WORK IS STARTED ON MERTZON ROAD; STARTING IN CITY

Actual construction work on the new Mertzon Highway started Monday, when workmen who had moved in during the week end began to clear brush and prepare the right-of-way for the grading machinery.

The workmen seemed to be making good progress this week, starting at the Leslie Baker corner and working northwest along the route of the new road.

As the route leading from town is new, there is no hold-up in traffic.

A number of families have been moving here during the week end and early this week, and it is understood that there will be some local labor employed later.

Contract for 13.9 miles of the road was awarded in June to W. L. Barnes of Austin at a figure of $127,362. Barnes was low bidder among a total of ten.

Re-Surfacing Starts

The entire Eldorado business district from the courthouse on south to the Elder Station was given a new coat of black topping Wednesday, and was closed to traffic from 7:00 a. m. to about 2:00 p. m.

From there the equipment and crew moved on north to re-surface the San Angelo highway to the city limits of Eldorado.

Other strips included in this surfacing project are: two miles of the Sonora Highway, passing the new Bailey Station; eight miles of sealcoat on the new west road; surfacing of the San Angelo Highway from Red Top, five miles north of Eldorado, to the Tom Green County line.

County Extension News

W. G. Godwin, County Agent

4-H boys who won the overall judging in plants, range plots, wool and mohair in the county were Ronnie Mittel, Mike Moore, Jimmie Whitten and Jack Stewart. These boys represented Schleicher County at the recent Sonora Wool and Mohair Show, placing 8th in overall high team out of 19 teams entered.

Ronnie Mittel was high man for Schleicher County with Mike Moore second and Jimmie Whiitten third. Jack Stewart was alternate.

4-H boys exhibiting wool were Bob Stewart, Mike Moore, Ronnie Mittel, Dick Runge and Ken Love.

The Sonora Wool and Mohair show closes the judging and contests for the year. 4-H club teams had a good year, sending two teams to the state contests at College Station June 25 and 26. The soil team won the state contest and made a respectable showing in the electrical contest. The wool team won 6th place in the state.

The most encouraging thing about these contests is the large number of boys who received the training which will be of use in later years, even though they were unable to make the local 4-H team. Better luck next time, boys!

Feeding Wheat Under Drouth Emergency Program

Producers in Schleicher County may receive some wheat to feed under the drouth emergency program.

Remember this — that wheat should not be fed by itself. If you feed wheat by itself ranchers should be prepared to treat bloat, scours and other digestive troubles.

To feed wheat safely it should be mixed with corn or grain sorghum at the rate of 50-50. If mixed in this proportion it will serve to give about the same result as if all corn was fed. When feeding wheat, animals should be put on feed slowly.

When feeding the dairy cow remember that one-third of the total ration can be wheat only.

It is also important to furnish the portion of nutritive material lacinking in the grain. Here is a good ration for feeding beef cattle:

42% corn or grain sorghum.
42% wheat.
15% cottonseed meal or pellets
1% limestone flour.

Mr. and Mrs. J. C. McCoy visited Mr. McCoy's mother at Rochelle and also spent the day attending the Brady Jubilee.

Bruton Is Blue Ribbon Winner For Two Years In Succession

C. O. Bruton, registered Rambouillet breeder of Schleicher county, has the distinction of winning a blue ribbon two years in succession at the Sonora Wool and Mohair Show.

He received first prize for a single fleece from a registered Rambouillet Ram in the adult division in 1952, and with a different fleece repeated the performance in the recent 1953 show. His was the only blue ribbon awarded to a Schleicher County breeder in the adult division. (The adult division does not compete in the 4-H Club division.)

Mr. Bruton believes he is the only man to be a winner two years in succession, and declares that he is going to try awfully hard to make it next year for the third time.

The Sonora show draws competition from all over the state, and occasionally has out-of-state entries.

Pastor Accepts Baptist Call

The Rev. J. C. Hancock of Quanah has accepted the call to become pastor of the First Baptist Church in Eldorado, and will take over his new duties on July 15—a week from Sunday.

Rev. Hancock preached to the congregation July 5, and the church extended the call to him that night. He returned to Eldorado Wednesday, to meet with the church at the regular prayer services, and gave his formal acceptance last night.

He returned today to his home, to wind up the affairs of his church at Quanah, and will move here next week. As a building program is to get under way soon involving providing of a new parsonage, it has been deemed advisable for the congregation to rent temporary quarters for the Rev. Hancock and his wife.

A native of Rotan, he graduated from Roby High School, and was licensed to preach at Clyde. He held his first pastorate at Rowden in 1947, and since then has been pastor of North Groesbeck Baptist Church at Quanah.

He received his BA from Hardin Simmons in 1950, and his Bachelor of Divinity from Southwestern Baptist Theological Seminary at Fort Worth in 1953. His wife is also a graduate of Hardin Simmons and attended Seminary.

He succeeds Rev. Clifford Nelson as pastor of the First Baptist Church. The church, which has the largest congregation here, employs an associate pastor, Rev. Darwin Welsh, to assist the minister.

Rev. Hancock is the son of Mr. and Mrs. W. A. Hancock of Rotan.

Now! Power Steering for as low as $134.40*

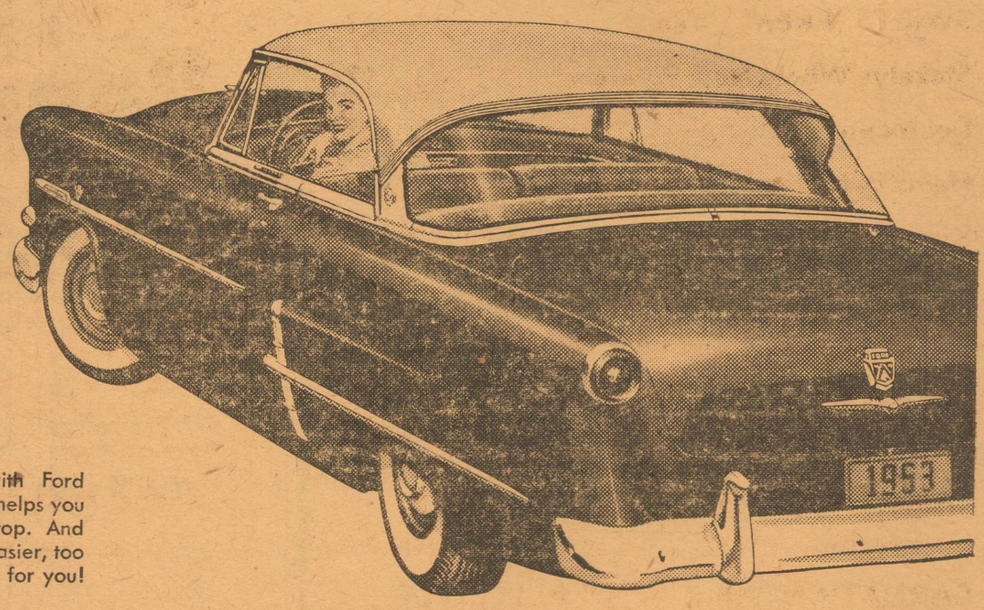

Ford brings you the lowest priced power steering in its field . . . and the finest in power steering at that!

We all know the advantages of power steering. Most of us would like it. And now many more of us can afford it! By spending testing time and development money, Ford brings you Master-Guide power steering for nearly three quarters the price of any other system in its field. For the facts, read the captions on this page. For a thrill, Test Drive Master-Guide power steering in the Ford!

So simple . . . So safe!
Blowouts become less risky with Ford Master-Guide power steering. It helps you steer to a safe straight-line stop. And power steering helps you *park* easier, too . . . does up to 75% of the work for you!

No radical change in driving habits! Unlike many other systems, Ford's system gives you much the same "feel" of handling that you get without power steering. Then, too, you always turn the wheel the same amount as you would with regular steering.

**Suggested delivered price.*

And, because Ford's Master-Guide power steering has a more natural "feel" than many others, you don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you the right assistance *when you need it.*

Worth more when you buy it . . .
Worth more when you sell it!
