

PAMPA FIREMEN extinguished a fire in short order today when they were called to the Harrah Lease northwest of Pampa. The exhaust system of a Kewanee Oil Co. well ignited. A Windsor Well Servicing truck unit also received heavy damage when it overturned while being driven away from the blaze. (Staff Photo)

Rail Strike Threatens To Paralyze Economy

\$200.8 BILLION BUDGET

Nixon's Budget Talk Due Monday

WASHINGTON (UPI)—President Nixon will propose a \$200.8 billion budget for the next business year, with a \$5.8 billion cut in military spending, the Washington Post said today.

Pampa Attorney Considering Seeking Office

Jimmy E. Thompson, Pampa attorney and school board member, is considering the possibility of becoming a Democratic candidate for Congress from the 18th Congressional District.

Thompson said yesterday afternoon that "some people have been talking to me about it, but I haven't made up my mind yet."

If Thompson throws his hat into the political ring it would be to seek the post held by Republican Congressman Bob Price of Pampa, now serving his second term. Price has announced he will be a candidate for re-election subject to the GOP primary election May 5.

Thompson is a former chairman of the Gray County Democratic executive committee and has been a member of the Pampa Independent School District board for two years.

He was appointed to the board in January of 1968 to fill the unexpired term of Gene Steele, resigned, and was elected to the post in April of 1969.

Typhoid Carrier Isolated

VANCOUVER, B.C. (UPI)—Canadian medical authorities have isolated the typhoid carrier aboard the Peninsula and Oriental luxury liner Oronsay, which has been in unofficial quarantine here for 16 days.

However, they flatly refused to release the identity or nationality of the person believed responsible for the typhoid outbreak that has resulted in the hospitalization of 73 of the ship's passengers and crewmen.

"It's not very nice for anyone to be branded a carrier and we would prefer that other than the person concerned, he . . ."

The local recruiter is Sgt. Kenneth Baker.

designed to help provide a surplus of \$1.3 billion, the Washington Post said today.

The \$200.8 billion figure, for the fiscal year beginning next July 1, compares with government spending of \$197.8 billion for the current business year and is \$1 billion to \$2 billion less than expected, the newspaper said.

The formal budget along with Nixon's message is scheduled to be sent to Congress Monday.

The Post, citing figures it said are contained in the President's economic report, said defense spending will drop to \$73.6 billion—\$5.8 billion less than current levels—under the proposal. It said outlays for space, agriculture and veterans benefits are also below this year's level.

The Post said Nixon will endorse "a moderate degree of monetary restraint" and hint at some relaxation in the anti-inflation tight money policies.

He said Nixon, in his report, cites previous commitments for spending in such programs as Social Security and notes that the government cannot afford to pick its priorities.

Stock Heads Toward Fort Worth

FORT WORTH (UPI)—Officials say 10,000 head of stock are entered in the livestock exposition of the Fort Worth Stock Show and Rodeo.

The 10-day show kicks off today with a parade through the downtown area, led by Lt. Gov.

FORMING the steering committee for the organization of a West Texas State University alumnae chapter in Pampa are, from the left, Marylin Bowman, Thelma Bray, Joe Page, chairman, and Bill Duncan. Approximately 20 former WT students attended a meeting Thursday night in the Coronado Inn to formulate plans for organizing a WT chapter in Pampa. (Staff Photo)

Both Sides Adamant As Deadline Nears

WASHINGTON (UPI)—Contract talks which have failed to produce a settlement since they began late in 1968 again threaten the nation with a railroad strike.

Negotiators for four maintenance and repair unions and bargain for the nation's rail carriers broke off talks Thursday night. A strike next Monday appeared possible.

Chief railroad negotiator John P. Hiltz said "there are no more talks scheduled." He said the unions had indicated they would "take some action between now and Monday morning."

William W. Wimpinger, top union spokesman, said "I think there will be one (a strike)." He said the Monday deadline had been mentioned, but it was not hard and fast.

President Nixon exhausted his authority to step into the dispute after he issued a 60-day cooling off order to head off a strike last year. Congress could still intervene if a walkout transpired.

The only issue still in dispute in the two-year contract is a proposed work rules change that would permit members of certain unions to do work now being done by other unions. It was this "rules" change that caused the sheet metal workers to reject a proposed contract settlement already agreed to by the other three unions—the machinists, electricians and boiler-maker-blacksmiths.

That proposal, rejected Dec. 17, had called for a 66-cent hourly increase for the 48,000 union members by the end of 1970. The unions had agreed not to accept any proposal unless it was acceptable to all four.

There was no indication how extensive the strike, if it materializes, would be. The unions last year threatened a selective strike against a handful of rail lines to bring pressure on the industry. The

Three Charged In Yablonski Triple Deaths

CLEVELAND (UPI)—Three Cleveland men, already facing state murder charges in Pennsylvania, have been indicted by a federal grand jury for conspiracy in the slaying of nine union leader Joseph A. "Jock" Yablonski.

In a seven-count indictment Thursday, the grand jury alleged the three defendants conspired to poison Yablonski or bombing his bedroom before Yablonski his wife and daughter were shot to death New Year's Eve at their home in Clarksville, Pa.

Paul E. Gilly, 36; Claude E. Vealey, 27; and Aubran W. Martin, 23, were not in the courtroom when the indictment was returned after three days of secret testimony. They have been confined to a maximum security section of Cuyahoga County Jail, under a total of \$775,000 bond, since their arrest Jan. 21.

Gilly's wife and James C. Phillips, 22, identified as a member of the conspiracy who backed out before the killings, were named as coconspirators but not codefendants. Phillips reportedly supplied the FBI with information that led to the arrests.

WEATHER

Fair and warmer this afternoon through Saturday. High today—Lower 50's. Low tonight—Lower 30's. High Saturday—Lower 60's. Winds light and variable. High Thursday—42. Low Thursday—22. Sunset today—6:13 p.m. Sunrise tomorrow—6:47 a.m.

UP FOR PAROLE

'Boy Wonder' Serves One-Third Sentence

WASHINGTON (UPI)—One-time "boy wonder" financier Billie Sol Estes is up for parole today after serving almost five years of a 15-year sentence for fraudulent credit dealings.

Estes' case was to be considered at a hearing of the eight-member U.S. Parole Board. He has been in federal prison since the spring of 1965, three years after his multimillion dollar paper empire dissolved in debts.

The former West Texas financier from Pecos became eligible for parole Jan. 17 after serving one-third of his sentence. If granted, the board will set the date for his release from the Sandstone Federal Prison in Minnesota.

Estes, a church-going businessman, was a millionaire by age 30 and had been named by the U.S. Junior Chamber of Commerce as one of its 10 young men of the year.

He associated with famous people in 1961, for instance, congressional investigators said, he sent crates of cantaloupes to then Vice President Lyndon B. Johnson, President John F. Kennedy, Sen. Ralph W. Yarborough, D-Tex., and Jack Cox, GOP candidate for governor and senator in Texas.

Estes, then 37, was indicted April 5, 1962, by a federal grand jury in El Paso, Tex., on eight counts of mail fraud and transportation of fraudulently obtained securities in interstate commerce.

He was accused of swindling farmers to purchase nonexist-

ent fertilizer tanks and equipment for anhydrous ammonia in return for giving him chattel mortgages on the fictitious property and of misrepresenting his financial worth to the federal government in connection with grain storage.

A federal grand jury in Dallas indicted him Aug. 10, 1962, on charges of misrepresenting his financial condition made to the Commodity Credit Corp. in connection with his storage of grain for the federal government.

He was sentenced to 15 years for mail fraud and conspiracy and to two to three years on a state swindling charge—the terms to run concurrently.

Registration Deadline Near

Saturday-midnight is the deadline for registration of voters in the county.

The county tax office will be closed Saturday, but registrations will be open tonight and Saturday at Gibson's, Save-U, and Montgomery Ward. Voters may also register during regular banking hours today and until noon Saturday at First National Bank.

Registration booths are being manned by Jaycees in an all-out last minute effort to secure record number of Gray County's 15,000 potential voters.

Coed Says She'll MARRY ABDUCTOR

MANILA (UPI)—A California girl told police today she planned to marry the Filipino she said kidnapped her from a suburban college dormitory three days ago.

Police put Deborah Steven son, 20, of South San Francisco in protective custody and continued the search for her suitor, Cris Lecaroz, 23, nephew of a provincial governor and congressman.

Lecaroz will be charged with abduction, illegal discharge of a weapon and trespass, according to Police Chief Tomas B. Karingal of suburban Quezon City, where the incident oc-

Oil Truck

Damaged In Turnover

A Windsor Well Servicing Co. truck and pulling unit sustained heavy damage at 9:25 a.m. today when it overturned on the Harrah Lease, five miles west and one mile north of Pampa.

The unit with a crew of three men, was in operation at a well leased by Kewanee Oil Co. when fire erupted from the exhaust system on the well.

The truck overturned when an attempt was made to pull it away from the blaze.

No injuries were reported in the accident. A Windsor spokesman reported that Gerald Brumlow, Pampa, was in charge of the crew at the scene, but the identity of the driver of the truck had not been determined at press time today.

Pampa Fire Department dispatched two trucks from Central Station to the scene, and the blaze was reported extinguished at 10 a.m.

Damage to the well was limited to rods and tubing, according to the department report.

Mayor Notes Anniversary Of Nurse Corps

The 150th birthday anniversary of Florence Nightingale, credited with establishing professional nursing on the battlefield, will also mark the 69th birthday of the Army Nurse Corp. Feb. 2.

In keeping the observance, Mayor Milo Carlson, today signed a proclamation stating that Pampa will mark the date honoring the thousands of active and retired Army Nurses who have served their country during war periods.

In Pampa for the ceremony were Major Grant Woodbury and Sgt. Bentley Pollard, stationed with the recruiting command in Amarillo.

Sgt. Pollard, Army my Nurse recruiter, will be in Pampa Monday at the local recruiting station, 11 N. Cuyler.

The local recruiter is Sgt. Kenneth Baker.

Medical Survey Reveals Texas Women Not Abandoning "The Pill"

By United Press International

A survey of Texas doctors revealed today Texas women using birth control pills were not abandoning the contraceptive en masse because of recent testimony concerning possible harmful side effects.

The doctors said more women than usual were seeking other forms of contraceptives, such as intrauterine devices (IUD), but not in any overwhelming quantity.

The congressional inquiry into the pill has caused women in Texas to seek additional advice

from their physicians and gynecologists and to report more regularly for checkups. The Washington hearings also resulted in a long-term investigation into the effects of the pill by a number of Texas medical schools.

Dr. Raymond Kaufman, chairman of obstetrics and gynecology at the Baylor College of Medicine in Houston, said the school would join others in conducting the long term study on the relationship between oral contraceptives and cervical cancer.

Long Study Ahead

"It is a well controlled, good study that will take at least five to 10 years before we get any good answers," said Kaufman. "It will probably include hundreds of thousands of people."

Some gynecologists estimated up to 25 per cent of the 8.5 million U.S. women taking oral contraceptives were "running scared" on account of the recent controversial testimony before the Senate subcommittee. The doctors also predicted women would go off the pill "in droves."

The predictions were not valid in Texas, however. More women were seeking advice from their doctors and most of the doctors told the women the pill was "the most effective method" of contraception.

The doctors warn the women callers of the effects of going off the pill in mid cycle.

Earlier Bleeding
"We advise they will have a period of withdrawal, bleeding at an earlier time," said Dr. Alfred Laudon, head of the Dallas area obstetrician-gynecologist society.

"I advise women not to go off in midcycle because it will create different bleeding time," said Dr. Joseph F. Lattimore, a Houston gynecologist.

"It may develop in some kind of irregular bleeding" by stopping the pill in midcycle, said Lubbock gynecologist Dr. Preston W. DeShan. "The danger of pregnancy is there if some other method of contraceptives are not used."

Another result of the inquiry is more women learning about IUDs and their use. But the doctors said there has not been

a wholesale switch from pills to IUDs.

Some Changing Over

"I am not sounding the trend but more and more women are being told about IUD and about as many are going to the mechanical birth control as to any other trend," Laudon said.

"Most women will settle for whatever device you advise, mostly mechanical such as foam or the IUD," said Lattimore.

"The demand has steadily increased over the past two years for the IUD," said DeShan. "I've noticed no new spurt in

the demand and we're not running out of supply. A significant increase has been noted, however, in the use of diaphragms."

The majority of doctors felt the hearings, coupled with a subsequent abandonment of the pill, could result in an upswing in pregnancies. But Lattimore disagreed.

"I didn't experience a downswing in pregnancies when the pill became available and I don't predict an upswing now," he said. "I think people are going to plan families regardless of the birth control method."

Television In Review

By RICK DU BROW

HOLLYWOOD (UPI)—CBS TV tonight offers a midseason replacement series, "The Tim Conway Show," a weekly half-hour situation comedy about the chief and only pilot of a one-plane airline. The pilot is not too bright and bumbles a lot. The series is not likely to be sponsored by a commercial airline.

Personally, I like it when anybody undermines the Disneyland-in-the-sky image projected by the big airlines. There's an awful lot that's funny about flying nowadays, and the Conway series has a wealth of material to draw on. One of the funniest moments on tonight's premiere finds Conway sitting down next to the only passenger on his flight, saying straight into his face: "Good afternoon. This is your pilot speaking."

The Conway series quite naturally presents quite a bit of the usual situation comedy formula approach—from oddball characters to simplistic style. Above all, it has a couple of funny fellows in the chief parts—and that's half the battle.

The lead, of course, is Conway, and he's an awfully good comedian. He's the best bumbler television has had since Mertz Ingels in the fine series "I'm Dickens... He's Fenster," which also starred John Astin. Conway's costar is Joe Flynn, boss of the one-plane service. Flynn and Conway previously appeared together in the old series "McFale's Navy," and they are very well suited to each other.

In this show, they are the total personnel of the "Triple A" service: Anywhere, anytime airline. Their chief problem, among others, is getting the plane to fly. After that, their major obstacle is the pilot. He doesn't fly too well.

Tonight's premiere has some very funny moments in a slapstick, near-catastrophic flight in which Conway and Flynn think their only passenger is a hijacker because he's from Cuba. The result is panic in the air, with everyone accidentally looked out of the pilot's cabin.

I also liked Fabian Dean as an airport lunch counter proprietor who earnestly tries to run his place with the

Burglary Ring Had Plans To Move To Texas

BEVERLY HILLS, Calif.—The former police chief of San Marcos, Tex., was part of a well-organized burglary ring which operated in California but was planning to move to Texas, authorities said Wednesday.

Ex chief Wayman Dial, 35, who resigned the police post a week before he was arrested in a Beverly Hills mansion Jan. 14, is one of 11 alleged members of the ring under arrest, Beverly Hills Police Chief Joseph B. Kimble told a news conference.

Kimble said an investigation indicated there were 18 persons involved in setting up burglaries, organizing their execution and arranging to dispose of the loot in the Los Angeles area.

"One told us that if they had not been apprehended here, they were going back to Texas for the rape of San Marcos," Kimble said.

Kimble said \$40,000 in loot from California burglaries has been recovered. He said the ring had a "banker" paying expenses and a jeweler fencing the stolen property.

Wall Street Chatter

NEW YORK (UPI)—The average investor would do well to strike a balance between blue chips and the glamor and growth stocks, Spear and Staff Inc. says. Over the next several years, the glamor group and best-quality growth stocks "should show their heels to the Dow-type stocks," the firm says, "but in 1970 the ultra-depressed heavyweights have a considerable rebound potential."

The generally dull market is a reflection of the uncertainty investors feel over the economy, inflation and the tight money situation, Alexander Hamilton Institute observes. The firm recommends gradual reinvestment of surplus funds in solid stocks with reasonable price-earnings multiples.

Diseased Threaten School Sterilized

BANDERA, Tex. (UPI)—School Superintendent Marvin Schnelle said Wednesday the schools have been scrubbed and sterilized and there is nothing more he can do to prevent the spread of meningitis.

Schnelle said there was no thought of closing the schools. "We have taken all the precautionary measures we can," he said.

Two of the town's 700 school students have developed meningitis and one case has been reported of an adult.

Timmy Schmidt and Iona Clark, both 9, were hospitalized last week in San Antonio.

"The little boy is much improved," said Schnelle. "The little girl is still listed in critical condition, but she has also shown a little improvement."

"Those who have been in close contact with the children have taken medication from their family doctor. We have restituted the dishes in our lunchrooms and have thoroughly cleaned all our classrooms."

JUDICIOUS REVERSAL

COLDWATER, Mich. (UPI)—The Board of County Commissioners recently made a judicious reversal of its earlier decision not to pay District Court Judge James E. Carr the \$93.19 his robes cost.

Two weeks ago the board said the expenditure was not necessary, but it reversed its decision this week because the Michigan Supreme Court has instructed district judges to wear them.

However, the board said the county will keep the robes, no matter who wears them.

Sleep-Routed Suspects Charged In Gangland Style Killings

FORT WORTH (UPI)—Police surrounded a house on the city's north side Thursday, roused its six occupants out of bed and charged five of them with murder in last week's gangland-style killings of a 4-year-old boy, his father and his uncle.

A narcotics agent said the killings apparently resulted from an argument over heroin.

The bodies of Daniel Ramirez Jr., 4, his father Daniel Ramirez Sr., 22, and uncle Sammy Ramirez, 26, were found in a car on a deserted parking lot at a Fort Worth department store the night of Jan. 30. A total of 19 shots had been fired in the three bodies.

Couple Faces Charges

Police charged Michael J. Paprskar, 26, his wife Bonnie Faye Paprskar, 26, and three other men whose names police had not determined. A second girl picked up at the home was not charged.

They all were dressed in unkempt clothes, thrown on in haste when police announced their presence by yelling through bullhorns.

City, county and state police narcotics agent Bobby Adams. "We called out that they were surrounded," said Police Lt. Oliver Ball. "Four of them came out and surrendered. We went inside and got the other two. They were still asleep."

Ball said a machinegun was found inside the house, as well as a pistol, a rifle and a shotgun.

'Vowed to Kill'

Adams said an informant told him Paprskar had "vowed to kill Daniel Ramirez because he gave him bad heroin."

Adams quoted the informant as saying Paprskar bought heroin from Ramirez but also contained barbiturates. When Paprskar injected the heroin, the

informant said, he became very sick.

Police said none of those arrested had made statements in the case, and Ball declined to say which of those charged were believed to be the ones who actually fired the shots.

There was no indication of a motive in the death of Ramirez's brother and son.

The boy's body was found crouched in the back seat of the car.

Highlights And Sidelights From The State Capitol

By VERN SANFORD
Texas Press Association
AUSTIN, Tex. — As the January 31 deadline for voters to register draws near, Secretary of State Martin Dies, Jr., the state's election officer, issued a "last call" to those who are 21 or over.

Registration is at the county tax assessor-collector's office, but in many counties, deputies have been set up at convenient locations. Persons over 60 who live in towns of less than 10,000 or in rural areas must re-register every year.

Under the old law, persons past 60 in small towns and rural areas did not have to register, but it now is required every year. If they fail to register by January 31, they will not be able to vote in this year's important elections.

Dies also pointed out that people who will become 21

during 1970 can register before their 21st birthday. Tax office will mark on their registration certificate the date on which they will become 21 and therefore eligible to vote.

Both political parties and a number of civic groups are putting on registration drives, seeking a goal of more than 4 million registered voters this year.

OIL IMPORT WORRIES — Concern over possible federal elimination of oil import quotas caused state political and industry leaders to hoist new storm warnings.

New taxes and serious economic losses are in store for Texas if the Nixon administration scraps the import quota for the tariff system, say informed officials.

L. Gov. Ben Barnes called on the Legislative Budget Board staff to determine how much the removal of import barriers

would reduce state revenue should oil prices tumble from \$3 to \$2.25 a barrel. Import problem, together with long range appropriation commitments, could create a "very, very grave" tax problem for the legislature next year, Barnes said.

Gov. Preston Smith expressed a similar view in a press conference, terming the potential tax loss from tapering with import quotas "severe."

Democratic Senate candidate Lloyd M. Bentsen Jr. predicted that state tax revenues, 40 percent of which are derived from the petroleum industry, would "drastically decline" if the tariff system is imposed. He noted that many school districts also draw the bulk of their local revenues for public school support from the oil and gas industry.

Alvin Hope, San Antonio in-

dependent oil man, told the Texas Railroad Commission that proposals to reduce crude oil through a sliding scale tariff collected by the U.S. Treasury would be the "death knell of the domestic industry as we know it."

COURTS SPEAK — Third Court of Civil Appeals, reversing an Austin trial court, granted a temporary injunction to block the Alcoholic Beverage Commission from enforcing its tough new private-bottle-club regulations, pending trial on merits. Court said the rule is invalid because the Commission adopted no supporting findings of fact, although proper regulations could be adopted.

Third Court of Civil Appeals also held that the cost of trading stamps cannot be deducted from sales tax payments made by merchants to the state.

State Supreme Court agreed that the driver of a city bus in Dallas was not obliged to remove from his bus an unruly

passenger who later shot and killed another passenger, not liable for property damage under a contract that is not in the title chain, says the Supreme Court.

GUBERNATORIAL RACE — Texans once again will have a choice between Preston Smith and Paul Eggers for Governor of Texas.

Governor Smith was first to announce. On the first anniversary of his swearing in he stated that he would seek re-election.

Next day, Paul W. Eggers, Smith's Republican opponent in 1968, said he would make the race again.

Neither of the two men has an opponent in his respective primary, as yet.

APPOINTMENTS — Governor Smith re-appointed William W. Bond of Hillsboro to the State Board of Public Welfare where he has served since 1957.

Other recent appointments include: Rio Grande Compact Com-

missioner — Jesse B. Gilmer of El Paso (re-appointment). Committee to Study Taxation of Farm, Ranch and Forest Lands — Alfred W. Negley of San Antonio, Michael F. Frost of McAllen, Sidney J. Dean of Waco, Jay Naman of Waco and Billy W. Hoffman of Jasper.

Texas Civil Judicial Council — Hugh M. Patterson of Houston (re-appointment).

Atty. Gen. Crawford Martin named Alfred W. Walker, former Dickens County attorney, his second assistant.

AG PRODUCTS PROMOTED — State Department of Agriculture will promote the use of specific agricultural products through 1970 with its TAP (Texas Agricultural Products) program.

Fresh fruits and vegetables are being featured during January and February; red meats in March and April; watermelons, pork and eggs in May and June; and natural fibers, rice and poultry the rest of the year. A special Easter-

turkey promotion also is planned.

Fourteen thousand grocers are cooperating as are the various merchandising media.

SHORT SNORTS — Coordinating Board gave its go-ahead for an election on establishing a union junior college district composed of Comal and New Braunfels ISD's.

An Office of Child Development grant for \$107,986 will go to the Community Councils of Brooks, Jim Hogg and Zapata Counties.

A job-training contract of \$145,831 for operation of Services. Employment and Development projects in San Antonio, Corpus Christi and El Paso has been approved for a seven-month period.

The new five-cents-a-drink private club tax brought in \$976,474 during October-December.

Eight advertising agencies will make presentations to the Texas Tourist Development Board on March 26, seeking the state's \$350,000 national travel ad account.

Oklahoma Mom Facing More Problems In Educating Son

OKLAHOMA CITY (UPI) — Mrs. Yvonne York, who faces a 30-day jail sentence for defying federal court integration orders, faced more problems.

When U. S. District Judge Luther Bonahan sentenced Mrs. York and her husband, Raymond P. York, to 30 days and \$1,000 fines each, he also issued permanent injunction against sending their son to any Oklahoma City public school other than Harding Junior High.

Mrs. York has been seeking to enroll her 14-year-old son, Raymond, in a public school outside the Oklahoma City district. She indicated Wednesday she is losing hope.

Leo Mayfield, Putnam City school superintendent, said his district had not accepted tuition students since last summer. Other outlying school districts, including Moore, Midwest City and Del City, have similar policies.

"I think one of the problems is that all schools are full up to the gills," said Oklahoma

City school spokesman Joe Park. Park said two types of transfers are permitted. One, tuition transfers, can be made with the approval of the receiving school. However school districts adjacent to Oklahoma City are not accepting tuition students from Oklahoma City.

The other type of transfers, legal transfers, depends upon the approval of the county superintendent of schools. But school officials have indicated that the Yorks may not qualify for this type of transfer.

Bentsen Dodges Questions About Ralph Yarborough

FORT WORTH (UPI) — Lloyd M. Bentsen Jr., running against U.S. Sen. Ralph Yarborough, D-Tex., in the Democratic primary, dodged a question about whether he would support Yarborough in the general election if Yarborough won in the primary.

"There's no use talking about that," said Bentsen, 48. "That's not going to happen. I'm going to win the Democratic nomination and the margin is going to surprise some people."

The winner of the Yarborough Bentsen race will almost certainly face U.S. Rep. George Bush, R-Tex.

Bentsen said Wednesday the federal government should enact tough laws to control pollution. "Pollution doesn't stop at state lines," he said.

"SHOT IT DEAD" — Robert Goines, 40, said he figures that in the last two years the vending machine in his gas station had cheated him and his customers of about \$25.

"So I walked over to the desk drawer, got my .22 revolver, and shot it dead. After I fired the shot I looked at the machine and I said, 'That's the last time you're going to cheat anybody.'"

Goines gave his reasons to Judge D. William Cramer, who fined him \$100 and sentenced him to 10 days in jail on charges of drawing a deadly weapon, disorderly conduct and shooting a gun inside the city limits.

Soviets Hail Mummy Balsam As Cure-All

MOSCOW (UPI) — The Soviet news agency Tass has hailed the curative powers of a substance called mummy balsam, calling it a cure-all that quickly heals broken bones.

Tass said the dark brown ooze, a 2,000-year-old folk nostrum, was partly responsible for the recovery of world high jump champion Valery Brumel from a broken leg.

Brumel broke his leg in a motorcycle accident in 1965 and is just returning to competition. The Tass report quoted him that his future still would be in doubt "had it not been for mummy."

And now, the news agency said, the miracle working substance is going on sale in local drugstores across the Soviet Union.

"Under the effect of mummy, man's broken bones are growing together twice as fast as when usual treatment is applied," Tass said. "Tests have shown that patients feel better, too. Pain goes away quicker and soft tissues are being recovered faster."

The report was vague on the whys and wherefores of mummy's curative powers, saying only that it contains "amino acids and over two score of microelements."

"Mummy, as a rule, occurs high in mountains, in caves and grottoes," Tass said.

Three Texas GOPs, Three Texas Demos Back Nixon's Veto

WASHINGTON (UPI) — All three Republicans and three of Texas' 20 Democrats in the House voted Wednesday to sustain President Nixon's veto of the health, education and welfare appropriations bill. Backing Nixon's veto were Republicans Bush, Collins and Price and Democrats Burleson, Dowdy and Teague. Opposing Nixon were 20 Democrats: Brooks, Cabell, Casey, de la Garza, Eckhardt, Fisher, Gonzalez, Kazen, Mahon, Patman, Pickle, Poage, Purcell, Roberts, White, Wright and Young.

10 GOOD REASONS why your boy should have a newspaper route.

1. He will earn money of his own.
2. He will learn self-reliance.
3. He will learn to keep records. In doing so he will apply in a practical way the arithmetic he learns in the classroom.
4. He will learn how to handle money and the value of money.
5. He will learn courtesy and how to get along with people.
6. He will learn how to be on time.
7. He will learn how to ration his time.
8. He will be thrilled by the challenge of salesmanship.
9. He will become sharper and brighter.
10. He will be operating a business of his own. He will learn what that is like.

And, we can't think of a single reason why not!

For information on newspaper route management for your son, phone or call on our Circulation Department. They will be pleased to give you full details on available routes. Act now.

Foreign News Commentary

The man who sought to put a "human face" on Czechoslovak communism is gone but the Czechs remember and the memory continues to plague Czechoslovakia's new Moscow-oriented rulers.

The man is Alexander Dubcek, stripped of his former powers as Czechoslovakia's Communist party leader, and is now Czech ambassador to Turkey.

The central committee, facing a deepening economic crisis in part attributable to worker dissatisfaction and embroiled in a power struggle among the leadership, now seeks to remove the last of the Dubcek image.

The expected victim is Premier Oldrich Cernik, last of the top reformers associated with Dubcek.

Cernik Is Blamed

He was blamed for the sad state of the Czech economy. Already purged have been the white-haired Josef Smrkovsky, former chairman of the national assembly, who rivaled Dubcek for popularity among Czech workers, and Dr. Ota Sik whose

economic theories provided one of the reasons for the Soviet-led invasion of August, 1968. Whoever may become the scapegoat for Czechoslovakia's current economic decline, the reasons for it go back many years to the Stalinist rule of the former president, Antonin Novotny, and clearly were seen by Sik and other Czech economists.

Nor are the harsh controls now threatened by party conservatives likely to improve worker productivity or to erase the image of Dubcek.

Portrait Still Displayed. As late as last December, Dubcek's portrait still occupied a position of prominence at the huge C.K.D. engineering works outside Prague.

Washington Window

WASHINGTON (UPI)—A sinking sensation is developing among young Democratic liberals that the new generation of voters, once mobilized as the most explosive political force in America, has come unharnessed.

The campuses seem relatively quiet. Vietnam does not excite the passions of yore. Young people, at least those who were only marginally committed to the antiwar movement, return to the serenity of their studies and think of their futures as tomorrow's businessmen and Sunday afternoon spectators.

It may only be a lull, a calm before another storm—perhaps a national drive to purify the air and water.

But some seasoned politicians close to the young seem certain that the steam has gone out of the movement, which, little more than a year ago, Democrats were sure would provide the foundation for their party's future. The Kennedy-McCarthy-McGovern dream of signing up the nation's students for service in the cause once they turn 21 seems to have vaporized somewhere along the way. Back to the factory gates.

Cynics may attribute the subtle changes of the past year to President Nixon's careful cultivation of a basic instinct: survival.

By winning congressional approval of a 19-year-olds first draft lottery scheme last year, Nixon may have dulled the cutting edge of the antiwar movement.

Students have their capsules plucked out of the bowl, their military futures are pre-ordained and the panicky uncertainty of yesterday is removed. By being lumped in for the draft with the ever-growing annual crops of 19-year-olds, the chances of being drafted are significantly reduced for many students.

eliminated for others.

In a year or two, if the current practice of student deferments is abolished as Nixon apparently plans, nearly all young men inducted into the military service will be 19—too young, perhaps, to develop a consciousness of which wars they favor and which they oppose, before they have been "radicalized," as Sen. Eugene J. McCarthy, D-Minn., puts it.

Perhaps later, if there is another war or if Vietnam is still on, the protests will move into the high schools.

JOY WITHOUT PAY
LOS ANGELES (UPI)—A suit asking \$400,000 damages has been filed against Playboy magazine, charging a nude picture of Nancy Sinatra was published without the photographer's permission.

Ron Joy, the photographer, said the photo of Miss Sinatra was taken April 7.

PAMPA DAILY NEWS PAMPA, TEXAS 5th Year

A HALTER TOPS off this one-piece swimsuit (left) designed in a patchwork fantasy print. The bored back is laced with a drawstring that also wraps the waist up neatly. Prints and little skirts make a splash in new swimwear lines and add up to a fresh young look in the suit at right. The exaggerated waist cinches the young look with rows of elastic that give a smocking effect.

January White Sales Make Haven For Homemakers

January white sales are stock-coast to coast, when a replenished with crisp new merchandise at bargain prices.

Swim To Winter Vacation In Splashy Print Suits

NEW YORK (NEA) — Winter vacations are coming up. The cruise season is nearly catching up prints in swimwear will be making a big splash.

Dramatic new styling in swimwear is largely responsible for the print explosion in this area. A swimsuit is a swimsuit—but it's also a dress, pants, a poncho, a long skirt. Swimwear lines are filled this year with a varied assortment of coverups, go-withs, go-alones, overs or unders. It is, in fact, well-rounded sportswear.

Shapes are easy, soft and fluid with lots of little skirt effects. And the suit plus trend demands a fabric that is versatile and is suitable for a variety of looks.

This year, a new fabric that is important in the swimwear market is a knit of nylon. It is ideal for prints and is adding drama to the beach scene in patchworks, Oriental abstracts and scaledown florals. It is just right for the important fluid styles, since one of its characteristics is drapability.

Donald Brook has designed a swimwear collection and uses the new fabric in a patchwork print in a multitude of colors, including grape lavender and gold. He cuts the prints into little halter-top suits, dramatic ponchos and side-wrap skirts that turn a suit into a whole other garment.

A hotly printed, orange and black, floral fantasy print goes into the little-girl swimdress look with softly pleated skirt, into pants that go with bolero tops into an easy little sun dress.

Take the soft approach with a delicate flower print on white ground that softly shades the bosom and falls into the little skirt.

Try an Eastern-flavored Oriental print in hot orange and white and style it young with elasticized waistband and a little swinging skirt.

The print message for swimwear runs merrily through the new lines and promises one of the most colorful sun-fun seasons ahead.

Today's linens, however, deserve a fairer fate than spending half their lives in a shut-up-tight linen closet.

Swinging colors, dramatic carefree finishes and fabulous textures call out for decorative, tactile, and bed-and-bath linens are being stitched into service as curtains, bedspreads and even wall coverings.

The two room settings shown today are dramatic examples of the art of white sale decorating techniques. The girl's room with the aloe trundle bed is a sunny setting of clear yellows, sparked by the swirling design of colorful sheets.

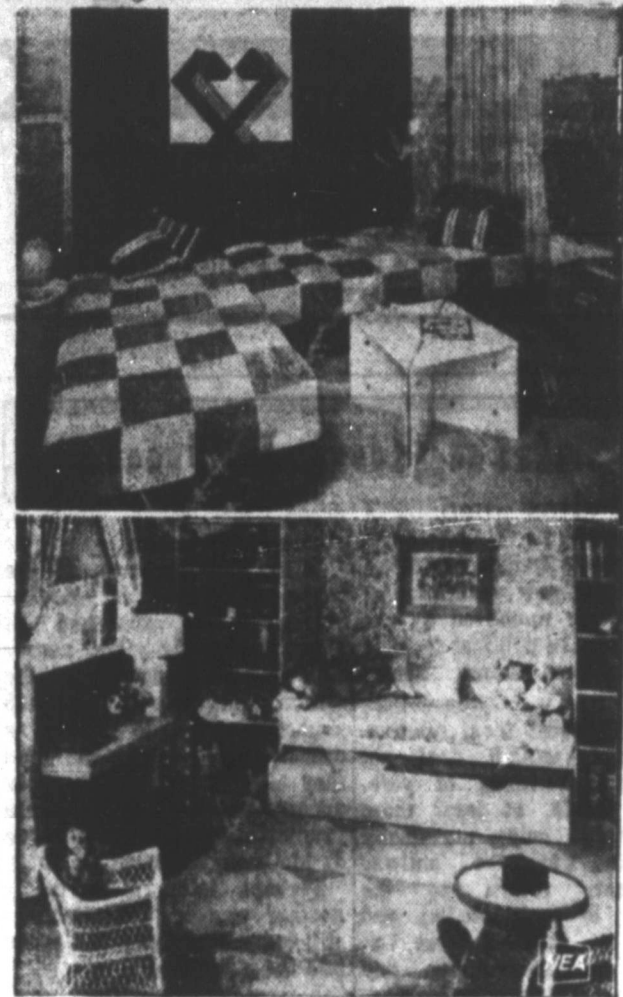

One twin-sized flat sheet covers the back wall of the alcove; a second sheet, split in half, covers the end walls. The sheets are applied with wallpaper paste. Sheets are used for the matching tieback draperies — one single sheet to a panel, each with a strip removed to be used as a valance cover.

The bedspread is of chillproof terry cloth. Two big bath towels are stitched together to make tailored tuck-in spread. Smaller towels are used to cover the round bolsters, tied gift-wrap fashion at the ends with the same crisp green grosgrain ribbons used for the curtain tiebacks. Naturally, the sheets on the latex foam rubber

shrugging off the sand and salty water deposited by active youngsters.

Each bed requires 8 strips of 6 washcloths, or 48 washcloths in all. That's reason enough to shop at white sales for the ingredients for these bedspreads. Remember, too that the spreads will be virtually indestructible, will never go out of style and may always be ripped apart and used as individual washcloths, generous bath towels or massive beach towel.

Each bed requires 8 strips of 6 washcloths, or 48 washcloths in all. That's reason enough to shop at white sales for the ingredients for these bedspreads. Remember, too that the spreads will be virtually indestructible, will never go out of style and may always be ripped apart and used as individual washcloths, generous bath towels or massive beach towel.

WHITE-SALE STITCHERY makes decorating easy. These rooms are done entirely in budget-priced white sale merchandise — the girl's bedroom features yellow and white sheets and towels; the boybeds are covered in washcloths stitched together to form a checkerboard design.

Dear Abby

By Abigail Van Buren

DEAR ABBY: I'm sure you've never had another letter like this one. The situation is as follows: My husband has never been a very sociable person. He doesn't enjoy being with relatives, his or mine. In fact, he's never enjoyed being with his own children. Our two eldest are now married and gone, and our youngest recently left for college, so my husband moved out of our bedroom and into the spare bedroom.

I like people, Abby, and always enjoyed having friends and neighbors drop in to visit. When this happened, my husband would feel so "intruded upon" that he'd just excuse himself and find someplace to go.

About a month ago he said it would be better for everyone if he got his own apartment just so he could be by himself. Knowing how stubborn he is, I didn't try to talk him out of it. You understand we aren't angry with each other or anything like that, and he can well afford the apartment. He comes back to visit me often, and seems in a much happier frame of mind. Of course, I'd rather have him home all the time, but I don't want him to be unhappy. No one knows about the apartment but me. What do you think of this setup?

WONDERING: I think your husband is going to extremes to "be by himself." (A den or spare bedroom to be used as his "private retreat"

should suffice.) It seems to me that a husband who first wants "out" of the bedroom, then wants "out" of the house, will probably next want "out" of your life.

DEAR ABBY: I am the mother of two small children, and I am very much in love with my husband.

My problem is that I am extremely attracted to my husband's boss. When we see each other socially, I find myself wanting to be near him, and show my affection, but instead I greet him with polite coolness, and avoid him all evening. Oddly enough, I have the feeling that he is attracted to me, too.

Now, I think I have overdone it, Abby, and I am afraid I have hurt his feelings, and he thinks that I actually dislike him. Nothing could be further from the truth. Being an honest person, basically, this bothers me. Do you think I should tell him truthfully why I have been so cool to him? I don't like the feeling I have about the whole thing.

MIXED UP: If you are looking for trouble, just "confess" to a man whom you find extremely attractive, and suspect the feeling is mutual, that you've been "cool" to him because you don't want him to know how much you really like him.

My advice to you is to discontinue the artificial winds from the north, and stick by

your husband when his boss is in the company.

DEAR ABBY: I never thought I'd be writing to you, but here I go. I work in a fairly large office. All of the girls I eat lunch with are married, myself included. Every day without fail, one of the girls insists on discussing her marital affairs (and she doesn't leave anything out, either) with the girls at lunchtime. We all feel as though we have a ringside (or should I say "bedside") seat in their private life. Is there any way someone can tell this person how we feel about this very private matter being discussed at the lunch table? Please sign me.

SICK OF SEX TALK: DEAR SICK: Yes. Why don't you take the bull by the horns and tell her?

CONFIDENTIAL TO "Talk me out of it" in Cleveland: Memorize the following gem of wisdom by Ella Wheeler Wilcox:

"Talk Health. That dreary never-ending tale of mortal maladies is worn and stale;

You cannot charm or interest or please By harping on that minor chord, disease.

Say that you are well, and all is well with you. And God shall hear your words and make them true."

My advice to you is to discontinue the artificial winds from the north, and stick by

Your Horoscope

JEANE DIXON

SATURDAY, JAN. 31

YOUR BIRTHDAY SATURDAY: — Consolidation of gains marks the coming year in your career. Personal creative activities settle to a workable marketing pattern, with time and resources permitting development of refinements and added details.

ARIES (March 21-Apr. 19): — It's nice to find backing, endorsement, encouragement. All are available now, according to your recent performance, and your willingness to ask. The latter half of the day is best for putting in an application.

TAURUS (Apr. 20-May 20): — Creative activities are helpful Saturday. Any chance to pause and simply rest will open the door to novel, intuitive insight. Make amends where you have erred; patch up misunderstandings at almost any cost.

GEMINI (May 21-June 20): — Much inside information is thrust upon you now, with no immediate chance to make use of any of it.

CANCER (June 21-July 22): — Get up early and make a good start for a full, productive day. Fill in details as you go so you need no review or backtracking. The evening is for entertaining or pursuing romantic developments.

LEO (July 23-Aug. 22): — A sound proposal is around the corner about property, personal belongings. You need not stay in the same precise spot for much longer. Find out how other people live; accept an invitation, ask courteous questions.

VIRGO (Aug. 23-Sept. 22): — Spend this average day in regular week-end routines. A lot of loose ends have accumulated during the week; get them all settled and done

with. Social activities go well in the evening.

LIBRA (Sept. 23-Oct. 22): — Your pleasure and luck depend on having somebody of your own or higher level of development share them with you. Traveling in pairs or groups can be tremendously interesting.

SCORPIO (Oct. 23-Nov. 21): — Balance and economy seem within your reach this weekend. You'll find good use for all the resources you can muster so get out and make the rounds looking for additional backing.

SAGITTARIUS (Nov. 22-Dec. 21): — The unorthodox pays off for you Saturday, depending on the quality of your productivity. Omit the extras and make up for it with generous but selective quantity. Later enjoy a gathering of friends.

CAPRICORN (Dec. 22-Jan. 19): — Historic matters touch lightly but significantly. Some old matter comes to life and gives you an example of what to do; it checks out well. Make the most of Saturday's opportunities, and celebrate tonight.

AQUARIUS (Jan. 20-Feb. 18): — Chasing easy money, glibly people, short cuts to success go on around you all day. Be amused but not involved in these pastimes.

PISCES (Feb. 19-Mar. 20): — Take it easy Saturday — perhaps fasting and meditating would be a good course to follow. The evening abruptly turns out to be social and pleasant. You have something new to think about by the time it is over.

Couple Schedules Party To Mark 50th Anniversary

Mr. and Mrs. Fred Mouser, 700 S. Reid, observed their 50th wedding anniversary Jan. 26 and plan an open house from 1 to 6 p.m. Feb. 1 at 621 E. Francis.

Fred Mouser and Cleve Allen were married Jan. 26, 1920, in Madill, Okla., and have been Pampa residents 15 years. They have one daughter, Mrs. Dorothy Carmichael, Denver, Colo.; one adopted daughter, Mrs. Mazie Richards; a granddaughter, Sharon Wilson, Denver, Colo.; and a great-grandson Gary Wilson, also of Denver. One son, Freddy Lee Mouser, is deceased.

Mrs. Richards is planning the open house for the couple and has invited relatives and other guests to attend.

Merton Members Meet At Annex

Merton Home Demonstration Club, meeting with Mrs. Willis White, 1108 E. Twiford, discussed the training school held at Gray County Annex recently and reported the district Texas Home Demonstration Association meeting will be in Shamrock.

Mrs. V. Smith directed a program in games with Mrs. Willis White winning the white elephant prize.

Mrs. N.A. Briden, and Mrs. White discussed knitting and displayed house slippers and a toboggan.

Those attending were Mmes. N.A. Briden, A.M. Nash, T.C. McGlohon, V. Smith, Willis White and T.G. Groves.

Another meeting was slated for Feb. 3 with Mrs. Bernice Clark.

Local Church News

Church Of The Nazarene

Youth Services and activities will be conducted this week-end at the First Church of the Nazarene, 500 N. West St. Four students from Bethany Nazarene College, Bethany, Okla. Rev. and Mrs. Bill Carr, Larry Kromer, and Mike Laird will be in charge. Revival services will be conducted this evening at 7:30, and at both services on Sunday. A Youth Banquet will be held at 7:30 p.m. Saturday at Furr's Cafeteria. Bill Carr and his wife are from Ft. Worth, Larry Kromer will be the pianist for the meeting, and Mike Laird the choir director and song evangelist. A dramatic film entitled "The Runaway Generation" will be shown at the First Church of the Nazarene at 7:30 p.m. on Tuesday. The February Meeting of the Nazarene World Missionary Society will be at 7 p.m. Feb. 4.

Christian Science Church

"Love" is the subject of the Lesson-Sermon to be read in Christian Science Services this Sunday. A Bible Passage in the Lesson-Sermon is from Romans: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord." One of the citations from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "Human theories are helpless to make man harmonious or immortal, since he is so already; according to Christian Science. Our only need is to know this and reduce to practice the real man's divine principle, Love" (p. 490).

First Baptist Church

Rev. Dan B. Cameron, pastor of the First Baptist Church, Pampa, will be in the pulpit for the eleven o'clock Morning Worship Sunday, and he will announce his sermon topic. David Campbell will sing a solo, "Oh, I never Shall Forget the Day" arranged by Carmichael, and direct the Sanctuary Choir in the Choral Worship selection, "Great Is Thy Faithfulness," arr. Landon. Miss Eloise Lane, organist, will play "Arioso" by J. S. Bach for the offertory. Dr. Eddie Lieberman will begin a week of Bible Study at the seven o'clock Evening Worship. He will teach the book of 1 Peter and he will teach every evening next week except Saturday at seven o'clock. The citizenry of Pampa is cordially invited to hear this outstanding Jewish Christian. Miss Eloise Lane has chosen "Beneath His Sheltering Wings" by Clarke for the evening worship, offertory selection. Campbell will give direction to the congregational singing. He will also direct the music for the week of Bible study.

Hi-Land Pentecostal Holiness

Hi-Land, Pentecostal Holiness Church, 18th and Banks, announces a Youth Revival which will begin at 7:30 tonight. Services will be conducted through Sunday night with Rev. Linwood Carr, evangelist, of Southwestern College, Oklahoma City, bringing the messages. Rev. J. B. Caldwell, pastor, extends a welcome to all youth of the community to attend.

DAVE WILKERSON

Ex-Pampan Will Hold Revival Here

Steve Edwards, a nineteen year old Pampan who is now studying for the ministry at Southwestern Bible College in Oklahoma City, will be guest speaker this weekend at special revival services in Pampa. The services which are being held at the First Pentecostal Holiness Church, 1700 Alcock, begin at 7 p.m. They will be held each night, Friday through Sunday. The son of Mr. and Mrs. Morgan Edwards of Pampa, Edwards was a leader in the youth work of the local church before entering the church's Bible college to study for the ministry. He is a graduate of Pampa High School and has lived in Pampa most of his life. Since entering college he has become a member of the choir and has been very active in the Student Ministers Association.

Barrett Baptist Church

Rev. Darrell Lewis
Barrett Baptist Church

The Word God Gives

II Timothy 4:2-4.....
"Preach the word; be instant in season, out of season; reprove, rebuke, exhort, with all longsuffering and doctrine. For the time will come when

they will not endure sound doctrine; but after their own lusts shall they heap unto themselves teachers, having itching ears; And they shall turn away their ears from the truth, and shall be turned unto fables."

Today as never before in history, the word of God is being challenged from every standpoint. The tragedy is, too often the challenge is accepted as absolute truth without investigation upon its validity. Theories are expounded as though they were fact. Science is treated as though it were a sacred cow and any seeming contradiction between it and the Bible is often treated as though science could never be wrong. The truth is there is no contradiction between proven science and Bible truth. A science book that is three years old is completely outdated, while the Bible, centuries old, is still vital, fresh, true and undaunted by every attack.

God's word is still the absolute truth. The Bible is still God's message to man today and that message is still relevant. The need of our day is to preach the word, not philosophy, or theology; but the Bible. Sure there are some who say it is outdated and irrelevant but it will be around when they have long passed from the scene. There are those who will not endure sound doctrine but will follow those teachers who say what they wish to hear. It is still God's method to point men to the gift of God, Jesus Christ and to inform the world that "the wages of sin is death". We do not need to rethink the Bible as many scholars claim, but we need to restudy and rebelieve it. We need to be faithful, take it as our rule and guide to faith and practice. It needs to be proclaimed not with a new theology but with a new vitality and a new dedication. It does not need a new understanding in a new light, but a new commitment in the old light; the light of the world which is Jesus. It needs not understanding in the view of world events today, but in the view of an event some twenty centuries ago when Jesus died upon Calvary's cross. Then we can understand today's events in light of the Bible.

Critics may assail it, multitudes may ignore it, some may scoff at it; but, "The grass withereth, the flower fadeth; but the word of our God shall stand forever" (Isaiah 40:8). You may believe it or reject it; the choice is yours; but friend you had better believe it; your eternal destiny depends on it.

Tigers Get Rare Triumph, 84-81

By United Press International
Victories in the Missouri Valley Conference have been few and far between for

Memphis State since it joined the league three seasons ago, but the Tigers gained one of their rare triumphs Thursday night by defeating Wichita State, 84-81.

The win was the first in conference competition for Memphis State since February, 1968, a span covering 27 MVC contests, and only their third in 3 league games. By coincidence, the last MVC team to lose to Memphis State prior to Thursday night was Wichita State.

A 21-point performance by 6-foot-10 sophomore Don Holcomb and 29 points by senior Jeff Frost paced the Tigers who placed five men in double figures. Greg Carney led the losers with 29 points.

Fifth-ranked New Mexico State became the third team in the Top Ten to go down to defeat this week as the Aggies bowed to Creighton, 72-68. Previous upset victims were Jacksonville and St. Bonaventure.

Creighton, now 11-5, led throughout the game and hung on in the final minute of play thanks to four free throws by John Taylor and one by Cyril Baptiste. Jimmy Collins' 22 points paced the Aggies who lost for only the second time in 19 games.

Houston, ranked 10th, used Ollie Taylor's 35 points, 25 in the second half, to beat Montana State, 82-60, as the Cougars raised their record to 14-2 while 13th-ranked Utah, gaining its final 11 points from the foul line, downed Texas-El Paso, 66-41, to assume sole possession of first place in the Western Athletic Conference.

Frank Newlin, who scored on four of those clutch foul shots in the final 40 seconds, led Utah with 27 points.

Drake scored 10 straight points late in the second half to defeat North Texas State, 95-84, and remain unbeaten in Missouri Valley Conference play; Carl Ashley's 19 points helped Wyoming down Arizona State, 69-79; a 41-point effort by Willie Long enabled New Mexico to beat Brigham Young, 90-77; and Bill Warner's 21 points led Arizona to a 75-69 triumph over Colorado State.

Creighton, now 11-5, led throughout the game and hung on in the final minute of play thanks to four free throws by John Taylor and one by Cyril Baptiste. Jimmy Collins' 22 points paced the Aggies who lost for only the second time in 19 games.

Houston, ranked 10th, used Ollie Taylor's 35 points, 25 in the second half, to beat Montana State, 82-60, as the Cougars raised their record to 14-2 while 13th-ranked Utah, gaining its final 11 points from the foul line, downed Texas-El Paso, 66-41, to assume sole possession of first place in the Western Athletic Conference.

Knicks Up Lead To Six Games

By United Press International

With the New York Knicks, as entertainer Jimmy Durante likes to say, "everybody gets into the act."

The Knicks, boasting the best set of reserves in the National Basketball Association, got another top performance from their talented bench Thursday night in beating the Detroit Pistons, 127-106, to up their

Eastern Division lead to six games.

All 12 New York players saw action with the first reserve, Cazzie Russell, making an appearance only 85 seconds after the opening tap when Bill Bradley was forced to the sidelines with an injured ankle.

Russell, who could probably start for any other team, turned in an 18-point effort while sub Mike Riordan tallied 13 points. Even rookie John Warren, usually the last of the reserves to see action, got into the game in the opening minutes of the second quarter.

All-Star center Willis Reed led New York with 25 points and Walt Frazier chipped in with 21 as New York broke the game open by outscoring the Pistons, 24-6, in the final five minutes of the third quarter.

Walt Bellamy led the losers with 22 points.

In other games, Seattle tripped San Francisco, 105-101, and Phoenix downed Atlanta, 111-102.

Dick Snyder's four consecutive points late in the game snapped a 94-94 tie and powered Seattle past San Francisco to ruin the coaching debut of the Warriors' Al Attles who replaced George Lee earlier this week. Snyder paced the Sonics' attack with 24 points while Joe Ellis topped San Francisco with 23.

Dick Van Arsdale scored 31 points and Connie Hawkins added 24 for Phoenix as Atlanta went down to its seventh defeat in the last 10 games and saw its Western Division lead reduced to 1 1/2 games over second place Los Angeles. Joe Caldwell led all Atlanta scorers with 29 points.

Individual Scoring: Rick Smith, 5; David Nipp, 9; Kim Snell, 10; Steve Mathis, 18; Bobby Henry, 4.

There was a total of 21 rebounds for the team.

Pampa Junior High 9th grade defeated the Borger 9th, 101 to 41 in Pampa Thursday afternoon.

Individual Scoring: Freddie Wilson, 26; Richard McCampbell, 18; Rickey VanSmith, 17; Don Proctor, 14; Bill Lemons, 10; Richard McCampbell led rebounds with 18.

Freddie Wilson had 14, and Bill Lemons had 12.

WAITING FOR THE SUN

Shaving Strokes

By FRANK BEARD

Let me say, first of all, that I advocate playing golf the year around. I realize that some

point—it's an necessary as your going to work, even though you have a cold.

Maybe weather conditions just will not allow you to play 12 months a year. Our next 14 installments will deal, in part, with that problem. You will learn, among other things, how to build a cheap, effective, indoor driving range in your garage or basement. (It is my opinion that any golf is better than no golf.)

Although Florida and Southern California golfers have no such problems, many men find it difficult to dress comfortably for golf in the winter or early spring. We'll talk about that, too, and I'll give you some insights on how the pros deal with the problem.

Cold-weather playing conditions and how to cope with them also will be discussed, along with equipment maintenance.

The Pampa Daily News

OUR CAPSULE POLICY

EVER STRIVING FOR THE TEXAS PANHANDLE
TO BE AN EVEN BETTER PLACE TO LIVE

Let Peace Begin With Me!

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom is he free to control himself and all he produces can he develop his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others. To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

Caught In A Squirrel Cage

In a very real sense, our society of free Americans is caught in a political squirrel cage.

We entered the cage in the Great Depression to keep the poor from starving to death. That's when good politics joined hands with sympathy. Even President Franklin Roosevelt warned that it was temporary relief to be provided only until jobs were found. He was re-elected and re-elected and re-elected. Four terms, when the unwritten limit was two.

Since then, the squirrel cage has never quit spinning. Now we have a third generation on relief. Growing in number each year. More demanding at every election. Before us now is a proposal of giving as a birthright, \$1,600 a year to a family of four. Like Social Security payments and taxes, that sum is only a start.

The cage spins on and on. When Roosevelt began handouts to the poor he persuaded a complaint Congress to authorize borrowing money. Also, he got Congress to almost double the price of gold (from \$30 to \$35 an ounce), and then make it illegal to use gold coins in this country. We switched to printed money. The Federal Reserve was granted authority to authorize printing of money to meet the needs of the federal government via federal borrowing. During the 1920's we had begun paying off the World War I indebtedness, which was less than \$30 billion when Roosevelt began his borrowing program. Now our federal debt is over \$360 billion. Our dollar today is worth only 37 cents of 1939 money. Interest on our

federal indebtedness runs \$15 billion per year.

Squirrel caging on a grand scale.

Along with the population explosion came the Great Society. It could fight a war in Vietnam and go to War on Poverty as well — at the same time. Money restraints were off. Our affluent society could afford anything and everything. Our people were encouraged to lean on government for everything.

By this time the squirrel cage was spinning so fast that most sober citizens realized prices would have to go up faster than ever, that the more they bought now the more they could save in tomorrow's money.

That's inflation psychology on a grand scale. This is where we run into trouble. Our people have been taught that the government can do everything for them. A politician will not tell them that to cure inflation everybody is going to have to suffer now to avoid the miseries of rampant inflation later.

President Johnson started to try to check inflation, but failed. President Nixon cut the budget and (the Federal Reserve) raised interest on loans higher than ever before in our history. Yet persistent inflation continues. To halt the spinning of the squirrel cage, and protect what we have, stronger measures, like both wage and price controls, may become necessary.

As voters, we're in a position to tell the politicians that joy riding on tax money must stop before we go broke. Have you the courage and fortitude to insist upon it?

This Is Defense?

Tax Foundation, Inc., reports the following:
In fiscal 1970 the Department of Defense will spend an estimated \$46.6 million on social and behavioral science research. DOD research projects (440 of them) are now underway in 44 foreign countries. The locale of some studies, their titles, and their

proposed (or going) cost follow. In Germany: "Dust Distribution" (\$4,000); in India: "Taxonomy of the Birds of India and Bhutan" (\$11,000); in Israel: "Investigation of Leadership Qualities of Kibbutz-Raised Young Men" (\$30,000); in Malaysia: "Weathering of Rocks Under Humid Tropical Conditions" (\$30,000).

Brody's Futile Obsession

Consider the futility of Michael J. Brody Jr., the young heir who seems obsessed with the idea that giving away the money he is to inherit, he will bring peace and happiness to the world.

We perhaps can forgive young Brody's ignorance of the economic facts of life. Apparently there was never an occasion for him to learn, and it would seem he has never had to earn a dollar, hence it has no meaning and no value to him. We do not challenge his right to do with his inheritance as he wishes. We merely lament the fact that a nation grown productive through prudent management of savings and profits could have produced a young man from such an advantaged environment who does not know what it's all about.

The heir to the Jell-O empire fortune has actually a paltry sum to give away. When you consider the billions of dollars the government takes away from the people to give away to others, young Brody is a piker.

It should be obvious that the giving away of money without requiring productivity in return can't solve any problem except possibly for a brief time. For example someone might suffer a misfortune who could be helped back into productive life through a lift from a benefactor who recognized a potential in

the needy individual. This is true benevolence because such aid carries with it the obligation on the part of the recipient to use his new opportunity to produce something that will benefit others.

It also helps a man hold on to his self-respect because he must know he is earning his way.

If the young millionaire wishes to see what great harm he can do to a great people by throwing away his inheritance, let him but open his eyes to see the derelicts created by political government's "give-away" schemes.

The politicians are the heavy-weight champions of the dole who have taken millions of people from the ranks of the producers. They, like Brody, do not know the value of money either... and why should they? Again like Brody, they do not have to produce anything but are merely giving away money someone else earned.

WIT AND WHIMSY

Mrs. Jones (the mother) — What makes you think Junior will be in politics one day?

Replied father: — Mr. Jones — He says more things that sound well and mean nothing than any other boy I know.

Question Box

(We invite questions on economic and the proper function of government which will not injure anyone.)

QUESTION: — Why does wealth have to be distributed in order to benefit its owner?

ANSWER: — This question can be answered easiest by an illustration showing how the distribution works to benefit the owner; but first we have to understand what wealth is. Most people think of wealth as money, either dollar bills, a large checking account, or stocks and bonds. But these are not wealth in themselves. They only represent wealth. They are a means of counting or measuring and keeping track of wealth. Wealth is goods — products that people use and want or services that they want.

As a simple illustration of how wealth has to be distributed in order to benefit its owner, suppose for example, a man has a great amount of meat. This is wealth. He could eat some of it, and this would be distribution in one way, and would, of course, benefit him. But if he does not eat it all, the rest will rot, and this benefits no one, not even himself. If he exchanges what he can't eat himself for something else he wants, then he benefits from that. And that portion of his wealth has been distributed. The person with whom he has made the exchange has benefited also, for he now has some meat, which he wanted more than he wanted whatever he gave in exchange for the meat, or he would not have made the exchange.

When all the meat has been distributed and eaten, wealth has been used up and more must be produced.

Production creates wealth and since wealth is used up, it must constantly be re-created. When some forms of wealth can be accumulated and then used in ways to increase production, more wealth is created. This is again distributing the wealth, and it benefits the owner, for he earns something on his investment, and it benefits everyone who can now share in the increased production.

In order to obtain wealth, the individual must first produce it, or render a service to someone else in exchange for it. Once created, wealth must be distributed or consumed in order to benefit its owner, as we have shown.

Clearing House

Got something you would like to "get off your chest"? That's what the "Clearing House" is for. It has been suggested there should be more letters to the Editor, that people should speak their mind, be in the public interest, write to the Editor and "get it off your chest."

Editor: At this time when much is being said about the silent majority; and, if you are enlisted therein, it is high time that the forcefulness of this group be no longer muted—that a stand be taken for and against various circumstances and conditions. This group should exercise an expressed interest—Stand Up! Sound Off! Be Counted!

While you and I sit idly by too engrossed, too engulfed, too entangled with this, that, or the other—content to remain unfamiliar with existing issues, those of lesser value are being promoted to seats of authority and leadership. If we stood not against this promotion, by our own negligence, we supported it.

You and I should exercise every possible effort to abase some of the conflict within our realm of local and national government. Governments are composed of individuals... that's me! That's you!

There may be personal freedoms that we will need to defend this year. There are academic freedoms pleading for attention. There are religious freedoms alarmingly stipulated. For? Against? We, as individuals do not appoint men to the Supremacy, but those whom have been elected to other office have the prerogative to endorse and approve, or vice versa. It is my duty, and yours, to represent ourselves at polling places. Polling places are void and of no effect — minus registration certificates.

Have you acquired your voter's registration certificate? If not, please do so. Then—prayerfully, respectfully—Stand Up! Sound Off! Be Counted!

Can He Recover The Lost Ground?

CAPITOL EYE

Pollution Not Only Nixon's Problem: It's Everybody's

By BRUCE BROSSAT
Washington Correspondent

WASHINGTON (NEA) — President Nixon's sharp focus on "environmental control" in his State of the Union address is unprecedented. Never before has a president given such attention to the rising dilemma of air and water pollution.

Already some of his critics are branding this as little more than the empty commitment of words. Since many young people are developing high interest in the pollution problem, the President is also said to be seizing this chance to divert them from their long preoccupation with the Vietnam war.

No one can say he does not have this partly in mind. But Nixon's associates insist that his concern for the deteriorating American environment is very real.

Because of the difficulty of controlling inflation, he may hold back on the money side for awhile. He may not spend all of the \$800 million Congress voted this fiscal year to fight pollution. Yet he is pictured as a man who wants to be remembered as tackling the tough new issues of the 1970s not just getting rid of old ones like the war.

Anyone who takes seriously the dire forecasts of the environmental specialists — the worst of which is that we will run out of good air to breathe in a few decades — must welcome the President's attention and the country's, to the extent they are truly enlisted.

There is plenty of evidence justifying pollution complaints against industrial plants, airplanes, automobiles and even government facilities. Maximum pressure may be needed to force real action. Nevertheless, the accusatory finger should not be pointed only at the easy, obvious targets. The truth is that man is a despoiler — of his land as well as his air and water — and Americans are far from being any kind of exception.

Dr. Jean Mayer, nutrition specialist presently serving the President on food and hunger issues, blames the affluent — in this nation and presumably elsewhere — for wrecking the environment.

In an interview given to T. George Harris in the magazine, "Psychology Today," Mayer says:

"Rich people occupy much more space, consume more of each natural resource, disturb the ecology more, litter the landscape with bottles and paper, and pollute more land, air and water with chemical, thermal and radioactive waste. Maybe his argument is incontestable — up to a point. Yet, until the poisonous wastes of the internal combustion engine and some factory processes began to engulf us, most of the "environment-wrecking" was done to the land.

And, while prospering civilizations like ours and those of the ancient Greeks and

Romans can be gravely faulted for exploiting the land with too little thought for the future, no serious conservationist stops his indictment there.

Ancient Greece ruined itself by ripping off its thick forest cover and exposing the bare land to destructive sheep and goats. The Romans went down the same road. Spain's land is one great scar.

In relatively impoverished 15th-century Italy, however, the forests were still so large and dense they could conceal whole armies. The ravaging of the land has gone on — and still does — in the poor Mediterranean countries. One naturalist says these denuded lands are doomed to exhaustion unless radical change takes place.

This specialist says reviving the dead landscape could take thousands of years. In poverty-ridden Africa, the vast Sahara grows wider under land misuse by farmers. China and India, never bastions of affluent capitalism, have a terrible history of land waste.

So blame belongs not just on governments and corporations and the affluent few in the world. Misuse of life-supporting environment is everybody's burden.

With Some Reservation

By INJUN WOODY

I suppose you have heard of the "Peace Corps." That's a misnomer if there ever was one. Why, they cause almost as much unrest in the world as politicians.

Thirty-one Peace Corps volunteers have "terminated" their great careers in Ethiopia and blew their chance at changing the world...

One feller said he was attacked and beat up by his Ethiopian students. You might say this puts a black eye on the movement. He said that most corpsmen are scared because of a rise in anti-American hostility.

What can you expect? How would you like a bunch of college students coming over here and telling us we're all wrong and we have simply got to change our way of thinking to theirs?

You would probably say we can make our own messes without help from outsiders. That has already been proven.

The Peace Corps is just another boondoggle devised by some Research Lizard in Washington who thought of a new scheme to waste money and got it passed through the legislature.

Its about as useful to the world's everyday existence as a wagon load of post-holes.

With all the fights they get into they should be called the "Pest Corps."

The Doctor Says

By DR. W. G. BRANDSTADT

Seek Causative Factor For Shortness of Breath

Q—I have been short of breath for a year. What could cause this? I have been taking Vistaril for it. Is this the best treatment?

A—Shortness of breath has many causes, chief among which are asthma, chronic bronchitis, spontaneous collapse of the lung, congestive heart failure and severe nervous tension. The treatment would depend on the cause. Vistaril is a tranquilizer.

Q—I had a bout of congestive heart failure a year ago. My doctor says Peritrate is old-fashioned. What do you think? He is giving me Metamine. How long will I have to take this drug?

A—Although Metamine is one of the newer drugs for angina pectoris, Peritrate is still effective and is widely used. If you have angina pectoris, you should take the Metamine as often and as long as needed. Neither of these drugs is given for congestive heart failure.

Q—I am a woman, 60. My chest X ray showed a calcium deposit near one of my heart valves. What causes this? Do dairy products and other foods make this condition worse? Would distilled water and lots of lemonade prevent it from getting worse?

A—The calcium deposits may be in part the result of a previous infection, such as rheumatic fever, and in part an accompaniment of age. Although milk contains calcium, it does not aggravate this disease — but cream and other animal fats or a large intake of sugar might. Save the distilled water for your car battery. Neither this nor the lemonade will dissolve or prevent the calcium deposits.

Q—I have an enlarged heart. What is the cause? Is it serious? What are the symptoms? Can it be cured?

A—This is usually caused by rheumatic heart disease or chronic high blood pressure. How serious it is depends on the extent to which your heart function is impaired. Such impairment would cause shortness of breath on exertion and waterlogging, especially in your ankles. The condition cannot be cured, but with appropriate treatment it can often be controlled.

NOTE: Several readers have asked where they can buy "You Must Relax" by Edmund Jacobson, since their book seller did not have it in stock. The author assures me that it is not out of print. The publisher is McGraw-Hill, 300 W. 42nd St., New York, N.Y. 10006.

Carswell Accused Of Being Unfair To American Women

WASHINGTON (UPI)—Rep. Patsy Mink, D-Hawaii, said today appointment of Judge G. Harold Carswell to the Supreme Court was an affront to American women.

Mrs. Mink led off testimony in the third day of Senate Judiciary Committee hearings on the 5th Circuit Court of Appeals judge's nomination as an associate justice of the Supreme Court.

Mrs. Mink called the committee's attention to the case of a woman with teenage children being denied employment by the Martin Marietta Corp. The woman, Ida Phillips, charged in court the denial was a violation of the civil rights laws which prohibit discrimination in employment on account of sex.

Carswell, voted against a rehearing of the case after a three judge panel decided the denial of employment was not because of sex alone but because of sex and the fact Mrs. Phillips had pre-school children.

In voting to deny a rehearing, Mrs. Mink said Carswell "demonstrated a total lack of understanding of the concept of equality and that his vote represented a vote against the right of women to be treated equally and fairly under the law."

Mrs. Mink also brought up Carswell's statements of 22 years ago in a political campaign speech that the white race was superior to the Black.

Carswell has recanted the statement now asserting it is obnoxious and abhorrent to him.

"It is not possible for me to dismiss remarks made by Judge Carswell when he was 28 years old stating his irrevocable belief in white supremacy, I

believe his words must be weighed along with his lack of sensitivity for women's struggle for equality.

"Male supremacy, like white supremacy, is equally repugnant to those who really believe in equality," Mrs. Mink said.

Carswell was questioned about the case earlier this week during his two days as a witness.

Milk Slugged With LSD Turns 11-Year-Old On

NEW YORK (UPI)—Isabel Salazar was 11 years old when a boyfriend put some LSD in her glass of milk.

"I really turned on," she said. Now, one year later, she

admits that "I hallucinate on anything." She also admits using heroin, amphetamines and methadone as well as LSD.

Isabel is the daughter of a former Cuban ambassador and prominent psychiatrist. Monday, she ran away from home to New York's hippie East Village. A public appeal for help by her father led to her return home Wednesday.

Dr. Guillermo Salazar, who

treats addicts at Gracie Square Hospital, said he did not discover his daughter was an addict until after her grades dropped at school.

Isabel said that to get money for drugs she would tell her father she needed money for clothes but would spend it on narcotics.

When her mother discovered two months ago that Isabel was taking drugs she took the child

to Honduras to get her away from her friends.

The effort proved futile. As soon as they returned Isabel ran away.

Salazar said he had tried to communicate with his daughter and her young friends, but had failed.

Isabel, who claims she has had only one "bad trip," said she had "tripped" about 50 times.

Isabel, who claims she has had only one "bad trip," said she had "tripped" about 50 times.
