NUMBER SEVEN

This Week Sees The Completion Of Summer Paving Project Here

All of the paving projects which have been under construction during the summer months were completed this week, J. J. Maxey, City Secretary reported.

The completed work includes five blocks on South 7th St., two blocks on South 8th, two on North 8th, one on East Scurry, one on South 5th, two on North 5th, 2 on South 4th, three on North 4th, one on East Crosby, two on West Crosby, one on South 11th, two on South 14th and three on West Lynn — a total of twenty seven blocks.

Work having been satisfactorily completed by the Kerr and Middleton Contractors out of Lubbock, nine more city blocks have been authorized for paving if the weather permits. They include seven blocks on West Crosby and two on South 14th. It will be impossible to complete the above streets, however, if the weather does not continue fair.

In addition to the new paving just completed, the project called for repair work to be done on several streets over town that have been showing deterioration. The plan designated repairs to be made on ten blocks on West Garza, ten blocks on West Lubbock, nine blocks on West Division, four blocks on South 12th and five blocks on Railroad Avenue. With the exception of short strips on Division and Railroad this too has been completed.

Although Slaton is believed to have better street paving than any town its size in this section of the state, there is still a lot of repair work which is hoped can be done. Tentative plans call for the project now begun to extend throughout the town in order to take in all the streets which get in such bad shape during wet weather. It is hoped that the project will be kept going as long as it is necessary so that Slaton will eventually be serviced by paved streets to all parts of the town.

White Auto Store In On Trades Day

Due to an omission the name of the White Auto Store does not appear on the list of merchants talking part in the Slaton Trades Day program. This was an error for the White Auto Store is one of the places where you may register for the Bonds and Gifts to be given away Monday, Nov. 7th.

Marble top tables, chest, chair, love-seat. Solid walnut. "Turnbow's Antiques." 1205 So. 12th.

Guarantee bond and one year's insurance with every diamond purchased at Champions Credit Jewelry.

The ? of The Week

Question of the week for today's paper was "Do you think the man should help his wife with the dishes, and if so does your husband help (asked the woman), and (asked of the man) if so do you help your wife?"

Bill Layne of the Layne Plumbing and Electric answered the question with an indefinite. "Well, I have done it." But, Mr. Layne, do you make a practice of it? "Once in a while." Answers like this could naturally go on all day, so after finally cornering him he admitted, "I think it's a pretty good idea. I guess it breaks the monotony, but of course I don't do it every night because I'm not home every night."

Just to see if Mr. Layne was telling the whole truth, we called Mrs. Layne to check up. Without telling her we had first talked to Mr. Layne, he answered the question with a "yes," certain, "I most certainly think they should help. Mr. Layne has helped on rare occasions. If the children aren't here and he sees that I'm completely snowed under, he's very good about helping; but if the children are here it's their job altogether."

This system of first calling the husband, then the wife seemed to work very nicely, so we tried it on Mr. and Mrs. J. W. Bagby. Mr. Bagby, Chief Clerk of the Santa Fe, admitted that he was being put on the spot as he said, "I really don't care to be quoted on what I think about the subject, but I will say that I don't wash dishes. I won't say more as you see I don't want to get in trouble with the women."

Mr. Bagby must have been pretty truthful because his wife

Sunday Will Be Layman's Day At Baptist Church

GLYNDON DAWSON

Sunday, October 9th is expected to be a great day at the First Baptist Church as the men of the church take over for the observance of Laymen's Day. It is planned that men will be supervising all departments and teaching all classes above the primary department. "The men have responded with a grand spirit to these responsibilities," declares J. B. Hucksby, Brotherhood president and Elton Smith, Brotherhood activities vice-president, in charge of program planning and personnel commitment for these special day tasks.

At the eleven o'clock hour, the men will present a different program. There will be an all-male choir. Then, climaxing the morning program, a young layman who has been called to the ministry, Glyndon Dawson, will preach his first sermon. Glyndon is a graduate of Slaton High School and is now doing freshman work at Texas Tech. He is the teacher of a class of 11 year old boys in the Junior Department of the Sunday School. At the evening hour another layman, Wayne Liles, will fill the pulpit. Wayne, along with J. J. Maxey, is leading in the launching of the Mexican Baptist program of the local Baptist Church.

The time for evening services changed last Sunday. Training Union now meets at 6:30 and worship service begins at 7:30.

52 piece service of Holmes and Edwards Sterling Inlay at Champions Credit Jewelry.

Tigers To Try For Victory Over Sundown Tonight

Slaton's Tigers will try to make it two victories in a row tonight when they travel to Sundown to tackle a rough Roughneck eleven. Game time is 8:00 o'clock at the Sundown High school stadium.

The Roughnecks will be in top shape tonight after having last Friday night off. They lost a tough game to Levelland's Lobos two weeks ago by a score of 38 to 7, however, but are still considered as one of the top contenders for District 4-A (North). They have beaten Tahoka and O'Donnell.

So far this year Slaton has played four games, one of these being a conference game which they won from Tahoka last week 26-12. The Tigers are still suffering from injuries of past games. Again this week Coy Biggs and Charles Norwood will see action at the end slots. Jerry Hucksby will probably start at center, taking the place of Lee Ray Dillard who is still suffering from influenza. The backfield will be made up of Cecil Bybee, Bob Lambert, Ed Willis and Carl Lewis. Bobby Thompson will hold down the defensive fullback position.

According to Coaches Barnett and Tillery, the Roughnecks have one of the best quarterbacks in Neil Percy that the Tiger team will see all year. Left half Bob Clark is a fast shifty runner and can do lots of damage. A strong forward wall is paced by end Troy King. Sundown has a team average of 164, which is about the size of the Tiger squad.

Slaton Theatres Change Ownership

The Slaton and the Palace Theatres are now under new ownership. Manager of the two theatres, G. H. Hill, reported this week.

The two local amusement places have been operated under the ownership of the Leon Theatres organization of Dallas for the past three years. They are now owned by the L. N. Childress organization of Dallas. Two theatres in Haskell, two in Graham, one in Crowell and one in Albany are owned by the Childress organization and will be operated as a chain. No immediate changes in operation and personnel will be made but Mr. Hill said that he has been promised some improvement in booking of pictures.

Hi School Annual Announces Staff

The Annual Staff for this year has been selected and will begin work soon.

The new members who will take the places of the seniors that graduated are Shirley Teague, Maybelle Pember, Everett Hodge, Ezra Corley, Bob Lambert, and Harry Marsh. The old members are Paula Maxey, Carl Lewis, Pansy Sloan, Mary Ann Cudd, and Phillip Morgan.

The staff officers are Paula Maxey, editor, Barbara Jochetz, assistant editor, Phillip Morgan, business manager, Maybelle Pember, assistant business manager, Carl Lewis, sports editor, Ezra Corley, assistant sport editor, Pansy Sloan, art editor, Everett Hodge, assistant art editor, Harry Marsh, photographer, Bob Lambert, assistant photographer, Mary Ann Cudd, typist, Shirley Teague, typist. — From Tiger's Cage.

Miss Zona Hinson from Brownfield visited over the week end with her sister Mrs. Milton Davis. Miss Hinson is employed as a teacher in Brownfield.

TIGER POWER — Pictured above (center) are two of the Tiger mainstays of this football season, Co-Captains Carl Lewis and Carl Williams. Both boys are returning lettermen with outstanding records of last season, and both are playing their last year with the Tiger team. Pictured with Lewis and Williams are Coach Clarence Tillery and Assistant Coach Bill Barnett.

Christmas And The Kiddies To Be Featured In Slaton Trades Day Program Nov. 7th

Plebiscite Administrator Meets U.N. Internes

A group of forty young men and women from 28 countries is this year training for an eight-week period at U.N. Headquarters where they are assigned to different departments in the Secretariat to learn the work of the Organization. Here, Admiral Chester Nimitz of the United States, U.N. Plebiscite Administrator for Jammu and Kashmir, explains his contemplated mission to interested "internes" Kaniz Ataulah (right) of Pakistan, and Surgit Singh, of India.

Fire Prevention Week Is To Be October 9 Through October 15

Retail Merchants Schedule Banquet

PROF. W. L. DUCKER

The Retail Merchants Credit Association will hold its annual banquet at 7:30 p. m., Thursday, October 13 at the Slaton Club House. Highlight of the meeting will be the address of Mr. William Ducker, head of the recently organized Petroleum Engineering Department, Texas Tech. Petroleum is becoming one of the West Texas' major industries and his address will be of great interest to Slatonites.

Dinner at the banquet will be served by Mrs. H. H. Edmondson and Mrs. Ben Mansker. Those attending the affair will select five new Retail Merchant Directors for the ensuing year from a slate of seventeen.

Tickets are on sale to the general public at the Retail Merchant office, and by its directors.

Mr. G. W. Strickland, brother of A. C. Strickland, died at his home in Waco Tuesday, Sept. 27. Mr. Strickland resided at 1912 So. 8th St. in Waco and he is survived by his wife and three sons.

October 9th to October 15th will be observed all over the United States as Fire Prevention Week. With the fall season coming on with its high winds, dead weeds and grass, with folks moving into homes heated with gas fires and with other increased fire risks it is a fitting time to stop and consider ways to reduce these risks as much as possible.

Slaton has an excellent Fire Department, fire fighting equipment and water storage facilities as the low insurance rate testifies. To keep this advantage is the goal of the Fire Department and should be the goal of property owners in the town.

Be careful with matches and fire, says Fire Chief Wilson, cut your grass and weeds, have all gas and wiring connections closely checked and start the new indoor season out carefully. "Let us observe Fire Prevention next week and every week."

Mrs. Rosalie Klesel Dies Here Thursday

Mrs. Rosalie Klesel, 82, died in Slaton at Mercy Hospital September 29 after a short illness. Mrs. Klesel was born in Austria, Germany on March 23, 1867. She came to Schulenberg, Texas at the age of 13 where she later married John T. Klesel. They made their home in Weimar until the death of Mr. Klesel in 1941. Since that time she has resided with her children near Slaton.

Funeral services were held at the Williams Funeral Home on Thursday afternoon, and the body was shipped to Hubbards Funeral Home in Weimar where services were held Saturday at 2:00 p. m. She was buried in New Bielou cemetery beside her husband.

Mrs. Klesel is survived by six sons and three daughters: Mrs. Ed Siewert, Fred Klesel, Herman Klesel, and Raymond Klesel all of Slaton; Willie Klesel, Henry Klesel and Mrs. Emil Dahse of Weimar; Albert Klesel of Corpus Christi, and Mrs. Frank Walecik of Shiner; a brother, Fred Meyer of Schulenberg; 12 grand children and 5 great grandchildren.

Born Sept. 27 to Mr. and Mrs. Cageton Canteras at Mercy Hospital a boy weighing 7 lbs., 4 ozs.
Born Sept. 30 to Mr. and Mrs. O. W. Brenscom at Mercy Hospital a girl weighing 5 lbs., 7 ozs.
Born Oct. 2 to Mr. and Mrs. A. D. Edwards at Mercy Hospital a girl weighing 8 lbs., 11 ozs.
Born Oct. 2 to Mr. and Mrs. D. Mendosa at Mercy Hospital a boy weighing 6 lbs., 14 ozs.
Born Oct. 9 to Mr. and Mrs. Art Wolfe at Mercy Hospital a boy weighing 7 lbs., 13 ozs.

Farm Laborers Available Here

The district representative of the Texas Employment Bureau reported this week that Ted Burrow is now located in Slaton and is making his headquarters at the Labor Camp on South 9th Street where he is available during the day as contact between farm laborers and those who are in need of their work.

It is very important that the farmers tell Mr. Burrow of their needs, whether he is able at the present time to fill them or not, for his report to the headquarters will give the Employment Bureau the knowledge as to whether or not to send more help to this section.

The employment bureau is still accepting requests for Mexican national workers. Mr. Burrow can give any one interested the details on how to secure them.

To date there have been orders placed with the bureau for 20,890 Mexican nationals by South Plains farmers. In the Lubbock area twenty six farmers have received the Mexican Government's approval for 3031 laborers. They are expected to go after them at an early date.

Major Garrigues Returns To U. S.

The Public Information Office at Itazuke Air Force Base located in Japan has made the announcement of the return to the United States of Major Lester M. Garrigues, son of Mr. and Mrs. Clyde L. Garrigues, of Slaton, for reassignment to an unannounced Air Force base.

Major Garrigues graduated from Slaton High School, with the class of 1932. He received his commission in December of 1937, at Houston, Texas. During World War II he served as Squadron Executive in Africa, India, and Timor. Prior to coming to Japan he served as Personnel Advisor for the Chinese Air Force at Nanking, China.

Arriving in Japan in December of 1948, he was assigned to the Fifth Air Force and subsequently reassigned to Itazuke Air Force Base, located on the southern most Japanese home island, of Kyushu.

While stationed at Itazuke he was working at the Wing Classification Officer for the 8th Fighter Wing, Itazuke Air Force Base.

Slaton High School Enrollment Grows

Slaton High School has the largest enrollment recorded here since 1947 with 201 attending school. This does not include the 8th grade, which is in the high school building.

In 1947 there were 200 in school. Last year there were 185 enrolled to give this year's school an increase of 17 students.

There are 870 students enrolled in high school and the two grammar schools. — From Tiger's Cage.

P.O. To Be Open Sat. Afternoons As Rush Time Of The Year Arrives

Beginning tomorrow, Saturday, October 8th, the Slaton Post Office will remain open until six p. m. and will do so each Saturday from now until the harvest season is over.

The Post Office has been closing at 1:30 p. m. every Saturday since last January and will follow the same schedule next year unless something unusual occurs.

In discussing the work at the Post Office in Slaton, Postmaster Scudder said last week that the third quarter of the year of 1949 shows a considerable increase in postal operations both in volume and in money receipts over the same period of 1948, and the Postmaster expects the fall and winter postal volume to be the best in the history of Slaton.

While it is not likely that Post Office building construction will be undertaken in the near future, Mr. Scudder says that Lubbock

Register Today For Next Drawing

A large number of people were in attendance at the second drawing of Slaton's Trades Day last Monday afternoon when the Slaton Tiger Band gave a concert.

"The best band Slaton has ever had at the beginning of the season," was the comment made by hundreds of people who were present.

There were more registrations made for the drawing for October than for September and the merchants who are taking part in the effort to make each First Monday of each month a special bargain day with the gift program as a feature event report that they are more than pleased with the results so far.

It is planned to make the next drawing and program even better than the two that have been held. The Holiday season will be the theme for the next drawing with some special event for the kiddies. It is also planned to have the Slaton High School Tiger Band present, and if you have not heard them this year you will be well paid if you come down Monday the 7th when the next Trades Day will be held.

Following is a list of the winners of last Monday's drawing: Three U. S. Savings Bonds won by Jack Clark of Slaton; W. W. Finney of Slaton and C. H. Laverdard of Slaton.

Adams Service Station, J. B. Talley; C. R. Anthony Company, Paul Buxkemper; Ray C. Ayers and Son, M. E. Brueggeman; Bain Auto Store, J. S. Arent; O. Z. Ball and Company, Mrs. W. M. Van Ness; Berkeley and Haddock, Mrs. M. D. Gamble; Mrs. Fred Walters; Mrs. Charles Felty; Mrs. Edd Mack; B. W. Brown, and Mrs. F. P. O'Connor.

Clay Cates Department Store, Mrs. C. J. Rhoads; Crow-Harrell Chevrolet Company, Mrs. Henry Young; Dickson Hatchery, J. M. Olive; Drive-In Food Market, Mrs. W. H. Galsscock; Mrs. J. B. Winchester, Fred Wiley, Nell Brinsfield, Jerry Dodds, Mrs. W. H. Sanders, Ben Catchings, and H. R. Schwertner; Eaves Produce, Alfred Blisard, Louise Dawson, Mrs. Robert Schneider, J. M. Olive, Ozell Ownby, Mrs. O. M. Baxley, Jerry Lemon, T. D. Eaves, and C. G. Gray; Ely Furniture Company, A. S. Saage; Home Furniture Company, Mrs. Ira McCarver and Mary E. Miller; Huser Hatchery, Donna Wilke; McWilliams Dry Goods, Jack B. Clark; Piggly Wiggly, W. O. Tapp and Lula Ownby; Schuetz Service, Mrs. Ray Miller; Self Service, Mrs. Roy D. Meyers.

Slaton Implement Company, Louie Melcher; Slaton Lumber Company, J. C. Henington; Slaton Motor Company, A. G. Saage; Teague Drug Store, Mrs. A. D. Duncan, and White Auto Store, W. E. Edmonds.

You may register once each day at each place of business. Most of the business firms are offering separate prizes and there are two places at each store for registration, one for the three bonds that will be given and one for each individual prize. Start again today to register for the prizes to be given on the first Monday in November.

CARD OF THANKS

For the many acts of kindness during the illness of our loved one and for the many floral offerings and the words of sympathy at the death of Mrs. Rosalie Kiesel we wish to express our sincere appreciation, your thoughtfulness will always be remembered.

Mrs. Ed Siewert,
Fred Kiesel,
Herman Kiesel,
Raymond Kiesel.

Fibrinogen

Your blood contains a needle to help sew up wounds. It is fibrinogen, a plasma protein. It is long and thin, shaped much like a needle. Fibrinogen is just one of many chemical substances involved in the intricate and delicately balanced system by which blood clots are formed. It reacts with another chemical, thrombin, to form fibrin, the web-like matting in blood clots that stops bleeding.

Dairy Product Leaders

New Zealand leads the world in per capita consumption of all dairy products as represented by their fluid milk equivalents. Switzerland is second, and Australia third.

CUB-SCOUTS MEET

The Cub Scouts had their monthly Pack meeting at the City Hall Thursday, Sept. 29. Several Gold Arrow Awards were presented to the boys, and Mr. Leo Henzler was elected treasurer to replace Mr. Edd Haddock.

A training meeting for adults which will be held at the City Hall Oct. 13 at 7:30 p. m. should be very helpful to Den Mothers, Den Chiefs, Mothers and Fathers, and parents and children interested in Cubbing. If interested, the public is asked to attend the Pack Meeting or see Cub Master, Bland Tomlinson.

Rankin Candidate For Education Board

J. M. RANKIN

J. M. Rankin, now resident of Ralls, Texas, former publisher of the Slaton Slatonite and well known educator, has authorized this paper to make the following statement:

"I believe that the Gilmer-Aiken Plan as embodied in Senate Bills Nos. 115, 116 and 117 represents the greatest single forward movement in the educational history of any American state. My unreserved approval of the laws is substantiated by public utterances which I made orally and in the public press and expressly in letters to the Senate Committee while the plan was being debated in the Legislature.

I am pleased to hope and believe that these laws will cure many of the shocking inequities of educational opportunity which have contributed to the illiteracy and semi-literacy that now handicap so many Texans who have grown up in the past years, and I hope and believe that the administration of these laws will raise the Texas public school system from the "below average" rating assigned it by some educational authorities to a high rank befitting the material wealth and the riches of human values of our state.

I have never been connected with the extinct State Department of Education in any way, but I have had twenty-five years of experience in public school administration. I have served my community, state and nation with sincerity and earnestness, and if elected will assume the responsibilities of the office of a member of the State Board of Education with the same zeal to be of service."

National Forest Wildlife

More than two million head of deer, elk, and other big game animals—or about one-third of the nation's total big game population—live on the national forests. The forests contain 90,000 miles of unposted streams and one and a half million acres of fish-producing lakes. In 1948 they played host to four and a half million hunters and fishermen.

Lamb Care

New-born lamb should be dried as soon as possible and get some warm milk. If the mother is short of milk, the milk can be obtained from another ewe or cow's milk given by bottle. During the first few days the ewe and lamb should be put in a small individual pen for them to get used to each other.

New Corn Hybrids

Corn-breeding research is now being conducted at practically every state experiment station in the United States. New corn hybrids are being rapidly produced to fit the areas not yet planted with hybrid seed, and better yielding hybrids with greater disease and insect resistance are being developed for areas where hybrid corn is now being grown.

Chatterboxing

with Marie Guhl

First of all I'll take just a minute to say that I really got my feelings hurt last week. I am, of course, referring to the light manner in which our dear editor is taking my so-carefully-planned column, written week before last on women's clothing. But after reading his lengthy epistle on what men's fashions are to be next year, I am somewhat inclined to agree that something certainly should be said in behalf of masculine garments. However, since the only people who read what I have to say are Mr. Jackson and very dear and loyal friends, I am afraid that any campaigning I might do to better the conditions would be nothing more than a rank failure. Nevertheless, I will stick to what I have already said about female fashions; and I'll bet my predictions prove to be more valid than those coming from the unofficial "Jacksonian Weather Bureau."

Most people are kind, aren't they? Last week Mr. Jackson sent me out to sell some advertising, something I had never done before in my life. I thoroughly expected everyone whom I was to contact to say "no" the minute I walked in the door. But fortunately many of them didn't know me, so they couldn't say "no" until I had a chance to give them the sales talk on my "wares." Then there were others who took great pity on me. Mr. W. P. Layne at the Layne Plumbing and Electric not only bought my ad, but he listened to my life history. When I got to the part where I was explaining how happy my husband and I were now that we had finally found a house to live in, and that it was the first house we had ever had, Mr. Layne wanted to give me something to go in my first home. And now out at 1005 S. Eleventh on the kitchen stove you will find the cutest set of matching salt and pepper shakers in town. Incidentally, that salt shaker is the only one in the house from which you can get salt without going through all sorts of undignified gymnastics.

Do any of you know of anyone who would like to have a dog. It

seems that a very nice dog of some nondescript breed has adopted us at the Slatonite. He followed Mrs. Lamb, our bookkeeper to work Monday and since that time he has been waiting patiently every morning for the doors to open. The fatal mistake was made when Mrs. Lamb took pity on him and fed him a can of dog food. From that moment on he has been insisting on licking everyone's hands. We like him very much, but we just don't think that the Slatonite is the proper home environment for such a nice and well-behaved dog as this one. He's a reddish color, not too big and not too little, with big, brown, soulful eyes. Best of all, he will eat right out of your hand and leave all five fingers in good condition, a little wetter maybe, but all intact. So if any of you are looking for a good pet, we'd be glad to give you this one.

Last week I went to a covered dish luncheon. You know what that is. That's where everybody brings his favorite dish to a dinner, and when they're uncovered there sit 37 different kinds of potato salad. But this one turned out altogether different. Held at the home of Mrs. C. F. Anderson for the local Art Club, it was one of the nicest luncheons I've ever been to—and every dish was not only delicious, but different. It was their first meeting of the year and they presented their yearbooks, which were really very clever in design. Each book had one of the zodiac signs painted on the front, and everyone found his place at the luncheon by his birthday and the sign going with that month. I didn't know mine, but I found out that it was the Archer for November. I was really shocked because I've never even held a bow and arrow—but maybe that isn't the idea.

GARY GORE HAS PARTY
Gary Gore was honored Saturday, October 1 on his eighth birthday with a birthday party. About 15 guests were present. The birthday cake was decorated like a circus and a music box inside played "Happy Birthday" after the first piece of cake was cut.

Miss Meading Is Shower Honoree

Miss Alice Meading, bride-elect of Carl J. Young, was honored Friday morning, Sept. 30 with a miscellaneous shower and coffee. The hostesses received guests in the home of Mrs. R. D. Hickman between 9:30 and 11:00.

In the receiving line were Miss Meading and her two sisters, Mrs. B. N. Ball and Mrs. LaVern Curry of Lubbock.

The table was laid with a lace tablecloth over a peach background, and centering the table was a large bowl of peach gladioli. Cut flowers decorated the remainder of the house.

Hostesses for the occasion were: Mrs. J. H. Brewer, Mrs. K. C. Scott, Mrs. Bruce Pember, Mrs. Ray Hickman, Mrs. B. W. Jones, Miss Dorothy Jones, Mrs. Harry Stokes, Mrs. O. Z. Ball, Mrs. Fred Schmidt, Mrs. Lee Wootton, Mrs. W. T. Cherry, Mrs. W. B. Williams, and Mrs. Bud Englund.

A gold comfort was presented to the honoree from the hostesses. Another pre-nuptial courtesy extended to Miss Meading was a cake party Monday afternoon at the home of Mrs. Hugh English in Lubbock.

Guests present were Mrs. Howard Schmidt, Mrs. Cliff Barr, Mrs. James Campbell, Mrs. B. N. Ball, Mrs. LaVern Curry, and Mrs. Bud Englund. A gift was presented to Miss Meading from the hostess.

CIVIC CULTURE CLUB MEETS

The Jr. Civic and Culture Club met Tuesday, Oct. 4 at the home of Mrs. Charlie Walton with the topic of study being "Union Does Everything When Perfect." Mrs. Gertrude King spoke to the group on "The Meaning of Federation," and questions concerning federation were submitted at the roll call. Leader of the program was Mrs. E. E. Cummings. Following the meeting refreshments were served to the 23 members present.

Miss Cudd Marries Robert Neil Guinn

MRS. ROBERT NEIL GUINN

Miss Mary Ann Cudd, daughter of Mr. and Mrs. R. W. Cudd, and Robert Neil Guinn, son of Mr. and Mrs. B. G. Guinn, were married Friday, September 23 at the Littlefield Church of Christ.

Mrs. Guinn wore a grey wool suit. The Reverend Ned Fairbairn read the ceremony in his study.

The bride is a student at Slaton High School, and Mr. Guinn is attending Texas Technological College. They are living in Slaton.

PTA To Organize New Study Group

Slaton's Elementary P.T.A. is sponsoring and organizing a Study Group for mothers of children in the elementary grades in order that the parents might have a chance to study the problems of these children and to determine the best methods for both parents and teachers to aid them.

To receive credit the P.T.A. must provide 12 hours of work for this group. Plans have been made to complete several hours of study at each meeting in order to cut down on the number of meetings necessary to complete requirements. These meetings are to be largely discussion groups, involving no particular outside preparation.

The first assembly of this group will be a two-hour session beginning at 9:00 a. m. Wednesday, Oct. 12 at the home of Mrs. Leon Kenney, 255 So. 11th St. Miss Martha Graves of Lubbock will be present to aid in the organization of the group, and she will lead a discussion on "Problems in the Parent-Teacher Relationship." All interested mothers are invited to attend.

Beginners Dept. Has Recent Meeting

A meeting was held Monday, September 26 at 7:30 p. m. for the officers and teachers of the Beginners Department of the First Baptist Church. The meeting was held at the home of Mrs. Robert Lee at 235 E. Murray.

A Mexican plate was served to the following members: Mrs. C. F. Smith, Mrs. A. C. Strickland, Mrs. T. H. Shelton, Mrs. B. A. Hanna, Mrs. T. E. McClanahan, Mrs. Jelma Brown, and Mrs. Robert Lee. Only one teacher was absent.

Major L. M. Garrigues, his wife and small son, are to land in San Francisco, October 15. Major Garrigues is the brother of Mrs. Herschel Crawford of Slaton. He has been stationed in Japan for the past two years.

Mrs. Billy Leake Has Shower Mon.

A shower honoring Mrs. Billy Van Leake was given Monday evening, Oct. 3, from seven until nine at the home of Mrs. W. A. Sikes. Mrs. T. E. McClanahan greeted the guests and presented them to the honoree, Mrs. Billy Van Leake, Mrs. John Leake, Mrs. Wayne West, Mrs. R. R. Jones, and Mrs. Katherine Hendrix.

The table was laid with a lace tablecloth with a center piece of roses, and cut flowers decorated the rest of the house. Presiding at the punch bowl was Mrs. James Parks, and at the bride's register was Miss Johnnie Hubbard. Mrs. Hub Haire showed the gifts. Music for the occasion was furnished by Mrs. Grady Taylor who played the piano throughout the evening.

Hostesses of the shower included Mrs. Bill Mosley, Mrs. Truitt Bounds, Mrs. Travis Mann, Mrs. Floyd Childress, Mrs. W. L. Davis, Mrs. T. E. McClanahan, Mrs. Hub Haire, Mrs. James Parks, Mrs. I. J. Duff, Mrs. Dick Adkins, Mrs. Travis Melton, Mrs. Alta Brown, Mrs. W. E. Pohl, Mrs. W. N. Seidenman, Mrs. R. M. Nash, Mrs. Grady Taylor, Miss Johnnie Hubbard, Mrs. Walter Mosser, Mrs. M. O. Singleton, Mrs. H. B. Hambricht, Mrs. G. S. Lindsey, and Mrs. F. B. Dement.

College Honors Go To Slaton Students

Already Slaton students are beginning to make names for themselves in college this year. From Texas Tech we have news that Thurmon Reynolds, son of Mr. and Mrs. Travis Reynolds, was elected president of Kemas, men's social club.

Also at Tech, Durwood Crawford was asked to pledge Delta Sigma Pi, national honorary business fraternity, and was elected secretary of Socci, social club. Durwood is the son of Mr. and Mrs. J. W. Crawford.

John Huckabay, son of Mr. and Mrs. J. B. Huckabay, was recently elected president of Centaurs, men's social club. Joe Norris, senior Tech student and son of Mr. and Mrs. C. G. Norris was elected as this year's president of the Tech Men's Dorm No. 4.

Norman Lamb, son of Mr. and Mrs. Edward Lamb, had the honor of being one of three freshman music students at North Texas State to be admitted into the A Cappella choir. Norman was also admitted into the college Opera Workshop, and he is singing with the College Aces, the school dance band.

Admitted into the Tech Concert Band this year is Johnnie Peebles. Johnnie is one of the few freshmen students to hold this honor.

Sims-Tannery Vows To Be Read Tonight

Miss Elizabeth Sims, daughter of Mr. and Mrs. O. V. Sims, will become the bride of Jack Tannery tonight in Lubbock at the First Nazarene Church with Reverend Kelley officiating. The bridegroom is the son of Mr. and Mrs. Z. Z. Tannery of Lubbock.

Miss Sims has been an employee of the Slaton Citizens State Bank, and she is a graduate of Slaton High School. Mr. Tannery is working at the Blackwell Mattress Factory in Lubbock. He is a graduate of Lubbock High School.

After a wedding trip to Albuquerque, N. M., where they will visit the bride's brother and wife, Lt. and Mrs. O. V. Sims, the couple will be at home in Lubbock.

Alathean Class Has Regular Meeting

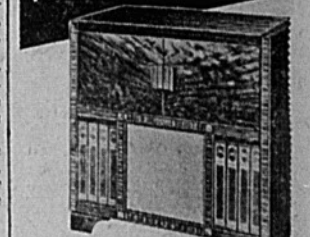

Meeting at the home of Mrs. Audean Watson at 7:30 p. m. Oct. 4, the Alathean Sunday School Class of the First Baptist Church had their regular business and social gathering. Mrs. R. D. Myers acted as co-hostess with Mrs. Watson.

Presiding during the business session was Mrs. Dudley Berry. "Let Others See Jesus In You" was sung and the roll call was answered by memory verses. Mrs. Culver gave the prayer and the devotion. It was decided that the group would have a rummage sale Sat., Oct. 8th. All other reports were read and approved.

Mr. Phillip Wood of Ft. Worth was a business visitor here this week.

STATEMENT OF THE OWNER-SHIP, MANAGEMENT, AND CIRCULATION REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, AS AMENDED BY THE ACTS OF MARCH 3, 1933, AND JULY 2, 1946 (39 U. S. C. 233)
Of Slaton Slatonite published weekly at Slaton, Texas for October 7, 1949.

1. The names and addresses of the publisher, editor, managing editor, and business manager are: Publisher, A. M. Jackson, 175 Texas Ave., Slaton, Texas; Editor, A. M. Jackson, 175 Texas Ave., Slaton, Texas; Managing Editor, A. M. Jackson, 175 Texas Ave., Slaton, Texas; Business Manager, A. M. Jackson, 175 Texas Ave., Slaton, Texas.

2. The owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as those of each individual member, must be given.) A. M. Jackson, 735 West Lubbock St., Slaton, Texas. None.

3. The known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are: None.

4. The two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stock-

holders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. The average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the 12 months preceding the date shown above was: (This information is required from daily, weekly, semiweekly, and triweekly newspapers only.) 1235.

A. M. JACKSON
Sworn to and subscribed before me this 4 day of October, 1949.

SLATON SUPERMARKET

Handle Hogs Gently
The careless handler of hogs hurts all hogs. He reduces the total amount of money that will be paid for hogs. He forces some cuts to be sold at a trimmings price, well below the price of the cut on the open market. Care and kindness pay off. Help the trucker load carefully. See that his truck is equipped to take good care of your hogs.

Large and regular size wire baskets at the Slatonite.
Scratch pads at the Slatonite.

Troop Two Girl Scouts Meet
Slaton members of the Girl Scouts Troop No. 2 met Monday, October 3 at the Youth Center. Troop Two was divided into the following patrols: Eagle Patrol with Donna Pearson as leader; Sweetgum Patrol with Peggy Merrill as leader; and the Snails with Jeanette Burrell as leader. Judy Thomas was elected reporter.

Typewriter and adding machine ribbons of all kinds at the Slatonite.

Boulter Out For State Board Of Education

E. H. BOULTER

P. L. Vardy, Supt. of Slaton Schools reports that on July 5th, 1949 Mr. E. H. Boulter, district representative of the National Educators Life Insurance Co., was selected by a committee of teachers to be a candidate from the 19th Congressional District for the State Board of Education. The committee was appointed by the president of the West Texas State Teachers Association last winter. After meeting several times and considering a large number of people, Mr. Boulter was selected. Mr. Boulter has been a teacher in the public schools of Texas. He has served as deputy state superintendent. The committee felt that Mr. Boulter knew the problems of the schools and would be the best man available for the position. He has always been for good schools and has been a friend to education for many years. Mr. Boulter has been endorsed by all teacher groups in the 19th Congressional District. He is a veteran of World War I and a member of the American Legion. He is chairman of the legislative committee of the 14th district of Texas Congress of Parents and Teachers. He has a Masters of Art degree and a broad experience in affairs pertaining to public education.

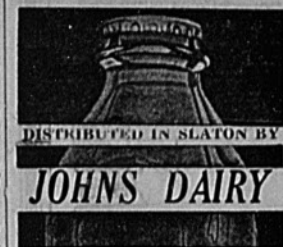

Mr. Boulter made the following statement on his acceptance to run for the office of member of the State Board of Education. I will support the foundation school program as set out in the Gilmer-Alken School Bills and do my best to make it function as well as is possible can be made to do so. I believe that it is one of the best forward movements that public education has made in Texas.

I am not agreeing to run for this office to support any certain person for Commissioner of Education. I want the best man available to be the first Commissioner of Education in Texas.

Rhodium Finishing
Rare and costly rhodium is considered the ideal metal for surface finishing as it does not discolor and resists wear. Inexpensive costume jewelry utilizes rhodium finish, while its precious sisters, palladium and platinum, are selected for fine jewelry.

NEW TELEPHONE DIRECTORY CONTAINS YELLOW PAGES!

Yellow Pages—a helpful, new, where-to-buy-it guide in the back of the book—list articles and services by line of business, together with the names, addresses, and telephone numbers of the firms that will furnish them.

You'll find Yellow Pages easy to use. To find the article or service you want, just look under the line of business that describes it. Under "Tires", for example, you'll find a list of dealers from which to choose. Use the Yellow Pages—you'll find, like thousands of people in other cities, that Yellow Pages save you time and effort. Southwestern Bell Telephone Company.

THE YELLOW PAGES TELL WHO BUYS...SELLS...RENTS...REPAIRS

Going to get your \$2,064 bait back?

Your shiny new automobile—with prices averaging about \$2,064—has to get you a whale of a lot of use to justify its cost.

Winter wear is the worst bait-snatcher. It can strip your car of plenty of service . . .

Unless you OIL-PLATE it!

1. Oil-Plating—a feature of patented Conoco Nth Motor Oil—performs a wear-preventing miracle by fastening a shield of special lubricant to working parts. OIL-PLATING can't all drain down—even overnight!

2. Always on Guard! Even when the fine lubricating oil itself isn't covering a part, OIL-PLATING is! It protects your engine against grinding "dry-friction" starts . . . from corrosive combustion acids . . . from sludge and carbon caused by wear.

3. Watch Out for Winter! The frigid months are the most dangerous months for these car-killers. New and older cars both urgently need Conoco Nth. Don't wait . . . drive yours in today and armor it against winter with Conoco Nth.

The SPORTLIGHT

by Clarence

The Tigers have finally come out of a three game losing slump, winning their first game, and an important 4-A Conference South half game at that, from three-time loser Tahoka. This win now places Slaton in a first place tie with Post, with O'Donnell, Tahoka, and Seagraves following in that order.

Only one 4-A Conference game is slated for this week end. Post will play hosts to a rested Post Antelope team, a game that will determine if Post will pull out of the first place tie. The other four teams play non-conference games tonight.

Tillery's and Barnett's boys really looked fine last Friday. Local fans who attended the game saw the Tigers up the score to 20 points within the first five or six minutes of the first period. Three times on the very first play from scrimmage the back field got off touchdown sprints of 42, 37, and 30 yards before the host team could find its defense. Then the scoring spree ended, and from there on out it was a pretty even ball game.

The Tigers ran over another score late in the second period, and then settled down to hold off a determined Bulldog squad. Tahoka opened up with an aerial barrage that worked most of the time, and the visitors couldn't do anything about it. Running plays didn't work too well until the last quarter, but then it was too late. The Bulldogs acquired most of their yardage through the air to give them a good average.

All the Tiger squad displayed a great deal of improvement over their showings in previous games. Tahoka is not and was not as large a team as the locals have faced so far this season, however. There was more polished ball handling in the back field than we have been privileged to see this year, and good ball control kept them from losing at a serious moment when a fumble or any other error might prove costly.

The statistics (unofficial) of the game vary in most cases, with the totals being in favor of Slaton at times and in favor of Tahoka at other times. As for first downs, Slaton could only muster five. Tahoka gained 11, and more than half of these were through the air. In the passing department the Tigers tossed the ball eight times, completing only one for 21 yards. The Bulldogs heaved a total of 22, completing 10 for a total of 116 yards. Two were intercepted

by the Tigers. Slaton fumbled less than they ever have before. They fumbled three times and lost the ball on two accounts. Tahoka fumbled five times and lost the ball three times. As for penalties, Slaton received five for 35, while Tahoka was penalized only three times for a total of 15 yards.

Few injuries plague the Tiger roster this week after the Friday night game. No line men were seriously injured. "Curly" Lewis got a not-too-serious head scratch that put him out of the game for about half of the final period. He should be able to see plenty of action by tonight.

Coaches Tillery and Barnett informed us this week that they have lost Bill Butler from their first squad. Bill is only a freshman and was showing a lot of promise at a half back position. In the first regular football that he has ever played he managed to get off some good long runs that's brought many a Slaton fan to his feet. But Bill will be back next season for sure. Early this summer he was injured in harvest work, and on advice of the doctor he is remaining out of practice for the remainder of the year. He will remain with the squad, however, as manager.

And while we're on the subject of coaches, Tillery and Barnett are well pleased with the interest shown in the Tiger football team. They appreciate all the large crowds who have followed the team at home and on the road, and they especially appreciate the large group of fans who attended the Tahoka game.

The Tigers journey to Sundown tonight for their fifth game of the season, and they hope to make it two victories in a row. So let's all go to Sundown and boost our club.

Future Tiger stars are now getting football training with the Junior football team. It is composed of 6th, 7th, and 8th graders, who will be playing squads of the same level from schools that the Tigers have played and will play. The "B" team went over to Cooper last Thursday evening and lost 26-0 to a pretty rough team from that part of the country. Coach Tillery has a tentative schedule for games of the Junior team, but as yet a full schedule is not complete. A final list of games to be played will be given in the Slatonite as soon as possible.

JUST TALK

by
A.M.J.

Ray Hickman, Mrs. R. C. Ayers and a lot of other folks around here are going to have to find something to do with our extra time since the hay fever season is about over. It has proven a real help to me for several months as an excuse for not gathering peaches, mowing the grass, and wiping the dishes but such good excuses cannot last forever and we'll have to either go to work or develop migrain headaches or something like that.

Each summer when I drag out my previous years summer clothing I find a gold mine of wadded up handkerchiefs that are left over from the last hay fever afflictions and I have often wondered how much money I have spent on handkerchiefs since hay fever got its grips on me.

I am going to figure out someday how much I have spent in the past on dentist treatment, eye glasses and on lip stick, and when I do I'm going to be mighty hard to get along with, in fact I may do like the old boy who got sore at his wife. He said I am going home and if my wife doesn't have dinner ready I intend to raise old Billy and if she does have it ready I will not eat a bite.

An article in the last Mercury magazine says that a search of all history proves there has never been a real woman genius and that men have a monopoly on this qualification even if most of the wealth in the world is fast getting into the hands of the weaker minded sex.

To console the women the author says that many scientists believe that genius and insanity are closely related and that in many cases a genius is also insane.

Personally I am very fond of the women and have spent considerable time trying to figure out how their minds work, such as why they will walk five miles to save three cents on a can of shortening and refuse to buy a coat, dress or hat because it is priced below what they felt that they can afford to pay.

Why will women feel so insulted when a man does not open a car door and boost her in, as if she were a child and unable to open a door or step up into a car, when she will pull furniture all over a room or stew away on a bushel or two of peaches all day long on a hot summer day. In my younger days I tried to live up to some of their expectations, but I soon gave up and have been drawing some pretty mean looks ever since.

When I first came to Slaton I did my weak best to give the folks the reports on athletic events on baseball and football games, but to tell the truth I have not kept up very well on the vocabulary of the sports reporters and I feel sure that my attempts in the past have been rather poor stuff. In fact I have very seldom been able to read a sports story and get much of an idea as to what happened except that one team won and one lost with an occasional tie. This discrepancy has been corrected as we now have a young College graduate, Clarence Gohl, who is giving blow by blow descriptions, and who knows all the correct sports terms. He gets as excited about a football game as a sweet girl graduate does about finding a husband and I'm going to endeavor to find out how sport stories are written and what some of the terms mean.

My predicament is not as bad as that of an Englishman when he attended his first baseball game. He watched the score board with its long list of zeros and runs, but did not understand their meaning. As he was leaving the ball ground a young boy asked him what the score was. "The Lord only knows," said the Britisher, "but it is way up in the millions."

Women may have their troubles such as having their hair frizzed every two weeks, carrying around

a small suit case filled with little stamp size hankies, lip stick, nail files, cleansing tissues, fountain pens and a spare pistol but men have their troubles too.

One of my greatest problems is trying to find a barber who will not cut my hair down to the bone. It takes me at least three weeks to recover from a hair cut and get my side hair on equal terms with the thin layer I have on the top. Half of the time the hair around my ears is so long that it interferes with my hearing and the other half my head looks as if it were the roof of a barn with the eaves of hair sticking out where the barber left it because he was working on a head that is shaped like a plowed field.

Between having to eat when I'm not particularly hungry, working when I'm not in the mood and having to find one thing to do when I have too much time on my hands. I find that I'm getting to be a nervous wreck, and I'd like to know how other men can go around smiling when the world is going to pot.

Slaton has improved a lot in the past four or five years and I'd like to compliment the City Commissioners on the water situation, the many miles of paving that have been constructed and on the improved sanitary condition of the town. Evidently, from reports, a traffic code is going to be worked out soon. Here is where the commissioners are really going to hit a snag and I want to start a fund to buy the boys a ton of aspirin, they'll need it.

It is said that a professional leaves its mark on most every one

and Preacher Herring took advantage of this superstition last week at the Rotary Club to tell a story about a preacher who accidentally wandered into a Press convention one day.

One of the delegates walked up to him and said, "Are you a newspaper man?"

"No," said the preacher, "I've just been sick a long time."

My wife is all excited again. A couple of weeks ago J. W. Scott brought us an ostrich egg that he said his hen had been the mother of and an onion big enough to bring tears to a school Superintendent's eyes and I took them home. The Mrs. covered the neighborhood and made a few of the women bug their eyes out considerable and now she has to go over the entire territory again with a sweet potato that Tom Turner brought me last week. In fact Mrs. L. A. Harrell borrowed the potato to put on a table at a party along with some apples, grapes and other stuff. The potato looks more like a pumpkin and if it holds out I am going to get my wife to cook it and I'll eat all I can and then call the doctor. If you hear of Mr. and Mrs. Turner having a sinking spell you can feel sure that they have been eating too many sweet potatoes.

Bill Barnett, assistant coach of the Tigers, is exceedingly big chested this week, he has been passing out cigars and thinks he is the best man in West Texas. He acts like his wife deserves no credit at all.

Slaton Women Give Their Favorite Tested Recipes

A favorite "delicacy" with almost everyone from the age of one year to ages ranging from 101 and over—is cookies. Mrs. Bruce Pember has given us a cookie recipe which is assured to be pleasing to even the most discriminating "taster."

A recipe for sugar cookies, the ingredients call for:
5 eggs,
2 cups of melted butter,
4 teaspoons of cream of tartar,
4 teaspoons of soda,
1 teaspoon vanilla.

Beat egg yolks and add sugar and melted butter. Beat egg whites and add cream of tartar, soda, and vanilla. Mix thoroughly all the above ingredients and sift in enough flour to form a soft dough. Roll out dough and cut cookies in size desired. Sprinkle cookies with sugar just before cooking.

Set oven at 350 degrees and bake until cookies turn a light brown.

Mrs. Pember says the result is a very delicious and very crisp cookie. The recipe makes enough cookies, she says, to fill three medium sized cookie jars; so half the recipe should make enough for several people. However, Mrs. Pember says the recipe is such a favorite with her children she always makes the full amount.

Since the recipe used in this column is one of her grandmother's, Mrs. Pember feels sure that it will not be found in the ordinary cook book. "It is different from the usual sugar cookie," she explained, "and I think that everyone who tries it will like it too."

Pretty boxed stationery personalized or plain at the Slatonite.

Our National Forests

The 152 national forests, located in 36 states, Alaska, and Puerto Rico, contain 180 million acres—more than an acre apiece for every man, woman, and child in the United States. Major resources of these forests are timber, forage, wildlife, recreation, and water.

Sell Conservation Districts

By July 1, 1948, there were 2,033 soil conservation districts in the 48 states, Hawaii, Puerto Rico, and the Virgin Islands. These comprised 1,114,003,200 acres and included about three-fourths of all the farms and two-thirds of the farmland in the country.

"Why can't I go out tonight? This was always the MAID'S night out!"

West Texas Roundup

A cotton guessing contest sponsored by the Morton Tribune has promoted quite a bit of interest in Cochran County with guesses ranging from 30,000 bales overall production to 60,000 bales. — The Morton Tribune.

Abernathy now has a Mexican barber shop and a Mexican cafe. The cafe opened last week in the Powell-Johnson building on the highway in North Abernathy.

Known as the Spanish Village Cafe, it is operated by Selestino Gonzales, who came here from Austin. He was employed for 12 years by the El Charro Cafes in that city. He plans to maintain the cafe here as a permanent business.

Felipe Ponciano came here from Lubbock and opened the barber shop in C. F. Buske's building. Assisting Felipe in the shop is another barber, Gregorio Rodriguez, who came here from San Antonio. — Abernathy Weekly Review.

More grain sorghums per acre than ever produced over Cochran County is about ready to be harvested.

Granaries are costly to build but loan support price on grain sorghums will just about take care of the cost of a new storage place on the farm this year, 1949. That is where combined grain sorghums are stored on the farms. — The Morton Tribune.

Officials at the court house, who have been swamped with work for several months, were busier than ever now because of the recent spurt in oil leasing.

It is estimated that most of the acreage in the county is now leased or in the process of being leased. At any rate, it looks that way to the court house officials who are recording the transactions. — The Post Dispatch.

Ed Roach and Little Dick Gregory, members of the Permian Artificial Breeding Association, were in Lubbock Friday for the purpose of contracting with the bus station services which will be used in local breeding program. With in two weeks, the program will be in actual operation. This will mean untold value to Mitchell County farmers and all. — Colorado Record.

Garza County, as usual came in for its share of the prize money at the 32nd Annual Panhandle-South Plains Fair which attracted a paid attendance of 4,371 spectators when it opened last week for a week's stand.

Although the Garza County agricultural exhibit did not place as high as usual, it was listed among the cash prize winners. — Post Dispatch.

Plans are being made to observe "Oil Progress" week from October 16 to 22 in Levelland and Hockley County along with the nation-wide program.

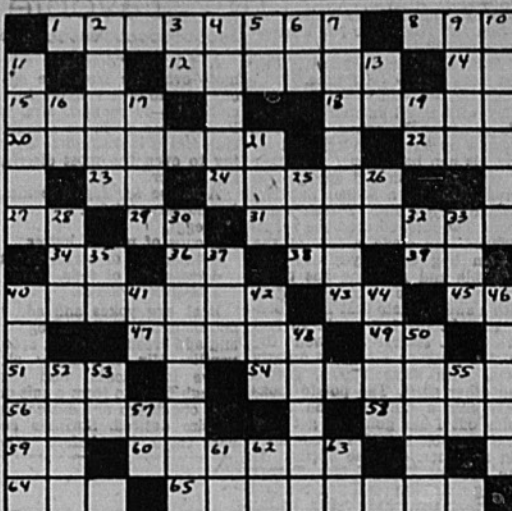

Already local oil people and merchants are making arrangements to present programs at schools, service club meetings, conduct tours of production, and carry on an educational program through advertising in newspapers as well as on the radio. — Hockley County Herald.

Battle plans for securing the Canadian River Bridge on Highway 51 which were drawn up at the executive committee meeting of the Highway Association in Levelland are beginning to bear fruit, according to Chamber of Commerce Manager Pete Cowart and Chamber of Commerce director Guy Lawrence who returned from Austin Wednesday when they attended a State Highway Commission hearing along with representatives from Dalhart, Castro, and Lamb counties. — The Hereford Brand.

FRIENDS, THIS IS SECRET AGENT X9, ASKING YOU TO PUT MORE OPPORTUNITY IN YOUR FUTURE — AND UNCLE SAM'S — BY BUYING SERIES "E" BONDS WHERE YOU WORK! LATCH ON TO AT LEAST ONE EACH MONTH!

FLOOR SANDING and FINISHING O. D. MORRIS

355 So. 8th. Phone 709-J

Aristocrat of Dogs
Some breeders say the name bloodhound came from the term "blooded," or aristocratic. Others report that it grew out of the old training method of teaching the animal to follow the trail of a wounded deer; then that of a man with deer's blood smeared on his shoes, and finally the "dry foot" of man himself.

Green Wood
Green wood—that is, wood which has not been cut and seasoned long enough to dry out properly—is poor in heat value because of the moisture it contains. From 25 to more than 50 per cent of the weight of green wood is water, depending on the variety. The heat required to drive off the water is lost as far as warming the room is concerned.

Green Light Means Danger...

That Slaton has had few serious accidents is I believe because most drivers do not depend upon light signals, stop signs and other mechanical devices. Having very few of these we depend upon ourselves, and if most drivers here are like I am, I try to read the expression on an opposing drivers face and if he looks as if he intends to come on through I give him the right of way whether the rules say he is entitled to it or not. That this theory is at least partly correct is substantiated by a writer for Colliers. Here is what he says:

"She had the green light. Confidently she drove her black sedan out onto the main highway to cross. It never occurred to her to look to the left, the most likely point of danger. On the main highway a speeding driver saw the red light and jammed on his brakes, too late. The woman was killed instantly. He died that night."

"Witnesses blamed the man alone. In reality the woman was equally to blame. She had placed too much trust in a green light. That fault is one of the largest contributors to our motor-casualty lists. A green light means not safety but: 'Beware of death!'"

"Wilmington, Del., made a study that embraced 15 years, 1606 intersections, and revealed that the danger ratio at light-controlled crossings, in terms of deaths, was 8.65 times higher than at unmarked and unguarded crossings in that city. A similar study made as a check in Philadelphia found the death ratio at light-controlled crossings slightly higher than Wilmington's."

"We must change our thinking on traffic controls," says E. F. Koester, Wilmington's chief engineer. "Controls don't end danger. They proclaim it." The feeling of safety, now induced by lights and other controls that are actually warnings, is our greatest traffic hazard. Mothers think their children will be safe if they are taught to "wait for the green light." The teaching is good only in part. Its emphasis is wrong, creating a false sense of security that makes the child, and later the adult, the easy victim of the first driver who didn't see the red light until too late."

Are You An "Engine Chaser?"...

Slaton has a 15 per cent fire rating record with the State Fire Board. Twenty five per cent is the best that can be had, so it is evident that Slaton is far above the average for a town this size.

That our town is safer than the average is fine, but our loss records are being endangered by "fire hounds" who rush to the scenes of fires when they do break out and often get there before the fire fighting equipment does. This could easily keep the fire department from extinguishing a fire when it first starts, says Fire Chief Wilson, and he thinks something should be done about it by the people themselves before stringent laws are passed.

The desire to attend fires is strong with many people, and no one blames them. But it is just as easy to see a fire at a safe distance as it is where most drivers endeavor to put their cars. To interfere with the fire department is against the law. It could easily result in the loss of someone's life and has often been the cause of complete losses of property that could have been saved if the fire fighters could have operated freely.

This is the time of the year when fires are more frequent, and a closer watch should be kept on gas connections, the use of rubber hose for gas connection extensions and on lighting stoves, etc.

Let's help the fire department to keep down the fire insurance costs, the loss of property and the cost of operating the department. Do not beat the fire fighting equipment to the fire, drive to the side of the street when you hear a fire signal and stop. It might be your home burning, and the fireman can fight the fire a lot easier than you can.

Help For People In Distress...

Have you ever tried to get help for some one in need in Slaton? It is not a pleasant task. In fact it is almost impossible to do so from any organized agency.

The Red Cross does not have a volunteer inspecting agent in Slaton who can give much time to this work and even if there were an inspection agent here, it would take so long to get help that any one in a critical condition would either be past help or would have received it from some other source.

The money that was secured for emergencies by the Slaton welfare league has been exhausted and if one is to get aid from the City-County Welfare organization it seems that they must go to Lubbock and pass examination by some one there and then come back to Slaton and get the o. k. of the City Commission. For anyone who is ill this is probably impossible.

So far the writer knows these are the only means of help that is even supposed to be available.

With the Christmas season coming and cold weather on our heels there are most likely some people who will suffer severely this year, particularly some children who will not receive attention of any kind on the one outstanding Christmas holiday of the year.

This brings to mind that some group of individuals or some organization that has little to do outside of meet, could undertake the welfare of unfortunate individuals and take over the task of securing gifts for children at Christmas time. It would not require any great amount of money but would necessitate the securing of discarded or broken toys for remodelling and repairing and the securing of provisions and medical help.

There are some people and probably some organizations who could undertake this without being burdened. It is a worthwhile endeavor and something which would bring pleasure to folks who have the interest of their fellow man at heart.

Keep Slaton In "One" Piece...

Halloween is yet a month off, but now is the time to begin thinking about what could be done to avoid a large amount of the destruction that comes to the town on that night. Most of

such destruction comes from youngsters, not because they are malicious or have wicked intentions, but because Halloween is their night and they will generally do most anything to keep it from becoming dull or boring. Until they are finally stopped, it seems great sport to shoot out street lights or break windows. Usually the very ones who were indulging in such practices will tell you that they hadn't meant to do anything wrong, but that they were just trying to have a little fun.

To have fun doesn't mean that persons must be injured or property damaged. Now that Slaton has the youth center, there is no reason why the biggest Halloween the town has ever seen shouldn't be held right there. Halloween parties can be a lot of fun, and this way they could all have their fun together.

And since it is a time primarily for them, the younger set should decide just what kind of a party they would like to have. They might like to start festivities with a big parade through town with everyone dressed in his favorite regalia. Contests might be held to determine the best disguise or most original costume, and prizes could be awarded the winners. Games could be played and food could be consumed. Pretty soon everyone would be so tired they wouldn't be able to think of any trouble to get into.

Again, most school age children will not indulge in such unprofitable pastime if they have thought beforehand what it will really mean. Usually if they have someone with whom they can intelligently discuss such things without having dictatorial rules laid down, they will realize that destroying property does no one any good... themselves included.

Halloween would be a good chance to try out the youth center. This would be a golden opportunity to let these young people prove just how much good could come from a youth center. It won't be long until the city's youth is revolving around the center which will be the middle of all their activities... if it is given a good chance to function freely.

Saffron

Saffron was grown extensively by ancient Greeks and Romans. Early cultivation spread from Persia to China to Asia Minor and finally to Europe. Dye derived from saffron. Produces yellow color.

Safflower is a plant first cultivated in Spain, Egypt and the Levant, originating in southern Asia. Dye is taken from forest heads growing at end of plant's numerous branches. Produces basic yellow color and shades of rose, scarlet, purple and violet.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

Size of Molecules
One way of determining the size of molecules is to find the least volume into which a known number of them can be squeezed. Another is by noting the average distance one travels before it hits another. The various methods agree very accurately.

Fight Grasshoppers
Airplanes by the dozen and a sizable helicopter fleet now work Argentina's army for poisoning annual grasshopper swarms. The pampas in particular, and Latin-American farmlands in general suffer with greater regularity than United States areas.

Farm Records
Keeping up-to-date farm records is only a means to an end. It isn't the end itself. Farm accounts are guides to use in farm planning and management. Records of production, sales, expenses and investments can help one do a better job of farming.

FIRE PREVENTION WEEK

OCTOBER 9TH TO OCTOBER 15TH

George Brassell, above, left, presents Elbert Wilson with a certificate naming him as top citizen of 1949.

AND WE OF SLATON SALUTE THE VOLUNTEER

FIRE DEPARTMENT

AND TOP CITIZEN OF 1949 AND SLATON FIRE CHIEF

ELBERT WILSON

The Volunteer Fire Department of the City of Slaton has established an excellent record for itself during the past few years under the capable direction of Fire Chief Elbert Wilson. The key insurance rate of the city, based on water storage and fire fighting equipment, is now thirty-six cents on the dollar, and that rate is considered as more than good for a town the size of Slaton, according to information received from the Fire Commissioner in Austin.

Fire Chief Elbert Wilson has been head of the department for the past 15 years. Besides being fire chief, he is very active in work at the First Methodist Church, Red Cross work, and activities of the Lions Club. Recently, he was awarded a Chamber of Commerce certificate naming him as top citizen of Slaton for the second quarter of 1949. Southwestern Public Service Company awarded him a pin last week for 27 years of service without an accident.

Let's All Show Our Appreciation By Preventing Fires This Week And Every Week Of The Year.

Home Town BUILDER!

Ever since January 1, 1947 when the Slaton population was increased by four, (members of the Tomlinson family) Bland Tomlinson has been the owner-operator of the Home Furniture Company here. And since that time he has increased the stock of furniture about 700 per cent, and has made his floor covering department into one of the leading in West Texas. Bland also gives you trained installation of rugs. Stinson Behlen, a Home Furniture employee, is the only factory trained mechanic you'll find in town making installation of rugs and linoleums.

Whatever it may be that you want in the line of household merchandise, you can find it at the Home Furniture. They feature such well-known lines of furniture as International and Dulaney living room suits, Mathes and Bassett bedroom suite, Layne cedar chests, nationally famous brands of ranges and refrigerators, Virtue chrome dinette sets, Sampson tables, RCA radios, and linoleums in four brands, Armstrong, Gold Seal, Pabco, and Sloane. These are just a

few of the Home Furniture leading items; they have many, many more.

If you have used furniture that you want to get rid of, see Bland Tomlinson. He prefers to take it on a trade-in, but he will buy it out right if he can use what you have.

If your worry is payments on expensive furniture, don't give it another thought. Asked what terms people could buy on in his store, Bland laughed and said, "My customers almost make their own terms. They can pay by the week or by the month on terms that fit their pay checks."

Employees besides Bland at the Home Furniture Store are Stinson Behlen who takes care of floor coverings and James Brake who is a delivery and general employee. Mrs. Tomlinson also works part time.

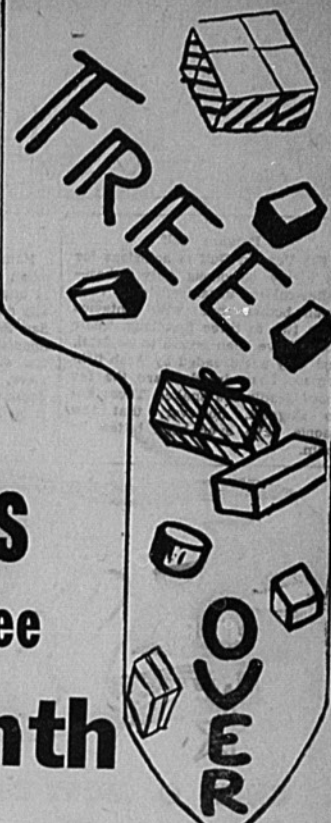

Bland was born and reared in Post, but he, his wife, and two children moved to Slaton directly from the west coast, King City, Calif., to be exact, where they had lived for 4 years. The Tomlinsons now live at 900 So. 10th.

Persian Gulf

The Persian Gulf is notorious for its highly poisonous jelly fishes—coffee-colored organisms with very small bodies but with tentacles from two to three feet long. Their stings have been known to be fatal, and they are dreaded by Arab fishermen. Less dreaded are the far more deadly sea snakes. These are so sluggish, however, that few people have ever been bitten by them.

Rio de Janeiro

Named for a river that does not exist, the city of Rio de Janeiro is often called, simply, Rio; virtually never called by its full name—Sao Sebastiao do Rio de Janeiro. Spanish discoverers in 1502 mistook the wide bay for the mouth of a river, which they called River of January because they came upon it on January 1.

WANT ADS GET RESULTS

Tigers Take Win Over Tahoka Team For First Victory

Slaton's Tigers exploded for three quick touchdowns in the first quarter, added a fourth in the second, and then held off a rejuvenated Tahoka Bulldog team for the remainder of the game to come out on top 26 to 12 in a first 4-A South Half conference game for both teams played last Friday night at Tahoka high school stadium.

Tiger offensive plays caught the Tahoka team flat-footed in the opening minutes of the first quarter, and it was not until late in the second period that the Bulldogs could set up a defensive pattern that could stop the Slaton power. Three quick touchdowns in the initial period afforded some 1,500 fans plenty of thrills for a short while.

Tahoka took the opening kickoff, and in three plays racked up a first down. Three running plays failed, and on fourth down a bad pass from Bulldog Center Wayne Tekell to Back Tom Chandler got away and was ruled dead on the Tahoka 42-yard line. On the first play from scrimmage, Halfback Carl Lewis scampered through his own right guard and to pay dirt. Placekicker Bobby Taylor's extra point try was good.

Following the second kickoff, Eugene German, Tiger guard, intercepted a Bulldog pass on the Tahoka 37. Again, on the first play from scrimmage, Back Bob Lambert went all the way for the second touchdown. Taylor's point after was good. Slaton recovered a fumble on the Tahoka 30-yard line after the third kickoff, and on a first running play, Back Ed Willis skirted right end and went untouched to the double stripes. Taylor's attempted conversion was no good.

Early in the second quarter, Lewis took a handoff from Quarterback Cecil Bybee on the Tiger 40, broke into the clear on the Tahoka 40, and galloped the remaining yards just barely in front of a host of Bulldog players. An offside penalty nullified the run, however. On the next play, Willis took the ball on his own 35, circled left end, and ran to the Tahoka 10 before he was brought down. The Tigers lost yardage back to the 30, and the ball finally went over on downs. Slaton recovered a fumble on the Bulldog 24. Lewis carried to the ten, and on second down Lambert got his second tally of the night by dashing through

POSEY ITEMS

R. L. BOYD

Reverend D. A. Ross, Methodist preacher from Lubbock was present Sunday morning and evening. Sunday morning communion services were held. Reverend Lewis of Lubbock will be present next Sunday.

Mr. and Mrs. S. E. Melton of Lubbock visited friends here Sunday afternoon.

Mr. and Mrs. Bud Johnson have returned to Posey to live.

Mrs. Wesley Gentry is the new teacher for the juniors.

Mr. and Mrs. Jim Sain were visiting Mrs. Sain's parents at Pleasant Valley Sunday.

Willie J. Shafer has returned from South Texas where he went to bring back laborers.

Calvin Willis had his brother of Slaton as his visitor Sunday.

Four bales of cotton had been ginned through Saturday, the first being brought in by a tenant on the Walters farm.

Several farmers have been preparing houses for cotton pullers. Most of the work has been making concrete flooring.

Mrs. Ida Blackburn and children have moved to Amarillo.

Mr. and Mrs. Terrell were Sunday church visitors.

I. J. Kempf was visiting his farm near Smyer Sunday.

Right guard, Taylor missed the extra kick.

Late in the second period Tahoka took the ball on its own 10-yard stripe and in three long passes by Chandler and Quarterback Lynn Halamecek moved to the Slaton 39 just as the first half ended. Score at half time was 26-0.

The Bulldogs came back stronger in the second half. Late in the third period, long passes and running plays by Halamecek and Chandler moved the ball to the Slaton four-yard line. On third down, Chandler ran around right end for the first score of the game for the Tahoka team. Reserve Back Clark Farr's try for extra point was no good.

A pass from Chandler to Farr from the Slaton ten made the second score. Farr's attempt to run the ball over for extra point failed.

Slaton never threatened seriously in the second half. The team could never break up the aerial attack of the Bulldogs, all of which proved costly as far as the scoring was concerned. The entire line of the Tiger team played excellent ball, however. Not much yardage was gained through the forward wall, and the players continually opened up large holes for the back field to scoot through.

Contractors' Notice Of Texas Highway Construction

Sealed proposals for constructing 12.292 miles of Gr., Dr. Strs., Flex. Base & Double Asph. Surf. Treat. from US 82, 1 miles E. of Idalou to End of Pavement north of Slaton on Highway No. FM 400, covered by S 306 (3), in Lubbock County, will be received at the Highway Department, Austin, until 9:00 A. M., October 19, 1949, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is

subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with provisions of said House Bills, the State Highway Commission has ascertained the wage rates prevailing in the locality in which this work is to be done. The Contractor shall pay not less than the prevailing wage rates shown in the proposal for Group 3 for each craft or type of "Laborer," "Workman," or "Mechanic" employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications avail-

able at the office of F. C. Stanley, Resident Engineer, Lubbock, Texas, and Texas Highway Department, Austin. Usual rights reserved. 10-14-c

Peruvian Price Budge

American tourists returning from vacations in Peru come home with their baggage bulging with presents, Peruvian International Airways reports. Reasons: Peruvian silver, textiles and pottery purchasable at a third of what they would cost here, plus a new duty-free exemption of \$400 for U. S. citizens.
