glass stopper that has become stuck in a bottle?

A. Put a few drops of glycerin around the stopper and let stand for several hours. The glycerin works down around the stopper, and loosens it for easy removal.

Cowboy Rides For More Than Money

By DALE NELSON

DENVER — If ever a man looked the part of a rodeo champion, it's Bill Linderman.

His hands are massive squares of strength, his jaw is lean and his frame is spare as a jockey's. When he sits in a chair it's like a steel spring coiling.

Linderman has been showing bucking broncs and ring-wise steers who's boss — most of the time — with such effectiveness that in nearly 20 years he has won \$348,000 in prize money, more than any other rodeo cowboy.

It is little wonder that other cowboys, rodeo backers and owners of rodeo livestock voted unanimously for Linderman as arena director for the first National Finals Rodeo at Dallas Dec. 26-30.

This will be a true world series of western range sport. The top 15 contenders for the Rodeo

BILL LINDERMAN

Cowboys Assn. (RCA) championships in five events will compete for shares of the \$50,000 purse money.

As arena director, of course, the 39-year-old Linderman won't compete. "I'm about at the end of my career anyway," he says.

Yet only a few days before he was interviewed here, Linderman picked up a neat \$1,600 at a rodeo in Missouri. This spring he beat some of the best steer wrestlers in the business — most of them much younger men — at Edmonton, Alberta, by twisting down three animals in a total of 20.4 seconds.

Bill was president of the RCA for seven years and would still have the job if he hadn't insisted on stepping down two years ago.

He is a Bridger, Mont., native who now owns a cattle ranch near Gooding in southern Idaho. He joined the professional rodeo circuit in 1940 and in 1950 became the first man to win three titles in one year — saddle bronc riding, steer wrestling and the all-around championship. He also was the first to win the RCA all-around title twice.

Along with this, Linderman has made the best hospital lists. His neck and back have been broken and his skull fractured. Three times his legs have been broken and one arm — the one gripping the halter rope — has been broken below the elbow

THREE WINNERS of beautification of home and grounds awards Monday night at the Deaf Smith County 4-H Banquet received pins from J. W. "Lefty" Thomas, County Agent, left. Receiving pins, from left, were Larry Minks, Jim Shearhart and Larry Hill. Donor was Mrs. Charles R. Walgreen. (Staff Photo)

four times. The arm was broken twice during the 1955 season, yet Bill added more than \$19,000 to his bankroll that year.

What keeps a man going in a business where he has to pay his own way at the ever-present risk of serious injury with no guarantee of any return?

"It's not just the money," says Linderman. "There's the love of the sport you can't get away from and the feeling that you're doing what you can do best."

Bill says the toughest bronc

he ever saddled was named Devil's Dream. "I rode her twice and she bucked me off twice," he says. "The last I heard the old mare was still in a rodeo string at 28 years of age."

Rodeo's mounting popularity and fattening purses attract young fellows from the Midwest and East as well as the western ranching country, Linderman says.

"Right now, my boy, Billy, who's 10, is crazy about baseball," he says. "But if he wants to rodeo when he gets bigger, I won't try to stop him."

Feted On 25th Anniversary

Mr. and Mrs. Frank Bezner

Mr. and Mrs. Frank Bezner were honored Sunday evening with a reception in their home celebrating their 25th wedding anniversary.

Hostesses for the occasion were Mesdames Walter Paetzold, Helen Fangman, Joe Marnell, Eugene Fangman, A. J. Bezner, S. A. Fangman, James Fangman and Mike Betzen.

Frank Bezner and Beatrice Fangman were married Nov. 4, 1935, at St. Anthony's Church in Hereford, with Father Nathaniel Madden, S. A., officiating.

They are the parents of seven children: Mrs. Marcella Vaughan, Clovis, N. M.; Miss Bernedette Bezner, nursing student at St. Anthony's School of Nursing in Amarillo; and Carol, Laverne, Jane, Judy and Frank Jr., all

of the home. All of the children were present, with the exception of Bernedette.

Mr. and Mrs. Bezner are also the grandparents of two grandsons: Larry and Lynn, sons of Mrs. Marcella Vaughan.

The refreshment table was laid with a white cutwork Irish linen tablecloth over blue. A three tiered cake, iced in white, and accented with pale green leaves and white rosebuds, was placed in the center of the table. Each tier was separated by four columns, with the highest tier topped with a miniature bride couple. The numerals "25" were inscribed with icing and silver cake decoys. Tall white tapers in silver candleholders flanked the cake. Appointments of china and silver completed the table decorations.

The fireplace mantle in the living room was centered with an arrangement of blue mums intermixed with white stock and contained within a chalk white porcelain bowl. A satin streamer at the base of the arrangement was inscribed "Frank and Beatrice," with silver glitter used as lettering.

Mrs. A. J. Betzen presided at the coffee service and Mrs. Walter Paetzold served cake to over 75 guests who called between the hours of 7 and 11 p. m.

A preliminary observance was held Friday evening as the Bezner family attended mass at St. Anthony's Church. Mr. and Mrs. Bezner received a special blessing from Father Madden, who had performed their wedding ceremony 25 years before.

Out-of-town guests were Mr. and Mrs. Leo Bezner of Amarillo, Mrs. Jim Reynolds of Clovis, N. M., Mrs. Anna Bezner and Mrs. Elizabeth Honeycutt of Dumas, and Mrs. Marcella Vaughan and Larry and Lynn, Clovis, N. M.

Farm, Ranch Club Members Have Luncheon

Mrs. Glenn Burrus was hostess to a Farm and Ranch Club luncheon held Thursday in her home.

Mrs. Hershel Burrus presided over the business session, and the group voted to donate to the Community Center.

The serving table was covered in a white cotton cloth, interwoven with a floral pattern, and was centered with an arrangement of yellow mums, accented with fall leaves and sprays of pyracantha. The pottery, decorated with fall leaves, completed the table arrangements.

After the luncheon of baked ham and complimentary dishes was served, Mrs. John Hill, year book chairman, distributed the club yearbooks to each member.

Mrs. Hershel Burrus gave an interesting program on the geography and climate of Hawaii, using "The National Geographic Magazine" to illustrate her talk.

Present for the meeting were Mesdames Hershel Burrus and Frances Irene, Glenn Burrus, N. E. Tyler, Jack Weaver, Philip Miller and Harold Bass.

Jenny Lind Porter To Have Recital Sunday

Dr. Jenny Lind Porter, nationally famous poetess, will present a special program Sunday, Nov. 20, at 3 p. m. in the Hereford High School auditorium, under the sponsorship of La Plata Study Club.

Dr. Porter seems destined to become one of the world's great women poets. A native Texan, she received B. A. and M. A. degrees from Texas Christian University at Fort Worth. She received her Ph. D. at the University of Texas.

Her poems have appeared in the nation's popular magazines, such as *The Ladies Home Journal*; in university journals, anthologies, and in such newspapers as *The New York Times*.

Listed in *The International Who's Who in Poetry* (London, 1959) and *Who's Who Among American Women*, 2nd edition, she has taught at TCU and The University of Tennessee and is at present a member of the English faculty of West Texas State College in Canyon.

"The Seige of the Alamo" has long been considered one of Dr. Porter's best poems.

Program On Nixon, Kennedy Featured At Recent Meeting

Mrs. Guy Walser presided over a recent meeting of the Summerfield Study Club which was held in the home of Mrs. R. B. Baker.

The program was given in two parts. Mrs. J. R. Euler presented the portion on "If Kennedy Is Elected President," and gave his family background, political experience and platform. Mrs. K. W. Neill presented the portion on "If Nixon Is Elected President," and gave his family background and platform of his party.

Following the program, Mrs. Euler conducted a short discussion and quiz on the federal government.

Members present for the meeting were Mesdames J. R. Euler, Mack Noland, J. C. Clearman, Guy Walser, J. B. Noland, K. W. Neill, and the hostesses, Mrs. R. B. Baker and Mrs. Lee Curry.

Child Study Club Has Guest Night

The Hereford Child Study Club held its annual guest night Thursday in the home of Mrs. L. E. Taylor, with Mrs. Ari Stoy and Mrs. Mary Helen Lackey serving as co-hostesses.

The program for the evening was conducted by Mrs. Dave Alexander, who reviewed the book, "The Wide Horizon," by Louella Grace Erdman.

This book concerned the everyday life of a West Texas pioneer family, accustomed to the "niceties" of life, who were suddenly transplanted to the Amarillo

area just before the turn of the century. Mrs. Alexander's remarks on her own knowledge, by personal experience, of life before this section became more thickly settled, added a lot to the well-received review.

Fall flowers of chrysanthemums and marigolds were used as decoration throughout the house.

Members present were Mesdames Tommy Braddy, Morris Easley, Merlin Kaul, Marvin Knox, Rueben Knox, Garland Solomon, Maurice Tannahill, Ed

Local Entries Place At Amarillo Showing

Mrs. John Jacobson Jr., Mrs. M. T. Rutter, Mrs. O. G. Hill Sr., and Mrs. A. L. Manjeot, members of Hereford Garden Club, were among the hundreds of Garden Club members from this area who entered the Amarillo Garden Club Council's

Semi-Annual Flower Show recently.

Over 400 horticulture and artistic exhibits made up entries from the various clubs in the North Zone and from Texas Technological College in Lubbock.

Husbands Honored By Golden Circle Class On Friday

Members of the Golden Circle class of the First Baptist Church honored their husbands with a Thanksgiving dinner Friday evening at 7 p. m. in the church basement.

The serving table was arranged in a U-shape and covered with white cotton tablecloths.

Table decorations featured a china turkey, surrounded by yellow and gold chrysanthemums. Individual bouquets of matching flowers placed at intervals on the table completed the fall flower arrangements.

Glees Owens gave the invocation and Mrs. B. F. Marcum, class president, presided.

Mrs. Mildred Raney presented the devotional, and spoke on the subject of "Applied Christianity."

(Continued on page 2)

Mrs. M. T. Rutter placed first in "Fresh Cut Flower Matter In A Composite Container," one of two classes in the National Judges of the North Zone District I division.

Mrs. Rutter's prize-winning arrangement used the Hogarth curve, or S-shape, with the lines made of Bells of Ireland. Color accent was in rose chrysanthemums. She won a blue ribbon with this arrangement.

Mrs. Rutter also won a blue ribbon with her entry in the "Festive Board For A Thanksgiving Banquet" division. Her entry featured a cornucopia arranged with dried materials. Bachelor Buttons, grass, and Astoria Iris leaves completed the triangle arrangement.

Mrs. O. G. Hill Sr. won Honorable Mention in the Judges Class with a "Triangle Arrangement In A Composite Container." The skeletonized line was in bronze forsythia with color accents in yellow and pink.

Mrs. A. L. Manjeot entered the "Floral Arrangement In A Pic-

ture Frame Or Old Clock Frame" division. Her provincial arrangement of scarlet geraniums in a black container was centered inside a clock frame belonging to Mr. Shirley of Hereford, borrowed for use in the show. A

La Plata Meets In Streu Home

La Plata Study Club met recently in the home of the hostess, Mrs. Urlin Streu.

The program was presented by Mrs. Viola Chisholm on architecture, to tie in with the year's study course, "Our Changing World." She traced the history of architecture through its very functional beginning through the ornate period, then with an abrupt reversal, the pattern changed to one almost barren of ornamentation.

Mrs. Chisholm discussed Frank Lloyd Wright, America's foremost architect, who began his work 50 years ago. Some of his earliest designs still appear modern, and he introduced such innovations as picture windows, carports and many other features seen in our modern homes. He believed that a house should be designed to fit the locale or the personality of people using the home, instead of a set design to conform with other homes. She showed illus-

trations of some of today's ultra-modern buildings.

During the business meeting, which was conducted by Mrs. Leroy Aven, plans were made

WOMEN OF INTEREST

County Pioneer Still Leads An Active Busy Life At The Age Of Seventy-One

BY MONA JETTE
WOMEN'S EDITOR

The American woman has been baffled, then angered, and finally amused at the assumption that women are the weaker sex.

For generations, they have led useful lives, each day filled to the brim with the many responsibilities and problems that go along with the job of being a wife and mother.

Some women are born with the capacity to give a little more than most. Bess Werner, Hereford's Grand Old Woman, is such a person.

Many people are familiar with Bess, as she hurries down the street in her green pickup or as she bobs down Main, a familiar navy-blue straw hat riding merrily on the top of her head.

Bess is one of the county's pioneers, coming to Texas in 1909 from Mexico, Mo. Her family settled on what was to become the El Torro ranch, located ten miles north of Hereford.

Bess taught in the old Askren School, which later became Dawn School. She didn't go to college, but explained that "back in the old days" a college degree wasn't necessary to acquire a teaching certificate.

"When you graduated from high school," Bess said, "You had the equivalent of a college education . . . two or three years of Latin, and four years of science, English, math and the other subjects. So I took an examination, passed it, and I was a teacher."

In 1912, she was married to Dr. Daniel Turrentine, a shy young dentist practicing in

Hereford at that time.

In 1914, Dr. Turrentine was forced to go to El Paso for his health and Bess accompanied him. She taught in an El Paso school for a year.

The young couple returned to Hereford and Bess got a job as a bookkeeper at Harrison Elevators, which is known today as Pitman Grain Co. She worked there for four and one-half years.

In 1919, Bess quit her job at the elevator and after the birth of her daughter, Mary, began to farm on the land they had bought four miles west on the Harrison Highway.

Dr. Turrentine resumed his dentistry practice and Bess stayed on the farm.

"The doctor never was a farmer . . . he was a dentist and I was the farmer," Bess declared.

She pitched hay and raised over 25 head of hogs for that first year. She also had 150 pigs. "You know," Bess laughed. "They called me the Hog Woman!"

She also had a herd of Jersey cows. She milked them herself and made butter and cheese.

When Dr. Turrentine died in 1927, he left Bess with three children: George, Daniel, and Mary.

These were the bad dust-bowl days . . . depression days . . . a terrible time for a young woman to be left alone, with three youngsters to fend for.

But it didn't stop Bess one bit. She rolled up her sleeves and proceeded to wade into the mansize job that had to be done. She plowed her land, using a

Spanish Recipe For A Cold Day

The cold damp days cry out for a hot nourishing meal. And what could taste better than a new Spanish dish?

It really isn't so new, but with a carefully chosen selection of herbs, your family will think it is.

Enchiladas

1 1/2 pounds chili meat

1/2 teaspoon garlic powder
1 teaspoon sugar
salt and pepper
dash Tabasco

1 teaspoon Worcestershire Sauce

1/2 teaspoon oregano

1/2 teaspoon thyme

Chili seasoning to taste

1 large can tomato sauce

1 cup water

1 pound grated cheese

1 diced onion

1 can enchilada sauce

12-15 tortillas

Brown chili meat well. Add

garlic powder, sugar, salt, pepper, Tabasco, Worcestershire

Sauce, oregano, chili seasoning, thyme, tomato sauce and water.

Cook 30 to 40 minutes.

Skim excess grease from chili mixture and add 1/2 of the grated

cheese and the chopped onion. Mix well and remove from heat.

Fry tortillas until soft, and place in large dish. Add a tablespoon or more of chili mixture to each tortilla and roll separately. Place closely together in dish and pour enchilada sauce over rolls. Sprinkle remaining cheese over the enchiladas and place in medium oven until cheese is melted.

This dish is just the thing for a chilly evening and is delicious with tossed or guacamole salad, hot tostados, or crackers.

North Hereford HD Club Meets

The North Hereford Home Demonstration Club met recently in the home of Mrs. Christine Pettijohn.

The program was on gifts that could be made at home, such as gifts from the kitchen, pantry, sewing room or with crafts.

Members who brought gifts from home were Mrs. Otto Masie, Mrs. Belle Williams, Mrs. Martin Wagner, Mrs. R. A. Fulwood and Miss Roberta Campbell.

Roll call was answered with "A Handmade Gift I Treasure." Reports from committees were read and final plans were made for the Thanksgiving dinner to be held Nov. 16 at the Bull Barn for clubmembers and their families.

Refreshments of dainty sandwiches, fruit cake and whipped cream, coffee and punch were served to Mesdames Dorothy Klein, Martha Finch, C. L. Whitehead, R. A. Fulwood, Jackie Bishop, Martin Wagner, Marie Ward, Belle Williams and Miss Roberta Campbell. Hostesses for the meeting were Mrs. Otto Olson and Mary Bodkin.

mule team. She raised chickens and sold eggs. And of course she still had her hogs and cows.
Can't you see this magnificent old woman, determined to give her children a good decent life in spite of the difficulties involved?
Bess married Al Werner in 1936, but by this time the war guns were beginning to boom across the wide ocean to toss the world into turmoil.
After World War II was underway, Bess found herself with a full time job on her hands. For a period of three months, she milked 18 cows, by herself, twice a day, processed the butter and cheese, and still managed to keep going with her farm work.
"Isn't it funny?" Bess asked. "My father brought us to Texas to get land for my brothers, but they had gone back to Missouri. I was the one who wanted land."

After her son married, she sold him the farm. She is in a partnership with him now on the cattle they raise.
Her daughter, Mary, is now married and is an English teacher in Bel Aire High School in El Paso. Daniel lives in Pacific Grove, Calif., and is an antique dealer.
In spite of her many duties at home, Bess still has time for many community activities. She has been an active member of the First Methodist Church since 1912, is a former director of the old Hereford Creamery, and is a long time member of the Pioneer Study Club.
She has belonged to the Westway Home Demonstration Club for 35 years and will serve as president this next year. She also belongs to the Federated Women's Club and the Art Guild.
Oh, yes, in spite of her many duties at home and in the community, Bess finds time to paint. She does work in all medias, including pastels, oils, and watercolors.
"I'm not really an artist," Bess confesses. "I don't have the time. Maybe one of these days I will."
In spite of this statement, Bess is an artist. Her eye for color and love of the great outdoors goes into every picture she completes.
And at the age of 71, Bess still has plenty of time to practice on her art. Her grandfather, G. W. Ridgeway, was still active in the coal business at Wildorado at the ripe old age of 90. Bess stated that she intended to be around longer than that.
"Now don't you make me out an old lady who likes flowers and dabbles at painting," Bess admonished. "I'm a farmer. I always will be."
"I never will forget when we first came to Texas. I wish you could have seen this country then. The great wide prairies, and the antelope bounding over it. And the blue sky! We didn't have a sky like that in Missouri, you know. Of course, the sky is still blue, but it doesn't look like it did then. . . . It's too cluttered. I thought this was the most beautiful place in the world. And I still do."
Well, for Bess's information, the people in Hereford think she is a creation of beauty too. Maybe not in the modern sense, but in the sense of goodness, dependability, and love of this good earth that has been our legacy. Such people have helped lay the cornerstone for our great democracy, and our wonderful spirit of freedom.
And men, if this is the weaker sex, we'll keep it.

Mrs. Harold Rudd demonstrated how to make coconut ball candy. In the business meeting Joan Marnell was elected as secretary-treasurer. The next meeting is scheduled to be held in the home of Janice Head. Those present were Barbara Zinser, Jane Zinser, Janice Turentine, Teresa Rudd, Lynn Rudd, Joan Marnell, Dorothy Marnell, Janice Head, Sharon Bartels, Kathryn Flood and Grace Ann Flood, hostesses.

Willing Workers Meet Tuesday

The Willing Workers held a meeting Tuesday, Nov. 8, at the First National Bank. The program, presented by Miss Loreta Fowler, was on "Bedroom Improvement." Refreshments were served by Connie Bryant to the following: Linda Sims, Kay Brogden, Randy Hopson, Toni Beachamp, Caroline Brumley, Teresa McAndrews, Maura McGowan, Cynthia Hanna, Linda Brooks, Joette Hanna, Ellen McGowan, LuAnne Higgins, Margaret Linderman, Connie Bryant, Janis Haggans, Melody Ott, Donna Nivens and Cynthia Ann Knox. Two guests, Miss Fowler and Margaret Linderman, were present, as was the leader, Mrs. Earl Plank.

RECEIVES CARD - Mrs. Lee Curry received a card recently from the public library in Hereford, that a book, "The Lone Man," by Preece, had been placed in the library in memory of her late husband, Lee Curry. The book is the life story of Ira Auten, a Texas Ranger, and the second sheriff of Castro County.

A new hydro-electric power plant, scheduled to go into operation near Niagara Falls in 1961, will be capable of lighting 22 million 100 watt light bulbs at the same time.

Once The Campaign Is over, It's Time To Unite In Welfare of All

The voice of America has been heard across the nation. Millions of citizens exercised their franchise Tuesday to name a Democratic President and Vice President.

Those of you who have followed The Brand editorial policy through the hectic campaign will agree when we say that the outcome was not according to our wishes, based upon what we considered the best interests of the United States of America. As we said before, we sincerely hope that we were wrong.

Meanwhile, our nation is based upon the democratic theory of majority rule. Only on this basis of national cooperation can we expect our newly elected officials to serve the best interests of our country, keeping it strong, economically sound and free. In addition, current problems arising through

Sugar Beets And Canadian River

The national election has come and gone, but we keep hearing implied threats and rumors about how the proposed Canadian River dam near Amarillo, and the proposed beet sugar plant at Hereford will be lost because of the way people in the area voted.

Frankly, we do not put much stock in rumors of this type. If there is no need for the dam, which we understand will provide drinking water for several dozen growing cities, then it should not be constructed. If the proposed sugar plant were not practical, especially in view of Cuba, neither should it be constructed. These things should be accepted without argument.

On the other hand, it seems to us that the Canadian River dam really is needed — and that the voting record of the people should not enter the picture. Hereford's sugar beet quota falls into the same category, and is should be decided on a basis of national welfare. Although our county did vote GOP, it still has a far better record than that of Mr. Castro.

Too many people, we fear, are confusing political patronage with national welfare. The Brand did not support Mr. Kennedy and Mr. Johnson, but neither have we ever considered them stupid. We do not think that they are the type of people who would cut off America's nose to spite the Panhandle's face. If you carried this line of thinking far enough, at least 49% of the nation would be in a bad way — and they need full national unity if we are to combat Mr. Khrushchev.

Department jobs, appointments and other political plums are another thing. No doubt, we will be outside looking in when this type of patronage is passed out — and you cannot blame the victors for dividing such spoils among party friends. It has long since been an American custom.

On the other hand, both the Canadian dam and the expansion of sugar production in the United States are well in line with the "Go Forward" program of Kennedy and Johnson, who promised time after time to cross and develop "New Frontiers."

We give both our new leaders credit for sincerity in the welfare of the nation and, as politicians, they would be the first to realize that no political segment of the nation has ever been changed or altered through animosity or vengeance. Until we are shown otherwise, it is our belief that both projects will be considered and judged on their merits.

To ask more would not be in keeping with the American way of life.

Cuba and Russia demand unified support and cooperation of our people probably more than ever in history.

Deaf Smith County did not vote on the winning side of this election, but we predict that our territory will be among the first to roll up its sleeves and to support the new officials in Washington. Primarily a Democratic territory, citizens of this area made the same shift when Dwight Eisenhower and Nixon were elected eight years ago. The present situation presents even less challenge.

Furthermore, it is our feeling that even the Democratic legislative channels may well balk when it comes to passing many of the socialistic measures to which most of our voters objected. And should these measures be accomplished, down to the last small one, it is still the choice of the majority of the American people.

So long as we have decisions, people will disagree. Let us rejoice in the fact that we do still have the right to vote for the candidate of our choice. May it ever be so throughout the future history of our great nation.

Progress Heads Growth Parade

At least two sets of figures this week point to the fact that Hereford is still growing. As in the past, this growth continues to be steady and regular.

The tremendous vote Tuesday, which ran several precincts out of ballots, despite the additional 10 per cent required over the past election, was the first factor to indicate this growth. The same week our public schools announced a new enrollment record of 2,942, which is 184 more than that reported at the same period in 1959. Once again, this is also nearing the 10 percent mark.

Meanwhile, the community continues along its policy of "staying ahead of the hounds." Specifically, we have reference to community improvements. Hereford was one of the first towns in its size bracket to open a golf course, and later a city swimming pool. It built one of the first community hotels in West Texas, and is today one of the few smaller towns to boast a complete community center. Most recent in the parade of progress is the modern Country Club, which is attracting widespread, favorable comment.

In general, our growth can be attributed to the fact that we have an excellent place to live. More specifically, it is an excellent place to live because the people who live here recognize and achieve many of those community improvements which make life desirable and pleasant.

School Costs Still Rising

A conference in Austin has started a drive to pressure the Legislature into appropriating \$100,000,000 additional each year for the increased needs of Texas schools.

This estimate of needed increased expenditures for the schools is the biggest yet. If the Legislature grants it, it will be still bigger next year. This is forecasting the future by what has happened in the past.

The cost of education to the Texas state government was \$20,742,000 in 1920. By 1930 it had increased to \$39,289,000; by 1940 to \$58,579,000 and by 1950 to \$211,820,000. In 1959, the total educational costs was \$398,098,000. Education is costing the Texas taxpayer \$20 today while it cost him \$1 only 40 years ago.

This trend is found not only in Texas but throughout the United States. A committee of the National Education Association recently proposed a radically different basis of taxation which would give education a certain percentage of the national product. It would give schools about seven times as much money as they are now receiving throughout the United States.

When a private business concern finds it is not making ends meet, it usually (1) tries to increase its receipts and (2) looks for ways to economize. But in all of the propaganda by the school leaders, there is not a word about economy. In recent years, the Legislature has named several committees to consider school needs, and all of them have looked solely at the needs for more money.

It is suggested that the forthcoming session of the Legislature name a committee expressly for the purpose of studying the efficiency with which school funds are being spent.

The POWER of FAITH by Howard Brodie

"Thy will be done in earth, as it is in heaven."

After the Rose Bowl victory this year, the Washington champions went to their dressing room and said the Lord's Prayer. "This has been routine with us the past few years," Coach Jim Owens told me. "The prayer is said before every ball game and takes place in the locker room with just the players and coaches present."

There have been many instances of faith in football. The "Praying Colonels" of Centre College, Kentucky, earned their name after kneeling in prayer on the field, and coming back to win against West Virginia in 1919. Great names such as Alonzo Stagg, Otto Graham, Doak Walker, have testified to the strengthening factor of faith. Professional teams, such as the Cleveland Browns, have prayed before games. Fans pray before games in the Southwestern Conference. Prayers are rarely for victory; they are often for no injuries and for each man to play his best.

Herbs Have Many Uses In Food And Medicine

BY MRS. R. L. CRISWELL

Did you ever think of writing one certain thing and suddenly learn that what you knew of the subject was so infinitesimal that it frightened you to see the vast number of books and magazines in which there was different information on so many different angles, our mind leading to

that one?

I only thought of herbs to be used in cooking and of course knew that most all drugs were made of different types of herbs (not the synthetic of course). I had also read of the many potions made by the "Yarb Woman", not only to heal the sick in body but also those who

were sick for love and sick because of unrequited love.

There are so many herbs it would take a very long time just to name them over without telling anything about them as to whether they are for medicine or for enhancing the flavor of foods - different ones for meats and breads, cakes and cookies or puddings. All have different flavors and are used with different types of foods.

It was not only the pioneers who learned the use of herbs; the Indians also knew of herbs' value in sickness and in health. Even the desert yielded many of them, and the white man learned the uses of many herbs or plants from the Indian.

The most well-known herbs or spices are cinnamon, ginger, allspice, nutmeg and cloves. Then there is curry, from India, a mixture of spices used in so many, many ways that it is ever a delight to sprinkle it on eggs, fish or rice, and many "curried" dishes, including curried rice and chicken.

There are the seeds; caraway seed is used on rye bread but it has so many other uses, such as on sauerkraut, fresh cabbage, on hot fried potatoes, and it even adds flavor to a loaf cake as well as to pork of all kinds and liver and kidneys.

Poppy seeds are used on almost as many types of food as caraway but it is especially nice on certain kinds of bread. And we have the new sesame seed for breads, cookies and rolls and sunflower seeds that are delicious when hulled like peanuts and roasted.

Acorns were relished by the Indians in the western states and the Indians there were well-nourished and plump - in fact, the fattest of all the Indians in the world. They learned to use the acorn for bread.

Now we come to the leaves. Parsley, which can be used fresh or dried, is a refreshing additive to vegetables, meats, gravies, cheese casseroles and potatoes. Nasturtium leaves are for salads and sandwiches. Mint, which can be used in jellies, is good in cold cuts of meat and in almost all iced soft drinks or tea.

Bay leaves made the best soups better and is good on chicken, beef or bouillon. It also

HARVEST IS SLOWED

Most Dalhart area sorghum grains are still carrying too much moisture for storage either on the farm or in commercial elevators, or to go under government loan, it is learned from Dallam County Agent Jerry Mobly. There hasn't so far been a hard enough freeze to make the sap (moisture) leave the head, and go down the stalk into the roots. Moreover, since the two light freezes (29 and 26 degrees) some sorghum grains have accumulated moisture due to unusually high humidity. This humidity apparently results from the unusually heavy October moisture; an unusual number of dryland lakes, and an unusual amount of moisture in the soil. The heavy soil moisture tends to retard movement of sap from the grain heads down the stalk and into the roots. It seems that in this area a freeze hard enough to strip most leaves off trees is necessary to drive enough sap out of sorghum heads to bring the grain moisture content down to 13 per cent or under. But a lot of the high-moisture grain is being rolled by feed mills and going directly to feed lots in this area where it is fed as a mixture with a high-protein supplement. Grain to be stored successfully—without drying or frequent moving to prevent heating—must not have more than 13 per cent moisture by weight. It cannot go under government loan with more than 13 per cent.

COURT TURNS DOWN APPEAL

Castro County's Precinct No. 4 remained wet as a summer rain Wednesday when the State Supreme Court ruled it had "no jurisdiction" in the controversial dispute over whether last year's liquor election was legal or not. The Supreme Court dropped the case like the hot potato it is with the simple explanation it could not decide on the issue and the Amarillo Court of Civil Appeals ruling in favor of the wets would stand. This leaves the drys holding an empty gun. Even if another course can be found by liquor opponents, it would take an indeterminable length of time to once more reach the Supreme Court which might do the same thing again. It was definitely a victory for the wets and it means Precinct 4 will continue to be wet. The ruling also affects other South Plains counties who were watching developments in the Castro County case with great interest for possible later similar actions of their own. The high court specifically dismissed an appeal from an Amarillo Court of Civil Appeals ruling in favor of Castro County's wet forces "for want of jurisdiction."

EMPLOYEES' DRIVE DELAYED

The Employee Drive of the 1960 Hockley Community Chest Campaign has been postponed for one week due to conflicts with the general election Tuesday and Veterans Day on Friday, Nov. 11. In announcing the postponement Rex Brown, Drive Chairman, stated that the Employees Drive will begin Nov. 14 with a coffee at a hotel. The grand total thus far in the drive reached \$9,726 after a report meeting Friday morning of 15 Chest workers. The Chest goal this year is \$28,900. Three workers turned in contributions signifying completion of their work in the drive. Friday's contribution in the advance group totaled \$1,005; pushing the total for the advance division up to \$6,143.50. The general business division turned in \$1,096.50 upping their total to \$2,512.50 toward a \$4,050 goal. Bob Robins, Dave Pounds and Curtis Epperson reported \$179 contributed in the elective officials drive. This year's chest drive will help finance the operation of youth centers at Levelland, Anton, Sundown, Ropesville, and Smyer.

The BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm is not letting the election outcome bother him, his letter this week indicates.

Dear editor:

Now that the election is over there are a few things I'd like to get cleared up before the inauguration in January.

The winner, as well as the loser, kept hammering all through the campaign that we've all got to go forward, not backward, we can't stand still.

I've never seen two candidates agree more on the idea that everybody has got to stop loafing and start working. In a general way, I agree with this, but in a specific way, I have my doubts. Well, I really don't have my doubts, I know blamed well I'm not going to work any harder in 1961 than I'm working right now.

What I want understood is that Mr. Kennedy was committing himself to work harder, not me.

I'm all in favor of the President, Congress, the Cabinet, the General Staff, etc., working harder, of the defense plants working harder, the scientist working harder, the schools working harder, even the pupils working harder, probably the tax collectors working harder, but I have reviewed my situation out here on this bindweed farm and have come to the conclusion that there's not a thing I can do around here by working harder to keep a guided missile from mis-firing, a satellite launching from fizzling, an atomic submarine from bumping into the North Pole, Fidel Castro from talking on his television, Congo tribes from fighting each other, Khrushchev from pulling off his shoe in public, etc.

However, understand, I will not hold back. I will do what I can, and wish to announce I have selected the field of foreign prestige. I intend to work harder on my prestige abroad. I have found from years of trying that it may be easier to build up your prestige with someone on the other side of the earth than across the fence. If at any time next year it looks like I'm not going forward, I will appreciate your remembering that I'm working on my foreign prestige and I can do it just as well sitting down as riding a tractor. I would like to say in this connection though that my prestige is not at an all-time low with my neighbors. It's about where it's been for years. Never was high enough to measure in the first place.

I congratulate the new President. I don't envy him his job.

Yours faithfully,

J. A.

DO YOU REALLY UNDERSTAND THE BIBLE?

Many people maintain that the Bible is so simple and clear that any one can understand it. Yet today the Christian world is divided into conflicting opinions as to what the Bible means.

How would you interpret the following passages from the Bible: "I say to thee, thou art Peter, and upon this rock I will build my Church, and the gates of hell shall not prevail against it" (Matthew XVI, 18ff). "For, behold, henceforth all generations shall call me blessed." (Luke I, 48). "Receive the Holy Spirit; whose sins you shall forgive, they are forgiven them; and whose sins you shall retain, they are retained." (John XX, 23). "He who believes and is baptized shall be saved." (Mark XVI, 16).

Catholics recognize the complete Bible as the inspired Word of God. If you wish to know the Catholic interpretation of the above mentioned Bible passages as well as other beliefs of Catholics, write for a free pamphlet explaining Catholic teachings. This free pamphlet is sent through the courtesy of the Knights of Columbus, a religious and patriotic organization of more than one million Catholic men. of Mr. and Mrs. M. H. Zaring Jr. with Mrs. John Horton assisting. Mrs. Grady Pridmore was the "witch" and Mrs. Bobby Speed was the "fortune-telling gypsy."

What was termed the best "home-spun" joke of the holiday season derived from this party. Bobby Speed, who is owner operator of the Caprock Flying Service, left Sunday afternoon for a three-day business trip. He concluded his business earlier than expected, and returned home to find his wife "away telling fortunes."

Being a small man, he reasoned that he might be able to pass for a teenager in the fortune-telling lineup. He donned a Halloween costume and proceeded to the Zaring party.

Upon entering the booth, he gave his hand to his unsuspecting wife. She told him that his hands portrayed that he "hadn't done much work" and several other things.

When she returned his hand to him, he gave her both of his, much to her frustration. She remarked later "I thought this year's seventh and eighth graders were rather young to be so forward."

Attending the party were Ricky Gruhlkey, James Whaley, Linda and Larry Pridmore, Jolene Betts, Doris Horton, Rita Speed, Myrna Zaring, Billy Perry, Linda Pinnell, Mike Horton, David Whitten, Bobby Livingston, Dwane Gruhlkey, Ronald Johnson, Perry Gruhlkey, Tommy Loveless, Diane Cordova, Carroll Weidner, Bucky Clark, Jackie Gamble and George Harwood.

All school rooms had seasonal parties Monday. Hostesses for the first grade party were Mrs. Troy Benefield, Mrs. P. N. Johnson, Mrs. Dewey Haberman, Mrs. Brub Beavers and Mrs. F. A. Kromer.

In the third and fourth grades Mesdames Fred Harwood, Tito Cordova, Russell Patterson and A. P. Jones brought games and refreshments to the children.

Mesdames Elbert Whitten, John Whaley, Ethel Freeman, Joe Brownlee and Walt Loveless made the fifth and sixth grades' party a success for the teacher, Mrs. Irene Brown.

Friday night the entire high school enjoyed a skating, supper and movie party in Amarillo. Mrs. Claribel Wyckoff and Coach Jim Clark sponsored the group. Parents taking cars were Mesdames Lena Gudrell, Joe Brownlee, and Jake Fortenberry. Miss Gail Brown also took a car.

Sunday was Layman's Day at the Methodist Church. Guest speaker from Plainview was L. H. Trotter. In the evening a

meal was served early and a movie on Russia followed in the Sanctuary.

The Rev. and Mrs. Gene Moore came for their daughter Susan on Thursday from Snyder, where he was in a revival meeting last week. Susan remained with Mrs. John T. Lewis Monday to Thursday.

The pancake supper sponsored by the Lions Club was termed a success and netted large results.

Cub Scouts gathered at the home of Den Mother, Mrs. John T. Lewis Monday evening for games and refreshments. Sponsors, Mrs. Earl Brown, A. P. Jones and Jim Cavin, assisted with the party and then took the following boys "trick or treating" on the town: Jim Bob Perrin, Jim Cavin, Johnnie Lewis, Raymond Jones, Bobby Wayne Brown, Dwane Gruhlkey, Charles Harwood and Wayne Bronniman.

Don and Kippy Morgan attended the West Texas State College homecoming football game at Canyon Saturday.

Mrs. T. A. Preston of Amarillo was a weekend guest of her brother, Mr. and Mrs. H. D. Tomlinson.

Mrs. Walt Loveless and children moved this week to Oklahoma City, Okla., to join their husband and father there.

Approximately 53 interested patrons viewed the new home economics department in a formal open house Wednesday afternoon. Invitations went through the mail last week. Cathy Kromer and Donna Brownlee registered the guests while Phyllis Peters and Corale Fortenberry served guests from a table decorated with autumn flowers and leaves with fall colors.

The girls have done much of the finish work to the cabinets and sewing center. This also included making the glass curtains at the windows and dressing room.

After the FHA contest, all proceeds went to the purchase of two dinette sets with 12 chairs for use in the department.

Many useful and practical gifts were presented the department and Mrs. Don Johnson at the open house. These remained on display past the formal initiation services Thursday night.

Mrs. P. H. Gruhlkey left Monday from Amarillo to assist her sister, Mr. and Mrs. Red Schneider and family, complete a move from Hereford.

Several young people made a drive for UNICEF Monday evening before the Halloween

parties.

Monday was the local WSCS Joint Day of Prayer and Self Denial at the Methodist Church. Ladies attending were Mesdames Jim Cavin, Edd Oloman, E. N. Jacobson, V. E. Lemke, Anna Witt, N. L. Jacobson, Lorin Creitz and Gene Moore.

Mrs. James Morgan and Children left for home at Huntsville, Ala., on Friday. They have been visiting relatives here at Groom and at Fort Worth the past month. Morgan is the son of Mrs. Nell Morgan of Adrian.

Mr. and Mrs. August Meeks of Amarillo were new grandparents twice this month. Their son, Jay Dean, was presented with a new daughter, Sharla Jan, on Oct. 26 at Levelland Hospital. Maternal grandparents are the Travis Peacocks of Seymour.

On Oct. 13 Stephanie Gay Schuler made her appearance in Friona Hospital to Mr. and Mrs. Floyd Schuler, the former Glenda Meeks. Paternal grandparents are the Robert Schulers of Friona. Both Meeks children attended schools in Adrian and graduated from Vega High.

Mr. and Mrs. Ralph Perry and daughter Mrs. Bea Betts and children attended the family dinner for the 70th wedding anniversary for his parents, the H. L. Perrys, at Gage, Okla., last Sunday. Mrs. Betts spent Saturday night in Follette with her aunt, Mr. and Mrs. R. L. Gadberty and family.

New students in school this week are Jackie and Bonnie Ruth Gable, children of Mr. and Mrs. Austin Gamble of Farmington, N. M. Jackie is a seventh-grader and Bonnie is in the sixth grade.

Gail Brown and Twilla Story have been chosen co-captains of the girls' basketball team this week.

On Tuesday the boys and girls went to Hartley for two exciting ball games. The girls won 37-19 with Adrian winning. High scorer was Glenda Homfield with 16 points and Shirley Hedrick of Hartley with eight.

The boys lost by only one point in an outstanding game with a score of 42 to 41. Calvin Peters was top scorer for Adrian with 14 points and Allen Thompson of Hartley was top scorer.

The junior high teams went to Bushland on Tuesday night. The boys lost 28-27, with Billy Perry scoring 14 points and Gorman of Bushland's Gorman shooting 17 points.

The girls lost 28 to 14 with Linda Pinnell having a high of

First Frost Reported In Area Sunday Night

BY MRS. S. N. THWEATT The first killing frost came Sunday night, Oct. 30. The grain in the Garcia area had begun to dry enough for farmers to get in the fields with combines. There has been some frost several mornings since Monday. The temperature dropped to 28 Tuesday morning.

Barbara Brown, daughter of Mr. and Mrs. Ernest Brown, was honored on her ninth birthday Oct. 27 at her grandmother Brown's home with a party. Those attending were her cousins, Earl and Roger and Tommy Brown; two brothers, David and Dinna; two aunts, Mrs. Eldred Brown and Mrs. Floyd Brown, Mr. and Mrs. N. A. Brown, the host and hostess.

Cake and ice cream were served to those attending. Frank Ford returned from Austin early in the week where he and Mrs. Ford and son Johnny spent the weekend visiting Susan, Mr. and Mrs. Davis Ford of Dallas also visited the family. They reported that a heavy rain fell during the time they were in Austin.

Mrs. S. N. Thweatt and Mrs. B. B. Hudson made a business trip to Muleshoe Tuesday afternoon.

Mrs. Lewis Smith has spent about 10 days with an uncle in Amherst, who is ill.

Mrs. N. A. Brown visited in the Walcott School Thursday morning. She has five grandchildren attending the school.

Mr. and Mrs. L. L. Davis of Pampa visited in the home of the N. A. Browns Sunday. They reported that no frost had been reported in Pampa.

about people and events around Hereford High School

Truly, Hereford High School sustained a great loss in the passing of Mr. James Garner last week. Mr. Garner was a man who always had a friendly word and warm smile for anyone he was around. There are

few people in high school who have not at one time or another come to know and appreciate Mr. Garner. He was a brilliant man who devoted his life to teaching others.

If you are a football fan, you should be able to get your fill this week. What with the girls from Stanton trading their hats for helmets, skirts for hip pads, and high heels for cleets during their game Tuesday night, and some of your fathers or relatives may be involved in the game Saturday night as the Jaycoes take on the Optimists at Whiteface field.

The Whitefaces will close their season as they journey to Littlefield Friday night. Although they were knocked out of the running for District last Friday by their 12-0 loss, the Herd surely showed an improvement this season as they won four of their eight previous outings.

The B team and the Freshmen will also end their season here tonight, as the Frosh take on Phillips and the Bees play Littlefield.

Everyone is looking forward to a successful basketball season for the big Herd, as they have their first game Nov. 24. If the basketball team shows as much improvement during their coming season as the football boys did, you might as well get ready for a state championship.

Now that the elections are finally over, maybe we can get

FAR ENOUGH, contended Royce Ann Gilliland (45) as she hauled in Janis Sue Medley after a ten-yard gain in Tuesday's girl football game between the eighth and ninth graders had too much speed and experience as they romping ground-gainer for the eighth grade, but the ninth ed to a 48-12 victory. to see our favorite programs on television again.

The high school speech classes were turned into quite an uproar while they were discussing the election hopefuls. Maybe now things will settle back down to a dull roar.

"So maybe Dumas did win the game," said Dennis Rickman last Friday morning in reference to the "after the game ceremonies" with the B team, "but we won the fight!" How about explaining how Dumas started it once more, Dennis, just for laughs?

REPORT

The Camp Fire and Blue Bird leaders Association met Friday morning in the Camp Fire Hut. A choir has been organized for all Camp Fire and Blue Bird girls under the direction of Mrs. Ed Line. They will meet each Thursday at 5 p. m. in the Community Center until Christmas to prepare for the annual Christmas program.

The Leaders voted to hold the Camp Fire Golden Jubilee celebration on Sunday afternoon, Dec. 18, at the time of the Carol program.

All girls are urged to attend the choir practice sessions.

Those attending the meeting were Mrs. Louise Springer, Mrs. Mildred Garrison, Mrs. Nora Ward, Mrs. Pat Borland, Mrs. Thelma Marsh, Mrs. Ervin Robinson Jr., Mrs. Refugio Gamez, Mrs. Kenneth Malone, Mrs. Louise Smith, Mrs. Mary Story, Mrs. Don Sanders, Mrs. Don Little, Mrs. John Madison, Mrs. Carl Strapp and Mrs. Eleanor Gibson.

'Deaf' Smith Says

Sam, this is my report for this week:

Sam Bell, Ray Cowser, Delbert Kinsey and Maurice Tannahill will serve a three-year term as directors of Deaf Smith County Chamber of Commerce starting Feb. 1.

This was determined by the recent election, the ballots for which were counted in a special meeting of the Board of Directors Monday night.

Following the counting of the ballots president Norton appointed Bill Dameron, Curtis Roach and Sam Bell to serve as a nominating committee for the purpose of selecting candidates for the three Chamber of Commerce officer positions. The president, vice president and treasurer are elected from the directorate for a one-year term.

In other business the Directors heard a report from Oliver Streu on the recommendations of the Long Range Planning Committee. Streu emphasized to the Board that these objectives were, in effect, a brief statement of a major problem that was given considerable study by the committee. He reminded the directors that his committee was charged with the responsibility of naming those things which, in the opinion of the committee, needed to be accomplished — not necessarily by the Chamber of Commerce but by the community as a whole — if the city of Hereford and Deaf Smith County were to continue to grow in the next decade as they have in the past.

The committee was to give no consideration as to how these things were to be accomplished and did not necessarily list them in the order of their importance.

According to the committee's report, the needs of

the date set forth above.
Dudley Bayne
City Manager
S-20-1c

Hereford and Deaf Smith County are:

1. Additional all day parking;
2. Beautification of property on an individual home and business basis;
3. An agreement between the city and county governments on zoning, particularly in relation to highway approaches to Hereford and in regard to possible future routings of Highways 60 and 385;
4. Additional payrolls in any form; e. g., industrial, commercial, agricultural; and so on;
5. An information brochure or brochures for general circulation and to meet specific requirements of an industrial prospect;
6. A continued effort to bring about a mutual understanding between the urban and

rural population of this area;

7. A continued effort to conserve the existing and to develop new water resources;
8. More efficient government at all levels;
9. More informed and active interest in government by the people of this area;

10. A complete study of the community and area relations with our growing Latin American population;
11. Improved relations between the community and the schools;

12. A means of improving the liaison between the voters of this area and our state legislature and the national government; and
13. A re-scheduling of meetings of the Board of Directors of the Deaf Smith County Chamber of Commerce to a time when full consideration, without regard to the artificial time limits, can be given to matters which need the study of this policy making group.

The recommendations of the committee were approved and the committee commended for their efforts. Other business

was administrative in nature. Future meetings of the Board will be held in the Chamber of Commerce office on the second Monday of each month.

Film Shown A School Assembly Wednesday

BY MRS. T. L. COLLINS
The Conservation film, "Bob White Through the Year," was shown at school assembly on Wednesday morning, Nov. 2. The group learned about the family life and hazards of this bird with the "clearest call of all" who raise only one brood each year.

Mr. and Mrs. Marvin Payne, Darla and Larry ate Wednesday evening meal and visited with her parents, Mr. and Mrs. Joe Rader.

Mr. and Mrs. Thomas L. Collins visited in the home of Mr. and Mrs. Travis Alston of Westway and Mrs. J. F. Ward in Hereford on Wednesday evening.

Mrs. N. A. Brown and Mrs. Eldred Brown visited school on Thursday.

Mr. and Mrs. Jim Adkins, who

formerly lived on the Allen Hoover farm here, now live in Pampa. They have a baby son, Richard Lee, born on Oct. 6, weighing four pounds and eight and one-half ounces.

Walcott School is getting a new driveway around the yard past the two teacherages and back to the bus barn, with a parking place for extra buses that are parked.

The J. F. Messer Construction Company is doing the work. Much heavy-duty equipment is now parked at the school and children have enjoyed seeing these in action while the men have worked.

Some of the extra dirt from the road has been piled on the south part of the school yard. The boys have enjoyed playing "King of the Mountain" on these piles of dirt.

American Junior Red Cross members joined from Walcott School. Their money came in Friday, Nov. 4, as requested by Mrs. Bill Messick of Hereford, who is the rural Junior Red Cross chairman this year. Children are now wearing their buttons.

Each classroom receives the "American Junior Red Cross News," a monthly magazine.

First freeze of the season came on Sunday night, Oct. 30. The P-T-O will meet Friday night, Nov. 18, in the form of a covered - dish Thanksgiving community supper for all families of the area. Each family is requested to bring his own meal.

The program chairman is Mrs. Floyd Brown, and she has asked that persons of the community prepare stunts or skits to be presented that night for entertainment.

A selection of Christmas cards, wrapping paper and cord, small gifts, stationary, a few books and all-occasion cards are being sold by the finance committee of the P-T-O.

Mr. and Mrs. G. V. Hall, Mr. and Mrs. Elmo Hall, Mr. and Mrs. Herschel Burrus and Frances, Mr. and Mrs. Glenn Burrus and Kathryn rode in the car caravan which left Hereford on Thursday afternoon for Amarillo Air Terminal, where Democratic candidates, Sen. John F. Kennedy, of Massachusetts, president

ial candidate, and Sen. Lyndon B. Johnson of Texas, candidate for the vice-presidency made a one-hour stop.

A chilly night for the football game Friday between Hereford and Dumas didn't prevent Mr. and Mrs. Glenn Burrus, Kathryn, Elizabeth and Nancy Tyler from attending. Others attending were Mr. and Mrs. Norman Minks, Larry, Nancy and Margaret, Waldron Melton, Adair and Denise, Roy Bean, Herschel and James Burrus, and Mr. and Mrs. Obed Caraway, Denise and Tracy.

Buddy Cobb from Amarillo demonstrated duplicating machines at Walcott School on Friday after school was closed.

Mr. and Mrs. Don Kirby and family had Sunday afternoon guests in their home. They were Mr. and Mrs. Melvin Watkins, Gayle and Anita of Amarillo, Mr. and Mrs. Elton Wyly and family and Mrs. Alta Wyly of Friona.

Mr. and Mrs. Norman Minks and family ate Sunday dinner in a hotel in Hereford following church. In the afternoon they visited in the home of Mr. and Mrs. Carroll Higgins, Jimmy, Susie and Becky near Hereford.

Mr. and Mrs. Buel Monroe and family drove to Ragland on Sunday morning to visit Mr. and Mrs. Bill Lewis, Kathryn and Sue. They ate dinner, visited and showed home movies. They ate supper with Mr. and Mrs. King Webb, other friends in Ragland.

Miss Paula Green, Miss Shirley Bourquin and Mrs. T. L. Collins attended church services at the First Methodist Church in Hereford on Sunday morning. The Rev. Gilbert Davis of the Christian Church was guest speaker. They all ate lunch in the home of Mrs. J. F. Ward there.

Layman's Day was observed at the Adrian Methodist Church on Sunday. Mr. and Mrs. Trotter of Plainview were guests. He was speaker for the morning service. They ate dinner and visited in the afternoon with friends, Mr. and Mrs. Leland Burns and family.

Mr. and Mrs. Elton Wyly and family and Mrs. Alta Wyly of Friona visited in the Bob Wyly family of near there on Sunday.

OFF THE Shelf

BY R. A. TUCK

What happens to a nation when its thinkers and industrial leaders go on strike?

Ayn Rand explores this question in her mammoth-sized *Atlas Shrugged*. Its 1168 pages are crammed with thought-provoking ideas about America and its production prowess.

Dagney Taggart, with her brother James, runs the Taggart Transcontinental railroad. She is a transportation genius, all business. Her unsung aide is young Eddie Willers, who grew up with Dagney.

Dagney trained herself in every phase of railroading, starting as a night operator in a small station and completing her education with degrees in engineering.

Although young and attractive, she cares little for her social life. A one time she had a romance with Francisco d'Anconia, heir to the world's largest copper mining and smelting fortune.

But Francisco's playboy escapades now fill the front pages. Dagney bucks her brother and others in the matter of a line run into Mexico, which she feels will be nationalized. They disagree, but they are wrong.

At this time, all Europe has become a group of People's States and some of the same thinking is invading the United States.

From her headquarters in New York City, Dagney tries to find good men to run her trains, manufacture her rails and new engines.

But the good men are disappearing. Factories and plants close abruptly, their owners vanishing from the face of the earth. Against

tremendous odds, Dagney orders new rails from Hank Rearden, rails made from an amazing new alloy called Rearden Metal.

Rearden is a rugged individualist who has amassed a fortune by daring and skill. His family consists of sponges. He supports them, but gives them none of himself.

No one counts until Hank Rearden meets Dagney Taggart, a woman who thinks and acts with decision. After a time, Dagney becomes his mistress.

Slowly Hank and Dagney realize the country is in the hands of the "looters," men without brains or moral fiber. They believe everything belongs to the people and proceed to nationalize every industry, every commercial act.

Directives, laws, orders come from Washington and are backed up by goon squads and watchdogs. Hank Rearden is tried for delivering his metal to a firm without permission.

All through the story, people ask, "Who is John Galt?" but expect no answer. It is their way of saying that there is no use struggling or working to get ahead.

More and more of the top leaders disappear, and the second-raters take over. Transportation becomes erratic, deliveries come late or not at all.

With the country rapidly degenerating, Dagney and Hank are among the few who fight back for private enterprise and commercial freedom. And those few are being recruited by the "destroyers" who come in the night and whisk away the brains and the skill to an unknown place.

Eventually Dagney learns what is happening. The brains of the country have gone on strike! Their aim is to stop until the People's State must have them.

Leaders in this movement include d'Anconia, John Galt and Ragnar Danneskjold, a golden-haired giant who has been accus-

ed of piracy by the People's States of England, Europe and South America.

In a mysterious three-hour radio talk, Galt identifies himself and tells the astonished listeners what is happening to them and what they must do. He explains that they must work for everything they get and admire, rather than condemn, those who succeed.

But the looters capture Galt and torture him in an effort to make him save their crumbling empire.

Only when the lights go out in New York City, last bastion of civilization, will the strikers return to their duties of production, prosperity and justice.

Miss Rand, born in Russia and educated in Europe, came to the United States for the opportunities it offered. In this monumental work, she has put her fingers on a nation's pulse and hears the heartbeats weaken and skip from economic and moral malnutrition.

She has drawn a vivid portrait of America as it could become with a combination of too much bureaucracy and too much socialism.

Any reader of *Atlas Shrugged* will think back to its message for years to come. He cannot help but be impressed with the philosophy and reason expressed in it, just as he cannot fail to be stirred by its adventure and intrigue.

Atlas Shrugged by Ayn Rand can't be shrugged off by any of its readers. It is a fascinating exercise of the mind. The book is in the Deaf Smith County Library.

ATTEND EXHIBIT

Mrs. Al Yeager, Mrs. Frank Smith, and Mrs. O. Wertenberger attended the National China Painting Teacher's Exhibit held at Memorial Auditorium in Dallas Oct. 29-30. Twelve of the nations top china painting teachers were present to demonstrate different techniques.
