## POPPY DAY IS NEXT SATURDAY

AMERICAN LEGION AUXILIARY WILL CONDUCT SALE OF VETERAN MADE POPPIES SATURDAY

Poppies will bloom throughout Perryton Saturday with the same profusion that they bloomed among the shell holes, barbed wire and wooden crosses along the battle front in France. Preparations for the annual poppy sale of the American Legion Auxiliary, during which the Auxiliary hopes to place a memorial poppy on the coat of every man, woman and child in the city, are now complete. Mrs. O. H. Black, chairman of the Auxiliary's poppy sale committee, has announced.

The large corps of women and girls who have volunteered to distribute the poppies on the streets Saturday has been divided into teams and each team assigned to a specific location in the city. The American Legion Auxiliary badges which will identify each worker as a bona-fide Auxiliary volunteer are ready for issuance. The poppies, each bearing a distinctive label showing it to be the veteran-made product of the Legion and Auxiliary, have been received from the Kerrville, Texas, hospital where they were made by needy disabled veterans. The little red flowers are being arranged in baskets ready for the workers to take out Saturday morning and the coin boxes into which poppy purchasers will drop their contributions for the welfare of the disabled and dependents are being made ready.

"There is a tradition in France," Mrs. Black said, "that on the battle fields where the men fell most thickly the poppies bloom in greatest profusion. A symbolic connection is seen between the blood-red blooms of the poppy and the blood of the heroic dead. Here in America we believe that where true patriots dwell most thickly the memorial poppies are worn in greatest numbers on Poppy Day, and we hope that nowhere in the country this year will these bright symbols of remembrance be seen in greater profusion than in Perryton.

## STATE CONVENTION IN AUGUST

LEGIIONNAIRES AND AUXILIARY MEMBERS WILL GO TO CORPUS CHRISTI AUGUST 1-2-3

Horace Lackey, Commander of the local Pierce Johnson Post of the American Legion is in receipt of information from the headquarters for the 14th annual state convention of the American Legion of Texas, to be held in Corpus Christi on August 1, 2 and 3, that State Commander V. Earl Earp of Sweetwater, after a conference in Corpus Christi this past week, has stated that that plans for the convention have been unusually mapped out and are progressing in a most satisfactory manner.

Earp, together with State Adjutant R. O. Whitaker, and Mrs. Van W. Stewart of Perryton, State president of the Legion Auxiliary and Mrs. C. J. Austin, secretary, met with convention arrangements committees in Corpus Christi last week, it was stated.

With the business sessions to be held in a huge pavilion built over the water in the heart of the north beach playground, and one of the city's first class hotels located just across the beach from the pavilion, affording committee room facilities near the convention hall, Commander Earp states it affords one of the most comfortable and unique convention halls he has seen in Texas.

"It is my opinion," stated Adjutant Whitaker, "that the Corpus Christi convention will be one of the largest attended we have ever had; because of the opportunity Corpus Christi offers the summer visitor to take advantage of an economical vacation in the many splendid tourist camps and hotels, it is my belief many of the delegates to the convention will bring their families for the pleasures of swimming, fishing, boat riding, etc. while they attend the convention sessions. The Corpus Christi boys are working enthusiastically on their convention plans and have the wholehearted support of their business leaders."

Mrs. Van W. Stewart was highly elated over the splendid manner in which the Corpus Christi Auxiliary committees have mapped their plans and stated she was positive the numerous boat rides and other entertainment features to be given convention delegates will cause a large attendance of Auxiliary members.

## Proclamation By Mayor Shanks

Recognizing that victory for America in the World War was purchased at a frightful cost in lives and suffering, and that the citizens of Perryton together with all other citizens of our country, owe a lasting debt of gratitude to those who sacrificed life and death to make that victory possible, I deem it fitting that the citizens of our city should once each year honor the dead and aid the living by wearing the Memorial Poppy of The American Legion and the American Legion Auxiliary.

On Saturday, May 28, the women of the American Legion Auxiliary, working as volunteers, will offer to the people of Perryton paper poppies made by disabled World War veterans in replica of the wild poppies which bloomed on the battle fields of France and Belgium. The poppy is recognized throughout the world as the symbol of World War sacrifice. All contributions made for the flower are expended for the welfare of the living victims of the war. Wearing the poppy performs the dual purpose of paying tribute to the dead and contributing to the welfare of the living.

Now, therefore, I, Dave Shanks, Mayor of the City of Perryton, do hereby proclaim Saturday, May 28, Poppy Day.

I urge that all citizens of Perryton observe this day by the wearing of a veteran-made American Legion and American Legion Auxiliary poppy. I further urge that the citizens of our city, who gave so gallantly of their services and so liberally of their substance during the war, remember on this day those who were called upon to give that irreplaceable treasure, their health and strength, and when purchasing a poppy be as generous as their means will permit in order that the women of the Auxiliary may continue their work of mercy and relief during the coming year.

Signed: DAVE SHANKS, Mayor.

**Memorial Poppy Day, May 28**

the World War are finding employment making the memorial poppies which the American Legion Auxiliary will offer on "Poppy Day", May 28th, to be worn in honor of the war dead. In 58 hospitals and convalescent workrooms in 34 different states the disabled men are at work under direction of Auxiliary women, shaping the little red replicas of the wild poppies which grew in such profusion along the battle front in France and Belgium. They are being paid one cent for each poppy and by the time the ten million for the "Poppy Day" sale are completed, their earnings will total \$100,000. The photograph shows a group of

the disabled poppy-makers at work in the poppy workroom maintained by the Minnesota Department of the Auxiliary in Minneapolis. Mrs. O. H. Black is general chairman of the "Poppy Day" sale in Perryton. Fifteen hundred poppies have been ordered by the local Auxiliary Unit and it is hoped that every one of these poppies will be disposed of for every cent of the proceeds of the sale goes to the relief of disabled World War veterans, their widows, and orphans. The greater part of the poppy money remains in the treasury of the local Unit for relief in this vicinity.

**"THINK" SAYS**

No doubt the movement for promoting a great Centennial Exposition to commemorate the 100th birthday anniversary of the Republic of Texas, gained fresh impetus from the San Jacinto Day observances and related events throughout the State during the past week. As the people practically will decide by their ballots in the November election whether Texas is to mark that extraordinary occasion in such worthy fashion, it is well that they be reminded often of its import. The citizens should be fully informed as to how this ambitious proposal not only will pay honor due the makers of Texas, but also will contribute to building a greater State.

So rare an opportunity for furthering that ambition is not to be passed up lightly. Some time ago Will H. Mayes, former Lieutenant Governor, and now Executive Vice-President of the Texas Centennial Committee, pointed out that the exposition enterprise is to be consummated only through well directed plans and sustained, co-ordinated State-wide effort. "No opportunity should be lost to present the Centennial movement to every organization in the State and at every meeting at which Texans gather in numbers, as well as through the press," he said.

For example, the Texas Historical association, meeting in Austin, lately adopted a resolution endorsing the Centennial exposition plan. On the same day—addressing the San Antonio Kiwanis club—Dr. Frederick Eby, who heads the department of education at the University of Texas, taking for granted that the exposition would be held, urged that therein the State's cultural achievements be given equal prominence with its industrial progress. The emphasis on the Declaration of March 2, 1836—resulting from the Mexican government's failure to establish any system of public education—is most significant, Dr. Eby considers.

Republic of Texas was founded "on the desire for cultural development of its people," Dr. Eby pointed out. If it neglected to accord the fullest recognition to the Founders' generosity toward public education and to the fruition of that policy, the Centennial would be sadly lacking; but certainly there will be no such oversight. Texas aspires to industrial greatness, but it aims also to cultivate the arts and to advance all the people's welfare. Because a Centennial exposition in itself would serve all these ends effectively and lastingly, it should be held by all means. Then every citizen who desires to see his State grow and prosper—industrially, socially and culturally—should vote for the constitutional amendment proposal. The measure is only an enabling act, which would authorize the Legislature to choose a site and vote funds for the exposition. The outlay would be small compared with the potential benefits to all the people—"Think" in San Antonio Express.

**WARM WEATHER BRINGS SCHEMERS TO COUNTRY**

Among the "flowers that bloom in the spring" can be counted the schemers and fakirs whose activities in rural communities increase along about this time of year. The Oklahoma Farmer-Stockman Protective association gets letters from many farmers on hundreds of these fakirs and schemers.

Among others right now agents and persons selling correspondence courses are calling on teachers, particularly in rural districts, leaving books and getting signatures to a piece of paper as "evidence of delivery". This "evidence of delivery" turns out to be a promissory note.

Another farmer writes in that he has received a postcard from a firm which asks to know if he will sell his land. How much cash he will take. "If you reply to this card," the Farmer-Stockman says, "you will be called on by gentlemen who will encourage you to believe they have a buyer who is definitely interested in

just such a place as you have. They will insist that you put up a sum of money as evidence of good faith. These listing firms are probably selling few properties. It is probably easy to get plenty of listings and fees in advance. It should be a lucrative business for those who collect the fees."

Still another farmer writes in to say that a traveling doctor had called at his house and claiming to be an eye doctor, had offered to treat the farmer's wife for the mere cost of the medicine. Two or three such doctors have been traveling around over Oklahoma soliciting patients. In following up some of the cases where these traveling doctors have treated patients there has been nothing in their records to mark them as specialists of unusual ability.

**SUNDAY BREAKFASTS ARE A REAL TREAT**

"Take time for one good breakfast each week," says Inez S. Wilson, home economist. "You may not need the food, but you will enjoy the sociability of a leisurely breakfast hour."

A leisurely breakfast means that the menu is more elaborate than the usual coffee and toast week-day affair. After all there must be food to linger over.

The following recipes will fit in nicely with the Sunday morning breakfast:

**Fried Salt Pork With Creamed Gravy**  
One-half pound sliced salt pork  
Two tablespoons flour  
One and a half cups milk  
One-eighth teaspoon pepper  
Cook pork slowly until crisp, and keep hot. Pour off all but two tablespoons of fat. Add flour, smooth, then gradually add the milk and stir until boiling. Simmer 5 minutes, add pepper, and pour sauce around pork. If your appetite is specially good serve with new potatoes cooked in their jackets.

**Sunday Morning Sausages**  
Twelve link sausages  
Two tablespoons flour  
Six triangles of toast  
One and a half cups crushed pineapple  
Fry the sausages until brown. Toast the triangles of bread. To 2 tablespoons of fat left in the pan add the flour and brown. Then add the crushed pineapple, stirring constantly until it reaches the boiling point. Pour pineapple mixture over the toast and place 2 sausages over

each slice.  
Bacon and ham are breakfast favorites and they will be especially relished if they are properly cooked according to the method given below.

**Panbroiled Bacon**  
Place a single layer of bacon in a cool frying-pan. Place over a low heat; turn frequently and turn off accumulated fat from time to time so that the bottom of the pan is only well greased. When the bacon is light golden brown and evenly crisped, remove from pan to hot platter.

**Panbroiled Ham**  
Rub the bottom of the pan with a little of the ham fat. If the ham slice is thin, cut in individual servings before cooking. Brown on both sides, then cook slowly. Turn frequently. Allow ten minutes for thinly sliced ham, and fifteen to twenty minutes for slices one half inch thick.

**Raise Game Birds**  
Game Farming Can Be Made Source Of Income Just The Same As Any Other Crop

In these days of overproduction of farm products, with consequent low prices, the farmer is casting about for greater diversification of his crops as a means of insuring income not subject to violent fluctuations of the past two years. Such procedure is entirely logical and in line with recommendations of leading authorities.

Renick W. Dunlap, Assistant Secretary of the United States Department of Agriculture, states: "Diversification of farm production has almost invariably proved a boon to agriculture and is a remedy strongly indicated for present agricultural difficulties. A kind of diversification available to farmers, but which has not thus far received attention it deserves, is game farming."

When game birds are sufficiently numerous to furnish good shooting, farmers can profit in the following ways: Renting shooting rights on a per day, per season or per bird basis; use of land for training dogs; sale of pelts from fur-bearing animals; boarding visiting sportsmen; applying dogs and transportation to sportsmen and guiding; selling farm products such as butter, eggs, etc., direct to sportsmen; preventing crop losses.

More Game Birds in America, a Foundation, of 500 Fifth Avenue, New York, a non-profit organization sponsored by sportsmen and business men and having for its purpose just what the title indicates, has prepared three practical, detailed, fully illustrated pamphlets on game birds. Their Quail Breeding Manual, Pheasant Breeding Manual, and Game Birds, Two to Make Them Pay On Your Farm will be mailed free upon application.

**GOOD TIRES NECESSARY FOR MOTORING SAFETY**

"One car out of every five on the road today is running on smooth worn tires, unsafe for present day driving conditions," according to R. C. Johnson of the Johnson Motor company.

"Motorists are content to go along with unsafe tire equipment only because they do not realize the danger of injury to their families and themselves that they are risk-

ing. We find it very difficult to make car owners understand just how fast they really do travel. Most car owners do not have any conception of what speed means in distance covered. Few know that at 60 miles per hour a car travels 88 feet per second, and any car can come to grief in 88 feet, with oncoming traffic, curbs or ditches. Failure of any tire and particularly a front tire means trouble.

"In other words the driver fails to realize that every car has three steering wheels, one in his hands and two on the road, these being the two front tires. Failure of any one invites danger. That's why it's foolish to take chances with thin, worn tires.

"Many motorists risk trouble to literally 'run the treads' off their tires, getting the last few cents worth of mileage out of them. This is false economy of the worst kind. The saving is insignificant when compared with the danger and possible expense they invite.

"It is hard to understand why motorists take chances when Firestone tire prices are the lowest in history. While prices have been materially reduced values have actually increased. For example, in today's Firestone Tires the motorists get Gum-Dipped Cord, Two Extra Gum-Dipped Cord Plies Under the Tread and a Safe, Slow-wearing Non-Skid Tread at less cost than ever before.

"Right now we are conducting our own safety campaign. Every motorist that comes into our store receives a free tire examination and we can point out whether or not his tires are safe. Anyone who isn't sure about his tires can take advantage of our service. If we can save future troubles we'll be glad to do so."

**INVESTIGATE THE G-E 4-YEAR SERVICE PLAN Before You Buy Your Refrigerator**

The Mechanism of Any Refrigerator is More Important to You than the Price Tag

Let's get down to the facts on modern refrigeration. It is misleading to focus all attention on incidental features... or on the price tag only. The mechanism is your most important consideration in the selection of a refrigerator. When it fails, service and repair bills commence. Continuous service charges on a "cheap" refrigerator can eat up the very savings modern refrigeration makes. General Electric's 4-Year Service Plan protects every new buyer against any failure of the famous Motor Top mechanism for four full years!

### JARVIS RAYMOND KERSHAW

This entire community was saddened last week when word came in from the U. S. Veteran's Hospital at Hines, Ill., that Jarvis Raymond Kershaw had passed to the great beyond. The deceased was one of this county's most enterprising young farmers and his going is a distinct loss to the community. He was a son of Mr. and Mrs. Jarvis Kershaw of Garrison, Kans., being born near that city in Pottawatomie county, Kansas, on December 29, 1898. He died on May 20, 1932.

Shortly after graduating from the Garrison high school at the age of 17, he enlisted in the aviation division of the United States Army for service in the World War. As soon as he reached the age of 18, he was accepted for active service and served during the war, receiving his discharge on December 24, 1918.

In early life he became a member of the Methodist church at Garrison, transferring his membership to the Perryton church, when he came to this county over ten years ago. He was married to Miss Ann Sutherland at Montrose, Colo., on October 31, 1924. One child was born to this union, Betty Ann, age six, who with the wife and mother survive. Other surviving members of the family are his parents, Mr. and Mrs. Jarvis Kershaw, Garrison, Kans.; brothers and sisters: Mrs. J. L. Hill, Topeka, Kans.; C. V. Kershaw, Garrison, Kans.; Mrs. L. A. Tilton, Medicine Lodge, Kans.; Mrs. R. W. Binford, Dodge City, Kans.; and Harold, Willard and Willette, all of Garrison, Kans. Other relatives present at the funeral were Mrs. James Brooks, Garrison; Joe Brooks, Manhattan, Kans.; Wayne Brooks, Manhattan, Kans.; Mr. and Mrs. James Sweeney and children, Albuquerque, N. M.; and Mr. and Mrs. Kyle Schlaegel and family, Olsburg, Kans. Mr. Kershaw was a member of the Pierce Johnson Post of the American Legion of this city.

Funeral services were held at the Methodist church on Monday afternoon, May 23, at 2 o'clock, Rev. Jno. E. Eldridge, presiding elder of the Perryton District, officiating. Pall bearers were neighbors of the deceased: L. E. King, M. M. Cudd, Jerry Slaughter, Wayne Haley, C. E. Creagan and L. H. Kaup. Services at the cemetery were in charge of the Legion.

Jarvis Kershaw was a man with many friends. He was a successful farmer and a real neighbor, being held in the highest esteem by all who knew him.

### "THIS IS THEIR HOUR OF THE GREATEST NEED"

To be out in these days of depression places a man in a very difficult situation, but to be both out of work and physically disabled makes the situation doubly difficult. That is the very situation in which many thousands of men, who, thirteen years ago, were hailed as heroic defenders of the country, find themselves today.

These men, our disabled World War veterans, have great difficulties even in normal times finding work which their shattered bodies and reduced strength will permit them to do. Today the position of those not eligible for government compensation or who are receiving only a few dollars a month from the government is desperate. They have only one hope and that is from their former comrades, the men of the American Legion.

The American Legion, ably aided by the women of the American Legion Auxiliary, is carrying out a vast and continuous program of relief and rehabilitation work for the disabled and their families. The public sees little of this work and has little chance to participate, but on Saturday, May 28, every man in Perryton will have an opportunity to contribute to the welfare of the men who sacrificed health and strength in the nation's defense.

This opportunity will come through the memorial poppies which are to be offered on the streets Saturday by the women of the Auxiliary. The poppies have been made by the disabled men themselves, thousands having been given employment in this work during the winter and spring. All of the money raised through the sale of the flowers will go to support the relief and rehabilitation program of the Legion and Auxiliary. By wearing one of these poppies we all can pay honor to the war dead and perform a real service in their hour of greatest need for those men who served their country at such tremendous cost to themselves in its hour of greatest need.

Mr. and Mrs. W. H. Lance and daughters, June and Joy, spent the day Sunday visiting in the home of Mrs. Lance's grandfather, J. W. Kelly, and family of Higgins.

### Flooring Fire Burns Two Days

A heavy rain finally extinguished the \$160,000 fire which destroyed the Texas Oak Flooring Company in Dallas Saturday and Sunday, injuring three firemen. More than 3,000,000 feet of oak lumber stacked solidly caught fire, and firemen believed that the fire would burn at least three days, but continuous streams of water, and the rain stopped it.

Mr. and Mrs. Paul Bowen had as their Sunday dinner guests Mr. and Mrs. Earlene Jones and daughter and Mr. and Mrs. A. K. Wooten and daughters.

Mr. and Mrs. A. N. Dowers and children were in Amarillo Tuesday attending to business matters. Mrs. Hattie Newman and daughter, Mary Ellen, accompanied them and will visit with Miss Edith Newman.

## HAIL INSURANCE

### 20 Per Cent Reduction In Rates!

The same policy that cost you 10 per cent last year will cost you 8 per cent this year. You can also get a full coverage policy at the cheapest rates that have been in effect for a number of years. We recommend that you consider a small amount per acre; enough to cover the expense you have been out on present crop and sufficient to put in next years crop, should you lose your crop by hail.

You should consider more this year than ever the stability and financial standing of the Company that you insure in. We are offering you the Home, Springfield and St. Paul, all of which are in financial condition to pay your losses promptly, fairly and honestly and in full. These Companies have paid losses in Ochiltree County for the past twenty years. Why change?

We do not anticipate making a personal canvas to every home in the County to solicit hail insurance, but we will be very glad to come to your place and explain the various policies and rates to you and write your business if interested. Your business will be appreciated.

## FIFTY MILLION DOLLARS FOR ONE LITTLE POEM

A poem worth fifty million dollars! It sounds unbelievable, yet that is a conservative estimate of what one short poem written on a World War battle field has been worth to the war disabled, their families and the families of the dead.

Everyone knows this poem. It begins:

"In Flanders Fields the poppies blow,

Between the crosses row on row—

The picture of the poppies blooming above the battle graves, so perfectly painted in the poem, winged its way around the world and in its wake sprang up the custom of wearing a poppy in honor of the war dead. The work of making the artificial replicas of the Flanders Fields poppies was given very fittingly to the disabled veterans and the proceeds from their sale to veteran relief work. In the thirteen years since the close of the war millions of persons in all parts of the world have worn the poppy annually in tribute to those who made the supreme sacrifice and through the purchase of poppies have contributed to the welfare of the war's living victims.

"Poppy Day" will be observed in Perryton and throughout the United States this year on May 28, the Saturday before Memorial Day. On that day the women of the American Legion Auxiliary will distribute poppies to more than ten million Americans and in exchange for the flowers will receive contributions expected to total more than one million dollars. Disabled veterans working on their hospital beds or at tables in convalescent workrooms have made the poppies which the Auxiliary will sell, and all of the money received will go to support the Auxiliary's vast program of mercy and aid for those suffering from the war's awful aftermath.

In England thirty million poppies are sold each Armistice Day and approximately \$2,500,000 raised for relief work. With the American sale and sales in other parts of the world, poppy funds total nearly \$5,000,000 annually.

**WARNER BAXTER SEEN IN SUNDAY FEATURE**

"Man About Town", the Fox production in which Warner Baxter portrays the role of a lover involved in the international intrigue of the nation's capital, comes to the Ellis Theatre for Sunday showing on May 29, instead of "Society Girl" originally scheduled for this date. "Society Girl" will be shown at a later date.

The story of "Man About Town" deals with the friendship of two men, the ties of which are broken when a woman comes into their lives. It leads to jealousy, hatred, romance and tragedy, but, in the end, the men again become friends and both defend the woman when she becomes involved in a murder. The action is said to maintain the spirit of the national capital with a tempo that is swift and sensational.

Karen Morley, recently a sensation in "Scarface" and "Arsene Lupin", portrays the leading feminine role. Other favorites in the cast are Conway Tearle, Lillian Bond, Leni Stengel, Alan Mowbray, Lawrence Grant and Halliwell Hobbs.

"Man About Town" is based on an original story, by Denison Clift. Leon Gordon prepared it for the screen and the picture was directed by John Francis Dillon.

The following citations from pages 317 and 359 of the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy, were also included: "The individuality of man is no less tangible because it is spiritual and because his life is not at the mercy of matter... The evidence of the existence of Spirit, Soul, is palpable only to spiritual sense, and is not apparent to the material senses, which cognize only that which is the opposite of Spirit".

Back to Bethel

A year ago the pastor was conducting a revival at Walters, Okla., and while he was there the Rotary club sponsored a "back to school" picnic. The purpose of the picnic was to get all those who had graduated from grammar school the previous year to come back to school for the fall session. By the public meeting and by personal canvas every pupil in the county was solicited. One year every grammar school graduate was enlisted in the high school. What about a "back to church" movement during our revival? Have you been absent several Sundays? How about coming back next Sunday? The church has missed your presence but not as much as you have suffered from missing the ministry and fellowship of the church.

After Abraham's sojourn in Egypt when he told Pharaoh a white lie and was driven out of Egypt he came back to Bethel. Back to the place where he held communion with God, where he held communion with God. How about going back to your Bethel? Go back to the forks of the road where you left the straight and narrow road. Back to where your fellowship with God was severed. Back to the joy you first knew in your new found Savior. Back to the fellowship with devout Christians.

## Reduced 30 Pounds Never Felt Better

Safe Way To Lose Fat

Take the case of Miss Madeline Crowley, for instance, who lives in Little Rock, Ark. Just read her letter:

"I have used Kruschen Salts for one year—when I started I weighed 140 pounds—now I weigh 110 pounds and never felt better in my life."

That's the big reason a host of men and women take Kruschen to lose weight—as the fat goes you gain in health—skin clears—eyes grow bright—activity replaces indolence.

Take one-half teaspoonful of Kruschen in a glass of hot water every morning before breakfast—cut down on fatty meats, potatoes and sweets—a jar of Kruschen that costs but a trifle lasts 4 weeks—get it at any drugstore in the world—but for your health's sake demand and get Kruschen Salts. D-3—Adv
