Taft's Death Is Expected Soon

ALL HOPE IS ABANDONED IN HOME TODAY

MEMBERS OF FAMILY ARE PRESENT AT BEDSIDE

WASHINGTON, Feb. 28.—Peacefully but inexorably, death drew on today for one of America's most loved and most distinguished public men, William Howard Taft. All hope had been abandoned, and death was expected at any time.

At his bedside were Mrs. Taft and their daughter, Mrs. Helen Taft Manning, while their son, Robert Taft, was expected early in the day from Cincinnati. Charles Taft, another son, planned to leave the Ohio city for Washington during the day.

His physicians, Dr. Francis Magner and Dr. Thomas Clavner, were in constant attendance. The former, president and chief justice, they said, was gradually diminishing and death might come at any moment.

When Mr. Taft's death became known, President Hoover last night cancelled one of the big events of the White House social season, the reception to members of the house. Other social affairs of a less official nature also were cancelled out of deference to the former chief justice.

Mrs. Hoover called at the Taft home late yesterday to express her sympathy and solidarity to Mrs. Taft. Charles Evans Hughes, who succeeded Mr. Taft as chief justice, and Mr. Hoover also visited Mrs. Taft for a few minutes.

A service of "prayer and intercession" for Mr. Taft's recovery was broadcast over a national chain of radio stations, by Bishop James J. Freeman from the Washington National Cathedral. Evidently, the service of the stricken man, very solemn in its prayers, were read and a boy's choir chanted hymns.

LEGION PLANS FUNDS DRIVE

CAMPAIGN FOR \$12,000 TO BUILD HOME IN CITY PROPOSED

A committee of three men will meet this afternoon at 3 o'clock to form a structure committee for the purpose of starting a campaign to raise \$12,000 for the Allen Brothers' new Legion home.

The meeting will be held in the office of Mayor H. D. Woods. Other men on the committee are: J. A. Baker, postmaster; and H. L. Allen, who will attend the session. Heads of various committees will be named at the meeting.

An architect's conception of the new structure has been completed by the firm of Peters, Strange & Radshaw.

Original plans called for a \$10,000 building, but the additional figures have been made following architects' estimates.

S. HIGHWAYS SOUGHT IN AREA

The Lubbock Chamber of Commerce will cooperate in every measure possible to secure State and federal designation of the principal highways of the South Plains. Members of the organization announced this morning at a meeting of the body.

Every county of the section will be aided by the local organization efforts to improve roads, it was said.

The directors voted to offer legislative assistance to a company which proposes the organization of a radio broadcasting station in this city. This offer of support was refused, however, by the directors, who announced that it is against the policy of the chamber of commerce to assist in raising finance through sale of stock or by securing a definite amount of advertising.

Two Brothers Held After Death In Street Shooting

WHY SHOULDN'T SZCZEPANIEWICZ BE GIVEN A BREAK, WE ASK YOU?

CHICAGO, Feb. 28 (AP)—The man's name was (typewriter operator) Wladyslaw Szczepaniewicz. In Poland it would be pronounced (one guess is as good as another) but in America it is not pronounced.

Mr. Szczepaniewicz said in Superior Court yesterday he was an American citizen and wanted to have people greet him, say, "How do you do, Mr. Szczepaniewicz?" Now are you today, Mr. Szczepaniewicz? But it was out of the question. He petitioned to have it changed from Wladyslaw Szczepaniewicz to Walter Shep.

A son, Mirosylaw Szczepaniewicz, also wants to be known here as plain Matthew Shep.

If the court agrees to substitute Shep for Szczepaniewicz it is unlikely the Typographical Union will offer a rising vote of thanks.

Nicholson Explores New Room In Carlsbad Cavern In Hunt For Cave's End

NEW YORK PARTY MAPS AIR CURRENTS IN EXPLORATION

CARLSBAD, N. M., Feb. 28.—An expedition, consisting of a party of 12, including a national chain of radio stations, by Bishop James J. Freeman from the Washington National Cathedral. Evidently, the service of the stricken man, very solemn in its prayers, were read and a boy's choir chanted hymns.

The downward trail to the bottom of the cavern led by kerosene and frozen materials and crowded over debris. Den and into the Queen's chamber. Sealing the wall of the chamber the party found a hole above the formation. Passing through the hole they discovered a huge unknown chamber, 1200 feet long and 400 feet wide. Powerful flashlights barely revealed the loftiness of the ceiling. The floor is reported as having the contour of a mountain. The ground having loose formations similar to coral, the chamber has been titled by Nicholson as Coral Gardens.

Water Is Found
Geologic stalagmites, glittering under a flood of lights. Here and there pools of blue, still water were found. The sides of the pools are lined with stone-like formations.

A pit some twenty feet in diameter was found near the end of the Coral Gardens. Nicholson was lowered into the pit, and he descended the vertical sides hand-over-hand. At about 25 feet downward the hole became crooked, the rope swayed and the flashlight broke. He continued the descent in darkness until he touched a rock some 75 feet down.

Light Replaced
The flashlight was repaired and the light revealed a further descent that led into a previously unknown room. In the center of the floor is a blue lake of pure water, besides which stands a stalagmite formation resembling a replica of a castle. Two members followed down with cameras.

Accompanying Nicholson on the downward trip were Col. Thomas Boies, superintendent of the Caverns; Geron Mendenhall, photographer; Douglas Oliver, boy scout and Rangers Freeland and Miller.

HEMPHILL MAN IS SHOT DOWN AND WIFE IS WOUNDED IN ROW

BEAUMONT, Feb. 28.—As the aftermath of a street battle which resulted from a previous slaying, Kirby and Rance Russell, brothers, were in jail today at Hemphill, awaiting an examining trial set for March 4 in connection with the slaying of "Pole" Halbert.

Halbert was shot down on the streets of Hemphill yesterday in a battle witnessed by many persons. His wife was wounded and a bystander hit by a stray bullet from the guns of the brothers.

The spouses agreed that when the two families met they both started firing.

MAN IS FOUND SHOT 10 TIMES IN DALLAS
DALLAS, Feb. 28 (AP)—Sprawled among tables, playing cards, poker chips and other gambling paraphernalia in an upstairs room of a one-time hotel, Jack Daugherty, 28, was found dead by police just before midnight last night with nine bullet wounds in his back.

Police had gone to the room on receiving a phone call saying there had been a shooting at the address. While they were there, Sam Correnti, operator of a recreation club, visited the county jail.

Shot Him 10 Times
"I've killed Jack Daugherty," he told the taller "shot him ten times." That was all he would tell regarding the shooting at that time. He said he had known Daugherty for some time, and that Daugherty came here from Oklahoma.

After the shooting, he said, he went home, gave his gun to a friend, then came to the jail to surrender.

TWO DIE IN TRUCK MISHAP

MOTHER AND BABE ARE DROWNED AS TRUCK GOES INTO DITCH

BARTLETT, Feb. 28.—Mrs. Edward Friedman of Tulsa, Okla., and her baby girl, about one year old, were drowned today near Holland, when a truck in which they were riding turned over in a ditch filled with water.

Two other women, a man and several children escaped, but they were unable to rescue Mrs. Friedman and her baby. They were pinned beneath the heavy vehicle.

En Route To San Antonio
The party was en route to San Antonio, where Friedman was employed with a Western Union construction force.

The driver of the truck claimed he was crowded off the road by glaring headlights of an approaching automobile. The other car did not stop.

Farmers Urged To List Terracing Work

All farmers of the county who plan additional terracing work are being urged by County Agent D. F. Eaton to make their reports within the next few days.

"J. T. Patterson, of Idalou, assistant in terracing, will continue in service until the entire program has been completed," said Mr. Eaton. "For that reason we would like to have the names of all who contemplate immediate work."

TO FORM CABINET
PARIS, Feb. 28 (AP)—Andre Tardieu formally assumed President Doumergue this afternoon he would form a cabinet.

HE LOSES OUT

President Horacio Vasquez, below, of the Dominican republic, has fled to the American Legation in Santo Domingo as a result of a revolt carried on by insurgents of his country. They were opposed to his plan of running for re-election to office in May. Calm is reported after the outbreak, there being no bloodshed and only one fort holding out for the present administration.

AMERICA NOT TO RECOGNIZE INSURGENTS

U. S. MINISTER SAYS CONSTITUTIONAL REGIME NEEDED

SANTO DOMINGO, Dominican Republic, Feb. 28.—Charles B. Curtis, American minister to the Dominican republic, has informed the insurgents who now control practically all of the republic that the American government will not recognize the de facto government, and further efforts to set up a constitutional regime were in progress today.

The senate met at the presidential mansion and the deputies in their own hall, but it was impossible to form a national assembly before which President Vasquez, whose resignation appeared imminent, had planned to present a presidential message.

There were several meetings between the insurgent leaders and government officials at the American legation, but these efforts to come to some sort of agreement were fruitless.

During the night there was heavy shooting in Santo Domingo, but this morning the city was quiet. It could not be determined what was the cause or results of the shooting.

The British ship of war Wistaria left St. Thomas, Virgin Islands, yesterday for Santo Domingo.

OHIO STATE PROFESSOR SCHEDULED TO PAY HIGH PENALTY

COLUMBUS, O., Feb. 28.—Today was the last on earth for Dr. James Howard Snook, 50-year-old former professor of veterinary surgery at Ohio State University, condemned to die in the electric chair because he killed his co-ed mistress, Theora Hix. He spent it in the state penitentiary preparing for death.

COLUMBUS, Ohio, Feb. 28.—Dr. James Howard Snook, 50-year-old former Ohio state university professor, who is to die tonight in the electric chair for the murder last June 13 of Miss Theora Hix, a student, will eat his last meal with Mrs. Snook, Warden P. E. Thomas, announced today.

To lose their last battle there, were merely waiting. So was Mrs. Helen Marple Snook, wife of the condemned man, who shook the governor with a powerful plea for clemency.

Becomes Nervous
Dr. Snook, who earned an international reputation as a pest-markman in addition to national recognition as a writer on hunting and veterinary surgery, played cards with his death-row mates until "lights out" time last night. He was cheerful during the card game, but as the night drifted into the fatal day, he became nervous, and prison guards feared he might "break."

Only a week ago Snook told newspapermen he "felt" he would get a chance to tell "the true story" of his relations with Miss Hix in another court. However, the federal supreme court Tuesday refused to review his case, and Governor Cooper yesterday declined to grant clemency.

SENATE HAS OIL TARIFF UP IN STUDY

OKLAHOMA SENATOR IS LEADER IN MOVE ON DOLLAR DUTY

WASHINGTON, Feb. 28.—The senate began debate today on a proposal of Senator Thomas, democrat, Oklahoma, for a duty of one dollar a barrel on crude oil and fifty per cent on petroleum by-products.

Oil now on the free list had been mentioned in reports that a new coalition had been formed to put through rates on this product and lumber and a higher tariff on sugar.

The Jones lumber tariff amendment was defeated, by five votes last night. Sugar will not come up before next week.

Opening debate, Senator Thomas said the oil industry was in "extreme distress" with price cuts occurring frequently and prices being made for further curtailment of production.

The issue, he argued, was before the senate.

TENNESSEAN SAYS NO HOPE FOR PARTY

DEBATE OVER PARLEY IS STARTED IN THE SENATE TODAY

WASHINGTON, Feb. 28.—The recall of the American delegation from the London Naval Arms conference was proposed in the senate today by Senator McKellar, democrat, Tennessee, who asserted there was no opportunity for naval reductions.

The Tennessee senator insisted that "in the present state of mind of the conferees representing the other four powers, it is clear there is no possibility of disarmament or of a reduction of armaments, or even a limitation of armaments."

McKellar's suggestion started the first debate in the senate on the London conference since it convened early in January.

AMERICANS CONFER WITH JAPANESE GROUP

LONDON, Feb. 28 (AP)—The American and Japanese delegations this morning continued active efforts to reach an agreement on differences between them, and it was understood the conversations were pending toward compromise.

Unofficial observers gathered the impression there was the possibility that the American and British concession might be giving Japan the right to be allowed to retain a greater proportion of the conversations were pending toward compromise.

At the same time Great Britain and the United States would make a sharp cut in their total tonnage for submarines. On the other hand Japan would be asked to reduce her demand for a 50 per cent cruiser ration.

Most Hated Sub
It was pointed out that the Japanese had steadfastly maintained, since the opening of the conference, that undersea craft formed an important part of her fleet, and hence that she might be willing to make concessions in other categories in order to secure a desired strength in submarines.

TEXAS COTTON CO-OP PLANS ARE COMPLETE

MEMBERSHIP MEETING TO BE HELD MAY 12 IN DALLAS

DALLAS, Feb. 28. (AP)—After three days of deliberations here between Governor Moody's cotton committee and representatives from the Federal Farm Board, the Texas Farm Bureau Cotton Association and the Cotton Marketing Cooperative, plans were completed today for forming a Texas Cotton Cooperative to work with the farm board. The organization, built around the Farm Bureau association, will be known as the Texas Cotton Cooperative association. Directors of the parent organization already have sanctioned the change, and approval was awaited from its 32,000 members. The formal ratification was expected to be made at the membership meeting here May 12. Announcement of completion of

the conference work was made by T. O. Walton, president of Texas A. and M. college and chairman of Governor Moody's committee, appointed to work out a feasible plan for Texas to cooperate with the Federal Farm Board.

Organization work in Texas will be in the hands of the American Cotton Cooperative association, headed by C. O. Moser, executive vice-president, who will at once start machinery in action toward setting up six districts in the state as subordinates of the state body. Each district organization will be called upon to build up its own membership, and when a district delivers a minimum of 100,000 bales, it may become self-governing, working directly with the American Cotton Cooperative, through which all cotton will be sold.

This organization will function in time for the 1930 cotton crop.

gambler, man or woman. Colorado, Nevada, Montana, the Dakotas—wherever there was pay dirt and hordes with nerve enough to lay it against the turn of a card—there POKER ALICE was. She took \$6,000 in one night's play at Silver City, New Mexico.

It seems rather strange, in retrospect, that POKER ALICE, self-reliant, courageous and able to take care of herself anywhere—should have had time for love, yet she was three times married. Her first husband was a mining engineer, Frank Duffield. Then there came W. G. Tubbs, a gambler who despite a wide reputation of his own, never could equal POKER ALICE at the card table. Her third husband was George Huckert.

Maria Mueller, soprano of the Metropolitan opera company, will sing varied selections in the AK hour on WEAF and stations Sunday evening. Alexander Smalls, conductor of the Philadelphia Civic Opera orchestra, will lead the concert orchestra.

Day Of Prayer To Be Observed Here

A special committee, composed of one woman from each church of the city, will meet Saturday afternoon at 3 o'clock in the home of Mrs. W. P. Jennings, 1016 17th street, to make plans for the World Day of Prayer, which will be observed March 7. On this day the church women's federation will sponsor a service at the First Christian church, and all churches are asked to unite in making it a success.

Brotherhood Banquet Will Be Held

Dr. R. C. Campbell, new pastor of the First Baptist church, will be principal speaker for the Brotherhood banquet this evening at 7:30 o'clock in the church building.

Miss Willette Waters is ill at her home.

Mrs. Pace Entertains Hearsay Club

Favoring the St. Patrick theme in all appointments, Mrs. Imogene Pace entertained members of the Hearsay club Wednesday afternoon in her home, 2323 19th street.

After a busy afternoon of fancy work, delicious green sherbet, cake, and punch were served, with three leaf clover being used as plate favors. Guests were Mesdames W. S. Moad, W. H. Porter, C. B. Hardin, Sam Ankle, John Morrison, Wilkinson, Sam Hardwick, and T. A. Bates.

Jessica Dragonette, soprano, and the Cavaliers quartet sang selections from "Mile. Modiste," Victor Herbert's opera, on WEAF and coast to coast NBC chain Friday evening.

Helen Sada, soprano, one of the youngest members of Rox's Gang, will make her debut as a featured artist in the program announced for next Monday evening on WJZ and chain. She hails from Scranton, Pa.

ROTARY 12 MILES OF
BROWNFIELD

BROWNFIELD, Feb. 28. — The Midwest Oil company has several thousand acres of land under lease in Terry county and are now engaged in erecting a large rotary rig for commencing a deep test and expect to begin drilling within the next few days as a 120 foot steelerrick has been completed with the exception of the crown block and all water wells finished. The test well is located about 12 miles southeast of Brownfield in the vicinity of Rich Lake.

The Midwest company has more than 10,000 acres under lease but there is a considerable amount of land in the vicinity of the well that

Local Man Mixed Up In Bribery Case

WICHITA FALLS, Feb. 28. (P)—Selection of a jury to try Dan Ellis and C. P. Wilson, deputy constables, on a charge of accepting a bribe for not pressing a liquor case was started here Thursday.

The original complaint against them was signed by J. J. Crow of Lubbock, who charged the officers took 24 gallons of whiskey from him and then accepted \$35 for not pressing the charge.

The constables declared the charge was the result of a "frame-up" because of their activities against bootleggers.

has not been acquired and this is being eagerly sought after by other companies and speculators. It is reported that two additional tests will be commenced in other sections of the county within the next few months by companies who hold large blocks of leases and the report if true, would mean that Terry county would be pretty thoroughly tried out before the end of the year.

DOUBLE ROLE IS REVEALED

NEGRO CONFESSES TO
HIJACKING; WAS
CHAUFFEUR

(By Associated Press)

PORT WORTH, Feb. 28. — Lonnie King, negro, who by day was a chauffeur for a wealthy grain man's family, and on nights piled the trade of a hijacker, specializing in robbing street cars, was charged today in two cases of robbery and with attempt to rob the street car operator whose bullets sent King to a hospital early Tuesday morning. King, at first thought fatally wounded, confessed to two robberies. He could not be charged with firearms because the pistol he always held in his jumper pocket during the stick-ups was a toy can pistol bound with string to keep it from falling apart.

Protest To Be Up On Tobacco Tax

DALLAS, Feb. 28. (P)—Protesting passage by the Texas legislature of the house bill proposing a ten percent stamp tax on tobacco, a delegation of Dallas wholesale and retail tobacco dealers will attend a committee hearing on the bill at Austin today.

The only thing such a tax can do, C. C. Neptune declared, would be "encourage bootlegging of tobacco from other states." He said that this had been the experience of other states.

BROWNFIELD ELECT C. C. DIRECTORS

(Special To The Journal)

BROWNFIELD, Feb. 28. — The directors of the Brownfield Chamber of Commerce, met today for the purpose of electing officers for the ensuing year and for the selection of a secretary.

Ben W. Hurst, was elected as president, Homer Nelson, vice president

and J. E. Shelton, secretary with the following directors to work with them: Claude Hudgens, Tom Cobb, W. A. Bell, Cecil J. Smith, Roy B. Davis, Morgan L. Copeland, W. R. McDuffie, H. R. Winston, M. J. Craig, Henry C. Johnson and Jim Miller.

A general discussion of contemplated activities was had but no particular program was adopted as it was the desire of the body to select a few major projects and concentrate upon them until success was attained but no activity will be overlooked that promises to

be of value to the town and county. The outgoing officials and the secretary were commended for their efforts and the hope expressed that the present year would equal it in results attained. No intensive membership drive will be necessary as nearly every merchant and professional man is supporting the organization. The next meeting is called for March 5th after which monthly meetings will probably be decided upon. Shelton, is beginning his fifth year as secretary being elected when the organization was first placed upon the full time basis.

POWER PROBE ROW DEVELOPS

DISMISSAL OF BONNER
IS DEMANDED BY
SENATOR NORRIS

By Associated Press.
WASHINGTON, Feb. 28.—Demand for immediate dismissal of F. E. Bonner as executive secretary of the federal power commission was made in the senate, while its interstate commerce committee inquired further into activities of this organization.

Senator Norris, republican, Nebraska, called for Bonner's ousting on the ground that he has been shown to be "a power man" and was "trying to cripple the commission" in examining into the valuations of the power interests.

Testimonies to Be Given
After the committee examined O. C. Merrill, former executive secretary of the commission and now president of the American Committee of the World Power Conference, Senator Wheeler, democrat, Montana, said he would call to the attention of the senate tomorrow his testimony that four cabinet officers are honorary officers of this organization.

Wheeler described Merrill's testimony as "the most startling given to a senate committee since the Fall-Dobson Daugherty investigation. He said he would lay it before the senate immediately."

Inquiry Continued
The federal trade commission continued its inquiry into the financing of utility companies. Senator Norris also called the senate's attention to the disclosures which have been made in this phase of the protracted investigation ordered by the senate.

The interstate commerce committee reached its affairs of the power commission, pending its announcement next week of its findings.

Senator Nye, republican, North Dakota, suggested in senate debate a resolution that Bonner be dismissed at once. Senator Norris passed up this proposal, and said later off the floor that such a resolution "will not be necessary—for the president and the executive branch of the government cannot at all times go on as they are now after they know what has been developing in the committee investigation."

PROVES FUTILE

Dog's Efforts To
Save Master Not
Enough

FORT WORTH, Feb. 28. (AP)—The attempt of "Kelly," a nine-year-old dog to save his master Lee Taylor, 62, from being trampled to death by an infuriated bull was futile. Taylor died in a local hospital of injuries received Monday.

Taylor was taking the three-year-old bull from the pen to feed. The animal became obstinate and Taylor struck it several times on the nose. This so infuriated the bull that it attacked the man.

The dog, almost toothless from old age, leaped to the bull's neck, grabbed its ears with his three "good teeth" and pulled the animal away.

Bank Seeking To Retire Currency

The Federal Reserve Bank of Dallas is requesting all member banks to assist in retiring the old series of currency as quickly as possible in order that only one size may be in circulation, it was learned today in letters received by local institutions.

The new series currency, including national bank notes, is now available to replace all denominations of the old series currency, it was said.

Banks have been requested not to place any of the old currency into circulation, but to end such in through the customary channels as soon as possible.

Tapia To Confer On Gaming House Ruling

MEXICO CITY, Feb. 28. (AP)—It was learned in government circles today that General Jose Maria Tapia, governor of the northern district of lower California is coming to Mexico on a brief leave and probably will arrive March 4.

The federal government's recent recommendation that the establishment and operation of gambling houses be forbidden throughout the nation is believed to have considerable to do with Governor Tapia's trip inasmuch as such action would hit lower California harder than any other part of the country. Lower California, being a territory rather than a state is under the direct jurisdiction of the federal government.

Houston Girl Dies Following Attack

HOUSTON, Feb. 28. (AP)—Miss Margaret Wusell, 29, waitress, who signed a statement saying she swallowed poison after being forced to sign a \$150 check at the point of a pistol, died at a hospital Thursday.

For almost a week Miss Wusell had lain in a coma while Jimmy Watt, investigator for District Attorney O'Brien Stevens, sought to trace the strange set of circumstances which Miss Wusell blamed for her act.

STOCKS MOVE IRREGULARLY

NUMBER OF SHARES GO UP SEVERAL POINTS ON OPENING

NEW YORK, Feb. 28. (AP)—The stock market moved irregularly higher at the opening today. Good-year mounted 1 3/4, J. I. Case, 1 1/2. International Harvester, 7-8. General Electric, Westinghouse Electric and Nash, 3-4 each. U. S. Steel, however, sold off 1 point. Simmons sagged 3-4, and Kennecott and International Telephone, 5-8 each.

The market continued to work moderately higher during the first half hour.

Renewed pressure appeared against the coppers, despite reports of moderate improvement in consumption. The January net operating income reports held rail shares in check.

Otis Elevator and J. I. Case were bid up 6 and 5 points, and International Business Machines mounted 3. Westinghouse Electric extended its gain to 2 1/2 points, and Underwood Elliott sold up as much, reaching a new high.

Anacosta lost more than a point. Foreign exchanges opened easy, with sterling at 4.86, off 1-16 of a cent.

CHICAGO GRAIN
CHICAGO, Feb. 28. (AP)—Wheat values took a fresh upward slant today owing a good deal to comparative lack of selling pressure. In the main, offerings of wheat for future deliveries appeared to be restricted to traders who were in a position to realize profits, with the pit as a whole watching for new developments regarding the Federal Farm Board and about the export situation.

Opening unchanged to 1 3/8 higher, wheat afterward scored additional gains and oats were also firmer, with corn starting 3-8 to 1/2 up and subsequently rising further. Provisions held steady.

Brothers Face Pro Law Charges Here
Three gallons of whiskey and still equipment were confiscated last night about 12 o'clock when the residence of R. J. Hoge and Leo Hoge, brothers, was raided by members of the Lubbock county sheriff's department at Slaton.

The Hoge brothers were brought to this city and lodged in the Lubbock county jail. They are charged with possession of intoxicating liquor for purpose of sale.

No bond had been set for the two at noon today.

Way Paved For Test School Case Appeal
SAN ANTONIO, Feb. 28. (AP)—Way was paved for the appeal of the test case attacking the rural school aid law when the fourth court of civil appeals overruled a motion for rehearing in district court of the case of Louise Mumme against E. M. N. Marr, state school superintendent and other state officials.

The plaintiff announced the case would be taken to the supreme court.

tween the independents and a "handful of powerful producers including the Standard group, the Gulf and the Royal Dutch Shell." Thomas said Chairman Smoot of the finance committee might as well have called W. C. Teague of the Standard Oil of New Jersey, John D. NICHOLSON PARTY

has seen a new underground world. Surrounded by fantastic creations of cave marble and flowstone perhaps unseen by man previously during the million or more years of their formation, and perhaps never before touched by light, Nicholson penetrated a previously unexplored room of the Carlsbad cavern. It was the first bit of exploring of unknown places of the underground labyrinth to be done by this New York explorer, financed by the New York Times, who with his party of eleven assistants, hopes to find the end of the cavern.

"It seems that every step brings a new revelation," Nicholson said here today, "and man feels himself to be an intemperate being in these gaping underground voids of blackness."

Two parties previously had reached the entrance of this new room, but Nicholson was the first to penetrate to its interior.

Two miles from Entrance
The room is something over two miles underground from the entrance. A tunnel branches off to the right from the main corridor shortly before the "big room" is reached. This tunnel leads to the gorgeously arrayed King's Palace from which branches to the right the "Green Room" and to the left the "Queen's Room."

From the Queen's Room Nicholson made his way through an unexplored tunnel into the immense unexplored room.

He has visited most of the 23 miles of known parts of the cavern, which includes the "Big Room" in which a 15-story office building could be built without touching the ceiling, to familiarize himself with the work done by previous exploring parties.

The party as an expedition, however, has not started concentrated work. Air currents are a major consideration with Nicholson in mapping out a program for directing his party. He will enter no tunnels whose ends are known, but will confine himself to unexplored places with distinct air currents and follow those rooms and tunnels if possible, to their ends.

SHOOTINGS

(Continued From Page One)

He was locked in a cell. Two guns used
Officers said bullets removed from Daugherty's body were of .32 and .38 calibre, indicating he was killed with two guns. Police were unable to locate any other person who might have been present at the time of the shooting. An overcoat and watch found in the room were identified as those of Daugherty.

Daugherty was survived by his widow, who said they had been married six years. She told officers her husband had had trouble before with Correnti and Correnti had shot at him twice near his club rooms. A charge of murder was filed against Correnti.

JUDGE MULLICAN TALKS TO A. B. C.

Judge Clark M. Mullican, president of the Lubbock Kiwanis club, was the principal speaker today noon before the regular weekly gathering of the American Business club at Hotel Lubbock. He took as his subject the "Purposes and Work of a Service Club."

"As I see it," Judge Mullican stated, "there are just two main reasons for the organization of a club of this kind. One is to serve the community and help build it up while the other is to build up in its own body leaders of men who can go out into the community and take a leader's place."

C. A. Sheffield was in charge of the day's program with an attendance of 34 members and guests.

Two other speakers made short talks before the organization, Harry Guiberson of Amarillo, member of the A. B. C. of that city, and Lee H. Powell, city manager of Tyler.

A secret ballot was cast in a short business session following the regular luncheon to choose a permanent meeting place. Result of the vote favored the Hilton hotel and future meetings will be held at that place. Expressions of members pointed to the fact that decision was rendered in an effort to equally divide among the two hostilities all four luncheon clubs of the city.

The general sentiment among the cotton men and agriculturalists here is that it will be difficult, however, to effect any considerable cotton acreage decrease in this territory this year.

Wichita Woman Says, "I Didn't Have Breath Enough To Sing A Song, Suffered Fifteen Years—Orgone Restored Me"

"Operation" (Argotane) is the only medicine I've ever taken that brought me relief and I've suffered fifteen years," said Mrs. J. A. Capelhart of rural route 3, Wichita Falls, Texas, while in Allison's Drug Store.

"Really when I bought my first bottle of Orgone (Argotane) I didn't think it would help me as it has," she continued, "the value of it is unbelievable."

"Before taking Orgone (Argotane), I was very nervous and was tired and worn out all the time. I had a chronic case of stomach and digestive troubles, and nothing I ate seemed to do me a bit of good and gas formed, crowding my heart until I couldn't get my breath enough to sing a song. I was so nervous and restless that I appeared unpleasant and angry to everyone. I didn't get any rest at night and had severe sick headaches most all the time. I had terrible pains in my back and sides and at times I would have to lie down to get relief. After eating anything, I would have heart burn and could never seem to get relief from my troubles."

"One day while reading the papers, I saw where a friend of mine had given a statement about benefits received from Orgone (Argotane) so I decided to try it and it has certainly been the right medicine for me. I haven't had a pain since and sleep wonderfully every night. I am glad to recommend Orgone (Argotane) to others for it has proven a great success to me."

Genuine Argotane may be purchased in Lubbock at Bowen's Drug Store.

MOODY FOR INDEPENDENTS

GOVERNOR SAYS HE IS FOR OIL LAWS IF THEY ARE LEGAL

(By Associated Press)

AUSTIN, Feb. 28.—Governor Moody yesterday told a delegation of independent oil operators he did not object to submitting bills to the legislature they requested as claimed necessary to their protection, provided they were drawn in accordance with the laws and approved by the attorney general.

Members of the Independent Petroleum Association, recently formed at Fort Worth, came to Austin in a special train to submit their proposed legislation to the governor.

Law Is Proposed
The main law they would have enacted would require pipe lines to accept oil proportionately from all producers under the common purchase plan.

Tom E. C'annell, president of the independent association, appointed a committee to draft the pipe line regulation bills, as follows:

Charles L. Morgan, Ernest May, Cal Estill, Dave Bellevue, and T. P. Perkins of Fort Worth; T. R. Yowell of San Antonio; Tom Gresham of Abilene; Charles I. Francis, E. H. Edleman, and John Kilgore of Wichita Falls and M. E. Church of Dallas.

Special Interests Cited
Addressing the oil men, Governor Moody said he believed Texas now "too much in the grip of the special interests."

"Our natural resources threaten to be wasted away without the state's sharing in their benefits," he said. He said "A voice of special interests" was to blame.

Attorney General R. L. Bobbitt and former Lieut. Gov. Lynch Davidson of Houston addressed the meeting also.

Both Gov. Moody and Attorney General Bobbitt declared in favor of strengthening the anti-trust laws.

KANSAS WOMAN DIES

LOCAL YOUTH NOT TO GIVE UP AIR

Intrepidity of Texas youth is exemplified by Dayton Orr, 18, son of Mr. and Mrs. J. C. Orr, 1012 Avenue R, this city, who has not given up hope, despite the fact that his left arm, shattered several months ago by a whirling propeller at the Fort Worth municipal airport, has knitted back together in such a way as to make it practically useless.

The young flier has good prospects of receiving his commercial pilot's license, according to information received in this city.

A piece of bone was grafted on the arm which was broken just above the left elbow, and Orr was released from the Fort Worth Baptist hospital during Christmas week. He spent the holidays in this city and returned to Fort Worth to take up his air studies. But the arm did not knit well and one of the nerves refused to function so that his left hand was practically useless.

The young Lubbock man, however, was not disheartened. When it became apparent that he could not pass the physical examination required for pilot's license, he entered the hospital again and doctors took over the work on his arm once more.

Now he is out again and anxious to get back into the air.

Reports state that the lad declares his arm "feels fine" as he wiggles his fingers gingerly. "I'll soon be able to take that test."

"If she doesn't get well enough this time I'll try it again."

Saturday Is To Be Payday In Chicago

CHICAGO, Feb. 28.—Saturday will be payday in Chicago.

Schmidt to issue pay checks in full at once.

Military Police Fire On Soldiers

MEXICO CITY, Feb. 28.—General Espiridon Rodriguez and several other members of the Mexican army polo team had a narrow escape from death while practicing at a field near Mexico City today. They were fired on by three members of the military police, who it is alleged were drunk.

One of the polo ponies was killed by a shot intended for the general. The military police, who were arrested, said the fired simply because they disliked soldiers.

Reports state that the lad declares his arm "feels fine" as he wiggles his fingers gingerly. "I'll soon be able to take that test."

Dalrymple Car Is Used For Free Ride

A Hupmobile sedan automobile property of John Dalrymple, of this city, was used for a "free buggy ride" last night and was recovered in the 1000 block by police three hours after it was removed from the 1200 block on Main street.

The car had been parked shortly after 8 o'clock, while members of the Dalrymple family were attending the theater. The auto was undamaged when found.
