SPEAKING CAMPAIGN CLOSES FRIDAY NIGHT

Curtain Drops on Political Rallies Over County With Closing Addresses in Floydada.

Candidates for political offices in Floyd County will close their campaign tour Friday night with their speaking appointment at the District Court room at 8:15 o'clock. They speak tonight at Lockney. More than usual interest has been shown in the races for nomination in the run-off primary Saturday for places on the Democratic ticket at the general election in November.

Personal qualifications for the offices will be outlined Friday night when the candidates speak here. Their itinerary has carried the canvassers into every community and political rallies have been staged at practically every voting box in Floyd County.

Box suppers, ice cream suppers and special dinners have been served at the gatherings held during the past few weeks and in addition to making their business proposals to the people, the candidates have been having their share of fun, they say. All the races have been characterized by open and frank expression of viewpoints and little or no "mud-slinging" has been reported to marr the record of the closely contested run-off.

The contestants spoke Thursday night of last week at Sand Hill, Friday night at Aiken and Saturday night at Providence. Their schedule included Lone Star for Monday night and skipping Tuesday and Wednesday nights close with addresses at Lockney tonight and at Floydada tomorrow night.

Those taking part in the run-off campaign for election in the second primary to be held Saturday are as follows: For sheriff and tax collector, J. R. Maddox, present incumbent, and P. G. Stegall; for County judge, T. R. Webb and Wm. McGehee; for county clerk, Tom W. Deen and Miss Anna Sims; for commissioner precinct No. 2, T. Z. Reed and E. H. Rankin; for commissioner precinct No. 4, W. W. Payne, present incumbent, and A. A. Beedy. These names and the name of Leonard Brewster for constable precinct No. 2 will appear on the ballots for the run-off primary, in addition to the names certified by the state committee for state offices.

Subscriptions Coming In Hesperian Special Offer

Although the official time for the opening of The Hesperian's Dollar Days, does not begin until tomorrow, a check on the number of subscribers Wednesday night who had taken advantage of the rates, indicated that more than three hundred old and new subscribers had taken advantage of the unusual offer, and beginning with Friday morning the number of subscribers to make their remittances while the opportunity is presented, is expected to mount rapidly.

"We are going to be disappointed if the number of new and old subscribers during this period does not run between seven hundred and a thousand persons," the management said Wednesday. "But whether or not the offer is accepted by a large or a small number, there will be no extension of the time-limit past Saturday night."

As a matter of fact, the response to the Dollar Day offer is going to be taken somewhat as a guage of the popularity of The Hesperian, it was pointed out. "If The Hesperian is filling the bill in its field and is worth the money asked for it, then our readers are going to consider a bargain rate in the same light as we regard it—an actual reduction and a real saving to them. Our friends who have neighbors whom they think should be taking The Hesperian, can do us a real favor by mentioning the special inducement being offered."

Several special representatives over the county have been named to solicit subscriptions during the campaign. In addition, subscriptions are being taken at The Hesperian office, so that it should be easy for practically every person in Floyd County to subscribe for The Hesperian without inconvenience during the Dollar Day period. Following are the special representatives named:

HISTORIC LAND MARK PASSES WHEN C. BOLDING HOME BURNS

Another historic land mark in Floyd County passed into the pages of the past last week when the little two-room house of Clark Bolding seven and one-half miles southeast of Floydada was destroyed by fire.

The building was erected 31 years ago by A. L. Anderson and the lumber was freighted across-country from Childress, Mr. Bolding said, adding that he was not sure just where the material was obtained.

Mr. Bolding said that the blaze was discovered shortly after lunch Friday. All attempts to extinguish the fire were unsuccessful. In the house at the time were: Mrs. Naoma Parish, Frank McClure and Mrs. Tarpley Mathews, of Leavenworth, Kan. No one was injured.

The fire is thought to have originated from a defective flue.

Plans are being made to rebuild Mr. Bolding said.

PREMIUM LISTS FOR COUNTY FAIR MAILED

38-Page Booklet Listing Community and Individual Exhibit Awards Sent Out.

Premium lists in catalogue form for the Floyd County Fair at Floydada, September 24-25 have been sent out this week by Ed Bishop, secretary of the Chamber of Commerce. The book contains 38 pages, itemizing the prizes in the community exhibits, both group and individual.

Sends 1,000 Books

Secretary Bishop is sending out 1,000 of the lists to interested community residents. The general rules and regulations as set forth by the Fair Association governing the showings in agriculture, livestock, home demonstration work, flower and art show are set forth in the catalogue.

Fair officials wish to stress the fact that there will be no entry fee in any department. Some confusion on this matter has been called to the attention of the directors and they state that every community may enter its exhibit absolutely without charge.

Ribbons will be awarded in the stock show but no cash premiums will be given, the catalogue states. The lack of funds and facilities will not permit a complete livestock showing but continued requests of owners to show their animals, believing that addition of this division would make the exhibits more complete, has occasioned the provision for at least a partial showing. The owner of the animals must send notice not later than September 15 to the Chamber of Commerce offices of the kind and amount of stock to be placed on exhibit.

Brief History Given

An historical sketch and summary of the motivating force prompting the Floyd County Fair this year is given in the announcement in the first part of the premium list booklet.

The anouncement reads as follows:

"Nineteen years ago—1907—the Floyd County Fair came into being and under the direction of far-sighted and loyal citizens became an annual fair continuing until 1919, demonstrating to hundreds of people the agricultural productiveness of this county, when the effects of the world's war caused it to be discontinued. At times since there has been some effort to re-organize the fair but were unsuccessful.

"Firm in their belief that Floyd County is one of the foremost counties of the State and that a good county fair is well worth their best efforts, the directors of the Floydada Chamber of Commerce anounced their intention of building another Fair Association.

"Operated with no thought of profit save that which will come through a more thorough development of the county, The Floyd County Fair is entirely unselfish in its aim. No officer or director receives any compensation for their time and all the expenses and premiums are paid by the progressive business men of Floydada.

"To all visitors to the Thirteenth Floyd County Fair you will be welcome. All will be made to feel at home and every one will surely be amply repaid in benefits and advantages that will most certainly be theirs as a result."

ELDER CLARK HOLDS MEETING AT TABERNACLE THIS WEEK

Elder N. L. Clark has been holding a revival meeting for the Church of Christ since Saturday night, August 14, in the City Tabernacle. The meeting will close with the night services Sunday.

STUDENTS WANT POSITION TO WORK FOR BOARD AND ROOM

"Wanted, positions to work for board and room while attending school. Will do anything. Call Mr. School Student." Such is the substance of the daily call being sounded by several prospective students for Floydada schools. Applications are being placed with Superintendent J. C. Wester, County Superintendent Price Scott, and Secretary Ed Bishop, by out-of-town students who are wanting to take advantage of Floydada's good schools. They will work anywhere, and do anything in order to pay their board and room, the students say.

According to County Superintendent Price Scott, the positions in the business district of Floydada are all filled, and the students are now hunting places in the resident district to work for board and room. Superintendent Wester urges that everyone notify him who has such a position open for either boy or girl.

HIGHWAY EXECUTIVES HERE SEPTEMBER 24

Lee Association Selects Floydada; O. P. Rutledge Named New Texas Chairman.

Floydada will be the next meeting place of the executives of the Texas division of the Lee Highway Association it was voted at the session held Thursday of last week at Matador. O. P. Rutledge, city, was named as the new president of the organization in the Lone Star State which embraces eight West Texas counties. Roy Snodgrass, Geo. Lider, Fred Bell and S. N. Tawwater made up the local delegation to the convention.

Meet September 24

Invitation extended from the Floydada delegates to hold the next meeting here on September 24, the first day of the county fair, was accepted by the representative groups present. Arrangements are under way to give the visitors a complete day of entertainment.

A luncheon is to be served at noon and the executive session will be held in the afternoon, local committee members planning the affair have announced. Everything is necessarily very tentative at present, they say, but promise that all will be in readiness when the association members gather here in September.

At the convention last week in Matador, Eunice Wilson, of Vernon, was named vice-president of the Texas division and H. H. Wilkins, of Paducah, was elected secretary.

Roy Snodgrass and Mr. Tawwater were appointed on the committee to act as supervisors of the highway in this county in regards to markings and traffic direction. They both spoke at the Matador meeting on the subject of cooperation between the respective towns on the route in Texas.

New Board Formed

According to a plan adopted, each city is to have a representative to serve on a board of directors and it is this executive group that will meet here in September. The purpose of the organization will be to work out publicity ideas that will bring more traffic over the Lee Highway. A uniform marking system is to be worked out, Snodgrass stated in discussing the actions outlined at Matador.

Each town on the highway, it was decided, will have its director for the executive board appointed by the Cham-

For Election Night

The Hesperian has all plans made for its election party Saturday night of this week, when, with the closing of the run-off primary campaign in precinct, county and state, the counting of the votes will be done by the various counting boards, and the unofficial count given out.

Every box in Floyd County will, without doubt, hold an election, and three hotly-contested races are to be tabulated. To this add two very interesting precinct races and the three contests over the state, and you'll have an idea of the wide-spread interest in the forthcoming event. The Hesperian's bulletin board will give figures on all county and precinct races by boxes, as soon as they are received unofficially from the election judges.

In addition bulletins will be posted every few minutes on the state races until about 12 o'clock. These will be received from the Texas Election Bureau, which is the same agency which is gathering returns for all the dailies in the state—in fact, is the only statewide agency which will gather and distribute returns to its approximately 100 members. The Hesperian is a member newspaper and is giving this service at considerable expense in the belief that it will serve the public well in this manner.

If you desire to mix with the big crowd expected around the bulletin board Saturday night, consider this as your invitation. Construction foreman C. H. Nail and Engineer Frank Joyner on the paving job, tell us the street in front of The Hesperian will not be closed either to pedestrian or automobile travel at that time, so the board will be accessible. If you can't be at the party and can find either of our telephones—8 or 58—idle, we will be glad to furnish you with any information we can give on any of the races at any time.

PETITION CIRCULATED FOR NEW PAVING ON WEST CALIFORNIA

A petition to pave two additional blocks on West California Street is being circulated this week by interested citizens. According to E. C. Nelson, over half of the property owners have signed and it is probable that all will sign, he said. Plans indicate new paving on California, extending from Fifth to Third Street. The pavement will be similar to that planned for South Main Street, sixteen feet on each side and a park left in the center. Making a one-way drive of the street.

City authorities indicate that if such a petition is presented it will probably be accepted; however, the city will not have funds to pave the entire street as some of the property owners wished, City Secretary Bedford stated.

Sand Hill Fair Officers Named, Date Is Sept. 22

Comprehensive Premium List Will Feature Third Annual Community Show Late In September.

Sand Hill Community Fair is set for Wednesday, September 22nd, announcement from citizens residing in that community this week said, and A. R. Hanna will be general superintendent of the fair. J. L. Speer is secretary. This will be the community's third fair, and a most comprehensive list of products of the farm, garden, orchard and home are included in the list of things on which premiums will be given.

Profiting from past experience, W. R. Dooley, one of the community leaders, said Monday that more than one name is being given as superintendents in the various departments. "In a one-day fair putting all the burden on one person for a whole department makes the load too heavy at times. By spreading out the responsibility, we hope to make every department run more smoothly," he said.

The premium list will be issued just as soon as the printer can get it off the press. In no instance have premiums been changed, it was announced except that where the quantities differ from those in the premium list in the Floyd County Fair to be held later the same week in September, the change will be made in the Sand Hill list to conform.

Following are the officers and superintendents named:

Launch Publicity Project At Meeting In Plainview

Launching a project, with an organization as yet un-named, having for its object the advertising and exploitation of a wide territory cutting through the central plains of Texas, representatives from towns and cities covering ten counties, closed an assembly Thursday afternoon last after selecting a president, vice president, directors and a sectretary. Floydada had three representatives at the meeting. They were Ed Bishop, J. I. Hammonds and Homer Steen.

The vote to form the permanent organization and begin active work of "selling" the territory to the people in the territory involved, was arrived at after a conference lasting more than two hours, during which time questions representing many angles of the possible value of an organization such as planned, were discussed.

The officers are E. B. Miller, Plainview, president; J. E. Swepston, Tulia, vice president; R. L. Winfrey, Ralls, vice president; H. B. Adams, Lockney, secretary; A. O. Thompson, Hereford, treasurer. The board of directors will be made up of a representative of each post office in the territory, from which an executive committee of five will be delegated to transact business.

Big Territory Involved

The vast territory involved, including the plains portion of Crosby, Floyd, Briscoe, Swisher, Hale, Lamb, Bailey, Parmer, Castro and practically all of Deaf Smith counties, it was pointed out, except for local differences, is all made up of almost exactly similar soils, exactly similar clamitic conditions—a territory where the raising of cotton from the south overlaps the raising of wheat from the north—a territory underlaid by an inexhaustible supply of pure water—was pointed out in addresses and talks.

"Such a big territory with such great possibilities is worthy of an individuality," E. B. Miller, president of the un-named organization said. "Our efforts at advertising as individual communities are not getting the results we can get by advertising and exploiting our resources in a large way all together. There are bound to be tremendous possibilities, and if each man will go home and 'sell' this idea to his home people, we can have nation-wide recognition for our section and get the advantages of nation-wide advertising in just the same manner as has the Southern California Association, the Magic Valley, Arkansas Valley Association, and others have obtained."

Will Set Budget

Proper financing of the project will be one of the first undertakings of the newly-elected officers, following the adoption of a constitution and by-laws, for which purpose a committee was named. Meetings over the territory will be held meanwhile, at which various people aiding in sponsoring the movement will make talks and aid in getting the idea to the people of this section.

That the idea is a big one and should be gone into fully was agreed by every representative present at the meeting. If possible, it is the plan of the officers to avoid any error that might injure the future possibilities of the organization and every precaution will be taken to avoid fatal errors in the first few meetings. That the idea impresses big business men is indicated by the fact that the Santa Fe Railway Company, and the West Texas Chamber of Commerce have both put the stamp of approval on it, and both have promised any aid they can give the infant organization.

CUTTING THE CORNERS

When Floydada's entire paving program is done, as part of it is already done, the turns at the intersections are going to be so smooth and inviting that thoughtless speedsters are going to come to grief, what with collisions and similar accidents resultant of too much speed. Every week on Missouri Street, drivers coming into Main are already furnishing more than half of the necessary ingredients of an accident. All they need is something in the way of a vehicle to hit. Other streets are going to furnish the same temptation.

Doubtless, the city officials will figure out a way to handle the situation, but meanwhile we suggest that the individual who values his own hide and or that of those riding with him, be sure to have his car under control at the intersections and keep a sharp eye out for the man who doesn't have his car under control. Some people can't learn to drive carefully—we do not mean slowly—and you can't tell when one of these well-meaning, sorry-they-did-it, kind will come around a corner on two wheels.

COTTON CONDITIONS

Although it is a matter of gratification to West Texas people that the cotton crop in this territory looks good for the time of the year, continuous reports that pour in seem convincing that that part of Texas usually depended upon to give the big production figures is suffering from the ravages of insects, and their production is going to be cut down from original estimates. This seems also to be true of certain other portions of the south, where, if reports may be believed, the situation with regard to the crop is unsatisfactory.

In spite of these facts, however, there is believed to be almost a demand on the part of some New York houses that the reports of the government department of Agriculture shall be bearish regardless of the figures their correspondents may give. This charge against New York houses is being made by several southern cotton factors. One southern cotton dealer puts the situation this way:

"The multiplication of insects is progressing faster than production of fruit. Crop is infested with four different enemies. Some States show all kinds, while all States show some kind. Insects are three weeks early and the fruitage is three weeks later than normal. Loss of crops in the past due to climate deterioration is 5 per cent to 20 per cent, while loss due to insect damage, particularly the bollworm, is 25 per cent to 35 per cent. The poison supply has been exhausted, although it has proven ineffective. The next brood of insects will show the greatest percentage of destructiveness of any crop on record. During the period since the Government report compiled up to present, deterioration and insect destructiveness will show more than 10 per cent loss.

"Some New York houses are almost demanding that the Bureau be bearish, regardless of the Government figures. The intrinsic value of cotton the last report was 20c per pound and at present writing with present condition of the crop, now worth 25c, and with a continuation of the deterioration, it can be put on a graduating scale in proportion to the manufactured articles to the consumer. We therefore advise all producers and merchants not to sell their cotton less than 25c, while consumption is increasing more rapidly than production."

Whether a cotton raiser can afford to take this advice fully, we are not sufficiently informed to say. However, we do think it is good food for thought.

Jumbo Jiggers

One of the boys with the Amarillo News-Globe has discovered why the sun is over six billion years old. He attributes the age of old Sol to the fact that he has never stayed out nights.

It may be unnecessary to mention that the Jigger boy has purchased a new straw lid and that same article will be closely guarded during the rush and excitiment of election night this week.

Not so very long ago a perfectly good derby disappeared on just such an occasion and the detective wishes to state that he knows definitely who tore aforesaid hat from the ownership of the rightful by purchase. No charges have yet been entered.

Nevertheless, but, the new derby will be guarded to prevent its going the erring way of its forepa. On and on we go, living and learning.

Truett Butler says that he and J. V. Daniel each got honked out of $5 the other day while they were taking their vacation trip in New Mexico.

This is still a free country and every citizen has equal rights—if he has enough dough to buy his equity. Butler and Daniel went over to the neighboring state all het up over the idea of capturing a string of fish. They paid five berries each for a strip of fishing license which would allow them to capture all wild fish in the state.

Well, the boys paid for the privilege of throwing their hooks in the water which was not a bit purer than that in their own back yards—and which contained the same amount of fish—no more, no less.

If there is ever another war between the states it will be a safe bet that Butler and Daniel line up against New Mexico.

D. W. Fyffe returned last Thursday from a four day trip to McAllen, Corpus Christi and other points in the Rio Grande Valley.

Floyd County Fair, Floydada, September 24-25

PROSPECTS OF FLOYDADA WHIRLWINDS FINE FOR 1926 WITH SEVEN LETTER MEN BACK

With seven letter men returning this year, the prospects for a victorious Whirlwind football squad from Floydada High is one of the best, is the opinion of Coach Ike Jay.

Coach Jay will have experienced material reporting for both line and backfield. He will have to develop a quarter, a fullback and two guards but he will have practically a complete team of letter men around which to build his defensive and offensive machine for the Green and White.

With the expected new material there should be little difficulty encountered in building a team that will equal and even surpass the eleven that set a remarkable record on the Plains last year.

Opening Game Here

The opening game of the 1926 season is scheduled with the Plainview Bulldogs here September 24, during the Floyd County Fair. This contest will be unofficial and will not count in the Interscholastic League standing, since Plainview belongs in the Class A and Floydada in Class B division of high schools. The game should prove a good one, however, for in past years it has been a "nip and tuck" affair between these old rivals on the gridiron.

Takoha is slated for the first official battle, which is to be played at Lubbock September 30 during the South Plains Fair.

Coach Jay stated that the schedule for the Whirlwinds was as yet incomplete but would be ready early in September, immediately following the teacher's institute here August 30, September 3.

Valuable Men Return

The list of returning letter men to the squad this year includes: Captain Roy Swain, left tackle; A. D. White, left end; John Edwards, center; J. R. Borum, right tackle; Henry Bosley, backfield; U. S. Marshall, backfield, and Jim Stiles.

Buford Terry and Victor Steen, both backfield men, will be back this year fighting for a place in the line-up. They lacked only a few quarters of having played enough last season to receive their letters and in reality are considered first string material.

Perhaps the most valuable man on the team this year will be U. S. Marshall, a triple threat man. Marshall can punt on an average of forty yards, an unusual distance for a high school player. He knows when and where to pass and he has a dandy stiff-arm action for broken-field running. He was forced from the backfield last year into the line because of an injury but he has recovered and it would not take prophetic predictions to surmise that Marshall will direct the Green and White eleven at the position of quarterback during 1926.

Jinx After Two

Bosley recently had an operation for appendicitis and will likely be forced out of the line-up for the first of the season at least. He probably will fill the position of fullback again. He knows how to hit the line and carries the pigskin with the firm intention of going somewhere, as he has several times convinced opponents.

Jim Stiles has also been a jinx victim and may not get into the game at all, not until the latter part of the season at the earliest. Stiles suffered a severe case of pneumonia last winter and is the second returning letter man who will have to do light duty for several weeks. He is the second triple threat man on Coach Jay's fighting eleven. His services will be sorely missed if he has to remain on the sidelines this year.

At the wing positions, on which all coaches agree there depends the success or failure of an eleven, will likely be placed White and Carter. Both men are fast; they can make tackles without a flinch and cut down interference. On the receiving end of a pass they have always been a continuous threat when defeat seemed the order of the day.

Edwards at Center, Borum and Captain Swain at tackles will likely give a good account of themselves and place on the first eleven during the early training season. All three huskies are experienced line men.

Jim Carter is another good man on whom Coach Jay will rely for wing or backfield duty. He is a handy runner and can tackle, pass and punt like a veteran.

Team's Record Good

Trueman Webb is a new member reporting to the squad. He will also add to the already strong host of contenders for the backfield which constitutes the driving power of a team. With other members of the old squad and with new material to furnish the substitutes or to perhaps even replace the veterans and to fill in the now vacant holes in the line, Coach Jay should in reality turn in another enviable record this year.

For the past four years Floydada has had one of the best teams in this section of the country. In 1923 the Whirlwinds lost to Amarillo for the championship of the bi-district. That was in the days when fighting Brit, Luttrall, Daily, Henry, McDonald and Maxey placed the name of the Green and White on the tongues of appraisal all over the Panhandle. The 1926 eleven has promise of doing as much or more, their coach believes.

For the past two years Floydada has played Slaton for the championship of the district. In both games the local lads lost by a small margin. With this year's prospects it is probable that the Whirlwinds will again enter the championship games.

Training Begins This Week

The Whirlwinds started their fall training Monday of this week when Coach Jay left with fourteen huskies for Silver Falls Lake to spend the week in practice and working out formations. Camping material was carried and the boys will "rough it" for the week in order to break in for the hard training that will soon start.

Those leaving Monday on the encampment were: John Edwards, Robert Gaither, Harold Porterfield, A. D. White, U. S. Marshall, Truman Webb, Ralph Jones, Relious Swain, Woodrow Goen, Pete Nelson, J. D. Luttral, J. R. Borum, Roy Swain, and Ervin de Cordova.

R. A. Pope will be cook while on the encampment.

Five of the boys received letters last year and many of the others have had previous football experience. Coach Jay states that he expects to "put the boys through" while on the encampment.

The average weight of the team this year is better than 150 pounds, stated Coach Jay, and after the fall training is under sway, it will be even better than it is now, he said.

The Whirlwinds lose five letter men this year from the 1925 squad; they are: Charley Lewis, Fred Jones, Hal Scott, A. D. Summerville, and Hershel Green.

With Floyd County Builders

East Texas has long held superiority in the state in corn raising but this year King Corn may have to move his throne farther westward. John Fawver brought six ears of the product raised here in Floyd County that would rival that grown anywhere.

The ears were ten and one-half inches in length and the large, white grains were perfectly developed. The corn was grown by S. L. Holmes eleven miles northwest of Floydada. There were six acres in the field, Mr. Fawver stated.

A. R. Hanna brought a cucumber to town the other day and left it with Secretary Ed Bishop of the Chamber of Commerce. The Vegetable was a monster, weighing two and one-half pounds and measuring fourteen inches in length. After keeping the cucumber in the office, Bishop became undecided about the exact classification and now he's not quite sure that it isn't a carrot.

The vegetable was raised on the Hanna farm in the Sand Hill community.

In spite of the late freeze and even later hails there is a fine grape crop in Floyd County this year. Nemerous farmers state that the vines on the arbors are well loaded with luscious fruit. Several residents in town report a good crop of grapes in small vineyards in their back yards.

Mrs. Frank Moses was in town the latter part of last week with some samples of the crops on their place three miles east of Floydada. There are 75 acres of cotton on the farm of Mr. and Mrs. Moses that will now make forty bales if it is not injured before maturity. those who have seen the crop state. A stalk that was brought to town from the field measured four feet in height and carried 56 squares in addition to three grown bolls that had become speckled.

An ear of corn brought from the 25-acre field measured ten and one-half inches in length and would compare favorably, with, if not surpass, any other produced in the county.

Two sample heads of maize that were mature and practically ripe. weighed seventeen and one-half ounces. The grains were well filled out. Mrs. Moses said that they had 35 acres of the maize and 25 acres of fine kaffir corn.

No insects of any kind have been bothering the row crops, she said. There were slight evidences of lice on the cotton early in the season but these have disappeared since the rain.

Cotton authorities say that the crop this year is from 75 to 95 per cent better than it was at this time last year. Hail has done heavy damage in a few instances but taken as a whole the cotton is in excellent condition.

E. Hooks, assistant manager of the Bell Telephone Company at Amarillo, was in Floydada Saturday on business.

Mrs. W. N. Jones of Lakeview community had as her house guest last week, her sister, Mrs. J. H. Purinton, of Kansas City. She returned home Saturday and was accompanied by her mother, Mrs. Mary Ficks, who has been visiting in Floyd County for the past five months.

The bride has a number of friends in this city, having visited here several times.

TEXAS PEOPLE ARE SPENDING MORE TIME IN THE OPEN

That more people are spending their vacations in the open is shown by reports received by the state board of health from tourist camps throughout the state. These camps are crowded with cross-country hikers who carry their camping outfits with them and sleep with the sky for a canopy, and cook their bacon and potatoes over a camp fire. These folks return home tired and brown, but are all the better off for their sun baths.

While fresh air and sunshine are advised by the state board of health as highly beneficial to health, campers and tourists are advised to observe the following health protective measures: vaccination against typhoid fever; boil all water used unless obtained from a known safe supply; and avoid being bitten by mosquitoes.

HEALTH LECTURES GIVEN CAMP GIRLS

Lectures on personal hygiene and first aid are being given by public health nurses to Camp Fire Girls and Girl Reserves in a number of their summer camps, according to Miss L. Jane Duffy, supervisory nurse of the state board of health. The lectures will be continued throughout the summer and as individual groups are changed every few weeks, the nurses will be enabled to reach a large number of girls with their health instruction.

Interest in Junior Health Cluzs organized during the winter months is also being maintained during the summer according to reports received by the state board of health from county nurses. These clubs meet for a half day twice a month, and though this has been an unusually busy season in the rural districts, interest in the work has been so keen that time has been taken for the club meetings. In some districts, the meetings of the Junior Health Clubs are being held in conjunction with the Home Demonstration Clubs, and the girls are drilled in the formation of health habits at the same time as being trained in the useful arts of bread making and food cannig.

Preparing School Program.

Public health nurses are also receiving much success in their summer 'round up" of children preparatory for their entrance into school the coming session. These "round ups" are conducted with the view of having the children physically fit for their school work. Children of all grades are included and two physical examinations are given in cooperation with the local physicians, one during the early summer and the other at the begining of the school term.

Other routine work of the nurses include children's health conferences, prenatal conferences, midwife classes, home and community demonstrations, public health lecturers, and assistance in sanitary campaigns.

TOBACCO PRODUCTION

The bureau of plant industry says that the number of leaves of tobacco in a "and of tobacco" varies, but runs usually from six to twenty leaves or more, depending upon the type and grade of the tobacco and the size of the leaves. The heaviest tobacco and best grades usually contain a small number—the dark Kentucky tobacco, for instance. The weight is variable. also. From three to five ounces is a fair average for a hand, but they may run as high as six or eight ounces.

EVERYONE GETS A COAT OF TAN THESE DAYS

People who go vacationing and get a healthful coat of tan are all the better off for it, is the opinion of Dr. H. O. Sappington, state health officer, who speaks favorably of the health benefits to be obtained from exposure to the sun's rays.

A coat of tan should be acquired gradually, as no one wants to be exposed to the direct rays of the sun in such a manner as to blister the skin, but this in the only precaution necessary. Sunshine is a destroyer of disease germs and acts as a tonic to the system; it is especially beneficial to undernourished children and those suffering from tuberculosis, rickets and other diseases.

JUST THREE MINUTES AND PEACE

The party is over. The guests have gone. The chairs are disarranged, perhaps the rug likewise. The lemonade glasses or the ice cream plates stand wearily around. One is on the window sill, one on the mantle. "Aw, come on and go to bed," pleads the husband. "We're awfully tired. To-morrow is another day." True. Sound. Justifiable. And yet—how much worse it will all look in the morning! "Give me three minutes," says wife. "I'll stop when ther're up." He gathers up the dishes and rinses them, leaving a neat pile on the drain board instead of a scattered mess everywhere. Wife straightens the chairs and gives a hurried run-over with the carpet-sweeper. The rooms stop scowling and begin to smile. The desk is piled high with unfinished work, unanswered correspondence. The days have not been long enough lately. This day is over. No use fussing in these minutes. But why not? Take three minutes to classify and straighten. The result is cheering. The work is not done but now it is ready to do to-morrow. All through life, disorder creeps in because the jobs seem too big for the days. But try three minutes at the end of the job. Office, kitchen, living room, sewing room, factory, playroom, bank, are all subject to the same law. Three minutes today will not do undone work, but it will save an hour's energy tomorrow by leaving the field clear for a fresh beginning. Tomorrow is a new day, and by virture of its newness, it deserves a clear, orderly and peaceful start.—Avalanche.

BISMARK'S INTERVIEW

You recall that Bismark lost his job as chancellor because he called Wilhelm down for talking too much. I was in a beer garden in Berlin. Saw Bismark seated in solitary grandeur at another table, sipping a glass of beer. With Yankee temerity, I walked over and asked him for an interview. The old man looked at me angrily, rose in majestic wrath, drew his military cloak around him, and hissed as he stalked out: "I do not give interviews. Ask the kaiser; he talks."—William H. Crawford.

TRIAL BY WATER LESS COSTLY THAN LAWSUITS

Among the tribes of the hilly regions of Orissa, in India, trial by water is still employed to settle disptes.

A sacred tank called Phulbani is used in such trials, and its waters are considered holy. In a trial by water the residents of two or three villages sit around the tank ,and the two contesting parties, accompanied by their seconds, each armed withalongpole, wait a short distance away. The priest then chants this prayer to the sun: "The Giver of Light and Strength, the face of Truth has been covered by a mist of gold; send down your shafts of Wisdom and remove the Veil obscuring the reality."

To insure the noninterference of demons of the underworld who may be lurking in the pool beneath the holy waters, a chicken in fed and watered and offered to the demons. This done, the contesting parties walk into the water, followed by their seconds. When the water reaches their armpits they take poles and, having fixed them in the bed of the tank, stand holding them for a minute while they turn to the east and mutter a prayer to the sun. Then slowly their heads are immersed in water. The man whose head comes up first is the loser.

This age-old custom has such a hold on the imagination of the natives that often the party who knows he is in the wrong will come up first of his own accord, lest injury in the shape of cramp or drowning is done to him by the powers concealed in the water.

Mr. and Mrs. Edd Johnson and Mr. and Mrs. Glad Snodgrass and daughter, Gwendolyn, returned Thursday night from a sixteen-day trip with relatives down-state in Titus County, Waco, Dallas and other points. Mr. Snodgrass went to Chicago and other eastern markets, returning last mid-week with his family by auto.

That a hearing shall be given to said owners, their agents and attorneys, and any person or persons interested in said improvements, before the City Council of the City of Floydada as provided by the provisions of Chapter 11, Title 22, Revised Statutes of Texas of 1911, and the Ordinance of the City of Floydada, which said hearing shall be had on the 7th day of Sept., 1926, at 9 o'clock a. m., in the City Hall in the City of Floydada, Texas, and which said hearing shall be continued from day to day and from time to time, as may be necessary to give all said property owners, their agents or attorneys, and any interested person or persons, shall have the right to appear and be heard in any manner concerning the said improvements or said assessment, or the benefits thereof to their said property, or to any other matter of things in connection therewith, or to contest said assessment, and at such hearings a full and fair opportunity shall be extended to said property owners, their agents or attorneys, and to all interested persons, to be heard with respect to such improvements.

That after the conclusion of the hearing above mentioned such sum or sums as may be determined by the City Council to be payable by said property owners shall be assessed against them respectively, and against their respective properties, by ordinance or ordinances, in the manner prescribed by the provisions of Chapter 11, Title 22, Revised Statutes of Texas of 1911, and the Ordinances of the City of Floydada.

That the City Secretary of the City of Floydada is hereby directed to give notice to said property owners, their agents or attorneys, and to all interested persons, of said hearing, as prescribed by the provisions of Chapter 11, Title 22, Revised Statutes of Texas of 1911, and the Ordinances of the City of Floydada, by publishing said notice three times in a newspaper of general circulation in the City of Floydada, the first of said publications to be made at least ten days before the date set for said hearing. Said City Secretary may also mail a copy of said notice by registered letter to each of said property owners, if known or their agents or attorneys, if known, said letters to be deposited in a post office in the City of Floydada at least ten days before the date set for hearing. Sand Hill Demonstration Club

The Sand Hill Home Demonstration Club met Wednesday afternoon in the home of Mrs. Frank Probasco. There were twelve members present and several visitors. The house was called to order by the president and the roll was called all answering with some ways to make home life more attractive. The minutes of last meeting were read by the secretary, then Mrs. Hanna told us about her trip to the Short Course. She was simply delighted with the trip to Short Course; and wished it could have been a week longer. She told us about the many interesting things she enjoyed, educationally as well as the social and pleasant times they had on the way and while there.

We were just ready to begin our fair work problems and discussions when a little cloud appeared and some one reported that it was going to rain so we adjourned at once everyone starting home. It surely did rain and before quite a number of us got home.

Our next meeting will be Sept. 1, and we will meet with Mrs. Mason Riley. Program will be as follows: "Value of a county Fair", Mrs. A. R. Hanna. We especially invite every club member to this meeting, as it will be nearing our community fair time. We want everybody to feel that this is their fair and help in every way possible.

"STELLA DALLAS" FEATURE AT OLYMPIC THEATRE SEPT. 6-7

After weeks of dickering with United Artists Corporations by letter, telegram and in person, the management of the Olympic Theatre definitely announces that Samuel Goldwyn's romatic epic "Stella Dallas," adapted from the famous novel by Mrs. Olive Higgins Prouty will open for a two day engagement, starting Monday, September 6th.

The management also recommends "Stella Dallas" as one film that will live in the memory after it is seen. It is great in story, cast and superb in its heart-wringing appeal.

"Stella Dallas" has had an amazing vogue as a popular story, then as a novel, and later as a stage play in which Mrs. Leslie Carter starred. The theme is already known to millions for its distinction and power.

Striking the keynote of romance, "Stella Dallas" on the screen, bares the love life of the central character played by Belle Bennett. It pictures a girl in love with love. It unfolds her amorous nature, her marriage, her peccadilos, and vividly visualizes the heights to which Stella rose and the depths to which she fell.

There is no moral in the story. It is entertainment of a high order. It is romance, realistic with laughter and pathos, leaving Stella as puzzled as life is itself. The climax of "Stella Dallas" is as tender, and as glorious as any big thrill heretofore projected from celluloid.

Actors and acresses of recognized ability portray the roles. Ronald Colman plays Stephen Dallas, Belle Bennett plays Stella Dallas, Alice Joyce plays Helen Morrison, Jean Hersholt plays Ed Munn, Lois Moran plays Laurel, and Douglas Fairbanks plays Richard Grovesnor.

T. R. Webb, Candidate For County Judge; To the Voters of Floyd Co.

I am deeply grateful to you for the splendid support given me in the first primary. My vote was fairly uniform over the county, and my appreciation, therefore, extends to every voting box and community. Again I earnestly solicit your vote and influence in Saturday's primary. If elected my best effort will be devoted to giving you an honest, fair and economical administration. I am under obligation to no association, organization or group of individuals, and I give you my solemn pledge that if elected I shall always keep in mind the interest of all the people and will discharge my official duties in the spirit of fairness, giving to every cause and every community justice without partiality.

The many pleasant things of the campaign—the new friends and the old ones—I want to keep as a permanent possession, but the unpleasant things I mean to cast away. My best wishes go out to all the people of this great county; to my opponents, my good will; to my supporters, the gratitude of my heart.

Today may be beautiful, but what will the weather be on the morrow?

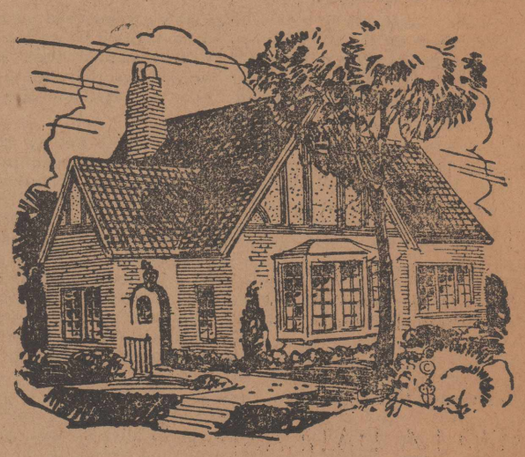

Your crops may look fine today, but what will be the condition of your fields tomorrow?

During the past two weeks heavy damage was done in some sections of the county by hail storms. Perhaps your neighbor lost his cotton or his feed stuffs. Insurance would have protected him against loss. A few dollars invested now would relieve your worries during the next few weeks preceding gathering time.

LUNCHEON CLUB 'GETS TO WORK' WITH IMPROVEMENT MOVEMENTS

Resolutions made to "get down to business" were put into effect immediately after acceptance Monday at noon by members of the Luncheon Club in regular bi-monthly session at the Commercial Hotel.

Movements were started for city and county improvement that includes street lighting, paving and road building. At the suggestion of G. C. Tubbs that the club do more actual work and less talking a motion was made, discussed and carried to take steps immediately to improve the main highway leading to Floydada from Silverton. With C. R. Houston as chairman and Fred Bell and Ed Bishop co-workers a committee was appointed by President W. L. Fry to begin work on plans whereby the local citizens and business men could cooperate with road commissioners in putting the highway in better shape.

"Hundreds of dollars are being lost by Floydada business men because farmers can not conveniently reach town with their products or when they have trading to do," was the opinion expressed in a short talk on the subject by F. L. Davis. He stated that he was so anxious to see something done that he was willing to go out with a shavel and help work the road himself if the other boys would go along with him.

J. G. Wood suggested the need in Floydada for more street lights, particularly around the court house square. The idea that the merchants might cooperate on a system for lights under the awning of each firm met with approval the expression of those present indicated.

Importance of having the street leading to the high school building in Floydada paved this year was outlined in a talk by F. L. Davis. It was decided to discuss the matter with property owners and ascertain the feasibility at this time.

NEW ELECTRIC BELL SYSTEM READY AT WARD IN SEPTEMBER

An electric bell system will be in- stalled in the Andrews Ward school building now being erected, according to Superintendent J. C. Wester. The bell system, which will be installed about September 25, will be controlled by a single large clock.

The school board placed the order for the new system last Friday. The cost of this added fixture, $275, was includ- ed in the contract for the new build- ing, stated Mr. Wester.

The purpose of this electric signal will be to warn the respective classes of the period changes. In this way, con- fusion will be avoided, he said, and the entire school will work as a unit.

HAL ROACH WROTE STORY FOR FRONTIER PICTURE AT OLYMPIC

"The Devil Horse," the third feature production starring Rex, princely wild horse of the screen, comes to the Olym- pic Theatre September 16 and 17.

"The Devil Horse" is a drama of the big adventure of empire building, taken from the romatic history of the early West and written for the screen by Hal Roach, producer of the picture, which is released by Pathe.

In selecting players for the human cast Fred Jackman, director, sought those who, by their riding ability and familiarity with Western atmosphere, were qualified beyond the mere abili- ty to act. The principals are Gladys McConnell, who by her work in this picture won a five-year contract with another large studio. Yakima Canutt, world's champion cowboy and stunt ri- der, Master Fred Jackman, son of the director, and the entire population of the Crow Indian reservation in Mon- tana.

In presenting Rex against a story background of Indians and pioneers, with the historic struggle of the plains motivating the plot Hal Roach offers an interesting inducement to attend the Olympic Theatre's show.

SADLER'S COMEDIANS PLAYING TO LARGE CROWDS THIS WEEK

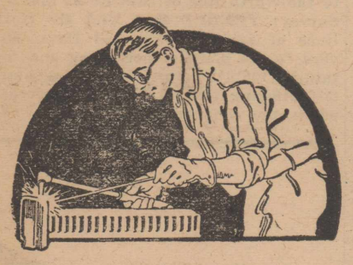

Harley Sadler and his own company of entertainers have been playing to good crowds in Floydada all this week. They are appearing here under the aus- pices of the American Legion and the Chamber of Commerce.

At their opening play, "Other Peo- ple's Business," their tent which is lo- cated at the north-east corner of the square, was filled to capacity, and the other plays of the week have been well attended.

Harley Sadler is known as one of the best comedians in the state and is exceptionally popular in Floydada and Floyd County. Sadler's company in- cludes an all-star cast, practically all of whom have played here in previous years and are well known here for their ability for entertaining. Eddie See and his orchestra furnish musical diver- sion for the audiences.

Public Utilities Have Heavy Capital Investment

The telephone company has nothing to sell but service. It cannot make more money than enough to pay its operating expenses, keep its plant in good condition and pay the wages of the money it invests.

The amount of investment in a telephone company is high compared with its reve- nues. Five dollars of capital must be put permanently into the average telephone property for every dollar of gross annual income.

The telephone company turns its capital once in five years. Every other business in the community turns its capital from two to ten times a year.

DOLLING UP THE HUMBLE POTATO

Four Unusual Recipes by Four Famous Cooks

Don't think that after you've served potatoes mashed, creamed, and fried you've put them through all their paces. You don't have to begin repeating the old story. There are many delightful ways of preparing the humble spud, as several famous cooks have discovered. They actually glorify this homely American vegetable!

MRS. BELLE DE GRAF

Tamalpais Potatoes

Tamalpais Potatoes. Doesn't the very name make your mouth water? This delicious dish, prepared from left-over potatoes, is a favorite with Mrs. Belle De Graf, San Francisco homo economics counsellor and writer.

Chop fine 3 cups cold boiled potatoes. Add ¼ cup of cream, and salt and pepper to taste. Pack very solidly in buttered custard cups, or muffin pans. Set in a pan in a very hot oven. Bake 30 minutes, or until golden brown crust has formed which will hold the potatoes together. Turn out in individual molds.

Baked Potato "Tips"

Mrs. Sarah T. Rorer, Philadelphia cooking expert, adds two or three artful touches to baked potatoes which make them taste unusually good.

"After scrubbing large, perfect potatoes, I soak them an hour in cold water," she says.

"I bake them on the upper grate of a medium oven, and turn them after 20 minutes. I let them bake another half hour, or until they feel soft when pressed in a napkin.

"Never try them with a fork, for this allows the steam to escape and makes them heavy. Serve in a napkin at once.

"The secret of good baked potatoes is a slow oven; for a hot oven hardens the skin at once and makes the potatoes soggy."

Stuffed and Browned

Miss Margaret Allen Hall, nutrition expert at the Battle Creek College of Home Economics, has a decided preference for stuffed potatoes. She fixes them like this:

6 medium-sized potatoes
½ cup milk or cream
3 tablespoonfuls butter
1 teaspoon salt

Select well-shaped potatoes about equal size. Bake until soft, then cut or break each potato at about the middle. Remove the contents, mash, add salt, butter, and sufficient cream or milk to cause the potato to beat up light. When very light, fill skins with the seasoned potato, piling it up in irregular shapes. Set the stuffed potatoes in oven a few minutes to brown.

a la Pittsburgh

Mrs. Kate Brew Vaughn, home economics director, of Los Angeles, teaches cooking to 100,000 women every year. Her Pittsburgh Potatoes are rich enough to serve as the only cooked luncheon dish, she says. If served with a good salad they provide a delicious meal. Here is her recipe:

1 lb. potatoes
1 cup grated cheese
1 diced pimento
½ cup bread crumbs
4 tablespoons butter
2 tablespoons flour
1 cup milk
Salt and pepper

Dice potatoes and boil until soft. Put a layer of potatoes in baking dish. Sprinkle with grated cheese, salt, pepper, butter and chopped pimentos. Add another layer of potatoes and repeat with cheese and pimento. Pour over this one cup white sauce. Cover with buttered bread crumbs. Bake in oven until well browned on top.

Prepare the white sauce by melting two tablespoonfuls butter, and stirring in flour until smooth (2 tablespoonfuls), then add one cupful milk and salt and pepper.

There you are! Four tempting potato recipes, all easy to prepare, favorites of four famous cooking specialists. Try them on your family. They will welcome these unique variations of the potato theme.

Six famous cooking experts agree

Pacific Coast, Gulf of Mexico, New England, and Lake Michigan! Six of the country's foremost cooking experts have just completed a rigorous test of the Perfection Stove.

THEY used every method of cooking from frying to baking, and were enthusiastic about the Perfection. Read what they say.

"Whether I broiled steak or French-fried potatoes, the results were fine," says Mrs. Rorer, famous Philadelphia cooking teacher.

Crisp Waffles

"My waffles were light and beautifully brown," says Miss Allen, director of The Boston School of Cookery. "They cooked on a hot flame, with yellow tips 1½ inches high above the blue area."

"I found the Perfection so dependable," reports Mrs. DeGraf, home economics counsellor. "I left a roast lamb in the oven for hours. The flame never wavered."

No Scouring Needed

"Eggs a la King and broiled tomatoes are delicious enough in themselves," affirms Miss Hall, nutrition expert, "but twice as delicious to the cook whose kettle bottoms need no scouring. Perfection's long chimneys burn every drop of oil before the heat reaches the cooking. No soot or odor."

"Using a Perfection is like cooking with gas," remarks Mrs. Vaughn, domestic science expert, Los Angeles Express. And Miss Rosa Michaelis is of the same opinion.

Tested Cooking Ability

These are just a few comments made by the six experts, satisfied with only the best cooking equipment. They find the 1926 Perfection fulfills every cooking requirement.

What does it mean to you?—*That when you buy a Perfection you get a stove with cooking ability tested and proved by experts.*

Indigestion
bad spells relieved

"NOTHING can take the place of Thedford's Black-Draught with us because we have never found anything at once so mild and so effective," says Mrs. Hugh Nichols, R. F. D. 4, Princeton, Ky. "When the children have spells of indigestion and upset stomachs, I always straighten them out with a dose or two of Black-Draught.

"Several times I have suffered with bad spells of indigestion myself and found I would soon get relief if I took a course of Black-Draught. I was troubled with a bad accumulation of gas and severe pains across my stomach and lower bowels. Now when I feel a spell of this kind coming on, I head it off by taking Black-Draught—a dose every night for a few nights will prevent the trouble and save me much pain and suffering.

"My whole family uses Black-Draught for biliousness and constipation.

"It is a splendid medicine." Sold everywhere. 25 cents.

We're Awake To Our
Responsibilities

A man in a crowded train had his eyes closed when the conductor reached him.

"Wake up," said the ticket puncher.

"I wasn't asleep," explained the passenger, "but I hate to see women standing."

It's the sad truth that there are many firms in business today like this traveler. They are keeping their eyes shut to their responsibilities.

We are doing everything in our power to make ourselves worthy of the trust which has been placed in us. We realize our responsibilities to our coal customers.

We appreciate the fact that their satisfaction is of first importance.

When you buy coal from us, you can do so with the assurance that it will do all that we claim for it. When you come to us for service, you can absolutely depend on getting it.

UNITED STATES TIRES ARE GOOD TIRES

[illegible]ete Gas Lines By [illegible]c. 15, Official States

Gas At The Back Door of Every Residence Dec. 15 Is Aim of Company Holding Floydada Franchise.

That natural gas lines from the north plains gas field t oall south points will be completed by December 15, is the belief of W. W. Graves, of Oklahoma City, representative of A. J. McMahan and associates, who will be officials of what will be the Texas Gas Company when it is incorporated under the laws of Texas, according to an interview printed last week in the Plains Journal of Lubbock.

McMahan and associates were granted franchises by all cities and towns from Canyon to Slaton including Floydada and Lockney several weeks ago. According to Mr. Graves, operations have already begun on the survey from the panhandle field beginning from the north end. Plans and specifications are expected to be completed by September 1 and construction contracts let by September 6, the Plains Journal says.

Line Is Financed

Quoting Mr. Graves further, the article says: "It is the plan to begin actual work on laying the mains not later than September 15, and the several contractors who plan to submit bids on the project have assured officials of the company that the line can be laid in sixty days, including all lateral lines into the several cities that will be served.

"All necessary finances for the line is now at the disposal of officials, contracts have been placed for all the pipe subject to delivery in the amount of five miles per day when needed, and everything is working out in tip-top shape for early completion of the line, Mr. Graves said. In addition to the original plans for the line, a lateral will branch out from Plainview to Lockney and Floydada.

220-Mile Project

"Plans and specifications on the construction contract are being drawn up in five sections, and bids from each contractor will be received on either or all projects. The forty mile stretch from the field to Amarillo constitutes one section; from Amarillo to Tulia another, from Tulia to Plainview another; from Plainview to Lubbock, the fourth; and from Plainview to Floydada and Lubbock to Slaton the fifth. Webster L. Venham, of Kansas City, is Chief Engineer on the project. The line will be laid due south out of Amarillo to Tulia, and laterals will run from the main into Canyon and Happy.

"The full line, including laterals into the various towns, will be approximately 220 miles in length, and will cost about $4,000,000. A booster station will be located at Plainview, and will guarantee 150 pounds pressure if necessary. Without the aid of this plant, however, the pressure would be 63 pounds, sufficient under ordinary circumstances.

"It is the plan of officials to have all distribution plants completed at the various places by the time the main is laid but these will be erected under separate contract from the main. Construction work will start on these about the same time work starts on the main. The main line will taper from 12 inch leading from the field to Amarillo, ten inches from Amarillo to Lubbock, and eight inch laterals into Floydada, Slaton and other points not on the main line. Gas will probably be available at all points by December 1, if no difficulty is encountered."

Lee Highway Officials Meet Here In September

(Continued from page 1)

ber of Commerce. This step was taken in order to assure the selection of a citizen who will work diligently for the best interest of the highway.

Judge C. L. Glenn, of Matador, president at the called session last week held in the district court room. Judge Glenn, who is a director on the national executive committee made one of the principal addresses. He urged that Texas was not doing her share of the work toward maintaining the highway which was of vital import to this section of the state.

In the booklet sent out in April of this year by the headquarters at Washington of the Lee Highway, the following statement regarding Judge Glenn appears,

"Another instance of the spirit that has made Lee Highway Association such a power is found at Matador, headquarters of a large cattle ranch. C. L. Glenn, Judge of the County Court, came to the Annual Convention of the Association held in Washington two years ago. He came to find out if it would be worth while to raise money in Motley County, Texas, and send it to Washington for highway promotion. He went home satisfied. He has built their section of Lee Highway and keeps it in repair. He secured memberships for the support of the Association and when one dies or for any reason ceases to pay his dues, he finds some one to take his place. He always attends the Lee Highway Conventions and is in active correspondence with the Washington office. In this work he has the whole-hearted support of the Chamber of Commerce."

After the business meeting Thursday, a big banquet was served by the church women in the basement of the Methodist church. Returning delegates from Floydada were high in their praise of the cooking ability of the women of Motley County.

The Lee Highway was originated as an idea February 22, 1919, when a resolution was passed that there should be a national highway as a memorial to General Robert E. Lee. It has been extended until it now reaches from New York across the continent to San Diego, Calif. The Texas section traverses the following county seats: Vernon, Crowell, Paducah, Matador, Floydada, Plainview, Olton, Muleshoe and Texico. The road enters this state just north of Oklaunion across Red River from Oklahoma and enters New Mexico at Texico-Farwell.

In speaking of this particular branch of the road, the highway magazine says,

"One of the fastest sections is across the "Staked Plains." Between Matador and Floydada the journey takes one up the "Cap Rock" on the "Staked Plains," over which the drive is an interesting one with no speed cops to worry over. The landscape is like the ocean, boundless. One sees new fences, new houses, new filling stations, new towns growing up, all the result of providing the road. This applies especially to the road from Plainview, through Olton, and Muleshoe to Texico-Farewell."

Floydada Schools Have Formal Opening Monday

(Continued from page 1)

dents will enroll Wednesday.

Superintendent Wester has made the following announcement for the pupils and also on the importance of attendance at the exercises next Monday:

"If coming to Floydada from other schools bring your report cards or statement of credits signed by teachers or superintendent. This is necessary before you can be classified.

"Bring your book cards showing that you turned in your books the last year you attended school.

"Last year we gave spellers to students thinking they would not be used again. We have been notified that some of the grades will use the old spellers so we ask that the spellers be returned to teachers on opening day.

"Students who have summer examinations or conditions will report to their teacher or sponsor at 9 a. m. Wednesday.

"High school students who have never been in Floydada school before will report at high school building on Tuesday at 9 o'clock to enroll.

"Former students will enroll Wednesday 9 a. m. to 4 p. m.

"Seats will be assigned Friday morning and schedules tested Friday afternoon, September 3. Regular class work will begin Monday September 6.

"We do not expect to get in the new ward school building until about Oct. 1. Until that time all students in grades one to five inclusive will go to the old ward building. Each child should find out how many blocks he lives from each school so that he can be assigned properly. We want every child to attend the closest school to him. However, in some cases to prevent a crowded condition in a grade it may be necessary to transfer some pupils who live as near one building as the other.

"All students who have books for summer study must return them to me before opening day.

"All book fines unpaid last year must be paid before a child can receive books this year.

"The complusory school term will not begin until December 20, because of crop prospects at the present time.

"All high school students will be required to pay a fee of 50 cents for use of English classics. These are bought by the school and furnished each student at less expense than he could buy all classics used.

"Every Parent should become personally acquainted with the teacher of his child and thereby form a partnership which will materially affect the child's training. We desire to be as efficient as possible and will be, but the parents can increase our efficiency by a personal talk with the teacher.

"Maybe your child has some peculiarity, which doubtless, the teacher will discover sooner or later but she has a room full of little ones to study and yours may be the last. Talk with your teachers, tell them anything they ought to know, and get the advice on how to help the child at home. They will also welcome your advice concerning your child and how he may do his best at school."
