SUPREME COURT TO GET SNOOK'S CASE

STATE COURT DENIES PLEA OF REHEARING

SLAYER'S CASE AGAIN REFUSED REHEARING IN COURTS

COLUMBUS, Ohio, Jan. 8.—The State Supreme Court today denied an application of Dr. James H. Snook for a rehearing of his appeal from a sentence of death in the electric chair for the murder last June 13 of Miss Theora K. Hix. He is to die in the electric chair January 31.

The court had denied Dr. Snook's double appeal from a conviction in common pleas court here. The former Ohio State University professor had sought review of the case on its merits and also filed a petition in error as of right raising a constitutional question.

U. S. Court Next
The next step in the case is to the United States supreme court. It was indicated today and it was held that the appeal Dr. Snook has but one possible hope of escaping from the electric chair and that is an appeal to Governor Cooper for commutation of the death sentence to life imprisonment.

Arthur C. Pricke, chief counsel for Dr. Snook, announced at Cincinnati he had not given up the fight to save the veterinarian from the electric chair and will carry the case to the United States Supreme Court.

Winter Covers Area In Sleet

(By Associated Press)
Ice gripped North Texas today as a wet cold wave moved south and east from the Texas Panhandle.

Sleet and drizzling rain, which clung and froze to everything it touched, covered highways and streets. Air channels were fog filled, stopping nearly all airplane traffic in northern areas, and motor traffic was hazardous on treacherous slippery roads.

Temperatures ranged from 10 degrees above zero in the Panhandle to freezing as far south as Waco. Beyond Waco disagreeable rain and threatening skies presaged the coming of the cold, predicted to advance farther south tonight and tomorrow.

Livestock suffering was reported from Sweetwater, in the Staked Plains area, where the mercury stood at 18 degrees. Sleet, snow and rain falling at intervals through Tuesday and Tuesday night had left a thick blanket of ice over the region.

Sleet fell intermittently over northern Texas from Gainesville to Lubbock, with temperatures ranging from 17 at Wichita Falls to 20 at Gainesville.

DIFFERENCES WILL BE AIRED OVER ISSUE

LAFOLLETTE'S PLACE ON FINANCE BOARD IN QUESTION

BY FRANCIS M. STEPHENSON
Associated Press Staff Writer

WASHINGTON, Jan. 8.—Another break in the senate republican ranks between the regulars and western independents threatened today to bring an open airing of the party's differences.

The issue was recognition of the Western independents on the powerful finance committee. Senator LaFollette of Wisconsin was the candidate of this group for one of the two vacancies on the committee.

Attempt Unsuccessful
An unsuccessful attempt yesterday of some republican regulars to lay aside the rule of seniority and sidetrack LaFollette's candidacy by the appointment of Senator Thomas of Idaho, who was not even a candidate, brought a protest meeting from the independents and a demand for LaFollette's appointment.

In the camp of administration republicans, Senator Snoot of Utah, chairman of the finance committee, stood firmly against the appointment of a rebel independent to this committee charged with framing revenue and tariff legislation.

Democratic leaders intimated that if the question of LaFollette's appointment to the finance committee was carried to the floor here would be democratic support for the Wisconsin senator.

Such was the situation as the republican committee on committees reassembled to seek a solution to the vexing problem. Senator McNary of Oregon, chairman of the committee, laid down the senate's age-old rule that seniority was the determining factor.

WILCOX SAYS STATE COMMITTEE TO VOTE ON LOVE, OTHERS

(By Associated Press)
GEORGETOWN, Jan. 8.—Whether the names of Thomas B. Love and others who supported Hoover will be placed on the ballot for the democratic primaries next summer will be decided at a meeting of the democratic state committee this month or early in February, D. W. Wilcox, chairman of the committee has announced.

The committee has authority to determine who shall be placed on the ticket, Wilcox said yesterday in an open letter addressed to Love after receiving the latter's application for a place on the ballot. Wilcox said Love's filing fee would be held until action was taken by the committee.

May Be Ruled Out
"If the committee," wrote Wilcox, "should decide that those who voted for the republican presidential electors at the last election are not eligible to become candidates in the coming democratic primary, then you, and others who may have ruled out by such decision, will have plenty of time in which to take the matter to court and get a final decision before the names of the candidates are certified."

Wilcox asserted his belief that the committee had the authority to leave Senator Love's name off the ballot at its discretion, but added he did not care "to engage in a discussion of this question."

This belief, he indicated, was based on the contention of many that a political party has the right to regulate its own affairs and to decide who are eligible candidates for the party.

REVIEW OF THE WEEK'S FOREIGN NEWS

By The Associated Press

BY SAVINGTON CRAMPTON
Cable Editor, The Associated Press

The first of the three big international conferences that lead the political procession in Europe for 1930 began at The Hague last week to review and confirm decisions of the first Hague conference on war reparations.

The second Hague conference opened in an atmosphere of calm that contrasted with the tenacity of its predecessor. There was no incident remotely resembling the British reparations bomb-shell that Philip Snowden dropped into the conference room last August.

Committees Named
Committees were appointed to consider German and eastern European reparations. Report of the organization committee for the in-

ternational bank will be examined by financial experts and delegates.

The Japanese delegation to the London Naval conference reaffirmed their policy.

M. Wakatsuki, chief of the delegation, said Japan would demand seventy per cent of the American and the British strengths in cruiser tonnage, would insist on retaining submarines for her defense, and would be willing to consider prolonging the age-limits of capital ships if anyone proposed it.

Affirms Attitudes
Foreign Minister Grandi of Italy, who will lead the Italian delegation, affirmed that the American and Italian attitudes were in harmony.

In the Orient there were signs of increasing restiveness. The India

national congress, a powerful body led by Mahatma Gandhi, voted to seek independence for India instead of being content with dominion status in the British Empire.

China proclaimed that extra-territorial privileges for foreign countries should cease on January 1, but the appointed day passed without visible change.

Rail Row Over
Russian and Chinese managers of the Chinese Eastern railway got to work again, and the Trans-Siberian Express will soon be running again over its old route.

Princess Marie-Jose of Belgium went to Rome with King Albert and Queen Elizabeth for her marriage on January 8 to Crown Prince Humbert of Italy.

The Prince of Wales also went on a journey. He sailed for South Africa to resume the hunting trip cut short by King George's illness more than a year ago.

A fire and panic that resulted in the death of 72 children in a cinema saddened New Year's festivities in Scotland.

SEMI-ANNUAL SALES ARE PLANNED BY TEXAS JERSEY CATTLE CLUB MEMBERS

WACO, Jan. 8.—Opening its twentieth annual convention here Tuesday afternoon, the Texas Jersey Cattle club was not only heartily welcomed to Waco, but assured that its best interests and the forward movement in Central Texas are securely linked and must of necessity advance hand in hand. In his welcoming address, W. V. Crawford, general manager of the chamber of commerce, urged the club to make Waco its permanent meeting place, basing his appeal on central location and the big diversification program that has been thoroughly founded in this section.

At its meeting Tuesday morning the board of directors, in addition to checking up the activities of the club for the past year, voted to recommend continuance of the semi-annual sales at Dallas and Fort Worth, provided a sufficient number of suitable cattle were consigned by club members.

Election of officers in the afternoon resulted as follows: President, Jack Shelton of Lubbock; vice-president, Fred C. Newport of Itasca; treasurer, J. W. Ridgway of Fort

Worth; secretary, D. T. Simons of Fort Worth.

Two Guests Die In Kansas Hotel Fire

PITTSBURG, Kas., Jan. 8. (P)—Two guests of the Wick hotel here were burned to death and five injured today by fire which forced 74 persons to flee from the hotel and which seriously damaged the hotel.

Authorities were investigating reports of incendiary.

Flames blocked the front stairway and entrance of the three-story hotel, and guests leaped from windows and slid down ropes to safety. Few had time to dress, and many braved blizzard conditions in night clothing. The building had no fire escapes.

The dead are Clarence Parker, foreman of the Kansas City Southern railroad round house, and Ralph Dennis, 19, of Pittsburg.

Bloomers are named after Ann Bloomer, who was the first woman to wear this type of dress.

FIVE OF ONE FAMILY DIE IN EXPLOSION

ONLY YOUNG TWINS ARE LIVING AFTER GAS FIRE IN HOME

(By Associated Press)
INDIANAPOLIS, Jan. 8.—Six months old twins were the only survivors of a family of seven following an explosion and fire late Tuesday in the west side home here of Donald Kluesener. The explosion resulted when kerosene or gasoline was poured into a stove in an attempt to kindle a fire.
The parents and three children died in a hospital a few hours after the fire. The dead were:
Donald Kluesener, 31, the father.
Mrs. Mattie Kluesener, 25, his wife.

Donald Kluesener, Jr., 3.
Mary Alice Kluesener, 6.
Florence Lott Kluesener, 5.
The two survivors, Evelyn and Everett Kluesener, twins, also were taken to the city hospital. Both babies were burned about the head and shoulders. Hospital attaches today said the infants have a "fighting chance" to live.
Shocked and pained by her burns, Mrs. Kluesener entered the room where her husband had fallen to the floor and carried the three children several feet to a window, dropping them outside. She then ran to the porch and screamed.
Carl Merrick, a neighbor, entered the smoke filled bedroom to rescue the twins.

PLANS FOR SIX CYLINDER AUTOMOBILE BURNING CHEAP OIL ARE REVEALED BY INDIANA MAN; PLANS TO ENTER RACE

BY OSCAR LEIDING
Automobile Editor
Associated Press Feature Service
NEW YORK, Jan. 8. (AP)—Plans for a six-cylinder automobile burning cheap oil were revealed today by C. L. Cummins, Columbus, Ind., following a 72-mile trip in a Diesel powered car at a fuel cost of \$1.28. The engine will be constructed for use in the Indianapolis Memorial Day race for a demonstration of the reliability and economy of oil burning cars.

To Cut Pit Stops
"We do not expect to win the race," Cummins said, "but by carrying a fuel supply that will last for the entire grind we hope to eliminate pit stops and to maintain a speed of 80 to 85 miles an hour." Decision to build the engine came after the successful trip from Indianapolis to the National Automobile show here a trip viewed by the inventor as "a laboratory experiment to see if the engine could stand a cross-country trip."

Can Be Controlled
The engine mounted in the automobile is a standard 4-cylinder marine type Diesel with a throttling device which allows the driver to control it like an ordinary gasoline motor.

Cummins' engine, the result of 12 years of work in the field, differs from ordinary Diesel engines in that the fuel is gasified before being injected into the cylinder.
Oil from which gasoline has been extracted by distillation, is used. The injector of the Cummins is a miniature still which "cracks" the oil under pressure and extracts what gasoline remains.

Oil Burns Up
Each charge to the cylinders is one-third the size of a grain of rice. Injected into the cylinders, the gasoline is ignited and furnishes enough heat to burn up the remaining oil that does not "crack."

There are no spark plugs in the motor. The ignition is taken care of by red hot air. The cylinders draw in pure air and subject it to 500 pounds pressure which creates a temperature of 1,000 degrees. The fuel then is injected.
In one-third hundredths of a second the tiny bit of fuel is measured out, delivered to the "still," boiled, gasified and burned. The fuel costs as low as five cents a gallon.
To Suit All Needs
"The trip laid the foundation."

BUS TRAFFIC IN AREA IS PRAISED

Service and equipment of bus and truck service in and out of Lubbock are very good, according to a report made here Tuesday afternoon by J. H. Edwards, of Merckel, member of the State Railroad Commission, bus line division, who made an inspection of conditions prevailing here.

"There are some minor details, however," he said, "which are not up to standard requirements of the commission."

"A state law is in effect at this time requiring all operators to have licenses, also that insurance must be carried by both busses and trucks for the protection of the public. I received some reports that several operators were evading this law in the Lubbock vicinity. A rather severe penalty is attached to failure to meet the requirements and all operators should see that their lines get in line at once."

Mr. Edwards left last night for Plainview and Amarillo where he also will make inspections.

FORT WORTH, Jan. 8. (AP)—Two women were injured, one perhaps seriously, and their automobile crushed when struck by a Missouri-Kansas-Texas passenger train here Tuesday.

PROHIBITION FIGHT IS LOOMING; WAR CHIEF TO ADDRESS MEET

(By Associated Press)
BOSTON, Jan. 8.—Major General Clarence R. Edwards, retired war-time commander of the 26th (Yankee) division, today agreed to address the Associated Organizations Against the Prohibition Amendment at a meeting called to launch a nationwide demonstration against prohibition. Preliminary plans provide for simultaneous parades in many cities and the depicting of episodes attributed to the enforcement of the dry laws.

General Edwards' agreement was reached at a conference today with A. Fritz Roy Anderson of the associated organizations against the prohibition amendment. The meeting will be held at a luncheon attended by interested organizations January 15 at a place to be announced later.

General Edwards, in announcing that he would address the luncheon said: "I have served 50 years in the army and I have had as much experience with youth as any man. I think youths have vision, greater than the average. But I am convinced that this prohibition law is the saddest thing that ever happened to America. I think it is making us a nation of hypocrites and that it is proving a cancerous growth to youth."

HOOVER ATTENDS CURTIS DINNER

WASHINGTON, Jan. 8. (AP)—Herbert Hoover last night attended the first social affair to draw him from the White House since inauguration, except for his brief appearance at a "stag" party given three months ago by Secretary Stimson in honor of Ramsay MacDonald, premier of Great Britain.

The President at the dinner hour was the guest of Vice-President Curtis and Mrs. Dolly Gann, the sister and official hostess of Mr. Curtis. The dinner was at the Curtis apartment in the fashionable Mayflower Hotel. As soon as it was over Mr. Hoover attended a reception in his honor at the Congressional club, an organization maintained by the wives of the members of the house and senate.

Because of a severe cold Mrs. Hoover was unable to leave the White House, and the chief executive attended both functions alone.

HEALS BURNS LIKE MAGIC

Nearly everybody knows Mother's Salve, the favorite healing ointment which has been used for over a quarter century. Quickly heals burns, scalds, bruises, cuts, chaps, and prevents infection. Stops irritation and pain. Mother's Salve is pleasantly scented, easy to use and quick to act. Full directions on every jar. It is for sale and recommended by all druggists. Two sizes, 25c and 50c. Vaporize "Mother's Salve" for Colds.

Adults, Too, Prefer 'No Dosing' For Colds

Millions Adopt External Remedy Made Famous as Treatment for Children's Colds

A generation ago when Vicks VapoRub was first introduced, the idea of treating colds without dosing was almost unheard of. It was the custom then to give large doses of internal medicine for colds and almost every human ailment. Today, the whole trend of medical practice is away from needless dosing.

Equally Good for Adults

Mothers of young children especially have been quick to appreciate this modern external way of treating colds, because there's nothing to swallow and of course, nothing to upset the little ones' stomachs. Year after year more and more adults, too, have found Vicks equally good for their own colds.

Acts 2 Ways at Once
Just rubbed on Vicks acts thru the skin like a poultice or plaster, drawing out tightness and soreness. At the same time, the heat of the body releases medicated vapors which are breathed in direct to the inflamed air-passages, loosening the phlegm and easing the difficult breathing.

New "25" Million
The ever-increasing demand for this better method of treating colds is shown in the figures of the familiar Vicks slogan. First announced when Vicks reached "17 Million Jars Used Yearly"—later raised to "21 Million"—these figures, too, have been outgrown, as there are now "Over 25 Million Jars Used Yearly."

Art Lecture And Church Party In Foreground On Tuesday

Professor F. A. Kleinschmidt Speaks On First Night Of Painting Showing

Prof. F. A. Kleinschmidt, head of the Architectural department at Texas Technological college, lectured on "Art" Tuesday evening in the auditorium of the Engineering building following the first showing of portraits in the Seventh B Circuit Exhibition on display there for the next few days.

"Too many people try to give their impression of a painting after a few minutes study of it," said the lecturer in part. "Time is necessary before appreciation may be expressed. One is constantly adjusting himself to new ideas and ideals and at least six months' time should be given to allow for a proper perspective. Thirty or forty minutes appraisal is not long enough for one to express an opinion with authority."

The lecturer declared that in judging a piece of art the critic should keep in mind what the feelings of the painter were at the time he did his work.

Gives Definition
"A painting is a beautiful thing in which the artist has revealed his own soul, and when given time will bring the one who views it to a deeper appreciation of living," Prof. Kleinschmidt said.

A brief sketch of the influence of Manet, and Courbet who were the first to sketch the out-of-doors from a natural viewpoint, and Monet, who greatly influenced modern artists in breaking light into different colors, was given by the speaker who declared that no period of art is harder to understand than that of the present day.

Facial Expression
"Art has gained hands with science but in many instances extremes have been reached," he declared. One favorable thing, however, in modern portrait painting is that facial expression is necessary to make the picture powerful. There is a time when in painting the portrait of a gentleman a gorgeous costume is necessary and the face counts for little but on the contrary the custom tailored clothes of today are adopted by men almost universally and the character of the face make the picture while small attention is paid to the apparel."

On Display
Among the portraits on display are those of "Portrait of Ed Hilton" by Ruth More Augur of El Paso, Texas, a native of Austin.

Miss Augur paints in oils and is a sculptor and writer of art. She studied in Denver, Colo., and in the New York School of Art and has exhibited work in Denver, Los Angeles, Santa Fe, El Paso, and New York. Miss Augur was awarded a scholarship in the New York School of Art and is a member of the Southern States Art League.

For her "Texas Landscapes" Mrs. A. J. Bell of San Antonio was awarded a silver medal with honorable mention by the jury of the ninth annual Exhibition of the Southern States Art League. She is a native of Texas and has lived in this state all her life, studying in the San Antonio Art school under Jose Arpa. She was awarded honorable mention in 1927 in the All-Texas Exhibition, and the Texas Wild flower contest.

The exhibition included a number of very interesting studies of nature, portraits, and scenes of a various nature. The public invited to view the showing which is free.

"Cub" Social Given For Presbyterian Young People; Fifty-Five Are Guests

Unique in every detail was the "cub" party given for the young people of the First Presbyterian church Tuesday evening at the country club. Fifty-five guests were present for the occasion and the newspaper motif was stressed in all of the games.

Miss Marjorie Ann Alsworth was general chairman of the function. Miss Beth Wulfsberg was chairman of the refreshment committee, and Hubert Hopper was chairman of the transportation committee.

Games for the evening were directed by Miss Virginia McLean, educational director of the church. The first was a get-acquainted game called "interviews" in which all guests interviewed the others present as to their names, home-towns and any other desired information. This was followed by "headlines," in which the width of each person's forehead was measured. A clever news contest was followed by "editorials" in which suitable subjects were chosen for editorials and were expressed in pantomime. A polo and tight rope walking were given under the head of "sports." Then came "fashion news," a contest in which the girls drew pictures of the dresses they were wearing, and the boys wrote descriptions of the dresses. Lollypops frocked in stylish costumes were given as prizes in this contest. A contest called "beauty column" was held as the concluding game. In this contest the guests drew faces on paper sacks, placed the sacks over their heads, and the best face won the prize.

Program Is Given
A program, given just before refreshments were served, included three violin selections by Hennig Daumermeister, a story by Miss Kate

Presley, and piano selections by John Cook.

Items On Beauty To Be Published

As a courtesy to women readers of the Avalanche-Journal publication, the newspapers will publish each day, beginning tomorrow morning, an article on health, beauty and charm by Eve VeVerka, famous beauty and noted authority and lecturer on the art of charm and beauty, who will conduct a school here February 3-5, inclusive.

What are charm and beauty? Are they gifts showered on some by the gods, and are women not valued with these attributes out of luck? Or can beauty be cultivated?

These are some of the questions dear to the hearts of the feminine sex that are answered by Eve VeVerka in her articles.

Beauty means more than good features, according to the famous beauty and author, who teaches that charm is partly without and partly within. She likewise contends that real beauty must have a background of mentality, health and personality.

Those following the daily articles by Eve VeVerka will find that her beauty hints are not confined to the mere dabbing of the nose with a powder puff.

Read Eve VeVerka's close-up stories on beauty and you will learn many of the mysteries that have puzzled man and intrigued women down the corridors of time. The first article is to be given tomorrow.

TEACHERS TO PLAN FOR FIVE-YEAR PROGRAM OF WORK IN STATE

(By Associated Press)
FORT WORTH, Jan. 8.—Directors of the Texas State Teachers' association will outline a five year program aiming at educational reform in Texas at the first meeting since their election in November at association headquarters here Friday and Saturday.

Mapping of the five year plan is one of several important items included in the order of business prepared by R. T. Ellis, executive secretary, today. The directors will fill thirty five elective offices in the Texas Education commission, select the 1930 meeting place of the association, appoint one member on the board of trustees of the Texas State Teachers' association permanent fund and complete preliminary plans for the permanent headquarters building in Fort Worth.

Houston, Galveston, Amarillo and Mineral Wells are asking for the 1930 convention.

COURT MARTIAL OF GUARDS DELAYED

NEW LONDON, Conn., Jan. 8.—The general court martial of coast guardsmen implicated in stealing and drinking liquor from a captured rum running boat struck a snag today.

Delay in preparing charges as prescribed by government regulations prevented the court from hearing any of the 29 cases still before it, and it turned its attention to consideration of a guardman who deserted, but not in connection with the Flor Del Mar affair.

Thirty-nine men were involved as a result of the hurried unloading of the Flor Del Mar's cargo of whiskey, and ten already have pleaded guilty to intoxication. They were aboard their ships today awaiting a review of their sentences, not made public by officials in Washington.

Meanwhile patrol boats and destroyers were out in the coastal waters of New England hunting for other liquor smuggling craft which might be attempting to make shore. At least 150 rum vessels comprise "rum row" off the New England coast, according to Captain H. H. Wolf, commander of the destroyer force. This number, he said, includes only those regularly engaged in the illegal traffic and not those who take a chance now and then.

MISSOURI MURDER MYSTERY FURTHER CLOUDED BY FINDING OF MAN'S BODY

(By Associated Press)

INDEPENDENCE, Mo., Jan. 8.—One mystery that has gripped northeast Jackson county for two months was solved today with the discovery of the body of George Hostetter, accused as the slayer of two persons, and another was investigated when officials announced Hostetter had been slain.

Sheriff's officers at first said the former trapper and prospector had died of gunshot wounds, leading to the belief he had committed suicide, but later announced Hostetter apparently had died from knife wounds about the throat, or a fractured skull. They said he had not been shot. Near the body was found a shotgun and a fully loaded pistol was in a holster strapped about his hips.

Hostetter's body was found by James Newhouse, a tenant farmer, in a hay shed fourteen miles northeast of here, which he visited today for the first time in several weeks. Hostetter had been missing since the night of last November 3, when Mr. and Mrs. Albert Weddle were killed by an assassin who fired shotgun charges through a kitchen window of their farm home near Shiley, Mo.

Mr. and Mrs. Weddle had objected to the proposed marriage of Hostetter to Miss Mary Jane Hunter, 42, cousin of Mrs. Weddle, who lived on a nearby farm.

Bootleggers Not Liable To Pay Tax On Business

NEW ORLEANS, Jan. 8.—The Fifth United States Circuit Court of Appeals here today held that prohibition law violators convicted and sentenced are not liable to pay the government a revenue tax for their illegal business.

The court reversed a decision of the Louisiana district court, in which Judge Ben C. Dawkins instructed Anthony La Franca after his conviction and fine to pay the government a liquor dealer's tax amounting to \$2,004.68.

The suit for tax payment was brought by the government as a test case of the double revenue penalties under a clause of the national prohibition act.

DISCLOSURE PROVISION OF VERMONT'S PRO LAW DECLARED UNCONSTITUTIONAL

(By Associated Press)

MONTPELIER, Vt., Jan. 8.—The disclosure provision of Vermont's prohibition enforcement law requiring those found guilty of intoxication to tell where they procured their liquor was pronounced unconstitutional by Chief Justice George M. Powers in an opinion handed down in Vermont supreme court here today.

The act was passed as an amendment to the enforcement law by the legislature in 1921. In declaring it unconstitutional today Chief Justice Powers stated "the legislature of Vermont, in its zeal to add strength to the Vermont prohibition law, attempted to take from a citizen a part of the privileges guaranteed to him under the constitution of Vermont."

The chief justice quoted article 10 of the constitution which, in speaking of a citizen's rights in court, said, "nor can he be compelled to give evidence against himself."

THE TINYMITES

BY RALPH C. LANE

(READ THE STORY, THEN COLOR THE PICTURE)

The monkeys jumped out of their cage. At first they chattered in a rage. The Tynymites excited them. They knew not what to do. "These lads are friends," the bear man cried. "Now don't you run and try to hide. We merely want some tricks so all this bunch can cheer for you."

"Just take their bike and ride around, but do not slip upon the ground. Remember that the bike is

are off," the bear man loudly roared. And then he added, "Careful now, and do not try to race."

My, 'twas a sight to see. The monkeys, as proud as they could be, began to ride right through the snow, each one upon a seat. You see, there were four seats in all; and 'twas unlikely they would fall. "Oh, they are clever," Clowny cried. "This really is a treat."

Around and round the monkeys went. About a half an hour was spent in simply riding up and down along a snowy lane. "Come on, do tricks," the bear man cried. "Step out and stage a fancy ride, I do not want the Tynymites to be waiting in vain."

The monkeys did as they were told. With their long tails they'd grab a hold of handlebars and everything and swing out through the air. It seemed, most any time they'd drop and take a very snowy flop. 'Twas so exciting that it gave the Tynymites a scare.

(A monkey plays a mean trick in the next story.)

PRESSURE IS
FELT ON MARTPRICES HEAVY TODAY
ON OPENING; FEW
SHARES GAIN

NEW YORK, Jan. 8 (AP)—The stock market was distinctly heavy at the opening today. Westinghouse Electric opened 2 1/2 points lower, while Union Carbide, Colby and North American lost about a point each. Radio and General Electric sagged 1 1/2 and U. S. Steel 3/8. Among the few firm spots were Columbia Gas and Missouri Kansas Texas, opening 1-2 higher.

Considerable bear pressure was evident in early trading when about a score of issues were depressed from 1 to 5 points, but by the end of the first half hour, rallying tendencies appeared, with an upturn in General Electric, which converted an early loss of 1-2 point into a gain of 1 point.

LEGAL NOTICES

39.—Legal Notice.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Lubbock County—Greeting:

You are hereby commanded to summon J. O. Clapp by making publication of this Citation once in each week for four successive weeks prior to the return day hereof, in some newspaper published in your County, if there be a newspaper published in Lubbock County; but if there be no newspaper published in said Judicial District, then in a newspaper published in said District, to said J. O. Clapp, to appear at the next regular term of the 99th District Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in January, A. D. 1930, the same being the 13th day of January A. D. 1930, then and there to answer a petition filed in said Court on the 13th day of December, A. D. 1929 in a suit, numbered on the docket of said Court No. 2,977, wherein Ethel Clapp is plaintiff, and J. O. Clapp is defendant, and said petition alleges marriage to and separation from defendant; residence in the State and County for the statutory time, and cruel treatment as grounds for divorce; that defendant assaulted plaintiff with his fists, he drifted into crime and is now a fugitive, and has failed to support her. She also asks for the custody of her five year old daughter, Maxine Clapp.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, on this 17th day of December, A. D. 1929.

"I was in a Serious Condition and Tried All Kinds of Medicine But Orgatone Is Only Medicine Gave Me Relief," Says Brownwood Housewife

"I have gained in health and strength on one bottle of Orgatone and feel years younger," said Mrs. Hester Lee, of 915 Victoria St., Brownwood, Texas, while at her home recently, talking with an Orgatone representative.

"I was in a very much run down condition," she explained, "from stomach trouble and most everything I ate, gave me trouble. My food would sour on my stomach, and from gas that made me miserable for hours afterwards. I had liver trouble and severe intense pains in my sides which hurt me so bad at times. I thought I had heart trouble. My nerves were all on edge so I got very little sleep at night and when morning came I was almost as tired as when I went to bed. I had terrible headaches and felt so wretched and no account. I hardly had any life or energy left to do anything."

"I heard so many people telling about the good that Orgatone had done them that I decided to try it. The way it took hold of my troubles was one grand surprise to me and I hardly know how to begin to tell all the benefits I have derived from using it. I feel better than I have felt for several years. I eat anything I want now and don't have the least trouble afterward. I sleep and rest fine every night and those terrible pains are all gone and my liver seems to be in perfect condition now. Orgatone has been a fine thing for me and I am glad to recommend it to others from my own experience with it."

Genuine Orgatone may be obtained in Lubbock at Bowen's Drug Store.

TRADES ABUSE TO BE HALTED

U. S. OFFICIAL STATES
GOVERNMENT WILL
WATCH WORK

(By Associated Press)
WASHINGTON, Jan. 8.—Assurance that the government would move instantly to halt any abuse of speculative privileges in livestock futures trading—a market innovation proposed by the chief livestock exchange—was given today by A. W. Miller, chief of the Packers and Stockyards administration at the agriculture department.

The promise of regulatory measures followed conferences with officials of the exchange who outlined a plan to set up a board of trade at the Chicago stockyards to deal in the future market of hogs, along lines somewhat similar to the current trade in grain futures.

"Should trading in livestock futures show a detrimental effect on either the producer or the buyer or should there be any discrimination in market transactions," Miller said, "we would immediately make use of our power to correct the objectionable practices or stop all futures operation."

As interpreted by Miller, the exchange proposes to make it possible for the farmer who had hogs that would be ready for market within 30 days or so to sell part of them on the board of trade. If it offered a price for future delivery which would protect him against a possible decline before he was ready to ship.

tinent for legislative enactment, having tax experts. He says that the chamber hold nothing against the tax experts "per se" but insists that the practice is flagrantly abused in many districts.

"We want to turn the spotlight on tax experts so brilliantly that every thread of it shoddy fabric will be revealed to public gaze," he said recently in a speech at Dallas.

He said that in one instance a tax expert collected \$21,000 from a Texas county in commissions for 10 days work.

A FLYER CAN TELL YOU ABOUT LUBRICATION

SURE it's cold up there. It's cold down here, too. It used to take me half an hour to get the bus started on mornings like this until I got hold of -TP- Oil. With -TP- it's as easy to start in winter as in summer and you get perfect lubrication all the time. Better try it in your car. They make it for automobiles, too, now."

-TP- Oils are the latest development in scientific lubrication. They are produced from pure, paraffine-base crude by a process for which patents are pending.

This process has marked advantages over other methods. It preserves all the

lubricating bodies of the crude oil just as they occur in nature. There is positively no blending of light and heavy oils to produce various grades. It removes all the paraffine wax.

In terms of performance this means perfect lubrication at all times, smoother, more efficient operation for your engine, longer life, reduced repair bills, and more mileage. It means easy starting in winter with the same grade of oil that you use in summer—the one best suited to lubricate your engine.

It is wise economy to pay 45c a quart for -TP- Oil.

Slaton Ginnings To Be Near 7,000 Bales

SLATON, Jan. 8 (Special).—The six Slaton gins had a total of 6,804 bales of cotton for the season when a check-up was made Saturday. Two of the six have closed their season's work, but the other four will operate on the two following Saturdays, accommodating the few remaining farmers who have scattering cotton to gather. It is thought the final total may possibly reach the 7,000 mark, which would be 1,000 bales more than last season.

formia and his work for the cause of prohibition. "Charles F. O'Neill, As a Business Man," was presented by J. R. Fox, who, after many associations in reality projects, characterized the former Rotarian as "infinitely honest and above-board, even in the most minute details." His business associate, W. R. Blake, spoke of Mr. O'Neill as a friend and in that light compared him to the mountain crags which tower over the lowlands.

Jennings Makes Talk
Rev. Walker P. Jennings, pastor of the First Christian church of which Mr. O'Neill was a deacon, made a touching address on the deceased as a churchman who lived throughout the life of a Christian gentleman.

Charles F. O'Neill, Jr., high school senior, who with his brother, Roddy, were guests, thanked the club for its tribute and J. J. Clements, president, closed the meeting with appropriate remarks.

Slaton Is Making City Improvements

SLATON, Jan. 8 (Special).—The City commission has let the contract for cleaning and painting two large city water tanks here. Also, the name "Slaton" will be painted in large letters on one of the water

towers, located in the uptown district. The lettering is intended as a helpful guide for aviators, according to Mayor W. G. Reese.

COURT DECISIONS

(Continued from page one)

Pinto county jury on an indictment charging him with the murder of his wife, won a new trial. He had been given five years in the penitentiary.

The case was reversed because the trial court refused to permit the introduction of testimony of a physician who attended Mrs. Green after she was shot, quoting the wounded woman as declaring the shooting was accidental. Green said a person had come to his home to trade for a pistol. After he claimed it would not shoot, he undertook to demonstrate that it would shoot and that Mrs. Green, hearing the first shot, rushed into the room and into the line of fire. Green testified he was intoxicated at the time. The homicide occurred on September 11, 1928.

Tahoka To Banquet On February 11th

TAHOKA, Jan. 8 (Special).—February 11 has been set as the date for the annual banquet of the local chamber of commerce at which officers for the year will be installed. Practically every business house in town will be represented at the meeting, and the officials of the organization say they expect to report a greater list of accomplishments during the past year than has ever been reported since the

town has had a chamber of commerce.

Women defy cold weather better than men, in spite of their scantier clothing, because, declares a European expert, they keep more cheerful, look on the bright side of things and take better care of their bodies.

Italy now has 3,500 co-operative buying societies operating nearly 3,000 stores.
