A Positive Forecast "Serving West Texas Since 1901" A Good News Review

Volume 88--#19

Betty Goodwin (middle) is pictured here with her two daughters, Blanche West at left and Nancy Taylor at right.

Goodwin To Celebrate 103rd

Betty Goodwin will be celebrating her birthday May 16. Not just any birthday, this is her 103rd birthday.

Monta Elizabeth (Betty) Goodwin was born May 16, 1886 to Nancy Holt and John Thomas Hardin at Thrifty, Texas, close to Brownwood. She was raised on a ranch in Coleman with seven brothers and sisters: Chris, Bill, John, Gould, Eddie, Janie and Nancy. All are

deceased except Nancy Holstead, and one half sister, Lorena B. Nixon.

Betty joined the Methodist Church at the age of 13 and chose to be baptized. She refers to this as "being baptized in the Colorado River with snakes". While standing in the water she looked over and saw a snake. She loves the Lord and tries to spend each day serving him.

In September of 1907, she married Oscar Wright and had three children, a son, Eskalee, born in 1908 and died at the age of three weeks; Nancy, born in May, 1910, who now lives in Sonora; and Blanche, born in February, 1913, who lives in Eldorado.

Betty owned two restaurants, one in Barnhart and one in Hobbs, New Mexico. She also ran and operated The Taylor Hotel in Hobbs which had 20 rooms with a bath in each room.

In 1910, before her daughter Nancy was born, she became a member of the Rebecca Lodge of Fort Worth. She thinks this was a good club because it

helped people.

She liked to sew, keep house, and ride her chestnut sorrel named Red Bird. She would put Nancy on the back and Blanche on the front on a pillow and off they would ride.

Betty came to Eldorado in 1980 to live with her daughter and son-in-law, Nancy and Cashes Taylor. She now lives in the Schleicher County Nursing Home. She says she didn't think she would like it at first but now thinks it is a pretty good place to live.

She loves her friends and was an excellent horse rider in her younger days. She was very talented. She was awarded a citation for a credit rating--for paying her bills on time.

Betty will be highlighted on NBC television by Williard Scott on May 16. She will observe her birthday on May 17 with the nursing home residents.

Betty has three grandchildren, Dale West Eubank, Blanche Lavon Regeon and Billie Wright Taylor who is deceased; and seven great grandchildren.

Voter Turnout Down In Election

Voter turnout in last Saturday's combined school, city and hospital election was reported as being light.

Voters elected one new member to the school board, Scott McGregor with 215 votes, and re-elected Terry Green with

211 votes. Also receiving votes were Jim Hardy, 136; Sidney Reynolds, 79; and Jay Behrens, 69.

In the Schleicher County Hospital District election, which was unopposed, William Edmiston, Jr. received 322 votes, George Gower 303 votes

and C.R. Sproul 317 votes.

In the city election, the mayoral candidates were Roy Lynn Love and Richard Preston. Preston won the race with 249 votes while Love tallied 24 votes.

There were two at-large positions open on the city council. Incumbents Barbara Jackson and John Nikolauk won the two seats with 194 votes each. Roger Power also ran in the race and received 95 votes.

The Plateau Underground Water Conservation and Supply District elected Robert K. Bradley, unopposed, with 101 votes for Director, Precinct One. For Director of Precinct Four, Steve Williams, unopposed, received 114 votes.

Although voting was reported down a little from last year, the city election had a total of 281 voters, the hospital had 383 and the school reported 397 voters.

Fund Established For Dean Day

Dean Day, who has been suffering from cancer, has returned home and is in extremely serious condition. A fund has been established at the First National Bank of Eldorado to help defray medical and living expenses.

Day has been a citizen of Schleicher County for over 30 years. His wife, Eloise, works at Glidden Foods, but has recently

spent most of her time caring for her husband.

The community is asked to support the family in their time of need. Anyone working at the bank will be happy to take your contribution to help these fine people.

For a tax deductible contribution, make your checks payable to Warner Avenue Church of Christ/Dean Day Fund.

Youth Rodeo Kicks Off Friday

The 4-H Youth Rodeo kicks off this Friday with a parade scheduled to begin at 4:30 in the downtown area.

Local and surrounding cowboys and cowgirls will begin competition at 7 p.m. Friday and continuing Saturday morning at 9 a.m.. The final performance will be at 7 p.m. Saturday evening.

Melissa Lloyd, chairman of this year's parade, is looking for several organizations to have floats. "At this time, we have about 17 clubs represented, along with the Drill Team, Schriners and

the Eldorado Eagle Band," stated Ms. Lloyd.

All parade participants will meet at the high school tennis courts at 4 p.m. The parade will begin promptly at 4:30 and progress to the Mertzon Highway and to the downtown area near the bank and end at the tennis courts.

If you have not been contacted and would like to be in the parade, call Ms. Lloyd at 853-3227 after 7 p.m.

Editor's Clips

By Mary Jenkins

Well, last week's article was a little mixed up. You see, sometimes when we put our news stories down on what are called "layout sheets", we have to pull them back up. Then when we put the story back down again, we sometimes get the paragraphs mixed up. Most of the time we catch it, but sometimes it goes to press anyway.

Mistakes do happen--they are sometimes avoidable, sometimes not.

This Sunday is Mother's Day -- a time to remember our mothers.

A mother can be almost any size or any age. She has soft hands and smells good. A mother likes new dresses, music, a clean house, her children's hugs and kisses, an auto-

matic dishwasher, and a microwave oven.

A mother doesn't like having her children sick, muddy feet, temper tantrums, bad report cards or bad grades. She can read a thermometer like magic, kiss a hurt away. She can also bake good cakes, pies and cookies, but likes to see her children eat vegetables.

A mother can kiss a little face and make it smile. She is unpaid, has long hours and gets very little rest. She worries too much about her children. And no matter how old they are, she still likes to think of them as her little children.

A mother is the guardian of the family, the queen, the tender hand of love. She is the best friend

anyone ever had. A purest gold,

M is for the million things she gave me,

O means only that she's growing old,

T is for the tears she shed to save me,

H is for her heart of

E is for her eyes with love light shining,

R means right and right she'll always be,

Put them all together they spell MOTHER, a word that means the world to me.

I love you Mom!

The Way We See

"All styles are good save the tiresome kind." Voltaire

I think Andy Rooney would agree with Voltaire, even though he wasn't referring to fashion style. In a recent commentary on fashion, Andy stated that hemlines were a pain. Up and down, up and down. Andy says everyone should attend at least one fashion show in Paris to view the elevator of hemlines and the Halloween costumes that can be seen there.

He maintains that the most flattering hemline in any season, in any year, for anyone is just below the knee. Andy observes that knees are one of the

ugliest parts of the human anatomy second only to the elbows. When they are bent they aren't too bad but straighten those limbs and watch the transformation of skin as it makes many creases in the back of your arm; watch the bumps, humps and dimples appear like magic when you straighten your leg or stand up.

I agree with Andy. I have looked at a good number of knees since that broadcast and they are not the best feature about a human being. A hemline would do well to cover the knees and not continue to be a tiresome point of fashion.

It Takes A Mother

It takes a mother's love to make a house a home,

A place to be remembered, no matter where we roam.

It takes a mother's patience to bring a child up right

And her courage and her cheerfulness to make a dark day bright.

It takes a mother's kindness to forgive us when we err,

To sympathize in trouble and bow her head in prayer.

It takes a mother's wisdom to recognize our needs

And give us reas-surance by her loving words and deeds.

It takes a mother's endless faith, her confidence and trust,

To guide us through the pitfalls of selfishness and lust.

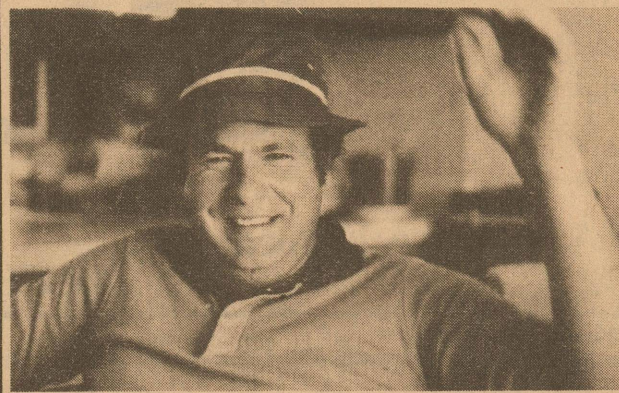

And that is why in all this world there can never be another

Who will fulfill God's purposes as completely as a mother.

Laugh and Live

●●●●●●●●

Have noticed that sometimes things are understood differently than how they are intended.

For example the following copies of advertisements were actually printed in newspapers:

"Bulldog for sale; will eat anything; is very fond of children."

"Lost -- Near Highgate Archway, an umbrella belonging to a gentleman with a bent rib and a bone handle."

"Mr. Brown, furrier, begs to announce that he will make up gowns, capes and so forth, for ladies out of their own skin."

"Wanted - a herder for 500 sheep that can speak Spanish fluently."

"For Sale - House in good neighborhood, by an invalid lady three stories high and heated with furnace."

Now this past week, I received (through the U.S. Mail) a certificate that seemed to indicate that I had been fortunate enough to "win" either a new Cadillac car or up to \$25,000 in cash. The "smallest Cash Award" was \$2500.00.

Since my old Chevy is a little ragged and I didn't have \$25,000 in cash, I decided to take these kind folks up on their offer and accept their gift.

When I called to thank them for their generosity, a pleasant sounding female type voice said, "You're welcome." She then told me that all I needed to do to receive my award was to buy about \$300 dollars worth of pencils. She also said that I was in the "top 2%." This filled me with intellectual pride! I was unsure of what I was in the top 2%.

So I asked her, "2% of what?"

To which she replied, "Why, Texas of course."

It didn't take me very long to remember that there are some 17 million Texans. That means that there are about 340,000 of us in the top two percent. If these generous folk give all 340,000 of us \$2500, it's going to cost them about 850 million dollars. Unless they have a very productive well, they're just not going to make it. Seems to me that they're losing about \$2200 every time they sell \$300 worth of pencils. Guess they're going to try to make up the difference in "volume."

WTU To Participate In Gatekeeper

West Texas Utilities Company has announced its participation in the Gatekeeper Program. The program is designed to assist vulnerable older people who need help but may be unable to get it for themselves.

"We have long been active supporters of programs like the United Way, volunteer fire departments, and other commu-

nity programs," said Glen Churchill, president and chief executive officer of the electric utility. "Our employees also participate in the Neighborhood Crime Watch in our communities. The Gatekeeper Program offers us an opportunity to further serve West Texans."

Each year the elderly population grows. In fact

statistics show that people over 85 make up the fastest growing segment of the U.S. population. Many of them are healthy, active people involved with family and friends, church or community groups.

But many others are not that fortunate. They live alone and have little contact with others. If they become ill or unable to function independently, they can easily go unnoticed and unattended. According to Churchill,

the Gatekeeper Program seeks to help remedy the problem by using meter readers and other customer service representatives who may have contact with the elderly in the normal course of their jobs.

Nancy Johnson, WTU supervisor of residential audit services, recently conducted training sessions for those employees throughout the company's 52 county service area. The training taught the

Gatekeepers to recognize certain signals in the elderly such as a change in appearance or behavior, or signs of confusion or disability.

When the employee sees a warning sign, the local agency for the aging is contacted. The agency takes it from there.

They contact the elderly person, assess their needs, and get whatever help is required from the appropriate health or social service organization.

This may include medical care, food preparation or delivery, help with household chores, transportation, or other services.

In discussing the company's reasons for participating in this nationally recognized program, Churchill pointed out that it is a logical extension of what company employees do in their normal line of work. He added "the Gatekeeper Program is a way to help our neighbors, customers and friends."

Boyce Evans To Conduct Campfire Church Services

Boyce Evans of Lubbock will be conducting the church services, Sunday, May 28 at 11:30 a.m., on the slab near the rodeo arena south of town at this year's Campfire Cookin' and Pasture Roping.

Evans has been in the field of evangelism since he began his ministry. During his 16 years as

Since 1965, Boyce Evans has been a full-time evangelist, first for Hardin-Simmons University and then as an independent

evangelist. During this period of time, he has preached at more than 1500 revivals, conferences and crusades throughout the United States in churches and in city-wide and area crusades where all denominations were involved.

'Ragweed Cowboy Joe' Coming To Eldorado

After High School graduation on Friday night, May 26, at 10 p.m. a comic melodrama will be presented under the direction of Marcy Willis.

A quartet consisting of Sherry Belk, Janee Finley, Judy Olsen and Jo Ella Parker adds spice to this play with several well-known tunes of old favorites with their lyrical harmony setting the mood of the west.

To all customers of
Southwestern Bell Telephone Company:

Public Notice

On March 14, 1989, Southwestern Bell Telephone Company filed with the Public Utility Commission of Texas an application which proposes to revise its Toll Restriction Tariff in Section 21 of the General Exchange Tariff. The Commission received the application as Docket No. 8700.

The application proposes to reduce the monthly rate for Toll Restriction residence service from the current \$15 a month to \$5 a month per residence access line. This proposed application will affect approximately 2,487 residence customers who presently subscribe to toll restriction. It is estimated that the proposed rate schedule will reduce the Company's annual revenues from this service by approximately \$298,000, which is less than one percent of the Company's total intrastate revenues. If the application is approved, the effective date of the rate reduction will be set according to the Commission's Order.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A deadline to file motions to intervene has been set for May 30, 1989. AT&T MultiQuestSM Service

AT&T Communications of the Southwest, Inc., (AT&T) announces its intent to introduce within Texas on July 14, 1989, AT&T MultiQuest Service, a new interactive 900-type telephone service. Since February 19, 1989, this innovative service has been available to Texas businesses only on an interstate basis. With AT&T MultiQuest Service, Texas business customers (otherwise known as sponsors) may offer value-added information services to callers originating long distance calls from Texas or elsewhere in the United States over AT&T's public switched network. A Texas caller, accessing the service by dialing the sponsor's 1-900 plus seven-digit number, can obtain recorded and/or live information by communicating with attendants, voice messaging equipment and computer data bases. Flat-rate, time sensitive usage charges will be billed to the caller for the sponsor's service.

AT&T is offering AT&T MultiQuest Service within Texas in response to requests by its business customers for a service that offers intrastate as well as nationwide interactive voice & data transport capability. Potential sponsors include entrepreneurial companies entering into new ventures that are information intensive, local mass announcement sponsors who want statewide as well as national coverage coupled with interactive capability and other information service providers.

The Texas intrastate AT&T MultiQuest Service will be tarified as an "add-on" offering to a sponsor's existing interstate AT&T MultiQuest Service. The intrastate AT&T MultiQuest Service costs will be recovered from sponsor usage charges set forth in AT&T's intrastate tariffs. The usage charges billed to the caller are determined by the sponsor as appropriate to the service being offered and are not tarified charges.

For more information about AT&T MultiQuest Service please call your AT&T Account Executive or AT&T's business consultants toll free on 1 (800) 552-0212. They can answer your questions regarding this service and how it can be of benefit to you.

AT&T intends to file a tariff to offer this service with the Public Utility Commission of Texas on June 13, 1989, effective July 14, 1989. Persons who have questions regarding this tariff filing may contact the Public Utility Commission's Public Information Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf, or write to them at 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757.

Intrastate AT&T MultiQuest Service is projected to generate \$1.1 million in the first year of its offering or .1% of AT&T's total gross service revenues in Texas.

A Touch Of History

By Rene Calcote

Southwest Texas was a wild, uncivilized territory in the late 1800's. Keeping law and order was a difficult feat. Hostile Indians were also a problem.

A.K. Bailey met these challenges while serving as sheriff of San Saba during this era for eight years. The famed Texas Rangers were called in on several occasions to help keep peace.

Bailey was born in Georgia in 1849, and after his father was killed in the Civil War, the family moved to Texas. It was in San Saba county he met and married Martha Jane Horkey. Twelve children were born to A.K. Bailey. After Martha's death he married Jenny Marshall.

In 1901, Bailey heard about the great "Land Rush" in Schleicher

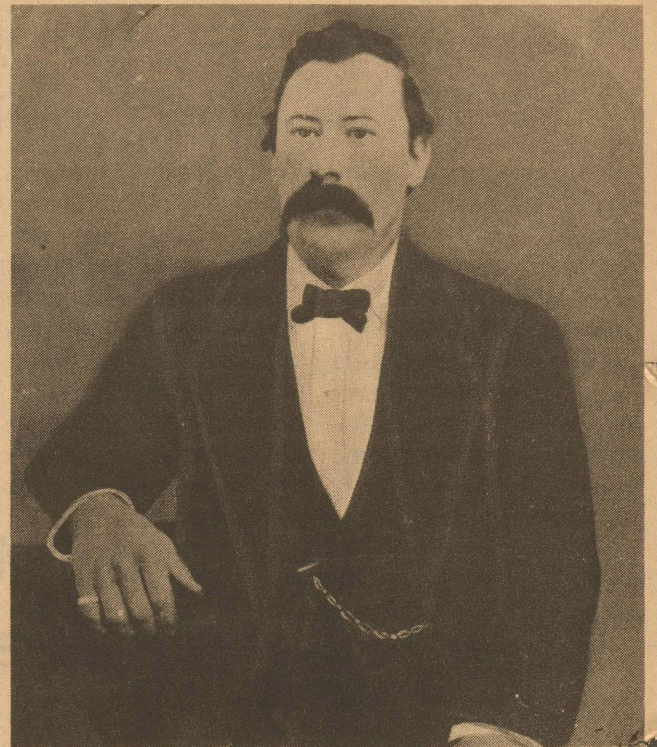

County. He decided to try his luck at filing on property. Vermont Ranch, one of the largest ranches in the area was being sold in small tracts during the land rush. He was successful in purchasing a ranch seven miles northeast of Eldorado.

Bailey remembered that these days caused quite a lot of excitement. The contest between the large rancher and small farmer or rancher was quite competitive, each trying to be the first to file on school land.

He remembered in one rush, about 60 men from Irion County painted their faces yellow to distinguish them from Schleicher County men. The men

lined up around the courthouse and waited until the clerk's office opened to begin the filing. A mad battle ensued when the office opened, a lot of pushing and shoving. The Schleicher County men won the battle and got the land.

Life was extremely hard for early settlers. Drought and low prices for farm products added to the difficulty of raising a large family. The Baileys lived through this period, and enjoyed the good times, such as picnics, barbecues, ball games, and a lot of family fun. The difficult times they endured added much to our Schleicher County heritage.

Pictured here is A.K. Bailey. This picture was reproduced from an old tin type which was 115 years old in 1985.

Cancer Detection Unit To Visit Mertzon

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97 percent five year survival rate and a 90 percent 10 year survival rate.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

The charge for the screening mammogram is \$50. The Unit accepts cash, check, Visa, Mastercard and American Express.

The breast cancer detection unit will be available to area women at the Irion County Health Fair Saturday, May 20, at the Community Center.

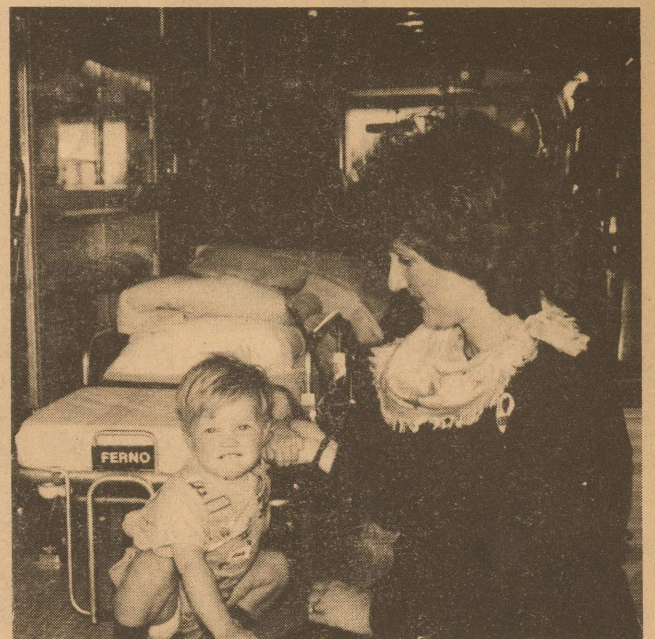

Substance Abuse Program

There will be a Substance Abuse Program to be presented Monday, May 15 at 7:30 p.m. in the Community Center in Mertzon.

To Mother, On Mother's Day

For all the things
you've been to me, my
guardian and my guide;

For truths you have so
gently taught and all the
tears you've dried.

For faith and under-
standing when I faltered
on my way,

I owe you more thanks,
Mother, than words can
ever say.

So on this day that's
set aside especially for
you,

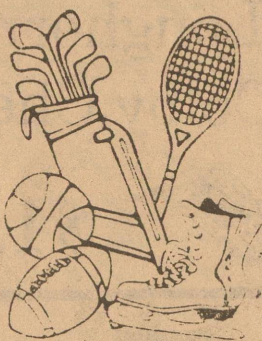

I send a wish for
happiness in everything
you do.

May each hour bring
you pleasure every day of
every year--

For all the things
you've been to me, I love
you, Mother dear.

THANK YOU

We give thanks to our Lord for all the good and dear friends who have stood with us during the loss of our cousin and now our beloved grandfather, Fred Ramon.

All the food, the flowers, all the prayers and that warm hug that says "I'm sorry" is so deeply appreciated.

Our losses are great but we have faith that we will be together again with them when Jesus comes again!

With all our love
