EXPLORER REACHES COPENHAGEN TODAY

CROWDS GREET THE DISCOVERER WITH CHEERS AS HE DISEMBARKS THERE

ENTERTAINED BY PRINCE

In an Address He Says He Can Clear Away Any Doubts That May Exist.

By Associated Press.

Copenhagen, Sept. 4.—The steamer "Hans Egede" arrived this morning at 10 o'clock with Dr. Frederick Cook on board, back from his trip to the extreme north.

Great crowds greeted the explorer with cheers as he was escorted ashore by Prince Christian and an immense crowd followed the procession through the streets to the Meteorological Institute, where he made a brief address.

Dr. Cook said that he had left at the north pole, an American flag and a box containing documents and data to bear out his claim. Cook said with emphasis to a press representative:

"I have been to the North Pole and brought back the most exact observations possible, absolutely proving my statements. I kept a diary throughout the entire expedition, in which I recorded the most minute details each day."

Dr. Cook says he discovered two hitherto unknown islands.

By Associated Press.

Copenhagen, Sept. 4.—When the party stepped on shore the police were powerless to make way for them. Cook and those about him were engulfed and swept along by a clamorous crowd. Together the party fought its way desperately to a point near the Meterological building. Cook was bruised and capless and part of his sleeve was torn away. The party finally succeeded in reaching the balcony of the institutes.

By Associated Press.

Rome, Sept. 4.—The entire Italian press is extending enthusiastic welcome to Dr. Cook. Captain Cagni, who accompanied Duke Abruzzi to the polar regions, admits that Cook is the first human being to reach the pole, now that he has more complete information on the expedition.

By Associated Press.

Copenhagen, Sept. 4.—King Frederick received Dr. Cook, the explorer, at a private audience this afternoon. The audience lasted half an hour. The queen and three daughters, Princesses Ingeborg, Thyra and Dagmar were present.

SECOND RECENT WRECK IN PENNSYLVANIA TODAY

By Associated Press.

New Castle, Pa., Sept. 4.—A wreck of the Royal Blue Limited on the Boston and Ohio Railroad early today, is believed to have been caused for the purpose of robbery of the express car, which is known to have carried a large sum of money. The wreckers removethe north rail inside and pulled out the spikes.

The wreck occurred at Chewton, Pa., the entire train being thrown from the track and all the cars toppled over, slipping with force down the small embankment. Engineer Dill and Baggage Master Wheateroft were crushed, dying instantly.

Thirty to fifty passengers were hurt, and three, it is believed, are fatally injured.

By Associated Press.

Pittsburg, Pa., Sept. 4.—The officials of the United States Express Company here state that there was no money aboard the Royal Blue Limited which was wrecked near New Castle today. This seems to eliminate the theory of robbery as a motive for the wreck.

By Associated Press.

Baltimore, Md., Sept. 4.—Vice-President and General Manager Potter of the B. and O. Railroad today offered a reward of twenty-five thousand dollars for the arrest and conviction of the persons guilty of wrecking the train at Chewton, Pa., last night.

By Associated Press.

New Castle, Pa., Sept. 4.—E. P. Kavanaugh, chief boiler inspector of the B and O., died at a New Castle hospital as a result of injuries received in the wreck.

Railway police say the wreck was the work of railroad men, as the manner of extracting the bolts from the rails and the removal of fish plate was done in a way indicative of experienced workmen.

EMBARGO AGAINST TEXAS ONCE MORE

OKLAHOMA RESUMES THE FIGHT AGAINST IMPORTATION OF CATTLE THERE.

OPENING OF OSAGE LAND

Business Men of Reservation Plan a Mass Meeting to Combat Ranch Tendency.

By Associated Press.

Bartlesville, Okla., Sept. 4.—"The time has come to supplant Texas cowmen with industrious, reliable farmers."

This is the subtsance of a call issued today to the business men of the Osage Reservation, in view of the fact that the reservation is shortly to be thrown open to settlemtnt by the government next month. The purpose of the meeting, to which all land owners have been bidden, is to prevent the further importation of Texas cattle.

The call is signed by a dozen of the leading business men of the reservation.

Just what course is open to the Oklahomans to prevent the importing of Texas cattle, is not clear. It will be remembered that there was an embargo against Texas cattle some time ago, as an indirect result of which three Texas ranchmen were lynched in Oklahoma. The previous attempt, however, was unsuccessful.

The Osage Reservation is to be thrown open by the government for settlement next month, and it is with the view of having the land occupied by small farmers, rather than by the extensive ranches and cattle, that the mass meeting has been called. Interesting developments are promised.

COTTON OUTLOOK VERY GOOD NOW

RECEIPTS BEGINNING TO PICK UP. FIRST BALES ARRIVE IN THIS COUNTY.

SIGNS ARE OPTIMISTIC

Small Receipts Along the Southern. Northwestern Points Making a Good Showing.

The movement of cotton in Wichita county and in this section of the state is well under way and already a large number of bales have been received at points in this county. Picking is steadily in progress throughout the county.

To date, Wichita Falls has received nine bales by wagon, the eight and ninth coming in this morning. This does not include a few bales that have been shipped to the compress here by rail.

Burkburnett, Iowa Park, Electra and ther points have already received their first bales and the yards at these places report small but steady receipts during the past week. Wichita Falls received the first bale in the county, being followed by Iowa Park and the other localities.

Olney and other points on the Southern have received several bales each, and the Oklahoma towns along the Northwestern have had steady receipts, more than their Texas neighbors.

The average yield for Wichita county will hardly exceed one-fourth or one-fifth, although there are a number of farms that will make as good as a half and one or two that will come close to a bale per acre. The latter, however, are mostly irrigated tracts.

JOY 'O LIFE.

Oh! the Joy o' Life she calls me from the valley,
Oh! the Joy o' Life, she hails me from the height,
And her voice is like the thrill of the thrush when noon is still,
And her laughter is the lilting of delight.
I follow through the sunshine and the moonshine—
(Oh, I have seen the waving of her hand!)
In the paths that know the fleet, flying touches of her feet
At the music of her mocking of command,
My friend—I left him fasting at my threshold—
My sweetheart is another man's to wife,
For it's fare ye well my own, and it's laugh and turn alone,
When a man has heard the voice of Joy o' Life.

A very pretty moonlight picnic was indulged in by a party of young people on Saturday evening. Dr. and Mrs. Brunside, Mr. and Mrs. McGregor, Mr. and Mrs. Patterson, Mr. and Mrs. Gorsline and Mr. and Mrs. Richolt chaperoned, and the well filled baskets, the beautiful evening and the congenial crowd made the picnic one of unusual pleasure. Those composing the party were Misses Blanche Slager, of Fort Worth, Cora Lewis of Paris, Lucille Brooks, Sadie ,Willie Mae and Carrie Kell, Miss Gibson, Adelaide Gibson, Esther Gorsline, Vivian Mathis, and Messrs. Durland, Tuttle, Britton, Walker, Avis, Clark, Hines, Wm. Huff and Mr. Priddy.

Lawn Party.

Mr. and Mrs. Alex Kahn's home was the scene of much gaiety Monday evening when their daughter little Miss Thelma celebrated with a lawn party given to a great host of her friends. The hours were from eight to ten p. m. The susual lawn games were played; and the merry shouts of laughter which rent the air testified that all present were enjoying the occasion with all the ardor of their young souls. Refreshments consisting of punch, cream and cake were served. The following children were invited: Lillian McGregor, Alice and Margaret Brunside, Lillian Fain, Dorothy Beavers, Pauline Richolt, Annette Walsh, Ethel Raney,Mary Barnett, Mable Higgs, Ione Skeen, Lela Bell Anderson, Teetles Hall, Louise Montgomery, Lillian McCrery, Louise Grove, Annette Davis, Ruby Moore, Helen Stone, Bernice Jackson, Nina Cook, Ruby Avis, Adell Marcus, Mary Francis Collier, Annie Lee, Louise Frieze, Mary Coffield, Audrey Adickes, Laura Pomeroy, Earl Fain, Walter Hall, Robert Avis, Eugene Mathis, Willie McCune, Ruth Crowel., Leslie Howard, Shelt Waits, Luther and Henry Robertson, Edgar Gorsline, Lawrence Marcus, Wilbur Lee.

At Five Hundred.

Mrs. W. V. Keith entertained delightfully at five-hudred on tasl Saturday afternoon in honor of her sister, Miss Sarah Yeates of Fort Worth. There were two tables of guests and a very enjoyable and informal afternoon was spent.

Refreshments of delicious cream and cake were served. Those enjoying the afternoon were Mesdames Maer, Smith, Cox Darnell, Montgomery, and Misses Chamberlain and Yeates.

At Lake Wichita.

Tuesday evening Mr. and Mrs. Little chaperoned a party of young people for a more than pleasurable country jaunt, and moonlight picnic supper. The party included Misses Bonnie Skinner, Evelyn Coffield, Letha Smith, and Miss Webb, Messrs. Huff, Jones, Hendricks and Filgo.

Lawn Social.

The Sunbeam Band of the First Baptist church was pleasantly entertained Tueseday evening from five to seven o'clock at the home of Mrs. B. T. Burgess by their leader, Mrs. J. S. Stratton and Mrs. B. T. Burgess. About seventy-five of the merry little ones, ranging in ages from two to four years gathered at the appointed hour and filled the air with laughter and song until they were signaled to "line up" for the march which was beautifully rendered on the piano by Miss Mary Brown.

The colors of the band, red and white were artistically carried out in the table decorations.

Dainty refreshments of sherbert and cakes, were served at the table on the lawn. Each dish being crowned with a minature "Old Glory," which was the pleasing favor for each little guest. The leaders were ably assisted in looking after the wants of the children by Mrs. H. V. Collier and the Misses Brown.

Misses Nolen Entertain.

Miss Grace Nolan and Mr. Cliff Bullock were at home to their friends Friday evening at the home of the latter, 1301 Lamar avenue A very en-

WEATHER FORECAST.

For Wichita Falls and Vicinity —Tonight, increasing cloudiness. Cooler Sunday. Partly Cloudy weather and colder.

Twe serious propositions confront Discoverer Cook. First, he must convince the people that he really discovered the pole; second, he must show them that by discovering it, he has really done some good.

It looks like a hard job. We are a nation of skeptics and the absence of any further proof than that furnished by the Esquimaux is apt to make things harder for the discoverer. All of us probably, in our earlier days, entertained the idea that the North Pole was a tangible actual pole of wood. McCauley's Geography dispelled this fanciful conception and there is nothing at the "pole" but a big expanse of ice, surrounded by lonesomeness and the Aurora Borealis. So that it was impossible for Cook to bring back the pole itself as concrete evidence of his success.

But while some doubt may always exist as to whether or not the pole has actually been discovered, there can not be any doubt that, if it is discovered, the world in general will profit by it. In the first place it will stop the sending of exploring expeditions, which have become a nuisance. It has gotten so of late years that an explorer always sent his relief expedition out first so as to be sure of having them handy when he got there. If the finding of the pole does nothing more than stop such sky larking, it will have done some good.

The scientific value of the discovery lies in the fact that if the pole can be reached, scientists can determine the exact weight of the earth, its attraction for other bodies and other bodies' attraction for it, which information would undoubtedly be valuable, in a scientific way.

Regardless of the value of the discovery, it certainly was no mean stunt to pull off, and every patriotic American should at least feel one or two prickles shoofing up and down his spine that it is an American flag, and not a Swedish, English, Russian or German flag that is now floating at the top end of the world.

Wichita Falls regrets exceedingly the loss of the West Texas Normal, but her citizens are broad-guaged, and are not envious of the winning candidate. Canyon City is an ideal place for the Normal. In fact there were so many choice places to pick from that it must have been an exceedingly difficult task for the locating board to make a choice. But it did the work, and there is no doubt that it acted for the best interests of the state and also for the particular section which is to be served by this institution of learning.

The jury that sentenced the Amarillo real estate agent to five years for perjury was too severe. No one expects a real estate agent to be truthful, and least of all in Amarillo.

Four couples from out of town were married in Wichita Falls Thursday. While we would be glad for all of them to stay, we appreciate the motives that impelled them to start wedded lives in a good town. Nothing like a good beginning.

Eventually, perhaps, the inhabitants of Manhattan will recover from the ignominy they fell at the discovery of the North Pole by a Brooklynite.

"Bailey for president in 1912" was the legend on a banner at the Bonham speaking. But it isn't 1912 Bailey is worrying about; it's 1913.

The knockers already have their hammers busy in Canyon City. She should remember that every knock is a boost—if you get it going up.

Why wait until Wichita Falls has a bad fire to improve the water pressure? Lock the stable before the horse is stolen.

Texas cities will spend approximately a million dollars to entertain Taft. Our candid opinion is that it isn't worth it.

It certainly is consoling to Wichita Falls and about twenty-seven other towns to learn that the Governor isn't to blame.

Life insurance companies refuse to insure aviators. They prefer safe, quiet occupations like auto racing, probably.

Woman's Suffrage is Newport's latest fad and it has already lasted nearly four whole days.

NO IMPEDIMENT.

An Objection to a Wedding Ceremony That Was Overruled.

A popular politician tells a story about one of his electioneering campaigns. He had arrived about noon at a certain small station. He started out after dinner for a walk about the village, on the outskirts of which he came upon a building thronged with people.

The building was a church, and a wedding was about to take place. He edged his way through the crowd until he reached a spot where he had a good view of the bride and bridegroom and the clergyman who was about to perform the ceremony.

The church was packed, with the exception of a low, dark gallery near the roof. This was apparently deserted.

The minister proceeded with the ceremony until he came to the point where custom required him to pause and inquire if there was any one present who knew any reason why the couple should not be made husband and wife. A hush fell upon the assemblage, and every one waited in breathless suspense. Something of a sensation was caused when a voice came from the upper gallery, saying:

"Yes, I do."

All eyes were turned to the gallery, where, seated all alone in the gloom, barely discernible, was a meek looking little man, with a haggard face and disheveled hair. After the clergyman had recovered from his surprise he said sternly, "State your reason, sir!"

The suspense was turned to merriment by the little man's reply:

"I want the girl myself," he said.—London Tit-Bits.

Where He Blundered.

A Cleveland lawyer tells a story about a Milesian wielder of the pick who had been digging a trench for a gas pipe leading to a private residence—a one inch pipe.

Contemplating the excavation and comparing its capacity with the loose dirt, he shook his head in doubt. "Be this and be that," said he, "I'm thinking I'll not have room in the ditch for all the dirrt on the pile, bad cess."

"But," said a bystander, "why not Pat?"

"Sure," he made reply, "because I didn't dig it deep enough!"—Cleveland News.

DR. FRANK FANNING, THE MAGNETIC HEALER

Coming to Wichita Falls, Texas on

MONDAY, SEPTEMBER 20th

Read What Grateful Patients Say of His Wonderful Cures.

UNITED STATES SENATOR'S SON HEALED.

Palestine, Texas, January 11, 1887.

This is to certify that I was for four months last winter in an almost hopeless condition caused by rheumatism in both my legs, and what little walking I did was painful and slow, both legs being so drawn from the effects of the disease that I could not straighten them. With three or four treatments by Dr. Frank Fanning the pain left me, and I am now as well as I ever was and walk as well as I ever did. JOHN E. REAGAN.

Mr. John E. Reagan was seen a few days ago in reference to the above testimony. He not only corroborates it, but declares that he has not suffered from a single rheumatic pain since Dr. Fanning cured him over twenty-two years ago.

A STRONG ENDORSEMENT.

Wichita, Kansas, April 19, 1909.

To Whom It May Concern:

This is to certify that Dr. Frank Manning has been a guest of my house, having his offices here, for the past six weeks. I have found him a strictly conscientious and upright gentleman in every respect.

I heard, personally, the testimony of one, Mrs. Randall, of Halstead, Kansas, also Mrs. Taylor of this city, and others of this place and know them to be genuine.

I took some treatment of Dr. Fanning for nervousness, and gladly bear witness that for this trouble there is nothing better than his treatment.

I cheerfully recommend him to all.

MRS. CHARLOTTE CAMPBELL.
Proprietress of the Oxford Flats, 108 Topeka Ave.

KINDLY LETTER FROM MR. C. A. STEARNE, CITY SECRETARY OF PALESTINE.

Palestine, Texas, February 26, 1901.

Dr. Frank Manning, City:

Dear Sir:—Among your numerous friends I welcome you back to your old home and take this occasion to renew my thanks for the services rendered me long ago. You will remember when on a visit to your relatives here some ten years since, you found me on crutches suffering with an aggravavated case of inflammatory rheumatism, my right knee and foot badly swollen, you gave me one treatment which gave me great relief and after the third treatment I laid aside my crutches and for ten years have been perfectly clear of rheumatism. I have not had the pleasure of meeting you since your arrival in this city, but will call on you in a few days. Wishing you success, I remain, truly your friend, C. A. STERNE.

REMAINED CURED FOR FIFTEEN YEARS.

Houston, Texas, October 27, 1901.

Dr. Frank Manning:

Dear Sir:—Please accept my testimony as to the wonders you did for me. For nine years I suffered from prolapsus of the worst kind. Had two of the best physicians in Houston, but was releiver only temporarily. Then tried patent medicines with no better result. Could not rest day or night; in agony and distress unbearable. Was a burden to myself and family.

Having heard of your wonderful power to relieve pain, my husband induced me to consult you, but I had no confidence. After six treatments I was well and soon did all my housework. In fourteen years there has been no return of those conditions. I wish all suffering women could have your wonderful treatments and be cured. Will gladly answer any inquiry regarding my case. May God spare you for years to come to heal suffering humanity. Gratefully yours, MRS. CLARA A. YANG.

NEURALGIA AND INDIGESTION CURED.

Wichita, Kansas, April 14, 1909.

I find much pleasure in recommending Dr. Frank Fanning, the "Wonderful Magic Healer." I have been afflicted the most of my life with sick headaches, neuralgia, rheumatism and an unusual bad case of indigestion. I spent two winters in Hot Springs, Ark., and was also treated by specialists in Kansas City, without any benefit. When I came to Wichita my affliction was so great I could not look to the right or left without turning my whole body. The pain in my eyes was something terrible. I was so sick I could hardly get to the doctor's office. Think of the wonderful change the doctor made in thirty minutes, when he relieved me of my great suffering.

Before he treated me I could not sleep; almost every night would have to vomit up my food before I could get any rest. He has not only cured my neuralgia but my stomach trouble and nervousness. I eat heartily now and sleep fine, and it gives me great pleasure to recommend the doctor to any sufferer, as he has cured me of such a complication of diseases, and will ever feel glad that the "Great Healer" came to Wichita.

MRS. L. E. RANDALL.
Halstead, Kansas.

ASTHMA CURED AND STAYED CURED.

Houston, Texas, May 6, 1906.

Dear Dr. Fanning:—For some time I have thought of sending you a testimonial and I certainly think it due and hope it may be the means of doing some good by directing some sufferer to one who can cure them. You will remember when I brought my child to you; she was only three years old and had never spoken aloud nor laughed or cried like other children. She could hardly make a nosie with her voice. I took her to see you and you treated her two weeks and did not give her a drop of medicine. She has not had a touch of asthma since, her voice is strong and natural-now. When you started to treat her she had asthma like a grown person and for three years I had not had a good night's rest.

From the time you treated her the asthma disappeared and she slept as sound and sweetly as any child. She is now 16 years old and is larger than I am, and one of the strongest, healthiest girls in Houston. I shall always remember you and feel grateful for waht you did for my child. Trusting that this may guide some sufferer to health, I am, as ever, your grateful friend, MRS. A. S. MANN,
803 Walker Ave.

Dr. Fanning's Office will be in the Argyle Hotel.

We are Going to Give Twenty-six People an Opportunity to Own Their Own Homes by Paying a Small Cash Payment Down and Payments Monthly Without Interest

The Wichita Development Company owns twenty six modern bungalows on Burnett, Bluff and Austin Sts., between Third and Sixth Sts., which we have induced them to allow us to sell on easy terms, *Without Interest or Taxes*, and on which they will carry the insurance until forty-eight monthly payments have been made.

These houses are well built; have concrete foundations; all chimneys built from the ground, and are all pleasing in appearance. They are close in, the property beginning six blocks from the First National Bank. The ground is the highest of any portion of Wichita Falls which lies in the valley, as shown by the statement of City Engineer, Hinckley, which appears in this advertisement. Cement sidewalks are laid over nearly all the property, and every house has a sewer running down alley in rear. The Gas Company has laid its mains down the streets. Each house is connected with city water. Free mail delivery and a school house within two blocks of the farthest house are among the advantages. The soil is deep and fertile and trees and lawns can be grown better than in most parts of the city. When these houses have been sold, as they will be, under these extraordinary terms, and the property is occupied by owners, who will be interested in its development, property values will double.

These houses are practically new, and rent from $15 to $20 per month, and at that, are the cheapest rentals in the city. On a house renting for $15 you double the rent for 48 months and own the house without payment of interest, taxes or insurance, by paying a cash payment down of but $100.00. On a house renting for $20 per month you pay a larger cash payment but add only $10 per month to your rental.

A buys the first house listed, he pays, in cash,...	$100.00	48 month's rent saved at $15 per month.....	$720.00
He pays 48 payments of $27 each	1,296 00	Net cost of house.....	$676.00
Total cost.....	$1,396 00		

It is reasonable to suppose that with the growth of Wichita Falls the value of the property will have increased to $2000.00, in which event the purchaser will have made a net profit of $1324.00 on his investment.

Wichita Falls, Texas, Sept. 2, 1909.

The Wichita Development Co.,
Wichita Falls, Texas.

Gentlemen:

This is to certify that the property owned by your company, Blocks Numbers 121, 122, 123, 144, 145, 220, and 241 has an altitude of from 958 to 960 feet. The altitude of that portion of the city lying between Seventh St. and the Wichita Valley Ry., from North to South and between Lamar St. and Michigan Ave., from East to West, ranges from 951 to 957 feet; in other words, the property owned by your Company is from one to eight feet higher than any portion of the city, excepting such as is on the hill. Eor example, the altitude of Burnett and Third St. on your property is 960 feet. On the corner of 12th and Scott, which is in a good residence section of town, the altitude is 951 ft; consequently, should the city ever be inundated, the water would be 9 ft. in depth at the corner of Scott and 12th before it would begin to cover your property at Burnett and Third.

(Signed) L. C. Hinckley, City Engineer.

In washing glasses use a little soap first then rinse.

A pinch of boracic acid in water will allay itching from mosquito bites.

Use salt and water with a coarse brush to clean willow furniture. Dry well.

Save all soap wrappers. Smooth hot flat irons by rubbing them over the soapy paper.

If kept in a cup and covered with cold water yolks of eggs will keep fresh several days.

By pouring hot water on the neck of bottles, glass stoppers that stick may be removed.

Porcelain-lined bath tubs and wash bowls are quickly and effectually cleaned with a soft cloth dipped in gasoline.

Before boiling milk rinse out the sauce pan with a little hot water. It will prevent the milk from sticking to the bottom of the pan.

A little soda put into the water in which dried beans are cooked will expedite the process wonderfully without destroying the flavor of the beans.

To clean raisins and currants roll them in flour and then pick off all large stalks. After they are washed they must be dried before they are put into a cake.

Do not put hot jelly and preserves into cold glasses. Put the glasses in a pan of hot water and keep them there until the time has come to fill them.

Do not permit your children to become much excited and heated during the heated weather. The more quietly and hygeniaally they live, the more comfort for them and their mother.

For perspiring hands wash them in very hot water, then dry them well and dust with either lycopodium or a powder consisting of three parts salicylic acid, take seven parts and starch twenty parts. Use quite frequently.

To wash a sweater coat make soap suds with warm water to which has been added a small quantity of borax; Rub the sweater gently with the hands, rinse in several warm waters,button on a wooden coat hanger, hook to a line where the wind can blow through it and stretch the garment into its proper shape while it is drying.
